Academic Catalog Archive

2024-2025

This document provides an archival record of the academic programs offered during the 2024-2025 academic year. It is a printable option of the online catalog for accreditation organizations, agencies and university offices for data collection, evaluation purposes and referencing. The information and links presented in this archive may no longer be accurate. For current catalog information, refer to the online version of the academic catalog.

Corrections or additions to the Academic Catalog Archive 2024-2025 program information and major maps, as of July 2024, may be provided in a future addendum. For inquiries or questions, please contact academic.catalog@asu.edu.

About this Document

To navigate this version of the Academic Catalog 2024-2025, refer to the table of contents and the bookmarks provided. The table of contents provides a hyperlinked listing of resources in the order in which they appear in this document. Keyword searches may be employed as an additional means of locating resources within this document.

This document contains program descriptions and requirements for graduate degrees and certificates, undergraduate degrees, minors and undergraduate certificates. Major maps, included for undergraduate degrees, outline each degree's requirements and a recommended sequence of courses. Transfer pathways are no longer included as they are created on demand for each specific student through MyPath2ASU®.

Our approach: ASU mission and goals

ASU charter

ASU is a comprehensive public research university, measured not by whom it excludes, but by whom it includes and how they succeed; advancing research and discovery of public value; and assuming fundamental responsibility for the economic, social, cultural and overall health of the communities it serves.

ASU Charter video [1] on Youtube

Mission and goals

Demonstrate leadership in enabling academic excellence and accessibility at scale

Maintain the fundamental principle of accessibility to all students qualified to study at a research university.

Maintain university accessibility to match Arizona's socioeconomic diversity, with undifferentiated outcomes for success.

Ensure that more than 90 percent of students continue studies beyond their first year.

Enhance university graduation rate to greater than 85 percent and more than 40,000 graduates.

Continuously enhance quality while maintaining affordability.

Overcome geographic and financial barriers to education by enrolling 150,000 degree-seeking students.

Continuously increase measured student development and learning outcomes.

Engage learners of all socioeconomic, geographic and demographic backgrounds.

Establish national standing in academic quality and impact of colleges and schools in every field

Advance and maintain national standing in academic quality for each college and school.

Attain national standing in the learning and post-graduation outcomes for students in all colleges and schools.

Become the leading university academically (faculty, discovery, research, creativity) in at least one department or school within each college and school.

Expand ASU's role as the leading global center for interdisciplinary research, discovery and development by 2029

Launch the prototype medical center for the planet.

Become the leading American center for discovery and scholarship in the integrated social sciences, and comprehensive arts and sciences.

Enhance research competitiveness to more than \$1 billion in annual research expenditures.

Drive regional economic competitiveness through research, discovery and socioeconomically integrated programs.

Serve as a leading American center for innovation, entrepreneurship and sustainability.

Create the leading American center for education and learning technology.

Enhance our local impact and social embeddedness

Leverage ASU as a public enterprise to strengthen Arizona's interactive network of teaching, learning and discovery resources.

Co-develop solutions to the critical social, technical, cultural and environmental issues facing 21st-century Arizona, ensuring sustainability and resilience.

Meet the needs of 21st-century Universal Learners through personalized learning pathways that promote adaptability to emergent social and technological changes.

Design and launch ASU Health as a comprehensive cluster of teaching, learning and discovery health systems for the enhancement of social-scale health outcomes

Design and launch the Health Observatory at ASU.

Design and launch the School of Medicine and Advanced Medical Engineering.

Design and launch a school to advance the future of public health technology.

Triple current nursing production and increase our nursing research ten-fold.

A New American University

Arizona State University exemplifies a new prototype for the American public research university.

More than a decade ago, ASU set forth a new and ambitious trajectory to become a comprehensive knowledge enterprise dedicated to the simultaneous pursuit of excellence, broad access to quality education, and meaningful societal impact. From that point forward, and founded on a vision for a new "gold standard", all of its energy, creativity and manpower have been brought to bear on the design of a uniquely adaptive and transdisciplinary university committed to producing master learners.

Learn more [2]

Nine design aspirations

Nine design aspirations guide the ongoing evolution of ASU as a New American University. These institutional objectives are integrated in innovative ways throughout the university to achieve excellence, access and impact.

Leverage our place

ASU embraces its culture, socioeconomic and physical setting.

Transform society

ASU catalyzes social change by being connected to social needs.

Value entrepreneurship

ASU uses its knowledge and encourages innovation.

Conduct use-inspired research

ASU research has purpose and impact.

Enable student success

ASU is committed to the success of each unique student.

Fuse intellectual disciplines

ASU creates knowledge by transcending academic disciplines.

Be socially embedded

ASU connects with communities through mutually beneficial partnerships.

Engage globally

ASU engages with people and issues locally, nationally and internationally.

Practice principled innovation

ASU places character and values at the center of decisions and actions.

American Indian initiatives

ASU commitment to American Indian tribes

Arizona State University is located in Indian Country; there are 22 tribal nations in Arizona. The Tempe campus sits on the ancestral homelands of those American Indian tribes that have inhabited this place for centuries, including the Akimel O'odham (Pima) and Pee Posh (Maricopa) peoples.

In keeping with the design aspirations of the New American University, ASU seeks to embrace our place, connect with tribal communities, and enable the success of each American Indian student. We reaffirm the university's commitment to these goals and acknowledge that everyone, the entire ASU community, is responsible for their achievement.

ASU continues to develop an impressive cohort of scholars engaged in American Indian cultural, social, educational, legal, and economic issues. We have built world-class programs in American Indian Studies, American Indian Legal

Studies, and Indigenous conceptions of justice. Our work, however, is not complete. We must further enhance our capacity to leverage place, transform society, conduct use-inspired research, enable student success, work across disciplines, integrate Indigenous knowledge and engage Indigenous issues globally. We are committed to providing access, retaining and graduating American Indian students in a climate that is welcoming and respectful of their languages and cultures. Foundational to these goals, we commit to creating an environment of success and possibility for American Indian students at ASU.

We are dedicated to supporting tribal nations in achieving futures of their own making. We will partner with tribal nations to: address the ravages of paternalism; improve educational achievement of American Indian children, youth, and adults; create innovative and appropriate use and development of natural resources; conceptualize and implement responses to physical and mental health challenges; and build and strengthen leadership capacities to address challenges for Native nations in the 21st Century and beyond. And we will enhance and foster an environment of success and unlimited possibilities for American Indians at ASU.

This work acknowledges our indisputable recognition of place and reinforces our mission as the New American University.

Michael M. Crow
President
Arizona State University
August 31, 2015

American Indian success and excellence

A commitment to the success of American Indian students and scholars
Pathways to connection, resources, and success

It's no accident that ASU is a national leader in service to Indigenous communities

Our service has been a university priority for decades, dating back to the establishment of the Center for Indian Education in 1959, one of the first tribal-specific education programs in the nation.

Jacob Moore: Serving ASU's Indigenous students and communities (ASU) [1] on Youtube.

As an institution that measures itself by whom we include and how they succeed, ASU is committed to the success of American Indian students and scholars. We recognize the importance of expanding our offerings to the benefit of every Sun Devil and find that this is dependent on how we enhance representation, growth, and connection among diverse cultures and identities.

Michael Crow
President

Nancy Gonzales
Executive Vice President and University Provost

Honoring ancestral homelands

Arizona State University is built upon the ancestral lands of Indigenous peoples, including the Akimel O'odham and Pee Posh.

Arizona is home to 22 federally recognized tribes and we honor their enduring connection to these lands, their perspectives, histories, and cultures.

ASU Indigenous Land Acknowledgement [2] on Youtube.

A holistic model for support and success

ASU designs its support for student success based on four major areas identified as critical to their journey in higher education.

Paying for college

It's no secret that college is a major investment. The good news is, students have access to many forms of financial aid to help pay for an investment that yields dividends. Learn about the various types of financial aid, how to get them and help in navigating the process.

Financial aid [3]

Embrace cultural connections

Having an environment that recognizes, respects and supports a student's identity is vital to their academic and personal well-being. ASU recognizes this and values the rich diversity of faculty, staff and students whose presence enriches the university community. Explore the spaces, programs, and student organizations honoring and embracing your heritage.

Campus connections [4]

Exploring a profession

Navigating your professional journey can be competitive and confusing, but exploring professional opportunities at the university or at an organization of a student's choosing can help prepare them before graduation. ASU has many opportunities to help you fulfill your aspirations.

Professional Opportunities [5]

Seeking academic support

Programming not only prepares a student for their college experience, but empowers them with the confidence to seek help in their educational journey through services like tutoring, study groups, and academic advising. Identify the resources that can help in overcoming academic obstacles.

Academic support [6]

A growing community

3,823

Total American Indian/Alaska Native student enrollment* for Fall 2023.

*reflects students who identify in multiple racial/ethnic categories.

874

American Indian/Alaska Native students* who received a degree in AY 2022-23

*reflects students who identify in multiple racial/ethnic categories

36%

American Indian/Alaska Native undergraduates* who are first generation** college students. Across ASU, 33% of all undergraduates are first generation students.

*reflects students who identify in multiple racial/ethnic categories

**first generation-percentage is based on FAFSA applicants only

Advancing American Indian success

Helping high school students prepare for college

INSPIRE is a no-cost, weeklong college readiness program for residential American Indian high school students, who develop academic and personal success behaviors through culturally relevant, project-based learning, and connecting with peers and mentors.

Learn more [7]

Cultivating a community of Indigenous leaders

Indigenous Leadership Academy is a signature program within the American Indian Policy Institute that works with emerging Indigenous leaders to expand their knowledge, skills, and networks to address issues faced by Indigenous municipalities, organizations and associations, unlike any program in the Nation.

Learn more [8]

Providing current ASU students with advising and support

American Indian Student Support Services provides services to all Indigenous students to ensure they will successfully progress toward educational excellence and graduate to become self-reliant individuals who effectively give back to their families and communities.

Learn more [9]

Keeping Native American Sun Devils connected

The ASU Native American Alumni chapter serves Native American Sun Devils throughout the nation. Serving as role models in their respective communities, our alumni actively engage in volunteering and opportunities to network and support one another.

ASU provides support through areas critical to a student's journey in higher education, among them include many ways to pay for college, find a community, connect with mentors, and sustain academic success.

Paying for college

It's no secret that college is a major investment. The good news is, students have access to many forms of financial aid to help pay for an investment that yields dividends. Learn about the various types of financial aid, how to get them and help in navigating the process.

Financial aid [2]

Embrace cultural connections

Having an environment that recognizes, respects and supports a student's identity is vital to their academic and personal well-being. ASU recognizes this and values the rich diversity of faculty, staff and students whose presence enriches the university community. Explore the spaces, programs, and student organizations honoring and embracing your heritage.

Campus connections [3]

Exploring a profession

Navigating your professional journey can be competitive and confusing, but exploring professional opportunities at the university or at an organization of a student's choosing can help prepare them before graduation. ASU has many opportunities to help you fulfill your aspirations.

Professional Opportunities [4]

Seeking academic support

Programming not only prepares a student for their college experience, but empowers them with the confidence to seek help in their educational journey through services like tutoring, study groups, and academic advising. Identify the resources that can help in overcoming academic obstacles.

Academic support [5]

Our growing community

12,271

Total Black or African American student enrollment* for Fall 2023.
*reflects students who identify in multiple racial/ethnic categories.

2,475

Black or African American students* who received a degree in AY 2022-23
*reflects students who identify in multiple racial/ethnic categories

34%

Black or African American undergraduates* who are first generation** college students. Across ASU, 33% of all undergraduates are first generation students.

*reflects students who identify in multiple racial/ethnic categories

**first generation-percentage is based on FAFSA applicants only

Advancing Black success

Unifying and advocating for students of African descent

The Black African Coalition supports recruitment, retention and graduation through the provision of programs and activities for all campus communities.

Get connected [9]

Deepening our understanding of historical issues and possibilities

The Center for the Study of Race and Democracy is the only entity in the state to position race and democracy in direct relation to each other through powerful and informed dialogues.

Join the dialogue [10]

Accelerating meaningful change through twenty-five actions

An enterprise-wide effort to accelerate change through actions in support of Black faculty, staff and students under four categories that endeavor to Listen, Invest, Facilitate and Teach.

Learn more [11]

Student centered spaces to connect and engage with one another

These spaces provide an opportunity to intensify collegiate engagement that can positively impact the academic work and research, aspirations and leadership of all historically underrepresented communities.

Listen, initiate, facilitate, teach initiative

ASU is committed to accelerating meaningful change here at the university and to contributing to a national agenda for social justice.

LIFT: ASU's commitment to Black students, faculty and staff

In order to accelerate meaningful change here at ASU and to contribute to a national agenda for social justice, ASU has committed to a series of actions known as the LIFT (Listen, Invest, Facilitate, Teach) Initiative. These actions are in response to an accumulation of ideas, and public comments from ASU's students, faculty and staff. LIFT is being undertaken with the goal of enhancing inclusion, growth and opportunity for Black undergraduate and graduate students, faculty and staff, while also expanding ASU's academic offerings, community services and collaborative relationships to the benefit of all underrepresented groups and individuals at ASU.

The LIFT initiative

LIFT Initiative: A conversation with President Crow video [7] on Youtube.

A university-wide effort launched to address social transformation in the spirit of ASU's charter, the LIFT Initiative is committed to the implementation of 25 actions designed to support Black faculty, staff and students at ASU. Achieving LIFT's aims will support ASU's ongoing efforts to develop and advance a culture of belonging and excellence. Under four categories that endeavor to Listen, Invest, Facilitate and Teach, LIFT's 25 actions welcomes the collaboration and participation of all members of the ASU community.

Listen

lis·ten /'lis(ə)n/ verb make an effort to hear; pay attention; take notice of and act on what someone says

Listen: Perspectives from Advisory Council Members video [8] on Youtube.

L1

Launch the Faculty Inclusion Research for System Transformation (FIRST). FIRST will undertake a historical study of race and discrimination at the University.

L2

Convene a regular series of discussions about the implementation of the 25 commitments that compose the LIFT Initiative with the chairpersons of the Advisory Council on African American Affairs and the Vice Provost for Inclusion and Community. Discussions will include the continued development and advancement of new ideas to facilitate the goals and activities reflected in these commitments.

L3

Publish a report on the state of Black students, faculty and staff. This will be an annual report on recruitment, retention, and graduation data including how ASU ranks in relation to peer institutions. The report will feature the successes, ideas and works of Black students, faculty and staff.

L4

Enhance service support to student organizations and their initiatives on behalf of Black students including, but not limited to, the African American Men of Arizona State University, Sankofa, STARS and the Black African Coalition.

Invest

in·vest /in' vest/ verb devote time, effort, energy or money to a particular undertaking with expectations of rewarding results

Invest: Perspectives from Advisory Council Members video [9] on Youtube.

I1

Establish the Advisory Council on African American Affairs. Comprised of faculty, staff and students, the Council will assist the president in ensuring the success of Black faculty and staff, and the growth of students while also convening and engaging the Black community at ASU, locally and nationally on a variety of issues.

Learn more [10]

I2

Establish a multicultural space on campus and fund a working group to assess and begin design options for this space. The Multicultural Space Workgroup will define the vision for the space to advance recommendations for design options by the end of Spring 2021.

Learn more [11]

I3

Initiate Community Advocates, a new class of graduate fellowships for students of color. Community Advocates will support the needs of students and help them navigate campus life across all disciplines.

I4

Prioritize the practice of cluster hiring to recruit and retain leading faculty members from underrepresented groups with the goal to recruit at least ten positions each year for the next five years.

I5

Appoint a Black tenured faculty member to Barrett, The Honors College to attract and retain top Black students. Responsibilities for this position will include the establishment and management of the Black Excellence Scholar Track (BEST), a summer program to benefit outstanding Black Arizona and regional high school students.

I6

Host an annual spring graduate recruitment fair for undergraduates of color across all disciplines with scholarship investments in acute areas of underrepresentation.

Facilitate

fa·cil·i·tate /fə' silə tāt/ verb assist or make (an action or process) easy or easier

Facilitate: Perspectives from Advisory Council Members [12] on Youtube.

F1

Promote the success and well-being of all students of color in keeping with ASU's goals to pursue a student body that reflects the people and changing demographics of the state of Arizona. This includes, but is not limited to, realizing undifferentiated outcomes in student retention and graduation for Black students. This work is articulated in ASU's charter, mission and goals and will be accelerated with and through the mechanisms, activities and investments reflected in the 25 actions identified in the LIFT Initiative and in the work of the President's Advisory Council on Inclusion and Success.

F2

Support the activities of the Vice Provost for Inclusion and Community Engagement in prioritizing the university-wide effort for inclusion and awareness. The vice provost will work closely with committees within each college working to achieve goals related to justice, equity, inclusion.

F3

Implement a program of service time that will encourage employees to participate in mentorship programs for Black and other students at ASU and pursue professional growth opportunities that uphold ASU's commitment to inclusion. Faculty and staff participating in such programs will be recognized in annual evaluations and tenure and promotion processes. Programs will be encouraged throughout leadership ranks.

F4

Enhance the mission, resources and services of the Center for the Study of Race and Democracy under the leadership of the Center's Director and support from the Office of the Provost.

F5

Facilitate institutional support for the annual A. Wade Smith Memorial Lecture on Race Relations. Support includes but is not limited to funding, promotion, and other resources.

Teach

teach /tēCH/ verb educate; enlighten; instruct; show or explain how to do something

Teach: Perspectives from Advisory Council Members video [13] on Youtube.

T1

Establish a Presidential Postdoctoral Fellowship Program in the goal toward inclusive excellence in the faculty of the university. The program will fund a minimum of 30 postdoctoral fellowships from underrepresented communities. After successful completion of the program, graduates will have a path to continue on in a tenure-track position.

Learn more [14]

T2

Establish 50 new graduate assistantships over the next two to three years for underrepresented students.

Learn more [15]

T3

Establish a university-wide student entrepreneurship, career advising and student success initiative to inspire and assist Black students and all students of color. Under the direction of the Undergraduate Office and in collaboration with key Arizona businesses and community leaders, this initiative will provide exposure to career options and pathways to post-graduate opportunities throughout the state.

T4

Develop and implement training procedures for faculty and staff participating in search committees to better identify and address issues such as systemic bias in candidate hiring.

T5

Implement the "To Be Welcoming" training for all new and continuing ASU employees and students in collaboration with Human Resources.

T6

Establish a new Bachelor of Arts degree in Race, Culture and Democracy to be launched by the College of Integrative Sciences and Arts, the New College of Interdisciplinary Arts and Sciences and The College of Liberal Arts and Sciences (School of Social Transformation) with support from the Center for the Study of Race and Democracy.

T7

Reimagine and enhance the efforts of the campus police force to meet the overall needs of the ASU community. Through consultation, education and opportunity, this initiative endeavors to establish a police force comprised of baccalaureate degree-holding members and a certification program to train members in racial sensitivity, conflict de-escalation, mental health and crisis intervention.

T8

Affirm and foster race and multicultural solidarity within and among ASU's interdisciplinary academic centers with the support of endowments.

T9

Fund and sustain the Community-Driven Archives Initiative in the ASU Library in order to enhance the historical records and the University's engagement with underrepresented communities.

Learn more [16]

T10

Launch a multi-college interdisciplinary initiative to help reduce inequality in the United States in partnership with experts in civil rights and civil liberties.

Hispanic success and excellence

ASU is a proud Hispanic Serving Institution

Committed to the access, support, and success of Hispanic students and scholars

ASU is committed to all backgrounds, perspectives and identities.

As a New American University we enable academic excellence, accessibility and impact in communities around the world, allowing for the rich diversity and broad perspectives among our campus communities to engage with the most inclusive solutions possible.

ASU's Commitment to the Success of the Hispanic Community [1] on Youtube.

As an institution that measures itself by whom we include and how they succeed, ASU is committed to the success of Hispanic and Latino students, scholars and practitioners. We recognize the importance of expanding our offerings to the benefit of every Sun Devil and find that this is dependent on how we enhance representation, growth, and connection among diverse cultures and identities.

Awards and recognitions

ASU, on its path to becoming a Hispanic Serving Institution, was named a Seal of Excelencia recipient in 2019 and recertified in 2022-2025. Excelencia in Education commends ASU's commitment to Latino student success through impactful and intentional support.

Seal of Excelencia [9]

In 2023, ASU was named a Fulbright Hispanic Serving Institution Leader by the U.S. Department of State Bureau of Educational and Cultural Affairs, recognizing its engagement with exchange participants and promotion of program opportunities on campus.

Fulbright Program [10]

ASU was recognized as Education Partner of the Year by the Hispanic Scholarship Fund in 2023 for its commitment to helping Hispanic students access college. Since 2015, ASU has hosted several programs alongside the Hispanic Scholarship Fund.

Hispanic Scholarship Fund [11]

Understanding the language we use

Hispanic is a federally designated umbrella term to categorize and track numbers in a census fashion. ASU sees data as key to the intentional design work of expanding access and inclusion.

A community and its members use other terms to reflect their chosen language to express identity. Some of these terms include: Latino, Latinx, Afro-Latino, Mexican American, Central American, South American, Puerto Rican, Cuban, Boriqua, and Chicano. Because language is a creative form of communication, it reflects the evolving ways people and communities think about themselves, especially within ever-expansive contexts.

For example, the “x” in Latinx intends to signal intersectional identities and gender inclusivity (equivalent to the use of “their”). Whatever the term or identity, and ASU embraces them all, we recognize and celebrate the vibrant diversity within our university.

Academic accreditation

Arizona Board of Regents

Promise to Arizona

The Board's promise to Arizona

Increase postsecondary access and attainment for Arizona students; to seek solutions to societal challenges; and to do both while increasing quality, affordability and efficiency.

Mission

The Arizona Board of Regents is committed to ensuring access for qualified residents of Arizona to undergraduate and graduate institutions; promoting the discovery, application and dissemination of new knowledge; extending the benefits of university activities to Arizona's citizens outside the university; and maximizing the benefits derived from the state's investment in education.

Vision

The Arizona Board of Regents seeks to provide leadership and a unifying voice on key higher education issues and to influence public policy through advocacy and initiatives founded upon evidence-based research. Synergies from a unified higher education system will provide access and the highest quality education to Arizona's citizens.

The Arizona public universities provide bachelor's level and higher public education, advance human knowledge through scholarly research and creative expression, and serve key roles as major partners in statewide economic development and community advancement.

History

In 1864, the first Territorial Legislature authorized the establishment of the University of Arizona and provided for the management, direction, governance and control by a Board of Regents. The state colleges, one in Tempe and one in Flagstaff, were governed by a three-member State Board of Education that included the superintendent of public instruction and two members appointed by the governor.

In March of 1945, the governor signed House Bill 136 uniting the governing boards of the university and state colleges of Arizona. The authority of the Board of Regents expanded to include the Arizona State Teachers College at Tempe (since 1958 Arizona State University), and Arizona State Teachers College at Flagstaff (since 1966 Northern Arizona University).

Source URL: <https://www.azregents.edu/about/promise-arizona>

Regents

The Arizona Board of Regents is the governing board for the state's public universities: Arizona State University, Northern Arizona University, and the University of Arizona. The board provides policy guidance in such areas as: academic and student affairs; financial and human resource programs; student tuition, fees, and financial aid programs; university capital development plans; strategic plans; legal affairs; and public and constituent outreach.

The board consists of twelve members, eleven voting and one non-voting. This includes the governor and superintendent of public instruction as ex-officio members, each serving while they hold office, and two student regents.

Except for ex-officio members and student regents, and as noted, the term of a regent is eight years. As regents finish their terms, new regents are appointed by the governor and confirmed by the Senate.

University Program Review and Accreditation Office

Welcome to the University Program Review and Accreditation (UPRA) Office

The University Program Review and Accreditation Office is housed within the Office of the University Provost, and is responsible for ensuring the quality education provided at Arizona State University. We do this through a few branches of work which are outlined below. Please visit our individual web pages to get a more detailed overview of each section.

Verify status here [1].

All Arizona State University academic programs are fully accredited by the Higher Learning Commission.

Liaison to the Higher Learning Commission (HLC)

The UPRA Office monitors institutional compliance with Higher Learning Commission HLC [2] policies and assumed practices and coordinates the institutional reviews for continuing accreditation by the HLC. UPRA also facilitates HLC approval of program and/or institutional changes when required.

Specialized accreditation oversight

The UPRA Office works closely with academic units and programs that seek new accreditation or seek re-accreditation [3] from external governing bodies. These accreditations ensure our programs adhere to industry and national standards. Our oversight includes coordinating meetings between site visitors and university administrators, reviewing self-studies and briefing papers, collecting site visitor reports and responses to the report, as well as acting as the repository for all accreditation documents.

Academic program review oversight

The Arizona Board of Regents (2-208) requires academic program reviews [4] at least once every seven years. Periodic program reviews provide a mechanism for faculty to evaluate the effectiveness, progress and status of their academic programs on a continuous basis. The UPRA Office is responsible for oversight of program reviews. Our office coordinates the academic program review process, which covers all program inventory of an academic unit including undergraduate and graduate programs as well as other curricular and co-curricular offerings. The reviews include a review of faculty contributions to the unit, facilities and resources, attention to missions, and many other aspects of the unit to ensure continuous quality improvement.

Centers and institutes oversight

Arizona State University is home to various centers and institutes [5] that blend the passions of exceptional teachers and scholars across disciplines. Our centers and institutes address large, complex problems and challenges facing society in hopes of finding solutions and making the world a better place. University Program Review and Accreditation Office provides review oversight for these centers and institutes.

Academic program review

Academic Program Review is part of the University Program Review and Accreditation Office. Return to the main UPRA site [1]

Purpose and guiding principles

The Arizona Board of Regents (2-208) requires Academic Program Reviews at least once every seven years. Periodic program reviews provide a mechanism for faculty to evaluate the effectiveness, progress and status of their academic programs on a continuous basis. At Arizona State University, the Executive Director for the University Program Review and Accreditation (UPRA) Office also serves as the Accreditation Liaison Officer (ALO) for ASU with the Higher Learning Commission. The UPRA Office in the Office of the University Provost coordinates the Academic Program Review process, which covers all program inventory of an academic unit including undergraduate and graduate programs as well as other curricular offerings housed within the unit under review.

The program review process is intended to provide a comprehensive assessment of the current status of an academic unit based on its programs, activities and achievements since its last program review while also providing the unit the opportunity to think strategically regarding its curricular offerings and its future direction. In doing so, the unit provides comparisons with its peers, identifies strengths and weaknesses in its curricula and pedagogy; assesses student quality and learning outcomes; provides an account of faculty contributions in teaching, research/creative activities, and service; assesses resource availability and needs; and summarizes special features or services provided by the unit. Finally, and perhaps most importantly, the program review should allow the unit, in conjunction with the university, to plan to build on existing strengths, maximize opportunities for growth and innovatively problem solve.

APR for units with specialized accreditation

Arizona Board of Regents Policy allows specialized accreditation reports to substitute for an APR, although expectations are that areas missed in the specialized review are addressed separately. For example, ABET reviews only undergraduate engineering programs, so the UPRA Office also gathers a review of graduate programs using a modified self-study template (see the example from the School of Electrical, Computer and Energy Engineering [2]).

The APR process allows the unit to evaluate thoroughly and candidly:

- The mission and goals of the program and it's relation to those of the university.
- Its future direction and strategic initiatives.
- The reputation of the program among peers in the discipline.
- The educational objectives, curriculum, and student learning outcomes of undergraduate and graduate programs.
- The quality of teaching and retention and graduation rates for undergraduate and graduate students.
- The quality and diversity of faculty and staff (including retention rates for underrepresented faculty) and their contributions to program mission and goals.
- Resources (e.g., laboratories, physical facilities)
- Readiness for accreditation, if appropriate.

The guiding principles for the APR process include:

- The process should be broadly participatory involving faculty, students, staff administrators, and relevant community constituents.
- The APR should provide a framework for excellence; an opportunity to explore, enhance, and integrate student learning and faculty teaching, service and scholarly efforts into the unit's mission and goals.
- The process should facilitate short-term and long-term strategic planning in areas such as curricula development, resource allocation (e.g., financial, physical), faculty/staff hiring/workload and research foci.
- The APR provides the opportunity for the university to account for its use of public resources and facilitate relationships with its various constituencies.

Those directly responsible for the APR process should familiarize themselves with all parts of the manual [3] along with the related checklists and appendices [4].

Statement of Accreditation Status

as of July 24, 2024

Arizona State University

P.O. Box 877705

Tempe, AZ 85287-7705

(480) 965-2100

www.asu.edu

**Previous names: Institution name changed from Arizona State Teachers College to Arizona State College at Tempe. (1945) Institution name changed from Arizona State College at Tempe to Arizona State University. (1959)*

The information on this page describes the accreditation relationship between this institution and the Higher Learning Commission (HLC). General information about HLC and the accreditation process is provided at the end of this document.

Accreditation Information

Current status: Accredited

- [Action Letter - Reaffirmation of Accreditation](#)

Accreditation granted: 01/01/1931 - Present

Most recent reaffirmation of accreditation: 2022 - 2023

Next reaffirmation of accreditation: 2032 - 2033

Upcoming or In-Progress Reviews

Date	Event	Description
2026 - 2027:	Assurance Review	
2032 - 2033:	Comprehensive Evaluation	

Most Recent History With HLC

Date	Event	Description
07/17/2023:	Comprehensive Evaluation	Reaffirm Accreditation
09/27/2017:	Assurance Review	Review Completed
07/27/2015:	Focused Visit	Accepted
09/25/2013:	Reaffirmation of Accreditation	

Student Success Outcomes

Student outcome information, including graduation rates and other measures, is available on the institution's website and the U.S. Department of Education's College Scorecard and College Navigator.

- [Arizona State University Student Achievement Data](#)
- [College Scorecard: Arizona State University](#)
- [College Navigator: Arizona State University](#)

Note: The College Scorecard and College Navigator links above will take you to information about the institution's main campus. Some colleges or universities may report separate information on these websites for certain divisions or branch campuses. Search these sites to find this additional information.

Institutional Characteristics

Please note: All institutions are required to represent themselves accurately and consistently to multiple agencies. Information about the institution that is published by other agencies may appear differently, depending on the timing of the institution's updates to those agencies or those agencies' definitions or standards. For example, an institution's control may be categorized differently by the U.S. Department of Education for other purposes under its standards.

Branch Campuses and Additional Locations

Approved Branch Campuses and Additional Locations

The institution's accreditation includes courses and programs offered at the branch campuses and additional locations listed below. This list includes campuses and locations that are active and inactive (i.e., not currently enrolling students).

Last updated: 11/09/2023

In-State

Branch Campuses

None.

Additional Locations

Arizona Western College - Yuma, Arizona

ASU at Mesa City Center - Mesa, Arizona

ASU at the Polytechnic Campus - Mesa, Arizona

ASU at the Downtown Phoenix Campus - Phoenix, Arizona

ASU West Valley - Glendale, Arizona

ASU@Northeastern Arizona - Show Low, Arizona

Central Arizona College - Coolidge, Arizona

Cochise College - Downtown Center - Sierra Vista, Arizona

Eastern Arizona College - Thatcher, Arizona

Foundation for Blind Children - Phoenix, Arizona
Lake Havasu - Lake Havasu City, Arizona
Mayo Clinic Hospital - Phoenix, Arizona
Mesa Public Schools Administrative Services Center - Mesa, Arizona
Phoenix College (Phoenix Metro Area) - Phoenix, Arizona
Pima Community College - Northwest Campus - Tucson, Arizona
Pima Community College - West Campus - Tucson, Arizona
Red Mountain Campus (Mesa CC) - Mesa, Arizona
SkySong - Scottsdale, Arizona
Sonoran Sky Elementary (Pendergast PDS Site) - Glendale, Arizona
Tucson - Tucson, Arizona

Out-of-State

Branch Campuses

None.

Additional Locations

ASU at Los Angeles - Los Angeles, California
ASU California Center - Broadway - Los Angeles, California
ASU California Center - Grand - Los Angeles, California
Washington Center - Washington, District of Columbia

International

Branch Campuses

None.

Additional Locations

Hainan University - Haikou Hainan Province, China

Shanghai - Shanghai, China

Shanghai Advanced Institute of Finance - Shanghai, China

HLC's Notification Program for Additional Locations

Institutions that meet certain eligibility criteria may apply to participate in HLC's [Notification Program for Additional Locations](#). This program allows institutions to open new locations after notifying HLC and receiving confirmation that the location has been added to our records, rather than applying for approval through the standard substantive change process.

Participation Status

The institution participates in the Notification Program for Additional Locations.

About HLC and Accreditation

HLC is an institutional accreditation agency that accredits degree-granting colleges and universities that are based in the United States.

Institutional accreditation validates the quality of an institution as a whole and evaluates multiple aspects of an institution, including its academic offerings, governance and administration, mission, finances, and resources. HLC's accreditation includes all degree levels as well as on-site and online course delivery. Institutions of higher education in the United States may also seek accreditation through specialized or programmatic accreditation agencies, which accredit programs, departments or schools within a college or university.

Evaluation Process

Institutions that HLC accredits are evaluated against its [Criteria for Accreditation](#) and other [HLC requirements](#). HLC accreditation assures quality by verifying that an institution (1) meets threshold requirements and (2) is engaged in continuous improvement. In addition, all institutions

are required to report data annually in the [Institutional Update](#), undergo annual monitoring of [financial and non-financial indicators](#), and adhere to HLC policies and practices.

The accreditation process is based on a system of [peer review](#). Faculty and staff from institutions of higher education serve as HLC peer reviewers conducting accreditation evaluations for other institutions. They make recommendations to HLC's decision-making bodies, which take final action on institutional evaluations.

Decision Making

HLC's decision-making bodies evaluate and make decisions, called actions, on recommendations from peer reviewers and staff that review institutions for their compliance with HLC's Criteria for Accreditation and other requirements. The decision-making bodies are comprised of institutional representatives and public members. See [Decision-Making Bodies and Processes](#) for more information.

Public Information

HLC is committed to providing information to the public regarding accreditation decisions made regarding individual institutions.

Actions that are taken by HLC regarding an institution's accreditation status are disclosed to the public. In cases of reaffirming continued accreditation, placing an institution on or reviewing a sanction, or withdrawing accreditation, the Action Letter issued to the institution is made available on the institution's Statement of Accreditation Status, found by searching the institution's name through HLC's online directory. Public Disclosure Notices (PDNs) are also issued and posted in the directory in cases of sanction, assigning or removing an institutional designation, resignation of accreditation or candidacy, institutional closing or withdrawal of accreditation by HLC. The PDN provides the public with the most applicable information from the posted Action Letter. HLC decision-making outcomes also are summarized on the [HLC Institutional Actions page](#).

Complaints Against Institutions

HLC has a formal complaint process, consisting of an [online complaint form](#) for faculty, students and other parties to submit information regarding a member institution's potential non-compliance with HLC requirements. As stated in [HLC policy](#), the complaints process is designed to enable HLC to review, in a timely and fair manner, information that suggests potential substantive non-compliance with an institution's ability to meet HLC requirements.

University College

One university, many places

Arizona State University's reach supports local and global connections and research engagement.

ASU is committed to delivering high-quality education to the local and global communities it serves.

Arizona State University is "one university in many places" — four distinctive campuses throughout metropolitan Phoenix, as well as locations around the state, country and world. Each provides access to the university's strength and innovation, and all offer attributes and focuses to meet the needs of any learner.

Arizona locations

Phoenix metro-area campuses

Downtown Phoenix campus

State-of-the-art living and learning facilities are found in the heart of Arizona's capital city.

Woven into the downtown business and professional community, ASU's Downtown Phoenix campus provides a multitude of academic and professional connections for students preparing for careers in health care, law, government, public service, the arts and sciences, journalism, media, global management and the corporate sector.

Polytechnic campus

Opportunities for project-based learning within advanced laboratory spaces.

The ASU Polytechnic campus is a nexus for studies in integrative sciences and arts, engineering, management, technology and education. Industry partnerships are key to the campus' distinctive course offerings, which provide opportunities for project-based learning within advanced laboratory spaces.

[Read more \[3\]](#)

[Address and driving directions \[4\]](#)

Tempe campus

The historic campus offers multidisciplinary research and exploration in first-rate laboratories and facilities.

ASU's Tempe campus offers hundreds of majors that engage undergraduates and graduates in multidisciplinary research and exploration in first-rate laboratories and facilities. The Sun Devils' athletic complex, performing arts facilities and research space create a dynamic learning environment.

[Read more \[5\]](#)

[Address and driving directions \[6\]](#)

West Valley campus

ASU's West Valley campus blends a liberal arts education with 21st-century leadership preparation.

Located in northwest Phoenix, the West Valley campus is home to students pursuing degrees in the health industry, business, education, and interdisciplinary arts and science programs.

[Address and driving directions \[8\]](#)

Additional Arizona locations

Lake Havasu City

ASU in Lake Havasu offers a college experience where students learn by doing, gaining practical experience to prepare for the job market. Students can pursue undergraduate degrees in technology, psychology, health and more. The outdoor lifestyle is a large part of the experience — students can go hiking, kayaking, river tubing and more.

[Read more \[9\]](#)

Mesa City Center

The Mesa City Center — a joint project between the city of Mesa and ASU — houses academic programs offered by the Herberger Institute for Design and the Arts related to digital and sensory technology, experiential design, gaming, media arts, and film production. It features the state-of-the-art Media and Immersive eXperience (MIX) Center [10], and includes spaces for entrepreneurship and community collaboration.

[Read more \[10\]](#)

Tucson

The ASU School of Social Work offers a bachelor's and master's degree in social work at its location near downtown Tucson. The School of Social Work prepares students who are committed to social justice and to serving and empowering individuals, families and communities.

[Read more \[11\]](#)

Yuma

ASU brings its top-ranked yet affordable undergraduate degree programs to students in Yuma through ASU Local. This hybrid college experience invites you to attend ASU on Arizona Western College's Yuma campus. ASU Local is a flexible college program that is designed to help you pursue your academic, personal and professional goals to grow and thrive in your community.

[Read more \[12\]](#)

Innovation Zones

Discovery Oasis

Located in the Discovery Oasis, the Health Futures Center will focus on education, medical technologies and health and well-being.

ASU's Health Futures Center will further foster intensified research, clinical expansion and development of innovative clinical approaches to medicine and health care through Mayo Clinic and ASU MedTech Accelerator, biomedical engineering, informatics research labs, nursing programs and an innovative education zone.

[Read more \[13\]](#)

Novus Innovation Corridor

One of the nation's most progressive, urban, mixed-use developments, Novus Innovation Corridor is defined by leading companies and partnerships.

Located adjacent to ASU's Tempe campus, Novus Innovation Corridor will house more than 10 million square feet of world-class offices, residences, hotels, retail stores and restaurants throughout 355 acres. Novus is a powerful expression of the adaptive capacity of innovation. By creating a place of opportunity for the continuous introduction of new ideas, technologies and methodologies, Novus will become the central point in a region already brimming with possibility.

[Read more \[14\]](#)

Phoenix Bioscience Core

Located in the heart of downtown Phoenix, the Phoenix Bioscience Core is a dynamic environment for research activities, containing some of the highest concentrations of research scientists and complementary research professionals in the region.

The 30-acre urban health and bioscience campus is designed with 6 million square feet of facilities dedicated to biomedical-related research, clinical facilities and academic research.

[Read more \[15\]](#)

ASU Research Park

Supporting 51 corporate tenants employing more than 6,000 people, ASU Research Park provides \$1.4 billion annual economic impact in the state of Arizona.

Situated on 320 acres of land with 18 surface acres of lakes and an extensive trail system, ASU Research Park is home to ASU MacroTechnology Works, including ASU's Quantum Energy and Sustainable Solar Technologies, ASU's first National Engineering Research Center supported jointly by the National Science Foundation and the U.S. Department of Energy.

[Read more \[16\]](#)

SkySong, the ASU Scottsdale Innovation Center

SkySong, the ASU Scottsdale Innovation Center, is a dynamic center for innovation, technology and economic expansion.

At SkySong, the ASU Scottsdale Innovation Center, notable companies from around the world come together in an environment designed to foster collaboration and growth. SkySong, a 1.2-million-square-foot mixed-use project, features Class A commercial office space, retail, restaurant and hotel components, and the SkySong Apartments. It is home to SkySong Innovations, startups and Fortune 500 companies, plus much more.

U.S. locations

Los Angeles

ASU California Center offers students the opportunity to learn in a global city and gain career experience with employers across Los Angeles.

The ASU California Center, with sites in downtown LA, is home to academic programs in fashion and design, film, nursing, global management, journalism, law, business, and executive education. Additionally, cohort-based programs such as ASU Local, provide students earning an online degree with in-person, community-building experiences with peers, professors and mentors. Close proximity and coursework embedded with industry partners across LA enable students learning at the ASU California Center to work alongside professionals in their fields while earning their degree.

[ASU in California \[30\]](#)

[ASU Local \[31\]](#)

Washington, D.C.

ASU's presence in Washington, D.C., is a critical component in a broad institutional effort to create and share knowledge with the power and potential to change the world.

The Barbara Barrett and Sandra Day O'Connor Washington Center expands ASU's presence in the nation's capital, spurring innovative national engagements and partnerships; providing one-of-a-kind learning, teaching and research opportunities; facilitating ASU's participation in high-level idea exchanges; and expanding the impact of groundbreaking research efforts. The center houses ASU Local, ASU academic programs and global initiatives such as the McCain Institute.

Locations of record

For the 2024-2025 academic year, Arizona State University offered degree-granting programs at the following locations.

Downtown Phoenix campus

411 N Central Ave
Phoenix, AZ 85004

Polytechnic campus

7001 E Williams Field Rd
Mesa, AZ 85212

Tempe campus

1151 S Forest Ave
Tempe, AZ 85287

West Valley campus

4701 W Thunderbird Rd
Glendale, AZ 85306

ASU at Cochise

901 Colombo Ave
Sierra Vista, AZ 85635

ASU at Hainan

Hainan, China

ASU at Lake Havasu

100 University Way
Lake Havasu, AZ 86403

ASU at Los Angeles

1111 S Broadway
Los Angeles, CA 90015

ASU at Mesa City Center

50 N Centennial Way
Mesa, AZ 85201

ASU at Mexico City

Mexico City, Mexico

ASU at Northeastern Arizona

1001 W Deuce of Clubs
Show Low, AZ 85901

ASU at Pima

2202 W Anklam Rd
Tucson, AZ 85709

ASU at Pinal

540 N Camino Mercado
Casa Grande, AZ 85122

ASU at The Gila Valley

615 N Stadium Ave
Thatcher, AZ 85552

ASU at Tucson

340 N Commerce Park Loop, Ste 250
Tucson, AZ 85745

ASU at Washington, D. C.

1800 I St NW
Washington, D.C. 20006

ASU at Yavapai

6955 Panther Path
Prescott Valley, AZ 86314

ASU at Yuma

2020 S Ave 8 E
Yuma, AZ 85365

- Religious Holidays [3]

ASU regularly offers classes in the fall, spring and summer terms with the following components:

Fall/Spring Session A:

first 7.5-week session

Fall/Spring Session B:

second 7.5-week session

Fall/Spring Session C:

full semester (15 weeks plus final exams)

Summer Session A:

first 6-week session

Summer Session B:

second 6-week session

Summer Session C:

8-week session

If a class is scheduled in a session other than Session A, B or C, the drop/add/withdrawal deadlines are prorated based on the length of the class. Check the calendar icon  next to each class on your schedule in My ASU [4] for the prorated deadline dates.

Fall 2024

Session A: Thursday, 8/22/2024 – Friday, 10/11/2024

Session B: Wednesday, 10/16/2024 – Friday, 12/6/2024

Session C: Thursday, 8/22/2024 – Friday, 12/6/2024 (Final Exams 12/9/2024 - 12/14/2024)

Residency

Residency navigator

Use the residency navigator to help determine your eligibility for residency

Residency for tuition purposes

Your residency classification for tuition purposes is determined based on Arizona revised statutes and guidelines provided by the Arizona Board of Regents' (ABOR) [2]. Students who have been classified as non-residents can request reclassification by submitting a Residency Petition. Use the Residency Navigator and the links below to learn more.

Students who graduated from an Arizona high school but do not otherwise qualify to be classified as residents for tuition purposes may be eligible to receive the Non-Resident Tuition Rate for Arizona High School Graduates [3].

Information about Arizona Prop. 308 [4].

Requesting residency reclassification

Once you know which petition is best for you, this is what you need to do.

1. Residency Navigator
2. Review requirements
3. Submit your petition

Residency navigator

We've designed this tool to help you determine which residency classification category may apply to you. Using the residency navigator will not have any influence on the outcome of your residency petition. It is not intended to predict whether your petition will be approved or denied.

Start here

[Archivist's Note: In-page Residency Navigator tool unable to be captured.]

Residency petition section

You may fit into multiple categories. Determine which is the most appropriate for your situation.

Independent student

Requirements

The independent student petition requires you to:

- Provide proof of domicile and continuous physical presence in Arizona for 12 months
- Provide proof of financial independence
- Overcome the presumption that you are in Arizona primarily to be a student

Read more about this petition. [5]

Request reclassification

Your petition is completed in three steps:

Step 1: Start [6] and submit your online questionnaire prior to the petition deadline. [7]

Step 2: Submit [6] your documents prior to the document deadline [7]

Step 3: Pay [6] the petition fee prior to the document deadline [7]

Deadlines

Don't miss your deadlines: [7]

- **Petition deadline** – this is the last day to complete step 1.
- **Document deadline** – this is the last day to complete step 2 & 3
- **Priority deadline** – this is the last day to complete steps 1, 2, & 3 if you want a decision before classes start.

Dependent student

Requirements

The dependent student petition requires you to:

- Provide proof that you and your parent(s) are domiciled in Arizona and your parent(s) are entitled to claim you as a dependent for tax purposes.

Read more about this petition. [8]

Request Reclassification

Your petition is completed in three steps:

Step 1: Start [6] and submit your online questionnaire prior to the petition deadline [7]

Step 2: Submit [6] your documents prior to the document deadline [7]

Step 3: Pay [6] the petition fee prior to the document deadline [7]

Deadlines

Don't miss your deadlines: [7]

- **Petition deadline** – this is the last day to complete step 1
- **Document deadline** – this is the last day to complete step 2 & 3
- **Priority deadline** – this is the last day to complete steps 1, 2, & 3 if you want a decision before classes start.

Spouse

Requirements

The spouse petition requires you to:

- Provide proof that you are domiciled in Arizona
- Provide proof that your spouse has maintained domicile in Arizona for 12 continuous months
- Provide proof that your spouse is financially independent
- Provide proof of marriage

Read more about this petition. [9]

Request reclassification

Your petition is completed in three steps:

Step 1: Start [6] and submit your online questionnaire prior to the petition deadline [7]

Step 2: Submit [6] your documents prior to the document deadline [7]

Step 3: Pay [6] the petition fee prior to the document deadline [7]

Deadlines

Don't miss your deadlines: [7]

- **Petition deadline** – this is the last day to complete step 1.
- **Document deadline** – this is the last day to complete step 2 & 3
- **Priority deadline** – this is the last day to complete steps 1, 2, & 3 if you want a decision before classes start.

Transferred employee

Requirements

The transferred employee petition requires you to:

- Provide proof that you are domiciled in Arizona
- Provide proof that you were transferred to Arizona for employment purposes OR provide proof that your spouse was transferred to Arizona for employment purposes
- Provide proof the transfer to Arizona meets the conditions described here.

Read more about this petition. [10]

Request reclassification

Your petition is completed in three steps:

Step 1: Start [6] and submit your online questionnaire prior to the petition deadline [7]

Step 2: Submit [6] your documents prior to the document deadline [7]

Step 3: Pay [6] the petition fee prior to the document deadline [7]

Deadlines

Don't miss your deadlines: [7]

- **Petition deadline** – this is the last day to complete step 1
- **Document deadline** – this is the last day to complete step 2 & 3
- **Priority deadline** – this is the last day to complete steps 1, 2, & 3 if you want a decision before classes start.

Qualifying federal service/military

Requirements

This petition applies if you are member (or the spouse or dependent of a member) of a Qualifying Federal Service who is on active duty for a period of more than 30 days and whose domicile or permanent duty station is in Arizona;

OR

Is a member of the Armed Forces of the United States stationed outside of Arizona pursuant to military orders and claimed Arizona as the service member's legal residence for at least twelve consecutive months;

OR

Is a dependent of a U.S. military member who is using transferred Post-9/11 G.I. Bill (Chapter 33) benefits during a time in which the member of the U.S. uniformed services is serving on active duty of 90 days or more.

Read more about this petition. [11]

Request reclassification

Your petition is completed in two steps:

Step 1: Start [6] and submit your online questionnaire prior to the petition deadline [7]

Step 2: Submit [6] your documents prior to the document deadline [7]

Deadlines

Don't miss your deadlines: [7]

- **Petition deadline** – this is the last day to complete step 1
- **Document deadline** – this is the last day to complete step 2
- **Priority deadline** – this is the last day to complete steps 1 & 2 if you want a decision before classes start.

Veteran

Requirements

The veteran petition applies to veterans of the U.S. military and requires you to:

- Provide proof that the veteran was discharged with a character of service of “honorable”, and proof of intent to establish domicile in Arizona.

OR

- Provide proof of active duty of 90 days or more, use of Ch. 30, 31, 33 or 35 educational benefits and proof of intent to establish domicile in Arizona.

The veteran petition applies to dependents and requires the student to:

- Provide proof that the student is using transferred Ch. 30, 31, 33 or 35 benefits and proof of intent to establish domicile in Arizona.

OR

- Provide proof of receiving benefits certified under the Marine Gunnery Sergeant John David Fry Scholarship and proof of intent to establish domicile in Arizona.

Read more about this petition. [12]

Request reclassification

Your petition is completed in two steps:

Step 1: Start [6] and submit your online questionnaire prior to the petition deadline [7]

Step 2: Submit [6] your documents prior to the document deadline [7]

Deadlines

Don't miss your deadlines: [7]

- **Petition deadline** – this is the last day to complete step 1
- **Document deadline** – this is the last day to complete step 2
- **Priority deadline** – this is the last day to complete steps 1 & 2 if you want a decision before classes start.

Native American

Requirements

The American Indian petition applies if you are an enrolled member of an Indian tribe whose reservation land lies wholly or partially in Arizona.

Read more about this petition. [13]

Request reclassification

Your petition is completed in two steps:

Step 1: Start [6] and submit your online questionnaire prior to the petition deadline [7]

Step 2: Submit [6] your documents prior to the document deadline [7]

Deadlines

Don't miss your deadlines: [7]

- **Petition deadline** – this is the last day to complete step 1
- **Document deadline** – this is the last day to complete step 2
- **Priority deadline** – this is the last day to complete steps 1 & 2 if you want a decision before classes start.

Teacher

Requirements

The teacher waiver applies if you are currently employed as a full-time teacher or classroom aide in an Arizona public school district, an approved Arizona charter school or an approved Arizona private school.

Teacher waivers are effective only for the semester for which they are submitted. A new teacher waiver petition must be submitted for subsequent semesters.

Read more about this petition. [14]

Request reclassification

Your petition is completed in two steps:

Step 1: Start [6] and submit your online questionnaire prior to the petition deadline [7]

Step 2: Submit [6] your documents prior to the document deadline [7]

Deadlines

Don't miss your deadlines: [7]

- **Petition deadline** – this is the last day to complete step 1
- **Document deadline** – this is the last day to complete step 2
- **Priority deadline** – this is the last day to complete steps 1 & 2 if you want a decision before classes start.

AmeriCorps/VISTA

Requirements

The AmeriCorps/VISTA exception applies if you have served one year in Arizona in either an AmeriCorps or Volunteers in Service to America (VISTA) program.

Read more about this petition. [15]

Request reclassification

Your petition is completed in two steps:

Step 1: Start [6] and submit your online questionnaire prior to the petition deadline [7]

Step 2: Submit [6] your documents prior to the document deadline [7]

Deadlines

Don't miss your deadlines: [7]

- **Petition deadline** – this is the last day to complete step 1
- **Document deadline** – this is the last day to complete step 2
- **Priority deadline** – this is the last day to complete steps 1 & 2 if you want a decision before classes start.

Declaring Arizona residency

Are there any hardship exceptions?

No. Any person requesting classification as a resident for tuition purposes must prove they meet ABOR requirements or that they meet one of the approved exceptions.

Does living in Arizona with a relative other than my parents have any effect on residency status?

No. Your status will be determined based on a review of your situation, but living with family members or friends is not an indicator of intent or domicile and will not influence your status.

How long does it take to review my petition and where can I track its progress?

Average processing time is 4-6 weeks. Petitions submitted closer to the deadline may take longer. If you need a decision prior to the first day of classes, you should submit everything (petition and all required documents) no later than the priority deadline [7]. You can monitor the status of your petition from the residency reclassification application portal [16]. When a decision is made, an email will be sent to your @ASU email address.

I am a continuing student; will my residency automatically change after one year?

No. Your status will remain non-resident and any student wanting to be re-classified must initiate the process by contacting the residency office and submitting a petition by the appropriate deadline. Simply being a student at ASU for one year is not sufficient for residency purposes per ABOR policy, which reads, "No individual has established residency for tuition purposes in Arizona while attending any education institution in Arizona as a full-time student in the absence of objective evidence to the contrary."

I am a dual resident of Arizona; can I be considered a resident for tuition purposes?

No. Any person wishing to be classified as a resident would need to provide objective evidence of intent to be a permanent resident of Arizona and demonstrate that all ties to the former state have been severed.

I am a research assistant, teaching assistant or graduate assistant and have been paying resident tuition. Am I a resident?

No. These positions are funded by waivers submitted by your college or department that pays the out-of-state portion of your tuition and fees; but, your status for residency purposes remains non-resident. To request reclassification, you would need to submit residency petition and appropriate supporting documentation.

I am currently attending a community college in Arizona as a resident; does that make me a resident at ASU?

Not necessarily. Residency for tuition purposes for the three state universities is determined according to guidelines established by the Arizona Board of Regents (ABOR). The community colleges are not governed by ABOR and your classification as a resident at the community college may or may not be in compliance with current ABOR policies.

I attended an Arizona institution using the WUE (Western University Exchange) or WICHE (Western Interstate Commission for Higher Education) program; will I be considered a resident?

The WUE/WICHE program allows residents of a participating state to pay a special, reduced tuition rate at participating institutions in other states. However, the student must maintain residency in the originating state. In other words, by participating as a WUE/WICHE student you are affirming that you are not an Arizona resident. ABOR requirements for physical presence and intent to be an Arizona resident cannot be satisfied as a WUE/WICHE student. Refer to the ASU WUE page for more information.

I indicated that I was an Arizona resident on my admissions application, yet I am classified as a non-resident and was charged the non-resident application fee? How can I fix this?

Your residency classification is determined by a review of all of the information provided on your admissions application in accordance with guidelines provided by the Arizona Board of Regents. Your status as a non-resident is a result of one or more factors used to determine this classification. Please review the Residency Classification [17] web page and contact a residency specialist [18] if you have any questions.

I own property in Arizona; doesn't that make me a resident?

Owning property in Arizona does not automatically qualify you as a resident for tuition purposes. Property ownership is one factor to be considered, but would not be sufficient without other objective evidence of domicile and intent.

I was born and raised in Arizona then left for a short period of time before returning, can I still be classified as an Arizona resident for tuition purposes?

Leaving Arizona will not result in a loss of Arizona residency unless your absence is accompanied by actions that indicate intent to establish a new domicile elsewhere. Former residents of Arizona who established domicile elsewhere would be classified as non-residents upon return and would not be eligible for residency until current ABOR policies are met. Residency classification is re-visited after any break in enrollment or absence from the university.

I'm an ASU employee who is classified as a nonresident for tuition purposes, but am otherwise eligible for the Qualified Tuition Reduction Program. How should I proceed?

Please submit your Qualified Tuition Reduction Form (QTR) [19] to the Student Accounts Office. Once submitted, that office will notify the Residency Office who will adjust your residency status for the term in question.

If I marry an Arizona resident, can I be classified as a resident?

Yes. There is a provision in current ABOR guidelines that would allow you to be re-classified if you marry a resident of Arizona. You would request reclassification by submitting a residency petition and providing appropriate documentation to support that both you and your spouse meet current ABOR guidelines for the spouse exception.

My parent is an ASU alumnus; does it have any effect on my residency classification?

No. Your residency classification is evaluated against current ABOR policy and your parent's status as an alumnus is not a consideration.

My parents live out-of-state but I attend an Arizona high school; will I be considered a resident if I graduate from an Arizona high school?

No, you would be classified as a non-resident. Per ABOR guidelines, "The domicile of an unemancipated person is that of either parent." You may, however, qualify for the Non-Resident Tuition Rate for Arizona High School Graduates [20], which is 150% of in-state tuition.

Common residency questions

Still have unanswered questions? Take a look through our frequently asked questions below to see if your question is listed there. If not, we're happy to help. [18]

Residency requirements

Student/petition types

ABOR policy broadly defines nine different paths to residency. Each has a unique set of requirements, which are summarized below. Choosing the right petition is an important first step and we encourage you to read carefully and contact us [1] if you have questions. Please note that with the passage of Arizona Prop. 308 [2], some students who qualify as noncitizens may now be eligible for an in-state tuition rate.

How to Petition [3].

Independent student

The Independent Student petition is best suited for students that:

- Have been continuously and physically present in Arizona for more than 12 months (with no absences of more than 30 days)
- Are residents of Arizona and have maintained the legal and customary ties that would be expected of someone who claims Arizona as their “true, fixed and permanent home” for the same 12 months of continuous presence.
- Can provide objective evidence of being financially independent for 12 months.
- Are not in Arizona primarily to be a student and can overcome or rebut these basic presumptions:
 - Non-resident students are in Arizona primarily for the purpose of education and not to establish domicile;
 - Students can’t establish domicile while in Arizona primarily for the purposes of education;
 - Students can’t establish domicile in Arizona while enrolled at any educational institution in Arizona as a full-time student;
 - Decisions about permanent domicile are generally made after the completion of an education, and not before.

Additional information about the Independent Student petition can be found here:

More information [4]

Dependent student

The Dependent Student petition is best suited for students that:

- Can provide objective evidence that they are domiciled in Arizona
- Have parents (or a parent) who are domiciled in Arizona
- Can document that your parent (who is domiciled in Arizona) is entitled to claim you as an exemption for federal and state tax purposes.

Additional information about the Dependent Student petition can be found here:

More information [5]

Spouse

The Spouse petition is best suited for students that:

- Are married but don't meet all requirements for the Independent Student petition
- Can provide objective evidence that they are domiciled in Arizona
- Can provide objective evidence that their spouse has been domiciled in Arizona for 12 months or more
- Can provide objective evidence that their spouse is financially independent

Additional information about the Spouse petition can be found here:

More information [6]

Transferred employee

The Transferred Employee petition is best suited for students that:

- Can provide objective evidence that they have established domiciled in Arizona
- Are currently employed by an employer who transferred them to Arizona for employment purposes
- Were transferred within the last 12 months
- Are not self-employed or employed in a family-owned business that did not previously operate in Arizona
- Were transferred at the direction of and for the benefit of their employer.

Additional information about the Transferred Employee petition can be found here:

More information [7]

Qualifying federal service/military

The Qualifying Federal Service/Military Petition is best suited a student that:

- Is a member of a Qualifying Federal Service who is on active duty for a period of more than 30 days and whose domicile or permanent duty station is in Arizona or is the spouse or dependent child of a Member of a Qualifying Federal Service, or
- Is a member of the Armed Forces of the United States stationed outside of Arizona pursuant to military orders and claimed Arizona as the service member's legal residence for at least twelve consecutive months, or
- Is the spouse or dependent child of a member of the Armed Forces of the United States stationed outside of Arizona pursuant to military orders and the service member claimed Arizona as the service member's legal residence for at least twelve consecutive months, or
- Is a dependent of a U.S. military member who is using transferred Post-9/11 G.I. Bill (Chapter 33) benefits during a time in which the member of the U.S. uniformed services is serving on active duty of 90 days or more.

Additional information about the Qualifying Federal Service/Military Petition can be found here:

More information [8]

Veterans

The Veteran petition is best suited for students that:

- can provide objective evidence of intent to be an Arizona resident
- meet any of the following conditions:
 - student is a veteran discharged with a character of service of "honorable"

- student is a veteran and is using Ch. 30, 31, 33, or 35 benefits
- student is the spouse or dependent of a veteran who was discharged from active duty service of ninety days or more and is using Ch. 30, 31, 33, or 35 benefits
- student is receiving benefits certified under the Marine Gunnery Sergeant John David Fry Scholarship

Additional information about the Veteran petition can be found here:

More information [9]

American Indian

The American Indian petition is best suited for students that:

- Are enrolled members of an Indian tribe whose reservation land lies wholly or partially in Arizona. Eligible tribes are:
 - Ak Chin Indian Community of Maricopa
 - Cocopah Tribe of Arizona
 - Colorado River Indian Tribes of the Colorado River Indian Reservation—includes Chemehuevi, Hopi, Mohave and Navajo
 - Fort McDowell Yavapai Nation
 - Fort Mojave Indian Tribe
 - Gila River Indian Community
 - Havasupai Tribe
 - Hopi Tribe
 - Hualapai Indian Tribe
 - Kaibab Band of Paiute Indians
 - Navajo Nation
 - Pascua Yaqui Tribe
 - Pueblo of Zuni
 - Quechan Tribe
 - Salt River Pima-Maricopa Indian Community
 - San Carlos Apache Tribe
 - San Juan Southern Paiute Tribe
 - Tohono O’odham Nation
 - Tonto Apache Tribe
 - White Mountain Apache Tribe
 - Yavapai-Apache Nation
 - Yavapai-Prescott Tribe

Additional information about the American Indian petition can be found here:

More information [10]

Teacher

The Teacher waiver is best suited for students that:

- Are domiciled in Arizona
- Under contract to either teach either teach on a full-time basis or work as a full-time classroom aide in:
 - an Arizona public school district, or
 - an approved Arizona charter school, or
 - an approved Arizona private school.

Teacher waivers are based on enrollment and are effective only for the semester in which they are submitted. A new teacher waiver petition must be submitted for subsequent semesters. The Teacher Waiver does not change your residency classification, but does allow the student to pay in-state tuition for courses required for teacher certification in Arizona.

Additional information about the Teacher Waiver can be found here:

More information [11]

AmeriCorps/Vista

The AmeriCorps/VISTA petition is best suited for students that:

- have completed one year of service in Arizona in either an AmeriCorps or Volunteers in Service to America (VISTA) program.

Additional information about the AmeriCorps/VISTA petition can be found here:

[More information \[12\]](#)

Freely Associated States

Effective July 1, 2024: A citizen of the three Freely Associated States: the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau is eligible to be classified as resident for tuition purposes.

Please contact the Residency Classification Office [16] for additional information about this exception.

Residency guidelines

Your initial residency classification is determined when you apply for admission to the University based on residency guidelines provided by the Arizona Board of Regents (ABOR) [13]. ABOR policy 4-204 defines the process for requesting reclassification and places the burden of proof on the student. Students seeking reclassification are responsible for providing objective evidence for all factors necessary to provide a basis for this change.

Residency petition

This is your formal request for reclassification. Your petition will consist of an online questionnaire and your supporting documentation. The online residency petition [14] is only available to current, active, non-resident students. New or future students do not become current or active until they are admitted to the University and enrollment begins for the student's semester of admission (see the ASU Academic Calendar [15] for enrollment dates).

When you are ready to submit your petition, here are the steps:

Step One: Start [14] and submit your online questionnaire prior to the petition deadline.

Step Two: Submit [14] your documents prior to the document deadline

Step Three: Pay [14] the \$50 petition fee prior to the document deadline (if applicable)

Complete the steps in this order and Contact the Residency Office [16] if you need more information.

Deadlines

Deadlines are critical. Missing a deadline [17] means you have forfeited your right to request reclassification for that semester.

Requirements

Specific requirements are summarized, paraphrased and iterated in various places, including above. Before you start your petition, we encourage you to understand the requirements for your petition and ask questions when you need help. Don't make assumptions about what you think is required or what you need to provide. Successful petitions require you to do your homework and spend some time gathering thorough and credible documentation. Unsuccessful petitions are most often characterized by a lack of documentation or an incorrect understanding of the requirements.

Documentation

Your required documentation will be as unique as you are. The documents requested are based on how you answer the online questionnaire and there is not a fixed list of documents that applies to everyone. Petitions that are lacking sufficient documentation will be denied. Written or verbal statements of intent will not meet your burden to provide objective evidence. You will also have the ability to submit something we didn't ask for. It can be hard to know what might be helpful to students in every situation, but feel free to submit anything you think will support your request.

Burden of proof

The burden of proof is yours. Your documentation will need to support your claim that you are meeting all requirements for in-state classification. Per ABOR policy, verbal testimony and statements of intent are weighed in light of the fact that you understand a change in classification will result in a substantial reduction in tuition.

Petition fee

There is a \$50, non-refundable fee required if you are requesting reclassification as an independent student, dependent student, spouse or transferred employee. The petition fee can be paid online after you submit your petition. The Residency Classification Office cannot accept or process any fee payments. There are no fees associated with the following petition types: Military, Veteran, Native American, AmeriCorps/VISTA and Teacher Waiver.

Integrity

Misrepresentation or falsification of any information related to your residency classification can result in significant penalties. Students who have omitted, falsified, or misrepresented any information in effort to obtain resident status will be referred to Student Rights and Responsibilities [18] for disciplinary action. This may include dismissal from the university or forfeiting your right to request reclassification for current and future terms.

Processing time

Processing times vary and are largely dependent on when your petition and supporting docs are submitted. Average processing time is 4-6 weeks, but decisions will take longer for petitions that are submitted within one month of the petition deadline. If you need a decision prior to the first day of classes, you should submit everything (petition and all required documents) no later than the priority deadline. [19]

Checking your petition status

The status of your petition can be viewed from the residency petition dashboard [20]. This is also where you submit your petition and all supporting documents.

The lifespan of a petition is characterized by different statuses and will vary from student to student: In most cases, the progression will look like this:

- **In queue:** You've submitted everything and your petition is now ready to be reviewed.
- **Documents needed:** Your petition has been reviewed, but we need additional documents. We will send you an email with details, including instructions on how to upload your new documents.
- **Contact residency:** Your petition has been reviewed, but we would like to talk with you about something. Give us call or send us an email so we can finish reviewing your petition.
- **Pending:** New information has been added to your petition and is ready for a 2nd review.
- **In review:** A decision will be sent to you in the next 7-10 days. We have all that we need, but need a little time to make our finalize our decision.
- **Approved:** Congrats! Your request has been approved. You will also get an email with details – please read this carefully as residency changes can affect other things besides tuition – for example, refunds or financial aid.
- **Denied:** Your request has been denied. We will also notify you via email. If denied, you will also be given a detailed decision summary that explains our decision.
- **Withdrawal Warning:** You have not submitted all of your required documentation and your petition is at risk of being withdrawn. Submit all required documents prior to the document deadline so that your petition can be put "in queue".
- **Withdrawn:** Your petition has been withdrawn and a decision will not be rendered.

Your petition may skip steps or bounce between different statuses. This is normal and how we manage workflow for hundreds of petitions every semester. Keep an eye on your email and track your status from the dashboard. [20]

Petition outcome

Decisions are based on the quality of your documentation and the extent to which you have met your burden of proof. There are no exceptions granted due to unusual circumstances or financial hardship. ABOR policy defines the circumstances under which a student can be classified as a resident for tuition purposes and the Residency Classification Office and university does not have the authority to make exceptions.

Committee review

If your residency petition is denied and you believe this decision is erroneous, you can request a committee review. [21] This is a formal request to have your petition reviewed by the Residency Review Committee. The deadline to request a review will be indicated on your denial notification. Requests made after your deadline will not be processed.

Tuition and fees

Your tuition and fees are dependent on your residency classification. Until your classification is changed, you are a non-resident for tuition purposes and having a petition pending does not absolve you from your responsibility to pay your tuition and fees in full by the published deadline [15] per university policy. If your petition is approved, overpayments will be refunded to you; however, late fees and payment plan fees (if applied) are non-refundable.

Financial aid

Financial aid is calculated based partly on cost of attendance. Changes to your residency classification may cause your financial aid to be recalculated and adjusted accordingly. In some cases, your aid may be reduced or cancelled and you may be required to return funds that have already been disbursed to you. If you have questions, contact Financial Aid and Scholarship Services. [22]

Visa types and residency for international students

Students who hold a visa that requires them to maintain a foreign domicile or that otherwise prohibits establishing domicile in Arizona cannot be classified as residents for tuition purposes. Temporary or non-immigrant visas do not allow an individual to obtain a permanent status in Arizona regardless of the length of the visa or the number of times it is renewed. Students who are classified as residents but are then issued a non-eligible visa type will be changed to non-resident. Please see visa types and residency eligibility list [23] for additional information.

Proposition 308

Information about Prop. 308 can be viewed: here [2]

ASU campuses and locations in other states

Per Arizona revised statutes, a person having a domicile other than the state of Arizona is not eligible for classification as an in-state student for tuition purposes. If you are a student at an ASU campus or location outside of Arizona, you will be classified as a nonresident unless you provide objective evidence that you are domiciled in Arizona (i.e., Arizona is your true, fixed and permanent home).

Residency petition documentation

Your documentation is a critical part of your petition. However, the list of documents needed can only be generated after you have completed the online questionnaire portion of your petition. Use the residency navigator [1] to help determine which petition type is most applicable to your situation and start your petition from here. [2]

If you have questions or need assistance, contact the residency office [3] for help.

Submitting documentation

You will use the residency petition dashboard [2] to upload and submit all required documentation. This is a secure application that stores your documents directly to your student record. Be sure to submit all documents prior to the document deadline [4].

Here are some tips to help you with uploading your documents:

- Each requested item requires a separate file. For example, you will have one file for your driver's license, one for your voter registration, etc.
- You can and should upload multiple files for specific items. For example, 12 months of bank statements would be uploaded as 12 separate files. This simplifies the review process and makes it easier to keep track of your documents.
- You can add descriptions to your uploaded documents to clarify what that document is or why it is being provided.
- You can delete documents that were added by mistake; however, once you hit the "Submit Documents" button, your documents are saved to your student record and cannot be removed.
- Your required documents list is generated based on how you answer certain questions. All documents are important and not providing something may cause your petition to be denied.
- Per ABOR guidelines, "Objective Evidence" means documentation or information other than an individual's own statement(s) of intent. Statements of intent will not meet your burden to provide objective evidence.
- You can upload some documents and then return at a later date to finish, but nothing is official until you click on the "Submit Documents" button.
- You won't be able to submit your documents until request documents have been uploaded.
- Acceptable file types are: .BMP, .CSV, .DOC, .DOCX, .JPEG, .JPG, .PDF, .PNG, .RTF, .TIF, .TIFF, .TXT, .XLS, .XLSX
- Make it easy for your evaluator to quickly make sense of your documents by giving each file a unique or descriptive name, e.g., "May_2021_Bank_Statement".

If you get stuck or have an issue, try this: [How to Upload Documents \[5\]](#). Or, let us know - we can help you through the process.

Petition fees

Petition fees can be paid from the Residency Petition Dashboard [6]. If payment is required for your petition type, your petition will not be reviewed until this fee is paid. The Residency Classification Office cannot accept or process any fee payments.

Petition instructions

Click on the link below to find instructions for your petition type.

\$50 fee required

Independent Student [6]
Dependent Student [7]
Spouse of an Arizona Resident [8]
Transferred Employee [9]

No fee

Military Exception [10]
Veteran Exception [11]
American Indian Exception [12]
Teacher Waiver [13]
AmeriCorps/VISTA Exception [14]

Additional information

- Petitions are processed based on when they are completed (and marked as “in queue”). Submit your petition and supporting documents as early as possible.
- When you submit a petition, a priority task will appear in My ASU [15] to remind you to support your petition with appropriate documentation. Once we have what we need, this task will be removed.
- The university considers all information relevant to your request – this includes anything in your academic record – e.g. admissions application, financial aid awards, etc.
- We may verify the authenticity of all documents provided and may add our own research or findings to your petition.
- You are expected to provide all required documents. If there is something you can't provide, please submit a written explanation instead.
- Your documentation must be clear and legible.
- All students are advised to redact sensitive information prior to the submission of certain documents, e.g., your social security number on your tax return.
- You may be asked for additional documents or written explanation.
- The burden of proof belongs to you. It is your responsibility to support your petition with appropriate documentation.
- Applications and accompanying documentation will be retained by Arizona State University in accordance with university approved requirements. All information will be kept confidential as required by law and university policy.

Residency deadlines

Deadlines are critical and missing a deadline can have significant consequences. Refer to the table below to ensure your petition is submitted in a timely manner.

Deadlines - what they mean & why they are important	Fall 2024	Spring 2025
Petition Deadline - This is the most important deadline. <i>Don't miss this deadline.</i> Failure to submit a petition by this deadline constitutes a waiver of your right to petition for this semester. Exceptions are not granted and there is no option to appeal a missed deadline.	8/28/2024	1/19/2025
Document Deadline - This is the last day to submit supporting documentation and pay the fee for your petition (if applicable). Petitions that are lacking supporting documentation will be withdrawn.	9/12/2024	2/3/2025
Petition Availability - Petitions for each semester are only available to students during this time-frame	2/1/2024 - 8/28/2024	9/12/2024 - 1/19/2025
Priority Deadline - Petitions submitted and supported by all required documents prior to this date will be reviewed before the tuition payment deadline. [1]	6/1/2024	11/1/2024
<i>All dates are subject to change</i>		

Petition availability

The petition is only available to non-resident students who are both admitted and term-activated for the semester in which they wish to petition (which means the semester in question has been enabled for the student – this usually coincides with registration and enrollment). The petition is not available to parents, spouses, or anyone except the student (i.e. petition can only be accessed using the student's asurite ID).

When to submit your petition

Submit your petition before the petition deadline and as early as possible. However, don't submit your petition prior to meeting all stated requirements. For example, independent students who won't meet the continuous physical presence requirement until August 1, should submit their petition after August 1; dependent students who qualify because a parent is moving to Arizona should not submit their petition until after their parent has moved to Arizona. Submitting your petition before you meet requirements may result in your petition being denied or delayed (pending additional documents).

Processing time

Processing times vary and are largely dependent on petition type and when all supporting docs are submitted. Average processing time is 2-6 weeks. Petitions submitted within one month of the petition deadline tend to take longer and often are not completed before classes begin. If you need an early decision, please submit everything (petition and all required documents) no later than the priority deadline (see above).

Residency petition committee review

Students that petitioned for residency reclassification [1] but were denied by the residency office can request a review of their decision per ABOR 4-205. Reviews are only conducted only after the student's petition has been denied by the residency office.

The petition review process gives the student an opportunity to meet with the Residency Classification Review Committee and to provide additional information in support of their request to be classified as a resident for tuition purposes. Decisions made by the review committee are final.

Deadlines

Per policy, all requests for review must be filed no later than 35 days after the last day of registration [2] for the term for which your petition was submitted. Failure to file a request for a review hearing within the time prescribed shall constitute a waiver of the right to request a review hearing and the determination made by the Residency Classification Office shall be final. Students cannot request a review until their residency petition has been denied. The deadline to request a committee review will be noted on the decision summary prepared by the residency office.

Submit your review request

Before submitting your request, please review your decision summary and denial letter [1] (and current Arizona Board of Regents (ABOR) guidelines. [3]) If you do not have a denial letter or decision summary, you are not yet eligible to request a committee review.

- Form: Residency Petition Committee Review Request [4]
- Additional instructions are included on the form.

New documentation

New documentation should be submitted with your review request. You will have 7 days after submitting your request to upload and submit additional documentation. This ensures that all review committee members have sufficient time to consider this new information prior to your hearing.

Scheduling

Hearing schedules are created prior to each semester based on committee member availability. Every effort will be made to accommodate your class schedule; however, with limited dates and times there can be no guarantee that your hearing will be compatible with your schedule. Requests for changes must be submitted in writing no later than 5 business days prior to your scheduled hearing.

- Reviews are prioritized and scheduled based on receipt date of your request.
- You will receive notification of your scheduled review at least 7 business days prior to your hearing.
- Hearings are only scheduled on weekdays and may be scheduled during spring, fall or winter breaks.

Review hearing

All review hearings will be conducted via Zoom and hosted by a representative from the University (who otherwise does not participate). Committees will have 3, 4 or 5 voting members, all of whom will have a thorough understanding of your situation and applicable residency requirements. Members will review all aspects of your petition and ask questions relevant to your situation. Your hearing is limited to 30 minutes and a decision will be made at either the conclusion of your hearing or within 10 business days.

Attendance

It is preferable, but not required, that you attend this hearing. If you choose to not attend, your hearing will be held in absentia and the committee will make their final decision based on all information available to them. Hearings held in absentia cannot be rescheduled.

Counsel or representation

You are allowed to invite witnesses or have legal representation at your hearing. If an attorney or other person(s) will be representing you at your hearing, please provide the Residency Office with that information in advance. The format of your hearing will be determined by the committee.

Review committee decision

Decisions of the Residency Classification Review Committee are final. Overturning the decision to deny your petition requires a majority vote from the committee. In the unlikely event of a tie vote, the original decision made by the Residency Office shall stand.

Written notice of the decision made by the committee will be sent to the email address assigned to you by the University, i.e., your @asu email address.

Per ABOR policy, if your decision is upheld by the review committee (i.e. denied), there are no further procedures within the university available to you, but you may have the right to seek judicial review in the state courts. See ABOR 4-205 [5] for additional information.

Other considerations:

- All review hearings are recorded, as required by ABOR policy.
- If the decision to deny your petition is overturned, your tuition will be adjusted and/or refunded for the term in question, as applicable.
- Committee members must comply with ABOR guidelines and have no authority to make exceptions.
- Having a review scheduled does not excuse you from other deadlines, obligations or commitments, including submitting a new petition for subsequent semesters.

Tuition and fees

ASU tuition

What is tuition?

Tuition is what you pay to attend classes and earn your degree. When you hear someone say, “Tuition is \$12,000 dollars,” that usually means it is \$12,000 for the entire year (i.e., fall and spring semester — summer sessions tuition is usually additional). Along with tuition costs, students usually have to pay other fees. These can include athletic, lab and technology fees. Your tuition does not include certain things like your books, campus housing and food. Find a personalized tuition estimate based on your information, degree choices and residency by using the tuition estimator.

How much is ASU tuition?

Everyone's tuition differs depending on a number of factors such as what you study, how much financial aid you get, whether you live on campus and more.

Most students at ASU take advantage of financial aid. Using the tuition estimator tool, select the category that fits you best to find an estimate of how much tuition will cost for you at ASU without financial aid and before other cost reductions.

Tuition estimator [1]

Source URL: <https://tuition.asu.edu/>

Links:

[1] <https://tuition.asu.edu/cost/tuition-estimator>

Definitions of tuition costs and fees

As an ASU student, you will pay tuition (the cost of taking your classes) and fees (a charge for the use of something like technology or the gym). Your tuition and fees will differ from other students based on a variety of factors.

What are the tuition and fees at ASU?

ASU tuition costs vary on a number of things, the biggest being whether you are a resident or nonresident of Arizona. To determine your tuition and fees, visit our Tuition Estimator. [1]

ASU fees also vary by student type, but there are some fees, such as the athletics fee, that all students are required to pay. (But by paying it you get to attend all ASU Athletics events. Go Devils!) View a complete list of ASU fees. [2]

Types of ASU tuition

Resident tuition

Students who have established that they are Arizona residents for tuition purposes typically attend college at a lower rate than out of state students. Students are asked to prove their residency status by meeting certain criteria. [3]

Nonresident tuition

Students who are not residents of Arizona will pay an out of state tuition rate. Some non-resident students may be eligible for reduced tuition through programs such as the Western Undergraduate Exchange. [4]

International tuition

As an international student, you'll pay ASU for tuition and fees. Housing and food, books, course materials, supplies, and equipment, transportation, and personal expenses will vary. Learn more about tuition as an international student. [5]

Online tuition

Online tuition and fees are closely aligned with campus tuition and fees, and ASU doesn't have out-of-state tuition for online students. Exact tuition costs will depend on your program, transfer credits and course load. Learn more about ASU Online tuition. [6]

Common ASU fees

Colleges charge students various fees to support certain programs that in turn support students. These fees vary depending on the college. Read on for some examples of ASU student fees. This is not a complete list of ASU student fees, but is intended to give you an idea of what they are and what they're for.

- **Recreation fee (\$25)** to support programs and services at the Sun Devil Fitness Complex.
- **Student service facility fee (\$75)** to build and refurbish common student spaces.
- **Student programs fee (\$35)** for programs that support the student experience.
- **Health and wellness fee (\$55)** for health and counseling services.
- **Student athletic fee (\$75)** to support Sun Devil Athletics (and get free tickets in return).
- **College and school fees** These fees vary depending on your college. Check with them for more details.

See a complete list of fees [2]

How can I find out how much my tuition will be?

1. Identify which ASU degree you want to earn.
2. Determine whether you are an in-state resident, or if you are an out-of-state, or international student.
3. Determine your general costs by using the tuition estimator [7] and list of common fees. [2]
4. Explore your financial aid options.
5. Receive an estimate of how much financial aid you can apply to tuition costs.
6. Existing students will receive monthly eBills on My ASU.

Qualified tuition reduction

The Qualified Tuition Reduction Program permits eligible employees to take advantage of educational opportunities at the University.

For additional information

Please review SPP 505 [1], Employee-Reduced In-State Tuition, for additional information regarding eligibility and benefits.

Qualified tuition reduction program eligibility

Reduced in-state tuition is available to faculty and staff who are employed at least 50% within the state university system, their spouses and dependent children. You must be employed on the first day of the session to be eligible for employee

reduced in-state tuition. At ASU, the Qualified Tuition Reduction Form must be submitted on or before the first day of a session to qualify for reduced tuition.

Institutional merit-based aid provided by the University [2] will not exceed the value of stated resident tuition for each respective academic year when combined with the Qualified Tuition Reduction (QTR, a benefit for faculty and staff) or other tuition reduction programs (or waivers). Students offered multiple awards designated for base tuition, cannot receive more than 100% of base tuition. For questions regarding how your qualified tuition reduction benefit may impact your other financial aid awards, please contact Financial Aid. [3]

Additional information

Qualified tuition reduction form(s)

ASU employees must complete and submit the Qualified Tuition Reduction Form each semester to receive the reduced in-state tuition benefit for classes taken at ASU, University of Arizona and Northern Arizona University. Forms can be signed and submitted electronically utilizing Adobe Sign. Forms can be obtained online [4] and will be routed accordingly to Student Business Services for review and processing upon electronic signature by the employee. Please allow 3-5 business days before your qualified tuition reduction benefit will be reflected on your ASU student account. Forms should be submitted prior to the first day of classes and early to ensure timely processing. The outstanding balance of the ASU tuition will remain on your student account and should be paid by the tuition payment deadline to avoid late fees.

NAU and U of A classes; ASU retirees

Please note there is a separate qualified tuition reduction form for classes at U of A or NAU and for ASU retirees taking classes at U of A, NAU or ASU. The qualified tuition reduction form for U of A/NAU/Retiree staff must be approved by staff in ASU Human Resources and then will be forwarded accordingly to the tuition payment office at the campus where classes are being taken.

Affiliate organizations

Employees of ASU affiliate organizations are also eligible for the qualified tuition reduction benefit upon verification of their employment with the affiliate organization. A different form is necessary for employees of ASU affiliates. Upon submission of the form, ASU Student Business Services will verify employment with the applicable affiliate contact and, when confirmed, will apply the tuition reduction benefit. Due to the additional verification involved, please allow 7-10 business days for your benefit to be reflected on your ASU student account.

All forms are available on the CFO website [5] along with additional information about the qualified tuition reduction benefit. For questions or for employees preferring to manually sign their qualified tuition reduction form, please contact Student Business Services at tuitionreduction@asu.edu. [6]

Prop. 308

What is Prop. 308?

Arizona Proposition 308 is a legislative referral that was on the November 2022 ballot. Voters passed Prop. 308, and it became effective Dec. 5, 2022, after the election results were certified and proclaimed to be law by Governor Ducey. The Arizona Board of Regents approved Prop. 308 for implementation on Dec. 13, 2022.

With the passage of Arizona Prop. 308, some students who qualify as noncitizens may be eligible for an in-state college tuition rate. Students will be notified via email of any impact to the status of their tuition. Arizona State University is currently reviewing how Prop. 308 will impact ASU financial aid eligibility criteria.

Understanding Proposition 308: Frequently Asked Questions

What does Prop. 308 do?

Prop. 308 made two significant changes to Arizona law.

First, with the passage of Prop. 308, a qualifying non-citizen student, with statutorily defined exceptions [1], is eligible for in-state resident tuition at state universities and community colleges if the student both:

1. Attended an Arizona public or private high school, or homeschool for a minimum of two years; and
2. Graduated from an Arizona public or private high school, or homeschool equivalent, or obtained an Arizona high school equivalency diploma, e.g., a general equivalency diploma (GED).

Second, Prop. 308 repealed A.R.S. § 15-1825, and now non-citizen students are eligible to receive financial aid funded in whole, or in part, with state monies, regardless of immigration status.

In-state tuition and Prop. 308

Who qualifies for in-state tuition under Prop. 308?

A qualifying noncitizen student, other than the nonimmigrant aliens described under 8 U.S. Code § 1101(a)(15), are eligible for in-state tuition under Prop. 308, regardless of immigration status, if the student meets both of the following criteria:

1. The student attended any public or private high school or homeschool equivalent while physically present in Arizona for at least two years; and
2. The student graduated from any public or private high school or homeschool equivalent in Arizona or obtained a high school equivalency diploma in Arizona a, i.e., a GED.

Do the two years of physical presence in Arizona while attending high school need to be consecutive?

No. Students do not need to have two years of consecutive presence. However, to be eligible, they still must provide documentation that they both:

1. Attended any public or private high school option or homeschool equivalent while physically present in Arizona for at least two years; and
2. Graduated from a public or private high school option or homeschool equivalent or obtained a high school equivalency diploma in Arizona.

Will students with visas be eligible for in-state tuition?

Nonimmigrant aliens described under 8 U.S. C. § 1101(a)(15) are not eligible for in-state tuition under Prop. 308. This includes, but is not limited to, students who hold F1, F2, J1, H4 or H1 visas. For a complete list, please look at 8 U.S. C. § 1101(a)(15).

Nonimmigrant aliens described under 8 U.S. Code § 1101(a)(15) are not eligible for in-state tuition under Prop. 308.

Do the qualifying noncitizen students eligible for in-state tuition under Prop. 308 also need to prove domicile under A.R.S. § 15-1802?

No. A qualifying noncitizen student will pay in-state tuition if they meet the requirements of A.R.S. § 15-1803(B):

1. The student attended any public or private high school or homeschool equivalent while physically present in Arizona for at least two years; and
2. The student graduated from any public or private high school or homeschool equivalent in Arizona or obtained a high school equivalency diploma in Arizona, i.e., a GED.

When will these qualifying noncitizen students be eligible to receive in-state tuition?

Prop. 308 became effective Dec. 5, 2022, after the election results were certified, and proclaimed to be law by Governor Ducey. ASU will begin to apply it toward the spring 2023 semester.

Are current qualifying noncitizen students eligible for in-state tuition?

Yes. Students who meet the requirements of Prop. 308 are eligible for in-state tuition for any semester that starts after Dec. 13, 2022. Prop. 308 does not have a retroactive effect, so students will not be reclassified for semesters that began prior to Dec. 13, 2022.

What should I do if I have questions about my residency status?

Please contact a team member at residency@asu.edu [2] about your ability to qualify for in-state tuition under Prop. 308.

Financial Aid and Prop. 308

How does Prop. 308 impact eligibility for financial aid?

Prop. 308 repealed an Arizona law (A.R.S. § 15-1825) that prohibited students who were not citizens of the United States and who were “without lawful immigration status” from receiving financial assistance subsidized or paid in whole, or in part, with state monies, such as tuition waivers, fee waivers, grants, scholarships, and any other type of financial aid or assistance.

With the passage of Prop. 308, all students – regardless of immigration status – may be eligible to receive financial aid paid in whole or in part with state monies to attend an Arizona public university or an Arizona community college. While Prop. 308 eliminated barriers to eligibility for financial aid based on immigration status, a student must still meet all other requirements of the state financial aid they are seeking.

To be eligible for state financial aid, a student does NOT need to meet the Arizona high school attendance or graduation criteria. That applies only to eligibility for in-state tuition.

Prop. 308 does not impact the eligibility requirements to receive federal financial aid.

When the law takes effect, are students who are eligible for in-state tuition under Prop. 308 also eligible for the Arizona Promise Program?

No. To qualify for the Arizona Promise Program, a student must meet all the eligibility requirements under A.R.S. § 15-1701. One requirement of the Promise Program is that a student must qualify for a Pell Grant, which is federal need-based financial aid. Aliens without legal immigration status, who are not citizens or legal permanent residents, do not qualify for federal financial aid. More information about the Arizona Promise Program, including eligibility requirements, is available at: www.azregents.edu/programs/arizona-promise-program. [3]

Students impacted by Prop. 308 may be eligible for other state or college financial aid, in addition to private scholarships.

What other scholarships are the students impacted by Prop. 308 now eligible to apply for?

ASU offers a number of financial aid opportunities, including merit scholarships and need-based aid. Students who meet the requirements of ASU scholarships and financial aid programs are now eligible to receive them, regardless of immigration status. For additional information, visit the New American University scholarship page [4] or use the first-year merit scholarship estimator [5].

Should the students who are impacted by Prop. 308 complete the FAFSA application?

Any student who wants to apply for financial aid and who can complete the FAFSA, should complete the FAFSA. However, a student must have a Social Security number to complete a FAFSA application and some of the students who are impacted by Prop. 308 may not be eligible to complete the FAFSA. Students can visit ssa.gov/pubs/EN-05-10009.pdf [6] for more information on how to obtain an SSN.

CSS Profile: CSS Profile [7] is an online application used by colleges to award nonfederal institutional aid. The tool helps us determine eligibility and understand your specific financial situation. CSS Profile is available to qualifying domestic noncitizens who are unable to complete the FAFSA. ASU's CSS Code is 4007.

Please note: If you are eligible to submit the FAFSA, do not submit a CSS Profile application.

Have questions?

Please contact a team member at residency@asu.edu [2] about your ability to qualify for in-state tuition under Prop. 308.

Tuition and fee descriptions

What are ASU tuition and fee descriptions?

ASU tuition and fees are approved annually by the Arizona Board of Regents. In addition to resident and nonresident tuition, commonly billed tuition and fees include:

Differential tuition and program tuition

Certain colleges and programs assess additional differential and program tuition as approved by the Arizona Board of Regents. Visit the tuition and fees schedules [1] for college and program specific tuition and fees.

Excess hours tuition

The Arizona Legislature enacted legislation in 2005 (A.R.S. § 15-1626) that establishes credit hour thresholds for undergraduate students who attend a public university in Arizona. Undergraduate students who enroll for credit hours beyond the applicable threshold are required to pay an excess hours tuition surcharge. Students who have more than 145 credit hours will be assessed the undergraduate excess hours tuition surcharge.

See exemptions [2]

Undergraduate college fee 1-4

The Undergraduate college fee is one of four fee categories based on a student's program of study. ASU conducted a comprehensive review of all instructional costs for every program. Programs of study with similar costs were grouped together, and those fees were averaged to determine an amount of each category. Please note that some programs of study are categorized differently based on a student's online or immersion status. *Visit the Tuition Estimator [3] to determine your undergraduate college fee.

Technology fee

The technology fee assessed to students funds technology initiatives including implementation of ASU's wireless network, delivering university-licensed software to all students, increasing the number of technology-enabled classrooms, reducing dependence on computing labs and expanding and improving online self-service environment.

Graduate student support fee

The graduate student support fee helps fund resources and services that support graduate students, including technology resources and services, instructional and laboratory expenses in departments and schools, and graduate student services.

Special class, hybrid, oCourse, iCourse fees

Special class, hybrid, oCourse and iCourse fees are assessed based on enrollment in specific classes. These fees are published with each class through class search [4].

Late registration fee

All students who register beginning the week before the first day of the semester will be assessed a late registration fee of \$50.00, with the exception of students enrolling only in late start sessions. Students enrolling exclusively in late start sessions, will be assessed the late registration fee beginning one week before the session start date. Please see Tuition Deadlines [5] for specific dates. Registration after the published deadline may be permitted under extraordinary circumstances if approved by an authorized college designee. Late fees are not refundable.

**The College of Nursing and Health Innovation post-bac BSN will continue to maintain a separate fee. All other nursing programs will be in undergraduate college fee 3

Student initiated fee

ASU's student government leaders, on behalf of the students they represent, sought and received ABOR approval for the following student initiated fees. Funding from these fees will be used to enrich the student experience.

Recreation fee

The recreation fee of \$25.00 per semester supports programs and services at the Sun Devil Fitness Complexes. Additionally, these funds are used to provide support for programs/services like intramural sports and activities, a broad array of fitness classes, aquatics programs, instructional classes, and health education workshops, events and programs. It also supplements student employment opportunities for over 500 on-campus student positions. There is an advisory board that provides routine feedback on services, hours and programs to support guidance for overall student well-being. Students interested in serving on a Sun Devil Fitness Advisory Board are encouraged to apply. [6]

Student service facility fee

Students pay \$100.00 per semester to a combined fund which is then utilized to build and refurbish student spaces such as Memorial Union, Sun Devil Fitness Complexes, etc. The student service facility fee allows for the enhancements of existing facilities and the planning and development of new student service facilities to meet the needs of a growing student population. For a list of facilities built and supported by the fee click here [7]. Students interested in serving on the facility fee university board to participate in discussions on these building projects are encouraged to apply. [6]

Student programs fee

The student programs fee provides funding for student programming initiatives. Undergraduate students pay \$35.00 per semester and graduate students pay \$35.00. Managed by the student government at each location, this fee is used to create programming that supports the student experience, student needs and interests. Recipients of the programs fee funding include: Programming and Activities Board (PAB) [8], clubs and organizations [9], sports clubs [10], Council of Coalitions [11], and the childcare subsidy [12]. In addition to these, each USG and GPSA also uses this fee to help support professional development, travel funding to support research and attend conferences, and large-scale student programs and activities — to apply for these funding opportunities visit your student government website [13]. For detailed information about each student government’s budget please visit this website. To provide feedback or ask questions about the fiscal budget please reach out to your respective student government president [14].

Health and wellness fee

Students pay \$80.00 per semester to the health and wellness fee supplement the operation of ASU Health and Counseling Services. Funding supports a portion of the operating budget for medical and psychological services and health education and promotion. The Health Services Advisory Board provides routine feedback to the Director of Health Services on services provided, quality and efficiency of care, new innovations, and student needs. Students interested in serving on the Health Services Advisory Board are encouraged to apply. [6]

Student athletic fee

Students pay \$75.00 per semester for the student athletic fee which supplements and supports the operations of Sun Devil Athletics, in exchange for a reinvestment of university funds into student identified priorities. Through the establishment of this fee, the tuition dollars traditionally allocated to Sun Devil Athletics will be reinvested into the university system in order to grant additional resources and services as identified by the Associated Students of Arizona State University, thereby establishing students as effective stakeholders in both Sun Devil Athletics and the university system, and furthering transparency between the university and the Associated Students of Arizona State University [15] over tuition dollars. These priorities were established by the Athletic Fee Operations Board and over the years have included salary increases for research and teaching assistants to a minimum standard, expanding transportation services to include weekends and holidays, free attendance to all ASU football games, and free graduate test prep programs [16]. Students interested in serving on the Athletic Fee Operations Board are encouraged to apply. [6]

***Financial aid trust fee

The financial aid trust fee [17] assessed to all students as authorized by the Arizona Legislature. ***This is a fee that all ABOR students pay, including online students.***

Student financial aid trust grants are assistance provided in partnership between ASU students and the state legislature. All students are assessed this fee to create a financial aid trust fund, from which financial aid trust grants are awarded under the usual aid eligibility criteria. Fees collected from students are matched by the State of Arizona. Priority for these limited awards is given to eligible undergraduate students who file their FAFSA by the priority filing date of January 1 and who are Arizona residents or underrepresented students with high financial need.

Tuition and fees schedules

All amounts shown in the Tuition and Fees Schedules or in other University publications or webpages represent tuition and fees [1] as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

⁽¹⁾ Undergraduate students with total credit hours in excess of the threshold established by the Arizona Legislature are required to pay tuition on these excess hours. For resident students, the excess hours tuition is \$164 per credit hour up to a maximum of \$1,148 for enrollment in 7 or more credit hours. Students should see Undergraduate Excess Hours [1] for additional information.

⁽²⁾ Students admitted to Barrett, the Honors College are assessed a \$1,000 honors fee each fall and spring semester in addition to the tuition and fees presented above.

⁽³⁾ All amounts shown in the Tuition and Fees Schedules or in other University publications or webpages represent tuition and fees as currently approved for the 2024-2025 academic year. Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents. Students should note that all tuition amounts and fees are subject to change at any time for correction of errors and may be adjusted at a future date.

⁽⁴⁾ ASU's student government leaders, on behalf of the students they represent, have sought and received ABOR approval for the Health and Wellness fee, Student Athletics fee, Student Programs fee, Student Services Facility fee and Recreation fee. Funding from these fees will be used to enrich the student experience. Included with the Student-initiated fee is the Financial Aid Trust fee as authorized by the Arizona Legislature to create a Financial Aid Trust Fund.

⁽⁵⁾ The Edson College of Nursing and Health Innovation post-bac BSN, the Ira A. Fulton Schools of Engineering Professional Flight program, and the ASU-Draper University Entrepreneurship Incubator Program will continue to maintain a separate program or class fee.

Total resident online undergraduate tuition and fees	\$744	\$1,442	\$2,140	\$2,838	\$3,536	\$4,234	\$4,961	\$5,659	\$6,357	\$7,054	\$7,178	\$7,302	\$7,426	\$7,550	\$7,674	\$7,798	\$7,922	\$8,046

(1) Online tuition for resident students is capped at 10 credit hours, which is a maximum rate of \$5,739.

(2) Students admitted to Barrett, the Honors College are assessed a \$1,000 honors fee each fall and spring semester in addition to the tuition and fees presented above.

(3) Undergraduate students with total credit hours in excess of the threshold established by the Arizona Legislature are required to pay tuition on these excess hours. For online students, the excess hours tuition is \$115 per credit hour up to a maximum of \$1,380 for enrollment in 12 or more hours. Students should see Undergraduate Excess Hours [1] for additional information.

(4) All amounts shown in the Tuition and Fees Schedules or in other University publications or webpages represent tuition and fees as currently approved for the 2024-2025 academic year. Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents. Students should note that all tuition amounts and fees are subject to change at any time for correction of errors and may be adjusted at a future date.

(5) The College of Nursing and Health Innovation *post-bac BSN*, the Ira A. Fulton Schools of Engineering Professional Flight program, and the ASU-Draper University Entrepreneurship Incubator Program will continue to maintain a separate program or class fee.

(6) The College of Nursing and Health Innovation *RN to BSN* program will continue to maintain a separate program fee or base tuition rate. For this program, undergrad tuition for resident students is capped at 11 credit hours, which is a maximum rate of \$5,739. Please review our ASU Tuition Estimator [2] for additional details regarding the program.

(7) ASU's student government leaders, on behalf of the students they represent, have sought and received ABOR approval for the Health and Wellness fee, Student Athletics fee, Student Programs fee, Student Services Facility fee and Recreation fee. Funding from these fees will be used to enrich the student experience. Included with the Student-initiated fee is the Financial Aid Trust fee as authorized by the Arizona Legislature to create a Financial Aid Trust Fund.

*The resident rate above pertains to Arizona residents. For additional information on residency classification requirements, students should refer to Residency for Tuition Purposes. [1]

(1) Undergraduate students with total credit hours in excess of the threshold established by the Arizona Legislature are required to pay tuition on these excess hours. For resident students, the excess hours tuition is \$164 per credit hour up to a maximum of \$1,148 for enrollment in 7 or more credit hours. For non-resident students, the excess hours tuition is \$270 per credit hour up to a maximum of \$3,240 for enrollment in 12 or more credit hours. Students should see Undergraduate Excess Hours [2] for additional information.

(2) Students admitted to Barrett, the Honors College are assessed a \$1,000 honors fee each fall and spring semester in addition to the tuition and fees presented above.

(3) All amounts shown in the Tuition and Fees Schedules or in other University publications or webpages represent tuition and fees as currently approved for the 2024-2025 academic year. Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents. Students should note that all tuition amounts and fees are subject to change at any time for correction of errors and may be adjusted at a future date.

(4) ASU's student government leaders, on behalf of the students they represent, have sought and received ABOR approval for the Health and Wellness fee, Student Athletics fee, Student Programs fee, Student Services Facility fee and Recreation fee. Funding from these fees will be used to enrich the student experience. Included with the Student-initiated fee is the Financial Aid Trust fee as authorized by the Arizona Legislature to create a Financial Aid Trust Fund.

Tuition payment options

Paying your bill

Students and parents have a variety of options for easily paying their tuition and charges. Our team is here to help you figure out which option is right for you so that you can stay on track and keep your account current. Keep in mind that in order for a parent or guest to make a payment, they need to have guest access in My ASU.

Watch video: How to make a payment. [1]

Watch video: How to grant guest access. [2]

How can I make payments?

You have a choice of convenient options to make your payments. See which option is best for you.

Pay online

To pay online, you can submit your payment on My ASU.

1. Sign in to My ASU. [3]
2. Select the Finances link at the top of the page.
3. Click Pay Bill to be transferred to QuikPAY.

eChecks (electronic check payment)

eChecks are a fast and simple online payment method that can be made from a U.S. checking or savings accounts. You'll need your bank's routing number and your account number, which you'll find on the bottom of your checks or you can get it from your account with your financial institution. eChecks are ASU's preferred payment method and are free. Read the eCheck FAQs [4] for more information.

Credit and debit cards

ASU does not directly accept credit or debit card payments for tuition and student account charges, but has arranged for a third-party processor to accept Visa, MasterCard, Discover and American Express payments online through QuikPAY. *The processor charges a non-refundable 2.5% service fee for credit and debit card payments.* Credit and debit card payments are only accepted online and are not accepted by mail, over the phone or in person. Read the credit card FAQs [4] for additional information.

International payments - Flywire

International students can make payments safely and securely through Flywire. With Flywire, you can make payments from banks worldwide with favorable exchange rates, typically in your home currency. You also have 24-hour multilingual customer support via email, live chat or phone to assist you with payment-related questions. See additional information about Flywire. [5]

Note: Please be aware that Flywire is the only vendor authorized by ASU to facilitate international payments. For safety and security reasons, you should not attempt to make international payments through other companies or third-party vendors or via direct wire transfers to the university, especially those requesting My ASU login credentials, which should be kept private at all times.

In person

Personal checks, cashier's checks, money orders and cash payments are accepted in person at Cashiering Services locations on all four campuses. [6]

By mail-in check or prepaid college savings plan

ASU accepts personal checks, cashier's checks, money orders, and prepaid or college savings plan (529) payments by mail. Please make the check or money order payable to the order of Arizona State University and include your student ID number on the memo line. Checks should be mailed to the following address:

ASU Cashiering Services
1151 S. Forest Ave., Ste. 244
PO Box 870303
Tempe, AZ 85287-0303

Mail checks at least two weeks prior to your tuition due date to avoid automatic enrollment in the ASU payment plan.

Federal Perkins Loan repayment

ASU is your lender, and you'll repay ASU once your Perkins Loan moves to repayment status (typically nine months after graduation, withdrawal from school or dropping below half-time enrollment). Monthly payments depend on your loan amount and length of your repayment period. Payments can be made online. For complete details on repaying your Federal Perkins Loan, visit tuition.asu.edu/perkins-loan-repayment. [7]

***Please note that effective September 30, 2017, new Perkins loans are no longer available as this program was discontinued.

What happens if I can't pay my charges on time?

If you miss paying your charges by the deadline, you'll be assessed late fees beginning at 30 days past due.

See the late fees that you may be assessed. [8]

Tuition payment plan

What is the ASU payment plan?

The ASU payment plan is an option to help you attend ASU if you cannot afford to pay your tuition charges by the tuition due date.

How does the ASU payment plan work?

The ASU payment plan offers you the option to budget your payment of certain university charges over several months within the semester. Eligible charges include tuition, housing, food plans, parking permits and health insurance. See chart below that outlines specific ASU payment plan enrollment fee amounts and due dates. [1]

Get enrolled

There are two ways you can enroll in an ASU payment plan.

Automatic enrollment

If you have outstanding charges of \$500 or more after the payment deadline, you'll be automatically enrolled in the ASU Payment Plan and be billed an ASU Payment Plan fee. If you wish to withdraw from your classes and avoid being enrolled in the ASU Payment Plan, you must do so before the semester or session starts. ASU does not withdraw students for nonpayment.

Voluntary enrollment

If you want to enroll in the ASU Payment Plan, log in to My ASU and select the Finances tab. Then click "ASU Payment Plan" in the Financial Success box. Note that you have to re-enroll in the ASU Payment Plan each semester.

ASU payment plan due dates

Fall

ASU payment plan due dates

- August 25
- September 25
- October 25

ASU payment plan enrollment

- \$100 Resident Students
- \$200 Nonresident Students

Spring

ASU payment plan due dates

- January 25
- February 25
- March 25

ASU payment plan enrollment

- \$100 Resident Students
- \$200 Nonresident Students

Summer

ASU payment plan due dates

- May 25
- June 25
- July 25

ASU payment plan enrollment

- \$50 Resident Students
- \$100 Nonresident Students

*The summer sessions enrollment fee is \$50 for resident students or \$100 for nonresident students for each summer session registered in up to a maximum of two sessions.

Who is the payment plan for?

- Students who know they're not able to pay a full bill by the billing deadline.
- Students who have a past due balance of \$500 or more.
- Students who receive financial aid, if aid does not cover all charges.

Payment plan FAQs

How do I avoid enrollment in the ASU payment plan?

Make sure your balance is paid in full by the tuition due date, or is at least under \$500 to avoid automatic enrollment in the ASU Payment Plan. Note that if you owe a balance of under \$500, you will still be subject to a late fee. Review the ASU Late Charge Policy [2] for more information.

Do I need to re-enroll in the payment plan every session?

Yes. Because your financial circumstances can change from semester to semester, you have the option to enroll each semester.

If I enroll in the ASU payment plan before the semester begins and ends up not having a \$500 balance, am I still enrolled in the plan?

Yes. If you voluntarily enroll and charges are paid before the initial designated payment deadline, you will still be assessed the nonrefundable enrollment plan fee.

Can I pay ASU in payments?

Yes. You can enroll in a payment plan each semester, for an additional fee.

Tuition & Fee Payment Deadline

For registration between February 19 and March 18

Financial aid calendar

Note: Dates subject to change at any time for correction of errors or change of policies.

Access previous semester calendars here. [1]

2024-2025**August 2024****Aug 1**

ASU Scholarship Portal Application Deadlines Begin

First time freshmen must submit all requested documents for financial aid verification in order to be considered for the ASU College Attainment Grant Program. For more information about the ASU College Attainment Grant Program, please click here. Meeting criteria and deadline dates does not guarantee placement in the program as funding is limited and the program will close when available funds have been exhausted. For more information visit the special financial assistance programs for Arizona residents. [6]

*There are no exceptions to these dates. Be sure to submit documents early to resolve any potential errors or issues before the deadline dates.

Aug 1

2024-2025 Scholarship Appeal Submission Deadline

If you had your scholarship revoked, you can submit an appeal if you experienced significant, extenuating circumstances beyond your control. For more information visit the Scholarship appeal link. [7]

Aug 2

Last Day to Submit 2023-2024 Parent PLUS Loan Action Form for Summer 2024

If you are attending ASU for Summer 2024 and your parent would like to make changes or accept the Parent PLUS loan, you must submit the 2023-2024 Parent PLUS Loan Action form [8] by this date.

Aug 2

Last Day to Accept Summer 2024 Loans

At 5 p.m. [Arizona time], any loans that are not accepted by the student will not be eligible for disbursement in the summer term.

Aug 6

Deadline to use Pell Book Deferment for Fall 2024 (sessions A and C)

If you are a Federal Pell Grant recipient who has all outstanding financial aid verification documents submitted and are enrolled in fall 2024 sessions A & C, you may obtain your textbooks for the semester online or in person at the Sun Devil Campus Stores and have your book charges billed to your student account. If you are eligible, you will be sent an ASU email each semester with instructions and a link will be provided on My ASU under the finances tab on this date.

Aug 18

Fall 2024 Disbursements Begin (sessions A and C)

Financial Aid and Scholarship Services will begin applying your fall 2024 (sessions A and C) financial aid to your fall charges starting August 18. Check your disbursement status in the Financial Aid Tracker and if it reads "Disbursement," you do not need to take any action. If your status shows anything other than "Disbursement," check Priority Tasks to ensure there is no information needed from you.

Aug 27

Begin using Pell Grant Book Deferments for Fall 2024 (session B only students)

If you are a Federal Pell Grant recipient who has all outstanding financial aid verification documents submitted and are enrolled in fall 2024 session B, you may obtain your textbooks for the semester online or in person at the Sun Devil Campus Stores and have your book charges billed to your student account. If you are eligible, you will be sent an ASU email each semester with instructions and a link will be provided on My ASU under the finances tab on this date.

Aug 28

Fall 2024 Census Date (session A)

This policy affects your award amounts if only enrolled in Session A.. Your census date may be different if you are in a dynamically dated course (i.e., a course that is not a session A, B or C course). For more information, visit the dropping classes as a financial aid recipient page. [9]

September 2024

Sep 11

Fall 2024 Census Date (session C)

For students enrolled in session C (including students enrolled in session A and C): This policy affects your award amounts. Your census date may be different if you are in a dynamically dated course (i.e., a course that is not a session A, B or C course). For more information, visit the dropping classes as a financial aid recipient page. [9]

October 2024

Oct 1

2025-2026 FAFSA Available

The 2025-2026 FAFSA can be submitted starting today. For more information, visit the FAFSA information page. [10]

Oct 1

Deadline to use Pell Book Deferment for Fall 2024 (session B only students)

If you are a Federal Pell Grant recipient who has all outstanding financial aid verification documents submitted and are enrolled in fall 2024 session B, you may obtain your textbooks for the semester online or in person at the Sun Devil Campus Stores and have your book charges billed to your student account. If you are eligible, you will be sent an ASU email each semester with instructions and a link will be provided on My ASU under the finances tab on this date.

Oct 11

Fall 2024 Disbursements Begin (sessions B only students)

Financial Aid and Scholarship Services will begin applying your fall 2024 (session B only) financial aid to your fall charges starting October 11. Check your disbursement status in the Financial Aid Tracker and if it reads "Disbursement," you do not need to take any action. If your status shows anything other than "Disbursement," check Priority Tasks to ensure there is no information needed from you.

Oct 22

Fall 2024 SAP Review Submission Deadline

Submit your Satisfactory Academic Progress Review form before this date in order to appeal any SAP violation for the Fall 2024 semester. Appeals submitted after this date will be considered only for regaining eligibility for the next semester. For more information and link to the eform, please visit the Satisfactory academic progress page. [11]

Oct 22

Fall 2024 Consortium Agreement Submission Deadline

An ASU Consortium Agreement allows ASU degree-seeking students to receive certain financial aid awards based on their combined enrolled hours between ASU and another school during the same semester (i.e., enrolled at ASU and a community college during the same term). For more information, please visit the consortium agreement for Pell Grant and federal loans page. [12]

Oct 22

Fall 2024 SAP Review Submission Deadline

Submit your Satisfactory Academic Progress Review form before this date in order to appeal any SAP violation for the Fall 2024 semester. Appeals submitted after this date will be considered only for regaining eligibility for the next semester. For more information and link to the eform, please visit the Satisfactory academic progress page. [11]

Oct 22

Fall 2024 Census Date (session B)

For students enrolled in session B (including students enrolled in sessions A or C as well as B): This policy affects your award amounts. Your census date may be different if you are in a dynamically dated course (i.e., a course that is not a session A, B or C course). For more information, visit the dropping classes as a financial aid recipient page. [9]

November 2024**Nov 22**

Fall Only Students - Deadline to Submit 2024-2025 Student, Parent and Budget Reviews

If you are attending ASU for fall 2024 only, you must submit 2024-2025 Student Budget Reviews, Student Income Reduction Reviews and Parent Reviews along with all required documentation by this date in order for a reevaluation of the FAFSA and awards to occur.

December 2024**Dec 7**

Last Day to Submit 2024-2025 Student Aid Adjustment form for Fall 2024

If you are attending ASU for Fall 2024 only and you would like to make changes or accept your loan, you must submit 2024-2025 Student Aid Adjustment form [13] by this date.

Dec 7

Last Day to Accept Fall 2024 Loans

At 5 p.m. (Arizona time), any loans that are not accepted will not be eligible for disbursement in the fall term. If you are enrolled in the spring term at least half time and have not used all of your annual loan eligibility for the academic year, you may be eligible to receive Federal Direct Loans in the spring term. Remaining loan eligibility for the spring term is determined by your current grade level, dependency status and cost of attendance.

Dec 7

Last Day to Submit 2024-2025 Parent PLUS Loan Action Form for Fall 2024

If you are attending ASU for Fall 2024 only and your parent would like to make changes or accept the Parent PLUS loan, you must submit the 2024-2025 Parent PLUS Loan Action [8] form by this date.

Dec 18

Deadline to use Pell Book Deferment for Spring 2025 (sessions A and C)

If you are a Federal Pell Grant recipient who has all outstanding financial aid verification documents submitted and are enrolled in spring 2025 sessions A & C, you may obtain your textbooks for the semester online or in person at the Sun Devil Campus Stores and have your book charges billed to your student account. If you are eligible, you will be sent an ASU email each semester with instructions and a link will be provided on My ASU under the finances tab on this date.

Dec 26

Begin using Pell Grant Book Deferments for Spring 2025 (sessions A and C)

If you are a Federal Pell Grant recipient who has all outstanding financial aid verification documents submitted and are enrolled in spring 2025 sessions A & C, you may obtain your textbooks for the semester online or in person at the Sun Devil Campus Stores and have your book charges billed to your student account. If you are eligible, you will be sent an ASU email each semester with instructions and a link will be provided on My ASU under the finances tab on this date.

January 2025**Jan 1**

ASU Scholarship Portal Application Deadlines Begin

Most deadlines for the 2025-2026 year occur between January 1 and March 1. It is important that you review deadlines carefully as they do vary. Scholarship awards are very competitive and if you are selected, you will be notified by the awarding office noted in the scholarship listing. Scholarship recipients are typically notified of selection in April and May. For more information, visit the scholarship search [14] page.

January 2025**Jan 8**

Spring 2025 Disbursements Begin (sessions A and C)

Financial Aid and Scholarship Services will begin applying your spring 2025 (sessions A and C) financial aid to your spring charges starting January 8. Check your disbursement status in the Financial Aid Tracker and if it reads "Disbursement," you do not need to take any action. If your status shows anything other than "Disbursement," check Priority Tasks to ensure there is no information needed from you.

Jan 15

2025-2026 FAFSA Filing Priority Date

Submit your FAFSA before ASU's priority filing date of January 15 each year to maximize the amount of aid you receive. Eligible students who apply by this date have a greater chance of receiving need-based aid. The priority filing date is not a deadline, so still submit your FAFSA even if the priority filing date has passed. For more information, visit the FAFSA information page. [1]

Jan 19

Spring 2025 (Census Date (session A))

This policy affects your award amounts if only enrolled in Session A.. Your census date may be different if you are in a dynamically dated course (i.e., a course that is not a session A, B or C course). For more information, visit the dropping classes as a financial aid recipient [9] page.

Jan 28

Begin using Pell Grant Book Deferments for Spring 2025 (session B only students)

If you are a Federal Pell Grant recipient who has all outstanding financial aid verification documents submitted and are enrolled in spring 2025 session B, you may obtain your textbooks for the semester online or in person at the Sun Devil Campus Stores and have your book charges billed to your student account. If you are eligible, you will be sent an ASU email each semester with instructions and a link will be provided on My ASU under the finances tab on this date.

February 2025

Feb 3

Spring 2025 Census Date (session C)

For students enrolled in session C (including students enrolled in session A and C): This policy affects your award amounts. Your census date may be different if you are in a dynamically dated course (i.e., a course that is not a session A, B or C course). For more information, visit the dropping classes as a financial aid recipient page. [9]

March 2025

Mar 3

Deadline to use Pell Book Deferment for Spring 2025 (session B only students)

If you are a Federal Pell Grant recipient who has all outstanding financial aid verification documents submitted and are enrolled in spring 2025 session B, you may obtain your textbooks for the semester online or in person at the Sun Devil Campus Stores and have your book charges billed to your student account. If you are eligible, you will be sent an ASU email each semester with instructions and a link will be provided on My ASU under the finances tab on this date.

March 2025

Mar 12

Spring 2025 Disbursement Begin (sessions B only students)

Financial Aid and Scholarship Services will begin applying your spring 2025 (session B only) financial aid to your spring charges starting March 4. Check your disbursement status in the Financial Aid Tracker and if it reads "Disbursement," you do not need to take any action. If your status shows anything other than "Disbursement," check Priority Tasks to ensure there is no information needed from you.

Mar 23

Spring 2025 Census Date (session B)

For students enrolled in session B (including students enrolled in sessions A or C as well as B): This policy affects your award amounts. Your census date may be different if you are in a dynamically dated course (i.e., a course that is not a session A, B or C course). For more information, visit the dropping classes as a financial aid recipient page. [9]

Mar 23

Spring 2025 SAP Review Submission Deadline

Submit your Satisfactory Academic Progress Review form before this date in order to appeal any SAP violation for the Spring 2025 semester. Appeals submitted after this date will be considered only for regaining eligibility for the next semester. Please see the form for requirements and instructions at <https://tuition.asu.edu/satisfactory-academic-progress>. [15]

Mar 28

Begin using Pell Grant Book Deferments for Summer 2025 (sessions A and C)

If you are a Federal Pell Grant recipient who has all outstanding financial aid verification documents submitted and are enrolled in summer 2025 sessions A & C, you may obtain your textbooks for the semester online or in person at the Sun Devil Campus Stores and have your book charges billed to your student account. If you are eligible, you will be sent an ASU email each semester with instructions and a link will be provided on My ASU under the finances tab on this date.

April 2025

Apr 18

Fall/Spring or Spring Only Students - Deadline to Submit 2024-2025 Student, Parent and Budget Reviews

If you are attending ASU for the 2024-2025 academic year or spring 2025 only (i.e., not attending summer 2025), you must submit 2024-2025 Student Budget Reviews, Student Income Reduction Reviews and Parent Reviews along with all required documentation by this date in order for a reevaluation of the FAFSA and awards to occur.

May 2025

May 3

Last Day to Accept Spring 2025 Loans

At 5 p.m. (Arizona time), any loans that are not accepted will not be eligible for disbursement in the spring term. If you are enrolled in the summer term at least half time and have not used all of your annual loan eligibility for the academic year, you may be eligible to receive Federal Direct Loans in the summer term. Remaining loan eligibility for the summer term is determined by your current grade level, dependency status and cost of attendance.

May 3

Last Day to Submit 2024-2025 Parent PLUS Loan Action Form for Spring 2025

If you are attending ASU for the 2024-2025 aid year or Spring 2025 only and your parent would like to make changes or accept the Parent PLUS loan, you must submit the 2024-2025 Parent PLUS Loan Action [8] form by this date.

May 3

Last Day to Submit 2024-2025 Student Aid Adjustment form for Spring 2025

If you are attending ASU for the 2024-2025 aid year or Spring 2025 only and you would like to make changes or accept your loan, you must submit 2024-2025 Student Aid Adjustment [13] form by this date.

Tuition refund policy

Things to know about the ASU tuition refund policy

When you register for classes, you're obligated to pay all the tuition and registration fees. If you drop a class or officially cancel your enrollment during the 100 percent refund period, you'll get all your money back. If you're looking for information about a financial aid refund (financial aid funds left over after your tuition and charges are paid), visit the aid disbursement page.

Nonrefundable charges

After the 100 percent refund period passes, tuition and fee payments become nonrefundable.

Beginning Fall 2023, this date is the same as the drop deadline for classes offered in Sessions A, B and C

Amount of refund

If you owe any university charges, they will be deducted from your refund and be subject to payment holding periods.

Withdrawal/cancellation date

Withdrawal or cancellation officially occurs on the calendar date that you request it, whether in person or online.

Refund by semester

Please note that if you cancel your enrollment after the refund period, you will be required to pay the tuition and fees charges.

Fall and spring

For regular semester classes (session C) and sessions that are eight weeks or longer, the 100 percent refund period extends through the first two weeks of the semester.

For sessions that are shorter than eight weeks (sessions A and B) and dynamically dated classes, the 100 percent refund period is one week after the semester begins.

For classes that begin prior to the first day of the regular semester, the applicable 100 percent refund period begins on the class start date, not the semester start date.

Summer

For the summer session classes (sessions A, B and C, and dynamically dated classes), the 100 percent refund period is the first five days of the applicable summer session.

For classes that begin prior to the first day of the regular semester (dynamically dated classes), the applicable 100 percent refund period begins on the class start date, not the semester start date.

If you cancel your enrollment after the refund period, you will be required to pay the tuition and fee charges.

Medical or compassionate withdrawal

The tuition refund policy does not apply to medical and compassionate withdrawals. Partial tuition adjustments or nonrefundable credits may be granted in these cases. Each request will be determined by individual circumstances on a case-by-case basis, and is an option only if approved within two years of the end of the semester. For specific semester or session deadlines, please refer to Tuition Dates and Deadlines. [2]

Tuition assistance return policy

ASU recognizes that active duty members may not always be able to complete their classes, due to unforeseen military commitments. Department of Defense (DoD) policy requires a return of TA funds, when a class is withdrawn, prior to completing at least 60% of the course. Returns of tuition assistance are prorated based on the percentage of completed class time, as noted in the schedules below. Students will be responsible for reimbursing ASU for the amount of TA that ASU refunds to the DoD.

For additional questions, please contact sponsorbilling@asu.edu [1] or call 855-278-5080 and ask to be connected to a Sponsored Billing Specialist.

Undergraduate excess hours tuition

The Arizona Legislature enacted legislation in 2005 (A.R.S. § 15-1626) that establishes credit hour thresholds for undergraduate students who attend a public university in Arizona. Undergraduate students who enroll for credit hours beyond the applicable threshold are required to pay an excess hours tuition surcharge. Students who have more than 145 credit hours will be assessed the Undergraduate Excess Hours Tuition Surcharge.

The Undergraduate Excess Hours Tuition Surcharge is billed in addition to tuition, program tuition, mandatory fees and class fees.

Exemptions

The excess hours tuition surcharge must be assessed in accordance with Arizona State Statutes and is not subject to appeal. The Arizona Legislature, however, provided for certain exemptions to the credit hour threshold and surcharge:

1. Undergraduate degree programs that require credit hours above the credit hour threshold.
2. Credits earned in pursuit of up to two baccalaureate degrees: The excess hours tuition surcharge is not assessed if (a) student has previously earned a baccalaureate degree and is currently admitted to one undergraduate degree program or (b) has not previously earned a baccalaureate degree and is admitted to two or more undergraduate degree programs simultaneously. This exemption does not apply to students who have previously earned two or more baccalaureate degrees or students who have earned one baccalaureate degree and are currently admitted to two or more undergraduate degree programs.
3. Credits earned in the pursuit of up to two state regulated licensures or certificates: Student is not required to be enrolled in both programs simultaneously. Examples include accounting, nursing, social work, and certain engineering degrees.
4. Credits earned in the pursuit of a teaching certification.
5. Credits transferred from a private institution of higher learning.
6. Credits transferred from an institution of higher education in another state.
7. Credits earned at another institution of higher education but that are not accepted as transfer credits at ASU.
8. Credits earned by students who enroll at a university under the jurisdiction of the board more than twenty-four months after the end of that student's previous enrollment at a public institution of higher education in this state.

Tuition waivers and scholarships

Employee waivers and tuition scholarships do not apply to the Undergraduate Excess Hours Tuition Surcharge.

Academic year 2023–2024 rates

For resident students the surcharge is \$162 per credit hour up to a maximum of \$1,134 for enrollment in 7 or more hours. For nonresident students the surcharge is \$262 per credit hour up to a maximum of \$3,144 for enrollment in 12 or more credit hours. For online students, the excess hours tuition rate is \$113 per credit hour up to a maximum of \$1,356 for enrollment in 12 or more credit hours.

Financial aid

About financial aid

You have lots of ways to pay for college

It's no secret that college is a major investment. But studies show that it's an investment that pays dividends. And the good news is, you have access to many forms of financial aid to help pay for it — you're not alone in this. Learn about the various types of financial aid, how to get them and everything else you need to know to get help paying for college.

Watch video: What type of aid is being offered? [1]

Watch video: Three things to know before classes start. [2]

How do I get financial aid at ASU?

1. Create an FSA ID

Whether you're a student or parent, you'll need to create your own account on studentaid.gov [3] to complete federal student aid tasks. You'll use the same FSA ID every year.

2. Fill out the Free Application for Federal Student Aid

You'll need your driver's license, bank statements, parent information and more. The FAFSA is officially open for the 2024–2025 academic year. The new FAFSA is a simplified and streamlined experience years in the making. Many students are ready to get started and will be completing their FAFSA this month, so if you experience a pause or can't log in, please just wait a few hours or set a reminder for the next day to jump back in with your FSA ID and complete the application. ASU's Federal School Code is 001081. Complete the FAFSA form here. [4]

CSS Profile: CSS Profile [5] is an online application used by colleges to award nonfederal institutional aid. The tool helps us determine eligibility and understand your specific financial situation. CSS Profile is available to qualifying domestic noncitizens who are unable to complete the FAFSA. ASU's CSS Code is 4007.

Please note: If you are eligible to submit the FAFSA, do not submit a CSS Profile application.

3. Review your FAFSA Summary Report

This will be emailed to you from the Department of Education 3-4 days after your FAFSA has been processed.

4. Look out for additional verification documents we need to process your FAFSA in My ASU

Return the documents quickly so that we can continue to process your file without delays.

5. Financial Aid and Scholarship Services will send you your financial aid offer letter

Review your offer through the finances tab in My ASU. About five days before classes start, financial aid disbursement begins. Your scholarship and grant money will automatically be applied. You will need to accept loan offers before those funds are available. If you have any financial aid funds left over after paying your tuition and other charges, you'll receive a refund. The quickest way to get your refund is to enroll in direct deposit.

