

Arizona State University

Academic Catalog Archive 2017-2018

This document provides an archival record of the academic programs offered during the 2017-2018 academic year. It is a printable option of the online catalog for accreditation organizations, agencies and university offices for data collection, evaluation purposes and referencing. The information and links presented in this archive may no longer be accurate. For current catalog information, refer to the online version of the academic catalog.

Corrections or additions to the Academic Catalog Archive 2017-2018 program information and major maps, as of August, 2017, may be provided in a future addendum. For inquiries or questions please contact academic.catalog@asu.edu.

About this Document

To navigate this version of the Academic Catalog 2017-2018 refer to the table of contents and the bookmarks provided. The table of contents provides a hyperlinked listing of resources in the order in which they appear in this document. Keyword searches may be employed as an additional means of locating resources within this document.

This document contains program descriptions and requirements for graduate degrees and certificates, undergraduate degrees, minors and undergraduate certificates. Major maps, included for undergraduate degrees, outline each degree's requirements and a recommended sequence of courses. Additionally, Arizona State University has established special transfer partnership documents with Arizona community colleges to facilitate the transition to ASU. Maricopa to ASU Pathways Program (MAPP) and Transfer Admission Guarantee (TAG) agreements for established undergraduate degrees can be found at the end of this document.

President's Welcome

A Welcome from President Michael M. Crow

"ASU maintains a tradition of academic excellence in core disciplines, and has become an important global center for **innovative interdisciplinary teaching and research.**"

As president of Arizona State University, I would like to welcome you to one of the premier metropolitan public research universities in the nation. Enrolling more than 69,000 undergraduate, graduate, and professional students on four campuses in metropolitan Phoenix, ASU maintains a tradition of academic excellence in core disciplines, and has become an important global center for innovative interdisciplinary teaching and research. A research university is inherently committed to the principle that teaching is most effectively carried out in a context that encourages the creation of new knowledge. At ASU, groundbreaking interdisciplinary research in the sciences and fields of technology complements scholarship in the humanities, social sciences, and professional schools. ASU is also a community of poets, novelists, artists, and musicians, a place where the expression of a personal vision is valued as highly as the design of a new molecule. The historic campus in Tempe, a college town surrounded by the creative ferment of a metropolitan region, provides a congenial setting for our academic community. In Mesa, ASU's Polytechnic campus is emerging as one of the nation's premier polytechnics, with an emphasis on experience-based learning and applications-based problem solving. In a beautiful setting in the burgeoning West Valley, ASU's West campus will evolve as a truly interdisciplinary college. The ASU Downtown Phoenix campus is home to world-class programs that contribute directly to their urban setting. ASU proudly champions diversity, and boasts a student body as diverse as any in the nation. Our campuses are international in scope, with students coming to ASU from all 50 states and nations across the globe to receive an education of the highest caliber. ASU is an active partner in initiatives to enhance the social well-being, economic competitiveness, and cultural depth.

New American University: Toward 2025 and Beyond

ASU Charter Video [1] from Arizona State University [2] on Vimeo [3].

ASU Charter

ASU is a comprehensive public research university, measured not by whom we exclude, but rather by whom we include and how they succeed; advancing research and discovery of public value; and assuming fundamental responsibility for the economic, social, cultural and overall health of the communities it serves.

ASU Mission & Goals

Demonstrate leadership in academic excellence and accessibility

- Maintain the fundamental principle of accessibility to all students qualified to study at a research university
- Maintain university accessibility to match Arizona's socioeconomic diversity
- Improve freshmen persistence to **90%**
- Enhance university graduation rate to **80%** and more than **32,000** graduates
- Enhance quality while reducing the cost of a degree
- Enroll **100,000** online and distance education degree seeking students
- Enhance measured student development and individual student learning to national leadership levels
- Enhance linkages to the university at all levels for all learners

Establish national standing in academic quality and impact of colleges and schools in every field

- Attain national standing in academic quality for each college and school (top 5%)
- Attain national standing in the learning value added to our graduates in each college and school
- Become the leading university academically (faculty, discovery, research, creativity) in at least one department or school within each college/school

Establish ASU as a leading global center for interdisciplinary research, discovery and development by 2025

- Become the leading American center for discovery and scholarship in the integrated social sciences, and comprehensive arts and sciences
- Enhance research competitiveness to more than **\$815 million** in annual research expenditures
- Transform regional economic competitiveness through research and discovery and value-added programs
- Become a leading American center for innovation and entrepreneurship at all levels

Enhance our local impact and social embeddedness

- Strengthen Arizona's interactive network of teaching, learning and discovery resources that reflects the scope of ASU's comprehensive knowledge enterprise
- Co-develop solutions to the critical social, technical, cultural and environmental issues facing 21st century Arizona
- Meet the needs of 21st century learners by empowering families in the education of their children, increasing student success through personalized learning pathways, and promoting a college-going culture in Arizona's K-12 schools
- Establish, with Mayo Clinic, innovative health solutions pathways capable of educating 200 million people about health care, engaging 20 million people in online health care delivery, and enhancing treatment for 2 million patients

Institutional Inclusion

Diversity Philosophy

Arizona State University is deeply committed to positioning itself as one of the great new universities by seeking to build excellence, enhance access and have an impact on our community, state, nation and the world.

To do that requires our faculty and staff to reflect the intellectual, ethnic and cultural diversity of our nation and world so that our students learn from the broadest perspectives, and we engage in the advancement of knowledge with the most inclusive understanding possible of the issues we are addressing through our scholarly activities.

As one part of this commitment, we have developed a strategic plan for diversity at ASU. Developed in consultation with a wide variety of constituencies within the university and the deans, this plan, called “Building blocks for success through people, programming and policies,” contains a statement that serves as an ongoing touchstone of our commitment, and several specific initiatives that will change and evolve over time, depending on the challenges and opportunities we have before us.

Diversity is defined in terms of representation and inclusion. Representation reflects the extent to which our students, staff, faculty and administrators proportionately reflect the regional and national populations served by our public institution. Inclusion encompasses empowerment and voice among all members of the university community in the areas of scholarship, teaching, learning and governance.

We recognize that race and gender historically have been markers of diversity in institutions of higher education; we further believe that diversity includes additional categories such as socioeconomic background, religion, sexual orientation, gender identity, age, disability, veteran status, nationality and intellectual perspective.

Diversity Initiatives

Graduate Education Diversity Resources [1] includes scholarships, career development, mentoring and other support for graduate students and undergraduates on the path to graduate school.

Southwest Borderlands Initiative [2] (SWBI) strengthens existing Arizona State University scholarly and instructional resources on the Southwest with emphasis on the region along the United States-Mexico border and enhances institutional recruitment and retention efforts toward building a faculty fully reflective of the Southwest Borderlands' diversity.

Diversity Plan: Building Blocks for Success Through People, Programming and Policies

Office of the Executive Vice President and University Provost

"We have to learn how to communicate and teach between all ethnic and cultural perspectives. Not with a dominant cultural perspective and marginal alternative cultural perspectives, but across all of these. We have not figured out how to do this.

We need to embrace cultural diversification in America and change the culture of the university as a critical first step."

President Michael Crow
(remarks delivered at the 2004 *Educating for a
Diverse America: A Summit and Symposium*,
Austin, TX)

ASU Values Diversity

Arizona State University has been in a state of accelerated transformation since 2002. Its evolution as the New American University presents remarkable opportunity for demonstrating leadership and innovation across the multiple domains of practice in higher education. One of the most critical areas where ASU can have local, regional, and global impact is diversity. As a function of its size, location, and current diversity, ASU is optimally positioned to create and evaluate new models of inclusion and, in so doing, advance the teaching, research and human resource imperatives that will guide higher education in the decades to come. In the sections that follow, we present a conceptual definition of diversity and then, the core components of a comprehensive diversity plan are identified, as are specific initiatives that follow from an application of these components.

Defining Diversity

A widely constituted Diversity Council was charged in 2005 to develop a definition of diversity. That statement reads as follows:

Diversity and excellence are inextricably linked at Arizona State University. In line with recent Supreme Court decisions related to representation, we endorse the idea that engaging diversity facilitates comprehensive understanding, effective practice, and informed responsiveness to national and global imperatives. As an institution,

ASU is committed to these ideals and to creating an environment that promotes inclusion, respect, community, and appreciation for the full tapestry that comprises the human experience.

Diversity is defined in terms of *representation and inclusion*. Representation reflects the extent to which our students, staff, faculty and administrators proportionately reflect the regional and national populations served by our public institution. Inclusion encompasses empowerment and voice among all members of the university community in the areas of scholarship, teaching, learning, and governance. We recognize that race/ethnicity and gender historically have been markers of diversity in institutions of higher education; we further believe that diversity includes additional categories such as socioeconomic background, religion, sexual orientation, gender identity, age, disability, veteran status, nationality and intellectual perspective.

Diversity and ASU's Imperatives of Excellence, Access, and Impact

Excellence is not achieved by simply repeating conventional patterns. Access extends well beyond representation to the goal of inclusion. Impact creates reverberations across time and space. Diversification of the academy, thus, requires thinking beyond singular or isolated programs or events, creating a cultural transformation that gives every member of our community an understanding of inclusion and their contribution to the effort. It also allows for measurement of solid indices of success that facilitate achievement of institutional goals. Achieving success in diversification and inclusion requires that ASU's approach involve a philosophical endorsement by the entire leadership and an operational plan that is transparent and is carried out by every person, in every area, and in every transaction.

Integrating the practice of diversity and inclusion in a large, complex organization requires commitment, resources, and cultural transformation. ASU is already one of the most diverse educational communities in the country; our aim is to make it the prototype of inclusion. This goal is achievable because we have a solid foundation and leadership that is characterized by creativity, high energy, and a commitment to university principles. ASU is well on its way to epitomizing the construct of interdependence, whereby each person and unit is aware that all are needed to contribute to the success of the whole and the success (or failure) of any member or group both influences and is influenced by the success (or failure) of other members and groups.

Engaging the 'People, Programming, & Policies' Approach

ASU's diversity plan acknowledges that an overarching framework that is comprehensible to all stakeholders and compelling in its ideology will yield the greatest success. Consequently, the 'People, Programming, & Policies' initiative asks each of us to consider 3 basic questions:

How well does the composition of our student and employee population reflect the diversity of our broader constituencies? (people)

To what extent do the planning and design of our deliverables take into account the diversity that is currently in place and/or lacking at ASU? (programming)

How do we create and review our policies to promote equity and success for all members of our university community? (policies)

By engaging these three basic questions in the practice and production of our educational, employment, and research missions, we create a shared understanding of diversity and inclusion, and stand to achieve higher levels of success.

What do these questions look like in practice? In the sections that follow, we elaborate each of these three areas (people, programming, policies), and provide exemplars of initiatives that reflect corresponding efforts respectively. The representative initiatives suggest efforts that can be taken at the department, college, and vice-presidential area levels, as well as university-wide efforts that reflect provost- and presidential-level initiatives. Moreover, the efforts as a whole invite all ASU citizens to be involved in making the New American University a place of inclusion and excellence. Thus, input and responsiveness are encouraged.

People in the context of our diverse stakeholders

ASU is the largest and one of the most diverse public universities in the country. Nonetheless, there is significant room for improvement. In 2005, 58% of our state's high school graduates were white; 29% were Hispanic/Latino; 5% African American; 3% Asian American; and 5% Native American. ASU's current undergraduate population, by comparison, is 68% white and 14% Hispanic/Latino; 10% African American; 5% Asian American; and 3% Native American. Women comprise about 1/3 of tenured and tenure-track faculty positions. The demographic patterns across our student populations, faculty, staff and administrators indicate that representational diversity remains a constant aspiration. To create change, each of our academic units and vice-presidential areas must ask: What is the current level of diversity in our unit? Is our team (students, faculty, staff, administrators) comprised of individuals from diverse groups (e.g., encouraging more women in science and engineering and more men in nursing)? If not, what changes can be made in recruitment and retention to achieve representational diversity?

Representative efforts at promoting inclusion

Representative examples of initiatives that can be undertaken to diversify the membership of our institution include: systematic review by each unit of diversification efforts, inclusive of successes, and areas in need of development; establishment and implementation of assessment procedures to govern diversity efforts within each college and vice-presidential area; development of a plan by each unit for promoting diversification in the composition of its undergraduate majors, graduate students, and workforce and for improving climate; early outreach to underrepresented students; proactive recruitment activities that yield diverse pools of qualified applicants in order to generate a competitive pool of finalists; recruitment of faculty who contribute to the

knowledge and practice of diversity; recruitment and retention of diverse administrators; resource allocation in an effort to recruit and retain individuals from underrepresented groups across all areas of the university when they are underrepresented; allocation of funds to secure target of opportunity hires for faculty who will increase diversity; initiation of partnerships with institutions that produce Ph.D. graduates from underrepresented groups; engagement of current staff members of underrepresented groups in recruitment and mentoring of new employees; recruitment and hiring of employees and administrators who will actively promote diversity; establishment of connections with current faculty organizations and departments in the service of recruiting diverse faculty and staff.

Programming and deliverables (academics, employment, communication)

As an institution of higher education, ASU:

- ∞ produces significant deliverables, including knowledge, ideas, new models of understanding, employees trained and prepared to contribute to the changing demands of the workforce, and tangible products that advance the human and global condition.
- ∞ engages in the dissemination of information through classroom and research outlets.
- ∞ recognizes that a comprehensive diversification plan in which all members take responsibility will yield the most effective and beneficial deliverables.
- ∞ underscores the importance of leadership in modeling and ensuring quality and accountability for production of a good yield.

Our ‘programming’ in these and other areas must reflect an appreciation for the role that diversity plays in the world, as well as for strengths inherent in diversification and inclusion. Programming should focus not on the production of isolated events or markers of progress that fail to be integrated into the fabric of the university, but instead emphasize a systematic approach that reflects in word and deed the institution’s commitment to the practice and science of inclusion across all areas of production.

Diversity efforts in the academic domain

Diversity and inclusion can be reflected on the academic side via:

- ✓ the research enterprise, through such efforts as defining the intellectual enterprise; inclusion of diverse populations, methodologies, and paradigms; inclusiveness in team composition; targeted beneficiaries of tangible outcomes;
- ✓ teaching, through the development and evolution of new courses with diversity content (inclusive of ASU 101 and focused and general courses); promotion of pedagogical strategies that encourage student involvement and facilitate respect for diverse perspectives; incorporation of diversity as a core element of graduate teaching assistant training; faculty development workshops in the area of intergroup dynamics and diversity; systematic programming on diversity within student residential halls;

- ✓ service efforts on campus, in the community, and in our respective professions, through promotion of service to underrepresented populations, mentoring of underrepresented students, support for ethnic and women's faculty and staff affinity groups, and educational programs for community members related to diversity.

Diversity efforts in training of employees

On the employment dimension, inclusion can be supported through initiatives such as the development of a Diversity Training Institute in the Human Resource arena (including the implementation of employee training models that take into account the needs and advantages associated with diversity, and general diversity training for all staff, faculty, and administrators to meet the needs of a diverse student body); overall development and support for new and existing programming that encourages interaction across diverse groups (e.g., intergroup dialogue opportunities for employees); increasing professional development opportunities for staff, mentoring individuals from underrepresented groups for advancement to leadership roles; recognition of both individual and unit success in diversity initiatives; mentoring programs for new faculty and employees with a core component that addresses the challenges/opportunities associated with being a member of an underrepresented group; creating liaisons to industry partners to exchange best practices for diversifying the workforce and promoting inclusion (e.g., the Diversity Leadership Alliance).

Efforts related to constructing and disseminating the message of inclusion

In the communication arena, commitment to diversity and inclusion call for systematic and ongoing review of all outreach publications for text and images that are representative; inclusion on the ASU Web site of a coherent inventory of diversity-related events, offices, programs, and groups within the university; conveyance in public appearances by administrators and other ASU representatives to the community of a clear and consistent message that diversity is an institutional priority; establishment of visiting lectureships and fellowships to bring emerging and renowned scholars from diverse backgrounds to contribute to the intellectual climate of the university; sponsorship of a Living Legends town-gown collaboration that highlight contributions of community members from diverse backgrounds; examination of symbols on campus that may reflect exclusion of different and important groups on campus.

Policies that matter

An organization's commitment to diversity must be reflected in recruiting policies, reward structures, and accountability procedures. Support for diversity and inclusion must be demonstrated at all levels of the university from the central administration to the smallest unit on campus. Our policies must be infused with a focus on the needs, benefits, and understanding of dynamics that are associated with successful diversification. Importantly, success in diversification must comprise a component of our evaluations.

Policies that reflect institutional priorities

Among possible examples of how diversity must be reflected in our policies are the following initiatives: systematic collection and reporting of recruitment, retention, and promotion rates by gender and ethnicity, and other relevant categories, as well as administrators from underrepresented groups (in comparison with overall rates); similar efforts in undergraduate and graduate student recruitment, retention, and graduation success; identification and implementation of college-specific strategies for increasing their diversity, and for monitoring and reporting progress annually; regularized self-assessments by colleges and units on a diversity template to identify progress; examination and insuring no bias in faculty and staff recognition and awards, faculty start-up packages, endowed chairs, recruitment of post-docs, and scholarship recipients; family-friendly policies (e.g., our existing approaches and policies concerning spousal accommodations and parental leave); inclusion of questions in annual and academic program reviews about initiatives undertaken by departments to address diversification in their climate, curriculum, and student, faculty and staff populations; requiring demonstrated skills in managing and increasing diversity as a standard qualification for all leadership positions; identification and rectification of inequity in workload and salary related to gender and race/ethnicity; representation of diversity on committees that have long-range impact; inclusion in the university's exit interview process questions to assist in identifying opportunities for improvement in retention of faculty, administrators, and staff from underrepresented groups; integration of diversity into all major policy changes.

Rewarding diversity

To promote achievement in tangible diversification, the institution will reward the pursuit of initiatives and efforts to promote inclusion on every level. To achieve the 'highest rating', contributions to diversity should be evident. Further reflecting our commitment to achieving diversification, diversity efforts will be rewarded in every possible way, including recognition, promotion, and participation in key university decision-making.

THE PLAN

In order to achieve the diversity we seek and promote the respect necessary in our university and society, we are launching an initial six-part initiative. The constituent elements are:

1. COMMUNICATION

To ensure visibility of our commitment, we shall maintain a web page with information on initiatives and ensure our communication efforts highlight university activities related to diversity and the promotion of tolerance.

- ∞ Create an ASU diversity Web page with links from the president's and provost's pages and links to other relevant pages. Inclusion on the ASU Web site of a coherent inventory of diversity-related events, offices, programs, and groups within the university;

- ∞ Conveyance in public appearances by administrators and other ASU representatives to the community of a clear and consistent message that diversity is an institutional priority;
- ∞ ASU home page web images and university publications should reflect the diversity of our faculty, academic professionals, staff and students.

2. UNIVERSITY DIALOGUE

Launch a multi-year initiative to promote dialogue and discussion among students, staff and faculty about the issues and challenges related to diversity. As ASU is situated in a state with a rapidly changing demography and within a region that is changing in similar as well as different ways coupled with the importance of understanding the dynamic global environment, it is important that we promote an active level of engagement of our students, staff and faculty in these issues. This multi-year initiative will have focused areas of attention each year coupled with annual goals to facilitate an assessment of our progress. This Dialogue initiative is an important element to building an environment that is welcoming of all individuals and viewpoints. Such an initiative provides the opportunity to reflect on the university as a place for differences to inform and educate, critical elements of our *raison d'être*. This initiative will be funded by the Office of the Executive Vice President and University Provost and designed and developed in consultation with a Provost's Diversity Steering Committee that will be appointed in the coming weeks. Examples of initiatives that may be incorporated into this effort include:

- ∞ Build on the success of the work of the Intergroup Relations Center (<http://www.asu.edu/provost/intergroup/>) which has programs for undergraduates, graduates, faculty and staff and the community.
- ∞ Speaker series from both within and external to the university to explore issues of race, ethnicity, sexual orientation, gender, and diversity.
- ∞ Focused discussions within residential living facilities for students.
- ∞ Colloquia or conferences featuring scholarship that addresses issues of race, ethnicity, gender, tolerance and diversity.
- ∞ Sponsorship of a Living Legends Series, oral histories of members of our university community and those in the metropolitan region to better understand how the University was shaped and formed.

After each year of this initiative, the Provost's Diversity Steering Committee will undertake a review of the initiative to determine what would be the appropriate next steps in continuing to strengthen the University's commitment to diversity. Such a review may include assessment data on changes students report as part of their experiences at ASU, as well as assessment on employee experiences and perceptions. Climate data will be collected at regular intervals in collaboration with groups such as the Commission on the Status of Women, Faculty Women's Association, Office of Academic and Institutional Cultural Change, Classified Staff Association, and Human

Resources, among others. In addition, the Steering Committee may wish to collect data on matters not studied through other data collection efforts.

The Provost's Diversity Steering Committee will serve as a liaison with the Campus Environment Teams, Commissions on the Status of Women, Faculty Women's Association, Office of Academic and Institutional Cultural Change, Intergroup Relations Center, REFOCUS, Chicana/o Latina/o Faculty and Staff Association, Ubiquity, and other organizations on all campuses interested in promoting diversity to contribute to the design, development and evaluation of the multi-year dialogue. The Committee will also work with the Provost's Office to identify opportunities to publicly recognize the research, scholarship, and creative activities of faculty from underrepresented groups.

3. COLLEGE/SCHOOL FOCUS

Recruitment and retention of a diverse faculty is everyone's responsibility, however, deans and academic chairs/directors have a special role to play in this regard and will be rewarded for their success in recruiting, retaining, and promoting excellent faculty and staff from underrepresented groups. The New American University vision cannot be realized without this commitment. To assist with recruiting, information from the Office of Diversity on the availability of minority and female or male candidates will be foundational information. Senior positions being recruited should be characterized by a heightened commitment to ensuring a diverse set of candidates to create a strong cadre of leaders and mentors who reflect ethnic and gender diversity, and recognize the need for minorities and women in such roles. Where deans identify an individual who would be a significant asset to their college or school but who is not someone they were specifically seeking through their search activity, they may make application to the Office of the Executive Vice President and University Provost for funding to support such a person. Deans will be asked to report annually to the University Provost on the success they have had in their efforts to increase the diversity of their faculty and staff and highlight every five years on the increase they have had in the recruitment and retention of the faculty and staff.

While a central mentoring program offers some opportunity for advice to untenured faculty members, the critical issue is mentoring them within their units to ensure the highest probability of success. Each college and school will be expected to develop a mentoring program designed to ensure assistant professors have the opportunity for learning about the expectations they should be meeting, enabling their scholarly success, and helping them become quality teachers (this may be done within departments not just at the college or school level). Such programs may, for example, facilitate writing groups or collaborative efforts in grant writing as suitable to the disciplines involved. As each college will be conducting an orientation program for its new faculty, efforts at mentoring can be initiated through that experience. Deans will also be asked to ensure that start-up commitments and initial teaching assignments are fairly made to avoid differences based solely on gender or ethnicity and this will be monitored by the Office of the Executive Vice President and University Provost. The design of the mentoring program and its impact and allocation of start-up funds to

individual faculty members will be reported annually to the University Provost by each dean.

There is a need to be proactive in the development of faculty from racial and ethnic minorities, women and all members of underrepresented groups. One mechanism is through the creation of a faculty pipeline through postdoctoral fellowships for racial/ethnic minorities (all areas), and in fields where women are underrepresented, such as science and engineering. Units are encouraged to apply for grants from foundations and other sources to target graduate students with fellowships designed to enhance diversity (e.g., doctoral students supported by Ford Foundation fellowships, NIH and other training grants/fellowships to support diversity, etc.), and use faculty networks to identify additional candidates. The Graduate College will be available to assist with this initiative.

The recruitment and retention of faculty from a wide variety of groups and intellectual perspectives strengthens the university by ensuring students are exposed to a diverse set of perspectives. To assist in attracting faculty from underrepresented and other diverse groups, the University will establish two new programs to be called the President's Pre-Doctoral Fellowship and President's Post-Doctoral Fellowship. The Fellowship will provide funding for a College or School to attract a promising new scholar who has only their dissertation to finish or has recently finished the doctoral degree (or other appropriate terminal degree) and whom the College or School is prepared to offer an assistant professorship. The successful candidates will be provided with one year to either complete their dissertation and begin their scholarly activities beyond the dissertation or complete a one year post-doctoral training program to initiate their program of research. During this Fellowship there will be no teaching assignments. Funding will be provided by the Office of the Executive Vice President and University Provost to a maximum of \$40,000 for nine months for Pre-Doctoral Fellows and discipline specific funding determined on a case-by-case basis for Post-Doctoral Fellows (benefits are the same as those offered post-doctoral fellows; faculty benefits begin the following year with the beginning of the appointment as an assistant professor).

The University Provost will consider facilitating hiring of qualified spouse/partners at the request of the deans when the partner's position will be in a different college from that of the person originally hired. The funding available will be determined on a case-by-case basis representing the unique circumstances each of these opportunities presents to the university with provost office funds returning to the central administration when the person leaves the university.

It is also essential that we develop a greater capacity within our own faculty to assume leadership roles. To that end, the proposed Faculty Women's Association's Leadership Program is an initiative we would like to support and see extended in each college or school at ASU. Less than a third of all department chairs/directors at ASU are women and even fewer are women of color suggesting that a training initiative such as the one proposed by the Faculty Women's Association has the potential to substantially enhance

the pool of faculty interested and able to assume these important roles. The proposed initiative is one that can be adapted for each college or school.

4. TRAINING FOR CHAIRS AND DEANS

The importance of identifying unexamined biases and development of strategies to overcome such biases and gender (and race) schemas are a primary recommendation of the National Academy of Science report, *Beyond Bias and Barriers: Fulfilling the Potential of Women in Academic Science and Engineering* (2006). ASU will incorporate diversity training into leadership programs for chairs, deans, and associate deans. Diversity training will include:

- ∞ Speaker series, with highly respected scientists and engineers from top research universities addressing strategies to overcome biases in hiring, promotion, and tenure decisions, and to promote a climate that encourages productivity and fair treatment for all. Time for discussion would follow, and speakers would be available for meetings and consultation with faculty and administrators.
- ∞ Workshops on mentoring, including how to have difficult conversations with faculty designed to help them progress towards tenure and promotion.
- ∞ Workshops on climate, with focus on how to create and maintain a climate in the unit and college that is welcoming and supportive for all members of the faculty (as well as postdoctoral scholars, graduate students, and undergraduates). Subtle biases and gendered and racialized expectations will be discussed, as well as models for creating flexible yet fair policies, procedures and practices that enhance productivity and career satisfaction.
- ∞ Workshop on developing diversity councils within colleges and how to engage these councils most effectively.
- ∞ Training to create a 'diversity template' so that colleges and academic units can conduct self-assessments on a regular basis to determine where progress has been and where continued efforts are needed.
- ∞ Department chairs, directors and deans have the opportunity to be catalysts for enhancing the pool of faculty who may move into leadership roles. Working with groups such as the Office of Academic and Institutional Cultural Change (AICC) established by the President and reporting to the Office of the Executive Vice President and University Provost and other university resources, chairs, directors and deans should consider ways to support the development of women and members of all underrepresented groups into leadership roles.

In addition to training for chairs and deans, there is a need to develop more leaders for senior level leadership roles. In the preceding section, the initiative to train more women for leadership roles at the department level was described. It is also our intent to increase the number of underrepresented groups in leadership roles beyond that of department chair. Therefore, the Office of the Executive Vice President and University Provost will initiate a fellowship program to increase the pool of women interested in and able to assume more senior leadership roles within the university.

5. Building Synergy

There are a number of organizations and units that deal with issues of diversity on a regular basis. These include the Intergroup Relations Center, Commission on the Status of Women, the Faculty Women's Association, and Campus Environment Teams. It would be advantageous to examine ways to build greater synergy arising from their collective efforts to increase the impact within ASU. One consideration would be to co-locate all of the staff in these units in one place so that it might promote greater communication and collaboration while also providing assistance to each other on projects.

6. Building Private Investment to Advance Diversity

Creating bridges to the community and identifying resources to support faculty, staff and students are responsibilities of the deans and the central administration. The deans of the colleges and schools working in collaboration with the efforts of the President, Provost, and President of the ASU Foundation will be encouraged to develop such opportunities.

- ∞ As such, deans may seek to establish funds and endowments to support scholarships, professorships, chairs, annual lectures, and small conferences. These may include such things as:
 - Expanding existing lecture series (e.g., Wade Smith Memorial Lecture on Race Relations) to include additional lectures conducive of conversations;
 - Establishment of mid-career endowed professorships/chairs to encourage and retain "rising stars," with a substantial percentage directed towards members of underrepresented groups among the faculty;
 - Engaging Industry Partners through creative partnership. These should include but not be limited to businesses that have supported diversity at ASU (e.g., Wells Fargo). Develop venues through which they can help showcase the importance of diversity in higher education from the perspective of industry partners seeking talent.
- ∞ All fund raising efforts will be coordinated by the Foundation to ensure the best return for the University and the optimization of our supporters interests.

Monitoring and Oversight

The Office of the Executive Vice President and University Provost will engage in monitoring and oversight designed to facilitate and encourage best practices, as well as to ensure compliance with federal law. To recapitulate our commitment:

- ∞ The University Provost will reward deans for the diversity of their faculty, staff, and students, and will expect deans to reward chairs and directors for diversity in their departments.

- ∞ As a primary component of our Office of Diversity monitoring:
 - Deans and chairs/directors will be provided with nationally available data for women and racial/ethnic minorities in their fields (from the NSF Survey of Earned Doctorates and/or IPED data).
 - New faculty hires will be reviewed annually, by college and academic unit, to assess progress in hiring a diverse faculty at all ranks. Salary and start up packages will be reviewed at this time with attention to ensure lack of discrimination by gender or race/ethnicity.
- ∞ The University Provost will appoint or review membership on major awards committees (e.g., Regents Professors, Presidents' Professors) and will review nominations for these awards.
- ∞ Compensation, research support, and other support and teaching loads will be reviewed annually for lack of discrimination in faculty ranks and titles, by gender, and ethnic identity.

Academic accreditation

University Program Review/Accreditation Office

All Arizona State University academic programs are fully accredited by the North Central Association Higher Learning Commission. The institution has been continuously accredited by the Higher Learning Commission since 1931.

This accreditation is reviewed for reaffirmation every ten years, with the next review in 2023. (For more information on the reaffirmation process, see here [1].) The official letter from the Higher Learning Commission communicating the status of ASU's accreditation is available for public viewing: Higher Learning Commission Letter [2].

A number of programs also have specialized accreditations [3] by professional and national accrediting agencies.

Functions of the UPRA Office

Liaison to the Higher Learning Commission (HLC)

The UPRA monitors institutional compliance with HLC requirements and coordinates the institutional evaluation for continuing accreditation by the HLC every ten years. The UPRA also facilitates HLC approval of program and/or institutional changes where required. As a program prepares for accreditation, it is encouraged to visit the Higher Learning Commission website [1] to find information about HLC standards and procedures for accreditation.

Professional accreditation oversight

The UPRA works closely with academic units and programs that seek new accreditation or seek re-accreditation. This oversight includes:

1. Coordination of site visitors schedule and university administrators. All programs are asked to coordinate the site visitors schedules/itinerary with the UPRA – this to insure that appropriate university administrators will be available at the time of the site visit.
2. Review of self-study draft. The UPRA will conduct a review of the self-study draft to assure a self-study that meets the accreditation criteria and guidelines and addresses any problems from previous accreditation and other issues that may be present. A written report will be returned to the program with recommendations and edits.
3. Briefing paper. The UPRA will review the briefing paper draft (prepared by the program) and submit recommendations and edits before the final paper is distributed to university administrators and other appropriate officials. The briefing paper is an in-house confidential resource and not shared with the site visitors.
4. The site visit report and response to the report. The UPRA will review the site visit report and the program's draft response, looking for accuracy, completeness, and tone. Based on this review, written recommendations for the program response will be made.
5. Accreditation Status Letter. The original letter is held in the UPRA as part of the accreditation permanent records. The UPRA will send copies of this letter to the program and supervising administrator. The UPRA will enter the date of the next accreditation review into the university calendar, which is maintained by this office.

Note: Repository for all accreditation documents.

All programs are asked to provide copies of all accreditation records, reports and other documentation to the UPRA, as they become available. Records will be held in the UPRA until sent to University Archives.

Academic Program Review oversight

The Arizona Board of Regents (2-208) requires Academic Program Reviews [2] at least once every seven years. Periodic program reviews provide a mechanism for faculty to evaluate the effectiveness, progress and status of their academic programs on a continuous basis.

At Arizona State University, the Executive Director for Accreditation and Program Review serves as the University Program Review/Accreditation Officer and is responsible for oversight of program reviews. The Office of the University Provost coordinates the Academic Program Review process, which covers all program inventory of an academic unit including undergraduate and graduate programs as well as other curricular offerings such as certificates.

Centers and Institutes oversight

Arizona State University is home to various centers and institutes that blend the passions of exceptional teachers and scholars across disciplines. University Program Review/Accreditation Office provides oversight for these centers and institutes. For a complete list, please visit Centers and Institutes [3].

For questions or updates to the centers and institutes, please contact centers-institutes@asu.edu [4].

October 3, 2013

President Michael M. Crow
Arizona State University
PO Box 2203
Tempe, AZ 85287-2203

Dear President Crow:

This letter is formal notification of the action taken concerning Arizona State University by the Higher Learning Commission. At its meeting on September 24, 2013, the Institutional Actions Council (IAC) acted on the items below. This letter serves as the official record of this action, and the date of this action constitutes the effective date of your new status with the Commission.

Action. IAC continued the accreditation of Arizona State University with the next Reaffirmation of Accreditation in 2022-23.

If the current Commission action includes changes to your institution's *Statement of Affiliation Status (SAS)* or *Organizational Profile (OP)*, the changes will appear in these documents within three weeks of the date of action. The *SAS* is a summary of your institution's ongoing relationship with the Commission. The *OP* is generated from data you provided in your most recent Institutional Update.

The Commission posts the SAS, OP and this action letter with the institution's directory listing on its website. Information for institutions on notifying the public of this action is available at <http://ncahlc.org/Information-for-Institutions/institutional-reporting-of-actions.html>.

If you have questions about these documents after viewing them, please contact Susan Devine. On behalf of the Board of Trustees, I thank you and your associates for your cooperation.

Sincerely,

Sylvia Manning
President

Academic Calendar

ASU regularly offers classes in the fall, spring and summer terms with the following components:

Fall/Spring Session A: first 7.5-week session
 Fall/Spring Session B: second 7.5-week session
 Fall/Spring Session C: full semester (15 weeks plus final exams)

Summer Session A: first 6-week session
 Summer Session B: second 6-week session
 Summer Session C: 8-week session

If a class is scheduled in a session other than Session A, B or C, the drop/add/withdrawal deadlines are prorated based on the length of the class. Check the calendar icon next to each class on your schedule in My ASU [1] for the prorated deadline dates.

All dates are subject to change without notice.

- Fall 2017 [4]
- Spring 2018 [5]
- Summer 2018 [6]

Tuition and Fees

Residency

Residency for Tuition Purposes

In Arizona, as in all other states, tuition at publicly supported universities is lower for residents than non-residents. Residency classification is determined for all students in accordance with guidelines provided by the Arizona Board of Regents' (ABOR) [1], which reflect current Arizona revised statutes (15-1801) [2]. Students that are classified as non-residents can request reclassification and must support their request with documentation that shows compliance with ABOR policy and current state law.

Requesting Residency Reclassification

1. **Review** current residency requirements [3]
2. **Complete** your residency petition using the residency reclassification application [4] ¹
3. **Submit** all required documentation [5] to the Residency Classification Office **after your petition has been submitted**.

You can monitor the status of your petition from the residency reclassification application [4]. Requests are reviewed in the order they are received and are reviewed only after ALL supporting documentation is received.

¹The residency application is only available to current, active, non-resident students. Students admitted for future semesters may not be able to access the application until after term activation (which occurs shortly before a student is given the ability to register for future terms).

Petition Deadlines

Semester	Petition Deadline	Priority Deadline ¹
Spring 2017	January 13, 2017	November 1, 2016
Summer 2017	May 17, 2017	April 1, 2017
Fall 2017	August 23, 2017	June 1, 2017
¹ Petitions submitted (and supported by ALL required documentation) before the priority deadline will be reviewed prior to the petition deadline for that term (as shown above). Petitions submitted after this date will be reviewed in the order in which they are received and may not be evaluated until after classes begin.		
² Summer petitions are only evaluated for students registered for summer classes.		

You will not be permitted to submit a request for reclassification after the posted deadline. Per ABOR policy, failure to submit a request for reclassification by the deadline constitutes a waiver of your right to petition for that term. Late requests cannot be accepted and there is no option to appeal a petition submitted after the deadline.

General information [6]

Frequently Asked Questions [7]

Residency Classification for Deferred Action for Childhood Arrivals (DACA) Students [8]

Non-Resident Tuition Rate for Arizona High School Graduates [9]

Students are responsible for reading and understanding all requirements related to residency classification. Lack of knowledge or incorrect assumptions about residency will not excuse the requirement to be familiar with the policies and procedures listed herein.

Appeal Deadlines

If your request for reclassification is denied, you can request an appeal. Your denial letter will include a summary of our decision and an appeal deadline. To ensure that your appeal is heard as soon as possible, your request for a hearing should also be made as soon as possible. Requests made after the deadline will not be granted. See residency appeals [10] for additional information.

Information regarding residency classification, including the content on these pages, is subject to change without notice. Direct all questions to Residency Classification at 480-965-7712 or email residency@asu.edu [11].

Residency Guidelines

The general rules for obtaining resident status are outlined below and correspond to the various scenarios in which a student might be eligible. Review each to determine which best applies to your situation. If you are unsure or would like to speak with someone, please call the Residency Classification Office at 480-965-7712 or send email to residency@asu.edu [1].

Refer to the following sources for additional information:

- Arizona Board Of Regents (ABOR) Policy Manual, Section B: Tuition Classification (4.201-208) [2]
- Arizona Revised Statutes - Title 15 (A.R.S. 15-1801 to 1807) [3]
- Verification of Citizenship or Lawful Presence [4]

Independent Student Petition

Per ABOR policy, an independent student must document:

1. Objective evidence of continuous presence in Arizona for 12 months, and
 2. Objective evidence of intent to be a resident for tuition purposes of Arizona as demonstrated by the severance of ties to the individual's former state of residence. Intent will be evaluated by the classification officer.
- Objective evidence of financial independence
 - State in which motor vehicle is registered.
 - Source of payment for the individual's auto insurance policies.
 - Date of issuance and state issuing driver's license or state identification card.
 - Employment history
 - The transfer of major banking services to Arizona
 - Applications for loans, scholarships, grants-in-aid, or other such assistance
 - Voter registration
 - Place of prior attendance in educational institutions, including high schools, and any information held by such schools affecting domicile
 - Marital status and work record of registrant and spouse
 - Change in permanent address on all pertinent records
 - State in which registered with Selective Service
 - Military records
 - Ownership of real property

3. All of the evidence is weighed under the presumption that a nonresident student's presence in Arizona is primarily for the purpose of education and not to establish domicile, and that decisions of an individual as to the intent to establish domicile are generally made after the completion of an education and not before.
4. Evidence indicating intent must exist at the beginning of and be maintained throughout the 12-month period of continuous presence needed to establish residency classification. Acts or events occurring less than 12 months before the last day of registration may be considered as evidence of the lack of such intent.
5. A statement of intent by the student should be weighed in light of the fact that the student knows that he or she will realize a substantial reduction in tuition by being classified as a resident for tuition purposes.
6. Each item presented for determination shall be subject to the classification officer's or review committee's decision as to the weight to be given to it, and such officer or committee shall be the sole judge of the authenticity or truthfulness of any material or statements submitted as supportive evidence. The classification officer may require original or certified copies of documentation.
7. If a minor applies for classification as a resident and alleges that he or she is an emancipated individual, that individual must also establish that:
 - He or she is not living with a parent; and
 - There has been a complete severance of the parental relationship to all legal rights and liabilities, including but not limited to care, custody, control, and service.
8. Unless the contrary appears to the satisfaction of the classification officer or review committee making a classification determination, it shall be presumed that:
 - No individual has established residency for tuition purposes in Arizona while attending any education institution in Arizona as a full-time student in the absence of objective evidence to the contrary.
 - If an individual is absent from Arizona for more than 30 days, they must provide objective evidence that they retained their Arizona domicile.

