The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU (including the 15 medical anthropologists on campus), it also takes advantage of a much wider set of skills offered by such fields as medical sociology, demography, human geography and epidemiology. It is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings, such as:

- commercial sector
- governmental agencies
- nongovernmental organizations

Some particular thematic foci of the program are:

- biocultural approaches to human coping
- computer-based complexity modeling
- culture and health

- health in the Americas
- indigenous and minority health
- mathematical epidemiology
- nutritional anthropology
- social justice and vulnerable populations
- social networks
- urban and environmental health

The program draws together some 80 faculty members from across the university to consider how cutting-edge social science can be applied to not only understand but also to substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research, from large U.S. cities to hunter-gatherer communities. Students generally enter the program with a master's degree in a relevant field.

The concentration in culture and health provides focused, specialized training in theories and methods for researching the relationship between culture and health. This concentration utilizes the perspectives of medical anthropology and sophisticated ethnographic methods to study and interpret the role of cultural and social differences in shaping health. Students investigate these methods in the context of the community-based, participatory approaches that tend to promote the most mutually meaningful and lasting health solutions. Graduates are thus particularly prepared for leadership in addressing health disparities in cross-cultural settings and with the most vulnerable populations. This includes very complex, difficult settings where particularly nuanced and sophisticated (often anthropological) understandings of health-related challenges are needed.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate degree program. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio that is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in culture and health, 15 credit hours will be selected from an approved list of applicable courses.

Admission Requirements:

Applicants must submit an online graduate admission application. Please see the program website for application deadlines and admission terms.

In addition to the general requirements for admission to the Division of Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume
- optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Suitable backgrounds for admission include a master's degree in the social sciences (such as anthropology or sociology), public health, human biology or related fields. Students entering directly from a bachelor's degree program should already have completed at least 15 hours of social science and six hours of human biology (or equivalent) at the senior level, and should also have some background in statistics or epidemiology.

Global Health (Evolutionary Global Health Sciences), PHD (LASSHEPHD)

Online Degree Search Title: Global Health (Evolutionary Global Health Sciences) (PhD)

Campus: Tempe

Program Description:

The PhD program in global health draws on the premise that sustainable and satisfying solutions to our most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes, and disease are really related.

The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU (including the 15 medical anthropologists on campus), it also takes advantage of a much wider set of skills offered by such fields as medical sociology, demography, human geography and epidemiology. It is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings such as:

- commercial sector
- governmental agencies
- nongovernmental organizations

Some particular thematic foci of the program are:

- biocultural approaches to human coping
- computer-based complexity modeling
- culture and health
- health in the Americas
- indigenous and minority health
- mathematical epidemiology
- nutritional anthropology
- social justice and vulnerable populations
- social networks
- urban and environmental health

The program draws together some 80 faculty members from throughout the university to consider how cutting-edge social science can be applied to not only understand but also to substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research, from large U.S. cities to hunter-gatherer communities. Students generally enter the program with a master's degree in a relevant field.

The concentration in evolutionary global health sciences requires training in universal principles of research design (from experiments to systematic qualitative and quantitative description), data analyses, methods (quantitative and qualitative), and anthropological interpretation (or the identification of determinants of the origins and distribution of health phenotypes in past and present human populations). Students will choose from a wide range of data collection and inferential tools in order to address specific questions, through a combination of lecture and guided reading courses designed to master the highly diverse literature in evolutionary global health sciences that best pertains to their career goals.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the program. This leaves 30 credit hours of course work, 12 credit hours of research and 12 credit hours of dissertation (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio that is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate program.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in evolutionary global health sciences, 16 credit hours will be selected from an approved list of applicable courses.

The doctoral program in global health with a concentration in evolutionary global health sciences requires the following:

Core courses (10 credit hours)

SSH 502 Professional Seminar in Global Health (1) (repeated for credit four times) or approved equivalent

SSH 510 Health: Social and Biocultural Theories (3)

SSH 513 Research Design and Proposal Writing in Health Social Science (3)

Concentration courses (16 credit hours)
ASB 500 Ethnographic Research Methods (3)
ASM 560 Human Growth and Development: An Evolutionary Perspective (3)
ESS 513 Institutions (3)
SSH 503 Advanced Medical Anthropology (3)
SSH/ASM 514 Infectious Disease and Human Evolution (4)

Elective courses

ASB 510/SSH 510 Health - Social and Biocultural Theories (3)
ASB 537 or ASM 591 Topics in Mesoamerican Archeology or Human Growth and Development (3)
ASM 546 Principles of Human Genetics (3)
Other relevant electives from SHESC, SOLS, etc.

Substitutes to required courses may be permitted by the graduate director, including individualized research, conference or independent study courses with approved faculty.

Admission Requirements:

Applicants must submit an online graduate admission application. Please see the program website for application deadlines and admission terms.

In addition to the general requirements for admission to the Division of Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume
- an optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work, with a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of a student's bachelor's degree program

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Suitable backgrounds for admission include a master's degree in the social sciences (such as anthropology or sociology), public health, human biology or related fields. Students entering directly from a bachelor's degree program should already have completed at least 15 hours of social science and six hours of human biology (or equivalent) at the senior level, and should also have some background in statistics or epidemiology.

Global Health (Urbanism), PHD (LASSHURPHD)

Online Degree Search Title: Global Health (Urbanism) (PhD)

Campus: Tempe

Program Description:

The PhD program in global health draws on the premise that sustainable and satisfying solutions to our most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes, and disease are really related.

The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU (including the 15 medical anthropologists on campus), it also takes advantage of a much wider set of skills offered by such fields as medical sociology, demography, human geography and epidemiology. It is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings such as:

- the commercial sector
- governmental agencies
- nongovernmental organizations

Some particular thematic foci of the program are:

- biocultural approaches to human coping
- computer-based complexity modeling
- culture and health
- health in the Americas
- indigenous and minority health
- mathematical epidemiology
- nutritional anthropology
- social justice and vulnerable populations
- social networks
- urban and environmental health

The program draws some 80 faculty members from all across the university to consider how cutting-edge social science can be applied to not only understand but also to substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research into societies from large U.S. cities to hunter-gatherer communities. Students generally enter the program with a master's in a relevant field.

The concentration in urbanism will leverage the varied interests in urbanism and help emerging scholars as they attempt to compare, contrast and take stock of urbanism as it pertains to the thematic foci of the program. Working with faculty from across a range of departments and programs at ASU, doctoral students will be able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative, constructive kind of inquiry.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate. This leaves 30 credit hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio that is formally evaluated by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctorate program.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in urbanism, 15 credit hours will be selected from an approved list of applicable courses related to urbanism. These courses will include the core urbanism course, GCU 516 (three credit hours) as well as one course from each of the four urbanism clusters. These clusters are:

- built form
- culture and society
- institutions and governance
- natural environment

Admission Requirements:

Applicants must submit an online graduate admission application. Please see the program website for application deadlines and admission terms.

In addition to the general requirements for admission to the Division of Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume
- optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Suitable backgrounds for admission include a master's degree in the social sciences (such as anthropology or sociology), public health, human biology or related fields. Students entering directly from a bachelor's degree program should already have completed at least 15 hours of social science and six hours of human biology (or equivalent) at the senior level, and should also have some background in statistics or epidemiology.

History, MA (LAHISTMA)

Online Degree Search Title: History (MA)

Campus: Tempe, Online

Program Description:

Designed and taught by ASU's award-winning faculty, the MA degree program offers advanced study of history, providing students the opportunity to deepen their knowledge of past, while honing their research, analytical and writing skills.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (HST 593).

There are two options for the master's degree program in history: the thesis option and the nonthesis option. The thesis options requires 30 total credit hours of course work, including six credit hours of HST 599 Thesis. The nonthesis option requires 30 total credit hours of course work, including three credit hours of HST 593 Applied Project, three credit hours of HST 591 Seminar and an additional 24 credit hours of course work.

Accelerated Degrees:

This degree is also offered as an accelerated degree with History, BA

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements: • **strong>Online electronic application:** Applicants must submit an online graduate admission application. Students apply for admission to the Division of Graduate Education and to a degree program (e.g., the master's degree in history). The history program is affiliated with several graduate certificate programs, including scholarly publishing, and medieval and renaissance studies. Students applying for admission to the master's degree program in history and a certificate program, such as the scholarly publishing certificate program, are required to submit two separate applications (for the degree program and for the certificate program).

• **strong>Transcripts:** Official transcripts should be mailed directly to the Division of Graduate Education. It is not necessary to mail transcripts to the history program.

• **strong>GRE scores:** A report of the scores received on the GRE must be submitted to the Division of Graduate Education. Scores should be no more than five years old.

• **strong>Letter of application:** This letter is to be addressed to the history admission committee and should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue, the proposed research specialization, and why the applicant wants to pursue graduate study at ASU (about 500 words in length).

• **strong>Resume:** Please upload the resume into the online application.

• **strong>Writing sample:** A sample of the applicant's written work should be submitted electronically. The writing sample may be an article (published or unpublished), a research paper, or any other extended sample of expository skill no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents and files should not be password protected. Acceptable file types are .rtf, .pdf, and .doc.

• **strong>Assistantship application:** The application form for a graduate assistantship, if desired, can be downloaded.

• **strong>References:** Students are required to submit a minimum of three email addresses from faculty or others qualified to speak of the student's suitability for graduate study in history.

• **strong>English proficiency:** Students applying whose native language is not English must follow Division of Graduate Education guidelines demonstrating English language proficiency. The Division of Graduate Education's minimum Test of English as a Foreign Language (TOEFL) score is 550; however, the history program requires a score of at least 600. Students whose native language is not English must send a copy of an article or research paper in their native or principal research language in addition to the English writing sample required of all students. Prospective international students applying for teaching assistant positions must achieve a score of 55 or higher on the Test of Spoken English (TSE) or Speaking Proficiency English Assessment Kit (SPEAK).

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated,7.5-week classes. View the program description and request more information here.

History, PHD (LAHISTPHD)

Online Degree Search Title: History (PhD)

Campus: Tempe

Program Description:

The PhD in history offers doctoral students the opportunity to study past and contemporary civilizations and to learn research methods and professional writing strategies for use in diverse applications, including:

- business
- historical societies and agencies
- leading academic institutions
- the public sector

Areas of major emphasis include:

- competence in historical research methodology
- developing skills in scholarly analysis
- obtaining expertise in a chosen historical subject area

Degree Requirements: 84 credit hours, a written comprehensive exam, a oral comprehensive exam, a prospectus and a dissertation.

The PhD program requires a minimum of 84 credit hours and may be completed in four to five years. Students with a master's degree may apply 30 credit hours toward the 84 required credit hours with approval of the academic unit and the Division of Graduate Education.

Core Requirements (16 credit hours)

HST 502 Public History Methodology (3)
HST 640 Historical Methods (3)
HST 641 North American History (3)
HST 642 European History (3)
HST 643 Global History (3)
HST 682 Advanced Research Skill (1)

Electives and Research (14 credit hours)*

In general, all credit hours must be at the 500 level or above (graduate credit for 400-level courses must be approved in advance and documented in the student's file).

Other Requirements (12 credit hours)

HST 591 Seminar (6)
HST 792 Research (6)

Dissertation (12 credit hours)

HST 799 Dissertation (12)

*Please note that if a student does not already have a master's degree in a related field, then the remaining 30 credit hours will be made up of electives and research to reach the 84 credit hours required for the doctoral program.

Admission Requirements:

Applications for all ASU graduate programs are initiated through Graduate Admission Services and must meet criteria established by the Division of Graduate Education and the history graduate program. Information on the application process can be found on the graduate admission website at <https://students.asu.edu/graduate> (<https://students.asu.edu/graduate>).

With the exception of the official transcripts and test scores, applicant information and documents are submitted as part of the application. All uploads must be in either .doc or .pdf format.

The student will need the following information when completing the online application:

- **Official transcripts:** Send to Graduate Admission Services, Arizona State University. Only official transcripts are accepted. All other transcripts will be discarded and not considered a part of the application. Information in regard to the address for sending official documents can be found online at <https://students.asu.edu/graduate/>. (<https://students.asu.edu/graduate/>)
- **GRE Scores:** Official scores should be sent by the Educational Testing Service to ASU using the university code 4007. Department code can be left blank or 0000. Scores should be no more than five years old.
- **Letter of Application:** The letter of application (about 500 words in length) should be addressed to the history admission committee and it must explain the applicant's scholarly background and training, career goals, the primary field the student wishes to pursue, the proposed research specialization, and why the applicant wants to pursue graduate study at ASU.
- **Resume or CV:** Upload this into online application.
- **Writing sample:** A sample of the applicant's written work should be submitted electronically. The writing sample may be an article (published or unpublished), a research paper, or any other extended sample of expository skill no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents and files should not be password protected. Acceptable file types are .rtf, .pdf and .doc.
- **References:** The applicant must indicate three faculty members or others who are qualified to provide an accurate evaluation of their potential as a graduate student in history, and the applicant must also provide the referee's names, the institutions or companies with which they are affiliated, and their email addresses.
- **An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.** The Division of Graduate Education requires a minimum Test of English as a Foreign Language (TOEFL) iBT score of 80; however, the history program requires a score of at least 90.

Students whose native language is not English must send a copy of an article or research paper in their native or principal research language in addition to the English writing sample required of all students.

Exceptions for the English requirement can be found on the ASU graduate English proficiency website: <https://students.asu.edu/graduate/proficiency>. (<https://students.asu.edu/graduate/proficiency>)

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

History and Philosophy of Science, PHD (LAHPSCIPHD)

Online Degree Search Title: History and Philosophy of Science (PhD)

Campus: Tempe

Program Description:

This degree combines solid training in the core areas of philosophy with an emphasis on transdisciplinary studies of the sciences and:

- conceptual structure
- epistemology
- history
- impacts on society

The strength of ASU's history and philosophy of science program is to bring philosophy, history and the study of science together. This degree program is especially appropriate for students with a background in philosophy who seek to broaden their disciplinary studies with a historical perspective.

Applicants will typically come from undergraduate programs that have included philosophical, historical, or history and philosophy of science training, or they will hold a master's degree in one of those fields. Science students are eligible as well and will make up relevant undergraduate humanistic core courses during their first years. Most graduates will seek a career based in philosophical or historical analyses of the sciences.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

An individual student program is developed in consultation with the student's advisor and committee.

core (6)
restricted program electives (30)
program electives (24)
research: HPS 792 Research (12)
dissertation: HPS 799 Dissertation (12)

Admission Requirements: • online graduate admission application

- minimum of a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing in a related field such as: history, philosophy, or history and philosophy of science, as well as a demonstrated background and interest in one or more sciences
- minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's bachelor degree program
- GRE test scores

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Immigration Studies (certificate), Certificate (LAIMMSTUCE)

Online Degree Search Title: Immigration Studies (Grad Certificate)

Campus: Tempe

Program Description:

The immigration studies graduate certificate program provides students with an understanding of the causes and consequences of international migration as well as relevant professional and research training opportunities.

The program prepares graduates for future study in graduate and professional schools or for careers as immigration practitioners and advocates in nongovernmental organizations, local and federal government agencies, as well as in other private and public institutions serving immigrant and refugee communities.

The objective of the certificate program is to offer traditional academic training through course work, research and practical experience working with local immigrant and refugee communities.

Degree Requirements: 15 credit hours.

The certificate consists of 15 total credit hours. All students will be required to take:

- one core course
- three approved elective courses on immigration
- three hours of a culminating experience (either an internship or a research project)

For a list of approved courses, please contact the school.

Internship: Students may do an internship with Phoenix-based, nongovernmental organizations or government agencies that provide services to immigrants and refugees. Such internships will give students professional training and actual experience working with immigrant and refugee communities. Students will be required to write a report describing the organization and their experience as interns.

Research: Students may enroll in three credits of research with a faculty member in order to do an independent research project. They must write a substantial research paper based on field research in a local immigrant community, library and archival research, or readings on an immigration topic.

Certificate students may choose to specialize in:

- humanities
- Mexican and Latino immigrants in the U.S.
- social sciences

Given the nature of the immigration courses offered at ASU and the preponderance of Latino immigrant communities in the Phoenix area, the program emphasizes Latino immigration. However, students will have the opportunity to take broader courses focusing on global migration and other immigrant groups, as well as work with local Asian or Southeast Asian immigrants and refugee communities.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count toward their degree program with the approval and consent of the degree granting program. For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree or up to 12 credit hours may count toward their master's degree, with the approval and consent of the degree-granting program.

All requirements for the certificate program should be completed within a three year time limit with a cumulative GPA of at least 3.00. Students who require more time to finish the program (because of their part-time status or lack of desirable or available courses) must obtain approval from the executive committee.

Admission Requirements:

Students must submit an online graduate admission application. Please see the program website for application deadlines and admission terms. In addition to the Division of Graduate Education admission standards, applicants must also provide:

- a current curriculum vitae or resume
- a statement of purpose outlining career and educational goals
- an optional sample of their written work
- official GRE scores
- three letters of recommendation
- transcripts of all undergraduate and graduate course work
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Infant Family Practice, MAS (LACDEMAS)

Online Degree Search Title: Infant - Family Practice (MAS)

Campus: Tempe

Program Description:

This self-contained, accelerated program provides high-quality course work and supervised internship experiences designed to train professionals to work in prevention and intervention programs, serving families with infants, toddlers and preschool-age children.

The program prepares individuals for positions in a variety of professional capacities including:

- child abuse prevention
- child welfare
- early childhood education and child care administration
- early intervention
- family support
- home visiting
- infant and early childhood mental health

Course work prepares students for professional endorsement by the Infant-Toddler Mental Health Coalition of Arizona's endorsement for culturally sensitive, relationship-based practice promoting infant mental health.

Degree Requirements: 30 credit hours and a portfolio.

The MAS in infant-family practice requires successful completion of a minimum of 30 credit hours and an applied project, including required course work and an internship in a community placement approved by the faculty of the master's degree program in infant-family practice. Internships are expected to last approximately 12 months.

Students must maintain a GPA of 3.00 (scale is 4.00 = "A") in all course work and satisfactorily meet the expectations of the agency supervising their internship.

Foreign Language Requirements: none

Thesis Requirements: none

GRE Scores: GRE scores are waived for this program.

Admission Requirements:

Admission to the program is determined by the following criteria:

- online graduate admission application
- a personal statement
- official transcripts of the student's academic record
- three letters of recommendation from individuals familiar with the applicant's academic background
- proof of English proficiency for applicants whose native language is not English (regardless of current residency)

Additionally, candidates are sometimes contacted for an interview.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

International Letters and Cultures, PHD (LAILCPHD)

Online Degree Search Title: International Letters and Cultures (PhD)

Campus: Tempe

Program Description:

The PhD program in international letters and cultures provides research and training that is linguistically well-grounded, historically and culturally informed, and methodologically transdisciplinary. Central to the program is the critical inquiry of primary documents from a variety of media across multiple languages, aiming at a deep understanding of the development of cultures through history. Students in the program must focus on research questions and themes that cannot be fully explored within the traditional disciplinary boundaries. The program fosters dynamic scholarly collaboration across disciplines in order to engage in the production of knowledge crucial to understanding transnational and transcultural phenomena from antiquity to the present.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Core course credit hours: (12)

Restricted elective course credit hours:

Primary field of study (18)

Secondary field of study (18)

Other requirements:

Elective/research credit hours (12)

Foreign language credit hours (12)

Culminating experience:

SLC 799 Dissertation (12)

Overall required credit hours: 84

Admission Requirements:

The program requires a minimum of a bachelor's degree in the humanities or social sciences. A condition of admission to the program is advanced competency in English and in the language of primary emphasis, i.e., the language of most of the course work and of most of the primary materials for the dissertation. Students must also have competency in a third language, either upon application to the program or to be acquired in the course of the program. Students whose Bachelor of Arts is not in foreign language must demonstrate proficiency by submitting a writing sample in the language of primary emphasis (and of secondary emphasis, if applicable) and an instructor's letter addressing their competency.

Applicants must submit:

- the online graduate admission application
- a personal statement summarizing the applicant's educational background and goals
- a writing sample in English (five pages minimum)
- three letters of recommendation

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") is required in the last 60 hours of a student's first bachelor's degree program and 3.30 or better in the last two years of work leading to the bachelor's degree.

English Proficiency Requirement: The minimum TOEFL score required is 550 (PBT) or 80 (iBT). An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Justice Studies, MS (LAJUSSTMS)

Online Degree Search Title: Justice Studies (MS)

Campus: Tempe

Program Description:

The MS in Justice Studies is a designed for future scholars and change agents seeking to understand the concept of justice and learn strategies for conducting research and evaluating policies that promote social change. The program is unique compared with other justice-related programs in that it is housed in the School of Social Transformation, placing students in the center of a transdisciplinary learning environment with scholars dedicated to creating social innovations to change the world.

The justice studies program prepares graduates to pursue careers in research centers, social justice organizations and academic institutions. Many graduates also go on to pursue doctoral programs in justice studies, criminology and law.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (JUS 593).

The master's degree program has two options: a thesis and an applied project.

Thesis option

The thesis option requires the completion of 30 credit hours, six of which are JUS 599 Thesis. To satisfy the thesis requirement for the degree, candidates must write a thesis and defend it in an oral examination conducted by the student's advisory committee.

Applied project option

The applied project option requires the completion of 30 credit hours, three of which are JUS 593 Applied Project. Students who elect to complete the applied project option will have to enroll in three credit hours of JUS 592 Research prior to enrolling in JUS 593 Applied Project. Candidates

pursuing the applied project option must present their applied project and defend it in an oral examination conducted by the faculty member who supervises the project and the graduate programs director or designated representative. The applied project typically includes a brief literature review to identify the nature of the issue or problem and a description of the methodology used and, if relevant, of the program studied, followed by an analysis.

Each student's program is developed in concert with the advisory committee. The program has three major categories: foundation courses, elective courses, and thesis and applied project requirements.

The required foundation courses provide students with a fundamental understanding of the theories, methods and analytic techniques associated with the study of justice. The foundation courses include:

JUS 500 Justice Research Methods (3)

JUS 501 Justice Theory (3)

JUS 509 Statistical Problems in Justice Research (3)

JUS 521 Qualitative Data Analysis and Evaluation (3)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Justice Studies, BA

Justice Studies, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

All applicants must submit the online graduate admission application and upload these additional items through the online application process.

Please see the program website for application deadlines.

- personal statement (one-and-a-half to two pages, double spaced) outlining areas of interest, educational and career goals
- three letters of reference*
- a writing sample, 10 to 15 pages (research that best represents the student's academic thinking and writing skills)

*Academic references are preferred.

Also required:

Language proficiency: An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Transcripts: Send one set of official transcripts from every college and university from which a bachelor's degree or higher was earned to Graduate Admission Services.

Please see the ASU Graduate Admission Services website for mailing addresses and further admission information. No GRE testing is required for admission.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Justice Studies, PHD (LAJUSSTPHD)

Online Degree Search Title: Justice Studies (PhD)

Campus: Tempe

Program Description:

Join us in the Justice Studies PhD program at the nation's first School of Social Transformation. The diverse community of scholars unites students and faculty across academic boundaries to strategically create social change that is democratic, inclusive and just. Our inclusive doctoral program in justice studies prepares future scholars and change agents to address complex social problems and become tomorrow's leaders.

We take a unique approach to the study of justice by examining the intersecting forms of injustice, engaging multiple visions of justice --- knowing that no one solution works for all --- and transforming communities by empowering those silenced by inequality.

The PhD/JD option allows qualified students to earn a Juris Doctor from ASU's Sandra Day O'Connor College of Law while simultaneously earning a transdisciplinary doctoral degree in justice studies. Students must apply separately to both programs. Contact the Sandra Day O'Connor College of Law for their requirements.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Students in the doctoral program must complete three foundation courses as a part of the core course work for the doctoral degree in justice studies. Students must earn a grade of "B" (3.00 on a 4.00 scale) or higher in each of the foundation courses:

JUS 620 Justice Research Methodology (3)

JUS 630 Data Analysis for Justice Research (3) or JUS 650 Advanced Qualitative Data Analysis (3)

JUS 640 Theoretical Perspectives on Justice (3)

Students entering the doctoral program with a master's degree or JD are required to complete 54 credit hours:

- Eighteen credit hours are comprised of any combination of additional elective courses, reading or conference hours, or research hours.
- Fifteen credit hours are elective classroom hours; nine credit hours must have a JUS prefix.
- Nine credit hours are PhD core courses.
- Twelve credit hours are earned as dissertation research.

Students entering the doctoral program without a master's degree or JD are required to complete 84 credit hours:

- Nine credit hours are required doctoral courses.
- Twelve credit hours are earned as dissertation research credit.
- Twelve credit hours are 500-level foundation courses.
- Twenty-four credit hours are elective classroom hours; 15 credit hours must have a JUS prefix.
- Twenty-seven credit hours are comprised of any combination of additional elective courses, reading and conference hours or research hours.

Concurrent Degrees:

This degree is also offered as concurrent degree with Juris Doctor (JD)

Admission Requirements:

All applicants must submit the online graduate admission application and upload additional items. Applicants must upload the following items through the online application process. Please see the program website for application deadlines.

- a personal statement (one-and-a-half to two pages, double-spaced) outlining areas of interest, educational and career goals
- three letters of reference (academic references are preferred)
- a writing sample, 10 to 15 pages (research that best represents the applicant's academic thinking and writing skills)
- GRE scores

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Liberal Studies, MLSt (LAMLSMLS)

Online Degree Search Title: Liberal Studies (MLSt)

Campus: Tempe, Online

Program Description:

The MLSt offers students interested in a transdisciplinary approach to human ideas and values an opportunity to expand their liberal arts backgrounds. The program is intended for students seeking a graduate degree that explores the integration of the humanities with political, religious, social and scientific questions within their cultural contexts. The program connects students to the entire College of Liberal Arts and Sciences and integrates the disciplines.

Degree Requirements: 30 credit hours including the required applied project course (MLS 593).

Students are required to take three core classes, six electives and an applied project.

Core courses: (12 credit hours; choose three courses)

MLS 501 Writing About Social Issues (3)

MLS 502 Religion, Health and Culture (3)

MLS 503 Ethics, Science and Culture (3)

MLS 504 Film and Media Studies (3)

Electives: (18 credit hours)

18 credit hours of electives; no more than nine in the same department

Emphasis areas available:

- borders: migration, health and cultural identity
- gender, religion and culture
- science, nature and creative nonfiction writing

Admission Requirements:

Applicants must submit:

- an online graduate admission application
- letter of interest in the program
- resume, biographical statement or curriculum vitae

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Linguistics (certificate), Certificate (LALINGUICE)

Online Degree Search Title: Linguistics (Grad Certificate)

Campus: Tempe

Program Description:

This transdisciplinary graduate certificate in linguistics offers students in several fields the opportunity to gain an understanding of the way in which languages are structured, how they are acquired and how they vary over time, space, social distance and situational contexts.

The skills acquired through the completion of the core courses for this certificate include:

- analytical abilities
- critical thinking
- effective communication
- problem-solving

In addition, the knowledge acquired in the areas of discourse analysis and pragmatics makes students aware of the necessity to use appropriate registers and styles when creating written documents or oral presentations to different audiences.

Degree Requirements: 18 credit hours.

The required nine credit hour core of the certificate consists of courses in:

- discourse analysis and pragmatics
- phonology
- syntax

The other nine credit hours (three courses) may be chosen from fields such as:

- applied linguistics
- educational linguistics
- natural language processing
- second language acquisition
- sociolinguistics

Prerequisite: Students must have completed an introductory course in linguistics taken at the upper-division or graduate level. Consult the certificate program director for advice.

All certificate course work must be completed with an average grade of "B" (3.00 on a 4.00 scale) or higher.

Admission Requirements:

The graduate certificate in linguistics is available to all ASU graduate students irrespective of their major and to nondegree graduate students and working professionals provided they meet eligibility criteria. Students are advised that up to 12 credit hours with grades of "B" (3.00 on a 4.00 scale) or better may be applied to a graduate degree or certificate program if taken within three years of admission to an ASU degree program while under nondegree or certificate status. Students should check with their academic advisor for approval of appropriate course work.

Eligibility requirements for obtaining the graduate certificate include:

- completion of an undergraduate bachelor's degree from a U.S.-accredited institution or equivalent
- formal knowledge of a foreign language, equivalent to two years of study of a foreign language at the university level or plans to fulfill the language requirement concurrently with certificate courses*
- an introductory course in linguistics at the upper-division or graduate level

*The language requirement may be met by completion of courses through the second-year level (four semesters) at ASU or elsewhere; or completion of an upper-division language course with an average of "B" (3.00 on a 4.00 scale) or better for all such course work (200- or 300-level); or through examination, indicating placement above the 200-level. (Language placement tests are available online at the Language Placement Policies and Tests website. See: <https://international.clas.asu.edu/student-life/academic-advising/placement-testing> (<https://international.clas.asu.edu/student-life/academic-advising/placement-testing>.) If this requirement is not already fulfilled at the time of application, candidates must demonstrate completion of this requirement at the end of their certificate course work in order for their certificate to be granted.

Application Process:

Applications are accepted year-round. Applicants must complete the online graduate admission application.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Refer to the Department of English webpage for English proficiency requirements: <https://english.clas.asu.edu/admission/graduate-admission/how-to-apply/information-international-students>. (<https://english.clas.asu.edu/admission/graduate-admission/how-to-apply/information-international-students>)

Supporting documents consisting of a resume and statement of purpose must be uploaded into the online application. The statement should be a one- to two-page, well-considered statement of purpose detailing the student's background and reasons for wanting to complete the linguistics certificate.

Once the online application has been submitted, the student should send a copy of unofficial transcripts, statement of purpose and resume via email to the graduate program manager in the Department of English with the subject line: Linguistics Certificate Application.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

For further information see <https://english.clas.asu.edu/node/239> (<https://english.clas.asu.edu/node/239>).

Linguistics and Applied Linguistics, MA (LALINMA)

Online Degree Search Title: Linguistics and Applied Linguistics (MA)

Campus: Tempe

Program Description:

This MA program in linguistics and applied linguistics focuses on the study of human language and the application of that study to the human condition. The curriculum provides foundational training in linguistics and applied linguistics at the master's degree level with focused research in several areas such as phonetics, phonology, syntax, semantics and pragmatics. Second-language acquisition and second-language teaching and

learning, TESOL (teaching English to speakers of other languages), and language contact and change (including World Englishes) are also research possibilities in addition to sociolinguistics, language planning, discourse analysis, language and cognition.

Degree Requirements:

Required Degree Program Core Courses (3 credit hours):

LIN 515 American English (3) or LIN 516 Pragmatics and Discourse Analysis (3)

General Linguistics Track

Required Courses (6 credit hours):

LIN 511 Phonetics and Phonology (3)

LIN 514 Syntax (3)

Required Research Course (3 credit hours)

LIN 500 Research Methods (3)

Electives (12-15 credit hours):

One 500 level linguistics course

One 600 level linguistics course

two or three additional electives depending on the student's choice of the thesis or applied project option

Applied Linguistics Track

Required Courses: (6 credit hours)

LIN 511 Phonetics and Phonology (3) or LIN 514 Syntax (3)

LIN 520 Second Language Acquisition Theories (3) or APL 601 Introduction to Applied Linguistics (3)

Required Research Course: (3 credit hours)

LIN 500 Research Methods (3)

Electives: (12-15 credit hours)

two additional 500- or 600-level linguistics courses

two or three additional electives depending on the student's choice of the thesis or applied project option

Culminating Experience: (3 or 6 credit hours)

LIN 599 or APL 599 Thesis (6)

LIN 593 or APL 593 Applied Project (3)

Total required credit hours: 30

Language: Students must demonstrate evidence of a competent knowledge of a natural language other than modern English, to be selected by the student, subject to the approval of the chair of the thesis committee or the director of the applied project.

This requirement may be met by:

- earning a "B" (3.00 on a 4.00 scale) or better in a 400- or 500-level course in an appropriate (approved) language*
- demonstrating comparable proficiency by taking a language examination, administered by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- demonstrating native-speaker proficiency, as determined by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- earning a "B" (3.00 on a 4.00 scale) or better in both ENG 530 Old English and ENG 531 Old English Literature or their equivalent
- holding a bachelor's degree in an approved foreign language
- two years (four semesters) of successfully completed college-level course work at least the 100- and- 200- level with a "C" or better (scale is 4.00 = "A") for languages which the School of International Letters and Cultures does not offer or does not offer above the 200 level**

*Any course in which all class meetings are conducted in the approved language will satisfy this requirement; courses conducted in English will not. The Department of English does not require its graduate students to write papers in the approved language. GER 494/598 Topic: German for Reading Knowledge, FRE 494/598 Topic: French for Reading Knowledge and ITA 494/598 Topic: Italian for Reading Knowledge will also satisfy the requirement.

**The course work must have been successfully completed no more than six years prior to admission to the degree program.

Admission Requirements:

Degree: Faculty will consider undergraduate degrees in such related fields as anthropology, applied linguistics, communication, cognitive science, comparative languages and literatures, literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology, religious studies, rhetoric, composition, sociology, speech and hearing science.

LIN 510 Linguistics or its equivalent such as SLC 400 or ASB 480 is prerequisite to many core and required courses. If a student has not taken LIN 510 before acceptance into the program, they should take it concurrently with other 500-level courses in the first semester of the program and it will count as an elective on the student's plan of study. Students should consult with their academic advisor for any previously taken courses that may meet this prerequisite requirement.

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program is required; a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree program is required.

English Proficiency Requirement: An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. International students applying to graduate programs in the Department of English at ASU must submit evidence of English proficiency. This can be done in one of three ways:

- one of the following results on a standardized English proficiency test*: (a) 100 (iBT) or 600 (PBT) or higher on the TOEFL; (b) 7.0 or higher on the IELTS
- a grade of "A" in all Advanced 2 classes in the ASU American English and Culture Program (AECPP) (<https://learnenglish.asu.edu/>)
- one of the following from a regionally accredited college or university in the US: (a) a bachelor's degree or higher; (b) at least 90 semester hours of undergraduate course work with a cumulative GPA of 3.00 or higher on a 4.00 scale; (c) at least 12 semester hours of graduate course work with a cumulative GPA of 3.00 or higher on a 4.00 scale.

A minimum score of 55 on the Test of Spoken English (TSE) or Speaking Proficiency English Assessment Kit (SPEAK) is also required for teaching assistants.

Required Admission Examinations: None

Letters of Recommendation: Yes

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Linguistics and Applied Linguistics, PHD (LALINPHD)

Online Degree Search Title: Linguistics and Applied Linguistics (PhD)

Campus: Tempe

Program Description:

The PhD program in linguistics and applied linguistics focuses on the study of human language and the application of that study to the human condition. The curriculum provides foundational and advanced training in linguistics and applied linguistics with focused research in several areas such as phonetics, phonology, syntax, semantics and pragmatics. Second-language acquisition and second-language teaching and learning, TESOL (teaching English to speakers of other languages), and language contact and change (including World Englishes) are also research possibilities in addition to sociolinguistics, language planning, discourse analysis, language and cognition.

The degree will encourage students to work with faculty from across the university and its various units and to develop transdisciplinarity and interdisciplinarity in their research.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a foreign language exam, a prospectus and a dissertation.

Required Core Courses: (18 credit hours)

APL 555 Disciplinary Discourses (3)
APL 601 Introduction to Applied Linguistics (3)
LIN 511 Phonetics and Phonology (3)
LIN 514 Syntax (3)
LIN 515 American English (3) or LIN 516 Pragmatics and Discourse Analysis (3)
LIN 655 Disciplinary Discourses (3)

Elective or Research Courses: (24 credit hours)

LIN 500 Research Methods (3)

Specialization (21)

Foreign Language Requirement*

Culminating Experience: (12 credit hours)

LIN 799 or APL 799 Dissertation (12)

Other Requirements: (30 credit hours)

If students do not have a previously awarded master's degree, then 30 hours will be made up of additional elective course work approved by their supervisory committee. If they have not taken the equivalent of LIN 510 in the 30 hours, they will have to take that course.

Total required credit hours: 84

*Students must demonstrate evidence of a competent knowledge of a natural language other than modern English, to be selected by the student, subject to the approval of the chair of the dissertation committee. The language requirement must be completed before the student is eligible to take the doctoral examinations. This requirement may be met by any of the following:

- earning a "B" (3.00 on a 4.00 scale) or higher in a 400- or 500-level course in an appropriate (approved) language
- demonstrating comparable proficiency by taking a language examination, administered by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- demonstrating native-speaker proficiency, as determined by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- earning a "B" (3.00 on a 4.00 scale) or higher in both ENG 530 Old English and ENG 531 Old English Literature or their equivalent
- holding a bachelor's degree in an approved foreign language
- having fulfilled a foreign language requirement toward a previously awarded master's degree that was completed within five years of the semester for which the student was admitted to the doctoral program**
- two years (four semesters) of successfully completed college level course work at least at the 100 and 200 level with a "C" or better, for languages which the School of International Letters and Cultures does not offer or does not offer above the 200 level***

**This foreign language must be in a language approved by the student's doctoral supervisory committee.

***The course work must have been successfully completed no more than six years prior to admission to the degree program.

Admission Requirements:

Degree: Faculty will consider undergraduate degrees in such related fields as anthropology, applied linguistics, communication, cognitive science, comparative languages and literatures, literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology, religious studies, rhetoric, composition, sociology, speech and hearing science.

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program is required; a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree program is required.

Literary Translation Studies (Certificate), Certificate (LALTSGRCT)

Online Degree Search Title: Literary Translation Studies (Grad Certificate)

Campus: Tempe

Program Description:

The graduate certificate in literary translation studies is a transdisciplinary program offering course work that provides:

- intensive engagement of students in translation practice
- investigation of issues related to the cultural role of the translator and translation
- studies in the variety of theoretical approaches to translation in the 20th and 21st centuries
- studies in trans-historical and cross-cultural theories of translation

These areas of emphasis enable students to gain expertise in practical and theoretical knowledge of the field of literary translation and to engage in developing new models for the practice of translation today. The program offers interested students the opportunity to develop an understanding of intercultural intersections and transdisciplinary approaches to the practice of translation and advanced training and mentorship in what is one of the most globally relevant fields in the 21st century.

Degree Requirements: 15 credit hours including an applied project course (ENG 593 or SLC 593)..

Required Courses: (6)

ENG 550 Translation (3)

SLC 551 Global Approaches to Translation (3)

Electives: (6) (students choose two from the list below)

CHI 543 Chinese Language and Linguistics (3)

CHI 691 Seminar Topic: Critical Perspectives on Modern Chinese Literature (3)

ENG 603 Advanced Studies in Comparative Literature (3)

ENG 656 Studies in Cross-Cultural Discourse (3)

FRE 421/598 Structure of French (3)

FRE 598 Special Topic: Text and Performance in Medieval France (1-4)

GER 494/598 Special Topic: German Modernism (1-4)

GER 494/598 Special Topic: Weimar German Cinema (1-4)

GER 521 History of German Language (3)

JPN 543 Japanese Language and Linguistics (3)

LIN 510 Linguistics (3)

SLC 429/598 Topic: Politics and Culture in European Short Fiction (3)

SLC 494/598 Special Topic: Interdisciplinary Approaches to Syntax (1-4)

SPA 539 General Spanish Linguistics (3)

SPA 543 Structure of Spanish (3)

SPA 565 20th-Century Spanish Drama (3)

SPA 567 Contemporary Spanish Novel (3)
SPA 575 Contemporary Spanish American Novel (3)
TCL 445/598 Transborder Latin American Short Story (Spanish Language only) (3)
TCL 446/598 Comparative Bilingual Latina/o Poetics (3)
TCL 488/598 Border Global Narratives (3)
THE 504 Studies in Dramatic Theory and Criticism (3)

Culminating Experience: (3)

ENG 593 Applied Project (3) or SLC 593 Applied Project (3)

Admission Requirements:

Students eligible for admission into the literary translation studies certificate program will meet the following eligibility requirements:

- Students should have an undergraduate degree from an accredited college or university or be a current ASU graduate student or nondegree-seeking applicant with demonstrated language proficiency. Because this is a certificate program in literary translation, it is to be expected that the majority of students applying for admission may be drawn from a discipline in the humanities or the fine arts (for example, English, history, theatre, or modern or classical languages taught in the School of International Letters and Cultures). However, prospective students from any discipline who would find intensive study of literary translation of use and interest may apply if they meet the required criteria.
- A minimum cumulative GPA of 3.00 or higher (scale is 4.00 = "A") in the last 60 credit hours of a student's first bachelor's degree program and a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree is required.
- Students who are not in the College of Liberal Arts and Sciences must fulfill the requisite language requirements for admission. The language requirements can be fulfilled at the undergraduate level at ASU or another accredited institution.

Students should have knowledge of a language other than English, a minimum of six semesters of a second language, or the equivalent (for example, Advanced Placement in high school).

OR

- Students should have passed a language proficiency exam achieving advanced level in the target language. The language proficiency test in reading and writing will be administered by the relevant language program (i.e., French, German, Italian, Spanish, etc.).
- All students must attain advanced level (equivalent of advanced American Council on the Teaching of Foreign Languages requirements, approximately equivalent to six semesters of undergraduate study) in reading and writing as measured by a written exam in the target language (i.e., French, German, Italian, Spanish) as a prerequisite for taking SLC 551 Global Approaches to Translation (3). See ACTFL (<http://www.actfl.org/publications/guidelines-and-manuals/actfl-proficiency-guidelines-2012> (<http://www.actfl.org/publications/guidelines-and-manuals/actfl-proficiency-guidelines-2012>)).

Applicants must complete an online graduate admission application.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Marriage and Family Therapy, MAS (LAMFTMAS)

Online Degree Search Title: Marriage and Family Therapy (MAS)

Campus: Tempe

Program Description:

The purpose of this self-contained accelerated program is to provide high-quality course work and supervised internship experiences that meet the degree requirements for licensure in the State of Arizona to practice marriage and family therapy as determined and laid out by the Arizona Board of Behavioral Health Examiners. The degree requirements are specified by the board, and the program is designed to train practitioners who wish to practice marriage and family therapy.

Degree Requirements: 39 credit hours and a master's research paper.

The MAS program in marriage and family therapy requires the successful completion of a minimum of 39 credit hours and a project, including required course work and completion of 300 client-contact hours in a community internship placement approved by the master's degree in marriage

and family therapy faculty. Internships are expected to last approximately 12 months. Students must maintain a GPA of 3.00 in all course work and satisfactorily meet the expectations of the agency supervising their internship.

Foreign Language Requirements: none

Thesis Requirements: none

GRE Scores: GRE scores are waived for this program.

Transportation: Students are required to have a vehicle and a valid Arizona driver's license for internship placement.

Written/Oral Internship Examination: An internship entrance examination will be held at the end of the first 7-1/2-week semester, to demonstrate readiness for internship placement.

Admission Requirements:

Applicants must submit the online graduate admission application.

Admission to the program is determined by the following criteria:

- a personal statement
- admission to ASU's Division of Graduate Education
- official transcripts of the applicant's academic record
- three letters of recommendation from individuals familiar with the applicant's academic background

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Mathematics, MA (LAMATHMA)

Online Degree Search Title: Mathematics (MA)

Campus: Tempe

Program Description:

The MA program is designed to increase mathematical knowledge beyond the traditional level of a bachelor's degree in order to prepare students for careers requiring sophisticated mathematical skills. Students may choose to specialize in:

- applied mathematics
- core mathematics
- mathematics education
- statistics

Degree Requirements: 30 credit hours and 2 written comprehensive exams, or 30 credit hours, a thesis and a written comprehensive exam.

Thesis option

The degree program requires:

- 30 credit hours of math or math-related graduate course work, of which six credit hours must consist of the thesis (599)
- one qualifying sequence examination
- a final oral examination in defense of the thesis

Nonthesis Option

The degree program requires:

- 30 credit hours of math or math related graduate course work

- two qualifying sequence examinations

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Computational Mathematical Sciences, BS
Mathematics, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit:

- the online graduate admission application
- official general GRE scores from ETS
- official transcripts
- a statement of education and career goals
- three letters of recommendation

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Minimum background for consideration of admission to the master's degree program includes:

- a bachelor's degree in mathematics or a closely related area with a 3.00 GPA (4.00 scale)
- course work in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371)

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Mathematics, PHD (LAMATHPHD)

Online Degree Search Title: Mathematics (PhD)

Campus: Tempe

Program Description:

The PhD is intended for students with superior mathematical ability. It emphasizes a solid mathematical foundation and promotes creative scholarship in mathematics and its many related disciplines. The School of Mathematical and Statistical Sciences has very active research groups in analysis, number theory, geometry and discrete mathematics.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

- Students must pass two qualifying examinations, a written comprehensive examination and an oral dissertation prospectus. See the school website for examination information.
- Students must register for 12 credit hours of dissertation (799).
- Students must write a dissertation and defend it orally in front of five dissertation committee members.

Admission Requirements:

Applicants must submit:

- the online graduate admission application
- the general GRE scores from ETS
- official transcripts from all undergraduate and graduate studies
- a statement of education and career goals
- three letters of recommendation

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The minimum background for consideration of admission to the doctoral program in mathematics includes:

- a bachelor's degree in mathematics or a closely related area with a 3.00 or better GPA (on a 4.00 scale)
- course work in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371)

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Mathematics Education, PHD (LAMTEPHD)

Online Degree Search Title: Mathematics Education (PhD) (Mathematics and Statistics Dept - Grades 9-20)

Campus: Tempe

Program Description:

This transdisciplinary program accommodates students from a variety of academic backgrounds. It provides students with a solid foundation in graduate-level mathematics as well as research skills and perspectives that will allow them to deal broadly with mathematics problems of:

- curriculum
- learning
- teaching
- technology

Conducting individual and collaborative research in the learning and teaching of mathematics is an integral part of the program.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Program requirements include the following:

- 12 credit hours of Research in Undergraduate Mathematics Education (RUME) 1-4, with qualifying exams given in RUME 1 and 2
- four graduate math courses from a list of options (see the school website for examination information)
- six credit hours of research (MTE 792)
- a written comprehensive examination
- an oral comprehensive examination
- an oral dissertation prospectus defense
- 12 credit hours of dissertation (MTE 799)

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Admission Requirements:

Applicants must submit:

- the graduate online admission application
- the official general GRE scores (students must be competitive in an applicant pool)
- official transcripts
- a statement of education and career goals
- three letters of recommendation (at least two of these must be from faculty)
- a writing sample

Minimum background for consideration of admission to the PhD program in mathematics education includes a master's degree in mathematics or a closely related area with a 3.00 GPA (on a 4.00 scale) or a bachelor's degree in mathematics or a closely related area with exceptionally high grades and advanced course work in mathematics.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Medieval Studies (certificate), Certificate (LAMEDSTCE)

Online Degree Search Title: Medieval Studies (Grad Certificate)

Campus: Tempe

Program Description:

The certificate program prepares students for advanced study or for academic positions by augmenting their skills and knowledge, thereby making them better equipped to meet the demands of their fields.

Degree Requirements: 18 credit hours (MA certificate), or 27 credit hours (PhD certificate).

Medieval Latin:

- one semester (three or four credit hours) for students at the master's degree level, two semesters (six to eight credit hours) for doctoral students
- proficiency attested either by achieving a grade of "B" (3.00) or better in the Medieval Latin courses or by satisfactory performance on the Medieval/Renaissance Latin examinations offered by the Centre for Medieval Studies at the University of Toronto*

*This requirement presupposes two years or 12 to 16 credit hours or equivalent of undergraduate training in Latin.

Medieval vernacular language (e.g., Old English, Old Norse, Old French):

- two semesters (six credit hours) for students at the master's degree level, three semesters (nine credit hours) for doctoral students

Paleography:

- one semester (three credit hours).

Medieval course work outside the major discipline:

- two semesters (six credit hours) for students at the master's degree level, three semesters (nine credit hours) for doctoral students

Admission Requirements:

All applicants to any certificate program must submit the online graduate admission application. Graduate students admitted to a degree program in any field may earn one of two available certificates at the master's degree or doctoral degree level: the certificate in medieval studies or the certificate in Renaissance studies.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Microbiology, MS (LAMICROMS)

Online Degree Search Title: Microbiology (MS)

Campus: Tempe

Program Description:

The MS in microbiology is designed to prepare students for careers in teaching and research on various aspects of microbiology. Teaching or

research may be performed in:

- educational institutions
- government agencies
- industry

Degree Requirements: 30 credit hours and a thesis.

Core (3)

MIC 501 Foundations of Microbiology (3)

Electives and Research (21)

Culminating Experience:

MIC 599 Thesis (6)

Admission Requirements:

Applicants who meet the following requirements are eligible to apply.

- A minimum of a bachelor's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited college or university is required.
- A minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program is required.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency*
- letters of recommendation
- GRE scores

* Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill both the requirements of the Division of Graduate Education and the College of Liberal Arts and Sciences.

Microbiology, PHD (LAMICROPHD)

Online Degree Search Title: Microbiology (PhD)

Campus: Tempe

Program Description:

The microbiology graduate program offers a dynamic research environment, broad range of basic, translational and use-inspired research areas, cutting-edge transdisciplinary training, and opportunities to work with world-class faculty and collaborative research partners committed to training scientific leaders with skills necessary to address significant global microbiological problems and challenges.

The program prepares students for research and teaching careers in universities and colleges, government agencies and industry.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The plan of study is designed by the student and the supervisory committee, which consists of a professor in the major and three additional faculty members. The program is tailored to the needs of the individual student.

- Eighty-four credit hours are required.
- A formal defense of the final written dissertation is required prior to graduation.
- The remaining credit hours are comprised of course work showing breadth in microbiology and related disciplines, seminars and research.
- Twelve credit hours of dissertation are required.
- Written and oral comprehensive examinations are required in order to advance to candidacy.

Admission Requirements:

Applicants must submit the online graduate admission application.

Applicants should have:

- a 3.00 minimum GPA (scale is 4.00 = "A") during the last two years or last 60 credit hours of undergraduate or master's degree studies, with a significant number of science credits included in these
- completion of the requirements for an undergraduate major in biology, microbiology, chemistry or related discipline, with a strong background in mathematical and physical science
- minimum GRE scores in verbal (50th percentile), quantitative (70th percentile) and writing (5)
- proof of English proficiency for an applicant whose native language is not English, regardless of current residency*

*The following minimum test scores are acceptable as proof of English proficiency:

- International English Language Testing System (IELTS): overall band score of at least 6.5 with no band below 6.0
- Pearson Test of English (PTE): 60
- Test of English as a Foreign Language (TOEFL): 600 paper-based or 100 Internet-based

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Molecular and Cellular Biology, MS (LACELLMS)

Online Degree Search Title: Molecular and Cellular Biology (MS)

Campus: Tempe

Program Description:

The transdisciplinary molecular and cellular biology program is led by an interactive community of scientists dedicated to promoting a collaborative environment that encourages transdisciplinary, innovative, world-class research. The MS in molecular and cellular biology program is designed to provide diverse training opportunities for graduate students to prepare for successful careers in biological sciences.

Degree Requirements: 30 credit hours and a thesis.

Core: (9)

MCB 555 Advanced Molecular and Cellular Sciences (6)

MCB 556 Advanced Molecular and Cellular Biology II (3)

Elective or Research (11)

Additional Requirement:

MCB 501 Seminar: Molecular and Cellular Biology Colloquium (4)*

Culminating Experience:

MCB 599 Thesis (6)

*Students are required to take MCB 501 each semester they are registered. If a student is registered for more or less than four semesters, the research hours and MCB 501 hours may be adjusted accordingly to reach 30 credit hours.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Biological Sciences, BS
- Biological Sciences (Biology and Society), BS
- Biological Sciences (Biomedical Sciences), BS
- Biological Sciences (Conservation Biology and Ecology), BS
- Biological Sciences (Genetics, Cell and Developmental Biology), BS
- Biological Sciences (Neurobiology, Physiology and Behavior), BS
- Microbiology, BS
- Molecular Biosciences and Biotechnology, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants should have:

- a bachelor's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited college or university
- minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program.

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete. Please see the program website for application deadlines.

- an online graduate admission application
- official transcript from each college or university attended
- an English proficiency exam for any applicant whose native language is not English*
- official GRE general exam scores
- letters of recommendation

*International applicants may find complete information on the English proficiency exams and other required documents on the graduate admission website: <https://students.asu.edu/graduate/international> (<https://students.asu.edu/graduate/international>).

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Molecular and Cellular Biology, PHD (LACELLPHD)

Online Degree Search Title: Molecular/Cellular Biology (PhD)

Campus: Tempe

Program Description:

The PhD program in molecular and cellular biology prepares students for careers that span traditional disciplinary boundaries. Research in this exciting field is focused on understanding the fundamental molecular events that are at the core of all life. The goal of the program is to provide a diverse range of research and training opportunities for doctoral students interested in pursuing a transdisciplinary approach to their studies that

extends beyond the traditional boundaries of biological research. The broad-based training provides the necessary skills for professional careers in academic institutions, governmental institutions and industry, particularly those related to health and chemical sciences.

Participating faculty members and researchers are drawn from multiple departments, colleges, centers and institutes across the university, including the School of Life Sciences; the Department of Chemistry and Biochemistry; the School of Biological and Health Systems Engineering; the School for Engineering of Matter, Transport and Energy; the School of Mathematical and Statistical Sciences; the School of Human Evolution and Social Change; the Department of Psychology; and the New College of Interdisciplinary Arts and Sciences. Participating faculty members are also based at partner institutions in the greater Phoenix area, including the Translational Genomics Research Institute, Mayo Clinic in Arizona, Barrow Neurological Institute, Carl T. Hayden Veteran's Administration Medical Center and University of Arizona College of Medicine-Phoenix.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The plan of study is designed by the student and the supervisory committee, consisting of a professor in the major and three additional faculty members (the professor in the major and one other must be from the molecular and cellular biology core faculty).

- Eighty-four credit hours are required.
- A formal defense of the final written dissertation is required prior to graduation.
- An oral and written comprehensive examination are required in order to advance to candidacy.
- Twelve credit hours of dissertation are required and the remaining credit hours are comprised of core course work, seminars and research.

Admission Requirements:

All applicants must submit the online graduate admission application. Admission criteria are as follows:

- a 3.00 minimum GPA (on a 4.00 scale) during the student's last two years or last 60 credit hours
- minimum general GRE scores in verbal, quantitative and writing (subject GRE not required)
- Test of English as a Foreign Language (TOEFL) scores of 600 (paper-based) or 100 (Internet-based) for students whose native language is not English

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Museum Studies, MA (LAMUSSTMA)

Online Degree Search Title: Museum Studies (MA)

Campus: Tempe

Program Description:

The museum studies master's degree program examines how museums produce and reflect culture and the role museums play worldwide. Students develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. They also gain practical experience while being encouraged to challenge preconceived notions about museums and the way they affect (and are affected by) societies and cultures. Designed to be use-inspired, socially embedded and transcultural, the program ensures that students understand the meaning and significance of museums in contemporary society and prepares them for diverse museum careers.

Degree Requirements: 30 credit hours and a research portfolio.

The MA in museum studies requires that all students complete the following three core courses, two of which must be taken during the first year of study:

- ASB 500 Museum Studies Research Methods (3)
- ASB 574 Exhibition Design and Development (3)
- ASB 579 Critical Issues in Museum Studies (3)

Students must complete six credit hours of internship (ASB 584) approved by their supervisory committees, usually in a museum setting or museum-quality collection or archive related to their chosen area of study: anthropology, art history, theory and criticism or public history. On

completion, students must submit a journal or portfolio about the internship and skills acquired.

Additionally, six hours of ASB 592 Research and three approved elective courses are required. For a list of approved courses, please contact the school.

Admission Requirements:

Students must submit an online graduate admission application. Please see the program website for application deadlines and admission terms. In addition to the general requirements for admission to the Division of Graduate Education, applicants must also provide:

- a statement of purpose outlining career and educational goals
- a current curriculum vitae or resume
- an optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Museum Studies (certificate), Certificate (LAMUSEUMCE)

Online Degree Search Title: Museum Studies (Grad Certificate)

Campus: Tempe

Program Description:

The museum studies program examines how museums produce and reflect culture and the role museums play worldwide. Students develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. They also gain practical experience while being encouraged to challenge preconceived notions about museums and the way they affect (and are affected by) societies and cultures. Designed to be use-inspired, socially embedded and transcultural, the program ensures that students understand the meaning and significance of museums in contemporary society and prepares them for diverse museum careers.

Degree Requirements: 18 credit hours.

Eighteen credit hours are required, which include 12 hours of required course work and a six credit hour internship at an approved museum.

For a list of approved courses, please contact the school. Certificate students may choose to specialize in areas such as anthropology, art history and public history.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count toward their degree program with the approval and consent of the degree granting program.

For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree or up to 12 credit hours may count toward their master's degree, with the approval and consent of the degree-granting program.

All requirements for the certificate program should be completed within a three year time limit with a cumulative GPA of at least 3.00. Students who require more time to finish the program (because of their part-time status or lack of desirable or available courses) must obtain approval from the executive committee.

Admission Requirements:

Students must submit an online graduate admission application. Please see the program website for application deadlines. For information on

spring admission, please contact the school. In addition to the general requirements for admission to the Division of Graduate Education, applicants must also provide:

- a current curriculum vitae or resume
- a statement of purpose outlining career and educational goals
- an optional sample of their written work
- official GRE scores
- three letters of recommendation
- transcripts of all undergraduate and graduate course work
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Nanoscience, PSM (LANANPSM)

Online Degree Search Title: Nanoscience (PSM)

Campus: Tempe

Program Description:

The PSM in nanoscience is a cohesive program of transdisciplinary courses that provide the knowledge base required for research and innovation in nanoscience. The program incorporates courses in:

- chemistry and biochemistry
- electrical engineering
- materials science
- physics

Commercial innovation is a particular target goal of the degree, including applications in:

- biochemistry and sensing technology
- biophysics and biomedical technology
- nanomaterials and nanoscale devices

The PSM in nanoscience program is suitable for working professionals as well as for students who have obtained a traditional bachelor's degree or master's degree in related fields.

Degree Requirements: 30 credit hours including the required applied project course (NAN 593).

Core courses account for 15 of the 30 credits, including society- and intellectual property-based courses in addition to core science courses. Many of the requisite elective courses are currently offered within the Department of Physics and the Department of Chemistry and Biochemistry. Most are cross-listed with other units.

The program includes a two-semester, student-centered professional seminar where the central role of the program as a vehicle for innovation emerges. During the spring semester and summer session, students conduct an individual applied project in association with a research group. The degree does not require a thesis. Rather, the applied project forms the basis of the final capstone presentation.

Courses (two or three credit hours each):

core (5):

NAN 505 Nanoscience and Society (2) or NAN 506 Innovation and IP Management (2)*

NAN 571 Quantum Physics (3) or NAN 544 Introduction to Nanoscience (3)**

elective or research (15)

culminating experience (6):

NAN 593 Applied Project (6)

other requirements (4):

NAN 591 Professional Seminar (4)

*Students must take NAN 505 or NAN 506. Students may take the other course as an elective.

**Students with a physical science or engineering background should take NAN 571 Quantum Physics (3) and students with a biochemistry or life sciences background should take NAN 544 Introduction to Nanoscience (3).

Throughout the program, students interact with research faculty and other students in a variety of disciplines related to nanoscience. Students also meet with visiting speakers and industrialists in the professional seminar as well as other seminars.

If taken full time, the PSM in nanoscience can be completed in 12 months (fall semester, spring semester and two eight-week summer sessions). Another option is our two-year, part-time program, which allows prospective students and their employers flexibility in scheduling their program of study.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biochemistry, BS

Biochemistry (Medicinal Chemistry), BS

Chemistry, BS

Materials Science and Engineering, BSE

Physics, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements: • Applicants must submit an online graduate admission application, with accompanying materials as specified on the Division of Graduate Education website.

• Applicants who hold a bachelor's degree from a regionally accredited institution in physics, chemistry or a related field are eligible to apply to the program.

• GRE scores are not required for application, but will be taken into consideration if submitted.

• This program also seeks to attract students already employed in related areas, and who wish to become knowledgeable and skilled in nanoscience.

• A Test of English as a Foreign Language (TOEFL) or equivalent score will be required for applicants whose native language is not English.*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Natural Science (Geological Sciences), MNS (LANATSCIMN)

Online Degree Search Title: Geological Sciences (MNS)

Campus: Tempe

Program Description:

The School of Earth and Space Exploration participates in the program leading to the MNS in natural science, concentration in geological sciences. This transdisciplinary degree is designed to meet the needs of professionals seeking a graduate-level degree. The program offers the opportunity for transdisciplinary graduate training in the natural sciences (i.e., biological sciences, mathematics and physical sciences) and cognate areas.

The degree program is especially suited for individuals who desire professional training rather than research training. Because of designed flexibility, the degree also offers the opportunity for individualized professional graduate programs depending upon the backgrounds and goals of the students. Students are expected to emphasize course work in two or more areas of concentration. The program must be transdisciplinary.

Degree Requirements: 30 credit hours and an applied project.

The supervisory committee is chosen by the student in conjunction with the advisor. The composition of the supervisory committee must reflect the transdisciplinary nature of the program. The student will develop a suitable applied project with the approval of the supervisory committee.

A program of study is recommended by the supervisory committee after conferring with the student. While a minimum of 30 credit hours is required for the degree, more credit hours may be required by the supervisory committee, depending upon the background of the student and the nature of the proposed program. All students admitted to this program are also required to take two seminars:

GLG 500 SESE Colloquium (1)

GLG 591 Faculty Research Seminar (1)

In some cases, undergraduate courses may be required to remove deficiencies. An applied project is required; however, a thesis is optional. For the thesis option, a final written or oral examination, or both, is required. Each examination is administered by the supervisory committee.

Admission Requirements:

Students applying for admission to the program must submit:

- an online graduate admission application
- GRE scores
- a statement of purpose
- three letters of recommendation

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Please see the program website for application deadlines.

Natural Science (Physics), MNS (LAPHYSMNS)

Online Degree Search Title: Physics (MNS)

Campus: Tempe

Program Description:

The MNS curriculum provides transdisciplinary graduate training in physics, physical science or physics education. The degree is especially suited for high school science teachers who desire professional training rather than research training. Designed for flexibility, the curriculum also features individualized professional graduate programs. These programs are well suited to the backgrounds and goals of students. Students are expected to emphasize course work in two or more areas of concentration. The program must be transdisciplinary.

Degree Requirements: 30 credit hours including the required applied project course (PHS 593).

Supervisory Committee:

- The graduate advisor and the student suggest persons to serve on the supervisory committee. The supervisory committee recommends the plan of study, after conferring with the student.
- The supervisory committee, consisting of three faculty members, is appointed by the vice provost for Graduate Education upon the recommendation of the chair of the Department of Physics.
- The supervisory committee is formed soon after the student has been admitted to the degree program and must reflect the transdisciplinary nature of the program.

- The supervisory committee may require more courses, depending upon the background of the student and the nature of the proposed program. In some cases undergraduate courses may be required to overcome deficiencies.

Teachers may enroll in these courses in order to earn credit toward recertification or to pursue an MNS degree. These courses are held during the summer. Depending on teacher interest, they may be offered at other times. For some courses, the prerequisites are two semesters of trigonometry-based college physics and an introductory calculus course. Additional information about the MNS for high school physics teachers is available at: <https://physics.asu.edu/graduate/mns/> (<https://physics.asu.edu/graduate/mns/>).

Admission Requirements: • Applications must be submitted online with accompanying materials as specified by Graduate Admission Services. To obtain application forms, access the graduate admission website.

- Conditions for admission are the availability of resources for the proposed program and a Department of Physics faculty member designated to serve as a graduate advisor.
- An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.*

*A Test of English as a Foreign Language (TOEFL) or equivalent score will be required from applicants whose native language is not English.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Neuroscience, PHD (GCBMENPHD)

Online Degree Search Title: Neuroscience (PhD)

Campus: Tempe

Program Description:

Neuroscience involves the study of the nervous system and its relation to an organism's function. It encompasses how gene and nerve networks interact with the environment throughout an organism.

The PhD program in neuroscience degree will integrate aspects of graduate-level training from many different units on campus as well as from the program's partner institutions distributed across the greater Phoenix area. Partner institutions will include but are not limited to: The Barrow Neurological Institute, Translational Genomics Research Institute, University of Arizona College of Medicine, the Mayo Clinic and Sun Health.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The program requires the completion of 84 credit hours of which only 12 hours are dissertation credits. At least 18 credits of formal course work are required. In consultation with their committee and their supervisor or mentor, students will be able to customize their plan of study to suit their particular interests and goals. Each student completes six credit hours of the core course credits. The core course sequence must be completed before the oral and written evaluation examinations are taken. Additional credits will be comprised of specialized disciplinary courses or research credits chosen in consultation with their mentor and advisory committee.

A one-credit-hour journal club seminar will be required each semester.

Advancement to candidacy will be dependent on successfully passing a formal comprehensive examination that includes a written proposal of the dissertation research and an oral examination in the broader areas that pertain to that research study. When the research is completed, the dissertation must be written and presented in a public seminar and successfully defended before the supervisory committee.

Admission Requirements:

Applicants must submit an online graduate admission application plus the appropriate documents, including three letters of recommendation and official GRE scores.

The graduate committee will be responsible for decisions concerning potential recruitment of students and admission recommendation of students to the program. They will also be highly active in the recruitment procedure each year.

A bachelor's degree in science or engineering from a regionally accredited institution (or an equivalent degree) is required. Applicants must submit the following:

- an online graduate admission application
- a statement of career and educational goals
- names of at least three neuroscience faculty in area of interest
- official GRE scores
- official transcripts of all undergraduate and graduate course work
- three letters of recommendation (two of which should be academic recommendations)
- official TOEFL scores (native language is not English)*
- current curriculum vitae or resume
- the Interdisciplinary PhD in Neuroscience Program Academic Record Form

Regular admission may be granted to applicants who have achieved a GPA of 3.00 (on a 4.00 scale) or better in the last two years of work leading to a bachelor's degree and who are competitive in the applicant pool as evidenced by GRE verbal, quantitative and analytical scores, the statement of educational and career goals and the letters of recommendation. Particular attention will be paid to research experience and overall preparation in problem-solving abilities as evidenced by previous course work, research experiences and GRE scores.

Because this program draws on an extremely broad range of disciplinary backgrounds in recruiting students, there is no specific set of undergraduate course requirements other than those implied by the degree requirements described above. Most students will be expected to have had course work in biology, chemistry and math, or demonstrated ability through a subject test GRE. During the first semester, student progress in the core course will be closely monitored for difficulty in specific areas.

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Nonfiction Writing and Publishing (Certificate), Certificate (LANWPGRCT)

Online Degree Search Title: Nonfiction Writing and Publishing (Grad Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

Students in the nonfiction writing and publishing certificate program will learn good writing, which includes the ability to read, analyze and synthesize information and concepts and to express them with words. Graduates will have a portable, professional skill that can transcend disciplines and equip them for life both within and beyond the academy. Graduates will have the skills to publish analyses and narratives of complex ideas and knowledge for diverse audiences, from scholars to various public audiences. The certificate embraces all varieties of nonfiction:

- biography
- blogs and other types of Web writing
- creative nonfiction
- essays
- formal scholarship
- genre-specific rhetoric
- journalism
- narrative history
- op-eds
- popular science writing
- young adult literature
- and any other types of prose not based on fiction

The certificate program is unique as it is embedded in specific academic content areas including disciplinary-specific and transdisciplinary areas.

Degree Requirements: 15 credit hours.

Core Courses: (3 credit hours)

HPS 520 or HST 520 Masters of Nonfiction Writing (3)

Electives: 12 credit hours

Culminating Experience: None Required

Admission Requirements:

Degree: Applicants must hold a bachelor's degree or higher from a regionally accredited U.S. institution. Applicants who attended school outside of the U.S. must hold a bachelor's degree, graduate degree or equivalent from an institution that is officially recognized by that country. Applicants are encouraged to enroll in a graduate degree program in conjunction with this certificate but are not required to do so.

Applicants must submit:

- the nonfiction writing and publishing certificate application
- official transcripts
- writing sample

GPA: Applicants must have maintained a minimum GPA of 3.00 (on a 4.00 scale) in the last 60 semesters or 90 quarter hours of undergraduate course work.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Philosophy, MA (LAPHILMA)

Online Degree Search Title: Philosophy (MA)

Campus: Tempe

Program Description:

The MA in philosophy program is designed to prepare students to:

- be employed in any areas that require critical and analytical thinking (such as medicine, law, government or publishing)
- enter doctoral programs in philosophy at other institutions
- teach philosophy at the community college level

Degree Requirements: 30 credit hours and a portfolio, or 30 credit hours and a thesis.

There are two options for the master's degree program in philosophy: the thesis option and the nonthesis portfolio option.

The thesis options requires 30 credit hours of course work, including six credit hours of PHI 599 Thesis.

The nonthesis portfolio option requires 30 credit hours of course work, including three credit hours of PHI 592 Research.

Admission Requirements:

Applicants must submit an online graduate admission application. All applications for admission to the master's degree program in philosophy must be accompanied by:

- the applicant's current curriculum vitae
- the applicant's score in the GRE
- complete transcripts
- a sample of philosophical writing
- a statement of purpose
- three letters of recommendation from persons qualified to judge the applicant's potential for graduate work in philosophy

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Please see the program website for application deadlines.

Philosophy, PHD (LAPHILPHD)

Online Degree Search Title: Philosophy (PhD)

Campus: Tempe

Program Description:

The PhD program in philosophy is designed to prepare students for careers:

- as philosophers
- as teachers of philosophy
- in areas that may benefit from advanced training in philosophy (such as law, civil service and publishing)

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

To ensure breadth in the traditional areas of philosophy, students must pass with a grade of "B" (3.00) or better:

Core course work: (18)

One approved course in each of the following areas

applied philosophy (3)
epistemology (3)
formal methods (3)
history of philosophy (3)
metaphysics (3)
value theory (3)

Electives: (42)

At least nine credit hours and no more than 18 credit hours must be from other disciplines supporting the student's proposed dissertation area; 30 credit hours of master's degree credit allowance from a previously awarded master's degree may apply toward this requirement.

Research (12)

Dissertation (12)

Total credit hours: 84

Admission Requirements:

Applicants must submit the online graduate admission application. All applications must be accompanied by:

- the applicant's current curriculum vitae
- the applicant's score in the GRE
- complete transcripts
- a sample of philosophical writing
- a statement of purpose
- three letters of recommendation from persons qualified to judge the applicant's potential for graduate work in philosophy

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Philosophy (History and Philosophy of Science), MA (LAHPSMA)

Online Degree Search Title: Philosophy (History and Philosophy of Science) (MA)

Campus: Tempe

Program Description:

Nationally, there is great interest in science and in understanding the nature of science and the forces that change scientific research. The job market in philosophy is strong for philosophers of science (and especially in the life sciences) with some positions remaining unfilled even when the market is intensely competitive in other areas. In addition, the history and philosophy of science is becoming a strong disciplinary emphasis within growing professional societies.

Some programs, elsewhere, focus primarily on philosophy or primarily on history, but those that bring the two together are regarded among the strongest in each area. The objective here is to provide a program for students who come to history and philosophy of science from the humanities and who seek a career based in philosophical analysis of the sciences. We have the research strength competitive with any international program.

Degree Requirements: 30 credit hours, including the required capstone course (HPS 551) and a thesis.

Graduate course work for the MS includes:

history of science (3)
philosophy of science (3)
topics in the history of science (3)
topics in the philosophy of science (3)
research methods in the history and philosophy of science (3)
prospectus writing (3)
research and thesis (12)

Philosophy (History and Philosophy of Science), PHD (LAHPSPHD)

Online Degree Search Title: Philosophy (History and Philosophy of Science) (PhD)

Campus: Tempe

Program Description:

The strength of ASU's history and philosophy of science program is to bring philosophy, history and the study of science together. This degree program combines solid training in the core areas of philosophy with an emphasis on transdisciplinary studies of the sciences, and their:

- conceptual structure
- epistemology
- history
- impacts on society

The program is especially appropriate for students with a background in philosophy who seek to broaden their disciplinary studies with a historical perspective. Applicants will typically come from undergraduate programs that have included philosophical, historical, or history and philosophy of science training or with a master's degree in one of those fields. Science students are eligible as well and will make up relevant undergraduate humanistic core courses during their first years.

Most graduates will seek a career based in philosophical or historical analyses of the sciences.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Graduate course work includes:

history of science (3)
philosophy of science (3)
prospectus writing (3)
research methods in the history and philosophy of science (3)
dissertation (12)
topics in the history of science (3)
topics in the philosophy of science (3)

Additional courses required for the degree include:

advanced logic or approved equivalent (3)
approved philosophy or other relevant courses (9)
a course in history of philosophy (3)
a course in value theory (3)
HPS 615 Biology and Society Lab (3 hours, one credit each)
research or elective courses approved by dissertation chair (33)

Admission Requirements:

This program is no longer accepting applications.

Physics, MS (LAPHYSIMS)

Online Degree Search Title: Physics (MS)

Campus: Tempe

Program Description:

The MS program in physics provides graduate instruction and research experience appropriate to many physics-related careers. The structure of the program is flexible enough to allow a wide range of programs of study and a wide range of student backgrounds. It is also suitable for part-time study.

Completion of the program requires a minimum of two years, with students typically taking courses for the first three semesters and completing a research project in their final semester. The student defends a master's degree thesis at the end of the program.

Degree Requirements: 30 credit hours and a thesis.

The master's degree in physics can emphasize either physics or physics in combination with other fields.

Admission Requirements:

Applications must be submitted online with accompanying materials as specified on the Division of Graduate Education website.

To be admitted to the master's degree program in physics without deficiencies, applicants should have adequate undergraduate preparation

equivalent to an undergraduate major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Students applying for admission must submit:

- test scores for the verbal, quantitative and analytical sections of the GRE*
- proof of English language proficiency**

*Submission of scores for the physics GRE subject test is recommended, although not mandatory.

**An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency in the form of a Test of English as a Foreign Language (TOEFL) or equivalent score.

Financial support in the form of teaching or research assistantships is contingent upon:

- satisfactory performance in course work
- timely completion of the final examination for the master's degree
- need and availability of such support

Students on probation are offered financial support only under exceptional circumstances.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Physics, PHD (LAPHYSIPHD)

Online Degree Search Title: Physics (PhD)

Campus: Tempe

Program Description:

The PhD in physics is intended for highly capable students having the interest and ability to follow a career in independent research. Graduates find positions in a variety of settings:

- academic faculty
- administration
- government labs
- industrial labs
- management

The recent advent of the graduate faculty initiative at ASU extends the spectrum of potential physics doctoral topics and advisors to include highly transdisciplinary projects that draw upon:

- biochemistry
- biology
- chemistry
- electrical engineering
- materials science
- other related fields

Consequently, students and doctoral advisors can craft novel doctoral projects that transcend the classical palette of physics subjects. Transdisciplinary expertise of this nature is increasingly vital to modern science and technology.

Current areas of particular emphasis within the department include:

- biological physics
- cosmology
- electron diffraction and imaging
- nanoscale and materials physics
- particle physics and astrophysics

The department has more than 90 doctoral students and more than 40 faculty members.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The physics doctoral program requires a student to:

- complete 84 credit hours of course work
- pass a written and an oral comprehensive examination
- prepare and defend a doctoral dissertation

Within the newly redesigned and modernized physics graduate curriculum, all doctoral students are required to take 18 credit hours of core physics courses, specifically:

First Semester:

PHY 500 Research Rotation I (3)

PHY 521 Classical and Continuum Mechanics (3)

PHY 541 Statistical Physics (3)

Second Semester:

PHY 500 Research Rotation II (3)

PHY 531 Electrodynamics (3)

PHY 576 Quantum Theory (3)

Course work beyond these core courses is established by the student's doctoral advisor and supervisory committee, working in partnership with the student. The intent is to tailor the doctoral training to the specific research interests and aptitudes of the student while ensuring that each graduating student emerges with the expertise, core knowledge and problem-solving skills that define a successful doctoral degree in physics.

Of particular note within the core courses are the PHY 500 Research Rotations, which are specifically designed to engage doctoral students in genuine, faculty-guided research starting in their very first semester at ASU.

Admission Requirements:

Applications must be submitted online with accompanying materials as specified on the Graduate Admission Services website.

Applicants to the Department of Physics doctoral program must hold at least a baccalaureate from a recognized institution and must have had adequate undergraduate preparation equivalent to an undergraduate major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Applicants must submit:

- test scores for the GRE*
- TOEFL scores, when applicable**
- complete transcripts
- statement of purpose
- three letters of recommendation

*Scores from the verbal, quantitative and analytical sections of the GRE are required. The subject GRE test scores should also be submitted; submission may be waived in extraordinary circumstances.

**A Test of English as a Foreign Language (TOEFL) score or equivalent test is required from any applicant whose native language is not English (regardless of current residency).

Applicants requesting credit for prior graduate courses, taken either at ASU or elsewhere, must demonstrate mastery of the relevant course material to the graduate-level standards of the Department of Physics.

Financial support in the form of teaching or research assistantships is contingent upon:

- satisfactory performance in course work
- timely completion of examinations (including the written and oral PhD comprehensive examinations)
- the need and availability of such support

Students on probation are offered support only under exceptional circumstances. The period for which a doctoral candidate may receive financial

support through the Department of Physics does not normally exceed six years.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Contact Information:

Plant Biology and Conservation, MS (LAPLBIOMS)

Online Degree Search Title: Plant Biology and Conservation (MS)

Campus: Tempe

Program Description:

Conservation addresses a growing need for botanists and conservation biologists in academic institutions, government agencies and nongovernmental organizations. The MS in plant biology and conservation provides students with advanced training in plant ecology, evolution and floristics, as well as in theory and practice of conservation biology. Students have the opportunity to work with faculty and researchers from ASU and the Desert Botanical Garden, which is located near ASU's Tempe campus.

Degree Requirements: 30 credit hours and a thesis.

Core: (3 credit hours)

PLB 502 Perspectives in Plant Biology (3)

Research: (3 credit hours)

PLB 592 Research (3)

Electives (17 credit hours)

Other requirements: (1 credit hour)

PLB 591 Seminar (1)

Culminating experience: (6 credit hours)

PLB 599 Thesis (6)

Admission Requirements:

An applicant must have a minimum of a bachelor's degree or master's degree in biology, botany or a closely related field from a regionally accredited college or university.

A minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program is required. A minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree is required.

Applicants to this program are required submit the following:

- online graduate admission application, including application fee
- official transcripts
- letters of recommendation
- GRE scores
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Political Science, MA (LAPOLSCMA)**Online Degree Search Title:** Political Science (MA)**Campus:** Tempe**Program Description:**

The MA program in political science provides advanced education for students preparing for teaching, research or applied careers in political science. This degree may be taken as a terminal program or as a step toward eventual fulfillment of the requirements for the PhD. Students who plan to obtain the doctorate at ASU should apply directly to the doctoral program.

Degree Requirements: 30 credit hours and a portfolio, or 30 credit hours and a thesis.

A minimum of 30 credit hours is required for the degree. This program includes two options: a thesis and portfolio (nonthesis).*

- All candidates must take POS 503 and the core courses in the student's major field.
- A maximum of six credit hours in approved courses may be taken outside the department.
- Six credit hours of reading and conferences (POS 590) or independent study (POS 592) may count toward the 30 credit hour requirement.
- Additional hours must be taken in graduate-level courses and seminars each semester until course work is completed.

*If the thesis option is followed, the program must include a combination of three credit hours of research (POS 592) and three credit hours of thesis (POS 599).

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Global Studies, BA
- Political Science, BS
- Political Science, BA

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit the online graduate admission application.

Please see the program website for application deadlines and admission terms.

All required materials will be submitted through the online graduate admission application. These include:

Letters of Recommendation:

Three letters of recommendations are required from people capable of evaluating the applicant's political science expertise. Applicants are asked to provide the name and email addresses of recommenders as directed on the graduate admission application form.

Personal Statement:

Applicants should write a personal statement of one to three pages indicating what area of political science is intended to be studied and why.

If applicable, any honors, scholarships, prizes, honorary societies, etc., that have been received or the applicant belongs to should be included.

Writing Sample:

A writing sample (i.e., research paper) that best represents the applicant's thinking and writing skills in political science or a related subject is required.

Political Science Courses:

To assist in evaluating all candidates, list titles and related information for all previous undergraduate and graduate courses or course work in political science or related fields.

The information should be in a table with the following column headings:

Crs Title | Undergrad Credit Hrs | Graduate Credit Hrs | Grade | Institution | Year

The file must be saved in a .doc, .rtf or .txt format and uploaded with the online graduate admission application.

Test Scores:

GRE scores are required of all applicants. Applicants should ensure that GRE scores are reported on the application form, and they should request to have an official score report sent directly from ETS to Graduate Education. Photocopies are not acceptable.

The institution code with ETS is 4007.

Additional Information

Undergraduate course work in political science is not a prerequisite for admission. However, master's degree students should have a basic understanding of elementary statistics and the undergraduate content of the political science fields of concentration that they wish to study. Students should allow sufficient time to acquire such a background.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Political Science, PHD (LAPOLSCPHD)

Online Degree Search Title: Political Science (PhD)

Campus: Tempe

Program Description:

The PhD program in political science is intended to develop scholars who demonstrate a high level of excellence in teaching and research as professional political scientists. It is distinguished by a wide variety of areas of specialization, including:

- American politics
- comparative politics
- international relations
- political theory

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The doctoral program in political science requires:

- 84 credit hours, which includes POS 503 and POS 603 and 12 credit hours of dissertation research*
- a formal oral defense of the dissertation
- an oral comprehensive examination covering the dissertation prospectus
- the supervisory committee of three members, including the committee chair from the student's major field
- a written comprehensive examination in the major and minor fields

*A maximum of 12 credit hours of approved course work outside the department but within ASU may count toward the 84 credit hours. A maximum of 30 credit hours from a postgraduate program elsewhere may be transferred in and counted toward the 84 credit hours.

Admission Requirements:

Applicants must submit the online graduate admission application.

Please see the program website for application deadlines and admission terms.

All required materials should be submitted through the online graduate admission application. These include:

Letters of Recommendation:

Three letters of recommendation are required from people capable of evaluating the applicant's political science expertise. Applicants are asked to provide the name and email addresses of recommenders as directed on the graduate admission application form.

Personal Statement:

Applicants should write a personal statement of one to three pages, indicating what area of political science is intended to be studied and why. If applicable, any honors, scholarships, prizes, honorary societies, etc., that have been received or the applicant belongs to should be included.

Writing Sample:

A writing sample (i.e., research paper) that best represents the applicant's thinking and writing skills in political science or a related subject is required.

Political Science Courses:

To assist in evaluating the applicant's candidacy, list the titles and related information for all previous undergraduate and graduate courses or course work in political science or related fields.

The information should be in a table with the following column headings:

Psychology, PHD (LAPSYCHPHD)

Online Degree Search Title: Psychology (PhD)

Campus: Tempe

Program Description:

The Department of Psychology offers doctoral programs designed to provide outstanding training in innovative research, methodology and the application of psychological principles to a wide variety of human conditions. The department is organized into six major areas of interest:

- behavioral neuroscience
- clinical
- cognitive science
- developmental
- quantitative (must apply to the Quantitative Research Methods PhD)
- social psychology

Students pursue their graduate studies within one of these six areas, and each area determines the basic curriculum for their graduate program. There is, however, substantial opportunity to integrate courses of study across areas in the department.

Further, specialized emphases are available that integrate across programs in the university (e.g., integrating psychology and law).

At the core of doctoral training in psychology is an emphasis on the development of skill in research and quantitative methods. Faculty in all six areas are actively engaged in major research programs. These theoretically grounded research programs address the breadth of psychological

processes:

- cognitive processes (e.g., attention, language, memory) as they occur within the context of perception and action, personality and issues of stigma and prejudice
- cultural influences on psychological processes
- evolution and behavior
- individual resilience
- lifespan developmental aspects of emotion and cognition
- neurobiological and psychosocial processes that underlie behavior and health (e.g., drug abuse, stress, heart disease)
- prevention of child mental health problems

A unique strength of the Department of Psychology is the wealth of outstanding faculty members whose specialization is quantitative methods. A breadth of courses and experiences in quantitative methods are available that are well-integrated into the areas of research that characterize the department and offer students a rare opportunity to develop expertise in this critical domain.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

In addition to required course work (according to training area), students take courses related to their area of interest as determined in consultation with their supervisory committees. All doctoral students complete 12 dissertation credit hours. Requirements vary across training areas.

Concurrent Degrees:

This degree is also offered as concurrent degree with Juris Doctor (JD)

Admission Requirements:

Applicants must submit an online graduate admission application.

In addition to the general requirements for admission to the Division of Graduate Education, applicants must also provide the following:

- scores on the GRE
- transcripts

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Deadlines:

The online graduate admission application, including all letters and supporting documents, must be received by the application deadline. Please see the program website for application deadlines.

Psychology (Quantitative Research Methods), PHD (LAPSYQUPHD)

Online Degree Search Title: Psychology (Quantitative Research Methods) (PhD)

Campus: Tempe

Program Description:

The quantitative research methods concentration of the PhD in psychology focuses on the broad class of quantitative and methodological issues that arise in the conduct of both basic and applied psychological research. There are five core faculty members in the quantitative concentration who, in addition to their quantitative research, collaborate with colleagues in substantive research areas. This collaboration supports the training of students in quantitative methods against a backdrop of methodological issues associated with the substance of psychological science. The quantitative concentration is committed to training the next generation of psychological methodologists who will make contributions in developing methods in the areas of measurement, design and analysis, and in evaluating the utility of new and existing methods in psychological research.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The quantitative curriculum is structured as a series of progressively more advanced courses. New quantitative courses may be implemented under an omnibus number (PSY 591) at the interest of the faculty.

Students complete the following course work:

PSY 530 Analysis of Variance (3)
PSY 531 Multiple Regression Analysis (3)
PSY 532 Analysis of Multivariate Data (3)
PSY 533 Structural Equation Modeling (3)
PSY 534 Psychometric Methods (3)
PSY 555 Experimental and Quasi-Experimental Designs (3)
PSY 591 Quantitative Seminar (3 credit hours annually)

During the course of training, students also complete these requirements:

psychological methodology electives (12)
substantive course work (6)
additional substantive or psychological methodology electives (6)
PSY 599 Master's Thesis (6)
PSY 792 Post-Master's Research (12)
PSY 799 Dissertation (12)

Admission Requirements:

Applicants must submit an online graduate admission application. Deadlines for the application, which includes the online application, all letters and supporting documents, can be found on the program's website.

In addition to the general requirements for admission to the Division of Graduate Education, applicants must also provide the following:

- scores on the GRE
- transcripts
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Religious Studies, MA (LARELIGMA)

Online Degree Search Title: Religious Studies (MA)

Campus: Tempe

Program Description:

The faculty in religious studies offer a graduate program leading to the MA in religious studies. Candidates are offered an opportunity to develop knowledge of various religious traditions in their historical and cultural contexts and to learn research methods. Although students often concentrate upon a single religious tradition for their thesis work, the program seeks to provide a broadly comparative understanding of religions, not simply a specialist's training in a single tradition.

Degree Requirements: 30 credit hours including the required applied project course (REL 593) and a foreign language exam, or 30 credit hours, a thesis and a foreign language exam.

Thesis Option:

This option is recommended for students intending to seek admission to a doctoral program upon completion of the master's degree or planning to teach in the discipline at community colleges. For the thesis option, the student must satisfy the following requirements:

- an oral defense of the thesis

- reading knowledge of all languages relevant to the proposed thesis topic
- a thesis that earns six credit hours of 599 Thesis credit
- 24 credit hours of course work, including six credit hours in methods and theory (REL 501 and 502), six credit hours of graduate seminar (REL 591), offered each semester on varying topics within the academic study of religion and three credit hours of research (REL 592) to prepare the thesis proposal

Applied Project Option:

This option is recommended for students intending to augment their primary area of expertise and professional training in fields such as:

- counseling
- journalism
- K-12 education
- law
- social work
- the ministry

For the applied project option, the student must satisfy the following requirements:

- an oral defense of the applied project
- three publishable papers: one on theory and method, one on the student's minor area of study, and one on the major area of study
- reading knowledge of a foreign language relevant to the proposed area of concentration
- 30 credit hours of course work, including six credit hours in methods and theory (REL 501, 502), six credit hours of graduate seminar (REL 591), four courses in a major area of concentration and two courses in a minor area

Admission Requirements:

Applicants must submit an online graduate admission application. To be eligible for admission to the graduate program in religious studies, an applicant must submit the following:

- email addresses of three academic references*
- evidence of having completed the equivalent of 15 credit hours of undergraduate work in the study of religions, including advanced courses in both western and Asian or other non-western religions**
- a statement of purpose of approximately 1,000 words outlining the academic background, career goals and specific area of interest in religious studies in relation to fields offered by the faculty, to be sent to the graduate coordinator of the department
- test scores from the GRE
- a writing sample
- proof of English proficiency***

*Referees will be contacted by the Division of Graduate Education with a request to complete a reference questionnaire.

**Students without the necessary background in religious studies may remove deficiencies by taking additional specified courses at the beginning of their program of study, which may not count toward the fulfillment of degree requirements.

***The Test of English as a Foreign Language (TOEFL) is required for an applicant whose native language is not English (regardless of current residency).

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Please see the program website for application deadlines.

Religious Studies, PHD (LARELIGPHD)

Online Degree Search Title: Religious Studies (PhD)

Campus: Tempe

Program Description:

The academic study of religion is a central component of the humanities and has become increasingly recognized as a critical tool in understanding

society and politics in a globalized world. The PhD program has two main goals:

- provide supplementary training for graduate students in a range of related programs (including history, anthropology, political science, journalism, secondary education and justice studies) who would benefit from greater expertise regarding the nature and role of religion around the world
- train graduate students for careers as scholars and teachers in the academic study of religion

Doctoral tracks in the study of religion approach the study in a variety of contexts. Specifically offered are tracks in:

- anthropology of religion
- global Christianity
- Islam in global contexts
- religion in Asia
- religion in the Americas

Degree Requirements: 84 credit hours, foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Course Work:

The plan of study must contain a minimum of 84 credit hours, including 12 hours of dissertation. Courses and research hours are approved by the student's supervisory committee.

Admission Requirements:

All applicants must submit an online graduate admission application. In addition to the general requirements for admission to the Division of Graduate Education, applicants must also submit:

- email addresses of three academic references*
- GRE scores
- a statement of purpose of approximately 1,000 words
- Test of English as a Foreign Language (TOEFL) for applicants whose native language is not English**
- a writing sample

*Referees will be contacted by Graduate Admission Services to complete a reference questionnaire.

**An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Renaissance Studies (certificate), Certificate (LARENAISCE)

Online Degree Search Title: Renaissance Studies (Grad Certificate)

Campus: Tempe

Program Description:

The certificate program prepares students for advanced study or for academic positions by augmenting their skills and knowledge, thereby making them better equipped to meet the demands of their fields.

Degree Requirements: 18 credit hours (MA certificate), or 27 credit hours (PhD certificate).

Renaissance Language:

- one semester (three to four credit hours) for master's degree students, two semesters (six to eight credit hours) for doctoral degree students of Medieval/Renaissance Latin, Spanish literature or Portuguese literature*

- proficiency attested either by achieving a grade of "B" (3.00) or better in the medieval Latin courses or by satisfactory performance on the Medieval/Renaissance Latin examinations offered by the Centre for Medieval Studies, University of Toronto*

*This requirement presupposes two years or 12 to 16 credit hours or equivalent of undergraduate training in Latin.

Early modern language at the upper-division level:

- two semesters (six credit hours) for master's degree students; three semesters (nine credit hours) for doctoral degree students**

**Literature or linguistics classes may apply.

Paleography: One semester (three credit hours)

Course work outside the major discipline: Two semesters (six credit hours) for master's degree students, three semesters (nine credit hours) for doctoral degree students.

Admission Requirements:

All applicants to graduate certificate programs must submit the online graduate admission application. Graduate students admitted to a degree program in any field may earn one of two available certificates at the master's degree or doctoral degree level: the certificate in medieval studies or the certificate in Renaissance studies.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Scholarly Publishing (certificate), Certificate (LASCHPUBCE)

Online Degree Search Title: Scholarly Publishing (Grad Certificate)

Campus: Tempe

Program Description:

The scholarly publishing certificate program offers training in publishing studies to graduate students from any discipline. The program focuses on publishing wherever it occurs: museums, corporations, cultural institutions, university presses, commercial houses, digital startups, libraries, journal and textbook publishers, and learned societies. Students create the future world of publishing as it is expressed in the digital world of e-books, apps, blogs, websites, interactive media, online scholarship and popular writing. Graduates work for publishing houses, museums, corporations, cultural institutions, government agencies and libraries.

Degree Requirements: 20 credit hours.

Course work includes four required core courses and electives from a variety of disciplines. The certificate requirement includes a summer internship. Some courses may be applied to both the certificate and the student's degree program.

Admission Requirements:

Graduate students in any discipline may pursue a certificate in scholarly publishing in conjunction with their degree programs. The program is also open to students who already hold graduate degrees.

Please see the program website for application deadlines and admission terms. Applications will also be reviewed after the deadline if space remains in the class.

Applicants are required to submit an online graduate application solely for the scholarly publishing program, regardless of any applications to other programs.

Please submit the following materials:

- Applicants must submit an online graduate application.
- A resume or curriculum vitae is required, and it must be uploaded into the online application.
- A letter of intent should be addressed to the history review committee explaining the applicant's scholarly background and training, career goals and why they want to pursue graduate study at ASU (about 500 words in length).
- Three reference letters are required. Students should contact their references and inform them that they will be contacted by Graduate Admission Services and asked to submit an electronic recommendation. Students are required to submit a minimum of three email addresses from faculty or others qualified to speak to the student's suitability for graduate study in scholarly publishing.
- Official transcripts should be mailed to Graduate Admission Services. (It is not necessary to mail transcripts to the certificate program).
- A writing sample is required. Applicants are to submit a sample of their written work electronically. The writing sample may be an article (published or unpublished), a research paper or any other extended example of expository skill no longer than 35 double-spaced pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents should not be password protected. Acceptable file types are .rtf, .pdf and .doc.
- Proof of English proficiency is required for any applicant whose native language is not English (regardless of current residency).

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Scientific Teaching in Higher Education (certificate), Certificate (LASTHEGRCT)

Online Degree Search Title: Scientific Teaching in Higher Education Certificate (Grad Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in scientific teaching in higher education prepares graduate students with the skills and knowledge needed to implement and evaluate evidence-based teaching at the college level. As part of the program, students will gain experience teaching in higher education, take teaching-related course work and will complete a culminating experience under the guidance of a scientific teaching faculty mentor. This culminating experience can be one of the following: a significant teaching experience including the use of evidence-based teaching or discipline-based education research focused on undergraduate science education.

Degree Requirements: 17 credit hours including an applied project course (BIO 593).

Core (6)

- BIO 530 Scientific Teaching (2)
- BIO 531 Advanced Scientific Teaching (3)
- BIO 532 Recent Papers in Discipline-based Education Research (1)

Electives (6)

Other Requirement (2)*

Culminating Experience

BIO 593 Applied Project (3)

*Students have to select a teaching internship course from a restricted list.

Admission Requirements:

Applicants who meet the following requirements are eligible to apply:

- Students currently enrolled in a graduate degree program at ASU will be eligible to apply to this certificate program. A bachelor's degree or equivalent is required.

- This certificate requires a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's bachelor's degree program or good standing in a PhD program at ASU.

Applicants are required to submit:

- online graduate admission application and application fee
- official transcripts
- proof of English proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Social and Cultural Pedagogy, MA (LASCPMA)

Online Degree Search Title: Social and Cultural Pedagogy (MA)

Campus: Tempe

Program Description:

The MA in social and cultural pedagogy is a two-year program designed for educators with professional experience who seek to develop real-world skills and practical knowledge that will help them accomplish specific career goals.

The first of its kind in North America, the program focuses on the study of learning beyond schooling, delving into research, theory and practice for nonformal education across cultures, ages and education levels. A master's degree in social and cultural pedagogy provides educators with the skills they need to create positive change in nontraditional educational settings, including early childhood education, museums, nongovernmental organizations, and adult and community education, among others.

Each student creates a highly individualized and transdisciplinary path of study, taking classes tailored to meet their specific goals.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (SST 593).

Required courses:

JUS 500 Research Methods (3)

SST 501 Foundations of Social Transformation (3)

SST 510 Social and Cultural Pedagogy (3)

electives: 15 credit hours

research: 3 credit hours of SST 592 Research*

culminating experience: 3 credit hours of SST 593 Applied Project or 6 credit hours SST 599 Thesis

*only for students who elect to complete the applied project option; must be taken prior to SST 593 Applied Project

Admission Requirements:

All applicants must complete the online graduate admission application.

A bachelor's degree from a regionally accredited college or university recognized by ASU is required. Minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's bachelor's degree program is required.

Writing sample: Applicants should supply a two- to three-page application letter in which they explain why they want to study in this program and why they feel well-prepared to succeed in this graduate program.

Resume: The resume should describe prior educational history, related work or volunteer experiences.

Test of English as a Second Language (TOEFL) scores are required for applicants whose native language is not English. An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Social Science Research Methods (Certificate), Certificate (LASSRMGRCT)

Online Degree Search Title: Social Science Research Methods (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

The graduate certificate program in social science research methods prepares students to acquire, manage and analyze a broad range of data on human thought and human behavior. Data can be qualitative (e.g., text, images or sound) or quantitative (e.g., direct observation, surveys or geospatial). Data acquisition skills may include the downloading and managing of information from online sources or the primary collection of data in surveys or in direct observation. A key feature of this program is a focus on data analysis, so students and professionals will be able to analyze and interpret any data that they can collect. All students in this program will demonstrate skills in statistical analysis plus skills in a selection of methods related to their interests.

Degree Requirements:

Core (3)*

SOC 508 Structural Equation Analysis for the Social Sciences (3)

STP 533 Applied Multivariate Analysis (3)

POS 604 Polimetrics II (3)

Electives or Research (12)**

Culminating Experience (3)

GCU 593 Applied Project (3)

* Students will select one of the multivariate data analysis core courses for a total of three credit hours.

** Students select four 3-credit hour courses from a list of approved courses. Alternatives to these courses will be accepted pending an evaluation from the executive committee.

Admission Requirements:

Applicants who meet the following requirements are eligible to apply.

- Minimum of a bachelor's degree from a regional, national, internationally accredited institution, and from any field or discipline (e.g., human development, sustainability, geography, political science, including other areas with approval of the academic unit) are eligible to apply to the program.
- Minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program. Minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable masters degree program.
- Must have completed an introductory statistics course in statistics before admission to the program*

Applicants are required to submit:

- graduate admission application and application fee

- official transcripts
- proof of English proficiency**
- statement of interest***

*Course examples include:

CRJ 504 Statistical Tools for Criminology and Criminal Justice

NUR 617 Foundational Concepts in Science and Statistics

POS 603 Polimetrics I

STP 530 Applied Regression Analysis

or equivalent with approval of the academic unit

**Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

*** Statement of interest should include how the certificate program will enhance graduate studies or professional work.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Social Transformation Certificate, Certificate (LASOTGRCT)

Online Degree Search Title: Social Transformation (Grad Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

This certificate program is designed for graduate and postbaccalaureate students interested in how change is catalyzed by social movements, protest, law, social entrepreneurship, activism and community organizing. Through the exploration of theories and research related to social change, students are able to augment their disciplinary degrees and be prepared to contribute as leaders and change makers in their communities.

Degree Requirements: 15 credit hours and a practicum.

The electives taken will be selected with the faculty advisor. The faculty advisor will directionalize the electives to ensure they have a common theme. That will help to ensure students' experiences in the courses align with the learning goals outlined for the certificate.

The culminating experience will be a community-based practicum experience and a paper that synthesizes students' interests with their implications for social transformation. The practicum placement will be with a local nonprofit or governmental organization working toward social innovation and social change. Students will be assisted in identifying a practicum placement by the program advisor. At the end of the practicum, students will produce a paper which will analyze the social and political dimensions of some issue within (or aspect of) social transformation. The paper should also identify the implications of this aspect or issue for social policy and social justice. The paper should begin within the context of the practicum experience and will be presented to the designated subset of the certificate executive board for final approval. Students will take three credits of SST 580 Practicum to complete the practicum and then revise, improve and finalize the paper with a certificate faculty member.

Admission Requirements:

To be considered for admission, students should submit the online graduate admission application, pay the applicable fee and submit the following documents to the School of Social Transformation program office:

- Students must submit a statement of purpose for pursuing the certificate that is no longer than 250 words. The statement should indicate any demonstrated interest in the study of social transformation (e.g., previous course work, professional experience, internships, career plans).

- Students who are not regularly admitted to an ASU graduate program must submit an official transcript showing the completion of a bachelor's degree in any academic field. These students should have maintained at least a 3.00 GPA (scale is 4.00 = "A") or equivalent during their junior and senior years of work on the bachelor's degree.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the School of Social Transformation.

Admission Decision Process:

Applicants must meet the above criteria as judged by the School of Social Transformation graduate committee to have strong academic credentials (undergraduate or graduate GPA) as well as demonstrated interest in the area of social transformation. The committee will review applications for the certificate program in the fall and spring semesters of each year and make its admission recommendations to Graduate Admission Services.

Socio-Economic Justice (certificate), Certificate (LAECJUGRCT)

Online Degree Search Title: Socio-Economic Justice (Grad Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in socioeconomic justice addresses the social and political implications of global and local economies for economic inequality and social justice. This transdisciplinary program fuses interests in political economy, socioeconomic inequality and analysis of related policies and their consequences for social welfare in areas of income, housing, employment and education.

This certificate complements the current graduate curriculum at ASU and is structured to allow students to draw upon a combination of core courses in justice and social inquiry and course work from units from throughout the university. Our approach is transdisciplinary (i.e., inclusive of courses in a variety of disciplines but transcending disciplinary boundaries through an integrative core curriculum), intersectional (i.e., considering gender, race, class, nation and sexual relations) and transnational (courses that examine global and local concerns). It will strengthen student understanding of the justice implications of the convergence of social and economic inequalities in the global economy.

Degree Requirements: 15 credit hours.

This program includes two core (required) courses and three elective courses.

Required Certificate Core Courses (6)

Students must select one course from each of the following two areas of study:

1. Economic Justice (3)

Students must select one of the following courses:

JUS 550 Gender, Race and Economic Justice (3)
JUS 660 Globalization and Socio-Economic Justice (3)

2. Conducting Research in Communities (3)

Students must select one of the following courses:

JHR 525 Action Research (3)
JUS 633 Community Research (3)

Elective Courses (9)

Students must select three electives on socioeconomic justice from among the following courses:

ASB/POL 447 Citizenship, Nationalism and Identity (3)*
 ASB 591 Environmental Justice and the City (3)
 DCI 691 Topic: Consumption and Education (3)
 JHR 510 Problem-Based Seminar in Seminar in Social Justice and Human Rights (3)
 JHR 525 Action Research (3)
 JHS 511 Community-Embedded Seminar: Contemporary Slavery and Trafficking (3)
 JUS 405 Economic Justice (3)*
 JUS 415 Gender and International Development (3)*
 JUS 494 Advanced Topics in Global Justice (3)*
 JUS 550 Gender, Race and Economic Justice (3)
 JUS 555 Migration, Immigration and Justice (3)
 JUS 591 Family Work and Justice (3)
 JUS 591 Globalization and Livable Cities (3)
 JUS 591 Social enterprise, Innovation, and Justice (3)
 JUS 591/691 Difference, Citizenship and Globalization (3)
 JUS 591/691 Governance, Citizenship and Justice (3)
 JUS 660 Globalization and Socio-Economic Justice (3)
 JUS 633 Community Research (3)
 JUS 691 Globalization and the Changing Word of Work (3)
 PAF 566 Participatory Governance and Civic Engagement (3)
 POS 598 North-South Relations (3)
 POS 598 Urban Politics and Policy (3)
 SOS 514 Human Dimensions of Sustainability (3)
 SST 501 Foundations of Social Transformation (3)
 SWG 531 Social Policy and Services (3)
 SWG 533 Diversity and Oppression (3)
 SWG 591 Border Family and Community Asset Building Policies (3)
 WST 598 Gender and Globalization in Latin America (3)
 WST 691 State, Markets, Biopolitics (3)

*Note: Only one of the 400-level courses listed above is allowed.

Students must have prior approval from the director of the certificate in economic justice program for any 400-level course.

Admission Requirements:

All applicants must submit the online graduate admission application.

Graduate students who are regularly admitted to a graduate degree program at ASU or students who have completed a bachelor's degree at a regionally accredited U.S. institution or equivalent are welcome to apply for the socioeconomic justice graduate certificate program.

To be considered for admission, applicants must meet the Division of Graduate Education criteria for admission to a graduate certificate program at ASU. Students also should submit the following documents to the justice and social inquiry program office:

- at least one letter of recommendation
- a statement of purpose for pursuing the certificate
- a writing sample demonstrating excellent writing and analytical skills
- transcripts*

*Students who are already enrolled in an ASU graduate program must submit an unofficial copy of their graduate transcripts and be in good standing with the Division of Graduate Education; students who are not regularly admitted to an ASU graduate program must submit an official transcript showing the completion of a bachelor's degree in any academic field with a junior and senior GPA of at least 3.00 or equivalent (scale is 4.00 = "A").

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Sociological Inquiry, PHD (LASOCPHD)

Online Degree Search Title: Sociological Inquiry (PhD)

Campus: Tempe

Program Description:

This degree provides advanced training in theory, research methodology and substantive fields to prepare sociologists for teaching and research with special emphasis on family, medical sociology and demography.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Thirty credit hours from a previously awarded master's degree may be applied to the 84 credit hour requirement.

The PhD requires 54 credit hours beyond the master's degree:

core (6)

theory (3)

methods (3)

statistics (3)

dissertation (12)

elective courses and research credits (27)

previously awarded master's degree allowance (30)

total hours required for the program (84)

A minimum of 30 credit hours of the approved doctorate program, exclusive of dissertation and research hours, must be completed after admission to the program.

Admission Requirements:

Applicants must submit the online graduate admission application.

An earned master's degree from an accredited institution is required in sociology or another social science (e.g., anthropology, economics, political science, etc.).

Admission to the program is determined by the following criteria:

- a current resume or curriculum vitae
- a personal statement detailing professional goals and research experiences
- a writing sample
- a master's degree or its equivalent in sociology or a related field
- GRE scores (verbal, quantitative and writing)
- three letters of appraisal from persons familiar with the applicant's academic background
- valid transcripts of the applicant's academic record

Please see the program website for application deadlines.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Sociology, MA (LASOCMA)

Online Degree Search Title: Sociology (MA)

Campus: Tempe, Online

Program Description:

The MA in sociology program provides advanced training for those preparing for applied careers in sociology. Students will gain knowledge and skills that can be used to promote healthy individuals and families by understanding how the social context influences their well-being. Students will develop an understanding of the factors that promote successful relationships and positive outcomes for individuals, families, and communities.

The online format provides easy access to rigorous and valuable information that informs best practices in improving the lives of families and family members. The program also includes a customizable culminating experience that allows students to focus their training in their areas of interest and work.

Degree Requirements: 30 credit hours and a capstone course.

The Master of Arts in sociology program includes:

core: (12)

SOC 501 Social Statistics (3)

SOC 585 Sociological Theory (3)

SOC 586 Capstone I (3)

SOC 587 Capstone II (3)

electives: (12)

other requirements: (3)

SOC 500 Research Methods (3)

culminating experience:

Capstone Course SOC 588 Capstone III (3)

Admission Requirements:

All applicants must submit an online graduate admission application.

Admission to the program is determined by the following criteria:

- minimum 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of the student's first bachelor's degree program
- a current resume or curriculum vitae
- a personal statement detailing professional goals and research experiences
- a writing sample
- three letters of appraisal from persons familiar with the applicant's academic background
- valid transcripts of the student's academic record

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Spanish, MA (LASPANMA)

Online Degree Search Title: Spanish (MA)

Campus: Tempe

Program Description:

The MA program in Spanish combines Spanish, Spanish American and Mexican American literature, linguistics and culture. All programs have a research component: candidates for the master's degree in Spanish write a thesis.

The program has two tracks: literature and culture, and linguistics. It is possible to focus course work in one of two areas within the linguistics track:

- sociolinguistics
- second-language acquisition and applied linguistics.

Students admitted to the master's degree program with a major in secondary education may elect Spanish as the subject matter field.

Degree Requirements: 30 credit hours and a portfolio, or 30 credit hours, a thesis and a written comprehensive exam.

Students seeking a master's degree in Spanish should consult with the respective graduate representative.

Comprehensive Examination: All candidates are required to pass a comprehensive written examination designed to evaluate the candidate's knowledge in the area of specialization. A reading list is provided as a guide to preparation for this examination.

Thesis: All candidates must write a thesis.

Admission Requirements:

Students interested in applying to this program must submit the following documentation using the online application:

- an online graduate admission application
- an academic writing sample such as an academic term paper, critical paper or research paper approximately 10 to 25 pages, prepared in an upper-division or graduate Spanish course
- a personal statement (preferably in Spanish) that is no more than two pages, summarizing past educational experiences and goals in pursuing a graduate degree
- a resume, if interested in a teaching assistantship
- three letters of recommendation*

*The online application will ask for recommender's names and email addresses. They will be notified and given instructions. If a candidate is interested in obtaining a teaching assistant position, the two letters of recommendation included with the application to the program should also address the candidate's competence in Spanish and ability (potential or demonstrated) to conduct a university-level language course. If the authors of the academic letters are unfamiliar with a candidate's teaching ability, a separate letter addressing this issue from a more appropriate source should be included in the application package.

See <https://international.clas.asu.edu/degrees/spanish-ma> (<https://international.clas.asu.edu/degrees/spanish-ma>) for more information.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Spanish, PHD (LASPANPHD)

Online Degree Search Title: Spanish (PhD)

Campus: Tempe

Program Description:

The School of International Letters and Cultures offers a graduate program in Spanish leading to the PhD in Spanish.

Degree Requirements: 84 credit hours, two foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The doctoral program in Spanish has four available tracks:

Early-Modern Iberian Studies Track

core (3)
required track courses (18)
elective or research courses (51)*
dissertation (12)

*Students are required to take 12 credit hours of SPA 792 Research as part of the available 51 hours of elective or research course work.

Spanish Linguistics Track

core (3)
required track courses (18)
focus area courses (12)*
electives or research courses (39)**
dissertation (12)

*Available focus areas are: second-language acquisition and teaching methodologies; heritage language research and pedagogy; and sociolinguistics, bilingualism and Spanish in the U.S.

**Students are required to take 12 credit hours of SPA 792 Research as part of the available 39 hours of elective or research course work.

Mexican American Studies Track

core (3)
required track courses (18)
elective or research courses (51)*
dissertation (12)

*Students are required to take 12 credit hours of SPA 792 Research as part of the available 51 hours of elective or research course work.

Visual Studies Track

core (3)
required track courses (18)
elective or research courses (51)*
dissertation (12)

*Students are required to take 12 credit hours of SPA 792 Research as part of the available 51 hours of elective or research course work.

- The candidate must present an acceptable dissertation based on original investigation. The dissertation must represent a significant contribution to knowledge and demonstrate the candidate's ability to do independent, scholarly research.
- Each candidate is expected to demonstrate a reading knowledge of two languages other than English and Spanish. The language requirements must be satisfied before the candidate is eligible to take the comprehensive examination.
- The candidate must complete 84 credit hours of graduate-level work.
- A final oral examination is required. This examination covers the subject matter of the dissertation and appropriate field.
- The candidate must complete 12 (and only 12) credit hours of dissertation (SPA 799).
- Thirty hours of credit from a previously awarded master's degree in Spanish may count toward the 84 credit hours with approval from the academic unit and the Division of Graduate Education.
- A written and oral comprehensive examination, designed to ascertain the candidate's knowledge and orientation in the field of study and competency to proceed with the dissertation, is required at or near the end of course work.

Admission Requirements:

All candidates for the doctoral program in Spanish must submit the online graduate admission application and fulfill the general requirements of the Division of Graduate Education concerning admission.

Candidates for the program will be required to demonstrate a near-native oral proficiency in Spanish and to show that they have developed a high order of expository prose in English and Spanish by presenting a term paper or a chapter of the master's degree thesis.

The Spanish graduate program requires a 3.75 overall GPA (on a 4.00 scale).

Admission to the Spanish doctoral program requires the candidate to present a master's degree in Spanish or equivalent from an accredited institution.

The committee may request letters of recommendation regarding the applicant's command of Spanish and potential for doctoral work. A personal interview may also be appropriate.

It is recommended, but not required, that students applying for admission to the master's degree program or doctoral program submit scores on the GRE; this is especially advisable for the applicants for the Spanish Graduate Fellowship Award.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Statistics, MS (GCSTATMS)

Online Degree Search Title: Statistics (MS)

Campus: Tempe

Program Description:

The School of Mathematical and Statistical Sciences offers a program leading to an MS degree in statistics. The program draws upon a wide spectrum of faculty research and teaching interests, including from faculty outside of the school. As a result, plans of study can be transdisciplinary and tailored to reflect individual needs and goals.

Degree Requirements: 30 credit hours including the required applied project course (STP 593 or IEE 593 or ECN 593) and an oral comprehensive exam, or 30 credit hours, a thesis and an oral comprehensive exam, or 30 credit hours, a written comprehensive exam and an oral comprehensive exam.

Completion of the degree requires 30 credit hours of approved credit, none of which may be from the prerequisites. The program must include nine credit hours from the three required theory courses:

STP 501 Theory of Statistics I: Distribution Theory 3 (3)
STP 502 Theory of Statistics II: Inference (3)
STP 526 Theory of Statistical Linear Models (3)

The required theory courses are fundamental to the education of statisticians and are necessary for more advanced graduate study. Two courses in applied linear statistical models are also required:

ECN 530/IEE 572/STP 531 Applied Analysis of Variance and Design of Experiments (3)
ECN 525/IEE 578/STP 530 Applied Regression Analysis (3)

The program must also include either three credit hours of ECN 593/IEE 593/STP 593 Applied Project; six credit hours of ECN 599/IEE 599/STP 599 Thesis; or an oral and written comprehensive exam on advanced statistics course work to be administered by the School of Mathematical and Statistical Sciences. The applied project or thesis must be defended at an oral examination. The content of the applied project report or thesis, in its final form, must be suitable for submission to an academic journal or conference proceedings. The thesis must conform to the Division of Graduate Education format requirements.

The remaining credit hours come from elective courses chosen by the student with the approval of supervising faculty. A maximum of six credit hours may be chosen from a related field on which statistics relies (such as computer science) or in which statistics is an essential tool (e.g., biostatistics, quality control). The elective courses allow the student to emphasize a particular area of statistical inference, culminating in an applied project report or a thesis on a topic in that area. No foreign language or written comprehensive examinations are required.

The student has considerable flexibility in selecting an area of specialty.

Admission Requirements:

Applicants must submit:

- the online graduate admission application
- official transcripts
- a statement of education and career goals
- three letters of recommendation
- general GRE score

- proof of English language proficiency*

Applicants should have completed the following courses (equivalents at ASU are given in parentheses):

- advanced calculus (MAT 371)
- calculus (MAT 270, MAT 271 and MAT 272)
- computer programming (CSE 100)
- introductory statistics (STP 420)
- linear algebra (MAT 342)

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants who lack any of these prerequisite courses must complete the prerequisites before being considered for admission. Although most applicants earn the bachelor's degree in a quantitative area (such as statistics, quantitative business analysis, mathematics, engineering or computer science), this is not required for admission to the program. The submission of GRE scores is required.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Statistics, PHD (LASTPPHD)

Online Degree Search Title: Statistics (PhD)

Campus: Tempe

Program Description:

The School of Mathematical and Statistical Sciences offers a program leading to the PhD degree in statistics. As a science, statistics focuses on data collection and data analysis by using theoretical, applied and computational tools and considerations. The doctoral degree program reflects this breadth in tools and considerations while allowing students sufficient flexibility to select a program of study that is tailored to reflect individual interests and goals. Research can be of a disciplinary or transdisciplinary nature.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

This program includes:

core course work (mathematical statistics, probability, STP 526, STP 527, STP 530 or IEE 578, STP 531 or IEE 572) (15)
elective statistics or related area courses approved by the student's supervisory committee (45)
MAT 792 Research (12)
MAT 799 Dissertation (12)

Students must pass:

- one qualifying examination and course work in analysis*
- a written comprehensive examination
- a dissertation prospectus defense

*See the school website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members. See the department website for examination information.

Admission Requirements:

Applicants must submit:

- online graduate admission application
- the general GRE scores
- official transcripts
- a statement of education and career goals

- three letters of recommendation

The minimum requirements for consideration of admission to the doctoral program in statistics are:

- a bachelor's degree in statistics, mathematics or a closely related area with a 3.00 GPA (4.00 scale)
- completion of the following courses (equivalents at ASU are given in parentheses): calculus (MAT 270, 271 and 272), advanced calculus (MAT 371), linear algebra (MAT 342), computer programming (CSE 100), and introductory applied statistics (QBA 221 or STP 420)

Applicants who lack any of these prerequisite courses must complete the prerequisites before being considered for admission.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Statistics (certificate), Certificate (GCSTATCE)

Online Degree Search Title: Statistics (Grad Certificate)

Campus: Tempe

Program Description:

The certificate program provides statistical training for graduate students at ASU and working professionals in the Phoenix metropolitan area. The statistics certificate program draws upon a variety of faculty research and teaching interests from various academic units so that programs of study can be tailored to reflect individual needs and goals.

Degree Requirements: 15 credit hours.

To qualify for the certificate, students must complete:

- STP 530 Applied Regression Analysis (3) (or ECN 525 or IEE 578)
- STP 531 Applied Analysis of Variance and Design of Experiments (3) (or ECN 530 or IEE 572)

The remaining nine credits are taken from a set of courses approved by the School of Mathematical and Statistical Sciences.

The certificate program requires no applied project. Students must have a GPA of at least 3.00 (scale is 4.00 = "A") in the courses which apply to the certificate.

Admission Requirements:

All applicants to the statistics certificate program must submit the online graduate admission application.

Applicants must have a bachelor's degree and should have completed the following courses (equivalents at ASU are given in parentheses):

- introductory applied statistics (ECN 221, STP 226 or STP 420)
- one semester of calculus (MAT 210, MAT 265 or MAT 270)

Applicants are also required to have some computer literacy with knowledge of a programming language, a spreadsheet program or a statistical software program.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Teaching English to Speakers of Other Languages, MTESOL (LAENGMTESL)

Online Degree Search Title: Teaching English to Speakers of Other Languages (MTESOL)

Campus: Tempe

Program Description:

The Department of English at Arizona State University offers a professional program leading to the MTESOL. This well-established, specialized degree program provides students with the knowledge and skills necessary to teach English to speakers of other languages in various parts of the world (including the United States). The focus of the program is on theories and methods of language teaching and the aspects of linguistics that teachers need for effective classroom performance. The master's degree in Teaching English to Speakers of Other Languages is intended for those who wish to build a career in the field of teaching the English language.

Established in 1969, the MTESOL program has graduated students from various countries and regions in Africa, Asia, Europe, Latin America, Melanesia, the Middle East and throughout the United States. The program features internationally known faculty members whose expertise includes computer-assisted language learning, curriculum design, English for academic purposes, English as an international language, English grammar and grammar for TESOL, intercultural rhetoric, interlanguage pragmatics, language testing and assessment, materials development, nonnative English speakers in TESOL, second-language acquisition, second-language phonology and second-language writing. Also, these faculty have extensive practical experience designing and teaching TESOL courses in the U.S. and internationally, including general English courses for students of all ages, academic English courses for university students, settlement English courses for refugees and immigrants, and occupational English courses.

Graduates of the MTESOL program have been successful in finding employment in a variety of TESOL-related positions locally, nationally and internationally. Many also continue on to pursue doctoral degrees at Arizona State University and elsewhere.

Degree Requirements: 30 credit hours including the required capstone course (ENG 597) and a Foreign Language Exam.

Approved graduate course work must include:

LIN 500 Research Methods (3)

LIN 510 Linguistics (3)

LIN 520 Second-Language Acquisition Theories (3)

LIN 521 Methods of Teaching English as a Second Language (3)

LIN 584 Internship (3)

ENG 597 Graduate Capstone Seminar (3)

Foreign Language Requirement: A foreign language is required and must be completed during the program.

Capstone: A three credit hour capstone course (ENG 597) is required, which will be overseen by a director who will be chosen from the English department linguistics and TESOL faculty.

Accelerated Degrees:

This degree is also offered as an accelerated degree with English (Linguistics), BA

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants may have undergraduate majors in fields such as, but not limited to:

- anthropology
- applied linguistics
- cognitive science
- communication
- comparative languages and literatures
- education
- English literature
- history
- law

Graduate Admissions Services requires a GPA of "B" (3.00 on a 4.00 scale) or better in the last two years of work leading to the bachelor's degree.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. International students must submit a TOEFL score of at least 250 computer-based, 100 Internet-based, an IELTS score of 7.0 or above, or a 68 on the Pearson Test of English Academic to be considered for admission. Refer to the Department of English webpage for English proficiency requirements.

Transborder Studies, MAS (LATCLMAS)

Online Degree Search Title: Transborder Studies (MAS)

Campus: Tempe

Program Description:

The MAS program in transborder studies is designed for the postbaccalaureate professional who seeks training in an integrated program that also provides for differentiation via three thematic options. The course of study is designed to provide a cohesive and holistic program of learning that focuses on the complex economic, political, ecological, social and cultural issues of a coevolving border region of the U.S. Southwest and Mexico. Students will be required to engage in an intensive internship process in which they will apply their learning. The program will also provide a choice to explore one of the following three areas more deeply:

- Transborder culture, language and learning: This area focuses on the interrelated processes of cultural emergence, language development and learning as they interact with each other in conjunction with the development of mathematical and scientific reasoning skills, literacy skills and critical thinking in the transborder context.
- Transborder media and expressive culture: This area provides students with a transdisciplinary understanding of how representation, interpretation and language shape and are shaped by Chicana/o, Mexican and Latina/o culture in a transborder context.
- Transborder migration, health and applied social policy: This area provides students with theoretical and applied frameworks for understanding border communities in the areas of migration, health, education, environment and other areas affecting social development.

Degree Requirements: 30 credit hours including the required capstone course (TCL 608), a written comprehensive exam, an oral comprehensive exam and a foreign language exam.

Required Courses:

TCL 502 A Deep History of the United States/Mexico Borderlands II (3)

TCL 503 Epistemologies and Transborder Thought (3)

TCL 504 Tools for Transborder Research (3)

Select one of the following three:

TCL 505 Theories and Methods of Migration, Health and Applied Social Policy (3)

TCL 506 Theory and Methods of Transborder Media and Expressive Culture (3)

TCL 507 Theory and Methods of Transborder Cultural Acquisition, Language Development and Learning (3)

In Addition:

TCL 601 Internship (3 semesters) (9)

TCL 608 Capstone Course: Transmitting Transborder Studies to Publics and Institutions (3)

TCL 691 Seminar (6)

Admission Requirements: • Applicants must submit an online graduate admission application.

• A minimum of a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university is required. The bachelor's degree must be in the social sciences, humanities, sciences, health, education, business or professional field.

• A minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") is required in the last 60 hours of a student's bachelor's degree program.

• The GRE is required.

• The Test of English as a Foreign Language (TOEFL) is required for an applicant whose native language is not English; see <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Transborder Studies, PHD (LATCLPHD)

Online Degree Search Title: Transborder Studies (PhD)

Campus: Tempe

Program Description:

This program is intended for graduate students who seek rigorous study of transborder and transnational economic, political, artistic, social, psychological, ecological and cultural dynamics, with implications not only for the Mexican-origin and Latina/o communities in the U.S. or the U.S.-Mexico border region, but also for other border communities around the world. This transdisciplinary degree is designed for students with serious interest in the many ways border processes affect society: past, present, and future.

Due to the focus on transborder experiences in people's everyday lives, both regionally and globally, this program equips students with the following knowledge, skills and competencies for transborder research, scholarship and innovation --- all of which are highly needed by current and future scholars in order to better grasp the complexity of contemporary societies in the 21st century:

- ability to communicate findings, creations or productions to an academic and community public
- ability to create pedagogical models, learning units and assessment protocols for the transmission of learned concepts, theories and methods
- ability to design and develop transdisciplinary research
- ability to display and apply concepts, methods and theories in courses and research projects
- competency in the most pertinent theoretical and methodological approaches to the study of transborder and transnational contexts
- historical understanding of the development of transborder ecologies, economies, social relations, migration and health, culture, power, language and expressive culture and media

Degree Requirements: 84 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Core (6)

Electives and Research (36)

Previously awarded master's degree (30)*

Dissertation (12)

Total credit hours (84)

*Please note that if students do not already have a master's degree in a related field, then the remaining 30 hours will be made up of electives and research to reach the 84 credit hours required for the doctoral program.

Admission Requirements:

Applicants who meet the following requirements are eligible to apply.

- A minimum of a bachelor's degree (or equivalent) or a graduate degree is required from a regionally accredited college or university of recognized standing in a related field such as anthropology, economics, education, sociology, literature and psychology.
- Applicants may come from any undergraduate major or with a master's degree from another discipline, but their scholarly interests should coincide with the program's mission and concentrations.
- A minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program is required.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- reference letters (from academicians)
- statement of purpose*
- proof of English proficiency**

*The statement of purpose should include an explanation of past experiences and current scholarly interests but concentrate on potential areas of research that draw upon the specific resources of the department and faculty.

**An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Transportation Systems (certificate), Certificate (GCTRANSCE)

Online Degree Search Title: Transportation Systems (Grad Certificate)

Campus: Tempe

Program Description:

Transportation has emerged as one of the highest priority issues for policymakers, employers and citizens. The transportation systems certificate program enhances the education of current and future transportation professionals to respond to this challenging environment. It builds upon existing programs in five disciplines, offered in five colleges and two campuses in the ASU system. The program approaches the subject from an integrated systems perspective. It exposes students to a range of transportation alternatives and the interrelationships among transportation, economic development, land use, energy and the environment.

The certificate program offers current ASU graduate students and transportation professionals the opportunity to pursue a wide range of transportation-related issues from a multi-modal and transdisciplinary perspective. The certificate is intended to be either a specialization within an existing master's degree or as a stand-alone, 15 credit hour nondegree program.

Degree Requirements: 15 credit hours including the required applied project course (PUP 593).

the applied project course, PUP 593 (3)

a seminar course (3)

three electives from an approved list of transportation-related courses (including at least one from a field outside the student's major)

Students are strongly encouraged to include as one of the three elective courses a course in methods or techniques applicable to transportation systems planning. In the applied project course, students are encouraged to work with transportation professionals in their area of interest to identify a project that is of interest to the broader public.

All decisions related to program offerings and departmental participation are made in cooperation with the transportation systems certificate admissions and advisory committee, which includes a member from each participating department.

Admission Requirements:

Admission to the transportation certificate program is the same for both new students and current degree-seeking students.

Applicants must:

- Complete the online graduate admission application.

Submit responses to two essay questions:

- What do you expect to gain from the transportation certificate?
- What types of courses within the certificate would be the most helpful in meeting your objective?
- Provide a current resume.
- Provide official transcripts.
- Provide proof of English proficiency.*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Information regarding English proficiency requirements can be found on the Division of Graduate Education website.

Questions regarding transcript requirements need to be directed to the Graduate Admission Services.

Applicants who wish to seek a graduate degree in any of the cooperating departments and who are not currently enrolled at ASU must complete the full graduate school application process as specified by the department of interest, in addition to an online application for the transportation certificate. Please see department guidelines for admission to a degree program. Please be aware that admission to a degree program and the transportation certificate program are independent of each other. Applicants interested in applying for the transportation certificate in addition to a degree program must also complete an admission essay for the certificate program that is independent from an admission essay for a degree program.

Admission to the program will be determined by the transportation systems certificate admissions and advisory committee, consisting of representatives from each of the participating programs.

For U.S. Department of Education Gainful Employment Program Disclosure information, see <https://catalog.asu.edu/files/disclosures/GCTRANSCE/Gedt.html> (<https://catalog.asu.edu/files/disclosures/GCTRANSCE/Gedt.html>).

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Urban and Environmental Planning, MUEP (ARURBMUEP)

Online Degree Search Title: Urban and Environmental Planning (MUEP)

Campus: Tempe

Program Description:

The MUEP is accredited by the Planning Accreditation Board. It is a transdisciplinary, professional degree program designed to prepare students for leadership roles in planning in the public and private sectors. The curriculum includes a common core of required courses which provide linkage between knowledge and practice as well as fundamental theories and skills.