6. Apply for scholarships

After you submit the FAFSA, you can explore scholarships using the scholarship search tool. [6] Scholarships are gift aid — money for college that you don't have to repay. And there are tons of scholarships out there for all kinds of students based on region, interests, majors, goals and lots more. Apply for any and all that you qualify for no matter how small they may seem. They add up quickly.

7. Enroll In direct deposit

If you have any financial aid funds left over after paying your tuition and other charges, you'll receive a refund. The quickest (and safest) way to get your refund is to enroll in direct deposit. [7]

8. Maintain eligibility

You'll need to maintain a certain GPA and complete relevant coursework in a certain timeframe. If you are a scholarship recipient, you'll need to meet renewal criteria. [8]

9. File a FAFSA every year

You'll need to submit a new FAFSA every year you're in college to continue receiving federal financial aid.

Frequently asked questions

Who can get financial aid at ASU?

Most ASU students qualify for some form of financial aid. To be eligible for most federal, state and ASU funding, you must:

- Meet eligibility requirements [9] set by the U.S. Department of Education.
- File a FAFSA for the current academic year.
- Be admitted as a degree-seeking student to a qualified undergraduate, post-baccalaureate, graduate or eligible certificate program. (For information about your particular certificate program, contact Financial Aid and Scholarship Services [10]). Some types of aid are restricted to certain degree levels and/or programs.
- Not be in default on any prior student loan.
- Not owe a repayment on any Title IV financial aid.
- Be making Satisfactory Academic Progress. [11]
- Submit all requested documents and those documents must not be found to limit your eligibility.
- Enroll in ASU classes such that it allows for disbursement of your offered financial aid (see ASU's census policy).

How much financial aid can I get?

The amount of financial aid you're eligible to receive depends on lots of variables. Try ASU's Net Price Calculator [12] to get an idea of how much financial aid you might receive and what your total costs could look like.

Scholarships

Scholarships provide free money that you apply for based on various criteria such as academic achievements, background, financial needs, interest and more.

Learn more [6]

Grants

Grants provide students who have a demonstrated need, money that doesn't need to be paid back.

Learn more [13]

Work-study

Federal Work-Study provides opportunities to work a part-time job.

Learn more [14]

Loans

A loan provides money from the government or a private institution that you borrow for school and that you have to repay with interest.

Important financial aid, scholarship and disbursement dates

November 1

Scholarship portal opens

ASU's Scholarship Portal opens and scholarship opportunities are available for the 2024–2025 academic year. Note that scholarship deadlines vary so start exploring and applying early.

December 2023

FAFSA opens

The FAFSA opens for the 2024–2025 academic year. The earlier you submit, the more financial aid you're likely to get. Get started on yours as soon as possible.

May 1

FAFSA priority date

Submit your FAFSA before ASU's priority filing date of May 1 to maximize the amount of aid you receive. Eligible students who apply by this date have a greater chance of receiving need-based aid.

Note: 10 days before the start of each semester – Financial aid funds begin to disburse and you can start paying your charges. Watch video: How does my financial aid pay for my charges? [16]

FAFSA

What is the FAFSA?

The Free Application for Federal Student Aid is an application you fill out annually to determine how much federal financial aid you're eligible for. The FAFSA will ask you things such as your parents' income, tax information and other financial information.

The FAFSA is officially open for the 2024–2025 academic year! If you have questions about completing the FAFSA, visit studentaid.gov/apply-for-aid/fafsa/filling-out [1] or call 1-800-4-FED-AID.

Filling Out the FAFSA® Form | Federal Student Aid [1]

Why do I need to submit a FAFSA?

The FAFSA enables a partnership between you, ASU, and the Department of Education. When you submit a FAFSA, you ensure that you are being considered for the maximum amount of aid to help pay for college.

You and your family

Your family needs it to know what college will cost once financial aid sources are factored in.

The department of education

The federal government needs it to determine if you're eligible for federal Pell grants.

Your college or university

ASU needs it to offer you need-based aid from the university.

What do the 2024–2025 FAFSA changes mean for me?

Several changes to the FAFSA will go into effect with the upcoming aid year. The FAFSA will be available in December 2023 for students enrolling in the fall 2024 semester. Here is what you need to know right now about the FAFSA updates.

Streamlined application

For most students there will be less than half of the questions than on prior FAFSAs. A direct data share from the IRS to the FAFSA has been implemented to simplify the student and parent experience.

Introducing contributors

A contributor is anyone who is required to provide information and consent on the FAFSA. This includes the student and, depending on the student situation, may also include their parent, parent's spouse or student's spouse.

FSA ID requirement

All contributors must have their own FSA ID to complete their section of the FAFSA. If you have not already, create your FSA ID today. [2]

How do I submit my FAFSA?

To file your FAFSA, go to FAFSA.gov. You will need the following:

1. Bank statements and records if applicable
2. Alien registration number [3] (if you are not a U.S citizen)
3. Tax returns, W-2s and other records of money earned from the prior-prior tax year.
4. Your Social Security number.
5. Record of untaxed income (if applicable).
6. A FSA ID to sign your FAFSA electronically. (If you're a dependent, your parent will to create one, too.)

Which FAFSA year?

Tip: Your FAFSA application will ask you things such as your family's income and how many people are in your family. These questions help determine how much aid you're eligible for. You have to submit a FAFSA every year because circumstances can change. But don't worry, it takes only about 30 minutes to fill out the FAFSA application and there are plenty of resources to help you. Start with this FAFSA guide. [4]

Watch this instructional video on how to submit the FAFSA

Frequently asked questions

What is ASU's FAFSA code?

ASU's Federal School Code is 001081.

Does my family earn too much for me to get financial aid through the FAFSA?

There are no income requirements to be considered for federal student aid. Many factors beyond income are important to determine eligibility, so we recommend that all students complete a FAFSA to be considered for the maximum amount of aid

Does FAFSA cover aid for graduate school?

Yes, students can file a FAFSA to receive financial aid for graduate school. Graduate students are considered independent and do not have to report parent or guardian earnings to be eligible for federal student aid.

Are international students eligible for funding through the FAFSA?

Most international students are not eligible to receive federal student aid, but there are opportunities to find private aid, such as scholarships. The FAFSA is open to U.S. citizens or eligible noncitizens. [5]

Should students who are impacted by Prop 308 complete the FAFSA application?

Any student who wants to apply for financial aid and who can complete the FAFSA, should complete the FAFSA. However, a student must have a Social Security number to complete a FAFSA application and some of the students who are impacted by Prop. 308 may not be eligible to complete the FAFSA. Students can visit ssa.gov/pubs/EN-05-10009.pdf [6] for more information on how to obtain an SSN.

CSS Profile: CSS Profile [7] is an online application used by colleges to award nonfederal institutional aid. The tool helps us determine eligibility and understand your specific financial situation. CSS Profile is available to qualifying domestic noncitizens who are unable to complete the FAFSA. ASU's CSS Code is 4007.

Please note: If you are eligible to submit the FAFSA, do not submit a CSS Profile application.

Who are Contributors on the 2024–2025 FAFSA?

Starting with the 2024–2025 FAFSA, a new term called “Contributor” has been introduced. A Contributor is someone who is required to provide information on a student’s FAFSA form. This can include:

1. The student.
2. The student’s biological or adopted parents.
3. The student’s spouse.
4. The parent’s spouse.

It’s important to note that a Contributor does not include:

1. A grandparent.
2. Foster parents.
3. Legal guardians.
4. Brother or sister.
5. Aunt or uncle.

Even if individuals from the above list helped provide for or raise the student, they are not considered Contributors for the FAFSA form.

It’s crucial to understand that having someone listed as a Contributor on the FAFSA form does not imply financial responsibility for the student’s education cost.

What if my parents are divorced? Who is the Contributor for my FAFSA?

The parent that is included on the FAFSA as a Contributor should be the parent that provides the most financial support to the student.

How does the student or other Contributor create an FSA ID?

Go to studentaid.gov/fsa-id/create-account/launch [2] and follow the steps to create an account. The student and the Contributor will each need their Social Security number, a valid email address and a phone number in order to complete the identity verification steps. Watch this video [8] for a step by step explanation.

Do contributors without a Social Security number have to create a FSA ID?

Yes — Contributors that do not have a Social Security number will still need to create a FSA ID. Follow these steps to create an FSA ID without a Social Security number.

1. Go to studentaid.gov/fsa-id/create-account/launch [2] and select “**Get Started.**”
2. Complete your personal information, including a valid email address.
3. Select “**I do not have a Social Security number.**”

4. A warning will pop up — click “**Continue without a SSN.**”
5. Input the required personal information, ensuring you provide a valid email address and phone number.

6. Confirm that all information is correct and set up two-step factor verification for future access.
7. Answer the Identity Verification questions. If you successfully answer the questions, your FSA ID will be created. If the FSA ID cannot be created, a case number will be provided.
8. FSA will send an email that will include guidance on documentation required to confirm identity, as well as an additional form to complete to verify identity
9. Once identify is confirmed, FSA will send an email confirming account creation

What if I or one of my Contributors do not want to provide consent when completing the 2024–2025 FAFSA?

Each Contributor must provide consent on the FAFSA or the FAFSA will be incomplete and you will not be eligible for financial aid.

What happens after I submit my FAFSA?

We may need help confirming information on your FAFSA so you get the right financial aid. This is called ‘verification,’ and it’s a common thing. If we need more information, you’ll be contacted. We hit pause on processing your financial aid during this time but start up again after you’ve submitted the documents we need.

Verification FAQs [9]

ASU FAFSA calendar and deadlines

Oct 1

FAFSA opens

The FAFSA opens for the following year. The earlier you submit, the more financial aid you’re likely to get. Get started on yours as soon as possible.

May 1

FAFSA priority date

Submit your FAFSA before ASU’s priority filing date of May 1 to maximize the amount of aid you receive. Eligible students who apply by this date have a greater chance of receiving need-based aid.

Financial aid disbursement and refunds

How financial aid payments work

Any financial aid you receive from ASU is automatically applied to your charges before the semester begins. Any funds left over after your tuition and charges are paid can be paid back to you in the form of a financial aid refund. To make sure your aid disburses and you receive your refund, complete the steps below. If you’re looking for information about a tuition refund — money you paid out of pocket that you get back when you drop a course or withdraw — visit the tuition refund page. [1]

Watch video: How does my financial aid pay for my charges? [2]

Watch video: Three things to know before the first day of classes. [3]

Watch video: When will I get my refund? [4]

Watch video: How is financial aid split between fall and spring semesters? [5]

Make sure your financial aid file is complete

After you submit the FAFSA, you may need to submit additional documentation to help us confirm your financial eligibility. This is called “verification” and it’s quite common. Check your Priority Tasks in My ASU [6] to see what, if any, verification items we may need.

Watch video: How to check Financing Tasks in My ASU. [7]

Enroll in direct deposit

By enrolling in direct deposit, any financial aid funds that remain after your charges have been paid will go directly into your bank account. Enroll in direct deposit by going to the Finances tab in My ASU [6] and clicking “Direct deposit enrollment.”

Watch video: How to enroll in Direct Deposit [8]

Know how your enrollment impacts your aid

Changes in your enrollment can affect your financial aid awards, as one of the factors in your cost of attendance is the number of credit hours you take. If you drop a class, your aid will be decreased to match your enrollment hours. Other changes may adjust your cost of attendance and consequently your aid, including campus and residency status. Learn more about aid adjustment. [9]

How to know if your financial aid file is complete

Your financial aid tracker is there to help you understand where you are in the financial aid process. Visit the Finances tab in My ASU to view yours.

Watch video: How to know your financial aid file is complete [10]

When will my aid disburse?

Financial aid typically disburses about a week before the semester starts. Your financial aid tracker will show “in disbursement,” which means your aid is in the process of being applied to your account. Once disbursement is complete, you’ll see your account balance change to reflect that a payment has been made.

If you are offered loans, remember that you need to accept or decline them in My ASU in order for them to be disbursed.

Watch video: How do I accept my loans? [11]

Watch video: How do I change the amount of loans I accepted? [12]

Where is my refund?

The money left over after your charges have been paid is called a refund or a stipend. This may be scholarship money you have left over after your charges have been paid, or money you borrowed to help cover books and living expenses. You will receive these leftover funds in the form of a check or by direct deposit a few days after your charges have been paid.

Watch video: When will I get my refund? [4]

Frequently asked questions

When will my aid disburse?

Financial aid typically disburses about a week before the semester starts. Your financial aid tracker will say “disbursement is ready to begin,” which means your aid is in the process of being applied to your account. Once disbursement is complete, you’ll see your account balance change to reflect that a payment has been made.

How do I manage my financial aid?

It can be tempting to spend unwisely when you have extra money in your pocket after your charges are paid. Remember, loans need to be repaid with interest, and scholarship funds are intended to pay for housing and food, books, course materials, supplies, and equipment and should be used for those things only.

Why is financial wellness an important part of the financial aid process?

Smart borrowing, establishing good credit and creating a realistic budget are skills that you need to be successful. No matter what you're studying, this is a great time to start building your best money habits.

ASU partners with iGrad to offer students and alumni lifelong financial wellness skills through customized courses, articles and tools to help you make important financial decisions. From how to manage your first credit card to refinancing your home, investing in the stock market and saving for retirement — you'll learn it all. Get started with iGrad now [13] and begin a healthy, lifelong relationship with money.

What if I only need financial aid for one semester?

If you are a graduating senior and only attending one semester, Financial Aid and Scholarship Services is required to reduce your financial cost of attendance for the academic year to reflect one semester costs. In most cases, a reduction of your cost of attendance will reduce your financial aid eligibility and result in a reduction of some of your awards (even if you have already accepted them). If you plan on attending one semester, please contact us or visit our office [14] to see how your aid will be affected.

Important Notes

- You may not receive all of your fall/spring financial aid in the fall semester.
- You may not be considered a fall-only student if you are not graduating for the fall (i.e., you must apply for graduation [15] with the university).
- Your Federal Direct Subsidized and Unsubsidized Loans will prorate if you are an undergraduate or post-baccalaureate student (see below for details).
- If you were originally offered aid for the fall and spring semesters and do not end up attending the fall semester, your entire aid package may be cancelled mid-fall. If you plan on attending the following spring semester, please make sure to accept your aid on My ASU [16] and enroll for the spring semester.

Federal Direct Subsidized and Unsubsidized Loans

If you are an undergraduate or post-baccalaureate student, your Federal Direct Subsidized and Unsubsidized Loans must be prorated based on the number of credit hours for which you are enrolled. This means that you may not be eligible to receive your maximum annual loan limit. Your aid will be adjusted at the time of disbursement according to your enrolled credit hours.

How will my Financial Aid refund be disbursed if I am also using Chapter 31 or Chapter 33 VA benefits?

Students electing to use VA educational benefits at ASU under Veteran Readiness and Employment (Chapter 31) or the Post-9/11 GI Bill® (Chapter 33) must first establish their benefits eligibility, then verify their intent each semester. In accordance with 38 U.S.C 3679 (e), students who successfully establish their eligibility and elect to use benefits in any given semester are automatically given a tuition deferment that will prevent any late fees or penalties from being incurred during that semester. The deferred tuition due dates are as follows:

- Fall Semesters – December 25
- Spring Semesters – May 25
- Summer Semesters – September 25

Additionally, students who have accepted financial aid may elect to receive a credit for the anticipated amount of their VA benefits. This credit will allow any excess financial aid to disburse in advance of the VA's actual payment. Students should understand that ASU's "anticipated VA payment" is an estimate, and that settling their student account balances can only take place once all VA payments for the semester are received. It will be the student's responsibility to return any money that had been refunded in excess. For more information on the steps required, please contact the Pat Tillman Veterans Center at 480-965-7723 or PTVC@asu.edu [17]. For questions about your individual student account, please contact Student Business Services at 855-278-5080 or SBS@asu.edu. [18]

Financial aid forms

If Financial Aid and Scholarship Services needs a form to complete your financial aid file, we'll alert you through Priority Tasks on My ASU. You can find a list of any form we may need below. Once you submit the form, it can take up to two business days to show as received in My ASU.

University employees reviewing financial aid forms are mandatory reporters. Specific information related to acts of sexual harassment, which includes sexual assault, dating/domestic violence and stalking, committed by an ASU student or employee, or that happened on ASU property, or in an ASU program or activity, must be reported. Information about campus resources including advocacy assistance and confidential counseling and confidential victim-survivor advocacy can be found at <https://sexualviolenceprevention.asu.edu/resources> [1]. For more information about mandatory reporting at ASU, review the FAQs here.

Maintaining your financial aid

How your aid may be impacted

The amount of aid you receive may go up or down depending on a variety of factors, including the number of hours you're enrolled in, whether or not you participate in your courses, and whether you are making satisfactory progress toward your degree. For example, if you drop a class and your cost of attendance goes down, your aid may go down to match it. If you

add a class, it may go up. Similarly, if you do not participate in classes you receive aid for, or you do not meet standards for making progress toward your degree, your aid may be reduced or canceled.

Watch video: Why did my financial aid change? [1]

Earn your aid

It's important that you participate in classes to earn your financial aid. If you do not participate in the classes you're enrolled in, your aid can be reduced or canceled altogether. You will need to show participation in your courses by the 21st day after the course start date. If your participation is not confirmed by the 21st day of class, your aid may be reduced or canceled, and you may be required to pay for charges without aid. For more information on earning your aid, and to learn which activities count as participation, visit here. [2]

Watch video: About confirmation of participation [3]

Maintain enrollment

Your cost of attendance and your awards are based on a number of factors, including the number of credit hours you are enrolled in for the term as well as your session enrollment.

Watch video: How many credits do I need to be enrolled in to keep my financial aid? [4]

*These are examples and may not reflect your actual costs and awards

Full-time online nonresident undergrad - fall/spring

	A classes only	B classes only	A and B classes
COA total	\$11,016	\$11,016	\$14,593
Award total	\$11,016	\$11,016	\$11,423

Half-time online nonresident undergrad - fall/spring

	A classes only	B classes only	A and B classes
COA total	\$7,298	\$7,298	\$10,875
Award total	\$7,298	\$7,298	\$8,837

Full-time online graduate - fall/spring

	A classes only	B classes only	A and B classes
COA total	\$10,261	\$10,261	\$15,126
Award total	\$10,261	\$10,261	\$15,126

Half-time online graduate - fall/spring

	A classes only	B classes only	A and B classes
COA total	\$8,409	\$8,409	\$13,151
Award total	\$8,409	\$8,409	\$13,151

Withdrawing as a financial aid recipient

If you don't finish your classes as scheduled, your financial aid could be recalculated or canceled. Learn about the various ways your aid can be affected by not completing a class. [5]

Dropping classes as a financial aid recipient

Learn how dropping classes can affect your financial aid. [6]

Satisfactory Academic Progress

To remain eligible for federal financial aid, you must make satisfactory academic progress as a student, meaning you need to complete classes in a timely manner and earn grades high enough to demonstrate that you are successfully working toward your degree.

Watch video: What is SAP? [7]

If you don't meet SAP standards, your aid may be adjusted. Arizona State University measures satisfactory academic progress yearly after the spring semester using three metrics:

GPA standard

You must maintain a minimum ASU GPA according to the ASU Undergraduate Academic Standards, [8] or the ASU Graduate Academic Standards [9]. Students on academic disqualification are not eligible for financial aid.

Undergraduate student minimum cumulative GPA: 2.00

Graduate student minimum cumulative GPA: 3.00

Watch video: SAP GPA Standard [10]

Pace rate standard

You must pass at least 67% of your total attempted ASU credit hours in your current degree program. You may need to consider reducing your course load in order to improve your cumulative pace rate. All courses must apply to your degree program.

Watch video: Pace rate standard [11]

Maximum credit hour standard

You must not exceed the maximum attempted credit hour limit for your degree program. This standard applies to all programs, including minors, dual majors, concurrent degrees and prior degrees. All transfer credit hours accepted by ASU are included in this measurement. Audited courses are excluded from this measurement.

Watch video: Maximum credit hour standard [12]

Your SAP status and how to appeal

Your SAP status is listed in the Finances tab of My ASU, in the Financial Aid and Scholarships box. Learn more about Satisfactory Academic Progress. [13]

Over-awards

An over-award occurs when your need-based awards exceed your financial need, or the total of your awards exceeds your cost of attendance. If you have been over-awarded, federal regulations require ASU to adjust your awards, which may result in a bill to your account. Need-based aid includes grants, scholarships, Federal Work-Study, subsidized Federal Stafford Loans and outside resources (i.e., faculty and staff tuition benefits, scholarships, stipends, etc.).

Non-need-based aid includes unsubsidized Federal Loans, Federal Parent PLUS Loans, Federal Graduate PLUS Loans and Private Education Loans.

Possible reasons an over-award can occur are:

- You receive additional awards.
- Your residency status changes.
- Your housing status changes.
- The verification process results in changes made to your FAFSA data.
- You have made changes in your enrollment that affect your cost of attendance.

Frequently asked questions

When are award adjustments made?

Award adjustments are updated in My ASU every Monday through Friday, except for university-recognized holidays. Any changes you make to your enrollment that cause your aid to adjust will need to be made by 5 p.m. Monday through Friday in order for you to see your award adjustment reflected in My ASU the following weekday.

How do credit hours and awards work?

Because financial aid can be impacted when you add or drop a class, it is important to make minimal changes after you register for classes — especially after the start of the semester. It is also important that you participate in the classes for which you receive financial aid. Failure to participate in your classes can result in a reduction or cancellation of your financial aid.

This is especially important if you enrolled in session B. Any changes to session B classes after the start of session A or at any time during the semester could impact your financial aid. Changes may require money already disbursed to you to be billed back, resulting in a charge on your account.

Work with your academic advisor to make sure you have a good plan at the beginning of session A for your registered courses throughout the semester.

Student employment

Student jobs are more than just a paycheck.

You may need to work in order to meet educational and living expenses or you feel the experience could be a valuable part of your education. The skills you obtain from working complement your academic performance and communicate to future employers your ability to succeed in a professional setting.

Studies have shown that students who work do just as well or better academically than non-working students and grades improve as students work more hours per week (up to 20). In addition, working students are more likely to complete a degree program than non-workers.

Search for Student Jobs [1]

Student jobs podcast

Planning to work during college? Emily and Ben were two of the 11,000 students who work for ASU and you can be too. Find out what their work experience at ASU has been like, and hear what they say is the best part about working for ASU.

Inside ASU - "Take this job and love it: Being a student worker at ASU." podcast episode [2].

More information about student jobs

Benefits to working in a student job

- Additional financial resources.
- Acquire valuable work experience for your résumé.
- Reduce necessity for student loans.
- Opportunity for networking with professionals.
- Opportunity to sample different career choices.
- Valuable and practical career-related experiences.
- Exposure to the world of work.
- Opportunity to enhance fundamental work skills.
- Develop a sense of community and involvement with ASU.

Community service work-study jobs

Community service federal work-study (FWS) jobs are designed to engage a student in improving the quality of life for community residents, particularly low-income individuals, or to address issues such as: literacy training, social services, housing, neighborhood improvement, public safety, recreation, at-risk youth and community improvement. Find these rewarding positions by clicking on the advanced option and entering "Community Service FWS" in the Job Description text field when searching for jobs. [1]

Tips for completing a job application

Writing your Resume [3] | Strengthen your Interviewing Skills [3]

Remember, the job application is your first opportunity to make a good impression with a potential employer.

- The application provides the employer with specific information in a designated order. Never write "see resume" in any area of the application.
- Through the job application, the employer senses attitude, stability and motivation. It also reveals communicative skills. It should never be done illegibly, hastily or incompletely.
- Print or write neatly, or even better, type the information. Be sure to read the instructions on the application. Statements should be brief and concise.
- All questions must be answered; all sections must be completed. If it doesn't pertain to you, place a dash or N/A in that space.
- Know start/stop dates of your employment history, pay rates and your supervisors' name(s).
- Use action words to describe your responsibilities and accomplishments.
- It is a good idea to have a "dummy" application with history and references.

- Reasons for leaving: refrain from any negative statements. You want to present a positive picture of yourself. Use "further my education" or "interesting new job opportunity," etc.
- Salary: When the definite Pay Rate is unknown, write "open."
- References: Make sure you have correct addresses and phone numbers. Let your references know you list them and keep them informed.
- Additional remarks: Do not leave this area blank. Use this space constructively by inserting statements regarding your abilities, skills and reasons why you would be a desirable candidate for the position.
- If you have extensive experience in community service and volunteering, you may treat it as you would work experience. Keep in mind that this information provides a well-rounded profile of the type of person you are.

Resume, cover letter and interview tips

- The goal of the resume and cover letter is to attract sufficient attention to create an interview opportunity.
- The purpose of your interview is to evaluate your qualifications as they relate to specific job functions.

For helpful tips on these and other topics please review the tips on the Career Services Web site. [3]

Student employee responsibilities

You should consider your part-time position as an important job that can impact your future work experience. You are now part of the ASU work force and your department depends on you. The following are your responsibilities as a student employee at any ASU campus:

- To complete a new hire packet within 72 hours, if you have not worked for ASU during the last 12 months, and submit it to the Human Resources department located on your campus.
- To maintain enrollment necessary for student employment eligibility.
- To coordinate your work hours with your supervisor according to the department's needs and your own class and study schedule.
- To perform assigned duties promptly and competently.
- To be dependable and always report to work on time-excessive tardiness or absenteeism is grounds for disciplinary action.
- To arrive at the office prepared to work - refrain from studying or conducting personal business (phone/email) on the job.
- To refrain from having family or friends visit during scheduled work times.
- To attend all student staff meetings or training sessions *unless* you have a scheduled class or exam.
- To not work at your job during times you are scheduled to be in class.
- To observe policies on confidentiality for all University, department and student records, and information.
- To schedule your lunch and rest breaks in advance and get your supervisor's approval.
- To not eat or study during your scheduled shift, unless approved by your supervisor.
- To maintain appropriate dress and personal grooming.
- To notify your supervisor in advance if you will be absent from work - frequent absences are a justifiable cause for dismissal.
- US citizens or eligible non-citizens may not work more than an average of 25 hours a week (or 62.5 percent FTE) over a rolling twelve month period. This maximum applies to the combined total of all jobs, including hours associated with stipends paid for services. Graduate Assistants may work a total of 20 hours per week.
- To not work more than 20 hours per week during the academic semesters if you are an international student on a visa.
- To keep an accurate record of hours worked and submit correct payroll information to your supervisor by the stated deadlines.
- To inform your supervisor of any plans to end employment. The customary notification time period is two weeks.
- To stop your Hourly employment two weeks after your graduation from ASU, unless you are enrolled for the next semester.
- To stop your employment on your graduation day as an undergraduate international student.
- To stop your employment on your defense date, comprehensive exam date or which ever option you have for the completion of your degree program as a graduate international student.
- To stop your FWS employment on the last day of the spring semester or the day before the fall semester starts according to your FWS Notification specifying the term of your employment period.
- To stop your FWS employment on the day of your graduation from ASU.

Student employee rights

The following rights are available to all student employees.

- The right to be treated fairly and respectfully by the University – ASU follows equal employment opportunity and affirmative action principles.
- The right to a safe, clean and professional working environment.
- The right to know your specific job description including your supervisor's standards and expectations.
- The right to adequate training in skills and procedures necessary to perform assigned tasks.
- The right to be informed about your work performance through verbal communication or performance evaluations.
- The right to use your campus job as a reference for future employers.
- The right to a grievance procedure for stating concerns related to the job and/ or supervisor (see USI 304-12 [4]).
- The right to file a grievance with the AA/EO Office if you believe you have been sexually harassed or discriminated on the job (see USI 304-03 [5] and USI 304-04 [6]).

Standard wage scale

Student Employment offers a wide range of positions, which require different degrees of skill or experience. The student wage scale starts at \$13.85/hour and pay rates should not exceed \$50.00/hour. Four wage levels with different pay ranges have been provided below. Federal Work-Study and Hourly employment share the same wage levels and pay ranges. Wage placement must be in relation to the type of duties performed and in consideration of other student worker wage rates in similar jobs.

Students working in states/locations outside of Arizona may require pay rates above the Standard Wage Scale minimum. Please click here [7] to see current State Minimum wage rates. If you have any questions on setting rates in situations like this, please reach out to an ASU Compensation Partner at cfo.asu.edu/compensation.

Note: Due to Kenexa implementation, we can no longer use Open Range Wage Levels, we must use Standard Wage Scales. Student pay rate amounts must stay within the student wage levels.

Job Code Level	Job Level Descriptions	Arizona		California		District of Columbia	
		Min Pay Rate	Max Pay Rate	Min Pay Rate	Max Pay Rate	Min Pay Rate	Max Pay Rate
I	Duties are of a routine and simple nature; entry level. Requires direct supervision with relatively specific instructions. Little or no training or experience is required.	\$13.85	\$14.55	\$16.78	\$17.63	\$17.00	\$17.86
II	Duties are varied and less routine and involve a moderate degree of responsibility and judgment. May lead or coordinate activities of other student employees. Requires previous knowledge or skill and/or equivalent experience or training.	\$14.25	\$15.72	\$17.26	\$19.05	\$17.49	\$19.30

III	Duties are technical and complex and involve a high degree of responsibility and judgment. May supervise or direct activities of other student employees. A significant amount of specialized training or experience is required.	\$15.12	\$18.12	\$18.32	\$21.95	\$18.56	\$22.24
IV	Duties are highly technical and/or complex and involve a significant degree of responsibility and judgment. This classification is limited to teaching/research aide type work or those positions requiring highly specialized skills and/or technical knowledge.	\$16.90	\$50.00	\$20.48	\$60.58	\$20.74	\$61.37

Exceptions

Please note that many states have local/city minimums that exceed the state level. In Arizona, Flagstaff has a higher minimum than the rest of the state. California has over 30 local/city minimums that exceed the current state minimum of \$15.50 per hour. Please see current state and major locality wage minimums. [7]

The Student Wage Scale includes all student hourly positions. It is not applicable for Research/Teaching Assistant, Internship, Fellowship or Mentorship opportunities as those positions are overseen by the Graduate College in accordance with the appropriate recruitment policies and procedures.

Mandatory student employee training courses

Enterprise Technology security training

ASU is committed to preserving the confidentiality, integrity, and availability of University information resources. Our responsibility is in securing the information of students, faculty, and staff. Whether data is on your workstation, phone or tablet - the ASU community, and each of us in it, plays an important role in securely storing, sharing, and protecting electronic information. The course includes necessary information on how to protect both personal and ASU information, back up files, maintain your operating system, respond to incidents, and encrypt laptops, desktops and mobile devices.

To access the course, please visit ASU Information Security Training [8]

The course will take about 22 minutes to complete. It includes a presentation and a quiz. For those of you familiar with this material, you can go directly to the quiz. You must answer 12 of 15 quiz questions correctly to earn credit for the course and you may re-take the quiz if necessary. For questions or comments, please email utotraining@asu.edu.

Preventing harassment and discrimination training

This program is designed to increase awareness of ASU's policies regarding anti-harassment, non-discrimination, and non-retaliation. The program is also intended to educate the university community about what constitutes appropriate behavior, and how to properly report concerns about inappropriate behavior. This training, which was developed by the Office of Diversity, Equity and Inclusion (ODEI) and the Office of General Counsel, is mandatory for all student workers in all academic and administrative units.

To access the course, please visit **Preventing harassment and discrimination [9]**

- The self-paced training includes an online module, quiz and resource guide with information and policies to review.
- You must score 80% or better on the required quiz at the end of the session to receive a certification of completion. You can retake the quiz if you do not receive a score of at least 80%.
- Your dean or director will be able to track your completion of the training via dashboard and routine reports that will be available for University administrators.
- Student workers must complete this training within 60 days of their hire date.
- If you experience any technical difficulty with the training, please call 1-855-278-5080.
- Questions? Contact equityandinclusion@asu.edu [10]

Fire prevention training

To access or select from a range of Environmental Safety training topics, please visit **Fire Safety and Prevention [11]**

Title IX and your duty to report

To access the course, please visit **Title IX and Your Duty to Report [12]**

Disclaimer

Arizona State University's Student Employment Office acts only as a referral service, advising individuals of employment opportunities submitted to the office. We make no recommendations or guarantees about the positions or employers listed through our office.

Arizona State University is not responsible for the safety, wages, working conditions, or other aspects of off-campus employment. Due to the volume of jobs received by the Student Employment Office, we are unable to research the integrity of every position listed. Therefore, students are urged to research positions and employers and conduct due diligence themselves. We encourage you to use common sense and caution when applying for positions, especially when applying for positions off-campus. Do not put yourself in a vulnerable situation. Carefully check any employer you are considering to be sure the job offered is legitimate. Watch the Federal Trade Commission's video on job scams [15]. Arizona State University assumes no responsibility for the positions or employers listed through the Student Employment Office. By using this service, you assume sole and full responsibility for researching and conducting due diligence regarding potential employers as well as any employment you obtain.

- Use common sense when applying for and engaging in off-campus employment. If a potential employer asks you to participate in an activity that makes you uncomfortable in any way, don't do it.
- Be wary of 'check cashing scams.' If someone asks you to deposit a check/money order into your personal account and send money to another individual, you should refuse and contact our office immediately.
- Please be aware that the Student Employment Office will list employment opportunities on this website only. We are unable to prevent other websites from copying our listings and reposting them elsewhere.

Arizona State University does not discriminate on the basis of race, color, national origin, sex, sexual orientation, gender identity, disability, religion, age or veteran status in the University's services, educational programs, and activities, including, but not limited to, admission to and employment by the University. The Office of Equity & Inclusion has been designated to handle inquiries regarding the University's non-discrimination policies: Director, Office of Equity and Inclusion, 1100 E. University Dr. Building A, Tempe, Arizona 85287, Intercampus Mail Code 1304. For information generally about ASU's non-discrimination policies and procedures for filing complaints, visit the Office of Equity & Inclusion online [16]. Some deadlines for filing complaints are as short as 30 days.

Student grants

What is a grant for college students?

A grant is free money — you don't have to pay it back. The most common types of student grants come from federal, state and university resources.

Eligibility

Who can get a grant?

Grants for college students are usually need-based — that is, if your family income is under a certain amount, then you may qualify. The purpose of a grant is to help you pay for college when you and your family might not otherwise be able to afford it.

Process

How do I get a grant?

All grants require the student to file a FAFSA by the ASU priority filing date of May 1 each year and are awarded to students who are eligible for need-based aid. Completion of the FAFSA by the priority filing date of May 1 is recommended due to the funding limitations of some programs. Monitor your My ASU account and submit all documents promptly. Your financial aid file must be complete before grant eligibility is considered.

Available grants for college

Federal Pell grant

Who is it for?

Undergraduate students with high financial need.

Who offers it?

The federal government.

How much is it worth?

Amounts can change yearly. The maximum Federal Pell Grant award is \$7,395 for the 2023–24 award year (July 1, 2023, to June 30, 2024).

How do I get it?

File the FAFSA.

Learn more about Pell grants [1]

Federal TEACH grant

Who is it for?

Students who intend to teach in a public or private K-12 school that serves low-income students.

Who offers it?

The federal government.

How much is it worth?

Up to \$4,000 per year.

How do I get it?

File a FAFSA and meet academic requirements. If you don't automatically qualify through your FAFSA, you can submit a TEACH Grant Request form [2] for further consideration.

Learn more about Federal TEACH Grants [3]

Financial Aid Trust grant

Who is it for?

Undergraduate students from Arizona or students from underrepresented populations with significant financial need. Limited funding is available and funds are not guaranteed each year.

Who offers it?

This is paid for through student fees and funding from the Arizona Legislature.

How much is it worth?

Up to \$4,000 per year.

How do I get it?

File the FAFSA by March 1.

Federal Supplemental Educational Opportunity grant

Who is it for?

Undergraduate students with significant financial need.

Who offers it?

The federal government.

How much is it worth?

Between \$100 and \$1,000 a year.

How do I get it?

Complete the FAFSA and receive a Pell grant for consideration.

Student loans

What is a student loan?

A student loan is money that you borrow to pay for college with the condition that it be paid back over a certain period of time with interest. Students often use student loans when family contributions, scholarships and grants do not cover the total cost of attendance.

How much should I take out?

We recommend borrowing only the amount you need. College is an investment in yourself and the responsible use of loans can be an important part of helping you attain a college education.

How do I act on loans I've been offered?

To accept or decline loans, visit the Financial Aid and Scholarships box in My ASU to view your loan offers. You can select the amount you want to borrow, if any, and click **accept** or **decline**.

Watch video: How to accept or decline loans I've been offered [1]

Types of loans

There are different types of loans for various situations. Click the cards below to learn about each one.

Emergency short-term loans

Learn more [6]

How to apply for a student loan

Your first step in getting a loan is to fill out the FAFSA [7]. The FAFSA will reveal how much money you are eligible to borrow in federal loans. You may also receive a loan from a private lender such as a bank. More on private loans here, [5] but keep in mind that private loans almost always have a higher interest rate than federal loans, meaning you'll likely pay more over the life of the loan.

Borrowing tips

Student loan FAQs

How do I change the loan amount I accepted?

If you have accepted a loan and would like to increase or decrease the loan amount you accepted, you can visit the student aid adjustment page to submit an aid adjustment form. [8]

How do I request more aid?

If you would like to increase the loan amount you accepted, you can visit the student aid adjustment page to submit an aid adjustment form. [8] Select the aid type you would like to request more of, then select Increase. Then you can indicate how much you have already accepted, and how much you would like to increase your loan to. If you're not sure how much you've already accepted, you can find that in your Financial Aid and Scholarships box in My ASU. To see how much you're eligible for, view the chart on the student aid adjustment form, or visit the studentaid.gov loans page. [9]

Do I have to repay student loans?

Yes, with interest. It's an investment in your future, and your earning potential will increase with a degree. That said, you only want to borrow what you need. Learn more about loan repayment.

What are ASU loan limits?

1st Year/Freshman (0 - 24 credits)

- **Dependent Undergraduate Student:**
\$5,500—No more than \$3,500 of this amount may be in subsidized loans.

- **Independent Undergraduate Student*:**
\$9,500—No more than \$3,500 of this amount may be in subsidized loans
- **Graduate/Professional Student:**
\$20,500†

2nd Year/Sophomore (25 - 55 credits)

- **Dependent Undergraduate Student:**
\$6,500—No more than \$4,500 of this amount may be in subsidized loans.
- **Independent Undergraduate Student*:**
\$10,500—No more than \$4,500 of this amount may be in subsidized loans.
- **Graduate/Professional Student:**
N/A

3rd Year/Junior, 4th Year/Senior (56+ credits)

- **Dependent Undergraduate Student:**
\$7,500—No more than \$5,500 of this amount may be in subsidized loans.
- **Independent Undergraduate Student*:**
\$12,500—No more than \$5,500 of this amount may be in subsidized loans.
- **Graduate/Professional Student:**
N/A

Maximum Total Debt from Federal Direct Subsidized and Unsubsidized Loans When You Graduate (i.e., your aggregate loan limits)

- **Dependent Undergraduate Student:**
\$31,000—No more than \$23,000 of this amount may be in subsidized loans.
- **Independent Undergraduate Student*:**
\$57,500—No more than \$23,000 of this amount may be in subsidized loans.
- **Graduate/Professional Student:**
\$138,500†

*Also applies to dependent undergraduate students whose parent was denied a PLUS loan and post-baccalaureate students.† As of the 2012-2013 academic year, subsidized loans are no longer awarded to.

For more information on student loan limits, visit the federal student loan limits page. [9]

How do student loans work?

First, you should submit the FAFSA to learn how much you're eligible for in federal loans. Then decide how much of that you want to borrow. (Don't borrow any more than you need.) The interest rates are fixed as of the date you borrow and federal loan interest rates are typically significantly lower than private student loan interest rates. Once you decide whether you're going to accept or decline your loans, sign into My ASU and click "accept" or "decline" if it's a Federal Direct Subsidized or Unsubsidized loan.

Do I need a parent or guardian to get loans?

If you're a dependent student, you need your parents' information to submit the FAFSA and receive federal student loans. Private student loan requirements vary so check with the lender.

How do I pay back Federal Perkins Loans?

ASU is your lender, and you'll repay ASU once your Perkins Loan moves to repayment status (typically nine months after graduation, withdrawal from school or dropping below half-time enrollment). Monthly payments depend on your loan amount and length of your repayment period. Payments can be made online. For complete details on repaying your Federal Perkins Loan, visit tuition.asu.edu/perkins-loan-repayment. [10]

Student loan repayment

Student loan deferment for current students

If you are a current ASU student enrolled at least half time (six credits per semester for undergraduate students or five credits per semester for graduate students), your student loans are automatically deferred until you graduate, unless you drop below half-time enrollment status.

Read more about student loan deferment. [1]

Repaying student loans

“On-ramp” to repayment

Monthly payments for federal student loans paused during COVID-19 will come out of forbearance [2] Sept. 1, 2023, and payments will be due again starting in October 2023. However, the Department of Education instituted an “on-ramp” period running from Oct. 1, 2023, to Sept. 30, 2024. Borrowers who may miss monthly payments during this period will not be considered delinquent, reported to credit bureaus, placed in default or referred to debt collection agencies.

New repayment plan introduced

The Saving on a Valuable Education (SAVE) [3] plan has been introduced to provide the lowest monthly payment option of any income-driven repayment plan. [4] It is available to student borrowers with a Direct Loan in good standing. To enroll in a SAVE income-driven repayment plan, you will need to contact your loan servicer. For information on who your loan servicer is, log in to the National Student Loan Data System. [5]

Fresh Start Default Resolution program

Fresh Start [6] is a one-time temporary Department of Education program that offers special benefits for borrowers with defaulted federal student loans. If you apply and qualify, your defaulted student loan will return to “in repayment” status and you can enter an affordable repayment plan. To see if you qualify for Fresh Start, visit myeddebt.ed.gov. [7]

Information on Parent Plus loans

The student loan repayment pause also applies to parents with Federal Direct Parent Plus loans. Parents should follow the same steps as students to obtain their FSA ID, [8] and then contact their loan provider for information on resuming payment. Parent Plus loan repayment follows a different timeline than student loans, and repayment will begin while the student is still in school. Interest will also begin to accumulate as repayment resumes. Please contact your loan provider for more information.

Student loan repayment

If you are no longer enrolled or are not enrolled in at least a half-time status, you will need to plan for your loans to go into repayment.

The first and most important step is to contact your federal loan servicer. If you don't know who your servicer is, visit the National Student Loan Data System. [5]

How to prepare [9]

Loan repayment resources

Learn more about student loan repayment from our financial wellness partner, iGrad.

Take a 10 minute student loan repayment course, [10] learn more about repayment options [11] and use the federal student loan repayment simulator [12] to calculate student loan payments and chose the best repayment option for you.

Establishing automatic payments

If you were on an automatic payment plan prior to the student loan repayment pause, you must contact your servicer and opt back in to the automatic payment plan. Not sure who your servicer [13] is? Go to StudentAid.gov, [12] find your account dashboard [14] and scroll down to the “My Loan Servicers” section. You can also call the Federal Student Aid Information Center at 1-800-433-3243.

Library resources

About ASU library

At Arizona State University, we are building a new library for the 21st century – one that is as inspiring as it is welcoming, both an incubator of creativity and a monument to human complexity. As new technologies, disciplines and opportunities for discovery continue to emerge, the learning and research needs of ASU students and faculty demand a library that is both agile and robust, community-centered and service-minded, imaginative and engaged, and equipped to support a growing and dynamic New American University.

Mission and vision [1]

Who we are [2]

Inclusion [3]

Our libraries [4]

By the numbers [5]

Staff directory [6]

The library is your partner

A critical partner in realizing the New American University model and fulfilling ASU's charter.

We support the goals and mission of the university; embody and embolden the knowledge network of ASU; and are truly interdisciplinary, socially embedded, community-driven and use-inspired.

Public servants

Our focus is on service.

Problem-solvers and collaborators

We believe in partnerships and cross-disciplinary approaches.

Cultivators of inclusion

ASU Library is a space of potentiality, out of which many futures can be built and of which none are excluded.

Supporters of student success

We support the needs of learners.

Advocates of open access and discovery

We support open access principles.

Preservationists and futurists

Our services support, maximize and preserve discovery.

Work with us!

We are looking for innovative, creative, passionate information professionals, support staff, students and interns to join our team.

About the Design and the Arts library

The Design and the Arts Library is located on the first floor of the Design North building. This portion of the ASU Library collection focuses strongly on design subjects, including: architecture, landscape architecture, interior design, graphic design, industrial design, and urban planning. The Design and the Arts Library houses approximately 50,000 books, journals, and media items, as well as a special collection of primary source materials and archival drawings.

Locating missing books or journal articles

If a needed item (book or journal) is not on the shelf, please ask at the library's Information & Check Out Desk. If the item is checked out or is missing, and you are an ASU student, faculty, or staff member, you may request a copy through Interlibrary Loan. [1] If material is not checked out, you can initiate a search by requesting the item through Library One Search. [2] When the material becomes available, you will be notified via your ASU email.

About the Downtown Phoenix campus library

The Downtown Phoenix campus Library, one of seven ASU Library locations, is located in the Information Commons in the lower level of the University Center building (411 N. Central Ave.). The full rich research collection of the entire ASU Library, both in print and online, is provided through the library. Students, faculty, and staff have access to over 275 research databases and almost 50,000 full text electronic journals which are available both on and off campus. Over 25,000 books and other research resources focusing on materials of particular interest to majors in the anchor fields

taught at the Downtown Phoenix campus [1] are available onsite, with ready access to the over four million volumes in the ASU Library. In addition, our expert librarians are available to provide personalized research assistance.

Group study [2] rooms equipped with white boards and video projectors are available in the Information Commons and provide a great opportunity to collaborate and interact with other students. A few group study rooms have computers and DVD/VHS players. There are over 65 computers available for student access, including 10 dual boot iMACs and several workstations for students with disabilities.

Please note, building access at our Downtown Phoenix campus Library is limited to current ASU students, staff and faculty with active Sun Cards. Members of the public and Community Borrowers should call 602-496-0300 [3] to arrange a visit.

ASU FIDM library

The ASU FIDM Library is a specialized library on the third floor of the California Center Grand building in downtown Los Angeles. Resources and services are meticulously curated to fulfill the essential needs of ASU students, faculty, staff, alumni and industry members. The sizable collection is aligned with fashion, costume, visual arts, graphic design, architecture, interior design, film and music. Available resources include books, periodicals, audiovisual materials, digital databases, eBooks, clipping files, Visionaire, trend forecast services, a swatch room and a permanent collection of innovative and sustainable products. Resources and library staff provide research support and experiences that fuel creativity and innovation.

Hours

- Mon–Thu: 7:30 a.m. to 7 p.m.
- Friday: 7:30 a.m. to 6 p.m.
- Closed Saturdays and Sundays.

About Fletcher library

Information

ASU's West Valley campus library combines the service and values of a traditional library with a state-of-the-art approach to the Information Age.

The Fletcher Library was dedicated in 1988 honor of the Robert L. Fletcher family whose gift of property resulted in an endowment for the perpetual support of the library. It was the first building completed on campus and soon after received an Honor Award, the top recognition of design excellence from the Southern Arizona Chapter of the American Institute of Architects. A semi-circular reflecting pool graces the library's front lawn.

In addition to a core print and media collection, Fletcher Library regularly features exhibitions and community-connected book displays. The third floor is home to the Labriola National American Indian Data Center's West Valley campus location. There are several group study rooms and ample space for individual study throughout the library. The three-story library is open seven days a week during semester sessions.

The first floor includes the Student Success tutoring center and First Year Success (FYS-West).

Housed in the library's lower level is the the American Indian Student Support Services (AISSS-West).

Treat yourself to a pastry and a cup of coffee at the Starbucks located inside the main entrance to the library.

Read the law that created the West Valley campus (PDF). [1]

About Hayden library

Capping off a \$90 million renovation [1], ASU's Hayden Library, originally built in 1966, has been reinvented and reopened for the 21st century, with an eye toward maximum accessibility, engagement and support for the university's growing student population.

Hayden Library's revamped five-story tower, which sits at the center of ASU's Tempe campus, now features nearly double the student space, enhanced study areas, community-driven book collections, two reading rooms, a variety of research services [2] and interdisciplinary learning labs, and an entire floor devoted to innovation.

To learn more about the reinvention and renovation of Hayden Library, read the ASU Now story: New doors open to Hayden Library [3]

About the library

The Ross-Blakley Law Library resides in the Beus Center for Law and Society in Phoenix, Arizona. The Ross-Blakley Law Library fulfills the educational information needs of the faculty and students of the Sandra Day O'Connor College of Law. We have built a superlative collection of legal and interdisciplinary research resources necessary to support our faculty and students. We maintain a collection of primary authority and secondary source materials. Some collection emphases include Indian Law and English Legal History. We have a dedicated and knowledgeable staff to support the research needs of all our patrons.

William C. Blakley and John J. Ross

The Law Library is named in memory of William C. Blakley, a 1971 graduate of the Arizona State University Law School and member of the law firm of Mohr, Hackett, Pederson, Blakley, Randolph & Haga PC at the time of his death, and John J. Ross, a graduate of Harvard Law School and senior partner of Brown & Bain PA at the time of his death. The former Law Library building was made possible by an almost unprecedented capital campaign spearheaded by Sue Ross and Lynn Blakley Grant, and generously supported by a large number of individuals, law firms and organizations. Visitors may view a portrait of William C. Blakley and John J. Ross at the Law Library Circulation Desk.

About the Beus Center for Law and Society (BCLS)

In June 2016 the Sandra Day O'Connor College of Law and the Ross-Blakley Law Library moved to the Beus Center for Law and Society in Downtown Phoenix. The building space uses form and function to connect students, visitors, and the general public to the role of justice in society. The BCLS was designed to be inviting, engaging, and accessible to everyone who is interested in learning about the law, its effect on our daily lives, and the many services and resources available through ASU and other BCLS partners.

Plans for the BCLS were unveiled on December 2013. Construction on the six-story, \$129 million building began in the summer of 2014. ASU Law students will find their learning experiences and opportunities enhanced by being steps away from the legal, political, and economic heart of Arizona in the nation's sixth-largest city. This move to downtown Phoenix makes it easier for students to network with alumni and other experts, as well as prospective employers.

About Noble library

Noble Library became Arizona State University's second major library facility in 1983. Today, Noble Library is home to a growing open stack print collection and a number of student support services, in addition to group and individual study spaces.

Dr. Daniel E. Noble, [1] the library's namesake, was a technical innovator and inventor. Noble worked at Motorola for more than 30 years holding various research and executive positions, and is credited with designing the first FM mobile communication system.

University policies

Academic integrity

At Arizona State University, we place great value on the research and scholarship of our students and faculty and are committed to a culture of academic integrity and scholarly ethics. We welcome you into our culture of academic excellence and integrity and hope you will help foster and promote ethical and honest behavior in connection with your scholarly work and interactions with your peers.

Academic integrity and honesty at ASU: Arizona State University [1] on Youtube.

What is Academic integrity?

No matter what stage of your educational or professional career pursuits, acting with integrity is a cornerstone of leadership and good citizenship. Integrity is a character-driven commitment to honesty, doing what is right, and guiding others to do what is right. Arizona State University students and faculty are expected to act with integrity in their educational pursuits.

Academic dishonesty falls into five broad areas that include but are not limited to:

1. Cheating on an academic evaluation or assignment.
2. Plagiarizing. [2]
3. Academic deceit, such as fabricating data or information.
4. Aiding academic integrity policy violations and inappropriately collaborating.
5. Falsifying academic records.

It is important that you understand what constitutes a violation of academic integrity. The ASU community is here to help you stay informed and to provide resources to avoid these kinds of violations. Please read ASU's academic integrity policy found here and visit the student resource page found here.

Mostly importantly, if you are not sure if something is really cheating, ask your professors, academic integrity officers, T.A.s or academic advisors.

Source URL: <https://provost.asu.edu/academic-integrity>

Links:

[1] https://www.youtube.com/watch?v=_re07sKys_o

[2] <https://provost.asu.edu/academic-integrity/resources/students#avoiding-plagiarism>

ASU Student Honor Code

The ASU student honor code affirms the commitment of ASU students to uphold the values, principles, and ethics of academic integrity.

Honor Code

"We, the students of Arizona State University, adopt this code as an affirmation of our commitment to academic integrity and our participation in ethical education.

We embrace our duty to uphold ASU's Honor Code, and in light of that duty,

We promise to refrain from academic dishonesty.

We pledge to act with integrity and honesty and to promote these values among our peers. We agree to always abide by the Sun Devil Way [1] and uphold the values of the New American University [2]."

Source URL: <https://provost.asu.edu/academic-integrity/honor-code>

Links:

[1] <https://eoss.asu.edu/sundevilway>

[2] <https://newamericanuniversity.asu.edu/about/asu-charter-mission-and-goals>

Why is academic integrity important?

Foundational value

Academic integrity is a fundamental value and is paramount to your success as a student. Protecting the ASU community from violations of academic integrity is everyone's responsibility.

Academic integrity violations negatively impact:

You as a student

If you cheat in a course or another academic exercise, you are taking away your opportunity to learn, develop and improve your skills, and obtain an educational degree that reflects your own academic achievements.

The ASU community

ASU is an intellectual community focused on teaching, research and the values of the New American University. The creation, transmission, sharing and applying of knowledge are central activities of the community. Cheating violates fundamental values of the university community.

Future employers, clients or patients

Cheating can hurt the people you will work with in the future. You are preparing for careers where you will provide services to others—legal, journalistic, medical, research, etc. If you do not learn how to do this work, you have cheated your future employers and clients of a knowledgeable professional.

Student policy

Why is academic integrity important? [1] on Youtube.

Keon McGuire, Assistant Professor in Mary Lou Fulton Teacher College, shares why academic integrity is important. We want your time spent here at ASU to be enriching, engaging and full of wonderful educational experiences that prepare you for your future.

What is a violation of the academic integrity policy?

Academic dishonesty falls into five broad areas that include but are not limited to:

1. Cheating on an academic evaluation or assignment.
2. Plagiarizing.
3. Academic deceit, such as fabricating data or information.
4. Aiding academic integrity policy violations and inappropriately collaborating.
5. Falsifying academic records.

What are the consequences?

At Arizona State University, academic honesty is expected of all students in all examinations, papers, academic transactions and records. The possible sanctions include, but are not limited to: appropriate grade penalties, loss of registration privileges, disqualification and dismissal. ASU strictly adheres to the academic integrity policy.

This policy sets forth the ASU Student Academic Integrity Policy and appeal procedures.

View full policy [2]

Source URL: <https://provost.asu.edu/academic-integrity/impact>

Links:

[1] https://www.youtube.com/watch?v=XI_LGLFhPPc

[2] <https://provost.asu.edu/academic-integrity/policy>

Student policy

At Arizona State University academic honesty is expected of all students in all examinations, papers, academic transactions and records. The possible sanctions include, but are not limited to: appropriate grade penalties, loss of registration privileges, disqualification and dismissal. ASU strictly adheres to the academic integrity policy. This policy sets forth the ASU Student Academic Integrity Policy and appeal procedures.

A. Purpose

1. This Policy sets forth the ASU Student Academic Integrity Policy and appeal procedures. These procedures are designed to encourage a fair and appropriate process for student and faculty to resolve allegations of academic dishonesty. They may be modified in individual cases, so long as the student is provided notice and an opportunity to respond to allegations of academic dishonesty.
2. This Policy does not apply to differences of opinion over grades issued by an instructor.

B. Definitions

Academic Deceit Any deceptive or fraudulent act that creates or attempts to create an advantage or disadvantage for any member of the academic community.

Academic Evaluation Any academic assignment, project, paper, performance, quiz, exam, comprehensive exam, candidacy exam, thesis, dissertation, clinical or internship experience, or other evaluation assigned or offered for credit (including extra or optional credit), intended to fulfill an academic requirement, or considered by the University to provide academic or research experience (such as a paid research position).

Academic Integrity Officer The person responsible for managing the academic integrity investigation and adjudication process in a College or School. The Academic Integrity Officer works with both the student and Instructor to ensure that all procedures are followed. The Academic Integrity Officer is responsible for guiding both the student and Instructor through the investigation and adjudication process. The Academic Integrity Officer may pursue the academic dishonesty allegation if, for any reason, the Instructor is unable or unwilling to do so.

Advisor An individual selected by the student to assist him/her during the academic integrity process. The advisor may be a faculty or staff member, student, or other representative of the student.

College/School Board College or School Board is appointed by the academic Dean to review allegations of academic dishonesty. Each College or School Board is a standing committee comprised of faculty members and at least one student.

University Academic Integrity Hearing Board Hearing board appointed by the Provost or designee to review allegations of academic dishonesty, typically through student appeals from a College/School Board.

Instructor An academic supervisor or any person holding a faculty appointment as defined in the Arizona State University Academic Affairs Manual and is responsible for or authorized to conduct an academic evaluation. The Academic Integrity Officer may take the place of the Instructor throughout this process.

Day University business day, not including Saturday, Sunday, any officially recognized university employee holiday, or any day the University is closed.

C. Student obligations

1. All students must act with honesty and integrity. ASU believes that any form of Academic Dishonesty negatively impacts not only the student involved but all ASU students. The ASU student honor code affirms this commitment to integrity and can be found [here](#).
2. Academic Dishonesty includes attempting or engaging in the following:
 - a. Academic Deceit;
 - b. Referring to unauthorized materials, sources, or devices (e.g., Internet resources, computer disks, audio recorders, cellular phones, personal electronic devices, text messages, crib sheets, calculators, solution manuals, materials from previous classes, or commercial research services) during an Academic Evaluation;
 - c. Possessing, reviewing, buying, selling, obtaining, posting on a site accessible to others, reviewing materials from a site accessible to others, or using, without appropriate authorization, any materials intended to be used for an Academic Evaluation in advance of its administration;

- d. Using a substitute or acting as a substitute for another person in any Academic Evaluation;
- e. Relying on the aid of others, including other students, tutors, or for-hire agents, in connection with any Academic Evaluation to the extent that the work is not representative of the student's abilities;
- f. Providing inappropriate aid to another person in connection with any Academic Evaluation, including the unauthorized use of materials, cellular phones, text messages, photocopies, notes, or other means to copy or photograph materials used or intended for Academic Evaluation;
- g. Plagiarism, or the use of another's words, ideas, materials, or work from the Internet or any other source without properly acknowledging and documenting the source. Students are responsible for knowing the rules governing the use of another's work or materials and for acknowledging and documenting the source appropriately.
- h. Claiming credit for or submitting work done by another or through the unauthorized use of technology;
- i. Signing an attendance sheet for another student, allowing another person to sign on the student's behalf, or otherwise obtaining credit for attendance for oneself or another without attending;
- j. Falsifying or misrepresenting hours or activities regarding an internship, externship, field experience, clinical activity, or similar activity; or
- k. Attempting to influence or change any Academic Evaluation, or academic record for reasons having no relevance to academic achievement.

D. Academic dishonesty investigation and procedures

1. Anyone with a good faith basis for believing that a student has engaged in Academic Dishonesty may report the alleged violation to the Instructor or Academic Integrity Officer for the college or school in which the Academic Dishonesty occurred.
2. If the Instructor or Academic Integrity Officer conclude that there is a sufficient basis to believe the student engaged in Academic Dishonesty, the Academic Integrity Officer will notify the student of the alleged violation and initiate the investigative process.
3. Before concluding the investigation, the Academic Integrity Officer will provide the student a summary of the information gathered. The student will have 5 business days after the notice was sent to respond on his/her own behalf to the allegation.
4. At any point in the process, the student can contact the Academic Integrity Officer to seek consultation or clarification.
5. The student may be accompanied by an Advisor at any point in the process. The Advisor is not permitted to participate directly or speak for the student.
6. Once the investigation is complete, in consultation with the Academic Integrity Officer, the instructor will recommend a sanction. The student will be notified of the result of the investigation and the sanction to be imposed, if any.

E. Sanctions and appeal

1. The following sanctions may be imposed for Academic Dishonesty:
 - a. Reduced or failing grade for the Academic Evaluation;
 - b. Reduced or failing grade for the course.
 - c. An XE grade as described in section K below;
 - d. Withdrawal of credit for a previously accepted course or requirement;
 - e. Suspension from the University for a specific period of time;
 - f. Expulsion from the University without expectation of readmission; and/or
 - g. Other sanctions as consistent with this policy and the Student Code of Conduct: <https://eoss.asu.edu/dos/srr/codeofconduct> [1]
2. At any time, the student and the Instructor may agree on the sanction and inform the Dean. The Dean may reject the proposed resolution and appoint a designee to pursue the case on behalf of the University.
3. The student will also be notified of their right to appeal to the Dean. The student must file their appeal no later than 10 business days after the date the notification was sent. If the student does not file a timely appeal, the sanction is final.
4. A student's appeal of a recommended sanction must be submitted in writing and include the following:
 - a. A description of the alleged academic dishonesty, including a factual narrative of events, the dates and times of occurrences, and any other reason why the sanction should not be imposed;
 - b. The names of persons having information about relevant circumstances or events; and
 - c. The general nature and description of all evidence.
5. If the student files an appeal, the student must meet with the Academic Integrity Officer to discuss hearing procedures. The Academic Integrity Officer will help the student navigate the process and provide additional information when needed.

6. If the student wishes to dispute any aspect of the allegation or sanction, the student may file an appeal. If the student files a timely appeal, the sanction will not be imposed until the appeal is resolved. If the student files an appeal at the end of a semester, or during the last semester of enrollment, the course grade or degree may be withheld until the matter is resolved. If a grade or degree will be withheld for any period, the Academic Integrity Officer or Dean must notify the Registrar's Office.

F. College/school board hearing

1. The Academic Integrity Officer will forward a student's timely appeal to the Instructor.
2. Pre-Hearing Proceedings
 - a. The Academic Integrity Officer will send a notice of hearing to the student, Instructor, College/School Board, and the head of the College/School/academic unit where the alleged dishonesty occurred. The notice will include the following information:
 - I. Statement of time and place of the hearing before the College/School Board. Unless the parties and Academic Integrity Officer agree otherwise, the hearing will take place during the regular fall or spring semester;
 - II. A copy of this Policy or instructions on accessing the Policy electronically;
 - III. Requirement that the parties provide to each other and the College/School Board a written list of witnesses and a description of any documents or other evidence they intend to use at the hearing. Unless the Chair provides otherwise, this information must be exchanged at least 5 business days before the hearing.
 - IV. The length of time set for the hearing, the time limitation for the presentation of evidence, and any other procedural requirements.
3. Conduct of the Hearing
 - a. In order to preserve the confidential nature of the disciplinary process and to protect the privacy of those involved, the hearing will be closed to the public.
 - b. The College/School Board Chair will preside at the hearing and will rule upon all procedural matters. The formal rules of evidence will not apply, although objections to the introduction of specific statements or documents may be considered by the Chair. Irrelevant, immaterial, privileged, or unduly repetitious information will be excluded.
 - c. The Instructor shall have the burden of showing it is more likely than not that the student engaged in Academic Dishonesty. The Instructor must also explain the reason for the sanction. If the student accepts responsibility for Academic Dishonesty, then the College/School Board may focus the hearing on the appropriate sanction.
 - d. Information regarding prior violations or informal resolutions of previous allegations may not be used as proof of a current violation, but may be admitted for other purposes, such as to show that the student had prior experience relevant to the allegations or to show that the student had been informed previously that the conduct was unacceptable. The College/School Board may also consider information regarding prior violations in determining an appropriate sanction.
 - e. A student who fails to appear or refuses to participate at the hearing will be deemed to have abandoned his/her appeal, unless the student can demonstrate that extraordinary circumstances prevented his/her appearance or participation.
 - f. The student and Instructor may each have an Advisor present, but the Advisors shall not be permitted to address the College/School Board directly, except as the College/School Board Chair deems necessary or appropriate.
 - g. The hearing will be recorded and the student may request a copy of the recording. The student may also request a transcript, but will be responsible for its cost.
 - h. Except as otherwise permitted by the College/School Board Chair, witnesses will be excluded from the hearing except during their own testimony. The Chair may remove a party, Advisor, or witness from the hearing if that person's conduct is disruptive.
 - i. When necessitated by fairness or extraordinary circumstances, the College/School Board may permit the parties to make arrangements for recorded, written, or telephonic testimony from their witness (es) for use in the proceeding.
 - j. The Instructor shall proceed first at each stage of the presentation.
 - I. Each party may present an opening statement, which summarizes what information is expected to be presented.
 - II. Each party will call witness(es) to provide statements under oath.
 - III. At the conclusion of each witness's statement, he/she may be questioned by the other party.
 - IV. The College/School Board may ask further questions of each witness.
 - V. Each party may present a closing statement, which summarizes the information that was presented.

4. If the alleged Academic Dishonesty involves the work of multiple students, the College/School Board may modify these procedures to address the circumstances. The College/School Board should provide prior written notice of any modification of the procedures to all parties. Each student must file his/her own appeal. A student who has not filed an appeal should not expect to benefit from another student's appeal.

G. College/school board deliberations and recommendations

1. Following the presentation of information and closing statements, the College/School Board will discuss the information that has been presented and the reasonable inferences to be drawn from it. Only the Board, its legal advisor, if any, and the Academic Integrity Officer may be present during the deliberations. Neither the student nor the Instructor may be present during the deliberations.
2. Based solely upon the information presented, the College/School Board will formulate a recommendation to the Dean as to whether the student more likely than not engaged in academic dishonesty and the appropriate sanction. Recommendations must be supported by a simple majority of the Board.
3. The College/School Board will prepare and send a written recommendation to the Dean within 5 business days of the hearing. The written recommendation will include findings of fact and a statement of the reasons for the recommendation. It will also be signed by the College/School Board Chair. If the recommendation is not unanimous, dissenting opinions should be reflected in the recommendation.

H. Review and decision by Dean

1. After reviewing of the College/School Board's Recommendation, the Dean will render a written decision which affirms, denies, or accepts the College/School Board's recommendation with modifications.
2. The Dean may not make new findings adverse to the student or increase the severity of a sanction, unless
 1. The Dean provides the student notice and an opportunity to respond to the new findings or sanction, and
 2. Remands the matter to the College/School Board for further proceedings.
3. The Dean will provide written notice of the decision to the student, the Academic Integrity Officer, the instructor, the College/School Board, and the head of the College/School/academic unit where the alleged dishonesty occurred within 20 business days following receipt of the College/School Board's recommendation. A delay may occur if it becomes necessary to conduct further investigation or to remand the matter to the College/School Board. In those cases, the written decision will be transmitted no later than 20 business days following completion of the investigation or the College/School Board's subsequent recommendation.
4. The Dean's decision is final and may not be further appealed unless the Dean recommends that the Provost suspend or expel the student from the University.
5. If the Dean recommends the suspension or expulsion of an international student, both the student and Academic Integrity Officer should consult with the ASU International Students and Scholars Center.
6. If the Dean recommends that the Provost suspend or expel the student from the University, the letter from the Dean will state that the student may appeal the recommendation by filing a written request for review with the Provost within 10 business days of the date of the letter.
7. If the student does not timely appeal, the Provost or designee will review the Dean's recommendation and issue a final decision on suspensions or expulsions from the University.

I. Review and decision of a suspension or expulsion from the university

1. A student may seek to have a Dean's decision reviewed by the University Academic Integrity Hearing Board only if the Dean recommends that the Provost suspend or expel the student from the University. However, a student who failed to appeal or abandoned his/her appeal at the College/School Board hearing may not appeal to the University Academic Integrity Hearing Board.
2. The appeal must be in writing and must be filed with the Provost within 10 business days of the date of the Dean's decision letter.
3. The Provost or designee will appoint and charge a University Academic Integrity Hearing Board to conduct the hearing. The Hearing Board will be comprised of three members. One member must be a student and one of the other members will act as Hearing Board Chair. The hearing shall follow the procedures set forth in the Student Code of Conduct Procedures, except that the College/School will take the role of the Dean of Students and the Provost or designee will take the role of the Senior Vice President for Educational Outreach and Student Services.

J. Review and decision of a degree or certificate revocation

1. Anyone with a good faith basis to believe that an ASU alumnum has engaged in Academic Dishonesty may report the alleged violation to the Office of the University Provost.

2. The Provost's designee will investigate and make an initial determination as to whether there is a sufficient basis to believe that the alumnum engaged in Academic Dishonesty and whether the appropriate sanction includes degree or certificate revocation.
3. If the Provost's designee decides to initiate an Academic Dishonesty complaint, he/she will notify the alumnum of the allegations and provide the alumnum an opportunity to respond.
4. The Dean of the College/School that awarded the degree or certificate may choose to convene an ad hoc committee to review the evidence and make a recommendation as to whether the alumnum engaged in Academic Dishonesty and the appropriate sanction.
5. In cases not involving graduate students, after reviewing the evidence and committee recommendation, if any, the Dean of the College/School that awarded the degree or certificate will render a written decision as to whether the alumnum more likely than not engaged in Academic Dishonesty and the appropriate sanction.
6. In cases involving graduate students, after reviewing the evidence and committee recommendation, if any, the Dean of Graduate College in consultation with the Dean of the College/School that awarded the graduate degree or certificate, will render a written decision as to whether the alumnum more likely than not engaged in Academic Dishonesty and the appropriate sanction.
7. If the Dean recommends that the Provost revoke a degree or certificate, the letter from the Dean will state that the alumnum may appeal the recommendation by filing a written request for review with the Provost within 10 business days after the date the notification was sent.
8. If the alumnum does not timely appeal, the Provost or designee will review the recommendation and issue a final decision.
9. If the alumnum files a timely appeal, the Provost or designee will establish a University Academic Integrity Hearing Board to conduct the hearing. The hearing shall follow the procedures set forth in the Student Disciplinary/Grievance Procedures, except that the College/School will take the role of the Dean of Students and the Provost will take the role of the Senior Vice President for Educational Outreach and Student Services.

K. XE grade

1. The XE grade will be recorded on the student's official and unofficial transcript with the notation "failure due to academic dishonesty." The XE grade shall be treated in the same way as an E for the purposes of grade point average and determination of academic standing.
2. No student with an XE grade on his/her transcript shall be permitted to represent the University in any extracurricular activity or to run for or hold office in any recognized student organization.
3. Generally, the XE grade will remain on the transcript permanently. For other cases, after at least 12 months have elapsed since the XE grade was imposed, the student may file a written petition to the Dean to have the XE grade removed and replaced with an E grade. The decision to remove the XE grade and replace it with an E grade is within the discretion and judgment of the Dean.
4. Before replacing an XE grade with an E grade, the Dean may confer with other University officials and may require the student to attest that he/she has not been involved in any other act of academic dishonesty or similar disciplinary offense at ASU or another institution. If the student's representation is later discovered to be false, the Dean may reinstate the XE grade and recommend suspension or expulsion.

L. Procedures following final decision

1. If any student work affected by the finding of Academic Dishonesty has been placed in the library or forwarded to a third party in partial fulfillment of degree requirements, that work may be removed from the library or withdrawn from the third party.
2. A student's official and unofficial transcript may reflect that an XE grade, suspension from the university, expulsion from the university, or degree or certificate revocation was the result of Academic Dishonesty.
3. One year after the completion of a suspension for Academic Dishonesty, a student may petition to have the notation of suspension for Academic Dishonesty removed from his or her transcript. The student must submit a written petition to the Provost which summarizes his or her academic and personal history since the suspension which justifies removing the notation. The decision to remove the notation that the student was suspended for Academic Dishonesty is within the sole discretion and judgment of the Provost.
4. A notation of expulsion from the university or degree or certificate revocation resulting from Academic Dishonesty is permanent.
5. A degree may be revoked if its requirements were not adequately fulfilled.
6. If a degree is revoked and a transcript was forwarded to another institution, ASU will notify the institution of the revocation.

M. Other university policies

The University's Misconduct in Research Policy is independent of the Student Academic Integrity Policy and the Guidelines for Graduate Appeals. Individual conduct may also violate and be subject to review and sanctions under these policies.

Meet your Academic Integrity Officer

The Academic Integrity Officer for a college/school serves as the lead educator for faculty and students to sustain a culture of academic integrity at ASU and to increase awareness of the university's academic integrity policy. [1]

Both student and faculty can contact the Academic Integrity Officer for your College/School to report an academic integrity violation or to ask questions related to academic integrity policies and procedures.

Meet your academic integrity officers [2] on Youtube.

Meet some of your academic integrity officers in this video. They are here for you. They will help you find an answer that avoids problems with academic integrity. We invite you to meet with your academic integrity officer and know who they are.

Academic Integrity Officers

Lisa Anderson [3]

Associate Dean for Academic Affairs
Graduate College
lmanderson@asu.edu [4]

Bruce Bailey [5]

Manager
University College
bruce.d.bailey@asu.edu [6]

Chuck Barbee [7]

Director of Academic Integrity, Standards and Student Conduct
Ira A. Fulton Schools of Engineering
charles.barbee@asu.edu [8]

Kaylen Cons [9]

Senior Director, Student Academic Affairs
The College of Liberal Arts and Sciences
kaylen.cons@asu.edu [10]

Stephani Etheridge Woodson [11]

Interim Associate Dean of Students
Herberger Institute for Design and the Arts
swoodson@asu.edu [12]

Elisabeth Gee [13]

Associate Dean, Academic Systems and Delbert and Jewell Lewis Chair in Reading and Literacy Professor
Mary Lou Fulton Teachers College
elisabeth.gee@asu.edu [14]

Justin Harding [15]

Exec Director
EdPlus
justin.harding@asu.edu [16]

Tamara Herrera [17]

Associate Dean of Academic Affairs and Clinical Professor of Law
Sandra Day O'Connor College of Law
tamara.herrera@asu.edu [18]

Ron Hicks [19]

Senior Director, Student Success Operations
College of Health Solutions
ron.hicks@asu.edu [20]

Laura Jakubczak [21]

Assistant Dean and Teaching Professor
Barrett, The Honors College
laura.jakubczak@asu.edu [22]

Kathy Kenny [23]

Associate Dean
Edson, College of Nursing and Health Innovation
katherine.kenny@asu.edu [24]

Catherine Kerrey [25]

Executive Director, Academic and Student Affairs
New College of Interdisciplinary Arts and Sciences
catherine.kerrey@asu.edu [26]

Brett Kurland [27]

Assistant Dean and Professor of Practice
Walter Cronkite School of Journalism and Mass Communication
bkurland@asu.edu [28]

Travis Leybeck [29]

Sr. Director, Student Engagement and Professional Services
Thunderbird School of Global Management
travis.leybeck@thunderbird.asu.edu [30]

Kielii Lilavois [31]

Assistant Director of Academic Services
College of Integrative Sciences and Arts
kielii.lilavois@asu.edu [32]

Joanna Lucio [33]

Associate Dean
Watts College of Public Service and Community Solutions
joanna.duke@asu.edu [34]

Lisa Murphy [35]

Sr. Director, Academic Services
College of Global Futures
lisa.m.murphy@asu.edu [36]

Rudy Pino [37]

Executive Director, Academic Excellence
W. P. Carey School of Business
rudy.pino@asu.edu [38]

Student resources

Over the course of your academic journey here at Arizona State University, you will be challenged to continually build upon your skills and academic abilities. At times, pressure and stress can arise from balancing busy schedules, academic commitments, and personal commitments. In these moments of adversity, it's important that you make ethical decisions and uphold a high standard of integrity for you and for others.

Behaviors and actions

What does Sun Devil Integrity look like?

To see the behaviors and actions of Sun Devil Integrity, view the infographic below or download the PDF. [1]

Sun Devil Integrity

Engages in learning

Chooses to engage in learning in college courses to fully understand the content so he/she can be a knowledgeable professional when entering the career world.

Takes notes

Diligently takes notes during class and during readings to begin preparing for exams. Studies his/her own notes, making flashcards and study materials, without seeking shortcuts.

Reports cheating

Reports cheating to the department's academic integrity officer.

Studies diligently

Studies for exams and assessments diligently and well in advance of exam day. Collaborates with classmates to study for exams by quizzing each other, but completes the exams entirely by himself/herself.

Cites sources

Cites all sources that are referenced, paraphrased, and/or quoted in full or in part, using appropriate source citation (such as APA or MLA format).

Avoids cheating

Avoids online or contract cheating websites where offers to complete college coursework, in full or in part, are made.

Completes tasks

Breaks long papers into parts (bibliography, outline, introduction, body, conclusion, and further sub-parts) to complete the task in stages ahead of deadlines.

Works in advance

Works in advance of assignment deadlines to plan out projects and papers, and create a checklist and a study plan with a daily or weekly schedule.

Encourages others

Encourages classmates to do their own work and to learn materials so they can be knowledgeable aspiring professionals.

Respects Honor Code

Treats instructors and classmates with respect and upholds the ASU Student Honor Code.

Academic Integrity at ASU tutorial

The Academic Integrity at ASU tutorial [2] also will walk you through the importance of academic integrity. Upon completion of the tutorial you will be able to:

- Describe the five types of academic integrity
- Identify the do's and don'ts of academic integrity at ASU
- Recognize the consequences of academic dishonesty

Strategies

Strategies for how to complete your work with integrity

Be informed: Understand ASU's expectations regarding academic integrity by understanding the Academic Integrity Policy [3] and Student Code of Conduct. [4]

Ask questions: If you are not sure if something is really cheating, ask your professors, T.A.s, academic integrity officers, or academic advisors.

Seek tutoring: Ask your professors and others in your department for help in finding academic support. Help is available from the following sources:

- On-campus, in-person writing support [5]
- Online support for citations and style manuals [6]
- Tutoring and academic success resources [7]

Stay healthy: Checkout the Live Well at ASU [8] webpages to obtain information, resources and involvement opportunities found in each element are designed to positively impact you academic performance, personal well-being and assist you in reaching your full potential.

Avoiding plagiarism

Plagiarism may be the most common form of academic dishonesty and is often unintentional. Protect yourself by understanding how to avoid plagiarism at Arizona State University using the following resources.

What is plagiarism?

Defining plagiarism

Acts of plagiarism can be glaringly obvious or very subtle. Understanding plagiarism, with all of its intricacies and nuances, provides a foundation of knowledge one can use to make sound decisions and avoid getting caught up in a plagiarism scandal—whether intentional or unintentional.

Document sources appropriately

Lapses in one's technique for paraphrasing ideas, quoting information or citing sources can make way for accusations of plagiarism. Make it a point to learn how to integrate the ideas of others and to document the sources of "borrowed" information appropriately. View citation styles. [6]

Avoiding unintentional plagiarism

Keeping track of the deluge of notes and source material can become a mind-boggling undertaking, and mistakes can lead to unintentional plagiarism. Learn about web-based citation management tools at ASU Library's Citation Management Tools [9] library guide.

Self-Plagiarism

Quoting words or borrowing ideas without reference to the author is a problem, even if you happen to be the author.

Same story – different outlets

You cannot:

- submit the same paper for different classes.
- use sections of your previous work for a comp exam answer.
- expand on your master's thesis for your dissertation.
- submit the same research article to different journals.

Learn more about the complicated issue of self-plagiarism. Talk to your Academic Integrity Officer about what this means for you.

Recycling is not always good

Not when it comes to your own words. Many researchers use the same literature, research methods or analyses across studies and find it time consuming to write new versions of these sections. Yet blind journal reviewers or electronic cross-checking may indicate you are plagiarizing. Take the time to rephrase and remember you need to cite yourself.

Avoid salami-slicing

Or publishing multiple studies from the same data set. You may need to reduce a complex set of distinct hypotheses into separate papers. If so, let the readers know you did this. If the slices can be combined to make a whole, then it is better to go with the whole salami. To learn more about the nuances of “salami-slicing” in your discipline just pop this term into Google scholar and it will open your eyes.

Self-plagiarism resources

1. Bretag, T. & Mahmud, S. (2009). Self-Plagiarism or Appropriate Textual Re-use? *Journal of Academic Ethics*, 7:193–205 <http://www.springerlink.com.ezproxy1.lib.asu.edu/content/256280445158v940/> [10]
2. Scanlon, P. M. (2007). *Song From Myself: An Anatomy of Self-Plagiarism*. vol. II. Ann Arbor, MI: Scholarly Publishing Office, University of Michigan Library <http://hdl.handle.net/2027/spo.5240451.0002.007> [11] retrieved July 2010

Plagiarism tutorial

Take the Plagiarism Awareness: Don't Stumble Into it Accidentally! [12] tutorial. Upon completion of the tutorial you will be able to:

- Define and recognize plagiarism.
- Explain the importance of citation in the scholarly environment.
- Demonstrated strategies to avoid unintentional plagiarism.
- Recognize and explain the consequences of plagiarism.

Resources for citations

Visit the ASU Library citation styles [13] webpage as a reference for citing resources appropriately using APA, MLA, Chicago, or other citation-style guidelines. The site also offers exercises to help you practice the appropriate use of citations.

Contract cheating

Definition of contract cheating

Contract cheating is a type of academic dishonesty where a student asks another person to complete all or part of their work for them. The student may ask someone they know to write a paper for them, as a favor, or they may pay someone to do it. Regardless of whether money changes hands or not, presenting someone else's work as your own is always cheating.

What are some of the ways contract cheating negatively impacts you and the ASU community?

There are numerous ways in which contract cheating negatively impacts you, your fellow students, and the ASU community. Here are a few:

- You do not acquire any of the knowledge that your instructor intended for you to learn when you have someone else do your work. By doing so, you are taking away your opportunity to grow as a student and professional contract cheating is a very serious academic integrity violation which could result in suspension or expulsion permanently from the University.
- Students who complete their work on their own are disadvantaged by students who are cheating.
- When you ask someone to do work for you, you are asking them to cheat on your behalf. Your request for their help will lead to negative consequences for them as well.

What are some things I can do if I am overwhelmed and notice that I am becoming tempted by contract cheating?

Part of the learning process as a college student is to work your way through challenging times in an honest and ethical manner. Spending time prioritizing your assignments and engaging in good time management practices is ideal. However, you may still experience times where you feel overwhelmed by multiple deadlines and projects.

There are resources to support you:

- Communicate and/or meet with your instructor.
- Schedule an appointment to talk to your advisor.
- Meet with the Academic Integrity Officer [14] in your college/school.
- Utilize your college/school tutoring resources.
- Utilize the ASU resources [15] offered from the Dean of students' office.
- Contact the ASU First Year Success Center. [16]
- Contact the International Students and Scholars Center. [17]

Remember, it is better to do poorly on an assignment or even fail an examination than it would be to commit an academic integrity violation. The skills you develop working through challenging situations, enhances your resiliency and makes you an even more effective college graduate.

Accelerated Master's

How to apply

There are thousands of accelerated master's degree options available at ASU. You can choose a master's degree option that's from the same discipline as your undergraduate major or one from a different discipline.

What to expect

The accelerated master's program allows you to take up to 12 credit hours of graduate-level courses as an undergraduate student that count toward both your undergraduate and graduate degree requirements. You should start this process early, as a first-year student or sophomore.

Here is a sample of the milestones you should be achieving each year in order to be on the accelerated path to program completion.

1. Undergraduate first year:
 - Review the accelerated master's degree program options.
2. Undergraduate sophomore year:
 - Talk to an academic advisor to discuss your program of interest.
3. Undergraduate junior year:
 - Meet GPA and other requirements specific to your program of interest.
 - Meet with your accelerated program advisor to discuss the application process.
4. Undergraduate senior year:
 - Complete graduate courses and apply for admission to the graduate program.
 - Get admitted to the graduate program and complete your undergraduate degree.

5. Graduate year:
 - o Complete your graduate degree program

List of accelerated master's program options

Because every program is specialized, the best way to find out if an accelerated master's program is right for you is to talk to an advisor. Find the right contact by finding your program of interest from the list of colleges below.

Pre-approved accelerated master's combinations have designated points of contact on both the undergraduate and graduate sites. Select the college below that offers the master's degree you're interested in, find your undergraduate program, and contact the advisor listed to find out how to apply.

- Business, W. P. Carey School of [1]
- Design and the Arts, Herberger Institute for [2]
- Engineering, Ira A. Fulton Schools of [3]

Artificial intelligence

Guidelines and resources

Teaching and learning with generative AI

Generative AI has the potential to address some of the biggest challenges in education today. Nonetheless, as educators and students, we face a new frontier as we navigate a world in which the distinction between content generated by AI and humans is rapidly blurring. To support these conversations, please visit the Provost resource page.

Learn More [1]

Digital Trust Guidelines for Generative Artificial Intelligence Use

Arizona State University is committed to the practice of Principled Innovation [2], embracing innovation with curiosity and wisdom.

During a Summer Series of Digital Trust in AI conversations, individuals from across the campus were brought together to identify appropriate considerations for the use of Generative Artificial Intelligence (genAI) at ASU. This group assembled guidelines that have been reviewed and approved by Enterprise Technology Digital Trust, Cybersecurity, AI Acceleration, Learning Experience and the Office of General Council.

Review the guidelines [3]

ASU guidelines and policies

ASU guidelines are formal statements of intent that reflect ASU's goals and objectives. ASU policies communicate the requirements and expectations of the ASU community.

Generative AI FAQs

What is Generative AI? What is ChatGPT? What can they do?

Generative AI is a broad term that refers to a type of artificial intelligence (AI) application that is designed to use a variety of machine learning (ML) algorithms to create new content (text, images, video, music, artwork, synthetic data, etc.) based

on user input that was not explicitly programmed into the AI application. Generative AI systems are “trained” by using complex algorithms to learn from an existing large corpus of datasets (often consisting of millions of examples) and to analyze patterns, rules, and statistical structures from the sample data to be used in generating new content that is similar in style and characteristics to the original training datasets.

There are many different types of generative AI applications and models, and while they might share a similar high-level definition of creating new content based on large sets of training data, they often represent completely different machine learning (ML) models and underlying neural network technologies and approaches to generating new content. You may have heard of recent popular examples of generative AI such as ChatGPT, DALL-E, or StableDiffusion. While these are all examples of generative AI applications, DALL-E and StableDiffusion are text-to-image generators that use a type of neural network called generative adversarial network or GAN to create a new image based on two systems (a generator and discriminator) surfacing an image of best fit based on the input parameters. By contrast, ChatGPT builds a transformer-based language model from a Generative Pre-trained Transformer (GPT) in order to process sequential data, such as language, and then calculate the most probable words that will follow in a sequenced response.

Generative AI and the broader classification of Artificial Intelligence have been identified by UNESCO [1] as having the potential to “address some of the biggest challenges in education today, innovate teaching and learning practices, and accelerate progress” as well as calling for a human-centered approach in order to respond to inequalities.

Will I get accused of cheating if I use AI tools?

Before using AI tools in your coursework, confer with your instructor about their class policy for using AI tools.

How do I find out about tools I can or cannot use?

Before using AI tools in your coursework, confer with your instructor about their class policy for using AI tools.

Is text (including citations) produced by generative AI accurate?

The accuracy and quality of text produced by Generative AI varies. You should not depend on the accuracy for work that is to be turned in as an assignment.

Can generative AI create anything besides text?

Yes, Generative AI can produce text, images, sound, code, and work with data.

How should I cite the use of generative AI in a work product?

Begin by talking to your professor about their expectations for how to properly cite in your course work. You can also reach out to the ASU Library and research what specific citation styles (e.g., APA, MLA, IEEE, etc.) say by visiting their web sites.

Attendance

The instructor has full authority to decide whether class attendance is required.

Source URL: <https://catalog.asu.edu/attendance>

Concurrent degrees (double majors)

Request to add an additional major that fits your academic and career goals

Step 1: Determine interest

Interested in pursuing an additional degree? Concurrent degrees, sometimes called “double majors,” allow students to earn two distinct degrees and receive two diplomas, while pursuing their unique personal or professional interests.

Step 2: Review the concurrent degree policies

While there are many degree combinations for you to choose from to meet your academic goals, there are some college policies that might affect when you can add another major or which majors can be paired together. View the specific policies of your college, and the college of the major you'd like to add, [here](#).

All requirements for both degrees must be satisfied before either degree can be conferred.

[View policies \[1\]](#)

Step 3: Submit a request

Submit a request to add an additional major to your academic plan or to be contacted with more information. You can track the progress of your request by viewing My Requests from your My ASU [2] Help tab.

[Add major \[3\]](#)

Disclaimer

Both your current major and your requested concurrent major must approve your request. Pursuing multiple degrees could result in additional time to graduate which could affect cost and financial aid.

Only active degree-seeking undergraduate students can request to add a concurrent major. Please be advised that requests may be denied if you have less than 30 completed credit hours.

Want to explore other options?

Change your current major [4]

Looking to change your current major instead? Submit a change of major request.

Explore accelerated degrees [5]

Combine undergraduate degree requirements with graduate coursework, resulting in faster completion of both a bachelors and masters degree.

Add a minor [6]

Consider adding a minor to enhance your current academic program.

Add a certificate [7]

Concurrent degree too much? Explore adding a certificate to your current academic program.

Confirmation of participation

Class participation

Students who receive financial aid are expected to earn their aid by participating in all of their classes every session.

Attending and participating in all of the courses a student is enrolled in not only ensures that they are getting the most out of the college experience, but it also helps students remain eligible for financial aid. Students must show participation in their courses by the 21st day after the course start date. If a student's participation is not confirmed by the 21st day of class, their aid may be reduced or canceled, and they may be required to pay for charges without aid.

Watch video: About confirmation of participation [1]

Confirming class participation

How does a student confirm participation?

- **Completing a survey in My ASU.** This is the simplest way to confirm participation. Survey links will be available seven days after classes begin. You can access the surveys you need to complete next to each course listed in the **My Courses** box in My ASU. You will also see a task listed in your Priority Tasks box.

How do I know if my participation still needs to be confirmed?

- A Priority task in **My ASU** will link you to the participation survey(s) you need to complete. You will be notified by ASU email only if your participation **has not** been confirmed. After the 21st day, if you still have not participated in a course, your aid may be reduced or canceled. You will see this change in the **Finances** tab in **My ASU** almost immediately.

Student FAQs

How do I confirm my participation?

Students, follow these steps to complete a quick survey that confirms participation:

- Log in to My ASU. [2]
- Visit **My Classes** on the left side of your home page.
- Click the \$ icon next to each class.
- Complete the survey.

Click **Submit**.

Why the 21st day?

The Department of Education requires early participation in order to ensure students earn the financial aid eligibility for the class.

Why does ASU confirm participation?

Confirmation of participation helps ASU administer financial aid within the regulations established by the Department of Education. By confirming participation, ASU helps students stay on track to earn financial aid for the semester and keep their financial aid to pay charges.

Do I have to do this every session?

Yes. ASU must confirm participation for each class for each session start.

What happens if I don't participate by the 21st day?

If you are a loan recipient, your loans will be returned if you do not participate in at least one course.

If you are a Pell, Supplemental Education Opportunity Grant (SEOG) or Teacher Education Assistance for College and Higher Education (TEACH) grant recipient, your full grant amount will be canceled if you do not demonstrate participation in **every** course you are enrolled in.

In either case, the funds may be returned, any funds already disbursed to you will need to be paid back, and you will need to pay your charges without that aid.

What happens if my loans were returned and I don't plan on enrolling for any more courses?

If you do not enroll in more courses, you will be responsible for your bill.

My loans were returned but I am going to register for more courses.

If you enroll in more courses, and participation is confirmed by the 21st day of those courses, you will have aid eligibility reinstated for future sessions you are participating in, as long as you're attending at least half time for the semester (6 credits for undergraduates, 5 credits for graduates).

Will I be dropped from courses?

No. You will remain enrolled in the courses, but your aid will be reduced or canceled and you will be billed for your charges.

When does confirmation of participation start?

This requirement applies to all students receiving financial aid, beginning fall 2022.

I was going to participate, I just haven't yet. Can I get my aid back?

If you haven't participated in a course by the 21st day, and are still enrolled in the course, you can still complete a course survey to have your aid reinstated. Course surveys will remain posted in My ASU through the end of the term, as long as you are still enrolled in the course. Aid will be automatically reinstated once you complete the survey.

How does this affect my other financial aid, ie: private scholarships, etc...?

The confirmation of participation standard applies to all financial aid. Check your course list in My ASU [3] and complete the survey for any course that has the dollar sign icon next to it.

Who can I contact with questions?

You can email participation@asu.edu [4] with questions about this federal financial aid policy.

Faculty FAQs

What is confirmation of participation?

ASU must confirm students are participating in their courses to ensure eligibility for the financial aid they have been awarded for the semester.

What are the consequences for students who don't participate?

Students who are reported as "not participating" in the courses for which financial aid was awarded will have their aid recalculated and revoked as appropriate, and the student will have to pay back the remaining amount.

Where do I direct a student who comes to me with questions?

If a student has questions about their confirmation status, or about the status of their financial aid, direct them to the website, [5] or they may email questions to participation@asu.edu [4]

What is my responsibility to confirm a student's participation?

None. This is for your information only.

What questions are students asked in the participation survey?

Question 1: Describe one interesting thing you have learned in this course so far.

Question 2: How do you hope this course will contribute to your broader academic and career goals?

As the instructor of record, can I have access to how students enrolled in my course(s) answer the participation survey?

Survey responses will be made available to you in My ASU by the 21st day of courses via a faculty dashboard. You will receive a notification in My ASU when this dashboard is ready to view.

Will students enrolled in research hours and/or internships be required to demonstrate participation for financial aid purposes?

Yes. All students who receive financial aid will be required to demonstrate participation.

How do I share this information with my students?

You can include the following information in your syllabus or as an announcement in your Canvas course:

Students who receive financial aid are required by the Department of Education to demonstrate participation in courses by the 21st day of classes to maintain their aid. Students will be prompted to confirm their participation through survey links posted in My ASU after the seventh day of classes. You may review details about this financial aid policy at <https://tuition.asu.edu/financial-aid/confirmation-of-participation>. [5]

Classification of courses

Course numbering system

Lower-division courses

Lower-division courses, numbered from 100 to 299, are designed primarily for first-year students and sophomores. Certain classes are closed to first-year students who lack the designated prerequisites or whose majors are outside the units offering the courses. This information is available in the course catalog [1] or from the student's academic advisor.

Upper-division courses

Upper-division courses, numbered from 300 to 499, are designed primarily for juniors and seniors. Prerequisites and other restrictions should be noted before registration. Courses at the 400 level apply to graduate degree requirements for some graduate programs when approved by the Graduate College.

Graduate-level courses

Graduate-level courses, numbered from 500 to 799, are designed primarily for graduate students. However, an upper-division undergraduate student may enroll in courses numbered 500-599 with the approval of the student's advisor, course instructor, department chair and dean of the college in which a course is offered. If such a course does not meet an undergraduate graduation requirement, it may be eligible for use in a future graduate program on the same basis as work taken by a nondegree-seeking graduate student. Undergraduate students should review additional information about graduate credits earned by undergraduate students. [2]

Omnibus courses

Omnibus numbers are used for courses offered on an experimental or tutorial basis or for courses in which the content is new or periodically changes. Each academic unit uses that unit's prefixes with omnibus course numbers. The general nature of the work required for a particular omnibus course is consistent from unit to unit but subject matter varies. Omnibus courses often are offered for a variable number of credit hours.

Within the academic catalog and course catalog, abbreviations are frequently used with a colon to introduce specific omnibus course topics, which are shown in the omnibus course abbreviations chart below (e.g., MGT 494 ST: Cultural Factors in International Business).

Omnibus Course Abbreviations		
Abbreviation	Title	Number
AP	Applied Project	593, 693, 793
CW	Conference and Workshop	594
FW	Fieldwork	583, 683, 783
FYS	First-Year Seminar	191
HC	Honors Colloquium	497
I	Internship	484, 584, 684, 784
P	Practicum	580, 680, 780
PS	Pro-Seminar	498
R	Research	592, 692, 792
RC	Reading and Conference	590, 690, 790
RM	Research Methods	500, 600, 700
S	Seminar	591, 691, 791
ST	Special Topics	194, 294, 394, 494, 598

Omnibus undergraduate courses

191 First-Year Seminar (1-3)

Small course emphasizing student-faculty discussion and interaction.

194, 294, 394, 494 Special Topics (0.25-4)

Covers topics of immediate or special interest to a faculty member and students.

484 Internship (1-12)

Structured practical experience following a contract or plan, supervised by faculty and practitioners.

498 Pro-Seminar (1-7)

Small-group study and research for advanced students within their majors.

499 Individualized Instruction (1-3)

Provides an opportunity for original study or investigation in the major or field of specialization, on an individual and more autonomous basis.

Honors Courses

These courses and all with the HON prefix are reserved for students in Barrett, The Honors College.

298 Honors Directed Study (1-6)

Independent study or practicum under the supervision of a faculty member.

492 Honors Directed Study (1-6)

Independent study in which a student, under the supervision of a faculty member, conducts research or creative work that is expected to lead to an undergraduate honors thesis or creative project.

493 Honors Thesis (1-6)

Supervised research or creative activity focused on preparation and completion of an undergraduate honors thesis or creative project.

497 Honors Colloquium (1-6)

A class emphasizing discussion, written and/or oral presentation by students, and active participation.

Omnibus graduate courses

The following courses are described in the Graduate College announcements and are also available from the respective departments. Under special circumstances, at the dean's request and through the approval of the executive vice president and provost of the university, arrangements may be made to increase the standard number of credit hours.

500, 600, 700 Research Methods (1-12)

Course on research methods in a specific discipline.

580, 680, 780 Practicum (1-12)

Structured practical experience in a professional program, supervised by a practitioner or faculty member with whom the student works closely.

583, 683, 783 Fieldwork (1-12)

Structured, supervised field experience in a field science or other discipline requiring experience in field techniques.

584, 684, 784 Internship (1-12)

Structured practical experience following a contract or plan, supervised by faculty and practitioners.

590, 690, 790 Reading and Conference (1-12)

Independent study in which a student meets regularly with a faculty member to discuss assignments. Course may include such assignments as intensive reading in a specialized area, writing a synthesis of literature on a specified topic or writing a literature review of a topic.

591, 691, 791 Seminar (1-12)

A small class emphasizing discussion, presentations by students and written research papers.

592, 692 Research (1-12)

Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a thesis or dissertation, report, or publication. Assignments might include data collection, experimental work, data analysis or preparation of a manuscript.

593, 693, 793 Applied Project (1-12)

Preparation of a supervised applied project that is a graduation requirement in some professional majors.

594 Conference and Workshop (1-12)

Topical instruction, usually in compressed format, leading to academic credit. Often offered off campus to groups of professionals.

595, 695, 795 Continuing Registration (1)

Used in situations where registration is necessary but where credit is not needed. Replaces arbitrary enrollment in reading and conference, research, thesis, dissertation, etc. Used by students when taking comprehensive examinations, defending theses or dissertations, or fulfilling the continuous enrollment requirement in doctoral programs. Credit is not awarded and no grade is assigned.

598 Special Topics (1-4)

Topical courses not offered in regular course rotation (e.g., new courses not in the catalog, courses by visiting faculty, courses on timely topics and highly specialized courses responding to unique student demand).

599 Thesis (1-12)

Supervised research focused on preparation of a thesis, including literature review, research, data collection and analysis, and writing.

792 Research (1-15)

Independent study in which a student, under the supervision of a faculty member, conducts research that is expected to lead to a specific project such as a dissertation, report or publication. Assignments might include data collection, experimental work, data analysis or preparation of a manuscript.

799 Dissertation (1-15)

Supervised research focused on preparation of a dissertation, including literature review, research, data collection and analysis, and writing.

Other subjects

Visiting student program

The numbers 597, 697 and 797 in the LAW subject are reserved for the visiting student program in the Sandra Day O'Connor College of Law.

Global education programs

Courses with the subject SAO are reserved for participants in programs offered through the Global Education Office. [3] Courses with an SAO subject are used in two ways: either to provide general university elective credit for specific programs or courses or as a placeholder course for participation in partnership and exchange programs.

In the case of a placeholder course, the course remains on the student's academic record until the student's record is updated by the Global Education Office following completion of the student's study abroad program. The SAO-subject course is then dropped from the student's record and replaced with the ASU courses, credits and grades equivalent to the coursework completed abroad. Students must register for at least the number of credit hours equivalent to full-time study at ASU (i.e., 12 credit hours for undergraduate students and nine credit hours for graduate students during the fall and spring semesters, or one to six credit hours during the summer session). Students participating in a GEO partnership program must register for the subtopic "SAO: Study Abroad Program," whereas participants in an GEO exchange program must register for the subtopic "SAO: Exchange Program." The SAO placeholder course is not an indication of the level of coursework or the total number of credit hours the student may complete abroad.

Courses completed as part of these programs that do not have direct ASU course equivalencies are awarded "Department Elective" credit, using a respective subject with a course number of 1DE, 2DE, 3DE or 4DE. Lower-division courses at the 100-level are given 1DE, and 200-level are given 2DE. Upper-division courses at the 300-level are given 3DE, and 400-level are given 4DE.

Distance education-specific policies

University policies

The U.S. Department of Education requires that certain information be disclosed in a clear, prominent, user-friendly and easily understood manner. The intent of the requirement is to enable students to make an informed choice.

Learn about complaint filing and resolution at Arizona State University, as well as out-of-state student policies, international students policies, and credit transfer and refund policies below.

ASU complaint procedure

ASU is committed to the success of each student and strives to resolve issues that may arise. All ASU distance education students should attempt to resolve complaints with the university through the university process first before contacting external agencies.

Available processes and links to policies and contacts are listed below.

University process

ASU greatly values the student experience and expects all students to adhere to the Student Code of Conduct [1]. Please refer to the Student Code of Conduct for student expectations and rights.

When an issue is brought to our attention, ASU takes appropriate action to seek resolution.

Academic issues

For academic concerns, a student is encouraged to first speak with the course instructor. If an issue cannot be resolved at that level, a student may contact the appropriate college or school for guidance on how to proceed. Please refer to our list of colleges and schools [2] for more information.

Non-academic issues

For non-academic concerns, please contact the Dean of Students [3]. The Office of Student Rights and Responsibilities is responsible for reviewing and handling student disciplinary incident reports.

Non-academic issues not resolved by the university process

ASU is an institutional participant of the State Authorization Reciprocity Agreement (SARA). If an issue has not been satisfactorily resolved through the university's internal process, a distance education student may submit a non-academic complaint to the Arizona SARA Council by filing a complaint form. [4]

Instructional complaints, such as grade grievances, are not reviewed by the council and should not be submitted for resolution.

Students located in American Samoa, California and Guam may not submit a complaint to the council. These territories and states do not participate in SARA.

Other agencies

A student may contact higher education regulatory agencies, accrediting agencies or consumer protection agencies for specific issues that are unresolved through the university process.

Arizona Board of Regents

If an issue submitted by a student is unresolved and involves a complaint arising under state law, an Arizona Board of Regents policy or any other matter, the student may contact the Arizona Board of Regents [5] (in accordance with 75 Fed. Reg. 66865-66, October 29, 2010).

Accrediting agencies

ASU is accredited by the Higher Learning Commission (HLC) [6]. If an issue is unable to be resolved through the university process, a student may follow the HLC complaint process. [7]

For specialized accreditation, please see this page. [8]

International students

ASU works to provide global access to its online degree programs. While requirements related to authorization and licensure are carefully tracked, it is the student's responsibility to understand the requirements for whether an online degree will be recognized in the country in which the student intends to work; how the collection of student data may be used in that country; and whether there are any tax implications in addition to the price of tuition.

Several countries will not formally recognize foreign online degrees, which may have implications for students who later seek to enroll in other educational programs, or for those who seek employment in another country's government or employers requiring specific credentials. International students considering an academic program that leads to a professional license should first confirm with the appropriate professional licensing board in the country in which the student intends to work as to whether a degree from ASU is recognized when seeking licensure or certification.

Professional licensure

There are certain careers or fields that require professional license to practice, and licensure requirements vary by state. ASU's professional licensure programs are designed to prepare students for a license in the State of Arizona. Students who wish to practice in a state other than Arizona should check the professional licensure each session for the most up-to-date information.

Professional licensure info [9]

Residency and student location

Course and program availability varies by state. Admission into a program is granted at the time of initial acceptance into the program and is dependent on program availability in the state where the student is physically located at the time of admission.

If a student moves to a different state after admission to the program, continuation within the program will depend on the availability of the program within the new state where the student is physically present. Relocating may impact whether a student can remain in the program, meet the state licensure requirements and/or continue to receive financial aid funding. Prior to considering relocation, please contact your program advisor to discuss authorization and licensure eligibility requirements. It is the student's responsibility to notify the institution of a change in physical location.

MILITARY PERSONNEL: The state where military personnel are stationed will determine whether they may enroll or continue in an ASU Online program.

Transfer of credit

ASU does not imply, promise or guarantee that credits earned at the university will transfer to other institutions, since such determinations are made according to the policies of the receiving institution. If a student is considering transferring to another school, prior to such transfer, the student will need to work with that school to determine if ASU's academic credits will be accepted.

Some medical schools and other health science schools may require additional information for alternative classroom experiences, such as online courses. Students may be asked to provide detailed information about the course or courses that transfer credit is being sought for and provide evidence to the requesting institution of the textbook and topics covered that can be found in a complete syllabus.

Learn more about being a transfer student [10]

Questions about university policies?

Enrollment and degree verification

Arizona State University is frequently asked to certify a student's earned degrees and/or enrollment status (full-time, part-time, etc.). Enrollment status is determined by the number of credits for which a student is enrolled during the term in which certification is requested. Courses a student has withdrawn from are not included. Classes taken for audit are included in total enrolled hours. A student's enrollment status is also based on university policy and federal regulations.

ASU reports enrollment status (i.e., full-time, half-time) to the National Student Clearinghouse multiple times each semester. The enrollment statuses reported are based on federal regulations and are defined in the financial aid load tables below.

Obtain an enrollment or degree verification as a current or former student:

1. Log in to My ASU [1] and navigate to the **My Classes** box
2. Select **Grades & Transcripts**
3. Select **Transcripts & Test Scores**
4. Select **Enrollment Verification**

If you need special information on your Enrollment Verification, or if you need a specialty verification form completed such as the Canadian or Alaskan form, submit an Enrollment Verification Request [2] form at any University Registrar Services location [3] (photo ID required for in-person visits). Requests by email, mail or fax must include the student's verifiable signature. Please allow up to two business days for processing.

For students that attended the Thunderbird School of Global Management prior to December 31, 2014, information on how to obtain verification of your Thunderbird coursework or degree can be found here. [4]

Enrollment & degree verification for outside agencies and third parties

ASU has contracted with the National Student Clearinghouse [5] to process all enrollment and degree verification requests for employers, employment agencies, background search firms, and various other businesses that offer products or services based on the individual's status as an enrolled student.

- If you need assistance, contact National Student Clearinghouse [5] directly at 703-742-4200.
- If the National Student Clearinghouse can confirm the degree or enrollment, the response is immediate and requestors will be able to print or obtain a PDF version of the verification.
- Enrollment verifications for each term will be available starting the first week of classes for that term.
- A fee will be charged for this service.

Enrollment status defined

Undergraduate students

Academic load

Term	Full-time	3/4 time	Half time	Less than half time
Fall & Spring	12+ credits	9-11 credits	6-8 credits	1-5 credits
Summer	4+ credits	N/A	2-3 credits	1 credit

Financial aid load

Term	Full-time	3/4 time	Half time	Less than half time
Fall & Spring	12+ credits	9-11 credits	6-8 credits	1-5 credits
Summer	12+ credits	9-11 credits	6-8 credits	1-5 credits

Graduate & law students

Academic load

Term	Full-time	3/4 time	Half time	Less than half time
Fall & Spring	9+ credits	7-8 credits	5-6 credits	1-4 credits
Summer	3+ credits	N/A	2 credits	1 credit

Financial aid load

Term	Full-time	3/4 time	Half time	Less than half time
Fall & Spring	9+ credits	7-8 credits	5-6 credits	1-4 credits
Summer	9+ credits	7-8 credits	5-6 credits	1-4 credits

Financial aid recipients: Full-time and half-time credit requirements may be different for financial aid disbursement purposes. Please review the Award Disbursement Rules [6] to determine the required enrolled hours needed for financial aid disbursement.

Co-operative education: Students are required to be enrolled in a designated co-op course within their college for a minimum of one credit hour during the co-op semester. Co-op students will be identified for enrollment verification purposes as being in full-time status. This will include verification to the National Student Clearinghouse for loan deferment purposes. The co-op experience must meet the clock time in hours of work to meet the full-time enrollment requirement, as monitored by the student's college. A credit hour is defined as a minimum of 45 clock hours. Please review the Award Disbursement Rules [6] to determine the required enrolled hours needed for financial aid disbursement.

If you have questions or need additional information, please contact University Registrar Services, Records & Enrollment Services at registrar@asu.edu. [7]

Glossary of academic terms

Student academic status terms

University academic good standing (undergraduate) [1]

2.00 cumulative GPA

- College-specific academic good standing rules can be developed; the college name in a policy title differentiates it from university policy. Example: W. P. Carey School of Business academic good standing.

University academic warning

An undergraduate student with a cumulative GPA of less than 2.00 at the end of their first semester (fall or spring) is considered to be in the status of university academic warning.

University academic probation [2]

An undergraduate student is placed on university academic probation if, at the end of a semester (fall or spring) that is not the student's first semester at ASU, the student has a cumulative GPA of less than 2.00, or the student received an academic warning in the prior term.

- Colleges may establish specific criteria for their own academic probation status; the college name in a policy title differentiates it from university policy. The college academic probation status may take the place of university academic probation but may not replace the university academic warning. Example: Ira A. Fulton Schools of Engineering academic probation.

University continuing academic probation [2]

A student is said to be on university continuing academic probation each semester (fall or spring) that student (previously on university academic probation) earns a semester GPA greater than 2.00, but yet has a cumulative GPA of less than 2.00.

- Colleges may establish individual time limits and specific semester GPA requirements for continuing academic probation; they are defined as "[College Name] continuing academic probation".

Co-enrolled continuing probation program [3]

Select disqualified students may participate in the co-enrolled continuing probation program at the discretion of their college or school. Under this program, the student takes the academic refresher course UNI 220 Mindset Connections plus one ASU course selected by the student's advisor, and the student co-enrolls at a Maricopa Community College with a schedule selected in consultation with the ASU advisor. If, upon completion of the term, the student has a combined semester cumulative GPA of 2.50, the student may continue regular enrollment at ASU. Parameters regarding the number of co-enrolled hours required are at the discretion of each college or school.

Ineligible

A college designation for a student on university continuing academic probation who is not permitted to continue in the major based on college-specific academic requirements. The student may remain an ASU student, but is required to change their major. College-specific procedures are located on their college policies. [4]

Disqualified [5]

A student on university academic probation who does not earn a semester GPA of 2.00 or greater (fall or spring) will be disqualified. Students who are disqualified are not permitted to enroll at ASU in any subsequent fall or spring semester unless they are readmitted.

Catalog year

A catalog year runs from fall through summer, and a student who enters during the fall or spring semester follows the policies and requirements in effect for that catalog year. For example, catalog year 2024-2025 is the catalog year for students who enter in fall 2024 or spring 2025. Students who enter for the first time during the summer term follow the requirements in effect for the subsequent catalog year.

In most cases, a student's catalog year is the year in which they started at ASU. Students may be in a different catalog year for a variety of reasons, including:

- change of major
- continuous enrollment in an Arizona community college or public university
- student request to move to a newer catalog year
- significant changes to curriculum either due to accreditation or rapid changes to subject matter

More information and conditions of continuous enrollment can be found at Guidelines for Determination of Catalog Year. [6]

General Studies Gold

General studies requirements [7] for undergraduate students beginning with the 2024-25 catalog year.

General Studies Maroon

General studies requirements [8] for undergraduate students up through the 2023-24 catalog year.

Satisfactory progress [9]

This term is used in different ways for students, such as with regard to financial aid, sponsored international programs, athletics and veterans' benefits. Satisfactory progress is a complex calculation specific to major and situation. This term does not refer to academic standing.

Progression [9]

This term refers to how a student meets milestones and degree requirements in movement toward achieving degree completion. This term does not refer to academic standing.

Quick re-entry [10]

The term quick re-entry refers to a streamlined process in which students do not need to submit a new application or application fee if they are undergraduate degree-seeking students who previously attended ASU but have not been enrolled at ASU for up to seven consecutive fall or spring semesters. Students absent on military deployment, on service for official church missions, for foreign aid service of the Federal government, or for permanent disability reasons should follow leave of absence [11] procedures. Students who have not remained continuously enrolled [6] may have their catalog year adjusted upon quick re-entry.

Reinstatement [12]

A student who has previously been academically disqualified and seeks to return either for a fall or spring semester a) immediately or b) after a period of absence and has met college admission standards.

Readmitted [10]

Students not eligible for quick re-entry (i.e., because they have not been enrolled at ASU for seven or more semesters, completed their academic program or were academically disqualified), must apply for readmission and submit applicable fees. Candidates for readmission who are not in academic good standing are subject to college review. A disqualified student who has not already been absent for a semester may contact the college advisor to see if reinstatement is possible.

eAdvisor terms

eAdvisor [13]

A suite of tools used to monitor student progression towards degree completion, including Degree Search, major maps and the tracking of critical and necessary requirements (eight semester tracking application).

Academic year

The university year, counted as a fall semester and the following spring semester and can also include the following summer semester. Example: the 2024-25 academic year consists of the Fall 2024 semester, Spring 2025 semester and Summer 2025 semester.

Major map

A major map is an eight-semester, optimal course plan that outlines a recommended sequence of courses, enabling full-time students to graduate in four years. The major map is posted on a student's My ASU in the My Programs box under Degree Progress.

eAdvisor tracking

ASU's eAdvisor tracking outlines critical courses, GPA requirements and milestones that predict success in each major

and tracks students' progress toward meeting them. Sometimes called critical tracking, eAdvisor tracking evaluates how a student's completed courses meet degree requirements in a specific term, including both critical and necessary courses. Students who have not completed critical course requirements for two consecutive fall or spring semesters may be required to change their major.

Critical requirement [14]

As identified on the major map, a curricular or noncurricular degree requirement that the faculty have identified as critical predictors of success in a specific major. Critical requirements can be courses, grades, GPAs or noncurricular requirements such as submitting a fingerprint clearance card. Critical requirements appear in terms 1-4.

Necessary requirement

As identified on the major map, a curricular or noncurricular degree requirement that the faculty have identified as necessary for timely completion of degree requirements. Necessary requirements appear in terms 5-8.

Off track

This refers to a student who has not met one or more critical requirements as stated in terms 1-4, or one or more necessary requirements in terms 5-8 of their major map in a given fall or spring semester.

Twice off track

This refers to a student who has not met one or more critical requirements as stated in terms 1-4 of their major map in two consecutive fall or spring semesters. Students who are twice off track may be required to change their major.

On track

This refers to a student who has met all critical requirements identified in terms 1-4 or all necessary requirements in terms 5-8 of the major map in the current term and previous terms against which they are being evaluated.

Academic status reports

ASRs allow faculty to provide weekly feedback to students regarding class performance. Through My ASU, [15] students see an indicator notifying them that they have received an ASR, which can include suggested follow-up items and information about academic resources so that they can get the help they need to be successful.

Academic support team

Each student has an academic advising committee that helps them set personal academic goals, understand policies and create strategies for staying on track toward graduation. The committee is listed on the student's My ASU page. Also included is information about how advising services work in the student's department, how to get answers to advising questions, and how to make an appointment with an advisor.

Milestone

This is a curricular or noncurricular requirement that needs to be completed by a specific point in time. Examples: portfolio review or audition.

Progress reports

Progress reports from eAdvisor allow students to track their progress through audits available on My ASU. [15] The Graduation Audit (DARS) outlines a complete list of degree requirements, including university graduation requirements, general studies and major requirements. The DARS Graduation Audit is the official record used to verify degree completion. A major map is an eight-semester, optimal course plan that outlines a recommended sequence of courses, enabling full-time students to graduate in four years.

In addition to traditional progress reports, eAdvisor students can run a critical requirement audit and view their tracking status in My Major Map at any time during the semester. My Major Map, also available on My ASU, provides students the ability to track how their courses are meeting degree requirements as well as their progress toward completing other critical requirements (GPAs and milestones required to stay on track).

A student's record may change multiple times during the semester because of dropped courses, transferred credit, completed milestones or changed majors. The system accounts for changes to student records and updates eAdvisor status, My Major Map and the DARS Graduation Audit nightly.

Priority tasks

eAdvisor places important notes and reminders in the Priority Tasks box on students' My ASU page. If students become off track, an advising hold is placed on their record. While they may drop and withdraw from a course, they will not be able to add courses to the current semester. Students with off-track status will not be able to register for future fall and spring semesters until they have contacted their advisor and discussed strategies for getting back on track. The advisor will then

remove the hold. Other tasks, from student support areas such as Financial Aid and the Registrar's Office also appear in this box.

Course terms

Crosslisting

The same course offered under more than one subject, may be offered by more than one college or department, and may have different course numbers. Students get credit for only one course in the pair or group of crosslisted courses. Some programs may require students to enroll in a course under a certain subject to properly receive credit.

Examples: CDE 350/SOC 350 and AFR 363/HST 333

Corequisite

A course that must be taken while taking another course at the same time. Example: a lab that is required to be taken with a lecture.

Prerequisite

A requirement to be met before registering for a course, such as completing another particular course.

Omnibus course

A course offered on an experimental or tutorial basis, or in which the content is new or periodically changes is termed an omnibus course. The Classification of Courses Policy [16] contains more information about omnibus courses.

Subject [17]

The three-letter code that denotes the subject of a set of courses; sometimes referred to as a prefix.

Examples: AMS = American Studies; EEE = Electrical Engineering; SSP = Sports Science and Performance Programming

Program and degree terms

Accelerated Master's program [18]

Accelerated bachelor's plus master's degree programs are designed for high-achieving undergraduate students who want the opportunity to share undergraduate coursework with graduate coursework to accelerate completion of their master's degree. These programs feature the same high-quality curriculum taught by ASU's world-renowned faculty. These programs are preapproved combinations and are internal to ASU.

The terms 4+1 and 3+2 have been phased out, effective Fall 2023.

Concurrent degree [19]

Internal to the university, two degrees, same level, same time, and may include some shared courses. Concurrent degrees can either be preapproved combinations or unique combinations added by the student through an approval process. Examples: JD/PhD or BS/BSE. Two diplomas are awarded.

Disestablished program

A disestablished program is a major, minor or certificate which the institution has chosen to discontinue. Upon the effective term and year of disestablishment, ASU may choose to stop admitting new students into the program. This includes current ASU students seeking to change into the disestablished major, to add the disestablished major as a concurrent degree, or to add the disestablished minor or certificate. Active students in a disestablished program have a period of four academic years to complete the program requirements. This includes active, not enrolled students typically eligible for quick re-entry. Students choosing quick re-entry to the institution after a period of nonenrollment cannot re-enroll in a disestablished program if four academic years have passed since the effective term of disestablishment.

Students who have not completed the requirements for a disestablished program four academic years after disestablishment will be changed administratively to a different major, or have the minor or certificate removed from their record.

Dual degree

This is an offering that is both internal and external to ASU. The student pursues two degrees simultaneously, one with ASU and one with an external institution. Example: ASU and Mayo Clinic.

Exploratory program

Exploratory programs [20] are non-degree granting programs that allow students to explore their interests in different

major areas before they formally declare a major. Students formally declare their major by the time they have accumulated 45 credit hours.

Honors program

Offered by Barrett, the Honors College, [21] an honors program gives academically outstanding undergraduate students opportunities to enhance their degree program with an intellectually rigorous honors curriculum and resources only available to Barrett students. Upon graduation, students who complete the Barrett requirements along with their major requirements are awarded an honors endorsement on their transcript.

Joint degree

Joint programs, or jointly conferred degrees, are a single program of study offered by more than one college at ASU that provide opportunities for students to take advantage of the academic strengths of two or more academic units. Upon graduation, students are awarded one degree and one diploma conferred by both colleges. Both colleges will appear on the transcript and diploma.

Multiple concentration

Internal to the university, one degree awarded, same level, same time, some shared courses. For undergraduate degrees with multiple concentrations, students may not share coursework between the core concentration curricula. Multiple concentrations are typically added through an approval process. Example: Business (Global Leadership), BA and Business (Sustainability), BA.

Learning modality terms

ASU Local

ASU Local [22] programs combine the high-quality academics of ASU degrees offered online with in-person coaching and academic support. In addition to online learning, students also participate in two-day, local signature experiences, which are designed to harness the essence of the local community. An ASU Local coach is provided on-site and in-person to assist students with guidance, support and development of success skills.

ASU Sync

ASU Sync [23] programs utilize synchronous online courses, meaning students learn online, but the courses are scheduled at certain dates and times so that all students attend live classes together via Zoom. Classes are designed to foster active collaboration and discussion in real-time with faculty and peers.

Experiential learning

Experiential learning such as internships and co-ops are integral to the preparation of a ASU graduate.

- An **internship** is a structured practical experience, which allows students to gain work-based skills with the possibility of earning academic credit. Students follow a contract or a plan and are supervised by faculty or practitioners in the career field. Credit-bearing internships are an approved way to meet elective requirements and can count towards the university 120 credit hour graduation requirement at the bachelor's degree level. The department and individual faculty determine whether or not a specific internship experience meets the requirements of the unit and how many credit hours should be awarded.
- A **cooperative education program**, commonly known as a co-op, is a structured method of combining classroom-based education with practical work experience. Co-ops allow students to earn academic credit for structured job experience as well as a paycheck to help finance their college education. Co-ops are a joint venture between a college or university, a selected employer, and the student.

Grades and grading policies

Credit enrollment

The semester hour is the unit on which credit is computed. It represents one 50-minute class exercise per week per semester. To obtain credit, a student must be properly registered and must pay fees for the course.

Grading options and definitions

Ordinarily a grade of "A+," "A," "A-," "B+," " B," "B-," "C+," "C," "D," or "E" is given upon completion of a course, unless another grading option such as "audit" or "pass/fail" is indicated at the time of registration. *Grading options cannot be changed after the close of the add period.*

The instructor of a course has full discretion in selecting which grades to use and report from the available grading options on the grade roster.

Fall 2004 and after¹			
Grade	Undergraduate definition	Graduate definition	Value
A+			4.33
A	Excellent	Excellent	4.00
A-			3.67
B+			3.33
B	Good	Good	3.00
B-			2.67
C+			2.33
C	Average	Passing	2.00

D	Passing	No Graduate Credit	1.00
E	Failure	Failure	0.00
EN	Failing Never Participated ²	Failing Never Participated ²	0.00
EU	Failing Did Not Complete ³	Failing Did Not Complete ³	0.00
I	Incomplete	Incomplete	—
NR	No Report	No Report	—
P	Pass	N/A ⁴	—
W	Withdrawal	Withdrawal	—
X	Audit	Audit	—
Y	Satisfactory	Satisfactory	—
Z	Course In Progress	Course In Progress	—
XE	Academic Dishonesty	Academic Dishonesty	0.00

¹ Although the plus/minus scale includes a grade of A+ with a value of 4.33, the cumulative GPA is capped at 4.00. Questions about the grade scales may be referred to the University Registrar Services at registrar@asu.edu [1]. For grading scales prior to fall 2004 click here. [2]

² Effective fall 2016 and later.

³ Effective fall 2019 and later.

⁴ Not applicable for graduate classes.

Law grading				
Fall 2009 and after			Fall 2009 and after Additional Grades	
A+		4.33	CR	Credit
A	Excellent	4.00	NR	No Report

A-		3.67	P	Pass
B+		3.33	X	Audit
B	Good	3.00	W	Withdrawal
B-		2.67	I	Incomplete
C+		2.33	H	Honors
C	Average	2.00	HH	High Honors
D	Deficient	1.00	XE	Academic Dishonesty
E	Failing	0.00		
EN	Failing Never Participated ⁴	0.00		
EU	Failing Did Not Complete ⁵	0.00		

⁴ Effective fall 2016 and later.

⁵ Effective fall 2019 and later.

For grading scales prior to fall 2009, click here. [3]

Incomplete (I)

A mark of "I" (incomplete) is given by the instructor when you are otherwise doing acceptable work but are unable to complete the course because of illness or other conditions beyond your control. You are required to arrange with the instructor for the completion of the course requirements. The arrangement is recorded on the Request for Grade of Incomplete form. Do not re-register or pay fees to complete the course. The completion date is determined by the instructor but may not exceed one calendar year from the date the mark of "I" is recorded. When you complete the course, the instructor must submit an online grade change request. If you receive an "I" in an undergraduate course in the fall 1983 or thereafter, your grade will be automatically changed to a failing grade "E" if you do not complete the course within one calendar year. If you receive an "I" in a graduate course (500-level or above) your "I" grade will become a permanent part of your transcript if you do not complete the course within one year, and you will have to reregister and pay fees to repeat the course for credit. Marks of "I" are changed to a grade of "E" (0.00) for purposes of evaluating graduation requirements for undergraduate students.

No report (NR)

The "NR" grade simply means that a grade has not yet been reported. Once final grade processing takes place for the semester, most classes will have an actual grade posted instead of the "NR". If an "NR" grade appears for a course in a prior semester, you should contact the instructor of the course to find out why a final grade was not recorded.

Pass (P)

The "P" grading option is used to indicate a passing grade in a class when an individual student receives permission from both the class instructor and his/her college or school. For further information about this grading option, contact your advisor. If you earn a "P" grade, you will earn hours, but the grade is not used for computing your GPA.

A "P" grade should only be assigned when an individual student receives permission to take a course as pass/fail. Permission is recorded on the Pass/Fail Enrollment form. If the course only awards pass/fail grades, the "Y" grade should be utilized to indicate successful completion of the course.

Withdrawal (W)

If you withdraw from a class after the first week of school, you will receive a mark of "W" on your transcript. You earn no credit or grade for withdrawn classes.

Audit (X)

A student may choose to audit a course, in which case the student attends regularly scheduled class sessions, but no credit is earned. The student should obtain the instructor's approval before registering and paying the fees for the course. Selected courses may not be audited. Veteran students using education benefits should see Veterans Services.

The mark of "X" is recorded for completion of an audited course unless the instructor determines that the student's participation or attendance has been inadequate, in which case the mark of "W" (withdrawal) may be recorded. This grading option may not be changed after the close of the drop/add period. The "X" is not included in earned hours and is not computed in the GPA.

Satisfactory (Y)

The "Y" grade is generally used as a grade for successfully completed internships, projects, readings and conference, research, seminars, theses, dissertations, and workshops. You earn hours for a "Y" grade, but the grade is not used for computing your GPA.