Subject to ABOR Policy 4-102, an individual who does not hold a visa that requires the individual to maintain a foreign domicile or that otherwise prohibits establishing domicile in Arizona shall be classified as a resident if the individual can establish that on or before the last day of registration, the individual satisfied one of the following criteria:

1. Meets the requirements for classification as a resident for tuition purposes, or
2. Qualifies as a resident refugee student by virtue of having been granted refugee status in accordance with all applicable laws of the United States and having met all other requirements for domicile in this Arizona; provided that in establishing domicile, the individual must not hold a visa that prohibits establishing domicile in Arizona.

Dependent Student Petition

Per ABOR policy, the dependent exception requires:

- The individual is domiciled in Arizona, and
- The domicile of one or both of the individual's parents is in Arizona and
- One or both of the individual's parents are entitled to claim the individual as a dependent child for federal and state tax purposes (whether or not the parent actually claims the individual as a dependent child).

Spouse Petition

Per ABOR policy, the spouse exception requires:

- The individual is domiciled in Arizona, and
- The individual's spouse has established domicile in Arizona for at least 12 months immediately preceding the last day of registration, and
- The spouse has demonstrated financial independence, and
- The individual's spouse is entitled to claim the individual as an exemption for federal and state tax purposes.

Transferred Employee Petition

Per ABOR policy, the transferred employee exception requires:

- The individual is domiciled in Arizona and is:
 - Employed by an employer which transferred the individual to Arizona for employment purposes, or
 - The spouse of such an employee.

“Transfer” means an individual who was transferred by his or her employer fewer than 12 months prior to the term in question, is not self-employed or employed in a family owned business not previously operating in Arizona, and can provide proof of payment or reimbursement of moving expenses by his/her employer.

Military Exception

Per ABOR policy, the military exception requires:

- The individual is a member of the armed forces of the United States stationed in Arizona pursuant to military orders or is the spouse or dependent child of that individual who is a member of the armed forces of the United States stationed in Arizona pursuant to military orders at the time the spouse or dependent child is accepted for admission.
- The individual is a member of the armed forces of the United States stationed outside of Arizona pursuant to military orders or is the spouse or dependent child of that individual and the individual claimed Arizona as their legal residence for at least twelve consecutive months prior to the last date of registration.
- Per Arizona H.B. 2415: [5]the individual has demonstrated objective evidence of intent to be a resident of Arizona and is using transferred post-911 G.I. Bill benefits during a time in which the transferor is a member of the uniformed services serving on active duty.

Veteran Exception

Per ABOR policy, the veteran exception requires:

- The individual holds an honorable discharge from the uniformed services of the United States from either active duty or reserve or National Guard status, or has retired from active duty, or reserve or National Guard status. Such individual shall be granted immediate classification as an in-state student and, while continuously enrolled, does not lose in-state student classification if the individual has demonstrated objective evidence of intent; or,
- The individual has demonstrated objective evidence of intent to be a resident of Arizona and is a veteran as defined in title 38 of the United states code who, while using chapter 30 or 33 educational benefits, enrolls within three years after the veteran's discharge from active duty service of ninety or more days; or,
- The individual has demonstrated objective evidence of intent to be a resident of Arizona and does not meet the requirements prescribed sections iii and iv of ABOR 4-203.7.C, while using chapter 30 or 33 educational benefits, enrolls within three years after the veteran's discharge from active duty service of ninety or more days; or,
- The individual has demonstrated objective evidence of intent to be a resident of Arizona and is using benefits under the marine gunnery Sergeant John David Fry Scholarship prescribed in 38 United States Code section 3311(b) (9).

Native American Exception

Per ABOR policy, the Native American exception requires:

- The individual is an enrolled member of an Indian tribe recognized by the United States department of Interior whose reservation land lies wholly or partially in Arizona and extends into another state.

Eligible Tribes:	
<ul style="list-style-type: none">• Ak Chin Indian Community of the Maricopa (Ak Chin)• Cocopah Tribe of Arizona	<ul style="list-style-type: none">• Navajo Nation• Pascua Yaqui Tribe

<ul style="list-style-type: none"> • Colorado River Indian Tribes of the Colorado River • Indian Reservation • Fort McDowell Yavapai Nation • Fort Mojave Indian Tribe • Gila River Indian Community • Havasupai Tribe • Hopi Tribe • Hualapai Indian Tribe • Kaibab Band of Paiute Indians 	<ul style="list-style-type: none"> • Pueblo of Zuni • Quechan Tribe • Salt River Pima-Maricopa Indian Community • San Carlos Apache Tribe • San Juan Southern Paiute Tribe • Tohono O'odham Nation • Tonto Apache Tribe • White Mountain Apache Tribe • Yavapai-Apache Nation • Yavapai-Prescott Tribe
--	--

AmeriCorps/VISTA Exception

Per ABOR policy, the AmeriCorps/VISTA exception requires:

- The individual has participated in the AmeriCorps program or the Volunteers in Service to America (VISTA) program for at least one year in Arizona.

Required Documentation [6]

Please Note: a formal petition is not required for the AmeriCorps/VISTA exception

Teacher Waiver

Per ABOR policy, the Teacher Waiver requires:

- The individual is domiciled in Arizona and an employee of a public school district in Arizona and is under contract to teach on a fulltime basis, or is employed as a full-time noncertified classroom aide at a public school within that school district. For purposes of this paragraph, the individual is eligible to pay in-state tuition only for courses necessary to complete the requirements for certification by the State Board of Education to teach in a public school district in Arizona.
- Teacher waivers are effective only for the semester for which they are submitted. You will need to submit a new waiver request for subsequent semesters.

Residency Information

The following information should be reviewed in its entirety prior to submitting a request for reclassification. Your request and all correspondence with the residency office starts with the presumption that you have read this information and, when appropriate, asked for clarification or additional information.

Deadlines

Requests for reclassification will not be accepted after posted deadlines [1] for each semester. Per ABOR guidelines, failure to submit a request for reclassification by the deadline constitutes a waiver of your right to petition for that term.

- **Spring 2017:** January 13, 2017 (priority deadline is November 1, 2016)
- **Summer 2017:** May 17, 2017 (priority deadline is April 1, 2017)
- **Fall 2017:** August 23, 2017 (priority deadline is June 1, 2017)

Documentation

You are responsible for supporting your request with appropriate documentation. When you submit a reclassification request, a task will be posted to your MyASU page that informs you of what items are required from you. Once we have everything we need, this task will be removed.

The university considers all information relevant to your request. We will verify the authenticity of all documentation provided and may seek additional information. Incomplete or missing documentation suggests a *lack* of evidence; for any item that is not provided, please provide written explanation.

All evidence is evaluated under the presumption that a non-resident student's presence in Arizona is primarily for the purpose of education and not to establish domicile. Barring clear evidence to the contrary, per ABOR policy, students do not establish domicile in Arizona while enrolled as a full-time student at any educational institution.

Applications and accompanying documentation will be retained by Arizona State University in accordance with university-approved requirements. All information will be kept confidential as required by law and university policies.

Student Responsibilities

All correspondence shall be sent to the contact information on file with the University. It is your responsibility to ensure that your contact information on your MyASU [2] page is current.

Misrepresentation or falsification of information may be costly. Students who have omitted, falsified or misrepresented any information in effort to obtain resident status will be referred to **Student Rights and Responsibilities** [3] for disciplinary action and may be denied the opportunity to request reclassification for current and future terms.

Review Process

Requests are reviewed by term in the order in which they are received. Processing times vary and are largely dependent on when a request and all required documentation is submitted. In general, requests are evaluated within 4-6 weeks of submission, but will take significantly longer if the request is submitted after August 1 (for fall) or January 1 (for spring). Students needing a decision prior to the first day of classes should submit their request by the priority deadline.

There are no exceptions granted due to unusual circumstances or financial hardship. ABOR policy defines the circumstances under which a student can be classified as a resident for tuition purposes and the Residency Office does not have the authority to make exceptions.

Your request and documentation will be evaluated by a residency specialist. Submitting everything requested offers no guarantee of approval. We will weigh all evidence submitted and decisions will be rendered in compliance with ABOR policy. If denied, you will be provided with a summary of how this decision was made.

You can check the status of your request by returning to the Residency Web Application. The status of your request will be one of the following:

- **Submitted:** Your request has been submitted and received by the residency office.
- **In Queue:** Documents supporting your request have been received, but have not yet been reviewed by an evaluator.
- **Documentation Needed:** Your request has been reviewed by the residency office but you have not yet submitted all required documentation.
- **Contact Residency:** Your request is under review and we need to speak with you. Please contact the residency office at 480-965-7712.
- **Pending:** New documents supporting your request have been received, but have not yet been reviewed by an evaluator.
- **In Review:** Your request is under review and no further action is required from you at this time. A decision or contact from the Residency office should occur within 10 days.
- **Approved:** Your request was approved and your status has been changed to resident. You will receive formal notification of your approval.
- **Denied:** Your request was denied. An email will be sent to your @asu email address with additional information.
- **Withdrawal Warning:** Your supporting documentation has not been provided. If documents are not received within the next 7 days, your petition will be withdrawn.
- **Withdrawn:** Your request has been withdrawn from consideration and will not be evaluated.

Tuition and Fees

You are responsible for paying all tuition and fees by the tuition deadline date. Having a request for reclassification pending does not waive this responsibility. Tuition balances not paid in full by the tuition deadline will be subject to late fees and payment plans per University policy. IF your petition is approved, a refund of the tuition difference will be generated; however, late fees, if applied are not refunded.

There is a \$50, non-refundable fee required if you are requesting reclassification as an independent student, dependent student, spouse or transferred employee. A receipt confirming payment of this fee should be included with your submitted documentation. Your account will be billed by the residency office if a decision on your request is rendered and you have not provided proof of payment.

Financial Aid

Financial Aid. Financial aid is calculated differently for residents and non-residents. Thus, if your status changes to residency, your financial aid will be adjusted accordingly. Your aid may be reduced or cancelled and you may be required to return funds already disbursed to you. If you have questions, contact **Student Financial Assistance** [4].

Citizenship/Lawful Immigration Status

Citizenship/Lawful Immigration Status. In 2006, Arizona voters passed proposition 300 which requires all students who are classified as residents for tuition purposes to provide verification of citizenship, permanent residency or other lawful immigration status. Students that cannot verify their lawful presence cannot be classified as residents for tuition purposes. Please go to **Citizenship/Lawful Immigration Status** [5] for additional information.

Visa Types and Residency

Visa Types and Residency. Only persons who are entitled to reside permanently in the U.S. are eligible to be residents for tuition purposes. These students must still prove they also meet current ABOR guidelines for residency. Temporary, non-immigrant visas do not allow an individual to obtain a permanent status in Arizona regardless of the length of the visa or the number of times it is renewed. Resident students that are issued a non-eligible visa type will be changed to non-resident. Please see **Visa Types and Residency Eligibility List** [6] for additional information.

Documents Required

Request for Reclassification

Students who have submitted a request for reclassification must also provide appropriate supporting documentation, which is determined by the submitted petition type. Your request cannot be evaluated without this documentation. Petitions that are not supported by appropriate documentation will be denied or withdrawn.

1. **Confirm** your residency petition has been submitted: residency reclassification application ¹ [1]
2. **Submit** all required documentation [2] to the Residency Classification Office **after your petition has been submitted**.
 - Documents can be submitted at any University Registrar Services location [3] or submitted electronically as email attachments to residencydocs@asu.edu [4].
 - Documents submitted without a petition are not reviewed ²

Complete and print the appropriate "Supporting Documentation Checklist" from the list below. Include this form with all documentation submitted.

\$50 fee required <ul style="list-style-type: none">• Independent Student [5]• Dependent Student Exception [6]• Spouse Exception [7]• Transferred Employee Exception [8]	No fee required <ul style="list-style-type: none">• U.S. Military (active) [9]• Veterans [10]• Native American Exception [11]• Teacher Waiver [12]• AmeriCorps/VISTA Exception ² [13]
<p>Petition fees can be paid in person at Student Account & Cashiering Services [14] - a copy of your receipt must be given to the residency office to confirm payment. The Residency Office cannot accept or process fee payments.</p> <p>¹ <i>The residency application is only available to current, active, non-resident students. Students admitted for future semesters may not be able to access the application until after term activation (which occurs shortly before a student is given the ability to register for future terms).</i></p> <p>² <i>A formal petition is not required for the AmeriCorps/VISTA exception.</i></p>	

Additional Information

- Additional documents may be requested by the Residency Classification Office.
- The burden of proof belongs to the student; it is your responsibility to support your petition with appropriate documentation.
- Each item presented is subject to review by the residency evaluator who shall be sole judge of the authenticity or truthfulness of any material or statements submitted as supportive evidence.
- The task on your My ASU [15] page reminding you to submit your documentation will be removed once all required items are received.
- Documents submitted without a formal request for reclassification will not be considered. You must first request reclassification via the Residency Reclassification Application [1].

Documents must be **legible** and originals are **not** required. Applications and accompanying documentation will be retained and kept confidential as required by law and university policies. Submitting documents electronically carries some risk and students are advised to redact sensitive information prior to submission. Please do not use three-ring binders or have your documents spiral bound.

Residency Appeals

The residency classification appeal process affords students who have had their residency petition denied the opportunity to present new evidence and/or testimony before the University Residency Appeals Committee, who will subsequently render a final decision. An appeal is only for students that have had petitions formally denied by the Residency Office are eligible. This committee is bound to the same ABOR policies as the Residency Office and does not have authority to make exceptions. The committee is staffed by faculty, staff and students from across the university. Staff members from the Residency Office are not permitted to serve on this committee.

Appeal Deadlines

Spring 2017: February 17, 2017

Summer 2017: June 21, 2017

Fall 2017: September 27, 2017

Per ABOR Policy, student requests to appeal their residency classification must be submitted no later than 35 days after the last day of registration for the term for which the initial petition was submitted. Failure to properly file the appeal request prior to the established deadline date constitutes a waiver of right to appeal.

Appeals cannot be requested until after a decision on your petition has been made.

Scheduling

Appeal hearings are scheduled on a first-come, first-served basis. All students are encouraged to submit their appeal requests within 7 days of notification of denial. Prompt requests will be given priority. In all situations, your appeal will be scheduled to avoid conflicts with your current class schedule.

Once an appeal has been scheduled, cancellations or changes must be submitted in writing to the Residency Classification Office **no later than five business days** before the scheduled appeal.

The Appeal Process

1. **Review** your denial letter, decision summary and Arizona Board of Regents (ABOR) requirements [1].
2. **Submit** a written request for an appeal hearing using the Residency Appeal Form [2].

3. **Provide** new documentation with your appeal request. All supporting documentation must be submitted no later than 10 business days prior to your scheduled hearing.
4. **Attend** your scheduled hearing. Your hearing will be held whether you are present or not.
5. **Prepare** yourself to answer questions about your petition at your appeal hearing.

The appeal committee members will review your petition independently in its entirety prior to your hearing and may consider all aspects of your application, not just the points indicated in your decision summary. A decision will be made at the conclusion of your hearing; however, the committee may vote to delay their decision for up to 10 days.

All appeal hearings are open meetings and anyone may attend. To comply with the Arizona Open Meeting Law, you must consent to have your information heard by all those in attendance by signing a FERPA waiver (Family Educational Rights and Privacy Act of 1974). Students can elect to be represented by an advisor or counsel at their expense. Please inform the Residency Classification Office if you plan to attend with representation.

Decisions of the Residency Classification Appeal Committee are final. Appellants will be notified by certified letter of the Appeals Committee decision. Appellants who are reclassified as resident students will be refunded the out-of-state portion of the tuition that has been paid for the term in question.

Students with pending appeals are subject to petition deadlines for future terms. The decision to petition for future terms must be made prior to the posted deadline for the given term regardless of the appellant's status with any pending appeal.

Frequently Asked Questions - Declaring Arizona Residency

1. I indicated that I was an Arizona resident on my admissions application, yet I am classified as a non-resident and was charged the non-resident application fee. How can I fix this?
2. I am currently attending a community college in Arizona as a resident; does that make me a resident at ASU?
3. I am a continuing student; will my residency automatically change after one year?
4. I was born and raised in Arizona then left for a short period of time before returning, can I still be classified as an Arizona resident for tuition purposes?
5. My parent is an ASU alumnus; does it have any effect on my residency classification?
6. Does living in Arizona with a relative other than my parents have any effect on residency status?
7. I am a dual resident of Arizona; can I be considered a resident for tuition purposes?
8. My parents live out-of-state but I attend an Arizona high school; will I be considered a resident if I graduate from an Arizona high school?
9. I attended an Arizona institution using the WUE (Western University Exchange) or WICHE (Western Interstate Commission for Higher Education) program; will I be considered a resident?
10. Are there any hardship exceptions?
11. I own property in Arizona; doesn't that make me a resident?
12. If I marry an Arizona resident, can I be classified as a resident?
13. I am a research assistant, teaching assistant or graduate assistant and have been paying resident tuition. Am I a resident?
14. How does Deferred Action for Childhood Arrivals (DACA) affect residency classification?

I indicated that I was an Arizona resident on my admissions application, yet I am classified as a non-resident and was charged the non-resident application fee. How can I fix this?

Your residency classification is determined by a review of all of the information provided on your admissions application in accordance with guidelines provided by the Arizona Board of Regents. Your status as a non-resident is a result of one or more factors used to determine this classification. Please review the Residency Classification web page and contact a residency specialist if you have any questions.

I am currently attending a community college in Arizona as a resident; does that make me a resident at ASU?

Not necessarily. Residency for tuition purposes for the three state universities is determined according to guidelines established by the Arizona Board of Regents (ABOR). The community colleges are not governed by ABOR and your classification as a resident at the community college may or may not be in compliance with current ABOR policies.

I am a continuing student; will my residency automatically change after one year?

No. Your status will remain non-resident and any student wanting to be re-classified must initiate the process by contacting the residency office and submitting a petition by the appropriate deadline. Simply being a student at ASU for one year is not sufficient for residency purposes per ABOR policy, which reads, "No individual has established residency for tuition purposes in Arizona while attending any education institution in Arizona as a full-time student in the absence of objective evidence to the contrary."

I was born and raised in Arizona then left for a short period of time before returning, can I still be classified as an Arizona resident for tuition purposes?

Leaving Arizona will not result in a loss of Arizona residency unless your absence is accompanied by actions that indicate intent to establish a new domicile elsewhere. Former residents of Arizona who established domicile elsewhere would be classified as non-residents upon return and would not be eligible for residency until current ABOR policies are met. Residency classification is re-visited after any break in enrollment or absence from the university.

My parent is an ASU alumnus; does it have any effect on my residency classification?

No. Your residency classification is evaluated against current ABOR policy and your parent's status as an alumnus is not a consideration.

Does living in Arizona with a relative other than my parents have any effect on residency status?

No. Your status will be determined based on a review of your situation, but living with family members or friends is not an indicator of intent or domicile and will not influence your status.

I am a dual resident of Arizona; can I be considered a resident for tuition purposes?

No. Any person wishing to be classified as a resident would need to provide objective evidence of intent to be a permanent resident of Arizona and demonstrate that all ties to the former state have been severed.

My parents live out-of-state but I attend an Arizona high school; will I be considered a resident if I graduate from an Arizona high school?

No, you would be classified as a non-resident. Per ABOR guidelines, "The domicile of an unemancipated person is that of either parent."

I attended an Arizona institution using the WUE (Western University Exchange) or WICHE (Western Interstate Commission for Higher Education) program; will I be considered a resident?

The WUE/WICHE program allows residents of a participating state to pay a special, reduced tuition rate at participating institutions in other states. However, the student must maintain residency in the originating state. In other words, by participating as a WUE/WICHE student you are affirming that you are not an Arizona resident. ABOR requirements for physical presence and intent to be an Arizona resident cannot be satisfied as a WUE/WICHE student. Refer to the ASU

WUE page for more information.

Are there any hardship exceptions?

No. Any person requesting classification as a resident for tuition purposes must prove they meet ABOR requirements or that they meet one of the approved exceptions.

I own property in Arizona; doesn't that make me a resident?

Owning property in Arizona does not automatically qualify you as a resident for tuition purposes. Property ownership is one factor to be considered, but would not be sufficient without other objective evidence of domicile and intent.

If I marry an Arizona resident, can I be classified as a resident?

Yes. There is a provision in current ABOR guidelines that would allow you to be re-classified if you marry a resident of Arizona. You would request reclassification by submitting a residency petition and providing appropriate documentation to support that both you and your spouse meet current ABOR guidelines for the spouse exception.

I am a research assistant, teaching assistant or graduate assistant and have been paying resident tuition. Am I a resident?

No. These positions are funded by waivers submitted by your college or department that pays the out-of-state portion of your tuition and fees, but your status for residency purposes remains non-resident. To request reclassification, you would need to submit residency petition and appropriate supporting documentation.

How does Deferred Action for Childhood Arrivals (DACA) affect residency classification?

The Maricopa County Superior Court has ruled that a Deferred Action for Childhood Arrivals recipient who presents an Employment Authorization Document and who meets Arizona law residency requirements is eligible for resident tuition. (State of Arizona v. Maricopa County Community College District). The Arizona Board of Regents will interpret its policies in accordance with this ruling. This will allow DACA students with an Employment Authorization Document who meet the statutory and policy requirements for residency to establish in-state residency for tuition purposes at our Arizona universities. Additional information can found [here](#).

[3] <https://students.asu.edu/residency-DACA>

Residency for Deferred Action for Childhood Arrivals Students

On June 29, 2017, the Arizona Board of Regents announced that it will continue to offer in-state tuition for eligible Deferred Action for Childhood Arrivals (DACA) students pending the appeal of the decision of the Arizona Court of Appeals in *State of Arizona v. Maricopa County Community College District Board*.

See ABOR statement on court decision here. [1]

See DACA FAQs. [2]

As evidence of a DACA student's eligibility, universities may accept an Employment Authorization Document or an Arizona driver license issued after 1996 or an Arizona non-operating identification license.

Other documentation establishing that a student is a DACA recipient may also be considered. As with every student who applies for in-state residency status, evidence of residency status provided by the student is to be evaluated in light of the individual circumstances.

Students seeking consideration for classification as a resident for tuition purposes should submit to the Residency Classification Office:

- a completed Domicile Affidavit: online version [3] or paper version [4] (online only available to students admitted to ASU)
- a copy of your Employment Authorization Document (include a copy of your photo ID)

Additional documentation may be requested upon review of the domicile affidavit.

Non-Resident Tuition Rate for Arizona High School Graduates

The Arizona Board of Regents' "Non-Resident Tuition Rate for Arizona High School Graduates" is a non-resident undergraduate tuition rate that is 150% of in-state tuition for Arizona high school graduates who don't otherwise qualify for in-state tuition.

Arizona Board of Regents (ABOR) Policy

- A. A student who graduated from an Arizona high school, but is not otherwise eligible for resident tuition status will be eligible for a non-resident undergraduate tuition rate of 150% of undergraduate resident tuition, if the following conditions are met:
 1. The student has attended high school in Arizona for a minimum of three years while physically present in Arizona and graduated from an Arizona high school (or attained the equivalent while physically present in Arizona for a minimum of three years), and
 2. The student is lawfully present in Arizona.
- B. The non-resident rate for Arizona high school graduates would apply to tuition for undergraduate students. This rate does not apply to differential tuition, or tuition for on-line, accelerated or distributed programs.
- C. "High School" is defined as grades 9-12. Completion of the 9th grade while physically present in Arizona, whether at an Arizona middle school or high school or equivalent, will count toward the Arizona high school attendance requirement. The three years of Arizona high school attendance do not need to be consecutive.
- D. A student who meets the requirements of this policy will be eligible for the non-resident undergraduate rate regardless of when the student graduated from an Arizona high school.
- E. The policy is effective beginning with the fall 2015 semester.

ASU Procedure for Applying

1. Complete and submit the Non-Resident Tuition Rate for Arizona High School Graduates [1] application.
2. Review and complete (if needed) Verification of Citizenship or Lawful Immigration Status [2].
3. Submit copies of your Arizona high school transcript(s) or Arizona General Education Certificate (unless submitted previously). If your high school transcripts do not show that you were present in Arizona for at least 3 years, you will need to submit documentation supporting your claim of Arizona domicile during that time period.

Applications and supporting docs can be emailed to registrar@asu.edu [3] or delivered to any ASU Registrar location [4].

Residency Classification and Financial Aid

- Eligible students remain classified as non-residents. Visit Residency [5] for information about requesting reclassification.
- Changes to your tuition can affect financial aid awards. Contact Financial Aid [6] for questions about your aid.

Verification of Citizenship or Lawful Immigration Status

Arizona law requires students who are seeking consideration for in-state tuition status or aid that is funded in part or in whole by state money to provide verification of citizenship, permanent residency or other lawful immigration status. Students that need to verify lawful immigration status are notified via **To Do** or **Hold** items in My ASU [1].

All students are advised to complete this requirement as early as possible using one of the options described below (F1/J1 International students should wait until after they arrive on campus). Processing time is approximately 2-3 business days from the date documentation is submitted.

Verification Process

Option 1: Free Application for Federal Student Aid (FAFSA)

The easiest (and preferred) method of verification for most students is the Free Application for Federal Student Aid (FAFSA). Students verified via the FAFSA do not need to provide any additional documentation. The My ASU task is cleared when Financial Aid and Scholarship Services **receives and accepts** your FAFSA (typically 5-7 days after the FAFSA is submitted to the US Department of Education). To ensure timely completion of this item, all students are encourage to submit the FAFSA as early as possible (the priority filing date is January 1). This My ASU task is not cleared if the student's FAFSA is rejected by Financial Aid and Scholarship Services until corrections to the FAFSA are made.

Option 2: Submit Verification Documents [2]

If you are not verified through the FAFSA process then you will need to submit your documents online [3], by mail or email.

Email to: registrar@asu.edu [4]

Mail to:
Arizona State University
University Registrar Services
P.O. Box 870312
Tempe, AZ 85287-0312

If you submit your documents by email or mail, you must include a signed copy of your Verification Form [5] along with a legible image of acceptable documentation.

If your status is not verified you will be charged non-resident tuition. It is your responsibility to review your status and provide appropriate information in order to ensure your tuition status accurately reflects your standing.

If you have questions about the verification process or concerns about the ability to provide documentation, contact University Registrar Services at 480-965-3124 as soon as possible.

Acceptable Documents for Verifying Citizenship or Other Lawful Immigration Status

The following documentation may be accepted as evidence of citizenship, permanent residence, or lawful immigration status. This list represents the most common types of documents acceptable for verifying status. Contact University Registrar Services at 480-965-3124 for information about additional forms of documentation.

Acceptable Documents (Subject to Change)

- Current/valid Arizona Motor Vehicle Department Driver License/Identification Card (issued October 1, 1996 or later)
- Current/valid Drivers License, Instructor Permit or Non-Operator Identification card from a U.S. state (issued since 2000 or later). States for which licenses are not acceptable as a primary source of verification: Hawaii, Maryland, Massachusetts, Michigan, New Mexico, North Carolina, Oregon, Texas, Utah, and Washington, as these states do not verify lawful immigration status in the U.S.
- Bureau of Indian Affairs/Tribal identification card
- Signed U.S. Passport (current or expired) - unless stamped non-citizen national
- Signed Unexpired Foreign passport with U.S. Visa, with I-551 stamp or attached
- Signed Certificate of U.S. Citizenship (Form N-560 or N-561) issued by USCIS through a federal or state court or through administrative naturalization after December 1990
- Signed Certification of Naturalization (Form N-550 or N-570) issued by USCIS
- Permanent Resident Card with photograph (Form I-151) issued since 1997 or later
- Resident Alien Card (Form I-551) issued before 1997
- Alien Registration Receipt Card with photograph (Form I-551) issued prior to June 1978
- U.S. Military card or draft record
- U.S. Armed Forces Driver's License

Acceptable documents that may be used if submitted with a legible copy of a valid photo ID

- U.S. Military DD-214 documentation ID Card for active duty, reserve or retired
- Birth Certificate showing birth in the United States, which includes Puerto Rico (on or after January 13, 1941), Guam, the U.S. Virgin Islands (on or after January 17, 1917), American Samoa, Swains Island, or the Northern Mariana Islands, unless the person was born to foreign diplomats residing in the US
- Affidavit of birth
- Tribal Certificate of Indian Blood
- Consular Report of Birth Abroad (Form FS-240) Issued by State Department
- Certificate of Birth from Foreign Service Post (Form FS-545) Issued by State Department
- Certification of Report of Birth (Form DS-1350) Issued by State Department
- Refugee Travel Document (Form I-571) Issued since 2003
- Form I-94 arrival/departure record with endorsement (expiration date must not have passed); stamp showing admission under section 207 (refugees) or section 208 (asylee) of the Immigration Nationality Act
- Voter's Registration Card
- Military dependent's ID card

Tuition

Tuition and Fees

To view current year tuition and fees, please visit the Tuition and Cost Calculator [1].

To view historical information about tuition and fees, please visit Tuition and Fees Schedule [2].

All amounts shown in the Tuition and Fees Schedules or in other university publications or Web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with board policy, and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

Tuition charges will be billed on your student account and may be viewed online through My ASU [3] after registration. See Billing [4] for information on how to pay your tuition and fees.

ASU Payment Plan

If tuition is not paid by the applicable tuition due date or financial aid is not awarded and accepted by the due date, you will be automatically enrolled in the ASU Payment Plan [5] and charged a nonrefundable enrollment fee.

Leaving ASU

By registering for classes, you agree to pay all applicable tuition and registration fees. If you plan to leave the university, you must officially withdraw to cancel registration before the refund deadline. Refund deadlines are available on the Important Dates [6] calendar. Please ensure that you have dropped or withdrawn from all classes during the 100 percent refund period or you will be responsible for the tuition charges. See the Tuition Refund Policy [7].

IRS Form 1098-T

Arizona State University prepares an IRS form 1098-T, Tuition Tax Statement each calendar year. IRS form 1098-T reports amounts billed to you for qualified tuition and may assist you in the preparation of your tax return with regards to education tax benefits you may be eligible to claim. Read more about the IRS form 1098-T [8].

Tuition and Fee Descriptions

ASU tuition and fees are approved annually by the Arizona Board of Regents. In addition to resident and nonresident tuition, commonly billed tuition and fees include:

Differential Tuition and Program Tuition

Certain colleges and programs assess additional differential and program tuition as approved by the Arizona Board of Regents. Visit the Tuition and Fees Schedules [1] for college and program specific tuition and fees.

Excess Hours Tuition

The Arizona Legislature enacted legislation in 2005 (A.R.S. § 15-1626) that establishes credit hour thresholds for undergraduate students who attend a public university in Arizona. Undergraduate students who enroll for credit hours beyond the applicable threshold are required to pay an Excess Hours Tuition Surcharge [2]. Students who have more than 145 credit hours will be assessed the Undergraduate Excess Hours Tuition Surcharge.

Special Class, Hybrid, oCourse & iCourse Fees

Special Class, Hybrid, oCourse and iCourse fees are assessed based on enrollment in specific classes. These fees are published with each class through Class Search [3].

Technology Fee

The Technology Fee funds technology initiatives including implementation of ASU's wireless network, delivering University-licensed software to all students, increasing the number of technology-enabled classrooms, reducing dependence on computing labs and expanding and improving online self-service environment. For more information, click here [4].

Late Registration Fee

All students who register beginning the week before the first day of the semester will be assessed a late registration fee of \$50.00, with the exception of students enrolling only in late start sessions. Students enrolling exclusively in late start sessions, will be assessed the late registration fee beginning one week before the session start date. Please see Tuition Deadlines [5] for specific dates. Registration after the published deadline may be permitted under extraordinary circumstances if approved by an authorized College designee. Late fees are not refundable.

Recreation Fee

The Recreation Fee supports programs and services at the Sun Devil Fitness Centers. Funds are used to provide intramurals, student employment opportunities, a broad array of fitness classes and workshops, events and programs. For more information, click here [6].

Student Service Facility Fee

The Student Service Facility Fee allows for the enhancements of existing facilities and the planning and development of new student service facilities to meet the needs of a growing student population. For a list of facilities built and supported by the fee, click here. [7]

Student Programs Fee

The Student Programs fee provides funding for student programming initiatives. Managed by student government at each location, this fee is used to generate value added programming that supports ASU student needs and interests. This includes routine appropriations to clubs and organizations. For more information, click here [8].

Health and Wellness Fee

The Health and Wellness Fee supports the operation of ASU Health Services. Funding supports health education and promotion, primary care, acute emergency care services, travel medicine services, nutritional counseling and high demand specialty care. For more information, click here. [9]

Student Athletic Fee

The Student Athletic Fee provides cost free unlimited access to all regular season ASU sports, insures students have access to 25% of the seating in all athletic venues and insures that tuition revenue will only support core academic programs and services. For more information, click here [10].

Financial Aid Trust Fee

Student Financial Aid Trust grants are assistance provided in partnership between ASU students and the state legislature. All students are assessed a mandatory financial aid trust fee as authorized by the Arizona Legislature to create a Financial Aid Trust Fund, from which Financial Aid Trust Grants are awarded under the usual aid eligibility criteria. Fees collected from students are matched by the State of Arizona. For more information, please visit the Financial Aid Trust Grant [11] website.

Resident Surcharge Fee

The Resident Surcharge Fee is a per semester fee assessed to resident students during the 2017/18 school year. The Resident Surcharge Fee will partially offset state budget reductions to maintain and achieve current academic goals and standards.

Tuition Refund Policy

By registering for classes, students agree to pay all applicable tuition and registration fees. Students are required to pay all tuition and fees for any registered course unless enrollment is officially cancelled during the 100% refund period.

- Tuition and fees are nonrefundable after the 100% refund period.
- All refunds are less any amounts owed to the university and are subject to payment holding periods.
- Withdrawal or cancellation occurs on the calendar day that withdrawal is requested either online or in person at a Registrar site.
- The university provides a prorated refund for students receiving financial aid based on the date of the withdrawal.

Fall and Spring Semester Classes

- The 100% refund period extends through the first two weeks of the semester for regular semester classes (Session C) and sessions eight weeks or longer.
- The 100% refund period is one week for sessions shorter than eight weeks (Sessions A & B) and for dynamically dated classes.
- For classes that begin prior to the first day of the regular semester, the applicable 100% refund period begins on the class start date not the semester start date.

Summer Session Classes

- The 100% refund period is the first five days of the applicable summer session. This includes Sessions A, B, C and dynamically dated classes.
- For classes that begin prior to the first day of the regular semester, the applicable 100% refund period begins on the class start date not the semester start date.

Students are required to pay tuition and fees owed for enrollment cancellations that occur after the refund period.

Medical or Compassionate Withdrawals

Students withdrawing for medical circumstances or other extenuating circumstances must contact their college to initiate the process. Approved medical or compassionate withdrawals [1] are eligible for up to an 80% refund of tuition if approved within two years of the end of the semester. No tuition refund is provided thereafter.

For specific semester or session deadlines, please refer to Tuition Dates and Deadlines [2].

[1] <https://students.asu.edu/forms/medical-compassionate-withdrawal-request>

[2] <https://students.asu.edu/tuitiondeadlines>

Undergraduate Excess Hours Tuition

The Arizona Legislature enacted legislation in 2005 (A.R.S. § 15-1626) that establishes credit hour thresholds for undergraduate students who attend a public university in Arizona. Undergraduate students who enroll for credit hours beyond the applicable threshold are required to pay an excess hours tuition surcharge. Students who have more than 145 credit hours will be assessed the Undergraduate Excess Hours Tuition Surcharge.

The Undergraduate Excess Hours Tuition Surcharge is billed in addition to tuition, program tuition, mandatory fees and class fees.

Exemptions

The excess hours tuition surcharge must be assessed in accordance with Arizona State Statutes and is not subject to appeal. The Arizona Legislature, however, provided for certain exemptions to the credit hour threshold and surcharge:

1. Undergraduate degree programs that require credit hours above the credit hour threshold.
2. Credits earned in pursuit of up to two baccalaureate degrees: The excess hours tuition surcharge is not assessed if (a) student has previously earned a baccalaureate degree and is currently admitted to one undergraduate degree program or (b) has not previously earned a baccalaureate degree and is admitted to two or more undergraduate degree programs simultaneously. This exemption does not apply to students who have previously earned two or more baccalaureate degrees or students who have earned one baccalaureate degree and are currently admitted to two or more undergraduate degree programs.
3. Credits earned in the pursuit of up to two state regulated licensures or certificates: Student is not required to be enrolled in both programs simultaneously. Examples include accounting, nursing, social work, and certain engineering degrees.
4. Credits earned in the pursuit of a teaching certification.
5. Credits transferred from a private institution of higher learning.
6. Credits transferred from an institution of higher education in another state.
7. Credits earned at another institution of higher education but that are not accepted as transfer credits at ASU.
8. Credits earned by students who enroll at a university under the jurisdiction of the board more than twenty-four months after the end of that student's previous enrollment at a public institution of higher education in this state.

Tuition Waivers and Scholarships

Employee waivers and tuition scholarships do not apply to the Undergraduate Excess Hours Tuition Surcharge.

Academic Year 2017–2018 Rates

For resident students the surcharge is \$140 per credit hour up to a maximum of \$980 for enrollment in 7 or more hours. For nonresident students the surcharge is \$222 per credit hour up to a maximum of \$2,664 for enrollment in 12 or more credit hours.

Polytechnic & West Campus Tuition Discounts

Beginning in fall 2011, undergraduate freshmen and sophomores in the New College of Interdisciplinary Arts and Sciences [1] and the Polytechnic School [2] are eligible to receive a 10% reduction in base tuition. To receive this discount, students must meet the following requirements:

- Admitted in fall 2011 or later.
- Freshman or sophomore academic standing.
- Admitted to a program in the New College of Interdisciplinary Arts and Science or the Polytechnic School.
- If admitted to the Polytechnic School, all classes must be taken at the Polytechnic campus.
- If admitted to the New College of Interdisciplinary Arts and Sciences, all classes must be taken at the West campus.

Enrollment in iCourses does not affect eligibility for the discount. This discount will not be extended to students already receiving the Western Undergraduate Education (WUE) discount.

For additional information about tuition rates, please see the tuition schedules [3] or you may use the tuition estimator [4] to estimate your full tuition costs.

Professional Flight Program Fee Schedules

Background

In September 2015, the VA issued a policy advisory that addressed the use of VA educational benefits for flight programs at Institutes of Higher Learning (IHLs). The policy obligated IHLs to define their curriculum as the minimal amount of flight and ground events required to complete the degree program, along with the duration and cost of each event. Henceforth, the VA would only pay this minimum for approved programs on a per-class basis. An additional policy advisory issued in December 2015 excluded the payment of private pilot instruction for IHLs who use a third party provider for flight training, as is ASU's case. This impacted AMT 105 and AMT 110, two flight classes within the AMT Pro Flight curriculum, which contained Private Pilot curriculum. Finally, it has been a longstanding policy that the VA compliance of any program is dependent upon meeting the "85/15 rule," whereby at least 15% of the students in any given program of study are not receiving VA benefits. While ASU does meet this criterion in terms of non-veterans in the flight program for this catalog year, the intent is that non-veterans be billed in the same way as those receiving VA benefits (i.e., billed directly by ASU for the minimum flight fee cost, excluding private pilot instruction).

