The W. P. Carey BA program in business with a concentration in sports and media studies is attractive to students with an interest in the sports industry. This concentration has been planned to provide students the necessary skills to build knowledge and understanding of the development of the strategic business process in sports organizations and its relationship to media. The proliferation of mass communication (including television, game systems and social networks) has transformed sports into a highly commercialized industry and, in turn, sports continue to generate revenues for these businesses. The interaction between sports and media has led to a multitude of applications of business knowledge to these fields. The sports and media studies program offers a strong focus on applied elements of the sports industry, especially as it relates to media and its impact on the industry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Readmission requirements: Students must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements:

Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Change of Major Requirements:

Students should see <https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors> (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) to determine if they meet W. P. Carey change of major requirements and for information about how to change their major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)

Business Data Analytics, BS (BABDABS)

Campus: Tempe, Online

Program Description:

The W. P. Carey BS program in business data analytics prepares business students with the requisite knowledge, skills and experience to create and manage big data initiatives as well as associated business processes to facilitate large-scale business data analytics in organizations. Students will learn organizational and technical competencies, to implement data gathering, cleansing, integration and modeling tasks as well as data asset analysis for business applications. Graduates will serve as architects, change agents and analytics tool suite operators for business and government. The program covers data warehousing, dimensional modeling, big data analytics methods and visualization tools and techniques, and it introduces topics such as data mining and predictive analytics.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshmen admission requirements: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (scale is 4.00 = "A").

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements:

Transfer admission requirements (30 or more semester hours of credit after high school): 3.00 transfer GPA and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top eight percent of their high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in exploratory social and behavioral sciences in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Business Entrepreneurship, BS (BABUENTBS)

Campus: Tempe

Program Description:

The W. P. Carey BS program in business entrepreneurship prepares students to identify, evaluate and develop entrepreneurial opportunities in existing companies or through new ventures. Students earning the degree may choose to start a new venture, work for a startup or a small business or work as an innovator within an existing organization. The degree has an emphasis on collaboration, leadership, communication and team-building as well as development in refined analytical, managerial and leadership skills appropriate for people who want to change the world through innovation.

Students in the program will frequently collaborate with students from across the university, to give students a breadth of understanding in all business disciplines and a depth of understanding in opportunity recognition, feasibility, management of resources, and strategy. Students completing the program will understand the unique requirements of an entrepreneur and will learn how to operate effectively to identify market opportunities, innovative solutions and execution strategies.

Campus: Tempe

Program Description:

Virtually every profession and organization uses business in some way. Business exploratory students have an opportunity to explore a variety of areas in business prior to selecting one of our nine majors:

- ☐ • accountancy
- ☐ • business data analytics
- ☐ • business entrepreneurship
- ☐ • computer information systems
- ☐ • economics
- ☐ • finance
- ☐ • management
- ☐ • marketing
- ☐ • supply chain management

Students have an opportunity to work with world-class faculty in an environment that values high-quality teaching. Our majors provide students with the skills and knowledge needed in today's companies --- whether they are starting their own businesses or working in large multinational corporations. Additionally, many graduates attend some of the other top-tier graduate schools in the country in a variety of disciplines.

Computer Information Systems, BS (BACISBS)

Campus: Tempe

Program Description:

Computer information systems are part of every business and organization. In this degree program, students learn about the exciting and innovative ways that information technology is used to help organizations succeed. Dedicated faculty members teach students how to design, build and maintain information systems that support business operations and managerial decision-making. In particular, students will learn about:

- ☐ • business intelligence for competitive advantage
- ☐ • business process for workflow redesign
- ☐ • data management for decision-making
- ☐ • distributed systems for collaboration and globalization
- ☐ • enterprise integration for synergy
- ☐ • project management
- ☐ • solution development for value creation

Career Opportunities:

Currently, there is a shortage of information systems professionals, with many more jobs than graduates. With a degree in computer information systems, career choices are limitless. A computer information systems degree offers job opportunities in a variety of industries, including:

- ☐ • education
- ☐ • entertainment
- ☐ • finance
- ☐ • health care
- ☐ • national defense
- ☐ • transportation

Information systems are key components in the success of other functional business areas such as accounting, supply chain, finance and marketing. Entry-level information systems positions include:

- ☐ • computer forensics analyst
- ☐ • database administrator
- ☐ • information systems consultant
- ☐ • information technology security manager
- ☐ • network administrator
- ☐ • project manager
- ☐ • software or systems developer
- ☐ • systems administrator
- ☐ • systems analyst

Long-term career aspirations for a student with a computer information systems degree include:

- ☐ • chief executive officer
- ☐ • chief information officer

- ☐ • chief knowledge officer
- ☐ • chief security officer
- ☐ • chief technology officer

Economics, BS (BAECNBS)

Campus: Tempe

Program Description:

The program requires a strong core of economic theory, supplemented by mathematics and data analysis. Students in this W. P. Carey BS degree program choose from a variety of electives offered by the Department of Economics or electives offered by any other ASU department. All students are encouraged to develop programs of study tailored to individual needs and interests. The undergraduate program provides students with the critical-thinking and communication skills needed to succeed in business or graduate school. The department's mission is to provide the highest quality instruction to students, conduct cutting-edge research in economics and provide leadership and service to professional communities.

Additional Program Fee: Y

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

A major in economics provides students with the analytical and quantitative skills needed to prepare them for careers in business, government or public policy. The program of study can also be tailored to prepare students for graduate programs in economics, business or law. Students interested in pursuing a doctorate in economics are strongly encouraged to minor or major in mathematics as well.

Graduates have taken positions such as:

- ☐ • consultants who serve as advisers to state and federal governments as well as private corporations
- ☐ • corporate economists who collect data and make forecasts relevant to the firm's business
- ☐ • employment in banking and financial services firms

Each year, many graduates pursue additional studies at other prestigious universities.

Finance, BS (BAFINBS)

Campus: Tempe

Program Description:

The finance department has a rich tradition of educating leaders who excel in all aspects of the discipline of finance. Whether ascending to the top ranks of the venture capital industry, executing multimillion dollar real estate deals or becoming successful entrepreneurs with their own ideas and drive, our graduates are equipped to succeed.

In particular, our Investment Banking Industry Scholars program mentors students interested in going to Wall Street. Our student investment management fund provides undergraduates the opportunity to manage a real-world investment portfolio worth hundreds of thousands of dollars.

The faculty members are considered among the top in the world. Our professional advisory board, comprised of leading professionals from the financial services, manufacturing, energy, investment banking and real estate sectors, provides a sounding board for new ideas and is a resource of jobs for our top graduates.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshmen admission requirements: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score, OR graduated in the top eight percent of high school class, OR an overall high school GPA of 3.60 in ASU competency courses (scale is 4.00 = "A").

Freshmen should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements:

For students who hold 30 or more transfer credit hours after high school: 3.00 transfer GPA and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top eight percent of their high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other business or other degree program outside of the W. P. Carey School of Business.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second

major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Change of Major Requirements:

Students should see <https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors> (<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) to determine if they meet W. P. Carey change of major requirements and for information about how to change their major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Food Industry Management, BS (BAFIMBS)

Campus: Polytechnic

Program Description:

This food industry management program is unique and has been developed in close coordination with partners in the food industry to help ensure graduates have the knowledge and skills needed to become immediate leaders in the industry. Students will combine core courses in business disciplines (finance, marketing, management, accounting, supply chain management and economics) with courses specific to the food industry.

Students will select from courses in the following areas:

- ☐ • environmental management and sustainability
- ☐ • food industry sales and management
- ☐ • food marketing strategy
- ☐ • food retailing
- ☐ • food supply networks
- ☐ • futures and options markets
- ☐ • innovation and food product development
- ☐ • insurance
- ☐ • pricing and promotion strategy in food markets
- ☐ • retail information analysis
- ☐ • risk management

Each of these courses addresses a different issue in which fundamental concepts, theoretical approaches, analytical methods and industry practice are unique to the food industry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman and transfer students must submit either an SAT Reasoning test score or an ACT test score by the end of the first semester in the program (we do not require the writing portion of these tests). There is no minimum score requirement.

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Readmission requirements: must meet freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements:

Transfer applicants must have a 3.00 GPA for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside W. P. Carey School of Business, when applying for admission.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to the College of Letters and Sciences will be contacted to select an appropriate major.

Change of Major Requirements:

This degree program has been discontinued and is no longer an option for students. Students interested in food industry management should consider the BA degree program in food industry management in the W. P. Carey School of Business.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The W. P. Carey degree program in food industry management prepares students for business careers in the food industry, which is defined as the group of firms and organizations involved with manufacturing, marketing and distributing food beyond the farm to retail stores, restaurants and institutions such as schools and hospitals. Employing one in six people nationwide, there is a growing demand for professional management in an industry that is becoming increasingly competitive, sophisticated and global.

Potential careers for graduates include:

- ☐ • brand manager for a food manufacturing firm
- ☐ • commodities trader for an investment bank or hedge fund
- ☐ • district manager for a food retailer
- ☐ • loan officer for a bank with a food-industry portfolio

Management, BS (BAMGTBS)

Campus: Polytechnic, Tempe, West, Online

Program Description:

The W. P. Carey BS degree program in management prepares students to become effective managers and team leaders by providing theoretical and conceptual knowledge and building critical skills such as:

- ☐ • analytical research and problem-solving
- ☐ • communication
- ☐ • critical thinking
- ☐ • global applications
- ☐ • leadership
- ☐ • personal ethics and integrity
- ☐ • teamwork

The curriculum includes the fundamentals of the global economy, the world of e-business, ethics, human resource and strategic management, and collaborative team skills. Throughout the program, theories and concepts of management and ethical leadership are enhanced by experiencing and testing these concepts in skill-based exercises, case discussions and real-world team-based project work.

Readmission requirements: Students must meet Freshman admission requirements by way of high school GPA, test score or class rank and must have a 3.00 transfer GPA (if applicable) and a 3.00 cumulative ASU GPA.

Transfer Admission Requirements:

Transfer admission requirements (30 or more semester hours of credit after high school): 3.00 transfer GPA and one of the following: 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score OR the student must have graduated in the top eight percent of their high school class.

Transfer students should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other business or other degree program outside of the W. P. Carey School of Business.

Students with fewer than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be placed in the exploratory social and behavioral sciences program in the College of Integrative Sciences and Arts.

Students with more than 45 transfer hours who are not admissible to a W. P. Carey School of Business major and who did not select a second major or are not admissible to their second major choice will be prompted in My ASU to select a new major.

Change of Major Requirements:

Students should see <https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>

(<https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors>) to determine if they meet W. P. Carey change of major requirements and for information about how to change their major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Marketing (Professional Sales), BS (BAMKTPSBS)

Campus: Tempe

Program Description:

The W. P. Carey BS degree program in marketing with a concentration in professional sales was designed for undergraduate marketing students who are interested in pursuing the many opportunities in professional sales. The curriculum includes courses in professional sales as well as sales management and consumer behavior. This program prepares students to be successful account managers or sales team leaders in both business-to-business and business-to-consumer settings. An internship in sales, as a component of the professional sales concentration, is required.

Supply Chain Management, BS (BASCMB)

Campus: Tempe

Program Description:

Supply chain managers coordinate the purchase of raw materials, the manufacturing and the transportation of materials across multiple vendors and multiple countries to provide the services and finished goods sitting on a local store shelf or available through an online retailer. It is a key reason that people can buy an ever-increasing variety of goods and services at remarkably low prices.

The supply chain management degree program provides W. P. Carey School of Business students with an in-depth knowledge of integrated supply chain management. The curriculum focuses on:

- ☐ • execution systems
- ☐ • logistics
- ☐ • negotiations
- ☐ • operations
- ☐ • planning
- ☐ • procurement
- ☐ • strategy development

Classes are small and use projects and case studies to bring the material to life.

Additional Program Fee: Y

Career Opportunities:

Career track progression could lead to the vice president level in supply chain-related areas. Firms recruit ASU supply chain management graduates from around the world and in all sectors of the economy, including:

- ☐ • health care
- ☐ • manufacturing
- ☐ • public and private
- ☐ • retail
- ☐ • service

Students from our program are highly sought after, and we have excellent placements. The following are some positions that our graduates have obtained:

- ☐ • buyer or planner
- ☐ • commodity manager
- ☐ • distribution manager
- ☐ • Internet marketing analyst
- ☐ • inventory specialist
- ☐ • logistics planner
- ☐ • materials manager
- ☐ • operations planner or analyst
- ☐ • planner or analyst
- ☐ • product forecaster
- ☐ • production coordinator
- ☐ • production line manager
- ☐ • production scheduler
- ☐ • quality control specialist
- ☐ • supply management analyst

Design & the Arts, Herberger Institute for

Architectural Studies, BSD (ARSTDBSD)

Campus: Tempe

Program Description:

Architects design buildings and environments that are useful, sustainable and aesthetically pleasing. This implies an understanding of people's

needs, the science and technology of building, and the concepts of aesthetics. The faculty in The Design School offer a BSD in architectural studies. In addition to developing knowledge and skills in architectural design, building technology, landscape architecture and professional practice, students are encouraged to select electives from a broad range of approved courses within the institute and across the university. These electives may be selected to devise a minor, to further professional study or to enrich the student's academic experience in some other fashion.

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information on the milestone process, students should refer to: <https://design.asu.edu/resources/students/milestones> (<https://design.asu.edu/resources/students/milestones>).

This is an eight-semester program requiring sequential completion of studio coursework (or approved equivalent) at any point of entry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates of the bachelor's degree program who wish to become licensed can complete their professional studies by attending graduate school and earning the accredited professional master's degree. In Arizona, other graduates work for registered architects for several years before taking their licensing examination. Some begin their careers working in small offices of 10 to 20 people; others work in very large firms, industries, corporations or governmental agencies.

Art (Art Education), BFA (FAARTEBFA)

Campus: Tempe

Program Description:

The BFA in art with a concentration in art education involves:

- ☐ • art learning strategies and processes
- ☐ • facilitation of the teaching of art
- ☐ • policymaking in art
- ☐ • the study of art

The program focuses on public and private K-12 instruction, art in higher education and educational programs in art museums. Students investigate issues in art teaching and learning from multiple perspectives, including:

- ☐ • art inquiry
- ☐ • context
- ☐ • development
- ☐ • studio

□ • visual culture

In addition to their art education coursework, students are required to take coursework in the various studio programs offered in the School of Art.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including foundational coursework to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division coursework in the studio. There is no portfolio review process for admission to the School of Art.

Students in their second year who are interested in studio art and art education will obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies will submit a major declaration form in the semester in which they complete 30 credit hours. The student's major will be changed upon successful completion of the major declaration form. Students may choose to remain in and complete the Bachelor of Arts (art studies).

Transfer Admission Requirements:

Transfer students who have completed the foundational core and pre-art requirements may submit a major declaration form before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two-year degree and have completed the foundational core and pre-art requirements, apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates who also complete the state certification requirements for an art specialist certificate can teach in public and private elementary schools, middle schools and high schools. Graduates who do not seek state certification may find opportunities for jobs with art museums and recreational or community service groups that offer art instruction.

ART 102

herbergeradvising@asu.edu

Art (Art History), BA (FAARTHBA)

Campus: Tempe, Online

Program Description:

The BA in art history is a comprehensive degree program designed to train students to engage with visuality in multiple ways. It offers a diverse curriculum intended to foster critical understanding of the aesthetics, production, patronage and consumption of art. Internationally recognized faculty offer classes across many cultures and time periods, geographies and multiple approaches and methodologies.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen students applying to the Herberger Institute School of Art enter ASU as art exploratory majors in the School of Art. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically students in their second year interested in studio art and art education will submit a portfolio for review once they have completed their core requirements and are completing the last of the 12 hours of 200-level art requirements or if they are interested in art history or museum studies, they will submit a declaration form in the semester in which they complete 30 hours.

Transfer Admission Requirements:

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-art-history?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors>

(<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates in art history at the bachelor's degree level find employment opportunities in commercial art galleries, entry-level jobs with art publications and in museums. A graduate degree is essential for professional jobs; a master's degree prepares individuals to teach at the community college level or to gain entry into museums, auction houses and publishing companies. The PhD is a necessity for employment as a university or college teacher and for responsible administrative posts in the museum and publishing world.

Art (Art Studies), BA (FAARTSTDBA)

Campus: Tempe

Program Description:

The art studies curriculum offers students a broad educational foundation in the arts and general studies. The BA program in art with a concentration in art studies is a transdisciplinary program featuring coursework in art history, studio art, performing arts and a range of arts-related courses throughout the university. This concentration offers students a great deal of flexibility in planning coursework. The scope of offerings in art is unparalleled at smaller institutions and the ability to combine art classes with offerings from other disciplines at ASU makes this a uniquely open degree. An art studies student can assemble an art-related curriculum focused on individual student needs, in consultation with a faculty advisor.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen may apply directly to the art studies program; there is no portfolio review for this major.

Transfer Admission Requirements:

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)

Central Arizona College(<https://transfer.asu.edu/tag>)

Cochise College(<https://transfer.asu.edu/tag>)

Coconino Community College(<https://transfer.asu.edu/tag>)

Dine College(<https://transfer.asu.edu/tag>)

Eastern Arizona College(<https://transfer.asu.edu/tag>)

Gila Community College(<https://transfer.asu.edu/tag>)

Mohave Community College(<https://transfer.asu.edu/tag>)

Northland Pioneer College(<https://transfer.asu.edu/tag>)

Pima Community College(<https://transfer.asu.edu/tag>)

Tohono O'odham Community College(<https://transfer.asu.edu/tag>)

Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates work in arts-related fields such as:

- ☐ • arts administration
- ☐ • galleries
- ☐ • service-related art fields

Career opportunities are also available with employers who seek graduates with a well-rounded humanities education.

Art (Ceramics), BFA (FAARTCBFA)

Campus: Tempe

Program Description:

The BFA ceramics program provides a stimulating and challenging environment for artistic and intellectual growth. With the realization that discipline, familiarity with historical precedents and freedom go hand in hand with creative activities, the area strikes a balance between the acquisition of traditional skills and the promotion of independence and innovation.

Responsibility is placed on the individual student to find personally meaningful content and an effective means to express that content within the ceramic arts. The ceramics program features a complete and varied line of kilns, wheels and other equipment. World-renowned faculty ensure that graduates of the program learn the techniques and concepts that will enable their work to take any direction they wish. A strong guest artist schedule enhances the program and the Ceramics Research Center at the ASU Art Museum, with its collection of more than 3,000 pieces, provides unparalleled opportunities to study and research ceramics.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including foundational coursework to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division coursework in the studio. There is no portfolio review process for admission to the School of Art.

Students in their second year who are interested in studio art and art education will obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies will submit a declaration form in the semester in which they complete 30 credit hours. The student's major will be changed upon successful completion of the major declaration form. Students may choose to remain in and complete the Bachelor of Arts (art studies).

Transfer Admission Requirements:

Transfer students who have completed the foundational core and pre-art requirements may submit a major declaration form before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two-year degree and have completed the foundational core and pre-art requirements, apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates of the undergraduate and graduate programs work as artists in the field, selling their works through commercial galleries, commissions and to private collectors. Some artists work as designers and consultants to the commercial ceramic industry; others set up their own businesses, producing handcrafted functional ware, architectural tiles and one-of-a-kind works.

Art (Drawing), BFA (FAARTDBFA)

Campus: Tempe

Program Description:

The BFA drawing program offers a learning environment for creative, intellectual and technical growth that leads to quality art practice and professionalism. The program encourages a wide spectrum of approaches to contemporary drawing as visual expression, ranging from traditional to innovative. Students work under the guidance of a large, full-time faculty of active professionals who are nationally and internationally recognized. Visiting artists of national stature enhance the program with lectures and individual undergraduate critiques.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major.

Additional Program Fee: Y

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates complete the program with drawing skills that enable them to apply for positions that require knowledge in drawing or two-dimensional conceptual skills. Further education, either formal or informal, is usually necessary to refine their skills in a very competitive marketplace. Many graduates continue their education in an MFA graduate program, which allows them to develop their talent further and to teach. Some take jobs in related fields, such as galleries and museums, allowing them to continue producing their own creative work.

Art (Fibers), BFA (FAARTFBFA)

Campus: Tempe

Program Description:

The BFA fibers program cultivates an environment that stimulates creative and intellectual growth. Coursework ranges from the spinning and processing of raw fiber to digital textile printing. With concentrations in techniques such as weaving, dyeing, textile printing and fiber sculpture, students are encouraged to discover their individual artistic voice. Throughout the program, students are challenged to utilize and interpret textile traditions while considering innovative and interdisciplinary approaches to contemporary practices.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major.

Art (Intermedia), BFA (FAARTIBFA)

Campus: Tempe

Program Description:

The BFA intermedia program is conceptually driven, with a transdisciplinary approach to art-making. The broad-based curriculum builds on theories of socially engaged art practice and tactical media that carry the aims of social change and democratic engagement in a variety of contexts. Students are empowered to explore new avenues for self-expression, collaboration and community action. Coursework develops students' understanding of themselves as situated, contemporary artists as they learn to analyze significant cultural movements, national and international, from the present and from the recent past. The program covers a range of traditional and emerging forms and orientations reflecting the professional practices of the growing team of faculty members.

Currently, there is an emphasis on performance, installation, 3D printing, digital sculpture, public and place-based art, digital animation, and experimental and documentary video. Faculty also teach special topics including a recent studio seminar on walking as art practice and another that investigates the engagement of women in the field of art and technology. Collaboration and study across other areas in the School of Art, including sculpture, fibers and photography, are encouraged and supported.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major.

Art (Metals), BFA (FAARTMBFA)

Campus: Tempe

Program Description:

The BFA metals program offers a wide range of traditional and nontraditional approaches to metals:

- ☐ • attention to detail
- ☐ • creativity
- ☐ • critical thinking
- ☐ • emphasizing craft skills
- ☐ • metalworking

A well-equipped studio with a wide variety of metal-smithing tools is offered. Students explore the close relationship with the School of Art's sculpture and foundry programs, learn important entrepreneurial skills, and receive a strong foundation in technical vocabulary and methods for working with metal while being encouraged to experiment with alternative materials and techniques.

Students have the opportunity to gain knowledge and skills through additional educational opportunities that include:

- ☐ • conferences and symposia
- ☐ • internship possibilities
- ☐ • lectures
- ☐ • visiting artists
- ☐ • visits to artist studios, museums and exhibitions
- ☐ • workshops

ASU is located in proximity to numerous galleries and museums as well as local organizations such as:

- ☐ • The Arizona Artist-Blacksmith Association
- ☐ • The Arizona Designer Craftsmen
- ☐ • Metalink

Art (Museum Studies), BA (FAARTMSBA)

Campus: Tempe

Program Description:

The BA program in art with a concentration in museum studies undergraduate program at ASU is one of the most rigorous in the U.S.

Museum studies students explore:

- ☐ • art galleries
- ☐ • art history
- ☐ • art museums
- ☐ • public art programs
- ☐ • visual arts organizations

The program ensures that students are knowledgeable in:

- ☐ • art history
- ☐ • critical writing skills
- ☐ • foreign languages
- ☐ • museums, galleries and visual arts organizations

The curriculum includes art history courses taught by faculty with diverse specialties. Museum professionals and arts administrators teach specialized classes in their areas of expertise. Internships enable students to work directly with working arts professionals in their field of interest.

Students must take courses in:

- ☐ • art history
- ☐ • galleries and museums
- ☐ • research
- ☐ • small business

Coursework may also include classes in nonprofit management and arts policy.

Students must also demonstrate an ability to read at least one foreign language.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics OR MAT 142 OR MAT 119

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered in an accelerated format with Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students meeting the university requirements for admission may matriculate in the Herberger Institute for Design and the Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Freshmen students applying to the Herberger Institute School of Art enter ASU as art exploratory majors in the School of Art. There is no portfolio review process at the time of admission to ASU for freshmen.

Typically students in their second year interested in studio art and art education will submit a portfolio for review once they have completed their core requirements and are completing the last of the 12 hours of 200-level art requirements or if they are interested in art history or museum studies, they will submit a declaration form in the semester in which they complete 30 hours.

Transfer Admission Requirements:

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Museum studies graduates find employment in art galleries, art-based organizations and entry-level positions with art publications and museums. A graduate degree is necessary for professional positions. An MA prepares individuals to teach at community colleges and to gain entry into positions at museums, auction houses and publishing companies. The PhD is necessary for employment as a faculty member at a university or for administrative posts in museums and higher education.

Art (Painting), BFA (FAARTPABFA)

Campus: Tempe

Program Description:

The BFA program in painting offers a learning environment for creative, intellectual and technical growth that leads to quality art practice and professionalism. The program encourages a wide spectrum of approaches to contemporary painting as visual expression, ranging from traditional to innovative. Students work under the guidance of a large, full-time faculty of active professionals who are nationally and internationally recognized. Visiting artists of national stature enhance the program with lectures and individual undergraduate critiques.

To be admitted to the major, students must submit a BFA declaration form after successful completion of the art foundational coursework.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics
OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)
Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All art students will be admitted to ASU into the Bachelor of Arts (art studies) program. They must complete a series of requirements including

foundational coursework to be eligible for study in one of the school's Bachelor of Fine Arts degree programs, which include upper-division coursework in the studio. There is no portfolio review process for admission to the School of Art.

Students in their second year who are interested in studio art and art education will obtain a signed BFA declaration form after completing the core requirements and during completion of the last of the 12 hours of 200-level art requirements. Students interested in art history or museum studies will submit a major declaration form in the semester in which they complete 30 credit hours. The student's major will be changed upon successful completion of the major declaration form. Students may choose to remain in and complete the Bachelor of Arts (art studies).

Transfer Admission Requirements:

Transfer students who have completed the foundational core and pre-art requirements may submit a major declaration form before they have been admitted to ASU. To complete an undergraduate degree in four years, it is recommended that community college transfer students, who are completing a two-year degree and have completed the foundational core and pre-art requirements, apply and submit a declaration form in the semester they are completing their community college degree or the semester before they plan to enter Arizona State University.

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 credit hours of resident credit in the major as approved by the faculty.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates complete the program with the painting skills that enable them to apply for positions that require knowledge in painting or two-dimensional conceptual skills. Further education, either formal or informal, is usually necessary to refine their skills in a very competitive marketplace. Many graduates continue their education in an MFA graduate program, which allows them to develop their talent further and to teach. Some take jobs in related fields, such as galleries and museums, allowing them to continue their own creative work.

Art (Photography), BFA (FAARTPHBFA)

Campus: Tempe

Program Description:

Students in the BFA program in photography are offered a solid education in the creation and analysis of photographs as a form of creative expression. Students work in a wide range of photographic media including specialized 19th-century processes, traditional black and white and state-of-the-art digital output.

The internationally recognized photography faculty at ASU is diverse, representing and encouraging a wide range of approaches to the creation of photo-based art. Students learn to be self-disciplined, self-directed, to understand complex ideas around how images function in their work and to develop a strong sense and control of the craft of photography. The Northlight Gallery engages students and provides opportunity to learn about gallery and museum practice through mounting exhibitions, working with artists and the collection.

Students must submit a BFA declaration form after successful completion of the art foundational coursework to be admitted to the major.

Career Opportunities:

A degree in the arts offers students a pathway to a rich and varied choice of careers. Students with a photography degree may work as independent studio photographers or contract for commercial work for firms, museums, galleries, individuals and other artists. The bachelor's degree program is essential for advanced study leading to the terminal MFA. This advanced degree offers opportunities in:

- ☐ • curatorial work in galleries, museums and historical collections
- ☐ • history or studio areas
- ☐ • nonprofit arts organization management
- ☐ • university teaching

Art (Printmaking), BFA (FAARTPMBFA)

Campus: Tempe

Program Description:

The BFA program in printmaking provides a complete studio experience with regular courses in:

- ☐ • book arts
- ☐ • digital processes
- ☐ • intaglio
- ☐ • lithography
- ☐ • papermaking
- ☐ • photogravure
- ☐ • relief
- ☐ • screenprint
- ☐ • other graphic applications

Four full-time accomplished faculty teach in spacious, well-equipped studios, offering a complete range of print media. While individual students are encouraged to pursue a personal direction, the faculty encourage students to become well-rounded printmakers by experiencing and understanding many media, processes and approaches. No style, technique or aesthetic approach is stressed over another, so the individual quality of each student's work is the essential measure of achievement. Collaboration, experimentation and transdisciplinary approaches to making art are encouraged, and students often work with other areas in the School of Art, such as photography, intermedia, painting and drawing, and sculpture.

To be admitted to the major, students must submit a BFA declaration form after successful completion of the art foundational coursework.

Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Trained printmakers are working artists, practicing the expression of a personal understanding of their place in the world. They may find employment as artists or printmakers in schools of all levels teaching the execution and appreciation of visual art. They also work in fine art print studios, executing original prints for other artists. Printmaking skills such as screenprinting or photomechanical and digital techniques, acquired for the production of art, also have commercial, nonart applications that may afford skilled employment. Artists with printmaking skills may also work with graphic designs, illustrations and signage or may work in museums, conservation, publishing, galleries and in other art-related activities. Additionally, their art may sell successfully in the open marketplace.

Art (Sculpture), BFA (FAARTSBFA)

Campus: Tempe

Program Description:

The BFA program in sculpture recognizes the broad, transdisciplinary nature of sculpture today. A wide range of media now falls within an expanded definition of sculpture. Coursework includes:

- ☐ • architectural sculpture
- ☐ • foundry
- ☐ • interactive and kinetic sculpture
- ☐ • neon
- ☐ • small metals
- ☐ • wood
- ☐ • video and sound installation

While classes run the gamut of the contemporary sculpture environment, there also is an emphasis on helping students put today's creations in the contexts of the history of sculpture and the larger field of contemporary art. Critical inquiry is augmented by courses in the art history program. Visiting artists, curators and critics connect students to the contemporary context.

To be admitted to the major, students must submit a BFA declaration form after successful completion of the art foundational coursework.

Arts (BA in the Arts), BA (FAATSBA)

Campus: Tempe

Program Description:

The BA in the arts is an interdisciplinary degree program designed for students who are passionate about the arts and interested in combining knowledge about multiple arts disciplines. Students will gain an increased understanding of the theoretical, historical and cultural forces that shape the arts through an open-ended path for the exploration and development of a range of skills that will be valuable for advanced study in multiple areas.

The major includes a common core for all students, and students choose a focus from:

- ☐ • arts administration
- ☐ • entertainment design
- ☐ • individualized focus designed by the student and subject to approval by the institute's standards committee and the dean's office

Additional Program Fee: Y

Dance, BFA (FADANBFA)

Campus: Tempe

Program Description:

The School of Film, Dance and Theatre provides a dynamic and culturally diverse learning environment in which students develop as creative artists, scholars and educators. The BFA program in dance offers a transdisciplinary curriculum that emphasizes collaboration and a holistic approach to education. The program encourages the thought that artists of the 21st century need to develop multiple skills for success in the arts and related fields.

The core values of the program include creativity, research, leadership, reflection, humanity and context. These values are embedded in a broad range of academic experiences that emphasize:

- ☐ • creative practices: the study of the creative process and dance making using improvisation, choreography and interdisciplinary approaches
- movement practices: the study of the theory, history and technique of a range of dance forms and mind-body practices, including:
 - ☐ • contemporary ballet
 - ☐ • postmodern contemporary dance
 - ☐ • somatic practices
 - ☐ • urban dance practices
 - ☐ • dance and digital arts
 - ☐ • dance history, ethnography and philosophy
 - ☐ • seminars

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Admission to the BFA in dance is selective and based on an interview process. Students are admitted to ASU as dance interview students and must successfully complete an interview and audition before enrolling in the dance major. If a student passes the interview, the School of Film, Dance and Theatre will change the student's major to the BFA in dance. In the event the student is admitted to ASU but not selected as a dance major or misses the interview application deadline, the student will enter ASU as a dance interview student and will need to successfully pass the dance interview and audition milestone in the first semester in order to gain admission into the program.

Interview days take place in November, February and April of each year. To ensure a smooth curricular progression, all prospective dance students, including transfer students, are strongly encouraged to participate in the interview day during the semester prior to their intended date of enrollment. More information on the interview process and deadlines can be found at <https://filmdancetheatre.asu.edu/degree-programs> (<https://filmdancetheatre.asu.edu/degree-programs>).

Dance Interview Days

Materials due October 21, 2016 for November 19, 2016 interview.

Materials due January 13, 2017 for February 11, 2017 interview.

Materials due March 3, 2017 for April 1, 2017 interview.

Transfer Admission Requirements:

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 hours of resident credit in the major as approved by the faculty.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

The comprehensive academic foundation of the Bachelor of Fine Arts degree program in dance prepares students to be leading dance professionals of the 21st century. Graduates of the program have the expertise to pursue professions as choreographers, performers, educators, community artists, scholars and much more. After leaving ASU, many graduates:

- ☐ • conduct academic research
- ☐ • curate or produce dance festivals and events
- ☐ • direct or manage performing art companies, studios or dance-related organizations
- ☐ • facilitate community partnerships and projects
- ☐ • produce dance media for performance or instruction
- ☐ • pursue certification in somatic practices (Laban Movement Analysis, Feldenkrais, Alexander Technique, Body-Mind Centering, etc.)
- ☐ • teach and design curriculum
- ☐ • work as a dance critic
- ☐ • work in the areas of health and wellness (fitness, yoga, massage therapy, etc.)
- ☐ • work in the field of arts management and administration
- ☐ • work in technical theatre and dance production
- ☐ • write for scholarly publications

Dance (Dance Education), BFA (FADANEBAFA)

Campus: Tempe

Program Description:

The BFA program in dance education prepares students for certification to teach dance in K-12 schools in the state of Arizona. Students in this degree program are required to complete additional state certification requirements. The School of Film, Dance and Theatre provides a dynamic and culturally diverse learning environment where students develop as creative artists, scholars and educators. Studies in dance cultures, music, digital media, dance history, philosophy and criticism, movement science, somatics, and stage and screen production enhance the rich educational setting. Creativity and research, the core program values, are embedded in a broad range of academic experiences emphasizing movement and creative practices, artistic process, leadership and pedagogy.

Design Studies, BA (ARDSNBA)

Campus: Tempe

Program Description:

The BA in design studies is a four-year, nonstudio program of study in design that focuses on the design disciplines offered in the ASU Herberger Institute:

- ☐ • architectural studies
- ☐ • graphic design
- ☐ • industrial design
- ☐ • interior design
- ☐ • landscape architecture

It is a highly flexible program of study, much like a liberal arts degree, in which students select design and design-related courses offered in the institute and throughout the university. Students acquire a breadth of design knowledge via courses taken from three categories: communication for design, design history and general design.

It provides a design education, general and specific, to students who seek opportunities in the broader design sector or in graduate education.

Students may undertake the program in one of two specific concentrations: design studies, which allows students to discover the myriad possibilities of design as a subject area as well as the flexibility that it provides for further exploration; or design management, which offers a selection of courses in management and human communication that complement design.

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)

Central Arizona College(<https://transfer.asu.edu/tag>)

Cochise College(<https://transfer.asu.edu/tag>)

Coconino Community College(<https://transfer.asu.edu/tag>)

Dine College(<https://transfer.asu.edu/tag>)

Eastern Arizona College(<https://transfer.asu.edu/tag>)

Gila Community College(<https://transfer.asu.edu/tag>)

Mohave Community College(<https://transfer.asu.edu/tag>)

Northland Pioneer College(<https://transfer.asu.edu/tag>)

Pima Community College(<https://transfer.asu.edu/tag>)

Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Although a specific career path is not the principal intention, graduates of the program have become involved in sales and marketing in the design sector; others have gone on to graduate studies in architecture and planning. Other possible career paths include journalism and education.

Design Studies (Design Management), BA (ARDSNMBA)

Campus: Tempe

Program Description:

The BA in design studies is a four-year, nonstudio program of study in design that focuses on the design disciplines offered in the ASU Herberger Institute:

- ☐ • architectural studies
- ☐ • graphic design
- ☐ • industrial design
- ☐ • interior design
- ☐ • landscape architecture

It is a highly flexible program of study, much like a liberal arts degree, in which students select design and design-related courses offered in the institute and throughout the university. Students acquire a breadth of design knowledge via courses taken from three categories: communication for design, design history and general design.

It provides a design education, general and specific, to students who seek opportunities in the broader design sector or in graduate education.

The concentration in design management offers a selection of courses in management and human communication that complement design and allows for more focused study in these areas.

Digital Culture, BA (HIDGCBA)

Campus: Tempe

Program Description:

The digital culture program, the first-of-its-kind, is for students who are interested in helping shape the future creative uses of digital technology in day-to-day living. Digital culture majors learn to go beyond merely using digital tools; they develop the ability to program media and integrate computational systems with the everyday physical human experience. This dynamic curriculum not only prepares students with tangible skills in cultural media but also with the critical-thinking skills to understand the broader impact of technologies on life and culture.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Creative Enterprise and Cultural Leadership, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

Career opportunities include the following fields:

- ☐ • audio
- ☐ • comparative literature
- ☐ • computing
- ☐ • creative writing
- ☐ • technical writing
- ☐ • technology
- ☐ • visual media

Digital culture alumni have obtained careers as:

- ☐ • designers
- ☐ • graphic designers
- ☐ • engineers
- ☐ • programmers

- ☐ • software specialists
- ☐ • special effects artists
- ☐ • 3D modelers
- ☐ • visual media artists

Digital Culture (Art), BA (HIDGCABA)

Campus: Tempe

Program Description:

The School of Arts, Media and Engineering offers a first of its kind BA in digital culture. The degree program is for students who are interested in helping shape the future creative uses of digital technology in day-to-day living. Digital culture majors learn to go beyond merely using digital tools; they develop the ability to program media and integrate computational systems with everyday physical human experience. This dynamic curriculum not only prepares students with tangible skills in cultural media but also with the critical-thinking skills that enable the understanding of the broader impact of technologies on life and culture.

Graduates interested in continuing their education are well prepared to apply for the top interdisciplinary new media programs in the nation.

Digital Culture - Art Concentration

The program is for students wishing to specialize in visual composition aspects of new media. Students complement their knowledge of digital culture with discipline-specific courses in the School of Art focused on the historical and theoretical aspects of visual arts, foundational visual arts skills and hands-on knowledge of visual composition through digital means.

Additional Program Fee: Y

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Upon graduation, digital culture students have a wide array of career opportunities in new media involving the fields of:

- ☐ • communications (CISCO, Google, Facebook)
- ☐ • computing (Apple, Microsoft)
- ☐ • gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- ☐ • media arts (engineering multimedia shows, video and sound production)

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex socio-technical problems, such as:

- ☐ • diagnostic, monitoring, and assistive cyber-physical tools and systems that can be used by health care providers
- ☐ • new systems for collaborative, participatory content creation and sharing
- ☐ • social networking and reflection tools for promoting sustainability
- ☐ • systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates of the digital culture program who are interested in continuing their higher education will be well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital Culture alumni have received job opportunities in:

- ☐ • audio and video

Digital Culture (English), BA (HIDGCENBA)

Campus: Tempe

Program Description:

The School of Arts, Media and Engineering offers a first of its kind BA in digital culture. The degree is for students who are interested in helping shape the future creative uses of digital technology in day-to-day living. Digital culture majors learn to go beyond merely using digital tools; they develop the ability to program media and integrate computational systems with everyday physical human experience. This dynamic curriculum not only prepares students with tangible skills in cultural media but also with the critical-thinking skills that enable the understanding of the broader impact of technologies on life and culture.

Graduates interested in continuing their education are well prepared to apply for the top interdisciplinary new media programs in the nation.

Digital Culture - English Concentration

The digital culture program with a concentration in English is designed for students who wish to explore the historical, scientific and theoretical intersections of art, media and technology. Sharing of stories and media through electronic communities; participatory art-making and creativity forums on the web; gaming; digital movies and effects; mediated public spaces and electronic design are only a few of the new activities that are defining and evolving culture. Students in the major will assist in the establishment, evolution and proliferation of such culture at the state, national and international level. Students will use tools of inquiry to examine, analyze and create works of art through a hands-on approach to communication, writing, rhetoric and literacies in collaboration with the English department.

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Upon graduation, digital culture students have a wide array of career opportunities in new media, involving the fields of:

- ☐ • communications (CISCO, Google, Facebook)
- ☐ • computing (Apple, Microsoft)
- ☐ • gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- ☐ • media arts (engineering multimedia shows, video and sound production)

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex sociotechnical problems, such as:

- ☐ • diagnostic, monitoring, and assistive cyber-physical tools and systems that can be used by health care providers
- ☐ • new systems for collaborative, participatory content creation and sharing
- ☐ • social networking and reflection tools for promoting sustainability
- ☐ • systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates of the digital culture program who are interested in continuing their higher education will be well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital culture alumni have received job opportunities in:

- ☐ • audio and video
- ☐ • engineering
- ☐ • graphic design
- ☐ • illustration
- ☐ • iOS development
- ☐ • journalism
- ☐ • programming
- ☐ • software engineering
- ☐ • special effects
- ☐ • 3D modeling and fabrication
- ☐ • visual media

Digital Culture (Graphic Information Technology), BA (HIDGCTEBA)

Campus: Tempe

Program Description:

The School of Arts, Media and Engineering offers a first of its kind BA in digital culture. The degree is for students who are interested in helping shape the future creative uses of digital technology in day-to-day living. Digital culture majors learn to go beyond merely using digital tools; they develop the ability to program media and integrate computational systems with everyday physical human experience. This dynamic curriculum not only prepares students with tangible skills in cultural media but also with the critical-thinking skills that enable the understanding of the broader impact of technologies on life and culture.

Graduates interested in continuing their education are well prepared to apply for the top transdisciplinary new media programs in the nation.

Digital Culture - Graphic Information Technology Concentration

This concentration is offered in partnership with the Ira A. Fulton Schools of Engineering. Students complement their knowledge of new media with technology and new media entrepreneurship skills, knowledge of legal and ethical issues for technology, and additional skills in graphic communication, digital illustration and design methodology.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Digital Culture (Interdisciplinary Arts and Performance), BA (HIDCIAPBA)

Campus: Tempe

Program Description:

The School of Arts, Media and Engineering offers a first of its kind BA in digital culture. The degree is for students who are interested in helping shape the future creative uses of digital technology in day-to-day living. Digital culture majors learn to go beyond merely using digital tools; they develop the ability to program media and integrate computational systems with everyday physical human experience. This dynamic curriculum not only prepares students with tangible skills in cultural media but also with the critical-thinking skills that enable understanding of the broader impact of technologies on life and culture.

Graduates interested in continuing their education are well prepared to apply for the top interdisciplinary new media programs in the nation.

Digital Culture - Interdisciplinary Arts and Performance Concentration

This concentration, offered in partnership with New College, focuses on a transdisciplinary and collaborative approach to the arts, technology and performance. The program emphasizes the traditions of transdisciplinary, avant-garde and experimental arts and on contemporary art and performance. Courses include digital media arts, music and electronic sound art, performance studies, theatre and performance practice, and digital graphics.

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Upon graduation, digital culture students have a wide array of career opportunities in new media involving the fields of:

- ☐ • communications (CISCO, Google, Facebook)
- ☐ • computing (Apple, Microsoft)
- ☐ • gaming and entertainment (Industrial Light and Magic, Electronic Arts, Pixar)
- ☐ • media arts (engineering multimedia shows, video and sound production)

The digital culture curriculum also prepares students for roles in the development of modern media systems that address complex sociotechnical problems, such as:

- • diagnostic, monitoring, and assistive cyber-physical tools and systems that can be used by health care providers
- • new systems for collaborative, participatory content creation and sharing
- • social networking and reflection tools for promoting sustainability
- • systems for interactive, adaptive learning and computational assessment in educational organizations

Graduates who are interested in continuing their higher education will be well prepared to apply for admission to the top interdisciplinary new media programs in the nation, including the graduate programs through the School of Arts, Media and Engineering at ASU.

Digital culture alumni have received job opportunities in the following fields:

- • audio and video
- • engineering
- • graphic design
- • illustration
- • iOS development
- • journalism
- • programming
- • software engineering
- • special effects
- • 3D modeling and fabrication
- • visual media

Environmental Design, BS (HIEDSBS)

Campus: Tempe

Program Description:

The BS program in environmental design offers an integrated curriculum in environmental design primarily in a nonstudio format. This undergraduate program is designed to create a deep awareness and knowledge of issues that influence the design of built environments and the design of artifacts in general. The program of study emphasizes general knowledge and design research as well as focus areas. Focus areas include histories and theories of design; innovation, technology and design strategies; and sustainability in environmental design. The curriculum will provide special understanding of theories, technologies, social issues and management aspects related to the student's chosen focus area. While studio courses cannot be taken as electives, students will be able to take career-specific design electives, and the degree prepares students for all graduate programs in The Design School. The program itself is not a professional degree program but intends to provide a broad base of skills and knowledge in environmental design.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Creative Enterprise and Cultural Leadership, MA
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Fashion, BA (HIFSHBA)

Campus: Tempe

Program Description:

The BA degree program in fashion at ASU combines history, business practices and hands-on studio experience to prepare students for a variety of

roles in this important industry. This program is distinguished from other fashion programs in the U.S. through its integration with other research disciplines in the university. Students have the opportunity to pursue tracks in marketing and merchandising, costuming, wearable technology, sustainability, management and leadership, international experience, and fashion and culture. In the capstone experience, students develop a substantial project within their focus track. Opportunities for internships and study abroad further advance students' professional goals. Through the leadership of well-known industry professionals, the bachelor's degree in fashion is connected globally to leaders in the industry.

Film (Film and Media Production), BA (FAFLMBA)

Campus: Tempe

Program Description:

The School of Film, Dance and Theatre offers a BA in film with a concentration in film and media production. Students pursuing this concentration develop a comprehensive and practical knowledge of production; awareness and impact of media and entertainment on audiences and culture; and an understanding of the role of the artist in society. Students have access to digital cameras, lighting and sound equipment, post-production software and facilities, and other resources and technologies that will give them an opportunity to produce a final capstone project of exceptional technical quality.

Within this concentration, students have the option of three upper-division tracks of study: directing, producing, or media technology. Each of these focused courses of study is supported by the degree-wide emphasis on ethical filmmaking practices, innovative creative expression, and preparation for a career as an industry professional.

All students enter as majors in the filmmaking practices concentration. After completing the required five core film degree courses (for 15 credits), students are eligible to apply to the studio-based concentration in film and media production. Students who enter ASU as freshman typically apply for the film and media production program in their third or fourth semester; transfer students may apply earlier depending on academic record, experience and preparation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

All film students will be admitted to ASU into the Bachelor of Arts in film, filmmaking practices concentration. Students who wish to pursue the highly selective, studio-based Bachelor of Arts in film, film and media production concentration must complete the 15-hour film core and successfully pass an interview and review of their creative work to enter the concentration. This interview and creative work review generally takes place in the third or fourth term at ASU.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> ([//students.asu.edu/changingmajors](https://students.asu.edu/changingmajors)) for information about how to change a major to this program.

Career Opportunities:

The film and media production concentration provides students with the knowledge and experience to prepare them to enter careers in media and entertainment as:

- ☐ • cinematographers
- ☐ • directors

- ☐ • editors
- ☐ • producers
- ☐ • screenwriters

The bachelor's degree program is an excellent broad-based foundation for work in the profession or to prepare students for further training at graduate schools or conservatories.

Film (Filmmaking Practices), BA (FAFPRBA)

Campus: Tempe

Program Description:

Students in the filmmaking practices concentration receive grounding in fundamental production skills; entertainment and media ethics; feature, short, and episodic screenwriting; and general film and media industry history and practices.

Students will have the option of two tracks of study in the upper division: screenwriting or preprofessional. Students who choose the track in screenwriting will be required to take multiple writing courses at the intermediate and advanced levels. Students in the preprofessional track will choose among a series of course options in each of these areas: writing; producing; and film and media technology. Production experience is regularly available through select lower-division courses that provide creative coursework options; the upper-division course FMP 300; and credited opportunities to work on projects produced by students, faculty, and the School of Film, Dance and Theatre. All students will complete a year-long senior project, initiated and developed by the students and supported with dedicated faculty mentorship.

Additional Program Fee: Y

Second Language Requirement: N

Graphic Design, BSD (ARGRABSD)

Campus: Tempe

Program Description:

Graphic designers are responsible for designing how information is communicated. Forms of communication include print, video, film and electronic (Web). The faculty in The Design School offers the BSD in graphic design.

Graphic designers are concerned with:

- ☐ • appearance
- ☐ • choosing the appropriate mechanism for communication
- ☐ • clarity of information and its effectiveness
- ☐ • how communication is transferred and received

This program places an emphasis on strategic communication, developed through a design process that includes research, analysis, conceptualization, planning and realization. The process leads to innovative visual communication design solutions for contemporary design problems that are local to global in scope.

All students who are admitted to the major must pass a degree milestone at the end of the first year to continue in the major. For more information on the milestone process, students should visit <https://design.asu.edu/resources/students/milestones> (<https://design.asu.edu/resources/students/milestones>).

This is an eight-semester program requiring sequential completion of studio coursework (or approved equivalent) at any point of entry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Based on a diversified portfolio upon graduation, students opting for the graphic design profession gain employment in:

- ☐ • advertising and marketing design
- ☐ • brand and corporate identity design
- ☐ • broadcast (TV graphics) design
- ☐ • interaction and interface design
- ☐ • museum or exhibition design
- ☐ • publication design
- ☐ • visual communication design
- ☐ • Web design

Specific examples of graphic designers' work include:

- ☐ • annual reports
- ☐ • books
- ☐ • environmental graphics
- ☐ • information design
- ☐ • motion graphics
- ☐ • multimedia presentations
- ☐ • publications
- ☐ • Web sites

Students may also pursue graduate studies leading to careers in design education and other fields of professional endeavor in design.