Course in progress (Z)

The "Z" grade is typically used for courses where work will not be completed within one semester's time, such as research, thesis, and dissertation. Once coursework is complete, your instructor will submit a grade change to assign an appropriate grade. Some courses, such as continued registration, do not earn credit and the "Z" grade will remain on your transcript.

Failing never participated (EN)

The grade of "EN" denotes failure due to the student never participating in a course and is treated the same as an "E" for the purposes of GPA, course repeatability, and academic standing determination. The "EN" grade assists ASU in determining a student's financial aid eligibility. For federal aid purposes, we must determine if a student participated in all courses for which they received federal aid. When a student does not participate, the financial aid office must recalculate the student's eligibility. A grade of "EN" will display on the student's transcript beginning fall 2016. Please review the "Grades and Grade Selection" section of the Grade Posting FAQs page for more information about the "EN" grade.

Failing did not complete (EU)

The grade of "EU" should be used to indicate that a student never officially withdrew from the course, but failed to participate in course activities through the end of the course. The EU grade should be used when, in the opinion of the instructor, the student's completed assignments, course activities or both were insufficient to make normal evaluation of academic performance possible because the student stopped participating in the course. This grade distinction is critical to federal financial aid administration. A grade of "EU" will display on the student's transcript beginning fall 2019. Please review the "Grades and Grade Selection" section of the Grade Posting FAQs page for more information about the "EU" grade.

Academic dishonesty (XE)

The grade of "XE" denotes failure due to academic dishonesty and is treated the same as an "E" for the purposes of GPA, course repeatability, and academic standing determination. A student may not avoid any penalty for academic dishonesty by withdrawing from a course. A student may be reinstated to a course to receive a penalty of a reduced or failing grade

or XE. The grade of XE may only be assigned in accordance with ASU's Student Academic Integrity Policy, and not as part of the normal end of the semester grading process.

Grading resources for faculty and staff

Support and roster contacts. [4]

Grade reports

You can obtain your final grades after every semester by using any of the following methods:

- To view or print your grades, sign in to My ASU [5] using your ASURITE UserID and Password.
- Submit a request for an official grade report that will show the grades for the last semester in which grades have been processed. You may submit a request to any registration site. [6]

Grade changes

Ordinarily the instructor of a course has the sole and final responsibility for any grade reported. Once the grade has been reported to the registrar, it may be changed upon the authorization of the faculty member who issued the original grade, a department chair, and the dean of the college concerned. This policy also applies to the grade of "I" (incomplete).

Grade changes are submitted online and receive approval by the department chair (or designee) and the dean of the college (or designee) in which the course is offered. Once approvals are received, the new grade will be reflected on your transcript immediately.

Repeating courses

An undergraduate course taken by undergraduate students at ASU may be repeated for credit if the grade or mark of "D", "E", (including EU, EN, and XE) "W", "X" is received. To be eligible for the deletion of "D" or "E" grades from calculations of the GPA, the course must be repeated at ASU. Independent Learning courses may not be used to repeat "D" or "E" grades. Students who have graduated are not eligible to delete the grade for a course taken before the award of the ASU bachelor's degree. Undergraduate courses in which grades of "D" or "E" (including EU, EN, and XE) are received may be repeated only once. Generally, students may not repeat an undergraduate course for credit when a grade of "C" or higher is earned.

For additional information on repeating courses please refer to the following policies:

SSM 203-06: Deletion of a "D" or "E" Grade Received by an Undergraduate in an Undergraduate Course [7]

SSM 203-05: Duplication of Credit by an Undergraduate Student [8]

Graduate students see the ASU Graduate Policies and Procedures. [9]

Financial aid & repeating courses

Federal regulations limit the number of times a student may repeat a course and receive federal financial aid for that course.

- A student may receive federal financial aid when repeating a course that was previously failed.
- A student may receive federal financial aid to repeat a previously passed course (with a D or better) one additional time, whether or not a student received federal financial aid for an earlier enrollment of the course.
- Once a student has completed any course twice and earned a passing grade (with a D or better) they are no longer eligible to receive federal financial aid for that course
- If a student retakes a course that is no longer eligible for financial aid, the units are excluded from the total enrollment calculated for financial aid and the student's financial aid will be adjusted to exclude these units.

Grade adjustments will be processed automatically after the grades are reported each term. For additional information on repeating a course or the deletion process, contact Records & Enrollment Services at registrar@asu.edu [1]

Demonstration of mastery

An undergraduate student who receives a "D" in a course in which a "C" or higher is required may use the grade from an equivalent course taken elsewhere to demonstrate mastery at the "C" or higher level. However, the course may neither be transferred to ASU (since credit has already been given for the course) nor computed in the student's GPA.

Grades appeal

ASU has informal and formal processes students may follow to appeal a grade. See the Catalog. [10]

GPA calculation

The following grades and their values are used in computing your semester and cumulative ASU GPA:

Grade*	Grade point value
A+	4.33
A	4.00
A-	3.67
B+	3.33
B	3.00
B-	2.67
C+	2.33
C	2.00
D	1.00
E**	0.00
*Other grades (W, X, Y, etc.) are not included in the GPA calculation.	
**Grades EN, EU, XE, E1, E2, E3, E4, E5, and E8 are equivalent to an E for GPA calculation purposes.	

To calculate your GPA, follow these steps below, or use the GPA Calculator. [11]

1. Multiply the grade point value by the number of semester hours for which the course was taken to determine the honor points.
2. Add together all the honor points.
3. Add together all the semester hours that received one of the above grades to determine net hours.

4. Divide the honor points by the net hours to calculate the GPA.
 Honor Points ÷ Net Hours = GPA
 GPAs are rounded to the nearest 100th of a decimal point.
 Semester GPA is based on semester net hours. Cumulative GPA is based on total net hours.
 Although the plus/minus scale includes a grade of A+ with a value of 4.33, the cumulative GPA is capped at 4.00.

Example:

Course	Semester hours	Grade	Grade point value	Honor points
ENG 101	3.0	A	4.00	12.00
MAT 117	3.0	B-	2.67	8.01
ECN 111	3.0	E	0.00	0.00
Total:	(net hours) 9.0			20.01

20.01 ÷ 9.0 = 2.22 GPA

Students may receive credit for an ASU course by taking an examination in place of the actual course. Learn more. [12]

- [12] http://catalog.asu.edu/credit_exam

Grade appeal policy — student procedures

The steps outlined here, beginning with step A, must be followed by any student seeking to appeal a grade. Student grade appeals must be processed in the regular semester immediately following the issuance of the grade in dispute (by commencement for fall or spring) regardless of whether the student is enrolled at the university. It is university policy that students filing grievances and those who are witnesses be protected from retaliation. A student who believes they are a victim of retaliation should immediately contact the dean of the college or school in which the course is offered. Students enrolled in courses taught by another institution through a formal ASU partnership (e.g., the PLS Alliance) must follow the grade grievance and appeal process of the institution teaching the course.

Informal

Step A

The aggrieved student must first undergo the informal procedure of conferring with the instructor, stating any evidence and reasons for questioning that the grade received was given in good faith. The instructor is obliged to review the matter, explain the grading procedure used and show how the grade in question was determined. If the instructor is a graduate assistant and this interview does not resolve the difficulty, the student may then take the problem to the faculty member in charge of the course (regular faculty member or director of the course sequence).

Step B

If the grading dispute is not resolved in step A, the student may appeal to the department chair or other appropriate chair of the area within the department (if any). The department chair may confer with the instructor to handle the problem. Step B applies only in departmentalized colleges or schools.

Step C

If these discussions are not adequate to settle the matter to the complainant's satisfaction, the student may then confer with the dean of the college or school concerned (or the dean-designate) who will review the case. If unresolved, the dean or designate may refer the case to the college or school academic grievance hearing committee to review the case formally. In most instances, however, the grievance procedure does not go beyond this level.

Formal

The following procedure takes place after steps A, B and C (or A and C) have been completed.

Step D

Each college or school has on file in the office of the dean (and in each department of the college or school) the procedures and composition of the undergraduate or graduate academic grievance hearing committee for student grievances. Each college or school committee operates under grievance procedures as stated, which satisfy due process requirements. The committee always meets with the student and the instructor in an attempt to resolve the differences. At the conclusion of the hearing, the committee sends its recommendations to the dean.

Step E

Final action in each case is taken by the dean after full consideration of the committee's recommendation. Any recommended grade changes may be made by the dean. The dean informs the student, instructor, department chairperson (if any), registrar and grievance committee of any action taken.

Policies for students at ASU at Los Angeles

The following policies apply to students pursuing programs at the ASU at Los Angeles location. Students at this location are also responsible for knowing and adhering to all other academic policies of Arizona State University.

BPPE compliance disclosures

Most compliance disclosures [1] mandated by BPPE, including School Performance Fact Sheets, are available on the Admission Services website. Below are additional disclosures related to finances; drop, add and withdrawal; and university and student record policies.

Institution financial status

ASU does not have a pending petition in bankruptcy, is not operating as a debtor in possession, has not filed a petition within the preceding five years, and has not had a petition in bankruptcy filed against it within the preceding five years that resulted in reorganization under Chapter 11 of the United States Bankruptcy Code (11 U.S.C. Sec. 1101 et seq.).

University academic information

Prospective students are encouraged to review the ASU academic catalog [2] and Degree Search [3] prior to signing an enrollment agreement. They are also encouraged to review the School Performance Fact Sheets, which must be provided prior to signing an enrollment agreement.

The ASU academic catalog is published annually. Department, school, division, college and university requirements are upgraded often, and may change. A PDF archive [4] of the academic catalog for the catalog year [5] is published annually, which includes educational programs offered by ASU and their curriculum. ASU also publishes a list yearly of instructional faculty; [6] students can access the latest version of the catalog and requirements through the Academic Catalog website and Degree Search. [3]

Class sessions in California are held in two ASU locations:

ASU California Center - Broadway

1111 S Broadway
Los Angeles, CA 90015
(213) 510-6900

ASU California Center - Grand

919 South Grand Avenue
Los Angeles, CA 90015
(213) 510-6960

Notice concerning transferability of credits and credentials earned at this institution

The transferability of credits a student earns at Arizona State University is at the complete discretion of the institution to which they may seek to transfer. Acceptance of the degree or certificate the student earns in the educational program is also at the complete discretion of the institution to which they may seek to transfer.

If the degree or certificate a student earns at this institution is not accepted at the institution to which they seek to transfer, the student may be required to repeat some or all of their coursework at that institution. For this reason, students should make certain that their attendance at this institution will meet their educational goals. This may include contacting an institution to which they may seek to transfer after attending ASU to determine if their degree or certificate will transfer.

Student records

Arizona State University permanently retains student transcripts, graded class rosters, official grade reports, graduation audit reports, combined name and gender change authorizations, degree/certificate issuance records, and theses and dissertations. Records Management [7] retention schedules list other records and the amount of time required to keep them. Many student records, including transcripts, can be accessed through a student's My ASU [8] at any time. Students can contact University Registrar Services [9] or the appropriate department for other record requests.

Student Tuition Recovery Fund

Note: The Student Tuition Recovery Fund payment is included as part of ASU tuition and is not assessed as a separate fee.

The State of California established the Student Tuition Recovery Fund to relieve or mitigate economic loss suffered by a student in an educational program at a qualifying institution who is or was a California resident while enrolled or was enrolled in a residency program, if the student enrolled in the institution, prepaid tuition and suffered an economic loss. Unless relieved of the obligation to do so, a student must pay the state-imposed assessment for the STRF, or it must be paid on their behalf if the student is in an educational program, who is a California resident or is enrolled in a residency program, and prepays all or part of the tuition.

Students are not eligible for protection from the STRF and are not required to pay the STRF assessment if they are not California residents or are not enrolled in a residency program.

It is important that students keep copies of their enrollment agreement, financial aid documents, receipts or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the:

Bureau for Private Postsecondary Education
2535 Capitol Oaks Drive, Suite 400

Sacramento, CA 95833
(916) 431-6959 or (888) 370-7589.

To be eligible for STRF, a student must be a California resident or enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and the student did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. The student was enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or was enrolled in an educational program within the 120 day period before the program was discontinued.
3. The student was enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. The student has been awarded restitution, a refund or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but has been unable to collect the award from the institution.
7. The student sought legal counsel that resulted in the cancellation of one or more of their student loans and has an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four-year period, unless the period has been extended by another act of law. However, no claim can be paid to any student without a social security number or a taxpayer identification number.

Drop, withdrawal and refund policy

Per California education code EDC § 94919, students pursuing a degree program at the ASU at Los Angeles location may withdraw from ASU and obtain a prorated refund of money paid for institutional charges if they have completed 60% of the semester or less at the time of withdrawal. The refund excludes disbursed federal financial aid funds.

If you drop a class or officially withdraw during the 100% refund period, you will receive a refund in accordance with the ASU refund policy. The applicable refund periods are:

- For regular semester classes (session C) and sessions that are eight weeks or longer, the 100% refund period extends through the first two weeks of the semester.
- For sessions that are shorter than eight weeks (sessions A and B) and dynamically dated classes, the 100% refund period is one week after the semester begins.
- For classes that begin prior to the first day of the regular semester, the applicable 100% refund period begins on the class start date, not the semester start date.
- For the summer session classes (sessions A, B and C, and dynamically dated classes), the 100% refund period is the first five days of the applicable summer session.

You may withdraw from ASU completely by providing notice through My ASU. To withdraw through My ASU, you must complete the steps below after contacting your advisor to discuss the withdrawal process:

1. Review the Academic Calendar for complete session withdrawal and tuition refund deadlines. ASU at Los Angeles students may withdraw from a course after instruction has started and receive a pro-rata refund for the unused portion of the tuition and other refundable charges if you have completed 60% or less of the instruction for the academic term.
2. Log into My ASU. [8]
3. Under the My Classes section, select Registration and then Drop/Withdrawal.
4. Indicate all classes and/or sessions for the withdrawal, answer the required questions, and select Submit Withdrawal Request.
5. Your request will be reviewed and you will be notified of the status. If approved, your Complete Session Withdrawal request will be sent to University Registrar Services for processing.

Students may also be subject to special types of withdrawal due to disruptive behavior, conduct or lack of attendance. In addition to requesting withdrawal via My ASU, you must also withdraw from the enrollment agreement by completing the cancellation form.

Refunds will be paid within 45 days of cancellation or withdrawal.

If you received federal student financial aid funds, you are entitled to a refund of monies not paid from federal student financial aid program funds.

If you obtain a loan to pay for the educational program, you will have the responsibility to repay the full amount of the loan plus interest, less the amount of any refund. If you default on a federal or state loan, both of the following may occur:

- The federal or state government or a loan guarantee agency may take action against you, including applying any income tax refund to which you are entitled to reduce the balance owed on the loan.
- You may not be eligible for any other federal student financial aid at another institution or other government financial assistance until the loan is repaid.

Professional licensure and certification degree programs

Arizona State University offers degree programs that lead to professional licensure with the State of Arizona and may allow graduates to be eligible for licensure in other states. Students and prospective students are strongly encouraged to contact the state's licensure entity where they intend to practice using the links provided to review all licensure and certification requirements imposed by the state(s) of choice. This information is provided per U.S. Federal Regulations, 34 CFR § 668.50 (2016 Rules) [1], 34 CFR § 668.43 (2019 Rules) [2], and in compliance with the State Authorization Reciprocity Agreement [3] (SARA) Manual. These disclosures are strictly limited to the university's determination of whether the degree programs, if successfully completed, would be sufficient to meet the educational licensure or certification requirements in a state. States vary in which professions are required to be licensed and how licensure functions. The terms related to licensure and certification, among others, also vary by state as well. ASU cannot provide verification of an individual's ability to meet licensure or certification requirements unrelated to its educational programming. Some states require individuals to complete additional requirements that are unrelated to educational prerequisites.

These disclosures do not provide any guarantee that any particular state licensure or certification entity will approve or deny an application. Additionally, these disclosures do not account for changes in state law or regulation that may affect an application for licensure that occurs after these disclosures have been made. Students should check the Professional Licensure material before registering for classes each session for the most up-to-date information.

Arizona State University is a member of the National Council State Authorization Reciprocity Agreements (NC- SARA) [3], which allows the university to provide distance learning programs (both online and learning placements) and coursework to students located in states other than Arizona. Membership does not grant reciprocity or exemption from state professional licensing requirements. Licensing requirements in Arizona may not be recognized as sufficient to obtain a license in other states.

ASU shall not be held liable if a student is unable to qualify for licensure or certification in any jurisdiction.

Relocating to a different state after admission into a degree program may impact whether a student can remain in the degree program, meet the state licensure requirements and/or continue to receive financial aid funding. Prior to

considering relocating, it is recommended that students contact their program advisor to discuss authorization and licensure eligibility requirements. It is the student's responsibility to notify the institution of a change in physical location.

Licensure by college

Select the college/school and then the program.

Registration

Registering for classes at ASU

Registering for classes is easy no matter where you are on your academic journey. Start by determining the type of student you are below, and then follow the instructions provided.

Newly admitted students

Undergraduate students

If you have been admitted to ASU, you will register for classes at New Student Orientation. [1]

Graduate students

Connect with your academic department for more information on how to register for courses. You can find the contact information for your academic department in the Academic Support Team box on My ASU. [2]

Continuing students

If you are currently enrolled at ASU, follow the steps below to register for classes.

Returning students

If you previously attended ASU as an undergraduate student but have not remained consecutively enrolled at ASU each fall and spring semester, visit the re-entry page [3] for next steps.

Registering for classes

Step one

Clear any registration holds

Sign in to My ASU [2] to determine if you have any holds that will prevent you from registering for classes. Examples of registration holds include missing transcripts, unpaid fees, academic advising requirements and immunizations requirements. Clearing registration holds as quickly as possible avoids delays in registration which can impact your chances of getting the classes and schedule that are best for you.

For more information on a particular hold, select Help on My ASU and enter any questions.

Step two

Register for classes

Once you have cleared any registration holds, you are ready to register for classes. You may register for classes online [2] or in person [4]. You can also search for available classes online. [5]

Undergraduate students should check out this article [6] explaining how to use your major map and DARs, or watch this video [7] with step-by-step instructions on how to register.

Graduate students, you should review your plan of study [8] (iPOS) as your program roadmap to help you stay on track for graduation.

Step three

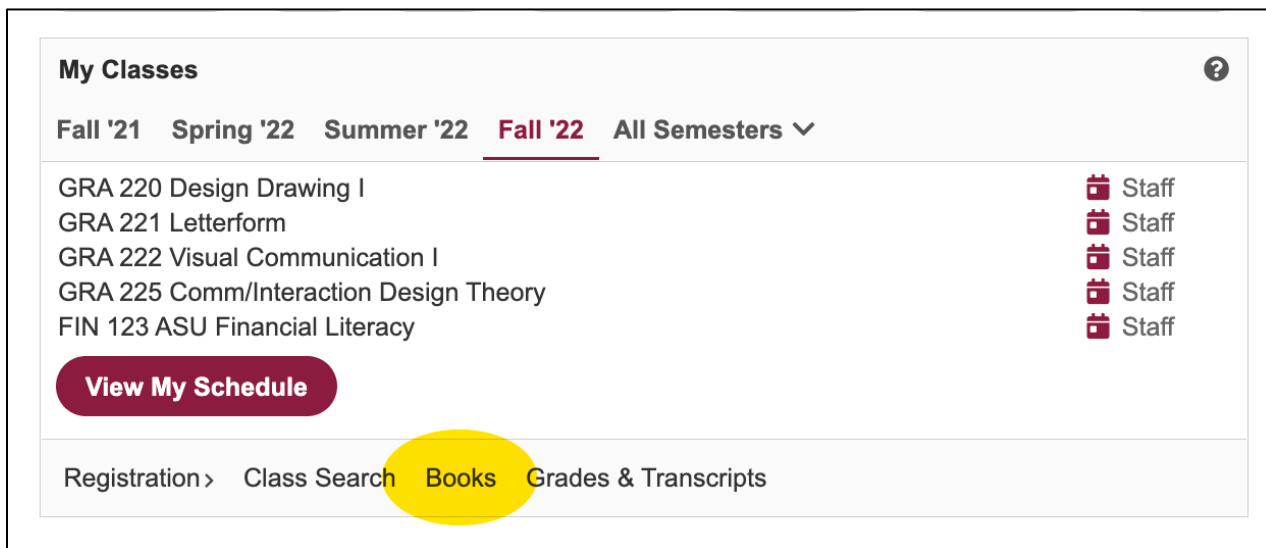

Pay tuition and fees

Once you are registered, sign in to the My ASU Finances tab [9] to view and pay your tuition and fees. More information regarding how tuition and fees are calculated and important deadlines for paying tuition and fees is available via Student Business Services [10] and the Registration and Tuition Payment Guide. [11]

Step four

Purchase textbooks

Sign in to My ASU [2] to obtain your required book list by selecting Books in the My Classes box and order textbooks through ASU Bookstores. [12]

The screenshot shows the 'My Classes' interface. At the top, there is a header 'My Classes' with a question mark icon. Below the header, there are tabs for 'Fall '21', 'Spring '22', 'Summer '22', 'Fall '22', and 'All Semesters'. The 'Fall '22' tab is selected and underlined. Below the tabs, there is a list of classes with their respective staff members:

Class	Staff
GRA 220 Design Drawing I	Staff
GRA 221 Letterform	Staff
GRA 222 Visual Communication I	Staff
GRA 225 Comm/Interaction Design Theory	Staff
FIN 123 ASU Financial Literacy	Staff

Below the list of classes, there is a button labeled 'View My Schedule'. At the bottom of the interface, there is a navigation bar with links for 'Registration', 'Class Search', 'Books', and 'Grades & Transcripts'. The 'Books' link is highlighted with a yellow circle.

Step five

Easily access your class schedule

Download to iCal

Sign in to My ASU [2] to download your class schedule and add it to your personal calendar. Click on View My Schedule and you'll be taken to a screen where you can download to iCal.

Drop/add and withdrawal

How to drop, add and withdraw

How to add a class

The easiest way to add a class is by signing into My ASU, [1] clicking on the **Registration** link in your **My Classes box**, and selecting **Add**. You may add a class to your schedule up until the add deadline for that class.

Adding a class after the add deadline is considered a Late Add [2] and requires instructor, department and college approval.

Policies and procedures for late adds vary by college/school, click here [2] for detailed instructions.

Dropping/withdrawing from a class

Beginning Fall 2023, the drop deadline and add deadline will be distinct. If you drop a class by the drop deadline, you may be eligible for a 100% refund of your tuition for that class.

How to drop/withdraw from a class

You may remove a class from your current schedule by dropping/withdrawing from it up until the appropriate deadline for that class. You can request a drop/withdrawal from a class by signing into My ASU, [1] clicking on the **Registration** link in your **My Classes** box, and selecting **Drop/Withdrawal**. Please refer to the Tuition Refund Policy [3] to determine if dropping or withdrawing from classes will generate a tuition refund. The timing of when you make your request determines whether it is a drop or a withdrawal.

Before the drop deadline

A drop/withdrawal request made prior to the drop deadline for your class will be considered a drop. A drop will remove the class from your current schedule with no record of your enrollment in the class on your official transcript. Beginning Fall 2023, dropping a course by the drop deadline may generate a 100% tuition refund for that class.

After the drop deadline

AA drop/withdrawal request made after the drop deadline but before the course withdrawal deadline for your class will be considered a withdrawal. A withdrawal will remove the class from your current schedule and will result in a grade of 'W' on your official transcript. The grade of 'W' has no impact on your GPA.

Swapping classes

How to swap classes

You may simultaneously add a class while dropping another by swapping them. You can swap classes by signing into My ASU [1], clicking on the "Registration" link in your My Classes box, and selecting "Swap." A swap will not drop you from your original class unless your add request was successful. This is especially helpful when attempting to switch from one section of a class to another section of the same class. A swap must be completed by the appropriate add deadline for that class.

Complete session drop/withdrawal

How to completely withdraw from classes

If you no longer plan on attending or completing your classes in a given session, you can remove all of them from your current schedule by requesting a complete session drop/withdrawal up until the appropriate complete withdrawal deadline. This should be viewed as a last resort as there may be serious academic and financial consequences. Please refer to the Tuition Refund Policy [3] to determine if dropping/withdrawing from classes will generate a tuition refund. The timing of your request determines whether it is a drop or a withdrawal.

Before drop deadline

A complete session drop/withdrawal request made prior to the drop deadline for your classes will be considered a complete session drop. A drop will remove the class(es) from your current schedule with no record of your enrollment in the class(es) on your official transcript.

After the drop deadline

A complete session drop/withdrawal request made after the drop deadline for your classes will be considered a complete session withdrawal. A withdrawal will remove the classes from your current schedule and will result in a grade of 'W' on your official transcript for each class withdrawn. The grade of 'W' has no impact on your GPA.

The process for requesting a complete session drop/withdrawal will depend on whether you are an undergraduate or a graduate student.

Undergraduate students

Requesting a complete session drop/withdrawal is an important decision as it may result in serious academic and financial consequences. If you have questions about withdrawing or the academic or financial consequences of withdrawing contact your college/school [4] to discuss your situation. The timing of your request will determine the impact it will have as well as the steps you will need to take to complete the process.

- Before the start of the fall or spring semesters (or anytime during a summer session) you may request a complete session drop/withdrawal by signing into My ASU, [1] clicking on the “Registration” link in your **My Classes** box, and selecting “Drop/Withdrawal.”
- After the start of the fall or spring semesters, contact your college/school [4] for more information.

Graduate students

You may request a complete session drop/withdrawal by signing into My ASU, [1] clicking on the “Registration” link in your My Classes box, and selecting “Drop/Withdrawal.”

Other types of drops/withdrawals

This section covers special types of drops/withdrawals due to extenuating circumstances (such as a personal mental/physical condition, death or serious illness of a family member or close friend, or military duty/activation), lack of attendance or disruptive behavior.

Medical/compassionate withdrawal

You may be eligible for a medical/compassionate withdrawal if your withdrawal is due to extenuating circumstances such as a serious physical or mental illness (medical withdrawal) or the death/serious illness of a family member (compassionate withdrawal). To request a medical/compassionate withdrawal, you must submit a Request for Documented Medical/Compassionate Withdrawal [5] form along with appropriate documentation to the college of your major. Approved medical/compassionate withdrawals may generate tuition refund if approved within two years of the end of the semester, please see the Tuition Refund Policy [3] for more information.

Military activation withdrawal

A student who is a member (or the spouse of a member) of the National Guard, Reserve, or other U.S. Armed Forces branch and is unable to complete classes because of military activation, may request complete withdrawal or course withdrawals, incompletes, or grades, depending on the timing of the activation and the individual student’s needs. Absences resulting from military activation will not adversely affect a student’s catalog year.

To receive consideration under the military activation policy, a student should complete a Military Activation Form [6] and return the completed form, along with a copy of the military activation order, to the Pat Tillman Veterans Center. The Pat Tillman Veterans Center staff will coordinate the processing of the form for the student, including verification of orders, counseling on available options, referrals to academic departments, referrals or notification to offices regarding potential refunds, and initiation of processing administrative withdrawals or incomplete grades.

Instructor-initiated drop

Instructors have full authority within departmental or other higher-level policies to decide whether or not class attendance is required. If you are unable to attend class it is your responsibility to notify your instructors and/or follow their attendance policy. If you are absent from class through the second week of classes (for a fall or spring semester) or the first four days of a summer session, your instructors may exercise the option to drop you from the class (this is often done to create an open seat for another student wishing to add the class).

Please be aware that nonattendance will not automatically result in you being dropped from a class. Instructors have the right to exercise this option at their discretion. If you are unable to attend or complete a class it is your responsibility to drop/withdraw from the class prior to the appropriate deadline.

Instructor-initiated drops for nonattendance must be based upon concrete evidence of nonattendance and be signed by the Dean or Dean's Designee of the college offering the class. The college will notify students that they have been dropped for nonattendance by mail at the students' currently posted mailing address. Nothing in this policy contradicts any other policy regarding attendance, religious holidays or the students' responsibility to notify instructors in case of their absences.

Instructor-initiated withdrawal

Instructor-initiated withdrawals are made when an instructor withdraws a student from a class with a grade of "W" or "E" in cases of disruptive behavior.

Add, drop and withdrawal deadlines

Registration deadlines determine the last day you are able to add, drop or withdraw from classes. Each class has its own set of registration deadlines which are based on the length of the class as well as the session in which the class is held. The individual add, drop and withdrawal deadlines drop/add/withdrawal or add deadlines listed on the Academic Calendar [7] apply to classes scheduled in the regular A/B/C sessions. If your class does not follow the A/B/C session timelines, the individual add, drop and withdrawal deadlines drop/add/withdrawal or add deadlines are prorated. The best way to determine the registration deadlines for a class you are registered for is to sign in to My ASU [1] and click on the calendar icon next to the class in the **My Classes** box. To determine the registration deadlines for a class you have not yet registered for, use the online Class Search and Course Catalog [8] to search for the class and click on the **Dates** column in the search results.

Add deadline

This is the last day to add a class. Adding a class after the deadline is considered a Late Add and requires instructor, department, and college approval.

Drop deadline

This is the last day to drop a class without receiving a grade of "W" on your transcript. All withdrawals after this date will result in a grade of "W" on your transcript for each class withdrawn.

Course withdrawal deadline

This is the last day to request a withdrawal from a class while staying enrolled in other classes in the same session. A withdrawal from a class after this date is only available as part of a complete session withdrawal (see below).

Complete session withdrawal deadline

This is the last day to request a complete withdrawal from a session. As part of a complete session withdrawal you must withdraw from all of your classes in the session. Beginning the first day of the fall and spring semesters undergraduate students are required to contact their college/school [4] to facilitate the withdrawal process.

Editing a class

Some classes allow you to select the number of credit hours, grading basis, and instructor for the class. If you are registered for one of these classes you may edit these options by signing into My ASU, [1] clicking on the **Registration** link in the **My Classes** box, and selecting **Edit**.

Complete session withdrawal

Undergraduate students

Beginning the first day of the fall and spring semesters, you are required to connect with your college/school of your major to facilitate the withdrawal process. Select your college or school below for instructions regarding the complete withdrawal process.

The College of Liberal Arts and Sciences [1]
Edson College of Nursing and Health Innovation [2]
Herberger Institute for Design and the Arts [3]
Ira A. Fulton Schools of Engineering [4]
Mary Lou Fulton Teachers College [5]
New College of Interdisciplinary Arts and Sciences [6]
College of Integrative Sciences and Arts [7]
College of Global Futures [8]
College of Health Solutions [9]
Thunderbird School of Global Management [10]
Walter Cronkite School of Journalism and Mass Communication [11]
Watts College of Public Service and Community Solutions [12]
W. P. Carey School of Business [13]
University College [14]

During the fall or spring semester, submit your withdrawal request by signing in to My ASU, [15] click on the **Registration** link in your **My Classes** box, and select **Drop/Withdrawal**. Your request will be electronically routed to your college or department for review and next steps. If the semester has not yet begun, or you wish to withdraw from a summer session, sign in to My ASU, [15] click on the **Registration** link in your **My Classes** box, and select **Drop/Withdrawal** and follow the steps to withdraw from your classes.

Graduate students

You may request a complete session drop/withdrawal by signing in to My ASU, [15] clicking on the **Registration** link in your **My Classes** box, and selecting **Drop/Withdrawal**, or by submitting the Complete Session Withdrawal [16] form to any University Registrar Services office location [17]. Be sure to review the Graduate College's continuous enrollment policy [18] and discuss your withdrawal with your program advisor, if needed.

Please refer to the Tuition Refund Policy [19] to determine if dropping/withdrawing from classes will generate a tuition refund.

ASU support resources & options

Withdrawing from one or two classes (course withdrawal)

After the drop/add deadline through the course withdrawal deadline for a class, students can withdraw from the class while remaining enrolled in other classes. Students are encouraged to contact their academic advisor to discuss the impact this may have on meeting critical requirements.

Medical/compassionate withdrawal

Medical/Compassionate withdrawals are available for students needing to withdraw from one or more classes due to a personal mental/physical health condition or the death or serious illness of a family member/close friend. More information concerning medical/compassionate withdrawal requests can be found here. [20]

Tutoring & academic support services

ASU tutoring centers provide a variety of services to help students become better learners and gain the confidence and skills to achieve their academic goals. Services include: writing centers, math tutoring, subject area tutoring, and supplemental instruction. More information about tutoring centers can be found here. [21]

ASU counseling services

Counseling and mental health services are provided at each of the four ASU campuses. ASU students may seek services at any of the campus counseling centers, regardless of their college affiliation. ASU Counseling Services locations and contact information can be found here. [22]

“I” (incomplete) grade

If approved, a mark of "I" (Incomplete) may be given by the instructor when students are otherwise doing acceptable work but are unable to complete the class because of illness or other conditions beyond their control. Students interested in incompletes should discuss this option with their instructors and arrange for the completion of the class requirements.

Possible consequences resulting from a complete session withdrawal:

- **Financial Aid:** Financial aid recipients who completely withdraw from the university may be responsible for immediate repayment of funds. The effect of a complete withdrawal on financial aid depends on when the withdrawal is dated and the type of financial aid. More information concerning the return of financial aid is available here. [23]
- **Tuition and Refunds:** The date of a complete withdrawal will determine whether or not a tuition refund will be generated. Please review the Tuition Refund Policy [19] for more information.
- **Health Insurance:** Students should contact their health insurance company to determine whether or not withdrawing from the university affects their coverage.
- **Residential Life:** Students who live on campus should contact their residential hall community staff to determine what impact withdrawing will have on their eligibility to live on campus, to complete a License Agreement Release (LAR) form, and to arrange an appointment to officially check out. More information concerning housing cancellations is available here. [24]
- **Veteran Benefits & Certifications:** Students should contact the appropriate Veteran Benefits & Certifications office to discuss information regarding veterans' educational benefits and/or military activation. Veteran Benefits & Certifications office locations and contact information can be found here. [25]

For more information on Complete Withdrawals, contact University Registrar Services at registrar@asu.edu [26] or 480-965-3124.

Late registration

Registering for any class after the deadline [1] requires approval from the college or school offering the course and is an exception to university policy. There is no guarantee that a late request will be approved.

Courses for which the deadline to register has passed are marked in the schedule of classes by a gray "add" button.

When this button is selected, students are directed to a page that prompts them to select the appropriate link for the college offering the course. The link connects the student to a customized page with step-by-step instructions on how to request a late add for that particular course. Policies and procedures vary by college/school. See the list below for detailed information and instructions.

Barrett, the Honors College [2]

State authorization

How is ASU authorized in my state?

Select your state in the dropdown to see how ASU is authorized to operate in your state and to learn about policies and program exceptions in your state.

The State Authorization Reciprocity Agreement (SARA) is a national initiative that helps expand students' access to educational opportunities while maintaining compliance with state regulations. Institutions participating in SARA may offer educational opportunities in SARA member states without seeking individual approval in each state. To learn more about SARA, visit <https://nc-sara.org/>. [1]

The State of Arizona was approved as a SARA member state on November 11, 2014. Arizona State University is approved as a SARA participating institution by the Arizona SARA Council [2] and the National Council for State Authorization Reciprocity Agreements [1] (NC-SARA).

Relocating to a different state after admission into a degree program may impact whether a student can remain in the degree program, meet the state licensure requirements and/or continue to receive financial aid funding. Prior to considering relocating, it is recommended that students contact their program advisor to discuss authorization and licensure eligibility requirements. It is the students responsibility to notify the institution of a change in physical location.

Alabama

As a participating State Authorization Reciprocity Agreements (SARA) institution since May 5, 2015, Arizona State University is authorized to offer distance education to persons located in Alabama in accordance with NC-SARA established policies and standards; program exceptions are noted below. A program exception means that the following program is not available to students located in Alabama.

Mary Lou Fulton Teachers College

- Special Education (Teacher Certification), MEd [3]
The following area(s): *Moderate/Severe Disabilities*

Complaint procedure

Arizona State University will take appropriate action to seek resolution when a student complaint is brought to our attention. Students wishing to file a complaint are encouraged to first utilize the University's internal complaint policies. Additionally, distance education students may seek redress for a non-academic complaint, after first completing the institutional complaint procedure and the Arizona Board of Regent's complaint process, by filing a Complaint Form via the AZ SARA complaint process [4]. The appeal must be brought within two years of the incident about which the complaint is made. Distance education students should see Policies [5] for further information.

Alaska

As a participating State Authorization Reciprocity Agreements (SARA) institution since May 5, 2015, Arizona State University is authorized to offer distance education to persons located in Alaska in accordance with NC-SARA established policies and standards; program exceptions are noted below. A program exception means that the following program is not available to students located in Alaska.

Mary Lou Fulton Teachers College

- Teacher Certification (Graduate Certificate) [6]
The following area(s): *Secondary Education – Dance*

Complaint procedure

Arizona State University will take appropriate action to seek resolution when a student complaint is brought to our attention. Students wishing to file a complaint are encouraged to first utilize the University's internal complaint policies. Additionally, distance education students may seek redress for a non-academic complaint, after first completing the

institutional complaint procedure and the Arizona Board of Regent's complaint process, by filing a Complaint Form via the AZ SARA complaint process [4]. The appeal must be brought within two years of the incident about which the complaint is made. Distance education students should see Policies [5] for further information.

Arizona

Arizona State University is a public university established in the State of Arizona.

Complaint procedure

Arizona State University will take appropriate action to seek resolution when a student complaint is brought to our attention. Students wishing to file a complaint are encouraged to first utilize the University's internal complaint policies, please see Policies [5] for further information.

Arkansas

As a participating State Authorization Reciprocity Agreements (SARA) institution since May 5, 2015, Arizona State University is authorized to offer distance education to persons located in Arkansas in accordance with NC-SARA established policies and standards; program exceptions are noted below. A program exception means that the following programs are not available to students located in Arkansas.

College of Integrative Sciences and Arts

- Counseling, MC [7]

Mary Lou Fulton Teachers College

- Secondary Education (Teacher Certification), MEd [8]
The following area(s): *Economics, General Science, Geography, Political Science/American Government*
- Teacher Certification (Graduate Certificate) [6]
The following area(s): *Secondary Education – Economics, Secondary Education – General Science, Secondary Education – Geography, Secondary Education - Political Science/American Government*

Complaint procedure

Arizona State University will take appropriate action to seek resolution when a student complaint is brought to our attention. Students wishing to file a complaint are encouraged to first utilize the University's internal complaint policies. Additionally, distance education students may seek redress for a non-academic complaint, after first completing the institutional complaint procedure and the Arizona Board of Regent's complaint process, by filing a Complaint Form via the AZ SARA complaint process [4]. The appeal must be brought within two years of the incident about which the complaint is made. Distance education students should see Policies [5] for further information.

California

Arizona State University is a public university established in the State of Arizona. ASU is approved to operate in the state of California by the Bureau for Private Postsecondary Education [9] and is approved to offer select programs in-person at the ASU at Los Angeles location. For additional information, please see: <https://california.asu.edu/> [10] and <https://catalog.asu.edu/bppe-policies>. [11]

Complaint procedure

Arizona State University will take appropriate action to seek resolution when a student complaint is brought to our attention. Students wishing to file a complaint are encouraged to first utilize the University's internal complaint policies. Distance education students should see Policies [5] for further information.

Students in an ASU at Los Angeles academic program, or any member of the public, can share concerns with the Bureau for Private Postsecondary Education at the following website: <https://www.bppe.ca.gov/enforcement/complaint.shtml>. [12]

Colorado

As a participating State Authorization Reciprocity Agreements (SARA) institution since May 5, 2015, Arizona State University is authorized to offer distance education to persons located in Colorado in accordance with NC-SARA established policies and standards; program exceptions are noted below. A program exception means that the following programs are not available to students located in Colorado.

College of Integrative Sciences and Arts

- Counseling, MC [7]

Mary Lou Fulton Teachers College

- Secondary Education (Teacher Certification), MEd [8]
The following area(s): *Dance*
- Teacher Certification (Graduate Certificate) [6]
The following area(s): *Secondary Education – Dance*

A program exception means that the following programs are not available to students located in New York.

College of Health Solutions

The Doctor of Behavioral Health [48] (DBH) program is an international education and training program that is designed to develop future leaders in integrated primary behavioral health care. There are two concentrations that may be pursued: clinical [49] and management [50].

Admission to the clinical concentration of the DBH program is restricted in New York State to those applicants with an active license to practice in a clinical field such as: Applied Behavioral Analysis, Creative Arts Therapy, Marriage and Family Therapy, Mental Health Counseling, Occupational Therapy, Physician Assistant, Psychoanalysis, Psychology, Social Work, and other clinical fields. Clinicians must possess an appropriate clinical license prior to admission to the program and are expected to work within the restrictions of their current license and professional scope of practice while completing all aspects of the DBH program, including clinical internship. Applicants without a proper license will not be accepted into the clinical concentration, or may risk dismissal from the DBH program if accepted contingent upon attaining a license, if the applicant is unable to attain the requisite license within the required timeframe.

It is recommended for applicants in New York State to contact the NYS Office of Professions [51] and speak with the appropriate professional board for information regarding their license status and whether there are limitations on how knowledge obtained in the DBH program may be utilized in their practice.

A program exception means that the following programs are not available to students located in West Virginia.

College of Integrative Sciences and Arts

- Counseling, MC [7]

Mary Lou Fulton Teachers College

- Special Education (Teacher Certification), MEd [3]
The following area(s): *Moderate/Severe Disabilities*

Complaint procedure

Arizona State University will take appropriate action to seek resolution when a student complaint is brought to our attention. Students wishing to file a complaint are encouraged to first utilize the University's internal complaint policies. Additionally, distance education students may seek redress for a non-academic complaint, after first completing the institutional complaint procedure and the Arizona Board of Regent's complaint process, by filing a Complaint Form via the AZ SARA complaint process [4]. The appeal must be brought within two years of the incident about which the complaint is made. Distance education students should see Policies [5] for further information.

Wyoming

As a participating State Authorization Reciprocity Agreements (SARA) institution since May 5, 2015, Arizona State University is authorized to offer distance education to persons located in Wyoming in accordance with NC-SARA established policies and standards; program exceptions are noted below. A program exception means that the following programs are not available to students located in Wyoming.

Mary Lou Fulton Teachers College

- Secondary Education (Teacher Certification), MEd [8]
The following area(s): *Dance*
- Special Education (Teacher Certification), MEd [3]
The following area(s): *Moderate/Severe Disabilities*
- Teacher Certification (Graduate Certificate) [6]
The following area(s): *Secondary Education - Dance*

Complaint procedure

Arizona State University will take appropriate action to seek resolution when a student complaint is brought to our attention. Students wishing to file a complaint are encouraged to first utilize the University's internal complaint policies. Additionally, distance education students may seek redress for a non-academic complaint, after first completing the institutional complaint procedure and the Arizona Board of Regent's complaint process, by filing a Complaint Form via the AZ SARA complaint process [4]. The appeal must be brought within two years of the incident about which the complaint is made. Distance education students should see Policies [5] for further information.

Questions about state authorization?

Student Privacy: Family Educational Rights and Privacy Act (FERPA)

The federal Family Educational Rights and Privacy Act (also called FERPA or the Buckley Amendment) affords students certain privacy rights regarding their education records. Those rights are summarized below. For more detailed information about FERPA, consult SSM 107-01: Release of Student Information [1] or contact University Registrar Services. [2]

The right to inspect

The right to inspect and review the student's education records within 45 days of the day the university receives a request for access. Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The university official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the university official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

Note: Students must provide photo identification in order to access their education records.

The right to amend

The right to request the amendment of the student's education records that the student believes are inaccurate or misleading. Students who believe their record is inaccurate or misleading should write to the university official responsible for the record. Clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the university decides not to amend the record as requested by the student, the university will notify the student of the decision and advise the student of his or her right to a hearing about the request for amendment. Additional information about the hearing procedures will be provided to the student when notified of the right to a hearing.

Note: FERPA does not address grade disputes or grievances, which are pursued through other university and/or college procedures.

The right to consent

The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. School officials are administrators, faculty, professional staff, academic advisors, clerical or support employees, including ASU law enforcement unit personnel and ASU health staff; volunteers; a person or company with whom the university has contracted as its agent, acting with a legitimate educational interest, to provide a service instead of using university employees or officials (such as an attorney, auditor, collection agent, service provider); a person serving on the Board of Regents; staff in the Alumni Association and ASU Foundation offices; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the interest in an education record is justified under one or more of the following conditions:

- the information or records requested are relevant and necessary to accomplish some task or determination related to the legitimate educational interest of the student
- the official needs to review an education record in order to fulfill his or her professional responsibilities for the university
- the task or determination is an employment responsibility or a properly assigned subject for the inquirer's determination and/or
- the task or determination is consistent with the purpose for which the records, information, or data are maintained.

Note: A parent of a dependent student may challenge denial of access to the dependent student's record by producing the most current copy of Internal Revenue Form 1040. (Dependency is defined in Section 152 of the Internal Revenue Code.) If that form lists the student in question as a dependent, the parent will be required to sign an Affidavit of Dependency which affirms that the student is his/her tax dependent. The affidavit will be retained by the University Registrar's Office and must be renewed each tax year. Upon receipt of these documents, the dependent student records may be made available to the parent as specified under FERPA.

The right to file a complaint

The right to file a complaint with the U.S. Department of Education concerning alleged failures by Arizona State University to comply with the requirements of FERPA. Students are encouraged to first contact University Registrar Services at (480) 965-7302. A complaint may be filed in writing with the Department of Education at the following address: Family Policy Compliance Office U.S. Department of Education 400 Maryland Avenue, SW Washington, DC, 20202

Definitions

Student — Any individual formally admitted who is or has been in attendance at ASU. The term does not apply to applicants for admission, nor does it apply to persons who have been admitted but who have not registered.

Education record — Any record(s) directly related to a student and maintained by ASU or by a party acting for the university. Education records include any information or data recorded in any medium, including but not limited to handwriting, print, computer media, video or audio tape, film, microfilm, and microfiche.

Directory information — Information that may be released to anyone without the consent of the student, unless the student indicates otherwise, except to the extent that FERPA authorizes disclosure without consent:

- Student name
- Addresses (e.g., local, home, mailing and ASU e-mail, including directory number)
- Telephone numbers
- Date of birth
- Degrees, honors and awards received (including Dean's List, National Merit, National Achievement, and National Hispanic Scholars)
- Most recently attended educational institution
- Academic level
- Major
- College
- Dates of attendance
- Enrollment status (e.g., undergraduate or graduate, full-time or part-time)
- Participation in officially recognized activities/sports
- Weight/height of members of athletic teams

Personally identifiable information — Includes not only the name of the student and other personal identifiers, but also a list or description of personal characteristics or any other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the student and/or relevant circumstances, to identify the student with reasonable certainty. Further, personally identifiable information includes all information about a student that is not defined as directory information, as well as any information that the student has indicated may not be released, including directory information.

My ASU parent guest access

My ASU Parent Guest Access is an online tool that allows students to share FERPA-protected information with parents and guests. Students have the choice to share some or all of their FERPA-protected information with parents and guests. For more information visit My ASU Parent Guest Access. [3]

Student control of directory information

Students may control release of directory information by submitting a Withhold Directory Information Request [4] form.

Unless otherwise requested, a student's name, college, major, enrollment status (undergraduate or graduate), and ASU e-mail address will appear in the directory of faculty, staff, and students in ASU's online directory. To avoid the release of directory information on the web or in general, the Withhold Directory Information Request [4] form must be submitted.

ASU has a policy that regulates and permits the sale of enrolled student directory information only through University Registrar Services. If a FERPA directory hold is on the student's record, the directory information will not be included in these requests.

Students accessing education records or receiving university services must provide proof of identification.

For more detailed information on ASU's FERPA policy, please see SSM 107-01: Release of Student Information. [1]

Questions or requests for additional information may be directed to University Registrar Services' Records & Enrollment Services at registrar@asu.edu [5]

Transaction by proxy

Students unable to process transactions in person or via My ASU [6] may designate another person to process transactions on their behalf by proxy. [7]

Transcripts

Official and unofficial ASU academic transcripts are available through University Registrar Services.

Sending your transcripts to ASU? Contact Admissions [1] for mailing address information.

Official transcripts

An official transcript is a copy of the student's permanent academic record issued by the University Registrar. It displays all courses taken for credit at ASU and includes all grades received. Unlike unofficial copies, paper and electronic copies of the official transcript display the ASU seal and list a print date. The official paper copies are also signed by the registrar. **Official transcripts are not issued for students with outstanding financial obligations to the university.**

For students that attended the **Thunderbird School of Global Management prior to December 31, 2014**, information on ordering official transcripts can be found here. [2]

ASU cannot send official transcripts by email or fax.

University Registrar Services has partnered with Parchment, a digital credentials service, to manage the ordering, processing, and secure electronic delivery of your official ASU transcripts.

All students are encouraged to go online to place their transcript order. This is the easiest and most efficient way to place an order for either a traditional paper transcript or electronic transcript delivery.

Electronic delivery of official transcripts

Official electronic transcripts may only be ordered using Parchment's online request system. Students choosing this option will identify their recipients by selecting them from a list within the ordering system or by providing the email address of their intended recipients.

To expedite and ensure accurate delivery, students should:

- Make sure the transcript recipient will accept the electronic transcripts, so they can avoid paying to send a replacement copy.
- Double check that the email address they provided for an institution or individual is correct, so they can avoid paying again to send a replacement electronic or paper copy.
- Provide their email addresses for notification purposes (the student's email address assists with tracking and confirming delivery by notifying the student when the transcript is sent and when it is received by the selected institution or individual).
- Instruct recipients to allow emails from Parchment (noreply@parchment.com [3]) to avoid potential problems with spam filters.

Orders are generally processed immediately, unless you request a hold for degree or grades. (Degrees are posted approximately 6 weeks after the conferral date for the semester.)

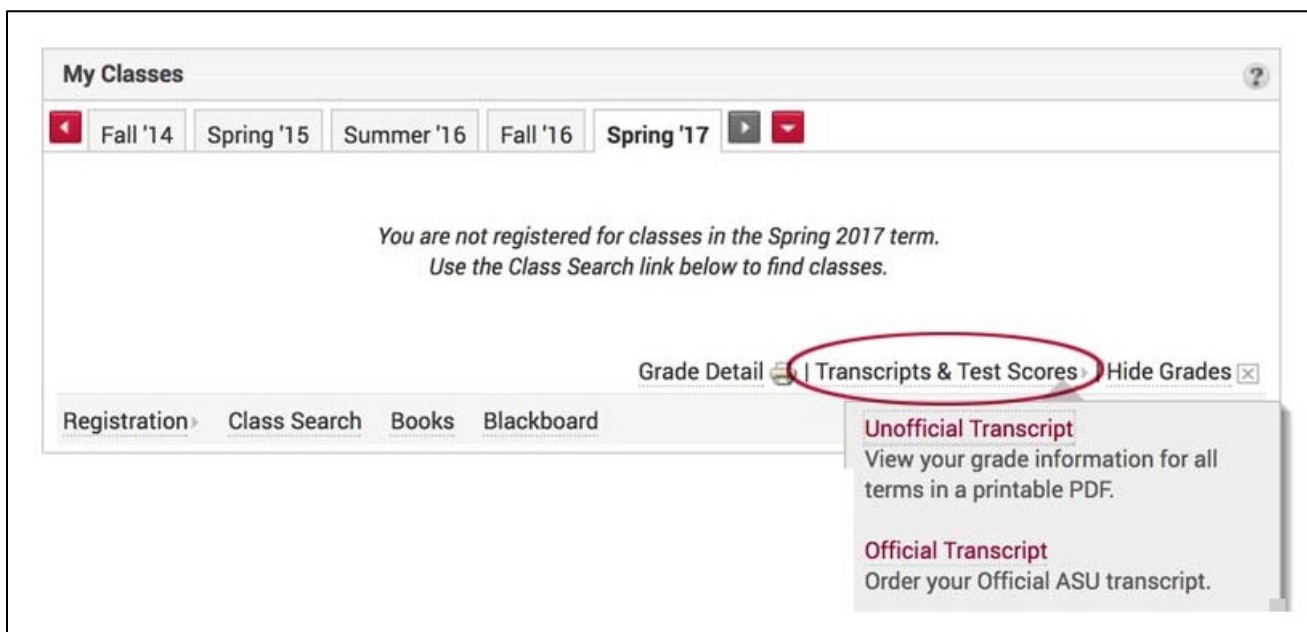

The transcript is not delivered by email; the recipient's email address is used for notification and reminder messages regarding delivery of the student's transcript to a secure site where it can be accessed.

Ordering official transcripts

Official transcripts can be ordered online or by mail.

Online

- Students who have an ASURITE ID — Sign in to My ASU [4] and order official transcripts online. In the **My Classes** box, click **Grades & Transcripts** and then **Transcripts & Test Scores** (see sample My ASU navigation screenshot below).
- Students who attended ASU after 1980 and who do not yet have an ASURITE ID [5] or do not know their ASURITE ID and password — Please contact the ASU Help Desk at 855-278-5080 for assistance requesting your ASURITE ID.
- Students who attended ASU prior to 1980 and do not have an ASURITE ID — Request transcripts in person or by mail.

By mail

Students may order transcripts by submitting a Request for Official Transcript Form [6] or signed letter including the following information:

- Name
- Former names (if applicable)
- Arizona State University identification number (or SSN)
- Date of birth

- First and last dates of attendance
- Current return address
- Daytime phone number
- Specific mailing address for each transcript ordered

Pre-payment is required. See costs for official transcripts below. Make check or money order payable to Arizona State University.

Send requests for official transcripts to:

Outgoing Transcripts
 University Registrar Services
 Arizona State University
 P.O. Box 870312
 Tempe, AZ 85287-0312

For further assistance, please contact Outgoing Transcripts at 480-965-7276 or academicfiles@asu.edu [7]

In person

Students presenting photo ID may order official transcripts in person at the Cashier's Office at the following locations:

- Downtown Phoenix campus — Mon. - Fri. 8:15 a.m. - 4:30 p.m., University Center Building, Suite 112
- Polytechnic campus — Mon. - Fri. 8:15 a.m. - 4:30 p.m., Administration Building, Room 160
- Tempe campus — Mon. - Fri. 8:15 a.m. - 4:30 p.m., Student Services Building, 244
- West campus — Mon. - Fri. 8:15 a.m. to 4:30 p.m., University Center Building, Room 101

Costs

All charges for official transcripts must be paid at time of request. Official transcripts cost \$15.00 per official transcript copy requested.

Rush transcripts (same day service): \$10.00 in addition to the costs for the total number of transcripts ordered. Available for in-person requests only.

- Special delivery in the U.S. — Special delivery processing, instead of regular mail, is available via FedEx or U.S. Express Mail at \$22.00 per recipient, in addition to the costs for the total number of transcripts ordered.
- Special delivery outside the U.S. — Express delivery to addresses outside the U.S. is available through International FedEx Express or International Express Mail at \$38.00 per recipient, in addition to the costs for the total number of transcripts ordered.

FedEx requires a street address for delivery. FedEx charges an additional fee for all returned shipments, and the student will be responsible for paying the total amount before the transcript(s) will be mailed.

Transcripts will not be reissued after 90 days from the processed date.

Fees subject to change without notice.

Apostille

For information on requesting an Apostille. [8]

Unofficial transcripts

An unofficial transcript is an uncertified copy of the student's academic record. In addition to courses taken for credit at ASU and grades received, unofficial transcripts also include information such as note records regarding Dean's List achievement, grade changes, semester GPAs and probation/disqualification status.

For students that attended the Thunderbird School of Global Management prior to December 31, 2014, information on ordering unofficial transcripts can be found here. [9]

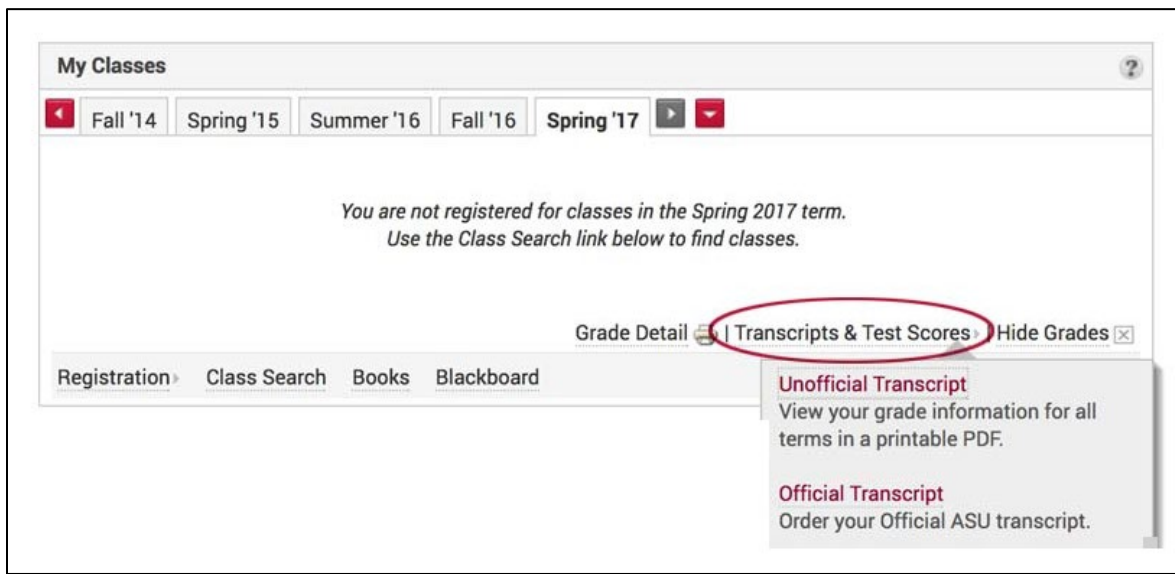

Accessing and ordering unofficial transcripts

Here's how to view and request unofficial transcripts:

Online

- Students and former students who have an ASURITE ID — Sign in to view and print an unofficial transcript [10]. You may need to temporarily disable pop-up blocker for this site to retrieve your transcript.
- Students who attended after 1980 and who do not have an ASURITE ID or do not know their ASURITE ID and password — Request an ASURITE ID [5] to access unofficial transcripts online by contacting the ASU Help Desk at 855-278-5080.
- Students who attended prior to 1980 — ASU does not offer online transcript services for students who attended prior to 1980. Request the unofficial transcript in person, by mail or by fax.

You should be in your My ASU student view to access your transcripts. If you have both a student and staff view, this will be indicated in the top right of your screen.

By mail or fax

Students may order an unofficial transcript by mailing or faxing a signed letter including the following information about the student:

- Name and former names (if applicable)
- Arizona State University identification number (or SSN)
- Date of birth
- First and last dates of attendance
- Current return address
- Daytime phone number
- Return Fax number or specific mailing address

Requests for unofficial transcripts by mail or fax must be signed by the student. No computer generated signatures will be accepted. Please send requests for unofficial transcripts to:

Outgoing Transcripts
University Registrar Services
Arizona State University
P.O. Box 870312
Tempe, AZ 85287-0312
Fax: 480-965-2295

In person

Students presenting photo ID may order unofficial transcripts in person at any campus registration site. [11]

Costs

There is no fee for an unofficial transcript. For assistance, please contact University Registrar Services. [11]

Transcript FAQs

Have questions? Here are the most common FAQs. [12]

If you have an ASURITE ID, want to order online, and are familiar with the applicable transcript policies, you can access your transcripts through My ASU. [4]

My ASU [4]

Click **Grades & Transcripts** in the My Classes box, then **Transcripts & Test Scores**.

Apostille

Some international organizations may ask for the attachment of an apostille to certain documents. An apostille is an additional level of authentication given to a notarized document to certify that the document is a true, i.e., exact, copy of the original.

Arizona State University can provide notarization of official transcripts or your diploma to submit to the Arizona Secretary of State's Office for apostille purposes. Before requesting notarization, please check with the agency requesting your documents to determine what level of document verification is required.

For more information on how to request notarized official transcripts, please contact Outgoing Transcripts at 480-965-7276 or academicfiles@asu.edu. [1]

For more information on how to request a notarized diploma, please visit this page [2] or contact Graduation at 480-965-3256 or graduation@asu.edu. [3]

You will be responsible for submitting the notarized document(s) to the Arizona Secretary of State's Office to request the apostille. Review the complete instructions for filing an apostille request. [4]

Transcript FAQs

Registration and transcripts

Can a student enroll in school after the drop/add deadline?

Provided that the student has been admitted to the university, college approval is required to register for classes after the Drop/Add deadline. Contact the college offering the desired course and follow the instructions given. For initial

registration, contact the college of your major. Consult the academic calendar [1] for important deadlines and view detailed instructions on dropping and adding classes. [2]

Can someone else order/pick up my official transcript for me?

Yes, someone else may order or pick up your official transcript as long as you give written and signed authorization to do so. The request must include all the information requested for ordering an official transcript.

Does my ASU transcript list courses I transferred from other institutions?

No. Credit is awarded for traditional course work successfully completed at institutions of higher learning as indicated by ASU and the Arizona Board of Regents. However, only the name of the institution(s) and degrees awarded are listed on the ASU transcript.

How can I give my parent/guardian or another individual access to my records?

The Consent for Access to Educational Records or Proxy form [3] is available online. Follow the instructions on the form and turn it in to any registration location [4]. Read more about the privacy of your educational records. [5]

How can I obtain a copy of previous school transcripts?

You may request unofficial copies of transcripts from other schools if they were submitted to ASU and if they remain on file. If you are requesting transfer transcripts for official purposes, you must order transcripts from the issuing institutions.

How do I find my ID Number?

Your ASU ID or affiliate number can be found on your Sun Card [6] listed as a 10-digit number, or you can login to My ASU [7] and look under ID's on the My Profile tab.

How do I find out what Holds are on my record?

Holds are listed on your My ASU [7] page under the My Tasks section. There are two types of holds: financial aid disbursement holds and registration holds. Click on the title of Hold to find out how to have the hold removed.

How do I find the pre-requisites for a course?

Search for the course in the Schedule of Classes [8]. The pre-requisites are listed in the Enrollment Information section of the Class Detail.

How do I get a course description for courses listed on my ASU transcript?

Course descriptions for catalogs after 1996 can be printed from the web at the catalog web site [9]. For course descriptions prior to 1996, contact University Archives archives@asu.edu [10] or 480-965-4932.

How do I get an override for a class?

Contact the department offering the desired course, and follow the instructions they provide. Overrides are given either online or on paper. Paper forms must be processed in person at any registration location. [4]

How do I order official transcripts?

Official transcripts can be ordered online via My ASU [7], in person or through the mail. Read more detailed information about ordering official transcripts. [11]

How do I register for classes? How do I drop/add/swap a class?

To register for the first time or make any changes to your existing registration you have the following options: Log into My ASU [7] and navigate to the My Classes box. Use the registration link and follow the three easy steps listed there. Registration is available 24 hours per day, excluding scheduled outages. You may also visit any registration location [4] to register in person. See detailed instructions [12] and check the academic calendar [13] for important drop/add/withdrawal deadlines.

How long does it take for my degree to post to my transcript?

The majority of degrees are posted within 10-14 days of the degree conferral date. If you need to request an official transcript with your degree posted, you have the option to "hold for degree" which will ensure your official transcript will not be issued until your degree is posted.

How long does it take for my transfer work to appear on my record?

Once the transcript is received, normal processing time is four to six weeks.

I have an immunization hold. What do I need to do?

All students born after January 1, 1957 are required to meet the MMR (Measles, Mumps, Rubella) immunization requirement before class registration. Students have two options for completing this requirement and both are

explained here [14]. The MMR vaccine is available for a fee at any of ASU's Health Services [15] locations. Read additional information [16] about MMR. Read additional information [17] about ASU's Immunization Policy FAQ's [18].

What if I have a delinquent account? Can I still obtain a transcript?

You may obtain an unofficial transcript only. All financial obligations must be cleared before an official transcript will be issued. For further assistance call 480-965-7276 during business hours. The Delinquent Accounts Office can be reached at 480-965-5220.

What is the procedure to change my name on my ASU transcript?

Currently enrolled, newly admitted/readmitted or former ASU students may submit a Student Change of Legal Name Form electronically through DocuSign, by mail, in person or by scanning and e-mailing. All requests require two different forms of documentation, one of which must be picture identification (state/government issued photo ID or ASU Sun Card) and one of the following: marriage license/certificate, adoption papers, court order, divorce decree, social security card or passport/permanent visa. The link to the DocuSign form and paper form can be found at /forms/name-change [19]. For further assistance email registrar@asu.edu [20] or call 480-965-7276.

Where is the schedule of classes available?

The schedule of classes [21] can be found online. A link is also available in the My Classes box in My ASU. [7]

Who can I contact if I'm having problems registering for a class?

Contact any registration site on any campus. View locations and hours. [22]

Why isn't my class showing up in Canvas?

Once registered for a course, it can take 24 hours for the course to appear. If the course still does not appear, contact the Help Desk at 480-965-6500. Be sure to verify you are registered for the course by checking your class schedule on My ASU. [7]

Will ASU hold my transcript and not send it out until my degree or a specific grade is posted?

On the Request for Official Transcript form or the online ordering system, you may request one of the following holds:

- Hold until degree is posted - Your transcript will not be sent until your degree is posted to your ASU transcript.
- Hold until grades are posted - Your transcript will not be sent until all grades for the term you specified on your order are posted to your ASU transcript.

Undergraduate policies and procedures

Admission

First-year students

We're here to help make each step toward becoming a Sun Devil a smooth experience. Follow the steps below to apply to become a first-year student at ASU.

Admission requirements

Course competency requirements

To be admitted to ASU, you need the following coursework:

- 4 years math
- 4 years English (non-ESL/ELL courses)
- 3 years lab sciences (1 year each from biology, chemistry, earth science, integrated sciences or physics)
- 2 years social sciences (including 1 year American history)
- 2 years same second language
- 1 year fine arts or 1 year career and technical education

Detailed course requirements [1]

Aptitude requirements

To be admitted to ASU, you will need one of the following:

- top 25% in high school graduating class
- 3.00 GPA in competency courses (4.00 = "A")
- ACT: 22 (24 nonresidents)
- SAT: 1120 (1180 nonresidents)

These are the general university admission requirements. Students who do not meet these aptitude requirements may be reviewed individually before a final admission decision is made. Some degree programs have higher aptitude requirements. To find the requirements for your specific program, please visit ASU's Degree Search. [2]

Applicants must successfully complete the ASU competency requirements. Admission may be granted with one deficiency in no more than two competency areas. Deficiencies cannot be in both math and laboratory science. Students must earn a minimum 2.00 in each subject area. Most competencies may also be met by test scores or college courses. See detailed competency requirements [1] for more information.

How to apply to ASU

Step 01: Complete an undergraduate admission application

Apply online with ASU's Application for Admission [3] or Common Application [4]. You need to submit only one application to be considered for admission to ASU.

To expedite the admission decision, self-report your high school grades in the application.

Choose to not self-report → quicker application process, but takes a little longer for an admission decision.

Choose to self-report → application takes longer to complete, but the admission decision comes much faster.

ASU does not have a preference for which application you use to apply, and we do not require an essay or personal statement for either of these options.

ASU's Application for Admission [3] Common Application [4]

Step 02: Submit the nonrefundable application fee

Arizona residents: \$50

Domestic nonresidents: \$80

ASU Online: \$70

International nonresidents: \$85

You can pay using a credit card (Visa or Mastercard) or eCheck at the time you submit your application or when you log in to My ASU [5]. Or you can mail a check or money order to Admission Services (payable to Arizona State University) at the address below.

Admission Services Applicant Processing
Arizona State University
PO Box 871004
Tempe, AZ 85287-1004

If you applied for admission through the Common Application, [4] pay the application fee through that application.

Fee waivers

There is no form, paper or code to submit for an application fee waiver. If your financial circumstances qualify you for an application fee waiver, you will answer a series of questions in the application that will automatically qualify you and post to your account.

Step 03: Transcripts

If you do not self-report your high school grades in the application, you must have your high school send an official copy of your transcripts [6] to ASU.

If you have earned college or university credit, request to have your official transcripts [6] sent to ASU from the issuing institution.

Step 04: ACT or SAT scores (optional)

ACT or SAT scores are not required for admission, but may be submitted for ASU course placement or as supplemental information. Have your scores sent to ASU from ACT [7] or College Board [8] when you register for the test. Learn more about sending your test scores to ASU in our FAQ section. [9]

Step 05: Check application status

Once you've completed all these steps, ASU will review your application. To see if you have any missing items and to review your admission status, sign in to My ASU using your ASURITE UserID, which is sent to you after you apply for admission.

Check application status [5]

Step 06: Fill out the FAFSA

The Free Application for Federal Student Aid [10] is used to award grants, loans, Federal Work-Study and certain scholarships. We encourage you to compare financial aid and college costs. ASU's Federal School Code is 001081.

Submit your completed FAFSA by ASU's March 1 priority filing date to be considered for the most need-based aid.

Important deadlines

To help you stay on track with the admission and financial aid processes, here are the important deadlines you need to know.

Admission applications for fall 2024

ASU is still accepting first-year student applications for fall 2024. Our admissions decisions are on a rolling basis. Don't wait, submit your application [6] today to ensure you meet other important enrollment dates.

As a reminder, students must be admitted to ASU prior to May 1 to be eligible for merit-based scholarships.

FAFSA priority date

The 2024–2025 Free Application for Federal Student Aid [10] is open. The most recent delay from the Department of Education does not impact your ability to fill out and submit the FAFSA now. We are encouraging all students to submit the FAFSA by the newly adjusted May 1 priority submission date.

Students admitted to California Center degree programs are now eligible for federal financial aid.

ASU's Federal School Code is 001081.

We understand that some students may face challenges in completing the FAFSA due to the immigration status of their parents.

If you have a Social Security number but your parent does not, please rest assured that you will not be penalized if this results in a delay of your FAFSA submission due to this known issue.

Enrollment deposit

We encourage students to submit their enrollment deposit to commit to ASU as soon as they feel ready.

ASU's enrollment deposit is due May 1, and as always, we continue to accept deposits after May 1.

We are extending our deposit refund request date from May 1 to May 31. This will enable students to proceed with their next steps without worrying about the deposit should they no longer want to attend due to their financial aid. Students must cancel their admission [11] before being approved for a refund.

Housing portal is open

All first-year students live on campus in a residential community based on their academic major. Once a student has submitted their enrollment deposit, all they need to do is log into ASU's housing portal [12] to select their housing and meal plan preferences. Students should note that it may take 24 to 48 hours for their enrollment deposit status to reflect in the housing portal.

New Student Orientation Experience

Once the enrollment deposit is made, students can take their next steps in registering for an Academic Orientation Session to enroll in fall classes. Students are encouraged to attend a March or April orientation session to have the most options in selecting their class schedule.

Through ASU's New Student Orientation Experience, accessed online at links.asu.edu/nsoe [13] or in My ASU, [5] you will prepare to take classes by completing essential next steps for enrollment.

There are three steps as part of the New Student Orientation Experience:

1. ASU Essentials (open now).
2. Academic Orientation Session (select your date now for a session in spring or summer).
3. ASU Ready (opens mid-summer).

Obama Scholars Program priority date

Obama Scholars Program

Students must complete two steps by the dates below to be considered and evaluated for the Obama Scholars Program. [14]

Jan. 15 application deadline — Students must submit their complete ASU admission application. A complete application includes the admission application and application fee.

May 1 FAFSA submission deadline — Students must have their FAFSA submitted by May 1 to be eligible for Obama Scholars review.

Arizona Promise Program priority date

Arizona Promise Program

To be considered for the Arizona Promise Program, [15] you must submit a completed application for admission, including application fee or waiver, official transcripts, and the FAFSA, by April 1, 2024. The sooner you complete all these items, the sooner you receive your notification.

National Scholars and College Board National Recognition Program Awardees

Arizona residents who've been designated as National Scholar or College Board National Recognition Program Awardees [16] must apply to ASU in order to be eligible for their scholarship.

Nation Merit Finalists must select ASU by May 1 to be awarded their scholarship.

New American University Scholarships

New American University Scholarships are awarded in late fall. Students are automatically considered for NAMU awards (there is no additional application). Submitting your test scores is encouraged. Students must be admitted to ASU prior to May 1 to be eligible for a NAMU award.

Students will be notified by letter and email if NAMU is awarded.

ASU Scholarship Portal

ASU's Scholarship Portal [17] is open. The Scholarship Portal stores responses to basic questions such as your name and birthday to make it easier for you to fill out multiple applications.

Many scholarships have early spring deadlines for the upcoming term, so search and apply early.

Barrett, The Honors College regular admission date

Barrett, The Honors College [18] is a selective honors experience for outstanding students that offers exclusive research, internship and study abroad opportunities. You must apply to Barrett through a separate application to be admitted.

Submit the Barrett application on or before the March 15 late consideration deadline and you will receive an admission decision on April 19.

Next Generation Service Corps

Students who join the Next Generation Service Corps [19] at ASU are committed to more than academic achievement and career preparation. This program builds a culture of service in future leaders who will go on to tackle some of the world's toughest challenges.

The next deadline is March 15.

Edson Entrepreneurship + Innovation Fellows

For students who are ready to think big and make their mark at ASU, look no further than our Edson E+I Fellowship [20]. Entrepreneurship and innovation are big parts of what ASU is all about. With this scholar program, you will have the opportunity to express your creativity and inner innovator.

The next deadline is April 15.

Tips for applying to college

Higher admission requirements

If your first-choice major has higher requirements, you will be instructed to select a second major without higher requirements.

Explore degrees [2]

Common Application

ASU accepts the Common Application [4] and our own online application [3] for incoming first-year students. Only one application will be accepted, with no preference between the ASU application and the Common Application. If two applications are submitted, one will be canceled in our system. Application fees are nonrefundable.

Self-report your grades

ASU accepts self-reported high school grades on the undergraduate admission application. Submission of an ACT or SAT score is highly recommended for merit-based scholarship consideration.

Individual review

ASU admission decisions begin the first week of September. Students who do not meet the admission standards will be evaluated through individual review and may experience a longer wait time for an admission decision.

Homeschool or online/virtual high school students

ASU welcomes applications from home-educated students and students who have attended an accredited online/virtual high school. You can easily fill out the application and then include additional information to accurately demonstrate your accomplishments.

How to apply if you completed a high school equivalency diploma

Students may also meet admission requirements by meeting one of the following:

GED*

Battery average score:

- 50 or above for tests taken between 1998 and 2001.
- 500 or above for tests taken between 2002 and 2013.
- 170 or above for tests taken after 2013.

HiSet*

Total score of 75.

TASC (Test Assessing Secondary Completion)*

- Minimum total score of 2700.
- Minimum score of 500 on each of the five content areas.
- Score of 2 or above on essay.

California High School Proficiency Examination

The California High School Proficiency Examination and other high school equivalency diplomas are recognized as high school diplomas, but do not satisfy course competency and aptitude requirements needed for admission. Students should submit their diploma to show completion of high school, but will also need to submit additional high school transcripts or SAT or ACT scores to satisfy course competency and aptitude requirements for admission.

Alternatively, enrollment and successful completion of 24 semester credits with a 2.75 minimum GPA through Earned Admission, [21] or completion of 24 or more college credits from a regionally accredited college or university with a minimum of 2.50 cumulative GPA on a 4.00 scale may be used to satisfy requirements for admission.

College Credit Pathway

Some states, including Arizona, offer a College Credit Pathway as an option for students to obtain a high school equivalency (HSE). If the HSE is obtained, ASU will accept that credential as completion of the high school graduation requirement but the student may still need additional high school coursework and/or SAT/ACT scores to meet course competency requirements and high school aptitude if the student does not have 24 transferable credits taken post high school.

**Some higher requirement programs may require ACT/SAT scores or additional coursework in order to satisfy aptitude and/or course competency requirements.*

Get a jump-start on your college experience

Now is the perfect time to imagine what your future will look like, and ASU is here to help you get there. See how you can start earning scholarship money, find the perfect degree program and campus, and more — all while you're in high school.

Start now [23]

Frequently asked questions about applying to college

When should I apply to college as a first-year student?

The ASU application opens on or around July 1 each year. You are encouraged to apply to ASU as early as possible. Nov. 1 is ASU's priority admission date, and Jan. 15 is ASU's regular admission date. The earlier you apply, the earlier you'll receive an admission decision and the more likely you'll be to secure the most financial aid possible.

Is it OK to submit applications to several different universities?

Yes, you should apply to all the universities you are interested in possibly attending. Just be aware that universities charge application fees, which can add up. Many universities are part of the Common Application, [24] including ASU, which can save you time by using the information you enter once for several applications.

Other than the admission application, what information will I need to provide to complete the application process?

In addition to the application, you will need to submit the nonrefundable application fee, as well as self-report your high school grades or have your high school transcripts sent to ASU. ACT or SAT scores are not required for admission, but may be submitted for ASU course placement or as supplemental information.

How to meet ASU course competency requirements

Competency requirements may be met with high school work, college work or test scores. These requirements must be met regardless of your major or the number of transferable hours you have earned. Students must earn a minimum 2.00 GPA in each competency area.

Admission may be granted with one deficiency in no more than two competency areas. Deficiencies in both math and laboratory science are not acceptable.

For exceptions to the competency requirements, see below. [1]

English competency requirement

Meet one of the following:

- Four years of high school English (composition- or literature-based).
- Minimum test score of 21 on ACT English, or 580 on SAT evidence-based reading and writing.
- One transferable 3-credit college English composition course.

English composition placement

All new students will be placed in First-Year Composition ENG 101. Students whose native language is not English will be enrolled in ENG 107. Enrollment in ENG 105, Advanced First Year composition, is based on placement test scores. [2]

If you have college-level transfer credit or test credit equivalent to ASU's first year composition course(s), that credit will be considered in placement. You can search ASU's equivalency database for transfer credit at tcg.asu.edu [3]. If applicable, be sure to include any of the above when you register for the Academic Orientation Session.

Mathematics competency requirement

Meet one of the following:

- Four years of high school courses: one year each of algebra I, geometry, algebra II and an advanced math class for which algebra II is a prerequisite.
- Minimum test score of 24 on ACT math, or 580 on SAT math.
- One transferable 3-credit college math course for which at least intermediate algebra is a prerequisite.

Laboratory science competency requirement

You may meet one of the following or any combination of the three as long as you have three different laboratory-based sciences.

- Three years of different high school laboratory sciences.
Lab sciences should be an entire year in length. Please select three from the following list: biology, chemistry, earth science or physics. A laboratory-based integrated science course may be allowed to substitute for one of the three lab sciences. Additionally, an advanced placement course, a higher level international baccalaureate course, or other honors course taken in the last two years of high school in the same subject as a previous course can still satisfy one lab science requirement.
- Minimum test scores in three standardized tests from three different subject matters.
The following tests may be taken: SAT II subject test score in chemistry-600, biology-590, physics-620 or ACT test score in science-20.
- Three transferable 4-credit college laboratory science courses from the following: biology, chemistry, earth science or physics.
An integrated laboratory science or advanced level laboratory-based science may be substituted for one of these laboratory subjects.

Laboratory Science Courses (for online high schools only)

ASU requires students to complete three different lab sciences. In order to determine if your lab sciences meet our lab science requirement, we may need additional information from you. If we require additional information once your admission application reaches our evaluation team, you will see a Priority Task displayed on My ASU called **Course Description**.

You can provide the additional information required through one of the following:

- Have your high school submit your lab sciences to the courseapproval.asu.edu [4] website for ASU to review if it is not already listed on the website.
- Submit a course description form for each lab science taken in an accredited online high school environment if not already approved for your entire high school to ASU's homeschool representative.

Second language competency requirement

Meet one of the following:

- Two years of the same high school second language.
- Attainment of minimum score on a national standardized second language test or placement into a third semester college second language class based on university placement exam results.
- Two transferable 3- or 4-credit, college-level courses in the same second language.

Social science competency requirement

Meet one of the following options from Section A and one from Section B:

Section A

- One year of high school American history.
- Minimum SAT II subject test score of 560 on American history/social studies.
- One transferable 3-credit college American history course.

Section B

- One year of high school social science (e.g., European history, world history, economics, sociology, geography, government, psychology or anthropology).
- Minimum SAT II subject test score of 580 on world history.
- One transferable 3-credit college social science course.

Fine arts or career and technical education competency requirement

Meet one of the following:

- One year (or a combination of two semesters) of high school fine arts or career and technical education.
- One transferable 3-credit college fine arts course.

Exceptions

You do not need to meet competency requirements if one of the following statements is true:

- You have completed an associate or higher-level degree from a regionally accredited postsecondary institution with a minimum 2.00 GPA ("A" = 4.00) if you are an Arizona resident, or you have a minimum 2.50 GPA ("A" = 4.00) if you are a nonresident.
- You have completed the Arizona General Education Curriculum (AGEC) with a minimum 2.00 GPA ("A" = 4.00) if you are an Arizona resident or a 2.50 GPA ("A" = 4.00) if you are a nonresident.

Admitted first-year student next steps

Welcome, new student

You're now on your way to becoming part of the most innovative and forward-thinking university in the nation.

They say the longest journey begins with a single step. Well, enrolling at ASU isn't really a "long journey," but it does begin with one step, followed by a few more. Start taking your steps and check them off as you complete them so you can get closer to becoming a Sun Devil.

Important deadlines

To help you stay on track with the fall 2024 admission and financial aid processes, check out our important deadlines page.

[View deadlines \[1\]](#)

Need help?

We're here for you.

ASU admission team members can answer your questions and guide you through each step of your enrollment process between now and the time you get started. Connect and get to know your admission representative.

[Schedule an appointment \[2\]](#)

First-year student next steps

Activate your ASURITE User ID

Your ASURITE User ID grants you access to My ASU and university services. You'll find reminders for things like submitting your final transcripts, sending in your test scores and submitting your immunization forms.

When you activate your ASURITE User ID, you will select to have your ASU email forwarded to a personal account. It's important to check your email often for time-sensitive notifications and next steps for enrollment. You'll have access to your official ASU email when classes begin. You can check which email your ASU email is forwarding to by looking in the profile tab in My ASU.

[Activate ASURITE \[3\]](#)

If you need help logging in, you can have your activation code for My ASU sent to you by visiting admission.asu.edu/resendcode [3] or by contacting your admission team member. [2]

[My ASU tutorial \[4\]](#)

Give your parents access to your records and account

Through My ASU Parent Guest Access, you can share your academic records with your parent or guardian, and even better, give them access to pay your tuition and bills. Go to My ASU, [5] select the Profile tab at the top and find "Add a Guest" under My ASU Guest Access Permissions.

Pay your enrollment deposit

Beginning Oct. 1, you can confirm your place in the incoming fall 2024 class by submitting your deposit. Then make sure to check My ASU [5] often for any Priority Tasks you need to complete to enroll for fall 2024.

[Confirm your spot \[6\]](#)

Submit your FAFSA and apply for scholarships

The FAFSA is officially open for the 2024–2025 academic year. The new FAFSA is a simplified and streamlined experience years in the making. Submit your completed FAFSA by ASU's March 1 priority filing date to be considered for the most need-based aid. ASU's Federal School Code is 001081.

[Submit FAFSA \[7\]](#)

[Watch tutorial \[8\]](#)

Interested in learning more about completing your FAFSA? Attend one of our live-hosted virtual programs focused on everything you need to know to submit and complete the FAFSA.

Search and apply for departmental and private scholarships through ASU's Scholarship Portal. The general scholarship application, which is used for many ASU scholarships, will open Nov. 1.

[Scholarship Portal \[9\]](#)

Interested in learning more about paying for college? Register for one of our live-hosted virtual events [10] about this topic.

Submit your measles, mumps and rubella immunization record

All students born after Jan. 1, 1957, are required to meet the following MMR immunization requirement [11] before classes begin:

Option 1: Provide proof of two MMR (Measles, Mumps and Rubella) vaccinations. The first MMR must be given on or after your first birthday; The second MMR must be four weeks from the first, or later.

Option 2: Provide a copy of a Measles IgG or MMR IgG lab test showing positive immunity.

Upload required documentation in My Health Portal. [12]

Questions?

- Read additional information [13] about MMR.
- Read additional information [14] about ASU's immunization policy.

Submit MMR [12]

ASU's New Student Orientation Experience

Through ASU's New Student Experience, accessed online in My ASU, you will prepare to take classes in the fall by completing essential next steps for enrollment. There are three steps — view details here [15] and check My ASU for updates. As part of the New Student Orientation Experience, you'll meet with your academic college and finalize your class schedule. All students must complete the New Student Orientation Experience in order to enroll in classes.

New Student Orientation Experience [15]

Confirm your housing and dining

ASU first-year students live in the residential college of their academic major. Barrett, The Honors College students live in the Barrett residential community for their first two years. The priority deadline to apply for housing is May 15. Students who do not meet the deadline will need to seek alternative housing arrangements for the 2024-2025 academic year. Once you've paid your enrollment deposit, you can select your housing and dining preferences.

Please note that it may take one to two business days for your enrollment deposit status to be reflected in the housing portal.

Learn more [16]

Prepare to take your next steps to become a Sun Devil

Check My ASU to stay on top of things like the New Student Orientation Experience module, where you will become prepared to attend classes in the fall by completing essential next steps for enrollment — including academic advising and finalizing your class schedule.

First-year student FAQs

What does it mean to self-report my courses on the admission application?

During the application process, you will be asked to enter all your courses and grades for school years 9 to 11 as they appear on your official high school transcript. You will also be asked to enter your in-progress courses for year 12.

How do I enter my courses and grades into the admission application?

To accurately enter all information, you must have your high school transcript when filling out the Required High School Courses section in My Grades. All semester, trimester or quarter grades must be listed in the Required High School Courses section.

The information entered in the Required High School Courses section must match your official transcript if you have been admitted and intend to enroll. Any inaccurate information can result in your admission being revoked.

Am I able to include college courses or dual credit courses I have taken while in high school on my admission application?

Yes, the application gives you the option to self-report any college courses or dual credit courses you have taken before enrolling at ASU.

What should I do if my high school lists my grades numerically?

If your transcript includes a numerical grading scale, click on 100 point based in the Grading System section of your application and then you will select the number range for your grades in the Grades section.

When do I submit my final transcripts for admission to ASU?

If you have been admitted and intend to enroll at ASU, you will need to have your official high school transcripts sent directly to ASU once you graduate. Do not send any official transcripts during the application process or before you graduate.

Admission for homeschool students

Homeschool students at ASU

Arizona State University welcomes homeschool students and recognizes the unique academic experiences these students contribute to our rich, scholarly environment. We have a growing community of home-educated students who thrive at ASU.

We understand that your academic background differs from students who attended traditional public, private or charter schools. As a homeschool student, you can fill out the ASU application for admission and then include additional information to accurately demonstrate your accomplishments.

Admission requirements

As a homeschool student, you must meet the general requirements for ASU admission, and include specific documentation [1] with your application to confirm your completion of the requirements.

First-year student requirements [2] Transfer student requirements [3]

Steps to apply to ASU as a homeschool student

Step 01: Complete an undergraduate admission application

Apply online with ASU's Application for Admission [4] or the Common Application [5]. You need to submit only one application to be considered for admission to ASU.

To expedite the admission decision, self-report your high school grades [6] in the application.

ASU does not have a preference for which application you use to apply, but submit only one. Additionally, ASU does not require an essay or personal statement to accompany either application.

ASU's Application for Admission [4] Common Application [5]

Step 02: Submit the nonrefundable application fee

Arizona residents: \$50
Domestic nonresidents: \$70
International nonresidents: \$85

You can pay the application fee using a credit card (Visa or Mastercard) or eCheck at the time you submit your application or when you log in to My ASU [7]. Or you can mail a check or money order to Admission Services (payable to Arizona State University) at the address below.

Admission Services Applicant Processing
Arizona State University
PO Box 871004
Tempe AZ 85287-1004

If you applied for admission through the Common Application [5], pay the application fee through that application.

There is no form, paper or code to submit for an application fee waiver. If your financial circumstances qualify you for an application fee waiver, you will be asked to answer a series of questions in the application that will automatically determine if you qualify and post to your account if you do.

Step 03: Transcripts

If you do not self-report your high school grades in the application, you must have your high school send an official copy of your transcripts [8] to ASU.

If you have earned college or university credit, request to have your official transcripts [9] sent to ASU from the issuing institution.

Step 04: Laboratory Science Courses: (For online high schools ONLY)

ASU requires students to complete 3 different lab sciences. In order to determine if your lab sciences meet our lab science requirement, we may need additional information from you. If we require additional information once your admission application reaches our evaluation team, you will see a Priority Task displayed on My ASU titled "Course Description." You can provide the additional information required through one of the following:

1. You can have your high school submit your lab sciences to the courseapproval.asu.edu [9] website for ASU to review if it is not already listed on the website.
2. You can submit a course description form [10] for each lab science taken in an accredited online high school environment if not already approved for your entire high school to ASU's homeschool representative. [11]
3. You can choose to be evaluated without some or all of your lab science requirements met. Note, if you choose this option, you may not be admissible to the university.

Step 05: Send ACT or SAT scores (not required)

ACT or SAT scores are not required for admission, but may be submitted for ASU course placement and to meet aptitude requirements if you have less than a 3.00 GPA in your competency courses. To find the requirements for your specific program, please visit ASU's Degree Search [12]. Have your scores sent to ASU from ACT [13] or College Board [14] when you register for the test. Learn more about sending your test scores to ASU in our FAQ section. [15]

Step 06: Check application status

Once you've completed all these steps, ASU will review your application. To see if you have any missing items and to review your admission status, log in to My ASU [7] using your ASURITE User ID, which is sent to you after you apply for admission.

Step 07: Fill out the FAFSA

The Free Application for Federal Student Aid is used to award grants, loans, Federal Work-Study and certain scholarships. We encourage you to compare financial aid and college costs [15]. You can file the FAFSA [16] now. ASU's Federal School Code is 001081.

Step 08: Submit a secondary school education affidavit or high school transcript (if applicable)

Homeschool applicants may self-report their grades or send a homeschool transcript. A homeschool transcript is a list of courses you have taken and the credit and grade associated with each course. The transcript must include a signature from a parent or guardian who oversaw the education.

If you have completed courses through a traditional high school, you may self-report your grades or have your high school send an official copy of your transcripts [8] to ASU.

If you have coursework from both a traditional high school and from homeschool transcript (see above for requirements), please self-report grades for both or have a transcript sent to ASU.

If you have earned college or university credit, request to have your official transcripts [8] sent directly to ASU from the issuing institution.

Should a home school transcript not be available to submit and you only need proof of your high school graduation, you may complete the Affidavit of Completion of Secondary School Education [17] form in substitution of a home school transcript. The affidavit must be completed by a parent or guardian who oversaw the education.

Admission to Barrett, The Honors College

Homeschool students who want to be considered for admission to Barrett, The Honors College [18] are encouraged to submit a separate application — an early application is strongly suggested. Please contact the Barrett admission staff [19] for help with any questions about the college and application process.

Scholarship opportunities

Homeschool students will be considered for ASU scholarships upon admission. Explore scholarships and additional types of financial aid. [20]

Frequently asked questions about homeschool student admission at ASU

Can I be admitted to ASU as a homeschool student?

Yes, ASU welcomes and values all our homeschool students and the special academic experiences they bring to the university. Homeschool students submit the same ASU admission application as students who went to public or private school.

Are homeschool student admission requirements the same as high school student admission requirements?

Yes, like public and private high school students, homeschool students must meet and demonstrate completion of ASU's general requirements for university admission. [2]

Can homeschool students apply for financial aid?

Yes, homeschool students are eligible to apply for and receive financial aid. You should submit the Free Application for Federal Student Aid [21] to see how much federal aid you may be eligible to receive. By submitting ACT or SAT scores, ASU will automatically consider you upon admission for a merit scholarship.

Homeschool transcript/affidavit of completion of secondary school education

For homeschool students only.

Homeschool applicants can submit their homeschool transcript with a signature from a parent/guardian to meet their proof of high school graduation. Should a homeschool transcript not be available, an Affidavit of Completion of Secondary School Education [1] can be completed in lieu of the homeschool transcript but note this affidavit will only meet the proof of high school graduation requirement. The affidavit must be completed/signed by the parent or guardian who oversaw the education.

Homeschool students without a high school transcript who need the high school transcript to meet the first year student requirement [2] may complete one of the following high school equivalency exams with scores mentioned below to fulfill their first year student requirement.

*GED battery average score of

- 50 or above for tests taken between 1998-2001
- 500 or above for tests taken between 2002-2013
- 170 or above for tests taken after 2013

*HiSet total score of 75

*TASC (Test Assessing Secondary Completion):

- Minimum total score of 2700
- Minimum score of 500 on each of the five content areas
- Score 2 or above on essay

Laboratory science for online high schools or non standard homeschool laboratory science courses

For homeschool and online students only.

ASU requires students to complete three different lab sciences. In order to determine if your lab sciences meet our lab science requirement, we may need additional information from you. If we require additional information once your admission application reaches our evaluation team, you will see a Priority Task displayed on your MyASU page titled "Course Description." You can provide the additional information required through one of the following:

1. You can have your high school submit your lab sciences to the courseapproval.asu.edu [3] website for ASU to review if it is not already listed on the website.
2. You can submit a course description form [4] for each lab science taken in an accredited online high school environment if not already approved for your entire high school to ASU's homeschool representative. [4]
3. You can choose to be evaluated without some or all of your lab science requirements met. Note, if you choose this option, you may not be admissible to the university.

Affidavit of Completion of Secondary School Education [1]

Evaluation of Laboratory Science Courses [5]

Transfer student admission

Transfer and second bachelor's student admission requirements

A transfer applicant is a student who has attended one or more colleges or universities and has completed 12 or more transferable semester credits post-high school. Students with fewer than 12 transferable credits are considered incoming first-year students.

Competency requirement

You must have completed one of the following:

- Graduated from high school.
- Earned a GED.

Aptitude requirement

You must meet one of the following:

- Transfer students with 12–23 transferable credits must also have a minimum 2.50 cumulative transfer GPA and meet first-year student admission requirements. [1]
- Transfer students with 24 or more transferable credits must have a minimum 2.50 cumulative transfer GPA.
- Transfer students who have earned an associate degree or higher from a regionally accredited higher education institution must have a minimum 2.00 cumulative GPA (for Arizona residents) or 2.50 cumulative GPA (for nonresidents).

Download this infographic to help guide you through the transfer requirements.

Download [2]

Some degree programs have higher admission requirements. To find the requirements for your specific program, please visit ASU's Degree Search.

"A" = 4.00; ASU accepts college-level courses in which you have earned a "C-" or better.

How to complete the undergraduate application as a transfer student

In the transfer admission video series below, learn how to apply to Arizona State University using the undergraduate admission application. An ASU admission counselor guides you through each section of the application, answering frequently asked questions along the way.

Your info

Apply to ASU step 1: Your info [3] on Youtube.

The first step in completing the ASU undergraduate application is the My Information section. We walk you through each of these fields and address questions you might have about this section of the application.

Academic history

Apply to ASU step 2: Academic history [4] on Youtube.

The second section of the application focuses on your prior academic history, including high school and any colleges or universities you previously attended. Watch as we guide you through these scenarios and explain how to fill out each part based on your situation.

Grades

Apply to ASU step 3: Grades [5] on Youtube.

All students have the option to self-report high school grades in the My Grades section of the application, though self-reporting is not required. In this video, we walk you through this process and explain what courses you should include, how to add these courses to your application and more.

Residency

Apply to ASU step 4: Residency [6] on Youtube.

The information you share in the residency portion of the undergraduate application helps the admission office determine if you are an in-state, out-of-state or international student. In this video, we cover these terms in detail and explain how to accurately fill out this part of your application.

Choose a major

Apply to ASU step 5: Choose a degree [7] on Youtube.

One of the final sections of the undergraduate application is the Choose Major section. If you're unsure about what major is best for you, we offer resources that might help you decide. Of course, you can always change your major later.

Submit

Apply to ASU step 6: Submit [8] on Youtube.

Now all that's left is to review your application, submit it and pay the application fee. In this video, we review how to pay the application fee and what the next steps are now that you've submitted your application to ASU.

The ASU transfer student admission process

Follow these steps to apply to Arizona State University as a transfer student.

Step 01: Complete the undergraduate application for admission

Apply online with ASU's Application for Admission [9] or the Common Application [10]. ASU accepts only one application. We have no preference between the ASU application or the Common Application. If two applications are submitted, one will be canceled in our system. Application fees are nonrefundable.

ASU's Application for Admission [9] Common Application [10]

Step 02: Activate My ASU and your ASURITE UserID

You will receive your ASURITE UserID and activation code via email within one to three business days of submitting your application. If you have previously applied to ASU, your ASURITE UserID will remain the same. You'll use your ASURITE UserID to log in to My ASU.

Step 03: Submit the nonrefundable transfer application fee

Arizona residents: \$50
Domestic nonresidents: \$80
ASU Online: \$70
International nonresidents: \$85

You can pay for the ASU application fee using a credit card (Visa or MasterCard) or eCheck at the time you submit your transfer application or when you log in to My ASU [11]. Or you can mail a check or money order to Admission Services (payable to Arizona State University) at the address below.

Admission Services Applicant Processing
Arizona State University
PO Box 871004
Tempe, AZ 85287-1004

If you applied for admission through the Common Application [9], pay the application fee through that application.

Step 04: Request to have your official transcripts sent to ASU College or university transcripts

ASU requires official transcripts from all previous institutions attended in order to process your application. Please contact the registrar's office at your college or university and request your official transcripts be sent directly to Admission Services. Official transcripts delivered by hand will be accepted only if they are sealed in the original envelope provided by the community college or university and bear the university seal and the signature of the registrar of the issuing institution.

If your college or university uses Parchment, eSCRIP or National Clearinghouse to send electronic transcripts, please request that your institution sends us your official transcripts by choosing Arizona State University on the request form.

Upon graduation or completion of your final semester at your current school, request a final transcript be sent directly to ASU Admission Services [12] to determine final admission status. Receipt of your final transcript impacts financial aid disbursement and your eligibility to register for classes. (Note: ASU does not accept faxed college transcripts.)

Find out more about transferring credits to ASU. [13]

High school transcripts

If you haven't completed an associate degree or higher from a regionally accredited university or college you must submit one of the following:

- Official high school transcript with a graduation date
- Official GED/HiSet transcripts
- Affidavit of Completion of Secondary School Education

ASU accepts hand-delivered official high school transcripts in sealed envelopes from applicants. (ASU does not accept faxed high school transcripts.)

NOTE: Transfer applicants with 24 or more transferable semester credit hours from a regionally accredited college or university, including previously completed ASU credits, and who will be 22 or older by the start of the requested semester of admission, will not be required to submit a high school transcript for admission. Once all prior college or university transcripts and outstanding admission items are received and verified, the high school transcript requirement will be waived. Transfer applicants are required to have graduated from an approved high school (or equivalent) prior to the semester of requested admission at ASU, and to include this information on the application for admission.

Test scores

If applicable, have your ACT or SAT scores sent directly to ASU. If you have taken AP, IB or CLEP exams, request your scores be sent directly to ASU.

Have your test scores (e.g., ACT, SAT, TOEFL) and official high school or college transcripts sent from the issuing institution to the address below.

Admission Services Applicant Processing
Arizona State University
PO Box 871004
Tempe, AZ 85287-1004

Second bachelor's degree students

Students seeking a second baccalaureate degree must meet admission criteria for that degree. High school transcripts are not required unless you have selected a higher requirement degree program that requires it. If admitted, a minimum of 30 credit hours in resident credit courses at ASU must be successfully completed to earn the second baccalaureate degree and all degree and university requirements of the second degree must be met. After admission, your academic advisor in your college will help you determine if there are enough courses to meet this criteria for your chosen program. For more information on additional degrees please visit https://catalog.asu.edu/ug_grad_req. [14]

Are you an international transfer student? See international transfer student information. [15]

Schedule a transfer appointment

Make a half-hour appointment with an ASU transfer specialist or college representative to learn more about studying at ASU and get all your questions answered.

Schedule an appointment [16]

Important transfer deadlines

Fall 2024:*

Dec. 2023

2024-2025 FAFSA opens

Feb. 1, 2024

Priority admission deadline

Late Feb. 2024

Class registration begins

May 1, 2024

FAFSA priority filling date

June 1, 2024

Enrollment deposit deadline

Aug. 22, 2024

Classes begin

Spring 2025:

Oct. 1, 2024

FAFSA priority filling date

Oct. 1, 2024

Priority admission deadline

Late Oct. 2024

Class registration begins

Dec. 1, 2024

Enrollment deposit deadline

Dec. 2024

Submit your final transcripts

Jan. 13, 2025

Classes begin

*Students must submit their FAFSA and application materials by May 1 to be considered for ASU merit- and need-based awards. Late applicants will be considered for university admission, but ASU undergraduate degree programs with higher transfer admission standards will give priority consideration to applications submitted by Feb. 1. You can find other important dates on ASU's academic calendar. [17]

Frequently asked questions about transferring to ASU

What are ASU transfer requirements?

To apply to ASU as a transfer student, you must have earned either a high school diploma or a GED. Additionally, you must have transferable college credits or an associate degree and meet GPA requirements.

When should I apply to ASU? What are the application deadlines?

ASU uses a rolling admission process that allows for a flexible time frame. ASU typically recommends that students start their steps to apply at least one semester prior to their starting term at ASU. It may take approximately two to six weeks to receive an admission decision once all requested materials are received. Although there are no "hard" deadlines to apply to ASU, there are a few priority dates to keep in mind if you'd like to maximize your opportunities for financial aid. You can review these dates, as well as admission requirements and steps to apply, at admission.asu.edu/transfer/apply. [18]

How do I apply for transfer admission to ASU?

If you meet university admission requirements, you can apply for transfer admission by completing the undergraduate student application [9], paying the application fee, and having your official transcripts and test scores sent to ASU.

Transfer student FAQ

How do I know if I'm considered a transfer student?

At ASU, a transfer student is anyone applying for admission who has attended another college or university and has completed 12 or more transferable credits post-high school, at the time of application. If you are completing college courses while in high school you are considered a first-year student and not a transfer student.

Do I have to take the ACT or SAT to transfer to ASU?

It depends on your particular situation. If you transfer fewer than 24 transferable credits, you must also meet freshman admission requirements, which may require ACT or SAT scores. Also, some majors, such as business, require a particular ACT or SAT score for admission into the program. Take a peek at the ASU undergraduate Degree Search [1] for admission information specific to your major.

Who can I speak with about my transfer to ASU?

ASU's expert transfer specialists are available to answer your questions and help with your transfer to ASU. Find your transfer specialist. [2]

Do I need to send my high school transcripts to apply for admission?

Transfer applicants with 24 or more transferable semester credit hours from a regionally accredited college or university, and who will be 22 or older by the start of the requested semester of admission, will not be required to submit a high school transcript for admission. Once all prior college or university transcripts and outstanding admission items are received and verified, the high school transcript requirement will be waived. Transfer applicants are required to have graduated from an approved high school (or equivalent) prior to the semester of requested admission at ASU, and to include this information on the application for admission.

Do I have to send all my college transcripts as part of my admission application?

Yes, for ASU to determine whether you meet admission requirements, we must evaluate your entire academic history, including coursework completed at each college or university attended, regardless of academic performance. College transcripts should be sent directly from your college to:

ASU Admission Services
P.O. Box 871004
Tempe, AZ 85287-1004

I attended ASU previously. Am I a transfer student or a readmission student? Do I need to reapply?

If you have previously attended ASU as a degree-seeking student, you will be considered a readmission student. Please see readmission information. [3]

I applied to ASU and was admitted, but did not attend. Do I need to reapply?

Yes, you need to reapply. Be sure to sign in to My ASU [4] to see if any additional items are needed to complete your file.

Do I have to have an associate degree to transfer to ASU?

No, you can transfer to ASU at any time as long as you meet the transfer admission requirements. However, ASU recommends attaining your associate degree before transferring.

As a transfer student, how do I know how many credits can be applied toward my major?

Once you are admitted, you'll work with your academic advisor and review your DARS (Degree Audit Report System) to see which credits apply to your major.

What prerequisites do I need to complete before I can transfer to ASU?

There are no prerequisites required to be admitted to ASU, unless you have fewer than 24 transferable credits. Students with fewer than 24 transferable credits are required to meet freshman admission requirements [5], including aptitude and competency requirements.

Can I live on campus as a transfer student?

Yes, ASU has housing devoted specifically to upper-division students and strongly encourages all students to live on campus during their first year at ASU. For more information, please refer to University Housing. [6]

There are also a variety of off-campus housing options in close proximity to ASU's campuses. For more information on off-campus housing, check out Off-Campus Housing. [7]

If I'm attending a California community college, is the IGETC/CSU GE required to transfer to ASU?

The IGETC/CSU GE is not a requirement for admission to ASU but is highly recommended. Completing either of the GE patterns and getting certified by your community college will satisfy the General Studies requirements at ASU.

What does it mean to get IGETC/CSU GE certified?

Getting certified means you have completed all General Education requirements at your California community college. If you have confirmed with your community college counselor that you are eligible for the certification, ASU will require that you submit the official certification along with your official transcripts to Admission Services.

Currently, I don't meet the Western Undergraduate Exchange admission requirements. Should I wait to apply?

No. Even though you may not currently qualify for WUE, we will always reevaluate your admission to the program if you currently have courses in progress and submit your final transcripts.

I live in California but would like to meet with an ASU representative in person to discuss the transfer process. Is this possible?

ASU representatives will be attending college transfer fairs and hosting various visits at community colleges throughout California. Find your transfer specialist [8] to ask about upcoming opportunities near you.

How do my credits transfer to ASU?

ASU awards transfer credit for college-level coursework as long as it was completed at a regionally accredited institution, you earned a grade of "C" or higher, and ASU offers an equivalent course. To see how your credits transfer to ASU, use the online Transfer Guide [9]. Click on Course Search to get started. Read more about how your credits transfer to ASU [10], and if you have additional questions, contact your transfer representative [8].

When should I apply to ASU? What are the application deadlines?

ASU uses a rolling admission process that allows for a flexible time frame. ASU typically recommends that students start their steps to apply at least one semester prior to their starting term at ASU. It may take approximately two to six weeks to receive an admission decision once all requested materials are received. Although there are no "hard" deadlines to apply to ASU, there are a few priority dates to keep in mind if you'd like to maximize your opportunities for financial aid. You can review these dates, as well as admission requirements and steps to apply, at admission.asu.edu/transfer/apply [11].

How are pass/fail courses being accepted?

If the transcript key or the institution provides information that indicates a Pass grade is comparable to a C- or higher, the course will be counted as transferable but will not be calculated in the student's transfer GPA for admission. A Fail grade will be counted as an "F" and calculated in the student's GPA accordingly.

Will a pass/fail grade affect my transfer GPA to determine if I meet admission criteria?

Pass grades are not counted in the GPA, but may be transferable to ASU if the institution or transcript indicates the "P" grade is comparable to a C- or better. Fail grades are calculated as an "F" and will impact your GPA.

If I receive a pass/fail grade for a course, does it transfer to ASU?

If the transcript key indicates a Pass grade is comparable to a C- or higher, the course will be counted as transferable but will not be calculated in your GPA. A Fail grade will be counted as an "F" and calculated in your GPA.

If I receive a pass/fail grade, does it count toward my degree completion?

If the institution or transcript indicates the "P" grade is comparable to a C- or better and the course is on your degree map, it will count toward degree completion.

Can I be admitted to ASU with a pass/fail course on my transcripts?

The admission criteria remains the same. We will look at all submitted information to determine admissibility to ASU.

Can I be admitted into programs with higher admission requirements if I opt to receive a pass/fail grade for my courses?

GPA and test scores will still be used to determine admissibility. Pass grades are not calculated into your GPA for admission purposes, but may still be transferable. Opting for a Pass grade rather than a letter grade could impact your admissibility if you need to bring up your transfer GPA to meet the criteria for a program with higher requirements. If you have the option of being issued a Pass grade or a letter grade, opt for the letter grade.

Will ASU accept my AGEC completion with pass/fail grades on coursework?

Yes.

Will my associate degree transfer to ASU if I have coursework with a pass/fail grade?

Yes. Any coursework with a Pass grade that the institution indicates is comparable to C- or better is transferable.

Will pass/fail grades affect financial aid or scholarships that I receive from ASU?

No, maintaining eligibility for ASU financial aid or scholarships is based on your ASU GPA.

How does my coursework with grades transfer to ASU?

Refer to admission.asu.edu/transfer/transferring-credits [10] for information on how credits transfer to ASU.

How does academic renewal play into the evaluation process? For example, if a community college agrees to grant academic renewal to a particular grade and exclude it from their GPA calculation, would that also exclude the grade from ASU's GPA calculation?

If a grade was earned, ASU will calculate it into the transfer GPA for admission. Academic renewal at a prior institution does not carry over to ASU.

Transfer to ASU from a college or university

How does MyPath2ASU® work?

MyPath2ASU® is ASU's transfer admission guarantee. We are dedicated to providing exceptional transfer resources and robust academic pathways to our students. MyPath2ASU® ensures that the courses you complete at your transfer institution align with ASU's requirements. Our transfer planning tool identifies the courses that directly apply to your ASU major, saving you time and money by ensuring a smooth credit transfer process.

Get started with MyPath2ASU® [1]

Nicolette's Transfer from Phoenix College to ASU made easy with MyPath2ASU program [3] from ASU Academic Alliances [4] on Vimeo. [5]

The MyPath2ASU® transfer process

Create MyPath2ASU® [2]

- Pick your ASU major.
- Sign up for MyPath2ASU®.
- Track progress towards transfer.

Complete your MyPath

- Apply [6] to transfer to ASU.
- Become a Sun Devil.

Finish your ASU degree

- You're one step closer to achieving your academic goals.

The benefits of transferring with MyPath2ASU®

Guaranteed general admission

Earn guaranteed general admission to ASU and to your MyPath2ASU® major of choice if all requirements are satisfied. (Some majors have additional or higher admission requirements.)

Self service transfer tools

Fully connect your academic progress to ASU by gaining direct access to self service transfer tools that provide information about course applicability and degree progress tracking.

Save

Save time and money by planning your path to degree completion.

Connect

Connect with transfer student ambassadors and ASU transfer coordinators, access pre-enrollment services, and receive invitations to special ASU events.

Customized pathways

Select classes through customized course-by-course pathways to minimize loss of credit.

Personalized communication

Prepare academically with personalized communication for your major of choice.

Learn more by attending an ASU virtual event

Fun Friday MyPath2ASU® Transfer Session

ASU's Transfer Student Ambassadors, current ASU students who transferred from community colleges to ASU, will share their transfer experiences and provide tips for a successful transfer. They will also demonstrate the steps to sign up for MyPath2ASU®, ASU's transfer pathway program, and explain the benefits of being on a pathway.

[Sign up \[7\]](#)

Virtual visit options

Explore the many live-hosted sessions [8] with ASU enrollment and academic team members and current students who can answer your questions. Navigate the MyPath2ASU® transfer experience and learn more about ASU's admission and enrollment processes.

[Sign Up \[9\]](#)

Your next steps to applying to ASU

As you're completing your community college coursework, if you have questions about the admission process, requirements or transcripts, contact your transfer coordinator and they will be happy to help.

Or if you're ready to apply to ASU, you can begin your application for admission up to a year before you are ready to transfer.

Admission requirements

General university admission is guaranteed upon successful completion of the following conditions: 1) Completion of an associate degree from a regionally accredited higher education institution with a minimum 2.00 cumulative GPA (Arizona residents) or 2.50 cumulative GPA (nonresidents) or 2) completion of 24 or more transferable semester credits post-high school with a minimum cumulative transfer GPA of 2.50 (4.00="A") and verification of high school graduation or the equivalent. NOTE: Some ASU colleges and schools have additional or higher requirements for admission into their majors. Students will also need to submit an Arizona State University admission application, including an application fee and other required documents, such as official college/university transcripts. MyPath2ASU® pathway programs are based on a minimum of 24 transfer credit hours; students with fewer than 24 credit transfer credit hours will need to meet the appropriate admission [9] requirements. International students will need to meet international admission requirements. [23]

Frequently asked questions about transfer pathway programs

What is MyPath2ASU® and how does it affect my MAPP, TAG or GPA agreement?

MyPath2ASU® is a new set of customized tools to help students transfer from community college to ASU. It makes transferring colleges seamless by allowing students to plan their path to transfer into their major at ASU by taking the right classes. Your MAPP, TAG or GPA agreement has been updated to a MyPath2ASU®. No changes are necessary.

When should I sign up for MyPath2ASU® and how long do I have to complete it?

Students can sign up for MyPath2ASU® when they enroll in community college. Upon signing your MyPath2ASU® agreement, you have four academic years to complete a MyPath2ASU®.

Can I change my major after I sign up for MyPath2ASU®?

Yes, you can change your major.

If you are a student from Maricopa County Community College District you can update your pathway agreement by signing up for a new MAPP MyPath2ASU®. For all other students, you can change your pathway agreement by logging in to My Transfer Guide account and updating your current MyPath2ASU® agreement.

Watch this video to learn how to sign up and access MyPath2ASU®

How to Signup for MyPath2ASU (For Maricopa Students) [4] on Vimeo

Get started with the MyPath2ASU® transfer experience

Step 1: Sign up for MyPath2ASU®

- Visit mapp.maricopa.edu. [1]
- Enter your Maricopa Enterprise ID (MEID) and password.
- Identify your current transfer institution.
- Complete your profile.
- Choose from more than 400 on-campus and online pathways.

Sign up for MyPath2ASU® [1]

Step 2: Access ASU My Transfer Guide

- You will receive an ASURITE User ID via email about two weeks after signing up.
- Go to mypath2asu.asu.edu. [5]
- Click **Sign Up**, then click **Sign In** below **I have an ASU account**.
- Sign in using your ASURITE User ID.

Access my Transfer Guide [6]

Step 3: View your transfer coursework

- Create a MyPath2ASU® account.

- Bookmark or favorite your pathway in My Transfer Guide (you do not need to sign up for MyPath2ASU® again because you've already signed up on the Maricopa website).
- Now you can log back in any time at mypath2asu.asu.edu [5] to keep track of your transfer coursework.

Step 4: Prepare to transfer to ASU

- Go to admission.asu.edu/transfer/apply [7] to review admission requirements and steps to apply.
- Apply to ASU one year before completing MyPath2ASU® (six months if you are transferring in the spring semester). Report your ASU ID number on the application.
- Use the same ASURITE User ID to track your application status on my.asu.edu. [8]

AAS to BAS: Bachelor of Applied Science

Bachelor of Applied Science degrees are designed specifically for students who have earned an Associate of Applied Science.

- Students who have earned an AAS from a regionally accredited institution may transfer 60 credit hours toward their BAS.
- Students who have earned an AAS degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits toward their BAS.

Plan to meet with an academic advisor to ensure your courses will meet degree requirements.

FAQ (for students)

Where can I see current transfer pathways?

Visit MyPath2ASU® [2] to access transfer requirements for 400+ ASU degree programs. Courses are displayed in an easy-to-follow, semester-by-semester sequence.

What do I need to do if I signed up already?

There is no need to sign up again unless it has been more than four years since you signed up, or if you are changing your major or moving to a newer catalog year.

Will Maricopa Community College transcripts still be sent to ASU for students who sign up for pathway programs?

Yes, there will be no interruption of the transcript-sending service for students signing up for a pathway program regardless of the academic year.

What do I need to do if I want to change my major?

As always, students who signed up for a MAPP and want to change to a different major will need to sign up for the new major through mapp.maricopa.edu [1]. Consult your community college academic advisor first to understand potential consequences of making a program plan change.

Who should I contact if I have questions?

The ASU transfer coordinator [15] assigned to your community college and your community college academic advisor can assist you with MyPath2ASU®.

ASU at Pinal

Earn your ASU degree at Central Arizona College

Earn a bachelor's degree from Arizona State University without leaving Pinal County. ASU and Central Arizona College have established a partnership that allows you to complete your associate degree at CAC and then pursue your ASU bachelor's degree through classes delivered at the CAC Corporate Center. You can also take advantage of additional cost savings with a reduced ASU tuition rate.

Students must be (or previously have been) enrolled and completed credits at Central Arizona College to continue taking classes through the Pinal location.

Callie - MyPath2ASU Transfer Story [1] on Vimeo.

Available undergraduate programs at CAC

Applied Science (Applied Leadership), BAS* [2]

The applied leadership program prepares students for leadership positions in a wide variety of organizations and career fields. The coursework focuses on the practice of innovative and effective leadership and helps students develop skills and knowledge that leaders need in order to solve problems, communicate effectively, resolve conflicts, assess program effectiveness, lead projects and manage resources.

This BAS program is a valuable degree option for students with an Associate of Applied Science degree. Students learn and apply the leadership skills necessary to prepare them to become more effective leaders in diverse environments – to be team leaders, floor managers and shift captains.

Learn more about this AAS to BAS program and see what AAS programs are compatible with this degree. [3]

Organizational Leadership, BA [4]

This degree program is ideal for helping to advance your career in business, government, nonprofit, health care or service industries. Through this interdisciplinary program, you will gain valuable knowledge to become an organizational leader who is well-versed in leadership styles, communication strategies, resource management, project management and emerging technologies. It is highly recommended that you complete the Arizona General Education Curriculum prior to applying to this program. Complete the course requirements as outlined in the TAG agreement and the AGECE requirements to transfer up to 75 credit hours from the community college. Then, you can complete this bachelor's degree with 45 ASU credits.

See course descriptions and sample schedule. [5]

Organizational Leadership (Project Management), BA [6]

With a concentration in project management, you'll develop the skills and knowledge to advance in your career as a project manager and project manager leader. Covering many fields, organizational leadership courses prepare you for complex project oversight, organizational assessment, project leadership and more.

For more information, contact Gerry West at gerald.l.west@asu.edu. [7]

**Up to an additional 15 hours of lower-division general studies coursework can be completed prior to transferring to ASU. Transfer up to 75 community college credits toward this degree, with 45 credits to be completed at ASU. If lower-division general studies requirements are not complete prior to transferring, the courses can be taken at CAC or ASU. All degree requirements must be met prior to graduation from ASU.*

The MyPath2ASU® transfer process

Create MyPath2ASU® [8]

- Pick your ASU major
- Sign up for MyPath2ASU®
- Track progress towards transfer

Complete your MyPath

- Apply [9] to transfer to ASU
- Become a Sun Devil

Finish your ASU degree

- You're one step closer to achieving your academic goals

Save money

Through the ASU and Central Arizona College partnership, you're able to learn from ASU instructors and earn the same high quality degree you'd earn on an ASU campus, all at a reduced tuition rate. And you can use financial aid and scholarships toward your costs. That, along with the money you'll save by staying in your hometown, adds up to one affordable degree.

Earn your ASU degree at Eastern Arizona College

Earn a bachelor's degree from Arizona State University without leaving Thatcher, Safford and the surrounding areas. ASU and Eastern Arizona College have established a partnership that allows you to complete your associate degree at EAC and then pursue your ASU bachelor's degree through classes delivered on the EAC Thatcher campus. You can also take advantage of additional cost savings with a reduced ASU tuition rate.

Students must be (or previously have been) enrolled and completed credits at Eastern Arizona College to continue taking classes through the at TheGilaValley location.

Available undergraduate programs at EAC

Applied Science (Applied Leadership), BAS* [1]

The applied leadership program prepares students for leadership positions in a wide variety of organizations and career fields. The coursework focuses on the practice of innovative and effective leadership and helps students develop skills and knowledge that leaders need in order to solve problems, communicate effectively, resolve conflicts, assess program effectiveness, lead projects and manage resources. This BAS program is a valuable degree option for students with an Associate of Applied Science degree in fields such as fire science, environmental technology, machine shop technology, welding technology and more. Students learn and apply the leadership skills necessary to prepare them to become more effective leaders in diverse environments — to be team leaders, floor managers and shift captains.

Learn more about this AAS to BAS program and see what AAS programs are compatible with this degree [2]

Business (Business Administration), BA [3]

In the BA program in business with a concentration in business administration, students gain a breadth of knowledge and the skills needed for managing business operations. The program provides the full business core plus a concentration with 18 credit hours of coursework focused on skills such as forecasting demand; planning inventory; purchasing services; conducting skillful negotiations; building strategies for the future; and managing people, finances and risk.

For more information, contact wpcareyug@asu.edu [4]

Organizational Leadership, BA [5]

This degree program is ideal for helping to advance your career in business, government, nonprofit, health care or service industries. Through this interdisciplinary program, you will gain valuable knowledge to become an organizational leader who is well versed in leadership styles, communication strategies, managing resources, assessing programs and emerging technologies. It is highly recommended that you complete the Arizona General Education Curriculum prior to applying to this program. Complete the course requirements as outlined in the TAG agreement and the AGEC requirements to transfer up to 75 credit hours from the community college. Then, you can complete this bachelor's degree with 45 ASU credits.

See course descriptions and sample schedule. [6]

Organizational Leadership (Project Management), BA [7]

With a concentration in project management, you'll develop the skills and knowledge to advance in your career as a project manager and project manager leader. Covering many fields, organizational leadership courses prepare you for complex project oversight, organizational assessment, project leadership, and more.

For more information on the three degrees above, contact Gerry West at Gerald.L.West@asu.edu. [8]

Nursing, BSN [9]

Eastern Arizona College and ASU have partnered to offer a Baccalaureate Nursing Program at EAC. This concurrent enrollment program is for nursing students who meet specific criteria. The program allows students to earn their AAS in Nursing from EAC while simultaneously earning their BSN from ASU. The partnership offers the following:

- hybrid classes (in-person classes with online components)
- qualified ASU faculty members from the Thatcher area
- RN-BSN courses taken in a cohort model

For more information about this program, contact Taylor Nance at eac.cep@asu.edu. [10]

Earn your ASU degree at Cochise College

Earn a bachelor's degree from Arizona State University without leaving Sierra Vista. ASU and Cochise College have established a partnership that allows you to complete your associate degree at Cochise and then pursue your ASU bachelor's degree through classes delivered on the Cochise campus. You can also take advantage of additional cost savings with a reduced ASU tuition rate.

Students must be (or previously have been) enrolled and completed credits at Cochise College to continue taking classes through the at Cochise location.

Available undergraduate programs at Cochise College

Applied Science (Applied Leadership), BAS* [1]

The applied leadership program prepares students for leadership positions in a wide variety of organizations and career fields. The coursework focuses on the practice of innovative and effective leadership and helps students develop skills

and knowledge that leaders need in order to solve problems, communicate effectively, resolve conflicts, assess program effectiveness, lead projects and manage resources.

This BAS program is a valuable degree option for students with an Associate of Applied Science degree. Students learn and apply the leadership skills necessary to prepare them to become more effective leaders in diverse environments – to be team leaders, floor managers and shift captains.

Organizational Leadership, BA [2]

This degree program is ideal for helping to advance your career in business, government, nonprofit, health care or service industries. Through this interdisciplinary program, you will gain valuable knowledge to become an organizational leader who is well versed in leadership styles, communication strategies, resource management, project management and emerging technologies. It is highly recommended that you complete the Arizona General Education Curriculum prior to applying to this program. Complete the course requirements as outlined in the TAG agreement and the AGECE requirements to transfer up to 75 credit hours from the community college. Then, you can complete this bachelor's degree with 45 ASU credits.

Organizational Leadership (Project Management), BA [3]

With a concentration in project management, you'll develop the skills and knowledge to advance in your career as a project manager and project manager leader. Covering many fields, organizational leadership courses prepare you for complex project oversight, organizational assessment, project leadership and more.

For more information, contact Gerry West at Gerald.L.West@asu.edu [4]

*Up to 15 additional hours of lower-division general studies coursework can be completed prior to transferring to ASU. Transfer up to 75 community college credits toward this degree, with 45 credits to be completed at ASU. If lower-division general studies requirements are not complete prior to transferring, the courses can be taken at Cochise or ASU. All degree requirements must be met prior to graduation from ASU.

AAS in Intelligence Operations Studies [5]

Pursuing an AAS in intelligence operations studies? ASU in partnership with Cochise College recognizes the unique work and areas of study that many members of the military often pursue as part of their service. With a completed AAS degree in intelligence operations studies, you can smoothly transfer 60 credits towards a BAS degree in applied leadership.

The MyPath2ASU® transfer process

Create MyPath2ASU® [6]

- Pick your ASU major
- Sign up for MyPath2ASU®
- Track progress towards transfer

Complete your MyPath

- Apply [7] to transfer to ASU
- Become a Sun Devil

Finish your ASU degree

- You're one step closer to achieving your academic goals

Paulette Iniguez Erunez, a transfer student from Cochise College, credits Cochise and MyPath2ASU® with providing her everything she needed to be able to transfer to ASU and complete her bachelor's degree.

Watch this video to learn more about how Paulette transferred using MyPath2ASU®.

Transfer Partnership with BYU-I and BYU-Pathway Worldwide

Transfer of academic credit for students wishing to complete a degree at ASU.

The innovative partnership will allow students who begin their education through one of BYU-Idaho's programs access to the wider array of classes, majors and degrees offered by ASU.

BYU Idaho students who wish to transfer to ASU have two transfer options.

MyPath2ASU®

MyPath2ASU® is a set of customized tools to help transfer students from U.S. regionally accredited institutions (including international students transferring from U.S. regionally accredited institutions). MyPath2ASU® creates a seamless transfer experience to ASU after earning credits or an associate's degree from a U.S. community college or university. Plan a path into your major of choice by taking classes that transfer to ASU—shortening your time to degree completion.

Get Started with MyPath2ASU® [1]

AAS to BAS for Brigham Young University Idaho

Transfer simplified

If you're pursuing an Associate of Applied Science from BYU-Idaho, then an ASU Bachelor of Applied Science degree might be the perfect fit for you. This program allows you to transfer 60 credit hours from your Associate of Applied Science degree toward a compatible Bachelor of Applied Science at ASU, with guaranteed admission if you have earned at least a 2.5 grade point average from BYU-Idaho. The completed Associate of Applied Science must be transcribed on a BYU-Idaho transcript.

Identify the AAS degree you are currently earning at BYU-Idaho and determine your preference for your BAS.

Acceso ASU

The objective

To increase access to higher education at ASU, to interested DREAMers and other bilingual English-Spanish students, while offering them an international and intercultural experience at select Mexican universities.

Who is eligible?

Currently enrolled ASU undergraduate students, both immersive and online.

What is it?

Acceso ASU allows students to take online courses included in the ASU's Transfer Guide [1], offered by select Mexican university partners. While enrolled at a Mexican university, students pay that university's tuition and can benefit from different tuition rates. Mexican partners' tuition starts from approximately \$150 USD [2] per course.