Establishment of a Two-Track System

In response to these requirements, ASU Aviation Programs created two payment tracks for students in the Aviation Management Technology – Professional Flight concentration, as follows:

1. **Direct Pay to Flight Training Provider.** This track enables the student to pay directly to the flight-training provider on a pay-as-you-go basis. Students would select this option if they need to complete the Private Pilot Certification sequence of courses. It is preferred that the majority of students select this option, as the Flight Provider will have

the most direct and timely information about students' account status (i.e., that they have funds deposited to cover flight instruction costs as they progress.)

2. **Minimum Course Fee Pay through ASU.** This track enables the minimum cost of eligible flight instruction courses to be paid directly by the VA for VA-eligible students. These students will be billed the minimum course fee by ASU, which in turn will be paid by the VA or the student. As a minimum of 15% of the students utilizing this option must also come from the non-VA population, non-VA students may opt for this track if they already are a licensed Private Pilot and agree to be billed through this process for the minimum flight course fees. These funds will be collected by ASU and passed on to the Flight Training Partner. For all students in this track who need to pay above the minimum to complete the course requirements, those additional fees will be paid directly to the Flight Training Provider.

The following two tables summarize the class structure and corresponding fees:

Fee tables coming soon.

Tuition Payment with Financial Aid

Financial aid is posted to your student account and used to pay tuition and other student account charges. If there is a remaining balance, a refund will be issued.

- For students who have accepted financial aid and it is sufficient to cover tuition charges, financial aid will automatically pay tuition charges and no action is necessary.
- For students with accepted financial aid that is insufficient to cover tuition charges, the payment deadline is extended.

For tuition due dates, visit Tuition Dates and Deadlines [1].

If financial aid is not awarded and accepted by the tuition due date, tuition charges must be paid to avoid automatic enrollment in the ASU Payment Plan [2] and assessment of the non-refundable tuition installment plan fee of \$100 for resident students and \$200 for nonresident students.

Class enrollment completes the registration process. If you decide not to attend classes, you must officially withdraw from the University. Classes will be held even if aid becomes unavailable or is inadequate to pay all tuition and fees. Registration will not be automatically cancelled during the tuition refund period.

Refunds by Direct Deposit

Financial aid in excess of institutional charges is refunded to the student. Direct deposit to your bank account is available and is the most convenient way to receive student account refunds, including financial aid. To enroll in direct deposit:

1. Sign in to My ASU. [3]
2. Select the **Finances** tab at the top of the page.
3. Then select **Direct Deposit** link in the **Financing Tasks** box on the right side of the page.

View the Direct deposit FAQs [4] to learn about enrollment online and direct deposit in general. If you choose to enroll in direct deposit in person, please fill out the Direct Deposit Authorization [5] form and bring it to the Student Accounts office. For students not enrolled in student account direct deposit, refunds are made by check and mailed to the student's

address. Direct deposit enrollment verification takes two weeks. If a refund becomes available before your direct deposit enrollment has been verified, a paper check will be issued and sent to your mailing address on file.

Taxability of Scholarships and Fellowships

Scholarships, grants, fellowships and stipends (but not loan funds) are taxable income to the recipient, except for the portion of these funds used for tuition, registration, other University fees, and books, supplies and equipment required for the courses being taken. Special tax regulations also apply to non-resident alien students and may require withholding of taxes at the time of aid disbursement to these individuals. Information on the taxability of scholarships can be obtained from the following IRS publications and forms: Publication 970, Tax Benefits for Education, Pub 519 - U.S. Tax Guide for Aliens, Form 1040EZ and instructions - Income Tax Return for Single and Joint Filers with no dependents, Form 1040 NR and Instructions - U.S. Nonresident Alien Income Tax Return. These publications and forms can be obtained from the Internal Revenue Service at their toll free number 1-800-829-FORM. These publications and forms can also be viewed at www.irs.gov [6].

Paying for Past Due Charges with Future Semesters Financial Aid

Federal financial aid will not pay prior year past due charges. To view your account charges and make a payment online:

1. Sign in to My ASU [3].
2. Select the **Finances** tab at the top of the page.

Additional payment options [7] are available. Please contact the Collections Office at 480-965-5220 with questions about unpaid balances.

Financial Assistance Withdrawal Policy

Individual circumstances may require complete withdrawal [8] from the university. The outcome of complete withdrawal on your financial aid depends on when the complete withdrawal is initiated and the types of financial aid you received. In all cases, your financial aid must be recalculated.

Official Complete Withdrawal

Federal regulations require the recalculation of Title IV financial aid in cases where a student received financial aid and officially withdrew on or before the point at which 60% of the semester has lapsed. If a return of aid is required, ASU returns the unearned portion of Title IV financial aid funds to federal programs on behalf of the student. **Any return of financial aid funds made by the university will be charged to the student's university account.** Payment to the university will be due on demand. Federal financial aid Title IV funds include:

- the Federal Pell Grant
- the Federal Supplemental Educational Opportunity Grant (FSEOG)
- the Federal Perkins loan
- the Leveraging Educational Assistance Partnership (LEAP)
- the Academic Competitiveness Grant (ACG)
- the Science and Mathematics Access to Retain Talent Grant (SMART)
- the Federal Direct Subsidized and Unsubsidized Student Loans and the Federal PLUS Loan

Students who withdraw prior to the first day of the semester and who have received a financial aid disbursement are not entitled to keep those funds. The student's university account will be charged. One hundred percent of the funds disbursed must be returned to ASU.

For additional information, please visit <https://students.asu.edu/policies/fa-withdrawal> [9].

Qualified Tuition Reduction

The Qualified Tuition Reduction Program permits eligible employees to take advantage of educational opportunities at the University. Please review SPP 505 [1], Employee-Reduced In-State Tuition, for additional information regarding eligibility and benefits.

Eligibility

Reduced in-state tuition is available to faculty and staff who are employed at least 50% within the state university system, their spouses and dependent children. You must be employed on the first day of the session to be eligible for employee reduced in-state tuition. At ASU, the Qualified Tuition Reduction Form must be submitted on or before the first day of a session to qualify for reduced tuition. Nonresident students are ineligible for employee-reduced tuition and should contact Residency Classification.

Institutional merit-based aid provided by the University [2] will not exceed the value of stated resident tuition for each respective academic year when combined with the Qualified Tuition Reduction (QTR, a benefit for faculty and staff) or other tuition reduction programs (or waivers). Students offered multiple awards designated for base tuition, cannot receive more than 100% of base tuition.

Qualified Tuition Reduction Form

ASU employees must complete and submit the Qualified Tuition Reduction Form each semester to receive the reduced in-state tuition benefit for classes taken at ASU. Forms can be obtained at Human Resources (University Center A Building), the Student Accounts Office or online at asu.edu/hr/forms [3]. The form must be received and processed in the Student Accounts Office by the tuition due date. Please submit forms early to insure timely processing:

- Mail to the Student Accounts Office, Arizona State University, PO Box 870303, Tempe, AZ 85287-0303 (Campus Mail Code 0303).
- Fax to the Student Accounts Office at 480-965-9242.

- E-mail to tuitionreduction@asu.edu [4].
- Submit in person at the following locations:
 - Tempe campus Student Accounts Office on the second floor of the Student Services (SSV) building
 - West campus Tuition Payment and Cashiering Services Office in University Center 101
 - Polytechnic campus Tuition Payment and Cashiering Services Office 350
 - Downtown Phoenix campus Cashiering Services and Tuition Payment Office in University Center 112

The outstanding balance of the ASU tuition will remain on your student account and should be paid by the tuition payment deadline to avoid late fees. Contact the Student Accounts Office at 480-965-6341 for further information.

NAU & U of A Classes

There is a separate Qualified Tuition Reduction Form for classes at U of A or NAU and for ASU retirees and employees of affiliate organizations taking classes at U of A, NAU or ASU. This form can be obtained at Human Resources (University Center A Building) or online at asu.edu/hr/forms [3]. The Qualified Tuition Reduction Form for U of A/NAU/Retired/Affiliate staff must be approved by staff in ASU Human Resources and then submitted to the tuition payment office at the campus where classes are being taken.

Tuition and Fees Schedules

All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

Program Specific Tuition and Fees

Certain Graduate and Undergraduate programs charge program specific tuition. Use the ASU Tuition and Cost of Attendance Estimator [1] to review program specific tuition and fees.

⁽¹⁾ Music Fees & Special Class Fees are dependent on specific class enrollment and are not included here. Fees are available online through Class Search.

⁽²⁾ Undergraduate students with total credit hours in excess of the threshold established by the Arizona Legislature are required to pay tuition on these excess hours. For resident students the excess hours tuition is \$140 per credit hour up to a maximum of \$980 for enrollment in 7 or more hours. For nonresident students the excess hours tuition is \$222 per credit hour up to a maximum of \$2,664 for enrollment in 12 or more credit hours. See students.asu.edu/tuitionandfees [1] for additional information regarding the Undergraduate Excess Hours Tuition.

⁽³⁾ Students admitted to Barrett, the Honors College are assessed a \$750 honors fee each fall and spring semester in addition to the tuition and fees presented above.

⁽⁴⁾ All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

⁽⁵⁾ Certain graduate and undergraduate programs are assessed differential tuition or program fees, depending on the college and/or program. Use the Tuition and Cost of Attendance Estimator to review program specific tuition and fees.

--	-------	---------	---------	---------	---------	---------	---------	---------	---------	---------	---------	---------	---------	---------	---------	---------	---------	---------

(1) Students admitted to an Online campus program are not billed the student programs fee, student service facility fee, athletics fee, health and wellness fee, or recreation fee.

(2) Online tuition is billed per credit hour with no cap. The rates presented above are per session and if more than 18 credit hours are taken in a session, tuition will be greater. To calculate the increase in tuition, add the tuition cost per hour for each additional hour taken to the tuition and fees total for 18 hours.

(3) Special Class Fees are dependent on specific class enrollment and are not included here. Fees are available online through Class Search.

(4) Mandatory fees are billed per session but are not to exceed the seven-hour rate in a term.

(5) Undergraduate students with total credit hours in excess of the threshold established by the Arizona Legislature are required to pay tuition on these excess hours. For resident students the excess hours tuition is \$140 per credit hour up to a maximum of \$980 for enrollment in 7 or more hours. For nonresident students the excess hours tuition is \$222 per credit hour up to a maximum of \$2,664 for enrollment in 12 or more credit hours. For more information about the Tuition Commitment and the Commitment Period, please refer to students.asu.edu/tuitionandfees [1].

(6) Students admitted to Barrett, the Honors College are assessed a \$750 honors fee each fall and spring semester in addition to the tuition and fees presented above.

(7) All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

(8) Certain graduate and undergraduate programs are assessed differential tuition or program fees, depending on the college and/or program. Use the Tuition and Cost of Attendance Estimator to review program specific tuition and fees.

*Undergraduate Freshmen and Sophomores in the Polytechnic School are eligible to receive a 10% reduction in base tuition. In order to receive this discount, students must take all classes at the campus of their major. The discount is not affected by enrollment in iCourses.

⁽¹⁾ Music Fees & Special Class Fees are dependent on specific class enrollment and are not included here. Fees are available online through Class Search.

⁽²⁾ Undergraduate students with total credit hours in excess of the threshold established by the Arizona Legislature are required to pay tuition on these excess hours. For resident students the excess hours tuition is \$140 per credit hour up to a maximum of \$980 for enrollment in 7 or more hours. For nonresident students the excess hours tuition is \$222 per credit hour up to a maximum of \$2,664 for enrollment in 12 or more credit hours. See students.asu.edu/tuitionandfees [1] for additional information regarding the Undergraduate Excess Hours Tuition.

⁽³⁾ Students admitted to Barrett, the Honors College are assessed a \$750 honors fee each fall and spring semester in addition to the tuition and fees presented above.

⁽⁴⁾ All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, fee amounts billed for any period may be adjusted at a future date.

⁽⁵⁾ Certain graduate and undergraduate programs are assessed differential tuition or program fees, depending on the college and/or program. Use the Tuition and Cost of Attendance Estimator to review program specific tuition and fees.

⁽¹⁾ Music Fees & Special Class Fees are dependent on specific class enrollment and are not included here. Fees are available online through Class Search.

⁽²⁾ All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, fee amounts billed for any period may be adjusted at a future date.

⁽³⁾ Certain graduate and undergraduate programs are assessed differential tuition or program fees, depending on the college and/or program. Use the Tuition and Cost of Attendance Estimator to review program specific tuition and fees.

Total Graduate Non-Resident Online Tuition & Fees ^{(1) (2) (3) (4) (5) (6)}	\$587	\$1,099	\$1,611	\$2,123	\$2,635	\$3,147	\$3,683	\$4,195	\$4,707	\$5,219	\$5,731	\$6,243	\$6,755	\$7,267	\$7,779	\$8,291	\$8,803	\$9,315

(1) Students admitted to an Online campus program are not billed the student programs fee, student service facility fee, athletics fee, health and wellness fee, or recreation fee.

(2) Online tuition is billed per credit hour with no cap. The rates presented above are per session and if more than 18 credit hours are taken in a session, tuition will be greater. To calculate the increase in tuition, add the tuition cost per hour for each additional hour taken to the tuition and fees total for 18 hours.

(3) Special Class Fees are dependent on specific class enrollment and are not included here. Fees are available online through Class Search.

(4) Mandatory fees are billed per session but are not to exceed the seven hour rate in a term.

(5) All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

(6) Certain graduate and undergraduate programs are assessed differential tuition or program fees, depending on the college and/or program. Use the Tuition and Cost of Attendance Estimator to review program specific tuition and fees.

Degree Conferral Date	December 11, 2017		
Grade Replacement/Academic Standing Processing	December 12-13, 2017		
Holiday Break—University Closed	December 25-26, 2017		

* See Residential Life for designated move in dates.

** Late Registration fee of \$50 assessed.

*** Classes start on Thursday 8/17/2017 in order to fully comply with ABOR contract hour requirements

Admission and Registration

Admission/Readmission

Undergraduate admission/readmission:

students.asu.edu/admission

Graduate admission/readmission:

students.asu.edu/graduate

Law College:

law.asu.edu

Students who are required to be advised must do so before submitting a registration request. Non-degree undergraduate students may not enroll for more than eight semester hours. Students who have been previously enrolled in a degree program at ASU are not permitted to attend in non-degree status.

Registration Procedures Overview

my.asu.edu

- Step 1: Log into My ASU to view your online Registration Dates. A registration date is the date/time that you may begin to register for classes. You may register online or in person anytime after your assigned registration date begins through the end of the drop/add period.*
- Step 2: Check for registration holds on My ASU. If you have an academic advising hold, plan to meet with your academic advisor well before your Registration Date occurs.
- Step 3: Review degree and catalog requirements.
- Step 4: Review your Major Map on My ASU (undergraduate students only).
- Step 5: Search for available classes using the Class Search at my.asu.edu.
- Step 6: Register for classes at my.asu.edu or in person at any registrar location <https://students.asu.edu/contact/office-university-registrar>
- Step 7: Pay tuition. If you do not have adequate financial aid to cover tuition costs, and if you do not pay tuition by the

applicable deadline, you will be enrolled in the Tuition Installment Plan and assessed a non-refundable \$100 resident/\$200 non-resident enrollment fee.

*Students may register for Fall 2017, February 20, 2017 through August 18, 2017 for Session A, August 23, 2017 for session C, and October 12, 2017 for Session B. However, a \$50 late registration fee is charged beginning TBD, 2017 for Session's A and C and TBD, 2017 for Session B. This fee does not apply to ASU online students.

Registration/Enrollment General Information

Registration Dates

All students are assigned an online **registration date** which will permit registration for the Fall 2017 semester. Students should log into My ASU to view their registration date as soon as possible.

A registration date is the date and time that a student may begin registering for the next semester. Students may register in person or online anytime after the assigned registration date begins, through the end of the drop/add period.

If you are an entering freshman in the Fall semester, your registration date will be the date of your orientation program. If you are not an entering freshmen, and you do not have a registration date assigned, contact the University Registrar Services at 480.965.3124.

Building Your Class Schedule

ASU's registration system will allow you to search the Schedule of Classes/Class Search and build a Fall class registration request. You can save that plan (shopping cart) and then later return to it. When you return, you will be able to see if the class status has changed since you built and saved the plan. You can view the online Schedule of Classes/Class Search via My ASU (my.asu.edu). The Fall 2017 Schedule of Classes is available February 20, 2017.

Registration, cont.

Submitting Your Registration Request

Once you have submitted your schedule request, you will be able to immediately see which courses were successfully added to your schedule. **Note: You may choose to audit a course in which case you attend and participate in the class but do not earn credit. Be sure to obtain instructor's approval before registering and paying fees. Refer to your catalog and see your academic advisor for additional information about audit enrollment.**

Drop/Add

Anytime after you have a class schedule, you will be able to drop and add courses via My ASU or in person at any registration location through the published drop/add deadline. During this period, you may drop one or more (but not all) scheduled classes. Classes that are dropped do not appear on the student's transcript. A student who wishes to withdraw from his/her last course during the drop/add period must process a complete withdrawal. Colleges or departments may require approvals before a student can add specific classes.

Swap

You can use the swap feature when you want to ensure that you do not drop a class you are already registered for until you have successfully added a replacement class.

Registration Holds

You will be able to view a list of holds that will prevent registration. Items that can prevent you from registering are: unpaid fees, academic advising requirements, immunizations, etc. Do not delay your ability to get the classes you want. Take care of your University business now to eliminate any holds.

To Dos

You will be able to view a list of your To Do items. To Do items display tasks you need to complete, such as completing a financial aid form. To Do items do not restrict registration. However, if you do not accomplish an open To Do item, it can become a Hold on your record. Follow the instructions or contact the appropriate person to make arrangements to complete each pending task as soon as possible.

Registration Locations

Tempe campus	West campus	Polytechnic campus	Downtown Phoenix campus
Student Services Bldg, Room 140	University Center Bldg, Room 120	Administration Bldg	University Center Bldg, Room 166
480.965.3124	602.543.8203	480.727.1142	602.496.4372
Monday - Friday 8:00am - 5:00pm			
Offices are closed in observance of the following holidays: Labor Day—September 4, 2017 Veterans Day—November 10, 2017 Thanksgiving—November 23-24, 2017 Holiday Break—December 25-26, 2017			

A photo ID is required to process transactions in person.

In order to process any registration transaction in a student's absence, a third party must present their photo ID and written authorization signed by the student. A Registration by Proxy Form for a third party must present their photo ID and written purpose is available on the web at students.asu.edu/forms/registration or at any University registration site.

Measles Immunization Policy

Arizona State University requires new freshman, transfer, and graduate students to submit proof of two doses of MMR—Measles (rubeola), Mumps and Rubella (German Measles). This is a mandatory requirement for all college students born on or after January 1, 1957. You will not be permitted to register, add, or drop classes without having met this requirement. If you cannot locate your documentation, the MMR vaccinations and lab test are available for a minimal fee at ASU Health Service.

One of the following may be used as documentation:

- Documentation of two MMR vaccines with the first at around 12 months or older and the second vaccination at least 28 days apart.

Registration, cont.

Measles Immunization Policy, Cont.

- Documentation by a physician of having had Rubeola, Mumps and Rubella diseases.
- Documentation of a positive lab test showing immunity to **RUBEOLA IgG (Measles=Hard measles/10 day measles)**.

When submitting your documentation, please include the cover page that can be found at <https://eoss.asu.edu/health/immunization>

Mail, Fax or Email to:

P.O Box 872104	
Tempe, AZ 85287-2104	

Advising

Admitted undergraduate students who have declared a major should contact an academic advisor in the college or school of their major for advising and for assistance in determining the catalog under which they will graduate. Exploratory/undeclared students should contact the College of Integrative Sciences and Arts for academic advising. Many programs require academic advisement prior to registration for classes.

Students may visit MyASU to learn their current academic advising office assignment. For additional information regarding general academic advising for all ASU departments Visit <https://students.asu.edu/academics>

Instructor-Initiated Drop Option

The instructor of a course has full authority within departmental or other higher-level policies to decide whether or not class attendance is required. During the second week of classes in Fall or Spring, or the first four days of each Summer Session, the instructor can drop a student for non-attendance. In classes which are full, this will allow accommodation of other students requesting the class and help instructors avoid excessive

overrides. Instructor-initiated drops for non-attendance must be based upon concrete evidence of non-attendance and be signed by the Dean or Dean's Designee in the college offering the course. The college will notify the student by mail at the student's currently posted local address. Nothing in this policy contradicts any other policy regarding attendance, religious holidays, or the student's responsibility to notify the instructor in case of absences.

Note: Students should be aware that non-attendance will not automatically result in being dropped. Instructors have the right to exercise this option at their discretion. It is also the student's responsibility to contact the instructor before the end of the first week of classes if absences during that period cannot be avoided.

Withdrawal Policy

Course Withdrawal

After the drop/add period and up to September 6, 2017 for Session A, October 31, 2017 for Session B and November 1, 2017 for Session C, a student may withdraw from any course with a grade of "W". Withdrawals may be initiated online using My ASU or in person at any registration site. Courses with alternate begin and end dates may have an adjusted withdrawal schedule. Courses from which the student withdraws will remain on the student's transcript with a grade of "W". Any appropriate refunds are issued based on the published Refund Schedule and the date of the withdrawal. To determine whether you will be eligible for a refund after withdrawing, contact Student Accounts at 1-855-278-5080. It is the student's responsibility to initiate a withdrawal if unable to attend a class. Failure to do so will result in a grade of "E" being assigned for the class. Although students who do not attend class during the first week of a term may be administratively dropped from the class, such withdrawal is at the discretion of the instructor. In special circumstances, a medical withdrawal or academic record change may be authorized by the Dean of an academic unit if the student petitions for the change and presents documentation of reasons for being unable to attend the class. Please note academic record changes can only be requested after the semester has ended. It is the student's responsibility to petition for such change if appropriate.

Complete Withdrawal

A student may withdraw from all of his or her classes (the student will no longer be enrolled in any classes for the specified semester) through the transaction deadline or the last day of classes for

Registration, cont.

any semester. A grade of “W” is awarded for each class from which the student withdraws. The complete withdrawal deadline is October 6, 2017 for Session A, and December 1, 2017 for Sessions B and C. Beginning the first date of the semester, undergraduate students are required to request a complete withdrawal in person. Making a complete withdrawal from the University is a difficult decision, and ASU has many resources in place to help. Because there may be serious academic and financial consequences to processing a complete withdrawal, you should view complete withdrawal as a final resort. You are encouraged to meet with your academic advisor to explore alternatives.

Note: A student may not avoid any penalty for academic dishonesty by withdrawing from a course. A student may be reinstated to a course to receive a penalty of a reduced or failing grade, or XE. Remember: If you have financial aid or scholarships, be sure you understand minimum credit hour requirements for maintaining those awards.

Military Withdrawal

To completely withdraw due to military activation, immediately contact the Pat Tillman Veterans Center. For all campuses, call the Military Advocate at 480-965-5874 to determine whether the call to active duty qualifies for the “Military Activation” policy. For example, students reporting to “boot camp” or required training may not qualify for this policy. Students who qualify will receive some regulatory relief in the recalculation of financial aid and the calculation of tuition and fee charges. Students are also given options regarding their academic records, e.g., complete withdrawal, incomplete grades, etc.

Financial Assistance Withdrawal Policy

Circumstances may necessitate complete withdrawal from the University. For financial aid, a complete withdrawal from the full term or any individual session can affect financial aid eligibility. The outcome of a complete withdrawal on your financial aid depends on when the complete withdrawal is initiated and the types of financial aid you received. In all cases, Financial Aid and Scholarship Services must calculate a “Return of Title IV Funds” to determine if you were enrolled long enough to keep the aid paid to you. Any time you stop your enrollment (i.e., withdraw, drop, or stop participating in classes and receive a combination of all EN, E or W grades in a session or term) before the end of the term, you may need to return some of the financial aid you received. In addition, please note that receiving all EN grades ([failure to participate](#)) will result in the cancellation of all federal and institutional financial aid excluding earned Federal Work Study and Employee Waivers.

If you are considering withdrawing, please contact [Financial Aid and Scholarship Services](#) and request to speak with a financial aid counselor to understand the impact on your financial aid. Be sure to review [Withdrawing as a Financial Aid Recipient](#) for more

Information.

Official Complete Withdrawal

Federal regulations require the recalculation of Title IV financial aid in cases where a student received financial aid and officially withdrew on or before the point which 60% of the semester has lapsed. If a return of aid is required, ASU returns the unearned portion of Title IV financial aid funds to the Federal Programs on behalf of the student. Any return of financial aid funds made by the University will be charged to the student’s University account. Payment to the University will be due on demand. Title IV funds include the Federal Pell Grant, the Federal Supplemental Educational Opportunity Grant (FSEOG), the Federal Perkins Loan, the Leveraging Educational Assistance Partnership (LEAP), the Academic Competitiveness Grant (ACG), the Science and Mathematics Access to Retain Talent Grant (SMART), the Federal Teach Grant, the Iraq and Afghanistan Service Grant, the Federal Direct Subsidized and Unsubsidized Student Loans and the Federal PLUS Loan. Federal Work Study earnings and non-Title IV aid are not included in this formula. However, the student may not continue to work under the Federal Work Study program after their official date of withdrawal.

University Testing Requirements

All new, transfer, or readmitted undergraduate students must meet one of the following testing requirements:

- Take the ACT English, SAT verbal examination, WritePlacer Plus section of the ACCUPLACER, TOEFL (Test of English as a Foreign Language), IELTS (International English Language Testing System), or PTEA (Pearson Test of English Academic) and have scores submitted to ASU.
- Receive a score of 4 or 5 for the advanced placement examination in English offered by the College Entrance Examination Board and have scores submitted to ASU.
- Take the CLEP College Composition exam, earning a score of 50 that qualifies for placement into ENG 105 and elective credit (3). ENG 101 (3) for students who already have credit for ENG 102.
- Have previously taken or be currently enrolled in WAC101, WAC107, ENG101, ENG102, ENG105, ENG107, or ENG108 at ASU. If the course was taken at ASU before 1980, contact the Records and Enrollment Services Office in SSV140 or at 480.965.3124, before registering for classes.
- Transfer a course equivalent to ENG101, ENG102, ENG105, ENG107, or ENG108 with a grade of “C” (2.00) or higher.

An official transcript showing the grade must be received by ASU.

Registration, cont.

The evaluations of transfer English courses at Arizona State University has been centralized and all evaluations will be processed through the new Transfer Credit Guide. All transfer students should visit www.asu.edu/transfercredit to request an evaluation of transfer course work. Any questions regarding the evaluation process should be sent to articulation@asu.edu.

Placement Exams

A. First-Year Composition

Placement in First-Year Composition courses (WAC101 or WAC107 followed by ENG101 or ENG107 the next semester, or ENG101, ENG105, or ENG 107) is determined by the score earned on the ACT English, SAT Verbal Exam, Accuplacer, TOEFL, IELTS, or PTEA exam. Multilingual students are not required to take multilingual sections of first-year composition courses (WAC107, ENG107, and ENG108). They have the option of taking mainstream composition courses (WAC101, ENG101, and ENG102). If students enter the university without taking an acceptable placement exam, the Accuplacer may be taken on campus at the University Testing and Scanning Services, located at 1130 E. University Dr. Suite 204 in Tempe, at regularly scheduled times. Contact the UTSS at 480.965.7146 to make an appointment. Placement in First-Year Composition will be determined as follows:

Multilingual students who have taken the IELTS or PTEA exam should contact the Writing Programs Office at writingprograms@asu.edu or 480-965-3853 for assistance with registration.

Students who have taken the Advanced Placement Exam in English offered by the College Entrance Examination Board, the International Baccalaureate English A Exam, or the CLEP College Composition Exam, should visit the Credit by Exam Search section of the Transfer Credit Guide at <https://webapp4.asu.edu/transfercreditguide/app/searchbyexam> or information about placement into first-year composition courses.

B. Mathematics Course Placement Exams

Arizona State University requires the **Math Placement Test** to assess a student's prerequisite knowledge for placement into several mathematics courses up to and including first semester calculus. The instrument used for testing is a powerful assess-

Exam Score:	Register For:
SAT Verbal 460 and below	WAC101 or WAC107
ACT English 18 and below	WAC101 or WAC107
TOEFL 550PBT / 213CBT / 79iBT and below	WAC107
IELTS 6.0 and below	WAC 107
PTEA 56 and below	WAC 107
SAT Verbal 470-610	ENG101 or ENG107

TOEFL 560PBT / 220CBT / 83iBT and above	ENG101 or ENG107
IELTS 6.5 and above	ENG 107
PTEA 56 and above	ENG 107
SAT Verbal 620 and above	ENG105
ACT English 26 and above	ENG105
Accuplacer score 4 or below	WAC101 or WAC107
Accuplacer score 5, 6, or 7	ENG101 or ENG107
Accuplacer score 8	ENG 105

ment tool with artificial intelligence that zeros in on the strengths and weaknesses of a student's mathematical knowledge, reports placement score to the student and then, if necessary, provides the student with a learning environment for bringing this knowledge up to an appropriate level for the desired course placement by retaking the Math Placement Test.

All incoming students must complete the **Math Placement Test** prior to enrollment unless they have transferred an equivalent prerequisite course. The time limit to finish the assessment is 2 hours.

Registration, cont.

Veterans Educational Benefits

Veterans and eligible dependents must apply for veterans educational benefits and then verify their status with the Pat Tillman Veterans Center as soon as possible with each new semester. Distance Learning classes have veterans education benefit restrictions. Veterans cannot collect benefits for audited classes.

Student Identification

ASU Sun Devil Card Services

Students are required to provide an ASU ID card to receive many ASU services, acquire educational records and gain access into secure buildings, classrooms and labs. Each student admitted to ASU may choose between the Pitchfork ID Card offered by MidFirst Bank¹ and the basic Sun Card. The Pitchfork ID Card is an official ASU student photo ID and a MasterCard check card linked to a Sun Devil Checking account. Both the Pitchfork ID Card and the basic Sun Card act as official university IDs and cost \$25*, which may be paid with cash, check, Visa®, MasterCard®, or applied to the student's university account. As proof of identity, students need their ten-digit ASU ID number and a legal photo ID (driver's license, passport, military ID, etc.) to obtain their ID card. Call 480.965.CARD (2273), or visit cardservices.asu.edu for more information. Both the Pitchfork ID Card and the basic Sun Card contain a 16-bit iCLASS® chip that allows easy access into classrooms and residence halls without the use of a key.

Do not punch holes in your card, or you will damage your card's functionality.

The Pitchfork ID Card and the basic Sun Card can both be used for a variety of services.

Card Uses	Pitchfork ID MasterCard®	Basic Sun Card
Official ASU Student ID	*	*
Access to secure buildings	*	*
Access for meal plans**	*	*
Access for Maroon & Gold (M&G) Dollars**	*	*

*The \$25 fee for your card was included in your enrollment deposit. If you need to replace your Pitchfork ID Card or basic Sun Card, a \$25 fee will apply. All rules for obtaining a replacement ID card may be found at carservices.asu.edu.

**Meal Plans and Maroon & Gold (M&G) Dollars are administered by Sun Devil Dining. Call 480.727.DINE (3463) or visit sundeildining.com

¹Member FDIC

Tuition and Fees

Admission Application Fees

Admission application fees are subject to change. These fees are non-refundable and must be paid at the time of application.

Fall 2017 General Tuition*

General tuition, program-specific tuition, special class fees and mandatory registration fees are set annually by the Arizona Board of Regents. Visit the following websites for more information.

- General tuition and mandatory registration fee information— [Tuition and Fees](#)
- Program-specific information— [ASU cost Calculator](#)

Special class fees can be viewed online at the time of class registration

By registering for classes you agree to pay all applicable tuition and registration fees.

*All amounts presented in any University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors.

Tuition Billing

Tuition charges will be billed on your student account and may be viewed online through [My ASU](#) after registration. From My ASU, select the “Finances” link on the upper left side.

By registering for classes you agree to pay all applicable tuition and registration fees.

If tuition is not paid by the applicable tuition due date, or financial aid is not awarded and accepted by the due date, you will be automatically enrolled in the ASU Payment Plan and charged a non-refundable enrollment fee of \$100 for resident students and \$200 for non-resident students. For students with accepted financial aid sufficient to cover tuition charges, financial aid will automatically pay tuition charges and no action is necessary. For students with accepted financial aid insufficient to cover tuition charges, payment in full is required by the due date to avoid automatic enrollment in the ASU Payment Plan. Refer to [Tuition and Billing Calendar](#) for your specific tuition payment due date.

Online Billing

Online billing provides reliable and secure access to billing statements any time of day from anywhere in the world along with immediate access to current account information. To view and pay your charges, login to [My ASU](#), select the link “Finances” on the upper left side, then click “Make a Payment”. Online billing statements are also available through QuikPAY by clicking “View Account”. Students are responsible to review their ASU e-mail account for notification of billing statements and to login to their student account on My ASU for current billing information. **Billing statements are not mailed.**

Students may authorize others to view and pay their ASU student account through QuikPAY. Log in to [My ASU](#), select the “Finances” link on the upper left side, then click “Make a Payment”. Once directed to QuikPAY select Authorized Payers from the left windowpane and enter the requested information for each person to be authorized on the account. Authorized Payers must have a valid email account.

eCheck Payments

eChecks are ASU’s preferred payment method and are accepted online with no service charge or additional cost to the student. Make eCheck payments on QuikPAY by logging in to My ASU (my.asu.edu), select the “Finances” link on the upper left side, then click “Make a Payment” to be directed to the online payment processor. eChecks are a fast and simple payment method that can be made from regular U.S. checking and savings accounts in U.S. dollars. Checks issued from money market accounts, credit card companies, mutual funds, brokerage accounts, home equity or other lines of credit cannot be processed as an eCheck. Additional information is available at [Payment Options](#).

Tuition and Fees, cont.

Credit Card Payments

ASU does not directly accept credit or debit card payments for tuition or other student account charges. The University has arranged for a third-party processor to accept Visa, MasterCard, Discover, and American Express credit and debit card payments online. The processor will charge a 2.4% service fee for credit and debit card payments in addition to the ASU payment amount. The service fee is not paid to ASU and is non-refundable, even if related payment to ASU is refunded. Credit and debit card payments may be made on QuikPAY by logging in to My ASU [My ASU](#). Click on the "Finances" link on the upper left side, then click "Make a Payment" to be directed to the online payment processor. Credit and debit card payments are not accepted by mail, in person, or over the phone.

International Payments

ASU has partnered with Flywire (formerly peerTransfer) to offer a streamlined and cost effective payment method for you to make international payments to ASU through QuikPAY. Initiate your international wire transfer payment at least one week before the applicable due date to ensure timely receipt.

Personal Checks

Checks payable to Arizona State University and without restrictive endorsement are generally acceptable. Mail checks to Cashiering Services, Arizona State University, PO Box 870303, Tempe, AZ 85287-0303. Include your ASU ID number. Check payments should be mailed at least two weeks prior to the applicable tuition due date to avoid automatic enrollment in the Tuition Installment Plan. Check payments are also accepted in person at all campuses. **See Tuition Hours on page 14.**

Residency Classification

Residency (tuition) status is determined at the time a student submits an application for admission to the University. Non-resident students who feel they qualify for resident tuition status must submit a completed residency petition no later than the last day of regular registration. For general information about the residency requirements, consult the ASU General Catalog or the web at students.asu.edu/residency. The residency petition is a complex process and you are encouraged to petition early. You are advised to submit the online residency reclassification application, required supporting documentation, and your receipt for the \$50.00 non-refundable petition fee to the Residency Classification Office by the appropriate deadline date. The deadline for submitting a residency petition for Fall 2017 is August 23, 2017. Failure to petition by this deadline constitutes a waiver of the student's rights for requesting residency reclassification or appeal for the current semester.

Citizenship or Lawful Presence Requirement

Arizona law requires that students who are seeking consideration for in-state tuition status or aid that is funded in part or in whole by state money to provide verification of citizenship, permanent residency or other lawful immigration status. Most students will be able to be verified through automatic processes such as the financial aid application ([FAFSA](#)). Students choosing to go through the FAFSA process should be verified no later than the beginning of July for the Fall term, December for the Spring term and May for the summer term. If the FAFSA has not cleared the verification requirement by the recommended month it is highly possible that documentation is still required.

Tuition and Fees, cont.

ASU Payment Plan

The ASU Payment Plan provides students with the option to budget payment of certain eligible university charges over several months. Eligible charges are tuition, housing, meal plan, parking decals and health insurance. Students may enroll themselves in the plan through [My ASU](#) or they will be automatically enrolled if tuition charges are not paid in full by the applicable due date. There is a per-semester non-refundable fee of \$100 for resident students and \$200 for non-resident students. For additional information, please visit [ASU Payment Plan](#). Please note, the enrollment fee is non-refundable, even if the student withdraws from classes.

All students are eligible to enroll in the ASU Payment Plan after they register for classes. Once a student enrolls for classes, he or she will not be withdrawn from classes during the current semester for non-payment. Students must withdraw from classes if they decide not to attend. If students enrolled in the plan do not make scheduled payments, monthly late fees will be assessed until the account is brought current on payments, registration in future semesters will be blocked, and access to other University services, such as official transcripts and diplomas, will be withheld.

Tuition Payment with Financial Aid

Financial aid is posted to your student account and used to pay tuition and other student account charges, with any excess financial aid immediately refunded to you. Any institutional charges incurred after financial aid disbursement are the student's responsibility to pay by the due date. Financial aid awards generally only pay charges in the semester for which the aid is intended, and you may be refunded excess financial aid for one semester and still have a balance owed for another semester. If you receive a refund, ensure that all charges have been paid by logging in to My ASU [My ASU](#) and select the "Finances" link on the upper left side.

For students with accepted financial aid sufficient to cover tuition charges, financial aid will automatically pay tuition charges and no further action is necessary. Students with unpaid tuition charges in excess of pending aid will be automatically enrolled in the ASU Payment Plan.

Note: If financial aid is not awarded and accepted by the tuition due date, tuition charges must be paid in full to avoid automatic enrollment in the ASU Payment Plan and assessment of the non-refundable ASU Payment Plan fee of \$100 for resident students and \$200 for non-resident students.

By registering for classes you agree to pay all applicable tuition and registration fees. Classes are not automatically cancelled for non-attendance or non-payment.

Taxability of Scholarships and Fellowships: Scholarships, grants, fellowships and stipends (but not loan funds) are taxable income to the recipient, except for the portion of these funds used for tuition, registration, other University fees, and books, supplies and equipment required for the courses being taken. Special tax regulations also apply to non-resident alien students and may require withholding of taxes at the time of aid disbursement to these individuals. Information on the taxability of scholarships can be obtained from the following IRS publications and forms: Publication 970, Tax Benefits for Education, Pub 519-U.S. Tax Guide for Aliens, Form 1040EZ and instructions - Income Tax Return for Single and Joint Filers with No Dependents, Form 1040NR and instructions - U.S. Non-resident Alien Income Tax Return. These publications and forms can be obtained from the Internal Revenue Service at their toll free number 1.800.829.FORM or online at www.irs.gov.

The Student Financial Assistance Withdrawal Policy will apply when a student receives financial aid funds and subsequently withdraws, drops out, takes an unapproved leave of absence, fails to return from an approved leave of absence, is expelled, or otherwise fails to complete the period of enrollment for which he or she was charged. **See page 8 in this handbook or online at [Financial Aid Payment](#).**

Students with loans who would like to cancel or reduce their loans must inform the Student Financial Assistance Office in person within 14 days of the disbursement.

Tuition and Fees, cont.