Industrial Design, BSD (ARINDBSD)

Campus: Tempe

Program Description:

Industrial designers are responsible for the design of product and service systems that people use in their everyday lives. The industrial design program at ASU focuses on a new model of transdisciplinary product development called integrated innovation.

Using this model of innovation, students systematically work through a matrix of four questions:

- ☐ • What is valuable to users?
- ☐ • What is possible through engineering?
- ☐ • What is desirable to business?
- ☐ • What is good for society and the environment?

The goal of the program is to help students learn how to create product and service systems that:

- ☐ • benefit society while minimizing impacts on the environment
- ☐ • can be realized through appropriate technology and engineering
- ☐ • create measurable value for business
- ☐ • satisfy people's needs

All students who are admitted to the major must pass a degree milestone to continue in the major at the end of the first year. For more information on the milestone process, visit <https://design.asu.edu/resources/students/milestones> (<https://design.asu.edu/resources/students/milestones>).

This is an eight-semester program requiring sequential completion of studio coursework (or approved equivalent) at any point of entry.

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

After completing the program successfully, graduates have the option of working as designers in several capacities:

Obtain employment as members of in-house design teams at corporations in a variety of industries including, but not limited to:

- ☐ • consumer goods
- ☐ • furniture
- ☐ • health care and medical products
- ☐ • packaging design
- ☐ • sports and outdoor goods
- ☐ • toys
- ☐ • trade show and exhibit design
- ☐ • transportation and mobility device design
- ☐ • user interface design
 - ☐ • Obtain employment with consulting firms that design products and services for a variety of clients.
 - ☐ • Obtain employment with nonprofit institutions or nongovernmental organizations addressing specific social or environmental problems.
 - ☐ • Pursue entrepreneurship opportunities; some graduates have established their own design and manufacturing ventures.
 - ☐ • Pursue teaching a variety of courses in art and design schools, colleges or universities, part time or full time.

Interior Design, BSD (ARINTBSD)

Campus: Tempe

Program Description:

Coursework in the BSD program in interior design examines the context and spaces in which individuals and groups live and work. Interior designers create environments within buildings that meet the physical and psychological needs of individuals and institutions, providing a useful, rich and rewarding environment for their lives. Interior design involves the design of space, equipment and furniture. It requires substantial technical and organizational understanding; sensibility to form, lighting, color and texture; and an awareness of design history and theory.

All students who are admitted to the major must pass a degree milestone at the end of the first year to continue in the major. For more information on the milestone process, students should visit <https://design.asu.edu/resources/students/milestones> (<https://design.asu.edu/resources/students/milestones>)

This is an eight-semester program requiring sequential completion of studio coursework (or approved equivalent) at any point of entry.

Landscape Architecture, BSLA (ARPLABSLA)

Campus: Tempe

Program Description:

The BS program in landscape architecture offers students the opportunity to engage with the community in applied projects that focus on designing sustainable outdoor environments and improving the ecological and social health of the urban environment.

Undergraduate landscape architecture program projects can range from large-scale work encompassing urban design, landscape reclamation, open space preservation planning, and landscape ecological design to projects at the more intimate scale of a neighborhood park or residential back yard. Emerging areas of focus include biotechnical design; urban agriculture; construction of greenways, green roofs and living walls; and the design of healing environments. Students complement their design learning with electives from a broad range of approved courses.

All students must pass a degree milestone at the end of the first year to continue in the major. For more information, students should visit

<https://design.asu.edu/resources/students/milestones> (<https://design.asu.edu/resources/students/milestones>).
This is an eight-semester program requiring sequential completion of studio coursework (or approved equivalent).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

The bachelor's degree program is designed to prepare students for landscape architecture professional practice and advanced study at the graduate level. Our students have found employment in nationally recognized firms working with notable landscape architects in large multinational firms or in public agencies. Students also have gone on to pursue graduate study at universities with distinguished graduate programs in landscape architecture and allied design fields.

The U.S. Bureau of Labor Statistics projects employment for landscape architects will grow 16 percent from 2010 to 2020, about as fast as the average for all occupations. The bureau also notes that "employers prefer to hire entry-level landscape architects who have internship experience, which significantly reduces the amount of on-the-job training required." The bachelor's degree program has an internship requirement meant to address this preference and better prepare our graduates for employment.

Music, BA (FAMUSBA)

Campus: Tempe

Program Description:

The BA program in music provides students with a broadly based liberal arts degree applicable to careers in music and many other fields. The music curricular core is combined with more elective flexibility than a BMus, leading students to develop mainstream and alternative musical competencies; to explore music as human history, cultural artifact and social behavior; and to pursue other areas of interest.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered in an accelerated format with Creative Enterprise and Cultural Leadership, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music application. Visit <https://music.asu.edu/admissions/undergraduate-steps-to-apply> (<https://music.asu.edu/admissions/undergraduate-steps-to-apply>) for details.

Admission to the School of Music is based on an audition. Live auditions take place on campus in November (spring admission) and in January and February (fall admission) of each year. Applicants may review audition information at <http://music.asu.edu/admissions/undergraduate-auditions> (<http://music.asu.edu/admissions/undergraduate-auditions>).

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event a student is admitted to ASU but not to the School of Music or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Visit <http://music.asu.edu/admissions/undergraduate-deadlines-fees> (<http://music.asu.edu/admissions/undergraduate-deadlines-fees>) for complete music deadlines.

Fall 2017: The deadline to apply for admission to this program is Jan. 6, 2017.

Transfer Admission Requirements:

Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)

Central Arizona College(<https://transfer.asu.edu/tag>)

Cochise College(<https://transfer.asu.edu/tag>)

Coconino Community College(<https://transfer.asu.edu/tag>)

Dine College(<https://transfer.asu.edu/tag>)

Eastern Arizona College(<https://transfer.asu.edu/tag>)

Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- ☐ • music criticism and research, ethnomusicology and musicology
- ☐ • music entrepreneurship, concert management and promotion
- ☐ • music publishing
- ☐ • performing in community and professional ensembles in a variety of styles and traditions
- ☐ • teaching in a private studio or community program

Many graduates pursue a master's degree or a doctorate in music or another professional field.

Music (Music and Culture), BA (HIMUSMCBA)

Campus: Tempe

Program Description:

The BA program in music with a concentration in music and culture provides students with a broadly based liberal arts degree applicable to careers in music and many other fields. The music curricular core is combined with elective flexibility, leading students to develop mainstream and alternative musical competencies; to explore musics as human history, cultural artifact and social behavior; and to pursue other areas of interest. This is a liberal arts-based degree program in which students have a higher percentage of elective courses, allowing them to tailor both the General Studies courses and the music electives to suit their career goals.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 117 - College Algebra Or MAT 119 or MAT 142

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music application. Visit <https://music.asu.edu/admissions/undergraduate-steps-to-apply> (<https://music.asu.edu/admissions/undergraduate-steps-to-apply>) for details.

Admission to the School of Music is based on an audition. Live auditions take place on campus in November (spring admission) and in January and February (fall admission) of each year. Review audition information at <http://music.asu.edu/admissions/undergraduate-auditions> (<http://music.asu.edu/admissions/undergraduate-auditions>).

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event a student is admitted to ASU but not to the School of Music or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Audition process for admittance to music and culture concentration:

- ☐ • Submit a writing sample, which will be evaluated by all musicology faculty members.

Submit evidence of musicianship broadly defined (basic notational literacy plus live audition on, for example, didgeridoo or gospel-style composition, or documented transdisciplinary installation including music), which will be evaluated by all musicology faculty.

- ☐ • Attend an interview with at least three musicology faculty members.

☐ • Each student will be matched with a musicology advisor at the time of acceptance. The advisor will assist students in the choice of ensembles (as qualified) and electives to support their programs of study. Students must audition and be accepted into large ensembles following established procedures.

☐ • Students who wish to take studio lessons as part of the degree must audition for the appropriate performance faculty members. Students should follow the BA in music audition requirements.

Application Deadlines: Visit <http://music.asu.edu/admissions/undergraduate-deadlines-fees> (<http://music.asu.edu/admissions/undergraduate-deadlines-fees>) for complete music deadlines.

Fall 2017: The deadline to apply for admission to this program is Jan. 6, 2017.

Transfer Admission Requirements:

Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute or one of its programs must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

The program prepares students for potential careers in fields that require skilled written communication, the ability to conduct research both in electronic and print media, critical and logical thinking, the dissection of an argument and careful time management. In addition to the careers listed below, graduates may pursue jobs in music and medical humanities or copyright and entertainment law. Graduates are prepared to work in various professional capacities, including:

- ☐ • music criticism and research, ethnomusicology and musicology
- ☐ • music entrepreneurship, concert management and promotion
- ☐ • music in culture, music blogging
- ☐ • music publishing, program annotation
- ☐ • performing in community and professional ensembles in a variety of styles and traditions
- ☐ • teaching in a private studio or community program
- ☐ • work as a music librarian
- ☐ • work in music-related fields

Music Therapy, BMUS (FAMUSTHBM)

Campus: Tempe

Program Description:

The BMus program in music therapy prepares students for a career in the health care and special education professions. Music therapists use carefully planned music interventions to achieve desired changes in client individualized behavior and functioning. Music therapy is a profession in which engagement in active music-making helps a client achieve nonmusical therapeutic goals. Educating the potential music therapist requires both a wide range of musical skills and the ability to work with people in a therapeutic manner. Music therapy students have many opportunities to develop their clinical skills. Students also study:

- ☐ • human anatomy
- ☐ • musical improvisation
- ☐ • popular music styles
- ☐ • psychology
- ☐ • songwriting
- ☐ • special education
- ☐ • world music

Performance (Collaborative Piano), BMUS (FAMUSPPBM)

Campus: Tempe

Program Description:

The BMus in performance with a concentration in collaborative piano offers private instruction in both solo and collaborative piano, offers faculty coaching of chamber music repertoire, as well as offers ample opportunity for extensive collaborative performance experiences. The program focuses on the core repertoire of art song, piano chamber music, and selected works from the operatic, musical theatre and oratorio repertoire. Collaboration within the School of Music involves all performance areas, including:

- ☐ • classes and opportunities with the Lyric Opera Theatre
- ☐ • concerts with large ensembles and choirs
- ☐ • duo recitals with instrumental and voice colleagues
- ☐ • performances of great chamber music literature

Performance (Jazz), BMUS (FAMUSPJBM)

Campus: Tempe

Program Description:

The BMus in performance with a concentration in jazz places an emphasis on the improvisational aspects of jazz. The curriculum combines jazz performance, composition and pedagogy in a program that allows the student to express himself or herself musically while emphasizing the skills necessary to pursue a career as a professional musician. The study of jazz performance can be a suitable background for work in:

- ☐ • contemporary composition
- ☐ • film scoring, writing and arranging
- ☐ • performance
- ☐ • private instruction
- ☐ • recording studios
- ☐ • teaching jazz pedagogy and other related fields in the music industry

Performance (Keyboard), BMUS (FAMUSPKBM)

Campus: Tempe

Program Description:

The BMus in performance with a concentration in keyboard is a program that focuses on the study of literature and techniques of the piano or organ. Goals include enabling students to express themselves musically while emphasizing the skills necessary to pursue a career as a professional musician. The course of study includes extensive performance experience.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music application. Visit <https://music.asu.edu/admissions/undergraduate-steps-to-apply> (<https://music.asu.edu/admissions/undergraduate-steps-to-apply>) for details.

Admission to the School of Music is based on an audition. Live auditions take place on campus in November (spring admission) and in January and February (fall admission) of each year. Applicants may review audition information at <http://music.asu.edu/admissions/undergraduate-auditions> (<http://music.asu.edu/admissions/undergraduate-auditions>).

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event a student is admitted to ASU but not to the School of Music or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Visit <http://music.asu.edu/admissions/undergraduate-deadlines-fees> (<http://music.asu.edu/admissions/undergraduate-deadlines-fees>) for complete music deadlines.

Fall 2017: The deadline to apply for admission to this program is Jan. 6, 2017.

Transfer Admission Requirements:

Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- ☐ • performing as a concert soloist or in chamber music ensembles
- ☐ • performing as a freelance musician in venues such as art galleries, churches, clubs, cruise ships, resorts, restaurants and theme parks
- ☐ • presenting school programs or serving on state or community arts councils as artist-in-residence
- ☐ • recording and studio work
- ☐ • teaching privately or in a professional music school, a college or a university program
- ☐ • working in music-related fields such as media production, music business, publishing and marketing

Many graduates pursue a master's degree or a doctorate in music or in another professional field.

Performance and Movement, BA (HIPERMVBA)

Campus: Tempe

Program Description:

The BA in performance and movement program is designed for dancers who seek experience working with theatrical performance and acting, actors and performers who seek to balance text and voice work with movement exploration, and writers and directors who want to explore a wide range of approaches to live performance.

This degree program offers a number of options. The general track allows for the greatest degree of flexibility in course selection, with the possibility of exploring multiple genres, styles, and approaches to performance. Students are expected to reach the advanced level of at least one of the four personal movement practices --- postmodern contemporary, contemporary ballet, urban movement or somatic practices, as well as take at least two advanced acting classes.

In addition to the general track, there are several distinct curricular tracks designed for students with specialized areas of interest:

The musical theatre track is designed for the theatre student who wishes to focus their studies on musical theatre, vocal performance and dance. Students are offered a variety of courses within the School of Music and the School of Film, Dance, and Theatre. This unique academic program allows students to blend key elements of traditional musical theatre curriculum with an expanded focus on foundational courses that provide skills and tools to be a well-rounded theatre artist.

The social and partnership dance track emphasizes partnership dance that includes the performance, competitive and social dance communities. This track is designed for the dancer who seeks to master their partnership dance studies within a social or performative context. This innovative program allows students to explore multiple styles and approaches in partnership dance while providing the skills, tools and certifications that exist in the ballroom and social dance communities.

The urban arts track offers a critical look at the historical, social and practical application of urban movement practice, scholarship and culture. It builds upon and unites existing series of classes across ASU and is rooted within community-engaged initiatives and programs. Urban arts encompasses urban artistic expression across mediums and is designed for the student interested in melding embodied practice, community social engagement and urban culture.

The program is an inclusive, transdisciplinary degree that encourages students to develop collaborative approaches to learning and professional industry skills in the performing arts. The fabric of this degree is grounded in cultivating community practice through theatre, dance and music. It encourages the student to create a flexible degree program that intersects and engages these areas of interest.

The BA program in theatre with a concentration in design and production provides students with a rigorous academic and hands-on theatre education with an emphasis on design and production for performance. Within the context of a comprehensive liberal arts education, the program prepares students for both advanced graduate study in the field and for entry-level careers in entertainment design and production. The program offers specialty coursework in the following areas:

- ☐ • costume design and technology
- ☐ • lighting design and technology

- ☐ • media design and technology
- ☐ • scenic design and technology
- ☐ • sound design and technology
- ☐ • stage management
- ☐ • technical direction

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students interested in the BA in theatre are admitted directly into the major by indicating their degree preference on their ASU admission application.

Students interested in the BA in theatre, BA in theatre with a concentration in acting, or BA in theatre with a concentration in design and production will enter as BA theatre majors. Once students begin to complete classes at ASU in the BA theatre program, they may apply to a concentration in either acting or design and production.

Transfer Admission Requirements:

Direct transfer of courses from other accredited institutions to the Herberger Institute for Design and the Arts are subject to the existence of parallel and equal courses in the college's curriculum and subject to departmental or school evaluation of studio courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

The bachelor's degree program in theatre provides an excellent broad-based foundation for work in the profession or readies students for further training at graduate schools or conservatories. The program's liberal arts emphasis prepares graduates for a variety of occupations. The design and production concentration offers students advanced study that can lead to careers as designers or technicians in the performing arts and the entertainment industry.

Theory and Composition (Composition), BMUS (FAMUSTCBM)

Campus: Tempe

Program Description:

Students pursuing the BMus in theory and composition must choose a concentration in either theory or composition, and completion of the

requirements for this concentration result in the award of one degree in either theory or composition. Students who select the concentration in composition focus on developing techniques for writing music. The School of Music offers students the opportunity to study with composers who have established national and international reputations. This program may be used as the first step toward a master's degree or doctorate in music composition or another graduate academic music degree.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics OR MAT 117 OR MAT 119

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Important: Applicants must submit an ASU application for undergraduate admission in addition to a separate School of Music application. Visit <https://music.asu.edu/admissions/undergraduate-steps-to-apply> (<https://music.asu.edu/admissions/undergraduate-steps-to-apply>) for details.

Admission to the School of Music is based on an audition. Live auditions take place on campus in November (spring admission) and in January and February (fall admission) of each year. Applicants may review audition information at <http://music.asu.edu/admissions/undergraduate-auditions> (<http://music.asu.edu/admissions/undergraduate-auditions>).

Admission to the School of Music is highly selective and based on an audition process. Students are admitted as music audition students and must successfully complete the audition before enrolling in music major courses. Upon admission to both ASU and the School of Music, the applicant's major will be changed to music. In the event a student is admitted to ASU but not to the School of Music or misses the audition deadline, the student will remain as a music audition major and will need to successfully pass the music audition milestone in the first semester in order to gain admission into the program.

Application Deadlines: Visit <http://music.asu.edu/admissions/undergraduate-deadlines-fees> (<http://music.asu.edu/admissions/undergraduate-deadlines-fees>) for complete music deadlines. Submission of a prescreening portfolio is required for all composition applicants.

Fall 2017: The deadline to apply for admission to the Bachelor of Music in composition is Dec. 1, 2016. A prescreening portfolio is required, uploaded to the online School of Music Application.

Transfer Admission Requirements:

Transfer Applicants: Transfer of courses from other accredited institutions is subject to the existence of parallel and equal courses in the college's curriculum, and departmental or school evaluation of studio and class piano courses with respect to performance standards.

Every candidate for the bachelor's degree must earn a minimum of 30 credit hours in resident credit at ASU. Transfer students enrolled in the institute must complete a minimum of 15 resident credit hours in the major as approved by the faculty.

Change of Major Requirements:

An ASU student who would like to change majors to one offered by the Herberger Institute for Design and the Arts must have a minimum cumulative GPA of 2.50 (scale is 4.00 = "A"). Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates are prepared to work in various professional or entrepreneurial capacities, including:

- ☐ • arranging
- ☐ • composing
- ☐ • performing in community and professional ensembles in a variety of styles and traditions
- ☐ • presenting school programs, or state or community arts councils as artist-in-residence
- ☐ • teaching in a private studio and community program
- ☐ • teaching theory and composition

- • working in music-related fields such as media production, music business, publishing and marketing

Many graduates pursue a master's degree or a doctorate in music or in another professional field.

Engineering, Ira A. Fulton Schools of

Aeronautical Management Technology (Air Traffic Management), BS (ESAMTATBS)

Campus: Polytechnic

Program Description:

The BS program in aeronautical management technology with a concentration in air traffic management provides a technical foundation in the air traffic control procedures used by air traffic controllers in air traffic control towers and air traffic control radar facilities. Students gain a strong background in aircraft operations, management skills and business principles through coursework specific to air traffic control and aviation. As a part of the degree program, students are required to take courses that will qualify them to earn their airline dispatcher certificate.

This is an intensive program of classroom study and laboratory practice using state-of-the-art air traffic control simulators to enhance and reinforce classroom study. Students develop the following skills:

- ☐ • analytical thinking
- ☐ • clear and concise communication
- ☐ • problem-solving
- ☐ • teamwork

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration certifies flight and ground instruction.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Technology (Aviation Management and Human Factors), MSTech. Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

To be considered for employment by the Federal Aviation Administration, graduates of the program need to be aware of minimum requirements for employment. See https://www.faa.gov/jobs/career_fields/aviation_careers/ (https://www.faa.gov/jobs/career_fields/aviation_careers/) for more information. Graduates of the program are not guaranteed employment by the Federal Aviation Administration. Students who do not have U.S. citizenship may be admitted to the program but will not be eligible for employment by the Federal Aviation Administration.

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

The Federal Aviation Administration's 2016 Controller Workforce Plan has projected that the agency plans to hire more than 7,400 new controllers over the next five years to keep pace with the expected attrition rate and traffic growth. The total number of planned hires for the period of 2016--2025 is 12,088 new controllers. Increases in the volume of air traffic will require more controllers to handle the additional work. New computerized systems will assist controllers by automatically making many of the routine decisions. This will allow controllers to handle more traffic, thus increasing their productivity.

To prepare for this challenge, students receive training in the methodologies and technologies that are currently being developed for the next generation of air traffic control systems. Despite the obvious demand for new controllers in the immediate future, competition to get into the FAA-

approved training programs is expected to remain intense as there generally are many more applicants than there are openings. Graduates who have met all the FAA requirements will be eligible for consideration for employment.

Aeronautical Management Technology (Air Transportation Management), BS (TSAMTMBS)

Campus: Polytechnic

Program Description:

The air transportation management concentration, under the BS program in aeronautical management technology, provides students with a strong foundation of aviation concepts, including aviation law, policy and human factors as well as technical knowledge focusing on power plants, structures and aerodynamics. Students will then progress into courses focusing on business and management and operational aspects of aviation such as airline administration and airport planning. All students will finish the program by participating in an internship within industry and completion of a capstone project. This program prepares students for leadership positions within airlines, airports, government, consulting and entrepreneurial enterprises.

The Aviation Accreditation Board International accredits this program.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Aeronautical Management Technology (Professional Flight), BS (TSAMTFBS)

Campus: Polytechnic

Program Description:

Students in the professional flight concentration learn to fly in an academic environment that prepares graduates for careers as professional pilots. Flight training is offered by an ASU-approved flight provider in late-model aircraft equipped with state-of-the-art avionics. The Polytechnic campus is adjacent to the Phoenix-Mesa Gateway Airport where flight instruction takes place. Students may take advantage of pathway agreements for guaranteed interviews with regional air carriers.

This program is for students who are seriously interested in becoming professional airline pilots. Graduates are prepared to assume responsibilities in a wide variety of technically related areas within professional aviation flight operations.

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration certifies flight and ground instruction.

Additional course-related fees apply; students should see the program website for more information.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Technology (Aviation Management and Human Factors), MSTech. Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Aeronautical Management Technology (Unmanned Aerial Systems), BS (TSAMTUASBS)

Campus: Polytechnic

Program Description:

The unmanned aerial systems concentration prepares students for careers in the rapidly growing area of unmanned aerial systems, including operations, remote sensing, data collection and analysis. The concentration incorporates all aviation management technology core courses and unmanned aerial systems concentration courses. This provides an overview of unmanned aerial systems operations followed by detailed knowledge of unmanned aerial systems-specific systems and technology (ground control stations; data links; flight planning and operations; search, detect and avoid technologies; and payloads) and unmanned aerial systems sensor operations. A critical aspect of this academic area of study is the data capture and transfer of the sensor information collected from the unmanned aerial vehicle. This innovative concentration brings together the most up-to-date and relevant aspects facing multiple industries today by addressing flight system planning and operations and the employment of the systems in the congested National Airspace System.

Aerospace Engineering (Aeronautics), BSE (ESAEROBSE)

Campus: Tempe

Program Description:

The aerospace engineering curriculum provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems. The aeronautics concentration, under the BSE in aerospace engineering, emphasizes engineering and the design of aircraft, helicopters, missiles and other vehicles that fly through the atmosphere. Topics in required courses cover:

- ☐ • aerodynamics
- ☐ • aerospace materials
- ☐ • aircraft structures
- ☐ • flight mechanics
- ☐ • propulsion
- ☐ • stability and control

Required astronautics topics include:

- ☐ • attitude control
- ☐ • orbital mechanics

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Aerospace Engineering, MS

Mechanical Engineering, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • no high school math or science competency deficiencies

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • no high school math or science competency deficiencies, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- ☐ • no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Change of Major Requirements:

Admission requirements for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should see <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
 Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

 Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
 Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
 Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
 Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
 Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
 Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
 South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
 Central Arizona College(<https://transfer.asu.edu/tag>)
 Cochise College(<https://transfer.asu.edu/tag>)
 Coconino Community College(<https://transfer.asu.edu/tag>)
 Dine College(<https://transfer.asu.edu/tag>)
 Eastern Arizona College(<https://transfer.asu.edu/tag>)
 Gila Community College(<https://transfer.asu.edu/tag>)
 Mohave Community College(<https://transfer.asu.edu/tag>)
 Northland Pioneer College(<https://transfer.asu.edu/tag>)
 Pima Community College(<https://transfer.asu.edu/tag>)
 Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
 Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
 Illinois(<https://transfer.asu.edu/illinois>)
 Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

A majority of students entering the field of aerospace engineering desire to work on the design and analysis of aerospace vehicles. Most graduates are employed in the aerospace industry or in government positions related to aerospace. Specific careers in aerospace engineering include:

- ☐ • aeronautical and space systems integration
- ☐ • configuration development
- ☐ • material and structural design
- ☐ • propulsion engineering
- ☐ • space mission design and analysis
- ☐ • vehicle and component analysis using computer-aided tools
- ☐ • vehicle design and performance
- ☐ • wind tunnel and flight testing

The aerospace engineering program has the following educational objectives:

- ☐ • Through volunteering, entrepreneurial endeavors, community service, employment, etc., graduates of the aerospace engineering program will demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Graduates of the aerospace engineering program should have attained one or more of the following objectives within a few years after completing

their degrees:

- ☐ • employment in aerospace or other field in a position that capitalizes on the skills and abilities gained through the degree in aerospace engineering, in positions of increasing responsibility and leadership within the organization
- ☐ • admission into a graduate degree program in aerospace engineering or other technical field
- ☐ • admission into a professional degree program, such as law or business, in accordance with the specific interests and abilities of the graduate

Aerospace Engineering (Astronautics), BSE (ESAEASBSE)

Campus: Tempe

Program Description:

The aerospace engineering curriculum provides students with an education in technological areas critical to the design and development of aerospace vehicles and systems.

The astronautics curriculum covers:

- ☐ • attitude determination and control
- ☐ • elective topics in aeronautics
- ☐ • gas dynamics
- ☐ • orbital mechanics
- ☐ • rocket propulsion
- ☐ • space environment
- ☐ • space structures
- ☐ • telecommunications

Students in the astronautics concentration culminate their major study with a capstone design project that incorporates the multiple disciplines involved in the creation of a space-going vehicle.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Aerospace Engineering, MS

Mechanical Engineering, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)), then admission to engineering requires a minimum

TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • no high school math or science competency deficiencies

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • no high school math or science competency deficiencies, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- ☐ • no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Change of Major Requirements:

Admission requirements for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should refer to <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for information about how to change their major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

A majority of students entering the field of aerospace engineering desire to work on the design and analysis of aerospace vehicles. Most graduates are employed in the aerospace industry or in government positions related to aerospace. Specific careers in aerospace engineering include:

- ☐ • aeronautical and space systems integration
- ☐ • configuration development
- ☐ • material and structural design
- ☐ • propulsion engineering
- ☐ • space mission design and analysis
- ☐ • vehicle and component analysis using computer-aided tools
- ☐ • vehicle design and performance
- ☐ • wind tunnel and flight testing

The aerospace engineering program has the following educational objectives:

☐ • Through volunteering, entrepreneurial endeavors, community service, their employment, etc., graduates of the aerospace engineering program will demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability.

Graduates of the aerospace engineering program should have attained one or more of the following objectives within a few years after completing their degrees:

- ☐ • employment in aerospace or other field in a position that capitalizes on the skills and abilities gained through the degree in aerospace engineering, in positions of increasing responsibility and leadership within their organization
- ☐ • admission into a graduate degree program in aerospace engineering or other technical field
- ☐ • admission into a professional degree program, such as law or business, in accordance with the specific interests and abilities of the graduate

Aerospace Engineering (Autonomous Vehicle Systems), BSE (ESAEAVSBSE)

Campus: Tempe

Program Description:

Emerging emphasis on autonomous aircraft technology and operations in both military and civilian sectors signals a new era within the aeronautical community focused on autonomous vehicles and systems. The autonomous vehicle concentration will provide graduates with knowledge and skills required for any career in aerospace engineering plus those specific to unmanned aerial vehicles and systems. The concentration curriculum is structured so that students will have general exposure to the engineering of autonomous aircraft plus track courses in one area important to this field. The tracks are guidance, navigation and control; and communications. Both tracks are intended for aerospace engineering students. All paths through this concentration satisfy accreditation criteria for aerospace engineering.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Air Traffic Management, BS (TSATMBS)

Campus: Polytechnic

Program Description:

The air traffic management program provides a technical foundation in the air traffic control procedures used by air traffic controllers in air traffic control towers and air traffic control radar facilities. Students gain a strong background in aircraft operations, management skills and business principles through coursework specific to air traffic control and aviation. As a part of the degree program, students are required to take courses that will qualify them to earn their airline dispatcher certificate.

This is an intensive program of classroom study and laboratory practice using state-of-the-art air traffic control simulators to enhance and reinforce classroom study. Students develop the following skills:

☐ • analytical thinking

☐ • clear and concise communication

☐ • problem-solving

☐ • teamwork

The Aviation Accreditation Board International accredits this program and the Federal Aviation Administration certifies flight and ground instruction.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered in an accelerated format with Technology (Aviation Management and Human Factors), MSTech

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

To be considered for employment by the Federal Aviation Administration, graduates of the program need to be aware of minimum requirements for employment. See https://www.faa.gov/jobs/career_fields/aviation_careers/

(https://www.faa.gov/jobs/career_fields/aviation_careers/) for more information. Graduates of the program are not guaranteed employment by the Federal Aviation Administration. Students who do not have U.S. citizenship may be admitted to the program but will not be eligible for employment by the Federal Aviation Administration.

Career Opportunities:

The Federal Aviation Administration's 2015 Controller Workforce Plan has projected that the agency plans to hire more than 6,300 new controllers over the next five years to keep pace with the expected attrition rate and traffic growth. The total number of planned hires for the period of 2015--2024 is 10,241 new controllers. Increases in the volume of air traffic will require more controllers to handle the additional work. New computerized systems will assist controllers by automatically making many of the routine decisions. This will allow controllers to handle more traffic, thus increasing their productivity.

To prepare for this challenge, students receive training in the methodologies and technologies that are currently being developed for the next generation of air traffic control systems. Despite the obvious demand for new controllers in the immediate future, competition to get into the FAA-approved training programs is expected to remain intense as there generally are many more applicants than there are openings. Graduates who have met all the FAA requirements will be eligible for consideration for employment.

Applied Computer Science, BS (TSACSB)

Campus: Polytechnic

Program Description:

The BS program in applied computer science provides students with an education that targets the computing profession. Students will learn to use mathematics, science and economics, along with technological knowledge and skill in the application of programming languages and software processes, to design, analyze, implement and test software systems and applications. The program is problem- and project-based, using the languages, tools and methods of computing best practices. Graduates gain significant exposure to team-based software development through industry-driven projects.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

The current demand for software and computer hardware personnel is high, and the starting salaries for these employees are typically well above the average. Graduates find opportunities as members of an engineering team in software applications areas such as:

- ☐ • databases
- ☐ • embedded systems
- ☐ • game development
- ☐ • graphics
- ☐ • mobile systems
- ☐ • networks
- ☐ • security
- ☐ • Web applications

Applied Science, BAS (TSAPSBAS)

Campus: Polytechnic

Program Description:

The BAS program is a transfer pathway specifically for students who have earned a community college AAS degree. The goal of the program is to provide students with management, leadership, critical thinking and communication skills along with significant work in a professional specialization. Students must complete an Associate of Applied Science degree to be eligible for this program. AA and AS students are not eligible for this program.

This program allows students who have earned an Associate of Applied Science degree from a regionally accredited institution to transfer 60 or 75 credit hours toward a Bachelor of Applied Science degree at ASU. Students may opt to complete additional general studies coursework at a community college to be eligible to transfer up to 75 credits toward the Bachelor of Applied Science. The BAS curriculum builds on the general education content of the Associate of Applied Science and includes four blocks of credits: general studies, core, concentration and assignable credits.

The ASU General Studies requirements will be completed through upper-division coursework. The applied science core curriculum includes content in management and organization, professional communication, statistical processes and computer competency. The concentration has a 20-credit hour minimum of specialization courses. The assignable credits (six credit hours) are traditional electives selected in consultation with an advisor to enhance the curriculum. Assignable credit also can be used to strengthen math and science capabilities or computer skills.

Students in the Bachelor of Applied Science program can select one of six specialty concentrations shown below. Students who choose to create their own specialty should select the courses in conjunction with an advisor.

- ☐ • aviation management technology
- ☐ • electronic and energy systems
- ☐ • graphic information technology
- ☐ • Internet and Web development
- ☐ • manufacturing technology and management
- ☐ • operations management technology

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: ASC 315 - Numeracy in Technology

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)
Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

Career Opportunities:

The wide range of concentrations provides graduates diverse career opportunities. Bachelor's degree program coursework gives the graduate greater skills to be successful as a professional working in a technical area. Graduates have the ability to supervise and manage people in highly specialized technical and service industry positions.

Applied Science (Aviation), BAS (TSAMTABAS)

Campus: Polytechnic

Program Description:

This program allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a BAS at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students transferring from a regionally accredited Arizona public community college can transfer up to 15 additional credit hours of transferable general studies courses (75 credit hours total). Students should work with their academic advisor to ensure their courses will meet degree requirements.

The concentration in aviation is for students who have received training and education in some aspect of the air transportation industry, such as air transportation management, flight or aviation maintenance, as part of their associate degree.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: ASC 315 - Numeracy in Technology

Admission Requirements:

General University Admission Requirements:
All students are required to meet general university admission requirements.

Applied Science (Electronic Energy Systems), BAS (TSEESBAS)

Campus: Polytechnic

Program Description:

The BAS program is flexible, designed specifically for students who have earned an AAS from a regionally accredited institution.

The electronic and energy systems concentration serves students with an electronics background via three paths or emphasis areas: alternative energy, electronic systems and integrated electronic systems (focused on the semiconductor industry).

The alternative energy technologies emphasis explores various alternative energy resources. This program provides hands-on laboratory experience on energy conversion and storage technologies, including photovoltaics, fuel cells, batteries, electrolyzers and supercapacitors.

The electronic systems emphasis allows students to continue to develop a knowledge of electrical and electronic fundamentals, with an applications perspective and a focus on the general topics of microcontrollers and advanced digital controllers and how these are used in industry.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

Career Opportunities:

Graduates from the alternative energy emphasis are able to work in a number of different companies involved in alternative energy. These companies may be traditional energy production companies expanding into new production technologies or start-up companies involved in solar energy or fuel cells.

Graduates from the electronic systems emphasis are able to work as members of engineering teams in applied design, product development, manufacturing, production or operations. They may also be employed in technical services capacities, including field engineering, marketing or sales.

Applied Science (Graphic Information Technology), BAS (TSGITBAS)

Campus: Polytechnic

Program Description:

The BAS program allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science degree at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students transferring from a regionally accredited Arizona public community college can transfer up to 15 additional credit hours of transferable General Studies courses (75 credit hours total). Students should work with their academic advisor to ensure their courses will meet degree requirements.

This concentration in graphic information technology prepares graduates in the cross-media graphic industry that includes commercial photography and video; digital design, print and publishing; and Web design and development.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Accelerated Degrees:

This degree is also offered in an accelerated format with Technology (Graphic Information Technology), MSTech
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students applying to this program must have completed an Associate of Applied Science degree in computer graphic design, digital arts, digital photography, eLearning design specialist, game technology, graphic design, animation and Web publishing design, graphic design: visual communication, information technology; Web and graphic design, media arts; desktop publishing, media art; Web design, multimedia, multimedia and business technology, and video production technology.

Change of Major Requirements:

Students interested in changing to this BAS degree must have completed a related AAS degree at a regionally accredited university. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Because the program combines technical course work with management content, graduates are prepared to assume supervisory positions such as:

- ☐ • art director
- ☐ • client support specialist
- ☐ • commercial photographer or videographer
- ☐ • graphic designer
- ☐ • production manager
- ☐ • user interface designer
- ☐ • Web designer

The Web design and development focus area prepares graduates for careers in website design.

The digital design, print and publishing focus area prepares graduates for lead technical and management positions in print, imaging and digital publishing.

The commercial photography and video focus area prepares students for commercial photography, videography and 2D-3D interactive communications.

Applied Science (Internet and Web Development), BAS (TSIWDBAS)

Campus: Polytechnic, Online

Program Description:

The BAS program allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science degree at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students transferring from a regionally accredited Arizona public community college can transfer up to 15 additional credit hours of transferable General Studies courses (75 credit hours total). Students should work with their academic advisor to ensure their courses will meet degree requirements.

The concentration in Web design and development focuses on the development of websites, including user experience design, usability, multimedia design, emerging Web technologies, and cross-media and cross-platform graphic applications. All courses for this program are available both on campus and online through ASU Online.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Accelerated Degrees:

This degree is also offered in an accelerated format with Technology (Graphic Information Technology), MSTech
Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students applying to this program must have completed an Associate of Applied Science degree in Web design, Web development, media arts; digital animation, media arts; Web design, Web developer, Web designer, and graphic design, animation, and Web publishing design.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(https://asuonline.asu.edu/degree-programs/undergraduate/bachelor-applied-science-internet-and-web-development?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Change of Major Requirements:

Students interested in changing to this Bachelor of Applied Science degree, must have completed a related Associate of Applied Science degree at a regionally accredited university. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

This degree program prepares graduates for careers in website design and development.

Applied Science (Manufacturing Technology and Management), BAS (TSMETFBAS)

Campus: Polytechnic

Program Description:

The BAS program is a flexible, 60 credit hour degree designed specifically for students who have earned an AAS from a regionally accredited institution.

The manufacturing technology and management concentration provides a broad understanding of the complex world of manufacturing.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements:

Applied Science (Operations Management), BAS (TSIMCOBAS)

Campus: Polytechnic, Online

Program Description:

The BAS program in operations management prepares students for supervisory and management functions in industry, manufacturing, public service and other service organizations. Graduates will be able to provide strategic focus to meet organizational objectives by implementing best practices, managing people and creating value.

This program allows students who have an applicable AAS from an accredited institution to transfer 60 credit hours toward a Bachelor of Applied Science degree at ASU. Students pursuing this degree may have more than 60 credit hours to complete in order to obtain their Bachelor of Applied Science upon transfer to ASU. Students transferring from a regionally accredited Arizona public community college can transfer up to 15 additional credit hours of transferable General Studies courses (75 credit hours total). Students should work with their academic advisor to ensure their courses will meet degree requirements.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: ASC 315 - Numeracy in Technology

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Applied Science (Software and Computing Systems), BAS (TSCSTBAS)

Campus: Polytechnic

Program Description:

The BAS program with a concentration in software and computing systems is a 60 credit hour degree designed specifically for students who have earned an AAS from a regionally accredited institution in a computing area. Students are expected to have an AAS with course work in object-oriented programming, data structures, computer organization, and assembly language programming. to enroll in upper-division major courses. The program requires upper-division course work and laboratories, and culminates in a capstone senior project.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

Career Opportunities:

The program exposes students to advanced concepts and critical thinking skills that prepare them for expanded career opportunities and professional advancement. Graduates from this concentration are prepared to work in systems administration and cybersecurity for Internet and telecommunication companies, a wide variety of information technology providers, and information technology centers within most midsize to large corporations. Demand for graduates with these skills continues to rise even while the job market in many other areas is stagnant or declining.

Biomedical Engineering, BSE (ESBMEBSE)

Campus: Tempe

Program Description:

Biomedical engineering applies principles of engineering to the study and resolution of problems in biology and medicine.

Graduates are trained to apply their skills in an ethical, sustainable and environmentally responsible manner to make contributions that address societal and individual needs.

The program objective is to prepare high-quality graduates with a broad-based education in biomedical engineering for productive employment, graduate study or professional programs, especially in human and animal medicine, biotechnology and related biology-based engineering fields; graduates who continue to develop technical knowledge, awareness and leadership abilities so they may address domestic or global issues in human health; and who will ethically and responsibly contribute to society by drawing from an integrated, transdisciplinary biomedical engineering education that focuses on sustainability and environmentalism.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered in an accelerated format with Biomedical Engineering, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • no high school math or science competency deficiencies

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • no high school math or science competency deficiencies, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- ☐ • minimum transfer GPA of 3.00 for 24 or more transfer hours, and

- ☐ • no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- ☐ • minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- ☐ • minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements:

Current ASU students should refer to <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for the major change requirements for this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Biomedical engineers are primarily employed in:

- ☐ • governmental regulatory agencies
- ☐ • hospital and research facilities
- ☐ • medical and educational institutions
- ☐ • medical device, biotechnology and pharmaceutical industries

In industry, they may work in all aspects of product development including:

- ☐ • business development
- ☐ • manufacturing
- ☐ • marketing
- ☐ • quality

- ☐ • regulatory
- ☐ • research and design
- ☐ • sales

Because of their background in both the engineering and medical fields, they often serve a coordinating or interfacing function and provide a key role for transdisciplinary teams. Government positions may involve evaluating new technologies, testing product quality and safety, and setting standards.

In the hospital, biomedical engineers serving in a clinical engineering function may provide advice on the selection and use of medical equipment and supervise performance testing and maintenance. Biomedical engineers may also build customized devices for special health care, rehabilitation or research needs.

Chemical Engineering, BSE (ESCHEBSE)

Campus: Tempe

Program Description:

Chemical engineering deals with the application of chemistry, physics and mathematics to the process of converting raw materials or chemicals into more useful or valuable forms. Chemical engineering also involves the design of valuable new materials and chemical products.

The BSE offered in the chemical engineering program builds on a broad base of knowledge within the basic and mathematical sciences and engineering, and it offers excellent career opportunities. Chemical engineers are engaged in the development and production of a diverse range of products, including high-performance materials needed for aerospace, automotive, biomedical, electronic, environmental and military applications. The modern discipline of chemical engineering is intertwined with biology and biomedical engineering.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Chemical Engineering, MS

Materials Science and Engineering, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Chemical engineers have traditionally played a key role in industries as varied as:

- ☐ • artificial fibers
- ☐ • ceramics
- ☐ • food
- ☐ • glass
- ☐ • petrochemicals
- ☐ • petroleum
- ☐ • plastics
- ☐ • primary metals
- ☐ • specialty chemicals

There are also many newer fields with great demand for chemical engineering graduates, such as: semiconductors, biotechnology, biomedical engineering, modern materials (composites, superconductors) and the solution of environmental problems.

Civil Engineering, BSE (ESCEEBS)

Campus: Tempe

Program Description:

Civil engineering majors in the Ira A. Fulton Schools of Engineering have three choices within the accredited BSE program:

- ☐ • civil engineering
- ☐ • civil engineering with environmental engineering concentration
- ☐ • civil engineering with sustainable engineering concentration

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the Bachelor of Science in Engineering in civil engineering is accredited by ABET.

Civil engineering involves the analysis, planning, design, construction, maintenance and application of sustainable practices in all areas of urban infrastructure for government, commerce, industry and the public domain. These include airports, bridges, canals, dams, factories, office towers, roadway systems, schools, tunnels and subway systems, and water purification facilities.

Civil engineers are concerned with the impact their projects have on the public and the environment; they coordinate the needs of society with technical and economic feasibility.

The curriculum exposes students to the following areas of civil engineering, with a strong emphasis on sustainability:

- ☐ • construction engineering
- ☐ • environmental engineering
- ☐ • geotechnical engineering
- ☐ • hydrosystems engineering
- ☐ • structures
- ☐ • transportation

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Civil, Environmental and Sustainable Engineering, MSE

Civil, Environmental, and Sustainable Engineering, MS

Construction Engineering, MSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • no high school math or science competency deficiencies

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • no high school math or science competency deficiencies, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- ☐ • minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- ☐ • no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- ☐ • minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- ☐ • minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements:

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

ASU graduates with a bachelor's degree in civil engineering readily find employment. Civil engineers work in many different types of companies, from large corporations to small, private consulting firms or governmental agencies. A civil engineering background is an excellent foundation for jobs in management and public service. Civil engineering is one of the best engineering professions from the viewpoint of international travel opportunities or for eventually establishing one's own consulting business. The bachelor's degree program prepares graduates for the fundamentals of engineering examination, the professional engineering examination and for graduate degree programs.

Civil Engineering (Environmental Engineering), BSE (ESCEEEBSE)

Campus: Tempe

Program Description:

Civil engineering majors have three choices within the accredited BSE program:

- ☐ • civil engineering
- ☐ • civil engineering with environmental engineering concentration
- ☐ • civil engineering with sustainable engineering concentration

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the Bachelor of Science in Engineering in civil engineering is accredited by ABET.

Civil engineering with a concentration in environmental engineering is a transdisciplinary field based on traditional civil engineering principles and on chemistry, biology and geology. Environmental engineers are involved with:

- ☐ • air pollution technology
- ☐ • analysis of the fate and transport of pollutants

- ☐ • application of sustainable practices in all areas of urban infrastructure
- ☐ • construction of hazardous waste containment systems
- ☐ • design and operation of water and wastewater treatment systems
- ☐ • remediation of contaminated soils and waters
- ☐ • surface water quality management
- ☐ • water conservation and reuse

The curriculum also exposes students to other traditional civil engineering areas.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Civil, Environmental and Sustainable Engineering, MSE
- Civil, Environmental, and Sustainable Engineering, MS
- Construction Engineering, MSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • no high school math or science competency deficiencies

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • no high school math or science competency deficiencies, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- ☐ • minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- ☐ • no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- ☐ • minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- ☐ • minimum GPA of 3.00 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements:

Current ASU students should refer to <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for the major change requirements for this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)

Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

ASU graduates with a bachelor's degree in civil engineering with a concentration in environmental engineering find employment in:

- ☐ • consulting firms
- ☐ • industry
- ☐ • municipalities
- ☐ • regulatory agencies

The growth of environmental engineering positions has been balanced by the growing number of students entering the field, resulting in a stable job market.

A civil engineering background is an excellent foundation for jobs in management and public service. International opportunities are abundant and are likely to expand. The bachelor's degree program in civil engineering prepares graduates for the fundamentals of engineering examination, the professional engineering examination and graduate degree programs.

Civil Engineering (Sustainable Engineering), BSE (ESCEESUBSE)

Campus: Tempe

Program Description:

Civil engineering majors have three choices within the accredited BSE program:

- ☐ • civil engineering
- ☐ • civil engineering with environmental engineering concentration
- ☐ • civil engineering with sustainable engineering concentration

The first choice allows students to choose among design and technical elective courses in their senior year. The other choices specify design and technical courses to students with minimal choices. Regardless of choice, the Bachelor of Science in Engineering in civil engineering is accredited by ABET.

The bachelor's degree in civil engineering with a concentration in sustainable engineering incorporates systems modeling and life cycle approaches to assessing the resiliency and material selection across all areas of urban infrastructure, or built environment, currently addressed within the civil engineering degree. The program is designed to provide students with exposure to material from several disciplines that comply with the principles of economic, social and ecological sustainability and apply them to traditional civil engineering areas.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Computer Science, BS (ESCSEBS)

Campus: Tempe

Program Description:

Computer science professionals design, analyze and improve the quality of computer software and systems for a variety of applications, including:

- ☐ • artificial intelligence
- ☐ • computer vision
- ☐ • graphics
- ☐ • information management
- ☐ • multimedia
- ☐ • networking
- ☐ • security

Examples of projects a computer scientist might work on include:

- ☐ • computer networking
- ☐ • database and information systems
- ☐ • distribution processing systems
- ☐ • gaming systems
- ☐ • next-generation computing systems
- ☐ • search engines
- ☐ • software engineering
- ☐ • Web services

The program focuses on the design of computers, computational processes for problem-solving, and information transfer and transformation with an emphasis on improving software and system quality, security, performance and usability. The program supports the evolution of the computing and informatics disciplines --- the integration of computer and information sciences with engineering, science and other disciplines.

Accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Computer Science (Art, Media and Eng), MS
- Computer Science (Big Data Systems), MCS
- Computer Science (Big Data Systems), MS
- Computer Science (Biomedical Informatics), MS
- Computer Science (Information Assurance), MCS
- Computer Science (Information Assurance), MS
- Computer Science, MCS
- Computer Science, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Computer science graduates secure employment in a variety of capacities ranging from computer and software design to development of information technologies. Their jobs are often distinguished by the high level of theoretical expertise applied to solving complex problems and to the creation and application of new computing technologies. Some computer science-related jobs may include:

- ☐ • creating computer games and graphics systems
- ☐ • designing artificial intelligence systems
- ☐ • developing mobile computing applications
- ☐ • developing network security applications
- ☐ • discovering data management and mining solutions for large scale data analytics
- ☐ • inventing and implementing more efficient computing systems for managing data and information, including information retrieval and search on the Internet

With the theoretical foundation built into the program, computer science graduates can excel in system and software development as well as in designing effective computing solutions for emerging and challenging problems in modern society. Skills in system development and research can lead to entrepreneurial activity that produces innovative computing products and services.

Computer Science (Information Assurance), BS (ESCSEIBS)

Campus: Tempe

Program Description:

The BS program in computer science with a concentration in information assurance provides students with the knowledge and skills needed to build dependable and secure information systems and networks and to ensure the integrity and quality of information being stored, processed and transmitted.

ASU has been certified as a National Center of Academic Excellence in Information Assurance Education and a National Center of Academic Excellence in Information Assurance - Research by the National Security Agency and the Department of Homeland Security. Information assurance courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for Information Systems Security Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012). For more information on information assurance courseware at ASU, students should refer to <http://ia.asu.edu/education.php> (<http://ia.asu.edu/education.php>).