Once students successfully pass courses at the Mexican university partners, they can submit their transcript to ASU to have credits evaluated for transfer to their ASU program.

How does it work?

Students are encouraged to consult their academic advisors to identify which courses included in the ASU's Transfer Guide [1], offered by Acceso ASU's Mexican partners, are suitable for transfer to their specific program. A list of advisors is available here. [3]

For course descriptions offered by Mexican partners, not provided in the ASU's Transfer Guide, please visit this link for Tecmilenio [4] and this link for UNITEC. [5]

In addition to the potential economic benefit, students can:

1. Practice Spanish language skills through academic immersion
2. Enrich their academic experience with an international focus
3. Earn an acknowledgement of international experience, upon taking three online courses with a university partner

How do I search for courses offered by the participating Mexican universities?

To search for course equivalencies, access the ASU's Transfer Guide [1] and select "International" for the institution type, then enter "Mexico" for the country, and enter the name of the university partner:

- University of Guadalajara (UdeG)
- Technological University of Mexico (UNITEC)
- Universidad Tecmilenio

What types of courses have been evaluated for the Acceso program?

The courses evaluated for the Acceso program include undergraduate online courses that transfer to ASU elective, department elective, general studies, and/or direct equivalency:

- University of Guadalajara's subjects include: organization management, educational development, cultural management, digital journalism, technologies and information, citizen security, librarianship and knowledge management.
- Technological University of Mexico (UNITEC)'s subjects include: business administration, public accounting, law (BA), marketing, pedagogy, international business, animation and digital design, psychology, industrial engineering and administration, software and network engineering.
- Universidad Tecmilenio's subjects include: administrative computing engineering, administration, law (BA), publicity and marketing, industrial and systems engineering, international business and trade, education and development, business psychology.

Information about our Mexican university-partners

Tecnológico de Monterrey

Tecnológico de Monterrey (ITESM) is a private, not-for-profit, world-renowned university in Mexico. It has 26 campuses throughout Mexico, and more than 90,000 students that attend its high school, undergraduate and graduate programs. It is a world pioneer on virtual education, which it launched in 1989.

Among other accreditations, ITESM is affiliated to the Southern Associations of Colleges and Schools (SACS), recognized by the U.S. Department of Education.

* The program with Tecnológico de Monterrey (ITESM) is managed by the Global Education office as a special virtual exchange opportunity. For more info visit: <https://studyabroad.asu.edu/index.cfm?FuseAction=Programs.ViewProgramAngular&id=11414> [6]

Transferring credits to ASU

How credits transfer to ASU

When you transfer to ASU from another college or university, the following general standards for transfer credits apply. You can use ASU transfer tools to learn how credits will transfer and begin creating your roadmap to graduation.

Accepted credits

ASU accepts college-level (not remedial) courses in which transfer students have earned a grade of “C-“ (4.00=“A”) or better from regionally accredited colleges and universities. If a course is repeated, the first course in which a minimum of “C-“ grade was earned will be used.

Pass grades may be transferable to ASU if the institution or transcript indicates the “P” grade is comparable to a C- or better. Pass grades are not calculated into your transfer GPA for admission.

Applicability

The applicability of a specific transfer course toward an ASU degree program depends on the requirements of the department, division, college or school in which you are enrolled at ASU.

Credit hours

A maximum of 64 semester hours of credit will be accepted as lower-division credit when transferred from a regionally accredited community, junior or two-year college, with the exception of some special programs. An unlimited number of credit hours will be accepted from four-year institutions. Upon admission to the university, you will work with an ASU academic advisor to determine how your transferable credits apply toward your selected major.

Credit conversion

Acceptable academic credits earned at other institutions that are based on a different unit of credit than the one prescribed by the Arizona Board of Regents are subject to conversion before being transferred to ASU. All ASU students must meet graduation requirements (university, college, major and general studies requirements) to earn a four-year degree.

Degree requirements

The ASU college of your major determines how transfer courses fulfill the degree requirements of your ASU major. You should review the degree requirements of the program into which you intend to transfer and talk with an academic advisor about your transfer credits and how they will apply to your degree program.

Determining GPA

Grades and honor points that you earned at other colleges and universities are considered for admission, but your ASU cumulative grade point average is based solely on coursework taken at ASU.

Types of transfer credits not accepted by ASU:

- Courses in which you earned below “C-“ as your final grade.
- Credit awarded by postsecondary schools in the United States that lack candidate status or are not accredited by a regional accrediting association.
- Credit awarded by postsecondary schools for life experience.
- Credit awarded by postsecondary schools for courses taken at noncollegiate institutions (e.g., governmental agencies, corporations, industrial firms, etc.).
- Credit awarded for continuing education units (CEU), continuing education credit, workshops, seminars, professional development courses and other not-for-credit courses through postsecondary institutions.

- A student who feels they have been unjustly denied credit for transfer may appeal the decision.
 - Prospective students can contact Admission Services [1] or Academic Transfer Credit Solutions. [2]
 - Admitted students can contact their academic advisor or academic unit (found on My ASU).

Transfer Guide

ASU's Transfer Guide is a helpful online tool to assist you in your transfer planning process. Manage your Transfer Pathways, requested course evaluations, saved courses searches, saved exam searches and more.

View the Transfer Guide [3]

Military credits

ASU is proud to welcome transfer student veterans of the Army, Navy, Air Force, Marines, Coast Guard and National Guard to our undergraduate student community.

Evaluation of military transcripts

ASU uses the American Council on Education's Guide to the Evaluation of Educational Experiences in the Armed Services [4] to assess how to transfer military credits to ASU. In general, a military course must be similar to an ASU undergraduate course to transfer to ASU.

Military credits that transfer to ASU through educational experiences in the armed services are not applicable toward completing ASU's general studies requirements [5] for graduation, but do count for total credits toward completion. No transfer credit is awarded for vocational certificate category ACE recommendations.

The JST is reviewed for potential transfer credit in accordance with VA guidelines and Arizona statutes related to awarding credit for military training and education. Credits are evaluated at the time of JST submission to ASU. It is recommended the JST be sent to ASU upon application to ensure timely processing and evaluation.

ASU accepts the following military transcripts for transfer credit:

Air Force and Space Force members

Enlisted members

The Community College of the Air Force is a regionally accredited community college. If you received credit for courses taken through the CCAF while in active service, submit this transcript as part of your application. You can request to have your official CCAF sent to ASU from the Community College of the Air Force transcripts [6] page. CCAF now offers electronic transcript delivery through Parchment, a digital credentialing service. Students are able to create an account on Parchment [7] to send transcripts.

Officers

Officer transcripts are maintained by Air University. First-time users must create an account by accessing the AU Service Desk [8]. This works better on non-NIPR and Google Chrome. On the homepage under the Quick Links tab, select Official Transcript Request. Complete the required components of the form, add the attachments and submit. The Service Desk can be accessed by any device that has internet access; it is Common Access Card (CAC) enabled, but this is not required. The AU Service Desk is a secure application and certified for submission of Privacy Act information.

Army, Marine Corps, Navy and Coast Guard members

- The Joint Services Transcript has replaced the Coast Guard Institute Transcript, the Army/American Council on Education Registry Transcript System and the Sailor/Marine American Council on Education Registry Transcript.
- All enlisted members, officers and warrant officers, both active and veterans from all Army components, Coast Guard, Marine Corps and Navy, are eligible for a JST. You do not have to be on active duty to access the JST website and your transcript. Active duty, reserve, veterans or National Guard personnel can use JSTs.
- Some students may have concerns about a security warning when accessing the website. This happens when a user logs in to a Department of Defense network from a non-networked computer without a CAC. You can confirm the security exception to proceed to the JST request site. If you do not confirm this exception, you will be unable to place your order.
- Register [9] for a JST account, and direct the DoD to send your transcript to ASU.

Veterans exception

By Arizona statute, no failing grades received by a veteran at an Arizona university or community college before military service may be considered when determining admissibility. This exception may be used only one time and applies only to veterans who:

- Are honorably discharged.
- Have served in the armed forces of the United States for a minimum of two years.
- Have previously enrolled at a university or community college in Arizona.

Military service records must be submitted, including form DD 214.

Credit by exam

You may earn no more than 60 hours of credit by exam for any degree program, including ASU comprehensive and proficiency exams.

ASU's credit by exam policy [10]

Frequently asked questions about transferring college credits

How do I transfer college credits to ASU?

You can transfer credits to ASU by requesting your transcripts from all colleges you have attended and have them sent directly to ASU. Then, when you have completed the admission application, paid the application fee and are admitted to ASU, your qualifying credits will automatically be added to your ASU Degree Audit.

How many college credits can be transferred to ASU?

You can transfer a maximum of 64 college credits from a regionally accredited community, junior or two-year college for courses in which you have earned a "C" (4.00="A") or better.

What is the ASU Transfer Guide?

ASU's Transfer Guide [11] is a useful tool that shows how college courses you've already taken will transfer to ASU. If you don't see a particular course in the Transfer Guide, you can request a course evaluation.

Admitted transfer student next steps

Welcome to Arizona State University.

You're now on your way to becoming part of the most innovative and forward-thinking university in the nation. And by choosing ASU, you will become a part of a community of master learners and doers who will support you during your journey at ASU.

We've gathered your next steps to help you prepare for your transition to ASU — plus we've added some extras for you to enjoy. You'll be getting a lot of information about ASU in the coming months. This guide highlights the most important things to know so you'll be prepared for your new Sun Devil status.

First day of classes

Enrolling for fall 2024

Classes begin Aug. 22, 2024

Enrolling for spring 2025

Classes begin Jan. 13, 2025

If you've been admitted for spring 2024 but didn't enroll you can still enroll for fall 2024.

[View the Academic Calendar \[1\]](#)

Countdown to ASU

As you prepare to attend Arizona State University, you might have some questions. Use this Countdown to ASU website as your go-to resource for everything you need to know about getting ready for college, and register for some helpful events to get all your questions answered.

[View the countdown \[2\]](#)

Need help?

ASU admission team members can answer your questions and guide you through each step of the enrollment process between now and the time you get here.

[Find my admission team member \[3\]](#)

Your next steps as an admitted transfer student

Activate your ASURITE User ID

Your ASURITE User ID grants you access to My ASU and university services. If you haven't activated your ASURITE User ID yet, see your admission letter for details on how to do it.

When you activate your ASURITE User ID, you will select to have your ASU email forwarded to a personal account. It's important to check your email often for time-sensitive notifications and next steps about enrollment. You'll have access to your official ASU email when classes begin. You can check which email your ASU email is forwarding to by looking in the profile tab in My ASU.

If you previously applied to ASU, use your existing ASURITE User ID to activate and log in to My ASU and your ASU email.

[Activate ASURITE \[4\]](#)

Need help? You can find your activation code in an email from computer.accounts@asu.edu [5] with the subject line "ASU Account Activation." If you need assistance, call 1-855-278-5080 or 480-965-6500.

Review your transfer credits

To review your transfer credits, visit the ASU Transfer Guide [6], log in with your ASURITE User ID and password, and click on **My Transfer Guide**. For questions about applying your transfer credits to your degree program, please connect with your academic advisor using the **Academic Support Team** box in My ASU. [7]

[Transfer guide \[6\]](#)

Pay your enrollment deposit

Confirm your place in ASU's incoming class by submitting your enrollment deposit via My ASU [7]. Then, be sure to check My ASU often for any Priority Tasks you need to complete to enroll.

[Transfer enrollment deposit \[8\]](#)

Start the New Transfer Student Orientation Experience

In the New Transfer Student Orientation, you will prepare to take classes by completing essential next steps for enrollment. To access it, log in to My ASU [7] to view details under Priority Tasks, or check out the New Transfer Student Orientation Experience website. [9]

Transfer Orientation [9]

Register for classes

You must meet with an academic advisor before you can register for classes. You can find your advisor's contact information in My ASU [7] under the Academic Support Team box. You may want to review the Transfer Guide [10] to view course equivalencies before meeting with your academic advisor.

Register on My ASU [7]

Submit your FAFSA

The 2024-2025 Free Application for Federal Student Aid is available now. Submit your FAFSA to maximize the amount of aid you receive. ASU's Federal School Code is 001081.

Fall 2024: Complete the 2024-2025 FAFSA
Spring 2025: Complete the 2024-2025 FAFSA

Submit your FAFSA [11]

Apply for scholarships

Transfer scholarships are available to help pay for tuition, housing, books and other costs when you transfer to ASU.

Apply [12]

Submit your MMR immunization verification form

You must submit your measles (rubeola), mumps and rubella immunization form before classes begin. You can fax, email or mail your records to ASU Health Services. [13]

Immunization form [14]

Explore housing options

There are limited on-campus [15] options for transfer students; however, we strongly encourage you to take advantage of off-campus housing options surrounding each ASU campus. We understand that you may not be familiar with all of the housing options in the Phoenix metropolitan area, so we have developed the Off-Campus Housing Marketplace [16] to help you search for the apartment or house that works for you.

Learn more [16]

Request final transcripts

As soon as you graduate or complete your current semester or term, request an official final transcript be sent from your college or university to ASU's Admission Services.

Learn more [17]

Review parking and transportation

Cars are not the only way to get to ASU. The bus and light rail are affordable options, and students can walk, bike or skateboard on campus.

Review options [18]

Visit campus

If you haven't toured campus already, visiting is the best way to get an idea of what life is like as a Sun Devil. Schedule a walking tour [19] with a campus tour guide at all of ASU's campuses. If you can't make it in person, take a virtual tour [20] — or if you'd rather explore campus on your own, take a self-guided audio tour [21] to hear about every major campus attraction.

Visit campus [22]

Attend welcome events

Get to know your campus and meet other transfer students at ASU's free welcome events. Explore the event schedule to discover which ones to attend.

Explore events [23]

International first-year student admission

Review the requirements and follow the steps below to apply to become an international first-year student at ASU.

Applying to ASU as an international student

Academic requirements

First-year students must:

Have a 3.00 grade point average (GPA) (a "B" or better where "A"=4.00) from a secondary school. Some ASU programs may have higher admission or English proficiency requirements and may consider a minimum ACT or SAT score.

Must have three years of high school coursework. (If you are currently in high school, ASU needs to see 9–11 grade coursework. If you have completed high school, ASU needs to see 10–12 grade coursework.)

Must have and present a completed high school diploma or certificate.

Conditional admission

ASU may offer conditional undergraduate admission to international applicants to an on-campus program who meet the academic (aptitude) requirements but who are not proficient in English. This offer of conditional admission will give you time to improve your English proficiency before you start classes at ASU. Your conditional admission offer is good for up to three semesters, during which time you must meet one of these requirements [1] to begin your ASU experience.

Competency requirements

International students who completed high school outside the U.S. are required to meet the following competency requirements:

- Math: four years (algebra I, geometry, algebra II and one course requiring algebra II as a prerequisite).
- Laboratory science: three years total (one year each from any of the following areas are accepted: biology, chemistry, earth science, integrated sciences and physics).

International students who attended four years of high school in the U.S. are required to meet the competency requirements. [2]

Comparable degree requirements in different countries and territories

Arizona State University recognizes that educational systems are different across the world. To help you determine if your academic credentials are comparable to a U.S. high school degree and to understand the documents that need to be submitted for admission, please review the requirements for the country from which your credential was earned.

[Archivist's Note: In-page by-country requirements tool unable to be captured.]

U.S citizen?

If you are a U.S. citizen and completed all of your coursework in the U.S., visit our domestic first-year admission web page. [3]

Degree search [5]

How to apply to ASU

Step 01: Complete the undergraduate application for admission.

Apply online with ASU's Application for Admission [6] or the Common Application [7]. ASU accepts only one application. We have no preference between the ASU application or the Common Application. If two applications are submitted, one will be canceled in our system. Application fees are nonrefundable.

ASU's Application for Admission [6]
Common Application [7]

Step 02: Submit the nonrefundable application fee.

International nonresidents: \$85 (\$70 for ASU online programs)

You can pay using a credit card (Visa or Mastercard) at the time you submit your application or when you log in to My ASU [8]. Or you can mail a check or money order to Admission Services (payable to Arizona State University) at the address below.

Admission Services Applicant Processing

Arizona State University
PO Box 871004
Tempe, AZ 85287-1004

If you applied for admission through the Common Application [7], pay the application fee through that application.

My ASU [8]

Step 03: Have official transcript(s) and examination results sent directly from your school(s) or exam board to Admission Services. Provide English translations of all documents not issued in English.

Official transcripts are certified copies of official documents from each secondary school, college, university or technical school attended. Records must include courses completed, grades or marks earned, and certificates or degrees awarded. Include a certified English translation of all documents not issued in English.

Visit the transcripts page for detailed information on submitting international transcripts and English translations.

Transcripts information [9]

Step 04: Provide evidence of English language proficiency.

Have your TOEFL, IELTS, PTE, Duolingo English test, or Cambridge English exam score, sent directly to ASU, or provide proof of completion from Global Launch.

TOEFL

The official TOEFL score report can be sent directly to ASU from the Educational Testing Service. ASU's TOEFL institutional code is 4007. For information about this test and registration procedures, contact ETS at PO Box 6151, Princeton, NJ 08541-6151, USA or visit www.toefl.org [10].

Duolingo English test

Learn more about the Duolingo test. [11]

Global Launch

ASU accepts completion of the Global Launch **English Language program** or **English for Undergraduate Admission and Achievement** online self-paced course. Learn more about Global Launch. [12]

IELTS

For information about this test and registration procedures, contact the IELTS Office, University of Cambridge Local Examination Syndicate, 1 Hills Road, Cambridge/CB1 2EU, UK, or visit www.ielts.org. [13]

PTE

For information about the Pearson Test of English, visit www.pearsonpte.com. [14]

Cambridge English

ASU accepts the B2 First, C1 Advanced, and C2 Proficiency Exams. For information about Cambridge English Language Assessments, visit <https://www.cambridgeenglish.org/exams-and-tests/>. [15]

Undergraduate English proficiency [1]

Step 05: Secondary and post-secondary documentation.

All documents must be an original or an attested copy with an original institutional seal and/or signature. Photocopies, notarized copies, faxes or scans are not considered original documents. All documents must be translated into English if the original is not issued in English.

Note: Before mailing or sending any documentation, you must fill out an ASU application. Sending documents before doing so will delay the processing of your application. It is also recommended that you include your ASU EMPLID on the envelope of any documents being mailed to ASU.

Do you have any college credits?

- All college work must be reported at the time of filling out your application.
- We must see all transcripts/academic records from all institutions that you have ever attended (regardless if you have finished the program at that institution or not).
- All documents not issued in English must be accompanied by an English translation.
- Access the transfer credit guide [16] to check your college credits.

Professional third-party evaluations

ASU provides in-house credential evaluations of your secondary and postsecondary academic records at no extra cost. However, if you have already had your academic credentials evaluated, ASU will consider course-by-course evaluations from the four agencies below:

- Educational Credential Evaluators. [17]
- Foreign Credentials Service of America. [18]
- Academic Credentials Evaluation Institute. [19]
- Scholaro. [20]

Note: Official evaluations do not take the place of official academic records. The evaluation is in addition to the official academic record. If the evaluation agency includes academic records they used to complete their evaluation and indicates that the evaluation was based on official or authenticated records, we may accept those documents as official.

Transfer guide [21]

Step 06: Submit your ACT or SAT scores (optional).

ACT or SAT scores are not required for admission, but may be submitted for ASU course placement or as supplemental information. Have your scores sent to ASU from ACT [22] or College Board [23] when you register for the test.

Step 07: Check application status.

Once you've completed all these steps, ASU will review your application. To see if you have any missing items, and to review your admission status and I-20 status, sign in at My ASU using your ASURITE UserID, which is sent to you after you apply for admission.

Activate My ASU and your ASURITE UserID.

You will receive your ASURITE UserID and activation code via email within one to three business days of submitting your application. If you have previously applied to ASU, your ASURITE UserID will remain the same. You'll use your ASURITE UserID to log in to My ASU. If you have previously applied to ASU, your ASURITE UserID will remain the same. If you have not previously activated My ASU, have your activation code sent to you [24] by submitting your ASU ID number and last name. If you have trouble logging in with your ASURITE UserID, contact the ASU Help Desk at 855-278-5080 or contact.asu.edu. [25]

Check application status [8]

Step 08: Submit your student visa application.

All international students planning to attend Arizona State University will need to first apply for an I-20 in order to apply for an F-1 or J-1 student visa.

Student visa info [26]

Application deadlines

You must submit your application for admission to ASU, along with the application fee, by the deadline specified for each semester. To expedite the evaluation of your application, please remember to submit official transcripts, test scores and supporting credentials along with your application.

Frequently asked questions about international first-year admission**How do I apply to an American university as an international student?**

To apply to ASU as an international student, you must meet certain academic requirements, as well as demonstrate proof of English proficiency. Review this page for admission and English proficiency requirements, application procedures, and deadlines for undergraduate students.

Do I have to know English to study at ASU?

Yes. ASU requires proof of English proficiency from all international student applicants, or applicants whose native language is not English. ASU accepts TOEFL, PTE, IELTS or DuoLingo English test scores, or completion of ASU's Global Launch English and academic preparation courses as proof of English proficiency.

What is Global Launch?

Global Launch is Arizona State University's English language and academic preparation unit, providing face-to-face and online English and pathways programs for international students seeking admission to the university.

International transfer student admission

How to transfer colleges as an international student

Comparable requirements to a high school diploma

Arizona State University recognizes that educational systems are different across the world. To help you determine if your academic credentials are comparable to a U.S. high school degree and to understand the documents that need to be submitted for admission, please review the requirements for the country from which your credential was earned.

[Archivist's Note: In-page by-country requirements tool unable to be captured.]

U.S citizen?

If you are a U.S. citizen and completed all of your coursework in the U.S., visit our domestic transfer admission web page.

Download brochure [2]

How to complete the undergraduate application as an international transfer student

Your info

The first step in completing the ASU undergraduate application is the My Information section. We walk you through each of these fields and address questions you might have about this section of the application.

Apply to ASU step 1: Your info [3] on Youtube.

Academic history

The second section of the application focuses on your prior academic history, including high school and any colleges or universities you previously attended. Watch as we guide you through these scenarios and explain how to fill out each part based on your situation.

Apply to ASU step 2: Academic history [4] on Youtube.

Grades

All students have the option to self-report high school grades in the My Grades section of the application, though self-reporting is not required. In this video, we walk you through this process and explain what courses you should include, how to add these courses to your application and more.

Apply to ASU step 3: Grades [5] on Youtube.

Residency

The information you share in the residency portion of the undergraduate application helps the admission office determine if you are an in-state, out-of-state or international student. In this video, we cover these terms in detail and explain how to accurately fill out this part of your application.

Apply to ASU step 4: Residency [6] on Youtube.

Choose a major

One of the final sections of the undergraduate application is the Choose Major section. If you're unsure about what major is best for you, we offer resources that might help you decide. And, you can always change your major later.

Apply to ASU step 5: Choose a degree [7] on Youtube.

Submit

Now all that's left is to review your application, submit it and pay the application fee. In this video, we review how to pay the application fee and what the next steps are now that you've submitted your application to ASU.

Apply to ASU step 6: Submit [8] on Youtube.

International transfer student admission requirements

Academic requirements

Transfer students are considered anyone with 12 or more transferable credits completed post high school. Transfer students must have a minimum 2.50 cumulative GPA (a "C+" or better where "A"=4.00). Some majors have higher admission requirements. To find the requirements for your specific program, please visit ASU's Degree Search. [9]

Some ASU programs may have higher admission and English proficiency requirements and may consider a minimum ACT or SAT score.

You must have and present a completed high school diploma or certificate.

You must submit official transcripts from every high school, college and university you attended, regardless if a degree was earned.

For more information on the process, additional requirements for students with additional credits and other information, visit transfer apply. [1]

Aptitude requirement

You must meet one of the following:

- Transfer students with 12–23 transferable credits must also have a minimum 2.50 cumulative transfer GPA and meet first-year student admission requirements. [10]
- Transfer students with 24 or more transferable credits must have a minimum 2.50 cumulative transfer GPA.
- Transfer students who have earned an associate degree or higher from a regionally accredited higher education institution must have a minimum 2.00 cumulative GPA (for Arizona residents) or 2.50 cumulative GPA (for nonresidents).

Some majors have higher admission requirements. To find the requirements for your specific program, please visit ASU's Degree Search. [9]

"A" = 4.00; ASU accepts college-level courses in which you have earned a "C-" or better.

Competency requirements

International students who attended four years of high school in the U.S. are required to meet the competency requirements.

- **English:** four years (composition/literature based).
- **Math:** four years (algebra I, geometry, algebra II and one course requiring algebra II as a prerequisite).
- **Laboratory science:** three years total (one year each from any of the following areas are accepted: biology, chemistry, earth science, integrated sciences, and physics) .
- **Social science:** two years (including one year American history).
- **Foreign language:** two years (same language).
- **Fine arts:** one year.

International students who completed high school outside the U.S. are required to meet the following competency requirements:

- **Math:** four years (algebra I, geometry, algebra II and one course requiring algebra II as a prerequisite).
- **Laboratory science:** three years total (one year each from any of the following areas are accepted: biology, chemistry, earth science, integrated sciences and physics).

Important deadlines

You must submit your application for admission to ASU, along with the application fee, by the deadline specified for each semester. To expedite the evaluation of your application, please remember to submit official transcripts, test scores and supporting credentials along with your application.

Note: Applications for summer that are not completed in time for the start of the summer sessions will be reviewed for admission for the fall semester.

Note: International students who have been admitted for the fall semester who would like to begin attending classes during the summer must contact Admission Services [11] by May 1. Otherwise, I-20s will be created for the fall semester.

Make sure to apply as early as possible to allow time for all documentation and processes to be completed.

How to apply to ASU

Step 01: Complete the undergraduate application for admission and pay the nonrefundable application fee.

Apply online with ASU's Application for Admission [12] or the Common Application [13]. ASU accepts only one application. We have no preference between the ASU application and the Common Application. If two applications are submitted, one will be canceled in our system. The application fee is \$85 (U.S. Dollars) and is nonrefundable.

ASU's Application for Admission [12]
Common Application [13]

Step 02: Activate My ASU and your ASURITE User ID.

You will receive your ASURITE User ID and activation code via email within one to three business days of submitting your application. If you have previously applied to ASU, your ASURITE User ID will remain the same. You'll use your ASURITE User ID to log in to My ASU. If you have previously applied to ASU, your ASURITE User ID will remain the same. If you have not previously activated My ASU, have your activation code sent to you [14] by submitting your ASU ID number and last name. If you have trouble logging in with your ASURITE User ID, contact the ASU Help Desk at 855-278-5080 or contact.asu.edu. [15]

Check application status [16]

Step 03: Have official transcript(s) and examination results sent directly from your school(s) or exam board to Admission Services. Provide English translations of all documents not issued in English.

Official transcripts are certified copies of official documents from each secondary school, college, university or technical school attended. Records must include courses completed, grades or marks earned, and certificates or degrees awarded. Include a certified English translation of all documents not issued in English.

For more detailed information on submission of international transcripts and English translations, please visit our transcripts page. [17]

High school transcripts

If you have not completed an associate degree or higher from a U.S. regionally accredited university or college, you must submit one of the following:

- Official high school transcript with a graduation date.
- Official U.S. GED/HiSet transcripts.
- Affidavit of Completion of Secondary School Education.

ASU accepts hand-delivered official high school transcripts in sealed envelopes from applicants. (ASU does not accept faxed high school transcripts.)

NOTE: Transfer applicants with 24 or more transferable semester credit hours from a regionally accredited college or university or recognized international university, including previously completed ASU credits, and who will be 22 or older by the start of the requested semester of admission, will not be required to submit a high school transcript for admission. Once all prior college or university transcripts and outstanding admission items are received and verified, the high school transcript requirement will be waived. Transfer applicants are required to have graduated from an approved high school (or equivalent) prior to the semester of requested admission to ASU, and to include this information on the application for admission.

Step 04: Provide evidence of English language proficiency.

Have your TOEFL, IELTS, PTE, Duolingo English test or Cambridge English exam score sent directly to ASU, or provide proof of completion from Global Launch.

TOEFL

The official TOEFL score report can be sent directly to ASU from the Educational Testing Service. ASU's TOEFL

institutional code is 4007. For information about this test and registration procedures, contact ETS at PO Box 6151, Princeton, NJ 08541-6151, USA or visit <http://www.ets.org/toefl>. [18]

IELTS

For information about this test and registration procedures, contact the IELTS Office, University of Cambridge Local Examination Syndicate, 1 Hills Road, Cambridge/CB1 2EU, UK or visit www.ielts.org. [19]

PTE

For information about the Pearson Test of English, visit www.pearsonpte.com. [20]

Global Launch

ASU accepts completion of the Global Launch **English Language program** or **English for Undergraduate Admission and Achievement** online self-paced course. Learn more about Global Launch. [21]

Duolingo English test

Learn more about the Duolingo test. [22]

Cambridge English

ASU accepts the B2 First, C1 Advanced and C2 Proficiency Exams. For information about Cambridge English Language Assessments, visit cambridgeenglish.org/exams-and-tests. [23]

Undergraduate English proficiency [24]

Step 05: American university admission reminders and secondary and post-secondary documentation.

All documents must be an original or an attested copy with an original institutional seal and/or signature. Photocopies, notarized copies, faxes or scans are not considered original documents. All documents must be translated into English if the original is not issued in English.

Note: Before mailing or sending any documentation, you must fill out an ASU application. Sending documents before doing so will delay the processing of your application. It is also recommended that you include your ASU EMPLID on the envelope of any documents being mailed to ASU.

Do you have any college credits?

- All college coursework must be reported at the time of filling out your application.
- We must see all transcripts/academic records from all institutions that you have ever attended (regardless of whether you have finished the program at that institution or not).
- All documents not issued in English must be accompanied by an English translation.
- Access the transfer credit guide [25] to check your college credits.

Professional third-party evaluations

ASU provides in-house credential evaluations of your secondary and postsecondary academic records at no extra cost. However, if you have already had your academic credentials evaluated, ASU will consider course-by-course evaluations from the four agencies below:

- Educational Credential Evaluators. [26]
- Foreign Credentials Service of America. [27]
- Academic Credentials Evaluation Institute. [28]
- Scholaro. [29]

Note: Official evaluations do not take the place of official academic records. The evaluation is in addition to the official academic record. If the evaluation agency includes academic records they used to complete their evaluation and indicates that the evaluation was based on official or authenticated records, we may accept those documents as official.

Step 06: Check application status.

Once you've completed all these steps, ASU will review your application. To see if you have any missing items, and to review your admission status and I-20 status, sign in to My ASU [16] using your ASURITE User ID, which is sent to you after you apply for admission.

Step 07: Submit your student visa application.

All international students planning to attend Arizona State University will need to first apply for an I-20 in order to apply for an F-1 or J-1 student visa.

Frequently asked questions about international transfer admission

How do I apply to ASU as an international transfer student?

To apply to ASU as an international transfer student, you must meet certain academic requirements, as well as demonstrate proof of English proficiency. Review this page [32] for admission and English proficiency requirements, application procedures, and deadlines for undergraduate students.

Requirements [32]

How do I transfer credits to an American university?

When you transfer to ASU from another college or university, the following general standards for transfer credits apply. Use ASU transfer tools [25] to learn how credits will transfer and begin creating your roadmap to graduation.

Transfer tools [25]

How many credits can be transferred to ASU?

You can transfer a maximum of 64 credits from a regionally accredited community, junior or two-year college for courses in which you have earned a "C" (4.00="A") or better.

International undergraduate applicants English proficiency

Pass the TOEFL, IELTS, PTE, Duolingo English test or Cambridge English exam

Test of English as a Foreign Language (TOEFL)

ASU accepts the TOEFL iBT® taken in a testing center. ASU does not accept TOEFL iBT® Home Edition, TOEFL iBT® Paper Edition or TOEFL Essentials Exams.

TOEFL iBT (internet-based test)

For the general requirement programs, the minimum score is 61 (iBT). ASU's institutional code is 4007. ASU accepts only electronic copies of the TOEFL score report.

Bachelor of Science in Nursing: minimum score of 76.

Ira. A Fulton Schools of Engineering (higher admission requirement programs only): minimum score of 79.

Walter Cronkite School of Journalism and Mass Communication: minimum score of 100.

Learn more about the TOEFL. [1]

International English Language Testing System (IELTS)

ASU accepts IELTS Academic, IELTS Online, IELTS UKVI and IELTS Indicator exams.

The overall band score requirement for the academic test is at least 6.0. The general training exam is not accepted. No institutional code is needed.

Bachelor of Science in Nursing: minimum score of 6.5.

Ira. A Fulton Schools of Engineering (higher admission requirement programs only): minimum score of 6.5.

Walter Cronkite School of Journalism and Mass Communication: minimum score of 7.0.

Learn more about IELTS. [2]

Pearson Test of English (PTE)

ASU requires a score of at least 53.

This test is not accepted for admission to the Bachelor of Science in Nursing program.

Ira. A Fulton Schools of Engineering (higher admission requirement programs only): minimum score of 58.

Walter Cronkite School of Journalism and Mass Communication: minimum score of 73.

ASU does not accept the PTE Academic Online exam.

Learn more about PTE. [3]

Duolingo English test

General requirement programs: minimum score of 95.

Bachelor of Science in Nursing: minimum score of 100.

Ira. A Fulton Schools of Engineering (higher admission requirement programs only): minimum score of 105.

Walter Cronkite School of Journalism and Mass Communication: minimum score of 120.

Learn more about the Duolingo English test. [4]

The exam may be taken from any computer that has a camera, audio and reliable internet connection. The exam portion of the Duolingo English test contains a series of speaking, reading, writing and listening exercises. Following the exam, there will be an interview portion that will ask you to respond to various prompts in 30 to 90 seconds. The exam will take about 45 minutes to complete and you will need either a passport, driver license, or national or state ID to show the camera. The score results are generally received within a few days of exam completion.

Should you choose to take the Duolingo English test, the access information is below.

Information on preparing for the exam [4] | Take the exam or practice exam [5]

A verification email will be sent to you a few days after completing the exam containing a link to send your score to ASU.

For additional information, please review the frequently asked questions. [6]

Cambridge English Exams

ASU accepts the B2 First, C1 Advanced, and C2 Proficiency Cambridge English exams.

General requirement programs overall minimum score requirement: 170.

Bachelor of Science in Nursing: minimum score of 176.

Ira. A Fulton Schools of Engineering (higher admission requirement programs only): minimum score of 176.

Walter Cronkite School of Journalism and Mass Communication: minimum score of 185.

Information on sending your Cambridge English Scores to ASU [7]

An IELTS, PTE, TOEFL, Duolingo exam, or Cambridge English exam must have been taken no longer than two years prior to the student's start date at ASU. Applicants who have scores that are more than two years old (or will be more than two years old by the time of their ASU start date) may be requested to submit updated test scores or demonstrate English proficiency through one of the other listed options.

Complete Global Launch courses at ASU*

English language program

Complete the highest level of the Campus or Online Immersion English language program with a passing grade of B- (80%) or better.

Online self-paced English course

Complete the English for Undergraduate Admission and Achievement online course with a passing score.

Learn more about Global Launch [8]

*Individual academic units may have higher requirements for English proficiency. Review your degree program of interest for details. Visit ASU's degree search to find your program.

Other ways to demonstrate English proficiency

1. U.S. citizens or U.S. permanent residents.
2. Citizen of a country/territory on the ASU English speaking country and territory list. [9]
3. Junior and senior year of high school completed in the U.S. AND ACT English score of 23 or higher or SAT EBRW score of 580 or higher, AND two years English.

4. Four years of high school in the U.S. with four years of English.
5. 48 transferable credits from a regionally accredited U.S. college or university with a GPA of 2.50 or higher, of which six credits are in first-year English (comparable to ASU ENG 107 and 108).
6. Undergraduate applicants who have earned a secondary or high school degree or higher from an international institution that is officially recognized by that country, and whose sole medium of instruction for the degree program was in English. If the transcript does not indicate language of instruction, the applicant should email asuinternational@asu.edu [10] to request exemption and include a letter from the institution on letterhead indicating language of instruction or provide information on the institution website to verify language of instruction.

Note: English as a Second Language (ESL) courses are not accepted as proof of English proficiency.

International student visas

I-20 updates

We look forward to your arrival and have been hard at work making plans to welcome our new international students to campus.

What we want you to know

1. Do not delay in submitting your documents required for issuance of your I-20 to us. Upload the documents required to issue an I-20 through My ASU [1]. The upload tool on My ASU only allows the upload of each document type once, so please be sure to have all your documents ready prior to upload. If you upload financial documents that do not cover the full funding needed as shown on the financial guarantee, you will be requested to submit additional documentation to show the full funding, which will delay issuance of your I-20. Please make sure your financial documents show sufficient funding prior to uploading.
2. Once ASU has received all documents to issue an I-20 and has verified that the documents are complete, your I-20 will be emailed to you. Once received, you should print the I-20 and sign the document. You will not receive a physical I-20 via mail.
3. Once you have received your I-20, be sure to pay your I-901 fee [2]. Once the fee has been paid do not delay in contacting your consulate to obtain a visa appointment. Some consulates may have long wait times, so do not delay on securing an appointment time.
4. If you are unable to submit the documentation needed to receive an I-20 from ASU or are unable to obtain your F1 visa in time to arrive by the start of the semester of your admission, contact ASUinternational@asu.edu [3] and we can advise you on your options.
5. If you have any questions, please contact our International Admission Services team. We will work with you to keep you on track.

Helpful reminder

Be sure to check wait times for your local embassy [4] or consulate, as some areas may be experiencing wait times longer than 30 days. You can now apply for your visa up to 365 days before the start date listed on your I-20. Complete these steps as soon as possible so that when your local embassy can take your appointment, you will be ready to proceed with your next steps.

Types of international student visas

As an international student at Arizona State University, you will need to obtain an F-1 or J-1 student visa.

F-1 student visa

The F-1 visa is the most common student visa and is issued to full-time students enrolled in an academic or language program at a U.S. institution. Any student who is funded either by personal or outside funds, or a combination of the two, is eligible for F-1 status. If you are a student applying for an F-1 visa, you must request the SEVIS Form I-20 from the appropriate ASU admission office once admitted to ASU.

J-1 student visa

The J-1 visa is an exchange visitor visa issued to students at all academic levels. Students must have a substantial portion of their funding coming from a source other than their personal finances (e.g., their home institution or government). If you are a student applying for a J-1 visa, you must request Form DS-2019 from the appropriate ASU admission office once admitted to ASU.

F-2 dependent visa (undergraduate)

The F-2 visa is a nonimmigrant visa that allows dependent spouses and children of F-1 student visa holders to enter the U.S. and enroll in an educational institution. As a student with F-2 visa status, you can attend ASU only as a part-time student. For the undergraduate level, this means you may register for up to 11 credit hours for the spring and fall terms.

More F-2 information [5]

F-2 dependent visa (graduate)

The F-2 visa is a nonimmigrant visa that allows dependent spouses and children of F-1 student visa holders to enter the U.S. and enroll in an educational institution. As a student with F-2 visa status, you can attend ASU only as a part-time student. For the graduate level, this means you may register for up to eight credit hours for the spring and fall terms. Some graduate programs do not allow students to attend part time. For additional information, please contact your program of interest.

More F-2 information [5]

SEVIS form I-20

An initial I-20 is issued for students with a new SEVIS record. A transfer I-20 is issued for students who have an active SEVIS record at a U.S. high school or higher education institution, and are transferring their records to ASU.

Initial I-20

If you have not been issued an I-20 in the past, or if you have but the SEVIS record affiliated with that I-20 was terminated or completed, you should request an initial I-20.

Once you have uploaded all required documents in My ASU [6] for the I-20, ASU Admission Services will begin the process of creating your initial I-20.

Transfer I-20

If you have an active SEVIS record at another U.S. school (high school or higher education institution) and are requesting an I-20 through ASU, you should follow the Request Transfer SEVIS Form I-20 section below. Once you have uploaded all required documents in My ASU [6] for the I-20, ASU Admission Services will begin the process of creating your transfer I-20.

Transfer Sevis section [7]

Getting an I-20

An I-20 is an important immigration document that F-1 students need in order to obtain their student visa and enter the U.S. ASU guides each student through the process of obtaining their I-20. **Priority Tasks** on My ASU [6] alerts students to the steps they need to take. The process of obtaining an I-20 can take some time, so it is important not to wait until the last minute to begin gathering the necessary documents and uploading them.

For sponsored students, the steps to obtaining an I-20 are slightly different than for nonsponsored students. Students should use the descriptions below to determine whether or not they are a sponsored student.

Sponsored student

A sponsored student's school and living expenses are paid by a sponsoring agency recognized by ASU.

Some examples of sponsoring agencies are ADNOC, Aramco, Dubai Electricity & Water Authority, Kuwait Cultural Office, Oman Cultural Division, Qatar Airways, Qatar Defense Attaché, Qatar Higher Education Institute, QatarEnergy, RasGas, Saudi Arabian Cultural Mission, Sidra, UAE Cultural Division and the UAE Scholarship Coordination Office.

Most of ASU's sponsored students come from Saudi Arabia, Kuwait, United Arab Emirates, Qatar and Oman.

Note: Students receiving an ASU scholarship or TA/RA position are not considered sponsored students.

Once you have uploaded all required documents in My ASU [6] for the I-20, ASU Admission Services will begin the process of creating your initial I-20.

Nonsponsored student

A nonsponsored student's school and living expenses are paid for through personal or family funds, loans, or other means not associated with an ASU-recognized sponsoring agency.

Students who are unsure if they are a sponsored student should contact ASU Admission Services at ASUinternational@asu.edu [3] or +1 480-965-2437.

How to request an I-20

Step 01: Fill out the Financial Guarantee form

In compliance with the Department of Homeland Security and SEVIS regulations, all international applicants on the F-1 student visa must provide evidence of sufficient funds available for their studies in the U.S. For this purpose, a Financial Guarantee form [8] must be completed and submitted along with bank statements dated within the past 12 months and signed or wet stamped by an authorized bank or representative, or by a recognized sponsoring agency in the U.S. Please submit your Financial Guarantee form along with your bank statements or sponsor letter from an authorized sponsoring agency. ASU will not be able to process your SEVIS Form I -20 without receipt of your Financial Guarantee.

Please refer to the Financial Guarantee form to determine the amount of funds required for your specific program and campus. You can access the form here [8].

Students with dependents (e.g., spouse, child) who will be joining them in the U.S. during their time on an F-1 or J-1 visa will need to provide proof of the following additional funds:

Additional financial support needed for dependents:

Spouse – \$7,000

Each child – \$5,000

Financial Guarantee form [8]

Step 02: Provide bank statements

The Financial Guarantee form is separate from the financial documentation that you will need to provide. Examples of financial documents valid for I-20 processing are listed below.

Bank statements that show liquid funds (funds that can be immediately accessed and used). These can be one statement covering the entire amount displayed on the financial guarantee form for one year of attendance at the university, or a collection of bank statements from the people listed on the financial guarantee as sponsors. Note that the summary of available balances on these statements will still need to total the amount listed on the financial guarantee form for one year of attendance at the university. These statements need to be dated within the last 12 months. Please note that an Affidavit of Support cannot be used in lieu of a bank statement.

For sponsored students, a sponsor letter produced by a sponsoring agency recognized by ASU stating the applicant's full name, academic program in ASU, term of the sponsorship and amounts covered by it. Some of the agencies are: ADNOC, Aramco, Dubai Electricity & Water Authority, Kuwait Cultural Office, Oman Cultural Division, Qatar Airways, Qatar Defense Attaché, Qatar Higher Education Institute, QatarEnergy, RasGas, Saudi Arabian Cultural Mission, Sidra, UAE Cultural Division and the UAE Scholarship Coordination Office. You can read more about this in the sponsored student section.

Scholarship Letters and TA/RA (ASU teaching assistant/resident assistant) offer letters: If the scholarship and/or TA/RA offers do not cover the full costs indicated on the Financial Guarantee for your program, please make sure that additional funding support documentation is also submitted.

Step 03: Upload a copy of your passport

You may take a clear photo or scan of the biographic page of your passport and upload it to the link on My ASU [6]. The bio page is the page that shows your picture and personal details. Your passport must be valid for at least six months after your proposed date of entry into the U.S. If it is not valid, the I-20 will not be processed.

Step 04: Request initial SEVIS Form I-20

Undergraduate students

Once you are admitted to ASU and submit your Financial Guarantee form, you will need to complete two steps for us to create and send your SEVIS Form I-20. The tasks will appear in your Priority Tasks list on My ASU [6]. Upload the following items through My ASU. Once received, Admission Services will review the documents and if all items are complete will process the request for I-20. If any items are incomplete, you will receive an email and priority task on My ASU requesting updates.

- Financial Guarantee form. [6]
- Proof of finances (bank statement).
- Passport.

If you are already studying in the U.S. on a SEVIS Form I-20, you will need to have your records transferred to ASU by following the Transfer SEVIS Form I-20 steps (see Step 03 below).

Graduate students

Once you are admitted to a graduate program at ASU, you will see new items on your My ASU [6] Priority Tasks list. The items include:

- Financial Guarantee form.
- Proof of finances.
- Passport.

When you click on the items in your Priority Tasks, a pop-up box will provide you with additional information and directions for what you need to do.

You will also see two Graduate Admission Services holds, which will be removed when your SEVIS Form I-20 is issued.

When you submit your Financial Guarantee form and proof of finances, copy of your passport, and SEVIS Transfer form (if applicable), allow three business days for the items to be processed and removed from your Priority Tasks list. When the documentation has been added to your electronic file, the documentation will be reviewed within 7-10 business days for completeness and that the financial documents show sufficient funding for one academic year. If anything is found to be incomplete or lacking funds, you will receive an email and updated priority task requesting updated documentation. Once the documentation has been verified as complete, your I-20 will be emailed to you.

OR

Request transfer SEVIS form I-20

Print the ASU SEVIS Transfer Request form [9] and submit it to your current school informing your intent to enroll at ASU. Once the DSO at your transfer out institution has signed the SEVIS Transfer request form, upload the document through My ASU.

Once the SEVIS Transfer Form, Financial Guarantee, Financial Documents and copy of passport are received and verified to be accurate, ASU will email you the I-20 once the SEVIS release date indicated on the SEVIS Transfer Form has arrived. We are unable to transfer your SEVIS record and issue an I-20 until the date indicated on the form.

If you are going to travel outside the U.S. before your studies at ASU, you will need to reenter the U.S. with the ASU SEVIS Form I-20. Present the ASU SEVIS Form I-20 at the U.S. Port of Entry.

If you have any questions, please contact the international student advisor at the school that you are now attending or contact:

Admission Services
1151 S Forest Avenue
Tempe, AZ 85287-0112

Phone: 480-965-2437

Undergrad Email: asuinternational@asu.edu [3]

Graduate Email: GradI20@asu.edu [10]

Step 05: Review SEVIS form I-20

It is important to understand your SEVIS document; each page contains important information that you must read. You must ensure that all information is correct (spelling, dates, etc.). If there are any mistakes, please contact the admission office as soon as possible to have the information corrected. You will need the SEVIS Form I-20 or Form DS-2019, your ASU notification of admission, the Financial Guarantee form, and your passport in order to obtain your student visa at the U.S. consulate nearest you. [11]

Understanding the SEVIS form I-20

The SEVIS Form I-20 is a three-page government document used for students to obtain an F-1 visa.

- Page 1 contains program and biographical information.
 - Your SEVIS Identification Number is on the top right side of the form. You will need this number for your visa application and to pay the SEVIS fee.
 - F-1 students will be permitted to enter the U.S. 30 days prior to their report date, which is No. 5 on their SEVIS Form I-20. Please note that if you enter the U.S. after the report date, you may encounter difficulty with immigration officials at the Port of Entry. By signing the Student Certification No. 11 on the SEVIS Form I-20, you are acknowledging that you have read and understand the terms and conditions of F-1 status.
- Page 2 contains instructions for the school and student. It is important that you read Page 2 of your SEVIS Form I-20, which has important immigration information for maintaining your F-1 status while pursuing your studies at ASU.
- Page 3 contains spaces for future travel authorization. You will not need a signature on this page when you travel to the U.S. using your SEVIS Form I-20 for the first time.

Note: Dependents accompanying the F-1 student in F-2 status must have their own SEVIS Form I-20 issued in the name of the dependent.

Understanding the SEVIS form DS-2019

The SEVIS Form DS-2019 is a two-page government document used for students and scholars to obtain a J-1 visa.

- Page 1 contains program and biographical information.
 - Your SEVIS Identification Number is on the top right side of the form. You will need this number for your visa application and to pay for the SEVIS fee.
 - This page also contains spaces for future travel authorization. You will not need a signature on this page when you travel to the U.S. using your SEVIS Form DS-2019 for the first time.
- Page 2 contains instructions for the school and student. It is important that you read Page 2 of SEVIS Form DS-2019, which has important immigration information for maintaining your J-1 status while pursuing your studies at ASU.

Note: Dependents accompanying the J-1 student in J-2 status must have their own SEVIS Form DS-2019 issued in the name of the dependent.

Step 06: Process SEVIS form I-901 and payment

Upon receipt of SEVIS Form I-20 or Form DS-2019, you will have the information needed to pay the SEVIS fee and the SEVIS Form I-901 [12] fee. You must pay the SEVIS fee and have a receipt prior to applying for a student visa.

The SEVIS Form I-901 [13] fee is mandated by the U.S. Congress to support the program office and the automated system that keeps track of students and exchange visitors, and ensures that they maintain their status while in the U.S.

I-20 and DS-2019 issuance timeline

The U.S. government has strict regulations on the issuance of I-20 and DS-2019 documents to international students who wish to attend an educational institution in the U.S. The dates below are for issuance of an I-20 or DS-2019, the latest date to report to the appropriate international student office, and the final day to be enrolled full time. Any noncompliance with these dates may preclude you from registering for classes. International students not enrolled full time will have their SEVIS record terminated and become subject to detainment and deportation.

Fall 2024 semester

Feb. 1, 2024

First day to issue I-20/DS-2019.

July 22, 2024

Final day to issue I-20/DS-2019 outside the U.S.

July 23–Aug. 22, 2024

Mandatory SEVIS check-in with the International Students and Scholars Center.

Aug. 22, 2024

Final day to issue I-20/DS-2019 for SEVIS transfer students within the U.S.

Aug. 22, 2024

First day of classes and deadline to check in with ISSC.

Spring 2025 semester**Sept. 1, 2024**

First day to issue I-20/DS-2019.

Dec. 6, 2024

Final day to issue I-20/DS-2019 outside the U.S.

Dec. 6, 2024 –Jan. 13, 2025

Mandatory SEVIS check-in with the International Students and Scholars Center.

Jan. 13, 2025

Final day to issue I-20/DS-2019 for SEVIS transfer students within the U.S.

Jan. 13, 2025

First day of classes and deadline to check in with ISSC.

The student visa application process**Step 01: Apply for nonimmigrant visa, DS-160**

As a visa applicant, you must submit a completed DS-160: Online Nonimmigrant Visa Application [14] for all nonimmigrant visa categories. Read complete details about student visas. [15]

Note: After you have completed the DS-160, you will need to print and keep the DS-160 barcode page.

Step 02: Schedule visa interview

To schedule your interview, locate your local U.S. Embassy or Consulate [11]. Each consulate sets its own timeline for accepting and processing [4] student visa applications. If the consulate says apply “at least” 60 days before your program departure, this means no fewer than 60 days. To avoid problems, submit your visa application at the earliest date the consulate will accept it.

Step 03: Pay visa application fee

Please read information about nonimmigrant visa application fees [16]. Applicants must pay these fees as directed prior to their visa interview, and they must bring the receipt to their interview.

If the visa is issued, please note that a Visa Issuance Reciprocity Fee may be applicable based on your country of citizenship. Please refer to the Visa Reciprocity Table [17] to see if this fee applies to you.

Step 04: Prepare for visa interview

Start gathering the required documents for your student visa application the moment you apply to your program. Read through all information provided online by the U.S. Embassy or Consulate [11] that you will be visiting.

Gather and prepare the following required documents before your visa interview:

- **Passport** valid for at least six months after your proposed date of entry into the U.S.
- **Nonimmigrant Visa Application, Form DS-160 confirmation page.**
- **Application fee payment receipt**, if you are required to pay before your interview.
- **Photo.** You will upload while completing the online form DS-160. If the photo upload fails, you must bring a 2x2 inch photograph of yourself.
- **SEVIS Form I-20 or Form DS-2019** with your SEVIS record number issued by ASU. You must sign Form I-20.

Additional documentation may be required

A consular officer will interview you to determine your qualifications for a student visa, and may request additional documents. You should be prepared to provide evidence such as:

- A receipt of your SEVIS Form I-901 fee.
- Transcripts, diplomas, degrees or certificates from schools you attended.
- Standardized test scores required by your U.S. school.
- Your intent to depart the U.S. upon completion of the course of study.
- How you will pay all educational, living and travel costs, including financial evidence showing you, your parents or sponsor have sufficient funds to cover your tuition and living expenses during your study.

Tips on preparing for your interview [18]

In addition to visiting the U.S. State Department link above, here are some additional tips on preparing for your interview.

- A consular officer will interview you in English to determine whether you qualify for a student visa. Do not ask them to conduct the interview in another language.
- On average, visa interviews are about three minutes long. Students must be proactive at their visa interview to succeed. Be prepared if they ask you (1) why you want to study in the U.S., (2) why you chose your major and why you chose to study at ASU, (3) what you are excited about, and (4) what you plan to do in the future and/or what ties you have to your home country.
- If asked for proof of funding, some officers look favorable upon students who can show more than the required amount on their I-20 as a way to show they can afford their education and time in the U.S. If funds from extended family members are submitted, be prepared to answer questions about how close you are to your relatives, if you are planning to pay them back, if they are funding your entire education, how much that person is providing you, etc.

For more information, please visit the U.S. Department of State [18] website.

Step 05: Prepare documents for travel

As you get ready to arrive in Arizona, be sure to prepare your documents for travel. Here are some items you should carry with you. It is advisable to keep a copy in your checked luggage and one with your family at home. Make sure you have these original documents available at all times while traveling to and within the U.S.:

- SEVIS Form I-20 or Form DS-2019.
- Valid passport.
- Current visa.
- Copy of immunization records.
- Original supporting financial documents.
- Dependents' I-20 or DS-2019 and passports if your spouse and children will be traveling with you.
- International travel coverage documents, if you purchased this coverage.

Frequently asked questions about student visas

How do I get a student visa?

To get a student visa, you must first apply and be admitted to ASU. Once admitted, you must apply for an I-20 through ASU by uploading the required documentation. Once you receive your SEVIS number from the I-20 created by ASU, you'll apply for your student visa through your country's embassy. The visa process includes some paperwork and an in-person interview with an immigration officer at your local embassy. The embassy then creates the student visa with your passport and will indicate the dates you can arrive in the U.S. for your studies.

What is SEVIS?

SEVIS stands for Student and Exchange Visitor Information System. You must complete a SEVIS form I-20 to get an F-1 student visa or a SEVIS form DS-2019 to get a J-1 student visa.

Can I get a job while in the U.S. as a student?

Yes, you may work as a student, though ASU recommends you work no more than 20 hours per week. Many international students work for ASU, as the university employs more than 10,000 students. You may also work off campus, but if you do, it's important that your employer understands that you are an ASU student and that your education is one of your top priorities.

International first-year student next steps

Congratulations on your admission to ASU

It is our pleasure to welcome you.

We are excited that you have chosen to pursue your degree at Arizona State University.

This is your guide through the important steps you need to take to enroll in classes and prepare for the beginning of your academic year. Here you will find information about the visa application process, preparing for travel, arriving at ASU, registering for classes and much more.

Be sure to check My ASU [1] regularly and complete any pending items under your Priority Tasks. We look forward to seeing you in Arizona soon.

International student tips

Important deadlines

To help you stay on track with the fall 2024 admission and financial aid processes, check out our important deadlines page.

[View dates \[2\]](#)

Need help?

ASU admission team members can answer your questions and guide you through each step of the enrollment process between now and the time you get started.

[Schedule an appointment \[3\]](#)

Travel and arrival

ASU is committed to the safe and seamless transition from your home country to the U.S.

[Travel info \[4\]](#)

International first-year student next steps

Activate your ASU ID to check My ASU

After you applied to ASU, you were issued an ASURITE User ID in an email with the subject line “ASU Account Activation.” This ID gives you access to ASU’s online student services in My ASU [1], where you’ll see next steps and to-do items for enrollment. You must activate your ASURITE User ID online. [5]

When you activate your ASURITE User ID, you will select to have your ASU email forwarded to a personal account. It’s important to check your email often for time-sensitive notifications and next steps about enrollment. You’ll have access to your official ASU email when classes begin. You can check which email your ASU email is forwarding to by looking in the profile tab in My ASU.

Remember to save your admit letter, which is posted to My ASU, so you have it for travel.

Visit My ASU [1]

Request your I-20 and apply for your visa

International students who wish to pursue their studies at ASU must obtain an F-1 or J-1 visa. To obtain a visa, students must first receive a SEVIS number and I-20 document from ASU.

ASU guides each student through the process of obtaining their I-20 using the I-20 Tracker in My ASU.

More about I-20 [6]

Give your parents or family access to your records and account

Through My ASU Parent Guest Access, you can share your academic records with your parent or guardian and give them access to pay your tuition and bills. Go to My ASU, select the Profile tab at the top and find “Add a Guest” under My ASU Guest Access Permissions.

Visit My ASU [1]

Pay your enrollment deposit

Pay your enrollment deposit [7] through My ASU [1] to confirm you will attend.

Pay deposit [8]

Complete the math placement test

All first-year students are required to take the math placement test at least seven calendar days before their Academic Orientation Session. You will see the item “Take Math Placement Test” under **Priority Tasks** in My ASU [1], and you will also see this task in ASU’s New Student Orientation Experience step 2, Academic Orientation.

Submit your measles, mumps and rubella immunization record

All students born after Jan. 1, 1957, are required to meet the following MMR immunization requirement [8] before classes begin. You can upload required documentation in your ASU My Health Portal. [9]

The MMR vaccine is available for a fee at any of ASU’s Health Services [10] locations.

My Health Portal [9]

ASU’s New Student Orientation Experience

Through ASU’s New Student Experience, accessed online in My ASU, you will prepare to take classes in the fall by completing essential next steps for enrollment. There are three steps — log in to My ASU [1] to view details. Step 2 is the

Academic Orientation Session, where you'll meet with your academic college and finalize your class schedule. All students must complete the New Student Orientation Experience in order to enroll in classes.

New Student Experience [11]

Confirm housing and dining options

All ASU first-year students live in the residential college of their academic major. Barrett students live in the Barrett residential community for their first two years. ASU's housing portal for fall 2024 is now open. Once the housing portal opens and you've paid your enrollment deposit, you can select your housing and dining preferences. The priority housing deadline is May 15. We cannot guarantee your housing preference if you apply after the priority deadline. Visit ASU's housing portal. [12]

Select housing [13]

Learn about housing options. [14]

Health insurance

Health insurance is mandatory for all registered international students and a condition of enrollment, and requires that international students have adequate medical and accident insurance coverage. Mandatory student health insurance is automatically charged for all international students.

Insurance info [15]

Learn about tuition and fees

Tuition charges will be billed to your student account and may be viewed online through My ASU. By registering for classes, you agree to pay all applicable tuition and registration fees. If you decide not to attend, you must completely withdraw from all classes before the semester begins.

If tuition is not paid by the applicable due date, you will automatically be enrolled in the tuition installment plan and charged a nonrefundable enrollment fee.

ASU has partnered with Flywire [16] to offer a streamlined and cost-effective payment method for you to send international payments. Flywire offers favorable exchange rates and a secure portal for processing your payment to ASU. Create a Flywire login to make payments and review your payment activity and history.

Visit the Tuition and Billing [17] website for more information.

Transcripts

Requesting official transcripts

Request that your official transcript(s) be sent to Admission Services.

Your official transcripts are certified copies from each high school, college, university or technical school you attended that show the courses you took, grades you earned, and certificates or degrees you were awarded. Arizona State University requires you to send transcripts from every institution you attended.

Upon graduation or the completion of the semester, request that your school or schools send a final transcript directly to ASU to determine final university admission status. Official transcripts must be sent directly to Admission Services at ASU from the issuing institution's records office either by mail or electronically through a secured transcript service approved by ASU.

- Transcripts may not be faxed.
- Transcripts sent via email may be accepted if sent directly from an authorized school official at the issuing institution to ASU at transcripts@asu.edu [1]. If ASU is unable to verify the sender is from the issuing institution, the emailed transcript will not be accepted as official.
- Official transcripts delivered by hand will be accepted only if they are sealed in the original envelope provided by the community college or university and bear the university seal and the signature of the registrar of the issuing institution.
- When possible, please include the student's full name and student number or application number in transcript submissions.
- Any transcripts submitted by students directly via email are considered unofficial and will not satisfy our official transcript priority task requirement.

Emails sent to transcripts@asu.edu [1] or gradtranscripts@asu.edu [2] must not exceed 25MB total and individual attachments must not exceed 5 MB. Any attachments must be in one of these approved file types.

Microsoft Word (.doc or .docx)
Microsoft Excel (.xls or .xlsx)
Image (.jpg .jpeg .gif .png)
Adobe PDF (.pdf)
Text (.txt)

If the file size is exceeded and/or the document type is not supported, the email will be rejected.

Documents not accepted through the transcripts inboxes

NOTE: The transcript inboxes are only for transcripts/mark sheets sent to ASU directly from the sending institution or transcript vendor, English translations of transcripts, degree/graduation certificates, and transcript supporting documentation such as school profiles and degree program curriculum sheets. Please do NOT send the following documents to our transcript email addresses (transcripts@asu.edu [1] or gradtranscripts@asu.edu [2]) as they will not be added to the student record.

- English proficiency scores **not** sent by the testing service itself.
- I-20 documents such as bank statements, financial guarantees or passports.
- Letters of recommendation.
- Resumes.

For more information on submitting English proficiency test scores, I-20 or Letters of Recommendation documents, please see the following webpages:

- **I-20 information:** <https://admission.asu.edu/international/student-visa> [3]
- **English proficiency information:**
 - Undergraduate Admission: <https://admission.asu.edu/international/undergrad/english-proficiency> [4]
 - Graduate Admission: <https://admission.asu.edu/international/graduate/english-proficiency> [5]
- **Letters of Recommendation information:**
 - Graduate Letters of recommendation: <https://admission.asu.edu/graduate/letter-of-recommendation> [6]
 - Undergraduate Admission: Not needed unless we specifically ask you for this information.
- **Resume information:**
 - Graduate Admission: Should be uploaded at the time of application, if required for the program of application. <https://admission.asu.edu/graduate/apply> [7]
 - Undergraduate Admission: Not needed as part of the application process.

We will accept transcripts received from the following secured transcript services*:

- Accellion
- Acclaim / Credly
- Advanced Secure Technologies
- Arizona HSE State Tracking and Report System
- Barracuda
- BridgeU
- Cambridge International
- CDGDC
- CHESSIC
- Cialfo
- CISCO
- Concourse Global
- Credential Solutions
- Digitary
- Docswallet
- Elmira College
- Escript
- eTranscript California
- George Brown College
- Greenlight
- Kiteworks
- LinShare
- LiquidFiles

- Scoir
- Scribbles Software
- SendThisFile
- Serv-U
- SPEEDE
- Transcripts Plus
- Truecopy
- Unifrog
- Univariety
- University of Edinburgh
- Virtru
- Vitnemalsportalen
- XAP
- ZIX

* Note: List is subject to change.

- For transcripts sent through a secured transcript service, please select Arizona State University from the vendor's dropdown list to ensure the transcript is routed to the correct place. If an email address is requested you can route to transcripts@asu.edu [1], or for graduate applicants to gradtranscripts@asu.edu [2]. Please note that transcripts sent by students to transcripts@asu.edu [1] or gradtranscripts@asu.edu [2] will not be accepted as official. These addresses are only for transcripts received from secured and approved transcript services.

International transcript/degree certificate

- If you are required to submit a degree certificate along with your transcripts, a scan may be made of the front and back of your certificate and emailed to transcripts@asu.edu [1] for undergraduate applicants or gradtranscripts@asu.edu [2] for graduate applicants. Please make sure that ASU is in possession of your official, final degree posted transcript prior to submission of your degree certificate. The original certificate does not need to be mailed.
- For more information on country specific comparable degree requirements and transcript/degree certificate information per country, please refer to comparable requirements section on:
 - International First-Year Apply webpage [8]
 - International Transfer Apply webpage [9]
 - International Graduate Apply webpage [10]

Important: If you email a copy of your degree certificate, please email only the degree certificate. Do not include copies of transcripts. Transcripts will not be accepted as official if sent by you and will delay processing of your degree certificate. The transcripts@asu.edu [1] and gradtranscripts@asu.edu [2] email addresses are for receipt of transcripts from vendors and institutions and copies of degree certificates from students. This inbox does not respond to general questions. Questions should be routed to your admission representative. [11]

High school transcripts from the United States

Official transcripts must be sent directly to Admission Services at ASU from the issuing institution's records office either by mail or electronically. Domestic high school transcripts delivered by hand will be accepted only if they are sealed in the original envelope provided by the high school. High school transcripts must show courses, grades, GPA and date of graduation. Sealed official high school transcripts can be sent in the mail or dropped off at the Admission Services customer service counter on the first floor in the Student Services Building [12], window 5, on the Tempe campus.

Community college or university transcripts from the United States

An official college transcript must be in a sealed envelope sent directly from the issuing institution's records office either by mail or electronically. Transcripts delivered by hand will be accepted only if they are sealed in the original envelope provided by the community college or university.

International transcripts and exam results

Graduate applicants: Official, original or authenticated transcripts from every college or university from which you earned a comparable credential to a U.S. bachelor's degree or higher must be sent to ASU in the original language and accompanied by an English translation (if the original document was not issued in English).

Undergraduate applicants: Official, original or authenticated transcripts and exam results from every secondary or higher-secondary school (grades 9-12) and transcripts from any college or university attended must be sent to ASU in the original language and accompanied by an English translation (if the original document was not issued in English).

Request transcripts from each international educational institution you attended and exam boards from which you have official results. Official transcripts must be mailed or sent directly from the issuing institution's records office electronically, and must include a certified English translation of all documents not issued in English. ASU will accept transcripts sent as email attachments if the email can be verified as coming from an authorized school official at the sending institution. If your school(s) cannot send them directly to ASU, you may send them yourself, making sure they meet one of the following requirements:

- Original academic credentials issued by the registrar of the institution attended, bearing the original raised or colored seal of the institution and the signature of the institution's registrar, academic official or recognized international organization.
- Photocopies of academic credentials that have been verified as true copies of the original by a responsible official of the institution attended or by an education representative of the country's government or embassy. Each page must bear the verifying official's signature and stamp.
- Photocopies of academic credentials that have been certified by a recognized international educational organization, such as EducationUSA, the U.S. Educational Foundation, AMIDEAST or the Institute for International Education.
- Photocopies of an international high school academic credential that has been verified as official by a recognized U.S. high school.

ASU recommends that you have your international transcripts sent to ASU directly from the issuing institution, utilize a secured transcript service (where available) or obtain an attested copy of the transcript (where possible). Sending your only original copy to ASU should be the last option.

- We recommend students sending documents from abroad use FedEx or DHL in order to obtain a tracking number. If possible, include your ASU student ID number and name written on each page of the transcript(s) you send.
- Any document ASU receives becomes property of ASU and will not be returned to you, unless it is a situation where another copy cannot be obtained.
- Photocopies certified by a notary public are not official and will not be accepted. Scanned copies are also not accepted in lieu of original official academic documents.

Transcripts can be sent by mail to the following locations:

Regular Mail

Admission Services Applicant Processing
Arizona State University
PO Box 871004
Tempe AZ 85287-1004

FedEx, DHL (any sender who will not send to a P.O. Box)

Arizona State University
Admission Services Applicant Processing
1150 East University Drive Building C, Room 226
Tempe, AZ 85281

International transcript translations

Transcripts and degree certificates not issued in English require submission of an English translation in addition to the original language documents. Translations must be literal, complete versions of the originals and must be translated by one of the following:

- Issuing university or college.
- Official translation services. Need assistance locating a translation service? Visit American Translators Association [13] to search for a translator for your target language.
- Ministry of Education, consulate or embassy.
- Education USA (EdUSA) [14], AMIDEAST [15], or U.S. Indian Education Foundation (USIEF) [16].

The translation does not take the place of submitting official academic records in the original language. The translation is in addition to the official academic record. Translations may not be completed by the student. Translations certified by a notary public are not acceptable.

You may not complete your own translation. Please have the translation service mail the official translation to ASU. Translations may also be emailed to transcripts@asu.edu [1] by the translation service.

Note: Some third party evaluation agencies are also members of American Translators Association and provide both translation and credential evaluation services. If using a third party evaluation agency for translation services, be sure you are requesting a literal translation. A literal translation is an exact translation of the document (including notation of seals, signatures, etc). Credential Evaluation reports will have grade and credit conversions and interpretation of the document and are not literal translations.

Instructions for requesting original international transcript return (only in cases where another copy is unobtainable)

To request a return of your original documents (only in cases where another copy is unobtainable) use the eShipGlobal service to have your document(s) express mailed to you through FedEx, DHL or UPS at your own expense. To do so, visit <https://study.eshipglobal.com> [17] (do not visit FedEx, DHL or UPS websites directly). You will be required to create a user name and password to set up an eShipGlobal account. To request shipment, you will need your ASU ID number, mailing address, email address, phone number and payment information.

After creating your eShipGlobal account, follow the steps below to create your shipping label.

1. **Get started:** Click on the "Get started" link on the homepage and select "Receive documents from university."
2. **Choose university:** Proceed to the university selection and choose Arizona State University-All Locations. You will see two options. One for International Students and Scholars Center and one for Admission Services. Be sure to select Admission Services or your request will not be fulfilled.
3. **Confirm address:** The next page asks you to enter your shipping details. There will be a drop down on this page for type of document. Select "Documents/transcripts."
4. **Select carrier:** You will see a list of carriers that deliver to your area and the cost for delivery. Select the carrier and option you prefer.
5. **Confirm payment:** You will see a page requesting your payment information. The payment options for your country will be listed. Options may include one or more of the following: credit/debit, wire transfer or PayPal.

If you have questions about how to use this service, review the Help section of the eShipGlobal website or email support@eshipglobal.com. [18]

Once you have requested the shipment, please allow up to one month for return of your documents. Admission Services will review your request and if the request can be fulfilled you will receive an email from eShipGlobal to track your return. If a request for return is not made within 60 days of receipt of your documents, we cannot guarantee that we will still have the documents to return. We regularly purge all physical documents after scanning. Email transcriptreturn@asu.edu [19] with questions.

Applicants with credentials from India

If you have secondary or postsecondary study from India, you should have your credentials verified through Truecopy and Truecopy will send to ASU electronically through Parchment.

You can begin your order at <http://www.electronictranscripts.com/about-us.php#etquery> [20]

Applicants with credentials from China — required documents

Secondary education (中学在校生或毕业生)

Junior secondary (初中生)

1. Official transcript for grade 9 (初三成绩单) sent directly to ASU from issuing institution.

General senior secondary (普通高中生)

1. Official transcript (高中成绩单) sent directly to ASU from issuing institution.
2. Official verification report (认证报告) from CHSI* (学信网) for:
 1. Secondary school graduation certificate (高中毕业证书)
 1. You can begin your order at https://www.chsi.com.cn/en/help/howtoapply_p_en.jsp [21]. Your order will be sent electronically to ASU through Parchment.
3. Graduation certificate (高中毕业证书) (photocopy or scan sent to transcripts@asu.edu [1]).

Vocational secondary (中职/中专生)

1. Official transcript (高中成绩单) sent directly to ASU from issuing institution.
2. Graduation certificate (毕业证书) (photocopy or scan sent to transcripts@asu.edu [1]).

*CHSI: China Higher Education Student Information website is maintained by the Center for Student Services and Development (CSSD), Ministry of Education, P.R. China, CHSI is the only MOE-designed website for qualification verifications.

Post-secondary (university) programs (大学生或研究生) — complete and incomplete

Zhuanke (专科) required document

1. Official verification report
 1. CHSI* verification for zhuanke graduation certificate (学信网：学历在线验证报告或学历认证报告)
 2. CHSI* verification for zhuanke official transcript (学信网：成绩验证报告)
 1. Your fulfilled order will be sent to ASU electronically through Parchment. Please request the English language version. You can begin your order at https://www.chsi.com.cn/en/help/howtoapply_p_en.jsp. [21]
2. Graduation certificate (毕业证书) (photocopy or scan sent to transcripts@asu.edu [1]).
3. Official transcript (成绩单) (photocopy or scan sent to transcripts@asu.edu [1] if you have CHSI* send reports, otherwise official transcript should be sent directly to ASU by issuing institution).

Benke or higher (本科及以上学历) required documents

1. Official verification report (认证报告)
 1. CHSI* verification report for each degree certificate earned (学信网：学位在线验证报告或学位认证报告).
 2. CHSI* verification for each official transcript (学信网：成绩验证报告).
 1. Your fulfilled order will be sent to ASU electronically through Parchment. Please request the English language version. You can begin your order at https://www.chsi.com.cn/en/help/howtoapply_p_en.jsp. [21]
 3. Graduation certificate (毕业证书) (photocopy or scan sent to gradtranscripts@asu.edu [2]).
 4. Degree certificate (学位证书) (photocopy or scan sent to gradtranscripts@asu.edu [2]).
 5. Official transcript (成绩单) (photocopy or scan sent to gradtranscripts@asu.edu [2] if you have CHSI* verification reports sent, otherwise official transcripts should be sent directly to ASU by issuing institution).
 6. *CHSI: China Higher Education Student Information website is maintained by the Center for Student Services and Development (CSSD), Ministry of Education, P.R. China, CHSI is the only MOE-designed website for qualification verifications.

Frequently asked questions

How do I submit my transcripts to ASU?

You must request official transcripts from each educational institution attended. Official transcripts must be mailed or sent electronically directly to Online Applications by the records office of the issuing institution(s). ASU does not accept transcripts transmitted by fax.

Please have your transcripts sent to:

Regular Mail (USPS)

Admission Services Applicant Processing
Arizona State University
PO Box 871004
Tempe AZ 85287-1004

FedEx, DHL, etc

Arizona State University
Admission Services Applicant Processing
1150 East University Drive Building C, Room 226
Tempe, AZ 85281

Why do I need to turn in my high school transcript?

We need your high school transcript in order to verify your credits fulfill ASU's competency requirements for admission.

Will my transfer credits be accepted?

In general, transfer credit is awarded for courses meeting all of the following requirements:

- Grade earned is a "C" or better (on a scale of 4.00).
- Completed at a regionally accredited postsecondary institution in the United States.
- Course is considered to be college-level (not remedial) and is not highly technical/vocational.
- A maximum of 64 community college credits may be transferred to ASU.

Do you have international credits? <https://students.asu.edu/international/future/undergrad> [26]

There isn't an expiration date for transfer credits that meet the eligibility requirements, although some courses (e.g., Computers and Economics) may need to be retaken depending on their relevancy to today's courses.

Certain types of credit cannot be transferred to ASU, including credit awarded by postsecondary institutions for life experience, workshops and seminars. Also, military SMART transcripts and experiences are not transferable.

Your enrollment counselor will tell you exactly how your transfer credits fit into your degree program.

When will I receive an admissions decision?

Once your application file is complete, we will process it with the highest priority, and you should expect an admission decision within a few weeks. To see if you have any missing items and to view your admission status, sign in to My ASU [27] using your ASURITE UserID, which is sent to you after you apply for admission.

How do I complete my application?

An admission application file is complete once ASU receives all of your required transcripts. If you haven't completed an Associate of Arts degree, have your official high school transcript sent as well. Please have your transcripts sent to:

Military and veterans at ASU

Why so many veteran and military students choose ASU

ASU and the Pat Tillman Veterans Center [1] welcome you to your next adventure — accomplishing your education and career goals. Student veterans and active-duty service members are a valuable part of the ASU community and our academic environment. Whether you're planning to earn your degree online or on campus, you can:

- Continue serving as a leader by getting involved.
- Take advantage of job and career opportunities.
- Attend virtual or in-person career fairs.
- Earn your service honor stole to wear at graduation.

You've already proven you can succeed in one world-class organization. We believe in you and know you can succeed here as well. ASU's Pat Tillman Veterans Center team is here to help you every step of the way. It's why ASU is consistently included among the best schools for veterans and military students.

Benefits

You've earned your military benefits, but navigating the paperwork can be tricky. We're here to help. Check out these steps [2] for getting your benefits started.

For additional assistance, contact ASU's veteran and military admission specialist.

Contact us [3]

Pat Tillman Veterans Center

ASU's Pat Tillman Veterans Center is one of the reasons ASU is a top university for veteran, military and dependent students. The center's mission is to empower and engage our ASU military and veteran community with their academic and personal success at ASU and beyond.

Pat Tillman Veterans Center [1]

Campuses and ASU Online

ASU lets you choose the best learning environment for you. We offer four metro Phoenix area campuses as well as a location in Lake Havasu City, known for its outdoor adventures and one-on-one attention. You can also study remotely with ASU Online, which offers the same degrees and professors as our on-campus programs.

Find your fit [4]

Not sure if you're ready for higher education?

Take our "Is College Right For Me?" survey. The veterans center has partnered with PreVeteran to create a survey our community can use to navigate common thoughts experienced when considering higher education after the military.

Start survey [5]

Are you looking for a veteran application to ASU?

We make it easy — there's no separate application for veteran and military applicants. Just submit the application for your student level.

First-year [6]

Transfer [7]

Graduate [8]

Connect with a veteran and military admission specialist [9] in the Pat Tillman Veterans Center if you have any questions about applying to ASU.

LIA 294: Student Success for Veterans

Have you registered for ASU's veteran-specific introductory course? Designed for the student veteran, LIA 294: Student Success for Veterans provides you with support systems, academic resources and transitional aid. Meet other student veterans and learn about how ASU, the state of Arizona and the VA can assist you throughout your college experience. There are only 19 seats per class on each campus, so secure your spot today.

If you are a veteran in need of an orientation class, then you have no business taking the regular ASU orientation course. Do yourself a favor and take LIA 294; it will put you at a running start for successful and expedient graduation.

Kenny Chiaghana, Marine Corps, philosophy major

At ASU, you'll join

20,016

ASU military and veteran students
(enrolled in person and online)

16,880

in bachelor's degree programs

3,136

in graduate degree programs

7,243

PO Box 871004
Tempe, AZ 85287-1004

ASU accepts the following military transcripts for transfer credit:

Air Force and Space Force members

Enlisted members

The Community College of the Air Force is a regionally accredited community college. If you received credit for courses taken through the CCAF while in active service, submit this transcript as part of your application. You can request to have your official CCAF transcript sent to ASU from the Community College of the Air Force transcripts [10] page. CCAF now offers electronic transcript delivery through Parchment, a digital credentialing service. Students can create an account on Parchment [11] to send transcripts.

Officers

Officer transcripts are maintained by Air University. First-time users must create an account by accessing the AU Service Desk [12]. This works better on non-NIPR and Google Chrome. On the homepage under the Quick Links tab, select Official Transcript Request. Complete the required components of the form, add the attachments and submit. The Service Desk can be accessed by any device that has internet access; it is Common Access Card (CAC) enabled, but this is not required. The AU Service Desk is a secure application and certified for submission of Privacy Act information.

Army, Marine Corps, Navy and Coast Guard members

- The Joint Services Transcript has replaced the Coast Guard Institute Transcript, the Army/American Council on Education Registry Transcript System, and the Sailor/Marine American Council on Education Registry Transcript.
- All enlisted members, officers and warrant officers, both active and veterans from all Army components, Coast Guard, Marine Corps and Navy, are eligible for a JST. You do not have to be on active duty to access the JST website and your transcript. Active duty, reserve, veterans or National Guard personnel can use JSTs.
- Some students may have concerns about a security warning when accessing the website. This happens when a user logs in to a Department of Defense network from a non-networked computer without a CAC. You can confirm the security exception to proceed to the JST request site. If you do not confirm this exception, you will be unable to place your order.
- Register [13] for a JST account, and direct the DoD to send your transcript to ASU.

**ASU is measured not by whom it excludes, but by whom it includes and how they succeed.
- Excerpt from ASU's Charter**

Honoring our veteran community

Arizona State University is proud of our veteran and active-duty student population, and thankful for all they have done for our country.

Pat Tillman's life and legacy live on at ASU

Pat Tillman was an ASU student scholar and star football player who graduated in 3½ years and went on to play professionally with the Arizona Cardinals. In 2002, Pat walked away from a \$3.6 million contract with the Cardinals to enlist in the U.S. Army. He died while serving in Afghanistan in 2004.

Celebrating military veterans and their service to our country: Arizona State University (ASU) [14] on Youtube

As a scholar, athlete and soldier, Pat Tillman performed at his best. ASU continues to honor Pat with the annual Pat's Run, the Pat Tillman Veterans Center, Tillman Tunnel and in countless other ways. His passion for life and expectations of excellence reverberate through everything we do.

Watch the video [15]

Frequently asked questions about being a veteran at ASU

What's it like to be a veteran or military student at ASU?

There are more than 20,000 veterans and military students on campus and online. You'll receive support from the Pat Tillman Veterans Center, the VA VetSuccess on Campus counselor, and ASU's faculty and staff to succeed in your goals — from applying to ASU, getting your benefits set up, making sure you are using your benefits to your best advantage, and getting connected to events and opportunities for veterans and military students.

Is ASU a military friendly school?

ASU is consistently recognized as one of the best schools in the country, both on campus and online, for veterans and the military community. We want veteran and military students and their families to succeed, achieve their goals and move on to the next chapter in their lives, and we're here to help you get there.

What are the steps to getting admitted as a student veteran?

We understand the admission process can be complicated, so we've created a checklist to help guide you through it. Start your application [6] and refer to this checklist [16] throughout the admission process for helpful tips about applying and succeeding as an active duty, veteran or military-affiliated student at ASU.

Are there any degree programs just for veterans or military students?

ASU does not offer exclusive degree programs for veteran or military students. However, we encourage you to take advantage of two courses specifically designed to connect you with other veteran and military students on campus and online, and introduce you to various resources available through the university, the state of Arizona and the Department of Veteran Affairs.

Veteran and military dependent new student checklist

Admission and enrollment guidance for benefit users

The Pat Tillman Veterans Center is here to assist you in checking off your to-do list prior to attending Arizona State University. Your next steps are provided below to help you prepare for your enrollment, but we acknowledge that each students' experience and requirements differ. If you have any questions as you review these tasks, PTVC is here to help.

A veteran representative is here to help

Connect with a PTVC team member to receive additional assistance.

Connect with PTVC [1]

Steps to ASU enrollment

Prior to admission

Step 01: Apply or update my VA benefits

It takes approximately one to two months for benefits to be approved. Start the process early to ensure a smooth transition to the university.

Start VA benefit forms [2]

If you need to update the location of your VA benefits

Please complete the appropriate VA Request for Change of Program or Place of Training form. Submit this form to the VA as indicated in the form directions.

Submit to the Pat Tillman Veterans Center your VA Certificate of Eligibility or most recent letter from the VA that details your remaining benefits. You will receive your COE via mail from the VA or you can obtain a copy through VA/DoD eBenefits [3]. Once received, please submit to the Pat Tillman Veterans Center via the options below:

1. Scan and email the form to PTVCforms@asu.edu. [4]
2. Fax the form to the Pat Tillman Veterans Center at 480-522-3058.
3. Take the form to any Pat Tillman Veterans Center location. [5]

Step 02: Check to make sure your program is VA approved at ASU

On the webpage, go to Arizona, then Arizona State University, and select the "Programs" tab. Undergraduate and graduate degree programs, as well as graduate certificates, will be listed under IHL. Undergraduate certificates can be found under NCD.

The screenshot shows the WEAMS Institution Search interface. At the top, it features the United States Department of Veterans Affairs logo and a search bar. Below the navigation menu, the page title is "WEAMS INSTITUTION SEARCH". A prominent message states: "For updated school information, please visit us at <https://www.va.gov/gi-bill-comparison-tool>". The search results are displayed in a table with two columns: "Institution Profile" and "Programs". The "Institution Profile" column is expanded to show details for Arizona State University-Tempe. The details include the institution name, abbreviated name, and physical address: 1151 S Forest Avenue, Tempe, AZ.

Institution Profile	Programs
<p>Address:</p> <p>Institution Name: ARIZONA STATE UNIVERSITY-TEMPE Abbreviated Name: ASU</p> <p>Physical Address</p> <p>Street: 1151 S FOREST AVENUE City: TEMPE State: AZ</p>	

Check VA approved programs [6]

Step 03: Apply to ASU

Learn how and when to apply to ASU.

Apply to ASU [7]

After admission to ASU

Step 04: Receive academic advising and register for classes

Incoming students are required to meet with an academic advisor to enroll in classes. [8]

Classes to consider

ASU offers a veteran-specific introductory course to support veterans' transition to academic life. Both first-year and transfer student veterans from any major are welcome to register.

Learn more [9]

What is full-time status? [10]

Step 05: Complete ASU's documents for VA benefits processing

Processing times vary. See PTVC/VA Benefits Flowchart. [11]

Please send a copy of your VA issued Certificate of Eligibility to ptvcforms@asu.edu [4] for processing.

How to obtain your COE. [12]

PTVC documents

VA Benefits Responsibility form

You'll fill this form out only once while at ASU. It notifies the Pat Tillman Veterans Center of your intent to use VA education benefits, such as the GI-Bill®, while at ASU. Please note that it contains important information regarding the use of VA benefits throughout your school enrollment. Fill out the form online and submit it directly to the Pat Tillman Veterans Center. You will receive a confirmation email indicating you have completed the form.

VA Benefits Responsibility form [13]

Prior to your first semester at ASU, fill out this form if you intend to use VA education benefits. The form provides important information about your particular benefit program. Your completed form will submit directly to the Pat Tillman Veterans Center, and you'll receive an email confirmation.

VA Enrollment Activity form

This form notifies the Pat Tillman Veterans Center of your intent to use (or not use) your VA education benefits for the semester's enrollment. Submit this form each semester after finalizing your schedule. Additionally, you can revise your EAF to tell us about classes you or your college may have added since your original submission. Once completed, the form will submit directly to PTVC, and a confirmation will be sent to your ASU email address.

Enrollment activity form [14]

Prior Credit Evaluation form

Submit this form following your acceptance to ASU to ensure that all your prior course credit and/or previous experience is evaluated for potential transfer credit. Follow the directions on the form and work with your academic advisor to complete and submit it to the Pat Tillman Veterans Center.

Prior Credit Evaluation form [15]

Step 05: Register for LIA 294 or another first year success course

LIA 294: Student Success for Veterans is designed for the student veteran, and provides you with support systems, academic resources and transitional aid. Meet other student veterans and learn about how ASU, the state of Arizona, and the VA can assist you throughout your college experience. Speak with your academic advisor to see if this class or another first year success course would benefit you. Find their contact information in MyASU.

My ASU [16]

Step 06: Register for a Veterans and Dependents Welcome event

The Veterans and dependents Welcome event is a seminar-style orientation. It is expected that all incoming graduate and undergraduate student veterans and dependents attend the welcome event prior to their first semester at ASU. Hosted by ASU and the Pat Tillman Veterans Center, the Veterans and Dependents Welcome event introduces you to valuable benefits information and procedures that will apply each semester that you use your benefits. Spouses and dependent students do not need to attend this event.

If you are a new student, you will receive notifications by mail and email prior to the event so you can RSVP and plan to attend. Events are scheduled before both fall and spring semesters. Refreshments are provided and space is limited, so we request that you don't bring guests. We look forward to seeing you there.

Register for welcome event [17]

Step 07: Complete your next steps for enrollment to the university

Select your student status to review your enrollment steps.

Admitted veteran student next steps

Welcome to Arizona State University

You've already learned how to succeed in a world-class organization, and you're moving on to another one: ASU. We're glad you're joining us.

Student veterans and members of the military are a valuable part of the ASU community and our academic environment. We encourage you to continue serving as a leader and stay connected through student clubs and organizations, virtual career fairs, research positions, and other internship and career opportunities, whether you're an online or on-campus student.

On-campus student next steps

Research and request your benefits

If you will be using VA benefits, such as the GI Bill®, this is the time to ensure that you have applied to use those benefits at ASU. If you will be using Tuition Assistance, make sure to reach out to your Education Service Officer to get the necessary paperwork completed.

Get started [4]

Connect with your academic advisor and register for classes

Schedule an appointment with your academic advisor before registering for your courses. They will help ensure you take courses that fit into your degree plan and keep you on track toward graduation.

Connect to My ASU [5]

If using VA benefits, complete ASU's documentation for processing.

Necessary forms will populate as tasks on My ASU. Be sure to first complete the VA Benefits Responsibility Form to start the initial benefits process. You can submit other necessary forms to ptvcforms@asu.edu. [6]

Check your residency status

Most veterans and military members are eligible for in-state residency for tuition purposes. You can check our Residency Navigator [7] for more information.

Learn more [8]

Connect with the Pat Tillman Veterans Center

All ASU students can connect with the PTVC for advocacy support, to find student resources and for any questions you might have regarding your education.

Visit the PTVC site [9]

Nondegree and visiting student admission

Some individuals may be interested in studying in a nondegree status, either through precollege summer programs or for their own personal learning experience. A nondegree student is one who has not attended ASU as a degree-seeking student, has not earned a bachelor's degree, is not attending full time and is not currently applying to a degree program.

If you are a visiting university student interested in taking classes, see this information on how to apply and enroll in classes. [1]

- Once admitted to a degree program, a student is not permitted to register in a nondegree status.
- Nondegree students can enroll in eight credit hours for each fall and spring semester, seven credit hours for each six-week summer session, and nine credit hours for the eight-week summer session, with a maximum limit of 24 credit hours over the course of the academic year.
- Nondegree students may apply up to 15 hours taken in nondegree status to a degree program if they choose to pursue an undergraduate degree in the future.
- Nondegree students are not eligible for financial aid.
- Nondegree students may not be eligible for academic advising.

Exceptions to these guidelines may be made for specific programs or partners with approval from the provost's office.

Nondegree admission requirements

To be admitted to ASU as a nondegree student, you must either be a high school graduate or currently enrolled in high school.

If you're currently enrolled in high school or under the age of 18, you may be admitted as a nondegree student by submitting an official high school transcript and a letter of approval from a high school counselor or principal. You must have a 3.00 cumulative GPA in Arizona Board of Regents competency courses to be considered for admission.

Apply now [2]

Application procedures

1. Complete an undergraduate admission application.

2. Submit the nonrefundable application fee.

Arizona residents – \$50

Nonresidents – \$80

ASU Online – \$70

International – \$85

3. If needed, have your transcripts sent directly to ASU.

ASU will review your application for admission once all materials are on file. To see if your file is complete, sign in to My ASU using your ASURITE User ID provided to you after you submit your application.

Frequently asked questions about nondegree admission

Can I apply to ASU as a nondegree-seeking student?

Yes, ASU accepts nondegree-seeking students. To be admitted as a nondegree-seeking student [4] you must meet certain requirements and follow certain guidelines. See if you qualify for nondegree admission.

Can I get financial aid as a nondegree-seeking student?

Nondegree-seeking students are not eligible for financial aid.

Will I need transcripts to apply as a nondegree-seeking student?

If you are currently enrolled in high school and under 18 years old, you are required to submit official high school transcripts and a letter of approval from a high school counselor or principal. If you are a high school graduate, you may be admitted as a nondegree-seeking student without submitting transcripts.

Visiting university students

Arizona State University welcomes visiting university students and is proud to provide students enrolled in other colleges and universities with opportunities to stay on track academically and advance toward your goals.

Apply as a visiting student [1]

If you are a current high school student, you can earn university credit.

We're embedding the university experience in high school [2] to give students an accelerated path toward university admission and careers of the future. Our concurrent courses offer the opportunity to earn both high school and university credit toward a major.

Learn more [2]

Courses for visiting university students

As a national leader in online and remote learning, ASU's robust catalog of classes is available wherever you are. ASU has the class you need to get back on track or get ahead on progress toward your degree.

Humanities courses

Literature, history, film studies, Shakespeare and more offered online (self-paced) or through live, digital classes.

Search humanities courses [3]

Science courses

Geography, marine biology, software engineering and more offered online (self-paced) or through live, digital classes.

Search science courses [4]

Art and design courses

Architecture, art history, animation, dance and more offered online (self-paced) or through live, digital classes.

Search art and design courses [5]

Social sciences courses

Criminal justice, forensic anthropology, counseling and more offered online (self-paced) or through live, digital classes.

Search social sciences courses [6]

Health courses

Biostatistics, health care management, psychopharmacology and more offered online (self-paced) or through live, digital classes.

Search health courses [7]

Business courses

Accounting, data analytics, information systems and more offered online (self-paced) or through live, digital classes.

Search business courses [8]

Engineering courses

Aviation, civil engineering, computer science, digital design and more offered online (self-paced) or through live, digital classes.

Search engineering courses [9]

Search for courses

Browse the Class Search tool for classes available for visiting university students, including courses offered in person and via ASU Sync, as well as fully online iCourses and classes offered through ASU Online.

Search courses [10]

Steps to become a visiting university student at ASU

Step 01: Find a course [10] you want to take.

Search the entire catalog of ASU classes — find those available to help you catch up, stay on track or accelerate your degree.

Step 02: Submit your application. [11]

Our Visiting University Student application is streamlined, taking only 10 to 15 minutes to complete. Decisions are made within 24 to 48 hours.

Step 03: Get an ASU email and activate your account. [12]

Check your email for ASURITE User ID credentials to activate My ASU.

Step 04: Register [13] for classes and pay your bill. [14]

Though financial aid is not available for visiting university students, affordable tuition rates have been set to support students interested in advancing their degree through ASU credits.

We recommend checking the course number and name with your home institution advisor before you register to make sure it transfers back to your home institution.

Tuition for visiting university students is set at ASU Online tuition rates [15] regardless of course modality.

Step 05: Take the class.

Your admission to ASU with nondegree-seeking status permits you to register for up to eight credit hours per semester. You may apply a maximum of 15 credit hours toward a degree at ASU. Nondegree-seeking students are not eligible for financial aid. For more information, visit this page. [16]

Step 06: Order your ASU transcript. [17]

Use this official document to submit to your home institution and apply toward your degree.

Visiting university student frequently asked questions

Are all classes taught online?

All classes are offered remotely. Some are offered as our traditional ASU Online courses, some are iCourses and some are taught remotely through ASU Sync.

What is an ASU Online class?

ASU Online courses are part of our industry-leading online education platform and most are delivered asynchronously, meaning they do not have specific dates and times that the class meets. These classes are listed in ASU's course search as "ASU Online Classes".

What is an iCourse?

iCourses are online classes and may be offered asynchronously or they may be taught in live, digital sessions, or other synchronous methods. If an iCourse has a day and time listed, you will meet remotely during that time. If there is no specific time listed, this means that the class is asynchronous, meaning they do not have specific dates and times that the class meets. These classes are listed in ASU's course search as "In-Person & iCourses".

What is ASU Sync?

ASU Sync allows any student to attend a live-taught, on-campus class via Zoom during its regularly scheduled day and time. These classes include a live lecture or class presentation by a faculty member alongside other virtual learners in Zoom and students in the classroom.

How much does a class cost?

ASU is committed to providing our high-quality instruction at an affordable tuition rate. Tuition for visiting university students is set at ASU Online tuition rates [15] regardless of course modality.

When do classes start?

ASU classes begin six times a year. ASU regularly offers classes in the fall, spring and summer terms. Follow this link to review the start dates for upcoming terms: <https://registrar.asu.edu/academic-calendar> [18]

Is there a credit limit that visiting university students can take?

Yes. Visiting university students can enroll in eight credit hours for each fall and spring semester, seven credit hours for each six-week summer session, and nine credit hours for the eight-week summer session, with a maximum limit of 24 credit hours over the course of the academic year.

Can students who already have a bachelor's degree take undergraduate or graduate classes as a visiting university student?

While we do not have a visiting university student application for those with a bachelor's degree already completed, students who already have a bachelor's degree and are looking to enroll in courses at the undergraduate or graduate level are welcome to apply as a graduate nondegree-seeking applicant.

Who is eligible to be a visiting university student?

If you are an undergraduate student in good academic standing at any community college, college or university, you are eligible to take courses for credit with ASU as a visiting university student.

Can master's students take graduate-level classes as a visiting university student?

Yes, students who already have a bachelor's degree or are looking to enroll in ASU courses at the graduate (master's) level are welcome to apply as a Graduate Nondegree applicant. [19]

How long does it take to apply and get accepted?

We have worked to make the application process as simple as possible. The application takes 10-15 minutes to complete. You'll have an answer on your application within 48 hours.

Do all classes transfer back to my home college or university?

Most of ASU's courses do transfer and count toward your degree at your home institution. **However, we strongly encourage you to speak with your advisor at your home institution** to ensure that the ASU class or classes you are taking will transfer back to your home institution. Ultimately, it is up to your home school to determine if ASU classes count toward your degree.

Undergraduate readmission

Quick re-entry

If you are an undergraduate degree-seeking student who previously attended ASU but who has not been enrolled at ASU for up to seven consecutive fall or spring semesters, you may be eligible to return through Quick Re-entry.* You do not need to submit a new application or application fee. You may sign in to My ASU and register for classes. You may have a hold or Priority Task that you need to complete before you are able to register for classes. Your catalog year upon re-entry will be determined via current policy.

International students are still responsible for all SEVIS requirements and should check with the International Students and Scholars Center at ASU.

If your absence is due to military deployment, service on an official church mission or with a foreign aid service of the federal government, or a permanent disability, you should submit a Leave of Absence. [1]

You must submit official transcript(s) from all institutions you attended during your absence from ASU. Official transcripts must be mailed or sent electronically directly to Admission Services by the records office of the issuing institutions. Please check the contact page for the mailing address [2]. ASU does not accept transcripts sent or carried by hand by applicants themselves or transmitted by fax.

International students (F1/J1 visa) eligible for quick re-entry should contact ASU's International Students and Scholars Center at ISSC@asu.edu [3] to submit documentation for issuance of an I-20 for visa purposes. Visit issc.asu.edu. [4]

*If you have completed an ASU bachelor's degree program and are seeking to pursue another program or were academically disqualified, you are not eligible for quick re-entry.

Readmission requirements

If you are not eligible for Quick Re-entry you must apply for readmission and submit applicable fees. An applicant for readmission must have an ASU GPA of 2.00 or higher, depending on the ASU school or college and must have left on good academic standing. Students who do not meet this GPA and academic standing requirement may appeal. In these cases, the completed application for readmission may be subject to a due date that is earlier than the application deadline.

If a readmission appeal is required, please note that the decisions may take 4-6 weeks.

Note: You must submit official transcripts from all institutions you attended during your absence from ASU. Official transcripts must be mailed or sent electronically directly to Admission Services by the records office of the issuing institutions. ASU does not accept transcripts sent or carried by hand by applicants themselves or transmitted by fax. Please visit our contact page for the mailing address. [2]

Priority readmission application deadlines

Fall semester

The priority readmission application deadline for fall semester is June 1. Readmission applications received after June 1 will be considered on a space-available basis. Space is limited in some programs and admission to these programs is more competitive.

Spring semester

The priority readmission application deadline for spring semester is Dec. 1. Readmission applications received after Dec. 1 will be considered on a space-available basis. Space is limited in some programs and admission to these programs is more competitive.

Summer sessions

The priority readmission application deadline is May 1.

What needs to be submitted by the deadline?

You must submit the application for undergraduate admission, along with the application fee, by the deadline specified for

each semester. In order to expedite the evaluation of your application, also submit official transcripts, test scores and supporting credentials immediately.

I was previously admitted to ASU but did not attend. Am I a readmission student?

If you have previously been admitted to ASU but did not attend, you will be considered a first-year student or a transfer student.

Steps to apply for readmission

Step 01: Complete the undergraduate admission application.

ASU accepts online applications only.

Apply now [5]

Step 02: Submit the nonrefundable application fee.

Arizona residents: \$50

Nonresidents: \$80

International: \$85

If you're applying to an ASU Online degree program, a nonrefundable application fee of \$70 will be charged regardless of residency classification.

Step 03: Request that your official transcripts be sent directly from your school(s) to Admission Services.

Upon completion of the semester, request that a final transcript be sent directly to ASU to determine final admission status. If you do not meet readmission requirements for your selected major, you must submit complete transcripts before an admission decision is made. Submit transcripts only from institutions other than ASU.

Note: Receipt of your final transcript impacts financial aid disbursement and eligibility to register for future classes.

Find out more about transferring credits to ASU. [6]

Veterans exception

By Arizona statute, no failing grades received by a veteran at an Arizona university or community college before military service may be considered when determining admissibility. This exception applies only to veterans who fulfill these three criteria:

- Are honorably discharged.
- Have served in the armed forces of the United States for a minimum of two years.
- Have previously enrolled at a university or community college in Arizona.

Military service records must be submitted, including form DD 214.

Disqualification

If you have been academically disqualified from ASU, you will need to wait for at least one fall or spring semester to pass immediately following your disqualification before applying for readmission. Some ASU colleges or schools may require you to wait for a longer period. Contact the college or school [7] of your desired major for more information.

Academic renewal

Academic renewal is a university policy administered to recalculate the cumulative ASU GPA of an undergraduate student who:

- Is pursuing their first undergraduate degree and has not previously received an academic renewal; and
- Has a cumulative ASU GPA below 2.0; and
- Is readmitted to a degree program after an absence of at least five consecutive years.

ASU Courses completed before the five-year absence with a grade "C" or better are accepted in the same manner as transfer credit. This will apply to the maximum number of community college transfer credits allowed by the program, as specified by SSM 401-01 [8].

Graduation requirements for resident credit hours and GPA must be fulfilled after the academic renewal. Graduation requirements for academic recognition (resident credit hours and GPA) must also be fulfilled after the academic renewal.

Courses completed before and after the academic renewal remain on the transcript and may be considered when students apply for undergraduate professional or graduate programs.

Procedure:

The student must

- Print the Application for Academic Renewal form from the web, or request it from the college of the student's major; and
- Submit the form to the dean's office in the college offering the student's major before the last day of the third semester after readmission.

The dean's office of the college of the student's major:

- Specifies a minimum of 12 semester hours the student is required to earn with a minimum cumulative GPA of 2.5 and no grade lower than a "C," to be completed within three semesters after reentry.

Upon completion of the requirements by the student, the dean's office:

- Forwards the approved Application for Academic Renewal to the Course Catalog and Curriculum Maintenance section of University Registrar Services.

Upon completion of the requirements by the student, the dean's office:

- Processes the academic renewal and adjusts the student's credit hours and GPA; and
- Sends an unofficial transcript showing the processed academic renewal to the student.

Phone: 480-965-7788

Fax: 480-965-3610

Location: Student Services Building, [9] room 112, Tempe campus

Frequently asked questions about readmission

Am I eligible for Quick Re-entry?

If you're an undergraduate degree-seeking student who has attended ASU before but have not been enrolled for up to seven consecutive fall or spring semesters, you are eligible for Quick Re-entry. If you haven't been enrolled at ASU for eight or more semesters, you are not eligible for Quick Re-entry and must apply for readmission.

How do I know if I have to reapply for admission?

If you have not been enrolled at ASU for eight or more semesters, you have to apply for readmission and submit all applicable fees. If you have not been enrolled at ASU for one or two fall or spring semesters, you are eligible to return through Quick Re-entry.

Are readmission requirements different than when I was first admitted?

They may be, depending on when you were first admitted. ASU admission requirements change from time to time, so the admission standards you met previously may be different than they are currently.

Western Undergraduate Exchange (WUE)

Reduced tuition at ASU — it's the neighborly thing to do

The Western Undergraduate Exchange (WUE) is a program coordinated by the Western Interstate Commission for Higher Education. Residents of western states (other than Arizona) may enroll in the ASU WUE program at a tuition rate of 150 percent of Arizona base resident tuition plus all applicable fees for fall and spring terms only. WUE programs are limited to select majors at ASU's Downtown Phoenix, Polytechnic and West Valley campuses. The WUE tuition rate is not available for ASU Online programs.

Explore WUE majors [1]

Nonresident tuition

\$32,193

Nonresident WUE tuition

\$19,615

WUE enrollment and eligibility information

General eligibility requirements

- Students must be a permanent resident of Alaska, California, Colorado, Guam, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming, the Commonwealth of the Northern Mariana Islands or American Samoa.
- Students must apply to one of the ASU WUE-eligible majors or programs. [1]
- To maintain WUE eligibility, you must follow certain requirements including remaining enrolled in your WUE-eligible major and campus. See all the requirements for maintaining WUE eligibility. [2]
- Any currently enrolled ASU student who does not meet initial eligibility requirements as a first-year student or a transfer student, can be reevaluated after completing 12 credit hours at ASU with a minimum 2.50 ASU cumulative GPA. Students can email WUE@asu.edu [3] to be reviewed once final grades have been posted at the end of the fall or spring term.

First-year student requirements

- First-year students must have a high school GPA of 3.00 or higher in competency courses [4] (this is known as the ABOR GPA), or have an SAT of 1180 or ACT of 24 (not including the writing portion of these exams) or higher.
- First-year students are expected to live in an ASU residence hall during their first year. Please see asu.edu/housing [5] for more information.
- WUE first-year students may be eligible for an ASU nonresident merit-based WUE scholarship [6]. ASU will notify qualified admitted first-year students in writing of this award.

Transfer student requirements

- Transfer students must have an overall GPA of 2.50 or higher on a 4.00 scale in all transferable coursework.
- Transfer students must have less than 120 transferable semester credits.
- Community college transfer students must have a minimum of an associate degree or 60 transferable semester credits (90 quarter credits are needed for students transferring from a community college on the quarter system).
- BAS degree programs are open only to students who have an AAS or equivalent degree.
- All final transcripts must be filed two weeks prior to the start of your first semester at ASU in order to be evaluated for WUE.
- No individual review is conducted for transfer students.

Individual review

Students who don't meet the above standards will be considered for the WUE program through individual review. Through this process, Admission Services will review all available information about a student's application, carefully considering

all aspects of a student's academic background and accomplishments. Submission of an ACT or SAT score is highly recommended. In some cases, additional information might be requested.

New American University Awarding

Students cannot combine a New American University Award with WUE tuition. However, if a student is awarded a NAMU that exceeds the value of WUE tuition, they will retain the higher-value award. If you have questions about NAMU and its potential impact on your WUE tuition, please reach out [7] to your ASU admission representative.

To see total cost of attendance, visit tuition.asu.edu/cost. [8]

More information about WUE

If you have questions about WUE, please contact your ASU admission representative or visit the Western Undergraduate Exchange website. [9]

Contact my rep [10]

Current students with questions about maintaining eligibility should contact University Registrar Services at WUE@asu.edu. [3]

Maintaining WUE eligibility

WUE requirements for maintaining eligibility

Once students are admitted into an ASU Western Undergraduate Exchange (WUE) program or major, they must meet certain requirements to maintain their WUE eligibility to avoid being removed from WUE and charged out-of-state tuition.

Eligible majors/programs

- WUE eligible programs are limited to select majors offered at ASU's Downtown Phoenix and Polytechnic campuses, as well as the West Valley campus where all the majors in its New College of Interdisciplinary Arts and Sciences are now included.
- ASU Online programs are not eligible.
- Students who change majors to a non-WUE major will be removed from WUE and charged out-of-state tuition.

Eligibility time periods

WUE status is available for:

- New first-time students up to a maximum of eight semesters, beginning with their first term of enrollment at ASU.
- New community college transfer students up to a maximum of 5 semesters, beginning with their first term of enrollment at ASU.
- New transfer students from 4-year institutions up to a maximum of 120 credit hours, including all transfer credits.

Credit hour requirements

- Students must maintain continuous enrollment which is defined as enrollment in both fall and spring semesters with summer sessions not included.

- Students must earn a minimum of 24 credits during the yearly fall/spring review period.
- Students may not use the following credit for meeting the minimum 24 credit hours requirement, although these credits may still count toward their overall credits for degree completion:
 - Summer sessions and consortium agreement classes, repeated classes, incomplete grades or audited classes.
 - Any credits received by examination, including AP, CLEP, IB and other tests.

Required GPA

- Students must maintain a 2.00 minimum ASU cumulative GPA.

Class/campus exceptions (can count in 24 credit hours requirement)

- Students may enroll in iCourses and/or courses at the ASU Downtown, Polytechnic or West Valley campuses.
- Enrollment at the Tempe campus which has no WUE majors is limited to a few select classes, such as Marching Band, Dance, Physical Education, ROTC, Foreign Languages, Internships and Watts College courses.
- Students seeking other Tempe non-WUE class exceptions should submit requests, along with valid reason descriptions, via email to wue@asu.edu [1] for consideration, with the understanding that such requests are not granted for reasons such as Tempe home/work proximity, transportation issues or Tempe extracurricular activities participation.
- Students can participate in Study Abroad and off-campus internships.

Concurrent degrees, minors and certificates

- Students enrolled in a WUE program, along with a non-WUE concurrent degree, minor or certificate at the Tempe campus, must enroll in a minimum of 12 credit hours in any combination of iCourses and courses offered through the Downtown Phoenix, Polytechnic and West Valley WUE campuses. Any credits over those 12 hours taken during either the Fall or Spring semester may be at the Tempe campus.
- The Polytechnic Professional Flight program is not eligible for a concurrent degree.

Residency status

- Students must remain residents of their home state.
- Students cannot apply time accrued during WUE program participation to establish Arizona residency for tuition purposes.

Code of conduct

- Violations of the ABOR Student Code of Conduct may result in loss of WUE eligibility.

Arizona General Education Curriculum (AGEC)

The Arizona public community colleges and universities have agreed upon a common structure for a general education core. This curriculum provides students attending any Arizona public community college with the opportunity to build a general education program that is transferable to any other state institution without loss of credit. This common agreement is called the Arizona General Education Curriculum or AGECE.

The AGECE is composed of 35 to 37 credit hours of lower-division general education coursework in which a student may prepare for transfer.

The AGECE has three forms: AGECE-A, AGECE-B and AGECE-S. A detailed description of each AGECE is available at <https://www.aztransfer.com/about/agece.html>. [1]

Community colleges are responsible for certifying the date of completion of the AGECE on the official institutional transcripts.

Completion of the appropriate AGECE fulfills ASU lower-division general studies requirements of the baccalaureate degree with which the AGECE articulates. Students completing the AGECE are still required to fulfill lower-division program requirements and prerequisites within their college and major and minor areas of study. To complete a degree program most efficiently, students should select courses that concurrently satisfy AGECE and major requirements.

Completion of any AGECE from an Arizona community college guarantees admission to the university provided that a cumulative GPA of 2.50 or higher has been achieved. AGECE completion, however, does not guarantee admission to any specific university program. Many majors (e.g., architecture, engineering, business, the fine and creative arts, and health professions) have significant prerequisites or program requirements that must be completed before a student may be admitted to upper-division coursework. Community college students who are undecided about which of the universities they plan to attend or what program of study they intend to pursue are advised to explore educational options while they complete the AGECE. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Students who complete both the AGECE and an approved associate degree are assigned junior class standing by the state universities. Junior class standing is based on the number of credit hours a student has earned and does not necessarily indicate the remaining number of credit hours needed to complete degree requirements. Course prerequisites, major

requirements and upper-division requirements continue to be specified by each university. Appropriate sequencing of courses and timely completion of course prerequisites are essential to ensure efficient progress toward a baccalaureate degree. Students who have identified the university they plan to attend or a major area of study are advised to fulfill requirements and prerequisites identified by these programs through ASU's MyPath2ASU®. [2] The AGECEC does not replace articulation agreements developed to enhance the transfer process between specific institutions, nor does the AGECEC eliminate the possibility that students who have identified the university they plan to attend and a major area of study will follow transfer guides provided by the state universities.

Course load and concurrent enrollment

Course load

A minimum full-time course load for an undergraduate student is 12 credit hours.

The maximum course load for which a degree-seeking student may register in a fall or spring semester across all three sessions (A, B and C) is 18 credit hours, with a maximum of nine credit hours in each A or B session. The limit is 19 credit hours for students enrolled in the Ira A. Fulton Schools of Engineering. A student wishing to register for more than the maximum must petition the standards committee of the college in which the student is enrolled and must obtain an approved overload before registration.

Summer session credit hour load

The summer session credit hour load limit is seven credit hours for each six-week session and nine credit hours for the eight-week session, and the load limit is 14 credit hours for any combination of sessions.

Graduate credits earned by undergraduate students

ASU undergraduate students who have achieved senior status (they cannot be postbaccalaureate) with a cumulative GPA of 3.00 or higher may count up to 12 credit hours of graduate-level coursework toward their graduate degree at ASU (termed: preadmission credit hours). Only graduate courses with a grade of "B" (3.00) or higher may be included on a graduate plan of study. Preadmission graduate courses cannot be used to meet any baccalaureate graduation requirements. Before registering for these courses, students are advised to check with their academic advisor to ensure the correct internal academic unit or college process is followed. Permission to take a preadmission graduate course does not guarantee admission to a graduate degree program or that the course may be used toward graduate degree requirements.

Use of graduate course credit by undergraduates

Graduate course credit earned by an undergraduate student that is used to fulfill requirements for an undergraduate degree program cannot also be used in a graduate degree program unless the student is enrolled in an approved accelerated master's degree program. Students must contact their advisor before enrolling in a graduate course they wish to use toward a future graduate program at ASU.

Concurrent enrollment

Provided that the other institution's regulations concerning enrollment, graduation requirements and transfer of credits are not violated, a student may enroll in classes at other institutions or in independent learning courses while enrolled at ASU. However, the student is urged to seek advising before concurrent enrollment to ensure orderly progress toward a degree. If the total credit hours exceed the maximum course load, prior permission must be granted by the college standards committee.

Enrollment verification guidelines

The registrar is responsible for verifying enrollment, according to general guidelines; students should review the enrollment verification page.

Credit by examination

Students may receive credit for an ASU course by taking an examination in place of the actual course. Some exams may be taken prior to admission to ASU. Information is provided below for each type of exam, the courses that are equivalent and other conditions that may apply to credit being awarded.

- A student may earn no more than 60 hours of credit by examination for any or all programs, including ASU comprehensive and proficiency exams.
- Credit is not awarded for any course in which the student has been given credit from any educational institution.
- Credit is not granted for a course taken at an educational institution after credit by examination has been awarded.

Exception: There may be instances in which a student wishes to remove exam credit earned through Advanced Placement, College-Level Examination Program, DANTES Subject Standardized Test, Cambridge International Exam or International Baccalaureate exams. If the student elects to remove exam credit, the cumulative university hours are adjusted, and the student can complete the corresponding ASU course. When a student decides to complete the ASU course, the earned credit and grades always apply. Students should see below for additional details on each exam and its equivalent scores.

- Credit may not be received for a lower-level or prerequisite course when credit has already been received in a higher-level course within the same field.
- Only credit earned by comprehensive examination counts toward the resident credit requirement for graduation.
- Credit by exam is awarded based on the date the exam was taken. Students who take the exam during the current catalog year (August 2024–July 2025) earn credit based on the credit equivalency found in the current catalog. If the test was taken in a prior academic year, the student should refer to the catalog of that year or search the Transfer Guide [1] for more information.

Types of examinations

College-Level Examination Program (CLEP) [2] can be taken before or during enrollment at ASU.

Advanced Placement (AP) [3] is taken during secondary school or before enrollment at ASU.

DANTES or DSST [4] (Defense Activity for Nontraditional Education Support Subject Standardized Test) is taken by military or approved government personnel before or during enrollment at ASU.

International Baccalaureate (IB) exam [5] credit is earned by students of an International Baccalaureate®-approved school before enrollment at ASU.

Cambridge International Exam [6] is taken by students who have completed a Cambridge course in their secondary school.

Comprehensive examinations [7] can be taken by current ASU students.

Proficiency examinations [8] can be taken by current ASU students.

For information about placement testing for mathematics and English classes prior to orientation, students should refer to the placement and testing requirements [9] in the ASU Catalog.

College-Level Examination Program (CLEP)

Students who have taken a College-Level Examination of the College Entrance Examination Board may receive university credit. The table of CLEP credit applies to all students enrolled in the university for the first time in August 1975 and any

student enrolling thereafter. CLEP examination credit is not given where it duplicates credit previously earned by the student at the university or accepted by the university for work done elsewhere. All examinations are given monthly by University Testing and Scanning Services. [10]

Neither the general studies requirements in natural science (SQ and SG) and literacy and critical inquiry (L) with General Studies Maroon, nor scientific thinking in the natural sciences (SCIT) within General Studies Gold are satisfied by CLEP. There is no limit to the number of CLEP credits that can be used to fulfill the other parts of the general studies requirements within either system. A student who has received ASU credit for a course due to special programs credit may not duplicate the credit by enrolling in the same class for credit at ASU or transferring it to another institution.

Subject examinations

To obtain credit or placement for all subject exams except English, History, French, German, and Spanish, a student must receive a score of 50 (computer-based testing scale) or higher. To obtain credit for College Composition, a student must receive a standard score of 610 (1978 scale), 500 (1986 scale), or 50 (computer-based testing scale). Test scores for French, German, History and Spanish are shown below in the CLEP credit table.

All equivalency is subject to future review and possible catalog change. Students should refer to the Transfer Credit Guide for equivalencies of exams taken outside of the current catalog year. For more information on registering for CLEP testing [1], students should contact University Testing and Scanning Services [11] at 480-965-7146 or uts@asu.edu [12].

*Credit awarded as a department elective will display as DEC. A DEC course is not directly equivalent to a current ASU course but could be used for graduation requirements. Students should see their advisor to determine how these courses may apply to their major.

CLEP credit

Examination	Credit Hours	Equivalency
American Government	3	POS 110
American Literature	3	ENG DEC* (Students must score 55 or higher.)
Analyzing and Interpreting Literature	3	ENG DEC*

Spanish with Writing: Levels 1 and 2	8	SPA 101, 102 (Students must score 50–59.)
	16	SPA 101, 102, 201, 202 (Students must score 60 or higher.)
Western Civilization I: Ancient Near East to 1648	3	HST 102 (Students must score 56 or higher.)
Western Civilization II: 1648 to the Present	3	HST 104 (Students must score 56 or higher.)

Advanced Placement

Students who have taken an Advanced Placement course of the College Entrance Examination Board in their secondary school and who have taken an AP examination of the CEEB may receive university credit. No credit is given for any examination with a score of 2 or 1. There is no limit to the number of AP credits that can be used to meet the general studies requirement, including the requirements in natural sciences (SQ and SG) and literacy and critical inquiry (L) within General Studies Maroon, and those in scientific thinking in the natural sciences (SCIT) within General Studies Gold.

When the scores are received by the university directly from the CEEB, credit is awarded as shown in the Advanced Placement Credit table below.

Advanced Placement credit

DANTES/DSST

Students who have taken a Defense Activity for Nontraditional Education Support Subject Standardized Test, known as DSST, may receive university credit. Credit is awarded for score results equal to or above the American Council on Education's recommended score if the subject examination is applicable to a program of study at ASU, or credit may be assigned as elective. To receive credit, a transcript showing the DSST results must be received by ASU directly from the Educational Testing Service.

Students should refer to the Transfer Credit Guide for equivalencies of exams taken outside of the current catalog year. To register for the exam [13] or for more information about exam fees, students should contact University Testing and Scanning Services [14] at 480-965-7146 or uts@asu.edu. [12]

*Credit awarded as a department elective displays as DEC. A DEC course is not directly equivalent to a current ASU course but could be used for graduation requirements. Students should see their advisor to determine how these courses may apply to their major.

International Baccalaureate (IB) exam

Students who present an International Baccalaureate exam may qualify for university credit, depending on the level of the examination and the grade received. Arizona State University grants credit for higher-level courses and some standard-level courses. A high level grade of 5 qualifies the student to receive credit for up to two introductory courses while a grade of 4 qualifies a student to receive credit for one introductory course. No credit is awarded for English as a second language (English B). Credit is awarded according to the International Baccalaureate credit table below.

*Credit awarded as a department elective displays as DEC. A DEC course is not directly equivalent to a current ASU course but could be used for graduation requirements. Students should see their advisor to determine how these courses may apply to their major.

Cambridge International exam

Students who have completed a Cambridge course in their secondary school and who have taken a Cambridge International AS or A level examination may receive university credit. When the scores are received by the university, credit is awarded as shown in the Cambridge International Exam table below.

*Credit awarded as a department elective will display as DEC. A DEC course is not directly equivalent to a current ASU course but could be used for graduation requirements. Students should see their advisor to determine how these courses may apply to their major.

Cambridge International exam credit

Examination	Score	ASU Score Translation	Credit Hours	Equivalency
Accounting AS-Level	E or better	1–5	3	Elective credit

Travel and Tourism A-Level	E or better	1–5	6	TDM 205 and TDM DEC*

**Credit awarded depends on the content of the course completed; students should see an advisor once admitted.

Comprehensive examinations

A comprehensive examination is intended to permit a student to establish academic credit in a field in which the student has gained experience or competence equivalent to an established university course. Applications are given only for courses listed in the current catalog and only for courses in which a comprehensive examination can serve as a satisfactory measure of accomplishment.

A number of restrictions apply. To be eligible to apply to take a comprehensive examination to establish undergraduate course equivalence, a student must:

1. have earned not more than 60 credit hours through comprehensive, CLEP, International Baccalaureate and Advanced Placement examinations
2. have earned no credit for a duplicate course
3. have earned no credit for a course for which this course is a prerequisite

The decision on the suitability of course material for a comprehensive examination, the development of a comprehensive examination and the administration of an examination are strictly departmental functions. An application is for one course

only. The student should complete an application form with the number, title and number of credit hours for the course. When completed, the application must be approved by the student's advisor and the chairperson of the department responsible for offering the course.

The student must then pay the stated fee for such examinations at cashiering services. The receipt must be taken to the departmental office.

The examination is prepared by the instructor who normally conducts the course, and it is comprehensive in nature and scope. The instructor and other experts designated by the chairperson grade the examination, using letter grades "A+", "A", "A-", "B+", "B", "B-", "C+", "C", "D" or "E". If the grade is "C" or higher, a mark of "Y" is entered on the student's permanent record; otherwise, no entry is made. Credit by examination is indicated as such on the record. The student is notified by mail of the result of the examination. In cases of failure ("D" or "E"), the student is not given an opportunity to repeat the examination.

A student pursuing a second baccalaureate degree may not receive credit by comprehensive examination, but with prior approval of the college, the student may use the examination to waive a course requirement if a grade of "C" or higher is earned.

Proficiency examinations

Proficiency examinations and auditions are given:

1. to waive a course requirement
2. to validate certain transfer credits in professional programs
3. to determine a student's ability in a field where competence is an important consideration

Detailed information may be obtained from the dean's office of the college in which the student is registered.

Leave of absence (undergraduate)

The Undergraduate Leave of Absence (LOA) policy assists and encourages undergraduate degree-seeking students to return and graduate after an absence due to military deployment, service on an official church mission or with a foreign aid service of the Federal government, or a permanent disability. If your absence is for any other reason, you may be eligible to return to ASU through Quick Re-entry [1], which permits undergraduate students to enroll without submitting a new application or application fee if they previously attended ASU but have not enrolled at ASU for up to seven consecutive fall or spring semesters.

Eligibility requirements

To be eligible for an Undergraduate LOA, students must be eligible to register for classes and meet the following criteria:

1. Be a degree-seeking undergraduate student.
2. Be registered during the semester immediately prior to the beginning of the LOA.
 - Students who were admitted as new first semester freshmen or transfer students but did not attend will not be eligible for an LOA. Instead, they should contact the Undergraduate Admissions office.

- Students who were readmitted but did not attend will not be eligible for an LOA. Instead, they should contact the Undergraduate Admissions office.
 - Students who are participating in an ASU-sponsored study abroad program need not apply for an LOA.
3. Be in academic good standing, warning, probation, or continuing probation with their college.
 4. Have no hold (e.g., disciplinary, financial, testing, etc.) which would restrict registration. *Note: Students with financial holds may be given consideration for an LOA if authorized by the Collections Office.* [2]
 5. Have submitted any outstanding high school and/or transfer transcripts, if prior admission/readmission and continued enrollment was contingent upon receipt of those transcripts.

Download the Undergraduate Leave of Absence Request [3] form

Leave of absence FAQ's

Information for students returning from a Leave of Absence.

Am I able to view my unofficial transcripts?

Yes. Student can view their unofficial transcripts through their My ASU [4] page.

Can I attend another institution while on an LOA?

Yes. Once all coursework is complete and graded, please request official transcripts to be sent directly from the transfer institution to ASU at the following address:

Arizona State University
PO Box 870112
Tempe, AZ 85287-0112

Can I come back earlier than what my original LOA was processed for?

Yes. If you wish to return to ASU prior to the end of your scheduled leave you will need to contact University Registrar Services at 480-965-3124 so that your return may be updated immediately to maximize enrollment opportunities and meet any college, financial aid, etc. deadlines.

Can I request an extension of my LOA?

Yes. If you are unable to return to ASU by the term you initially identified, then you may request an extension through the college of your major. To extend your LOA, please complete the LOA form [3] and submit to your college for approval.

How will the university inform me regarding upcoming enrollment, deadlines and holds that may occur while on I'm on an LOA?

We recommend checking your My ASU [4] page often during your LOA so that you may stay informed about registration dates, financial aid and tuition deadlines and advising holds that may occur prior to the end of your leave.

If I qualify for an LOA, does this defer my scholarship?

No. In order to request a deferment of your scholarship, you will need to complete the Scholarship Deferment Application [5] found on the Scholarship website. To have your scholarship reinstated after the deferment period, you will need to complete the Scholarship Reinstatement Request [6] form.

My LOA is about to expire; what do I do now?

View your registration date as well as any current registration holds and "To Do" list items on My ASU [4]. Schedule an appointment with your advisor to discuss course selection. Submit transcripts for coursework you completed during your LOA.

Will my loans be deferred while on an LOA?

No. In order to defer loans, students must be currently enrolled. While the LOA keeps student records up to date, it does not allow for deferment. Please contact your lender for more information.

Minors and undergraduate certificates

Minors and certificates are available to currently enrolled students pursuing a bachelor's degree in a variety of academic disciplines. Students pursuing an associate degree may pursue only certificates simultaneously. Students can explore Degree Search [1] for more information on and enrollment requirements for available minors and certificates, as well as request to add one to their program of study.