Tuition Payment with Prepaid or College Savings Plans

Prepaid or College Savings Plan payments made payable to Arizona State University are generally accepted. Mail checks to Cashiering Services, Arizona State University, PO Box 870303, Tempe, AZ 85287-0303. Include the student's ASU ID number. Prepaid or College Savings Plan payments should be mailed at least two weeks prior to the applicable tuition due date to avoid automatic enrollment in the ASU Payment Plan and assessment of the non-refundable installment plan fee. Notification to Arizona State University of pending payments by the Prepaid or College Savings Plan does not exempt a student from automatic enrollment in the ASU Payment Plan and assessment of the non-refundable installment plan fee.

Sponsorship by Approved Governmental and Third-Party Agencies

Submit sponsorship authorization in person at the Student Accounts Office, by fax to 480.965.9242, or by e-mail sponsorbilling@asu.edu. Failure to do so by the tuition payment deadline will result in automatic enrollment in the ASU Payment Plan and assessment of a non-refundable enrollment fee of \$100 for resident students and \$200 for non-resident students. An acceptable letter of authorization must be submitted to the Student Accounts Office by **August 25, 2017**.

A **\$75 per semester** Sponsored Tuition Fee will be assessed to each sponsored student. Sponsored students are responsible for all tuition, fees, and late charges if the sponsoring agency fails to pay by the due date of the invoice. Questions about third party sponsorship may be directed to the Student Accounts Office.

International students who are required to carry student health insurance and are using coverage through their sponsor must receive approval from ASU Campus Health Services, Room 124, 480.965.2411. Governmental and Third-Party Agencies must have offices in the United States with invoices directed to a U.S. address.

Qualified Tuition Reduction Program

A Qualified Tuition Reduction Program is available to faculty and staff who are employed at least 50% time within the state University system, and to their spouses and dependent children. Employees must complete the Qualified Tuition Reduction Form every semester they attend, which can be obtained at Human Resources, the Student Accounts Office, or online at [HR Forms under Tuition Reduction Program](#). The completed form may be submitted to Student Accounts (Tempe Campus), Student Services Building Room 230, or at the West, Polytechnic, or Downtown Phoenix campus Cashiering Offices. The form may also be faxed to 480.965.9242 or emailed to tuitionreduction@asu.edu. The Qualified Tuition Reduction Program does not cover 100% of your tuition and fees. The outstanding portion of the tuition and fees will be billed on your student account and should be paid by the due date to avoid late fees. **Please submit early.**

Tuition and Fees, cont.

Non-residents are not eligible for the Qualified Tuition Reduction Program. Please contact Residency Classification at 480.965.7712. Residency processing can be time-consuming, so apply early. You must be employed on the first day of the semester to be eligible for the Qualified Tuition Reduction Program. The Qualified Tuition Reduction Form must be processed by the Student Accounts Office on or before the first day of the session to qualify for reduced tuition. Forms submitted after the first day of the session will not be accepted and you will be held responsible for the full tuition and fees.

Graduate Assistants

Students identified as Research and Teaching Assistants receive tuition assistance if they meet employment and class enrollment requirements. RA/TA remissions do not cover 100% of tuition and fees. If eligible for a remission, the remaining tuition and fees will be billed on your student account with a **August 25, 2017** due date.

Differential Tuition and Program Tuition

Certain graduate, undergraduate, colleges and programs assess additional differential tuition and program tuition which differs according to college and/or program. Contact your program advisor for details on these fees or see the [Tuition Estimator](#).

Excess Hours Tuition

The Arizona Legislature enacted legislation in 2005 (A.R.S. § 15-1626) that establishes credit hour thresholds for undergraduate students who attend a public university in Arizona. Undergraduate students who enroll for credit hours beyond the applicable threshold of 145 hours are required to pay a tuition surcharge. The tuition surcharge is billed in addition to tuition, program tuition, mandatory fees and class fees. Please see the [Tuition and Fees](#) website for additional information.

Special Class, Hybrid, ocourse and icourse Fees

Special class, hybrid, ocourse and iCourse fees are assessed based on enrollment in specific classes. Class fees are published with each class through [class search](#).

Financial Aid Trust Fee

All students are assessed a mandatory financial aid trust fee as authorized by the Arizona Legislature to create a Financial Aid Trust Fund, from which Financial Aid Trust Grants are awarded under the usual aid eligibility criteria. Fees collected from students are matched by the State of Arizona. See the [Tuition and Fees Schedule](#) for additional information.

Technology Fee

All students are assessed a mandatory technology fee as authorized by the Arizona Board of Regents to fund technology initiatives and improve access on all campuses. See the [Tuition and Fees Schedule](#) for additional information.

Student Programs Fee

All students are assessed a mandatory student programs fee as authorized by the Arizona Board of Regents to provide funding for new or enhanced facilities and student support programming. See the [Tuition and Fees schedule](#) for additional information.

Recreation Fee

All students are assessed a recreation fee allowing access to recreation facilities on all four ASU campuses. See the [Tuition and Fees Schedule](#) for additional information. Faculty/staff who are attending classes and all online students are not assessed the recreation fee. Please contact the Student Recreation Complex at 480.965.8900 for information on how to become a member.

Tuition and Fees, cont.

Health and Wellness Fee

All students are assessed a health and wellness fee as authorized by the Arizona Board of Regents to enhance services for students who seek both preventative and acute care and to expand outreach and wellness education and services.

Student Service Facility Fee

All students are assessed a Student Services Facility Fee as authorized by the Arizona Board of Regents to provide funding for new and enhanced student service facilities. See the [Tuition and Fees Schedule](#) for additional information.

Student Athletic Fee

The Student Athletic Fee will fund reinvestment in academic support areas, strengthen undergraduate and graduate academic experiences, and enhance student engagement in athletics, including access to Sun Devil Athletics sporting events and enhanced game day experiences in Sun Devil Stadium, Wells Fargo Arena and other athletic venues. This fee was initiated and supported by Undergraduate Student Government and the Graduate and Professional Student Assembly.

Resident Surcharge Fee

The Resident Surcharge Fee is a per semester fee assessed to resident students during the 2017/2018 school year. The Resident Surcharge Fee will partially offset state budget reductions to maintain and achieve current academic goals and standards.

Late Registration Fee

All students who register for Sessions A & C on **August 9, 2017** and after, will be **assessed a late registration fee of \$50.00**. For Session B, students who register after **October 3, 2017** will be assessed the late registration fee. Registration after the published deadline may be permitted under extraordinary circumstances if approved by an authorized College designee. Late registration fees are not refundable.

Tuition Receipt

For students requiring tuition receipts for insurance, reimbursement, or other reasons, login to [My ASU](#) and select the "Finances" link on the upper left side, then click the Tuition Receipt link. For in person assistance or additional documentation,

see campus locations under "Tuition Payment Hours", page 14.

Delinquent Financial Obligations

Students with delinquent accounts will not be allowed to register for classes or obtain official transcripts or diplomas. The University reserves the right to involuntarily withdraw students with severely delinquent accounts from current semester courses. University billings not paid by the due date are subject to monthly late charges beginning 30 days past due and continuing monthly until paid in full. The monthly late charge for past due balances between \$20-\$50 is \$5, for balances between \$51-\$400 is \$10, for balances between \$401-\$1,000 is \$25, for balances between \$1,001-\$3,000 is \$50, for balances between \$3,001-\$5,000 is \$75, and for balances greater than \$5,000 is \$100. Former students with outstanding charges may be referred to an outside collection agency with late fee assessment continuing monthly until paid in full.

Returned Checks

A \$25 fee is assessed for returned checks and eChecks. Students with multiple returned checks or eChecks are subject to a permanent registration hold requiring advanced payment in secure funds prior to registration or access to other University services.

Student Health Insurance

Eligibility: Group Health insurance is available to:

- **Undergraduate students** registered for at least seven units or have a consortium agreement to take courses at another qualified college with an overall credit hour total of at least seven units
- **Graduate students** enrolled in degree or certificate programs, and taking at least three credit hours or one dissertation/thesis hour

Graduate, Teaching or Research Assistants who are offered insurance as part of their employment must enroll in the insurance, enrollment is not automatic.

- **International student** enrollment in Student Health Insurance is mandatory and the cost of insurance is automatically

Tuition and Fees, cont.

added to registration fees. Waiver exception may be available. For additional information or waiver application <https://eoss.asu.edu/health/resources/international>.

Student Health Insurance enrollment is available through My ASU (my.asu.edu) by selecting Campus Services, Health and Wellness Resources. Once enrolled for Student Health Insurance, you will be automatically re-enrolled into the plan each subsequent semester once you have registered for classes. The premium will be billed to your student account.

Coverage may be added or dropped through the first 2 weeks of each semester/session. Complete withdrawal from the University on or before the end of this two week period may not result in automatic cancellation of student health insurance. To cancel or add insurance prior to the end of open enrollment, go to MyASU under Campus Services, Health & Wellness Resources. The insurance **cannot** be cancelled if complete withdrawal from the University occurs after this two week period or if the insurance has been utilized. You may also direct questions and concerns to insurance@asu.edu.

Additional information about coverage, eligibility, cost, payment options and coverage can be found at <https://eoss.asu.edu/health> or <https://www.aetnastudenthealth.com>, enter ASU.

Institutional Refund Policy

Tuition and Fees

Tuition and fees are subject to a 100% refund if enrollment is officially cancelled within the refund period. In the Fall and Spring semesters, for classes eight weeks or longer, the refund period is two weeks, and for classes shorter in length the refund period is one week. Please see the [Tuition Refund Policy](#) for additional information.

Beginning the first day of classes, undergraduate students are required to work with the College of their major to facilitate the withdrawal process.

The 100% refund period is one week for sessions shorter than eight weeks and dynamically dated classes. All refunds are less any amounts owed to the University and are subject to payment holding periods. Students withdrawing for medical or other extenuating circumstances must contact their college to initiate the process. Tuition is non-refundable after the first week of these sessions/classes.

The University provides a prorated refund for students receiving financial aid; therefore, the refund schedule is the minimum amount refundable to these students. Withdrawal or cancellation occurs on the calendar day that withdrawal is processed either in person at any Registrar site or online using My ASU. See the [Financial Aid Withdrawal Policy](#) for additional information.

Student Account Refund (Disbursement)

Financial aid is posted to your student account and used to pay University charges such as tuition, Residential Life, meal plan and health insurance fees. Refunds of excess financial aid will be processed beginning the week before classes and will continue to be processed throughout the semester. Any changes to your schedule that results in a fee increase or any other fees incurred after financial aid disbursement, will be your responsibility to pay by the due date. You may view details of your student account, including financial aid refunds, by logging into [My ASU](#) select the "Finances" link on the upper left side, and select the Refunds link.

Note: To receive your financial aid refund beginning the week before classes, you must register for classes, complete your financial aid packet, and accept your loans at least two weeks before the semester begins. Financial aid refunds will be mailed or direct deposited to your bank account.

Refund by direct deposit to your bank account is available and is the most convenient way to receive student account refunds. Direct deposit enrollment is available at My ASU [My ASU](#) by selecting the "Finances" link on the upper left side, and clicking "Direct Deposit" in the Financing Tasks box under "Manage Payments". Further information is available at [Tuition and Billing](#) or in the Student Accounts Office on the 2nd floor of the Student Services Building (Tempe campus). Direct deposit enrollment must be completed a minimum of two weeks prior to your refund being issued. For students not enrolled in direct deposit, or who do not meet the direct deposit enrollment deadline, refund checks will be mailed. Keep your mailing address up to date to ensure that refund checks are received in a timely manner. View and update your address on My ASU by clicking on "My Profile" in the top-right corner. If you request a replacement check there is a \$20 per check reissue fee. **All student account refund checks will be mailed.**

Transportation Options

For all transportation related inquiries, including parking permit rates and locations, free campus shuttle services, Valley Metro bus and light rail passes, visitor parking, and bicycling on campus, please visit the ASU Parking and Transit Services website at <http://parking.asu.edu>.

University Policies

Family Educational Rights and Privacy Act

General Information

The federal Family Educational Rights and Privacy Act (also known as FERPA, and/or the Buckley Amendment) affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.

Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

Note: Students must provide photo identification in order to access their education records.

2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.

Students who believe their record is inaccurate or misleading should write to the University official responsible for the record. Clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing about the request for amendment. Additional information about the hearing procedures will be provided to the student when notified of the right to a hearing.

Note: FERPA does not address grade disputes or grievances which are pursued through other University and/or college procedures.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interest. School officials are administrators, faculty, professional staff, academic advisors, clerical or support employees, including ASU law enforcement unit personnel and ASU health staff, volunteers, a person or company with whom the University has contracted as its agent, acting with legitimate educational interest to provide a service instead of using University employees or officials (such as an attorney, auditor, collection agent, service provider); a person serving on the Board of Regents; staff in the Alumni Association and ASU Foundation offices, or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

Additional exception categories may be found in SSM 107-01: Release of Student Information which is located on the web at <http://www.asu.edu/aad/manual/ssm/ssm107-01.html>

A school official has a legitimate educational interest if the interest in an education record is justified under one or more of the following conditions:

- The information or records requested are relevant and necessary to accomplish some task or determination related to the legitimate educational interest of the student;
- the official needs to review an education record in order to fulfill his or her professional responsibilities for the University;
- the task or determination is an employment responsibility or a properly assigned subject for the inquirer's determination and/or
- the task or determination is consistent with the purpose for which the records, information, or data are maintained.

Note: A parent of a dependent student may challenge denial of access to the dependent student's record by producing the most current copy of Internal Revenue Form 1040. (Dependency is defined in Section 152 of the Internal Revenue Code.) If that form lists the student in question as a dependent, the parent

University Policies, cont.

will be required to sign an Affidavit of Dependency which affirms that the student is his/her tax dependent. The affidavit will be retained by the University Registrar Services and must be renewed each tax year. Upon receipt of these documents, the dependent student records will be made available to the parent as specified under FERPA.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Arizona State University to comply with the requirements of FERPA. Students are encouraged to first contact the University Registrar's Administration Office at 480.965.7302. A complaint may be filed with the Department of Education at the following address:

Family Policy Compliance Office

U.S. Department of Education

400 Maryland Avenue, SW

Washington, DC 20202

Definitions:

Student is any individual formally admitted and is or has been in attendance at ASU. The term does not apply to applicants for admission, nor does it apply to persons who have been admitted but who have not registered.

Education Record is any record(s) directly related to a student and maintained by Arizona State University or by a party acting for the University. This includes any information or data recorded in any medium, including, but not limited to: handwriting, print, computer media, video or audio tape, film, microfilm, and microfiche.

Directory Information (or releasable information) is general information that may be released to anyone without the consent of the student, unless the student indicates otherwise, except to the extent that FERPA authorizes disclosure without consent, including:

- Student Name
- Addresses (e.g., local, home, mailing and ASU e-mail, including directory number)

- Telephone Number(s)
- Date of Birth
- College
- Major
- Academic Level
- Dates of Attendance
- Enrollment status (e.g., undergraduate or graduate, full-time or part-time)
- Most Recently Attended Institution
- Participation in Officially Recognized Activities/Sports
- Weight/Height of Members of Athletic Teams
- Degrees, Honors and Awards Received (including Dean's List, National Merit, National Achievement, and National Hispanic Scholars)

Personally Identifiable Information (or non-releasable information) includes all information not defined as directory information, plus any information including directory information that the student has instructed ASU not to release. Personally identifiable information may not be released without the prior written consent of the student, except to the extent that FERPA authorizes disclosure without consent.

Student Control of Directory Information

Students may control release of directory information by submitting the appropriate form to any University registration location.

Unless otherwise requested, a student's name, email address, academic level, college and major may appear in the directory of faculty, staff, and students on ASU's web directory. To avoid the release of directory information in the printed directory, complete the appropriate form located at students.asu.edu/forms/withhold-directory-information-request.

University Policies, cont.

ASU has a policy that regulates and permits the sale of enrolled student directory information only through the University Registrar's Office. Unless otherwise directed by the student, directory information is subject to sale to outside purchasers.

Students accessing education records or receiving University services must provide proof of identification.

Questions or requests for additional information may be directed to any University registration location. Additional information, including FAQ's, is available on the web at <http://students.asu.edu/policies/ferpa>.

ACD 401: Prohibition Against Discrimination, Harassment, and Retaliation

Arizona State University is committed to providing an environment free of discrimination, harassment, or retaliation for the entire university community, including all students, faculty member, staff employees, and guests. ASU expressly prohibits discrimination, harassment, and retaliation by employees, students, contractors, or agents of the university based on any protected status: race, color, religion, sex, national origin, age, disability, veteran status, sexual orientation, gender identity, and genetic information.

Inappropriate conduct need not rise to the level of a violation of federal or state law to constitute a violation of this policy and to warrant disciplinary action/sanctions.

All employees, students, volunteers, contractors and agents are responsible for participation in and assisting with creating and maintaining an environment at ASU free from all forms of prohibited discrimination, including harassment and retaliation.

ACD 402: Romantic or Sexual Relationship Between Faculty Members and Students.

ACD 815: Romantic or Sexual Relationships Between Staff/Volunteers and Students

TA/RA Handbook: Prohibition of Amorous Relationships

SPP 205: Nepotism and Relationships Between Employees

No employee of the university may hire, review, supervise, direct, discipline, promote, influence, or participate in decisions involving hire, retention, supervision, promotion, evaluation or compensation of a relative or member of the employee's established household, or a person with whom the employee is in a romantic or sexual relationship.

Additionally, all employees, including Faculty, staff and volunteers as well as TA/RA's are prohibited from engaging in a romantic or sexual relationship with a student over whom they exercise, or can reasonably be expected to exercise, academic or employment authority or influence. Such authority or influence includes,

but is not limited to, employment-related decisions such as hiring, evaluation or discipline, and academic-related decisions such as grading, transfers, evaluations, formal mentoring or advising, supervision of research, employment of a student as a research or teaching assistant, exercising substantial responsibility for honors or degrees, or considering academic disciplinary action involving the student.

Title IX Compliance

Title IX of the Education Amendments of 1972 protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. Sexual harassment, which includes acts of sexual violence, is a form of sex discrimination prohibited by Title IX. ASU does not discriminate on the basis of sex in the employment, education programs or activities it operates.

ASU is committed to providing an environment free from discrimination based on sex and provides a number of resources and services to assist students, faculty and staff in addressing issues involving sex discrimination, including sexual violence.

Sexual violence, sexual harassment, stalking and relationship violence have a profound impact on a victim's academic, social, working, and personal life, and negatively affects victims' friends and families, other students, co-workers, and members of the university community. To combat this complex social problem, ASU provides a variety of resources and education programs designed to prevent sexual violence and other acts of sexual misconduct, including sexual harassment, provide information about what to do when an incident has occurred, and increase awareness of campus and community resources for support and response. For information about specific resources, educational opportunities, and policies and procedures, please go to ASU's Sexual Violence Awareness and Response website at: <https://sexualviolenceprevention.asu.edu/>

Discrimination Complaints

Complaints of alleged discrimination in employment and educational programs and activities on the basis of race, color, religion, national origin, sex, gender identity, sexual orientation, age, disability, and qualified veteran statuses may be referred to the offices listed on the following page for review, investigation and resolution.

No Retaliation

A report of alleged discrimination can be made without fear of jeopardizing the employment or academic standing of an employee or student.

Accommodations for Students with Disabilities

To help facilitate access to programs and services at ASU from the first day of classes, students with disabilities should use the following process:

- Register for classes on their assigned Registration Date, and
- Make sure you are registered with the DRC office
- Request accommodations from the Disability Resource Center immediately following enrollment (please note you need to request each semester).

Note: Some accommodations, including but not limited to: alternative print formats, (e.g., Braille, e-text, large print), interpreting services, lab materials conversions, assistive technology, and the hiring of lab assistants, may require up to one semester in preparation time.

Returning Students: Go to <https://eoss.asu.edu/drc>, sign into DRC Connect to request accommodations for ASU classes.

New Students: Go to <https://eoss.asu.edu/drc>, select DRC Connect link and submit a new student application to initiate your registration with the DRC. Make sure to use your ASURITE username and password. If you have questions, do not hesitate to contact one of our offices below.

Contact Information: You can reach any of our Disability Resource Center offices by utilizing the information below:

ASU Statement on Drug-Free Schools and Campuses

Under federal legislation entitled the Drug-Free Schools and Communities Act Amendments of 1989 ("Act"), no institution of higher education shall be eligible to receive funds or any other form of financial assistance under any federal program, including any federally funded or guaranteed student loan program, unless it has adopted and has implemented a program to prevent the use of illicit drugs and the abuse of alcohol by students and employees. The Act requires the annual distribution of the following information to students and employees.

Prohibition

It is the goal and policy of Arizona State University ("ASU") to provide a drug free environment for all University students and employees. To achieve this goal and to comply with federal law, ASU prohibits the unlawful sale, manufacture, distribution, dispensation, possession, and use of controlled substances on its property or as part of any of its activities.

Every ASU student and employee must abide by the terms of this statement, abide by applicable policies of the Arizona Board of Regents and Arizona State University, and abide by local, state, and federal laws regarding the unlawful possession or distribution of illicit drugs and alcohol.

ASU students and employees are subject to all applicable drug and alcohol policies, including policies set forth in the University's Staff Personnel Policies and Procedures Manual, the Academic Affairs Policies and Procedures Manual, University Student Services Manuals, and the ASU Police Department Policies and Procedures Manual. The following drug and alcohol policies also apply to students and employees: the Arizona Board of Regents' Code of Conduct and Student Code of Conduct and Arizona State University's Policy regarding alcohol and other drugs.

Sanctions

Sanctions under federal, state, and local law for the unlawful possession or distribution of illicit drugs and alcohol are serious and can range from civil sanctions to criminal convictions including fines and imprisonment. A listing of Arizona penalties

can be found at www.azleg.gov/arsDetail/?title=13 and a listing of Federal penalties can be found at www.dea.gov/druginfo/ftp3.shtml. Sanctions will be imposed on a student who violates a Board of Regents' or University drug or alcohol policy; those sanctions may include expulsion or suspension, and may also include the requirement that the student participate in a drug education program. Sanctions will be imposed on an employee who violates university drug or alcohol policies which may include termination of employment, progressive discipline, and may also include the requirement that the employee participate in a drug education program.

Health Risks

A. Alcohol

Alcoholic consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effect just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

ASU Statement on Drug-Free Schools and Campuses, cont.

B. Illicit Drugs

A description of health risks associated with the use of illicit drugs is set forth in the attached Exhibit B.

Treatment, Counseling, and Rehabilitation Programs

Information for students and employees regarding the health risks associated with the use of illicit drugs and abuse of alcohol, drug and alcohol awareness programs, and drug and alcohol treatment and rehabilitation programs is available through ASU Wellness [<https://eoss.asu.edu/wellness/drugs>], Student Health Services [<https://eoss.asu.edu/health>], the Employee Assistance Program [<https://cfo.asu.edu/employee-assistance-wellness>] and Student Counseling Services [<https://eoss.asu.edu/counseling>]. Classes regarding drug abuse are also offered in the School of Social Work, Departments of Psychology and Counseling, the College of Nursing, and the Office of Human Resources.

The following offices have the ASU Statement on Drug-Free Schools and Campuses and will provide it on request:

- *Office of General Counsel*
- *Dean's Office in each ASU College*
- *Office of Human Resources*
- *Division of Graduate Studies*
- *Provost Offices on each campus*
- *Student Employment*
- *Office of Research Development and Administration*
- *Student Life*

For further information about this statement or the Drug-Free Schools and Communities Act Amendment of 1989, contact the Office of General Counsel by calling 480.965.4550.

Student Right to Know Act and Higher Learning Commission Data

As part of the federal Student Right to Know Act, institutions receiving Title IV funding are required to disclose certain information, such as completion or graduation rates of degree-seeking, full-time students entering the institution, to current and prospective students. Similarly, the Higher Learning Commission requires that institutions publish student achievement information, such as completion rates, job placement rates or other information useful for current and prospective students. In furtherance of those mandates, the following "Facts About ASU" section provides valuable consumer information about the success of ASU's students.

Facts About ASU

Arizona State University enjoys a national reputation as a leading research institution. ASU produces more graduates than any other university in the state. Students from around the nation and the world choose ASU because of its diversity and quality of academic, student, and research programs, a beautiful campus setting, and the value of the ASU degree in today's world.

Academic Environment

ASU offers 182 bachelor's degree programs, 180 master's degree programs, 86 doctoral programs, and one law degree program.

Undergraduate Students

ASU enrolled 12,119 new freshmen for the Fall 2016 semester. **Of the new freshmen, 26% graduated in the top 10% of their high school class.** The average ACT composite score of first time full-time freshmen is 24.5. The average SAT combined score is 1116.

ASU enrolled 10,797 new transfer students for the Fall 2016 semester with 39.8% of the new transfers coming from community colleges in Arizona.

The graduation rate for 2011 lower division transfer students graduating in 5 years or less was 59.7%

The graduation rate for 2012 upper division transfer students graduating in 4 years or less was 74.1%

Undergraduate Enrollment

ASU enrolled 79,447 undergraduates in the Fall 2016 semester.

Seniors (Seniors: 27,646; Juniors: 22,402; Sophomores: 15,808; Freshmen: 13,156) compose the largest class, representing more than a quarter of the student body and over a third of the undergraduate enrollment. ASU enrolled students from every state and from 123 countries in the Fall 2016 semester.

Undergraduate Student Profile

37.6% are from ethnic minority backgrounds

7.7% are international students

The average age is 24.

Graduate Enrollment

ASU enrolled 18,730 graduates in the Fall 2016 semester

Graduate Student Profile

25.8% are from ethnic minority backgrounds.

22.2% are international students.

Student Athlete Profile

For information on student athlete graduation rates, please visit the following webpage

<http://www.ncaa.org/about/resources/research/graduation-rates>

Degrees Awarded

In 2015-2016, ASU awarded 15,264 bachelors, 5,817 masters, 674 doctoral and 198 law degrees.

The graduation rate for 2010 first time, full time freshmen graduation in six years or less was 67.0%. Information on students who transfer out from ASU is not recorded, therefore is not available.

The six-year graduation rate for 2010 first time, full-time freshmen receiving Pell grants, receiving subsidized Stafford Loans but no Pell grant, and receiving neither Pell grant nor Stafford loan was 60.8%, 59.0% and 72.9% respectively.

Career and Professional Development Services

University Policies

Academic Integrity

What is Academic Integrity?

Academic Integrity

Policy [1]

Impact [2]

Resources [3]

Integrity is a character-driven commitment to honesty, doing what is right, and guiding others to do what is right. Arizona State University students and faculty are expected to act with integrity in their educational pursuits.

What is a violation of the academic integrity policy?

The ASU student academic integrity policy [4] lists violations in detail. These violations fall into five broad areas that include but are not limited to:

1. Cheating on an academic evaluation or assignment.
2. Plagiarizing.
3. Academic deceit, such as fabricating data or information.
4. Aiding academic integrity policy violations and inappropriately collaborating.
5. Falsifying academic records.

What is not a violation of the academic integrity policy?

Not all inappropriate behavior in the academic setting is an academic integrity policy violation.

Student Code of Conduct

Violations of the ASU Student Code of Conduct, other than the provision concerning academic dishonesty, are more generally considered inappropriate behavior. The Office of Student Rights and Responsibilities [5] reviews and sanctions these matters. If a student violates both the academic integrity provision and additional provisions of the Student Code of Conduct, both the college and the Office of Student Rights and Responsibilities will review the matter. Each independently makes determinations concerning violations and appropriate sanctions.

Research

For graduate students and undergraduates involved in research, there can be overlapping areas between Academic Integrity Policy violations, responsible conduct of research and research misconduct. The five areas listed above describe the kinds of Academic Integrity Policy violations and are handled under the ASU Student Academic Integrity Policy by faculty members, colleges and the provost.

If a student is working on a federally funded research project, some of these items may also be considered misconduct in research [6]. Misconduct is defined as:

Fabrication, falsification, plagiarism and other practices that seriously deviate from those that are commonly accepted within the academic community for proposing, conducting or reporting research. Instances of honest error and honest differences in interpretations or judgments of data are not considered misconduct. (From RSP 004: Definitions [7])

A student who violates both ASU's Misconduct in Research Policy and Student Academic Integrity Policy will be reviewed by both the college and the Office of Knowledge Enterprise Development's Office of Research Integrity and Assurance [8] (ORIA). Each independently makes determinations concerning violations and appropriate sanctions.

In addition, some actions might be considered violations of the norms of responsible conduct of research, but not Academic Integrity Policy violations or misconduct in research. Many of these incidents fall into the general category of "collaborator disputes." For example, if a doctoral graduate of ASU continued a line of research begun at ASU in a new lab external to ASU, and the ASU mentor objected, generally speaking the matter would be addressed as a collaborator dispute, rather than as an Academic Integrity Policy violation or misconduct in research. Many conflicts over appropriate authorship credit on publications also fall into this area.

Policy

At Arizona State University, academic honesty is expected of all students in all examinations, papers, academic transactions and records. The possible sanctions include, but are not limited to: appropriate grade penalties, loss of registration privileges, disqualification and dismissal. ASU strictly adheres to the academic integrity policy. This policy sets forth the ASU Student Academic Integrity Policy and appeal procedures.

Student Obligations to Academic Integrity

Each student must act with honesty and integrity, and must respect the rights of others in carrying out all academic assignments. A student may be found to have engaged in academic dishonesty if, in connection with any Academic Evaluation or academic or research assignment (including a paid research position), he or she:

1. Engages in any form of academic deceit;
2. Refers to materials or sources or uses devices (e.g., computer disks, audio recorders, camera phones, text messages, crib sheets, calculators, solution manuals, materials from previous classes, or commercial research services) not authorized by the instructor for use during the Academic Evaluation or assignment;
3. Possesses, reviews, buys, sells, obtains, or uses, without appropriate authorization, any materials intended to be used for an Academic Evaluation or assignment in advance of its administration;
4. Acts as a substitute for another person in any Academic Evaluation or assignment;
5. Uses a substitute in any Academic Evaluation or assignment;
6. Depends on the aid of others, including other students or tutors, in connection with any Academic Evaluation or assignment to the extent that the work is not representative of the student's abilities;
7. Provides inappropriate aid to another person in connection with any Academic Evaluation or assignment, including the unauthorized use of camera phones, text messages, photocopies, notes or other means to copy or photograph materials used or intended for Academic Evaluation;
8. Engages in Plagiarism;
9. Uses materials from the Internet or any other source without full and appropriate attribution;
10. Permits his or her work to be submitted by another person in connection with any Academic Evaluation or assignment, without authorization;
11. Claims credit for or submits work done by another;
12. Signs an attendance sheet for another student, allows another student to sign on the student's behalf, or otherwise participates in gaining credit for attendance for oneself or another without actually attending;
13. Falsifying or misrepresenting hours or activities in relationship to an internship, externship, field experience, clinical activity or similar activity; or
14. Attempts to influence or change any Academic Evaluation, assignment or academic record for reasons having no relevance to academic achievement.

Allegations of Academic Dishonesty

This policy is not intended to address differences of opinion over grades issued by an instructor exercising good faith and professional judgment regarding a student's work. Before any action is taken under this Policy that may result in the withdrawal, suspension or expulsion of an international student, both the student and the academic program are advised to consult with the ASU International Student Office.

These procedures are designed to encourage a fair and appropriate response to allegations of academic dishonesty. They may be modified in individual cases, so long as the student is provided an opportunity to respond to allegations of academic dishonesty within a reasonable time after those allegations have been made. An Advisor may accompany the student at any point in the process. The Advisor will not be permitted to participate directly or speak for the student, but may be present during meetings and hearings.

1. Complaint.
 1. Anyone with a good faith basis for believing that a student has violated this policy may report the alleged violation to the responsible instructor, chair, dean, director or designee. The person who pursues the allegation is called the "Initiator" in this policy. If for any reason, an Initiator is unable or unwilling to continue in that role, another university representative may continue as Initiator.
 2. An individual who has received an allegation may decide not to initiate a complaint. This decision will not prevent another person from becoming the Initiator.
2. Response to Complaint.
 1. An instructor who believes that a student has violated this policy in a class for which the instructor is responsible may assign any of the following sanctions:
 1. a reduced grade for an assignment, or
 2. a reduced grade for the course.
3. If the instructor wants to recommend another sanction set forth in Section IV, including an XE grade, the instructor must forward that recommendation for review by the College/School Board and approval by the Dean, Director or designee. The student and the instructor will be provided an opportunity to provide information to the College/School Board as part of its review.
4. At any time, the student and the Initiator may propose a resolution, but the Dean, Director, or designee, may choose to pursue the case on behalf of the University.
5. Information regarding the allegation or resolution may be provided to appropriate university representatives.
6. If the Initiator and the student are unable to agree on resolution, then the student, the Initiator, or a representative of the Dean or Director may submit the matter to the Dean, Director or designee of the College/School in which the alleged academic dishonesty occurred for review by the College/School Board.
7. After a formal request for review has been filed, the Student may remain in class or in the program until the appeal has been resolved. The student will not be given a refund, however, if the student is not successful in the appeal and the decision is made to remove the student from the class, program or university.
8. If the matter is not submitted by the student to the Dean, Director or designee for review within 10 days following the time the student is accused of academic dishonesty, the decision or recommendation of the instructor becomes final. If the instructor has submitted a request for an XE or any other sanction to the Dean, Director or designee, and the student has not requested review within 10 days of receiving notice of this request, the Dean, Director, or designee may enter a decision on the request. Only if the decision includes suspension or expulsion from the university will the student be able to request further review.

Review by College/School Board

1. Within 10 days after the Student receives a reduced or "XE" grade, or other notice of the alleged academic dishonesty, the Student may submit a written statement to the Dean requesting review of the allegation, the sanction or the proposed sanction by the College/School Board. For the purpose of calculating the time for submitting a matter for review, the 10-day period is counted to include only days that fall within the regular fall or spring semester and do not include the summer sessions or intersession. The Dean may appoint an ad hoc board to conduct the review or may use a standing board. The review will take place during the regular fall or spring semester, unless the parties agree otherwise.
2. These procedures should guide the review process, but may be altered by the Chair of the College/School Board in consultation with the Office of General Counsel.
3. The Student statement should describe the alleged academic dishonesty, including a factual narrative of events and the dates and times of occurrences and any sanction or proposed sanction. The statement should also include the names of persons having information about relevant circumstances or events, the general nature and description of all evidence, and should be signed by the Student.
4. If the Student submits a request for review at the end of a semester, or during the last semester of enrollment, the course grade may be withheld for a reasonable period of time (normally not to exceed six months) until the matter is decided. In situations involving the student's last semester before graduation, the degree may be withheld pending the outcome of the hearing. If a grade or degree will be withheld for any period, the Initiator, Dean, Director, or designee must notify the Registrar's Office.
5. The Dean, Director or designee will forward the student's statement to the Chair of the College/School Board.
6. If the alleged cheating involves the work of multiple students, the College/School Board may modify these procedures to address the circumstances. The College/School Board should provide prior written notice to all

interested parties of any modification of the procedures. A student who has not submitted a request for a review should not expect to benefit from a review requested by another student.

7. Hearing Proceedings

1. The Chair of the College/School Board will send a copy of the statement to the Initiator, together with a copy of this Policy or with instructions on accessing the policy electronically.
2. The letter to the student, a copy of which shall also be sent to the Initiator and the department chair, will include the following information:
 1. Statement of time and place when a hearing on the charges will be held by the College/School Board;
 2. Requirement that the parties to provide each other and the College/School Board a written list of witnesses and a description of any documents or other evidence they intend to use at the hearing. Unless the Chair provides otherwise, this information must be exchanged at least one calendar week before the hearing.
3. Prior to the hearing, the College/School Board will also advise the parties in writing of any additional time limitations or procedural requirements.
4. The Initiator shall have the burden of showing that it is more likely than not that the student engaged in academic dishonesty.
5. Issues shall be resolved fairly and as promptly as possible under the circumstances.
6. The hearing will be closed to the public. The student and the Initiator may remain in the hearing throughout the presentation of all evidence and testimony, although the College/School Board Chair may remove either party, any Advisor, or any witness if that person's conduct is disruptive.
7. The student and the instructor may each have an Advisor present but the Advisors shall not be permitted to address the College/School Board directly, except as the College/School Board Chair deems necessary or appropriate.
8. The College/School Board Chair has the final authority to resolve procedural disputes that arise. Although formal rules of evidence do not apply to the hearing process, the College/School Board Chair may limit the presentation of irrelevant or cumulative evidence, the number of witnesses and the length of each party's presentation.
9. The proceedings may be recorded, as determined by the College/School Board Chair.
10. When necessitated by fairness or extraordinary circumstances, the College/School Board may permit the parties to make arrangements for recorded, written, or telephonic testimony for use in the proceeding.
11. The hearing procedure will be as follows, unless the College/School Board Chair provides notice to the parties of alternative or supplemental procedures.
 1. The College/School Board Chair will introduce the persons present at the hearing and remind all participants of the requirement that all information received in the hearing must be maintained in confidence.
 2. The College/School Board Chair will read allegation of academic dishonesty.
 3. The College/School Board Chair will make any necessary decisions or clarifications regarding procedure.
 4. Testimony and Evidence Presented by the Initiator.
 5. The Initiator shall offer evidence in support of the allegation.
 1. The Initiator may call witnesses and present evidence.
 2. The student may ask questions of the Initiator or any of the Initiator's witnesses, following each person's presentation.
 3. College/School Board members may ask questions of the Initiator, the student or any of the Initiator's witnesses.
 6. Testimony and Evidence Presented by the Student.
 1. The student shall offer evidence in defense of the allegation.
 2. The student may call witnesses and present evidence.
 3. The Initiator may ask questions of the student or any of the student's witnesses, following each person's presentation.
 4. College/School Board members may ask questions of the student, the Initiator, or any of the student's witnesses.
 7. The College/School Board shall deliberate in private until a majority recommendation is reached and recorded. If the recommendation is not unanimous, dissenting opinions should be reflected in the recommendation submitted to the Dean or Director.
 8. The College/School Board will prepare a written recommendation to the Dean or Director. The recommendation will include the Board's determination as to whether it is more likely than not that the student violated this policy. The decision should also include the College/School Board's findings with respect to the material facts.
 9. If the Board finds a violation, the recommendation should recommend sanctions. The Board may consider prior violations or informal resolutions of previous allegations in its deliberations.

10. The College/School Board will submit its recommendation to the Dean or Director.
11. The Dean or Director may dismiss the allegation, may concur with or modify the recommendation or may request further proceedings, but may not make new findings adverse to the student or increase the severity of a sanction, unless the student has previously violated this policy.
12. After any additional proceedings and within a reasonable time, the Dean or Director will issue a decision. The Dean will provide written notice of the decision to the student, the Initiator, the instructor (if the instructor is not the Initiator), the College/School Board and the department chair (or administrative equivalent).
13. If the decision imposes a sanction of suspension or expulsion from the university, or revocation of a degree, the notice letter from the Dean or Director will state that the student may appeal the decision by filing a written request for review with the Provost of the campus at which the alleged violation occurred within 10 days of the date of the notice letter. If the student does not submit a written request for review within 10 days, the decision of the Dean or Director becomes final.
14. Once the student has provided written notice of an appeal of a sanction, the sanction will not be imposed until the appeal has been resolved with the exception that the university may withhold posting of a grade or completion of graduation until the matter has been resolved.