As active scholars and teachers in an accredited planning program, the faculty have a wide range of interests and expertise, including in the areas of:

- desert cities
- disaster recovery planning
- housing
- infrastructure planning
- international development
- land use and environmental planning
- planning history
- public participation
- regional development

Faculty research and teaching interests especially focus on the following broad transdisciplinary themes:

- community development for social equity: <https://geoplan.asu.edu/academics/graduate-studies/about-muep-program/community-development-social-equity> (<https://geoplan.asu.edu/academics/graduate-studies/about-muep-program/community-development-social-equity>)
- spatial and economic analysis: <https://geoplan.asu.edu/academics/graduate-studies/about-phd-urban-planning/spatial-and-economic-analysis> (<https://geoplan.asu.edu/academics/graduate-studies/about-phd-urban-planning/spatial-and-economic-analysis>)
- transportation planning and policy: <https://geoplan.asu.edu/academics/graduate-studies/about-phd-urban-planning/transportation-planning-and-policy> (<https://geoplan.asu.edu/academics/graduate-studies/about-phd-urban-planning/transportation-planning-and-policy>)
- urban design and sustainable cities: <https://geoplan.asu.edu/academics/graduate-studies/about-muep-program/urban-design-and-sustainable-cities> (<https://geoplan.asu.edu/academics/graduate-studies/about-muep-program/urban-design-and-sustainable-cities>)

The master's degree program in urban and environmental planning offers a unique opportunity to integrate urban and environmental aspects of planning in a rapidly developing metropolitan area. Individual practical experience in planning is provided through an optional internship program and applied research. In addition to the planning faculty, the program is enriched by the transdisciplinary participation of faculty from other academic units of the university and leading planning practitioners from the Phoenix area.

Degree Requirements: 47 credit hours and a thesis, or 47 credit hours including the required applied project course (PUP 593), or 47 credit hours including the required capstone course (PUP 580).

The plan for the 47-credit-hour master's degree program has the typical distribution as follows:

Required core courses: (21)

- GIS 515 or PUP 576 GIS Workshop for Planners (3)
- PUP 501 Planning History and Theory (3)
- PUP 520 Planning Practice, Ethics and Processes (3)
- PUP 531 Planning and Development Control Law (3)
- PUP 548 Planning for Sustainable Communities (3)
- PUP 571 Socio-Economic Impact Analysis (3)
- PUP 642 Urban and Regional Economic Analysis (3)

Capstone studio, thesis or professional project

Electives (21)

Students must complete the required core courses and select an area of specialization. Students must also select a capstone studio, a professional project or a thesis option. Successful completion of an approved statistics course, if not achieved by the student as an undergraduate, will be required as a deficiency.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

- Public Administration (MPA) - Downtown Phoenix
- Public Policy (MPP)
- Sustainability Solutions (MSUS)

Accelerated Degrees:

This degree is also offered as an accelerated degree with Urban Planning, BSP

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

To be considered for the master's degree program in urban and environmental planning, the applicant must submit the online graduate admission application and fulfill all admission requirements of Graduate Admission Services in addition to meeting admission requirements of the School of Geographical Sciences and Urban Planning. The following materials are required:

- an online graduate admission application
- current resume
- GRE scores
- official transcripts from all other colleges and universities attended

statement of intent (maximum 600 words) explaining the applicant's:

- academic and professional background and if appropriate, preparation for the selected area of specialty (may include written samples or a portfolio, though not required)
- educational objectives
- interest in planning
- proof of English language proficiency*

- three letters of recommendation from references who are qualified to comment on the applicant's potential in the selected area of study

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency in the form of Test of English as a Foreign Language (TOEFL) scores.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Urban Planning, PHD (ARPUPPHD)

Online Degree Search Title: Urban Planning (PhD)

Campus: Tempe

Program Description:

The PhD program in urban planning will educate scholars for positions in leading universities, research institutions, nongovernmental organizations, international multilateral institutions, national, state and local governments and high-level consulting firms. The program will provide a strong foundation for undertaking research in planning, urbanism, urban design and urban sustainability.

While topics and methods will be wide-ranging and will include spatial, theoretical and urban design inquiry, the focus of the doctorate program will be on the built environment, its problems and potential solutions that improve the quality of life of urban residents.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

required core courses (6)

program electives and research (34)

PUP 701 Urban Planning Colloquium (two semesters, 2 credit hours total)

PUP 799 Dissertation (12)

Up to six credit hours of 400-level courses may be applied on the plan of study.

Admission Requirements: • Applicants must submit the online graduate admission application.

• A minimum of a master's degree (or equivalent) is required or a graduate degree from a regionally accredited college or university of recognized standing in a related field such as: urban studies, geography, environmental studies, sustainability, architecture, public policy or public administration.

• A minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 credit hours of a student's bachelor's degree program is required. A minimum GPA of 3.00 is required in the master's degree work for acceptance into the PhD program.

• The GRE is required.

• The Test of English as a Foreign Language (TOEFL) is required for applicants whose native language is not English.*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Please visit <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>) for more information.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Women and Gender Studies, MA (LAWSTMA)

Online Degree Search Title: Women and Gender Studies (MA)

Campus: Tempe

Program Description:

The MA in women and gender studies provides transdisciplinary training in feminist theory with a focus on social justice that goes beyond the classroom.

The flexible degree program provides advanced training in feminist theory and methodologies with a particular focus on contemporary research about women, gender and sexuality. Each student creates a highly individualized plan of study, allowing them to complete the degree within two years while studying full-time or to work toward the master's degree part-time. The program supports students wanting a terminal Master of Arts degree or those who are interested in continuing on after the master's degree to a doctoral program.

Housed in the School of Social Transformation, the program places students in the center of a transdisciplinary learning environment with specialized courses that relate gender to justice, cultural pedagogy and ethnic studies. The school's collaborative approach provides students with access to a wealth of resources to support diverse career and academic aspirations.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (SST 593).

Required Core Courses: (6 credit hours)

WST 501 Foundations of Feminist Thought (3)

WST 502 Interdisciplinary Gender Research Methods (3)

Electives: (18 credit hours)

Culminating Experience: (6 credit hours; choose one)

SST 593 Applied Project (6)

SST 599 Thesis (6)

Other Requirements:

Students must successfully provide an oral defense of their thesis or applied project.

Admission Requirements:

Degree: Students should have a BA or BS in any field as long as they have completed two courses in women and gender studies or have equivalent experience. Majors may come from women, gender and sexuality studies; history; English; sociology; religious studies; social work; psychology; communication or ethnic studies. Students who have previously majored in a STEM field and have interests in gender and education or gender and science may also apply for this program.

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program is required. A minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree program is required.

English Proficiency Requirement: The English proficiency requirements are the same as the Division of Graduate Education requirement. An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Required Admission Examinations: None

Letters of Recommendation: Yes

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Liberal Arts and Sciences.

Nursing and Health Innovation, College of

Adv Nursing Practice (Women's Health NP), DNP (NUANPWHDNP)

Online Degree Search Title: Women's Health Nurse Practitioner (DNP)

Campus: Downtown Phoenix

Program Description:

This degree program, accredited by the Commission on Collegiate Nursing Education, is designed for nurses seeking to become advanced-practice nurses as women's health nurse practitioners. Providing a foundation for this specialty are graduate courses in application of theory to advanced practice; application of evidence to advanced practice; advanced pathophysiology; advanced health assessment; advanced pharmacology and advanced practice nursing role. Women's health care theory and clinical courses include theories, principles and clinical skills in the care of women and their families. Courses focus on critical thinking, diagnosis, problem-solving and nursing management of women throughout the maternity cycle and with common gynecological problems. Client education, communication and collaboration are emphasized.

The Doctor of Nursing Practice is offered in a hybrid and iCourse format that requires students to travel to campus for up to a week for orientation at the beginning of the program and then two or three times per semester (two or three days per session), depending on the courses being taught.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt will be made to arrange these in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determines the student needs additional faculty supervision of skills, the student will be required to complete their clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

Degree Requirements: 84 credit hours including the required applied project course (DNP 707).

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a nurse practitioner doctoral program. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

Admission Requirements:

Admission to Doctor of Nursing Practice in the College of Nursing and Health Innovation is based upon the following requirements (details within the application):

- completion of a bachelor's degree in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher for any graduate degree attained
- a current unencumbered RN license in the state in which the student plans to do clinical practicums*
- one year of clinical experience working within the student's specialty population is preferred
- interview with program faculty
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- health and safety requirements: passing disposition on a background clearance and satisfactory completion of a substance screen
- proof of English language proficiency**

Required Admission Examinations: none

*All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

**An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency per the Division of Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Advanced Nursing Practice, DNP (NUANPDNP)

Online Degree Search Title: Advanced Nursing Practice - DNP

Campus: Downtown Phoenix

Program Description:

The DNP degree program in advanced nursing practice, accredited by the Commission on Collegiate Nursing Education, is designed for master's degree-prepared, advanced practice nurses. Courses are designed for clinical experts and are innovative, interesting and organized to provide students with expert colleagues and mentors across the U.S. who can challenge them to take their practice to a new level.

Graduates of this program will be able to facilitate the application and integration of research into clinical practice using innovative approaches to improve health care outcomes of populations and individuals across multiple settings.

Degree Requirements: 84 credit hours including the required applied project course (DNP 707).

Applicants to the post-master's program should identify a relevant clinical issue related to advanced practice nursing that they would like to pursue during their doctoral program. Students will complete 540 hours of clinical practice residency and the program courses. Completion of an evidence-based doctoral applied project is required. Each project will be developed individually with each student. Each student will have a primary mentor working with them on the project. Clinical practice residency hours will be used to complete the project in a practice setting; work settings may be included, but specific objectives will be developed individually with each student that may be different from the student's job. Experiences with disadvantaged and multicultural populations are encouraged, as are experiences in rural areas, and sites are available for these experiences.

Admission Requirements:

Applicants will be reviewed on a space-available basis after the priority deadline. Please see the program website for application deadlines.

Applicants must submit an online graduate admission application.

Admission to the Doctor of Nursing Practice degree program in the College of Nursing and Health Innovation is based upon the following requirements (details within the application):

- completion of a bachelor's degree in nursing from a nationally recognized, regionally accredited academic institution
- completion of a master's degree in nursing from a nationally recognized, regionally accredited academic institution
- certified as an advanced practice nurse
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher for any graduate degree attained
- a current unencumbered RN license in the state in which the student plans to do clinical practicums*
- one year of clinical experience working within the student's specialty population is preferred
- interview with program faculty
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- health and safety requirements: passing disposition on a background clearance and satisfactory completion of a substance screen

Advanced Nursing Practice (Adult Nurse Practitioner), DNP (NUANPADDNP)

Online Degree Search Title: Adult Nurse Practitioner (DNP)

Campus: Downtown Phoenix

Program Description:

The DNP in advanced nursing practice with a concentration in adult nurse practitioner is designed for registered nurses who seek to become advanced practice nurses as adult nurse practitioners. Providing a foundation for this specialty are graduate courses in application of theory to advanced practice; application of evidence to advanced practice; advanced pathophysiology; advanced health assessment; and advanced practice nursing role. The program is designed to be accessible for students living or working at a distance, with course work delivered in a hybrid online format in which students attend on-campus sessions two or three times each semester.

Graduates in the adult nurse practitioner concentration are prepared to provide primary care to adults who are in various states of health in a variety of settings. Health promotion and illness prevention are among the essential threads integrated throughout the plan of study. Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt will be made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student will be required to complete the clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

Degree Requirements: 84 credit hours including the required applied project course (DNP 707).

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing the DNP. The program includes 1,170 practicum hours, exceeding the ANCC requirement.

Admission Requirements:

Applicants must submit the Division of Graduate Education online application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a bachelor's degree in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (4.00 = "A") or higher for any baccalaureate or graduate degree attained
- a current unencumbered license*
- satisfactory completion of the analytical writing section of the GRE
- three online recommendations from individuals knowledgeable about the applicant's academic and nursing leadership potential along with one self-evaluation submitted by the applicant
- an interview with a representative of the specialty area
- proof of English proficiency**

*If clinical practice will occur outside of Arizona, the student must have a current unencumbered license in the state where clinical practice will be conducted. If clinical practice will occur within Arizona, the student must have a current unencumbered Arizona license to practice as a registered nurse. All students must have current certification as an advanced practice nurse.

**Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency per the Division of Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools, if considered an international student.

Applicants must fulfill requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Degree Requirements: 84 credit hours and an applied project.

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 post-baccalaureate practicum hours for all students completing a DNP. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

Admission Requirements:

Applicants must submit a graduate admission online application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a bachelor's degree in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00, or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher for any baccalaureate or graduate degree attained
- a current unencumbered license*
- satisfactory completion of the analytical writing section of the GRE
- three online recommendations from individuals knowledgeable about the applicant's academic and nursing leadership potential and one self-evaluation submitted by the applicant
- an interview with a representative of the specialty area
- proof of English language proficiency**

*If clinical practice will occur outside of Arizona, the student must have a current unencumbered license in the state where clinical practice will be conducted. If clinical practice will occur within Arizona, the student must have a current unencumbered Arizona license to practice as a registered nurse. All students must have current certification as an advanced practice nurse.

**Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency per the Division of Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools, if considered an international student.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Advanced Nursing Practice (Innovation Leadership), DNP (NUANPILDNP)

Online Degree Search Title: Advanced Nursing Practice (Innovation Leadership) DNP

Campus: Downtown Phoenix

Program Description:

The DNP in advanced nursing practice with a concentration in innovation leadership, accredited by the Commission on Collegiate Nursing Education, is directed toward professional nurses who seek the scholarship, skills and capacity to lead effective change in systems, organizations and practice environments using innovation theories and methodologies as the frame for their leadership practice. This concentration focuses on improving health care through facilitating a culture of best practice and providing skills necessary to develop advanced practice nursing leaders for the future.

Graduates of this program will be able to facilitate the application and integration of research into clinical practice using innovative approaches across multiple settings to improve health care, patient outcomes and health care systems.

Degree Requirements: 84 credit hours including the required applied project course (DNP 712).

16 core credit hours

16 concentration credit hours

10 credit hours of electives or research courses

12 credit hours of capstone applied project (DNP 712 Clinical Residency and Management)

30 credit hours from a previously awarded master's degree

Admission Requirements:

Applicants will be reviewed on a space-available basis after the priority deadline. Please see program website for more information.

Applicants must submit an online graduate admission application.

Admission to Doctor of Nursing Practice degree program in the College of Nursing and Health Innovation is based upon the following requirements (details within the application):

- completion of a bachelor's degree in nursing from a nationally recognized, regionally accredited academic institution
- completion of a master's degree from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher for any graduate degree attained
- a current unencumbered RN license in the state in which the student plans to do clinical practicums*
- interview with program faculty
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- health and safety requirements: passing disposition on a background clearance and satisfactory completion of a substance screen
- proof of English language proficiency**

Required Admission Examinations: none

*All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

**An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency per the Division of Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Advanced Nursing Practice (Neonatal Nurse Practitioner), DNP (NUANPNDNP)

Online Degree Search Title: Neonatal Nurse Practitioner (DNP)

Campus: Downtown Phoenix

Program Description:

This program is designed for nurses seeking to become advanced practical nurses as neonatal nurse practitioners. Providing a foundation for this specialty are graduate courses in application of theory to advanced practice; application of evidence to advanced practice; advanced pathophysiology; advanced pharmacology and advanced health assessment. Advanced neonatal nursing theory and clinical courses focus on the development of a framework for developmentally supportive, family-centered, culturally appropriate advanced nursing practice with infants, children and families.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt will be made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student will be required to complete the clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

Degree Requirements: 84 credit hours including the required applied project course (DNP 707).

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a DNP. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

Advanced Nursing Practice (Pediatric Nurse Practitioner), DNP (NUANPPDNP)

Online Degree Search Title: Pediatric Nurse Practitioner (DNP)

Campus: Downtown Phoenix

Program Description:

This program, accredited by the Commission on Collegiate Nursing Education, is designed for nurses seeking to become advanced-practice nurses as nurse practitioners of pediatric patients. Providing a foundation for this specialty are graduate courses in application of theory to advanced practice; application of evidence to advanced practice; advanced pathophysiology; advanced health assessment and advanced pharmacology. Advanced pediatric nursing theory and clinical courses focus on the development of a framework for developmentally supportive, family-centered,

culturally appropriate advanced nursing practice with infants, children and families.

The DNP is offered in a hybrid and iCourse format that requires students to travel to campus for up to a week for orientation at the beginning of the program and then two or three times per semester (two or three one-day sessions), depending on the courses being taught.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt will be made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student will be required to complete the clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

Biospecimen Repository Administration (certificate), Certificate (NUBRAGRCT)

Online Degree Search Title: Biospecimen Repository Administration (Graduate Certificate)

Campus: Online

Program Description:

Biobanking has been called one of the top ideas that is changing the world. The collection, storage and distribution of biological samples such as blood and tissue for research and personalized medicine, is changing how researchers and doctors look at health, disease and treatments.

Biobanks, or biospecimen repositories, found in hospitals, research institutions, laboratories, academic sites, and pharmaceutical companies, need trained and capable leaders who can oversee the business, technical and operational aspects of biospecimen repository administration.

The biospecimen repository administration certificate program prepares students to oversee the business and administrative operations of a biospecimen repository. Focusing on collection, storage and disbursement of samples, the program includes ethical and practical considerations of biospecimen resource management and operations, resource evaluation and implementation, and project management. Related business concepts such as cost-benefit analytics, personnel and sustainability of the repository are also covered in the program. Emphasizing principles of ethical and quality practices, this program will prepare students to work in this highly regulated field.

Degree Requirements: 15 credit hours.

Required Courses: (15 credit hours)

HCR 545 Foundations of Bio-specimen Repository Administration (3)
HCR 546 Management of Bio-specimen Repository Operations (3)
HCR 547 Bio-specimen Resource and Technology Management (3)
HCR 548 Regulation and Ethics in Bio-specimen Repository Administration (3)
HCR 549 Scientific Innovation and Bio-specimen Repository Administration (3)

Admission Requirements:

Applicants must complete an online graduate admission application.

Degree: bachelor's degree in any business, science, engineering, nursing, medicine, math, technology or health-related field or a bachelor's degree in any other field (not mentioned above) with more than six months vocational experience in the biospecimen repository administration field.

GPA: minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program; a minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the applicable master's degree program

English Proficiency Requirement: An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Required Admission Examinations: None

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Care Coordination (certificate), Certificate (NUCRCDGRCT)

Online Degree Search Title: Care Coordination (Graduate Certificate)

Campus: Downtown Phoenix, West

Program Description:

The graduate certificate program in care coordination provides registered nurses with advanced preparation to provide effective, patient-centered care coordination services that improve health outcomes, enhance health care quality and reduce health care costs. Graduates are specialists who are able to synthesize innovation principles and best available evidence to lead interprofessional teams to design, deliver and evaluate care coordination practices that are patient centered; improve health, safety and cost outcomes; and enhance quality and access to care across diverse populations. This program supports preparation for national certification as a case manager through the American Nurses Credentialing Center or through the Case Management Society of America.

Degree Requirements: 15 credit hours.

Required Courses: (15 credit hours)

NUR 510 Foundations of Care Coordination Practice (3)

NUR 511 Concepts of Care Coordination and the Nurse's Role (3)

NUR 512 Improving Quality and Safety Outcomes through Effective Care Coordination (3)

NUR 513 Interprofessional Collaborative Practice and Transforming Health Care Policy (3)

NUR 519 Role-Focused Practicum: Care Coordination (3)

Admission Requirements:

Applicants must submit an online graduate admission application.

Admission to this certificate program is based upon the following requirements:

- completion of a bachelor's degree in nursing at a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 (scale is 4.00 = "A") or a cumulative GPA equal to 3.00 or higher for any graduate degree attained
- a current unencumbered RN license in the state in which the student plans to do clinical practicums*

Child and Adolescent Mental Health Intervention (certificate), Certificate (NUCAMHICE)

Online Degree Search Title: Child and Adolescent Mental Health Intervention Specialist (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The College of Nursing and Health Innovation at ASU offers the nation's first graduate certificate program for child and adolescent mental health intervention specialist. This innovative program is designed specifically for pediatric and family nurse practitioners, physicians and other interdisciplinary health care providers who desire to enhance their knowledge and skills in the assessment and management of common mental and behavioral health problems in children and adolescents. This graduate certificate curriculum is predominantly an online distance education program with two daylong visits to the ASU Downtown Phoenix campus for orientation and intensive learning.

Degree Requirements: 15 credit hours.

Nine credit hours of this program can be transferred into the college's post-master's child and family psychiatric mental health nurse practitioner program for those students desiring more depth in assessing and treating child and adolescent mental health problems as a child and family psychiatric mental health nurse practitioner.

Admission Requirements:

Applicants must submit an online graduate admission application.

- Applicants must either have an MS in nursing and work as a pediatric and family nurse practitioner or pediatric clinical nurse specialist or be a health-related professional (e.g., physician, social worker, physician assistant) with experience in child and adolescent behavioral and mental health.
- Current health care licensure in the applicant's state of residence is needed for admission to this certificate program.
- An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill both the requirements of the Division of Graduate Education and the College of Nursing and Health Innovation.

Clinical Research Management, MS (NUCRMMS)

Online Degree Search Title: Clinical Research Management (MS)

Campus: Online

Program Description:

The MS in clinical research management degree program prepares students to lead complex global clinical research operations in multiple types of employer settings in the rapidly growing clinical research industry. Graduates of the program will be qualified to fill specialized positions in clinical research operations. Potential employers include medical drug, device and product developers; governmental regulatory agencies; health care institutions; organizations conducting clinical research; academic medical institutions; and national and international contract research organizations.

The clinical research management program offers a transdisciplinary approach to education in the fiscal practices of conducting clinical research, the ethical and regulatory aspects of clinical research and the overall operational management of clinical drug, biological and medical device trials. The program is designed to be flexible, making it convenient for the adult learner.

Degree Requirements: 33 credit hours including the required capstone course (HCR 566).

Core: (12)

HCR 551 Clinical Research Monitoring (3)

HCR 564 Capstone Clinical Research Management Project (3) or HCR 552 Medical Device Approval and Regulation (3)

HCR 567 Research Management and Contemporary Research Topics (3)

HCR 574 Institutional Review Board (IRB) in Human Research (3)

Electives: (18)

Culminating experience: (3)

HCR 566 Capstone Clinical Research Management Project II (3)

Admission Requirements:

Admission requirements are as follows:

- submission of an online graduate admission application
- six months full-time, related clinical research work or internship experience demonstrated on applicant's resume or curriculum vitae (may be requested to submit employer job description or internship transcript)
- bachelor's degree that includes courses with content in anatomy and physiology and medical terminology, or bachelor's degree and evidence that the applicant has successfully completed additional courses in anatomy and physiology and medical terminology
- a minimum GPA of 3.00 (on a 4.00 scale) in the last 60 semester hours or 90 quarter hours of undergraduate course work or a cumulative GPA equal to 3.00 or higher for any undergraduate or graduate degree attained
- three online references from colleagues, supervisors or other professional contacts attesting to the applicant's academic and leadership experiences
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Family Nurse Practitioner (certificate), Certificate (NUFMPGRCE)

Online Degree Search Title: Family Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

This Commission on Collegiate Nursing Education-accredited certificate program is designed for nurses with a master's degree in nursing who seek to become family nurse practitioners or for nurse practitioners with a master's degree or DNP who seek additional certification as family nurse practitioners. This certificate program is offered in a hybrid iCourse and in-person format that requires students to travel to campus for up to a week for orientation at the beginning of the program, and then two or three times per semester (two or three one-day sessions), depending on the courses being taught.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt will be made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student will be required to complete the clinical experience in the Phoenix area. Rural health and experiences with disadvantaged and multicultural populations are encouraged, and sites are available for these experiences.

Degree Requirements: 22 credit hours.

This graduate certificate program (including 585 clinical hours) prepares nurses with their master's degree to become family nurse practitioners.

Prerequisites required or equivalent courses taken in master's program:

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)
DNP 608 Advanced Pharmacotherapeutics Across Lifespan (3)
DNP 609 Advanced Practice Nursing Role I (1)
DNP 610 Advanced Practice Nursing Role II (1)

Students will have an individual review of their transcripts and an individualized program of study designed to meet certification requirements. This may add up to one year of additional study to complete this certificate.

Admission Requirements:

Applicants must submit an online graduate admission application.

Admission to the Family Nurse Practitioner (graduate certificate) program in the College of Nursing and Health Innovation is based upon the following requirements:

- completion of a bachelor's degree in nursing from a nationally recognized, regionally accredited academic institution
- completion of a master's degree in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher for any graduate degree attained
- a current unencumbered RN license in the state in which the student plans to do clinical practicums*
- one year of clinical experience working within the student's specialty population is preferred
- interview with program faculty
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- health and safety requirements: passing disposition on a background clearance and satisfactory completion of a substance screen
- proof of English language proficiency**

Required Admission Examinations: none

*All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

**An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency per the Division of Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Family Psychiatric and Mental Health Nurse Practitioner (certificate), Certificate (NUPMNUPRCE)

Online Degree Search Title: Family Psychiatric and Mental Health Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

This Commission on Collegiate Nursing Education-accredited certificate program is designed for nurses with a master's degree in nursing who seek to become family psychiatric nurse practitioners or for nurse practitioners with a master's degree or DNP who seek additional certification a family psychiatric nurse practitioner. This certificate program is offered in a hybrid iCourse and in-person format that requires students to travel to campus for up to a week for orientation at the beginning of the program and then two or three times per semester (two or three one-day sessions), depending on the courses being taught.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt will be made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student will be required to complete the clinical experience in the Phoenix area. Rural health and experiences with disadvantaged and multicultural populations are encouraged, and sites are available for these experiences.

Degree Requirements: 28 credit hours.

This graduate certificate program (including 585 clinical hours) prepares nurses with a master's degree to become family psychiatric mental health nurse practitioners.

Prerequisites required or equivalent courses taken in master's program:

- DNP 604 Advanced Human Pathophysiology Lifespan (4)
- DNP 605 Advanced Health Assessment Across Lifespan (3)
- DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)
- DNP 609 and 610 Advanced Practice Nursing Role I and II (2)

Students will have an individual review of their transcripts and an individualized plan of study designed to meet certification requirements. Depending on how many prerequisite courses are completed in the master's degree program, up to one year of additional study may need to be added to complete this specialty.

Admission Requirements:

Applicants must submit an online graduate admission application.

Admission to the family psychiatric and mental health nurse practitioner graduate certificate program in the College of Nursing and Health Innovation is based upon the following requirements:

- completion of a bachelor's degree in nursing from a nationally recognized, regionally accredited academic institution
- completion of a master's degree in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher for any graduate degree attained
- a current unencumbered RN license in the state in which the student plans to do clinical practicums*
- one year of clinical experience working within the student's specialty population is preferred

- interview with program faculty
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- health and safety requirements: passing disposition on a background clearance and satisfactory completion of a substance screen
- proof of English language proficiency**

Required Admission Examinations: none

*All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

**An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency per the Division of Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Health Care Innovation, Certificate (NUHCINGRCT)

Online Degree Search Title: Health Care Innovation (Graduate Certificate)

Campus: Online

Program Description:

The health care innovation graduate certificate provides students with the cognitive and affective competencies to create and sustain transformative change in health care. The emerging field of health care innovation requires individuals who can lead and facilitate change. Students will learn through reflection, personality assessment, exercises in transdisciplinary team-case study analyses, system intervention, idea pitching and change-readiness assessment. Related entrepreneurial and intrapreneurial concepts such as prototyping, business plan or project plan design, budgeting and presentation skills are also covered in the program. Emphasizing complexity leadership and vulnerability along with emotional competence, this certificate will prepare students to work in this transdisciplinary and highly sought-after area.

Degree Requirements: 15 credit hours including the required capstone course (HCI 570).

Core (11)

HCI 538 Innovation and the Individual (3)

HCI 542 Systems Thinking in a Complex Environment (3)

HCI 554 Outcomes Evaluation (3)

HCI 561 Innovation Methods (2)

Culminating experience (4)

HCI 570 Capstone Course: Innovation Project (4)

Total required credit hours: 15

Admission Requirements:

Applicants must submit an online graduate admission application.

Degree: bachelor's degree in any health-related business, social science, hard science, health care practice or technology field

GPA: minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program; minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree program

English Proficiency Requirement: An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Required Admission Examinations: none

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Healthcare Innovation, MHI (NUHCINNMHI)

Online Degree Search Title: Healthcare Innovation (MHI)

Campus: Online

Program Description:

The MHI is the first degree of its kind in the country --- a transdisciplinary, fully online, asynchronous program that prepares students to lead transformation in health care.

Students will learn how to create and sustain cultures of innovation in health care from multiple perspectives: personal competence for innovation, use of evidence in decision-making, remodeling system infrastructures, financing, communication, entrepreneurship, technology and policy-making. Students will develop competence in the design, application and testing of innovative processes and products. A primary focus will be on preparing students to lead processes of innovation and transformation. Innovative thinking, planning, implementing and evaluation are emphasized throughout the program. The curriculum incorporates the latest trends in health care and is built upon collaboration with other professionals and faculty across diverse disciplines.

Graduates of the program will gain leadership skills to influence the future of health care and help transform and improve health care outcomes for consumers and communities.

Degree Requirements: 34 credit hours including the required capstone course (HCI 563).

Core: (26 credit hours)

HCI 538 Innovation and the Individual (3)

HCI 540 Understanding and Applying Principles of Evidence-Based Practice (3)

HCI 542 Systems Thinking in a Complex Environment (3)

HCI 544 IT for Healthcare Innovation (3)

HCI 548 Advanced Principles and Concepts of Innovation (3)

HCI 550 Healthcare Policy and Innovation (3)

HCI 552 Financing for Innovation (3)

HCI 554 Outcomes Evaluation (3)

HCI 561 Innovation Methods (2)

electives: (3 credit hours)

culminating experience: (5 credit hours)

HCI 563 Capstone: Final Innovation Project (5)

Admission Requirements:

Applicants must submit an online graduate admission application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- a bachelor's degree from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher for any baccalaureate or graduate degree attained
- three professional recommendations from individuals knowledgeable about the applicant's academic and leadership potential
- submission of a personal statement and essays along with a current resume
- proof of English proficiency*

International Health for Healthcare Professionals (certificate), Certificate (NUHCRGRCI)

Online Degree Search Title: International Health for Healthcare Professionals (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The international health for health care professionals graduate certificate prepares health care personnel to meet the global health challenges of the 21st century. Students receive comprehensive education in the promotion of holistic, culturally responsive, evidence-based care within and outside the U.S.

Course content includes the provision of care in the presence and absence of natural (e.g., earthquakes) and human-made disasters (e.g., war), the spread of chronic and infectious diseases, economic and political issues, and other factors that pose substantial challenges to world health promotion and disease prevention.

This graduate certificate is offered as a part- or full-time hybrid online distance program that includes two day-long visits to the ASU Downtown Phoenix campus and a capstone immersion experience.

Admission Requirements:

Applicants must submit an online graduate admission application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- undergraduate-prepared nurse or health-related professional (e.g., social worker, physician, psychologist, dentist) with a baccalaureate or graduate degree from a nationally or internationally recognized and regionally accredited academic institution, or equivalent
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher for any baccalaureate or graduate degree attained
- professional license in the state where the individual capstone project will be conducted, if required (e.g., RN, NP, MSW, PA or MD)
- resume or curriculum vitae
- email addresses of three professional references (not friends or relatives) who will be contacted for completion of online recommendations*
- fingerprint clearance or proof of application for U.S. citizens and applicants with permanent U.S. resident status
- photocopy of current, valid passport
- proof of English proficiency**

*References will be contacted by the Division of Graduate Education, with a request to complete a reference questionnaire.

**An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Nursing (Care Coordination), MS (NUCRCDMS)

Online Degree Search Title: Nursing (Care Coordination), MS

Campus: Downtown Phoenix, West

Program Description:

The MS program in nursing with a concentration in care coordination provides registered nurses with advanced preparation to translate and apply effective patient-centered care coordination services that improve health outcomes, enhance health care quality and reduce health care costs.

Graduates are specialists able to: synthesize innovation principles and best available evidence to lead interprofessional teams to design, deliver and evaluate care coordination practices that are patient-centered; improve health, safety and cost outcomes; and enhance quality and access to care across diverse populations. This program supports preparation for national certification as a case manager through the American Nurses Credentialing Center or through the Case Management Society of America.

Degree Requirements: 35 credit hours including the required Applied Project Course (NUR 593).

Required Core Courses: (15 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)

DNP 602 Evaluating Research for Practice (3)

NUR 501 Innovation Leadership and Role Development (3)

NUR 502 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics for Health Promotion I (3)

NUR 503 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics for Health Promotion II (3)

Required Concentration Courses: (12 credit hours)

NUR 510 Foundations of Care Coordination Practice (3)
NUR 511 Concepts of Care Coordination and the Nurse's Role (3)
NUR 512 Improving Quality and Safety Outcomes through Effective Care Coordination (3)
NUR 513 Interprofessional Collaborative Practice and Transforming Health Care Policy (3)

Other Requirement: (5 credit hours)

NUR 509 Clinical Prevention and Population Health Practicum (2)
NUR 519 Role-Focused Practicum (3)

Culminating Experience: (3 credit hours)

NUR 593 Applied Project (3)

Admission Requirements:

Applicants must submit an online graduate admission application. Admission to the MS nursing (care coordination) program in the College of Nursing and Health Innovation is based upon the following requirements:

- completion of a bachelor's degree in nursing at a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher for any graduate degree attained
- a current unencumbered RN license in the state in which the student plans to do clinical practicums*

Nursing (Community Health Advanced Practice Nursing), MS (NUCHNDTMS)

Online Degree Search Title: Community Health Nursing (MS)

Campus: Downtown Phoenix

Program Description:

The community health nursing graduate program provides theoretical and practical foundations for advanced practice in community and public health nursing in public or private sector health care settings. Graduate courses in nursing theory, research, epidemiology and biostatistics provide a foundation for practice in community and public health nursing. By combining public and community health theory with nursing theory and research, the community health nurse considers all influences on the population and community in decision-making and outcome evaluation. The major focus in this specialty area is on utilizing public health sciences and skills in the assessment of communities and populations, policy development, program planning, effective communication and the impact of cultural influences on health. The graduate in community and public health is actively engaged in education (e.g., community, staff, students and colleagues), case management, expert clinical practice, consultation, research and administration.

Degree Requirements: 45 credit hours including the required applied project course (NUR 593).

The practicum and internship requirements include 540 clock hours. At the completion of the program, students are eligible to take the American Nurses Credentialing Center exam for national certification as an advanced public health nurse.

Admission Requirements:

Applicants must submit an online graduate admission application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a bachelor's degree in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (scale is 4.00=A) or higher for any undergraduate or graduate degree attained
- a current unencumbered license in the state where internship or practicum will be conducted or an unencumbered Arizona license to practice as a registered nurse to enroll in nursing practicum courses
- satisfactory completion of the analytical writing section of the GRE
- three online recommendations from individuals knowledgeable about the applicant's academic and nursing leadership potential and one self-evaluation submitted by the applicant
- an interview with the program faculty
- proof of English proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency per the Division of Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Nursing (Patient Safety and Health Care Quality), MS (NUPSHCMS)

Online Degree Search Title: Nursing (Patient Safety & Health Care Quality), MS

Campus: Downtown Phoenix, West

Program Description:

The MS in nursing patient safety and health care quality degree program provides registered nurses with advanced preparation to translate and apply concepts, practices and principles of safety and improvement science to enhance safety and quality of patient care.

Graduates are specialists able to: synthesize innovation principles and best available evidence to develop interventions for implementation; and, lead interprofessional teams to design, deliver, and evaluate safety and quality improvement efforts that are patient-centered, minimize risk and improve outcomes across diverse practice settings. This program supports preparation for national certification as a certified professional in health care quality and as a certified patient safety officer.

Degree Requirements: 35 credit hours including the required Applied Project Course (NUR 593).

Required Core Courses: (15 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)

DNP 602 Evaluating Research for Practice (3)

NUR 501 Individual and Innovation Leadership in Advanced Nursing Practice Role (3)

NUR 502 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics I (3)

NUR 503 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics II (3)

Required Concentration Courses: (12 credit hours)

NUR 520 Patient Safety and Health Care Quality Principles, Assessment and Methods (3)

NUR 521 Healthcare Evidence, Informatics and Analysis (3)

NUR 522 Designing Systems for Patient Safety and Healthcare Quality (3)

NUR 523 Interprofessional Collaboration for Improving Patient Safety and Healthcare Quality Outcomes (3)

Other Requirements: (5 credit hours)

NUR 509 Clinical Prevention and Population Health Practicum (2)

NUR 529 Role-Focused Practicum: Patient Safety and Healthcare Quality (3)

Culminating Experience: (3 credit hours)

NUR 593 Applied Project (3)

Admission Requirements:

Admission to the MS nursing (patient safety and health care quality) program in the College of Nursing and Health Innovation is based upon the following requirements:

- completion of a bachelor's degree in nursing at a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher for any graduate degree attained
- a current unencumbered RN license in the state in which the student plans to do clinical practicums*
- interview with program faculty
- three professional letters of recommendation
- resume
- goal statement
- health and safety requirements: passing disposition on a background clearance and satisfactory completion of a substance screen
- proof of English language proficiency**

Required Admission Examinations: none

*All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

**An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency per Division of Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Nursing and Healthcare Innovation, PHD (NUNHIPHD)

Online Degree Search Title: Nursing and Healthcare Innovation (PhD)

Campus: Downtown Phoenix

Program Description:

The PhD degree program in nursing and health care innovation is designed for scholars who wish to pursue careers as leaders in health policy, education and research. This degree will also help to address a national need for faculty and researchers, who are increasingly in short supply.

This program is offered in traditional on-site delivery format and innovative synchronous online delivery, designed to maintain our commitment to a highly mentored, interactive learning experience. Several different modalities are used to enhance the student's learning, including multimedia presentations, asynchronous discussion boards and live chats.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Up to 30 credit hours from a previously awarded master's degree may count toward this requirement. Twelve credit hours are required in a substantive area of specialization and may be taken in any semester, based on availability and student interest. Twenty-four credit hours of course work with a research focus are required, including 12 hours of dissertation credit.

Students are required to enroll in a minimum of nine credit hours per semester for years one and two of their plan of study. The plan of study can be as broad or as narrow as the student and the supervisory program committee deem necessary for the student's career goals. Students may choose from the following five substantive areas of study:

- aging
- education
- health care innovation leadership
- healthy families
- world health

The program may incorporate courses from other disciplines to further refine substantive areas of study.

Admission Requirements:

Applicants must submit an online graduate admission application. Admission to the doctoral program in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a bachelor's degree or master's degree in nursing or a related field from a nationally recognized, regionally accredited academic institution
- a cumulative undergraduate GPA of at least 3.00 or a cumulative graduate GPA of at least 3.50 (scale is 4.00 = "A")
- submission of a current resume, goal statement essay and a writing sample
- completion of a current inferential statistics prerequisite course
- GRE scores are recommended, but not required
- proof of English proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Students are admitted once a year, to start in the fall semester.

Nursing Informatics (Certificate), Certificate (NUNINFGRCT)

Online Degree Search Title: Nursing Informatics (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The Graduate Certificate in Nursing Informatics provides registered nurses with advanced preparation to integrate technologic expertise and data management skills in healthcare settings to improve access to health care, enhance health care quality and safety, and reduce health care costs.

Graduates are specialists able to: manage nursing and health informatics systems; create systems for planning, implementing and evaluating nursing and health information systems; appraise data management and health care technology systems for clinical implementation; and participate in the design of innovative nursing and health information systems to enhance evidence-based practice. This certificate supports preparation for national certification in Informatics (RN-BC) and Certified Professionals in Health Information and Management Systems (CPHIMS).

Degree Requirements: 15 credit hours, or 15 credit hours.

Core (15)

BMI 601 Fundamentals of Health Informatics (3)

BMI 603 Health Informatics Database Modeling and Applications (3)

NUR 530 Foundational Concepts for Nursing Informatics (3)

NUR 531 Advanced Concepts in Nursing Informatics (3)

NUR 539 Role-Focused Practicum: Nursing Informatics (3)

Total credit hours: 15

Admission Requirements:

Applicants must submit an online graduate admission application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a bachelor's degree in nursing at a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher for any baccalaureate or graduate degree attained
- current unencumbered license*
- three online recommendations from individuals knowledgeable about the applicant's academic potential and a self-assessment form submitted by the applicant
- an interview with program faculty
- proof of English language proficiency**

*If clinical practice will occur outside of Arizona, the student must have a current unencumbered license in the state where clinical practice will be conducted. If clinical practice will occur within Arizona, the student must have a current unencumbered Arizona license to practice as a registered

nurse.

**Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency per the Division of Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Regulatory Science and Health Safety, MS (NURSHSMS)

Online Degree Search Title: Regulatory Science and Health Safety (MS)

Campus: Downtown Phoenix

Program Description:

The MS in regulatory science and health safety is designed to prepare students for careers in the field of regulatory affairs. The aim of the program is to instruct students about the development and commercialization of medical drugs, devices and other regulated products. The program will focus on safety as a fundamental aspect of regulatory science, and on leadership development. The program uses a transdisciplinary approach to meet the unique needs of regulating bodies and the regulated industry. It encompasses course work in clinical research, ethics, quality systems, quantitative methods and statistics, leadership and project management in the regulatory field. Students will develop skills that incorporate an evidence-based approach to decision-making, clinical research, regulations and the evaluation of the safety of health products, including drugs, medical devices and nutritional products. They will also develop leadership and project management skills.

Admission Requirements:

Applicants must submit an online graduate admission application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- a bachelor's degree from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00, or a cumulative GPA equal to 3.00 (scale is 4.00 = "A") or higher from any undergraduate or graduate degree attained
- three online recommendations from individuals knowledgeable about the applicant's academic and leadership potential
- proof of English proficiency*

*Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Nursing and Health Innovation.

Public Service and Community Solutions, College of

Assessment of Integrative Health Modalities (certificate), Certificate (PPSWGGRCH)

Online Degree Search Title: Assessment of Integrative Health Modalities (Grad Certificate)

Campus: Downtown Phoenix

Program Description:

The School of Social Work graduate certificate program in assessment of integrative health modalities will focus on integrative health, the current term used by practitioners in the field who feel strongly that treating the whole person --- body, mind and spirit --- is the route to the highest quality of health.

The purpose of the certificate is to enhance students' knowledge of integrative health practices. It will provide students with extensive knowledge of integrative health practices through directed readings in evidence-based journal articles, expert lectures from community health professionals and ASU faculty drawn from across disciplines, field observation, an individual research paper and a mindfulness in-class practice and class interaction that can enhance the quality and effectiveness of treating clients holistically.

Degree Requirements: 15 credit hours.

The certificate will require the completion of credit hours distributed among three required courses, including two approved transdisciplinary electives:

SWG 655 Quality of Life (3)

SWG 656 Treating the Whole Person (3)

SWG 657 Ancient Healing Traditions (3)

In addition, after the completion of three approved courses and prior to completing the last course of the program, students are required to complete a research project highlighting their certificate experience.

Admission Requirements:

Students interested in applying to this program must submit the online graduate admission application, official transcripts (if not on file with ASU), and application fee. An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

In addition, applicants are required to submit to the School of Social Work:

- a resume
- a one- to two-page statement
- the School of Social Work application to the assessment of integrative health modalities certificate program

No more than two certificate courses may be completed before applying for admission to the certificate program.

This certificate is open to professionals in social work, nursing or related health and human service professions from the community as well as to students currently admitted to a health and human services degree program at the master's or doctoral level. A minimum of a bachelor's degree in health or human services or a related field is required for entry into the certificate program.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Community Resources and Development, MS (PPRECDTMS)

Online Degree Search Title: Community Resources and Development (MS)

Campus: Downtown Phoenix

Program Description:

The MS in community resources and development is offered by the School of Community Resources and Development. The master's degree program prepares students to analyze and understand critical topics and issues pertinent to the fields of tourism, parks and recreation management, nonprofits and nongovernmental organizations, and sustainable communities.

Students choose between two academic options: the thesis or the professional option.

Degree Requirements: 30 credit hours and a thesis, or 36 credit hours and a master's research paper.

Completion of the master's degree in community resources and development requires two years of study, on the average. Students may select a thesis or professional option. The thesis option is a research-oriented program and is recommended for students planning to continue graduate studies beyond the master's degree. The professional option is intended for students seeking additional knowledge and expertise relevant to professional career development. Advising and direction in both options are under the direct supervision of an assigned faculty member.

Program Requirements: Thesis Option

The thesis option consists of a minimum of 30 credit hours, including six credit hours of thesis, which must be defended in an oral examination before a supervisory committee of at least three faculty members, one of whom resides in another department.

CRD 500 Research Methods (3)

CRD 502 Statistical and Data Analysis (3)
CRD 552 Critical Issues in Recreation and Tourism (3)
CRD 555 Theoretical Perspectives in Community Development (3)
CRD 599 Thesis (6)
advanced inquiry (3)
electives (9)

Program Requirements: Professional Option

The professional option consists of 36 credit hours, including six credit hours of practicum. A signed affiliation agreement is required to be on file with the graduate coordinator before registration. The purpose of the 300 hour practicum is to provide graduate students with in-depth, agency-based professional experiences. The student committee consists of two school faculty members and one community or agency professional. At the end of the practicum, the student is required to submit a written description and analysis of the project and to present the results to the committee.

CRD 500 Research Methods (3)
CRD 502 Statistical and Data Analysis (3)
CRD 530 Recreation and Tourism Service Management (3)
CRD 552 Critical Issues in Recreation and Tourism (3)
CRD 555 Theoretical Perspectives in Community Development (3)
CRD 580 Practicum (6)
electives (15)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Nonprofit Leadership and Management, BS
- Parks and Recreation Management, BS
- Parks and Recreation Management (Therapeutic Recreation), BS
- Tourism Development and Management, BS
- Tourism Development and Management (Resort and Hotel Leadership), BS
- Tourism Development and Management (Sustainable Tourism), BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Students applying to the master's degree program must have achieved a GPA of 3.00 (on a 4.00 scale) or the equivalent in the last two years of work leading to the bachelor's degree. Please see the program website for application deadlines.

Applicants should submit the following items:

- all undergraduate transcripts
- an online graduate admission application
- application fee
- statement of professional and academic goals
- GRE scores
- three letters of recommendation
- current resume
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Only complete application files are reviewed or considered for admission. Students without undergraduate academic work in related disciplines are required to take six credit hours of deficiency course work in addition to the master's degree requirements. Deficiency course work may be taken in conjunction with master's degree classes.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Community Resources and Development, PHD (PPCRDPHD)

Online Degree Search Title: Community Resources and Development (PhD)

Campus: Downtown Phoenix

Program Description:

The School of Community Resources and Development offers a graduate program leading to the PhD in community resources and development.

The doctoral program in community resources and development is a theoretically grounded, research-intensive degree program designed to prepare graduates for research-oriented careers in higher education, governmental agencies, nonprofit organizations and private-sector businesses. The program is based on the concept of building sustainable and healthy communities as the unifying principle in the established focus areas of:

- community studies
- nonprofit leadership and management
- parks, recreation and leisure
- tourism development and management

The theoretical and methodological approaches embedded in this program serve to integrate scholarship in these areas, in order to gain a more meaningful understanding of and impact on community life and dynamics. The program is transdisciplinary in nature. The core faculty engaged in this program is housed in the School of Community Resources and Development at the Downtown Phoenix campus. In addition, the program builds on current collaborations with faculty with related research interests from many ASU departments, schools and centers.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Up to 30 hours from a previously awarded master's degree can count toward the doctoral requirements.

All students are advised initially by the doctoral program director as a cohort. Students are required to take 24 credit hours of core course work, 15 hours of which are with the cohort during the first year and six hours of which are with the cohort during the second year. Students are assigned an individual advisor or mentor at the end of the first year of study. A supervisory committee is also formed at the end of the first year which reflects the interests of the student and faculty.

Each student develops a plan of study in consultation with the doctoral program coordinator, advisor and supervisory committee. Students complete at least 12 credit hours of elective course work, including courses from contributing disciplines, selected in consultation with their advisor to foster the transdisciplinary nature of the degree program. Students also complete at least six credit hours of CRD 792 Research and 12 credit hours of CRD 799 Dissertation. When the majority of course work has been completed and before dissertation research is started, students must complete a written examination followed by an oral examination. These examinations must be completed within five years of admission.

Admission Requirements:

Applicants must submit an online graduate application. Applications are reviewed by the admission committee and recommendations for admission are then made by the graduate program director to the dean for the Division of Graduate Education. Minimum Division of Graduate Education requirements must be met. Additionally, each applicant must provide:

- a current and professional resume
- a statement of academic and professional goals in sufficient detail to indicate compatibility with the educational objectives and capabilities of the doctoral program
- GRE test scores
- Test of English as a Foreign Language (TOEFL) scores*
- three letters of recommendation**

*International applicants are also required to submit Test of English as a Foreign Language (TOEFL) scores and a financial guarantee statement. An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

**The letters may be a mix of academic and professional references, but each must address the applicant's capacity to successfully complete the doctoral program.

Please see the program website for application deadlines and admission terms.

Students applying to the program are expected to have a master's degree (from an accredited institution) which included a master's degree-level research methods and statistics class or classes. If deficiencies exist in community resource and development-related course work at the master's degree level, appropriate classes are suggested.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

The thesis option is a research-oriented program and is recommended for students planning to continue graduate studies beyond the master's degree. The professional option is intended for students seeking additional knowledge and expertise relevant to professional career development. Advising and direction in both options are under the direct supervision of an assigned faculty member.

Program Requirements: Thesis Option

The thesis option consists of a minimum of 30 credit hours, including six credit hours of thesis, which must be defended in an oral examination before a supervisory committee of at least three faculty members, one of whom resides in another department.

CRD 500 Research Methods (3)
CRD 502 Statistical and Data Analysis (3)
CRD 552 Critical Issues in Recreation and Tourism (3)
CRD 555 Theoretical Perspectives in Community Development (3)
CRD 599 Thesis (6)
CRD 610 Sustainable Communities (3)
electives (3)
advanced inquiry (3)

Select one:

NLM 562 Social Entrepreneurship (3)
NLM 572 Community and Social Innovations (3)

Program Requirements: Professional Option

The professional option consists of 36 credit hours, including six credit hours of capstone course CRD 580 Practicum. A signed affiliation agreement is required to be on file with the graduate coordinator before registration. The purpose of the 300 hour practicum is to provide graduate students with in-depth, agency-based professional experiences. The student committee consists of two school faculty members and one community or agency professional. At the end of the practicum, the student is required to submit a written description and analysis of the project and to present the results to the committee.

NLM 572 Community and Social Innovations (3)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Parks and Recreation Management, BS
- Parks and Recreation Management (Therapeutic Recreation), BS
- Tourism Development and Management, BS
- Tourism Development and Management (Resort and Hotel Leadership), BS
- Tourism Development and Management (Sustainable Tourism), BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Students applying to the master's degree program must have achieved a GPA of 3.00 (scale is 4.00 = "A") or the equivalent in the last two years of work leading to the bachelor's degree.

Please see the program website for application deadlines. Applicants should submit the following items to Graduate Admission Services:

- an online graduate admission application
- all undergraduate transcripts
- application fee
- statement of professional and academic goals
- GRE scores
- three letters of recommendation
- current resume
- proof of English proficiency*

*An applicant whose native language is not English (regardless current residency) must provide proof of English proficiency.

Only complete application files are reviewed or considered for admission. Students without undergraduate academic work in related disciplines are required to take six credit hours of deficiency course work in addition to the master's degree requirements. Deficiency course work may be taken in conjunction with master's degree classes.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Community Resources and Development (Tourism), MS (PPCRDTMMS)

Online Degree Search Title: Community Resources and Development (Tourism)

Campus: Downtown Phoenix

Program Description:

The MS in community resources and development (tourism concentration) is offered by the School of Community Resources and Development at ASU's Downtown Phoenix campus. This master's degree program is research-oriented. It is designed to prepare graduates for careers in governmental agencies, nonprofit organizations and private-sector businesses by teaching them to analyze and understand critical topics and issues pertinent to the fields of tourism, parks and recreation management, nonprofits and nongovernmental organizations, and sustainable communities.

Degree Requirements: 30 credit hours and a thesis, or 36 credit hours including the required capstone course (CRD 580).

Completion of the master's degree program in community resources and development requires two years of study, on the average. Students may select a thesis or professional option. The thesis option is a research-oriented program and is recommended for students planning to continue graduate studies beyond the master's degree. The professional option is intended for students seeking additional knowledge and expertise relevant to professional career development. Advising and direction in both options are under the direct supervision of an assigned faculty member.

Program Requirements: Thesis Option

The thesis option consists of a minimum of 30 credit hours, including six credit hours of thesis, which must be defended in an oral examination before a supervisory committee of at least three faculty members, one of whom resides in another department.

Corrections Management (Certificate), Certificate (PPCMGGRCT)

Online Degree Search Title: Corrections Management (Grad Certificate)

Campus: Online

Program Description:

The graduate certificate program in corrections management provides course work in criminal justice organizations, corrections and community supervision, institutional management and in cross-disciplines such as public administration. The certificate is designed to give students a solid foundational understanding of correctional administration, leadership and policy analysis.

Degree Requirements: 15 credit hours.

Required Courses: 12 credit hours

CRJ 514 Seminar in Corrections (3)
CRJ 516 Seminar in Criminal Justice Organization and Management (3)
CRJ 528 Prison and Jail Administration OR
CRJ 529 Community Corrections (3)
PAF 520 Public Management (3)

Electives: 3 credit hours

CRJ 515 Seminar on Women and Crime (3)
CRJ 517 Seminar on Juvenile Delinquency and Justice (3)
CRJ 518 Seminar on Race/Ethnicity, Crime and Justice (3)
CRJ 519 Seminar on Victimization (3)
CRJ 520 Seminar on Violent Crime (3)
CRJ 521 Seminar on Nature of Crime (3)
CRJ 522 Seminar on Gangs and Crime (3)
CRJ 524 Seminar on Punishment and Society (3)
CRJ 525 Seminar on Life Course Criminology (3)
CRJ 598 ST: Crime Mapping (3)
CRJ 598 ST: Criminal Justice Ethics (3)
CRJ 598 ST: Death Penalty (3)
CRJ 598 ST: Ecology of Crime (3)
CRJ 598 ST: Forensics (3)
CRJ 598 ST: Politics of Criminal Justice Policymaking (3)
CRJ 598 ST: Sex Offenders and Sex Crimes (3)

Culminating Experience: None Required.

Admission Requirements:

Please see the program website for application deadlines and admission terms. Potential applicants must meet all the Division of Graduate Education admission requirements and submit all materials online through the graduate admission application.

Degree: Applicants who hold a bachelor's degree from a regionally accredited institution are eligible to apply to the program. Students from related fields, such as public policy, political science, psychology, sociology, as well as other social science degrees, might be interested in this program; however, all eligible students will be considered. Although most students would most likely come from the aforementioned degree fields, there is no specific undergraduate degree major required for admission; the school will accept applicants with undergraduate degrees from all educational backgrounds.

GPA: Regular admission may be granted to applicants who have achieved a GPA of 3.00 or better (on a 4.00 scale) in the last two years of course work leading to a bachelor's degree.

For nondegree-seeking students (those not admitted to a graduate degree program at ASU): Applicants will be required to submit:

- an official ASU graduate online application
- official transcripts of undergraduate and graduate (if applicable) course work
- a written statement of career and educational goals

For graduate degree-seeking students (those admitted to a graduate program at ASU): Applicants will be required to submit:

- an official ASU graduate online application
- a written statement of career and educational goals

Required Admission Examinations: None required.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Criminal Justice, MA (PPCRIMJMA)

Online Degree Search Title: Criminal Justice (MA)

Campus: Online

Program Description:

The MA program in criminal justice is designed to provide criminal justice agency professionals with course work in criminology and the operation of the criminal justice system, and training in research methods and statistics. The degree program also provides students with advanced training in program planning and management, policy analysis and program evaluation.

Degree Requirements: 33 credit hours including the required capstone course (CRJ 505).

The program includes 12 credit hours of required core courses, 18 credit hours of electives and a three credit hour capstone project. Students can develop specializations in areas such as policing, corrections and management by combining required and elective course work.

Core Courses:

CRJ 501 Seminar in Criminal Justice (3)

CRJ 502 Seminar in Criminology (3)

CRJ 510 Criminal Justice Planning and Program Evaluation (3)

CRJ 511 Applied Data Analysis in Criminal Justice (3)

Electives (18)

Students select a minimum of 18 hours of 500 level elective course work:

CRJ 512 Seminar on Policing (3)

CRJ 513 Seminar on Courts and Sentencing (3)

CRJ 514 Seminar in Corrections (3)

CRJ 515 Seminar on Women and Crime (3)

CRJ 516 Seminar in Criminal Justice Organization and Management (3)

CRJ 517 Seminar on Juvenile Delinquency and Juvenile Justice (3)

CRJ 518 Seminar on Race/Ethnicity, Crime and Justice (3)

CRJ 519 Seminar on Victimization (3)

CRJ 520 Seminar on Violent Crime and Criminal Behavior (3)

CRJ 521 Seminar on the Nature of Crime (3)

CRJ 522 Seminar on Gangs and Crime (3)

CRJ 524 Seminar on Punishment and Society (3)

CRJ 525 Seminar on Life-Course Criminology (3)

CRJ 584 Internship (3)

CRJ 598 Special Topics on Crime and Criminal Justice (3)

Capstone Course:

Accelerated Degrees:

This degree is also offered as an accelerated degree with Criminal Justice and Criminology, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Students must submit an online graduate admission application, an official transcript from every university or institution attended and the application fee.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Please see the graduate admission website for specific application deadlines.

In addition to the application material required by the Division of Graduate Education, applicants must submit:

- two letters of recommendation
- a personal statement that addresses the applicant's prior education and professional experience, discusses the applicant's career goals and explains how the degree will help the applicant achieve those goals
- a resume

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Criminal Sentencing and Sentencing Advocacy (Certificate), Certificate (PPCSAGRCT)

Online Degree Search Title: Criminal Sentencing and Sentencing Advocacy (Graduate Certificate)

Campus: Online

Program Description:

Social workers and other criminal justice professionals perform a number of roles in the disposition and sentencing of various offenders and in the provision of services to victims. The certificate program provides social workers with the kinds of knowledge and skills required to practice as mitigation specialists. This is a burgeoning area of practice in the field of social work. It also provides criminal justice majors with exposure to classes on topics dealing with treatment alternatives and mental health concerns that are not currently available to students in many traditional criminal justice programs.

Degree Requirements: 15 credit hours.

Required Courses: (9 credit hours)

CRJ 513 Seminar in courts and sentencing (3)

SWG 528 Presentence Investigations (3)

SWG 529 Alternatives to Penal Sanctions (3)

Electives: (6 credit hours; choose two)

CRJ 518 Seminar on Race/Ethnicity and Crime Issues (3)

CRJ 519 Seminar on Victimization (3)

CRJ 524 Seminar on Punishment and Society (3)

CRJ 598 Seminar in Death Penalty (3)

SWG 526 Seminar on Mental Health for Sentencing Professionals (3)
SWG 527 Seminar on Mitigation in Death and Life Cases (3)

Admission Requirements:

Applicants must complete the online graduate admission application.

Degree: bachelor's degree in social work, criminal justice or related field; or individuals who are currently in the master of criminal justice program; or individuals who have an advanced degree in social work, criminology or criminal justice

GPA: minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program; minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree program

English Proficiency Requirement: An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Required Admission Examinations: None required

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Criminology and Criminal Justice, MS (PPCRJMS)

Online Degree Search Title: Criminology and Criminal Justice (MS)

Campus: Downtown Phoenix

Program Description:

The MS in criminology and criminal justice is a research degree program designed to provide students with a high level of theoretical and empirical knowledge about crime and criminal justice. The program also is designed to provide students with the advanced research skills needed for careers as criminal justice researchers and continued study in doctoral programs in criminology or criminal justice.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required capstone course (CRJ 505).

Thesis Option:

To satisfy the thesis requirements for the degree, candidates must write a thesis and defend it in an oral examination conducted by the student's thesis committee.

Core: (12 credit hours)

CRJ 501 Seminar in Criminal Justice (3)
CRJ 502 Seminar in Criminology (3)
CRJ 503 Research Methods for Criminal Justice (3)
CRJ 504 Statistical Tools for Criminal Justice (3)

Other Requirement: (3 credit hours)

CRJ 604 Advanced Statistical Analysis (3)

Electives (9 credit hours)

Culminating Experience: (6 credit hours)

CRJ 599 Thesis (6)

Non Thesis Option:

Core: (12 credit hours)

CRJ 501 Seminar in Criminal Justice (3)

CRJ 502 Seminar in Criminology (3)

CRJ 503 Research Methods for Criminal Justice (3)

CRJ 504 Statistical Tools for Criminal Justice (3)

Electives (15 credit hours)

Culminating Experience: (3 credit hours)

Capstone Course: CRJ 505 Theory and Practice in Criminal Justice (3)

Each student's program is designed in consultation with the faculty advisor.

A maximum of three hours of CRJ 590 may be included on the plan of study.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

Public Administration (MPA) - Downtown Phoenix

Public Policy (MPP)

Accelerated Degrees:

This degree is also offered as an accelerated degree with Criminal Justice and Criminology, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Students must submit an online graduate application for admission, an official transcript from every university or institution attended, GRE scores and the application fee to Graduate Admission Services.

Please see the program website for application deadlines.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

In addition to the application material required by Graduate Admission Services, applicants must submit two letters of recommendation and a personal statement that addresses the applicant's prior education and professional experience, discusses the applicant's career goals and explains how the degree will help the applicant achieve these goals.

Personal statement and letters of recommendation should be submitted online.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Criminology and Criminal Justice, PHD (PPCRJPHD)

Online Degree Search Title: Criminology and Criminal Justice (PhD)

Campus: Downtown Phoenix

Program Description:

The School of Criminology and Criminal Justice at Arizona State University offers a program of course work and research leading to the PhD in

criminology and criminal justice. This program emphasizes criminal justice theory, research and policy. The program is designed to produce highly skilled criminology and criminal justice faculty and agency researchers and administrators.

The doctoral program is organized around five components:

- a comprehensive examination
- a core of required courses in theory and research on crime and the criminal justice system
- a core of required courses on research methods and analytical techniques
- a dissertation
- elective courses in criminology, criminal justice and related fields

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The doctoral program in criminology and criminal justice includes a minimum of 72 credit hours of course work and 12 credit hours (and only 12) of dissertation. A maximum of 30 credit hours of course work from a previously awarded master's degree or JD may, with the approval of the supervisory committee, be applied toward the doctoral plan of study.

Each student is required to complete course work in two core areas. This includes six credit hours of course work in theory and research on crime and the criminal justice system and nine credit hours of course work on research methods and analytical techniques. Elective courses comprise the remainder of the course work required for the doctorate. All students must demonstrate proficiency in research design and quantitative and qualitative methods.

Credit hours for course work from master's degree or JD (30)

Core courses:

- CRJ 601 Seminar on Criminological Theory (3)
- CRJ 602 Seminar on Criminal Justice Policies and Practices (3)
- CRJ 603 Advanced Research Design (3)
- CRJ 604 Advanced Statistical Analysis (3)
- CRJ 605 Special Problems in Quantitative Methods (3)

Electives: Choose a minimum of nine courses in consultation with the supervisory committee (27)

Dissertation (12)

Admission Requirements:

Students must submit an online graduate admission application, an official transcript from every university or institution from which a degree was awarded, GRE scores, and the application fee to Graduate Admission Services.

Please see the program website for application deadlines and admission terms.

In addition to these basic requirements established by the Division of Graduate Education, the School of Criminology and Criminal Justice requires the following:

- An applicant must hold a master's degree from an accredited institution; it may be in criminal justice, criminology or another field (e.g., sociology, political science, history, social work, public administration, psychology or philosophy).
- An applicant must submit two letters of reference from faculty members or others qualified to evaluate the applicant's academic potential for doctoral study.
- An applicant must submit their resume.
- An applicant must submit a personal statement, not exceeding five pages, that describes the applicant's prior education, relevant professional experience and career goals. The statement must explain how the doctorate in criminology and criminal justice will help the applicant attain his or her career goals. The statement should explicitly explain how the student's plans are consistent with the role and mission of the School of Criminology and Criminal Justice at ASU.
- International students seeking admission to the program must meet ASU graduate faculty requirements governing the admission of international students, which can be found at <https://students.asu.edu/graduate/international> (<https://students.asu.edu/graduate/international>).
- A sample of the applicant's written work should be submitted electronically. The writing sample may be an article (published or unpublished), a research paper, or any other extended sample of expository skill, and the sample must be no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents should not be password protected. Acceptable file types are .rtf, .pdf, and .doc.

Personal statement and letters of recommendation should be submitted online.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Emergency Management (Certificate), Certificate (PPEMEGRCT)

Online Degree Search Title: Emergency Management (Certificate)

Campus: Downtown Phoenix

Program Description:

The graduate certificate program in emergency management provides motivated students with the skills and knowledge to manage and assume positions of leadership within the field of emergency management. More specifically, an all hazards and all threats orientation provides students with a generalist perspective which is critically important for today and tomorrow's disaster managers. The certificate program may be of interest to students in disciplines such as public policy, planning, political science, nonprofit management, social work, criminology and other related fields.

Degree Requirements: 15 credit hours.

Required Courses: (9 credit hours)

PAF 520 Public Management (3)
PAF 552 Integrated Emergency Management (3)
PAF 555 Information Technology in Emergency Management (3)

Electives: (6 credit hours)

PAF 525 Public Entrepreneurship (3)
PAF 531 Community Conflict Resolution (3)
PAF 534 Urban Infrastructure (3)
PAF 541 Program Evaluation (3)
PAF 562 Intergovernmental Relations (3)
PAF 571 Geographic Information Systems (GIS) and Analysis (3)
PAF 584 Internship (3)
PAF 591 Topic: Introduction to Policy Informatics (3)
PAF 591 Topic: E-Public Administration (3)

Other electives may be substituted with approval by the School of Public Affairs

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Admission Requirements:

Please see the program website for application deadlines.

Applicants who hold a bachelor's degree from a regionally accredited institution are eligible to apply to the program. Students will most likely come from related fields including political science, planning, urban and metropolitan studies, sociology, as well as other social science degrees; however, the school may accept applicants from all educational backgrounds provided they meet the minimum requirements. Current ASU graduate students are eligible for the certificate as a supplement to their existing degree program. In addition, students not enrolled in a graduate program at ASU are also eligible to apply as nondegree students provided they meet the admission criteria stated above. However, MPA students in the proposed emergency management concentration would not be eligible for admission. Admission may be granted to applicants who have achieved a GPA of 3.00 or better (on a 4.00 scale) in the last two years of work leading to a bachelor's degree.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

For nondegree-seeking students (those not admitted to a graduate degree at ASU):

Applicants will be required to submit an online graduate admission application, official transcripts of undergraduate and graduate (if applicable) course work, and a statement of career and educational goals.

For graduate degree-seeking students (those admitted to a graduate program at ASU):

Applicants will be required to submit an online graduate admission application and a statement of career and educational goals.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Emergency Management and Homeland Security (Biosecurity and Threat Management), MA (PPEMHSBTMA)

Online Degree Search Title: Emergency Management and Homeland Security (Biosecurity and Threat Management) (MA)

Campus: Online

Program Description:

An all hazards/all-threats orientation systems approach provides a generalist perspective which is critically important for today's and tomorrow's disaster managers. Students will understand the dominant theories and practices in the general area of emergency management and homeland security. Graduates will use current regulations, laws and best applicable practices within the field to develop protection, mitigation and preparedness measures to prevent or minimize societal impacts of natural and man-made disasters and employ necessary management and leadership skills to respond to and recover from these disasters. Biosecurity and threat management is an important and emerging area related to the intersection of homeland security, public health and risk management addressing a unique set of hazard and threat management issues related to bioterrorism, agroterrorism and communicable disease threats associated with disaster incidents. The biosecurity and threat management concentration is designed to specifically develop professionals to meet a set of emerging and challenging needs. Some of the coursework in this program is offered through the University of New South Wales as part of the PLoS alliance program.

Degree Requirements:

Core (18)

CPP 510 Hazards Governance (3)

CPP 520 Program Evaluation for Emergency Management and Homeland Security (3)

CRJ 511 Applied Data Analysis in Criminal Justice (3)

CRJ 554 Homeland Security (3)

PAF 552 Integrated Emergency Management (3)

PAF 571 Geographic Information Systems (GIS) and Analysis (3)

Concentration (3)

PHCM 9789 Bioterrorism and Health Intelligence (3)*

Concentration Elective (3)**

PHCM 9662 Health Aspects of Crises, Emergencies, Disasters (3)* or

PHCM 9783 Communicable Disease Control in Humanitarian Emergencies and Disasters (3)*

Elective or Research (6)***

Culminating Experience (3)****

CPP 593 Applied Project (3) or

PAF 593 Applied Project (3)

*Course offered through the University of New South Wales as part of the PLuS Alliance. Students will take up to three courses through the University of New South Wales and will request to transfer the course work to ASU as part of the degree program.

** students choose one course from the concentration elective list.

***students choose two courses from a restricted list.

****students choose one of the applied project courses listed.

Admission Requirements:

Applicants who meet the following requirements are eligible to apply:

- Minimum of a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences or another closely related field from a regionally accredited college or university.
- Minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency*
- two letters of recommendation
- a written statement, at least one-page in length, which describes the applicant's educational and career goals and long-term professional development strategy
- evidence of current employment in an organization in this field or at least two years prior professional experience in this or a related field OR a bachelor's degree in a related area

* Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Latino Cultural Competency in Social Work (certificate), Certificate (PPSWGGRCL)

Online Degree Search Title: Latino Cultural Competency in Social Work (Grad Certificate)

Campus: Downtown Phoenix

Program Description:

In response to the need, ASU offers a graduate certificate in Latino cultural competency through the College of Public Service and Community Solutions' School of Social Work. The School of Social Work offers Latino-oriented courses with an emphasis on Spanish language development for professional social workers.

The goal of the program is to enhance a social work professional's capacity for engaging in culturally grounded practice with Latino clients and their

families.

The program is intended for professionals who want to:

- expand their employment potential by adding an expertise in professional services with Latinos
- learn the critical, cross-cultural factors that influence a worker's competency in forming professional helping relationships with Latinos
- learn the social and cultural context and theoretical principles of social work practice with Latinos
- learn the social service delivery issues involved in providing services for bilingual and limited- or non-English-speaking Latino populations

Degree Requirements: 15 credit hours.

The following is required for students enrolled in the Master of Social Work program:

- completion of 480 hours of field practicum with Latino clients and communities (60 percent of case load to be Spanish-speaking)
- field practice consisting of six credit hours of field practicum
- six credit hours of Latino-oriented course work*
- SWG 533 Diversity and Oppression in a Social Work Context (3)

*At least three hours are required to be taken from within the School of Social Work.

Requirements for those already working in the field of social work as a community professional social worker and community worker:

- six credit hours of independent study field practice consisting of the completion of 480 hours with Latino clients and communities (60 percent of client caseload to be Spanish-speaking)*
- six credit hours of Latino-oriented course work**
- SWG 533 Diversity and Oppression in a Social Work Context (3)***

*Students may petition to use their place of employment.

**At least three hours are required to be taken from within the School of Social Work.

***Students with an MSW or BSW who have completed this course in the past five years may substitute another Latino-oriented course.

Admission Requirements:

All students interested in applying to this program must submit:

- the online graduate admission application and fee
- transcripts (if not on file with ASU)
- proof of English proficiency*
- the School of Social Work Latino cultural competency application form and the required \$50 application fee

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

No more than two certificate courses may be completed before applying for admission to the certificate program.

Social Work graduate student admission requirements:

- graduate status in the College of Public Service and Community Solutions' School of Social Work
- demonstrated proficiency in the Spanish language

Community professional social worker admission requirements:

- possess an MSW, BSW or related master's degree
- demonstrate proficiency in Spanish language

Community worker admission requirements:

- the equivalency of a two year work experience in the social service field
- an undergraduate degree
- demonstrated proficiency in Spanish language

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Law Enforcement Administration (Certificate), Certificate (PPLEAGRCT)

Online Degree Search Title: Law Enforcement Administration (Grad Certificate)

Campus: Online

Program Description:

The graduate certificate program in law enforcement administration will prepare and enhance the work of law enforcement professionals by providing course work in criminal justice organizations, policing and program analysis and in cross-disciplines such as public administration. The program is designed to give students a solid foundational understanding of law enforcement agency administration, leadership and policy analysis.

Degree Requirements: 15 credit hours.

Required Courses: (12 credit hours)

CRJ 512 Seminar in Policing (3)
CRJ 516 Seminar in Criminal Justice Organization and Management (3)
CRJ 527 Police Accountability (3)
PAF 520 Public Management (3)

Electives: (3 credit hours)

CRJ 515 Seminar on Women and Crime (3)
CRJ 517 Seminar on Juvenile Delinquency and Justice (3)
CRJ 518 Seminar on Race/Ethnicity, Crime and Justice (3)
CRJ 519 Seminar on Victimization (3)
CRJ 520 Seminar on Violent Crime (3)
CRJ 521 Seminar on Nature of Crime (3)
CRJ 522 Seminar on Gangs and Crime (3)
CRJ 524 Seminar on Punishment and Society (3)
CRJ 525 Seminar on Life Course Criminology (3)
CRJ 598 ST: Crime Mapping (3)
CRJ 598 ST: Criminal Justice Ethics (3)
CRJ 598 ST: Death Penalty (3)
CRJ 598 ST: Ecology of Crime (3)
CRJ 598 ST: Forensics (3)
CRJ 598 ST: Politics of Criminal Justice Policymaking (3)
CRJ 598 ST: Sex Offenders and Sex Crimes (3)

Culminating Experience: None Required.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Admission Requirements:

Applicants to the certificate program will be accepted year-round. Students may be granted admission for fall, spring and summer semesters. Applicants must meet all Division of Graduate Education admission requirements and submit all materials online through the graduate admission application.

Degree: Applicants who hold a bachelor's degree from a regionally accredited institution are eligible to apply to the program. Students from related fields, such as public policy, political science, psychology, sociology, as well as other social science degrees, might be interested in this program in particular; however, all eligible students will be considered. Although most students would likely come from the aforementioned degree fields, there is no specific undergraduate degree major required for admission; the school will accept applicants with undergraduate degrees from all educational backgrounds.

GPA: Regular admission may be granted to applicants who have achieved a GPA of 3.00 or better (on a 4.00 scale) in the last two years of course work leading to a bachelor's degree.

Admission requirements:

For nondegree-seeking students (those not admitted to a graduate degree program at ASU): Applicants will be required to submit:

- an official ASU graduate online application
- official transcripts of undergraduate and graduate (if applicable) course work
- a written statement of career and educational goals

For graduate degree-seeking students (those admitted to a graduate program at ASU): Applicants will be required to submit:

- an official ASU graduate online application
- a written statement of career and educational goals

Required Admission Examinations: None required

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Nonprofit Leadership and Management, MNLM (PPNPSMNS)

Online Degree Search Title: Nonprofit Leadership and Management (MNLM)

Campus: Downtown Phoenix, Online

Program Description:

Offered through the School of Community Resources and Development, the MNLM degree program is intended for professionals who work in or desire to work in the nonprofit sector at senior leadership and management levels. The program provides an opportunity to obtain an advanced degree that addresses the unique challenges and opportunities of nonprofit, nongovernmental organizations with attention on those who lead, manage and support nonprofits. Students explore research, theory and innovative nonprofit practice that advances individual and societal goals for social, cultural, environmental, educational and economic development. The program considers the nexus among nonprofit management, social enterprise and entrepreneurship, and philanthropy that are evinced through nonprofit organizational forms.

Degree Requirements: 33 credit hours including the required capstone course (NLM 620).

Students are required to take 18 credit hours of core course work, in which three hours are a capstone course that is completed at the end of the program of study. The capstone course is integrative and case-based, allowing students to synthesize material from prior course work. Successful completion of this course is required in place of a thesis or applied project.

Students complete 15 credit hours of related elective course work. Courses are selected from two contributing disciplines (public affairs and social work) to foster the transdisciplinary nature of the degree. Students may include two three-credit hour courses not listed below as approved electives in their program of study as long as students can establish an intellectual and professional development objective that substantiates the course selection.

NLM 510 The Nonprofit Sector (3)

NLM 520 Financial Management in Nonprofit (3)

NLM 530 Program Evaluation and Information Management (3)

NLM 550 Philanthropy: Theory and Practice (3)

NLM 620 Capstone: Critical Issues in Nonprofit Management (3)

Choose one:

NLM 540 Strategic Human Resources Management (3)

NLM 545 Volunteer Resource Management (3)

Electives (15)

Admission Requirements:

Potential applicants who hold a bachelor's degree from a regionally accredited institution are eligible to apply. Please see the program website for application deadlines. Students must submit the following to apply for the Master's of Nonprofit Leadership and Management program:

- a completed online graduate admission application
- a curriculum vitae or resume
- statement of educational and career goals in sufficient detail to indicate compatibility with the educational objectives and capabilities of the school
- three reference letters with a combination of academic and professional references*
- proof of English language proficiency**

*References from friends and family members are not accepted.

**An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants whose junior and senior GPA is 3.00 (on a 4.00 scale) or higher are eligible to apply for admission to the program. Students currently pursuing the nonprofit leadership and management certificate who are interested in applying for the master's program must apply to the degree program before the completion of nine credit hours in their certificate program.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Nonprofit Leadership and Management (certificate), Certificate (PPNONPROCE)

Online Degree Search Title: Nonprofit Leadership and Management (Grad Certificate)

Campus: Downtown Phoenix

Program Description:

The graduate certificate in nonprofit leadership and management, offered through the College of Public Service and Community Solutions, is a program that provides students with an understanding of the nonprofit sector's role in society and with knowledge applicable to those who wish to lead and manage these organizations. The objective of this program is to provide students from diverse academic backgrounds with exposure to content needed by leaders in the nonprofit sector, including the understanding of the historical and philosophical context for nonprofit organizations in society, the theory and practice of philanthropy, financial management practices and other topical content areas. The certificate is ideal when combined with graduate degrees in other areas and when used to provide a core concentration in nonprofit leadership and management.

Degree Requirements: 15 credit hours.

Required courses: (6)

NLM 510 The Nonprofit Sector (3)

NLM 520 Financial and Resource Management (3)

choose one:

NLM 540 Strategic Human Resources Management (3)

NLM 545 Volunteer Resource Management (3)

Elective courses (6)

Admission Requirements:

All applicants must submit the online graduate admission application. Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The program is available to students who are pursuing their graduate degree in a chosen field of study and who have expressed interest in pursuing careers in the nonprofit sector. In addition, the program is well suited for working professionals who may be pursuing a graduate degree but who wish to strengthen their skills and connections to the nonprofit community.

For more information, see the College of Public Service and Community Solutions website.

Applicants must fulfill both the requirements of the Division of Graduation Education and those of the College of Public Service and Community Solutions.

Participatory Governance (certificate), Certificate (PPPGOGRCT)

Online Degree Search Title: Participatory Governance (certificate)

Campus: Downtown Phoenix, Tempe

Program Description:

This certificate program provides students with the knowledge and skills to develop, implement and evaluate participatory governance programs and public engagement activities. This transdisciplinary program combines academic rigor with practical skills. Students examine the main theories and research findings on participatory governance and public engagement and familiarize themselves with past and current democratic innovations in the U.S. and around the world. Students also develop the capacity to design, carry out and examine processes of participatory governance and public engagement. The certificate, administered by the School of Public Affairs, can be pursued as a specialization within an existing ASU graduate program or as a stand-alone, 15 credit hour program.

Degree Requirements: 15 credit hours.

Fifteen credit hours are required for the certificate: three required courses and two electives chosen from a list of preapproved courses. The electives taken toward the certificate will be selected with the faculty advisor. The faculty advisor will direct the selection of the electives to ensure that they focus on a common theme and to see that the student's experiences in the courses align with the learning goals outlined for the certificate. Students are required to maintain at least a 3.00 GPA (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission Requirements:

Please see the program website for application deadlines.

Applicants must meet all the Division of Graduate Education admission requirements. Regular admission may be granted to applicants who have achieved a GPA of 3.00 (on a 4.00 scale) or better in the last two years of work leading to a bachelor's degree.

Applicants will be required to submit all materials through the online graduate admission application; required materials will include:

- official transcripts of undergraduate and, if applicable, graduate course work
- a statement of career and educational goals
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Policy Informatics (Certificate), Certificate (PPPOIGRCT)

Online Degree Search Title: Policy Informatics Certificate

Campus: Downtown Phoenix

Program Description:

The policy informatics certificate program provides knowledge and skills for students seeking careers that will use informatics tools, models and simulations to help individuals and groups deliberate and evaluate policy decisions as well as explore new governance infrastructures. Emphasis is placed on theories and research concerning decision-making, complexity theory, and visualization of quantitative and qualitative information, collective intelligence, behavioral economics and persuasive technologies.

Policy informatics helps us advance evidence-driven policy design, wherein scientific models and analyses drive decision-making for resolution of complex policy challenges, dilemmas and problems. This is both an emerging field of research and a community of practice focusing on advancing decision-making in the public sector through information-centric analysis of evidence that leverages computational and technological advances; and designing, managing and evaluating information systems and infrastructures for policy construction, analysis and implementation.

Policy informatics advances the transdisciplinary nature of the public administration discipline by infusing it with the advances of information technology, management of information systems, and computational and informational science perspectives.

Degree Requirements: 15 credit hours.

Fifteen credit hours are required for the certificate: four required courses and one elective chosen from a list of preapproved courses. The elective taken toward the certificate will be selected with the faculty advisor. The faculty advisor will direct the selection of the elective to ensure a focus on a common theme and to see that the student's experiences in the courses align with the learning goals outlined for the certificate. Students are required to maintain at least a 3.00 GPA (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission Requirements:

Please see the program website for application deadlines.

Applicants must meet all Division of Graduate Education admission requirements. Regular admission may be granted to applicants who have achieved a GPA of 3.00 (on a 4.00 scale) or better in the last two years of work leading to a bachelor's degree.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants will be required to submit:

- an online graduate admission application
- official transcripts of undergraduate and, if applicable, graduate course work
- a statement of career and educational goals

All materials are submitted online through the graduate admission application.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Program Evaluation, MS (PPPGEMS)

Online Degree Search Title: Program Evaluation

Campus: Downtown Phoenix

Program Description:

The MS in program evaluation is a degree program that provides students with a solid grounding in the applied and conceptual tools of conducting program evaluations. It is designed to provide graduate-level instruction and experience in conducting evaluation research with training in a broad spectrum of evaluation research methods. Upon graduation, students will be specialists in this area of research, and their training will have broad applicability for public, nonprofit and private sector programs and policies.

Degree Requirements: 30 credit hours including the required applied project course (CRD 593 or CRJ 593 or PAF 593).

Required Core Courses (6 credit hours)

Electives (18 credit hours)

Culminating Experience: (6 credit hours)

CRD 593 or CRJ 593 or PAF 593 - Applied Project

Admission Requirements:

Degree: A minimum of a bachelor's degree or master's degree in criminology and criminal justice, social work, public service, nonprofit management, parks and recreation management, tourism management, business, education, family studies, public health, psychology, or a related social and applied sciences field from a regionally accredited college or university is required.

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program is required. A minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree is required.

English Proficiency Requirement: The English proficiency requirements are the same as the Division of Graduate Education requirement. An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Foreign Language Exam: None required

Required Admission Examinations: None required

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Public Administration, MPA (PPPADTMPA)

Online Degree Search Title: Public Administration (MPA) - Downtown Phoenix

Campus: Downtown Phoenix

Program Description:

The MPA is a transdisciplinary, professional degree program designed to prepare students for public service, public management and policy analysis at the local, state and national levels of government. The master's degree program in public administration is accredited by the National Association of Schools of Public Affairs and Administration.

Students may also elect to specialize in one of the three approved Master of Public Administration concentrations: urban management, nonprofit administration or emergency management.

The urban management concentration provides knowledge and skills for students seeking careers in local urban government management and enables students to develop the skills and techniques used by city and urban leaders and managers.

The concentration in nonprofit administration is intended for professionals who work in or desire to work in the nonprofit sector and who wish to explore research, theory and the practice of management and leadership in the nonprofit sector.

The concentration in emergency management prepares graduates for a challenging career as a professional emergency manager. This program allows students to focus on concerns related to emergency management within the larger field of public administration.

In addition, the school offers concurrent programs in planning, sustainability, criminology and criminal justice, and social work. For admission and program requirements, please see <https://spa.asu.edu/content/concurrent-degrees> (<https://spa.asu.edu/content/concurrent-degrees>).

Degree Requirements: 42 credit hours including the required capstone course (PAF 509 or PAF 579).

The Master of Public Administration degree program consists of 42 hours of graduate credit. Students take 27 of these hours in nine core classes in the School of Public Affairs. Students take 15 additional hours of approved elective courses which may include courses offered by the school or other academic units in the university.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

- American Indian Studies (Tribal Leadership and Governance) (MS)
- Criminology and Criminal Justice (MS)
- Social Work - Standard Program (MSW)
- Sustainability Solutions (MSUS)
- Urban and Environmental Planning (MUEP)

Accelerated Degrees:

This degree is also offered as an accelerated degree with Public Service and Public Policy, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

All applicants must submit the following materials. All materials should be submitted online through the Graduate Admission Services application.

- an official, online graduate admission application: <https://asu.edu/gradapp> (<https://asu.edu/gradapp>)
- application fee: \$70 domestic \$90 international (see <https://students.asu.edu/how-and-when-apply-graduate-admission> (<https://students.asu.edu/how-and-when-apply-graduate-admission>))*
- official transcripts of all undergraduate and graduate work
- verbal, quantitative and analytical scores on the GRE (institution code: 4007) or GMAT
- three letters of recommendation, at least two of which should be from faculty members or other academic staff who can evaluate applicant's academic performance
- a written statement, one- to two-pages in length, that describes the applicant's educational and career goals
- proof of English language proficiency**

*Note: Fees increase after deadline.

**An applicant whose native language is not English (regardless of current residency) must submit proof of English proficiency. See additional requirements for international students at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Applicants may also submit a resume or other documents.

Contact the School of Public Affairs at 602-496-0450 or email spa@asu.edu (<mailto:spa@asu.edu>) if there are questions about the application process.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Public Administration (Certificate), Certificate (PPUAGRCT)

Online Degree Search Title: Public Administration Certificate

Campus: Downtown Phoenix

Program Description:

The graduate certificate program in public administration prepares students for work at all levels in governmental and nonprofit organizations. Through comprehensive coverage of topics in public administration, management and policy, students discover the challenges of management, learn how to lead a public organization and understand the process of policy development. The program is designed to give students a solid foundational understanding of administration, leadership and policy analysis in service to the public good.

Degree Requirements: 15 credit hours.

Fifteen credit hours are required for the certificate: two required courses and three electives chosen from a list of preapproved courses. The electives taken toward the certificate will be selected with the faculty advisor. The faculty advisor will direct the selection of the electives to ensure that they focus on a common theme and to see that the student's experiences in the courses align with the learning goals outlined for the certificate. Students are required to maintain at least a 3.00 GPA (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission Requirements:

Please see the program website for application deadlines and admission terms.

Regular admission may be granted to applicants who have achieved a GPA of 3.00 (on a 4.00 scale) or better in the last two years of work leading to a bachelor's degree.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants will be required to submit an online graduate admission application, official transcripts of undergraduate and (if applicable) graduate course work, and a statement of career and educational goals. All materials are submitted through the online application.

Public Administration (Emergency Management), MPA (PPPAFEMPA)

Online Degree Search Title: Public Administration (Emergency Management)

Campus: Downtown Phoenix

Program Description:

The graduate concentration in emergency management as part of the Master of Public Administration degree program provides motivated students with the skills and knowledge to manage and assume positions of leadership within the field of emergency management. More specifically, an all-hazards and all-threats orientation provides the student with a generalist perspective which is critically important for disaster managers of today and tomorrow. In addition, this program examines community resilience from a systems perspective, embracing governments, private, nonprofit and civic roles. The program also provides an understanding of how community members respond to the need to prepare for, endure and recover from disasters and provides the ability to utilize multiple communication methods to help community members before, during and after these emergencies.

Degree Requirements: 42 credit hours including the required capstone course (PAF 509 or PAF 579).

Required Core Courses: (24 credit hours)

PAF 501 Public Service Research I (3)
PAF 502 Public Service Research II (3)
PAF 503 Public Affairs (3)
PAF 504 Microeconomics of Public Policy I (3)
PAF 505 Public Policy Analysis (3)
PAF 506 Public Budgeting and Finance (3)
PAF 507 Public Human Resource Management (3)
PAF 508 Organization Behavior (3)

Required Concentration Courses: (9 credit hours)

PAF 520 Public Management (3)
PAF 552 Integrated Emergency Management (3)
PAF 555 Information Technology in Emergency Management (3)

Elective or Research Courses: (6 credit hours)*

PAF 525 Public Entrepreneurship (3)
PAF 531 Community Conflict Resolution (3)
PAF 534 Urban Services Infrastructure (3)
PAF 541 Program Evaluation (3)
PAF 560 Community Resilience (3)
PAF 562 Intergovernmental Relations (3)
PAF 571 Geographic Information Systems (GIS) and Analysis (3)
PAF 584 Internship (3)
PAF 591 Topic: E-Public Administration: Use of Information for PA Professionals (3)
PAF 591 Topic: Introduction to Policy Informatics (3)

*Other electives may be substituted with approval by the School of Public Affairs.

Culminating Experience: (3 credit hours)

PAF 509 Public Affairs Capstone (3) or PAF 579 Public Policy Capstone (3)

Total required credit hours: 42

Admission Requirements:

Please see the program website for application deadlines.

Potential applicants who hold a bachelor's degree from a regionally accredited institution in a related field are eligible to apply to the program. Related fields include political science, criminology, planning, business, urban and metropolitan studies, as well as other social science degrees. Although most students for the graduate concentration would likely come from the aforementioned degree fields, the department may accept applicants with undergraduate degrees from all educational backgrounds provided they meet the minimum requirements for the degree program.

The following entry-level competencies are needed for admission the program:

- an undergraduate social statistics course such as PAF 301 Applied Statistics (3)
- undergraduate course work in American national government such as POS 310 American National Government (3)*

*Students may also satisfy the American national government competency by taking the College-Level Examination Program exam in American Government and receiving a passing score.

Regular admission may be granted to applicants who have achieved a GPA of 3.00 or higher (on a 4.00 scale) in the last two years of work leading to a bachelor's degree. GRE verbal, quantitative and analytical scores will be used as one of the indicators to see how competitive an applicant is within the applicant pool.

Applicants will be required to submit:

- an official ASU graduate admission application
- official GRE scores
- official transcripts of all undergraduate and graduate course work
- a statement of career and educational goals
- three letters of recommendation (two of which should be academic recommendations)

An applicant whose native language is not English (regardless of current residency) must submit proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Public Administration (Public Finance), MPA (PPPAFMPA)

Online Degree Search Title: Public Administration (Public Finance) MPA

Campus: Downtown Phoenix

Program Description:

The MPA program in Public Administration with a concentration in Public Finance provides knowledge and skills for students seeking or advancing careers in areas in which financial management plays an integral role in governance. This concentration emphasizes theories and research concerning urban economics and public finance, managing money in the public sector, public budgeting, and finance and capital budgeting and financing.

Degree Requirements: 42 credit hours including the required capstone course (PAF 509).

Breakdown of requirements:

core (24)

PAF 501 Public Service Research I (3)

PAF 502 Public Service Research II (3)

PAF 503 Public Affairs (3)

PAF 504 Microeconomics of Public Policy I (3)

PAF 505 Public Policy Analysis (3)

PAF 506 Public Budgeting and Finance (3)

PAF 507 Public Human Resource Management (3)

PAF 508 Organizational Behavior (3)

concentration coursework (9)

PAF 521 Managing Public Money (3)

PAF 522 Advanced Governmental Financial Management (3)

PAF 570 Microeconomics of Public Policy II (3)

elective or research courses (6)*

culminating experience: 3 credit hours of PAF 509 Public Affairs Capstone

* Students choose one course from NLM 520, PAF 590 and PAF 584 for 3 credit hours. Students also choose any PAF 500 level course for 3 credit hours.

Admission Requirements:

Applicants who meet the following requirements are eligible to apply.

- Potential applicants who hold a bachelor's degree from a regionally accredited institution in a related field are eligible to apply to the program. Related fields include social science degrees, although the department may accept applicants with undergraduate degrees from all educational backgrounds provided they meet the minimum requirements for the degree program.

- Minimum of a 3.00 cumulative GPA (scale is 4.0 = "A") in the last 60 hours of a student's first bachelor's degree program. Minimum of 3.00 cumulative GPA (scale is 4.0 = "A") in the applicable Master's degree.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency*
- three letters of recommendation**
- GRE scores
- a written statement of applicant's educational and career goals, 1-2 pages in length

* Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

**At least two should be from faculty or other academic staff who can evaluate the applicant's academic performance.

Students enrolling in MPA core courses must demonstrate minimum competency in statistics and American government. Courses taken to fulfill the competency do not count toward the total credit hours required for the degree program. Completion of prerequisite courses is not a requirement for admission but must be completed within one semester after starting the program.

Competency in statistics is met with a grade of "B" (scale is 4.00 = "A") or higher in one of the approved courses (PAF 301 or PAF 401, POS 401, PSY 230, ECN 221, QBA 221, SWU 321, STP 226 or SOC 390) within the past two years or passing a diagnostic test approved by the MPA Committee. Other courses taken within the last two years may be substituted upon approval of the MPA Director.

Competency in American government is a demonstrated understanding of American government institutions and processes. Students may be required to take an undergraduate class in American government (PAF 300, PAF 340, POS 110 or POS 310) with a grade of "B" or higher. The CLEP Exam can also be used to demonstrate competency in American government.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Public Administration (Urbanism), PHD (PPPAURBPHD)

Online Degree Search Title: Public Administration and Policy (Urbanism) PHD

Campus: Downtown Phoenix

Program Description:

The PhD in public administration and policy is a theoretically grounded research degree program designed to prepare students for an academic career. The program is also appropriate for individuals who want to conduct high-level research and policy development in public and nonprofit agencies, foundations and research institutes. It is designed for students who seek full-time study.

The goal is to develop well-rounded, independent scholars who are grounded in the classic and current literatures of public administration and public policy, skilled in research methods, and ready to make a positive and important contribution to the field through teaching and research.

The doctoral program in public administration and policy with an urbanism concentration permits students to draw upon the extensive resources in urban affairs at ASU. As a result, these students are poised for success as productive and active scholars, researchers and teachers upon graduation.

The concentration in urbanism is a mechanism for organizing varied perspectives on urbanism into a collective body of scholarship. The study of public administration is enriched by grounding it in a comprehensive understanding of the characteristics of urban context and the dynamic forces that shape them. The concentration in urbanism leverages the varied interests in urbanism and helps emerging scholars as they attempt to compare, contrast and take stock of urbanism. Working with faculty from across a range of departments and programs at ASU, doctoral students will be able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative, constructive kind of inquiry.

Degree Requirements: 90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The doctoral program is designed to promote the mastery of the core knowledge of public administration and public policy and to develop more specialized expertise in chosen areas of study and research. Accordingly, in the first year doctoral students take four core courses as a cohort. These courses focus on the foundations of the field, the philosophy of science, and theories and issues in governance, public policy, systems, organizations and human behavior. Additionally, first-year students enroll in at least two elective courses. In the second year, students hone their skills in quantitative and qualitative research, enroll in additional electives, and develop a program of study for their areas of specialization. In the third year, students take an advanced seminar in research and teaching, complete their work in their selected areas of specialization and move forward to a proposal for completing their dissertation.

The program consists of a minimum of 60 credit hours of graduate work beyond the master's degree. Of the 60 credit hours, at least 24 must be research and dissertation credit (of which no more than 12 hours may be dissertation credit). A minimum of 30 credit hours of approved course work, exclusive of dissertation and research, must be taken at ASU after admission to the program. In addition to the core courses above, doctoral students are required to complete course work in two areas of specialization. Specializations are developed in consultation with the student's program of study committee and can focus on a variety of topics related to public administration and public policy. Doctoral students may work with faculty from other departments, if appropriate, to complete their specializations. As an alternative, students may opt for the urbanism concentration.

In addition to the required doctoral core courses, students take a required concentration core course (GCU 516 Principles of Urbanism) and 12 credit hours selected from an approved list of applicable courses related to the four areas below.

- natural environment: includes global, ecological, biological, and other environmental and natural systems and resources
- built form: includes architecture, urban design, urban morphology, urban planning, and transportation and infrastructure

- institutions and governance: includes public policy, politics, and other governmental, economic, legal and political institutions
- culture and society: includes historical, cultural and sociological aspects of urbanism

Admission Requirements:

All applicants are expected to have completed graduate level statistics and research methods classes before admission. Applicants also are expected to have sufficient formal course work in public administration to pursue doctoral study in the field. Admitted students are required to take PAF 501, PAF 502, PAF 503, PAF 504, PAF 508 (or their equivalents) and statistics prior to beginning the doctoral core courses. Applicants who are not pursuing an MPA should not take these courses until they consult with the doctoral program director.

Applicants are admitted for fall only. Admission is competitive; a limited number of well-qualified applicants will be admitted each year. Please see the program website for application deadlines.

All applicants must submit the following materials:

- a completed checklist (submit online)
- an official online graduate admission application and application fee
- a written statement of educational and career goals that includes a discussion of research interests (submit online)
- a current resume or curriculum vitae (submit online)
- three letters of recommendation (submit online)*
- samples of research reports or papers (submit online)
- official transcripts of all undergraduate and graduate course work
- scores on the GRE (verbal, quantitative, analytical) - GRE institution code: 4007**
- proof of English proficiency***

*These should be primarily from faculty members. All letters should address the candidate's capacity to successfully complete the doctoral program. They should assess the student's capacity for critical and analytic thought, their ability to communicate effectively, both orally and in writing, and their commitment to completion of the program.

**Only test scores from within the past five years will be accepted, and analytical scores will be considered in admission decisions.

***An applicant whose native language is not English (regardless of current residency) must submit TOEFL scores to be considered for admission (institution code: 4007). This is true even for those who have a master's degree from a United States university. To be considered for admission to the PhD program in public administration and policy, the applicant's minimum score on a traditional TOEFL test must be 600; the minimum score for a TOEFL iBT must be 100. Applicants with scores below the minimum will not be considered. For more on the English proficiency requirement, please see <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

As a result, graduates are poised for success as productive and active scholars, researchers and teachers.

Degree Requirements: 90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The doctoral program is designed to promote the mastery of the core knowledge of public administration and public policy and to develop more

specialized expertise in chosen areas of study and research. Accordingly, in the first year, doctoral students take four core courses as a cohort. These courses focus on the foundations of the field, the philosophy of science, and theories and issues in governance, public policy, systems, organizations and human behavior. In the second year, students hone their quantitative and qualitative research skills, enroll in additional electives, and develop a plan of study for their areas of specialization. In the third year, students take an advanced seminar in research and teaching, complete their work in their selected areas of specialization, and move forward to a proposal for completing their dissertation.

The program consists of a minimum of 60 credit hours of graduate work beyond the master's degree. Of the 60 credit hours, at least 24 must be research and dissertation credit (of which no more than 12 hours may be dissertation credit). A minimum of 30 credit hours of approved course work, exclusive of dissertation and research, must be taken at ASU after admission to the program. In addition to the core courses above, doctoral students are required to complete course work in two areas of specialization. Specializations are developed in consultation with the student's plan of study committee and can focus on a variety of topics related to public administration and public policy. Doctoral students may work with faculty from other departments, if appropriate, to complete their specializations. As an alternative, students may opt for the urbanism concentration.

Admission Requirements:

ASU's School of Public Affairs expects doctoral student applicants to have demonstrated competency in the following subject areas at the time of application: organizational theory, public policy analysis, economics and quantitative analysis.

Applicants who have obtained a master's degree accredited by the Network of Schools of Public Policy, Affairs, and Administration in public affairs, public administration or public policy will not be required to complete prerequisites for admission to ASU's School of Public Affairs. In some cases, applicants from allied fields (e.i., political science, economics, sociology, business) will not be required to complete prerequisites, depending upon the extent to which previous training aligns with the competencies described above.

As is the case with all applicants, the doctoral program director or advisors may require or recommend completion of courses when there is a perceived deficit, especially if the deficit relates to graduate-level quantitative analysis and economics (PAF 502 and PAF 504, respectively, or equivalent courses). However, these requirements or recommendations, if any, are not a barrier to admission.

In cases where the doctoral student applicant has graduated from a public affairs, public administration or public policy program from another nation, or from a program not accredited by NASPAA, the applicant may be admitted and required to meet prerequisites after a review by the doctoral committee and doctoral program director.

Students applying with master's degrees from programs not closely related to public affairs (e.g., engineering, modern languages, chemistry) will be required to meet prerequisites equivalent to the courses required for either ASU's Master of Public Administration or Master of Public Policy: <https://spa.asu.edu/content/graduate-programs> (<https://spa.asu.edu/content/graduate-programs>).

Prior to enrolling in any of the school's core classes, all students are expected to be familiar with the foundational competency readings related to organizational theory, public policy analysis, economics, and quantitative analysis.

Please see the program website for application deadlines and admission terms.

Admission is competitive; a limited number of well-qualified applicants will be admitted each year.

All applicants must submit the following materials:

- a completed checklist (submit online)
- an official online graduate admission application and application fee
- a written statement of educational and career goals that includes a discussion of research interests (submit online)
- a current resume or curriculum vitae (submit online)
- three letters of recommendation*
- samples of research reports or papers (submit online)
- official transcripts of all undergraduate and graduate course work
- scores on the GRE (verbal, quantitative, analytical) -- GRE institution code: 4007**
- proof of English language proficiency***

*These letters of recommendation should be primarily from faculty members. All letters should address the candidate's capacity to successfully complete the doctoral program. They should assess the student's capacity for critical and analytic thought, their ability to communicate effectively, both orally and in writing, and their commitment to completion of the program (submit online).

**Only test scores from within the past five years will be accepted and analytical scores will be considered in admissions decisions.

***An applicant whose native language is not English (regardless of current residency) must submit Test of English as a Foreign Language scores to be considered for admission; institution code: 4007. This is true even for those who have a master's degree from a U.S. university. To be considered for admission to the doctorate in public administration and policy program, the minimum score on a traditional TOEFL test is 600, the minimum score for a TOEFL iBT is 100. Applicants with scores below the minimum will not be considered. For more on the English proficiency requirement, please see <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Public Policy, MPP (PPPUBPMPP)

Online Degree Search Title: Public Policy (MPP)

Campus: Downtown Phoenix

Program Description:

The MPP program allows students to approach the study of public policy with a focus on public policy in the urban setting. The master's degree program in public policy prepares students for professional careers as policy analysts and leaders in public service involved in the formulation, approval, implementation and evaluation of public policy at all levels of government and in the private and nonprofit sectors. The program can also serve as a platform for preparation for doctoral studies in public policy, public administration, urban studies or other related programs. Students learn analytical techniques and conceptual frameworks for understanding policy issues and identifying potential solutions and about applying these skills to real-world issues --- especially relating to the needs of cities in the region. Students also gain an understanding of policies addressing issues such as poverty, education, the environment and public safety.

The program trains people capable of leading by making positive policy decisions, addressing the difficult questions associated with public policy, and managing the process of policy creation, approval, implementation and evaluation. At the conclusion of the master's degree program, students will be able to identify, analyze and interpret the challenges and dilemmas of public policies, especially those facing urban areas. Students will also be able to approach policy analysis with a variety of quantitative and qualitative methods, and be prepared to develop innovative processes and tools to deal with changing realities of public policy and address issues on a global, regional and local scale.

Degree Requirements: 42 credit hours including the required capstone course (PAF 509 or PAF 579).

required core courses: 27 credit hours*

- PAF 501 Public Service Research I (3)
- PAF 502 Public Service Research II (3)
- PAF 504 Microeconomics of Public Policy I (3)
- PAF 505 Public Policy Analysis (3)
- PAF 540 Advanced Policy Analysis (3)
- PAF 541 Program Evaluation (3)
- PAF 570 Microeconomics of Public Policy II (3)
- PAF 573 Applied Econometrics (3)
- PAF 574 Diversity, Ethics and Leading Public Change (3)

*Students enrolling in core Master of Public Policy courses must demonstrate minimum competency in statistics and American national government. Courses taken to fulfill competencies do not count toward the 42-hour degree program. Completion of prerequisite courses is not a requirement for admission but must be completed within one semester after starting the program.

electives:12 credit hours**

- PAF 523 The City and County Manager (3)
- PAF 530 Management of Urban Government (3)
- PAF 536 Urban Policy Making (3)
- PAF 546 Environmental Policy and Management (3)
- PAF 572 Urban Demography (3)

**Other elective courses may be used with approval of the academic unit.

culminating experience: 3 credit hours

- PAF 579 Public Policy Capstone (3)

Concurrent Degrees:

This degree is also offered as concurrent degree with:

- Criminology and Criminal Justice (MS)
- Sustainability Solutions (MSUS)
- Urban and Environmental Planning (MUEP)

Admission Requirements:

All materials should be submitted online through the ASU graduate admission application. Contact the School of Public Affairs at 602-496-0450 or email spa@asu.edu (mailto: spa@asu.edu) if there are questions about the application process.

All applicants must submit the following materials:

- an official online graduate admission application <https://asu.edu/gradapp> (<https://asu.edu/gradapp>)
- application fee (see <https://students.asu.edu/how-and-when-apply-graduate-admission> (<https://students.asu.edu/how-and-when-apply-graduate-admission>))*
- official transcripts of all undergraduate and graduate work sent to Graduate Admission Services
- verbal, quantitative and analytical scores on the GRE (institution code: 4007) or GMAT
- three letters of recommendation (at least two from faculty or other academic staff who can evaluate applicant's academic performance)
- a one- to two-page written statement of the applicant's educational and career goals, which will also be used as a sample of the applicant's writing abilities
- proof of English language proficiency**

Applicants may also submit a resume or other documents.

*Note: fees increase after deadline

**An applicant whose native language is not English (regardless of current residency) must also submit proof of English proficiency. See additional requirements for international students at <https://students.asu.edu/graduate/international> (<https://students.asu.edu/graduate/international>).

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Public Policy (Certificate), Certificate (PPPUPGRCT)

Online Degree Search Title: Public Policy Certificate

Campus: Downtown Phoenix

Program Description:

This certificate program prepares students for professional careers as policy analysts and leaders in public service who are involved in the formulation, approval, implementation and evaluation of public policy at all levels of government and in the private and nonprofit sectors. The program is designed to give students analytical techniques and conceptual frameworks for understanding policy issues as well as identifying potential solutions and applying these skills to real-world issues.

Degree Requirements: 15 credit hours.

Fifteen credit hours are required for the certificate: three required courses and two electives chosen from a list of preapproved courses. The electives taken toward the certificate will be selected with the faculty advisor. The faculty advisor will direct the selection of the electives to ensure that they focus on a common theme, and to see that the students' experiences in the courses align with the learning goals outlined for the certificate. Students are required to maintain at least a 3.00 GPA (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission Requirements:

Please see the program website for application deadlines and admission terms.

Regular admission may be granted to applicants who have achieved a GPA of 3.00 (on a 4.00 scale) or better in the last two years of work leading to a bachelor's degree.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants will be required to submit an online graduate admission application, official transcripts of undergraduate and (if applicable) graduate course work, and a statement of career and educational goals. All materials are submitted through the online application.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Public Policy (Environmental Policy), MPP (PPUPEPMPP)

Online Degree Search Title: Public Policy (Environmental Policy)

Campus: Downtown Phoenix

Program Description:

The MPP program with a concentration in environmental policy prepares students at the master's degree level to apply sustainability principles and approaches to careers in a variety of fields that address environmental and, inevitably, human challenges. Students with a concentration in environmental policy will have the knowledge base and skills to bring sustainability solutions to corporate, government and nonprofit sectors. The concentration begins by building a foundation in environmental policy and theory through the core course work, followed by one elective that develops and deepens student expertise in specific areas and issues. The concentration is uniquely positioned to allow students to build careers in public policy analysis and administration, international development and nonprofit organizations.

Degree Requirements: 42 credit hours including the required capstone course (PAF 509 or PAF 579).

required core courses: (27 credit hours)*

Public Policy (Policy Informatics), MPP (PPPUPPIMPP)

Online Degree Search Title: Public Policy (Policy Informatics) MPP

Campus: Downtown Phoenix

Program Description:

The MPP degree program in public policy (concentration in policy informatics) provides the knowledge and skills for students who seek careers that will require them to use informatics tools, models and simulations to help individuals and groups deliberate and evaluate policy decisions and to explore new governance infrastructures. This concentration emphasizes theories and research concerning decision-making, complexity theory and visualization of quantitative and qualitative information, collective intelligence, behavioral economics and persuasive technologies.

The concentration in policy informatics combines mastery of advanced methods for processing information with domain expertise that will help humans understand complex social phenomena and achieve goals within public and governance applications. The program's design responds to the need for professionals with domain knowledge who can take a problem-driven, system-level, user-oriented perspective in developing and

applying informatics systems to address societal and governance needs.

Degree Requirements: 42 credit hours including the required capstone course (PAF 509/PAF 579).

Required Core Courses: (27 credit hours)*

PAF 501 Public Service Research I (3)
PAF 502 Public Service Research II (3)
PAF 504 Microeconomics of Public Policy I (3)

Public Policy (Urban Policy), MPP (PPPUPUPMPP)

Online Degree Search Title: Public Policy (Urban Policy) MPP

Campus: Downtown Phoenix

Program Description:

The MPP program in Public Policy with a concentration in Urban Policy provides knowledge and skills for students seeking or advancing careers in areas in which urban dynamics and local governance play an integral role in the policy process. This concentration emphasizes theories and research concerning urban policy analysis and economics as well as urban management, urban city government, public budgeting and finance in an urban context.

Degree Requirements: 42 credit hours including the required capstone course (PAF 509 or PAF 579).

Breakdown of requirements:

core (24)

PAF 501 Public Service Research I (3)

PAF 502 Public Service Research II (3)

PAF 504 Microeconomics of Public Policy I (3)

PAF 505 Public Policy Analysis (3)

PAF 540 Advanced Policy Analysis (3)

PAF 541 Program Evaluation (3)

PAF 570 Microeconomics of Public Policy II (3)

PAF 573 Applied Econometrics (3)

PAF 574 Diversity, Ethics & Leading Public Change (3)

concentration coursework (6)

PAF 506 Public Budgeting and Finance (3)

PAF 544 Urban Policy (3)

elective or research courses (6)*

culminating experience: 3 credit hours of PAF 509 Public Affairs Capstone or PAF 579 Public Policy Capstone

* Students choose two courses from ESS 510, PAF 534, PAF 571, PUP 525 or an internship as approved by the academic unit. Internship must be 584 course number.

Admission Requirements:

Applicants who meet the following requirements are eligible to apply.

- Potential applicants who hold a bachelor's degree from a regionally accredited institution in a related field are eligible to apply to the program. Related fields include social science disciplines, although the department may accept applicants with undergraduate degrees from all educational backgrounds provide they meet the minimum requirements for the degree program.

- Minimum of a 3.00 cumulative GPA (scale is 4.0 = "A") in the last 60 hours of a student's first bachelor's degree program. Minimum of 3.00 cumulative GPA (scale is 4.0 = "A") in the applicable master's degree program.

Applicants are required to submit:

graduate admission application and application fee

- official transcripts
- proof of English proficiency*
- three letters of recommendation**
- GRE scores
- a written statement of applicant's educational and career goals, 1-2 pages in length

* Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

**At least two should be from faculty or other academic staff who can evaluate the applicant's academic performance.

The following entry-level competencies are needed for admission to the program: an undergraduate social statistics course such as PAF 301 Applied Statistics and undergraduate course work in American National Government such as POS 310 American National Government. Students may also satisfy the American National Government competency by taking the College-Level Examination Program (CLEP) exam in American Government and receiving a passing score.

Students can complete deficiency classes prior to admission to the program or within their first semester after admission. Courses taken to satisfy entry level competencies cannot be used toward the completion of the MPP degree.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Campus: Downtown Phoenix, Online

Program Description:

The MPSLA is a graduate degree program designed primarily for public safety professionals. An advanced degree is increasingly important for career progression within public safety administration. Those with an advanced degree have an advantage that makes a difference as they seek to advance in their professions --- a practical understanding of public safety organization administration. Graduates of this program should expect to find employment and advancement in all levels of government agencies as well as in private sector organizations.

Degree Requirements: 33 credit hours including the required capstone course (PAF 509 or CRJ 505).

Required Core Courses: (15 credit hours)

- PAF 505 Public Policy Analysis (3)
- PAF 506 Public Budgeting and Finance (3)
- PAF 507 Public Human Resource Management (3)
- PAF 508 Organization Behavior (3)
- PAF 571 Geographic Information Systems (GIS) and Analysis (3)

Electives: (15 credit hours; choose five courses)

- CRJ 501 Seminar in Criminal Justice (3)
- CRJ 510 Criminal Justice Planning and Program Evaluation (3)
- CRJ 512 Seminar in Policing (3)
- CRJ 513 Seminar in Courts and Sentencing (3)
- CRJ 515 Seminar in Women and Crime (3)
- CRJ 518 Seminar on Race/Ethnicity, Crime and Justice (3)
- CRJ 553 Terrorism and Weapons of Mass Destruction (3)

PAF 552 Integrated Emergency Management (3)
PAF 574 Diversity, Ethics, and Leading Public Change (3)
CPP 591 Seminar: Community Paramedicine and Mobile Integrated Healthcare (3)
CPP 591 Seminar: Emergency Services Operations Analysis and Planning (3)
CPP 591 Seminar: Foundations of EMS Systems (3)
CRJ 514 Seminar in Corrections (3)
CRJ 520 Seminar on Violent Crime (3)
CRJ 521 Seminar on the Nature of Crime (3)
CRJ 554 Homeland Security (3)
CRJ 598 Special Topics: Police and Int'l Terrorism-Israel (3)
HCD 502 Health Care Systems and Design (3)

CPP 591 Seminar: Emergency Services Operations Analysis and Planning (3)
CPP 591 Seminar: Leadership for Innovation in Public Fire Services(3)
HCD 511 Health Economics, Policy and Payment Models (3)
HCD 520 Interdisciplinary Perspectives on Health Disparities and System Access (3)
HCD 591 Conference and Workshop: Creativity and Innovation Leadership in Health (3)
HCD 594 Conference and Workshop: Leading change in Health Organizational Systems (3)
PAF 555 Information Technology in Emergency Management (3)
PAF 561 Interoperability for Emergency Managers (3)

Culminating Experience: (3 credit hours)PAF 593 or CPP 593 Applied Project

Admission Requirements:

Degree: minimum of a bachelor's degree or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences, environmental sciences or geography, public health, or another closely related field from a regionally accredited college or university

GPA: minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program; minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree

English Proficiency Requirement: The English proficiency requirements are the same as the Division of Graduate Education requirement. An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Required Admission Examinations: none

Letters of Recommendation: two letters of recommendation

A written statement, at least one-page in length, which describes the applicant's educational and career goals and long-term professional development strategy

Current employment in an organization in this field or at least two years of prior professional experience in this or a related field or a bachelor's degree in a related area

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated,7.5-week classes. View the program description and request more information here.

Social Entrepreneurship and Community Development (certificate), Certificate (PPSECDGRCT)

Online Degree Search Title: Social Entrepreneurship and Community Development (Graduate Cert)

Campus: Downtown Phoenix, Online

Program Description:

The social entrepreneurship and community development graduate certificate, offered through the School of Community Resources and Development, provides a framework for harnessing entrepreneurial and enterprise opportunities, creating transformative responses to challenges prevalent in societies and communities. This transdisciplinary program combines social entrepreneurship with innovative community development, providing a basis for exploring capacity building and fostering positive change for organizations, corporations, societies and economies. The certificate complements well the Master of Nonprofit Studies program for students interested in pursuing their degree and social entrepreneurship certificate. Consisting of 15 credit hours of graduate-level course work, the certificate is designed for students studying nonprofit leadership and management, social entrepreneurship, public policy and related fields across disciplines and includes a hands-on portfolio component.

Degree Requirements: 15 credit hours..

Required courses: (9 credit hours)

NLM 520 Financial and Resource Management (3)

NLM 562 Social Entrepreneurship (3)

NLM 572 Community and Social Innovation (3)

Elective courses (6 credit hours)

Admission Requirements:

Applicants must complete the online graduate admission application. A bachelor's degree from a regionally accredited college or university recognized by ASU is required, with a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of the program.

A Test of English as a Foreign Language (TOEFL) score is required from any applicant whose native language is not English (regardless of current residency). Please visit <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>) for more information.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Social Work, MSW (PPSWDMSW)

Online Degree Search Title: Social Work - Standard Program (MSW)

Campus: Downtown Phoenix, Tucson, Online

Program Description:

The professional program leading to the MSW degree prepares social workers for advanced professional social work practice. The program is designed to prepare social workers to be capable of responding effectively to the needs of special populations, particularly in the Southwest. The Master of Social Work program is accredited by the Council on Social Work Education.

Degree Requirements: 45 credit hours and a portfolio, or 45 credit hours and a thesis, or 45 credit hours and an applied project (SWG 593), or 45 credit hours including the required capstone course (SWG 621), or 60 credit hours and a portfolio (MSW/MPA dual degree), or 60 credit hours and a thesis (MSW/MPA dual degree), or 60 credit hours and an applied project (SWG 593), or 60 credit hours including the required capstone course (SWG 621) (MSW/MPA dual degree).

Students begin the standard Master of Social Work program in the fall, and in the fall or spring for the online Master of Social Work program. The

program may be completed within four semesters (full time) or six semesters (part time). It is a 45 to 60 credit hour program, including course work and field instruction. It is divided into a foundation year (30 credit hours of core curriculum) taken by all students and a concentration year (30 credit hours).

The foundation year includes basic courses in direct practice, organizational and community change, social policy, human behavior and research.

In the second year, students pursue a concentration in one of the following:

- advanced direct practice
- advanced generalist
- policy, administration and community practice

Students who pursue the advanced direct practice concentration also select one of the following three specializations:

- children, youth and families
- health, behavioral health
- public child welfare

Students are required to complete two internships: a foundation field placement (480 hours) and a concentration field placement (480 hours) in a different setting.

Culminating Events: The culminating events that are available for on-campus students are SWG 599 Thesis, SWG 593 Applied Project, SWG 621 Capstone Course and the master's portfolio. The culminating events that are available for online students are SWG 593 Applied Project, SWG 621 Capstone Course and the master's degree portfolio. The academic unit will advise and monitor the online campus students to ensure they choose the appropriate culminating event.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

- Juris Doctor (JD)
- Public Administration (MPA) - Downtown Phoenix

Admission Requirements:

Please see the program website for application deadlines. Applicants admitted to the standard Master of Social Work degree program begin classes in the fall, and applicants admitted to the online Master of Social Work degree program begin classes in the fall or the spring.

All applicants must have 120 hours of volunteer or work experience in social services during a six-month period within the past five years.

All applicants must submit the following materials. All required admission materials are submitted directly to Graduate Admission Services at <https://graduate.asu.edu/> (<https://graduate.asu.edu/>). Contact the School of Social Work at 602-496-0800 if there are questions about the application process.

- online graduate admission application
- application fee
- official transcripts of all undergraduate and graduate work
- three letters of reference*
- professional resume that includes volunteer and paid work experience
- statement of educational and career goals**
- signed standards of ethical and professional behavior form

*A combination of academic and professional references is desirable. References from friends, family members or personal therapists are not accepted. At least one of the three required references must be from the applicant's BSW field instructor or, if employed in a social work-related job for two or more years, a recommendation from the applicant's supervisor.

**Guidelines for writing the statement of educational and career goals can be found at <https://socialwork.asu.edu/content/msw-application-proceduresmaterials> (<https://socialwork.asu.edu/content/msw-application-proceduresmaterials>)

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Test scores from either the GRE or the Miller Analogies Test are required only if the applicant's junior and senior GPA was below a 3.20 (on a 4.00 scale).

The School of Social Work requires one of the following:

- undergraduate degree with 30 credit hours in liberal arts courses at the undergraduate or graduate level
- Bachelor of Social Work from a Council on Social Work Education-accredited school of social work

- liberal arts undergraduate degree

All students are required to successfully complete a course in human biology before enrollment in the graduate program and a course in statistics, either by Dec. 31 or before registering for SWG 519.

Part-time Program

Students are admitted each fall to a planned part-time program and for the Master of Social Work online degree program in the fall or spring. Students interested in this option must specifically apply to the part-time program and complete it in accordance with the plan developed to finish the degree in three years.

Transfer Credit

Upon recommendation of the admission committee, the first year of graduate study (up to 30 graduate credit hours) earned at another Council on Social Work Education-accredited school of social work may be transferred and applied toward the Master of Social Work degree program at ASU. Under these circumstances, the student must complete the second full year of graduate study (at least 30 credit hours of graduate work) at ASU. Transfer work must have been completed within three years of the semester and year of admission to the Master of Social Work degree program at ASU with a grade of "B" (3.00 on a 4.00 scale) or better.

Exemption and Waiver Examinations

The number of hours required to complete the standard Master of Social Work program ranges from 45 to 60 credit hours. In addition to transferring in credit, per the recommendation of the School of Social Work director and the Master of Social Work coordinator, admitted students may meet requirements of up to 15 hours of credit toward the degree by exempting up to 15 hours of foundation course work without examination or successfully completing examinations in SWG 501, SWG 502 or SWG 519. Please note that, when applicable, the academic unit will provide a rationale for exemption for students if the student is not from a Bachelor of Social Work program accredited by the Council on Social Work Education.

Concurrent degrees are currently unavailable for the online Master of Social Work degree program.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Social Work, PHD (PPSW2PHD)

Online Degree Search Title: Social Work (PhD)

Campus: Downtown Phoenix

Program Description:

The purpose of the doctoral program in social work is to prepare future social work scholars. While there are many possible definitions of scholarship, the Arizona State University School of Social Work adheres to a broad definition.

A scholar in social work engages in research, teaching and service. The program introduces students to the complex range of roles and responsibilities of faculty and other social work roles of leadership. Critical thinking and creativity in research, teaching and service are at the core of the program.

Given the cultural and economic diversity of the Southwest, the program also strives to elaborate on the human potential embedded in the region's distinct experiences and perspectives. The university offers opportunities for scholarship integrating diverse cultural experiences such as those offered through specialized programs, including American Indian studies and Chicana/o studies, African and African American studies and Asian Pacific American studies. We hope our graduates will play key roles in integrating diversity in their social welfare activities with local, state and regional groups.

The program emphasizes enhancement of scholarship through:

- applied social work research in diverse community settings and populations of the Southwest
- participation in collegial decision-making
- participation in field education and community services
- teaching, from syllabus development to classroom teaching across the professional continuum

Students are expected to participate fully in research teaching and field liaison activities during their course of studies.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The doctoral program requires students to take a minimum of 36 course credit hours beyond the MSW and 84 beyond the bachelor's degree. Students may need to take additional course work to achieve the competency requirements set by the program or set by their graduate supervisory committees. Students must also take a minimum of 24 credit hours of dissertation related research (12 hours of SWG 792 and 12 hours of SWG 799).

Residency

Within the first year of matriculation, all students must complete the School of Social Work residency requirement (a minimum of nine credit hours in each semester of consecutive fall/spring or spring/fall semesters excluding summers).

Foreign Language Requirement

None.

Qualifying Examination

Students are given a qualifying examination in the semester following the completion of the first 18 hours of approved doctoral course work. Students who fail the examination may retake it. Students failing the qualifying examination twice will be dropped from the program.

Comprehensive Examination

Upon completion of course work and the qualifying examination, but before beginning dissertation research, students are given a written examination covering research, theory and methods in their substantive areas. If students should fail one or more components of the examination, a reexamination may be administered no sooner than three months and no later than one year from the date of the original examination. Approval of the reexamination must be obtained from the supervisory committee and dean of graduate studies.

Research and Dissertation Requirements

Each candidate must register for a minimum of 12 hours of research credit (SWG 792) and 12 hours of dissertation credit (SWG 799).

Final Examination

The final oral examination in defense of the dissertation is scheduled and conducted by the student's dissertation committee. A candidate must pass the final examination within five years after completing the comprehensive examination.

The following courses are required:

- nine hours of directed electives in an identified and chair-approved substantive area of which no more than three of these hours may be used in readings and conference or independent study courses
- three hours of theory course in a social science discipline
- 12 hours of required 700-level social work courses approved by the doctoral program committee
- 12 hours of research methods and statistics courses selected from an approved list provided by the doctoral program committee

Once the minimum 36 credit hours are completed, students are also required to register for 24 hours of dissertation research credit -- SWG 792 before proposal defense and SWG 799 after. Students must be registered for at least one credit hour during the semester (including summer) when they do their dissertation proposal defense. At least one of the dissertation hours must be taken in the semester the student expects to defend his or her dissertation.

Admission Requirements:

Criteria

Admission to the doctoral program in the School of Social Work is based on the following criteria:

- an MSW from an accredited school of social work, preferably with two or more years of post-degree employment in human services*

- experience in social work teaching or research and other scholarly activities
- experience with diverse populations
- goodness-of-fit with program goals
- good professional standing
- undergraduate and graduate GPA
- quality and extensiveness of social work experience
- research potential and creativity as demonstrated in requested essays and references
- scores of the GRE, with emphasis on verbal and analytic scores

Admission to the doctoral program requires completion of all admission requirements and procedures set forth by the Division of Graduate Education.

Please see the program website for application deadlines.

Application

All applicants must submit the following materials. All required admission materials are submitted directly to Graduate Admission Services at <https://students.asu.edu/graduate> (<https://students.asu.edu/graduate>). Contact the School of Social Work at 602-496-0800 if there are questions about the application process.

- a completed online graduate application
- application fee
- official transcripts of all undergraduate and graduate work
- curriculum vitae or resume
- GRE test scores
- personal statement**
- proof of English proficiency***
- three letters of reference
- required writing sample: social problem essay
- optional writing sample****

*Though an MSW is preferred, exceptions may be made for students with a BSW from an accredited school of social work and a master's degree in a related field and for students from countries without accreditation.

**Guidelines for writing the statement can be found at: <https://socialwork.asu.edu/content/application-and-admission> (<https://socialwork.asu.edu/content/application-and-admission>) under "PhD Application and Admission Information."

***An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

****Applicants have the option of submitting a sample of their written work. Examples include a referred journal article, a class paper, and a professional report such as one might write in an agency setting. The writing sample should illustrate the applicant's ability to succeed in the doctoral program. Guidelines for writing the statement can be found at: <https://socialwork.asu.edu/content/application-and-admission> (<https://socialwork.asu.edu/content/application-and-admission>).

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Social Work (Advanced Direct Practice), MSW (PPAPDTMSW)

Online Degree Search Title: Social Work - Advanced Standing - Direct Practice (MSW)

Campus: Downtown Phoenix, Tucson

Program Description:

The professional program leading to the MSW in social work program prepares social workers for advanced direct practice. The program is designed to prepare social workers who are capable of responding effectively to the needs of special populations in the Southwest. This program is located at the Downtown Phoenix campus and in Tucson. It is accredited by the Council on Social Work Education.

Degree Requirements: 39 credit hours and a thesis, or 39 credit hours including the required capstone course (SWG 621).

Students must start the program in summer (beginning with the first summer session) and complete three credit hours in each six-week summer session and three credit hours during the eight-week session, for a total of nine credit hours. The seven credit hours of summer courses are offered in Phoenix only. The summer practicum is available in Tucson. The remainder of the program is completed within two semesters (full time).

Students complete their practicum during the fall and spring semesters and select one of three specializations: children, youth and families health; health, behavioral health; or public child welfare. Students must also complete a capstone course.