Minors

A minor is an approved, coherent concentration of academic study in a single discipline, involving substantially fewer hours of credit than a corresponding major. Most ASU colleges offer undergraduate minors in addition to majors.

Current ASU students seeking a bachelor's degree may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Minors require students to complete a minimum of 15 credit hours, of which, at least nine must be from upper-division courses.

Certain major and minor combinations may be deemed inappropriate by the college or department of either the major or the minor program. Courses taken for the minor may not count toward both the major and the minor.

A student pursuing a second baccalaureate degree in the same discipline as a minor previously conferred by ASU will have that minor removed from the original academic record upon completion of the second degree.

Undergraduate certificates

With the exception of special programs, undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding a baccalaureate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Undergraduate certificates require students to complete a minimum of 15 credit hours, of which, at least 12 must be from upper-division courses, and a minimum grade of "C" (2.00) or higher is required for all upper-division certificate courses.

The Pathways for the Future [2] program offers upskilling options through select ASU certificate programs for professionals without a bachelor's degree.

Placement and testing requirements

English placement

All students must meet the university first-year composition requirement through completion of both ENG 101 and ENG 102 or ENG 105 with a grade of "C" (2.00) or higher. Students for whom English is not a native language should complete ENG 107 and ENG 108 to satisfy this requirement.

Math placement

Prior to attending orientation and enrolling in classes, incoming first-year students must complete the ASU mathematics placement assessment [1]. ASU uses the placement assessment score and major math requirements [2] to identify the appropriate math course for students' math skills and academic goals.

Retention and academic standards

Class standing

A student's class standing is determined by the number of credit hours earned, as shown in the table below.

Student	Credit Hours Earned
Freshman	24 or fewer credit hours earned
Sophomore	25 to 55 credit hours earned
Junior	56 to 86 credit hours earned
Senior	87 or more credit hours earned
Graduate	bachelor's degree from accredited institution

Academic good standing

For the purpose of retention, university academic good standing [1] for degree-seeking students is defined as maintaining a minimum cumulative GPA of 2.00. This standard is in effect for all students regardless of catalog year.

Academic warning

An ASU student who does not achieve the minimum GPA standard at the completion of the first term of study will receive an academic warning [2]. If after one term with an academic warning a student still does not achieve the minimum GPA standard, the student is placed on probation for at least one additional term. If a student's minimum GPA first falls below the standard in a term that is not the student's first term at ASU, the student is placed on probation. Failure to return to good academic standing after being placed on probation may result in disqualification.

A student with an academic warning or on academic probation is considered in conditional good standing and is permitted to enroll.

Whether a student has received an academic warning or is on probation, the student must meet with an academic success advisor to discuss academic success strategies for the subsequent semester and develop a success plan for returning to university academic good standing. That plan may require successful completion of the academic refresher course UNI 220 Mindset Connections.

Dean's list

Undergraduate students are eligible for the dean's list if they earn 12 or more graded credit hours ("A+", "A", "A-", "B+", "B", "B-", "C+", "C", "D" or "E") during a semester in residence at ASU with a GPA of 3.50 or higher. A notation regarding dean's list achievement appears on the unofficial transcript. The dean's list is generated at the completion of the fall and spring semesters.

Satisfactory academic progress

The university is required to publish and enforce standards of satisfactory academic progress for certain students (e.g., student-athletes, students receiving financial aid and students receiving veterans benefits).

Certification of satisfactory progress for student-athletes is verified by the academic advisor and the dean's designee for certifying satisfactory progress. Certification of satisfactory progress [3] for students receiving financial aid or veterans benefits is verified by Financial Aid and Scholarship Services or the Pat Tillman Veterans Center, respectively. Students should contact their advisors or the appropriate office for additional information on satisfactory progress requirements.

Probation

A student's college assumes responsibility for enforcing academic standards and may place on university academic probation [4] any student who has failed to maintain good standing as previously defined. For purposes of probation and retention, an individual college may set higher GPA standards. A student on academic probation is required to observe any rules or limitations the college may impose as a condition for retention, including college-established policies regarding continuing probation.

Co-enrolled continuing probation program

Select disqualified students may participate in the co-enrolled continuing probation program at the discretion of their college or school. Under this program, the student takes UNI 220 Mindset Connections plus one ASU course selected by the student's advisor. The student co-enrolls at a Maricopa County Community College with a schedule selected in consultation with the ASU advisor. Upon completion of the term, students with a combined semester cumulative GPA of 2.50 may continue regular enrollment at ASU. Parameters regarding the number of co-enrolled hours required are at the discretion of each college or school.

Disqualification

A student who is placed on probation at the end of a semester is subject to disqualification [5] by the college or school at the end of the following semester if the conditions imposed for retention are not met.

Disqualification is exercised at the discretion of the college or school. A student is notified of disqualification by the dean of the college and is not allowed to register in a fall or spring semester at the university. If the student has already registered for a future fall or spring semester, the registration is canceled. A disqualified student who has not already been absent for a semester may contact the college advisor to see if reinstatement is possible. A disqualified student may not attend as a nondegree-seeking student. If a disqualified student elects to attend another university or two-year college, any credits earned there will not affect the ASU cumulative GPA. A course repeated elsewhere will not result in a replacement of a grade earned at ASU. Disqualified students must consult with an academic advisor to determine eligibility to attend ASU in the summer session in order to raise their ASU cumulative GPA.

Select disqualified students may participate in the co-enrolled continuing probation program. Information about this is available in the Glossary of Academic Terms, at Probation. [4]

Readmission

Students not eligible for quick re-entry [6] (i.e., because they have not been enrolled at ASU for seven or more semesters, completed their academic program, or were academically disqualified) must apply for readmission [7] and submit applicable fees.

Candidates for readmission who are not in academic good standing are subject to college review.

A disqualified student who has not already been absent for a semester may contact the college advisor to see if reinstatement is possible.

Academic integrity

All students should be familiar with ASU's Academic Integrity Policy. [8]

University undergraduate general studies requirement

In addition to preparing students for careers and advanced study, a baccalaureate education should prepare students for satisfying personal, social and civic lives. Students should both acquire a depth of knowledge in a particular academic or professional discipline and also be broadly educated, with knowledge of interdisciplinary and transdisciplinary approaches to address an array of questions. They should develop the general intellectual skills required to continue learning throughout their lives. The ASU general studies requirements complement the undergraduate major by developing critical learning skills, investigating the traditional branches of knowledge, and introducing students to approaches applicable to addressing contemporary challenges.

Students in a 2024-2025 catalog year and beyond - General Studies Gold

Effective fall 2024, ASU undergraduate students are required to complete the General Studies Gold requirements. Students who began their degree at ASU before fall 2024 and are in a catalog year previous to 2024-2025, are required to complete the General Studies Maroon [1] requirements. More information about what these changes mean and answers to some frequently asked questions are available on the Provost general studies [2] page.

The degree requirements applicable for a student's catalog year are displayed on their major map. For more information on the determination of catalog year, students should reference the undergraduate graduation requirements. [3]

General Studies Gold includes courses in nine required categories. Courses fulfilling each category are noted in the course catalog [4]. General studies courses are regularly reviewed and are occasionally added to and deleted from the list. A student receives the general studies credit that a course carries during the semester in which the course is taken. Students should consult the course catalog [4] each semester to determine which courses meet general studies requirements.

Required Categories

Humanities, Arts and Design (6 credits)

Social and Behavioral Sciences (3 credits)

Scientific Thinking in Natural Sciences (8 credits)

Quantitative Reasoning (3 credits)

Mathematics (3 credits)

American Institutions (3 credits)

Governance and Civic Engagement (3 credits)

**Global Communities, Societies and Individuals
(3 credits)**

Sustainability (3 credits)

Total Credits: 35 + First-year Composition

Humanities, arts and design (six credit hours - two courses)

The humanities explore questions of human existence and meaning, the nature of thinking and knowing, and moral and aesthetic experience. Humanities reflect on values of all kinds and seek to make the human mind more analytical, contemplative and expansive. They are often concerned with the study of textual and artistic practices of cultures, such as traditions in literature, philosophy, religion, ethics, history and aesthetics; the humanities also explore human thought and action and its application to human environments. They deepen awareness of the breadth of human heritages, traditions and histories; build literacy and critical thinking skills in evidence analysis and argumentation; and implicitly or explicitly promote the application of this knowledge to contemporary societies.

The study of arts and design deepens our awareness of human societies and cultures. The arts have as a primary purpose the creation and study of objects, installations, performances and other means of expressing or conveying aesthetic concepts and ideas. Design study concerns itself with material objects, images and spaces; their historical development; and their significance in society and culture. Disciplines in the arts and design often employ nonverbal modes of thought and communication, and courses in these areas tend to focus on sounds, objects, images and structures, or on the practical techniques and historical development of, and innovation in, artistic and design traditions.

Learning outcomes

Upon completion of a course in Humanities, Arts and Design, students will be able to complete all outcomes in one of the two following groups.

Group 1:

1. analyze cultural creations or practices in historical or contemporary context
2. interpret the formal, aesthetic and creative elements in literary, visual or cultural texts
3. articulate relationships among tradition, innovation, individual creativity and communal expression in cultural creations or practices
4. communicate narratives, ideas or arguments using such elements as evidence, creativity and critical thinking

Group 2:

1. analyze cultural, political or social practices, texts or discourses in historical or contemporary context
2. communicate coherent arguments or narratives using evidence drawn from qualitative or quantitative sources
3. identify perspectives or values as manifested in a given philosophical or religious framework or a given historical or cultural context

Social and behavioral sciences (three credit hours)

Courses in social sciences and behavioral sciences expose students to the systematic investigation of human institutions, relationships, social structures, behavior, emotions, communication and health. Students learn about evidence, methods and approaches that social and behavioral scientists use to analyze, understand and describe human activities, experiences and systems. They learn how social scientists and behavioral scientists conduct research, how they disseminate their findings, and how the findings from social and behavioral science can be used in the pursuit of individual, societal and policy goals.

Learning outcomes

Upon completion of a course in Social and Behavioral Sciences, students will be able to do the following:

1. utilize behavioral or social science approaches, qualitative or quantitative, to examine aspects of human experiences or explain social or behavioral phenomena
2. describe the strengths and limitations of behavioral or social science methods in predicting or understanding human behavior
3. communicate coherent arguments using evidence drawn from qualitative or quantitative sources

Scientific thinking in natural sciences (eight credit hours - two courses)

Courses in scientific thinking in natural sciences promote public scientific literacy, which is critical for sound decisions about scientifically infused issues such as climate change. Scientific thinking in natural sciences includes understanding basic science concepts, such as the fundamental behavior of matter and energy, as well as understanding that science is not an encyclopedic collection of facts. Science is a process of exploration that embraces curiosity, inquiry, testing and communication to reduce uncertainty about nature. In Scientific Thinking in the Natural Sciences courses, students engage in the scientific process through lab experiences.

Learning outcomes

Upon completion of a course in Scientific Thinking in the Natural Sciences, students will be able to do the following:

1. obtain and interpret qualitative or quantitative data and communicate the findings
2. employ evidence to construct and test scientific hypotheses
3. assess the validity of scientific claims using evidence from biological or physical science
4. create models to explain observable phenomena and understand biological or physical processes in the natural world
5. communicate coherent arguments using evidence drawn from qualitative or quantitative sources

Quantitative reasoning (three credit hours)

Quantitative and computational reasoning is essential for success in modern careers, for critically evaluating information in the age of "big data," for assessing the quality of arguments conveyed through digital media, for informed participation in community and social life, and for contributing to the formulation of effective solutions for achieving a sustainable and just future. Quantitative reasoning enables students to apply relevant mathematical, statistical, computational and visualization methods in academic, social and personal settings.

In a Quantitative Reasoning course, students learn about data, data management, data summaries, data visualization, and the use of computational tools with data. Data can take many forms, including numerical data, textual data and images. Students also learn about how quantitative reasoning can be used to make arguments clear, precise and verifiable. Finally, they learn to build quantitative models, make predictions, and communicate their findings based on available data. This may include some combination of mathematical, statistical, computational or network models, or visualizations.

Learning outcomes

Upon completion of a course in Quantitative Reasoning, students will be able to do the following:

1. understand variables, measurement and data, including how they can be used to pose and answer questions about society and nature, and to manipulate, organize, classify and visualize quantitative data
2. evaluate arguments from everyday life or academic fields of study that are represented mathematically, statistically, computationally or in visualizations
3. formulate hypotheses, mathematical models or narratives that are consistent with quantitative data
4. communicate how quantitative data, interpretations or models are connected to outcomes, predictions, decisions, explanations or future states
5. employ one or more digital tools effectively to accomplish these outcomes

Mathematics (three credit hours)

The Mathematics studies requirement is intended to ensure that students have skill in basic mathematics and can use mathematical analysis in their chosen field of study. The mathematics requirement requires the student to complete a course in college mathematics, college algebra, or precalculus, or demonstrate a higher level of skill by completing a mathematics course for which a course in the above three categories is a prerequisite. A course in mathematics will include the application of mathematical skills in the solution of real-life problems and introduces or makes significant use of fundamental mathematical skills and concepts.

Learning outcomes

Upon completion of a course in Mathematics, students will be able to do the following:

1. demonstrate an understanding of mathematical relationships from multiple perspectives, such as functions from graphical, numerical and analytic points of view
2. apply mathematical skills in the solution of real-life problems

American institutions (three credit hours)

In each American Institutions course, students discuss people, ideas, institutions, movements and structural forces that have created and transformed the United States. Students will analyze struggles over the meaning of America's constitutional democracy. Throughout the course, students analyze a wide range of sources drawn from both past and present and contemplate American history, ideals, and institutions in global as well as national contexts. In doing so, students refine their ability to make and evaluate reasoned arguments, engage in civil debate, and participate constructively in civic life.

Learning outcomes

Upon completion of a course in American Institutions, students will be able to do the following:

1. demonstrate how ideas and groups have historically shaped the creation of and change in U.S. institutions
2. identify key institutions in U.S. politics and their impacts on social, economic or political outcomes. This will include differential impacts on disparate communities.
3. describe the impact of key ideas, people, events, institutions or movements on the nature, history and boundaries of American citizenship and the various forms of civic participation in a self-governing society
4. communicate coherent arguments using evidence drawn from qualitative or quantitative sources

To achieve these goals, students must be exposed to the following knowledge or sources:

- principles of American constitutional democracy and how they are applied under a republican form of government

- the U.S. Constitution and major American constitutional debates
- founding documents that have shaped American institutions
- landmark policy achievements and Supreme Court cases
- economic knowledge necessary to assess policy options affecting both the public and private sectors
- international context of American institutions and the evolution of America's role in international affairs

Governance and civic engagement (three credit hours)

Courses in the Governance and Civic Engagement category explore ways in which humans confront the dilemmas and opportunities of community life and develop skills of civic communication.

Governance and Civic Engagement courses analyze principles and practices of decision-making in historical and contemporary contexts, and will explore ways in which people have defined and pursued justice and the common good. Courses in the Governance and Civic Engagement category broaden students' understanding of how collective decisions are made, how they impact communities positively or negatively, and how various groups are included, or excluded, from the decision-making process. Students will have the opportunity to explore dynamics between governance and civic engagement, which can include perceived inequality or marginalization related to a variety of factors including race, class, citizenship, gender and disability. This category also develops students' skills in civic communication, including listening, deliberation, negotiation, consensus building, and productive use of conflict, which are essential to participating more fully in their communities. Courses in this category may be entirely focused on developing skills in civic communication.

Learning outcomes

Upon completion of a course in Governance and Civic Engagement, students will be able to complete all outcomes in one of the two following groups.

Group 1:

1. analyze the context and consequences of one or more collective decision-making theories or practices
2. define an element of the common good and propose a way to pursue it within a specific contemporary context
3. communicate coherent arguments using evidence drawn from qualitative or quantitative sources

Group 2:

1. articulate diverse perspectives on the common or collective good
2. demonstrate the ability to collaborate effectively in the presence of dissenting opinions and experiences
3. communicate arguments, narratives or information using qualitative or quantitative evidence

Global communities, societies and individuals (three credit hours)

Courses in the Global Communities, Societies and Individuals knowledge area explore the world from multiple vantage points. They consider historical, ongoing or transforming global issues across multiple scales and types of human experiences. Students will analyze ways that geographical and historical contexts influence communities, societies and individuals. In addition to courses focused entirely on non-U.S. American issues, courses structured to include comparative or transnational connections between the United States and other countries, i.e., courses that consider a global issue in multiple locations one of which is the United States, fall into this knowledge area. Courses focused mostly or only on U.S. American issues or populations, however, even across diverse communities, are not included in this knowledge area. This knowledge area develops students' skills in global awareness, and the analysis of social, political, economic or cultural systems, skills essential to participating more fully in communities.

Learning outcomes

Upon completion of a course in Global Communities, Societies and Individuals, students will be able to do the following:

1. describe historical, contemporary or transforming global issues through the perspective of specific individuals, communities or societies
2. analyze the interactions among social, political, economic or cultural systems across local, regional and global scales or spaces
3. articulate ways in which dimensions of difference such as race, gender, socio-economic status, religion, language or citizenship separately and together affect individuals and communities
4. communicate coherent arguments using evidence drawn from qualitative or quantitative sources

Sustainability (three credit hours)

The Sustainability requirement provides students with an interdisciplinary understanding of socio-ecological systems in relation to global challenges and opportunities. The learning objectives emphasize systems thinking, where human and non-human systems are understood as intimately connected, with human actions affecting all life on a planet with limits

and boundaries. Students should also become familiar with how cultural, political, economic, social and ethical beliefs, practices and systems are related to and impact planetary systems. Students will use course concepts and systems and futures thinking to address contemporary questions or challenges.

Learning outcomes

Upon completion of a course in Sustainability, students will be able to do the following:

1. demonstrate an understanding of the earth and its ecosphere, including the measures that indicate their capacities and limits
2. trace historical impacts of a range of socio-economic, political or cultural choices on integrated human-environmental well-being
3. envision pathways toward futures characterized by integrated human-environmental well-being
4. articulate an approach to addressing contemporary questions or challenges that employs concepts or practices of sustainability

Meeting the general studies requirement

All students enrolled in a baccalaureate or associate degree program must successfully complete a minimum of 35 credit hours of approved general studies courses.

There is no limit to the number of Advanced Placement [5] credits that can be used to meet the general studies requirement. Credits earned through College-Level Examination Program [6] may be applied to General Studies Gold requirements with the exception of scientific thinking in natural sciences. A student may earn no more than 60 hours of credit by examination, including ASU comprehensive and proficiency exams, for any or all programs.

Transfer credit

Completion of general studies and composition requirements, as documented on an official transcript, from regionally accredited institutions of higher education within the United States will fulfill ASU's General Studies Gold and first-year composition requirements. Certification of completed general studies includes completion of a general education package recognized by ASU, an associate of arts degree, bachelor's degree or comparable. General studies packages and recognized degrees do not waive program requirements and prerequisites within major and minor areas of study. Transfer students without completed and documented general education packages or degrees will receive credit for general studies based on course-by-course equivalency. Students transferring from Arizona community colleges should see the Arizona General Education Curriculum [7] page for more information.

University requirements - first year composition

In addition to the 35 credit hours of General Studies coursework, university graduation requirements [8] also require completion of both ENG 101 and ENG 102, or ENG 105 with a grade of "C" (2.00) or higher for graduation from ASU in any baccalaureate or associate degree program. Students for whom English is not a native language may meet the first-year composition requirement by completing ENG 107 and 108 with a grade of "C" (2.00) or higher. Students who are required to take first year composition must enroll in their first required composition course within the first year and continue to enroll in required composition courses every term until composition requirements are met.

College or school and major requirements

In addition to the general studies requirement, students must also complete college or school and major requirements. Students are encouraged to work with their academic advisors to develop a program of study that efficiently meets all graduation requirements. A well-planned program should enable a student to satisfy concurrently requirements at the university, college or school levels, and within their major.

Students in catalog years prior to fall 2024 - General Studies Maroon

In effect for students who began their degree at ASU before fall 2024 and are in a catalog year previous to 2024-2025, the General Studies Maroon requirements include courses in five core areas and three awareness areas. Relevant courses are noted in the course catalog [4]. Effective fall 2024, new General Studies Maroon courses will no longer be added to the course catalog. General Studies Maroon courses will retain their general studies designations to ensure students may complete their degree requirements. A student receives the general studies credit that a course carries during the semester in which the course is taken. Students should consult the course catalog [4] each semester to determine which courses meet general studies requirements.

Five core areas (General Studies Maroon)

L: Literacy and critical inquiry (three credit hours)

Literacy is competence in written and oral discourse. Critical inquiry is the gathering, interpretation and evaluation of evidence. The literacy and critical inquiry requirement helps students sustain and extend their ability to reason critically and communicate clearly through language.

Students must complete three credit hours from courses designated as L. Students must have completed ENG 101, ENG 105 or ENG 107 to take an L course.

The three credit hours required to meet the general studies L requirement are in addition to the upper-division L university graduation requirement. Students should review the university baccalaureate graduation requirements [8] for more information.

MA and CS: Mathematical studies (combined six credit hours)

This core area has two categories. Mathematics (MA) is the acquisition of essential skills in basic mathematics. Computer/statistics/quantitative applications (CS) applies mathematical reasoning and requires students to complete a course in either the use of statistics and quantitative analysis or the use of a computer to assist in serious analytical math work.

This requirement has two parts: At least three credit hours must be selected from courses designated MA and at least three credit hours must be selected from courses designated CS, and all students are expected to fulfill the MA requirement by the time they accumulate 30 credit hours in residence at ASU. Any student who has more than 30 hours of resident ASU credit and has not fulfilled the MA requirement must enroll in an MA course or an appropriate prerequisite and continue to do so every semester until the mathematics requirement is met. College officers may grant waivers to the immediate and continual enrollment requirement only when there are scheduling conflicts detrimental to the student's academic progress.

HU: Humanities, arts and design and

SB: Social-behavioral sciences (combined 12 credit hours)

The study of the humanities and the disciplines of art and design deepen awareness of the complexities of the human condition and its diverse histories and cultures. Courses in the humanities are devoted to the productions of human thought and imagination, particularly in philosophical, historical, religious and artistic traditions. Courses with an emphasis in arts and design comprise the study of aesthetic experiences and the processes of artistic creation. They also may feature a design emphasis in which material culture is studied as a product of human thought and imagination.

The social-behavioral sciences provide scientific methods of inquiry and empirical knowledge about human behavior, within society and individually. The forms of study may be cultural, economic, geographic, historical, linguistic, political, psychological or social. The courses in this area address the challenge of understanding the diverse natures of individuals and cultural groups who live together in a world of diminishing economic, linguistic, military, political and social distance.

Twelve credit hours must be completed in the following two core areas: humanities, arts and design (HU) and social-behavioral sciences (SB). At least six credit hours must be taken in each of these two core areas.

The 12 credit hours required to meet the General Studies HU/SB requirement are in addition to the upper-division HU/SB university graduation requirement. Students should review the university baccalaureate graduation requirements [8] for more information.

SQ and SG: Natural sciences (combined eight credit hours)

The natural sciences help students appreciate the scope and limitations of science and its contributions to society. Natural science areas of study include anthropology, astronomy, biology, biochemistry, chemistry, experimental psychology, geology, microbiology, physical geography, physics and plant biology. Knowledge of the methods of scientific inquiry and mastery of basic scientific principles and concepts are stressed, specifically those that relate to matter and energy in living and nonliving systems. Firsthand exposure to scientific phenomena in the laboratory is important for developing and understanding the concepts, principles and vocabulary of science.

General studies courses that satisfy the natural science requirement are given one of two classifications: quantitative (SQ) and general (SG).

- quantitative (SQ): These laboratory courses include a substantial introduction to the fundamental behavior of matter and energy in physical and biological systems.
- general (SG): These laboratory courses cover aspects of scientific inquiry that lend themselves to more qualitative or descriptive discussions of science.

Eight credit hours of courses designated SQ or SG must be selected. Of these, at least four credit hours must be taken from the SQ category.

Three awareness areas (general studies)

Students must complete courses that satisfy three awareness areas. Courses that are listed for a core area and one or more awareness areas may satisfy requirements concurrently, up to a maximum of two of the awareness areas listed for that course. These awareness areas promote appreciation of cultural diversity within the contemporary U.S., the development of an international perspective and an understanding of current human events through study of the past.

1. Cultural diversity in the united states (C)

The objective of the cultural diversity (C) requirement is to promote awareness and appreciation of cultural diversity within the contemporary U.S. This is accomplished through the study of the cultural, social or scientific contributions of women and minority groups, examination of their experiences in the U.S., or exploration of successful or unsuccessful interactions between and among cultural groups. Awareness of cultural diversity and its multiple sources can illuminate the collective past, present and future and also help students achieve greater mutual understanding and respect.

2. Global awareness (G)

The objective of the global awareness (G) requirement is to help students recognize the need for an understanding of the values, elements and social processes of cultures other than those of the U.S. The global awareness area includes courses that recognize other contemporary cultures and the relationship of the American cultural system to generic human goals and welfare.

3. Historical awareness (H)

The objective of the historical awareness (H) requirement is to help students develop knowledge of the past, which can be useful in shaping the present and future. History is present in languages, art, music, literature, philosophy, religion and the natural sciences as well as in the social science traditionally called history.

Meeting the general studies requirement

All students enrolled in a baccalaureate or associate degree program must successfully complete a minimum of 29 credit hours of approved general studies courses. Many general studies courses are approved as satisfying more than one requirement. The following conditions govern the application of courses toward the general studies requirements:

- A single course may be used to satisfy one core area and a maximum of two awareness area requirements.
- A single course may be used to satisfy a maximum of two awareness area requirements.
- A single course cannot be used to satisfy two core area requirements, even if it is approved for more than one core area.

There is no limit to the number of Advanced Placement [5] or College-Level Examination Program [6] credits that can be used to meet the general studies requirement. However, CLEP credits do not satisfy the natural sciences (SQ and SG) and literacy and critical inquiry (L) portions of the General Studies Maroon requirements.

Transfer credit

Completion of general studies and composition requirements, as documented on an official transcript, from regionally accredited institutions of higher education within the United States will fulfill ASU's lower-division General Studies Maroon and first year composition requirements. Certification of completed general studies includes completion of a general education package recognized by ASU, an associate of arts degree, bachelor's degree or comparable. General studies packages and recognized degrees do not waive lower-division program requirements and prerequisites within major and minor areas of study. Additionally, students still must take six upper-division credit hours (three for L and three for SB or HU) to complete the ASU university-level graduation requirements.

Transfer students without completed and documented general education packages or degrees will receive credit for general studies based on course-by-course equivalency. Students transferring from Arizona community colleges should see the Arizona General Education Curriculum [7] page for more information.

University requirements

In addition to the 29 credit hours of lower-division general education coursework, university baccalaureate graduation requirements [8] also require students to take six additional upper-division credit hours. Three hours with a literacy (L) designation are required to be chosen from approved upper-division courses, preferably in the major. Three hours with either a humanities, arts and design (HU) or social-behavioral sciences (SB) designation should also be chosen from approved upper-division courses, preferably in the major. Additionally, students must complete the First year Composition [9] requirement.

College or school and major requirements

In addition to the general studies requirement, students also must complete college or school and major requirements. Students are encouraged to work with their academic advisors to develop a program of study that efficiently meets all graduation requirements. A well-planned program should enable a student to satisfy concurrently requirements at the university, college or school levels, and within their major.

University associate degree graduation requirements

All students enrolled in an associate degree program must fulfill the following university requirements to graduate.

Credit requirements

A minimum of 60 credit hours is required for graduation with an associate degree. Students should check the program's graduation audit and major map for graduation requirements.

Grade point requirement

A minimum cumulative GPA of 2.00 for all courses taken at ASU is required to graduate. Some programs may require a cumulative GPA higher than 2.00; students should refer to the specific program's graduation audit and major map for graduation requirements.

General studies requirement

All students enrolled in an associate degree program must satisfy the university required minimum number of approved lower-division general studies courses. Students should refer to the General Studies Policy [1] page for more information.

Completion of general studies and composition requirements at a domestic institution accredited by an organization recognized by ASU as certified on the official transcript will fulfill ASU's lower-division general studies and composition requirements. Certification of completed general studies curriculum may include students' completion of a general education package (ex: AGECE, CSUGE, IGETC), an associate of arts degree or bachelor's degree or comparable, as documented on an official transcript. If students transfer from Arizona community colleges without completing the AGECE or from other accredited postsecondary institutions, they receive credit for general studies based on course-by-course equivalency. Students should review the Arizona General Education Curriculum [2] page.

Mathematics requirement

All associate degree-seeking students are expected to fulfill the university's mathematics requirement by the time they have accumulated 30 credit hours in residence at ASU. Any student who has more than 30 credit hours and has not

fulfilled the mathematics requirement must enroll in a mathematics course or an appropriate prerequisite course and continue to do so every semester until the mathematics requirement is met. A waiver may be granted for continuous enrollment if there are scheduling conflicts detrimental to the student's academic progress.

First-year composition requirement

All students must meet the university first-year composition requirement through completion of both ENG 101 and ENG 102, or ENG 105 with a grade of "C" (2.00) or higher. Students for whom English is not a native language should complete ENG 107 and 108 with a grade of "C" (2.00) or higher to satisfy this requirement. All incoming students will be placed [3] in ENG 101 or an appropriate first-year composition course based on submission of test scores, exam scores or transfer credit.

Transfer credit

Composition courses transferred from other postsecondary institutions may require evaluation. After consultation with an advisor, if evaluation is necessary, the student should submit a request for evaluation through the ASU Transfer Guide [4]. The process should be completed upon transfer of coursework to ASU so the student is able to enroll in additional courses if required to do so. Students who are required to take first-year composition must enroll in their first required composition course within the first year and continue to enroll in required composition courses every term until composition requirements are met.

Resident credit requirement

Resident credit refers to a course completed at ASU in a regular semester or summer session. Credit earned through ASU comprehensive examinations also is included when calculating ASU resident hours. Credit earned through independent learning, Advanced Placement testing, the College-Level Examination Program or an International Baccalaureate exam are excluded when calculating ASU resident hours.

Every candidate for an associate degree is required to earn a minimum of 15 credit hours in resident-credit courses at ASU.

Definition of a catalog year

The ASU Academic Catalog is published annually. A catalog year runs from fall through summer, and a student who enters during the fall or spring semester follows the policies and requirements in effect for that catalog year. For example, catalog year 2024-2025 is the catalog year for students who enter in fall 2024 or spring 2025. Students who enter for the first time during the summer term follow the requirements in effect for the subsequent catalog year.

In most cases, a student's catalog year is the year in which they started at ASU. Students may be in a different catalog year for a variety of reasons, including:

- change of major
- continuous enrollment in an Arizona community college or public university
- student request to move to a newer catalog year
- significant changes to curriculum either due to accreditation or rapid changes to subject matter

More information and conditions of continuous enrollment can be found at Guidelines for Determination of Catalog Year. [5]

Transfer credit

Students can review the general transfer credit requirements. [6]

Application for graduation

Students can review the ASU Graduation [7] website for information on how to apply for graduation, associated fees and deadline dates.

Petition for variance from degree

Any student wishing to have a college or university degree requirement variance must petition the standards committee of the college in which the student is enrolled. All petitions must originate with the student's advisor.

The University Undergraduate Standards Committee advises the Office of the University Provost regarding undergraduate student petitions that concern university-level academic requirements. These requirements include: requirements on the amount of transfer credit, graduation requirements, and limits on credit by examination. To petition for a variance from such university requirements, the University Undergraduate Standards Committee petition [8] is used. Most petitions heard by the University Undergraduate Standards Committee start at the college level and are forwarded for final review and decision to the university-level committee.

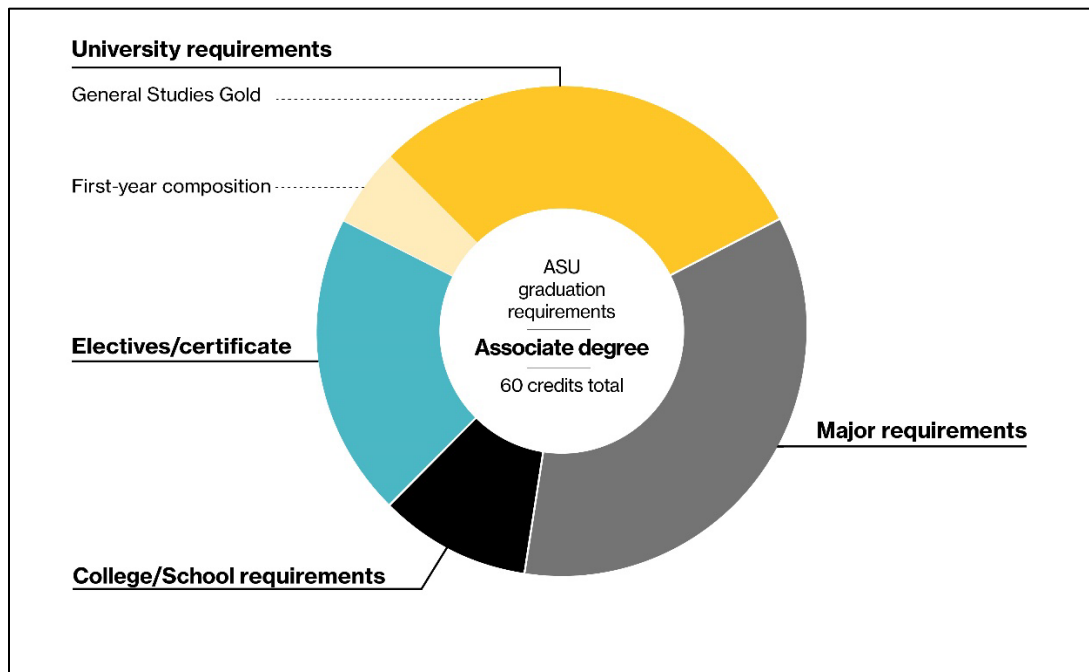

Overview of graduation requirements

Students in the AA in Military Studies, AS in Logistics (Maritime) or AA in Organizational Leadership should refer to the credit requirements for U.S. Naval Community College programs. [9]

The associate degrees comprise four parts: university requirements, college/school requirements, major requirements and electives.

University requirements include general studies and first-year composition requirements. Some colleges and schools at ASU have college-specific requirements applicable across all degrees offered within that academic unit. Major requirements represent the majority of the disciplinary content of the degree. Some degrees may also have room for electives, allowing students to complete credit hours toward the minimum number of credits required for graduation while exploring areas of personal and professional interest. Some students choose to declare a certificate, which typically adds 15-25 hours of coursework; this can also be used for elective credit. Students are encouraged to consult with their academic advisor in planning a program to ensure it meets all requirements.

Associate degrees are 60 credit hours. Some courses may fulfill two or more types of requirements, but other courses fulfill only one requirement. As such, the size of the circle segment attributed to each requirement category in the graphic below does not necessarily correspond to the exact number of credits required for each.

Changing majors

Some majors may have specific requirements that a student must meet to be eligible for acceptance to the new major. A degree-seeking undergraduate student may view the requirements for changing majors on Degree Search [10] and visit the Changing your major site [11] for more information and resources on major exploration.

Changing from an associate degree to a bachelor's degree program may impact financial aid.

Graduation with academic recognition

Graduation with academic recognition is applicable only to bachelor's degree programs.

Concurrent degrees

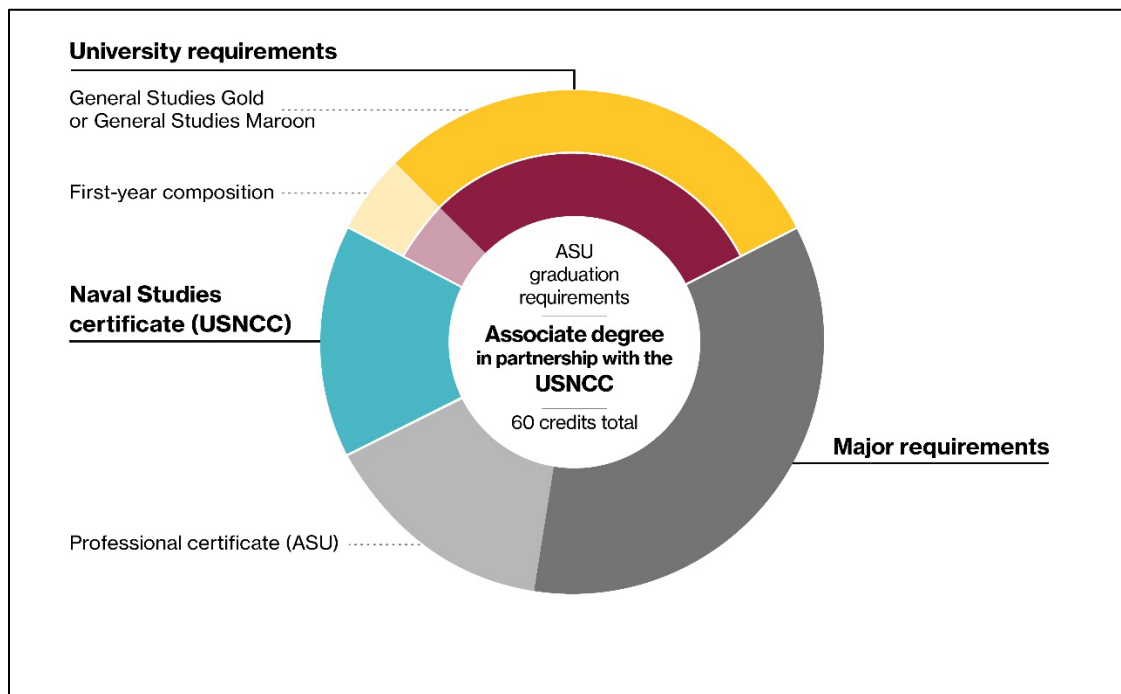

If prior approval is given by the colleges or schools offering the degrees, more than one associate degree may be pursued concurrently. Students may receive concurrent degrees if they meet the minimum requirements for both degrees. Specific combinations of degrees may be deemed inappropriate due to high curricular overlap. Pursuing concurrent degrees may impact financial aid disbursement.

Associate degree programs offered in partnership with the U.S. Naval Community College

Associate degrees offered in partnership with the U.S. Naval Community College have been jointly designed with ASU specifically for enlisted personnel (Navy, Marines and Coast Guard).

Overview of graduation requirements specific to U.S. Naval Community College programs

The associate degrees developed in partnership with USNCC comprise four parts: the Naval Studies certificate courses, the professional certificate courses, general education and university requirements. As illustrated in the graduation requirements diagram below, some courses may fulfill two or more types of requirements, but other courses fulfill only one requirement. The total credit hours needed to graduate are represented by the largest circle. The university minimum is 60 credit hours for an associate degree.

Minors and certificates

Students enrolled in an associate degree offered in partnership with the U.S. Naval Community College are not permitted to add a minor or additional certificates.

Changing majors

Students enrolled in associate degree programs offered in partnership with the U.S. Naval Community College may only change to another USNCC associate degree program.

Disestablished programs

A disestablished program is a major, minor or certificate that the institution has chosen to discontinue. Upon the effective term and year of disestablishment, ASU may choose to stop admitting new students into the program. This includes current ASU students seeking to change to the disestablished major, to add the disestablished major as a concurrent degree, or to add the disestablished minor or certificate. Active students in a disestablished program have a period of four academic years to complete the program requirements. This includes active, not enrolled students typically eligible for quick re-entry. Students choosing quick re-entry to the institution after a period of nonenrollment cannot re-enroll in a disestablished program if four academic years have passed since the effective term of disestablishment.

Students who have not completed the requirements for a disestablished program four academic years after disestablishment are changed administratively to a different major, or have the minor or certificate removed from their record.

Nondegree credit

Some individuals may be interested in studying in a nondegree status, either through pre-college summer programs or for their own personal learning experience. An undergraduate nondegree-seeking student is one who has not attended ASU as a degree-seeking student, has not earned a bachelor's degree, is not attending full time, and is not, at this time, applying to a degree program.

- Once admitted to a degree program, a student is not permitted to register in a nondegree status.
- Nondegree-seeking students may enroll in eight credit hours each fall or spring semester, seven credit hours for each six-week summer session, and nine credit hours for the eight-week summer session with a maximum limit of 24 credit hours over the course of the academic year.
- Nondegree-seeking students may apply up to 15 credit hours taken in nondegree status to a degree program if they choose to pursue an undergraduate degree in the future.
- Nondegree-seeking students are not eligible for financial aid.
- Students in a nondegree status may not be eligible for academic advising.

Exceptions to these guidelines may be made for specific programs or partners with approval from the Office of the University Provost. Students enrolled in ASU Prep may apply 30 credit hours earned at ASU while in a nondegree status toward a degree program.

Additional policies

Students enrolled in these degree programs are held to all other ASU and appropriate college policies [12], including:

Academic Good Standing and Probation [13]

Grades and Grading Policies [14]

Repeating Courses [15]

University undergraduate graduation requirements (baccalaureate)

All students enrolled in a baccalaureate degree program must fulfill the following university requirements to graduate.

Credit requirements

A minimum of 120 credit hours is required for graduation with a baccalaureate degree; at least 45 credit hours must be in upper-division courses. Associate degrees require a minimum of 60 credit hours. Students should check the program's graduation audit and major map for graduation requirements.

No more than 60 credit hours earned in independent learning courses or earned by comprehensive examination (including Advanced Placement, College-Level Examination Program, DANES Subject Standardized Test, Cambridge International Exam and International Baccalaureate exams) are accepted for credit toward the baccalaureate degree. Credit is not granted for courses taken at an educational institution after credit by examination has been awarded.

There may be instances in which students wish to remove exam credit earned through Advanced Placement, College-Level Examination Program, DANES Subject Standardized Test, Cambridge International Exam and International Baccalaureate exams. If the student elects to remove exam credit, the cumulative university hours are adjusted, and the student can complete the corresponding ASU course. When the student decides to complete the ASU course, the earned credit and grade always apply.

Grade point requirement

A minimum cumulative grade point average of 2.00 for all courses taken at ASU is required to graduate with an undergraduate degree. Some programs may require a cumulative GPA higher than 2.00; students should refer to the specific program's graduation audit and major map for graduation requirements.

General studies requirement

All students enrolled in an undergraduate degree program must satisfy the university requirement for a minimum number of approved credit hours of general studies coursework. Effective fall 2024, ASU has approved a revised general studies curriculum. Students beginning in the 2024-2025 catalog year will complete the requirements in the General Studies Gold [1] curriculum. Students who attended ASU before fall 2024, and are in a catalog year prior to 2024-2025, complete the requirements defined by the General Studies Maroon [2] curriculum. The requirements applicable for a student's catalog year are displayed on their major map and graduation audit. Students should refer to the General Studies Policy [1] page for more information on their specific general studies requirements.

Completion of general studies and composition requirements, as documented on an official transcript from regionally accredited institutions of higher education within the United States will fulfill ASU's lower-division general studies requirements within the Gold and Maroon systems as well as first-year composition requirements. Certification of completed general studies includes completion of a general education package recognized by ASU, an associate of arts degree, bachelor's degree, or comparable. General studies packages and recognized degrees do not waive program requirements and prerequisites within major and minor areas of study.

Transfer students without completed and documented general education packages or degrees receive credit for general studies based on course-by-course equivalency. Students transferring from Arizona community colleges should see the Arizona General Education Curriculum [3] page for more information.

Mathematics requirement

All undergraduate degree-seeking students are expected to fulfill the university's mathematics requirement by the time they have accumulated 30 credit hours in residence at ASU. Any student who has more than 30 credit hours and has not fulfilled the mathematics requirement must enroll in a mathematics course or an appropriate prerequisite course and continue to do so every semester until the mathematics requirement is met. A waiver may be granted for continuous enrollment if there are scheduling conflicts detrimental to the student's academic progress. Students should also see the Math Intensive Programs: Required Course Policy. [4]

First-year composition requirement

Completion of both ENG 101 and ENG 102, or ENG 105 with a grade of "C" (2.00) or higher is required for graduation from ASU in any baccalaureate or associate program. Students for whom English is not a native language may meet the first-year composition requirement by completing ENG 107 and 108 with a grade of "C" (2.00) or higher. Students who are required to take first-year composition must enroll in their first required composition course within the first year and continue to enroll in required composition courses every term until composition requirements are met.

Transfer credit

Composition courses transferred from other postsecondary institutions may require evaluation. After consultation with an advisor, if evaluation is necessary, the student should submit a request for evaluation through the ASU Transfer Guide [5]. The process should be completed upon transfer of coursework to ASU so the student is able to enroll in additional courses if required to do so. Students who are required to take first-year composition must enroll in their first required composition course within the first year and continue to enroll in required composition courses every term until composition requirements are met.

Resident credit requirement

Resident credit refers to a course that is offered in a regular semester or summer session. Credit earned through comprehensive examinations also is included when calculating ASU resident hours. Credit earned through independent learning, Advanced Placement testing, the College-Level Examination Program or an International Baccalaureate exam is excluded when calculating ASU resident hours.

Every candidate for an undergraduate degree is required to earn a minimum of 30 credit hours in resident-credit courses at ASU.

Definition of a catalog year

The ASU Academic Catalog is published annually. A catalog year runs from fall through summer, and a student who enters during the fall or spring semester follows the policies and requirements in effect for that catalog year. For example, catalog year 2024-2025 is the catalog year for students who enter in fall 2024 or spring 2025. Students who enter for the first time during the summer term follow the requirements in effect for the subsequent catalog year.

In most cases, a student's catalog year is the year in which they started at ASU. Students may be in a different catalog year for a variety of reasons, including:

- change of major
- continuous enrollment in an Arizona community college or public university
- student request to move to a newer catalog year
- significant changes to curriculum that are due either to accreditation or rapid changes to subject matter

Guidelines for determination of catalog year

The ASU Academic Catalog is published annually. Department, school, division, college and university requirements are upgraded often and may change. In determining graduation requirements, an undergraduate student uses only one edition of the catalog but may elect to follow any subsequent catalog edition under which the student attends. Students may not use an edition of the catalog that was in effect before their high school graduation or completion of their GED. Students maintaining continuous enrollment at any Arizona community college or public university may graduate according to the requirements of the catalog in effect at the time of initial enrollment following high school graduation or completion of a GED, or according to the requirements of any single catalog in effect during subsequent terms of continuous enrollment. Students may maintain continuous enrollment while pursuing their degrees, whether attending a single Arizona community college or public university, or transferring among public institutions in Arizona. Students transferring among Arizona public higher education institutions must meet all requirements of the degree-granting institution: admission, residency, curricular and academic.

1. A semester in which a student earns course credit is counted toward continuous enrollment. Noncredit courses, audited courses, failed courses and courses from which the student withdraws do not count toward the determination of continuous enrollment for catalog purposes (examples A and B in the continuous enrollment table below).
2. Students who do not meet the minimum enrollment standard stipulated above during three consecutive semesters (fall/spring/fall or spring/fall/spring) and the intervening summer term at any Arizona community college or public university are no longer considered continuously enrolled. These students must meet requirements of the Arizona

community college or public university catalog in effect at the time they are readmitted or of any single catalog in effect during subsequent terms of continuous enrollment after readmission (examples C and D in the continuous enrollment table below). Students are not obligated to enroll and earn course credit during summer terms, but summer enrollment may be used to maintain continuous enrollment status.

3. Students admitted or readmitted to an Arizona community college or public university during a summer term must follow the requirements of the catalog in effect for the following fall semester or of any single catalog in effect during subsequent terms of continuous enrollment (example E in the continuous enrollment table below).
4. In areas of study in which the subject matter changes rapidly, material in courses taken long before graduation may become obsolete or irrelevant.
5. Coursework that is more than eight years old is applicable to completion of degree requirements at the discretion of the department of the student's major. Departments may accept or reject such coursework or request that the student revalidate the substance of the coursework. The eight-year limit on coursework applies except when program accreditation agencies limit the life of coursework to fewer than eight years. Departments also may require students to satisfy current major requirements rather than major requirements stated in earlier catalogs when completing earlier requirements is no longer possible or educationally sound.
6. Enrollment by Arizona community college students in nontransferable courses still constitutes enrollment for purposes of determining whether the student has been continuously enrolled. For example, if a student takes two semesters of cooperative education classes that are not transferable to the university but constitute continuous enrollment at the community college, the university should consider it continuous enrollment.
7. Exceptions made by an institution apply only to the institution that made the exception. For example, if the community college departments accepted credit that was more than eight years old, the university department to which the student transfers might not; the university department has the right and the obligation to reevaluate any credit more than eight years old.

Inquiries about these guidelines may be directed to the student's academic advisor.

Figuring out catalog year by enrollment

Continuous Enrollment		
Student's Activity	Semester/Year	Status
Example A		
Admitted and earned course credit at an Arizona community college	Fall 2022	Active
Continued at an Arizona community college	Spring 2023 Fall 2023	Active
Transferred to an Arizona university	Spring 2024	Student enrolled under 2022–2023 or any subsequent catalog
Example B		
Admitted and earned course credit at an Arizona community college	Fall 2021	Active
Enrolled but earned all "W"s or "E"s (0.00)	Spring 2022	Inactive

Enrolled in audit courses only	Fall 2022	Inactive
Nonattendance	Spring 2023	Inactive
Transferred to an Arizona university	Fall 2024	Student enrolled under 2024–2025 or any subsequent catalog
Example C		
Admitted and earned course credit at an Arizona community college	Fall 2021	Active
Nonattendance	Spring 2022 Fall 2022 Spring 2023	Inactive
Readmitted and earned course credit at an Arizona community college	Fall 2023	Active
Transferred to an Arizona university	Spring 2024	Student enrolled under 2023–2024 or any subsequent catalog
Example D		
Admitted and earned course credit at an Arizona community college	Fall 2022	Active
Nonattendance	Spring 2023	Inactive
Readmitted and earned course credit at an Arizona community college	Summer 2023	Active
Nonattendance	Fall 2023 Spring 2024	Inactive
Transferred to an Arizona university	Fall 2024	Student enrolled under 2022–2023 or any subsequent catalog
Example E		
Admitted and earned course credit at an Arizona community college	Summer 2021	Active

Continued at an Arizona community college	Fall 2022 Spring 2023	Active
Nonattendance	Fall 2023	Inactive
Readmitted and earned course credit at an Arizona community college	Spring 2024	Active
Transferred to an Arizona university	Summer 2024	Student enrolled under 2022–2023 or any subsequent catalog
Example F		
Admitted and earned course credit at an Arizona university	Summer 2022	Active
Nonattendance	Fall 2022	Inactive
Nonattendance	Spring 2023	Inactive
Readmitted and earned course credit at an Arizona university	Fall 2023	Active
Continued at an Arizona community college	Spring 2024	Student enrolled under 2022–2023 or any subsequent catalog

Application for graduation

Students should visit the ASU Graduation [6] website for information on how to apply for graduation, associated fees and deadline dates.

Petition for variance from degree

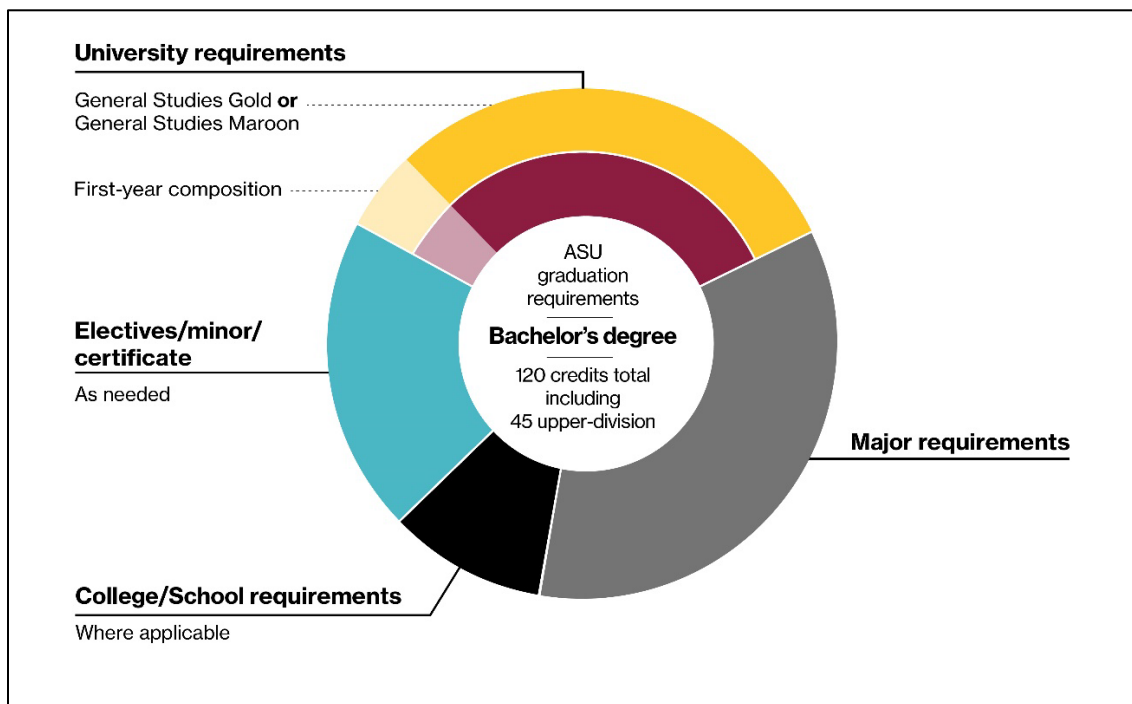

Any student wishing to have a college or university degree requirement variance must petition the standards committee of the college in which the student is enrolled. All petitions must originate with the student's advisor.

The University Undergraduate Standards Committee advises the Office of the University Provost regarding undergraduate student petitions that concern university-level academic requirements. These include: requirements on the amount of transfer credit, graduation requirements, limits on credit by examination and requirements for a second baccalaureate degree. To petition for a variance from such university requirements, the University Undergraduate Standards Committee petition [7] is used. Most petitions heard by the University Undergraduate Standards Committee start at the college level and are forwarded for final review and decision to the university-level committee.

Overview of graduation requirements

At ASU, students take classes that fulfill four types of requirements: university requirements, college/school requirements, major requirements and electives.

University requirements include general studies and first-year composition requirements. Some colleges and schools at ASU have college-specific requirements applicable across all degrees offered within that academic unit. Major requirements represent the majority of the disciplinary content of the degree. Many degrees also have room for electives, allowing students to complete credit hours toward the minimum number of credits required for graduation while exploring area of personal and professional interest. Some students choose to declare a minor or certificate, which typically adds 15 to 25 credit hours of coursework; this can also be used for elective credit. Students are encouraged to consult with their academic advisor in planning a program to ensure it meets all requirements for their specific combination of credentials. Bachelor's degrees are 120 credit hours, 45 of which must be upper-division. Some courses may fulfill two or more types of requirements, but other courses fulfill only one requirement. As such, the size of the circle segment attributed to each requirement category in the graphic below does not necessarily correspond to the exact number of credits required for each.

Change of major

Some majors may have specific requirements that a student must meet to be eligible for acceptance to the new major. A degree-seeking undergraduate student may view the requirements for changing majors on Degree Search [8] and visit the Changing your major site [9] for more information and resources on major exploration.

Changing from a bachelor's degree to an associate degree program may impact financial aid.

Graduation with academic recognition

An undergraduate student must have completed at least 56 hours of resident credit at ASU to qualify for graduation with academic recognition for a baccalaureate degree.

The ASU cumulative GPA determines the designation, as shown in the academic recognition table below.

Academic Recognition	
ASU Cumulative GPA	Designation
3.40–3.59	cum laude
3.60–3.79	magna cum laude
3.80–4.00	summa cum laude

The cumulative GPA for these designations is based on ASU resident coursework only. All designations of graduation with academic recognition are indicated on the diploma and the ASU transcript. Graduation with academic recognition applies only to undergraduate bachelor's degrees.

A student who has a baccalaureate degree from ASU and is pursuing a second baccalaureate degree at ASU (with a minimum of 30 hours of resident credit) is granted academic recognition on the second degree based on the credit hours earned subsequent to the posting of the first degree. If fewer than 56 credit hours are completed at ASU subsequent to completion of the first ASU degree, the level of academic recognition can be no higher than that obtained on the first degree. If 56 or more credit hours are completed at ASU after completion of the first ASU degree, the level of academic recognition is based on the GPA earned for the second ASU degree. Inquiries about graduation with academic recognition may be directed to University Registrar Services. [6]

Additional degrees

Second baccalaureate degree

Students seeking a second baccalaureate degree must meet admission criteria for that degree. After conferral of the first degree, a minimum of 30 additional credit hours in resident credit courses at ASU must be successfully completed to earn the second baccalaureate degree. The student must meet all degree and university requirements of the second degree.

Admission to a specific second baccalaureate degree program may be deemed inappropriate based on the discipline or degree type of the original baccalaureate degree, regardless of whether that degree was earned at ASU or another institution (e.g., admission to a BS program in psychology after earning a BA in psychology).

A student pursuing a second baccalaureate degree in the same discipline as a minor previously conferred by ASU will have the minor removed from the original academic record upon completion of the second degree.

Students who wish to use courses taken while in graduate nondegree status toward a second bachelor's degree may have up to 15 credit hours applied toward this degree.

Concurrent degrees

If prior approval is given by the colleges or schools offering the degrees, more than one baccalaureate degree may be pursued concurrently. Students may receive concurrent degrees if they meet the minimum requirements for both degrees. Specific combinations of degrees may be deemed inappropriate because of high curricular overlap.

For additional information, students are asked to review the glossary description. [10]

eAdvisor and critical requirements

eAdvisor [11] ensures that students get off to a good start and stay on track toward graduation by helping them find a major that fits their talents and career goals and then monitors progress. Students use eAdvisor to do the following:

1. Learn more about graduation requirements for their major.
2. Discern the critical courses and grades that are required to stay on track to successfully complete their degree.

3. Plan for and schedule appropriate courses in the correct sequence to maximize success.
4. Monitor progress toward their degree.
5. Find out how courses may fit into other majors if they decide to change majors.

Through eAdvisor, students follow a major map that outlines the critical requirements and optimal eight-semester plan. If students do not meet the critical requirements, an advising hold may be placed on the students' records, and an advising session is required before future registration activities can take place. When students do not meet the critical requirements for two consecutive semesters, they are considered off track and may be advised to change majors.

Critical requirements are identified by the faculty and academic units as predictors of success in a major. To ensure students are able to enroll in critical courses, ASU academic units coordinate to offer sufficient seats to meet demand. Specific class schedules (days and times) are not guaranteed.

Math-intensive programs: required course policy

ASU undergraduate degree programs are categorized in the area of math intensity [12] as either general, moderate or substantial based on the number and type of required math courses. Students enrolled in a degree program categorized as substantial in math intensity who receive a failing grade of "E" twice in the same required math course may be required to change their major to a major categorized as general or moderate. This policy is applicable even if the required math course is not marked as critical through the eAdvisor tracking tool.

Disestablished programs

A disestablished program is a major, minor or certificate that the institution has chosen to discontinue. Upon the effective term and year of disestablishment, ASU may choose to stop admitting new students into the program. This includes current ASU students seeking to change to the disestablished major, to add the disestablished major as a concurrent degree, or to add the disestablished minor or certificate. Active students in a disestablished program have a period of four academic years to complete the program requirements. This includes active, not enrolled students typically eligible for quick re-entry. Students choosing quick re-entry to the institution after a period of nonenrollment cannot re-enroll in a disestablished program if four academic years have passed since the effective term of disestablishment.

Students who have not completed the requirements for a disestablished program four academic years after disestablishment are changed administratively to a different major, or have the minor or certificate removed from their record.

Nondegree credit

Some individuals may be interested in studying in a nondegree status, either through pre-college summer programs or for their own personal learning experience. An undergraduate nondegree-seeking student is one who has not attended ASU as a degree-seeking student, has not earned a bachelor's degree, is not attending full time, and is not, at this time, applying to a degree program.

- Once admitted to a degree program, a student is not permitted to register in a nondegree status.
- Nondegree-seeking students may enroll in eight credit hours each fall or spring semester, seven credit hours for each six-week summer session, and nine credit hours for the eight-week summer session with a maximum limit of 24 credit hours over the course of the academic year.
- Nondegree-seeking students may apply up to 15 credit hours taken in nondegree status to a degree program if they choose to pursue an undergraduate degree in the future.
- Nondegree-seeking students are not eligible for financial aid.
- Students in a nondegree status may not be eligible for academic advising.

Exceptions to these guidelines may be made for specific programs or partners with approval from the Office of the University Provost. Students enrolled in ASU Prep may apply 30 credit hours earned at ASU while in a nondegree status toward a degree program.

Introduction

The Graduate College admits students into programs leading to both professional and research-oriented advanced degrees and certificates beyond the bachelor's degree. The master's and doctoral degrees are awarded to students completing programs that culminate in research and creative endeavors. The doctoral degree is the highest university award, conferred on candidates who have proven their ability as scholars and original researchers.

Students are admitted, therefore, both to their academic programs and to the Graduate College of Arizona State University. This Policy and Procedures Manual outlines those policies and procedures that apply across the board to all graduate students who matriculate at Arizona State University, from application to graduation. Graduate College policies supersede all academic program policies, although units may impose stricter policies. The Vice Provost and Dean of the Graduate College, hereafter referred to as "Dean," has final authority in matters of Graduate College policy and procedure.

Academic Integrity

The highest standards of [academic integrity](#) and compliance with the university's [Student Code of Conduct](#) are expected of all graduate students in academic coursework and research activities. The failure of any graduate student to uphold these standards may result in serious consequences including suspension or expulsion from the university and/or other sanctions as specified in the academic integrity policies of individual colleges as well as the university.

Violations of academic integrity include, but are not limited to: cheating, fabrication of data, tampering, plagiarism, or aiding and/or facilitating such activities. At the graduate level, it is expected that students be familiar with these issues and that students assume personal responsibility in their work. Toward this end, the Graduate College makes available an online Academic Integrity Tutorial, which all newly admitted graduate students are expected to complete within their first semester of coursework. This Tutorial appears under "Priority Tasks" in their [My ASU](#) screen.

Additionally, graduate students pursuing research that is funded by external sponsors are responsible for understanding and undertaking the trainings necessary to ensure the responsible conduct of such research. It is very important that students check with their thesis/dissertation advisor well in advance of data collection to ensure compliance with university regulations, and may seek further assistance from the university's [Office for Research Integrity Assurance](#). It is very important that students check with their thesis/dissertation advisor well in advance of data collection to ensure compliance with university regulations regarding the collection of research data. Please see the section of this guide titled "Research Involving Human and Animal Subjects."

Notice of Non-Discrimination

[ASU prohibits all forms of discrimination, harassment and retaliation.](#)

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the Title IX Coordinator or to the U.S. Department of Education, Assistant Secretary, or both.

Contact titleixcoordinator@asu.edu or 480-965-0696 for more information. Information on [making a report](#) can be found online.

Inclusive Excellence

As part of the ASU community, the Graduate College upholds, values, and enacts the [ASU Charter](#) on behalf of its graduate students and postdoctoral scholars. Our commitment to just and equitable treatment starts with our policies, continues with our processes, and imbues our practices in all we do, from admissions to alumni relations. That means treating every graduate student and postdoctoral fellow fairly and justly, demonstrating our commitment to [inclusive excellence](#) and our promise to whom we include and how they succeed.

Graduate Student Responsibilities

Graduate students are responsible for familiarizing themselves with all university and graduate policies and procedures. Students should also communicate directly with their academic unit to be clear on expectations for degree completion.

Communications with the Graduate College

Important information from the Graduate College is provided to students via their [My ASU](#) portal, their interactive plan of study (iPOS) and their ASU email account. Students should frequently check their [My ASU](#) account, iPOS and ASU email account for the most up-to-date information regarding their status, holds, items to attend to and other important information. All email communication to the Graduate College must come from the secure ASU email account.

Expressing Concerns and Resolving Conflicts

Occasionally, it may happen that a student will run into difficulties with a peer, faculty member, or even advisor or supervisor that seem to defy resolution. While every situation is different, we encourage the following steps for reporting issues within and beyond a program or school:

For matters related to sexual harassment, discrimination, and/or retaliation, follow the [reporting procedures](#).

For matters that appear to be outside the scope of formal reporting to the Title IX Office or Office of University Rights and Responsibilities, but are nevertheless difficult to resolve and interfere with the student's effective academic progress, we recommend the following:

- 1) If possible, students should report program-specific issues to the program area head or area coordinator.
- 2) If this report does not resolve the issue or the student is uncomfortable speaking to the program area head or area coordinator, the student may approach the appropriate graduate administrator in their school (e.g., Director of Graduate Studies).
- 3) If a student feels that their concern has not been adequately heard or resolved, they may schedule a meeting with the Director of their school.
- 4) If a student feels that their concern has not been adequately heard or addressed after meeting with individuals in the school, they may report to the appropriate Dean's Office representative.
- 5) If a student is uncomfortable working through the school procedure for any reason, they may go directly to the Dean's Office representative.

Graduate Student Government

Graduate Student Government (GSG) is the graduate student government for Arizona State University. We advocate for students, not only on the university level, but in all levels of government and provide services and resources that facilitate and empower student success in all aspects of academic and professional life. From travel grants to research grants and professional development initiatives, we enhance the graduate student experience. Join us in championing graduate student concerns on all levels. Visit the [GSG webpage](#) for more information and join us on [social media](#) to stay informed of real time events and resources.

Ombudspersons

Designated as impartial fact-finders who can facilitate problem-solving, ombudspersons at the university can help students who are unsure how to resolve their complaints or unsure where to go next. Refer to the list of [designated ombudspersons](#) at ASU.

Application

Submission of an Application

General [admission information and procedures](#) are available online. Applications for all graduate degree programs, certificate programs and/or non-degree seeking students must be submitted via the [graduate application portal](#).

Prior to applying to the Graduate College, applicants should review information regarding their specific [graduate program](#) and academic unit application requirements and deadlines.

Note: Students who are returning to school after an approved Leave of Absence are not required to re-apply, so long as the following applies: they must have a Graduate College- approved Leave of Absence on file with the Graduate College prior to their semester of non-registration, and be re-entering the same graduate program for the semester immediately following the approved request.

Application Deadlines

Application deadlines are set by the graduate programs. Consult the program website or the [Graduate Degree and Certificate Search](#) tool for specific application deadlines.

International students wishing to attend an in-person program must apply to Sessions A or C only (Applications for Session B are not available to international students due to visa requirements).

Application Fee

Each application to an ASU graduate program must be accompanied by a non-refundable application fee, payable by credit or debit card at the time of submission. The application fee covers Graduate Admission Services' administrative costs of processing all applications and is not refundable under any circumstance.

Applicants receive an email acknowledgement once the application has been successfully submitted. The acknowledgement includes an ASURITE ID and activation code so that students

may follow the progress of their application through [My ASU](#). Applicants should review [My ASU](#) to monitor their application status, “To Do” items and “Holds”.

Application Requirements

Applicants must submit official transcripts from their bachelors granting post-secondary institution. Additional transcripts may be required. 1. To verify that international credentials are comparable to a U.S. bachelors. 2. If significant coursework used towards the bachelor's degree was completed at another institution. 3. If the applicant intends on transferring coursework into a graduate program. Information about specific [program requirements](#) and [general requirements](#) are available online.

Academic units may have admission requirements in addition to those of Graduate Admission Services. Many graduate programs require scores from a national admissions test such as the Graduate Record Examination (GRE), Graduate Management Admission Test (GMAT) or the Miller Analogies Test. Some programs require a portfolio, letters of recommendation, a statement of goals and/or a resume.

Applicants should consult the academic unit regarding program admission requirements prior to submitting an online application. Programs will submit a recommendation to the Dean of the Graduate College regarding their willingness to admit an applicant.

All documents received by Graduate Admission Services in connection with an application become property of ASU and will not be returned.

Academic Credentials

Applicants must have earned a bachelor's degree or higher from a regionally accredited institution in the U.S. or the [equivalent of a U.S. bachelor's degree](#) from an international institution that is officially recognized by that country. Effective spring 2025, international three-year bachelor's degree programs are acceptable for admission purposes. Applicants are required to have completed their bachelor's degree prior to the start of their graduate program, and provide the final, [official documents](#) to ASU showing completion and attainment of a bachelor's or graduate degree prior to registration in the second semester of graduate studies at ASU.

If original credentials are issued in a language other than English, applicants must provide the original language transcripts as well as an official and literal translation. Photocopied documents certified by a notary public are not official. Professional third-party credential evaluation reports may not be used in place of official transcripts or in place of literal English translations.

Applicants must have maintained a minimum grade point average of 3.00 (scale is 4.00 = “A”) in the last 60 semester hours or 90 quarter hours of undergraduate coursework. Students may be admitted with additional requirements, often referred to as provisions or deficiencies.

Because ASU receives applications from many highly qualified students, some applicants may be denied admission for reasons not related to their academic performance. Examples include, but are not limited to: program capacity, mentor availability and/or program match.

ASU may make an exception to the U.S. equivalent bachelor's requirement for admission to certain preapproved programs. This exception may require specific documentation including, but not limited to: postsecondary education, significant work experience in the discipline and/or a non-U.S. equivalent degree that the college leadership and the ASU Graduate College Dean deems equivalent to the learned skills of a bachelor's in that discipline. For specific program requirements are available in [degree search](#).

ASU Personalized Graduate Admissions

ASU undergraduate students who meet the eligibility criteria for specific participating master's degree programs will receive an offer for [ASU Personalized Graduate Admissions](#) in their final undergraduate semester. Students who accept an ASU Personalized Graduate Admissions offer will be automatically admitted to one selected ASU graduate degree program without submitting a graduate admission application or supplemental materials.

Additional International Requirements

International Applicants

Please consult the [Graduate Admission Services](#) and [international student visas](#) websites for complete information.

Applicants who will hold an F-1 or J-1 visa must:

- 1) Meet the regulations of the U.S. Immigration and Customs Enforcement (ICE) agency.
- 2) Obtain insurance coverage against illness and accidents before being permitted to register for classes. Insurance must be maintained throughout the students' enrollment at the university.
- 3) Submit proof of [English proficiency](#).
- 4) Submit additional materials as outlined on the [Graduate Admission Services website](#).

Verify that they have the financial resources to cover their expenses during graduate study at ASU. The [Financial Guarantee form](#). In addition to the Financial Guarantee form, if ASU is providing an assistantship, an official offer letter must be sent to the Graduate Admission Services office. Similarly, if a governmental entity is funding the student, an official letter from the government must be submitted to the Graduate Admission Services office in addition to the Financial Guarantee form.

The I-20 or the DS-2019 (documents needed to obtain a student visa) is issued only after the completed and properly verified Financial Guarantee form, proof of [English proficiency](#) and supporting documents have been received by Graduate Admission Services. International students may enroll at ASU only if they have been admitted to a degree program or the post-baccalaureate teacher education program.

International students must be enrolled in a graduate degree program to enroll in an in-person certificate program.

English Language Requirement

English proficiency is required for all students who wish to enter an ASU graduate program. There are several ways to meet the [English proficiency requirement](#):

- [TOEFL](#) score of at least 66 (PBT) or 80 (iBT). The TOEFL is administered by TOEFL/TSE Services. ASU's institutional code is 4007. ASU accepts only electronic copies of the TOEFL score report. ASU does not accept TOEFL iBT® Home Edition, TOEFL iBT® Paper Edition, or TOEFL Essentials Exams.
- [IELTS](#) overall band score of at least 6.5. The IELTS is administered by the University of Cambridge. No institutional code is needed.
- [Pearson](#) Test of English (PTE) score of at least 60. The PTE is administered by Pearson.
- [Duolingo](#) English Test score of at least 105.

Alternatively, [Global Launch](#) provides options for satisfying the ASU English Proficiency requirement with completion of Advanced Level 2. It is recommended that students check with their department first before enrolling to ensure the college which their program resides in will accept one of these options.

Graduate Options:

- English for Graduate Admissions and Achievement Online Course.
- Completion of online course with a passing score.
- English Language Program – In-person or Online.
- Complete Advanced Level 2 with passing score.

Individual academic units may have higher requirements for English proficiency.

Consult the academic unit's website. English proficiency is only valid for two years and must be taken within two years from the beginning of the semester for which the student applied.

Some applicants are exempt from the English proficiency requirement. The following exceptions must be met exactly to be considered for an exemption:

- Applicants who are U.S. Citizens or U.S. Permanent Residents.
- Applicants who have earned a bachelor's degree or higher from a regionally accredited college/university in the United States.
- Applicants who have earned the equivalent of a U.S. bachelor's degree or higher from an international institution that is officially recognized by that country, and the country is on the ASU English Speaking Country and Territory List (official transcript required).
- Applicants who have earned the equivalent of a U.S. bachelor's degree or higher from an international institution that is officially recognized by that country, and the sole medium of instruction for the program was in English (official transcript required). Student should email gograd@asu.edu to request exemption and include a letter from the institution on letterhead indicating language of instruction or provide information on the institution website to verify language of instruction.
- Applicants who have completed at least 9 semester hours of graduate coursework with a cumulative GPA of 3.0 (on a 4.0 scale) or higher at a regionally accredited college/university in the United States or from an international institution that is officially recognized in that country and is on the [ASU English Speaking Country and Territory List](#) (official transcript required).
- Applicants who have completed at least 90 semester hours of undergraduate coursework with a cumulative GPA of 3.0 (on a 4.0 scale) or higher in residence at a regionally accredited college/university in the United States (official transcript required).
- Applicants who have completed ASU Global Launch's English for Graduate Admissions and Achievement Online Course with a passing score.
- Applicants who have completed Advanced Level 2 of [ASU Global Launch's English Language Program](#) – either in-person or online with passing scores.
- Applicants who have a U.S. High School Diploma (official transcript required).
- Applicants who are citizens from a country or territory listed on the [ASU English Speaking Country and Territory List](#).

All international applicants from countries where the native language is not English must pass an examination that certifies their skill in speaking English before applying for teaching assistantships. English proficiency for admission may not fulfill the English proficiency requirements for teaching assistantships. Visit the [International Teaching Assistant website](#) for information on how to fulfill this requirement. Departmental requirements may differ so it is recommended that applicants contact their departments for specific details.

Non-Degree Seeking Applicants

Applicants who do not immediately intend to pursue a graduate degree may [apply as non-degree seeking students](#). The application process does not require the submission of academic credentials or test scores

Non-degree applicants must have earned a bachelor's degree or higher from a U.S. regionally accredited institution or the equivalent of a U.S. bachelor's or graduate degree from an international institution that is officially recognized by that country.

There is no limit to the total cumulative credit hours students can take as non-degree students. However, to apply the credit hours toward an ASU master's or doctoral degree, students are limited to twelve credit hours taken within three years of admission to the degree program.

Non-degree students may not be eligible to enroll in some classes. Students should check the enrollment requirements before registering and contact the academic unit offering the courses with questions regarding qualification for registration. See "Non-Degree Students" in the section "Registration and Enrollment" for more information.

Financial aid is not available to non-degree students.

In-person non-degree study is typically not available to international students on F-1 or J-1 visas. For exceptions, prior to applying, students must contact their Designated School Official (DSO) at the school managing their SEVIS record to inform them that they have applied to take non-degree classes at ASU.

After Applying

Applicants receive an email acknowledgement once the application has been successfully submitted. The acknowledgement includes an ASURITE ID and activation code so that students may follow the progress of their application through [My ASU](#). Applicants should review [My ASU](#) to monitor their application status, "To Do" items and "Holds".

Admissions

A minimum grade point average of 3.00 (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of undergraduate coursework is required to be considered for admission to an ASU graduate degree program.

Academic units submit recommendations regarding admission decisions to Graduate Admission Services, but only the Dean of the Graduate College can make formal offers of admission.

Applicants monitor the status of their application through [My ASU](#). If admitted, the formal letter of admission can be downloaded from [My ASU](#). If denied admission, letters are sent via email to the address on record.

Upon Admission

Students may apply to programs that are both campus-based immersion programs, as well as online-based digital immersion. However, students have to choose one modality to attend if admitted to both.

Admission Requirements

Applicants may be admitted with additional admissions requirements and a deadline, as determined by the program of admission. These requirements may include successful completion of specific coursework or minimum grades and/or GPA. Additional admission requirements are outlined in the student admission letter and will appear on the iPOS.

Admission Deferrals

Students may, with the recommendation of the degree program, defer their initial start semester and year of admission. Requests for deferrals must be submitted by the last day to drop a class for session C for campus immersion students and the last day to drop a class for session B for ASU online students. Students who miss the deferral deadlines have the option to submit a petition for an enrollment exception for the original admit term.

International Student Admission

International students planning to attend ASU on an F-1 student visa or a J-1 exchange visitor visa must provide documentation required by the United States Citizenship and Immigration Services. [Visa documents](#) are only issued for international students enrolled in a degree program or the post baccalaureate teacher education program. There are strict regulations regarding when an I-20 or DS-2019 can be issued.

Academic Renewal

Academic renewal is a university policy administered to reset the graduate cumulative ASU GPA of a returning ASU graduate student. To request an academic renewal, applicants must have:

- Not previously received an academic renewal; and
- A cumulative ASU GPA below 3.0; and
- Been admitted to a graduate degree program after an absence from ASU of at least five calendar years; and
- Not been previously dismissed from ASU due to Academic Integrity or Student Conduct violations.

Students approved for academic renewal cannot apply any previously completed coursework or credit hours to their degree program and must complete all degree requirements after admission. All courses completed before and after the academic renewal remain on the transcript and may be considered when students apply for other graduate programs. To pursue an academic renewal, students should seek advising from the intended program of admission.

Registration and Enrollment

Graduate students register through [My ASU](#) according to their enrollment appointment. Details regarding registration and course drop/add procedures are provided in the [Registration and Tuition Payment Guide](#).

[My ASU](#) is an important tool to use during your ASU experience. Among other helpful information, students can access next steps and to-do items for enrollment and registration holds that need attention.

Enrollment Deposit

All master's students admitted to campus immersion programs are required to submit a [graduate enrollment deposit](#) prior to registration.

Immunizations

All students admitted to campus immersion programs are required to have proof of measles immunizations on file with [Student Health](#) prior to registration.

Enrollment Verification Guidelines

The University's Registrar's Office will verify student enrollment each semester according to the general guidelines that follow.

Enrollment Guidelines for Graduate Students

Term	Full-time	3/4 time	Half time	Less than half time
Fall & Spring	9+ credits	7-8 credits	5-6 credits	1-4 credits
Summer	3+ credits	N/A	2 credits	1 credit

*Audited courses do not count toward full-time enrollment

International F-1 and J-1 students are required to maintain full-time enrollment status. Any exception to full-time enrollment must be previously approved by the International Students and Scholars Center (ISSC)

Registration for Students Holding Graduate Appointments

Students with [Graduate Research or Teaching appointments](#) (RA/TA) must maintain enrollment in a minimum of 6 non-audit credit hours during each Fall and Spring semester appointments, and a minimum of one non-audit credit hour for Summer semester appointments. Academic units may have specific requirements regarding RA/TA appointments; students should consult with their degree program unit. Failure to maintain enrollment in the minimum required hours will result in the termination of their appointment.

Full-time equivalent (FTE) is a unit of measurement used to determine the number of hours students are involved in appointment activities. An FTE of 1.0 is equivalent to 40 hours per week. An FTE of 0.50 or 50% represents an appointment of 20 hours per week and is the maximum graduate appointment allowed by ASU.

RAs and TAs appointed for 50% FTE (20 hour per week) receive a tuition award (reflected as RA/TA Remission on their student account) for 100% of ASU graduate tuition. This appointment also provides premium coverage for ASU individual health insurance if the student elects for health insurance coverage. Please note, if health insurance is needed, students must select that option when registering for classes on My ASU; if they decline, they will be without coverage from the university. The university will not cover premiums for any other insurance plan.

RAs and TAs appointed for 25% FTE (10 hours per week) will receive a partial tuition award (reflected as RA/TA Remission on their student account). Students are responsible for 50% of the Arizona base resident tuition costs. This appointment does not provide premium coverage for ASU individual health insurance.

RA and TA appointments do not cover university mandatory fees, program tuition and/or fees for the academic year or summer sessions; these are the responsibility of the student.

Due to federal regulations, international students may be appointed a maximum of 20 hours per week during fall and spring semesters.

International students may be allowed to work 40 hours per week during summer sessions. International students typically are not allowed to seek employment outside the university and should consult with the [International Students and Scholars Center](#) (ISSC) to confirm eligibility.

Maximum Course Load

The Graduate College does not have a maximum credit hour enrollment policy for degree-seeking students. It is expected that academic units will set course loads for their students that facilitate academic success.

Continuous Enrollment

Once admitted to a graduate degree program or graduate certificate program, students must be registered for a minimum of one graduate-level credit hour during all phases of their graduate education, including the terms in which they were admitted and graduate. This includes periods when students are engaged in research, conducting a doctoral prospectus, working on or defending theses or dissertations, taking comprehensive examinations, taking Graduate Foreign Language Examinations or in any other way utilizing university resources, facilities or faculty time.

Registration for every fall semester and spring semester is required. Summer registration is required for students taking examinations, completing culminating experiences, conducting a doctoral prospectus defense, defending theses or dissertations or graduating from the degree program. Summer registration is also required for students whose first matriculation term is the summer and for those graduating in the summer.

To maintain continuous enrollment, the credit hour(s) must satisfy one or more of the following:

- Appear on the student's Interactive Plan of Study (iPOS).
- Be research (592, 692, 792), thesis (599, 699), dissertation (799), or continuing registration (595, 695, 795).
- Be a graduate-level course.
- Be a 400-level course that is listed on an approved iPOS.
- Be a deficiency course that is listed on the student's admit letter.

Grades of "W" and/or "X" are not considered valid registration for continuous enrollment purposes. "W" grades are received when students officially withdraw from a course after the drop/add period.

"X" grades are received for audit courses. All other grades, including "E," "EU" and/or "EN" are considered valid registration for continuous enrollment purposes despite receiving no credit. "E" is a failing grade, "EU" is for failing and did not complete the course, and "EN" is for failing and never participated in the course. Undergraduate courses not included on the iPOS do not satisfy the Graduate College continuous enrollment policy.

Additionally, students completing work for a course in which they received an [incomplete grade](#) of "I" must maintain continuous enrollment as defined previously. Graduate students have one year to complete work for an incomplete grade; if the work is not complete and the grade changed within one year, the "I" grade becomes permanent and will remain on the students' transcripts.

Leaves of Absence

Graduate students planning to discontinue registration for a semester or more must submit a [Leave of Absence](#) request via their Interactive Plan of Study (iPOS). This request must be submitted and approved *before* the anticipated semester of non-registration. Students may request a maximum of two semesters of leave during their entire program. Having an approved Leave of Absence by the Graduate College will enable students to re-enter their program without re-applying to the university.

Students who do not register for a fall or spring semester without an approved Leave of Absence are considered withdrawn from the university under the assumption that they have decided to discontinue their program. Students removed for this reason may re-apply for admission to resume their degree program; the application will be considered along with all other new applications to the degree program.

Students with a Graduate College approved Leave of Absence are not required to pay tuition and/or fees, but in turn are not permitted to place any demands on university faculty or use any university resources. These resources include university libraries, laboratories, recreation facilities or faculty and staff time.

Voluntary Withdrawal from ASU

Students who wish to withdraw from their graduate degree or certificate program and the university must complete and submit a [Voluntary Withdrawal form](#). Students must separately complete the appropriate forms with the University Registrar to withdraw from their courses. International students should contact the [International Students and Scholars Center \(ISSC\)](#) before submitting a Voluntary Withdrawal form, as it most likely will affect their visa status.

Voluntary Withdrawal for Choosing a New Program

Students who wish to discontinue a graduate program should complete and submit a [Voluntary Withdrawal form](#). Students should not take this action until they have been admitted to the other graduate degree program.

Medical/Compassionate Withdrawal

There are appropriate circumstances when students may need to withdraw from the university (i.e., medical withdrawal, compassionate leave). The policies for such withdrawals are the same for both undergraduate and graduate students. An approved [Medical/Compassionate Complete Withdrawal](#) is valid towards meeting the continuous enrollment policy.

Non-Degree Students

Continuous enrollment is not required for students admitted as non-degree seeking. Students should check the enrollment requirements for courses before registering and contact the academic unit offering the course regarding registration questions. Non-degree seeking students who decide to apply to a degree program may be allowed to apply up to 12 applicable credit hours taken within three years of admission to the degree program. Students should seek advising from the intended program for applicable course options.

Satisfactory Academic Progress

All graduate students are expected to make systematic progress toward completion of their graduate program. This progress includes satisfying the conditions listed below, and achieving the benchmarks and requirements set by the individual graduate programs as well as the Graduate College. If a student fails to satisfy the requirements of their program and/or the benchmarks outlined below, the student may be dismissed from their program based on the academic unit's recommendation to the Graduate College, at which time the Dean of the Graduate College makes the final determination.

Satisfactory academic progress includes:

- 1) Maintain a minimum 3.00 for all GPAs (see definitions below).
- 2) Satisfy all requirements of the graduate program.
- 3) Satisfy the maximum time limit for graduation for the student's graduate program (six years for masters and certificates, ten years for doctoral), see "Time Limit" sections.
- 4) Successfully pass comprehensive exams, qualifying exams, foreign language exams, and the oral defense of the proposal/prospectus for the thesis or dissertation.
- 5) Successfully complete the culminating experience.
- 6) **Remain continuously enrolled** in their graduate program. Failing to do so without a Graduate College approved Leave of Absence is considered to be lack of academic progress and may result in the Graduate College withdrawing the student from their program. See full Leave of Absence rules above.

Grade Point Averages

Graduate students must maintain a minimum 3.00 (scale is 4.00 = "A") grade point average (GPA) to maintain satisfactory academic progress and to graduate. The minimum 3.00 GPA must be maintained on all GPA's (Plan of Study (iPOS) GPA, Overall Graduate GPA and Cumulative GPA).

- 1) The iPOS GPA is calculated on all courses that appear on the student's approved iPOS.
- 2) The Cumulative GPA represents all courses completed at ASU during the graduate career.
- 3) The Overall Graduate GPA is based on all courses numbered 500 or higher that appear on the transcript after admission to a graduate program (or graduate non-degree). This includes shared 500-level coursework taken as part of an approved accelerated bachelor's/master's program.

Transfer credits and some courses taken in the Sandra Day O'Connor College of Law are not calculated on in the iPOS GPA or the Graduate GPA.

Courses lower than a "C" cannot appear on the iPOS but will be included when calculating the Graduate GPA. Courses with an "I" grade cannot appear on the iPOS.

Academic Dismissal by the Graduate College

Students who do not comply with Graduate College policies for continuous enrollment or satisfactory academic progress may be dismissed from their graduate program after review by the Dean of the Graduate College.

In addition, academic units may recommend dismissal of students from graduate programs for lack of compliance with published departmental policies or lack of satisfactory academic progress. All

such recommendations must be submitted to the Graduate College with appropriate documentation (e.g., nature of issue, communications with student). Students may appeal such recommendations at the level of their program, department, and/or college level. When they come to the Graduate College, they will be reviewed for procedural due diligence only. If the Dean of the Graduate College (or the Dean's designee) concurs with the recommendation, the student will receive the official notification of dismissal from the Graduate College. Only the Dean of the Graduate College may dismiss students from a graduate program due to lack of compliance with satisfactory academic progress policies.

Students who have been dismissed from a graduate program due to lack of compliance with published departmental or Graduate College policies, or lack of satisfactory academic progress are eligible to apply for admission to the same program only after one year has passed from the term of the dismissal.

It is important to note that program dismissal is **not** an option for students who have been found in serious violation of ASU's Academic Integrity policies by their unit; they must be recommended either for suspension (for a specified period of time) or expulsion (with no expectation of readmission) to the Provost's office, which has the ultimate authority in matters of suspension and expulsion. Students are afforded a final appeal at the university level in such cases. For further information on policy and procedures, consult the [Academic Integrity Student Policy](#).

Graduate Program Requirements

Determination of Academic Requirements

The requirements and policies that students must follow are based on the catalog and manuals for the semester and year of their admission to a graduate program. Students who fail to maintain continuous enrollment and are re-admitted to the graduate program, graduate under the requirements and policies in effect at the time of the new admission date. All programs are required to have program handbooks specifying all program requirements and to make them available to students at the beginning of their degree programs.

Master's Degree Programs

A minimum of 30 credit hours of graduate-level coursework including a culminating experience is required for a master's degree, although individual programs may have higher requirements. The culminating experience may be a written comprehensive examination, a capstone course, an applied project, a written portfolio, a thesis or equivalent.

Students who have a capstone or applied project course requirement must receive a grade of "B" or better. Students who fail to achieve a final grade of "B" or better must retake the course and earn a "B" or better to complete the program.

Doctoral Degree Programs

A minimum of 60 credit hours of graduate-level coursework are required for a professional doctorate degree. A minimum of 84 credit hours of graduate-level coursework and a written comprehensive examination are required for a PhD degree, although individual programs may have higher requirements. Additionally, the Foreign Language Examination, oral comprehensive examination and/or dissertation or equivalent may be required. A written comprehensive examination and prospectus (research proposal) is required for all programs requiring a dissertation.

Interactive Plan of Study (iPOS)

The Interactive Plan of Study ([iPOS](#)) functions as an agreement between the student, the academic unit and the Graduate College. The iPOS contains certain requirements such as coursework, a committee and a culminating experience which must be specified before the final plan of study can be approved. The academic unit's graduate support staff should be the primary contact for questions regarding iPOS, degree and certificate requirements. The iPOS must be approved by a student's committee, the head of the academic unit, and the Dean of the Graduate College.

Graduate students are required to complete their iPOS in their first enrolled semester. This requirement will be monitored by the student's academic unit and is considered critical to satisfactory academic progress.

Coursework

Graduate-level courses are those numbered 500 or higher. All core courses required by a graduate program must be at least 500-level. A maximum of 6 credit hours of 400-level coursework can be included on an iPOS with program approval. 400-level courses taken prior to admission and 400-level courses graded as "Pass/Fail" are not acceptable. Courses with grades of "D", "E", or "W" and audited courses (graded as "X") cannot be included on an iPOS. **Courses applied to a previously awarded degree cannot be included on an iPOS unless the student is enrolled in an approved course-sharing degree program.**

Any course with a grade of Incomplete ("I") must be completed within one calendar year of the end of the scheduled course. If a regular grade is not assigned within the calendar year, the "I" becomes permanent. The student will have to re-register for the course to receive credit. For additional information regarding incomplete grades, consult the [Student Services Manual](#).

Graduate students may register to audit one or more courses with the approval of the supervisory committee chair and the consent of the instructor involved. An audited course does not count toward the minimum number of credits required for international students with visa restrictions, students employed as TA/RAs or students receiving financial assistance. Courses taken for audit do not satisfy the Graduate College continuous enrollment policy.

Undergraduate courses not included on the iPOS do not automatically satisfy the Graduate College continuous enrollment policy unless they are notated on the admission letter as an additional requirement (deficiency).

Master's degree students whose culminating experience is a thesis must include 6 (and only 6) credit hours of 599 Thesis on the iPOS. Doctoral students whose culminating experience is a dissertation must include 12 (and only 12) credit hours of 799 Dissertation on the iPOS. Thesis and Dissertation credit hours may only receive grades of "Z" (research is in progress), or "Y" (research is satisfactorily complete). PhD students may apply up to 30 credit hours, sometimes referred to as a blanket 30, of appropriate coursework from a previously awarded master's degree toward their

PhD plan of study with approval of their academic unit and the Graduate College. Professional doctorates may apply either up to 15 or up to 30 credit hours of appropriate coursework from a previously awarded master's degree toward their doctoral plan of study with approval of their academic unit and the Graduate College. Students should consult their program handbook for specific rules regarding their professional doctorate.

Petitions

A formal request for an exception to any Graduate College policy requires a petition to be completed by the student, and must be approved by the committee chair and the head of the academic unit. The Graduate College office will review the petition and make a final determination. Petitions to utilize coursework older than 3 years may result in maximum time limit being adjusted. The Graduate College Dean has final authority in all matters of Graduate College policy.

Pre-Admission Credits

Credit hours completed at ASU or at another regionally accredited U.S. institution or international institution officially recognized by that country, before the semester and year of admission to an ASU graduate degree program, are considered pre-admission credits. With approval of the academic unit and the Graduate College, students may include a maximum of 12 graduate-level credit hours with grades of “B” or better that were not used towards a previous degree. Coursework taken while completing another degree awarded at another institution cannot apply to an ASU graduate degree, except for the blanket credit hours of appropriate coursework from a previously awarded master’s degree that can be used towards a doctoral degree, or unless enrolled in an approved course-sharing degree program.

Pre-admission credits must have been taken within 3 years of admission to the ASU degree or certificate program to be accepted. If special approval is granted for coursework older than 3 years from the admission term to apply towards the program, the maximum time limit may be updated to reflect the start date of the pre-admission coursework.

Note: All ASU credits used to earn a certificate may also be used towards a graduate degree as part of an approved stackable degree program. The certificate must have been completed within the last three years with grades of “B” or better in applicable coursework.

Accelerated Master’s programs may use a maximum of 12 pre-admission credit hours which may be shared between a Bachelor’s and Master’s program. Students may not exceed the 12- credit hour pre-admission policy. Students in accelerated programs should contact their advisor to ensure proper sharing of credit hours. See “Accelerated Master’s Programs” under “Master’s Degree” for more information.

With program and Graduate College approval, former ASU graduate students who are admitted and reenroll in a program in which they were previously enrolled may apply previously completed ASU coursework to their program. Returning ASU graduate students may have additional flexibility in the pre-admission time limit and credit hour limit. The maximum time limit may be updated to reflect the start date of the pre-admission coursework.

Official transcripts must be sent to Graduate Admission Services from the records office of the institution where the credits were earned.

Certain types of graduate credits cannot be applied, including credits awarded in the following situations:

- By postsecondary institutions that lack candidate status or accreditation by a regional accrediting association, or an equivalent international institution.
- Life experience.
- Courses taken at non-collegiate institutions (e.g., government agencies, corporations, and industrial firms).
- Courses, workshops and seminars offered by other postsecondary institutions as part of continuing education programs.
- Extension courses.

Academic credits earned at institutions other than ASU that base their credit calculation on a different scale from ASU's are subject to conversion before inclusion on the iPOS. In all cases, the inclusion of transfer courses on the iPOS is subject to approval by the academic unit and the Dean of the Graduate College.

Graduate Credits Earned by ASU Undergraduate Students

ASU students enrolled in an approved Accelerated Master's degree program (formerly referred to as 4+1), may share ASU credit hours. Students must contact their ASU undergraduate advisor and graduate support staff to ensure proper sharing of credit hours. Accelerated Master's students may earn up to a maximum of 12 graduate credit hours during their undergraduate degree to be used later towards the master's degree.

Reserved Credit - Upon approval by the unit and the Graduate College, undergraduate ASU seniors with at least a 3.0 cumulative GPA may reserve up to 12 graduate-level credit hours (6 credits of which may be 400-level), for possible use towards a future ASU graduate program. Reserved courses must have grades of "B" or better for use in a future graduate program and have been completed within 3 years of enrollment in the graduate program. Courses must be officially reserved in the Degree Audit System (DARS) for eligibility, and may not be used towards any baccalaureate graduation requirement. Students may not exceed the 12-credit hour pre-admission policy.

An undergraduate degree and a graduate degree may not be awarded during the same term of enrollment. Students must be admitted and be registered as graduate students to earn a master's or doctoral degree at ASU. See "Accelerated Master's Programs" under "Master's Degree" for more detailed information.

Sandra Day O'Connor College of Law Credit

The Graduate College accepts a numerical grade of 70 or higher for courses taken in the ASU Sandra Day O'Connor College of Law as part of an approved Plan of Study. These grades are not used in the two GPAs calculated for graduation unless needed, as determined by the Graduate College. The Sandra Day O'Connor College of Law also utilizes a letter grade system for coursework; letter grades are submitted as part of an approved Plan of Study and are calculated in the GPAs.

Repeating ASU Courses

Graduate students (degree or non-degree) may retake any course at ASU; however, all grades are part of the students' permanent academic record, remain on the transcript and are used in all GPA calculations.

Graduate Foreign Language Examination (FLE)

Graduate programs may require at least a reading level proficiency of a foreign language relevant to the area of study. Students who are required to demonstrate proficiency in a foreign language must pass the [Graduate Foreign Language Examination](#) specific to their particular graduate program. Students must be enrolled for a minimum of one credit hour during the term in which they take the examination.

Students must successfully complete the Foreign Language Examination before taking any required comprehensive examinations or scheduling the final oral defense of the thesis or

dissertation. Students may submit a petition to the Graduate College for a re-examination but must pass the examination in no more than three attempts.

Completing Degree Programs Concurrently

Students may pursue concurrent degrees in different academic areas with prior written approval from the head of the academic unit for each degree program and the Graduate College. A separate online application is required for each degree program, except in the case of predefined concurrent programs. For concurrent master's programs, a maximum of 20% of the minimum total credit hours for the completion of both degrees may be shared. For concurrent programs that include a doctoral program, a maximum of 12 credit hours may be shared. The total number of credit hours common to both degree programs may vary from this maximum value only when the Graduate College has formally approved coordinated degree programs.

Coursework common to both programs must constitute a well-planned and meaningful part of each of the programs and may only include coursework completed after admission to both degree programs. In all cases, the guidelines below must be followed:

- 1) Students must maintain continuous enrollment as previously defined. Registration in both programs *may* be required each semester. Please see the academic unit for specific satisfactory academic progress and program rules. Students may request a leave of absence to maintain continuous enrollment, but a separate request must be submitted for each program. Students may not be registered for coursework for either program while on a leave of absence.
- 2) Graduate credit transferred from another institution may be applied toward only one of the degree programs.
- 3) Culminating experiences (e.g. capstone courses, theses, applied projects) and comprehensive examinations cannot be shared between concurrent programs.
- 4) The 15 to 30 blanket hours allowed for doctoral programs from a previously awarded master's degree may only be applied to one of the doctoral programs.
- 5) The maximum time limit for completing degree requirements and graduation apply to each concurrent degree individually (6 years for master's; 10 years for doctoral).

Pre-approved Concurrent Degree Programs

The Graduate College has formally approved coordinated concurrent degree programs that students can pursue. These programs have specific set shared hours approved in their proposals. Units should refer to these to review the proper shared credit hours and other applicable policies.

Master's Degree

Master's Degree Plan of Study (iPOS)

Graduate students are required to complete their iPOS in their first enrolled semester. This requirement will be monitored by their academic unit and is considered critical to satisfactory academic progress. Students are not eligible to schedule a comprehensive examination or defense without an approved iPOS.

Master's Degree Minimum Credit Hours

A minimum of 30 credit hours of graduate work is required for a master's degree at ASU. If a thesis is required, 6 (and only 6) of the minimum required credit hours on an iPOS must be 599 Thesis credits. Interactive Plans of Study submitted for master's degrees that do not have a thesis requirement cannot include 599 Thesis credits. If an applied project is required, the Applied Project course (XXX 593) must be included on the iPOS and requires a grade of "B" or better.

Master's Degree Maximum Time Limit

All work toward a master's degree must be completed within six consecutive years. The six years begin with the semester and year of admission to the program. Graduate courses taken prior to admission that are included on the iPOS must have been completed within three years of the semester and year of admission to the program. If coursework completed over 3 years ago is being applied towards a degree program as pre-admission coursework, the maximum time limit may be updated to reflect the start date of the pre-admission coursework. Programs may require a shorter time limit for degree completion in the program's handbook.

Any exception to the time limit policy must be approved by the supervisory committee, the head of the academic unit and the Dean of the Graduate College. The Graduate College may withdraw students who are unable to complete all degree requirements and graduate within the allowed maximum time limits.

Master's Degree Supervisory Committee

A master's supervisory committee must be appointed before the student may apply for the comprehensive examination or before the student can register for 599 Thesis credits (if applicable). The committee is appointed by the Dean of the Graduate College upon the recommendation of the head of the academic unit. For programs requiring a thesis or written examination, the supervisory committee comprises a minimum of three members, including a chair or two co-chairs. At a minimum, the Chair or Co-Chair of the committee is required to be ASU faculty or an approved faculty affiliate.

Tenured/tenure-track faculty may serve as members of a master's graduate supervisory committee, chair or co-chair. The chair of the committee is typically from the student's degree program and should be carefully selected by the student to guide their work.

Master's Thesis/Thesis Defense

Students must be in good academic standing regarding GPA requirements (see previous section titled "Satisfactory Academic Progress") prior to scheduling a defense. See the Supervisory Committee section and the Thesis/Dissertation section below for more information.

Other Master's Culminating Experiences

A written comprehensive examination, capstone course, applied project or written portfolio is required as a culminating experience in master's programs that do not have a thesis requirement. The Graduate College office requires a written component to the comprehensive examination; academic units may also require an oral component. Students must have an approved iPOS prior to scheduling their comprehensive examination and/or registering for their applied project or capstone course. An applied project requires registration in the Applied Projects course (XXX 593) and requires a grade of "B" or better. A capstone course requires a grade of "B" or better.

Students must be in good academic standing regarding GPA requirements (see previous section titled “Satisfactory Academic Progress”) in the semester of the culminating experience.

Students are required to register for at least one semester hour of credit that appears on the iPOS or one hour of appropriate graduate-level credit during the fall, spring or summer session in which they complete their culminating experience.

Master’s Comprehensive Examination

Students must be in good academic standing regarding GPA requirements (see previous section titled “Satisfactory Academic Progress”) prior to taking master’s comprehensive examinations. Foreign language requirements, if applicable, must be fulfilled before taking the comprehensive examinations.

Students are required to register for at least one semester hour of credit that appears on the iPOS or one hour of appropriate graduate-level credit during the fall, spring or summer session in which they take their comprehensive examinations. If the date of defense falls between semesters, the student is required to register for the next available semester.

The master’s comprehensive examination must have a written component; however, individual master’s degree programs may require an additional oral component of the comprehensive exam for all of their students based on the academic progress policy of the program.

Students must schedule the comprehensive examination with their academic unit. All comprehensive examination results must be reported to the Graduate College office via the students’ iPOS immediately upon completion.

Failing the comprehensive examination(s) is considered final unless the supervisory committee and the head of the academic unit recommend, and the Dean of the Graduate College approves, a re-examination. **Only one re-examination is permitted.** A petition with substantial justification for re-examination, endorsed by the members of the students’ supervisory committee and the head of the academic unit, must be approved by the Dean of the Graduate College before students can take the examination a second time.

Re-examination may be administered on a timeline recommended by the committee chair and made in consultation with the committee, which should be no later than 12 months from the date of the original examination. The Graduate College office may dismiss a student from the degree program if the student’s petition for re-examination is not approved, or if the student fails to successfully pass the retake of the comprehensive examination(s).

Students choosing to appeal the results of their comprehensive examinations must follow the grade appeals process outlined by their academic unit.

Students who have received a final result of failure in the comprehensive examination will be recommended for dismissal by the academic unit.

Accelerated Master’s Programs

ASU allows for the simultaneous pursuit of an undergraduate and graduate degree in certain pre-approved programs. In such cases, the program must be approved by the Dean of the Graduate College. Undergraduate students must meet the unit’s criteria for approval to pursue their accelerated program and be granted consent to complete up to 12 credits of graduate coursework.

Students must contact their ASU undergraduate advisor and graduate support staff to ensure proper sharing of credit hours. Students may not share any credit hours taken as an undergraduate student unless they are participating in an approved accelerated program pairing (Bachelor's/Master's). Students must meet minimum admissions standards to be admitted to the Master's portion of the accelerated program.

Doctor of Philosophy Degree

Doctor of Philosophy (PhD) Degree Interactive Plan of Study (iPOS)

Graduate students are required to complete their iPOS in their first enrolled semester. This requirement will be monitored by their academic unit and is considered critical to satisfactory academic progress.

Students are not eligible to apply for the Foreign Language Examination (if applicable), comprehensive examinations, dissertation proposal/prospectus or dissertation defense (if applicable) without an approved iPOS.

PhD Degree Minimum Credit Hours

A minimum of 84 credit hours of graduate work is required for a PhD degree at ASU. If a dissertation is required, 12 (and only 12) of the minimum required credit hours on the iPOS must be 799 Dissertation credits. Interactive Plans of Study submitted for PhD degrees that do not have a dissertation requirement cannot include 799 Dissertation credits. Students may apply up to 30 credit hours from a previously awarded master's degree toward their PhD iPOS with approval of the program and supervisory committee and the Dean of the Graduate College. The credit hours must be from a regionally accredited or internationally recognized institution.

PhD Degree Maximum Time Limit

PhD students must complete all program requirements within a ten-year period. The ten-year period begins with the semester and year of admission to the PhD program. Graduate courses taken prior to admission that are included on the iPOS must have been completed within three years of the semester and year of admission to the program (previously awarded master's degrees used on the Interactive Plan of Study are exempt). If older coursework is being applied towards a degree program as pre-admission coursework, the maximum time limit may be updated to reflect the start date of the pre-admission coursework. Programs may require a shorter time limit for degree completion in the program's handbook.

Any exception to the time limit policy must be approved by the supervisory committee, the head of the academic unit and the Dean of the Graduate College. The Graduate College may withdraw students who are unable to complete all degree requirements and graduate within the allowed maximum time limits.

Supervisory Committee

Students are guided by faculty mentors who advise them through their degree program. Students should identify their advisors early in their graduate career and look to them for guidance in their graduate work. Once students have selected a supervisory committee, the head of the academic

unit recommends the supervisory committee to the Dean of the Graduate College who reviews and appoints the committee. Graduate supervisory committees must consist of a minimum of three individuals, including a chair or two co-chairs.

PhD programs may have additional requirements for committee composition. This committee serves as the intellectual guide for students and must approve the research/scholarly focus and substance of the dissertation. The members of the dissertation committee have the necessary knowledge and skills to advise the student during the formulation of the research topic and during the completion of the research and the dissertation.

Dissertation chairs and co-chairs must be approved by the Dean of the Graduate College and each degree program maintains a list of faculty members approved by the office for the Graduate College. Most resident faculty at ASU may serve on dissertation committees with the proviso that they have appropriate expertise in the discipline. At a minimum, the Chair or Co-Chair of the committee is required to be ASU or approved ASU-affiliate faculty.

All PhD programs have a [Graduate Faculty](#). The Graduate Faculty in a PhD program may also include highly qualified individuals from outside the university who have been approved to serve on committees. Each PhD program maintains a list of faculty members approved by the Graduate College to chair or co-chair PhD dissertations. Additional information regarding ASU Graduate Faculty can be found at [graduate faculty guidelines](#).

Doctoral students (including PhD, DMA, DPP, DBH, DNP, DBA, AuD and EdD) are urged to communicate with their academic unit to confirm eligibility of faculty to chair doctorate committees early on in the planning of their dissertation projects.

Academic programs will provide guidance to students for securing the supervisory committee. The final committee membership must be appointed by the Dean of the Graduate College before the student may apply for comprehensive examinations, defend the dissertation prospectus, and register for 799 Dissertation course credits (if applicable).

Supervisory Committee Roles and Responsibilities

The chair or supervisor is principally responsible for directing student work and facilitating the work of the committee. Typically, this involves working with the student to develop the overall approach to and plan of work for the project, including its timeframe and budget; providing initial review and guidance for the proposal and chapter drafts; reviewing and approving all subsequent drafts; helping to reconcile the comments of committee members on those drafts; ensuring the document meets ASU format and publication standards; and facilitating the defense and final revisions, as necessary.

The other members of the committee are responsible for providing additional research guidance according to their expertise; providing detailed feedback on prospectus and thesis/dissertation drafts; working with the student and the chair to reconcile differing comments; attending the defense; and reviewing any final revisions required.

The student is responsible for coordinating prospectus and thesis/dissertation defense meeting times and places; for providing all materials requested/approved by the chair to be distributed to committee members; and for communicating with committee members about review timeframes in order to meet all Graduate College deadlines.

On the occasion that committee members must be replaced, students may do so with the approval of their chairs via an iPOS petition to the Graduate College. In instances where the chair must be replaced, or if a complete committee reconstitution must occur, students are advised to consult with

the director of the graduate program and/or school leadership for assistance. The college dean would need to appoint a qualified designee to serve as a replacement for a chair.

PhD Comprehensive Examination

Students must be in good academic standing regarding GPA requirements (see previous section titled “Satisfactory Academic Progress”) prior to taking PhD comprehensive examinations.

When students have essentially completed the coursework on an approved iPOS, they must request permission to take the PhD comprehensive examination. The PhD comprehensive examination must have a written component; however individual PhD programs may require an additional subsequent oral component of the comprehensive exam for all of their students based on the academic progress policy of the program. These examination(s) are designed to assess students’ mastery of the field of specialization.

PhD comprehensive examination(s) are administered by a committee consisting of a minimum of three members. Specific professional doctorate programs may not require a written or comprehensive exam.

Foreign language requirements, if applicable, must be satisfied before taking the comprehensive examination(s).

Students are required to register for at least one semester hour of credit that appears on the iPOS or one hour of appropriate graduate-level credit during the fall, spring or summer session in which they take their comprehensive examinations. If the date of defense falls between semesters, the student is required to register for the next available semester.

Students must schedule the comprehensive examination with their academic unit. All comprehensive examination results must be reported to the Graduate College office via the students’ iPOS immediately upon completion.

Failing the comprehensive examination(s) is considered final unless the supervisory committee and the head of the academic unit recommend, and the Dean of the Graduate College approves, a re-examination. **Only one re-examination is permitted.** A petition with substantial justification for re-examination, endorsed by the members of the students’ supervisory committee and the head of the academic unit, must be approved by the Dean of the Graduate College before students can take the examination a second time.

Re-examination may be administered on a timeline recommended by the committee chair and made in consultation with the committee, which should be no later than 12 months from the date of the original examination. The Graduate College may dismiss a student from the degree program if the student’s petition for re-examination is not approved, or if the student fails to successfully pass the retake of the comprehensive examination(s).

Students choosing to appeal the results of their comprehensive examinations must follow the grade appeals process outlined by their academic unit.

Students who have received a final result of failure in the comprehensive examination will be recommended for dismissal by the Academic Unit.

PhD Prospectus Defense

All students in programs that require a dissertation are required to conduct a dissertation proposal/prospectus defense. Results of the defense are submitted via the student's iPOS. Failure of the proposal/prospectus oral defense is considered final unless the supervisory committee and the head of the academic unit recommend, and the Dean of the Graduate College approves, a second proposal defense. If a second defense is approved, students must submit the new prospectus by the end of six months (beginning from the date that the first PhD dissertation proposal defense was held). If the academic unit does not grant the students permission to retake the proposal defense, or if the students fail to pass the retake of the proposal defense, the Graduate College may dismiss the students from the degree program.

Students are required to register for at least one semester hour of credit that appears on the iPOS or one hour of appropriate graduate-level credit during the fall, spring or summer session in which they conduct their PhD prospectus.

PhD Candidacy

PhD students (with specific degree program exceptions approved by the Dean of the Graduate College) achieve candidacy status upon the successful completion of the comprehensive examination(s), the Foreign Language Examination (if applicable), and successfully defending the dissertation prospectus (if applicable). PhD students who have been advanced to candidacy are required to maintain continuous enrollment until all degree requirements have been completed and they have graduated.

PhD Dissertation/Dissertation Defense

Students must be in good academic standing regarding GPA requirements (see previous section titled "Satisfactory Academic Progress") prior to scheduling the defense. Also see "Thesis/Dissertation Consideration" section for more information.

Master's in Passing (MIP)

Where there is an approved Master's in Passing (MIP) program in place for a doctoral degree, those doctoral students who complete the requirements of the approved MIP may be awarded the related master's degree. Students should check with their doctoral program to see if there is an approved MIP for their degree. Students with an existing master's degree with the same major are not eligible.

Students who include any blanket hours from a previously awarded master's degree on their doctoral Interactive Plan of Study are not eligible for a Master's in Passing. All coursework included in an MIP Interactive Plan of Study must have been completed after the semester and year of admission to the doctoral program.

Professional Doctorate Degree

Professional Doctorate Degree Interactive Plan of Study (iPOS)

Graduate students are required to complete their iPOS in their first enrolled semester. This requirement will be monitored by their academic unit and is considered critical to satisfactory academic progress.

Students are not eligible to apply for the following, if applicable, without an approved iPOS: Foreign Language Examination, comprehensive examinations, dissertation proposal/prospectus or dissertation defense, applied project or capstone.

Professional Doctorate Degree Minimum Credit Hours

A minimum of 60 credit hours of graduate work is required for a professional doctorate degree at ASU. If a dissertation is required, 12 (and only 12) of the minimum required credit hours on the iPOS must be 799 Dissertation credits. Interactive Plans of Study submitted for professional doctorate degrees that do not have a dissertation requirement cannot include 799 Dissertation credits. With approval of the program and supervisory committee and the Dean of the Graduate College, students may apply up to 15 credit hours from a previously awarded master's degree towards the iPOS for professional doctorate programs requiring less than 84 credits. Students may apply up to 30 credit hours from a previously awarded master's degree towards the iPOS for professional doctorate programs requiring 84 credits. The credit hours must be from a regionally accredited or internationally recognized institution.

Professional Doctorate Degree Maximum Time Limit

Professional doctorate students must complete all program requirements within a ten-year period. The ten-year period begins with the semester and year of admission to the professional doctorate program. Graduate courses taken prior to admission that are included on the iPOS must have been completed within three years of the semester and year of admission to the program (previously awarded master's degrees used on the Interactive Plan of Study are exempt). If older coursework is being applied towards a degree program as pre-admission coursework, the maximum time limit may be updated to reflect the start date of the preadmission coursework. Programs may require a shorter time limit for degree completion in the program's handbook.

Any exception to the time limit policy must be approved by the supervisory committee, the head of the academic unit and the Dean of the Graduate College. The Graduate College may withdraw students who are unable to complete all degree requirements and graduate within the allowed maximum time limits.

Supervisory Committee

Students are guided by faculty mentors who advise them through their degree program. Students should identify their advisors early in their graduate career and look to them for guidance in their graduate work. Once students have selected a supervisory committee, the head of the academic unit recommends the supervisory committee to the Dean of the Graduate College who reviews and appoints the Committee.

ASU offers professional doctorate degrees that require a dissertation and some that do not. Professional doctorate programs that require a dissertation must follow the same committee guidelines as PhD programs. Professional doctorate programs that do not require a dissertation may have different requirements for committee composition, including the minimum number of committee members. All professional doctorate programs require an approved faculty committee.

Like PhD programs, all Chairs and co-chairs must be approved by the Dean of the Graduate College and each degree program maintains a list of faculty members approved by the office for the Graduate College. Most resident faculty at ASU may serve on committees with the proviso that they have appropriate expertise in the discipline. At a minimum, the Chair or Co-Chair of the committee is required to be ASU or approved ASU-affiliate faculty.

All doctoral-level students (including PhD, DMA, DPP, DBH, DNP, DBA, AuD and EdD) are urged to communicate with their academic unit to confirm eligibility of faculty to chair their committees early on in the planning of their culminating experience.

The final committee membership must be appointed by the Dean of the Graduate College before the student may apply for, if applicable, comprehensive examinations, dissertation proposal/prospectus or dissertation defense, or register for culminating event course credits. Standard supervisory committee roles and responsibilities apply to professional doctorate committees.

Professional Doctorate Degree Culminating Events

Professional doctorate degrees that require a dissertation follow all standard policies regarding the comprehensive exams, prospectus, defense, and dissertation. Specific professional doctorate degree programs may not require a dissertation, but may still require a written or oral comprehensive exam. For professional doctorate programs that require comprehensive exams, students must follow the same standards for comprehensive exams for PhD students.

Instead of a dissertation, some professional doctorate programs may require a culminating event of an independent applied project or a capstone course, both of which require a written component and a final grade of B or better. Specific academic programs may also require an oral presentation or poster session as a component of these culminating event options. The written component, oral presentation, and poster sessions do not follow the same requirements as outlined by the Graduate College for the standard PhD defense and format process.

All students are required to register for at least one semester hour of graduate level credit during the fall, spring or summer session in which they conduct their culminating event.

Graduate Certificates

Graduate Certificates

The graduate certificate is a programmatic series of linked courses. Graduate certificates facilitate professional growth for people who already hold the baccalaureate degree. For more information on current graduate certificates see the [Graduate Degree and Certificate search](#).

Certificate Admission

All applications for graduate certificate programs must be submitted through [graduate application portal](#).

Certificate Requirements

A minimum of 9 semester hours of graduate work is required to complete a graduate certificate as specified in degree search. No more than 20% of the minimum required credit hours for a graduate certificate may be transferred from another university. All transfer work must meet the Graduate College transfer policies. All coursework used to complete an ASU graduate certificate must be completed within a six-year time limit. Courses at a 400-level may be allowed with prior approval from the appropriate certificate program; however, a minimum of two-thirds of the courses taken to complete the certificate must be at the 500-level or above.

All credit hours earned in a certificate program can be applied towards a degree program, and all credit hours earned in a degree program can be applied towards one certificate with these restrictions:

- standard pre-admission policies are followed
- there is no sharing of a culminating experience
- admission to the certificate must occur prior to completion of all courses for the certificate.

If a student completes two certificates, they may share no more than 20% of the total minimum required credit hours for both certificates.

Awarding of a Graduate Certificate

Students will be eligible for the official posting of the graduate certificate to their transcripts when all applicable coursework has been successfully completed and Graduate College requirements have been met (including a 3.0 minimum iPOS, Graduate and Cumulative GPA). Students must submit an approved Interactive Plan of Study, and apply for graduation in order to complete the certificate program.

Thesis/Dissertation

Format Manual and Format Wizard

Students must use the [Format Manual](#) to prepare their thesis/dissertation. The Format Manual is a comprehensive guide to formatting a thesis, dissertation or equivalent document and it always overrides a style guide if the two conflict. Questions regarding the Format Manual requirements should be directed to gradformat@asu.edu.

Use of the Graduate College's [Format Wizard](#) is required for all students going through the format process. The Format Wizard generates a template into which students can insert their document's text. It is designed to help students with the basic format requirements such as margins and spacing, and greatly improves the format review process for students.

Thesis/Dissertation Research

The master's thesis and doctoral dissertation (or equivalent) must be based on original and independent research/creative activity conducted by students, under the guidance of the graduate supervisory committee. The thesis is an introduction to scholarly writing and is intended to create an understanding of theory and methods applicable to one's field. The dissertation should demonstrate the candidates' mastery of research and scholarly methodologies, theory and tools of the discipline. Both the thesis and dissertation should demonstrate the candidates' ability to address a major intellectual problem and to propose meaningful questions and hypotheses, as well as utilize the methods with which to study the proposed research question(s) and related hypotheses, and draw justifiable conclusions based on the research conducted.

The written doctoral dissertation is based on original and substantial scholarly work that constitutes a significant contribution to knowledge in the student's discipline. The dissertation research must be conducted during the time of the student's doctoral studies at ASU, under guidance of ASU Graduate Faculty and in accordance with Graduate College policies and procedures. The composition of the dissertation is defined by the degree program with the approval of the Dean of the Graduate College.

Research Involving Human and Animal Subjects

Theses or dissertations that make use of research involving human or animal subjects must include an official statement indicating that the research has been approved by the appropriate university body.

Research involving human subjects conducted under the auspices of Arizona State University is reviewed by the University Human Subjects Institutional Review Board (IRB) in compliance with federal regulations. Documents containing any data collection from human subjects require that applications be submitted to the [ASU Office of Research Integrity and Assurance](#) for approval **before** data collection or recruitment of subjects is initiated

Research involving the use of animals conducted under the auspices of Arizona State University is reviewed by the Institutional Animal Care and Use Committee (IACUC) in compliance with federal regulations. Documents containing any data collection from animal research require that applications be submitted to the [ASU Office of Research Integrity and Assurance](#) for approval.

It is very important that students check with their supervisory committee or chair well in advance of data collection to ensure compliance with university regulations regarding the collection of research data. Students who are required to submit their document through Graduate College format review must attach the IRB (or IACUC) approval as an appendix to their document.

Generative Artificial Intelligence (AI) in Culminating Experience

Generative artificial intelligence (AI) is rapidly evolving, and the Graduate College at Arizona State University upholds standards for academic integrity and rigor. This document provides guidance on the use of generative AI within the context of the graduate culminating experience, including written and oral examinations, portfolios, applied projects, capstone courses, master's theses, and doctoral dissertations. Updated guidance and policies may be issued in the future to adapt to changing technology, legal frameworks and ethical standards.

The graduate student's committee is responsible for determining permissible amounts and types of generative AI—if any—to use as a support tool for the student's culminating experience. It is the student's responsibility to consult with their committee to understand appropriate and allowable uses of generative AI for their culminating experience. If the committee permits the use of generative AI, the student must be transparent about their use of generative AI and correctly attribute all uses in their document(s).

If a committee finds that a student utilized an unallowed generative AI tool or produced a significant portion of their culminating work using generative AI, they should report the violation according to the [ASU Student Academic Integrity Policy](#). When in doubt refer to the ASU Student Academic Integrity Policy.

Additional information and resources

Refer to the [ASU Artificial Intelligence site](#), [Office of the University Provost site](#) and [ASU Library Guide](#) on generative AI for frequently asked questions (FAQs) and more information about citing AI models, permanent links to AI results, and uses of AI in research.

All culminating experience documents are required to use the [ASU Format Wizard](#) and [Format Manual](#) for proper formatting before submission in the iPOS. Students and their committee chair(s) are responsible for ensuring that documents meet ASU format requirements.

Thesis/Dissertation Defense

Thesis and dissertation defenses are open to all members of the university community and the general public. The oral defense engages the supervisory committee and the candidate in a critical and analytical discussion of the research and findings of the study, as well as a review of the contribution of the research topic to advancing knowledge in that discipline. The presentation of a thesis or dissertation defense in an open forum fosters a broader awareness of the state of graduate research at ASU, promotes a wider scholarly dialogue among disciplines, and recognizes publicly the scholarly contributions of master's or doctoral candidates. The defense information will be published on the Graduate College [_Master's/Doctoral Defense Calendar](#).

Scheduling and Holding the Defense

Students with a thesis or dissertation as a culminating event are required to present and defend it in a public oral examination and to the satisfaction of the supervisory committee. Students must schedule the defense in the iPOS at least 10 business days prior to the planned defense and have it approved by the program and the Graduate College. See [Graduation Deadlines](#).

Students work with their supervisory committee and the academic unit's graduate support staff to identify a suitable date and reserve a room (for in-person defenses). Defenses that are held without being scheduled with the Graduate College are considered invalid.

Students must be registered for:

- At least one semester hour of credit that appears on the Interactive Plan of Study; OR
- At least one semester hour of appropriate graduate-level credit, for example: Research (592/792), Thesis (599/799), or Continuing Registration (595 or 795)

Students must be physically present at the oral defense of their thesis, dissertation or equivalent document unless the student is in an online program that requires a thesis/dissertation and the defense was approved by the committee and the Graduate College. It is expected that oral defenses will be held on an ASU campus (for in-person defenses) and during regular business hours (8 a.m. to 5 p.m. AZ Mountain Standard Time) in order to facilitate student, faculty, and public accessibility. A student has the option to include a virtual link to encourage audience attendance. When there are sound educational reasons for holding a defense under different circumstances, contact the Graduate College for approval before scheduling the defense.

All members of a student's supervisory committee must attend the final oral defense of a thesis or dissertation. However, there are situations (e.g. faculty travel, faculty emergencies and/or faculty leave) that may necessitate holding a defense with one or more committee member(s) absent. The committee chair must be in attendance, but if a committee member cannot attend, a qualified substitute must be appointed to attend in their place. The substitute should be a regular faculty member within the academic unit. In these circumstances, the Graduate College must be notified with the name of the member who will be absent, the faculty member who will attend as a substitute, and the student's name and ID number. This information must be submitted **before** the defense.

Once a defense has been scheduled and approved in the iPOS, students must submit within 10 days, a complete draft copy of the thesis/dissertation to be defended by uploading the document to their Interactive Plan of Study.

Passing the Defense

At the completion of the defense, faculty will determine if the student has passed or failed the defense, or if the submitted document requires revisions. The preliminary defense results must be submitted by all committee members via the defense results tab in the iPOS within 10 days after the defense occurrence. If there are revisions required by the committee, they will need to be completed and approved by the committee before a full “Pass” can be designated in the iPOS. If the committee’s requested revisions are not completed by the graduation deadlines for the semester of the defense, the student will need to maintain continuous enrollment until they are completed. If they are not successfully completed within one year of the defense, re- submission of the document and a re-defense of the thesis or dissertation may be required in order to ensure currency of the research.

Format Review

Students who are required to complete a thesis or dissertation as part of their graduate program must submit their document to the Graduate College for [format review](#). Format revisions are typical and must be completed in a timely manner. If students are unable to complete format revisions and submit to UMI/ProQuest by the deadline for the semester in which the defense is held, they must complete the revisions, remain continuously enrolled and present the final document to UMI/ProQuest within one year of the defense. Failure to do so will require the re-submission of the document for format review and may result in re-defense of the thesis or dissertation to ensure currency of the research.

If supported by the supervising faculty chair and committee (if applicable), students may request an alternative format for their culminating experience by emailing gradformat@asu.edu. All exceptions will be reviewed by the Vice Provost and Dean of the Graduate College.

All students who have a culminating event document that requires format review are also required to complete the Design Aspirations tab within the iPOS. In addition, all PhD students are required to complete the Survey of Earned Doctorates (SED) as part of the format process.

ProQuest ETD Submission

ProQuest ETD requires all students to submit a PDF version of their final culminating event document. Students are required to create a new user account specific to the submission of their document, and must use their ASU email address. The Graduate College requires that the PDF document follow the formatting standards presented in the format manual. Students will receive final format approval only after the submitted PDF document has successfully passed a format review. Students are able to order bound copies of their document for themselves through ProQuest ETD. The final document will also appear archived in the [ASU Digital Repository](#).

Graduate-level Disestablished Programs

A disestablished graduate program is a graduate certificate, master's, or doctoral program that the institution has chosen to discontinue. Upon effective term and year of disestablishment, ASU may choose to stop admitting new students into the program. This includes students seeking to change into the disestablished program or pursue it concurrently with another program. Active students in a disestablished program will have the option to continue to pursue the program provided continuous enrollment, and satisfactory academic progress policies are followed, including maximum time limits which are 6 years for masters and certificates, and 10 years for doctoral programs. Students who are discontinued from the program for any reason are not eligible to re-

enroll in the disestablished program. Students who return and are in good academic standing will be required to choose a new program that is accepting applications. Students may have the option to choose a new program under the guidance of leadership from their discontinued graduate program.