Sanctions

1. Sanctions that may be imposed by an Instructor.
 1. Subject to the procedures set forth in section III, an instructor, academic supervisor, or committee responsible for evaluation may impose any of the following sanctions for academic dishonesty:
 2. Reduced or failing grade for assignment,
 3. Reduced or failing grade for course, or
 4. Reduced, failing grade, or no credit for other academic evaluation (e.g., clinical training, comprehensive exam, thesis, dissertation).
 5. Within 10 days after an instructor-imposed sanction is assigned, the student may appeal the sanction to the Dean or Director.
2. Sanctions that may be recommended by an instructor.
An instructor, academic supervisor, or committee responsible for academic evaluation may recommend other or additional sanctions to the Dean or Director, including assignment of the grade of XE and withdrawal of credit for a previously accepted course or requirement, if the sanctions are otherwise provided in this policy or in the Student Code of Conduct and Disciplinary Procedures.
3. Sanctions that may be imposed by a Dean or Director.
 1. After reviewing the recommendation of the School/College Board, a Dean or Director may impose any of the following sanctions for academic dishonesty:
 1. Reduced or failing grade for assignment,
 2. Reduced or failing grade for course,
 3. Reduced or failing grade for other academic evaluation (e.g., clinical training, comprehensive exam, thesis, dissertation),
 4. Assignment of a grade of "XE";
 5. Withdrawal of credit for a previously accepted course or requirement;
 6. Removal from the School or College or from a major or program of study within the School or College, permanently or for a specified period of time.
 2. The decision of the Dean or Director to impose any of the above sanctions is final.
4. In addition to the above sanctions, a Dean or Director may recommend to the Provost any of the following sanctions:
 1. Revocation of a degree (the student's official and unofficial transcript may reflect that revocation was the result of academic dishonesty);
 2. Expulsion from the University without expectation of readmission (the student's official and unofficial transcript may reflect that expulsion was the result of academic dishonesty);
 3. Suspension from the University for a specific period of time (the student's official and unofficial transcript may reflect that suspension was the result of academic dishonesty);
 4. Other sanctions as consistent with this policy and the Student Code of Conduct.
5. Final Sanctions
 1. The student will receive written notice of the decision and recommendations of the Dean or Director.
 2. If the sanctions do not include suspension from the university, expulsion from the university or revocation of the degree, the recommendations of the Dean or Director will be final.
 3. If the sanctions include suspension from the university, expulsion from the university or revocation of the degree, but the student does not object in writing to the recommendations of the Dean or Director within 10 days, the recommendations of the Dean will be final.

4. If the sanctions include suspension from the university, expulsion from the university or revocation of the degree, and if the student provides written notice to the Provost of an objection to the recommendations of the Dean within 10 days, the Provost will convene a University Hearing Board to review the recommendations.
6. Mitigating and aggravating circumstances may be considered in determining the appropriate sanction for a violation of this policy.

Guidelines for Review

1. A student may seek to have a Dean's or Director's decision reviewed by the University Hearing Board only if the final decision imposes a sanction of suspension or expulsion from the university, revocation of admission or revocation of a degree.
2. The request for review must be in writing and must be filed with the Provost within 10 days of the date of the decision letter from the Dean.
3. The University Hearing Board shall follow the procedures set forth in the ABOR Student Disciplinary Procedures, except that the Provost, or designee will take the role of the Vice President for Student Affairs and will establish the University Hearing Board to conduct the appeal, and the College may take the role of the Dean of Students in presenting the case on behalf of the College/Initiator. The Provost may make other alternations to the procedures, with notice to the individuals involved.
4. The University Hearing Board will make a recommendation to the Provost.
5. The decision of the Provost is final.

Procedures Following Final Decision

If any student work affected by the finding of academic dishonesty has been placed in the library or forwarded to a third party in partial fulfillment of degree requirements that work may be removed from the library or withdrawn from the third party. If a degree has been awarded, it may be revoked if requirements were not adequately fulfilled due to academic dishonesty.

Other University Policies

The University's Misconduct in Research Policy is independent of the Student Academic Integrity Policy and the Guidelines for Graduate Appeals. Individual conduct may, for example, violate both the Student Academic Integrity Policy and the Misconduct in Research Policy and be subject to review and sanctions under both policies.

Definitions

Academic Evaluation: Means any academic project, paper, performance, quiz, exam, comprehensive exam, candidacy exam, thesis, dissertation, clinical or internship experience or other evaluation assigned or offered for credit (including extra or optional credit), intended to fulfill an academic requirement, or considered by the university to provide academic or research experience (such as a paid research position).

College/School Board: Means each College, School or Program hearing or standards board appointed by the academic Dean, Director or administrative equivalent to review allegations of academic dishonesty.

Dean: Means the person holding the position of college Dean, Director, or the administrative equivalent, or that person's designee. (This does not include a "Program Director" or "School Director" if the academic unit reports to a college level dean or director.

Plagiarism: Means using another's words, ideas, materials or work without properly acknowledging and documenting the source. Students are responsible for knowing the rules governing the use of another's work or materials and for acknowledging and documenting the source appropriately.

Provost: Means the Provost or another person designated by the senior academic officer of the campus at which the alleged academic dishonesty occurred.

University: Means ASU Tempe, ASU Polytechnic, ASU West, ASU Downtown Phoenix, ASU Online, and all other locations used for instruction or academic activities.

University Board: Means the University Academic Integrity Hearing Board constituted by the Provost at the campus at which the alleged academic dishonesty occurred.

Advisor: Means an individual selected by the student to assist him/her during a hearing conducted by the University Academic Integrity Hearing Board. The advisor may be a faculty or staff member, student, or other representative of the student.

Day: Means normal university business day, not including Saturday, Sunday or any officially recognized university employee holiday or any day on which the university is closed.

The Grade of "XE"

1. The "XE" grade denotes failure through academic dishonesty. The "XE" grade will be recorded on the student's official and unofficial transcript with the notation "failure due to academic dishonesty." The "XE" grade shall be treated in the same way as an "E" for the purposes of grade point average and determination of academic standing.
2. No student with an "XE" grade on his or her transcript shall be permitted to represent that University in any extracurricular activity or to run for or hold office in any recognized student organization.
3. Generally, the "XE" grade will remain on the transcript permanently if it was awarded for an act of academic dishonesty requiring significant premeditation. For other cases, after at least 12 months have elapsed since the "XE" grade was imposed, a student may file a written petition to the Dean or Director of the College or Program that imposed the "XE" to have the "XE" grade removed and permanently replaced with the grade of "E." The decision to remove the "XE" grade and replace it with an "E" is in the sole discretion and judgment of the Dean or Director or his or her designee.
4. The Dean or Director or designee may confer with other university officials and may require the student to attest that the student has not been involved in any other act of academic dishonesty or similar disciplinary offense at Arizona State University or another institution. If the student's representation is later discovered to be false, the "XE" grade may be reinstated.

Academic Integrity Impact

Following the Academic Integrity Policy and Avoiding Violations

Academic integrity is a fundamental value because violations of it cause real harm to real people. Protecting the ASU community from this harm is everyone's responsibility.

- Students who suspect a policy violation are encouraged to discuss their concerns with their course instructor or academic advisor.
- Faculty, T.A.'s, and instructors are expected to address all violations of the ASU Academic Integrity Policy. Please become familiar with the university policy and the process for addressing violations of the policy within your College Specific Policies and Procedures [1].

Harm to Student

- If students cheat in a course or another academic exercise, they are taking away from themselves the opportunity to learn.
- The faculty holds the highest standards of academic integrity. If a student is caught cheating, the sanction can be anything from a lowered grade on an assignment to expulsion from ASU.
- ASU has a grade of "XE" which can become part of a transcript and permanent academic records and explicitly means that the student failed a course because of academic dishonesty. Here's the **Student Academic Integrity Policy's** [2] explanation of the "XE":

The "XE" grade denotes failure through academic dishonesty. The "XE" grade will be recorded on the student's official and unofficial transcript with the notation "failure due to academic dishonesty." The "XE" grade shall be treated in the same way as an "E" for the purposes of grade point average and determination of academic standing.

No student with an "XE" grade on his or her transcript shall be permitted to represent the University in any extracurricular activity or to run for or hold office in any recognized student organization.

Generally, the "XE" grade will remain on the transcript permanently.

- ASU degrees could mean less. If ASU develops a reputation for academic dishonesty based on high levels of student cheating, students' future employers, colleagues and others could have less respect for their accomplishments at ASU.
- Cheating creates an unfair grading environment for others. Whether or not a course is graded on a curve, a student who cheats, turns in high-quality work and is not caught raises the expectations about work quality for all students.
- Cheating can directly affect innocent students. For example, if a student plagiarizes on a group project, all the students in the group may be sanctioned for an Academic Integrity Policy violation.

Harm to Future Employers, Clients or Patients

- Cheating can hurt the people students will work with in the future. Many students are preparing for careers where they will provide services to others—legal, journalistic, medical, research, etc. If these students fail to learn how to do this work because they cheat at ASU, they have cheated their future employers and clients of a knowledgeable professional.

Harm to ASU

- ASU is an intellectual community focused on teaching, research and the values of the New American University. The creation, transmission, sharing and applying of knowledge are central activities of the community. Cheating violates fundamental values of the university community.

Resources

Please refer to this list of resources for students, faculty, staff and teaching assistants to help avoid academic integrity violations.

Student Resources

Avoiding academic integrity policy violations

Be informed: Understand ASU's expectations regarding academic integrity by understanding the Academic Integrity Policy [1] and Student Code of Conduct [2].

Ask questions: If you are not sure if something is really cheating, ask your professors, T.A.s or academic advisors.

Seek tutoring: Ask your professors and others in your department for help in finding academic support. Help is available from the following sources:

- On-campus, in-person writing support [3]
- Online support for citations and style manuals [4]
- Tutoring and academic success resources [5]

Stay healthy: This includes managing your time and your stress. Health and wellness resources [6] are available at ASU.

Adopted from the Academic Integrity Policy [1].

Tips on how to complete your work with integrity

These online resources provide strategies for completing your work with academic integrity.

- ASU's Why Academic Integrity? [7]
- ASU's Six Sins of Academic Integrity [8]

- Virtual Academic Integrity Laboratory (VAIL) [9]

Avoiding plagiarism

Plagiarism may be the most common form of academic dishonesty and is often unintentional. Protect yourself by understanding how to avoid plagiarism with these resources:

- The Governors of Acadia University's interactive video on plagiarism [10]
- The Purdue Online Writing Lab's (OWL) Avoiding Plagiarism [11]

What to do if you are accused of an academic integrity violation

Be informed: Understand the policies and process for responding to accusations of academic integrity in the college/school generating the accusation. Some colleges and schools [12] have information regarding the process on their web sites.

Ask questions: Meet with your academic advisor to learn your rights within the process, understand the timeline and expectation for your participation in the process. Student Advocacy and Assistance [13] is also a great resource to help ensure successful completion of academic goals.

Graduate students and teaching assistants

- ASU Graduate College information [7]

Faculty, Staff and Teaching Assistants

Plagiarism detection software

Uses: SafeAssignment, an online plagiarism detection service available to faculty at ASU, compares submitted papers with a large database and reports on similar passages. It compares student papers with materials posted on the Web, such as academic journal articles, Wikipedia and papers from Web sites that sell term papers, and other student papers submitted at ASU using SafeAssignment. It provides a copy of the student's paper in which passages matching sources in the database are highlighted and scored for similarity to the outside source. It also provides links to the online source. Faculty can use SafeAssignment to:

- Check an individual paper, using the Quick Submit feature.
- Have students submit course assignments via SafeAssignment and get reports on all papers.
- Allow students to submit drafts to SafeAssignment and view the assessment of their drafts.

Getting started: Faculty access SafeAssignment through BlackBoard. To check an individual paper, all you need is instructor access to any BlackBoard course. To have students submit assignments through SafeAssignment, you must have a BlackBoard site for their course. SafeAssignment:

- Overview of SafeAssignment [14].

Limits: SafeAssignment is a powerful tool for identifying incorrect use of sources when faculty members recognize its limits. It compares texts; it does not identify plagiarism. This means that it:

- Reports correctly and incorrectly referenced quotations and paraphrases in the same way.
- Identifies similar passages in papers that are due to similar ideas rather than cheating. For example, if several students rephrase an essay assignment as part of the introduction to an essay, the phrases may be flagged in the SafeAssignment report.)
- Only identifies similarities between student papers and materials in its database. It will not identify plagiarism of paper-only sources, such as older books or journal articles.

Reducing cheating: Many good teaching practices, such as changing exam questions from year to year and breaking large writing assignments into parts, can deter cheating as well as improve learning. Here are links to pages with easy-to-implement tips on stopping cheating.

Grades and Grading Policies

Credit Enrollment

The semester hour is the unit on which credit is computed. It represents one 50-minute class exercise per week per semester. To obtain credit, a student must be properly registered and must pay fees for the course.

Grading Options and Definitions

Ordinarily a grade of "A+," "A," "A-," "B+," "B," "B-," "C+," "C," "D," or "E" is given upon completion of a course, unless another grading option such as "audit" or "pass/fail" is indicated at the time of registration. *Grading options cannot be changed after the close of the drop/add period.*

The instructor of a course has full discretion in selecting which grades to use and report from the available grading options.

Fall 2004 and After ¹			
Grade	Undergraduate Definition	Graduate Definition	Value
A+			4.33
A	Excellent	Excellent	4.00
A-			3.67
B+			3.33
B	Good	Good	3.00
B-			2.67
C+			2.33
C	Average	Passing	2.00
D	Passing	No Graduate Credit	1.00
E	Failure	Failure	0.00
EN	Failing Never Participated ²	Failing Never Participated ²	0.00
I	Incomplete	Incomplete	—
NR	No Report	No Report	—

P	Pass	n/a ³	—
W	Withdrawal	Withdrawal	—
X	Audit	Audit	—
Y	Satisfactory	Satisfactory	—
Z	Course In Progress	Course In Progress	—
XE	Academic Dishonesty	Academic Dishonesty	0.00

¹ Although the plus/minus scale includes a grade of A+ with a value of 4.33, the cumulative GPA is capped at 4.00. Questions about the grade scales may be referred to the University Registrar Services at registrar@asu.edu [1]. For grading scales prior to fall 2004 click here [2].

² Effective fall 2016 and later.

³ Not applicable for graduate classes.

Law Grading [3]				
Fall 2009 and after			Fall 2009 and after Additional Grades	
A+		4.33	CR	Credit
A	Excellent	4.00	NR	No Report
A-		3.67	P	Pass
B+		3.33	X	Audit
B	Good	3.00	W	Withdrawal
B-		2.67	I	Incomplete
C+		2.33	H	Honors
C	Average	2.00	HH	High Honors
D	Deficient	1.00	XE	Academic Dishonesty
E	Failing	0.00		
EN	Failing Never Participated ⁴	0.00		

⁴ Effective fall 2016 and later.

For grading scales prior to fall 2009, click here. [2]

Incomplete (I)

A mark of "I" (incomplete) is given by the instructor when you are otherwise doing acceptable work but are unable to complete the course because of illness or other conditions beyond your control. You are required to arrange with the instructor for the completion of the course requirements. The arrangement is recorded on the Request for Grade of Incomplete form [4]. Do not re-register or pay fees to complete the course. The completion date is determined by the instructor but may not exceed one calendar year from the date the mark of "I" is recorded. When you complete the course, the instructor must submit an online grade change request. If you receive an "I" in an undergraduate course in the fall 1983 or thereafter, your grade will be automatically changed to a failing grade "E" if you do not complete the course within one calendar year. If you receive an "I" in a graduate course (500-level or above) your "I" grade will become a permanent part of your transcript if you do not complete the course within one year, and you will have to reregister and pay fees to repeat the course for credit. Marks of "I" are changed to a grade of "E" (0.00) for purposes of evaluating graduation requirements for undergraduate students.

No Report (NR)

The "NR" grade simply means that a grade has not yet been reported. Once final grade processing takes place for the semester, most classes will have an actual grade posted instead of the "NR". If an "NR" grade appears for a course in a prior semester, you should contact the instructor of the course to find out why a final grade was not recorded.

Pass (P)

The "P" grading option is used to indicate a passing grade in a class when an individual student receives permission from both the class instructor and his/her college or school. For further information about this grading option, contact your advisor. If you earn a "P" grade, you will earn hours, but the grade is not used for computing your GPA.

A "P" grade should only be assigned when an individual student receives permission to take a course as pass/fail. Permission is recorded on the Pass/Fail Enrollment form [5]. If the course only awards pass/fail grades, the "Y" grade should be utilized to indicate successful completion of the course.

Withdrawal (W)

If you withdraw from a class after the first week of school, you will receive a mark of "W" on your transcript. You earn no credit or grade for withdrawn classes.

Audit (X)

A student may choose to audit a course, in which case the student attends regularly scheduled class sessions, but no credit is earned. The student should obtain the instructor's approval before registering and paying the fees for the course. Selected courses may not be audited. Veteran students using education benefits should see Veterans Services.

The mark of "X" is recorded for completion of an audited course unless the instructor determines that the student's participation or attendance has been inadequate, in which case the mark of "W" (withdrawal) may be recorded. This grading option may not be changed after the close of the drop/add period. The "X" is not included in earned hours and is not computed in the GPA.

Satisfactory (Y)

The "Y" grade is generally used as a grade for successfully completed internships, projects, readings and conference, research, seminars, theses, dissertations, and workshops. You earn hours for a "Y" grade, but the grade is not used for computing your GPA.

A "Y" grade is used for courses in which the instructor assigns only grades of "Y" or "E." If a course utilizes only the letter grades of A+, A, A-, B+, B, B-, C+, C, D, and E, but an individual student receives permission to take the course for pass/fail credit, the "P" (pass) or "E" (fail) grade should be assigned to that student.

Course in Progress (Z)

The "Z" grade is typically used for courses where work will not be completed within one semester's time, such as research, thesis, and dissertation. Once coursework is complete, your instructor will submit a grade change to assign an appropriate grade. Some courses, such as continued registration, do not earn credit and the "Z" grade will remain on your transcript.

Failing Never Participated (EN)

The grade of "EN" denotes failure due to the student never participating in a course and is treated the same as an "E" for the purposes of GPA, course repeatability, and academic standing determination. The "EN" grade assists ASU in determining a student's financial aid eligibility. For federal aid purposes, we must determine if a student participated in all courses for which they received federal aid. When a student does not participate, the financial aid office must recalculate the student's eligibility. A grade of "EN" will display on the student's transcript beginning fall 2016. Please review the "Grades and Grade Selection" section of the Grade Posting FAQs [6] page for more information about the "EN" grade.

Academic Dishonesty (XE)

The grade of "XE" denotes failure due to academic dishonesty and is treated the same as an "E" for the purposes of GPA, course repeatability, and academic standing determination. A student may not avoid any penalty for academic dishonesty by withdrawing from a course. A student may be reinstated to a course to receive a penalty of a reduced or failing grade or XE.

Grading Resources for Faculty and Staff

Support and roster contacts [7].

Grade Reports

You can obtain your final grades after every semester by using any of the following methods:

- To view or print your grades, sign in to My ASU [8] using your ASURITE UserID and Password.
- Submit a request for an official grade report that will show the grades for the last semester in which grades have been processed. You may submit a request to any registration site [9].

Grade Changes

Ordinarily the instructor of a course has the sole and final responsibility for any grade reported. Once the grade has been reported to the registrar, it may be changed upon the authorization of the faculty member who issued the original grade, a department chair, and the dean of the college concerned. This policy also applies to the grade of "I" (incomplete).

Grade changes are submitted online and receive approval by the department chair (or designee) and the dean of the college (or designee) in which the course is offered. Once approvals are received, the new grade will be reflected on your transcript immediately.

Repeating Courses

An undergraduate course taken by undergraduate students at ASU may be repeated for credit if the grade or mark of "D", "E", "W", "X" is received. To be eligible for the deletion of "D" or "E" grades from calculations of the GPA, the course must be repeated at ASU. Independent Learning courses may not be used to repeat "D" or "E" grades. Students who have graduated are not eligible to delete the grade for a course taken before the award of the ASU bachelor's degree. Undergraduate courses in which grades of "D" or "E" are received may be repeated only once. Generally, students may not repeat an undergraduate course for credit when a grade of "C" or higher is earned.

For additional information on repeating courses, please refer to the following policies:

SSM 203-06: Deletion of a "D" or "E" Grade Received by an Undergraduate in an Undergraduate Course [10]

Graduate students see the ASU Graduate Policies and Procedures [12].

Grade adjustments will be processed automatically after the grades are reported each term. For additional information on repeating a course or the deletion process, contact Records & Enrollment Services at 480-965-3124.

Demonstration of Mastery

An undergraduate student who receives a "D" in a course in which a "C" or higher is required may use the grade from an equivalent course taken elsewhere to demonstrate mastery at the "C" or higher level. However, the course may neither be transferred to ASU (since credit has already been given for the course) nor computed in the student's GPA.

Grade Appeals

ASU has informal and formal processes students may follow to appeal a grade. See the Catalog [13].

GPA Calculation

The following grades and their values are used in computing your semester and cumulative ASU GPA:

Grade*	Grade Point Value
A+	4.33
A	4.00
A-	3.67
B+	3.33
B	3.00
B-	2.67
C+	2.33
C	2.00
D	1.00

E**	0.00
*Other grades (W, X, Y, etc.) are not included in the GPA calculation.	
**Grades E1, E2, E3, E4, E5, and E8 are equivalent to an E.	

To calculate your GPA, follow these steps below, or use the GPA Calculator [14].

1. Multiply the **grade point** value by the number of semester hours for which the course was taken to determine the honor points.
2. Add together all the **honor points**.
3. Add together all the semester hours that received one of the above grades to determine **net hours**.
4. Divide the honor points by the net hours to calculate the GPA.

Honor Points ÷ Net Hours = GPA

GPA's are rounded to the nearest 100th of a decimal point.

Semester GPA is based on semester net hours. Cumulative GPA is based on total net hours.

Although the plus/minus scale includes a grade of A+ with a value of 4.33, the cumulative GPA is capped at 4.00.

Example

Course	Semester Hours	Grade	Grade Point Value	Honor Points
ENG 101	3.0	A	4.00	12.00
MAT 117	3.0	B-	2.67	8.01
ECN 111	3.0	E	0.00	0.00
Total:	(net hours) 9.0			20.01
20.01 ÷ 9.0 = 2.22 GPA				

Credit by Examination

Students may receive credit for an ASU course by taking an examination in place of the actual course. Learn more [15].

Transcripts

Official and unofficial ASU academic transcripts are available through University Registrar Services.

Sending your transcripts to ASU? Contact Admissions [1] for mailing address information.

Official Transcripts

An official transcript is a copy of the student's permanent academic record issued by the University Registrar. It displays all courses taken for credit at ASU and includes all grades received. Unlike unofficial transcripts, it is signed and dated by the registrar and displays the ASU seal. **Official transcripts are not issued for students with outstanding financial obligations to the university.**

For students that attended the **Thunderbird School of Global Management prior to December 31, 2014**, information on ordering official transcripts can be found here [2].

ASU cannot send official transcripts by email or fax.

University Registrar Services has partnered with Parchment, a digital credentials service, to manage the ordering, processing, and secure electronic delivery of your official ASU transcripts.

All students are encouraged to go online to place their transcript order. This is the easiest and most efficient way to place an order for either a traditional paper transcript or electronic transcript delivery.

Electronic Delivery of Official Transcripts

Official electronic transcripts may only be ordered using Parchment's online request system. Students choosing this option will identify their recipients by selecting them from a list within the ordering system or by providing the email address of their intended recipients.

To expedite and ensure accurate delivery, students should:

- Make sure the transcript recipient will accept the electronic transcripts, so they can avoid paying to send a replacement copy.
- Double check that the email address they provided for an institution or individual is correct, so they can avoid paying again to send a replacement electronic or paper copy.
- Provide their email addresses for notification purposes (the student's email address assists with tracking and confirming delivery by notifying the student when the transcript is sent and when it is received by the selected institution or individual).
- Instruct recipients to allow emails from Parchment (noreplyint@parchment.com [3]) to avoid potential problems with spam filters.

Orders are generally processed immediately, unless you request a hold for degree or grades.

The transcript is not delivered by email; the recipient's email address is used for notification and reminder messages regarding delivery of the student's transcript to a secure site where it can be accessed.

Ordering Official Transcripts

Official transcripts can be ordered online, in-person or by mail.

Online

- Students who have an ASURITE ID — Sign in to My ASU [4] and order official transcripts online. In the **My Classes** box, click **Grades & Transcripts** and then **Transcripts & Test Scores** (see sample My ASU navigation screenshot below).
- Students who attended ASU after 1980 and who do not yet have an ASURITE ID [5] or do not know their ASURITE ID and password — Please contact the ASU Help Desk at 855-278-5080 for assistance requesting your ASURITE ID.
- Students who attended ASU prior to 1980 and do not have an ASURITE ID — Request transcripts in person or by mail.

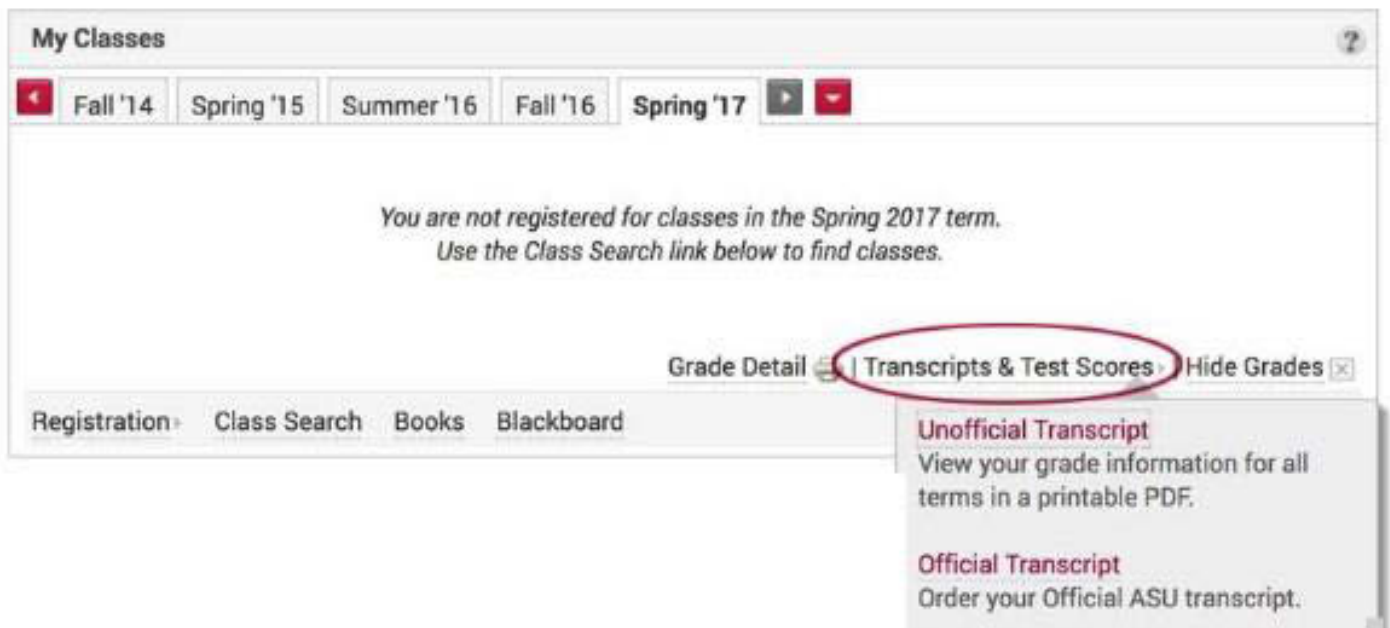

Figure 1 Location of button to order transcripts on My ASU

In Person

Students presenting photo ID may order official transcripts in person at the Cashier's Office at the following locations:

- Downtown Phoenix campus — Mon. - Fri. 8:15 a.m. - 4:30 p.m., University Center Building, Suite 112
- Polytechnic campus — Mon. - Fri. 8:15 a.m. - 4:30 p.m., Administration Building, Room 160
- Tempe campus — Mon. - Fri. 8:15 a.m. - 4:30 p.m., Student Services Building, 244
- West campus — Mon. - Fri. 8:15 a.m. to 4:30 p.m., University Center Building, Room 101

By Mail

Students may order transcripts by submitting a Request for Official Transcript Form [6] or signed letter including the following information:

- Name
- Former names (if applicable)
- Arizona State University identification number (or SSN)
- Date of birth
- First and last dates of attendance
- Current return address
- Daytime phone number
- Specific mailing address for each transcript ordered

Pre-payment is required. See costs for official transcripts below. Make check or money order payable to Arizona State University.

Send requests for official transcripts to:

Outgoing Transcripts
University Registrar Services
Arizona State University
P.O. Box 870312
Tempe, AZ 85287-0312

For further assistance, please call Outgoing Transcripts at 480-965-7276 during business hours.

Costs

All charges for official transcripts must be paid at time of request. Official transcripts cost \$15.00 per official transcript copy requested.

Rush transcripts (same day service): \$10.00 in addition to the costs for the total number of transcripts ordered. **Available for in-person requests only.**

- Special delivery in the U.S. — Special delivery processing, instead of regular mail, is available via FedEx or U.S. Express Mail at \$22.00 per U.S. delivery address in addition to the costs for the total number of transcripts ordered.
- Special delivery outside the U.S. — Express delivery to addresses outside the U.S. is available through International FedEx Express or International Express Mail at \$38.00 per delivery address in addition to the costs for the total number of transcripts ordered.

FedEx requires a street address for delivery. FedEx charges an additional fee for all returned shipments, and the student will be responsible for paying the total amount before the transcript(s) will be mailed.

Transcripts will not be reissued after 90 days from the processed date.

Fees subject to change without notice.

Apostille

For information on requesting an Apostille. [7]

Unofficial Transcripts

An unofficial transcript is an uncertified copy of the student's academic record. In addition to courses taken for credit at ASU and grades received, unofficial transcripts also include information such as note records regarding grade changes, semester GPAs and probation/disqualification status.

For students that attended the **Thunderbird School of Global Management prior to December 31, 2014**, information on ordering unofficial transcripts can be found here [8].

Accessing and Ordering Unofficial Transcripts

Here's how to view and request unofficial transcripts:

Online

- Students and former students who have an ASURITE ID — Sign in to view and print an unofficial transcript [9]. **You may need to temporarily disable pop-up blocker for this site to retrieve your transcript.**
- Students who attended after 1980 and who do not have an ASURITE ID or do not know their ASURITE ID and password — Request an ASURITE ID [5] to access unofficial transcripts online by contacting the ASU Help Desk at 855-278-5080.
- Students who attended prior to 1980 — ASU does not offer online transcript services for students who attended prior to 1980. Request the unofficial transcript in person, by mail or by fax.

You should be in your My ASU student view to access your transcripts. If you have both a student and staff view, this will be indicated in the top right of your screen.

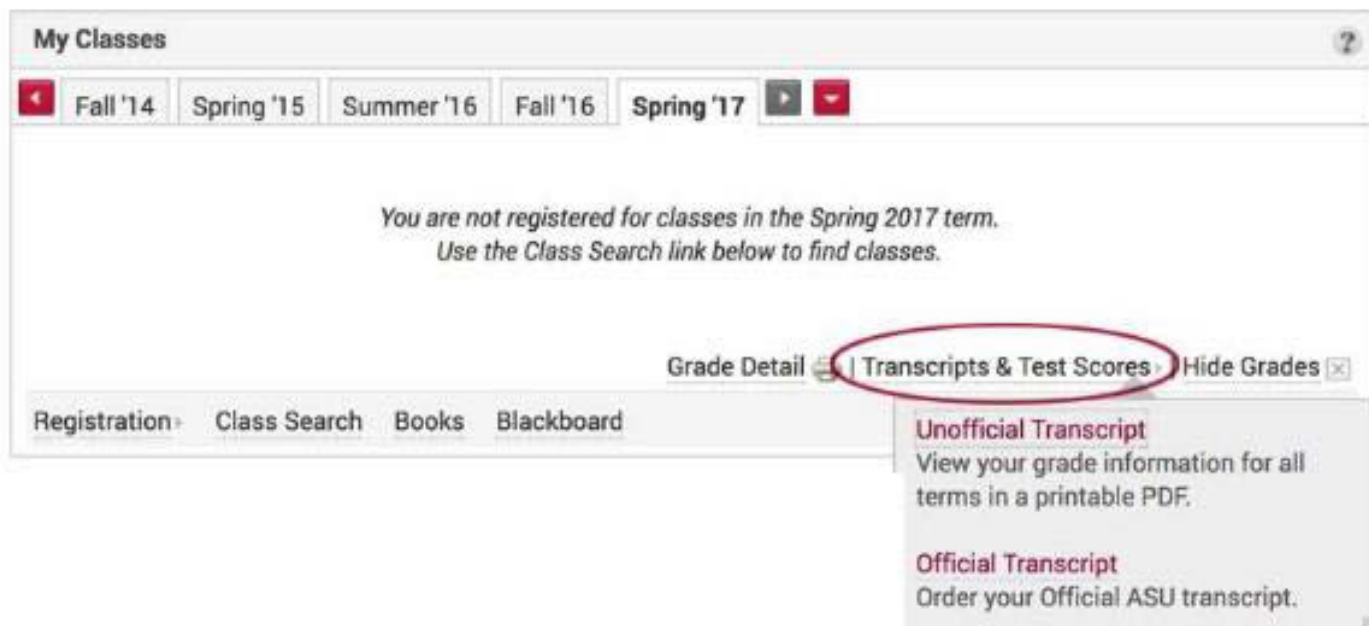

Figure 2 Location of button to order transcripts on My ASU

In Person

Students presenting photo ID may order unofficial transcripts in person at any campus registration site [10].

By Mail or Fax

Students may order an unofficial transcript by mailing or faxing a **signed** letter including the following information about the student:

- Name and former names (if applicable)
- Arizona State University identification number (or SSN)
- Date of birth
- First and last dates of attendance
- Current return address
- Daytime phone number
- Return Fax number or specific mailing address

Requests for unofficial transcripts by mail or fax must be signed by the student. No computer-generated signatures will be accepted. Please send requests for unofficial transcripts to:

Outgoing Transcripts
University Registrar Services
Arizona State University
P.O. Box 870312
Tempe, AZ 85287-0312

Fax: 480-965-2295

Costs

There is no fee for an unofficial transcript. For assistance, please contact University Registrar Services [11].

Transcript FAQs

Have questions? Here are the most common FAQs [12].

If you have an ASURITE ID, want to order online, and are familiar with the applicable transcript policies, you can access your transcripts through My ASU [13].

My ASU [13]

Click **Grades & Transcripts** in the My Classes box, then **Transcripts & Test Scores**.

Transcript FAQs

Answers to the Most Common Transcript Questions

What is the procedure to change my name on my ASU transcript? [1]

Will ASU hold my transcript and not send it out until my degree or a specific grade is posted? [2]

Does my ASU transcript list courses I transferred from other institutions? [3]

How can I obtain a copy of previous school transcripts? [4]

Can someone else order/pick up my official transcript for me? [5]

What if I have a delinquent account? Can I still obtain a transcript? [6]

How do I get a course description for a course listed on my ASU transcript? [7]

Q: What is the procedure to change my name on my ASU transcript?

Currently enrolled students may submit a Name Change Form by mail, in person or by scanning and e-mailing. All requests require a photo identification and one of the following; marriage license/certificate, adoption papers, court order, divorce decree, social security card or passport/permanent visa. Academic records for formerly enrolled students will not be changed. Certain exceptions apply. For further assistance, call 480-965-7276

Q: Will ASU hold my transcript and not send it out until my degree or a specific grade is posted?

On the Request for Official Transcript form or the online ordering system, you may request one of the following holds:

- Hold until degree is posted - Your transcript will not be sent until your degree is posted to your ASU transcript.
- Hold until grades are posted - Your transcript will not be sent until all grades for the term you specified on your order are posted to your ASU transcript.

Q: Does my ASU transcript list courses I transferred from other institutions?

No. Credit is awarded for traditional course work successfully completed at institutions of higher learning as indicated by ASU and the Arizona Board of Regents. However, only the name of the institution(s) and degrees awarded are listed on the ASU transcript.

Q: How can I obtain a copy of previous school transcripts?

You may request unofficial copies of transcripts from other schools if they were submitted to ASU and if they remain on file. If you are requesting transfer transcripts for official purposes, you must order transcripts from the issuing institutions.

Q: Can someone else order/pick up my official transcript for me?

Yes, someone else may order or pick up your official transcript as long as you give written and signed authorization to do so. The request must include all the information requested for ordering an official transcript.

Q: What if I have a delinquent account? Can I still obtain a transcript?

You may obtain an unofficial transcript only. All financial obligations must be cleared before an official transcript will be issued. For further assistance, call 480-965-7276 during business hours. The Delinquent Accounts Office can be reached at 480-965-5220.

Q: How do I get a course description for courses listed on my ASU transcript?

Course descriptions for catalogs after 1996 can be printed from the web at the catalog web site [8]. For course descriptions prior to 1996, contact University Archives archives@asu.edu [9] or 480-965-4932.

University Policy for Student Appeal Procedures on Grades

Informal

The steps outlined on this page, beginning with step A, must be followed by any student seeking to appeal a grade. Student grade appeals must be processed in the regular semester immediately following the issuance of the grade in dispute (by commencement for fall or spring), regardless whether the student is enrolled at the university. It is university policy that students filing grievances and those who are witnesses are protected from retaliation. Students who believe they are victims of retaliation should immediately contact the dean of the college or school in which the course is offered.

- A. The aggrieved student must first undergo the informal procedure of conferring with the instructor, stating the evidence, if any, and reasons for questioning that the grade received was not given in good faith. The instructor is obliged to review the matter, explain the grading procedure used and show how the grade in question was determined. If the instructor is a graduate assistant and this interview does not resolve the difficulty, the student may then take the problem to the faculty member in charge of the course (regular faculty member or director of the course sequence).
- B. If the grading dispute is not resolved in step A, the student may appeal to the department chair or other appropriate chair of the area within the department (if any). The department chair may confer with the instructor to handle the problem. Step B applies only in departmentalized colleges or schools.
- C. If these discussions are not adequate to settle the matter to the complainant's satisfaction, the student may then confer with the dean of the college or school concerned (or the dean-designate), who will review the case. If unresolved, the dean or designate may refer the case to the college or school academic grievance hearing committee to review the case formally. In most instances, however, the grievance procedure does not go beyond this level.

Formal

The following procedure takes place after steps A, B and C (or A and C) have been completed.

- D. Each college or school has on file in the office of the dean (and in each department of the college or school) the procedures and composition of the undergraduate or graduate academic grievance hearing committee for student grievances. Each college or school committee shall operate under grievance procedures as stated, which satisfy due process requirements. The committee shall always meet with the student and the instructor in an attempt to resolve the differences. At the conclusion of the hearing, the committee shall send its recommendations to the dean.

- E. Final action in each case will be taken by the dean after full consideration of the committee's recommendation. Any recommended grade changes may be made by the dean. The dean shall inform the student, instructor, department chair (if any), registrar and grievance committee of any action taken.

Undergraduate Policies and Procedures

ASU competency requirements

Competency requirements may be met with high school work, college work or test scores. These requirements must be met regardless of your major or the number of transferable hours you have earned. Students must earn a minimum of a 2.00 GPA in each competency area.

Admission may be granted with one deficiency in no more than two competency areas. Deficiencies in both math and laboratory science are not acceptable.

You might not need to meet competency requirements. Refer to exceptions below.

English competency requirement

Meet one of the following:

- four years of high school English (composition/literature based)
- minimum test score of 21 on ACT English, or 530 on Old SAT critical reading or 580 on New SAT evidence-based reading and writing
- one transferable three-semester-hour college English composition course

English Composition Placement:

All freshmen and transfer students who have not earned a "C" or better in a transferable freshman English composition course or who have not received a score of 4 or 5 on the Advanced Placement Examination in English offered by the College Entrance Examination Board (see related sites), must submit ACT or SAT scores before registration to be placed in an appropriate English course.