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
 Central Arizona College(<https://transfer.asu.edu/tag>)
 Cochise College(<https://transfer.asu.edu/tag>)
 Coconino Community College(<https://transfer.asu.edu/tag>)
 Dine College(<https://transfer.asu.edu/tag>)
 Eastern Arizona College(<https://transfer.asu.edu/tag>)
 Gila Community College(<https://transfer.asu.edu/tag>)
 Mohave Community College(<https://transfer.asu.edu/tag>)
 Northland Pioneer College(<https://transfer.asu.edu/tag>)
 Pima Community College(<https://transfer.asu.edu/tag>)
 Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
 Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
 Illinois(<https://transfer.asu.edu/illinois>)
 Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Students enrolled in the information assurance concentration are eligible for federal fellowships, such as the Department of Defense Information Assurance Scholarship Program and the Federal Cyber Service Scholarship for Service Program. For more information on the scholarship programs, students should see <http://ia.asu.edu/scholarship.php> (<http://ia.asu.edu/scholarship.php>).

Graduates with a degree in computer science with an information assurance concentration find employment in a variety of capacities ranging from computer system and software development to research on information assurance technologies. Some related jobs may include:

- ☐ • analyzing computer forensic data
- ☐ • designing secure information systems and databases
- ☐ • developing secure software
- ☐ • information security consulting
- ☐ • secure computer and network applications

 Academic Catalog Archive 2017-2018

Computer Science (Software Engineering), BS (ESCSESBS)

Campus: Tempe

Program Description:

The software engineering concentration is appropriate for computer science students seeking careers as software engineers. Students will learn advanced processes, methodologies and tools for developing and testing large and small software applications in emerging areas such as:

- ☐ • databases
- ☐ • enterprise systems
- ☐ • interoperable systems
- ☐ • mobile computing
- ☐ • service-orientated computing

They will also learn information assurance concepts and techniques, or principles of human-computer interaction and methods, for developing these applications. The curriculum prepares students to assume leadership roles in software development organizations and to practice professional standards and emerging software technology to the software engineering life-cycle activities.

Accredited by the Computing Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Computer Science (Art, Media and Eng), MS
- Computer Science (Big Data Systems), MCS
- Computer Science (Big Data Systems), MS
- Computer Science (Biomedical Informatics), MS
- Computer Science (Information Assurance), MCS
- Computer Science (Information Assurance), MS
- Computer Science, MCS
- Computer Science, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: p>The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://global.asu.edu/future/undergrad>) then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • no high school math or science competency deficiencies

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • no high school math or science competency deficiencies, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- ☐ • minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- ☐ • no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- ☐ • minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- ☐ • minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements:

Current ASU students should refer to <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for the major change requirements for this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Career opportunities are plentiful for software engineers. Graduates of this program possess the knowledge and skills to work across the spectrum of software development process activities, including:

- ☐ • architecture
- ☐ • coding
- ☐ • project management
- ☐ • quality assurance
- ☐ • requirements engineering
- ☐ • testing

Careers include:

- ☐ • software analyst
- ☐ • software architect
- ☐ • software engineer
- ☐ • software task leader
- ☐ • software tester

Graduates of the software engineering concentration find employment in large and small organizations that develop, deploy and manage software systems. They work on all types of projects that include large, complex engineering systems; distributed banking; financial and government software; and gaming.

Computer Systems (Computer Hardware Technology), BS (TSCSTHBS)

Campus: Polytechnic

Program Description:

The computer hardware technology concentration under the BS degree program in computer systems offers students the opportunity to develop knowledge and skills in the broad area of digital systems, computer hardware and computer network applications. Current computing industry needs drive the program's curriculum. The computer systems program uses mathematics, science and economics along with technological knowledge and skill in the application of programming languages, computer hardware, operating systems and networking to design, analyze, implement and test systems that integrate hardware and low-level software. The program is problem-based with exercises utilizing the languages, tools and methods of computing best practices.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates find employment opportunities as members of engineering teams working in computer hardware technology, systems development and system analysis. The current demand for highly trained software and computer hardware personnel is high, and the starting salaries for these employees are typically well above the average.

Computer Systems Engineering, BSE (ESCSEBSE)

Campus: Tempe

Program Description:

The computer systems engineering program focuses on the analysis, design, testing, integration and evaluation of hardware and software systems.

The curriculum is grounded in many engineering disciplines, including the applications of science and technology to the design of:

- ☐ • computer architecture
- ☐ • computer security
- ☐ • digital circuits
- ☐ • distributed and embedded systems
- ☐ • networking
- ☐ • operating systems

Students engage in the design of integrated hardware and software solutions for computing, communication and control applications. They practice many aspects of engineering activities, such as the development of:

- ☐ • computer networks
- ☐ • embedded and ubiquitous systems
- ☐ • high-performance computer systems
- ☐ • individual digital components

Students become skilled at interfacing different pieces of hardware and software components and integrating systems and products with new capabilities and improved quality and performance.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Computer systems engineers are employed in industry, government, education and consulting firms where they engage in the design, development and operation of hardware and software systems of computer and networking equipment.

Computer systems engineers often find themselves focusing on engineering problems or challenges of emerging computer systems, from chips to device controllers, embedded systems and high-performance computing servers. Their jobs usually involve the research, design and development of computer hardware and software for practical applications. Their work can result in innovative, state-of-the-art products that integrate computing and communication capabilities, such as those in:

- ☐ • avionics and space vehicles
- ☐ • digital television and photography
- ☐ • intelligent highways and control systems for vehicles
- ☐ • mobile devices and smart applications
- ☐ • new apparatuses for health care and for the sight-impaired or others with physical disabilities
- ☐ • security and defense systems

Computer Systems Engineering (Information Assurance), BSE (ESCSEIBSE)

Campus: Tempe

Program Description:

The information assurance concentration in the computer systems engineering BSE degree program provides students with the knowledge and skills needed to build dependable and secure information systems and networks and to ensure the integrity and quality of the information being stored, processed and transmitted.

ASU has been certified as a National Center of Academic Excellence in Information Assurance Education and a National Center of Academic Excellence in Information Assurance - Research by the National Security Agency and the Department of Homeland Security. Information assurance courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for Information Systems Security Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012). For more information on information assurance courseware at ASU, students should refer to <http://ia.asu.edu/education.php> (<http://ia.asu.edu/education.php>).

Construction Engineering, BSE (ESCONBSE)

Campus: Tempe

Program Description:

The BSE program in construction engineering focuses on a combination of design and management topics, preparing the student for a career in the engineering and construction industry. The program prepares students who wish to gain a professional engineering license while working at the interface of design and construction, and it is attractive for students interested in a career that emphasizes the construction of infrastructure.

The degree makeup includes engineering design and construction management courses with a focus on sustainability and building information modeling topics. Construction management content includes:

- • construction methods
- • contract management
- • cost and schedule control
- • people management
- • project estimating

The curriculum's design content includes structures, geotechnical engineering and transportation. Students are further prepared with the computer, management, technical and people skills needed to succeed. This degree is the third in the Southwestern U.S. and one of about 20 worldwide.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered in an accelerated format with Construction Engineering, MSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and

- ☐ • no high school math or science competency deficiencies

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • no high school math or science competency deficiencies, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer student with 24 or more transferable college credit hours must meet EITHER the primary OR secondary criteria (not both):

Primary Criteria

- ☐ • minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- ☐ • no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- ☐ • minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- ☐ • minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements:

Current ASU students should refer to <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for the major change requirements for this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The construction engineering graduate will be prepared to begin as a field engineer, project engineer or project designer working for:

- ☐ • construction companies
- ☐ • design firms
- ☐ • facility owners
- ☐ • material suppliers
- ☐ • specialty subcontractors

The graduate will have unique skills to be able to take on the role of integrator in the delivery of design-build projects or development activities. As the graduate's career progresses, they should be able to take on leadership roles in the delivery of sustainable facilities in the built environment and then progress through successively higher levels of management responsibility. The graduate should be particularly attuned to design and construction of heavy civil and industrial facilities meeting the infrastructure needs of society.

Construction Management, BS (ESCONMGTB)

Campus: Tempe

Program Description:

The BS program in construction management allows students to specialize in commercial, heavy, residential, and specialty construction and facility management. Students learn to organize, lead and manage the building construction business processes related to real estate, facility and infrastructure projects. Construction management is the most vital function on a job site. Construction managers represent the interests of the building owner or the contractor and interact with architects, engineers, subcontractors, vendors and suppliers to ensure the success of the construction projects in the built environment. This program focuses on the business of construction and technology (such as building information modeling).

Students learn:

- ☐ • the basics of design
- ☐ • the construction methods specific to each type of construction (heavy, residential, commercial, specialty)
- ☐ • how to estimate, schedule and control the costs of a project
- ☐ • the process of sustainable or green construction
- ☐ • what it takes to manage the people involved and the various types of contracts

Students are prepared with the computer, management, technical and people skills needed to succeed. This is one of two construction programs in the state of Arizona and one of approximately 80 accredited programs in the nation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Construction Management , MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad>), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • no high school math or science competency deficiencies

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • no high school math or science competency deficiencies, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- ☐ • minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- ☐ • no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- ☐ • minimum transfer GPA of 2.50 for 24 or more transfer hours, and
- ☐ • minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements:

Current ASU students should refer to <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for the major change requirements for this program.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The construction management program provides a foundation for students who wish to pursue careers as project managers, project engineers, estimators or schedulers and eventually become principals of firms engaged in the construction of industrial, commercial or residential projects. The heavy construction emphasis area prepares students for careers related to public works such as highways, airports, bridges, utility systems and water or waste treatment facilities.

The commercial and residential emphasis areas prepare students for careers in real estate development, home production systems, commercial construction, health care and special industrial building projects. Students are also prepared to enter the sustainable or green construction market.

The specialty construction emphasis prepares students to organize, lead and manage the building process at the subcontractor level and prepares students for careers as contractors working with mechanical and electrical systems. It also prepares students for careers in management at specialty contracting firms, such as control systems, electrical distribution or heating, ventilation and air conditioning systems for large and complex facilities such as data centers, health care organizations and semiconductor manufacturing plants as well as commercial facilities.

Construction Management (Concrete Industry Management), BS (ESCONIMBS)

Campus: Tempe

Program Description:

The Del E. Webb School of Construction offers the BS in construction with a concentration in concrete industry management. Concrete industry management graduates are broadly educated, articulate managers grounded in basic construction management, who are knowledgeable about concrete technology and techniques, and are able to manage people and systems and to promote products or services in the concrete industry.

Additional Program Fee: Y

Second Language Requirement: N

Electrical Engineering, BSE (ESEEEBSE)

Campus: Tempe, Online

Program Description:

The goal of the electrical engineering undergraduate program is to prepare graduates for positions as electrical engineers. Faculty in the Ira A. Fulton Schools of Engineering offer a BSE in electrical engineering. Following initial coursework in mathematics and sciences, the foundation classes build a solid base of engineering knowledge. The electrical engineering curriculum includes a number of required upper-division electrical engineering and technical elective courses in such areas as:

- ☐ • circuits
- ☐ • communication, signal processing and control systems
- ☐ • computer engineering

- ☐ • electromagnetics
- ☐ • power
- ☐ • solid-state devices

Approved technical elective courses provide students with an opportunity either to broaden their background in electrical engineering or to study, in greater depth, technical subjects in which they have special interest.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered in an accelerated format with Electrical Engineering, MSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

Electrical Engineering (Electric Power and Energy Systems), BSE (ESEEEPBSE)

Campus: Tempe

Program Description:

The goal of the electric power and energy systems concentration is to prepare graduates for positions in industries dealing with generation, transmission and utilization of electric power. Generation includes conventional power generation (fossil fuel and nuclear) and alternative energy systems, including solar, wind and fuel cells.

Students in this program will complete the foundation courses in math, science and engineering. They are then required to take the pathway course in electric power and complete nine of the 15 technical elective credit hours with power classes. In addition, the senior design capstone project should be in the area of electric power and energy systems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Career opportunities for graduates with a concentration in electric power and energy systems include:

- ☐ • consulting engineering firms
- ☐ • employment in utility companies
- ☐ • entrepreneurial opportunities
- ☐ • power equipment manufacturers
- ☐ • research and design organizations
- ☐ • state, federal and municipal agencies

This concentration will also prepare students to pursue graduate degrees in the areas of:

- ☐ • power generation
- ☐ • power systems
- ☐ • power transmission and distribution
- ☐ • renewable and sustainable energy sources

The program also prepares graduates for continued learning experiences, either in a formal graduate program or in continuing education applications.

Electronics Engineering Technology (Alternative Energy Technologies), BS (TSEETABS)

Campus: Polytechnic

Program Description:

The curriculum of the BS program in electronics engineering technology serves the needs of students interested in applied aspects of electronics technology. The electronics engineering technology program has a practice-based approach and uses laboratories to make electronics technology real to students. Major components of the program include:

- ☐ • design
- ☐ • electronics-related technical courses
- ☐ • engineering science
- ☐ • general education
- ☐ • science and mathematics

The alternative energy technologies concentration explores the demands of energy resources in the new economy. This program strives to educate individuals in the use of energy sources such as solar, wind, ocean, geothermal and biomass and provides hands-on laboratory experience on several energy conversion and storage technologies, including photovoltaics, fuel cells, batteries, electrolyzers and supercapacitors.

Accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates have an understanding of energy and power technology, how materials and components contribute to the performance of electronic systems, and how to exploit the power of integrated electronics to enhance productivity and technology solutions. The alternative energy technologies concentration is designed to prepare graduates for careers in alternative energy as related to electric power conditioning, control systems, electronics and instrumentation. The specific positions might include:

- ☐ • application interface
- ☐ • environmental and reliability analysis
- ☐ • policy analysis
- ☐ • process control
- ☐ • system design
- ☐ • technology analysis

Electronics Engineering Technology (Electronic Systems), BS (TSEETBS)

Campus: Polytechnic

Program Description:

The curriculum of the BS degree program in electronics engineering technology serves the needs of students interested in applied aspects of electronics technology. The electronics engineering technology program has a practice-based approach and uses laboratories to make electronics technology real to students. Major components of the program include:

- ☐ • design
- ☐ • electronics-related technical courses
- ☐ • engineering science
- ☐ • general education
- ☐ • science and mathematics

The field of electronics engineering technology applies mathematics, science and economics, along with state-of-the-art electronics techniques, materials and devices to solve technological problems and to produce useful products. The concentration in electronic systems, under the Bachelor of Science in electronics engineering technology, allows students to develop a broad-based knowledge of electrical and electronic fundamentals with an applications perspective.

Accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates have an understanding of energy and power technology, how materials and components contribute to the performance of electronic systems, and how to exploit the power of integrated electronics to enhance productivity and technology solutions. The electronic systems concentration prepares students for careers in:

- ☐ • control applications
- ☐ • electronics applications

- ☐ • instrumentation applications
- ☐ • power systems applications

Engineering technologists typically work as members of engineering teams in:

- ☐ • applied design
- ☐ • manufacturing
- ☐ • operations
- ☐ • product development
- ☐ • production

They may also be employed in technical services capacities, including:

- ☐ • field engineering
- ☐ • marketing
- ☐ • sales

Electronics Engineering Technology (Integrated Electronic Systems), BS (TSEETINBS)

Campus: Polytechnic

Program Description:

The curriculum of the BS degree program in electronics engineering technology serves the needs of students interested in applied aspects of electronics technology. The electronics engineering technology program has a practice-based approach and uses laboratories to make electronics technology real to students. Major components of the program include design, electronics-related technical courses, engineering science, general education, and science and mathematics.

The integrated electronic systems concentration explores the processes and technology used to develop, design, manufacture and exploit integrated electronic functions on silicon, in packages and on boards. The program provides hands-on laboratory experience in integrated circuit device fabrication and manufacturing in a setting that emulates industry.

Accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates have an understanding of energy and power technology, how materials and components contribute to the performance of electronic systems, and how to exploit the power of integrated electronics to enhance productivity and technology solutions. Upon completion of this

concentration, graduates are prepared for careers in the microelectronics industry. Graduates secure positions in:

- ☐ • diverse scientific engineering teams
- ☐ • field applications
- ☐ • integrated circuit processing
- ☐ • system integrators
- ☐ • testing

Engineering, BSE (TSEGRBSE)

Campus: Polytechnic

Program Description:

The ABET-accredited BSE engineering program prepares graduates to collaborate across disciplines to design and build solutions to real-world problems. In the Bachelor of Science in Engineering program, students apply engineering fundamental knowledge and design thinking to real projects every semester.

In the Bachelor of Science in Engineering program, students choose a disciplinary concentration where they develop in-depth knowledge in a specific area, as well as a secondary focus area. This flexibility allows students to tailor their degree to achieve their individual career and life goals.

Students can choose from the following concentrations:

- ☐ • automotive systems
- ☐ • electrical systems
- ☐ • mechanical engineering systems
- ☐ • robotics

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Engineering (Automotive Systems), BSE (TSEGRASBSE)

Campus: Polytechnic

Program Description:

The ABET-accredited BSE engineering program prepares graduates to collaborate across disciplines to design and build solutions to real-world problems. In the Bachelor of Science in Engineering program, students apply fundamental engineering knowledge and design thinking to real projects every semester.

Students in the automotive systems concentration of the Bachelor of Science in Engineering program first build a broad engineering foundation to which they add skills and knowledge necessary for vehicle design and testing. The concentration curriculum focuses on automotive engineering fundamentals, including powertrain engineering and chassis system design as well as hands-on projects that involve designing, analyzing and building of actual automotive systems. Graduates in this concentration will be able to provide leadership in automotive engineering settings, especially automotive testing and hybrid propulsion systems, which are intrinsically transdisciplinary in nature.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services. The Bachelor of Science in Engineering program enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork and collaboration, and self-motivation and adaptability that many employers seek. Graduates from the automotive concentration are prepared for employment in automotive-related companies, from large original equipment manufacturing companies and their testing grounds to smaller specialty or aftermarket companies. The program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes, and some students start companies of their own.

Because of the transdisciplinary nature of the Bachelor of Science in Engineering, graduates also will have opportunities to perform functions that traditionally have been done by mechanical, manufacturing, automation and development engineers.

Engineering (Humanitarian Engineering), BSE (TSEGRHEBSE)

Campus: Polytechnic

Program Description:

The ABET-accredited BSE engineering program prepares graduates to collaborate across disciplines to design and build solutions to real-world problems. In the Bachelor of Science in Engineering program, students apply fundamental engineering knowledge and design thinking to real projects every semester.

Students in the humanitarian engineering concentration first build a broad engineering foundation to which they add the skills and knowledge necessary to adapt water and energy systems to local and developing-world needs. They work with ASU's Global Resolve organization to learn to identify and implement appropriate technological and cultural solutions. Graduates of the concentration will be positioned to work on transdisciplinary teams addressing vital engineering needs of communities in the developing world. They will have real-world experience with the challenges and opportunities inherent in this environment and impact lives by solving real problems.

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)

Central Arizona College(<https://transfer.asu.edu/tag>)

Cochise College(<https://transfer.asu.edu/tag>)

Coconino Community College(<https://transfer.asu.edu/tag>)

Dine College(<https://transfer.asu.edu/tag>)

Eastern Arizona College(<https://transfer.asu.edu/tag>)

Gila Community College(<https://transfer.asu.edu/tag>)

Mohave Community College(<https://transfer.asu.edu/tag>)

Northland Pioneer College(<https://transfer.asu.edu/tag>)

Pima Community College(<https://transfer.asu.edu/tag>)

Tohono O'odham Community College(<https://transfer.asu.edu/tag>)

Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services. The BSE program enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork and collaboration, and self-motivation and adaptability that many employers seek. Graduates are prepared to work in large corporations, government

agencies, small businesses, as well as to go on to graduate school to pursue advanced degrees. The program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes, and some students start companies of their own.

Engineers with mechanical expertise are in high demand in many different industry sectors, including transportation, agriculture, a wide variety of process industries, product development, manufacturing, and energy and defense systems. Mechanical engineers also work in close collaboration with other engineering disciplines in a wide variety of fields, including biomedical, building and construction, transportation, and aerospace. Graduates from this program have a broad base of technical knowledge and operational skills that make them invaluable members of multidisciplinary engineering teams, well-suited for employment across the whole spectrum of applications.

Engineering (Robotics), BSE (TSEGRRBSE)

Campus: Polytechnic

Program Description:

The ABET-accredited BSE program in engineering prepares graduates to collaborate across disciplines to design and build solutions to real-world problems. In the Bachelor of Science in Engineering program, students apply fundamental engineering knowledge and design thinking to real projects every semester.

Students in the robotics concentration of the Bachelor of Science in Engineering program first build a broad engineering foundation to which they add skills and knowledge necessary to contribute robotics subject matter expertise in transdisciplinary engineering teams. This expertise includes electromechanical systems, sensor and actuator integration, embedded digital systems application, and design and analysis of dynamic systems. The robotics curriculum also provides significant hands-on experience designing and implementing robotics systems to meet the needs of users.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Engineering, MS
- Secondary Education (Teacher Certification), MEd
- Technology (Management of Technology), MSTech

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Engineering Exploration, (TSEGRPRE)

Campus: Tempe

Program Description:

Engineering exploration provides an opportunity for students to become aware of the diverse engineering and technology related programs within the Ira A. Fulton Schools of Engineering on both the Tempe and Polytechnic campuses; to develop the knowledge and skills to succeed at ASU; and to develop the confidence and motivation to select a major in the Fulton Schools. Engineering exploration is not a degree-granting program. Students in the exploration program may transfer into a Fulton Schools degree-granting program once they meet the published transfer admission requirements for their desired program. All students will be required to change their major at the end of three semesters.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Prospective students may not apply to the engineering exploration program. Freshman applicants to Ira A. Fulton Schools of Engineering programs will be considered for engineering exploration if they are not admitted to their first choice. Please contact Engineering@asu.edu (mailto:engineering@asu.edu) for questions regarding admission and program eligibility.

Change of Major Requirements:

Prospective students may not apply to the engineering exploration program. Engineering exploration is for on-campus, first-time freshmen only. Transfer students, online students, students seeking readmission and continuing students seeking major changes are not admissible nor can their major be changed into engineering exploration.

Career Opportunities:

Since this program does not grant a degree, students must choose a major for degree completion. Career opportunities are specific to the ultimate major of choice.

Engineering Management, BSE (ESEMGBSE)

Campus: Tempe, Online

Program Description:

The program in engineering management is designed to provide the graduate with skills for effective management and leadership of engineering-driven enterprises. The curriculum provides a breadth of engineering science and design with depth in one specific area suitable for practice. This knowledge is augmented with an understanding of business practices, organizational behavior and management skills to enable the graduate to succeed in the management of a scientific or engineering enterprise. Topics covered include project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management, in addition to product design and process development. The graduate will leave with a deep understanding of at least one industry sector based upon the focus area courses selected by the student.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Concurrent Degrees:

This degree is also offered as concurrent degree program with Economics, BS

Accelerated Degrees:

This degree is also offered in an accelerated format with Industrial Engineering, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission requirements for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission requirements.

Students should select a second major choice when applying for admission to a degree program in the Ira A. Fulton Schools of Engineering.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <https://students.asu.edu/international/future/undergrad> (<https://students.asu.edu/international/future/undergrad>)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • Admission may be granted with one deficiency in no more than two competency (<https://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 2.75 for less than 24 transfer hours, and
- ☐ • satisfy the freshmen admission requirements

Transfer students with more than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- ☐ • if Admission Services requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency (<https://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Concurrent degree admission requirements: Engineering Management, BSE and Economics, BS:

- ☐ • minimum 1250 SAT combined evidence-based reading and writing plus math score (650 minimum on SAT math) or minimum 29 ACT combined score (29 minimum on ACT math), and
- ☐ • 3.00 minimum ABOR GPA

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The engineering management graduate will be prepared to begin as a:

- ☐ • production supervisor
- ☐ • project management team member or lead
- ☐ • supply logistics engineer
- ☐ • system specification and customer relationship management specialist or similar role

The graduate will be ready to progress through successively higher levels of management responsibility.

Environmental Engineering, BSE (ESEVEBSE)

Campus: Tempe

Program Description:

The environmental engineering BSE degree program will focus on the engineered processes and systems that preserve, protect and restore the natural environment for benefits to human health and ecosystem services. The degree will appeal to students who seek to identify, compare, solve, analyze, evaluate and design sustainable solutions to current and pressing environmental problems that span local, regional, national and global scales. In recognition of the interdisciplinary nature of these challenges, the degree will incorporate educational content from other programs in the Fulton Schools of Engineering. Course offerings will cover fundamental engineering concepts applied to environmental processes and

environmental engineering design, as well as applied learning experiences including a summer internship or research experience and capstone design course. The program will have a heavy emphasis on chemistry, biology and mathematics as applied to many of the pressing problems that society faces today.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman Admission:

☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and

☐ • no high school math or science competency deficiencies

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and

☐ • no high school math or science competency deficiencies, and

minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Change of Major Requirements:

Current ASU students should refer to <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for the major change requirements for this program.

Career Opportunities:

Graduates from the environmental engineering program will have career opportunities in both the private and public sectors. The private sector consulting industry in environmental engineering is growing as greater environmental awareness and emerging novel pollutants require continual refinement of regulations and environmental system design standards. We seek to accredit the BSE in environmental engineering to allow graduates to pursue professional licensure that will enable environmental engineers to design and build drinking water and wastewater treatment facilities, contaminated soil and water remediation systems, and hazardous and solid waste confinement systems. In the public sector, municipalities and regulating agencies require a knowledgeable workforce to understand how public policy can improve human health and ecosystem services through environmental engineering processes.

Environmental and Resource Management, BS (TSETMBS)

Campus: Polytechnic

Program Description:

The BS program in environmental and resource management provides critical scientific and management skills for graduates who will work in industry or government to ensure the health of natural ecosystems and mitigate the environmental impact of our industrial world.

The curriculum combines a strong foundation in biology, chemistry, physics and mathematics, with a solid grounding in environmental law and policy. Students learn to apply environmental technologies to drinking water and wastewater treatment, management of hazardous and solid wastes, and control of industrial and mobile sources of air pollution. They study OSHA regulations on health and safety and strategies to protect workers in hazardous environments. International environmental issues and legal frameworks are included along with U.S. environmental laws.

Graduates with these skills are in high demand and can find work in industry, governmental management and regulatory agencies, or in policy-making organizations.

An accelerated BS/MS degree option is available in which up to nine hours of the bachelor's degree may be applied toward the 33 hours required for the master's degree in environmental and resource management. A special application is required for this option.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Environmental and Resource Management, MS

Technology (Environmental Technology Management), MSTech

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates are firmly grounded in the scientific, technical and legal problems facing environmental managers in today's business climate. They are prepared to be environmental, health and safety professionals in industrial settings such as manufacturing, mining, oil and gas or environmental engineering consulting firms. They also assure compliance with OSHA and EPA requirements in laboratories at pharmaceutical companies, water treatment plants or academic labs. On the regulatory side, graduates work for agencies such as the U.S. Environmental Protection Agency or state and county departments of environmental quality.

Graphic Information Technology, BS (TSGITBS)

Campus: Polytechnic, Online

Program Description:

The cross-media nature of the graphic information industry requires graduates to understand the full spectrum of graphic technology, publishing processes and current business practices. The BS program in graphic information technology is preparation for a seamless career as a graphic technologist encompassing Web design and development, printing and digital publishing, commercial photography and videography, and 2D-3D animation. This is an intensive program of study emphasizing theory and hands-on laboratory practice. Students develop the following skills:

- ☐ • commercial photography and videography
- ☐ • multimedia and interactive technologies
- ☐ • premedia, digital publishing and print technologies
- ☐ • project and content management
- ☐ • technical imaging
- ☐ • user experience design
- ☐ • Web design and development

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- ☐ • 3.75 minimum ABOR GPA
- ☐ • no English competency deficiencies
- ☐ • 960 SAT Reasoning (or 1040 if taken prior to March 5, 2016) or 22 ACT score

Transfer Admission Requirements:

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-graphic-information-technology-concentration?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective general studies requirements.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)

Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graphic information technology prepares graduates for technical and management positions in the graphics industry in such diverse areas as:

- ☐ • commercial photography and videography
- ☐ • management of graphic information assets
- ☐ • planning and evaluation of print, Internet, multimedia and computer-based communication
- ☐ • premedia, digital printing and publishing
- ☐ • quality assurance of graphic products
- ☐ • technical and digital media production
- ☐ • Web design and development

Graphic Information Technology (Gaming), BS (TSGITGBS)

Campus: Polytechnic

Program Description:

The cross-media nature of the graphic information industry requires graduates to understand the full spectrum of graphic technology, reproduction processes and current business practices. The BS program in graphic information technology prepares graduates for a seamless transition into a career as a graphic technologist encompassing Web development and Internet technologies, printing and digital publishing, commercial and technical imaging, and gaming technologies. Graduates of the Bachelor of Science in graphic information technology with a concentration in gaming will be able to critically analyze, design and develop the various game appearance and art assets needed to create video games. Students will learn and apply the latest game visual development skills, tools and technologies. Students develop the following skills:

- ☐ • commercial photography and videography
- ☐ • document design
- ☐ • gaming and simulation technologies
- ☐ • multimedia and interactive technologies
- ☐ • premedia, digital publishing and print technologies
- ☐ • project and content management
- ☐ • technical imaging
- ☐ • user experience design
- ☐ • Web design and development

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Technology (Graphic Information Technology), MSTech

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates from the video game art focus may work on PC, mobile apps and console video games as modelers, texture artists for characters and environments, as well as character animators and riggers.

Graduates with a concentration in gaming will find employment in a variety of capacities ranging from computer and software design to graphic design and graphics arts. Students specializing in video game production are skilled at asset management, 3D rendering and animation including technically challenging tasks like skinning, rigging and texturing for game asset production. Salaries can range from \$50,000 to \$125,000 per year, depending on experience and market demand.

Human Systems Engineering, BS (ESHSEBS)

Campus: Polytechnic

Program Description:

The BS program in human systems engineering in the Ira A. Fulton Schools of Engineering provides students with an understanding of the science of human performance and with experience using methods and tools to apply this understanding to design and problem-solving in a wide variety of domains such as product usability, learning design, sports performance, and workplace and hospital safety.

A broad range of professions need experts in human factors to work on problems that involve an understanding of human performance. Interest areas include user experience, aviation human factors, cognitive performance, consumer psychology, transportation human factors, patient safety, effective teamwork, health psychology, learning optimization, social cognition, threat detection and sports psychology.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Human Systems Engineering, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

The human systems engineering program prepares students for industry and government positions in a career such as a:

- ☐ • game designer
- ☐ • human factors engineer
- ☐ • human systems integrator
- ☐ • interface designer
- ☐ • user experience designer
- ☐ • usability engineer

Graduates may work as a member of a product or system design team.

Contact Information:

Engineering, Ira A. Fulton Schools of
Human Systems Engineering
<https://poly.engineering.asu.edu/hse/>

Industrial Engineering, BSE (ESIEEBSE)

Campus: Tempe

Program Description:

Industrial engineering is concerned with the design, improvement, installation and operation of integrated systems of people, materials, information, equipment and energy. The purpose is to determine efficient ways to make a product or to provide a service. Industrial engineering draws upon specialized knowledge and skill in the mathematical, physical and social sciences together with the principles and methods of engineering analysis and design.

The underlying concepts of industrial engineering include certain business principles but emphasizes the use of mathematics and information technology to build models to describe, understand and optimize system performance. Depending on the subspecialties involved and the intended application, industrial engineering may also be known as operations management, management science, operations research, systems engineering or manufacturing engineering.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered in an accelerated format with Industrial Engineering, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • no high school math or science competency deficiencies

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • no high school math or science competency deficiencies, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- ☐ • minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- ☐ • no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- ☐ • minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- ☐ • minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements:

Current ASU students should refer to <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for the major change requirements for this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates in industrial engineering are prepared to design and manage systems for a wide range of organizations. They find exciting career opportunities in all types of manufacturing and service industries, including:

- ☐ • banking and finance
- ☐ • defense and government
- ☐ • health care
- ☐ • hospitality, sports and entertainment
- ☐ • management consulting
- ☐ • manufacturing (e.g., aerospace, automotive, semiconductor)

- ☐ • software industry
- ☐ • telecommunication
- ☐ • transportation and logistics

Industrial and Organizational Psychology, BS (ECPSYBS)

Campus: Polytechnic

Program Description:

Americans spend more than 54 percent of their waking hours at work. As a result, students who want to make a real impact on peoples' lives are beginning to focus on the psychology of work. Industrial and organizational psychology helps organizations identify the right job candidates to hire, determine the best job fit for each worker, design enjoyable and effective workplaces, and determine appropriate the work-life balance for employees in the organization. Finally, one specialty, human factors, focuses on designing tools and products that are easy to use and reduce human error.

In addition to strong education in human learning, memory, emotion, judgment and social psychology, which prepare students for employment or graduate school, students can choose to focus in two of five focus areas:

- ☐ • consumer psychology
- ☐ • human resources and organizational behavior
- ☐ • human systems engineering
- ☐ • learning technology
- ☐ • user experience

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Some students pursue master's or doctoral degrees, but many career opportunities exist for graduates with bachelor's degrees, especially in the areas of human resources, human factors design, user experience and consumer behavior.

We routinely place our qualified undergraduate students in internships in leading companies or government agencies in the fields of technology, transportation, training, defense and health care. According to the 2012 Occupational Outlook Handbook, published by the U.S. Department of Labor, industrial and organizational psychology is one of the best-paying specialties in psychology, and demand for industrial and organizational psychologists is growing at a rate of about 29 percent annually.

Informatics, BS (ESCPIBS)

Campus: Tempe

Program Description:

Informatics is about discovering, developing and understanding computer applications that improve people's lives. The BS program in informatics prepares skilled professionals who take a transdisciplinary, user-oriented perspective toward information and computing systems, apply current informatics methods to address society's needs, and contribute to the next generation of such systems.

The informatics bachelor's degree program provides an option for students interested in a flexible program in applied information and computing technologies. The program provides skills in design and implementation of computer systems while offering opportunities for building applications used by people in many fields. Students learn to develop software for devices of all sizes, from supercomputers to cell phones and even smaller. The challenges of informatics include designing, developing and applying tools that model, aid or automate activities within science, engineering, business, geography, education and entertainment.

Informatics careers center on solving problems through the design and creation of information systems, user interfaces, mobile technologies and social media.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

or MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission requirements for a Bachelor of Science in informatics are higher than minimum university admission requirements. Students should select a second major choice when applying for admission to a degree program in the Ira A. Fulton Schools of Engineering.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant, (see <http://students.asu.edu/international-admission>) and admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed.

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • Minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class.

Transfer students with more than 24 transferable college credit hours:

Primary Criteria

- ☐ • Minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- ☐ • A competency deficiency in either math or laboratory science is allowed. Competency deficiencies in both math and science are not allowed (if Admission Services requires submission of a high school transcript).

Secondary Criteria

- ☐ • Minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- ☐ • Minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements:

Students can view change of major requirements for the Ira A. Fulton Schools of Engineering at <https://engineering.asu.edu/admission->
Academic Catalog Archive 2017-2018

requirements/ (<https://engineering.asu.edu/admission-requirements/>).

Career Opportunities:

A graduate of this ASU informatics program has the ability to develop future information technology solutions that place a strong emphasis on user needs and provide the ability to adapt and change dynamically with society's needs. This makes the informatician a strong candidate for jobs in:

- ☐ • management consulting firms
- ☐ • technology research centers
- ☐ • technology start-ups

Additionally, the program prepares students for graduate programs that offer an emphasis in emerging technologies.

Information Technology, BS (TSIFTBS)

Campus: Polytechnic, Online

Program Description:

Information technology is for those who want to be responsible for designing or architecting, selecting, implementing and managing computer-based information solutions. The information technology graduate can design and create effective networking technology solutions to today's knowledge-based problems. Graduates design and create network architectures, configure and administer complex computer and database systems, analyze security issues, and support enterprise usage involving information technology.

In the bachelor's degree program in information technology, students will create project solutions to hone technical, team and personal development and presentation skills. Integrated laboratory and lecture courses are used to provide students with the necessary skills to become valued contributors within any organization in an information technology role. In addition to selecting a primary focus area (networking and security, information systems or enterprise computing), students will be able to create their own secondary focus area that meets their specific career objectives. Each undergraduate student is required to successfully complete an industry-based capstone project prior to graduation.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered in an accelerated format with Information Technology, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates of the information technology bachelor's degree program are well-qualified for careers in any IT discipline. This degree couples technical skills with the business skills needed to develop, create or manage technical functions. Some graduates may pursue careers as technical support staff or security analysts based on the focus area and secondary skills they achieve.

Graduates will have the ability to support and lead technical professionals in three focus areas: networking and security, information systems, and enterprise computing.

The networking and security focus explores the tools, frameworks, technologies and processes underlying the design, development, deployment and support of computer networks. This includes a background that embraces confidentiality, integrity and availability in networking architectures and security analysis.

The information systems focus provides the graduate with the concepts associated with database structure, including cloud computing, database security and control, structured query language programming, and database management systems.

The enterprise computing focus provides students with an understanding of the enterprise and how information technology is used to further business interests. It includes many aspects of using technology to support the overall enterprise, including operations, funding and promotion. Students will learn how technology can be used in business strategy and creating innovative new ways to support business.

Manufacturing Engineering, BS (TSMEGRBS)

Campus: Polytechnic

Program Description:

Successful manufacturing enterprises balance design, sustainability and quality with production to prosper in the global marketplace. Manufacturing engineering combines manufacturing processes (e.g., how materials are altered in either shape or properties) and the processes of manufacturing (e.g., design and management of manufacturing systems).

The BS program in manufacturing engineering prepares graduates to:

- ☐ • analyze, synthesize and control manufacturing operations using statistical methods
- ☐ • collaborate across disciplines to design and build solutions to real-world problems
- ☐ • design innovative products and the equipment, tooling and environments necessary for their manufacture
- ☐ • model, simulate and analyze manufacturing production processes for both small- and large-scale environments
- ☐ • provide technological leadership

The curriculum is project-based, hands-on, teamwork-oriented and delivered in outstanding fabrication facilities. Graduates of this program will become key team members who will create and implement processes for making such varied products as airplanes, surgical instrument, toys and foodstuffs.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Engineers collaborate on transdisciplinary teams to design, manufacture and deliver innovative technological products and services. The Bachelor of Science in Engineering program in manufacturing engineering enables students to develop sophisticated technical skills in tandem with the professional skills of communication, teamwork and collaboration, and self-motivation and adaptability that many employers seek. Graduates are prepared to work in large corporations, government agencies, small businesses, as well as to go on to graduate school to pursue advanced degrees. The program's emphasis on open-ended design and project-based learning supports the development of entrepreneurial skills and attitudes, and some students start companies of their own.

Graduates typically work as manufacturing engineers in a variety of companies, large and small. They are often members of design and development teams, cooperating with other people within and outside of their company. Career employment opportunities include direct manufacturing support, manufacturing management, and quality control and assurance. Due to a strong, broad and practical engineering skill set,

graduates are highly valuable in small or new startup companies. Our graduates are well placed and command top salaries.

Manufacturing Engineering Technology (Mechanical), BS (TSMETMBS)

Campus: Polytechnic

Program Description:

Manufacturing is in a period of dramatic transformation. Future manufacturing will involve a global supply network to enable innovation, design and integration of products and services. At its core, manufacturing engineering is about creating and delivering products and services that have value to customers and society.

Manufacturing engineers are key team members in the production of products such as automobiles, airplanes, electronic devices, surgical instruments, toys, building products and foodstuffs. Manufacturing engineers design the processes to make products with the required functionality, to desired quality standards based on customers needs, at the best possible price and in environmentally-friendly ways. The manufacturing curriculum is project-based and provides students a hands-on, team-based learning environment. The manufacturing program has outstanding fabrication facilities that are a hallmark of the program.

Accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. WANER 201

Materials Science and Engineering, BSE (ESMSEBSE)

Campus: Tempe

Program Description:

Materials engineers are responsible for designing and developing advanced materials for a wide variety of engineering applications. Courses in materials teach students about the design of materials and how to process them to improve their structure, properties and performance. Materials engineers are in demand by almost every industry, from automotive to aerospace to biomaterials to nanotechnology.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Materials Science and Engineering, MS

Nanoscience, PSM

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • no high school math or science competency deficiencies

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • no high school math or science competency deficiencies, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours must meet EITHER the primary OR the secondary criteria (not both):

Primary Criteria

- ☐ • minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- ☐ • no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Secondary Criteria

- ☐ • minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- ☐ • minimum GPA of 2.75 in all critical courses for Terms 1 and 2 (see major map for critical courses)

Change of Major Requirements:

Admission requirements for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Students should refer to <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Materials engineers are in demand in a wide range of industries and professions, including:

- ☐ • aerospace
- ☐ • automotive
- ☐ • computer
- ☐ • electronics
- ☐ • energy
- ☐ • health care
- ☐ • microelectronics
- ☐ • nanotechnology
- ☐ • robotics
- ☐ • telecommunications

The career paths in these industries offer opportunities to impact technological advances through working in a team environment with engineers from the chemical, electrical, mechanical, aerospace and other engineering disciplines.

Mechanical Engineering, BSE (ESMAEMBSE)

Campus: Tempe

Program Description:

Mechanical engineering is a creative, diverse discipline. Mechanical engineers design, build and control the devices, machines, processes and systems that are the mainstay of modern industrialized society.

Students are prepared for a career in mechanical engineering through a curriculum that includes study of the principles governing energy transfer, mechanical design, sensors and control devices, and the application of these principles to the creative solution of practical modern problems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Transfer from another state:

California(<https://transfer.asu.edu/california>)
 Illinois(<https://transfer.asu.edu/illinois>)
 Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

A major strength of a mechanical engineering education is the flexibility it provides in future employment opportunities for its graduates. Mechanical engineers are employed in virtually every kind of industry. They are involved in seeking new knowledge through research, in generating creative design and development, and in the production, control, management and sales of the devices and systems needed by society.

The mechanical engineering program has the following program educational objectives:

- ☐ • Through volunteering, entrepreneurial endeavors, community service, their employment, etc., graduates of the mechanical engineering program will demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability. Graduates of the mechanical engineering program should have attained one or more of the following objectives within a few years after completing their degrees:

- ☐ • employment in engineering or other fields in a position that capitalizes on the skills and abilities gained through the degree program in mechanical

engineering (holding positions of increasing responsibility and leadership within their organizations)

- ☐ • admission into a graduate degree program in mechanical engineering or other technical field.
- ☐ • admission into a professional degree program, such as law, business or medicine, in accordance with the specific interests and abilities of the graduate

Mechanical Engineering (Computational Mechanics), BSE (ESMAECBSE)

Campus: Tempe

Program Description:

As mathematical and numerical modeling takes on a much larger role in product development, graduates who are highly skilled in computational and mathematical engineering will be in high demand. The concentration in computational mechanics, under the BSE program in mechanical engineering, is designed to teach students the modern computational tools available for solving large-scale and complex technical problems. The curriculum focuses on high-performance computing and the accurate modeling of large and small scale systems.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

Mechanical Engineering (Energy and Environment), BSE (ESMAEEBSE)

Campus: Tempe

Program Description:

The concentration in energy and environment, within the BSE in mechanical engineering, is designed to prepare students to analyze technical problems in:

- ☐ • air pollution
- ☐ • climate change
- ☐ • energy efficiency
- ☐ • environmental sustainability
- ☐ • renewable energy
- ☐ • timely issues facing the global community

Although the primary focus of this program is technical, the general education courses in the areas of the humanities and social and behavioral sciences introduce students to the global, political and societal issues relating to energy and the environment. By focusing on issues such as air pollution, water scarcity and the lack of alternative transportation, this program becomes even more attractive for employers in the greater Phoenix area as well as nationwide.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Aerospace Engineering, MS
- Materials Science and Engineering, MS
- Mechanical Engineering, MS
- Solar Energy Engineering and Commercialization, PSM

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university admission standards.

International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the

applicant (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • no high school math or science competency deficiencies

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for less than 24 transfer hours, and
- ☐ • no high school math or science competency deficiencies, and
- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score, or 3.00 minimum ABOR GPA, or class ranking in top 25 percent of high school class

Transfer students with 24 or more transferable college credit hours:

- ☐ • minimum transfer GPA of 3.00 for 24 or more transfer hours, and
- ☐ • no high school math or science competency deficiencies (if Admission Services requires submission of a high school transcript)

Change of Major Requirements:

Admission requirements for many majors in the Ira A. Fulton Schools of Engineering are higher than university admission standards. Please see <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for information about how to change your major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)

Career Opportunities:

Mechanical engineers are employed in virtually every kind of industry. They are involved in generating creative design and development, seeking new knowledge through research, and the production, control, management and sales of the devices and systems needed by society.

Therefore, a major strength of a mechanical engineering education is the flexibility it provides in future employment opportunities for its graduates. Students completing this concentration have opportunities as environmental consultants; heating, ventilation and air-conditioning engineers; and power plant designers.

The mechanical engineering program has the following program educational objectives:

- • Through volunteering, entrepreneurial endeavors, community service, their employment, etc., graduates of the mechanical engineering program will demonstrate commitment to the Sun Devil ideals of global engagement, social embeddedness, social transformation and sustainability. Graduates of the mechanical engineering program should have attained one or more of the following objectives within a few years after completing their degrees:
- • employment in engineering or other fields in a position that capitalizes on the skills and abilities gained through the degree program in mechanical engineering (holding positions of increasing responsibility and leadership within their organizations)
- • admission into a graduate degree program in mechanical engineering or other technical field.
- • admission into a professional degree program, such as law, business or medicine, in accordance with the specific interests and abilities of the graduate

Mechanical Engineering Technology, BS (TSMECBS)

Campus: Polytechnic

Program Description:

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment used in industry today. Students learn how to produce practical and technically innovative solutions to real-world problems, thereby helping people and the environment.

Accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates often work as members of design and development teams, cooperating with other people in and outside of their company. The BS program in mechanical engineering technology, including specialty concentrations, offers great flexibility in type of work and location. Employment

opportunities exist in companies that design, develop, manufacture, implement and improve products, machinery and systems. Employment areas include:

- ☐ • engineering design
- ☐ • manufacturing
- ☐ • research and development

Companies large and small, in this region and elsewhere, provide a wide range of opportunities for graduates.

Mechanical Engineering Technology (Aeronautical Engineering Technology), BS (TSMECEBS)

Campus: Polytechnic

Program Description:

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment used in industry today. Students learn how to produce practical and technically innovative solutions to real-world problems, thereby helping people and the environment.

The aeronautical engineering technology concentration provides a specialization in aircraft, with classes in aircraft systems, design and performance, structures and aerodynamics (including wind tunnel testing).

Accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates often work as members of design and development teams, cooperating with other people in and outside of their company. The BS program in mechanical engineering technology, and its aeronautical engineering technology specialty concentration, offer great flexibility in type of work and location. Due to their aeronautical specialty concentration, graduates are prepared to seek employment in aviation-related companies, large and small, in this region and elsewhere, providing a wide range of opportunities for graduates. Employment areas include engineering design, manufacturing, and research and development. Or, since their degree is in mechanical engineering technology, students can seek traditional mechanical engineering employment opportunities in companies that design, develop, manufacture, implement and improve products, machinery and systems.

Mechanical Engineering Technology (Automation Engineering Technology), BS (TSMECUBS)

Campus: Polytechnic

Program Description:

Mechanical engineering technology programs offer students four years of applied engineering education in a hands-on, experiential, team-based learning environment. Our faculty members have real-world engineering experience, which they use to teach students how to apply engineering theory to practice in state-of-the-art labs stocked with up-to-date equipment used in industry today. Students learn how to produce practical and technically innovative solutions to real-world problems, thereby helping people and the environment.

The automation engineering technology concentration provides a specialization in machine and manufacturing process automation, including robotic systems. Automated assembly and testing are major components of most modern mechanical systems and manufacturing operations.

Accredited by the Engineering Technology Accreditation Commission of ABET, <http://www.abet.org> (<http://www.abet.org>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates often work as members of design and development teams, cooperating with other people in and outside of their company. The BS program in mechanical engineering technology and its automation engineering technology concentration offer great flexibility in type of work and location. Graduates are prepared to seek employment in any company that employs automated manufacturing equipment, large and small, providing a wide range of opportunities for graduates. This very wide spectrum includes food and beverage processing, aerospace and automotive manufacturing, and power companies. Students can also seek traditional mechanical engineering technology employment opportunities in companies that design, develop, manufacture, implement and improve products, machinery and systems.

Product Development and Manufacturing Technology, BS (TSMETBS)

Campus: Polytechnic

Program Description:

Product development and related manufacturing technology is a wide-ranging and dynamic field. Conceiving of products and moving them to market is a complex and fascinating process that begins with an understanding of the humans who will use the product. Then, the prototype must be made, developed and manufactured on a scale that ensures financial success. The product development and manufacturing technology degree provides students with the opportunity to learn all these facets of successful product development. At its core, product development is about creating and delivering products that have value to customers and society.

People with deep knowledge of product development are key team members in the production of products such as automobiles, airplanes, electronic devices, surgical instruments, toys, building products and foodstuffs. They often work closely with manufacturing engineers in the design of processes to make products with the required functionality, to desired quality standards, based on customer's needs, at the best possible price and in environmentally friendly ways. The product development curriculum provides students a hands-on, team-based learning environment, with students having access to outstanding fabrication facilities.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates typically work in product development in a variety of companies, large and small. They are often members of design and development teams, cooperating with other people within and outside the company. Due to a strong, practical skill set, graduates are valuable in established companies of any size or new start-ups. However, other graduates become entrepreneurs developing their own products.