Summer Session Course Work

SWG 516 Social Work Skills Seminar (3)

SWG 598 ST: Advanced Standing Bridge Seminar I (3)

SWG 598 ST: Advanced Standing Bridge Seminar II (3)

The following specialization courses are required:

Children, Youth and Families

SWG 606 Assessment of Mental Disorders (3)

SWG 608 Ecological Approach to Practice with Children, Youth and Families (3)

SWG 617 Advanced Social Work Practice with Children and Adolescents (3)

SWG 619 Practice-Oriented Research (3)

SWG 621 Integrative Seminar

SWG 641 Advanced Practicum: Direct Practice I (3)

SWG 642 Advanced Practicum: Direct Practice II (3)

Electives: Two electives must be from an approved list of electives. (9)

Health, Behavioral Health

SWG 603 Practice in Health/Behavioral Health Settings (3)

SWG 606 Assessment of Mental Disorders (3)

SWG 619 Practice-Oriented Research (3)

SWG 621 Integrative Seminar (3)

SWG 641 Advanced Practicum: Direct Practice I (3)

SWG 642 Advanced Practicum: Direct Practice II (3)

Choose one of the following courses:

SWG 604 Advanced Social Work Practice in Health (3)

SWG 613 Advanced Social Work Practice in Behavioral Health (3)

Electives: Two electives must be from an approved list of electives. (9)

Public Child Welfare

SWG 606 Assessment of Mental Disorders (3)

SWG 608 Ecological Approach to Practice with Children, Youth and Families (3)

SWG 609 Advanced Social Work Practice with Child Welfare Families (3)

SWG 619 Practice-Oriented Research (3)

SWG 621 Integrative Seminar (3)

SWG 633 Child Welfare Services (3)

SWG 641 Advanced Practicum: Direct Practice I (3)

SWG 642 Advanced Practicum: Direct Practice II (3)

Electives: The electives must be approved by Child Welfare Training Project staff. (6)

Admission Requirements:

Applicants must have a BSW from a Council on Social Work Education-accredited program with at least a 3.20 GPA (on a 4.00 scale) in the last two years of work leading to the BSW (junior and senior GPA). Applicants must have received their BSW no more than six years prior to the date of admission to the MSW program. All applicants are required to have completed a course in human biology and a course in statistics before enrolling in the advanced standing program.

Please see the program website for application deadlines. Applicants admitted to the advanced standing program begin classes in the summer.

All applicants must submit the following materials. All required admission materials are submitted directly to the Graduate Admission Services at <https://students.asu.edu/graduate> (<https://students.asu.edu/graduate>). Contact the School of Social Work at 602-496-0800 if there are questions about the application process.

- online graduate admission application
- application fee
- original transcripts of all undergraduate and graduate work
- three letters of reference*
- professional resume that includes volunteer and paid work experience
- statement of educational and career goals**

*A combination of academic and professional references is desirable. References from friends, family members or personal therapists are not accepted. At least one of the three required references must be from the applicant's BSW field instructor or, if employed in a social work-related job for two or more years, a recommendation from the applicant's supervisor.

**Guidelines for writing the statement can be found at: <https://socialwork.asu.edu/content/msw-application-proceduresmaterials> (<https://socialwork.asu.edu/content/msw-application-proceduresmaterials>)

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Social Work (Planning, Administration and Community Practice), MSW (PPCPDTMSW)

Online Degree Search Title: Social Work - Advanced Standing - (Planning, Administration and Community Practice) (MSW)

Campus: Downtown Phoenix, Tucson

Program Description:

The professional program leading to the MSW degree prepares social workers for leadership and effective practice in macro social work positions. The curriculum is designed to provide students with knowledge, skill and practice opportunities in the areas of program planning and evaluation, administration, policy analysis and advocacy, and community practice. The program is designed to prepare social workers to be capable of responding effectively to the needs of special populations in the Southwest. The master's degree program is accredited by the Council on Social Work Education and is located at the Downtown Phoenix campus and in Tucson.

Degree Requirements: 39 credit hours and a portfolio, or 39 credit hours and a thesis.

Students must start the program in summer (beginning with the first summer session) and complete three credit hours in each six-week summer session and three credit hours during the eight-week session, for a total of nine credit hours. The remainder of the program is completed within two semesters (full time).

Students continue with their practicum during the fall and spring semesters. The culminating experience is a portfolio or thesis.

Summer Session Course Work

SWG 516 Social Work Skills Seminar (3)

SWG 598 ST: Advanced Standing Bridge Seminar I (3)

SWG 598 ST: Advanced Standing Bridge Seminar II (3)

Planning, Administration and Community Practice (PAC)

SWG 623 Agency and Community-Based Research in Social Work (3)

SWG 632 Social Policy and Services II (3)

SWG 643 Advanced Practicum: Planning, Social Work Administration, and Community Practice I (3)

SWG 644 Advanced Practicum: Planning, Social Work Administration, and Community Practice II (3)

SWG 681 Social Work Administration (3)

SWG 682 Community Participation Strategies (3)

SWG 685 Program Planning in Social Services (3)
Electives (9)*

*Electives may be selected from offerings at the School of Social Work or courses offered through other departments with the approval of the MSW program coordinator.

Admission Requirements:

Applicants must have a BSW from a Council on Social Work Education-accredited program, with at least a 3.20 GPA (on a 4.00 scale) in the last two years of work leading to the BSW (junior and senior GPA). Applicants must have received their BSW no more than six years prior to the date of admission to the MSW program. All applicants are required to have completed a course in human biology and a course in statistics before enrollment in the advanced standing program.

Please see the program website for application deadlines. Applicants admitted to the advanced standing program begin classes in the summer.

All applicants must submit the following materials. All required admission materials are submitted directly to Graduate Admission Services at <https://students.asu.edu/graduate> (<https://students.asu.edu/graduate>).

- online graduate admission application
- application fee
- official transcripts of all undergraduate and graduate work sent to the Division of Graduate Education
- three letters of reference*
- professional resume that includes volunteer and paid work experience
- statement of educational and career goals**

*A combination of academic and professional references is desirable. References from friends, family members or personal therapists are not accepted. At least one of the three required references must be from the applicant's BSW field instructor or, if employed in a social work-related job for two or more years, from the applicant's supervisor.

**Guidelines for writing the statement can be found at: <https://socialwork.asu.edu/content/msw-application-proceduresmaterials> (<https://socialwork.asu.edu/content/msw-application-proceduresmaterials>)

Contact the School of Social Work at 602-496-0800 if there are any questions about the application process.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Sustainable Tourism, MAS (PPSUSTMAS)

Online Degree Search Title: Sustainable Tourism (MAS)

Campus: Online

Program Description:

Students in the MAS degree program in sustainable tourism receive a comprehensive education with a focus on the environmental, economic and social aspects of tourism, equipping them with the skills necessary to create pioneering sustainable development solutions to the challenges facing tourism today. This holistic curriculum focuses on integrating all three pillars of sustainability into existing tourism theories and concepts. The program prepares future sustainable tourism professionals to meet the increasing demand for people trained in sustainability practices and the

application of those practices in tourism. The program is offered by the School of Community Resources and Development.

Degree Requirements: 31 credit hours including the required applied project course (TDM 593).

Core Course Requirements: (24 credit hours)

- CRD 569 Advanced Tourism and Recreation Studies (3)
- TDM 520 Sustainable Thinking in Tourism (3)
- TDM 521 Sustainable Thinking in Tourism II (3)
- TDM 530 Sustainable Tourism Destination Planning and Management I (3)
- TDM 531 Sustainable Destination Planning and Management II (3)
- TDM 540 Sustainable Food Management in Tourism (3)
- TDM 550 Managing the Sustainable Tourism Business (3)
- TDM 570 Sustainable Tourism (3)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Tourism Development and Management, BS
- Tourism Development and Management (Resort and Hotel Leadership), BS
- Tourism Development and Management (Sustainable Tourism), BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

- submission of the online graduate admission application
- minimum of a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing in a related field such as tourism, hospitality, sustainability, environmental studies, business, geography or planning
- minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's bachelor's degree program
- three letters of recommendation*
- proof of English language proficiency**

*The online application will require three letters of recommendation; these should be from current or former employers, current or former faculty members, or others who are familiar with the applicant's scholarly and professional abilities and characteristics. Required are the names, email addresses, titles and organizations from whom the student will be requesting recommendations. The three referees will be emailed a link to complete an online recommendation form.

**A Test of English as a Foreign Language (TOEFL) is required for any applicant whose native language is not English, regardless of current residency, <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Sustainable Tourism (certificate), Certificate (PPSTGRCT)

Online Degree Search Title: Sustainable Tourism (Cert)

Campus: Online

Program Description:

The online graduate certificate in sustainable tourism, offered by the School of Community Resources and Development, is intended for professionals who work in or desire to work in the tourism industry. The program addresses the unique character of sustainability and sustainable practices in tourism development and management. Students interested in sustainable tourism management explore the practice of management

and development of sustainable tourism businesses and destinations.

Students who complete the 18 credit hour certificate will have knowledge in topics such as the integration of economic, social and environmental aspects of sustainability as it relates to tourism; conducting sustainability audits for destinations and businesses; community impacts of tourism; and sustainable destination and business planning and management.

The program allows graduates enhanced recognition and credentials in an area experiencing a great deal of interest and growth. Students in the program will be able to further their careers by obtaining advanced education specific to sustainability practices in tourism.

Degree Requirements: 18 credit hours.

Core Required Courses:

TDM 520 Sustainable Thinking in Tourism I (3)
TDM 521 Sustainable Thinking in Tourism II (2)
TDM 530 Sustainable Destination Planning and Management I (3)
TDM 531 Sustainable Destination Planning and Management II (2)
TDM 561 Best Practices Workshop Preparation (1 credit-Fall B)
TDM 562 Best Practices Workshop Presentation (1)
TDM 570 Sustainable Tourism (3)

Electives: (choose one)

TDM 540 Sustainable Food Management in Tourism (3)
TDM 550 Managing the Sustainable Tourism Business (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Admission Requirements:

All applicants must complete the online graduate admission application. A bachelor's degree from a regionally accredited college or university recognized by ASU is required, with a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's bachelor's degree program.

Two letters of recommendation from current or former employers, current or former faculty members, or others who are familiar with the applicant's scholarly and professional abilities and characteristics, are to be submitted through the online application.

The Test of English as a Foreign Language (TOEFL) is required for any applicant whose native language is not English (regardless of current residency). Please visit <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>) for more information.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Trauma and Bereavement (certificate), Certificate (HSCTBGRCT)

Online Degree Search Title: Trauma and Bereavement (Grad Certificate)

Campus: Downtown Phoenix

Program Description:

There is a growing need in society for health care workers and clinicians to be better prepared to help clients and patients experiencing trauma. The School of Social Work graduate certificate program in trauma and bereavement prepares individuals to work in the field of death and dying as well as trauma and bereavement in clinical, organizational and administrative settings. The program provides students with enhanced knowledge about grief responses and the effects of trauma and opportunities for students to research an often under-explored topic, while helping transform the sociopolitical management of grief, traumatic losses and end-of-life issues in contemporary society.

In addition to tuition and class fees, there is a \$500 one-time program fee.

Degree Requirements: 15 credit hours.

The certificate requires 15 credit hours of graduate course work and a culminating experience: Research/Applied Project/Internship (3).

Admission Requirements:

Please see the program website for application deadlines.

All applicants must submit the online graduate admission application, official transcripts (if not on file with ASU) and the application fee.

In addition, the following materials are to be submitted to the School of Social Work:

- two- to four-page, doubled-spaced, personal statement (guidelines are listed on the application)
- resume
- School of Social Work certificate application (available on the department website)
- three references, on the forms available on the department webpage

No more than two certificate courses may be completed before applying for admission to the certificate program.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the College of Public Service and Community Solutions.

Sustainability, School of

Complex Adaptive Systems Science (certificate), Certificate (SUCASGRCT)

Online Degree Search Title: Complex Adaptive Systems Science Certificate

Campus: Downtown Phoenix, Polytechnic, Tempe

Program Description:

The complex adaptive systems science graduate certificate trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive system science at Arizona State University and emphasizes the value of a complex adaptive systems perspective to give science better insight and a more active role in seeking solutions to a broad array of critical issues facing our society today. Students will be fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines. Students pursuing the certificate will need to have a complex adaptive systems science faculty member on their supervisory committee.

Degree Requirements: 15 credit hours.

core course credit hours (12)

elective course credit hours (3)

Admission Requirements:

All students must be enrolled and in good standing in an ASU doctoral program or be accepted into such a program for incoming students.

Students must complete an application and submit a statement of intent to the complex adaptive system science graduate faculty as well as a copy of their current transcript and a letter of support from an ASU faculty member (for existing ASU students) or other faculty member (for incoming students).

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the School of Sustainability.

Global Sustainability Leadership (certificate), Certificate (SUSUSGGRCT)

Online Degree Search Title: Global Sustainability Leadership (Graduate Certificate)

Campus: Online

Program Description:

The graduate certificate in global sustainability leadership will provide training to U.S. Army and Army National Guard leaders (e.g., field-grade officers, senior civilians and state environmental program managers) to enhance their ability to instill and manage sustainable practices throughout the Army and Army National Guard. Courses will emphasize providing leadership across lines of operation and areas of responsibility. The program emphasizes the application of sustainability tools, techniques and concepts to issues on bases and installations in the U.S., Europe and Asia, and to bases in Iraq, Afghanistan or other areas to which the Army may be deployed.

Degree Requirements: 15 credit hours.

Students are expected earn a "B" (3.00) or better in each course. It is also expected that they complete the program in three years, but they can finish the program in one or two years depending on how many courses they take each semester.

Admission Requirements: • An applicant must be a soldier or civilian in the Army or Army National Guard.

- A minimum of a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university is required.
- A minimum of a 3.00 cumulative GPA (4.00 = "A" scale) in the last 60 hours of a student's bachelor's program is required.
- A resume or curriculum vitae is optional.
- A statement of intent is required (details are noted in the application).

Applicants must fulfill the requirements of both the Division of Graduate Education and the School of Sustainability.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated,7.5-week classes. View the program description and request more information here.

Sustainability, MA (SUSUSTMA)

Online Degree Search Title: Sustainability (MA)

Campus: Tempe

Program Description:

The MA in sustainability is a research-oriented degree that culminates with research writing (either a thesis or capstone in the form of a publishable, scientific paper). The program focuses on knowledge generation and designing new ways to address sustainability challenges and prepares students for designing and conducting transdisciplinary research. Although the graduate degree programs emphasize the integration of a broad range of expertise in student training, this master's degree program is best suited to students inclined toward social sciences, humanities, planning or related fields and who are interested in a career in research or academia. Students learn how different disciplines view and approach the

challenges of sustainability in theory, research and practice. They develop the academic and technical skills as well as the ethical insights that will help them understand, research and provide solutions to complex sustainability challenges at the local, regional, national and global levels. Students can also apply to participate in the Master's International Peace Corps Program or the USAID Global Development Research Program, which works in conjunction with this program.

All sustainability graduate students will possess:

- an understanding of the need for a transdisciplinary approach to solving sustainability challenges
- the ability to communicate their work to professionals in other disciplines and to policymakers and the general public
- the breadth of vision to recognize the interconnectedness of social, economic, environmental and technical systems
- the critical-thinking skills to approach sustainability challenges from a systems perspective
- the skills needed to work effectively in interdisciplinary teams
- the technical skills to formulate and solve problems at the appropriate scale

Degree Requirements: 37 credit hours and a thesis, or 37 credit hours including a capstone course (SOS 596).

Each student will formulate a plan of study in consultation with their supervisory committee. The master's degree program is divided into the following:

Core: (19 credit hours)

SOS 510 Perspectives on Sustainability (3)

SOS 520 Research Design and Methods for Sustainability (3)

SOS 525 Social-Ecological-Technical Systems: Domains and Interfaces (3)

SOS 579 Proposal Writing (3)

SOS 581 Synthesis for Sustainability Research (3)

SOS 589 SOS Community of Graduate Student Scholars (1)*

Electives: (15 credit hours)

Methods and Methodology Electives (6)

Normative Dimensions of Sustainability Electives (3)

General (6) electives including but not limited to the following prefixes:

SOS, ASB, ART, PAF, SGS, POS, SOC, PSB, PGS, PHI, COM, CPP, CRD, ESS, PGV, NTR, MCO, GCU, SCM, HPS, HST, JHR, JMC, JUS, LAW, LES, PUP, SBS, RTM, STS, TDM, URB

Culminating Experience: (6 credit hours)

SOS 596 Capstone (Scientific Paper) (6) or SOS 599 Thesis (6)

*taken over four semesters, for four credit hours total

Students who are also part of the Master's International Peace Corps Program must complete a Peace Corps assignment abroad, and it is expected that their thesis or capstone scientific paper will be drawn from their experience in the Peace Corps. Students in the program will earn six credit hours toward the master's program requirements.

The taught-course element of the program will be evaluated through course-specific examinations, research papers or applied projects and will be considered to have been successfully completed if the student obtains a GPA of 3.25 or higher. Division of Graduate Education policies and procedures for fulfillment of degree requirements must also be met.

Admission Requirements:

Applicants must submit an online graduate admission application.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The school encourages applicants with diverse educational backgrounds and experience that are relevant to the school's core objectives. In addition to the general requirements for admission to the Division of Graduate Education, the school requires:

- a 3.25 GPA in the last 60 credit hours of undergraduate course work
- a statement of intent*
- GRE scores
- three letters of recommendation
- resume or curriculum vitae

*The statement of intent should not exceed 600 words and should:

- Describe how the applicant's background will contribute to success in the program.
- Describe how completion of the degree will support long-term career goals.
- Elaborate on key research questions the applicant wishes to address or problems to solve as part of the plan of study.
- Identify potential faculty advisors.

Students interested in applying to participate in the Master's International Peace Corps Program will be able to do so after they've been admitted to the master's degree program.

Applicants must fulfill the requirements of both the Division of Graduate Education and the School of Sustainability.

Sustainability, PHD (SUSUSTPHD)

Online Degree Search Title: Sustainability (PhD)

Campus: Tempe

Program Description:

The PhD in sustainability is offered for students who have completed a bachelor's degree or master's degree program. The doctoral program prepares students to become scientists and leaders in research, to investigate the urgent sustainability challenges of this century. Graduates will possess an advanced understanding of the dynamics of coupled socioecological systems and be able to lead others in research providing adaptive solutions to specific sustainability challenges. The flexible, transdisciplinary nature of the program allows students to focus on problems of interest to them, drawing upon relevant knowledge from a variety of disciplines. Students can also apply to participate in the USAID Global Development Research Program, which works in conjunction with this program.

All sustainability graduate students will possess:

- an understanding of the need for a transdisciplinary approach to solving sustainability challenges
- the ability to communicate their work to professionals in other disciplines and to policymakers and the general public

- the breadth of vision to recognize the interconnectedness of social, economic, environmental and technical systems
- the critical-thinking skills to approach sustainability challenges from a systems perspective
- the skills needed to work effectively in transdisciplinary teams
- the technical skills to formulate and solve problems at the appropriate scale

In addition to the common learning outcomes, students will be able to:

- conduct research on particular sustainability challenges using standard skills, including the capacity to identify problems; formulate and test hypotheses; use statistical, econometric and geographical information-system techniques to construct and analyze datasets; and build and apply models
- lead others in the analysis and design of the built environment and institutions' policies, regulations and technologies to support sustainable development
- lead others in applying these concepts and methods to the development of sustainable strategies for water, land, air and urban management at the local and global levels
- understand the concepts and methods of a number of critical disciplines bearing on the sustainability of systems at different spatial and temporal scales

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Students may be admitted to the program with a bachelor's degree or master's degree from relevant fields. The degree requirement is 84 credit hours of work beyond the level of a bachelor's degree. Up to 30 credit hours from a previously awarded master's degree in a related field can be accepted toward the fulfillment of the doctoral requirements. Each student formulates a plan of study in consultation with his or her supervisory committee. The doctoral program is divided into the following four areas:

- core courses
- applied workshops
- elective courses
- required research and dissertation

Each plan of study must include 24 credit hours of a combination of research and dissertation. The taught-course element of the program will be evaluated through course-specific examinations and also research papers or applied projects and will be considered to have been successfully completed if the student obtains a GPA of 3.25 or higher. Division of Graduate Education policies and procedures for fulfillment of degree requirements must also be met.

Admission Requirements:

Applicants must submit an online graduate admission application.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The school encourages applicants with diverse educational backgrounds and experience that are relevant to the school's core objectives. In addition to the general requirements for admission graduate study, the school requires:

- a 3.25 GPA in the last 60 credit hours of undergraduate work
- a statement of intent*
- GRE scores
- three letters of recommendation
- resume or curriculum vitae

*The statement of intent should not exceed 600 words and should:

- describe how the applicant's background will contribute to success in the program
- describe how completion of the degree will support long-term career goals
- elaborate on key research questions the applicant wishes to address or problems to solve as part of the plan of study
- identify potential faculty advisors

Applicants must fulfill the requirements of both the Division of Graduate Education and those of the School of Sustainability.

Sustainability (Complex Adaptive Systems Science), PHD (SUSUSTCPHD)

Online Degree Search Title: Sustainability (Complex Adaptive Systems Science) (PhD)

Campus: Tempe

Program Description:

The complex adaptive systems science concentration under the PhD in sustainability trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems science at Arizona State University and emphasizes the value of a complex adaptive systems science perspective, to give better insight and a more active role in seeking solutions to a broad array of critical issues facing our society today. Students will be fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

The PhD in sustainability is offered for students who have completed a bachelor's degree or master's degree program. The doctoral program prepares students to become scientists and leaders in research, to investigate the urgent sustainability challenges of this century. Graduates will possess an advanced understanding of the dynamics of coupled socioecological systems and be able to lead others in research providing adaptive solutions to specific sustainability challenges. The flexible, transdisciplinary nature of the program allows students to focus on problems of interest to them, drawing upon relevant knowledge from a variety of disciplines.

All sustainability graduate students will possess:

- an understanding of the need for a transdisciplinary approach to solving sustainability challenges
- the ability to communicate their work to professionals in other disciplines, policymakers and the general public
- the breadth of vision to recognize the interconnectedness of social, economic, environmental and technical systems
- the critical-thinking skills to approach sustainability challenges from a systems perspective
- the skills needed to work effectively in interdisciplinary teams
- the technical skills to formulate and solve problems at the appropriate scale

In addition to the common learning outcomes, students will be able to:

- conduct research on particular sustainability challenges using standard skills, including the capacity to identify problems; formulate and test hypotheses; use statistical, econometric and geographical-information-system techniques to construct and analyze datasets; and build and apply models
- lead others in the analysis and design of the built environment and institutions' policies, regulations and technologies to support sustainable development
- lead others in applying these concepts and methods to the development of sustainable strategies for water, land, air and urban management at the local and global levels
- understand the concepts and methods of a number of critical disciplines bearing on the sustainability of systems at different spatial and temporal scales

Students pursuing the concentration will need to have a complex adaptive systems science faculty member as the chair or co-chair of their supervisory committee.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The requirements of the PhD in sustainability must be met. In addition to those requirements, students pursuing the concentration in complex adaptive systems science must fulfill:

- approved course work related to complexity (12)
- CASS-related research credit (3)

At least one member of the student's doctoral supervisory committee must be a complex adaptive systems science faculty member, and the dissertation must include complex adaptive systems science approaches.

Admission Requirements:

Applicants must submit an online graduate admission application.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The school encourages applicants with diverse educational backgrounds and experience that are relevant to the school's core objectives. In addition to the general requirements for admission to the Division of Graduate Education, the school requires:

- a 3.25 GPA in the last 60 credit hours of undergraduate work
- a statement of intent*
- GRE scores
- resume or curriculum vitae
- three letters of recommendation

*The statement of intent should not exceed 600 words and should do the following:

- Describe how the applicant's background will contribute to success in the program.
- Describe how completion of the degree will support long-term career goals.
- Explain why the applicant is applying to the School of Sustainability and, more specifically, the doctoral program with the complex adaptive systems science concentration.
- Elaborate on key research questions the applicant wishes to address or problems to solve as part of the plan of study.
- Identify potential faculty advisors.

Applicants must fulfill the requirements of both the Division of Graduate Education and the School of Sustainability.

Sustainability Leadership, EMSL (SUEMSLEMSL)

Online Degree Search Title: Sustainability Leadership - Executive (EMSL)

Campus: Tempe

Program Description:

The Executive Master of Sustainability Leadership program prepares experienced professionals to significantly advance sustainability practices in the workplace. The program will equip graduates to lead institutional and cultural change for their companies, organizations, communities and their own careers. The accelerated curriculum is designed specifically for the working professional and can be completed in one year through a combination of unique in-person experiences (including an international immersive), online course content and a capstone project. The degree program, which includes focus areas in leadership, strategy, communications and global context, is uniquely powerful because it is backed by the extensive knowledge base of the Julie Ann Wrigley Global Institute of Sustainability at ASU and its more than 300 sustainability scientists and scholars and a host of world-class sustainability and leadership professionals.

Degree Requirements: 30 credit hours including the required capstone courses (EMS 515 and EMS 516).

The curriculum for this program is focused around four principal themes: global context, strategy, communications and leadership. Students are required to complete 30 credit hours, including three in-person sessions --- two sessions at ASU campus and one abroad (EMS 508).

Core courses: (27 credit hours)

- EMS 501 Sustainability Leadership Workshop I (1)
- EMS 502 Global Context I (2)
- EMS 503 Strategic Sustainability I (2)
- EMS 504 Communications and Sustainability I (2)
- EMS 505 Sustainability Leadership I (2)
- EMS 506 Global Context II (2)
- EMS 507 Strategic Sustainability II (2)
- EMS 508 International Immersive (2)
- EMS 509 Communications and Sustainability II (2)
- EMS 510 Sustainability Leadership II (2)
- EMS 511 Global Context III (2)
- EMS 512 Strategic Sustainability III (2)
- EMS 513 Communications and Sustainability III (2)
- EMS 514 Sustainability Leadership III (2)

Culminating experience: (3 credit hours)

- EMS 515 Capstone I (2) and EMS 516 Capstone II - Sustainability Leadership Workshop II (1)

Admission Requirements:

Degree: Applicants must have earned a U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that country.

GPA: The School of Sustainability requires the equivalent of a minimum GPA of 3.00 in the last 60 semester hours or 90 quarter hours of undergraduate work. Given that this is an executive master's degree for experienced professionals, work and life experience may be taken into account in lieu of minimum GPA or other aspects of past bachelor's degree program experience. Applicants with GPAs below 3.00 may be admitted on a provisional status. Applicants should contact the program for more details if their GPA falls below the 3.00 requirement.

Work Experience: Applicants to the program should be interested in and passionate about advancing sustainability in their organizations, either directly or indirectly. Successful candidates will be expected to draw from and apply solutions to actual professional challenges and opportunities. Applicants should contact the program for more details if they are currently not employed.

English Proficiency: An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. For more details about the English proficiency requirement or to determine if an applicant qualifies for an exemption, please review the ASU graduate admission English proficiency requirements or contact the program for further guidance.

Applicants must fulfill the requirements of both the Division of Graduate Education and the School of Sustainability.

For a complete list of application requirements, please visit: <https://sustainabilitysolutions.asu.edu/programs/executivemasters/#apply> (<https://sustainabilitysolutions.asu.edu/programs/executivemasters/#apply>).

Sustainability Leadership, MSL (SUSUSLMSL)

Online Degree Search Title: Sustainability Leadership (MSL)

Campus: Online

Program Description:

A sustainable future requires leaders who are able to integrate sustainability into existing institutions and new enterprises. A particular knowledge base and skill set is required to drive this kind of transformational change. Because sustainability is a relatively new field of study, professionals who are interested in this emerging field have often migrated into sustainability roles without formal training and education in sustainability practice. Today's sustainability professionals may have extensive experience and academic training in a particular area --- such as engineering, accounting, operations or communications --- yet lack the sustainability skills and knowledge to advance their work and careers.

The Master's of Sustainability Leadership program teaches organizational leadership skills through the lens of sustainability. This program equips graduates to drive high-impact transformative results for their companies, organizations, communities and their own careers. The curriculum includes four synergistic thematic areas:

- communications and change management
- global context of sustainability
- leadership for sustainability
- sustainability and strategy

The program also includes opportunities for students to include electives that are related to their specific area of interest.

Degree Requirements: 35 credit hours including the required Applied Project Course (SOS 593).

Core Courses: (25 credit hours)

EMS 502 Global Context (2)

EMS 503 Strategic Sustainability I (2)

EMS 504 Communications and Sustainability (2)

EMS 505 Sustainability Leadership I (2)

EMS 506 Global Context II (2)

EMS 507 Strategic Sustainability II (2)

EMS 509 Communications and Sustainability II (2)

EMS 510 Leadership II (2)
EMS 511 Global Context III (2)
EMS 512 Strategic Sustainability III (2)
EMS 513 Communications and Sustainability III (2)
EMS 514 Leadership III (2)
SOS 501 Foundations of Sustainability (1)

Focus Area Electives (6)

Culminating Experience:

SOS 593 Applied Project (4)

Admission Requirements:

A wide array of academic backgrounds will be considered in combination with professional and life experience for those applying to the MSL program. Students should have a minimum of three years of professional or organizational experience or the equivalent. In addition to the general requirements for admission to the Division of Graduate Education, the school requires:

- a minimum of a bachelor's or master's degree
- 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program*
- a CV or resume
- a portfolio exemplary of their work**

*For applicants who have a GPA below 3.00, professional experience and statement of intent may be submitted in order to be considered for admission provisionally.

**Where appropriate, given the background experience described, students may be asked to provide a portfolio of their work. This can include samples of writing, presentations, planning documents and professional reports.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division Graduate Education and the School of Sustainability.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Sustainability Solutions, MSUS (SUSUSOMSUS)

Online Degree Search Title: Sustainability Solutions (MSUS)

Campus: Tempe

Program Description:

The MSUS program focuses on the application of established knowledge in sustainability and prepares students to develop solutions, working with stakeholders on sustainability challenges using a sustainability framework. The program is also designed to prepare students to apply sustainability principles and approaches to careers in a variety of fields, addressing complex human and environmental challenges. Students will have a knowledge base and skill set to bring sustainability solutions to corporate, government and NGO sectors. Students begin the program with a foundation in sustainability theory and methods, then are allowed to specialize in a customizable focus area or select from other focus areas such as:

- communication
- entrepreneurship
- international development
- nonprofit organization
- policy and administration
- technology and society

A distinguishing element of the program is its applied approach and emphasis on solutions. This includes a course on managing sustainability projects as well as the capstone experience, in which students will do an internship, applied project or workshop (in lieu of a thesis). Students are encouraged to apply sustainability principles and approaches to their chosen career field. They will be teaming up with a company, government agency or nongovernmental organization to develop a real-world sustainability solution. This practical experience will position graduates perfectly in today's competitive, knowledge-intensive job market. Students can also apply to participate in the USAID Global Development Research Program, which works in conjunction with this program.

Degree Requirements: 33 credit hours including the applied project requirement of (SOS 593).

The curriculum consists of the following:

Total semester hours required (33)

core courses (6)

SOS 510 Perspectives on Sustainability (3)

SOS 511 Methodology of Sustainability Research and Problem Solving (3)

foundational courses (9)

methods courses (5)

career preparation course (1)

SOS 531 Achieving Career Success in Sustainability (1)

project management course (3)

SOS 582 Project Management for Sustainability (3)

focus electives (6)

culminating experience (3)

SOS 593 Applied Project

*No more than six credit hours of 400-level course work can be included in plan of study.

**The Division of Graduate Education policies and procedures for fulfillment of degree requirements must also be met.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

Legal Studies (MLS)

Master of Mass Communication (MMC)

Public Administration (MPA) - Downtown Phoenix

Public Policy (MPP)

Urban and Environmental Planning (MUEP)

Admission Requirements:

Applicants must submit an online graduate admission application.

An applicant whose native language is not English (regardless of current residency) must provide proof of English language proficiency.

The school encourages applicants with diverse educational backgrounds and experiences that are relevant to the school's core objectives. In addition to the general requirements for admission to the Division of Graduate Education, the school requires:

- a 3.00 GPA in the last 60 credit hours of undergraduate work
- a statement of intent
- GRE scores
- three letters of recommendation
- resume or curriculum vitae

The statement of intent should not exceed 600 words and should:

- Explain the goals the applicant intends to achieve through the plan of study.
- Describe how the applicant's background will contribute to success in the program.

- Explain how completion of the degree will support long-term career goals.
- Elaborate on project ideas the applicant wishes to pursue as part of the program of study.

Applicants are required to fulfill the requirements of both the Division of Graduate Education and the School of Sustainability.

Teachers College, Mary Lou Fulton

Advanced Analytics in Higher Education, Certificate (TEAAHEGRCT)

Online Degree Search Title: Advanced Analytics in Higher Education (Grad Certificate)

Campus: Tempe, Online

Program Description:

The graduate certificate program in advanced analytics in higher education prepares professionals in higher education to conduct advanced analytics to assist university personnel in making management decisions within higher education. Coursework addresses topics such as application of data mining, predictive analytics, sentiment analysis and statistical techniques as well as data management and security, data visualization and contextualization within higher education. The program emphasizes application of theory in practice. Students will use data from their own work context for a project in every course, allowing them to immediately apply their learning to data with which they are already familiar.

Degree Requirements: 15 credit hours.

Core (15)

HED 603 Foundation of Data Analytics in Higher Education (1)

HED 604 Analytics Process and Technology in Higher Education (2)

HED 605 Data Management and Preparation for Higher Ed Analytics (3)

HED 606 Advanced Analytic Methods for Higher Education (3)

HED 607 Visualization and Presentation for Higher Education (3)

HED 608 Trends in Analytic Methods for Higher Education (3)

Admission Requirements:

Applicants who meet the following requirements are eligible to apply:

- minimum of a bachelor's degree (business, economics, education, psychology or equivalent) or master's degree from a regionally accredited college or university
- minimum of a 3.00 cumulative GPA (scale is 4.0 = "A") in the last 60 hours of a student's first bachelor's degree program; minimum of 3.00 cumulative GPA (scale is 4.0 = "A") in an applicable master's degree program
- required to have at least 3 years working in higher education or a related field, and have taken at least one graduate or undergraduate statistics course with a grade of "B" or better

Applicants are required to submit:

- graduate admission application and application fee

- official transcripts
- proof of English proficiency*

* Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

An Overview of Autism Spectrum Disorders (certificate), Certificate (EDSPEGRCA)

Online Degree Search Title: An Overview of Autism Spectrum Disorders (Grad Certificate)

Campus: Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. Our master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The graduate certificate program in an overview of autism spectrum disorders is ideal for educators, interventionists, paraprofessionals, psychologists, pathologists, behavior analysts or family members who want to enhance their preparation for working with children and adults affected with autism spectrum disorder.

The online program can benefit those interested in the fields of teaching, counseling, social work, speech pathology, various fields of therapy and program management in any area that provides services to individuals on the autism spectrum.

Students can complete the graduate certificate within a two-year period while concurrently pursuing a graduate degree or as a stand-alone certificate. Students interested in sitting for the national Board Certified Behavior Analyst exam should apply for the MEd in curriculum and instruction applied behavior analysis concentration or the applied behavior analysis graduate certificate, depending on interest and need.

Degree Requirements: 15 credit hours.

- SPE 520 Reading and Communication Strategies for Individuals with Autism (3)
- SPE 521 Foundations of Autism Spectrum Disorders (3)
- SPE 531 Methods of Applied Behavior Analysis for Exceptional Populations (3)
- SPE 566 Applied Behavior Analysis in Inclusive Settings (3)
- SPE 580 Practicum (3)

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required for admission.

Applicants must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Applied Behavior Analysis (Certificate), Certificate (TEABAGRCT)

Online Degree Search Title: Applied Behavior Analysis

Campus: Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. The master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The graduate certificate program in applied behavior analysis pairs research and experience to prepare professionals to work with individuals with special learning and behavior needs using the principles of applied behavior analysis.

Applied projects and assignments allow students to focus on the population with which they plan to work, while gaining the knowledge and skills to use applied behavior analysis across various populations and settings. Graduates will be well prepared to provide applied behavior analysis and evidence-based consultative services and support to clients, community and family members across a variety of settings.

Mary Lou Fulton Teachers College offers university course work pre-approved by the Behavior Analyst Certification Board for students interested in sitting for the board-certified behavior analyst examination. Once certified, these professionals are equipped to meet diverse behavior needs and make a lasting difference in the community. The course sequence meets the Behavior Analyst Certification Board-required 270 classroom hours of graduate-level instruction aligned with the fourth Edition Task list. BCBA supervision hours, required for certification, are arranged and completed by the student separately from ASU course work. Students seeking the master's degree as well as the pre-approved university course work for the BCBA exam should apply to the MEd in curriculum and instruction, applied behavior analysis concentration.

Degree Requirements: 18 credit hours.

Required Courses: (18 credit hours)

SPE 531 Methods of Applied Behavior Analysis for Exceptional Populations (3)

SPE 565 Behavior Change Systems (3)

Curriculum and Instruction (Teaching and Learning), MEd (EDDCIMED)

Online Degree Search Title: Teaching and Learning (MED)

Campus: Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MEd program in curriculum and instruction, teaching and learning concentration, facilitates the development of advanced level professional knowledge, skills and understanding through research and applied experiences. The program provides a customized experience in a content area related to education.

The concentration in teaching and learning is for practitioners across all disciplines and grades and has three areas of specialization:

- applied behavior analysis
- autism spectrum disorders
- gifted education

Students interested in pursuing a degree in one of the specialization areas listed should apply for the Master of Education in curriculum and instruction with that concentration.

Degree Requirements: 30 credit hours including the required applied project course (SPE 593), or 30 credit hours including the required capstone course (SPE 597).

Students will complete 30 hours in their focus area and a culminating project to be embedded within a course, depending on the specialization.

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required for admission.

Applicants must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Curriculum and Instruction (Accomplished Teaching), MA (EDACCTCMA)

Online Degree Search Title: Accomplished Teaching (MA)

Campus: Tempe

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. Our master's degree and doctoral programs prepare graduates to thrive in their careers and play a leadership role in advancing the world's most important profession.

The MA in curriculum and instruction, accomplished teaching concentration, is designed for classroom teachers who want to enhance their instructional performance and deepen their understanding of educational theory and practice. Students will improve their understanding of student learning and assessment, and develop skills in conducting action research.

Students completing this degree will focus on improving their practice and strengthening their foundation in teaching and research. To enhance their knowledge and skills, students may select from an array of elective courses in educational psychology, educational foundations and subject-specific courses offered online and on campus. Students should consult with a faculty advisor or academic advisor on their selections.

Students who wish to deepen their knowledge of a specific area may select from the following foci:

Special Education:

Choose electives from an array of online courses that focus on autism spectrum disorders or applied behavioral analysis. Students may elect to take the course work that prepares them for the Board Certified Behavior Analyst examination.

Gifted Education:

Online electives are designed to meet the Arizona gifted education, K-12 endorsement.

Educational Technology:

Students may choose from campus-based or online electives that provide the skills and knowledge to develop skills in online instruction or to develop a broader knowledge base of technology uses in education.

English as a Second Language:

Students may choose from online electives that provide the skills and knowledge to work with English Language Learners in a variety of settings.

Early Childhood Education:

Students may choose from online electives that provide the skills and knowledge to work with young children in a variety of settings.

Each degree candidate completes an applied project under the direction of an advisor.

Degree Requirements: 30 credit hours including the required applied project course (DCI 593).

Required core courses (15)
Elective courses (12)
DCI 593 Applied Project (3)

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required for admission.

Applicants must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Curriculum and Instruction (Applied Behavior Analysis), MEd (TEABAMED)

Online Degree Search Title: Curriculum and Instruction (Applied Behavior Analysis)

Campus: Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MEd program in curriculum and instruction, applied behavior analysis concentration, pairs research and experience to prepare professionals to work with individuals with special learning and behavior needs using the principles of applied behavior analysis.

The course work prepares students to use applied behavior analysis to address a variety of learning and behavior needs across a range of professions and settings. All courses are online, combining a range of resources and technologies to provide students the opportunity to interact directly with program faculty and classmates. Program graduates will be well prepared to provide applied behavior analysis and evidence-based consultative services and support to clients, community and family members across a variety of settings.

Mary Lou Fulton Teachers College offers university course work preapproved by the Behavior Analyst Certification Board for students interested in sitting for the Board Certified Behavior Analyst examination. Professionals with this certification are equipped to meet diverse behavior needs and make a lasting difference in the community. The course sequence meets the Behavior Analyst Certificate Board-required 270 classroom hours of graduate-level instruction aligned with the fourth edition task list. BCBA supervision hours, required for certification, are arranged and completed by the student separately from ASU course work. Students not seeking the master's degree but interested in only the preapproved university course work for the BCBA exam may apply to the applied behavior analysis graduate certificate.

Degree Requirements: 30 credit hours including the required capstone course (SPE 597).

Curriculum and Instruction (Autism Spectrum Disorders), MEd (TEASDMED)

Online Degree Search Title: Curriculum and Instruction (Autism Spectrum Disorders)

Campus: Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MEd program in curriculum and instruction, autism spectrum disorders concentration, equips individuals with specialized skills and knowledge to work effectively with children and adults affected with autism.

The steady rise in number of those affected by autism has caused a public demand for professionals who are aware of the issues and needs facing these special individuals, their families and service providers. Program graduates will be well prepared to provide important services and care for individuals with autism spectrum disorders in a variety of roles, including as educators, interventionists, paraprofessionals, psychologists, speech pathologists, behavior analysts or family members.

Each student completes a practicum customized to individual interests and abilities. The program culminates with a capstone experience in which students demonstrate analysis and synthesis of material learned in the master's program and evidence of competency in the six Council for Exceptional Children autism standards.

Students interested in sitting for the national Board Certified Behavior Analyst exam should apply to the master's degree in curriculum and instruction, applied behavior analysis concentration or the applied behavior analysis graduate certificate, depending on interest and need.

Degree Requirements: 30 credit hours including the required capstone course (SPE 597) and Practicum (SPE 580).

core credit hours (3)

concentration credit hours (18)

elective credit hours (3)

culminating experience: SPE 597 Capstone (3)

SPE 580 Practicum (3)

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee

- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required for admission.

Applicants must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Curriculum and Instruction (Early Childhood Education), MEd (TEECMED)

Online Degree Search Title: Early Childhood Education - Certification/Endorsement (MED)

Campus: Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MEd program in curriculum and instruction, early childhood education concentration, prepares individuals to meet the educational, social and emotional needs of children from birth through age eight.

Through online course work, applied activities and in-person clinical experiences, the program equips students with specialized skills and advanced knowledge in early childhood pedagogy, community collaboration, technology, administration, policy analysis and advocacy.

The master's degree is appropriate for students interested in learning about early childhood education research and working with infants and children in grades K-3. This track may be of interest to students who already have a teaching certificate and are interested in furthering their knowledge and skills or pursuing doctoral studies in the future.

Another option is the master's degree with an early childhood education endorsement (birth through age eight or through grade three), which familiarizes students with the most current trends and issues in the field. This track may be of interest to students with an elementary or special education teaching certificate who want to serve children birth through kindergarten.

A third option is the Master's and Arizona Certification in Early Childhood Education program, which provides students with the course work and practical experiences necessary to become licensed to teach children birth through grade three in the public schools. The program provides participants an institutional recommendation for an Arizona Early Childhood Education (birth through age eight or through grade three) certification and the master's degree.

All courses are online, but clinical experiences are completed in person.

Degree Requirements: 30 credit hours including the required applied project course (ECD 593).

Students in this program will complete an applied project within their plan of study as a culminating activity.

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required for admission.

Students must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Curriculum and Instruction (English as a Second Language), MA (EDESLMA)

Online Degree Search Title: English as a Second Language (MA)

Campus: Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU' Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MA program in curriculum and instruction, English as a second language concentration, prepares students to teach English language learners in a variety of settings, including U.S. schools.

The program caters to professionals with a wide range of roles, including both new and experienced teachers, administrators, policymakers and community workers.

Graduate students gain strategies to assist their students in developing ESL skills in reading, writing and listening, and they will learn how to involve community and families as partners.

The program teaches educators specific skills for assessing English learner proficiency and content area knowledge. It also exposes students to various program models and provides a strong foundation for supporting ESL students' language acquisition. Students will leave the program with a historical perspective of English learners in the U.S. and on past and current policy toward ESL.

All program faculty have worked with English learner students, have a good mix of elementary- and secondary-level focus and field-tested research strategies, and are advocates for ESL students.

While the program is an excellent choice for teachers seeking to improve their preparation to work with English learners and includes course work supporting the Arizona ESL endorsement for certified teachers, it does not lead to teacher certification. There is no requirement that students entering the program hold a teaching certificate or seek to obtain one.

Note: This degree is not the same as the Master of Teaching English to Speakers of Other Languages that is offered through the English department.

Degree Requirements: 30 credit hours including the required capstone course (BLE 597).

core course work (3)

concentration course work (24)

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

Curriculum and Instruction (Gifted Education), MEd (TEGEDMED)

Online Degree Search Title: Gifted Education MEd

Campus: Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MEd program in curriculum and instruction, gifted education concentration, prepares teachers, school administrators, school psychologists, early interventionists and family members to work effectively with gifted children. Students will gain the theory and pedagogy needed to identify and serve gifted children as well as the knowledge and skills required to develop and provide the most current instructional methods and services for their gifted students.

Graduates will understand how to identify learning potential and address specific needs of gifted and talented students. They will gain an understanding of gifted students' unique affective and academic needs and know how to design and provide appropriately challenging, differentiated curriculum and instruction so that gifted students may develop their full potential.

Graduates will know how to develop a continuum of gifted programs and services, work with administrations, teachers, school boards and parents, and be able to advocate for gifted students at local and national levels.

The program is designed for public and private teachers in regular classrooms, honors classrooms and gifted programs, and also for school administrators and gifted program coordinators.

Students who complete the program will be qualified to earn a gifted education (K-12) endorsement from the Arizona Department of Education.

Degree Requirements: 30 credit hours including the required capstone course (SPE 597).

Curriculum and Instruction (Literacy Education), MA (EDLANGMA)

Online Degree Search Title: Literacy Education (MA)

Campus: Downtown Phoenix

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MA program in the curriculum and instruction, literacy education concentration provides students the opportunity to investigate theoretical and pedagogical perspectives in literacy education. Students will study literacy assessment, essential elements of instruction, content area reading, leadership, children's literature, multiliteracies, literacy research and theoretical foundations. Students will choose from specializations in multiliteracies education or programs that lead to Arizona Department of Education reading endorsements. Embedded within the courses in this program are six strands of inquiry:

- **Literacy Leadership:** A primary goal of this program is to develop a cadre of literacy leaders to serve the needs of teachers and students in Arizona and beyond.
- **Theoretical Foundations:** Literacy educators need to understand the relationship between theories and instructional practices in order to develop sound instructional practices and provide effective literacy instruction for all students.
- **Pedagogical Knowledge and Resources:** This program provides a foundational knowledge base for literacy educators, addressing both pedagogical and content knowledge. Literacy educators need to understand how to use a variety of resources to assess students' literate abilities and use these assessments to construct appropriate instructional strategies.
- **Technology and Digital Resources:** Teachers and students alike need to be prepared to face the impact and challenges technology brings to today's learning environments. This program will focus on the use of technology in our lives and the classroom to enhance learning experiences for students.
- **Critical Literacy and Social Justice:** This program is designed to enhance teachers' skills and dispositions for supporting inclusive educational

practices, critical-thinking skills and multiliteracies to face the challenges of a diverse and global society.

- Reflective Practice: In this program, teachers will be supported to inquire into their own instructional approaches, analyze the resources available for literacy instruction, and critically examine the environments and learning experiences constructed in their classrooms.

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program

Educational Leadership, MEd (EDSUPVMED)

Online Degree Search Title: Educational Leadership (MEd)

Campus: West

Program Description:

This page describes the in-person options for the educational leadership program.

For information on the online concentration in principalship, see the master's degree program in educational leadership (principalship) (TEPRINMED).

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MEd program in educational leadership is designed for individuals who believe in the power of education to transform children's lives and who aspire to school leadership positions as administrators or teacher leaders. This rigorous, standards-based leadership preparation program provides students with the knowledge and expertise to become transformative administrators or teacher leaders with deep and unwavering commitment to providing excellent and equitable educational opportunities for all students.

This program equips students with the skills to facilitate school-level and systemic change; create and sustain a culture of innovation and collaboration; successfully lead curriculum development; interpret and use data to support student success; provide effective feedback, support and evaluation for teachers; build a community network of support for students and schools; ensure equitable and excellent educational opportunities and support for all students.

The 15-month standards-based leadership development program begins with a three-week summer intensive that immerses the cohort in a simulated school experience, during which students engage in required course work in a hybrid format. Learning continues during the school year with a blend of Web-based and face-to-face courses taken at ASU's West campus, including set meetings each semester during which students visit schools and participate in instructional rounds. All students participate in a two-semester, school-based internship that provides the opportunity to apply new learning and research in a K-12 setting. The program concludes with a two-week summer intensive during which the cohort meets together and engages with course work in a hybrid format.

Students must be employed in a school-based position or have access to an ASU- and district-approved school placement that will serve as the laboratory of practice for applying the concepts, principles and leadership approaches learned through the course work.

The master's degree program in educational leadership is designed to prepare teachers to meet Arizona requirements for principal certification. Students seeking certification in a state other than Arizona should contact their state department of education to determine the principal certification requirements prior to applying.

Degree Requirements: 36 credit hours and a portfolio, or 36 credit hours including the required applied project (EDA 593).

concentration requirements (27)

Educational Policy, MA (EDSPFMA)

Online Degree Search Title: Educational Policy

Campus: Tempe

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create

knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MA program in educational policy is designed to provide participants with training in education policy and applied data analysis. It is particularly well suited for individuals whose careers require the use and interpretation of data, such as overseeing assessments or conducting program evaluations. Classroom teachers will gain a new perspective on their schools, classrooms and teaching with the skills they develop in this master's program.

The course work will deepen students' understanding of research and policy making, allow them to critically assess education programs and policies and develop the skills they need to engage in data-driven decision making. Courses address key issues in contemporary education policy, evaluating and synthesizing research literature, analyzing and interpreting data and conducting applied research projects. With the assistance of a faculty or academic advisor, students will also customize their elective courses in educational policy, research methods and areas of interest to enhance their knowledge and skills.

In the culminating experience in the final semester, students will design and execute an individual or group project that will utilize their new knowledge and research skills.

Degree Requirements: 30 credit hours including an applied project (EPA 593).

Core Course Requirements: (15)

EPA 532 Becoming an Informed Consumer of Education Research (3)

EPA 555 Translating Research for Education Change (3)

EPA 556 Data Analysis for Education Decisionmakers (3)

EPA 559 Systematic Inquiry for Problem Solving (3)

EPA 565 Critical Topics in Education Policy (3)

Restricted Elective or Research Course Work (12)

Culminating Experience: EPA 593 Applied Project (3)

Accelerated Degrees:

This degree is also offered as an accelerated degree with Educational Studies, BAE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

A minimum of a 3.00 cumulative GPA in the last 60 hours of a student's first bachelor's degree program is required by the Division of Graduate Education.

GRE scores are not required for admission.

Applicants must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The PhD program in educational policy and evaluation prepares scholars who teach and conduct rigorous, high-impact and transdisciplinary research on education policy that advances our collective understanding of preK-20 education.

Doctoral students in the educational policy and evaluation program engage in systematic analyses of education policies in a variety of settings, including schools, universities, research centers, government agencies and nongovernmental organizations.

The program emphasizes intensive training in the theory, methods and practice of education policy research and evaluation and an area of specialization.

Areas of specialization include, but are not limited to the following:

- American Indian education
- comparative, international and global education
- economics and finance of education
- higher and postsecondary education
- language policy and linguistic diversity
- Latino and Latina education
- research, evaluation and assessment methods
- science, technology, engineering and mathematics (STEM)
- sociocultural foundations of education

Educational policy and evaluation students work closely with nationally and internationally recognized faculty members on collaborative and independent research projects that result in policy briefs, reports, scholarly articles and engagement in education policy. The program also provides opportunities for internships in applied settings and varied experiences in scholarly publishing.

Students are expected to engage in the doctoral program full time. Funding packages that include a competitive stipend, tuition remission and health insurance are available. These funding packages can be renewed each year, if students make satisfactory progress, for a total of four years. A limited number of additional awards will be available for outstanding candidates.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Of the 84 hours required for the degree 54 must be earned at ASU and 24 of the ASU hours must be earned in research or dissertation. The course work includes classes in policy analysis, research methods and an area of specialization.

Students entering the doctoral program with a master's degree in a related discipline may count up to 30 credit hours from the master's degree toward the 84 credits. In addition, a student may use up to 12 additional credit hours toward the doctorate if documentation is provided showing that those credit hours were not part of the master's degree. Students without a master's degree in a related discipline may transfer no more than 12 credit hours toward the degree.

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree and master's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- GRE scores*
- an academic writing sample
- curriculum vitae
- proof of English proficiency**

*There is no minimum requirement.

****An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.**

Applicants must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Educational Technology, MEd (EDTECHMED)

Online Degree Search Title: Educational Technology (MEd)

Campus: Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MEd program in educational technology emphasizes the design of learning technology environments, systems, applications, and instructional materials for multiple learning contexts. The program prepares learning design and technology professionals for a variety of settings, including business and industry, and formal and informal educational settings, such as K-12 and higher education, museums, and nonprofit and government organizations.

Through projects that address real-world, authentic problems, students will apply current research and learning theories, along with the use of emerging technologies, to the practice of learning and instructional design. All courses are iCourses and combine a range of resources and technologies to facilitate direct interaction between students, program faculty and classmates. Program graduates will be prepared with the knowledge and skills required to address real-world problems and emerging design challenges through the process of learning design.

Degree Requirements: 30 credit hours including the required applied project course (EDT 593).

In consultation with an academic advisor, each student develops a plan of study in one of two tracks: technology for teaching or instructional design and technology.

Required Courses: (12)

EDT 501 Foundations and Issues in Educational Technology (3)

EDT 502 Design and Development of Instruction (3)

EDP 540 Theoretical Views of Learning (3)

EDT 593 Applied Project (3)

Specialization Courses (9)

Electives (9)

Admission Requirements:

Applicants to this program are required to meet Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must fulfill the requirements of both the Division of Graduate Education and Mary Lou Fulton Teachers College.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated,7.5-week classes. Educational Technology, PHD (EDTECHPHD)

Online Degree Search Title: Educational Technology (PhD)

Campus: Tempe

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. Our master's and doctoral programs prepare graduates to thrive in their careers and play a leadership role in advancing the world's most important profession.

The focus of the PhD program in educational technology is on the design, development and evaluation of instructional systems and on educational technology applications that support learning. The doctoral program emphasizes research using educational technology in applied settings.

The program prepares students for a variety of professional positions. Graduates are employed as faculty, educational technologists or instructional designers in universities, community colleges and schools, or as training managers in corporate settings.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The following course work is required for all students in the program:

Required Courses (24 hours)

EDP 540 Theoretical Views of Learning (3)
EDP 552 Multiple Regression and Correlation Methods (3)
EDP 554 Analysis of Variance Methods (3)
EDT 501 Foundations and Issues in Educational Technology (3)
EDT 502 Design and Development of Instruction (3)
EDT 503 Instructional Media Design (3)
EDT 504 Development of Computer-Based Instruction (3)
EDT 506 Educational Evaluation (3)
EDT 701 Research in Educational Technology (3)

Elective Courses (30 hours)

Students select a minimum of 30 credit hours of elective course work in consultation with a faculty advisor or doctoral committee chair.

Practicum Hours (6 and research, below)

Students must earn at least 18 semester hours of credit for practicum courses. Students will complete three different practica while in the program: instructional design (typically EDT 780, 3 credits), teaching (typically EDT 680, 3 credits) and a research practicum.

Research and Dissertation (24 hours)

Admission Requirements:

All applicants must meet the Division of Graduate Education admission standards and submit the graduate admission application. The online application requires:

- transcript showing conferral of a bachelor's from a regionally accredited institution; a four-year undergraduate GPA of 3.20 or above
- three email addresses for professional recommendations
- personal statement
- resume

- GRE scores: scores of 500 or above on the verbal reasoning and quantitative reasoning sections of the GRE; a score of four or above on the analytical writing section of the GRE
- English proficiency: a score of 600 (paper-based) or above on the TOEFL or 100 (Internet-based)

Applicants must fulfill requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Elementary Education (Teacher Certification), MEd (TEEEACL MED)

Online Degree Search Title: Elementary Education (Teacher Certification) (MEd)

Campus: Downtown Phoenix, Tempe, West

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

This program is for those who already have a bachelor's degree in any field and want to become licensed to teach grades 1-8.

The elementary education program builds strong connections between theory and practice through quality classroom instruction paired with extensive clinical experiences.

Students gain a strong foundation in teaching and content knowledge from experts in the field of education. Mary Lou Fulton Teachers College faculty actively engage in the educational research community and embed this vital knowledge throughout the program. This connection further empowers our students to engage in their own research through the applied project course work.

A series of clinical experiences or field placements are designed to assist our students in developing a thorough understanding of teaching and learning as they apply knowledge from their course work in varied school settings. Individualized guidance through our clinical framework provides our students with the support they need to become effective educators.

The MEd program in elementary education offers three options for students to earn a master's degree and Arizona teacher certification:

The Masters and Arizona Certification program students take classes at an ASU campus two nights a week and are required to do a field experience one day per week for at least two semesters. During the last semester of the MAC program, students complete a full-time student teaching experience.

The Induction, Masters and Arizona Certification program features a partnership with Teach For America, various school districts and charter schools. The InMAC program provides an alternative pathway to teacher certification for full-time teachers on an intern teaching certificate. To qualify, individuals must secure a full-time teaching position. Participants take classes one night per week and must be continuously enrolled in apprentice teaching course work.

In the iTeachAZ program, students take classes and complete all field work in a partner school district. This is a daytime program in which students take classes two to three days per week and complete three days of field experience. In their next-to-last semester, students complete a full-time student teaching experience.

Degree Requirements: 33 credit hours including the required applied project course (EED 593).

Students in this program will complete an applied project as part of their plan of study. The applied project is conducted in the student teaching or apprentice teaching school setting.

Admission Requirements:

Applicants to this program are required to meet Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution

- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency*
- IVP Fingerprint Clearance Card issued by the State of Arizona

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required for admission.

Applicants must fulfill the requirements of both the Division of Graduate Education and Mary Lou Fulton Teachers College.

English as a Second Language (Certificate), Certificate (TEESLGRCT)

Online Degree Search Title: English as a Second Language

Campus: Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degrees and doctoral degree programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The graduate certificate in English as a second language prepares students to teach English language learners in a variety of settings, including U.S. schools. The program caters to a wide range of professionals, including new and experienced teachers, administrators, policymakers and community workers. Students of this program gain strategies to assist their students in developing ESL skills in reading, writing and listening and involve the community and families as partners.

The program teaches educators specific skills for assessing English learner proficiency and content area knowledge, knowledge of various program models, and a stronger foundation in supporting ESL students' language acquisition. Students will leave the program with a historical perspective of English learners in the U.S. and context of past and current policy toward ESL. The course work in the ESL graduate certificate leads to the ESL endorsement in the state of Arizona.

Degree Requirements: 18 credit hours.

Required Courses (15 credit hours):

BLE 511 Introduction to Language Minority Education (3)

BLE 520 ESL for Children (3)

BLE 522 Literacy/Biliteracy Development (3)

BLE 529 Language Assessment and Evaluation of ESL/BLE Students (3)

BLE 561 Parent Involvement in Language Minority Education Programs (3)

Electives (3 credit hours, choose one):

BLE 535 Sociolinguistic Issues in Bilingual Education (3)

BLE 537 Language Structure Acquisition (3)

Culminating Experience: none

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- personal statement describing the applicant's interests and reason for seeking this degree
- resume

- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required for admission.

Gifted Education (Certificate), Certificate (TEGEDGRCT)

Online Degree Search Title: Gifted Education

Campus: Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral degree programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The graduate certificate in gifted education prepares teachers, school administrators, school psychologists, early interventionists and family members to work effectively with gifted children. The graduate certificate provides students with the theory and pedagogy needed to identify and serve gifted children as well as the knowledge and skills required to develop and provide the most current instructional methods and services for their gifted students.

Graduates will understand how to identify learning potential and address specific needs of gifted and talented students. They will gain an understanding of gifted students' unique affective and academic needs and know how to design and provide appropriately challenging, differentiated curriculum and instruction so that gifted students may develop their full potential.

Graduates will know how to develop a continuum of gifted programs and services, work with administrators, teachers, school boards and parents, and be able to advocate for gifted students at local and national levels.

The course work in the graduate certificate leads to the gifted education endorsement in the state of Arizona.

Degree Requirements: 15 credit hours.

Required Courses: (12 credit hours)

SPE 585 Creativity: Foundations of Research and Development in Gifted Education (3)

SPE 586 Advising the Gifted Learner: Social and Emotional Needs (3)

SPE 587 Special Populations in Gifted Education (3)

SPE 588 The Gifted Learner: Foundations of Identification, Education and Development (3)

Electives: (3 credit hours; choose one)

SPE 572 Testing and Measurement in Gifted Education: Methods (3)

SPE 573 Differentiating Instruction for Gifted Learners: Teaching Methods (3)

SPE 589 Teaching the Gifted Learner: Models, Methods and Programs (3)

Culminating Experience: none required

Higher and Postsecondary Education, MEd (EDPOSTMED)

Online Degree Search Title: Higher and Postsecondary Education (MEd)

Campus: Downtown Phoenix, Tempe

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MEd program in higher and postsecondary education is designed to facilitate the professional development of those who work in colleges and universities in administrative or support positions.

The higher and postsecondary education program develops leaders who have a strong understanding of the theory and practice of higher education administration, possess the capacity to analyze issues confronting contemporary colleges and universities and apply expertise in designing innovative solutions in administrative decision-making. The goal of this program is to provide graduates with a better understanding of the challenges that face contemporary colleges and universities and to prepare them to succeed in environments that demand innovation, excellence, inclusion and collaboration. Students will have the opportunity to make a local impact to support the success of higher education in the state of Arizona.

Course work addresses a range of practice-focused topics in the field, including the following: the history of higher education in the United States; organizational characteristics of colleges and universities; important laws and policies pertaining to administrative practice in higher education; how colleges and universities are funded; how to successfully work with the diverse stakeholders in contemporary higher education; and, how to collect and use data to improve decision-making.

This 30-credit, 10-course program is offered on a 7.5-week calendar in fall and spring semesters (six weeks in summer). Students may enroll part time or full time.

Most courses are offered in a hybrid format with 50 percent of the content delivered face-to-face (weekday evenings) and 50 percent delivered through independent or technology-supported learning experiences and fieldwork.

This program culminates with the creation and presentation of an applied project that demonstrates a student's learning and development and is designed to promote this student's career advancement in higher education.

Degree Requirements: 30 credit hours including the required applied project course (HED 593).

The following course work is required for all students in the program:

core requirements (9)
foundation courses (18)
applied project (3)

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree

Institutional Research and Policy Analysis (certificate), Certificate (EDINSRESCE)

Online Degree Search Title: Institutional Research and Policy Analysis (Grad Certificate)

Campus: Tempe

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral degree programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

People working in or with schools are increasingly being asked to interpret and make decisions based on data. The graduate certificate in institutional research and policy analysis provides participants with the training and skills in education policy and applied data analysis that will allow them to critically assess education programs and policies and engage in data-driven decision-making. The certificate consists of five courses in which students will analyze data from real-world settings, including their own schools or organizations.

This certificate program will allow students to:

- glean insights from data that will help them make effective decisions in classrooms, schools, districts and other organizations
- present reliable and pertinent data to their colleagues and administrators
- develop analyses that can help them identify instructional changes aimed at improving student achievement

Degree Requirements: 15 credit hours.

Leadership and Innovation, EdD (TELINEDD)

Online Degree Search Title: Leadership and Innovation (EdD)

Campus: Downtown Phoenix, West, Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The EdD in leadership and innovation is designed for practicing educator-leaders who work in a range of settings and want to transform their practice and create better learning opportunities for students of all ages.

Students in the program begin as accomplished teachers, teacher leaders, principals, superintendents, higher education professionals or leaders in other educational contexts. Through course work, students deepen their abilities to lead change and implement innovation in their local educational organizations. The program is not designed to prepare students for academic research-oriented tenure-track positions.

The program is offered in two formats, face-to-face and online, with both offerings sharing similar course work and structure.

The cohort-based program focuses on research in action and includes required course work and several options for advanced professional studies with a research core that deepens students' abilities to reflectively and critically think about problems of practice in one of the following contexts:

- prekindergarten-Grade 12 change leadership
- higher education change leadership
- systems, professional and reimagined change leadership

Differentiation among these contexts and students' interests occurs within the required course work.

Students conduct multiple cycles of inquiry throughout the program and learn research within their own workplace. Students share their research at the end of each academic-year semester through roundtables, posters and symposia in a public doctoral research forum. The culminating requirement is an action-research dissertation.

Leader-scholar communities, formed at the end of the first year and consisting of five to seven students and one faculty member, meet regularly for the second and third years of the program to supply academic and personal support. Through LSCs, students support each other, under faculty guidance, in the conceptualization, implementation and study of change initiatives. Students register for required research and dissertation hours as part of the LSC requirement. Each student's LSC leader serves as the dissertation chair, along with two additional committee members who ultimately make up the dissertation committee.

Successful graduates make a commitment to continuing systematic study of their professional practice and sustaining innovation and leadership by making a positive difference in their local settings. The program aims to enable more thoughtful, intentional and informed leaders who are willing and able to implement and study continuous improvement.

The program will make a difference in the way a student thinks and works as a leader in education, for the immediate and local benefit of school children, adult learners, schools or organizations and local communities.

Degree Requirements: 90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

professional core (24)

research core (9)

advanced professional studies (6)

directed field-based study (3)

participation in leader scholar communities (6)

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree and master's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- an academic writing sample
- curriculum vitae
- proof of English proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required for admission.

Students must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Our master's degree and doctoral programs prepare graduates to thrive in their careers and play a leadership role in advancing the world's most important profession.

The EdD in leadership and innovation program is designed for practicing educator-leaders who want to participate in creating better learning opportunities for students of all ages in a range of settings with the ultimate goal of transforming the practice of education.

The focus of the program is research in action. Students conduct multiple studies throughout the program to learn by doing and to influence change based on scholarship applied in their workplace.

Students in the program begin as accomplished teachers, teacher leaders, principals and superintendents, and "edupreneurs" or higher education professionals. Through their learning, they deepen their abilities to lead and innovate in educational organizations. The program is not designed to prepare students for academic tenure-track positions.

The cohort-based program begins in summer with an introduction to doctoral studies and the formation of a professional learning community that draws on the strengths of all group members.

Required courses are team-taught by faculty and require students to conduct research in their workplace, laying the foundation for the culminating project: the action research study documented in the dissertation.

Leader-Scholar Communities, formed at the end of the first year and consisting of five to seven students and two faculty members, meet regularly for the second and third years of the program. Students register for required research and dissertation hours as part of the LSC requirement.

Through these LSCs, students support each other, under faculty guidance, in the conceptualization, implementation and study of change initiatives. Students share their research at the end of each semester through roundtables, posters and symposia in a public research day.

Successful graduates have made a commitment to continuing systematic study of their professional practice and make a positive difference in their local workplaces putting their research in action. The program aims to enable more thoughtful, intentional and informed leaders, willing and able to implement and study change.

The program will make a difference in the way a student thinks and works as a leader in education, for the immediate and local benefit of school children, adult learners, the student's school or organization, the community and the world.

Degree Requirements: 90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation (including a Master's degree and 60 credit hours post-Masters).

Professional core (15)

Research core (9)

Advanced professional studies (15)

Directed field-based study (3)

Participation in leader scholar communities (6)

Dissertation (12)

Admission Requirements:

The concentration in policy and administration under the EdD in leadership and innovation is no longer accepting applications. Applicants should apply to the EdD in leadership and innovation rather than a specific concentration.

Learning Sciences, MA (EDPSYCHMA)

Online Degree Search Title: Learning Sciences (MA)

Campus: Tempe

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MA in learning sciences proceeds from an understanding that learning happens in many places that include but are not limited to schools. Graduates of the program will be equipped to design effective learning systems in a broad range of formal and informal settings that include museums, libraries, workplaces and schools. This program focuses on the power of design thinking to improve educational systems and provides students with a blend of theoretical insights and practical tools that will prepare them to shape learning environments and experiences. The systems-level approach includes cognitive, social and contextual factors and the interactions among them. Graduates will become leaders in the development, integration and improvement of learning and teaching systems.

Degree Requirements: 30 credit hours including the required applied project course (LSE 593), or 30 credit hours, a thesis and a written comprehensive exam.

Thesis Option:

Core (3)

Electives or Research (21)

LSE 599 Thesis (6)

Nonthesis Option:

Core (3)

Electives or Research (24)

Accelerated Degrees:

This degree is also offered as an accelerated degree with Educational Studies, BAE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

An applicant must have a minimum of a bachelor's degree or master's degree in any field from a regionally accredited college or university and a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program.

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required for admission.

Applicants must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Learning, Literacies and Technologies, PHD (EDCIPHD)

Online Degree Search Title: Learning, Literacies and Technologies (PhD)

Campus: Tempe

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The PhD program in learning, literacies and technologies is designed to prepare scholars who will address socially significant educational programs and transform preK-20 educational programs through rigorous research and educational interventions. Graduates rely on transdisciplinary theoretical and methodological perspectives to engage, influence and transform educational institutions and their practices.

The program graduates educational researchers who serve as scholars, leaders and teacher educators engaged in the design, development and use of literacies and technologies that promote learning. Graduates are stewards of their educational field, working across disciplinary boundaries to address the learning challenges of the new millennium.

Students will begin researching during their first semester and continue throughout the four-year program. A transdisciplinary team of scholars led by distinguished faculty will collaborate with doctoral students, individually and in teams, to design powerful studies, implement them in authentic settings, collect and analyze data, write research reports and present and publish the results.

Academic study and research in the learning, literacies and technologies program focuses on the nature of human learning and literacies across diverse learners and contexts, the use of technologies to support learning, the design of learning environments, and the conditions under which learning occurs.

As a future scholar, teacher educator or researcher, the student will develop areas of emphasis with their faculty advisor and doctoral committee members to work at the cutting edges of educational science, leading the way to innovation and exploration of new technologies and literacies for learning.

Students are expected to engage in the doctoral program on a full-time basis. Funding packages that include a competitive stipend, tuition remission and health insurance are available. These funding packages can be renewed each year, if students make satisfactory progress, for a total of four years. A limited number of additional awards will be available for outstanding candidates.

Degree Requirements: 85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Core courses (13)

Specialization courses (12)

Elective or research courses (12)

Dissertation (12)

Research (3)

Online Teaching for Grades K-12 (certificate), Certificate (TEEDTGRCT)

Online Degree Search Title: Online Teaching for Grades K-12 (Grad Certificate)

Campus: Tempe, Online

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral degree programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The goal of the program is to prepare current K-12 teachers to teach in online and blended learning environments and to become leaders in the development, implementation and evaluation of online and blended programs.

The program consists of online courses that address technological, pedagogical and content-related areas and includes field experience opportunities.

Graduates will be better able to help students understand how various topics within a subject area are effectively represented using technology and pedagogical strategies required to teach these concepts online.

The graduate certificate in online teaching for grades K-12 is open to all ASU graduate students irrespective of their major, however, students should have an interest or focus on educational technology as it applies to the K-12 classroom.

The graduate certificate can be completed within a two-year period along with a graduate degree or as a stand-alone certificate. This means that students can be enrolled in the graduate certificate and the Master of Education in educational technology at the same time, or they may complete the graduate certificate separately. Students intending to complete both the graduate certificate and the Master of Education program must be enrolled in both programs; a separate enrollment process for each program is required.

Degree Requirements: 15 credit hours including the required capstone course (EDT 580).

The certificate requires five courses, each consisting of three credit hours. The culminating experience for this certificate program is an electronic portfolio that will be completed in EDT 580.

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required for admission.

Applicants should have at least one year of K-12 classroom teaching experience and should be able to function successfully in an online environment.

Applicants must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Physical Education, MPE (ECPHYEDMPE)

Online Degree Search Title: Physical Education - Polytechnic Campus (MPE)

Campus: Polytechnic

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

The MPE program offers three options for students interested in gaining knowledge of current curriculum and instructional and administrative practices and procedures in physical education. Emphasis is placed on improving instructional effectiveness and developing quality physical education programs in school settings as well as expanded physical activity programming beyond the physical education lessons within school environments. Students will learn about designing, implementing and assessing Comprehensive School Physical Activity Programs. This type of programming reflects current global trends in promoting physical activity for children, youth, school staff, and families in communities surrounding school campuses. The Master of Physical Education degree program gives candidates the flexibility to design a plan of study that enhances their interests and professional specialization.

The Master of Physical Education pedagogy research track is appropriate for students interested in learning more about research on teaching in physical education settings. This track may be of interest to students who already have a teacher certificate in physical education and are interested in pursuing doctoral studies in the future.

The Master of Physical Education with a physical education endorsement (grades K-12) familiarizes students with the most current trends and issues in school physical education. Students can focus on numerous topics within elementary physical education, secondary physical education and adapted physical education. This track may be of interest to students with a teaching certificate in a different subject matter who are interested in a K-12 physical education endorsement.

The master's degree and Arizona certification in physical education program provide students with the course work and practical experiences necessary to become certified to teach physical education in the public schools. The program provides participants an institutional recommendation for an Arizona secondary education (grades 6-12) certification with a Physical Education endorsement (grades K-12) and the Master of Physical Education degree.

Degree Requirements: 33 credit hours including the required applied project course (PPE 593) and a written comprehensive exam.

The MPE degree has three tracks.

Physical Education K-12 Teaching Track:

core studies (24)
electives (6)
applied project (3)

Physical Education Pedagogy Research Track:

core studies (24)
electives (6)
applied project (3)

Physical Education Initial Teacher Certification track:

core studies (24)
electives (6)
applied project (3)
additional courses for certification

Admission Requirements:

Applicants to this program are required to meet the Division of Graduate Education standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- a personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency for applicants whose native language is not English (regardless of current residency)
- IVP Fingerprint Clearance Card issued by the State of Arizona

GRE scores are not required for admission.

Applicants must fulfill the requirements of both the Division of Graduate Education and Mary Lou Fulton Teachers College.

Secondary Education (Teacher Certification), MEd (TESCERTMED)

Online Degree Search Title: Secondary Education (Teacher Certification) (MEd)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's degree and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

This program is for those who want to become certified to teach grades 6-12 in the public schools and already have a bachelor's degree in any field and at least 24 college credits in math, science, English, history, political science, fine arts or foreign language.

Our secondary education program builds strong connections between theory and practice through quality classroom instruction paired with extensive clinical experiences.

Students gain a strong foundation in teaching and content knowledge from experts in the field of education. Mary Lou Fulton Teachers College faculty actively engage in the educational research community and embed this vital knowledge throughout the program. This connection further empowers our students to engage in their own research through the culminating action research applied project.

A series of clinical experiences or field placements are designed to assist our students in developing a thorough understanding of teaching and learning as they apply knowledge from their course work in varied school settings. Individualized guidance through our clinical framework provides our students with the support they need to be successful in today's rapidly evolving educational environment.

The MEd program in secondary education with teacher certification offers three options for students to earn a master's degree and Arizona teacher certification.

In the Masters and Arizona Certification (MAC) program, students take classes at an ASU campus two nights a week and are required to do a field experience one day per week for at least two semesters. During the last semester of the program, students complete a full-time student teaching experience in their content area.

The Induction, Master of Education and Arizona Certification (InMAC) program provides an alternative pathway to teacher certification for full-time teachers on a Teaching Intern Certificate. To qualify, individuals must secure a full-time teaching position. The InMAC program also features a partnership with Teach For America. Participants take classes one night per week.

The iTeachAZ Teacher Education for Arizona Math and Science program seeks to promote STEM (Science, Technology, Engineering, and Mathematics) learning within secondary schools. To apply, students must have at least 24 college credits in math, biology, chemistry, physics, or earth and space science. TEAMS students complete a year-long student teaching experience during the day and take course work both at the ASU Polytechnic campus and the Mesa Unified School District in the afternoon and evening hours.

Degree Requirements: 33 credit hours including the required applied project course (SED 593).

The MEd in secondary education requires an applied project, which is included in the student's plan of study and must be completed during student teaching or apprentice teaching.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Engineering (Automotive Systems), BSE
- Engineering (Electrical Systems), BSE
- Engineering (Humanitarian Engineering), BSE
- Engineering (Mechanical Engineering Systems), BSE
- Engineering (Robotics), BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants to this program are required to meet Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency*

*An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required for admission.

Applicants must fulfill the requirements of both the Division of Graduate Education and the Mary Lou Fulton Teachers College.

Special Education (Teacher Certification), MEd (TESECRTMED)

Online Degree Search Title: Special Education (Teacher Certification) (MEd)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

The most innovative and effective educators stretch. They're relentless. They suspect that there's always a better way---and they find it. Those who attend graduate programs at ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that allows them to harness and create knowledge, mobilize people and take action to improve education. These master's and doctoral programs prepare graduates to thrive in their careers and take leadership positions in advancing the world's most important profession.

This program is for those seeking Arizona teacher certification in special education. The special education program builds strong connections between theory and practice through quality classroom instruction paired with extensive clinical experiences.

Students gain a strong foundation in teaching and content knowledge from experts in the field of education. Mary Lou Fulton Teachers College faculty actively engage in the educational research community and embed this vital knowledge throughout the program. This connection further empowers our students to engage in their own research through the culminating action research applied project.

A series of clinical experiences or field placements are designed to assist our students in developing a thorough understanding of teaching and learning as they apply knowledge from their course work in varied school settings. Individualized guidance through our clinical framework provides our students with the support they need to be successful in today's rapidly evolving educational environment.

The MEd program in special education with Arizona teacher certification offers two options for students to earn a master's degree and Arizona teacher certification.

In the master's and Arizona certification program, students take classes at an ASU campus two nights a week and are required to complete daytime field experiences for at least two semesters. During the last semester of the program, students complete a full-time split student teaching experience: half the semester in a special education classroom and the other half in an elementary classroom. Students in the MAC program receive dual Arizona teacher certification in the following teaching certificates: Mild-Moderate Disabilities Special Education, K-12 and Elementary Education, grades 1-8. The mild to moderate areas include forms of emotional behavioral, learning, and orthopedic disabilities as well as intellectual disabilities and other health impairments.

The induction, master's and Arizona certification program provides an alternative pathway to the Arizona teacher certification Mild-Moderate Disabilities Special Education, K-12, for full-time teachers on the teaching intern certificate. To qualify, individuals must secure a full-time teaching position. The InMAC program also features a partnership with Teach For America. Participants take classes one night per week.

Degree Requirements: 33 credit hours including the required applied project course (SPE 593).

Students must complete 33 credit hours and an applied project. The applied project is completed during the student teaching or apprentice teaching experience.

Admission Requirements:

Applicants to this program are required to meet Division of Graduate Education admission standards and submit the following:

- online graduate admission application, including application fee
- official transcripts showing a bachelor's degree conferred from a regionally accredited institution
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program

Undergraduate Programs

Minors (Program Descriptions and Requirements)

African and African American Studies Minor (LAAFRMIN)

Campus: Tempe

Description:

The minor program examines the culture, arts, history, politics, economics and current status of African Americans, Africans and the African Diaspora, especially in the Caribbean, Central America and South America. The goal is to prepare students for lifelong learning, advanced study in a variety of fields and successful careers and productive public service in an increasingly diverse society, especially in Arizona.

Program Requirements:

Students will be required to complete 18 credit hours. Six credits will be from the required core list and the remaining 12 elective credit hours will be selected from the program prefix, AFR :

Required Core Course:

AFR 200 Introduction to Africana Studies, SB, G, H (3)

Elective Core Course: (3 credit hours; select one course)

AFR 300 Precolonial Africa, SB, G, H (3)

AFR 301 Race and Racism in Africa/African Diaspora, SB, G (3)

AFR 302 History of Black Women in America, SB, H (3)

AFR 305 The Global History of the Trans-Atlantic Slave Trade, SB, H (3)

Elective Courses:

The remaining 12 credit hours will be completed by selecting courses not taken to fulfill the six required hours and will be selected from the program prefix AFR.

At least 12 of the 18 credit hours must be upper-division courses (300 level or higher). All courses must have a "C" (2.00 on a 4.00 scale) grade or higher. No course may be used to satisfy more than one requirement in the minor.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

American Indian Studies Minor (LAAISMIN)

Campus: Tempe

Description:

The minor in American Indian studies is designed for students interested in developing an understanding of American Indian issues and analyzing issues through critical inquiry.

Program Requirements:

Eighteen credit hours are required.

Required courses:

AIS 180 Introduction to American Indian Studies, C (3)

AIS 285 Federal Indian Policy, H, C (3)

AIS 380 Contemporary Issues of American Indian Nations, C (3)

Electives:

Three additional upper-division elective courses (minimum of nine credit hours) must be chosen in any combination from the two areas of emphasis in the major: legal, policy and community, and economic development; and arts, languages and cultures.

No pass/fail or credit/noncredit course work may be applied to the minor. A minimum of nine hours must be courses offered by the College of Liberal Arts and Sciences. Students must receive a minimum grade of "C" (2.00 on a scale of 4.00) for all courses in the minor and meet all course eligibility requirements.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Campus: West

Description:

The American studies minor, offered by the School of Humanities, Arts, and Cultural Studies, gives students the opportunity to pursue an interest in the interdisciplinary study of American culture. This interdisciplinary minor is particularly appropriate for students majoring in one of the humanities or social sciences disciplines.

Program Requirements:

The American studies minor consists of 18 credit hours, 12 of which must be upper-division (300 or 400 level).

Core Requirements: (6 credit hours)

AMS 201 Introduction to American Studies, L (3)

HRC 200 Introduction to Social and Cultural Analysis (3)

Students must choose 12 credit hours of elective courses from the following list:

AMS 326 Popular Culture (3)
AMS 330 American Lives, HU, C (3)
AMS 334 Class in America (3)
AMS 335 American Biography (3)
AMS 336 The American Southwest in Literature and Film, L or HU, C (3)
AMS 353 African American Literature: Beginnings through the Harlem Renaissance, L or HU, C (3)
AMS 354 African American Literature: Harlem Renaissance to Present, L or HU, C (3)
AMS 412 Studies in American Politics and Law (3)
AMS 428 Chicano Cultures in the Southwest, SB (3)
AMS 450 Latina/os, Schooling, and Social Inequality (3)
ENG 337 Major American Novels, L or HU (3)
ENG 432 The American Renaissance, HU (3)
HST 320 US Urban History since 1850, SB, H (3)
HST 413 Contemporary America, L or SB, H (3)
REL 321 Religion in America, L or HU, C, H (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in American studies is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Anthropology Minor (LAASBMIN)

Campus: Tempe, Online

Description:

The minor in anthropology provides students with a great deal of flexibility in selecting courses. The program has been designed to allow students to focus on areas within the discipline that articulate well with their major. All students interested in the anthropology minor are encouraged to discuss the options available with a School of Human Evolution and Social Change undergraduate advisor.

Program Requirements:

The anthropology minor requires a minimum of 18 credit hours.

Required introductory courses: (choose two)

ASB 102 Culture in a Globalizing World, SB, G (3)
ASB 222 Buried Cities and Lost Tribes, SB, G, H (3) or ASB 223 Aztecs, Incas and Mayas, HU or SB, G, H (3)
ASM 104 Bones, Stones and Human Evolution, SB or SG (4)

However, the particular introductory courses selected may limit the anthropology courses available in the upper division.

Twelve credit hours must be upper-division and represent at least two of the three subfields of anthropology.

The three subfields are:

- archaeology
- evolutionary anthropology
- sociocultural anthropology (with linguistics)

The courses chosen to represent two of the three subfields must be drawn from the distribution requirements of those two subfields. A listing of courses by subfield can be found at <https://shesc.asu.edu/content/scheduling-courses-curricula>. (<https://shesc.asu.edu/content/scheduling-courses-curricula>)

A minimum grade of "C" (2.00 on a 4.00 scale) is required for all courses taken for the minor in anthropology.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Applied Biological Sciences Minor (TSABSMIN)

Campus: Polytechnic

Description:

Applied biological sciences offers rigorous and practical programs in applications of the biological sciences. Consistent with a polytechnic vision, this minor involves extensive student interaction with faculty through experience-based learning activities, including:

- faculty-guided research and service-learning projects
- field trips
- internships
- laboratories

Mastery of fundamental biological principles is emphasized through quality learning in the classroom and hands-on activities in laboratories and in outdoor settings that include the Sonoran Desert, surrounding ecosystems and the landscape of the greater Phoenix area.

Program Requirements:

The applied biological sciences minor consists of 23 credit hours, including:

BIO 181 General Biology I, SQ (4)
BIO 182 General Biology II, SG (4)

At least 15 hours must be selected with the approval of an advisor.

At least nine hours must be in upper-division courses offered by the applied biological sciences program.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Applied Psychology Minor (ECPSYMIN)

Campus: Polytechnic

Description:

Americans spend more than 54 percent of their waking hours at work. As a result, students who want to make a real impact on peoples' lives are beginning to use industrial and organizational psychology to focus on the psychology of work. Industrial and organizational psychology helps employers identify the right job candidates to hire, determine the best job fit for each worker, and design enjoyable and effective workplaces, taking into account work-life balance. Finally, one specialty, human factors, focuses on designing tools and products that are easy to use and that reduce human error.

In addition to a strong educational foundation in human learning, memory, emotion, judgment and social psychology that prepares students for employment or graduate school, students can choose to focus in two of the following five focus areas:

- consumer psychology
- human resources and organizational behavior
- human systems engineering
- learning technology
- user experience

Program Requirements:

This minor in applied psychology consists of 22 credit hours, including at least 12 upper-division courses. The following are required courses that must be completed with a grade of "C" (2.00) or higher:

Required Courses:

PSY 101 Introduction to Psychology, SB (3)

PSY 230 Introduction to Statistics, CS (3)

PSY 290 Research Methods, L or SG (4)

PSY 437 Human Factors, L (3) or HSE 325 Human-Computer Interaction (3) or PSY 440 Industrial/Organizational Psychology (3)

Electives:

additional hours of upper-division PSY courses (9)

A maximum of three credit hours from PSY 399, PSY 499 or PSY 492 may be used toward the minor requirements.

A minimum of three classes, including two at the upper-division level, must be taken in residence at ASU.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Arabic Studies Minor (LAARBMIN)

Campus: Tempe

Description:

The minor in Arabic studies provides students with instruction in Modern Standard Arabic as well as Arabic culture and literature. Students who successfully complete the prescribed course work of the Arabic minor are expected to be able to communicate effectively in Arabic and interact with native speakers of Arabic.

Students will be able to communicate in Arabic in the other two areas of language acquisition as well: reading and writing through reading authentic material in Arabic and writing paragraphs in Modern Standard Arabic.

Literature courses expand students' knowledge in Arabic, Middle East, and Islamic culture and civilization. Students of all academic disciplines doing research or seeking employment in areas related to the Middle East or parts of the Arab world will find the minor in Arabic highly beneficial.

Students are encouraged to participate in a study abroad program to enhance their education and overall minor experience. Go to <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>) for more information.

Program Requirements:

The minor in Arabic studies requires 26 credit hours of courses detailed below. A minimum grade of "C" (2.00 on a 4.00 scale) or better is required in each course. Course substitutions are allowed for heritage and advanced speakers of the language.

Required courses:

ARB 201 Intermediate Arabic I, G (4)
ARB 202 Intermediate Arabic II, G (4)
ARB 311 Advanced Arabic Skills I (3)
ARB 331 Arabic/Islamic Culture and Literature (3)
ARB 341 Quran Text and Women (3)
ARB 351 Classical Arabic Literature (3)
ARB 411 Advanced Arabic Skills II (3)

Choose one upper-division course from the following:

ARB 321 Arabic Conversation I (3)
ARB 335 Arabic Culture and Islam, G (3)
ARB 336 Introduction to the Qur'an (3)
ARB 337 Hadith and Prophetic Tradition (3)
ARB 352 Modern Arabic Literature in Translation (3)
ARB 421 Arabic Conversation II (3)
HST 372 Modern Middle East, SB, G, H (3)
REL 365 Islamic Civilization, HU, H (3)
REL 366 Islam in the Modern World, HU, G (3)

Students must complete the sequence of elementary Arabic, ARB 101 and ARB 102, as prerequisite courses.

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to add a minor in Arabic studies to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Architectural Studies Minor (ARSTDMIN)

Campus: Tempe

Description:

The architectural studies minor is available to nonarchitecture majors interested in this field who wish to pursue another major. The courses are designed to provide an overview of architecture throughout history while focusing on architectural design, with the intention to explore the process of design thinking.

Program Requirements:

A minimum of 18 credit hours (to include 12 credit hours of upper-division course work) are required for the minor.

Required Courses:

ALA 100 Introduction to Environmental Design, HU, G, H (3)
ALA 102 Landscapes and Sustainability, HU, G (3)
APH 313 History of Architecture I, L or HU, G, H (3)
APH 314 History of Architecture II, L or HU, G, H (3)

Six additional upper-division credit hours of electives in the architectural history and theory concentration must be selected from the following list:

ANP 494 Special Topics (1-4)
APH 394 Special Topics (1-4)
APH 414 History of the City, L or HU, H (3)
APH 421 First Concepts: What is ... The Writing, Philosophy and Culture of Architecture, L or HU (3)
APH 441 Ancient Arch (3)
APH 494 Special Topics (1-4)
APH 499 Individualized Instruction (1-3)*
ARP 451 Architecture Field Studies (1-6)

*This course requires a petition to The Design School.

A minimum GPA of 2.50 in minor courses is required to earn the minor in architectural studies. In addition, students may not use a core course to count toward the minor. Students pursuing the BS in landscape architecture must petition the school to request a substitution for any core courses

that are also included in the architectural studies minor.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Art History Minor (FAARTHMIN)

Campus: Tempe, Online

Description:

The art history minor is designed for students who are interested in a broad introduction to the study of the history of art. In giving a broad chronological exposure to the history of art from diverse cultures, the minor strengthens academic preparation and provides students with many options to select courses based on their individual interests.

Program Requirements:

The School of Art offers a minor in art history consisting of 18 credit hours of course work, including 12 upper-division electives. A minimum grade of "C" (2.00) is required in all classes for the minor. For those pursuing a minor, a minimum overall GPA of "C" (2.00) is required. Courses may not be double counted in a major and the minor, and a minimum of 12 credit hours of resident credit at the Tempe campus are required.

ARS 100 and ARS 300 may not be used toward an art history minor if the student is an art major or has credit in ARS 101 and ARS 102. If a student has completed ARS 100 or ARS 300, then they must complete ARS 201 and ARS 202.

Required Courses

Select one of the two following pairs of courses:

ARS 101 Art from Prehistory Through Middle Ages, HU, H (3)
ARS 102 Art from Renaissance to Present, HU, H (3)

or

ARS 201 Art of Asia, HU, G, H (3)
ARS 202 Art of Africa, Oceania and the Americas, HU, G, H (3)

Elective Courses

Students pursuing an art history minor select four three-credit-hour, upper-division courses. A seminar is strongly recommended for those considering graduate study.

Students need to be aware of lower-division prerequisites for all upper-division courses. Interested students should contact the School of Art for specific requirements and admission procedures. Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor. Please contact the department for more information.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. Asian Languages (Chinese) Minor (LACHIMIN)

Campus: Tempe

Description:

Students pursuing a minor in Asian languages (Chinese) gain an understanding of the language, literature and cultures of China. Students are encouraged to participate in a study abroad program to enhance their education and overall minor experience. See <https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages> (<https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages>) for more information. Highly motivated students interested in learning Chinese to professional-level proficiency, while simultaneously pursuing the Asian languages (Chinese) minor and undergraduate major of their choice, are encouraged to apply to the Chinese Language Flagship Program: <https://international.clas.asu.edu/chineseflagship> (<https://international.clas.asu.edu/chineseflagship>).

Program Requirements:

The minor in Asian languages (Chinese) consists of 18 credit hours, of which 12 credit hours must be upper-division.

Required Courses:

200-level Chinese (up to 6 credit hours)
CHI 301 Third-Year Chinese I, G (5)
CHI 302 Third-Year Chinese II, G (5)
300-level or 400-level CHI course work chosen in consultation with a School of International Letters and Cultures advisor (2)

Course substitutions are allowed for heritage and advanced speakers of the language.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to add a minor in Asian Languages (Chinese) to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Asian Languages (Japanese) Minor (LAJPNMIN)

Campus: Tempe

Description:

Students pursuing a minor in Asian languages (Japanese) gain understanding of the language, literature and cultures of Japan. There are opportunities to partake in study abroad programs, which can serve to enhance a student's minor experience and education. Go to <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>) for more information.

Program Requirements:

The minor in Asian languages (Japanese) consists of 18 credit hours, of which 12 credit hours must be upper-division.

Required Courses:

200-level JPN courses (up to 6 credit hours)
JPN 301 Third-Year Japanese I, G (3)
JPN 302 Third-Year Japanese II, G (3)
additional upper-division JPN courses chosen in consultation with a School of International Letters and Cultures advisor (6)

Course substitutions are allowed for heritage and advanced speakers of the language.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to add a minor in Asian Languages (Japanese) to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Asian Pacific American Studies Minor (LAAPAMIN)

Campus: Tempe

Description:

Asian Pacific American Studies gathers and develops research, scholarship and archival information on the long history and rich contemporary experiences, cultures and communities of Asian Pacific Americans in the Southwest. This minor will benefit students interested in careers serving and relating to the complex and rapidly changing Asian American and Pacific Islander population and other culturally diverse populations.

Program Requirements:

The minor in Asian Pacific American studies requires a total of 18 credit hours, including six hours of core courses and 12 elective hours selected from courses with the APA prefix.

Required Core Courses: (6)

APA 200 Introduction to Asian Pacific American Studies, HU or SB, C (3)

APA 360 Asian Pacific American Experience, HU or SB, C (3)

Elective Courses: (12)

The remaining 12 credit hours will be completed by selecting courses not taken to fulfill the six required hours and will be selected from any APA course.

Examples of APA electives include:

APA 210 Introduction to Ethnic Studies in the U.S., C (3)

APA 310 Asian Pacific American Arts and Cultures, HU, C (3)

APA 315 Asian Pacific American Literature, HU, C (3)

APA 330 Asian Pacific American Genders and Sexualities, SB, C (3)

APA 340 Asian Pacific Americans and Media, HU, C (3)

APA 345 Asian Pacific Americans and Film, HU, C, H (3)

APA 360 Asian Pacific American Experience, HU or SB, C (3)*

*Note: One APA 360 course is required for the core; other sections may be repeated for credit with different topics.

- Asian Pacific American Psychology
- Chinese American
- Filipino American
- Japanese American
- Korean American
- Multiracial experiences
- Pacific Islander
- South Asian
- Southeast Asian American

APA 394 Special Topics (3) (may be repeated for credit with a different topic)

APA 450 Asian Pacific American Contemporary Issues, SB, C (3)

APA 484 Internship (3)

APA 494 Special Topics (3) (may be repeated for credit with a different topic)

APA 499 Individualized Instruction (1-3) (may be repeated for credit)

Other Requirements and Restrictions

- At least 12 of the 18 credit hours must be upper-division courses (300-level or higher).
- All courses for the minor must have a "C" grade (2.00 on a 4.00 scale) or higher.
- A minimum of nine credit hours must be taken in residency at ASU.
- No course may be used to satisfy more than one requirement in the minor.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification

procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Astronomy Minor (LAASTMIN)

Campus: Tempe

Description:

The astronomy minor is designed for students interested in developing a basic understanding of astronomy and astrophysics and analyzing issues through a scientific viewpoint.

Program Requirements:

The minor in astronomy consists of a minimum of 24 credit hours. At least 12 credit hours must be upper-division courses.

Required courses: (8)

AST 113 Astronomy Laboratory I, SQ (1)*

AST 114 Astronomy Laboratory II, SQ (1)*

AST 321 Introduction to Planetary and Stellar Astrophysics, SQ (3)*

AST 322 Introduction to Galactic and Extragalactic Astrophysics, SQ (3)*

Choose between the course combinations below:

PHY 150 Physics I, SQ (4) or PHY 121 University Physics I: Mechanics, SQ (3) and PHY 122 University Physics Laboratory, SQ (1)*

and

PHY 151 Physics II, SQ (4) or PHY 131 University Physics II: Electricity and Magnetism, SQ (3) and PHY 132 University Physics Laboratory II, SQ (1)*

or

PHY 252 Physics III, SQ (4)

Eight credit hours of electives are chosen with the approval of an advisor in the School of Earth and Space Exploration. Electives should consist of upper-division courses in physics and astronomy.

*In order to satisfy SQ natural science general studies requirements, both a lecture and its corresponding laboratory section must be completed.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

All students will be required to meet with an academic advisor in the School of Earth and Space Exploration to declare the minor and confirm that the requirements are being met. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor. The Degree Audit Reporting system will be used for tracking student progress and verifying completion of the minor.

Minimum Residency Requirement

Students must take at least 12 of the 24 units required for the minor at ASU and at least six of the upper-division hours must be taken from courses offered by the College of Liberal Arts and Sciences. Transfer course work must be evaluated by an advisor in the School of Earth and Space Exploration before it can be applied toward the minor requirements.

The College of Liberal Arts and Sciences and the School of Earth and Space Exploration must officially certify, through established verification procedures, that all requirements for the minor have been met. The college of the student's major allows recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Astrophysics Minor (LAASTPHMIN)

Campus: Tempe

Description:

The astrophysics minor is designed for students interested in developing a background in the theoretical modeling and observational techniques of galactic and stellar astronomy, extragalactic astronomy, and cosmology. Students completing the minor will acquire the ability to think critically about scientific problems, to reduce complex problems to their most important attributes, and to design experiments, observations and theoretical models to address those attributes. Students pursuing an astrophysics minor are expected to have a strong background in physics and mathematics.

Program Requirements:

The minor in astrophysics consists of a minimum of 20 credit hours.

The following courses are required for the minor, adding up to 12 credit hours.

AST 321 Introduction to Planetary and Stellar Astrophysics, SQ (3)*
AST 322 Introduction to Galactic and Extragalactic Astrophysics, SQ (3)*
AST 421 Astrophysics I (3)
AST 422 Astrophysics II (3)

Students must also choose one of the following options for the additional eight credit hours:

Option 1:

SES 121 Earth, Solar System and Universe I, SQ (3)*
SES 122 Earth, Solar System and Universe II (3)
SES 123 Earth, Solar System and Universe Laboratory I, SQ (1)*
SES 124 Earth, Solar System and Universe Laboratory II (1)

Option 2:

AST 111 Introduction to Solar Systems Astronomy, SQ (3)*
AST 112 Introduction to Stars, Galaxies and Cosmology, SQ (3)*
AST 113 Astronomy Laboratory I, SQ (1)*
AST 114 Astronomy Laboratory II, SQ (1)*

Option 3:

At least eight credit hours of AST or SES upper-division electives; these may include (but are not limited to):

AST 494 Special Topics: Observing Instrumentation and Data Analysis (3)
SES 311 Essentials of Astrobiology: Exploration for Life in the Universe (3)

Courses required for the astrophysics minor may have additional prerequisites.

*In order to satisfy SQ natural science General Studies requirements, both a lecture and its corresponding laboratory section must be completed.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

All students will be required to meet with an academic advisor in the School of Earth and Space Exploration to declare the minor and confirm that the requirements are being met. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor. The Degree Audit Reporting system will be used for tracking student progress and verifying completion of the minor.

Minimum Residency Requirement:

Students must take at least 12 of the 20 units required for the minor at ASU and at least six of the upper-division hours must be taken from courses offered by the College of Liberal Arts and Sciences. Transfer course work must be evaluated by an advisor in the School of Earth and Space Exploration before it can be applied toward the minor requirements.

The College of Liberal Arts and Sciences and the School of Earth and Space Exploration must officially certify, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Biochemistry Minor (LABCHMIN)

Campus: Tempe

Description:

The biochemistry minor is designed to give students majoring in other disciplines a solid grounding in the basics of biochemistry to complement their major degree program. It is especially appropriate for students whose majors are in the various disciplines of life sciences, physics, engineering and geology and for students planning careers in the fields of medicine and health.

Program Requirements:

A minor in biochemistry is awarded to students who complete 28 credit hours in the following required courses:

BCH 341 Physical Chemistry with a Biological Focus (3)*
BCH 461 General Biochemistry (3)
BCH 462 General Biochemistry (3)
BCH 467 Analytical Biochemistry Laboratory, L (3)
CHM 113 General Chemistry I, SQ (4)
CHM 116 General Chemistry II, SQ (4)
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)

*Prerequisites for BCH 341 include CHM 114, 116 or 118 with "C" or better; CHM 231, 233 or 333 with "C" or better; MAT 251, 265 or 270 with "C" or better; and PHY 101, 112 or 131 with "C" or better.

A minimum grade of "C" (2.00 on a scale of 4.00) is required for each of the courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Biological Sciences Minor (LABIOMIN)

Campus: Tempe

Description:

Biological sciences encompasses the study of all living things and includes the study of basic organization and function, how organisms evolve, their roles in the natural environment, how hereditary information is transferred and the development of biotechnology. The biological sciences minor is designed to provide students interested in the biological sciences with a flexible curriculum that can be tailored to their interests.

Program Requirements:

The minor consists of 24 credit hours, which can be taken in one of two options.

Option 1

BIO 281 Conceptual Approaches to Biology for Majors I, SQ (4)
BIO 282 Conceptual Approaches to Biology for Majors II (4)
BIO 340 General Genetics (4)
BIO 345 Evolution (3)

Option 2

BIO 281 Conceptual Approaches to Biology for Majors I, SQ (4)
BIO 282 Conceptual Approaches to Biology for Majors II (4)
BIO 340 General Genetics (4) or MBB 347 Molecular Genetics: From Genes to Proteins (4)
MIC 220 Biology of Microorganisms (3) and MIC 206 Microbiology Laboratory, SG (1)

The remaining hours are selected by the student with the approval of a School of Life Sciences advisor.

Notes:

- At least 12 hours must be upper-division courses in the life sciences and at least six upper-division hours taken in the College of Liberal Arts and Sciences.
- Courses which are not available for credit in the life sciences majors cannot be used for the minor (e.g., BIO 100 The Living World, BIO 201 Human Anatomy and Physiology I, and BIO 202 Human Anatomy and Physiology II).
- Internship courses cannot be used to fulfill the 24 credit hour requirement.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

This minor is not available to students majoring in the life sciences. Students in most majors may pursue at least one minor and upon successful completion of the prescribed course work have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Biology Minor (ASLSCMIN)

Campus: West

Description:

A minor in biology, offered by the School of Mathematical and Natural Sciences, can be a valuable asset particularly when paired with an appropriate major. For instance, a minor in biology paired with a major in political science would provide a good background for someone who wanted to practice environmental law.

Program Requirements:

Required Courses:

BIO 181 General Biology I, SQ (4)
BIO 182 General Biology II, SG (4)
BIO 320 Fundamentals of Ecology (3)
BIO 353 Cell Biology (3)
BIO 354 Cell Biology Laboratory (1)
CHM 113 General Chemistry I, SQ (4)
CHM 116 General Chemistry II, SQ (4)
LSC 322 Fundamentals of Ecology Laboratory (1)
LSC 347 Fundamentals of Genetics (3)
LSC 348 Fundamentals of Genetics Laboratory (1)

To receive this minor, a grade of "C" or better is required in all courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in biology is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Business Minor (BABUSMIN)

Campus: Tempe, Online

Description:

A minor in business is available to students throughout the university who are interested in business courses but wish to pursue majors in other colleges. The courses available for the minor are designed to appeal to and inform the nonbusiness student while covering a broad range of topics that are important to managers, such as:

- accounting
- computer information systems
- economics
- finance
- management
- marketing
- supply chain management

Program Requirements:

Students must complete 18 credit hours (12 of which must be upper division) of the specified business courses with a grade of "C" (2.00) or higher in each course. At least 12 credit hours must be taken at ASU.

Students may not double count any courses with other business certificates.

The upper-division courses specified for the minor will be restricted to students with 56 earned credit hours and a minimum 2.00 ASU cumulative GPA.

Business students are not eligible to apply for the minor. Economics majors must use ECN 212 in their degree and will take an additional elective to replace ECN 212 in the minor.

Required Courses:

ACC 382 Accounting and Financial Analysis (3)*
ECN 212 Microeconomic Principles, SB (3)
FIN 380 Personal Financial Management (3)
MGT 380 Management and Strategy for Nonmajors (3)
MKT 390 Essentials of Marketing (3)

Electives: (select one)

CIS 300 Web Design and Development (3)
CIS 394 Special Topics (3)
ECN 211 Macroeconomic Principles, SB (3)
FIN 331 Financial Markets and Institutions (3)
MKT 391 Essentials of Selling (3)
MKT 394 Special Topics (3)
MKT 395 Essentials of Advertising and Marketing Communication (3)
REA 380 Real Estate Fundamentals (3)
SCM 301 Introduction to Modern Global Supply Chain Management (3)
SCM 394 Special Topics (3)

*ACC 230 or ACC 231 will substitute for ACC 382.

Note: If a student has taken one of the approved courses above and it is not showing in the DARS audit, please email wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Application:

A student seeking the business minor must see an advisor in the student's major in order to add the minor to the student's degree audit (DARS).

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Chemistry Minor (ASCHMMIN)

Campus: West

Description:

The minor in chemistry, offered by the School of Mathematical and Natural Sciences, gives students expanded proficiency in the area of chemistry. Many of the growing career fields, such as forensics, medicine and environmental quality, require a greater degree of chemistry than in the past. Therefore, students with a greater chemistry background will have a competitive advantage in these fields. The chemistry minor gives students more experience in the advanced and integrative fields of chemistry through additional biochemistry and analytical chemistry courses. The awarding of the chemistry minor highlights the students' expanded chemistry knowledge to future schools and employers.

Program Requirements:

The minor in chemistry consists of a minimum of 25 credit hours, of which nine credit hours must be taken in the life sciences department. Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor. Students may have to take additional prerequisites in order to enroll in BCH 371 and BCH 372.

Required Courses:

BCH 371 Modern Concepts in Biochemistry (3)
BCH 372 Modern Concepts in Laboratory (1)
CHM 113 General Chemistry I, SQ (4)
CHM 116 General Chemistry II, SQ (4)
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
LSC 375 Analytical Chemistry for Life Sciences (3)
LSC 376 Analytical Chemistry for Life Sciences Lab (2)

Enrollment Requirements:

The minor in chemistry is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school,

or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college, school or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Chemistry Minor (LACHMMIN)

Campus: Tempe

Description:

The chemistry minor is designed to give students majoring in other disciplines a solid grounding in the basics of chemistry in order to complement their major degree. It is especially appropriate for students whose majors are in the various disciplines of physics, materials science, geology, engineering and life sciences.

Program Requirements:

A minor in chemistry is awarded to students who complete a minimum 28 credit hours. The following courses are required:

CHM 113 General Chemistry I, SQ (4)
CHM 116 General Chemistry II, SQ (4)
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
CHM 325 Analytical Chemistry (3)
CHM 326 Advanced Analytical Chemistry Laboratory (1)
Choose between the two combinations of courses: (8 credit hours)

BCH 361 Advanced Principles of Biochemistry (3)
BCH 367 Elementary Biochemistry Laboratory (1)
CHM 341 Elementary Physical Chemistry (3)
CHM 343 Elementary Physical Chemistry Laboratory (1)

--- or ---

CHM 345 Physical Chemistry I (3)
CHM 346 Physical Chemistry II (3)
CHM 348 Physical Chemistry Laboratory I, L (1)
CHM 349 Physical Chemistry Laboratory II, L (1)

A minimum grade of "C" (2.00 on a scale of 4.00) is required for each of the courses in the minor. Some courses require prerequisite work in calculus and physics.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification

procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Communication Minor (HSCMNMIN)

Campus: West

Description:

The minor in communication, offered by the School of Social and Behavioral Sciences, provides students the opportunity to understand the role and function of communication in cultural, public, organizational and relational contexts. The program offers a flexible set of courses and is designed for students majoring in another field.

Program Requirements:

The minor consists of 18 credit hours of communication courses. Students wishing to pursue a minor must meet with an academic advisor to construct a set of courses that reflect a particular area of specialty and interest. At least 12 credit hours must come from upper-division courses and a maximum of six credit hours are allowed from lower-division course work. To graduate with the minor, students must earn a minimum cumulative GPA of 2.00 in communication courses. All courses must be passed with a minimum grade of "C" (2.00).

Required courses: (6 credit hours)

COM 100 Introduction to Human Communications, SB (3)

COM 225 Public Speaking, L (3)

COM elective courses (12 credit hours)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in communication is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering the minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD-305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Communication Minor (LACOMMIN)

Campus: Tempe

Description:

The minor in communication focuses on teaching students how communication processes create, maintain and transform identities, relationships, workplaces and communities.

Our mission statement is "Through the study and critique of human communication, we generate knowledge, creativity and understanding to facilitate healthy relationships and workplaces, civil and secure communities, and constructive intercultural interaction."

Program Requirements:

The minor in communication consists of 18 credit hours:

COM 100 Introduction to Human Communication, SB (3)

COM 225 Public Speaking, L (3) or COM 259 Communication in Business and the Professions (3)

Two of the following courses:

COM 310 Relational Communication (3)

COM 312 Communication, Conflict and Negotiation (3)

COM 316 Gender and Communication, SB, C (3)

COM 323 Communication Approaches to Popular Culture, C (3)

Two upper-division related courses in Global Studies, Asian Pacific American Studies, African and African American Studies, Transborder Chicana/o and Latina/o Studies or American Indian Studies (SGS, APA, AFR, TCL or AIS) (6)

Nine of the 18 credit hours must be ASU resident credit courses, including six upper-division credit hours offered by the College of Liberal Arts and Sciences. No pass/fail, "Y" credit or credit/no-credit courses are allowed. Communication courses required for a student's major may not also count for the minor. All prerequisites and GPA requirements must be met. The "C" (2.00 on a 4.00 scale) minimum grade requirement must be met for each class.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation. The college or department of the minor must officially certify, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Communication Minor (LSCOMMIN)

Campus: Downtown Phoenix, Polytechnic

Description:

The minor in communication provides exposure to practical and theoretical aspects of communication, focusing on message-based processes that create, maintain and transform identities, relationships, organizations and cultures.

Program Requirements:

This minor requires 18 credit hours of communication courses.

COM 100 Introduction to Human Communication, SB (3)

15 credit hours of COM prefix courses of which 12 must be upper-division

Six credit hours must be taken from COM courses offered by the College of Integrative Sciences and Arts.

Depending upon a student's program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Community Health Minor (NUCHLTMIN)

Campus: Downtown Phoenix, West

Description:

The minor in Community Health is designed for students who want to create healthy, sustainable communities with an emphasis on working with specific populations. Community health is a specialized field within public health and concentrates on the actions and conditions needed for the health and well-being of defined groups of people. Students will learn to work with teams in diverse settings to formulate research-based strategies that assist communities to make healthy and sustainable lifestyle choices.

Program Requirements:

Required Minor Courses (18 credits):

HCR 220 Introduction to Nursing and Health Care Systems (3) OR HCR 430 Foundation to Health Care Systems (3)

HCR 330 Fundamentals of Community Health (3)

HCR 331 Communication with Communities (3)

HCR 335 Program Development and Management for Community Health (3)

HCR 336 Environmental Community Health (3)

HCR 435 Leaders in Community Health

A "C" (2.00 on a 4.00 scale) or better is required in all minor courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Community Sports Management Minor (PPCSMMIN)

Campus: Downtown Phoenix

Description:

The community sports management minor focuses on the role that amateur and recreational sports play in a community. Emphasis is on the role of sports across the life span provided through sports organizations and programs that also support community development.

Program Requirements:

Students must complete the courses for the minor with a grade of "C" (scale is 4.00 = "A") or better.

Core Courses:

CSM 201 Introduction to Community Sports (3)
CSM 305 Sports Facility Operations and Management (3)
CSM 407 Ethics and Legal Issues in Sports (3)
PRM 315 Community Recreation Systems (3)

Students must select six credits of electives from the following:*

CSM 335 Sports and Recreation for Youth Development (3)
CSM 483 Sports Tourism (3)
CSM 485 Sports Events (3)
NLM 220 Introduction to Nonprofit Organizations (3)
NLM 310 Volunteer Management (3)
PRM 364 Foundations of Recreation Therapy, SB (3)

*other electives can be selected with advisor approval

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major

allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Computational Mathematical Sciences Minor (LACMSMIN)

Campus: Tempe

Description:

The computational mathematical sciences minor offers students a curriculum that includes computer science in addition to course work in mathematics.

Program Requirements:

The minor in computational mathematical sciences consists of a minimum of 18 credit hours. Required courses are the following, for a total of 18-20 credit hours:

MAT 266 Calculus for Engineers II, MA (3) or MAT 271 Calculus with Analytic Geometry II, MA (4)
MAT 267 Calculus for Engineers III, MA (3) or MAT 272 Calculus with Analytic Geometry III, MA (4)
MAT 342 Linear Algebra (3) or MAT 343 Applied Linear Algebra (3)
MAT 420 Scientific Computing (3)
MAT 421 Applied Computational Methods, CS (3)
MAT 423 Numerical Analysis I, CS (3) or MAT 425 Numerical Analysis II, CS (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. Students should also consult with an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information and see <https://math.asu.edu/degree-programs/programs/undergraduate> (<https://math.asu.edu/degree-programs/programs/undergraduate>).

Construction Management Minor (ESCMGMIN)

Campus: Tempe

Description:

This minor will be comprised of course work in construction management processes incorporating the technology and industry practices required to ensure a quality-built environment. Due to industry demands for increased numbers of skilled personnel, this minor will provide much needed supplementary knowledge for architects, engineers and business majors as well as students majoring in sustainability.

Program Requirements:

The minor requires 18 credit hours.

Core Required: (12 credit hours)

CON 244 Working Drawing Analysis (2)

CON 271 Construction Safety (3)

CON 383 Construction Estimating (4)

CON 453 Construction Project Management I (3) or CON 487 Heavy Construction Project Management (3)

Electives: (6 credit hours)

CON 252 Building Construction Methods, Materials and Equipment (3) or CON 243 Heavy Construction Equipment, Methods and Materials (3)

CON 448 Sustainable Construction (3)

CON 495 Construction Planning and Scheduling, CS (3)

CON 496 Construction Contract Administration, L (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Criminology and Criminal Justice Minor (PPCRJMIN)

Campus: Downtown Phoenix, Online

Description:

The minor in criminology and criminal justice allows students in other undergraduate programs at ASU to explore issues of crime, law and the criminal justice system. The minor provides students with the tools to analyze complex issues and policies within the criminal justice system, enhancing students' ability to understand the nature of crime and the system response to law breaking. In addition to the three required courses, which provide a solid understanding of the field, each student will be able to select electives to meet his or her specific interests. Criminal justice majors cannot earn a minor in criminal justice.

Program Requirements:

Students are required to:

- at minimum, be in junior standing to take upper-division courses
- complete CRJ 100 as the prerequisite for all upper-division CRJ courses
- complete a minimum of 18 credit hours of graded classroom and online course work (internship or independent study not applicable)
- complete a minimum of 12 credit hours of CRJ resident credit at ASU
- earn a grade of "C" (2.00 on a 4.00 scale) or higher for all classes in the minor
- meet with a criminal justice advisor prior to registration

Required core courses: (6 credit hours)

CRJ 100 Introduction to Criminal Justice, SB (3)

CRJ 225 Introduction to Criminology, SB (3)

Choose one of the following: (3 credit hours)

CRJ 203 Courts and Sentencing (3)

CRJ 230 Introduction to Policing (3)

CRJ 240 Introduction to Corrections (3)

Choose one of the following: (3 credit hours)

CRJ 305 Gender, Crime and Criminal Justice, C (3)

CRJ 306 Race, Ethnicity, Crime and Criminal Justice, C (3)

Electives: (6 credit hours)

Choose any two additional CRJ courses at the 300- or higher level

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Applicants are asked to please meet with a criminal justice advisor prior to registration.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

602-496-2356

Dance Minor (FADANMIN)

Campus: Tempe

Description:

The School of Film, Dance and Theatre provides a dynamic and culturally diverse learning environment in which students develop their creativity as artists, scholars and educators. The transdisciplinary curriculum promotes creative collaboration and a holistic approach to acquiring skills for successful career transitions. Movement practices, performance and creativity practice define the core of the program. The rich educational experience is further enhanced by studies in:

- criticism
- dance cultures
- dance history
- digital media
- movement science
- music
- pedagogy and leadership
- philosophy

- production
- somatics

Program Requirements:

The minor in dance consists of 18 semester hours of course work, including 12 upper-division semester hours.

A minimum grade of "C" (2.00) or higher is required in all courses that fulfill the dance minor.

Dance Minor Requirements:

Choose one from the following courses, for a total of three credit hours:

DCE 100 Introduction to Dance, HU (3)

DCE 201 Dance, Culture and Global Contexts, HU (3)

Choose one from the following courses, for a total of three credit hours:

DCE 240 Media for Dance, CS (3)

DCE 300 Moving Histories, HU (3)

DCE 301 Meaning in Motion, L or HU (3)

DCE 350 Dance in the Classroom: Learning Through Movement, HU (3)

DCE 394/494 Special Topics*

DCE 402 Ethnography of Dance Practices, L (3)

Choose two from the following courses, for a total of four credit hours:

DCE 110 Argentine Tango I (2)

DCE 111 Raqs Sharqi I (2)

DCE 112 Capoeira I (2)

DCE 113 Dances of Africa I (2)

DCE 114 Dances of India I (2)

DCE 115 Yoga I (2)

DCE 116 T'ai Chi Ch'uan I (2)

DCE 117 Feldenkrais I (2)

DCE 118 Yoga/Pilates (2)

DCE 120 Modern Dance 1 (2)

DCE 121 Ballet I (2)

DCE 122 Jazz I (2)

DCE 123 Hip Hop I (2)

DCE 124 Latin/Swing/Ballroom I (2)

DCE 125 Latin/Salsa I (2)

DCE 126 Country-Western (2)

DCE 194/294 Special Topics*

DCE 210 Argentine Tango II (2)

DCE 211 Raqs Sharqi II (2)

DCE 216 T'ai Chi Ch'uan II (2)

DCE 220 Modern Dance II (2)

DCE 221 Ballet II (2)

DCE 222 Jazz II (2)

DCE 223 Hip Hop II (2)

DCE 224 Latin/Swing/Ballroom II (2)

DCE 225 Latin/Salsa II (2)

DCE 324 Latin/Swing/Ballroom III (2)

Choose eight hours of dance electives (to complete 18 hours overall); must include 12 upper-division hours.

*See an academic advisor for approved special topics courses.

Note: Students interested in enrolling in movement courses reserved for dance majors only must attend the course on the first day of class for placement and instructor permission. Dance major courses: DCE 133 Urban Movement Practices I (2), DCE 134 Postmodern Contemporary I (3), DCE 135 Contemporary Ballet I (2), DCE 136 Somatic Practices I (2).

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Design Studies Minor (ARDSNMIN)

Campus: Tempe

Description:

Students interested in design can earn a minor in design studies. This minor is a nonstudio-based program of study in design that focuses on the design disciplines offered in the ASU Herberger Institute:

- architectural studies
- graphic design
- industrial design
- interior design
- landscape architecture

The courses may also appeal to students who wish to pursue the study of design within the BIS.

Program Requirements:

Courses selected must satisfy the minimum requirement of 18 credit hours for the minor. Twelve of the credit hours must be in 300-level or 400-level course work; the 18 credits may be chosen from any of the categories. To enhance understanding of the subject matter, some of the designated courses are sequential in nature and require certain prerequisites. Consequently, students should carefully note the semester in which these particular courses are offered. All designated courses for the minor in design studies are lecture courses. To pursue the minor in design studies, students must have a minimum cumulative GPA of 2.50.

Designated Courses for the Minor:

Architecture and Landscape Architecture

ALA 100 Introduction to Environmental Design, HU, G, H (3)

ALA 102 Landscapes and Sustainability, HU, G (3)

APH 313 History of Architecture I, L or HU, G, H (3)

APH 314 History of Architecture II, L or HU, G, H (3)

APH 421 First Concepts: What is ... The Writing, Philosophy and Culture of Architecture, L or HU (3)

APH 494 Topic: Culture of Place in the Built Environment (3)

LPH 310 History of Landscape Architecture, HU, H (3)

LPH 311 20th-Century Landscape Architecture, HU (3)

Design

DSC 101 Design Awareness, HU, G (3)

DSC 194 Topic: Design Thinking (3)

DSC 394 Topic: Design Entrepreneurship and Society (3)

Graphic Design

GRA 101 Designing Life (3)

GRA 111 Graphic Design History I, HU (3)
GRA 112 Graphic Design History II (3)
GRA 225 Communication/Interaction Design Theory (3)
GRA 345 Design Rhetoric, L (3)
GRA 401 Creative Environment (3)
GRA 440 Finding Purpose (3)

Industrial Design

IND 242 Materials and Design (3)
IND 243 Design for Ecology and Social Equity (3)
IND 316 20th-Century Design I, HU, H (3)
IND 317 20th-Century Design II, HU, H (3)
IND 344 Human Factors in Design (3)
IND 354 Principles of Product Design (3)
IND 470 Professional Practice for Industrial Design, L (3)

Interior Design

INT 111 Interior Design Issues and Theories, HU (3)
INT 121 Introduction to Computer Modeling for Interior Design, CS (3)
INT 123 Introduction to Computer-Aided Design and Building Information Modeling (3)
INT 131 Design and Human Behavior, SB (3)
INT 310 History of Interior Design I, HU, H (3)
INT 311 History of Interior Design II, HU, H (3)
INT 412 History of Decorative Arts in Interiors, HU (3)
INT 413 History of Textiles in Interior Design (3)
INT 415 Latin American Design (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Digital Culture Minor (HIDGCMIN)

Campus: Tempe

Description:

The digital culture minor in the Herberger Institute for Design and the Arts focuses on the creative exploration of how new media is influencing our culture, or rather the way we live, learn, create and communicate. The digital culture minor allows students to enhance their program of study with integrated, transdisciplinary training in creative processes and technical skills in new media with cultural applications.

The curriculum is outcomes-based rather than course sequence-based. The curriculum uses an innovative proficiency-based network to connect courses across academic disciplines, instead of traditional methods such as course prerequisites. Proficiencies in the curriculum identify common generalized learning outcomes across disciplines participating in the initiative.

Digital Culture alumni have received job opportunities in the following fields:

- audio and video
- engineering
- graphic design
- illustration
- iOS development
- journalism
- programming
- software engineering
- special effects
- 3D modeling and fabrication
- visual media

Program Requirements:

The digital culture minor requires 21 credit hours (12 upper-division) in four areas:

Capstone culminating project: (3)

AME 485: Digital Culture Capstone I (3)

Required digital culture studies: (9)

AME 111 Introduction to Digital Culture, CS (3)

AME 230 Programming for the Media Arts (3)

a third digital culture elective course chosen from the list

Digital media - media arts and design (6)

Historical/theoretical or related digital culture (3)

A student must have a minimum GPA of 2.50 to be eligible to pursue the minor. A minimum grade of a "C" (2.00 on a scale of 4.00) and an overall GPA of 3.00 is required in all classes for the minor. Courses for the minor may not be used as part of a major. A minimum of 12 upper-division semester hours of credit at ASU is required.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

There is no special application process for the digital culture minor.

Students add the minor by meeting with the academic advisor for their major. Students are also required to meet with the digital culture academic success coordinator to develop the digital culture pathway that best meets the proficiencies for the work they are interested in pursuing.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Early Childhood Education Minor (TEECEDMIN)

Campus:

Description:

A minor in early childhood education will allow students to combine their knowledge of their major discipline with an understanding of educational practices and issues. The ultimate goal of this minor is to produce graduates who are educated in their major field of study and who understand and appreciate education that positively impacts the community. The service learning experience embedded in this minor will enable students to apply

their knowledge and skills to meaningful service experiences in the community.

Program Requirements:

The minor in early childhood education requires the following courses, for 18 credit hours:

ECD 211 The Developing Child: Theory into Practice, Prenatal to Grade 3, SB (3)

ECD 220 Introduction to Nutrition, Health and Safety (2)

ECS 312 Social and Emotional Development of the Young Child, SB (3)

ECS 431 Family, Community and Professional Support Systems (3)

EDP 310 four one-hour electives in Educational Psychology for Non-Teachers, SB (4)

USL 210 Service Learning: Intro to Diverse Community Issues/410 Service Learning: Diverse Community Issues, L, C (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed to complete the requirements of this minor.

Enrollment Requirements:

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Economics Minor (LAECNMIN)

Campus: Tempe

Description:

Students who pursue the minor in economics create a personalized program of study that covers economic theory and applications. Students complete introductory courses (ECN 211 and ECN 212) and choose electives from a large set of upper-division offerings to suit individual interests and goals.

Program Requirements:

This minor (and BIS area of concentration) requires 18 credit hours of course work, which includes:

ECN 211 Macroeconomic Principles, SB (3)

ECN 212 Microeconomic Principles, SB (3)

twelve credit hours of ECN courses at the 300 level or above for which all prerequisites have been met

A grade of "C" (2.00 on a 4.00 scale) or higher is required for any course to satisfy minor requirements. Six credit hours of upper-division course work must be completed in courses offered by the W. P. Carey School of Business. Upper-division economics courses offered by W.P. Carey require prerequisites. In addition to ECN 211 and 212, students must complete MAT 210 and MAT 211 or MAT 270 and 271 prior to enrolling in ECN upper-division courses.

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. Students should also consult with an academic advisor in the college or department of their major to make sure the college or department of their major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor.

Educational Studies Minor (TEEDSTMIN)

Campus:

Description:

The minor in educational studies is designed for students who want to work with children, youth or adults in educational settings that do not require traditional teacher certification. It provides foundational course work in the field of education that can be applied in a wide variety of learning environments (i.e., community settings, nonprofit, business and industry).

Students interested in career and technical education certificates can use the educational studies minor to meet course work requirements for the CTE certificate. Additional requirements for the CTE certificate, including work experience, are not included in the minor. Students interested in obtaining the CTE certificate should refer to the Arizona Department of Education website for further information.

Program Requirements:

The minor in educational studies requires a minimum of 18 credit hours, to include six lower-division credits and 12 upper-division credits from one of the following focus areas: learning and instruction, learning in the community, physical activity, or general overview of education.

Required lower-division course work (6 credit hours):

Required (one course from this list):

TEL 111 Exploration of Education, SB (3)
TEL 212 Understanding the Culturally Diverse Child, C (3)
SPE 222 Orientation to Education of Exceptional Children, SB, C (3)
BLE 220 Foundations of Structured English Immersion (3)

Required Service Learning:

USL 210 Service Learning: Intro to Diverse Community Issues, L, C (3)

Required upper-division course work (12 credits) from ONE focus area below:

Learning and Instruction

EDP 310 Educational Psychology, SB (3)
SED 494 Middle and Secondary School Principles, Curricula and Methods (3)
TEL 311 Instruction and Management in the Inclusive Classroom (3)
TEL 313 Educational Technology in the K-12 Curriculum (3)
Learning in the Community

EDP 310 or 311 Educational Psychology for Future Teachers (or Non-Teachers), SB (3)
SPF 301 Culture and Schooling, L (3)
TEL 430 Learning Outside of School (3)
TEL 431 Learning in Workplaces (3)

Physical Activity

PPE 335 Movement and Physiology Principles of Children and Youth in Physical Activity Environments (3)
PPE 340 Understanding Children in Physical Activity Environments (3)
PPE 345 Adolescents in Physical Activity Environments: Understanding and Practices (3)
PPE 351 Coaching of Children and Adolescents in Physical Activity Environments (3)

General Overview of Education

12 upper-division credits from any of these prefixes: BLE, ECD, ECS, EED, EDP, EDT, PPE, SED, TEL, SCN, SPE, SPF, USL

Depending upon a student's undergraduate program of study, prerequisites courses may be needed to complete the requirements of this minor.

Enrollment Requirements:

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Engineering Management Minor (ESENMMIN)

Campus: Tempe, Online

Description:

The minor in engineering management is designed to provide the student with the skills for effective management and leadership of engineering-driven enterprises. The minor curriculum supplements the student's major by adding to the breadth of engineering science and design, and equips the student with additional management and design skills. This knowledge is augmented with an understanding of business practices, organizational behavior and management skills to enable the graduate to succeed in the management of a scientific or engineering enterprise. Topics such as project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management are covered, in addition to product design and process development.

Program Requirements:

The program of study for a minor in engineering management requires a minimum of 18 credit hours. Note that industrial engineering or engineering management majors will NOT be eligible for the minor.