Mathematics competency requirement

Meet one of the following:

- four years of high school courses: one year each of algebra I, geometry, algebra II, and an advanced math class for which algebra II is a prerequisite
- minimum test score of 24 on ACT math, or 540 on Old SAT math or 560 on New SAT math
- one transferable three-semester-hour college math course for which at least intermediate algebra is a prerequisite

Laboratory science competency requirement

Students may meet one of the following or any combination of the three as long as they have three different laboratory-based sciences from the following list: biology, chemistry, earth science, physics, integrated science or advanced laboratory science:

- three years of different high school laboratory sciences

Lab sciences should be a whole year in length. Please select three from the following list: biology, chemistry, earth science or physics. A laboratory-based integrated science course may be allowed to substitute for one of the three lab sciences. Additionally, an advanced placement course, a higher level international baccalaureate course, or other honors course taken in the last two years of high school in the same subject as a previous course

can still satisfy one lab science requirement.

- minimum test scores in three standardized tests from three different subject matters

The following tests may be taken: SAT II subject test score in chemistry-600, biology-590, physics-620 or ACT test score in science-20.

- three transferable four-semester-hour college laboratory science courses from the following: biology, chemistry, earth science or physics

An integrated laboratory science or advanced level laboratory-based science may be substituted for one of the possible laboratory subjects.

Social science competency requirement

Meet one of the following from Section A and one from Section B:

Section A

- one year of high school American history
- minimum SAT II subject test score of 560 on American history/social studies
- one transferable three-semester-hour college American history course

Section B

- one year of high school social science (e.g. European history, world history, economics, sociology, geography, government, psychology or anthropology)
- minimum SAT II subject test score of 580 on world history
- one transferable three-semester-hour college social science course

Foreign language competency requirement

Meet one of the following:

- two years of the same high school foreign language
- attainment of minimum score on a national standardized foreign language test or placement into a third semester college foreign language class based on university placement exam results
- two transferable three- or four-semester-hour, college-level courses in the same foreign language

Fine arts or Career and Technical Education competency requirement

Meet one of the following:

- one year (or a combination of two semesters) of high school fine arts or Career and Technical Education
- one transferable three-credit college fine arts course

Exceptions

You do not need to meet competency requirements if one of the following statements is true:

- You have completed an associate or higher level degree from a regionally accredited post-secondary institution with a minimum 2.00 GPA ("A"=4.00) if you are an Arizona resident or you have a minimum 2.50 GPA ("A"=4.00) if you are a nonresident.
- You have completed the Arizona General Education Curriculum (AGEC) with a minimum 2.00 GPA ("A"=4.00) if you are an Arizona resident or a 2.50 GPA ("A"=4.00) if you are a nonresident.

See also the ASU General Catalog [1].

Freshman Admission Requirements

How and when to apply for freshman admission

Admission Requirements

ASU welcomes applications from students with diverse academic backgrounds and interests. A freshman is defined as a student who has graduated from a regionally accredited high school and has completed fewer than 12 transferable college credits post-high school. Freshman applicants who possess a high school diploma and meet the following requirements will be admitted to ASU.

- English - 4 years (composition/literature based)
- Math - 4 years (algebra I, geometry, algebra II and one course requiring algebra II as a prerequisite)
- Laboratory Science - 3 years total (1 year each from any of the following areas are accepted: biology, chemistry, earth science, integrated sciences and physics)
- Social Science - 2 years (including 1 year American history)
- Second Language - 2 years (same language)
- Fine Arts or Career and Technical Education - 1 year

Applicants must also meet at least one of the following:

- Top 25% in high school graduating class
- 3.00 GPA in competency courses (4.00 = "A")
- ACT 22 (24 nonresidents)*
- SAT
 - Taken prior to May 2016: 1040 (1110 nonresidents)
 - Taken after April 2016: 1120 (1180 nonresidents)*

*ASU does not require the writing portion of these tests.

Applicants must successfully complete the ASU competency requirement. Admission may be granted with one deficiency in no more than two competency areas. Deficiencies cannot be in both math and laboratory science. Students must earn a minimum 2.00 in any subject area. Most competencies may also be met by test scores or college courses. See Detailed Competency Requirements [1] for more information.

ASU admission decisions begin the first week of Sept. 1. If you do not meet initial eligibility, you may be placed into individual review and experience a longer wait time for an admission decision.

Self-Reported Admission Application To expedite admission decisions, ASU accepts self-reported high school grades on the undergraduate admission application. Submission of an ACT or SAT score is highly recommended for merit-based scholarship consideration.

Higher Requirements for Some ASU Schools and Colleges Some schools and colleges have higher requirements for admission to their majors. To learn more about admission requirements, find the major of your interest at Degree Search [2]. You should select a second major on your application if your first choice has higher admission requirements.

Individual Review All students who don't meet the above standards will be evaluated through a process called Individual Review. Through this process, Admission Services will review all available information about a student's application, carefully considering all aspects of a student's academic background and accomplishments. Submission of an ACT or SAT test score is highly recommended. In some cases, additional information might be requested.

Home School Applicants ASU welcomes home school students and recognizes the unique academic experiences they contribute to our rich community of scholars. Please read additional admission information specifically for home school students [3].

General Educational Development Students may also meet admission requirements by submitting an official GED score of 500 or above for tests taken before January 2014 or a GED score of 170 or above for tests taken after January 2014.

Important Dates for Spring 2018

Submit your 2017-2018 FAFSA now

File your 2017-2018 FAFSA to ASU right away to be considered for financial aid for **spring 2018**. Eligible students who apply early have a greater chance of receiving need-based aid. We encourage you to submit your FAFSA as soon as possible.

Oct. 1, 2017 – Submit your 2018-2019 FAFSA

Starting Oct. 1, you can file your FAFSA for the **2018-2019 academic year** with ASU (Federal School Code 001081) to find out what financial aid you might be eligible for. Students may submit the FAFSA to ASU prior to applying and admission to the university; however, only students admitted into ASU degree-seeking programs will be reviewed for and offered financial aid.

December 1, 2017 – Enrollment deposit date

Submit your enrollment deposit to ASU to become an official Sun Devil and secure your spot in our spring 2018 incoming class. After you submit your enrollment deposit, you can register for your orientation date and submit your campus housing preferences.

January 1, 2018 – FAFSA priority date for the 2018-2019 academic year

File your FAFSA to ASU by this date to maximize the amount of financial aid you could qualify for. Eligible students who apply by this date have a greater chance of receiving need-based aid. We encourage you to submit your FAFSA even if the priority filing date has passed.

Important Dates for Fall 2018

July 1, 2017 – Application for admission is available

The freshman application for fall 2018 is available.

Nov. 1, 2017 – VIP admission date

Complete your application for admission by this date (including official high school transcripts and application fee*) to receive these select benefits: expedited admission and scholarship decisions, priority access to ASU New Student Orientation and housing registration, and exclusive event invites and campus visit offers.

*If you self-report your grades, you do not need to submit an official transcript to receive your admission decision. An official final transcript will be required before you enroll in classes.

Oct. 1, 2017 – Submit your FAFSA

Starting Oct. 1, you can file your FAFSA with ASU (Federal School Code 001081) to find out what financial aid you might be eligible for. Students may submit the FAFSA to ASU prior to applying and admission to the university; however, only students admitted into ASU degree-seeking programs will be reviewed for and offered financial aid.

January 1, 2018 – FAFSA priority date

File your FAFSA to ASU by this date to maximize the amount of financial aid you could qualify for. Eligible students who apply by this date have a greater chance of receiving need-based aid. We encourage you to submit your FAFSA even if the priority filing date has passed.

Feb. 1, 2018 – Priority admission date

Complete your application for admission by this date to ensure you're considered for the maximum amount of scholarship opportunities. Late applicants will be considered for university admission and financial aid, but ASU programs with higher admission standards will give priority consideration to applications submitted by this date.

May 1, 2018 – Enrollment deposit date

Submit your enrollment deposit to ASU to become an official Sun Devil and secure your spot in our fall 2018 incoming class. After you submit your enrollment deposit, you can register for your orientation date and submit your campus housing preferences.

Application Steps

1. Complete an undergraduate admission application. ASU prefers that you apply online [4].
2. Submit the nonrefundable application fee. The application fee is not a processing fee, as it is required of all students and is nonrefundable under any circumstances.
 - Arizona residents - \$50
 - Nonresidents - \$70
3. Request to have your ACT or SAT scores sent directly to ASU from ACT or College Board. ACT or SAT scores are required for merit scholarship consideration and for ASU course placement. It is also required for some majors and can be helpful in the general admission process.
4. Request transcripts from each educational institution attended.* Official transcripts must be mailed or sent electronically directly to Admission Services by the records office of the issuing institution. Transcripts delivered by hand will only be accepted if they are sealed in the original high school envelope. ASU does not accept transcripts transmitted by fax. High school transcripts must show GPA and date of graduation. ASU requires an English translation of all foreign-language transcripts.

ASU will review your application file once you have submitted all materials.

*If you self-report your grades, you do not need to submit an official transcript to receive your admission decision. An official final transcript will be required before you enroll in classes.

To see if you have any missing items and to view your admission status, sign in at My ASU [5] using your ASURITE UserID, which is sent to you after you apply for admission.

Admission for Home-Educated Students

Arizona State University welcomes home school students and recognizes the unique academic experiences these students contribute to our rich, scholarly environment. We have a growing community of home-educated students who thrive in the ASU environment.

We understand that your academic background differs from students who attended public, private or charter schools. While our general admission requirements and application are geared toward students who have attended a high school, as a home school student, you can easily fill out the application and then include additional information to accurately demonstrate your accomplishments.

Admission requirements

Home school students must meet the general requirements [1] for ASU admission, including specific documentation with your application to confirm your completion of the requirements:

- Competency Requirement - Per Arizona Board of Regents (ABOR) policy, laboratory sciences must include one class period per week in a laboratory environment and students must complete the Evaluation of Laboratory Science Courses [2] form as part of the application process. Please email your completed Evaluation of Laboratory Science Courses form to Laura Romer at ASULauraRomer@asu.edu [3]. Laura Romer is the contact for any questions you may have about the home school process.
- Aptitude Requirement - Must be met with SAT or ACT test score.
- Graduation Requirement - Upon completion of secondary school education, complete the Affidavit of Completion of Secondary School Education [2]. The affidavit must be completed by the parent/guardian and notarized.

When the Application for Admission [4] asks you which high school you attended, enter your hometown name. Scroll down through the city options until you find Home School at the bottom.

Your application will be reviewed as soon as all of these items are received by Admission Services.

For questions regarding admission for home-educated students, please contact Laura Romer at 480-965-2692 or email asuhomeschool@asu.edu [5].

Admission to Barrett, the Honors College

Barrett, the Honors College [6] is consistently recognized nationally as a top honors experience. Barrett combines the caring and community of a top, small college on all four ASU campuses with the resources of a major public university. Home school students who want to be considered for admission to Barrett are encouraged to submit an application. Barrett requires a separate application, and an early application [7] is strongly suggested. The Barrett admission staff will help you with any questions you have about filling out the application.

Scholarships

Through the New American University Scholarship program [8], ASU recognizes exceptional academic performance. Remember to submit your transcripts and test scores when you apply for admission by or before the scholarship priority date so that you may be considered for scholarships. Home-educated students will be considered for ASU scholarships upon admission.

Please contact Laura Romer [9] with any questions.

Admission for Veteran Students

Getting Benefits Started

If you are active military, a veteran or a dependent and have not used VA educational benefits before at any institution of higher education, this is where you start.

If you're not sure which benefit you're eligible for or have any other questions about VA benefits, eligibility or processing timelines, feel free to contact Troy Rundle, ASU's VA VetSuccess on Campus counselor, at troy.rundle@asu.edu [1] or 480-727-5627 (office) or 602-318-0406 (cell).

First, apply for benefits in three easy steps

1. Complete a VA application.

VA benefit type	Use this VA application
Chapter 30, 33, 1606 and 1607	Form 22-1990 [2]
Chapter 35	Form 22-5490 [3]
Chapter 31	Eligibility/Application is determined by the Department of Veteran Affairs, Vocational Rehabilitation Office

2. Locate your additional supporting document.

VA benefit type	Include this supporting document
All types, except Chapter 1606	DD-214 Military Discharge Document — Copy Member 4
Chapter 1606	DD-2384 NOBE — Notice of Basic Eligibility

3. Submit your application and document directly to the VA using one of these methods.
 - online with VONAPP at ebenefits.va.gov/ebenefits/vonapp [4] (easy to do and fastest processing)

(The VONAPP site is currently being updated. Use Google Chrome or Internet Explorer as your browser, not Firefox, to access this site.)

- mail to Department of Veterans Affairs, PO Box 8888, Muskogee, OK 74402-8888
- Troy Rundle, your direct link to the VA from ASU, can submit your application for you. Contact Troy at troy.rundle@asu.edu [1] or 480-727-5627 (office) or 602-318-0406 (cell) for assistance.

If you apply using VONAPP, you will receive your Certificate of Eligibility from the VA in four to eight weeks.

Next, apply to ASU

You can apply to ASU as a freshmen [5], transfer [6] or graduate [7] student.

ASU before receiving your Certificate of Eligibility from the VA.

[Search Undergraduate Degrees \[8\]](#) [Search Graduate Degrees \[9\]](#)

If you have questions about applying to ASU or how ASU resources and the Veteran Services staff can **help you succeed, please connect with Matt Schmidt, ASU's veteran recruitment specialist, at ASUVeterans@asu.edu [10] or 480-965-7723.**

Once you've been admitted to ASU, go to steps for **newly admitted students [9]** to start your benefits file with Veteran Services in the Pat Tillman Veterans Center.

Next Steps for Newly Admitted Students

If you are: active military, a veteran, a spouse or dependent and a newly admitted freshman, transfer or graduate student at ASU, read on.

Welcome to Arizona State University!

ASU appreciates the service of our military veterans and their dependents, and we want you to know you've made a great decision to join more than 3,000 other active military, veteran and dependent students furthering their education and future careers in our top-ranked programs.

Follow these next steps toward using your benefits at ASU, which are in addition to your next steps for enrollment as a freshman [1], transfer [2] or graduate [3] student.

TO GET YOUR BENEFITS FILE STARTED AT ASU, YOU NEED TO SUBMIT A FEW FORMS.

You must first meet with your academic advisor and completely enroll in your courses to submit these three forms:

VA Benefits Responsibility Form [4]

You'll fill this form out only once while at ASU. It notifies ASU Veteran Services of your intent to use VA educational benefits, such as the GI-Bill®, while at ASU. Please note that it contains important information regarding the use of VA benefits throughout your school enrollment. Fill out the form online and submit it directly to ASU Veteran Services. You will receive a confirmation email indicating you have completed the form.

VA Enrollment Activity Form [5]

Let ASU Veteran Services know if you do or do not want to use VA educational benefits for the upcoming semester. Complete this online form before each semester at ASU and submit it directly to ASU Veteran Services. You will receive an email confirming you have submitted the form.

Please make every effort to firm your schedule before submitting the form. To notify us of changes you made to your enrollment after submitting the form for any given semester, submit the form again as a **revised** Enrollment Activity Form by following the choices within the form.

Prior Credit Evaluation (PDF) [6]

Submit this form during the ASU application process if you are transferring courses, credits and/or previous experience. You must also submit this form if you change your major so the courses you've taken are evaluated for application to your new major. Print the form, fill out the top portion, initial the middle section, sign and date at the bottom. You email the scanned form to your academic advisor for completion. Your advisor will submit to ASU Veteran Service.

Plus, one extra form for students who have used VA benefits at another school:

If you have been using VA benefits at another school, fill out the appropriate VA Request for Change or Program or Place of Training form. Submit this form to the VA as indicated in the form directions.

Chapter 30, 33, 1606 & 1607 Form 22-1995 [7]

Chapter 35 Form 22-5495 [8]

Additionally, veterans and dependents using the Post-9/11 GI Bill®:

Submit to ASU Veteran Services your VA Certificate of Eligibility or most recent letter from the VA that details your benefits remaining. Whenever you receive an updated COE or letter from the VA detailing your benefits, please submit a copy to ASU Veteran Services. You may use one of these methods to submit the form:

1. Scan and email the form to PTVCforms@asu.edu [9].
2. Fax the form to the Pat Tillman Veterans Center at 480-522-3058.
3. Take the form to the Pat Tillman Veterans Center on your campus.

LEARN ABOUT ELIGIBILITY FOR ARIZONA RESIDENCY AND IN-STATE TUITION.

If you currently are not an Arizona resident, there are three ways to receive in-state tuition.

1. HB 2410 is an Arizona law that allows honorably discharged veterans of any branch of the U.S. Armed Forces, including National Guard and Reserves, to receive in-state student status for tuition purposes. Read more [10] for requirements and filing instructions.
2. Choice Act, Section 702 grants eligible individuals immediate residency and in-state tuition rates. You are eligible if you are a veteran, or a spouse or dependent of a veteran who has been discharged within the 36 months prior to the start of your first semester from a period of active duty that was 90 days or longer AND is using either VA Chapter 30 or Chapter 33 benefits. Read more [10] for Choice Act requirements and directions for how to file.
3. The Yellow Ribbon Program will help cover the difference between resident and nonresident tuition for those who are not eligible for HB 2410 or the Choice Act, Section 702. Undergraduate and graduate students must be 100 percent eligible for the Post-9/11 GI Bill®. Read more [10] to find out how to apply.

CONNECT WITH YOUR ASU MILITARY ADVOCATE.

On-campus veterans, spouses and dependents: New students should contact ASU's military advocate, Michelle Loposky, at militaryadvocate@asu.edu [11] or 480-727-5626.

ASU Online student veterans: ASU Online veteran students who need assistance with online registration or advising issues resolved, please contact Mario Matus at 480-884-1906 or at militaryonline@asu.edu [12].

On-campus and ASU Online dependent and spouse students: New students should contact the ASU advocate dedicated to spouses and dependents, Michelle Loposky, at militarydependents@asu.edu [13] or 480-727-5626.

FRESHMEN AND TRANSFER STUDENTS, CONSIDER TAKING ASU'S SUCCESS COURSE FOR VETERANS.

ASU offers a veteran specific introductory course — LIA 294 Student Success for Veterans — to support veterans' transition to the academic life. Both freshman and new transfer veteran students from any major are welcome to register. For more information [14]

GRADUATE STUDENTS: SUBMIT YOUR GRADUATE PROGRAM OF STUDY.

As soon as you are admitted, submit a Graduate Program of Study with your advisor's assistance to ensure that the graduate courses you are taking will be covered by the VA.

ATTEND THE VETERANS WELCOME EVENT BEFORE CLASSES BEGIN.

The Veterans Welcome event is a seminar-style orientation required of incoming graduate and undergraduate veteran students prior to their first semester at ASU. Hosted by ASU and the Pat Tillman Veterans Center, the Veterans Welcome event introduces valuable benefit information and procedures that will apply each semester student veterans use benefits. Spouse and dependent students do not need to attend this event.

New students will receive notifications by mail and email prior to the event so they can plan to attend and RSVP. Events are scheduled before both fall and spring semesters. Refreshments are provided. Space is limited so we request that students attend alone.

GET INVOLVED AT ASU

Meet your fellow veterans at the Pat Tillman Veterans Center location on your campus. Check out our campus locations [15].

Transfer Military Credits to ASU

ASU is proud to welcome veterans of the Army, Navy, Air Force, Marines, Coast Guard and National Guard to our undergraduate student community. Ranked as one of the top public universities [1] in the world, ASU is also consistently rated as a top school for veterans [2].

Find information about how military credits transfer to ASU below. You can find additional information and resources for veterans on the ASU veterans website [3].

Have questions about transferring military credits to ASU? Talk to an ASU transfer specialist [4] or contact articulation@asu.edu [5].

How Military Transcripts Are Evaluated

ASU uses the American Council on Education's Guide to the Evaluation of Educational Experiences in the Armed Services [6] to assess how to transfer military credits to ASU. In general, military courses must be similar to an ASU undergraduate course and applicable to an undergraduate degree program to transfer to ASU.

Military credits that transfer to ASU through educational experiences in the armed services are not applicable toward completing ASU's general studies requirements [7] for graduation but do count for total credits toward completion. No transfer credit is awarded for vocational certificate category ACE recommendations. When you change majors, all transfer credits are re-evaluated.

Once you are admitted to ASU, an academic advisor will work with you to determine how military credits may apply to your undergraduate degree program requirements.

Military Transcripts Accepted by ASU

ASU accepts the following military transcripts to transfer credits:

- JST [8] (Joint Services Transcript)
- CCAF Transcript [9] (Community College of the Air Force Transcript)

The CCAF is a regionally accredited community college. This transcript must be submitted as part of a student veteran's admission package for anyone who served in the United States Air Force, Air Force Reserve or Air Guard.

The JST, unlike college or high school transcripts, is neither reviewed for undergraduate admission nor subject to admission deadlines. However, it is required to be reviewed for potential transfer credit in accordance with VA guidelines and Arizona statutes related to awarding credit for military training and education. As an official document to be reviewed as part of your academic record, please submit it as early as possible to ensure a timely processing.

Credit by Exam

You may earn no more than 60 hours of credit by exam for any degree program, including ASU comprehensive and proficiency exams. ASU accepts credit by exam for the following:

- College-level Examination Program [10]
- Advanced Placement [11]
- DANTES or DSST (Defense Activity for Nontraditional Education Support Subject Standardized Test) [12]
- International Baccalaureate Diploma or Certificate [13]
- Comprehensive Examinations [14]
- Proficiency Examinations [15]

Veterans Exception

By Arizona statute, no failing grades received by a veteran at an Arizona university or community college before military service may be considered when determining admissibility. This exception may be used only one time and applies only to veterans who:

- are honorably discharged
- have served in the armed forces of the United States for a minimum of two years
- have previously enrolled at a university or community college in Arizona

Military service records must be submitted, including form DD 214.

If you believe you are eligible for the veterans exception, please contact ASU's veteran recruitment specialist at ASUVeterans@asu.edu [16].

Get Help with Your Transfer to ASU

If you are a veteran of the United States Army, Navy, Air Force, Marines, Coast Guard or National Guard, ASU can help you make the most of your earned credits, choose an undergraduate major or minor, apply for financial aid and more. To get started, contact an ASU transfer specialist [17].

Frequently Asked Questions

You've got questions, and we've got answers. If your question isn't included below, please let us know. Connect with your advocate using the buttons below or email us at PTVC@asu.edu [1].

Topics:

I may be eligible to attend ASU using VA benefits. Whom do I contact for this information?

What do I need to do to get my educational benefits started at ASU?

How do I start a file for veteran benefits?

Do I need to bring any paperwork with me to the office?

How do I find out if I have any benefits left?

Can I apply for financial aid in addition to using my VA benefits?

I MAY BE ELIGIBLE TO ATTEND ASU USING VA BENEFITS. WHOM DO I CONTACT FOR THIS INFORMATION?

ASU's Veteran Services staff in the Pat Tillman Veterans Center locations on all four campuses has *[sic]* been tasked by ASU to serve veterans who are using Veterans Administration (VA) educational benefits to pursue college degrees.

WHAT DO I NEED TO DO TO GET MY EDUCATIONAL BENEFITS STARTED AT ASU?

The first step would be to apply for admission to the university. Once you are accepted, contact the appropriate ASU program advisor (check [My ASU](#) [2] for your advisor information). After you have enrolled in your courses, see Next steps for newly admitted students.

HOW DO I START A FILE FOR VETERAN BENEFITS?

To start a file and initiate benefits for the term, sign a VA Benefits Responsibility Form, complete a Prior Credit Evaluation with your academic advisor, and fill out a VA Enrollment Activity Form. These forms are submitted directly to the Pat Tillman Veterans Center. For the Post-9/11 GI Bill®, please include your latest letter from the VA that details your benefit level and months/days of benefits remaining (Certificate of Eligibility). See Next steps for newly admitted students.

DO I NEED TO BRING ANY PAPERWORK WITH ME TO THE OFFICE?

If you are a veteran and eligible for Ch. 30, Montgomery G.I. Bill, bring your member 4 copy of the DD-214.

If you are eligible for Ch. 33, Post-9/11 GI Bill® benefits, provide a copy of your Certificate of Eligibility to a Pat Tillman Veterans Center.

If you are eligible for Ch. 1606, Montgomery G. I. Bill - Reservists/National Guardsmen, provide a Notice of Basic Eligibility (NOBE), DD-2384 form, which is available from your unit's Educational Officer.

If you are eligible for 1607: Reserve Educational Assistance Program, provide your orders calling you to active duty and your DD214 (member 4 copy) when released from active duty.

HOW DO I FIND OUT IF I HAVE ANY BENEFITS LEFT?

Contact the Department of Veterans Affairs at 1-800-827-1000.

CAN I APPLY FOR FINANCIAL AID IN ADDITION TO USING MY VA BENEFITS?

Yes! According to legislation passed in June 2009, effective July 2009, VA benefits are no longer considered when determining financial aid eligibility.

International freshman and transfer undergraduate admission

Arizona State University is ranked one of the best universities in the world. When you study at ASU, you will enjoy prestigious faculty, state-of-the-art facilities and a vibrant community of students from more than 150 countries in the world. At ASU, you can choose from more than **300 undergraduate degree programs** [1] that will lead you to a successful career path.

[How to apply to ASU undergraduate programs](#)**Admission Requirements**

An international student is a student on a J-1 or F-1 visa who is not a citizen of, or a permanent resident of, or a refugee in the United States of America.

Academic Requirement

- Freshmen must have a 3.00 grade point average (GPA) (a "B" or better where "A" = 4.00) from a secondary school.
- Transfer students must have a minimum 2.50 GPA (a "C+" or better where "A" = 4.00) from a college or university. Some ASU programs require a minimum transfer GPA of 3.00, including the W. P. Carey School of Business and Ira A. Fulton Schools of Engineering.
- Some ASU programs may have higher admission requirements and may require a minimum ACT or SAT score.

English Language Proficiency Requirement

Success at ASU begins with a strong comprehension of the English language. Because our rigorous courses are taught in English and move at a fast pace, fluency in the language is necessary for understanding concepts and expressing yourself effectively.

Applicants whose native language is not English must provide evidence of English language proficiency by submitting test scores from **one of the following**:

- Test of English as a Foreign Language (TOEFL)
- International English Language Testing System (IELTS)
- Pearson Test of English (PTE)

Conditional Admission

ASU may offer conditional undergraduate admission to international applicants who meet the academic (aptitude) requirement but who are not proficient in English. Through conditional admission, students must first successfully complete the Advanced 2 level of the English language course at ASU Global Launch [2] or demonstrate English proficiency as stated above before being allowed to enroll in university courses.

Note: ASU reserves the right to independently test any student's English proficiency upon arrival, including those who have met the English proficiency requirement, and may require support classes if the demonstrated level of English proficiency is not sufficient for academic success.

Competency Requirement

International students who attended **four years of high school in the U.S.** are required to meet the competency requirements.

- English: four years (composition/literature based).
- Math: four years - algebra I, geometry, algebra II and one course requiring algebra II as a prerequisite.
- Laboratory Science: three years total (1 year each from any of the following areas are accepted: biology, chemistry, earth science, integrated sciences, and physics).
- Social Science: two years (including one year of American history).
- Foreign Language: two years (same language).
- Fine Arts: one year.

Higher Requirements for Some ASU Schools/Colleges

Some ASU colleges/schools have higher standards for admission into their programs. International applicants must meet general university international admission requirements as well as the appropriate freshman or transfer program requirements of their major. Search for your degree [3] for more details.

Scholarships for International Students

ASU offers a limited number of merit-based scholarships for highly qualified international freshman students who are non-immigrant, nonresident and degree seeking. To be considered for this competitive scholarship, you must submit your application for admission by **April 1, 2017**. There is no separate scholarship application to complete. For more information, visit New American University Scholarship [4]. Please email asuinternational@asu.edu [5] if you have any questions.

Application Deadlines

You must submit your application for admission to ASU, along with the application fee, by the deadline specified for each semester. In order to expedite the evaluation of your application, please remember to submit official transcripts, test scores and supporting credentials along with your application.

Spring 2017: Nov. 1, 2016

Summer 2017: Feb. 1, 2017

Note: Applications for summer that are not completed in time for the start of the summer session will be reviewed for admission for fall 2017.

Fall 2017: May 1, 2017

Note: International students who have been admitted for the fall semester who would like to begin attending classes during the summer must contact Admission Services [6] by May 1, 2017. Otherwise, I-20s will be created for the fall semester.

New American University Scholarship: April 1, 2017

Make sure to apply as early as possible to allow time for all documentation and processes to be completed.

Application Procedures

1. Complete the undergraduate application for admission.

Submit your application [7] for admission online and send all the supporting documents (application fee, transcripts, test scores and financial guarantee) to:

Regular Mail

International Undergraduate Admissions
Student Services Building
P.O. Box 870112
Tempe, AZ 85287-0112

FedEx

International Undergraduate Admissions
Student Services Building
1151 S Forest Ave
Tempe, AZ 85287-0112

Applicants in India

If you are currently in India, you can send your official transcripts directly to our enrollment advisor in Mumbai at the following address.

Mumbai Bandra Kurla Complex - Kalina
Level 2 Raheja Centre Point 294 CST Road Near Mumbai University, Off Bandra-Kurla Complex, Mumbai, 400 098
T: +91 22 67078700
ATTN: Poonam Venkatesh

For more information, call 480-965-2437 or email asuinternational@asu.edu [5].

2. Submit the nonrefundable application fee.

The application fee is \$85 (U.S. Dollars). If you did not submit your application fee with your admission application, you may make your payment through My ASU [8] or submit payment in the form of a check or money order drawn on a U.S. Banking Affiliate and made payable to Arizona State University. Do not send cash or international postal money orders. Application fees cannot be waived or transferred to a future application.

3. Request that your official transcript be sent directly from your school(s) to Admission Services.

Official transcripts are certified copies of official documents from each secondary school, college, university and/or technical schools attended. Records must include courses completed, grades or marks earned, and certificates or degrees awarded. Include a certified English translation of all documents not written in English.

Upon graduation or completion of the semester, request that a final transcript be sent directly to ASU to determine final admission status. If your school(s) cannot send them directly to ASU, you may send them making sure they meet **one of** the following requirements:

- Original academic credentials issued by the registrar of the institution attended, bearing the original raised or colored seal of the institution and the signature of the institution's registrar, academic official or recognized international organization.
- Photocopies of academic credentials that have been verified as true copies of the original by a responsible official of the institution attended or by an educational representative of the country's government or embassy. Each page must bear the verifying official's signature and stamp.
- Photocopies of international academic credentials on file with the registrar of an institution you previously attended in the U.S.
- Photocopies of academic credentials that have been certified by a recognized international educational organization, such as the U.S. Educational Foundation, AMIDEAST or the Institute for International Education.

Note:

Any document ASU receives becomes property of ASU and will not be returned to you.

Photocopies certified by a notary public are not official. Scanned copies are also not accepted in lieu of original official academic documents.

All international transcripts must be submitted in the original language accompanied by an official English translation. Translations must be literal, complete versions of the originals and must be translated by a university, government official or official translation service. You may not complete your own translation.

You must have one set of official transcripts from every high school, college and university from which you earned a high school diploma sent to ASU (see mailing address).

Upon graduation or completion of the semester, request that a final transcript be sent directly to ASU to determine final admission status.

4. Submit evidence of English language proficiency.

Have your TOEFL or IELTS score sent directly to ASU.

TOEFL: The official TOEFL score report can be sent directly to ASU from the Educational Testing Service. ASU's TOEFL institutional code is 4007. For information about this test and registration procedures, contact ETS at PO Box 6151, Princeton, NJ 08541-6151, USA or visit www.toefl.org [9].

IELTS: For information about this test and registration procedures, contact the IELTS Office, University of Cambridge Local Examination Syndicate, 1 Hills Road, Cambridge/CB1 2EU, UK or visit www.ielts.org [10].

PTE: For information about the Pearson Test of English, visit <http://www.pearsonpte.com/Pages/home.aspx> [11].

5. Submit your ACT or SAT scores.

If you have taken the ACT or SAT, please submit official scores to Undergraduate Admissions. Some ASU colleges/schools have minimum ACT/SAT score requirements for entrance to their programs.

Items to Consider

- Admission to ASU cannot be determined until your file is complete and all of your credentials are evaluated.
- You must enroll full-time each semester.
- Students holding F-2 visas cannot attend ASU on a full-time basis.
- All international students on F-1 or J-1 visas must provide a Financial Guarantee [12] to show evidence of sufficient funds available for their students before their SEVIS Form I-20 can be issued. Learn more [13].

ASU Transfer Admission Requirements

A transfer applicant is defined as a student who has attended one or more colleges or universities and has completed 12 or more transferable college or university credits post-high school.

To find the admission requirements for **your specific major**, please visit Degree Search [1]. Below are the requirements for general admission to Arizona State University.

To transfer to ASU, you must meet one of the following requirements:

- graduated from high school
- earned a GED
- completed an associate degree or be in progress toward an associate degree

Questions about admission requirements or how to apply to transfer to ASU? Our transfer specialists [2] will assist you with the admission process.

General University Transfer Admission Requirements

Transfer students must meet **one** of the following requirements*:

- **12-23** transferable credit hours:
 - minimum 2.50 cumulative GPA and meet freshman aptitude requirements [3]
- **24 or more** transferable credit hours:
 - minimum 2.50 cumulative GPA
- AGEC from an Arizona community college with a 2.50 or higher cumulative GPA
- associate degree from a regionally accredited higher education institution with:
 - 2.00 or higher cumulative GPA (residents)
 - 2.50 or higher cumulative GPA (nonresidents)

* "A" = 4.00; ASU accepts transfer college-level courses in which you have earned a "C-" or better.

Transfer Coursework

ASU will accept college-level transfer coursework with grades of C- or better from a regionally accredited higher education institution.

Note: ASU will always take the first passing grade (C- or better for transfer credits). Students should not retake courses that they received a C- or better. (A higher grade the second time will not be calculated into the student's GPA.)

To see how courses transfer to ASU, view the Transfer Credit Guide [4].

Steps to apply

1. **Complete the admission application to transfer to ASU.**

Your first step to transfer to ASU is to complete the online application for admission [5]. To ensure a smooth transition and improve opportunities for financial assistance, you should start the transfer application process one year prior to your planned enrollment date at ASU.

2. **Submit the nonrefundable transfer application fee.**

Arizona resident: \$50

Domestic nonresidents: \$70

International students: \$85

ASU Online: \$70

You can pay using a credit card (Visa or MasterCard) or eCheck at the time you submit your transfer application or when you log in to My ASU. Or you can mail a check or money order to Admission Services (payable to Arizona State University) at the address below.

Admission Services
Arizona State University
PO Box 870112
Tempe AZ 85287-0112

3. **Request to have your official transcripts and test scores mailed to ASU**

College or university transcripts

ASU requires official transcripts from all previous institutions in order to process your application. Please contact the registrar's office at your college or university and **request for official transcripts to be sent directly to Admission Services.**

If your college or university uses Parchment, eSCRIP, or National Clearinghouse to send electronic transcripts, please request that your institution sends us your official transcripts by choosing Arizona State University on the request form.

Upon graduation or completion of your final semester at your current school, **request a final transcript be sent directly to ASU Admission Services** to determine final admission status. Receipt of your final transcript impacts financial aid disbursement and your eligibility to register for classes. (Note: ASU does not accept hand-delivered or faxed college transcripts.)

Mailing addresses for admission materials

If mailing via the U.S. Postal Service:

Admission Services
Arizona State University
PO Box 870112
Tempe AZ 85287-0112

If sending via FedEx, DHL or:

Admission Services
Arizona State University
Student Services Building, room 112
1151 S. Forest Ave.
Tempe, AZ 85287

High school transcripts

Regardless of your age or number of college credit hours, if you have not completed an associate or bachelor's degree at the time you apply to ASU, you must submit one of the following to complete your application:

- official high school transcripts (with graduation date posted)

- official GED transcripts
- Affidavit of Completion of Secondary School Education

ASU accepts hand-delivered official high school transcripts in sealed envelopes from applicants. (Note: ASU does not accept hand-delivered or faxed college transcripts.)

Test scores

Have your ACT or SAT scores sent directly to ASU. If you have taken AP, IB or CLEP exams, request your scores be sent directly to ASU.

International transcripts and test scores

If you are an international transfer student [6], please have your TOEFL or IELTS scores sent to ASU directly from the testing agency. All international foreign-language transcripts must be sent directly to ASU by the issuing agency in the original language, accompanied by an official English translation. If you need more information, please view international application procedures [7].

4. **Activate your ASURITE UserID and MyASU account (where you can keep track of your application status).**

You will receive your **ASURITE UserID and activation code via email** within one to three business days of submitting your application. If you have previously applied to ASU, your ASURITE UserID will remain the same.

5. **After you have applied, you're encouraged to:**

- **Complete the FAFSA.** Submit the Free Application for Federal Student Aid, or update to indicate ASU as your new school (School Code 001081), to be considered for financial aid [8].
- **Apply for scholarships [9].**
- **Schedule a campus tour [10].**
- **Explore Barrett, the Honors College [11].**

Important Dates for Fall 2017 Admission

First day FAFSA is available for 2017–2018: Oct. 1, 2016

FAFSA priority date: Jan. 1, 2017*

VIP application date: Feb. 1, 2017*

Class registration begins: late Feb. 2017

Classes start: Aug. 17, 2017

*Students must submit their FAFSA and application materials by Feb. 1 to be considered for ASU merit and need-based awards. Late applicants will be considered for university admission, but ASU undergraduate degree programs with higher transfer admission standards will give priority consideration to applications submitted by Feb. 1. You can find other important dates on ASU's academic calendar [12].

Important Dates for Spring 2018 Admission

VIP application date: Oct. 1, 2017

FAFSA priority date: Oct. 1, 2017

Class registration begins: Late Oct. 2017

Priority application date: Nov. 1, 2017*

Classes start (Sessions A & C): Jan. 8, 2018

Transfer FAQs

Looking for transfer information? Find answers to frequently asked questions about how to transfer to ASU below, including information about:

Transfer Deadlines

Transfer Steps

How to Transfer Credits to ASU

How to Apply to ASU

1. WHAT IS ASU'S DEFINITION OF A TRANSFER STUDENT?

A transfer student is anyone applying for admission to Arizona State University who has attended another college or university after high school graduation. If you are completing college courses while in high school, you are considered a freshman and not a transfer student.

2. WHAT ARE ASU'S TRANSFER DEADLINES?

You can find important deadlines for transfer students on the Apply to Transfer to ASU [1] page. Remember to submit your ASU application as early as you can to ensure a smooth transfer process and improve opportunities for financial assistance.

3. WHAT ARE THE ADMISSION REQUIREMENTS FOR TRANSFER STUDENTS?

Please see ASU's transfer admission requirements [1] for details.

4. I AM READY TO APPLY TO TRANSFER TO ASU. WHAT DO I DO NEXT?

Apply online to transfer to ASU [2].

Pay the application fee.

Request that your official high school and college transcripts be sent to ASU:

ASU Admission Services

P.O. Box 870112

Tempe, AZ 85287-0112

Find more details about transfer steps [1].

5. WHOM CAN I SPEAK WITH ABOUT MY TRANSFER TO ASU?

ASU's expert transfer specialists are available to answer your questions and help with your transfer to ASU. Find your transfer specialist [3].

6. WILL I HAVE TO SEND ACT AND SAT TEST SCORES TO TRANSFER TO ASU?

It depends on your particular situation. If you transfer fewer than 24 transferable credits, you must also meet freshman admission requirements, which may require ACT and SAT scores. Also, some majors, such as business, require a particular ACT or SAT score for admission into the program. See undergraduate degree search [4] for admission information specific to your major.

7. WILL I HAVE TO SEND HIGH SCHOOL TRANSCRIPTS TO APPLY?

Yes, unless you have an associate degree (or higher) from a regionally accredited college or university posted on your transcripts. High school transcripts should be sent directly from your high school to:

ASU Admission Services
P.O. Box 870112
Tempe, AZ 85287-0112

8. DO I HAVE TO SEND ALL MY COLLEGE TRANSCRIPTS?

Yes. In order for ASU to determine whether you meet admission requirements, we must evaluate your entire academic history, including course work completed at each college or university attended, regardless of academic performance. College transcripts should be sent directly from your college to:

ASU Admission Services
P.O. Box 870112
Tempe, AZ 85287-0112

9. HOW DO I TRANSFER COLLEGE CREDITS?

You can find detailed information about how to transfer college credits to ASU on the Transfer Credits to ASU [5] page.