Software Engineering, BS (TSSERBS)

Campus: Polytechnic, Online

Program Description:

The program blends engineering, computing, project leadership and software construction. Students learn how to make creative software solutions to today's problems. Software systems are complex, often including over a million lines of code. Graduates of the BS program in software engineering possess the knowledge and skills of a defined engineering approach to complex systems analysis, planning, design and construction.

The program has a unique, project-driven curriculum, establishing a new model for software engineering education. The program is built around the concepts of engaged learning, discovery-based education and learn-by-doing. Students complete projects in every semester of the program to provide emphasis in communication, teamwork, critical thinking and professionalism. Students have flexibility in designing their course of study; they select a software engineering application area such as Web applications, mobile systems or graphics and game development as their primary focus, and they may obtain interdisciplinary knowledge through a secondary area of their design.

Accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org/> (<http://www.abet.org/>).

Please note that the accelerated degree is only allowed for the software engineering program on the Polytechnic campus.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered in an accelerated format with Software Engineering, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the Ira A. Fulton Schools of Engineering are higher than minimum university standards. International students may have an additional English-language proficiency criterion. Foreign nationals must meet the same admission requirements shown below with the possible additional requirement of a minimum TOEFL score. If the university requires a TOEFL score from the applicant (see <http://global.asu.edu/future/undergrad> (<http://global.asu.edu/future/undergrad>)), then admission to engineering requires a minimum TOEFL score of 550 (paper-based), 213 (computer-based), 79 on iBT (Internet-based) or a minimum IELTS score of 6.5.

Freshman Admission:

- ☐ • minimum 1210 SAT combined evidence-based reading and writing plus math score (or 1140 if taken prior to March 5, 2016) or minimum 24 ACT combined score or 3.00 minimum ABOR GPA or class ranking in top 25 percent of high school class, and
- ☐ • Admission may be granted with one deficiency in no more than two competency (<https://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Transfer Admission Requirements:

Transfer students with fewer than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 2.75 for less than 24 transfer hours, and
- ☐ • satisfy the freshmen admission requirements

Transfer students with more than 24 transferable college credit hours:

- ☐ • minimum transfer GPA of 2.75 for 24 or more transfer hours, and
- ☐ • If Admission Services requires submission of a high school transcript, admission may be granted with one deficiency in no more than two competency (<https://students.asu.edu/admission/competencies>) areas. Deficiencies in both math and laboratory science are not acceptable.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-software-engineering?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Change of Major Requirements:

Current ASU students should refer to <https://engineering.asu.edu/admission-requirements/> (<https://engineering.asu.edu/admission-requirements/>) for the major change requirements for this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Software engineers solve a broad set of transdisciplinary problems and apply new technologies to improve the quality of life. Graduates design and engineer innovative systems that may include mechanical and electrical components that interact with software. The bachelor's degree program in software engineering is a unique program in which students learn by solving engaging projects, commonly as a member of a development team. The program prepares graduates for advanced study in computing, an allied field, or to enter the computing profession (most commonly as an application software engineer). According to the Bureau of Labor Statistics, software engineers are highly paid, and there is significant growth in the number of employment opportunities. Some software engineering jobs may include:

- ☐ • creating applications for mobile devices
- ☐ • creating video games
- ☐ • creating Web applications
- ☐ • developing distributed applications
- ☐ • working on data, network, security or computer systems administration

Technological Entrepreneurship and Management, BS (TSTEM2BS)

Campus: Polytechnic, Online

Program Description:

The BS program in technological entrepreneurship and management advances the knowledge and practice of entrepreneurship and innovation. To enhance students' understanding of business fundamentals, the Fulton Schools of Engineering have partnered with the W. P. Carey School of Business to offer a degree jointly conferred by both colleges. The degree program prepares students to address social and corporate issues to impact and change the world; create, launch and improve technology-based products, services and ventures; and identify and solve open-ended problems using engineering and technology approaches.

Students receive a foundation in both technology and business fundamentals, with an emphasis on technology entrepreneurship and innovation in one of two focus areas: innovation and operation management or social entrepreneurship.

The program objectives for this degree include:

- ☐ • demonstrate the ability to identify, analyze and synthesize information to address and solve use-inspired, open-ended problems, assessing their impact on social, cultural and economic environments
- ☐ • formulate methodologies to advance the knowledge of entrepreneurship and innovation
- ☐ • launch technology-based products and services from idea generation through actualization

- • use quantitative and qualitative methods to demonstrate continuous improvement of products, services, and processes
- • utilize a systems approach for the effective design and improvement of entrepreneurial and innovation ventures

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Global Technology and Development, MS

Technology (Management of Technology), MSTech

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Small businesses and startups create the majority of new jobs in the U.S. while larger corporations seek individuals who can see the big picture and solve complex problems. Students in the technological entrepreneurship and management program learn the range of skills needed to develop new products, services and business models as well as whole new industries. The technological entrepreneurship and management program prepares students for a wide variety of career possibilities; some examples are technology-based entrepreneurship, product development, consulting, venture capital analysis, business development, market analysis, and technology marketing.

Future of Innovation in Society, School for the

Innovation in Society, BA (FIFISBA)

Campus: Tempe

Program Description:

The BA program in innovation in society equips students with the tools needed to analyze how science, technology and other social forces shape our present and future. Students will cultivate the critical-thinking skills needed to develop creative strategies that steer innovation toward the needs and values of society. This degree is best suited to students interested in the humanities and social sciences who want to play a pivotal role in

bringing different disciplines together to solve the world's most difficult problems. Students will be trained to synthesize research and theory from the social sciences, humanities, natural sciences and engineering so they can develop proposals for how to build better futures. This transdisciplinary degree prepares students to navigate complex issues in careers in fields as varied as public service, business, policy and academia.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)

Central Arizona College(<https://transfer.asu.edu/tag>)

Cochise College(<https://transfer.asu.edu/tag>)

Coconino Community College(<https://transfer.asu.edu/tag>)

Dine College(<https://transfer.asu.edu/tag>)

Eastern Arizona College(<https://transfer.asu.edu/tag>)

Gila Community College(<https://transfer.asu.edu/tag>)

Mohave Community College(<https://transfer.asu.edu/tag>)

Northland Pioneer College(<https://transfer.asu.edu/tag>)

Pima Community College(<https://transfer.asu.edu/tag>)

Tohono O'odham Community College(<https://transfer.asu.edu/tag>)

Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Governments, corporations and nongovernmental organizations face rapid change driven by or relating to science and technology. They need people who can respond effectively; people who can develop and implement policy; understand the intersection of science, technology and society;

and have the analytical skills to deal with challenges. Students graduating from this program will have the skills to work in any of these sectors providing problem-solving, analysis, quality assurance, futuring, and communication and facilitation on issues related to science, technology, innovation and society. Graduates will be prepared for professional schools, public service and policymaking, industry, and entrepreneurship; they will also be prepared for graduate research in a variety of disciplines.

Global Management, Thunderbird School of

Global Management, BGM (TBTGMBGM)

Campus: West

Program Description:

The BGM degree program in global management draws on Thunderbird School of Global Management's expertise in global management practices and intercultural communication training to provide students with a highly specialized, global business education.

The Bachelor of Global Management program will prepare students to take on leadership roles in multinational corporations as well as nongovernmental organizations. Thunderbird's outstanding global management faculty members and strong relationships with global organizations will allow students to develop the skills needed to operate effectively in today's globally connected world. Students will develop skills that international employers, governments and nongovernmental entities value highly.

The program offers two tracks: the international business, language and culture track, in which two years of foreign language is required; and the international business and culture track, in which there is no foreign language requirement but more emphasis on management-related courses. Students who select the foreign language track may complete coursework in Chinese or Spanish. Speakers of English as a second language can choose the international business and culture track, or choose a third language within the international business, language and culture track.

Students will have the opportunity to put the skills they have learned into practice in real-world settings through a required internship. Although the program strongly encourages students to pursue international internships, students may also satisfy this requirement by doing a local internship with an international orientation. Students will also complete a senior capstone project of their choice, which draws upon the unique skills they have developed throughout the program. The internship and the capstone project allow students to demonstrate their skills and work experience for potential employers as part of their professional development plan.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Admission Requirements:

International Trade, BS (TBINTRABS)

Campus: West

Program Description:

The BS program in international trade provides rigorous training in skills related to a career in international trade. Students learn the functional disciplines of international business while gaining an in-depth understanding of the political, cultural and economic aspects of doing business in the international market. Supported by Thunderbird's emphasis on a global perspective, students acquire tools to manage supply chains, systematically assess risk, export and import goods and services, and use economic agreements to develop effective strategies for conducting international trade.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Concurrent Degrees:

This degree is also offered as concurrent degree program with Business (Global Logistics Management), BA

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Concurrent degree admission requirements:

Students interested in the international trade and business (global logistics management) program must meet general university admission requirements.

Transfer Admission Requirements:

Transfer students must have a 3.00 cumulative transfer GPA and a 3.00 cumulative ASU GPA (if applicable) in addition to meeting the general admission requirements in order to be admitted to this program.. If the student does not meet the admission requirements for the concurrent program, they will be placed in the BS in international trade.

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Health Solutions, College of

Applied Science (Food Service Management), BAS (ECNTRBAS)

Campus: Downtown Phoenix

Program Description:

The BAS degree program with a concentration in food service management is designed to complement and enhance the educational preparation of students holding an AAS degree in culinary or hospitality science.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:
All students are required to meet general university admission requirements.
Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)
Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree. This program is not available for freshmen.

Change of Major Requirements:

Only students who have completed a Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU.

Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

This degree program prepares students for careers in food production, service, management and marketing. With additional education or professional training, students may also become credentialed as:

- ☐ • certified dietary managers
- ☐ • registered sanitarians
- ☐ • school food service and nutrition specialists

Applied Science (Health Sciences), BAS (NUHSCBAS)

Campus: Downtown Phoenix, Online

Program Description:

The BAS program is designed specifically for students who have earned an AAS degree from a regionally accredited institution. In completing the bachelor's degree program, students complete all ASU graduation requirements.

This is a flexible undergraduate degree designed for students entering the health and health care workforce at a variety of levels. Students can complete up to 60 credit hours at a community college prior joining the degree program, at which time they are required to complete as few as 60 additional credit hours at ASU to earn the Bachelor of Applied Science. Degrees can be customized based on student area of interest, including health and aging, health legislation, integrative care, Spanish and health, and community based health outcomes.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree. This program is not available for freshmen.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(https://asuonline.asu.edu/degree-programs/undergraduate/bachelor-applied-science-health-sciences?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Change of Major Requirements:

Only students who have earned an Associate of Applied Science are eligible to change their majors to this degree program. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates will be able to return to their original area of expertise in allied health (i.e., radiology, nuclear imaging) and qualify for a managerial position, be an educator or instructor within their field of expertise, or qualify for a higher-grade position within their current place of employment. Other career options include positions such as:

- ☐ • elder services program coordinator

- ☐ • health and patient educator
- ☐ • health maintenance organization or insurance company client coach
- ☐ • Healthy Start coordinator
- ☐ • home health care coordinator
- ☐ • long-term care health and wellness coordinator
- ☐ • school health and program specialist
- ☐ • women, infants, children and community nutrition aide

Applied Science (Medical Laboratory Science), BAS (NUMLSBAS)

Campus: Downtown Phoenix

Program Description:

The BAS in medical laboratory sciences is designed to provide the academic knowledge and professional skills to allow students to advance their employment opportunities within the field of medical technology, cytology, clinical laboratory science and related areas. Medical laboratory scientists, also known as clinical laboratory scientists, are highly skilled professionals who perform analytical tests on blood, tissue and body fluids to provide laboratory information for the detection, diagnosis and treatment of human diseases. They work independently and have skills and knowledge that are greater in depth and breadth compared to medical laboratory technicians, who typically are graduates of a two-year or community college program. There also is a growing trend for medical laboratory scientists to perform wellness laboratory testing aimed at preventing disease.

A detailed description of courses and the transfer path is available through the major map link.

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Only students who have been admitted through Phoenix College and who have completed the prerequisite course work, verified by the program director or program advisor, are eligible to apply to this program. The following requirements are a part of the application process and are included in the separate program application, released to those who are considered eligible during a specified application cycle:

- ☐ • Gain admission to Phoenix College.
- ☐ • Complete the program application, which should include:
 - ☐ • student information
 - ☐ • coursework
 - ☐ • immunizations
 - ☐ • basic life support or CPR
 - ☐ • fingerprint clearance card
 - ☐ • health declaration
 - ☐ • experience in medical laboratory sciences
 - ☐ • employment observation verification
 - ☐ • references
- ☐ • Review and sign the checklist.

Submit the materials to:

CHS Student Services

Mail Code 9020 ATTN: MDL Program

Arizona State University

500 N 3rd St

Phoenix AZ 85004

- ☐ • Apply to Arizona State University.

Change of Major Requirements:

Only students who have completed a Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

The Bureau of Labor Statistics reports that 13,000 new laboratory professionals will be needed in the United States each year; however, current training programs graduate only 5,000 students each year. The majority of medical laboratory scientists and technologists work in hospital laboratories. Others work in independent laboratories, reference laboratories, clinics, health maintenance organizations, public health agencies, pharmaceutical firms, research institutions, scientific equipment companies, physicians' offices and as teachers in college clinical laboratory science programs. The working environment is as varied as the types of practice in which medical laboratory scientists are engaged.

Biomedical Informatics, BS (ESBMIBS)

Campus: Tempe

Program Description:

Biomedical informatics combines information technology, data science and knowledge to improve patient health. The program will educate undergraduate students in the informatics knowledge and skills so important in today's health care industry.

The program will enable graduates to improve the quality of patient health care and reduce the cost of it by consolidating patient health history and interventions across hospitals and clinics; providing the right information about patient health to clinicians; and, reducing clinical errors and waste. They will be able to minimize the number of hospital visits by managing and monitoring a patient's clinical condition at home, and they will be able to shorten hospital stays and improve the patient hospital experience by providing the patient with faster access to resources.

Graduates will be able to evaluate a patient's condition; make an early detection of disease; support the clinician in making a better, more precise diagnosis and prognosis; plan a treatment for the patient's disease; and, track the disease progression.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered in an accelerated format with Biomedical Informatics, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

This rapidly expanding field prepares graduates for careers in a wide range of health care settings. Graduates of the program are employed in positions such as biomedical analysts, medical information analysts, software analysts, electronic health records analysts, public health informatics scientists and research associates, among others. Some may see this program as a unique way to combine their interest in life sciences and technology. Others may find this degree the first step toward medical school or advanced medical research or to continued graduate-level study in biomedical informatics.

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates of this program may pursue employment locations such as:

- ☐ • health care systems and medical centers
- ☐ • lifestyle and weight management consulting firms

- ☐ • nonprofit disease prevention agencies (e.g., American Heart Association)
- ☐ • university fitness and wellness centers

Specialty areas may include:

- ☐ • bariatric weight loss clinic counseling and management
- ☐ • corporate fitness and worksite wellness

Possible careers titles may include the following:

- ☐ • athletic trainer*
- ☐ • fitness center director
- ☐ • group exercise specialist
- ☐ • personal training
- ☐ • physical therapist*
- ☐ • physical therapy technician
- ☐ • sports performance coach
- ☐ • sports performance director
- ☐ • sports scout
- ☐ • tactical performance coach

*Advanced degrees or certifications may be required for academic or clinical positions.

Students will also be well-prepared for admission into graduate programs in exercise physiology, obesity prevention and management, rehabilitative fields (e.g. physical therapy) and medicine.

Exercise and Wellness (Exercise for Obesity Prevention), BS (NHEXWOPBS)

Campus: Downtown Phoenix

Program Description:

The concentration program in exercise for obesity prevention will prepare students to assist others in adopting physical activity behaviors for healthy lifestyles, obesity prevention and weight management. Students will engage in focused study involving the use of exercise to reduce disease risk and improve health in those classified as overweight or obese. Students will learn to assess health and fitness, learn about the etiology and consequences of obesity, receive education on health behavior change, and provide appropriate exercise prescriptions for health and weight

management goals. Students in this concentration will be exposed to applied assessment labs and practical internships to gain the knowledge and experience they will need to be competent exercise and health promotion professionals. Graduates will be prepared for the American College of Sports Medicine exam for Certified Exercise Physiologist.

Exercise and Wellness (Fitness and Wellness Specialist), BS (ECEXWBS)

Campus: Downtown Phoenix

Program Description:

The BS program in exercise and wellness provides students with the knowledge and practical skills necessary to assist individuals in reaching optimal health. Students are prepared to pursue nationally recognized and credentialed certifications provided by professional organizations in fields of study related to physical activity, strength and conditioning, or exercise physiology. The exercise and wellness student is also well prepared, with the addition of the prerequisite courses, to continue into graduate schools required for careers in physical therapy, occupational therapy, athletic training or other medical fields.

The exercise and wellness program consists of a carefully designed curriculum emphasizing:

- ☐ • competency in the instruction of basic and advanced techniques related to flexibility, resistance training and cardiovascular exercise
- ☐ • competencies required to attain advanced level certifications from professional associations in the field
- ☐ • foundational knowledge of exercise physiology and applied kinesiology
- ☐ • methods to understand and help improve individuals with regard to their health behavior choices
- ☐ • skills in assessing and interviewing clients in preparation for fitness and wellness programming
- ☐ • skills in designing and manipulating program variables to work with apparently healthy or symptomatic individuals

Students in the exercise and wellness degree program also have the ability to enroll in courses that will enhance their abilities to work with high performance athletes, obese individuals or those at risk for suffering from other hypokinetic diseases.

Employment of fitness and wellness professionals is expected to grow by up to 24 percent through 2020, much faster than other occupations, driven by efforts to reduce health care costs by teaching people about healthy behaviors. The need for exercise and wellness programming and facilities will increase the need for workers in these areas.

Exercise and Wellness (Health Promotion), BS (ECXWHBS)

Campus: Downtown Phoenix

Program Description:

The BS program in exercise and wellness with a concentration in health promotion provides students a pathway to become a Certified Health Education Specialist. Students will gain the knowledge, skills and expertise to develop and deliver programs that enhance awareness about healthy lifestyle behavior, increase health-enhancing behaviors, decrease health risk behaviors and create environments supportive of healthy lifestyles.

Students are prepared with:

- ☐ • competencies required to pursue the Certified Health Education Specialist certification
- ☐ • foundational knowledge in nutrition, physical activity and stress for chronic disease prevention
- ☐ • knowledge, skills and ethics for assessing and understanding group and community health needs
- ☐ • methods for helping people make health behavior changes and teaching people about health risks and behaviors
- ☐ • skills in designing, implementing, administering and evaluating effective health promotion programs in work site, community, health care and agency settings

A distinctive aspect of the health promotion concentration is an outstanding capstone internship that provides preprofessional experience in health promotion settings.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The rising cost of health care has increased the need for individuals with the skills and abilities to provide health education and health promotion programs. As health care costs continue to rise, insurance companies, employers and governments are attempting to find ways to curb costs. One of the more cost-effective ways is to employ health promotion professionals to teach people how to live healthy lives and avoid costly treatments for illnesses. Health promotion professionals work in various environments based on the industry in which they are employed. In public health, nonprofit organizations, corporations and businesses, colleges and universities, and medical care settings, they primarily work in offices. However, they may spend a lot of time away from the office implementing and attending programs, meeting with community organizers, speaking with patients or teaching classes.

Undergraduates in this concentration often pursue careers in such fields as:

- ☐ • college and university wellness and health promotion
- ☐ • government health departments and agencies
- ☐ • health and wellness coaching
- ☐ • nonprofit disease prevention agencies
- ☐ • private health care organizations
- ☐ • wellness centers
- ☐ • worksite wellness and health promotion

Students may also pursue further graduate study in such fields as:

- ☐ • dentistry
- ☐ • health education
- ☐ • health promotion

- ☐ • health psychology
- ☐ • medicine
- ☐ • occupational therapy
- ☐ • physician assistant
- ☐ • public health

Advanced degrees or certifications may be required for academic or clinical positions.

Exercise and Wellness (Strength and Conditioning Specialist), BS (NHEXWSCBS)

Campus: Downtown Phoenix

Program Description:

The strength and conditioning specialist concentration is designed for students who want to work with active or athletic populations, including sport and tactical occupations. These students may work with high school, college or professional sports organizations in scholastic or private sports performance training facilities, with tactical sports performance clients (e.g., military, police, firefighters, EMT) in municipal or government-run facilities or with individual clients participating in more active, higher intensity-based fitness programs. Students in this concentration will be exposed to applied assessment labs and practical fieldwork to gain the knowledge they will need to be competent coaches in this field. Graduates will be prepared to sit for the Certified Strength and Conditioning Specialist or the Tactical Strength and Conditioning-Facilitator examinations offered by the National Strength and Conditioning Association (<https://www.nscs.com>) at the completion of their coursework. Students interested in careers in the field of sports medicine (athletic trainers, sports physical therapists, orthopedic surgeons, etc.) may also benefit from the coursework to provide an understanding of the training programs that accompany sports participation.

Additional Program Fee: Y

Health Education and Health Promotion, BS (NHHEHPBS)

Campus: Downtown Phoenix, Lake Havasu, Online

Program Description:

The BS in health education and health promotion provides students a pathway to become certified health education specialists, and it is the only undergraduate program at ASU designed specifically to provide professional preparation in population-based health education, including school and community health education. Students pursuing a bachelor's degree in health education and health promotion will gain foundational knowledge in health promotion program planning, implementation, and evaluation as well as in certified health education specialist competencies, and they will learn about specific health education strategies for effectively delivering community and school health education interventions. Students will develop an understanding of various areas addressed by certified health education specialists, including injury prevention, violence prevention, substance abuse prevention, sexual health education, emotional health education, foundations of school health education, social media and marketing in health education, nutrition, physical activity, and stress for chronic disease prevention.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Health Sciences, BS (NHHSCBS)

Campus: Downtown Phoenix

Program Description:

The BS program in health sciences is designed to provide the academic knowledge and skills that will allow students to move directly into a range of employment opportunities within the health field or to continue their education in discipline-specific programs. Students will choose a track focus in either community-based health outcomes, health legislation and regulation, integrated care, or Spanish and health.

A limited number of students each year may apply to pursue the echocardiography certificate through the Mayo Clinic. Once the certificate is successfully completed, students may transfer the credits to Arizona State University, and those credits may be applied toward completion of the Bachelor of Science in health sciences.

Health Sciences (Health Policy), BS (NUHSCHPBS)

Campus: Downtown Phoenix

Program Description:

The BS program in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students will complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness.

The health policy program is designed for students interested in the community policy aspects of disease prevention and health promotion. The continuum of health care now spans a diverse array of health providers ranging from private practitioner offices and outpatient care centers to residential care facilities and acute care hospitals. Key to the enhancement of health care within the U.S. is the development and implementation of innovative, cost-effective and universally accessible programs. Students in this concentration will be required to complete a supervised practicum, providing hands-on experience within their field of interest. Students may also wish to consider using their electives to complete a minor in nonprofit administration, which requires 15 credit hours.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics or MAT 117

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The Downtown campus is available to all students who meet university admission standards.

The West campus is only available to students who will be first time freshmen as defined as those who have earned 12 college credit hours or less at the time of admission.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Health Sciences (Healthy Lifestyles Coaching), BS (NUHSCHLCBS)

Campus: Downtown Phoenix, West, Online

Program Description:

The BS program in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. Students will complete a complement of core courses that emphasize ethics, communication skills, critical thinking and cultural awareness. The healthy lifestyles coaching emphasis brings together course work from exercise and wellness, nutrition and health sciences to give students a strong background in preventative health care.

The on-campus program is approved by National Consortium for Credentialing Health and Wellness Coaches:

<http://www.ncchwc.org/organizations/> (<http://www.ncchwc.org/organizations/>). Students in the on-campus program will receive a health and wellness coaching certificate and will be able to sit for the NCCHWC certification examination if they choose to do so upon graduation.

The degree program allows students to explore a range of interests in health education and is designed for students who are seeking immediate employment in the community health education or health promotion fields. For those interested in further education, the program also is constructed to meet the prerequisites for pursuit of a Bachelor of Science in Nursing.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

According to the US Bureau of Labor Statistics, employment for health coaches and health educators is projected to grow 21 percent from 2012 to 2022, faster than the average for all occupations. Growth will be driven by efforts to improve health outcomes and to reduce health care costs by teaching people about healthy habits and behaviors and utilization of available health care services. Health coaches work in hospitals and health care facilities, schools, public health departments, nonprofit organizations, and private businesses. Career options include positions such as:

- ☐ • elder service or congregate meal program coordinator
- ☐ • health and patient educator

- • Healthy Start or corporate wellness coordinator
- • school health and nutrition program specialist
- • women, infants, children and community nutrition aide

Health Sciences (Pre-professional), BS (NUHSCPREBS)

Campus: Downtown Phoenix

Program Description:

The BS program in health sciences is designed to provide the academic knowledge and skills to allow students to move directly into a range of employment opportunities within the health field or continue their education in discipline-specific programs. The preprofessional program is designed for students planning to enter medical, dental, osteopathic, physical therapy, veterinary, pharmacy and similar professional schools. In addition to a comprehensive core of basic science courses, the concentration is unique in that it will provide a solid base in ethics; communication; the evaluation of research (the cornerstone of evidence-based practice); and healthy lifestyles (the foundation of health promotion and chronic disease risk reduction avenues of health care), including the role of complementary and alternative care within the U.S. health care system. Students also will have the ability to incorporate electives that contribute to their knowledge of and sensitivity to the needs of populations impacted by health disparities.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Kinesiology, BS (NUKINBS)

Campus: Downtown Phoenix, Lake Havasu

Program Description:

Kinesiology is a discipline emphasizing the study of human movement as it relates to health, physical activity and exercise, disease prevention and treatment, and physical rehabilitation. Using human models and reflecting research ranging from basic to applied, undergraduate students in the program gain a disciplinary knowledge of the anatomical, biomechanical, developmental, neural, physiological and psychological mechanisms underlying human movement. A degree in kinesiology prepares students for graduate study in physical or occupational therapy, physician assistant, medicine or other health-related professions.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Clinical Exercise Physiology, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

Medical Studies, BS (NHMEDBS)

Campus: Downtown Phoenix, West

Program Description:

The BS program in medical studies allows students to meet the prerequisites for a variety of health professions programs (medicine, dentistry, physician assistant, pharmacy, occupational therapy, physical therapy, optometry and others) and prepares the student for required postgraduate entrance exams, including the revised MCAT.

Students can customize the medical studies degree to meet the prerequisites of the health professions programs for which they intend to apply. Students have the opportunity to learn directly from health care providers, and they can select clinically related internships or electives during their junior year.

This degree program integrates communication, ethics, critical thinking, teamwork and leadership, all of which are essential competencies for members of today's health care team.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Science of Health Care Delivery, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Nutrition, BS (NHNTRBS)

Campus: Downtown Phoenix, Online

Program Description:

The BS in nutrition provides students with the ability to apply nutrition principles in a variety of fields based on one of the following tracks.

Food and Nutrition Management --- Students develop an understanding of the food industry, learn to manage and market food, and develop a food or menu that meets a specific nutritional guideline, preparing them to apply their knowledge to food production.

Nutrition Communication --- Students become experts in communicating health and nutrition information through nutrition courses that provide content for the articles students write in their communication-related studies. This track provides students with a strong understanding of the scientific method, statistics, nutrition, health care and wellness that some traditional journalists might lack.

Food Studies --- Students gain knowledge in all aspects of food and food production through a strong foundation in nutrition, food systems and food marketing.

According to the National Restaurant Association, the number of food service managers is projected to increase by 15 percent in the next 10 years.

The food and nutrition management track prepares students to become food service directors at schools, health care facilities and corporate food service operations. Graduates of the program aspire to own restaurants or nutrition-related businesses, work in supplement or pharmaceutical sales, or work in food marketing and distribution.

The nutrition communication track offers employment opportunities with community and health care agencies, magazines, newspapers, private corporations (e.g. public relations firms) and Web-based companies. Graduates can pursue careers as authors, consultants in program or product

development, freelance writers for newspapers and magazines, and public relations representatives for food and beverage companies.

The food studies track prepares graduates for careers in food media, food policy, food history, culinary and food tourism, food product marketing and food product development.

Nutrition (Dietetics), BS (ECNTRDBS)

Campus: Downtown Phoenix

Program Description:

The BS in nutrition with a concentration in dietetics prepares students with the required coursework and skill set to apply for a dietetic internship required to sit for the registration exam to become a registered dietitian, which is a food and nutrition expert. In addition to a core of professional nutrition courses, students will complete a broad range of science, management and communication classes. The program emphasizes the application of nutrition within clinical, community, food production and wellness areas.

More information about this credential and the requirements for this credential can be found at <http://www.eatrightpro.org/resources/career/become-an-rdn-or-dtr> (<http://www.eatrightpro.org/resources/career/become-an-rdn-or-dtr>).

ASU's bachelor's degree program in nutrition with a concentration in dietetics is accredited as a Didactic Program in Dietetics by the Accreditation Council for Education in Nutrition and Dietetics, 120 S. Riverside Plz., Ste. 2190, Chicago IL 60606-6995.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Nutrition (Food and Nutrition Management), BS (ECNTRMBS)

Campus: Downtown Phoenix, Online

Program Description:

The BS in nutrition with a concentration in food and nutrition management provides students with the ability to apply nutrition principles to food production. This concentration is designed to provide students with an understanding of the food industry so they can manage and market food and develop a food or menu that meets a specific nutritional guideline.

Coursework focuses on a strong foundation in food purchasing, production and planning. Additional coursework in management, marketing and nutrition prepares students for a variety of food service positions. Graduates can also pursue the credentials of certified dietary manager, school nutrition specialist or registered sanitarian.

Nutrition (Human Nutrition), BS (ECNTRHBS)

Campus: Downtown Phoenix

Program Description:

The BS in nutrition with a concentration in human nutrition provides students with a strong foundation in nutrition and science that prepares them for careers in public or community health programs and clinical or graduate research programs.

In addition to providing a strong foundation in medical nutrition therapy, the coursework includes anatomy, physiology, chemistry and microbiology. Students gain knowledge of nutritional concepts that health care professionals sometimes lack.

Students from this program have gone on to study:

- ☐ • dentistry
- ☐ • medicine
- ☐ • naturopathic medicine
- ☐ • optometry and podiatry
- ☐ • osteopathic medicine
- ☐ • pharmacy

Nutrition (Nutrition Communication), BS (ECNTRCBS)

Campus: Downtown Phoenix, Online

Program Description:

The BS in nutrition with a concentration in nutrition communication is designed to help students become experts in communicating health and nutrition content. This concentration was originally developed in collaboration with the Walter Cronkite School of Journalism and Mass Communication.

Nutrition courses provide the content for articles students write in their communication-related classes. This degree program provides students with a strong understanding of the scientific method, statistics, nutrition, health care and wellness that many traditional journalists lack. Faculty members teach students how to avoid sensationalism or sacrificing reality to get a better story.

Public Health, BS (NHPBHBS)

Campus: Downtown Phoenix

Program Description:

The BS degree program in public health is designed for students to develop and apply knowledge from multiple disciplines for the promotion and protection of health of the human population. This degree is designed to appeal to students with interests in population rather than individual health and prepares students with skills in the five core areas of public health:, namely:

- ☐ • behavior science and health education
- ☐ • biostatistics
- ☐ • environmental health
- ☐ • epidemiology
- ☐ • health services administration

The required internship component of the program (PBH 444: Public Health Field Experience) allows students to gain practical experience in public health professions. Graduates typically work as public health practitioners who are competent to plan, implement, evaluate, and monitor public health functions and activities in a variety of settings. They are prepared to fill various positions in public and community health as well as pursue further education through graduate study, including a Master in Public Health degree.

Additional Program Fee: Y

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates of this program will qualify for entry-level positions in public health education, sanitation and environmental control, public health administration, health promotion and similar areas. Employment opportunities are available within national, state or local health departments; community clinics, community or private advocacy groups, health education programs and nonprofit organizations.

Popular positions include:

- • Community health workers --- are frontline public health workers who have a deep understanding of the community being served. They will serve as liaisons between the community and health services to improve the quality and cultural competence of health care service delivery. Many times the community may concentrate on vulnerable groups like children, veterans or the homeless.
- • Health educators --- are those who teach people about behaviors that promote wellness, develop and implement strategies to improve the health of individuals and communities.
- • Program managers --- are those who plan, direct and coordinate public health programs and initiatives within communities.
- • Occupational health and safety specialists --- analyze many types of work environments and procedures, inspect workplaces for adherence to regulations regarding safety, health and the environment, and they design programs to help prevent injuries and diseases in workers.
- • Environmental specialists --- are those who investigate potential environmental health and food risks, advise the community on how to reduce these risk, and implement public health projects.

Accelerated Degrees:

This degree is also offered in an accelerated format with Science of Health Care Delivery, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

Graduates of this program will be academically prepared, well-rounded and adept in skills necessary for a number of exciting careers in health care.

Job areas may include entry-level positions in health care administration, management, policy, system design, quality improvement and health services research. Opportunities may include jobs in hospital systems, physician practices and clinics, patient navigation, the pharmaceutical industry, insurance companies, government and regulatory agencies, and health research organizations. Students may pursue further education through graduate programs in areas such as health care delivery, administration and management.

Speech and Hearing Science, BS (LASHSBS)

Campus: Tempe

Program Description:

Students in the BS in speech and hearing science program study the normal aspects of the communication process. Emphasis is placed on the anatomy and physiology of the hearing mechanism; on speech, language and hearing science; and on the human communication system, including normal development of speech and language.

Graduates attain broad-based knowledge in the basic aspects of speech, language and hearing sciences, which prepares them for graduate study in audiology or speech-language pathology, or potential employment opportunities in related health and behavioral fields.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)
Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Employment opportunities for those with a bachelor's degree may include positions as:

- ☐ • support personnel in rehabilitation or health facilities
- ☐ • research assistants or associates in behavioral disciplines
- ☐ • speech-language pathology assistants
- ☐ • hearing aid or cochlear implant company representatives

Many graduates in speech and hearing sciences gain entrance into a graduate-level program in speech-language pathology or audiology. In both fields, a graduate degree is required for employment.

The undergraduate degree in speech and hearing science is also excellent preparation for those who wish to enter professional or graduate programs in fields such as:

- ☐ • counseling
- ☐ • education
- ☐ • law

- ☐ • medicine
- ☐ • rehabilitation
- ☐ • social work
- ☐ • special education
- ☐ • teaching for the deaf

Graduates in speech-language pathology and audiology can work with children or adults with communication disorders in a variety of settings, including:

- ☐ • clinics
- ☐ • private practice
- ☐ • hospitals
- ☐ • schools, all levels of preschool through secondary

Honors - Barrett, The Honors College

Honors College, (9HOHONALL)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

ABOUT THE COLLEGE

Barrett, the Honors College is a selective, residential college that recruits academically outstanding undergraduates to Arizona State University. As stated in The New York Times, Barrett Honors College is widely considered the gold standard of honors colleges and programs (<https://www.nytimes.com/2015/08/09/opinion/sunday/frank-bruni-a-prudent-college-path.html> (<https://www.nytimes.com/2015/08/09/opinion/sunday/frank-bruni-a-prudent-college-path.html>)). Barrett at ASU is internationally known as the model for supporting honors students from multiple disciplines. Barrett stands alone in dedicated resources, size and complexity, with a presence on four ASU campuses, a multimillion-dollar endowment used to support honors students and their projects, and dedicated deans, faculty and staff that include seven administrators, 42 Faculty Fellows and 62 staff within the college and more than 1,800 faculty members who teach honors students university-wide each year. Barrett represents a powerful and unique combination of the special care and attention an honors student should expect to receive in academics and advising from an excellent residential liberal arts college, with the vast program choices and research mentoring resources of a vibrant Research I university. This honors community is known nationally for its record-breaking number of National Merit, National Hispanic, and Flinn scholars, and nationally ranked numbers of recipients of Fulbright, Truman, Goldwater, Udall and Marshall fellowships.

In 2009, Barrett opened the nation's first comprehensive four-year residential honors college within a top-tier Research I university. The \$140 million nine-acre honors campus community on the Tempe campus includes all the Barrett Faculty Fellows and administration offices, classrooms, residence halls for 1,700 honors students, a signature dining hall, refectory and café, and several courtyards, student lounges, activity rooms, computer labs and a community center. The four-year residential campus in Tempe expanded to the Vista Del Sol property across the street in 2013 and now accommodates 1,500 additional beds for upper-division honors students, the honors admissions and recruiting operations, and an entire campus of community space, offices and amenities that include a theater, pool, writing center, fitness, recreation and events facilities. Barrett students on the Polytechnic, West and Downtown campuses also enjoy new facilities and the benefits of living in growing honors communities that offer academic and co-curricular experiences and faculty and staff solely committed to enabling the best education possible for intellectually engaged students from Arizona, America and the world.

STUDENT OPPORTUNITIES

Barrett students take advantage of opportunities that specifically enrich the honors experience.

They receive national and international graduate scholarships. They engage in cutting-edge research with distinguished ASU faculty and benefit from special partnerships with the Mayo Clinic, the Biodesign Institute and Intel. Students develop iPhone applications, build robots, design games and develop tools to improve health care, meet global energy needs, provide clean water or secure data and information privacy. There are numerous internship opportunities developed exclusively for Barrett students, and many of the nation's top companies, government agencies and non-profits specifically seek opportunities to recruit Barrett students.

Barrett students on all four campuses are leaders outside the classroom as well, and they cultivate service and leadership opportunities both in Barrett and across ASU serving as officers in student organizations, mentors, tutors and change makers. Barrett offers a full range of student-driven service, wellness, arts, cultural, social, entrepreneurial, professional development and sustainability programming.

Popular events on the Tempe campus include Lunch with the Dean, Dinner with Faculty nights, and the Barrett Ladies Tea at the historic University Club. Barrett students have opportunities to attend Tony Award-winning Broadway musicals at Gammage Auditorium; explore the world's only Musical Instrument Museum; participate in the annual cattle drive; attend biweekly yoga classes; learn healthy eating habits from a certified nutritionist; and share musical talents at monthly Open Mic Nights in Barrett's very own Burning B Café.

The Downtown Phoenix campus hosts an Urban Tour series with visits to Chase Field, the home of the Arizona Diamondbacks, and to the arts district of Roosevelt Row. Popular events downtown include Donuts with the Dean, the Barrett Fashion Show, career development night and the Barrett Red Carpet Formal.

The Polytechnic campus is known for cutting-edge labs, innovative faculty and students who are solving real-world problems with groundbreaking applied technology and solutions. The Ira A. Fulton Polytechnic Innovation Showcase is an impressive exhibition featuring many of these innovative student projects and interdisciplinary collaborations. The Barrett faculty and staff at the Polytechnic campus also host unique programming such as the Human Event Tribunals, kayaking excursions, sustainable Earth Week activities, healthy cooking demos, service projects and many more.

The West campus Barrett faculty and staff host Culture Clash, an event where students are immersed in different cultures and enjoy food, discussion, and film from each unique culture. West campus students also partake in traditions like the Barrett Ball, and Bowling with the Deans.

Barrett students on all four campuses participate in travel abroad programs that enable them to enjoy small classes taught by Barrett faculty and experience different cultures while earning honors credits. Great American Cities is one of the most popular travel programs. Students visit cities like Boston, New York City, New Orleans, Anchorage and Miami to engage in a service project while enjoying the history, culture and great food of their destination. Other travel opportunities range from turn-around trips to Arizona monuments to overnight trips to Disneyland.

Additional Program Fee: Y

Second Language Requirement: N

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students must complete an application to Arizona State University before submitting a separate application to Barrett, The Honors College. Students who have demonstrated high levels of academic achievement in high school or college may apply for admission to Barrett. Each candidate must file an application to the college separate from the ASU application, in accordance with the appropriate Barrett deadlines.

Applicants are evaluated on the basis of their academic records, their ranking within the graduating class, and their performances on the SAT or ACT. The college also values students who have special talents and aptitudes, exhibit exceptional leadership qualities, have had unusual life experiences or display significant community involvement.

The Barrett admission application and additional information about the college and its activities are available at <https://barretthonors.asu.edu> (<https://barretthonors.asu.edu>).

Integrative Sciences and Arts, College of

Agribusiness (Preveterinary Medicine), BS (AGAGBPBS)

Campus: Polytechnic

Program Description:

The BS in agribusiness teaches students the business of agricultural production, finance, marketing and distribution. Students explore global agribusiness issues such as international trade, food safety and sustainability through a technology-rich curriculum that focuses on real-world projects.

The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's unique challenges and practices. The programs offered through the highly respected College of Integrative Sciences and Arts prepare graduates for success in graduate school or a wide range of careers.

By adding a concentration in preveterinary medicine, students can build on coursework in chemistry and biology, to open opportunities for further study, including in veterinary medicine. Others may seek to apply their science knowledge in the human or veterinary pharmaceutical industries or in the food industry, with a focus on processing, production and food safety.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Accounting for more than 50 percent of the global economy and employing 25 percent of Americans, agribusiness brings food from the farm to the global table. Possible career paths include positions in fields such as:

- ☐ • finance and technical, with private agribusiness firms and governmental agencies
- ☐ • management
- ☐ • marketing
- ☐ • veterinary medicine

Applied Biological Sciences (Applied Biological Sciences), BS (TSABSABS)

Campus: Polytechnic

Program Description:

The BS program with a concentration in applied biological sciences offers students solid foundations in biology and related sciences while allowing them to focus on an area of special interest. This concentration works well for students interested in pursuing research careers in biology or for students planning to enter graduate or professional programs related to human health including:

- ☐ • biotechnology
- ☐ • dentistry
- ☐ • epidemiology
- ☐ • medical technology
- ☐ • medicine
- ☐ • physical therapy
- ☐ • physician's assistant programs
- ☐ • public health

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Applied Biological Sciences (Applied Ecology and Preveterinary Medicine), BS (TSABSRBS)

Campus: Polytechnic

Program Description:

The applied ecology and preveterinary medicine concentration is designed for students who want a strong scientific foundation in animal biology and health. It is especially appropriate for students planning to enter graduate or professional programs in veterinary medicine, animal health, or wildlife biology and ecology, or to start careers related to wildlife biology, ecology, restoration and rangeland management. Public and private career options are diverse and include small- and large-animal veterinary medicine, wildlife veterinary medicine, domestic and wild animal care, animal biology, and habitat research and secondary education.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Career opportunities for graduates of this program may include entry into professional programs in veterinary medicine and animal health including small- and large-animal veterinary medicine, wildlife veterinary medicine, domestic and wild animal care, education and animal biology research.

Applied Biological Sciences (Secondary Education in Biology), BS (TSABSSBS)

Campus: Polytechnic

Program Description:

The secondary education in biology concentration is designed for students who want to teach biology at the high school level. In addition to the standard curriculum, students will receive hands-on experience in laboratory instruction in the applied biological sciences concentration. Our goal is to prepare teachers who excel in biology and the related sciences.

Students should also contact the Mary Lou Fulton Teachers College.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition

plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates can pursue numerous entry-level careers in biology. Specific career fields include secondary education, wildlife and restoration ecology, and urban horticulture. Employment opportunities exist in private and public sectors. The general program in applied biological sciences also prepares graduates to succeed in graduate or professional schools in disciplines such as:

- ☐ • animal health
- ☐ • dentistry
- ☐ • ecology
- ☐ • environmental biotechnology
- ☐ • horticulture
- ☐ • medicine
- ☐ • physical therapy
- ☐ • teaching
- ☐ • wildlife biology

Applied Biological Sciences (Sustainable Horticulture), BS (TSABSUBS)

Campus: Polytechnic

Program Description:

The sustainable horticulture concentration is designed for students who want theory and practical experiences in the unique aspects of the culture of plants in an urban desert environment. Students acquire the skills to produce, design and care for ornamental and edible plantscapes using sustainable technologies.

Students are prepared for a range of horticulture careers in the private and public sectors, including in nursery plant production, landscape design and culture as well as local food production and organic urban farming.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition

plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

Horticulture is a multibillion dollar national and international enterprise that offers a diverse and exciting choice of professional careers. Graduates can pursue numerous entry-level careers in horticulture. Employment opportunities exist in private and public sectors. The sustainable horticulture concentration prepares graduates to succeed in graduate or professional schools in disciplines such as:

- ☐ • aftermarket care of plants
- ☐ • biology of the plants in desert cities
- ☐ • care and management of trees in cities
- ☐ • creation of public, community and private gardens in arid climates
- ☐ • design and installation of outdoor landscapes including landscape irrigation systems
- ☐ • integrated pest management
- ☐ • nursery production
- ☐ • marketing
- ☐ • organic farming
- ☐ • plant identification
- ☐ • plant propagation

The general program in sustainable horticulture also prepares graduates to succeed in roles such as:

- ☐ • arboretum or botanical garden manager
- ☐ • city horticulturist
- ☐ • city park superintendent or manager
- ☐ • horticultural consultant
- ☐ • horticultural plant researcher or educator
- ☐ • horticulture products and supplies
- ☐ • horticulture supply sales representative
- ☐ • integrated pest management specialist
- ☐ • interior plant specialist
- ☐ • irrigation system designer or consultant
- ☐ • landscape designer or contractor
- ☐ • landscape services company owner or operator
- ☐ • nursery plant broker and plant salesperson
- ☐ • nursery production owner or manager
- ☐ • organic farmer or permaculturist
- ☐ • plant propagator
- ☐ • urban forester, tree specialist or arborist
- ☐ • urban plant ecologist

Career opportunities for urban horticulture graduates are not limited to any one geographic location; graduates can embark on careers throughout the United States, Canada, Mexico and overseas.

Applied Mathematics, BS (LSMATBS)

Campus: Polytechnic

Program Description:

The BS degree program in applied mathematics offered by the College of Integrative Sciences and Arts is a transdisciplinary program focused on developing flexible problem-solvers who can apply mathematical techniques and skills to a wide range of problems in the sciences, such as biology, chemistry, physics and engineering. The coursework builds a foundation in mathematical modeling, data analysis and the interpretation of mathematical results in real-world settings. Students choose electives in the sciences, technology, engineering or other areas of interest to complement and provide context for their mathematical training.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

Students in this program will be prepared to apply their analytic skills and technical knowledge to problems in a range of careers in industry, government, education or nonprofit organizations. They also may pursue advanced degrees in the mathematical sciences (e.g., mathematics, statistics and applied mathematics such as in mathematical biology).

Applied Physics, BS (LSAPHYBS)

Campus: Polytechnic

Program Description:

The acceleration of advances at the frontier between physics, engineering and technology creates a need for interdisciplinary training and research that is not readily accommodated by traditional single-focus programs in physics. Bringing fundamental physics together with its immediate applications, the BS in applied physics will be attractive to students whose interests span new physical technologies in industry and engineering. The degree combines physics, computer science and applied mathematics to tackle complex real-life problems in physics, material sciences,

engineering, chemistry and others.

The bachelor's degree program brings together the expertise of physics faculty, particularly in the modeling of physical systems which relies heavily on both modern numerical techniques and fundamental physics. The growing presence of Intel and other high-tech companies in the east valley and metropolitan Phoenix presents a unique opportunity to enhance the students' interaction with industry. Given the importance of hands-on experience, the degree program offers a series of unique courses allowing students interactive involvement in a project-based environment.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates of this program should be able to apply their knowledge in high-performance and scientific computing, biophysics, condensed matter physics, chemistry, material science, electrodynamics, and radar physics. This knowledge is vital for employment in chemical and pharmaceutical companies, environmental management agencies, and firms specializing in scientific software. Graduates should also be prepared to continue their studies in graduate programs in physics and chemistry.

Applied Quantitative Science, BS (LSAQSBS)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

Students will learn to integrate and apply STEM-supported skills that are increasingly in demand in the 21st century.

Graduates of the applied quantitative science degree program will have acquired six "habits of mind", mental activity that becomes increasingly automatic over progress through the curriculum and extending into career development. They will be able to:

- ☐ • apply and project quantitative reasoning to unfamiliar contexts
- ☐ • communicate well within and without the expert domain
- ☐ • critically and adaptably think about complex problems
- ☐ • effectively search through and evaluate information
- ☐ • experiment creatively and in an informed manner in search of new insights
- ☐ • use sophisticated insight involving statistical inference and quantitative reasoning

This program is offered as a stand-alone degree on the Polytechnic campus. Students pursuing degrees on all four metropolitan campuses can add this degree as a concurrent degree.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Increasingly, employers are hiring people who know how to use quantitative information. By completing this degree program, students will equip themselves with the skills and knowledge sought by today's employers. People who work in any business or industry needs to use quantitative skills to solve problems.

Applied Science (Applied Leadership), BAS (LSALSBAS)

Campus: Polytechnic, The Gila Valley

Program Description:

This BAS program prepares students for leadership positions in a wide variety of organizations and career fields. The concentration in applied leadership provides a valuable degree pathway for students with Associate of Applied Science degrees in fields such as fire science, environmental technology, machine shop technology and welding technology. Students learn leadership skills necessary to prepare them to become effective leaders in diverse environments --- applying those skills as team leaders, floor managers and shift captains.

The concentration in applied leadership focuses on the practice of innovative and effective leadership and helps students develop the skills and knowledge that leaders need to solve problems, communicate effectively, resolve conflicts, assess program effectiveness, lead projects and manage resources.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Admission Requirements:

Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. For students with an AAS from an Arizona community college, the AGEC is recommended but not required. This program is not available for freshmen.

Change of Major Requirements:

Only students who have completed a Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU.

Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

Graduates will possess skills and knowledge needed for leadership positions in a wide range of organizations, including business, government, nonprofit agencies and the service industry.

Applied Science (Technical Communication), BAS (LSTECBAS)

Campus: Polytechnic

Program Description:

The BAS in technical communication is a flexible degree plan designed specifically for students who have earned an AAS degree from a regionally accredited institution. This major combines the technical experience gained in the student's associate degree program with a broader education of skills in management, leadership, critical thinking and communication.

Technical communication is applied workplace communication that makes technical information understandable and available to many audiences. In the technical communication concentration, students learn how to produce, design and manage information using both traditional and developing technologies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

Change of Major Requirements:

Only students who have completed a Associate of Applied Science degree are eligible to declare Bachelor of Applied Science majors at ASU. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

The Bureau of Labor Statistics estimates the need for writers and editors will increase by 25 percent during the next five years. Software and electronics companies, media corporations, financial institutions, government agencies, nonprofits and other areas will see an increased demand for writers. Students in the program will prepare for careers as:

- ☐ • advertising and promotions managers
- ☐ • communications teachers (postsecondary)
- ☐ • copy writers
- ☐ • correspondence clerks

- ☐ • court clerks
- ☐ • desktop publishers
- ☐ • editors
- ☐ • media and communication workers
- ☐ • proofreaders and copy markers
- ☐ • public relations specialists
- ☐ • technical writers

Communication, BA (LSCOMBA)

Campus: Downtown Phoenix, Polytechnic

Program Description:

The BA in communication in the College of Integrative Sciences and Arts explores how communication processes create, maintain and transform identities, relationships, workplaces and communities. With a dual emphasis on urban communication and technology, it allows for a concerted focus on the rapidly changing modalities of communication occurring today. The program's mission statement is: Through the study and critique of human communication, we generate knowledge, creativity and understanding to facilitate healthy relationships and workplaces, civil and secure communities, and constructive intercultural interaction.

Majors complete a minimum of 12 upper-division credit hours of COM courses offered by the College of Integrative Sciences and Arts.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

Counseling and Applied Psychological Science, BS (LSCAPSBS)

Campus: Polytechnic

Program Description:

Counseling and applied psychological science is a specialty in promoting psychological well-being. Counselors and applied psychologists provide the tools and resources necessary for individuals, families and organizations to cope with everyday problems. The BS program in counseling and applied psychological science provides foundational training in counseling theories, career and lifespan development, ethics and research methods. A unique aspect of the program is its attention to cultural diversity that includes age, gender, race, ethnicity, sexual orientation, religion and socioeconomic status.

Graduates may qualify for employment in community agencies, hospitals, rehabilitation centers and other behavioral healthcare delivery settings to support counselors and other mental health professionals. Graduates will be prepared for careers as behavioral health technicians, vocational rehabilitation assistants, human service workers, life-skills instructors and others. Graduates will not be license-eligible as professional counselors but will be well-prepared to enter advanced graduate degree programs in counseling and related fields.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

A degree in counseling and applied psychological science will prepare students for a career in various settings:

- ☐ • government (sales and marketing, human resources management)
- ☐ • mental health professions (youth counselor, substance abuse counselor, behavioral health technician)
- ☐ • social services (high school psychology teacher, occupational analyst)

The degree also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate programs in counseling psychology:

- ☐ • clinical and counseling
- ☐ • cognitive neuroscience
- ☐ • developmental
- ☐ • environmental
- ☐ • experimental
- ☐ • physiological
- ☐ • social

English, BA (LSENGBA)

Campus: Polytechnic

Program Description:

The BA program in English focuses on effective writing, critical thinking and reading of sophisticated literary and nonliterary texts. Our faculty teach courses in English, American and world literature, from the Classical period to the present; creative and academic writing; and American and international film. We also offer internships in online publishing through our acclaimed online literary journal, Superstition Review: <https://superstitionreview.asu.edu/> (<https://superstitionreview.asu.edu/>).

Majors complete a minimum of 12 upper-division credit hours of ENG courses offered by the College of Integrative Sciences and Arts.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Career Opportunities:

The bachelor's degree program in English prepares scholars and teachers for graduate or professional study and for careers in education, writing and other related fields. Career prospects for secondary language arts teachers in Arizona are particularly strong. More importantly, students in the program will develop skills that employers value, such as analyzing ideas and problems, finding and evaluating information, communicating effectively, and presenting clear and logical arguments. With these skills, graduates of the program can find jobs such as these:

- ☐ • advertising and promotions managers
- ☐ • broadcast news analysts
- ☐ • copy writers
- ☐ • court reporters
- ☐ • editors
- ☐ • English language and literature teachers
- ☐ • judicial law clerks
- ☐ • lawyers
- ☐ • legal support workers
- ☐ • marketing managers
- ☐ • media and communication workers
- ☐ • middle school teachers
- ☐ • paralegals and legal assistants
- ☐ • poets, lyricists and creative writers
- ☐ • postsecondary teachers
- ☐ • public relations specialists
- ☐ • sales managers
- ☐ • sales representatives
- ☐ • secondary school teachers
- ☐ • teachers and instructors
- ☐ • technical writers
- ☐ • writers and authors

Exploratory Health and Life Sciences, (UCHSCIEXPL)

Campus: Downtown Phoenix, Lake Havasu, Polytechnic, Tempe, Online

Program Description:

The exploratory health and life sciences track offers students an opportunity to explore a variety of majors related to the health and life science professions. ASU recognizes that many students are not ready to choose a specific academic program of study when first entering the university. Allowing students the option to declare exploratory status permits them to begin meeting General Studies requirements that all ASU graduates must fulfill as well as affording students some time to explore a variety of academic courses that may lead to a potential major interest.

All College of Integrative Sciences and Arts exploratory students are required to enroll in the following major and career exploration courses, which must be taken sequentially:

UNI 150 Major and Career Exploration (1)
UNI 250 Choosing a Major (1)
UNI 270 Career Direction for a Successful Future (1)

For a complete list of all majors associated with this exploratory track, students should refer to <https://cisa.asu.edu/exp-health-life-sciences-majors> (<https://cisa.asu.edu/exp-health-life-sciences-majors>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: Math courses needed will be determined by potential major choice.

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Change of Major Requirements:

Students who have completed fewer than 45 college credit hours may change to exploratory status.

Details for declaring all CISA majors are available at <https://cisa.asu.edu/advising> (<https://cisa.asu.edu/advising>). Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for additional ASU information regarding changing the major.

Transfer Agreements:

General Studies, BA (LSGNSBGS)

Campus: Downtown Phoenix, Lake Havasu, Polytechnic

Program Description:

The BA in general studies offers students a flexible, innovative path to degree completion. Graduates of the program will be informed and effective members of society who are well-prepared for a changing global marketplace with its diverse cultures.

The theme of this degree is society and the individual. Students will explore the tensions between individualism and collectivism, the public and private selves and the interplay of culture and identity.

Career Opportunities:

General Studies majors have the option of working in almost any field that requires effective interaction with others, from sales to social services and organizational management to government administration. Graduates will be equipped with transferable skills highly desired by many employers; therefore, a wide array of job choices are available. The bachelor's degree creates great flexibility in career choice because of the versatility within the program.

Graduates may choose to enter one of the occupations for which their cluster prepares them, including:

- ☐ • administrative services manager
- ☐ • curator
- ☐ • medical and health service
- ☐ • middle school teacher
- ☐ • postsecondary teacher
- ☐ • property, real estate and community association managers
- ☐ • public relations specialist
- ☐ • purchasing manager
- ☐ • real estate sales agent
- ☐ • sales manager
- ☐ • writer and author

History, BA (LSHISBA)

Campus: Polytechnic

Program Description:

The BA program in history focuses on American and European history, with a special emphasis on the history of the Southwest, environmental history and related fields. Students are trained in methods of historical research and study the development of human society from social, cultural, political and economic perspectives.

Majors complete a minimum of 12 upper-division credit hours of HST courses offered by the College of Integrative Sciences and Arts.

Students who would like to combine this degree with teaching certification should also contact the Mary Lou Fulton Teachers College.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The bachelor's degree program in history prepares scholars and teachers for graduate and professional studies and for careers in education, writing and other related fields. Career prospects for secondary history and social studies teachers in Arizona are particularly strong. Students in the program develop skills in:

- ☐ • analyzing ideas and problems
- ☐ • communicating effectively
- ☐ • finding and evaluating information
- ☐ • presenting clear and logical arguments

With these skills, graduates of this program may find jobs as:

- ☐ • archivists
- ☐ • broadcast news analysts
- ☐ • court reporters
- ☐ • curators
- ☐ • historians
- ☐ • history teachers
- ☐ • judicial law clerks
- ☐ • lawyers
- ☐ • legal support workers
- ☐ • media and communication workers
- ☐ • middle school teachers
- ☐ • museum technicians and conservators
- ☐ • paralegals and legal assistants
- ☐ • postsecondary teachers
- ☐ • reporters and correspondents
- ☐ • secondary school teachers
- ☐ • teachers and instructors
- ☐ • writers and authors

The degree also prepares students to continue in graduate and professional programs.

History of Science, Ideas and Innovation, BA (LSHSIIBA)

Campus: Polytechnic

Program Description:

Leveraging the Polytechnic campus as a hub of innovation, the history of science, ideas and innovation program provides students with a grounding in the social and intellectual issues central to understanding the role of science, technology and ideas from past to present. This transdisciplinary degree program encourages students to combine coursework in the natural and applied sciences with historical and philosophical approaches to social knowledge. Students majoring or minoring in the history of science, ideas and innovation program graduate with a foundation for advanced

work in the humanities, the sciences or in transdisciplinary fields bridging written and technical work.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Graduates of the history of science, ideas and innovation program are prepared for successful careers in a wide range of fields, including science and technical writing, consulting, museum studies, the digital humanities and other fields that benefit from transdisciplinary exchange. Graduates are also prepared to enter advanced programs in history and science as well as law and medical schools.

Integrative Social Science, BS (LSISSBS)

Campus: Polytechnic

Program Description:

The BS in integrative social science is a degree program designed to cross-educate students in the disciplines of the social sciences to meet the complex issues that confront the human society in the 21st century. The emphasis of the program lies in bridging traditional disciplinary boundaries to immerse students in the myriad of theories and skills available across disciplines, allowing for true fusion of ideas and methodologies which otherwise may elude them with traditional, single-discipline social science programs. Thus, graduates of the program are prepared with theory and research skill sets that allow them to draw from the best of the multiple disciplines of the social sciences as they confront a technically sophisticated 21st century world.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Because of their mastery of the multiple methodologies of the social sciences, graduates of the program will have many more professional opportunities available to them than their peers with single-discipline training. Among others, graduates of the program will work as:

- ☐ • conflict resolution experts
- ☐ • counselors or case workers
- ☐ • data analysts
- ☐ • environmental assessment experts
- ☐ • facilitators
- ☐ • organization managers (private, public and nonprofit)
- ☐ • policy analysts
- ☐ • program evaluators
- ☐ • public relations officers
- ☐ • public safety and criminal justice professionals
- ☐ • sustainability experts

Interdisciplinary Studies, BA (LSBISBIS)

Campus: Downtown Phoenix, Polytechnic, Tempe, Online

Program Description:

The ASU interdisciplinary studies degree, one of the top five in the country, offers students the freedom to select two concentration areas from a rich menu of more than 140 possibilities (concentration check sheets may be seen at <https://cisa.asu.edu/interdisciplinary-studies-concentrations> (<https://cisa.asu.edu/interdisciplinary-studies-concentrations>)). The core curriculum provides students the intellectual tools to integrate their concentration areas, engage in transdisciplinary problem-solving and prepare for careers and graduate programs that increasingly cross disciplinary boundaries.

An interdisciplinary studies student could choose to integrate concentrations like music and business, psychology and social welfare, communication and justice studies, public administration and ethics, digital culture and computer gaming, or many other unique combinations.

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary studies students take an active role in designing their educational plans and defining their career goals. The degree emphasizes written communication, versatility, self-assessment and critical thinking --- essential skills for today's dynamic world.

Those interested in the interdisciplinary studies online program may visit the ASU Online website for more information.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N**First Required Math Course:** MAT 142 - College Mathematics**Program Math Intensity:** General**Admission Requirements:**

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)International (<https://students.asu.edu/international/future>)Readmission (<https://students.asu.edu/readmission>)**Additional Requirements:**

The program is available to all students in good academic standing who have achieved sophomore, junior or senior standing. Students should complete the online pre-advising workshop (found in student resources at <https://cisa.asu.edu/bisworkshop> (<https://cisa.asu.edu/bisworkshop>)) prior to meeting with an advisor to declare their major as interdisciplinary studies.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Change of Major Requirements:

There are no additional requirements for current ASU students to change majors into this program; however, students interested in the interdisciplinary studies major are highly encouraged to complete the preadvising workshop at <https://cisa.asu.edu/bisworkshop> (<https://cisa.asu.edu/bisworkshop>) prior to scheduling an appointment. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change majors.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)Central Arizona College(<https://transfer.asu.edu/tag>)Cochise College(<https://transfer.asu.edu/tag>)Coconino Community College(<https://transfer.asu.edu/tag>)Dine College(<https://transfer.asu.edu/tag>)Eastern Arizona College(<https://transfer.asu.edu/tag>)Gila Community College(<https://transfer.asu.edu/tag>)Mohave Community College(<https://transfer.asu.edu/tag>)Northland Pioneer College(<https://transfer.asu.edu/tag>)Pima Community College(<https://transfer.asu.edu/tag>)Tohono O'odham Community College(<https://transfer.asu.edu/tag>)Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)Illinois(<https://transfer.asu.edu/illinois>)

Career Opportunities:

Because of the flexibility of the interdisciplinary studies program, graduates take many exciting career paths after leaving ASU. While some students complete graduate or professional degrees, others immediately enter the job market. For example, one graduate combined business and communication and now owns a small business; another integrated sociology and family studies to further a career in law enforcement; another studied philosophy and economics to prepare for law school; another combined biology and chemistry in preparation to pursue a master of pharmacy degree; yet another studied Spanish and religious studies and now works as an employee trainer for a major company.

Possible career opportunities include:

- ☐ • archivist
- ☐ • chief executive
- ☐ • climate change analyst
- ☐ • compliance manager
- ☐ • computer network support specialist
- ☐ • curator
- ☐ • editor
- ☐ • environmental restoration planner
- ☐ • general and operations manager
- ☐ • regulatory affairs manager
- ☐ • reporters and correspondent
- ☐ • Web developer
- ☐ • wholesale and retail buyer (except farm products)

Interdisciplinary Studies (Organizational Studies), BA (LSORGBIS)

Campus: Online

Program Description:

Interdisciplinary studies is an approach to answering questions, solving problems and addressing contemporary social issues from multiple perspectives. Interdisciplinary students develop the intellectual tools needed to build bridges between academic disciplines and apply their skills, innovations and knowledge in various academic and practical settings.

The degree in organizational studies is intended for students seeking an interdisciplinary degree and who possess a desire to learn about the dynamics of contemporary organizations. Organizational studies students gain valuable knowledge of management styles, communication strategies, technologies, diversity, ethics and politics. All coursework for organizational studies is offered online, giving students freedom and flexibility in completing their requirements.

Those interested in the interdisciplinary studies (organizational studies) online program may visit the ASU Online website for more information.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

By engaging in a breadth of knowledge and experience, and by acquiring the skills to integrate various domains of knowledge, students prepare themselves for a range of careers, including as:

- ☐ • human resources specialists
- ☐ • industrial organizational psychologists
- ☐ • investment fund managers
- ☐ • loss prevention managers
- ☐ • management analysts
- ☐ • regulatory affairs managers
- ☐ • supply chain managers
- ☐ • urban and regional planners

Many organizational studies students already have a chosen career field, yet desire a degree that is versatile, flexible, meaningful and that affords the opportunity for continued career development and advancement. Because of the flexibility of the program, organizational studies graduates take many different career paths after finishing their degree. Recent graduates have found opportunities in many exciting fields, such as:

- ☐ • business

- ☐ • education
- ☐ • health care administration
- ☐ • nonprofit administration
- ☐ • tourism

Liberal Studies, BA (LABLSBLS)

Campus: Polytechnic, Online

Program Description:

Please note: Students interested in completing the BA program at the Gila Valley location are encouraged to complete a Transfer Admission Guarantee. Please see admission requirements below.

The liberal studies program helps to address student interests in a broad array of disciplines and subject matter. The program aims to give students the grounding to use knowledge as more successful thinkers, decision-makers and leaders. The liberal studies core classes are designed to: promote critical and creative thinking as students learn how to draw upon diverse disciplinary perspectives and modes of inquiry, help advance communication skills, and support professional career development.

Students majoring in liberal studies have become part of an international movement in higher education. This movement has proven empowering to people who are given the flexibility to explore multiple interests or approach a particular interest from various perspectives. Students are not alone in their chosen path. In fact, this program is just one of hundreds of similar programs offered in colleges and universities across the nation.

The program shares with all other liberal arts and science degrees the goal of developing analytical and communicative abilities. The program offers breadth of learning in an online setting. The liberal studies degree is transdisciplinary, providing students a thematic approach to education.

For more information on eligibility requirements, students should visit the college website.

Students interested in the program offered in the Gila Valley or Yuma should consider completing a TAG program. Arizona State University and Eastern Arizona College have established a partnership that allows students to complete their associate degree at EAC and then pursue this bachelor's degree through classes delivered on the EAC Thatcher campus. More information about ASU degrees offered at Eastern Arizona College Thatcher campus in the Gila Valley is available at <https://transfer.asu.edu/eac> (<https://transfer.asu.edu/eac>). Students may view the major map for this program here: <https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LABLSBLS/null/EAC/2017> (<https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LABLSBLS/null/EAC/2017>).

Those interested in the liberal studies online program may visit the ASU Online website for more information.

Organizational Leadership, BA (LSORGLBA)

Campus: Lake Havasu, Polytechnic, The Gila Valley, CAC, Yuma, Online

Program Description:

Please note: Students interested in completing the BA program in the Gila Valley, Pinal County or Yuma are encouraged to complete a Transfer Admission Guarantee program. Please see admission requirements below.

The BA program in organizational leadership uses transdisciplinary methods that prepare students to become leaders in organizations. Students develop the skills and knowledge that leaders need to solve problems, communicate effectively, assess programs, manage resources and use emerging technologies in organizations. Students will be prepared for a range of positions in the public and private sectors, including in government, health care administration, nonprofit agencies, in businesses and the service industry.

Arizona State University has established partnerships with Arizona Western College, Central Arizona College and Eastern Arizona College that allows students to complete their associate degree at AWC, CAC or EAC and then pursue this bachelor's degree through classes delivered on these campuses. More information about ASU degrees offered at these locations is available at <https://transfer.asu.edu/> (<https://transfer.asu.edu/>). This program is also offered at the ASU Colleges in Lake Havasu City; the major map is shown at <https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LSORGLBA/null/CALHC/2017> (<https://webapp4.asu.edu/programs/t5/roadmaps/ASU00/LSORGLBA/null/CALHC/2017>).

This major is eligible for the Western Undergraduate Exchange program at the Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. More information and eligibility requirements is on the WUE program page at <http://students.asu.edu/admission/wue> (<http://students.asu.edu/admission/wue>).

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates will possess skills and knowledge needed for leadership positions in a wide range of organizations --- such as business, government, health care administration, nonprofit agencies and the service industry. Students who complete the program on the ground in Lake Havasu City will choose from three concentrations, with the following job titles based on information from other universities with similar degrees:

- ☐ • organizational behavior: knowledge manager, director of employee services, director of training, diversity specialist, performance evaluation specialist, community relations manager
- ☐ • organizational leadership: director of youth development, sales manager, executive assistant, housing assistant, supervisor, service manager, deputy sheriff trainee, sales executive, knowledge manager, talent manager, organization development consultant
- ☐ • project management: project manager, account manager, facilities manager, senior video producer

Political Science, BS (LSPOLBS)

Campus: Polytechnic

Program Description:

The BS program in political science gives students the background and skills to gain employment in a relevant profession, to continue their studies in graduate programs in political science or in the social sciences, or to pursue a particular discipline at a professional school. The program helps students understand the assumptions underlying political science and develop the research skills to analyze complex socio-political issues. Those objectives are accomplished by offering a flexible program and by providing students with both individual and group experiences, working with faculty on concrete intellectual and policy issues.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

The program serves as good preparation for staff, manager or policy analyst positions in local, state and federal government. This degree is recognized by employers as qualification for many careers in business (for-profit and nonprofit) and industry. Opportunities may include positions that involve binational, crossborder positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border.

Many students use the degree as a gateway to law school or as a basis for further study in such applied fields as:

- ☐ • community development
- ☐ • political science
- ☐ • public administration
- ☐ • public policy
- ☐ • social science
- ☐ • urban affairs
- ☐ • urban and regional planning

Psychology, BA (LSPGSBA)

Campus: Polytechnic

Program Description:

Psychology is the scientific study of mind and behavior. This program emphasizes critical thinking, reasoning, and empirical research and writing. It

adds practical experience through internships, service-learning and faculty-supervised research. The BA program provides a broad foundation in psychology and affords students the flexibility to choose from a variety of courses outside the major. Because of this, the Bachelor of Arts curriculum requires fewer lab science and math courses than the Bachelor of Science program. The Bachelor of Arts in psychology program prepares students for employment or preparation for graduate study in applied psychology and related fields (e.g., social work, counseling and management).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The Bureau of Labor Statistics shows that the job outlook (2014-24) for psychologists is 19% (which is "much faster than average").

A degree in psychology will prepare students for a career in various settings:

- ☐ • community centers
- ☐ • consulting firms
- ☐ • government (sales and marketing, human resources, research, administration, management)
- ☐ • hospitals
- ☐ • industries and organizations
- ☐ • mental health agencies
- ☐ • private companies
- ☐ • schools and colleges (school psychologists, educators, professors)
- ☐ • social services (high school psychology teacher, occupational analyst)
- ☐ • substance abuse treatment clinics

The degree program also provides an excellent foundation for graduate study in fields such as public administration, law, family studies, communication and the various graduate programs in psychology:

- ☐ • clinical and counseling
- ☐ • cognitive neuroscience
- ☐ • developmental
- ☐ • environmental
- ☐ • health
- ☐ • legal
- ☐ • physiological
- ☐ • social

Psychology, BS (LSPGSBS)

Campus: Polytechnic

Program Description:

Psychology is the scientific study of mind and behavior. This program emphasizes critical thinking, reasoning, and quantitative research and writing. It adds practical experience through internships, service-learning and faculty-supervised research. The BS program has a greater science focus than the BA, and thus includes two more required lab sciences as well as precalculus. The BS program prepares students for employment or prepares them for graduate study in quantitative, experimental and biological psychology and related fields (e.g., medicine and behavioral neuroscience).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Science, Technology and Society, BS (ECSTSBS)

Campus: Polytechnic

Program Description:

Questions surrounding the interaction of science, technology and human systems are highly transdisciplinary and cultural, requiring analytical techniques that transcend space and time. Thus, the science, technology and society program stresses the need to step outside both disciplinary and cultural boxes in pursuit of knowledge. Accordingly, the program is heavy on cultural and information literacy and critical thinking. The primary goal is to produce generalists who understand the intricate interrelationship of science, technology and society and who are armed with the technical skills to change their environment. The following three tracks are available:

- ☐ • general science, technology and society
- ☐ • global technology and development
- ☐ • science, technology and governance

Students may use the general science, technology and society track to design targeted programs of their choosing, including premed and prelaw.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

The bachelor's degree program in science, technology and society prepares professionals and scholars for careers in the 21st century world focusing primarily, but not exclusively, on the interaction of science and technology with human systems. The program focuses on the development of the technical skills required to audit social, political and policy impacts of technological advancement and the competence required to navigate questions surrounding the future trajectory of science and technology. Graduates are prepared for graduate or professional study or professional careers as:

- ☐ • commercial and industrial designers
- ☐ • compliance managers
- ☐ • environmental restoration planners
- ☐ • public relations specialists
- ☐ • recycling coordinators
- ☐ • regulatory affairs specialists
- ☐ • sales representatives (wholesale, manufacturing, technical, scientific products)
- ☐ • sustainability specialists
- ☐ • training and development specialists
- ☐ • transportation planners
- ☐ • urban and regional planners

Technical Communication, BS (LSTECBS)

Campus: Polytechnic, Online

Program Description:

Technical communication is applied workplace communication that makes technical or specialized information understandable and available to many different users. It involves using a range of technologies to craft an ever-expanding array of print and digital information products: websites, social media sites, help files, training materials, grants and proposals, and information graphics, to name just a few. Technical communicators work in many professional roles, such as information developers, grant writers, Web interface designers or usability experts. What all of these roles have in common is the focus on creating accessible and appealing communication that has a practical purpose and is intended for a particular audience. In the technical communication program, students learn how to write, design, produce and manage print and digital information using traditional and developing technologies.

The BS degree program in technical communication in the College of Integrative Sciences and Arts is the only undergraduate technical communication degree program available in the state of Arizona.

Those interested in the technical communication online program may visit the ASU Online website for more information.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Technical Communication (User Experience), BS (LSTECUBS)

Campus: Polytechnic

Program Description:

The user experience (UX) concentration is designed to provide technical communication majors with an interdisciplinary foundation in communication, research and design that is central to the rapidly growing area of UX. The concentration provides students with a conceptual understanding and applied skills in methods of gathering user information, analyzing data and communicating research findings to stakeholders. Although its disciplinary home and primary focus is technical communication, the concentration includes courses from human systems engineering and graphic information technology in order to provide students with the multiple perspectives and complementary skills needed for UX work.

Interdisciplinary Arts & Sciences, New College of

American Studies, BA (ASAMSBA)

Campus:**Program Description:**

The School of Humanities, Arts and Cultural Studies offers a BA in American studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program --- the only undergraduate American studies degree in the state --- is a place for rigorous and adventurous conversations about American culture, politics and history, exploring knowledge beyond disciplinary boundaries, bringing differing perspectives and understandings into dialogue with one another, and generating a unique level of intellectual rigor and excitement.

To this end, the goals of the American Studies program are to create a community of learning through classroom instruction, internship and study abroad experiences, program field trips, and activities and lectures; encourage knowledge and innovation in coursework as well as through the capstone thesis project; and help students synthesize and critically evaluate knowledge from diverse fields about American history and culture.

Additional Program Fee: N**Second Language Requirement:** N**First Required Math Course:** MAT 142 - College Mathematics**Program Math Intensity:** General**Accelerated Degrees:**

This degree is also offered as an accelerated degree with:

- Communication Studies, MA
- Interdisciplinary Studies, MA
- Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates are well equipped to embark on a wide variety of careers in government, education, business, museum and foundation work, journalism and other forms of professional writing, and in other areas where these capabilities are highly valued and sought. The program also serves as excellent preparation for law school and for graduate programs in fields such as:

- ☐ • American studies
- ☐ • art history
- ☐ • English
- ☐ • history
- ☐ • journalism

Applied Computing, BS (ASACOBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS degree in applied computing in the New College of Interdisciplinary Arts and Science at ASU's West campus.

Applied computing provides a foundation in computer science, combining technical computing skills with an understanding of the impact of computer science in real-world contexts.

The technical component of the applied computing program pertains to the design and use of appropriate systems and technologies while the social sciences component delves into understanding how people seek, obtain, evaluate, use and categorize information.

Lower-division courses provide a computer science foundation while upper-division courses emphasize database systems and computer networks. The program offers small class sizes and extensive opportunities for research and requires either an internship or research with a professor, which is typically completed during the senior year.

Graduates are prepared for graduate study as well as for entry-level employment in information technology roles in a variety of businesses, nonprofits, government agencies and academic institutions.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Applied Mathematics, BS (ASMATBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS degree in applied mathematics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Applied mathematics is an interdisciplinary program that provides a broad and rigorous foundation in applied mathematics. It includes a foundation in computing and statistics as well as both theoretical and applied mathematics.

The program emphasizes quantitative problem-solving and critical thinking through courses that expose students to a variety of mathematical theories, techniques and applications currently used by analysts and researchers in government, industry and nonprofit organizations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Applied Science, BAS (ASBASBAS)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BAS degree in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program, for students who have already earned an AAS degree, allows students to apply the technical knowledge gained from their associate degree and significantly broaden their education.

The program offers unique areas of concentration tailored to students' individual interests and career goals. These include, but are not limited to, business, communication, criminal justice, teaching, environmental issues, languages and cultures, and social sciences.

Students who have earned an Associate of Applied Science from an accredited institution may transfer up to 60 credit hours plus another 15 hours of General Studies courses from an accredited Arizona community college. The program also includes a capstone project.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies, MA

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree. This program is not available for freshmen.

Change of Major Requirements:

A current ASU student must hold an Associate of Applied Science degree in order to change the major to this program. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

Because the program allows students to tailor their concentration, graduates are prepared for a wide range of career opportunities as well as graduate programs in law, business, social sciences and education.

Biology, BA (ASLSCBA)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BA in biology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The biology program, with an emphasis in the natural sciences, examines the interdisciplinary nature of the life and physical sciences, focusing on the ways in which these disciplines intersect. The program's organization and flexibility allows students to simultaneously study another subject outside their major, and students are encouraged to add a minor or concurrent degree in another subject area.

Students gain hands-on experience as they work both in small groups and one-on-one with individual faculty members. Students may participate in cutting-edge scientific research by assisting in faculty research laboratories or even publish in top journals and present their results at regional and national scientific meetings.

Graduates are prepared for entry-level jobs in research, nonprofit, education and outreach organizations or for other roles in the life sciences and for related graduate programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program

(<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies, MA

Social Justice and Human Rights, MA

Social Technologies, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Biology, BS (ASLSCBS)

Campus: Lake Havasu, West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in biology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The biology program, with an emphasis in the natural sciences, examines these disciplines through experiential learning, and all of the program's core courses include laboratories. By learning in an integrative environment that emphasizes the connectedness of the life sciences, students gain a better understanding of larger scientific concepts and can view these concepts from multiple perspectives.

Students are encouraged to conduct independent research under the mentorship of faculty members or during internships. Some even publish in top journals and present their results at scientific meetings.

Graduates are prepared for employment with state and federal agencies or private organizations such as biomedical laboratories and environmental consultancies, or to enter graduate or doctoral programs in human or veterinary medicine, pharmacy, dentistry or scientific research.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

This program prepares graduates for a wide range of careers by offering course and laboratory work and quantitative research opportunities that develop fundamental problem-solving, critical thinking, writing and communication skills. Graduates may enter careers in:

- ☐ • business
- ☐ • laboratory or field research
- ☐ • medicine
- ☐ • publishing
- ☐ • scientific journalism
- ☐ • teaching

Undergraduate laboratory experience, both on and off campus, enhances employability as a laboratory technician or research associate in university and government research laboratories; in hospital and diagnostic laboratories; and in pharmaceutical, biotechnology, agricultural and food processing companies.

Students engaged in field studies are prepared for entry-level positions in private companies and state and federal agencies (e.g., wildlife biologist, environmental consultant or conservation officer).

Biology (Environmental Science), BS (ASLSCEBS)

Campus: Lake Havasu, West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in biology with a concentration in environmental science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

All the core courses, which emphasize experiential learning, include required laboratories. By learning in an integrative environment that underscores the connectedness of these disciplines, students gain a better understanding of larger scientific concepts and they can view these concepts from multiple perspectives. Students pursuing this concentration will take a set of courses which focus more on environmental science than those pursuing a BS in biology.

While the emphasis is on science, students will learn to approach environmental science from an interdisciplinary perspective, in part by studying environmental ethics and policy.

Graduates are prepared for entry-level employment in the growing field of environmental science (which includes topics such as environmental consulting, environmental remediation, and natural resource management) and are prepared for graduate programs in environmental science or related disciplines.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

According to the 2010-2011 Occupational Outlook Handbook (U.S. Bureau of Labor Statistics, 2010), employment of environmental scientists is expected to grow by 28 percent between 2008 and 2018. This is far more rapid growth than the average rate of growth for all occupations. The handbook indicates most rapid growth will occur in the private sector, primarily in private environmental consulting firms.

This concentration will allow students to tailor their courses of study to their interests in the science of the environment, to help prepare them for careers in the public and private sectors (e.g., in environmental consulting, environmental remediation, natural resource management, etc.) as well as for entry into graduate programs in environmental science and related disciplines.

Biology (Forensics), BS (ASLSCFBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in biology with a concentration in forensics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The forensics concentration emphasizes the study of scientific techniques used to solve crimes. Students pursuing the forensics concentration will take a more forensics-relevant set of courses than those students pursuing the BS in biology.

Much of the required coursework will be completed in chemistry or biology lab science courses, to ensure that graduates of this program are more competitive as they apply to graduate degree programs, pursue relevant careers and enter the workforce.

Graduates are prepared to pursue careers in forensics laboratories and in the research and development of new criminal forensic technologies. Completion of the bachelor's degree in biology also ensures graduates are prepared for graduate, professional or medical degree programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Career Opportunities:

Graduates of this program will be able to pursue careers in forensics laboratories and in the research and development of new technologies in forensics. Graduates will be particularly competitive for positions in forensics laboratories because the concentration focuses heavily on chemistry and biology laboratory coursework (areas that administrators and current employees in crime labs have reported are critically important). For example, as reliance upon DNA fingerprinting technologies increases, demand for forensic scientists trained in the requisite amounts of molecular biology will increase. The concentration also places focus on oral communication skills (e.g., through coursework in argumentation, COM 222 Argumentation (3) or COM 422 Advanced Argumentation (3)), which will prepare graduates for the multifaceted aspects of their careers in forensics (e.g., providing articulate and compelling expert testimony in criminal trials). Graduates of this program will also be well positioned to enter graduate programs in forensic science.

Biology (Pharmacology/Toxicology), BS (ASLSCPBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in biology with a concentration in pharmacology and toxicology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The pharmacology and toxicology concentration provides an emphasis in the biochemical, molecular and physiological components of drug and body interactions. The degree program emphasizes experiential learning, and all required core courses have laboratories. By learning in an integrative environment that emphasizes the connectedness of the disciplines, students gain a better understanding of larger scientific concepts, and they can view these concepts from multiple perspectives. Undergraduates have the opportunity to conduct independent research under the mentorship of faculty members or in internships outside the school.

Graduates are prepared for entry-level employment in the growing field of environmental toxicology as well as for graduate or professional programs in pharmacology and toxicology.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

The bachelor's degree program in biology with a concentration in pharmacology and toxicology prepares students for occupations such as:

- ☐ • environmental toxicologist
- ☐ • laboratory researcher
- ☐ • pharmacist
- ☐ • physician
- ☐ • physician's assistant
- ☐ • veterinarian

Graduates may work in governmental agencies or private companies in areas such as:

- ☐ • clinical trials
- ☐ • product safety evaluation
- ☐ • regulatory affairs
- ☐ • teaching

Biotechnology and Bioenterprise, BS (ASBITEBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS degree in biotechnology and bioenterprise in the New College of Interdisciplinary Arts and Sciences at the West campus of Arizona State University.

This program provides students with essential transdisciplinary and practical experience in biotechnology research. Students will acquire the associated business and entrepreneurship skills needed to develop and market biotechnological innovations and solutions to problems facing the biotechnology and health sciences communities in Arizona, the nation and beyond. The program emphasizes coursework in the biological, biomolecular and biotechnological sciences, which are key components that underpin biotechnology. Students will be able to tailor the degree to their specific interests and aspirations through focus areas in biotechnology, bioenterprise and biostatistics. The program is unique due to its focus on blending biotechnology and entrepreneurship.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

Communication, BA (ASCOMMBA)

Campus: Lake Havasu, West

Program Description:

The School of Social and Behavioral Sciences offers a BA degree in communication in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The study of communication comprises research, practice and advocacy. Relying upon diverse competencies, it requires an understanding of what contributes to and detracts from effective human communication.

The coursework and faculty-led research projects in the communication program cover an array of topics, including work and personal relationships, conflict resolution, social media and technology, global communication, communication philosophy, and risk and crisis communication. Students explore communication in organizations and interpersonal relationships; in public, political, and social situations; and across cultures.

Graduates of this program are trained in effective communication skills, are able to write and speak well, and can convey complex ideas effectively. They are prepared for employment in communication-intensive fields or further graduate study.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies, MA

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The Bachelor of Arts in communication is a broadly-based program that trains individuals to speak and write competently, manage relationships well, problem-solve effectively, and understand the role and function of communication in public forums, organizational settings, relational exchanges and intercultural situations. Because these skills are crucial to many professions, communication graduates work in a variety of fields, including:

- ☐ • advertising
- ☐ • customer service and customer relations
- ☐ • education
- ☐ • fundraising
- ☐ • health and human services
- ☐ • human resources
- ☐ • international service
- ☐ • legal professions
- ☐ • lobbying
- ☐ • management
- ☐ • marketing
- ☐ • media and public relations
- ☐ • mediation
- ☐ • ministry

- ☐ • public administration
- ☐ • public advocacy
- ☐ • public office
- ☐ • research
- ☐ • sales
- ☐ • social media design and implementation
- ☐ • speech writing
- ☐ • training and development

English, BA (ASENGBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in English in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Students in this program learn how to write clearly and effectively and to think critically and construct well-supported arguments.

The program stresses the formal aesthetic qualities of texts and the issues of class, gender, race and ethnicity relating to literary representation. Students will gain a familiarity with standard literary-critical terminology and an awareness of various theoretical approaches to literary study. Students will also become aware of uses of the English language in the U.S. and around the world.

The program provides students with a balanced overview of major literature in the English language and an awareness of the role of literary discourse in broader social and historical contexts.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

English (Secondary Education), BA (ASENGSEBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA degree in English with a concentration in secondary education in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program provides rigorous content in literature, composition, linguistics and secondary teaching, extensively preparing students to meet the needs of all student populations, including attention to levels of student academic performance and cultural and linguistic diversity.

The demand for teachers in Arizona is high. Students will complete their teaching internship in school districts in the greater Phoenix area or for one of the 22 Native American nations in Arizona.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Environmental Science, BA (ASENVBA)

Campus: Lake Havasu, West

Program Description:

The School of Mathematical and Natural Sciences offers a BA in environmental science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program prepares students to pursue careers in environmental science. The curriculum gives students a strong foundation in the natural
Academic Catalog Archive 2017-2018

sciences so they understand the biological and chemical functioning of our natural environment; the curriculum places an additional emphasis on the social, political and economic dimensions of environmental science. The program also focuses on the communication, management and planning skills that will prepare graduates for leadership careers in environmental science.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies, MA

Social Justice and Human Rights, MA

Social Technologies, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Environmental Science, BS (ASENVBS)

Campus: Lake Havasu, West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in environmental science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The environmental science program prepares students to pursue careers in environmental science, including but not limited to positions with federal and state agencies, private consulting firms, nongovernment organizations and academic research environments. The curriculum emphasizes many aspects of biological study including molecular, organismal and ecosystem biology and is backed by a strong foundation in chemistry, statistics and geographic information systems. The program also focuses on written communication and management skills that will prepare graduates for the multifaceted, transdisciplinary aspects of their careers in environmental science.

Ethnicity, Race and First Nations Studies, BA (ASETHBA)

Campus:

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in ethnicity, race and First Nations studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The first such program in Arizona, this program provides an integrated, comparative and comprehensive approach to the study of diversity among ethnic and racial groups and First Nations. A highlight of the program is the internship, which fosters direct links between the university and community-based settings. Both theoretical and applied perspectives are embedded in a curriculum addressing how ethnicity, race and First Nations shape identities, literacies, public policies and communities in local and transnational U.S. contexts. Students identify a career area enabling them to integrate their knowledge with specific coursework tied to their career and advanced educational goals.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Communication Studies, MA
- Interdisciplinary Studies, MA
- Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Exploratory Applied Computing, Mathematics and Technology, (ASACMTEXPL)

Campus: West

Program Description:

The exploratory applied computing, mathematics and technology track provides students with the opportunity to explore a variety of majors related to applied computing, mathematics and technology professions.

Many students are not ready to choose a specific academic program of study when first entering the university. Exploratory programs provide an opportunity to discover the options available at ASU and students are provided the time, resources and guidance needed to assess their skills, interests and aptitudes. Declaring exploratory status permits students to begin meeting General Studies requirements that all ASU graduates must fulfill. It also allows students to take some time to explore a variety of academic courses that may lead to a potential major interest.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 117 - College Algebra

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

Students with fewer than 45 credit hours may declare this exploratory major. Students may not accrue more than 45 hours while they are an exploratory student. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Career opportunities are specific to the ultimate major of choice.

Forensic Science, BS (ASFOREBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in forensic science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Forensic science is the study and application of scientific methods to matters of law. The forensic science program emphasizes laboratory coursework in chemistry and biology as both areas provide essential experience with techniques commonly used in crime labs. Rigorous coursework in the natural and mathematical sciences is required to ensure graduates are competitive in the workforce. The program is enhanced by a focus on oral communication skills that help prepare graduates for the multifaceted, transdisciplinary aspects of careers in forensic science, such

as providing articulate expert witness testimony. If pursuing a career as a forensic DNA analyst, nine cumulative hours of coursework in biochemistry, molecular biology and genetics are required; coursework in population genetics is desirable. Employers may require documentation for completed coursework, such as an official course syllabus.

Forensic science students may apply for and participate in internships sponsored by metropolitan Phoenix area crime labs. Internships are competitive, and the application process takes time. Fall semester internships generally require application in the spring semester prior, and spring or summer semester internships generally require application by the start of the fall semester. Internship positions are unpaid and require concurrent enrollment in FOR 484 Internship. Students must also have a faculty mentor and abide by all internship standards for the school and the location where the internship is held. Students may also participate in cutting-edge research with a faculty mentor either as a volunteer in the faculty member's lab or by registering for FOR 499 Individualized Instruction. For more information, students should see an academic advisor.

Job applicants and students seeking a volunteer or internship position within a crime lab are required to undergo an extensive background check that includes a polygraph exam (commonly known as a lie detector test), fingerprinting and drug testing. Actions that can disqualify an applicant include recent or past illicit drug use, felony convictions and drunk driving convictions.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

History, BA (ASHISBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in history in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The history degree program provides a strong foundation for understanding the forces of change that shape society, the marketplace and people's lives. The program introduces students to a broad span of history that covers the ancient world through the modern period and extends from Europe to Latin America and the United States. In addition to learning about the origins and development of various peoples, ideas and institutions of the past, students engage in the practice of history by learning to conduct original research, analyze historical evidence and formulate arguments using historiographical perspectives and methodological approaches.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

History (Secondary Education), BA (ASHISSEBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in history with a secondary education concentration in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

For students considering a career in education, this flexible program fully prepares students for teaching and certification while providing all the disciplinary knowledge of a traditional history degree. Students will understand history in all its breadth and depth while developing strong critical reading, writing and research skills as well as skills in oral presentation.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Interdisciplinary Arts and Performance, BA (ASIAPBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in interdisciplinary arts and performance in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Students engage with faculty in collaborative investigation of many disciplines preparing for our complex and changing world through current approaches to artistic and aesthetic research. Students in this major engage in practical and theoretical studies of visual, sonic, performance, game and interactive arts to become versatile artists. With skill sets preparing them for professional and entrepreneurial opportunities, they can tap into evolving marketplaces and expanding fields of arts research and practice.

Students who major in interdisciplinary arts and performance receive extensive preparation for careers as artists, performers and creative professionals, and they develop critical backgrounds useful for teaching and scholarship.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Interdisciplinary Arts and Sciences, BA (ASIASBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in interdisciplinary arts and sciences in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program is a variation of the classic liberal arts degree, as students combine lower-division foundational courses with upper-division courses in a specific area of concentration; for instance, business, communication, criminal justice, education, environmental issues and physical sciences, languages and cultures, and social sciences and policy issues. Students can select an area of concentration unique to their interests and career goals. The program culminates with a capstone internship experience.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all

applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Career Opportunities:

Emphasizing interdisciplinary study combined with a specific area of concentration (e.g., business, communication studies, English, gerontology, history, psychology or preprofessional studies), students tailor their programs to meet individualized career goals. The capstone internship program prepares students to make the transition smoothly to graduate school or postbaccalaureate employment in:

- ☐ • business settings
- ☐ • community settings
- ☐ • cultural settings
- ☐ • educational settings
- ☐ • social sciences and human service settings

Students planning graduate or professional degrees in law, business, helping professions or in traditional disciplines benefit from the flexibility of this program for a broad range of future academic and career pursuits.

Latin American Studies, BA (ASLASBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in Latin American studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Unlike programs that are predominantly based on social science and taught in English, this program fosters language and cultural knowledge beyond print literature and is unique in its inclusion of the arts and sciences.

The program allows students to immerse themselves in content courses while honing their Spanish language skills, and it provides a broad foundation for students to study Latin America, the United States and the Iberian Peninsula.

Students can choose from five tracks: the arts; narrative (literature and film); history and political science; education and linguistics; and sociology and anthropology.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Pharmacology and Toxicology, BS (ASPTXBS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS degree in pharmacology and toxicology in the New College of Interdisciplinary Arts and Sciences at the West campus of Arizona State University.

This program provides the conceptual foundation for understanding the interactions of chemicals in the biological system. The degree approaches the study of biology and chemistry in an integrative fashion, giving students the breadth and depth to comprehend the physiological, molecular and cellular mechanisms of drug and toxicant action. The degree utilizes experiential learning, and all required core courses have laboratories. Undergraduates have the opportunity to conduct independent research under the mentorship of faculty members or in internships outside the school.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Philosophy, Religion and Society, BA (ASRELBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in philosophy, religion and society in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The program comprises historical, theoretical and practical perspectives on philosophy, religion and social ethics and emphasizes social and political concerns by putting the studies of philosophy and religion into action. This interdisciplinary degree offers three areas of concentration: applied ethics, continental philosophy and religious studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Political Science, BA (ASPOLBA)

Campus: Lake Havasu, West

Program Description:

The School of Social and Behavioral Sciences offers a BA in political science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Political science is the study of governmental practices, politics and theories. Coursework in the political science program covers American institutions, international relations, political theory and world affairs.

The program helps students gain a basic understanding of the assumptions underlying political science and helps them develop the necessary research skills for analyzing complex sociopolitical issues. In addition to coursework, students learn through internships, service-learning and research opportunities.

Graduates of this program are prepared for work as analysts or aides in local, state or national legislative offices, among other roles. Many graduates go on to law school or graduate programs in political science, social science, urban planning or public administration.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The political science curriculum provides a solid background for employment in a relevant profession and prepares students for graduate work in:

- ☐ • political science
- ☐ • professional schools
- ☐ • social science disciplines
- ☐ • urban planning

The program serves as a good precursor to staff, manager or policy analyst positions in local, state and federal government. This degree is recognized as qualification for many careers in business (for-profit and nonprofit) and industry.

Work may include binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government or local community groups on both sides of the border. Many students use the degree as a gateway to law school or as basis for further study in such applied fields as:

- ☐ • community development
- ☐ • public administration
- ☐ • public policy
- ☐ • urban affairs and urban and regional planning

Political Science, BS (ASPOLBS)

Campus: West

Program Description:

The School of Social and Behavioral Sciences offers a BS in political science in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Political science is the study of governmental practices, politics and theories. Coursework in the political science program covers American institutions, international relations, political theory and world affairs.

The program helps students gain a basic understanding of the assumptions underlying political science and develop the necessary research skills for analyzing complex sociopolitical issues. In addition to coursework, students learn through internships, service-learning and research opportunities. The BS degree differs from the BA degree in that it requires an additional statistics course and a methods course.

Graduates of this program are prepared for work as analysts or aides in local, state or national legislative offices, among other roles. Many graduates go on to law school or graduate programs in political science, social science, urban planning or public administration.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Psychology, BA (ASPGSBA)

Campus: Lake Havasu, West, Online

Program Description:

The School of Social and Behavioral Sciences offers a BA in psychology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Psychology is the scientific study of human behavior. This diverse field includes mental health and counseling as well as child development, neuroscience and brain function, memory and decision-making, behavior analysis, statistics and more. It also crosses over into other disciplines such as medicine, the law, business and economics.

The psychology program --- which emphasizes critical thinking and reasoning, quantitative research methods and writing --- goes beyond the classroom, adding practical experiences through internships, service-learning and faculty-supervised research. (Note: Some opportunities are not available to students enrolled in the degree offered through ASU Online.)

Graduates are prepared for graduate programs in psychology or other areas as well as professional employment.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 119 - Finite Mathematics

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Communication Studies, MA
- Interdisciplinary Studies, MA
- Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Psychology, BS (ASPGSBS)

Campus: Lake Havasu, West, Online

Program Description:

The School of Social and Behavioral Sciences offers a BS in psychology in the New College of Interdisciplinary Arts and Sciences at the West campus of Arizona State University.

Psychology is the scientific study of human behavior. This diverse field includes mental health and counseling as well as child development, neuroscience and brain function, memory and decision-making, behavior analysis, statistics, and more. It also crosses into other disciplines such as medicine, the law, business and economics.

This psychology program --- which emphasizes critical thinking and reasoning, quantitative research methods and writing --- goes beyond the classroom with practical experiences through internships, service-learning and faculty-supervised research. (Note: Some opportunities are not available to students enrolled in the degree offered through ASU Online.)

The BS degree differs from the BA degree in that it requires two additional lab courses and advanced statistical training. The Bachelor of Science degree program will provide a greater depth of knowledge in the biological and neuroscientific aspects of psychology that are becoming increasingly important both for research and clinical practice. In addition, the advanced statistical training will further prepare students for careers and graduate training involving psychological research, clinical research and legal policy research.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Psychology (Forensic Psychology), BA (ASPGSFPBA)

Campus: West, Online

Program Description:

The School of Social and Behavioral Sciences offers a BA degree in psychology with a concentration in forensic psychology through the New College of Interdisciplinary Arts and Sciences at the West campus of Arizona State University.