Degree Conferral

Graduation

Students must apply for graduation through My ASU in accordance with the University Registrar policies. See [Application for Graduation](#). Students must meet all University and Graduate College degree requirements prior to the conferral date, including achieving a 3.0 GPA in the graduate GPA, the iPOS GPA, and the cumulative GPA. Students must continue to be registered until all degree requirements have been met. All students seeking a degree or certificate must apply for graduation.

The graduation deadlines and procedures are set by the Graduate College and are available online at [graduation deadlines](#). Deadline dates vary slightly depending on the calendar year, so students should check them carefully in advance of the semester they plan to defend their thesis/dissertation. It is very important that students become familiar with these deadlines so that graduation can occur during the expected term.

College Policies

W. P. Carey School of Business policies

The W. P. Carey School of Business [1] is one of the largest and highest-ranked business schools in the country, repeatedly lauded by publications such as The Wall Street Journal, Financial Times, The Princeton Review, and U.S. News & World Report. The school is internationally regarded for its leadership in business education, research productivity and distinguished faculty that includes a Nobel Prize winner. Students come from all over the world, and among them are dozens of National Merit Scholars.

The school's academic choices are as diverse as they are abundant. Undergraduates can earn a BS degree in one of nine business disciplines or a BA degree that combines core business classes with a concentration outside the business school. Its programs of study reflect and respond to the demands of business and industry today and beyond, and the school has dedicated career placement services. The school is located in the heart of the fast-growing Phoenix metropolitan area, which provides opportunities for internships, employment and networking, and its classes are offered on ASU's Tempe, Polytechnic and West Valley campuses, as well as online.

Academic integrity

Academic dishonesty

The faculty of the W. P. Carey School of Business follow the guidelines on academic dishonesty in the ASU Student Academic Integrity Policy. [1]

The W. P. Carey School of Business honor code [3] may be found online. Additional resources and information may be found at the W. P. Carey Academic Integrity [4] website.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [5]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [6], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [7] website.

Undergraduate policies

W. P. Carey School of Business academic good standing

Academic warning

A new student is placed on academic warning when their ASU cumulative GPA falls below 2.00 at the end of their first fall or spring semester after grades are posted. Students on academic warning must meet with an academic advisor to discuss a plan for getting back into good standing and complete the following tasks:

- Download and read through the Academic Warning Information Packet. [8]
- Complete the Canvas course WPC Rising Scholars. Advising holds are not removed until this course is completed.
- Schedule an advising appointment through Advising SOS. [9]
- Complete the optional survey [8] if there is anything the advisor should know about the previous semester.

Probation

All business students, first-year through senior, must maintain a minimum GPA of 2.00 for all courses completed at ASU to remain in academic good standing. If this standard is not maintained, the student is placed on university academic probation.

Students on university academic probation must see an advisor before further registration and must do one of the following:

1. raise their ASU cumulative GPA to 2.00 or higher to return to academic good standing
2. obtain a semester GPA of 2.50 with no grade lower than "C" to be granted one additional semester on continued college probation, and at the end of the continued college probation period must return to academic good standing with a minimum cumulative ASU GPA of 2.00 to avoid disqualification

W. P. Carey School of Business continued probation: If a student's ASU cumulative GPA is still lower than 2.00 at the end of the probationary semester but the student has earned a semester GPA of 2.50 or higher with no grade lower than "C," the student is placed on continued probation in the subsequent semester. The student then has only one more semester to raise the ASU cumulative GPA to 2.00 or higher.

ASU continued probation: If a student's ASU cumulative GPA is still lower than 2.00 at the end of the probationary semester, but the student has earned a semester GPA of 2.00 or higher with no grade lower than "C," the student is placed on continued probation with ASU but is ineligible to remain in the W. P. Carey School of Business as a business student. The student must change to a major that is not offered through the business school.

Disqualification

A student who does not meet college probation requirements is academically disqualified and is not allowed to register in a fall or spring semester at the university. If the student has already enrolled in a future fall or spring semester, the student will be dropped from those courses and the registration will be cancelled. A disqualified student may attend ASU during the summer session only immediately following the semester in which the student is disqualified.

A disqualified student must wait one year to apply for readmission to ASU. If the student intends to return to the W. P. Carey School of Business, they may do so only after completing the following eight skill courses, or their equivalent, with a minimum GPA of 3.00 and with no grade lower than "C":

- ACC 231 Uses of Accounting Information I or ACC 232 Financial Accounting I
- ACC 241 Uses of Accounting Information II or ACC 242 Managerial Accounting I
- CIS 105 Computer Applications and Information Technology
- ECN 211 Macroeconomic Principles
- ECN 212 Microeconomic Principles
- ECN 221 Business Statistics
- MAT 210 Brief Calculus
- MAT 211 Mathematics for Business Analysis

Disqualified students should contact their academic advisor immediately to determine what is needed to earn readmission to the university in the future.

Professionalism policy

The W. P. Carey School of Business is committed to promoting the highest levels of honesty, integrity and professionalism so as not to impede the personal, academic and social development of all students. Professionalism, broadly speaking, includes ethical decision-making, consideration of others and demonstration of personal accountability. Exhibiting professional behavior is integral to a positive learning environment within the university and promotes innovation, openness to diversity, integrity and mutual respect for students, faculty and staff.

The behaviors that are practiced today become habits in the future. To that end, business students are expected to treat others as they wish to be treated. Students are to be considerate of classmates, professors, staff and recruiters in all aspects and commit to acting in a professional manner in all school settings, including classes, sponsored events and interviews. Students should be aware that they are representing the W. P. Carey School of Business and Arizona State University.

More information is available on the W. P. Carey Professionalism Policy [10] website.

Advising

W. P. Carey School of Business offers undergraduate program academic advising at the Polytechnic, Tempe and West Valley campuses. Students may find personalized advising information and may schedule appointments in advance through Advising SOS. [9]

Students are encouraged to schedule appointments each semester to ensure they are making progress toward their degrees. Advising is required for:

- newly admitted students, prior to enrollment for the first term (at orientation)
- first-year students, prior to enrollment for the second term
- seniors, upon completion of 87 or more credit hours
- any student who is off track in regard to eAdvisor tracking requirements
- any student who is on university academic probation
- disqualified students interested in attending ASU in the future

Additional information regarding academic advising is available online [11] or through the W. P. Carey School of Business undergraduate programs office at 480-965-4227.

Credit and registration

Pass/fail

Business majors may not enroll on a pass/fail basis in any course required for graduation. Pass/fail credits taken at another institution may be petitioned for use but only if the student can demonstrate proof that the pass grade was equivalent to a "C" (2.00) or higher.

Transfer credit

Credit from other institutions is accepted subject to the following guidelines:

Students planning to take their first two years of coursework at a community college or another four-year college should plan to take business and economics courses that are offered as freshman- or sophomore-level courses for transfer equivalency as supported through the Transfer Guide [12]. Frequently, these lower-division courses are numbered 100 through 299, but that can vary with each transferring institution. A maximum of 30 credit hours of business and economics courses from community colleges are accepted toward a bachelor's degree in business, and these are applied as lower-division credits.

Students may transfer to ASU up to nine credit hours of approved upper-division business coursework required for the ASU business degree. Business courses completed at a two-year college may not be used for upper-division transfer credit in the business core or major. Such courses may be acceptable for general university credit but may not be applicable toward the degree requirements of the major. Courses taught in the upper-division business core must be completed at an accredited four-year institution. Upper-division business course transfer credits are considered for upper-division business credit in the ASU major only if the course was taken at an AACSB International-accredited school. <https://www.aacsb.edu/> [13]

Credit is granted for transferred courses deemed equivalent by the W. P. Carey School of Business to corresponding courses in the selected program of study and is subject to grade and ASU resident credit requirements. No grade lower than "C" (2.00 on a 4.00 scale) transfers to ASU. To be accepted for credit as part of a degree program in business, all courses transferred from other institutions must carry prerequisites similar to those of the courses they are replacing at ASU.

Degree requirements

Associate degree

Students in the Associate of Science program should refer to their major map and the University Associate Degree Graduation Requirements policy [14] for minimum credit hour, GPA and other degree requirements.

Critical requirements

All business students must meet the critical requirements for their majors. Students who are required to follow eAdvisor tracking requirements yet do not comply with the critical requirements are considered off track, and a hold is placed on their records. These students must work with an advisor to have the hold removed.

Undergraduates in the W. P. Carey School of Business are expected to be strong academically, especially with regard to grades earned in business courses. Careful course planning in consultation with an academic advisor assists students in maintaining satisfactory academic performance and progress.

Concurrent degrees

ASU students not enrolled in a W. P. Carey School of Business degree program who wish to pursue a concurrent degree with the business school:

- must be in good academic standing
- must have completed 30 credit hours of college coursework
- must meet direct admission criteria [15] for the degree program they wish to pursue

If direct admission requirements have been met, students should file a concurrent degree request form. Students who do not meet direct admission requirements for business degree programs must complete the admission portfolio [16] and be admitted prior to filling out the concurrent degree request form. Students are allowed a maximum of two concurrent degree request attempts.

Students currently enrolled in the W. P. Carey School of Business who wish to pursue concurrent degrees within the business school:

- must be in good academic standing
- must have completed 30 credit hours of college coursework with a grade of “C” (2.00) or higher, including the following skill courses or their equivalents:
 - ACC 231 Uses of Accounting Information I
 - CIS 105 Computer Applications and Information Technology
 - ECN 211 Macroeconomic Principles or ECN 212 Microeconomic Principles
 - MAT 210 Brief Calculus
 - MAT 117 College Algebra (BA major) or MAT 211 Math for Business Analysis (BS major)
- must have completed or currently be enrolled in the following courses or their equivalents:
 - ACC 241 Uses of Accounting Information II
 - ECN 211 Macroeconomic Principles or ECN 212 Microeconomic Principles
 - ECN 221 Business Statistics

Business students who meet the criteria shown above should submit a concurrent degree request [17] through the university approval process. Review and submission times are on the website. Business students are unable to change their major status after they are admitted to a concurrent degree program unless they submit a new concurrent degree request. The direct admission criteria only apply to a single major within the W. P. Carey School of Business; students are not able to freely change majors within their concurrent degree or dual concentration combinations. Students are allowed two concurrent degree request attempts.

Current business students who wish to pursue a concurrent degree outside of the W. P. Carey School of Business should submit a concurrent degree request form and receive approval from both colleges (e.g., finance and psychology).

Major proficiency requirements

Students must receive a grade of “C” (2.00) or higher in upper-division courses for the major. If a student receives a grade lower than “C” in any course in the major, the course must be repeated. If a second grade lower than “C” is received in either an upper-division course in the major already taken or a different upper-division course in the major, the student is no longer eligible to take additional upper-division courses in that major.

Reinstatement/readmission

Students seeking readmission after an absence from the university should follow university undergraduate readmission procedures. [18]

Other special requirements

Student appeal procedure on grades

W. P. Carey School of Business students follow the university policy for the student appeal procedure on grades. [19]

Admission

Because of the additional requirements for the BS degree, students who do not meet minimum admission standards automatically are considered for the BA degree program in the W. P. Carey School of Business. First-year admission requirements for the Bachelor of Arts program are the same as the university's first-year admission requirements. Transfer students who want to be admitted to the Bachelor of Arts program must have a GPA of 3.00 for all transfer coursework and a GPA of 3.00 for all ASU coursework, and must meet university transfer admission requirements.

Graduate policies

All graduate students in the W. P. Carey School of Business are required to maintain minimum cumulative, graduate and iPOS GPAs of 3.00 ("B"). Students should see individual graduate degree programs for additional requirements on satisfactory academic progress, probation and disqualification. In addition, they should review the Graduate Conduct and Professionalism Policy. [20]

Advising

Advising of graduate students is normally handled by a graduate program's operations team members. Students must prepare a plan of study during the first semester of their degree program. Students are encouraged to begin discussions with their program coordinators or managers early in their studies so that coursework can be geared toward supporting their academic progress. All students, whether in a thesis or nonthesis option, must file a POS.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies, including those of the Graduate College and the W. P. Carey School of Business.

Herberger Institute for Design and the Arts policies

The Herberger Institute for Design and the Arts is built on a combination of disciplines unlike that in any other program in the nation, comprising the schools of Art [1]; Arts, Media and Engineering [2]; Music, Dance and Theatre [3]; The Design School [4]; The Sidney Poitier New American Film School [5]; and the ASU Art Museum [6].

The institute is dedicated to the following design principles:

- **Creativity is a core 21st-century competency.** Students in the institute develop the ability to be generative and enterprising, work collaboratively within and across artistic fields, and generate nonroutine solutions to complex problems. With this broad exposure to creative thinking and problem-solving, graduates are well-prepared to lead in every arena of the economy, society and culture.
- **Design and the arts are critical resources for transforming society.** Designers and artists must be embedded in their communities and dedicate their creative energy and talent to building, reimagining and sustaining the world. Design and the arts must be socially relevant and never viewed as extras or as grace notes. The institute is committed to placing designers, artists and arts-trained graduates at the center of public life.
- **The institute is committed to enterprise and entrepreneurship.** For most college graduates today, the future of work is unpredictable, nonlinear and constantly evolving. A recent study found that 47% of current occupations likely will not exist in the next few decades. Design and the Arts faculty, students and graduates are inventing the jobs and the businesses of the future; reimagining how design, art and culture get made and distributed; and coming up with new platforms and technology for the exchange of culture and the enrichment of the human experience. Legendary author and expert on city life Jane Jacobs talks about the abundance of "squelchers" — parents, educators, managers and leaders who tend to say no to new ideas. At the institute, there are no squelchers. All embrace the cardinal rule of improvisation: Always say, "Yes, and..."
- **Every person, regardless of social background, deserves an equal chance to help tell the stories of this nation and the world.** Creative expression defines everyone, what each aspires to, and how all hope to live together. The institute is committed to projecting all voices — to providing an affordable education to every student who has the talent and the desire to boldly add their creative voice to the world's evolving story.
- **Effectiveness requires excellence.** The ability to solve problems, build enterprises, and create compelling and socially relevant design and art requires high levels of mastery. By each being the best in their chosen fields, all can stretch themselves and their talents to make a difference in the world.

Students with questions about Herberger Institute for Design and the Arts policies or procedures may review the Herberger Institute Office of Student Success [7] website, contact the office at 480-965-4495 to speak with advising staff, or contact the institute's dean's office at 480-965-0050.

Academic integrity

The Herberger Institute for Design and the Arts strictly adheres to the ASU Student Academic Integrity Policy [8]. Academic honesty is expected of all students in all examinations, papers, academic transactions and records. Possible sanctions include appropriate grade penalties, loss of registration privileges, disqualification and dismissal. Information about academic integrity also can be found on the school's academic integrity page. [9]

Professionalism

Professionalism entails a set of skills critical for workplace and creative successes, and professional behavior creates an atmosphere promoting safe and high-quality spaces for constructive learning as well as individual and community well-being. The institute expects students to show professional behavior with clients, members of the community and others in the university environment (e.g., classrooms, clinics, labs, studios) including members of the faculty and administration, other students and staff. Students are expected to conduct themselves in a professional manner, including arriving on time with an open attitude to learning, engaging in ethical behavior, resolving conflicts in an appropriate manner at all times, holding partnership information confidential, and using prudence in written and verbal communications.

Professionalism includes:

- attendance and punctuality
- following all university and studio safety protocols and behavioral expectations
- honesty and integrity
- respectful communication
- self-control

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [10]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [11], call 480-965-0696 for more information, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [12] website.

Undergraduate policies

Academic standing

University academic warning

A new incoming freshman or transfer student with a cumulative GPA that has dropped below 2.00 at the end of the first semester (fall or spring) at ASU is placed on academic warning. All students who are placed on academic warning are encouraged to complete academic success modules online through Canvas. Students are also encouraged to meet with their academic advisor to discuss any challenges they may have experienced in order to develop a plan to improve their standing.

If a student does not earn a cumulative GPA of a 2.00 or higher in their second semester, the student is placed on probation.

On-campus students are required to enroll in UNI 220 Mindset Connections during their academic warning semester; this becomes a graduation requirement once a student's cumulative GPA falls below 2.00. If a student is not successful in this course, they must enroll in the course until they successfully complete it.

Herberger Institute for Design and the Arts academic probation

Students in any of the institute's degree programs are placed on probation when they fail to maintain a minimum cumulative GPA of 2.00. Students on probation must observe rules or limitations the institute imposes on their probation as a condition of retention. All students who are placed on probation are required to complete academic success modules online through Canvas. Students also are required to attend mandatory advising appointments in an effort to improve their academic standing.

On-campus students are required to enroll in UNI 220 Mindset Connections in the semester of their probation; this becomes a graduation requirement once a student's cumulative GPA falls below 2.00. If a student is not successful in this course, they must enroll in the course until they successfully complete it.

Continuing probation

A student who is already on probation and earns a GPA of 2.00 or higher for the term but is not successful in raising their cumulative GPA above 2.00 is placed on continuing probation. Continuing probation is meant to acknowledge the student's academic progress while still providing academic support to help them reach the required 2.00 GPA. Students on continuing probation must continue to attend mandatory advising appointments until they earn a cumulative GPA of 2.00 or higher.

Disqualification

If the student's ASU cumulative GPA is not 2.00 or higher and the conditions of probation have not been met after one semester on probation, the student is disqualified for a minimum of two full academic semesters. Disqualification is exercised at the discretion of the institute and becomes effective on the first day of the fall or spring semester following institute action. A disqualified student is notified by the dean's office of the institute and is not allowed to register for a fall or spring semester at the university until reinstated. Students should consult with their academic advisor to discuss this academic standing and their options for returning to ASU.

Co-enrolled continuing probation program

Select disqualified students may participate in the co-enrolled continuing probation program at the discretion of their college or school. This program allows the student the opportunity to attend ASU during the fall or spring semester part time to take UNI 220 plus one ASU course co-enrolled with at least eight credit hours at a Maricopa County Community College. The student selects these courses in consultation with their ASU academic advisor. If the student achieves a combined semester cumulative GPA of 2.50 upon completion of the term, they may continue regular enrollment at ASU for the upcoming semester.

If the student is receiving financial aid, they need to check with the financial aid office to see how participation in this program will affect their eligibility for financial aid.

Reinstatement

A student who has been academically disqualified and seeks to return to ASU for either a fall or spring semester, at any time, and has met college admission standards is required to seek readmission to the university [13] and reinstatement to the institute. Applications for readmission to ASU must be made to ASU Admission Services; the application for readmission automatically generates a letter of appeal for reinstatement to the institute for consideration.

All disqualified students should contact the Herberger Office of Student Success [14] regarding procedures and guidance for reinstatement and returning to academic good standing. Disqualified students may attend summer sessions at ASU to raise their cumulative GPA. If a cumulative GPA of 2.00 or higher is achieved upon completion of summer coursework, the student may petition the institute for early reinstatement. The possibility of successful reinstatement is enhanced when students follow recommendations and meet established standards for summer coursework or coursework completed at other institutions. All students who are academically disqualified should contact an institute advisor to discuss their options.

Also available in the Office of Student Success is information on the college policies and procedures for student grievances with respect to grades [15] and various petitions regarding standards and graduation requirements.

Advising

Undergraduate academic advising is handled as a centralized activity within the institute. Students are encouraged to make appointments through the Herberger Institute Office of Student Success [14]. Appointments are recommended and should be scheduled in advance with the lead academic advisor.

There are multiple ways to schedule an advising appointment:

- online through My ASU [16]
- phone: 480-965-4495
- email: HerbergerAdvising@asu.edu [17]
- in-person: Design South (CDS), room 101 (M-F, 8 a.m.-5 p.m.) or Fusion on First (FOF), Room 320 (M-F, 8 a.m.-noon; 1-5 p.m.)

While the institute provides academic advising, it is ultimately each student's responsibility to fulfill academic and program requirements. Administration of program requirements is the responsibility of the head of the academic unit and the dean.

Credit and registration

Course load

First-semester freshmen and entering transfer students are not permitted to register for more than 18 credit hours in session C or nine credit hours in session A and nine credit hours in session B. Continuing students who wish to register for more than 18 credit hours must meet the academic criteria for an overload petition and work with their academic advisor in the Herberger Office of Student Success. No student should assume that the petition for overload will be granted.

For summer sessions, the maximum course load is 14 credit hours, seven per six-week summer session. Overloads are rarely granted for these sessions, and requests must be petitioned to the Herberger Office of Student Success.

Audit grade option

Students may choose to audit certain courses; this option allows them to attend regularly scheduled class sessions, but they do not earn credit. Students should obtain instructor approval before registering for these courses. The option to audit is not available for all courses.

This grade option may not be changed after the add period.

Pass/fail or credit/no credit

The only courses accepted toward graduation with a grade of pass/fail or credit/no credit are those designated by the academic unit as such, or internships and field studies.

Transfer credits

While the university accepts credits transferred from other accredited institutions, transfer coursework must be equivalent in content and level of offering. Arts or design transfer credits are not applied to specific degree programs until they are reviewed and accepted by the appropriate academic units. The Design School and the School of Art require a review of samples of work in portfolio format from previous studio classes to evaluate some transfer studio credits.

Incompletes

Students are responsible for contacting their course instructors regarding the process of requesting and fulfilling requests for an incomplete. The grade of "I" (incomplete) can only be given by an instructor (and it is subject to unit director approval) when a student who is doing otherwise acceptable work is unable to complete a course (e.g., final exam or term paper) because of illness or other conditions beyond the student's control. The student must submit a request to the instructor to be considered for a grade of "I." A completed request must have the Incomplete Grade Request form [18] and include a justification, a listing of requirements that have not been fulfilled, and a proposed schedule of completion. The instructor reviews the request and determines whether to accept or deny the request. The instructor may propose modifications when submitting a copy of the accepted request to the appropriate office.

A grade of "I" in any course that is a prerequisite for sequential courses automatically denies the student enrollment in subsequent courses and could result in the student being administratively dropped from a subsequent course in which they are enrolled.

The student has a maximum of one calendar year from the date the grade of "I" is recorded to complete the course, but faculty can place lesser time limitations at their discretion. A student does not re-register or pay fees for a course for which an "I" has been received in order to complete the course. A grade of "I" for undergraduate coursework that has been on a student's record for more than one calendar year automatically changes to "E."

Withdrawals

University withdrawal regulations apply to all courses. In certain degree programs of the institute, curricula are modular and sequential; because space in these programs is limited, a student is expected to progress through the curriculum with the class. To fully understand all potential repercussions of withdrawal from any courses, the student should discuss their plans with their academic advisor.

Degree requirements

Associate degrees

Students in the Associate of Arts programs should refer to their major map and the University Associate Degree Graduate Requirements Policy [19] for minimum credit hour, GPA and other degree requirements.

Critical requirements

All Design and the Arts students must meet the program and critical requirements for their majors. Students who do not comply with the critical requirements are considered off track, and their records are placed on hold; students are required to meet with an institute academic advisor to have a hold removed. For more information about critical requirements, students should refer to the corresponding major map.

Concurrent degrees

A student who wishes to obtain concurrent degrees must submit a concurrent degree request form [20] through the university approval process and meet the following criteria: minimum cumulative GPA of 3.00, successful completion of

six credit hours in both majors, and successful admission to both intended programs of study. A student pursuing concurrent degrees within the institute must complete 24 unique credit hours in each major.

Change of major

A current ASU student who wishes to change majors [21] to one of the institute's degrees must have a cumulative ASU GPA of 2.50 or higher. Students who wish to enter a major that requires an audition, interview, milestone or portfolio review may be required to successfully complete this requirement before changing their major.

Reinstatement/readmission

Undergraduate degree-seeking students who previously attended ASU in the Herberger Institute for Design and the Arts but have not been enrolled at ASU for up to seven consecutive fall or spring semesters may be eligible to return through quick re-entry [22]. Students do not need to submit a new application or application fee, but they must contact an academic advisor in their program for registration.

Undergraduates who have been away from the university for eight or more semesters and want to return to ASU in a Herberger Institute for Design and the Arts program are required to apply for readmission [23] through the ASU Admission Services office.

- Readmission is only considered after a student has remained out of the institute for a minimum of eight semesters.
- A student is required to supply proof that they are now capable of successfully completing courses in the discipline by the completion of at least 12 credit hours of appropriate coursework with a GPA of 2.50 or higher.
- If the readmission request requires a change of major, then admission decisions are made by the college that offers the intended major.
- If a student seeks readmission to their previous Design and the Arts major and that major requires a creative review, a new review may be required.
- If readmission is approved within the institute, the student returns with continuing probation status in the appropriate degree program.

Once readmitted, returning students are required to meet with an institute advisor before enrolling in courses at ASU.

Other special requirements

Creative reviews

A creative review (audition, interview, milestone, portfolio submission) is required for entrance into many majors in the Herberger Institute for Design and the Arts. Students should visit the school's admission page [24] for details.

Graduate policies

Advising is handled as a decentralized activity within the institute. To offer personalized attention, each academic unit establishes its own graduate advising procedures. Students are encouraged to make appointments through the central office of their major discipline. Students should consult their academic unit's website for general information about the programs, admission and advising procedures:

- School of Art [1]; 480-965-6303
- School of Arts, Media and Engineering [2]; 480-965-9438
- School of Music, Dance and Theatre [3]; 480-965-3371
- The Design School [25]; 480-965-3536
- The Sidney Poitier New American Film School [5]; 602-496-5555

Students must fulfill all requirements of their graduate program to remain in good academic standing, and they must abide by all university policies, including those of the Graduate College [26] and the Herberger Institute for Design and the Arts.

Ira A. Fulton Schools of Engineering policies

The Ira A. Fulton Schools of Engineering [1] educates undergraduate and graduate students, providing them with the knowledge, skills and attitudes they need for success in technically oriented careers. The schools offer students a variety of educational opportunities through which they may achieve excellence in the major branches of engineering, computer science, informatics, construction management, aviation, technology, human systems engineering, environmental resource management, and technological entrepreneurship and management.

The Ira A. Fulton Schools of Engineering takes pride in its diversity, its economic and cultural heritages, and the quality of its graduates. The schools strive to be integral to the communities they serve and a lifelong presence in the lives of those within their compass. The schools' educational and research programs are built around the following principles: entrepreneurship, use-inspired research and scholarship, a focus on the individual, the intellectual fusion of unique and distinct disciplines, social embeddedness in communities (local, national and international), and global engagement.

Ira A. Fulton Schools of Engineering aspirations

Graduates from any of the schools' programs possess a solid technological background. Additionally, the Ira A. Fulton Schools of Engineering aspires to develop leaders who are well-read, well-spoken and knowledgeable about current business practices. Experiential education is recognized as a complementary praxis and integral to the overall academic experience. To this end, the schools offer enhanced curricula, special courses and extracurricular activities to enrich the student's stay and to offer every student an opportunity to achieve the schools' aspirations.

All the programs within the schools are professional programs, and professionalism is an important component of all the curricula. The schools strive to help students understand and value the various aspects of professionalism, including ethical behavior, a desire for lifelong learning, the ability to communicate with others, and an awareness of how the profession fits into society and impacts it. As the first step in ethics, all students are expected to follow the student code of conduct and rules of academic integrity [2] defined by the university.

Academic integrity

Students enrolled in the Ira A. Fulton Schools of Engineering must adhere to ASU's Academic Integrity Policy [3]. Students are responsible for reviewing this policy and understanding each of the areas in which academic dishonesty can occur. In addition, all engineering students are expected to adhere to the ASU Academic Integrity Honor Code [4]. When a violation is reported to the Academic Integrity Office, students have the opportunity to provide feedback before a final decision is made. The Ira A. Fulton Schools of Engineering keeps a record of all confirmed academic integrity violations; multiple violations may result in increasingly significant sanctions.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [5]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [6], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [7] website.

Undergraduate policies

Academic standing

Student responsibilities

Students need to make many decisions as they complete their degree programs. While the schools and the university have a number of resources available to help with decision-making (e.g., faculty, courses, advisors and tutors), students are expected to take responsibility for their decisions.

Ira A. Fulton Schools of Engineering good standing

Students are expected to select and successfully complete courses that lead to the timely completion of their degree programs. Students are said to be in good standing if they fulfill all the following:

- maintain acceptable GPAs
- enroll in and complete critical tracking requirements
- complete courses each semester that are applicable to their degrees

University academic warning

An undergraduate student with a cumulative GPA lower than 2.00 at the end of their first semester (fall or spring) is considered to be in the status of university academic warning. If, after one term with an academic warning, a student still does not achieve the minimum GPA standard of 2.00, the student is placed on probation for at least one additional term. If a student's minimum GPA first falls below the standard in a term that is not their first term at ASU, they are placed on probation. Failure to return to good academic standing after being placed on probation may result in disqualification.

A student with an academic warning is considered to be in conditional good standing and is permitted to enroll.

Regardless of whether a student's status is an academic warning or probation, they must self-enroll [8] in the Canvas-based course Fulton Academic Success Strategies to prepare for the upcoming semester and develop a success plan for returning to university academic good standing. The student also meets with their academic advisor to finalize coursework for the upcoming term. At the discretion of the student's college or school, that plan may require successful completion of UNI 220 Mindset Connections.

Ira A. Fulton Schools of Engineering academic probation

There are many reasons why some students do not make satisfactory progress. These students are placed on Ira A. Fulton Schools of Engineering academic probation to ensure they receive the extra attention and resources they need in order to get back in good standing. Working with an academic advisor to plan a strategy for success is crucial. Students may be required to reduce their course loads (13 credit hours maximum), retake courses or even take courses outside their programs.

To return to academic good standing in the Ira A. Fulton Schools of Engineering, students on probation must earn a minimum semester GPA of 2.25 and earn a minimum cumulative ASU GPA of 2.00 at the end of the probation semester. If a student is enrolled in only one course, a grade of "C+" (2.33) or higher and a minimum cumulative ASU GPA of 2.00 are required to obtain academic good standing. Students who meet either the semester GPA requirement or the cumulative ASU GPA requirement at the end of their first probationary semester may be continued on probation. Courses completed during summer sessions are not used to reevaluate a student's probationary status.

Conditions for Ira A. Fulton Schools of Engineering probation

A student is placed on college or university probation when specific academic expectations are not met. Some conditions trigger an automatic placement on probation, whereas others trigger an automatic review of the student's case to determine if probation is warranted. When a probation review is triggered, the final decision and any conditions of probation are determined at the program level.

Automatic probation is triggered by either of the following:

- two successive semesters with GPAs lower than 2.00
- an ASU cumulative GPA lower than 2.00

Automatic review (borderline) is triggered by either of the following:

- a semester with a GPA of 2.00 or lower
- a cumulative GPA in the major lower than 2.00

Ira A. Fulton Schools of Engineering continuing probation

A student on probation or continuing probation at the university level is placed on college-level continuing probation status when specific academic expectations are not met. When a continuing probation review is triggered, the final decision and any conditions of continuing probation are determined at the college level.

To return to academic good standing in the Ira A. Fulton Schools of Engineering, students on continuing probation must earn a minimum semester GPA of 2.25 and earn a minimum cumulative ASU GPA of 2.00 at the end of the probation semester. If a student is enrolled in only one course, a grade of "C+" (2.33) or higher and a minimum cumulative ASU GPA of 2.00 are required to obtain academic good standing.

Automatic continuing probation is triggered by either of the following:

- a student on probation does not attain a semester GPA of 2.25 or higher and has a cumulative GPA of at least 2.00 at the end of the probation semester
- a student on probation or continuing probation attains a semester GPA of 2.25 or higher and has a cumulative GPA lower than 2.00

Ira A. Fulton Schools of Engineering ineligibility

Students who are on continuing probation and fail to meet the schools' retention standards become ineligible to continue working toward a degree within the Ira A. Fulton Schools of Engineering.

Ineligibility occurs if the continuing probationary student does any of the following:

- does not attain a semester GPA of 2.25 or higher and has a cumulative GPA of at least 2.00 at the end of the probationary semester
- has already been on probation for two consecutive semesters
- fails to complete any courses appropriate for the degree during each semester

Ineligible students are subject to the following limitations:

- Students who change colleges may not register for courses in the Ira A. Fulton Schools of Engineering unless the courses are required by their new majors.
- Students who register for courses in the Ira A. Fulton Schools of Engineering may be withdrawn from these courses any time during the semester in which they are registered.

Ineligible students are encouraged to consider these options:

- Students may be eligible to change their majors to other colleges if they are in university academic good standing and have acceptable cumulative GPAs; the acceptable GPA level depends on the number of credit hours of completed coursework. Students should contact their advisor to determine if this is an option for them.
- Students may take nonengineering courses during summer sessions.
- An ineligible student may apply for readmission to the college after one calendar year.
- Students may request a status review by contacting the Office of Academic and Student Affairs.

Ira A. Fulton Schools of Engineering disqualification

Students who are on probation or continuing probation and fail to meet the schools' retention standards become disqualified from continuing to work toward a degree within the Ira A. Fulton Schools of Engineering.

Disqualification occurs if the student on probation or continuing probation does not attain a semester GPA of 2.25 or higher and has a cumulative GPA lower than 2.00 at the end of the probation semester.

Disqualified students are subject to the following limitations:

- A disqualified student is not allowed to register in a fall or spring semester at the university. If the student has already registered for a future fall or spring semester, the registration is canceled.
- A student who has been disqualified may apply for readmission to the college after one calendar year.
- A disqualified student may not attend as a nondegree student.
- If a disqualified student elects to attend another university or two-year college, any credits earned there will not affect the ASU cumulative GPA. A course repeated elsewhere will not result in a replacement of a grade earned at ASU.

Ira A. Fulton Schools of Engineering student disqualification and ineligibility appeals

A student disqualified or deemed ineligible because of lack of satisfactory progress is afforded the opportunity to appeal the decision to the school or program. All timely student appeals are reviewed by the school or program for consideration. Any student appeal that is denied by the school or program is automatically forwarded to the Ira A. Fulton Schools of Engineering Academic Standards Committee for review. Appeal decisions made by the Academic Standards Committee are final.

Advising

Successful completion of a program in the Ira A. Fulton Schools of Engineering requires careful planning. While final responsibility for becoming familiar with and understanding academic degree requirements lies with each student, each program employs professional academic advisors who work with students to help them set academic and career goals, understand school and university policies and procedures, meet degree requirements, and become familiar with sources

of academic support within the university. Students also may work with faculty advisors familiar with the chosen fields of specialization. Students should consult their advisors prior to registering each semester. A list of advising contacts [9] can be viewed online.

Students are encouraged to use eAdvisor tools [10] for academic planning. This service provides critical requirements and major maps, which are reports individualized for each student that lay out a specific, clear and accurate path to timely completion of the student's intended degree.

Staff in the Office of Academic and Student Affairs in the Ira A. Fulton Schools of Engineering are available to assist individual students with many different types of advising issues. They work with students to answer general questions about policies and procedures; help with registration transactions; administer the probation, disqualification and readmission processes; oversee disciplinary actions; hear grade grievances; and assist with other administrative matters.

Mandatory advising

All first-year students, student-athletes and students who are found to be having academic difficulty are required to receive advisement before they can register for any classes, including during summer sessions. Some programs relax the advising requirement after the first year, so students should consult their academic advisor or review the My Tasks list in My ASU [11] to determine if advising is required.

Students on continuing probation status should thoughtfully complete the Continued Probation Success Plan (PDF) [12] and schedule an appointment with their advisor to review the success plan, to discuss strategies and to develop a plan to return to good academic standing.

Credit and registration

Students are required to register for courses using one of the university-provided processes. As part of the registration process, the school enforces the following registration restrictions.

Maximum hours

Students enrolled in undergraduate degree programs in the Ira A. Fulton Schools of Engineering may register for a maximum of 19 credit hours per semester. Any student who wants to register for more than the maximum must submit a college standards petition [13] and have an approval on file prior to registering for the overload.

Ira A. Fulton Schools of Engineering probationary status

Students who have been placed on academic probation within the Ira A. Fulton Schools of Engineering must complete the Canvas-based course Fulton Academic Success Strategies (Canvas self-enroll) [14] and then schedule an appointment with their academic advisor to discuss success strategies and develop a plan to return to academic good standing. Students on academic probation within the Fulton Schools may enroll in a maximum of 13 credit hours per semester.

Degree requirements

Undergraduate nondegree status

Students who are enrolled in an undergraduate nondegree status in the schools must obtain advising and approval to register from the Office of Academic and Student Affairs before registering each semester.

Course prerequisites

Students should consult class search and the course catalog [15] for course prerequisites. Students who register for courses without the designated prerequisites may be withdrawn without their consent at any time before the final examination. Such withdrawals may be initiated by the course instructor, the program chair of the program offering the course, or the dean of the college. In such cases, students do not receive monetary reimbursement.

Pass/fail grades

Students requesting credit for pass/fail courses taken at another institution must file an Ira A. Fulton Schools of Engineering standards petition [13]. Each request is judged on its particular merits.

Non-Ira A. Fulton Schools of Engineering students

Students who are not admissible to programs in the Ira A. Fulton Schools of Engineering and who enroll in another college at ASU may not register for any 300- or 400-level courses in the schools unless the courses are required in their degree programs, and the students have the proper course prerequisites.

First-year composition requirement

Completion of the first-year composition requirement [16] is required for graduation. Any student whose written or spoken English is unsatisfactory in any course may be required by the appropriate school director or program chair to take additional coursework.

Concurrent degrees

Students interested in pursuing a concurrent degree should consider several aspects:

- The degree conferral date occurs when all degree requirements are satisfied for each undergraduate degree program; that is, students receive both degrees at the same time regardless of whether coursework for one degree is completed before the other degree.
- Admission criteria, policy for double-counting credits, and other requirements and rules are defined by the school or college offering the degree program.
- Financial aid and scholarship limits apply and may not cover all semesters; therefore, students may need to invest more time, and hence more funds, to complete concurrent degrees.

Once a decision is made to pursue a concurrent degree, the process must be set in motion:

- A student pursuing a concurrent degree must meet with both program advisors to learn about degree and graduation requirements of both degree programs and the eligibility requirements before starting the approval process. Both advisors should review the graduation plan that outlines courses the student will take each semester.
- The student must complete the concurrent degree process with each respective school or college offering the desired degree programs to request permission to pursue the concurrent degrees.
- Concurrent degree approvals result in the posting of concurrent degrees in PeopleSoft. If the student later decides to drop one of the degrees, the student should inform University Registrar Services Graduation Office [17] that they are no longer interested in pursuing concurrent degrees.

Change of major

Students interested in switching majors to one of the programs within the Ira A. Fulton Schools of Engineering must meet the schools' admission requirements for transfer students [18]. This requirement is true for students admitted to ASU as first-year or transfer students. A change of major is not guaranteed, and students interested in changing majors are encouraged to make an appointment with an advisor in the program of interest to discuss the probability of success and to develop a plan of action to ensure successful advancement to upper-division courses.

Students admitted as first-year students to the Ira A. Fulton Schools of Engineering who have maintained continuous enrollment in any Fulton Schools major, with the exception of students admitted to The Polytechnic School [19], the School of Manufacturing Systems and Networks [20], the School of Integrated Engineering [21] and the School of Computing and Augmented Intelligence at the West Valley campus, may choose to change to any other major within the Ira A. Fulton Schools of Engineering, provided they are in good academic standing [22]. Students admitted to the four schools listed above must meet the higher transfer admission requirements in order to change to a Fulton Schools major outside of their current schools.

Evaluation of previous coursework

Transferring from one institution to another or between programs can result in a net loss of credits that count toward the degree. Thus, it is important for students who are considering transferring into the Ira A. Fulton Schools of Engineering from other institutions, whether community colleges or four-year institutions, to carefully study the requirements of their degree programs to get a sense of which courses may transfer.

Credit is granted for transferred courses deemed equivalent to corresponding courses in the selected program of study, subject to grade and ASU resident credit requirements. No grades lower than "C" (2.00) are accepted as transfer credit to meet the graduation requirements of the schools. Credits transferred from a community college or two-year institution are applied only as lower-division credits. For a listing of the acceptable courses transferable to the various degree programs, prospective transfer students should consult their advisors and refer to the Transfer Guide. [23]

Some courses taken at ASU or other universities may be acceptable for general university credit but may not be applicable toward the degree requirements of the schools. Determination of those particular courses applicable to a specific degree program is made within the appropriate academic unit with approval of the dean.

Currency of coursework

Courses taken more than five years before admission to degree programs in the Ira A. Fulton Schools of Engineering are not normally accepted for credit in the engineering major and are at the option of the program in which the applicant wishes to enroll. However, students still may earn university elective credit or general studies credit for these courses. Courses completed within the five years preceding admission are judged for their applicability to the student's curriculum.

General education development

Students admitted to the university after successful completion of a GED examination are directly admitted to the Ira A. Fulton Schools of Engineering BS or BSE program within their majors, provided they meet the minimum ACT or SAT score required for first-year admission to the Ira A. Fulton Schools of Engineering.

Graduation requirements

To qualify for graduation, an Ira A. Fulton Schools of Engineering student must have a minimum cumulative ASU GPA of 2.00 in addition to having a GPA of at least 2.00 for the courses in the major.

University graduation requirements

In addition to program and the Fulton Schools' requirements, students must meet all university graduation requirements [24]. A well-planned program of study enables students to meet all requirements in a timely fashion. Students are encouraged to consult with an academic advisor in planning a program to ensure they comply with all necessary requirements.

Reinstatement/readmission

Undergraduate degree-seeking students who previously attended ASU in the Ira A. Fulton Schools of Engineering but have not been enrolled at ASU for up to seven consecutive semesters are eligible to return through quick re-entry [25]. Students do not need to submit a new application or application fee, but they must contact an academic advisor in their program for registration.

Undergraduates who have been away from the university for more than seven semesters and want to return to ASU in an Ira A. Fulton Schools of Engineering program are required to apply for readmission [26] through Admission Services. Readmission requests are processed as follows:

1. Engineering students seeking readmission to the same program they left and who left ASU with either academic good standing or probation status are readmitted to that degree program with the same academic standing they had when they left ASU (i.e., good academic standing or probation).
2. Students seeking readmission to an Ira A. Fulton Schools of Engineering program other than the program they left and who have an ASU GPA of 3.00 or higher are readmitted to the degree program with the same academic standing they had when they left ASU (i.e., good academic standing or probation).
3. Students seeking readmission to an Ira A. Fulton Schools of Engineering program other than the program they were in when they left ASU with either academic good standing or probation status and who have an ASU GPA lower than 3.00 are subject to the process of admission by change of major. These requests for readmission are reviewed on an individual basis. If the request for readmission is approved, the student is readmitted to the new degree program with the same academic standing they had when leaving ASU (i.e., good academic standing or on probation).
4. Students seeking readmission to an Ira A. Fulton Schools of Engineering program who left ASU with either ineligible or disqualified status are subject to review by the Office of Academic and Student Affairs and the program. Readmission is only considered after a student has remained out of the Ira A. Fulton Schools of Engineering for a minimum of 12 months. A student is required to supply proof of now being capable of successfully completing courses in the discipline by the completion of at least 15 hours of appropriate coursework with a GPA of 3.00 or higher and a cumulative GPA (ASU plus transfer) of at least 2.50. If the readmission request requires a change of major, the student must complete the review process for admission by change of major. If readmission is approved, the student returns with continuing probation status in the appropriate degree program.

Once readmitted, returning students are required to meet with a program advisor before enrolling in courses at ASU.

Other special requirements

Advancing to upper-division courses

The faculty in the Ira A. Fulton Schools of Engineering have identified a set of critical requirements in the first four semesters of each program whereby performance in these critical requirements is a key component in progressing in the chosen major. These critical requirements include a set of courses and performance levels required in those courses and are outlined on the major maps.

Graduate policies

Maintaining satisfactory academic progress

A student who has been admitted to a graduate degree program in the Ira A. Fulton Schools of Engineering, with either regular or provisional admission status, must maintain a GPA of 3.00 or higher in all the following:

1. all work taken for graduate credit (courses numbered 500 or higher)
2. coursework in the student's approved plan of study
3. all postbaccalaureate coursework taken at ASU (overall GPA)

A student is placed on academic probation if at least one of their GPAs listed above is lower than 3.00. Students are notified by mail when placed on academic probation.

A student earns good academic standing by obtaining GPAs of 3.00 or higher in coursework listed above within the next nine credit hours or one academic year, whichever comes first. Coursework such as research and dissertation and any course graded with a "Z" (in progress) or "Y" (satisfactory) cannot be included in these nine hours.

A student may be recommended for dismissal from a graduate program if they fail to increase all the GPAs listed above to 3.00 or higher within the specified time frame defined in the previous paragraph.

A student may appeal actions concerning dismissal by petitioning the program in which they are enrolled.

Student dismissal appeal

A student may appeal actions concerning a satisfactory academic progress dismissal by submitting a timely appeal to the school or program in which they are enrolled. Any dismissal appeal submitted to the school that is denied is automatically forwarded to the Ira A. Fulton Schools of Engineering Academic Standards Committee for additional review. Any appeal denied by the Academic Standards Committee is forwarded to the Graduate College for final review and execution.

Dismissal appeal opportunities are typically not provided in the following situations: dismissal for failure to satisfy provisional or probationary admission requirements within the specified time, failure to complete regular admission deficiencies within the prescribed time frame, student appeal resulting in a school-issued probation extension, or failure to maintain continuous enrollment.

Academic units in the Ira A. Fulton Schools of Engineering can expand this policy statement to include additional policies governing the satisfactory academic progress of the students in their graduate programs.

Additional graduate policies

Full details of policies related to graduate students in the Ira A. Fulton Schools of Engineering can be found on each program's webpage. For a list of programs, students should visit the Engineering website [1]. University policies related to graduate students can be found on the Graduate College [27] webpages.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies, including those of the Graduate College and the Ira A. Fulton Schools of Engineering.

College of Global Futures Policies

The College of Global Futures [1] prepares next-generation leaders with the knowledge, skills and mindsets they need to tackle complex global challenges. Home to the School for the Future of Innovation in Society [2], School of Sustainability [3], School of Complex Adaptive Systems [4] and School of Ocean Futures [5], the college fosters new interactions between students, staff, faculty and partners that elevate our ability to understand complex, integrated social, environmental and technical systems; drive principled innovation; and lead to evidence-based, ethical interventions that ensure a just, healthy and fulfilling future for everyone. Students learn how to develop enduring solutions that benefit all people everywhere on a thriving, healthy planet.

Student responsibilities

Students need to make many decisions as they complete their degrees. While the college and the university have a number of resources available (e.g., faculty, courses, advisors and tutors) to help in the decision-making process, students are expected to take responsibility for their decisions.

Academic integrity

The College of Global Futures adheres to ASU's academic integrity policies and procedures [6]. Students are part of an academic community that is engaged in learning and inquiry and based on the quest for truth, thus committing themselves to a path of honesty and integrity. Therefore, it is expected that they integrate that responsibility with their conduct, in line with the ASU Student Honor Code [7]. Students' coursework, research and projects must be original and reflect individual effort and integrity. When in doubt about appropriate conduct, students should consult a faculty mentor, advisor or the college's academic integrity officer [8] to seek clarification.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation [9].

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [10], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [11] website.

Undergraduate policies

Academic standing

Good standing

Students with a cumulative ASU GPA of 2.00 or higher are considered in good standing.

Academic warning and academic probation

An undergraduate student with a cumulative GPA lower than 2.00 at the end of their first semester at the university (fall or spring) is considered to be on academic warning during their second term. If a student on academic warning does not achieve the minimum GPA standard of 2.00 at the end of the warning period in the second term, the student is placed on probation for the following term.

Students who are no longer in their first semester at ASU and do not maintain a cumulative GPA of 2.00 or higher in all courses taken at ASU are placed on academic probation.

Whether a student's status is academic warning or probation, the student must meet with an academic advisor to discuss academic success strategies for the subsequent semester and develop a success plan for returning to academic good standing.

The student and advisor discuss campus academic resources, plan current and future semester goals, and discuss strategies to attain academic success. Students on academic warning or probation may be limited in the number of credit hours in which they may enroll; they also must enroll in the one credit hour academic refresher course UNI 220 Mindset Connections [12], which helps students develop skills and strategies to be their best, stronger academic selves. Through self-reflective writing, students in the class can discover their potential by exploring topics and research that support them academically and personally. Students also must do one of the following:

- Students must raise their cumulative ASU GPA to 2.00 or higher by the end of the next semester to return to good academic standing.
- If a cumulative GPA of 2.00 can't be reached in one semester, students must obtain a semester GPA of 2.00 or higher with no grade lower than a "C" in order to be granted one additional semester on continuing probation; this provides students with two semesters to return to good academic standing and avoid disqualification.

Disqualification

Students who do not meet probation requirements may be disqualified from ASU and are not permitted to register for fall or spring sessions. However, students can attend summer sessions to bring their GPA to good standing. If disqualified students choose to register for courses in the summer, they first should meet with an advisor to better understand grade replacement policies and determine which courses would be best for them. Students who already registered for future fall or spring semesters will have their registrations canceled.

Academic advising

The College of Global Futures Student Services Center [13] supports students' achievement of their personal, educational, cultural and career goals, while becoming self-directed, lifelong learners. The college encourages students to meet with an advisor at least once a semester and requires that students meet with an advisor at certain points during their academic career:

- prior to the first semester: all newly admitted students
- first semester: during the first semester to plan for the second semester
- fifth semester: when students are starting to focus their studies and think about steps leading to graduation
- seventh semester: to prepare for any capstone experiences required and plan for postgraduation

Office hours are Monday through Friday, 9 a.m.-4 p.m., excluding university holidays. Students should schedule their advising appointments in advance through My ASU [14] or the undergraduate advising page [15] so advisors can set aside the appropriate time to answer all their questions.

Registration and credit

Students who enroll in courses offered by the College of Global Futures are expected to follow the rules and deadlines specified in this catalog and the ASU Academic Calendar [16]. Students are encouraged to meet with their academic advisor before registration.

Maximum hours and course load

Students enrolled in undergraduate degree programs in the College of Global Futures may register for a maximum of 18 credit hours per semester (fall and spring), with a maximum of nine credit hours per session A or session B. Students may register for a maximum of 14 credit hours per summer term, with a maximum of seven credit hours per session A or session B.

Students who want to register for more than the maximum must submit a credit overload request [17] and meet the stated criteria. Students generally are not permitted to exceed the maximum credit limit in their first term at ASU or in the hybrid year of an accelerated bachelor's plus master's degree program; however, each request is reviewed on an individual basis.

More details on credit hour limits are available on ASU's Course Load and Concurrent Enrollment policy [18].

Late enrollment transactions

The College of Global Futures adheres to all posted university deadlines for course enrollment, including add, drop and withdrawal. Late drops from College of Global Futures courses are not approved; however, students can withdraw from courses following the regular course withdrawal process [19]. If students wish to add a College of Global Futures course after the official add deadline, they may request special permission to do so. Instructor approval is required; however, instructor approval does not guarantee college-level approval. Add and drop deadlines are posted on the Academic Calendar [16].

Repeat and replacement policy

Students who wish to repeat courses and possibly replace prior course grades must follow ASU's Repeating Courses policy [20] regarding the number of credit hours that are allowed to be repeated and the types of courses that are eligible for a grade replacement.

Generally, students may not repeat an undergraduate course for credit when a grade of "C" or higher is earned unless the higher grade is required for the course as part of the major.

Students who wish to repeat a course for a third time must submit a petition. Students should contact the advising office for information.

Pass/fail grade options

Some instructors may offer courses on a grading basis of "Y" (satisfactory) and "E" (failing). With a "Y" grade, students earn credit hours, but the grade is not factored into the GPA. The "P" (pass) grade works similarly but is only used when an individual student receives permission from both the class instructor and the college or school prior to the add deadline for the session. Permission is recorded on the application for pass/fail enrollment form [21]. A grade of "E" is factored into the GPA. Students should see ASU grading options and definitions [22] for more information.

Degree requirements

All undergraduate students in the College of Global Futures must complete the university's General Studies requirement [23] as well as all requirements for their majors.

Critical requirements

All College of Global Futures students must meet critical requirements for their intended majors. Students who do not comply with the critical requirements are considered off track, and holds are placed on their records; to have the holds removed, they must meet with their advisors. Students who still do not meet all critical requirements in the following semester are not permitted further registration in their intended majors. Students who are off track for two consecutive semesters may be required to change their major.

Minors

Students in the College of Global Futures may not use courses in their majors to fulfill the requirements of their minors. Similarly, they may not use courses in their minors to fulfill their major requirements, with the exception of the related discipline requirement for the BA or BS in sustainability.

Concurrent degrees

To declare a concurrent degree, current Global Futures students must meet the following requirements and any eligibility requirements of the additional degree program:

- have completed at least 30 graded credit hours
- School of Complex Adaptive Systems programs: minimum cumulative ASU GPA of 3.00
- School of Sustainability programs: minimum cumulative ASU GPA of 3.00
- School for the Future of Innovation in Society programs: minimum cumulative ASU GPA of 2.00

Students must follow the university process [24] for requesting concurrent degree approval.

As a part of seeking College of Global Futures approval, students are asked to submit online responses to a short set of questions. If the student does not submit a response within one week, the concurrent degree request is canceled. The student may resubmit their request when ready to respond to the questions. Within two weeks of concurrent degree approval, students should schedule an appointment [25] with a Global Futures advisor to review the degree requirements.

Degree combinations with too great an overlap between the required courses for each major are not approved. For example, students may not pursue a BA or BS in sustainability as well as a BS in sustainable food systems, a BA in business with a concentration in sustainability, or a BA in interdisciplinary studies with a concentration in sustainability.

Readmission

Students seeking reinstatement after disqualification or readmission after absence from the university should contact the College of Global Futures Student Services Center regarding procedures and guidance for returning to good standing.

When reinstatement includes readmission, application must be made through the ASU readmission process [26].

Students are eligible for reinstatement to the College of Global Futures once they complete either of the following:

- Raise their ASU cumulative GPA to good academic standing (2.00) by taking ASU summer session courses.
- Complete 24 or more transferable credit hours at a community college or university with no grade lower than "C" and a GPA of 3.00 or higher. Courses in which the student failed or received a "D" grade at ASU should not be repeated at another institution.

Other special requirements

Grade appeals

The College of Global Futures follows the university policy for student appeal procedures on grades [27] and has outlined more information about the process within the college on the Global Futures website [28].

Graduate policies

The college's graduate policies are guided by the university policies for graduate studies [29]. Graduate advising and student services are currently offered directly through each of the schools within the College of Global Futures: School for the Future of Innovation in Society [2], School of Sustainability [3], School of Complex Adaptive Systems [4] and School of Ocean Futures [5].

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies, including those outlined by the Graduate College and the College of Global Futures. Additional information about program requirements and what is required to maintain good academic standing can be found in program handbooks.

Thunderbird School of Global Management policies

For more than 75 years, Thunderbird School of Global Management has been the vanguard for global leadership and management education. Since 1946, Thunderbird has guided exceptional individuals to shape meaningful and impactful careers all over the world — as entrepreneurs and innovators; as leaders of multinational corporations and family businesses; and as individuals in government agencies, international organizations and the nonprofit sector

Today, people live in a time of great upheaval across the globe. The advent of the Fourth Industrial Revolution is transforming people's lives and poses seemingly unlimited opportunities for the achievement of sustainable prosperity and peace in the world. At the same time, the rise of reactionary nationalisms and parochialisms poses a fundamental challenge to the progress made from decades of global openness and integration, while the perils of overconsumption and climate change have made the planet ever more fragile.

Thus, perhaps more than ever, the world needs Thunderbird graduates, those who possess contextual global mindsets and unparalleled fluencies that enable them to work across countries, across sectors and across cultures.

Academic integrity

Academic honesty is expected of all students in all examinations, papers, laboratory work, academic transactions and records. The ASU Student Academic Integrity Policy [1] is strictly enforced for students found in violation of this policy. Possible sanctions include appropriate grade penalties, loss of registration privileges, disqualification and dismissal.

For more information on graduate-specific policies, students should review the Graduate College's academic integrity page. [2]

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment, and Retaliation. [3]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [4], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [5] website.

Undergraduate policies

Academic standing

To maintain satisfactory academic progress, all students in the Thunderbird School of Global Management must:

1. maintain a minimum GPA of 2.00 each semester
2. maintain a minimum cumulative GPA of 2.00

Probation

A student is placed on probation at the end of the fall or spring semester if their GPA is lower than 2.00.

Continuing probation

A student is placed on continuing probation when their cumulative GPA is lower than 2.00 for two consecutive semesters, but they have shown academic progress.

eAdvisor tracking

In addition to being in good academic standing with the university, all students at Thunderbird School of Global Management must adhere to ASU critical tracking requirements, per the pertinent major map [6]. Students are off track if they fail to meet ASU critical tracking requirements.

Students who remain in off-track status for two or more consecutive semesters may be required to change majors.

Remediation

Students are required to meet with an academic advisor if they are placed on probation, continuing probation, or off-track status or are at risk for disqualification, at which point an appropriate remediation plan is discussed.

Disqualification

Students are disqualified from ASU if their cumulative GPA remains lower than 2.00 for more than two consecutive semesters. Students who are disqualified are not allowed to enroll in the following fall or spring semester. They may take courses during the summer to raise their GPA; however, this does not guarantee reinstatement for the following fall semester. Disqualified students must follow the procedures for readmission, and requests are reviewed by the college on a case-by-case basis.

Advising

Thunderbird School of Global Management is committed to the personal, social and academic experiences of students by providing high-quality, student-centered academic advising, ensuring the accuracy and accessibility of information and resources, and partnering with students to help them reach their career goals.

Academic advising is required for the following students:

- All first-year and new transfer students are required to meet with an academic advisor before course registration. Thus, first-year students are required to meet with an academic advisor prior to both their first and second semesters.
- Students not in good academic standing status (i.e., on probation, continuing probation, off-track status, disqualification, etc.) are required to meet with an academic advisor to discuss a remediation plan.

Faculty and staff use academic status reports [7] to provide students feedback over the course of the academic semester and year. Academic status reports may be used to identify students who are struggling academically or professionally or to recognize students who are exceeding in coursework. Academic advisors and faculty mentors may access ASRs to provide students with valuable insight into performance improvement.

Credit and registration

Course load

Students are allowed to register for a maximum of 18 credit hours per semester. To register for more than the maximum allowable, students may petition their Thunderbird School of Global Management academic advisor. No student should assume that a petition for overload will be granted. For more information, students should review the Course Load and Concurrent Enrollment policy. [8]

Transfer work

Transfer credits from other institutions may be accepted and applied based on the student's major. Credit is granted for transferred courses deemed equivalent to corresponding courses in the selected program of study, subject to grade and ASU resident credit requirements. No grades lower than "C" (2.00) transfer to ASU. Credits transferred from a community college or two-year institution are applied as lower-division credits. Thunderbird School of Global Management recommends that students work closely with their academic advisor to determine the process for applying pertinent transfer credit hours to their program of study. For more information on the transfer process and a list of the courses transferable to the various degree programs, students should consult their advisor and refer to the ASU transfer tools. [9]

Course prerequisites

Course prerequisites are established to ensure student success in a course. Students must complete all course prerequisites prior to enrolling in the desired course. Prerequisite overrides may be granted under the following conditions:

- A transfer course has been accepted by an advisor to fulfill a required course prerequisite.
- A prerequisite override has been granted by an advisor, instructor or other authority.

Grade of incomplete

A grade of "I" (incomplete) [10] for a course may be granted by permission of the instructor under the following conditions:

- The student is in good standing academically at ASU.
- The student has completed a substantial portion of the required coursework.
- The student has experienced extenuating circumstances prior to the end of the semester, preventing completion of the course.

If qualified, students have one calendar year to complete course requirements. If requirements are not met per the standards agreed upon with the course instructor after one calendar year, the incomplete is adjusted to reflect a course failure.

Pass/fail grade option

A grade of "Y" (satisfactory) contributes to a student's earned credit hours but does not affect the GPA. A grade of "E" (failing) is calculated into the GPA.

The pass/fail grade option may be used under the following conditions:

- Approval has been granted by the instructor and college offering the course.
- The pass/fail option was chosen during initial registration for the course, if available.

Thunderbird students may not enroll under the pass/fail option in the following courses:

- those taken to satisfy first-year composition requirements
- those taken from the student's major, minor or certificate program
- those taken for honors credits
- those counted toward satisfying Thunderbird general studies requirements
- those counted toward satisfying Thunderbird language and culture proficiency requirements

Pass/fail credit taken at another institution may be petitioned for use, but only if the student can demonstrate proof that the pass grade was equivalent to a "C" (2.00) or higher.

Withdrawal

Complete session withdrawal information

Because a complete session withdrawal from the university can be a difficult decision and could result in serious academic and financial consequences, undergraduate students are required to contact the college or school of their major to facilitate the withdrawal process.

Students must complete the following steps in the order in which they are listed:

1. fill out a complete session withdrawal form [11]
2. meet with a Thunderbird academic advisor

ASU has many resources in place to help students. Students may want to consider one or more of the following:

- **Withdraw from just one or two classes (course withdrawal).** Students may withdraw from a class while remaining enrolled in other classes as long as the withdrawal is completed between the drop deadline and the course withdrawal deadline. Students are encouraged to contact their academic advisor to discuss the impact this may have on meeting critical requirements. Students also are encouraged to contact a financial aid representative to consider any impact that withdrawing will have on scholarships, grants and loan packages.
- **Request a medical or compassionate withdrawal.** Medical or compassionate withdrawals are available for students withdrawing from one or more classes because of extraordinary personal mental or physical health conditions or the death or serious illness of a family member or close friend. If approved, students are allowed one medical or compassionate withdrawal during their academic career with Thunderbird. For information concerning medical or compassionate withdrawal requests, students should see the Medical and Compassionate Withdrawal policy [12], and they may obtain the form online (PDF). [13]
- **Seek tutoring or academic support services.** University Academic Success Programs [14] provides a variety of services to help students become better learners and gain the confidence and skills they need to achieve their academic goals. Services include writing centers, math tutoring, subject area tutoring and supplemental instruction.
- **Make an appointment with ASU Counseling Services.** Counseling and mental health services are provided at each of the four ASU campuses and via telehealth appointments. ASU students may seek services at any of the campus counseling centers [15], regardless of their college affiliation.
- **Explore the possibility of an "I" (incomplete) grade.**

The following are possible consequences of a complete session withdrawal:

- **financial aid** — Financial aid recipients who completely withdraw from the university may be responsible for immediate repayment of funds. The effect of a complete withdrawal of financial aid depends on when the withdrawal is dated and the type of financial aid. More information is at ASU Financial Aid and Scholarship Services. [16]
- **tuition and refunds** — The date of a complete withdrawal determines whether or not a tuition refund is generated. Students should review the Tuition Refund policy [17] for more information.
- **health insurance** — Students should contact their health insurance company to determine whether or not withdrawing from the university affects their coverage.
- **University Housing** — Students who live on campus should contact their residence hall community staff to determine what impact withdrawing would have on their eligibility to live on campus; to complete a license agreement release [18] form; and to arrange an appointment to officially check out. More information is at the University Housing [19] website.
- **veteran benefits and certifications** — Students should contact the appropriate veteran benefits and certifications office to discuss information regarding veterans' educational benefits and military activation. For more information, students should email ptvc@asu.edu [20] or visit the Pat Tillman Veterans Center [21] website.

For general university withdrawal procedures, students should review the university Add, Drop and Withdrawal policies. [22]

Degree requirements

All candidates for graduation in the BGM or BS curricula are required to present at least 120 credit hours, of which at least 45 must consist of upper-division coursework. A minimum cumulative GPA of 2.00 is required for graduation.

It is the student's responsibility to be aware of the degree program requirements and to select courses accordingly.

To graduate, a student must satisfy the following requirements:

1. ASU 101 or equivalent (first-year students)
2. college proficiency requirements for language
3. university first-year composition [23] and general studies [24] requirements
4. an additional six credit hours consisting of three credit hours of literacy (L) and three hours total of humanities, arts and design (HU)/social-behavioral sciences (SB) at the upper-division level, in addition to 29 credit hours of general studies coursework (General Studies Maroon only)
5. major requirements that involve concentrated coursework in one program
6. successful completion of critical-tracking courses as required on the student's major map

For more information regarding eAdvisor tools, students should visit the eAdvisor [25] website.

Language proficiency requirement

Each student is required to demonstrate proficiency in the analysis of language by passing an examination or by completing the courses specified below with a grade of "C" (2.00) or higher in each course. Students considering graduate work after completion of the bachelor's degree should consult with faculty advisors regarding language requirements in their intended areas of study. Students should see the program major map for the specific language requirement and contact the advising office for information on applicable coursework.

The language proficiency requirement may be satisfied through one of the following:

- completion of secondary education at a school in which the language of instruction is not English
- completion of a language course at the intermediate level (202 or equivalent)
- completion of an upper-division course or courses taught in a foreign language, taken in the United States or the relevant country
- completion of six credit hours of upper-division courses that have the global communities, societies and individuals (GCSI) designation (General Studies Gold), or six credit hours of upper-division courses that have the global awareness (G) designation or cultural diversity in the U.S. (C) designation (General Studies Maroon) in addition to the courses used to meet the university general studies requirements

Students whose native language is not English who choose to take a second language must meet or exceed a TOEFL score of 100 or higher to register for a non-English language class in the first or second semester. All students whose native language is not English may register for a language class in their third semester. The first two semesters of English immersion aim to solidify students' English proficiency before a new language is attempted.

Concurrent degrees

Thunderbird School of Global Management allows students to request approval to pursue a concurrent degree through the university approval process [26]. A minimum of 30 unique credit hours must be taken for each degree program, and degree combinations with significant curricular overlap might not be approved.

Students interested in applying for a concurrent degree should consult with their academic success advisor about the feasibility of a concurrent degree and also must meet the following criteria:

1. have attained sophomore standing or higher
2. have a minimum cumulative GPA of 3.00
3. have completed a minimum of 12 credit hours of coursework in the first major
4. follow approval criteria procedures for both colleges

Incompatible concurrent degrees

BGM in global management/BS in international trade

For more information on degree requirements, students should reference Degree Search. [27]

Minors

Thunderbird students may pursue minors [28] in other colleges at ASU. Courses taken for the minor may not be used for the student's major program.

Readmission

Undergraduate degree-seeking students are eligible to return through quick re-entry [29] if they previously attended ASU but have not enrolled at ASU for up to seven consecutive semesters. These students are not required to submit a new application or application fee, but they must contact a Thunderbird academic advisor to enroll.

Undergraduates who have been away from the university for eight or more semesters and want to return to ASU in a Thunderbird program are required to apply for readmission [30] through ASU Admission Services.

Disqualified students must follow the procedures for readmission; requests are reviewed by the college on a case-by-case basis.

Other special requirements

Grievance policy

Undergraduate students with grievances pertaining to an enrolled course should first address issues with the course instructor. If an identified grievance is not resolved with the course instructor, the student should next seek resolution through the academic advisor, and then from Thunderbird's senior associate dean of undergraduate programs. Finally, if no resolution has been achieved, the student should contact the deputy dean of the Thunderbird academic enterprise.

Graduate policies

Academic progression

Each graduate program in the Thunderbird School of Global Management adheres to specific academic requirements. Students are strongly encouraged to become familiar with the expectations listed for their respective graduate program and review ASU Graduate College policies [31] and the Thunderbird Graduate Student Handbook (PDF) [32]. Each student should also communicate directly with their program coordinator or academic advisor to ensure a clear understanding of all degree requirements and program expectations. Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and must abide by all university policies, including those of the Graduate College and the Thunderbird School of Global Management.

All Thunderbird graduate programs require a minimum cumulative, graduate and iPOS GPA of 3.00. Students should see the individual graduate degree programs for additional requirements on satisfactory academic progress, probation and disqualification.

Credit and registration

Because of the intensity of the Thunderbird graduate programs, the number of credit hours that students may take each semester may be limited. Students should see the Thunderbird Graduate Student Handbook (PDF) [32] for more information.

Students may petition the Thunderbird School of Global Management Standards Committee through their academic director to register for more than the maximum allowable number of credit hours. No student should assume that a petition for overload will be granted.

College of Health Solutions policies

The College of Health Solutions translates health research and discovery into practice and prepares students to address the challenges facing people who wish to stay healthy, improve their health, and manage chronic disease. Programs are offered in biomedical informatics and biomedical diagnostics, kinesiology, sports and exercise science, health care delivery, nutrition, population health, and speech and hearing science. Students, faculty and staff at the College of Health Solutions work together toward a common goal of improving health outcomes by optimizing health and human performance across the life span and addressing systems of health care and health needs of populations. Graduates of the college are uniquely prepared to make an impact in the health workforce and shift the focus of health from sickness to wellness.

Health equity and inclusion

The College of Health Solutions is on a mission to improve the mental and physical health of both larger and immediate communities by better understanding the challenges that individuals and populations face, while striving to be part of the solution. The college is committed to the idea that every member of society should have the opportunity for good health and wellness throughout their life span. In an effort to actualize this ideal, the college embraces and supports greater justice, diversity, equity and inclusion in everything it does, including teaching, research, service and clinical practice.

Students can learn more about the College of Health Solutions' commitments to justice, equity, diversity and inclusion. [1]

Academic integrity

Academic honesty is expected of all students in all examinations, papers, laboratory work, academic transactions and records. The ASU Academic Integrity policy [2] is strictly enforced, and for students found in violation of this policy, possible sanctions include appropriate grade penalties, loss of registration privileges, disqualification and dismissal.

For more information on graduate-specific policies, students should refer to College of Health Solutions policies [3], and they should review the Graduate College's policies and resources for academic integrity. [4]

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment, and Retaliation [5] (PDF).

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [6], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [7] website.

Undergraduate policies

Academic standing

The standards for GPA and the terms of academic warning, academic probation or continuing probation, disqualification and reinstatement are identical to those of the university, as set forth under the Retention and Academic Standards [8] policy.

Academic good standing

For the purpose of retention, university academic good standing [9] for degree-seeking students is defined as maintaining a minimum cumulative GPA of 2.00. This standard is in effect for all students, regardless of catalog year.

Academic warning and probation

An ASU student who does not achieve the minimum GPA standard at the completion of the first term of study receives an academic warning [10]. If, after one term with an academic warning, a student still does not achieve the minimum GPA standard, the student is placed on probation for at least one additional term. If a student's minimum GPA first falls below

the standard in a term that is not the student's first term at ASU, the student is placed on probation. Failure to return to good academic standing after being placed on probation may result in disqualification.

If a student is placed on academic warning or probation, they receive communication from the college indicating next steps and requirements.

Students on academic probation receive an advising hold and are required to complete the academic refresher course UNI 220 Mindset Connections. UNI 220 appears on the student's DARS as a graduation requirement.

Continuing probation

Students are placed on continuing probation when their cumulative GPA is below 2.00 for two consecutive semesters but they have shown academic progress and have not earned lower than a "C" (2.00) in any course in the most recent semester.

Disqualification

Students are disqualified from the College of Health Solutions and ASU if their cumulative GPA remains lower than 2.00 for two consecutive semesters after they have been placed on probation. Students who are disqualified cannot enroll in classes at ASU for a minimum of two semesters (fall and spring). Disqualified students may take courses during the summer to raise their GPA; however, this does not guarantee reinstatement for the following fall semester. Disqualified students must apply for readmission or reinstatement for the semester they wish to return to the university. The college does not reinstate students into any major that prepares students for professional school or professional credentialing, nor does the college reinstate students into majors in which they have twice failed to complete a required course at ASU.

eAdvisor tracking

In addition to being in university good academic standing, all students in the College of Health Solutions must adhere to ASU critical tracking coursework, per the pertinent major map [11]. For more information on critically tracked courses, students should review the major map for their degree program. Students are off track if they fail to meet one or more critical requirements, as stated in terms 1-4 of their major map, in a given fall or spring semester. All off-track students receive a hold that requires them to meet with their academic advisor and set a plan for getting back on track with their degree program.

Students who remain off track for two or more consecutive semesters may be required to change majors.

Advising

The Student Success Hub in the College of Health Solutions is committed to maximizing the academic, social and personal experiences of students by providing high-quality, student-centered academic advising [12]. Academic advisors are trained to know degree requirements and can assist students with planning their courses in an appropriate sequence; they also ensure that students have the resources necessary to reach their career goals in health and health care. Students can direct most university-related questions to their advisor, who can guide them to available resources. Advisors are available to meet with students in each of the undergraduate programs in person or by phone or Zoom.

Students can monitor their own academic progress using tools such as their graduation audit and their My Major Map progress found on My ASU. The DARS Explainer Experience [13] provides more information.

The following students receive academic advising holds and are required to consult with their academic advisor to be eligible to register for their courses:

- all new first-year and transfer students
- students newly readmitted to the university
- students not in satisfactory academic standing status (e.g., probation, continuing probation, off-track status)

Pre-health advising

Pre-health advising [14] supports students who are interested in pursuing careers in medicine, veterinary medicine, optometry, dentistry, chiropractic medicine, pharmacy, occupational therapy or physical therapy, or who want to become a physician assistant. Pre-health advising offers guidance on career pathways, application timelines, prerequisite requirements, personal statement reviews and mock interviews, including multiple mini interviews.

Credit and registration

Course load limit

For fall or spring semesters, a minimum full-time course load for an undergraduate student is 12 credit hours. The maximum course load for which a student may register is 18 credit hours during a fall or spring semester, with a maximum of nine credit hours in session A or B; the load limit is a total of 18 credit hours for any combination of sessions. The summer session load limit is seven credit hours for each six-week session and nine credit hours for the eight-week session; the load limit is a total of 14 credit hours for any combination of sessions.

A student who wishes to register for more than the maximum credit limit per term must petition to obtain an approved overload prior to registration. Additional instructions to petition can be found on the college's undergraduate student forms and policies [15] site.

Graduate credits earned by undergraduate students

Undergraduate students interested in taking graduate-level credits while enrolled in a bachelor's degree program must adhere to the university policy for graduate credits earned by undergraduate students [16]. Before registering for a graduate-level course, undergraduate students must petition [15] the College of Health Solutions Academic Standards and Grievances Committee through their academic advisor for permission to enroll in a specific course.

Accelerated bachelor's plus master's degree programs may use a maximum of 12 preadmission credits, which may include up to a maximum of 12 credit hours shared between the programs. Students in accelerated programs should contact their advisor to ensure proper sharing of credit hours. Students who have been accepted to an accelerated degree program do not have to petition the standards committee to take the shared courses.

Late registration

Students who request to enroll in a course after the university add deadline [17] should be aware that this exception to university policy is not guaranteed to be approved.

To register for a class after the add deadline, students are required to obtain authorization from the instructor and the college. The course in question must have open seats, and the student must meet the prerequisites. Students who wish to request late registration for a College of Health Solutions course must follow the steps below in the order in which they are listed:

1. Fill out an enrollment change request form [18]
2. Obtain the instructor's signature by having them sign the form, or have the instructor send an email confirming their approval to add the course late.
 - Late add requests are only considered with instructor approval during the following time frames:
 - First week of A and B session courses (end of the 5th business day from the first day of the session)
 - Second week of C session courses (end of the 10th business day from the first day of the session)
 - Any late add requests beyond these time frames are not considered.
 - Many classes and labs have attendance policies. Confirm with the instructor whether adding the class late means that the missed days count toward total absences.
 - Students should ask the instructor if they are allowed to make up any work they missed by adding this class late.
3. Obtain authorization from the College of Health Solutions:
 - Send the signed form and approval, including all pertinent attachments, to the advising office via email:
 - Campus students should email CHS@asu.edu. [19]
 - Online students should email CHSONline@asu.edu. [20]
 - or obtain authorization in person at the following locations:
 - Downtown Phoenix campus students (Health North [21], 4th floor)
 - Tempe campus students (Coor Hall [22], 2nd floor)
 - West Valley campus students (Faculty Administration Building [23], 1st floor)
4. Submit the approved form to the University Registrar Services office:
 - Once the advising office has provided authorization, submit the form to any Registrar location [24] for processing.

For questions, students can call the College of Health Solutions at 602-496-3300 or toll free 844-857-3348.

The College of Health Solutions may approve a late add, late drop or late withdrawal for a CHS course that is due to extenuating or extraordinary circumstances beyond the student's control. The student must outline extenuating circumstances in an email statement and attach the enrollment change request form [18] along with a written statement or email of support from the instructor of the course. These requests should be sent to CHS@asu.edu. [19]

Degree requirements

Experiential learning

Bachelor's degree programs in the College of Health Solutions require students to complete a credit-bearing experiential learning opportunity. Students must complete at least three credit hours of experiential learning but are encouraged to pursue a variety of opportunities, including translational research, internships and other hands-on experiences. Students can find detailed information on how this requirement can be completed for their specific degree program on the College of Health Solutions experiential learning [25] site.

Concurrent degrees

Students at Arizona State University are permitted to pursue concurrent degrees as long as they meet the requirements for both programs and receive permission in advance from the college or colleges offering their chosen majors. College of Health Solutions students are required to meet specific criteria prior to starting the university approval process. Students interested in applying for a concurrent degree should consult with their academic advisor about the feasibility of a concurrent degree with their overall graduation plan.

If a student is adding a concurrent major outside the college, the university approval process must be completed for both the College of Health Solutions and the college of the other major.

Students earn a separate diploma for each degree. Degrees may not be too closely related and are reviewed by an academic advisor during the approval process. To add a concurrent degree, there must be a minimum of 30 unique credit hours of coursework in each degree program.

The College of Health Solutions minimum requirements to add a concurrent degree are:

1. sophomore standing or higher
2. minimum ASU cumulative GPA of 3.00
3. minimum of 12 credit hours of coursework completed in the first major
4. minimum of nine credit hours of coursework completed in the second major

Readmission/reinstatement

Undergraduate degree-seeking students who previously attended ASU but have not been enrolled at ASU for up to seven consecutive semesters are eligible to return through quick re-entry [26]. Students do not need to submit a new application or application fee, but they must contact an academic advisor in their program for registration. Exceptions may apply, including for students on leaves of absence and students who serve in the military.

Students who have been disqualified from ASU and would like to return to a major in the College of Health Solutions are encouraged to schedule an appointment with an assistant director of academic services to discuss requirements and recommendations. Disqualified students must follow ASU procedures for readmission [27]. Exceptions may apply, including for students on leaves of absence and students who serve in the military. The college does not reinstate students into any major that is meant to prepare students for professional school or professional credentialing, nor does the college reinstate students into majors in which they have twice failed to complete a required course at ASU.

Graduate policies

Academic standing

Each graduate program in the College of Health Solutions adheres to specific academic requirements. Students are strongly encouraged to become familiar with the expectations listed in their respective graduate program handbook [28].

Academic advising

It is important for graduate students in the College of Health Solutions to cultivate the following skills in their development as health professionals:

- accept feedback in a positive manner

- assume responsibility for learning
- communicate with others in a respectful and confident manner
- modify performance in response to feedback
- proactively identify problems and possible solutions

Academic advising at the graduate level is facilitated by graduate support staff [29] in the Student Success Hub.

Faculty advisors meet with students in the academic area of concentration.

Honors - Barrett, the Honors College policies

Students who have demonstrated high levels of academic achievement in high school or college may apply for admission to Barrett, The Honors College. Each candidate must file an application to the college separate from the ASU application, in accordance with the appropriate Barrett deadlines.

Applicants are evaluated on the basis of their academic records and high school class ranking within their graduating class. Barrett continues to be ACT and SAT “test blind” for spring 2024 and fall 2024; scores are not considered even if submitted. Students are, however, asked to share their Advanced Placement and International Baccalaureate test results on the Barrett application and to indicate instances in which test-sitting cancellations impacted their plans to complete an AP or IB examination. The college also values students who have special talents and aptitudes, exhibit leadership qualities, have unusual life experiences, and display community involvement. High school GPAs used in the evaluation process are calculated in accordance with the Arizona Board of Regents competency requirements, pursuant to ABOR Policy 2-121 Undergraduate Admission [1] (PDF).

The Barrett admission application and additional information about the college and its activities are available at the Barrett website. [2]

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU’s policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [3]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [4], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [5] website.

Undergraduate policies

Advising

Barrett students have advisors in their major, an assigned Barrett honors advisor [6], and faculty honors advisors in departments throughout the university. Students are encouraged to stay in regular contact with all these resources, and they are required to complete mandatory advising sessions with their Barrett honors advisor during the first, second and third year of study. To schedule an appointment with a Barrett honors advisor, students should visit the online Barrett Appointment Scheduling System. [7]

Students can review honors opportunities in majors through the Faculty Honors Advisors [8] page. There are also special preprofessional advising opportunities [9] for Barrett students. Students should contact the Barrett advising office for more information.

Degree requirements

Barrett academic course requirements

Honors students must maintain high standards of academic performance and show progress toward completion of graduation requirements in their disciplinary majors and in Barrett.

To graduate from Barrett, students must complete the following, which include 36 credit hours of honors coursework:

1. HON 171 The Human Event and HON 272 The Human Event are expected to be completed in sequence during a student's first two semesters in the college.
2. Thirty additional credit hours of honors coursework must be earned with a letter grade of "C" (2.00) or higher. This may include HON prefix classes, honors sections of classes, honors enrichment contracts, internship and research credit, honors study abroad programs, and graduate-level coursework.
3. Included in the 36 credit hours of honors coursework are at least 18 hours of upper-division or graduate-level honors credits for an earned letter grade of “C” (2.00) or higher. Students should investigate specialized honors, upper-division tracks within their majors.

4. Students are required to complete an honors thesis project, for which they earn a maximum of six credit hours. These credit hours are included in the 18 required hours of upper-division honors coursework. The honors thesis is launched with a prospectus that is due one academic semester before the defense. Prior to enrolling for credit for a thesis work, students must complete a required preparatory workshop or course. The final copy of the honors thesis must be filed by the posted deadline during the student's graduation semester.
5. ASU graduation requirements in an academic major must be met.
6. Students must earn a cumulative GPA of 3.25 or higher by graduation.

Barrett course requirements may be met in a variety of ways. Only courses in which a student receives a grade of "C" (2.00) or higher may be used to meet Barrett requirements.

Those entering the college as lower-division students may take as many as 18 lower-division honors credits, which include HON 171 The Human Event and HON 272 The Human Event, and at least 18 upper-division credits (total honors credits must be 36). HON 171 and HON 272 are transdisciplinary seminars that acquaint students with ideas that form the foundation of a university education and emphasize critical thinking, discussion and writing.

Those who enter as upper-division students must take 21 upper-division honors credits, including HON 370 History of Ideas taught by an Honors Faculty Fellow, 18 credit hours of upper-division honors coursework, and an honors thesis. Upper-division transfer students are required to complete 21 credit hours of upper-division honors coursework.

Those who enter as Barrett Online students must take 21 upper-division honors credits, including HON 370 History of Ideas taught by an Honors Faculty Fellow, 18 credit hours of honors coursework, and an honors thesis. Lower- and upper-division credits may apply toward the 18 hours of honors coursework through oCourses.

Departmental honors-only courses are limited to honors students. Compared with their nonhonors equivalents, these courses are designed to offer a richer, more complex intellectual experience appropriate to the discipline and the level of the course for all students enrolled. Other disciplinary honors courses group honors students in small cohorts to work on research projects of common interest or offer mixed classes of honors and nonhonors students with specific honors opportunities.

Honors enrichment contracts [10] are available in many departmental courses, allowing honors students to contract with the instructors of designated nonhonors courses to earn honors credit by pursuing enrichment activities, which include supplemental sessions with the instructor. Honors enrichment contracts are filed during the first weeks of the session and are to be completed during the semester in which the course is offered. The enrichment contract form offers guidelines to aid students and faculty in developing appropriate contracts. Contract work is due on the last day of the session unless otherwise indicated by the supervising faculty member.

Courses reserved for students in Barrett and that always count for honors credit are those listed in the online ASU Class Search and Course Catalog [11] as course numbers 492 Honors Directed Study, 493 Honors Thesis, and 497 Honors Colloquium; all classes with the HON prefix; and those with a departmental prefix or course note that carries the honors designation. Barrett recognizes internships, research, teaching assistant courses and 500-level graduate courses for honors credit. Students may consult with the Barrett advising office for additional honors course credit opportunities, including courses coded for automatic honors credit, such as ENG 105. The Honors courses [12] webpage provides guidance on honors courses.

Departmental courses numbered 492 and 493 are reserved for honors students completing their honors thesis. A student may enroll in these courses with approval from the sponsoring academic department and the faculty member who serves as the student's thesis project director. Passing credit in 492 and 493 courses counts as upper-division honors credit for Barrett students.

College of Integrative Sciences and Arts policies

The College of Integrative Sciences and Arts provides students throughout the university with the knowledge and skills to comprehend and effectively engage today's changing world at local, national and global levels. The college offers graduate and undergraduate degree programs that prepare students for a rapidly changing marketplace and offers foundational instruction in humanities, social sciences, mathematics, sciences and professional fields.

Academic integrity

Academic honesty is expected of all students in all examinations, papers, projects, partnerships, internships, academic transactions and records. Possible sanctions include appropriate grade penalties, loss of registration privileges and disqualification. The College of Integrative Sciences and Arts adheres strictly to the ASU Academic Integrity Policy [1], and all concerns related to academic integrity must be reported to the college's academic integrity officer.

To learn more about academic integrity for CISA students or to report a concern, students should refer to the college's student academic integrity [2] site.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [3]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, Students should email titleixcoordinator@asu.edu [4], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [5] website.

Undergraduate policies

Academic standing

To be considered in academic good standing in the College of Integrative Sciences and Arts, students must achieve a cumulative GPA of 2.00 or higher. All College of Integrative Sciences and Arts students who are not in good standing are required to complete the CISA Rising Scholars Online Workshop. This workshop provides additional information on academic standing status and helps students explore strategies to return to good standing.

Academic warning

Students who do not achieve a 2.00 GPA at the completion of their first term of study are placed on academic warning. Upon the completion of a second term, students who achieve a cumulative GPA of 2.00 or higher are placed in university good standing. Students who do not achieve a cumulative GPA of 2.00 or higher after the completion of a second term are placed on university academic probation.

Probation

Students who do not achieve a 2.00 GPA are placed on university academic probation and must meet with an academic success advisor to discuss academic success strategies. Students on academic probation are required to enroll in UNI 220 Mindset Connections. UNI 220 appears on these students' DARS as a graduation requirement.

Within one semester, a student on academic probation must do either of the following:

- Achieve a cumulative ASU GPA of 2.00 or higher to return to academic good standing.
- Obtain a semester GPA of 2.00 or higher to be continued on probation. Students on continued academic probation may continue for as many semesters as needed to achieve academic good standing.

Disqualification

Students who fail to meet the criteria for continued probation may be disqualified from ASU. Students who have been disqualified may attend summer sessions but not fall or spring sessions.

Once readmitted, the student is placed on academic probation for at least one semester. Students on probation have one semester to raise their cumulative or semester GPA to meet ASU academic good standing (2.00). Failure to do so results in disqualification from the university.

Academic policy appeals

Academic appeals regarding college policies or other variances or exceptions should be discussed with the student's academic success advisor, and students may be required to submit a College of Integrative Sciences and Arts Standards Committee petition [6]. Some petitions may require a secondary review by the ASU University Undergraduate Standards Committee.

Academic advising

All students are encouraged to seek advising from their academic success advisor [7] prior to registration. Students must review their Degree Audit Report, major map and the academic calendar [8] each semester for information and deadlines pertaining to enrollment, including course adds, drops and withdrawals.

The ASU academic catalog is the governing source for all degree requirements. Students are expected to read the requirements for university general studies, college graduation and major degree requirements.

Mandatory advising

The following students in the College of Integrative Sciences and Arts must receive advising clearance prior to course registration:

- new students in their first semester of attendance
- readmitted students in their first returning semester
- students on academic probation or continued probation
- students who have been disqualified
- students who are off track for graduation

Students are encouraged to use My ASU [9] to check their advising status requirements each semester before attempting any registration transactions.

Credit and registration

Students enrolling in courses offered by the College of Integrative Sciences and Arts are expected to follow the rules and deadlines specified in this catalog and the current registration and tuition payment guide. Students are encouraged to meet with their academic success advisor prior to registration.

Course load

Students may enroll in a maximum of 18 credit hours per fall or spring semester, with a maximum of nine credits taken in session A or session B. Students may enroll in a maximum of 14 credit hours for a summer session, with no more than seven credits in session A or session B. Students may enroll in a maximum of nine credit hours for the summer session C (eight weeks).

Any student who wishes to enroll in more than 18 credit hours in the fall or spring (or 14 in summer) or more than nine credit hours in an A or B session (or seven hours in summer) should first meet with their academic success advisor to discuss a course overload request. Some overload requests may require College of Integrative Sciences and Arts standards petition approval.

The ASU Catalog has further details on credit hour limits [10]. Students should refer to the CISA petitioning process [6] prior to submitting a standards petition.

Repeat/replace policy

Students who wish to repeat courses and possibly replace prior course grades must follow SSM 203-06, the repeat/replace policy [11] in the University Student Services Manual [12], regarding the number of credit hours that can be repeated and the types of courses that are eligible for a grade replacement.

Students who wish to repeat a course for a third time must petition the College of Integrative Sciences and Arts Standards Committee.

Pass/fail grade options

A "P" grading option is used to indicate a passing grade of "D" or higher in a class when an individual student receives permission from both the class instructor and their college or school. If the student earns a "P" grade, they will earn credit hours, but the grade is not used for computing GPA. If requirements for the "P" grade are not met, a failing "E" grade is applied. The "E" grade is calculated in GPA. The "P" grade does not meet requirements for course or program progression in which a "C" or better is required.

The pass/fail grade option may be used under the following conditions:

- The pass/fail option is available for the specific course.
- Approval has been granted by the instructor and the college offering the course prior to the start of class.
- Enrollment for the pass/fail option must be indicated during registration and may not be changed after the add period.
- A maximum of 12 credit hours taken for pass/fail may be counted toward graduation.

College of Integrative Sciences and Arts students may not enroll under the pass/fail option for the following:

- courses that meet first-year composition requirements
- major, minor, concentration area or certificate program required courses
- honors credits courses
- courses that meet language proficiency requirements
- courses that meet general studies requirements

Satisfactory ("Y") grade option

The "Y" grade is generally used for successfully completed internships, projects, reading and conference, research, seminars, theses, dissertations and workshops. Students earn credit hours for a "Y" grade, but the grade is not used for computing GPA. If requirements for the "Y" grade are not met, a failing "E" grade is applied. The failing grade of "E" is calculated into GPA. The "Y" grade may meet requirements for which a "C" or better is required. However, some exceptions may be made. For more information about the "Y" grade option, students should contact their academic advisor.

The "Y" grade option may be used only under the following conditions:

- The "Y" grading option is available for the specific course.
- Approval has been granted by the instructor and the college offering the course.
- The "Y" grading option was chosen during initial registration for the course.

Degree requirements

All candidates for graduation with a bachelor's degree are required to complete at least 120 credit hours, of which at least 45 hours must consist of upper-division courses. A minimum ASU cumulative GPA of 2.00 is required for graduation. All new College of Integrative Sciences and Arts first-year students are required to enroll in an ASU 101 course during their first ASU semester.

Associate degrees

Students in the Associate of Arts programs should refer to their major map and the University Associate Degree Graduation Requirements Policy [13] for minimum credit hour, GPA and other degree requirements

Minors

The college offers minors in many of its disciplines. All minors must entail a minimum of 15 credit hours in the discipline, and at least 12 of those hours must be upper-division courses.

- Six of the upper-division credit hours must be taken from courses offered by the College of Integrative Sciences and Arts.
- Students may not use courses in their minors for major core requirements, and, similarly, students may not use courses in their major core requirements to fulfill the requirements of their minors. Students should see an academic success advisor for more details.
- Some disciplines are too close in content for a student to choose a particular combination of minor and major.

Concurrent degrees

The College of Integrative Sciences and Arts allows undergraduate students to request approval to pursue a concurrent degree through the university approval process [14]. Students must have completed at least 30 graded credit hours with a

minimum GPA of 2.00. Concurrent degrees may not be from the same discipline or have overlap in the courses required for each major. Students must earn at least 30 unique credit hours for each degree.

To request a concurrent degree, students must meet with an academic success advisor in each degree program as part of the approval process.

Critical and necessary requirements

All undergraduate majors at ASU provide an eight-term course plan (major map) leading to four-year graduation. College of Integrative Sciences and Arts students must meet the critical and necessary requirements listed on their major maps. A student who does not comply with the critical requirements is off track and will have a hold placed on their record that prevents enrollment. To remove the enrollment hold, the student must meet with a College of Integrative Sciences and Arts academic success advisor to discuss their progression toward graduation. For more information about critical requirements, students should refer to the corresponding major map or eAdvisor. [15]

Readmission

Students who have been disqualified from ASU may be readmitted to the College of Integrative Sciences and Arts for a fall or spring semester if they do either of the following:

- Achieve a cumulative ASU GPA of 2.00 by taking ASU summer session courses.
- Complete 12 or more transferable credit hours at a community college or university with no grade lower than a "C" and a GPA of 2.50 or higher. Courses in which the student failed or received a "D" at ASU should not be repeated at another institution.

Once readmitted, the student may be placed on academic probation for at least one semester. Students on probation have one semester to raise their cumulative or semester GPA to meet the required 2.00 GPA to remain at ASU. Failure to do so results in disqualification from the university.

Graduate policies

Students should review the ASU Graduate College policy manual. [16]

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies, including those established by the Graduate College and the College of Integrative Sciences and Arts.

New College of Interdisciplinary Arts and Sciences policies

The New College of Interdisciplinary Arts and Sciences [1] offers interdisciplinary programs built upon the foundation of disciplines such as English, history, philosophy, psychology, forensic psychology, social justice and human rights, sociology, communication, mathematics, biology and statistics. Through unique combinations and innovative partnerships, the college offers many diverse degrees, among them forensic science, applied computing, Latin American studies, interdisciplinary arts and performance, conflict resolution and political science.

New College degrees provide students with future-focused skills, enabling them to contribute meaningfully to solving the most critical and complex challenges of today and tomorrow. Students are prepared to steward sustainable societies that incorporate ethics and a respect for human rights, a regard for the environment, and an appreciation of culture and language, while at the forefront of innovation in science and technology.

Academic integrity

The New College of Interdisciplinary Arts and Sciences adheres to ASU's Student Academic Integrity Policy [2]. At Arizona State University, academic honesty is expected of all students in all examinations, papers, assignments, academic transactions and records. New College students should also review New College academic integrity procedures and resources. [3]

Graduate students should also consult the ASU Graduate College Academic Integrity Policy. [4]

Academic dishonesty investigation and procedures

Anyone with a good faith basis for believing that a student has engaged in academic dishonesty may report the alleged violation to the instructor or academic integrity officer for the college or school in which the academic dishonesty occurred.

- If the instructor or academic integrity officer concludes that there is a sufficient basis to believe the student engaged in academic dishonesty, the instructor or the academic integrity officer notifies the student of the alleged violation and initiates the investigative process.
- Before concluding the investigation, the instructor or academic integrity officer provides the student with a summary of the information gathered. The student has five business days after the notice is sent to respond to the allegation.
- At any point in the process, the student can contact the academic integrity officer to seek consultation or clarification.
- The student may be accompanied by an advisor at any point in the process. The advisor is not permitted to participate directly or speak for the student.
- Once the investigation is complete, in consultation with the academic integrity officer, the instructor recommends a sanction. The student is notified of the result of the investigation and of any sanction to be imposed.

Sanctions and appeal

The following sanctions may be imposed for academic dishonesty:

- a grade of "XE" [5]
- expulsion from the university without expectation of readmission
- other sanctions as consistent with this policy and the Student Code of Conduct [6]
- reduced or failing grade for the academic evaluation
- reduced or failing grade for the course
- suspension from the university for a specific period
- withdrawal of credit for a previously accepted course or requirement

At any time, the student and the instructor may agree on the sanction and inform the academic integrity officer.

A student alleged to have violated the Academic Integrity Policy has the following rights:

- The student is notified of their right to appeal. The student must file their appeal no later than 10 business days after the date the notification is sent. If the student does not file a timely appeal, the sanction is final.
- A student's appeal of an allegation of an academic integrity violation or recommended sanction must be submitted in writing and include the following:
 - a description of the alleged academic dishonesty, including a factual narrative of events, the dates and times of occurrences, and any other reason why the sanction should not be imposed
 - the names of persons having information about relevant circumstances or events
 - the general nature and description of all evidence

- If the student files an appeal, the student must meet with the academic integrity officer to discuss hearing procedures. The academic integrity officer helps the student navigate the process and provides additional information when needed.
- If the student wishes to dispute any aspect of the allegation or sanction, the student may file an appeal. If the student files a timely appeal, the sanction is not final until the appeal is resolved. If the student files an appeal at the end of a semester, or during the last semester of enrollment, the course grade or degree may be withheld until the matter is resolved. If a grade or degree is withheld for any period, the academic integrity officer or dean must notify the registrar's office.

Student Affairs and Grievances Committee hearing

The academic integrity officer will forward a student's timely appeal to the instructor.

Prehearing proceedings

The academic integrity officer sends a notice of hearing to the student, instructor and the New College Student Affairs and Grievances Committee (termed "college/school board" on the Office of the University Provost website). The notice includes the following information:

- the time and place of the hearing before the Student Affairs and Grievances Committee (Unless the parties and academic integrity officer agree otherwise, the hearing takes place during the regular fall or spring semester.)
- a copy of this policy or instructions on how to access the policy electronically
- the requirement that the parties provide to the academic integrity officer a written list of witnesses and a description of any documents or other evidence they intend to use at the hearing (Unless the chairperson provides otherwise, this information must be exchanged at least five business days before the hearing.)
- the length of time set for the hearing, the time limitation for the presentation of evidence and any other procedural requirements

Conduct of the hearing

To preserve the confidential nature of the disciplinary process and to protect the privacy of those involved, the hearing is closed to the public.

The chairperson of the Student Affairs and Grievances Committee presides at the hearing and rules upon all procedural matters. The formal rules of evidence do not apply, although objections to the introduction of specific statements or documents may be considered by the chairperson. Irrelevant, immaterial, privileged or unduly repetitious information is excluded.

The instructor has the burden of showing that it is more likely than not that the student engaged in academic dishonesty. The instructor must also explain the reason for the sanction. If the student accepts responsibility for academic dishonesty, then the Student Affairs and Grievances Committee may focus the hearing on the appropriate sanction.

Information regarding prior violations or informal resolutions of previous allegations may not be used as proof of a current violation but may be admitted for other purposes, such as to show that the student had prior experience relevant to the allegations or to show that the student had been informed previously that the conduct was unacceptable. The Student Affairs and Grievances Committee may also consider information regarding prior violations in determining an appropriate sanction.

A student who fails to appear or refuses to participate at the hearing is deemed to have abandoned the appeal unless the student can demonstrate that extraordinary circumstances prevented appearance or participation.

The student and instructor may each have an advisor present, but the advisors are not permitted to address the Student Affairs and Grievances Committee directly, except as the chairperson deems necessary or appropriate.

Except as otherwise permitted by the Student Affairs and Grievances Committee, witnesses are excluded from the hearing except during their own testimony. The chairperson may remove a party, advisor or witness from the hearing if that person's conduct is disruptive.

When necessitated by fairness or extraordinary circumstances, the Student Affairs and Grievances Committee may permit the parties to make arrangements for recorded, written or telephonic testimony from their witnesses for use in the proceeding.

The instructor proceeds first at each stage of the presentation.

- Each party may present an opening statement that summarizes the information expected to be presented.

- Each party calls a witness or witnesses to provide statements under oath.
- At the conclusion of each witness's statement, they may be questioned by the other party.
- The committee may ask further questions of each witness.
- Each party may present a closing statement, which summarizes the information that was presented.

If the alleged academic dishonesty involves the work of multiple students, the Student Affairs and Grievances Committee may modify these procedures to address the circumstances. The college Student Affairs and Grievances Committee should provide prior written notice of any modification of the procedures to all parties. Each student must file his or her own appeal. A student who has not filed an appeal should not expect to benefit from another student's appeal.

College board deliberations and recommendations

Following the presentation of information and closing statements, the Student Affairs and Grievances Committee discusses the information presented and the reasonable inferences to be drawn from it. Only the committee, its legal advisor, if any, and the academic integrity officer may be present during the deliberations. Neither the student nor the instructor may be present during the deliberations.

Based solely upon the information presented, the Student Affairs and Grievances Committee formulates a recommendation to the dean as to whether the student has more likely than not engaged in academic dishonesty, and the appropriate sanction. Recommendations must be supported by a simple majority of the Student Affairs and Grievances Committee.

The Student Affairs and Grievances Committee prepares and sends a written recommendation to the dean within five business days of the hearing. The written recommendation includes findings of fact and a statement of the reasons for the recommendation, and it is signed by the Student Affairs and Grievances Committee chair. If the recommendation is not unanimous, dissenting opinions should be reflected in the recommendation.

Review and decision by dean

After reviewing the Student Affairs and Grievances Committee's recommendation, the dean renders a written decision that affirms, denies or accepts the committee's recommendation with modifications.

The dean may not make new findings adverse to the student or increase the severity of a sanction unless:

- The dean provides the student notice and an opportunity to respond to the new findings or sanction
- The dean remands the matter to the Student Affairs and Grievances Committee for further proceedings

The dean (or dean's designee) provides written notice of the decision to the student, the academic integrity officer, the instructor and the Student Affairs and Grievances Committee within 20 business days following receipt of the Student Affairs and Grievances Committee's recommendation. A delay may occur if it becomes necessary to conduct further investigation or to remand the matter to the Student Affairs and Grievances Committee. In those cases, the written decision is transmitted no later than 20 business days following completion of the investigation or the Student Affairs and Grievances Committee's subsequent recommendation.

The dean's decision is final and may not be further appealed unless the dean recommends that the provost suspend or expel the student from the university.

If the dean recommends the suspension or expulsion of an international student, both the student and academic integrity officer should consult with the ASU International Students and Scholars Center. [7]

If the dean recommends that the provost suspend or expel the student from the university, the letter from the dean states that the student may appeal the recommendation by filing a written request for review with the provost within 10 business days of the date of the letter.

If the student does not appeal in a timely manner, the provost or designee reviews the dean's recommendation and issues a final decision on suspensions or expulsions from the university.

Review and decision of a suspension or expulsion from the university

A student may seek to have a dean's decision reviewed by the University Academic Integrity Hearing Board only if the dean recommends that the provost suspend or expel the student from the university. However, a student who has failed to appeal or has abandoned the appeal at the Student Affairs and Grievances Committee hearing may not appeal to the University Academic Integrity Hearing Board.

The appeal must be in writing and must be filed with the provost within 10 business days of the date of the dean's decision letter.

The provost or designee appoints and charges a University Academic Integrity Hearing Board to conduct the hearing. The board comprises three members; one member must be a student, and one of the other members acts as chairperson. The hearing follows the procedures set forth in the Student Code of Conduct Procedures [8] (PDF), except that the college or school takes the role of the dean of students, and the provost or designee takes the role of the senior vice president for Educational Outreach and Student Services.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [9]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [10], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [11] website.

Undergraduate policies

Academic standing

New College students must achieve a cumulative GPA of 2.00 to be considered in good academic standing at ASU. Students with a semester or cumulative GPA lower than 2.00 are placed on academic probation and are required to meet with an advisor to effectively plan academic progress toward graduation. Further information is available at the university Retention and Academic Standards Policy. [12]

Advising

All students in the New College of Interdisciplinary Arts and Sciences are expected to meet with their academic advisors [13] regularly, especially prior to course enrollment each semester.

To ensure that students are making timely progress toward degree completion, advising may be required for the following:

- newly admitted students
- first-year students
- students on academic probation
- students off track for eAdvisor tracking requirements

For eAdvisor tracking and other general academic program information, students should reference eAdvisor [14] or their program major map.

Credit and registration

Audit grade option

Students may choose to audit a course, allowing them to attend classes but not earn credit. Students must obtain instructor approval prior to enrollment. This grade option may not be changed after the add period.

The audit option [15] may be used under the following conditions:

- The audit grade option is available for the specific course.
- Approval has been granted from the instructor and college offering the course.
- The audit option is chosen during initial registration for the course.

Course load

Students are limited to a maximum of 18 credit hours per term. Enrollment in additional credit hours requires completion of a credit overload petition form [16] and approval from the college academic advisor.

Course prerequisites

Course prerequisites are established to ensure student success in a course. Students must complete all course prerequisites prior to enrolling in the desired course. Prerequisite overrides may be granted under the following conditions:

- A transfer course has been accepted by an advisor to fulfill a required course prerequisite.
- A prerequisite override has been granted by an advisor.

Grade of incomplete

Students are responsible for contacting their course instructors regarding the process of requesting and fulfilling requests for an incomplete. The grade of "I" (incomplete) [15] can only be given by an instructor when a student who is doing otherwise acceptable work is unable to complete a course (e.g., final exam or term paper) because of illness or other conditions beyond the student's control; it is also subject to unit director approval. The student must submit a request to the instructor to be considered for a grade of "I." A completed request must have the Incomplete Grade Request form [17] and include a justification, a listing of requirements that have not been fulfilled and a proposed schedule of completion. The instructor reviews the request and determines whether to accept or deny the request. The instructor may propose modifications when submitting a copy of the accepted request to the appropriate office.

An "I" in any course that is a prerequisite for sequential courses automatically denies the student enrollment in subsequent courses and could result in the student being administratively dropped from a subsequent course if the student has already enrolled.

The student has a maximum of one calendar year from the date the grade of "I" is recorded to complete the course, but faculty can place lesser time limitations at their discretion. A student does not re-register or pay fees for a course for which an "I" has been received in order to complete the course. When the course is completed, the instructor must submit an online grade change request. If the course is not completed within one calendar year, the grade of "I" in an undergraduate course is automatically changed to a failing grade "E."

Pass/fail grade option

The "P" grading option is used to indicate a passing grade in a class when an individual student receives permission from both the class instructor and their college or school. If the student earns a "P" grade, they earn credit hours, but the grade is not used for computing the GPA. If requirements for the "P" grade are not met, an "E" grade (failing) is applied. The "E" is calculated into the GPA. The "P" grade does not meet requirements for course or program progression where a "C" or higher is required.

A "P" grade should only be assigned when an individual student receives permission to take a course as pass/fail. Permission is recorded on the Pass/Fail Enrollment form. If the course only awards pass/fail grades, the "Y" grade should be used to indicate successful completion of the course (see satisfactory "Y" grade option below).

To request the pass/fail grade option on a course, New College students can submit the Pass/Fail Enrollment Application form [18] to their academic advisor. Permission is only considered under the following conditions:

1. The pass/fail grade option is available for the specific course.
2. Enrollment for the pass/fail option has been approved by both the instructor and the college offering the course.
3. Enrollment for the pass/fail option was indicated during registration.

The pass/fail option may not be changed after the add period.

New College students may not enroll under the pass/fail option in the following courses:

- those taken to satisfy first-year composition requirements
- those taken from the student's major, minor or certificate program
- those counted toward satisfying ASU general studies requirements
- those counted toward satisfying New College proficiency requirements
- those requested after the start date of the class

For further information about this ASU grading option or to determine how a "P" or "Y" grade transfers from another institution, students should contact their advisor.

Satisfactory ("Y") grade option

Unlike the "P" grade option, which can be requested by students, the "Y" grade is standard for some courses. The "Y" grade is generally used as a grade for successfully completed internships, projects, readings and conference, research, seminars, theses, dissertations and workshops. Students earn credit hours for a "Y" grade, but the grade is not used for computing the GPA. If requirements for the "Y" grade are not met, a failing grade ("E") is applied. The "E" grade is

calculated into the GPA. The "Y" grade may meet requirements in which a "C" or higher is required. However, there may be some exceptions. For more information about the "Y" grade option, students should contact their academic advisor.

Academic (grade) grievance policy

The following steps must be followed by any student seeking to appeal a grade. This process does not address academic integrity allegations or faculty misconduct.

Student grade appeals must be processed before the end of the regular semester immediately following the issuance of the grade in dispute (by commencement for fall or spring), regardless of whether the student is enrolled at the university.

Typically, final course grades appeals are only considered when one or more of the following criteria are met. Appeals requested for areas outside these parameters are not eligible for formal hearings and are not heard.

- There was an error in calculating the final course grade for the course.
- The criteria for determining the final course grade were changed from those specified in the syllabus.
- The evaluation system was not consistently and fairly applied to all students.

There are two stages to the grade grievance process: the informal process and the formal process. Each process consists of a series of steps.

Informal process

Step 1: An aggrieved student must first confer with the instructor; the student must state the reasons for questioning that the grade received was given in good faith. The instructor must review the matter, explain the grading procedure used, and explain how the grade in question was determined. If the instructor is a graduate assistant and this interview does not resolve the difficulty, the student may then take the problem to the faculty member in charge of the course.

Step 2: If the grading dispute is not resolved in step 1, the student may appeal to the school academic director or designee within the school offering the course. The school director or designee may confer with the instructor to handle the problem. In most instances, the grievance procedure can be resolved with steps 1 or 2 and does not go beyond this level.

Step 3: If the matter is not resolved to the student's satisfaction after completing steps 1 and 2, the student may then confer with the dean's designee (at 602-543-7000), who reviews the case and explains the formal process to the student. If still unresolved, the student may proceed to the formal process.

Formal process

Step 4: No later than 10 business days after meeting with the dean's designee, the student must provide a written statement stating the evidence, if any, and reasons for determining that the grade received was not given in good faith. Supporting materials should be attached as exhibits to the statement.

Step 5: The dean's designee provides the student's statement (with any exhibits) to the instructor and requests that the instructor respond to the dean's designee within 10 business days.

Step 6: When the official, written response is received from the instructor, the dean's designee contacts the student, who can then schedule an appointment to review the instructor's response. After reviewing the instructor's response, the student may submit a written request for a hearing before the New College of Interdisciplinary Arts and Sciences Student Affairs and Grievances Committee. This written request for a hearing must be submitted no later than 10 business days after the dean's designee notifies the student that the instructor's response was received. The committee is a regular committee and meets monthly, as necessary, during the fall and spring terms when classes are in session. The dean's designee serves as a nonvoting, ex-officio member of the committee.

Step 7: The committee meets with the student and the instructor in an attempt to resolve differences. To preserve the confidential nature of the grade grievance process and to protect the privacy interest of those involved, the hearing is closed to the public. The committee chairperson presides at the hearing and rules upon all procedural matters. A student who fails to appear or refuses to participate at the hearing is deemed to have abandoned the request for a hearing, unless the student can demonstrate that extraordinary circumstances prevented the appearance or participation.

Step 8: After all parties have been heard, they are excused, and the committee deliberates in closed session. Upon reaching consensus, the committee chairperson submits their recommendation to the dean of the New College of Interdisciplinary Arts and Sciences. The dean reviews the report and makes a final determination regarding the

appropriate course of action. The dean's office informs the student, instructor, school director, registrar and Student Affairs and Grievances Committee in writing of the decision. The dean's decision is final.

It is university policy that students filing grievances and those who are witnesses be protected from retaliation. Students who believe they are victims of retaliation should immediately contact the dean's office in the New College of Interdisciplinary Arts and Sciences.

Transfer coursework

Credit is granted for transferred courses deemed equivalent to corresponding courses in the selected program of study, subject to grade and ASU resident credit requirements. Courses for which a grade lower than "C-" (2.00) has been earned do not transfer to ASU. Credits transferred from a community college or two-year institution are applied as lower-division credits. For a listing of the acceptable courses transferable to the various degree programs, prospective Arizona transfer students should consult their advisors and refer to the ASU transfer tools. [19]

Some courses taken at other ASU colleges or other universities may be acceptable for general university credit but may not be applicable toward the degree requirements of the college. Determination of those particular courses applicable to a specific degree program is made within the appropriate academic unit.

Withdrawal

Complete session withdrawal information

Because a complete session withdrawal from the university can be a difficult decision and could result in serious academic and financial consequences, undergraduate students are required to connect with their academic advisor to facilitate the withdrawal process.

Students must complete the following steps in the order shown here:

1. Review the Academic Calendar [20] for complete session withdrawal and tuition refund deadlines.
2. Log in to My ASU. [21]
3. Under the My Classes section, select Registration followed by Drop/Withdrawal.
4. Indicate all the classes and sessions for the withdrawal, answer the required questions, and select "Submit Withdrawal Request."
5. The request is reviewed, and the academic advisor may contact the student for further discussion. If approved, the complete session withdrawal request is sent to the Office of the University Registrar for processing.

Prior to requesting a complete session withdrawal, the student is encouraged to discuss a potential complete session withdrawal with an academic advisor. To schedule an appointment, students should call 602-543-3000. ASU has many resources in place to help students. Students may want to consider one or more of the following:

- **Withdraw from one or some classes in a session, not all (course withdrawal).** Students may withdraw from one or some of the classes in a session while remaining enrolled in other classes as long as the withdrawal is completed by the university course withdrawal deadline. Students are encouraged to contact their academic advisor to discuss the impact this may have on meeting critical requirements. Students are also encouraged to contact a financial aid representative to consider any impact that withdrawing will have on scholarships, grants and loan packages.
- **Request a medical or compassionate withdrawal.** A medical or compassionate withdrawal request [22] may be made in extraordinary cases in which serious illness or injury (medical) or another extraordinary personal situation, such as a death in the family (compassionate), prevents a student from continuing their classes, and "I" (incomplete) grades or other arrangements with the instructors are not possible. Students should review the specific New College medical and compassionate withdrawal requirements and procedures [23] for more information.
- **Seek tutoring or academic support services.** The university Academic Support Network [24] provides a variety of services to help students become better learners and gain the confidence and skills they need to achieve their academic goals. Services include writing centers, math tutoring, subject area tutoring and supplemental instruction.
- **Make an appointment with ASU's Counseling Services.** Counseling and mental health services are provided at each of the four ASU campuses. ASU students may seek services at any of the campus counseling centers [25], regardless of their college affiliation.
- **Explore the possibility of an "I" (incomplete) grade.**

Possible consequences resulting from a complete session withdrawal:

- **Financial aid:** Financial aid recipients who completely withdraw from the university may be responsible for immediate repayment of funds. The effect of a complete withdrawal from financial aid depends on the date of the withdrawal and the type of financial aid. Students should see the maintaining your financial aid [26] procedures for more information.
- **Tuition and refunds:** By registering for classes, students agree to pay all applicable tuition and registration fees. Students are required to pay all tuition and fees for any registered course unless enrollment is officially cancelled during the 100% refund period. For more information, students should review the ASU Tuition Refund Policy. [27]
- **Health insurance:** Students should contact their health insurance company to determine whether withdrawing from the university affects their coverage.
- **University housing:** Students who live on campus should contact their residential hall community staff to determine what impact withdrawing will have on their eligibility to live on campus and to complete a license agreement release form [28] and arrange an appointment to officially check out.
- **Veteran benefits and certifications:** Students should contact the appropriate veterans benefits and certifications office to discuss information regarding veterans educational benefits and military activation. For more information, students should send an email to w.westvso@asu.edu [29] or visit the Pat Tillman Veterans Center [30] website.

Procedures for general university withdrawal are at the University Registrar Services registration [31] website.

Degree requirements

All candidates for graduation in the BA, BS and BAS curricula are required to present at least 120 credit hours, of which at least 45 credit hours must consist of upper-division coursework. A minimum cumulative GPA of 2.00 is required for graduation. New College students in a Bachelor of Arts or Bachelor of Science degree program must complete a New College residency requirement of a minimum of 12 credit hours of upper-division (300- and 400-level) coursework from the school housing the student's major.

It is the student's responsibility to be aware of the degree program requirements and to select courses accordingly.

To graduate, a student must satisfy the following requirements:

1. NEW 101 or equivalent (first-year students)
2. IAS 300 (transfer students)
3. New College global and civic engagement requirement (General Studies Gold) or New College language and cultures requirement (General Studies Maroon)
4. New College mathematics proficiency requirement
5. university first-year composition [32] and general studies [33] requirements
6. major requirements that involve concentrated coursework in one program
7. successful completion of critical-tracking courses as required on the student's major map

Information on critical tracking and eAdvisor tools, such as the major map, is available at the eAdvisor website. [14]

New College students in the Bachelor of Applied Science program are not subject to college-specific first-year, transfer, residency or proficiency requirements. Bachelor of Applied Science students are subject to all university graduation requirements.

Proficiency requirements

All New College students in a Bachelor of Arts or Bachelor of Science degree program are required to demonstrate proficiency in either global and civic engagement (General Studies Gold) or the analysis of language and cultures (General Studies Maroon) as well as mathematics (both) by passing an examination or by completing the courses specified below with a grade of "C" or higher in each course.

New College global and civic engagement requirement (General Studies Gold)

This requirement may be satisfied through one of the following:

- completion of six credit hours of upper-division courses that have a global communities, societies and individuals (GCSI) or governance and civic engagement (CIVI) designation in addition to the courses used to meet the university general studies requirements
- completion of three credit hours from an ASU-approved global education program (e.g., faculty-directed study abroad, Global Intensive Experience, exchange programs, etc.)

New College language and cultures requirement (General Studies Maroon)

This requirement may be satisfied through one of the following:

- completion of secondary education at a school in which the language of instruction is not English
- completion of a language course at the intermediate level (202 or equivalent), including American Sign Language IV
- completion of an upper-division course or courses taught in a foreign language, taken in the United States or the relevant country
- completion of six credit hours of upper-division courses that have a global awareness designation (G) or cultural diversity in the U.S. designation (C) in addition to the courses used to meet the university General Studies requirements
- completion of two sequential semesters of coursework in a current computer language

Students may obtain information about applicable coursework through the college advising office.

New College mathematics proficiency requirement

All New College students in a Bachelor of Arts or Bachelor of Science degree program are required to complete a general studies course designated as mathematics (MA in General Studies Maroon; MATH in General Studies Gold) with a "C" or higher. MAT 142 College Mathematics or MAT 117 College Algebra with a "C" or higher fulfills this college requirement. Some majors may require a higher-level mathematics course.

Major requirements

Each student is required to select a major from among the programs offered by the New College of Interdisciplinary Arts and Sciences.

No credit is granted toward fulfilling major or minor requirements in any upper-division course in the subject field of the major unless the grade in that course is at least a "C" (2.00). Normally, a passing grade ("Y," for satisfactory) must be confirmed to be equivalent to a "C" (2.00) or higher.

General electives

Upon completion of all other requirements, the remainder of the minimum 120 credit hours required for graduation is general electives. Students should contact college advisors for assistance in selecting elective courses.

Concurrent degrees

Students in the New College of Interdisciplinary Arts and Sciences may apply for concurrent degrees through the university approval process [34]. Students are eligible to pursue a concurrent degree within New College when the following criteria have been met:

1. Students must be in good standing with a cumulative GPA of 2.00 or higher.
2. Students must have completed a minimum of 30 credit hours in their first program of study.
3. Students must complete 30 credit hours unique to each program.
4. Students must meet admission criteria and concurrent degree eligibility requirements for both programs.

Students should connect with advising to discuss their selected combinations. Degree combinations with significant course overlap may not be approved. Examples of incompatible majors include:

- Biology BA or BS/biochemistry BA or BS
- Biology BA or BA/pharmacology and toxicology BS
- Conflict resolution BA/communication BA or BS
- History BA/history (secondary education) BA
- Political science BA or BS/social justice and human rights BA
- Psychology BA or BS/counseling and applied psychological science BS
- Psychology BA or BS/psychology (forensic psychology) BA or BS
- Spanish BA (West Valley campus)/Spanish BA (Tempe campus)

Minors

New College offers minors [35] in many of its disciplines. All minors require a minimum of 15 credit hours in the discipline, with at least nine of those hours completed as upper-division coursework. A minimum of six of the upper-division credit hours must be taken from courses offered by the New College of Interdisciplinary Arts and Sciences. Courses used for the minor may not be used for the student's major program.

Readmission

Undergraduate degree-seeking students who have previously attended ASU but have not enrolled at ASU for no more than seven consecutive semesters are eligible to return through quick re-entry [36]. These students are not required to submit a new application or application fee but must contact an academic advisor in their school to enroll.

Undergraduates who have been away from the university for seven or more semesters and want to return to ASU in a New College program are required to apply for readmission [37] through ASU Admission Services.

Disqualified students must follow the procedures for readmission; their cases are reviewed by the college on a case-by-case basis.

Graduate policies

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies, including those of the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Graduate academic success advisors can be contacted at NCGradAdvising@asu.edu. [38]

Academic standing

Satisfactory academic progress

All graduate students are expected to make systematic progress toward completion of their graduate program. This progress includes satisfying the conditions outlined in the policies listed below and achieving the benchmarks and requirements set by the individual graduate programs as well as the Graduate College. Graduate students should review the New College Satisfactory Academic Progress Policy [39] and the ASU Graduate College Policy Manual [40].

Credit and registration

Grade of incomplete

When an "I" (incomplete) grade [15] is given in a graduate course (500-level or above), the "I" grade becomes a permanent part of the transcript if the course is not completed within one year, and the student must re-register and pay fees to repeat the course for credit.

Academic (grade) grievance policy

The following steps must be followed by any student seeking to appeal a grade. This process does not address academic integrity allegations or faculty misconduct.

Student grade appeals must be processed in the regular semester immediately following the issuance of the grade in dispute (by commencement for fall or spring), regardless of whether the student is enrolled at the university.

Typically, final course grades appeals are only considered when one or more of the following criteria are met. Appeals requested for areas outside these parameters are not eligible for formal hearings and are not heard.

- There was an error in calculating the final course grade for the course.
- The criteria for determining the final course grade was changed from what was specified in the syllabus.
- The evaluation system was not consistently and fairly applied to all students.

There are two stages to the grade grievance process: the informal process and the formal process. Each process consists of a series of steps.

Informal process

Step 1: An aggrieved student must first confer with the instructor; the student must state the reasons for questioning that the grade received was given in good faith. The instructor must review the matter, explain the grading procedure used, and explain how the grade in question was determined. If the instructor is a graduate assistant, and this interview does not resolve the difficulty, the student may then take the problem to the faculty member in charge of the course.

Step 2: If the grading dispute is not resolved in step 1, the student may appeal to the school academic director or designee within the school offering the course. The school director or designee may confer with the instructor to handle

the problem. In most instances, the grievance procedure can be resolved with step 1 or step 2 and does not go beyond this level.

Step 3: If the matter is not resolved to the student's satisfaction after completing steps 1 and 2, the student may then confer with the dean's designee (at 602-543-7000), who reviews the case and explains the formal process to the student. If still unresolved, the student may proceed to the formal process.

Formal process

Step 4: No later than 10 business days after meeting with the dean's designee, the student must provide a written statement stating the evidence, if any, and reasons for determining that the grade received was not given in good faith. Supporting materials should be attached as exhibits to the statement.

Step 5: The dean's designee provides the student's statement (with any exhibits) to the instructor and requests the instructor to respond to the dean's designee within 10 business days.

Step 6: When the official, written response is received from the instructor, the dean's designee contacts the student, who can then schedule an appointment to review the instructor's response. After reviewing the instructor's response, the student may submit a written request for a hearing before the New College of Interdisciplinary Arts and Sciences Student Affairs and Grievances Committee. This written request for a hearing must be submitted no later than 10 business days after the dean's designee notifies the student that the instructor's response was received. The committee is a regular committee and meets monthly, as necessary, during the fall and spring terms when classes are in session. The dean's designee serves as a nonvoting, ex-officio member of the committee.

Step 7: The committee meets with the student and the instructor in an attempt to resolve differences. To preserve the confidential nature of the grade grievance process and to protect the privacy interest of those involved, the hearing is closed to the public. The committee chairperson presides at the hearing and rules upon all procedural matters. A student who fails to appear or refuses to participate at the hearing is deemed to have abandoned the request for a hearing unless the student can demonstrate that extraordinary circumstances prevented their appearance or participation.

Step 8: After all parties have been heard, they are excused, and the committee deliberates in closed session. Upon reaching consensus, the committee chairperson submits their recommendation to the dean of the New College of Interdisciplinary Arts and Sciences. The dean reviews the report and makes a final determination regarding the appropriate course of action. The dean's office informs the student, instructor, school director, registrar and Student Affairs and Grievances Committee in writing of the decision. The dean's decision is final.

It is university policy that students filing grievances and those who are witnesses be protected from retaliation. Students who believe they are victims of retaliation should immediately contact the dean's office in the New College of Interdisciplinary Arts and Sciences.

Other graduate policies

Graduate students are expected to have knowledge of the information in this catalog as well as information published in the ASU Graduate College Policy Manual [40] and New College graduate program handbooks [39].

Additional considerations

Request a medical or compassionate withdrawal

A medical or compassionate withdrawal request [22] may be made in extraordinary cases in which serious illness or injury (medical) or another extraordinary personal situation, such as a death in the family (compassionate), prevents a student from continuing their classes, and "I" (incomplete) grades or other arrangements with the instructors are not possible. Students should review the New College medical and compassionate withdrawal requirements and procedures. [23]

Continuous enrollment

Once admitted to a graduate degree program or graduate certificate program, students must be registered for a minimum of one graduate-level credit hour during all phases of their graduate education, including the terms in which they were admitted and graduate. More information is available in the ASU Graduate College Policy Manual. [40]

Walter Cronkite School of Journalism and Mass Communication policies

The Walter Cronkite School of Journalism and Mass Communication has a student-centered culture focused on helping students complete their degrees in a timely manner. Students are encouraged to visit the school website [1] or contact its student services center at 602-496-5055 with questions about any of the school's policies.

Academic integrity

Academic dishonesty in any form is not tolerated in the Walter Cronkite School of Journalism and Mass Communication. The crux of democracy is the ability of citizens to obtain honest, truthful and balanced information, and the credibility and integrity of individual journalists and communications professionals are crucial in that effort. In light of the school's mission to prepare students to become journalists and communications professionals, it is critical that credibility and integrity be fostered within the educational environment of the school.

The school has zero tolerance for academic dishonesty; academic integrity is enforced within every course and educational activity offered or sanctioned by the school. Any allegation of academic dishonesty is referred to an appointed academic integrity officer for investigation, with cases elevated to the school's Standards Committee for review and recommendation to the dean of the school. If any student is found to have engaged in academic dishonesty in any form — including cheating, plagiarizing and fabricating (see examples (PDF) [2]) — that student shall receive a grade of XE for the class and may face suspension or expulsion from ASU.