The minor requires completion of four core courses (12 credit hours) and two elective courses (six credit hours) for a total of 18 credit hours. All courses must be passed with a "C" or better. At least 12 credit hours must be completed in residency at ASU or through ASU Online. The required core courses include:

IEE 220 Business and Industrial Engineering (3) or IEE 380 Probability and Statistics for Engineering Problem Solving, CS (3)*

IEE 300 Economic Analysis for Engineers (3)

IEE 431 Engineering Administration, L (3)

IEE 458 Project Management (3) (spring only) or CEE 481 Civil Engineering Project Management (3)**

*Students whose major requires IEE 380 Probability and Statistics for Engineering Problem Solving (3) will need to take IEE 220 Business and Industrial Engineering (3) for the engineering management minor.

**CEE 481 may not be used for both the civil engineering degree (major) and the engineering management minor.

The two elective courses must be selected from the following list:*

IEE 369 Work Analysis and Design, L (3) (spring only)

IEE 376 Operations Research Deterministic Techniques/Applications (3)

IEE 381 Lean Six Sigma Methodology (3)

IEE 412 Introduction to Financial Engineering (3) (fall only)

IEE 454 Risk Management (3) (fall only)

IEE 456 Introduction to Systems Engineering (3)

IEE 474 Quality Control (3) (fall only)

Depending upon a student's undergraduate program of study, prerequisite courses in order to complete the requirements of this minor.

Enrollment Requirements:

Prior to enrolling in the minor, students must have completed MAT 265 and MAT 266 (or an equivalent calculus sequence) with a grade of "C" or better in each.

Interested students should consult with a CIDSE advisor to verify eligibility and to review all courses required for the minor. To schedule a CIDSE advising appointment, go to <https://fultonapps.asu.edu/advising> (<https://fultonapps.asu.edu/advising>).

Students interested in the engineering management minor should also consult with the advisor of the major to ensure recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. English Minor (ASENGMIN)

Campus: West

Description:

The minor in English, offered by the School of Humanities, Arts and Cultural Studies, represents an ideal choice for students who enjoy English and desire to become a better writer, reader, and thinker. The program requirements ground the student in the basics of literary and cultural study, and then allow for a range of course offerings in creative writing, linguistics, rhetoric, literature, and technical and professional communication. With its emphasis on critical reading and writing skills, the English minor is the perfect complement to any major.

Program Requirements:

The minor in English requires a minimum of 24 credit hours, of which 18 must be upper-division (300 or 400 level). Students must complete a minimum of six upper-division credit hours in courses offered by the New College of Interdisciplinary Arts and Sciences.

Required Core Course:

ENG 200 Critical Reading and Writing About Literature, L or HU (3)

Distribution Cluster Requirement:

Select one course from each distribution cluster. Fifteen credits are required, and at least two courses, for six upper-division credits, must be at the 400 level. Students may, once only, use one course to satisfy two distribution requirements:

Literature and Culture, Pre-1860

ENG 315 Medieval Literature in Translation, HU (3)

ENG 321 Shakespeare, L or HU (3)

ENG 328 The Novel to Jane Austen, HU and H (3)

ENG 353 African American Literature: Beginnings through Harlem Renaissance, L or HU and C (3)

ENG 415 Studies in Medieval Literature and Culture, HU (3)

ENG 416 Chaucer in Middle English, HU (3)

ENG 421 Studies in Shakespeare, HU (3)

ENG 423 Renaissance Drama, L or HU (3)

ENG 425 Studies in Romanticism, HU (3)

ENG 432 The American Renaissance, HU (3)

ENG 440 Studies in American Literature and Culture, HU (3)

Literature and Culture, Post-1860

ENG 334 The American Southwest in Literature and Film, L or HU and C (3)

ENG 354 African American Literature: Harlem Renaissance to Present, L or HU and C (3)

ENG 369 Science Fiction Studies (3)

ENG 386 American Gothic (3)

ENG 431 Whitman and Dickinson, HU (3)

ENG 437 American Novel, 1900-1960, L or HU (3)
ENG 438 American Novel Since 1960, L or HU (3)
ENG 440 Studies in American Literature and Culture, HU (3)
ENG 450 The British Novel, HU (3)
ENG 471 Literature for Young Adults, HU (3)
ENG 478 Studies in Modernism, L or HU (3)
ENG 479 Studies in Postmodernism, HU and G (3)

Transnational, Linguistic and Textual Circulation

ENG 317 Cross-Cultural Writing, L or HU and G (3)
ENG 333 American Ethnic Literature, L or HU and C (3)
ENG 363 Transborder Mexican and Chicano/a Literature of Southwest North America, L or HU and C (3)
ENG 379 Travel Writing, L (3)
ENG 394 or 494 Special Topics* (1-3)
ENG 413 History of English Language, HU (3)
ENG 462 Africana Literature, HU and G (3)
ENG 494 Reading England's Literary Landscapes 1 and 2 (6)
IAS 294 Global Cities (3) or SAO 394 Special Topics (1-4) or any 400-level Study Abroad Office (SAO) course

*If focused explicitly on issues of transnationalism and textual circulation

Identities, Communities and Social Practices

ENG 312 English in its Social Setting, L or HU or SB (3)
ENG 353 African American Literature: Beginnings through the Harlem Renaissance, L or HU and C (3)
ENG 394 or 494 Special Topics** (1-3)
ENG 400 History of Literary Theory, L or HU and H (3)
ENG 401 Studies in Critical Theory (3)
ENG 420 Multicultural Autobiographies, L or HU and C (3)
ENG 440 Studies in American Literature and Culture, HU (3)
ENG 454 Gender and Literature, L or HU (3)
ENG 460 Ethnic Women Writers (3)
ENG 461 Studies in Women and Literature, HU (3)
ENG 463 African American Literature (3)
ENG 479 Studies in Post Modernism, HU and G (3)

**If focused explicitly upon issues of identities, communities and social practices; including Studies in Forensic Linguistics

Theories and Practices of Writing

ENG 311 Persuasive Writing, L (3)
ENG 323 Rhetoric and Grammar, L (3)
ENG 335 American Poetry (3)
ENG 361 Scriptwriting (3)
ENG 379 Travel Writing, L (3)
ENG 387 Intermediate Creative Writing Workshop in Poetry (3)
ENG 388 Intermediate Creative Writing: Fiction (3)
ENG 410 Writing for Publication (3)
ENG 457 Studies in American Poetry, HU (3)
ENG 490 Literary Forms: Theory and Practice in Poetry (3)

Additional hours, to complete 24 credit hours, are electives chosen from program offerings. Eighteen credit hours overall must be upper-division.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to fulfill the requirements of this minor.

Enrollment Requirements:

The minor in English is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of

courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

English Minor (LAENGMIN)

Campus: Online

Description:

A minor in English provides students with preparation for any profession requiring strong analytical and communication skills, including careers in: publishing, journalism, public relations, nonprofit organizations, professional and technical writing, education, business, banking, grassroots activism, law and medicine as well as numerous others throughout industry and government.

The minor in English is delivered entirely online and serves as a complement to the chosen major of undergraduate students who are pursuing an ASU major online.

Program Requirements:

The online minor in English consists of 24 credit hours. At least four courses (12 of the 24 hours) must be taken at the 300 or 400 level with the remaining nine credit hours to be completed with ENG 200-499 courses. A grade of "C" (2.00 on a 4.00 scale) or higher is required in all courses taken for the minor.

Required:

ENG 200 Critical Reading and Writing About Literature, L or HU (3)

To complete the 24 credit hours, students choose 21 credit hours in electives from among the department's offerings, including:

a minimum of six credits in ENG courses at the 300 level

a minimum of six credits in ENG courses at the 400 level

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. English Minor (LSENGMIN)

Campus: Polytechnic

Description:

The minor in English focuses on effective writing, critical thinking and sophisticated reading of literary and nonliterary texts.

Program Requirements:

The English minor consists of 24 credit hours, including:

ENG 200 Critical Reading and Writing About Literature, L or HU (3)

A minimum of 12 upper-division credit hours, of which six credit hours must be taken through the College of Integrative Sciences and Arts.

All course work for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Please contact the College of Integrative Sciences and Arts for details.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

English (Linguistics) Minor (LAENGMINN)

Campus: Tempe

Description:

Students pursuing a minor in English with a focus in linguistics study the nature, variation and structure of language.

Program Requirements:

The minor in English with a focus in linguistics consists of 24 credit hours. A minimum of 12 upper-division credits are required, with at least six of these credits from courses offered by the College of Liberal Arts and Sciences.

Required core courses: (18 credit hours)

ENG 200 Critical Reading and Writing About Literature, L or HU (3)

ENG 213 Introduction to the Study of Language (3)*

ENG 312 English in its Social Setting, L or HU or SB (3)

ENG 314 Modern Grammar (3)

ENG 413 History of English Language, HU (3)

choose one of the following:

ENG 221 Survey of English Literature, HU (3)

ENG 222 Survey of English Literature, HU, H (3)
ENG 241 Literatures of the United States to 1860, L or HU, C (3)
ENG 242 Literatures of the United States, 1860 to Present, HU (3)

*The following may be substituted with approval of the advisor: ASB 480 Principles of Linguistics (3) or SLC 201 Introduction to Linguistics, HU or SB (3).

Electives: (6 credit hours)

Electives are chosen from the department's offerings, with at least one course (three credit hours) required at the 300 or 400 level.

A grade of "C" (2.00 on a 4.00 scale) or higher is required in all courses for the minor.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

English (Literature) Minor (LAENGMINT)

Campus: Tempe

Description:

Students pursuing a minor in English with a focus in literature study British, American and global literatures in English, from the earliest writings to the present.

Program Requirements:

The minor in English with a focus in literature consists of 24 credit hours. At least 12 hours must be completed at the upper-division level, with a minimum of six upper-division credits from courses offered by the Department of English in the College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or higher is required in all courses taken for the minor.

Required core course: (3 credit hours)

ENG 200 Critical Reading and Writing About Literature, L or HU (3)

Students must complete one course from three of the following distribution areas. At least one of these three distribution area courses must be a 400-level course. (9 credit hours)

- literary theory and transdisciplinary studies
- literature and culture after 1800
- literature and culture before 1800
- transnational, postcolonial and global literatures

Elective courses: (12 credit hours)

To complete the 24 credit hours, students choose electives from among the department's offerings.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Environmental and Resource Management Minor (ESERMMIN)

Campus: Polytechnic

Description:

The minor in environmental and resource management provides students with a thorough introduction to environmental regulations and key environmental management issues such as the provision of clean, potable water, wastewater treatment, solid and hazardous waste management, as well as remediation technologies for polluted soils, groundwater and air. It applies basic science and engineering principles to solving problems that significantly impact human health and ecosystems. The environmental and resource management minor provides a valuable option to other majors that focus on environmental issues whether from a technical or policy perspective. The courses form a coherent whole and demonstrate the connection between science, engineering, public policy and the law.

Program Requirements:

The minor requires completion of four core courses (12 credit hours) and one elective course (three credit hours) for a total of 15 credit hours. At least 12 credit hours must be completed in residency at ASU.

The following are required courses that must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher:

- ERM 201 Environmental Management (3)
- ERM 203 Environmental Regulations (3)
- ERM 302 Water and Wastewater Treatment Technology (3)
- ERM 402 Unit Treatment Technologies (3)

An elective course must be selected from the following list:

- ERM 401 Hazardous Waste Management (3)
- ERM 406 Environmental Chemistry (3)
- ERM 407 Occupational Hygiene (3)

ERM 428 International Environmental Management, G (3)
ERM 432 Sustainable Solid Waste Management (3)
ERM 494 Special Topics: Environmental Management Leadership (3)

Depending upon the student's program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students currently enrolled in the Environmental and Resource Management BS degree program are not eligible to pursue the environmental and resource management minor. Students will need to have a minimum GPA of 2.00 (scale is 4.00 = "A") and have at least sophomore status. Interested students should consult with a Polytechnic School advisor to verify eligibility and to review all courses required for the minor. To schedule an advising appointment, go to <https://fultonapps.asu.edu/advising> (<https://fultonapps.asu.edu/advising>).

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Ethnic Studies Minor (ASETHMIN)

Campus: West

Description:

The minor in ethnic studies, offered by the School of Humanities, Arts, and Cultural Studies, introduces a general conceptual framework regarding race and ethnicity and how these intersect in the construction of social formations.

Program Requirements:

The minor consists of 18 credit hours, 12 of which must be at the upper-division level. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline. Up to three credit hours of individualized instruction may be applied toward the minor. All courses must be passed with a minimum grade of "C" (2.00).

Core requirements: (6 credit hours)

ETH 100 Ethnic and Indigenous Lives, SB, C (3)
HRC 200 Introduction to Social and Critical Analysis (3)

Ethnic studies elective course work: (12 credit hours)

These courses must be chosen from the approved ethnic studies course list in consultation with the ethnic studies advisor.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in ethnic studies is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor.

Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Family and Human Development Minor (LAFASMIN)

Campus: Tempe, Online

Description:

A minor in family and human development from the T. Denny Sanford School of Social and Family Dynamics exposes students to the basic course work and issues within the discipline. This program provides an exceptional balance to studies in psychology, communication, education, business or nursing.

Program Requirements:

The minor in family and human development consists of 18 credit hours in which students specialize in family studies or child development. At least 12 of the 18 credit hours must be in upper-division courses.

Students take the following required courses: (9 credit hours)

CDE 232 Human Development, SB (3)
FAS 101 Personal Growth in Human Relationships, SB (3)
FAS 370 Family Ethnic and Cultural Diversity, SB, C (3)

Three courses must be selected from the following and at least one course must be a CDE course: (9 credit hours)

CDE 312 Adolescence, SB (3)
CDE 337 Early Childhood Intervention (3)
CDE 430 Infant/Toddler Development in the Family, SB (3)
CDE 498 Pro-Seminar (3) or FAS 498 Pro-Seminar (3)
FAS 301 Introduction to Parenting (3)
FAS 331 Marriage and Family Relationships, SB (3)
FAS 332 Human Sexuality, SB (3)
SOC 418 Aging and the Life Course, SB, H (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Film and Media Production Minor (FAFMPMIN)

Campus: Tempe

Description:

Students pursuing the film minor will study the basic production processes of film while exploring its history and contemporary social issues.

Program Requirements:

The school offers a minor in film and media production, consisting of 18 credit hours of course work. A grade of "C" (2.00) or higher is required for all courses in the minor. All prerequisites for the minor courses must be met. Transfer students may transfer up to six credit hours toward the minor.

The following courses are required, for a total of 12 credit hours:

FMP 201 Film: The Creative Process I, HU (3)*

FMP 250 Sex and Violence in Film and TV: Ethics Survey (3)

FMP 300 Focus on Film: Film Production for Nonmajors (3)

THE 403 Independent Film, HU (3)

*Students considering a minor in theatre concurrently must complete an additional course in theatre or film to make up for the overlapping FMP 201 course.

Also required are six credit hours of upper-division electives related to film and media production. Choose from courses with the FMP, THP or THE prefix. Contact the school for options and course requirements.

Courses ordinarily limited to majors only are available to minors on a second-priority basis; that is, minors may not register for these courses early, but are allowed to register after all major students' needs have been met.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Film and Media Studies Minor (LAFMSMIN)

Campus: Tempe, Online

Description:

The film and media studies minor is useful for students who want to explore the critical and creative study of film and media. Students can select to study a range of courses that emphasize media and society, media industries, styles and genres and screenwriting.

Program Requirements:

The film and media studies minor consists of 18 credit hours. Of the 18 credit hours, 12 credit hours must be upper-division courses.

Required courses include:

- FMS 100 Introduction to Film, HU (3)
- FMS 200 Film History, L or HU, H (3)
- FMS 300 Television and Cultural Studies, L or HU (3)
- three FMS upper-division elective courses (9)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have the accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering the minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allow the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Food and Nutrition Management Minor (ECFNTRMIN)

Campus: Downtown Phoenix

Description:

This minor is available to any ASU student interested in developing a greater understanding of nutrition, the food industry and food service operations.

Program Requirements:

The minor requires students to take the following courses, for a total of 18 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

- NTR 100 Introductory Nutrition (3) or NTR 241 Human Nutrition (3)
- NTR 142 Applied Food Principles (3)
- NTR 300 Computer Applications in Nutrition (3)
- NTR 343 Food Service Purchasing (3)
- NTR 344 Nutrition Management and Leadership, L (3)
- NTR 445 Management of Food Service Systems (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this

minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

French Minor (LAFREMIN)

Campus: Tempe

Description:

Students pursuing a minor in French gain an understanding of the language, literature and cultures of French-speaking peoples and regions. Students are encouraged to participate in a study abroad program to enhance their education and overall minor experience. For more information, go to <https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages> (<https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages>).

Program Requirements:

The French minor requires 18 upper-division credit hours. Required courses include:

FRE 305 Readings in French Literature, G (3)
FRE 311 Oral and Written Expression I, G (3)
FRE 312 Oral and Written Expression II, G (3)
FRE 321 French Literature, L or HU, H (3) or FRE 322 French Literature, L or HU (3)

Six credit hours of upper-division French courses with at least three credit hours from the 400 level are also required.

Course substitutions are allowed for heritage and advanced speakers of the language.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to add a minor in French to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Geography Minor (LAGCUMIN)

Campus: Tempe

Description:

The minor in geography enables students to be as broad or specific in their geographic education as they wish. Beyond the two required lower-division courses, at least four upper-division courses in geography must be completed.

Program Requirements:

A minor in geography is awarded to students who complete a minimum of 18 credit hours in geography, of which at least 12 credit hours must be upper-division. A grade of "C" (2.00 on a 4.00 scale) or higher is required for all courses in the minor. The following lower-division courses are required:

GCU 102 Introduction to Human Geography, SB, G (3) or GCU 121 World Geography, SB, G (4)
GPH 111 Introduction to Physical Geography, SQ (4) or GPH 211 Landform Processes, SQ (4)

The remaining 12 credit hours will be upper-division courses selected from the GCU or GPH prefixes.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in geography is open to all students at ASU, except for those majoring in geography.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Geological Sciences Minor (LAGLGMIN)

Campus: Tempe

Description:

The geological sciences minor is designed for students interested in developing a basic understanding of earth science and analyzing issues

through a scientific viewpoint.

Program Requirements:

The minor in geological sciences consists of a minimum of 21 credit hours, at least thirteen credit hours of which must be completed at the upper-division level.

The following courses are required for the minor, adding up to 15 credit hours:

GLG 101 Introduction to Geology I (Physical), SQ (3)*
GLG 102 Introduction to Geology II (Historical), SG, H (3)**
GLG 103 Introduction to Geology I - Laboratory, SQ (1)*
GLG 104 Introduction to Geology II - Laboratory, SG (1)**
GLG 310 Structural Geology (3)
GLG 321 Mineralogy (3-4)
GLG 400 Earth and Space Exploration Colloquium (1)

*Both GLG 101 and 103 must be taken to secure SQ credit.

**Both GLG 102 and 104 must be taken to secure SG credit.

The remaining six credit hours of electives must be upper-division GLG courses, except GLG 300 and 400. In some cases, courses in other related subjects may be approved by an academic advisor in the School of Earth and Space Exploration. Students should receive approval for substitutions prior to registration.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

All students will be required to meet with an academic advisor in the School of Earth and Space Exploration to declare the minor and confirm that the requirements are being met. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor. The Degree Audit Reporting system will be used for tracking student progress and verifying completion of the minor.

Minimum Residency Requirement

Students must take at least 12 of the 21 units required for the minor at ASU and at least six of the upper-division hours must be taken from courses offered by the College of Liberal Arts and Sciences. Transfer course work not awarded a direct equivalency in the Transfer Credit Guide must be evaluated by an advisor in the School of Earth and Space Exploration before it can be applied toward the minor requirements.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

German Minor (LAGERMIN)

Campus: Tempe

Description:

Students pursuing a minor in German gain an understanding of the language, literature and cultures of German-speaking peoples and regions. Students are encouraged to participate in a study abroad program to enhance their education and overall minor experience. Go to <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>) for more information.

Program Requirements:

The German minor requires 18 hours, 15 of which must be upper-division. Course substitutions are allowed for heritage and advanced speakers of the language.

Required courses include:

GER 310 Advanced German Grammar and Composition I, G (3)

Choose two courses: (6 credit hours)

GER 311 German Conversation, G (3)

GER 312 Readings in German Culture, G (3)

GER 313 Advanced German Grammar and Composition II, G (3)

Choose one 400-level GER course (3 credit hours)

Choose two GER elective courses (6 credit hours)*

*A maximum of three credit hours are allowed from GER 202.

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to add a minor in German to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Global Health Minor (LASSHMIN)

Campus: Tempe, Online

Description:

The minor in global health is a transdisciplinary program designed for students who seek a broad and flexible set of skills for understanding contemporary health challenges and thinking about how they might best be solved. Global is understood in the anthropological sense, meaning ways of understanding and addressing disease, health and well-being that can incorporate all cultures, places and time and that can integrate knowledge of health's social, historical, biological and ecological dimensions.

Program Requirements:

The minor is comprised of 18 credit hours, with a minimum of 12 credit hours being upper-division.

Students must complete the following required courses:

ASB 100/SSH 100 Introduction to Global Health, SB, G (3)

SSH 403 Cross-Cultural Studies in Global Health, L or SB, G (6) or other approved global health study abroad (summer session, six credits minimum)

Three upper-division global health core courses (nine credit hours) chosen from:

- ASB 300 Food and Culture, L or SB, C (3)
- ASB 327 Disaster!, L or SB, C (3)
- ASB 355 Traditional Medicine and Healing, HU or SB (3)
- ASB 370 Production, People, and Environments, L or SB (3)
- ASB 462 Medical Anthropology: Culture and Health, SB, C (3)
- ASM 345 Disease and Human Evolution (3)
- ASM 401 Health and Human Biology (3-4)
- ASM 414 Urban and Environmental Health, SB (3)
- SSH 301 Global History of Health, SB, G, H (3)

For additional core course options students may refer to the global health course lists found here: <https://shesc.asu.edu/content/scheduling-courses-curricula> (<https://shesc.asu.edu/content/scheduling-courses-curricula>).

Students in the ASU Online minor complete the same required courses and choose three upper-division global health core courses (nine credit hours) from the list below.

- ASB 300 Food and Culture, L or SB, C (3)
- ASB 327 Disaster!, L or SB, C (3)
- ASB 462 Medical Anthropology: Culture and Health, SB and C (3)
- ASM 345 Disease and Human Evolution (3)
- ASM 414 Urban and Environmental Health, SB (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students must speak with an advisor in the School of Human Evolution and Social Change to declare a minor.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Global Studies Minor (LASGSMIN)

Campus: Tempe

Description:

The minor in global studies offers students, from a transdisciplinary perspective, exposure to global processes and institutions. The minor aims to provide students with an introduction to the tools and skills necessary to make connections linking theory with challenging global issues.

Program Requirements:

The minor in global studies consists of 18 credit hours in global studies courses, 12 credit hours of which must be upper-division courses. Students who minor in global studies must complete two required courses:

SGS 101 Thinking Globally: The Individual and Authority, SB (3) or SGS 301 Principles of Global Studies (3) (but not both courses)
SGS 303 Global Trends, SB (3)

The remaining 12 credit hours must be chosen among global studies electives with an SGS prefix. Courses that count toward the minor must have a grade of "C" (2.00 on a 4.00 scale) or higher. A maximum of three credit hours of SGS 484 Internship or three credit hours of SGS 499 Individualized Instruction may be applied to the minor. A minimum of six upper-division credit hours must be taken in courses offered by the College of Liberal Arts and Sciences.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to pursue a minor in global studies may do so with the permission of the department, school or college of their major as well as the advisor in the School of Politics and Global Studies. An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Health Care Compliance and Regulations Minor (NUHCCRMIN)

Campus: Downtown Phoenix, West

Description:

A minor in health care compliance and regulations will allow students to combine the knowledge of their major discipline with the foundational and advanced knowledge required to support regulatory compliance in a health care environment. The minor integrates best practices from business, regulatory, ethics and engineering fields as well as the medical industry to enhance students' major discipline with a focus on regulatory and ethical compliance in the health care industry.

Program Requirements:

This minor requires 18 credit hours selected from the following courses:

HCR 260 Health Care Industry and Regulation (3)

HCR 261 Health Care Compliance (3)

HCR 263 Introduction to Medical Billing and Compliance (3)

HCR 360 Data Security and Privacy in Health Care Compliance (3)

HCR 362 Monitoring and Auditing for Health Care Compliance (3)

HCR 460 Investigations and Disclosures in Health Care Compliance (3)

HCR 461 Corrective and Preventative Action Plans (3)

A "C" (2.00 on a 4.00 scale) or better is required in all required courses.

Students pursuing the minor may seek advising on minor requirements through advisors in the College of Nursing and Health Innovation.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students must have a minimum of a 2.00 GPA (on a 4.00 scale) to select this minor.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Health Care Coordination Minor (NUHCCOMIN)

Campus: Downtown Phoenix, West

Description:

A minor in health care coordination will allow students to combine the knowledge of their major discipline with the foundational and advanced concepts of health care coordination. This innovative program will prepare graduates to effectively coordinate resources to optimize health outcomes for individuals and families. Students completing this minor will have the knowledge to navigate the health care system and assist in the coordination of health care for individuals and families.

Program Requirements:

The following courses are required:

HCR 220 Introduction to Nursing and Health Care Systems (3)

HCR 302 Social Determinants of Health (3)

HCR 320 Foundational Concepts for Health Care Coordination (3)

HCR 321 Advanced Concepts for Health Care Coordination (3)

HCR 420 Professional Role Development: Health Care Coordination (3)

HCR 422 Policy and Financial Principles in Health Care Coordination (3)

A "C" (2.00 on a 4.00 scale) or better is required in all required courses.

Students pursuing the minor may seek advising on minor requirements through advisors in the College of Nursing and Health Innovation.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students must have a minimum of a 2.00 GPA (on a 4.00 scale) to select this minor.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

History Minor (ASHISMIN)

Campus: West

Description:

The minor in history, offered by the School of Humanities, Arts and Cultural Studies, educates students in the use of basic tools and methods of the historical discipline. Students are exposed to a broad span of history, both temporally and geographically, ranging from the ancient world through the modern period and extending from Europe to Latin America and the United States.

Program Requirements:

The minor in history consists of 18 credit hours in history, with a grade of "C" (2.00) or higher, of which 12 credit hours must be upper-division (300 or 400 level). Students must complete a minimum of six upper-division credit hours in courses offered by the New College of Interdisciplinary Arts and Sciences.

Choose one of the following combinations: (6 credit hours)

HST 100 Global History to 1500, HU, H, G (3) and HST 101 Global History since 1500, HU, H, G (3)

or

HST 109 United States to 1865, HU or SB, H (3) and HST 110 United States since 1865, SB, H (3)

or choose two of three offered:

HST 102 Western Civilization: Ancient and Medieval Europe, SB, H (3)

HST 103 Western Civilization: Renaissance to Enlightenment, HU or SB, H (3)

HST 104 Western Civilization: French Revolution to European Union, HU or SB, G, H (3)

Methods Course: (3 credit hours)

HST 495 Methods of Historical Inquiry, L (3)

History upper-division electives (9 credit hours)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

History Minor (LAHISMIN)

Campus: Tempe, Online

Description:

Students who pursue the minor in history study the growth and development of human society from all aspects --- political, social, economic and cultural. The school covers the history of Europe, the U.S., Asia, Latin America and Africa, and courses are designed to give students both breadth and depth in understanding today's complex world.

Program Requirements:

The history minor consists of 18 credit hours of course work, at least 12 credit hours of which must be in upper-division course work.

On-campus students earning a minor in history must complete one 12-credit-hour HST geographic concentration (United States, Europe, Asia or Latin America). This option includes in-person classes and iCourses.

ASU Online students earning a history minor must complete a minimum of 12 credit hours in U.S. history courses.

The School of Historical, Philosophical and Religious Studies requires a grade of at least "C" (2.00 on a 4.00 scale) in all courses in the minor. A minimum of six upper-division hours in the minor must be taken from courses offered by the College of Liberal Arts and Sciences.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation providing the college (and in certain colleges, the academic unit) of their major allows the official recognition of the minor and the academic unit of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met.

Students wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. Students should also consult with an academic advisor in the college or department of their majors to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

History Minor (LSHISMIN)

Campus: Polytechnic

Description:

The minor in history focuses on American history, European history, Southwest history, environmental history and related fields.

Program Requirements:

The history minor consists of 18 credit hours of HST courses including a minimum of 12 upper-division hours, of which six credit hours must be taken through the College of Integrative Sciences and Arts.

All course work for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Human Nutrition Minor (ECNTRMIN)

Campus: Downtown Phoenix

Description:

This minor program is available to any ASU student interested in a strong scientific understanding of human nutrition.

Program Requirements:

The minor requires students to take the following courses, for a total 19 credit hours. All courses in the minor require a minimum grade of "C" (2.00 on a 4.00 scale) or higher.

NTR 241 Human Nutrition (3)
NTR 341 Medical Nutrition Therapy I (3)
NTR 440 Advanced Human Nutrition I (3)
NTR 441 Advanced Human Nutrition II (3)
NTR 444 Medical Nutrition Therapy II (3)
NTR 446 Medical Nutrition Therapy III (4)

Additional prerequisite requirements: CHM 101 or 113, BIO 201, BIO 202 and BCH 361

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Human Systems Engineering Minor (ESHSEMIN)

Campus: Polytechnic

Description:

The minor in human systems engineering provides students with the theoretical background and methodological skills to consider human capabilities and limitations when designing and building technology and systems for humans. Human systems engineering is a unique blend of psychology and engineering offered by psychologists in an engineering college. By extending psychology (cognitive, physiological, perceptual, social, organizational) to engineering applications, the minor will produce students familiar with the science of human cognition and behavior, and students will be capable of understanding the implications of this science for engineering endeavors.

Human systems engineering skills are increasingly valued by industry, yet are not typically covered in traditional psychology programs. Students with a major or a minor in human systems engineering will enhance their employment potential.

Program Requirements:

The minor requires 21 credit hours.

Required Minor Courses (18):

EGR 103/HSE 101 Introduction to Human Systems Engineering (3)
EGR/HSE 225 Human Systems Integration (3)
EGR/HSE 230 Human Systems and Statistics I (3)
EGR/HSE 290 Experimental Research Methods in Human Systems Engineering (3)
EGR/HSE 323 Perception and Human Systems or EGR 322/HSE 324 Cognition and Human Systems (3)
PSY 438 Human-Computer Interaction (3)

Elective Courses (3):

EGR 422/HSE 425 Human Medical Systems (3) or EGR/HSE 429 Product Design and Evaluation (3)
EGR/HSE 424 Human Automation Interaction (3) or EGR/HSE 428 Judgment and Decision Making in Human Systems (3)
HSE 422/PSY 449 Human Factors in Sports (3)
HSE 423/PSY 448 Human Factors in Transportation (3)
HSE 426/PSY 439 Training and Skill Acquisition (3) or EGR 472/HSE 427 Learning and Human Systems Engineering (3)

Total required credit hours: 21

All required minor courses must be passed with a "C" (2.00 on a 4.00 scale) or better.

Enrollment Requirements:

To add the minor in human systems engineering, a student must be in junior status and have at least a 2.00 cumulative GPA.

Innovation in Society Minor (FIFISMIN)

Campus: Tempe

Description:

A minor in innovation in society provides students with an understanding of how new and emerging technologies can connect with the social needs and values of our communities to provide the best possible local and global futures. The minor program is intended to equip students with tools and concepts from the social sciences, humanities, natural sciences, and engineering in order to prepare to build more inclusive futures. It will enable students to understand the broader context of their major and help them to bridge those studies with other disciplines to develop more encompassing solutions to important problems.

Program Requirements:

This minor is comprised of 15 credit hours.

In order to complete the minor in innovation in society, students will have to successfully complete three core courses.

Core (9 credit hours):

FIS 111 Welcome to the Future (3)

FIS 201 Innovation in Society (3)

FIS 305 Ways of Knowing (3)

Additionally students must take six credit hours from the following list of FIS electives:

FIS 307 Navigating Futures (3)

FIS 308 Politics, Markets and Innovation (3)

FIS 331 Technology and the Modern World (3)

FIS 332 Risk and the Future (3)

FIS 333 Governing Emerging Technologies (3)

FIS 334 Science, Technology and Inequality (3)

FIS 335 Designing Knowledge (3)

FIS 336 Science & Technology Policy (3)

FIS 337 Innovation and Global Development (3)

FIS 431 Technology, Security and Insecurity in Global Politics (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Integrative Health Minor (NUIHLTMIN)

Campus: Downtown Phoenix, West

Description:

The integrative health minor program provides students with the foundational knowledge to approach health from a holistic perspective that focuses on the mind, body and spirit. The minor program will provide an overview of holistic approaches, as well as emphasize research, evidence-based approaches and the legal, ethical, historical and cultural foundations of integrative health care.

Program Requirements:

Required Courses: (15 credit hours)

HCR 340 Foundations of Integrative Health (3)

HCR 341 Biological, Manipulative and Body-Based Therapies (3)

HCR 342 Mind-Body and Energy Therapies and Modalities (3)

HCR 343 Historical and Cultural Foundations of Integrative Health Care (3)

HCR 440 Interprofessional Approaches to Integrative Health Care (3)

Electives: (3 - 4 credit hours)

BIO or CHM -- Any CHM or BIO course (3-4)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

A "C" (2.00 on a 4.00 scale) or better is required in all required courses. Students pursuing the minor may seek advising on minor requirements through advisors in the College of Nursing and Health Innovation.

Enrollment Requirements:

Students must have a minimum of a 2.00 GPA (on a 4.00 scale) to select this minor.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken

as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Interdisciplinary Organizational Studies Minor (ASIOSMIN)

Campus: West

Description:

The minor in interdisciplinary organizational studies, offered by the School of Social and Behavioral Studies, is designed to increase understanding of the behavior and the dynamics of individual, group and organizational processes in the workplace. It incorporates perspectives from the behavioral and social sciences, communication studies, and management. The minor is learner-centered and allows students to select course work that matches their career and educational goals.

Program Requirements:

This minor consists of 21 credit hours, of which 18 must be upper-division course work.

Required Courses (6)

PSY 453 Organizational Behavior, SB (3)

Research methods course (3)*

Cluster 1: Courses Focused on Organizations

Choose four courses from the following list, for a total of 12 credit hours:

COM 320 Communication and Consumerism, SB (3)

COM 400 Communication in Professions Topic: Dissent in Organizations HU, C (3)

COM 450 Theory and Research in Organizational Communication, SB (3)

COM 451 Communication and Work Relationships (3)

COM 453 Communication Training and Development (3)

PHI 360 Business and Professional Ethics, HU (3)

PSY 482 Social Influence and Consumer Behavior, SB (3)

PSY 484 Internship (3) or COM 484 Internship (3) or SOC 484 (or others) Internship (3)

SOC 443 Sociology of Corporations, SB, G (3)

The internship site must be approved by the SBS advisor.

Cluster 2: Courses Focused on Diversity Within Organizations

Choose one from the following courses for a total of three credit hours:

COM 463 Intercultural Communication Theory and Research, SB, G (3)

POS 437 Women, Power and Politics, G (3)

SOC 270 Racial and Ethnic Relations, SB, C (3)

SOC 400 Perspectives on Aging, SB (3)

SOC 426 Social Inequality, SB (3)

*SBS advisor's approval is required.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in interdisciplinary organizational studies is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for

the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Interior Design History Minor (ARINTMIN)

Campus: Tempe

Description:

The minor in interior design history is available to students interested in design and culture. The courses designated for the minor are part of the professional studies in interior design environments and serve to inform students about the evolution of interiors, furnishings and decorative arts from ancient Egypt to the present. They introduce theories informing the profession of interior design. They examine cultures from around the globe, as they influence human needs and behaviors in the living and working environment.

Program Requirements:

A minimum of 18 credit hours (12 credit hours of which must be from the 300 or 400 level) are required for the minor. To enhance the understanding of the subject matter, the selected courses are sequential in nature and require certain prerequisites. Consequently, students should carefully note the semester in which any of these courses are offered.

Required Courses:

DSC 101 Design Awareness, HU, G (3)
INT 111 Interior Design Issues and Theories, HU (3)
INT 310 History of Interior Design I, HU, H (3) *
INT 311 History of Interior Design II, HU, H (3)

Choose two courses from:

INT 412 History of Decorative Arts in Interiors, HU (3)
INT 413 History of Textiles in Interior Design (3)
INT 415 Latin American Design (3)
INT 494 ST: Contemporary Design Issues in Europe (3) or **
INT 494 ST: Design and Context (3) **

*prerequisite: ARS 102 Art from Renaissance to Present (3) with a "C" (2.00) or better

**summer study abroad course, offered in summer term only

Students must have an overall GPA of 2.50 or higher and achieve a minimum 2.50 GPA in minor classes to be awarded the minor.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Italian Minor (LAITAMIN)

Campus: Tempe

Description:

Students pursuing a minor in Italian gain an understanding of the language, literature and cultures of Italian-speaking peoples and regions. Students are encouraged to participate in a study abroad program to enhance their education and overall minor experience. Go to <https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages> (<https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages>) for more information.

Program Requirements:

The Italian minor requires 18 credit hours. A minimum of 12 credit hours must be upper-division.

Required courses include:

ITA 311 Italian Conversation, G (3) or ITA 312 Italian Composition, L, G (3) or ITA 315 Italian Civilization, HU, G (3)
ITA 321 Introduction to Italian Literature I (3) or ITA 322 Introduction to Italian Literature II, HU (3)
one 400-level ITA course (3)

Elective courses:

Students may use a maximum of six credits from the 200-level ITA courses. All remaining electives must be upper-division ITA courses.

Course substitutions are allowed for heritage and advanced speakers of the language.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to add a minor in Italian to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Justice Studies Minor (LAJUSMIN)

Campus: Tempe, Online

Description:

The minor in justice studies is designed for students interested in developing an understanding of meanings of justice and injustice and analyzing controversial issues. In addition to the two required courses, which provide a solid understanding of the field, students will be able to select electives to meet their specific interests.

Program Requirements:

The minor requires a 18 total credit hours. Students will be required to take two specific classes and will then have the option to select four JUS classes as their minor electives.

Required courses: (6)

JUS 105 Introduction to Justice Studies, SB (3) or JUS 305 Principles of Justice Studies, SB (3)

JUS 303 Justice Theory, L (3)

Elective courses: (12)

Students can select any JUS course except JUS 301, JUS 302 or any course listed as a required course.

- A minimum of nine credit hours must be courses offered by the School of Social Transformation.
- No pass/fail or noncredit course work may be applied to the minor.
- Students must receive a minimum grade of "C" (2.00 on a 4.00 scale) for all courses in the minor.
- Student must meet all course eligibility requirements, including prerequisites.
- Twelve credit hours must be upper-division.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Kinesiology Minor (NHKINMIN)

Campus: Downtown Phoenix, Lake Havasu

Description:

The minor program in kinesiology will introduce students to the careers, research, theories and concepts related to the four major subdisciplines of kinesiology (motor behavior, exercise and health psychology, biomechanics, and exercise physiology). Students in the minor will then select one of these four subdisciplinary areas as the area of emphasis on which to center the upper-division requirements for the minor.

Program Requirements:

18 credit hours are required for the minor. Depending upon a student's program of study, prerequisite courses may be needed in order to complete the requirements of this minor. There are course prerequisites for a number of courses in the minor.

Students will begin by taking KIN 101 Introduction to Kinesiology and KIN 290 Introduction to Evidence-Based Practice. After this students will select a track in one of the four subdisciplines.

Required core courses for all tracks: (6 credit hours)

KIN 101 Introduction to Kinesiology (3)

KIN 290 Introduction to Evidence-Based Practice, L (3)

Required track course: (3 credit hours; choose one) *

Biomechanics: KIN 335 Biomechanics (3)

Exercise/Health Psychology: KIN 352 Psychosocial Aspects of Physical Activity, SB and C (3)

Exercise Physiology: KIN 340 Physiology of Exercise (3)

Motor Behavior: KIN 345 Motor and Developmental Learning (3)

Elective track courses: (9 credit hours) *

Biomechanics Track:

Three courses from the following course list: (9 credit hours)

KIN 334 Functional Anatomy and Kinesiology (3)

KIN 412 Biomechanics of the Skeletal System (3)

KIN 418 Experimental Neuromechanics (3)

KIN 494 Theory of Corrective Exercise (3)

Exercise/Health Psychology Track:

Three courses from the following course list: (9 credit hours)

KIN 334 Functional Anatomy and Kinesiology (3)

KIN 450 Biopsychosocial Perspectives on Physical Activity and Health (3)

KIN 452 Exercise Psychology, SB (3)

KIN 454 Motivational Theory in Exercise and Health (3)

Exercise Physiology Track:

Three courses from the following course list: (9 credit hours)

KIN 334 Functional Anatomy and Kinesiology (3)

KIN 440 Exercise Biochemistry (3)

KIN 441 Physiology of Women in Sport, L (3)

KIN 442 Fuel Metabolism (3)

KIN 443 Exercise Endocrinology (3)

KIN 444 Metabolic Adaptations to Exercise Training (3)

KIN 446 Pediatric Obesity (3)

KIN 447 ECG Interpretation (3)
KIN 460 Theory of Strength Training, L (3)
KIN 494 Muscle Physiology (3)

Motor Behavior Track:

Three courses from the following course list: (9 credit hours)

KIN 334 Functional Anatomy and Kinesiology (3)
KIN 421 Human Motor Control, L (3)
KIN 422 Motor Control in Special Populations, L (3)
KIN 423 Motor Control and Aging, L (3)

*All elective track courses must come from the same track as the chosen required track course

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Landscape Studies Minor (ARLNDMIN)

Campus: Tempe

Description:

The minor in landscape studies is designed for students who have an interest in landscape architecture but are pursuing a major in another field. The course selection is intended to provide greater understanding of landscape architecture issues that may be relevant in related professional disciplines and to broaden knowledge about the landscape in which we live.

Program Requirements:

A minimum of 18 credit hours (to include 12 credit hours of upper-division course work) are required for the minor.

Required Courses:

ALA 102 Landscape and Sustainability HU, G (3)
LAP 254 Plant Materials (3)
LPH 310 History of Landscape Architecture, HU, H, (3)
LPH 311 20th-Century Landscape Architecture, HU (3)

Six additional upper-division credit hours of electives in the landscape architecture history and theory concentration must be selected from the following list:

LAP 352 Ecosystems Sustainable Design (3)

LAP 494 Special Topics (3)
LDE 494 Topic: Applied Landscape Architecture (3)
LPH 394 Special Topics (3)
LPH 411 Landscape Architecture Theory and Criticism, L (3)
LPH 494 Special Topics (3)
LPH 499 Individualized Instruction (3)*

*This course requires a petition to The Design School.

A minimum GPA of 2.50 in minor courses is required to earn the minor in landscape studies. In addition, students may not use a core course to count toward the minor. Students pursuing the BSD in architecture must petition the school to request a substitution for any core courses that are also included in the landscape studies minor.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Latin American Studies Minor (ASLASMIN)

Campus: West

Description:

The minor in Latin American studies, offered by the School of Humanities, Arts and Cultural Studies, is designed for students who have an interest in becoming proficient in Spanish and who wish to carry out work and research in areas not related exclusively to literature. This minor offers a learner-driven model in which the student's specific interests are deepened through the study of Latin America. It is transdisciplinary and allows for flexibility in course selection while also instilling a breadth and depth of knowledge about issues surrounding Latin America. This minor allows students to be more widely marketable upon graduation for fields as diverse as business, arts administration, teaching, nonprofit organizations, health care and the sciences.

Program Requirements:

The Latin American studies minor is 18 credit hours and consists of six lower-division credit hours and 12 upper-division credit hours (300 to 400 level).

Students must demonstrate Spanish language proficiency by meeting the prerequisites of the upper-division Latin American emphasis courses, one of which must be taught in Spanish, or by taking Spanish language classes up through SPA 325.

Students must complete a minimum of six upper-division credit hours offered by the School of Humanities, Arts and Cultural Studies. A minimum of 12 credit hours must be completed at ASU.

Required Minor Core: (9 credit hours)
LAS 205 Deep Roots: Latin America (3)
LAS 206 Locating Latin America: Interdisciplinary Methods (3)

LAS 330 From the Inside: The Latin American Journey (3)

Latin American Studies Electives: (9 credit hours)

Choose three upper-division courses from any Latin American Emphasis track below, one of which must be taught in Spanish (courses with a SPA prefix are taught in Spanish).

TRACK 1: ARTS

IAP 305 20th and 21st Century Art, Performance and Media, L or HU (3)

IAP 354 Visual Representation (3)

IAP 361 Digital Editing and Media Literacy, CS (3)

IAP 473 Aesthetic Research, L or HU (3)

IAP 474 Art and Film, L or HU (3)

LAS 471 Treaties and Cultural Production in Spain and the Americas (3)

LAS 480 Current Trends in Theatre and New Media in Latin America and Spain (3)

MUS 354 Popular Music: Latin American Music, HU (3)

SPA 434 Drama of the Golden Age (3)

SPA 487 Mexican American Drama (3)

TRACK 2: NARRATIVE (Literature and Film)

LAS 340 Latin American Women Writers (3)

LAS 351 Cityscapes: Urban Mexican Literature and Culture (3)

LAS 355 Contemporary Mexican Cinema: Changing Cartographies (3)

LAS 481 Dictatorships and Dirty Wars: Latin American Cinema from Resistance to Reconciliation (3)

SPA 325 Introduction to Hispanic Literature, HU (3)*

SPA 394 Special Topics (3)

SPA 426 Spanish Literature, HU (3)

SPA 427 Spanish American Literature, L or HU (3)

SPA 429 Mexican Literature, L or HU, G (3)

SPA 431 Prose of Golden Age, L or HU (3)

SPA 435 Cervantes-Don Quixote, L or HU, H (3)

SPA 454 19th Century Spanish American Narrative (3)

SPA 456 20th Century Spanish American Fiction (3)

SPA 485 Mexican American Short Story, L, C (3)

SPA 486 Mexican American Novel (3)

*SPA 325 is not available as an elective to LAS majors.

TRACK 3: HISTORY/POLITICAL SCIENCE

AMS 428 Chicano Cultures in Southwest, SB (3)

ASB 342/SBS 342/SOC 342 Mexico-US Borderlands, SB, C (3)

HST 305 Studies in Latin American History, SB, H (3)

HST 375 Colonial Latin America, SB, H (3)

HST 376 Modern Latin America, SB, H (3)

HST 404 Conquest and Encounters in Colonial Latin America, L, G (3)

HST 441 Latin America and the World Economy L, G, H (3)

LAS 350 The Construction of a Nation: Chile in the 20th/21st Century (3)

LAS 481 Dictatorships and Dirty Wars: Latin American Cinema from Resistance to Reconciliation (3)

POS 354 Central American Studies, SB, G (3)

POS 454 Mexico, SB, G (3)

POS 456 Latin American Cities, SB, G (3)

POS 464 Border Cities: Action Research on Globalization, SB, G (3)

TRACK 4: EDUCATION/LINGUISTICS

SPA 400 Introduction to Spanish Linguistics (3)

SPA 413 Advanced Spanish Grammar, G (3)

SPA 417 Spanish Phonetics and Phonology (3)

SPA 418 Spanish Syntax (3)

SPA 420 Applied Spanish Linguistics, L (3)

SPA 421 Spanish in the Southwest, C (3)

SPA 422 Spanish Lexicology and Lexicography (3)

TRACK 5: SOCIOLOGY/ANTHROPOLOGY

AMS 330 American Lives, HU, C (3)

ASB 342/SBS 342/SOC 342 Mexico-U.S. Borderlands, SB, C (3)
SPA 464 Jaiton Works in Chicano/a Literature (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in Latin American studies is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Materials Science and Engineering Minor (ESMSEMIN)

Campus: Tempe

Description:

The materials science and engineering minor is designed to give other science and engineering majors an in-depth understanding of materials, including their structure, processing, properties and performance.

Program Requirements:

Students are required to take five courses and one lab (minimum of 16 credits), listed below:

Required Courses:

MSE 250 Structure and Properties of Materials (3)

MSE 355 Structure and Defects (3)

Two MSE courses at the 300 level or higher (6)

One materials-related lab from the following list:

MSE 356 Structure, Properties and Defects Lab (1)

MSE 421 Physical Metallurgy Lab (1)

MSE 451 Introduction to Materials Characterization Lab (1)

One materials-related course from the following list:

Any MSE course at the 300 level or higher (3)

BME 318 Biomaterials (4)

CEE 353 Civil Engineering Materials (3)

CHM 471 Solid-State Chemistry (3)

EEE 352 Properties of Electronic Materials (4)

EEE 436 Fundamentals of Solid-State Devices (3)

PHY 481 Materials Physics I (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students need sophomore status and a minimum 2.75 ASU and transfer GPA to enroll in the minor in materials science and engineering and a 2.50 GPA in all courses in the minor to receive the minor. Students adding the minor will also need to complete MAT 265 (270), MAT 242 (342 or 343), and CHM 114 or CHM 113 and 116.

Interested students should consult with a SEMTE advisor to verify eligibility and to review all courses required for the minor. To schedule an advising appointment, please contact the SEMTE advising office at 480-965-2335 or semte@asu.edu (mailto:semte@asu.edu).

Students interested in the materials minor should also consult with their major advisor to ensure recognition of the minor and to have their minor added to their DARS.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Mathematics Minor (ASMATHMIN)

Campus: West

Description:

The minor in mathematics, offered by the School of Mathematical and Natural Sciences, explores the study of higher mathematics. It is designed to enable the student to understand the mathematics most commonly used in business, economics and science. It is expected that students in the minor will be able to reason and to find creative solutions to problems that were either presented to them or meaningfully formulated by them. The minor is recommended for students who plan to major in interdisciplinary arts and sciences, biology or business and for those who are preparing for further graduate study.

Program Requirements:

The minor in mathematics consists of a minimum of 27 credit hours, of which nine credit hours must be taken from the School of Mathematical and Natural Sciences.

Required Courses:

MAT 270 Calculus with Analytic Geometry I, MA (4)
MAT 271 Calculus with Analytic Geometry II, MA (4)
MAT 272 Calculus with Analytic Geometry III, MA (4)
MAT 300 Mathematical Structures, L (3)
MAT 342 Linear Algebra (3)

Elective Courses:

Choose three electives from the following courses or from other approved courses, in consultation with a departmental advisor, for a total of nine credits.

MAT 310 Introduction to Geometry (3)
MAT 371 Advanced Calculus I (3)
MAT 411 History and Philosophy of Mathematics, HU, H (3)
MAT 443 Introduction to Abstract Algebra (3)
MAT 445 Theory of Numbers (3)
STP 420 Introductory Applied Statistics, CS (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in mathematics is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Mathematics Minor (LAMATMIN)

Campus: Tempe

Description:

The minor in mathematics is designed for students who want to further their knowledge of mathematics and is beneficial for students majoring in such disciplines as physics, engineering, business, economics and the life and social sciences where there is a need for quantification in the analysis of phenomena.

Program Requirements:

The minor in mathematics consists of a minimum of 18 credit hours, of which at least twelve must be upper-division. A grade of "C" (2.00 on a 4.00 scale) or better is required for courses used in the minor.

Required courses are as follows: (9-11 credit hours)

MAT 271 Calculus with Analytic Geometry II, MA (4) or MAT 266 Calculus for Engineers II, MA (3)
MAT 272 Calculus with Analytic Geometry III, MA (4) or MAT 267 Calculus for Engineers III, MA (3)
MAT 342 Linear Algebra (3) or MAT 343 Applied Linear Algebra (3)

Three electives for a total of nine or more credit hours must be upper-division courses in mathematics (MAT) or statistics and probability (STP). Students may not apply MAT 411 or MAT 485 or any course not offered by the College of Liberal Arts and Sciences to the minor, unless otherwise approved by an academic advisor in the School of Mathematical and Statistical Sciences. Some courses may have additional prerequisites.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Media Analysis Minor (CSCMOMINA)

Campus: Downtown Phoenix, Online

Description:

The mass media, more than ever before, plays a vital role in how information is disseminated and how societies are shaped and function. As traditional forms of media and information dissemination change rapidly in an increasingly technological world, it is more important than ever for students to understand the way that media works, as well as learn to evaluate the messages that are sent. All students can benefit from the study of mass communications institutions, functions and techniques. In this minor, students will learn to understand the roles that media play, how they are changing and their impact. They will be given the tools they need to critically evaluate, analyze and interpret media messages in order to become wise consumers of media themselves.

Program Requirements:

The minor of media analysis consists of 18 credit hours of course work. This is a requirement consistent with many other minor programs at Arizona State University and at other colleges and universities. The focus of the program is on media analysis. Students in the minor will concentrate on evaluating the impact of information dissemination rather than on topics that focus on the practice of gathering and distributing messages. Students in the minor may not register for courses in the professional journalism major.

To take upper-division courses, students must be at least sophomores (25 credit hours). To pursue the minor in media analysis, they must maintain a minimum 2.00 overall GPA, obtain a minimum grade of "C" (2.00 on a 4.00 scale) in each course in the minor and have a major other than journalism and mass communication or sports journalism.

Three specific classes will be required (nine credit hours). The required classes are:

MCO 120 Media and Society, SB (3)
MCO 240 Media Issues in American Pop Culture (3)
MCO 418 History of Mass Communication, SB, H (3)

In addition, students select three additional courses (nine credit hours) from the list of electives offered by the journalism school. The common element of these courses is that they focus on understanding specific aspects of the mass media and how those aspects impact individuals and societies in terms of function, effects and enculturation. Electives offered include:

MCO 302 Media Research Methods (3)
MCO 430 International Mass Communication, G (3)
MCO 435 Social Media (3)
MCO 450 Visual Communication, HU (3)
MCO 455 War and Mass Media (3)
MCO 456 Political Communication, SB (3)
MCO 460 Race, Gender and Media, C (3)
MCO 465 Sports and Media (3)
MCO 473 Sex, Love and Romance in the Mass Media, SB (3)
MCO 494 Special Topic (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information:
https://cronkite.asu.edu/undergrad/minor_media_analysis (https://cronkite.asu.edu/undergrad/minor_media_analysis).

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Military Leadership Minor (LAMISMIN)

Campus: Tempe

Description:

The minor in military leadership is designed to enhance the student's learning experience by providing tools to prepare them for leadership roles in various organizations. Students complete courses that will cover academic and practical skills in many areas, including:

- effective communication
- leadership ethos
- leading, motivating and empowering others
- negotiating
- problem-solving
- team-building

Program Requirements:

The minor in military leadership requires 18 credit hours, 12 of which must be at the 300 or 400 level. There are five options available, as noted below. Twelve credit hours must be taken in residence on an ASU campus. The required courses are as follows:

Army option:

MIS 301 Advanced Military Science I, L (3)
MIS 302 Advanced Military Science II, L (3)
MIS 401 Advanced Military Science III (3)
MIS 402 Advanced Military Science IV (3)

Air Force option:

AES 301 Air Force Leadership Studies I, L (3)
AES 303 Air Force Leadership Studies II, L (3)
AES 401 National Security Affairs, L (3)
AES 403 Preparation for Active Duty II (3)

Navy option:

NAV 301 Naval Ship Systems I (3)
NAV 302 Naval Ship Systems: Weapons (3)
NAV 401 Naval Operations and Seamanship (3)
NAV 402 Leadership and Ethics (3)

Marine option:

NAV 303 Evolution of Warfare (3)
NAV 402 Leadership and Ethics (3)
NAV 403 Amphibious Warfare (3)

Non-ROTC option:

A minimum of three of the above upper-division courses for nine credits, in any combination, in conjunction with the below electives satisfying 18 credit hours, to include 12 upper-division credits.

Approved Electives:

Note: Any courses from the above can be used as an elective for a complementary option

AES 101 Air Force Today I (2)

AES 103 Air Force Today II (2)

AES 201 The Evolution of USAF Air and Space Power I (2)

AES 203 The Evolution of USAF Air and Space Power II (2)

AES 499 Individualized Instruction (3)

FAS 101 Personal Growth in Human Relationships, SB (3)

FAS 331 Marriage and Family Relationships, SB (3)

HST 372 Modern Middle East, SB, G, H (3)

HST 408 Civil War and Reconstruction, L or SB, H (3)

HST 456 The Vietnam War, SB, G, H (3)

MIS 101 Introduction to the Military I (3)

MIS 102 Introduction to the Military II (3)

MIS 201 Introduction to Leadership Dynamics I (3)

MIS 202 Introduction to Leadership Dynamics II (3)

MIS 410 American Defense Policy I, SB, G, H (3)

MIS 412 American Defense Policy II, SB, G, H (3)

MIS 499 Individualized Instruction (3)

NAV 101 Introduction to Naval Science (3)

NAV 102 Sea Power and Maritime Affairs (3)

NAV 202 Navigation (3)

NAV 294 Naval Leadership & Management (1-4)

REL 100 Religions of the World, HU, G (3)

REL 366 Islam in the Modern World, HU, H, G (3)

Alternative Electives:

Additional electives may be selected by the student with prior approval from the department chair.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate by either the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Music Minor (FAMUSMIN)

Campus: Tempe

Description:

The music minor is designed for those students who are interested in a broad introduction to the study of music. The program allows for a diverse exposure to traditional through contemporary music practices, with numerous options to select courses based on students' interests.

Program Requirements:

The School of Music offers a minor in music consisting of 24 credit hours of course work, including a minimum 12 upper-division credit hours. A minimum grade of "C" (2.00) is required in all courses.

Required Courses: (12 credit hours)

MHL 201 Media Literacy for Musicians, CS (3)*

MUS 100 Fundamentals of Music Notation (3)*

MUS 131 Bach to Bebop (3)

MUS 340 Music for the Concert Hall, Stage and Screen HU, H (3)

Music history: (6 credit hours; select two of the following four courses)

MUS 347 Jazz in America, HU, C (3)

MUS 355 American Music, HU, C, H (3)

MUS 356 Broadway and the American Musical, HU (3)

MUS 410 History of Women in Music, HU, C, H (3)

Electives: (6 credit hours; choose two of the following five courses)

MUS 354 Beatles, HU (3)

MUS 354 Classic Rock: 1950-1975, HU (3)

MUS 354 Elvis, HU (3)

MUS 354 Rock Since 1975, HU (3)

MUS 362 Rap Music and Hip Hop Culture, HU, C (3)

*The online iCourse version of this course is required.

Notes: MHL, MTC, MUP courses may be accepted as electives if the appropriate prerequisites are met and with instructor approval. Music reading and notation skills are a prerequisite for the music minor.

Please note: MUS 131 Bach to Bebop is only offered during the fall semester.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Music Performance Minor (HIMUSPMIN)

Campus: Tempe

Description:

The minor or BIS concentration in music performance allows students who have a background playing an instrument or in singing to continue their studies in music. The course work develops these skills through individual instrumental or vocal instruction and performance opportunities through various ensemble experiences. The program also includes the study of theoretical and historical elements of music. An audition is required for entrance into the minor or BIS concentration in music performance, which includes private instruction in one primary instrument. Students interested in pursuing the minor in music performance should contact the Office of Academic Affairs in the School of Music for audition information and to

schedule the audition.

Program Requirements:

The minor or BIS concentration requires 21 hours (12 upper division) in performance, history, theory and electives.

Core required courses: (6 credit hours)

MUP 121 Secondary/Minor Instrument Instruction (two semesters) (2)

MUP 321 Secondary/Minor Instrument Instruction (1)

MUS 131 Bach to Bebop (3)

Three semesters of ensembles related to the primary instrument studied in the minor, selected from the following: (3 credit hours)

MUP 442 Wind Ensemble, Wind Orchestra or Orchestra Strings (1)

MUP 443 Concert Choir or Chamber Singers (1)

MUP 450 Choral Union (1)

MUP 457 Women's Chorus(1)

MUP 459 Barrett Choir (1)

MUP 486 Concert Jazz Band, Jazz Repertory Band or Latin Jazz Ensemble (1)

MUP 494 Concert Band or ASU Gospel Choir (1)

One of the following:

Fourth semester of ensemble (may be unrelated to the primary instrument studied in the minor)

MUS 494 Urban Dance Music Ensemble (1)

MUS 294 Rock Band (1)

Music History: (6)*

Choose two of the following (upper-division only):

MUS 340 Music for the Concert Hall, Stage, and Screen, HU, H (3)

MUS 347 Jazz in America, HU, C (3)

MUS 354 Classic Rock: 1950-1975, HU (3)

MUS 355 American Music, HU, C, H (3)

MUS 356 Broadway and the American Musical, HU (3)

MUS 362 Rap Music and Hip Hop Culture, HU, C (3)

MUS 410 History of Women in Music, HU, C, H (3)

Music Theory: (3)*

MUS 100 Fundamentals of Music Notation (3) or MTC 125 Basic Music Theory (3)

* Students will take a theory diagnostic exam to determine placement in either MUS 100 or MTC 125.

Electives: (2)

MUP, MUS, MUE, MTC or MHL (upper-division only) (2)

TOTAL 21 (12 upper-division)

*MHL courses may be accepted if the appropriate prerequisites are met or with instructor approval.

Admission requirement: An audition is required for entrance into the minor or BIS concentration and MUP 121 study. Audition criteria are determined by area faculty and will be similar to the MUP 111 and MUP 311 criteria found in the Audition Requirements section on this webpage: <http://music.asu.edu/admissions/auditions/> (<http://music.asu.edu/admissions/auditions/>).

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Prospective students must successfully complete an audition for the faculty in the applicable instrument area. Audition criteria are determined by area faculty and will be similar to the MUP 111 and MUP 311 criteria found in the Audition Requirements section on this webpage: <http://music.asu.edu/admissions/auditions/> (<http://music.asu.edu/admissions/auditions/>).

Advisors should not add the minor until the student presents a letter from the School of Music Academic Affairs Office confirming that the student has successfully passed the audition.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment

officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Nonprofit Leadership and Management Minor (PPNLMMIN)

Campus: Downtown Phoenix

Description:

The minor in nonprofit leadership and management empowers students to positively impact the community in which they work. Course work introduces students to knowledge and skills for successful professional careers with nonprofit, social sector organizations that exist to improve the quality of life of communities. The nonprofit sector in the U.S. is unique in form and function, with more than 1.6 million organizations in the U.S.

The minor is ideal for students enrolled in other degrees or majors at ASU who wish to earn a minor that concentrates on the management of nonprofit organizations. Students from such various disciplines as business, communication, education, global studies, museum studies, nursing, public affairs, religious studies, social work, sustainability and others find this program a beneficial supplement to their existing program as many find their career pathways from their degree occur within nonprofit organization forms.

This program affords students the opportunity to start their pursuit of the National Certified Nonprofit Professional credential awarded through the Nonprofit Leadership Alliance (formerly American Humanics, Inc.). For more information about completing the CNP credential and requirements, please see the school website.

Program Requirements:

The minor requires 18 credit hours: 12 credit hours of required core courses and six credit hours of elective courses.

Required Core Courses:

NLM 220 Introduction to Nonprofit Organizations (3)
NLM 300 Fundraising and Resource Development (3)
NLM 310 Volunteer Management (3)
NLM 430 Managing Nonprofit Organizations, L (3)

Elective Courses: (choose six elective credit hours from one of two blocks)

Block A - choose this block if interested in the CNP credential:

NLM 320 Professional Development Seminar (4)*
NLM 420 Nonprofit Leadership Alliance Institute (2)

Block B - choose two courses if interested in minor only, without CNP credential:

NLM 160 Voluntary Action and Community Leadership, SB (3)
NLM 380 Financial Management for Nonprofit Organizations (3)
NLM 435 Service Learning for Community Development (3)
PRM 486 Special Events Management (3)

*This seminar is for one credit hour for four semesters.

Standards:

- minimum grade of "C" (2.00 on a 4.00 scale) required for all classes in the minor

- minimum GPA of 2.00 for those pursuing the minor; a major or premajor, other than BS in nonprofit leadership and management
- meet the curricular and cocurricular requirements (if also pursuing the CNP credential)
- 15 hours of graded classroom course work (no internship, no independent study)
- students should be a junior to take 400-level classes
- no double counting of courses for both a major and the minor

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue the nonprofit leadership and management minor should consult an academic advisor in the college or department of their majors to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor. Students pursuing a bachelor's degree in nonprofit leadership and management are not eligible to complete this minor. Students pursuing the nonprofit leadership and management bachelor's degree, however, may earn the certified nonprofit professional credential along with their major upon successfully completing both curricular and cocurricular requirements (see advisor for details).

Nutrition and Healthy Living Minor (NUNHLMIN)

Campus: Downtown Phoenix

Description:

The nutrition and healthy living minor will provide a greater understanding of how nutrition contributes to healthy lifestyles and disease prevention.

Program Requirements:

The minor requires completion of a minimum of 18 nutrition credit hours. A grade of "C" (2.00 on a 4.00 scale) or better is required for each course in the minor.

Required Courses: (9)

NTR 241 Human Nutrition (3)

NTR 341 Medical Nutrition Therapy I (3) or NTR 345 Development of Healthy Cuisines (3)

NTR 450 Nutrition in the Life Cycle, SB (3) or HSC 355 Eating for Lifelong Health, SB (3)

Upper-Division Electives: (9) (select three courses from the following list)

NTR 320 History of Human Nutrition (3)

NTR 348 Cultural Aspects of Food, SB, C and G (3)

NTR 350 Nutrition Counseling (3)*

NTR 351 Nutrition Communication, L (3)

NTR 353 Perspectives on the Western Diet: Food, Health and Sustainability (3)

NTR 444 Medical Nutrition Therapy II (3)*

NTR 453 Nutrition and the Media (3)

NTR 457 Sports Nutrition (3)*

*This course is not available to ASU Online students.

Many courses in this minor require CHM 101 (or CHM 113) or BIO 201 and BIO 202 as a prerequisite. Please ensure all prerequisites are met when planning this minor. Depending on a student's undergraduate program of study, additional prerequisite courses may be needed in order to complete

the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Organizational Leadership Minor (LSORGLMIN)

Campus: Polytechnic, Online

Description:

The minor in organizational leadership uses interdisciplinary methods that prepare students to become leaders in organizations. Students develop skills and knowledge that leaders need to solve problems, communicate effectively, assess programs, manage resources and use emerging technologies in organizations. Students in the program will be prepared for a range of positions in government, health care administration, nonprofit agencies and the service industry.

Program Requirements:

The minor in organizational leadership requires 18 credit hours to complete, including 12 upper-division and six lower-division credit hours. It is available to all majors. Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of a minor. There are no prerequisite courses or requirements applicable to this minor.

Students complete three required courses:

OGL 200 Introduction to Organizational Leadership, SB (3)
BIS 340 Special Topics: Organizational Skills (6)

Students may choose any three of the following elective courses as long as two courses are upper-division.

BIS 343 Social Processes in Organizations, L or SB (3)
BIS 345 Organizational Ethics, L or HU (3)
BIS 357 Assessment in Organizations (3)
BIS 360 Organizational Contexts, SB (3)
OGL 220 Behavioral Dynamics in Organizations, SB (3)
OGL 240 Introduction to Project Management (3)
OGL 260 Resource Allocation in Organizations (3)
OGL 300 Theory and Practice of Leadership (3)
OGL 321 Project Leadership, Strategy and Scope (3)
OGL 350 Diversity and Organizations (3)
OGL 355 Leading Organizational Innovation and Change, L (3)
OGL 360 Assessment of Leadership Effectiveness (3)

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification

procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. Students should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Parks and Protected Area Management Minor (PPPRMMINT)

Campus: Downtown Phoenix

Description:

As the Southwest continues to develop and urbanize, the demands and pressures on public lands and natural resources continue to grow. The interplay between society and natural resources is key to understanding modernity and continues to be at the center of policy issues and quality of life debates in the West.

The minor in parks and protected area management introduces students to the role of parks and protected areas, with a focus on the unique issues faced by urban-proximate natural area managers. The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as business, education, nursing, public affairs, social work and many others might find this program a beneficial supplement to their existing program. Students interested in the parks and protected area management minor may also be interested in therapeutic recreation, available through the parks and recreation management program.

Program Requirements:

Completion of a parks and protected area management minor in the School of Community Resources and Development requires the following:

Required Core Courses: (12)

PRM 120 Leisure and the Quality of Life, SB (3)
PRM 370 Public Lands Management (3)
PRM 380 Wilderness and Parks in America, SB, H (3)
TDM 480 Sustainable Tourism (3)

Elective: (choose one course from the following list)

CRD 301 Sustainable Communities (3)
PRM 340 Outdoor Survival (3)
PRM 470 Environmental Communication (3)
TDM 448 Heritage and Cultural Tourism (3)
TDM 494 Special Topics, as approved by a SCRCD advisor (3)

Standards:

- 15 hours of graded classroom course work (no internship, no independent study)
- 12 hours of course work at the upper-division level, from the approved list
- minimum grade of "C" (2.00 on a 4.00 scale) required for all classes in the minor
- no double counting of courses for a major and the minor
- minimum GPA of 2.00 for those pursuing the minor, a major or premajor, other than a bachelor's degree in parks and recreation management.
- should be a junior to take 400-level courses

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue the parks and protected area management minor should consult an academic advisor in the college or department of their major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor. Students pursuing the bachelor's degree in parks and recreation management are not eligible to complete this minor.

Personal Health Minor (NPHLMIN)

Campus: Downtown Phoenix, Online

Description:

This minor will allow students with academic interests that lie outside the realm of medical and health sciences to explore and learn the latest information related to healthy lifestyles, including the attainment and retention of a high quality of personal health. Students will gain the knowledge and skills necessary to optimize their personal health and assume increased responsibility for their own personal health and well-being. The minor reflects the transdisciplinary nature of personal health by including courses from the nutrition, exercise and wellness and health sciences disciplines.

Program Requirements:

Required minor courses: (12)

EXW 325 Fitness for Life (3)

HSC 210 Cultural Aspects of Health, C (3)

HSC 300 Complementary Health Care (3)

NTR 100 Introductory Nutrition (3)

Elective minor courses: (6)

EXW 400 Stress Management for Wellness (3)

HSC 355 Eating for Lifelong Health, SB (3)

HSC 410 Supporting the Health of Older Adults (3)

HSC 412 Health Issues in Later Life (3)

HSC 435 Environmental Health Issues in the U.S. (3)

A minimum grade of "C" (2.00 on a 4.00 scale) is required for all courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Philosophy Minor (ASPHIMIN)

Campus: West

Description:

The minor in philosophy, offered by the School of Humanities, Arts and Cultural Studies, provides students with an understanding of central philosophical issues, problems and ideas; a capacity for critical thinking and analytic reasoning; and the ability to present one's positions effectively through oral and written communication.

Program Requirements:

The minor in philosophy consists of 18 credit hours of philosophy course work, of which 12 must be upper-division hours (300 or 400 level). Only courses in which the student earns a grade of "C" (2.00 on a scale of 4.00) or higher will fulfill requirements for the minor.

Courses are to be selected from the following list, in consultation with an advisor, to create a coherent and complete program of study:

IAS 410 Evolution of Ideas, L or HU (3)
IAS 430 Science and Religion, L or HU (3)
PHI 101 Introduction to Philosophy, HU (3)
PHI 103 Principles of Sound Reasoning, L or HU (3)
PHI 304 Existentialism, HU (3)
PHI 306 Applied Ethics, HU (3)
PHI 318 Philosophy of Religion, HU (3)
PHI 320 Bioethics, HU (3) or IAS 340 Bioethics, HU (3)
PHI 360 Business and Professional Ethics, HU (3)
PHI 391 Historical Perspectives on Philosophy and Religion (3)
PHI 406 Moral Dilemmas, L or HU (3) or IAS 406 Moral Dilemmas, L or HU (3)
PHI 407 Environmental Philosophy and Policy, L or HU (3) or IAS 407 Environmental Philosophy and Policy, L or HU (3)
PHI 408 Feminist Ethics, HU (3)
PHI 494 Special Topics (3)
PHI 499 Individualized Instruction (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in philosophy is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Philosophy Minor (LAPHIMIN)

Campus: Tempe, Online

Description:

The minor in philosophy program provides students with an understanding of philosophical inquiry and method. The minor program offers an introduction to central themes both in the history of philosophy and in the current literature. Students in this minor have the opportunity to sharpen their critical reasoning skills while addressing profound questions regarding the nature of:

- existence
- knowledge
- law
- morality
- politics
- science

Program Requirements:

A minor in philosophy consists of 18 credit hours, of which at least 12 must be upper-division and approved by an advisor in the School of Historical, Philosophical and Religious Studies. All courses must be passed with a minimum grade of "C" (2.00 on a 4.00 scale). No more than two courses may be taken in any one of the following philosophical subdisciplines:

- epistemology
- ethics and political philosophy
- history of philosophy
- logic
- metaphysics

Students should consult with an academic advisor in the School of Historical, Philosophical and Religious Studies about a proposed selection of courses before registering.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation providing the college (and in certain colleges, the academic unit) of their major allows the official recognition of the minor and the academic unit of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met.

Students wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. Students should also consult with an academic advisor in the college or department of their majors to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the School of Historical, Philosophical and Religious Studies for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the

year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Physics Minor (LAPHYMIN)

Campus: Tempe

Description:

Physics is concerned with the nature, structure and interactions of matter and radiation. Adding a physics minor to another major program of study provides a student with the fundamental scientific basis to address the most challenging opportunities faced in a student's career.

Program Requirements:

Required Courses (24)

Choose between the following course combinations:

PHY 150 Physics I, SQ (4) or PHY 121 University Physics I: Mechanics, SQ (3) and PHY 122 University Physics Laboratory I, SQ (1)*
and

PHY 151 Physics II, SQ (4) or PHY 131 University Physics II: Electricity and Magnetism, SQ (3) and PHY 132 University Physics Laboratory II, SQ (1)**

Also required:

PHY 252 Physics III, SQ (4)

PHY 361 Introductory Modern Physics (3)

two upper-division electives (to be selected with the approval of the physics advisor) (6)

one lab course: PHY 333 Electronic Circuits and Measurements (3) or PHY 334 Advanced Laboratory I, L (3)

*Both PHY 121 and PHY 122 must be taken to secure SQ credit.

**Both PHY 131 and PHY 132 must be taken to secure SQ credit.

A minimum of 12 upper-division credit hours are required to complete this minor. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Physics Minor (LSPHYMIN)

Campus: Polytechnic

Description:

The physics minor in the College of Integrative Sciences and Arts at the Polytechnic campus provides a rigorous foundation in physics with an emphasis on fundamental concepts and applied hands-on experience. It broadens and deepens a student's understanding of their major and increases their options for graduate study and employment. The primary emphasis of the physics minor is to give students experience through applied and computational physics projects. The projects will be guided by faculty with expertise in the physics of semiconductors and graphene, quantum nano-optics, laser physics and materials science.

Program Requirements:

A minimum of 23 credit hours are required.

Required Minor Courses: (14 credit hours minimum)

MAT 420 Scientific Computing (3)
PHY 121 University Physics I: Mechanics, SQ (3)
PHY 122 University Physics Laboratory I, SQ (1)
PHY 131 University Physics II: Electricity and Magnetism, SQ (3)
PHY 132 University Physics Laboratory II, SQ (1)
PHY 361 Introductory Modern Physics (3)

Elective Minor Courses: (6 credit hours minimum)

MAT 275 Modern Differential Equations, MA (3)
PHY 321 Vector Mechanics and Vibration (3)
PHY 331 Principles of Modern Electromagnetism (3)
PHY 456 Laser Optics (4)

Required project research (3 credit hours minimum)

PHY 499 Individualized Instruction (3)*

*Individual projects under guidance of physics faculty

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Political Science Minor (ASPOLMIN)

Campus: West

Description:

The minor in political science, offered by the School of Social and Behavioral Science, is designed to help students gain an understanding of theory, practice and policy underlying political processes locally, nationally and internationally and to train students with the research skills necessary for the analysis of complex sociopolitical issues locally and globally.

The program strives to meet these goals by offering students learner-centered course work in political theory, American political institutions, and international relations and world affairs. These goals are accomplished by offering a flexible program of course work focusing on international urban, race or ethnic sociopolitical areas, internships and service-learning or action research opportunities. Under the direction of faculty, students focus on intellectual and concrete policy issues in the greater Phoenix metropolitan area, Arizona, the Arizona-Mexico borderlands, the Americas and the world.

Program Requirements:

The minor in political science consists of 18 credit hours in POS courses, 12 of which must be in upper-division courses.

Required Courses:

Select two from among the following:

POS 110 Government and Politics, SB (3) or POS 310 American National Government, SB (3)

POS 150 Comparative Government, SB, G (3)

POS 160 Global Politics, SB, G (3)

POS 210 Political Ideologies, SB (3)

POS upper-division electives (12)*

*A maximum of three credit hours of internship and three credit hours of individualized instruction may be used to fulfill requirements.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in political science is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Political Science Minor (LAPOSMIN)

Campus: Tempe, Online

Description:

The minor in political science offers students exposure to the skills and knowledge that help them participate effectively as citizens in a democratic political system and flourish in the rapidly developing globalization of the world's political institutions, cultures and economies. The minor aims to provide students with an introduction to the tools and skills necessary to link theory with real-world problems and issues.

Program Requirements:

The minor in political science consists of 18 credit hours in political science courses, 12 credit hours of which must be upper-division courses. Students who minor in political science must have two courses from among the following in addition to four political science electives:

POS 110 Government and Politics, SB (3) or POS 310 American National Government, SB (3)

POS 150 Comparative Government, SB, G (3)

POS 160 Global Politics, SB, G (3)

POS 210 Political Ideologies, SB (3)

Students who minor in political science must have a minimum GPA of 2.00 (on a 4.00 scale) for all courses that count toward the minor. Courses that count toward the minor must have a grade of "C" (2.00 on a 4.00 scale) or higher. No more than three credit hours of POS 484 Internship and three credit hours of POS 499 Individualized Instruction may be applied to the minor. A minimum of six upper-division credit hours must be taken in courses offered by the College of Liberal Arts and Sciences.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to pursue a minor in political science may do so with the permission of the department, school or college of their major as well as the advisor in the School of Politics and Global Studies. An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Psychology Minor (ASPGSMIN)

Campus: West, Online

Description:

The minor in psychology, offered by the School of Social and Behavioral Sciences, provides the opportunity to study the scientific nature of the behavior and mental processes of individuals and groups. The study of psychology includes basic and applied courses in the subfields of clinical, developmental, organizational, cross-cultural and social psychology, cognitive systems and behavioral neuroscience. The psychology minor prepares students for more advanced study in psychology at the graduate level, in either graduate or professional schools. The program emphasizes the development of wide-ranging skills in critical thinking and reasoning, quantitative and qualitative research methods, working collaboratively on teams, and presentation of information in oral and written form.

Program Requirements:

The minor consists of 22 credit hours in psychology, including the following:

Foundations of Psychological Science

PSY 101 Introduction to Psychology, SB (3)

PSY 230 Introduction to Statistics, CS (3)

PSY 290 Research Methods, L or SG (4)

Social and Developmental Core

Choose one course from the following list:

PSY 315 Personality Theory and Research, SB (3)

PSY 341 Developmental Psychology, SB (3)

PSY 350 Social Psychology, SB (3)

Neuroscience Core

Choose two courses from the following list:*

PSY 320 Learning and Motivation (3)

PSY 323 Sensation and Perception (3)

PSY 324 Memory and Cognition (3)

PSY 325 Physiological Psychology (3)

PSY 330 Statistical Methods, CS (3)

PSY 369 Biology of Human Sexuality (3)

PSY 470 Psychopharmacology (3)

Psychology elective

PSY upper-division elective (3)

*At least one choice must be PSY 320, PSY 323, PSY 324 or PSY 325. A maximum of three credit hours of research (PSY 399 Supervised Research and PSY 499 Individualized Instruction) may be used to meet the minor requirements. PSY 484 Internship may be taken for elective credit only. All courses must be passed with a minimum grade of "C" (2.00 on a scale of 4.00) or higher.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in psychology is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Psychology Minor (LAPGSMIN)

Campus: Tempe

Description:

The minor in psychology focuses on appreciating and understanding the human condition from a scientific, psychological point of view. Students completing the minor in psychology should possess breadth of knowledge pertaining to the major principles, theoretical approaches and findings in psychology.

Students should also understand and be able to use basic research and quantitative methods in psychology and be able to gather and synthesize psychological findings.

Finally, students should be able to understand the relevance and applicability of psychological principles, approaches and findings to individual, group and social issues. In so doing, they will be prepared as educated citizens to pursue productive careers and engage on a daily basis with their increasingly complex, information-rich world.

Program Requirements:

The minor in psychology consists of completing the 22 credit hours of course work in the foundations of psychology and the breadth within psychology categories described below. Six credit hours of upper-division (300 to 499 level) psychology course work must be completed through courses offered by the College of Liberal Arts and Sciences, Department of Psychology.

Required Foundation Courses:

PSY 101 Introduction to Psychology, SB (3)

PSY 230 Introduction to Statistics, CS (3)

PSY 290 Research Methods, L or SG (4)

Take one course each from four of the following five clusters:

Biological

PSY 325 Physiological Psychology (3)

Personality/Mental Health

PSY 315 Personality Theory and Research, SB (3)

PSY 366 Abnormal Psychology, SB (3)

Cognitive/Learning

PSY 320 Learning and Motivation (3)

PSY 323 Sensation and Perception (3)

PSY 324 Memory and Cognition (3)

Developmental

PSY 341 Developmental Psychology, SB (3)

Social

PSY 350 Social Psychology, SB (3)

PSY 351 Honors Social Psychology, L or SB (3)

Note: If a nonpsychology statistics course is approved by the psychology department to substitute for PSY 230 Introduction to Statistics, an additional psychology course must be taken to complete the 22 credit hours of required psychology course work. Internship credit and teaching assistant credit may not be used to satisfy this requirement. For more information, please contact a psychology advisor.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to pursue a minor in psychology may do so with the permission of the department, school or college of the major as well as the

advisor in the Department of Psychology. An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Public Relations and Strategic Communications Minor (HSPRSMIN)

Campus: West

Description:

The minor in public relations and strategic communications, offered by the School of Social and Behavioral Sciences, provides students with professional and academic expertise in areas as diverse as persuasion and campaign communications, public relations, crisis communications, special-events planning, marketing, and professional writing and editing. Additionally, students will refine the presentation skills needed for public and community relations.

Program Requirements:

The minor consists of 18 credit hours of upper-division course work, including nine credit hours of required course work and nine credit hours of electives. All students are required to complete a minimum of six upper-division credit hours offered by the School of Social and Behavioral Sciences.

Required core courses: (9 credit hours; choose three courses)

COM 319 Persuasion and Social Influence, SB (3)
COM 320 Communication and Consumerism, SB (3)
COM 353 Professional Communication (3)
COM 454 Rhetorical and Critical Approaches to Public Relations (3)

Elective courses: (9 credit hours; choose three courses)

COM 259: Communication in Business and the Professions (3)
COM 400 Communication in Professions, HU, C (3)
COM 414 Crisis Communication (3)
COM 429 Semiotics and Visual Communication (3)
COM 450 Theory and Research in Organizational Communication, SB (3)
COM 457 New Media (3)
COM 459 Theory and Methods of Social Media Networks (3)
COM 484 Internship*
ENG 301 Writing for Professions, L (3)
ENG 311 Persuasive Writing, L (3)
ENG 410 Writing for Publication (3)
ASB 374/POS 374/SBS 374/SOC 374 Cultures and Politics of the Internet (3)
or any unused courses from the "required core courses" list above

*See SBS academic advisor for additional information.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in public relations and strategic communications is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Please see the School of Social and Behavioral Sciences website at <https://newcollege.asu.edu/college-advisor> for more information.

Public Service and Public Policy Minor (PPPAFMIN)

Campus: Downtown Phoenix

Description:

The minor in public service and public policy prepares students for work in government at all levels and in nonprofit organizations through comprehensive coverage of topics in public policy, public leadership and management and urban studies. Students discover the challenges of management and learn how to lead a public organization and understand the process of policy development.

The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. The minor has an applied and professional focus which can enhance many other majors and will make students more competitive in securing public sector jobs.

Program Requirements:

The minor in public service and public policy requires 18 credit hours.

Required Courses:

PAF 200 Public Service and Policy in the 21st Century (3)
PAF 300 Public Management and Administration (3)
PAF 340 Contemporary Policy Challenges (3)

Electives: (select three courses from the following list)

PAF 201 Economics and Public Policy, SB (3)
PAF 410 Building Leadership Skills, SB (3)
PAF 420 Public Leadership (3)
PAF 470 Topics in Public Economics and Financial Management (3)
PAF 471 Public Policy Analysis (3)
URB 300 Urban and Metropolitan Studies (3)
URB 305 Urban Governance (3)

Other related electives may be selected with advisor approval.

A total of 12 credit hours must be taken in the School of Public Affairs at ASU.

To earn the minor, students must complete all course work in the minor with a minimum grade of "C" (2.00 on a 4.00 scale) or higher.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students wishing to pursue a minor should consult an academic advisor in the unit offering the minor to ensure the appropriate courses are taken. Students should also consult an academic advisor in the college or department of the major to ensure the college or department of the major recognizes the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Real Estate Minor (BAREAMIN)

Campus: Tempe

Description:

A minor in real estate is designed to provide an understanding of the real estate industry and to complement the major area of study. The minor program consists of a strong foundation that includes real estate fundamentals, law, appraisal and land development. Students may choose from a variety of courses such as investing, economics and urban issues to complement the foundation. Students who complete the minor will have established a competitive knowledge base for careers in the real estate industry.

Program Requirements:

Students must complete a minimum of 18 credit hours, including 12 hours of required courses and six credit hours of electives.

Students must complete a minimum of 12 hours of resident credit for the minor. All courses must be completed with a grade of "C" (2.00) or higher.

The upper-division business courses required or elected for this minor will be restricted to students with 56 earned credit hours, a minimum 2.50 ASU GPA and completed course prerequisites.

Upper-Division Courses:

REA 380 Real Estate Fundamentals (3)

REA 401 Real Estate Appraisal (3)

REA 411 Real Estate Law (3)

REA 456 Real Estate Investments (3)

Elective Courses:

ALA 100 Introduction to Environmental Design, HU, H, G (3)

CON 472 Development Feasibility Reports, L (3)

GCU 361 Urban Geography, SB (3)

PUP 434 Economic Development Planning, L or SB (3)

REA 441 Real Estate Land Development (3)

SGS 310 Global Urban Systems (3)

SOS 325 The Economics of Sustainability (3)

URB 300 Urban and Metropolitan Studies (3)

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Recreation Management Minor (PPRECMIN)

Campus: Downtown Phoenix

Description:

The minor in recreation management introduces students to community recreation programming and planning for a variety of populations. The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as business, education, nursing, public affairs, social work and many others might find this program a beneficial supplement to their existing program. Students interested in the recreation management minor may also be interested in the school's therapeutic recreation program.

Program Requirements:

The recreation management minor requires completion of 15 credit hours, six credit hours of required courses and nine credit hours of elective courses.

Required core courses:

PRM 120 Leisure and the Quality of Life, SB (3)
PRM 303 Program Planning (3)

Electives: (choose three courses from the following list)

CRD 302 Inclusive Community Development, C (3)
CSM 201 Introduction Community Sports (3)
PRM 304 Recreation Planning and Facility Development, L (3)
PRM 315 Community Recreation Systems (3)
PRM/CSM 335 Sports and Recreation for Youth Development (3)
PRM 364 Foundations of Recreation Therapy, SB (3)
PRM 475 Entrepreneurial Recreation and Tourism (3)
PRM 486 Special Events Management (3)
PRM 494 Special Topics (3)

Standards

- 15 hours of graded classroom course work
- minimum "C" (2.00 on a 4.00 scale) grade required for all classes in the minor
- minimum GPA of 2.00 for those pursuing the minor, a major or premajor, other than parks and recreation management
- should be a junior to take 400-level courses
- no double counting of courses for a major and the minor

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue the recreation management minor should consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor. Students pursuing a bachelor's degree in parks and recreation management are not eligible to complete this minor.

Religious Studies Minor (ASRELMIN)

Campus: West

Description:

The minor in religious studies, offered by the School of Humanities, Arts and Cultural Studies, introduces students to the world's religious traditions and how these are used by humans to interpret experiences and find meaning. Students learn to think critically about religious worldviews and presuppositions and to explore the relation to contemporary challenges in the world.

Program Requirements:

The minor in religious studies consists of 18 credit hours of religious studies course work, of which 12 must be upper-division hours (300 or 400 level). Only courses in which the student earns a minimum grade of "C" (2.00) can be counted toward the minor. Courses are to be selected in consultation with a program advisor to create a coherent and complete program of study for the minor.

Courses are to be selected from the following list, in consultation with an advisor, to create a coherent and complete program of study:

- REL 200 Exploring the World's Religions, L or HU, G (3)
- REL 201 Religion and the Modern World, L or HU (3)
- REL 202 Religion and Popular Culture, HU, C (3)
- REL 203 Saints and Sinners: Explorations in Sacred Biography, HU, H (3)
- REL 205 Life, Sex and Death, HU (3)
- REL 207 Ritual, Symbol and Myth, L or HU (3)
- REL 300 The Future of Religions, L or HU (3)
- REL 310 Western Religious Traditions, HU, H (3)
- REL 320 American Religious Traditions, HU, C, H (3)
- REL 321 Religion in America, L or HU, C, H (3)
- REL 345 Asian Religious Traditions, HU, G (3)
- REL 381 Religion and Moral Issues, L or HU (3)
- REL 390 Women and Religion, HU, G (3)
- REL 391 Historical Perspectives on Philosophy and Religion (3)
- REL 401 Sacred Scriptures and Social Choices, HU, G (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in religious studies is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors

Religious Studies Minor (LARELMIN)

Campus: Tempe, Online

Description:

A minor in religious studies encourages students to engage in a comparative, cross-cultural exploration of religions and cultures that complements a variety of undergraduate majors while promoting a deeper understanding of human nature and interaction. Students may pursue the minor in religious studies with regional, national, hemispheric, global and a variety of thematic emphases.

Program Requirements:

The minor in religious studies consists of 18 credit hours, at least 12 of which must be in the upper division. At least six upper-division hours must be in courses offered by the College of Liberal Arts and Sciences. All courses must be passed with a minimum grade of "C" (2.00 on a 4.00 scale).

The course REL 207 Ritual, Symbol, and Myth, L or HU (3) is required.

The remaining 15 credit hours will be chosen from courses available under the REL course prefix. For verification of the minor and assistance in course selection, students must consult an academic advisor in the School of Historical, Philosophical and Religious Studies.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to pursue a minor in religious studies may do so with the permission of the department, school or college of their major as well as an advisor in the School of Historical, Philosophical and Religious Studies.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and in certain colleges, the academic unit) of the student's major allows the official recognition of the minor and the college and academic unit of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the School of Historical, Philosophical and Religious Studies for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Romanian Minor (LAROMMIN)

Campus: Tempe

Description:

The minor in Romanian provides students with the means to develop their interests in social, cultural and political matters that are marked by a strong language dimension. Students are encouraged to participate in a study abroad program to enhance their education and overall minor experience. For more information go to <https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages> (<https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages>).

Program Requirements:

The Romanian minor consists of 18 credit hours of ROM courses beyond ROM 201. This minor is structured so that it requires all ROM courses to be at the upper-division level (300 and above).

Required courses include:

- ROM 313 Romanian Composition and Conversation (3)
- ROM 314 Romanian Composition and Conversation (3)
- ROM 411 Advanced Spoken and Written Romanian I (3)
- ROM 412 Advanced Spoken and Written Romanian II (3)
- ROM 494 Topic: Advanced Romanian Grammar (3)*
- ROM 494/SLC 494 Dracula and Vampire Castles (3)

*Advanced Romanian Grammar I or II fulfills the requirement.

Requirements:

- A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses to be counted toward the minor.
- A minimum of six upper-division hours in the minor must be taken in residence at ASU.
- Pass/Fail courses cannot be used for the minor.
- ROM 101 through 201 are not applicable to the minor.
- Course substitutions are permitted for heritage speakers and other advanced speakers of Romanian.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to add a minor in Romanian to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Russian Minor (LARUSMIN)

Campus: Tempe

Description:

Students pursuing a minor in Russian gain novice to intermediate language skills and an understanding of the literature and cultures of Russian-speaking peoples and regions. Russian is the fourth most commonly spoken language in the world (after Chinese, English and Spanish) and is the lingua franca of the former Soviet empire, with more than 300 million speakers worldwide. Since the fall of the Soviet Union in 1991, Russian, other Slavic languages and Central Asian languages remain strategic, critical languages, with government scholarships available to study abroad, do research and internships, and find jobs in government agencies.

The Russian language program cooperates with the Melikian Center to offer an interdisciplinary baccalaureate certificate in Russian, Eurasian and East European Studies for students in agribusiness, anthropology, architecture, economics, geography, history, political science, religious studies, Russian, sociology and women's studies.

Students are encouraged to study abroad. The ASU exchange program in Russian language and translation offers students the opportunity to study in Moscow, St. Petersburg or Kazan.

Program Requirements:

The Russian minor consists of 18 credit hours of RUS courses above the RUS 202 level.

SLV 304 Computational Linguistics of Slavic Languages, CS (3) and other SLV courses may be used toward the minor with advisor approval.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to add a minor in Russian may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Science, Technology and Society Minor (ECSTSMIN)

Campus: Polytechnic

Description:

The science, technology and society program offers a minor to students outside the science, technology and society major, regardless of their major field of specialization. Living in a 21st century world is characterized by rapid technological change and uncertainty. Mastering the intricacies of the interrelationships between technology and human systems will enhance a degree in any area and arm graduates with the insights and skills required for success in any endeavor.

Program Requirements:

The minor in science, technology and society requires 18 credit hours, as follows:

- A minimum of six upper-division credit hours in the minor must be taken in courses offered through the College of Integrative Sciences and Arts.
- Courses that count toward the minor must have a grade of "C" (2.00 on a scale of 4.00) or higher.
- Twelve credit hours of upper-division science, technology and society courses are required.

One course in general science, technology and society and one in internationalization are required to complete the minor, as follows:

General:

STS 101 Introduction to Science, Technology and Society, SB (3) or STS 304 Science, Technology and Society, SB (3)

Internationalization:

STS 110 Global Technology and Development, SB, G (3) or STS 317 Science, Technology and Global Engagement, SB, G (3)

The following are examples of courses available to complete the minor:

STS 301 Research in Science and Technology Studies, SB (3)
STS 302 Philosophy of Science and Technology, SB (3)
STS 303 History of Science and Technology, H (3)
STS 305 Science and Social Theory, SB (3)
STS 306 Social Effects of Science and Technology, SB (3)
STS 318 Science, Technology and Government, SB (3)
STS 325 Science, Technology and Public Policy, SB (3)
STS 328 Science, Technology and Culture, SB (3)
STS 329 Cultivating Technology in Newly Industrializing Countries, SB, G (3)
STS 330 Information Technology and Globalization, SB, G (3)
STS 331 Ethical Issues in Science and Technology, SB (3)
STS 332 Global Issues in Science and Technology, SB, G (3)
STS 364 Science, Technology and National Security, SB (3)
STS 425 Law, Values, Science and Technology, SB (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

A GPA of 2.00 or higher (on a 4.00 scale) is required for all resident applicants.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Slavic Studies Minor (LASLVMIN)

Campus: Tempe

Description:

This minor focuses on Slavic languages and cultures with a concentration in either Bosnian/Croatian/Serbian or Polish. It is intended primarily for the students of other departments (e.g., history, cultural anthropology, music, political science, economics) whose professional interests lie in Poland or the countries of southeastern Europe. The program places equal emphases on language, culture and regional studies. The minor develops limited professional linguistic proficiency in either BCS or Polish along with adequate cultural sensitivity.

Program Requirements:

The minor in Slavic studies requires 18 upper-division credit hours.

Required Courses:

any 300- or 400-level RUS, SLV, PLC or BCS literature or culture course (3)
BCS 311 and BCS 312 Bosnian/Croatian/Serbian Composition and Conversation I and II (6) or PLC 311 and PLC 312 Advanced Polish I and II (6)
SLV 304 Computational Linguistics of Slavic Languages, CS (3)

SLV 440 History of Slavic Languages, SB (3)
SLV 498 Pro-Seminar: Senior Capstone (1-7)

Notes for Minor:

A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses counted toward the minor. A minimum of six upper-division hours in the minor must be taken in residence at ASU. Pass/fail courses cannot be used for the minor. No 201- or 202-level language courses are applicable to the minor. Course substitutions are permitted for heritage speakers and other advanced speakers of Slavic languages. Please contact the School of International Letters and Cultures for more information.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to add the minor in Slavic studies to the degree they are currently pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Social Welfare Minor (LASSWMIN)

Campus: Downtown Phoenix

Description:

The social welfare minor prepares students for work in human service settings where a fundamental knowledge of human relations is required. It complements careers in journalism, communications, public administration, nursing and related fields and provides a foundation for students who seek to pursue an MSW. The minor enhances and broadens the ability of students to analyze complex family, individual and societal problems in the context of societal values, cultural diversity and other social and economic variables. The minor also contributes to students' understanding of society and social behavior, encourages critical thinking and helps develop communication skills.

Program Requirements:

Students should:

- be at sophomore standing to take 300- or 400-level courses
- complete 18 credit hours of graded course work (internship or independent study not applicable)
- complete a minimum of 12 credit hours of resident credit at ASU
- complete SWU 171 as the prerequisite for all upper-division SWU courses
- earn a grade of "C" (2.00 on a 4.00 scale) or higher for all classes in the minor
- maintain a cumulative GPA of 2.00 (4.00 scale) or higher
- meet with a social welfare advisor prior to registration
- take a minimum of 12 credit hours of upper-division course work from the approved list

Required Courses:

SWU 171 Introduction to Social Work, SB, H (3)
SWU 291 Social Service Delivery Systems (3)

SWU 432 Social Policy and Services (3)

Select three credit hours from the following list:

SWU 374 Diversity and Oppression in a Social Work Context, C (3)

SWU 455 Social Work Practice Skills with Latinos (3)

SWU 456 Immigrants and Refugees, C (3)

SWU 457 Southwest Borderland Immigration Issues, C (3)

SWU 459 Spirituality and the Helping Professions (3)

SWU 461 Lesbian, Gay, Bisexual, Transgender and Queer Issues, C (3)

Select six credit hours from the following list:*

SWU 303 Micro Human Behavior and the Social Environment, L or SB (3)

SWU 340 Macro Human Behavior and the Social Environment, SB (3)

SWU 498 Pro-Seminar, L (1-7)

*Note: Student may select one additional course from the cultural diversity in the U.S. options above.

Lower-division credit hours required: 6

Upper-division credit hours required: 12

Total credit hours required: 18

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Please meet with a social welfare advisor prior to registration.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Social and Behavioral Sciences Minor (ASSBSMIN)

Campus: West

Description:

The minor in social and behavioral sciences, offered by the School of Social and Behavioral Sciences, provides students an interdisciplinary lens across several fields of the social and behavioral sciences, including communication, sociocultural anthropology, geography, political science, psychology and sociology.

Program Requirements:

The minor consists of 18 credit hours, at least 12 credit hours of which must be in upper-division courses and at least six credit hours taken from the New College of Interdisciplinary Arts and Sciences.

All courses must be completed with a minimum grade of "C" (2.00 on a scale of 4.00). Students wishing to pursue a minor must meet with an academic advisor in the School of Social and Behavioral Sciences to construct a minor that reflects a particular area of specialty and interest.

Required Courses:

SBS 200 Introduction to Social and Behavioral Sciences, SB (3)

Select one additional course from the following list:

COM 308 Advanced Research Methods in Communication, L (3)

COM 309 Rhetorical, Interpretive and Critical Methods in Communication (3)

PSY 290 Research Methods, L or SG (4)

SBS 302 Qualitative Methods (3)
SBS 303 Quantitative Methods (3)
SOC 391 Research Methods, L or SB (3)

Electives (12 credit hours)

A maximum of three semester hours of internship and three semester hours of individualized instruction may be used to fulfill requirements. Courses approved for the 12 credit hours in the minor would come from one of the approved themes from the major.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in social and behavioral sciences is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Please see the School of Social and Behavioral Sciences website at <https://newcollege.asu.edu/college-advisor> (<https://newcollege.asu.edu/college-advisor>) for more information.

Sociocultural Anthropology Minor (ASASBMIN)

Campus: West

Description:

The minor in sociocultural anthropology, offered by the School of Social and Behavioral Sciences, is designed to provide students with a substantive understanding of the theoretical assumptions and methodological techniques underlying the field of sociocultural anthropology. Courses provide students with knowledge about and theoretical approaches to cross-cultural studies and transnational research, emphasizing culture and political economy in historical context. Specifically, students minoring in sociocultural anthropology will be expected to demonstrate knowledge and skill in the following areas:

- anthropological approaches to and explanatory frameworks for the study of social issues in culture and political economy
- application of theoretical knowledge to understanding sociocultural practices across local and global contexts
- awareness of cultural, ethnic, gender, sexual, class and age differences and commonalities across world social formations
- critical thinking and analytical reasoning
- development of their own anthropological perspective for use in their everyday lives and future studies or employment
- effective oral presentation and written communication
- interpretation of cultural practices, social theory and social texts
- qualitative research methods in anthropology and other social sciences and interpretive humanities, including ethnographic field research and library research

Program Requirements:

This minor requires 18 credit hours, at least 12 of which must be in upper-division courses.

The required courses are ASB 311 and SBS 302. The remaining 12 credit hours may be drawn from ASB courses and from several key SBS

courses. All courses must be passed with a minimum grade of "C" (2.00) or higher. Up to six credit hours of lower-division courses and three credit hours of ASB 499 Individualized Instruction may also be applied toward the minor.

Complete two required courses: (6 credit hours)

ASB 311 Principles of Social Anthropology, SB, G, H (3)

SBS 302 Qualitative Methods (3)

The other 12 hours may be selected from all ASB course offerings, including:

ASB 102 Culture in a Globalizing World, SB, G (3)

ASB 211 Women in Other Cultures, HU or SB, G (3)

ASB 319 The North American Indian (3)

ASB 339 Grassroots Social Movements, SB (3)

ASB 340 Migration and Culture, SB, G (3)

ASB 342 Mexico-U.S. Borderlands, SB, C (3)

ASB 346 Marriage and Family Diversity, SB, C (3)

ASB 350 Anthropology and Art, HU (3)

ASB 353 Death and Dying in Cross-Cultural Perspective, HU or SB, G (3)

ASB 356 Central American Studies, SB, G (3)

ASB 374 Cultures and Politics of the Internet, SB (3)

ASB 389 Ethnographic Field Lab (1-6)

ASB 394 Special Topics (1-4)

ASB 402 Visual Anthropology

ASB 442 Urban Studies, SB (3)

ASB 447 Citizenship, Nationalism and Identity, SB, C (3)

ASB Electives (3)

SBS 301 Cultural Diversity, L or SB, C (3)

SBS 450 Topics in Local/Global, SB, G (3)

SBS 480 Global Justice, G (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in sociocultural anthropology is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Sociology Minor (ASSOCMIN)

Campus: West

Description:

The minor in sociology, offered by the School of Social and Behavioral Sciences, provides students with an understanding of the theory, practice and policy underlying issues of social change, inequality and diversity. These issues are approached from multiple perspectives, including race or

ethnicity, gender, economic position, age, geographic location and position in the global political economy.

The student minoring in sociology will learn how it enhances one's understanding of social realities and institutions at local, national and international levels, and how sociology contributes to the other social sciences and to the humanities.

Students gain a basic understanding of the assumptions underlying the discipline of sociology and develop the research skills necessary for analysis of complex social issues. These objectives are met by offering a flexible program and by providing the student with individual and group experiences in working with faculty members on concrete intellectual and policy issues.

Program Requirements:

The minor in sociology requires 18 credit hours in sociology, of which 12 credit hours must be upper-division courses.

Required Courses:

SOC 101 Introductory Sociology, SB (3)

Select one course from the following list:

SBS 303 Quantitative Methods (3)

SBS 304 Social Statistics I, CS (3)

SOC 390 Social Statistics I, CS (3)

SOC 391 Research Methods, L or SB (3)

SOC 483 History of Social Thought, SB (3)

SOC 486 Contemporary Theory, SB (3)

Additional Sociology Electives (12 credit hours)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in sociology is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Sociology Minor (LASOCMIN)

Campus: Tempe, Online

Description:

A minor in sociology from the Sanford School of Social and Family Dynamics exposes students to the basic course work and issues within the discipline. This program provides an exceptional balance to studies in psychology, communication, education, business and nursing.

Program Requirements:

The minor in sociology requires 18 credit hours, of which 12 credit hours must be upper-division courses. A minimum of four upper-division SOC courses must be completed from offerings on the Tempe campus.

Required Courses:

SOC 101 Introductory Sociology, SB (3)

SOC 391 Research Methods, L or SB (3) or SOC 483 History of Social Thought, SB (3) or SOC 486 Contemporary Theory, SB (3)

12 credit hours of SOC electives, of which a minimum nine credit hours must be upper-division

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to pursue a minor in sociology may do so with the permission of the department, school or college of their major as well as the advisor in the Sanford School. An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. Students should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Spanish Minor (ASSPAMIN)

Campus: West

Description:

The minor in Spanish, offered by the School of Humanities, Arts and Cultural Studies, consists of three emphases: language, literature and cultures. These emphases are integrated within the discipline and with other disciplines within the New College of Interdisciplinary Arts and Sciences. The minor allows credit for internships in social and business agencies. This school-to-work experience, in addition to offering the student possible entry-level job opportunities, provides stimulating linguistic and cultural rewards outside the traditional campus environment.

Program Requirements:

The minor in Spanish consists of 18 upper-division credit hours (300 or 400 level), chosen in consultation with an academic advisor in the School of Humanities, Arts, and Cultural Studies.

Preparatory course work may not be used to satisfy minor requirements. Preparatory course work includes lower division language courses and SPA 313/SPA 314 Spanish Conversation and Composition and SPA 315/SPA 316 Spanish Conversation and Composition for Bilinguals

Students must complete all course work in the minor with a grade of "C" (2.00) or better. No pass/fail credit may be used for minor requirements.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in Spanish is open to all ASU undergraduate minors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Spanish Minor (LASPAMIN)

Campus: Tempe, Online

Description:

Students pursuing a minor in Spanish gain an understanding of the language, literature and cultures of Spanish-speaking peoples and regions. There are opportunities to participate in study abroad programs, which can serve to enhance a student's minor experience and education. For more information go to <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Program Requirements:

The minor in Spanish requires a total of 21 credit hours, 18 hours of which must be upper-division. Course substitutions are allowed for heritage and advanced speakers of the language. Visit <https://international.clas.asu.edu/student-life/academic-advising/placement-testing> (<https://international.clas.asu.edu/student-life/academic-advising/placement-testing>) or consult with an academic advisor in the School of International Letters and Cultures regarding placement into Spanish language courses.

Required courses: (12 credit hours)

SPA 202 Intermediate Spanish, G (4) or SPA 204 Intermediate Spanish for Bilinguals, G (4)*
SPA 313 Spanish Conversation and Composition, G (3) or SPA 315 Spanish Conversation and Composition for Bilinguals, C (3)
SPA 314 Spanish Conversation and Composition, G (3) or SPA 316 Spanish Conversation and Composition for Bilinguals, L, C (3)
SPA 412 Advanced Conversation and Composition, G (3)

*Three of the four credit hours from SPA 202 or SPA 204 are counted toward the minor. The additional credit hour is credited toward university elective hours.

In addition to 12 credit hours in required courses, student complete nine credit hours from one of three tracks provided to permit specializations beneficial to their personal or academic goals:

Spanish language studies track: (9)

Required course:

SPA 413 Advanced Spanish Grammar, G (3)

One course from:

SPA 400 Introduction to Spanish Linguistics (3)
SPA 471 Civilization of the Indohispanomexicano Southwest, L or HU, C (3)
SPA 472 Latin American Society: Five Case Studies, HU, H, G (3)

SPA 473 Old and New Spaniards: Culture and Civilization of Spain, HU or SB, G (3)

One course from:

SPA 394 Topic: Hispanidades: Documenting Local Culture (3)

SPA 484 Internship (3)

SPA upper-division study abroad course (3)

Spanish literary and cultural studies track (9)

Required course:

SPA 325 Introduction to Hispanic Literature, HU (3)

One course from:

SPA 425 Foundational Texts of Spain, HU (3)

SPA 426 Literature and Society in Modern Spain, HU (3)

SPA 427 Colonial and Postcolonial Latin American Literature, L or HU (3)

SPA 428 Foundational Texts of Latin American Literature Since Modernismo, L or HU, G (3)

SPA 464 Jaiton Works in Chicano/a Literature, HU or SB, C (3)

SPA 471 Civilization of the Indohispanomexicano Southwest, L or HU, C (3)

SPA 472 Latin American Society: Five Case Studies , HU, H, G (3)

SPA 473 Old and New Spaniards: Culture and Civilization of Spain, HU or SB, G (3)

One course from:

SPA 319 Business Correspondence and Communication, G (3)

SPA 394 Special Topics (3)

SPA 400-level (3)

Spanish linguistics track: (9)

Required course:

SPA 400 Introduction to Spanish Linguistics (3)

Two courses from:

SPA 417 Spanish Phonetics and Phonology, (3)

SPA 418 Spanish Syntax (3)

SPA 419 Language Variations of Spanish (3)

SPA 420 Applied Spanish Linguistics, L (3)

SPA 421 Spanish in the Southwest, C (3)

A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses toward the minor. Pass/fail courses cannot be used. A minimum of six upper-division credit hours must be taken from courses offered by the College of Liberal Arts and Sciences. Some upper-division course options have additional prerequisites.

Students who test into higher Spanish language courses may need overrides to enroll.

Certain courses can be completed in faculty-directed summer study abroad programs. More information on study abroad opportunities can be found at <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to add the minor in Spanish to the degree they are currently pursuing may do so by contacting the School of International Letters and Cultures advising office.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Spanish Minor (LSSPAMIN)

Campus: Downtown Phoenix, Online

Description:

The series of courses in this 18 credit hour minor will help students hone Spanish communication skills and cultural knowledge that will help them serve the needs of the U.S. Latino community in professional settings (i.e., criminology, education, health care, journalism, social work). The combination of professionally focused courses and practical experience in this minor will enhance students' professional preparation for employment in positions that require advanced proficiency in Spanish and an in-depth understanding of U.S. Latino culture.

Program Requirements:

Prerequisite: SPA 314 or SPA 316 or permission of instructor.

Required Courses: (12 credits)

SPA 317 Spanish for the Professions (3)
SPA 404 Spanish in U.S. Professional Communities, C (3)
SPA 405 Latino Cultural Perspectives for the Professions, C (3)
SPA 484 Internship (3)*

Elective Course Options: (six credits chosen from the following list)

SPA 300- or 400-level Spanish courses focused on the professions (e.g., business, education, engineering and urban planning, health care, journalism, legal and justice studies, medical or legal interpretation, social work, sustainability) (3)
SPA 403 Spanish Grammar and Stylistics for the Professions (3)

All courses for this minor will require a minimum grade of "C" (2.00 on a 4.00 scale) or better to receive credit toward fulfilling minor requirements.

*Prerequisite: A minimum of 12 credit hours completed in this minor and permission of the director of the Spanish minor is required.

Depending upon a student's undergraduate program of study, additional prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

For additional admission and registration requirements, please visit the school website.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Special Events Management Minor (HSEVNMIN)

Campus: Downtown Phoenix

Description:

The minor in special events management is designed to offer students a solid understanding of special events programming and management. In addition to the two-tiered special events course, which provides basic and advanced instruction as well as experiential learning opportunities through event production, students will be able to select electives to meet their interests.

The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as business, communication and many others find this program a beneficial supplement to their existing program. For more information, access the school's website.

Program Requirements:

The minor requires 15 credit hours: six credit hours of required courses and nine credit hours of elective courses.

Required Core Courses:

PRM 486 Special Events Management (3)

PRM 487 Advanced Special Events Management (3) or CSM 485 Sports Events (3)

Electives: (choose three courses from the following list)

NLM 300 Fund Raising and Resource Development (3)

PRM 303 Program Planning (3)

PRM 304 Recreation Planning and Facility Development, L (3)

PRM 475 Entrepreneurial Recreation and Tourism (3)

PRM 484 Internship (1-12)

TDM 205 Introduction to Travel and Tourism, G (3)

TDM 345 Meeting and Convention Planning (3)

TDM 350 Tourism, Recreation and Sports Marketing (3)

TDM 458 International Tourism, G (3)

Standards:

- 15 credit hours of graded course work (no independent study)
- minimum grade of "C" (2.00 on a 4.00 scale) required for all classes in the minor
- minimum GPA of 2.00 for those pursuing the minor
- a major other than parks and recreation management or tourism development and management
- should be a junior to take 400-level courses
- no double counting of courses for a major and the minor

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue the special events management minor should consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward the major degree and the minor. For example, students pursuing a BS degree in either parks and recreation management or tourism development and management are not eligible to complete this minor.

Speech and Hearing Science Minor (LASHSMIN)

Campus: Tempe

Description:

The Department of Speech and Hearing Science offers an undergraduate minor in speech and hearing science. This is an academic program with emphasis on normal aspects of speech, language and hearing.

Program Requirements:

The minor in speech and hearing science consists of 24 credit hours, and though the following classes are required, students are strongly encouraged to visit an advisor from the Department of Speech and Hearing Science at ASU:

SHS 105 Introduction to Human Communication Disorders (3)

SHS 250 Introduction to Phonetics (3)

SHS 310 Anatomical and Physiological Bases of Speech (3)

SHS 311 Hearing Science (3)

Choose one from the following:

SHS 367 Language Science, SB (3)

SHS 375 Speech Science (3)

The remainder of the credits must come from the following courses:

SHS 401 Introduction to Audiology (3)

SHS 402 Clinical Methods and Treatment of Communication Disorders (3)

SHS 465 Speech and Language Acquisition, SB (3)

SHS 470 Developmental Speech and Language Disorders (3)

SHS 485 Acquired Speech and Language Disorders (3)

SHS 496 Aural Rehabilitation (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Statistics Minor (LASTAMIN)

Campus: Tempe

Description:

The minor in statistics is beneficial for students majoring in a variety of disciplines such as physics, engineering applications, business, economics, and in the life and social sciences where there is a need for quantification in the analysis of phenomena.

Program Requirements:

The minor in statistics consists of 18 to 20 credit hours, of which at least 12 hours are completed at the upper-division level. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required courses:

MAT 271 Calculus with Analytic Geometry II, MA (4) or MAT 266 Calculus for Engineers II, MA (3)

MAT 272 Calculus with Analytic Geometry III, MA (4) or MAT 267 Calculus for Engineers III, MA (3)

MAT 300 Mathematical Structures, L (3)

STP 420 Introductory Applied Statistics, CS (3)

STP 421 Probability (3)

STP 427 Mathematical Statistics (3) or STP 429 Experimental Statistics, CS (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult with an academic advisor in the college or department of his or her major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Studio Art Minor (HISTARTMIN)

Campus: Tempe

Description:

The art minor or BIS concentration in studio art is designed for students who have an interest in studio arts but are pursuing another major. The program includes foundation art courses that address formal issues in art and upper-division courses that develop a conceptual basis for the student while increasing technical proficiency in one or more studio areas. Course work in art history, both lower and upper division, helps foster critical understanding of aesthetics and the production of art. The designated course work is flexible enough for students to concentrate in a single area of the studio arts or explore several mediums.

Program Requirements:

The minor requires 21 credit hours (12 upper-division) in studio art and art history, art education or a related area of study.

Core Studio (6)

Required:

ART 110 Drawing as Seeing and Thinking, HU (3)

Complete one of the following: (3)

ART 112 2-D Design (3)

ART 113 Color (3)

ART 115 3-D Design (3)

ART 116 Introduction to Digital Media (3)

Studio Courses* (9)

Choose three from the following courses:

ART 311 Drawing III (3)
ART 314 Life Drawing II (3)
ART 323 Painting II (3)
ART 327 Watercolor II (3)
ART 331 Sculpture II (3)
ART 333 Foundry Casting Methods (3)
ART 346 3-D Computer Imaging and Animation, CS (3)
ART 351 Intaglio I (3)
ART 352 Lithography I (3)
ART 354 Screen Printing I (3)
ART 360 Ceramic Throwing (3)
ART 364 Ceramic Handbuilding I (3)
ART 365 Ceramic Handbuilding II (3)
ART 376 Woven Structures I (3)
ART 377 Surface Design (3)
ART 394 ST: Beginning Relief (1-4)
ART 394 ST: Ceramic Vessels (1-4)
ART 394 ST: Fantasy Figure Foam Carving (1-4)
ART 394 ST: Figurative Sculpture (1-4)
ART 394 ST: Maker Workshop (1-4)
ART 394 ST: Mixed Media: Collage (1-4)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor. Please contact the department for more information.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Sustainability Minor (SUSUSMIN)

Campus: Tempe, Online

Description:

Students in the sustainability minor will learn about the concept of sustainability and how it may be used to develop solutions to pressing issues affecting society, organizations and the world. The minor introduces sustainability principles and explains how sustainability can be applied to all academic disciplines and professional fields. Students will explore the challenges of sustainability within human institutions, organizations, cultures and technology, and in local, national and international contexts. The minor is intended to draw from and inform any major in the university.

Program Requirements:

The sustainability minor requires 18 credit hours of study, at least nine of which must be upper-division courses. The program includes six credit

hours of required core courses, six credit hours of required theme courses, and six credit hours of upper-division sustainability-related electives that relate to the student's major.

Required Core Courses:

SOS 100 Introduction to Sustainability (3), G

SOS 300 Advanced Concepts and Integrated Approaches in Sustainability (3)

Required Theme Courses:

two courses, each one from a different sustainability theme area (6)

Courses for the following theme areas can be found at: <https://schoolofsustainability.asu.edu/docs/sos/sustainability-minor.pdf>
(<https://schoolofsustainability.asu.edu/docs/sos/sustainability-minor.pdf>)

- coupled human-environment systems
- earth systems
- human transformation of the earth
- social, political and economic treatment of natural resources and environment

Upper-Division Sustainability-Related Electives:

two courses that are sustainability-related and ideally make a connection between the student's major and the minor (6)

Students should consult with their major advisor for course selection. Possible courses for these electives can be explored at <https://schoolofsustainability.asu.edu/degrees/undergraduate-courses> (<https://schoolofsustainability.asu.edu/degrees/undergraduate-courses>) but still need to be approved by an academic advisor.

Depending upon a student's undergraduate program of study, prerequisite courses may be required to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to declare a minor in sustainability should obtain advisor approval from the department, school or college of their major. The sustainability minor is available to students pursuing a major outside of the School of Sustainability.

Note: Courses taken as part of a minor may not count toward both the major degree and the minor. Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. For example, this minor is not available to business students pursuing the sustainability concentration.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Sustainable Tourism Minor (PPTDMSMIN)

Campus: Downtown Phoenix

Description:

As sustainability expands in popularity as a discipline, students are looking to find ways to better understand how they can apply the principles of sustainability to specific areas of interest. A minor in sustainable tourism development will allow students from any major to learn the basic concepts and theories of tourism development and management and will help them identify ways in which tourism can contribute to sustainable development, locally and globally.

The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as sustainability, business and many others will find this program a beneficial supplement to their existing program. Students may also choose to complete a study abroad program.

Program Requirements:

The minor requires a total of 15 credit hours, 12 credit hours of required courses and one three-credit-hour course from the list of electives.

Required Core Courses:

TDM 205 Introduction to Travel and Tourism, G (3)

TDM 372 Tourism Planning, L (3)

TDM 458 International Tourism, G (3)

TDM 480 Sustainable Tourism (3)

Elective Courses:

PRM 475 Entrepreneurial Recreation and Tourism (3)

TDM 394/494 Special Topics (3)

TDM 448 Heritage and Cultural Tourism (3)

TDM 481 Sustainable Food Management in Tourism (3)

TDM 482 Sustainable Revenue Management (3)

Standards:

- 15 hours of graded classroom course work (no internship, no independent study)
- minimum "C" (2.00 on a 4.00 scale) grade required for all classes in the minor
- minimum GPA of 2.00 for those pursuing the minor; a major other than tourism development and management
- should be a junior or higher to take 400-level courses
- no double counting of courses for a major and the minor

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, a student may have that accomplishment officially recognized on the ASU transcript at graduation if the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue the sustainable tourism minor should consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor. For example, students pursuing a BS in tourism development and management are not eligible to complete this minor.

Theatre Minor (FATHEMIN)

Campus: Tempe

Description:

Students pursuing the theatre minor will study the literatures, histories and basic production practices of theatre while having opportunities to concentrate in an area such as:

- design and production
- directing and performance
- new work development
- theatre and performance studies
- theatre for youth

Program Requirements:

The school offers a minor in theatre consisting of 22 credit hours of course work (nine credit hours must be upper-division). A grade of "C" (2.00) or higher is required for all courses in the minor. All prerequisites for the minor courses must be met (see course listings). Transfer students may transfer up to nine credit hours toward the minor.

The following courses are required, for a total of 13 credit hours:

FMP 201 Film: The Creative Process I, HU (3)*

THE 100 Introduction to Theatre, HU (3)

THE 322 Theatre History and Culture, HU, H (3)

THF 101 Acting Introduction (3)

THP 201 Theatre Production Crew (1)

*Students considering a minor in film concurrently must complete an additional course in theatre or film to make up for the overlapping FMP 201 course (and THF 101, if taken for the filmmaking practices concentration).

Also required are nine credit hours of upper-division course work related to theatre. Choose from courses with the FMP, THE, THF or THP prefix. Contact the school for options and course requirements.

Courses ordinarily limited to majors only are available to minors on a second-priority basis; that is, minors may not register for these courses early but are allowed to register after all majors' needs have been met.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Tourism Development and Management Minor (PPTDMMIN)

Campus: Downtown Phoenix

Description:

The minor in tourism development and management provides students with the planning and development skills needed to enter the largest industry in the world. Exposure to the businesses of sustainable tourism, heritage tourism, and meeting and convention planning will begin to prepare students for successful careers in the fast-growing travel and tourism industry. According to the World Tourism Organization and the World Travel and Tourism Council, the travel and tourism industry is the largest industry and employer in the world. It is the third-largest industry in the United States and ranks as the second-largest industry in Arizona.

The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from such various disciplines as business, communication and many others find this program a beneficial supplement to their existing program. Having completed the minor in tourism development and management, a student may also complete a certificate in convention sales and meeting planning. For more information, access the school's website. Students may also choose to participate in a study abroad program.

Program Requirements:

The tourism development and management minor requires 15 credit hours, six credit hours of required core courses and nine credit hours of elective courses.

Required Core Courses:

TDM 205 Introduction to Travel and Tourism, G (3)

TDM 480 Sustainable Tourism (3)

Elective Courses: (choose three from the following list)

CSM 483 Sports Tourism (3)

PRM 486 Special Events Management (3)

TDM 225 Introduction to Resort and Hotel Management (3)

TDM 345 Meeting and Convention Planning (3)

TDM 350 Tourism, Recreation and Sports Marketing (3)

TDM 386 Convention Sales and Management (3)

TDM 394/494 Special Topics (3)

TDM 415 Tourism Transportation Systems (3)

TDM 448 Heritage and Cultural Tourism (3)

TDM 458 International Tourism, G (3)

Standards:

- 15 hours of graded classroom course work (no internship, no independent study)
- minimum grade of "C" (2.00 on a 4.00 scale) required for all classes in the minor
- minimum GPA of 2.00 for those pursuing the minor, a major or premajor, other than tourism development and management
- students should be a junior to take 400-level courses
- no double-counting of courses for a major and the minor

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor. Students wishing to pursue the tourism development and management minor should consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor. For example, students pursuing a BS in tourism development and management are not eligible to complete this minor.

Transborder Chicana/o and Latina/o Studies Minor (LATCLMIN)

Campus: Tempe

Description:

In the Transborder Chicana/o and Latina/o studies minor, students will gain general knowledge about the Chicana/o and Latina/o populations in the United States and on the U.S.-Mexico border. The core requirements will focus on this population's cultural, economic, sociological, historical, psychological, and artistic experiences. For the remaining credit hours, students may select from courses in a variety of topics including:

- community development
- diversity in education
- film and the media
- health issues
- immigration and migration

- language and bilingualism
- literature and performance
- politics and policy
- visual arts

The minor will enhance students' understanding of the Chicana/o and Latina/o population in the United States, preparing them to work with this population in a wide variety of fields or careers.

Program Requirements:

The minor requires 18 credit hours of TCL course work, of which at least 12 credit hours must be completed at the upper-division level. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses used toward the minor.

Core Requirements: (6)

TCL 201 Transborder Society and Culture I: Interdisciplinary Approaches, HU, C (3) or TCL 202 Transborder Society and Culture II: Contemporary Issues, SB, C (3) AND TCL 331 Mexican American History to 1900, SB, H, C (3) or TCL 332 Mexican American History Since 1900, SB, H, C (3)

The remaining 12 elective hours are taken from TCL courses, and must include at least nine hours of upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students who wish to pursue a minor in transborder Chicana/o and Latina/o studies may do so with the School of Transborder Studies. An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Urban Planning Minor (ARPUPMIN)

Campus: Tempe

Description:

The planning minor introduces students to the field of urban, regional and environmental planning. Students can select courses that include:

- comprehensive planning
- planning law
- public policy formulation
- site planning
- socioeconomic and environmental analyses
- sustainable planning
- urban design

Many students continue to specialize in planning at the graduate level. Students in the urban planning minor are exposed to the theories, methods and practices of the profession.

Program Requirements:

A minimum of 18 credit hours are required for the minor, at least 12 of which must be upper-division.

Required Course:

PUP 301 Introduction to Urban Planning, L (3)

The remaining 15 credit hours (at least nine of which must be upper-division) must be chosen from among the following courses:

PUP 190 Sustainable Cities, HU or SB, G (3)

PUP 200 Cities in Cinema, HU, H, G (3)

PUP 363 History of Planning (3)

PUP 410 Public Participation in Planning (3)

PUP 412 History of the City, L or HU, H (3)

PUP 420 Theory of Urban Design, HU (3)

PUP 425 Urban Housing Issues (3)

PUP 430 Transportation Planning and the Environment (3)

PUP 432 Planning and Development Control Law (3)

PUP 433 Zoning Ordinances, Subdivision Regulations and Building Codes (3)

PUP 436 City Structure and Planning (3)

PUP 442 Environmental Planning (3)

PUP 444 Preservation Planning (3)

PUP 445 Women and Environments, C (3)

PUP 452 Ethics and Theory in Planning, L (3)

PUP 465 Sustainable Urbanism (3)

PUP 484 Internship (1-12)

PUP 485 International Field Studies, G (1-12)

PUP 494 Special Topics (1-4)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in urban planning is open to all students at ASU, except for those majoring in urban planning. Urban planning courses may be used for the minor or the major, but not for both.

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Urban and Metropolitan Studies Minor (PPURBMIN)

Campus: Downtown Phoenix

Description:

The minor in urban and metropolitan studies offers students interested in the urban environment the opportunity to explore the wide variety of issues that influence the quality of life in urban communities. Students are encouraged to learn about cities as historical, social, cultural, economic and political phenomena in order to gain a strong understanding of the complex relationships that contribute to the problems and opportunities of urban living. As the population in the state's urban areas continues to grow, so will the demand for leaders who are skilled in new and innovative ways with which to address the challenges such growth generates. The program allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences. Students from various disciplines such as planning, business, political science, nonprofit management and leadership, communication, social work, geography and many others might find this program a beneficial supplement to their existing program.

Program Requirements: • 12 hours of residence credit at ASU

- 15 hours of course work with a "C" (2.00 on a scale of 4.00) or better in each course
- nine hours of upper-division course work from the approved list

Eligibility to pursue the minor requires a major other than urban and metropolitan studies.

Required Courses:

URB 300 Urban and Metropolitan Studies (3)

URB 305 Urban Governance (3)

Core Courses (choose two of the following):

PAF 302 Public Service Research Methods (3)

PAF 410 Building Leadership Skills, SB (3)

URB 220 Introduction to Urban America (3)

URB 240 Urban Policy, C (3)

URB 302 Urban Theory (3)

Urban Electives (select a combination of courses from the following prefixes): URB, PAF, POS, PUP, GPH, GCU, MGT, HST, SBS, SOS, ASB, SOC, WST, TWC, COM, CRJ, SWU, NLM, TDM, PRM

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

Students wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. Students should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Wellness Foundations Minor (ECXWMIN)

Campus: Downtown Phoenix

Description:

The exercise and wellness program offers this minor to any ASU student interested in learning about health and wellness. Students will develop a greater understanding of the behavioral, psychological, social, cultural and environmental factors that impact personal wellness behaviors, healthy lifestyle choices and the onset of hypokinetic disease to assist them in enhancing their own wellness. This course of study does not prepare students to pursue national certifications for professional practice in fields of study related to health, fitness or wellness.