Forensic psychology is the application of psychology to the law. This concentration combines general training in psychology with specialized coursework in criminal law, criminal behavior, the diagnosis and treatment of mental disorders and legal decision-making.

When courts are faced with cases in which a psychology-related question arises, they may turn to psychologists and ask for help with the case. For example, psychologists might assist the court in understanding a criminal's mental state at the time of a crime or whether a particular jury might have been biased against a defendant based on his or her race. This is the realm of forensic psychology.

This program will teach students about the various roles for psychologists in the legal system and help them discover which roles they might like to pursue through careers in mental health, criminal justice or through graduate training.

The Bachelor of Science degree differs from the Bachelor of Arts degree in that it requires two additional lab science courses.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Social Justice and Human Rights, BA (ASJHRBA)

Campus: West

Program Description:

The School of Social and Behavioral Sciences offers a BA in social justice and human rights through the New College of Interdisciplinary Arts and Sciences at ASU's West campus. This program spans the social sciences and the humanities to prepare students to meet the challenges of twenty-

first century issues of social justice and protection of human rights in local, national, international and global contexts. The degree introduces students to principles and practices of everyday humanitarianism, multimedia advocacy, and theories and practices of social justice and human rights.

Students in the program have the opportunity to select from three uniquely theoretical and applied areas of focus including:

- ☐ • advocacy and social change
- ☐ • critical trauma studies and everyday humanitarianism
- ☐ • materialism, intersectionality and inequality

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Social and Behavioral Sciences, BA (ASSBSBA)

Campus: West

Program Description:

The School of Social and Behavioral Sciences offers a BA in social and behavioral sciences in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

The social and behavioral sciences curriculum provides an understanding of assumptions underlying the social and behavioral sciences; develops the students' research skills necessary for analysis of complex social issues; offers a flexible program tailored to the career goals of the individual student; and offers individual and group experiences in working with faculty on concrete intellectual and policy issues.

The core courses provide students with a background suitable to helping them better understand psychological and social principles related to the

behavior of individuals across multiple social contexts and institutions (e.g., family, community, society and culture).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics Students who select the individual and behavior theme area will need to have completed MAT 170 in order to meet the prerequisite requirements of courses in that area.

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies, MA

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Please see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Social and Cultural Analysis (American Studies), BA (ASSCAASBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers the BA in social and cultural analysis with a concentration in American studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program engages in the transdisciplinary and comparative study of the United States as a cultural and political site of ongoing change and conflict. Students learn diverse methods of analyzing nationalist politics; public and private cultural practices; transnationalism; and the nation-making processes of migration, in keeping with the creative and critical scholarship of the discipline. The curriculum also brings attention to identity formations around gender, sexuality, race and ethnicity. As a transdisciplinary field, American studies unites the social sciences, the humanities and the arts, to stimulate students into engaging in rigorous and adventurous conversations about American culture, politics and history. Students will explore knowledge beyond disciplinary boundaries by bringing differing perspectives and understandings into dialogue with one another and generating a unique level of intellectual rigor and excitement.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Social and Cultural Analysis (Ethnicity, Race and Indigenous Studies), BA (ASSCAERBA)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in social and cultural analysis with a concentration in ethnicity, race and indigenous studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program combines transdisciplinary topics and methods to critically analyze relationships among individuals, groups, institutions, governments, economies and environments. The program enriches the study of individual racialized and indigenous groups by drawing upon theories, methods and pedagogies in ethnicity, race and indigenous studies while engaging complementary fields of literature, history, sociology, oral history, sexuality, queer studies, social justice, and transnational and cultural studies. Coursework grounds the students in a deep understanding of the particular historical, social, economic, cultural and political experiences of individual racialized groups as well as in an analysis of the relationships among them.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Social and Cultural Analysis (Latin American Studies), BA (ASSCALABA)

Campus: West

Program Description:

The School of Humanities, Arts, and Cultural Studies offers a BA in social and cultural analysis with a concentration in Latin American studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program provides a broad and vibrant framework for studying the diverse societies of Latin America, including diasporic communities, and it presents rich opportunities for cross-cultural study. The program is designed to provide a transdisciplinary approach to the literature, film, history, politics and culture of both Latin America and Latinas and Latinos living in the U.S.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Social and Cultural Analysis (Peace Studies), BA (ASSCAPSBA)

Campus: West

Program Description:

The School of Humanities, Arts, and Cultural Studies offers a BA in social and cultural analysis with a concentration in peace studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program is a unique, transdisciplinary offering that fosters a critical investigation of peace. It does so primarily through a humanities lens, but not exclusively, and it provides an analysis of peace in connection with issues such as gender, ethnicity, race and religion. Students will learn many perspectives on peace and approaches to it, including theories and practices of peace building, nonviolence, and conflict avoidance and resolution. The program builds on the expertise of faculty in the humanities and social sciences in fields such as history, linguistics, literature, ethics, philosophy, sociology, ethnic studies, and women and gender studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

There is a growing concern for peace building within social and political institutions. As a consequence, numerous jobs now exist in peace-related sectors. Graduates of this program will be prepared with the skills and knowledge necessary for graduate work as well as for careers in government, education, business and nonprofit organizations. Knowledge gained can be applied toward professional and personal advancement in education, writing, policy, law, cross-cultural communication, ethics and work with nongovernmental organizations. Due to the emphasis on the social aspects of peace, diversity, and identity, students will develop an awareness of the needs of diverse populations and the discourses that help create a culture of peace. Graduates will be able to apply their knowledge to areas as diverse as the following:

- ☐ • civil rights organizations
- ☐ • colleges and universities
- ☐ • corporations
- ☐ • government agencies
- ☐ • law firms
- ☐ • libraries
- ☐ • museums
- ☐ • nongovernmental organizations (NGOs)
- ☐ • Peace Corps
- ☐ • political action groups
- ☐ • public relation firms
- ☐ • research organizations
- ☐ • social service agencies

Social and Cultural Analysis (Queer and Sexuality Studies), BA (ASSCAQSBA)

Campus: West

Program Description:

The School of Humanities, Arts, and Cultural Studies offers a BA in social and cultural analysis with a concentration in queer and sexuality studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program combines transdisciplinary topics and methods to critically analyze the function of ideologies of sexuality; the history and present conditions of sexual identity formation; structural inequalities and queer resistance to those same inequalities; and the diversity of LGBTQA communities. Drawing from the premise that sex, gender and sexual orientation are both private experiences as well as profoundly political and public issues with important legal, social and cultural implications, the intellectual core of this program draws from theories, methods and pedagogies in queer theory and sexuality studies while engaging complementary fields of social justice, cultural studies, women's studies, gender studies, literature, history, sociology, psychology and transnational studies. Areas of emphasis include sexuality in culture, transnational queer studies, queer social movements and resistance, sexual fluidity, trans studies and critical heterosexualities.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Social and Cultural Analysis (Women and Gender Studies), BA (ASSCAWSBA)

Campus: West

Program Description:

The School of Humanities, Arts, and Cultural Studies offers a BA in social and cultural analysis with a concentration in women and gender studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program offers students a transdisciplinary curriculum that focuses on the diverse experiences of women in both national and international contexts. The program also examines the meaning of gender as a socially constructed category that shapes personal identities, beliefs, opportunities and behaviors. The wide range of classes explores the intersections of gender, race, class and sexuality; the institutional structures that have an impact on women's and men's lives; and the broad range of feminist theories that seek to explain and influence women's status in society. Areas of emphasis include gender and sexuality, critical race feminisms, gender and the borderlands, transnational feminisms, social activism and social movements, histories of feminism and critical embodiment studies.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Sociology, BA (ASSOCBA)

Campus: Lake Havasu, West

Program Description:

The School of Social and Behavioral Sciences offers a BA in sociology in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

Sociology is the study of the organization and development of societies and the institutions within them. The sociology program helps students better understand the development, structure, interaction and collective behavior of organized groups. The program explores the theories, practices, and policies underlying the issues of social change, inequality and diversity. This degree program provides training in important research skills used to describe, interpret and evaluate evidence across diverse settings and designs important in the new economy.

This is a flexible program that provides opportunities for students to work collaboratively with faculty on intellectual and policy issues and helps them develop the research skills necessary for the analysis of complex social issues.

Graduates are prepared for employment in corporate or governmental organizations or to continue their studies in graduate programs in sociology, social science or professional schools.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies, MA

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates apply the sociological perspective to a wide variety of jobs in:

- ☐ • business and management
- ☐ • government
- ☐ • social services
- ☐ • the criminal justice system
- ☐ • the health professions

Coursework in sociology provides a valuable preparation for careers in:

- ☐ • journalism
- ☐ • law
- ☐ • politics
- ☐ • public administration
- ☐ • public relations
- ☐ • nonprofit sector

These are all fields that involve investigative skills and an ability to work with diverse groups. Graduates with an advanced degree in sociology may become:

- ☐ • community activists
- ☐ • community developers
- ☐ • criminologists
- ☐ • demographers
- ☐ • gerontologists
- ☐ • organizational advocate
- ☐ • research analysts
- ☐ • statisticians
- ☐ • survey researchers
- ☐ • urban planners

Career Opportunities:

The Spanish program offers excellent preparation for graduate school or for employment as a teacher in the elementary or secondary school system, especially in those districts where bilingual programs are integral to the curricula. Outside the education system, students majoring in Spanish can find employment as translators and interpreters in:

- ☐ • diplomatic corps
- ☐ • federal and state courts
- ☐ • law enforcement agencies
- ☐ • law firms
- ☐ • social agencies

The business world also provides employment for those fluent in Spanish. This is especially true in the American Southwest, with its proximity to Mexico, and through outlets opened by the tri-national North American Free Trade Agreement.

Statistics, BS (ASSTABS)

Campus: West

Program Description:

The School of Mathematical and Natural Sciences offers a BS in statistics in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This program is the only Bachelor of Science degree in statistics in the state of Arizona.

Statisticians collect, analyze and interpret data from experiments and surveys. Their work is critical in helping individuals and organizations better understand the information contained in the data.

Emphasizing the practical application of statistics, this program builds upon the foundation of mathematics and computing to study concepts in theoretical and applied statistics.

Students must select one focus area and complete a minimum of nine credit hours (three courses) from that focus area. The focus area courses are in addition to the General Studies requirements. Students should consult with an academic advisor in the School of Mathematical and Natural Sciences before enrolling in any focus area course.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

In the era of big data, there is great demand for individuals with all levels of statistical training. Graduates of this program leave with an understanding of the transdisciplinary nature of statistics and are prepared for graduate study in statistics and related fields or for entry-level positions in a variety of fields, including business, government and the natural and social sciences.

Statisticians are in high demand in many areas of industry, government and academia. Some areas with particularly high demand include:

- ☐ • finance
- ☐ • manufacturing
- ☐ • medical
- ☐ • pharmaceutical

Women and Gender Studies, BA (ASWSTBA)

Campus:

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BA in women and gender studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This is a interdisciplinary program emphasizing intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts.

Consistent with the university's design imperatives of social embeddedness and use-inspired research, the program's course offerings, research initiatives and cocurricular programs further the understanding of women and gender and promote social justice.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Communication Studies, MA

Interdisciplinary Studies, MA

Social Justice and Human Rights, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

Women and Gender Studies, BS (ASWSTBS)

Campus: West

Program Description:

The School of Humanities, Arts and Cultural Studies offers a BS in women and gender studies in the New College of Interdisciplinary Arts and Sciences at ASU's West campus.

This interdisciplinary program has a qualitative emphasis, and explores intersectional approaches to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts.

Consistent with the university's design imperatives of social embeddedness and use-inspired research, the program's course offerings, research initiatives and cocurricular programs further the understanding of women and gender, and promote social justice. Students gain a solid knowledge base and educational foundation as well as the critical-thinking skills necessary for dealing with changing gender roles in society.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Journalism & Mass Communication, Walter Cronkite School of

Journalism and Mass Communication, BA (CSJMCBA)

Campus: Downtown Phoenix

Program Description:

The journalism major at Arizona State University's Walter Cronkite School of Journalism and Mass Communication, one of the best journalism schools in the country, is a highly professional, hands-on journalism and mass communication degree program that prepares students for careers in media.

Undergraduate students at the journalism school learn the values and principles that have long formed the core of the journalism profession, and they master the highly specialized, practical skills needed to succeed in today's digital world and start a career in journalism.

High-performing students can apply to the school's accelerated bachelor's degree and master's degree program, which allows for the completion of both degrees in five years. They can also become part of ASU's Barrett, The Honors College.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics or any MAT course that satisfies the math requirement

Program Math Intensity: General

Concurrent Degrees:

This degree is also offered as concurrent degree with:

Geography (Meteorology-Climatology), BS

Graphic Information Technology, BS

Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA

Transborder Chicana/o and Latina/o Studies (Transborder Community Development and Health), BA

Transborder Chicana/o and Latina/o Studies (US and Mexican Regional Immigration Policy and Economy), BA

Accelerated Degrees:

This degree is also offered in an accelerated format with Master of Mass Communication, MMC

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The Bachelor of Arts in journalism and mass communication degree program has higher admission requirements and an application deadline of June 1 for fall. Students should select a second choice major on the application. All applicants will be reviewed by the school. Those who are not admitted to the Cronkite School will, if eligible, be admitted to their second choice major.

Freshman applicants must meet all of the following standards:

- ☐ • have a 3.00 (4.00 = "A") ABOR GPA
- ☐ • have no English competency deficiencies
- ☐ • 1040 SAT Reasoning if taken before March 2016 or 1120 SAT Reasoning if taken after March 2016 or 22 ACT score

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- ☐ • 3.75 minimum ABOR GPA

- ☐ • no English competency deficiencies
- ☐ • 1040 SAT Reasoning if taken before March 2016 or 1120 SAT Reasoning if taken after March 2016 or 22 ACT score

Transfer Admission Requirements:

Transfer students (with 12 or more transfer hours after high school graduation) are required to have a cumulative transfer GPA of 3.00 or higher and no English competency deficiencies. Transfer students should contact the school for additional steps after admission to ASU. For more information regarding transfer admission see http://cronkite.asu.edu/undergrad/xfer_major_change.php (http://cronkite.asu.edu/undergrad/xfer_major_change.php).

Concurrent degree admission requirements:

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

Change of Major Requirements:

ASU students who would like to change their majors to journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective General Studies requirements. The course MCO 120 Media and Society, SB (3), an introductory course for nonmajors, can count in place of JMC 110 Principles and History of Journalism, SB (3). Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change their major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Sports Journalism, BA (CSSPJBA)

Campus: Downtown Phoenix

Program Description:

Sports journalism is the fastest-growing sector of the news media industry, with continued growth on all platforms: specialty magazines, multimedia outlets, and TV channels and networks. The Walter Cronkite School of Journalism and Mass Communication's sports journalism program gives students unparalleled preparation for careers in sports media and communications through courses such as sports writing, sports photography, sports strategic communications, and ethics and diversity in sports. Students in the program cover Major League Baseball spring training, the Olympics, and other major sporting events for major market media partners. Students also complete an internship and intensive professional experience in the school's sports bureau, either in Phoenix or Los Angeles.

Additional Program Fee: Y

Liberal Arts & Sciences, College of

Actuarial Science, BS (LAACTBS)

Campus: Tempe

Program Description:

The BS program in actuarial science at ASU provides the tools to succeed in this dynamic career.

Actuarial science majors learn to use tools from mathematics, statistics and finance to measure the impact of risk in order to improve forecasting and decision-making in business and government. Actuaries must pass a series of intensive professional exams to become credentialed, and this degree program prepares students for these credentialing exams.

Actuaries enjoy an excellent starting salary, exceptional job security with numerous opportunities for career growth --- and no graduate degree is required.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Risk is a part of daily life, and wherever there is risk, there are opportunities to be an actuary. Many actuaries work with insurance companies to calculate premiums, determine reserves needed to ensure an organization's financial health and to make sure organizations conform to stringent, complex legal mandates. Others help companies to establish retirement plans or are employed as consultants. With a Bachelor of Science degree in actuarial science, students acquire skills that are transferable to any industry and any organization that requires risk modeling and management, including:

- ☐ • accounting firms
- ☐ • colleges and universities
- ☐ • energy, such as utilities, oil and gas
- ☐ • environment (on issues such as climate change and the financial impact or risk of extreme events)

- ☐ • financial services, such as banking and investment management
- ☐ • government agencies such as Social Security, the Department of Labor and Medicare (to manage social programs and to develop regulations and legislation)
- ☐ • transportation, such as shipping and air travel

Students can also apply the advanced problem-solving skills learned in the actuarial science undergraduate program to a variety of other professional careers, including:

- ☐ • analysts
- ☐ • business operations specialists
- ☐ • career advisers
- ☐ • consultants
- ☐ • teachers

African and African American Studies, BA (LAAFRBA)

Campus: Tempe

Program Description:

The African and African American studies program at ASU has assembled a dynamic faculty engaged in investigating the riveting complexities of Africa. Trained in a variety of disciplines that include anthropology, health, history, journalism, literature, sociology, political science and women's studies, the faculty examine a wide array of critical issues facing African-descended peoples across the stages of life at various times and places in history. Students choose one of the following areas of concentration: African diaspora studies or African studies.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered in an accelerated format with Science and Technology Policy, MSTP

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Please see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Because of its emphasis on various social aspects and groups, the African and African American studies program provides students with practical applications useful for various workplaces. This program helps students develop cultural sensitivity and prepares them for careers in:

- ☐ • administration
- ☐ • advertising
- ☐ • business
- ☐ • counseling
- ☐ • education
- ☐ • human resources
- ☐ • international relations
- ☐ • journalism
- ☐ • justice
- ☐ • management
- ☐ • travel

The program prepares students for work in:

- ☐ • civil rights organizations
- ☐ • colleges and universities
- ☐ • corporations
- ☐ • government agencies
- ☐ • hotel chains
- ☐ • law firms
- ☐ • libraries
- ☐ • museums
- ☐ • nonprofit organizations
- ☐ • political action groups
- ☐ • public relation firms
- ☐ • research organizations
- ☐ • sales departments
- ☐ • social service agencies
- ☐ • the insurance industry
- ☐ • the Peace Corps
- ☐ • travel agencies

American Indian Studies, BS (LAAISBS)

Campus: Tempe

Program Description:

The BS program in American Indian studies provides students with unique opportunities to evaluate issues of American Indian nations within domestic and international contexts. The bachelor's degree program in American Indian studies encompasses two areas of emphasis: legal, policy, community and economic development; and arts, languages and culture. The American Indian studies program is committed to broadening the knowledge of students interested in the histories, languages, cultures, arts and contemporary situations of American Indian nations and peoples. The program is designed to protect the integrity and identity of the indigenous populations of North America and to create a learning environment conducive to critical and creative thought.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

American Indian Studies (Indigenous Rights and Social Justice), MS

American Indian Studies (Tribal Leadership and Governance), MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates of the American Indian studies program will be qualified to fill positions at the tribal, state and federal government levels and in the private sector. Graduates can advance to graduate school or can pursue professional careers in fields such as government service or public service. For example, federally and tribally operated schools located in remote areas within Indian Country have high turnover rates for both teachers and staff. American Indian studies graduates should be available to help fill these positions. Furthermore, the federal government, a major employer on many reservations across the country, is in need of qualified people who are knowledgeable of Indian cultures, laws and policies. Additionally, many American Indian nations' economies and infrastructures are developing at a rapid pace, and they are in continuous need to fill mid-management and management-level positions.

Graduates find positions in many areas, such as:

- ☐ • casino employment
- ☐ • community action work
- ☐ • public administration (tribal or state relations, nonprofit management, education administration, planner)
- ☐ • public health
- ☐ • the arts
- ☐ • tribal employment (political office, tribal management, cultural resource programming, grant writer, cultural specialist, youth services)

This program also provides suitable preparation for graduate study or law school.

Anthropology, BA (LAASBBA)

Campus: Tempe, Online

Program Description:

Anthropology helps students develop strong critical-thinking and oral and written expression skills, important for success in many career areas. The BA program in anthropology gives students an opportunity to learn how and why humans evolved and how our evolutionary biological, social and cultural trajectories help us understand the meaning of being human in past, present and future environments.

Anthropology majors learn how to use the scientific method to formulate and test hypotheses and gather qualitative and quantitative data through participant observation, interviewing, ethnographic study, careful excavation and measurement. They also learn how to employ statistics to analyze and extract meaning from data.

A special feature of the ASU anthropology program is its relevance to other disciplines and many exciting hands-on learning opportunities in laboratories and through study abroad and field-based courses.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Career Opportunities:

The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people

trained in anthropology will increasingly be sought for their broad, holistic knowledge and perspectives, which are the hallmarks of anthropology. Some career opportunities include:

- ☐ • acting as legal advocates in international cases
- ☐ • analyzing and proposing policies
- ☐ • conducting postgraduate academic research
- ☐ • consulting for private and public organizations
- ☐ • curating cultural resources
- ☐ • directing nonprofit organizations
- ☐ • directing programs in the private or public sector
- ☐ • managing culture or heritage resources in private or public sectors
- ☐ • modeling infectious diseases
- ☐ • planning communities
- ☐ • providing health care as nurses, doctors or public or global health professionals
- ☐ • teaching

Anthropology, BS (LAASBBS)

Campus: Tempe

Program Description:

Anthropology is the study of how and why humans evolved and how our evolutionary biological, social and cultural trajectories help us understand the meaning of being human in past, present and future environments. The BS program in anthropology gives students an opportunity to master anthropological or anthropologically relevant knowledge and skills through applications of the scientific method and quantitative methodologies.

In core and elective courses, the bachelor's degree program in anthropology allows students to explore problems that may require the use of theories and methods from diverse disciplines, including biology, global health, applied mathematics, psychology, economics, sociology, medicine, law and engineering. The curriculum provides many exciting, hands-on learning opportunities through laboratories, study abroad and field-based courses.

Additional Program Fee: N

Applied Mathematics for Life and Social Sciences, BS (LAAMLBS)

Campus: Tempe

Program Description:

The BS program in applied mathematics for the life and social sciences offers a challenging and exciting curriculum that investigates and integrates complex areas of the physical, life and social sciences while preparing a new generation skilled in the use of theories and techniques such as mathematical modeling and computational methods to solve practical real-world problems.

The program focuses on the development of critical-thinking skills and purposeful competencies in mathematics. It instills an appreciation for the contributions of mathematics to the fields of sciences, engineering, business, government and economics. Coursework is directed toward an understanding of mathematical theory and its relation to other fields of studies. Emphasis is placed on precision of definition, reasoning to accurate conclusions, and analyzing and developing solutions to problems using mathematical principles.

The bachelor's degree program in applied mathematics for the life and social sciences prepares students to enter the environmental, life, health, mathematical and social science fields. Graduates of the program possess the quantitative, scientific and analytical skills that are critical for professionals working in these areas.

The need for scientists and professionals quantitatively trained in the life and social sciences is strong in Arizona and the nation. This degree's applied use of mathematics, modeling, statistics and simulation methodologies are in high demand and provide excellent training for future academics and professionals in industries including:

- ☐ • astrophysics
- ☐ • biostatistics
- ☐ • chemical engineering
- ☐ • communications
- ☐ • computational biology
- ☐ • computer animation
- ☐ • data mining
- ☐ • demography

Asia Studies (South Asia), BA (LAHSTSABA)

Campus: Tempe

Program Description:

The BA program in Asia studies offers students the opportunity for in-depth study of East Asia, South Asia or Southeast Asia through a coherent curriculum of academic study across a number of disciplines. The transdisciplinary approach provides students with a variety of intellectual tools to address contemporary political, social and cultural issues in Asia and enables them to apply valuable knowledge in various academic and practical settings.

The Asia studies degree program with a concentration on South Asia includes coursework covering:

- ☐ • Bangladesh
- ☐ • India
- ☐ • Pakistan
- ☐ • other South Asian states and societies

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)
Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Please see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)

Asian Languages (Chinese), BA (LACHIBA)

Campus: Tempe

Program Description:

The BA program in Asian languages with a concentration in Chinese emphasizes proficiency in reading, writing and speaking Mandarin and in reading classical Chinese. It provides an in-depth understanding of the fundamentals of the rich Chinese cultural tradition, centered on primary Chinese texts (in Chinese and in English translation) from the literary, intellectual and religious cultures of Chinese-speaking societies. These texts include visual and written materials on these topics, among others:

- ☐ • linguistics
- ☐ • literary theory and history
- ☐ • media
- ☐ • religions and thought
- ☐ • urban culture

Students in the program have a number of available options for enhancing their education through study abroad: <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>). Highly-motivated students interested in learning Chinese to professional-level proficiency are encouraged to inquire about the Chinese Language Flagship Program: <https://international.clas.asu.edu/chineseflagship> (<https://international.clas.asu.edu/chineseflagship>). All students with higher levels of linguistic competency may enroll in targeted courses (conducted in Chinese) offered as part of the Chinese flagship track.

Additional Program Fee: N

Second Language Requirement: Yes

Asian Languages (Japanese), BA (LAJPNBA)

Campus: Tempe

Program Description:

Students in the BA program in Asian languages with a concentration in Japanese study the language, literature and culture of Japan and gain a respectable measure of competence in reading, writing, oral and aural skills in the Japanese language. Students also gain linguistic and cultural competence through the required study of classical Japanese. Throughout the program, students take courses in either Chinese or Korean language or culture and related courses in Japanese and East Asian culture on topics such as:

- ☐ • art
- ☐ • government
- ☐ • Japanese history
- ☐ • linguistics

- ☐ • literary and cultural theory
- ☐ • religion

In addition, ASU offers summer or yearlong programs to study abroad in Japan. More information on study abroad opportunities is available at <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Asian Pacific American Studies, BA (LAAPABA)

Campus: Tempe

Program Description:

The BA program in Asian Pacific American studies provides an opportunity for students to study the long history and rich contemporary experiences, cultures and communities of Asian Pacific Americans in the Southwest with dedicated, inspiring faculty. A liberal arts emphasis on critical thinking, complex reasoning and solid writing skills prepares students to engage in research that will inform meaningful dialogues between policymakers, educators and society at large about Asian American and Pacific Islander communities for years to come. The Asian Pacific American studies program is housed in ASU's School of Social Transformation, the only school of its kind in the United States.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)
Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)
International (<https://students.asu.edu/international/future>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

Students who complete the bachelor's degree program in Asian Pacific American studies may pursue a graduate degree in law, humanities or social sciences. Students will also be prepared to work in positions involving:

- ☐ • business
- ☐ • community organizations
- ☐ • creative arts
- ☐ • education
- ☐ • health
- ☐ • immigration
- ☐ • journalism
- ☐ • law

Biochemistry, BA (LABCHBA)

Campus: Tempe

Program Description:

The BA program in biochemistry provides students with a course of study in the chemical processes of living organisms. Discoveries of new drugs, the recognition and control of new pathogens, development of new catalysts for energy transformations, and the production of new materials and solutions to problems such as food production and environmental remediation depend upon a thorough grounding in this area.

This program is a flexible option for students interested in a liberal arts degree with a strong grounding in physical science. It is ideal for students seeking to complete two degrees. Students wishing to pursue a scientific graduate degree should consider the BS in biochemistry.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 251 - Calculus for Life Sciences Students may complete MAT 270 Calculus with Analytic Geometry I (4) in lieu of MAT 251 Calculus for Life Sciences (3)

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

A solid undergraduate education in biochemistry provides the necessary background for career paths in areas such as:

- ☐ • chemical industries
- ☐ • government
- ☐ • health care
- ☐ • research
- ☐ • teaching

Students often study biochemistry with supporting work in biology and chemistry as the route for preprofessional training for careers in these fields:

- ☐ • dentistry
- ☐ • medicine
- ☐ • pharmacy
- ☐ • veterinary

Biochemistry, BS (LABCHBS)

Campus: Tempe, Online

Program Description:

The BS program in biochemistry provides students with a course of study in the chemical processes of living organisms. Discoveries of new drugs, the recognition and control of new pathogens, development of new catalysts for energy transformations, the production of new materials, and solutions to problems such as food production and environmental remediation depend upon a thorough grounding in this area.

This program is appropriate preparation for further study of biochemistry or related sciences in graduate school as well as for medical, dental or pharmacy school.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biochemistry (Medicinal Chemistry), MS

Nanoscience, PSM

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(<https://asuonline.asu.edu/online-degree-programs/undergraduate/biochemistry-bs>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Central Arizona College(<https://transfer.asu.edu/tag>)

Cochise College(<https://transfer.asu.edu/tag>)

Coconino Community College(<https://transfer.asu.edu/tag>)

Dine College(<https://transfer.asu.edu/tag>)

Eastern Arizona College(<https://transfer.asu.edu/tag>)

Gila Community College(<https://transfer.asu.edu/tag>)

Mohave Community College(<https://transfer.asu.edu/tag>)

Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

A solid undergraduate education in biochemistry provides the necessary background for career paths in chemical industries, government, health care, research, teaching and other areas.

Students planning careers in medicine, dentistry, pharmacy or veterinary medicine often study biochemistry with supporting work in biology and chemistry as the route for preprofessional training.

Biochemistry (Medicinal Chemistry), BS (LABCHMBS)

Campus: Tempe

Program Description:

The science of biochemistry is about understanding the chemical processes of living organisms. Discoveries of new drugs, the recognition and control of pathogens, development of new catalysts for energy transformations, and the production of new materials and solutions to problems such as food production and environmental remediation depend upon a thorough grounding in this area.

The BS degree program in biochemistry with a concentration in medicinal chemistry features an emphasis on the application of chemistry to design and action of medicines. This program is appropriate for further study of biochemistry or related sciences in graduate school as well as medical, dental or pharmacy school.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biochemistry (Medicinal Chemistry), MS
Nanoscience, PSM

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Biological Sciences, BS (LABSCBS)

Campus: Tempe, Online

Program Description:

The life sciences delve into the basic organization and processes of life (microbes, plants and animals) at scales ranging from molecules to ecosystems and in time from picoseconds to millennia. This includes investigations into how hereditary information is transferred and how organisms evolve, the interplay of organisms and their environments, and how these factors interact in health and disease. Students interested in a degree in life sciences can opt for a BS in biological sciences or choose one of five concentrations with biological sciences:

- ☐ • biomedical sciences
- ☐ • conservation biology and ecology
- ☐ • genetics, cell and developmental biology
- ☐ • neurobiology, physiology and behavior

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biology (Biology and Society), MS

Biology, MS

Molecular and Cellular Biology, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(<https://asuonline.asu.edu/online-degree-programs/undergraduate/biological-sciences-bs>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The biological sciences major with no concentration is designed for students who are committed to studying and training in multiple disciplines in biology and students who want to get more exposure to the life sciences before deciding whether they want to declare a concentration as an undergraduate. Therefore, students in this major take core courses from several concentrations. Students in this major have more flexibility to customize their program of study so they can focus on their own area of interest that may not have a concentration, such as plant biology or genomics.

The biological science major provides an excellent foundation for graduate study as well as preparation for professional schooling in:

- ☐ • dentistry
- ☐ • medicine
- ☐ • pharmacy
- ☐ • veterinary medicine

Graduates may also enter positions in:

- ☐ • biotechnology
- ☐ • education
- ☐ • government
- ☐ • industry

Biological Sciences (Biology and Society), BS (LABSCSBS)

Campus: Tempe

Program Description:

The BS program in biology and society focuses on training biology students to understand the social context of their science, to ask how and why a biological problem has been and should be studied. Students explore the ways in which policy decisions shape and are shaped by biological research and they investigate the meaning and significance of the life sciences in understanding our complex world.

The biology and society curriculum is highly individualized. This unique degree is home to world-class researchers and teachers in diverse fields, including bioscience ethics, history and philosophy of science, science communication, science education and science policy, all brought together under one program. Students have the opportunity to work with many renowned scholars in independent study and research projects.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Biology (Biology and Society), MS
- Biology, MS
- Molecular and Cellular Biology, MS

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Biology and society students gain the historical, philosophical, political and ethical perspectives needed to explore interactions between the life sciences and related, complex human issues. As a result, the program contributes to better informed and more effective teachers, writers, policymakers, clinicians and researchers in areas related to biology, medicine and society.

As a result of the individualized, skill-based curriculum, biology and society majors are eligible for a broad range of career options. Most graduates have chosen to pursue professional degrees in medicine, law, public health or public policy, or graduate study in biology, ethics, education or history and philosophy of science. Our graduates enter the workforce, whether in academia, industry, government or clinical practice, with a deep sensitivity to the complexity of biology in society and the skill to navigate that complexity throughout their careers.

Biological Sciences (Biomedical Sciences), BS (LABSCMBS)

Campus: Tempe

Program Description:

The biomedical sciences concentration serves students in the biological sciences BS degree program who wish to pursue careers in medicine, other health professions or biomedical research in an academic, clinical or industry settings. The curriculum aligns with the broad scientific competencies recommended for premed students in a report of the American Medical Colleges and the Howard Hughes Medical Committee and reflected in the 2015 changes to the MCAT.

Coursework draws from the school's concentration in genetics, cell and developmental biology and the concentration in neurobiology, physiology and behavior, with the addition of courses in biology and in medicine and society. The concentration focuses on the chemistry, biochemistry, math and physics coursework that is necessary to prepare students for the MCAT or medical school admissions. The concentration emphasizes core concepts, competencies and critical intellectual skills necessary to succeed in medical school or biomedical research.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Upon completion of the biological sciences degree with a concentration in biomedical sciences, students will be well-equipped to enter into careers as research scientists or as scientists in the health professions. Students will have met the majority of prerequisite requirements and mastered many of the competencies valued by graduate programs in medical, dental and optometry fields or in programs which prepare students to be physician assistants or physical therapists. Additionally, graduates of this program will have an understanding of the process of science preparing them for a career in research. They will have knowledge of foundational concepts in biological sciences, chemistry, physics and statistics, as well as the ability to understand and apply core biomedical concepts. This will prepare students to enter into biology research in a vast number of areas, some of which include genetics, genomics, evolution, physiology and immunology.

Biological Sciences (Conservation Biology and Ecology), BS (LABSCCBS)

Campus: Tempe

Program Description:

Ecology is the study of the distribution and abundance of organisms, the interactions among organisms, and the interactions between organisms and the physical environment. Conservation biology is an applied science based on ecological principles that focuses on conserving biological diversity and on restoring degraded ecosystems. Arizona State University has made a commitment toward a more sustainable world, and knowledge of conservation biology and ecology is one critical component to help us meet this global challenge.

Conservation biologists at ASU investigate the impact of humans on Earth's biodiversity and develop practical approaches to prevent the extinction of species and promote the sustainable use of biological resources. Some investigate the causes of ecosystem degradation and use ecological principles to reestablish desired conditions within a range of ecosystems, including rivers, wetlands, grasslands, urban landscapes and forests.

Additional Program Fee: Y

Career Opportunities:

The curriculum prepares students for employment and provides a solid platform for students who wish to attend graduate school. The skills and concepts are preparation for careers with:

- ☐ • governmental agencies such as the Environmental Protection Agency and state game and fish departments
- ☐ • K-12 education, colleges and universities
- ☐ • nongovernmental organizations such as The Nature Conservancy and Conservation International
- ☐ • private companies focused on environmental resources, environmental law or environmental economics

The concentration can provide training in specific skills that might be needed in these areas:

- ☐ • animal and plant physiology, identification and ecology
- ☐ • behavioral ecology and population biology
- ☐ • community, ecosystem and landscape ecology

- ☐ • conservation of endangered species
- ☐ • ecology of different habitats, including cities, lakes, rivers and grasslands
- ☐ • restoration of degraded ecosystems

Biological Sciences (Genetics, Cell and Developmental Biology), BS (LABSCGBS)

Campus: Tempe

Program Description:

Genetics, cell and developmental biology are exciting, closely related areas of life science research. Genetics examines the blueprints of life (i.e., DNA sequence and gene expression) while cell biology studies the machinery of life enclosed within the boundaries of cells. Developmental biology uses genetics and cell biology to understand how genes and the environment interact to produce a whole new individual from a single cell, in addition to developmental changes that organisms undergo throughout life. Many diseases are understood through the study of genetics, cell biology and development.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Students in this concentration have a variety of career options. This degree provides the fundamental coursework necessary for admission into medical, dental, veterinarian, pharmacy or graduate schools or any of the health professions. There also are many employment opportunities that can be pursued upon receipt of the BS in this concentration:

- ☐ • animal breeder technician
- ☐ • bioinformaticist
- ☐ • biotechnologist
- ☐ • cell culture specialist
- ☐ • cloning technician
- ☐ • crime lab technician
- ☐ • cytotechnologist
- ☐ • drug design technician
- ☐ • food and drug inspector
- ☐ • genetic counselor
- ☐ • histologist
- ☐ • in-vitro fertilization technician
- ☐ • plant improvement specialist
- ☐ • teacher
- ☐ • technical writer
- ☐ • vaccine development technician

Students in this concentration learn critical-thinking skills that can be applied to many scientific problems and professions as well as to the challenges of daily life. Students are encouraged to engage in independent research projects or internship opportunities in order to develop a better sense of how science is done.

Biological Sciences (Neurobiology, Physiology and Behavior), BS (LABSCABS)

Campus: Tempe

Program Description:

Physiology is the study of how organisms regulate the flow of energy and maintain the conditions necessary for health, survival and reproduction. It might seem that physiology and behavior are quite separate fields, but physiology and behavior interact extensively to achieve common goals.

In the neurobiology, physiology and behavior concentration, students will receive a rigorous and broad education by studying behavior and physiology from the perspectives of molecular and cellular biology, evolution, organ systems (neural, endocrine, cardiovascular, respiratory, immune, etc.) and the environment. Students in this concentration also learn to apply principles from mathematics, chemistry and physics. Discoveries are made at the laboratory bench and in the field, and students in this concentration are encouraged to participate in research projects in the labs of our faculty members.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biology (Biology and Society), MS

Biology, MS

Molecular and Cellular Biology, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)

Central Arizona College(<https://transfer.asu.edu/tag>)

Cochise College(<https://transfer.asu.edu/tag>)

Coconino Community College(<https://transfer.asu.edu/tag>)

Dine College(<https://transfer.asu.edu/tag>)

Eastern Arizona College(<https://transfer.asu.edu/tag>)

Gila Community College(<https://transfer.asu.edu/tag>)

Mohave Community College(<https://transfer.asu.edu/tag>)

Northland Pioneer College(<https://transfer.asu.edu/tag>)

Pima Community College(<https://transfer.asu.edu/tag>)

Tohono O'odham Community College(<https://transfer.asu.edu/tag>)

Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The broad education and critical-thinking skills students receive in this concentration are well suited for a variety of rewarding careers. Premedical, preveterinary and pre dental students get the background and courses needed for professional school application and beyond. Many students go on to graduate school for academic, teaching or research careers in areas such as:

- ☐ • endocrinology
- ☐ • environmental or behavioral physiology
- ☐ • human physiology
- ☐ • metabolism
- ☐ • neurobiology
- ☐ • social behavior

With a BS in this concentration, there are opportunities for technical positions in hospitals, research institutes and industry (food, dairy, chemical, pharmaceutical and biotechnology) as well as in government laboratories and agencies. The most important skills students learn in the concentration are critical-thinking and problem-solving skills that can be applied to many scientific problems and professions as well as to the challenges of daily life.

Biophysics, BS (LABIPHBS)

Campus: Tempe

Program Description:

Biophysics uses the methods and theories of physics to study biological systems. The BS program in biophysics is a transdisciplinary program, providing students with a working understanding of the important principles of physics, chemistry and biology that govern all scales of biological organization, from the molecular processes of life to organisms and ecosystems.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)

Chemistry, BA (LACHMBA)

Campus: Tempe

Program Description:

Chemistry is concerned with the composition, properties and reactions of matter. The BA program in chemistry provides the fundamental knowledge and skills necessary to address scientific needs of society in transdisciplinary areas such as energy and sustainability, medicine and health, materials and nanoscience, geologic and biospheric science, frontiers of chemical measurement, and fundamental molecular science.

This Bachelor of Arts degree in chemistry is a flexible option for students interested in a liberal arts degree with a strong grounding in physical science. It is ideal for students seeking to complete two degrees. Students pursuing a bachelor's degree in chemistry have opportunities to explore interests in analytical, inorganic, organic and physical chemistry as well as biochemistry, geochemistry, solid-state and materials chemistry. Students wishing to pursue a scientific graduate degree should consider the BS in chemistry.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Northland Pioneer College(<https://transfer.asu.edu/tag>)

Pima Community College(<https://transfer.asu.edu/tag>)

Tohono O'odham Community College(<https://transfer.asu.edu/tag>)

Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

A solid undergraduate education in chemistry provides the necessary background for many career paths in chemical industries, government and other areas. Chemistry can be combined with law for patent work, with economics for sales and marketing careers, and with computer science for careers in information storage and retrieval. Students planning careers in medicine, dentistry or veterinary medicine often pursue a course of study in chemistry with supporting work in biology as the route for preprofessional training.

Chemistry, BS (LACHMBS)

Campus: Tempe

Program Description:

Chemistry is concerned with the composition, properties and reactions of matter. The BS program in chemistry provides students the knowledge and skills necessary to address contemporary scientific challenges in transdisciplinary areas such as energy and sustainability, medicine and health, materials and nanoscience, geologic and biospheric science, frontiers of chemical measurement and fundamental molecular science.

Students complete coursework in the foundational chemistry disciplines of biochemistry and analytical, inorganic, organic and physical chemistry as part of a curriculum approved by the American Chemical Society. This degree is appropriate for further study of chemistry or other physical sciences in graduate school or for scientific careers.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Chemistry (Environmental Chemistry), BS (LACHMEBS)

Campus: Tempe

Program Description:

The BS in chemistry with an environmental chemistry concentration is a transdisciplinary degree program that combines training in the traditional disciplines of chemistry with related environmental sciences courses from geology, mathematics and physics. Discoveries of new materials, processes and solutions to problems such as pollution control and climate change depend upon a thorough grounding in this area of science.

This program prepares students to become scientists and leaders in solving environmental problems and serves as excellent preparation for a career in environmental science or further study of physical sciences in graduate school.

Communication, BA (LACOMBA)

Campus: Tempe

Program Description:

The BA degree program in communication at ASU's Tempe campus focuses on how message processes create, maintain and transform identities, relationships, workplaces and communities. This program provides a culturally based liberal arts focus with a second-language requirement. Such courses and activities will allow students to explore many fascinating questions, such as how messages can optimally advocate for a cause, sports team or organization; how people can communicate creatively in a variety of settings and styles; how valid messages differ from invalid messages; how and why cultural differences make communication difficult; and why some topics are difficult to discuss and consistently lead to conflict.

Through rigorous coursework and rewarding applied experiences, graduates gain effective communication skills that are highly sought by employers. Students learn to write and speak effectively and are able to convey complex ideas simply. They are prepared for employment in communication-intensive fields or for graduate study.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students who have attended ASU in the past and who are returning to the university with transfer work must have a minimum 2.50 ASU cumulative GPA in order to be admitted into the Hugh Downs School of Human Communication.

Transfer Admission Requirements:

Students who are transferring into ASU must have a minimum transfer GPA of 2.50 in order to be admitted to the Hugh Downs School of Human Communication.

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Communication, BS (LACOMBS)

Campus: Tempe, Online

Program Description:

The BS program in communication at ASU's Tempe campus focuses on how message processes create, maintain and transform identities, relationships, workplaces and communities. This degree program provides a liberal arts grounding and a social science focus. Such courses and activities will allow students to explore many fascinating questions, such as:

- ☐ • In what ways can messages convince people to eliminate negative health behaviors?
- ☐ • Why are some topics difficult to discuss and consistently lead to conflict?
- ☐ • Why do some relationships flourish while others fade away?
- ☐ • Why do people differ in how committed they are to their work?
- ☐ • When, how and why do cultural differences make it difficult to communicate?

Through rigorous coursework and rewarding applied experiences, graduates gain effective communication skills that are highly sought by employers. Students learn to write and speak effectively and to convey complex ideas simply, preparing them for employment in a variety of career fields or for graduate study.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students who have attended ASU in the past and who are returning to the university with transfer work must have a minimum 2.50 ASU cumulative GPA in order to be admitted into the Hugh Downs School of Human Communication.

Transfer Admission Requirements:

Students who are transferring into ASU must have a minimum transfer GPA of 2.50 in order to be admitted to the Hugh Downs School of Human Communication.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-communication?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Computational Mathematical Sciences, BS (LACMSBS)

Campus: Tempe

Program Description:

New technologies, from smartphones to DNA sequencers, are changing the way people live, and the science behind these innovations owes a lot to computational mathematics.

This cutting-edge bachelor's degree program is a fusion of mathematics, science and computing. Students in the BS program in computational mathematical sciences learn how to translate problems in science and engineering into mathematical problems and solve them using computing algorithms. They develop strong problem-solving, analytical and programming skills as they work across diverse areas of science and mathematics.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered in an accelerated format with Mathematics, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

In a recent study, mathematics, computer science, applied mathematics and statistics all ranked among the top 15 most valuable college majors in terms of salary and career prospects. The computational mathematical sciences program brings all these disciplines together.

A bachelor's degree in computational mathematical sciences is one of the most versatile math degrees, offering students many career options. The degree positions students for careers in computer technology, business, medical research, teaching and education, engineering and more. Some students pursue graduate opportunities in areas such as biophysics, economics, medicine, statistics and law. Diverse areas of study such as cancer modeling, weather forecasting and financial modeling all involve computational mathematical sciences.

Earth and Environmental Studies, BA (LAEESBA)

Campus: Tempe

Program Description:

The BA program in earth and environmental studies provides a foundational understanding of the evolution of the earth system with an emphasis on the planetary context for sustainable human societies. The degree program includes broad training in the physical sciences, especially process-oriented geosciences that focus on Earth's life-sustaining surface environment. Advanced courses focus on topics including:

- ☐ • climate change
- ☐ • Earth's water, energy and material resources
- ☐ • impact of land-use change on human civilization
- ☐ • physical, chemical and biological process interactions that define Earth's evolution

This is designed as a liberal arts program with an emphasis on basic scientific literacy, not as a preparatory degree program for graduate study in the natural sciences. However, successful earth and environmental studies graduates will be well prepared for green energy career opportunities such as:

- ☐ • education
- ☐ • environmental reporting
- ☐ • natural resource management
- ☐ • public planning
- ☐ • sustainability

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

Students must be in good academic standing at ASU in order to declare a major in earth and environmental studies. Please see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)

Cochise College(<https://transfer.asu.edu/tag>)

Coconino Community College(<https://transfer.asu.edu/tag>)

Dine College(<https://transfer.asu.edu/tag>)

Eastern Arizona College(<https://transfer.asu.edu/tag>)

Gila Community College(<https://transfer.asu.edu/tag>)

Mohave Community College(<https://transfer.asu.edu/tag>)

Northland Pioneer College(<https://transfer.asu.edu/tag>)

Pima Community College(<https://transfer.asu.edu/tag>)

Tohono O'odham Community College(<https://transfer.asu.edu/tag>)

Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

With a breadth of knowledge and experience and the acquired skills to integrate various domains of knowledge, graduates of the earth and environmental studies program are prepared for a variety of careers that help find solutions to tomorrow's environmental and sustainability challenges. Chief among these are careers in the following settings:

- ☐ • consultancy
- ☐ • education
- ☐ • governmental agencies
- ☐ • industry
- ☐ • museums
- ☐ • nongovernmental organizations
- ☐ • nonprofit organizations
- ☐ • publishing
- ☐ • regulatory agencies

- • utilities

Recent environmental awareness in business and government has also resulted in new employment opportunities (e.g., environmental coordinators, directors and managers). Graduates are also well-prepared for admission to strong professional schools in fields outside the natural sciences.

Earth and Space Exploration, BS (LASESBS)

Campus: Tempe

Program Description:

The BS program in earth and space exploration offers students an integrated education across earth sciences, planetary sciences, astrophysics and engineering. The degree program incorporates a learning community that includes science and engineering students, a yearlong collaborative capstone senior exploration project and strong quantitative preparation.

This strong foundation in geosciences, astrophysics and exploration engineering will prepare students for key roles in:

- • earth resources and exploration
- • environmental and geologic engineering
- • space research and industry
- • water and environmental use policy

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The earth and space exploration major addresses critical future shortfalls in the national and regional training of the next generation of geoscientists and aerospace engineers. Arizona has an expanding space industry with major new investments and is prepared to engage new technologies to monitor and understand environmental issues in Arizona, the Southwest and throughout the world. Students who major in earth and space exploration will have the tools, knowledge and understanding to address key problems of a global nature, whether they are working in the private or public sector.

Earth and Space Exploration (Astrobiology and Biogeosciences), BS (LASESABBS)

Campus: Tempe

Program Description:

Astrobiology studies the origins, evolution, distribution and future of life in the universe. Biogeoscience focuses on the interaction of biological and geological processes on Earth at present and in the geologic past. These topics are closely related because the concepts of biogeoscience inform the study of planetary habitability and the search for habitable worlds. Therefore, the astrobiology and biogeoscience concentration in earth and space exploration is designed to offer students a strong foundation for exploring the interaction of geological and biological processes, how such interactions sustain life on Earth, and how they might operate on other planets. This scientific background is needed to contribute to the search for life on other planets as well as the exploration of extreme environments here on Earth. It also provides training in the interplay of forces that impact global change.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I or MAT 270

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

Students in the astrobiology and biogeosciences program will be well-prepared for graduate studies in this field. Because astrobiology is increasingly the motivation for NASA exploration missions, they will also be well-suited for entry-level careers at NASA research centers. The degree program also provides broad training across a range of science fields, giving students a strong background for careers in biomedical, environmental or sustainability areas.