At the beginning of every Cronkite School class, every student must digitally agree to uphold the school's commitment to academic integrity, as well as the ASU Academic Integrity Policy [3] and the Student Honor Code [4]. This agreement indicates that each student has read and understands the terms of academic integrity violations and all potential sanctions.

Per ASU's policy, anyone with a good faith basis for believing that a student has engaged in academic dishonesty may report the alleged violation. In any case, the alleged violation should be brought to the attention of the faculty member or instructor who oversees the academic activity in question. Students can use this link to report an alleged violation [5] to an Academic Integrity Officer.

If the Cronkite School dean determines that a graduate student has violated the ASU Academic Integrity Policy and should be suspended or dismissed from the program, they will notify ASU's Graduate College and make a formal recommendation for dismissal or suspension. The Graduate College dean makes the final determination of sanctions.

Responsibilities related to academic integrity

Accuracy: Because accuracy is the most important aspect of journalism, students must adhere to rigid standards for all submitted work, regardless of the intent to publish. Any major error of fact, anything that would require a printed correction if the story were to appear in a newspaper — a misspelled proper name, an erroneous phone number, an incorrect address, a libelous statement or a misstatement of a major fact — results in a grade of "E" (59%) on that assignment. Minor misspellings or errors of grammar bring down the grade. Carelessness causes students to lose points fast.

Attendance and makeup work: Students must attend all classes for their full duration — as well as examinations as noted by the ASU final exam schedule — on the days and times and in the locations indicated on the class syllabus and My ASU. If a student experiences extreme personal circumstances, they must notify their instructor immediately. The instructor is obligated to report extreme or extenuating circumstances to the dean's office for the coordination of student support.

Course content: Course content, including lectures, is copyrighted material. Students may not share outside the class, upload, sell or distribute course content, assessments, access codes or notes. Students must refrain from uploading to any course shell, discussion board or website used by the instructor or other course forum any material that is not the student's original work unless the student first complies with all applicable copyright laws; faculty members reserve the right to delete materials on the grounds of suspected copyright infringement.

Classroom etiquette: Students must keep mobile devices stored out of reach during class unless prompted by the instructor. Students may use computers, phones and other devices during class only to take notes and engage with course content. Food and drinks other than water are not allowed in the classroom. Students should arrive on time and be prepared to engage meaningfully with their instructor, peers and course content.

Deadlines: Meeting deadlines is crucial to success in any Cronkite course. The instructor holds students to the same standards as professional communicators. Students are expected to meet all deadlines, including testing technology and equipment well ahead of those deadlines. Assignments submitted even one minute past the deadline are not accepted; students receive a zero. There are no exceptions, including for technical difficulties. For example, students with unreliable internet connections have been unable to submit their assignments on time and, thus, earned no points for those assignments.

If a student begins an assignment but runs out of time to complete it, the student should remember that submitting a partially completed assignment is better than not submitting anything at all (as long as the work meets all expectations for academic integrity and does not compromise the work of other students).

Extreme personal circumstances: Students should notify their instructor as soon as possible if an extreme individual circumstance interferes with the ability to complete coursework. Examples include hospitalization of a student, death of an immediate family member, or a natural disaster.

Active duty military: Students who are on active duty with the military and, because of deployment or service responsibilities, experience Internet connectivity issues that prevent them from participating in course activities or meeting assignment deadlines must notify the instructor as soon as possible to discuss appropriate accommodations.

Religious accommodations: Students who need to be absent from class because of religious observance should notify their instructors at the beginning of the semester.

Diversity principles: The Walter Cronkite School of Journalism and Mass Communication embraces inclusivity [6] in student, staff and faculty populations to create an academic environment that fosters diversity of thought and acceptance of all people. To this end, the school directs efforts to the following four principles:

- Actively seek out and encourage diverse populations to become productive members of the faculty, staff and the student body.
- Create and maintain a work, learning and social environment that is cognizant and supportive of a diversity of human differences and beliefs.
- Incorporate within the formal content of the curriculum and in each course an affirmation of the core values of accuracy, fairness, ethical behavior and sensitivity when reflecting an increasingly multicultural world.
- Foster and support a climate in which events and activities of the school reflect diversity of awareness, and sensitivity to and support for people of different origins, orientations and abilities.

Expectations of professionalism: Students must exhibit professionalism in all course-related activities, assessments and communications. It is vital to the learning process that each student respect their instructor, classmates, clients, partners, sources, technology, equipment and course content. Students who engage in damaging or abusive behavior — and those who consistently make disruptive, disrespectful or intimidating comments in person or online — are referred to the Office of Student Rights and Responsibilities [7] for investigation and possible consideration for dismissal from the program.

The Walter Cronkite School of Journalism and Mass Communication strives to create a respectful, civil learning environment for everyone; however, some course content and discussions may evoke emotional responses based on personal experiences and backgrounds. Students should bring any concerns to the attention of their instructor or, alternatively, to school leadership.

According to ASU policy SSM 104-02 [8], “Students, faculty, staff, and other individuals do not have an unqualified right of access to university grounds, property or services. Interfering with the peaceful conduct of university-related business or activities or remaining on campus grounds after a request to leave may be considered a crime.”

ACEJMC values and competencies: As a member of the Accrediting Council on Education in Journalism and Mass Communication, the school is committed to classroom learning that achieves ACEJMC professional values and competencies (<http://www.acejmc.org/policies-process/principles/> [9]). These include the core areas of freedom of speech, ethics, diversity, critical thinking, research, writing and use of tools and technologies related to the field.

Social media guidelines: It is important that students of journalism and communication know how to use social media ethically and professionally. The school has developed standards [10] drawn from The Poynter Institute for Media Studies and the Society of Professional Journalists.

Original work and collaborations: All work submitted for classes must be original work, created solely for the current session of the class. This includes photos, text, video and images. Students may not submit assignments or evaluations done for any other class, for any other organization or for a previous session of the class. ASU offers resources to learn

more about plagiarism and self-plagiarism [11]. Students who violate this clause are referred to an academic integrity officer.

All assignments must be the student's own work — from concept to execution — unless the instructor specifies some type of collaboration. Even when part of a team, not all elements of the assignment may be team-based. For example, the assignment may call for a team discussion of a topic, but a writing assignment based on that discussion must be the student's individual work. Violating this policy may qualify as academic dishonesty. Students are responsible for understanding what elements of an assignment or task (if any) require peer collaboration or individual completion.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [12]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [13], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [14] website.

Undergraduate policies

Academic standing

Probation and Walter Cronkite School of Journalism and Mass Communication continuing academic probation

All ASU students, freshman through senior, must maintain a minimum GPA of 2.00 for all courses completed at ASU. If this standard is not maintained, the student is placed on probation. Students on probation must see an advisor before further registration and must do one of the following:

- Achieve an ASU GPA of 2.00 or greater to return to academic good standing.
- Obtain a semester GPA of 2.50 with no grade lower than "C" to be granted one additional semester on continuing probation. At the end of the continuing probation, the student must return to academic good standing (a minimum cumulative ASU GPA of 2.00) to avoid disqualification.

Disqualification

Students who do not meet probation requirements are academically disqualified. Disqualified students should meet with their academic advisors. These students may attend ASU only during the summer session immediately following disqualification.

Journalism and mass communication and sports journalism majors: Students in these majors must maintain a minimum cumulative GPA of 2.50 for all courses completed at ASU to be in good standing in the major. Students who have a cumulative GPA lower than 2.50 have one semester to raise their cumulative GPA to meet the requirement. Students who fail to raise their cumulative GPA to 2.50 or higher must change their major from journalism and mass communication or sports journalism.

Mass communication and media studies, digital media literacy and digital audiences majors: Students in these majors follow the university policies on Retention and Academic Standards [15] for GPA requirements, probation and disqualification.

Advising

Undergraduate students are assigned an advisor according to the student's last name. Students should see the school advising [16] page for specifics.

To ensure that students are making progress toward their degrees, the school encourages students to check in with their advisors each semester. Advising is mandatory for:

- first-time, first-year students, both semesters during their first year at ASU
- students on academic probation
- students who are off track in their major
- students who have completed 75 credit hours
- transfer students prior to enrolling for their first semester at ASU

ASU Online students are strongly encouraged to make an appointment with their respective advisors before enrolling for their first semester.

For additional information, students should contact the school's advising center at 602-496-5055.

Students should follow the sequence of courses outlined on major maps and online degree audits and contact their advisor with any questions. Critical requirements for first-year students in the school are available at the school website.

Credit and registration

Changes of major

Students are eligible to change their major [17] if they meet the criteria below.

Journalism and mass communication and sports journalism degree programs: Current ASU students are eligible to change their major to this program if they have a cumulative GPA of at least 3.00 in 12 or more credit hours earned at ASU in courses that can be used to satisfy the school's nonelective general studies requirements.

Mass communication and media studies, digital audiences and digital media literacy degree programs: Current ASU students are eligible to change their major to these programs if they have a cumulative GPA of at least 2.00.

Transfer credit

Students may apply up to 64 credits of coursework from an accredited two-year institution to their degree. Students may apply up to nine credit hours of approved upper-division journalism coursework from a four-year, ACEJMC-accredited institution to meet the school's BA in journalism and mass communication and BA in sports journalism degree requirements. Students interested in having these courses reviewed should collect detailed syllabi and course schedules, review the ASU transfer credit criteria [18] and consult a Cronkite academic advisor [16] or admissions specialist [19] for assistance.

Degree requirements

All students must meet the critical requirements for their majors. Students who are required to follow eAdvisor tracking requirements and do not comply with the critical requirements are off track, and a hold is placed on their records. These students must meet with an advisor to have the hold removed.

- specific requirements for the journalism and mass communication degree [20]
- specific requirements for the sports journalism degree [21]
- specific requirements for the mass communication and media studies degree [22]
- specific requirements for the digital audiences degree [23]
- specific requirements for the digital media literacy degree [24]

Major proficiency requirements

All students must receive a "C" (2.00) or higher in all JMC and MCO courses applied toward major requirements. Journalism and mass communication and sports journalism majors must also receive a grade of "B-" (80%) or higher in JMC 101 Grammar for Journalists and must maintain, at minimum, a cumulative GPA of 2.50 to be eligible to enroll in JMC and MCO classes.

Concurrent degrees

The primary degree is the one that appears at the top of a student's transcript. A concurrent degree is an additional degree that a student pursues.

Following are general rules for students pursuing concurrent degrees in the Walter Cronkite School of Journalism and Mass Communication:

- Currently enrolled journalism and mass communication or sports journalism majors who would like to add a concurrent degree must have a cumulative ASU GPA of 2.50 or higher and must have completed 30 credit hours of coursework.
- Currently enrolled mass communication and media studies, digital audiences or digital media literacy majors who would like to add a concurrent degree must have a cumulative ASU GPA of 2.00 or higher and must have completed 30 credit hours of coursework.
- ASU students not enrolled in the school who would like to add a concurrent degree in journalism and mass communication or sports journalism must be in good academic standing within ASU, must have a cumulative GPA of at least 3.00 and must have completed 30 credit hours of coursework.
- ASU students not enrolled in the school who would like to add a concurrent degree in mass communication and media studies or digital audiences must be in good academic standing, must have a cumulative GPA of at least 2.00 in a degree program and must have completed 30 credit hours of coursework.
- The school requires that students enrolled in journalism and mass communication or sports journalism majors take a minimum of 36 credit hours of the school's courses.
- The school requires that students enrolled in the mass communication and media studies, digital media literacy or the digital audiences majors take a minimum of 30 credit hours of the school's courses.
- A student may not pursue concurrent degrees in journalism and mass communication, sports journalism, mass communication and media studies, digital audiences, or digital media literacy.

Procedures for adding a concurrent degree:

1. Once a student has decided to declare a concurrent degree, they should inform the academic advisor for each degree in order to receive proper information about requirements such as degree requirements and courses.
2. When a student meets the requirements for a concurrent degree, they should contact the assigned academic advisor for each major to review and complete the university's approval process [25]. Students in the school are assigned an academic advisor [26] by the student's last name.
3. If a student no longer wishes to pursue a concurrent degree, they should email that intention to the academic advisor. The message should include the student's full name and ASU ID number, and specify the degree that the student wants to have removed from the academic record.

Any questions should be directed to Cronkiteadvising@asu.edu. [27]

Reinstatement/readmission

Students seeking readmission after being discontinued from the university should contact admission services. [28]

Graduate policies

The Walter Cronkite School of Journalism and Mass Communication is a nationally recognized professional program that prepares students for careers as reporters, editors, producers, correspondents, anchors, multimedia journalists and strategic communicators. Students go on to work for news organizations, digital media and production companies, public relations firms, nonprofit organizations and corporate brands around the world.

More information on the school's academic standards, policies and procedures can be found in the program handbook. Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies, including those of the Graduate College [29] and the Walter Cronkite School of Journalism and Mass Communication.

Admission

Candidates for the on-campus MMC, MA in investigative journalism or Master of Arts in sports journalism degrees apply online. [30]

The graduate application opens Sept. 1. Applications are reviewed on a rolling basis. Applications received before Dec. 1 are given priority for both admission and funding. The final application deadline is June 1.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

They must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate admission application and application fee
2. official transcripts
3. three letters of recommendation
4. personal statement of interest (350–500 words in length)
5. resume
6. proof of English proficiency

An applicant whose native language is not English must provide proof of English proficiency [31] regardless of their current residency. TOEFL scores must be at least 100 for the iBT® taken in a testing center.

Students should see the program website for application deadlines and admission terms [32]. Applicants must meet all deadlines and application requirements to be considered. The school's master's degree committee reviews complete and on-time applications. Recommendations for admission are made to admission services, where the final admission decisions are made.

Candidates for the online MS in digital audience strategy, offered online and at ASU's California Center in Los Angeles, apply online [30]. Candidates must submit a graduate application, application fee, resume, statement of personal interest (300–500 words) and official transcripts. An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency, with an iBT® TOEFL score greater than 100 (test taken in a testing center). The Master of Science in digital audience strategy is only available to candidates who have not completed the BS in digital audiences or the undergraduate minor in digital audiences.

Candidates for the Master of Arts in narrative and emerging media, offered at ASU's California Center in Los Angeles in collaboration with ASU's Herberger Institute for Design and the Arts, apply online [30]. Candidates must submit a graduate application, application fee, resume, statement of personal interest (300–500 words), two letters of application and official transcripts. An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency, with an iBT® TOEFL score (taken in a testing center) equal to or greater than 80.

Degree requirements

Plan of study

Graduate students are required to complete their interactive plan of study [33] (iPOS) in their first enrolled semester. This requirement is monitored by the academic unit and is considered critical to satisfactory academic progress. The plan of study is available online in the My Programs box on My ASU. [34]

The student selects the ASU courses that have been taken, those in progress and those the student plans to take in future semesters. Once the POS is completed, it is electronically forwarded to the school's graduate advisor. It must be approved by the school's director of master's degree programs. The completed POS is sent to the Graduate College and then to the graduation office. The approved POS is a contract between the student and the school, verifying the classes the student intends to take during the course of study. Students who do not have an approved POS on file are not eligible for graduation. Changes in the POS may be made by using the form Course Changes to the Graduate Plan of Study available on My ASU. [34]

Students who need to file a POS are notified by the Graduate College via email. If the student fails to file the POS within the specified period, a hold is placed on the student's ASU record. The hold prevents the student from registering for classes. Once the student has filed the POS and it has been approved, the hold is removed. The Graduate College monitors students' iPOS statuses and places or removes the holds.

Academic standing

Satisfactory academic progress

All graduate students are expected to make systematic progress toward completion of their degree. This progress includes satisfying the conditions listed below, achieving the benchmarks, and meeting the requirements set by the individual degree programs. Each degree program should have in place policies for satisfactory academic progress. Students are responsible for verifying additional satisfactory progress policies as described in the program handbook. If a student fails to meet the requirements of their degree program and the benchmarks outlined below, the student may be dismissed from their program based on the academic unit's recommendation to the Graduate College. The dean of the Graduate College makes the final determination.

1. Maintain a minimum GPA of 3.00 on the iPOS, graduate and cumulative GPAs. If a GPA is lower than 3.00, the student must develop, with their advisor, an academic performance improvement plan that includes the conditions and time frames for making satisfactory academic progress in the degree program.

The iPOS GPA is calculated from all courses that appear on the student's approved iPOS.

The graduate GPA is calculated from all courses numbered 500 or higher that appear on the transcript, with the exception of courses counted toward an undergraduate degree at ASU (unless shared with a master's degree in an approved bachelor's and master's degree program) and from courses identified as deficiencies in the original letter of admission. The student is considered to be on academic probation until the conditions specified in the academic performance improvement plan are met and both GPAs are 3.00 or higher.

The cumulative ASU GPA represents all courses completed at ASU during the graduate career.

2. Satisfy all requirements of the graduate degree program.
3. Satisfy the maximum time limit for graduation from the student's graduate degree program.
4. Students have three years from the start of their program to complete the Master of Science in digital audience strategy, six years from the start of their program to complete other Cronkite School master's degrees, and 10 years from the start of their program to complete the doctoral degree program.
5. Successfully pass any comprehensive exams, qualifying exams, foreign language exams, and the oral defense of the proposal or prospectus for the thesis or dissertation that are required for the specific graduate program.
6. Successfully complete the culminating experience and, if required, the oral defense of the culminating experience.
7. Stay continuously enrolled in the graduate program. Failing to do so without a Graduate College-approved Request to Maintain Continuous Enrollment is considered a lack of academic progress and may lead to automatic dismissal of the student from the graduate program. Persistent "W" (withdrawal) and "I" (incomplete) grades during multiple semesters on a POS or transcript may reflect a lack of academic progress.

In addition to the Graduate College satisfactory academic progress policies, the Walter Cronkite School of Journalism and Mass Communication has adopted the following:

- If any of a student's GPAs are lower than 3.00, the student is placed on academic probation. If the student's GPAs are not raised to at least 3.00 by the end of the next semester, the Cronkite School may recommend dismissal to ASU's Graduate College.
- If a student in the Master of Mass Communication, Master of Arts in investigative journalism or Master of Arts in sports journalism earns lower than a "C" (2.00) in MCO 502 Journalism Skills (Bootcamp), the school recommends to the Graduate College that the student should be removed from the program immediately.
- To receive their degrees, Master of Mass Communication, Master of Arts in investigative journalism and Master of Arts in sports journalism students who have MCO 570 Capstone as their culminating experience are required to earn at least a "B" (3.00).
- Students in the Master of Science in digital audience strategy program must earn a "B" (3.00) or higher in MCO 561 Defining the Digital Audience before enrolling in MCO 562, 563, 564 or 565. To receive their degrees, students also are required to earn at least a "B" (3.00) in MCO 566 Digital Audience Management (Capstone). To enroll in the MCO 566, students must earn a "B" (3.00) or higher in MCO 561, and a "C" (2.00) or higher in all other courses.
- Students in the Master of Arts in narrative and emerging media program should consult their program handbook for applicable policies from the Herberger Institute for Design and the Arts.

Appeals

Students who want to appeal a course grade must first discuss the issue with the instructor. If the issue is not resolved, the student may appeal the decision to the school's standards committee; the standards committee reviews the issue and makes a recommendation to the dean. The dean's decision is final. Students should be aware that the standards committee may recommend a grade lower than the one awarded by the course instructor.

If a student fails to make satisfactory academic progress, and a recommendation is made to the Graduate College to remove the student from their graduate program, the student has 10 business days to file a written appeal with the dean. The dean's decision regarding appeals is final.

Credit and registration

Transfer credit

Students admitted to the 30 credit hour, midcareer MMC program may transfer up to six credit hours of approved coursework taken before beginning the program and not used toward a previous degree; the six credit hours may include nondegree coursework. Only courses with a grade of "A" (4.00) or "B" (3.00) and taken within three years of admission to an ASU graduate program may be accepted as transfer credit.

To have graduate coursework that was completed at other accredited institutions included on a POS, a student must petition the school's master's or doctoral committee. The student also must complete the petition section of the POS.

Students who are in the 36 credit hour, professional master's degree programs are not permitted to transfer coursework from another institution or from another ASU program.

400-level courses taken for graduate credit

The Walter Cronkite School of Journalism and Mass Communication may allow graduate students to enroll in and use up to two three-credit, 400-level courses on their plans of study (a total of six credit hours). Students must receive permission from the program director prior to enrolling in any 400-level course they intend to include in their plans of study. Students taking these courses are responsible for obtaining and completing the 400-level course contract form. This form specifies what the student must do to receive graduate credit for the course. It must be signed by the professor.

Preadmission credit

Credit earned in graduate-level courses (per the Graduate College preadmission policy) by undergraduate students may count toward their graduate degrees at ASU, provided the credit hours have not been used toward a previously awarded degree. Before they are awarded a bachelor's degree, ASU undergraduate students should contact their undergraduate advisor to set aside graduate courses for use toward a graduate degree.

Reserving a course does not guarantee that the student will be admitted to a graduate degree program or that the course will be used to meet graduate degree requirements. A maximum of nine credit hours may be reserved, and only courses with a grade of "B" (3.00) or higher are applicable. Reserved credit is classified as nondegree credit and must be taken within the six-year limit to be included on a POS.

Grades of incomplete

A grade of "I" (incomplete) may be given by the instructor when a student who is otherwise doing acceptable work is unable to complete the course because of illness or other conditions beyond their control. The student must request an incomplete, [35] which must be approved by the instructor and the director of the master's degree or doctoral program.

The Graduate College requires students who receive an "I" in graduate coursework (500 level and higher) to complete the necessary work within one calendar year or a shorter time frame as agreed upon by the instructor and student. If the "I" is not removed within one calendar year, it becomes part of the student's permanent transcript and cannot be used on a student's POS. To receive credit for the course, the student must repeat the course by re-registering, paying fees and fulfilling all course requirements.

Master's degree students with more than one "I" at any time are considered failing to make adequate progress, and they are placed on probation. If the student does not complete the work to remove the "I" and earn a letter grade by the end of the calendar year, a recommendation may be made to the Graduate Collage to remove the student from the program.

With 400-level courses taken for graduate credit, students are required to complete the necessary work to remove an incomplete grade within one calendar year. If the incomplete grade is not removed within one calendar year, the "I" becomes an "E" (failing) grade. An "E" cannot be used to meet the requirements for a graduate degree, but it is used to calculate the student's GPA. Students may retake the class to earn a higher grade; however, both the "E" and the new grade are used in calculating the student's GPA. If this results in a GPA lower than 3.00, a recommendation to withdraw the student from the program is made to the Graduate College.

Other special requirements

Time limitations

Students have three years from the start of their program to complete the Master of Science in digital audience strategy, six years from the start of their program to complete other Cronkite School master's degrees, and 10 years from the start of their program to complete the doctoral degree programs.

Financial aid

Many graduate students receive financial aid from ASU [36] to assist in financing their education.

Applied project

Students enrolled in the 30 credit hour, midcareer Master of Mass Communication program have the option of completing an applied project and are eligible to enroll in MCO 593 Applied Project when they have no more than six credit hours of coursework remaining on their POS. Students interested in completing an applied project are encouraged to meet with the master's program director no later than the end of their first year in the program.

Sandra Day O'Connor College of Law policies

Academic integrity

Academic integrity code

The legal profession, a self-regulating association, depends on the integrity, honor and personal morality of each member. Similarly, the integrity and value of a Sandra Day O'Connor College of Law degree depend on a reputation for fair competition. The ASU Law Academic Integrity Code (PDF) [1] is intended as a measure to preserve the integrity of the school's diploma and to create an arena in which students can compete fairly and confidently.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [2]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [3], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [4] website.

Graduate policies

Academic standing

Retention standards - JD students

If a student's 1L GPA is above 2.00 but below 2.33 after the first year, that student is disqualified from ASU Law but may be reconsidered for readmission, if the student applies. If a student's 1L cumulative GPA is below 2.00, that student is permanently disqualified in accordance with ASU Law policies. If an upper-class student's cumulative GPA is below 2.33 (2.00 for students who started law school before fall 2020), that student is disqualified from ASU Law but may apply for readmission.

Retention standards - all students

The ASU Law JD Statement of Student Policies (PDF) [5] contains additional retention and academic policies.

Advising

Academic advising for currently enrolled law students is available through the Office of Academic Services, with designated points of contact for different degree programs.

Degree requirements

Concurrent degrees

ASU Law students must be in academic good standing to be eligible to pursue a concurrent degree.

Shared credit

Per the Graduate College policy for concurrent master's degrees, a maximum of 20% of the minimum total credit hours for the completion of both degrees may be common hours shared between the degree programs. The total number of credit hours common to both degree programs may vary from this maximum value only when the Graduate College office has formally approved coordinated degree programs.

The Graduate College policy also states that for a concurrent master's or doctoral degree, a maximum of 12 credit hours may be common hours shared between the degrees and may only include coursework completed after admission to both

degree programs. The total number of hours common to both degree programs may vary from this maximum value only when the Graduate College has formally approved coordinated degree programs.

The Graduate College policy for concurrent doctoral degrees states that a maximum of 12 credit hours may be common hours shared between the degrees. The total number of hours common to both degree programs may vary from this maximum value only when the Graduate College has formally approved coordinated degree programs.

Process

Current ASU Law Juris Doctor students who are interested in pursuing a concurrent degree should contact ASU Law's assistant dean for academic affairs or the assistant registrar prior to applying to ASU Law or the department or school offering the desired concurrent degree.

Students in one of ASU Law's master's degree programs who are interested in pursuing a concurrent degree should contact ASU Law's associate dean for new education initiatives prior to applying to the college or department or school offering the concurrent degree.

Current ASU students who are not enrolled in ASU Law and who wish to pursue a concurrent degree with ASU Law should contact the admission office. [6]

Admission process

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

JD admission

For the JD program, the Sandra Day O'Connor College of Law enrolls only one first-year Juris Doctor class per year, beginning in the fall semester. This is a three-year program, and almost all students study on a full-time basis. The college offers a flexible scheduling option for students with circumstances that make full-time enrollment impossible. To be considered for admission to the Juris Doctor program, applicants must have taken the LSAT (excluding applicants applying to the ASU Achievement Program) and have earned, by the time of enrollment in law school, a bachelor's degree awarded by an institution that is accredited by an accrediting agency recognized by the United States Department of Education.

ASU Law is committed to a more sustainable and resilient future and requires applicants to apply electronically through the Law School Admission Council website: <https://www.lsac.org/>. [7]

An application for admission must include:

1. electronic application
2. personal statement (no more than two pages, double-spaced, with 11-point or larger font size)
3. resume (no more than two pages, with 11-point or larger font size)
4. character and fitness statements; if applicable, explaining affirmative answers to questions 1-8 in the character and fitness section of the application
5. binding admission contract, if applicable
6. valid LSAT score (except applicants applying to the ASU Achievement Program)
7. transcripts from each undergraduate and graduate institution attended (must be sent to LSAC)
8. proof of English proficiency for applicants whose native language is not English, regardless of current residency

The application may also include:

- letters of recommendation — no more than two*
- inclusive excellence statement
- Arizona residency form
- optional addenda
- "elevator pitch" video

*Because letters are not required, the admission office does not wait for them to complete an applicant's file for review.

Application deadlines:

- Priority deadline: February 28, 2024
- Final deadline: July 31, 2024

Students should visit the college website for detailed information about the JD application process. [8]

The College of Liberal Arts and Sciences policies

These are the current policies in The College of Liberal Arts and Sciences.

Academic integrity

Academic honesty is expected of all students in all examinations, assignments, papers, laboratory work, academic transactions and records. More information about academic honesty is available at the academic integrity [1] website, and information about The College of Liberal Arts and Sciences policies and procedures [2] can be found at the college website.

Academic dishonesty investigation and procedures

- Anyone with a good faith basis for believing that a student has engaged in academic dishonesty may report the alleged violation to the instructor or academic integrity officer for the college or school in which the academic dishonesty occurred.
- If the instructor or academic integrity officer concludes that there is a sufficient basis to believe the student engaged in academic dishonesty, the instructor or the academic integrity officer notifies the student of the alleged violation and initiates the investigative process.
- Before concluding the investigation, the instructor or academic integrity officer provides the student a summary of the information gathered. The student has five business days after the notice is sent to respond to the allegation.
- At any point in the process, the student can contact the academic integrity officer to seek consultation or clarification.
- The student may be accompanied by an advisor at any point in the process. The advisor is not permitted to participate directly or speak for the student.
- Once the investigation is complete, in consultation with the academic integrity officer, the instructor recommends a sanction. The student is notified of the result of the investigation and of any sanction to be imposed.

Sanctions and appeal

The following sanctions may be imposed for academic dishonesty:

- reduced or failing grade for the academic evaluation
- reduced or failing grade for the course
- a grade of "XE" [3]
- withdrawal of credit for a previously accepted course or requirement
- suspension from the university for a specific period
- expulsion from the university without expectation of readmission
- other sanctions as consistent with this policy and the Student Code of Conduct [4]

At any time, the student and the instructor may agree on the sanction and inform the academic integrity officer or the dean. The academic integrity officer or the dean may reject the proposed resolution and appoint a designee to pursue the case on behalf of the college.

A student alleged to have violated the Academic Integrity Policy has the following rights:

- The student is notified of their right to appeal to the dean. The student must file their appeal no later than 10 business days after the date the notification is sent. If the student does not file a timely appeal, the sanction is final.
- A student's appeal of an allegation of an academic integrity violation or recommended sanction must be submitted in writing and include the following:
 - a description of the alleged academic dishonesty, including a factual narrative of events, the dates and times of occurrences, and any other reason that the sanction should not be imposed
 - the names of persons who have information about relevant circumstances or events
 - the general nature and description of all evidence
- If the student files an appeal, the student must meet with the academic integrity officer to discuss hearing procedures. The academic integrity officer helps the student navigate the process and provides additional information when needed.
- If the student wishes to dispute any aspect of the allegation or sanction, the student may file an appeal. If the student files a timely appeal, the sanction is not imposed until the appeal is resolved. If the student files an appeal at the end of a semester or during the last semester of enrollment, the course grade or degree may be withheld until the matter is resolved. If a grade or degree is withheld for any period, the academic integrity officer or dean must notify the Registrar's Office.

Student Affairs and Grievances Committee hearing

The academic integrity officer forwards a student's timely appeal to the instructor.

Prehearing proceedings

The academic integrity officer sends a notice of hearing to the student; instructor; The College of Liberal Arts and Sciences' Student Affairs and Grievances Committee (termed "college/school board" on the Office of the University Provost website); and the head of the college, school or academic unit where the alleged dishonesty occurred. The notice includes the following information:

- the time and place of the hearing before the Student Affairs and Grievances Committee (Unless the parties and academic integrity officer agree otherwise, the hearing takes place during the regular fall or spring semester.)
- a copy of this policy or instructions on how to access the policy electronically
- the requirement that parties provide to the academic integrity officer a written list of witnesses and a description of any documents or other evidence they intend to use at the hearing (Unless the chairperson provides otherwise, this information must be exchanged at least five business days before the hearing.)
- the length of time set for the hearing, the time limitation for the presentation of evidence, and any other procedural requirements

Conduct of the hearing

To preserve the confidential nature of the disciplinary process and to protect the privacy of those involved, the hearing is closed to the public.

The chairperson of the Student Affairs and Grievances Committee presides at the hearing and rules upon all procedural matters. The formal rules of evidence do not apply, although objections to the introduction of specific statements or documents may be considered by the chairperson. Irrelevant, immaterial, privileged or unduly repetitious information is excluded.

The instructor has the burden of showing it is more likely than not that the student engaged in academic dishonesty. The instructor must also explain the reason for the sanction. If the student accepts responsibility for academic dishonesty, then the Student Affairs and Grievances Committee may focus the hearing on the appropriate sanction.

Information regarding prior violations or informal resolutions of previous allegations may not be used as proof of a current violation but may be admitted for other purposes, such as to show that the student had prior experience relevant to the allegations or to show that the student had been informed previously that the conduct was unacceptable. The Student Affairs and Grievances Committee may also consider information regarding prior violations in determining an appropriate sanction.

A student who fails to appear or refuses to participate at the hearing is deemed to have abandoned the appeal, unless the student can demonstrate that extraordinary circumstances prevented appearance or participation.

The student and instructor may each have an advisor present, but the advisors are not permitted to address the Student Affairs and Grievances Committee directly, except as the chairperson deems necessary or appropriate.

The hearing is recorded, and the student may request a copy of the recording. The student may also request a transcript but is responsible for its cost.

Except as otherwise permitted by the Student Affairs and Grievances Committee, witnesses are excluded from the hearing except during their own testimony. The chairperson may remove a party, advisor or witness from the hearing if that person's conduct is disruptive.

When necessitated by fairness or extraordinary circumstances, the Student Affairs and Grievances Committee may permit the parties to make arrangements for recorded, written or telephonic testimony from their witnesses for use in the proceeding.

The instructor proceeds first at each stage of the presentation.

- Each party may present an opening statement, which summarizes what information is expected to be presented.
- Each party calls a witness or witnesses to provide statements under oath.
- At the conclusion of each witness's statement, they may be questioned by the other party.
- The committee may ask further questions of each witness.
- Each party may present a closing statement, which summarizes the information presented.

If the alleged academic dishonesty involves the work of multiple students, the Student Affairs and Grievances Committee may modify these procedures to address the circumstances. The college Student Affairs and Grievances Committee should provide prior written notice of any modification of the procedures to all parties. Each student must file their own appeal. A student who has not filed an appeal should not expect to benefit from another student's appeal.

College board deliberations and recommendations

Following the presentation of information and closing statements, the Student Affairs and Grievances Committee discusses the information presented and the reasonable inferences to be drawn from it. Only the committee, its legal advisor, if any, and the academic integrity officer may be present during the deliberations. Neither the student nor the instructor may be present during the deliberations.

Based solely upon the information presented, the Student Affairs and Grievances Committee formulates a recommendation to the dean as to whether the student has more likely than not engaged in academic dishonesty and the appropriate sanction. Recommendations must be supported by a simple majority of the Student Affairs and Grievances Committee.

The Student Affairs and Grievances Committee prepares and sends a written recommendation to the dean within five business days of the hearing. The written recommendation includes findings of fact and a statement of the reasons for the recommendation. It is signed by the Student Affairs and Grievances Committee chair. If the recommendation is not unanimous, dissenting opinions should be reflected in the recommendation.

Review and decision by dean

After reviewing the Student Affairs and Grievances Committee's recommendation, the dean renders a written decision that affirms, denies or accepts the Student Affairs and Grievances Committee's recommendation with modifications.

The dean may not make new findings adverse to the student or increase the severity of a sanction unless:

- The dean provides the student notice and an opportunity to respond to the new findings or sanction
- The dean remands the matter to the Student Affairs and Grievances Committee for further proceedings

The dean provides written notice of the decision to the student; the academic integrity officer; the instructor; the Student Affairs and Grievances Committee; and the head of the college, school or academic unit where the alleged dishonesty occurred within 20 business days following receipt of the Student Affairs and Grievances Committee's recommendation. A delay may occur if it becomes necessary to conduct further investigation or to remand the matter to the Student Affairs and Grievances Committee. In those cases, the written decision is transmitted no later than 20 business days following completion of the investigation or the Student Affairs and Grievances Committee's subsequent recommendation.

The dean's decision is final and may not be further appealed unless the dean recommends that the provost suspend or expel the student from the university.

If the dean recommends the suspension or expulsion of an international student, both the student and academic integrity officer should consult with the ASU International Students and Scholars Center. [5]

If the dean recommends that the provost suspend or expel the student from the university, the letter from the dean states that the student may appeal the recommendation by filing a written request for review with the provost within 10 business days of the date of the letter.

If the student does not timely appeal, the provost or designee reviews the dean's recommendation and issues a final decision on suspensions or expulsions from the university.

Review and decision of a suspension or expulsion from the university

A student may seek to have a dean's decision reviewed by the University Academic Integrity Hearing Board only if the dean recommends that the provost suspend or expel the student from the university. However, a student who fails to appeal or who abandons the appeal at the Student Affairs and Grievances Committee hearing may not appeal to the University Academic Integrity Hearing Board.

The appeal must be in writing and must be filed with the provost within 10 business days of the date of the dean's decision letter.

The provost or designee appoints and charges a University Academic Integrity Hearing Board to conduct the hearing. The board comprises three members; one member must be a student, and one of the other members acts as chairperson. The

hearing follows the procedures set forth in the Student Code of Conduct Procedures (PDF) [6], except that the college or school takes the role of the dean of students, and the provost or designee takes the role of the senior vice president for Educational Outreach and Student Services.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [7]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [8], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [9] website.

Undergraduate policies

Student responsibilities

Students enrolling in courses offered by The College of Liberal Arts and Sciences are expected to follow the rules and deadlines specified in this catalog pertaining to enrollment, adding or dropping classes, withdrawals and tuition payment.

Students are encouraged to meet with their academic advisors regularly. Students with additional questions regarding the academic rules of the college and the university are welcome to meet with their academic advisor. Academic advisor contact information and appointment scheduling tools are available on My ASU [10] under the Academic Support Team heading.

In addition, students must understand and follow the requirements for the university's general studies policy [11] and Undergraduate Graduation Requirements Policy [12] in their edition of ASU's academic catalog. The academic catalog is the governing source for all degree requirements.

Academic standing

The standards for GPA and the terms of academic warning, academic probation or continuing probation, disqualification and reinstatement are identical to those of the university, as set forth under the Retention and Academic Standards Policy. [13]

After students are placed on academic warning or probation, one of three things can happen:

1. They can return to academic good standing by raising the cumulative GPA to 2.00 or higher.
2. They can remain on probation by earning the required semester GPA of at least 2.00 but not raising the cumulative GPA to academic good standing. Students may continue on academic probation, earning the required semester GPA, for as many semesters as it takes to raise the cumulative GPA to academic good standing.
3. They can be disqualified if they fail to achieve the required semester GPA of 2.00.

Students who are under academic probation are placed in an hold that prevents future enrollment. To remove the hold, students must complete a Canvas Academic Success Planner.

Students who are placed on academic warning or academic probation are required to interact with their major academic advisor in each term they remain on continuing probation prior to enrollment in subsequent terms. Tempe students are required to take UNI 220, and online students are strongly encouraged to take the course as well.

Students who leave the university for a semester or more while on academic probation are automatically readmitted, except when reapplying to degree programs in the Hugh Downs School of Human Communication, which has specific readmission criteria. Students should review the reinstatement and readmission portion of this page for more information about policies and procedures.

Students who fail to meet the minimum semester GPA of 2.00 in the fall or spring semester after being placed on academic probation are disqualified from further attendance at Arizona State University for a minimum of one semester. Students who are academically disqualified should contact their academic advisor to discuss options for returning to ASU.

Academic advising

All students are encouraged to seek academic advising before registering for courses each semester. Academic advisor contact information and appointment scheduling tools are available on My ASU [10] under the Academic Support Team heading.

eAdvisor

eAdvisor [14] provides students with the tools to successfully follow their major maps to graduation and assists students with:

- learning more about graduation requirements for their majors
- discerning what critical requirement courses and grades are required to stay on track to successfully complete their degrees
- planning for and scheduling appropriate courses in the correct sequence to maximize success
- monitoring progress toward their degrees
- finding out how courses may fit into other majors if they decide to change majors or to add concurrent degrees

Academic advising locations

The College of Liberal Arts and Sciences continuing on-campus students and all new and continuing online students should seek academic advising in the department or school [15] of their major.

All on-campus first-year students and first-term transfer students in The College of Liberal Arts in Sciences should seek academic advising with advisors located in the Academic Advising Hub on the first floor of Armstrong Hall.

The Office of Student and Academic Programs, in Armstrong Hall, 1st floor south, is the central resource center for academic information in the college. Clarification of rules, procedures and academic advising needs of The College and university should be directed to that office. The Office of Student and Academic Programs also provides information on policies and procedures regarding academic integrity, student grievances with respect to grades, and various petitions involving college and university degree and graduation requirements.

Required advising

The following groups of students are required to consult with their academic advisor in order to be eligible to register for their courses:

- all students registering for their first semester at ASU
- first-year students registering for their second semester at ASU (Successful completion of LIA 101 class assignment meets the academic advising requirement.)
- students on academic probation or continuing probation
- students newly readmitted to the university
- students who are off track in their major

Students listed above should consult an advisor in the department or school of their major. Disqualified students seeking readmission should first apply to the university for readmission [16]. Once students have been readmitted to ASU, they should consult an academic advisor in the department or school of their major.

Advising for preprofessional programs

Professional Field	Advisor Location
Dentistry	ARM 112
Foreign Service	Diplomat in Residence, Antoinette Hurtado HurtadoAC@state.gov
Law	ARM 112

Medicine	ARM 112
Ministry	School of Historical, Philosophical and Religious Studies, COOR 3309
Occupational Therapy	ARM 112
Optometry	ARM 112
Pharmacy	ARM 112
Physical Therapy	ARM 112
Physician Assistant	ARM 112
Veterinary Medicine	ARM 112

Health professions

Students who plan to pursue a health profession should meet regularly with the preprofessional advising staff [17] located in the Futures Center (ARM 112). For each of the health-related fields listed above, specific courses must be taken to complete graduate or professional school prerequisites and to prepare for required standardized admission exams (e.g., MCAT). To schedule a meeting with a prehealth advisor, students should email prehealthtempe@asu.edu, or they can visit Handshake. [18]

Prelaw

Students who plan to pursue a law-related profession should seek guidance from the preprofessional advising staff [19] located in the Futures Center (ARM 112). There are no specific course requirements for entrance into law school. Courses that engage students in intense critical analysis and include substantial amounts of writing, however, are recommended, as are practical experiences outside the classroom (e.g., internships). Students can schedule a meeting with a prelaw advisor by emailing prelawadvising@asu.edu [20], or they can visit Handshake. [18]

Academic (grade) grievance

Academic grievances occur when a student appeals a final grade issued in a course. This process does not address academic integrity allegations, faculty misconduct or discrimination. Grievances must be resolved within the regular semester immediately following the session in which the grade was issued (by commencement for fall or spring), regardless of whether the student is enrolled at the university.

The grievance procedures of The College of Liberal Arts and Sciences are as follows:

- **Consultation with instructor:** The student questioning a course grade must first confer with the instructor, state the evidence, if any, and reasons for questioning that the grade received was given in good faith. The instructor must review the matter, explain the grading procedure used and show how the final course grade in question was determined. If the instructor is a graduate assistant and this consultation does not resolve the difficulty, the student may then take the dispute to the faculty member in charge of the course.
- **Review by department leadership:** If the grading dispute is not resolved after consultation with the instructor, the student may appeal to the department chair, director or other appropriate faculty within the department or school that offered the course. That member of the faculty may confer with the instructor to review the dispute. In most instances, the grievance procedure can be resolved after consultation with the instructor or review by department leadership and does not go beyond this level.
- **Meeting request with The College dean's office:** If the matter remains unresolved, the student may then request a meeting with a representative in The College of Liberal Arts and Sciences dean's office. To request a

meeting, the student must complete the Academic Affairs Report form [21]. Students should not submit this form until after consultation with the instructor and review by the department leadership.

After meeting with the student, the dean's representative sends an email outlining their assessment of the grievance. The dean's representative determines whether the final course grade will stand as issued, or further review of the issued grade is warranted.

Questions about this process can be directed to TheCollegeDean@asu.edu. [22]

Typically, final course grade appeals are only considered when one or more of the following criteria are met. Appeals requested for areas outside these parameters are not eligible for formal hearings and are not heard.

- There was an error in calculating the final course grade for the course.
- The criteria for determining the final course grade were changed from those specified in the syllabus.
- The evaluation system was not consistently and fairly applied to all students.

Formal process

Step 1: If directed to do so by the dean's representative, the student may, no later than 10 business days after receiving the request from the dean's representative, provide a written statement outlining the evidence, if any, and reasons for questioning that the grade was issued in good faith. Supporting materials should be attached as exhibits to the statement. The statement should be scanned, signed and submitted with all attachments as a single PDF file. Students should review the Guideline for Statements of Academic Grievance (PDF). [23]

The student's written statement must provide evidence that one or more of the circumstances occurred as part of the issuance of the final course grade:

- An error occurred in calculating the final course grade for the course.
- The criteria for determining the final course grade was changed from what was specified in the syllabus.
- The evaluation system was not consistently and fairly applied to all students.

Step 2: The dean's office provides the student's statement, with any exhibits, to the instructor and requests that the instructor provide the dean's office with a formal written response within 10 business days.

Step 3: When the written response is received from the instructor, the dean's representative contacts the student, who can then schedule an appointment to review the instructor's response.

After reviewing the instructor's response, the student may submit a written request for a hearing before The College of Liberal Arts and Sciences Student Affairs and Grievances Committee. The dean's representative determines whether the final course grade will stand as issued, or the grade appeal will be heard by the committee.

The committee is a regular committee and meets weekly during the fall and spring term when school is in session. The dean's representative serves as a nonvoting, ex-officio member of the committee.

Step 4: The committee meets with the student and the instructor in an attempt to resolve the differences. To preserve the confidential nature of the final course grade grievance process and to protect the privacy interest of those involved, the hearing is closed to the public. The committee chair presides at the hearing and rules upon all procedural matters. A student who fails to appear or refuses to participate at the hearing is deemed to have abandoned the request for a hearing, unless the student can demonstrate that extraordinary circumstances prevented their appearance or participation.

Step 5: After all parties have been heard, they are excused, and the committee deliberates in closed session. After deliberations, a member of the committee submits their written recommendation to either the graduate or undergraduate associate dean in The College of Liberal Arts and Sciences. At that time, the respective associate dean takes final action after fully considering the committee's recommendation. The associate dean informs the student, instructor, department chair or school director (if any), registrar (if appropriate), and Student Affairs and Grievances Committee of any action taken. The decision of the dean is final.

It is university policy that students filing grievances and those who are witnesses are protected from retaliation. Students who believe that they are victims of retaliation should contact the Office of University Rights and Responsibilities. [24]

For the purposes of this process, business days are defined as days the university is open.

Credits, degrees and course registration

Credit requirement

All candidates for graduation with bachelor's degrees in The College of Liberal Arts and Sciences are required to complete at least 120 credit hours, of which at least 45 credit hours must consist of upper-division courses. A minimum cumulative ASU GPA of 2.00 is required for graduation.

Minors

The College of Liberal Arts and Sciences offers minors in many of its disciplines. All minors require a minimum of 18 credit hours in the discipline, with at least 12 of those credit hours as upper-division courses. Students should work with their major academic advisors to make certain they are making the most effective choices to complete their minors. If there are additional questions regarding the minor, the major academic advisor will consult with the department offering the minor. Students may not use courses in their minors toward their majors and, similarly, students may not use courses in their majors to fill the requirements of their minors. Additionally, there may be some disciplines that are too close in content for a student to choose a particular combination of minor and major.

Course load

Undergraduate students are normally limited to 18 credit hours per fall or spring semester (or nine credit hours each in sessions A and B) and 14 total credit hours per summer session (seven credit hours each in sessions A and B; nine credit hours in session C). The typical student course load is 15 or 16 credit hours for a full 15-week semester.

Students who wish to register for more than 18 hours must meet GPA criteria based on the number of additional credit hours requested. Students should review the college's website for specific criteria, further guidelines and the course overload petition form [25]. Students meeting these requirements may seek an overload for 19 or more credit hours (or up to 10 credit hours in either session A or B) from the academic advising office in the department or school of their major.

Students should not assume that their petition for overload will be granted. Overload requests are evaluated based on the student's most recent academic performance, cumulative performance and the reasons for requesting the overload. First-year students and transfer students are not permitted to receive course overloads for their first semester at ASU.

Pass/fail grade option

The pass/fail grade option is intended to broaden the education of liberal arts and sciences undergraduates by encouraging them to take advanced courses outside their specializations. A grade of "P" (pass) contributes to a student's earned credit hours but does not affect the GPA. A failing grade of "E" is computed into the GPA.

Students in The College of Liberal Arts and Sciences with at least 60 credit hours may take courses under the pass/fail option. The following conditions apply:

- Enrollment for the pass/fail option must be approved by both the instructor and the college offering the course, as well as the student's college or school. Permission is recorded on the Pass/Fail Enrollment Application form. [26]
- Enrollment for the pass/fail option must be indicated during registration and may not be changed after the add period.
- A maximum of 12 credit hours taken for pass/fail may be counted toward graduation.

Students may not enroll under the pass/fail option in courses that are:

- taken to satisfy the second-language or first-year composition requirements
- required in the student's major, minor or certificate program
- counted toward or required to supplement the major
- counted as 499 Individualized Instruction
- taken for honors credits
- counted toward satisfying The College of Liberal Arts and Sciences graduation requirements or ASU general studies requirements

Audit grade option

Students may choose to audit courses in which they attend regularly scheduled class sessions but earn no credit. Students who wish to audit a course should obtain instructor approval before registering.

The audit grade option may not be changed after the add period.

Degree requirements

The College graduation requirements

All students in The College of Liberal Arts and Sciences must complete the university general studies requirements [27] as well as all requirements of their major. In addition, the college has established requirements that are specific to the BA, BS and BSP degrees.

Requirements for all undergraduates in The College of Liberal Arts and Sciences

All students are required to take a minimum math course of MAT 117 College Algebra or higher. A grade of "C" or higher must be earned in the chosen mathematics course.

Each student admitted as a first-time, first-year student is required to complete a first-year success course or first-year seminar. These courses are designed to introduce students to the college and help them gain an understanding of what they need to do to be successful students at ASU. Topics include academic success, academic integrity and student engagement.

Bachelor of Arts requirements

- completion of second language coursework at the intermediate level (202 or equivalent)
- a second language course at the 300 level or higher that is taught in the foreign language and has 202 or its equivalent as a prerequisite
- demonstrated completion of secondary education at a school where the language of instruction is not English
- completion of ASL 202 American Sign Language IV or its equivalent

Bachelor of Science and Bachelor of Science in Planning requirements

Each student pursuing a Bachelor of Science or Bachelor of Science in Planning degree must complete six credit hours (two courses) of science and society courses [28]. At least one course must be completed at the upper-division level. Students should consult an advisor in the department or school of their major for a list of appropriate courses.

Major requirements

Each student is required to select a major from among the fields of study offered by The College. Major maps describe the requirements for completion of each degree program.

The department or school of the major may require up to 45 credit hours of coursework. The minimum is 30 hours. A maximum of 15 additional credit hours may be required in related courses and prerequisites. No more than 60 credit hours of coursework should be required to complete the major, related courses and prerequisites. Some departments require calculus-level mathematics, and up to five of these credit hours may be excluded from the 60 credit hour maximum because they satisfy The College's mathematics proficiency requirement. A minimum of 12 upper-division credit hours in the major must be taken in residence and from courses offered by The College of Liberal Arts and Sciences.

No credit is granted toward fulfilling major or minor requirements in any upper-division course in that subject field unless the grade in that course is at least a "C." In The College of Liberal Arts and Sciences, the assignment of a grade of "Y" (satisfactory) indicates a level of performance that would have resulted in a grade of at least "C" had the normal grading scheme been used.

Students should consult program curricular maps for other minimum grade requirements.

Major fields of study are classified into the following three areas:

Humanities [29]

- Global Asia studies
- Asian languages (Chinese/Japanese)
- culture, technology and environment
- English*
- film and media studies
- French
- German
- history*
- international letters and cultures
- Italian

- Jewish studies
- philosophy
- religious studies
- Russian
- Spanish

Natural sciences and mathematics [30]

- actuarial science
- astronomical and planetary sciences
- biochemistry
- biological sciences
- biophysics
- chemistry
- computational mathematical sciences
- data science
- earth and environmental sciences
- earth and space exploration
- mathematics
- microbiology
- molecular biosciences and biotechnology
- neuroscience
- physics
- psychology
- technological leadership

Social sciences [31]

- African and African American studies
- American Indian studies
- American studies
- anthropology
- applied mathematics for the life and social sciences
- Asian Pacific American studies
- civic and economic thought and leadership
- communication
- economics
- family and human development
- gender, women and sexuality studies
- geographic information science
- geography
- global health
- global studies
- justice studies
- meteorology-climatology
- political science
- politics and the economy
- sociology
- transborder Chicana/o and Latina/o studies
- urban planning

*These degree programs offer a concentration in secondary education.

General electives

Most liberal arts and sciences majors can meet all the requirements stated above with fewer than the 120 credit hours required for graduation. Remaining hours are general electives that may be selected from any of the departments of The College of Liberal Arts and Sciences or from the offerings of other ASU schools and colleges.

Concurrent and second baccalaureate degrees

To complete a second baccalaureate degree or concurrent degree, students must earn at least 30 unique credit hours applied toward the requirements for each major's degree.

Specific combinations of degrees [32] may be deemed inappropriate.

Pursuing a concurrent degree in The College of Liberal Arts and Sciences requires approval. To request pursuit of a concurrent degree, students must have completed at least 30 credit hours, have completed at least one fall or spring semester at ASU, and have a minimum GPA of 2.00. Students should visit the college's concurrent degree checklist [33] for more information on pursuing a concurrent degree.

Reinstatement/readmission

Students who have been academically disqualified from the university and have not attended for at least one regular semester can earn readmission [16] to the college and to their majors. The first step for students seeking readmission is to complete the undergraduate admission application [34]. Students should work with the academic advisor in the desired major to discuss a plan and strategies for being readmitted to ASU. The plan may include taking coursework at a two-year college or ASU summer classes, or both, and meeting specific GPA requirements to demonstrate readiness to return to ASU.

Disqualified students who were off track for two or more semesters at the time of their disqualification are not automatically readmitted into their former majors.

Graduate policies

Students should consult their program handbooks or the individual school or department for information about requirements for graduate study.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all policies set forth by the Graduate College [35] and The College of Liberal Arts and Sciences. Any questions in regard to graduate policies for the college can be directed to TheCollege-Grad@asu.edu. [36]

Edson College of Nursing and Health Innovation policies

The Edson College of Nursing and Health Innovation may need to implement new policies, protocols and procedures to comply with accreditation, regulatory or clinical health care agency requirements; therefore, policies, protocols and procedures are subject to change. Students should confirm current policies, protocols and procedures for clinical placements with the respective student handbook. [1]

Students should contact the college's Student Academic Services office at 602-496-0888 or edsoncollege@asu.edu with any questions on college policies.

Academic and professional integrity

Academic honesty is expected of all students. The Edson College of Nursing and Health Innovation adheres to the ASU Student Code of Conduct [3], the ASU Academic Integrity Policy [4], and the college academic and professional integrity protocol located in student handbooks [5]. Academic dishonesty is not tolerated in any course and is subject to specific Edson College of Nursing and Health Innovation policies and procedures. Possible sanctions include appropriate grade penalties, disqualification and dismissal.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [6]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [7], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [8] website.

Equal access

Students with a disability who have need of assistance or special accommodations can find information about support and access as well as contact information through Student Accessibility and Inclusive Learning Services [9]. Students requesting accommodations for a disability must register with SAILS and must submit appropriate documentation to the instructor from SAILS. For more information, students are asked to review ASU policy SSM 701-02: Eligibility for Accommodations--Required Disability Documentation. [10]

Undergraduate policies

Academic standing

University standards for academic good standing [11] are followed for all majors in the college. Students who do not maintain the minimum GPA after each fall or spring semester are placed on academic probation. Students on academic probation or continuing probation must meet with an academic advisor before registering for the subsequent semester. Students placed on academic probation have one semester to raise their cumulative or semester GPA to meet the criteria for academic good standing; otherwise, they may be disqualified. Disqualified students are not permitted to enroll for the fall or spring semesters.

- **University academic warning:** An undergraduate student with a cumulative GPA lower than 2.00 at the end of their first semester (fall or spring) is considered to be in the status of university academic warning.
- **University academic probation:** An undergraduate student is placed on university academic probation if, at the end of a semester (fall or spring) that is not the student's first semester at ASU, the student has a cumulative GPA lower than 2.00, or the student received an academic warning in the prior term.
- **Continuing probation:** A student is said to be on university continuing academic probation each semester (fall or spring) that student (previously on university academic probation) earns a semester GPA higher than 2.00 but has a cumulative GPA lower than 2.00.
- **Disqualification:** A student on university academic probation who does not earn a semester GPA of 2.00 or higher (fall or spring) is disqualified. Students who are disqualified are not permitted to enroll at ASU in any subsequent fall or spring semester unless they are readmitted.

eAdvisor tracking [12] focuses on students who initially enroll as full-time, first-year students, and the tool tracks their progress during their first four semesters. It identifies and outlines the critical courses, GPA requirements and milestones that predict success in each major. Students use major maps and progress reports to plan which courses to take each semester.

Students who do not meet critical requirements are notified they are off track, and this off-track status is displayed on My ASU [13]. Off-track students are required to see an academic advisor before registering for or adding classes. Students who are off track for two consecutive semesters may be required to change majors, depending on the major. Students in the BSN nursing traditional prelicensure clinical nursing program, in alignment with continuing eligibility criteria, are required to change their major if they are off track for one semester.

Students pursuing the RN to BSN or concurrent enrollment program or who are enrolled as a postbaccalaureate student (pursuing a second degree) are not critically tracked.

Advising

Academic advising is an essential aspect of the educational experience and is provided by the college through the Student Academic Services office. Academic success advisors assist students with program planning, registration, preparation of petitions, verification of graduation requirements, referrals to university and community resources, and career planning. It is ultimately the responsibility of each student to fulfill academic and program requirements.

ASU accepts coursework transferred from other accredited institutions, and the Edson College of Nursing and Health Innovation determines if and how the courses will be applied.

To learn more about how to meet with an advisor, students can visit Edson College Advising. [14]

Mandatory advising

Advising is required for:

- newly admitted students (all first-year students and new undergraduate transfer students) before registering for courses for the first term
- students who are not making satisfactory progress (academic warning, probation, continuing probation and off-track); these students are required to meet with an academic advisor to plan strategies for improving academic standing

Credit and registration

Course load

Students who wish to register for more than the maximum allowable credits in a term must contact their academic advisor to request an overload before registration. Their assigned advisor will review the criteria for review of any overloads.

All upper-division nursing courses must be taken for a letter grade, except for selected clinical courses in the prelicensure program that are taken for "P" (pass) or "Y" (satisfactory).

Degree requirements

Nursing course grades and currency

Students in nursing programs must earn grades of "C" (2.00) or higher in all nursing coursework, except in nursing practice courses in which a designation of a "Y" (satisfactory) or "P" (pass) grade is required. In addition, students are allowed only one nursing course failure (i.e., grade below "C"). The second failure in a nursing course results in disqualification from the nursing major.

For the traditional prelicensure and accelerated clinical nursing pathways, the science courses CHM 101, BIO 201, BIO 202, MIC 205, MIC 206, and HCR 240 must be current (i.e., completed within seven years of the program start date).

Undergraduate and prelicensure graduate nursing courses (prefix: NUR) expire after five years. After course expiration, students must re-enroll in the course and must earn a grade of "C" or higher. Students may earn university elective credit or general studies credit for the original course.

Concurrent degrees

Concurrent degrees are multiple degrees with one conferral date. The student receives both degrees at the same time regardless of whether coursework for one degree is completed prior to the other degree. To pursue concurrent degrees, students must be in good academic standing.

A student desiring to pursue a concurrent degree program must submit a request [15] to add the concurrent degree.

The Edson College of Nursing and Health Innovation reviews the student's concurrent degree request. Concurrent degrees may not be from the same discipline or have significant overlap in the courses required for each major.

Both a student's current school and college and the one offering the degree program being requested must approve the request. Fully approved requests are forwarded to the university registrar for notation on the student's record.

To remove a concurrent degree, the student should email edsoncollege.advising@asu.edu [16]. The email should include the student's full name and ASU ID number and specify the degree that the student wants to remove from the academic record. The student must indicate if they wish to retain any minors they are pursuing.

Reinstatement/readmission

Undergraduate students disqualified from ASU must follow the procedures for readmission [17]. Applications for reinstatement and readmission are subject to rigorous requirements that reflect admission and progression standards.

Other special requirements

Special note: The Edson College of Nursing and Health Innovation periodically needs to implement new policies, protocols and procedures to comply with accreditation, regulatory or clinical health care agency requirements; therefore, policies, protocols and procedures with respect to clinical placement are subject to change. Students should confirm current policies, protocols and procedures with the student handbooks. [1]

Professional licensure

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Because certification and licensure requirements vary by profession and from state to state, students should review professional licensure information [18] to determine if a program meets educational requirements for licensure or certification in a specific state; state licensing contact information also is available on the website.

State authorization

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual SARA states in accordance with the council's established policies and standards. California does not participate in SARA, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions offering in-person and online education from Arizona. ASU may offer educational activities in California. There are some exceptions for specific programs [19] at Edson College of Nursing and Health Innovation.

Graduate policies

Additional policies

Academic advising

Prospective graduate students may receive information through the college recruitment office at 602-496-0937 or edsoncollege@asu.edu [2]. Upon admission, each student is assigned an advisor within the degree program.

Handbooks

Students should review the student handbooks [1] for the Edson College of Nursing and Health Innovation for information regarding graduate academic procedures and protocols.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies, including those of the Graduate College [20] and the Edson College of Nursing and Health Innovation.

Watts College of Public Service and Community Solutions policies

Watts College of Public Service and Community Solutions believes students are its greatest resource. It strives to put the well-being of students at the center of every policy and program. Each student situation is unique, and students are encouraged to work directly with the advising staff to address concerns and issues within the stated policies and procedures.

Academic integrity

Watts College of Public Service and Community Solutions' academic integrity process models the ASU process [1]. Students can find more information about academic integrity at the Watts College website. [2]

Academic grievances

Students who have academic grievance issues should review the college's grievance process [3] for more information on the process, including next steps.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment, and Retaliation. [4]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [5], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [6] webpage.

Undergraduate policies

Academic standing

Students in the Watts College of Public Service and Community Solutions are considered to be in good standing for the purpose of retention if they maintain a cumulative GPA of 2.00 or higher in all courses taken at ASU. Certain majors within Public Service and Community Solutions may require a progressively higher GPA than 2.00 as a student advances toward their degree. These requirements are outlined in the student's major map.

Changing majors

A student changing their major to one offered by the Watts College of Public Service and Community Solutions should have a GPA of 2.00 or higher.

Probation

Any student who does not maintain good standing is placed on academic probation. A student on academic probation is required to observe any limitations or rules the college may impose as a condition for retention.

Disqualification

A student who is on probation becomes disqualified if either of the following occurs:

- The student has not returned to good standing.
- The student has not met the required semester GPA.

Disqualification is exercised at the discretion of the college and becomes effective on the first day of the fall or spring semester following college action. A disqualified student is notified by the college and is not allowed to register for a fall or spring semester at the university until reinstated. A student who is disqualified may not attend as a nondegree student.

Advising

The mission of Watts College of Public Service and Community Solutions' professional academic advising staff is to assist students in developing meaningful educational plans for meeting their academic, career and personal goals. This is done through an ongoing process of evaluation and clarification. The advisors strive to perform their duties in a professional, ethical, confidential, accurate and supportive manner, respecting student diversity and needs and always holding the individual in the highest regard. The student and advisor should accomplish this process in a spirit of shared responsibility to help the student develop academic excellence, strong decision-making skills and self-reliance. A student who has been admitted to Watts College of Public Service and Community Solutions works with professional advisors and student services staff with expertise in the student's major area of study. Questions about advising should be directed to the student's advising team or to the Public Service and Community Solutions student services office.

Contact information for college advising can be found at the college's advising page. [7]

Mandatory advising

Students in the following categories are required to receive advising and be cleared by a program advisor before they may register for classes:

- all first-year students
- all students majoring in social work
- readmitted students
- students on probation
- students who have been disqualified
- students with admission competency deficiencies
- students with special admission status
- transfer students in the first semester at ASU

Credit and registration

Course load

A normal course load per semester is 15 or 16 credit hours. The maximum number of credit hours for which a student can register is 18 (fall or spring semesters) unless an overload petition has been approved by the department or school standards committee and dean or dean's designee.

Semester course loads may be further limited for students in mandatory advising status. Petitions for overload ordinarily are not approved for students who have a cumulative GPA lower than 3.00 and who do not state valid reasons for the need to register for the credits.

Students who register for an excess of 18 credit hours and do not have an approved overload petition on file may have courses randomly removed through an administrative drop action. Specific degree requirements are explained in detail under the respective college, school and department sections.

Withdrawal

Medical or compassionate withdrawal

Medical or compassionate withdrawals may be considered when incompletes or other arrangements with instructors are not available or when restricted withdrawals and other enrollment options are not possible.

To receive a medical or compassionate withdrawal, students must:

1. Fill out this form [8] to request an medical/compassionate withdrawal form.
2. Gather all documentation.
3. Review financial implications [9] and confer with financial aid. [10]
4. Fill out the DocuSign when it is sent out.
5. Email all supporting documentation to publicservicemcw@asu.edu [11] or attach directly to the DocuSign form.
6. Wait 7-10 business days for processing and monitor MyASU for changes.

Watts College only allows up to three medical or compassionate withdrawals over the course of a degree program. Multiple requests for the same circumstances using the same documentation will not be approved. In order for a new request to be considered for the same circumstances, substantial new information or documentation will be required.

A medical withdrawal may be requested when extraordinary circumstances, such as a serious illness or injury, prevent the student from continuing classes. This policy covers both physical-health and mental-health difficulties.

A compassionate withdrawal may be in extraordinary cases in which a significant personal situation, (for example, the serious illness of a child or spouse or the death of a close family member) prevents a student from continuing in classes.

More information about the required documentation components can be found on the college website. [12]

Degree requirements

Interdisciplinary public service requirement

Watts College of Public Service and Community Solutions has a college-level graduation requirement for all undergraduate students majoring within the college. This degree requirement is called the interdisciplinary public service requirement. Each student must complete coursework from other schools within the college. Students may choose a core course from their major and two courses from the approved course list for this requirement, in addition to completing ASU 101-CPP The ASU Experience, which must be completed in the first year at ASU; the other courses can be taken while completing the degree. The approved course list for each catalog year is available on the major map. Questions about this requirement should be directed to the academic advisor for the major.

Solution-based learning requirement

Watts College of Public Service and Community Solutions has a second college-level graduation requirement for all undergraduate students majoring within the college. This degree requirement is called the solution-based learning requirement. Each student must complete coursework from their school or another school within the college that has an SBL designation. Students must choose a course from the SBL list to meet this requirement. The approved course list for each catalog year is available on the major map. Questions about this requirement should be directed to the academic advisor for the major.

Concurrent degrees

Watts College of Public Service and Community Solutions supports students who wish to pursue concurrent degrees. Students earn a separate diploma for each degree. Degrees may not be too closely related and are reviewed by an academic advisor during the approval process.

The structure of a student's academic program is customized to meet degree requirements for both programs of study. Students are encouraged to meet with an academic advisor from each degree to establish a feasible program of study and to start the concurrent degree approval process. If a student is adding a concurrent major from outside the college, the university approval process [13] must be completed for both Watts College of Public Service and Community Solutions and the college of the other major.

Reinstatement/readmission

Students seeking reinstatement after disqualification should contact Watts College of Public Service and Community Solutions student services office regarding procedures and guidance for returning to good standing. When reinstatement includes readmission, application must be made through the ASU readmission process [14]. All academic disciplinary action is the function of the Watts College of Public Service and Community Solutions student services office under the direction of the dean of the college. Students who are having academic problems should contact Watts Advising at 602-496-1658 or the college's academic advising page. [7]

Graduate policies

Advising

Advising is usually handled by a professional academic graduate advisor, graduate faculty or a committee. Once admitted, each student is typically assigned an advisor in their degree's department; this advisor assists in planning a course of study. For degree programs that require the completion of a thesis or dissertation, a chairperson and thesis or dissertation supervisory committee is selected by the student, approved by their degree program's director of graduate studies, and appointed by the dean of the Graduate College. Each graduate degree program in Watts College of Public Service and Community Solutions has its own set of policies regarding academic performance expectations. Students should contact their graduate advisor to review policies relevant to their degree.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies, including those of the Graduate College [15] and Watts College of Public Service and Community Solutions.

Mary Lou Fulton Teachers College policies

ASU's Mary Lou Fulton Teachers College creates knowledge, mobilizes people and takes action to improve education. Faculty create knowledge by drawing from a wide range of academic disciplines to gain insight into important questions about the quality of teaching and learning and the performance of education systems. The college mobilizes people through bachelor's, master's and doctoral degree programs; through nondegree professional development programs; and through socially embedded, multilateral community engagement. Mary Lou Fulton Teachers College takes action by bringing people and ideas together to increase the innovation capabilities of individual educators, schools and organizations, districts and communities.

Mary Lou Fulton Teachers College embraces a core value of principled innovation by holding itself accountable to three imperatives:

Economic imperative: To prepare learners for the next economy.

Democratic imperative: To prepare students to become part of an educated citizenry capable of assuming the responsibilities of self-government and of participating in a thriving civil society.

Equity imperative: To deliver equitable and excellent education to all learners.

For more information, students should visit the Mary Lou Fulton Teachers College [1] website.

Academic integrity

No matter the stage of educational or professional career pursuits, acting with integrity is a cornerstone of leadership and good citizenship. Integrity is a character-driven commitment to honesty, acting in accordance with professional ethical behavior, and guiding others to do what is right. Arizona State University students are expected to act with integrity in their educational pursuits.

Violations of academic integrity fall into five broad areas:

1. cheating on an academic evaluation or assignment
2. plagiarizing
3. engaging in academic deceit, such as fabricating data or information
4. aiding others in academic integrity policy violations or inappropriately collaborating
5. falsifying academic records

At ASU, academic integrity is expected of all students in all examinations, papers, projects, academic transactions and records, including student and apprentice teaching reporting. The possible sanctions include appropriate grade penalties, loss of registration privileges, disqualification and dismissal. ASU strictly adheres to the Student Academic Integrity Policy. [2]

The academic integrity officer [3] handles all questions and concerns related to academic integrity violations in the Mary Lou Fulton Teachers College. Both students and faculty can contact the academic integrity officer to report an academic integrity violation or to ask questions related to academic integrity policies and procedures.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [4]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [5], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [6] website.

Satisfactory academic progress and professional conduct policy

To remain in good standing in Mary Lou Fulton Teachers College, students must maintain satisfactory academic progress consisting of both standards of academic performance and adherence to the Teachers College Professional Disposition Standards, as described in this policy. This document sets forth the standards and expectations for “satisfactory academic progress” and “good standing” and explains the consequences of failure to meet these standards. This policy applies to both undergraduate students and graduate students in the Mary Lou Fulton Teachers College.

In addition to the policies stated herein, students are expected to abide by applicable university and Arizona Board of Regents policies, including the Student Code of Conduct [7], the ASU Academic Integrity Policy [2], ASU Graduate College policies and procedures [8] (for graduate students), as well as all policies, procedures, rules, regulations and requirements established by the local education agency, school district and school in which they are engaged in field experience or student teaching (for certification students). Failure to do so may lead to consequences that include dismissal from the program and expulsion from the university. Graduate students should also refer to the ASU Graduate College [9] website for further information about Graduate College policies.

Section I: MLFTC standards of academic performance

A. Satisfactory academic progress

Advisors conduct ongoing reviews of students’ academic performance to determine retention and continuation status. Students with records containing indicators of academic concerns may be placed on academic probation or may be dismissed (permanently removed) from their programs or the college. (Graduate students should refer to ASU Graduate College policies.)

To meet satisfactory academic requirements, all MLFTC students must:

1. Maintain minimum GPA as follows:
 - **Undergraduate students** in teacher preparation programs must maintain an overall cumulative GPA of 2.25 or higher. Students enrolled in the educational studies program must maintain an overall cumulative GPA of 2.00 or higher.
 - **Graduate students** must maintain at least a 3.00 on the following three GPAs every semester.
 - Plan of study GPA. The plan of study GPA is calculated on all courses that appear on the student’s approved iPOS.
 - Overall graduate GPA. The overall graduate GPA is calculated on all courses numbered 500 or higher that appear on the transcript, except courses that counted toward an undergraduate degree at ASU (unless shared with a master’s degree in an approved bachelor’s/master’s degree program) and courses identified as outstanding in the original letter of admission.
 - Cumulative GPA. The cumulative GPA represents all courses completed at ASU during each graduate career. Students completing one graduate program and beginning another (including certificates) have their cumulative GPA “reset” to begin again.
2. Achieve specific course grades as outlined below:
 - **Undergraduate students** should refer to their major map, which outlines courses requiring a minimum “C” grade.
 - **Master’s degree and graduate certificate students** must earn a grade of “B” or higher in culminating experience courses (applied project, thesis, capstone, etc.)
 - **Doctoral students** carrying more than three credits of “I” grades are considered as not making satisfactory academic progress.
3. Pass all required professional experiences, including traditional and job embedded internships, and student teaching, with a grade of “C” or higher.
4. Maintain good standing as outlined in the professional responsibilities standards section.
 - Students who violate professional responsibilities may be placed on academic probation or suspension, or they may be recommended for dismissal.
5. Graduate students must remain continuously enrolled in their graduate program. Failing to do so without a Graduate College-approved leave of absence is considered lack of academic progress and may result in the Graduate College withdrawing students from the program. See the complete Graduate College leave of absence policy for more details.
 - Students may maintain continuous enrollment through any of the Graduate College approved methods. However, multiple semesters of enrollment in continuing registration (595, 695, 795) may be considered lack of academic progress.
6. Doctoral students must pass comprehensive exams by the end of the sixth academic-year semester of enrollment; pass a proposal defense by the end of the seventh academic-year semester of enrollment; and pass a dissertation final defense by the end of the 11th academic-year semester of enrollment.

7. All graduate students must satisfy the maximum time limit for graduation for the student's graduate program (six years for master's degrees and certificates, 10 years for doctoral degree); see the "Time Limit" section of the Graduate College Policy Manual.
 - o Students who are in danger of not meeting the maximum time limit for degree completion are considered not meeting satisfactory academic progress and may be placed on academic probation.

The following applies to students enrolled in 4+1 accelerated programs:

Students enrolled in a BAE to master's accelerated program are considered undergraduate students until all undergraduate requirements have been met. Undergraduate students enrolled in the accelerated program are eligible to enroll in graduate-level courses and seminars. However, they are not eligible for most graduate prerequisites, including teaching and research assistantships and related health insurance, financial aid or graduate award programs until the undergraduate degree is completed.

Students are reviewed on an ongoing basis to ensure academic progress in both bachelor's and master's degree requirements. In addition to the requirements outlined above for undergraduate and graduate students, students enrolled in an accelerated master's degree program must meet the following requirements:

- Undergraduate students in an accelerated bachelor's/master's degree program prior to the awarding of their undergraduate degree must complete all their bachelor's degree requirements and graduate with their undergraduate degree within 12 months of the first day of the semester for which they were admitted to the accelerated program.
- Undergraduate students must maintain a 3.00 cumulative GPA from the time they apply to the program (at 75 credit hours completed in the BAE in educational studies degree) to the time they begin taking graduate courses (at 90 credits completed in the BAE in educational studies degree). A student must continue to maintain a GPA of 3.00 in all coursework. If a student's GPA drops below 3.00 between the time they are admitted to the accelerated program and the time they begin their coursework, their admission to the accelerated program may be revoked.
- If the student's GPA drops below the 3.00 requirement once the student has started the accelerated program, the student falls under the policy for graduate students. The student is still allowed to complete their undergraduate degree but is no longer able to complete the graduate degree as part of the accelerated program.

B. Unsatisfactory academic progress

Undergraduate Students

Mary Lou Fulton Teachers College academic probation is imposed when an undergraduate teacher preparation student has a cumulative GPA below 2.25 or when an educational studies student has a cumulative GPA below 2.00. An undergraduate student placed on academic probation is required to meet with the MLFTC coordinated care strategist to develop a support plan.

College academic suspension is imposed after an undergraduate teacher preparation student has been on academic probation (a cumulative GPA below 2.25) for two consecutive semesters. An undergraduate student placed on academic suspension may not progress to the next term until deficiencies have been resolved. Students on academic suspension are required to meet with the MLFTC coordinated care strategist to develop a support plan.

Graduate Students

Students should carefully review ASU Graduate College policies [10], which apply in addition to the college policies. Students should pay special attention to the policies regarding GPA, time limit for degree completion, and continuous enrollment.

Deficiencies for graduate students include:

1. A plan of study GPA below 3.00.
2. An overall graduate GPA below 3.00.
3. A cumulative GPA below 3.00.
4. A grade below "C" in any required course. Students must repeat a course with a grade below "C" the following semester it is offered and earn a "C" grade or higher. Failure to achieve a "C" or higher on the second attempt may result in recommendation for dismissal from the program.
5. A grade below "B" in a culminating experience (applied project, capstone, thesis, etc.). Students must repeat a culminating experience course with a grade below "B" the following semester it is offered and earn a "B" or better.
6. A grade of "I" or "W" in a required course, or carrying more than three credits of "I" for students in doctoral programs.

Graduate students who are placed on academic probation may not be permitted to complete culminating experiences (applied project, etc.) until they return to good standing. Doctoral students must be in good academic standing to complete comprehensive exams or to schedule oral defenses.

Note: Students may not be approved for traditional or job embedded student teaching if they are on academic probation or academic suspension.

Professional experience deficiencies — undergraduate and graduate students

The following policies apply to both undergraduate and graduate students enrolled in initial teacher certification or administrator certification programs.

1. A student who fails an internship or student teaching course (for reasons other than a placement release) may be allowed to retake the internship one time if the reasons for failure are determined by college leadership to be remediable. If a student is permitted to retake the internship or student teaching and fails to pass the second time, the student may be dismissed from the teacher or administrator certification program.
2. A student who withdraws from an internship or student teaching course for reasons other than an approved medical or compassionate withdrawal is required to meet with an academic advisor or success coach to develop a support plan. Repeated withdrawals from a professional experience course or internship may result in a recommendation for dismissal from the program.
3. In some cases, concerns occurring in the field may be untenable. These may include actions that cause the sponsoring school district or other organization to request a placement release or termination from an internship or student teaching placement. Reasons include violations of professional disposition standards; violations of ASU code of conduct, district policy, or state or federal law; or other behavior deemed inappropriate. The associate director of Teacher Preparation determines, based on information from the university supervisor, the mentor teacher, the school district, other sponsoring organization and the student, whether the student's actions warrant immediate dismissal from the teacher or administrator certification program without benefit of a period of academic probation or the student will be provided another attempt to pass.
4. A student whose paid professional experience placement is terminated by the school district for reasons unrelated to performance, such as a reduction in force, will not be recommended for academic probation or involuntary withdrawal on that basis alone. However, if the student does not secure another full-time teaching position, the student must complete the degree and certification requirements by transferring to a traditional certification pathway and successfully completing the requirements of that program. Professional experience coursework completed in the alternative pathway before loss of employment may apply to the traditional pathway with approval of the program.

Note: Students enrolled in the Applied Behavior Analysis Practicum (SPE 580) must follow the policies and procedures found in the ABA Practicum Handbook provided as part of the course.

C. Reinstatement to good academic standing

To be restored to good academic standing:

1. A student must improve GPA and course grades to meet the academic performance requirements. Graduate students must meet the academic performance requirements of MLFTC and academic progress requirements outlined by the Graduate College.
2. Students must meet the expectations of any individualized growth plan related to satisfactory academic progress or professionalism while in the program.
3. Graduate students must meet satisfactory academic progress requirements as stated by the Graduate College.

Note: A student on academic probation or academic suspension for lack of satisfactory progress in one area (e.g., academic progress or professional responsibilities) who subsequently fails to maintain good standing in the other area will be recommended for dismissal. Return to good standing requires satisfactory progress in both areas during the time on probation. Sequential semesters of probation for repeated failures to maintain satisfactory progress will not be considered.

D. Academic integrity

No matter the stage of educational or professional career pursuits, acting with integrity is a cornerstone of leadership and good citizenship. Integrity is a character-driven commitment to honesty, acting in accordance with professional ethical behavior, and guiding others to do what is right. Arizona State University students are expected to act with integrity in their educational pursuits.

Violations of academic integrity fall into five broad areas:

1. Cheating on an academic evaluation or assignment
2. Plagiarizing

3. Engaging in academic deceit, such as fabricating data or information
4. Aiding others in academic integrity policy violations or inappropriately collaborating
5. Falsifying academic records

At Arizona State University, academic integrity is expected of all students in all examinations, papers, projects, academic transactions and records, including student teaching reporting. Possible sanctions include appropriate grade penalties, loss of registration privileges, disqualification and dismissal. ASU strictly adheres to the academic integrity policy. This policy sets forth the ASU Student Academic Integrity Policy [2] and appeal procedures.

The Academic Integrity Officer handles all questions and concerns related to academic integrity violations in the Mary Lou Fulton Teachers College. Both students and faculty can contact the Academic Integrity Officer [3] to report an academic integrity violation or to ask questions related to academic integrity policies and procedures.

Section II: MLFTC standards for professional disposition

The professional dispositions are the essence of what the college believes to be the ideal of educator professionalism. These dispositions are pieces of ourselves that contribute to the moral and ethical decision making — the practical wisdom — necessary to uphold policies, laws and regulations that are relevant to professional educator conduct, as well as to navigate moral dilemmas that arise in education that have no clear, right answer and cannot be solved by simple adherence to policies and procedures. These educator dispositions also guide the personal and professional practices that support the well-being of students, colleagues and ourselves. As professional educators, the school is committed to developing and demonstrating these dispositions through the eight practices of Principled Innovation® [11]. Mary Lou Fulton Teachers College embraces Principled Innovation® as its core value. Principled Innovation® informs how the school does everything, from navigating large-scale systems change to the everyday decisions that affect the lives and learning of other people. The moral, civic, intellectual and performance dispositions at the heart of Principled Innovation®, also referred to as character assets [11], are the essence of the ideal of educator professionalism.

A. These professional dispositions are assessed by faculty, staff, cooperating teachers, school districts and community partners.

All MLFTC students are expected to demonstrate the following:

Disposition 1: demonstrating professional practice and demeanor

Evidenced by:

1. knowing and upholding the policies, laws and regulations relevant to professional educator conduct in the classroom, in the field and in the profession, regardless of one's personal views
2. adhering to the ASU Student Code of Conduct
3. monitoring and maintaining sound mental, physical and emotional health necessary to perform duties and services in any professional environment and taking appropriate measures when personal- or health-related issues may interfere with work- or program-related duties and responsibilities
4. refraining from professional or personal activity that may lead to reducing one's effectiveness in the classroom or community
5. taking responsibility and credit only for work actually performed or produced and acknowledging work and contributions made by others
6. appropriately recognizing others' work by citing data or materials from published, unpublished or electronic sources when disseminating information

Disposition 2: receive and act upon professional feedback

Evidenced by:

1. reflecting upon and assessing one's professional skills, content knowledge and competency on an ongoing basis
2. accepting the responsibilities, performing duties and providing services corresponding to the area of certification, licensure and training of one's position
3. using the ethical code of conduct unique to one's discipline to guide and frame educational decision-making
4. conducting research in an ethical and responsible manner with appropriate permission and supervision

Disposition 3: communicate and collaborate with others in a positive and professional manner

Evidenced by:

1. respecting the dignity, worth and uniqueness of each individual, including actual and perceived gender, gender expression, gender identity, civil status, family status, sexual orientation, religion, age, disability, race, ethnicity, socioeconomic status and culture

2. engaging in professional communication with others in a clear, respectful and culturally sensitive manner in physical or virtual spaces
3. using technology, including social media, responsibly, transparently and primarily for purposes of teaching and learning per school and district policy and considering the ramifications of using social media and indirect communication via technology on one's interactions with students, colleagues and the general public
4. establishing and maintaining an environment that promotes the emotional, intellectual and physical safety of all students

Note: This is not an exhaustive list of all of the professional dispositions required of educators, and not all examples are included.

Key terminology

Term	Definition	Highlights in practice
Civility [12]	Treating others with sincere respect and as members of a shared community, including those who may challenge our beliefs or opinions.	<ul style="list-style-type: none"> • Talk to people you disagree with, even when it is challenging or uncomfortable • Create inclusive environments where people can voice a variety of opinions • Stay engaged through difficult conversations to create deeper understanding
Collaboration [13]	The act of working together toward a common goal.	<ul style="list-style-type: none"> • Create a sense of psychological safety to engage a diverse set of perspectives • Develop shared goals and work together to overcome obstacles and setbacks • Reflect in a group setting to learn more from shared experiences
Critical thinking [14]	The process of refining our beliefs through analysis, interpretation of evidence, inference, explanation, self-regulation, open-mindedness and problem solving.	<ul style="list-style-type: none"> • Analyze and assess our own beliefs and those of others • Explore and evaluate new information, perspectives and ideas • Be open to changing our minds in response to new or conflicting information

<p>Fairness [15]</p>	<p>The equitable, just and reasonable treatment of others according to their needs.</p>	<ul style="list-style-type: none"> • Create solutions that result in equitable and just outcomes • Consider how our decisions and actions will affect a wide variety of people • Seek to understand our community's values around what fairness looks like
<p>Honesty [16]</p>	<p>Being open, trustworthy and truthful in a sincere and straightforward way.</p>	<ul style="list-style-type: none"> • Gain clarity on issues that might be hard for us to consider or hear • Say what needs to be said by communicating with empathy, civility and courage • Seek to understand others' perspectives and be willing to admit when we are wrong
<p>Humility [17]</p>	<p>Being honest with ourselves about what we can offer, acknowledging that there's always more to learn, with a genuine desire to advance the best interests of the community.</p>	<ul style="list-style-type: none"> • Use self-reflection and honesty to accept our strengths and weaknesses • Recognize the limits of our own knowledge and be willing to change our minds • Be open to new ideas, information and creative approaches
<p>Inclusivity [18]</p>	<p>Seeking to create environments which respect, bring together and build upon the multiple perspectives, lifestyles and experiences of each member of the community.</p>	<ul style="list-style-type: none"> • Actively create environments where all voices are welcome and heard • Build understanding of challenges by listening to a diverse set of perspectives • Generate more creative ideas by drawing on different and even conflicting opinions
<p>Perspective taking [19]</p>	<p>The ability to take on another's point of view to better understand how they think or feel and consider options we may have initially missed due to our positionality.</p>	<ul style="list-style-type: none"> • Learn about others' experiences and points of view through dialogue and engagement • Seek out a variety of perspectives to gain new knowledge and understand challenges • Navigate differences and develop solutions based on deeper understandings

Reflection [20]	Making the time and space to process our thoughts, feelings and experiences in order to take meaningful action moving forward.	<ul style="list-style-type: none"> • Learn from our experiences by thinking about what happened and why • Be humble and honest enough to face our own shortcomings • Reflect with others to gain more perspectives, deepen learning and amplify impact
Truth-seeking [21]	Rigorously pursuing the information we need to better understand our world and then using that information in an honest, fair and empathetic manner.	<ul style="list-style-type: none"> • Critically assess the quality and source of data • Stay open to new information by recognizing the limits of knowledge • Pursue accurate information to address critical social and systemic challenges

More information about the Principled Innovation® assets can be found on the How PI works [11] website.

B. Violations of MLFTC professional disposition standards

Students are informed of, and have an opportunity to respond to, an allegation of a violation of or behavior inconsistent with the professional disposition standards. As a general rule, the college seeks to assist students to become professionals by working with them to develop and improve professional conduct. Students accused of violating or not acting in accordance with the professional disposition standards attend a meeting with the college leadership to discuss allegations. Possible sanctions include probation, suspension, disqualification or dismissal from the program.

Following are the steps taken in the referral process for a violation of MLFTC professional disposition standards.

1. The instructor, site lead or other university representative discusses concerns with the student and informs the student that a referral will be submitted to college leadership. Depending on the nature of the referral, the student may be required to attend a meeting with college leadership.
2. If the referral is made for a violation of MLFTC professional disposition standards, the student is required to attend a meeting to discuss the alleged violations. This meeting provides students with an opportunity to share their side of the situation. At the meeting, an individualized growth plan is developed with input from the student and college administration. Students on an IGP are placed on a probationary status in the college until requirements of the IGP are met.
3. Students may be required to attend a follow up meeting to discuss their status in meeting requirements outlined in their plan. Failure to attend a required meeting or to fulfill expectations outlined in the IGP agreement may result in program dismissal.

C. Release from professional experiences (traditional or job embedded internship or student teaching)

If a school district or community partner requests that a student be released from an internship or student teaching placement for unprofessional or inappropriate behavior, the intern or student teacher is required to attend a meeting with college leadership to discuss the concerns submitted by the school district or community partner representative. The student receives a copy of the release recommendation prior to the meeting with college leadership. During the release meeting, the student has the opportunity to share their perspective and provide details, evidence or other supporting documentation to explain the situation from their perspective.

Students who are employed by the local education agency or community partner should report their placement release to their direct supervisor at the local education agency (usually the school principal or HR director) or community partner (often the director). Continued employment after a placement release is a decision of the local education agency or community partner. If a student is released from their paid placement, their employment with the local education agency or community partner may be terminated by the agency. Decisions related to employment are not made by MLFTC.

After meeting with MLFTC leadership to discuss the circumstances leading to the placement release, the student has the option to appeal the release to the associate director of Teacher Preparation. If it is determined that the allegations of a violation of unprofessional behavior resulting in the request for dismissal from the placement site are warranted, one or more of the following actions may result. The intern or student teacher:

- will be formally removed from the internship or student teaching placement.
- will receive a failing grade ("E") for the internship or student teaching course.
- may not withdraw from the internship or professional experience course or student teaching course. If a withdrawal is processed by the Office of the Registrar, the grade will be administratively changed to an "E."
- will not be assigned another internship or student teaching placement during the same semester.
- must withdraw from all courses that require concurrent enrollment with internship or student teaching, including any applied project courses taken concurrently with student teaching.

If a student intends to repeat the internship or student teaching during the semester following the release, the student must show evidence of how they plan to resolve the situation or circumstances which resulted in the removal from the internship or student teaching. The student is required to meet with MLFTC leadership to develop an individualized growth plan outlining expectations for continued professional growth and academic development.

If the student violates the rules, policies or procedures for conduct established by the school, district, local education agency, ASU, MLFTC or the law, the intern student teacher, or administrator candidate will be dismissed from the program. Students who are dismissed may not continue in a certification pathway, but they may be eligible to pursue other noncertification degree options within MLFTC or within other colleges at ASU.

Students who opt to remain in the noncertification pathway are required to adhere to the same professionalism standards as students enrolled in certification programs. Failure to adhere to these standards results in dismissal from the college and possible sanctions from the university.

Section III: Initial teacher and administrator certification policies

The following policies apply to students enrolled in initial teacher certification or administrator certification programs. To be eligible to progress to student teaching, a student must be in good academic and professional standing. Students who have academic or professional experience deficiencies as outlined above will not be approved to participate in student teaching until the deficiencies are completed. For undergraduate students, this includes all courses that appear on the major map in terms 1-7. For graduate students, this includes all requirements that appear on the program and plan of study.

Undergraduate students are permitted to take one course concurrently with student teaching as long as the course does not conflict with student teaching requirements. Students who wish to take more than one course concurrently with student teaching must submit a petition for review by the Office of Academic and Career Success. The course must be offered in the evening or online and not conflict with student teaching contracted hours.

Essential functions of professional experiences

As a credentialing institution of the State of Arizona, our mission is to prepare teachers for service in P-12 school settings. Students are required to complete multiple professional experiences (internships and student teaching) in which they must be able to perform the essential functions of teaching, which include physical capacity, cognitive flexibility and communication. The ability to perform these essential functions is essential for successful completion of the teacher preparation program. Reasonable accommodations may be made to enable qualified individuals with disabilities to perform these essential functions.

Teaching is a demanding profession, requiring a great deal of physical, mental and emotional stamina in which the safety and well-being of children and youth are paramount. Interns and student teachers spend the majority of their days standing while interacting with P-12 students in the classroom and other areas of the school grounds. Escorting students from one classroom to another and maneuvering through tight spaces between desks or other classroom furniture is commonplace. In early childhood and elementary settings, circulating around and moving quickly along uneven surfaces on the playground is necessary. Student teachers may also be required to monitor and assist students when they arrive and depart from school at bus or parent pickup locations. Playground and bus duties can require teachers to spend time outdoors in extreme heat during Arizona summers or extreme cold during winters elsewhere. Working with P-12 students also entails kneeling or squatting, stooping and bending from 50 to 70 degrees at the waist frequently throughout the day. Reaching at, below or above shoulder height to write on chalkboards or whiteboards and using technology and audiovisual equipment require significant manual dexterity. Occasionally, interns and student teachers are required to lift or move up to 30 pounds. These physical requirements allow the effective intern or student teacher to engage students in activities and materials that challenge and sustain their attention during instructional plans.

The cognitive demands of professional experiences require that interns and student teachers master relevant content in all subjects taught in the assigned classroom; use personal modeling to demonstrate performance expectations with precise and correct command of the English language; provide oral and written feedback that is academically focused, frequent and of high quality; and use content-specific instructional strategies that enhance student content knowledge. Student teachers also must be able to provide differentiated instruction to ensure that all children have the opportunity to master what is taught. In addition, they must maintain emotional control under stress and establish rules for learning and behavior both inside the classroom and on all other areas of the school grounds by monitoring student safety and behavior. Student teachers are evaluated using a performance assessment instrument across the essential functions of student teaching. The instrument can be accessed in the Professional Experiences Handbook provided at orientation.

The physical, cognitive and communicative demands described here are representative of those that must be met by interns and student teachers to successfully perform the essential functions of their assigned professional experiences. Reasonable accommodations may be made to enable qualified individuals with disabilities to perform these essential functions.

Students on an Alternative Teaching or teaching intern certificate

The teaching position may require that the student hold an Alternative Teaching or teaching intern certificate; however, not all teaching positions require students to hold the certificate, and this requirement may vary by state. The Alternative Teaching or teaching intern certificate requires MLFTC to certify to the Arizona Department of Education that the student is enrolled in a teacher preparation program and in good academic standing. The Alternative Teaching or teaching intern certificate is valid for two years. If a third year is required for program completion, the certificate must be renewed with ADE. At the completion of the second year, only students in good academic standing are eligible for an Institutional Recommendation to obtain a standard teaching certificate. Out-of-state students need appropriate certification in their state, if required.

A student on an Alternative Teaching or teaching intern certificate who ceases to be eligible for their certificate is no longer eligible to continue in the alternative pathway to teacher certification program. The student may be allowed to complete the degree and certification requirements by enrolling in the traditional pathway. More information is available from the MLFTC Office of Academic and Career Success.

Note: Because of the intensity of program coursework and job embedded student teaching, students participating in an alternative pathway are not permitted to enroll in courses outside the prescribed program of study without approval from the program. Students who wish to concurrently enroll in a graduate certificate or degree program should work with their advisor to complete a petition, which will be reviewed on a case-by-case basis by the program and may require approval from MLFTC leadership.

Completion of the applied project

As part of a student's degree requirements, all master's degree students must complete an applied project course (Secondary: SED 593, Special Education: SPE 593, Elementary Education: EED 593). The purpose of the applied project is to act as a culmination of student work throughout the program and to enhance the student teaching experience. As a part of this course, students begin by formulating a topic that they will research with a group of students throughout the entire semester, typically those in their traditional or job embedded internship or student teaching placement and with their placement school's permission. A grade of a "B" or higher is required to pass the course and graduate from the master's degree program.

If a student enrolled in an applied project course must leave their placement or has completed the required placement hours, they are required to use data from past placement courses or retain permission from a previous placement to gather additional data as needed. This is vital because students must complete the necessary research for the project. Students who withdraw from both courses must maintain the ASU Graduate College policy of continuous enrollment, either by completing at least one credit hour of graduate-level coursework or with an approved medical or compassionate withdrawal for the semester.

Applied project retake

Students who successfully complete their student teaching placement but do not pass the applied project (grade of "B" or higher) and students who must complete the program without certification are required to complete the next available corresponding applied project course. Students must locate and have access to a group of children in the relevant age group (preapproved by any organization to which they belong). Students also must contact the instructor of the applied project course before the end of the first week of class to discuss their situation, indicating that they will not complete their project in an ASU placement.

Section IV: Student support policies and procedures

A. Supporting our students

Throughout enrollment in a Mary Lou Fulton Teachers College program, students are provided individualized support and feedback from course and field instructors. In addition, MLFTC's Office of Academic and Career Success provides a tier-based ecosystem of integrated and holistic support for student growth and learning outcomes throughout the program.

If, at any time, a student needs additional support, a faculty member, site lead, mentor teacher, academic advisor or other representative can submit an SOS form [22]. Student can also submit an SOS for themselves if they have a concern or are in need of assistance. Areas of support include financial assistance, wellness coaching, academic support, and assistance with job-seeking skills and professionalism.

When an SOS is submitted, it is triaged by the coordinated care team. Depending on the type of support needed, the student is invited to meet with a success coach, coordinated care strategist or the director of student success. During the meeting, the student is provided with an opportunity to share their perspective with a student advocate, be connected to resources, and participate in the development of a support plan.

B. Pregnancy leave policy

In accordance with Title IX, students who require leave are entitled to it for as long as it is deemed medically necessary by their physician. For absences of less than two weeks for session C courses or one week of leave for session A/B or summer courses, students should be able to make up the missed work without affecting field placement. Longer leaves are accommodated; however, students are still required to complete all assignments and meet other requirements that accumulate during their leave prior to the last day of classes. Students who are unable to meet requirements before the end of the semester receive a grade of "I" (incomplete) or have the option of applying for a medical withdrawal without loss of any tuition paid that semester. During the leave, absences are excused and do not negatively impact final grades. Students who need to request leave should meet with Mary Lou Fulton Teachers College's coordinated care strategist to develop leave plans.

C. Accommodations

Mary Lou Fulton Teachers College is committed to student success and ensures an inclusive learning environment for all students. Students with disabilities or disabling health conditions who need accommodations are required to document their condition with Student Accessibility and Inclusive Learning Services. The Mary Lou Fulton Teachers College encourages admitted students with disabilities or disabling health conditions who believe they may need accommodations to register with SAILS before enrolling in the program. That way, all reasonable accommodations can be in place at the beginning of the program. Students who are registered with SAILS are key participants in establishing reasonable and appropriate accommodations with course instructors. Students must re-register with SAILS every semester for which they would like to receive accommodations.

D. Incomplete grade requests

The grade of "I" (incomplete) can only be given by an instructor when a student who is doing otherwise acceptable work is unable to complete a course (e.g., final exam or term paper) because of illness or other conditions beyond the student's control. Unfinished work must be completed with the same instructor except under extenuating circumstances. The completion date is determined by the instructor but may not exceed one calendar year from the date the grade of "I" is recorded.

To request an incomplete in a course, a student first obtains approval from their instructor and submits an incomplete request form that includes a deadline for coursework to be completed. The incomplete request is then routed to the vice dean or their designee for review and final approval. Approval of the request is at the discretion of the vice dean or designee, and the approval process may include modification of the deadline or a request for additional details. Students who fail to complete the course by the agreed-upon deadline receive the grade specified in the incomplete request. Incomplete deadlines may never exceed one year from the date the incomplete grade was issued.

Section V: MLFTC appeal policies and procedures

Academic probation

There is no appeal from the action of being placed on probation. Probation provides warning to the student of the potential for suspension or dismissal.

Grade appeal procedure

To receive consideration, grade appeals must be submitted to the course instructor within 10 business days of the last date for posting final grades, as noted in the Academic Calendar. [23]

Official course grades are listed on My ASU via the student's transcript. Students should check their transcripts regularly following the grade posting date for each term. In the event there is a discrepancy between the final grade noted in the transcript and the grade the student expected to receive based on the Canvas gradebook, students must contact the instructor within 10 business days of the last date for posting final grades and may then follow the appeal process outlined below.

Reasons for grade appeal: A student may appeal a grade only when they can document that one or a combination of the following has occurred:

- The instructor erred in calculating points or acknowledging timely submission of assignments.
- The instructor did not apply grading standards equitably (that is, there is evidence of bias, for example, due to race, age, sex, religion or national origin).
- The instructor did not assign grades consistently with the standards and procedures for evaluation announced at the beginning of the course in the course syllabus. The instructor may amend or supplement the standards and procedures during the course by providing written or oral notice to the entire class.

Step 1: Informal meeting with instructor

This step is mandatory and applies to appeal of course grades only.

1. The student must contact the instructor of the course and submit the grade appeal (PDF) [24]. The student must provide any additional relevant documentation to support the appeal and reasons for disputing the grade to the instructor. The narrative accompanying the grade appeal form may not exceed five pages, double spaced.
2. The student must meet with the instructor either face-to-face or, in the case of online classes only, virtually. If this meeting does not resolve the grievance, the student may move to step 2 and submit the grade appeal form to the appropriate Office of Career and Academic Success contact.

Note: If the required meeting with the instructor has not taken place, the appeal will be accepted only if the student supplies evidence that the student contacted the instructor and (a) has received no reply for five business days or (b) has been unable to schedule a meeting within 10 business days of the date of contact. If the student does not receive a response from the course instructor within five business days, the student should move the appeal to step 2. Appeals received after 10 business days will not be accepted.

Step 2: Submit grievance to Office of Career and Academic Success

If the grievance is not resolved in step 1, the student may forward the grade appeal [25] to the executive director of academic and career success.

Step 3: Vice dean or appointed designee reviews grade appeal

The executive director of academic services reviews the grade appeal and may request additional information, if needed. The grade appeal is forwarded to the vice dean for review. The vice dean reviews all information and notifies the student of the outcome.

Step 4: Appeal decision to the dean (Student Issues Committee)

- Per university policy, if not satisfied with the outcome, the student may appeal the vice dean's decision to the dean, whose decision is final. The student must appeal within five business days of receiving the vice dean's decision.
- To submit an appeal to the Student Issues Committee, the student must forward the original appeal and the vice dean's response to the associate dean of academic systems, who begins the appeal process with the committee.
- Only the issue appealed to the vice dean may be appealed; no new issues or complaints may be added.
- The student has the option to request to appeal before the committee.
- The Student Issues Committee makes a recommendation to the dean. The dean's decision is final.
- The student is notified by mail of the outcome.

It is university policy that students filing grievances and those who are witnesses are protected from retaliation. Students who believe they are victims of retaliation should immediately contact the dean of the college in which the course is offered.

For more information on University grading policies, students can visit the appeals policy on the catalog website [26]. During the time of the appeal, a student may register for courses; however, if the appeal is denied and the student is withdrawn, university policies on tuition refunds are applied. Any concerns about tuition charges should be addressed to Student Business Services.

Graduate students — Appealing a recommendation for dismissal from program

The ASU Graduate College admits students to graduate study at ASU. Students who fail to make satisfactory academic progress may be involuntarily withdrawn (dismissed) from their academic programs by the ASU Graduate College upon the recommendation of the college. The student has the right to appeal a recommendation for dismissal.

Steps in dismissal process:

1. Advisor sends an informal notice of dismissal recommendation to the student. Student has 10 days to respond to the notice and provide any supporting documentation for review and reconsideration of the dismissal recommendation.
2. The student receives formal notice from the executive director of academic services that a recommendation for dismissal from the program is being made to the ASU Graduate College.
3. Within 10 business days of receiving this notice, the student may appeal in writing to the appropriate vice dean in Mary Lou Fulton Teachers College.
4. If the appeal is denied by the vice dean, the student may continue the appeal process to the MLFTC Student Issues Committee (dean's designee). Appeal materials can be sent to the associate dean of academics. Failure to file the appeal within 10 business days of the date of notification results in an automatic denial of the appeal.
5. If the appeal is denied by the Student Issues Committee (MLFTC dean), the dismissal recommendation is forwarded to the Graduate College for final review and recommendation.

Appendix A: Definition of terms

Academic probation: Status assigned to a student who has failed to maintain satisfactory academic progress, also referred to as “not in good academic standing.” A student placed on academic probation is informed of the areas in which program standards are not being met and the actions the student must take to be removed from academic probation and restored to good standing. A student who fails to meet the conditions for reinstatement to good standing may be recommended for dismissal from the program.

A student placed on academic probation is permitted to progress to the next term (unless the next term includes student teaching) while addressing the deficiency. Students who are placed on academic probation in which the next term requires student teaching must meet with their advisor to discuss options for the semester.

Academic suspension: An undergraduate student placed on academic suspension may not progress to the next term until all deficiencies have been resolved. Students are required to complete their deficiencies within one calendar year. Failure to do so results in dismissal from the program.

ASU Graduate College: The academic organization within ASU that oversees all graduate study in every college, with the authority to admit and involuntarily withdraw (dismiss) graduate students. The college recommends the actions, but it is the vice provost for the Graduate College who holds the ultimate authority.

Cumulative GPA: Grade point average that represents all courses completed at ASU.

Deficiency: A required course or other program criterion that has not been met or was not successfully completed. This term refers to coursework and GPA criteria.

Dismissal: Administrative removal from the program or college.

An undergraduate student who has been dismissed from the Teachers College is not allowed to enroll in further teacher or administrator certification program courses for a minimum of one semester. When the student is notified of the dismissal, he or she must participate in the development of an individualized growth plan. The student's current and future status is determined by the terms of the IGP.

A student will be dismissed from further enrollment in any initial teacher or administrator program for any of the following reasons:

- expulsion from Arizona State University
- failure to meet ASU Graduate College policies (for graduate students)

- failure to meet the professional responsibilities outlined in the Mary Lou Fulton Teachers College Professional Responsibilities Standards and the ASU Student Code of Conduct
- failure to resolve academic deficiencies
- noncompliance with an individualized growth plan

GPA: Grade point average

Individualized growth plan: An individualized growth plan is a tool designed to support students who may be at risk of not progressing in their major or academic plan. The IGP outlines specific action steps that a student must complete to maintain or return to good standing within their major or academic plan.

Institutional recommendation: All Teachers College certification programs are approved by the Arizona Department of Education to issue institutional recommendations to students who have fulfilled the state's requirements for certification. The IR allows for expedited issuance of the teaching or administrative certificate.

iPOS: Graduate plan of study entered and approved electronically and consisting of the courses required for the student to earn the degree.

iPOS GPA: Grade point average calculated using the courses on the plan of study.

Overall graduate GPA: Grade point average calculated on all graduate courses, regardless of whether they are on the approved program of study (iPOS).

Professional experience: Any practicum, internship, student teaching or other field-based course that takes place off campus in a professional setting such as a school district, charter school, government agency or other educational organization.

SOS — Supporting Our Students: A referral system that connects students with the Office of Academic and Career Success team for personalized support.

Student Code of Conduct: The ASU code of conduct can be viewed on the student services website. [7]

Undergraduate policies

Advising

The Office of Academic and Career Success is dedicated to providing students with the very best academic support and guidance in every phase of their academic program. Academic program advisors provide students with assistance in selecting classes and in fulfilling program requirements. Each ASU campus has dedicated academic advisors knowledgeable about all Mary Lou Fulton Teachers College programs. Students should see the MLFTC undergraduate student services [27] webpage for advising locations and contact information. Students are encouraged to meet with their advisors every semester.

Credit and registration

Students are limited to a maximum of 18 credit hours per term. Enrollment in additional credit hours requires college academic advisor approval.

Audit

MLFTC students are permitted to audit any course that is not part of the professional pathways curriculum. Additional university fees are assigned to courses when the audit option is chosen.

Course prerequisites

Enrollment in upper-division professional pathways coursework requires approval from MLFTC. Students should review current course descriptions for course prerequisites.

Pass/fail

A "Y" (satisfactory) grade is assigned to a passed course, and an "E" grade is assigned to a failed course. Only the "E" grade is computed in the ASU cumulative GPA.

Transfer

Students may transfer a maximum of 64 credit hours from two-year institutions. There is no limit to the number of credits transferred from four-year institutions. Students interested in substituting previous teacher preparation courses for current professional pathway MLFTC courses must submit the petition for adjustment of requirements to the Office of Career and Academic Success at their chosen campus.

Any transfer student who is interested in starting an initial teacher certification pathway must submit an online form, meet with an academic advisor, have a cumulative GPA of 2.25, have completed 60 credit hours, and fulfill specific course requirements as outlined by each education major. Students who complete an AA program in elementary education or who complete required courses at an Arizona community college through MyPath2ASU® meet the requirements for progression into the professional pathway.

Withdrawal

Students should review the Mary Lou Fulton Teachers College undergraduate withdrawal policy [28] and the current university withdrawal procedures [29]. It is each student's responsibility to withdraw from courses. Students are not automatically withdrawn for nonattendance.

Degree requirements

Students who begin at ASU as first-year students follow the major maps for their chosen programs. The major map is an outline that students follow each term for enrollment. Students who have attended only ASU have their progress reviewed at the completion of each term to ensure that they are on track for graduation. Transfer students must attend an advising session in which they learn the degree requirements and minimum eligibility requirements for degree completion. Students must fulfill professional experiences, internships and student teaching requirements as part of degree completion. Mary Lou Fulton Teachers College is committed to providing support and resources for students who need academic or professional growth assistance.

To be in good standing in Mary Lou Fulton Teachers College, undergraduate students in teacher preparation programs must maintain an overall cumulative GPA of 2.25 or higher. Students enrolled in educational studies must maintain an ASU GPA of 2.00 or higher. Students are evaluated in accordance with the Mary Lou Fulton Teachers College satisfactory academic progress and professional conduct policy. Students in the professional pathway are formally reviewed regarding their academic progress to determine retention and continuation status. Students with records that contain indicators of professional or academic concerns are placed on probation or suspension, or permanently removed (dismissed) from their programs.

Students who exhibit unprofessional behaviors or attributes are required to meet with a Mary Lou Fulton Teachers College administrator to develop an individualized growth plan that outlines the expectations for continuing in the program. Such students are placed on probation or suspension and are subject to the disqualification policy of Mary Lou Fulton Teachers College. Students should refer to the satisfactory academic progress and professional conduct policy for additional information.

Concurrent degrees

The primary degree is the one that shows at the top of a student's transcript. A concurrent degree is an additional degree that a student pursues.

Requirements for students who wish to pursue a concurrent degree:

- Students must be in good academic standing, maintaining a minimum cumulative GPA of 2.25 or higher. (Students enrolled in the educational studies degree program are an exception and must maintain a minimum cumulative GPA of 2.00.)
- Students must inform their MLFTC advisor of each degree being pursued as a concurrent degree. This information is important to the department's recordkeeping, and it may affect recommended courses.
- If one of the degrees is offered through another college, the student must contact that college and complete its required procedures for requesting and pursuing concurrent degrees.
- Students must earn at least 30 unique credit hours applied toward the requirements for each major's degree.

Reinstatement/readmission

Applications for reinstatement and readmission are reviewed by the director of undergraduate student services on a case-by-case basis.

If a student is not eligible for quick re-entry [30], they must apply for readmission and submit applicable fees. To submit an application for readmission to the Mary Lou Fulton Teachers College, a student must have left in good academic standing by having a cumulative GPA of 2.00 or higher.

A student who did not leave ASU in good academic standing may appeal. In this case, a student must have both:

- completed at least 12 credits since leaving ASU with a grade of a "C" or higher, and
- 2.25 cumulative GPA since leaving ASU

All transcripts must be on file with ASU for review if appealing. Students who do not meet these two requirements will not be admitted to the Mary Lou Fulton Teachers College. If a readmission appeal is required, the decisions may take 4-6 weeks. The director of undergraduate services may contact a student for more information.

Other special requirements

Additional requirements for teacher certification candidates

Fingerprint clearance card

Per Arizona state statute A.R.S. § 15-106, all teachers and persons who are required to be fingerprinted in order to work in the classroom are required to have an identity-verified fingerprint clearance card (Google doc) [31]. All students enrolling in programs leading to certification must participate in professional experiences. Students participating in a professional experience must have proof of a fingerprint clearance card on file in the Office of Professional Experiences before clinical placement hours begin.

Acknowledgment form

Non-MLFTC progression students [32] who wish to start their upper-division courses must meet with their college advisor. Students will receive an email from an MLFTC staff member to complete an acknowledgment form.

For programs leading to certification, students must meet teacher certification progression requirements [32] to progress into the upper-division courses.

Graduate policies

The college offers master's degree and doctoral programs as well as graduate certificates. Some programs also allow students to obtain state or professional certification.

After a student is admitted to a degree program, specific advice related to degree requirements and activities is provided by academic advisors in the OACiS graduate services office. Once admitted, all graduate students are required to submit a plan of study. The plan of study functions as a contract between the student, the academic unit and the Graduate College. The interactive plan of study contains certain degree requirements such as coursework, a committee and a culminating experience. Students can contact an academic advisor for assistance completing the interactive plan of study through the contact information found on My ASU.

Other graduate policies

Continuous enrollment and re-entry for graduate programs

Once admitted to a graduate program, the student must be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. If a plan of study must be interrupted for one semester, the student may apply to the Graduate College for a leave of absence not to exceed one semester. An application for leave status, endorsed by the vice dean or designee, must be approved by the Graduate College; for a doctoral student, the leave must also be endorsed by the members of the student's supervisory committee. This request must be filed and approved prior to the semester of anticipated absence. A student on leave is not required to pay fees and is not permitted to place any demands on university faculty or use any university facilities. Students may be continuously enrolled by registering for one credit hour of continuing registration; students should contact an academic advisor for more details. A student who interrupts a program without obtaining an approved leave of absence may be removed from the degree program by the Graduate College.

Concurrent degrees

The primary degree is the one that shows at the top of a student's transcript. A concurrent degree is an additional degree that a student pursues.

For concurrent master's degrees, concurrent master's and doctoral degrees, and concurrent doctoral degrees, students must follow the Graduate College policies. [10]

Graduation requirements

A candidate for a graduate degree must satisfactorily complete the program's culminating experience requirements. Information is available for each program from the Office of Career and Academic Success.

Master's degree programs

In addition to the Graduate College policies and procedures that govern graduate programs at ASU, which are provided elsewhere in this catalog, the policies specific to each master's degree program are provided to students at the time of enrollment in the program. Students are limited to 15 credit hours per semester. Online students are limited to nine credit hours per semester. Exceptions must be approved by the division director. Students who enroll in additional hours may be administratively withdrawn.

Doctoral programs

In addition to the Graduate College policies and procedures that govern doctoral programs at ASU, which are provided elsewhere in this catalog, satisfactory academic progress and professional conduct policies apply. Additional information specific to a degree program may be provided when students first register for the program.

PhD and EdD satisfactory academic progress and professional conduct policy

Students in doctoral programs may be placed on academic probation for reasons stated in the satisfactory academic progress and professional conduct policy. These include:

- failure to meet the academic requirements of the Graduate College, to have a GPA of 3.00 or to meet the academic requirements of the particular program, as stated in the program handbook
- unsatisfactory progress as noted on annual review form by mentor, or failure to meet for annual review
- failure to meet the standards of professional conduct or violations of the student conduct code, which may result in academic probation, or, for egregious violations, immediate recommendation to the Graduate College for dismissal

In addition to minimum academic requirements and conduct requirements, a student must maintain progress to degree completion. A student can be recommended to the Graduate College for dismissal for failure to meet the Graduate College policies.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and abide by all university policies.

Additional requirements

Fingerprint clearance card

Per Arizona state statute A.R.S. § 15-106, all teachers and persons who are required to be fingerprinted to work in the classroom are required to have an identity-verified fingerprint clearance card. All students enrolling in programs leading to certification must participate in clinical experiences and student or apprentice teaching. Students participating in clinical experiences must have proof of a fingerprint clearance card on file in the Office of Professional Experiences before field placement hours begin.

University College policies

University College is spearheading the evolutionary next step in higher education. The college seeks to end achievement disparities for learners of all backgrounds through designing personalized learning experiences, preparing learners for a future of integrated working and learning, and supporting learners at scale using automation, analytics and intelligent systems.

Academic integrity

University College values academic honesty in academia as the basis of shaping students who will become productive workers and contributors to society. University College is committed to supporting student success by supporting accountability. The college uses every learning opportunity, including academic violations, to help students gain experience, resources and personal growth.

Academic dishonesty falls into five broad areas:

- cheating on an academic evaluation or assignment
- plagiarizing
- academic deceit, such as fabricating data or information
- aiding academic integrity policy violations and inappropriately collaborating
- falsifying academic records

It is important that students understand what constitutes a violation of academic integrity; they should review the full ASU Academic Integrity Policy. [1]

Why is it important?

Academic integrity violations have a negative impact on students, the ASU community, and students' future career aspirations.

Academic dishonesty undermines a student's ability to demonstrate their academic excellence. Furthermore, academic dishonesty does not allow instructors the opportunity to develop a student's educational aptitude to prepare them for a career, and it diminishes the integrity of the ASU academic community.

Who can report academic dishonesty?

Anyone with a good faith basis for believing that a student has engaged in academic dishonesty may report the alleged violation [2] to the instructor or academic integrity officer for the college or school in which the academic dishonesty occurred.

Student resources

If students are unsure as to whether an issue could be construed as academic dishonesty, they should use the academic integrity student resources [3]. Sun Devils are champions of integrity and making the right decision.

Students with questions about ASU's Academic Integrity Policy or alleged violations should contact University College's academic integrity officer Bruce Bailey [4] with any questions.

Notice of nondiscrimination

ASU prohibits all forms of discrimination, harassment and retaliation. Students should review ASU's policy ACD 401: Prohibition Against Discrimination, Harassment and Retaliation. [3]

Title IX protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. As required by Title IX, ASU does not discriminate on the basis of sex in the education programs or activities that we operate, including in admission and employment. Inquiries concerning the application of Title IX may be referred to the ASU Title IX coordinator or to the U.S. Department of Education Office for Civil Rights or to both. For more information, students should email titleixcoordinator@asu.edu [6], call 480-965-0696, or visit the office located at 1120 S. Cady Mall, INTDSB 284. For information on making a report, students should reference the Report It [7] website.

Undergraduate policies

Academic standing

To be considered in academic good standing in University College, students must achieve a cumulative GPA of 2.00 or higher. Academic standing is determined twice annually — in December after fall semester grades have posted, and in May after spring grades have posted. Grades earned during summer sessions affect GPA but are not considered for academic standing purposes until the next review period.

Academic warning

An undergraduate student with a cumulative GPA lower than 2.00 at the end of their first semester (fall or spring) is placed on university academic warning.

Academic probation

If a student's minimum cumulative GPA first falls below 2.00 in a term that is not the student's first term at ASU, the student is placed on probation. Failure to return to good academic standing after being placed on probation may result in disqualification.

What happens to a student on academic warning or academic probation?

A student on academic warning or academic probation is considered in conditional good standing and is permitted to enroll.

All University College students who are not in good standing are required to meet with an academic advisor and complete an academic success agreement. During the appointment, the advisor reviews the prior semester, discusses the student's academic standing status, possibly makes adjustments to the course schedule, and helps the student explore strategies to return to good standing.

Improved performance helps a student earn either good standing or continued probation status. Students who achieve a cumulative GPA above 2.00 are considered in good standing. Students who achieve a semester GPA above a 2.00 but retain a cumulative ASU GPA below 2.00 are placed on continuing probation. Students who fail to achieve a semester or cumulative GPA above 2.00 are subject to disqualification from the university.

All students who receive an academic warning or are placed on academic probation for at least one semester must successfully complete the academic refresher course UNI 220 Mindset Connections as a requirement of graduation.

Disqualification

Students who have been disqualified from ASU are not eligible to take classes at ASU during fall or spring semesters; however, enrollment in summer classes is permitted and encouraged. Students may enroll in summer classes at ASU to improve the GPA and bring the cumulative ASU GPA back into academic good standing (2.00).

Students who have had a fall or spring semester lapse in enrollment while on disqualification status need to submit an application for readmission to ASU [8] to enroll in summer classes or to be considered for a future fall or spring enrollment.

Academic advising

All students are encouraged to seek advising from their academic success specialist (i.e., their academic advisor) prior to registration. Students must review the Academic Calendar [9] each semester for information and deadlines pertaining to enrollment, including course adds, drops and withdrawals.

The ASU Academic Catalog is the governing source for all degree requirements. Students are expected to read the requirements for university general studies [10], undergraduate graduation [11] and major degree requirements. The academic success specialist provides guidance.

Contact advising: exploratory@asu.edu [12]

Mandatory advising

The following students in University College must receive advising clearance prior to course registration:

- new students in all exploratory tracks

- new students in their first semester of attendance
- readmitted students in their first returning semester
- students on academic probation or continuing probation
- students who have been disqualified
- students who are off track for graduation

Students are encouraged to use My ASU [13] to check their advising status requirements each semester before attempting any registration transactions.

Credit and registration

Credit overload petition

A student may take up to 18 credit hours per semester (fall or spring) and seven credit hours each summer session. Before submitting the request for credit overload, the student must:

1. meet with their advisor
2. have a legitimate academic reason for making the request
3. have a written plan describing in detail how the demands of a heightened workload will be met
4. complete a full semester at ASU before the overload semester
5. be in good academic standing
6. not be repeating a course during the overload term
7. be a degree-seeking student
8. submit the form at least a week prior to the start of the session
9. meet the GPA requirements as outlined on the Credit Overload Petition form [14]

Class overrides

Class overrides are not considered unless there are specific extenuating circumstances (e.g., if the prerequisite has been completed or will be completed at another institution before the start of the class in question). Class override requests are not considered after the add period has ended for that session (A, B or C).

The student must complete the Class Prerequisites Override form. [15]

Space overrides

Under certain circumstances, the college may approve a student's enrollment in a class that has filled the number of allotted seats. Space overrides are not considered if the room has reached maximum fire code occupancy or if other sections of the same class are available at another time. Override requests are not considered after the add period has ended for that session (A, B or C).

The student must complete the Space Override form. [16]

Transfer credit and appeals

ASU accepts transfer credit [17] for traditional coursework that a student has successfully completed at regionally accredited institutions of higher education as documented on an official transcript.

When a student transfers to ASU from another college or university, the following general standards for transfer credits apply:

- ASU accepts college-level (not remedial) courses in which the student has earned a grade of "C-" (scale is 4.00="A") or higher from regionally accredited colleges and universities.
- A maximum of 64 credit hours are accepted as lower-division credit when transferred from a regionally accredited community, junior or two-year college, with the exception of some special programs.
- Acceptable academic credits earned at other institutions that are based on a different unit of credit than the one prescribed by the Arizona Board of Regents (PDF) [18] are subject to conversion before being transferred to ASU. All ASU students must meet graduation requirements (university, college, major and general studies requirements) to earn a bachelor's degree.
- Grades and honor points earned at other colleges and universities are considered for admission, but the ASU cumulative GPA is based solely upon coursework taken at ASU.

University College standards

- Requests for general studies credit may be approved for transfer courses or for ASU omnibus classes (e.g., 294, 394 or 494 classes), which are not reviewed by ASU's general studies committee and thus do not carry preapproved general studies designations.
- Requests for established ASU courses are discouraged; typically, either established ASU courses that are not already designated as general studies courses do not meet the criteria, or the department has decided not to submit them for general studies designation. Sometimes an instructor insists that their class meets general studies criteria, but if the university general studies committee has decided otherwise, the petition will not be approved.

Types of transfer credits not accepted by ASU:

- courses for which the student earned a final grade lower than "C-"
- credit awarded by postsecondary schools in the United States that lack candidate status or are not accredited by a regional accrediting association
- credit awarded by postsecondary schools for life experience
- credit awarded by postsecondary schools for courses taken at noncollegiate institutions (e.g., government agencies, corporations, industrial firms)
- credit awarded for continuing education units, continuing education credit, workshops, seminars, professional development courses, and other not-for-credit courses through postsecondary institutions.

A student who feels they have been unjustly denied credit for transfer may appeal the decision.

- Prospective students can contact ASU Admission Services [19] or Academic Transfer Credit Solutions (articulation@asu.edu [20]).
- Admitted students can contact their academic advisor or academic unit (found via My ASU [13]).

Repeat/replace policy

Students who wish to repeat courses and possibly replace prior course grades must follow the repeat/replace policy [21] (also university policy SSM 203-06 (PDF) [22]) regarding the number of credit hours that can be repeated and the types of courses that are eligible for a grade replacement.

All prerequisites for the course must be met with the required grades before submitting the petition to enroll in a course for the third time or more (even if registration has previously been permitted without them). Students may not repeat a course for a third time or more if they have passed the course with a "C" grade or higher. Approval to retake a course does not imply that enrollment in a class after the add deadline is permitted or that the student may register for a class section that is already full.

Pass/fail grade options

A grade of "Y" (satisfactory) contributes to a student's earned credit hours but does not affect the GPA.

The pass/fail grade option ("P"/"E") may be used under the following conditions:

- Approval has been granted from the instructor and college offering the course.
- Enrollment for the pass/fail option must be indicated during registration and may not be changed after the add period.
- A maximum of 12 credit hours taken for pass/fail may be counted toward graduation.

Students may not enroll under the pass/fail option in the following courses:

- first-year composition requirements
- general studies requirements

Late registration

For a student to add, drop or swap sections of the same course after the official add and drop deadlines, the course must be open, and course prerequisites must be met or overrides must have been authorized and posted. If these criteria are met, the student should do the following:

1. complete the Enrollment Change Request form [23]
2. include instructor's email approval, which includes course information
3. submit an enrollment change request form to the department up to three business days after the late add deadline to register for a course

Requests received after the three business day deadline will not be approved unless the instructor provides confirmation that the student's grade will not be impacted.

Students should allow at least 24 hours for University College to process the request. If approved, University College will forward the request to the Registrar's Office for processing.

Withdrawals

Course withdrawals

Requests to drop a course after the drop deadline are not considered unless there are extenuating circumstances beyond the student's control. In these cases, a student may initiate a late withdrawal up to three business days after the deadline by emailing ucacademicservices@asu.edu [24]. Backdated drops need department approval.

Medical/compassionate withdrawals

What is a medical or compassionate withdrawal?

Students who experience a serious illness, injury or other significant personal situation that prevents them from continuing classes may request a medical or compassionate withdrawal from the college of their major.

Medical/compassionate withdrawals require relevant and detailed supporting documentation for consideration. Approval is at the discretion of the college, and there is no guarantee that a request will be approved.

Students may review the full ASU medical or compassionate withdrawal policy. [25]

Steps for submitting a medical or compassionate withdrawal:

1. meet with an academic advisor to explore the withdrawal procedures
2. work with faculty for alternative class arrangements or incomplete grades
3. consult with a student financial assistance [26] counselor to determine financial obligation
4. review guidelines of required documentation sections below
5. submit the Medical or Compassionate Withdrawal request form [27]

Required documentation for medical withdrawal

Students must obtain an official letter from a health care provider on health care provider's letterhead stationery that details:

- the circumstances or challenges of the student
- the date of illness onset
- the dates the student was under professional care
- the general nature of the medical condition and why or how it prevented the student from completing the coursework or attending class
- the date of anticipated return to school
- the last date the student was able to attend class

Students who make a request for some, but not all, courses in a semester must provide a statement as to why they were successful in some courses but not others.