Program Requirements:

The minor in wellness foundations consists of 18 credit hours. The minor requires that students complete the following courses with a grade of "C" (2.00 on a scale of 4.00) or higher:

EXW 100 Introduction to Health and Wellness, SB (3)
EXW 325 Fitness for Life (3)
EXW 380 Body Image and Wellness (3)
HSC 210 Cultural Aspects of Health, C (3)
HSC 300 Complementary Healthcare (3)

One elective (3)

EXW Elective: (3 credit hours)

Three credit hours must be selected from the following approved list of electives:

EXW 344 Physical Activity in Health and Disease (3)
EXW 350 Substance Abuse and Addictive Behavior (3)
EXW 400 Stress Management for Wellness (3)
NTR 100 Introductory Nutrition (3) OR NTR 241 Human Nutrition (3)
NTR 345 Development of Healthy Cuisines (3)
NTR 348 Cultural Aspects of Food, SB, C, G (3)
NTR 353 Perspectives on the Western Diet: Food, History and Sustainability (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Women and Gender Studies Minor (ASWSTMIN)

Campus: West

Description:

The minor in women and gender studies, offered by the School of Humanities, Arts and Cultural Studies, is an interdisciplinary program emphasizing intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts.

Program Requirements:

The women and gender studies minor consists of 18 credit hours of course work, of which 12 credit hours must be upper-division (300 or 400 level).

Core Requirements: (6 credit hours)

HRC 200 Introduction to Social and Cultural Analysis (3)
WST 100 Women, Gender, and Society, SB, C (3)

Electives:

upper-division WST elective course work (12 credit hours)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

The minor in women and gender studies is open to all ASU undergraduate majors. Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college, school, or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and the college, school, or department of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure an appropriate set of courses is taken. The student should also consult an academic advisor in the major to make sure the minor is recognized and to have the minor added to the student's program of study.

Note: Certain major and minor combinations may be deemed inappropriate either by the college, school, or department of the major or minor. Please contact an academic advisor for more information. The Academic Affairs Manual (ACD 305-12) regulates undergraduate academic minors and expressly forbids double counting of courses between majors and minors.

Women and Gender Studies Minor (LAWSTMIN)

Campus: Tempe, Online

Description:

The minor in women and gender studies provides students with an intensive, transdisciplinary liberal arts education that enables them to write well, think critically and analyze problems effectively. Students can take a variety of courses, including an option for a capstone seminar requiring original research and writing or an internship that can then prepare students for life after college. Original undergraduate research is encouraged, and some course options may involve studying community problems and formulating policy solutions.

Program Requirements:

The women and gender studies minor consists of 18 credit hours, 12 of which must be upper-division. A minimum "C" grade (scale is 4.00 = "A") is required for all courses in the minor.

Students take one of the following courses: (3 credit hours)

WST 100 Women, Gender and Society, SB, C (3) or WST 300 Women and Gender in Contemporary Society, SB, C (3)

Students choose one from the following courses: (3 credit hours)

WST 377 History of American Feminist Thought, H, C (3)

WST 378 Global Feminist Theory, L, G (3)

WST 380 Race, Gender and Class, SB, C (3)

Twelve additional credit hours of women and gender studies electives must be taken and can be selected from any WST prefix course.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and in certain colleges, the department) of the student's major allows the official recognition of the minor.

A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Youth Services Leadership Minor (HSYSLMIN)

Campus: Downtown Phoenix

Description:

The minor in youth services leadership is designed to explore the area of youth leadership from the perspective of those who work face-to-face with youth in a variety of settings. The minor allows students enrolled in a variety of undergraduate programs at ASU to broaden their knowledge of youth services. Students from programs such as education, nursing, social work, criminal justice and others may find this program a beneficial supplement to their existing program.

Program Requirements:

The minor requires 15 credit hours, three credit hours of required courses and 12 credit hours of elective courses.

Required Core Course:

PRM 303 Program Planning (3)

Elective Courses: (choose four from the following list)

CRJ 204 Juvenile Justice (3)

CRJ 462 Gangs (3)

NLM 220 Introduction to Nonprofit Organizations (3)

NLM 310 Volunteer Management (3)

PRM 302 Inclusive Community Development, C (3)

PRM 364 Foundations of Recreation Therapy, SB (3)

PRM 394/494 Special Topics (3)

PRM 451/NLM 451 Grant Writing (3)

PRM 486 Special Events Management (3)

Standards:

- 15 hours of graded classroom course work (no internship, no independent study)
- minimum "C" (2.00 on a 4.00 scale) grade required for all classes in the minor
- minimum GPA of 2.00 for those pursuing the minor, a major or premajor, other than tourism development and management
- should be a junior to take 400-level courses
- no double counting of courses for a major and the minor

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Students in most majors may pursue at least one minor and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college (and in certain colleges, the department) of the student's major allows the

official recognition of the minor.

Students wishing to pursue the youth services leadership minor should consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Note: Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a university minor may not count toward both the major degree and the minor.

Undergraduate Programs

Undergraduate Certificates (Program Descriptions and Requirements)

Actuarial Science Certificate (LAACTCERT)

Campus: Tempe

Description:

Actuarial science is an area of mathematical and statistical science that requires expertise in specializations of probability and interest theory, coupled with a strong foundation in accounting, finance and economics. This certificate provides students with preparation for professional actuarial credentialing exams offered by the Society of Actuaries and the Casualty Actuarial Society.

Program Requirements:

Students must complete a minimum of 15 credit hours from the ACT courses listed below. In order to enroll in ACT courses, a minimum grade of "B" (3.00 on a 4.00 scale) is required for all prerequisite math, statistics and computer programming or applications course work.

ACT 310 Mathematics of Finance (4)*
ACT 415 Probability for Risk Management (3)*
ACT 430 Mathematics of Financial Derivatives (3)
ACT 435 Actuarial Business Forecasting (3)*
ACT 440 Life Contingencies I (3)*
ACT 441 Life Contingencies II (3)
ACT 450 Actuarial Models and Modeling I (3)*
ACT 451 Actuarial Models and Modeling II (3)

* Course requires additional prerequisites. To determine prerequisites for a course, please consult the class search.

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this certificate.

Enrollment Requirements:

Although no specific degree is required for admission to the actuarial science certificate, a strong mathematical background is essential (found in majors such as mathematics, statistics, engineering and natural sciences). Students with a major or degree other than those listed will require additional preparation beyond the certificate. Students are required to have a minimum 3.00 cumulative GPA (scale is 4.00 = "A") and grades of "B" or better in courses of multivariate calculus, linear algebra and introductory statistics at ASU or an equivalent institution.

Students admitted to study at Arizona State University are eligible to pursue the requirements of a certificate. In order to be admitted to the university, students must complete the university's online application. Please contact the unit for additional information.

African and African American Studies Certificate (LAAFRCERT)

Campus: Tempe

Description:

The certificate program in African and African American Studies examines the culture, arts, history, politics, economics and current status of African Americans, Africans and the African diaspora, especially in the Caribbean, Central America and South America. The goal is to prepare students for lifelong learning, advanced study in a variety of fields, and successful careers and productive public service in an increasingly diverse society, especially in Arizona.

Program Requirements:

The certificate consists of 24 credit hours, at least 18 of which must be completed at the upper-division level. All courses used toward the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Core Course:

AFR 200 Introduction to Africana Studies, SB, G, H (3)

Elective Core Course:

AFR 300 Precolonial Africa, SB, G, H (3) or AFR 301 Race and Racism in Africa/African Diaspora, SB, G (3) or AFR 302 History of Black Women in America, SB, H (3) or AFR 305 The Global History of the Trans-Atlantic Slave Trade, SB, H (3)

Elective Courses:

The remaining 18 credit hours will be completed by selecting courses bearing the program prefix (AFR). No course may be used to satisfy more than one requirement for the undergraduate certificate.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students admitted to study at Arizona State University are eligible to pursue the requirements of a certificate. In order to be admitted to the university, complete the university's online admission application. Please contact the unit for additional information.

American Indian Nation Governance Certificate (LAAIGVCERT)

Campus: Tempe

Description:

The American Indian Nation governance certificate is designed to prepare students to develop greater understanding and applicable knowledge of government and governance in Native American communities. The curriculum covers several themes that range from the history, policies and sovereign status of American Indians to the legal relationships between the Native American nations and the U.S. federal government as well as state governments. Students will be better prepared to work with Indian nations, federal and state agencies, and nonprofits, regardless of their academic major or place of employment.

Program Requirements:

The requirements include course work in American Indian studies (AIS prefix courses) and political science (POS prefix courses), including an optional applied internship. Students majoring in any subject at the university may be awarded the certificate upon the completion of 15 credit hours (12 of which must be upper-division and nine of which must be taken from the College of Liberal Arts and Sciences). As noted below, six American Indian studies credits are required and six political science credits are required. The student must select an additional three credits from the approved list of AIS and POS courses.

AIS core courses: (choose two of the following)

AIS 180 Introduction to American Indian Studies, C (3)

AIS 380 Contemporary Issues of American Indian Nations, C (3)

AIS 470 Tribal Governance (3)

POS core courses: (choose two of the following)

POS 110 Government and Politics or POS 310 American National Government, SB (3)

POS 325 Public Policy Development, SB (3)

POS 346 Problems of Democracy, HU (3)

POS 368 Ethics and Human Rights (3)

POS 370 Law and Society, SB (3)

POS 439 Minority Group Politics in America, SB, C (3)

AIS or POS policy and applied courses: (choose one of the following)

AIS 280 American Indian Sovereignty and the Courts, H, C (3)

AIS 285 Federal Indian Policy, H, C (3)

AIS 394 Topic: Reservation Economic Development (3)

AIS 455 Human Rights and Cultural Resource Laws (3)

AIS 484/POS 484 Internship (3)

AIS 498 Pro-Seminar, L (3)

Students earning the certificate must have a minimum GPA of 2.00; only courses in which students have a grade of "C" (2.00 on a scale of 4.00) or better count toward the certificate.

Depending upon a student's undergraduate program of study, prerequisites courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

In order to be admitted to the university, complete the university's online application. Please contact the unit for additional information.

Applied Business Data Analytics Certificate (BABDACERT)

Campus: Tempe, Online

Description:

The certificate in applied business data analytics is for students who are interested in practical uses for computer-based tool suites that are capable of managing vast amounts of data; providing sophisticated but easy-to-use means to manage and analyze that data; and to leverage those tools for making good decisions about projects, process designs and fundamental decision-making tasks. Exposure to predictive analytics and modeling, big-data techniques, and visualization provides significant insight into the advanced uses of the computer-based tools. Critical-thinking is an important skill and mindset that is required to establish and evaluate evidence-based benchmarks for making good decisions leading to high-quality outcomes.

Program Requirements:

The certificate in applied business data analytics requires 18 credit hours to complete and is available to all majors. At least 12 credit hours must be upper division.

Required courses include:

CIS 105 Computer Applications and Information Technology, CS (3)

CIS 308 Advanced Excel in Business (3)

CIS 309 Business Process Management (3)

CIS 311 Business Project Management (3)

CIS 405 Business Intelligence (3)

any statistics course (3)

To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or higher.

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this certificate.

Enrollment Requirements:

The applied business and data analytics certificate is open to all ASU students. The certificate application is accessed and submitted through Advising SOS: <https://wpcarey.asu.edu/SOS> (<https://wpcarey.asu.edu/SOS>). Please visit the following website for more information: <https://my.wpcarey.asu.edu/undergrad/academics/Applied-Business-Data-Ana...> (<https://my.wpcarey.asu.edu/undergrad/academics/Applied-Business-Data-Analytics-Certificate.cfm>).

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. Arabic Studies Certificate (LAARBCERT)

Campus: Tempe

Description:

The certificate program in Arabic studies provides students with skills that will enable and qualify them to communicate effectively in Arabic in the four areas of language acquisition:

- listening
- reading
- speaking
- writing

Simultaneously, students gain a broad knowledge and understanding of the culture, literature and traditions of the vast Arabic-speaking world.

The program provides critically needed educational and cultural diversity that will enrich students' undergraduate experience and prepare them for life as employees and employers.

Graduate students in the liberal arts, social sciences and humanities seeking academic or professional careers in any of the three disciplines or thematic concentrations will also benefit from this certificate because of the added advantage the program gives them in the job market, given the demonstrably high need for graduates with knowledge of the Arabic language.

Program Requirements:

The Arabic studies certificate requires students to demonstrate proficiency in Arabic language at the intermediate level (ARB 202) or above and 18 hours of upper-division course work from the courses listed below. A grade of "C" (2.00 on a 4.00 scale) or better is required in each course.

Core courses: (9 credit hours)

ARB 311 Advanced Arabic Skills I (3) or ARB 411 Advanced Arabic Skills II (3)
ARB 321 Arabic Conversation I (3) or ARB 421 Arabic Conversation II (3)
ARB 331 Arabic/Islamic Culture and Literature (3)
ARB 335 Arabic Culture and Islam, G (3)
ARB 341 Quran Text and Women (3)
ARB 351 Classical Arabic Literature (3)

Elective courses: (9 credit hours)

ARB 336 Introduction to the Qur'an (3)
ARB 337 Hadith and Prophetic Tradition (3)
ARB 352 Modern Arabic Literature in Transition (3)
GCU 328 Geography of Middle East and North Africa, SB, G (3)
HST 307 Studies in African History, H (3)
REL 365 Islamic Civilization, HU, H, (3)
REL 366 Islam in the Modern World, HU, G (3)
REL 369 Women in Islam (3)
REL 460 Studies in Islamic Religion, HU, G (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students must first be accepted into an appropriate degree program at ASU and will then apply directly to the director of the Arabic studies certificate in the School of International Letters and Cultures for admission into the certificate program.

The application will consist of:

name
address
phone number
email address
student ID number
major
year in college
anticipated graduation date
name of their advisor for the student's academic major

Please contact an academic advisor in the School of International Letters and Cultures for more information.

Arts Entrepreneurship Certificate (HITHAECERT)

Campus: Tempe

Description:

Arts entrepreneurship is an emerging transdisciplinary field that harnesses the skills and mindset of the entrepreneur to empower artists to create work that is meaningful, sustainable and oriented to community and market need. Students across art, dance, design, film, music and theatre disciplines will benefit from the business, marketing and organizational skills offered by certificate courses as applied specifically to and within the arts.

Program Requirements:

The undergraduate certificate in arts entrepreneurship consists of 15 credits including nine credit hours of required courses. Of the remaining credits, three credits must be taken from each category of electives shown below: arts business; and arts policy, community, or socially engaged arts. A grade of "C" or better is required in all courses.

Required Courses:

HDA 252 Foundations of Arts Entrepreneurship (3)
HDA 420 Design and the Arts Business Administration (3)
THP 452 Arts Entrepreneurship Seminar (3)*

*This is a culminating experience to the certificate program.

Electives:**Arts Business***

ARA 396 Professional Practices for Design and the Arts (3)
ARA 460 Gallery Exhibitions (3)
DSC 394 Design Entrepreneurship and Society (3)
FMP 417 Business Ethics in Entertainment (3)
FMP 494 Business of Media Industries (3)
MUE 494 Collaborative Entrepreneurship in the Arts (3)
MUP 494 The Enterprising Musician (3)
THP 351 Arts Management (3)
THP 450 Theatre Organization and Management (3)

Arts Policy, Community or Socially Engaged Arts

ARS 494 Arts and Public Policy (3)

ARS 498 Art and Politics, L (3)

ARS 441 Public Art (3)

HDA 310 Socially Engaged Practice (3)

MHL 494 Music and Movement in Urban Culture (3)

MUP 494 Music Product Creation and Development (3)

THP 482 Theatre for Social Change, C (3)

*Other course options may be approved by the certificate program coordinator.

Plan of study:

The plan includes a significant final project in the eighth semester seminar that serves as a capstone for the certificate:

Semester 4: HDA 252 Foundations of Arts Entrepreneurship (3), followed by application to the certificate program

Semester 5: Arts Business course from the list above (3)

Semester 6: HDA 420 Design and the Arts Business Administration (3)

Semester 7: Arts Policy, Community or Socially Engaged Arts course from list above (3)

Semester 8: THP 452 Arts Entrepreneurship Seminar (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The certificate in arts entrepreneurship, meant to extend the study of an individual arts discipline, will be available only to current students with a major within the Herberger Institute for Design and the Arts. Students will be admitted to the certificate program upon completion of HDA 252 Foundations of Arts Entrepreneurship (3) with a grade of "B" or better and an overall GPA of 3.00 or higher. Students will submit an application to the Herberger Institute Office of Student Success. Herberger Institute students meeting the course and GPA requirements may enroll in the certificate, and a Herberger Institute advisor will add the certificate plan code to the student's record.

Arts in Education Certificate (HIAEDCERT)

Campus: Tempe

Description:

The certificate in arts in education is specifically designed for prospective preK-8 educators who wish to enhance their teaching practices by developing the necessary skills to use the arts throughout the curriculum. By weaving the principles and practices of the arts and other disciplinary curricula together, teachers can create rich and engaging environments that enhance student learning by capitalizing on the critical thinking, communication, collaboration and creativity inherent in the arts and arts experiences.

Program Requirements:

The certificate in arts in education requires 18 credit hours (12 upper-division). All upper-division courses must be completed with a minimum grade of "C" (2.00).

Arts Education Lower-Division Core: (choose two courses from this list)

ARA 195 Art in My World, HU (3)

ARA 218 Art and Visual Learning, HU (3)

ART 110 Drawing as Seeing and Thinking, HU (3)

FMP 222 Education in Film, L (3)

MUS 210 The Arts Around Us, HU (3)

MUS 211 Dance, Music and Meaning, HU (3)

MUS 212 Music, Meaning and Imagination, HU (3)

MUS 213 Critical Thinking in the Arts, HU (3)
MUS 214 Art, Music and Learning, HU (3)
THP 212 Puppetry with Children (3)

Arts Education Upper-Division Core: (choose three courses from this list)

ARA 311 Art Appreciation and Human Development, HU (3)
ARE 301 Studio Art and Human Development (3)
DCE 350 Dance in the Classroom: Learning through Movement, HU (3)
MUE 310 Music in Early Childhood, HU (3)
MUE 311 Music in the Lives of Children and Youth, HU (3)
THP 311 Creative Drama with Youth, L (3)

Arts Elective Course List: (choose three credit hours from this list)*

ARS 300 Introduction to Art, HU (may receive credit for ARS 100 or 300) (3)
DCE 300 Moving Histories, HU (3)
DCE 301 Meaning in Motion, L or HU (3)
DCE 303 The Body Condition(ed), SB (3)
DCE 402 Ethnography of Dance Practices, L (3)
DCE 404 Dance and Ethics (3)
DCE 405 Rhetorical Moves, L or HU (3)
MUP 442 Instrumental Ensembles (1-2)
MUP 443 Choral Ensembles (1-2)
MUP 450 Choral Union (1-2)
MUP 455 Men's Chorus (1-2)
MUP 457 Women's Chorus (1-2)
MUP 459 Barrett Choir (1 -2)
MUP 489 Ethnomusicology Ensembles (1)
MUP 494 Topic: Concert Band (1-2)
MUS 340 Music for the Concert Hall, Stage and Screen, HU, H (3)
MUS 347 Jazz in America, HU, C (3)
MUS 354 Jazz Giants, HU (3)
MUS 355 American Music, HU, C, H (3)
MUS 356 Broadway and the American Musical, HU (3)
MUS 362 Rap Music and Hip Hop Culture, HU, C (3)
MUS 494 Topic: Urban Dance Music Ensemble (1)
THE 322 Theatre History and Culture, HU, H (3)
THP 411 Methods of Teaching Drama (3)
THP 482 Theatre for Social Change, C (3)

*Some courses are fewer than three hours and may be repeated for credit.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student may pursue this certificate. Please see an advisor in the department for details.

Asian Pacific American Studies Certificate (LAAPACERT)

Campus: Tempe

Description:

Asian Pacific American studies addresses the historical and contemporary experiences of Asian Americans and Pacific Islanders, what they have contributed to our society, and the complexity of racial formations in the U.S. The certificate program encourages students to learn about local Asian American and Pacific Islander communities and organizations through research, courses and community internships.

Program Requirements:

The certificate consists of 18 credit hours, of which at least 12 must be completed at the upper-division level. Nine hours will be a prescribed core and the remaining nine elective hours will be selected from any of the courses with an APA prefix. Examples of elective course options with the APA prefix include those shown in the list of elective courses below.

Required Core Courses: (9 credit hours)

APA 200 Introduction to Asian Pacific American Studies, HU or SB, C (3)

APA 360 Asian Pacific American Experience, HU or SB, C (3)

APA 484 Internship (3)

Elective Courses: (9 credit hours)

APA 210 Introduction to Ethnic Studies in the U.S., C (3)

APA 310 Asian Pacific American Arts and Cultures, HU, C (3)

APA 315 Asian Pacific American Literature, HU, C (3)

APA 330 Asian Pacific American Genders and Sexualities, SB, C (3)

APA 340 Asian Pacific Americans and Media, HU, C (3)

APA 345 Asian Pacific Americans and Film, HU, C, H (3)

APA 360 Asian Pacific American Experience, HU or SB, C (3)*

APA 394 Special Topics (3)**

APA 450 Asian Pacific American Contemporary Issues, SB, C (3)

APA 484 Internship (3)

APA 494 Special Topics** (3)

APA 499 Individualized Instruction (1-3 credits; may be repeated for credit)

*Note: One APA 360 course is required for the core. The course may be repeated for credit with these different topics:

- Asian Pacific American psychology
- Chinese American
- Filipino American
- Japanese American
- Korean American
- Multiracial Experiences
- Pacific Islander
- South Asian
- Southeast Asian American

** APA 394 and 494 may be repeated for credit with different topics.

Other Requirements and Restrictions:

All courses for the certificate must have a "C" (2.00 on a 4.00 scale) grade or higher. A minimum of nine credit hours must be taken in residency at ASU.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students admitted to study at Arizona State University are eligible to pursue the requirements of a certificate. In order to be admitted to the university, complete the Admission Services online application. Please contact the unit for additional information.

Asian Studies Certificate (LAASNCERT)

Campus: Tempe

Description:

The Asian studies certificate supplements a bachelor's degree and demonstrates knowledge of an Asian language as well as general knowledge of Asian history, art, culture and society. The certificate provides students with official transcript recognition of specialization in Asian studies related to their major area of study.

Program Requirements:

The certificate requires 24 credit hours of course work, including:

- 15 credit hours of upper-division area studies course work chosen from at least four disciplines, e.g., language and cultures, history, religious studies, anthropology, geography, political science, global studies, art, and music, as well as others upon approval
- nine credit hours combining lower-and-upper division courses from various disciplines*

*HST/REL 111 Introduction to Asia, HU, H, G (3) is recommended but not required.

In addition, certificate students must demonstrate proficiency in an Asian language at the intermediate level. The language requirement can be satisfied by completing the 201 and 202 sequence, one year of study abroad at the intermediate level or satisfactory placement on a proficiency exam. Asian languages include:

- Chinese
- Hindi
- Indonesian
- Japanese
- Korean
- Thai
- Vietnamese

Students pursuing an Asian studies certificate may apply courses whose subject matter is East, South and Southeast Asia to meet the certificate requirements. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course that is used to fulfill the certificate requirements.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

There are no specific admission requirements other than a student's desire to learn about Asia. For U.S. Department of Education Gainful Employment Program Disclosure information, see: <https://catalog.asu.edu/files/disclosures/LAASNCERT/Gedt.html> (<https://catalog.asu.edu/files/disclosures/LAASNCERT/Gedt.html>).

Brazilian Studies Certificate (LABZSCERT)

Campus: Tempe

Description:

The certificate in Brazilian studies will allow students to present a plan of studies in line with current sociocultural circumstances and compete more successfully in the job market. The Brazilian studies program consists of 18 credit hours covering five essential components:

- proficiency in the Portuguese language at the intermediate level (POR 313 and POR 314)
- advanced skills development in third- and fourth-year language courses
- grounding in major texts of Brazilian literature
- examination of major themes in Brazilian popular and urban culture, with particular emphasis on Afro Brazilian society
- complementary courses in specific issues in Brazilian culture as offered by collateral department

Program Requirements:

The certificate in Brazilian studies requires 18 credit hours. A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work. At least 12 of the 18 required credit hours must be upper-division course work.

Required Courses:

Language (6 credit hours)

POR 313 Portuguese Composition and Conversation, G (3)

POR 314 Portuguese Composition and Conversation, G (3)

Four Content Courses: (12 credit hours; select from the following courses)*

GCU 323 Geography of Latin America, SB, G (3)

GCU/PUP 485 International Field Studies, G (1-12)

POR 321 Luso-Brazilian Literature, HU (3)

POR 394 Topic: Brazilian Culture (3)

POR 472 Luso-Brazilian Civilization, HU, G (3)

POR 492 Honors Directed Study (1-6)

POR 494 Topic: Afro-Brazilian Ritual and Performance (3)

POR 494 Topic: Brazilian Filmmaking (3)

POR 494 Topic: Brazilian Popular Culture (3)

POR 494 Topic: Brazilian Urban Narrative(3)

POR 494 Topic: Cinema Brasileiro (3)

POR 494 Topic: Sao Paulo (3)

POR 499 Individualized Instruction (1-3)

REL 332 South American Indian Religions, HU, G (3)

*Other content courses may be used with approval from an advisor in the School of International Letters and Cultures.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

ASU students admitted to a degree program in any field of study would be eligible for the Brazilian studies certificate program.

Once enrolled in the certificate, students must demonstrate proficiency in the Portuguese language at the intermediate level. In addition, the student must take POR 313 and POR 314 Portuguese Composition and Conversation as well as other courses in Portuguese language or Brazilian culture, for a total of 18 credit hours.

Child Life Certificate (LACHLFCERT)

Campus: Downtown Phoenix, Tempe

Description:

Child life specialists are experts in child development who promote effective coping skills among children facing challenges related to health care and hospitalization. This transdisciplinary program offered through the School of Community Resources and Development and the T. Denny Sanford School of Social and Family Dynamics is designed to assist students to prepare for the national qualifying child life exam.

A portion of the national certification exam eligibility requirements, as outlined by the Child Life Council, are met by obtaining this certificate.

Program Requirements:

The certificate requires 21 credit hours. Courses taken as part of a university major may count toward both the degree and the certificate.

Required Courses:

CDE 337 Early Childhood Intervention (3)

CDE 450 Child Dysfunction in the Family (3)
PRM 364 Foundations of Recreation Therapy, SB (3)
PRM 384 Child Life Practicum (3)
PRM 406 Program Design and Administration in Recreation Therapy (3)
PRM 455 Play in Child Life (3)
PRM 460 Assessment and Documentation in Recreation Therapy (3)

Standards:

- A minimum of "B" (3.00 on a 4.00 scale) is required for all classes in the certificate.
- A minimum cumulative GPA of 3.00 (on a 4.00 scale) is required for those pursuing the certificate.
- The program consists of 18 hours of graded classroom course work (no internship, no independent study) plus a three credit hour practicum.
- Students must be juniors to take 400-level courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

An application to the program is required. Admission to the Child Life Certificate program is very competitive.

A minimum cumulative GPA of 3.00 (scale is 4.00 = "A") is required to apply for the certificate.

Students wishing to pursue the child life certificate must complete two prerequisites before applying for the program:

- CDE 232 Human Development, SB (3) with a grade of "B" (3.00 on a 4.00 scale) or higher
- CDE 338 Child Development Practicum (or comparable experience working with children, as determined by the director of the child life certificate)

For additional information and application, students should consult with an academic advisor in either the School of Community Resources and Development or the Sanford School.

Child Nutrition Certificate (ECNTRCERC)

Campus: Downtown Phoenix

Description:

This certificate program is directed toward current degree-seeking students, postbaccalaureate students and nondegree-seeking students who are interested in eligibility for the school nutrition specialist credential offered by the School Nutrition Association. More information for this credential is available at: <https://schoolnutrition.org/SNS/> (<https://schoolnutrition.org/SNS/>).

Program Requirements:

The certificate requires that students take the following courses, for a total of 31 credit hours:

ACC 382 Accounting and Financial Analysis (3)
EXW 100 Introduction to Health and Wellness, SB (3) or EXW 325 Fitness for Life (3)
NTR 142 Applied Food Principles (3)
NTR 343 Food Service Purchasing (3)
NTR 344 Nutrition Management and Leadership, L (3)
NTR 345 Development of Healthy Cuisines (3) or NTR 341 Medical Nutrition Therapy I (3)
NTR 401 Field Experience in Food and Nutrition (3)
NTR 445 Management of Food Service Systems (3)
NTR 448 Community Nutrition, L (3)
NTR 450 Nutrition in the Life Cycle, SB (3)
NTR 498 Topic: Child Nutrition Seminar, L (1)

A "C" (2.00 on a 4.00 scale) or better is required in all course work.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

To enroll in the certificate program, the applicant must be admitted to ASU as a degree-seeking or nondegree-seeking student in the nutrition program. The curriculum committee of the nutrition program will approve applications to the certificate program.

Civic Education Certificate (LACVECERT)

Campus: Tempe

Description:

The civic education certificate is designed to contribute to the preparation of undergraduate students for:

- careers in primary and secondary education (where the teaching of government and civics may be involved)
- careers or voluntary participation in politics, public service, civic and social movements
- further education in law, journalism, business, history, sociology, political science and other fields where an understanding of questions of citizenship, leadership, community, democracy, public responsibility and ethics is crucial

Program Requirements:

The certificate does not substitute for degree requirements in any subject, including political science; rather, it is a complement to the student's chosen major. The certificate program is intended to guide students to a variety of courses in which successful completion indicates their special accomplishment in the area of civic education. Students majoring in any subject at the university may be awarded the civic education certificate upon completion of the following 15 credit hours of political science courses:

Required core courses: (9)

POS 210 Political Ideologies, SB (3)
POS 346 Problems of Democracy, HU (3)
POS 442 American Political Thought, HU (3)

Choose one from the courses below:

POS 340 History of Political Philosophy I, HU, H (3)
POS 341 History of Political Philosophy II, HU, H (3)
POS 443 Topics in Contemporary Political Theory, HU (3)

Choose one from the courses below:

POS 300 Contemporary Global Controversies, SB, G (3)
POS 313 The Congress, SB (3)
POS 314 The American Presidency, SB (3)
POS 315 The Supreme Court, SB (3)
POS 332 American Political Parties, SB (3)
POS 333 Interest Groups, SB (3)
POS 370 Law and Society, SB (3)
POS 417 Arizona Politics, SB (3)
POS 435 Women and Politics, SB, C (3)
POS 439 Minority Group Politics in America, SB, C (3)

Certificate students must have a minimum GPA of "C" (2.00 on a 4.00 scale); only courses in which students have a grade of "C" (2.00 on a 4.00 scale) or higher count toward the certificate. A minimum of six upper-division credit hours must be taken in courses offered by the College of Liberal Arts and Sciences.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Admission Services online application. Please contact the School of Politics and Global Studies for more information about completing the civic education certificate.

Civil Communication Certificate (LACCOMCERT)

Campus: Tempe

Description:

The Hugh Downs School of Human Communication has designed specific courses that offer students a certificate in civil communication. Students are provided specific training in dialogue-based methods of civility, application of critical civil communication skills in public spheres, and civil and productive modes of argumentation. This specialization provides students with the ability to recognize, competently practice and facilitate the ever-increasing demand for civil discourse in society and workplace organizations. The foundational courses provide the opportunity for transdisciplinary collaboration and community engagement.

Program Requirements:

The certificate requires 18 credit hours, nine of which are chosen from the list of elective courses:

Required courses: (9 credit hours)

COM 222 Argumentation, L (3)

COM 225 Public Speaking, L (3)

COM 327 Civil Communication (3)

Elective courses: (9 credit hours)

COM 312 Communication, Conflict and Negotiation (3)

COM 319 Persuasion and Social Influence, SB (3)

COM 321 Rhetorical Theory and Research, L or HU, H (3)

COM 325 Advanced Public Speaking, L (3)

COM 341 Social Contexts for Performance (3)

COM 421 Rhetoric of Social Issues, HU (3)

A "C" (2.00 on a 4.00 scale) or better is required for all upper-division course work.

Nine of the 18 credit hours must be ASU resident credit courses, including six upper-division credit hours offered by the College of Liberal Arts and Sciences.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificates.

Enrollment Requirements:

Students admitted to study at Arizona State University are eligible to pursue the requirements of a certificate. In order to be admitted to the university, complete the Admission Services online application. Please contact the Hugh Downs School of Human Communication for additional information.

STAUF 412A

Classical Studies Certificate (LACLG CERT)

Campus: Tempe

Description:

The classical studies program offers students a wide variety of opportunities to study the language, literature and culture of the ancient Greeks and Romans. The School of International Letters and Cultures offers a certificate in classical studies for those students interested in pursuing a classical education in conjunction with another major or as part of their general studies.

Program Requirements:

The certificate in classical studies requires a minimum of 29 credit hours. In addition to the course work and examinations required in the student's major, the student is responsible for fulfilling the following minimum requirements:

Five semesters of language courses in either Ancient Greek or Latin (17 to 19 credit hours). Students must meet with an academic advisor in the School of International Letters and Cultures to develop a suitable plan of study in language.

Four courses (12 credit hours) related to classical studies. At least two courses (six credit hours) must be taken at the 400 level.

ARS 402 Art of Ancient Egypt, HU, H (3)
ARS 404 Greek Art, HU, H (3)
ARS 406 Roman Art, HU, H (3)
ENG 303 Classical Backgrounds of English Literature, HU (3)
ENG 422 Special Topics in Shakespeare, HU (3)
GRK 301 Ancient Greek Literature I, HU (3)*
GRK 302 Ancient Greek Literature II, HU (3)*
HST 347 Ancient Greece I: Bronze Age through the Peloponnesian War (3)
HST 348 Rome, SB, H (3)
HST 349 Early Middle Ages, HU or SB, H (3)
HST 350 Later Middle Ages, HU or SB, H (3)
HST 362 Sex and Society in Classical and Medieval Europe, SB, H (3)
LAT 421 Roman Literature, HU (3)**
LAT 422 Roman Literature, HU (3)**
PHI 328 History of Ancient Philosophy, HU, H (3)
POS 340 History of Political Philosophy I, HU, H (3)

*GRK 301 and GRK 302 may be used to satisfy the language requirement and also may be repeated for credit.

** LAT 421 or LAT 422 may be used to satisfy the language requirement and also may be repeated for credit

Other courses may be used with the approval of an academic advisor in the School of International Letters and Cultures.

A minimum grade of "C" (2.00 on a 4.00 scale) is required in each course leading to the certificate. A minimum of 12 credit hours must be upper-division. A minimum of six credit hours must be taken at ASU.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students interested in the classical studies certificate program must contact the coordinator of the certificate before being accepted into the program. Please contact an academic advisor at the School of International Letters and Cultures for more information.

Communication Sciences and Disorders Certificate (NHCSDCERT)

Campus: Tempe

Description:

The postbaccalaureate certificate in communication sciences and disorders is designed for students who have already received a bachelor's degree in another discipline but have decided to pursue a master's degree in speech-language pathology or communication disorders. This course work will provide students with the prerequisite background and knowledge necessary to perform at the master's level in the field. Completion of the postbaccalaureate certificate will allow students to meet the American Speech Language and Hearing Association requirements to enter master's degree programs in speech-language pathology or communication disorders.

Program Requirements:

There are 27 required credit hours in the certificate in communication sciences and disorders. A "C" minimum is required for all courses in the certificate, although students must maintain a 3.00 GPA in the certificate program.

SHS 250 Introduction to Phonetics (3)

SHS 310 Anatomical and Physiological Bases of Speech (3)

SHS 311 Hearing Science (3)

SHS 367 Language Science (3)

SHS 375 Speech Science (3)

SHS 401 Introduction to Audiology (3)

SHS 402 Clinical Methods and Treatment of Communication Disorders (3)

SHS 465 Speech and Language Acquisition (3)

SHS 496 Aural Rehabilitation (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Prospective students must have earned a bachelor's degree in a field outside of speech and hearing science with a minimum GPA of 3.00.

Students interested in this certificate should apply for university admission as nondegree-seeking graduate students and see an advisor in Speech and Hearing Science to add this certificate. Please see <https://students.asu.edu/graduate/nondegree> (<https://students.asu.edu/graduate/nondegree>) for more information.

Computer Gaming Certificate (ESSCICERT)

Campus: Tempe

Description:

The computer gaming certificate program is designed to provide a game development skill set that the student can apply to domain-specific

applications in the student's major. The skill set includes:

- architecture of game engines
- art design and computer graphics for gaming
- game software development

In this certificate program, students will learn to apply gaming technology to the rapidly growing video game industry and to business, medicine, geography, biotechnology and education. Examples of projects include:

- building a game that teaches linear algebra by incorporating trigonometric rules into the game design
- creating a game that teaches correct sentence construction to beginning learners of English
- creating a game to help patients with physical therapy
- creating an interactive virtual world for corporate training
- designing a game platform incorporating geographic information systems
- inventing a surgical simulation to educate medical students

Program Requirements:

Students will complete nine credit hours of core courses, including a final capstone project and nine credit hours of elective courses. The certificate requires 12 credit hours of upper-division course work. Students need to allow at least two years to complete the certificate program due to the prerequisite structure.

Core Courses:

CPI 111 Game Development I, CS (3)

CPI 211 Game Development II (3)

CPI 441 Gaming Capstone (3) Spring Only

Elective Courses: (select three listed through the CIDSE website)

<http://cidse.engineering.asu.edu/forstudent/undergraduate/certificates/computer-gaming/>

(<http://cidse.engineering.asu.edu/forstudent/undergraduate/certificates/computer-gaming/>)

A "C" or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be required in order to complete the requirements of this certificate.

Enrollment Requirements:

The computer gaming certificate is open to any student admitted to an undergraduate degree program at ASU and in good academic standing. This certificate can also be used by BIS students as part of their degree program.

All students are eligible to take CPI courses. Students who want to declare the certificate need to complete the Undergraduate Certificate form on the registrar's website and submit it to the School of Computing, Informatics and Decision Systems Engineering Academic Advising Center located in BYENG, Room 225. BIS students need to contact their BIS advisor to add the computer gaming concentration to their degree program.

Convention Sales and Meeting Planning Certificate (PPTDMCERT)

Campus: Downtown Phoenix

Description:

The U.S. meetings, conventions and exhibitions industry generates more than \$120 billion a year, supporting nearly two million jobs. Students can explore this exciting growth industry with the convention sales and meeting planning certificate. The demand for professionals is strong, and we provide an excellent foundation for enhancing career opportunities nationally, regionally and locally. Phoenix is a major convention and meeting destination.

There is a need for qualified professionals to service conventions and meetings due, in large part, to the \$600 million investment in the Phoenix

Convention Center expansion; development of new hotels and other visitor-related products; and the steady influx of corporate headquarters relocating to the greater Phoenix area. The certificate, which has been endorsed by the Greater Phoenix Convention and Visitors Bureau and the Arizona Sunbelt Chapter of Meeting Professionals International, will enhance a graduate's career opportunities as a tourism professional.

Program Requirements:

The certificate requires 15 credit hours: four required core courses (12 credits) and one elective course (3 credits). Courses taken as part of a university major may count toward that degree and the certificate. Requirements can be met online. All core classes and some elective classes are taught online at least once a year. To earn the certificate, students must complete a minimum of 12 upper-division credit hours. An application to the program is required.

Required Core Courses:

TDM 205 Introduction to Travel and Tourism, G (3)
TDM 345 Meeting and Convention Planning (3)*
TDM 350 Tourism, Recreation and Sports Marketing (3)*
TDM 386 Convention Sales and Management (3)

Elective: (choose one)

PRM 486 Special Events Management (3)
TDM 225 Introduction to Resort and Hotel Management (3)
TDM 458 International Tourism, G (3)

*Prerequisite: TDM 205, grade of "C" (2.00) or better

Standards

- Fifteen credit hours of graded classroom course work are required (no internship, no independent study).
- A minimum "C" (2.00 on a 4.00 scale) grade is required for all classes in the certificate.
- A minimum GPA of 2.00 is required for those pursuing the certificate.
- A student should be a junior to take 400-level courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students wishing to pursue the convention sales and meeting planning certificate should consult an academic advisor in the School of Community Resources and Development. For additional information, please visit the school's website.

Creative City Certificate (PPURBCERC)

Campus: Downtown Phoenix

Description:

The creative city certificate prepares students to engage effectively in revitalizing cities and communities by tapping their inherent potential for cultural innovation, place-making, and social and economic entrepreneurship. Exploring best practices in a global context, students develop asset-based proposals for specific locales including implementation plans. The creative city certificate adds value to other majors as well as work and life experience for students aspiring to assume leadership roles in improving quality of life, specifically by enhancing quality of place.

Cities are centers of human creativity and cultural innovation. They both attract and breed these. Such creativity and innovation are apparent in the vitality of the arts as well as that of businesses (large and small), research (basic and applied) and the everyday life unique to any given locale. These are the ingredients that make our places sustainable, economically, socially and environmentally, by endowing a sense of place along with a sense of community.

This certificate also serves professionals in the community working in the areas of:

- community development
- land-use law
- parks and recreation
- philanthropy
- planning
- public art
- urban governance and others

Flexible class times and locations make the certificate a viable option for those unable to attend classes during the day.

Program Requirements:

The five-course sequence comprising the certificate will enable students to build upon their own strengths in order to help cities and communities creatively build upon their capacities. The creative city certificate consists of a maximum of 15 credit hours of course work. All courses must be taken at ASU.

Required courses and electives are shown below.

Required Core Courses:

- URB 405 Citizen Engagement and Community Building (3)
- URB 406 Public Administration and Community Development (3)

Elective Courses:

- GRA 401 Creative Environment (3)
- NLM 160 Voluntary Action and Community Leadership, SB (3)
- NLM 220 Introduction to Nonprofit Organizations (3)
- NLM 300 Fund Raising and Resource Development (3)
- NLM 402/TDM 402 Assessment and Evaluation of Community Services (3)
- PAF 420 Public Leadership (3)
- PRM 120 Leisure and the Quality of Life, SB (3)
- PRM 210/NLM 210/TDM 210 Community Services and Professions (3)
- PRM 301/NLM 301/TDM 301 Sustainable Communities (3)
- PRM 302/NLM 302/TDM 302 Inclusive Community Development, C (3) [CRD majors only]
- TDM 448 Heritage and Cultural Tourism (3)
- URB 220 Introduction to Urban America (3)

A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The creative city certificate is available to all admitted undergraduate students (regular or nondegree) at ASU. Nondegree students are required to apply to ASU (as a nondegree student) and once admitted, contact the School of Public Affairs to be admitted into the certificate program. Students may begin taking courses before they formally apply for the certificate; however, they should apply for admission as soon as possible.

602-496-0450

Criminal Investigations Certificate (PPCRICERT)

Campus: Downtown Phoenix, West

Description:

The certificate program in criminal investigations educates students about a variety of aspects of criminal investigations and criminalistics. It is

designed to provide students of the social sciences, natural sciences, humanities and public services with an understanding of the nature of criminal evidence; the language of forensic science; the scope, probative value and limitations of a variety of investigative specializations and their techniques; and an appreciation of how forensic investigative methods are used in the quest for justice. The certificate program allows students to satisfy at least two of their General Studies requirements (SQ & SB) in a thematic manner, but it is not designed to prepare students to work in a crime laboratory.

Program Requirements:

The following four core courses are required (12 credit hours):

CRJ 100 Introduction to Criminal Justice, SB (3)

CRJ 210 Introduction to Criminal Investigation (3)

CRJ 211 Documenting the Crime Scene (3)

CRJ 410 Procedural Criminal Law (3)

Choose at least three courses from the following (at least 9 credit hours must be upper-division):

CRJ 321 Imperatives of Proof (3)

CRJ 433 Death Investigations (3)

CRJ 434 Drugs of Abuse (3)

CRJ 435 Crime and Forensic Mental Health (3)

CRJ 450 Crime Analysis (3)

CRJ 484 Internship [only those relevant to investigations] (1-6)

CRJ 494 Special Topics [only in approved investigations-related topics] (3)

FOR 350 Computer Forensics (3)

FOR 394 Special Topics in Forensics (3)

FOR 410 Professional Practices in Forensic Science (3)

FOR 484 Internship (1-6)

- It is the student's responsibility to check the prerequisites required by courses in their discipline. Depending upon a student's program of study, prerequisite courses may be needed to complete the requirements of this certificate.
- Special Topics courses (FOR 394 and CRJ 494) will be designated and approved by departments and schools. Students will need to work with an advisor in order to select appropriate special topics courses that are approved for credit in the criminal investigations certificate program.
- At least 12 credit hours must be taken in-residence at ASU.
- A "C" (2.00 on a 4.00 scale) or better is required in all core and elective course work required for the certificate.
- Upper-division course work may not be used to satisfy the requirements of both a major and the certificate. Thus, if any elective courses in the certificate program are being used to satisfy the requirements of a major, different elective courses must be taken to satisfy the requirements of the certificate program. For example, students majoring in criminology and criminal justice may not use CRJ 433, CRJ 434, CRJ 435, CRJ 484 or CRJ 494 to satisfy the requirements of the major and the certificate in criminal investigations. Similarly, students majoring in forensic science may not use FOR 350, FOR 410 or FOR 484 to satisfy the requirements of the major and the certificate in criminal investigations.

Prerequisite Information

CRJ 100 Introduction to Criminal Justice, SB (3) is a prerequisite requirement to enroll in CRJ 210, CRJ 211, CRJ 433, CRJ 434, CRJ 435, CRJ 484 and CRJ 494.

ACO 100 All About Data: Design, Query, and Visualization, CS (3) is a prerequisite requirement to enroll in FOR 350 Computer Forensics.

Either FOR 286 Principles of Forensic Science (3) or the two semester sequence in FOR 105 and FOR 106 is a prerequisite requirement to enroll in FOR 410 Professional Practices in Forensic Science, L (3). ENG 102 or 105 or 108 are also prerequisites for FOR 410.

- CRJ 284 Professional Growth in Criminal Justice (3) is a prerequisite requirement to enroll in CRJ 484 Internship.
- The completion of at least 45 credit hours is a prerequisite requirement to enroll in FOR 484 Internship.

Enrollment Requirements:

Students must complete the following prerequisite courses with a grade of "C" or higher (scale is 4.00 = "A") in order to be admitted to the certificate program. These courses may be taken in-residence at ASU or may be transferred in from other institutions, including community colleges.

The following prerequisite courses are required for admission to the certificate program:

For students majoring in the social sciences, humanities or the arts:*

(a) FOR 105 Physical Evidence and the Crime Scene, SQ (4) and

FOR 106 Biology Behind the Crime Scene, SQ (4)

For students majoring in the natural sciences:*

(b) FOR 286 Principles of Forensic Science (4)

* Neither FOR 105 nor FOR 106 have any prerequisites. These courses are designed for students majoring in the social sciences, humanities or arts to meet the natural science requirement of ASU's General Studies program. Thus, students not majoring in the natural sciences who wish to declare the certificate program in criminal investigations must complete the two-course sequence in FOR 105 and FOR 106. In contrast, students majoring in the natural sciences (including forensic science) should not take FOR 105 and FOR 106; they need only complete FOR 286: Principles of Forensic Science, which has prerequisite requirements of BIO 181, BIO 182, CHM 113 and CHM 116.

Cryptology Certificate (LACRYCERT)

Campus: Tempe

Description:

The certificate program in cryptology is designed to provide a strong foundation in the mathematical topics that are most applicable to modern cryptosystems. It also provides specialized knowledge required to understand and work in the field of mathematical cryptology.

Program Requirements:

This certificate requires 18 credit hours.

Required courses: (12 credit hours)

MAT 440 Group Theory (3) or MAT 444 Intermediate Abstract Algebra (3)

MAT 445 Theory of Numbers (3)

MAT 447 Cryptography I (3)

MAT 448 Cryptography II (3)

Electives: (6 credit hours; select two courses)*

MAT 415 Introduction to Combinatorics (3)

MAT 416 Introduction to Graph Theory (3)

MAT 441 Ring Theory (3)

STP 421 Probability (3)

STP 427 Mathematical Statistics (3)

*may substitute MAT 484 Internship (3) (approved cryptology-related internship experience) for one elective

A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

This program has additional admission requirements; please see a college advisor for details. Applicants should be in good academic standing with "B" (3.00 on a 4.00 scale) or better in MAT 300 Mathematical Structures (3) or equivalent.

Digital Culture Certificate (HIDGCCERT)

Campus: Tempe

Description:

The digital culture certificate program in the Herberger Institute for Design and the Arts focuses on the creative exploration of how new media is influencing our culture, or rather the way we live, learn, create and communicate. The digital culture certificate will allow students to enhance their program of study with integrated, transdisciplinary training in creative processes and technical skills in new media with cultural applications.

The digital culture curriculum is outcomes-based rather than course sequence-based. The curriculum uses an innovative proficiency-based network to connect courses across academic disciplines, instead of traditional methods such as course prerequisites. Proficiencies in the curriculum identify common generalized learning outcomes across disciplines participating in the initiative.

Program Requirements:

The digital culture certificate requires 18 credit hours (12 upper-division) in three areas:

digital culture studies (9)*

digital media - media arts and design (6)

capstone culminating project (3)**

*AME 111 Introduction to Digital Culture, CS (3) and AME 230 Programming for the Media Arts (3) are required.

**The required course is AME 485 Digital Culture Capstone I (3).

A minimum grade of a "C" (2.00) and an overall GPA of 3.00 is required in all classes in the certificate program. Courses in the certificate program may not be used as part of a major. All upper-division certificate course work must be taken at ASU.

Generous substitution rules allow for course flexibility. Students receiving the digital culture certificate can petition to substitute up to six credit hours. Three credit hours can come from any course related to digital culture through courses offered by any ASU unit on any ASU campus, including the interdisciplinary arts and performance program on the West campus and the film and media studies program on the Tempe campus. Courses may include any on the list of related subjects and substitutions (shown below) or courses with comparable content.

The other three substitution hours can be achieved through the following path:

- The three-hour media arts and design course requirement may be substituted with a three-hour course in the digital culture-related category.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

For current ASU students, there is no special application process for the digital culture certificate. Students add the certificate by meeting with the academic advisor for their major and the digital culture education coordinator to develop the digital culture pathway that best meets the proficiencies for the work they are interested in pursuing. This pathway will be contingent upon the student's academic performance in 100-level course work.

For students not currently enrolled at ASU, students must apply and be admitted to ASU in a degree or nondegree program. Students must meet with the digital culture academic success coordinator before enrolling in the certificate program. The coordinator and student will develop a pathway that best meets the proficiencies for the work he or she is interested in pursuing. The coordinator will review the student's previous academic work to determine which proficiencies the student has completed.

Digital culture certificate students will work with the digital culture academic success coordinator and successfully complete the required sequence of courses and proficiencies for a digital culture certificate. The digital culture academic success coordinator and the digital culture faculty committee in the Herberger Institute for Design and the Arts will help to craft the best path for the student.

East Asian Studies Certificate (LAEASCERT)

Campus: Tempe

Description:

The certificate in East Asian studies, which can supplement a bachelor's degree, demonstrates a student's knowledge of an Asian language as well as Asian history, art, culture or society. The certificate helps prepare students for admission to graduate programs in Asian area studies, an academic discipline with an Asian focus, or professional programs in international law or business. Recent Asian studies graduates have gone on to enter medical school, law school, MBA programs or PhD programs. An earned certificate will appear on student transcripts as an East Asian studies emphasis.

Program Requirements:

The certificate requires 24 credit hours of course work, including:

- 15 credit hours of upper-division area studies course work in at least three disciplines outside of languages and literature courses (such as anthropology, art, geography, history, political science and religious studies)
- nine credit hours in some combination of lower- and upper-division courses (six credit hours may be satisfied with language and literature courses limited to courses numbered 321 and above)
- demonstrated proficiency in an East Asian language at the intermediate level

The language requirement can be satisfied by one of the following:

- completing the 201 and 202 sequence
- one year of study abroad at the intermediate level
- satisfactory placement on a proficiency exam

East Asian languages include:

- Chinese
- Japanese
- Korean

Students pursuing an East Asian studies certificate must fulfill the language requirement in either Chinese, Japanese or Korean, and the 15 credit hours of upper-division course work must be courses with significant focus on East Asia chosen in consultation with an advisor in the School of Historical, Philosophical and Religious Studies.

A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course that is used to fulfill the certificate requirements.

Students should plan courses for their plan of study in consultation with an academic advisor in the School of Historical, Philosophical and Religious Studies.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

There are no specific admission requirements other than a student's desire to learn about East Asia.

Economic Justice Certificate (LAECNJCERT)

Campus: Tempe

Description:

Students will gain knowledge of economic justice that will promote the growth of sustainable communities locally, nationally and globally. The course work in this certificate will prepare students to:

- analyze and develop policies to build local skills
- develop the capacity to design, control, manage and evaluate initiatives aimed at economically revitalizing communities
- increase research abilities
- lay the groundwork for new approaches to economic justice

Program Requirements:

The certificate in economic justice requires 15 credit hours, at least twelve of which must be completed at the upper-division level. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better. Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate. To see prerequisites please refer to the class search.

Theories and Foundation in Economic Justice (3 credit hours)

Students acquire a background in theories and philosophies of economic justice by selecting one of the following courses:

- ASB 316 Money and Culture, L or SB (3)
- COM 450 Theory and Research in Organizational Communication, SB (3)
- ECN 360 Economic Development, SB, G (3)
- JUS 321 Wealth Distribution and Poverty, SB, C (3)
- JUS 323 Justice and the Development of the Welfare State, SB (3)
- JUS 325 Globalization and Socio-Economic Justice, SB, G (3)

Economic Justice Praxis (3 credit hours)

To better understand community, nongovernmental organizations, government policies and other collective efforts aimed at improving economic conditions through various strategies, including asset building to low-income communities, community-based microfinance, economic development, advocacy and training efforts, students select one of the following courses:

- ASB 328 Rules, Games and Society, L (3)
- ECN 331 Economics of the European Economic Union, SB, G (3)
- JUS 320 Community and Social Justice, SB, C (3)
- JUS 405 Economic Justice, L or SB, G (3)
- PUP 434 Economic Development Planning, L or SB (3)
- SGS 350 Economic Development and Globalization (3)
- SWU 432 Social Policy and Services (3)

SWU 498 Pro-Seminar: Border Families/Community Asset Building Policies (3)

Transdisciplinary Component (9 credit hours)

To provide students an opportunity to focus on a particular racial group, nation or region or specific historical event while also providing a broad transdisciplinary framework, students will select three electives. Courses must be taken from both of the substantive areas listed below and from two or more academic units. Any course listed below may count toward this requirement, as well as other courses as approved by the certificate program director.

Race, Gender, Class, Citizenship and Economic Justice:

AFR/FAS 370 Family, Ethnic and Cultural Diversity, SB, C (3)
AIS 380 Contemporary Issues of American Indian Nations, C (3)
APA 350 Inequality and Diversity in Education, L, C (3)
APA 394 Topic: Asian Pacific Americans and Immigration (3)
ASB/POS/SBS 447 Citizenship, Nationalism and Identity, SB, C (3)
CRJ 305 Gender, Crime and Criminal Justice, C (3)
CRJ 306 Race, Ethnicity, Crime and Criminal Justice, C (3)
ETH 300 Principles of Ethnic Studies, C (3)
FAS/SOC 324 Work and the Workplace, SB, H (3)
HST 325 Immigration and Ethnicity in the United States, SB, H, C (3)
HST 333 African American History to 1865, SB, H, C (3)
IAS 305 Work and Identity, SB (3)
JUS 415 Gender and International Development, L, G (3)
JUS 420 Women, Work and Justice, L or SB, C (3)
JUS 425 Race, Gender and Justice, L or SB, C (3)
JUS 438 Human Differences: Dilemmas of Justice, L or HU, C (3)
JUS 479 Law and Disputing, L or SB (3)
SWU 374 Diversity and Oppression in a Social Work Context, C (3)
TCL 314 Transborder Regional Immigration and Economy, L or SB, H, C (3)

National and Global:

AFR/JUS 304 Islands of Globalization: Caribbean Politics and Political Economy, SB, G, H (3)
ASB/SOC/SBS 342 Mexico-U.S. Borderlands, SB, C (3)
JUS 408 Comparative Development of the Welfare State, L, G (3)
JUS 469 Political Deviance and the Law, L or SB, C (3)
PHI 336 Social and Political Philosophy, HU (3)
POS 480 Global Justice, G (3)
POS 486 International Political Economy, SB, G (3)
SGS 394 Special Topics: Global Markets (or SGS 350 Economic Development and Globalization) (3)

Enrollment Requirements:

In order to declare this certificate, students must have a minimum of 30 earned credit hours and must first meet with an academic advisor in the School of Social Transformation..

Energy and Sustainability Certificate (SUESUCERT)

Campus: Downtown Phoenix, Polytechnic, Tempe

Description:

The transdisciplinary certificate examines current energy systems and what it will take to create a sustainable energy future. Students begin with an overview of how energy affects peoples' lives and of policy options for energy as well as the science of energy and how energy is generated for today's society. Students then select additional energy courses from across many disciplines, depending on their specific interests.

An understanding of energy is increasingly important for jobs related to environmental quality, national security and the efficient functioning of cities. This certificate helps students:

- Enhance their understanding of the methods by which energy is generated and distributed as well as the associated sustainability issues.
- Analyze social and policy dimensions of energy systems and infrastructure.
- Tailor the certificate around their unique interests in energy with a variety of electives, representing a broad array of academic disciplines.
- Enrich the breadth of their energy knowledge by taking courses outside their primary area of study.

Program Requirements:

Total minimum credit hours required for certificate: 15

Required Courses: (9 credit hours)

SOS/GCU 171 The Thread of Energy, SB, G (3)

SOS 314 Basic Energy Science (3)*

SOS 315 Energy Policy (3)*

Elective Courses: (6 credit hours)

ALT 360 Renewable Energy Technologies: Fundamentals and Integration (3)**

ALT 412 Village Energy Systems (3)**

CHM 394 Topic: Chemistry, Energy and Society (3)

EGR 371 Best Practices for Humanitarian Engineering (3)*

EGR 476 Energy Infrastructures (3)**

ERM 494 Topic: Energy Economics (3)**

GCU 364 Energy in the Global Arena, SB, G (3)

GCU 442 Geographical Analysis of Transportation, SB (3)

GLG 304 Minerals, Energy and Society (3)*

GPH 405 Energy and Environment (3)*

HST 306 Topic: Energy History, HU or SB, H (3)*

JUS 332 Politics of Energy Policy and Justice (3)*

JUS 444 Environment and Justice, L, C (3)*

MET 435 Alternate Energy Sources (3)**

PHY 498 Topic: The Science of Sustainable Energy (3)**

POS 394 Topic: Global Environmental Politics (3)

PUP 430 Transportation Planning and the Environment (3)

SOS 394 Topic: Introduction to Solar Energy for Non-Engineers (3)*

SOS 394 Topic: Sustainability in Organizations and Public Policy (3)*

SOS/BIO/HST/PHI 394 Topic: History and Philosophy of Sustainability (3)*

SOS 435 US Energy: Pathways to Sustainability (3)*

SOS 494 Topic: Creating Living Buildings*

SOS 494 Topic: GHG Emissions Inventory*

SOS 494 Topic: Renewable Energy (3)*

STS 317 Science, Technology and Global Engagement, SB, G (3)

STS 329 Cultivating Technology in Newly Industrializing Countries, SB, G (3)

STS 332 Global Issues in Science and Technology, SB (3)

TEM 450 Design for the Developing World (3)*

Notes:

*This course has prerequisite requirements.

**This is a more technical course, which may require additional math and science knowledge or prerequisites.

Topics courses must be taken with the topic listed.

Electives are not limited to courses from this list only. Other courses on energy may be offered (special topics, etc.). Students can request to have those approved as an elective for this certificate by submitting a School of Sustainability petition:

https://students.asu.edu/College_Standards_Petitions (https://students.asu.edu/College_Standards_Petitions). Completed petitions may be submitted directly to sosadvising@asu.edu (<mailto:sosadvising@asu.edu>).

Students must earn a grade of "C" or better in all upper-division courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed to complete the requirements of this certificate.

Enrollment Requirements:

Students wanting to declare a certificate in energy and sustainability should make an appointment with a School of Sustainability advisor. To be eligible, students must have a 3.00 cumulative GPA.

Advising by appointment only. To schedule an appointment, use the following link: https://webapp4.asu.edu/advsched/?acad_org=CSS (https://webapp4.asu.edu/advsched/?acad_org=CSS).

Nondegree-seeking students will need to complete an application and be admitted to ASU as a nondegree student in order to declare the certificate and enroll in courses. Students who have not completed an undergraduate degree and wish to pursue nondegree status can find more information here: <https://students.asu.edu/admission/nondegree> (<https://students.asu.edu/admission/nondegree>). Students who have completed an undergraduate degree and wish to pursue nondegree status can find more information here: <https://students.asu.edu/graduate/nondegree> (<https://students.asu.edu/graduate/nondegree>).

Entertainment and Technology Certificate (LAFMSUERE)

Campus: Tempe

Description:

The entertainment and technology certificate is for students interested in the study of entertainment and technology history, theory and convergence. Students have the opportunity to analyze industry changes through time, to identify current industry trends and to develop likely entertainment and technology models and scenarios for the future.

Program Requirements:

ASU students admitted to a degree program in any field of study are eligible for the entertainment and technology certificate, which consists of 18 credit hours. At least 12 credit hours must be upper-division course work. A minimum grade of "C" or better (scale is 4.00 = "A") is required in each course.

Choose two courses: (6)

FMS 100 Introduction to Film, HU (3)
FMS 110 Introduction to New Media, HU (3)
FMS 200 Film History, L or HU, H (3)

The following upper-division courses are required: (12)

FMS 302 U.S. Media Now (3)
FMS 340 Contemporary American Film and Popular Culture, HU (3)
FMS 351 Emerging Digital Media (3)
FMS 461 Film Theory and Criticism, HU (3)

Course substitutions may be approved by an academic advisor in the Department of English.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the university's online application for admission. Please contact the department for more information and see <https://english.clas.asu.edu/about/academic-program-areas/film-and-media-studies-program> (<https://english.clas.asu.edu/about/academic-program-areas/film-and-media-studies-program>).

Entrepreneurship and Innovation Certificate (BAKEICERT)

Campus: Tempe

Description:

The certificate program is comprised of three university-wide core courses followed by two courses within a student's disciplinary college. Individual colleges will be encouraged to offer a capstone course as part of the program. Beyond topics related specifically to entrepreneurial business practices, courses include such topics as social entrepreneurship, arts entrepreneurship, idea generation and storytelling as additional perspectives for the student entrepreneur.

Students completing the certificate in entrepreneurship and innovation have their achievements recognized on their transcripts. Career services markets the certificate to potential employers, highlighting the innovative skills that students with this designation can offer.

Program Requirements:

Required Core:

CORE 1: MGT 290 My Life Venture (3) or TEM 200 My Technology Venture (3)

CORE 2: MGT 340 Creativity and Innovation, L or HU (3) or TEM 230 Creativity and Business Innovation (3)

CORE 3: MGT 360 Entrepreneurship and Value Creation (3) or TEM 400 Technology Entrepreneurship (3)

Capstone Experience: (at least 6 credit hours)

- It is the student's responsibility to check the prerequisites required by courses in their discipline.
- Capstone courses will be designated and approved by individual disciplinary colleges.
- Capstone courses will consist of existing courses or new courses created by departments.

Students must earn a "B" (3.00 on a 4.00 scale) or better in each course to accumulate 15 credit hours for the certificate.

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this certificate.

Prerequisite Information

- In order to enroll in MGT 360 Entrepreneurship and Value Creation the student should be a W. P. Carey BS, BA or a Secondary Education (Business) student who has taken ACC 240, ACC 241 or ACC 242 with a grade of "C" (2.00) or better. A nonbusiness student with 2.50 ASU cumulative GPA with 56 earned credit hours who has taken MGT 290 My Life Venture may enroll. This course also has a prerequisite or corequisite requirement of MGT 340 Creativity and Innovation with a grade of "C" (2.00) or better.
- MGT 340 Creativity and Innovation has a prerequisite requirement of W. P. Carey School of Business BS or BA student, or nonbusiness student with 2.50 ASU Cumulative GPA, 56 earned credit hours, and prerequisite or corequisite of MGT 290 My Life Venture.

Enrollment Requirements:

The certificate in entrepreneurship and innovation is available to all ASU students in good standing except those majoring in business entrepreneurship, management (entrepreneurship), and technology entrepreneurship and management. The certificate application can be accessed and submitted through Advising SOS: <https://wpcarey.asu.edu/SOS> (<https://wpcarey.asu.edu/SOS>). Please see <https://wpcarey.asu.edu/sites/default/files/uploads/undergraduate/certificaterequirementsine-shipandinnovation22015.pdf> (<https://wpcarey.asu.edu/sites/default/files/uploads/undergraduate/certificaterequirementsine-shipandinnovation22015.pdf>) for more information. No more than 6 credit hours may be shared between the certificate and other degree programs.

Environmental Education Certificate (TEEVEDCERT)

Campus: Polytechnic, Tempe

Description:

The Mary Lou Fulton Teachers College certificate in environmental education is for traditional and nontraditional educators and is designed to establish standards for professional excellence in environmental education. Environmental education is taught in traditional classrooms and as community programs such as those at nature centers, museums, parks and zoos. The course work required in the certificate increases the environmental literacy of future educators, fosters community leadership strategies, and provides practice in environmental education teaching methods. Students who complete the certificate are eligible to apply for the environmental education certificate recognized by the North American Association for Environmental Education.

Program Requirements:

This certificate requires 15 credit hours; 12 of which must be upper-division. A "C" or better is required in all upper-division course work.

Required certificate courses: (12 credit hours)

- SCN 300 Foundations of Environmental Education (3)
- SCN 301 Ecology and Natural History of the Sonoran Desert (3)
- SCN 302 Outdoor Education (3) OR SCN 308 Urban Environmental Education (3)
- SCN 307 Learning from Nature: Biomimicry and STEM (3)

Elective certificate courses: (3 credit hours)

- EED 309 Environmental Education Project, including course topics: Project Learning Tree, Project WET, Project Wild, Globe, Outdoor Explorers Guide to the Universe, Outdoor Explorers Guide to Geology, Wild Aquatic, Flying Wild (1)
- SCN 303 Environmental Education Internship (1-2)
- SCN 304 Sonoran Desert Flora (3)
- SCN 305 Tropical Ecology: A Cultural Exchange (3)
- SCN 494 ST: Humanitarian Project for Educators (3)
- SCN 400 Sustainability Science for Teachers (3)*
- SCN 401 Sustainability Science, Technology and Society (3)

*Teacher certification students will take SCN 400.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any degree-seeking student at ASU may seek this certificate.

Environmental Humanities Certificate (LAENHCERT)

Campus: Tempe

Description:

The environmental humanities certificate offers students who are interested in humanities-based approaches to the current global environmental crisis an option to focus in this vital area of study. Students take three ENG courses and four electives from selected programs that are focused wholly or in large part on the human relationship to the environment and the relationship between nature and culture. To gain practical experience, certificate students also complete a required English internship in environmental activism, policy development, education or another pertinent area.

Program Requirements:

The environmental humanities certificate consists of 24 hours, of which at least six must be upper-division courses offered by the Department of English in the College of Liberal Arts and Sciences.

Core Required Courses: (9 credit hours; choose three courses)

ENG 334 The American Southwest in Literature and Film, L or HU, C (3)
ENG 359 Indigenous American Literature, L or HU, C (3)
ENG 363 Transborder Mexican and Chicano/a Literature of Southwest North America, L or HU, C (3)
ENG 367 Environmental Issues in Literature and Film, L or HU (3)
ENG 370 Science, Values, and the Public (3)
ENG 371 Rhetoric of the Environmental Movement (3)
ENG 378 Environmental Creative Nonfiction, L or HU (3)
ENG 468 Environmental Literary Criticism, L or HU (3)
ENG 469 Science and Literature, L or HU (3)

Internship:

ENG 484 Internship (3)

Electives: (12 credit hours; choose four courses)*

AFR 320 Africa: Politics, Environment and Development (3)
ASB 326 Human Impacts on Ancient Environments, SB, H (3)
ASB/SOS 370 Production, People, and Environments, L or SB (3)
BIO 300 Natural History of Arizona, SG (3)**
BIO 311 Biology and Society (3)
BIO 324/PHI 310 Environmental Ethics, HU (3)
GCU 102 Introduction to Human Geography, SB, G (3)
GCU 357 Social Geography, SB (3)
GPH 210 Society and Environment, G (3)
HST 342 U.S. West 20th Century, SB, H (3)
HST 345 Environmental History, L (3)
JUS 332 Politics of Energy Policy and Justice (3)
JUS 444 Environment and Justice, L, C (3)
PSY 306 Environmental Psychology, SB (3)
REL 483 Religion and Science (3)
SGS 310 Global Urban Systems (3)
SGS 330 Globalization and the Environment: Problems and Solutions (3)
SOC 331 Environmental Sociology, SB, G (3)
SOS 110 Sustainable World (3)
SOS 320 Society and Sustainability, L or SB (3)

*Other courses may be approved by an English advisor depending on special topics courses or variable topics courses available in given semesters.

**Students must take both BIO 300 and BIO 301 to receive SG General Studies credit.

A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Environmental Humanities Certificate (LSEHCERT)

Campus: Polytechnic

Description:

The environmental humanities certificate program offers students who are interested in humanities-based approaches to the current global environmental crisis an option to focus on this vital area of study. Students take courses and electives from selected programs that are focused on the human relationship to the environment and the relationship between nature and culture.

Program Requirements:

This certificate is comprised of 24 credit hours.

Core: (12 credit hours)

Pick four ENG courses from the list below, with a minimum of at least one 400-level course:*

ENG 334 The American Southwest in Literature and Film, L or HU, C (3)

ENG 359 Indigenous American Literature, L or HU, C (3)

ENG 367 Environmental Issues in Literature and Film, L or HU (3)

ENG 371 Rhetoric of the Environmental Movement (3)

ENG 378 Environmental Creative Nonfiction, L or HU (3)

ENG 468 Environmental Literary Criticism, L or HU (3)

ENG 469 Science and Literature (variable-topics course), L or HU (3)

Electives: (12 credit hours)

Complete four additional courses (see advisor for approved list). Some courses are limited to students majoring in the discipline, have prerequisites or cannot be taken in combination with another course on the list. Additional courses may be approved by the College of Integrative Sciences and Arts English advisor depending on special- or variable-topics courses available in given semesters.

*Note: Other ENG courses may be approved by CISA advisors depending on special- or variable-topics courses available in given semesters.

Requirements:

- A minimum of 12 upper-division hours are required.
- Six hours must be taken from the College of Integrative Sciences and Arts at ASU.
- A grade of "C" (2.00) or higher is required in all courses taken for the certificate.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Contact Information:

Integrative Sciences and Arts, College of
College of Integrative Sciences and Arts

cisa@asu.edu

Ethics Certificate (LAETHCERT)

Campus: Tempe

Description:

The ethics certificate is designed to give students a richer understanding of systematic philosophical thinking about ethics. Students with majors in business, nursing, journalism, public administration and students planning to pursue legal careers, among others, may well find that training in ethics is beneficial to their career goals. The certificate program permits some flexibility regarding course selection, thereby facilitating particular student interests. Students must consult with an academic advisor in the School of Historical, Philosophical and Religious Studies to declare the certificate.

Program Requirements:

The certificate in ethics consists of 18 credit hours approved by an undergraduate advisor in the School of Historical, Philosophical and Religious Studies.

One required course is chosen from:

PHI 335 History of Ethics, HU (3) or PHI 337 Ethical Theory, HU (3) or PHI 338 Metaethics, (3)

At least 15 credit hours must be chosen from:

PHI 105 Intro to Ethics, HU (3)
PHI 304 Existentialism, HU (3)
PHI 306 Applied Ethics, HU (3)
PHI 307 Philosophy of Law, HU (3)
PHI 310 Environmental Ethics, HU (3)
PHI 320 Bioethics, HU (3)
PHI 335 History of Ethics, HU (3)
PHI 336 Social and Political Philosophy, HU (3)
PHI 337 Ethical Theory, HU (3)
PHI 338 Metaethics (3)
PHI 360 Business and Professional Ethics, HU (3)
PHI 420 Topics in Philosophy (when its topic is within ethics) (3)

One course outside this list, and perhaps outside the school, may be used with written approval from the director of undergraduate studies. All courses must be passed with a minimum grade of "C" (2.00 on a 4.00 scale) or better. At least 12 credit hours must be upper-division.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the university's online application for undergraduate admission. Please contact the School of Historical, Philosophical and Religious Studies for more information.

Ethnic Studies Certificate (ASETHCERT)

Campus: West

Description:

The certificate in ethnic studies, offered by the School of Humanities, Arts and Cultural Studies, explores the changing political, social, economic and cultural realities of racial, ethnic and indigenous communities in the United States and the Americas. The course work combines topics and methods in the humanities, arts and social sciences to critically analyze racial, ethnic, gender and sexual identities, transnational movements, and diverse forms of cultural, literary and political expression.

The certificate in ethnic studies prepares students for careers or graduate school in a variety of fields, including business, health care, criminal justice, social services, education, public relations, community development, public policy and government. The certificate in ethnic studies is recommended for graduate students, nondegree students and students majoring in professional programs.

Program Requirements:

The certificate consists of 18 credit hours, 12 of which must be at the upper-division level. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline. Up to three credit hours of individualized instruction may be applied toward the certificate. All courses must be passed with a minimum grade of "C" (2.00).

Core Requirements: (6 credit hours)

ETH 100 Ethnic and Indigenous Lives, SB, C (3)
HRC 200 Introduction to Social and Cultural Analysis (3)

Ethnic Studies elective course work: (12 credit hours, chosen in consultation with an academic advisor)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The certificate in ethnic studies is open to all ASU undergraduate majors. Students wishing to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken and the required paperwork is submitted.

European Union Studies Certificate (LAEUSCERT)

Campus: Tempe

Description:

The European Union, or EU, is the biggest economic bloc in the world and also one of the most important economic and political partners of the United States. This certificate program enables students to develop expertise in the cultures, governments and economies of the EU, making the students valuable to potential employers doing business in the EU. It may serve as a beneficial complement to a bachelor's degree or as a nondegree program for training business professionals and others who wish to enhance their knowledge of European cultures, politics, economics and societies.

Program Requirements:

The certificate requires 18 credit hours. A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Required core course: (3 credit hours)

ECN 331 Economics of the European Economic Union, SB, G (3) or POS 356 European Union, SB, G (3)

Five elective courses: (15 credit hours)

Of these 15 credits, at least three must be in history (HST) or cultural geography (GCU), at least three must be from a School of International Letters and Cultures civilization course, and at least three must be taken in a non-English EU language.

Approved elective courses include:

ENG 429 Studies in European Literature and Culture (3)
FRE 322 French Literature, L or HU (3)
FRE 325 French Language and Culture Through Film (3)
FRE 416 French Civilization II, HU, G (3)
GCU 325 Geography of Europe, SB, G (3)
GER 416 German Civilization, HU, H, G (3)
GER 422 German Literature Survey, 1800-Today, L or HU (3)
GER 453 German Literary Masterpieces on Film, HU, H, G (3)
HST 304 Studies in European History, SB, H (3)
HST 351 Renaissance Europe, L or HU or SB, H (3)
HST 356 Europe since 1945, SB, G, H (3)
HST 364 Sex and Society in Modern Europe, L or SB, H (3)
HST 367 Modern Britain, SB, H (3)
HST 368 Culture and Imagination in European History, HU, H (3)
HST 370 Eastern Europe in Transition, SB, G, H (3)
HST 427 French Revolution/Napoleonic Era, SB, H (3)
HST 428 Modern France, SB, G, H (3)
HST 429 Modern Germany, SB, G, H (3)
HST 432 Eastern Europe the Balkans, 20th Century, G, H (3)
HST 438 Modern Spain, HU or SB, G, H (3)
HST 465 Women in Europe, 1750 to Present, HU or SB, H (3)
ITA 315 Italian Civilization, HU, G (3)
ITA 322 Introduction to Italian Literature II, HU (3)
ITA 420 Italian Cinema (3)
POS 352 European Democracies (3)
SLC 494 ST: Society and Culture in Modern Europe (3)

SLV 394 ST: Societies and New Eastern Europe (3)
SPA 426 Literature and Society in Modern Spain, HU (3)
SPA 473 Old and New Spaniards: Culture and Civilization of Spain, HU or SB, G (3)

Additional courses may be approved by the coordinator of the certificate program.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Degree-seeking students: ASU students with a minimum 2.00 cumulative GPA (scale is 4.00 = "A") and sophomore standing or above in any degree program will be eligible for the European Union certificate program.

Nondegree-seeking students must have completed two years or more of college.

Family Communication Certificate (ASFAMCCERT)

Campus: West

Description:

The certificate program in family communication, offered by the School of Social and Behavioral Sciences, focuses on issues affecting communication in the family. This is a valuable certificate for students planning to enter careers or graduate study in fields like psychology, counseling, family studies, social work, medicine or nursing, law, aging, pastoral care, human services, media or communication technology. It complements the current communication program by bringing together an array of courses that have implications for the family unit, such as courses in new media and health. Students are encouraged to also take courses in other disciplines that complement family-related communication courses.

Program Requirements:

The certificate consists of 19 credit hours: 12 credits must be upper-division, six must be noncommunication credits, and a one-credit exit portfolio course is to be taken after a minimum of 12 credits have been completed. Twelve of the 19 credits must be ASU credit. Six credits may be double-counted with one's ASU major. Each class must be passed with a "C" (2.00) or better.

Required Core Courses: (6)

COM 411 Communication in the Family, SB (3)

Select one:

COM 312 Communication, Conflict and Negotiation (3)

COM 410 Interpersonal Communication Theory and Research, SB (3)

COM 417 Communication and Aging (3)

Four courses must be selected from at least two content areas listed below: (12)

Social and Cultural Elements of the Family

AFR 370 Family, Ethnic and Cultural Diversity, SB, C (3)

ASB 346 Marriage and Family Diversity, SB, C (3)

COM 316 Gender and Communication, SB, C (3)

COM 410 Interpersonal Communication Theory and Research, SB (3)

FAS 301 Introduction to Parenting (3)

FAS 331 Marriage and Family Relationships, SB (3)

FAS 370 Family, Ethnic and Cultural Diversity, SB, C (3)

FAS 435 Advanced Marriage and Family Relationships, L or SB (3)

SBS 440 Family Studies (3)

SOC 415 The Family, SB (3)

Technology, Media and the Family
COM 424 Television Studies and Criticism (3)
COM 457 New Media (3)
ENG 244 Introduction to Researching Family History (3)
MCO 473 Sex, Love and Romance in the Mass Media, SB (3)

Health and Family Development

ALD 403 Aging, Lifespan Development and the Family (3)
ALD 420 Health Issues and Older Adults, SB (3)
ALD 431 Caregiving for Older Adults (3)
CDE 430 Infant/Toddler Development in the Family, SB (3)
COM 417 Communication and Aging (3)
CRJ 204 Juvenile Justice (3)
FAS 332 Human Sexuality, SB (3)
FAS 431 Parent-Adolescent Relationships, SB (3)
FAS 436 Sexuality in Mid-Life and Beyond (3)
PSY 341 Developmental Psychology, SB (3)
PSY 443 Abnormal Child Psychology, L or SB (3)
PSY 444 Adolescent Psychology and Psychopathology (3)
SOC 312 Adolescence, SB (3)

Community Application

COM 314 Inner-City Families: The Cycle of Poverty (3)
COM 484 Internship (in consultation with faculty advisor)

Portfolio

COM 498 Pro-Seminar: Family Communication Portfolio (1)*

The communication portfolio is a synthesis of students' family communication academic experience. The portfolio itself integrates each student's family communication experience with theory and concepts from family communication courses. The portfolio may take a variety of forms, to be negotiated by each student with the instructor. This course is to be taken after a minimum of 12 credits toward the certificate have been completed.

*substitutions allowed with faculty advisor approval

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The certificate in family communication is open to all ASU undergraduate majors. Students wishing to pursue this certificate should consult an academic advisor in the School of Social and Behavioral Sciences to ensure the appropriate set of courses is taken and the required paperwork is submitted. Please see the School of Social and Behavioral Sciences advising website at: <https://newcollege.asu.edu/college-advisor> (<https://newcollege.asu.edu/college-advisor>).

Film and Video Studies Certificate (ASVIDCERT)

Campus: West

Description:

The certificate in film and video studies, offered by the School of Humanities, Arts and Cultural Studies, explores film theory and the practice of the moving image. Through this interdisciplinary program, students have an opportunity to develop their interests, skills and understanding of the forms, channels, technologies and histories of the media arts. Course work helps students become more astute critics of film and media arts. Students learn about the history of film, television and video arts as well as their place in social, cultural and political expression. This program also helps students strengthen their critical-thinking skills through an analysis of the ongoing philosophical, aesthetic, political and technological debates about film, media and video. Through this certificate, students will gain valuable skills for future careers or graduate study in areas such as video and film production, film studies, media studies or digital design.

Program Requirements:

A certificate in film and video studies is awarded for the successful completion of 18 credit hours, 12 of which must be upper-division (300 and 400 level). Students must complete a minimum of six upper-division credit hours offered by the School of Humanities, Arts and Cultural Studies and 12 credit hours at ASU. A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Students choose a focus in media and video studies or film studies. The film studies emphasis focuses on the impact of film and video. The media and video studies emphasis is concerned with the rendering of film and video.

Film Studies Emphasis: (18 credit hours):

Core course: (3 credits, choose one course)

IAP 201 Introduction to Interdisciplinary Arts, HU (3) OR

IAP 202 Perspectives on Interdisciplinary Arts and Performance (3)

Foundational courses: (3 credits, choose one course)

IAP 101 Art, Artist and Culture, HU (3)

IAP 102 Foundations I: Performance Techniques and Composition (3)

IAP 103 Foundations I: Interdisciplinary Digital Media (3)

IAP 104 Foundations I: Fundamentals of Sound Art (3)

IAP 105 Foundations I: Fundamentals of Visual Art (3)

Theoretical, conceptual and historical courses: (3 credits, choose one course)

ENG 365 History of Film, HU (3-4)

IAP 364 Documentaries (3)

IAP 465 Media Technologies and the Arts (3)

IAP 473 Aesthetic Research, L or HU (3)

Applied and practical courses: (6 credits, choose two courses)

COM 429 Semiotics and Visual Communication (3)

IAP 322 Multitrack Digital Recording (3)

IAP 361 Digital Editing and Media Literacy, CS (3)

IAP 364 Documentaries (3)

IAP 394 Topic: Acting for the Camera (3)

IAP 466 Digital Interactivity, Advanced (3)

IAP 467 Acoustic Ecology (3)

IAP 474 Art and Film, L or HU (3)

Capstone project: (3 credits)

IAP 480 Senior Project (3)*

*The project should reflect the integration of course work with creative initiative to generate a product that stands alone as a piece of original work. For the film studies emphasis, the project will focus on an intellectual analysis of some dimension of film products, reception, institutions, economics and so forth.

Media and Video Studies emphasis: (18 credit hours)

Core course: (3 credits, choose one course)

IAP 201 Introduction to Interdisciplinary Arts, HU (3) OR

IAP 202 Perspectives on Interdisciplinary Arts and Performance (3)

Foundational courses: (3 credits, choose one course)

IAP 101 Art, Artist and Culture, HU (3)

IAP 102 Foundations I: Performance Techniques and Composition (3)

IAP 103 Foundations I: Interdisciplinary Digital Media (3)

IAP 104 Foundations I: Fundamentals of Sound Art (3)

IAP 105 Foundations I: Fundamentals of Visual Art (3)

Theoretical, critical, performance or production courses: (9 credits, choose three courses)

COM 429 Semiotics and Visual Communication (3)

ENG 365 History of Film, HU (3-4)

IAP 334 Conceptual Development in the Arts (3)

IAP 361 Digital Editing and Media Literacy, CS (3)
IAP 363 Sound, Image and Media (3)
IAP 364 Documentaries (3)
IAP 365 Digital Interactivity (3)
IAP 394 Topic: Acting for the Camera (3)
IAP 465 Media Technologies and the Arts (3)
IAP 466 Digital Interactivity, Advanced (3)
IAP 467 Acoustic Ecology (3)
IAP 473 Aesthetic Research, L or HU (3)
IAP 474 Art and Film, L or HU (3)

Capstone project: (3 credits)
IAP 480 Senior Project (3)**

**The project should reflect the integration of course work with creative initiative to generate a product that stands alone as a piece of original work. In the media and video studies emphasis, the project may be intellectual or creative (performance or production) in nature. Projects will be examined and evaluated by at least one faculty member involved in the film and video studies certificate.

Enrollment Requirements:

The certificate in film and video studies is open to all ASU undergraduate majors. Students wishing to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken and the required paperwork is submitted.

Food Industry Management and Marketing Certificate (BAFIMMCERT)

Campus: Polytechnic

Description:

The certificate program in food industry management and marketing allows both business and nonbusiness students the opportunity to acquire specialized business skills which will provide a competitive advantage for employment with firms and agencies that operate within the global food industry. Upon certificate completion, students will have a deep understanding of the business, economic and market environment of the global food industry, with particular emphasis on food marketing and distribution. The certificate program explores the role that consumers' food choices and purchases play in the allocation of resources throughout the food chain from farm to retail.

Program Requirements:

Required courses (6 credit hours):

AGB 250 Economics of Resource Allocation: Food and Agriculture (3) **

and select one from the following list of marketing courses:

MKT 300 Marketing and Business Performance (3) **

MKT 302 Applied Marketing Management and Leadership (3)

MKT 303 Honors Marketing Theory and Practice (3)

MKT 390 Essentials of Marketing (3) **

Choose any three from the following list (9 credit hours):

AGB 394 Topics: Current Topics in Food Retail (3)

AGB 414 Agribusiness Analysis (3)

AGB 420 Food Advertising and Promotion (3) **

AGB 424 Agribusiness Sales (3)

AGB 425 Food Supply Networks (3) **

AGB 434 Agricultural Risk Management and Insurance (3)

AGB 435 Commodity Futures and Options Markets (3) **

AGB 440 Food Safety (3)

AGB 445 Food Retailing (3) **

AGB 452 International Agricultural Policy (3)

AGB 454 International Trade (3)

AGB 456 Food Product Innovation and Development (3) **

AGB 481 Microeconomic Analysis of Food Markets (3) **

AGB 494 Topics: NAMA Marketing Plan (3)

Note: Courses designated with ** are taught in iCourse format. The program is offered at ASU's Polytechnic campus, but students may choose to take the entire certificate in iCourse format.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The admission requirements for this certificate are the same as the university's requirements for admission.

Food System Sustainability Certificate (SUFSUCERT)

Campus: Tempe

Description:

Food systems are particularly important for human societies to sustain; however, these systems are particularly vulnerable to multiple threats. Many students from a wide variety of disciplines are interested in food systems, especially as food and sustainability become increasingly relevant issues to employers in fields across the public and private sectors.

This certificate allows ASU students to take advantage of the diversity of courses offered that address challenges to food system sustainability. The certificate encourages students to cover a breadth of topics and perspectives related to food system issues while providing the opportunity to focus on particular skills and approaches suitable for their career paths. Career paths can range from agriculture to marketing and retail to policy or ethics. This certificate offers an innovative and exciting approach to the challenges of food system sustainability. Due to the transdisciplinary nature of the certificate, many courses may be found across all four ASU campuses, allowing students to choose both the focus area and location of study that best fits their needs.

The knowledge, competencies and skills students will have upon completion of this certificate include:

- the ability to identify food system drivers, activities, actors and outcomes at different spatial scales and the capacity to assess the primary social, economic and environmental drivers and outcomes associated with food system sustainability challenges
- the ability to apply one or more of the following analytical skills or approaches to the development of food system sustainability solutions: cultural and social analysis, alternative agricultural design and practice, analysis of biophysical processes and environmental services, urban planning and policy, marketing and entrepreneurial development, sustainability assessment, and consumer preference and behavior

Program Requirements:

There are no prerequisites for the required course; however, depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Required Course (3):

SOS 117 Introduction to Food System Sustainability (3)

Elective Courses (12):

Students must choose four electives. A minimum of two courses must be selected from tier 1 core electives and no more than two courses from the same prefix across both tiers 1 and 2 should be selected.

Tier 1 - Core Electives (choose at least two):

ABS 460 Organic Gardening (2)

AGB 456 Food Product Innovation and Development (3)

ASB 300 Food and Culture, L or SB, C (3)

ASB 463/TCL 443 Political Ecology of the Border, SB, G (3)

BIO 429/SOS 429 Human Impacts on Ecosystem Functioning (3)

ENG 367 Environmental Issues in Literature and Film, L or HU (3)

GPH 314 Global Change, HU, G (3)

HON 394 History and Evolution of Food (3)

NTR 353 Perspectives on the Western Diet: Food, Health and Sustainability (3)

PLB 302 Plants and Civilization (3)

PUP 498 Pro-Seminar: Urban Food Systems (3)

SOS 327 Sustainable Food and Farms (3)

Tier 2 - Electives:

ABS 368 Plant Propagation (3)

ABS 498 Pro-Seminar: Desert Horticulture (3)

AGB 321 Agribusiness Marketing (3)

AGB 420 Food Advertising and Promotion (3)

AGB 452 International Agricultural Policy (3)

ASB 305 Poverty and Global Health, L or SB, G (3)

ASB 370/SOC 370/SOS 370/SSH 370 Production, People and Environments, L or SB (3)

ASB 464/TCL 444 The Ethnography of Mexico and the Borderlands, SB, G (3)

BIO 311 Biology and Society (3)

BIO 324 Environmental Ethics, HU (3)

BIO 418 Soil Ecology (3)

BIO 434 People and Nature: Ecosystem Services (3)

GLG 327/SOS 374 Earth's Critical Zone (3)

NTR 348 Cultural Aspects of Food, SB, C, G (3)

NTR 448 Community Nutrition, L (3)

PHI 394/HST 394/SOS 394/BIO 394 History and Philosophy of Sustainability (3)

SOS 322 International Development and Sustainability (3)

SOS 456 Human Rights and Sustainability, L or SB, G (3)

SOS 498 Topic: Sustainable Neighborhoods for Happiness, L (1-7)

TCL 394 Special Topics: Health Policy in a Transborder Context (3)

Electives are not limited to courses from this list only. Other courses on food systems may be offered (special topics, etc.). Students can request to have those approved as an elective for this certificate by submitting a School of Sustainability petition:

https://students.asu.edu/College_Standards_Petitions (https://students.asu.edu/College_Standards_Petitions).

Students must earn a grade of "C" or better in all upper-division courses.

Enrollment Requirements:

Students wanting to declare a certificate in food system sustainability should make an appointment with a School of Sustainability advisor. To be eligible, students must have a 3.00 cumulative GPA.

Advising is by appointment only. Use the following link to schedule an advising appointment: https://webapp4.asu.edu/advsched/?acad_org=CSS (https://webapp4.asu.edu/advsched/?acad_org=CSS)

Nondegree-seeking students will need to complete an application and be admitted to ASU as a nondegree student in order to declare the certificate and enroll in courses. Students who have not completed an undergraduate degree and wish to pursue nondegree status can find more information here: <https://students.asu.edu/admission/nondegree> (<https://students.asu.edu/admission/nondegree>). Students who have completed an undergraduate degree and wish to pursue nondegree status can find more information here: <https://students.asu.edu/graduate/nondegree> (<https://students.asu.edu/graduate/nondegree>)

Games and Impact Certificate (TEGIMCERT)

Campus: Tempe

Description:

The certificate in games and impact is intended for undergraduates with a desire to become change agents in their current and future areas of interest, study and training. The certificate provides a solid grounding in the theory, design and use of games as tools for effecting change in education, health and social justice, among other fields. For this reason, it is appropriate for students in a wide range of majors, including students interested in design and programming.

Students will study the ethics of design and its consequences, both intended and unintended; how games can lead to social change by improving understanding of complex global systems; and, transforming conflict and building skills in problem recognition and creative solution design. Certificate students will work on real games, alongside experts and clients, and learn how to design, test and evaluate their impact in real-world environments.

Program Requirements:

All students must complete the following courses:

- EDT 210 Games, Technology and Society (3)
- EDT 461 Understanding Games for Impact (3)
- EDT 462 Designing Games for Impact (3)*
- EDT 463 Games for Impact: The Full Life Cycle (3)
- EDT 494 Capstone Project (3)**

*Students may opt to complete an equivalent upper-division course on game design that is selected in consultation with an advisor.

**The capstone project will be designed in consultation with the certificate coordinator.

Requirements:

- A minimum of 15 credit hours is required.
- A grade of "C" or higher is required in all courses taken for the certificate.

Depending upon a student's undergraduate program of study, prerequisite courses may be required in order to complete the requirements of this certificate.

Enrollment Requirements:

The program is available only to ASU degree-seeking students.

Geographic Information Science Certificate (LAGISCERT)

Campus: Tempe

Description:

The undergraduate geographic information science certificate program is open to all students at ASU and is built on GIS course work taught at the university. Students who earn the certificate are prepared to begin a career in the world of GIS.

Program Requirements:

The certificate requires 23 credit hours with a grade of "C" (2.00 on a 4.00 scale) or higher. At least 12 of the 23 credit hours must be upper-division courses.

Required courses: (17 credit hours)

CSE 100 Principles of Programming with C++, CS (3) or CSE 110 Principles of Programming, CS (3)

GIS 205 Geographic Information Technologies, CS (3)

GIS 211 Geographic Information Science I, CS (4)

GIS 311 Geographic Information Science II, CS (4)

GIS 470 Statistics for Geographers, CS (3)

Electives: (6 credit hours)

Choose one from the following:

GCU 361 Urban Geography, SB (3)

GCU 441 Economic Geography, SB (3)

GCU 442 Geographical Analysis of Transportation, SB (3)

GCU 474 Public Land Policy, SB (3)

GCU 484 Internship (1-12)

GIS 484 Internship (1-12)

GPH 484 Internship (1-12)

PUP 484 Internship (3)

And one from the following:

GIS 341 Introduction to Cartography and Georepresentation, CS (3)

GIS 351 Air Photo Interpretation (3)

GIS 441 Geographics: Interactive and Animated Cartography and Geovisualization, CS (3)

GIS 471 Geographic Information Analysis (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to ASU may complete this certificate. To apply to the university, please complete the online ASU application for admission.

Hazardous Materials and Waste Management Certificate (TSETMCERT)

Campus: Polytechnic

Description:

The certificate program in hazardous materials and waste management is designed to provide current and prospective employees of industry and government with a comprehensive and practical curriculum of study in hazardous materials management. The certificate program features instruction by faculty, attorneys and professionals who work in the specific area in which they teach.

The certificate program is available for nondegree- and degree-seeking students.

Program Requirements:

The certificate requires 21 hours. Students must complete seven selected courses (four required and three electives) and earn a grade of "C" (2.00 on a scale of 4.00) or higher to receive the certificate.

Required Courses:

ERM 401 Hazardous Waste Management (3) or ERM 501 Principles of Hazardous Materials and Waste Management (3)

ERM 407 Occupational Hygiene (3) or ERM 507 Industrial Hygiene (3)

ERM 502 Regulatory Framework for Toxic and Hazardous Substances (3) or ERM 527 Environmental/Resources Regulations Concepts (3)

ERM 506 Chemistry of Hazardous Materials (3)

Electives:

ERM courses at the 400 or 500 level (9)

Please see an advisor to register for 500-level courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Health Science for the Peace Corps Certificate (NHHSPCCERT)

Campus: Downtown Phoenix

Description:

The certificate program in health science for the Peace Corps is designed to give students who plan to apply for the Peace Corps a background in the foundational areas of health care: cultural and social determinants of health, public and community health, U.S. and global health systems and changing health behaviors. Students who complete the certificate program will be prepared to provide transdisciplinary perspectives on global health needs.

Program Requirements:

The certificate requires a minimum of 18 credit hours, of which at least 12 credit hours must be upper division credits. Courses taken as part of a university major may count toward both the degree and the certificate.

Required Courses (18 credit hours):

HCD 303 Global Health Care Systems, G (3)

HCD 305 Public and Community Health (3)

HSC 210 Cultural Aspects of Health, C (3)

HSC 330 Health Care Systems in the U.S. (3)

HSC 340 Changing Health Behaviors (3)

PBH 100 Introduction to Public Health (3)

A minimum grade of "C" (2.00 on a 4.00 scale) is required for all upper division courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students must first be admitted to the university.

An application to the certificate program is required.

History and Philosophy of Science Certificate (LAHPSCERT)

Campus: Tempe

Description:

The School of Life Sciences offers an undergraduate certificate in the history and philosophy of science. This program is designed to give students an understanding of both traditional philosophical issues surrounding science and the historical development of concrete scientific theories and ideas.

Philosophical questions about how we understand nature through science and how scientific claims gain authority are enriched when they are considered in a historical context. Such philosophical and historical study also often includes the examination of contemporary sciences and their place within the larger society, including the study of bioethics, policy and law.

This certificate is a valuable addition for students in the sciences or the humanities. It crosses disciplines to help students engage in unfamiliar and familiar paths of inquiry in new and interesting ways.

Program Requirements:

All courses counting toward the certificate must be approved by an undergraduate advisor in the School of Life Sciences and passed with a grade of "C" (2.00 on a 4.00 scale) or higher. The certificate requires 18 credit hours from the HPS and PHI prefixes.

Required Course:

PHI 314 Philosophy of Science, HU (3)

Electives:

Of the remaining 15 hours to be completed, at least nine credit hours must be taken in HPS courses.

At least 12 credit hours must be upper-division.

Depending upon a student's undergraduate program of study, prerequisite courses maybe needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the university's online application. Please contact the School of Life Sciences for more information.

Homeland Security Certificate (PPHSLCERT)

Campus: Downtown Phoenix, Online

Description:

The 21 credit hour homeland security certificate will provide students with the skills and credentials necessary to prepare them to enter fields specializing in homeland security. Students will receive extended education in topics such as domestic and international terrorism, cyber terrorism and advanced crime courses.

Program Requirements:

The following courses are required: (15 credit hours)

CRJ 100 Introduction to Criminal Justice, SB (3)
CRJ 201 Criminal Justice Crime Control Policies and Practices (3)
CRJ 412 International Terrorism (3)
CRJ 417 Cyber Terrorism (3)
CRJ 419 Domestic Terrorism (3)

The following courses are electives: (6 credit hours)

CRJ 350 Law and Social Control, SB (3)
CRJ 422 Violence in America (3)
CRJ 455 Police and International Terrorism (3)
CRJ 456 Etiology of Martyrdom (3)
CRJ 462 Gangs (3)
CRJ 463 White Collar Crime (3)
CRJ 464 Organized Crime (3)
CRJ 494 Media, Crime and Criminal Justice (3)

A grade of "C" (2.00 on a 4.00 scale) or better is required for all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

There are no additional admission requirements other than those required for admission to ASU.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Honors Business Consulting Certificate (BAECNUERT)

Campus: Tempe

Description:

This certificate is designed to enhance a student's knowledge in a major while also adding to the understanding of business strategy in a global market. The required curriculum strengthens skills in:

- business judgment
- conceptualization of strategic solutions
- critical thinking and problem-solving

Program Requirements:

The program consists of 15 credit hours of course work. Students must meet all prerequisites and course requirements as listed in the catalog. All 15 credit hours must be ASU credit.

Honors Business Core, with a grade of "B" (3.00 on a 4.00 scale) or higher in each course: (6)

ECN 303 Honors Managerial Economics (3)

FIN 303 Honors Finance (3)

MGT 303 Honors Organizational Strategies, Leadership and Behavior (3)

MKT 303 Honors Marketing Theory and Practice, L (3)

SCM 303 Honors Global Supply Operations (3)

Business Modeling and Analysis, with a GPA of 3.00 or higher; only courses in which a student earns a grade of "C" (2.00) or higher may be used: (9)

WPC 494 Topic: Consulting in Business (3)

WPC 494 Topic: Consulting Projects (3) or WPC 493 Honors Thesis, L (3)

WPC 494 Topic: Modeling Tools in Consulting (3)

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this certificate.

Enrollment Requirements:

The certificate is limited to honors students in the W. P. Carey School of Business. Students must submit an application for admission during the spring semester of their sophomore year. The certificate application is accessed and submitted through Advising SOS: <https://wpcarey.asu.edu/SOS> (<https://wpcarey.asu.edu/SOS>).

Please contact the department for more information.

Human Rights Certificate (LAHRTSCERT)

Campus: Tempe

Description:

The certificate program provides students with historical, legal and philosophical perspectives from which to think broadly and critically about human rights issues. Course work will prepare students to design solutions to dilemmas such as:

- child welfare
- economic development
- education
- environment
- health
- indigenous rights
- labor rights

- violence against women
- water and energy resources

Program Requirements:

Students must complete 18 hours of qualifying course work, at least 12 hours of which must be from ASU. A minimum grade of "C" (2.00 on a 4.00 scale) is required for a course to count toward the certificate.

Required Certificate Core Courses:

Global Politics of Human Rights: (3 credit hours; select one of the following courses)

JUS 352 The Global Politics of Human Rights (3)

POS 368 Ethics and Human Rights (3)

POS 480 Global Justice, G (3)

Human Rights Institutions and Organizations: (3 credit hours; select one of the following options)

HON 494 Topic: International Human Rights Law (3) (open to Barrett students only)

JUS 394 Topic: Human Rights Organizations and Institutions (3)

POS 465 International Organization and Law, SB, G (3)

SGS 321 International Institutions and Global Governance (3)

Transdisciplinary Component: (9 credit hours)

Students must select three electives on current issues in human rights. Courses must be taken from at least two of the substantive areas listed below and from two or more academic units. Any course listed below may count toward this requirement, as well as other courses as approved by the certificate program director.

Marginalization and Human Rights:

AFR 301/JUS 300 Race and Racism in the Africa/African Diaspora, SB, G (3)

AFR 304/JUS 304 Islands of Globalization: Caribbean Politics and Political Economy, SB, G, H (3)

AFR 420/JUS 421 Race, Ethnicity and Politics in the African Diaspora, SB, G (3)

APA 330/WST 331 Asian Pacific American Genders and Sexualities, SB, C (3)

APA 360 Asian Pacific American Experience, HU or SB, C (3)

ASB/POS/SBS/SOC 339 Grassroots Social Movements, SB (3)

ENG 494 Topic: Nonviolence and the Civil Rights Movement (3)

FMS/SLC 494 Topic: Latin American Queer Filmmaking (3)

JUS 430 Social Protest, Conflict and Change, L or SB, C (3)

JUS 438 Human Differences: Dilemmas of Justice, L or HU, C (3)

JUS 456/SOS 456 Human Rights and Sustainability, L or SB, G (3)

JUS 468 Protest, Justice, Law and the Media, SB (3)

JUS 469 Political Deviance and the Law, L or SB, C (3)

JUS/POS 473/REL 482 Religion, Violence and Conflict Resolution (3)

POS 480 Global Justice, G (3)

REL 388 Religion, Ethics and International Politics (3)

SGS 343/REL 379 Religion, Nationalism and Ethnic Conflict, HU, G (3)

SOC 445 Globalization, Development and Resistance, SB, G (3)

SPA 494/SLC 494 Topic: Latin American Photography and Human Rights (3)

WST/ASB/SSH 305 Poverty and Global Health, L or SB, G

WST 313 Women and Sexuality SB, C (3)

WST 345 Gender, Religion, and Global Violence, SB, G (3)

WST 378 Global Feminist Theory, L, G (3)(3)

Social Stratification and Human Rights:

AFR 305 The Global History of the Trans-Atlantic Slave Trade, SB, H (3)

AFR 327 Human Rights in Africa (3)

AFR 470 Women's International Human Rights (3)

APA/CDE/SOC 350/TCL 360/JUS 365 Inequality and Diversity in Education, L, C (3)

JUS 321 Wealth Distribution and Poverty, SB, C (3)

JUS 325 Globalization and Socio-Economic Justice, SB, G (3)

JUS 405 Economic Justice, L or SB, G (3)

JUS 415 Gender and International Development, L, G (3)

JUS 477 Youth and Justice, L or SB, (3)

PHI 336 Social and Political Philosophy, HU (3)

WST 365 Women and International Health, G (3)

WST 470 Gender and Popular Culture, HU, C (3)

States and Conflict:

HST 370 Eastern Europe in Transition, SB, G, H (3)
HST 436 The Soviet Experiment, SB, G, H (3)
JUS 374 The Holocaust, Genocide and Human Rights (3)
JUS 452 Justice Issues in Israel and Palestine: The Political is Personal (3)
JUS 467 Terrorism, War and Justice, SB (3)
JUS 469 Political Deviance and the Law, L or SB, C (3)
JUS 479 Law and Disputing, L or SB (3)
JUS 494 Topic: Justice in Times of Transition (3)
PHI 448 Justice and Reparations (3)
POS 368 Ethics and Human Rights (3)
POS 465 International Organizations and Law, SB, G (3)
REL 388 Religion, Ethics and International Politics (3)
SGS/HST 494 Topic: Wartime Occupations and Colonial Wars (3)
SPA 472 Latin American Society: Five Case Studies, HU, H, G (3)

Experiential Learning Component: (3 credit hours)

Students will choose one of the following, in consultation with the advisor:

JUS 484 Internship (3)
JUS 498 Topic: Research Apprenticeship (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students who have attained 30 credit hours in any undergraduate degree program in any field at ASU are eligible for admission to the certificate in human rights. There are no formal admission procedures to begin certificate course work, but students should contact an advisor as soon as they decide to begin pursuing the certificate.

Informatics Certificate (ESCPICERT)

Campus: Tempe

Description:

The certificate program in informatics teaches students to use computer technology to gather, synthesize, store, visualize and interpret information. These skills are critical to a broad range of disciplines. This program provides students with an understanding of the capabilities and technologies of informatics as it applies to domain-specific problems in their field of study.

Students completing this program are able to use methods for and understand the basic computational principles behind the operation of:

- communication, networking and interaction
- decision-making and problem-solving
- modeling, inference and visualization
- representing, creating and running routine activities
- storing, indexing and retrieving information

Graduates should be in high demand within the software industry, but also in government, education, science, medicine and other fields that make use of computer technology. Students with the applied and user-oriented focus of the certificate will be attractive to such employers.

Program Requirements:

This program requires 21 credit hours of course work. Students will take 15 credit hours of required courses and will select six credit hours of elective course work. The certificate requires at least 12 credit hours of upper-division course work. Note: Some of the required courses have

additional prerequisites. Students need to allow at least two years to complete the certificate due to the prerequisite structure.

Core Courses:

- CPI 101 Introduction to Informatics, CS (3)
- CPI 200 Mathematical Foundations of Informatics, MA (3)
- CPI 220 Applied Data Structures and Algorithms (3)
- CPI 350 Evaluation of Informatics Systems (3)

Statistics Course: (select one)

- IEE 380 Probability and Statistics for Engineering Problem Solving, CS (3)
- STP 420 Introductory Applied Statistics, CS (3)

Electives: (six credit hours)

Refer to the CIDSE website for list of approved electives: <https://cidse.engineering.asu.edu/forstudent/undergraduate/certificates/informatics/>.
(<https://cidse.engineering.asu.edu/forstudent/undergraduate/certificates/informatics/>)

A grade of "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisites courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The undergraduate certificate in informatics is available to all students who are in good standing at ASU and may be used by BIS students as part of their degree program. Students need to submit an undergraduate certificate form to the School of Computing, Informatics and Decision Systems Engineering Academic Advising Center located in BYENG, Room 225. This form is available on the registrar's website. BIS students need to contact their BIS advisor to add the informatics concentration to their degree program.

Innovation for Impact Certificate (FIIFICERT)

Campus: Tempe

Description:

This certificate program will enable students to cultivate the knowledge, skills, and critical dispositions necessary to leverage the power of innovation to achieve personally meaningful and socially significant impact. It is grounded in the belief that each of us can do great things. This program will provide tools and concepts to synthesize research from courses across disciplines in social sciences, humanities, natural sciences and engineering -- from across campus as well as across the globe. Students will identify a problematic condition or aspirational future and work with peers, mentors, and the community to produce innovations that cultivate a better future for society.

Program Requirements:

Required Courses:

- FIS 201 Innovation in Society (3)
- FIS 305 Ways of Knowing (3)
- FIS 307 Navigating Futures (3)
- FIS 371 Innovation for Impact: Impact Journey (1)
- FIS 372 Innovation for Impact: Inquiry Journey (1)
- FIS 373 Innovation for Impact: Innovation Journey (1)

FIS 481 Innovation for Impact: Application Journey (3)*

*The prerequisites for this course are FIS 371 Innovation for Impact: Impact Journey (1), FIS 372 Innovation for Impact: Inquiry Journey (1) and FIS 373 Innovation for Impact: Inquiry Journey (1).

Total credits: 15

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Admission Services online application. Please contact the School for Innovation in Society for more information about completing the certificate.

International Business Certificate (BAIBSCERT)

Campus: Tempe

Description:

Students can expand their horizons and opportunities by learning about the global economy. The certificate program is designed to:

- develop competence in a foreign language
- develop sensitivity to foreign cultures
- provide an awareness of global social processes
- provide an understanding of international business environments, principles and operations

The W. P. Carey School of Business has partnerships with universities in Europe, Asia and Latin America, so students can experience new cultures, visit new places, and build intercultural and language skills. International internships also are offered in conjunction with the ASU Study Abroad Office.

Program Requirements:

This certificate program requires a minimum of 18 credit hours (at least 12 credit hours must be upper division), which are outlined below. All business course work must be completed through the W. P. Carey School of Business or through an approved ASU international study program. Only courses in which a student receives a grade of "C" (2.00 on a 4.00 scale) or higher may be used to meet the certificate requirements, and an overall certificate GPA of at least 2.50 must be earned.

Students must meet all course prerequisites and requirements as listed in the ASU catalog. Requirements must be met within one year after degree conferral date. Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this certificate.

The four required areas of completion for the certificate are:

international business course work (9)
international study experience
language proficiency
nonbusiness global awareness course work (9)

A. International Business Course Work (9)

Three international business courses must be taken. Students must choose one foundation course and two electives.

Foundation course:

MGT 302 Principles of International Business, G (3) or ECN 306 Survey of International Economics, SB, G (3)

Electives: (choose two, for a total of six credits)

ECN 331 Economics of the European Economic Union, SB, G (3)

ECN 335 South Asia and the World Economy, SB, G (3)

ECN 360 Economic Development, SB, G (3)

ECN 365 Economics of Russia and Eastern Europe, SB, G (3)

ECN 436 International Trade Theory, SB, G (3)

ECN 438 International Monetary Economics, SB, G (3)

FIN 456 International Financial Management, G (3)

MGT 400 Cross-Cultural Management, C, G (3)

MGT 425 Global Human Resources (3)

MGT 459 International Management, G (3)

MKT 425 Global Marketing Management, G (3)

SCM 463 Global Supply Chain Management, G (3)

study abroad business courses*

*300+ level WPC-prefixed courses earned on a sponsored ASU Study Abroad program may be applied toward the IBC elective area, per approval of the international programs coordinator. Courses applied toward the W. P. Carey business core cannot be used toward the IBC elective area.

B. Nonbusiness Global Awareness Course Work (9)

These hours may be satisfied by any combination of the following:

- **Recommended:** It is recommended to choose courses related to the area of study abroad experience. Additional courses may be approved by the international program coordinator.
- Students can choose any of the university-designated nonbusiness global awareness ("G") courses.
- One course must be upper-division to meet the 12 upper-division hours requirement.
- Nonbusiness global awareness hours may also be satisfied by:
 - An ASU or W. P. Carey School of Business education abroad program earning six credit hours or more fulfills six of the credit hours of nonbusiness global requirements.
 - An ASU or W. P. Carey School of Business education abroad program earning three credit hours fulfills three of the credit hours of nonbusiness global requirements.

C. Foreign Language Proficiency

The certificate program requires the equivalent of one year of college-level study of a foreign language. Foreign language proficiency is met in one of the following ways:

- completion of one year (two semesters) of the same foreign language at the college level
- completion of one semester of the equivalent of 101- and 102-level course work
- completion of two years of the same foreign language in high school with a minimum grade of "C" (2.00 on a 4.00 scale)
- documentation of a proficiency test confirming preparedness to start at least the second year of a foreign language (201 level or above)

A student whose native language is not English may have this requirement waived.

Enrollment Requirements:

The certificate application is accessed and submitted through Advising SOS: <https://wpcarey.asu.edu/SOS> (<https://wpcarey.asu.edu/SOS>). Please contact the department for more information and see <https://my.wpcarey.asu.edu/undergrad/academics/ibc.cfm> (<https://my.wpcarey.asu.edu/undergrad/academics/ibc.cfm>).

International Cinema Certificate (LAICINCERT)

Campus: Tempe

Description:

The power of international cinema lies in its ability to underscore national differences and engage diverse viewpoints. The certificate program in international cinema provides undergraduates with the means to explore and understand the role that international film plays in highlighting cultural diversity; reflecting the sociocultural, political and economic currents of the period and cultural setting depicted; and calling into question an accepted idea of the dominance of Hollywood film. The certificate provides an integrated pathway through the variety of international film courses already offered in the School of International Letters and Cultures. It explores facets of international film history and production often not covered by American programs in film studies and allows students majoring in a second language the opportunity to explore a particular culture's filmic heritage and avenues for comparative analysis between the filmic heritage of two or more cultures. Students majoring in other areas can encounter visual narratives different from their own, and connect international cinema to their own respective experiences.

Program Requirements:

The certificate requires 18 credit hours. A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Required core course: (3 credit hours)

SLC 440 Film Theory and Criticism, HU (3)

Five elective courses: (15 credit hours)

CHI 345 Chinese Film and Civilization (3)

FMS 426 Films of India (3)

FMS 427 Identity and World Film (3)

FMS 430 Artists in Film: Artists' Biopics (3)

FMS 441 Global Cinema, HU and G (3)

FRE 325 French Language and Culture through Film (3)

GER 445 The Holocaust in German-Mediated Memory (3)

GER 446 Weimar-Era German Film (3)

ITA 420 Italian Cinema (3)

KOR 347 Korean Film and Literature, HU (3)

RUS 424 Tolstoy and War and Peace in Russian Literature and Cinema, L or HU (3)

SLC 450 Experimental Narrative (3)

SPA 494 Special Topics: Latin American Film (3)

THE 404 World Cinema, G (3)

THE 422 Latina and Latino Theatre and Film, HU and C (3)

Additional courses may be approved by the coordinator of the certificate program.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Degree students: ASU students in sophomore standing or above, with at least a 2.50 GPA (scale is 4.00 = "A") in any degree program will be eligible for the international cinema certificate program.

Ordinary fees for the School of International Letters and Cultures learning support service will apply --- currently \$30 per class for some School of International Letters and Cultures classes.

Admission to the certificate program will be approved by the certificate coordinator, Daniel Gilfillan, in consultation with advisors.

International Studies Certificate (LAINSCERT)

Campus: Tempe

Description:

The international studies certificate is designed to prepare students for careers in government agencies, international governmental and nongovernmental organizations, multinational firms and banks, and for graduate studies in international relations or political science. The certificate is not a substitute for degree requirements in any subject, including political science; rather, the required courses add an international and comparative dimension to the student's chosen major.

Program Requirements:

Requirements for the certificate are intended to provide an understanding of international relations and comparative government, an awareness of global, social and political-economic processes, and sensitivity to foreign political systems and cultures. These objectives are met by a sequence of political science and global studies courses in the areas of international relations, comparative politics and area studies. Students majoring in any subject at the university may be awarded the international studies certificate upon completion of the following 15 credit hours of political science and global studies courses.

Choose one from the courses below:

POS 150 Comparative Government, SB, G (3)

POS 160 Global Politics, SB, G (3)

Choose one from the courses below:

POS 361 American Foreign Policy, SB, G (3)

POS 364 National Security, Intelligence and Terrorism, SB (3)

Choose two from the courses below:

POS 300 Contemporary Global Controversies, SB, G (3)

POS 368 Ethics and Human Rights (3)

POS 465 International Organization and Law, SB, G (3)

POS 467 International Security, SB, G (3)

POS 486 International Political Economy, SB, G (3)

SGS 301 Principles of Global Studies (3)

SGS 303 Global Trends, SB (3)

Choose one from the courses below:

POS 305 Politics and Film, SB (3)*

POS 350 Comparative Politics, SB, G (3)

POS 351 Democratization, SB, G (3)

POS 356 European Union, SB, G (3)

POS 357 South Asia Politics, SB, G (3)

POS 358 Southeast Asia, SB, G (3)

POS 359 African Politics and Society, SB, G (3)

POS 360 World Politics, SB, G (3)

POS 452 China, SB, G (3)

POS 453 Latin America, SB, G (3)

POS 454 Mexico, SB, G (3)

POS 468 Comparative Asian Foreign Policies, SB, G (3)

SGS 360 Cultural Aspects of Globalization (3)

*Approved topics only. Students must meet with an academic advisor in the School of Politics and Global Studies to select appropriate topics.

Certificate students must have a minimum GPA of "C" (2.00 on a 4.00 scale); only courses in which students have a grade of "C" (2.00 on a 4.00 scale) or higher count toward the certificate. A minimum of six upper-division credit hours must be taken in courses offered by the College of Liberal Arts and Sciences.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the university's online application for admission. Please contact the School of Politics and Global Studies for more information about completing the international studies certificate.

Islamic Studies Certificate (LAISLCERT)

Campus: Tempe

Description:

The certificate program is designed to prepare students for graduate programs in religious studies, Islamic studies and area studies or for any academic discipline (such as professional programs in international law and business) that focuses on global Muslim society.

Program Requirements:

Students complete a minimum of 26 credit hours, chosen in consultation with the Islamic studies program coordinator. A minimum grade of "C" (2.00 on a 4.00 scale) is required in each course. A minimum of 12 upper-division credit hours are required. To earn the certificate, students must complete these requirements:

eight credit hours of Arabic, Indonesian, Farsi or another Islamic language approved by the program coordinator*

nine credit hours of required core courses:

- REL 260 Introduction to Islam, HU, G (3)
- REL 365 Islamic Civilization, HU, H (3)
- REL 366 Islam in the Modern World, HU, G (3)

nine credit hours in elective course work from a variety of disciplines that deal with Islam or Islamic studies, including courses from at least two of three geographic regions (Africa and the Middle East, American and Europe, Asia)**

*Students who are native speakers of these languages or who otherwise have equivalent knowledge may substitute eight hours of additional course work approved by the program coordinator.

**Students work with an academic advisor in the School of Historical, Philosophical and Religious Studies to select appropriate elective courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to study at ASU is eligible for the Islamic studies certificate program. There are no specific admission requirements other than a student's desire to learn about Islam and Islamic societies and culture.

Students wishing to add the certificate in Islamic studies to their plan of study must consult with an academic advisor in the School of Historical, Philosophical and Religious Studies. Students who complete all the requirements of their undergraduate major, their college and the certificate program receive the certificate plus transcript recognition of its completion.

Jewish Studies Certificate (LAJUDCERT)

Campus: Tempe

Description:

The Jewish studies program is designed with the following goals in mind:

- examine the history and culture of the Jews
- generate and facilitate research on Judaica

- provide a model for transdisciplinary teaching and research
- provide the community with programs, courses and research, furthering the understanding of Judaica
- stand as an example of the university's commitment to a program of meaningful ethnic studies on a firm academic base

Program Requirements:

To complete the certificate in Jewish studies, a student must successfully complete 21 credit hours in approved Jewish studies with a grade no lower than a "C" (2.00 on a 4.00 scale) in any course. At least 12 credit hours must be completed at the upper-division level. Students should declare the Jewish studies certificate as early as possible in their program of study with an academic advisor in the School of Historical, Philosophical and Religious Studies. Curriculum requirements include the following:

- completion of at least two semesters of Hebrew language or equivalent approved courses
- one Jewish studies course in three of the following five areas:
- history
 - humanities
 - literature
 - religious studies
 - social studies
 - two courses of the student's choice in any Jewish studies-related subject

Students petition for receipt of the certificate by notifying the School of Historical, Philosophical and Religious Studies advising center upon completion of courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. Students wishing to pursue the certificate must make a formal declaration of intent through the submission of the certificate in Jewish studies application to the School of Historical, Philosophical and Religious Studies advising center.

Korean Studies Certificate (LAKORCERT)

Campus: Tempe

Description:

The certificate in Korean studies aims to train and produce students who are linguistically able and culturally informed. The program consists of two major components. The first is to build students' Korean language proficiency in the areas of speaking, listening, reading and writing. The second is to offer students a broad range of knowledge of the culture, literature, history, art and religions of Korea. The certificate allows students to focus on Korean studies, which cannot be attained through the existing degree or nondegree programs in East Asian studies at ASU.

The program will enrich students' perspectives on different cultures and societies at the intellectual level and also equip students with practical knowledge of Korea that will benefit careers in various professions, including academia, government work, international trade, nongovernmental organizations and translations.

Program Requirements:

The certificate in Korean studies requires 22 credit hours, at least 12 of which must be completed at the upper-division level. All courses used toward the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Korean language courses: (10 credit hours)*

KOR 101 First-Year Korean I (5) and KOR 102 First-Year Korean II (5) or KOR 201 Second-Year Korean I, G (5) and KOR 202 Second-Year Korean II, G (5)

*Course substitutions may be permitted for heritage speakers and other advanced speakers of the Korean language based on their Korean language proficiency level as determined by the Korean Placement Test.

Students must also take the 12 credit hours (4 courses) from the following course list:**

KOR 321 Korean Literature and Translation (3)

KOR 347 Korean Film and Literature, HU (3)

KOR 350 Women of Korea, H (3)

KOR 354 Religious Traditions of Korea, HU (3)

**Additional courses may be approved by the coordinator of the certificate. These credit hours will be chosen in consultation with a School of International Letters and Cultures advisor or the coordinator of the certificate. The completion of the requirements will be reviewed both by the students' designated advisors and the coordinator of the program.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

ASU students admitted to a degree program in any field of study would be eligible for the Korean studies certificate program. Please contact the School of International Letters and Cultures for more information about completing the certificate.

Latin American Studies Certificate (LALASCERT)

Campus: Tempe

Description:

The Latin American studies certificate program is designed to give students an understanding of the culture, economies, political structures and history of Latin American nations. The certificate combines six courses across disciplinary boundaries to provide a diverse perspective of the Latin American experience. The Department of Economics, the School of Geographical Sciences and Urban Planning, the School of Historical, Philosophical and Religious Studies, the School of Politics and Global Studies, the School of Human Evolution and Social Change, the School of International Letters and Cultures (Spanish and Portuguese) and the School of Transborder Studies offer courses that combine in the transdisciplinary certificate.

Program Requirements:

Language Requirement:

The certificate requires Spanish or Portuguese proficiency through the 313 level of conversation and composition. Native speakers, or those with in-field experience equivalent to SPA 313 or POR 313 can have this requirement waived. The School of International Letters and Cultures, under the leadership of its director, is charged with the evaluation of language competency.

Language instruction courses dealing with Spanish and Portuguese conversation and composition cannot be used to satisfy the content course requirement. While students are encouraged to enroll in language instruction courses (i.e., conversation and composition) above the 313 level, they cannot apply such course work to the Latin American studies certificate course requirements.

Latin American Content Course Requirements:

Students will take 18 upper-division credit hours (six courses) from the list of undergraduate Latin American content courses. See the advisor in the School of International Letters and Cultures for the list of courses. Students are required to select nine credit hours (three courses) from within their major and nine credit hours (three courses) outside their major.

Courses include but are not limited to:

POR 472 Luso-Brazilian Civilization, HU, G (3)

SPA 427 Colonial and Post-Colonial Latin American Literature, L or HU (3)

SPA 428 Foundational Texts of Latin American Literature Since Modernismo, L or HU, G (3)

SPA 429 Writing Mexico: Major Texts, L or HU, G (3)

SPA 454 19th-Century Spanish American Narrative (3)

SPA 456 20th-Century Spanish American Fiction (3)
SPA 471 Civilization of the Indohispanomexicano Southwest, L or HU, C (3)
SPA 472 Latin American Society: Five Case Studies HU, H, G (3)
SPA 474 Revolutionary Mexico and Postmodern Revisions L or HU, G (3)

At least four of the six courses must be taken from courses offered by the College of Liberal Arts and Sciences. Only courses completed with a grade of "C" (2.00 on a 4.00 scale) or better may be used to satisfy the requirements for the certificate.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate.

For more information, contact the School of International Letters and Cultures and see the school's website.

Leadership and Ethics Certificate (PPLDECERT)

Campus: Downtown Phoenix

Description:

The certificate in leadership and ethics is designed for undergraduate students who are interested in developing leadership skills or wish to enhance their degree in an existing major at ASU, working adults who may wish to further their education yet may not be looking for a degree program, or BIS students who seek to combine certificates with their degree.

The certificate program provides a catalyst for students to become ethical leaders of organizational and community change. This certificate is designed to:

- explore the relationship between leadership and the capacity for individuals to assume responsibility for their actions and to act with a sense of ethics and integrity
- focus on understanding the broad transdisciplinary field of leadership and its application to various elements of society and community
- prepare individuals for positions of leadership and responsibility in the university, in student organizations, in their communities and throughout their careers in business, government and society

Program Requirements:

The certificate in leadership and ethics requires four core courses (12 credit hours), including a leadership capstone experience, plus one elective discipline-based course in leadership or ethics (3 credit hours). The three credit hours of elective course work may be selected from an approved list of elective classes or upon the recommendation of the department.

All courses applied to the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Core Courses:

PAF 311 Leadership and Change, SB (3)
PAF 410 Building Leadership Skills, SB (3)
PAF 421 Leadership Capstone (3)
PAF 460 Public Service Ethics (3)

Electives: (choose one from the following list)

BUS 497 or HON 497 Honors Colloquium (3)
COM 430 Leadership in Group Communication (3)
MGT 300 Organization and Management Leadership (3)
PAF 420 Public Leadership (3)
POS 314 The American Presidency, SB (3)
NLM 430 Managing Nonprofit Organizations, L (3)

All core courses and the leadership capstone must be taken at Arizona State University. Any course substitutions for the certificate are at the discretion of the School of Public Affairs.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

There are different application requirements, depending on the student's enrollment status with ASU. Students are also encouraged to schedule an appointment with the undergraduate academic adviser in the School of Public Affairs.

Undergraduate Students Currently Enrolled at ASU

Current students interested in earning the certificate must complete a request to add an undergraduate certificate and return it to the undergraduate academic advisor in the School of Public Affairs at the University Center on the Downtown Phoenix campus. Students may begin taking courses before they formally register for the certificate; however, they are encouraged to complete the paperwork as soon as possible.

Download the request to add an undergraduate certificate at <https://students.asu.edu/forms/undergraduate-certificate> (<https://students.asu.edu/forms/undergraduate-certificate>).

Individuals Not Currently Enrolled at ASU

Individuals who are not currently enrolled as students at Arizona State University must complete an application to enroll as a nondegree-seeking student before they may begin taking courses. For information on admission and to complete an application, visit the university's nondegree student admission page at <https://students.asu.edu/admission/nondegree> (<https://students.asu.edu/admission/nondegree>).

Once students have been admitted, they are eligible to enroll in courses to complete the certificate program.

Leadership in Business Certificate (BALIBCERT)

Campus: Polytechnic, Tempe, West

Description:

The leadership in business certificate is designed to help students understand the concept of leadership, to cultivate their leadership identity and to understand how the development of their leadership skills will impact their professional development. Through this certificate program, students will develop a strong set of skills necessary for success in a dynamic workplace including communication, teamwork and collaboration, and problem-solving skills.

Program Requirements:

Required leadership course work: (6)
MGT 310 Collaborative Team Skills (3)
MGT 411 Leading Organizations (3)
Elective course work: (9)
two courses of leadership development electives (6)
one cultural competency elective (3)

Completion of four cocurricular experiences:

- Complete an approved internship. This must include internship or employment supervisor documentation. This requirement must be completed after approval to add the certificate.
- Complete an ASU-affiliated study abroad program or 75 hours of service learning or community service.
- Hold an approved leadership position on an executive board with a registered ASU club or organization on campus. This must be approved by the organization's staff or faculty advisor.
- Hold an approved leadership role in support of the W. P. Carey School of Business or ASU community.