Earth and Space Exploration (Astrophysics), BS (LASESABS)

Campus: Tempe

Program Description:

The BS in earth and space exploration with a concentration in astrophysics is designed to offer students a fundamental grounding in astronomy and astrophysics, with exposure to the related fields of geology, planetary science and engineering. Students will emerge from this program with the skills to pursue a career in astrophysics, physics or related fields.

The rigorous coursework includes a combination of physics courses taught in the School of Earth and Space Exploration and the Department of Physics. Students should graduate from the program with the ability to compete at the national level on standardized physics exams. The tools of astronomical discovery are increasingly dependent on technological advances so students will be exposed to engineering principles. Through the capstone project in the senior year, students will gain valuable experience in translating science drivers into engineering solutions.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I or MAT 265 Calculus for Engineers I

Program Math Intensity: Substantial

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Career opportunities include but are not limited to:

- ☐ • aerospace engineer
- ☐ • astrobiologist
- ☐ • astronomer
- ☐ • computer programmer
- ☐ • data analyst
- ☐ • instrumentation specialist
- ☐ • planetary scientist
- ☐ • science policy intern
- ☐ • science writer
- ☐ • teacher
- ☐ • telescope operator

Career settings include:

- ☐ • federal government
- ☐ • K-12 schools
- ☐ • manufacturing
- ☐ • museums
- ☐ • NASA facilities
- ☐ • national laboratories
- ☐ • NSF facilities
- ☐ • observatories
- ☐ • planetariums
- ☐ • publishing
- ☐ • space industries
- ☐ • universities and colleges

Some of the listed careers may require advanced degrees or additional certifications. This program also provides suitable preparation for graduate study.

Earth and Space Exploration (Exploration Systems Design), BS (LASESESDBS)

Campus: Tempe

Program Description:

The exploration systems design concentration offers students a fundamental curriculum in geology, physics and astrophysics while providing tools that enable them to design and build hardware and software to achieve specified scientific goals.

At the heart of the program is a sound grounding in the fundamentals of physics, mathematics and chemistry. Upon that foundation, students explicitly tackle issues concerning hardware design and instrument assembly and, ultimately, how to knit these components together when conceiving the requirements needed for a mission or project destined for space or another planet.

As part of this degree program, each student will have the opportunity to learn how projects and missions are designed and planned, starting with the scientific drivers and then defining engineering specifications. All students are expected to complete a senior project that takes a desired scientific measurement and realizes the technological solution to achieve the observation.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I or MAT 270 Calculus with Analytic Geometry I

Campus: Tempe

Program Description:

Geological science is the study of the Earth and other planets with an emphasis on the processes that have shaped them since the origin of the solar system. Students explore topics such as the co-evolution of life, oceans, atmosphere and the Earth's climate system, and the record of that evolution encoded in rocks, soil, ice and isotopes.

The BS program in earth and space exploration with a concentration in geological sciences educates students in the fundamentals of the geological sciences, providing a solid background in chemistry, mathematics and physics as well as transdisciplinary training in engineering, astronomy and planetary science.

Students gain a strong understanding of field methods as well as modern computing, remote sensing and instrumentation in order to effectively study the natural environment and Earth's resources. Graduates of the program can apply their knowledge for the benefit of Arizona, the nation and society in general.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 265 - Calculus for Engineers I or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)

Central Arizona College(<https://transfer.asu.edu/tag>)

Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)

Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Sample careers include:

- ☐ • environmental geologist
- ☐ • geological engineer
- ☐ • geologist
- ☐ • mining geologist
- ☐ • petroleum geologist
- ☐ • science policy intern
- ☐ • science writer

Sample career settings include:

- ☐ • environmental industry
- ☐ • geotechnical industry
- ☐ • mining and petroleum industries
- ☐ • museums
- ☐ • publishers

Some of the listed careers may require advanced degrees or additional certifications. This program also provides suitable preparation for graduate study.

Economics, BS (LAECNBS)

Campus: Tempe

Program Description:

The mission of the Department of Economics at ASU is to provide the highest quality instruction to students, conduct cutting-edge research in economics, and provide leadership and service to our professional communities. The department's undergraduate program aims to provide students with the critical-thinking and communication skills needed to succeed in business, government or graduate school.

The BS in economics is built on a strong core of economic theory, supplemented by mathematics and data analysis. All students are encouraged to develop programs of study tailored to their individual needs and interests. Students choose from a variety of courses within the department as well as from the College of Liberal Arts and Sciences and the university to broaden their knowledge and skills and individualize their learning experience.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 270 - Calculus w/Analytic Geometry I
Program Math Intensity: Moderate

Admission Requirements:

Economics (Politics and the Economy), BS (LAECNPECBS)

Campus: Tempe

Program Description:

The concentration in politics and the economy serves undergraduate students in the BS program in economics who wish to pursue careers in business, economic and political consulting, political science, law and government. In addition to coursework drawn from economics, the concentration also requires coursework that highlights the impact of government policies on the economy and the conditions under which government interventions may be warranted. Students take political science courses that provide a deep understanding of political processes and institutions as well as methodologies for understanding that behavior.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Students graduating with a bachelor's degree in English with a concentration in secondary education will have tremendous opportunities for employment. With more than one million students in a state ranked seventh in the nation in population growth, the need for certified teachers in Arizona is self-evident. Arizona State University provides more of those teachers than any other institution of higher education. In the last 15 years, ASU graduates have had their pick of teaching jobs around the valley and around the state. After student teaching in school districts in the greater Phoenix area or in one of the 22 Native American nations in the state, students are often hired to teach in the same school in which they completed their internship. New teachers will continue to be in demand because the predicted rate of population growth in Arizona is still strong and the retirement rate of teachers is increasing.

English (Writing, Rhetorics and Literacies), BA (LAENGWBA)

Campus: Tempe

Program Description:

Undergraduate students can pursue BA degrees in English with concentrations in creative writing; linguistics; literature; secondary education; and writing, rhetorics and literacies. A bachelor's degree in English is also offered completely online.

The concentration in writing, rhetorics and literacies teaches students strategies for inquiry. Students will study the ways in which communication has, does and will create knowledge and action, and they will study how communication is constructed, circulated, reacted to and repurposed through time and place. Through differing tools of inquiry, students will study the history, theories and methods of inquiry as well as pragmatic and social actions of rhetoric, writing and literacies.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change their major to this program.

Career Opportunities:

Career opportunities are vast for this concentration: in business, private companies, government, nonprofit organizations --- anywhere where critical inquiry, innovative thinking, communication, decision-making, future studies and collaboration are valued and needed. This program will also

prepare students for further education in teaching, law and other professional programs.

Family and Human Development, BS (LAFASBS)

Campus: Tempe, Online

Program Description:

The BS program in family and human development offers coursework on the development of individuals and families as they relate to their social worlds. A required concentration in family studies and child development provides a firm foundation for more individualized studies on contemporary issues related to human development from infancy through the end of the life span and on the development, formation and dissolution of families. Students develop proficiency in written communication, computer skills, statistics and research methods.

Film (Film and Media Studies), BA (LAFMSBA)

Campus: Tempe, Online

Program Description:

The BA in film and media studies is an innovative program in the study of film, television, computer games, the Internet and screenwriting.

This program provides students with the analytic, creative and communication skills needed to interpret and create media texts, and it prepares students for opportunities in the entertainment industry as executives, producers and writers. The major in film and media studies empowers students to be critical consumers of media, creative industry professionals and rigorous scholars of media texts and culture.

French, BA (LAFREBA)

Campus: Tempe

Program Description:

The BA in French offers the opportunity to study the language, literature and culture of France and francophone countries. Students gain competence in reading, writing, oral and aural skills in the French language and take a number of related courses on topics such as:

- ☐ • art
- ☐ • cinema
- ☐ • colonization
- ☐ • government and political science
- ☐ • history and civilization
- ☐ • international business
- ☐ • linguistics
- ☐ • literature and theater
- ☐ • popular culture
- ☐ • religion

Students are encouraged to join the French Club to help them gain proficiency in the language. In addition, the School of International Letters and Cultures offers faculty-directed summer study abroad programs in France and Quebec, Canada, and it endorses partnership and exchange programs in francophone Africa, Canada and Europe. More information on study abroad opportunities is available at <https://silc.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages> (<https://silc.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages>).

Geographic Information Science, BS (LAGISBS)

Campus: Tempe

Program Description:

The BS degree in geographic information science focuses on the computational dimension of geographic information system technology. Students in the program will learn:

- ☐ • commercial and open source GIS and related software
- ☐ • computational principles in GIS
- ☐ • concepts in spatial thinking and geographic problem solving
- ☐ • mathematical and statistical spatial modeling
- ☐ • programming in multiple languages (e.g., Java, C++, and Python)

These essential programming skills combined with GIS knowledge will form the basis for designing and implementing GIS software.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Career opportunities are found in private and public sectors in the GIS and computer science worlds. In the private sector, students may find employment with top software development companies. Job activities range from designing desktop systems and implementing Web and mobile applications to developing workflow systems. Public sector job activities, such as with local or national governmental agencies, involve customizing desktop and project management systems as well as spatial models and systems, including both Web and mobile applications.

Geography, BA (LAGCUBA)

Campus: Tempe, Online

Program Description:

The BA program in geography teaches students to see the world through the twin lenses of space and place.

Geographers have a unique spatial perspective in understanding the modern world, from global to local. The Bachelor of Arts program in geography emphasizes humanistic and cultural traditions. Students pursuing undergraduate studies in geography typically concentrate knowledge-building in understanding various cultural phenomena or in studying regions such as:

- ☐ • Africa
- ☐ • Asia
- ☐ • Australia and Oceania

- ☐ • Europe
- ☐ • Latin America
- ☐ • North America

Geography (Meteorology-Climatology), BS (LAGCUMBS)

Campus: Tempe

Program Description:

The meteorology-climatology concentration under the BS in geography is designed to meet the requirements for certification as a meteorologist by the National Weather Service. It covers dynamic as well as synoptic meteorology.

Required courses include:

- ☐ • atmospheric physics
- ☐ • operational weather forecasting
- ☐ • three semesters of calculus
- ☐ • two semesters of calculus-based physics

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Substantial

Concurrent Degrees:

This degree is also offered as concurrent degree program with Journalism and Mass Communication, BA

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- ☐ • 3.75 minimum ABOR GPA
- ☐ • no English competency deficiencies
- ☐ • 1040 SAT Reasoning or 22 ACT score

Transfer Admission Requirements:

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective General Studies requirements.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Students successfully completing the program have found employment with:

- ☐ • airlines
- ☐ • energy power companies
- ☐ • government agencies
- ☐ • military (meteorology and pilot training)
- ☐ • National Weather Service

This program also provides suitable preparation for graduate study in either meteorology or climatology.

Geography (Urban Studies), BS (LAGCUUBS)

Campus: Tempe

Program Description:

Geographers have a unique spatial perspective in understanding the modern world, from global to local, through the twin lenses of space and place.

The urban studies concentration under the BS program in geography applies the tools of geography to the study of urban areas. Students have an opportunity to focus in particular on the Phoenix metropolitan area and other rapidly urbanizing regions in arid climates. Tied with geographic information science, the urban studies major brings both knowledge and skill sets together in a powerful way.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Students successfully completing the program pursue employment with city planning agencies as well as other government entities at various levels (county, state, federal). The urban studies concentration, especially when combined with a focus on geographic information science, gives graduates an advantage in careers that combine urban planning with GIS and in other jobs dealing with urban issues, including:

- ☐ • economic development planning
- ☐ • GIS databases for city governments
- ☐ • housing issues
- ☐ • sustainable planning
- ☐ • transportation

German, BA (LAGERBA)

Campus: Tempe

Program Description:

Students in the BA in German study the language, literature and culture of German-speaking people and gain a respectable measure of competence in reading, writing, oral and aural skills in the German language. Students broaden and deepen their studies with related courses on topics such as:

- ☐ • art
- ☐ • government
- ☐ • history
- ☐ • international business
- ☐ • linguistics
- ☐ • literature and culture
- ☐ • religion

Students are encouraged to study abroad in Germany as participants in the School of International Letters and Cultures faculty-directed summer program in Regensburg or in one of the academic-year exchange programs available at several German universities. More information on study abroad opportunities is available at <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Additional Program Fee: N

Second Language Requirement: Yes

Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Knowledge of multiple languages and intercultural competencies enhance any occupation and offer graduates many career opportunities.

Language-intensive careers include:

- ☐ • foreign correspondent or media professional
- ☐ • foreign service officer
- ☐ • health professional
- ☐ • intelligence officer
- ☐ • international banking and finance professional
- ☐ • international businessperson
- ☐ • language teacher
- ☐ • law and immigration professional
- ☐ • multilingual administrative professional
- ☐ • NGO professional
- ☐ • professor of language, literature and culture
- ☐ • social services professional
- ☐ • translator or interpreter
- ☐ • travel professional

Career fields in which knowledge of multiple languages and cultures is valued include:

- ☐ • advertising, marketing and communications
- ☐ • airline industry
- ☐ • film, television and multimedia
- ☐ • hospitality industry
- ☐ • hotel and resort management
- ☐ • international education and study abroad administration
- ☐ • international law
- ☐ • lifestyle management
- ☐ • military
- ☐ • ministry
- ☐ • public relations
- ☐ • publishing
- ☐ • technology industries

Additional education and certification may be required for some career paths.

Global Health, BA (LASSHBA)

Campus: Tempe, Online

Program Description:

The BA in global health is a transdisciplinary degree program designed for students who seek a broad and flexible set of skills for understanding contemporary health challenges and thinking about how they might best be solved. Global is understood in the anthropological sense, meaning ways of understanding and addressing disease, health and well-being that can incorporate all cultures, places and time and that can integrate knowledge of health's social, historical, biological and ecological dimensions.

The curriculum emphasizes the development of core skills in critical thinking, problem-solving and the importance of direct experience (research, study abroad, service learning and advocacy). The program cultivates capacities to deal with any complex problem with social components: how to identify the critical issues, ask the right questions and create solutions that are meaningful and effective.

Students are required to participate in an approved global health study abroad program.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered in an accelerated format with Global Health, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with skills. The major supports the goals of those pursuing careers in academic research, teaching and health services. Sample employment venues include:

- ☐ • departments of health
- ☐ • government agencies
- ☐ • international agencies (World Health Organization, Center for Disease Control, Global Health Council, World Bank, Inter-American Development Bank)
- ☐ • nongovernmental organizations
- ☐ • private sector
- ☐ • universities

The degree also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

- ☐ • dentistry
- ☐ • medicine
- ☐ • nursing
- ☐ • pharmacy

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations (such as migrants, minorities and those living in poverty), and many of these jobs are directly or indirectly related to health.

Global Studies, BA (LASGSBA)

Campus: Tempe, Online

Program Description:

Global studies examines the causes and consequences of problems that cross national boundaries and the governance of these problems in social, cultural and economic contexts. The major aims to address real-world problems and their solutions. This mission is enabled by an internationally recognized faculty that has extensive global experience from a wide variety of disciplines in the social sciences, humanities and law. The global studies program uses teaching, research and public policy activities to address some of the most challenging issues that include:

- ☐ • built environments
- ☐ • economic and social development
- ☐ • global cities and urbanization
- ☐ • global governance of health and climate change
- ☐ • justice and human rights

- ☐ • religious identities, rights and conflicts
- ☐ • world culture

Global studies faculty members orient their work toward solving global problems by drawing on expertise in diverse disciplines, including:

- ☐ • anthropology
- ☐ • economics
- ☐ • geography
- ☐ • history
- ☐ • law
- ☐ • planning
- ☐ • political science
- ☐ • sociology

Additional Program Fee: N

History, BA (LAHISBA)

Campus: Tempe, Online

Program Description:

Students pursuing the BA in history study the growth and development of human society from political, social, economic and cultural perspectives. Students learn to craft stories from materials other people have left behind --- constitutions, land deeds, diaries, guns and bones. They learn to make decisions about what to investigate, about whom to believe, about what happened first, and about why things fell apart or came together.

History is a discipline that constantly adopts new techniques of analysis and new ways of gathering and presenting information. Students of history learn to use and create digital media, to perform quantitative as well as qualitative analysis, and to present their findings in compelling ways to all kinds of audiences.

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

History majors are in demand. They know how to find and evaluate evidence, form arguments and present analysis --- skills essential to most careers including law, business, education, medicine and government.

Three out of four employers surveyed by the Association of American Colleges and Universities say they want colleges to place more emphasis on helping students develop five key learning outcomes: critical thinking, complex problem-solving, written communication, oral communication and applied knowledge in real-world settings. These learning outcomes are integral elements of an undergraduate degree in history.

History majors seek jobs in:

- ☐ • business and industry
- ☐ • communications
- ☐ • education
- ☐ • foreign service
- ☐ • law enforcement
- ☐ • museums
- ☐ • public administration
- ☐ • social services

History is an excellent foundation for graduate and professional studies in:

- ☐ • business

- ☐ • history
- ☐ • justice studies
- ☐ • law
- ☐ • medicine
- ☐ • public administration
- ☐ • public history
- ☐ • theology

History (Secondary Education), BA (LAHISSEBA)

Campus: Tempe

Program Description:

The secondary education concentration within the BA in history offers a flexible degree for students who are considering a career in education. The concentration fully prepares students for teaching and certification. At the same time, the concentration provides all the disciplinary knowledge of a traditional history degree and prepares students for a variety of noneducation careers. By developing strong critical reading, writing and research skills as well as skills in oral presentation, the concentration creates a solid foundation for graduate work in history, law or business.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

The combination of courses within the secondary education concentration offers a broad education that prepares students for careers in a variety of fields, including:

- ☐ • archival research
- ☐ • business and industry
- ☐ • education
- ☐ • law enforcement
- ☐ • public history
- ☐ • publishing
- ☐ • social work

Integrated Studies, BA (LAISTBA)

Campus: Tempe

Program Description:

The integrated studies program is a unique and highly focused individualized plan of study for students whose academic interests are not served by more traditional disciplinary pursuits. Developed for academically superior students whose interests lie beyond established departmental emphases and boundaries, the integrated studies program provides students the opportunity to work one-on-one with faculty mentors to create a personalized and individually tailored bachelor of arts plan.

Students who are approved to develop an integrated studies major will pursue a focused and coherent course of study that draws its curricula from more than one academic department or college.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Not available to freshmen. There is an additional application for this degree. Admissions consist of completion of 32 credit hours at ASU with a GPA of at least 3.25 and three letters of recommendation from ASU faculty members. For more information contact the assistant dean for academic affairs, Office of Student and Academic Programs, Fulton Center, Suite 110.

Change of Major Requirements:

This degree program is only for students who have earned at least 32 graded credit hours at ASU, who have a cumulative GPA of 3.25, and whose study interests are not met by an already-existing major offered by Arizona State University. Students who meet the above qualifications and who have faculty mentors in their areas of interest are invited to meet with the Office of Student and Academic Programs in the College of Liberal Arts and Sciences to discuss the possibility of being allowed to pursue this opportunity. Appointments may be scheduled by calling (480) 965-6506.

Career Opportunities:

The professional and vocational opportunities provided by the integrated studies major will depend on the area of concentration and the particular focus of study. The integrated studies major shares with all other liberal arts and sciences programs in the goal of developing students' analytical abilities and communication skills. The program combines breadth of learning across multiple disciplinary contexts with an appropriate depth in a focused area of inquiry. Integrated studies graduates are prepared to enter the work force or pursue graduate or professional studies at the completion of their undergraduate program.

International Letters and Cultures, BA (LASLCBA)

Campus: Tempe

Program Description:

The BA in international letters and cultures is a degree grounded in the advanced study of at least one foreign language. It is more transcultural and transdisciplinary than a traditional languages and literature degree program and is designed to encourage students to explore and challenge the traditional boundaries of cultures, texts and disciplines. Students work closely with faculty and advisors to choose a program that combines study and research in a minimum of two cultures or disciplines, or in both.

Students must meet with an advisor in the School of International Letters and Cultures to discuss this degree option; it is not recommended for first-year students.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

International Letters and Cultures (Classical Civilization), BA (LASLCVBA)

Campus: Tempe

Program Description:

Classics is a transdisciplinary field that includes the study of the literature, art, history and philosophy of the ancient Greeks and Romans, subjects

which fueled the Renaissance and have continued to provide an intellectual foundation for innovative and influential people ever since.

ASU's BA program in international letters and cultures with a concentration in classical civilization provides a thorough grounding in the culture and history of the ancient Greeks or Romans while allowing students to satisfy their language requirement. The degree begins with two cores: an introduction to ancient Greek and Roman literature (read in English translation) and knowledge of ancient history. With that basis, students are allowed to build a program to meet their needs and interests. Among the variety of topics students pursue are:

- • ancient history, war, politics and economics
- • archaeology of the ancient Mediterranean world
- • art and architecture of the ancient Egyptians, Greeks and Romans
- • mythology and religious practices of the Greeks and Romans
- • thought of figures such as Plato, Aristotle and Lucretius
- • use of the classics in today's film, books and other media

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

College graduates with a degree in the classics have developed skills in research and the precise use and analysis of language that will serve them well in a wide range of fields. The transdisciplinary study of a culture very different from the modern world, yet lying at the root of it, also fosters a student's ability to view issues from many angles and think critically about them. Classics graduates often find careers in:

- ☐ • business
- ☐ • Christian ministry
- ☐ • film, television and multimedia
- ☐ • law
- ☐ • politics
- ☐ • education
- ☐ • writing and editing (fiction, journalism, technical writing)

As many employers are well aware, a classics graduate has the training to solve difficult puzzles, to see through obscure language, and to conduct rigorous research on often ill-defined problems. These skills are prized in any field of endeavor.

Italian, BA (LAITABA)

Campus: Tempe

Program Description:

The BA in Italian offers students an opportunity to study the literature and culture of Italy while gaining a respectable measure of competence in reading, writing, oral and aural skills in the Italian language. Students broaden their knowledge by completing a number of related courses on topics such as:

- ☐ • art
- ☐ • film
- ☐ • government
- ☐ • history
- ☐ • literature and culture
- ☐ • religion

Faculty-directed summer programs in Italy are available for students who wish to study the language and culture while living in the country. Study abroad programs in various cities in Italy are also available during the academic year.

More information on study abroad opportunities may be found at <https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages> (<https://international.clas.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages>).

Jewish Studies, BA (LAJSTBA)

Campus: Tempe

Program Description:

The BA in Jewish studies offers a transdisciplinary, cross-cultural program of study focusing on the study of Judaism, defined as the civilization of the Jews. It considers Jewish history and modern life and facilitates enhanced cultural awareness and global perspective. As with other degree programs in the humanities, a bachelor's degree program in Jewish studies can provide a balance to studies in contemporary science and technology.

Students choose a thematic concentration from history and society, literature and culture, or religion and thought.

Additional Program Fee: N

Second Language Requirement: Yes

Justice Studies, BS (LAJUSBS)

Campus: Tempe, Online

Program Description:

Justice studies is an innovative social science program examining current social justice issues, such as human rights, domestic violence and immigration, against a backdrop of legal systems, law and culture. The BS degree in justice studies equips students with a dynamic knowledge of the world's justice systems and gives them the skills to create meaningful, real-world change emphasizing quantitative skills. Students learn about statistics and research methods to understand social justice issues in diverse settings.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Justice Studies, MS

Science and Technology Policy, MSTP

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Mathematics, BA (LAMATBA)

Campus: Tempe

Program Description:

Math is the science of problem-solving. Students in the BA degree program in mathematics will be able to apply the critical-thinking and problem-solving skills they learn to many endeavors, because math is a crucial component in engineering, life sciences, business, economics and social sciences. In the bachelor's degree program in mathematics, students acquire a strong general mathematics background, but retain the flexibility to pursue other areas of interest through a minor or even a second major. Combining a second area of study such as life science, physics, computer science or business creates a powerful combination for future career goals.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The Bachelor of Arts program in mathematics includes a foreign language requirement, making this an ideal option for students interested in careers in global business. It is also a top option for international students looking for a general math background. A Bachelor of Arts degree in mathematics can be the springboard for many different careers in fields such as these:

- ☐ • business management
- ☐ • computer engineering

- ☐ • financial analysis
- ☐ • health care
- ☐ • law
- ☐ • teaching

Mathematics, BS (LAMATBS)

Campus: Tempe

Program Description:

A mathematics degree opens up a world of possibilities. In fact, the three top-rated jobs in the United States in terms of salary, employment outlook and more are all careers with a strong math focus. Students pursuing the BS in mathematics also learn critical-thinking and problem-solving skills that can be applied to almost any profession.

The degree offers a grounding in both theoretical and applied mathematical concepts. Classes cover a broad spectrum of advanced mathematical topics, including number theory, cryptography and functional analysis. Students with a bachelor's degree in mathematics can pursue careers in fields as diverse as computer science, biotechnology, engineering, medical research and education.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Accelerated Degrees:

This degree is also offered in an accelerated format with Mathematics, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Mathematics is foundational and can be applied to many different types of careers. Math is a crucial part of engineering, life sciences, business, economics and social sciences. Many undergraduate math majors also pursue graduate studies in medicine or law. These are just a few of the top careers possible with a BS in mathematics:

- ☐ • cryptographer
- ☐ • engineer
- ☐ • financial analyst
- ☐ • mathematician
- ☐ • operations research analyst
- ☐ • statistician
- ☐ • teacher

Students interested in a career in teaching or education may also consider the bachelor's degree in mathematics concentration in secondary education. <https://math.asu.edu/content/mathematics-secondary-education> (<https://math.asu.edu/content/mathematics-secondary-education>)

Mathematics (Secondary Education), BS (LAMATSBS)

Campus: Tempe

Program Description:

School districts across the country are struggling with shortages of teachers, particularly in math. ASU's BS program in mathematics with a concentration in secondary education provides a new pathway for students interested in teaching. Students acquire strong content knowledge in diverse areas of math and the skills to convey these concepts to others. This degree program offers a deeper mastery of mathematics coupled with the ability to handle the challenges of a high school classroom.

Students who wish to teach at the secondary level will take courses preparing them to earn certification in the State of Arizona through this program. By providing a carefully designed curriculum of courses and instructional experiences the program develops the deep understandings and connections needed to be a highly effective mathematics teacher. Graduates emerge equipped to provide mathematics instruction that is coherent, meaningful and challenging.

Additional Program Fee: N

Mathematics (Statistics), BS (LAMATTBS)

Campus: Tempe

Program Description:

The volume and detail of information being captured through sources such as the Web and social media is growing exponentially. This large volume of information is called data, and it's changing the way we live.

In the BS program in mathematics with a concentration in statistics, students learn innovative mathematical, computational and statistical methods to analyze data sets, as well as how to use data in real-world applications. Using data analytics, students discover how to generate insights that inform fact-based decision-making. They use cutting-edge techniques to study and understand methods of statistical inference and explore strategies for dealing with uncertainty.

Additional Program Fee: Y

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market. Based on factors like pay, growth and job satisfaction, statistics has been named in separate job reports as one of the best careers for millennials. Data and the analysis of data is big business, and the Department of Labor projects a 25 percent growth in the need for employees trained in data analytics between now and 2018. For students pursuing a bachelor's degree in mathematics with a concentration in statistics, that means an exciting future of career opportunities in fields as diverse as business, finance, engineering, technology, sports, marketing, government and other areas of the economy.

These are just a few of the top career paths you can pursue with a major in this bachelor's degree program:

- ☐ • actuary
- ☐ • data scientist
- ☐ • financial analyst
- ☐ • market research analyst
- ☐ • software engineer
- ☐ • sports statistician
- ☐ • teacher or professor

Students can also combine statistics with other disciplines, such as business or economics, to enhance preparation for their personal career goals.

Microbiology, BS (LAMICBS)

Campus: Tempe

Program Description:

The BS in microbiology combines the study of the branch of biology involving the smallest of living things (bacteria, fungi, algae, protozoa and viruses) and immunology (the study of all aspects of the immune system). Despite their small size, microbes are fundamental to life on Earth and compose the majority of all Earth's life forms. In addition to their essential contributions to the natural world, microbes have been model experimental subjects due to their impact on human health and ease of manipulation in the laboratory. A significant portion of medical research employs microbiological and immunological methods in order to examine basic genetic and biological phenomena.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biology, MS

Molecular and Cellular Biology, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their

academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The microbiology degree program places emphasis on understanding microorganisms and their interrelationships with other organisms in nature and on the influence of microorganisms in biomedicine and biotechnology. Students in the microbiology degree program will study not only the background and current findings in the field of microbiology but also acquire the critical-thinking skills and the hands-on laboratory and field skills required to succeed in science. The major provides excellent training for premedical, predental, preveterinary and prepharmacy students as well as advanced study in microbiology and immunology.

The discipline of microbiology is diverse and the job opportunities for microbiologists are enormous. Graduates with a degree in microbiology have opportunities for employment in:

- ☐ • government
- ☐ • hospitals

- ☐ • industrial laboratories (food, dairy, chemical, pharmaceutical, environmental and biotechnology companies)
- ☐ • public health laboratories
- ☐ • research laboratories

Many students are also suitably prepared for admission into graduate school and advanced study in these fields:

- ☐ • dentistry
- ☐ • medicine
- ☐ • pharmacy
- ☐ • veterinary

Microbiology (Medical Microbiology), BS (LAMICMBS)

Campus: Tempe

Program Description:

The medical microbiology concentration serves students in the microbiology BS degree program who aim to pursue careers in health professions, medical microbiology or other areas of biomedical research.

The curriculum aligns with the scientific competencies recommended for premed students in a report of the American Medical Colleges and the Howard Hughes Medical Institute Committee and are also reflected in the 2015 changes to the MCAT. Coursework includes many of the courses in the microbiology major, including chemistry, biochemistry, math and physics, but some microbiology courses have been replaced with cell biology, animal physiology and courses that relate to human biology and society.

The concentration program emphasizes core concepts, competencies and critical intellectual skills necessary to succeed in medical school or biomedical research. The coursework that students need to prepare for the MCAT or medical school admission are included in the concentration.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences or MAT 270 Calculus with Analytical Geometry I

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered in an accelerated format with Biology, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Upon completing the bachelor's degree program in microbiology with a concentration in medical microbiology, students will have completed the majority of prerequisite requirements and mastered many of the competencies valued by graduate programs in medical, dental and optometry fields and by programs which prepare students to be physician assistants or physical therapists. Additionally, graduates of this program will have a practical understanding of the process of science, preparing them for a career in research. Students will have knowledge of foundational concepts in biological sciences, chemistry, physics and statistics as well as the ability to understand and apply core microbiology concepts. This will prepare students to enter research in a number of areas including, but not limited to, cellular biology, immunology, bacteriology and virology.

Molecular Biosciences and Biotechnology, BS (LAMBBBS)

Campus: Tempe

Program Description:

The BS in molecular biosciences and biotechnology encompasses many of the cutting-edge disciplines in life sciences research. Biotechnology is an exciting, rapidly growing field with major applications in agriculture (green biotechnology, leading to improved crops or production of vaccines in plants), health care (red biotechnology, leading to better therapeutics, diagnostics and personalized medicine) and industry (white biotechnology, leading to sustainable production of energy, enzymes and chemicals).

This molecular biosciences and biotechnology degree program is differentiated from the other life sciences majors by its focus on the interface between molecular biology and biotechnology. The interface drives many major advancements in knowledge and in applied research and development, like the development of next-generation biomedical products or biofuels. Other hallmarks of this program are the focus on hands-on research and the capstone course with both science and business or entrepreneurial components.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences or MAT 270 Calculus with Analytic Geometry I

Program Math Intensity: Moderate

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biochemistry (Medicinal Chemistry), MS

Biology, MS

Molecular and Cellular Biology, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The molecular biosciences and biotechnology degree program provides an excellent background and training for a growing number of careers that incorporate this innovative area of the molecular life sciences. Independent research and courses with classroom plus lab components result in a solid base of knowledge and practical expertise in biotechnology and the molecular biosciences, providing many options for further education or for entering the workforce.

After graduation, many molecular biosciences and biotechnology students enter graduate programs in a molecular biosciences and biotechnology-related area. A number of students also enroll in medical school, other health-related professional programs or in other advanced programs. Students also have the knowledge and technical skills to enter the biotechnology workforce in an area matching their expertise and interest.

The molecular biosciences and biotechnology program has a faculty mentoring program which provides students with the opportunity to speak with faculty regarding career choices, selection and timeline of major courses and of independent research projects, and much more.

Neuroscience, BS (LABMENBS)

Campus: Downtown Phoenix, Tempe

Program Description:

Neuroscience is concerned with understanding the structure and functioning of the nervous system and its relation to behavior. The field spans all levels of biological analysis with interfaces to many fields such as mathematics, law and engineering.

The BS degree program in neuroscience consists of rigorous, in-depth training in cellular, molecular, and systems biology. With this broad depth of fundamental knowledge, students will move into different areas of specialization in neuroscience. Students will be prepared for highly collaborative and interdisciplinary research and teaching positions in neuroscience. The training will also enable students to enter biomedical fields that prepare students for careers medicine, nursing or veterinary medicine and to integrate developing outcomes from the research community into their practice.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences
or MAT 265 or MAT 270

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

This program is currently available only as a concurrent degree to ASU students pursuing other majors.

Change of Major Requirements:

This program is currently available only as a concurrent degree to ASU students pursuing other majors. For more information on how to add this major as a concurrent degree program, students should contact the department or their academic advisor.

Career Opportunities:

The degree in neuroscience, especially when paired with complementary programs, prepares students for work in fields such as:

- • academic research

- ☐ • bioengineering
- ☐ • biotechnology
- ☐ • medical research
- ☐ • medicine
- ☐ • pharmaceutical development
- ☐ • physical rehabilitation
- ☐ • speech rehabilitation

Philosophy, BA (LAPHIBA)

Campus: Tempe, Online

Program Description:

The BA program in philosophy teaches students how to think well, which in turn lays the foundation for personal and professional success. Philosophy students learn how to structure arguments, write precisely and clearly, and communicate their ideas in an orderly, persuasive and unambiguous way. Many philosophical texts are complicated, and philosophy courses teach students how to read, comprehend and summarize conceptually difficult material. In short, studying philosophy trains one to be a better, clearer thinker.

Coursework includes the major subfields of philosophy such as metaphysics, epistemology and ethics as well as electives that connect philosophy to other areas of inquiry and that emphasize the social relevance of philosophy. Philosophy alumni are well-prepared for leadership roles in whatever path they take, whether it be in business, law, politics, medicine or education.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Philosophy (Morality, Politics and Law), BA (LAPHIMPBA)

Campus: Tempe, Online

Program Description:

The philosophy degree with a concentration in morality, politics and law combines the basic analytical approaches of philosophy with an emphasis on the moral questions that arise in political theory and law. The foundations of our political and legal systems are moral values, such as individual liberty, equality and justice. These are contested values, open to different understandings of their nature and implications.

Students explore the nature of morality, political theory, legal theory and the interconnections between them. Students complete philosophy courses as well as courses from disciplines related to philosophy to enrich and enliven their understanding of the intersections of morality, politics and law.

This degree program is of special interest to students planning to pursue postgraduate work in law, policy or politics.

Additional Program Fee: N

Physics (Secondary Education), BS (LAPHYSEBS)

Campus: Tempe

Program Description:

The BS in physics with a concentration in secondary education provides rigorous training in physics and in education. Physics is the cornerstone of STEM disciplines --- science, technology, engineering and mathematics, and the shortage of highly qualified physics teachers in every state is an ongoing problem. This degree concentration is designed to produce more and better qualified physics teachers to meet local and national needs. Students who graduate from this program will be recommended by the Mary Lou Fulton Teachers College for certification by the State of Arizona.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 270 - Calculus w/Analytic Geometry I

Program Math Intensity: Substantial

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Fewer than half of in-service physics teachers have degrees in physics. Program graduates will have tremendous opportunities for employment. With more than one million students in a state ranked seventh in the nation in population growth, the need for certified teachers in Arizona is self-evident. During the last 15 years, ASU graduates have had their pick of teaching jobs around the valley and in the state. After student teaching in school districts in the greater Phoenix area or with one of the 22 Native American nations in Arizona, students are often hired to teach in the same school where they completed their internship. As the predicted rate of population growth climbs and the number of teachers retiring increases, new teachers will continue to be in demand.

Political Science, BA (LAPOSBA)

Campus: Tempe, Online

Program Description:

Political science is the study of how citizens interact with their governments and how governments at all levels formulate policies to serve their citizens.

The BA in political science offers a variety of courses and opportunities to study politics and policies at the local, national and global levels. The major aims to provide students with the tools and skills necessary to link theory with real-world problems and issues. By combining coursework in several areas of political science with broad exposure to ASU's liberal arts offerings, the Bachelor of Arts degree in political science aims to produce well-rounded learners with the research and writing skills useful for success in political or governmental careers, law school, graduate study, business or the nonprofit sector.

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered in an accelerated format with Political Science, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Politics and the Economy, BS (LAPECBS)

Campus: Tempe

Program Description:

The BS program in politics and the economy will prepare students for careers that require a sophisticated understanding of the relationship between politics and the economy. The proposed degree is a response to the growing recognition that many of the world's most pressing problems (e.g., growth and development, tax reforms and climate change) are fundamentally political and economic problems. The program combines core courses in economics and political science. Utilizing the strengths of both the Department of Economics and the School of Politics and Global Studies, students will graduate with strong quantitative and modeling skills and a rich understanding of political context.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 210 - Brief Calculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

According to external forecasters of employment growth (U.S. Department of Labor and the U.S. News & World Report), job opportunities for graduates of the politics and the economy degree program are expected to grow as fast or faster than the average growth of the labor force. They note that the demand for graduates grounded in economics and political science is driven by the growing complexity of the global economy, the increased implementation of financial regulations in wealthier nations, and the growing competitiveness of the business environment. In terms of specific sectors, our undergraduates will be well-prepared for entry positions in government at all levels (local, state and federal), business, economic and political consulting, and law. They also will be prepared to pursue advanced degrees in law, business, economics or political science.

Psychology, BA (LAPGSBA)

Campus: Tempe

Program Description:

In the Psychology BA degree program at ASU's Tempe campus, students use scientific methodology to explore fundamental questions about the brain, mind and behavior. Students work with faculty and other psychology majors in a collaborative, diverse environment in coursework, research and other engagement activities to explore such fascinating questions as whether robots can explain how we field in baseball; what effects stress

and emotions have on adolescent adjustment; how humans recognize and regulate emotions; how body image relates to eating disorders; how chronic stress affects the brain; how evolution shapes our choice of partner; and what the physical and psychological consequences of substance abuse might be in adolescents.

Additional Program Fee: Y

Second Language Requirement: Yes

First Required Math Course: MAT 170 - Precalculus

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Freshman admission requirements for this program are the same as the university's freshman admission requirements.

Transfer Admission Requirements:

Transfer applicants must meet university transfer admission requirements.

Psychology (Psychological Science), BS (LAPGSPSBS)

Campus: Tempe

Program Description:

The BS in psychology with a concentration in psychological science emphasizes critical-thinking and analytic and quantitative skills involved in psychological research to prepare students for graduate study. Students take advanced coursework in statistics and receive hands-on research experience by working with faculty members in the laboratory. Students are exposed to theories and research, addressing questions such as how people can use social influence to increase compliance; how children develop; how people remember information over long periods of time; how the mind and body react to stress; and, which types of treatment are most effective for individuals who are depressed.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 251 - Calculus for Life Sciences Or MAT 270 Calculus with Analytical Geometry I

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The BS in psychology with a concentration in psychological science is open to students who have:

- ☐ • completed a BS in psychology critical courses (ENG 101, ENG 102, MAT 251 or MAT 270, PSY 101, PSY 230, PSY 290) with a "C" or better
- ☐ • earned at least 45 credit hours
- ☐ • earned at least an ASU 3.00 cumulative GPA

Students must maintain at least a 3.00 cumulative GPA from admittance through graduation.

Change of Major Requirements:

The bachelor's in psychology with a concentration in psychological science is open to current ASU students who have completed all critical courses for the BS in psychology (ENG 101, ENG 102, MAT 251 or MAT 270, PSY 101, PSY 230, PSY 290) with a "C" (2.00 on a 4.00 scale) or better, earned at least 45 credit hours, and earned at least an ASU 3.00 cumulative GPA.

Students must maintain at least a 3.00 cumulative GPA from admittance through graduation.

Career Opportunities:

The bachelor's degree program in psychology with a concentration in psychological science prepares students who aspire to careers as researchers, teachers or clinicians or who wish to pursue graduate study. The program is also ideal preparation for professional postgraduate programs in the fields of law and medicine.

Religious Studies, BA (LARELBA)

Campus: Tempe, Online

Program Description:

Religion is an important part of most human experience. Religious understanding informs and shapes politics, literature, philosophy, art and science as well as the daily life of millions around the globe. An understanding of religious traditions is critical to understanding our shared past and present and to navigating toward our shared future.

Students who pursue the BA in religious studies come from a wide diversity of faiths, cultural backgrounds and intellectual interests. What many find fascinating and exciting about religious studies is that it draws from a wide variety of disciplines --- history, philosophy, anthropology, literature, political science and theology, to name a few. Course offerings reflect a diversity of approaches (historical, anthropological, ethical and theological); regions (North America, South America, Europe, Middle East, Africa, South Asia and Southeast Asia) and traditions (Buddhism, Christianity, Hinduism, Islam, Judaism and Native American traditions).

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Students interested in careers in local, state, regional and national communities will find transdisciplinary encouragement and support in the Bachelor of Arts degree program in religious studies. Students who are attracted to international study will find the undergraduate program rich in multicultural coursework and study abroad opportunities. Religious studies students will find many opportunities for practical experience leading to careers in the academic study of religion, in public service, in governmental and nongovernmental agencies and in professional careers in a variety of organizations, including all of the helping professions.

Religious studies graduates have gone on to careers in such fields as diplomacy, development and teaching. Other students have pursued professional degrees in areas such as law, public policy and counseling.

Russian, BA (LARUSBA)

Campus: Tempe

Program Description:

The BA program in Russian offers students a unique opportunity to study the language, literature and culture of Russia. Students in the program gain intermediate to advanced reading, writing, oral and aural Russian language skills.

The Russian language program also partners with the Melikian Center to offer a transdisciplinary baccalaureate certificate in Russian, Eurasian and East European Studies (REEES) for students in agribusiness, anthropology, architecture, economics, geography, history, political science, religious studies, Russian, sociology and women's studies.

Students of Russian are encouraged to take advantage of an ASU exchange program in Russian language and translation by spending a semester or year in Moscow, St. Petersburg or Kazan. For more information, students should visit <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Additional Program Fee: N

Second Language Requirement: Yes

Career Opportunities:

Despite the fall of the Soviet Union, Russia has remained an active player in world affairs. Russia's continued presence on the current international stage makes knowledge of Russian language and culture a valuable asset for students interested in government, diplomacy and international affairs and commerce. Knowledge of multiple languages and intercultural competencies enhance any occupation and offers graduates many career opportunities.

Career fields and occupations using languages include:

- ☐ • administration of nongovernmental organizations
- ☐ • advertising and marketing
- ☐ • airlines
- ☐ • cultural advisor
- ☐ • diplomatic and foreign service
- ☐ • domestic and international business
- ☐ • film, television and multimedia
- ☐ • foreign correspondent and journalist
- ☐ • hotel and resort management
- ☐ • intelligence
- ☐ • international banking
- ☐ • international education and study abroad administration
- ☐ • international law
- ☐ • interpreting and translation
- ☐ • medicine and health professions
- ☐ • military
- ☐ • ministry
- ☐ • public relations
- ☐ • publishing
- ☐ • social work
- ☐ • teaching and research

- • travel and tourism
- • technology industries

Additional education and certification may be required for some career paths.

Sociology, BS (LASOCBS)

Campus: Tempe, Online

Program Description:

Sociology is the study of social life, social change and the social causes and consequences of human behavior. The BS in sociology trains students in written communication, computer skills, statistics and research methods. It offers a wide variety of substantive courses on contemporary social issues that range from crime to population trends. Sociology courses also explore social institutions such as the family, education, religion and the workplace.

Spanish, BA (LASPABA)

Campus: Tempe, Online

Program Description:

Students pursuing a BA degree in Spanish have the opportunity to gain reading, speaking and writing proficiency in the language. The Tempe campus program offers two study options: the Spanish linguistics track and the Spanish literature and culture track.

The linguistics track provides an in-depth understanding of the Spanish language (syntax, morphology) while the literature and culture track addresses historical and contemporary issues throughout the Spanish-speaking world as seen through the lenses of the themes of Spanish, Latin American and Mexican American culture and literature.

A Bachelor of Arts degree in Spanish is also available for ASU Online students; it combines courses from both the linguistics track and the literature and culture track.

Students majoring in Spanish may also work toward a professional certificate in Spanish-to-English translation.

Students are encouraged to contact a school advisor to discuss which option is best for them. Throughout the year, through study abroad and exchange programs, ASU offers opportunities to study in Spain, Mexico and other countries in which Spanish is spoken. More information regarding study abroad opportunities is available at <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>).

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered in an accelerated format with Spanish, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA (LATCLMBA)

Campus: Tempe

Program Description:

The BA program in transborder Chicana/o and Latina/o studies focuses on the political, cultural, economic, sociological, historical, psychological and artistic experiences of Mexican-origin and Latina/o populations in the United States and the U.S.-Mexico transborder region. Students will be able to understand the complexities of the Chicana/o and Latina/o experience on the U.S.-Mexico border and beyond, with implications for other border communities around the world.

In the media and expressive culture concentration, students will focus their study on the cultures of Latina/o communities. Students will learn about the cultural diversity of Chicana/o, Mexican, Puerto Rican, Cuban, Dominican, Central American and other Latina/o populations in the United States and their contributions to the arts by analyzing:

- ☐ • film and the media
- ☐ • history
- ☐ • literature (novels, short stories, poetry)
- ☐ • performance

- • visual art

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Degrees:

This degree is also offered as concurrent degree program with Journalism and Mass Communication, BA

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- • 3.75 minimum ABOR GPA
- • no English competency deficiencies
- • 1040 SAT Reasoning or 22 ACT score

Transfer Admission Requirements:

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective general studies requirements.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transborder Chicana/o and Latina/o Studies (Transborder Community Development and Health), BA (LATCLTBA)

Campus: Tempe

Program Description:

The BA degree program in transborder Chicana/o and Latina/o studies focuses on the political, cultural, economic, sociological, historical, psychological and artistic experiences of Mexican-origin and Latina/o populations in the United States and the U.S.-Mexico transborder region. Students will be able to understand the complexities of the Chicana/o and Latina/o experience on the U.S.-Mexico border and beyond, with implications for other border communities around the world.

In the transborder community development and health concentration students will focus their learning on the health inequalities and issues affecting Mexican-origin, Chicana/o and Latina/o communities. Students will also develop an understanding of the relationship between the places where people live, play, work and heal and the impact they have on people's health and well-being. Overall, students will be able to design, implement and evaluate community-based health programs.

Transborder Chicana/o and Latina/o Studies (US and Mexican Regional Immigration Policy and Economy), BA (LATCLUBA)

Campus: Tempe

Program Description:

The BA degree program in transborder Chicana/o and Latina/o studies focuses on the political, cultural, economic, sociological, historical, psychological and artistic experiences of Mexican-origin and Latina/o populations in the United States and the U.S.-Mexico transborder region. Students will be able to understand the complexities of the Chicana/o and Latina/o experience on the U.S.-Mexico border and beyond, with implications for other border communities around the world.

In the U.S. and Mexican regional immigration policy and economy concentration students will focus their studies on policies and social practices contributing to the growing political and economic influence of Latinos in the U.S. and the U.S.-Mexico region. Students will develop an understanding of the role of:

- ☐ • border enforcement
- ☐ • demographic change
- ☐ • economic integration
- ☐ • globalization
- ☐ • immigration policy
- ☐ • international migration
- ☐ • regional development

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Concurrent Degrees:

This degree is also offered as concurrent degree program with Journalism and Mass Communication, BA

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Concurrent degree admission requirements:

Freshman applicants must meet all of the following standards:

- ☐ • 3.75 minimum ABOR GPA
- ☐ • no English competency deficiencies
- ☐ • 1040 SAT Reasoning or 22 ACT score

Transfer Admission Requirements:

Transfer students must have a minimum cumulative GPA of 3.00 from a transfer institution.

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

ASU students who would like to change their majors to the concurrent program with journalism and mass communication must have at least a 3.00 cumulative GPA in 12 or more credit hours of ASU courses that can be used to satisfy the Cronkite School's nonelective general studies requirements.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Urban Planning, BSP (ARPUPBSP)

Campus: Tempe, Online

Program Description:

Urban planning is shaping the way our cities, states and communities operate, how people navigate the globe, and how cities are planned for success. Urban planners guide communities in making wise decisions about their use of land and resources. The BSP program in urban planning provides students with expertise in both the analysis and the synthesis of the physical, social, political and economic issues that shape urban and regional development. Planning includes:

- ☐ • computer and research methods
- ☐ • environmental impact assessment
- ☐ • geographic information systems
- ☐ • housing
- ☐ • landscape architecture and urban design
- ☐ • planning and zoning law
- ☐ • public policy formulation and administration
- ☐ • transportation
- ☐ • urban and development economics
- ☐ • utilities

Students take courses that include:

- ☐ • comprehensive planning
- ☐ • computer and analytical methods
- ☐ • planning law
- ☐ • public policy formulation and administration
- ☐ • site planning
- ☐ • socioeconomic and environmental analyses
- ☐ • urban design

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered in an accelerated format with Urban and Environmental Planning, MUEP
Academic Catalog Archive 2017-2018

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates in urban planning pursue career opportunities with private planning firms and governmental planning agencies (mainly at the city level, but also with county, state and federal entities). Some planners elect to pursue graduate degrees to develop specialty skills and to enhance their opportunities for career advancement. The urban planning degree, especially when combined with a focus on geographic information science, gives graduates an advantage in careers that combine urban planning with GIS and in other jobs dealing with urban issues, including:

- ☐ • comprehensive and long-range planning
- ☐ • economic development planning
- ☐ • housing issues
- ☐ • planning law
- ☐ • public participation in the planning process
- ☐ • socioeconomic and environmental analyses
- ☐ • sustainable planning
- ☐ • transportation

Nursing and Health Innovation, College of

Applied Science (Health Innovation), BAS (NUHCIBAS)

Campus: Downtown Phoenix, West, Online

Program Description:

The concentration in health innovation is designed for students with an AAS degree in allied health fields who want to lead transformative change in health through the creation of new products, processes and systems.