Required documentation for a compassionate withdrawal

The official documentation must include a statement from the student explaining the circumstances or challenges they are facing. Documentation should corroborate the request either by strengthening the request or by providing a timeline for events.

Example: If the request involves a death, attach a copy of the death certificate, airline itinerary and receipt, and funeral pamphlet showing dates.

Medical or compassionate withdrawal for international students

International students on an F-1 or J-1 visa must consult with the International Students and Scholars Center [28] to discuss the serious immigration consequences that may result from a withdrawal from ASU. Students on an F-1 or J-1 visa must provide medical documentation from a U.S. licensed medical doctor, doctor of osteopathy or licensed clinical psychologist.

Complete session withdrawal

Because a complete session withdrawal from the university can be a difficult decision and could result in serious academic and financial consequences, beginning the first day of the fall and spring semesters, undergraduate students are required to contact the college or school of their major to facilitate the withdrawal process. Students should review the Academic Calendar [29] for complete session withdrawal deadlines.

To complete a full session withdrawal, students must complete the complete session withdrawal procedures. [30]

Note: International students must contact the International Students and Scholars Center regarding intent to seek a complete session withdrawal by sending an email to issc@asu.edu [31]. Students are notified of the status of the submission. If approval is granted, the completed session withdrawal is forwarded to the ASU Registrar's Office for processing.

Degree requirements

Exploratory tracks

All first-year students who choose to become an exploratory student are required to declare an exploratory track in one of four areas:

- exploratory health and life sciences [32]
- exploratory humanities, fine arts and design [33]
- exploratory math, physical sciences, engineering and technology [34]
- exploratory social and behavioral sciences [35]

Each of these tracks is designed to provide students with introductory courses in a field of choice (e.g., Introduction to Psychology, Introduction to Environmental Design), general studies curriculum and elective courses that reinforce student interests. Each exploratory track is composed of a three-semester major map, culminating in the declaration of a major by the completion of 45 credit hours.

All exploratory students are required to enroll in a major and career exploration class (UNI 150, 250 or 270) each semester the student remains designated as an exploratory student.

Readmission/reinstatement

Students who have been disqualified from ASU may be reinstated to University College for a fall or spring semester if they complete either of the following:

- Raise their cumulative ASU GPA to an academic good standing level (2.00) by taking ASU summer session courses.
- Complete 12 or more transferable credit hours of ASU general studies courses at a community college or an accredited college or university with no grade lower than a "C" and a GPA of 2.50 or higher. Courses in which the student failed or received a "D" at ASU should not be repeated at another institution.

Once readmitted, the student may be placed on academic probation for at least one semester. Students on probation have one semester to raise their cumulative or semester GPA to meet the required 2.00 GPA to remain at ASU. Failure to do so results in disqualification from the university. Students should meet with a University College advisor to identify their options and develop a plan for success.

Students who have been disqualified two or more times are not be reinstated until they achieve an ASU GPA of 2.00 or higher by taking summer courses.

Quick re-entry: Students who have had an absence from ASU for up a seven semesters may be eligible to return to the university via the quick re-entry process [8]. Students should see an advisor for additional information.

Readmission: Students not eligible for quick re-entry must submit an application for readmission [36] for the semester for which they wish to return to ASU. This readmission is contingent on completing the requirements stated above.

Undergraduate Programs

Undergraduate Certificates (Program Descriptions and Requirements)

Accountancy Certificate (BAACCCERT)

Actuarial Science Certificate (LAACTCERT)

African and African American Studies Certificate (LAAFRCERT)

American Indian Nation Governance Certificate (LAAIGVCERT)

Analysis and Management of Insurance Risk Certificate (LAAMIRCERT)

Applied Business Data Analytics Certificate (BABDACERT)

Applied Cybersecurity Certificate (ASACSCERT)

Applied Social Sciences Certificate (ASAPSSCERT)

Arabic Studies Certificate (LAARBCERT)

Artificial Intelligence and Digital Media Certificate (HIAIDMCERT)

Arts Entrepreneurship Certificate (HITHAECERT)

Arts and Humanities in Games Certificate (ASAHGCERT)

Arts in Education Certificate (HIAEDCERT)

Asian Pacific American Studies Certificate (LAAPACERT)

Asian Studies Certificate (LAASNCERT)

Atmospheric Sciences Certificate (LAATMSCERT)

Bilingual Education and English as a Second Language Certificate (TEESLCERT)

Biomedical Research Certificate (ASBMRCERT)

Biomimicry Certificate (SUBMYCERT)

Brazilian Studies Certificate (LABZSCERT)

Civic Education Certificate (LACVECERT)

Civil Communication Certificate (LACCOMCERT)

Classical Studies Certificate (LACLGCERT)

Communication Sciences and Disorders Certificate (NHCSDCERT)

Communication Training and Assessment Certificate (ASCTACERT)

Community-Engaged Practices in Design and the Arts Certificate (HISEPCERT)

Computational Life Sciences Certificate (LACLSICERT)

Computer Gaming Certificate (ESSCICERT)

Convention Sales and Meeting Planning Certificate (PPTDMCERT)

Correctional Studies Certificate (PPCRTSCERT)

Criminal Investigations Certificate (PPCRICERT)

Cross-Sector Leadership Certificate (PPCSLDCERT)

Cryptology Certificate (LACRYCERT)

Data Science Certificate (ASDTSCERT)

Desert Food Production Certificate (LSDFPRCERT)

Digital Business Innovation Certificate (BADBICERT)

Disability Studies Certificate (LADISCERT)

Diversity and Equity Studies Certificate (ASDESCERT)

Domestic Violence and Evidence-based Practice Certificate (PPDVEPCERT)

Early Childhood Education Certificate (TEECDCERT)

Early Childhood Special Education Certificate (TEECSCERT)

Economic Justice Certificate (LAECNJCERT)

Elementary Education Certificate (TEEEDCERT)

Energy and Sustainability Certificate (SUESUCERT)

Entrepreneurship and Innovation Certificate (BAKEICERT)

Environmental Education Certificate (TEEVEDCERT)

Environmental Humanities Certificate (LAENHCERT)
Environmental Humanities Certificate (LSENHHCERT)
Ethics Certificate (LAETHHCERT)
Ethnic Studies Certificate (ASETHHCERT)
European Studies Certificate (LAESCERT)
Evolutionary Medicine Certificate (LAEVMDCERT)
Family Communication Certificate (ASFAMCCERT)
Field Geology Certificate (LAFDGCERT)
Film and Video Studies Certificate (ASVIDCERT)
Food Industry Management and Marketing Certificate (BAFIMMCERT)
Gender, Women and Sexuality Studies Certificate (ASWSTCERT)
Gender, Women and Sexuality Studies Certificate (LAWSTCERT)
Geographic Information Science Certificate (LAGISCERT)
Global Management Certificate (TBTGMCERT)
Globalization and Culture Certificate (LAGLCCERT)
Hazardous Materials and Waste Management Certificate (TSETMCERT)
Health Care Policy and Delivery Certificate (NHHCPDCERT)
Health Education Specialist Certificate (NHHEDSCERT)
Health and Wellness Coach Certificate (NHHWCCERT)
History and Philosophy of Science Certificate (LAHPSCERT)
Homeland Security Certificate (PPHSLCERT)
Hospice and Palliative Care Certificate (NHHAPCCERT)
Human Rights Certificate (LAHRTSCERT)
Indoor Farming Certificate (LSIFRMCERT)
Informatics Certificate (ESCPICERT)
Innovation for Impact Certificate (FIIFICERT)
Interdisciplinary Health Humanities Certificate (LAIHHUCERT)
International Business Studies Certificate (BAIBSCERT)
International Cinema Certificate (LAICINCERT)
International Studies Certificate (LAINSCERT)
International Trade Certificate (TBINTRCERT)
Islamic Studies Certificate (LAISLCERT)
Jewish Studies Certificate (LAJUDCERT)
Juvenile Justice Certificate (PPJVJUCERT)
Korean Studies Certificate (LAKORCERT)
Latin American Studies Certificate (LALASCERT)
Latino Politics and Policy Certificate (LALPPCERT)
Law Enforcement in Parks and Protected Areas Certificate (PPLEPPCERT)
Law and Human Behavior Certificate (PPLWHBCERT)
Leadership and Ethics Certificate (PPLDECERT)
Leadership in Business Certificate (BALIBCERT)
Leadership, Ethics and Service Certificate (PPLETSCERT)
Legal Issues in Criminal Justice Certificate (PPLCRJCERT)
Lesbian, Gay, Bisexual and Transgender Studies Certificate (PPLGBTCERT)
Maritime Logistics Certificate (BALGMACERT)
Mathematical Concepts of Engineering Certificate (LAMACECERT)
Media Arts and Sciences Certificate (HIDGCCERT)
Mild/Moderate Special Education Certificate (TEMSPECERT)
Military Studies Certificate (LSMILSCERT)
Modern Hebrew Certificate (LAHEBCERT)

Music Entrepreneurship Certificate (HIMERTCERT)
 Nonprofit Professional Certificate (PPNPYCERT)
 Oral History and Storytelling Certificate (ASOHCCERT)
 Organizational Leadership Certificate (LSORGLCERT)
 Peace Corps Prep Certificate (LSPCPRCERT)
 Personal Fitness Training Certificate (NHPFITCERT)
 Philosophy, Politics and Economics Certificate (LAPHPECERT)
 Philosophy, Rhetoric and Literature Certificate (ASPRLCERT)
 Planetary Science Certificate (LAPLSCERT)
 Political Economy Certificate (LAPLECERT)
 Political Entrepreneurship through Internships: Local to Global Certificate (LAPEICERT)
 Political History and Leadership Certificate (LAPTLCERT)
 Power and Society Certificate (ASPWSOCERT)
 Professional Sales Certificate (BAPRSCERT)
 Public Administration and Public Management Certificate (PPPAFCERT)
 Recreational Therapy Certificate (PPRECTCERT)
 Religion, Conflict and Peace Certificate (LARELCERT)
 Risk Communication Certificate (ASRCMCERT)
 Risk Management Certificate (BARMGTCERT)
 Russian and East European Studies Certificate (LAREECERT)
 Sales and Marketing Essentials Certificate (BASMECERT)
 School Nutrition Certificate (ECNTRCERC)
 Secondary Education Certificate (TESEDCERT)
 Security Studies Certificate (PPSCSCERT)
 Small Business and Entrepreneurship Certificate (BASMBCERT)
 Social Science Research Methods Certificate (LASSRMCERT)
 Social Transformation Certificate (LASOTCERT)
 Socio-Legal Studies Certificate (LASLSTCERT)
 Spanish for the Professions Certificate (LSSPPRFCER)
 Special Events Management Certificate (HSRTMUERT)
 Speech-Language Pathology Assistant Certificate (LASLPACERT)
 Sports Business Certificate (BASPBCERT)
 Sports, Cultures and Ethics Certificate (LASPCECERT)
 Sustainable Food Systems Certificate (SUFSUCERT)
 Symbolic, Cognitive and Linguistic Systems Certificate (LAPHICERT)
 Teaching English to Speakers of Other Languages (TESOL) Certificate (LATESLCERT)
 Transformation and Change Certificate (ASTNCHCERT)
 Translation Certificate (LASPACERT)
 Veterans, Society and Service Certificate (LAVSSCERT)
 Vocal Pedagogy Certificate (HIVCLPCERT)
 Water Resources Certificate (LAWATRCERT)
 Wildlife Management Certificate (LSWLMCERT)
 Working with Military Families Certificate (LAWWMFCERT)
 Workplace Communication Certificate (LAWCOMCERT)
 Writing Certificate (ASWRTCERT)
 Writing Certificate (LSWRTCERT)

Undergraduate Programs
 Undergraduate Degrees (Program Descriptions)
 Business, W. P. Carey School of
 Accountancy, BS (BAACCBS)

Applied Business and Technology Solutions, BA (BAAPBTSBA)
 Artificial Intelligence in Business, BS (BAAIBBS)
 Business, BA (BABUSBA)
 Business (Agribusiness Innovation and Technology), BA (BABUSGAGBA)
 Business (Business Administration), BA (BABUSBABA)
 Business (Communication), BA (BABUSCBA)
 Business (Corporate Accounting), BA (BABUSCABA)
 Business (Financial Planning), BA (BABUSFPBA)
 Business (Food Industry Management), BA (BABUSFIMBA)
 Business (Global Leadership), BA (BABUSGBA)
 Business (Global Logistics Management), BA (BABUSGLBA)
 Business (Global Politics), BA (BABUSGPBA)
 Business (Health Care), BA (BABUSHCBA)
 Business (Human Resources), BA (BABUSHRBA)
 Business (Information Security), BA (BABUSISBA)
 Business (Language and Culture), BA (BABSLACUBA)
 Business (Law), BA (BABUSLBA)
 Business (Public Service and Public Policy), BA (BABUSPBA)
 Business (Retail Management), BA (BABUSRBA)
 Business (Sports Business), BA (BABUSMSBA)
 Business (Statistics), BA (BABUSTABA)
 Business (Sustainability), BA (BABUSSBA)
 Business (Technology), BA (BABUSTCBA)
 Business (Tourism), BA (BABUSTBA)
 Business Data Analytics, BS (BABDABS)
 Business Entrepreneurship, BS (BABUENTBS)
 Business Exploratory, (BABUSEXP)
 Computer Information Systems, BS (BACISBS)
 Economics, BS (BAECNBS)
 Entrepreneurial Leadership, BA (BAENTLBA)
 Finance, BS (BAFINBS)
 Financial Technology, BS (BAFINTBS)
 Logistics (Maritime), AS (BALGMARAS)
 Management, BS (BAMGTBS)
 Marketing, BS (BAMKTBS)
 Marketing (Digital and Integrated Marketing Communications), BS (BAMKDIMCBS)
 Marketing (Professional Sales), BS (BAMKTPSBS)
 Supply Chain Management, BS (BASCMBS)

Design and the Arts, Herberger Institute for
 Apparel Technical Design, AA (HIATDAA)
 Architectural Studies, BSD (ARSTDBSD)
 Art (Animation), BFA (HIARTANBFA)
 Art (Art Education), BFA (FAARTEBFA)

Graduate Degrees and Certificates (Program Descriptions and Requirements)

Business, W. P. Carey School of

Accountancy and Data Analytics, MAcc (BAACCMACC)

Online Degree Search Title: Accountancy and Data Analytics, MACC

Campus: Tempe, Online

Program Description: Possible to complete in one year, the MAcc program is delivered by the School of Accountancy, highly ranked by the Public Accounting Report. This program is offered in person or online, providing flexibility to students who are working professionals. A pathway program (<https://wpcarey.asu.edu/accounting-degrees/pathway-program>) is available for students with a non-accounting background to prepare for success in the master's degree.

Infused with a data and analytics emphasis, the developed curriculum is structured to provide students with an in-depth working knowledge of advanced accounting topics that are most relevant in today's business environment and reviewed every year with input from accounting professionals and alumni. Esteemed faculty experts bring practical experience into each class, giving the degree even more long-term value.

The Master of Accountancy and Data Analytics is designed for individuals who want to prepare for professional success in accounting and develop the skills and knowledge needed to launch their accounting career. Graduates are prepared to pass several sections of the CPA exam. The CPA designation is not critical for all accounting career paths, but becoming a CPA could be advantageous in the accounting profession. CPA requirements are set by each state, and all states require a minimum total of 150 credit hours. Students are encouraged to review the requirements of the state in which they intend to seek a CPA license. Each state has a board of accountancy that can provide this information. Students can also contact the National Association of State Boards of Accountancy at <https://nasba.org> (<https://nasba.org>) for additional information.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: W. P. Carey MBA - Full-Time Program

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Accountancy, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required capstone course (ACC 512).

Required Core (3 credit hours)

ACC 586 Shareholder Value Creation and Financial Statement Analysis (3)

Electives (24 credit hours)

Culminating Experience (3 credit hours)

ACC 512 Advanced Auditing (3)

Additional Curriculum Information

Students should see the academic unit for an approved list of elective coursework.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants must have a foundational knowledge of accounting principles demonstrated either through a bachelor's degree in accountancy or demonstration of proficiency through an approved bridge or bootcamp.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all coursework completed at institutions other than ASU
- one letter of recommendation
- current resume
- short answer question responses
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letter of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Complete application instructions may be obtained from the department's website.

Applicants must complete program prerequisites (https://wpcarey.asu.edu/masters-programs/accounting/academics?sort-by=last_name_asc#prerequisites) prior to admission to the program. Graduate-level accounting courses are only open to students admitted to the graduate program.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/accountancy-data-analytics>) for program descriptions and to request more information.

Career Opportunities: Graduates are prepared with the essential academic preparation for pursuing professional careers in public, corporate and governmental accounting, as well as consulting or financial planning.

Career examples include:

- accountant
- auditor
- budget analyst
- tax auditor

Artificial Intelligence in Business, MS (BAAIBMS)

Online Degree Search Title: Artificial Intelligence in Business, MS

Campus: Tempe

Program Description: Students in the MS program in artificial intelligence in business develop technical AI and professional skills needed for success in the constantly evolving landscape of technology and business. With an emphasis on mindful implementation, students learn to understand the implications and possibilities enabled by AI, in addition to the importance of governance and principled innovation. They gain the necessary foundation to excel in evolving fields, with a focus on mindful AI that sets them apart in the workforce.

Anchored in the triad of Mindful AI: business domain knowledge, technical understanding and ethical awareness, this program aims to cultivate a highly skilled workforce proficient in thoughtfully applying AI across various industries and sectors. The demand for AI professionals is expected to

grow as more companies invest in AI technologies to improve their operations and customer experiences. Students can prepare to meet this demand with dedicated resources and career coaching from the W. P. Carey Career Services Center (<https://career.wpcarey.asu.edu/>).

The Department of Information Systems conducts inspirational and impactful research (<https://wpcarey.asu.edu/information-systems-degrees/faculty-research>) that helps push the frontiers of knowledge, and it incorporates state-of-the-art knowledge and advanced technology in teaching and seeks meaningful engagement with students, corporate stakeholders and society.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

- Global Management (Global Business), MGM
- Global Management (Global Digital Transformation), MGM
- Global Management, MGM

Degree Requirements:

30 credit hours including the required capstone course (CIS 576).

Required Core (6 credit hours)

CIS 565 Artificial Intelligence in Business (3)

CIS 568 AI Business Strategy (3)

Restricted Electives (21 credit hours)

CIS 505 Enterprise Data Analytics (3) or CIS 506 Information Management (3)

CIS 508 Machine Learning in Business (3)

CIS 509 Analytics for Unstructured Data (3)

CIS 510 Enterprise Processes and Systems (3)

CIS 515 AI and Data Analytics Strategy (3)

CIS 591 Seminar (6)

Culminating Experience (3 credit hours)

CIS 576 Transforming Business with AI (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and W. P. Carey.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in business or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- short answer questions
- one letter of recommendation
- professional resume
- written statement
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency
2024-25 Academic Catalog Archive

(<https://admission.asu.edu/international/graduate/english-proficiency>) regardless of their current residency.

The letter of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Complete application instructions may be obtained from the department website (<https://wpcarey.asu.edu/information-systems-degrees>).

Career Opportunities: Graduates of the master's degree in artificial intelligence in business are equipped with the in-demand technical and business acumen needed to excel in the rapidly changing realms of technology and business.

The AI market is experiencing rapid growth, valued at \$136 billion as of March 2023 and projected to reach \$15.7 trillion by 2030, growing at an annual rate of 37%. The job market mirrors this trend with nearly 45,000 open AI jobs in February 2023, and AI professionals rank among the fastest-growing job categories. Companies are embracing AI technologies, with 75% planning to adopt AI within the next five years and half of them expecting AI to drive job growth. Compensation in the AI field is lucrative; entry-level AI specialists earn an estimated \$101,310 per year, and the average salary is \$127,380.

Career examples include:

- AI consultant
- AI entrepreneur
- AI product or project manager
- AI specialist
- big data analyst
- business intelligence analyst
- chatbot developer
- data analyst
- machine learning engineer
- Python developer

Business Administration (Accountancy), PHD (BAACCTPHD)

Online Degree Search Title: Accountancy, PhD

Campus: Tempe

Program Description: The PhD program in business administration with a concentration in accountancy develops students' capability to review, analyze, conduct and publish research.

The curriculum consists of a series of research seminars and theory-building and statistical coursework that supplement and complement students' abilities and desires. In addition, doctoral students participate in ongoing research projects in conjunction with faculty members in the School of Accountancy.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

This program consists of 12 credit hours of dissertation and 72 credit hours of coursework and research. Students may not apply credit hours earned from a previously awarded doctoral degree from ASU or another institution toward their current ASU doctoral degree. However, at the academic unit's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Students work with their study committees to determine an appropriate plan of study. Common areas of functional specialization include financial and managerial accounting, auditing and taxation. Within these functional areas, doctoral studies may emphasize experimental or archival research methods. All accountancy doctoral students are required to take a three-semester sequence of accountancy doctoral coursework. A maximum of 12 approved graduate credit hours may be transferred to satisfy program requirements.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam; an oral exam may also be required at the discretion of the academic unit.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled in at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit, such as 795 Continuing Registration, during the semester (including a summer session) in which the student defends the dissertation.

For detailed information regarding the university's doctoral degree requirements, students should refer to the Graduate College policy and procedures for a Doctor of Philosophy.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GMAT scores
- portfolio
- letters of recommendation
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applications are initially reviewed by a School of Accountancy doctoral committee using a portfolio approach. In addition to GMAT scores and prior academic performance, letters of recommendation and a personal statement are reviewed to ensure a good match of the applicant's goals and the school. Recommendations for action are then made to the director of doctoral programs in the W. P. Carey School of Business who, in turn, makes recommendations to Graduate Admission Services.

Career Opportunities: Graduates are prepared for careers at leading research universities. Career opportunities include:

- professor
- researcher in accounting
- research professor

Business Administration (Agribusiness), PHD (BAAGRIPHD)

Online Degree Search Title: Agribusiness, PhD

Campus: Polytechnic

Program Description: The discipline of agribusiness applies theory and quantitative methods in economics, finance, marketing and management to issues involved in the production, distribution, and marketing of food and fiber. Doctoral students of agribusiness are involved with research in the following:

- agribusiness management
- derivatives, commodity marketing and risk management
- food and fiber supply chain management
- food marketing
- food policy and promotion
- global agricultural trade and policy
- strategic marketing by food retailers

The interdisciplinary PhD program in business administration with a concentration in agribusiness produces scholars trained in the latest methods of business and economic analysis who can emerge on the forefront of problem-solving in a vital sector of the global economy. Agribusiness graduates are expected to assume teaching and research positions at top-ranked research universities.

This program is offered by the W. P. Carey School of Business and the Morrison School of Agribusiness.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 credit hours (including research credit) of the approved doctoral program and 12 dissertation credit hours must be completed after admission to the student's doctoral program. Students may not apply credit hours earned for a previously awarded doctorate degree from ASU or another institution toward their current ASU doctorate. However, at the individual academic unit's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Agribusiness doctoral students are expected to develop a program of study consisting of three elements. Students study core theory and quantitative methods coursework in economics and management from the Morrison School of Agribusiness as well as advanced courses in at least one of these areas in the W. P. Carey School of Business: economics, finance, marketing, supply chain management or management. Students also complete a three-course sequence of doctorate-level theory and methods from the Morrison School of Agribusiness as applied to issues and concepts specific to the agribusiness sector.

The agribusiness doctorate is designed to allow flexibility with focus, so each student's program of study is distinct, but is designed to produce the highest level of research competency in the student's chosen area of interest.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved program of study, the academic unit may initiate the student's comprehensive examination process. The comprehensive examination consists of, at minimum, a written exam, and at the discretion of the academic unit an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status in a letter from the dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled in at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit, such as 795 Continuing Registration, during the semester (including summer session) in which the student defends the dissertation.

For detailed information regarding the university's doctoral degree requirements, students should refer to the Graduate College policies and procedures.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a

minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- official GRE general exam or GMAT scores
- personal statement
- current curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. Complete information on the English proficiency exams and other required documents can be found on the Graduate Admission Services (<https://admission.asu.edu/apply/international/graduate>) website.

ASU does not accept the GRE® General Test at home edition.

Applicants must submit all the items listed above to complete an application file. Incomplete files will not be reviewed or considered until complete.

An explanation of the applicant's goals should be addressed in the personal statement.

Students should see the program website for application deadlines. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Career Opportunities: Graduates of the doctoral program in business administration at one of the largest public universities in the U.S. have learned from thought leaders in their respective fields and benefitted from the university's tremendous resources. These graduates are fully prepared for careers in research and academia.

Careers opportunities include:

- data scientist
- economic consultant
- market analyst
- professor
- research economist

Business Administration (Computer and Information Systems), PHD (BAINFSYPHD)

Online Degree Search Title: Computer Information Systems, PhD

Campus: Tempe

Program Description: The Department of Information Systems offers a computer information systems concentration within the PhD in business administration. The full-time program prepares scholars for careers at leading research-focused educational institutions.

This program allows doctoral students to participate in ongoing research projects in conjunction with faculty members in the department. Research topics include business analytics and big data; health care IT; IT-enabled services and process innovation; information economics and strategy; security and privacy; and social media, e-commerce and mobile platforms.

Business faculty and doctoral students present their research at leading national and international conferences and publish their research in academic journals. In addition to publishing in top information systems journals, doctoral students are often published in leading journals in other disciplines, including accounting, economics, finance, health care management, marketing, managerial decision-making, operations management and strategic management.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

The doctoral program consists of a minimum of 84 credit hours of graduate-level coursework beyond the bachelor's degree. A minimum of 42 credit hours of doctoral coursework and 12 credit hours of dissertation are required to be taken at Arizona State University's Tempe campus. At the department's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Students work with their program committees to determine an appropriate plan of study. Common areas of specialization for doctoral studies include:

- business analytics and big data
- health care information technology
- information economics and strategy
- IT-enabled services and process innovation
- security and privacy
- social media, e-commerce and mobile platforms

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examination. At minimum, the comprehensive examination consists of a minimum of a written exam, and an oral exam may also be required by the academic unit.

Candidacy

Doctoral students are notified of achieving candidacy status by receipt of a letter from the dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctoral degree. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit, such as 795 Continuing Registration, during the semester, including summer session, in which the student defends the dissertation.

For detailed information regarding the university's doctoral degree requirements, students should refer to the Graduate College policies and procedures.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GMAT score
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

International applicants whose native language is not English must submit scores from the TOEFL. For more information on requirements, students should review the program's website. They should also review the admission services (<https://admission.asu.edu/apply/international/graduate>) website for specific ASU admission requirements.

A master's degree or MBA is recommended (30 credit hours may count toward the minimum total of 84 hours of coursework in the doctoral program). At least two years of full-time related work experience is recommended.

Doctoral students admitted to the W. P. Carey School of Business must have demonstrated competency in mathematics, strong quantitative ability, competency in the use of computer technology for analytical purposes, and an undergraduate degree in a related field from an accredited

university.

Applications are reviewed by the department's faculty committee using a portfolio approach. The committee reviews each individual application and examines all parts equally.

Career Opportunities: A graduate of the doctorate in business administration with a concentration in information systems from the W. P. Carey School of Business is prepared for a career at leading research universities.

Career opportunity positions include:

- data scientist
- professor
- research professor

Business Administration (Finance), PHD (BAFINANPHD)

Online Degree Search Title: Finance, PhD

Campus: Tempe

Program Description: The primary objective of the PhD program in business administration with a concentration in finance is to train students for careers as professors of finance at major research universities.

The program provides a challenging course of study in the most recent developments in both the theoretical and empirical aspects of financial economics. This course of study, along with work in economics and statistics, serves as preparation for the understanding and critical analysis of current issues in finance.

Students in the program learn from thought leaders in their respective fields and draw on the resources of America's largest public university. Doctoral students work with distinguished faculty who comprise one of the most productive research groups in the world. Recent surveys of research productivity rank the Department of Finance among the best in the world for research output in the top journals. The faculty produce advanced empirical research in the areas of equity markets, corporate finance, organization structure, international finance, financial institutions and asset pricing. The program is relatively small, promoting faculty-student mentoring relationships; doctoral students receive personal attention.

The program seeks highly capable students with strong academic backgrounds and preferably with work experience.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 credit hours of the approved doctoral degree program, which may include research credit, and 12 dissertation credit hours must be completed after admission to the student's doctoral program. Students may not apply credit hours earned for a doctoral degree previously awarded at ASU or at another institution toward this doctoral degree. However, at the individual academic unit's discretion, students may apply up to 30 relevant credit hours from a previously awarded master's degree toward their doctoral plan of study.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of the comprehensive examination. At minimum, the examination consists of a written exam, and an oral exam also may be required by the academic unit.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or for one hour of appropriate graduate-level credit, such as 795 Continuing Registration, during the semester in which the student defends the dissertation, even if it is a summer session.

For detailed information regarding the university's doctoral degree requirements, students should refer to the Graduate College policy and procedures for the Doctor of Philosophy.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three academic letters of recommendation
- scores from the GMAT or GRE
- a brief statement of their career objectives
- a resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. The minimum TOEFL iBT requirement is a score of 80. An iBT score of 26 is required on the ASU Speaking Proficiency English Assessment Kit for applicants who wish to apply for teaching associateships.

Admission to the program is granted to applicants who present convincing evidence of high-order analytical skills, intellectual curiosity and the ability to work independently in pursuing scholarly research. Applicants should possess the intellectual curiosity and discipline required for original inquiry.

While many accepted students have an MBA or MS in a business-related field, others have a background in other areas, such as engineering, economics, mathematics or physics.

Career Opportunities: Graduates with a W. P. Carey School of Business doctorate in finance embark on careers in research and academia.

Careers opportunities include:

- assistant professor
- professor
- researcher

Business Administration (Management), PHD (BAMGMTPHD)

Online Degree Search Title: Management, PhD

Campus: Tempe

Program Description: Students in the PhD program in business administration with a concentration in management gain current and relevant knowledge of practice and theory from an esteemed faculty of world-class researchers and teachers in the Department of Management and Entrepreneurship, including multiple Academy of Management Fellows.

The doctoral program places primary emphasis on the development of research competence and also emphasizes teaching as a vehicle to academic professionalism. It is not intended for those seeking careers in industry or consulting.

The program develops scholars who are prepared to assume the diverse responsibilities of faculty positions at leading research universities.

Although management is a broad field, this doctoral program is best suited for students interested in specializing in organizational behavior, strategic management or organization theory.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 credit hours of the approved doctoral program, which may include research credit, and 12 dissertation credit hours must be completed after admission to the doctoral program. Students may not apply credit hours earned for a doctoral degree previously awarded at ASU or another institution toward their current ASU doctorate program. However, at the individual academic unit's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Doctoral students are required to commit full time to the program, at least until they have successfully defended the dissertation proposal. Full-time enrollment entails a minimum of six credit hours of coursework in any regular academic semester. To reach a total of 84 credit hours for the program, most students enroll for nine to 12 credit hours per semester. In addition, students work closely with faculty members through a research assistantship. The program is relatively small, with an emphasis on high quality, offering a great deal of individual attention and mentoring to students.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam, and an oral exam also may be required at the discretion of the academic unit.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation proposal.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit during the semester (including summer sessions) in which the student defends the dissertation.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GMAT scores
- prior academic performance records
- three letters of recommendation
- a personal statement
- employment summary
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applications are initially reviewed by a faculty committee using a portfolio approach. Materials are reviewed to ensure a good fit between students' goals and research interests and those of the department. Graduate Admission Services admits or denies each applicant and notifies them in writing.

Career Opportunities: Graduates are prepared for careers at leading research universities. Possible career opportunities include:

- assistant professor

- professor
- researcher

Business Administration (Marketing), PHD (BAMARKPHD)

Online Degree Search Title: Marketing, PhD

Campus: Tempe

Program Description: Each doctoral student in the PhD program in business administration with a concentration in marketing receives a comprehensive, broad-based education in marketing concepts and research techniques.

All students complete a core curriculum yet tailor their work to achieve personal goals. Furthermore, students have the ability to specialize in one of three research domains:

- consumer behavior
- quantitative marketing models
- service strategy

Students do not need to declare a specialization during the application process but, if known, applicants can indicate their intended specialized direction of study. It is expected that by the end of their first year, students will commit to one of these three domains.

This is a full-time program only and is not intended for people who want to work in industry positions. The program is typically completed in five years.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 credit hours of the approved doctoral program, which may include research credit, and 12 dissertation credit hours must be completed after admission to the doctoral program. A student may not apply credit hours earned for a doctoral degree previously awarded at ASU or another institution toward their current ASU doctorate program. However, at the academic unit's discretion, a student may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam, and an oral exam also may be required at the discretion of the academic unit.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation proposal.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit, such as MKT 795 Continuing Registration, during the semester in which the student defends the dissertation, including summer sessions.

Students should refer to the Graduate College policies and procedures (<https://graduate.asu.edu/current-students/policies-forms-and-deadlines/policy-manuals>) for detailed information regarding the university's doctoral degree requirements.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years. Any exception must be approved by the supervisory committee and the dean of the Graduate College.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GMAT or GRE scores
- prior academic performance records
- letters of recommendation
- a personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their residency.

ASU does not accept the GRE® General Test at home edition.

Applications are initially reviewed by a faculty committee using a portfolio approach. Materials are reviewed to ensure a good fit between the student's goals and research interests and those of the department. Recommendations for action are then made to ASU Admission Services, which admits or denies each applicant and notifies them in writing.

Career Opportunities: Graduates of the doctoral program in business administration at one of the largest public universities in the U.S. have learned from thought leaders in their respective fields and benefitted from the university's tremendous resources. These graduates are fully prepared for careers in research and academia.

Business Administration (Supply Chain Management), PHD (BASCMPHD)

Online Degree Search Title: Supply Chain Management, PhD

Campus: Tempe

Program Description: Supply chain management incorporates the core areas of logistics management, operations management and supply management.

The PhD in business administration with a concentration in supply chain management is a full-time residential program for students whose career goals are full-time university research and teaching. The curriculum guides students in conducting high-quality research and teaching at the university level.

Students are trained to develop the capability to recognize problems related to supply chain management and frame these problems into research questions, which are then addressed in a scholarly way, and they are required to review, analyze, conduct and publish research. They are prepared to do this through a series of doctoral seminars and research methods courses and by participating in active research projects. Students also develop their teaching skills through assignments as teaching assistants or instructors. Teaching assignments typically take place during the last two years of the program.

This program is designed to be completed within five years.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The doctoral program requires the completion of coursework, the completion of academic papers for submission to journals, a comprehensive exam

and a dissertation. The program is generally viewed as a five-year process. Most students serve in research assistantships for all five years. During the program, students are expected to actively participate in required courses as well as in seminars and presentations from colleagues, department faculty and visiting scholars.

Students also have the opportunity to teach courses during their doctoral program. Teaching assistantships typically are made available during the last two years of the program. This allows doctoral degree students to get research projects and manuscripts into the multiyear pipeline typical of accepted research articles. Through areas of excellence, centers and the faculty, the supply chain management program has special opportunities for industry-based research projects.

Coursework

The program consists of a minimum of 84 credit hours of approved graduate coursework beyond the bachelor's degree. The department requires doctoral students to take 48 credit hours of graduate coursework in residence at ASU during their first two years. The specific classes must be approved by faculty members in the students' areas of excellence. Students are also required to take 12 hours of research and 12 hours of dissertation credit. A maximum of 12 credit hours can be transferred from previous graduate coursework. Moreover, students' plans of study must be approved in advance by their program chair.

Academic Papers

Students are expected to work on academic papers for submission to journals during their doctoral program. Summer months are intended for manuscript writing for those students who have yet to successfully defend their dissertation proposals. At the end of each summer, all doctoral students are required to have at least one new manuscript ready for submission to a journal for publication. Faculty in the areas of excellence supervise manuscript planning and writing. The bulk of the writing is done during the summer by the students. Faculty in the students' areas of excellence evaluate the papers and provide detailed feedback and instructions for rewriting of papers.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam, and an oral exam also may be required at the discretion of the academic unit.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit, such as 795 Continuing Registration, during the semester (including a summer session) in which the student defends the dissertation.

For detailed information regarding the university's doctoral degree requirements, students should refer to the Graduate College policies and procedures (<https://graduate.asu.edu/current-students/policies-forms-and-deadlines/policy-manuals>).

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GMAT or GRE scores
- prior academic performance records
- letters of recommendation
- a personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Business Analytics, MS (BABUSANMS)

Online Degree Search Title: Business Analytics, MS

Campus: Tempe, Online

Program Description: Delivered by the highly ranked W. P. Carey departments of Information Systems and Supply Chain Management, the STEM-designated MS program in business analytics builds on the quantitative skills and knowledge needed to advance on the analytics career ladder.

Data is becoming vital to today's world, making business analytics specialists one of the most valuable careers. Students learn to extract value from data, lead data-driven projects and create an overall impact within business organizations. Students can choose from five specializations to deepen their focus in one specific area: big data, cloud computing and tech consulting, fintech, marketing analytics or supply chain analytics.

Two formats are available for the master's degree program. The first pathway is the full-time program --- designed for individuals who want to immerse themselves in full-time graduate studies --- which is a nine-month or 16-month program, depending on the specialization track chosen. The second is the online delivery option in which students deepen their skills in business analytics and learn more about evolving topics in this field. This option is designed for busy working professionals seeking to continue working full-time while attending school.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Business Data Analytics, BS

Supply Chain Management, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project courses (SCM 593 and CIS 593).

Required Core (6 credit hours)

CIS 509 Analytics for Unstructured Data (3)

SCM 517 Business Process Analytics (3)

Electives (21 credit hours)

Culminating Experience (3 credit hours)

CIS 593 Applied Project (1.5)

SCM 593 Applied Project (1.5)

Additional Curricular Information

For electives, students should consult the academic unit for a list of approved courses.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- one letter of recommendation
- current resume
- short-answer question responses
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letter of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Complete application instructions may be obtained from the department website.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/master-science-business-analytics/>) for program descriptions and to request more information.

Career Opportunities: Graduates have the essential academic preparation required for roles that derive value from data and modeling, lead data-driven analyses and create critical business advantages.

Career examples include:

- business intelligence analyst
- computer database architect
- data analyst
- IT project manager

Economics, MS (BAECONMS)

Online Degree Search Title: Economics, MS

Campus: Tempe

This program will begin accepting applications for Fall 2025.

Program Description: The MS program in economics incorporates applied learning experiences, flexible elective options and career coaching to prepare students for success in dynamic roles across industries. Students learn economic modeling tools and skills they can leverage to transform businesses, government and society.

For the first half of the program, students take core courses in microeconomics, macroeconomics, and data science and econometrics, taught by leading economists with an extensive research record on these topics. A variety of interdisciplinary electives allow students to align the degree with their career goals.

Additionally, students can attend a summer math boot camp before the program starts to brush up on key concepts.

The curriculum also includes a collaborative project, where students apply newly developed knowledge to solve a practical industry problem. Students partner with a local corporation or the L. William Seidman Research Institute, which acts as an economic research and consulting resource for a variety of public and private clients.

The W. P. Carey Career Services Center (<https://career.wpcarey.asu.edu/>) provides resources and career coaching that students can access throughout the program. Graduates are prepared for roles in banking, management, consulting, investment and government, to name just a few examples.

In the last 40 years, the Department of Economics (<https://wpcarey.asu.edu/economics-degrees>) has become well known for its contributions to several fields of economics, including applied microeconomics, macroeconomics, economic theory, environmental economics, public finance, labor economics and economics of education.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> ([https://www.benefits.va.gov/gibill/" target="_Blank](https://www.benefits.va.gov/gibill/)).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

30 credit hours including the required applied project course (ECN 593).

Required Core (18 credit hours)

ECN 530 Microeconomics I (3)

ECN 532 Microeconomics II (3)

ECN 531 Macroeconomics I (3)

ECN 533 Macroeconomics II (3)

ECN 560 Data Science and Econometrics I (3)

ECN 565 Data Science and Econometrics II (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)

ECN 593 Group Project (3)

Additional Curriculum Information

Students should see the academic unit for an approved list of elective coursework. It is strongly recommended that students take an optional career coaching course through WPC 502. This course will not count for credit but will strengthen students' experience and help students build skills for their future careers.

For their culminating experience, students will find local companies to provide real-world problems that companies are facing, and assign them to groups of students to analyze the problem and come up with a solution. Faculty members involved in the program will be assigned to each group as the project advisor. At the end of the project, each student will write their individual paper on the project and will be evaluated individually.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts of all coursework completed at institutions other than ASU

- one letter of recommendation
- current resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Career Opportunities: The Master of Science program in economics includes the essential academic preparation for students who are interested in pursuing a professional career in the fields of economics, corporate financial analysis and planning, commercial banking and insurance. Potential careers include:

- actuary
- budget analyst
- data scientist
- economist
- financial analyst
- market research analyst

Economics, PHD (BAECONPHD)

Online Degree Search Title: Economics, PhD

Campus: Tempe

Program Description: The PhD program in economics provides rigorous training in microeconomic theory, macroeconomic theory, applied economics and econometrics. Additionally, students may select a primary area of specialization for study:

- applied microeconomics
- econometrics
- economic theory
- environmental and resource economics
- financial economics
- macroeconomics

This full-time doctoral program prepares students for teaching and research positions at four-year institutions of higher education and for research positions in public agencies or private business organizations.

The program is relatively small in size, with about 45 doctoral students in residence at any time. This low student-to-faculty ratio affords greater faculty attention and mentoring than larger programs. Students become valued members of the department, involved in teaching, research and seminar activities.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

In addition to completing 60 credit hours beyond the bachelor's degree (30 credit hours beyond the master's degree) and 24 credit hours of research and dissertation, the doctoral student must accomplish five tasks:

- Meet the qualifying examination requirement.
- Present at least one area of emphasis.
- Pass the comprehensive examination (both written and oral components).
- Pass the dissertation proposal defense.
- Complete a dissertation with an oral defense.

Students should see the Department of Economics graduate student handbook for details concerning these tasks.
2024-25 Academic Catalog Archive

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The Department of Economics requires applicants to send official scores from the GRE directly to Graduate Admission Services. Applications are not reviewed until the GRE scores are received. ASU does not accept the GRE® General Test at home edition.

The admission policy weighs several factors, including letters of reference, overall GPA, GRE scores and performance in selected mathematics and economics courses. There are no absolute standards for any of the factors, but performance on each should clearly suggest academic potential that is far above those of the normal undergraduate student.

Admission guidelines are available on the Graduate Admission Services website. Applicants should see the program website for application deadlines and admission terms.

Career Opportunities: Graduates with a W. P. Carey School of Business doctorate in economics embark on careers in research and academia, learning from thought leaders in their respective fields and gaining the resources of one of the largest universities in the U.S.

Career opportunities include:

- assistant professor
- economist
- research associate

Entrepreneurship and Innovation, MS (HIIVDMS)

Online Degree Search Title: Entrepreneurship and Innovation, MS

Campus: Tempe

This program's name has changed effective Fall 2024. The previous name was Innovation and Venture Development.

Program Description: The MS program in entrepreneurship and innovation integrates the most advanced practices and technologies from business, engineering and design in a transdisciplinary, experience-based program that prepares the next generation of leaders with skills needed for launching successful ventures in any industry or sector, inside existing organizations or as new entities.

Graduates are prepared to lead cross-disciplinary teams in a world of growing uncertainty and ambiguity. They can identify needs and evaluate opportunities, generating insights from real-world problems; innovate solutions; and create and launch scalable business models that provide value to all stakeholders. Founders with this entrepreneurship and innovation degree from ASU can define a new standard for venture development.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Business (Sports Business), BA
Business Entrepreneurship, BS
Entrepreneurial Leadership, BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required capstone course (IVD 661).

Required Core (18 credit hours)

IVD 525 Fundamentals of Entrepreneurial Leadership (3)

IVD 560 Innovation Studio I: Discovery and Insight (3)

IVD 561 Innovation Studio II: Problem Reframing (3)

IVD 562 Innovation Studio III: Explore, Fail, Solve (3)

IVD 630 Scaling Entrepreneurial Leadership (3)

IVD 660 Innovation Studio IV: Business Model (3)

Electives or Research (6 credit hours)

Culminating Experience (6 credit hours)

IVD 661 Innovation Studio V: Scale (6)

Additional Curriculum Information

Students should see the academic unit for a list of approved elective coursework.

Admission Requirements: Applicants must fulfill the requirements of the Graduate College, the Herberger Institute for Design and the Arts, the Ira A. Fulton Schools of Engineering and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in business, design, engineering or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The applicant's written statement should describe an instance from the professional background outlining the applicant's use of innovation and entrepreneurial experience.

Career Opportunities: Career opportunities include:

- chief innovation officer
- creative developer
- director of engineering
- founder or CEO
- innovation manager
- management consultant
- marketing director
- product developer

Finance, MS (BAFINMS)

Online Degree Search Title: Finance, MS

Campus: Tempe

Program Description: Students in the MS program in finance develop deep expertise in corporate finance and asset or portfolio management and are equipped with the tools needed to manage complex financial institutions. The program is one of the few advanced finance degrees offered by a top-ranked business school, providing a foundation in business and finance. Students have access to world-renowned faculty, motivated classmates and personalized career resources.

Faculty members bring advanced research and decades of practical experience into the classroom. Classes are offered full time during the week, utilizing a lockstep course format that allows students to build on concepts throughout the program. Upon completion of the program, students can graduate with a Chartered Financial Analyst® designation. The program offers two tracks in corporate finance and investments or analytical methods to help students align their degree with their career goals.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: W. P. Carey MBA - Full-Time Program

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Finance, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

32 credit hours including the required capstone course (FIN 575).

Required Core (26--27 credit hours)

ACC 502 Financial Accounting (2.5 or 3)

FIN 502 Managerial Finance (2.5 or 3)

FIN 509 Quantitative Methods in Finance I (3)

FIN 525 Investment Strategies (2.5)

FIN 530 Derivatives (2.5)

FIN 535 Quantitative Methods in Finance II (3)

FIN 545 Advanced Corporate Finance (2.5)

FIN 550 Fixed Income (2.5)

FIN 560 International Finance (2.5)

FIN 565 Risk Management in Banks and Financial Institutions (2.5)

Other Requirement (2.5 credit hours)

FIN 555 Entrepreneurial Finance (2.5) or FIN 597 AI and Machine Learning Applications in Finance (2.5)

Electives (0--1 credit hours)

Culminating Experience (2.5 credit hours)

FIN 575 Finance Capstone (2.5)

Additional Curriculum Information

To account for the difference in the numbers of credit hours offered in the core courses, one credit hour of electives may be required.

For other requirements, substitutions may be allowed with approval of the academic unit.

The schedule follows the seven-week quarterly schedule of the MBA program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in business and management, economics, statistics, computer science or other types of science, engineering, technology and mathematics degree areas.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours or 90 quarter hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- one letter of recommendation
- short answer question responses
- current resume
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

There are two main audiences for the master's degree program: first, recent undergraduates from business, economics or related majors or from programs where quantitative skills have been emphasized; and second, career advancers who have strong quantitative skills and seek to adapt those skills to be more competitive in the job market. Career advancers must be able to commit to a full-time plan of study; the program may not cater to working professionals as it is currently designed.

This program is appropriate for students who have completed undergraduate programs with quantitative underpinnings at either ASU or other universities.

The letter of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Complete application instructions may be obtained from the department's website.

Career Opportunities: The Master of Science program in finance includes the essential academic preparation for students who are interested in pursuing professional careers in corporate finance, risk management, money management, financial planning, investment banking, consulting or real estate.

Career examples include:

- budget analyst
- financial analyst
- financial manager
- investment specialist

Global Financial Management, DBA (BAGFMDBA)

Online Degree Search Title: Global Financial Management, DBA

Campus: Tempe

Program Description: China is globalizing at an astonishing rate. This pace of change is profoundly affecting not only China's domestic situation, but also the global economy.

The DBA in global financial management is an applied professional doctorate designed for senior corporate leaders and government officials in China who are seeking a terminal degree alternative to the traditional doctorate intended for those pursuing an academic career. The leaders emerging from this program are prepared to transform China's economic structure and financial markets and shape the future of China's leadership roles in the global economy.

All such initiatives depend on the development of human capital --- the catalyst for all. Hence, the Doctor of Business Administration program is designed to sustain and amplify leaders who aspire to effect transformative changes in this exciting and dynamic global environment.

This program is offered by the W. P. Carey School of Business and Shanghai Advanced Institute of Finance.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

DBA 705 Global Corporate Strategy (3)

Electives (60 credit hours)

Research (9 credit hours)

Culminating Experience (12 credit hours)

DBA 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, 30 credit hours from a previously awarded master's degree can be used for this degree.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned, from a regionally accredited college or university of recognized standing, a Master of Business Administration, Master of Economics, Master of Finance, Master of Accountancy degree or a master's degree in a related field of specialization in business.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Additional Application Information

Proficiency in English is not required.

Official bachelor's and master's degree transcripts should be submitted and list all coursework in both the native language and an official English translation.

This degree is offered in China only. All applicants are required to contact the program coordinator before submitting the online graduate admission application.

Career Opportunities: The program is essential academic preparation for those interested in pursuing professional careers as leaders within organizations, in diverse functions such as human resources, finance and marketing.

Career examples include:

- CEO
- finance manager
- marketing manager
- supply chain manager

Global Logistics, MS (BAGLSMS)

Online Degree Search Title: Global Logistics, MS

Campus: West

Program Description: Classes for the MS in global logistics meet one night a week in person, followed by one night as a synchronous course. This is an evening program that allows flexibility for students with both in-person and online offerings.

The curriculum, with in-person and sync courses offered in the evening, provides specialized knowledge and practical perspectives on global operations, logistics and multicultural approaches. Students build a foundation for a growing global field through curriculum developed by one of the leading supply chain management departments in the country.

Students in this program have access to world-renowned faculty, motivated classmates and personalized career resources. The W. P. Carey Career Services Center provides students with innovative career programming and coaching, as well as an opportunity to meet with a wide range of employers.

Degree Requirements:

30 credit hours including the required applied project course (SCM 593).

Required Core (24 credit hours)

SCM 502 Operations and Supply Chain Management (3)

SCM 515 Decision Models for Supply Chain Management (3)

SCM 516 Descriptive and Predictive Supply Chain Analytics (3)

SCM 520 Strategic Procurement (3)

SCM 532 Supply Chain Cost and Design Issues (3)

SCM 541 Logistics in the Supply Chain (3)

SCM 542 Logistics, Globalization and Economic Development (3)

SCM 545 Cases in Global Logistics (3)

Other Requirements (3 credit hours)

SCM 587 Project Management (1.5)

SCM 591 Seminar: Sustainability and Social Responsibility (1.5)

Culminating Experience (3 credit hours)

SCM 593 Applied Project (3)

Additional Curriculum Information

The schedule follows a combination of ASU scheduling options. Three courses follow schedule C and have a semester-long duration. The other seven courses follow the 7.5-week quarterly schedule of the MBA program. Those courses require some online and extra class time to meet the 40 contact hours standard of the Association to Advance Collegiate Schools of Business.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in business and management, computer information systems, economics or other types of global studies or similar degree areas.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours or 90 quarter hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- essays
- one letter of recommendation
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

There are two main audiences for the master's degree program: recent undergraduates from logistics-related majors, and career advancers with a background in supply chain management and operations whose skills can be expanded to include a broader global context and exposure to emerging markets. Students must be able to commit to a full-time plan of study; the program may not cater to working professionals as it is currently designed.

This program is appropriate for applicants who have strong quantitative skills and seek to adapt those skills to be more competitive in the job market.

There is no requirement for a foreign language exam for this program.

Career Opportunities: Graduates are prepared for the growing field of global logistics, possessing the essential academic preparation for pursuing a professional career with an international perspective in logistics, supply chain and global operations.

Career examples include:

- logistics analyst
- logistics manager
- supply chain analyst
- transportation manager

Management, MS (BACMRMS)

Online Degree Search Title: Management, MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description: Arizona State University's MS in management, offered by the W. P. Carey School of Business, is an innovative business degree program providing new liberal arts, science, engineering and other nonbusiness graduates with the intellectual and professional skills needed to succeed in today's business environment. This one-year program is designed to develop critical thinking skills, as applied to fundamental business procedures and processes, and leadership skills.

Designed for graduates of nonbusiness programs with fewer than two years of work experience, students achieve the capability and motivation to rapidly progress in any profession where business plays an important role. The management program differs substantially from a traditional MBA program in that no work experience is required for admission and the coursework is completed in one year, giving a broad overview of the essentials of managerial decision-making.

Three distinct components of the Master of Science program in management prepare students to immediately add value and lead in all types of business environments: core business courses that deliver necessary business skills through integrative cases, project-based learning and teamwork; leadership courses that develop understanding of strategic vision, instituting change, information systems, and the role and importance

of sustainability; and a culminating experience that bridges the gap between academic learning and professional business application.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: Legal Studies, MLS

Degree Requirements:

36 credit hours including the required applied project course (MGT 593).

Required Core (28.5 credit hours)

ACC 501 Fundamentals of Financial Accounting (1.5)

ACC 504 Fundamentals of Managerial Accounting (1.5)

ECN 504 Fundamentals of Managerial Economics (3)

FIN 501 Basics of Finance: The Art of Managing Resources to Create Value (3)

LES 586 Fundamentals of Ethical Issues for Managers (1.5)

MGT 501 Fundamentals of Organizational Behavior (3)

MGT 528 Basics of Mastering the Art of Influence and Negotiations (3)

MGT 586 Fundamentals of Strategic Management (1.5)

MKT 501 Fundamentals of Marketing Management (3)

SCM 501 Fundamentals of Operations and Supply Chain Management (3)

SCM 587 Project Management (1.5)

WPC 504 Fundamentals of Statistics for Managers (3)

Other Requirements (3 credit hours)

MGT 591 Topic: Business Communication (1.5)

WPC 594 Topic: Job Search Strategies (1.5)

Culminating Experience (4.5 credit hours)

MGT 593 Applied Project: Consulting Project Capstone (3) and

MGT 593 Applied Project: Consulting Project Lab (1.5)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.0 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- one letter of recommendation
- current resume
- short answer question responses
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letter of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Complete application instructions may be obtained from the department's website.

Career Opportunities: The Master of Science in management includes the essential academic preparation for students who are interested in pursuing professional careers in diverse roles and industries focusing on practical, universal business knowledge.

Management, MS (BAMCCMS)

Online Degree Search Title: Management in China/Corporate, MS

Campus: Tempe

Program Description: The W. P. Carey School of Business at Arizona State University is directly involved in the development of top leadership in China. The MS custom corporate program in China is designed for participants of a single company in China. Upon successful completion of the program curriculum, a participant is granted an ASU Master of Science degree in management through the W. P. Carey School of Business.

The curriculum is designed to leverage participants' existing strengths in a chosen management concentration, and it provides intensive knowledge on managerial decision-making and strategic formulation. Accordingly, the curriculum is designed with a strong transdisciplinary focus while achieving cycle time efficiency. At the core of the curriculum delivery is emphasis on practical applications with direct business connectivity. A noteworthy feature of the curriculum is its integration of global practices and local market characterizations to enable participants' ability to excel in the modern economy.

The hallmarks of prestigious programs include two key elements: the faculty and the students. No other Master of Science program in China offers a more impressive list of faculty or students than the W. P. Carey China program. The faculty includes renowned professionals from the W. P. Carey School of Business as well as from other prestigious American business schools.

Degree Requirements:

36 credit hours including the required capstone course (MGT 588).

The curriculum consists of 12 courses concentrating on management. It is a world-class master's degree program with immersion in financial accounting, managerial finance, statistics and economics, marketing management, organizational theory and behavior, human resources management, supply chain management and information technology management.

All students must successfully complete the comprehensive requirement for Master of Science graduates established by the W. P. Carey School of Business and the Graduate College. As a lockstep program, there are no opportunities for participants to make up missed courses or to substitute courses. Therefore, students must complete all 12 courses before graduation with a grade of "B" or higher (3.00 on a 4.00 scale) for each course to satisfy the comprehensive requirement. A thesis is not required.

Admission Requirements: The Master of Science custom corporate program in China requires that students be nominated into the program by the company, and it is only delivered in China. Applicants are required to contact the program coordinator before submitting the online graduate admission application.

Career Opportunities: The Master of Science in management program includes the essential academic preparation for students who are interested in pursuing professional careers as leaders within organizations of diverse functions such as human resources, finance or marketing.

Career examples include:

- CEO
- finance manager
- marketing manager
- supply chain manager

Real Estate Development, MREDev (ARREMREDEV)

Online Degree Search Title: Real Estate Development, MRED

Campus: Tempe

Program Description: Students in the W. P. Carey MRED program participate in group projects focused on real estate development in a collaborative class environment. Students learn to address the physical, legal, economic, political and financial conditions of property in order to find solutions and complete projects.

This transdisciplinary program is a partnership with the Sandra Day O'Connor College of Law, the Herberger Institute for Design and Arts and the Del E. Webb School of Construction.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: Legal Studies, MLS

Degree Requirements:

36 credit hours including the required capstone course (RED 515).

While there are no business course prerequisites, potential students must demonstrate strong quantitative ability and effective written and oral communication skills.

The program is offered in an intense format that covers two academic semesters. Students take required core course modules in a variety of formats, including:

- comprehensive module exams to assess aggregate knowledge
- face-to-face classroom instruction
- group work
- independent research
- synthesis projects
- topical quizzes
- weekly assignments

The business school does not accept graduate credits earned while students are in nondegree status or from courses taken prior to admission to the program or while enrolled in another program outside the W. P. Carey School of Business.

There is no foreign language requirement.

There is no thesis requirement.

All students must successfully complete the final synthesis project established by the W. P. Carey School of Business and the Graduate College for the Master of Real Estate Development. The comprehensive culminating experience is integrated with RED 515 Capstone Project: Mixed Use Property Development. Students who pass this course with a grade of "B" (scale is 4.00 = "A") or higher satisfy the culminating experience requirement.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all coursework completed at institutions other than ASU
- one letter of recommendation
- current resume
- responses to short answer questions
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letter of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Complete application instructions may be obtained from the department's website.

Career Opportunities: The Master in Real Estate Development program includes the essential academic preparation for students who are interested in pursuing professional careers in corporate finance, risk management, money management, financial planning, investment banking, consulting or real estate.

Career examples include:

- financial analyst
- real estate broker
- real estate manager
- regional planner

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

Supply Chain Management, DBA (BASCMDBA)

Online Degree Search Title: Supply Chain Management, DBA

Campus: Tempe

Program Description: The DBA program in supply chain management is an applied professional doctorate designed for senior professionals with significant managerial experience in supply chain management who are seeking a terminal doctoral degree. The program combines advanced supply chain knowledge with rigorous coursework in research methods to sustain and amplify leaders who aspire to instill transformative changes in global supply chain management practices.

The program is designed to advance careers in senior leadership roles with a solid quantitative foundation. Graduates of the program are equipped with the skills to effectively lead supply chain teams and shape complex supply chain designs and transformations.

GI Bill® benefits

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at <https://www.benefits.va.gov/gibill/> (<https://www.benefits.va.gov/gibill/>).

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

84 credit hours, an oral comprehensive exam, a written comprehensive exam, including the required dissertation (SCM 799).

Required Core (9 credit hours)

DBA 721 Research Seminar I Research in Action (3)

DBA 722 Research Seminar II Research in Action II (3)

DBA 723 Research Seminar III Research in Action III (3)

Electives (51 credit hours)

Research (12 credit hours)

SCM 792 Independent Research (12)

Culminating Experience (12 credit hours)

SCM 799 Dissertation (12)

Additional Curriculum Information

30 credit hours can be transferred from an accredited master's degree program. An additional 21 credit hours need to be completed through five elective courses.

The dissertation requires an oral proposal and a final written document that must be submitted to the advising committee. The written document must demonstrate doctoral-level depth and rigor, and an oral defense is required to complete the culminating experience.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in business administration or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admissions application and application fee
- official transcripts
- personal statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Curriculum Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of current residency.

The professional resume and personal statement should reflect a minimum of seven years of relevant leadership experience.

There are no length or content requirements for the personal statement or the letters of recommendation.

Career Opportunities: Graduates can pursue opportunities in a variety of industries to analyze and solve global supply chain challenges. The program provides experienced professionals with applied academic theories and tools to contribute to their organizations' success with practice-based research in supply chain management. The program prepares candidates to advance into roles as:

- administrators
- corporate executives
- senior consultants
- university teaching faculty

Supply Chain Management, MS (BASCMMMS)

Online Degree Search Title: Supply Chain Management, MS

Campus: West, Online

Program Description: Students discover the technical elements of supply chain and learn how to manage the flow of products and the processes that generate them.

The MS program in supply chain management provides students with an understanding of the role the supply chain manager can play in an enterprise supply chain and in the overall strategy. The program exposes students to leading supply chain management operating practices, analysis methods, technology applications and strategy development.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Supply Chain Management, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required capstone course (SCM 551).

Required Core (3 credit hours)

SCM 521 Supply Management and Negotiation (3)

Other Requirements (12 credit hours)

CIS 512 Business Intelligence (3) or SCM 545 Cases in Global Logistics

SCM 502 Operations and Supply Chain Management (3)

SCM 515 Decision Models for Supply Chain Management (3)

SCM 532 Supply Chain Cost and Design Issues (3)

SCM 541 Logistics in the Supply Chain (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)

SCM 551 Operations Planning and Execution (3)

Additional Curriculum Information

Students choose elective and research coursework from a restricted list. Students should see the academic unit for the approved course list. Other coursework may be used with approval of the academic unit.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in business, engineering or sciences (such as math or statistics) or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are eligible to apply to the online program if they have earned a four-year bachelor's degree from a regionally accredited institution and have successfully completed one of the following programs with a cumulative score of 80% or above:

- Foundations of Supply Chain Management Certificate on ASU's Career Catalyst platform.
- MITx MicroMasters® program (<https://edx.org/masters/micromasters/mitx-supply-chain-management>) in Supply Chain Management on edX.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of recommendation
- letter of intent or written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Complete application instructions may be obtained from the department's website.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/supply-chain-management-ms/>) for program descriptions and to request more information.

Career Opportunities: This program includes the essential academic preparation for those who are interested in pursuing professional careers in purchasing and procurement, operations or logistics. Graduates are prepared for advancement in supply chain management careers across diverse industries and functions and for pursuit of careers in management, consulting, business development and supply chain management information technology.

Career examples include:

- logistics manager
- purchasing analyst
- supply chain analyst
- supply chain manager

Supply Chain Management (certificate), Certificate (BASCMCERT)

Online Degree Search Title: Supply Chain Management (Graduate Certificate)

Campus: Online

ASU is not currently accepting applications for this program.

Program Description: The certificate program in supply chain management is composed of courses with content that is tightly integrated and offers a comprehensive coverage of core topics in supply chain management.

The intended audiences for this certificate include working professionals who have graduated from general management undergraduate or graduate business programs and wish to supplement their degrees with focused, graduate-level courses in supply chain management. Students are either relatively new to supply chain management and desire a foundational knowledge of supply chain management complexities as well as a strong understanding of how companies leverage their supply chains to achieve competitive advantage, or experienced supply chain management professionals who wish to update their knowledge regarding current thinking and best practices through interaction with faculty engaged in broad-based research and consulting.

Degree Requirements:

15 credit hours including the required capstone course (SCM 532).

Required Core (12 credit hours)

SCM 502 Operations and Supply Chain Management (3)

SCM 520 Strategic Procurement (3)

SCM 521 Supply Management and Negotiation (3)

SCM 541 Logistics in the Supply Chain (3)

Culminating Experience (3 credit hours)

SCM 532 Supply Chain Cost and Design Issues (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- evidence of a minimum of two years of full-time work experience
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>), regardless of their current residency.

Career Opportunities: The certificate program in supply chain management includes the essential academic preparation for students who are interested in pursuing professional careers in purchasing and procurement, operations or logistics.

Supply Chain Management and Engineering, MS (BASCMEMS)

Online Degree Search Title: Supply Chain Management and Engineering, MS

Campus: Online

ASU is not currently accepting applications for this program.

Program Description: The MS in supply chain management and engineering is a two-year, 30 credit hour program for working professionals in supply chain management, industrial engineering or a related field.

The program consists of 15 credit hours of courses from the Department of Supply Chain Management in the W. P. Carey School of Business and 15 credit hours from the industrial engineering program in the School of Computing and Augmented Intelligence in the Ira A. Fulton Schools of Engineering.

Most students have an undergraduate degree in a technical field, such as business, engineering or science. The objective is twofold: to provide students with knowledge of the fundamental foundations across the full spectrum of supply chain management functions and enable them to use state-of-the-art engineering tools to analyze, control and optimize modern supply chains.

Degree Requirements:

30 credit hours including the required applied project course (SCM 593).

Required Core (27 credit hours)

Culminating Experience (3 credit hours)

SCM 593 Applied Project (3)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume
- GMAT or GRE test scores
- personal statement
- one letter of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

ASU does not accept the GRE® General Test at home edition.

The W. P. Carey School of Business and the Ira A. Fulton Schools of Engineering seek exceptional individuals who are working supply chain professionals or in closely related fields. Applicants must be highly motivated and have strong intellectual capabilities. The admission committee looks for outstanding academic credentials, character qualities such as maturity, integrity and leadership, and diversity in perspectives and experiences.

Career Opportunities: The Master of Science program in supply chain management and engineering includes the essential academic preparation for students who are interested in pursuing professional careers in purchasing and procurement, operations or logistics.

Career examples include:

- logistics manager
- purchasing analyst
- supply chain analyst
- supply chain manager

Taxation and Data Analytics, MTax (BATAMTAX)

Online Degree Search Title: Taxation and Data Analytics, MTax

Campus: Tempe

Program Description: The nine-month MTax program is delivered by the W. P. Carey School of Accountancy and is highly ranked by the Public Accounting Report. The advanced curriculum is structured to provide students with an in-depth working knowledge of the highly technical and demanding skills required to provide tax and business advice in the private and public sectors. Esteemed faculty experts bring practical experience into each class, giving the degree even more long-term value. Students gain preparation for their career through case-based courses and team assignments.

Students dive into taxation in greater depth. Five of the 10 courses are technical, with small classes and personalized instruction. The School of Accountancy offers a Pathway Program (<https://wpcarey.asu.edu/accounting-degrees/pathway-program>) for students with a nonaccounting background that delivers essential skills and knowledge needed to excel in the master's degree program.

The Master of Taxation and Data Analytics program is high-quality program that enables students to gain the skills and knowledge needed to launch their careers and prepare to pass several sections of the CPA exam. The CPA designation is not critical for all accounting career paths, but becoming a CPA could be advantageous in the accounting profession. CPA requirements are set by each state, and all states require a minimum total of 150 credit hours. Students are encouraged to review the requirements of the state in which they intend to seek a CPA license. Each state has a board of accountancy that can provide this information. Students can also contact the National Association of State Boards of Accountancy at <https://nasba.org> (<https://nasba.org>) for additional information.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: W. P. Carey MBA - Full-Time Program

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with::

Accountancy, BS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required capstone course (ACC 589).

Required Core (3 credit hours)

ACC 571 Taxation of Corporations and Shareholders (3)

Electives (24 credit hours)

Culminating Experience (3 credit hours)

ACC 589 International Taxation (3)

Additional Curriculum Information

The Master of Taxation and Data Analytics program is a nine-month, full-time, lockstep program that offers classes during the day and is completed in one academic year. Applicants must complete program prerequisites before admission to the program. Students should refer to the W. P. Carey School of Business graduate programs website for a current listing of required course prerequisites. Graduate-level accounting courses are only open to students admitted to the graduate program.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- one letter of recommendation
- current resume
- responses to short answer question
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letter of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

In addition to the ASU graduate admission application, applicants also must submit all supplemental application materials required by the W. P. Carey Graduate Programs office. Complete application instructions may be obtained from the department's website.

Career Opportunities: The Master of Taxation and Data Analytics program includes the essential academic preparation for students who are interested in pursuing professional careers in public, corporate and governmental tax and auditing.

Career examples include:

- budget analyst
- revenue agent
- tax auditor
- tax preparer

W. P. Carey MBA, MBA (BAEVEAMBA)

Online Degree Search Title: W. P. Carey MBA - Fast-Track Program

Campus: Tempe, Online

Program Description: The purpose of the W. P. Carey School of Business MBA program is to provide a solid foundation and knowledge base in the core business disciplines and to develop the analytic capabilities, decision-making and leadership skill sets essential for making sound business decisions.

The curriculum is delivered in a case-based, team-oriented and discussion-style learning environment. Elective courses provide additional depth and breadth to enhance the student's area of emphasis, knowledge base and career goals.

The fast-track Master of Business Administration program is perfect for working professionals who need a Master of Business Administration degree to advance in their careers. Classes are held two nights a week --- with online courses also available --- allowing students to graduate with a Master of Business Administration degree in 12 to 18 months, depending on the student's incoming discipline.

As a STEM-designated master's degree, the program allows eligible graduates on student visas access to an Optional Practical Training extension for up to 36 months, helping international students gain additional skills and experience in the U.S.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

31 credit hours including the required capstone course (MGT 589).

Required Core (3 credit hours)

LES 582 Ethical Issues for Managers (3)

Electives and research (25 credit hours)

Culminating Experience (3 credit hours)

MGT 589 Strategic Management (3)

Additional Curriculum Information

While there are no business course prerequisites, potential students must demonstrate strong quantitative ability and effective written and oral communication skills.

The business school does not accept graduate credits earned while students are in nondegree status or courses taken prior to admission to the Master of Business Administration program or taken while enrolled in another Master of Business Administration program outside the W. P. Carey School of Business. Registration in School of Business courses numbered 501 and above is limited to students who have been admitted to a graduate degree program and have the approval of the MBA program office.

The core course is designed to provide a foundation in business knowledge and skills. Elective courses build upon the business core and center on the further development of an optional area of emphasis. There may be additional requirements that vary by area of emphasis.

All students must successfully complete the comprehensive exam requirement established by the school of business and the Graduate College for the Master of Business Administration. The comprehensive exam is integrated with the MGT 589 Strategic Management capstone course culminating experience. Students who pass this course with a grade of "B" (scale is 4.00 = "A") or higher satisfy the comprehensive examination requirement.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- current resume
- essays
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letters of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

In addition to having two years of work experience, successful applicants for the fast-track MBA have earned a master's degree in a specific business discipline. If the previously earned master's degree is not from an AACSB-accredited school, GRE or GMAT test scores may be requested from the applicant. ASU does not accept the GRE® General Test at home edition.

Applicants should see the department's website for more information.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. W. P. Carey MBA, MBA (BAEVENMBA)

Online Degree Search Title: W. P. Carey MBA - Evening Program

Campus: Tempe

Program Description: The W. P. Carey School of Business MBA program provides a solid foundation in the core business disciplines; students develop analytic, decision-making and leadership skill sets essential to making sound business decisions. Through a comprehensive business curriculum taught by world-renowned faculty, the W. P. Carey evening Master of Business Administration program enhances students' current strengths and helps them immediately impact their organizations.

Students can personalize their Master of Business Administration through evening and online classes while earning their degree in two to four years. The curriculum is delivered in a case-based, team-oriented and discussion-style learning environment. Elective courses provide additional depth and breadth to enhance an area of emphasis, students' knowledge base and career goals.

The evening Master of Business Administration program is designed for working professionals seeking to continue working full time while attending school. The program starts in August and can be completed in 21 months, depending on course formats.

A W. P. Carey Master of Business Administration stands apart from many part-time MBA programs that offer a core business curriculum with very little specialization. With more than 40 electives and options to add concurrent degrees and technical certificates, students can fit their Master of Business Administration with their passions and pursue a degree at the same time. The Master of Business Administration program is supported by each of the eight academic units within the W. P. Carey School of Business.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. Program Description: The executive MBA program is designed for senior leaders with increasing responsibility managing people, projects and budgets.

The W. P. Carey School of Business Master of Business Administration program provides a solid foundation and knowledge base in the core business disciplines, enabling students to develop the analytic capabilities and decision-making and leadership skill sets required to effectively integrate decisions into the business environment. Students learn how to refine their management skills and contribute more substantially to their organization and society.

Classes meet one weekend per month on campus, convenient for travel from within Arizona and surrounding states. A summer experience in Washington, D.C., and an international practicum help students see the world of business in a new way. The program is completed in 21 months and is supported by each of the eight academic units within the W. P. Carey School of Business. The comprehensive approach equips students with:

- a data-driven mindset
- the fundamentals of business and the confidence to see projects to completion
- strategic leadership skills and exposure
- an understanding of public policy here and abroad

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Degree Requirements:

48 credit hours including the required capstone course (MGT 589).

Required Core (1.5 credit hours)

LES 582 Ethical Issues for Managers (1.5)

Electives and Research (43.5 credit hours)

Culminating Experience (3 credit hours)

MGT 589 Strategic Management (3)

Additional Curricular Information

While there are no business course prerequisites, potential students must demonstrate strong quantitative ability and effective written and oral communication skills.

The business school does not accept graduate credits earned while students are in nondegree status or from courses taken before admission to the Master of Business Administration program or while enrolled in another Master of Business Administration program outside the W. P. Carey School of Business. Registration in School of Business courses numbered 501 and above is limited to students who have been admitted to a graduate degree program and have the approval of the MBA program office.

The executive curriculum must be taken in the prescribed sequence and is augmented by a series of lectures on thought leadership and off-site learning programs, including a business and public policy course in Washington, D.C. An additional off-site course exploring issues and strategies in the global business environment is held in partnership with an international business school. The program is completed in 21 months.

All students must successfully complete the comprehensive requirement established for the Master of Business Administration by the W. P. Carey School of Business and the Graduate College. The comprehensive culminating experience is integrated with MGT 589 Strategic Management. Students passing this course with a grade of "B" (scale is 4.00 = "A") or higher satisfy the comprehensive examination requirement.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- current resume
- two letters of recommendation
- answers to short-answer questions
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Letters of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

A personal interview, arranged by invitation only, will be completed before an offer of admission may be made.

Applicants should see the department's website for more information.

Career Opportunities: The Master of Business Administration includes the essential academic preparation for students who are interested in pursuing professional careers as leaders within organizations in diverse functions, such as human resources, finance or marketing.

Career examples include:

- CEO
- finance manager
- marketing manager
- supply chain manager

W. P. Carey MBA, MBA (BAFULLMBA)

Online Degree Search Title: W. P. Carey MBA - Full-Time Program

Campus: Tempe

Program Description: Highly ranked by U.S. News & World Report, the full-time MBA program meets the rapid changes and new realities in business and prepares students to be adaptable in the face of the uncertainty and ambiguity of a rapidly changing global economy. Students are prepared for immediate success through a cutting-edge curriculum, dedicated career services and a supportive community.

In tandem with rethinking the way the world does business, the W. P. Carey School of Business is rethinking the way business is taught. This program is designed for individuals who want to immerse themselves in full-time graduate studies and take classes during the day. Small class size supports individual learning, promotes student-faculty interaction and encourages personal and professional development.

The Master of Business Administration curriculum is rooted in transformation of both the students and current business practices and is supported by each of the eight academic units within the W. P. Carey School of Business. Group projects and access to different organizations give students the tools to be ready to make a difference in their community and in the world upon graduation. Students connect with internationally renowned faculty who bring years of real-world experience and innovative research into the classroom. The Master of Business Administration program transforms students into leaders who can navigate circumstances filled with ambiguity.

As a STEM-designated master's degree, the program allows eligible graduates on student visas access to an Optional Practical Training extension for up to 36 months, helping international students gain additional skills and experience in the U.S.

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

- Accountancy and Data Analytics, MACC
- Architecture, MArch
- Finance, MS
- Information Systems Management, MS
- Juris Doctor, JD
- Legal Studies, MLS
- Taxation and Data Analytics, MTax

Degree Requirements:

60 credit hours including the required capstone course (MGT 589).

Required Core (1.5 credit hours)

LES 582 Ethical Issues for Managers (1.5)

Electives (55.5 credit hours)

Culminating Experience (3 credit hours)

MGT 589 Strategic Management (3)

Additional Curricular Information

While there are no business course prerequisites, potential students must demonstrate strong quantitative ability as well as effective written and oral communication skills.

The business school does not accept graduate credits earned while students are in nondegree status or from courses taken prior to admission to the Master of Business Administration program or while enrolled in another Master of Business Administration program outside the W. P. Carey School of Business. Registration in School of Business courses numbered 501 and above is limited to students who have been admitted to a graduate degree program and have the approval of the MBA program office.

The core course is designed to provide a foundation in business knowledge. Elective or specialization courses build upon the business core and center on the further development of a specialization. There may be additional requirements that vary by specialization. The program is typically completed in two years, with a required internship in the summer between the first and second year of study.

All students must successfully complete the comprehensive requirement established for the Master of Business Administration by the W. P. Carey School of Business and the Graduate College. The comprehensive culminating experience is integrated with capstone course MGT 589 Strategic Management. Students who pass this course with a grade of "B" (scale is 4.00 = "A") or higher satisfy the comprehensive examination requirement.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GMAT or GRE test scores
- two letters of recommendation
- current resume
- responses to short-answer questions
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

ASU does not accept the GRE® General Test at home edition.

Letters of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

A personal interview, arranged by invitation only, must be completed before an offer of admission is made.

Applicants should see the department's website for more information.

Global Opportunities:

Global Experience: Study abroad is possible for graduate students. More than 50 program opportunities are available, with programs on every continent.

Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

More information on available programs can be found on the Global Education Office website (<https://goglobal.asu.edu/students/graduate-students>).

Career Opportunities: The Master of Business Administration program includes the essential academic preparation for students who are interested in pursuing professional careers as leaders within organizations in diverse functions, such as human resources, finance or marketing.

Career examples include:

- CEO
- finance manager
- marketing manager
- supply chain manager

W. P. Carey MBA, MBA (BAONLINMBA)

Online Degree Search Title: W. P. Carey MBA - Online Program

Campus: Online

Program Description: The W. P. Carey School of Business MBA program provides a foundation and knowledge base in the core business disciplines, enabling students to develop analytic capabilities, decision-making and leadership skill sets essential to making sound business decisions.

Students develop their leadership skills wherever and whenever learning suits them best. With one core course at a time and flexible elective and concurrent degree options, this online program allows students to focus on their studies while managing their career and life.

Highly ranked (<https://wpcarey.asu.edu/about/rankings>) by U.S. News & World Report and accredited (<https://wpcarey.asu.edu/about/accreditation>) by the Association to Advance Collegiate Schools of Business, the online Master of Business Administration program delivers the same course content taught by faculty members of the full-time and professional flex Master of Business Administration programs, and students earn the same highly ranked degree.

The curriculum is delivered in a case-based, team-oriented learning environment. Elective courses provide additional depth and breadth to enhance students' knowledge base and career goals. The program is designed for working professionals who wish to continue working full time while attending school. The program starts in January, May or August.

The program is supported by each of the eight academic units within the W. P. Carey School of Business.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as concurrent degree program with:

Electrical Engineering, MSE

Industrial Engineering, MS

Degree Requirements:

49 credit hours including the required capstone course (MGT 589).

Required Core (3 credit hours)

LES 582 Ethical Issues for Managers (3)

Electives (43 credit hours)

Culminating Experience (3 credit hours)

MGT 589 Strategic Management (3)

Additional Curriculum Information

All students must successfully complete the comprehensive requirement for the MBA established by the school of business and the Graduate College. The comprehensive culminating experience is integrated with MGT 589 Strategic Management. Students who pass this course with a grade of "B" (scale is 4.00 = "A") or higher satisfy the comprehensive examination requirement.

This program is designed to be completed within two years, and a maximum of three years is allowed.

While there are no business course prerequisites, potential students must demonstrate strong quantitative ability and effective written and oral communication skills. To be successful in an online learning environment, students must also have computer proficiency and expertise in using spreadsheets, word processing and presentation software packages, email and an Internet browser.

The business school does not accept graduate credits earned while students are in nondegree status, or courses taken prior to admission to the Master of Business Administration program or while enrolled in another Master of Business Administration program outside the W. P. Carey School of Business. Registration in School of Business courses numbered 501 and above is limited to students who have been admitted to a graduate degree program and have the approval of the MBA program office.

The core course is designed to provide a foundation in business knowledge and skills. Elective courses build upon the business core and center on the further development of an area of emphasis.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable masters degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- current resume
- responses to short-answer questions
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Letters of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Applicants should see the department's website for more information.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. W. P. Carey MBA, MBA (BASHANGMBA)

Online Degree Search Title: W. P. Carey MBA - Shanghai Program

Campus: Tempe

Program Description: The business leaders emerging from the W. P. Carey MBA - Shanghai program can shape U.S.-Sino trade relationships during China's continued global expansion. This academic program is the cornerstone of a number of new offerings that include knowledge transfer and access to the highest level of decision-makers in China.

The W. P. Carey School of Business at Arizona State University is directly involved in the development of top leadership in China. In 2003, the Master of Business Administration program launched in Shanghai, China. The program is delivered in collaboration with Shanghai National Accounting Institute, an entity under the governance of China's Ministry of Finance.

This degree program is only offered in China.

Degree Requirements:

48 credit hours including the required capstone course (MGT 589).

The curriculum is based on the integration of core management principles with an immersion in accounting, finance, information management, supply chain management, service marketing, customer relation management and management of services innovation. At the core of the curriculum delivery is emphasis on the practical applications with direct business connectivity. The school prides itself on the curriculum's integration of global practices and local market characterizations which enable participants' ability to excel in the modern economy.

In addition, the curriculum is designed with a strong transdisciplinary focus while achieving cycle-time efficiency. Each course is delivered in an intensive manner over two consecutive weekends, with four full days of face-to-face instruction supplemented by online instruction materials to enable learning interactions between faculty and participants.

All students must successfully complete the comprehensive requirement for the Master of Business Administration established by the W. P. Carey School of Business and the Graduate College. The comprehensive culminating experience is integrated with MGT 589 Strategic Management. Students passing this course with a grade of "B" (3.00 on a scale of 4.00) or higher satisfy the comprehensive examination requirement. A thesis is not required.

Admission Requirements: This degree program is only offered in China. All applicants are required to contact the program coordinator before submitting the online graduate admission application.

Career Opportunities: The Master of Business Administration program in China includes the essential academic preparation for students who are interested in pursuing professional careers as leaders within organizations of diverse functions, such as human resources, finance or marketing.

Career examples include:

Design and the Arts, Herberger Institute for

Architecture, MArch (ARARCMARCH)

Online Degree Search Title: Architecture, MArch

Campus: Tempe, Online

Program Description: Architecture and the building industry are rapidly changing, and professionals need to be more effectively prepared to innovate and challenge a workforce that is far more dynamic, complex and diverse than it was 20 years ago. Professional architecture firms and offices no longer specialize in building design only; they have expanded into related fields that compel architecture education to become more comprehensive and advanced than ever.

Students can both complete the accredited architecture degree (<https://design.asu.edu/about/accreditation>) content and gain additional credentials for another master's degree or certificate that supports their individual interests. This enables students to pursue concurrent options in related areas, such as construction management, sustainability, real estate development, urban planning, landscape architecture, interior architecture, business and other subject areas. Students also may simultaneously join other programs across ASU such as health, education or fine arts.

Each semester of the program includes a design studio and two other courses, such as technology, representation, history, theory, research and practice. Students craft the design and plan the construction of economically and ecologically sustainable built environments and communities.

They are rigorously trained on advanced design and digital prototyping, innovative building systems and new technologies, as well as in the research and advocacy of the expansive public role of architects within a broader civic dialogue and social justice aspirations.

The program is offered in two distinct learning modalities --- in-person and online --- providing further opportunities for students to earn the same National Architectural Accrediting Board-accredited professional degree.

Students who successfully complete the requirements for Master of Architecture program and their chosen electives for their certificate can choose to continue for an additional year in their added field and turn their certificate into the second master's degree. Students pursuing concurrent degrees earn two distinct degrees and receive two diplomas, allowing them to pursue their own personal or professional interests effectively.

The mission of The Design School is to prepare students for professional success, while continuing to innovate and advance the discipline of architecture through an emphasis on place, context and contemporary culture; this emphasis recognizes the school's responsibility and commitment to social and environmental justice within Arizona, the region, nation and the world.

The Design School in the ASU Herberger Institute for Design and the Arts offers the following NAAB-accredited degree program:

- Master of Architecture, two-year track (preprofessional degree + 48 graduate credit hours)
- Master of Architecture, three-year track (non-preprofessional degree + 72 credit hours)

Next accreditation visit: 2023

Accredited since: 1985

STEM-OPT for International Students on F-1 Visas:

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (<https://issc.asu.edu/f-1j-1-students/employment/stem>) at ASU's International Students and Scholars Center website. The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Concurrent Program Options:

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following: W. P. Carey MBA - Full-Time Program

Degree Requirements:

48 credit hours including the required capstone course (ARC 602).

Required Core (42 credit hours)

ARC 501 Advanced Architecture Studio I (6)

ARC 502 Advanced Architecture Studio II (6)

ARC 522 Advanced Architecture Technology I (3)

ARC 531 Advanced Architecture History (3)

ARC 532 Architectural Theory I (3)

ARC 541 Advanced Architecture Representation (3)

ARC 601 Advanced Architecture Studio III (6)

ARC 622 Advanced Architecture Technology II (3)

ARC 631 Architectural Theory II (3)

ARC 651 Architecture Research (3)

ARC 662 Architectural Practice (3)

Culminating Experience (6 credit hours)

ARC 602 Advanced Architectural Studio IV (6)

Additional Curriculum Information

The culminating experience course is a final design studio with a written component, taken under guidance of studio faculty and industry professionals.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a portfolio, letter of intent and contact information for two references submitted via SlideRoom (<https://asudesign.slideroom.com>) (<https://asudesign.slideroom.com>)
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Admission Requirements for the Two-Year Pathway:

Applicants must have completed a four-year Bachelor of Science degree with a major in architectural studies or similar preprofessional degree in architecture. The undergraduate degree must be granted by an institution that is recognized by ASU and offers a National Architectural Accreditation Board-accredited degree program in architecture.

Admission Requirements for the Three-Year Pathway:

Applicants must have earned a baccalaureate or graduate degree in any field other than architectural studies.

Deficiency Coursework:

If a student is assigned any deficiency coursework by the academic unit upon admission, depending on the undergraduate background, they must complete those courses with a grade of "B" or higher before completing the master's program required coursework.

Attend Online:

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-architecture/>) for program descriptions and to request more information.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Perform professional-level tasks during their internship, including drafting, collaboration, and technical proficiency appropriate for design practice, as identified by the National Architectural Accreditation Board.
- Distinguish the basic context and framework of diverse cultural and social contexts as they relate to The Design School Imperatives (history, context, program, technology, construction, representation).
- Design a response to social issues, cultural representation, and sustainability concerns through their proficiency in analyzing, discussing, and applying their findings in a professional design and/or presentation.

Career Opportunities: Graduates of the architecture program often pursue careers as:

- architects
- building information modeling managers
- contractors
- developers
- energy modelers
- facilities managers
- film and media producers
- politicians or public servants
- professors

Professional Licensure: ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (<https://admission.asu.edu/academics/licensure>) webpage.

In the United States, most registration boards require a degree from an accredited professional degree program (<https://design.asu.edu/about/accreditation>) as a prerequisite for licensure.

Architecture (Energy Performance and Climate Responsive Architecture), MS (ARENERGYMS)

Online Degree Search Title: Architecture (Energy Perf/Climate Responsive Arch), MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description: The MS program in architecture with a concentration in energy performance and climate-responsive architecture educates students to become experts in energy-efficient building design and energy technology.

Courses in this concentration establish a basic core knowledge of the principles of the natural energies available at the building boundary due to climate and site; thermal and optic behavior of building materials and components; passive and low-energy architectural systems for heating, cooling and lighting; and appropriate integration with mechanical systems. Additional courses are available to support advanced study and research in a variety of related specialties.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (ATE 593).

Required Core (21 credit hours)

Electives (3 or 6 credit hours)

Culminating Experience (3 or 6 credit hours)

ATE 593 Applied Project (3)

ATE 599 Thesis (6)

Additional Curriculum Information

The applied project option consists of six credit hours of electives and three credit hours of ATE 593. The thesis option consists of three credit hours of electives and six credit hours of ATE 599.

Students should see the academic unit for an approved course list.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in one of the professions or fields of study outlined below:

- a five- or six-year National Architectural Accrediting Board-accredited professional degree in architecture (BArch or MArch)*
- a four-year Bachelor of Science in landscape architecture or a master's degree in landscape architecture, which must be granted by an institution that offers the Landscape Architectural Accreditation Board-accredited degree program in landscape architecture
- an engineering degree (BS or MS) with a background in building sustainability issues**
- a science degree (BS or MS) with a background in building sustainability issues

*Applicants should refer to the NAAB website for more information about the Bachelor of Architecture or Master of Architecture.

**Mechanical and civil engineering and construction majors are particularly suited for application to the BS or MS program in engineering.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- portfolio, or writing sample from applicants who have a science background
- statement of intent
- contact information for two references
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. The minimum score for admission to the program is 80 on the TOEFL iBT® taken in a testing center or an overall band score of 6.5 on the IELTS.

The portfolio or writing sample, statement of intent and contact information for three references must be submitted via SlideRoom.

<https://asudesign.slideroom.com/#/Login> (<https://asudesign.slideroom.com/#/Login>)

Admission to the program is selective. Admission to the program cannot be deferred. Students must enroll in the semester for which they are admitted; otherwise, they need to go through the entire application process again during the year for which they are applying.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting The Design School.

Applicants should see the program website for application deadlines and admission terms.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Engage in scholarly inquiry involving building performance and energy modeling.
- Compose a research proposal that embodies methodologies suitable to the research questions identified.
- Formulate climate-responsive design solutions for diverse factors impacting the built environment through critical thinking, calculations, and evidence-based design research.

Career Opportunities: Graduates of the Master of Science in architecture program often pursue the following careers:

- architect
- energy modeler
- sustainability consultant

Art, MFA (HIARTMFA)

Online Degree Search Title: Art, MFA

Campus: Tempe

Program Description: The ASU School of Art's MFA program is one of a few nationally ranked, tuition-funded, three-year Master of Fine Arts programs. Students benefit from graduate assistantships, scholarships and awards that support student travel and research.

Program curriculum provides artists with a formal and conceptual foundation in contemporary art, a visiting artist and scholar lecture series, professional development workshops, teaching opportunities and pedagogical training. The curriculum fosters global awareness, civic engagement, social responsibility and collaborative action. Augmenting the curriculum are numerous internships offered by a wide variety of arts organizations; more information is available at Creative Career Services (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>).

Students work closely with faculty to develop knowledge, expand technical skills and participate with communities to create research and a lifelong professional arts practice. The coursework is designed to advance discourse across a range of fields and establish intersections between disciplines and shared research interests, including representation, advanced technology, materials, ecology and sustainability.

The program culminates in a solo thesis exhibition in one of the four School of Art galleries (<https://art.asu.edu/galleries>). Prior thesis projects can be explored on the School of Art (<https://art.asu.edu/research/student-work>) webpage.

Graduate students are provided world-class studio space at Grant Street Studios (<https://art.asu.edu/about/galleries-and-facilities/grant-street-studios>), located in the cultural hub of downtown Phoenix, which includes a wood shop, printmaking presses, darkroom, kilns, computer lab and 3D print lab.

The Master of Fine Arts program emphasizes collaboration and immersive learning, providing students access to specialized facilities and collections. The Northlight Gallery (<https://art.asu.edu/about/galleries-and-facilities/northlight-gallery>) is a dedicated photographic gallery directed by Cecilia Fajardo-Hill, a curator in modern and contemporary art. The gallery houses two important historical photographic collections: the Northlight Gallery permanent collection and the Solari Foundation collection. The Pyracantha Press (<https://art.asu.edu/degree-programs/printmaking/pyracantha-press>) is an independent publishing imprint with publications in 105 national and international public collections. The press includes the largest collection of type at any institution of higher education in North America and several printing presses, including an 1834 Columbian.

In addition to the expansive curriculum, students benefit from the vast resources afforded by a Research I university. Students are encouraged to engage with faculty across all disciplines and with world-renowned researchers from a variety of departments across ASU. Students also have access to the vibrant community of museums, galleries, businesses and cultural organizations in Phoenix, as well as in nearby Los Angeles, Santa Fe and Denver. Special initiatives also add dynamic opportunities for professionalization and connecting with artists and curators. The School of Art galleries, the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while they build a professional network.

Applicants can visit School of Art advising support (<https://art.asu.edu/resources/students/advising>) to learn more about the program.

Degree Requirements:

60 credit hours and an oral comprehensive exam (defense of MFA exhibition).

The 60 hours of graduate credit are subject to committee approval and must include:

ART 680 Practicum, resulting in an MFA exhibition (10-15 credit hours)

graduate studio (18-27 credit hours)

graduate-level academic coursework (at least 6 credit hours)

graduate-level ART seminars (9-18 credit hours)

required courses in contemporary art theory (3) and cross-practice critique (3) (6 credit hours)

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- current resume or curriculum vitae
- portfolio
- statement of intent
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Admission is a two-step process. Although applicants fill out one application through the online graduate application process, they must be admitted to both the MFA program and the Graduate College.

The portfolio should include a combination of 20 images sized with a maximum dimension of 1024 pixels and video files with less than 60 MB each; it should be accompanied by an image list. The statement of intent (not to exceed 1,000 words) should address the applicant's artistic interests, reasons for applying to graduate school in general, and the ASU School of Art in particular, as well as professional goals.

The three letters of recommendation should be from faculty members with whom the applicant has studied or from recognized professionals in the field. All the instructions for letters of recommendation must be followed when submitting them with the application to the Graduate College.

The method for submitting the resume or vitae, portfolio, statement of intent and letters of recommendation is online via SlideRoom:

<https://asuherberger.slideroom.com/#/Login> (<https://asuherberger.slideroom.com/#/Login>). Applicants may upload images (.jpg), video (.mov, .wmv, .flv), music (mp3) or PDF documents.

Applicants should see the program website for application deadlines.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply concept development and knowledge of material practice in their focused media area to contextualize their research.
- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.

- Demonstrate how their cohesive body of artwork fits within the context of the fine art world holistically.

Global Opportunities:

Global Experience: More and more ASU graduate students are pursuing Global Education opportunities (<https://goglobal.asu.edu/>). Although participating in a Global Education program as a graduate student presents unique challenges, it can also provide a meaningful opportunity to deepen the educational experience and connect an international opportunity with a student's career aspirations.

Career Opportunities: Graduates are prepared to initiate creative careers in the public and private sphere. The terminal degree is a necessity for employment as a university or college teacher and for responsible administrative and curatorial positions in the museum and publishing world.

Studio art graduates find employment opportunities as artists in the field, selling their works through commercial galleries and commissions and to private collectors; as museum or gallery professionals, art dealers and directors; as private school art teachers and college professors; and as community-based artists (venues might include health care settings, nonprofit agencies, and local and national public arts). Master of Fine Arts degree holders have the credentials necessary to teach courses in their discipline at colleges and universities, and to enter the art market, working in art administration or other competitive creative fields. Graduates of the program also go on to start their own galleries or small businesses and exhibit at notable institutions, and some have been awarded prestigious grant and residency opportunities. A graduate degree is essential for many professional positions; a master's degree prepares individuals to teach at the community college level, to practice and publish as an art critic or writer, to enhance one's own practice as an artist, or to gain entry into museums, archives, historical societies, art libraries, auction houses, publishing companies and academic presses.

ART 102

soadmin@exchange.asu.edu

480-965-8521

Art (Art Education), MA (FAARTEDMA)

Online Degree Search Title: Art Education, MA

Campus: Tempe

Program Description: The MA in art with a concentration in art education focuses on issues in teaching and learning from multiple perspectives, including art inquiry, curriculum theory, spatial design, studio practice, visual culture, social intervention, human development and cultural context.

The culminating experience may be conducted in a range of contexts where art learning takes place, such as in K-12 art classrooms, art centers and museums, public settings and university studios, or in a teacher's own classroom.

In addition to the expansive curriculum, students benefit from the vast resources afforded by a Research I university. Graduates are encouraged to engage with faculty across all disciplines in studio art, art history and museum studies, and with world-renowned researchers from a variety of departments across ASU. Special initiatives also add dynamic opportunities for professionalization and for students to learn from and connect with artists and curators.

Graduate students are eligible to apply for a studio space at Grant Street Studios (<https://art.asu.edu/about/galleries-and-facilities/grant-street-studios>), which is located in the cultural hub of downtown Phoenix and includes a common wood shop, printmaking presses, photography darkroom, ceramics kilns, computer lab and 3D print lab.

The School of Art galleries (<https://art.asu.edu/galleries>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network.

School of Art collections are an invaluable resource for examining the ways historical art has shaped contemporary ways of seeing. The Northlight Gallery (<https://art.asu.edu/about/galleries-and-facilities/northlight-gallery>) is a dedicated photographic gallery directed by Cecilia Fajardo-Hill, a curator in modern and contemporary art, that focuses on Latin American and Latino art. The gallery houses two important historical photographic collections, the Northlight Gallery permanent collection and the Solari Foundation collection. The Pyracantha Press (<https://art.asu.edu/degree-programs/printmaking/pyracantha-press>) is an independent publishing imprint with publications in 105 national and international public collections. The press includes 3,000 cases of type and several ornate printing presses --- including an 1834 Columbian --- making Pyracantha Press home to the largest collection of type at any institution of higher education in North America. Founded with the Los Angeles County Museum of Art, the ASU-LACMA Fellowship (<https://art.asu.edu/degree-programs/art-history/lacma-partnership>) program encourages engagements with museum fellows from several collaborating museum partners.

Applicants should visit School of Art advising support (<https://art.asu.edu/resources/students/advising>) to learn more about the program and connect

with graduate coordinators.

Degree Requirements:

30 credit hours, a thesis and a written comprehensive exam (qualifying research proposal).

Required Core (18 credit hours)

ARE 510 Visual Culture Research (3)

ARE 520 Issues in Teaching Inquiry in Art (3)

ARE 525 Research on Art Instruction (3)

ARE 530 Issues in Teaching Studio Art (3)

ARE 535 Research on Teaching Studio Art (3)

ARE 540 Teaching Art in Cultural Contexts (3)

Other Requirements (6 credit hours)

special topics on research related to integrating the teaching of studio art, art history and criticism or aesthetics (6)

Culminating Experience (6 credit hours)

ARE 599 Thesis (6)

Additional Curriculum Information

Before the end of the first semester of coursework (six or more credit hours), a plan of study must be submitted to the Graduate College. Additional program requirements are indicated in the guidelines for the master's degree in art education.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants should submit:

- graduate admission application and application fee
- official transcripts
- a formal art education research paper for review
- resume
- statement of intent
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

Applicants must have a bachelor's degree from a regionally accredited college or university with a major of no fewer than 45 credit hours of art, including 12 credit hours of art history and six credit hours of art education. Additional hours may be required by the school.

Applicants must have a GPA of at least 3.00 (scale is 4.00 = "A") in undergraduate coursework during the junior and senior years.

The resume should demonstrate how professional experience will help the student succeed in this program.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Design and evaluate curriculum or instructional plans for school, museum, or other context.
- Communicate principles of Art Education to technical and nontechnical audiences through oral and written communication.
- Write a well-organized research paper in the field of Art Education following a research process of conducting a literature review, developing field research methodology, synthesis of finding and identification of new research areas.

Global Opportunities:

Global Experience: More and more ASU graduate students are pursuing Global Education opportunities (<https://goglobal.asu.edu/>). Although participating in a Global Education program as a graduate student presents unique challenges, it can also provide a meaningful opportunity to deepen the educational experience and connect an international opportunity with a student's career aspirations.

Career Opportunities: A degree in the arts offers students a pathway to a rich and varied choice of careers. School of Art graduates are prepared to initiate creative careers as artists, scholars and educators in the public and private sphere.

A degree in art education provides employment opportunities with charter schools, art museums, nonprofit organizations and recreational or community-oriented service groups that offer art instruction. Those who also complete the state certification requirements for an art specialist certificate may teach in public and private elementary schools, middle schools and high schools. A master's degree may earn art educators an increased salary in some districts, and it provides the potential for and advancement to administrative positions or programs of doctoral study. A doctorate is a necessity for employment as a university or college instructor and for responsible administrative and curatorial positions in the museum and publishing world.

ART 102

SOAdmin@asu.edu

480-965-8521

Art (Art History), MA (FAARTHISMA)

Online Degree Search Title: Art History, MA

Campus: Tempe

Program Description: The MA program in art with a concentration in art history is a comprehensive degree program that fosters critical understanding of aesthetics, production, patronage and consumption of art and provides a foundation of expertise in the history of art. The curriculum stresses intersections between disciplines, borders, margins, points of mediation, and technological developments throughout history and offers focused study in the areas of images and digital technologies, art in social and political contexts, and the histories and theories of visual culture. Classes cover many cultures, time periods and geographies, using multiple approaches and methodologies. Faculty mentor students in the application of theoretical and methodological approaches to research, advise them on their comprehensive literature review, and guide them as they determine their unique contribution to the field.

The School of Art galleries (<https://art.asu.edu/galleries>), the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>) and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network. The program is enriched by partnerships with museums throughout the Phoenix metropolitan area and beyond, including an affiliation with the Los Angeles County Museum of Art and several other museums as part of the ASU-LACMA Fellowship (<https://art.asu.edu/degree-programs/art-history/lacma-partnership>) program.

Students can learn more about the program and program faculty on the art history area study (<https://art.asu.edu/degree-programs/art-history>) page.

Degree Requirements:

30 credit hours, a thesis and a foreign language exam.

Required Core (3 credit hours)

ARS 501 Methodologies and Art History (3)

Focus Area Coursework (12 credit hours)

seminars (12)

Electives (6 credit hours)

Research (3 credit hours)

ARS 592 Research (3)

Culminating Experience (6 credit hours)

ARS 599 Thesis (6)

Additional Curriculum Information

This program requires a minimum of 24 credit hours in art history, with at least 12 of these earned in 500-level seminars.

Four courses in the areas shown below are required, and two of these courses must be outside the student's geographical area of specialization:

- ancient
- Asian
- contemporary

- global
- Latin American
- medieval
- modern
- pre-Columbian
- Renaissance

For elective coursework, students may choose to take either 500-level courses in art history or related areas, such as in anthropology, history, museum studies or religion, or up to six credit hours of the following omnibus courses:

ARS 584 Internship

ARS 590 Reading and Conference

ARS 592 Research

Students must have a reading knowledge of one research language in addition to English. The selected language needs to be appropriate to the area of research concentration and must be approved by the faculty mentor. This requirement can be met by taking a language for reading knowledge course in the School of International Letters and Cultures with a grade of "B" or better or by passing the Graduate Foreign Language Examination offered by SILC, which requires a fee.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. In addition, applicants must have an undergraduate major or minor in art history or at least four upper-division art history courses in which a GPA of 3.00 or higher was maintained.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation.
- one formal research paper for review
- statement of intent
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The statement of intent should be one page and indicate the objectives for graduate study.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will propose original research within their focus area.
- Verbally communicate knowledge in the analysis of images and objects
- Will be able to write a thesis paper up to program capstone standards, which includes the development of a thorough bibliography and the extended examination of a single subject, conceptualized as a research question that engages with their field

Global Opportunities:

Global Experience: More and more ASU graduate students are pursuing Global Education opportunities (<https://goglobal.asu.edu/>). Although participating in a Global Education program as a graduate student presents unique challenges, it has the potential to deepen the student's educational experience, connecting a meaningful international opportunity with their career aspirations.

Career Opportunities: Graduates are prepared to initiate creative careers as artists, scholars and educators in the public and private sphere. Career opportunities depend on focused concentrations within the area and additional education or training per industry standards.

A graduate degree is essential for many professional positions; a master's degree prepares individuals to teach at the community college level, to practice and publish as an art critic or writer, to enhance their own practice as an artist, or to gain entry into employment in museums, archives, historical societies, art libraries, auction houses, publishing companies and academic presses. A doctorate is a necessity for employment as a university or college instructor and for responsible administrative and curatorial positions in the museum and publishing world.

Art (Digital Technology), MFA (FADIGITMFA)

Online Degree Search Title: Art (Digital Technology), MFA

Campus: Tempe

Program Description: The MFA in art with a concentration in digital technology combines technological and artistic goals and is designed for students with skills and experience in both realms; the program is offered by the School of Art in collaboration with the School of Arts, Media and Engineering. The School of Art supplies graduate-level courses in digital audio, video, photography, printing, interactive sculpture and rapid prototyping. Graduate courses offered by the School of Arts, Media and Engineering focus on topics such as interactive media, sensing and understanding activity, perception and cognition, programming and media installations. The curriculum provides artists with a foundation in contemporary art, a visiting artist and scholar lecture series, professional development workshops, teaching opportunities and pedagogical training. It fosters global awareness, civic engagement, social responsibility and collaborative action. Coursework is designed to advance discourse across a range of fields and shared research interests, including representation, identity, advanced technology, material studies, ecology, sustainability and science.

Students gain a foundation in digital media and have hands-on experiences in creating new digital tools. They work closely with faculty to develop knowledge, expand technical skills, and participate with communities to engage in impactful research and sustain a lifelong professional arts practice. Students are also provided world-class studio space at Grant Street Studios (<https://art.asu.edu/about/galleries-and-facilities/grant-street-studios>), which is located in the cultural hub of downtown Phoenix and includes a common wood shop, printmaking presses, photography darkroom, ceramics kilns, computer lab and 3D print lab.

The Master of Fine Arts program culminates in a solo thesis exhibition in one of the four School of Art galleries (<https://art.asu.edu/galleries>). Students can explore prior thesis projects on the School of Art exhibitions (<https://art.asu.edu/research/student-work>) website.

Students in this program benefit from the vast resources afforded by a Research I university. Graduates are encouraged to engage with faculty across all disciplines and with world-renowned researchers from a variety of departments across ASU. Students also have access to the vibrant community of museums, galleries, businesses, and cultural organizations in Phoenix as well as in nearby Los Angeles, Santa Fe and Denver. Augmenting the curriculum are internships (<https://students.herbergerinstitute.asu.edu/creative-career-services/internships>) offered by a wide variety of arts organizations. Special initiatives also add dynamic opportunities for professionalization, and for students to learn from and connect with artists and curators. The School of Art galleries, the Ceramics Research Center and Archive (<https://asuartmuseum.org/research-learning/ceramics-research-center-archive/>), and the ASU Art Museum (<https://asuartmuseum.org/>) support a robust schedule of public exhibitions and visiting artist and scholar lectures. These events (<https://art.asu.edu/events>) offer students the opportunity to develop their knowledge and appreciation of contemporary art and culture while building a professional network.

The Master of Fine Arts program emphasizes collaboration and immersive learning, providing students access to specialized facilities and collections that offer an invaluable resource for examining the ways in which history has shaped contemporary ways of seeing.

Applicants can visit School of Art advising support (<https://art.asu.edu/resources/students/advising>) to learn more about the program and connect with graduate coordinators.

Degree Requirements:

60 credit hours and an oral comprehensive exam.
Graduate credit is subject to committee approval and includes:

36 graduate studio credit hours in the major areas of concentration, of which 18 credit hours are ART studio classes and 18 credit hours are graduate-level courses in the School of Arts, Media and Engineering
6 credit hours of ART 621 In Practice
6 credit hours of graduate-level art history
6 credit hours of ART 680 Practicum and 6 credit hours of AME 593 Applied Project, leading to either a final exhibition or an applied project

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a

minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- an art and digital technology resume
- current resume or curriculum vitae
- portfolio
- statement of intent
- statement and evidence of work demonstrating digital technology skills beyond end user applications
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency via a TOEFL score (iBT® taken in a testing center).

Admission is a two-step process. Although applicants fill out one application through the online graduate application process, they must be admitted to the Master of Fine Arts program and to the Graduate College.

The portfolio must be of 20 images sized with maximum dimension of 1024 pixels; video files of less than 60 MB each; and an image list that accompanies the portfolio. The method for submission for the portfolio is online via SlideRoom: <https://asuherberger.slideroom.com/#/Login> (<https://asuherberger.slideroom.com/#/Login>). Applicants may upload images (.jpg), video (.mov, .wmv, .fly), music (.mp3) or PDF documents.

The statement of intent should not exceed 1,000 words and should address the applicant's artistic interests, reasons for applying to graduate school in general, and the ASU School of Art in particular, and the applicant's professional goals.

The letters of recommendation should be from faculty members with whom the applicant has studied or from recognized professionals in the field. All instructions for the letters of recommendation must be followed when submitting the application to the Graduate College.

Applicants should see the program website for application deadlines.

Prospective students should demonstrate accomplishments in art and technology, particularly in having developed new digital technology for the arts.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply concept development and knowledge of material practice in their focused media area to contextualize their research.
- Demonstrate professional preparedness by developing a comprehensive toolkit for self-promotion that will position them for success in the field of art and design.
- Demonstrate how their cohesive body of artwork fits within the context of the digital and fine art world holistically.

Global Opportunities:

Global Experience: More and more ASU graduate students are pursuing Global Education opportunities (<https://goglobal.asu.edu/>). Although participating in a Global Education program as a graduate student presents unique challenges, it can also provide a meaningful opportunity to deepen the educational experience and connect an international opportunity with a student's career aspirations.

Career Opportunities: Graduates are prepared to initiate creative careers as artists, scholars and educators in the public and private sphere --- a degree in the arts offers students a pathway to a rich and varied choice of careers. Studio art graduates find employment opportunities as artists in the field, selling their works through commercial galleries and commissions, and to private collectors; as museum or gallery professionals, art dealers and directors; as private school art teachers or college professors; and as community-based artists (venues might include health care settings, nonprofit agencies, and local and national public arts). Master of Fine Arts degree holders have the credentials necessary for teaching courses in their discipline at colleges and universities. They also are fully prepared to enter the art market or art administration, or to work in other competitive creative fields. Graduates of this program also go on to start their own galleries or small businesses, or exhibit at notable institutions; some have been awarded prestigious grant and residency opportunities. Graduates of the concentration in digital technology are also engaged as technology consultants, freelance artists and technologists, and they join a variety of art and technology collaborations.

A graduate degree is essential for many professional positions. A master's degree prepares individuals to teach at the community college level; to practice and publish as an art critic or writer; to enhance one's own practice as an artist; or to gain entry into employment in museums, archives, historical societies, art libraries, auction houses, publishing companies and academic presses. Community-Engaged Practices in Design and the Arts (Certificate), Certificate (HISEPGRCT)

Online Degree Search Title: Community-Engaged Practices in Design and the Arts (Graduate Certificate)

Campus: Tempe

Program Description: This certificate program in community engaged design and the arts places designers, artists, scholars and educators in public life and prepares students to use their creative capacities to advance culture, strengthen democracy and imaginatively address today's most pressing challenges.

This certificate is an integrated, community-engaged design and arts program serving all Herberger Institute students as well as the larger ASU community. Participants engage in direct and ethical partnership and collaboration with communities, civic and industry partners to learn and practice programming that activates partner goals and facilitates experiential learning and creation.

Degree Requirements:

15 credit hours including the required applied project course (ART 593 or AME 593 or DCE 593, or DCE 693, or DSC 593 or DSC 693, or MUP 593 or MUP 693, or THP 593 or THP 693).

Required Core (6 credit hours)

ART 542 Art and Community (3) or THP 514 Projects in Community-Based Theatre (3)

HDA 510 Design and the Arts Corps Seminar (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

Applied Project (3)

Additional Curriculum Information

The applied project is a 593 course in AME, DCE, DSC, THP or a 693 course in THP.

Students should see the academic unit for appropriate elective coursework.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of intent
- written recommendation or nomination letter
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Students must maintain a 3.50 GPA in the certificate program.

Admission examinations are not required.

Career Opportunities: This certificate program allows students to develop unique pathways that also earn micro-credentials across a broad range of competencies including:

- asset-based community cultural development
- ethical communication
- ethics
- group facilitation
- project management
- project structuring and evaluation

Composition, MM (FAMCOMPMM)

Online Degree Search Title: Composition, MM

Campus: Tempe

Program Description: The MM in music with a concentration in music composition is a comprehensive professional degree program for outstanding students of acoustic, electronic and multimedia composition. Students develop their own compositional voices and focus on their area of interest, regardless of style or aesthetics, while gaining extensive knowledge through coursework and private lessons with faculty.

Composers have multiple performance opportunities, including readings by the Symphony Orchestra and visiting ensembles, yearlong residencies with the ASU Wind Ensembles and Philharmonia Orchestra, commissions for the PRISMS contemporary music festival, and collaborations with student performers, animators, filmmakers and dancers.

The program provides extensive faculty interaction and opportunities to develop advanced skills in compositional techniques from a wide variety of styles and traditions, with emphasis on fostering students' personal approach to composition. Collaborations with music scholars, theorists, performers, educators and other composers provide students with a broad and well-rounded foundation for advanced careers in music.

Degree Requirements:

32 credit hours including a thesis and a written comprehensive exam, or 32 credit hours including a thesis, a written comprehensive exam and an oral comprehensive exam, or 32 hours including a written comprehensive exam and the required applied project course (MTC 593), or 32 hours including a written comprehensive exam, an oral comprehensive exam and the required applied project course (MTC 593).

The credit hour requirements for the degree are distributed as follows:

composition (9 credit hours)

electives (8 credit hours)

music theory and music history (9 credit hours)

thesis or applied project (6 credit hours)

Additional Curriculum Requirements

Completion of diagnostic exams in musicology and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music, Dance and Theatre.

Additional information on degree requirements for this degree is available on the curriculum check sheet located at the bottom of the school's degree page (<https://musicdancetheatre.asu.edu/masters-degrees-phds/majorinfo/FAMCOMPMM/graduate/false/3>).

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an institution in another country that is officially recognized by that country.

Applicants must have achieved a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- School of Music, Dance and Theatre application (<https://musicdancetheatre.asu.edu/admission/graduate-music-admission>), including a resume and personal statement
- official transcripts
- prescreening portfolio
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency. To meet English proficiency requirements, students must have a TOEFL iBT score of at least 80; an IELTS overall band score of at least 6.5; or a Pearson Test of English score of at least 60.

The School of Music, Dance and Theatre does not offer conditional admission under any circumstances.

Although a bachelor's degree in music is not required to be eligible for admission, applicants who do not hold an undergraduate degree in music may wish to take foundational courses in music theory and history, as recommended by their advisor.

Applicants should see the program website for application deadlines. After receipt of complete application materials, including recommendation letters, transcripts and English proficiency, and review of prescreening materials, an applicant may be invited for an interview. Information about the interview can be found on the school's admissions website (<https://musicdancetheatre.asu.edu/admission/graduate-music-admission/audition-interview>).

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Critique compositions in a variety of styles, applying theoretical understanding of compositional techniques.
- Create an original portfolio that synthesizes principles of composition.
- Interpret specific musical products within the context of a specific historic or cultural tradition.

Career Opportunities: The School of Music, Dance and Theatre graduate programs inspire and empower students to become creative leaders who transform society through music.

Musicians with expertise in performing, composing, teaching and researching, and arts advocacy are in high demand across many sectors and industries, including performing arts organizations, educational institutions, entertainment companies, health and wellness industries, and community arts organizations. Skills such as creativity, collaboration, innovation and entrepreneurship, as well as the focused discipline needed for success as a musician, are all highly valued by a wide range of companies and professions.

Career examples include:

- arts administrator
- community arts advocate
- composer for film, video games or television
- performing musician
- public or community school teacher
- university professor

Composition (Interdisciplinary Digital Media), MM (FADIGITMM)

Online Degree Search Title: Composition (Interdisciplinary Digital Media), MM

Campus: Tempe

Program Description: The MM program in music with a concentration in interdisciplinary digital media is designed for students who have interests and the creative skills to work within a cross-section of the arts and sciences. Program offerings extend beyond typical music coursework to allow

more opportunities for digital sound and experimental media projects and to allow students to be actively involved in current developments in the field of media and digital culture.

There are state-of-the-art media facilities, hybrid arts-engineering faculty and courses in electronic music with relevant resources. Students are encouraged to develop their own compositional voices and focus on their area of interest, regardless of style or aesthetics, while gaining extensive knowledge through coursework and private lessons with the composition faculty.

Composers have multiple performance opportunities each year, including collaborations with student performers; readings by the ASU Symphony Orchestra and visiting ensembles; yearlong residencies with the ASU Wind Ensembles and Philharmonia Orchestra; commissions for the PRISMS Contemporary Music Festival; and collaborations with student animators, filmmakers and dancers.

Degree Requirements:

32 credit hours including a thesis and a written comprehensive exam, or 32 credit hours including a thesis, a written comprehensive exam and an oral comprehensive exam, or 32 credit hours including a written comprehensive exam and the required applied project course (MTC 593), or 32 credit hours including a written comprehensive exam, an oral comprehensive exam and the required applied project course (MTC 593).

Required Core (6 credit hours)

MTC 523 Advanced Composition (6)

Concentration (18 credit hours)

Arts, Media and Engineering coursework (9)

Music Theory and Music History (9)

Electives (2 credit hours)

Culminating Experience (6 credit hours)

AME or MTC 599 Thesis (6) or

MTC 593 Applied Project (6)

Creative Enterprise and Cultural Leadership, MA (HICECLMA)

Online Degree Search Title: Creative Enterprise and Cultural Leadership, MA

Campus: Tempe

Program Description: Creative enterprise and cultural leadership students are changemakers and innovators working toward more just and sustainable futures that connect art and design to society.

The MA program in creative enterprise and cultural leadership has a particular emphasis on impact and place, looking at how art practice intersects with the social, political, economic and other structures that shape communities. This cross-disciplinary, collaborative program merges theory and practice in arts management, civic practice, creative placemaking, leadership and the management of innovation in the expanded creative fields.

The program offers classes that mix theory and practice through applied learning in collaboration with a range of community, nonprofit, business and public sector partners. Local and national leaders engage with students in classes, site visits and collaborative projects. The program culminates with a capstone applied project that can take the form of research or the launch of a new project.

In addition to core classes, students select additional focused coursework to advance their own professional goals and interests. The program offers several areas of curricular emphasis including creative placemaking and placekeeping, civic practice, cross-sector work and new business models.

Accelerated Program Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

- Art (Art History), BA
- Art (Museum Studies), BA
- Arts (BA in the Arts), BA
- Environmental Design, BS
- Film (Film and Media Production), BA

Film (Filmmaking Practices), BA
Media Arts and Sciences, BA
Music, BA
Theatre, BA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (<https://acceleratedmasters.asu.edu/how-apply>).

Degree Requirements:

30 credit hours including the required applied project course (HDA 593).

Required Core (12 credit hours)

GRA 501 Creative Environment and Collaborative Leadership (3)

HDA 511 Purpose, Collaboration and Accountability (3)

HDA 514 Creativity and Impact, Opportunities for Change (3)

IVD 560 Innovation Studio I: Discovery and Insight (3)

Electives (3 credit hours)

Focus Area Coursework (9 credit hours)

Culminating Experience (6 credit hours)

HDA 593 Applied Project (6)

Additional Curriculum Information

For electives, students may choose from a list of approved courses or choose their own with advisor approval.

For focus area coursework, students select three classes from a curated list of options that intersect with the Master of Arts in creative enterprise and cultural leadership's core themes of entrepreneurship, social impact and urban futures and nonprofit and policy.

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's degree in an arts, design, business, public policy or a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letters of recommendation
- letter of intent
- professional resume
- example of academic or professional work
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency

(<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

The letter of intent must outline the applicant's reasons for choosing to pursue a Master of Arts in creative enterprise and cultural leadership and outline how their unique background and abilities make them a suitable candidate.

Applicants are required to submit an example of academic or professional work that demonstrates, within a maximum of 30 pages, the ability and potential to be successful in the program. Following are examples of appropriate submissions:

- business plan for a new or existing enterprise
- critical essay from previous academic work
- critical essay for professional audiences
- curatorial materials
- marketing materials designed or written by applicant
- material produced for professional creative practice

- other professional or technical writing relevant to the creative industries

An online interview may be held for applicants who reach the finalist stage of consideration for admission.

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Evaluate challenges to and opportunities for success in the creative industries emphasizing impact and place, and the intersection of art practice and social, political, economic, and other structures that shape communities
- Apply design thinking to the development of creative enterprises including arts management, civic practice, creative placemaking, leadership, and the management of innovation in the expanded creative fields.
- Foster collaborative relationships that support dynamic co-creation in art and design learning and constructive outcomes in systems creation.

Career Opportunities: Using arts and design-based methods to advance a spectrum of enterprises, graduates are equipped to pursue positions such as:

- arts managers
- civic leaders
- cultural entrepreneurs and business leaders
- cultural producers

Dance, MFA (FADANCEMFA)

Online Degree Search Title: Dance, MFA

Campus: Tempe

Program Description: The ASU MFA program in dance is normally accomplished during three years of residency.

The dance program welcomes a diversity of applicants, including returning professionals, who have experience and interest in choreography, dance science and somatics, dance teaching praxis, dance and technology, community engagement, practices of equity and inclusion, professional partnerships and dance scholarship and theory. Students whose approaches are interdisciplinary and cross-cultural in nature and who are self-motivated, have clear and demonstrated objectives and are willing to explore new possibilities in the field of dance and beyond are ideal for this program.

This program encourages in-depth study in a range of dance practices and related fields.

Each graduate student will develop their potential as a creator, performer, teacher, thinker and art advocate. Frequent showings are required for degree completion.

Degree Requirements:

60 credit hours and a portfolio.

Students in the Master of Fine Arts program in dance take coursework in dance and related fields that have been designed to provide a broad and fundamental preparation for future careers. Opportunities on and off campus further develop the knowledge and skills students need to become leaders in the dance community through teaching, performing and creating, and engaging in scholarship and arts advocacy.

The Master of Fine Arts portfolio in dance serves as the culminating experience in the graduate dance curriculum. The portfolio takes into consideration the future goals of the student and serves as a bridge to careers beyond graduate school.

Additional information on degree requirements for this degree is available on the curriculum check sheet located at the bottom of the school's degree page (<https://musicdancetheatre.asu.edu/masters-degrees-phds/majorinfo/FADANCEMFA/graduate/false/3>).

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- School of Music, Dance and Theatre application (<https://apply.mdt.asu.edu/>), including a personal statement, teaching sample, recent creative works and a current resume
- letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

All applicants should thoroughly review the application materials and deadlines on the program admission page (<https://musicdancetheatre.asu.edu/admission>).

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will be able to create new artistic work or practices and processes in core areas of interest including: dance performance and creative practice, somatic inquiry, teaching praxis, technology, scholarship, and socially and community engaged practice.
- Students will develop relevant practical and theoretical frames for the analysis and teaching of dance.
- Students will develop creative and movement inquiry and research processes relevant to their chosen area of focus.

Career Opportunities: Dance artists and educators who complete the Master of Fine Arts program in dance are prepared for work in a variety of settings and industries, including higher education dance programs, commercial dance venues, community dance and wellness programs, professional dance companies and stage production settings.

Graduates with a Master of Fine Arts in dance are successful securing employment at diverse international venues and events and working abroad as dance artists and educators. These opportunities might include teaching abroad at a university, in a professional training program or at a dance festival; choreographing for community or professional organizations; performing with a dance company; or working as an independent artist. A number of full- and part-time employment opportunities exist all over the world.

Career examples include:

- choreographer
- community engagement and social activist artist
- dance researcher, scholar or reviewer
- dance works curator
- performing artist
- performing arts program developer
- social engagement practitioner
- somatics educator
- teaching artist
- university dance educator

Dance (Interdisciplinary Digital Media and Performance), MFA (FADANDIMFA)

Online Degree Search Title: Dance (Interdisciplinary Digital Media and Perform.), MFA

Campus: Tempe

Program Description: The MFA program in dance with a concentration in interdisciplinary digital media and performance builds on the strength of the School of Music, Dance and Theatre and expands into the specific area of new media practices.

The concentration provides a select group of graduate students with a rigorous, in-depth opportunity to specialize in dance as well as transdisciplinary digital arts. The interdisciplinary classes and research activities of the transdisciplinary School of Arts, Media and Engineering that are part of this concentration give students access to advanced media equipment, studios, project funding and interdisciplinary collaborators.

The program welcomes a diversity of students, including returning professionals who have experience or interest in choreography, dance science and somatics, dance teaching praxis, dance and technology, community engagement, practices of equity and inclusion, professional partnerships and dance scholarship and theory. Students whose approaches are interdisciplinary and cross-cultural in nature and who are self-motivated, have clear and demonstrated objectives and are willing to explore new possibilities in the field of dance and beyond are ideal for this program.

Each graduate student will develop their potential as a creator, performer, teacher, thinker and art advocate. Frequent showings are required for degree completion.

Degree Requirements:

60 credit hours and a portfolio.

The degree program involves three years of residency:

a final Master of Fine Arts portfolio (8 credit hours)

a written document

an oral defense

required coursework in the concentration taught by AME (18 credit hours)

electives (15 credit hours)

required courses in the School of Dance (19 credit hours)

ongoing showings of work

The current Master of Fine Arts program is normally accomplished during three years of residency in the School of Music, Dance and Theatre. Ongoing showings of creative work are required. Foundational coursework is offered in areas of creative practice, movement practices, pedagogy, professional development, technology and theory.

Students enrolled in the program specialize in areas related to independent research. The Master of Fine Arts portfolio, which may involve producing original choreography, presenting a lecture demonstration on a body of research or another form of original work, acts as the culminating experience of the program. Completing the process are a presentation, a final written document that is reflective in nature, and an oral defense.

Additional information on degree requirements for this degree is available on the curriculum check sheet located at the bottom of the school's degree page (<https://musicdancetheatre.asu.edu/masters-degrees-phds/majorinfo/FADANDIMFA/graduate/false/3>).

Admission Requirements: Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- School of Music, Dance and Theatre Application (<https://apply.mdt.asu.edu/>) including a personal statement, teaching sample, recent creative work and a current resume
- letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency (<https://admission.asu.edu/apply/international/graduate/english-proficiency>) regardless of their current residency.

All applicants should thoroughly review the application materials and deadlines on the school's admissions website (<https://musicdancetheatre.asu.edu/admission>).

Program Learning Outcomes:

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Students will be able to apply advanced knowledge of media applications to live dance performances, installations and alternative creative outputs.
- Students will implement relevant practical and theoretical frames for the creation, performance, embodied experience and teaching of dance.
- Students will develop creative and movement inquiry and research processes relevant to dance and digital media.