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this certificate.

Enrollment Requirements:

W. P. Carey students may apply to this program once they have completed MGT 310 Collaborative Team Skills (3) and at least one of the four required experiences.

Leadership, Ethics and Service Certificate (PPLETSCERT)

Campus: Downtown Phoenix

Description:

The certificate program includes course work with an emphasis on values, ethics, leadership and public service. In addition to in-class instruction, the certificate includes a service learning component during the summer and out-of-classroom activities.

Program Requirements:

The certificate consists of the following courses:

CRD 435 Service Learning for Community Development (3)
NLM 235 Leadership and Ethics (3)
NLM 410 Social Entrepreneurship (3)
PAF 400 Senior Capstone Project (3)
PAF 410 Building Leadership Skills, SB (3)

A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students interested in this certificate should schedule an appointment with the assistant dean for the College of Public Service and Community Solutions by calling 602-496-0600.

Lesbian, Gay, Bisexual and Transgender Certificate (PPLGBTCERT)

Campus: Downtown Phoenix

Description:

The undergraduate certificate in lesbian, gay, bisexual and transgender studies is offered by the Committee on Lesbian, Gay, Bisexual and Transgender Studies, administered through the College of Public Service and Community Solutions. Advising is provided through the College of Letters and Sciences. Lesbians, gay men, bisexuals and transgendered people play important roles as colleagues, clients, parents, children, siblings, neighbors, employees, employers, religious leaders and friends. Given the increasing visibility and changing political climate for LGBTQ people in the United States, all students, not only those who identify themselves as gay, lesbian, bisexual or transgender, are served well by

learning about the histories, communities and contemporary social issues regarding people from LGBTQ backgrounds.

The educational experience is enhanced when students are introduced to complex intersections between and among sexual, racial, ethnic, religious, geographic and national identities. The philosophy of this certificate program is to promote intellectual and pedagogical diversity as one of the university's greatest assets, and this is done, in part, by instilling in students a sensitivity to cultures different from their own and through careful analysis of the self in historical, artistic and sociocultural contexts.

The goals of the certificate program are to give students:

- knowledge about the history, evolution of and current issues facing the LGBTQ community
- practical experience utilizing course work knowledge in the community through an internship or community service project
- theoretical perspectives on heterosexuality as a presumptive sexual identity
- an understanding of lesbian, gay, bisexual and transgender studies as an academic area of inquiry
- an understanding of community politics, dynamics and conflicts
- use-inspired education that culminates in a public presentation

Program Requirements:

The certificate requires 15 credit hours; a minimum of 12 must be upper-division.

Required Courses:

SWU 180 Introduction to Lesbian, Gay, Bisexual and Transgender (LGBT) Studies, SB, C (3)

Electives (9):

electives are selected from an approved list*

Capstone (3)

*Please see: <https://cls.asu.edu/lgbt/checksheets> (<https://cls.asu.edu/lgbt/checksheets>).

A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students interested in admission to the certificate program should meet with an LGBT certificate academic advisor in the College of Letters and Sciences as soon as possible in order to complete a certificate declaration form and to select courses that most appropriately meet students' individual needs. For more information see: <https://cls.asu.edu/lgbt/> (<https://cls.asu.edu/lgbt/>).

Medieval and Renaissance Studies Certificate (LAMRSCERT)

Campus: Tempe

Description:

In order to reflect the transdisciplinary nature of the field, the Arizona Center for Medieval and Renaissance Studies has established a certificate program for undergraduate students in medieval and Renaissance studies.

The program provides students the opportunity to take classes from several disciplines and to receive training in both Latin, the international language of the periods, and early vernacular languages. Obtaining the certificate prepares undergraduate students for advanced study in their fields.

Program Requirements:

In addition to the course work and examinations required in a student's major field of study, students must complete a minimum of 18 credit hours to

earn the certificate:

two semesters (6-8 credit hours) of classical Latin or biblical Hebrew

two semesters (6-8 credit hours) of either classical or Medieval Latin, biblical Hebrew, or of a vernacular language of the period (e.g., Old English, Old Norse, Old French, Renaissance Italian)

two semesters (6 credit hours) of upper-division course work (300-level or above) in medieval and Renaissance studies outside the student's major discipline

a thesis of approximately 25 pages in length written within the student's major discipline for an upper-division course on a topic concerning the Middle Ages or Renaissance*

*Students may earn three course credits for the thesis if taken as an individualized instruction course (e.g., ENG 499, HST 499, REL 499) at ASU. The thesis may be used to fulfill the thesis requirement for students enrolled in the Honors College.

A minimum of a "C" (2.00 on a 4.00 scale) is required in all course work leading to the certificate.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to a degree program at ASU may complete a certificate. Please contact the Arizona Center for Medieval and Renaissance Studies for more information and to complete the online application <https://acmrs.org/academic-programs/certificate/undergrad> (<https://acmrs.org/academic-programs/certificate/undergrad>).

Modern Hebrew Certificate (LAHEBCERT)

Campus: Tempe

Description:

The certificate program in modern Hebrew provides students with a firm foundation in modern Hebrew language and a broad knowledge of Israeli culture, leading to advanced skills in reading, writing and conversing in modern Hebrew. The certificate program also includes study of the Israeli culture, literature, politics and history. It enriches students' perspectives on the Middle East and offers deeper understanding of current affairs. Students pursuing careers in foreign politics, international business, tourism, media, translation and in different levels of education will benefit from this certificate program.

Program Requirements:

The certificate requires 20 credit hours. A "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required courses: (14 credit hours)

HEB 201 Intermediate Modern Hebrew, G (4)

HEB 202 Intermediate Modern Hebrew, G (4)

HEB 313 Advanced Modern Hebrew, G (3)

HEB 314 Advanced Modern Hebrew, G (3)

Elective courses: (6 credit hours)

HEB 347/JST 347/SLC 347 Modern Israeli Literature in Translation, HU and G (3)

HEB 348/JST 348/SLC 348 or REL 311 Israeli Society and Culture, HU and G (3)

HST 372 Modern Middle East, SB, G and H (3)

Note: A minimum of 12 credit hours must be earned at ASU or in an ASU-approved study abroad program.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

ASU students admitted to a degree program in any field of study will be eligible to enroll in the modern Hebrew certificate program. In order to be admitted to the certificate program, students must complete HEB 101 and 102 Elementary Modern Hebrew, G (4) to satisfy the requirements to enroll in HEB 201 Intermediate Modern Hebrew, G (4).

Nonprofit Professional Certificate (PPNPYCERT)

Campus: Downtown Phoenix

Description:

This nationally recognized certificate program awards qualified students from diverse academic fields with the National Certified Nonprofit Professional credential. The CNP is awarded through the Nonprofit Leadership Alliance (formerly American Humanics, Inc.), a consortium of universities, nonprofits and funders that are committed to preparing students for management careers in the nonprofit sector.

The NLA/ASU program provides curricular and cocurricular programs that prepare students through its competency-based, experiential educational framework. The program is ideal for students wishing to complement their majors with a strong core of nonprofit management knowledge and skills through professional affiliation with and certification by the Nonprofit Leadership Alliance, the nation's leader in education for nonprofit careers. NLA collaborates with a number of national nonprofit organizations as well as locally based grassroots organizations that actively seek NLA/ASU program interns and job candidates.

Program Requirements:

The program includes active participation by nonprofit professionals who offer workshops, seminars, mentoring and field trips. The certified nonprofit professional credential can be earned in conjunction with any bachelor's degree and requires successful participation in cocurricular, experiential activities in addition to required academic course work.

Required Courses:

NLM 220 Introduction to Nonprofit Organizations (3)
NLM 300 Fund Raising and Resource Development (3)
NLM 310 Volunteer Management (3)
NLM 320 Professional Development Seminar (4) (one credit each, over four semesters)
NLM 420 Nonprofit Leadership Alliance Institute (1-2)
NLM 430 Managing Nonprofit Organizations, L (3)
NLM 463 Senior internship (6-12) or NLM 484 Internship (1-12)*

*NLM 484 Internship is for students not pursuing a Nonprofit Leadership and Management major.

Standards:

- 30 hours of graded course work
- minimum "C" (2.00 on a 4.00 scale) grade required for all classes in the certificate
- minimum GPA of 2.00 for those pursuing the certificate
- should be a junior to take 400-level courses

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Applications for the Certified Nonprofit Professional certificate are available through the School of Community Resources and Development academic advisors and the Nonprofit Leadership Alliance senior program coordinator.

For U.S. Department of Education Gainful Employment Program Disclosure information, see <https://catalog.asu.edu/files/disclosures/PPNPYCERT/Gedt.html> (<https://catalog.asu.edu/files/disclosures/PPNPYCERT/Gedt.html>).

Oral History Certificate (ASOHCCERT)

Campus: West

Description:

The certificate in oral history, offered by the School of Humanities, Arts and Cultural Studies, introduces the interdisciplinary theories and methods required to collect, document and preserve the stories of people's lives. Through the oral history certificate, students will gain an understanding of and appreciation for diverse cultures, past and present, and will engage in oral history research and interviewing. Students may build on existing projects or develop new community relationships at local, national and international levels. With the knowledge and skills to abide by the professional standards involved in oral history documentation, research and presentation, students leave the program better prepared for graduate programs or careers that integrate oral history.

Program Requirements:

Students must meet with the program coordinator to review the certificate requirements and sign the certificate check sheet agreement. The student should also consult an academic advisor in the college, school or department of their major to make sure the college, school or department recognizes the certificate. All course work in the program must be completed with a grade of "C" (2.00) or higher. A total of 18 credit hours is required.

Residency Requirement:

Of the 18 upper-division credit hours required for the certificate, students must complete a minimum of six upper-division (300 and 400 level) credit hours offered by the School of Humanities, Arts and Cultural Studies.

Core Requirements:

HRC 310 Social and Cultural Studies: Method and Theory (3)

HRC 480 Capstone: Practices and Approaches (3)

The course bank includes upper-division courses offered throughout the university. Students may choose from the following prefixes, upon approval by appropriate faculty or advisor:

- American Studies (AMS)
- Communication Studies (COM)
- English (ENG)
- Ethnic Studies (ETH)
- History (HST)
- Humanities, Arts and Cultural Studies (HRC)
- Interdisciplinary Arts and Performance (IAP)
- Integrative Studies (IAS)
- Latin American Studies (LAS)
- Philosophy (PHI)
- Religious Studies (REL)
- Sociology (SOC)
- Spanish (SPA)
- Women and Gender Studies (WST)

Recommended Courses:

COM 342 Oral History and Storytelling (3)
ENG 317 Cross-Cultural Writing, L or HU, G (3)
ENG 361 Scriptwriting (3)
ENG 376 Writing a Personal History, L (3)
ENG 377 Editing Family History for Public Audiences, L (3)
ENG 412 Creative Nonfiction (3)
ENG 476 Studies in Folklore, L or HU or SB, C (3)
IAP 331 Performance, Acting and the Individual (3)
IAP 364 Documentaries (3)
SOC 389 Ethnographic Field Lab (3)
WST 370 Chronicling Women's Lives, HU, C (3)
WST 473 Indigenous and Latina/Chicana Representation, SB, C (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The certificate in oral history is open to all ASU undergraduate majors. This certificate is also available for graduate students, nondegree students and students majoring in professional programs. Students wishing to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken and the required paperwork is submitted.

Philosophy, Rhetoric and Literature Certificate (ASPRLCERT)

Campus: West

Description:

The certificate in philosophy, rhetoric and literature, offered by the School of Humanities, Arts and Cultural Studies, is an interdisciplinary humanities program that integrates continental philosophy and religion, critical theory, rhetoric, literary criticism, aesthetics and communication. Through course work, students examine philosophical approaches to literary studies, conflicts between rhetoric and philosophy, and rhetorical elements of literature and theory. This program will prepare students for advanced study in the humanities, social and behavioral sciences, and the arts as well as lifelong learning in a variety of fields.

Program Requirements:

The certificate in philosophy, rhetoric and literature is awarded for successful completion of 18 upper-division credit hours of course work:

- one course (3 credit hours) in Core I: Rhetorical Perspectives
- one course (3 credit hours) in Core II: Continental Philosophy
- twelve elective credit hours from the approved course list in philosophy, rhetoric and literature (6 credit hours from Pool A and 6 credit hours from Pool B)

All elective course offerings from the course bank will be regularly updated and overseen by the facilitators of the certificate program. Students must meet with the program academic advisor to review the requirements and sign the certificate check sheet. Students should also consult an academic advisor in the college or department of their major to make sure the college or department recognizes the certificate. All course work in the program must be completed with a grade of "C" (2.00) or higher.

Of the 18 upper-division credit hours required for the certificate, 12 credit hours must be completed at ASU.

Core I Requirements

Rhetorical Perspectives: (3 credit hours)
ENG 400 History of Literary Criticism, L or HU (3)
ENG 472 Rhetorical Studies, L (3)

Core II Requirements

Philosophical Perspectives: (3 credit hours)

ENG 401 Topics in Critical Theory (3)

PHI 304 Existentialism, HU (3)

PHI 311 Philosophy and Literature, HU (3)

PHI 411 Continental Philosophy (3)

Pool A: (6 credit hours)

Political Entrepreneurship through Internships: Local to Global Certificate (LAPEICERT)

Campus: Tempe

Description:

The certificate is designed to prepare students for careers in public policy in global and domestic environments whether they be in governance organizations, nongovernmental organizations, nonprofit agencies, or private enterprises engaged in policy-making, implementation and critical assessment. The requirements include applied practice in these settings and an internship. A variety of internship opportunities exist for students with global national, state or local interests. Course work in the social sciences, humanities and business will prepare students to be participants in policy processes as an avenue of civic engagement.

Program Requirements:

The requirements include applied practice in public policy settings and internship opportunities. Students majoring in any subject at the university may be awarded the certificate upon completion of the following 15 credits (12 of which must be upper-division and nine of which must be taken from the College of Liberal Arts and Sciences):

Part One: Introductory Course

Select one of the following:

- POS 110 Government and Politics, SB (3)
- POS 150 Comparative Government, SB, G (3)
- POS 160 Global Politics, SB, G (3)
- POS 310 American National Government, SB (3)
- SGS 101 Thinking Globally: The Individual and Authority, SB (3)
- SGS 301 Principles of Global Studies (3)

Part Two: Policy and Leadership

Select one of the following:

- POS 325 Public Policy Development, SB (3)
- POS 351 Democratization, SB, G (3)
- POS 361 American Foreign Policy, SB, G (3)
- POS 364 National Security, Intelligence and Terrorism, SB (3)
- POS 410 Governing American Cities, SB (3)
- POS 426 Elements of Public Policy, SB (3)
- POS 468 Comparative Asian Foreign Policies, SB, G (3)
- POS 486 International Political Economy, SB, G (3)
- SGS 320 Mechanisms of Governance (3)
- SGS 321 International Institutions and Global Governance (3)
- SGS 340 Violence, Conflict and Human Rights (3)
- SGS 350 Economic Development and Globalization (3)

Part Three: Internship

Students may use three or six credits of the following:

- POS 484 Internship
- SGS 484 Internship

Part Four: Related Elective

Select one or two of the following depending on the number of credits taken in part three:

- BUA 380 Small Business Leadership (3)
- BUA 383 Small Business Working Relationships (3)
- COM 222 Argumentation, L (3)
- COM 225 Public Speaking, L (3)
- COM 230 Small Group Communication, SB (3)
- COM 250 Introduction to Organizational Communication, SB (3)
- COM 259 Communication in Business and the Professions (3)
- COM 312 Communication, Conflict and Negotiation (3)
- ENG 301 Writing for the Professions, L (3)
- FIN 380 Personal Financial Management (3)
- JUS 320 Community and Social Justice, SB, C (3)
- MGT 290 My Life Venture (3)
- MGT 380 Management and Strategy for Nonmajors (3)
- NLM 160 Voluntary Action and Community Leadership, SB (3)

NLM 220 Introduction to Nonprofit Organizations (3)
NLM 410 Social Entrepreneurship (3)
PAF 200 Public Service and Policy in the 21st Century (3)
PAF 201 Economics and Public Policy, SB (3)
PAF 300 Public Management and Administration (3)
PAF 311 Leadership and Change, SB (3)
PAF 340 Contemporary Policy Challenges (3)
PAF 410 Building Leadership Skills, SB (3)
PAF 420 Public Leadership (3)
PAF 460 Public Service Ethics (3)
POS 494 Special Topics: McCain Institute Policy Design (3)
SGS 204 Professional Global Career Development (or equivalent career exploration course) (3)
SOS 111 Sustainable Cities, HU or SB, G (3)
SOS 321 Policy and Governance in Sustainable Systems (3)
URB 305 Urban Governance (3)
URB 405 Citizen Engagement and Community Building (3)
USL 210 Service Learning: Intro to Diverse Community Issues, L, C (3)
USL 410 Service Learning: Diverse Community Issues, L, C (3)

Students earning the certificate must have a minimum GPA of 2.00 (scale is 4.00 = "A"); only courses in which students have a grade of "C" or higher count toward the certificate.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the Admission Services online application. Please contact the School of Politics and Global Studies for more information about completing this certificate.

Political Thought and Leadership Certificate (LAPTLCERT)

Campus: Tempe

Description:

The certificate program in political thought and leadership provides students with a strong foundation in the history of politics and political thought with a special emphasis on the role of leadership in that history. The certificate program will prepare students for leadership in their own careers, political or otherwise. Required courses combine academic study and mentoring contact with political, media and business leaders from the wider Phoenix area and Arizona communities, while electives drawn from a variety of disciplines are used to broaden the scope of emphasis.

Program Requirements:

This certificate requires 15 credit hours.

Required Courses: (6 credit hours)

HST 112 Foundations of Democracy (3)
HST 414 Political Thought and Leadership (3)

Upper-division Electives: (nine credit hours from at least two different disciplines; such courses may include, but are not limited to the following)

HST 315 Political History of the U.S., SB, H (3)
HST 317 History of Postwar U.S. Conservatism (3)
JUS 321 Wealth Distribution and Poverty, SB, C (3)
JUS 332 Politics of Energy Policy and Justice (3)
PHI 336 Social and Political Philosophy, HU (3)
POS 341 History of Political Philosophy II, HU, H (3)

REL 420 Religion in American Life and Thought, HU (3)

Additional upper-division courses from disciplines such as economics, history, justice studies, philosophy, public service and public policy, and religious studies may be used with approval. All courses must be taken in residence at Arizona State University.

A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students wishing to declare the certificate must meet with an academic advisor in the School of Historical, Philosophical and Religious Studies and one of the program's co-directors.

Professional Sales Certificate (BAPRSCERT)

Campus: Tempe

Description:

Designed for the nonmarketing business major, the certificate in professional sales was created for business students who are interested in pursuing the many opportunities in professional sales. With the inclusion of courses in professional sales as well as sales management, this certificate program prepares students to be successful account managers or sales team leaders in both business-to-business and business-to-consumer settings. An optional internship in sales is strongly encouraged as part of the professional sales certificate.

Program Requirements:

Prerequisite course:

MKT 300 Marketing and Business Performance (3) or MKT 303 Honors Marketing Theory and Practice, L (3)

Required courses:

MKT 370 Professional Sales and Relationship Management (3)

MKT 410 Sales Management (3)

Choose any two courses from the following set:

MGT 430 Negotiations (3)

MKT 435 Entrepreneurial Marketing (3)

MKT 441 Sports Revenue Generation (3) or MKT 460 Sports Revenue Generation (BS students only) (3)

MKT 484 Internship (in sales) (3)

MKT 493 Honors Thesis (3)

To receive the certificate, students must complete the specified business courses with a grade of "C" or higher (2.00 on a 4.00 scale).

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this certificate.

Enrollment Requirements:

Open to W. P. Carey School of Business, non-marketing majors. The certificate application is accessed and submitted through Advising SOS: <https://wpcarey.asu.edu/SOS> (<https://wpcarey.asu.edu/SOS>).

Contact Information:

Business, W. P. Carey School of

Public Administration and Public Management Certificate (PPPAFCERT)

Campus: Downtown Phoenix

Description:

The certificate in public administration and public management prepares students for citizenship, leadership and careers in governmental and nonprofit agencies. Students will learn the context and principles of public administration and how to apply these in a practitioner setting; the role of the public administrator in the design, implementation and evaluation of public policy; and how to lead change and address ethical issues in public service.

It is intended for undergraduate students who are interested in developing leadership skills or wish to enhance their degree in an existing major at ASU; for working adults who may wish to further their education yet may not be looking for a degree program; or for BIS students who seek to combine certificates with their degree.

The program is designed for students interested in public service who want to learn skills to:

- analyze critical issues
- build and bridge communities
- deliver and manage public programs
- improve the quality of life
- lead change in public policy
- preserve natural resources
- provide public safety
- reform welfare
- strengthen democratic governance

Program Requirements:

The certificate in public administration and public management consists of 15 credit hours of course work; students take 12 credit hours of core classes and three credit hours of elective courses. The three credit hours of elective course work may be selected from an approved list of elective classes, taken upon the recommendation of the department.

Core Courses:

PAF 300 Public Management and Administration (3)

PAF 340 Contemporary Policy Challenges (3)

PAF 420 Public Leadership (3)

PAF 460 Public Service Ethics (3)

Contact college for a list of approved electives.

A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

There are different application requirements, depending on the student's enrollment status with ASU. Students are also encouraged to schedule an appointment with the undergraduate academic advisor in the School of Public Affairs.

Undergraduate Students Currently Enrolled at ASU:

Current students interested in earning the certificate must complete a request to add an undergraduate certificate and return it to the undergraduate academic advisor in the School of Public Affairs at the University Center on the Downtown Phoenix campus. Students may begin taking courses before they formally register for the certificate; however, they are encouraged to complete the paperwork as soon as possible. Download the application at <https://students.asu.edu/forms/undergraduate-certificate> (<https://students.asu.edu/forms/undergraduate-certificate>).

Individuals Not Currently Enrolled at ASU:

Individuals who are not currently enrolled as students at Arizona State University must complete an application to enroll as a nondegree-seeking student before they may begin taking courses. For information on admission and to complete an application, visit the university's nondegree student

admission page at <https://students.asu.edu/admission/nondegree> (<https://students.asu.edu/admission/nondegree>).

Once students have been admitted, they are eligible to enroll in courses to complete the certificate program.

Religion and Conflict Certificate (LARELCERT)

Campus: Tempe

Description:

The certificate will be of particular interest for students pursuing careers in journalism, law, policy work, diplomacy, the military, public advocacy, publishing, education, ministry or other fields in which an enhanced understanding of religion and conflict is becoming increasingly vital.

Program Requirements:

Students complete a minimum of 18 credit hours of qualifying course work (at least 12 credit hours from ASU and at least 12 upper-division credit hours), consisting of regional, political and cultural components. To ensure that students are exposed to a wide variety of approaches to the study of religion and conflict, a transdisciplinary component requires that at least six of the 18 credit hours be fulfilled with courses from the humanities and at least three credit hours from the social sciences. In some cases, the same course can be used to fulfill several component requirements simultaneously.

Regional component (six credit hours):

Courses in this category provide students specific regional knowledge of how religion has been implicated in human conflict. Required course work in at least two different regions fosters a comparative understanding of the dynamics of religion and conflict in historical and global contexts.

Political component (three credit hours):

Courses in this category explore how religion influences or is influenced by matters of state, law, government or other dimensions of political life.

Cultural component (three credit hours):

Courses in this category provide students with an understanding of how religion operates as a powerful force that impacts and intersects with expressions of human identity, thought and culture.

Electives (six credit hours):

Any approved or qualifying course (either from the above categories or other approved classes) may be used as an elective to fulfill remaining requirements toward the total number of credit hours and to meet the transdisciplinary requirement.

Of the total 18 credit hours taken to fulfill the certificate, at least three must be from the social sciences (COM, JUS, POS, SGS, SOC or WST) and six from the humanities (ARB, HST, POR or REL).

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Religion and Conflict Course Offerings

A minimum grade of "C" (2.00 on a 4.00 scale) is required for a course to fulfill a certificate requirement. For a current list of approved courses, see the Center for the Study of Religion and Conflict website at <https://csrc.asu.edu/index.php?q=education/certificate-program> (<https://csrc.asu.edu/index.php?q=education/certificate-program>).

Enrollment Requirements:

Any student admitted to study at ASU may complete a certificate. To apply to the university, please complete the online application found on the Admission Services website. Students wishing to pursue the certificate must complete enrollment documents located in the student portal on the Center for the Study of Religion and Conflict website: <https://csrc.asu.edu/index.php?q=education/certificate-program> (<https://csrc.asu.edu/index.php?q=education/certificate-program>) before formally declaring the certificate with an academic advisor in the School of Historical, Philosophical and Religious Studies. For questions about the program, contact the certificate director in the Center for the Study of Religion and Conflict.

Risk Communication Certificate (ASRCMCERT)

Campus: West

Description:

The certificate in risk communication combines the strengths of the three schools within the New College of Interdisciplinary Arts and Sciences: the School of Social and Behavioral Sciences; the School of Mathematical and Natural Sciences, and the School of Humanities, Arts, and Cultural Studies. The rising importance of the field of risk communication stems from the need to name, understand and manage physical and social risks as we are faced with increasingly challenging decisions concerning stressed social and environmental infrastructures. Proficiency in risk communication requires understanding the complex interfaces of physical, biological, psychological and social systems. The certificate will prepare students for a range of diverse careers in risk management, crisis communications and environmental public affairs. Specifically, students will develop expertise suited to work as risk management specialists and environmental advocates, preparing them to translate complex scientific ideas and analyses into information that can be evaluated meaningfully by all members of society.

Program Requirements:

The certificate in risk communication requires 15 credit hours, 12 of which must be upper division. Eight credit hours must be unique credit hours not already being counted toward the students' BA or BS degree requirements in communication or environmental science. To earn the certificate, a "C" or better must be earned in each upper-division course.

Required Certificate Courses:

BIO 130 Introduction to Environmental Science, SQ (4) or ENV 201 Fundamentals of Environmental Science (3) (for ENV or BIO majors)
COM 415 Risk Communication (3)
Elective Certificate Courses: (complete three courses)

COM 414 Crisis Communication (3)
COM 454 Rhetorical and Critical Approaches to Public Relations (3)
IAS 340 Bioethics, HU (3)
IAS 407 Environmental Philosophy and Policy, L or HU (3)
IAS 409 Eco-Community Ethics, HU (3)
LSC 362 Human Environment (3)

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The certificate in risk communication is open to all ASU undergraduate majors. Students wishing to pursue this certificate should consult an academic advisor in the School of Mathematical and Natural Sciences or the School of Social and Behavioral Sciences to ensure the appropriate set of courses is taken and the required paperwork is submitted.

Russian and East European Studies Certificate (LAREECERT)

Campus: Tempe

Description:

The certificate in Russian and East European studies encourages students to develop special competency in Russian or East European languages and area studies. Course work leading to the certificate is offered in agr business, architecture, biology, economics, Eurasian languages (Armenian, Tajik, Tatar and Uzbek), geography, history, international business, music, political science, religious studies, Slavic and East European languages (Albanian, Bosnian/Croatian/Serbian, Macedonian, Polish, Romanian and Russian), sociology and women's studies. However, the certificate program is open to all students, regardless of major.

Certificate holders enhance their prospects for study abroad fellowships and graduate admissions and also qualify for unique entry-level government employment opportunities. Past certificate awardees have moved into positions of leadership in government, academia and the private sector.

Program Requirements:

The requirements for the Russian and East European studies certificate are 22 credit hours of Russian or another Eurasian or East European language and 30 credit hours in Russian, East European and Eurasian area-related course work, of which at least 24 credit hours are upper-division.

At least three disciplines must be represented in the area-related course work, and at least 12 credit hours must be outside the School of International Letters and Cultures (i.e., non-RUS, SLC and SLV courses). Fulfillment of these requirements is certified by the Melikian Center for Russian, Eurasian and East European Studies and is recognized on the transcript as a certificate in Russian and East European studies. The purpose of this undergraduate certificate program is to encourage students majoring in a chosen discipline to develop special competency in Russian, Eurasian or East European languages and area studies. A student with a major in any school or department may pursue this certificate and develop a personalized plan of study in cooperation with an advisor in the Melikian Center.

A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to study at ASU may pursue a certificate program. In order to apply to study at ASU, complete the Office of Admission online application. Please contact the Melikian Center for more information <https://melikian.asu.edu/> (<https://melikian.asu.edu/>).

Sales and Marketing Essentials Certificate (BASMECERT)

Campus: Tempe

Description:

Designed for undergraduate nonbusiness majors, the certificate program in sales and marketing essentials offers a set of courses that cover essential marketing knowledge in a wide variety of marketing application domains. While students are required to enroll in two fundamental courses in marketing for three credit hours each (MKT 390 Essentials of Marketing and MKT 391 Essentials of Selling), students can then choose three other courses from a larger set (services marketing, business marketing, global marketing, sports business and advertising) to tailor their certificate to their particular interests. While some courses are offered in a face-to-face setting, the entire certificate is offered via iCourse for flexibility and convenience.

Program Requirements:

The certificate in sales and marketing essentials requires 15 credit hours to complete and is available to undergraduate nonbusiness majors or nondegree-seeking students at ASU. The entire certificate may be taken online.

Required:

MKT 390 Essentials of Marketing (3)
MKT 391 Essentials of Selling (3)

Choose any three of the following set:

MKT 392 Essentials of Business Marketing (3)

MKT 395 Essentials of Advertising and Marketing Communication (3)
MKT 396 Essentials of Services Marketing (3)
MKT 397 Essentials of Global Marketing (3)
MKT 398 Essentials of Sports Business (3)

To receive the certificate, students must complete the specified business courses with a grade of "C" (2.00 on a scale of 4.00) or higher.

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this certificate.

Enrollment Requirements:

The certificate application is accessed and submitted through Advising SOS: <https://wpcarey.asu.edu/SOS> (<https://wpcarey.asu.edu/SOS>). Please contact the department for more information and see <https://my.wpcarey.asu.edu/undergrad/academics/sales-and-mkt-certificate.cfm> (<https://my.wpcarey.asu.edu/undergrad/academics/sales-and-mkt-certificate.cfm>).

Secondary Education Certificate (TESEDCERT)

Campus: Polytechnic, Tempe, West

Description:

The secondary education certificate program prepares students who wish to teach students enrolled in grades 6-12. While students develop a strong content background, the secondary education certification focuses on developing the requisite teaching knowledge and abilities to successfully teach middle or high school students. In order to integrate teacher preparation with the academic specialization, Teachers College collaborates and communicates with academic departments throughout the university. Clinical experience and student teaching are required components of this certificate. Students who complete this certificate program will be issued an institutional recommendation for certification in Arizona. Students desiring to teach in a public school must also pass the appropriate Arizona educator exams (either the National Evaluation Series or the Arizona Educator Proficiency Assessments) in both content area and professional knowledge to be certified to teach in the state of Arizona.

The secondary education undergraduate certificate is also available for students who have earned a bachelor's degree, this will be considered a nondegree graduate pathway.

Program Requirements:

The certificate requires a minimum of 30 hours.

Students must complete the identified courses and earn a minimum grade of a "C" (2.00 on a scale of 4.00) or higher to receive the certificate.

BLE 220 Foundations of Structured English Immersion (3)
RDG 323 Literacy Processes in Content Areas (3)
SED 322 Classroom Leadership in Secondary Schools, L (3)*
SPE 417 Inclusion Practices at the Secondary Level (3)
TEL 311 Instruction and Management in the Inclusive Classroom (3)
a methods course (see advisor for approved list based on content specialization) (3)

*literacy course

All students must complete the following clinical experiences:

SED 496 Clinical Experience III (1)

- Students are required to complete a minimum of one semester of field experience which includes one full day per week in a grade 6-12 classroom.

SED 478 Student Teaching in the Secondary School (11)

- A full-time 15-week student teaching experience is also required. Degree requirements for student's major must be completed prior to student teaching.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

- enrolled as a degree-seeking undergraduate or a nondegree-seeking graduate student
- have a 2.50 GPA
- have a valid Arizona DPS Identity Verified Print (IVP) fingerprint clearance card
- content knowledge in one of the following areas, demonstrated by having a minimum of 24 credits in course work for the major or a passing score on appropriate teacher certification exam: biology, business, chemistry, Chinese (Mandarin), earth and space science, economics, English, French, general science, geography, German, history, mathematics, physics, political science, Spanish

Small Business and Entrepreneurship Certificate (BASMBCERT)

Campus: Tempe

Description:

Students learn how to launch their own business or work with small or startup operations. Courses include small business, entrepreneurship and business plan development. Classroom work is complemented by frequent interaction with successful founders and leaders of entrepreneurial ventures.

Program Requirements:

The certificate requires 15 credit hours of courses, including the following six credit hours:

MGT 440 Entrepreneurship (3)
MGT 445 Business Model Development (3)

The remaining nine credit hours consist of three additional upper-division courses relevant to small business. A copy of the approved electives for business majors pursuing the certificate in small business and entrepreneurship can be found here:

https://my.wpcarey.asu.edu/undergrad/academics/upload/Certificate_Small-Business-Entrepreneurship-new.pdf
(https://my.wpcarey.asu.edu/undergrad/academics/upload/Certificate_Small-Business-Entrepreneurship-new.pdf). To receive the certificate, students must complete the specified business courses with a grade of "C" (2.00 on a 4.00 scale) or higher.

Depending upon a student's undergraduate program of study, additional courses may need to be completed as prerequisites in order to complete the requirements of this certificate.

Enrollment Requirements:

The certificate in small business and entrepreneurship is available only to business majors at ASU. Students majoring in Business Entrepreneurship or Management (Entrepreneurship) are not eligible to pursue this certificate. The certificate application is accessed and submitted through Advising SOS at: <https://wpcarey.asu.edu/SOS> (<https://wpcarey.asu.edu/SOS>). No more than six credit hours may be shared between the certificate and other degree programs.

Social Transformation Certificate (LASOTCERT)

Campus: Tempe

Description:

Students enrolled in the certificate learn how diverse communities, locally and globally, have achieved social change and consider how to apply what they have learned in identifying just solutions to the social problems facing communities today. The areas of focus include, but are not limited to:

- civil rights movements
- democracy movements
- gender equality
- gender justice
- labor movements

Program Requirements:

Students pursuing the certificate must complete 15 credit hours of course work, of which at least 12 credit hours must be completed at the upper-division level. At least 12 credit hours must be completed at ASU. There is no language requirement. Courses for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better. There are two required courses, a foundational core course and an upper-division capstone internship or independent study. The remaining nine credit hours must be taken at the upper-division level and selected from an approved list of courses.

Required courses:

- SST 220 Introduction to Social Transformation (3)
- an upper-division capstone internship or independent study: SST 484 Internship (3) or SST 499 Individualized Instruction (3)

Certificate elective courses:

In addition to the two required courses, certificate students must take three upper-division courses, or nine credit hours, related to social transformation and transformational knowledge. These courses may be chosen from the following course list. Additional related courses can be applied to the certificate with advisor approval.

AFR 325/JUS 326 Music as Political Discourse: Reggae, Calypso and Hip Hop, HU, H, G (3)

AFR 355 Democracy and Civil Society in Africa (3)

AFR 365/WST 364 Unruly Voices: Black Women and Cultural Narratives, HU, C (3)

AFR 420 Race, Ethnicity and Politics in the African Diaspora, SB, G (3)

AFR 470/WST 471 Women's International Human Rights (3)

Socially Engaged Practice in Design and the Arts Certificate (HISEPCERT)

Campus: Tempe

Description:

Socially engaged practice centers around participation, reciprocal relationships and collaborations in which arts and design promote civic dialogue and investigate pressing issues of our time. This certificate program provides a theoretical framework, rigorous training and field experience in arts and design in civic and applied settings.

Program Requirements:

The certificate in socially engaged practice in design and the arts requires 18 credit hours; 12 hours of upper-division course work is required. All upper-division courses must be completed with a minimum grade of "C" (2.00).

Required Courses:

HDA 210 Creativity and Innovation in Design and the Arts (3)
HDA 310 Socially Engaged Practice (3)
HDA 410 Seminar in Socially Engaged Practice (3)

Electives (6)

one upper-division and one upper- or lower-division elective*

Fieldwork (3)

*Electives are to be selected from the master list of courses flagged as socially engaged practice shown on the Herberger Institute website, http://herbergerinstitute.asu.edu/institute/initiatives/socially_engaged_certificate/ugrad_courses.php.
(http://herbergerinstitute.asu.edu/institute/initiatives/socially_engaged_certificate/ugrad_courses.php)

Students will complete a fieldwork assignment through an internship (HDA 484 or a 484 course in a specific Herberger Institute arts or design discipline) or an individualized study (a 499 course in a Herberger Institute arts or design discipline) or other capstone course approved by petition through the Herberger Institute Office of Student Success.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

A minimum GPA of 3.00 is required to complete the certificate. The certificate is administered through the Office of Student Success in the Herberger Institute and is open to all undergraduate students admitted to ASU or nondegree undergraduate students wishing to complete the certificate only.

Students enrolled in the BA in the arts in the Herberger Institute must complete three additional hours of course work unique to the certificate program that does not also count toward their major (due to the overlapping requirements of HDA 210 and HDA 310).

Socio-Legal Studies Certificate (LASLSTCERT)

Campus: Tempe

Description:

The distinction between law on the books and law in action, which refers to how people experience law in their everyday lives, is a cornerstone of the certificate program. The undergraduate certificate in socio-legal studies offers a model for educating and training students in the study of legal ideas, institutions and practices from the perspectives of the social sciences, law and the humanities.

Program Requirements:

Students must complete 15 credit hours of qualifying course work from ASU. A minimum grade of "C" (2.00 on a 4.00 scale) is required for a course to count toward the certificate.

Core Theory and Foundation Courses: (6 credit hours; select two courses)

JUS 303 Justice Theory, L (3)
JUS 308 Courts and Society (3)
JUS 360/CRJ 350 Law and Social Control, SB (3)
JUS 410 Punishment: Logic and Approach (3)
JUS 463 Discretionary Justice, SB (3) or CRJ 470 Discretionary Justice, L or SB (3)
JUS 465 Death Penalty in the United States, L (3)
JUS 479 Law and Disputing, L or SB (3)
PHI 307 Philosophy of Law, HU (3)
PHI 336 Social and Political Philosophy, HU (3)
PHI 408 Feminist Ethics, HU (3)
POS 315 The Supreme Court, SB (3)
POS 465 International Organization and Law, SB, G (3)
POS 471 Constitutional Law I, SB (3)
POS 472 Constitutional Law II, SB (3)

Interdisciplinary Elective Component: (9 credit hours)

To provide students an opportunity to focus on a particular area of socio-legal justice, students will select three electives. The courses must be taken from at least two academic units. For questions pertaining to any courses listed or additional course options, please speak with the certificate program director. Exceptions need to be approved in advance of enrollment.

AFR 215 Bob Marley and Reggae: Lyrics of Resistance, HU, G (3)
AFR 301/JUS 300 Race and Racism in Africa/African Diaspora, SB, G (3)
AFR/JUS 304 Islands of Globalization: Caribbean Politics and Political Economy, SB, G, H (3)

Southeast Asian Studies Certificate (LASALCERT)

Campus: Tempe

Description:

The certificate in Southeast Asian studies can supplement a bachelor's degree by demonstrating knowledge of a Southeast Asian language and Southeast Asian history, art, culture and society.

This certificate prepares students for admission to graduate programs in Southeast Asian area studies, or in an academic discipline with a focus on Southeast Asia, or for advanced programs in international law, journalism, business or other professional fields.

Recent graduates have gone on to enter medical school and MBA and doctoral programs. An earned certificate will appear on student transcripts as a Southeast Asian studies emphasis.

Program Requirements:

The certificate requires a simultaneous two-year sequence in a Southeast Asian language (Indonesian, Thai or Vietnamese) and 18 credit hours, of which a minimum of 12 credit hours must be upper-division, including the three courses listed below plus two electives (selected from an approved list available at the advising office) and a three credit capstone project.

Required Courses:

ASB 240 Introduction to Southeast Asia, HU or SB, G (3)*
ASB 325 Peoples of Southeast Asia, G (3)
HST 391 Modern Southeast Asia, SB, G, H (3)

Suggested electives include but are not limited to:

GCU 433 Geography of Southeast Asia (3)
HST 456 The Vietnam War, SB, G, H (3)
POS 358 Southeast Asia, SB, G (3)

REL 357 Theravada Buddhism In South and Southeast Asia, L or HU, G (3)

Capstone:

HST 496 South, Southeast and East Asia in the Global Matrix (3)**

*Also offered as GCU 240, HST 240, POS 240, REL 240 and SGS 240.

**The capstone is only offered in the spring semester.

A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course that is used to fulfill the certificate requirements.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

A certificate in Southeast Asian studies is available to any undergraduate student. There are no specific admission requirements other than a student's desire to learn about Southeast Asia. Please contact the School of Historical, Philosophical and Religious Studies advising center for more information.

Spanish for the Professions Certificate (LSSPPRFCER)

Campus: Downtown Phoenix

Description:

The series of courses in this 18 credit hour certificate will help students hone Spanish communication skills and cultural knowledge so they may serve the needs of the U.S.-Latino community in professional settings (i.e., education, social work, health care, criminology, journalism). This certificate is open to ASU students and to the community at large. The combination of professionally focused courses and practical experience in this program will enhance students' professional preparation for employment in positions that require advanced proficiency in Spanish and an in-depth understanding of U.S.-Latino culture.

Program Requirements:

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Prerequisite: SPA 314 Spanish Conversation and Composition, G (3) and SPA 316 Spanish Conversation and Composition for Bilinguals, L and C (3) or permission of instructor.

Required Courses: (12 credit hours)

SPA 317 Spanish for the Professions (3)
SPA 404 Spanish in U. S. Professional Communities, C (3)
SPA 405 Latino Cultural Perspectives for the Professions, C (3)
SPA 484 Internship (3)*

Elective Course Options: (6 credit hours)

SPA 300- or 400-level Spanish courses focused on the professions (e.g., health care, business, medical and legal interpretation, journalism, social work, education, legal and justice studies, sustainability, engineering and urban planning) (3)
SPA 403 Spanish Grammar and Stylistics for the Professions (3)

*Students should complete a minimum of 12 credit hours in the certificate and seek instructor approval before enrolling in SPA 484.

All courses for this certificate will require a minimum grade of "C" (2.00) or better to receive credit toward fulfilling certificate requirements.

Enrollment Requirements:

For additional admission and registration requirements, please visit the school's website.

Special Events Management Certificate (HSRTMUERT)

Campus: Downtown Phoenix

Description:

The special events management certificate is a career enhancement program offered to nondegree-seeking students or those who already have a degree from an accredited university in any major or to students currently pursuing a bachelor's degree in any major.

Program Requirements:

The certificate requires 18 credit hours: 15 credit hours of required core courses and three credit hours of electives. Courses taken as part of a university major may count toward that degree and the certificate. To earn the certificate, students must complete all course work in the certificate with a minimum grade of "C" (2.00 on a 4.00 scale) or better. An application to the program is required.

Required Core Courses: (15 credit hours)

PRM 486 Special Events Management (3) (must take this first, as prerequisite for the following required courses):

PRM 422 Entertainment, Protocol and Programming for Special Events (3)

PRM 423 Special Event On-Site Operations (3)

PRM 427 Revenue Generation for Special Events Management (3)

PRM 488 Event Marketing and Promotion (3) (iCourse, offered summers only)

Elective Courses: (3 credit hours; select one course)

CRD 301 Sustainable Communities (3)

NLM 220 Introduction to Nonprofit Organizations (3)

NLM 310 Volunteer Management (3)

PRM 470 Environmental Communication (3)

PRM 475 Entrepreneurial Recreation and Tourism (3)

PRM 487 Advanced Special Events Management (3)

TDM 205 Introduction to Travel and Tourism, G (3)

TDM 345 Meeting and Convention Planning (3)

TDM 350 Tourism, Recreation and Sports Marketing (3)

TDM 448 Heritage and Cultural Tourism (3)

Standards:

- 18 hours of graded classroom course work (no internship, no independent study)
- minimum of a "C" (2.00 on a 4.00 scale) grade required for all classes in the certificate
- minimum GPA of 2.00 for those pursuing the certificate
- should be a junior to take 400-level courses

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students wishing to pursue the special events management certificate should consult with an academic advisor in the School of Community Resources and Development. For additional information, please visit the official website.

Speech-Language Pathology Assistant Certificate (LASLPACERT)

Campus: Tempe

Description:

The speech-language pathology assistant certificate prepares students to work with individuals with communication disorders under the direction of a speech language pathologist. Students majoring in speech and hearing science or persons already holding a bachelor's degree in speech and hearing science receive additional course work and clinical training to be eligible for the speech-language pathology assistant licensure and for positions working under the direction of an speech-language pathologist in schools, clinics and rehabilitation agencies that provide speech and language services.

Program Requirements:

The speech-language pathology assistant certificate program includes 15 credit hours of course work and clinical internships completed in conjunction with the bachelor's degree in speech and hearing science. The student must take:

SHS 402 Clinical Methods and Treatment of Communication Disorders (3)
SHS 473 Implementation of Treatment Plans for Individuals with Communication Disorders (3)
SHS 483 Professional Issues and Ethical Considerations for the SLPA (3)
two internships of clinical practice (SHS 484) (6)

Twelve of the 15 credit hours for the speech-language pathology assistant certificate must be completed at ASU. A minimum grade of "B-" (scale is 4.00 = "A") is required for a course to count toward the certificate.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students who have completed 15 credit hours in speech and hearing science course work with at least a 2.75 GPA (on a 4.00 scale) in those courses are eligible to apply. Applications will also be accepted from students who have completed a bachelor's degree in speech and hearing science or communication disorders from a program accredited by the American Speech-Language-Hearing Association, providing their GPA in the major was at least 2.75 (on a 4.00 scale). Please contact the Department of Speech and Hearing Science for more information.

Sports Business Certificate (BASPBCERT)

Campus: Tempe

Description:

The certificate in sports business is an innovative curriculum designed for BS students in the W. P. Carey School of Business who are interested in deepening their knowledge in the sports business domain. Particular attention is given to providing a foundation in marketing and sales as it is applied to the sports business discipline. The certificate prepares students for success by complementing course work from a degree program with specialized business knowledge in the sports business area of interest.

Program Requirements:

The certificate in sports business is available to BS business majors in the W. P. Carey School of Business. The certificate requires 15 credit hours of classes.

Required:

MKT 311 Sports Business (3)

Choose at least two of the following four courses:

MKT 441 Sports Revenue Generation (3)

MKT 465 Projects in Sports Business (3)

MKT 484 Internship (3) or MKT 493 Honors Thesis: Sports, L (3)

MKT 494 Sports Analytics (3)

Choose no more than two of the following courses:

MKT 370 Professional Sales and Relationship Management (3)

MKT 410 Sales Management (3)

MKT 435 Entrepreneurial Marketing (3)

MKT 442 Services Marketing Strategy (3)

MKT 484 Internship (3) or MKT 493 Honors Thesis: Sports, L (3)

A "C" (2.00 on a 4.00 scale) or better is required in all upper-division course work.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to fulfill the requirements of this certificate.

Enrollment Requirements:

Prerequisites: This program is available to W. P. Carey Bachelor of Science degree program students with a 2.50 ASU cumulative GPA and 56 earned hours. Students must have completed MKT 300, MKT 302 or MKT 303 with a grade of "C" (2.00 on a 4.00 scale) or better.

Symbolic, Cognitive and Linguistic Systems Certificate (LAPHICERT)

Campus: Tempe

Description:

The symbolic, cognitive and linguistic systems certificate program takes a transdisciplinary approach to the symbolic representation and processing of information in human cognition, in natural languages, and in formal mathematical, logical and computing systems. Course work covers three areas: human cognition and theories of mind; philosophy of language and linguistics; and computing and logic.

Program Requirements:

The certificate requires completion of 18 credit hours from the approved course list below, of which at least 12 hours must be upper-division. Six upper-division credits must be taken through the College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses used toward the certificate. Within the 18 required hours, students must meet the following requirements

- completion of at least one CSE course from approved course list
- completion of at least one PHI course from approved course list, preferably PHI 319 Philosophy, Computing and Artificial Intelligence, CS (3), PHI 331 Philosophy of Language, HU (3) or PHI 333 Symbolic Logic (3)
- completion of at least one course from each area in approved course list

Cognitive Systems:

PHI 313 Probability, Evidence and Decision (3)

PHI 330 Theory of Knowledge, HU (3)

PHI 334 Philosophy of Mind, HU (3)

PHI 401 Rationalism(3)**

PHI 402 Empiricism, HU (3)**
PSY 323 Sensation and Perception (3)*
PSY 324 Memory and Cognition (3)*
PSY 434 Cognitive Psychology, L (3)*
PSY 437 Human Factors, L (3)*

Linguistic Systems:

ASB 480 Principles of Linguistics (3)
ASB 483 Sociolinguistics and the Ethnography of Communication, SB (3)
ENG 213 Introduction to the Study of Language (3)
ENG 312 English in its Social Setting, L or HU or SB (3)*
ENG 313 Phonology and Morphology (3)*
ENG 314 Modern Grammar (3)*
PHI 331 Philosophy of Language, HU (3)

Symbolic Systems:

CSE 110 Principles of Programming, CS (3)
CSE 205 Object-oriented Programming and Data Structures, CS (3)*
CSE 240 Introduction to Programming Languages (3)*
MAT 243 Discrete Mathematical Structures (3)
MAT 300 Mathematical Structures, L (3)*
MAT 420 Scientific Computing (3)*
PHI 319 Philosophy, Computing and Artificial Intelligence, CS (3)
PHI 333 Symbolic Logic (3)
PHI 413 Advanced Symbolic Logic (3)**

*Course has prerequisites which must be completed or in progress prior to enrollment. To determine prerequisites, please check the course description in class search.

**If not a philosophy major with 56 credit hours of completed course work, permission is required. Please meet with an academic advisor in the School of Historical, Philosophical and Religious Studies.

With the approval of the director of undergraduate studies, students may substitute one course not on approved course list. Please obtain approval prior to enrolling in any course not on the approved list.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Teaching English to Speakers of Other Languages (TESOL) Certificate (LATESLCERT)

Campus: Tempe

Description:

The undergraduate certificate in teaching English to speakers of other languages consists of a coherent set of courses that are related to teaching English to speakers of other languages. This certificate is designed for students who are interested in teaching English as a foreign language. It would also be a good preparation for students who want to later pursue graduate studies in the Master's of Teaching English as a Second Language program at ASU or in a similar program at another institution. Note that this certificate does not certify students to teach in Arizona public schools (K-12).

Program Requirements:

To complete the certificate, students must complete 18 credit hours with a minimum grade of "C" (scale is 4.00 = "A"). Twelve of these credits will come from upper-division undergraduate classes and at least six of those credits must be from courses offered by the College of Liberal Arts and Sciences.

Required classes: (12)

ENG 213 Introduction to the Study of Language (3)*

one course in second language acquisition (SLA) theory (3)**

one course in teaching English as a second language (TESOL) methods (3)***

ENG 484 Internship (3)

Electives: (6)

one additional ENG 404 course (3) on a topic not used to satisfy required courses

one course from the following:

ENG 214 English Grammar and Usages (3)

ENG 312 English in its Social Setting, L or HU or SB (3)

ENG 313 Phonology and Morphology (3)

ENG 314 Modern Grammar (3)

ENG 413 History of English Language, HU (3)

or other courses approved by the advisor.

*ASB 480 Principles of Linguistics (3) or SLC 201 Introduction to Linguistics, HU or SB (3) may be substituted with approval of advisor.

**SLA theory courses are taught as topics in ENG 404 Studies in Second Language Acquisition. Theory topics include: The Role of Identity in SLA; Introduction to SLA Theories; Motivation and Emotion SLA/TESOL; and Identity in SLA. Other ENG 404 topics may be substituted with advisor approval.

***TESOL methods courses are taught as topics in ENG 404 Studies in Second Language Acquisition (3). Method topics include: Introduction to TESOL; Second Language Education; Second Language Teaching; and, Teaching English for Specific Purposes. Other ENG 404 topics may be substituted with advisor approval.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Any student admitted to ASU can elect to pursue the certificate program. For more information about the TESOL certificate, students should contact an advisor in the Department of English.

Technical Communication Certificate (LSTECERT)

Campus: Polytechnic

Description:

Through the technical communication program, students learn how to produce, design and manage information using traditional and developing technologies.

Program Requirements:

The undergraduate certificate requires 18 hours.

Required courses: (9 credit hours)

TWC 301 Fundamentals of Writing for Digital Media, L (3)
TWC 401 Fundamentals of Technical Communication, L (3)
Choose one of the following courses:
TWC 411 Principles of Visual Communication, L (3)
TWC 421 Principles of Web Authoring, L (3)
TWC 431 Principles of Technical Editing (3)

Electives: (9 credit hours)
Choose three other 400-level TWC courses.

A "C" grade or better is required for all upper-division courses in the certificate.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The certificate is available to all admitted undergraduate students (regular or nondegree) at ASU. Once students have been admitted, they are eligible to enroll in courses to complete the certificate program. Applications are accepted throughout the year.

Please contact the college for more information.

Technology Entrepreneurship Certificate (ESTNECERT)

Campus: Tempe

Description:

Engineers and scientists around the globe launch high-tech companies to move their ideas to the market. Studies show that the majority of innovative products and services in the economy evolve from entrepreneurial ventures. By providing knowledge and skills important to the creation and leadership of such startups, the certificate program in technology entrepreneurship aims to train the founders and leaders of tomorrow's high-tech ventures. The certificate program is designed specifically for engineers. Courses are approached from the perspective of the student whose primary interest is in technological innovation, whose primary concentration is engineering, and who has little or no prior business education.

Program Requirements:

This 15-credit-hour certificate program is limited to students in the Ira A. Fulton Schools of Engineering and is designed to help technically oriented students analyze, launch and operate an entrepreneurial venture. The certificate program in technology entrepreneurship requires that students complete five courses. Admission to the cohort portion of the certificate program can only occur after successful completion of the introduction course, FSE 301 Entrepreneurship for Engineers (prerequisite: junior standing in a bachelor's degree program in the Ira A. Fulton School of Engineering). Once admitted to the certificate program, students must also successfully complete the remaining certificate courses:

FSE 400 Creating and Launching a Technology Venture (3)
FSE 401 Intellectual Property for Technology Ventures (3)
FSE 402 Operating a Technology Venture (3)
FSE 403 Entrepreneurship Practicum (3)

Certificates require a grade of "C" or better in all upper-division courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The qualifications for admission to the certificate in technology entrepreneurship program are having junior standing in a bachelor's degree program in the Ira A. Fulton Schools of Engineering and successful completion of the selection interview process.

The selection interview process consists of two parts: a letter of intent written by the student to the selection committee and a live interview with the selection committee, which consists of at least one faculty member, one entrepreneurship program advisory board member and one member of the regular engineering faculty.

Each selection interview is conducted according to a fixed format, with each certificate program candidate having the opportunity to respond to the same set of questions. Please contact the department for more information.

Translation Certificate (LASPACERT)

Campus: Tempe

Description:

The translation certificate program, which focuses on Spanish and English, is designed to provide:

- advanced training required for professional translation in both public and private sectors
- preparation for the rigorous examinations required by national and international agencies
- training as an ancillary skill for professional fields, such as international business, public health, medicine and law, in accordance with guidelines recommended by the American Translators Association

Program Requirements:

The certificate program consists of 18 credit hours or prerequisite and required courses. Students are also required to complete a translation internship. No less than 12 credit hours can be upper division and a grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Prerequisites: (6)

SLC 201 Introduction to Linguistics, HU or SB (3) or SPA 400 Introduction to Spanish Linguistics (3)*

SPA 412 Advanced Conversation and Composition, G (3)

Required: (3)

SLC 401 Translation Theory and Practice (3)

Also required are nine hours of applied translation course work in specialized areas chosen from the following courses:

SLC 481 Technical and Scientific Translation (3)

SLC 482 Business and Financial Translation (3)

SLC 483 Medical and Legal Translation (3)

Internship: (2)

SLC 484 Internship: Translation Certificate (2)

* Other similar courses may be used with the approval of the program coordinator.

Enrollment Requirements:

Since entry into the field of professional translation is gained through work, cultural experience and examination, the entrance requirements to this certificate program include:

- a written proficiency examination in both the source and receptor languages at the level of completion of an advanced composition course in Spanish (SPA 412) and English (ENG 301)

- extensive work experience using Spanish and English or demonstrated bilingual writing competence in English and Spanish

Please contact an academic advisor in the school for more information.

Wildlife Management Certificate (LSWLMCERT)

Campus: Polytechnic

Description:

The undergraduate wildlife management certificate program is for both traditional and nontraditional students at ASU interested in biology, conservation, sustainability and management of natural resources. The certificate provides students with professional credentials to qualify for many positions offered by the state (e.g. Arizona Game and Fish Department) and federal agencies (e.g., US Forest Service, US Geological Survey, US Bureau of Land Management). The certificate will provide students with application-based and hands-on experience in the field and allow them to engage with wildlife professionals. The certificate may give a hiring edge to those in the growing field of environmental careers for agencies and non-government organizations.

Program Requirements:

This certificate requires 23 credit hours. A "C" (2.00 on a 4.00 scale) or better is required in each course.

Required courses (14 credit hours)

ABS 274 Introduction to Wildlife Management (4)

ABS 376 Wildlife Ecology (3)

ABS 475 Habitat Management for Small Wildlife (4)

ABS 476 Big Game Habitat Management (3)

Elective certificate courses (9 credit hours; choose three courses)

ABS 377 International Wildlife Conservation (3)

ABS 380 Restoration and Wildlife Plants (3)

ABS 470 Life History of Mammals (3)

ABS 472 Applied Herpetology (3)

ABS 473 Applied Ornithology (3)

Depending upon a student's program of study, prerequisite courses may be needed in order to fulfill the requirements of this certificate.

Enrollment Requirements:

Students interested in pursuing the certificate should speak with an academic advisor in the College of Integrative Sciences and Arts via cisa@asu.edu.

Women and Gender Studies Certificate (ASWSTCERT)

Campus: West

Description:

The certificate program in women and gender studies, offered by the School of Humanities, Arts and Cultural Studies, examines the changing political, social, economic and cultural realities of racial and ethnic and indigenous communities in the United States and the Americas. The program combines interdisciplinary topics and methods to critically analyze, unpack and address how relations of gender are embedded in and connected to social, political and cultural transformations. The intellectual core draws from theories, methods and teachings in women and gender studies while engaging complementary fields of social justice, cultural studies, sexuality studies, queer studies, literature, history, sociology, psychology, oral history, ethnicity, race and indigenous studies, and transnational studies. This certificate will prepare students for graduate study or a variety of fields, including business, health care, criminal justice, social services, education, public relations, nonprofits, community development, public policy and government.

Program Requirements:

The women and gender studies certificate consists of 18 credit hours of course work, of which 12 credit hours must be upper-division (300 or 400 level).

Core Requirements: (6 credit hours)

HRC 200 Introduction to Social and Cultural Analysis (3)

WST 100 Women, Gender and Society, SB, C (3)

Electives:

WST elective course work (12 credit hours, chosen in consultations with an academic advisor)

A "C" or better is required in all upper-division courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The certificate in women and gender studies is open to all ASU undergraduate majors. Students wishing to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken and the required paperwork is submitted.

Women and Gender Studies Certificate (LAWSTCERT)

Campus: Tempe

Description:

Women and gender studies, in the School of Social Transformation, provides students with an intensive, transdisciplinary liberal arts education that enables them to write well, think critically and analyze problems effectively. The certificate program is equivalent to a transdisciplinary minor.

Program Requirements:

The women and gender studies certificate consists of 18 credit hours, 12 of which must be upper-division.

Students take one of the following courses (3 credit hours):

WST 100 Women, Gender, and Society, SB, C (3)

WST 300 Women and Gender in Contemporary Society, SB, C (3)

Students also choose one from the following courses (3 credit hours):

WST 377 History of American Feminist Thought, H, C (3)

WST 378 Global Feminist Theory, L, G (3)

Twelve additional credit hours of women and gender studies electives are selected from any WST prefix course.

A grade of "C" (2.00 on a 4.00 scale) or higher is required in all courses.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students admitted to study at Arizona State University are eligible to pursue the requirements of a certificate. In order to be admitted to the university, complete the Office of Admission online application. Please contact the unit for additional information.

Working with Military Families Certificate (LAWWMFCERT)

Campus: Tempe

Description:

Important complexities surround the dynamics of military families. Military personnel, veterans and their families face unique issues and challenges such as navigating military culture and dealing with multiple deployments, trauma and deaths. Students interested in careers focusing on these families have a need to understand normative family processes, stress and coping, and military culture and leadership. The working with military families certificate program is offered by the ROTC and the T. Denny Sanford School of Social and Family Dynamics. Students enrolled in the program will take a unique combination of courses designed to focus on human development, marital and familial relationships, and military culture and family dynamics (offered by the Sanford School), as well as military leadership (offered by ROTC). Students who complete the certificate program are expected to pursue careers working to enhance the well-being of military personnel and their families as they face deployments, war, combat and stress.

Program Requirements:

The certificate requires 18 credit hours. A "C" (2.00 on a 4.00 scale) or better is required in all upper-division courses.

Required Courses: (12 credit hours)

FAS 101 Personal Growth in Human Relationships, SB (3)

FAS 331 Marriage and Family Relationships, SB (3)

FAS 410 Military Family Systems in a Democracy (3)

MIS 401 Advanced Military Science III (3)

Electives: (3 credit hours; students may choose one of the following)

CDE 232 Human Development, SB (3)

MIS 301 Advanced Military Science I, L (3)

Internship Requirement:

FAS 484 Internship (3)*

*Students will be required to complete a capstone internship project that includes a field work experience, a written integrative paper and an oral presentation.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

Students in related majors can apply for the certificate through the T. Denny Sanford School of Social and Family Dynamics. Admission will be determined by the admissions committee. A student must have a minimum GPA of 3.00 (on a 4.00 scale) in order to be considered for admission to the certificate.

Writing (Liberal Arts and Sciences) Certificate (LAENGCERT)

Campus: Tempe

Description:

The writing certificate program provides advanced writing instruction for students in any major. Students pursuing the writing certificate gain practical skills in effective communication and enhance their ability to create, structure and present information in a variety of professional settings.

Program Requirements:

The writing certificate program consists of 19 credit hours, at least 12 of which must be completed at the upper-division level. A minimum of six upper-division credit hours must be courses offered by the Department of English in the College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required courses are as follows:

ENG 216 Persuasive Writing on Public Issues, L (3) or ENG 301 Writing for the Professions, L (3)
ENG 372 Document Production, L (3)
ENG 412 Creative Nonfiction (3)
ENG 472 Rhetorical Studies, L (3)
ENG 484 Internship: Writing Certificate Internship (3)
ENG 498 Pro-Seminar: Writing Certificate Portfolio, L (1)

Also required is an additional writing course in English (three credit hours) or a writing or design course (three credit hours) selected from an approved list of courses. Please see an advisor for a list of approved course options.

All students are required to submit a portfolio before receiving the certificate.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

Application to the program requires a minimum GPA of 3.00 (scale is 4.00 = "A") in ENG 101 and ENG 102, ENG 105, or ENG 107 and ENG 108. Students must also have completed at least 30 hours of course work and must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A"). Please contact the department for more information.

Writing (New College) Certificate (ASWRTCERT)

Campus: West

Description:

The certificate in writing, offered by the School of Humanities, Arts and Cultural Studies, is a valuable program for students in any discipline. The ability to communicate clearly, directly and effectively is a key to advancement in all careers. Certification of advanced writing skills opens the way to a vast array of opportunities, from journalism and publishing to public advocacy, military and government careers, elementary and secondary education, business management, economic development, law, nonprofits and high-tech industry.

The certificate offers five track options (creative writing, generalist, nonfiction writing, professional and technical writing, publishing and editing) and students can tailor the certificate to their individual interests and career goals. The certificate includes intensive course work that culminates in an exit portfolio, a collection of work that demonstrates the writing skills mastered by each student.

Program Requirements:

The writing certificate consists of 19 credit hours, 13 of which must be upper-division (300 or 400 level). Students must complete the required track courses (18 credit hours) as well as the required writing portfolio (AMS 490 for one credit hour). Courses should be chosen in consultation with an academic advisor in the School of Humanities, Arts and Cultural Studies.

Students must complete a minimum of six upper-division credit hours offered by the School of Humanities, Arts and Cultural Studies. Students must complete 12 credit hours at ASU. A 3.00 GPA is required in all courses taken for the certificate.

Depending upon a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements:

The certificate in writing is open to all ASU undergraduate majors. To gain admission to the program, students must demonstrate fundamental writing skills through the completion of English composition. Students are required to submit an application, which includes at least three samples of writing from lower-division courses or independent writing projects. Applications must be submitted at least two months before the start of the semester they anticipate being admitted. Students wishing to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure the appropriate set of courses is taken and all required paperwork is submitted.

Undergraduate Programs

Undergraduate Degrees (Program Descriptions)

Business, W. P. Carey School of

Accountancy, BS (BAACCBS)

Campus: Tempe, West

Program Description:

The School of Accountancy's undergraduate program offers two tracks during the senior year. The accounting track is followed by most students and is designed to provide a rich educational experience. The accounting master's internship is the track designed for our most highly qualified students who wish to commit to the MAcc program during the second semester of the junior year. The internship provides a particularly rich and individualized educational experience during the senior year. It includes a number of distinct advantages for students:

- a full-time paid internship for credit with a participating accountancy firm
- early consideration for scholarships
- may be eligible for GMAT waiver and graduate application fee waiver for the MAcc or MTax program*

*eligibility determined by GPA at the time of application

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Taxation (MTax)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshmen admission requirements: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (scale is 4.00 = "A").

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in W. P. Carey School of Business.

Readmission requirements: Students must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer admission requirements (30 or more semester hours of credit after high school): 3.00 transfer GPA and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top eight percent of their high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second

major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

The major in accountancy includes the essential academic preparation for students who are:

- planning to pursue a graduate degree or attend law school
- pursuing professional careers in public, corporate and governmental accounting
- seeking positions in consulting or are planning to operate a business
- seeking positions in personal financial planning and portfolio analysis

The U.S. Bureau of Labor Statistics' Occupational Outlook Handbook (2010-2011) states, "Employment of accountants and auditors is expected to grow by 22 percent between 2008 and 2018, which is much faster than the average for all occupations. Job opportunities should be favorable; accountants and auditors who have a professional certification, especially CPAs, should have the best prospects."

Agribusiness (Global Agribusiness), BS (AGAGBGABS)

Campus: Polytechnic

Program Description:

The agr business industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The programs offered through the highly respected Morrison School of Agribusiness and Resource Management prepares graduates for success in graduate school or a wide range of careers.

The BS in agribusiness teaches students the business of agricultural production, finance, marketing and distribution. Through a technology-rich curriculum that focuses on real-world projects, students explore global agribusiness issues such as international trade, food safety and sustainability.

The concentration in global agribusiness is an applied, industry-oriented curriculum. This concentration is specifically designed to meet the needs of the students interested in studying the business aspects of agriculture in the domestic and global economy. Students learn to analyze and manage issues involved in food manufacturing, input and output supply activities, commodity trading and food distribution.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman and transfer students must submit either an SAT Reasoning test score or an ACT test score by the end of the first semester in the program (we do not require the writing portion of these tests). There is no minimum score requirement.

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Readmission requirements: Students must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Accounting for more than 50 percent of the global economy and employing 25 percent of Americans, agribusiness brings food from the farm to the global table. Possible career paths include:

- finance and technical positions with private agribusiness firms and governmental agencies
- management
- marketing
- veterinary medicine

Business (Chinese Language and Culture), BA (BABUSCLBA)

Campus: Tempe

Program Description:

The mission of the concentration in Chinese language and culture within the BA degree program in business is to create global business professionals who can function culturally and linguistically in the business environment in China and domestically. As China becomes an increasingly important participant in the global economy and as the manufacturing and financial sectors become more globalized, the need for business professionals skilled in communicating in the Chinese language is growing. Through a network of 26 flagship programs at 22 institutions of higher education across the U.S., the language flagship graduates students who will take their place among the next generation of global professionals, commanding a superior level of proficiency in languages critical to U.S. national security and economic competitiveness. This program will prepare participants to function professionally in Chinese within diverse business fields.

Campus: Lake Havasu, Polytechnic, Tempe, West, Online

Program Description:

The BA in business with a concentration in communication is an innovative, transdisciplinary program intended to prepare students for positions in a variety of professions in which business and communication play an important role in ensuring success. Students in this program will complete rigorous courses within the communication concentration in addition to the skill and core courses required of all W. P. Carey School of Business majors. Graduates will have specific knowledge of business practices and the capacity to effectively communicate complex business information.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Readmission requirements: Students must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

Business communication has exploded as a distinct professional field as companies require rapid and considered responses, from conveying ordinary information to crisis communications. Historically, these positions have been staffed with people trained in communication, English, journalism or other fields but who lack specific business knowledge. Graduates of this program will be qualified to enter these positions with knowledge that will be immediately useful to potential employers while advancing their careers.

Business (Global Agribusiness), BA (BABUSGAGBA)

Campus: Polytechnic

Program Description:

The agr business industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The concentration in global agr business teaches students the business of agricultural production, finance, marketing and distribution. Through a technology-rich curriculum that focuses on real-world projects, students explore global agr business issues such as international trade, food safety and sustainability. The concentration is an applied, industry-oriented curriculum. It is specifically designed to meet the needs of students interested in studying the business aspects of agriculture in the domestic and global economy. Students learn to analyze and manage issues involved in food manufacturing, input and output supply activities, commodity trading and food distribution.

Business (Global Logistics Management), BA (BABUSGLBA)

Campus: West, Online

Program Description:

Logistics management focuses on integration and partnerships necessary to meet customer needs on a timely basis, with relevant and high-quality products produced and delivered in a service-effective manner. This program will train students to be strategic thinkers, excellent analysts, effective communicators and team leaders who are focused on efficiency, effectiveness and increasing revenue.

An efficient logistics management system is critical to the success of global corporations, making sure the supply of goods and services flowing through the system closely matches the demand. Logistics management professionals manage, coordinate and transport products from raw materials to the finished goods sitting on a local store shelf or offered by an online retailer. Efficient logistics is a key reason consumers can buy an ever-increasing variety of goods and services at remarkably low prices. Not surprisingly, logistics also plays a major role in the health care industry where efficient, effective delivery systems are gaining significant traction.

Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements.

Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. (http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-retail-management?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

The bachelor's degree in business with a concentration in retail management will prepare students to work in the retail industry. Students will gain knowledge in all business core areas as well as specific knowledge in retail. Drawing on course work from four areas in the concentration, students will have broad preparation and leadership skills to assume positions of responsibility in the retail industry. Below are several anticipated career opportunities for students completing the bachelor's degree in business with a concentration in retail management.

- administrative services manager
- business manager
- food service managers
- general and operations management
- management analyst
- operations specialist
- purchasing or buying manager
- sales managers
- training and development managers
- wholesale and manufacturing representative

Business (Sports and Media Studies), BA (BABUSMSBA)

Campus: Tempe

Program Description:

The W. P. Carey BA program in business with a concentration in sports and media studies is attractive to a number of students with an interest in the sports industry. This concentration has been planned to provide students the necessary skills to build knowledge and understanding of the development of the strategic business process in sports organizations and its relationship to media. The proliferation of mass communication (including television, game systems and social networks) has transformed sports into a highly commercialized industry and, in turn, sports continue

to generate revenues for these businesses. The interaction between sports and media has led to a multitude of applications of business knowledge to these fields. The sports and media studies program will offer a strong focus on applied elements of the sports industry, especially as it relates to media and its impact on the industry.

Business Entrepreneurship, BS (BABUENTBS)

Campus: Tempe

Program Description:

The BS program in business entrepreneurship prepares students to identify, evaluate and develop entrepreneurial opportunities in existing companies or through new ventures. Students earning the degree may choose to start a new venture, work for a startup or a small business or work as an innovator within an existing organization. The degree has an emphasis on collaboration, leadership, communication and team-building as well as development in refined analytical, managerial and leadership skills appropriate for people who want to change the world through innovation.

Students in the program will frequently collaborate with students from across the university, to give students a breadth of understanding in all business disciplines and a depth of understanding in opportunity recognition, feasibility, management of resources, and strategy. Students completing the program will understand the unique requirements of an entrepreneur and will learn how to operate effectively to identify market opportunities, innovative solutions and execution strategies.

Business Exploratory, (BABUSEXP)

Campus: Tempe

Program Description:

Virtually every profession and organization uses business in some way. Business exploratory students have an opportunity to explore a variety of areas in business prior to selecting one of our nine majors:

- accountancy

- business data analytics
- business entrepreneurship
- computer information systems
- economics
- finance
- management
- marketing
- supply chain management

Students have an opportunity to work with world-class faculty in an environment that values high-quality teaching. Our majors provide students with the skills and knowledge needed in today's companies --- whether they are starting their own businesses or working in large multinational corporations. Additionally, many graduates attend some of the other top-tier graduate schools in the country in a variety of disciplines.

Computer Information Systems, BS (BACISBS)

Campus: Tempe

Program Description:

Computer information systems are part of every business and organization. In this degree program, students learn about the exciting and innovative ways that information technology is used to help organizations succeed. Dedicated faculty members teach students how to design, build and maintain information systems that support business operations and managerial decision-making. In particular, students will learn about:

- business intelligence for competitive advantage
- business process for workflow redesign
- data management for decision-making
- distributed systems for collaboration and globalization
- enterprise integration for synergy
- project management

- solution development for value creation

Career Opportunities:

Currently there is a shortage of information systems professionals and many more jobs than graduates. With a degree in computer information systems, career choices are limitless. A computer information systems degree offers job opportunities in a variety of industries, including:

- education
- entertainment
- finance
- health care
- national defense
- transportation

Information systems are key components in the success of other functional business areas such as accounting, supply chain, finance and marketing. Entry-level information systems positions include:

- computer forensics analyst
- database administrator
- information systems consultant
- information technology security manager
- network administrator
- project manager
- software or systems developer
- systems administrator
- systems analyst

Long-term career aspirations for a student with a computer information systems degree include:

- chief executive officer
- chief information officer
- chief knowledge officer
- chief security officer
- chief technology officer

Economics, BS (BAECNBS)

Campus: Tempe

Program Description:

The program requires a strong core of economic theory, supplemented by mathematics and data analysis. Students in this BS program choose from a variety of electives offered by the Department of Economics or electives offered by any other ASU department. All students are encouraged to develop programs of study tailored to individual needs and interests. The undergraduate program provides students with the critical-thinking and communication skills needed to succeed in business or graduate school. The department's mission is to provide the highest quality instruction to students, conduct cutting-edge research in economics and provide leadership and service to professional communities.

Additional Program Fee: Y

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

A major in economics provides students with the analytical and quantitative skills needed to prepare them for careers in business, government or public policy. The program of study can also be tailored to prepare students for graduate programs in economics, business or law. Students interested in pursuing a doctorate in economics are strongly encouraged to minor or major in mathematics as well.

Graduates have taken positions such as:

- consultants who serve as advisers to state and federal governments as well as private corporations
- corporate economists who collect data and make forecasts relevant to the firm's business
- employment in banking and financial services firms

Each year, many graduates pursue additional studies at other prestigious universities.

Finance, BS (BAFINBS)

Campus: Tempe

Program Description:

The finance department has a rich tradition of educating leaders who excel in all aspects of the discipline of finance. Whether ascending to the top ranks of the venture capital industry, executing multimillion dollar real estate deals or becoming successful entrepreneurs with their own ideas and drive, our graduates are equipped to succeed.

In particular, our Investment Banking Industry Scholars program mentors students interested in going to Wall Street. Our student investment management fund provides undergraduates the opportunity to manage a real-world investment portfolio worth hundreds of thousands of dollars.

The faculty members are considered among the top in the world. Our professional advisory board, comprised of leading professionals from the financial services, manufacturing, energy, investment banking and real estate sectors, provides a sounding board for new ideas and is a resource of jobs for our top graduates.

Food Industry Management, BS (BAFIMBS)

Campus: Polytechnic

Program Description:

This food industry management program is unique and has been developed in close coordination with partners in the food industry to help ensure graduates have the knowledge and skills needed to become immediate leaders in the industry. Students will combine core courses in business disciplines (finance, marketing, management, accounting, supply chain management and economics) with courses specific to the food industry.

Students will select from courses in:

- environmental management and sustainability
- food industry sales and management
- food marketing strategy
- food retailing
- food supply networks
- futures and options markets
- innovation and food product development
- insurance
- pricing and promotion strategy in food markets
- retail information analysis
- risk management

Each of these courses addresses a different issue in which fundamental concepts, theoretical approaches, analytical methods and industry practice are unique to the food industry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman and transfer students must submit either an SAT Reasoning test score or an ACT test score by the end of the first semester in the program (we do not require the writing portion of these tests). There is no minimum score requirement.

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Readmission requirements: must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to the College of Letters and Sciences will be contacted to select an appropriate major.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The BS in food industry management prepares students for business careers in the food industry, which is defined as the group of firms and organizations involved with manufacturing, marketing and distributing food beyond the farm to retail stores, restaurants and institutions such as schools and hospitals. Employing one in six people nationwide, there is a growing demand for professional management in an industry that is becoming increasingly competitive, sophisticated and global.

Potential careers for graduates include, but are not limited to:

- brand manager for a food manufacturing firm
- commodities trader for an investment bank or hedge fund
- district manager for a food retailer
- loan officer for a bank with a food-industry portfolio

Management, BS (BAMGTBS)

Campus: Polytechnic, Tempe, West, Online

Program Description:

The BS program in management prepares students to become effective managers and team leaders by providing theoretical and conceptual knowledge and building critical skills such as:

- analytical research and problem-solving
- communication
- critical thinking
- global applications
- leadership
- personal ethics and integrity
- teamwork

The curriculum includes the fundamentals of the global economy, the world of e-business, ethics, human resource and strategic management, and collaborative team skills. Throughout the program, theories and concepts of management and ethical leadership are enhanced by experiencing and testing these concepts in skill-based exercises, case discussions and real-world team-based project work.

Marketing (Digital and Integrated Marketing Communications), BS (BAMKDIMCBS)

Campus: Tempe

Program Description:

Designed specifically for the marketing major, this concentration builds on the knowledge provided in the major and prepares marketing students with specialized knowledge and training in the areas of advertising, brand management and digital marketing. The purpose of this concentration is to equip marketing students with cutting-edge knowledge in the marketing communications area so they are well-prepared to assume jobs in the areas of advertising, brand management and digital marketing. This concentration will enhance the marketing degree by providing specialized expertise to our graduates in an area that is growing in importance in the marketplace.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshmen admission requirements: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (scale is 4.00 = "A").

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet Freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer admission requirements (30 or more semester hours of credit after high school): 3.00 transfer GPA and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top eight percent of their high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other business or other degree program outside of the W. P. Carey School of Business.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Pima Community College (<http://transfer.asu.edu/pima>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

While the number and quality of job opportunities in advertising and brand management is relatively small, the number of entry-level positions in digital marketing has exploded. A sampling of career opportunities include:

- digital account manager
- digital marketing analyst
- digital marketing coordinator
- digital marketing specialist
- electronic marketing specialist

Marketing (Professional Sales), BS (BAMKTPSBS)

Campus: Tempe

Program Description:

The BS program in marketing with a concentration in professional sales was designed for undergraduate marketing students who are interested in pursuing the many opportunities in professional sales. The curriculum includes courses in professional sales as well as sales management and consumer behavior. This program prepares students to be successful account managers or sales team leaders in both business-to-business and business-to-consumer settings. An internship in sales, as a component of the professional sales concentration, is required.

Supply Chain Management, BS (BASCMBMS)

Campus: Tempe

Program Description:

Supply chain managers coordinate the purchase of raw materials, the manufacturing and the transportation of materials across multiple vendors and multiple countries to provide the services and finished goods sitting on a local store shelf or available through an online retailer. It is a key reason that people can buy an ever-increasing variety of goods and services at remarkably low prices.

The supply chain management program provides W. P. Carey School of Business students with an in-depth knowledge of integrated supply chain management. The curriculum focuses on:

- execution systems
- logistics
- negotiations
- operations
- planning
- procurement
- strategy development

Classes are small and use projects and case studies to bring the material to life.

This program is consistently ranked as one of the top supply chain programs in the world, providing students an opportunity to be recruited by many leading international companies in many different industries.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Concurrent Degrees:

This degree is also offered as concurrent degree with Sustainability, BA

Design & the Arts, Herberger Institute for

Architectural Studies, BSD (ARSTDBSD)

Campus: Tempe

Program Description:

Architects design buildings and environments that are useful, sustainable and aesthetically pleasing. This implies an understanding of people's needs, the science and technology of building, and the concepts of aesthetics. The faculty in The Design School offer a BSD in architectural studies. In addition to developing knowledge and skills in architectural design, building technology, landscape architecture and professional practice, students are encouraged to select electives from a broad range of approved courses within the institute and across the university. These electives may be selected to devise a minor, to further professional study or to enrich the student's academic experience in some other fashion.

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information on the milestone process, visit: <http://herbergerinstitute.asu.edu/degrees/milestone.php> (<http://herbergerinstitute.asu.edu/degrees/milestone.php>).

This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent) at any point of entry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

Graduates of the bachelor's program who wish to become licensed can complete their professional studies by attending graduate school and earning the accredited professional master's. In Arizona, other graduates work for registered architects for several years before taking their licensing examination. Some begin their careers working in small offices of 10 to 20 people; others work in very large firms, industries, corporations or governmental agencies.

Art (Art Education), BFA (FAARTEBFA)

Campus: Tempe

Program Description:

The BFA in art with a concentration in art education involves:

- art learning strategies and processes
- facilitation of the teaching of art
- policymaking in art
- the study of art

The program focuses on public and private K-12 instruction, art in higher education and educational programs in art museums. Students investigate issues in art teaching and learning from multiple perspectives, including:

- art inquiry
- context
- development
- studio
- visual culture

In addition to their art education course work, students are required to take course work in the various studio programs offered in the School of Art.

Students must submit a BFA declaration form after successful completion of the art foundational course work to be admitted to the major.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including foundational course work and successfully passing a portfolio review to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division course work in the studio. There is no portfolio review process at the time of admission to ASU for freshmen.

Students in their second year who are interested in studio art and art education will obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies will submit a declaration form in the semester in which they complete 30 hours. The student's major will be changed upon successful completion of the portfolio. Students may choose to remain in and complete the Bachelor of Arts (art studies) in which case no portfolio is required.

Transfer students who have completed the foundational core and pre-art requirements may submit a portfolio for review before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two year degree and have completed the foundational core and pre-art requirements, apply and submit a portfolio in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

Graduates who also complete the state certification requirements for an art specialist certificate can teach in public and private elementary schools, middle schools and high schools. Graduates who do not seek state certification may find opportunities for jobs with art museums and recreational or community service groups that offer art instruction.

Art (Art History), BA (FAARTHBA)

Campus: Tempe, Online

Program Description:

The BA in art history is a comprehensive degree program designed to train students to engage with visuality in multiple ways. It offers a diverse curriculum intended to foster critical understanding of the aesthetics, production, patronage and consumption of art. Internationally recognized faculty offer classes across many cultures and time periods, geographies and multiple approaches and methodologies.

Additional Program Fee: Y**Second Language Requirement:** Y

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen students applying to the Herberger Institute School of Art enter ASU as art exploratory majors in the School of Art. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically students in their second year interested in studio art and art education will submit a portfolio for review once they have completed their core requirements and are completing the last of the 12 hours of 200-level art requirements or if they are interested in art history or museum studies, they will submit a declaration form in the semester in which they complete 30 hours.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-art-history?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates in art history at the bachelor's degree level find employment opportunities in commercial art galleries, entry-level jobs with art publications and in museums. A graduate degree is essential for professional jobs; a master's degree prepares individuals to teach at the community college level or to gain entry into museums, auction houses and publishing companies. The PhD is a necessity for employment as a

university or college teacher and for responsible administrative posts in the museum and publishing world.

Art (Art Studies), BA (FAARTSTDBA)

Campus: Tempe

Program Description:

The art studies curriculum offers students a broad educational foundation in the arts and general studies. The BA program in art with a concentration in art studies is a transdisciplinary program featuring course work in art history, studio art, performing arts and a range of arts-related courses throughout the university. This concentration offers students a great deal of flexibility in planning course work. The scope of offerings in art and elsewhere on campus is unparalleled at smaller institutions. An art studies student can assemble an art-related curriculum focused on individual student needs, in consultation with a faculty advisor.

Art (Ceramics), BFA (FAARTCBFA)

Campus: Tempe

Program Description:

The BFA ceramics program provides a stimulating and challenging environment for artistic and intellectual growth. With the realization that discipline, familiarity with historical precedents and freedom go hand in hand with creative activities, the area strikes a balance between the acquisition of traditional skills and the promotion of independence and innovation. Responsibility is placed on the individual student to find personally meaningful content and an effective means to express that content within the ceramic arts. The ceramics program features a complete and varied line of kilns, wheels and other equipment. World-renowned faculty ensure that graduates of the program learn the techniques and concepts that will enable their work to take any direction they wish. A strong guest artist schedule enhances the program and the Ceramics Research Center at the ASU Art Museum, with its collection of more than 3,000 pieces, provides unparalleled opportunities to study and research ceramics.

Students must submit a BFA declaration form after successful completion of the art foundational course work to be admitted to the major.

Art (Drawing), BFA (FAARTDBFA)

Campus: Tempe

Program Description:

The BFA drawing program offers a learning environment for creative, intellectual and technical growth that leads to quality art practice and professionalism. The program encourages a wide spectrum of approaches to contemporary drawing as visual expression, ranging from traditional to innovative. Students work under the guidance of a large, full-time faculty of active professionals who are nationally and internationally recognized. Visiting artists of national stature enhance the program with lectures and individual undergraduate critiques.

Students must submit a BFA declaration form after successful completion of the art foundational course work to be admitted to the major.

Transfer students who have completed the foundational core and pre-art requirements may submit a portfolio for review before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two year degree and have completed the foundational core and pre-art requirements, apply and submit a portfolio in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

Graduates complete the program with drawing skills that enable them to apply for positions that require knowledge in drawing or two-dimensional conceptual skills. Further education, either formal or informal, is usually necessary to refine their skills in a very competitive marketplace. Many graduates continue their education in an MFA graduate program, which allows them to develop their talent further and to teach. Some take jobs in related fields, such as galleries and museums, allowing them to continue producing their own creative work.

Art (Fibers), BFA (FAARTFBFA)

Campus: Tempe

Program Description:

The BFA fibers program cultivates an environment that stimulates creative and intellectual growth. Students are encouraged to discover their distinctive expression informed by knowledge and skills related to surface design, woven structures and 3D structures. Course work covers processes from basic carding, spinning, dyeing and felting to the use of the loom. Throughout, students are challenged to utilize and interpret textile traditions while considering innovative and transdisciplinary approaches to contemporary art.

Students must submit a BFA declaration form after successful completion of the art foundational course work to be admitted to the major.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including foundational course work and successfully passing a portfolio review to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division course work in the studio. There is no portfolio review process at the time of admission to ASU for freshmen.

Students in their second year who are interested in studio art and art education will obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies will submit a declaration form in the semester in which they complete 30 hours. The student's major will be changed upon successful completion of the portfolio. Students may choose to remain in and complete the Bachelor of Arts (art studies) in which case no portfolio is required.

Transfer students who have completed the foundational core and pre-art requirements may submit a portfolio for review before they have been

admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two year degree and have completed the foundational core and pre-art requirements, apply and submit a portfolio in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

Graduates are prepared to establish their own studios and begin making art or design fabrics for use as interior fabrics or as one-of-a-kind garments. Students are also prepared to begin a graduate program. Some undergraduates have gone to New York City to work in the field of designing textiles. Others prefer to focus on their own art for exhibition. Graduates also set up their own studios and design fabrics that are wearable or for interior use, while others make their living by doing commissioned work for interior spaces.

Art (Intermedia), BFA (FAARTIBFA)

Campus: Tempe

Program Description:

The BFA intermedia program is conceptually driven, with a transdisciplinary approach to art-making. Students work with experimental studio practices, performance and digital media to explore new avenues for self-expression, collaborative practice and community action. The program covers a wide range of conceptual and media orientations reflecting the professional practices of a growing team of faculty members. Currently, emphasis in performance, installation, mixed media, digital video, digital sculpture, animation and Web art are offered. Interaction and collaboration across other areas in the School of Art, including sculpture and photography, are encouraged and supported.

Students must submit a BFA declaration form after successful completion of the art foundational course work to be admitted to the major.

Art (Metals), BFA (FAARTMBFA)

Campus: Tempe

Program Description:

The BFA metals program offers a wide range of traditional and nontraditional approaches to:

- attention to detail
- creativity
- critical thinking
- emphasizing craft skills
- metalworking

A well-equipped studio with a wide variety of metal-smithing tools is offered. Students explore the close relationship with the School of Art's sculpture and foundry programs, learn important entrepreneurial skills, and receive a strong foundation in technical vocabulary and methods for working with metal while being encouraged to experiment with alternative materials and techniques.

Students have the opportunity to gain knowledge and skills through additional educational opportunities that include:

- conferences and symposia
- internship possibilities
- lectures
- visiting artists
- visits to artist studios, museums and exhibitions
- workshops

ASU is located in proximity to numerous galleries and museums as well as local organizations such as:

- The Arizona Artist-Blacksmith Association
- The Arizona Designer Craftsmen
- Metalink

All students who are admitted to the major must pass a portfolio review to continue in the major after successful completion of the art foundational course work. For more information on the portfolio review process, visit: <http://art.asu.edu/admissions/undergrad/applying/> (<http://art.asu.edu/admissions/undergrad/applying/>).

Art (Museum Studies), BA (FAARTMSBA)

Campus: Tempe

Program Description:

Museum studies students explore:

- art galleries
- art history
- art museums
- public art programs
- visual arts organizations

The BA program in art with a concentration in museum studies undergraduate program at ASU is one of the most rigorous in the U.S. The program ensures that students are knowledgeable in:

- art history
- critical writing skills
- foreign languages
- museums, galleries and visual arts organizations

The curriculum includes art history courses taught by faculty with diverse specialties. Museum professionals and arts administrators teach specialized classes in their areas of expertise. Internships enable students to work directly with working arts professionals in their field of interest.

Students must take courses in:

- art history
- galleries and museums
- research
- small business

Course work may also include classes in nonprofit management and arts policy.

Students must also demonstrate an ability to read at least one foreign language.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics OR MAT 142 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen students applying to the Herberger Institute School of Art enter ASU as art exploratory majors in the School of Art. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically students in their second year interested in studio art and art education will submit a portfolio for review once they have completed their core requirements and are completing the last of the 12 hours of 200-level art requirements or if they are interested in art history or museum studies, they will submit a declaration form in the semester in which they complete 30 hours.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Museum studies graduates find employment in art galleries, art-based organizations and entry-level positions with art publications and museums. A graduate degree is necessary for professional positions. An MA prepares individuals to teach at community colleges and to gain entry into museums, auction houses and publishing companies. The PhD is necessary for employment as a faculty member at a university or for administrative posts in museums and higher education.

Art (Painting), BFA (FAARTPABFA)

Campus: Tempe

Program Description:

The BFA program in painting offers a learning environment for creative, intellectual and technical growth that leads to quality art practice and professionalism. The program encourages a wide spectrum of approaches to contemporary painting as visual expression, ranging from traditional to innovative. Students work under the guidance of a large, full-time faculty of active professionals who are nationally and internationally recognized. Visiting artists of national stature enhance the program with lectures and individual undergraduate critiques.

Students must submit a BFA declaration form after successful completion of the art foundational course work to be admitted to the major.

Art (Photography), BFA (FAARTPHBFA)

Campus: Tempe

Program Description:

Students in the BFA program in photography are offered a solid education in the creation and analysis of photographs as a form of creative expression. Students work in a wide range of photographic media including specialized nineteenth century processes, traditional black and white and state-of-the-art digital output. The internationally recognized photography faculty at ASU is diverse, representing and encouraging a wide range of approaches to the creation of photo-based art. Students learn to be self-disciplined, self-directed, to understand complex ideas around how images function in their work and to develop a strong sense and control of the craft of photography. The Northlight Gallery engages students and provides opportunity to learn about gallery and museum practice through mounting exhibitions, working with artists and the collection.

Students must submit a BFA declaration form after successful completion of the art foundational course work to be admitted to the major.

Art (Printmaking), BFA (FAARTPMBFA)

Campus: Tempe

Program Description:

The BFA program in printmaking provides a complete studio experience with regular courses in:

- book arts
- digital processes
- intaglio
- lithography
- papermaking
- photogravure
- relief
- screenprint
- other graphic applications

Four full-time accomplished faculty teach in spacious, well-equipped studios, offering a complete range of print media. While individual students are encouraged to pursue a personal direction, the faculty encourage students to become well-rounded printmakers by experiencing and understanding many media, processes and approaches. No style, technique or aesthetic approach is stressed over another, so that the individual quality of each student's work is the essential measure of achievement. Collaboration, experimentation and transdisciplinary approaches to making art are encouraged, and students often work with other areas in the School of Art, such as photography, intermedia, painting and drawing, and sculpture.

Students must submit a BFA declaration form after successful completion of the art foundational course work to be admitted to the major.

Additional Program Fee: Y

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

Trained printmakers are working artists, practicing the expression of a personal understanding of their place in the world. They may find employment as artists or printmakers in schools of all levels teaching the execution and appreciation of visual art. They also work in fine art print studios, executing original prints for other artists. Printmaking skills such as screenprinting or photomechanical and digital techniques, acquired for the production of art, also have commercial, nonart applications that may afford skilled employment. Artists with printmaking skills may also work with graphic designs, illustrations and signage or may work in museums, conservation, publishing, galleries and in other art-related activities. Additionally, their art may sell successfully in the open marketplace.

Art (Sculpture), BFA (FAARTSBFA)

Campus: Tempe

Program Description:

The BFA program in sculpture recognizes the broad, transdisciplinary nature of sculpture today. A wide range of media now falls within an expanded definition of sculpture. Course work includes:

- architectural sculpture
- foundry
- interactive and kinetic sculpture
- neon
- small metals
- wood
- video and sound installation

While classes run the gamut of the contemporary sculpture environment, there also is an emphasis on helping students put today's creations in the contexts of the history of sculpture and the larger field of contemporary art. Critical inquiry is augmented by courses in the art history program. Visiting artists, curators and critics connect students to the contemporary context.

Students must submit a BFA declaration form after successful completion of the art foundational course work to be admitted to the major.

Campus: Tempe

Program Description:

The BA in the arts is an interdisciplinary degree program designed for students who are passionate about the arts and interested in combining knowledge about multiple arts disciplines. Students will gain an increased understanding of the theoretical, historical and cultural forces that shape the arts through an open-ended path for exploration and development of a range of skills that will be valuable for advanced study in multiple areas.

The major includes a common core for all students, and students choose a focus from:

- arts administration
- entertainment design
- fashion design
- historical and theoretical studies in the arts
- individualized focus designed by the student and subject to approval by the institute's standards committee and the dean's office

Additional Program Fee: Y

Second Language Requirement: Students pursuing the historical and theoretical studies focus area must demonstrate foreign language proficiency. Remaining focus areas do not have a second-language requirement.

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative

GPA of 2.50 (scale is 4.00 = "A").

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)
Pima Community College (<http://transfer.asu.edu/pima>)

Career Opportunities:

As the population in the state of Arizona grows, numerous arts organizations are developing to provide cultural and artistic experiences for our residents. These organizations will need and demand individuals with the necessary critical thinking skills who understand the impact the arts have on society and who will be passionate employees committed to the arts. This program will provide the skill set necessary for such careers as:

- arts administrators
- arts critics
- entertainment designers
- fashion historians
- media arts authors and publishers
- museum curators and directors
- public art specialists

Dance, BFA (FADANBFA)

Campus: Tempe

Program Description:

The School of Film, Dance and Theatre provides a dynamic and culturally diverse learning environment in which students develop as creative artists, scholars and educators. The BFA program in dance offers a transdisciplinary curriculum that emphasizes collaboration and a holistic approach to education. The program encourages the thought that artists of the 21st century need to develop multiple skills for success in the arts and related fields. The core values of the program include creativity, research, leadership, reflection, humanity and context. These values are embedded in a broad range of academic experiences that emphasize:

- creative practices: the study of the creative process and dance making using improvisation, choreography and interdisciplinary approaches
- movement practices: the study of the theory, history and technique of a range of dance forms and mind-body practices, including:
 - contemporary ballet
 - postmodern contemporary dance
 - somatic practices
 - urban dance practices
 - dance and digital arts
 - dance history, ethnography and philosophy
 - seminars

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Admission to the BFA in dance is selective and based on an interview process. Students are admitted to ASU as dance interview students and must successfully complete an interview and audition before enrolling in the dance major. If you pass your interview, the School of Film, Dance and Theatre will change your major to the BFA in dance. In the event that you are admitted to ASU, but not selected as a dance major or you miss the interview application deadline, you will enter ASU as a dance interview student and will need to successfully pass the dance interview and audition milestone in the first semester in order to gain admission into the program.

Interview days take place in November, February and April of each year. To ensure a smooth curricular progression, we strongly encourage all prospective dance students, including transfer students, to participate in the interview day during the semester prior to their intended date of enrollment. More information on the interview process and deadlines can be found at <https://filmdancetheatre.asu.edu/degree-programs> (<https://filmdancetheatre.asu.edu/degree-programs>).

Dance Interview Days 2016-2017

Materials due October 21, 2016 for November 19, 2016 interview.

Materials due January 13, 2017 for February 11, 2017 interview.

Materials due March 3, 2017 for April 1, 2017 interview.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

The comprehensive academic foundation of the Bachelor of Fine Arts degree program in dance prepares students to be leading dance professionals of the 21st century. Graduates of the program have the expertise to pursue professions as choreographers, performers, educators, community artists, scholars and much more. After leaving ASU, many graduates:

- conduct academic research
- curate or produce dance festivals and events
- direct or manage performing art companies, studios or dance-related organizations
- facilitate community partnerships and projects
- produce dance media for performance or instruction
- pursue certification in somatic practices (Laban Movement Analysis, Feldenkrais, Alexander Technique, Body-Mind Centering, etc.)
- teach and design curriculum
- work as a dance critic
- work in the areas of health and wellness (fitness, yoga, massage therapy, etc.)
- work in the field of arts management and administration
- work in technical theatre and dance production
- write for scholarly publications

Dance (Dance Education), BFA (FADANEBA)

Campus: Tempe

Program Description:

The BFA program in dance education prepares students for certification to teach dance in K-12 schools in the state of Arizona. Students in this degree program are required to complete additional state certification requirements. The School of Film, Dance and Theatre provides a dynamic and culturally diverse learning environment where students develop as creative artists, scholars and educators. Studies in dance cultures, music, digital media, dance history, philosophy and criticism, movement science, somatics, and stage and screen production enhance the rich educational setting. Creativity and research, the core program values, are embedded in a broad range of academic experiences emphasizing movement and

creative practices, artistic process, leadership and pedagogy.

Design Studies, BA (ARDSNBA)

Campus: Tempe

Program Description:

The BA in design studies is a four-year, nonstudio program of study in design that focuses on the design disciplines offered in the ASU Herberger Institute:

- architectural studies
- graphic design
- industrial design
- interior design
- landscape architecture

It is a highly flexible program of study, much like a liberal arts degree, in which students select design and design-related courses offered in the institute and throughout the university. Students acquire a breadth of design knowledge via courses taken from three categories:

- communication for design
- design history
- general design

It provides a design education, general and specific, to students who seek opportunities in the broader design sector or in graduate education.

Students may undertake the program in one of two specific concentrations: design studies, which allows students to discover the myriad possibilities of design as a subject area as well as the flexibility that it provides for further exploration; or design management, which offers a selection of courses in management and human communication that complement design.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Digital Culture, BA (HIDGCBA)

Campus: Tempe

Program Description:

The School of Arts, Media and Engineering offers a first-of-its-kind BA in digital culture. The degree program is for students who are interested in helping shape the future creative uses of digital technology in our day-to-day lives. Digital culture majors learn to go beyond merely using digital tools; they develop the ability to program media and integrate computational systems with the everyday physical human experience. This dynamic curriculum not only prepares students with tangible skills in cultural media but also with the critical-thinking skills to understand the broader impact of technologies on life and culture.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

Career opportunities include the following fields:

- audio
- creative writing
- comparative literature
- computing
- technical writing
- technology
- visual media

Digital culture alumni have obtained careers as:

- designers
- graphic designers
- engineers
- programmers
- software specialists
- special effects artists
- 3D modelers
- visual media artists

Digital Culture (English), BA (HIDGCENBA)

Campus: Tempe

Program Description:

The Digital Culture program with a concentration in English is designed for students who wish to explore the historical, scientific and theoretical intersections of art, media and technology. Sharing of stories and media through electronic communities; participatory art-making and creativity forums on the web; gaming; digital movies and effects; mediated public spaces and electronic design are only a few of the new activities that are defining and evolving culture. Students in the major will assist in the establishment, evolution and proliferation of such culture at the state, national and international level. Students will use tools of inquiry to examine, analyze and create works of art through a hands-on approach to communication, writing, rhetoric and literacies in collaboration with the English department.

Campus: Tempe

Program Description:

The School of Arts, Media and Engineering offers a first of its kind BA in digital culture. The degree is for students who are interested in helping shape the future creative uses of digital technology in our day-to-day lives. Digital culture majors learn to go beyond merely using digital tools; they develop the ability to program media and integrate computational systems with everyday physical human experience. This dynamic curriculum not only prepares students with tangible skills in cultural media but also with the critical-thinking skills that enable the understanding of the broader impact of technologies on life and culture.

Graduates interested in continuing their education are well prepared to apply for the top transdisciplinary new media programs in the nation.

Digital Culture - Graphic Information Technology concentration

This concentration is offered in partnership with the Ira A. Fulton Schools of Engineering. Students complement their knowledge of new media with technology and new media entrepreneurship skills, knowledge of legal and ethical issues for technology, and additional skills in graphic

communication, digital illustration and design methodology.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Upon graduation, digital culture students have a wide array of career opportunities in new media involving the fields of:

- communications (CISCO, Google, Facebook)
- computing (Apple, Microsoft)
- gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- media arts (engineering multimedia shows, video and sound production)

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex sociotechnical problems, such as:

- diagnostic, monitoring, and assistive cyber-physical tools and systems that can be used by health care providers
- new systems for collaborative, participatory content creation and sharing
- social networking and reflection tools for promoting sustainability
- systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates who are interested in continuing their higher education will be well prepared to apply for admission to the top transdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital culture alumni have received job opportunities in:

- audio and video
- engineering
- graphic design
- illustration
- iOS development
- journalism
- programming
- software engineering
- special effects
- 3D modeling and fabrication
- visual media

Environmental Design, BS (HIEDSBS)

Campus: Tempe

Program Description:

The BS in environmental design offers an integrated curriculum in environmental design primarily in a nonstudio format. This undergraduate program is designed to create a deep awareness and knowledge of issues that influence the design of built environments and the design of artifacts in general. The program of study emphasizes general knowledge and design research as well as focus areas. Focus areas include histories and theories of design; innovation, technology and design strategies; and sustainability in environmental design. The curriculum will provide special understanding of theories, technologies, social issues and management aspects related to the student's chosen focus area. While studio courses cannot be taken as electives, students will be able to take career-specific design electives, and the degree prepares students for all graduate programs in The Design School. The program itself is not a professional degree program but intends to provide a broad base of skills and knowledge in environmental design.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Film (Film and Media Production), BA (FAFLMBA)

Campus: Tempe

Program Description:

The School of Film, Dance and Theatre offers a BA in film with a concentration in film and media production. Students pursuing this concentration develop a comprehensive and practical knowledge of production; awareness and impact of media and entertainment on audiences and culture; and an understanding of the role of the artist in society. Students have access to digital cameras, lighting and sound equipment, post-production software and facilities, and other resources and technologies that will give them an opportunity to produce a final capstone project of exceptional technical quality.

Within this concentration, students have the option of three tracks of study: directing, producing, or media and technology. Each of these focused courses of study is supported by the degree-wide emphasis on ethical filmmaking practices, innovative creative expression, and preparation for a career as an industry professional.

All students enter as majors in the filmmaking practices concentration. After completing the required five core film degree courses (15 credits), students are eligible to apply to the selective, studio-based concentration in film and media production. Students who enter ASU as freshman typically apply for the film and media production program in their third or fourth semester; transfer students may apply earlier depending on academic record, experience, and preparation.

Additional Program Fee: Y**Second Language Requirement:** N**First Required Math Course:** MAT 142 - College Mathematics OR MAT 117 OR MAT 119**Program Math Intensity:** General**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)International (<https://students.asu.edu/international/future>)Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All film students will be admitted to ASU into the Bachelor of Arts in film, filmmaking practices concentration. Students who wish to pursue the highly-selective, studio-based Bachelor of Arts in film, film and media production concentration must complete the 15-hour film core and successfully pass an interview and review of their creative work to enter the concentration. This interview and creative work review generally takes place in the second or third term at ASU.

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

The film and media production concentration provides students with the knowledge and experience to prepare them to enter careers in media and entertainment as:

- cinematographers
- directors
- editors
- producers
- screenwriters

The bachelor's degree program is an excellent broad-based foundation for work in the profession or to prepare students for further training at graduate schools or conservatories.

Film (Filmmaking Practices), BA (FAFPRBA)

Campus: Tempe

Program Description:

Students in the filmmaking practices concentration receive grounding in fundamental production skills; entertainment and media ethics; feature, short, and episodic screenwriting; and general film industry history and practices.

Students will have the option of two tracks of study in the upper division: screenwriting or preprofessional. Students who choose the track in screenwriting will be required to take multiple writing courses at the intermediate and advanced levels; students in the preprofessional track will choose among a series of course options in each of the areas of writing; producing; and film and media technology. Production experience is regularly available through select lower-division courses that provide creative course work options; the upper-division course FMP 300 Focus on Film (3); and credited opportunities to work on projects produced by students, faculty, and the School of Film, Dance and Theatre. All students will complete a year-long senior project, initiated and developed by the students and supported with dedicated faculty mentorship.

Bachelor's degree students in film begin their studies in the School of Film, Dance and Theatre in the filmmaking practices concentration. All students complete the same 15-hour core requirements in their first two years of study.

Additional Program Fee: Y

Second Language Requirement: N

Graphic Design, BSD (ARGRABSD)

Campus: Tempe

Program Description:

Graphic designers are responsible for designing how information is communicated. Forms of communication include print, video, film and electronic (Web). The faculty in The Design School offers the BSD in graphic design.

Graphic designers are concerned with:

- appearance

- choosing the appropriate mechanism for communication
- clarity of information and its effectiveness
- how communication is transferred and received

This program places an emphasis on strategic communication, developed through a design process that includes research, analysis, conceptualization, planning and realization. The process leads to innovative visual communication design solutions for contemporary design problems that are local to global in scope.

All students who are admitted to the major must pass a degree milestone at the end of the first year to continue in the major. For more information on the milestone process, visit: <http://herbergerinstitute.asu.edu/degrees/milestone.php> (<http://herbergerinstitute.asu.edu/degrees/milestone.php>).

This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent) at any point of entry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

Based on a diversified portfolio upon graduation, students opting for the graphic design profession gain employment in:

- advertising and marketing design
- brand and corporate identity design
- broadcast (TV graphics) design
- interaction and interface design
- museum or exhibition design
- publication design
- visual communication design
- Web design

Specific examples of graphic designers' work include:

- annual reports
- books
- environmental graphics
- information design
- motion graphics
- multimedia presentations
- publications
- Web sites

Students may also pursue graduate studies leading to careers in design education and other fields of professional endeavor in design.

Industrial Design, BSD (ARINDBSD)

Campus: Tempe

Program Description:

Industrial designers are responsible for the design of product and service systems that people use in their everyday lives. The industrial design program at ASU focuses on a new model of transdisciplinary product development called integrated innovation.

Using this model of innovation, students systematically work through a matrix of four questions:

- What is valuable to users?
- What is possible through engineering?
- What is desirable to business?
- What is good for society and the environment?

The goal of the program is to help students learn how to create product and service systems that:

- benefit society while minimizing impacts on the environment
- can be realized through appropriate technology and engineering
- create measurable value for business
- satisfy people's needs

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information on the milestone process, visit: <https://herbergerinstitute.asu.edu/degrees/milestone.php> (<https://herbergerinstitute.asu.edu/degrees/milestone.php>).

This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent) at any point of entry.

Additional Program Fee: Y

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

After completing the program successfully, graduates have the option of working as designers in several capacities:

Obtain employment as members of in-house design teams at corporations in a variety of industries including, but not limited to:

- consumer goods
- furniture
- health care and medical products
- packaging design
- sports and outdoor goods
- toys
- trade show and exhibit design
- transportation and mobility device design
- user interface design
- Obtain employment with consulting firms that design products and services for a variety of clients.
- Obtain employment with nonprofit institutions or nongovernmental organizations and use their skills to address specific social or environmental problems.
- Pursue entrepreneurship opportunities: some graduates have established their own design and manufacturing ventures.
- Pursue teaching a variety of courses in art and design schools, colleges or universities, part time or full time.

Interior Design, BSD (ARINTBSD)

Campus: Tempe

Program Description:

Course work in the BSD program in interior design examines the context and spaces in which individuals and groups live and work. Interior designers create environments within buildings that meet the physical and psychological needs of individuals and institutions, providing a useful, rich and rewarding environment for their lives. Interior design involves the design of space, equipment and furniture. It requires substantial technical and organizational understanding; sensibility to form, lighting, color and texture; and an awareness of design history and theory.

All students who are admitted to the major must pass a degree milestone at the end of the first year to continue in the major. Landscape Architecture, BSLA (ARPLABSLA)

Campus: Tempe

Program Description:

The BS program in landscape architecture offers students the opportunity to engage with the community in applied projects that focus on designing sustainable outdoor environments and improving the ecological and social health of the urban environment.

Undergraduate landscape architecture program projects can range from large-scale work encompassing urban design, landscape reclamation, open space preservation planning, and landscape ecological design to projects at the more intimate scale of a neighborhood park or residential back yard. Emerging areas of focus include biotechnical design; urban agriculture; construction of greenways, green roofs and living walls; and the design of healing environments. Students complement their design learning with electives from a broad range of approved courses.

All students must pass a degree milestone at the end of the first year to continue in the major. For more information, visit: <http://herbergerinstitute.asu.edu/degrees/milestone.php> (<http://herbergerinstitute.asu.edu/degrees/milestone.php>). This is an eight-semester program requiring sequential completion of studio course work (or approved equivalent).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

The bachelor's degree program is designed to prepare students for landscape architecture professional practice and advanced study at the graduate level. Our students have found employment in nationally recognized firms working with notable landscape architects in large multinational firms or in public agencies. Students also have gone on to pursue graduate study at universities with distinguished graduate programs in landscape architecture and allied design fields.

The U.S. Bureau of Labor Statistics projects employment for landscape architects will grow 16 percent from 2010 to 2020, about as fast as the average for all occupations. The bureau also notes that "employers prefer to hire entry-level landscape architects who have internship experience, which significantly reduces the amount of on-the-job training required." The bachelor's degree program has an internship requirement meant to address this preference and better prepare our graduates for employment.

Music, BA (FAMUSBA)

Campus: Tempe

Program Description:

The BA program in music provides students with a broadly based liberal arts degree applicable to careers in music and many other fields. The music curricular core, together with more elective flexibility than a BMUS, leads students to develop mainstream and alternative musical competencies, to explore music as human history, cultural artifact and social behavior, and to pursue other areas of interest.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music application. Visit <https://music.asu.edu/admissions/undergraduate-steps-to-apply> (<https://music.asu.edu/admissions/undergraduate-steps-to-apply>) for details.

Admission to the School of Music is based on an audition. Live auditions take place on campus in November (spring admission), and January and February (fall admission) of each year. Review audition information at <http://music.asu.edu/admissions/undergraduate-auditions> (<http://music.asu.edu/admissions/undergraduate-auditions>).

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event you are admitted to ASU but not to the School of Music or you miss the audition deadline, you will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Visit <http://music.asu.edu/admissions/undergraduate-deadlines-fees> (<http://music.asu.edu/admissions/undergraduate-deadlines-fees>) for complete music deadlines.

Spring 2017: The deadline to apply for admission to the Bachelor of Arts in Music is Oct. 15, 2016.

Fall 2017: The deadline to apply for admission to the Bachelor of Arts in Music is Jan. 6, 2017.

Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- music criticism and research, ethnomusicology and musicology
- music entrepreneurship, concert management and promotion
- music publishing
- performing in community and professional ensembles in a variety of styles and traditions
- teaching in a private studio or community program

Many graduates pursue a master's degree or a doctorate in music or another professional field.

Music (Music and Culture), BA (HIMUSMCBA)

Campus: Tempe

Program Description:

The BA in Music (music and culture) concentration provides students with a broadly based liberal arts degree applicable to careers in music and many other fields. The music curricular core, together with more elective flexibility, leads students to develop mainstream and alternative musical competencies, to explore musics as human history, cultural artifact and social behavior and to pursue other areas of interest. The degree is a liberal arts-based degree in which students have a higher percentage of elective courses allowing them to tailor both the general studies courses and the music electives to suit their career goals.

Additional Program Fee: Y**Second Language Requirement:** Y**First Required Math Course:** MAT 117 - College Algebra

Or MAT 119 or MAT 142

Program Math Intensity: General**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)International (<https://students.asu.edu/international/future>)Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music application. Visit <https://music.asu.edu/admissions/undergraduate-steps-to-apply> for details. Admission to the School of Music is based on an audition. Live auditions take place on campus in November (spring admission), and January and February (fall admission) of each year. Review audition information at <http://music.asu.edu/admissions/undergraduate-auditions> (<http://music.asu.edu/admissions/undergraduate-auditions>).

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event you are admitted to ASU but not to the School of Music or you miss the audition deadline, you will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Audition process for admittance to music and culture concentration:

- Submit a writing sample, which will be evaluated by all musicology faculty members.

Submit evidence of musicianship broadly defined (basic notational literacy plus live audition on, for example, didgeridoo or gospel-style composition, or documented transdisciplinary installation including music), which will be evaluated by all musicology faculty.

- Attend an interview with at least three musicology faculty members.
- Each student will be matched with a musicology advisor at the time of acceptance. The advisor will assist students in the choice of ensembles (as qualified) and electives to support their programs of study. Students must audition and be accepted into large ensembles following established procedures.
- Students who wish to take studio lessons as part of the degree must audition for the appropriate performance faculty members. Students should follow the BA in music audition requirements.

Application Deadlines: Visit <http://music.asu.edu/admissions/undergraduate-deadlines-fees> (<http://music.asu.edu/admissions/undergraduate-deadlines-fees>) for complete music deadlines.

Spring 2017: The deadline to apply for admission to the Bachelor of Arts in Music is Oct. 15, 2016.

Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Career Opportunities:

The BA program in Music (music and culture) concentration prepares students for potential careers in fields that require skilled written communication, the ability to conduct research both in electronic and print media, critical and logical thinking, the dissection of an argument and careful time management. In addition to the careers listed below, graduates may pursue jobs in music and medical humanities or copyright and entertainment law. Graduates are prepared to work in various professional capacities, including:

- music criticism and research, ethnomusicology and musicology
- music entrepreneurship, concert management and promotion
- music in culture
- music publishing
- performing in community and professional ensembles in a variety of styles and traditions
- teaching in a private studio or community program

Music Therapy, BMUS (FAMUSTHBM)

Campus: Tempe

Program Description:

The BMus program in music therapy prepares students for a career in the health care and special education professions. Music therapists use carefully planned music interventions to achieve desired changes in client individualized-behavior and functioning. Music therapy is a profession in which engagement in active music-making helps a client achieve nonmusical therapeutic goals. Educating the potential music therapist requires both a wide range of musical skills and the ability to work with people in a therapeutic manner. Music therapy students have many opportunities to develop their clinical skills. Students also study:

- human anatomy
- musical improvisation
- popular music styles
- psychology
- songwriting
- special education

- world music

Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event you are admitted to ASU but not to the School of Music or you miss the audition deadline, you will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Visit <http://music.asu.edu/admissions/undergraduate-deadlines-fees> (<http://music.asu.edu/admissions/undergraduate-deadlines-fees>) for complete music deadlines.

Spring 2017: The deadline to apply for admission to the Bachelor of Arts in Music is Oct. 15, 2016.

Fall 2017: The deadline to apply for admission to the Bachelor of Arts in Music is Jan. 6, 2017.

Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A").

Career Opportunities:

Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- performing as a concert soloist or in chamber music ensembles
- performing as a freelance musician in venues such as art galleries, churches, clubs, cruise ships, resorts, restaurants and theme parks
- presenting school programs or serving on state or community arts councils as artist-in-residence
- recording and studio work
- teaching privately or in a professional music school, a college or a university program
- working in music-related fields such as media production, music business, publishing and marketing

Many graduates pursue a master's degree or a doctorate in music or in another professional field.

Engineering, Ira A. Fulton Schools of

Aeronautical Management Technology (Air Traffic Management), BS (ESAMTATBS)

Campus: Polytechnic

Program Description:

The BS program in aeronautical management technology with a concentration in air traffic management provides a technical foundation in the air traffic control procedures used by air traffic controllers in air traffic control towers and air traffic control radar facilities. Students gain a strong background in aircraft operations, management skills and business principles through course work specific to air traffic control and aviation. As a part of the degree program, students are required to take courses that will qualify them to earn their airline dispatcher certificate.

This is an intensive program of classroom study and laboratory practice using state-of-the-art air traffic control simulators to enhance and reinforce classroom study. Students develop the following skills:

- analytical thinking
- clear and concise communication
- problem-solving
- teamwork

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration certifies flight and ground instruction.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

To be considered for employment by the Federal Aviation Administration, graduates of the program need to be aware of minimum requirements for employment. See https://www.faa.gov/jobs/career_fields/aviation_careers/ (https://www.faa.gov/jobs/career_fields/aviation_careers/) for more information. Graduates of the program are not guaranteed employment by the Federal Aviation Administration. Students who do not have U.S. citizenship may be admitted to the program but will not be eligible for employment by the Federal Aviation Administration.

Career Opportunities:

The Federal Aviation Administration's 2015 Controller Workforce Plan has projected that that agency plans to hire more than 6,300 new controllers over the next five years to keep pace with the expected attrition rate and traffic growth. The total number of planned hires for the period of 2015-2024 is 10,241 new controllers. Increases in the volume of air traffic will require more controllers to handle the additional work. New computerized systems will assist controllers by automatically making many of the routine decisions. This will allow controllers to handle more traffic, thus increasing their productivity.

To prepare for this challenge, students receive training in the methodologies and technologies that are currently being developed for the next generation of air traffic control systems. Despite the obvious demand for new controllers in the immediate future, competition to get into the FAA-approved training programs is expected to remain intense as there generally are many more applicants than there are openings. Graduates who have met all the FAA requirements will be eligible for consideration for employment.

Aeronautical Management Technology (Air Transportation Management), BS (TSAMTMBS)

Campus: Polytechnic

Program Description:

The air transportation management concentration, under the BS in aeronautical management technology, provides students with a strong foundation of aviation concepts, including aviation law, policy and human factors as well as technical knowledge focusing on power plants, structures and aerodynamics. Students will then progress into courses focusing on business and management and operational aspects of aviation such as airline administration and airport planning. All students will finish the program by participating in an internship within industry and completion of a capstone project. This program prepares students for leadership positions within airlines, airports, government, consulting and entrepreneurial enterprises.

The Aviation Accreditation Board International accredits this program.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Technology (Aviation Management and Human Factors) (MSTech) Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

A degree in air transportation management prepares graduates for these careers:

- airline manager
- airline operations manager
- airport manager
- aviation consulting
- entrepreneurial ventures
- Fixed Based Operations
- general aviation operations manager
- governmental positions with the Federal Aviation Administration, Department of Transportation and National Transportation Safety Board

Aeronautical Management Technology (Professional Flight), BS (TSAMTFBS)

Campus: Polytechnic

Program Description:

Students in the professional flight concentration learn to fly in an academic environment that prepares graduates for careers as professional pilots. Flight training is offered by an ASU-approved flight provider in late-model aircraft equipped with state-of-the-art avionics. Students may take advantage of pathway agreements for guaranteed interviews with regional air carriers.

Arizona's clear skies offer the best flying environment in the country. The Polytechnic campus is adjacent to the Phoenix-Mesa Gateway Airport where flight instruction takes place. Students have access to state-of-the-art flight training devices, including a Level 5 regional jet flight simulation training device. Other facilities, like the high-altitude simulation chamber, provide students with educational opportunities unique among collegiate aviation programs.

This program is for students who are seriously interested in becoming professional airline pilots. Graduates are prepared to assume responsibilities in a wide variety of technically related areas within professional aviation flight operations.

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration certifies flight and ground instruction.

Additional course-related fees apply; please see the program website for more information.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Technology (Aviation Management and Human Factors) (MSTech) Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: This major has additional admission requirements including Federal Aviation Administration requirements. Students will be admitted to the preprofessional status and then complete additional requirements for admission to the professional program. See <http://innovation.asu.edu/degrees-programs/human-environmental-systems/professional-flight-undergraduate> (<http://innovation.asu.edu/degrees-programs/human-environmental-systems/professional-flight-undergraduate>) for more information.

Career Opportunities:

The professional flight concentration offers students private pilot, commercial pilot and flight instructor certificates, as well as instrument pilot, instrument instructor and multiengine pilot ratings. With these flight qualifications and the technically based bachelor's degree, the graduate has a wide variety of career opportunities, including flight crew service on commercial and business aircraft.

Career opportunities include:

- airline pilot
- corporate pilot

technology@asu.edu

480-727-1874

Aeronautical Management Technology (Unmanned Aerial Systems), BS (TSAMTUASBS)

Campus: Polytechnic

Program Description:

The unmanned aerial systems concentration prepares students for careers in the rapidly growing area of unmanned aerial systems, including operations, remote sensing, data collection and analysis. The concentration incorporates all aviation management technology core courses and unmanned aerial systems concentration courses. This provides an overview of unmanned aerial systems operations followed by detailed knowledge of unmanned aerial systems-specific systems and technology (ground control stations; data links; flight planning and operations; search, detect and avoid technologies; and payloads) and unmanned aerial systems sensor operations. A critical aspect of this academic area of study is the data capture and transfer of the sensor information collected from the unmanned aerial vehicle. This innovative concentration brings together the most up-to-date and relevant aspects facing multiple industries today by addressing flight system planning and operations and the employment of the systems in the congested National Airspace System.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Technology (Aviation Management and Human Factors) (MSTech) Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

480-727-1874

Aerospace Engineering (Aeronautics), BSE (ESAEROBSE)

Campus: Tempe

Program Description:

The aerospace engineering curriculum provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems. The aeronautics concentration, under the BSE in aerospace engineering, emphasizes engineering and the design of aircraft, helicopters, missiles and other vehicles that fly through the atmosphere. Topics in required courses cover:

- aerodynamics
- aerospace materials
- aircraft structures
- flight mechanics
- propulsion
- stability and control

Required astronautics topics include:

- attitude control
- orbital mechanics

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Aerospace Engineering (MS)

Mechanical Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours:

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

A majority of students entering the field of aerospace engineering desire to work on the design and analysis of aerospace vehicles. Most graduates are employed in the aerospace industry or in government positions related to aerospace. Specific careers in aerospace engineering include:

- aeronautical and space systems integration
- configuration development
- material and structural design
- propulsion engineering
- space mission design and analysis
- vehicle and component analysis using computer-aided tools
- vehicle design and performance

- wind tunnel and flight testing

The aerospace engineering program has the following program educational objectives:

- Graduates of the aerospace engineering program should have attained one or more of the following objectives within a few years after completing their degrees:

- employment in aerospace or other field in a position that capitalizes on the skills and abilities gained through the degree in aerospace engineering, in positions of increasing responsibility and leadership within the organization
- admission into a graduate degree program in aerospace engineering or other technical field
- admission into a professional degree program, such as law or business, in accordance with the specific interests and abilities of the graduate
- Through volunteering, entrepreneurial endeavors, community service, employment, etc., graduates of the aerospace engineering program will demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Aerospace Engineering (Astronautics), BSE (ESAEASBSE)

Campus: Tempe

Program Description:

The aerospace engineering curriculum provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems.

The astronautics curriculum covers:

- attitude determination and control
- elective topics in aeronautics
- gas dynamics
- orbital mechanics
- rocket propulsion
- space environment
- space structures
- telecommunications

Students in the astronautics concentration culminate their major study with a capstone design project that incorporates the multiple disciplines involved in the creation of a space-going vehicle.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Aerospace Engineering (Autonomous Vehicle Systems), BSE (ESAEAVSBSE)

Campus: Tempe

Program Description:

Emerging emphasis on autonomous aircraft technology and operations in both military and civilian sectors signals a new era within the aeronautical community focused on autonomous vehicles and systems. The autonomous vehicle concentration will provide graduates with knowledge and skills required for any career in aerospace engineering plus those specific to unmanned aerial vehicles and systems. The concentration curriculum is structured so that students will have general exposure to engineering of autonomous aircraft plus track courses in one area important to this field. The tracks, are: guidance, navigation and control; and communications. Both tracks are intended for aerospace engineering students. All paths through this concentration satisfy accreditation criteria for aerospace engineering.

This program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Applied Computer Science, BS (TSACSBBS)

Campus: Polytechnic

Program Description:

The BS program in applied computer science provides students with an education that targets the computing profession. Students will learn to use mathematics, science and economics, along with technological knowledge and skill in the application of programming languages and software processes, to design, analyze, implement and test software systems and applications. The program is problem- and project-based, using the languages, tools and methods of computing best practices. Graduates gain significant exposure to team-based software development through industry-driven projects.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Applied Science, BAS (TSAPSBAS)

Campus: Polytechnic

Program Description:

The BAS program is a transfer pathway specifically for students who have earned a community college AAS degree. The goal of the program is to provide students with management, leadership, critical thinking and communication skills along with significant work in a professional specialization. Students must complete an Associate of Applied Science degree to be eligible for this program. AA and AS students are not eligible for this program.

This program allows students who have earned an Associate of Applied Science from a regionally accredited institution to transfer 60 or 75 credit hours toward a Bachelor of Applied Science at ASU. Students may opt to complete additional general studies course work at a community college to be eligible to transfer up to 75 credits toward the BAS. The BAS curriculum builds on the general education content of the AAS and includes four blocks of credits: general studies, core, concentration and assignable credits.

The ASU general studies requirements will be completed through upper-division course work. The BAS core curriculum includes content in management and organization, professional communication, statistical processes and computer competency. The concentration has a 20-semester hour minimum of specialization courses. The assignable credits (six semester hours) are traditional electives selected in consultation with an advisor to enhance the curriculum. Assignable credit also can be used to strengthen math and science capabilities or computer skills.

Students in the BAS program can select one of six specialty concentrations shown below. Students who choose to create their own specialty should select the courses in conjunction with an advisor.

- aviation management technology
- electronic and energy systems
- graphic information technology
- Internet and Web development
- manufacturing technology and management
- operations management technology

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: ASC 315 - Numeracy in Technology

Admission Requirements:

General University Admission Requirements:
 All students are required to meet general university admission requirements.
 Freshman (<https://students.asu.edu/freshman/requirements>)
 Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
 International (<https://students.asu.edu/international/future>)
 Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

Career Opportunities:

The wide range of concentrations provides graduates diverse career opportunities. Bachelor's degree program course work gives the graduate greater skills to be successful as a professional working in a technical area. Graduates have the ability to supervise and manage people in highly specialized technical and service industry positions.

Applied Science (Aviation), BAS (TSAMTABAS)

Campus: Polytechnic

Program Description:

This program allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a BAS at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students transferring from a regionally accredited Arizona public community college can transfer up to 15 additional credit hours of transferable general studies courses (75 credit hours total). Students should work with their academic advisor to ensure their courses will meet degree requirements.

The concentration in aviation is for students who have received training and education in some aspect of the air transportation industry, such as air transportation management, flight or aviation maintenance, as part of their associate degree.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: ASC 315 - Numeracy in Tech

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)
Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. Not available for freshmen.

Career Opportunities:

Students receive an orientation in management practices that prepares them for advanced positions in the aviation management field.