Students will have the opportunity to examine current evidence-based practice and health care policy through a lens of innovation using an integrated systems perspective, and they will begin to hone the skills necessary to be a leader of innovation in a health care context. Students with health-related backgrounds who would like to learn more about innovation and leadership within health care organizations may be interested in the health innovation concentration. Students with an Associate of Applied Science degree in business or a related field may also have interest if they have employment experience in the health industry.

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: Any math course with the MA general studies designation will satisfy the math requirement.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

Students must have an Associate of Applied Science from a regionally accredited institution to be eligible for admission to BAS in applied science programs at Arizona State University.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(<https://asuonline.asu.edu/online-degree-programs/undergraduate/health-innovation-bas>)

Change of Major Requirements:

Students with an Associate of Applied Science degree in health, business or a related field are eligible to change their ASU major to this applied science (health innovation) program. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Career Opportunities:

Primary career opportunities include health care administrators and health care managers as well as:

- ☐ • entrepreneurs
- ☐ • health architects
- ☐ • health care administrator
- ☐ • health care strategists, advisors, project managers and administrators
- ☐ • health innovation consultant
- ☐ • health product and service managers
- ☐ • health system designers
- ☐ • intrapreneurs -- managers responsible for promoting innovative product development and marketing
- ☐ • public relations experts in health

Community Health, BS (NUCHLTBS)

Campus: Downtown Phoenix, West, Online

Program Description:

The BS program in community health is designed for students who want to create healthy, sustainable communities. Changes to the health care system call for an increased number of community health professionals who can advocate for individuals, families and communities as well as provide health education services. Graduates of this program will provide health education, health promotion, care coordination, disease management, health care navigation and advocacy services for individuals, families, and communities.

This degree program uses the same prerequisites as the nursing major; therefore, students may transition seamlessly to this program and obtain a bachelor's degree in a health-related field.

Additional Program Fee: Y

Integrative Health, BS (NUIHLTBS)

Campus: Downtown Phoenix, West, Online

Program Description:

The BS in integrative health provides a foundation in integrative health, a holistic approach to wellness that focuses on the mind, body and spirit. The program provides students with a foundation of innovative and interprofessional approaches to serving and supporting diverse populations.

Students will learn to differentiate the ethics, legalities and standards of practice of integrative health and to think critically about different therapies, modalities and practitioners. Coursework and experiences include an emphasis on research and evidence-based practices and gaining an understanding of the historical and cultural foundations of the integrative health field.

This degree uses the same prerequisites as the nursing major; therefore, students may transition seamlessly to this program and obtain a bachelor's degree in a health-related field.

Nursing, BSN (NUNURDBSN)

Campus: Downtown Phoenix, The Gila Valley, Online

Program Description:

Through a curriculum centered upon evidence-based practice, clinical reasoning, innovation, interprofessional communication and information technology, the BSN degree program prepares students to provide high-quality professional nursing care. The Bachelor of Science in Nursing may be earned through several unique pathways.

Prelicensure Nursing Programs:

The College of Nursing and Health Innovation offers two prelicensure tracks that lead to a Bachelor of Science in Nursing: the traditional prelicensure clinical nursing program and the post-baccalaureate clinical nursing program.

Students pursuing advancement to the traditional prelicensure clinical nursing program complete prerequisite coursework and request advancement to the upper-division nursing program. The upper-division nursing program may be completed in a 16-month year-round schedule or a 24-month academic year schedule. Students admitted directly into a traditional prelicensure clinical nursing program must meet continuing eligibility criteria to advance to the upper-division nursing program. Directly admitted nursing students who do not meet continuing eligibility criteria, transfer students, or students who are changing majors may apply for advancement to the upper-division nursing program, competing for any remaining spaces.

Students pursuing advancement to the post-baccalaureate clinical nursing program complete prerequisite coursework and apply for advancement to the 12-month upper-division clinical nursing program. Students are admitted to the post-baccalaureate nursing program annually in the spring semester.

Online RN to BSN program

The online RN to BSN program (<http://bsn.asu.edu> (<http://bsn.asu.edu/>)) is available to students who have earned an associate degree in nursing or a nursing diploma and have a current RN license in good standing with the Board of Nursing. The RN to BSN program courses are offered online in 7.5-week sessions and can be completed in 14 to 24 months. There are five starts per year: twice in the fall, twice in the spring, and once in the summer. Assignments vary from course to course and may include readings, papers, presentations and practice application activities completed in the student's geographic area. Transfer pathway agreements are in place with all community colleges in Arizona, which provide additional benefits to students. The RN to BSN program does not have approval from the Boards of Nursing in Tennessee, Rhode Island or Washington to be offered to RNs licensed in those states. More information can be found at <http://bsn.asu.edu> (<http://bsn.asu.edu/>).

Concurrent Enrollment Program

The concurrent enrollment program pathway is offered through participating community colleges. This program is designed for qualified nursing students who are interested in earning their Bachelor of Science in Nursing while simultaneously pursuing their AAS in nursing. Selected students will be enrolled in the community college program and ASU RN to BSN courses concurrently. RN to BSN courses taken at ASU will be delivered in an online format.

Eastern Arizona College Partnership

The ASU and Eastern Arizona College partnership has two options: the concurrent enrollment program and the RN to BSN. The concurrent enrollment program is designed for qualified students pursuing an Associate of Applied Science in nursing from EAC while simultaneously earning a Bachelor of Science in Nursing from ASU. Another option allows students with an associate degree or diploma in nursing to pursue the ASU BSN at Eastern Arizona College on the Thatcher campus.

Students should see <https://transfer.asu.edu/eac> (<https://transfer.asu.edu/eac>) for more information about ASU degrees offered through ASU@TheGilaValley (<mailto:ASU@TheGilaValley>).

Additional Program Fee: Y

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The admission standards for majors in the College of Nursing and Health Innovation are higher than minimum university standards. Freshmen admission requirements: top 25 percent of high school graduating class OR 3.30 GPA in ASU competency courses (based on 4.00 grading scale) AND either a 24 ACT combined score OR an 1100 SAT (prior to March 2016) or 1170 SAT (March 2016 and later) combined evidence-based reading and writing plus math score.

Freshmen should select an additional major when applying for admission.

English language proficiency for applicants whose native language is not English:

- ☐ • minimum score of 540 (paper-based), 207 (computer-based), or 76 (Internet-based) on the Test of English as a Foreign Language (TOEFL)
- ☐ • minimum overall band of 6.5 with no band below 5.5 on the International English Language Testing System (IELTS).

Students not admissible directly to the BSN Nursing program will be placed into the BS program in community health.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.
(https://asuonline.asu.edu/degree-programs/undergraduate/bachelor-science-nursing-rn-bsn?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Change of Major Requirements:

Current ASU students interested in changing to this program would need to apply for the upper division clinical nursing program through an advancement application process. Space is limited, and selection is based upon GPA and score earned on the Test of Essential Academic Skills. Students should contact an advisor in the College of Nursing and Health Innovation for more information on how to change a major to this program.

Transfer Agreements:

Public Service and Community Solutions, College of

Applied Science (Emergency Management), BAS (PPEMGBAS)

Campus: Downtown Phoenix

Program Description:

The BAS program is a flexible, 60 credit hour degree program. The curriculum designed specifically for students who have earned an AAS from a regionally accredited institution. The required capstone class provides experience to students through coordinated internships.

In cooperation with the Arizona Division of Emergency Management, ASU hosts and maintains Arizona's Alternate State Emergency Operations Center on the Polytechnic campus. This contextual learning laboratory is used for demonstrating practical applications of theory taught within the Bachelor of Applied Science curricula as well as providing a platform for conducting exercises and demonstrations of emerging technologies in emergency management.

Students applying to this program must have completed an Associate of Applied Science from a regionally accredited institution. This program is not available to freshmen.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution. This program is not available for freshmen.

Change of Major Requirements:

A current ASU student must have completed an Associate of Applied Science from a regionally accredited institution to change to this major. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

The degree in emergency management opens the door to a challenging career as a professional emergency manager. The advancement of technology has created the potential for more devastating disasters than ever before. As a result, there is an increasing demand for emergency managers who have a solid foundation in scientific and technical disciplines as well as management skills.

Community Advocacy and Social Policy, BA (PPCASPBA)

Campus: Downtown Phoenix, West, Online

Program Description:

The BA program in community advocacy and social policy focuses on advocacy strategies through an in-depth exploration, analysis and

comparison of social service systems and policies from an empowerment perspective. Emphasis will be on examining the needs of individuals, families and communities that have been historically under-served. Policy analysis and social change will be critical themes in developing an advocacy knowledge base as are the equally important themes of prevention and social well-being. Students complete courses in two core areas: diversity and oppressed populations and social issues and interventions.

Community Sports Management, BS (PPCSMBS)

Campus: Downtown Phoenix

Program Description:

The community sports management degree focuses on the many roles recreational and amateur sports play within a community as a mechanism to contribute to quality of life, domestically and abroad. Emphasis will be on the role of sports in youth development; the role of sports organizations and programs in community development; the impact of sports tourism and multisport events on community development; and the role of sports in delivery of nonprofit agency services. Both a program and a managerial emphasis will be targeted, with a focus on delivery of services across the lifespan. Some specific areas of opportunity include work with youth sports, adaptive sports, sports events, sports tourism and sports clubs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Career Opportunities:

Numerous opportunities are available in community sports. Community sports programs are part of many nonprofit organizations, such as the Boys and Girls Clubs of America and the YMCA or YWCA. Also prevalent are city parks and recreation programs that include youth and adult sports as well as clubs and organizations that focus on youth sports. Sports tourism organizations are part of many communities. Many cities and nonprofit organizations offer sports events, youth sports tournaments (including international and multisport events), and adaptive or therapeutic sports programs produced by organizations such as Special Olympics, Wounded Warriors Project and Daring Adventures (known for its River Rampage program). Though the focus of this program is not on professional sports management, there are employment opportunities with organizations such as these in areas like event management and facility management.

Criminology and Criminal Justice, BS (PPCRIMJBS)

Campus: Downtown Phoenix, Lake Havasu, West, Yuma, Online

Program Description:

Please note: Students interested in completing the BS program in Yuma are encouraged to complete a TAG program. Admission requirements are below.

The criminology and criminal justice program is for students who want to understand the causes of crime, the role of criminal justice agencies in the control of crime, and the consequences of crime. They will learn sociological, psychological, biological and economic explanations for individual crime as well as differences in crime across neighborhoods, states, countries and over time. They will learn about the history, legal issues and current practices of crime control via police agencies, the court system, prisons, probation and parole.

These topics are delivered by top-ranking research faculty who offer students hands-on research opportunities and by experienced criminal justice professionals with intimate knowledge of the daily realities of crime and criminals. Students are encouraged to take advantage of internship opportunities in more than 200 agencies, study abroad programs, and flexible course scheduling offered in-person, online and across multiple campuses.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Criminal Justice, MA

Criminology and Criminal Justice, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Admission Requirements:

Yuma Students: ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in criminology and criminal justice, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Science in criminal justice and criminology. Upon completion of the TAG, students will complete the remaining requirements for ASU's bachelor's degree program. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at local community colleges.

This program may also accept transfer credit in lieu of a TAG agreement. Please contact the department for details.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Nonprofit Leadership and Management, BS (PPNLMBS)

Campus: Downtown Phoenix

Program Description:

Through the BS program in nonprofit leadership and management, students are empowered to become successful professionals who work to advance the quality of life in communities. The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. It is this sector, with more than 1.6 million organizations in the U.S., that employs more people than the finance, insurance and real estate industries combined.

Philanthropy (voluntary action for the public good) is a hallmark of the nonprofit sector as individuals give their time, money and know-how to causes about which they care. Students in the nonprofit leadership and management program learn about the nonprofit sector through curriculum instruction and field experience. The required internship component of the program leads students to professional opportunities within the nonprofit sector. Within the undergraduate degree requirements, students may also choose to pursue the National Certified Nonprofit Professional credential through ASU's affiliation with the Nonprofit Leadership Alliance (formerly American Humanics, Inc.). For more information, students should access the school's website.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Community Resources and Development (Nonprofits and NGOs), MS

Community Resources and Development, MS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Depending on their interests, graduates seek work in diverse settings that include a wide range of missions, including arts and culture, environmental, health, youth development, etc. Some graduates find employment with local, grassroots, direct-service nonprofits while others find work with grant-making foundations. Many work in affiliates of well-known national organizations such as:

- ☐ • American Red Cross
- ☐ • America's Second Harvest
- ☐ • Humane Society of the United States

- ☐ • March of Dimes
- ☐ • National Urban League
- ☐ • United Way
- ☐ • youth-serving entities such as Big Brothers Big Sisters, Boys and Girls Clubs, Boy Scouts of America, Girl Scouts of the USA, Camp Fire USA and the YMCA of the USA

Increasing opportunities in the nonprofit sector include careers across the spectrum of community issues such as the arts, environment, health care and others. Typical positions include roles as:

- ☐ • field executives
- ☐ • fund development directors
- ☐ • program directors
- ☐ • program officers for grant-making organizations
- ☐ • volunteer program managers

Nonprofit Leadership and Management (American Indian Studies), BS (PPNLMAIBS)

Campus: Downtown Phoenix

Program Description:

Through the BS program in nonprofit leadership and management, students are empowered to become successful professionals who work to advance the quality of life in communities. The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. Students in the nonprofit leadership and management program learn about the nonprofit sector through curriculum instruction and field experience. Many students in the nonprofit sector work with American Indian populations. The concentration in American Indian studies will familiarize students with American Indian world views, current issues and tribal governance.

The required internship component of the program leads students to professional opportunities within the nonprofit sector. Students may also choose to pursue the National Certified Nonprofit Professional credential through ASU's affiliation with the Nonprofit Leadership Alliance.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

Parks and Recreation Management, BS (PPPRMBS)

Campus: Downtown Phoenix

Program Description:

The BS program in parks and recreation management provides a transdisciplinary education in the management of parks, protected areas, community-based recreation services and special-event management. The parks and recreation field emerged from the youth development, recreation and park movements of the late 19th century. Students learn to integrate the managerial, natural and social sciences to make informed decisions for recreation service delivery.

The curriculum of classroom instruction and field experiences covers:

- ☐ • communication
- ☐ • history
- ☐ • inclusive services
- ☐ • management
- ☐ • parks and recreation policy
- ☐ • planning
- ☐ • programming

The required internship component of the program allows students to gain practical experience in the parks and recreation professions. The bachelor's degree program in parks and recreation management prepares students for professional positions in a variety of public, private and nonprofit organizations. The National Recreation and Park Association accredits this degree program. There are three areas of emphasis:

- ☐ • community recreation services management
- ☐ • natural resource recreation management
- ☐ • special event management

Students interested in the BS in parks and recreation management may also be interested in the school's therapeutic recreation program. Student should see the school website for details.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Parks and Recreation Management (Therapeutic Recreation), BS (PPRMTRBS)

Campus: Downtown Phoenix

Program Description:

The BS in parks and recreation management with a concentration in therapeutic recreation is the only program in Arizona that prepares students for national professional certification in therapeutic recreation. The program is designed for students who have an interest in providing therapeutic interventions and adaptive recreation services for individuals with social problems, illnesses and disabling conditions. The required internship component of the program allows students to gain practical experiences in the therapeutic recreation field. Students who choose this concentration are truly committed to improving people's lives and contributing to their communities.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Public Service and Public Policy, BS (PPPAFBS)

Campus: Downtown Phoenix, Online

Program Description:

The BS program in public service and public policy prepares students for work in government at all levels and in nonprofit organizations through comprehensive coverage of topics in public policy, public leadership and management, and urban studies.

Students discover the challenges of management and learn how to lead a public organization and understand the process of policy development. This program examines the public sector and addresses, in a practical way, the challenges facing the public. The program is unique because it enables students to study public service, policy and administration with a professional focus.

Students select one of the following concentration areas to supplement their core courses:

- ☐ • American Indian studies
- ☐ • business
- ☐ • criminology
- ☐ • emergency management
- ☐ • health policy
- ☐ • law and policy
- ☐ • nonprofit leadership and management
- ☐ • parks and recreation management
- ☐ • public leadership and management
- ☐ • public policy
- ☐ • science and technology
- ☐ • social services delivery
- ☐ • sustainability
- ☐ • urban studies

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program

(<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered in an accelerated format with Public Administration (MPA) - Downtown Phoenix

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

This degree program provides students with the knowledge and skills to transform government and policy at all levels. The public service sector offers sustainable, exciting and fulfilling career options. Upon graduation, students will be empowered to use knowledge of the public sector as a catalyst to change the world. By understanding the challenges facing government and being well-versed in the development of multiple, useful and realistic solutions, students will contribute to the development of local, national and global communities.

The bachelor's degree program in public service and public policy prepares students for entry- and mid-level supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion.

Public Service and Public Policy (Emergency Management and Homeland Security), BS (PPPAFEHBS)

Campus: Downtown Phoenix, Online

Program Description:

The School of Public Affairs offers a concentration in emergency management and homeland security as part of their BS in public service and public policy. This concentration provides students with the skills and knowledge to manage and assume positions of leadership within the field of emergency management and homeland security. Concepts of public policy and management are blended together with emergency management principles to enhance and foster critical thinking within the general field of study. More specifically, the program's focus provides the student with a comprehensive perspective which is critically important for today's and tomorrow's disaster managers.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The program is primarily focused on providing students with the knowledge and skills required for entry- and mid-level supervisory and managerial positions in the public sector, such as city, county, state and federal agencies, though they would successfully function in many other types of organizations as well. For those who already have work experience, the degree provides further opportunity for promotion. In addition, the program prepares students for future graduate study in law, public policy and public administration.

Retiring baby boomers, along with increasing demand for public services, has resulted in an increase in job opportunities for graduates in the public sector. The federal government is the nation's largest employer with nearly two million people employed across the country, and nearly 85 percent of those jobs exist outside the Washington, D.C. area. The federal government is anticipated to hire tens of thousands of new employees for mission-critical positions in the next few years. Students with preparation in academic areas related to public service will have an advantage in that market.

Public Service and Public Policy (Health Policy), BS (PPPAFHPBS)

Campus: Downtown Phoenix

Program Description:

The School of Public Affairs offers a concentration in health policy as part of the BS in public service and public policy. This program allows students to build a course of study that emphasizes their own areas of interest. The health care industry is continuing to be a major part of the U.S. and world economy.

The concentration in health policy will provide students who have an interest in policy to focus on health-related issues and their policy implications. The courses in the concentration are offered by the School of Nutrition and Health Promotion and the School of Human Evolution and Social Change. All the courses are part of the college's regular degree offerings. Thus, students emerge from the program prepared to address policy issues in this substantive area with an understanding of the range of public service careers (including government, nonprofit and for-profit options), the economics of public affairs, the challenge of leadership in the public context, and the dynamics of administering public programs.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The program is primarily focused on individuals working or interested in working in the public sector. The skills and knowledge students acquire allow them to successfully function in many other types of organizations; however the primary focus is on public organizations. This bachelor's degree program in public service and public policy prepares students for entry- and mid-level supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion. In addition, the program prepares students for future graduate study in law, public policy and public administration.

For those who already have work experience, the degree provides further opportunity for promotion. In addition, the program prepares students for future graduate study in law, public policy and public administration.

Retiring baby boomers and an increasing demand for public services have resulted in an increase in job opportunities for graduates in the public sector. The federal government is the nation's largest employer with nearly two million people employed across the country, and nearly 85 percent

of those jobs exist outside the Washington, D.C. area. The federal government is anticipated to hire tens of thousands of new employees for mission-critical positions in the next few years. Students with preparation in academic areas related to public service will have an advantage in that market.

Social Work, BSW (PPSWUSWU)

Campus: Downtown Phoenix, West, Tucson

Program Description:

Please note: Students interested in completing the BSW program in Tucson are encouraged to complete a Transfer Admission Guarantee program. The Tucson location option is only available to transfer students. For admission requirements, students should see <https://socialwork.asu.edu/bsw> (<https://socialwork.asu.edu/bsw>).

Social work practitioners are committed to the enhancement of individual, family and group problem-solving capacities and the creation of a more nurturing, just and humane social environment. The undergraduate curriculum leads to a Bachelor of Social Work. Juniors and seniors majoring in social work focus on social work courses in social policy and services, human behavior in the social environment, social work practice, research and field instruction in community agencies. In addition, majors take elective courses in related areas.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: West campus. Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The program prepares students to be generalist social work practitioners, focusing on advocacy, referrals, case management and problem-solving

functions with individuals, groups, families, organizations and the community.

Employment in social work is expected to increase commensurately with the needs of a growing and diverse population.

Social workers are employed in public and private agencies dealing with a wide variety of social issues, including:

- ☐ • adoption
- ☐ • aging
- ☐ • AIDS
- ☐ • child abuse
- ☐ • corrections
- ☐ • delinquency
- ☐ • disability
- ☐ • discrimination
- ☐ • domestic violence
- ☐ • family dysfunction
- ☐ • foster care
- ☐ • health
- ☐ • homelessness
- ☐ • mental health
- ☐ • poverty
- ☐ • school-related problems
- ☐ • substance abuse
- ☐ • teen pregnancy

Social work skills such as problem-solving, resource utilization, counseling, group work and community organization are also useful for positions with industry in employee relations and mediation.

Tourism Development and Management, BS (PPTDMBS)

Campus: Downtown Phoenix

Program Description:

Through the BS program in tourism development and management, students acquire the planning and management skills related to the growth and development of tourism throughout the world. The curriculum prepares students for employment across a wide variety of occupations in the rapidly expanding travel and tourism industry while taking full advantage of its strong connections with the professional tourism community in Phoenix.

The required internship component of the program allows students to gain practical experiences leading to professional positions in various travel, tourism and related fields. Exposure to the practices of heritage tourism, sustainable tourism, resort management, and meeting and convention planning prepares students for successful careers in the travel and tourism industry. While pursuing the bachelor's degree in tourism development and management, a student may also choose to complete a certificate in convention sales and meeting planning. Additionally, students have the opportunity to participate in a study abroad program.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Community Resources and Development (Sustainable Communities), MS
Community Resources and Development (Tourism), MS
Community Resources and Development, MS
Sustainable Tourism, MAS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

The travel and tourism industry is the largest employer in the world and the second largest in Arizona. Based upon interests, graduates can seek work in the public, nonprofit or private and commercial sectors. Graduates find employment in such diverse settings as resorts, meeting planning, convention and visitor bureaus, tour operations and commercial recreation businesses. In such settings, graduates design, develop and manage services that address the needs of a particular clientele. The metropolitan Phoenix area is a major hub of tourism in the southwestern U.S. and has experienced rapid growth in:

- ☐ • air transportation
- ☐ • business and corporate travel
- ☐ • gaming and casinos
- ☐ • meetings and conventions
- ☐ • resorts and hotels
- ☐ • sports tourism
- ☐ • state and national parks

Tourism Development and Management (Resort and Hotel Leadership), BS (PPTDMRBS)

Campus: Downtown Phoenix

Program Description:

The concentration in resort and hotel leadership will attract students and professionals who have interests in the diverse areas of knowledge needed within the accommodations sector, knowledge such as:

- ☐ • ecological, social and economic sustainability practices in the industry
- ☐ • hospitality management and leadership
- ☐ • meeting the expectations of hotel and resort guests
- ☐ • the interrelated functions within departments of the lodging, food and beverage industries

A concentration in resort and accommodations leadership provides students an academic option to study in-depth the resort and accommodations system and gain knowledge of the importance of the business relationships between suppliers, intermediaries and vendors, guests, and the public and private sectors. The concentration program prepares students to serve our community by developing the skills, knowledge, techniques and capabilities needed for addressing major issues related to resorts and other tourism accommodations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. Tourism Development and Management (Sustainable Tourism), BS (PTDMSBS)

Campus: Downtown Phoenix

Program Description:

The tourism development and management program provides students with the theoretical understanding necessary to maneuver the complexities of one of the world's largest industries. A concentration in sustainable tourism allows majors to hone their understanding of the key concepts of sustainability and of how these concepts can be applied to tourism destinations and development.

Students will learn the dominant theories and language that make up sustainability science and the skills necessary to measure, create and implement sustainability policies in tourism destinations, from the planning to management stages of development.

Students will take courses offered by the School of Sustainability in addition to courses in the School of Community Resources and Development, guaranteeing a strong foundation in the basic theories of the growing field of sustainability while applying these newfound skills to tourism development and management.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Career Opportunities:

The area of sustainable tourism is becoming increasingly important. Many tourism businesses are hiring sustainability coordinators. These businesses include hotels, airlines, convention and visitor bureaus, and large attractions. Tour companies, such as those that implement ecotourism and volunteer tourism experiences, are especially interested in employees with a strong sustainable tourism background. Numerous sustainable tourism nonprofit organizations have emerged in recent years, and many government-related tourism organizations also hire those with a strong sustainability focus. Consulting opportunities are available to assist tourism businesses in developing sustainable practices as well.

Urban and Metropolitan Studies, BA (PPURBBA)

Campus: Downtown Phoenix

Program Description:

Located in the heart of downtown Phoenix, the urban and metropolitan studies program is for students who have a yearning to study and understand urban theory in order to effectively address the challenges of rapid growth along with other contemporary urban issues.

Students discover what makes the city tick --- and the city is their classroom. They examine challenges and solutions by researching history, society, culture, economy and politics in order to understand urban theory, and they use that knowledge to get involved in their communities. This gives them an outlet through which they can experience practical ways of solving complex problems faced by metropolitan regions. The students are invested in their neighborhoods. Many of them live and work downtown and they learn how to improve urban health and well-being, often training themselves to be the future leaders of urban environments. Others focus on making a wide variety of other contributions to society, studying the role of arts and culture, business and property development, revitalization and community-building in the life of the region.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program (<http://students.asu.edu/admission/wue>).

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change the major to this program.

Career Opportunities:

The urban and metropolitan studies program prepares students for work in a wide range of fields. The transdisciplinary approach of the program allows graduates to successfully enter fields as diverse as urban management, revitalization, community development, urban sustainability and

urban planning.

There are many careers and advanced degrees that may be pursued with a bachelor's degree in urban and metropolitan studies. Some of these careers require additional graduate-level studies and professional experience. Students in the program are advised to explore their options with academic and career advisors to prepare an appropriate program of study and plan to participate in an internship that complements their long-term professional goals.

Sustainability, School of

Sustainability, BA (SUSUSTBA)

Campus: Polytechnic, Tempe, Online

Program Description:

Students in ASU's School of Sustainability are rethinking and reinventing the future of a world at risk. The school's programs encourage experiential learning, study abroad, research with faculty, community engagement and leadership development. The knowledge and solutions that are created today will shape the social and environmental quality of life for future generations. Students select from one of four tracks:

- ☐ • international development and sustainability
- ☐ • policy and governance in sustainable systems
- ☐ • society and sustainability
- ☐ • sustainable urban dynamics

The School of Sustainability offers two degrees in sustainability: a BA and a BS. Both programs introduce students to the concept of sustainability in the context of real-world problems and focus on developing practical solutions to some of the most pressing environmental, economic and social challenges of sustainability. The curriculum trains students to approach challenges with consideration of complex adaptive systems and resilience; interconnections and cascading effects between scales; management of tradeoffs; stakeholder engagement; future visioning and scenario typologies for transitioning social-ecological systems; and other cutting-edge frameworks.

The Bachelor of Arts is geared toward students interested in the social and human aspects of sustainability in global, regional and local contexts such as international environmental law, urban policy, etc. Disciplinary perspectives included in the core courses of the degree tracks include anthropology, urban planning and design, environmental economics, ethics, geography, philosophy of science, political science, sociology and other disciplines relevant to the sustainability of environmental resources and social institutions.

Students in the School of Sustainability not only gain an understanding of the field of sustainability and strong problem-solving, systems-thinking, stakeholder engagement and future scenario-building skills, they also develop strength in a more traditional discipline of their choice (in addition to their track). Students apply the skills from their core Bachelor of Arts classes and knowledge from their track and related discipline courses in two required capstone experiences in the senior year.

Capstone requirements consist of an internship with a sustainability-focused organization and a workshop course in which students work together as a team to develop solutions to real sustainability problems. These workshops are great resume builders as they usually include real work for actual organizations such as city governments, sports organizations, nonprofits, local and global companies, local schools, and ASU Facilities or Sustainability Practices. Students are also offered workshops on making documentary films, redesigning buildings and downtown areas, and other engaging projects.

Students graduate with a portfolio of accomplishments and skills. They also have the opportunity to participate in study abroad programs, student organizations, professional development workshops and hands-on initiatives such as ProMod (<https://schoolofsustainability.asu.edu/student-experience/promod>). Learn more here: <https://schoolofsustainability.asu.edu/degrees/bachelor-arts>. (<https://schoolofsustainability.asu.edu/degrees/bachelor-arts>)

Additional Program Fee: N

Second Language Requirement: Yes

First Required Math Course: SOS 101 - Intro Appl Math Life & Soc Sci

Program Math Intensity: Moderate

Concurrent Degrees:

This degree is also offered as concurrent degree program with Supply Chain Management, BS

Accelerated Degrees:

This degree is also offered in an accelerated format with Sustainability Solutions, MSUS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Additional Requirements:

The School of Sustainability has higher admission requirements. Applicants must select a second choice for their major on the application. Students who are not admitted to the School of Sustainability and who did not select a second major or are not admissible to the second major choice will be admitted to the exploratory social and behavioral sciences program within the College of Integrative Sciences and Arts. Students with more than 45 transfer hours who are not admissible to the College of Integrative Sciences and Arts will be contacted to select an appropriate major.

Freshman applicants must meet the following standards:

- ☐ • Minimum cumulative high school GPA of 3.00 (4.00 = "A") in competency courses (<https://students.asu.edu/admission/competencies>) AND
- ☐ • rank in the top 25 percent of their high school graduating class OR
- ☐ • an SAT combined score of
- ☐ • 1040 or higher (if taken prior to March 2016) or
- ☐ • 1120 or higher (if taken in or after March 2016) OR
- ☐ • an ACT combined score of 22 or higher.

Transfer Admission Requirements:

Transfer students (those with 12 or more transfer credit hours after high school graduation) are required to have a cumulative transfer GPA of 3.00 or higher. The School of Sustainability will review transfer applications that fall below this GPA level on an individual basis.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-sustainability?utm_source=asu&utm_medium=degree-search&utm_campaign=asu)

Change of Major Requirements:

ASU students who would like to change their major to sustainability are required to have a cumulative ASU GPA of 3.00 or higher (based on at least 12 credit hours of ASU coursework). Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

In addition to going on to graduate school, graduates of the program are qualified for well-paying positions in:

- ☐ • consultancy
- ☐ • government
- ☐ • industry
- ☐ • intergovernmental organizations
- ☐ • international development
- ☐ • management
- ☐ • municipalities
- ☐ • nongovernmental organizations
- ☐ • nonprofits
- ☐ • policy-making enterprises
- ☐ • regulatory agencies
- ☐ • utilities

Recent interest in sustainability within business and government has created new employment opportunities (e.g., sustainability coordinators, directors and managers). Of undergraduate alumni who have shared their experiences with the school, 88 percent are employed in sectors such as those listed above and seven percent have gone on to a graduate program. Sustainability students offer employers and graduate programs an integrated approach to developing solutions to sustainability challenges. They understand the complexity of systems, have engaged in a range of knowledge and experience from different disciplinary perspectives, and understand the importance of planning for the future and how to engage stakeholders in that process. Graduates of the program are adaptable and prepared for a changing world.

Sustainability, BS (SUSUSTBS)

Campus: Polytechnic, Tempe, Online

Program Description:

Students in ASU's School of Sustainability are rethinking and reinventing the future of a world at risk. The school's programs encourage experiential learning, study abroad, research with faculty, community engagement and leadership development. The knowledge and solutions that are created today will shape the social and environmental quality of life for future generations. Students select from one of three tracks: economics of sustainability; sustainable ecosystems; and sustainable energy, materials and technology.

The School of Sustainability offers two degrees in sustainability: a BA and a BS. Both programs introduce students to the concept of sustainability in the context of real-world problems and focus on developing practical solutions to some of the most pressing environmental, economic and social challenges of sustainability. The curriculum trains students to approach challenges with consideration of complex adaptive systems and resilience;

interconnections and cascading effects between scales; management of tradeoffs; stakeholder engagement; future visioning and scenario typologies for transitioning social-ecological systems; and other cutting-edge frameworks.

The Bachelor of Science is geared toward students interested in the more quantitative aspects of sustainability, such as energy, economics and ecology. Disciplinary perspectives included in the core courses of the degree tracks include ecology, engineering, environmental economics, environmental science, conservation biology, hydrology, physical geography, earth-systems management and other disciplines relevant to the sustainability of environmental resources and social institutions.

Students in the School of Sustainability not only gain an understanding of the field of sustainability and strong problem-solving, systems-thinking, stakeholder engagement and future scenario-building skills, they also develop strength in a more traditional discipline of their choice, in addition to their track. Students apply the skills from their core Bachelor of Science classes and knowledge from their track and related discipline courses in two required capstone experiences in the senior year.

Capstone requirements consist of an internship with a sustainability-focused organization and a workshop course in which students work together as a team to develop solutions to real sustainability problems. These workshops are great resume builders as they usually include real work for actual organizations such as city governments, sports organizations, nonprofits, local and global companies, local schools, and ASU Facilities or Sustainability Practices. Students are also offered workshops on making documentary films, redesigning buildings and downtown areas, and other engaging projects.

Students graduate with a portfolio of accomplishments and skills. Students with more than 45 transfer hours who are not admissible to the College of Integrative Sciences and Arts will be contacted to select an appropriate major.

Freshman applicants must meet the following standards:

- ☐ • Minimum cumulative high school GPA of 3.00 (4.00 = "A") in competency courses (<https://students.asu.edu/admission/competencies>) AND
- ☐ • rank in the top 25 percent of their high school graduating class OR
- ☐ • an SAT combined score of
- ☐ • 1040 or higher (if taken prior to March 2016) or
- ☐ • 1120 or higher (if taken in or after March 2016) OR
- ☐ • an ACT combined score of 22 or higher.

Transfer Admission Requirements:

Transfer students (those with 12 or more transfer credit hours after high school graduation) are required to have a cumulative transfer GPA of 3.00 or higher. The School of Sustainability will review transfer applications that fall below this GPA level on an individual basis.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

(<https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-sustainability>)

Change of Major Requirements:

ASU students who would like to change their major to sustainability are required to have a cumulative ASU GPA of 3.00 or higher (based on at least 12 credit hours of ASU coursework). Students should see <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

In addition to going on to graduate school, graduates of the program are qualified for well-paying positions in:

- ☐ • consultancy
- ☐ • energy management
- ☐ • government
- ☐ • industry
- ☐ • intergovernmental organizations
- ☐ • international development
- ☐ • management
- ☐ • municipalities
- ☐ • natural resource management
- ☐ • nongovernmental organizations

- ☐ • nonprofits
- ☐ • policy-making enterprises
- ☐ • regulatory agencies
- ☐ • utilities
- ☐ • water management
- ☐ • waste management

Recent interest in sustainability within business and government has created new employment opportunities (e.g., sustainability coordinators, directors and managers). Of undergraduate alumni who have shared their experiences with the school, 88 percent are employed in sectors such as those listed above and seven percent have gone on to a graduate program. Sustainability students offer employers and graduate programs an integrated approach to developing solutions to sustainability challenges. They understand the complexity of systems, have engaged in a range of knowledge and experience from different disciplinary perspectives, and understand the importance of planning for the future and how to engage stakeholders in that process. Graduates of the program are adaptable and prepared for a changing world.

Teachers College, Mary Lou Fulton

Early Childhood and Early Childhood Special Education, BAE (TEECSEBAE)

Campus: Tempe

Program Description:

The BAE program for early childhood and early childhood special education prepares students for certification in both early childhood education (birth to age 8 or grade 3) and early childhood special education (birth to age 8 or grade 3).

This is a premier program taught by nationally renowned faculty who emphasize community connectedness, technology integration, policy analysis and advocacy related to young children with or without disabilities or developmental delays.

The program teaches child development, best practices in early childhood education and the skills to assess, monitor and report the progress of children with and without disabilities. It provides techniques and approaches to involve family members in the growth and development of young children.

The teacher certification program in early childhood and early childhood special education is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Teachers College students complete internships during their junior year that require one to two days per week in a classroom and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools coach interns and student teachers during required preschool and grades K-3 general education and special education clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive, hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

This program also offers a full, structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

Graduates are recommended for teacher certification. Those desiring to teach in a public school must pass the appropriate Arizona educator exams, National Evaluation Series or Arizona Educator Proficiency Assessments, in both content area and professional knowledge to be certified to teach in the state of Arizona.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Education Exploratory, (TEEDUEXPL)

Campus: Polytechnic, Tempe, West

Program Description:

Students in the education exploratory track have the unique opportunity to explore different certification areas prior to selecting one of many majors within the Mary Lou Fulton Teachers College. During the program's course, TEL 101 The Teachers College Experience, and through specific events scheduled throughout freshman year, students on this track will be exposed to all programs and certification areas. Students will be able to make a more informed decision about the grade level or subject they want to teach while the exploratory track keeps them on track to graduate from any of the BAE programs. This track will not lead to a degree, and students will need to declare a major after completion of 30 credit hours.

Educational Studies, BAE (EDSLSTBAE)

Campus: Polytechnic, Tempe, West, Online

Program Description:

The BAE in educational studies is intended for students seeking a career in education outside the classroom. This degree does not lead to teacher certification.

The program embraces the view that learning happens in a variety of contexts and prepares students to work with children, youth and adults in nonprofit settings, community institutions, civic organizations or businesses. It provides a strong general foundation in education through research and discussion of current issues in education, educational psychology, human development and community-based educational opportunities.

There are two delivery options for educational studies: face-to-face and online. In the face-to-face option, students select electives from areas such as early childhood education, educational technology, physical activity and coaching, environmental education and educational policy. All students in the face-to-face option complete university service-learning experiences as part of their coursework.

In the fully online option, students explore learning opportunities within their own community and are provided the opportunity to develop as leaders

and advocates for children, youth or adults.

Veterans may be interested in this program, as credit may be offered for military service.

An educational studies minor is also available to Arizona State University students in other degree programs.

Additional Program Fee: N

Second Language Requirement: N

First Required Math Course: MAT 142 - College Mathematics

Program Math Intensity: General

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Educational Policy, MA

Learning Sciences, MA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Elementary Education (Bilingual Education and English as a Second Language), BAE (TEDLLBAE)

Campus: Tempe

Program Description:

The BAE program for elementary education, with a concentration in bilingual education and English as a second language offers students a firm

grounding in current research about and best practices for English language learners, accompanied by real-world classroom experiences.

Students can expect to learn principles of first- and second-language acquisition, foundations of various program models, global awareness and diversity in families and communities in multicultural settings, as well as academic content areas including math, language arts, computer literacy and science with a specific focus on meeting the academic and linguistic needs of English language learners.

The elementary education, bilingual education and English as a second language teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 1-8 classrooms and student teaching, which is a full-time, year-long apprenticeship known as their senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences with high concentrations of English language learners. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive, hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

The program requires six credit hours of a foreign language or its equivalent and enables students to work with second-language learners.

Graduates are recommended for grades 1-8 elementary teacher certification. Those desiring to teach in a public school must pass the appropriate Arizona educator exams, National Evaluation Series or Arizona Educator Proficiency Assessments, in both content area and professional knowledge to be certified to teach in the state of Arizona. In addition, students must complete six credit hours of a foreign language or equivalent and pass an appropriate language proficiency test to be eligible for the BLE endorsement.

Elementary Education (Science, Technology, Engineering and Mathematics), BAE (TEESTEMBAE)

Campus: Polytechnic

Program Description:

The BAE program in elementary education with an emphasis on science, technology, engineering and math has coursework that leads to an elementary education teaching certificate and highly qualified teaching status in middle school science or math. This STEM program offers students a firm grounding in math and science content, with current research and best practices accompanied by real-world experience in math and science classrooms. This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

The elementary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 1-8 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences in math or science settings. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive, hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Graduates are recommended for grades 1-8 elementary teacher certification. Those desiring to teach in a public school must pass the appropriate Arizona educator exams, National Evaluation Series or Arizona Educator Proficiency Assessments, in both content area and professional knowledge to be certified to teach in the state of Arizona.

Secondary Education (Additional Arizona Locations), BAE (TESEDBAE)

Campus: The Gila Valley, Yuma

Program Description:

Please note: This program is designed for students who complete an ASU Transfer Admission Guarantee (TAG) program. It is offered at specific Arizona locations in partnership with community colleges. Please see the admission requirements below.

The BAE program in secondary education prepares educators to teach youth enrolled in grades 6-12. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the skills and teaching abilities required to successfully teach middle or high school students.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, Mary Lou Fulton Teachers College collaborates with academic departments across the university. The program offers the following secondary education certification areas: biological sciences, chemistry, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, physical education, physics, political science and Spanish.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 6-12 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Program Math Intensity: Moderate

Admission Requirements:

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman (<https://students.asu.edu/freshman/requirements>)

Transfer (<https://transfer.asu.edu/index.php?q=transferrequirements>)

International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Transfer Admission Requirements:

ASU has a pathway that allows students to complete the ASU Transfer Admission Guarantee in secondary education, a prescribed sequence of courses that meets the requirements for the community college's Associate of Arts degree and the lower-division requirements for the ASU Bachelor of Arts in Education in secondary education. Upon completion of the TAG, students will complete the remaining requirements for ASU's secondary education BAE at a local community college. Visit <https://transfer.asu.edu/> (<https://transfer.asu.edu/>) for more information about ASU degrees offered at local community colleges. Applicants must have completed the TAG agreement and earned an associate degree for acceptance to the bachelor's degree program.

Change of Major Requirements:

A current ASU student must have completed all lower-division requirements and hold a 2.50 GPA in order to change majors to this program.

Students should note that coursework for this program is only available at specific Arizona locations. Eligible students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Secondary Education (French), BAE (EDFREBAE)

Campus: Polytechnic, Tempe, West

Program Description:

The BAE program in secondary education prepares educators to teach youth enrolled in grades 6-12. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the skills and teaching abilities required to successfully teach middle or high school students. This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, the college collaborates with academic departments across the university. The program offers the following secondary education certification areas: biological sciences, chemistry, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, physical education, physics, political science and Spanish.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 6-12 classrooms.

classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams (either the National Evaluation Series or Arizona Educator Proficiency Assessments) in both content area and professional knowledge to be certified to teach in the state of Arizona.

Secondary Education (Physical Education), BAE (ECPPEBAE)

Campus: Polytechnic

Program Description:

The BAE program in secondary education with a physical education concentration leads to a K-12 teaching certificate. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the requisite teaching knowledge and abilities to successfully teach elementary, middle or high school students. The curriculum directly aligns with Arizona's standards for teachers and the National Association for Sport and Physical Education's beginning teacher standards. This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 6-12 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. International (<https://students.asu.edu/international/future>)

Readmission (<https://students.asu.edu/readmission>)

Change of Major Requirements:

A current ASU student has no additional requirements for changing majors. Students should refer to <https://students.asu.edu/changingmajors> (<https://students.asu.edu/changingmajors>) for information about how to change a major to this program.

Transfer Agreements:

ASU has partnered with the following institutions to provide curriculum pathways for transfer to this ASU degree program.

Transfer from a Maricopa Community College in Arizona:

Chandler-Gilbert Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Estrella Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

GateWay Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Glendale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Mesa Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Paradise Valley Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Phoenix College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Rio Salado College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
Scottsdale Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)
South Mountain Community College(<http://transfer.asu.edu/maricopa/maricopa-county-community-college-district/mapp%2Brn---bsn>)

Transfer from an Arizona Community College:

Arizona Western College(<https://transfer.asu.edu/tag>)
Central Arizona College(<https://transfer.asu.edu/tag>)
Cochise College(<https://transfer.asu.edu/tag>)
Coconino Community College(<https://transfer.asu.edu/tag>)
Dine College(<https://transfer.asu.edu/tag>)
Eastern Arizona College(<https://transfer.asu.edu/tag>)
Gila Community College(<https://transfer.asu.edu/tag>)
Mohave Community College(<https://transfer.asu.edu/tag>)
Northland Pioneer College(<https://transfer.asu.edu/tag>)
Pima Community College(<https://transfer.asu.edu/tag>)
Tohono O'odham Community College(<https://transfer.asu.edu/tag>)
Yavapai College(<https://transfer.asu.edu/tag>)

Transfer from another state:

California(<https://transfer.asu.edu/california>)
Illinois(<https://transfer.asu.edu/illinois>)
Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

Graduates from secondary education are recommended for certification in an approved area for grades 6-12. The demand for well-prepared secondary teachers is strong, particularly in the areas of math and science. Job opportunities in a fast growing state such as Arizona are numerous. Graduates with a degree in secondary education work in:

- ☐ • charter schools
- ☐ • private school settings
- ☐ • public schools

Secondary Education (Political Science), BAE (TEPOLBAE)

Campus: Polytechnic, Tempe, West

Program Description:

The BAE program in secondary education prepares educators to teach youth enrolled in grades 6-12. While teacher candidates develop a strong theoretical background in their specific content areas, the program focuses on developing the skills and teaching abilities required to successfully teach middle or high school students. This program also offers a full, structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

In order to integrate teacher preparation with the secondary education requirements for an academic specialization, the college collaborates with academic departments across the university. The program offers the following secondary education certification areas: biological sciences, chemistry, earth and space sciences, economics, English, French, geography, German, history, Japanese, mathematics, physical education, physics, political science and Spanish.

The secondary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in preK-12

classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 6-12 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive, hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams (either the National Evaluation Series or Arizona Educator Proficiency Assessments) in both content area and professional knowledge to be certified to teach in the state of Arizona.

Special Education and Elementary Education, BAE (TESPEBAE)

Campus: Polytechnic, Tempe, West

Program Description:

The BAE dual program in special education and elementary education leads to the following teaching certificates: Mild-Moderate Disabilities Special Education, K-12 and Elementary Education, grades 1-8. The dual certification program prepares students to work with typical children and youth and those with mild to moderate disabilities in inclusive settings. This program also offers a full structured English immersion endorsement to work with English language learners and provides extensive experiences in integrating technology into teaching.

The dual program is designed to give preservice teachers foundational knowledge in academic content with current research and evidence-based practices in literacy, math, sciences, health and social studies; integration of technology into all areas; and real-world experience in classrooms through the iTeachAZ program.

The special education and elementary education teacher certification program is clinically embedded during the junior and senior years. The primary goal of all clinical experiences is to provide interns and student teachers with multiple opportunities to apply knowledge learned in coursework to practice in PreK-12 classrooms. Mary Lou Fulton Teachers College students complete internships during the junior year that require one day per week in grades 1-8 classrooms and student teaching, which is a full-time, year-long apprenticeship known as the senior year residency. Mary Lou Fulton Teachers College faculty and highly qualified mentor teachers from our partner school districts and charter schools collaboratively coach interns and student teachers during required clinical experiences. The clinical experience provided by the program, known as iTeachAZ, is unmatched in Arizona. It provides students with an opportunity to work directly with children and make an immediate impact on classroom achievement. This intensive, hands-on clinical experience model of teacher preparation creates highly sought-after graduates.

Because the general education classroom is a viable placement option for many students with mild and moderate learning and behavioral disabilities, training special education teachers to collaborate is emphasized throughout the professional preparation sequence. Students receive additional training in interpersonal communication and problem-solving skills. They also learn adaptive techniques and assistive technologies that facilitate the successful integration of students with diverse learning needs into general education classrooms.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exams (either the National Evaluation Series or Arizona Educator Proficiency Assessments) in both content area and professional knowledge to be certified to teach in the state of Arizona. Graduates will receive mild to moderate certification in special education for K-12 students with mild to moderate intellectual disabilities, emotional disorders, specific learning disabilities, orthopedic impairments, and other health impairments. They also receive an elementary certificate for teaching grades 1-8.

Transfer from another state:

California(<https://transfer.asu.edu/california>)

Illinois(<https://transfer.asu.edu/illinois>)

Washington(<https://transfer.asu.edu/washington>)

Career Opportunities:

National and state studies report the projected need in the next five to 10 years will be high for special education teachers. Graduates of the program will be eligible to teach in elementary education grades 1-8 and K-12 for the spectrum of high-incidence disabilities:

- ☐ • emotional disorders
- ☐ • intellectual disabilities (mild or moderate)
- ☐ • orthopedic impairments
- ☐ • other health impairments
- ☐ • specific learning disabilities

Graduates can teach in a variety of inclusive educational settings, including public, charter and private schools, as well as nontraditional settings (juvenile system, children's hospital, etc.).