10. HOW DO I CHOOSE AN UNDERGRADUATE MAJOR?

There are a variety of resources available to help you select your major or minor. You can start by visiting ASU's undergraduate degree search [6] to explore the more than 300 degree programs at ASU. You can also talk with an ASU transfer specialist [3].

11. I ATTENDED ASU PREVIOUSLY; AM I A TRANSFER STUDENT OR A READMISSION STUDENT? DO I NEED TO REAPPLY?

If you have previously attended ASU as a degree-seeking student, you will be considered a readmission student. Please see readmission information [7].

12. I APPLIED TO ASU AND WAS ADMITTED BUT DID NOT ATTEND. DO I NEED TO REAPPLY?

Yes, you need to reapply. Be sure to sign into My ASU [8] to see if any additional items are needed to complete your file.

13. DO I HAVE TO HAVE AN ASSOCIATE DEGREE TO TRANSFER TO ASU?

No, you can transfer to ASU at any time as long as you meet the transfer admission requirements [1]. However, ASU recommends attaining your associate degree before transferring.

14. WHAT ARE THE ARIZONA RESIDENCY REQUIREMENTS?

Being declared a resident by the State of Arizona differs from being considered a resident for tuition purposes by ASU. The Residency Classification office has specific guidelines to follow when determining a student's residency status, initially based on the information provided on the application for admission. For more information, please review our Residency Information [9].

15. WHAT PREREQUISITES DO I NEED TO COMPLETE BEFORE I CAN TRANSFER TO ASU?

There are no prerequisites required to be admitted to Arizona State University, unless you have fewer than 24 transferable credits. Students with fewer than 24 transferable credits are required to meet freshman admission requirements [10], including aptitude and competency requirements.

16. CAN I LIVE ON CAMPUS AS A TRANSFER STUDENT?

Yes, ASU has housing devoted specifically to upper-division students and strongly encourages all students to live on campus during their first year at ASU. For more information, please refer to the University Housing website [11].

There is also a variety of off-campus housing options in close proximity to ASU's campuses. For more information on off-campus housing, check out the Center for Off-Campus & Commuter Student Services [12].

17. HOW MUCH DOES ASU TUITION COST?

Find information about tuition and fees [13].

ASU Transfer FAQs for California Residents

1. If attending a California community college, is the IGETC/CSU GE required to transfer to ASU?

The IGETC/CSU GE is not a requirement for admission to ASU but is highly recommended. Completing either of the GE patterns and getting certified by your community college will satisfy the General Studies requirements at ASU. Learn more about how to transfer to ASU from a California community college [14].

2. What does it mean to get IGETC/CSU GE certified?

Getting certified means you have completed all General Education requirements at your California community college. If you have confirmed with your community college counselor that you are eligible for the certification, ASU will require that you submit the official certification along with your official transcripts to Admission Services.

3. Currently, I don't meet the Western Undergraduate Exchange admissions requirements. Should I wait to apply?

No. Even though you may not currently qualify for WUE, we will always re-evaluate your admission to the program if you currently have courses in progress and submit your last and final transcripts.

4. I live in California but would like to meet with an ASU representative in person to discuss the transfer process.

ASU representatives will be attending college transfer fairs and hosting various visits at community colleges throughout the state of California. Find your transfer specialist [3].

Why Transfer to ASU?

Offering more than 300 undergraduate degree programs [14], Arizona State University is consistently ranked as one of the top colleges in the nation and the world for academics, innovation and value:

- ASU is ranked one of the top 100 universities in the world and top 50 in the United States by the Academic Ranking of World Universities [15].
- U.S. News & World Report ranks ASU the most innovative school in the nation [16].
- ASU ranks as one of the top best buy public colleges [17] in the United States, Canada, and the United Kingdom, according to the Fiske Guide to Colleges, 2015.
- The Princeton Review ranks ASU in the top 15 percent of all four-year public colleges [18] in America for undergraduate education.

See more reasons to transfer to ASU [19].

Get Help with Your Transfer to ASU

ASU transfer specialists [20] can help you prepare for your transfer to ASU, answer questions about the application process and guide you to additional ASU resources. To learn more about undergraduate programs, career opportunities and admission requirements, use the ASU degree search tool [14].

You can also find college course equivalencies by using our Transfer Credit Guide [21].

Guaranteed Program for Admission: California Community College Students

Transfer Simplified

Guaranteed Program for Admission

ASU, ranked as one of the top public universities [1] in the nation and the world, is also a top choice for California college students who transfer out of state to complete their undergraduate degrees.

Designed for California community college students, the Guaranteed Program for Admission helps you stay focused on earning your undergraduate degree and plan for a smooth transfer to ASU. To take part in the Guaranteed Program for Admission, you must attend a community college that participates in the program.

Guaranteed admission to ASU in three easy steps:

1. Complete the sign-up form [2] for the Guaranteed Program for Admission.
2. Apply for admission [3] to ASU when you're ready to transfer.
3. Enroll in classes at ASU to achieve your undergraduate degree.

View a timeline for the Guaranteed Program for Admission [4].

Have questions? Talk to an ASU transfer specialist [5].

Why Transfer to ASU?

Earn a degree from a Pac-12 university that allows you to create an academic experience that is uniquely yours. Choose from more than 300 undergraduate degrees [6], 250+ study abroad programs and 1,000 student clubs. At ASU, you can conduct undergraduate research, develop your entrepreneurial ideas, learn in state-of-the-art classrooms and labs, and receive career guidance and support as you seek internships and career opportunities upon graduation.

Find out why ASU is a top choice for California students [7].

Benefits of the Guaranteed Program for Admission

The Guaranteed Program for Admission offers students at participating California community colleges the following benefits:

- ASU tools and guidance on which courses to take while attending your community college
- acceptance of IGETC or CSU GE course work for ASU lower-division general studies requirements
- ability to transfer to ASU in the fall or spring semester
- classes at ASU available during the semester you need them — no impacted programs
- your catalog year will remain the year you sign the agreement rather than the year you are admitted to ASU

Sign up for the Guaranteed Program for Admission [8]

Guaranteed Admission Requirements

General university admission is guaranteed upon successfully meeting the following conditions*:

- an associate degree with a minimum cumulative transfer GPA of 2.50

or

- a fully certified Intersegmental General Education Transfer Curriculum (IGETC) or California State University General Education (CSUGE), with a minimum cumulative transfer GPA of 2.50 plus either a final high school transcript or GED

or

- completion of at least 24 transferable semester credits with a minimum cumulative transfer GPA of 3.00 (4.00="A") plus either a final high school transcript or GED

You will also need to submit an Arizona State University admission application [9], including any additional documents required, such as official college transcripts. (International students must also provide a financial guarantee and evidence of English language proficiency.) To find out how a course will transfer to ASU, check our Transfer Credit Guide [10].

*Some ASU colleges and schools have additional or higher requirements for admission into their programs. To search for degree programs and find more detailed information about admission requirements, use the ASU degree search [11] tool.

Western Undergraduate Exchange

ASU is part of the Western Undergraduate Exchange (WUE). The program offers students from 14 Western states (not including Arizona) the opportunity to choose from select ASU degree programs at a discounted nonresident tuition rate. Learn more about the Western Undergraduate Exchange [12].

How students can save money on an ASU degree:

- ASU participates in the Western Undergraduate Exchange [12], which offers reduced nonresident tuition to students from select Western states, including California, for specific ASU degree programs.
- Veterans [13] who have been honorably discharged are eligible for in-state tuition.
- ASU Online [14] offers more than 60 undergraduate degree programs at a reduced tuition rate.
- ASU Colleges at Lake Havasu City [15] in western Arizona offers nearly 20 degrees and three exploratory programs at a lower tuition rate.
- ASU's locations across the state (ASU@TheGilaValley [16], ASU@Pinal [17], and ASU@Yuma [18]) offer high-demand programs in those regions at a reduced tuition rate.

Guaranteed Program for Admission: Illinois Community College Students

Transfer Simplified

ASU, ranked as one of the top public universities in the nation and the world, is also a top choice for Illinois college students who transfer out of state to complete their undergraduate degrees. Designed for community college students, the Guaranteed Program for Admission helps you stay focused on earning your undergraduate degree and planning for a smooth transfer to ASU.

To take part in the Guaranteed Program for Admission, you must attend a community college that participates in the program.

Guaranteed admission to ASU in three easy steps:

1. Complete the sign-up form [1] for the Guaranteed Program for Admission.
2. Apply for admission [2] to ASU when you're ready to transfer.
3. Enroll in classes at ASU to achieve your undergraduate degree.

View a timeline for the Guaranteed Program for Admission [3].

Have questions? Talk to an ASU transfer specialist [4].

Benefits of the Guaranteed Program for Admission

The Guaranteed Program for Admission offers community college students the following benefits:

- ASU tools and guidance on which courses to take while attending your community college
- acceptance of the completed Illinois Transferable General Education Core Curriculum as satisfying the ASU lower-division general studies requirements
- ability to transfer to ASU in the fall or spring semester
- classes at ASU available during the semester you need them — no impacted programs
- your catalog year will remain the year you sign the agreement rather than the year you are admitted to ASU

Guaranteed Admission Requirements

General university admission is guaranteed upon successfully meeting the following conditions:*

- completion of at least **24 transferable semester credits** with a minimum cumulative transfer GPA of 3.00 (4.00="A") plus either a final high school transcript or GED

or

- a completed Illinois Transferable General Education Core Curriculum at an IAI institution [5], with a minimum cumulative transfer GPA of 2.50 plus either a final high school transcript or GED

or

- A transfer **associate degree** with a minimum cumulative transfer GPA of 2.50.

You will also need to submit an Arizona State University admission application, including any additional documents required, such as official college transcripts. (International students [6] must also provide a financial guarantee and evidence of English language proficiency.) To find out how a course will transfer to ASU, check our Transfer Credit Guide [7].

*Some ASU colleges and schools have additional or higher requirements for admission into their programs. To search for degree programs and find more detailed information about admission requirements, use the ASU degree search [8] tool.

Guaranteed Program for Admission in partnership with BYU-Idaho

Transfer Simplified

ASU, ranked one of the top public universities [1] in the nation and the world, is a great choice for students to complete their bachelor's degrees.

BYU-Idaho students who wish to transfer to ASU will choose one of the following two transfer options:

- **The Guaranteed Program for Admission** (or GPA) is for students wishing to transfer from BYU-Idaho with course-by-course equivalencies who have achieved at least 24 transferable credits and up to 60 transferable lower-division credits with a minimum 2.50 grade point average.

Or

- **The Associate of Applied Science to Bachelor of Applied Science Program** (AAS to BAS) for students who have completed an Associate of Applied Science from BYU-Idaho and who want to complete a Bachelor of Applied Science in a complementary discipline at ASU. BYU-Idaho students who complete their AAS will receive 60 credits in transfer towards a complementary BAS degree at ASU, thus requiring a maximum of 60 additional credits to complete their BAS at ASU.

ASU's Guaranteed Program for Admission

The Guaranteed Program for Admission helps you plan for a smooth transfer to ASU and stay focused on earning your bachelor's degree. This program is designed for students who achieve at least 24 transferable lower-division credits and up to 60 transferable lower-division credits with a minimum of a 2.5 grade point average. Some majors will require a higher grade point average or other special requirements [2].

You will first determine which ASU degree you wish to pursue using ASU's Degree Search [2] tool. Then, you'll use ASU's Transfer Credit Guide [3] to determine the courses at BYU-Idaho that are equivalent to the needed ASU courses.

Benefits of signing up for the program

- guaranteed acceptance to your ASU degree program when all Guaranteed Program for Admission requirements are met
- a cost-effective and time-efficient pathway ensuring courses transfer and apply to an ASU degree
- access to an ASU transfer specialist [4] and pre-enrollment services
- online tools such as My ASU [5] and the Transfer Credit Guide [3]
- ASU communications and event invitations

Terms of your agreement

- work with your BYU-Idaho advisor and your ASU transfer specialist [4] to monitor your progress.
- understand and meet admission requirements (learn about general university transfer admission requirements [6] and requirements for your major [7])
- complete the BYU-Idaho coursework for the GPA in three years or less from the point when you sign up for the program with ASU
- agree that your academic data and advising information may be shared between BYU-Idaho and ASU.

Your path to ASU

1. Complete the agreement online [8].
2. Print the worksheet [9] to track your college coursework.
 - Refer to ASU's Degree Search [7] to find the Major Map of required courses for your degree program.
 - Use the Transfer Credit Guide [10] to ensure you're taking the right courses at BYU-Idaho to transfer to your major.
3. Watch for communications from ASU. Be sure to check your mail and email.
4. Continue your college coursework and make steady academic progress.
5. Connect with your ASU transfer specialist with any questions about transferring to ASU.
6. Apply for admission [11] to ASU at least one semester before you plan to transfer.
7. Enroll in classes at ASU.

AAS to BAS: Bachelor of Applied Science [12]

If you're pursuing an Associate of Applied Science from BYU-Idaho, then an ASU Bachelor of Applied Science degree might be the perfect fit for you. This program allows you to transfer 60 credit hours from your Associate of Applied Science degree toward a compatible Bachelor of Applied Science at ASU, with guaranteed admission if you have earned at least a 2.5 grade point average from BYU-Idaho.

Identify the AAS degree you are currently earning at BYU-Idaho and determine your preference for your BAS [12]. Soon we will have a sign-up form available. Keep making progress on your AAS degree and check back here in a couple of months to sign up for this program.

BYU-Idaho AAS Degree	ASU BAS Degree Options
AAS, Administrative Assistant/Office Manager	BAS, Applied Science BAS, Technical Communication
AAS, Business Management	BAS, Applied Science BAS, Technical Communication
AAS, Computer Programming	BAS, Software and Computing Systems BAS, Applied Science BAS, Technical Communication
AAS, Engineering Technology	BAS, Operations Management BAS, Applied Science BAS, Technical Communication
AAS, Family History Research	BAS, Technical Communication BAS, Applied Science
AAS, Web Design and Development	BAS, Internet and Web Design BAS, Technical Communication

Tools and Resources

ASU provides a number of tools and resources to support transfer student success.

Degree Search [2]

Explore ASU majors and minors to find a degree program that matches your talents, interests and career goals. Search by keyword, area of interest or campus location.

Transfer Credit Guide [13]

Learn how credits from BYU-Idaho other colleges and universities that you have attended will transfer to ASU. Search for ASU course equivalencies or request a transfer course evaluation. Search by ASU courses [14] to determine whether your institution offers equivalent courses.

Career and Professional Development Services [15]

As a participant in the Guaranteed Program for Admission, you can access ASU career services, career advising, career assessment and job search tools. You will need your ASURITE UserID and password to access these resources. Note that some services have fees.

Religious and Spiritual [16]

ASU is home to two LDS Institutes of Religion, one in Tempe [17] and one at the Polytechnic [18] campus. The Tempe Institute is one of the largest in the country.

Visit ASU [19]

Make an appointment to meet an ASU transfer specialist at one of the four campuses in the Phoenix area during Transfer Fridays [20]. And schedule an Experience ASU campus tour [21].

Transfer from College to ASU

Transfer to ASU from another four-year college or university and find out what makes ASU one of the top-ranked public universities [1] in the nation and the world.

- Choose from more than 300 undergraduate degree programs [2], 250 study abroad programs, and 1,000 student clubs.
- Conduct undergraduate research, learn in state-of-the-art classrooms and labs, and receive career guidance and support as you seek internships and career opportunities upon graduation.
- Save on tuition in the Western Undergraduate Exchange [3] program.

Western Undergraduate Exchange

As a WUE school, Arizona State University offers students from 14 Western states (not including Arizona) the opportunity to study at a discounted nonresident tuition rate in more than 60 undergraduate degree programs. Learn more about the Western Undergraduate Exchange program [3].

Transfer Credits to ASU

When you transfer from a college to ASU, you have tools and resources to help you make the most of your earned credits.

- View the Transfer Credit Guide [4] to find out how credits transfer to ASU.
- Find more information about transfer admission requirements [5] at ASU.

Get Help with Your Transfer to ASU

In addition to online tools, at Arizona State University you have access to expert transfer specialists who can help you plan your transfer from a university to ASU, choose an undergraduate major or minor, apply for financial aid and more. Talk to an ASU transfer specialist [6].

Transfer to ASU from a Two-Year School

Transfer to ASU from a two-year school and take your associate degree to a bachelor's degree or beyond. With more than 300 undergraduate degree programs [1], Arizona State University is the top choice for students who transfer from a community college or junior college.

- ASU is ranked one of the top universities in the world and in the United States by the Academic Ranking of World Universities [2].
- The Princeton Review ranked ASU one of the country's top universities for undergraduate education [2] in its 2015 edition of "The Best 379 Colleges."
- ASU was named one of the top best buy public colleges [3] in the United States, Canada, and the United Kingdom.

See more reasons to transfer to ASU [4].

Transfer Credits to ASU

To make it easier for students to transfer to ASU, we have established special transfer partnerships with two-year schools in Arizona, California, Texas and Washington:

- Transfer to ASU from an Arizona community college [5]
- Transfer to ASU from a California community college [6]
- Transfer to ASU from a Illinois community college [7]
- Transfer to ASU from a Washington community college [8]

Arizona State University is also part of the Western Undergraduate Exchange [9], offering students from 14 Western states (not including Arizona) the ability to study at a discounted nonresident tuition rate in more than 60 undergraduate degree programs.

To learn more about how credits transfer to ASU, view the Transfer Credit Guide [10].
Find more information about ASU's transfer admission requirements [11].

Transfer Credits

How Credits Transfer to ASU

ASU will accept transfer credit for traditional coursework you have successfully completed at regionally accredited institutions of higher education as documented on an official transcript. Please keep in mind that the applicability of a specific transfer course toward an ASU degree program depends on the requirements of the department, division, college or school in which you are enrolled at ASU.

When a student transfers to ASU from another college or university, the following general standards for transfer credits apply:

- ASU accepts college-level (not remedial) courses in which the student has earned a grade of "C-" (scale is 4.00="A") or better from regionally accredited colleges and universities.
- A maximum of 64 semester hours of credit will be accepted as lower-division credit when transferred from a regionally accredited community, junior or two-year college, with the exception of some special programs.
- Some ASU colleges and schools may not accept credit for courses that are evaluated with nontraditional grading systems (e.g., pass/fail).
- Acceptable academic credits earned at other institutions that are based on a different unit of credit than the one prescribed by the Arizona Board of Regents are subject to conversion before being transferred to ASU. All ASU students must meet graduation requirements (university, college, major and general studies requirements) in order to earn a bachelor degree.
- The applicability of a specific transfer course toward an ASU degree program depends on the requirements of the department, division, college or school in which the student is enrolled at ASU.
- Acceptable academic credits earned at other institutions that are based on a different unit of credit than the one prescribed by the Arizona Board of Regents are subject to conversion before being transferred to ASU. All ASU students must meet graduation requirements (university, college, major and general studies requirements) to earn a four-year degree.
- The ASU college of a student's major determines how transfer courses fulfill the degree requirements of the ASU major. The student should review the degree requirements of the program into which they intend to transfer and talk with an academic advisor about the transfer credits and how they will apply to the degree program. Search ASU's academic programs and read program requirements.
- Grades and honor points earned at other colleges and universities are considered for admission, but the ASU cumulative grade point average is based solely upon coursework taken at ASU.

Types of Transfer Credits NOT accepted by ASU:

- courses in which the student earned below "C-" as the final grade
- credit awarded by postsecondary schools in the United States that lack candidate status or are not accredited by a regional accrediting association
- credit awarded by postsecondary schools for life experience

- credit awarded by postsecondary schools for courses taken at noncollegiate institutions (e.g., governmental agencies, corporations, industrial firms, etc.)
- credit awarded by postsecondary schools for noncredit courses, workshops and seminars offered by other postsecondary schools as part of continuing education programs

A student wishing to transfer to ASU who feels they have been unjustly denied credit for transfer courses may appeal to the appropriate committee.

See <https://transfer.asu.edu> [1] for more information.

Western Undergraduate Exchange

The Western Undergraduate Exchange (WUE) is a program coordinated by the Western Interstate Commission for Higher Education (WICHE). Residents of western states (other than Arizona) may enroll in the ASU WUE program at a tuition rate of 150 percent of Arizona base resident tuition plus all applicable fees for fall and spring terms only.

WUE programs are limited to select majors at the Downtown Phoenix, Polytechnic and West campuses.

Nondegree Student Admission

Understanding Nondegree Admission

Some individuals may be interested in studying in a nondegree status, either through pre-college summer programs or for their own personal learning experience. A nondegree student is one who has not attended ASU as a degree-seeking student, who has not earned a bachelor's degree, who is not attending full time, and who is not, at this time, applying to a degree program.

- Once admitted to a degree program, a student is not permitted to register in a nondegree status.
- Nondegree students may enroll in eight credit hours each fall or spring semester, seven semester hours for each 5-week summer session and nine semester hours for the 8-week summer session.
- Nondegree students may apply up to 15 hours taken in nondegree status to a degree program if you choose to pursue an undergraduate degree in the future.
- Nondegree students are not eligible for financial aid.
- Nondegree students may not be eligible for academic advising.

Nondegree Admission Requirements

To be admitted to ASU as a nondegree student, an applicant must be a high school graduate.

Students currently enrolled in high school and persons under the age of 18 may be admitted as nondegree students by submitting an official high school transcript and a letter of approval from a high school counselor or principal.

Applicants must have a 3.0 cumulative GPA in Arizona Board of Regents competency courses [1] to be considered for admission.

Apply now. [2]

Priority Application Deadlines

You must submit the Application for Undergraduate Admission, along with the application fee, by the deadline specified for each semester. In order to expedite the evaluation of your application, also submit official transcripts, test scores and supporting credentials immediately.

Fall semester: May 1

Spring semester: December 1

Summer session: May 1

Nondegree applications received after the priority date for each semester will be considered on a space-available basis. Space is limited in some courses and degree-seeking students have priority registration over nondegree-seeking students.

Application Procedures

1. Complete the Undergraduate Admission Application [2].
2. Submit the nonrefundable application fee:
 - Arizona residents - \$50.
 - Non-residents and online - \$65.
3. If needed, have your transcripts sent directly to ASU.

ASU will review your application for admission once all materials are on file. To see if your file is complete, sign in to My ASU [3] using your ASURITE ID provided to you after you submitted your application.

Mailing Address (All materials, all campuses)

Undergraduate Readmission

Quick Re-entry

If you are an undergraduate degree-seeking student who previously attended ASU but have not been enrolled at ASU for **one or two consecutive fall or spring semesters** you are eligible to return through "Quick Re-entry." You do not need to submit a new application or application fee. You may sign in to My ASU [1] and register for classes. Note that you may have a hold or Priority Tasks that you need to complete before you are able to register for classes. International students are still responsible for all SEVIS requirements and should check with the International Students and Scholars Office [2] at ASU.

NOTE: you must submit official transcript(s) from any institution(s) you attended during your absence from ASU. Official transcripts must be mailed or sent electronically directly to Admission Services by the records office of the issuing institution(s). ASU does not accept transcripts sent or carried by hand by applicants themselves or transmitted by fax. See Mailing Address.

Readmission Requirements

If you are not eligible for "Quick Re-entry" (i.e., because you have not been enrolled at ASU for **three or more semesters**, completed your academic program or were academically disqualified), you must apply for readmission [3] and submit applicable fees. An applicant for readmission must have an ASU GPA of 2.0 or higher, depending on the ASU school or college [4]. Students who do not meet this GPA requirement may appeal. In these cases, the completed application for readmission may be subject to a due date that is earlier than the application deadline.

NOTE: you must submit official transcript(s) from any institution(s) you attended during your absence from ASU. Official transcripts must be mailed directly to Admission Services by the records office of the issuing institution(s). ASU does not accept transcripts sent or carried by hand by applicants themselves or transmitted by fax. See Mailing Address. Read more about transferring college credit to ASU [5].

Priority Application Deadlines

Fall Semester

The priority readmission application deadline for fall semester is June 1. Readmission applications received after June 1 will be considered on a space-available basis. Space is limited in some programs and admission to these programs is more competitive.

Spring Semester

The priority readmission application deadline for spring semester is December 1. Readmission applications received after December 1 will be considered on a space-available basis. Space is limited in some programs and admission to these programs is more competitive.

Summer Semester

The priority readmission application deadline is May 1.

What needs to be submitted by the deadline?

You must submit the Application for Undergraduate Admission, along with the application fee, by the deadline specified for each semester. In order to expedite the evaluation of your application, also submit official transcripts, test scores and supporting credentials immediately.

I was previously admitted to ASU but did not attend. Am I a readmission student?

If you have previously been admitted to ASU but did not attend, you will be considered a freshman student [6] or a transfer student [7].

Application Procedures

1. Complete the Undergraduate Admission Application [8]. ASU prefers that you apply online.
2. Submit the nonrefundable application fee:
 - Arizona Residents - \$50
 - Non-residents - \$70
 - International \$85

If applying to an Online degree program a nonrefundable application fee of \$70 will be charged regardless of residency classification.

3. Request that an official transcript be sent directly from your school(s) to Admission Services. Upon completion of the semester, request that a final transcript be sent directly to ASU to determine final admission status. A student who does not meet readmission requirements for his/her selected major must submit complete transcripts before an admissions decision is made. Students need only submit transcripts from institutions other than ASU. **NOTE:** Receipt of your final transcript impacts financial aid disbursement and eligibility to register for future classes.
4. All applicants on F1 or J1 visas must provide a Financial Guarantee to show evidence of sufficient funds available for their studies before the application can be processed. In addition, US Citizenship and Immigration Services (USCIS) requires ASU to obtain additional information prior to processing your visa application. You must go to My ASU [1] and login, and then update address information showing Local and SEVIS addresses (list current US address as Local Address; add home country address as SEVIS Address). Please note that if you are readmitted, you must still meet all deadlines associated with the issuance of an I-20 to attend ASU. These deadlines are dependent upon your current location. Contact International Admission Services at asuinternational@asu.edu [9] or 480-965-2437.

Mailing Address (Transcripts and other materials, all campuses)

Admission Services
Arizona State University
PO Box 870112
Tempe, AZ 85287-0112

Admission before Receipt of Final Transcript

Applicants enrolled in other colleges and universities may be considered for readmission on the basis of meeting all readmission requirements, except for a final transcript of work in progress. This final transcript must be sent to Admission Services directly from the issuing institution immediately after the work in progress has been completed. **Transcripts carried by hand are not accepted.**

Admission is official only after the final transcript has been received showing that the applicant has met the university readmission requirements. In the event the applicant does not qualify or has falsified application documents, readmission and registration are canceled, and any registration fees paid are returned according to university refund policies.

Veterans Exception

By Arizona statute, no failing grades received by a veteran at an Arizona university or community college before military service may be considered when determining admissibility. This exception applies only to veterans who

1. are honorably discharged;
2. have served in the armed forces of the United States for a minimum of two years; and
3. have previously enrolled at a university or community college in Arizona.

Military service records must be submitted, including form DD 214.

Academic Renewal

Academic renewal is a university policy administered to recalculate the cumulative ASU GPA of an undergraduate student who:

1. Is pursuing his/her first undergraduate degree and has not previously received an academic renewal; and
2. has a cumulative ASU GPA below 2.00 (individual colleges may elect to consider applications for students whose GPA is a 2.00 or higher); and
3. is readmitted to a degree program after an absence of at least five continuous calendar years (including summer sessions).

Courses (including transfer credits) completed before the five-year absence with a grade "C" (2.00) or higher was earned are treated in the same manner as if all the credits were transfer credits, up to a maximum of 60 credit hours.

The cumulative GPA is based only on credits earned subsequent to the student's reentry. Graduation requirements for resident credit hours and GPA must be fulfilled after the academic renewal. Graduation requirements for academic recognition (resident credit hours and GPA) must also be fulfilled after the academic renewal.

Courses completed before and after the academic renewal **remain on the transcript** and may be considered when students apply for undergraduate professional or graduate programs.

A request for academic renewal follows this procedure:

1. Students interested in academic renewal must fill out the Application for Academic Renewal and submit the form to the Dean's Office in the college of your major.
2. The Application for Academic Renewal may be submitted immediately upon readmission but must be submitted no later than the start of the third semester after readmission.
3. The Dean's Office specifies in advance a minimum of 12 semester hours required for completion.
4. When the approved credits are completed with a cumulative GPA of 2.50 or higher, and no grade lower than "C" (2.00) in each course, the Dean's Office will forward the Application for Academic Renewal to the University Registrar's Office for processing.

Only readmission students working toward their first undergraduate degree are eligible to apply for academic renewal, which may be effected only once during a student's academic career.

Academic renewal is transferable among colleges.

All students with a cumulative ASU GPA below 2.00 and have been absent from ASU 5 consecutive calendar years or more are eligible to petition for academic renewal. Individual colleges may elect to entertain petitions for academic renewal from students with ASU GPAs above 2.00. College standards committees have final authorization on academic renewal petitions.

Leave of Absence (Undergraduate)

The Undergraduate Leave of Absence (LOA) policy assists and encourages undergraduate degree-seeking students to return and graduate after an absence of more than two semesters from ASU.

Note: If you are an undergraduate degree-seeking student who previously attended ASU but have not been enrolled at ASU for **one or two consecutive fall or spring semesters** you may be eligible to return to ASU through Quick Re-entry [1]. Students are not required to process an LOA for absences of one or two consecutive fall or spring semesters.

Eligibility Requirements

To be eligible for an Undergraduate LOA, students must be eligible to register for classes and meet the following criteria:

1. Be a degree-seeking undergraduate student.
2. Be registered during the semester immediately prior to the beginning of the LOA.
 - Students who were admitted as new first semester freshmen or transfer students but did not attend will not be eligible for an LOA. Instead, they should contact the Undergraduate Admissions office.
 - Students who were readmitted but did not attend will not be eligible for an LOA. Instead, they should contact the Undergraduate Admissions office.
 - Students who are participating in an ASU-sponsored study abroad program need not apply for an LOA; however, students who are participating in a non-ASU-sponsored study abroad program should take advantage of the LOA policy, if eligible.
3. Be in academic good standing, on probation, or on continuing probation with their college.
4. Have no hold (e.g., disciplinary, financial, testing, etc.) which would restrict registration. *Note: Students with financial holds may be given consideration for an LOA if authorized by the Collections Office [2].*
5. Have submitted any outstanding high school and/or transfer transcripts, if prior admission/readmission and continued enrollment was contingent upon receipt of those transcripts.

Undergraduate students considering taking an absence from ASU should carefully review the policies and procedures for submitting an Undergraduate Leave of Absence Request [3].

Leave of Absence FAQ's

Information for students returning from a Leave of Absence.

Q. My LOA is about to expire; what do I do now?

A. View your enrollment appointment as well as any current registration holds and "To Do" list items on My ASU [4]. Schedule an appointment with your advisor to discuss course selection. Submit transcripts for coursework you completed during your LOA.

Q. How will the university inform me regarding upcoming enrollment, deadlines and holds that may occur while on I'm on an LOA?

A. We recommend checking your My ASU [4] page often during your LOA so that you may stay informed about enrollment appointments, financial aid and tuition deadlines and advising holds that may occur prior to the end of your leave.

Q. If I qualify for an LOA, does this defer my scholarship?

A. No. In order to request a deferment of your scholarship, you will need to complete the Scholarship Deferment Application [5] found on the Scholarship website. To have your scholarship reinstated after the deferment period, you will need to complete the Scholarship Reinstatement Request [6] form.

Q. Can I come back earlier than what my original LOA was processed for?

A. Yes. If you wish to return to ASU prior to the end of your scheduled leave, you will need to contact University Registrar Services at 480-965-3124 so that your return may be updated immediately to maximize enrollment opportunities and meet any college, financial aid, etc. deadlines.

Q. Can I request an extension of my LOA?

A. Yes. If you are unable to return to ASU by the agreed term and have not reached the cumulative total of two years (four major terms) on leave, then you may petition for an extension through the college of your major. To extend your LOA, please complete the LOA form [3] and meet with your college for approval. Once the college signs the LOA extension form, return the form to any University Registrar Services location [7] for processing. If an extension is not granted, you will need to follow readmission procedures before you will be allowed to return to ASU.

Q. How will the university inform me regarding upcoming enrollment, deadlines and holds that may occur while on leave of absence?

A. We recommend checking your My ASU [4] page often during your leave of absence so that you may stay informed about enrollment appointments, financial aid and tuition deadlines and advising holds that may occur prior to the end of your leave.

Q. Am I able to view my unofficial transcripts?

A. Yes. Student can view their unofficial transcripts through their My ASU [4] page.

Q. Will my loans be deferred while on an LOA?

A. No. In order to defer loans, students must be currently enrolled. While the LOA keeps student records up to date, it does not allow for deferment. Please contact your lender for more information.

Q. If I qualify for an LOA, does this defer my scholarship?

A. No. In order to request a deferment of your scholarship, you will need to complete the Scholarship Deferment Application [5] found on the scholarship website. To have your scholarship reinstated after the deferment period, you will need to complete the Scholarship Reinstatement Request [6] form.

Q. Can I attend another institution while on an LOA?

A. Yes. Once all coursework is complete and graded, please request official transcripts to be sent directly from the transfer institution to ASU at the following address:

Arizona State University
PO Box 870112
Tempe, AZ 85287-0112

Attendance

The instructor has full authority to decide whether class attendance is required.

Source URL: <https://catalog.asu.edu/attendance>

Arizona General Education Curriculum (AGEC)

The Arizona public community colleges and universities have agreed upon a common structure for a general education core. This curriculum provides students attending any Arizona public community college with the opportunity to build a general education program that is transferable to any other state institution without loss of credit. This common agreement is called the Arizona General Education Curriculum (AGEC).

The AGEC is composed of 35-37 semester hours of lower-division general education coursework in which a student may prepare for transfer.

The AGEC has three forms: AGEC-A, AGEC-B and AGEC-S. Refer to <http://aztransfer.com/generaleducation/> [1] for a detailed description of each AGEC.

Community colleges are responsible for certifying the date of completion of the AGEC on the official institutional transcripts.

Completion of the appropriate AGEC will fulfill university lower-division general education requirements of the baccalaureate degree with which the AGEC articulates. Students completing the AGEC will still be required to fulfill lower-division program requirements and prerequisites within their college and major and minor area of study. To complete a degree program most efficiently, students should select courses that concurrently satisfy AGEC and major requirements.

Completion of any AGEC from an Arizona community college guarantees admission to the university provided that a 2.50 cumulative GPA or higher has been achieved. AGEC completion, however, does not guarantee admission to any specific university program. Many majors (e.g., architecture, engineering, business, the fine and creative arts or health professions) have significant prerequisites or program requirements that must be completed before a student may be admitted to upper-division coursework. Community college students who are undecided about which of the universities they plan to attend or what program of study they intend to pursue are advised to explore educational options while they complete the AGEC. In all cases, students have the responsibility for selecting general education coursework that is relevant to the requirements of their intended major and degree.

Students who complete both the AGEC and an approved associate's degree will be assigned junior class standing by the state universities. Junior class standing is based on the number of semester credits a student has earned and does not necessarily indicate the remaining number of semester credits needed to complete degree requirements. Course prerequisites, major requirements and upper-division requirements continue to be specified by each university. Appropriate sequencing of courses and timely completion of course prerequisites are essential to ensure efficient progress toward a baccalaureate degree. Students who have identified the university they plan to attend or a major area of study are advised to fulfill requirements and prerequisites identified by these programs through ASU's transfer pathways [2]. The AGEC does not replace articulation agreements developed to enhance the transfer process between specific institutions. Nor does the AGEC eliminate the possibility that students who have identified the university they plan to attend and a major area of study will follow transfer guides provided by the state universities.

Course Load and Concurrent Enrollment

Course

A minimum full-time course load for an undergraduate student is 12 credit hours. The maximum course load for which a student may register is 18 credit hours (with the exception of a 19-hour maximum for students enrolled in the Ira A. Fulton Schools of Engineering), with a maximum of nine credit hours in each A or B session. A student wishing to register for more than the maximum must petition the standards committee of the college in which the student is enrolled and must obtain an approved overload before registration.

Summer Session Semester Hour Load

The summer session credit hour load limit is seven credit hours for each six-week session and nine credit hours for the eight-week session, and the load limit may not exceed a total of 14 credit hours for any combination of sessions.

Graduate Credits Earned by Undergraduate Students

ASU undergraduate students who have achieved senior status (cannot be postbaccalaureate) with a cumulative GPA of 3.00 or higher may count up to 12 credit hours of graduate-level course work toward their graduate degree at ASU (preadmission credit hours). Only graduate courses with a grade of "B" (3.00) or higher may be included on a graduate plan of study. Preadmission graduate courses cannot be used to meet any baccalaureate graduation requirements. Before registering for these courses, students are advised to check with their academic advisor to ensure the correct internal academic unit or college process is followed. Permission to take a preadmission graduate course does not guarantee admission to a graduate degree program or that the course may be used toward graduate degree requirements.

Use of Graduate Course Credit by Undergraduates

Graduate course credit earned by an undergraduate student that is used to fulfill requirements for an undergraduate degree program cannot also be used in a graduate degree program unless the student is enrolled in an approved accelerated program. Students must contact their advisor before enrolling in a graduate course they wish to use toward a future graduate program at ASU.

Concurrent Enrollment

Provided that the other institution's regulations concerning enrollment, graduation requirements and transfer of credits are not violated, a student may enroll in classes at other institutions or in independent learning courses while enrolled at ASU. However, the student is urged to seek advising before concurrent enrollment to assure orderly progress toward a degree. If total credits exceed the maximum course load, prior permission must be granted by the college standards committee.

Enrollment Verification Guidelines

The registrar is responsible for verifying enrollment, according to general guidelines; see [enrollment verification](#) [1].

Source URL: https://catalog.asu.edu/course_load

Links:

[1] <https://students.asu.edu/enrollment-verification>

Credit by Examination

Students may receive credit for an ASU course by taking an examination in place of the actual course. Some exams can be taken prior to admission to ASU. Information is provided below for each type of exam, the courses that are equivalent and other conditions that may apply to credit being awarded.

- A student may earn no more than 60 hours of credit by examination for any or all programs, including ASU comprehensive and proficiency exams.
- Credit will not be awarded for any course in which the student has been given credit from any educational institution.
- Credit will not be granted for a course taken at an educational institution after credit by examination has been awarded.
Exception: Students who take the advanced placement exams, however, may choose either to have the credit earned by advanced placement kept in their cumulative university hours, or to complete the ASU course and have the credit and grade instead, regardless of in which order the test or course are taken. (See the advanced placement section, below, for additional details on the exam and its equivalent scores.)
- Credit may not be received for a lower-level or prerequisite course when credit has already been received in a higher-level course within the same field.
- Only credit earned by comprehensive examination will count toward the resident credit requirement for graduation.
- Credit by exam is awarded based on the date the exam was taken. Students who take the exam during the current catalog year (August 2017–July 2018) will earn credit based on the credit equivalency found in the current catalog. **If the test was taken in a prior academic year, please refer to the catalog for that year or search the Transfer Credit Guide [1] for more information.**

*Credit awarded as department elective will display as DEC. A DEC course is not directly equivalent to a current ASU course but could be used for graduation requirements. **Students should see their advisor to determine how these courses may apply to their major.**

College-level Examination Program (CLEP) can be taken before or during enrollment at ASU.

Advanced Placement (AP) is taken during secondary school or before enrollment at ASU.