Applied Science (Electronic Energy Systems), BAS (TSEESBAS)

Campus: Polytechnic

Program Description:

The BAS program is flexible, designed specifically for students who have earned an AAS from a regionally accredited institution.

The electronic and energy systems concentration serves students with an electronics background via three paths or emphasis areas: alternative energy, electronic systems and integrated electronic systems (focused on the semiconductor industry).

The alternative energy technologies emphasis explores various alternative energy resources. This program provides hands-on laboratory experience on energy conversion and storage technologies, including photovoltaics, fuel cells, batteries, electrolyzers and supercapacitors.

The electronic systems emphasis allows students to continue to develop a knowledge of electrical and electronic fundamentals, with an applications perspective and a focus on the general topics of microcontrollers and advanced digital controllers and how these are used in industry.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

Career Opportunities:

Graduates from the alternative energy emphasis are able to work in a number of different companies involved in alternative energy. These companies may be traditional energy production companies expanding into new production technologies or start-up companies involved in solar energy or fuel cells.

Graduates from the electronic systems emphasis are able to work as members of engineering teams in applied design, product development, manufacturing, production or operations. They may also be employed in technical services capacities, including field engineering, marketing or sales.

Applied Science (Graphic Information Technology), BAS (TSGITBAS)

Campus: Polytechnic

Program Description:

The BAS program allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students transferring from a regionally accredited Arizona public community college can transfer up to 15 additional credit hours of transferable general studies courses (75 credit hours total). Students should work with their academic advisor to ensure their courses will meet degree requirements.

This concentration in graphic information technology prepares graduates in the cross-media graphic industry that includes:

- commercial photography and video
- digital design, print and publishing
- Web design and development

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Accelerated Degrees:

This degree is also offered as an accelerated degree with Technology (Graphic Information Technology) (MSTech)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students applying to this program must have completed an Associate of Applied Science degree in computer graphic design, digital arts, digital photography, eLearning design specialist, game technology, graphic design, animation and Web publishing design, graphic design: visual communication, information technology; Web and graphic design, media arts; desktop publishing, media art; Web design, multimedia, multimedia and business technology, and video production technology.

Career Opportunities:

Because the program combines technical course work with management content, graduates are prepared to assume supervisory positions such as:

- art director
- client support specialist
- commercial photographer or videographer
- graphic designer
- production manager
- user interface designer
- Web designer

The Web design and development focus area prepares graduates for careers in website design.

The digital design, print and publishing focus area prepares graduates for lead technical and management positions in print, imaging and digital publishing.

The commercial photography and video focus area prepares students for commercial photography, videography and 2-D to 3-D interactive communications.

Applied Science (Internet and Web Development), BAS (TSIWDBAS)

Campus: Polytechnic, Online

Program Description:

The BAS program allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students transferring from a regionally accredited Arizona public community college can transfer up to 15 additional credit hours of transferable general studies courses (75 credit hours total). Students should work with their academic advisor to ensure their courses will meet degree requirements.

The concentration in Web design and development focuses on the development of web sites, including user experience design, usability, multimedia design, emerging Web technologies, and cross-media and cross-platform graphic applications. All courses for this program are available both on campus and online through ASU Online.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Accelerated Degrees:

This degree is also offered as an accelerated degree with Technology (Graphic Information Technology) (MSTech) Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students applying to this program must have completed an Associate of Applied Science degree in Web design, Web development, media arts; digital animation, media arts; Web design, Web developer, Web designer, and graphic design, animation, and Web publishing design.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Applied Science (Manufacturing Technology and Management), BAS (TSMETFBAS)

Campus: Polytechnic

Program Description:

The BAS program is a flexible, 60 credit hour degree designed specifically for students who have earned an AAS from a regionally accredited institution.

The manufacturing technology and management concentration provides a broad understanding of the complex world of manufacturing.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Applied Science (Operations Management), BAS (TSIMCOBAS)

Campus: Polytechnic, The Gila Valley, CAC, Online

Program Description:

The BAS program in operations management prepares students for supervisory and management functions in industry, manufacturing, public service and other service organizations. Program graduates provide strategic focus to implement best practices, manage people and create value to meet organizational objectives.

This program allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science degree at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students transferring from a regionally accredited Arizona public community college can transfer up to 15 additional credit hours of transferable general studies courses (75 credit hours total). Students should work with their academic advisor to ensure their courses will meet degree requirements.

Arizona State University has established partnerships with Central Arizona College and Eastern Arizona College that will allow students to complete their associate degree at CAC or EAC and then pursue this bachelor's degree through classes delivered on the EAC Thatcher campus or at CAC in Pinal county. Visit <https://transfer.asu.edu/eac> (<https://transfer.asu.edu/eac>) for more information about ASU degrees offered at Eastern Arizona College Thatcher campus or <https://transfer.asu.edu/cac> (<https://transfer.asu.edu/eac>) for degrees offered at Central Arizona College. Applied Science (Software and Computing Systems), BAS (TSCSTBAS)

Campus: Polytechnic

Program Description:

The BAS program with a concentration in software and computing systems is a 60 credit hour degree designed specifically for students who have earned an AAS from a regionally accredited institution in a computing area. Students are expected to have an AAS with course work in object-oriented programming, data structures, computer organization, and assembly language programming. to enroll in upper-division major courses. The program requires upper-division course work and laboratories, and culminates in a capstone senior project.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

Career Opportunities:

The program exposes students to advanced concepts and critical thinking skills that prepare them for expanded career opportunities and professional advancement. Graduates from this concentration are prepared to work in systems administration and cybersecurity for Internet and telecommunication companies, a wide variety of information technology providers, and information technology centers within most midsize to large corporations. Demand for graduates with these skills continues to rise even while the job market in many other areas is stagnant or declining.

Biomedical Engineering, BSE (ESBMEBSE)

Campus: Tempe

Program Description:

Biomedical engineering applies principles of engineering to the study and resolution of problems in biology and medicine.

Our graduates are trained to apply their skills in an ethical, sustainable and environmentally responsible manner to make contributions that address societal and individual needs.

Our objective is to prepare high-quality graduates with a broad-based education in biomedical engineering:

- for productive employment, graduate study or professional programs, especially in human and animal medicine, biotechnology and related biology-based engineering fields
- who continue to develop technical knowledge, awareness and leadership abilities so they may address domestic or global issues in human health
- who will ethically and responsibly contribute to society by drawing from an integrated, transdisciplinary biomedical engineering education that focuses on sustainability and environmentalism

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biomedical Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Biomedical engineers are primarily employed in:

- governmental regulatory agencies
- hospital and research facilities
- medical and educational institutions
- the medical device, biotechnology and pharmaceutical industries

In industry, they may work in all aspects of product development including:

- business development
- manufacturing
- marketing
- quality
- regulatory
- research and design
- sales

Because of their background in both the engineering and medical fields, they often serve a coordinating or interfacing function and provide a key role for transdisciplinary teams. Government positions may involve:

- evaluating new technologies
- product testing and safety
- setting standards

In the hospital, biomedical engineers serving in a clinical engineering function may provide advice on the selection and use of medical equipment and supervise performance testing and maintenance. Biomedical engineers may also build customized devices for special health care, rehabilitation or research needs.

Chemical Engineering, BSE (ESCHEBSE)

Campus: Tempe

Program Description:

Chemical engineering deals with the application of chemistry, physics and mathematics to the process of converting raw materials or chemicals into more useful or valuable forms. Chemical engineering also involves the design of valuable new materials and chemical products.

The BSE offered in the chemical engineering program builds on a broad base of knowledge within the basic and mathematical sciences and engineering, and it offers excellent career opportunities. Chemical engineers are engaged in the development and production of a diverse range of products, including high-performance materials needed for aerospace, automotive, biomedical, electronic, environmental and military applications. The modern discipline of chemical engineering is intertwined with biology and biomedical engineering.

This program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Chemical Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours:

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and

- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Chemical engineers have traditionally played a key role in industries as varied as:

- artificial fibers
- ceramics
- food
- glass
- petrochemicals
- petroleum
- plastics
- primary metals
- specialty chemicals

There are also many newer fields with great demand for chemical engineering graduates, such as: semiconductors, biotechnology, biomedical engineering, modern materials (composites, superconductors) and the solution of environmental problems.

Civil Engineering, BSE (ESCEEBS)

Campus: Tempe

Program Description:

Civil engineering majors in the Ira A. Fulton Schools of Engineering have three choices within the accredited BSE program:

- civil engineering
- civil engineering with environmental engineering concentration
- civil engineering with sustainable engineering concentration

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the Bachelor of Science in Engineering in civil engineering is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Civil engineering involves the analysis, planning, design, construction, maintenance and application of sustainable practices in all areas of urban infrastructure for government, commerce, industry and the public domain. These include:

- airports
- bridges
- canals
- dams
- factories
- office towers
- roadway systems
- schools
- tunnels and subway systems
- water purification facilities

Civil engineers are concerned with the impact their projects have on the public and the environment; they coordinate the needs of society with technical and economic feasibility.

The curriculum exposes students to the following areas of civil engineering, with a strong emphasis on sustainability:

- construction engineering
- environmental engineering
- geotechnical engineering
- hydrosystems engineering
- structures
- transportation

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Civil, Environmental and Sustainable Engineering (MSE)
- Civil, Environmental, and Sustainable Engineering (MS)
- Construction Engineering (MSE)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and

- minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

ASU graduates with a bachelor's degree in civil engineering readily find employment. Civil engineers work in many different types of companies, from large corporations to small, private consulting firms or governmental agencies. A civil engineering background is an excellent foundation for jobs in management and public service. Civil engineering is one of the best engineering professions from the viewpoint of international travel opportunities or for eventually establishing one's own consulting business. The bachelor's degree prepares graduates for the fundamentals of engineering examination, the professional engineering examination and graduate degrees.

Civil Engineering (Environmental Engineering), BSE (ESCEEEBSE)

Campus: Tempe

Program Description:

Civil engineering majors have three choices within the accredited BSE program:

- civil engineering
- civil engineering with environmental engineering concentration
- civil engineering with sustainable engineering concentration

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the Bachelor of Science in Engineering in civil engineering is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

The bachelor's degree in civil engineering with a concentration in environmental engineering is a transdisciplinary field based on traditional civil engineering principles, chemistry, biology and geology. Environmental engineers are involved with:

- air pollution technology
- analysis of the fate and transport of pollutants
- application of sustainable practices in all areas of urban infrastructure
- construction of hazardous waste containment systems
- design and operation of water and wastewater treatment systems
- remediation of contaminated soils and waters
- surface water quality management
- water conservation and reuse

The curriculum also exposes students to other traditional civil engineering areas.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Civil, Environmental and Sustainable Engineering (MSE)
- Civil, Environmental, and Sustainable Engineering (MS)
- Construction Engineering (MSE)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

ASU graduates with a bachelor's degree in civil engineering with a concentration in environmental engineering find employment in:

- consulting firms
- industry
- municipalities
- regulatory agencies

The growth of environmental engineering positions has been balanced by the growing number of students entering the field, resulting in a stable job market.

A civil engineering background is an excellent foundation for jobs in management and public service. International opportunities are abundant and are likely to expand. The bachelor's degree in civil engineering prepares graduates for the fundamentals of engineering examination, the professional engineering examination and graduate degrees.

Civil Engineering (Sustainable Engineering), BSE (ESCEESUBSE)

Campus: Tempe

Program Description:

Civil engineering majors have three choices within the accredited BSE program:

- civil engineering
- civil engineering with environmental engineering concentration
- civil engineering with sustainable engineering concentration

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the Bachelor of Science in Engineering in civil engineering is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

The bachelor's degree in civil engineering with a concentration in sustainable engineering incorporates systems modeling and life cycle approaches to assessing the resiliency and material selection across all areas of urban infrastructure, or built environment, currently addressed within the civil engineering degree. The program is designed to provide students with exposure to material from several disciplines that comply with the principles of economic, social and ecological sustainability and apply them to traditional civil engineering areas.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Computer Science, BS (ESCSEBS)

Campus: Tempe

Program Description:

Computer science professionals design, analyze and improve the quality of computer software and systems for a variety of applications, including:

- artificial intelligence
- computer vision
- graphics
- information management
- multimedia
- networking
- security

Examples of projects a computer scientist might work on include:

- computer networking
- database and information systems
- distribution processing systems
- gaming systems
- next-generation computing systems

- search engines
- software engineering
- Web services

The program focuses on the design of computers, computational processes for problem-solving, and information transfer and transformation with an emphasis on improving software and system quality, security, performance and usability. The program supports the evolution of the computing and informatics disciplines, the integration of computer and information sciences with engineering, science and other disciplines.

Accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Computer science graduates secure employment in a variety of capacities ranging from computer and software design to development of information technologies. Their jobs are often distinguished by the high level of theoretical expertise applied to solving complex problems and to the creation and application of new computing technologies. Some computer science-related jobs may include:

- creating computer games and graphics systems
- designing artificial intelligence systems
- developing mobile computing applications
- developing network security applications
- discovering data management and mining solutions for large scale data analytics
- inventing and implementing more efficient computing systems for managing data and information, including information retrieval and search on the Internet

With the theoretical foundation built into the program, computer science graduates can excel in system and software development as well as in designing effective computing solutions for emerging and challenging problems in modern society. Skills in system development and research can lead to entrepreneurial activity that produces innovative computing products and services.

Computer Science (Software Engineering), BS (ESCSESBS)

Campus: Tempe

Program Description:

The software engineering concentration is appropriate for computer science students seeking careers as software engineers. Students will learn advanced processes, methodologies and tools for developing and testing large and small software applications in emerging areas such as:

- databases
- enterprise systems
- interoperable systems
- mobile computing
- service-orientated computing

They will also learn information assurance concepts and techniques, or principles of human computer interaction and methods, for developing these applications. The curriculum prepares students to assume leadership roles in software development organizations and to practice professional standards and emerging software technology to the software engineering life-cycle activities.

Accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Career Opportunities:

Career opportunities are strong and numerous for software engineering concentration graduates. Graduates possess the knowledge and skills to work across the spectrum of software development process activities including:

- architecture
- coding
- project management
- quality assurance
- requirements engineering
- testing

Careers include:

- software analyst
- software architect
- software engineer
- software task leader
- software tester

Software engineering concentration graduates find employment in large and small organizations that develop, deploy and manage software systems. They work on all types of projects that include large, complex engineering systems; distributed banking; financial and government software; and gaming.

Computer Systems (Computer Hardware Technology), BS (TSCSTHBS)

Campus: Polytechnic

Program Description:

The computer hardware technology concentration under the BS in computer systems offers students the opportunity to develop knowledge and skills in the broad area of digital systems, computer hardware and computer network applications. Current computing industry needs drive the program's curriculum. The computer systems program uses mathematics, science and economics along with technological knowledge and skill in the application of programming languages, computer hardware, operating systems and networking to design, analyze, implement and test systems that integrate hardware and low-level software. The program is problem-based with exercises utilizing the languages, tools and methods of computing best practices.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Computer Systems Engineering, BSE (ESCSEBSE)

Campus: Tempe

Program Description:

The computer systems engineering program focuses on the analysis, design, testing, integration and evaluation of hardware and software systems.

The curriculum is grounded in many engineering disciplines, including the applications of science and technology to the design of:

- computer architecture
- computer security
- digital circuits
- distributed and embedded systems
- networking
- operating systems

Students engage in the design of integrated hardware and software solutions for computing, communication and control applications. They practice many aspects of engineering activities, such as the development of:

- computer networks
- embedded and ubiquitous systems
- high performance computer systems
- individual digital components

Students become skilled at interfacing different pieces of hardware and software components and integrating systems and products with new capabilities and improved quality and performance.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)International (<https://students.asu.edu/international/future>)Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Computer systems engineers are employed in industry, government, education and consulting firms where they engage in the design, development and operation of hardware and software systems of computer and networking equipment.

Computer systems engineers often find themselves focusing on engineering problems or challenges of emerging computer systems, from chips to device controllers, embedded systems and high performance computing servers. Their jobs usually involve the research, design and development of computer hardware and software for practical applications. Their work can result in innovative, state-of-the-art products that integrate computing and communication capabilities, such as those in:

- avionics and space vehicles
- digital television and photography
- intelligent highways and control systems for vehicles
- mobile devices and smart applications
- new apparatuses for health care and for the sight-impaired or others with physical disabilities
- security and defense systems

Computer Systems Engineering (Information Assurance), BSE (ESCSEIBSE)

Campus: Tempe

Program Description:

The information assurance concentration in the computer systems engineering BSE degree program provides students with the knowledge and skills needed to build dependable and secure information systems and networks and to ensure the integrity and quality of the information being stored, processed and transmitted.

ASU has been certified as a National Center of Academic Excellence in Information Assurance Education and a National Center of Academic Excellence in Information Assurance - Research by the National Security Agency and the Department of Homeland Security. Information assurance courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for Information Systems Security Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012). For more information on information assurance courseware at ASU, see <http://ia.asu.edu/education.php> (<http://ia.asu.edu/education.php>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Computer Science (Art, Media and Eng) (MS)
- Computer Science (Big Data Systems) (MCS)
- Computer Science (Big Data Systems) (MS)
- Computer Science (Biomedical Informatics) (MS)
- Computer Science (Information Assurance) (MCS)
- Computer Science (Information Assurance) (MS)
- Computer Science (MCS)
- Computer Science (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)
Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students enrolled in the information assurance concentration are eligible for federal fellowships such as the Department of Defense Information Assurance Scholarship Program and the Federal Cyber Service Scholarship for Service Program. For more information on the scholarship programs, see <http://ia.asu.edu/scholarship.php> (<http://ia.asu.edu/scholarship.php>).

Graduates with a degree in computer systems engineering with an information assurance concentration find employment in a variety of capacities ranging from computer systems and software development to research on information assurance technologies. Some related jobs may include:

- analyzing computer forensic data
- designing secure information systems and networks
- information security consulting
- information systems security engineering
- network security engineering

Construction Engineering, BSE (ESCONBSE)

Campus: Tempe

Program Description:

The BSE program in construction engineering focuses on a combination of design and management topics, preparing the student for a career in the engineering and construction industry. The program prepares students who wish to gain a professional engineering license while working at the interface of design and construction; it is attractive for students interested in a career that emphasizes construction of infrastructure. The degree makeup includes engineering design and construction management courses with a focus on sustainability and building information modeling topics. Construction management content includes:

- construction methods
- contract management
- cost and schedule control
- people management
- project estimating

The curriculum's design content includes structures, geotechnical engineering and transportation. Students are further prepared with the computer, management, technical and people skills needed to succeed. This degree is the third in the Southwestern U.S. and one of about 20 worldwide.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Construction Engineering (MSE)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The construction engineering graduate will be prepared to begin as a field engineer, project engineer or project designer working for:

- construction companies
- design firms
- facility owners
- material suppliers
- specialty subcontractors

The graduate will have unique skills which will allow them to take on the role of integrator in the delivery of design-build projects or development activities. As the graduate's career progresses, they should be able to take on leadership roles in the delivery of sustainable facilities in the built environment and then progress through successively higher levels of management responsibility. The graduate should be particularly attuned to design and construction of heavy civil and industrial facilities meeting the infrastructure needs of society.

Construction Management, BS (ESCONMGTB)

Campus: Tempe

Program Description:

The BS program in construction management allows students to specialize in commercial, heavy construction, residential, specialty construction and facility management. Students learn to organize, lead and manage the building construction business processes related to real estate, facility and infrastructure projects. Construction management is the most vital function on a job site. Construction managers represent the interests of the building owner or the contractor and interact with architects, engineers, subcontractors, vendors and suppliers to ensure the success of the construction projects in the built environment. This program focuses on the business of construction and technology (such as building information modeling).

Students learn:

- the basics of design
- the construction methods specific to each type of construction (heavy, residential, commercial, specialty)
- how to estimate, schedule and control the costs of a project
- what it takes to manage the people involved and the various types of contracts
- the process of sustainable or green construction

Students are prepared with the computer, management, technical and people skills needed to succeed. This is one of two construction programs in the state of Arizona and one of approximately 80 accredited programs in the nation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Construction Management (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.50 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The construction management program provides a foundation for students who wish to pursue careers as project managers, project engineers, estimators or schedulers and eventually become principals of firms engaged in the construction of industrial, commercial or residential projects. The heavy construction emphasis area prepares students for careers related to public works such as highways, airports, bridges, utility systems and

water or waste treatment facilities.

The commercial and residential emphasis areas prepare students for careers in real estate development, home production systems, commercial construction, health care and special industrial building projects. Students are also prepared to enter the sustainable or green construction market.

The specialty construction emphasis prepares students to organize, lead and manage the building process at the subcontractor level and prepares students for careers as contractors working with mechanical and electrical systems. It also prepares students for careers in management at specialty contracting firms, such as control systems, electrical distribution or heating, ventilation and air conditioning systems for large and complex facilities such as data centers, health care organizations and semiconductor manufacturing plants as well as commercial facilities.

Construction Management (Concrete Industry Management), BS (ESCONIMBS)

Campus: Tempe

Program Description:

The Del E. Webb School of Construction offers the BS in construction with a concentration in concrete industry management. Concrete industry management graduates are broadly educated, articulate managers grounded in basic construction management, who are knowledgeable about concrete technology and techniques, and are able to manage people and systems and to promote products or services in the concrete industry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Electrical Engineering, BSE (ESEEEBSE)

Campus: Tempe, Online

Program Description:

The goal of the electrical engineering undergraduate program is to prepare graduates for positions as electrical engineers. Faculty in the Ira A. Fulton Schools of Engineering offer a BSE in electrical engineering. Following initial course work in mathematics and sciences, the foundation classes build a solid base of engineering knowledge. The electrical engineering curriculum includes a number of required upper-division electrical engineering and technical elective courses in such areas as:

- circuits
- communication, signal processing and control systems
- computer engineering
- electromagnetics
- power
- solid-state devices

Approved technical elective courses provide students with an opportunity either to broaden their background in electrical engineering or to study, in greater depth, technical subjects in which they have special interest.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Electrical Engineering (MSE)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-engineering-electrical-engineering?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates with the bachelor's degree in electrical engineering find many exciting opportunities in industry. These include:

- communication equipment and network providers
- computer and peripheral device manufacturers and defense organizations
- consulting companies
- electric power utilities
- semiconductor chip designers and manufacturers

The program also prepares graduates for continued learning experiences, either in a formal graduate program or in continuing education applications.

Electrical Engineering (Electric Power and Energy Systems), BSE (ESEEEPBSE)

Campus: Tempe

Program Description:

The goal of the electric power and energy systems concentration is to prepare graduates for positions in industries dealing with generation, transmission and utilization of electric power. Generation includes conventional power generation (fossil fuel and nuclear) and alternative energy systems, including solar, wind and fuel cells.

Students in this program will complete the foundation courses in math, science and engineering. They are then required to take the pathway course in electric power and complete nine of the 15 technical elective credit hours with power classes. In addition, the senior design capstone project should be in the area of electric power and energy systems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Electrical Engineering (MSE)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Career opportunities for graduates with a concentration in electric power and energy systems include:

- consulting engineering firms
- employment in utility companies
- entrepreneurial opportunities
- power equipment manufacturers
- research and design organizations
- state, federal and municipal agencies

This concentration will also prepare students to pursue graduate degrees in the areas of:

- power generation
- power systems
- power transmission and distribution
- renewable and sustainable energy sources

The program also prepares graduates for continued learning experiences, either in a formal graduate program or in continuing education applications.

Electronics Engineering Technology (Alternative Energy Technologies), BS (TSEETABS)

Campus: Polytechnic

Program Description:

The curriculum of the BS program in electronics engineering technology serves the needs of students interested in applied aspects of electronics technology. The electronics engineering technology program has a practice-based approach and uses laboratories to make electronics technology real to students. Major components of the program include:

- design
- electronics-related technical courses
- engineering science
- general education
- science and mathematics

The alternative energy technologies concentration explores the demands of energy resources in the new economy. This program strives to educate individuals in the use of energy sources such as solar, wind, ocean, geothermal and biomass and provides hands-on laboratory experience on

several energy conversion and storage technologies, including photovoltaics, fuel cells, batteries, electrolyzers and supercapacitors.

This program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates have an understanding of energy and power technology, how materials and components contribute to the performance of electronic systems, and how to exploit the power of integrated electronics to enhance productivity and technology solutions. The alternative energy technologies concentration is designed to prepare graduates for careers in alternative energy as related to electric power conditioning, control systems, electronics and instrumentation. The specific positions might include:

- application interface
- environmental and reliability analysis
- policy analysis
- process control
- system design
- technology analysis

Campus: Polytechnic

Program Description:

The curriculum of the BS program in electronics engineering technology serves the needs of students interested in applied aspects of electronics technology. The electronics engineering technology program has a practice-based approach and uses laboratories to make electronics technology real to students. Major components of the program include:

- design
- electronics-related technical courses
- engineering science
- general education
- science and mathematics

The field of electronics engineering technology applies mathematics, science and economics, along with state-of-the-art electronics techniques, materials and devices to solve technological problems and to produce useful products. The concentration in electronic systems, under the BS in electronics engineering technology, allows students to develop a broad-based knowledge of electrical and electronic fundamentals with an applications perspective.

This program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates have an understanding of energy and power technology, how materials and components contribute to the performance of electronic systems, and how to exploit the power of integrated electronics to enhance productivity and technology solutions. The electronic systems concentration prepares students for careers in:

- control applications
- electronics applications
- instrumentation applications
- power systems applications

Engineering technologists typically work as members of engineering teams in:

- applied design
- manufacturing
- operations
- product development
- production

They may also be employed in technical services capacities, including:

- field engineering
- marketing
- sales

Electronics Engineering Technology (Integrated Electronic Systems), BS (TSEETINBS)

Campus: Polytechnic

Program Description:

The curriculum of the BS program in electronics engineering technology serves the needs of students interested in applied aspects of electronics technology. The electronics engineering technology program has a practice-based approach and uses laboratories to make electronics technology real to students. Major components of the program include:

- design
- electronics-related technical courses
- engineering science
- general education
- science and mathematics

The integrated electronic systems concentration explores the processes and technology used to develop, design, manufacture and exploit integrated electronic functions on silicon, in packages and on boards. The program provides hands-on laboratory experience in integrated circuit device fabrication and manufacturing in a setting that emulates industry.

This program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates have an understanding of energy and power technology, how materials and components contribute to the performance of electronic systems, and how to exploit the power of integrated electronics to enhance productivity and technology solutions. Upon completion of this concentration, graduates are prepared for careers in the microelectronics industry. Graduates secure positions in:

- diverse scientific engineering teams
- field applications
- integrated circuit processing
- system integrators
- testing

Engineering, BSE (TSEGRBSE)

Campus: Polytechnic

Program Description:

Engineers are creative problem-solvers who help shape the future. No profession unleashes the spirit of innovation like engineering. The ABET-accredited BSE engineering program prepares graduates to:

- collaborate across disciplines to design and build solutions to real-world problems
- design innovative products
- improve the quality of life for humankind
- provide technological leadership

In the Bachelor of Science in Engineering program, students apply engineering fundamental knowledge and design thinking to real projects every semester. Students choose a disciplinary concentration where they develop in-depth knowledge in a specific area; students also choose a secondary focus area. This flexibility allows students to tailor their education to achieve their individual career and life goals.

Students can choose from the following concentrations:

- automotive systems
- electrical systems
- humanitarian engineering
- mechanical engineering systems
- robotics

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Pima Community College (<http://transfer.asu.edu/pima>)

Career Opportunities:

Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services. The Bachelor of Science in Engineering program enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork and collaboration, and self-motivation and adaptability that many employers seek. Graduates are prepared to work in large corporations, government agencies, small businesses, as well as to go on to graduate school to pursue advanced degrees. Due to the emphasis on design and project-based learning, the program supports an entrepreneurial spirit, and some students start companies of their own.

Engineering (Automotive Systems), BSE (TSEGRASBSE)

Campus: Polytechnic

Program Description:

The BSE engineering program at ASU's Polytechnic campus is a transdisciplinary engineering program with multiple concentrations. The program allows students to learn from a problem-focused curriculum and with hands-on projects. Additionally, development of applied industry skills are integrated into the program.

Students in the automotive systems concentration will begin with a broad engineering foundation on which they develop the skills and knowledge necessary for vehicle design and testing. The concentration curriculum focuses on automotive engineering fundamentals, including powertrain

engineering and chassis system design as well as hands-on projects that involve designing, analyzing and building of actual automotive systems. Graduates in this concentration will be able to provide leadership in automotive engineering settings, especially automotive testing and hybrid propulsion systems, which are intrinsically transdisciplinary in nature.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N
Second Language Requirement: N
Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Secondary Education (Teacher Certification) (MEd). Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)
Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services. The Bachelor of Science in Engineering program enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork and collaboration, and self motivation and adaptability that many employers seek. Graduates from the automotive concentration are prepared for employment in automotive-related companies, from large original equipment manufacturing companies and their testing grounds to smaller specialty or aftermarket companies.

Because of the transdisciplinary nature of the Bachelor of Science in Engineering, graduates also will have opportunities to perform functions that traditionally have been done by mechanical, manufacturing, automation and development engineers.

Engineering (Humanitarian Engineering), BSE (TSEGRHEBSE)

Campus: Polytechnic

Program Description:

Engineers are creative problem-solvers who help shape the future. No profession unleashes the spirit of innovation like engineering. The BSE engineering program at ASU's Polytechnic campus allows students to learn from a problem-focused curriculum and with hands-on projects. Additionally, development of applied industry skills are integrated into the program.

Students in the humanitarian engineering concentration will begin with a broad engineering foundation on which they develop the skills and knowledge necessary to adapt water and energy systems to local and developing-world needs. They work with ASU's Global Resolve organization to learn to identify and implement appropriate technological and cultural solutions. The concentration curriculum focuses on energy and water resources. Graduates of the concentration will be positioned to work on transdisciplinary teams addressing vital engineering needs of communities in the developing world. They will have real-world experience with the challenges and opportunities inherent in this environment and impact lives by solving real problems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>)

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Engineering Exploration, (TSEGRPRE)

Campus: Tempe

Program Description:

Engineering exploration provides an opportunity for students: to become aware of the diverse engineering and technology related programs within the Ira A. Fulton Schools of Engineering on both the Tempe and Polytechnic campuses; to develop the knowledge and skills to succeed at ASU; and to develop the confidence and motivation to select a Fulton Schools major to transfer into. Engineering exploration is not a degree-granting program. Students in the exploration program may transfer into a Fulton Schools degree-granting program once they meet the published transfer admission requirements for their desired program. All students will be required to change their major at the end of three semesters.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Prospective students may not apply to the engineering exploration program. Freshman applicants to Ira A. Fulton Schools of Engineering programs will be considered for engineering exploration if they are not admitted to their first choice. Please contact Engineering@asu.edu (mailto:engineering@asu.edu) for questions regarding admission and program eligibility.

Career Opportunities:

Since this program does not grant a degree, students must choose a major for degree completion. Career opportunities are specific to the ultimate major of choice.

Engineering Management, BSE (ESEMGBSE)

Campus: Tempe, Online

Program Description:

The program in engineering management is designed to provide the graduate with skills for effective management and leadership of engineering-driven enterprises. The curriculum provides a breadth of engineering science and design with depth in one specific area suitable for practice. This knowledge is augmented with an understanding of business practices, organizational behavior and management skills to enable the graduate to succeed in the management of a scientific or engineering enterprise. Topics covered include project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management, in addition to product design and process development. The graduate will leave with a deep understanding of at least one industry sector based upon the focus area courses selected by the student.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Degrees:

This degree is also offered as concurrent degree with Economics, BS

Accelerated Degrees:

This degree is also offered as an accelerated degree with Industrial Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission requirements for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission requirements.

Students should select a second major choice when applying for admission to a degree program in the Ira A. Fulton Schools of Engineering.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <https://students.asu.edu/international/future/undergrad> (<https://students.asu.edu/international/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- Admission may be granted with one deficiency in no more than two competency (<https://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for less than 24 transfer hours, and
- satisfy the freshmen admission requirements

Transfer students with more than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- if Admission Services requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency (<https://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Concurrent degree admission requirements: Engineering Management, BSE and Economics, BS:

- minimum 1250 SAT combined evidence-based reading and writing plus math score (650 minimum on SAT math) or minimum 29 ACT combined score (29 minimum on ACT math), and
- 3.00 minimum ABOR GPA

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/engineering-engineering-management-bse?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The engineering management graduate will be prepared to begin as a:

- production supervisor
- project management team member or lead
- supply logistics engineer
- system specification and customer relationship management specialist or similar role

The graduate will be ready to progress through successively higher levels of management responsibility.

Environmental and Resource Management, BS (TSETMBS)

Campus: Polytechnic

Program Description:

The BS program in environmental and resource management provides critical scientific and management skills for graduates who will work in industry or government to ensure the health of natural ecosystems and mitigate the environmental impact of our industrial world. The curriculum combines a strong foundation in biology, chemistry, physics and mathematics, with a solid grounding in environmental law and policy. Students learn to apply environmental technologies to drinking water and wastewater treatment, management of hazardous and solid wastes, and control of industrial and mobile sources of air pollution. They study OSHA regulations on health and safety and strategies to protect workers in hazardous environments. International environmental issues and legal frameworks are included along with U.S. environmental laws. Graduates with these skills are in high demand and can find work in industry, governmental management and regulatory agencies, or in policy-making organizations.

An accelerated BS/MS degree option is available in which up to nine hours of the bachelor's degree may be applied toward the 33 hours required for the master's degree in environmental and resource management. A special application is required for this option.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Environmental and Resource Management (MS)

Technology (Environmental Technology Management) (MSTech)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Coconino Community College (<http://transfer.asu.edu/coconino>)
Cochise College (<http://transfer.asu.edu/cochise>)
Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)
Mohave Community College (<http://transfer.asu.edu/mohave>)
Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Career Opportunities:

Graduates are firmly grounded in the scientific, technical and legal problems facing environmental managers in today's business climate. They are prepared to be environmental, health and safety professionals in industrial settings such as manufacturing, mining, oil and gas or environmental engineering consulting firms. They also assure compliance with OSHA and EPA requirements in laboratories at pharmaceutical companies, water treatment plants, or academic labs. On the regulatory side, graduates work for agencies such as the U.S. Environmental Protection Agency or state and county departments of environmental quality.

Graphic Information Technology, BS (TSGITBS)

Campus: Polytechnic, Online

Program Description:

The cross-media nature of the graphic information industry requires tomorrow's graduates to understand the full spectrum of graphic technology, publishing processes and current business practices. The BS program in graphic information technology is preparation for a seamless career as a graphic technologist encompassing Web design and development, printing and digital publishing, commercial photography and videography, and 2D-3D animation. This is an intensive program of study emphasizing theory and hands-on laboratory practice. Students develop the following skills:

- commercial photography and videography
- digital document and app design
- multimedia and interactive technologies
- premedia, digital publishing and print technologies
- project and content management
- technical imaging
- user experience design
- Web design and development

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Concurrent Degrees:

This degree is also offered as concurrent degree with Journalism and Mass Communication, BA

Accelerated Degrees:

This degree is also offered as an accelerated degree with Technology (Graphic Information Technology) (MSTech)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- 3.75 minimum ABOR GPA
- no English competency deficiencies
- 960 SAT Reasoning (or 1040 if taken prior to March 5, 2016) or 22 ACT score

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

ASU students:

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's non-elective general studies requirements.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Graphic Information Technology (Gaming), BS (TSGITGBS)

Campus: Polytechnic

Program Description:

The cross-media nature of the graphic information industry requires tomorrow's graduates to understand the full spectrum of graphic technology, reproduction processes and current business practices. The BS program in graphic information technology prepares graduates for a seamless career as a graphic technologist encompassing Web development and Internet technologies, printing and digital publishing, and commercial and technical imaging, and gaming technologies. Graduates of the BS in graphic information technology with a concentration in gaming will be able to critically analyze, design and develop the various game appearance and art assets needed to create video games. Students will learn and apply the latest game visual development skills, tools and technologies. Students develop the following skills:

- commercial photography and videography
- document design
- gaming and simulation technologies
- multimedia and interactive technologies
- premedia, digital publishing and print technologies

- project and content management
- technical imaging
- user experience design
- Web design and development

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Technology (Graphic Information Technology) (MSTech)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates from the video game art focus may work on PC, mobile apps and console video games as modelers, texture artists for characters and environments, as well as character animators and riggers.

Graduates with a concentration in gaming will find employment in a variety of capacities ranging from computer and software design to graphic design and graphics arts. Students specializing in video game production are skilled at asset management, 3D rendering and animation including technically challenging tasks like skinning, rigging and texturing for game asset production. Salaries can range from \$50,000 to \$125,000 per year depending on experience and market demand.

Human Systems Engineering, BS (ESHSEBS)

Campus: Polytechnic

Program Description:

The BS program in human systems engineering provides students with the theoretical background and methodological skills to design and build technology and systems for humans that place the human at the center. The bachelor's degree program in human systems engineering is a unique blend of psychology and engineering offered by psychologists in an engineering college. By extending psychology (cognitive, physiological, perceptual, social, organizational) to engineering problems, the program will produce students well-grounded in psychological science, and students will be capable of understanding the implications of this science for engineering endeavors.

Human systems engineering skills are increasingly valued by industry, yet are not typically covered in traditional psychology or engineering programs. Students with a major or a minor in human systems engineering will enhance their employment potential.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Human Systems Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The human systems engineering program prepares students for industry and government positions in a career such as a:

- game designer
- human factors engineer
- human systems integrator
- interface designer
- user experience designer

Graduates may work as a member of a product or system design team.

480-727-1874

Industrial Engineering, BSE (ESIEEBSE)

Campus: Tempe

Program Description:

Industrial engineering is concerned with the design, improvement, installation and operation of integrated systems of people, materials, information, equipment and energy. The purpose is to determine efficient ways to make a product or to provide a service. Industrial engineering draws upon specialized knowledge and skill in the mathematical, physical and social sciences together with the principles and methods of engineering analysis and design.

The underlying concepts of industrial engineering include certain business principles but emphasizes the use of mathematics and information technology to build models to describe, understand and optimize system performance. Depending on the subspecialties involved and the intended application, industrial engineering may also be known as operations management, management science, operations research, systems engineering or manufacturing engineering.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Industrial Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates in industrial engineering are prepared to design and manage systems for a wide range of organizations. They find exciting career opportunities in all types of manufacturing and service industries, including:

- banking and finance
- defense and government

- health care
- hospitality, sports and entertainment
- management consulting
- manufacturing (e.g., aerospace, automotive, semiconductor)
- software industry
- telecommunication
- transportation and logistics

Industrial and Organizational Psychology, BS (ECPSYBS)

Campus: Polytechnic

Program Description:

Americans spend more than 54 percent of their waking hours at work. As a result, students who want to make a real impact on peoples' lives are beginning to focus on the psychology of work. Industrial and organizational psychology helps organizations identify the right job candidates to hire, determine the best job fit for each worker, design enjoyable and effective workplaces, and determine appropriate the work-life balance for employees in the organization. Finally, one specialty, human factors, focuses on designing tools and products that are easy to use and reduce human error.

In addition to strong education in human learning, memory, emotion, judgment and social psychology, which prepare students for employment or graduate school, students can choose to focus in two of five focus areas:

- consumer psychology
- human resources and organizational behavior
- human systems engineering
- learning technology
- user experience

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Human Systems Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
 Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)
 Pima Community College (<http://transfer.asu.edu/pima>)

Career Opportunities:

Some students pursue master's or doctoral degrees, but many career opportunities exist for graduates with bachelor's degrees, especially in the areas of human resources, human factors design, user experience and consumer behavior.

We routinely place our qualified undergraduate students in internships in leading companies or government agencies in the fields of technology, transportation, training, defense and health care. According to the 2012 Occupational Outlook Handbook, published by the U.S. Department of Labor, industrial and organizational psychology is one of the best-paying specialties in psychology, and demand for industrial and organizational psychologists is growing at a rate of about 29 percent annually.

Informatics, BS (ESCPIBS)

Campus: Tempe

Program Description:

Informatics is about discovering, developing and understanding computer applications that improve people's lives. The BS informatics program prepares skilled professionals who take a transdisciplinary, user-oriented perspective toward information and computing systems, apply current informatics methods to address society's needs, and contribute to the next generation of such systems.

The informatics bachelor's program provides an option for students interested in a flexible program in applied information and computing technologies. The program provides skills in design and implementation of computer systems while offering opportunities for building applications used by people in many fields. Students learn to develop software for devices of all sizes, from supercomputers to cell phones and even smaller. The challenges of informatics include designing, developing, and applying tools that model, aid or automate activities within science, engineering, business, geography, education and entertainment.

Informatics careers center on solving problems through the design and creation of information systems, user interfaces, mobile technologies and social media.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission requirements for a Bachelor of Science in informatics are higher than minimum university admission requirements. Students should select a second major choice when applying for admission to a degree program in the Ira A. Fulton Schools of Engineering.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://students.asu.edu/international-admission>) and admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT

combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and

- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed.

Transfer students with fewer than 24 transferable college credit hours:

- Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with more than 24 transferable college credit hours:

Primary Criteria

- Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed (if Admission Services requires submission of a high school transcript).

Secondary Criteria

- Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Career Opportunities:

A graduate of this ASU informatics program has the ability to develop future information technology solutions that place a strong emphasis on user needs and provide the ability to adapt and change dynamically with society's needs. This makes the informatician a strong candidate for jobs in:

- management consulting firms
- technology research centers
- technology start-ups

Additionally, the program prepares students for graduate programs that offer an emphasis in emerging technologies.

Information Technology, BS (TSIFTBS)

Campus: Polytechnic, Online

Program Description:

Information technology is for those who want to be responsible for designing or architecting, selecting, implementing and managing computer-based information solutions. The information technology graduate can design and create effective networking technology solutions to today's knowledge-based problems. Graduates design and create network architectures, configure and administer complex computer and database systems, analyze security issues, and support enterprise usage involving information technology. In the bachelor's degree program in information technology, students will create project solutions to hone technical, team and personal development and presentation skills. Integrated laboratory and lecture courses are used to provide students with the necessary skills to become valued contributors within any organization in an information technology role. In addition to selecting a primary focus area (networking and security, databases or enterprise computing), students will be able to create their own secondary focus area that meets their specific career objectives. Each undergraduate student is required to successfully complete an industry-based capstone project prior to graduation.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Information Technology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-information-technology?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Career Opportunities:

Graduates of the information technology bachelor's degree program are well qualified for careers in any IT discipline. This degree couples technical skills with the business skills needed to develop, create or manage technical functions. Some graduates may pursue careers as technical support staff or security analysts based on the focus area and secondary skills they achieve.

Graduates will have the ability to support and lead technical professionals in three focus areas:

Networking and security - This focus area explores the tools, frameworks, technologies and processes underlying the design, development, deployment and support of computer networks. This includes a background that embraces confidentiality, integrity and availability in networking architectures and security analysis.

Databases- This focus area provides the graduate with the concepts associated with database structure, including cloud computing, database security and control, structured query language programming, and database management systems.

Enterprise computing - This focus area provides students with an understanding of the enterprise and how information technology is used to further business interests. It includes many aspects of using technology to support the overall enterprise, including operations, funding and promotion. Students will learn how technology can be used in business strategy and creating innovative new ways to support business.

Manufacturing Engineering, BS (TSMEGRBS)

Campus: Polytechnic

Program Description:

Successful manufacturing enterprises balance design, sustainability and quality with production to prosper in the global marketplace. Manufacturing engineering combines manufacturing processes (e.g., how materials are altered in either shape or properties) and the processes of manufacturing (e.g., design and management of manufacturing systems).

The BS program in manufacturing engineering prepares graduates to:

- analyze, synthesize and control manufacturing operations using statistical methods
- collaborate across disciplines to design and build solutions to real-world problems
- design innovative products and the equipment, tooling and environments necessary for their manufacture
- model, simulate and analyze manufacturing production processes for both small- and large-scale environments
- provide technological leadership

The curriculum is project-based, hands-on, teamwork-oriented and delivered in outstanding fabrication facilities. Graduates of this program will become key team members who will create and implement processes for making such varied products as airplanes, surgical instrument, toys and foodstuffs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services. The BSE program enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork and collaboration, and self-motivation and adaptability that many employers seek. Graduates are prepared to work in large corporations, government agencies, small businesses, as well as to go on to graduate school to pursue advanced degrees. Due to the emphasis on design and project-based learning, the program supports an entrepreneurial spirit, and some students start companies of their own.

Graduates typically work as manufacturing engineers in a variety of companies, large and small. They are often members of design and development teams, cooperating with other people within and outside of their company. Career employment opportunities include direct manufacturing support, manufacturing management and quality control and assurance in large and midsized, established manufacturing companies. Due to a strong, broad and practical engineering skill set, graduates are also highly valuable in small companies or new startup companies. Our graduates are well placed and command top salaries in their engineering careers.

Manufacturing Engineering Technology (Mechanical), BS (TSMETMBS)

Campus: Polytechnic

Program Description:

Manufacturing is in a period of dramatic transformation. Future manufacturing will involve a global supply network to enable innovation, design and integration of products and services. At its core, manufacturing engineering is about creating and delivering products and services that have value to customers and society.

Manufacturing engineers are key team members in the production of products such as automobiles, airplanes, electronic devices, surgical

instruments, toys, building products and foodstuffs. Manufacturing engineers design the processes to make products with the required functionality, to desired quality standards, based on customers needs, at the best possible price and in environmentally-friendly ways. The manufacturing curriculum is project-based and provides students a hands-on, team-based learning environment. The manufacturing program has outstanding fabrication facilities that are a hallmark of the program.

The program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Materials engineers are in demand in a wide range of industries and professions, including:

- aerospace
- automotive
- computer
- electronics
- energy
- health care

- microelectronics

The career paths in these industries offer opportunities to impact technological advances through working in a team environment with engineers from the chemical, electrical, mechanical, aerospace and other engineering disciplines.

Mechanical Engineering, BSE (ESMAEMBSE)

Campus: Tempe

Program Description:

Mechanical engineering is a creative, diverse discipline. Mechanical engineers design, build and control the devices, machines, processes and systems that are the mainstay of modern industrialized society.

Students are prepared for a career in mechanical engineering through a curriculum that includes study of the principles governing energy transfer, mechanical design, sensors and control devices and the application of these principles to the creative solution of practical modern problems.

This program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Aerospace Engineering (MS)
- Mechanical Engineering (MS)
- Solar Energy Engineering and Commercialization (PSM)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- no high school math or science competency deficiencies, and
- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours:

- minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

A major strength of a mechanical engineering education is the flexibility it provides in future employment opportunities for its graduates. Mechanical engineers are employed in virtually every kind of industry. They are involved in seeking new knowledge through research, in generating creative design and development, and in the production, control, management and sales of the devices and systems needed by society.

The mechanical engineering program has the following program educational objectives:

Graduates of the mechanical engineering program should have attained one or more of the following objectives within a few years after completing their degrees:

- employment in engineering or other fields in a position that capitalizes on the skills and abilities gained through the degree program in mechanical engineering (holding positions of increasing responsibility and leadership within their organizations)

- admission into a graduate degree program in mechanical engineering or other technical field.
- admission into a professional degree program, such as law, business or medicine, in accordance with the specific interests and abilities of the graduate
- Through volunteering, entrepreneurial endeavors, community service, their employment, etc., graduates of the mechanical engineering program will demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Mechanical Engineering (Computational Mechanics), BSE (ESMAECBSE)

Campus: Tempe

Program Description:

As mathematical and numerical modeling takes on a much larger role in product development, graduates who are highly skilled in computational and mathematical engineering will be in high demand. The concentration in computational mechanics, under the BSE in mechanical engineering, is designed to teach students the modern computational tools available for solving large-scale and complex technical problems. The curriculum focuses on high-performance computing and the accurate modeling of large and small scale systems.

This program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

Mechanical Engineering (Energy and Environment), BSE (ESMAEEBSE)

Campus: Tempe

Program Description:

The concentration in energy and environment, within the BSE in mechanical engineering, is designed to prepare students to analyze technical problems in:

- air pollution
- climate change
- energy efficiency
- environmental sustainability
- renewable energy
- timely issues facing the global community

Although the primary focus of this program is technical, the general education courses in the areas of the humanities and social and behavioral sciences introduce students to the global, political and societal issues relating to energy and the environment. By focusing on issues such as air pollution, water scarcity and the lack of alternative transportation, this program becomes even more attractive for employers in the greater Phoenix area as well as nationwide.

This program is accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Mechanical Engineering Technology, BS (TSMECBS)

Campus: Polytechnic

Program Description:

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment used in industry today. Students learn how to produce practical and technically innovative solutions to real-world problems, thereby helping people and the environment.

This program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program

(<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates often work as members of design and development teams, cooperating with other people in and outside of their company. The BS in mechanical engineering technology, including specialty concentrations, offers great flexibility in type of work and location. Employment opportunities exist in companies that design, develop, manufacture, implement and improve products, machinery and systems. Employment areas include:

- engineering design
- manufacturing
- research and development

Companies large and small, in this region and elsewhere, provide a wide range of opportunities for graduates.

Mechanical Engineering Technology (Aeronautical Engineering Technology), BS (TSMECEBS)

Campus: Polytechnic

Program Description:

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment used in industry today. Students learn how to produce practical and technically innovative solutions to real-world problems, thereby helping people and the environment.

The aeronautical engineering technology concentration provides a specialization in aircraft, with classes in aircraft systems, design and performance, structures and aerodynamics (including wind tunnel testing).

The mechanical engineering technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates often work as members of design and development teams, cooperating with other people in and outside of their company. The BS in mechanical engineering technology, and its aeronautical engineering technology specialty concentration, offer great flexibility in type of work and location. Due to their aeronautical specialty concentration, graduates are prepared to seek employment in aviation-related companies, large and small, in this region and elsewhere, providing a wide range of opportunities for graduates. Employment areas include engineering design, manufacturing, and research and development. Or, since their degree is in mechanical engineering technology, students can seek traditional mechanical engineering employment opportunities in companies that design, develop, manufacture, implement and improve products, machinery and systems.

Mechanical Engineering Technology (Automation Engineering Technology), BS (TSMECUBS)

Campus: Polytechnic

Program Description:

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment used in industry today. Students learn how to produce practical and technically innovative solutions to real-world problems, thereby helping people and the environment.

The automation engineering technology concentration provides a specialization in machine and manufacturing process automation, including robotic systems. Automated assembly and testing are major components of most modern mechanical systems and manufacturing operations.

The mechanical engineering technology program is accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Product Development and Manufacturing Technology, BS (TSMETBS)

Campus: Polytechnic

Program Description:

Product development and related manufacturing technology is a wide-ranging and dynamic field. Conceiving of products and moving them to market is a complex and fascinating process that begins with an understanding of the humans who will use the product. Then, the prototype must be made, developed and manufactured on a scale that ensures financial success. The product development and manufacturing technology degree provides students with the opportunity to learn all these facets of successful product development. At its core, product development is about creating and delivering products that have value to customers and society.

People with deep knowledge of product development are key team members in the production of products such as automobiles, airplanes, electronic devices, surgical instruments, toys, building products and foodstuffs. They often work closely with manufacturing engineers in the design of processes to make products with the required functionality, to desired quality standards, based on customer's needs, at the best possible price and in environmentally friendly ways. The product development curriculum provides students a hands-on, team-based learning environment, with students having access to outstanding fabrication facilities.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates typically work in product development in a variety of companies, large and small. They are often members of design and development teams, cooperating with other people within and outside the company. Due to a strong, practical skill set, graduates are valuable in established companies of any size or new start-ups. However, other graduates become entrepreneurs developing their own products.

Software Engineering, BS (TSSERBS)

Campus: Polytechnic, Online

Program Description:

The program blends engineering, computing, project leadership and software construction. Students learn how to make creative software solutions to today's problems. Software systems are complex, often including in excess of a million lines of code. Graduates of the BS in software engineering possess the knowledge and skills of a defined engineering approach to complex systems analysis, planning, design and construction.

The program is a unique project-driven curriculum, establishing a new model for software engineering education. The program is built around the

concepts of engaged learning, discovery-based education and learn-by-doing. Students complete projects in every semester of the program, to provide emphasis in communication, teamwork, critical thinking and professionalism. Students have flexibility in designing their course of study; they select a software engineering application area such as Web applications, mobile systems, embedded systems, or graphics and game development as their primary focus, and they may obtain interdisciplinary knowledge through a secondary area of their design.

Please note that the accelerated degree is only allowed for the software engineering program on the Polytechnic campus.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Software Engineering (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- Admission may be granted with one deficiency in no more than two competency (<https://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Transfer students with fewer than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for less than 24 transfer hours, and
- satisfy the freshmen admission requirements

Transfer students with more than 24 transferable college credit hours:

- minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- If Admission Services requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency (<https://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-software-engineering?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Career Opportunities:

Software engineers solve a broad set of transdisciplinary problems and apply new technologies to improve the quality of life. Graduates design and engineer innovative systems that may include mechanical and electrical components that interact with software. The bachelor's degree program in software engineering is a unique program in which students learn by solving engaging projects, commonly as a member of a development team. The program prepares graduates for advanced study in computing, an allied field, or to enter the computing profession (most commonly as an application software engineer). According to the Bureau of Labor Statistics, software engineers are highly paid, and there is significant growth in the number of employment opportunities. Some software engineering jobs may include:

- creating video games
- creating Web applications
- creating applications for mobile devices
- designing embedded systems
- developing distributed applications
- working on data, network, security or computer systems administration

Technological Entrepreneurship and Management, BS (TSTEM2BS)

Campus: Polytechnic, Online

Program Description:

The BS program in technological entrepreneurship and management advances the knowledge and practice of entrepreneurship and innovation. To enhance students' understanding of business fundamentals, the Fulton Schools of Engineering have partnered with the W. P. Carey School of Business to offer a degree jointly conferred by both colleges. The degree program prepares students to: address social and corporate issues to impact and change the world; create, launch and improve technology-based products, services and ventures; and identify and solve open-ended problems using engineering and technology approaches.

Through this degree program, students receive a foundation in both technology and business fundamentals, with an emphasis on technology entrepreneurship and innovation in one of two focus areas: innovation and operation management or social entrepreneurship.

The program objectives for this degree include:

- demonstrate the ability to identify, analyze and synthesize information to address and solve use-inspired, open-ended problems, assessing their impact on social, cultural and economic environments
- formulate methodologies to advance the knowledge of entrepreneurship and innovation
- launch technology-based products and services from idea generation through actualization
- use quantitative and qualitative methods to demonstrate continuous improvement of products, services, and processes
- utilize a systems approach for the effective design and improvement of entrepreneurial and innovation ventures

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

First Required Math Course: MAT 211 - Math for Business Analysis

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Career Opportunities:

Small businesses and startups create the majority of new jobs in the U.S., while larger corporations are looking to hire individuals who can see the big picture and solve complex problems. Students in the technological entrepreneurship and management program learn the range of skills needed to develop new products, services and business models as well as whole new industries. The technological entrepreneurship and management program prepares students for a wide variety of career possibilities, including technology-based entrepreneurship, product development, consulting, venture capital analysis, business development, market analysis, technology marketing and many more.

Future of Innovation in Society, School for the

Innovation in Society, BA (FIFISBA)

Campus: Tempe

Program Description:

This BA program in innovation in society provides students with tools and concepts to analyze new and emerging innovations and the diverse local and global futures they enable. Students will be prepared to build more inclusive future societies and develop strategies that link innovation with social needs and values. The curriculum develops transdisciplinary perspectives that synthesize research and theory from the social sciences, humanities, natural sciences, and engineering. Students will learn qualitative methods to investigate how science and technology have shaped and reflect social values, in preparation for careers in public service, business, policy and academia.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Global Management, Thunderbird School of

Global Management, BGM (TBTGMBGM)

Campus: West

Program Description:

The BGM degree program in global management draws on Thunderbird School of Global Management's expertise in global management practices and intercultural communication training to provide students with a highly specialized, global business education.

The Bachelor of Global Management program will prepare students to take on leadership roles in multinational corporations as well as nongovernmental organizations. Thunderbird's outstanding global management faculty members and strong relationships with global organizations will allow students to develop the skills needed to operate effectively in today's globally connected world. Students will develop skills that international employers, governments and nongovernmental entities value highly.

The program offers two tracks: the language and culture track, in which two years of foreign language is required; and the international business and culture track, in which there is no foreign language requirement but more emphasis on management-related courses. Students who select the foreign language track may complete course work in Arabic, Chinese or Spanish. Speakers of English as a second language can choose to focus on further developing their English language skills or choose a third language.

Students will have the opportunity to put the skills they have learned into practice in real-world settings through a required internship. Although the program strongly encourages students to pursue international internships, students may also satisfy this requirement by doing a local internship with an international orientation. Students will also complete a senior capstone project of their choice, which draws upon the unique skills they have developed throughout the program. The internship and the capstone project allow students to demonstrate their skills and work experience for potential employers as part of their professional development plan.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

At this time, this program is only available to incoming freshmen and students with fewer than 64 hours of transfer credit.

Career Opportunities:

Graduates of the Bachelor of Global Management degree program will have a variety of transferable skills combined with the ability to adapt to ever-changing business environments, tolerance for ambiguity and a demonstrated passion for learning about other cultures. Students who complete this program will be equipped to play key roles in multinational corporations and in government as well as nongovernmental organizations. There is demand for global skills in careers such as international business, trade, finance, accounting, human resources, marketing, corporate communications and international relations.

International Trade, BS (TBINTRABS)

Campus: West

Program Description:

The BS program in international trade provides rigorous training in skills related to a career in international trade. It is unique in training students in the knowledge and skills needed to do business in different parts of the world. Students learn the functional disciplines of international business while gaining an in-depth understanding of the political, cultural and economic aspects of doing business in the international market. Supported by Thunderbird's emphasis on a global perspective, students acquire tools to manage supply chains, systematically assess risk, export and import goods and services, and use economic agreements to develop effective strategies for conducting international trade.

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree. This program is not available for freshmen.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-applied-science-health-sciences?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Career Opportunities:

Graduates will be able to return to their original area of expertise in allied health (i.e., radiology, nuclear imaging) and qualify for a managerial position, to be an educator or instructor within their field of expertise, or qualify for a higher-grade position within their current place of employment.

Other career options include positions such as:

- elder services program coordinator
- health and patient educator
- health maintenance organization or insurance company client coach
- Healthy Start coordinator
- home health care coordinator
- long-term care health and wellness coordinator
- school health and program specialist
- women, infants, children and community nutrition aide

Applied Science (Medical Laboratory Science), BAS (NUMLSBAS)

Campus: Downtown Phoenix

Program Description:

The BAS in medical laboratory sciences is designed to provide the academic knowledge and professional skills to allow students to advance their employment opportunities within the field of medical technology, cytology, clinical laboratory science and related areas. Medical laboratory scientists, also known as clinical laboratory scientists, are highly skilled professionals who perform analytical tests on blood, tissue and body fluids to provide laboratory information for the detection, diagnosis and treatment of human diseases. They work independently and have skills and knowledge that are greater in depth and breadth compared to medical laboratory technicians, who typically are graduates of a two-year or community college program. There also is a growing trend for medical laboratory scientists to perform wellness laboratory testing aimed at preventing disease.

Mail Code 8220 ATTN: Medical Laboratory Science Program
Arizona State University
502 E Monroe St Ste C 250
Phoenix AZ 85004-4431 • apply to Arizona State University

Career Opportunities:

The Bureau of Labor Statistics reports that 13,000 new laboratory professionals will be needed in the United States each year; however, current training programs graduate only 5,000 students each year. The majority of medical laboratory scientists and technologists work in hospital laboratories. Others work in independent laboratories, reference laboratories, clinics, health maintenance organizations, public health agencies, pharmaceutical firms, research institutions, scientific equipment companies, physicians' offices and as teachers in college clinical laboratory science programs. The working environment is as varied as the types of practice in which medical laboratory scientists are engaged.

Biomedical Informatics, BS (ESBMIBS)

Campus: Tempe

Program Description:

Biomedical informatics combines information technology, data science and knowledge to improve health. The program will educate undergraduate students in the informatics knowledge and skills that will enable them to:

Improve the quality and reduce the cost of patient health care.

- Consolidate patient health history and interventions across hospitals and clinics.
- Provide the right information about patient health to clinicians.
- Reduce clinical errors and waste.

Minimize hospital visits.

- Manage patient clinical condition at home.
- Monitor patient health at home.
- Shorten hospital stays.

Improve patient hospital experience.

- Optimize patient time in the hospital.
- Provide patient with faster access to resources.

Detect disease early.

- Make early detection of patient condition.
- Track patient disease progression.
- Support clinician in making better diagnosis.

Improve the precision of diagnosis, prognosis and treatment of patient disease.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biomedical Informatics (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Exercise and Wellness (Exercise for Obesity Prevention), BS (NHEXWOPBS)

Campus: Downtown Phoenix

Program Description:

The concentration in exercise for obesity prevention will prepare students to assist others in adopting physical activity behaviors for healthy lifestyles, obesity prevention and weight management. Students will engage in focused study on the use of exercise for reducing disease risk and improving health in meeting the challenges of obesity. Students will learn to assess health and fitness, learn about the etiology and consequences of obesity and provide appropriate exercise prescriptions for health and weight management goals. Students will be prepared for the American College of Sports Medicine Certified Exercise Physiologist certification exam. Students in this concentration will be exposed to applied assessment labs and practical internships to gain the knowledge and experience they will need to be competent exercise and health promotion professionals.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Students who complete the bachelor's degree program in exercise and wellness with a concentration in exercise for obesity prevention will be well-suited for employment in fitness and wellness-oriented locations such as:

- bariatric weight loss clinic counseling and management
- corporate fitness and worksite wellness
- health care systems and medical centers
- lifestyle and weight management consulting
- nonprofit disease prevention agencies (e.g., American Heart Association)
- university fitness and wellness centers

Students also will be well-prepared for admission into graduate programs in exercise physiology, obesity prevention and management, rehabilitative fields (e.g. physical therapy) and medicine.

Exercise and Wellness (Fitness and Wellness Specialist), BS (ECEXWBS)

Campus: Downtown Phoenix

Program Description:

The BS program in exercise and wellness provides the student with the knowledge and practical skills to assist individuals in attaining their personal level of optimum health. Students are prepared to pursue nationally recognized and credentialed certifications provided by professional organizations in fields of study related to fitness, strength and conditioning and sports medicine.

Students in the exercise and wellness degree program are matriculated through a carefully designed curriculum emphasizing:

- competency in the instruction of basic and advanced techniques related to flexibility, resistance training and cardiovascular exercise
- foundational knowledge of exercise physiology and applied kinesiology
- methods to understand and help improve individuals with regard to their health behavior choices
- skills in assessing and interviewing clients in preparation for fitness and wellness programming
- skills in designing and manipulating program variables to work with apparently healthy or symptomatic individuals
- competencies required to attain advanced level certifications from professional associations in the field

Students in the exercise and wellness degree program also have the ability to enroll in courses that will enhance their abilities to work with high performance athletes, obese individuals or those at risk for suffering from other hypokinetic diseases.

Employment of fitness and wellness professionals is expected to grow by up to 24 percent through 2020, much faster than other occupations, driven by efforts to reduce health care costs by teaching people about healthy behaviors. The need for exercise and wellness programming and facilities will increase the need for workers in these areas.

Additional Program Fee: Y

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

Students who complete the exercise and wellness degree will have enhanced opportunities in fitness and wellness employment settings because clients and employers prefer to work with people who are more highly prepared and qualified.

Undergraduates in this concentration often pursue careers in such fields as:

- clinical exercise
- corporate fitness
- fitness management

- personal training
- sports performance
- wellness centers

Students may also pursue further graduate study in such fields as:

- athletic training*
- cardiac rehabilitation*
- occupational therapy*
- physical therapy*
- physician assistant*

*Advanced degrees or certifications may be required for academic or clinical positions.

Exercise and Wellness (Health Promotion), BS (EEXWHBS)

Campus: Downtown Phoenix

Program Description:

The BS in exercise and wellness with a concentration in health promotion provides students a pathway to become a Certified Health Education Specialist. Students will gain the knowledge, skills and expertise to develop and deliver programs that enhance awareness about healthy lifestyle behavior, increase health-enhancing behaviors, decrease health risk behaviors and create environments supportive of healthy lifestyles.

Students are prepared with:

- competencies required to pursue the Certified Health Education Specialist certification
- foundational knowledge in nutrition, physical activity and stress for chronic disease prevention
- knowledge, skills and ethics for assessing and understanding group and community health needs
- methods for helping people make health behavior changes and teaching people about health risks and behaviors
- skills in designing, implementing, administering and evaluating effective health promotion programs in work site, community, health care and agency settings

A distinctive aspect of the health promotion concentration is an outstanding capstone internship that provides preprofessional experience in health promotion settings.

Additional Program Fee: Y

Second Language Requirement: N

 Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
 International (<https://students.asu.edu/international/future>)
 Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
 Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The rising cost of health care has increased the need for individuals with the skills and abilities to provide health education and health promotion programs. As health care costs continue to rise, insurance companies, employers and governments are attempting to find ways to curb costs. One of the more cost effective ways is to employ health promotion professionals to teach people how to live healthy lives and avoid costly treatments for illnesses. Health promotion professionals work in various environments based on the industry in which they are employed. In public health, nonprofit organizations, corporations and businesses, colleges and universities, and medical care settings, they primarily work in offices. However, they may spend a lot of time away from the office implementing and attending programs, meeting with community organizers, speaking with patients or teaching classes.

Undergraduates in this concentration often pursue careers in such fields as:

- college and university wellness and health promotion
- government health departments and agencies
- health and wellness coaching
- nonprofit disease prevention agencies
- private health care organizations
- wellness centers
- worksite wellness and health promotion

Students may also pursue further graduate study in such fields as:

- dentistry
- health education
- health promotion
- health psychology
- medicine
- occupational therapy
- physician assistant
- public health

Advanced degrees or certifications may be required for academic or clinical positions.

Exercise and Wellness (Strength and Conditioning Specialist), BS (NHEXWSCBS)

Campus: Downtown Phoenix

Program Description:

The strength and conditioning specialist concentration is designed for students who want to work with competitive athletic or occupational athletic populations. These students will work with high school, college or professional sports organizations in scholastic or private sports performance training facilities, with tactical sports performance clients (military, police, firefighters, EMT) in municipal or government-run facilities or with individual clients participating in competitive recreational activities. The student will be prepared to sit for the Certified Strength and Conditioning Specialist or the Tactical Strength and Conditioning-Facilitator examinations offered by the National Strength and Conditioning Association (<https://www.nasca.com>) at the completion of their course work. Students in this concentration will be exposed to applied assessment labs and practical fieldwork to gain the knowledge they will need to be competent coaches in this field.

Health Education and Health Promotion, BS (NHHEHPBS)

Campus: Downtown Phoenix, Lake Havasu, Online

Program Description:

The BS in health education and health promotion provides students a pathway to become certified health education specialists, and it is the only undergraduate program at ASU designed specifically to provide professional preparation in population-based health, including school and community health education. Students pursuing a bachelor's degree in health education and health promotion will gain foundational knowledge in health promotion program planning, implementation and evaluation, as well as certified health education specialist competencies, and they will learn about specific health education strategies for effectively delivering community and school health education interventions. Students will develop an understanding of various areas addressed by certified health education specialists, including, injury prevention, violence prevention, substance abuse prevention, sexual health education, emotional health education, foundations of school health education, social media and marketing in health education, nutrition, physical activity, stress for chronic disease prevention, and more.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The Downtown campus is available to all students who meet university admission standards.

The West campus is only available to students who will be first time freshmen as defined as those who have earned 12 college credit hours or less at the time of admission.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated,7.5-week classes.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The rising cost of health care has increased the need for individuals with the skills and abilities to provide health education and health promotion programs. As health care costs continue to rise, insurance companies, employers and governments are attempting to find ways to curb costs. One of the more cost effective ways is to employ health education and health promotion professionals to teach people how to live healthy lives and avoid costly treatments for illnesses. Health promotion professionals work in various environments based on the industry in which they are employed. In public health, nonprofit organizations, corporations and businesses, colleges and universities, and medical care settings they primarily work in offices. However, they may spend a lot of time away from the office implementing and attending programs, meeting with community organizers, speaking with patients or teaching classes.

Undergraduates in this concentration often pursue careers in such environments as:

- college and university wellness and health promotion
- community health agencies
- hospitals and medical facilities
- insurance companies
- nonprofit disease prevention agencies
- private health care organizations
- schools
- state and county health departments
- wellness centers
- worksite wellness and health promotion

Students may also pursue further graduate study in such fields as:

- health education
- health promotion
- health psychology
- medicine and dentistry (with additional elective sciences)
- public health
- social work

Advanced degrees or certifications may be required for academic or clinical positions.

Health Sciences (Health Policy), BS (NUHSCHPBS)

Campus: Downtown Phoenix

Program Description:

The BS in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students will complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness.

The health policy program is designed for students interested in the community policy aspects of disease prevention and health promotion. The continuum of health care now spans a diverse array of health providers ranging from private practitioner offices and outpatient care centers to residential care facilities and acute care hospitals. Key to the enhancement of health care within the U.S. is the development and implementation of innovative, cost effective and universally accessible programs. Students in this concentration will be required to complete a supervised practicum, providing hands-on experience within their field of interest. Students may also wish to consider using their electives to complete a minor in nonprofit administration, which requires 15 credits.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 117

Program Math Intensity: General

Health Sciences (Healthy Lifestyles Coaching), BS (NUHSCHLCBS)

Campus: Downtown Phoenix, West, Online

Program Description:

The BS program in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students will complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness. The healthy lifestyles coaching emphasis brings together course work from exercise and wellness, nutrition and health sciences to give students a strong background in preventative health care.

The on-campus program is accredited by National Consortium for Credentialing Health and Wellness Coaches program accreditation standards:

<http://www.ncchwc.org/organizations/> (<http://www.ncchwc.org/organizations/>). Students in the on-campus program will receive a health and wellness coaching certificate and will be able to sit for the NCCHWC certification examination if they choose to do so upon graduation.

The degree program allows students to explore a range of interests in health education and is designed for students who are seeking immediate employment in the community health education or health promotion fields. For those interested in further education, the program also is constructed to meet the prerequisites for pursuit of a Bachelor of Science in Nursing.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

According to the US Bureau of Labor Statistics, employment for health coaches and health educators is projected to grow 21 percent from 2012 to 2022, faster than the average for all occupations. Growth will be driven by efforts to improve health outcomes and to reduce health care costs by teaching people about healthy habits and behaviors and utilization of available health care services. Health coaches work in hospitals and health care facilities, schools, public health departments, nonprofit organizations, and private businesses. Career options include positions such as:

- elder service or congregate meal program coordinator
- health and patient educator
- Healthy Start or corporate wellness coordinator
- school health and nutrition program specialist
- women, infants, children and community nutrition aide

Health Sciences (Pre-professional), BS (NUHSCPRES)

Campus: Downtown Phoenix

Program Description:

The BS in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. The preprofessional program is designed for students planning to enter medical, dental, osteopathic, physical therapy, veterinary, pharmacy and similar professional schools. In addition to a comprehensive core of basic science courses, the concentration is unique in that it will provide a solid base in ethics; communication; the evaluation of research (the cornerstone of evidence-based practice); and healthy lifestyles (the foundation of health promotion and chronic disease risk reduction avenues of health care), including the role of complementary and alternative care within the U.S. health care system. Students will also have the ability to incorporate electives that contribute to their knowledge of and sensitivity to the needs of populations impacted by health disparities.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Admission Requirements:

Health Systems Management, BS (TSHSYMBS)

Campus: Polytechnic

Program Description:

The BS in health systems management provides students with a unique opportunity to develop a marketable skill set via a multidisciplinary educational approach to the development of health care leaders, technologists and entrepreneurs. The flexible program allows students to select one of two focus areas, technology entrepreneurship management and information technology management. The degree develops graduates whose decisions are evidence-based, a critical skill as health systems evolve. Students will receive a strong foundation in health systems, technology, business and consumer-behavior associated with health, with an emphasis on innovation and service development. Program graduates will have the skills to transform the current health care system or individual health care organizations to become more efficient and agile by improving processes, adopting best practices, evaluating and adopting technologies. Graduates will lead such organizations and systems to become more competitive globally.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates of the program are well qualified for careers in the management of health systems. This degree couples technical skills with the business skills needed to manage complex health systems. The focus area of information technology management allows the graduate to pursue a career in technical support administration for various health systems, which will address information assurance, securing computer applications, and security of communication and information. These skills are combined with knowledge of computer systems and networking design, configuration and

administration. The process innovation focus area provides students with the opportunity to analyze and improve processes and practices as well as generate and evaluate products and services for the health system enterprise. Students will be able to pursue careers in marketing and consumer behavior as it relates to health systems. Careers in health systems operations and social entrepreneurship will be available to these students.

Kinesiology, BS (NUKINBS)

Campus: Downtown Phoenix, Lake Havasu

Program Description:

Kinesiology is a discipline emphasizing the study of movement as it relates to physical activity, health and disease prevention, and exercise. Using both human and animal models and reflecting research ranging from basic to applied, it draws from a transdisciplinary body of knowledge grounded in the biological, psychological, physical and social sciences.

Undergraduate students in the program gain a disciplinary knowledge of the anatomical, biomechanical, developmental, neural, physiological and psychological mechanisms underlying human movement.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Clinical Exercise Physiology

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Medical Studies, BS (NHMEDBS)

Campus: Downtown Phoenix, West

Program Description:

The BS in medical studies is an interdisciplinary degree program designed to provide a solid undergraduate knowledge base in health and health care. The program provides a rigorous education in the natural sciences, social sciences, humanities, statistics, health economics and global health, with particular attention to the integration of disciplines and the impact on health and health care. Students will learn about health systems and gain skills in evaluation of the health sciences literature, communication, leadership and interprofessionalism. The program prepares students for health-related careers and is designed for students with an interest in postgraduate health degrees, such as medical school, providing excellent preparation for the changes in the MCAT and medical school admission requirements.

Additional Program Fee: Y

Career Opportunities:

Students graduating from this program will be academically prepared, well rounded and adept in skills for a number of exciting careers in the allied health fields, dentistry or medicine, education, government, health care industries or nonprofit organizations. Job areas may include:

- community health worker
- project coordinator
- research assistant
- sales or marketing representative (e.g., medical device or pharmaceutical industry)

Students will be well prepared to pursue postgraduate health degrees, resulting in a career as a:

- chiropractor
- dentist
- naturopathic physician
- optometrist
- pharmacist
- physician
- physician assistant
- podiatrist
- public health professional

Many other career options may be available.

Nutrition (Food and Nutrition Management), BS (ECNTRMBS)

Campus: Downtown Phoenix, Online

Program Description:

The BS in nutrition with a concentration in food and nutrition management provides students with the ability to apply nutrition principles to food production. This concentration is designed to provide students with an understanding of the food industry so they can manage and market food and develop a food or menu that meets a specific nutritional guideline.

Course work focuses on a strong foundation in food purchasing, production and planning. Additional course work in management, marketing and nutrition prepares students for a variety of food service positions. Graduates can also pursue the credentials of certified dietary manager, school nutrition specialist or registered sanitarian.

Nutrition (Human Nutrition), BS (ECNTRHBS)

Campus: Downtown Phoenix

Program Description:

The BS in nutrition with a concentration in human nutrition provides students with a strong foundation in nutrition and science that prepares them for careers in public or community health and clinical or graduate research programs. Students in this concentration usually intend to apply to medical school or another health profession. In addition to providing a strong foundation in medical nutrition therapy, the course work includes anatomy, physiology, chemistry and microbiology. Students gain knowledge of nutritional concepts that health care professionals sometimes lack.

Students from this program have gone on to study:

- dentistry
- medicine
- naturopathic medicine
- optometry and podiatry
- osteopathic medicine
- pharmacy

Additional Program Fee: Y

Nutrition (Nutrition Communication), BS (ECNTRCBS)

Campus: Downtown Phoenix, Online

Program Description:

The BS in nutrition with a concentration in nutrition communication is designed to help students become experts in communicating health and nutrition content. This concentration was originally developed in collaboration with the Walter Cronkite School of Journalism and Mass Communication.

Nutrition courses provide the content for articles students write in their communication-related classes. This degree program provides students with a strong understanding of the scientific method, statistics, nutrition, health care and wellness that many traditional journalists lack. Faculty members teach students how to avoid sensationalism or sacrificing reality to get a better story.

Public Health, BS (NHPBHBS)

Campus: Downtown Phoenix

Program Description:

The BS in public health is designed to provide students with knowledge and skills in the core concepts of public health; namely health behavior, health statistics, environmental health, epidemiology, health administration and policy. The degree prepares public health practitioners who are competent to plan, implement, evaluate and monitor public health functions in local, state, national and international settings. Graduates are prepared to fill entry-level positions in public and community health as well as to further their education through the Master of Public Health, Master of Health Administration or other advanced degree programs. The bachelor's degree in public health is designed to appeal to students with interests in population rather than individual health.

Additional Program Fee: Y

Speech and Hearing Science, BS (LASHSBS)

Campus: Tempe

Program Description:

Students in the BS in speech and hearing science program study the normal aspects of the communication process. Emphasis is placed on:

- anatomy and physiology of the hearing mechanism
- speech, language and hearing science
- the human communication system, including normal development of speech and language

Graduates attain broad-based knowledge in the basic aspects of speech, language and hearing sciences, which prepares them for graduate studies in audiology or speech language pathology.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Employment opportunities for those with a bachelor's degree may include positions as:

- management trainees
- research assistants or associates in behavioral disciplines
- speech-language pathology assistants

Primarily, a degree in this field prepares the student for entrance into a graduate program in speech-language pathology or audiology. In both fields, a graduate degree is required for employment.

The undergraduate degree in speech and hearing science is also excellent preparation for those who wish to enter professional or graduate programs in fields such as:

- education
- law
- medicine
- rehabilitation
- special education
- teaching for the deaf

Graduates in speech-language pathology and audiology can work in a variety of settings, including:

- clinics
- hospitals
- schools

Honors - Barrett, The Honors College

Honors College, (9HOHONALL)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:**ABOUT THE COLLEGE**

Barrett, the Honors College is a selective, residential college that recruits academically outstanding undergraduates. Named "Best Honors College" in the nation, this honors community is known nationally for its record-breaking number of National Merit, National Hispanic, and Flinn scholars and its nationally ranked numbers of recipients of Fulbright, Truman, Goldwater, Udall and Marshall fellowships.

Barrett is an international model for supporting ASU honors students with a presence on four campuses, a multimillion dollar endowment used to support honors students and their projects, and dedicated deans, faculty and staff that include 42 Faculty Fellows within the college; more than 1,800 faculty members who teach honors students university-wide each year; and 61 staff. Barrett represents a powerful and unique combination of the special care and attention an honors student should expect in academics and advising from an excellent residential liberal arts college, with the vast program choices and research mentoring resources of a vibrant Research I university.

In 2009, Barrett opened the nation's first comprehensive four-year residential honors college within a top-tier Research I university. The \$140 million nine-acre honors campus community on the Tempe campus includes all the Barrett Faculty Fellows and administration offices; 14 classrooms; 1,700 beds; a dining center with signature refectory and cafe; several courtyards; and a community center with student lounges, activity rooms and computer labs. The four-year residential campus in Tempe expanded to the Vista Del Sol property across the street in 2013 and now accommodates 1,300 additional beds, the honors admission and recruiting operations, and amenities that include a theater, a pool, a writing center, and fitness, recreation and events facilities. Barrett students on the Polytechnic, West and Downtown campuses also enjoy new facilities and the benefits of living in growing honors communities that offer the four-year honors residential component, academic and co-curricular experiences, and

faculty and staff committed to enabling the best education possible for intellectually engaged students from around the world.

PROGRAM REQUIREMENTS

Barrett welcomes applications from highly motivated, high-achieving, academically strong high school seniors and transfer students, as well as students currently enrolled at ASU. Prospective students may apply to Barrett after they have submitted an application to ASU. Current ASU and transfer students can apply for entrance to Barrett in the second semester of the freshmen year or the first semester of the junior year. Admission information and the online application are available on the Barrett website at <https://barretthonors.asu.edu> (<https://barretthonors.asu.edu>).

Barrett students complete a challenging honors curriculum through a combination of honors-only seminars, honors enrichment contracts, internships, research, honors study abroad and a culminating honors thesis or creative project. Generally, students complete 36 hours of honors credits within the 120 credit hours required to earn a bachelor's degree. Details regarding the academic requirements can be viewed using the major map.

STUDENT OPPORTUNITIES

Barrett students take advantage of an array of opportunities that enrich the honors experience.

They receive national and international graduate scholarships. They engage in cutting-edge research with distinguished ASU faculty, and they benefit from special partnerships with the Mayo Clinic, the Biodesign Institute, and Intel. Students are developing iPhone applications, building robots, designing games or developing tools to improve health care, meet global energy needs, provide clean water or secure data and information privacy.

There are more than six hundred internship opportunities developed exclusively for Barrett students. All internships are paid positions with companies or agencies like Goldman Sachs, Google, Microsoft, and the American Heart Institute. Students also secure internships in the Arizona governor's office, local congressional districts, and the United States Senate.

Many Barrett students cultivate leadership opportunities and organize a full range of service, wellness, arts, cultural, social, entrepreneurial and sustainability programming. Popular events on the Tempe campus include Lunch with the Dean, Dinner with Faculty nights, and the Ladies Tea at the historic University Club. Barrett students have opportunities to attend Tony Award-winning Broadway musicals at Gammage theater; explore the world's only Musical Instrument Museum; attend weekly Zumba or Insanity fitness classes; learn healthy eating habits from a certified nutritionist; and share their musical talents at monthly Open Mic Nights in Barrett's very own Burning B Cafe.

Our Downtown Phoenix campus hosts a fantastic Urban Tour series with visits to the time-honored Orpheum Theater and world-renowned Heard Museum. Popular events downtown include Donuts with the Dean, the Barrett Fashion Show and Career Development night, and the Winter Wonderland Barrett Ski trip. Our Polytechnic campus is known for its Innovation Showcase, an impressive exhibition of student projects that demonstrate how students are solving real-world problems with innovative solutions. The Barrett Polytechnic campus faculty and staff also host the Human Event Tribunal, Pottery Painting, Earth Week festival and Golf Land and Sun Splash excursions. Our West campus Barrett faculty and staff host the annual TEDx event and other traditions like the Barrett Ball and Meet the West Campus Deans night.

Barrett students on all four campuses participate in summer abroad programs that enable them to enjoy small classes taught by Barrett faculty and experience different cultures while earning honors credits. Great American Cities is one of the most popular travel programs, with a visit to cities like Boston, New York, New Orleans, Anchorage and Miami to engage in a service project and soak in the history, culture and great food. Other travel opportunities range from turn-around trips to Arizona parks and monuments to overnight trips to San Diego or ski trips to Colorado.

Additional Program Fee: Y

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students must complete an application to Arizona State University before submitting a separate application to Barrett, The Honors College. Students who have demonstrated high levels of academic achievement in high school or college may apply for admission to Barrett. Each candidate must file an application to the college separate from the ASU application, in accordance with the appropriate Barrett deadlines.

Applicants are evaluated on the basis of their academic records, their ranking within the graduating class, and their performances on the SAT or ACT. The college also values students who have special talents and aptitudes, exhibit exceptional leadership qualities, have had unusual life experiences or display significant community involvement.

The Barrett admission application and additional information about the college and its activities are available at <http://barretthonors.asu.edu> (<http://barretthonors.asu.edu>).

Integrative Sciences and Arts, College of

Agribusiness (Preveterinary Medicine), BS (AGAGBPBS)

Campus: Polytechnic

Program Description:

The BS in agribusiness teaches students the business of agricultural production, finance, marketing and distribution. Students explore global agr business issues such as international trade, food safety and sustainability through a technology-rich curriculum that focuses on real-world projects.

The agr business industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The programs offered through the highly respected College of Integrative Sciences and Arts prepare graduates for success in graduate school or a wide range of careers.

By adding a concentration in preveterinary medicine, students can build on course work in chemistry and biology, to open opportunities for further study, including in veterinary medicine. Others may seek to apply their science knowledge in the human or veterinary pharmaceutical industries or in the food industry, with a focus on processing, production and food safety.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Accounting for more than 50 percent of the global economy and employing 25 percent of Americans, agribusiness brings food from the farm to the global table. Possible career paths include positions in fields such as:

- finance and technical, with private agribusiness firms and governmental agencies
- management
- marketing
- veterinary medicine

Applied Biological Sciences (Applied Biological Sciences), BS (TSABSABS)

Campus: Polytechnic

Program Description:

The BS program with a concentration in applied biological sciences offers students solid foundations in biology and related sciences while allowing them to focus on an area of special interest. This concentration works well for students interested in pursuing research careers in biology or for students planning to enter graduate or professional programs related to human health including:

- biotechnology
- dentistry
- epidemiology
- medical technology
- medicine
- physical therapy
- public health
- physician's assistant programs

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates may pursue entry-level careers in wildlife and restoration ecology, urban horticulture and secondary education. The general program in applied biological sciences prepares graduates to succeed in graduate and professional schools in disciplines such as:

- biological research
- dentistry
- environmental biotechnology
- human health
- medicine
- physical therapy
- secondary education

Applied Biological Sciences (Applied Ecology and Preveterinary Medicine), BS (TSABSRBS)

Campus: Polytechnic

Program Description:

The applied ecology and preveterinary medicine concentration is designed for students who want a strong scientific foundation in animal biology and health. It is especially appropriate for students planning to enter graduate or professional programs in veterinary medicine, animal health, or wildlife biology and ecology, or to start careers related to wildlife biology, ecology, restoration and rangeland management. Public and private career options are diverse and include small- and large-animal veterinary medicine, wildlife veterinary medicine, domestic and wild animal care, animal biology and habitat research and secondary education.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Applied Biological Sciences (MS). Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates can pursue numerous entry-level careers in animal health and nutrition. The program in applied biological sciences also prepares graduates to succeed in graduate or professional schools in disciplines such as:

- animal biology
- animal health
- veterinary medicine

Applied Biological Sciences (Natural Resource Ecology), BS (LSABSNRBS)

Campus: Polytechnic

Program Description:

This program focuses on educating students to be scientist-practitioners with skills that will allow them to work in government agencies or environmental consulting firms or enter graduate programs in the area of natural resource ecology. The curriculum combines a strong foundation in biology, chemistry, physics and mathematics, with a solid grounding in in the ecology of wildlife, water resources or rangelands.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 251

Program Math Intensity: Moderate

Admission Requirements:

Applied Biological Sciences (Preveterinary Medicine), BS (LSABSPMBS)

Campus: Polytechnic

Program Description:

The purpose of the concentration in preveterinary medicine in the BS program in Applied Biological Sciences is to prepare undergraduate students to successfully complete the admission requirements for pursuing an advanced degree in veterinary medicine. The concentration curriculum emphasizes a solid foundation in biology, chemistry, physics, animal science and mathematics while offering specialized courses in veterinary medicine and opportunities for placement in internships in the field.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Applied Biological Sciences (Secondary Education in Biology), BS (TSABSSBS)

Campus: Polytechnic

Program Description:

The secondary education in biology concentration is designed for students who want to teach biology at the high school level. In addition to the standard curriculum, students will receive hands-on experience in laboratory instruction in the applied biological sciences concentration. Our goal is to prepare teachers who excel in biology and the related sciences.

Students should also contact the Mary Lou Fulton Teachers College.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

cisa@asu.edu

Applied Biological Sciences (Sustainable Horticulture), BS (TSABSUBS)

Campus: Polytechnic

Program Description:

The sustainable horticulture concentration is designed for students who want theory and practical experiences in the unique aspects of the culture of plants in an urban desert environment. Students acquire the skills to produce, design and care for ornamental and edible plantscapes using sustainable technologies.

Students are prepared for a range of horticulture careers in the private and public sectors, including in nursery plant production, landscape design and culture as well as local food production and organic urban farming.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Horticulture is a multibillion dollar national and international enterprise that offers a diverse and exciting choice of professional careers. Graduates can pursue numerous entry-level careers in horticulture. Employment opportunities exist in private and public sectors. The sustainable horticulture concentration prepares graduates to succeed in graduate or professional schools in disciplines such as:

- aftermarket care of plants
- biology of the plants in desert cities
- care and management of trees in cities
- creation of public, community and private gardens in arid climates
- design and installation of outdoor landscapes including landscape irrigation systems
- integrated pest management

- nursery production
- marketing
- organic farming
- plant identification
- plant propagation

The general program in sustainable horticulture also prepares graduates to succeed in roles such as:

- arboretum or botanical garden manager
- city horticulturist
- city park superintendent or manager
- horticultural consultant
- horticultural plant researcher or educator
- horticulture products and supplies
- horticulture supply sales representative
- integrated pest management specialist
- interior plant specialist
- irrigation system designer or consultant
- landscape designer or contractor
- landscape services company owner or operator
- nursery plant broker and plant salesperson
- nursery production owner or manager
- organic farmer or permaculturist
- plant propagator
- urban forester, tree specialist or arborist
- urban plant ecologist

Career opportunities for urban horticulture graduates are not limited to any one geographic location; graduates can embark on careers throughout the United States, Canada, Mexico, and overseas.

Applied Mathematics, BS (LSMATBS)

Campus: Polytechnic

Program Description:

The BS program in applied mathematics offered by the College of Integrative Sciences and Arts is a transdisciplinary program focused on developing flexible problem-solvers who can apply mathematical techniques and skills to a wide range of problems in the biological and physical sciences. The course work builds a foundation in mathematical modeling, data analysis and the interpretation of mathematical results in real-world settings. Students choose science electives in applied biology, applied physics or other areas of interest to complement and provide context for their mathematical training.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

cisa@asu.edu

Applied Physics, BS (LSAPHYBS)

Campus: Polytechnic

Program Description:

The acceleration of advances at the frontier between physics, engineering and technology creates a need for interdisciplinary training and research that is not readily accommodated by traditional single-focus programs in physics. Bringing fundamental physics together with its immediate applications, the BS in applied physics will be attractive to students whose interests span new physical technologies in industry and engineering. The degree combines physics, computer science and applied mathematics to tackle complex real-life problems in physics, material sciences, engineering, chemistry and others.

The bachelor's degree program brings together the expertise of physics faculty, particularly in modeling of physical systems which relies heavily on both modern numerical techniques and fundamental physics. The growing presence of Intel and other high-tech companies in the east valley and metropolitan Phoenix presents a unique opportunity to enhance the students' interaction with industry. Given the importance of hands-on experience, the degree program offers a series of unique courses allowing students interactive involvement in a project-based environment.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates of this program should be able to apply their knowledge in high-performance and scientific computing, biophysics, condensed matter physics, chemistry, material science, electrodynamics, and radar physics. This knowledge is vital for employment in chemical and pharmaceutical companies, environmental management agencies, and firms specializing in scientific software. Graduates should also be prepared to continue their studies in graduate programs in physics and chemistry.

Applied Quantitative Science, BS (LSAQSBBS)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

Students will learn to integrate and apply STEM-like skills that are increasingly in demand in the 21st century. Students who complete the applied quantitative science degree program will acquire the following six "habits of mind" related to 21st century skills. A habit of mind is a mental activity that becomes increasingly automatic over progress through the curriculum and extends into career development.

- apply and project quantitative reasoning to unfamiliar contexts
- communicate well within and without the expert domain
- critically and adaptably think about complex problems
- effectively search through and evaluate information
- experiment creatively and in an informed manner in search of new insights
- use sophisticated insight involving statistical inference and quantitative reasoning

This program is offered as a stand-alone degree on the Polytechnic campus. Students pursuing degrees on all four metropolitan campuses can add this degree as a concurrent degree.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Applied Science (Technical Communication), BAS (LSTECBAS)

Campus: Polytechnic

Program Description:

The BAS in technical communication is a flexible degree plan designed specifically for students who have earned an AAS from a regionally accredited institution. This major combines the technical experience gained in the student's associate degree program with a broader education of skills in management, leadership, critical thinking and communication.

Technical communication is applied workplace communication that makes technical information understandable and available to many audiences. In the technical communication concentration, students learn how to produce, design and manage information using both traditional and developing technologies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from

Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

Career Opportunities:

The Bureau of Labor Statistics estimates the need for writers and editors will increase by 25 percent during the next five years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for writers. Students in the program will prepare for careers as:

- advertising and promotions managers
- communications teachers (postsecondary)
- copy writers
- correspondence clerks
- court clerks
- desktop publishers
- editors
- media and communication workers
- proofreaders and copy markers
- public relations specialists
- reporters and correspondents
- technical writers
- writers and authors

Communication, BA (LSCOMBA)

Campus: Downtown Phoenix, Polytechnic

Program Description:

The BA in communication in the College of Integrative Sciences and Arts explores how communication processes create, maintain and transform identities, relationships, workplaces and communities. With a dual emphasis on urban communication and technology, it allows for a concerted focus on the rapidly changing modalities of communication occurring today. The program's mission statement is: Through the study and critique of human communication, we generate knowledge, creativity and understanding to facilitate healthy relationships and workplaces, civil and secure communities, and constructive intercultural interaction.

Majors complete a minimum of 12 upper-division credit hours of COM courses offered by the College of Integrative Sciences and Arts.

English, BA (LSENGBA)

Campus: Polytechnic

Program Description:

The BA program in English focuses on effective writing, critical thinking and sophisticated reading of literary and nonliterary texts. Our faculty teach courses in English, American and world literature, from the Classical period to the present; creative and academic writing; and American and international film. We also offer internships in online publishing through our acclaimed online literary journal, *Superstition Review*:

<https://superstitionreview.asu.edu/> (<https://superstitionreview.asu.edu/>)

Majors complete a minimum of 12 upper-division credit hours of ENG courses offered by the College of Integrative Sciences and Arts.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The bachelor's degree program in English prepares scholars and teachers for graduate or professional study and for careers in education, writing and other related fields. Career prospects for secondary language arts teachers in Arizona are particularly strong. More importantly, students in the program will develop skills that employers value, such as analyzing ideas and problems, finding and evaluating information, communicating effectively, and presenting clear and logical arguments. With these skills, graduates of the program can find jobs such as these:

- advertising and promotions managers
- broadcast news analysts
- copy writers
- court reporters
- editors
- English language and literature teachers
- judicial law clerks
- lawyers
- legal support workers
- marketing managers
- media and communication workers
- middle school teachers
- paralegals and legal assistants
- poets, lyricists and creative writers
- postsecondary teachers
- public relations specialists
- sales managers
- sales representatives
- secondary school teachers
- teachers and instructors
- technical writers
- writers and authors

Exploratory Health and Life Sciences, (UCHSCIEXPL)

Campus: Downtown Phoenix, Lake Havasu, Polytechnic, Tempe, Online

Program Description:

The exploratory health and life sciences track affords students an opportunity to explore a variety of majors related to the health and life science professions. ASU recognizes that many students are not ready to choose a specific academic program of study when first entering the university. Allowing students the option to declare exploratory status permits them to begin meeting general studies requirements that all ASU graduates must fulfill as well as affording students some time to explore a variety of academic courses that may lead to a potential major interest.

All College of Integrative Sciences and Arts exploratory students are required to enroll in the following major and career exploration courses which must be taken sequentially:

UNI 150 Major and Career Exploration (1)

UNI 250 Choosing a Major (1)

UNI 270 Career Direction for a Successful Future (1)

For a complete list of all majors associated with this exploratory track, refer to <https://cisa.asu.edu/exp-health-life-sciences-majors> (<https://cisa.asu.edu/exp-health-life-sciences-majors>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: Math courses needed will be determined by potential major choice.

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

General studies majors have the option of working in almost any field that requires effective interaction with others, from sales to social services and organizational management to government administration. Graduates will be equipped with transferable skills highly desired by many employers; therefore, a wide array of job choices are available. The bachelor's degree creates great flexibility in career choice because of the versatility within the program.

Graduates may choose to enter one of the occupations for which their cluster prepares them, including:

- administrative services manager
- curator
- medical and health service
- middle school teacher
- postsecondary teacher
- property, real estate and community association managers
- public relations specialist
- purchasing manager
- real estate sales agent
- sales manager
- writer and author

cisa@asu.edu

Interdisciplinary Studies, BA (LSBISBIS)

Campus: Downtown Phoenix, Polytechnic, Tempe, Online

Program Description:

The ASU interdisciplinary studies degree, one of the top five in the country, offers students the freedom to select two concentration areas from a rich menu of more than 160 possibilities (see concentration check sheets at <https://cisa.asu.edu/interdisciplinary-studies-concentrations> (<https://cisa.asu.edu/interdisciplinary-studies-concentrations>)). The core curriculum provides students the intellectual tools to integrate their concentration areas, engage in transdisciplinary problem-solving and prepare for careers and graduate programs that increasingly cross disciplinary boundaries.

An interdisciplinary studies student could choose to integrate concentrations like music and business, applied psychology and social welfare, communication and justice studies, public administration and ethics, digital culture and computer gaming, or many other unique combinations.

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary studies students take an active role in designing their educational plans and defining their career goals. The degree emphasizes written communication, versatility, self-assessment and critical thinking -- essential skills for today's dynamic world.

Those interested in the interdisciplinary studies online program may visit the ASU Online website for more information.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The program is available to all students in good academic standing who have achieved sophomore, junior or senior standing. Students should complete the online pre-advising workshop (found in student resources at <https://cisa.asu.edu/bisworkshop> (<https://cisa.asu.edu/bisworkshop>)) prior to meeting with an advisor to declare their major as interdisciplinary studies.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-interdisciplinary-studies?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

Because of the flexibility of the interdisciplinary studies program, graduates take many exciting career paths after leaving ASU. While some students complete graduate or professional degrees, others immediately enter the job market. For example, one graduate combined business and communication and now owns a small business; another integrated sociology and family studies to further a career in law enforcement; another studied philosophy and economics to prepare for law school; another combined biology and chemistry in preparation to pursue a master of pharmacy degree; yet another studied Spanish and religious studies and now works as an employee trainer for a major company.

Possible career opportunities include:

- archivist
- chief executive
- climate change analyst
- compliance manager
- computer network support specialist
- curator
- editor
- environmental restoration planner
- general and operations manager
- regulatory affairs manager
- reporters and correspondent
- Web developer
- wholesale and retail buyer (except farm products)

Interdisciplinary Studies (Organizational Studies), BA (LSORGBIS)

Campus: Online

Program Description:

Please note: Students interested in completing the BA program in the Gila Valley or Yuma are encouraged to complete a Transfer Admission Guarantee (TAG) program. Please see admission requirements below.

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary students develop the intellectual tools needed to build bridges between academic disciplines and apply their skills, innovations and knowledge in various academic and practical settings. The degree in organizational studies is intended for students seeking an interdisciplinary degree and possessing a desire to learn about the dynamics of contemporary organizations. Organizational studies students gain valuable knowledge of management styles, communication strategies, technologies, diversity, ethics and politics. All course work for organizational studies is offered online, giving students freedom and flexibility in completing their requirements.

Those interested in the interdisciplinary studies (organizational studies) online program may visit the ASU Online website for more information.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

By engaging in a breadth of knowledge and experience, and by acquiring the skills to integrate various domains of knowledge, students prepare themselves for a range of careers, including as:

- human resources specialists
- industrial organizational psychologists
- investment fund managers
- loss prevention managers
- management analysts
- regulatory affairs managers
- supply chain managers
- urban and regional planners

Many organizational studies students already have a chosen career field, yet desire a degree that is versatile, flexible, meaningful and that affords the opportunity for continued career development and advancement. Because of the flexibility of the program, organizational studies graduates take many different career paths after finishing their degree. Recent graduates have found opportunities in many exciting fields such as:

- business
- education
- health care administration
- nonprofit administration
- tourism

Liberal Studies, BA (LABLSBLS)

Campus: Polytechnic, The Gila Valley, Online

Program Description:

Please note: Students interested in completing the BA program at the Gila Valley location are encouraged to complete a Transfer Admission Guarantee. Please see admission requirements below.

The liberal studies program helps to address student interests in a broad array of disciplines and subject matter. The program aims to give students the grounding to use knowledge as more successful thinkers, decision-makers and leaders. The liberal studies core classes are designed to: promote critical and creative thinking as students learn how to draw upon diverse disciplinary perspectives and modes of inquiry, help advance communication skills, and support professional career development.

Students majoring in liberal studies have become part of an international movement in higher education. This movement has proven empowering to people who are given the flexibility to explore multiple interests or approach a particular interest from various perspectives. Students are not alone in their chosen path. In fact, this program is just one of hundreds of similar programs offered in colleges and universities across the nation.

The program shares with all other liberal arts and science degrees the goal of developing analytical and communicative abilities. The program offers breadth of learning in an online setting. The liberal studies degree is transdisciplinary, providing students a thematic approach to education.

For more information on eligibility requirements, visit the college website.

Students interested in the program offered in the Gila Valley or Yuma should consider completing a TAG program. Arizona State University and Eastern Arizona College have established a partnership that allows students to complete their associate degree at EAC and then pursue this bachelor's degree through classes delivered on the EAC Thatcher campus. Visit <https://transfer.asu.edu/eac> (<https://transfer.asu.edu/eac>) for more information about ASU degrees offered at Eastern Arizona College Thatcher campus in the Gila Valley. View the major map for this program here: <https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LABLSBLS/null/EAC/2016> (<https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LABLSBLS/null/EAC/2016>)

Organizational Leadership, BA (LSORGLBA)

Campus: Lake Havasu, Polytechnic, The Gila Valley, CAC, Yuma, Online

Program Description:

Please note: Students interested in completing the BA program in the Gila Valley, Pinal County or Yuma are encouraged to complete a Transfer Admission Guarantee program. Please see admission requirements below.

The BA program in organizational leadership uses transdisciplinary methods that prepare students to become leaders in organizations. Students

develop skills and knowledge that leaders need to solve problems, communicate effectively, assess programs, manage resources and use emerging technologies in organizations. Students will be prepared for a range of positions in the public and private sectors, including in government, health care administration, nonprofit agencies, in businesses and the service industry.

Arizona State University has established partnerships with Arizona Western College, Central Arizona College and Eastern Arizona College that allows students to complete their associate degree at AWC, CAC or EAC and then pursue this bachelor's degree through classes delivered on these campuses. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at these locations.

This program is also offered at the ASU Colleges in Lake Havasu City. View the major map here:

<https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LSORGLBA/null/CALHC/2016>

(<https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LSORGLBA/null/CALHC/2016>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Online: MAT 142 or MAT 117 or higher. Lake Havasu: MAT 117 or higher. Students simply need to fulfill the General Studies math requirement.

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The Gila Valley and Yuma Students:

ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in organizational leadership, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Arts in organizational leadership. Upon completion of the TAG, students will complete the remaining requirements for ASU's bachelor's program. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at local community colleges.

This program may also accept transfer credit in lieu of a TAG agreement. Please contact the department for details.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-organizational-leadership?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Dine College (Dine College)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Tohono O'odham Community College (Tohono O'odham Community College)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Career Opportunities:

Graduates will possess skills and knowledge needed for leadership positions in a wide range of organizations --- such as business, government, health care administration, nonprofit agencies and service industry. Students who complete the degree on the ground in Lake Havasu City will choose from three concentrations, with the following job titles based on information from other universities with similar degrees:

- organizational behavior: knowledge manager, director of employee services, director of training, diversity specialist, performance evaluation specialist, community relations manager
- organizational leadership: director of youth development, sales manager, executive assistant, housing assistant, supervisor, service manager, deputy sheriff trainee, sales executive, knowledge manager, talent manager, organization development consultant
- project management: project manager, account manager, facilities manager, senior video producer

Political Science, BS (LSPOLBS)

Campus: Polytechnic

Program Description:

The BS in political science gives students the background and skills to gain employment in a relevant profession or to continue their studies in graduate programs in political science, in the social sciences or to pursue a particular discipline at a professional school. The program helps students understand the assumptions underlying political science and develop the research skills to analyze complex socio-political issues. Those objectives are accomplished by offering a flexible program and by providing students with both individual and group experiences working with faculty on concrete intellectual and policy issues.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The program serves as good preparation for staff, manager or policy analyst positions in local, state and federal government. This degree is recognized by employers as qualification for many careers in business (for-profit and nonprofit) and industry. Opportunities may include positions that involve binational, crossborder positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border.

Many students use the degree as a gateway to law school or a basis for further study in such applied fields as:

- community development
- political science
- public administration
- public policy
- social science
- urban affairs
- urban and regional planning

Contact Information:

Integrative Sciences and Arts, College of
College of Integrative Sciences and Arts

Science, Technology and Society, BS (ECSTSBS)

Campus: Polytechnic

Program Description:

Questions surrounding the interaction of science, technology and human systems are highly transdisciplinary and cultural, requiring analytical techniques that transcend space and time. Thus, the science, technology and society program stresses the need to step outside both disciplinary and cultural boxes in pursuit of knowledge. Accordingly, the program is heavy on cultural and information literacy and critical thinking. The primary goal is to produce generalists who understand the intricate interrelationship of science, technology and society and are armed with the technical skills to change their environment. The following three tracks are available:

- general science, technology and society
- global technology and development
- science, technology and governance

Students may use the general science, technology and society track to design targeted programs of their choosing, including premed and prelaw.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The bachelor's degree program in science, technology and society prepares professionals and scholars for careers in the 21st century world focusing primarily, but not exclusively, on the interaction of science and technology with human systems. The program focuses on the development of the technical skills required to audit social, political and policy impacts of technological advancement and the competence required to navigate questions surrounding the future trajectory of science and technology. Graduates are prepared for graduate or professional study or professional careers as:

- commercial and industrial designers
- compliance managers
- environmental restoration planners
- public relations specialists
- recycling coordinators
- regulatory affairs specialists
- sales representatives (wholesale, manufacturing, technical, scientific products)
- sustainability specialists
- training and development specialists
- transportation planners
- urban and regional planners

Technical Communication, BS (LSTECBS)

Campus: Polytechnic, Online

Program Description:

Technical communication is applied workplace communication that makes technical or specialized information understandable and available to many different users. It involves using a range of technologies to craft an ever expanding array of print and digital information products: websites, social media sites, help files, training materials, grants and proposals, and information graphics, to name just a few. Technical communicators work in many professional roles, such as information developers, grant writers, Web interface designers or usability experts. What all of these roles have in common is the focus on creating accessible and appealing communication that has a practical purpose and is intended for a particular audience. In the technical communication program, students learn how to write, design, produce and manage print and digital information using traditional and developing technologies.

The BS in technical communication in the College of Integrative Sciences and Arts is the only undergraduate technical communication degree program available in the state of Arizona.

Those interested in the technical communication online program may visit the ASU Online website for more information.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

The Bureau of Labor Statistics estimates that job growth in technical writing and related areas will continue to be significantly higher than average during the next five years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for writers. Students in the program will prepare for careers as:

- communications teachers (postsecondary)
- computer user support specialists
- copy writers
- desktop publishers
- editors
- media and communication workers
- proofreaders and copy markers
- public relations specialists
- reporters and correspondents

- technical writers
- Web developers
- writers and authors

Interdisciplinary Arts & Sciences, New College of

Applied Computing, BS (ASACOBS)

Campus: Lake Havasu, West

Program Description:

The School of Mathematical and Natural Sciences offers a BS degree in applied computing in the New College of Interdisciplinary Arts and Science at ASU's West campus.

Applied computing provides a foundation in computer science, combining technical computing skills with an understanding of the impact of computer science in real-world contexts.

The applied computing program's technical component is concerned with the design and use of appropriate systems and technologies, while its social sciences component is concerned with understanding how people seek, obtain, evaluate, use and categorize information.

Lower-division courses provide a computer science foundation, while upper-division courses emphasize database systems and computer networks. The program offers small class sizes and extensive opportunities for research, and requires an internship or research with a professor, typically completed during the senior year.

Graduates are prepared for graduate study as well as for entry-level employment in information technology roles in a variety of businesses, nonprofits, government agencies and academic institutions.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students are prepared to integrate technology with human activities, respond to global changes, solve problems, and create and manage the technological production of information and creative products. Core information technology industries are among the fastest growing sectors in the U.S. economy. Graduates will find employment opportunities with corporations and businesses, nonprofit and government agencies, digital arts

media industries and in the academic world.

Applied Mathematics, BS (ASMATBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS degree in applied mathematics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Applied mathematics is an interdisciplinary program that provides a broad and rigorous foundation in applied mathematics. It includes a foundation in computing and statistics as well as both theoretical and applied mathematics.

The program emphasizes quantitative problem-solving and critical thinking through courses that expose students to a variety of mathematical theories, techniques and applications currently used by analysts and researchers in government, industry and nonprofit organizations.

Students also complete a capstone project involving real-world problems under the supervision of an advisor and in close consultation with an external project sponsor.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates are prepared for entry-level positions in industry, finance, government, nonprofit organizations and education. They also may pursue advanced degrees in the mathematical sciences (e.g., mathematics, statistics and computer science), and their career interests would suggest the appropriate degree tracks and choice of courses, such as:

- applied mathematical networks
- financial mathematics
- general applied mathematics
- mathematical biology
- operations research

Applied Science, BAS (ASBASBAS)

Campus: West

Program Description:

The School of Humanities, Arts, and Cultural Studies offers a BAS degree in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program for students who have already earned an AAS degree allows students to apply the technical knowledge gained from their associate degree and significantly broaden their education.

The program offers several unique areas of concentration tailored to students' individual interests and career goals. These include business, communication, criminal justice, teaching, environmental issues, languages and cultures, and social sciences.

Students who have earned an AAS from an accredited institution may transfer up to 60 credit hours plus another 15 hours of general studies courses from an accredited Arizona community college. The program also includes a capstone project.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies (MA)

Interdisciplinary Studies (MA)

Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree. This program is not available for freshmen.

Career Opportunities:

Because the program allows students to tailor their concentration, graduates are prepared for a wide range of career opportunities as well as graduate programs in law, business, social sciences and education.

Biology, BA (ASLSCBA)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BA in biology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The biology program, with an emphasis in the natural sciences, examines the interdisciplinary nature of the life and physical sciences, focusing on the ways in which these disciplines intersect. The program's organization and flexibility allows students to simultaneously study another subject outside their major, and students are encouraged to minor or add a concurrent degree in another subject area.

Students gain hands-on experience as they work both in small groups and one-on-one with individual faculty members. Students may participate in cutting-edge scientific research by assisting in faculty research laboratories or even publish in top journals and present their results at regional and national scientific meetings.

Graduates are prepared for entry-level jobs in research, nonprofit, education and outreach organizations or other roles in the life sciences and for related graduate programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students have a wide variety of options, including pursuing graduate studies or seeking careers that include:

- environmental management and conservation
- health professional programs
- laboratory research
- primary and secondary school teaching
- science advisors to businesses and government
- science writing

Biology, BS (ASLSCBS)

Campus: Lake Havasu, West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in biology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The biology program, with an emphasis in the natural sciences, examines these disciplines through experiential learning, and all of the program's core courses include laboratories. By learning in an integrative environment that emphasizes the connectedness of the life sciences, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives.

Students are encouraged to conduct independent research under the mentorship of faculty members or during internships. Some even publish in top journals and present their results at scientific meetings.

Graduates are prepared for employment with state and federal agencies or private organizations such as biomedical laboratories and environmental consultancies, or to enter graduate or doctoral programs in human or veterinary medicine, pharmacy, dentistry or scientific research.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

The bachelor's degree in biology prepares students for a wide range of careers by offering course and laboratory work and quantitative research opportunities that develop fundamental problem-solving, critical thinking, writing and communication skills. Graduates may enter careers in:

- business
- laboratory or field research
- medicine
- publishing
- scientific journalism
- teaching

Undergraduate laboratory experience, both on and off campus, enhances employability as a laboratory technician or research associate in university and government research laboratories; in hospital and diagnostic laboratories; and in pharmaceutical, biotechnology, agricultural and food processing companies.

Students engaged in field studies are prepared for entry-level positions in private companies and state and federal agencies (e.g., wildlife biologist, environmental consultant or conservation officer).

Interdisciplinary Arts & Sciences, New College of
School of Mathematical and Natural Sciences

<https://newcollege.asu.edu/mathematical-natural-sciences-degree-programs>

FAB N100

mnsadvising@asu.edu

Biology (Environmental Science), BS (ASLSCEBS)

Campus: Lake Havasu, West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in biology with a concentration in environmental science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

All the core courses, which emphasize experiential learning, include required laboratories. By learning in an integrative environment that underscores the connectedness of these disciplines, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives. Students pursuing this concentration will take a more environmental science set of courses than those pursuing a BS in biology.

While the emphasis is on science, students will learn to approach environmental science from an interdisciplinary perspective, in part by studying environmental ethics and policy.

Graduates are prepared for entry-level employment in the growing field of environmental science (which includes environmental consulting, environmental remediation, natural resource management and more) as well as for graduate programs in environmental science or related disciplines.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

According to the 2010-2011 Occupational Outlook Handbook (U.S. Bureau of Labor Statistics, 2010), employment of environmental scientists is expected to grow by 28 percent between 2008 and 2018. This is far more rapid growth than the average rate of growth for all occupations. The handbook indicates most rapid growth will occur in the private sector (primarily, in private environmental consulting firms).

This concentration will allow students to tailor their courses of study to interests they possess in the science of the environment, to help prepare them for careers in the public and private sectors (e.g., in environmental consulting, environmental remediation, natural resource management, etc.) as well as entry into graduate programs in environmental science and related disciplines.

School of Mathematical and Natural Sciences

<https://newcollege.asu.edu/mathematical-natural-sciences-degree-programs>

FAB N100

mnsadvising@asu.edu

602-543-6050

Biology (Forensics), BS (ASLSCFBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in biology with a concentration in forensics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The forensics concentration emphasizes the study of scientific techniques used to solve crimes. Students pursuing the forensics concentration will take a more forensics-relevant set of courses than those students pursuing the BS degree in biology.

Much of the required course work will be completed in chemistry or biology lab science courses, to ensure that graduates of this program are more competitive as they apply to graduate degree programs, pursue relevant careers and enter the workforce.

Graduates are prepared to pursue careers in forensics laboratories and in the research and development of new criminal forensic technologies. Completion of the bachelor's degree in biology also ensures graduates are prepared for graduate, professional or medical degree programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates of this program will be able to pursue careers in forensics laboratories and in the research and development of new technologies in forensics. Graduates will be particularly competitive for positions in forensics laboratories because the concentration focuses heavily on chemistry and biology laboratory course work (areas that administrators and current employees in crime labs have reported are critically important). For example, as reliance upon DNA fingerprinting technologies increases, demand for forensic scientists trained in the requisite amounts of molecular biology will increase. The concentration also places focus on oral communication skills (e.g., through course work in argumentation, COM 222 Argumentation (3) or COM 422 Advanced Argumentation (3)), which will prepare graduates for the multifaceted aspects of their careers in forensics (e.g., providing articulate and compelling expert testimony in criminal trials). Graduates of this program will also be well positioned to enter graduate programs in forensic science.

602-543-6050

Biology (Pharmacology/Toxicology), BS (ASLSCPBS)

Campus: West

Program Description:

The intricate connections among biology, chemistry and physics form the basis of the biology curriculum. The BS program in biology emphasizes experiential learning, and all required core courses have laboratories. By learning in an integrative environment that emphasizes the connectedness of disciplines, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives. Undergraduates have the opportunity to conduct independent research under the mentorship of faculty members or in internships outside the school.

The pharmacology and toxicology concentration approaches the study of these disciplines from both the physiological as well as the biochemical perspective, with an emphasis on both the molecular and physiological components of drug and body interactions.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The bachelor's degree program in biology with a concentration in pharmacology and toxicology prepares students for possible careers as a:

- laboratory researcher
- pharmacist
- physician
- physician's assistant
- veterinarian

Graduates may work at governmental agencies or at private companies in areas such as:

- clinical trials
- product safety evaluation
- regulatory affairs
- teaching

Communication, BA (ASCOMMBA)

Campus: Lake Havasu, West

Program Description:

The School of Social and Behavioral Sciences offers a BA degree in communication in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The study of communication comprises research, practice and advocacy. Relying upon diverse competencies, it requires an understanding of what contributes to and detracts from effective human communication.

The course work and faculty-led research projects in the communications program cover an array of topics, including work and personal relationships, conflict resolution, social media and technology, global communication, communication philosophy, and risk and crisis communication. Students explore communication in organizations and interpersonal relationships; in public, political and social situations; and across cultures.

Graduates of this program are trained in effective communication skills, are able to write and speak well, and can convey complex ideas effectively. They are prepared for employment in communication-intensive fields or further graduate study.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies (MA)

Interdisciplinary Studies (MA)

Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Central Arizona College (<http://transfer.asu.edu/central-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

The Bachelor of Arts in communication is a broadly-based program that trains individuals to speak and write competently; manage relationships well; effectively problem-solve; and understand the role and function of communication in public forums, organizational settings, relational exchanges and intercultural situations. Because these skills are crucial to many professions, communication graduates work in a variety of fields, including:

- advertising
- customer service and customer relations
- education
- fundraising
- health and human services
- human resources
- international service
- legal professions

- lobbying
- management
- marketing
- media and public relations
- mediation
- ministry
- public administration
- public advocacy
- public office
- research
- sales
- social media design and implementation
- speech writing
- training and development

Communication, BS (ASCOMMBS)

Campus: Lake Havasu, West

Program Description:

The School of Social and Behavioral Sciences offers a BS degree in communication in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The study of communication comprises research, practice and advocacy. Relying upon diverse competencies, it requires an understanding of what contributes to and detracts from effective human communication.

The course work and faculty-led research projects in the communication program covers an array of topics, including work and personal relationships, conflict resolution, social media and technology, global communication, communication philosophy, and risk and crisis communication. Students explore communication in organizations and interpersonal relationships; in public, political and social situations; and across cultures. The Bachelor of Science degree differs from the Bachelor of Arts degree in that it requires two statistics courses.

Graduates of this program are trained in effective communication skills, are able to write and speak well, and can convey complex ideas effectively. They are prepared for employment in communication-intensive fields or further graduate study.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

English, BA (ASENGBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in English in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Students in this program learn not only how to write clearly and effectively but also to think critically and construct well-supported arguments.

The program stresses the formal aesthetic qualities of texts and the issues of class, gender, race and ethnicity relating to literary representation. Students will gain a familiarity with standard literary-critical terminology and an awareness of various theoretical approaches to literary study. Students will also become aware of uses of the English language in the U.S. and around the world.

The program provides students with a balanced overview of major literature in the English language and an awareness of the role of literary discourse in broader social and historical contexts.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

English (Secondary Education), BA (ASENGSEBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA degree in English with a concentration in secondary education in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program provides rigorous content in literature, composition, linguistics and secondary teaching, extensively preparing students to meet the needs of all student populations, including attention to levels of academic performance and cultural and linguistic diversity.

The demand for teachers in Arizona is high. Students will complete their teaching internship in school districts in the greater Phoenix area or on one of the 22 Native American nations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Environmental Science, BA (ASENVBA)

Campus: Lake Havasu, West

Program Description:

The BA program in environmental science prepares students to pursue careers in environmental science. The curriculum builds a strong foundation in the natural sciences to understand the biological and chemical functioning of our natural environment, with an additional emphasis on the social, political and economic dimensions of environmental science. The program also focuses on communication, management and planning skills that will prepare graduates for leadership careers in environmental science.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Ethnicity, Race and First Nations Studies, BA (ASETHBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in ethnicity, race and First Nations studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The first such program in Arizona, this program provides an integrated, comparative and comprehensive approach to the study of diversity among ethnic and racial groups and First Nations. A highlight of the program is the internship, which fosters direct links between the university and community-based settings. Both theoretical and applied perspectives are embedded in a curriculum addressing how ethnicity, race and First Nations shape identities, literacies, public policies and communities in local and transnational U.S. contexts. Students identify a career area enabling them to integrate their knowledge with specific course work tied to their career and advanced educational goals.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western

states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Exploratory Applied Computing, Mathematics and Technology, (ASACMTEXPL)

Campus: West

Program Description:

The exploratory applied computing, mathematics and technology track provides students with the opportunity to explore a variety of majors related to applied computing, mathematics and technology professions.

Many students are not ready to choose a specific academic program of study when first entering the university. Exploratory programs provide an opportunity to discover the options available at ASU and students are provided the time, resources and guidance needed to assess their skills, interests and aptitudes. Declaring exploratory status permits students to begin meeting General Studies requirements that all ASU graduates must fulfill. It also allows students to take some time to explore a variety of academic courses that may lead to a potential major interest.

Forensics, BS (ASFOREBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in forensics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Forensics is the study and application of scientific methods to matters of law. The forensics program emphasizes laboratory course work in chemistry and biology, as both areas provide essential experience with techniques commonly used in crime labs. Rigorous course work in the natural and mathematical sciences is required to ensure graduates are competitive in the workforce. The program is enhanced by a focus on oral communication skills that help prepare graduates for the multifaceted, transdisciplinary aspects of careers in forensic science, such as providing articulate expert witness testimony. If pursuing a career as a forensic DNA analyst, nine cumulative hours of course work in biochemistry, molecular biology and genetics is required; course work in population genetics is desirable. Employers may require documentation for completed course work, such as an official course syllabus.

Forensics students may apply for and participate in internships sponsored by metropolitan Phoenix area crime labs. Internships are competitive and the application process takes time. Fall semester internships generally require application in the spring semester prior, and spring or summer semester internships generally require application by the start of the fall semester. Internship positions are unpaid and require concurrent enrollment in FOR 484 Internship. Students must also have a faculty mentor and abide by all internship standards for the school and the location where the internship is held. Students may also participate in cutting-edge research with a faculty mentor either as a volunteer in the faculty member's lab or by registering for FOR 499 Individualized Instruction. For more information, see an academic advisor.

Job applicants and students seeking a volunteer or internship position within a crime lab may be required to undergo an extensive background check that includes a polygraph exam (commonly known as a lie detector test), fingerprinting and drug testing. Actions that can disqualify an applicant include but are not limited to: recent or past illicit drug use, felony convictions and drunk driving convictions.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Forensics graduates are prepared to enter the workforce with crime labs and private forensic science labs at the local, state and federal levels. Graduates also are prepared for graduate programs in forensic science, law school, medical school and related fields. As of fall 2015, 40 percent of ASU's forensics graduates were employed in the field or were in graduate school, and a quarter of students who applied to graduate in fall 2015 received offers of employment in the field prior to graduation.

History, BA (ASHISBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in history in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The history degree program provides a strong foundation for understanding the forces of change that shape society, the marketplace and people's lives. The program introduces students to a broad span of history that covers the ancient world through the modern period and extends from Europe to Latin America and the United States. In addition to learning about the origins and development of various peoples, ideas and institutions of the past, students engage in the practice of history by learning to conduct original research, analyze historical evidence and formulate arguments using historiographical perspectives and methodological approaches.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. History (Secondary Education), BA (ASHISSEBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in history with a secondary education concentration in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

For students considering a career in education, this flexible program fully prepares students for teaching and certification while providing all the disciplinary knowledge of a traditional history degree. Students will understand history in all its breadth and depth while developing strong critical reading, writing and research skills as well as skills in oral presentation.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates possess the strong, practical teaching tools necessary to successfully teach middle or high school students. With the ability to find and evaluate evidence, form arguments and present analysis, graduates are well-suited for careers in a wide range of industries and have a solid foundation for graduate work in teaching, law, business and other fields.

Interdisciplinary Arts and Performance, BA (ASIAPBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in interdisciplinary arts and performance in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Interdisciplinary arts and performance students engage with faculty in collaborative investigation of many disciplines, preparing for our complex and

changing world through current approaches to artistic and aesthetic research. Students engage in practical and theoretical studies of visual, sonic, performance and interactive arts to become versatile artists. With skill sets preparing them for professional and entrepreneurial opportunities, students can tap into evolving marketplaces and expanding fields of arts research and practice.

Students who major in interdisciplinary arts and performance receive extensive preparation for careers as artists, performers and creative professionals, and develop critical backgrounds useful for becoming future teachers and scholars.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies (MA)

Interdisciplinary Studies (MA)

Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

Since 1992, graduates of this nationally recognized program are prepared for advanced study in the performing arts, visual arts, interactive arts or arts-related professions in digital design, film editing, set and lighting design, theatre, sound arts, toy development, board game development and video game development.

Interdisciplinary arts and performance students have gone on to careers such as visual artist, art administrator, art therapist, digital designer, film and video editor, arts writer and critic, composer, theatre artist, illustrator, set and lighting designer, performing artist, sound artist, recording artist and studio professional, videographer, game tester, board game developer and video game designer.

Interdisciplinary Arts and Sciences, BA (ASIASBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in interdisciplinary arts and sciences in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program is a variation of the classic liberal arts degree, as students combine lower-division foundational courses with upper-division courses in a specific area of concentration unique to their interests and career goals. The concentration can include but is not limited to: business, communication, criminal justice, education, environmental issues and physical sciences, languages and cultures, and social sciences and policy issues. The program culminates with a capstone internship experience.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies (MA)

Interdisciplinary Studies (MA)

Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

Emphasizing interdisciplinary study combined with a specific area of concentration (e.g., business, communication studies, English, gerontology, history, psychology or preprofessional studies), students tailor their programs to meet individualized career goals. The capstone internship program prepares students to make the transition smoothly to graduate school or postbaccalaureate employment in:

- business settings
- community settings
- cultural settings
- educational settings
- social sciences and human service settings

Students planning graduate or professional degrees in law, business, helping professions or in traditional disciplines benefit from the flexibility of

this program for a broad range of future academic and career pursuits.

Latin American Studies, BA (ASLASBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in Latin American studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Unlike programs that are predominantly based on social science and taught in English, this program fosters language and cultural knowledge beyond print literature and is unique in its inclusion of the arts and sciences.

The program allows students to immerse themselves in content courses while honing their language skills, and it provides a broad foundation for students to study Latin America, the United States and the Iberian Peninsula.

Students can choose from five tracks: the arts; narrative (literature and film); history and political science; education and linguistics; sociology and anthropology.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Philosophy, Religion and Society, BA (ASRELBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in philosophy, religion and society in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The program comprises historical, theoretical and practical perspectives on philosophy, religion and social ethics and emphasizes social and political concerns by putting the studies of philosophy and religion into action. This interdisciplinary degree offers three areas of concentration: applied ethics, continental philosophy and religious studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Political Science, BA (ASPOLBA)

Campus: Lake Havasu, West

Program Description:

The School of Social and Behavioral Sciences offers a BA in political science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Political science is the study of governmental practices, politics and theories. Course work in the political science program covers American institutions, international relations, political theory and world affairs.

The program helps students gain a basic understanding of the assumptions underlying political science and develop the necessary research skills for analyzing complex sociopolitical issues. In addition to course work, students learn through internships, service-learning and research opportunities.

Graduates of this program are prepared for work as analysts or aides in local, state or national legislative offices, among other roles. Many graduates go on to law school or graduate programs in political science, social science, urban planning or public administration.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The political science curriculum provides a solid background for employment in a relevant profession and prepares students for graduate work in:

- political science
- professional schools
- social science disciplines
- urban planning

The program serves as a good precursor to staff, manager or policy analyst positions in local, state and federal government. This degree is recognized as qualification for many careers in business (for-profit and nonprofit) and industry.

Work may include binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border. Many students use the degree as a gateway to law school or basis for further study in such applied fields as:

- community development
- public administration
- public policy
- urban affairs and urban and regional planning

Political Science, BS (ASPOLBS)

Campus: West

Program Description:

The School of Social and Behavioral Sciences offers a BS in political science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Political science is the study of governmental practices, politics and theories. Course work in the political science program covers American institutions, international relations, political theory and world affairs.

The program helps students gain a basic understanding of the assumptions underlying political science and develops the necessary research skills for analyzing complex sociopolitical issues. In addition to course work, students learn through internships, service-learning and research opportunities. The BS degree differs from the BA degree in that it requires an additional statistics course and a methods course.

Graduates of this program are prepared for work as analysts or aides in local, state or national legislative offices, among other roles. Many graduates go on to law school or graduate programs in political science, social science, urban planning or public administration.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Psychology, BA (ASPGSBA)

Campus: Lake Havasu, West, Online

Program Description:

The School of Social and Behavioral Sciences offers a BA in psychology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Psychology is the scientific study of human behavior. This diverse field includes mental health and counseling as well as child development, neuroscience and brain function, memory and decision-making, behavior analysis, statistics and more. It also crosses over into other disciplines such as medicine, the law, business and economics.

The psychology program --- which emphasizes critical thinking and reasoning, quantitative research methods and writing --- goes beyond the classroom, adding practical experiences through internships, service-learning and faculty-supervised research. (Note: Some opportunities are not available to students enrolled in the degree offered through ASU Online.)

