Curriculum Check Sheet

Note: ASU does not regard the AAS-to-BAS as a traditional transfer degree, so special provisions apply:

a) The AAS degree holder (the student) will be admitted only to the BAS program specified, e.g. health sciences. Only those students with a regionally accredited AAS from an approved (articulated) health/health technology program are eligible for this degree.

b) The institution from which the student received his/her AAS degree must be regionally accredited. A foreign institution must be approved and recognized as a postsecondary institution by the Ministry of Education or other governmental authorities.

c) All courses applied toward completion of the AAS must have been completed with a grade of "C" or higher. ASU will not accept courses with a grade of "D".

d) A block of up to 60 credit hours will be accepted for transfer with the completed AAS from an approved (articulated) health/health technology program. Students must confirm with the institution granting the AAS that it has an articulation agreement with ASU in place for the BAS in health science.

e) A minimum of 60 credit hours for the BAS degree must be completed at ASU. If the AAS degree is earned with fewer than 60 credit hours, the student must complete additional credit hours at ASU, so that the total credit hours of the AAS and BAS degrees are at least 120.

f) After admission to ASU, if a student wishes to transfer out of the BAS program into another program at ASU, the agreement to accept a block of up to 60 transfer credit hours from the AAS degree shall be void and no longer in effect. The student's transcript will be evaluated course-by-course and only transferrable courses will be accepted.

AAS Requirements

ASU does not regard the AAS-to-BAS as a traditional transfer degree, so special provisions apply:

1) The AAS degree holder (the student) will be admitted only to the BAS program specified. Only those students with a regionally accredited AAS from an approved health-related program are eligible for this degree.

2) The institution from which the student received an AAS degree must be regionally accredited. A foreign institution must be approved and recognized as a post-secondary institution by the Ministry of Education or other governmental authorities.

3) All courses applied toward completion of the AAS must have been completed with a grade of C or higher. ASU will not accept courses with a grade of D.

4) This program allows students who have earned an Associate of Applied Science from institution to transfer 60 or 75 credit hours toward a Bachelor of Applied Science at ASU. Students transferring from a regionally accredited Arizona public community college can transfer up to 15 additional credit hours of general studies courses (75 credit hours total). Students pursuing the 75 credit option may have more than 45 credit hours to complete their BAS upon transfer to ASU. Students should work with their academic advisor to ensure their courses will meet degree requirements.

5) If the AAS degree is earned with fewer than 60 credit hours, the student must complete additional credit hours at ASU, so that the total credit hours of the AAS and BAS degrees are at least 120.

6) After admission to ASU, if a student wishes to transfer out of the BAS program into another program at ASU, the agreement to accept a block of up to 60 transfer credit hours from the AAS degree shall be void and no longer in effect. The student's transcript will be evaluated course-by-course and only transferrable courses will be accepted.

7) To be eligible for the 60/60 degree completion pathway for AAS to BAS, the AAS degree program must include following general studies requirements completed with a C or better:
    - First Year Composition (6 hours)
    - Humanities (3 hours)
    - Social & Behavioral Sciences (3 hours)
    - Natural Sciences (4 hours)

    All courses used for General Studies within the AAS must satisfy AGEC (Arizona General Education Curriculum) criteria (or an equivalent articulated general studies transfer pattern) with the exception of mathematics.

Transfer Admission Guarantee (TAG) and Maricopa to ASU Pathways Program (MAPP)
Arizona State University has established special transfer partnerships with Arizona community colleges to facilitate the transition to ASU. Transfer Admission Guarantee (TAG) programs provide a prescribed set of course work that meet the requirements for an associate degree and AGEC (Arizona General Education Curriculum), as well as, lower-division course requirements for a specific ASU major. Maricopa Community College District (MCCD) students participate in the Maricopa to ASU Pathways Program (MAPP), a TAG designed specifically for students attending one of the MCCD community colleges.

Pathway Notes

Special Requirements: 2.0 GPA in coursework used to satisfy MAPP requirements. All courses must be completed with a grade of C or greater.

Special Requirements

The MAPP for the BA in Design Studies is provided as a transfer pathway for students wishing to complete their BA in Design Studies at Arizona State Unvieresity. Some students wish to pursue a Bachelor of Science in Design, and this is possible, but the five professional design degrees (Bachelor of Science in Design in Architectural Studies, Graphic Design, Industrial Design, Interior Design, Landscape Architecture) require 8 semesters (4 years) of sequential studio coursework at Arizona State University. For this reason we suggest students at Maricopa Community Colleges complete the BA Design Studies MAPP and then consider pursuing the 3+ graduate programs in Architecture, Industrial Design, Interior Architecture, Landscape Architecture and Visual Communication Design offered through The Design School. These programs are studio Master's Degree programs that students with a Bachelor's Degree in any discipline can apply for. The options for these programs can be seen on The Design School's graduate degrees page https://design.asu.edu/degree-programs/gradua Students can apply for the 3 + programs with either a BA in Design Studies or a BS in Environmental Design.