Graduates are prepared for graduate programs in psychology or other areas as well as professional employment.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies (MA)

Interdisciplinary Studies (MA)

Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Social and Behavioral Sciences, BA (ASSBSBA)

Campus: West

Program Description:

The School of Social and Behavioral Sciences offers a BA in social and behavioral sciences in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The social and behavioral sciences curriculum provides an understanding of assumptions underlying the social and behavioral sciences; develops the students' research skills necessary for analysis of complex social issues; offers a flexible program tailored to the career goals of the individual student; and offers individual and group experiences in working with faculty on concrete intellectual and policy issues.

The core courses provide students a background suitable to helping them better understand psychological and social principles related to the behavior of individuals across multiple social contexts and institutions (e.g., family, community, society and culture).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Students who select the individual and behavior theme area will need to have completed MAT 170 in order to meet the prerequisite requirements of courses in that area.

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Communication Studies (MA)
- Interdisciplinary Studies (MA)
- Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The interdisciplinary degree is an excellent option that matches the individual's interests and fulfills many employers' expectations of a bachelor's degree; namely, that it should expose the student to a variety of outlooks and challenges.

Such a degree will be competitive in most situations where the disciplinary social and behavioral degrees are accepted and is advantageous when

seeking entry to broad professional programs such as regional planning or urban studies.

The core courses provide students a background suitable to helping them better understand psychological and social principles related to the behavior of individuals across multiple social contexts and institutions (e.g., community, culture, family and society). The BS degree differs from the BA degree in that it requires an additional statistics course.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Students who select the individual and behavior theme area will need to have completed MAT 170 in order to meet the prerequisite requirements of courses in that theme.

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Communication Studies (MA)
- Interdisciplinary Studies (MA)
- Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The interdisciplinary degree is an excellent option that matches the individual's interests and fulfills many employers' expectations of a bachelor's degree; namely, that it should expose the student to a variety of outlooks and challenges.

Such a degree will be competitive in most situations where the disciplinary social and behavioral degrees are accepted and is advantageous when seeking entry to broad professional programs such as regional planning or urban studies.

Social and Cultural Analysis (American Studies), BA (ASSCAASBA)

Campus: West

Program Description:

The BA program in Social and Cultural Analysis with a concentration in American studies engages in the transdisciplinary and comparative study of the United States as a cultural and political site of ongoing change and conflict. Students learn diverse methods to analyze the nation-making processes of migration, nationalist politics, public and private cultural practices and transnationalism in keeping with the creative and critical scholarship of the discipline. The curriculum also brings attention to identity formations around gender, sexuality, race and ethnicity. As a transdisciplinary field, American studies unites the social sciences, the humanities and the arts together to stimulate students to have rigorous and adventurous conversations on American culture, politics and history, exploring knowledge beyond disciplinary boundaries, bringing differing perspectives and understandings into dialogue with one another, and generating a unique level of intellectual rigor and excitement.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Social and Cultural Analysis (Ethnicity, Race and Indigenous Studies), BA (ASSCAERBA)

Campus: West

Program Description:

The BA program in Social and Cultural Analysis with a concentration in ethnicity, race and indigenous studies combines transdisciplinary topics and methods to critically analyze relationships among individuals, groups, institutions, governments, economies and environments. This concentration enriches the study of individual racialized and indigenous groups by drawing upon theories, methods and pedagogies in ethnicity, race and indigenous studies, while engaging complementary fields of literature, history, sociology, oral history, sexuality, queer studies, social justice, transnational and cultural studies. Course work in the concentration will be grounded in a deep understanding of the particular historical, social, economic, cultural and political experiences of individual racialized groups as well as an analysis of the relationships among them.

Social and Cultural Analysis (Latin American Studies), BA (ASSCALABA)

Campus: West

Program Description:

The BA program in Social and Cultural Analysis with a concentration in Latin American studies provides a broad and vibrant framework for studying the diverse societies of Latin America, including diasporic communities, and presents rich opportunities for cross-cultural study. The program is designed to provide a transdisciplinary approach to the literature, film, history, politics and culture of both Latin America and Latinas/os living in the U.S. The concentration will prepare students for graduate studies in a variety of disciplines as well as to enter a career in public service, education, business, humanitarian work, law or health care.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Social and Cultural Analysis (Peace Studies), BA (ASSCAPSBA)

Campus: West

Program Description:

The BA program in Social and Cultural Analysis with a concentration in peace studies is a unique, transdisciplinary offering, fostering critical investigation of peace primarily, but not exclusively, through a humanities lens and providing an analysis of its connection to issues such as gender, ethnicity, race and religion. Students will learn many approaches to and perspectives on peace, including theories and practices of peace building, nonviolence, and conflict avoidance and resolution as the program builds on the expertise of humanities and social sciences faculty in fields such as history, linguistics, literature, ethics, philosophy, sociology, ethnic studies and women and gender studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Career Opportunities:

There is a growing concern for peacebuilding within social and political institutions. As a consequence, numerous jobs now exist in peace-related sectors. Graduates of the Social and Cultural Analysis BA program with a concentration in peace studies will be prepared with the skills and knowledge necessary for graduate work as well as careers in government, education, business and nonprofit organizations. Knowledge gained can be applied toward professional and personal advancement in education, writing, policy, law, cross-cultural communication, ethics and work with nongovernmental organizations. Due to the emphasis on the social aspects of peace, diversity, and identity, students will develop an awareness of the needs of diverse populations and the discourses that help create a culture of peace. Graduates will be able to apply their knowledge to areas as diverse as the following:

- civil rights organizations
- colleges and universities
- corporations
- government agencies
- law firms
- libraries
- museums
- non-governmental organizations (NGO)
- Peace Corps
- political action groups
- public relation firms

Social and Cultural Analysis (Queer and Sexuality Studies), BA (ASSCAQSBA)

Campus: West

Program Description:

The BA program in Social and Cultural Analysis with a concentration in queer and sexuality studies combines transdisciplinary topics and methods to critically analyze the function of ideologies of sexuality; the history and present conditions of sexual identity formation; structural inequalities and queer resistance to those same inequalities; and the diversity of LGBTQA communities. Drawing from the premise that sex, gender and sexual orientation are both private experiences as well as profoundly political and public issues with important legal, social and cultural implications, the intellectual core of this program draws from theories, methods and pedagogies in queer theory and sexuality studies while engaging complementary fields of social justice, cultural studies, women's studies, gender studies, literature, history, sociology, psychology and transnational studies. Areas of emphasis include sexuality in culture, transnational queer studies, queer social movements and resistance, sexual fluidity, trans studies and critical heterosexualities.

states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Social and Cultural Analysis (Women and Gender Studies), BA (ASSCAWSBA)

Campus: West

Program Description:

The BA program in Social and Cultural Analysis with a concentration in women and gender studies offers students a transdisciplinary curriculum that focuses on the diverse experiences of women in both national and international contexts. The program also examines the meaning of gender as a socially constructed category that shapes personal identities, beliefs, opportunities and behaviors. The wide range of classes explores the intersections of gender, race, class and sexuality; the institutional structures that have an impact on women's and men's lives; and the broad range of feminist theories that seek to explain and influence women's status in society. Areas of emphasis include gender and sexuality, critical race feminisms, gender and the borderlands, transnational feminisms, social activism and social movements, histories of feminism and critical embodiment studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Sociology, BA (ASSOCBA)

Campus: Lake Havasu, West

Program Description:

The School of Social and Behavioral Sciences offers a BA in sociology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Sociology is the study of the organization and development of societies and the institutions within them. The sociology program helps students better understand the development, structure, interaction and collective behavior of organized groups. The program explores the theories, practices and policies underlying the issues of social change, inequality and diversity.

This is a flexible program that provides opportunities for students to work collaboratively with faculty on intellectual and policy issues and helps them develop the research skills necessary for the analysis of complex social issues.

Graduates are prepared for employment in corporate or governmental organizations or to continue their studies in graduate programs in sociology, social science or professional schools.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

Graduates apply the sociological perspective to a wide variety of jobs in:

- business and management
- government
- social services
- the criminal justice system
- the health professions

Course work in sociology provides a valuable preparation for careers in:

- journalism
- law
- politics
- public administration
- public relations
- nonprofit sector

These are all fields that involve investigative skills and an ability to work with diverse groups. Graduates with an advanced degree in sociology may become:

- community developers
- criminologists
- demographers
- gerontologists
- research analysts
- statisticians
- survey researchers
- urban planners

Career Opportunities:

The Spanish program offers excellent preparation for graduate school or for employment as a teacher in the elementary or secondary school system, especially in those districts where bilingual programs are integral to the curricula. Outside the education system, students majoring in Spanish can find employment as translators and interpreters in:

- diplomatic corps
- federal and state courts
- law enforcement agencies
- law firms
- social agencies

The business world also provides employment for those fluent in Spanish. This is especially true in the American Southwest, with its proximity to Mexico, and through outlets opened by the tri-national North American Free Trade Agreement.

Statistics, BS (ASSTABS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in statistics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program is the only Bachelor of Science degree in statistics in the state of Arizona.

Statisticians collect, analyze and interpret data from experiments and surveys. Their work is critical in helping individuals and organizations better understand the information contained in the data.

Emphasizing the practical application of statistics, this program builds upon the foundation of mathematics and computing to study concepts in theoretical and applied statistics.

Students must select one focus area and complete a minimum of nine credit hours (three courses) from that focus area. The focus area courses are in addition to the general studies requirements. Students should consult with an academic advisor in the School of Mathematical and Natural Sciences before enrolling in any focus area course.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

In the era of big data, there is great demand for individuals with all levels of statistical training. Graduates of this program leave with an understanding of the transdisciplinary nature of statistics and are prepared for graduate study in statistics and related fields or for entry-level positions in a variety of fields, including business, government and the natural and social sciences.

Statisticians are in high demand in many areas of industry, government and academia. Some areas with particularly high demand include:

- finance
- manufacturing
- medical
- pharmaceutical

Women and Gender Studies, BA (ASWSTBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in women and gender studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This is an interdisciplinary program emphasizing intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts.

Consistent with the university's design imperatives of social embeddedness and use-inspired research, the program's course offerings, research initiatives and cocurricular programs further the understanding of women and gender and promote social justice.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Women and Gender Studies, BS (ASWSTBS)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BS in women and gender studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This interdisciplinary program, with a qualitative emphasis, explores intersectional approaches to the study of gender, race, class, ethnicity, and sexuality in national and transnational contexts.

Consistent with the university's design imperatives of social embeddedness and use-inspired research, the program's course offerings, research initiatives and cocurricular programs further the understanding of women and gender and promote social justice. Students gain a solid knowledge base and educational foundation as well as the critical-thinking skills necessary for dealing with changing gender roles in society.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies (MA)

Interdisciplinary Studies (MA)

Social Justice and Human Rights (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

Graduates are prepared for further study in graduate or professional programs as well as for careers in a variety of settings, including health care services, human resources development, public and business administration and social services.

Journalism & Mass Communication, Walter Cronkite School of

Journalism and Mass Communication, BA (CSJMCBA)

Campus: Downtown Phoenix

Program Description:

The journalism major at Arizona State University's Walter Cronkite School of Journalism and Mass Communication, one of the best journalism schools in the country, is a highly professional, hands-on journalism and mass communication degree program that prepares students for careers in media.

Undergraduate students at the journalism school learn the values and principles that have long formed the core of the journalism profession, and they master the highly specialized, practical skills needed to succeed in today's digital world and start a career in journalism.

High-performing students can apply to the school's accelerated bachelor's degree and master's degree program, which allows for the completion of both degrees in five years. They can also become part of ASU's Barrett, The Honors College.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics
or any MAT course that satisfies the math requirement

Program Math Intensity: General

Concurrent Degrees:

This degree is also offered as concurrent degree with:

- Geography (Meteorology-Climatology), BS
- Graphic Information Technology, BS
- Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA
- Transborder Chicana/o and Latina/o Studies (Transborder Community Development and Health), BA
- Transborder Chicana/o and Latina/o Studies (US and Mexican Regional Immigration Policy and Economy), BA

Accelerated Degrees:

This degree is also offered as an accelerated degree with Master of Mass Communication (MMC)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The Bachelor of Arts in journalism and mass communication degree program has higher admission requirements and an application deadline of June 1 for fall. Students should select a second choice major on the application. All applicants will be reviewed by the school. Those who are not admitted to the Cronkite School will, if eligible, be admitted to their second choice major.

Freshman applicants must meet all of the following standards:

- have a 3.00 (4.00 = "A") ABOR GPA
- have no English competency deficiencies
- 1040 SAT Reasoning if taken before March 2016 or 1120 SAT Reasoning if taken after March 2016 or 22 ACT score

Transfer students (with 12 or more transfer hours after high school graduation) are required to have a cumulative transfer GPA of 3.00 or higher and no English competency deficiencies. Transfer students should contact the school for additional steps after admission to ASU. For more information regarding transfer admission see http://cronkite.asu.edu/undergrad/xfer_major_change.php (http://cronkite.asu.edu/undergrad/xfer_major_change.php).

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- 3.75 minimum ABOR GPA
- no English competency deficiencies
- 1040 SAT Reasoning if taken before March 2016 or 1120 SAT Reasoning if taken after March 2016 or 22 ACT score

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

ASU students:

ASU students who would like to change their majors to one of the concurrent programs in journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's non-elective General Studies requirements.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Walter Cronkite School of Journalism and Mass Communication graduates work for:

- corporate and business communication divisions
- magazines
- newspapers, radio and television stations
- online services
- public relations firms

Positions include:

- editors
- media managers
- photojournalists
- reporters
- writers

Mass Communication and Media Studies, BA (CSMCMSTBA)

Campus: Online

Program Description:

The online program for the BA in mass communication and media studies gives students a deep and nuanced understanding of the growing importance, power and influence and the changing nature of media in the world. The program explores global mass communication issues from all dimensions: societal, cultural, historical, political, economic, technological and legal. The program is built upon courses that are part of the Cronkite School's minor in media analysis.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics
or any MAT course that satisfies the math requirement

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Sports Journalism, BA (CSSPJBA)

Campus: Downtown Phoenix

Program Description:

Sports journalism is the fastest-growing sector of the news media industry, with continued growth on all platforms --- specialty magazines, multimedia outlets, and TV channels and networks. The Walter Cronkite School of Journalism and Mass Communication's sports journalism program gives students unparalleled preparation for careers in sports media and communications through courses such as sports writing, sports photography, sports strategic communications, and ethics and diversity in sports. Students in the program cover Major League Baseball spring training, the Olympics and other major sporting events for major market media partners. Students also complete an internship and intensive professional experience in the school's Phoenix or Los Angeles sports bureau.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

or any MAT course that satisfies the math requirement

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

To be eligible for admission to the journalism school, entering freshmen must have a minimum 3.00 ABOR high school GPA AND no English competency deficiencies (four years of English) AND meet one of the following criteria: an SAT reasoning score of at least 1040 if taken before March 2016 or an 1120 SAT reasoning score if taken after March 2016 OR an ACT score of at least 22. Eligible students are directly admitted to the school and do not need to submit any additional materials.

International students must also take the TOEFL and meet the Cronkite School's required score on this test. Transfer students who would like to major in journalism and mass communication at ASU must have at least a 3.00 transfer GPA.

ASU students who would like to change their majors to journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective general studies requirements. MCO 120, an introductory course for nonmajors, can count in place of JMC 110.

Career Opportunities:

Students in the sports journalism program will be prepared for careers in all aspects of the media including print, broadcast, online and mobile. Positions include sports writers, reporters, producers, television anchors, multimedia associates, social media specialists, and strategic communications and public relations project coordinators.

Liberal Arts & Sciences, College of

Actuarial Science, BS (LAACTBS)

Campus: Tempe

Program Description:

Risk is a part of daily life. Actuarial science majors learn to use tools from mathematics, statistics and finance to measure the impact of risk in order to improve forecasting and decision-making in business and government.

Actuary is consistently rated as one of the top jobs in the United States, and for good reason. Actuaries enjoy an excellent starting salary, exceptional job security with numerous opportunities for career growth and no graduate degree is required. Actuaries must pass a series of intensive professional exams to become credentialed. The BS program in actuarial science at ASU prepares students for the credentialing exams and provides the tools to succeed in this dynamic career.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Wherever there is risk, there are opportunities to be an actuary. Many actuaries work with insurance companies to calculate premiums, determine reserves needed to ensure an organization's financial health and to make sure organizations conform to stringent, complex legal mandates. Others help companies to establish retirement plans or are employed as consultants. With a Bachelor of Science degree in actuarial science, students acquire skills that are transferable to any industry and any organization that requires risk modeling and management, including:

- accounting firms

- colleges and universities
- energy, such as utilities, oil and gas
- environment (on issues such as climate change and the financial impact or risk of extreme events)
- financial services, such as banking and investment management
- government agencies such as Social Security, the Department of Labor and Medicare (to manage social programs and to develop regulations and legislation)
- transportation, such as shipping and air travel

Students can also apply the advanced problem-solving skills learned in the actuarial science undergraduate program to a variety of other professional careers, including:

- analysts
- business operations specialists
- career advisers
- consultants
- teachers

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
 Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Because of its emphasis on various social aspects and groups, the African and African American studies program provides students with practical applications useful for various workplaces. This program helps students develop cultural sensitivity and prepares them for careers in:

- administration
- advertising
- business
- counseling
- education
- human resources
- international relations
- journalism
- justice
- management
- travel

Our program prepares students for work in:

- civil rights organizations
- colleges and universities
- corporations
- government agencies
- hotel chains
- law firms
- libraries
- museums
- nonprofit organizations
- political action groups
- public relation firms
- research organizations
- sales departments
- social service agencies
- the insurance industry
- the Peace Corps
- travel agencies

American Indian Studies, BS (LAAISBS)

Campus: Tempe

Program Description:

The BS program in American Indian studies provides students with unique opportunities to evaluate issues of American Indian nations within domestic and international contexts. The bachelor's degree program in American Indian studies encompasses two areas of emphasis: legal, policy, and community and economic development; and arts, languages and culture. The American Indian studies program is committed to broadening the knowledge of students interested in the histories, languages, cultures, arts and contemporary situations of American Indian nations and people. The program is designed to protect the integrity and identity of the indigenous populations of North America and to create a learning environment conducive to critical and creative thought.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- American Indian Studies (Indigenous Rights and Social Justice) (MS)
- American Indian Studies (Tribal Leadership and Governance) (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their

academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates of American Indian studies will be qualified to fill positions at the tribal, state and federal government levels and in the private sector.

Graduates can advance to graduate school or can pursue professional careers in such fields as government service or public service. For example, federally and tribally operated schools located in remote areas within Indian Country have high turnover rates for both teachers and staff. American Indian studies graduates should be available to help fill these positions. Furthermore, the federal government, a major employer on many reservations across the country, is in need of qualified people who are knowledgeable of Indian cultures, laws and policies. Additionally, many American Indian nations' economies and infrastructures are developing at a rapid pace, and they are in continuous need to fill mid-management and management-level positions.

Graduates find positions in many areas, such as:

- casino employment
- community action work
- public administration (tribal or state relations, nonprofit management, education administration, planner)
- public health
- the arts
- tribal employment (political office, tribal management, cultural resource programming, grant writer, cultural specialist, youth services)

This program also provides suitable preparation for graduate study or law school.

Anthropology, BA (LAASBBA)

Campus: Tempe, Online

Program Description:

Anthropology helps students develop strong critical-thinking and oral and written expression skills, important for success in many career areas. The BA program in anthropology gives students an opportunity to learn how and why humans evolved and how our evolutionary biological, social and cultural trajectories help us understand the meaning of being human in past, present and future environments.

Anthropology majors learn how to use the scientific method to formulate and test hypotheses and gather qualitative and quantitative data through participant observation, interviewing, ethnographic study, careful excavation and measurement. They also learn how to employ statistics to analyze and extract meaning from data.

A special feature of the ASU anthropology program is its relevance to other disciplines and many exciting hands-on learning opportunities in laboratories and through study abroad and field-based courses.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in anthropology will increasingly be sought for their broad, holistic knowledge and perspective of understanding, which are the hallmarks of anthropology. Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- modeling infectious diseases
- planning communities
- postgraduate academic research and teaching
- professional employment in heritage (cultural resource) management in private or public sectors
- providing health care as nurses, doctors or public or global health professionals

Applied Mathematics for Life and Social Sciences, BS (LAAMLBS)

Campus: Tempe

Program Description:

The BS program in applied mathematics for the life and social sciences offers a challenging and exciting curriculum that investigates and integrates complex areas of the physical, life and social sciences while preparing a new generation skilled in the use of theories and techniques such as mathematical modeling and computational methods to solve practical real-world problems.

The program focuses on the development of critical-thinking skills and purposeful competencies in mathematics. It instills an appreciation for the contributions of mathematics to the fields of sciences, engineering, business, government and economics. Course work is directed toward an understanding of mathematical theory and its relation to other fields of studies. Emphasis is placed on precision of definition, reasoning to accurate conclusions, and analyzing and developing solutions to problems using mathematical principles.

Career Opportunities:

The bachelor's degree in applied mathematics for the life and social sciences indicates students entering the environmental, life, health, mathematical and social science fields possess the quantitative, scientific and analytical skills that are critical for professionals working in these areas.

The need for quantitatively trained scientists and professionals in the life and social sciences is strong in Arizona and the nation. This degree's applied use of mathematics, modeling, statistics and simulation methodologies are in high demand and provide excellent training for future academics and professionals in industries including:

- astrophysics
- biostatistics
- chemical engineering
- communications
- computational biology
- computer animation
- data mining
- demography
- digital and medical imaging
- e-commerce
- education

Asia Studies (Southeast Asia), BA (LAHSTSEABA)

Campus: Tempe

Program Description:

The BA program in Asia studies offers students the opportunity to study East Asia, South Asia or Southeast Asia in depth through a coherent curriculum of academic study across a number of disciplines. The transdisciplinary approach prepares students with a variety of intellectual tools to address contemporary political, social and cultural issues in Asia and knowledge useful in various academic and practical settings. Students identify which concentration (East, South or Southeast Asia) they will pursue.

The concentration in Southeast Asia is especially diverse and includes:

- Brunei
- Burma/Myanmar
- Cambodia
- East Timor
- Indonesia
- Laos
- Malaysia
- Singapore
- Thailand
- the Philippines
- Vietnam

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

People knowledgeable about Asia will be required in virtually every arena in which America interacts with the rest of the world, including:

- communication
- diplomacy
- food security
- higher education
- humanitarian service
- intelligence
- international organizations
- journalism
- law
- law enforcement
- military studies
- philanthropy
- technology transfer
- tourism
- trade
- transportation

Asian Languages (Chinese), BA (LACHIBA)

Campus: Tempe

Program Description:

The BA program in Asian languages with a concentration in Chinese emphasizes proficiency in reading, writing and speaking Mandarin and in reading classical Chinese. It provides an in-depth understanding of the fundamentals of the rich Chinese cultural tradition, centered on primary Chinese texts (in Chinese and in English translation) from the literary, intellectual and religious cultures of Chinese-speaking societies. These texts include visual and written materials on, among other things:

- linguistics
- literary theory and history
- media
- religions and thought
- urban culture

Students in the program have a number of options available to enhance their education through study abroad: <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>). Highly-motivated students interested in learning Chinese to professional-level proficiency are encouraged to inquire about the Chinese Language Flagship Program: <https://international.clas.asu.edu/chineseflagship> (<https://international.clas.asu.edu/chineseflagship>). All students with higher levels of linguistic competency may enroll in targeted courses (conducted in Chinese) offered as part of the Chinese Flagship track.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Language-intensive careers include:

- foreign correspondent or media professional
- foreign service officer
- health professional
- intelligence officer
- international banking and finance professional
- international businessperson
- language teacher
- law and immigration professional
- multilingual administrative professional
- nongovernmental organization professional
- professor of language, literature and culture
- social services professional
- translator or interpreter
- travel professional

Career fields and occupations using languages include:

- advertising, marketing or communications
- airline industry
- film, television or multimedia
- foreign correspondence or journalism
- hospitality industry
- hotel and resort management
- intelligence
- international education and study abroad administration
- international law
- military
- ministry
- public relations
- publishing
- technology industries

Additional education and certification may be required for some career paths.

Asian Languages (Japanese), BA (LAJPNBA)

Campus: Tempe

Program Description:

Students in the BA program in Asian languages with a concentration in Japanese study the language, literature and culture of Japan and gain a respectable measure of competence in reading, writing, oral and aural skills in the Japanese language. Students also gain linguistic and cultural competence through the required study of classical Japanese. Throughout the program, students take courses in either Chinese or Korean language or culture and related courses in Japanese and East Asian culture on topics such as:

- art
- government
- Japanese history
- linguistics
- literary and cultural theory
- religion

In addition, ASU offers summer or yearlong programs to study abroad in Japan. More information on study abroad opportunities is available at <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Asian Pacific American Studies, BA (LAAPABA)

Campus: Tempe

Program Description:

The BA program in Asian Pacific American studies provides an opportunity for students to study the long history and rich contemporary experiences, cultures and communities of Asian Pacific Americans in the Southwest with dedicated, inspiring faculty. A liberal arts emphasis on critical thinking, complex reasoning and solid writing skills prepares students to engage in research that will inform meaningful dialogues between policymakers, educators and society at large about Asian American and Pacific Islander communities for years to come. The Asian Pacific American Studies program is housed in ASU's School of Social Transformation, the only school of its kind in the United States.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:
 All students are required to meet general university admission requirements.

Biochemistry, BA (LABCHBA)

Campus: Tempe

Program Description:

The BA program in biochemistry provides students with a course of study in the chemical processes of living organisms. Discoveries of new drugs, the recognition and control of new pathogens, development of new catalysts for energy transformations and the production of new materials, and solutions to problems such as food production and environmental remediation depend upon a thorough grounding in this area.

This program is a flexible option for students interested in a liberal arts degree with a strong grounding in physical science. It is ideal for students seeking to complete two degrees. Students wishing to pursue a scientific graduate degree should consider the BS in biochemistry.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 251 - Calculus for Life Sciences

Students may complete MAT 270 Calculus with Analytic Geometry I, MA (4) in lieu of MAT 251 Calculus for Life Sciences, MA (3)

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

A solid undergraduate education in biochemistry provides the necessary background for career paths in areas such as:

- chemical industries
- government
- health care
- research
- teaching

Students often study biochemistry with supporting work in biology and chemistry as the route for preprofessional training for careers in these fields:

- dentistry
- medicine
- pharmacy
- veterinary

Biochemistry, BS (LABCHBS)

Campus: Tempe

Program Description:

The BS program in biochemistry provides students with a course of study in the chemical processes of living organisms. Discoveries of new drugs, the recognition and control of new pathogens, development of new catalysts for energy transformations and the production of new materials, and solutions to problems such as food production and environmental remediation depend upon a thorough grounding in this area.

This program is appropriate for further study of biochemistry or related sciences in graduate school as well as medical, dental or pharmacy school.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biochemistry (Medicinal Chemistry) (MS)

Nanoscience (PSM)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Biological Sciences, BS (LABSCBS)

Campus: Tempe

Program Description:

The life sciences delve into the basic organization and processes of life (microbes, plants and animals) at scales ranging from molecules to ecosystems and in time from picoseconds to millennia. This includes investigations into how hereditary information is transferred and how organisms evolve, the interplay of organisms and their environments, and how these factors interact in health and disease. Students interested in a degree in life sciences can opt for a BS in biological sciences or choose one of five concentrations with biological sciences:

- biology and society
- biomedical sciences
- conservation biology and ecology
- genetics, cell and developmental biology
- neurobiology, physiology and behavior

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Biology (Biology and Society) (MS)
- Biology (MS)
- Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Cochise College (<http://transfer.asu.edu/cochise>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Pima Community College (<http://transfer.asu.edu/pima>)

Career Opportunities:

The biological sciences major with no concentration is designed for students who are committed to studying and training in multiple disciplines in biology and students who want to get more exposure to the life sciences before deciding whether they want to concentrate as an undergraduate. Therefore, students in this major take core courses from several concentrations. Students in this major have more flexibility to customize their program of study so they can focus on their own area of interest that may not have a concentration, such as plant biology or genomics.

The biological science major provides an excellent foundation for graduate study as well as preparation for professional schooling in:

- dentistry
- medicine
- pharmacy
- veterinary medicine

Graduates may also enter positions in:

- certain technical fields
- education
- government
- industry

Biological Sciences (Biology and Society), BS (LABSCSBS)

Campus: Tempe

Program Description:

The BS program in biology and society focuses on training biology students to understand the social context of their science; to ask how and why a biological problem has been and should be studied. Students explore the ways in which policy decisions shape and are shaped by biological research and they investigate the meaning and significance of the life sciences in understanding our complex world.

The biology and society curriculum is highly individualized. This unique degree is home to world-class researchers and teachers in diverse fields, including bioscience ethics, history and philosophy of science, science communication, science education and science policy, all brought together under one program. Students have the opportunity to work with many renowned scholars in independent study and research projects.

Additional Program Fee: Y

Second Language Requirement: N

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Biology and society students gain the historical, philosophical, political and ethical perspectives needed to explore interactions between the life sciences and related, complex human issues. As a result, the program contributes to better informed and more effective teachers, writers, policymakers, clinicians and researchers in areas related to biology, medicine and society.

As a result of the individualized, skill-based curriculum, biology and society majors are eligible for a broad range of career options. Most graduates have chosen to pursue professional degrees in medicine, law, public health or public policy, or graduate study in biology, ethics, education or history and philosophy of science. Our graduates enter the workforce, whether in academia, industry, government or clinical practice with a deep sensitivity to the complexity of biology in society and the skill to navigate that complexity throughout their careers.

Biological Sciences (Biomedical Sciences), BS (LABSCMBS)

Campus: Tempe

Program Description:

The biomedical sciences concentration serves students in the biological sciences BS degree program who wish to pursue careers in medicine, other health professions or biomedical research in an academic, clinical or industry settings. The curriculum aligns with the broad scientific competencies recommended for premed students in a report of the American Medical Colleges and the Howard Hughes Medical Committee and reflected in the 2015 changes to the MCAT. Course work draws from the school's concentration in genetics, cell and developmental biology and the concentration in neurobiology, physiology and behavior, with the addition of courses in biology and in medicine and society. The concentration focuses on the chemistry, biochemistry, math and physics course work that is necessary to prepare students for the MCAT or medical school admissions. The concentration emphasizes core concepts, competencies and critical intellectual skills necessary to succeed in medical school or biomedical research.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Upon completion of the biological sciences, biomedical sciences concentration degree, students will be well-equipped to enter into careers as research scientists or as scientists in the health professions. Students will have met the majority of prerequisite requirements and mastered many of the competencies valued by graduate programs in medical, dental and optometry fields or in programs which prepare students to be physician assistants or physical therapists. Additionally, graduates of this program will have an understanding of the process of science preparing them for a career in research. They will have knowledge of foundational concepts in biological sciences, chemistry, physics and statistics, as well as the ability to understand and apply core biomedical concepts. This will prepare students to enter into biology research in a vast number of areas including, but not limited to, genetics, genomics, evolution, physiology and immunology.

Biological Sciences (Conservation Biology and Ecology), BS (LABSCCBS)

Campus: Tempe

Program Description:

Ecology is the study of the distribution and abundance of organisms, the interactions among organisms, and the interactions between organisms and the physical environment. Conservation biology is an applied science based on ecological principles that focuses on conserving biological diversity and on restoring degraded ecosystems. Arizona State University has made a commitment toward a more sustainable world, and knowledge of conservation biology and ecology is one critical component to help us meet this global challenge.

Conservation biologists at ASU investigate the impact of humans on Earth's biodiversity and develop practical approaches to prevent the extinction of species and promote the sustainable use of biological resources. Some investigate the causes of ecosystem degradation and use ecological principles to reestablish desired conditions within a range of ecosystems, including rivers, wetlands, grasslands, urban landscapes and forests.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biology (Biology and Society) (MS)

Biology (MS)

Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The curriculum prepares students for employment and provides a solid platform for students who wish to attend graduate school. The skills and concepts are preparation for careers with:

- governmental agencies such as the Environmental Protection Agency and state game and fish departments
- K-12 education, colleges and universities
- nongovernmental organizations such as The Nature Conservancy and Conservation International
- private companies focused on environmental resources, environmental law or environmental economics

The concentration can provide training in specific skills that might be needed in these areas:

- animal and plant physiology, identification and ecology
- behavioral ecology and population biology
- community, ecosystem and landscape ecology
- conservation of endangered species
- ecology of different habitats, including cities, lakes, rivers and grasslands
- restoration of degraded ecosystems

Biological Sciences (Genetics, Cell and Developmental Biology), BS (LABSCGBS)

Campus: Tempe

Program Description:

Genetics, cell and developmental biology are exciting, closely related areas of life science research. Genetics examines the blueprints of life (i.e., DNA sequence and gene expression) while cell biology studies the machinery of life enclosed within the boundaries of cells. Developmental biology uses genetics and cell biology to understand how genes and the environment interact to produce a whole new individual from a single cell, in addition to developmental changes that organisms undergo throughout life. Many diseases are understood through the study of genetics, cell biology and development.

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students in this concentration have a variety of career options. This degree provides the fundamental course work necessary for admission into medical, dental, veterinarian, pharmacy or graduate schools or any of the health professions. There also are many employment opportunities that can be pursued upon receipt of the BS in this concentration:

- animal breeder technician
- bioinformaticist
- biotechnologist
- cell culture specialist
- cloning technician
- crime lab technician
- cytotechnologist
- drug design technician
- food and drug inspector
- genetic counselor
- histologist
- in vitro fertilization technician
- plant improvement specialist
- teacher
- technical writer
- vaccine development technician

Students in this concentration learn critical-thinking skills that can be applied to many scientific problems and professions as well as to the challenges of daily life. We encourage students to engage in independent research projects or internship opportunities in order to develop a better sense of how science is done.

Biological Sciences (Neurobiology, Physiology and Behavior), BS (LABSCABS)

Campus: Tempe

Program Description:

Physiology is the study of how organisms regulate the flow of energy and maintain the conditions necessary for health, survival and reproduction. It might seem that physiology and behavior are quite separate fields, but physiology and behavior interact extensively to achieve common goals.

In the neurobiology, physiology and behavior concentration, students will receive a rigorous and broad education by studying behavior and physiology from the perspectives of molecular and cellular biology, evolution, organ systems (neural, endocrine, cardiovascular, respiratory, immune, etc.) and the environment. Students in this concentration also learn to apply principles from mathematics, chemistry and physics. Discoveries are made at the laboratory bench and in the field, and students in this concentration are encouraged to participate in research projects in the labs of our faculty members.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Biology (Biology and Society) (MS)
- Biology (MS)

Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The broad education and critical-thinking skills students receive in this concentration are well suited for a variety of rewarding careers. Premedical, preveterinary and pre dental students get the background and courses needed for professional school application and beyond. Many students go on to graduate school for academic, teaching or research careers in areas such as:

- endocrinology
- environmental or behavioral physiology
- human physiology
- metabolism
- neurobiology
- social behavior

With a BS in this concentration, there are opportunities for technical positions in hospitals, research institutes and industry (food, dairy, chemical, pharmaceutical and biotechnology) as well as in government laboratories and agencies. The most important skills students learn in the concentration are critical-thinking and problem-solving skills that can be applied to many scientific problems and professions as well as to the challenges of daily life.

Biophysics, BS (LABIPHBS)

Campus: Tempe

Program Description:

Biophysics uses the methods and theories of physics to study biological systems. The BS program in biophysics is a transdisciplinary program, providing students with a working understanding of the important principles of physics, chemistry and biology that govern all scales of biological organization, from the molecular processes of life to organisms and ecosystems.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The broad range of applicability of the principles of biophysics gives great flexibility in a choice of career or further education including but not limited to:

- chemical industries
- engineering
- government
- health care
- physics research
- teaching and other areas

Chemistry, BA (LACHMBA)

Campus: Tempe

Program Description:

Chemistry is concerned with the composition, properties, and reactions of matter. The BA program in chemistry provides the fundamental knowledge and skills necessary to address scientific needs of society in transdisciplinary areas such as energy and sustainability, medicine and health, materials and nanoscience, geologic and biospheric science, frontiers of chemical measurement, and fundamental molecular science.

This Bachelor of Arts degree in chemistry is a flexible option for students interested in a liberal arts degree with a strong grounding in physical science. It is ideal for students seeking to complete two degrees. Students pursuing a bachelor's degree in chemistry have opportunities to explore interests in analytical, inorganic, organic and physical chemistry as well as biochemistry, geochemistry, solid-state and materials chemistry. Students wishing to pursue a scientific graduate degree should consider the BS in chemistry.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Career Opportunities:

A solid undergraduate education in chemistry provides the necessary background for many career paths in chemical industries, government and other areas. Chemistry can be combined with law for patent work, with economics for sales and marketing careers, and with computer science for careers in information storage and retrieval. Students planning careers in medicine, dentistry or veterinary medicine often pursue a course of study in chemistry with supporting work in biology as the route for preprofessional training.

Chemistry, BS (LACHMBS)

Campus: Tempe

Program Description:

Chemistry is concerned with the composition, properties and reactions of matter. The BS program in chemistry provides students the knowledge and skills necessary to address contemporary scientific challenges in transdisciplinary areas such as energy and sustainability, medicine and health, materials and nanoscience, geologic and biospheric science, frontiers of chemical measurement and fundamental molecular science.

Students complete course work in the foundational chemistry disciplines of biochemistry and analytical, inorganic, organic and physical chemistry as part of a curriculum approved by the American Chemical Society. This degree is appropriate for further study of chemistry or other physical sciences in graduate school or scientific careers.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biochemistry (Medicinal Chemistry) (MS)

Nanoscience (PSM)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Chemistry (Environmental Chemistry), BS (LACHMEBS)

Campus: Tempe

Program Description:

The BS degree in chemistry with an environmental chemistry concentration is a transdisciplinary degree program that combines training in the traditional disciplines of chemistry with related environmental sciences courses from geology, mathematics and physics. Discoveries of new materials, processes and solutions to problems such as pollution control and climate change depend upon a thorough grounding in this area of science.

This program prepares student to become scientists and leaders in solving environmental problems and serves as excellent preparation for a career in environmental science or further study of physical sciences in graduate school.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Communication, BA (LACOMBA)

Campus: Tempe

Program Description:

The BA program in communication focuses on teaching students how communication processes create, maintain and transform identities, relationships, workplaces and communities. Students can choose from course work in communication and healthy relating; communication and effective organizing; communication, advocacy and engaging public; communication, creativity and innovation or a combination of any of the above. Across the curriculum, students learn valuable and marketable knowledge and skills that prepare them for successful careers in a variety of industries in the public and private sectors.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students who are transferring into ASU must have a minimum transfer GPA of 2.50 in order to be admitted to the Hugh Downs School of Human Communication.

Students who have attended ASU in the past and who are returning to the university with transfer work must have a minimum 2.50 ASU cumulative GPA in order to be admitted into the Hugh Downs School of Human Communication.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Career Opportunities:

Graduates of this program often attend leading graduate schools in communication, law or business or find gainful employment in careers in the areas of:

- campaign management
- counseling
- entrepreneurship
- event planning
- health care management
- human resource management
- intercultural relations
- marketing
- nonprofit management
- public relations
- sales

Communication, BS (LACOMBS)

Campus: Tempe, Online

Program Description:

The BS program in communication focuses on teaching students how communication processes create, maintain and transform identities, relationships, workplaces and communities. Students can choose from varied course work that focuses primarily upon advocacy, public engagement and the importance of culture, creativity and innovation. Students can combine these foci with studies that center on communication in relationships, the workplace or any combination of the two. Across the curriculum, students learn valuable and marketable knowledge and skills that prepare them for successful careers in a variety of industries in the public and private sectors.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

Computational Mathematical Sciences, BS (LACMSBS)

Campus: Tempe

Program Description:

New technologies, from smartphones to DNA sequencers, are changing the way people live, and the science behind these innovations owes a lot to computational mathematics.

This cutting-edge bachelor's degree program is a fusion of mathematics, science and computing. Students in the BS in computational mathematical sciences program learn how to translate problems in science and engineering into mathematical problems and solve them using computing algorithms. They develop strong problem solving, analytical and programming skills as they work across diverse areas of science and mathematics.

One of the great advantages of earning a Bachelor of Science degree in computational math is that there are so many different directions to pursue. Subjects such as cancer modeling, weather forecasting, business and finance all involve computational mathematical sciences.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Mathematics (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

In a recent study, mathematics, computer science, applied mathematics and statistics all ranked among the top 15 most valuable college majors in terms of salary and career prospects. The computational mathematical sciences program brings all these disciplines together.

A bachelor's degree in computational mathematical sciences is one of the most versatile math degrees. The degree positions students for careers in computer technology, business, medical research, teaching and education, engineering and more. Some students also pursue graduate opportunities in areas such as biophysics, economics, medicine, statistics and law.

Earth and Environmental Studies, BA (LAEESBA)

Campus: Tempe

Program Description:

The BA program in earth and environmental studies provides a foundational understanding of the evolution of the earth system with an emphasis on the planetary context for sustainable human societies. The degree includes broad training in the physical sciences, especially process-oriented geosciences that focus on Earth's life-sustaining surface environment. Advanced courses focus on topics including:

- climate change
- Earth's water, energy and material resources
- impact of land-use change on human civilization
- physical, chemical and biological process interactions that define Earth's evolution

The degree is designed as a liberal arts program with an emphasis on basic scientific literacy, not as a preparatory degree for graduate study in the natural sciences. However, successful earth and environmental studies graduates will be well prepared for green energy career opportunities such as:

- education
- environmental reporting
- natural resource management
- public planning
- sustainability

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Coconino Community College (<http://transfer.asu.edu/coconino>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

With a breadth of knowledge and experience and the acquired skills to integrate various domains of knowledge, graduates of earth and environmental studies have prepared themselves for a variety of careers that help find solutions to tomorrow's environmental and sustainability challenges. Chief among these are the following career settings:

- consultancy
- education
- governmental agencies
- industry
- museums
- nongovernmental organizations
- nonprofit organizations
- publishing
- regulatory agencies
- utilities

Recent environmental awareness in business and government has also resulted in new employment opportunities (e.g., environmental coordinators, directors and managers). They are also well prepared for admission to strong professional schools.

Earth and Space Exploration, BS (LASESBS)

Campus: Tempe

Program Description:

The BS program in earth and space exploration offers students an integrated education across earth sciences, planetary sciences, astrophysics and engineering. The degree program incorporates:

- a learning community that includes science and engineering students
- a yearlong collaborative capstone senior exploration project
- strong quantitative preparation

This strong foundation in geosciences, astrophysics and exploration engineering will prepare students for key roles in:

- earth resources and exploration
- environmental and geologic engineering
- space research and industry
- water and environmental use policy

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

or MAT 270

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The earth and space exploration major addresses critical future shortfalls in the national and regional training of the next generation of geoscientists and aerospace engineers. Arizona has an expanding space industry with major new investments and is prepared to engage new technologies to monitor and understand environmental issues in Arizona, the Southwest and throughout the world. Students who major in earth and space exploration will have the tools, knowledge and understanding to address key problems of a global nature, whether they are working in the private or public sector.

Earth and Space Exploration (Astrobiology and Biogeosciences), BS (LASESABBS)

Campus: Tempe

Program Description:

Astrobiology studies the origins, evolution, distribution and future of life in the universe. Biogeoscience focuses on the interaction of biological and geological processes on Earth at present and in the geologic past. These topics are closely related because the concepts of biogeoscience inform the study of planetary habitability and the search for habitable worlds. Therefore, the astrobiology and biogeoscience concentration in earth and space exploration is designed to offer students a strong foundation for exploring the interaction of geological and biological processes, how such interactions sustain life on Earth, and how they might operate on other planets. This scientific background is needed to contribute to the search for life on other planets as well as the exploration of extreme environments here on Earth. It also provides training in the interplay of forces that impact global change.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I
or MAT 270

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Students in the astrobiology and biogeosciences program will be well prepared for graduate studies in this field. Because astrobiology is increasingly the motivation for NASA exploration missions, they will also be well suited for entry-level careers at NASA research centers. The

degree also provides broad training across a range of science fields, giving students a strong background for careers in biomedical, environmental or sustainability areas.

Earth and Space Exploration (Astrophysics), BS (LASESABS)

Campus: Tempe

Program Description:

The BS in earth and space exploration with a concentration in astrophysics is designed to offer students a fundamental grounding in astronomy and astrophysics, with exposure to the related fields of geology, planetary science and engineering. Students will emerge from this program with the skills to pursue a career in astrophysics, physics or related fields.

The rigorous course work includes a combination of physics courses taught in the School of Earth and Space Exploration and the Department of Physics. Students should graduate from the program with the ability to compete at the national level on standardized physics exams. The tools of astronomical discovery are increasingly dependent on technological advances so students will be exposed to engineering principles. Through the capstone project in the senior year, students will gain valuable experience in translating science drivers into engineering solutions.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I
or MAT 265

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Career opportunities include but are not limited to:

- aerospace engineer
- astrobiologist
- astronomer
- computer programmer
- data analyst
- instrumentation specialist
- planetary scientist
- science policy intern
- science writer
- teacher
- telescope operator

Career settings include:

- federal government
- K-12 schools

- manufacturing
- museums
- NASA facilities
- national laboratories
- NSF facilities
- observatories
- planetariums
- publishing
- space industries
- universities and colleges

Some of the listed careers may require advanced degrees or additional certifications. This program also provides suitable preparation for graduate study.

Earth and Space Exploration (Exploration Systems Design), BS (LASESESDBS)

Campus: Tempe

Program Description:

The exploration systems design concentration offers students a fundamental curriculum in geology, physics and astrophysics while providing tools that enable them to design and build hardware and software to achieve specified scientific goals.

At the heart of the program is a sound grounding in the fundamentals of physics, mathematics and chemistry. Upon that foundation, students explicitly tackle issues concerning hardware design, instrument assembly and, ultimately, how to knit these components together when conceiving the requirements needed for a mission or project destined for space or another planet.

As part of this degree program, each student will have the opportunity to learn how projects and missions are designed and planned, starting with the scientific drivers and then defining engineering specifications. All students are expected to complete a senior project that takes a desired scientific measurement and realizes the technological solution to achieve the observation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I
 or MAT 270

Program Math Intensity: Substantial

Admission Requirements:

Earth and Space Exploration (Geological Sciences), BS (LASESGSBS)

Campus: Tempe

Program Description:

Geological science is the study of the Earth and other planets with an emphasis on the processes that have shaped them since the origin of the solar system. Students apply their knowledge to topics such as the co-evolution of life, oceans, atmosphere and the Earth's climate system and the record of that evolution encoded in rocks, soil, ice and isotopes.

The BS program in earth and space exploration with a concentration in geological sciences educates students in the fundamentals of the geological sciences, providing a solid background in chemistry, mathematics and physics as well as transdisciplinary training in engineering, astronomy and planetary science.

Students will gain a strong understanding of field methods as well as modern computing, remote sensing and instrumentation in order to effectively study the natural environment and Earth's resources. Graduates of the program will learn to apply their knowledge for the benefit of Arizona, the nation and society in general.

Economics, BS (LAECNBS)

Campus: Tempe

Program Description:

The mission of the Department of Economics at ASU is to provide the highest quality instruction to students, conduct cutting-edge research in economics and provide leadership and service to our professional communities. The department's undergraduate program aims to provide students with the critical-thinking and communication skills needed to succeed in business, government or graduate school.

The BS in economics is built on a strong core of economic theory, supplemented by mathematics and data analysis. All students are encouraged to develop programs of study tailored to their individual needs and interests. Students choose from a variety of courses within the department as well as from the College of Liberal Arts and Sciences and the university to broaden their knowledge and skills and individualize their learning experience.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 270

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

English (Creative Writing), BA (LAENGCBA)

Campus: Tempe

Program Description:

Undergraduate students can pursue BA degrees in English with concentrations in creative writing, linguistics, literature, secondary education and writing, rhetorics and literacies. A bachelor's degree in English is also offered completely online.

Students in the creative writing concentration study and practice the art of writing poetry and fiction. The distinguished faculty in the Department of English are actively engaged in creative writing and scholarly research. Students gain practical experience through research and internships that prepare them for an ever-expanding variety of careers. The undergraduate programs also prepare students to continue their studies in graduate and professional programs.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

English (Secondary Education), BA (LAENGSEBA)

Campus: Tempe

Program Description:

Undergraduate students can pursue BA degrees in English with concentrations in creative writing; linguistics; literature; secondary education; and writing, rhetorics and literacies. A bachelor's degree in English is also offered completely online.

The BA in English with a concentration in secondary education focuses on rigorous content in literature, composition, linguistics and secondary teaching pedagogy. This program provides extensive preparation for meeting the needs of all student populations, including attention to levels of academic performance and cultural and linguistic diversity. Students finish the program with Arizona Department of Education certification for middle and high school English language arts. Both a fingerprint clearance and a background check are required in the second year of the program.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students graduating with a bachelor's degree in English with a concentration in secondary education will have tremendous opportunities for employment. With more than one million students in a state ranked seventh in the nation in population growth, the need for certified teachers in Arizona is self-evident. Arizona State University provides more of those teachers than any other institution of higher education. In the last 15 years, ASU graduates have had their pick of teaching jobs around the valley and in the state. After student teaching in school districts in the greater Phoenix area or in one of the 22 Native American nations, students are often hired to teach in the same school in which they completed their internship. New teachers will continue to be in demand because the predicted rate of population growth in Arizona is still strong and the retirement rate of teachers is increasing.

English (Writing, Rhetorics and Literacies), BA (LAENGWBA)

Campus: Tempe

Program Description:

Undergraduate students can pursue BA degrees in English with concentrations in creative writing; linguistics; literature; secondary education; and writing, rhetorics and literacies. A bachelor's degree in English is also offered completely online.

The concentration in writing, rhetorics and literacies teaches students strategies for inquiry. Students will study the ways in which communication has, does and will create knowledge and action; and how communication is constructed, circulated, reacted to and repurposed through time and place. Through differing tools of inquiry, students will study the history, theories and methods of inquiry as well as pragmatic and social actions of rhetoric, writing and literacies.

Additional Program Fee: N

Family and Human Development, BS (LAFASBS)

Campus: Tempe, Online

Program Description:

The BS in family and human development offers course work on the development of individuals and families as they relate to their social worlds. A required concentration in family studies and child development provides a firm foundation for more individualized studies on contemporary issues related to human development from infancy through the end of the life span, and the development, formation and dissolution of families. Students develop proficiency in written communication, computer skills, statistics and research methods.

Film (Film and Media Studies), BA (LAFMSBA)

Campus: Tempe, Online

Program Description:

The BA in film and media studies is an innovative program in the study of film, television, computer games, the Internet and screenwriting.

This program provides students with the analytic, creative and communication skills needed to interpret and create media texts, and it prepares students for opportunities in the entertainment industry as executives, producers and writers. The major in film and media studies empowers students to be critical consumers of media, creative industry professionals and rigorous scholars of media texts and culture.

French, BA (LAFREBA)

Campus: Tempe

Program Description:

The BA in French offers the opportunity to study the language, literature and culture of France and francophone countries. Students gain competence in reading, writing, oral and aural skills in the French language and take a number of related courses on topics such as:

- art
- colonization
- government and political science
- history and civilization
- international business
- linguistics
- literature and culture
- religion

Students are encouraged to join the French Club to help them gain proficiency in the language. In addition, the School of International Letters and Cultures offers faculty-directed summer study abroad programs in France and Quebec, Canada, and it endorses partnership and exchange programs in francophone Africa, Canada and Europe. More information on study abroad opportunities is available at <https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages> (<https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages>).

Career Opportunities:

Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Career fields and occupations using languages include:

- advertising, marketing and communications
- airline industry
- cultural advisor
- diplomatic and foreign service agent
- domestic and international banking
- domestic and international business
- domestic and international law
- film, television and multimedia
- foreign correspondence and journalism
- health professions
- hospitality industry
- hotel and resort management
- intelligence
- international education and study abroad
- interpreting and translation
- military
- ministry
- multilingual administration
- nongovernmental organization administration
- public relations

- publishing

Geographic Information Science, BS (LAGISBS)

Campus: Tempe

Program Description:

The BS degree in geographic information science focuses on the computational dimension of geographic information system technology. Students in the program will learn

- commercial and open source GIS and related software
- computational principles in GIS
- concepts in spatial thinking and geographic problem solving
- mathematical and statistical spatial modeling
- programming in multiple languages (e.g., Java, C++, and Python)

These essential programming skills combined with GIS knowledge will form the basis for designing and implementing GIS software.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:
 All students are required to meet general university admission requirements.
 Freshman (<https://students.asu.edu/freshman/requirements>)
 Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
 International (<https://students.asu.edu/international/future>)
 Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Career opportunities are found in private and public sectors in the GIS and computer science world. In the private sector, students may find employment with top software development companies. Job activities range from designing desktop systems and implementing Web and mobile applications to developing workflow systems. Public sector job activities, such as with local or national governmental agencies, involve customizing desktop and project management systems as well as spatial models and systems, including both Web and mobile applications.

Geography, BA (LAGCUBA)

Campus: Tempe, Online

Program Description:

The BA in geography teaches students to see the world through the twin lenses of space and place.

Geographers have a unique spatial perspective in understanding the modern world, global to local. The BA in geography emphasizes humanistic and cultural traditions. Students pursuing undergraduate studies in geography typically concentrate knowledge-building in understanding various cultural phenomena or in studying regions such as:

- Africa
- Asia
- Australia and Oceania
- Europe
- Latin America
- North America

Additional Program Fee: N

Career Opportunities:

With a focus on geospatial techniques, geographers with a bachelor of science degree go on to careers such as:

- computer cartographers
- environmental impact assessment analysts
- geographic information science specialists and analysts
- geomorphologists
- hydrology and water resource specialists
- location analysts for businesses
- photogrammetry specialists
- remote sensing analysts

Graduates are presented with a host of other geospatial career options in the burgeoning fields of geographic information science, mapping and navigation systems.

Geography (Meteorology-Climatology), BS (LAGCUMBS)

Campus: Tempe

Program Description:

The meteorology-climatology concentration under the BS in geography is designed to meet the requirements for certification as a meteorologist by the National Weather Service. It covers dynamic as well as synoptic meteorology.

Required courses include:

- atmospheric physics
- operational weather forecasting
- three semesters of calculus
- two semesters of calculus-based physics

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Concurrent Degrees:

This degree is also offered as concurrent degree with Journalism and Mass Communication, BA

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- 3.75 minimum ABOR GPA
- no English competency deficiencies
- 1040 SAT Reasoning or 22 ACT score

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

ASU students:

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's non-elective General Studies requirements.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Students successfully completing the program have found employment with:

- airlines
- energy power companies
- government agencies
- military*
- National Weather Service

*meteorology and pilot training

This program also provides suitable preparation for graduate study in either meteorology or climatology.

Geography (Urban Studies), BS (LAGCUUBS)

Campus: Tempe

Program Description:

Geographers have a unique spatial perspective in understanding the modern world, global to local, through the twin lenses of space and place.

The urban studies concentration under the BS in geography applies the tools of geography to the study of urban areas. Students have an opportunity to focus in particular on the Phoenix metropolitan area and other rapidly urbanizing regions in arid climates. Tied with geographic information science, the urban studies major brings both knowledge and skill sets together in a powerful way.

Additional Program Fee: N

Second Language Requirement: N

German, BA (LAGERBA)

Campus: Tempe

Program Description:

Students in the BA in German study the language, literature and culture of German-speaking people and gain a respectable measure of competence in reading, writing, oral and aural skills in the German language. Students broaden and deepen their studies with related courses on topics such as:

- art
- government
- history
- international business
- linguistics
- literature and culture
- religion

Students are encouraged to study abroad in Germany as participants in the School of International Letters and Cultures faculty-directed summer program in Regensburg or in one of the academic-year exchange programs available at several German universities. More information on study abroad opportunities is available at <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Global Health, BA (LASSHBA)

Campus: Tempe, Online

Program Description:

The BA in global health is a transdisciplinary degree designed for students who seek a broad and flexible set of skills for understanding contemporary health challenges and thinking about how they might best be solved. Global is understood in the anthropological sense, meaning ways of understanding and addressing disease, health and well-being that can incorporate all cultures, places and time and that can integrate knowledge of health's social, historical, biological and ecological dimensions.

The curriculum emphasizes the development of core skills in critical thinking, problem-solving and the importance of direct experience (research, study abroad, service learning and advocacy). The program cultivates capacities to deal with any complex problem with social components: how to identify the critical issues, ask the right questions and create solutions that are meaningful and effective.

Students are required to participate in an approved global health study abroad program.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Global Health (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with skills. The major supports the goals of those pursuing careers in academic research, teaching and health services. Sample employment venues include:

- departments of health
- government agencies
- international agencies (World Health Organization, Center for Disease Control, Global Health Council, World Bank, Inter-American Development Bank)
- nongovernmental organizations
- private sector
- universities

The degree also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

- dentistry
- medicine
- nursing
- pharmacy

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations (such as migrants, minorities and those living in poverty), and many of these jobs are directly or indirectly related to health.

Global Studies, BA (LASGSBA)

Campus: Tempe

Program Description:

Global studies examines the causes and consequences of problems that cross national boundaries and the governance of these problems in social, cultural and economic contexts. The major aims to address real-world problems and their solutions. This mission is enabled by an internationally recognized faculty that has extensive global experience from a wide variety of disciplines in the social sciences, humanities and law. The global studies program uses teaching, research and public policy activities to address some of the most challenging issues that include:

- built environments
- economic and social development
- global cities and urbanization
- global governance of health and climate change
- justice and human rights
- religious identities, rights and conflicts
- world culture

Global studies faculty members orient their work toward solving global problems by drawing on expertise in diverse disciplines, including:

- anthropology
- economics
- geography
- history
- law
- planning
- political science

- sociology

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Political Science (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

History, BA (LAHISBA)

Campus: Tempe, Online

Program Description:

Students pursuing the BA in history study the growth and development of human society from political, social, economic and cultural aspects.

Students learn to craft stories from materials other people have left behind --- constitutions, land deeds, diaries, guns and bones. They learn to make decisions about what to investigate, about whom to believe, about what happened first, and about why things fell apart or came together.

History is a discipline that constantly adopts new techniques of analysis and new ways of gathering and presenting information. Students of history learn to use and create digital media, to perform quantitative as well as qualitative analysis, and to present their findings in compelling ways to all kinds of audiences.

Students choose a primary geographic concentration from:

- Asia
- Europe
- Latin America
- United States

Students considering the online bachelor's degree in history offered through ASU Online choose a primary concentration in either United States or world history.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with History (MA)

Dine College (Dine College)

Career Opportunities:

History majors are in demand. They know how to find and evaluate evidence, form arguments and present analysis --- skills essential to most careers including law, business, education, medicine and government.

Three out of four employers surveyed by the Association of American Colleges and Universities say they want colleges to place more emphasis on helping students develop five key learning outcomes: critical thinking, complex problem-solving, written communication, oral communication, and applied knowledge in real-world settings. These learning outcomes are integral elements of an undergraduate degree in History.

History majors seek jobs in:

- business and industry
- communications
- education
- foreign service
- law enforcement
- museums
- public administration
- social services

History is an excellent foundation for graduate and professional studies in:

- business
- history
- justice studies
- law
- medicine
- public administration
- public history
- theology

History (Secondary Education), BA (LAHISSEBA)

Campus: Tempe

Program Description:

The secondary education concentration within the BA in history offers a flexible degree for students who are considering a career in education. The concentration fully prepares students for teaching and certification. At the same time, the concentration provides all the disciplinary knowledge of a traditional history degree and prepares students for a variety of non-education careers. By developing strong critical reading, writing and research skills as well as skills in oral presentation, the concentration creates a solid foundation for graduate work in history, law or business.

Additional Program Fee: N

Integrated Studies, BA (LAISTBA)

Campus: Tempe

Program Description:

The integrated studies program is a unique and highly focused individualized plan of study for students whose academic interests are not served by more traditional disciplinary pursuits. Developed for academically superior students whose interests lie beyond established departmental emphases and boundaries, the integrated studies program provides students the opportunity to work one-on-one with faculty mentors to create a personalized and individually tailored bachelor of arts plan.

Students who are approved to develop an integrated studies major will pursue a focused and coherent course of study that draws its curricula from more than one academic department or college.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Not available to freshmen. There is an additional application for this degree. Admissions consist of completion of 32 credit hours at ASU with a GPA of at least 3.25 and three letters of recommendation from ASU faculty members. For more information contact the assistant dean for academic affairs, Office of Student and Academic Programs, Fulton Center, Suite 110.

Career Opportunities:

The professional and vocational opportunities provided by the integrated studies major will depend on the area of concentration and the particular focus of study. The integrated studies major shares with all other liberal arts and sciences programs in the goal of developing students' analytical abilities and communication skills. The program combines breadth of learning across multiple disciplinary contexts with an appropriate depth in a focused area of inquiry. Integrated studies graduates are prepared to enter the work force or pursue graduate or professional studies at the completion of their undergraduate program.

International Letters and Cultures, BA (LASLCBA)

Campus: Tempe

Program Description:

The BA in international letters and cultures is a degree grounded in the advanced study of at least one foreign language. It is more transcultural and transdisciplinary than a traditional languages and literature degree and is designed to encourage students to explore and challenge the traditional boundaries of cultures, texts and disciplines. Students work closely with faculty and advisors to choose a program that combines study and research in a minimum of two cultures or disciplines (or both).

Students must meet with an advisor in the School of International Letters and Cultures to discuss this degree option; it is not recommended for first-year students.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Language-intensive careers include:

- foreign correspondent and media professional
- foreign service officer
- health professional
- intelligence officer
- international banking and finance professional
- international businessperson
- language teacher
- law and immigration professional
- multilingual administrative professional
- NGO professional

- professor of language, literature and culture
- social services professional
- translator and interpreter
- travel professional

Career fields and occupations using languages include:

- advertising, marketing and communications
- airline industry
- film, television and multimedia
- hospitality industry
- hotel and resort management
- international education and study abroad administration
- international law
- military
- ministry
- public relations
- publishing
- technology industries

Additional education and certification may be required for some career paths.

International Letters and Cultures (Classical Civilization), BA (LASLCVBA)

Campus: Tempe

Program Description:

Classics is a transdisciplinary field that includes the study of the literature, art, history and philosophy of the ancient Greeks and Romans, subjects which fueled the Renaissance and have continued to provide an intellectual foundation for innovative and influential people ever since.

ASU's BA program in international letters and cultures with a concentration in classical civilization provides a thorough grounding in the culture and history of the ancient Greeks or Romans while allowing students to satisfy their language requirement outside the classics. The degree begins with two cores: an introduction to ancient Greek and Roman literature (read in English translation) and knowledge of ancient history. With that basis, students are allowed to build a program to meet their needs and interests. Among the variety of topics students pursue are:

- ancient history, war, politics and economics
- archaeology of the ancient Mediterranean world
- art and architecture of the ancient Egyptians, Greeks and Romans
- mythology and religious practices of the Greeks and Romans
- thought of figures such as Plato, Aristotle and Lucretius
- use of the classics in today's film, books and other media

In addition to the concentration in classical civilization, ASU also offers a classics concentration with a similar focus, but more emphasis on training in ancient languages. Students should consult their advisor and choose the concentration that best meets their needs.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

College graduates with a degree in classical civilization have the valuable experience of studying a culture very different from, and yet lying at the root of, the modern world. This gives them a perspective that serves them well in a variety of disciplines. Classical civilization graduates may consider careers in:

- business
- film, television or multimedia
- law
- public service
- teaching in K-12 schools
- writing and editing (fiction, journalism, technical writing)

Additional education may be required for some career fields.

International Letters and Cultures (Classics), BA (LASLCCBA)

Campus: Tempe

Program Description:

Classics is the study of the literature, art, history and philosophy of the ancient Greeks and Romans --- a transdisciplinary field that fueled the Renaissance and that has continued to provide an intellectual foundation for innovative and influential people ever since. ASU's BA program in international letters and cultures with a concentration in classics begins with two cores: language skills in ancient Greek or Latin (or, if the student chooses, both) and knowledge of ancient history. With that basis, students are allowed to build a program to meet their needs and interests. Among the variety of topics students pursue are:

- ancient history, war, politics and economics
- literary classics such as Homer, Sophocles, Virgil and Ovid
- the archaeology of the ancient Mediterranean world
- the art and architecture of the ancient Egyptians, Greeks and Romans
- the mythology and religious practices of the Greeks and Romans
- the thought of figures such as Plato, Aristotle and Lucretius
- the use of the classics in today's film, books and other media

In addition to the concentration in classics, ASU also offers a classical civilization concentration with a similar focus but different language requirements. Students should consult their advisor and choose the concentration that best meets their needs.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

College graduates with a degree in the classics have developed skills in research and the precise use and analysis of language that will serve them well in a wide range of fields. The transdisciplinary study of a culture very different from, and yet lying at the root of, the modern world also fosters a student's ability to view issues from many angles and think critically about them. Classics graduates often find careers in:

- business
- Christian ministry
- film, television and multimedia
- law
- politics
- teaching Latin or Greek in K-12 schools
- university teaching (after graduate school)
- writing and editing (fiction, journalism, technical writing)

As many employers are well aware, a classics graduate has the training to solve difficult puzzles, to see through obscure language, and to conduct rigorous research on often ill-defined problems. These skills are prized in any field of endeavor.

Italian, BA (LAITABA)

Campus: Tempe

Program Description:

The BA in Italian offers students an opportunity to study the literature and culture of Italy while gaining a respectable measure of competence in reading, writing, oral and aural skills in the Italian language. Students broaden their knowledge by completing a number of related courses on topics such as:

- art
- film
- government
- history
- literature and culture
- religion

Faculty-directed summer programs in Italy are available for students who wish to study the language and culture while living in the country. Study abroad programs in various cities in Italy are also available during the academic year. More information on study abroad opportunities may be found at <https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages> (<https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages>).

Jewish Studies, BA (LAJSTBA)

Campus: Tempe

Program Description:

The BA in Jewish studies offers a transdisciplinary, cross-cultural program of study in the humanities that examines ethical, religious and spiritual values while exploring a range of philosophical and political viewpoints. The major focuses on the study of Judaism, defined as the civilization of the Jews. It considers Jewish history and modern life, enhances the student's understanding of Jewish contributions to Western civilization, and facilitates enhanced cultural awareness and global perspective. As with other degree programs in the humanities, a bachelor's degree program in Jewish studies can provide a balance to studies in contemporary science and technology.

Students choose a thematic concentration from:

- history and society
- literature and culture
- religion and thought

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Students who receive a bachelor's degree in Jewish studies and pursue a career with one of the hundreds of U.S. companies that do business in Israel will have a competitive edge because of their familiarity with the Hebrew language and Jewish culture. Jewish studies graduates are also prepared to:

- attend rabbinical seminary in preparation for becoming a community rabbi or chaplain
- engage in world political and economic issues
- pursue advanced education in Jewish professional service fields
- pursue advanced degrees related to their area of interest in fields that may include:
 - archaeology
 - creative writing
 - ethics
 - film and media
 - history
 - journalism
 - justice studies
 - law
 - philosophy
 - political science
 - religious studies

Yavapai College (<http://transfer.asu.edu/yavapai>)

Career Opportunities:

Many graduates go on to law school, graduate school or other professional degree programs. Students emerge from this program with the knowledge and skills designed to bring social justice concerns to their professional careers. Our graduates work in a variety of fields, including:

- advocacy
- human welfare and social work
- law enforcement and the legal system
- nongovernmental organizations
- other public service fields

Mathematics, BA (LAMATBA)

Campus: Tempe

Program Description:

Math is the science of problem-solving. Students in the BA degree program in mathematics will be able to apply the critical thinking and problem-solving skills they learn to many endeavors because math is a crucial component in engineering, life sciences, business, economics and social sciences. In the bachelor's degree in mathematics, students acquire a strong general mathematics background, but retain the flexibility to pursue other areas of interest through a minor or even a second major. Combining a second area of study such as life science, physics, computer science or business creates a powerful combination for future career goals.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Cochise College (<http://transfer.asu.edu/cochise>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Career Opportunities:

The BA in mathematics includes a foreign language requirement, making this an ideal option for students interested in careers in global business. It is also a top option for international students looking for a general math background. The Bachelor of Arts degree in mathematics can be the springboard for many different careers:

- business management
- computer engineering
- financial analysis
- healthcare
- law
- teaching

Mathematics, BS (LAMATBS)

Campus: Tempe

Program Description:

A mathematics degree opens up a world of possibilities. In fact, the three top-rated jobs in the United States in terms of salary, employment outlook and more are all careers with a strong math focus. Students pursuing the BS in mathematics also learn critical-thinking and problem-solving skills that can be applied to almost any profession.

The degree offers a grounding in both theoretical and applied mathematical concepts. Classes cover a broad spectrum of advanced mathematical topics, including number theory, cryptography and functional analysis. Students with a bachelor's degree in mathematics can pursue careers in fields as diverse as computer science, biotechnology, engineering, medical research and education.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with Mathematics (MA)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Mathematics is foundational and can be applied to many different types of careers. Math is a crucial part of engineering, life sciences, business, economics and social sciences. Many undergraduate math majors also pursue graduate studies in medicine or law. These are just a few of the top careers possible with a BS in mathematics:

- cryptographer
- engineer
- financial analyst
- mathematician
- operations research analyst
- statistician
- teacher

Students interested in a career in teaching or education may also consider the bachelor's degree in mathematics concentration in secondary education. <https://math.asu.edu/degree-programs/lamatsbs> (<https://math.asu.edu/degree-programs/lamatsbs>)

Mathematics (Secondary Education), BS (LAMATSBS)

Campus: Tempe

Program Description:

School districts across the country are struggling with shortages of teachers, particularly in math. ASU's BS program in mathematics with a concentration in secondary education provides a new pathway for students interested in teaching. Students acquire strong content knowledge in diverse areas of math and the skills to convey these concepts to others. This degree program offers a deeper mastery of mathematics coupled with the ability to handle the challenges of a high school classroom.

Students who wish to teach at the secondary level will take courses preparing them to earn certification in the State of Arizona through this program. By providing a carefully designed curriculum of courses and instructional experiences the program develops the deep understandings and connections needed to be a highly effective mathematics teacher. Graduates emerge equipped to provide mathematics instruction that is coherent, meaningful and challenging.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The secondary education concentration provides its graduates the flexibility to apply their knowledge in a variety of ways. It combines the options of a bachelor's degree in mathematics and a bachelor's degree in education with choices ranging from teaching high school mathematics to jobs in diverse fields, such as:

- business
- finance
- industry
- technology

Students can also choose to pursue graduate studies in mathematics or mathematics education.

Mathematics (Statistics), BS (LAMATTBS)

Campus: Tempe

Program Description:

The volume and detail of information being captured through sources such as the Web and social media is growing exponentially. This large volume of information is called data, and it's changing the way we live.

In the BS program in mathematics with a concentration in statistics, students learn innovative mathematical, computational and statistical methods to analyze data sets, as well as how to use data in real-world applications. Using data analytics, students discover how to generate insights that inform fact-based decision-making. They use cutting-edge techniques to study and understand methods of statistical inference and explore strategies for dealing with uncertainty.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

- General University Admission Requirements:
 All students are required to meet general university admission requirements.

 Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
 International (<https://students.asu.edu/international/future>)
 Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.
 Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market. Based on factors like pay, growth and job satisfaction, statistics has been named in separate job reports as one of the best careers for millennials. Data and the analysis of data is big business, and the Department of Labor projects a 25 percent growth in the need for employees trained in data analytics between now and 2018. For students pursuing a bachelor's degree in mathematics with a concentration in statistics, that means an exciting future of career opportunities in fields as diverse as business, finance, engineering, technology, sports, marketing, government and other areas of the economy.

These are just a few of the top career paths you can pursue with a major in this bachelor's degree program:

- actuary
- data scientist
- financial analyst
- market research analyst
- software engineer
- sports statistician
- teacher or professor

Students can also combine statistics with other disciplines, such as business or economics, to enhance preparation for their personal career goals.

Microbiology, BS (LAMICBS)

Campus: Tempe

Program Description:

The BS in microbiology combines the study of the branch of biology involving the smallest of living things (bacteria, fungi, algae, protozoa and viruses) and immunology (the study of all aspects of the immune system). Despite their small size, microbes are fundamental to life on Earth and compose the majority of all Earth's life forms. In addition to their essential contributions to the natural world, microbes have been model experimental subjects due to their impact on human health and ease of manipulation in the laboratory. A significant portion of medical research employs microbiological and immunological methods in order to examine basic genetic and biological phenomena.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biology (MS)

Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The microbiology degree program places emphasis on understanding microorganisms and their interrelationships with other organisms in nature and on the influence of microorganisms in biomedicine and biotechnology. Students in the microbiology degree program will study not only the background and current findings in the field of microbiology but also acquire the critical-thinking skills and the hands-on laboratory and field skills required to succeed in science. The major provides excellent training for premedical, pre dental, preveterinary and prepharmacy students as well as advanced study in microbiology and immunology.

The discipline of microbiology is diverse and the job opportunities for microbiologists are enormous. Graduates with a degree in microbiology have opportunities for employment in:

- government
- hospitals
- industrial laboratories (food, dairy, chemical, pharmaceutical, environmental and biotechnology companies)
- public health laboratories
- research laboratories

Many students are also suitably prepared for admission into graduate school and advanced study in these fields:

- dentistry

- medicine
- pharmacy
- veterinary

Microbiology (Medical Microbiology), BS (LAMICMBS)

Campus: Tempe

Program Description:

The medical microbiology concentration serves students in the microbiology BS degree program who aim to pursue careers in health professions, medical microbiology or other areas of biomedical research. The curriculum aligns with the scientific competencies recommended for premed students in a report of the American Medical Colleges and the Howard Hughes Medical Institute Committee and are also reflected in the 2015 changes to the MCAT. Course work includes many of the courses in the microbiology major, including chemistry, biochemistry, math and physics, but some microbiology courses have been replaced with cell biology, animal physiology and courses that relate to human biology and society. The concentration program emphasizes core concepts, competencies and critical intellectual skills necessary to succeed in medical school or biomedical research. The course work that students need to prepare for the MCAT or medical school admission are included in the concentration.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Upon completing the bachelor's degree in microbiology with a concentration in medical microbiology, students will have completed the majority of prerequisite requirements and mastered many of the competencies valued by graduate programs in medical, dental and optometry fields and by programs which prepare students to be physician assistants or physical therapists. Additionally, graduates of this program will have a practical understanding of the process of science, preparing them for a career in research. Students will have knowledge of foundational concepts in biological sciences, chemistry, physics and statistics as well as the ability to understand and apply core microbiology concepts. This will prepare students to enter research in a number of areas including, but not limited to, cellular biology, immunology, bacteriology and virology.

Molecular Biosciences and Biotechnology, BS (LAMBBBS)

Campus: Tempe

Program Description:

The BS in molecular biosciences and biotechnology encompasses many of the cutting-edge disciplines in life sciences research. Biotechnology is an exciting, rapidly growing field with major applications in agriculture (green biotechnology, leading to improved crops or production of vaccines in plants), health care (red biotechnology, leading to better therapeutics, diagnostics and personalized medicine) and industry (white biotechnology, leading to sustainable production of energy, enzymes and chemicals).

Our molecular biosciences and biotechnology degree program is differentiated from the other life sciences majors by its focus on the interface between molecular biology and biotechnology. This interface drives many of our major advancements in knowledge and in applied research and development, like the development of next-generation biomedical products or biofuels. Other hallmarks of this program are the focus on hands-on research and the capstone course with both science and business or entrepreneurial components.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biochemistry (Medicinal Chemistry) (MS)

Biology (MS)

Molecular and Cellular Biology (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The molecular biosciences and biotechnology degree program provides an excellent background and training for a growing number of careers that incorporate this innovative area of the molecular life sciences. Independent research and courses with classroom plus lab components result in a solid base of knowledge and practical expertise in biotechnology and the molecular biosciences, providing many options for further education or for entering the workforce. After graduation, many molecular biosciences and biotechnology students enter graduate programs in a molecular biosciences and biotechnology-related area. A number of students also enroll in medical school, other health-related professional programs or in other advanced programs. Students also have the knowledge and technical skills to enter the biotechnology workforce in an area matching their expertise and interest.

The molecular biosciences and biotechnology program has a faculty mentoring program which provides students with the opportunity to speak with faculty regarding career choices, selection and timeline of major courses and of independent research projects, and much more.

Philosophy, BA (LAPHIBA)

Campus: Tempe, Online

Program Description:

The BA program in philosophy teaches students how to think well, which in turn lays the foundation for personal and professional success. Philosophy students learn how to structure arguments, write precisely and clearly, and communicate their ideas in an orderly, persuasive and unambiguous way. Many philosophical texts are complicated, and philosophy courses teach students how to read, comprehend and summarize conceptually difficult material. In short, studying philosophy trains one to be a better, clearer thinker.

Course work includes the major subfields of philosophy such as metaphysics, epistemology and ethics as well as electives that connect philosophy to other areas of inquiry and that emphasize the social relevance of philosophy. Philosophy alumni are well-prepared for leadership roles in whatever path they take, whether it be in business, law, politics, medicine or education.

Philosophy (Morality, Politics and Law), BA (LAPHIMPBA)

Campus: Tempe, Online

Program Description:

The philosophy concentration in morality, politics and law combines the basic analytical approaches of philosophy with an emphasis on the moral questions that arise in political theory and law. The foundations of our political and legal systems are moral values, such as individual liberty, equality and justice. These are contested values, open to different understandings of their nature and implications.

Students explore the nature of morality, political theory, legal theory and the interconnections between them. Students complete philosophy courses as well as courses from disciplines related to philosophy to enrich and enliven their understanding of the intersections of morality, politics and law. This degree program is of special interest to students planning to pursue postgraduate work in law, policy or politics.

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Physics (Secondary Education), BS (LAPHYSEBS)

Campus: Tempe

Program Description:

The BS in physics with a concentration in secondary education provides rigorous training in physics and in education. Physics is the cornerstone of STEM disciplines --- science, technology, engineering and mathematics, and the shortage of highly qualified physics teachers in every state is an ongoing problem. This degree concentration is designed to produce more and better qualified physics teachers to meet local and national needs. Students who graduate from this program will be recommended by the Mary Lou Fulton Teachers College for certification by the State of Arizona.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Fewer than half of in-service physics teachers have degrees in physics. Program graduates will have tremendous opportunities for employment; with more than one million students in a state ranked seventh in the nation in population growth, the need for certified teachers in Arizona is self-evident. During the last 15 years, ASU graduates have had their pick of teaching jobs around the valley and in the state. After student teaching in school districts in the greater Phoenix area or with one of the 22 Native American nations, students are often hired to teach in the same school where they completed their internship. As the predicted rate of population growth climbs and the number of teachers retiring increases, new teachers will continue to be in demand.

Psychology, BA (LAPGSBA)

Campus: Tempe

Program Description:

In the Psychology BA degree program at ASU's Tempe campus, students use scientific methodology to explore fundamental questions about the brain, mind and behavior. Students work with faculty and other psychology majors in a collaborative, diverse environment in course work, research and other engagement activities to explore such fascinating questions as:

- Can robotics explain how we field in baseball?
- How do stress and emotions affect adolescent adjustment?
- How do we recognize and regulate emotions?
- How does body image relate to eating disorders?
- How does chronic stress affect the brain?
- How has evolution shaped our choice of partner?
- What are the physical and psychological consequences of adolescent substance use?

The Bachelor of Arts in psychology degree option is ideal for students looking for a liberal arts focus with a second-language requirement while studying psychology.

Additional Program Fee: Y

Second Language Requirement: Y

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Transfer applicants must meet university transfer admission requirements and have successfully completed the following courses (or their equivalents) with a grade of "C" or better: PSY 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170 Precalculus. Transfer students should select an additional major when applying for admission. Related disciplines include: anthropology, biology, sociology, and philosophy.

Readmission applicants must meet university readmission requirements, ASU cumulative GPA of 2.00 or better and have completed the following courses (or their equivalents) with a grade of "C" or better: PSY 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170 Precalculus. Readmission students should select an additional major when applying for readmission. Related disciplines include: anthropology, biology, sociology, and philosophy (College of Liberal Arts and Sciences, Tempe campus) OR applied psychology (BS) - Polytechnic campus, psychology (BA/BS) - West campus.

Students with fewer than 45 hours who are not admissible to a Department of Psychology psychology major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social/behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 hours who are not admissible to a Department of Psychology psychology major and who did not select a second major or are not admissible to their second major choice will be contacted to select an appropriate major. Related disciplines include: anthropology, biology, sociology, and philosophy, (College of Liberal Arts and Sciences, Tempe campus) OR applied psychology (BS) - Polytechnic campus, psychology (BA/BS) - West campus.

Current ASU students who wish to change their current major to a Department of Psychology psychology major must have an ASU cumulative GPA of 2.00 or better and have completed the following courses (or their equivalents) with a grade of "C" or better: PSY 101 Introduction to Psychology, ENG 101 First-Year Composition, MAT 170 Precalculus.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Psychology, BS (LAPGSBS)

Campus: Tempe

Program Description:

In the BS degree program in Psychology at ASU's Tempe campus, students explore leading-edge issues about the brain, mind and behavior from a scientific, psychological point of view emphasizing quantitative skills. Students work with faculty and other psychology majors in a collaborative, diverse environment of coursework, research, and other engagement activities to explore fascinating questions as:

- Can robotics explain how players field in baseball?
- How do stress and emotions affect adolescent adjustment?
- How do we recognize and regulate emotions?
- How does body image relate to eating disorders?
- How does chronic stress affect the brain?
- How has evolution shaped our choice of partner?
- What are the physical and psychological consequences of adolescent substance use?

The Bachelor of Science in psychology degree option is ideal for students looking for a liberal arts focus with a more intensive math requirement

while studying psychology.

Psychology (Psychological Science), BS (LAPGSPSBS)

Campus: Tempe

Program Description:

The BS in psychology with a concentration in psychological science emphasizes critical-thinking and analytic and quantitative skills involved in psychological research to prepare students for graduate study. Students take advanced course work in statistics and receive hands-on research experience by working with faculty members in the laboratory. Students are exposed to theories and research addressing topics such as:

- How can people use social influence to increase compliance?
- How do children develop?
- How do people remember information over long periods of time?
- How do the mind and body react to stress?
- Which types of treatments are most effective for individuals who are depressed?

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences Or MAT 270 Calculus with Analytical Geometry

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The BS in psychology with a concentration in psychological science is open to students who have:

- completed a BS in psychology critical courses (ENG 101, ENG 102, MAT 251 or MAT 270, PSY 101, PSY 230, PSY 290) with a "C" or better
- earned at least 45 credit hours
- earned at least an ASU 3.00 cumulative GPA

Students must maintain at least a 3.00 cumulative GPA from admittance through graduation.

Career Opportunities:

The bachelor's degree program in psychology with a concentration in psychological science prepares students who aspire to careers as researchers, teachers or clinicians for graduate study. The program is also ideal preparation for professional postgraduate programs in the fields of law and medicine.

Religious Studies, BA (LARELBA)

Campus: Tempe, Online

Program Description:

Religion is a fundamental part of the human experience. It informs and shapes politics, literature, philosophy, art and science as well as the daily life of millions around the globe. An understanding of religious traditions is critical to understanding our shared past and present and navigating toward our shared future.

Students who pursue the BA in religious studies come from a wide diversity of faiths, cultural backgrounds and intellectual interests. What many find fascinating and exciting about religious studies is that it draws from a wide variety of disciplines --- history, philosophy, anthropology, literature, political science and theology, to name a few. Course offerings reflect a diversity of approaches (historical, anthropological, ethical and theological); regions (North America, South America, Europe, Middle East, Africa, South Asia and Southeast Asia) and traditions (Buddhism, Christianity, Hinduism, Islam, Judaism and Native American traditions).

Additional Program Fee: N**Second Language Requirement:** Y**First Required Math Course:** MAT 142 - College Mathematics**Program Math Intensity:** General**Admission Requirements:**

Russian, BA (LARUSBA)

Campus: Tempe**Program Description:**

With more than 300 million speakers worldwide, Russian is the fourth most spoken language in the world, after Chinese, English and Spanish, and it is the lingua franca of the former Soviet empire. The BA program in Russian offers students a unique opportunity to study the language, literature and culture of Russia, and students in the program gain intermediate to advanced reading, writing, oral and aural Russian language skills.

The Russian language program also partners with the Melikian Center to offer a transdisciplinary baccalaureate certificate in Russian, Eurasian and East European Studies (REEES) for students in agribusiness, anthropology, architecture, economics, geography, history, political science, religious studies, Russian, sociology and women's studies.

Students of Russian are encouraged to study abroad for a semester or year in Moscow or St. Petersburg or in Kazan, in the new ASU exchange program in Russian language and translation.

Additional Program Fee: N

Second Language Requirement: Y

Since the fall of the Soviet Union in 1991, Russian remains a strategic, critical language, with government scholarships to study abroad, to do research and internships, and to find jobs in government agencies. Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Career fields and occupations using languages include:

- administration of nongovernmental organizations
- advertising and marketing
- airlines
- cultural advisor
- diplomatic and foreign service
- domestic and international business
- film, television and multimedia
- foreign correspondent and journalist
- hotel and resort management
- intelligence
- international banking
- international education and study abroad administration
- international law
- interpreting and translation
- medicine and health professions
- military
- ministry
- public relations
- publishing
- social work
- teaching and research
- travel and tourism
- technology industries

Additional education and certification may be required for some career paths.

Spanish, BA (LASPABA)**Campus:** Tempe, Online

Program Description:

Students pursuing a BA degree in Spanish have the opportunity to gain oral, reading, speaking and written proficiency in the language. The Tempe campus program offers two study options: the Spanish linguistics track and the Spanish literature and culture track.

- The linguistics track provides an in-depth understanding of the Spanish language (syntax, morphology).
- The literature and culture track addresses historical and contemporary issues throughout the Spanish-speaking world as seen through the lenses of the themes of Spanish, Latin American and Mexican American culture and literature.

A Bachelor of Arts degree in Spanish is also available for ASU Online students that combines courses from both the linguistics track and the literature and culture track.

Students majoring in Spanish may also work toward a professional certificate in Spanish-to-English translation.

Students are encouraged to contact a school advisor to discuss which option is best for them. ASU offers opportunities throughout the year to study in Spain, Mexico and other Spanish-speaking countries through study abroad and exchange programs. More information regarding study abroad opportunities is available at <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA (LATCLMBA)

Campus: Tempe

Program Description:

The BA program in transborder Chicana/o and Latina/o studies focuses on the political, cultural, economic, sociological, historical, psychological, and artistic experiences of Mexican-origin and Latina/o populations in the United States and the U.S.-Mexico transborder region. Students will be able to understand the complexities of the Chicana/o and Latina/o experience on the U.S.-Mexico border and beyond, with implications for other border communities around the world.

In the media and expressive culture concentration, students will focus their study on the cultures of Latina/o communities. Students will learn about the cultural diversity of Chicana/o, Mexican, Puerto Rican, Cuban, Dominican, Central American and other Latina/o populations in the United States and their contributions to the arts by analyzing:

- film and the media
- history
- literature (novels, short stories, poetry)
- performance
- visual art

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Degrees:

This degree is also offered as concurrent degree with Journalism and Mass Communication, BA

Admission Requirements:

General University Admission Requirements:
 All students are required to meet general university admission requirements.

Transborder Chicana/o and Latina/o Studies (Transborder Community Development and Health), BA (LATCLTBA)

Campus: Tempe

Program Description:

The BA degree program in transborder Chicana/o and Latina/o studies focuses on the political, cultural, economic, sociological, historical, psychological, and artistic experiences of Mexican-origin and Latina/o populations in the United States and the U.S.-Mexico transborder region. Students will be able to understand the complexities of the Chicana/o and Latina/o experience on the U.S.-Mexico border and beyond, with implications for other border communities around the world.

In the transborder community development and health concentration, students will focus their learning on the health inequalities and issues affecting Mexican-origin, Chicana/o and Latina/o communities. Students will also develop an understanding of the relationship between the places where people live, play, work, and heal and the impact they have on people's health and well-being. Overall, students will be able to design, implement and evaluate community-based health programs.

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- 3.75 minimum ABOR GPA
- no English competency deficiencies
- 1040 SAT Reasoning or 22 ACT score

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

ASU students:

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's non-elective general studies requirements.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The U.S. and Mexican regional immigration policy and economy concentration equips students with skills and knowledge necessary for graduate work in fields such as law, as well as career opportunities in:

- education (administration and teaching)
- local, state and national government agencies
- public affairs
- public policy and administration
- social work and nonprofit organizations

Urban Planning, BSP (ARPUPBSP)

Campus: Tempe, Online

Program Description:

Urban planning is shaping the way our cities, states and communities operate, how people navigate the globe, and how cities are planned for success. Urban planners guide communities in making wise decisions about their use of land and resources. The BSP program in urban planning provides students with expertise in both the analysis and the synthesis of the physical, social, political and economic issues that shape urban and regional development. Planning includes:

- computer and research methods
- environmental impact assessment
- geographic information systems
- housing
- landscape architecture and urban design
- planning and zoning law
- public policy formulation and administration
- transportation
- urban and development economics
- utilities

Students take courses that include:

- comprehensive planning
- computer and analytical methods
- planning law
- public policy formulation and administration
- site planning
- socioeconomic and environmental analyses
- urban design

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Urban and Environmental Planning (MUEP)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(http://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-urban-planning?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Graduates in urban planning pursue career opportunities with private planning firms and governmental planning agencies (mainly at the city level, but also with county, state and federal entities). Some planners elect to pursue graduate degrees to develop specialty skills and to enhance their opportunities for career advancement. The urban planning degree, especially when combined with a focus on geographic information science, gives graduates an advantage in careers that combine urban planning with GIS and in other jobs dealing with urban issues, including:

- comprehensive and long-range planning
- economic development planning
- housing issues
- planning law
- public participation in the planning process
- socioeconomic and environmental analyses
- sustainable planning
- transportation

Women and Gender Studies, BA (LAWSTBA)

Campus: Tempe, Online

Program Description:

Through course work and scholarly research students in the BA degree program in women and gender studies gain critical knowledge and a deep understanding of feminist theory and practice. Students are offered the opportunity to challenge conventional wisdom about gender and explore new ways of viewing the world through the study of:

- culture
- economics
- film
- history
- literature
- politics
- science

Internship and leadership opportunities allow students to pursue career goals in:

- business
- government
- nonprofit organizations

Additional Program Fee: N

Second Language Requirement: Y

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with Science and Technology Policy, MSTP

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Nursing and Health Innovation, College of

Applied Science (Health Innovation), BAS (NUHCIBAS)

Campus: Downtown Phoenix, West

Program Description:

The BAS program in applied science with a concentration in health innovation is designed for students with an AAS degree in allied health fields who want to lead transformative change in health through the creation of new products, processes and systems.

Students will integrate their current health care background with innovation and leadership education, reflecting on who they are as an innovator and a leader. Students will have the opportunity to examine current evidence-based practice and health care policy through a lens of innovation using an integrated systems perspective, and they will begin to hone the skills necessary to be a leader of innovation in a health care context.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Any math course with the MA general studies designation will satisfy the math requirement.

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Community Health, BS (NUCHLTBS)

Campus: Downtown Phoenix, West, Online

Program Description:

The BS degree program in community health is designed for students who want to create healthy, sustainable communities with an emphasis on working with specific populations. Community health professionals work in partnership with private and public organizations to address health needs of diverse populations by providing advocacy, capacity building, service coordination, education, monitoring, evaluation and interventions within a community setting. This degree uses the same prerequisites as pre-nursing and the nursing major; therefore, students who become off-track may seamlessly transition to this major and obtain a Bachelor of Science degree in a health-related field.

Changes to the health care system call for an increased need for community health professionals who can advocate for patients, families and communities as well as provide health education services. It is anticipated that the demand for community health professionals will increase with the continued implementation of the Affordable Care Act. Graduates of this program will provide health education, health promotion, care coordination, disease management, health care navigation and advocacy services for patients, families and communities.

Integrative Health, BS (NUIHLTBS)

Campus: Downtown Phoenix, West, Online

Program Description:

Integrative health is an emerging field focused on integrative and holistic health, providing students with a broader perspective on treatment using approaches from allopathic and complementary medicine to elicit the best health outcomes.

The BS program in integrative health provides a foundation in integrative health, a holistic approach to wellness that focuses on the mind, body and

spirit. The program provides students with a foundation of innovative and interprofessional approaches to serving and supporting diverse populations. Students will learn to differentiate the ethics, legalities and standards of practice of integrative health and to think critically about different therapies, modalities and practitioners. Course work and experiences include an emphasis on research and evidence-based practices and gaining an understanding of the historical and cultural foundations of the integrative health field.

Nursing, BSN (NUNURDBSN)

Campus: Downtown Phoenix, The Gila Valley, Online

Program Description:

Through a curriculum centered upon evidence-based practice, clinical reasoning, innovation, interprofessional communication and information technology, the BSN degree program prepares students to provide high-quality professional nursing care. The Bachelor of Science in nursing may be earned through several unique pathways.

Prelicensure Nursing Programs:

In the traditional prelicensure clinical nursing program, students complete prerequisite course work and then advance to the upper-division nursing program. The upper-division nursing program may be completed in a 16 month year-round schedule or a 24 month academic year schedule.

Students admitted directly into a traditional prelicensure clinical nursing program must meet continuing eligibility criteria to advance to the upper-division nursing program. Directly admitted nursing students who do not meet continuing eligibility criteria, transfer students, or students who are changing majors may apply for advancement to the upper-division nursing program, competing for any remaining spaces.

The postbaccalaureate nursing program is a prelicensure nursing program for students who have earned a bachelor's degree. After completing prerequisite course work, students apply for advancement to the 12 month upper-division nursing program. Students are admitted to the post-baccalaureate nursing program annually in the spring semester.

Online RN to BSN program

The online RN to BSN program (<http://bsn.asu.edu/>) is available to students who have earned an associate degree in nursing or a nursing diploma and have a current RN license in good standing with the Board of Nursing. The RN to BSN program courses are offered online in 7.5 week sessions and can be completed in 16 to 24 months. There are five starts per year: twice in the fall, twice in the spring, and once in the summer. Assignments vary from course to course and may include readings, papers, presentations, and practice application activities completed in the student's geographic area. Transfer pathway agreements are in place with all community colleges in Arizona, which provide additional benefits to students. The RN to BSN program does not have approval from the Boards of Nursing in Tennessee, Rhode Island or Washington to be offered to RNs licensed in those states. Visit <http://bsn.asu.edu> (<http://bsn.asu.edu/>) for more information.

Concurrent Enrollment Program

The concurrent enrollment program pathway is offered through participating community colleges. This program is designed for qualified nursing students who are interested in earning their Bachelor of Science in nursing while simultaneously pursuing their AAS in nursing. Selected students will be enrolled in the community college program and ASU RN to BSN courses concurrently. RN to BSN courses taken at ASU will be delivered in an online format.

Eastern Arizona College Partnership

The ASU and Eastern Arizona College partnership has two options: the concurrent enrollment program and the RN to BSN. The Concurrent Enrollment Program is designed for qualified students pursuing an Associate of Applied Science in Nursing from EAC while simultaneously earning a Bachelor of Science in nursing from ASU. Another option allows students with an associate degree or diploma in nursing to pursue the ASU BSN at Eastern Arizona College on the Thatcher campus.

Visit <https://transfer.asu.edu/eac> (<https://transfer.asu.edu/eac>) for more information about ASU degrees offered through ASU@TheGilaValley.

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the College of Nursing and Health Innovation are higher than minimum university standards. Freshmen admission requirements: top 25% of high school class OR 3.30 GPA in ASU competency courses (based on 4.0 grading scale) AND either a 24 ACT combined score OR an 1100 SAT (prior to March 2016) or 1170 SAT (March 2016 and later) combined evidence-based reading and writing plus math score.

Freshmen should select an additional major when applying for admission.

English Language Proficiency for applicants whose native language is not English:

- minimum score of 540 (paper-based), 207 (computer-based), or 76 (internet-based) on the Test of English as a Foreign Language (TOEFL)
- minimum overall band of 6.5 with no band below 5.5 on the International English Language Testing System (IELTS).

Students not admissible directly to the BSN Nursing program will be placed into the BS program in Community Health.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Public Service and Community Solutions, College of

Applied Science (Emergency Management), BAS (PPEMGBAS)

Campus: Downtown Phoenix

Program Description:

The BAS program is a flexible, 60 credit hour degree program. The curriculum designed specifically for students who have earned an AAS from a regionally accredited institution. The required capstone class provides experience to students through coordinated internships.

In cooperation with the Arizona Division of Emergency Management, ASU hosts and maintains Arizona's Alternate State Emergency Operations Center on the Polytechnic campus. This contextual learning laboratory is used for demonstrating practical applications of theory taught within the Bachelor of Applied Science curricula as well as providing a platform for conducting exercises and demonstration of emerging technologies in emergency management.

Students applying to this program must have completed an Associate of Applied Science from a regionally accredited institution. This program is not available to freshmen.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Community Advocacy and Social Policy, BA (PPCASPBA)

Campus: Downtown Phoenix, West, Online

Program Description:

The BA program in community advocacy and social policy focuses on advocacy strategies by exploring, analyzing and comparing social service systems and policies in-depth and from an empowerment perspective. Emphasis will be on examining the needs of individuals, families and communities that have been historically under-served. Policy analysis and social change will be critical themes in developing an advocacy knowledge base, as are the equally important themes of prevention and social well-being. Students complete courses in two core areas: diversity and oppressed populations, and social issues and interventions.

Community Sports Management, BS (PPCSMBS)

Campus: Downtown Phoenix

Program Description:

The community sports management degree focuses on the many roles recreational and amateur sports play within a community as a mechanism to contribute to quality of life, domestically and abroad. Emphasis will be on the role of sports in youth development; the role of sports organizations and programs in community development; the impact of sports tourism and multisport events on community development; and the role of sports in delivery of nonprofit agency services. Both a program and a managerial emphasis will be targeted, with a focus on delivery of services across the lifespan. Some specific areas of opportunity include work with youth sports, adaptive sports, sports events, sports tourism and sports clubs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

Numerous opportunities are available in community sports. Community sports programs are part of many nonprofit organizations, such as the Boys and Girls Clubs of America and the YMCA or YWCA. Also prevalent are city parks and recreation programs that include youth and adult sports as well as clubs and organizations that focus on youth sports. Sports tourism organizations are part of many communities. Many cities and nonprofit organizations offer sports events, youth sports tournaments (including international and multisport events), and adaptive or therapeutic sports programs produced by organizations such as Special Olympics, Wounded Warriors Project and Daring Adventures (known for its River Rampage program). Though the focus of this program is not on professional sports management, there are employment opportunities with organizations such as these in areas like event management and facility management.

Criminology and Criminal Justice, BS (PPCRIMJBS)

Campus: Downtown Phoenix, Lake Havasu, West, Yuma, Online

Program Description:

Please note: Students interested in completing the BS program in Yuma are encouraged to complete a TAG program. Please see admission requirements below.

The criminology and criminal justice program is for students who want to understand the causes of crime, the role of criminal justice agencies in the control of crime, and the consequences of crime. They will learn sociological, psychological, biological and economic explanations for individual crime as well as differences in crime across neighborhoods, states, countries and over time. They will learn about the history, legal issues and current practices of crime control via police agencies, the court system, prisons, probation and parole.

These topics are delivered by top-ranking research faculty who offer students hands-on research opportunities and by experienced criminal justice professionals with intimate knowledge of the daily realities of crime and criminals. Students are encouraged to take advantage of internship opportunities in more than 200 agencies, study abroad programs, and flexible course scheduling offered in-person, online and across multiple campuses.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Criminal Justice (MA)

Criminology and Criminal Justice (MS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Yuma Students: ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in criminology and criminal justice, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Science in criminal justice and criminology. Upon completion of the TAG, students will complete the remaining requirements for ASU's bachelor's program. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at local community colleges.

This program may also accept transfer credit in lieu of a TAG agreement. Please contact the department for details.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Cochise College (<http://transfer.asu.edu/cochise>)

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Mohave Community College (<http://transfer.asu.edu/mohave>)

Yavapai College (<http://transfer.asu.edu/yavapai>)

Coconino Community College (<http://transfer.asu.edu/coconino>)

Northland Pioneer College (<http://transfer.asu.edu/northland-pioneer>)

Pima Community College (<http://transfer.asu.edu/pima>)

Career Opportunities:

Graduates of the criminology and criminal justice program find a strong job market in the public and private sectors. Employment opportunities exist in:

- bank fraud
- corrections
- courts
- domestic terrorism
- federal agencies
- homeland security
- law enforcement
- legal offices
- parole offices
- private security
- probation offices

- victim advocate agencies

Graduates may also pursue advanced degrees in law, criminology and criminal justice, and other social science disciplines.

Nonprofit Leadership and Management, BS (PPNLMBS)

Campus: Downtown Phoenix

Program Description:

Through the BS program in nonprofit leadership and management, students are empowered to become successful professionals who work to advance the quality of life in communities. The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. It is this sector, with more than 1.6 million organizations in the U.S., that employs more people than the finance, insurance and real estate industries combined.

Philanthropy (voluntary action for the public good) is a hallmark of the nonprofit sector as individuals give their time, money and know-how to causes about which they care. Students in the nonprofit leadership and management program learn about the nonprofit sector through curriculum instruction and field experience. The required internship component of the program leads students to professional opportunities within the nonprofit sector. Within the undergraduate degree requirements, students may also choose to pursue the National Certified Nonprofit Professional credential through ASU's affiliation with the Nonprofit Leadership Alliance (formerly American Humanics, Inc.). For more information, access the school's website.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Community Resources and Development (MS)

Community Resources and Development (Nonprofits and NGOs)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Career Opportunities:

Depending on their interests, graduates seek work in diverse settings that include a wide range of missions, including arts and culture, environmental, health, youth development, etc. Some graduates find employment with local, grassroots, direct-service nonprofits while others find work with grant-making foundations. Many work in affiliates of well-known national organizations such as:

- American Red Cross
- America's Second Harvest
- Humane Society of the United States
- March of Dimes
- National Urban League
- United Way
- youth-serving entities such as Big Brothers Big Sisters, Boys and Girls Clubs, Boy Scouts of America, Girl Scouts of the USA, Camp Fire USA and the YMCA of the USA

Increasing opportunities in the nonprofit sector include careers across the spectrum of community issues such as the arts, environment, health care and others. Typical positions include roles as:

- field executives
- fund development directors
- program directors
- program officers for grant-making organizations
- volunteer program managers

Nonprofit Leadership and Management (American Indian Studies), BS (PPNLMAIBS)

Campus: Downtown Phoenix

Program Description:

Through the BS program in Nonprofit Leadership and Management, students are empowered to become successful professionals who work to advance the quality of life in communities. The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. Students in the nonprofit leadership and management program learn about the nonprofit sector through curriculum instruction and field experience. Many students in the nonprofit sector work with American Indian populations. The concentration in American Indian studies will familiarize students with American Indian world views, current issues and tribal governance.

The required internship component of the program leads students to professional opportunities within the nonprofit sector. Students may also choose to pursue the National Certified Nonprofit Professional credential through ASU's affiliation with the Nonprofit Leadership Alliance.

Additional Program Fee: N

Parks and Recreation Management, BS (PPRMBS)

Campus: Downtown Phoenix

Program Description:

The BS program in parks and recreation management provides a transdisciplinary education in the management of parks, protected areas, community-based recreation services and special-event management. The parks and recreation field emerged from the youth development, recreation and park movements of the late 19th century. Students learn to integrate the managerial, natural, and social sciences to make informed decisions for recreation service delivery.

The curriculum of classroom instruction and field experiences covers:

- communication
- history
- inclusive services
- management
- parks and recreation policy
- planning
- programming

The required internship component of the program allows students to gain practical experience in the parks and recreation professions. The bachelor's degree program in parks and recreation management prepares students for professional positions in a variety of public, private and nonprofit organizations. The National Recreation and Park Association accredits this degree program. There are three areas of emphasis:

- community recreation services management
- natural resource recreation management
- special event management

Students interested in the BS in parks and recreation management may also be interested in the school's therapeutic recreation program. See the school website for details.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

This degree program prepares students for professional positions in a variety of public, private and nonprofit organizations. Graduates are employed in a variety of settings in Arizona, nationally and abroad. Graduates find employment in such diverse settings as:

- armed forces recreation
- city park and recreation departments
- county and state park agencies
- federal natural resource agencies
- hospitals and care facilities
- nonprofit recreation programs
- private and commercial recreation facilities
- special event management
- sport venues
- youth agencies

In such settings, graduates design, develop and manage services that address the recreational needs of a particular clientele.

Parks and Recreation Management (Therapeutic Recreation), BS (PPRMTRBS)

Campus: Downtown Phoenix

Program Description:

The BS in parks and recreation management with a concentration in therapeutic recreation is the only program in Arizona that prepares students for national professional certification in therapeutic recreation. The program is designed for students who have an interest in providing therapeutic interventions and adaptive recreation services for individuals with social problems, illnesses and disabling conditions. The required internship component of the program allows students to gain practical experiences in the therapeutic recreation field. Students who choose this concentration are truly committed to improving people's lives and contributing to their communities.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Public Service and Public Policy, BS (PPPAFBS)

Campus: Downtown Phoenix, Online

Program Description:

The BS in public service and public policy prepares students for work in government at all levels and in nonprofit organizations through comprehensive coverage of topics in public policy, public leadership and management, and urban studies.

Students discover the challenges of management and learn how to lead a public organization and understand the process of policy development. This program examines the public sector and addresses, in a practical way, the challenges facing the public. The program is unique because it enables students to study public service, policy and administration with a professional focus.

Students select one of the following concentration areas to supplement their core courses:

- American Indian studies
- business
- criminology
- emergency management
- health policy
- law and policy
- nonprofit leadership and management
- parks and recreation management
- public leadership and management
- public policy
- science and technology
- social services delivery
- sustainability
- urban studies

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

This degree program provides students with the knowledge and skills to transform government and policy at all levels. The public service sector offers sustainable, exciting and fulfilling career options. Upon graduation, students will be empowered to use knowledge of the public sector as a catalyst to change the world. By understanding the challenges facing government and being well-versed in the development of multiple, useful and realistic solutions, students will contribute to the development of local, national and global communities.

The bachelor's degree program in public service and public policy prepares students for entry- and mid-level supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion.

For those who already have work experience, the degree provides further opportunity for promotion. In addition, the program prepares students for future graduate study in law, public policy and public administration.

Retiring baby boomers plus increasing demand for public services have resulted in an increase in job opportunities for graduates in the public sector. The federal government is the nation's largest employer with nearly 2 million people employed across the country, and nearly 85 percent of those jobs exist outside the Washington, D.C. area. The federal government is anticipated to hire tens of thousands of new employees for mission-critical positions in the next few years. Students with preparation in academic areas related to public service will have an advantage in that market.

Public Service and Public Policy (Health Policy), BS (PPPAFHPBS)

Campus: Downtown Phoenix

Program Description:

The School of Public Affairs offers a concentration in health policy as part of the BS in public service and public policy. This allows students to build a course of study that emphasizes their own areas of interest. The health care industry is continuing to be a major part of the U.S. and world economy.

The concentration in health policy will provide students who have an interest in policy to focus on health-related issues and their policy implications. The courses in the concentration are offered by the School of Nutrition and Health Promotion and the School of Human Evolution and Social Change. All the courses are part of the college's regular degree offerings. Thus, students emerge from the program prepared to address policy issues in this substantive area with an understanding of the range of public service careers (including government, nonprofit and for-profit options), the economics of public affairs, the challenge of leadership in the public context, and the dynamics of administering public programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Retiring baby boomers and an increasing demand for public services have resulted in an increase in job opportunities for graduates in the public sector. The federal government is the nation's largest employer with nearly two million people employed across the country, and nearly 85 percent of those jobs exist outside the Washington, D.C. area. The federal government is anticipated to hire tens of thousands of new employees for mission-critical positions in the next few years. Students with preparation in academic areas related to public service will have an advantage in that market.

Social Work, BSW (PPSWUSWU)

Campus: Downtown Phoenix, West, Tucson

Program Description:

Please note: Students interested in completing the BSW program in Tucson are encouraged to complete a Transfer Admission Guarantee program. The Tucson location option is only available to transfer students. For admission requirements, please see <https://socialwork.asu.edu/bsw> (<https://socialwork.asu.edu/bsw>).

Social work practitioners are committed to the enhancement of individual, family and group problem-solving capacities and the creation of a more nurturing, just and humane social environment. The undergraduate curriculum leads to a Bachelor of Social Work. Juniors and seniors majoring in social work focus on social work courses in social policy and services, human behavior in the social environment, social work practice, research and field instruction in community agencies. In addition, majors take elective courses in related areas.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Tucson Students: ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in social work, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Social Work. The Tucson program option is only available to transfer students. Upon completion of the TAG, students will complete the remaining requirements for ASU's bachelor's program. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at local community colleges.

This program may also accept transfer credit in lieu of a TAG agreement. Please contact the School of Social Work for details.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Pima Community College (<http://transfer.asu.edu/pima>)
Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

The program prepares students to be generalist social work practitioners, focusing on advocacy, referrals, case management and problem-solving functions with individuals, groups, families, organizations and the community.

Employment in social work is expected to increase commensurately with the needs of a growing and diverse population.

Social workers are employed in public and private agencies dealing with a wide variety of social issues, including:

- adoption
- aging
- AIDS
- child abuse
- corrections
- delinquency
- disability
- discrimination
- domestic violence
- family dysfunction
- foster care
- health
- homelessness
- mental health
- poverty
- school-related problems
- substance abuse
- teen pregnancy

Social work skills such as problem-solving, resource utilization, counseling, group work and community organization are also useful for positions with industry in employee relations and mediation.

Tourism Development and Management, BS (PPTDMBS)

Campus: Downtown Phoenix

Program Description:

Through the BS program in tourism development and management, students acquire the planning and management skills related to the growth and development of tourism throughout the world. The curriculum prepares students for employment across a wide variety of occupations in the rapidly expanding travel and tourism industry while taking full advantage of its strong connections with the professional tourism community in Phoenix.

The required internship component of the program allows students to gain practical experiences leading to professional positions in various travel, tourism and related fields. Exposure to the practices of heritage tourism, sustainable tourism, resort management, and meeting and convention planning prepares students for successful careers in the travel and tourism industry. While pursuing the bachelor's degree in tourism development and management, a student may also choose to complete a certificate in convention sales and meeting planning. Additionally, students have the opportunity to participate in a study abroad program.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Community Resources and Development (MS)
- Community Resources and Development (Sustainable Communities)
- Community Resources and Development (Tourism)
- Sustainable Tourism (MAS)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

The travel and tourism industry is the largest employer in the world and the second largest in Arizona. Based upon interests, graduates can seek work in the public, nonprofit or private and commercial sectors. Graduates find employment in such diverse settings as resorts, meeting planning, convention and visitor bureaus, tour operations and commercial recreation businesses. In such settings, graduates design, develop and manage services that address the needs of a particular clientele. The metropolitan Phoenix area is a major hub of tourism in the southwestern U.S. and has experienced rapid growth in:

- business and corporate travel
- meetings and conventions
- resorts and hotels
- sports tourism
- state and national parks
- the air transportation sector
- the gaming and casino sectors

Tourism Development and Management (Resort and Hotel Leadership), BS (PPTDMRBS)

Campus: Downtown Phoenix

Program Description:

The concentration in resort and hotel leadership will attract students and professionals who have interests in the diverse areas of knowledge needed within the accommodations sector, such as:

- career opportunities
- ecological, social and economic sustainability practices in the industry
- management and leadership specifically for the accommodations sector
- meeting the expectations of hotel and resort guests
- the interrelated functions within departments of the lodging, food and beverage industries

A concentration in resort and accommodations leadership will provide students an academic option to study in depth the resort and accommodations system and gain knowledge of the importance of the business relationships between suppliers, intermediaries and vendors, guests, and the public and private sectors. The concentration will prepare students to serve our community by developing the skills, knowledge,

techniques and capabilities needed for addressing major issues related to resorts and other tourism accommodations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Tourism Development and Management (Sustainable Tourism), BS (PPTDMSBS)

Campus: Downtown Phoenix

Program Description:

The tourism development and management major provides students with the theoretical understanding necessary to maneuver the complexities of one of the world's largest industries. A concentration in sustainable tourism allows majors to hone their understanding of the key concepts of sustainability and how these can be applied to tourism destinations and development. Students will learn the dominant theories and language that make up sustainability science and the skills necessary to measure, create and implement sustainability policies in tourism destinations, from the planning to the management stage of development. Students will take courses offered by the School of Sustainability in addition to courses in the School of Community Resources and Development, guaranteeing a strong foundation in the basic theories of the growing field of sustainability while applying these newfound skills to tourism development and management.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Career Opportunities:

The area of sustainable tourism is becoming increasingly important. Many tourism businesses are hiring sustainability coordinators; these businesses include hotels, airlines, convention and visitor bureaus and large attractions. Tour companies, such as those that implement ecotourism and volunteer tourism experiences, are especially interested in employees with a strong sustainable tourism background. Numerous sustainable tourism nonprofit organizations have emerged in recent years, and many government-related tourism organizations also hire those with a strong sustainability focus. Consulting opportunities are available to assist tourism businesses in developing sustainable practices as well.

Urban and Metropolitan Studies, BA (PPURBBA)

Campus: Downtown Phoenix

Program Description:

Located in the heart of downtown Phoenix, the urban and metropolitan studies program is for students who have a yearning to study and understand urban theory in order to effectively address the challenges of rapid growth along with other contemporary urban issues.

Students discover what makes the city tick --- and the city is their classroom. They examine challenges and solutions by researching history, society, culture, economy and politics in order to understand urban theory, and they use that knowledge to get involved in their communities. This gives them an outlet through which they can experience practical ways of solving complex problems faced by metropolitan regions. The students are invested in their neighborhoods. Many of them live and work downtown and they learn how to improve urban health and well-being, often training themselves to be the future leaders of urban environments. Others focus on making a wide variety of other contributions to society, studying the role of arts and culture, business and property development, revitalization and community-building in the life of the region.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Sustainability, School of

Sustainability, BA (SUSUSTBA)

Campus: Polytechnic, Tempe, Online

Program Description:

Students in ASU's School of Sustainability are rethinking and reinventing the future of a world at risk. The school's programs encourage experiential learning, study abroad, research with faculty, community engagement and leadership development. The knowledge and solutions that are created today will shape the quality of life for future generations.

The School of Sustainability offers two degrees in sustainability: a BA and a BS. Both programs introduce students to the concept of sustainability in the context of real-world problems and focus on developing practical solutions to some of the most pressing environmental, economic and social challenges of sustainability. The curriculum trains students to approach challenges with consideration of complex adaptive systems and resilience; interconnections and cascading effects between scales; management of tradeoffs; stakeholder engagement; future visioning and scenario typologies for transitioning social-ecological systems; and other cutting-edge frameworks.

The Bachelor of Arts is geared toward students interested in the social and human aspects of sustainability in global, regional and local contexts. Disciplinary perspectives included in the core courses of the degree tracks include anthropology, urban planning and design, environmental economics, ethics, geography, philosophy of science, political science, sociology and other disciplines relevant to the sustainability of environmental resources and social institutions.

Students select from one of the four following tracks:

- international development and sustainability
- policy and governance in sustainable systems
- society and sustainability
- sustainable urban dynamics

Students in the School of Sustainability not only gain an understanding of the field of sustainability and strong problem-solving, systems-thinking, stakeholder engagement and future scenario-building skills, they also develop strength in a more traditional discipline of their choice. They blend and apply these skills and streams of knowledge through required capstone experiences in the senior year. Capstone requirements consist of an internship with a sustainability-focused organization and a workshop in which students work together as a team to develop solutions to real sustainability problems. Students graduate with a portfolio of accomplishments and skills. They also have the opportunity to participate in study abroad programs, student organizations, professional development workshops and hands-on initiatives such as ProMod (<https://schoolofsustainability.asu.edu/student-experience/promod> (<https://schoolofsustainability.asu.edu/student-experience/promod>)). First Required Math Course: SOS 101 - Intro Appl Math Life & Soc Sci
Program Math Intensity: Moderate

Concurrent Degrees:

This degree is also offered as concurrent degree with Supply Chain Management, BS

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The School of Sustainability has higher admission requirements. Applicants must select a second choice for their major on the application. Students who are not admitted to the School of Sustainability and who did not select a second major or are not admissible to the second major choice will be admitted to the exploratory social and behavioral sciences program within the College of Integrative Sciences and Arts. Students with more than 45 transfer hours who are not admissible to the College of Integrative Sciences and Arts will be contacted to select an appropriate major.

Freshman applicants must meet the following standards:

Have a minimum high school ABOR GPA of 3.30 AND

- rank in the top 15 percent of their high school graduating class OR
- an SAT combined score of 1140 or higher (if taken prior to March 2016) or 1210 or higher (if taken in or after March 2016) OR
- an ACT combined score of 25 or higher.
- No high school math competency deficiency.

Transfer students (with 12 or more transfer hours after high school graduation) are required to have a cumulative transfer GPA of 3.30 or higher.

ASU students who would like to change their major to sustainability are required to have a cumulative ASU GPA of 3.30 or higher (based on at least 12 credit hours).

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program. Maricopa County Community College District (<http://transfer.asu.edu/maricopa>)

Career Opportunities:

In addition to going on to graduate school, graduates of the program are qualified for well-paying positions in:

- consultancy
- government
- industry
- intergovernmental organizations
- international development
- management
- municipalities
- nongovernmental organizations or nonprofits
- policy-making enterprises
- regulatory agencies
- utilities

Recent interest in sustainability within business and government has created new employment opportunities (e.g., sustainability coordinators, directors and managers). Of alumni who have shared their experiences with the school, 95 percent are employed in sectors such as those listed above and four percent have gone on to a graduate program. Sustainability students offer employers and graduate programs an integrated approach to developing solutions to sustainability challenges. They understand the complexity of systems, have engaged in a range of knowledge and experience from different disciplinary perspectives, and understand the importance of planning for the future and how to engage stakeholders in that process. Graduates of the program are adaptable and prepared for a changing world.

Sustainability, BS (SUSUSTBS)

Campus: Polytechnic, Tempe, Online

Program Description:

Students in ASU's School of Sustainability are rethinking and reinventing the future of a world at risk. The school's programs encourage experiential learning, study abroad, research with faculty, community engagement and leadership development. The knowledge and solutions that are created today will shape the quality of life for future generations.

The School of Sustainability offers two degrees in sustainability: a BA and a BS. Both programs introduce students to the concept of sustainability in the context of real-world problems and focus on developing practical solutions to some of the most pressing environmental, economic and social challenges of sustainability. The curriculum trains students to approach challenges with consideration of complex adaptive systems and resilience; interconnections and cascading effects between scales; management of tradeoffs; stakeholder engagement; future visioning and scenario typologies for transitioning social-ecological systems; and other cutting-edge frameworks.

The Bachelor of Science is geared toward students interested in the more quantitative aspects of sustainability, such as energy, economics and ecology. Disciplinary perspectives included in the core courses of the degree tracks include ecology, engineering, environmental economics, environmental science, conservation biology, hydrology, physical geography, earth-systems management and other disciplines relevant to the sustainability of environmental resources and social institutions.

Students select from one of the three following tracks:

- economics of sustainability
- sustainable ecosystems
- sustainable energy, materials and technology

Students in the School of Sustainability not only gain an understanding of the field of sustainability and strong problem-solving, systems-thinking, stakeholder engagement and future scenario-building skills, they also develop strength in a more traditional discipline of their choice. They blend and apply these skills and streams of knowledge through required capstone experiences in the senior year. Capstone requirements consist of an internship with a sustainability-focused organization and a workshop, in which students work together as a team to develop solutions to real sustainability problems. Students graduate with a portfolio of accomplishments and skills. They also have the opportunity to participate in study abroad programs, student organizations, professional development workshops, and hands-on initiatives such as ProMod (<https://schoolofsustainability.asu.edu/student-experience/promod> ([//schoolofsustainability.asu.edu/student-experience/promod](https://schoolofsustainability.asu.edu/student-experience/promod))). Teachers College, Mary Lou Fulton

Early Childhood and Early Childhood Special Education, BAE (TEECSEBAE)

Campus: Tempe

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

The BAE program for early childhood and early childhood special education prepares students for certification in both early childhood education (birth to age eight or grade three) and early childhood special education (birth to age eight or grade three).

This is a premier program taught by nationally renowned faculty who emphasize community connectedness, technology integration, policy analysis and advocacy related to young children with or without disabilities or developmental delays.

The program teaches child development, best practices in early childhood education and the skills to assess, monitor and report the progress of children with and without disabilities. It provides techniques and approaches to involve family members in the growth and development of young children.

The early childhood and early childhood special education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in preK-12 classrooms. Teachers College students complete internships during their junior year that require one to two days per week in a classroom and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools coach interns and student teachers during required preschool and K-3rd grade general education and special education clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

Graduates are recommended for teacher certification. Those desiring to teach in a public school must pass the appropriate Arizona educator exams, National Evaluation Series or Arizona Educator Proficiency Assessments, in both content area and professional knowledge to be certified to teach in the state of Arizona.

There is a strong demand for early childhood special education teachers in Arizona. A high percentage of students from this program receive job offers during their senior year residency. Many graduates with a degree in early childhood special education hold leadership positions in Head Start, private nonprofit and private for-profit center-based programs and public school early childhood environments. Early childhood certification or endorsement is required for teaching kindergarten in Arizona.

Education Exploratory, (TEEDUEXPL)

Campus: Polytechnic, Tempe, West

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

Students in the education exploratory track have the unique opportunity to explore different certification areas prior to selecting one of many majors within the Mary Lou Fulton Teachers College. During the program's course, TEL 101 The Teachers College Experience (1), and through specific events scheduled throughout freshman year, students on this track will be exposed to all programs and certification areas. Students will be able to make a more informed decision about the grade level or subject they want to teach while the exploratory track keeps them on track to graduate from any of the BAE programs. This track will not lead to a degree, and students will need to declare a major after completion of 30 credits.

Educational Studies, BAE (EDSLSTBAE)

Campus: Polytechnic, Tempe, West, Online

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

The BAE for educational studies is not a teacher certification program. It prepares students to work with children and youth outside of traditional classrooms. The program embraces the view that teaching happens not only in schools but in a variety of contexts that includes the workplace, cultural institutions and people's interactions with media.

The program provides a strong general foundation in education through research and discussion of current issues in education, educational psychology, human development and community-based educational opportunities. There are two delivery options for educational studies: face-to-face and online.

In the face-to-face option, the students select electives from the following areas:

- early childhood education
- educational technology
- environmental education
- games and impact
- physical activity and coaching

In the 100 percent online option, students are provided the opportunity to explore learning opportunities within their own community and to develop as leaders and advocates for children, youth or adults.

Educational Studies (Early Childhood Education), BAE (TEESECEBAE)

Campus: Additional Arizona Locations

Program Description:

The BAE in educational studies with a concentration in early childhood education is only offered in specific rural areas. Students interested in studying in the Phoenix metropolitan area should apply to the BAE educational studies program.

The Bachelor of Arts in Education in educational studies prepares students to work with children and youth outside of traditional classrooms. This program provides a strong foundation in education by examining current issues in education, educational psychology, child development and evidence-based practices.

Students in the program prepare for a variety of career paths working in nonprofit or government organizations, private educational or recreational settings, or as entrepreneurs in youth-oriented fields. With the specialization in early childhood education, graduates are also eligible to teach in a Head Start program or in similar organizations. In addition, this degree is a good fit for students who wish to pursue graduate-level programs in education or education-related fields. The knowledge and practical experience students gain throughout the program will positively impact children and families in rural sites.

Note: The educational studies program does not lead to teacher certification. Students seeking teacher certification should enroll in one of the other Mary Lou Fulton Teachers College undergraduate programs.

Additional Program Fee: N

Second Language Requirement: N

Elementary Education (Bilingual Education and English as a Second Language), BAE (TEDLLBAE)

Campus: Tempe

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

The BAE program for elementary education, bilingual education and English as a second language offers students a firm grounding in current research about and best practices for English language learners, accompanied by real-world classroom experiences.

Students can expect to learn principles of first and second language acquisition, foundations of various program models, global awareness and diversity in families and communities in multicultural settings, as well as academic content areas including math, language arts, computer literacy and science with a specific focus on meeting the academic and linguistic needs of English language learners.

The elementary education, bilingual education and English as a second language teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 1-8 classrooms and student teaching, which is a full-time, year-long apprenticeship known as their senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences with high concentrations of English language learners. Secondary Education (Additional Arizona Locations), BAE (TESEDBAE)

Campus: The Gila Valley, Yuma

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

Please note: This program is designed for students who complete an ASU Transfer Admission Guarantee (TAG) program. It is offered at specific Arizona locations in partnership with community colleges. Please see the admission requirements below.

The BAE program in secondary education prepares educators to teach youth enrolled in grades 6-12. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the skills and teaching abilities required to successfully teach middle or high school students.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, Mary Lou Fulton Teachers College collaborates with academic departments across the university. The program offers the following secondary education certification areas: biological sciences, chemistry, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, physical education, physics, political science and Spanish.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 6-12 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in secondary education, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Arts in Education in secondary education. Upon completion of the TAG, students will complete the remaining requirements for ASU's secondary education BAE at a local community college. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at local community colleges. Applicants must have completed the TAG agreement and earned an associate degree for acceptance to the bachelor's.

Transfer Agreements: ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Eastern Arizona College (<http://transfer.asu.edu/eastern-az>)

Arizona Western College (<http://transfer.asu.edu/az-western>)

Career Opportunities:

Graduates from secondary education are recommended for certification in an approved area for grades 6-12. The demand for well-prepared secondary teachers is strong, particularly in the areas of math and science. Job opportunities in a fast growing state such as Arizona are numerous. Graduates with a degree in secondary education work in:

- charter schools
- private school settings
- public schools

They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

The BAE program in secondary education prepares educators to teach youth enrolled in grades 6-12. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the skills and teaching abilities required to successfully teach middle or high school students. This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, the college collaborates with academic departments across the university. The program offers the following secondary education certification areas: biological sciences, chemistry, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, physical education, physics, political science and Spanish.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 6-12 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams (either the National Evaluation Series or Arizona Educator Proficiency Assessments) in both content area and professional knowledge to be certified to teach in the state of Arizona.

Special Education and Elementary Education, BAE (TESPEBAE)

Campus: Polytechnic, Tempe, West

Program Description:

The most effective educators stretch. They keep going. They're relentless. They suspect that there's always a better way---and they find it. They embrace responsibility for the world's most important job. Graduates of ASU's Mary Lou Fulton Teachers College receive best-in-class preparation that will enable them to thrive in their careers and play a vital role in improving the educational experience and outcomes of children.

The BAE dual program in special education and elementary education leads to the following teaching certificates: Mild-Moderate Disabilities Special Education, K-12 and Elementary Education, grades 1-8. The dual certification program prepares students to work with typical children and youth and those with mild to moderate disabilities in inclusive settings. This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

The dual program is designed to give preservice teachers foundational knowledge in academic content with current research and evidence-based practices in literacy, math, sciences, health and social studies; integration of technology into all areas; and real-world experience in classrooms through the iTeachAZ program.

The special education and elementary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in course work to practice in PreK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 1-8 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Because the general education classroom is a viable placement option for many students with mild and moderate learning and behavioral disabilities, training special education teachers to collaborate is emphasized throughout the professional preparation sequence. Students receive additional training in interpersonal communication and problem-solving skills. They also learn adaptive techniques and assistive technologies that facilitate the successful integration of students with diverse learning needs into general education classrooms.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams (either the National Evaluation Series or Arizona Educator Proficiency Assessments) in both content area and professional knowledge to be certified to teach in the state of Arizona. Graduates will receive mild to moderate certification in special education for K-12 students with mild to moderate intellectual disabilities, emotional disorders, specific learning disabilities, orthopedic impairments, and other health impairments. They also receive an elementary certificate for teaching grades 1-8.

Yavapai College (<http://transfer.asu.edu/yavapai>)

Central Arizona College (<http://transfer.asu.edu/central-az>)

Career Opportunities:

National and state studies report the projected need in the next five to 10 years will be high for special education teachers. Graduates of the program will be eligible to teach in elementary education grades 1-8 and K-12 for the spectrum of high-incidence disabilities:

- emotional disorders
- intellectual disabilities (mild or moderate)
- orthopedic impairments
- other health impairments

- specific learning disabilities

Graduates can teach in a variety of inclusive educational settings, including public, charter and private schools, as well as nontraditional settings (juvenile system, children's hospital, etc.).