DANTES or DSST (Defense Activity for Nontraditional Education Support Subject Standardized Test) is taken by military or approved government personnel before or during enrollment at ASU.

International Baccalaureate (IB) diploma/certificate is earned by students of an International Baccalaureate®-approved school before enrollment at ASU.

Cambridge International Exam is taken by students who have completed a Cambridge course in their secondary school.

Comprehensive examinations can be taken by current ASU students.

Proficiency examinations can be taken by current ASU students.

For information about placement testing for mathematics and English classes prior to orientation, please refer to the placement and testing requirements [2] in the ASU Catalog.

College-Level Examination Program (CLEP)

Students who have taken a College-Level Examination of the College Entrance Examination Board may receive university credit. The table of CLEP credit applies to all students enrolled in the university for the first time in August 1975 and any student enrolling thereafter. CLEP examination credit is not given where it duplicates credit previously earned by the student at the university or accepted by the university for work done elsewhere. All examinations are given monthly by University Testing and Scanning Services [3].

The General Studies requirement in natural science (SQ and SG) and literacy and critical inquiry (L) are not satisfied by CLEP. There is no limit to the number of CLEP credits that can be used to fulfill the other parts of the General Studies requirement. A student who has received ASU credit for a course due to Special Programs credit may not duplicate the credit by enrolling in the same class for credit at ASU or transferring it to another institution.

Subject Examinations

To obtain credit or placement for all subject exams except English, History, French, German, and Spanish, a student must receive a score of 50 (computer-based testing [CBT] scale) or higher. To obtain credit for College Composition, a student must receive a standard score of 610 (1978 scale), 500 (1986 scale), or 50 (CBT scale). For test scores for French, German, History and Spanish, see the CLEP credit table, below.

All equivalency is subject to future review and possible catalog change. For more information, contact University Testing and Scanning Services [3] at 480-965-7146, or visit 1130 E. University Dr., Suite 204, Tempe, AZ.

CLEP Credit

Examination	Credit Hours	Equivalency
American Government	3	POS 110
American Literature	3	Elective credit
Analyzing and Interpreting Literature	3	Elective credit
Biology	8	BIO 181, 182
Calculus	3 4	MAT 265 MAT 270
Chemistry	4	CHM 113 (Students must score 50 or higher.)
College Algebra	3	MAT 117
College Composition	3	Placement into ENG 105 and Elective credit (3). Transfer students who have credit for ENG 102 and who completed the exam (with a score of 50 or higher) prior to enrolling in ENG 102 may receive ENG 101 credit for the exam.
College Composition - Modular	0	No Credit
College Mathematics	3	MAT 142
English Literature	3	Elective credit
Financial Accounting	6	Elective credit

French Language	4	FRE 101 (Students must score 50–54.)
	8	FRE 101, 102 (Students must score 55–61.)
	12	FRE 101, 102, 201 (Students must score 62–65.)
	16	FRE 101, 102, 201, 202 (Students must score 66 or higher.)

Social Sciences and History	6	Elective credit (Students must score 56 or higher.)
Spanish Language	4	SPA 101 (Students must score 50–54.)
	8	SPA 101, 102 (Students must score 55–65.)
	12	SPA 101, 102, 201 (Students must score 66–67.)
	16	SPA 101, 102, 201, 202 (Students must score 68 or higher.)
Western Civilization I—Ancient Near East to 1648	3	HST 102 (Students must score 56 or higher.)
Western Civilization II—1648 to the Present	3	HST 104 (Students must score 56 or higher.)

Advanced Placement

Students who have taken an advanced placement course of the College Entrance Examination Board in their secondary school and who have taken an AP examination of the CEEB may receive university credit. No credit is given for any examination with a score of two or one. There is no limit to the number of AP credits that can be used to meet the General Studies requirement, including the requirements in natural sciences (SQ and SG) and literacy and critical inquiry (L).

When the scores are received by the university directly from the CEEB, credit is awarded as shown in the Advanced Placement Credit table below.

Advanced Placement Credit

DANTES/DSST

Students who have taken a DSST (DANTES [Defense Activity for Nontraditional Education Support] Subject Standardized Test) may receive university credit. Credit is awarded for score results at or above the American Council on Education's recommended score if the subject examination is applicable to a program of study at ASU or may be assigned elective credit. To receive credit, a transcript showing the DSST results must be received by ASU directly from the Educational Testing Service.

Dantes/DSST

International Baccalaureate (IB) diploma/certificate

Students who present an International Baccalaureate diploma/certificate may qualify for university credit, depending on the level of the examination and the grade received. Arizona State University grants credit for higher-level courses and some standard-level courses. A high-level grade of five qualifies the student to receive credit for up to two introductory courses while a grade of four qualifies a student to receive credit for one introductory course. No credit is awarded for English as a second language (English B). Credit is awarded according to the International Baccalaureate diploma/certificate credit table below.

International Baccalaureate Diploma/Certificate Credit

**Credit awarded depends on the content of the course completed; see advisor once admitted.

Comprehensive Examinations

A comprehensive examination is intended to permit a student to establish academic credit in a field in which the student has gained experience or competence equivalent to an established university course. Applications are given only for courses listed in the current catalog and only for courses in which a comprehensive examination can serve as a satisfactory measure of accomplishment.

A number of restrictions apply. To be eligible to apply to take a comprehensive examination to establish undergraduate course equivalence, a student must:

1. have earned not more than 60 credit hours through comprehensive, CLEP, international baccalaureate and advanced placement examinations
2. have earned no credit for a duplicate course
3. have earned no credit for a course for which this course is a prerequisite

The decision on the suitability of course material for a comprehensive examination, the development of a comprehensive examination and the administration of an examination are strictly departmental functions. An application is for one course only. The student should complete an application form with the number, title and number of credit hours for the course. When completed, the application must be approved by the student's advisor and the chair of the department responsible for offering the course.

The student must then pay the stated fee for such examinations at cashiering services. The receipt must be taken to the departmental office.

The examination is prepared by the instructor who normally conducts the course, and it is comprehensive in nature and scope. The instructor and other experts designated by the chair grade the examination, using letter grades "A+", "A", "A-", "B+", "B", "B-", "C+", "C", "D" or "E". If the grade is "C" or higher, a mark of "Y" is entered on the student's permanent record; otherwise, no entry is made. Credit by examination is indicated as such on the record. The student is notified by mail of the result of the examination. In cases of failure ("D" or "E"), the student is not given an opportunity to repeat the examination.

A student pursuing a second baccalaureate degree may not receive credit by comprehensive examination, but with prior approval of the college, the student may use the examination to waive a course requirement if a grade of "C" or higher is earned.

Proficiency Examinations

Proficiency examinations and auditions are given:

1. to waive a course requirement
2. to validate certain transfer credits in professional programs
3. to determine a student's ability in a field where competence is an important consideration

Detailed information may be obtained from the dean's office of the college in which the student is registered.

Enrollment and Degree Verification

Arizona State University is frequently asked to certify a student's earned degrees and/or enrollment status (full-time, part-time, etc.). Enrollment status is determined by the number of credits for which a student is enrolled during the term in which certification is requested. Courses a student has withdrawn from are not included. Note that classes taken for audit are included in total enrolled hours.

How to Obtain an Enrollment or Degree Verification

1. Log in to My ASU [1] and navigate to the **My Classes** box
2. Select **Grades & Transcripts**
3. Select **Transcripts & Test Scores**
4. Select **Enrollment Verification**

You will be able to select from several options including your major, earned degrees, and semester and cumulative GPA, and print out the Enrollment Verification as a PDF.

If you need special information on your Enrollment Verification, or if you need a specialty verification form completed such as the Canadian or Alaskan form, submit an Enrollment Verification Request [2] form at any University Registrar Services location [3] (photo ID required for in-person visits). Requests by email, mail or fax **must** include the student's verifiable signature. Please allow up to two business days for processing.

For students that attended the **Thunderbird School of Global Management prior to December 31, 2014**, information on how to obtain verification of your Thunderbird coursework or degree can be found here [4].

If you have questions or need additional information, please contact University Registrar Services, Records & Enrollment Services at 480-965-3124 or registrar@asu.edu [5].

Enrollment & Degree Verification for Outside Agencies and Third Parties

ASU has contracted with the National Student Clearinghouse [6] to process all enrollment and degree verification requests for employers, employment agencies, background search firms, and various other businesses that offer products or services based on the individual's status as an enrolled student.

- If you need assistance, contact National Student Clearinghouse [6] directly at 703-742-4200.

- If the National Student Clearinghouse can confirm the degree or enrollment, the response is immediate and requestors will be able to print or obtain a PDF version of the verification.
- Enrollment verifications for each term will be available starting the first week of classes for that term.
- A fee will be charged for this service.

Full-Time and Half-Time Credit Requirements for Enrollment Verification Purposes

Fall & Spring Semesters

Status	Undergraduate	Graduate
Full time	12+ credit hours	9+ credit hours
3/4 time	9 - 11 credit hours	7 - 8 credit hours
Half time	6 - 8 credit hours	5 - 6 credit hours
Less than half time	1 - 5 credit hours	1 - 4 credit hours

Summer Sessions

Status	Undergraduate	Graduate
Full time	4+ credit hours	3+ credit hours
Half time	2 - 3 credit hours	2 credit hours
Less than half time	1 credit hour	1 credit hour

Research and Teaching Assistants: For fall and spring semesters, research and teaching assistants must be enrolled in at least six credit hours to be considered full time. For summer sessions, they must be enrolled in at least two credit hours to be considered full time and one credit hour to be considered half time.

Financial Aid Recipients: Full-time and half-time credit requirements may be different for financial aid disbursement purposes. Please review the Award Disbursement Rules [7] to determine the required enrolled hours needed for financial aid disbursement.

Co-Operative Education

Students are required to be enrolled in a designated co-op course within their college for a minimum of one credit hour during the co-op semester. Co-op students will be identified for enrollment verification purposes as being in full-time status. This will include verification to the National Student Clearinghouse for loan deferment purposes. The co-op experience must meet the clock time in hours of work to meet the full-time enrollment requirement, as monitored by the student's college. A credit hour is defined as a minimum of 45 clock hours. Please review the Award Disbursement Rules [7] to determine the required enrolled hours needed for financial aid disbursement.

Glossary of Academic Terms

University Academic Good Standing (Undergraduate): [1]

2.00 Cumulative GPA

- College specific academic good standing rules can be developed. Example: W. P. Carey Academic Good Standing. Use college name in policy title to differentiate it from University policy.

University Academic Probation: [2]

An undergraduate student with a cumulative GPA that has dropped below a 2.00 at the end of semester (fall or spring), is placed on University Academic Probation.

- Colleges may establish specific criteria for their own Academic Probation status, to be defined as "College Name" Academic Probation. Example: Fulton Schools of Engineering Academic Probation

University Continuing Academic Probation: [2]

A student is said to be on University Continuing Academic Probation each semester (fall or spring) that student (previously on University Academic Probation) earns a semester GPA above a 2.00, but remains below a Cumulative GPA of 2.00.

- Colleges may establish individual time limits for Continuing Academic Probation, to be defined as "College Name" Continuing Academic Probation.

Co-enrolled Continuing Probation Program [3]

Select disqualified students may participate in the Co-enrolled Continuing Probation Program at the discretion of their college or school. Under this program, the student takes UNI 220 Academic Refresher plus one ASU course selected by the student's advisor. The student co-enrolls at a Maricopa Community College with a schedule selected in consultation with the ASU advisor. Upon completion of the term, students with a combined semester cumulative GPA of 2.50 may continue regular enrollment at ASU. Parameters regarding the number of co-enrolled hours required are at the discretion of each college or school.

Ineligible:

A student who is in University Academic Good Standing, but is ineligible to remain in their major based on college specific academic requirements. This status was phased out during the 2015-2016 academic year with new tracking requirements and University Academic Good Standing policies.

Disqualified: [4]

A student on University Academic Probation who does not earn a semester (fall or spring) GPA of 2.00 or greater. Students who are disqualified are not permitted to enroll at ASU in any subsequent fall or spring semester.

Satisfactory Progress: [5]

This term is used in different ways for students with regards to financial aid, sponsored international programs, athletics and with regards to receiving veteran's benefits. It is a complex calculation, which is major and situation specific. This term should not be utilized to refer to Academic Standing.

Progression: [5]

This term is used to refer to how a student meets milestones and degree requirements to enable movement towards achieving degree completion. This term should not be utilized to refer to Academic Standing.

Reinstatement: [6]

A student who has previously been academically disqualified and seeks to return either for a fall or spring semester a) immediately or b) after a period of absence and has met college admissions standards.

Quick Re-entry: [7]

Undergraduate degree seeking students who previously attended ASU but have not been enrolled at ASU for one fall or spring semester or no more than two consecutive semesters are eligible to return through "Quick Re-entry." Students do not need to submit a new application or application fee.

Readmitted: [7]

Students not eligible for "Quick Re-entry" (i.e., because they have not been enrolled at ASU for three or more semesters, completed their academic program or were academically disqualified), must apply for readmission and submit applicable fees. An applicant for readmission must have an ASU GPA of 2.00 or higher, depending on the ASU school or college.

Off Track:

A student who has not met one or more critical requirements as stated in terms 1-4 of their major map in a given fall or spring semester.

Twice Off Track:

A student who has not met one or more critical requirements as stated in terms 1-4 of their major map in two consecutive fall or spring semesters.

On Track:

A student who has met all critical requirements identified in terms 1-4 of the major map in the current term and previous terms against which they are being evaluated (as identified in the major map).

On Track to Graduation:

A student who has met all necessary requirements (terms 5-8) in the current term and necessary or critical requirements in previous terms against which they are being evaluated (as identified in the major map).

Off Track to Graduation:

A student who has not met one or more necessary requirements (terms 5-8) as stated in their major map in a given fall or spring semester.

Critical Requirement: [8]

As identified on the major map, as a curricular or non-curricular degree requirement that the faculty have identified as critical predictors of success in a specific major. Critical requirements can be courses, grades, GPAs or non-curricular requirements such as submitting a fingerprint clearance card. Critical Requirements appear in terms 1-4.

Necessary Requirement:

As identified on the major map, as a curricular or non-curricular degree requirement that the faculty have identified as necessary for timely completion of degree requirements. Necessary requirements appear in terms 5-8.

8 Semester Tracking:

The evaluation of how completed courses meet degree requirements in a specific term. Includes both critical and necessary courses. Also refers to the student application for viewing all major map requirements and progression towards meeting those requirements (personalized major map).

eAdvisor: [9]

A suite of tools used to monitor student progression towards degree completion including Degree Search, major maps and the tracking of critical and necessary requirements (8 Semester Tracking application).

Milestones:

A curricular or non-curricular requirement that needs to be completed by a specific point in time. Examples: portfolio review or audition.

Concurrent Degree: [10]

Internal to the university, two degrees, same level, same time, and may include some shared courses. Concurrent

degrees can either be preapproved combinations or unique combinations added by the student via petition. Examples: JD/PhD or BS/BSE. Two diplomas are awarded.

Multiple Concentration:

Internal to the university, one degree awarded, same level, same time, some shared courses. For undergraduate degrees with multiple concentrations, students may not share coursework between the core concentration curricula. Multiple concentrations are typically added by petition. Example: Business (Global Leadership), BA and Business (Sustainability), BA.

Joint Degrees:

Joint programs, or jointly conferred degrees, are a single program of study offered by more than one college at ASU that provide opportunities for students to take advantage of the academic strengths of two academic units. Upon graduation, students are awarded one degree and one diploma conferred by both colleges. Both colleges will appear on the transcript and diploma.

Dual Degree:

An offering that is both internal and external to ASU. The student pursues two degrees simultaneously, one with ASU and one with an external institution. Example: ASU and Mayo Clinic.

Accelerated bachelors/masters (4 + 1) [11]

The 4+1 accelerated bachelor's and master's degrees are designed by the academic units to provide selected high-achieving undergraduate students with the opportunity to combine advanced undergraduate coursework with graduate coursework to accelerate graduate degree completion. These programs allow accelerated students to obtain a bachelor's degree and a master's degree within five years. These programs are preapproved combinations and are internal to ASU.

Accelerated bachelors/master's degree (3 +2):

A preapproved pathway to achieving a bachelor's degree and a graduate level degree in five years. These are pre-established relationships, typically with international institutions.

Experiential Learning

Experiential learning such as internships and co-ops are integral to the preparation of a ASU graduate.

- An **internship** is a structured practical experience which allows students to gain work based skills with the possibility of earning academic credit. Students follow a contract or a plan and are supervised by faculty or practitioners in the career field. Credit-bearing internships are an approved way to meet elective requirements and can count towards the University 120 hour graduation requirement at the undergraduate level. The department and individual faculty determine whether or not a specific internship experience meets the requirements of the unit and how many credit hours should be awarded.
- A **cooperative education program**, commonly known as a co-op, is a structured method of combining classroom-based education with practical work experience. Co-ops allow students to earn academic credit for structured job experience as well as a paycheck to help finance your college education. Co-ops are a joint venture between a college or university, a selected employer, and the student.

Minors and Undergraduate Certificates

To declare a minor or pursue a certificate, please consult your academic advisor and an advisor in the unit offering the minor for more information. Search minors and certificates [1].

Minors

A minor is an approved, coherent concentration of academic study in a single discipline, involving substantially fewer hours of credit than a corresponding major. Most ASU colleges offer undergraduate minors in addition to majors.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if the college or department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met and the college (and, in certain colleges, the department) of the student's major allows the official recognition of the minor. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken. The student should also consult an academic advisor in the college or department of the major to make sure the college or department of the major allows the recognition of the minor.

Certain major and minor combinations may be deemed inappropriate either by the college or department of the major or minor. Courses taken as part of a minor may not count toward both the major degree and the minor. Please contact the department for more information.

Undergraduate Certificates

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

[1] <https://webapp4.asu.edu/programs/t5/MinorsCertificates/undergrad/true>

Personalized Tools and Services for All Students

Degree Search

Students want to find a degree and major that meets their interests, goals and preferred location. Degree Search [1] helps students find a major by searching on the name of a major, college, area of interest, campus and/or keyword. It also allows side-by-side degree/major comparison.

Major Maps

All students can view a major map for each major through Degree Search [1] or My ASU [2]. A major map is an eight-semester, optimal course plan that clearly outlines a recommended sequence of courses that enables students to graduate in four years. Critical requirements, GPA requirements and milestones that occur within the first four semesters are highlighted on the major map. ASU's automated tracking system (eAdvisor™) charts first time, full-time freshmen students' progress on critical requirements, GPA requirements and milestones during their first four semesters.

Placement Testing

ASU is focused on helping students succeed in their academic goal: to earn their degree. One of the first critical steps to academic success is determining if each incoming student has the skill preparation necessary, particularly in math and English, to proceed with their degree program.

The purpose of placement testing is to ensure students are placed in the classes appropriate for their level of preparation and to make sure they get the skills they need to succeed from the beginning. If students begin classes they aren't prepared for, they will have difficulty with the new material and won't solidify their basic skills. If they are advanced in their skills, they need to be appropriately challenged.

Find out more about first-year math [3] and English [4] placement testing.

Data has shown that if students get on the right course towards graduation during their first four semesters, they are more likely to stay at ASU and earn their degree. Because of this, we have created an eAdvisor initiative that identifies our full-time freshmen, provides an optimal course plan and tracks their progress during the first four semesters. The following tools are available exclusively to eAdvisor students.

Progress Reports

All students can track their progress through an online graduation audit and unmet requirement audit available on My ASU [2]. Students can run an unmet degree audit that lists only the requirements they have not yet taken and need to complete in order to graduate. They can also view a complete list of all their degree requirements on a graduation audit, those they have completed as well as those they still need to complete. eAdvisor students have additional tools that allow them to track their progress toward completing critical requirements (required courses, grades or GPAs and milestones required to stay on track) on their major map, also on My ASU [2].

Academic Status Reports

Early intervention is key to student success when a student is struggling in a course. ASU students are alerted if they are in danger of receiving a D, E or Unsatisfactory grade in a class. Through My ASU [2], students receive suggested follow-up items and information about academic resources so they can get the help they need before it is too late. Some students need encouragement to commit more time to their studies, to locate tutoring services or to speak with the instructor about the course work and performance expectations. Even if a student did not receive a status report for a class, it is still a good idea to check with the instructor to see how they are doing in the class.

Online Access to Advising Committees

Each student's academic advising committee will help them set personal academic goals, understand policies and create strategies for staying on track towards graduation. The committee is listed on the student's My ASU [2] page. There is also information about how advising services work in the student's department and how to get answers to advising questions or make an appointment with an advisor. The ASU Academic Advising Directory [5] provides links to all the advising offices at ASU.

Holds and Tasks

The Holds and Tasks section of each student's My ASU Web page is dedicated to informing the student about academic holds and tasks they need to accomplish. An academic hold is placed on a student's record if the student is placed on academic probation or is off track, for instance. It restricts the student from registering for new classes and requires them to meet with their academic advisor. A task item will show up on My ASU when there is a task the student must complete, such as meeting a scholarship application deadline or checking their academic status report.

Unique Tools For eAdvisor™ Students

Data has shown that if students get on the right course towards graduation during their first four semesters, they are more likely to stay at ASU and earn their degree. Because of this, we have created an eAdvisor initiative that identifies our full-time freshmen, provides an optimal course plan and tracks their progress during the first four semesters. The following tools are available exclusively to eAdvisor students.

eAdvisor Status and Progress Reports

In addition to traditional progress reports, eAdvisor students can run a critical requirement audit and view their tracking status at any time during the semester. A student record may change multiple times during the semester because of dropped courses, transferred credit, completed milestones or changed majors. The system accounts for the changes to student records and updates the eAdvisor status, critical requirement audits and advising holds nightly.

E-mails from eAdvisor

eAdvisor students receive e-mails regarding their progress. E-mails are sent to asu.edu e-mail addresses, so it is important that students check their ASU e-mail daily.

eAdvisor Holds and Tasks

eAdvisor will place important notes and reminders in these two sections of eAdvisor students' My ASU [2] page. If a student becomes off track, an advising hold will be placed on their record and while they may drop and withdraw from a

course, they will not be able to add courses to the current semester. A student with off-track status will not be able to register for future fall and spring semesters until they have contacted their advisor and discussed strategies for getting back on track. Their advisor will then remove the hold.

Placement and Testing Requirements

English Placement

All new, transfer or readmitted undergraduate students who plan to enroll for seven or more semester hours must meet one of the following testing requirements. Students who fail to meet at least one of these requirements are not allowed to register for any course the following semester:

- Take the ACT English or SAT verbal examination, and have scores submitted to ASU.
- Receive a score of four or five for the advanced placement examination in English offered by the College Entrance Examination Board, and have scores submitted to ASU.
- Take the CLEP general examination in College Composition, earning a score that qualifies for equivalency with ENG 101 or placement into ENG 105, and have scores submitted to ASU.
- Have previously taken ENG 101, ENG 102, ENG 105, ENG 107 or ENG 108 at ASU; or have previously earned a grade of "Y;" or be currently enrolled in WAC 101 or WAC 107 at ASU. If the course was taken before 1980, contact the recording section, in SSV 142, before registering for classes.
- Transfer a course equivalent to ENG 101, ENG 102, ENG 105, ENG 107 or ENG 108 with a grade of "C" (2.00) or higher. An official transcript showing the grade must be received at ASU. If a student transfers an equivalent composition course from a public Arizona community college or university or an articulated equivalent course from another institution, the equivalency is automatically posted and the student need not take further action. A student transferring a nonarticulated composition course from any other college or university may be required to submit documentation to determine equivalency of the courses. After consultation with an advisor, if evaluation is necessary, the student should submit a request for evaluation through the ASU Transfer Credit Guide [1].
- An international student whose native language is not English must take ENG 107 (or WAC 107 followed by ENG 107 the second semester) in the first semester at ASU, unless they have taken and transferred an equivalent composition course from a college or university in the U.S. Such a course must be evaluated for equivalency through the ASU Transfer Credit Guide [1].

Admitted ASU students who have not sent official ACT or SAT scores to ASU may need to take the WritePlacer section of the ACCUPLACER placement test [2] for placement into a first-year English composition course.

Math Placement

ASU requires all incoming freshmen to complete the ASU mathematics placement test [3] for mathematics prior to orientation, in order to determine the appropriate math course for enrollment.

Source URL: https://catalog.asu.edu/test_req

Links:

Retention and Academic Standards

Class Standing

A student's class standing is determined by the number of hours earned, as shown in the table below.

Student	Hours Earned
Freshman	24 or fewer semester hours earned
Sophomore	25 to 55 semester hours earned
Junior	56 to 86 semester hours earned
Senior	87 or more semester hours earned
Graduate	bachelor's degree from accredited institution

Academic Good Standing

For the purpose of retention, university academic good standing [1] for degree-seeking students is defined as a minimum cumulative GPA of 2.00. This standard is in effect for all students, regardless of catalog year, beginning in fall 2013.

A student who does not maintain the minimum GPA standard is placed on academic probation or is disqualified. A student on academic probation is in conditional good standing and is permitted to enroll.

Students on academic probation must meet with an academic success specialist to discuss academic success strategies for the subsequent semester and will be required to take UNI 220 Academic Refresher. In addition, students who have fewer than 24 credit hours will be required to participate in the ASU Pathway for Achieving Student Success program [2]. Students who successfully complete UNI 220 and participate in the PASS program will get an additional semester of academic probation before being disqualified. More information on the PASS program can be found here: <https://studentsuccess.asu.edu/pass> [3].

To transfer from one college to another within the university or to be eligible for readmission, a student must have an ASU GPA of 2.00 or higher. The GPA determining good standing is computed on courses taken only at ASU.

For purposes of retention or transfer, an individual college may set higher GPA standards; otherwise, the university standards prevail. See the college sections of this catalog or contact the college deans' offices for statements regarding college retention standards.

Dean's List

Undergraduate students who earn 12 or more graded semester hours ("A+," "A," "A-," "B+," "B," "B-," "C+," "C," "D" or "E") during a semester in residence at ASU with a GPA of 3.50 or higher are eligible for the Dean's List. A notation regarding Dean's List achievement appears on the unofficial transcript.

Satisfactory Academic Progress

The university is required to publish and enforce standards of satisfactory academic progress for certain students (e.g., student athletes, students receiving financial aid and students receiving veterans benefits).

Certification of satisfactory progress for student athletes is verified by the academic advisor and the dean's designee for certifying satisfactory progress. Certification of satisfactory progress [4] for students receiving financial aid or veterans benefits is verified by Student Financial Assistance or the Veterans Services offices, respectively. Students should contact their advisors or the appropriate office for additional information on satisfactory progress requirements.

Probation

A student's college assumes responsibility for enforcing academic standards and may place on university academic probation [5] any student who has failed to maintain good standing as previously defined. For purposes of probation and retention, an individual college may set higher GPA standards. A student on academic probation is required to observe any rules or limitations the college may impose as a condition for retention. This includes college-established policies regarding continuing probation.

Co-enrolled Continuing Probation Program

Select disqualified students may participate in the Co-enrolled Continuing Probation program at the discretion of their college or school. Under this program, the student takes UNI 220 Academic Refresher plus one ASU course selected by the student's advisor. The student co-enrolls at a Maricopa Community College with a schedule selected in consultation with the ASU advisor. Upon completion of the term, students with a combined semester cumulative GPA of 2.50 may continue regular enrollment at ASU. Parameters regarding the number of co-enrolled hours required are at the discretion of each college or school.

Disqualification

A student who is placed on probation at the end of a semester is subject to disqualification [6] by the college or school at the end of the following semester if the conditions imposed for retention are not met.

Disqualification is exercised at the discretion of the college or school. A disqualified student is notified by the dean of the college and is not allowed to register in a fall or spring semester at the university. If the student has already registered for a future fall or spring semester, the registration is canceled. A student who has been disqualified may apply for reinstatement to the college standards committee. A disqualified student may not attend as a nondegree student. If a disqualified student elects to attend another university or two-year college, any credits earned there will not affect the ASU cumulative GPA. A course repeated elsewhere will not result in a replacement of a grade earned at ASU. Disqualified students must consult with an academic advisor to determine eligibility to attend ASU in the summer session, to raise the ASU cumulative GPA.

Select disqualified students may participate in the Co-enrolled Continuing Probation Program. See "Probation [5]."

Reinstatement

A disqualified student who has skipped a fall or spring semester must follow the procedures for readmission. See readmission to the university [7].

A disqualified student who has not skipped a semester may contact an advisor in his or her college to see if reinstatement is possible. (See reinstatement [8].) If the student wishes to transfer to a different college, he or she may submit an application for reinstatement to the college into which he or she wishes to transfer. An ineligible student who does not skip a fall or spring semester must follow the ineligible procedures. See ineligible [9] status.

Academic Integrity

Find out more about academic integrity [10].

University Undergraduate General Studies Requirement

A baccalaureate education should prepare students for a particular profession or advanced study and for constructive and satisfying personal, social and civic lives as well. In addition to depth of knowledge in a particular academic or professional discipline, students should also be broadly educated and develop the general intellectual skills they need to continue learning throughout their lives. Thus, the General Studies requirement complements the undergraduate major by helping students gain mastery of critical learning skills, investigate the traditional branches of knowledge and develop the broad perspective that frees one to appreciate diversity and change across time, culture and national boundaries.

Critical learning skills include proficiency in the use of language, mathematics and quantitative methods as tools for acquiring, renewing, creating and communicating knowledge. A broad education includes an understanding of the methods and concerns of traditional branches of knowledge — the arts and humanities, the social sciences and the natural sciences. Developing perspective requires historical, global and cross-cultural examination of knowledge of all kinds.

The General Studies requirement is composed of courses in five core areas and three awareness areas. The courses are approved by the General Studies Council and are noted in the course catalog [1] for each academic term. General Studies courses are regularly reviewed and are occasionally added to and deleted from the list. Students should always consult the course catalog [1] each semester to see which courses currently meet the General Studies requirement.

A student receives the General Studies credit that a course carries during the semester in which the course is taken.

Five Core Areas (general studies)

L: Literacy and Critical Inquiry (three credit hours)

Literacy is competence in written and oral discourse. Critical inquiry is the gathering, interpretation and evaluation of evidence. The literacy and critical inquiry requirement helps students sustain and extend their ability to reason critically and communicate clearly through language.

Students must complete three credit hours from courses designated as L. Students must have completed ENG 101, ENG 105, or ENG 107 to take an L course.

The three credit hours required to meet the General Studies L requirement are in addition to the university level upper-division L requirement. See university graduation requirements for more information.

MA and CS: Mathematical Studies (combined six credit hours)

This core area has two categories. Mathematics (MA) is the acquisition of essential skills in basic mathematics. Computer/statistics/quantitative applications (CS) applies mathematical reasoning and requires students to complete a course in either the use of statistics/quantitative analysis or the use of a computer to assist in serious analytical math work.

This requirement has two parts: At least three credit hours must be selected from courses designated MA and at least three credit hours must be selected from courses designated CS, and all students are expected to fulfill the MA requirement by the time they accumulate 30 hours of credit in residence at ASU. Any student who has more than 30 hours of resident ASU credit and has not fulfilled the MA requirement must enroll in an MA course or an appropriate prerequisite and continue to do so every semester until the mathematics requirement is met. College officers may grant waivers to the immediate and continual enrollment requirement only when there are scheduling conflicts detrimental to the student's academic progress.

HU: Humanities, Arts and Design and

SB: Social-Behavioral Sciences (combined 12 credit hours)

The study of the humanities and the disciplines of art and design deepen awareness of the complexities of the human condition and its diverse histories and cultures. Courses in the humanities are devoted to the productions of human thought and imagination, particularly in philosophical, historical, religious and artistic traditions. Courses with an emphasis in arts and design are devoted to the study of aesthetic experiences and the processes of artistic creation. They may also feature a design emphasis in which material culture is studied as a product of human thought and imagination.

The social-behavioral sciences provide scientific methods of inquiry and empirical knowledge about human behavior, within society and individually. The forms of study may be cultural, economic, geographic, historical, linguistic, political,

psychological or social. The courses in this area address the challenge of understanding the diverse natures of individuals and cultural groups who live together in a world of diminishing economic, linguistic, military, political and social distance.

A total of 12 credit hours must be completed in the following two core areas: humanities, arts and design (HU); and social-behavioral sciences (SB). At least six credit hours must be taken in one of these two core areas.

The 12 hours required to meet the General Studies HU/SB requirement are in addition to the university level upper-division HU/SB requirement. Students should see university graduation requirements for more information.

SQ and SG: Natural Sciences (combined eight credit hours)

The natural sciences help students appreciate the scope and limitations of science and its contributions to society. Natural science areas of study include anthropology, astronomy, biology, biochemistry, chemistry, experimental psychology, geology, microbiology, physical geography, physics and plant biology. Knowledge of the methods of scientific inquiry and mastery of basic scientific principles and concepts are stressed, specifically in those that relate to matter and energy in living and nonliving systems. Firsthand exposure to scientific phenomena in the laboratory is important for developing and understanding the concepts, principles and vocabulary of science.

General Studies courses that satisfy the natural science requirement are given one of two classifications: quantitative (SQ) and general (SG).

Natural Science — Quantitative (SQ): These laboratory courses include a substantial introduction to the fundamental behavior of matter and energy in physical and biological systems.

Natural Science — General (SG): These laboratory courses cover aspects of scientific inquiry that lend themselves to more qualitative or descriptive discussions of science.

Eight credit hours of courses designated SQ or SG must be selected. Of these, at least four credit hours must be taken from the SQ category.

Three Awareness Areas (general studies)

Students must complete courses that satisfy three awareness areas. Courses that are listed for a core area and one or more awareness areas may satisfy requirements concurrently, up to a maximum of two of the awareness areas listed for that course. These awareness areas promote appreciation of cultural diversity within the contemporary U.S., the development of an international perspective and an understanding of current human events through study of the past.

1. Cultural Diversity in the United States (C)

The objective of the cultural diversity (C) requirement is to promote awareness and appreciation of cultural diversity within the contemporary U.S. This is accomplished through the study of the cultural, social or scientific contributions of women and minority groups, examination of their experiences in the U.S., or exploration of successful or unsuccessful interactions between and among cultural groups. Awareness of cultural diversity and its multiple sources can illuminate the collective past, present and future and also help students achieve greater mutual understanding and respect.

2. Global Awareness (G)

The objective of the global awareness (G) requirement is to help students recognize the need for an understanding of the values, elements and social processes of cultures other than those of the U.S. The global awareness area includes courses that recognize other contemporary cultures and the relationship of the American cultural system to generic human goals and welfare.

3. Historical Awareness (H)

The objective of the historical awareness (H) requirement is to help students develop knowledge of the past, which can be useful in shaping the present and future. History is present in languages, art, music, literature, philosophy, religion and the natural sciences, as well as in the social science traditionally called history.

Meeting the General Studies Requirement

All students enrolled in a baccalaureate degree program must successfully complete a minimum of 29 credit hours of approved General Studies courses. Many General Studies courses are approved as satisfying more than one requirement. The following conditions govern the application of courses toward the General Studies requirement:

- A single course may be used to satisfy one core area and a maximum of two awareness area requirements.
- A single course may be used to satisfy a maximum of two awareness area requirements.
- A single course cannot be used to satisfy two core area requirements, even if it is approved for more than one core area.

There is no limit to the number of advanced placement or College-Level Examination Program credits that can be used to meet the General Studies requirement; see credit by examination [2]. However, CLEP credits do not satisfy the natural sciences (SQ and SG) and literacy and critical inquiry (L) portions of the General Studies requirement.

Transfer Credit

Completion of ASU's lower-division general studies and composition requirements will be awarded to any transfer student who has completed the general studies and composition requirements at another domestic university as certified through completion of the AGECE from an Arizona community college or IGETC/CSUGE for California public community colleges, or the completion of an associate of arts degree at any regionally accredited community college or university in the United States. These students will still be required to fulfill lower-division program requirements and prerequisites within their college and major and minor area of study. Additionally, students must still take six upper-division credit hours (three for L and three for SB or HU) to complete the ASU university-level graduation requirements. If students transfer from Arizona community colleges without completing the AGECE or from other accredited postsecondary institutions, they receive credit for General Studies based on course-by-course equivalency. See Arizona General Education Curriculum [3].

University Requirements

In addition to the 29 credit hours of lower-division general education coursework, university graduation requirements also require students to take six additional upper-division credit hours. Three hours with a Literacy (L) designation are required to be chosen from approved upper-division courses, preferably in the major. Three hours with either a humanities, arts and design (HU) or social-behavioral sciences (SB) designation should also be chosen from approved upper-division courses, preferably in the major.

College or School and Major Requirements

In addition to the General Studies requirement, students must also complete college or school and major requirements. Students are encouraged to work with their academic advisors to develop a program of study that efficiently meets all graduation requirements. A well-planned program should enable a student to concurrently satisfy requirements at the university, college or school levels and within their major.

University Undergraduate Graduation Requirements

All students enrolled in a baccalaureate degree program must fulfill the following university requirements to graduate.

Credit Requirements

A minimum of 120 credit hours is required for graduation with a baccalaureate degree. A minimum of 45 credit hours in upper-division courses is required for graduation. Some programs may require more than 120 credit hours and 45 upper-division credit hours for graduation; check the program's major map for graduation requirements.

No more than 60 credit hours earned in independent learning courses or earned by comprehensive examination (including advanced placement, College-Level Examination Program, DANTES Subject Standardized Test and International Baccalaureate diploma/certificate exams) are accepted for credit toward the baccalaureate degree.

Grade Point Requirement

A minimum cumulative grade point average of 2.00 for all courses taken at ASU is required to graduate with a baccalaureate degree. Some programs may require more than a 2.00 GPA; refer to the specific program's major map for graduation requirements.

General Studies Requirement

All students enrolled in a baccalaureate degree program must satisfy a university requirement of a minimum of 29 credit hours of approved coursework. See General Studies [1].

Students transferring from Arizona community colleges with a certified completion of the appropriate Arizona General Education Curriculum will have satisfied all lower-division General Studies requirements of the baccalaureate degree with which the AGECE articulates. Completion of ASU's lower-division General Studies and composition requirements will also be awarded to any transfer student who has completed the IGETC/CSUGE for California public community colleges or an associate of arts degree at any regionally accredited community college or university in the United States. For more details regarding the different versions of AGECE, refer to <http://aztransfer.com/> [2].

An additional combined six hours of literacy (L) (three credit hours total) and humanities, arts and design (HU)/social-behavioral sciences (SB) (three credit hours total) at the upper-division level, preferably chosen from within the major, must be completed in addition to 29 credit hours of General Studies coursework.

Mathematics Requirement

All undergraduate degree-seeking students are expected to fulfill the university's mathematics requirement by the time they have accumulated 30 hours of credit in residence at ASU. Any student who has more than 30 hours of credit and has not fulfilled the mathematics requirement must enroll in a mathematics course or an appropriate prerequisite course and continue to do so every semester until the mathematics requirement is met. A waiver may be granted for continuous enrollment if there are scheduling conflicts detrimental to the student's academic progress. Also, see the Math Intensive Programs: Required Course Policy [3].

First-Year Composition Requirement

Completion of both ENG 101 and ENG 102 or ENG 105 with a grade of "C" (2.00) or higher is required for graduation from ASU in any baccalaureate program. A student whose native language is not English may meet the first-year composition requirement by completing ENG 107 and 108 with a grade of "C" (2.00) or higher. Students who are required to take first-year composition must enroll in their first required composition course within the first year and continue to enroll in required composition courses every term until composition requirements are met.

Transfer Credit

Composition courses transferred from other post-secondary institutions may require evaluation. After consultation with an advisor, if evaluation is necessary, the student should submit a request for evaluation through the ASU Transfer Credit Guide [4]. The process should be completed upon transfer of coursework to ASU so the student is able to enroll in additional courses if required to do so. Students who are required to take first-year composition must enroll in their first required composition course within the first year and continue to enroll in required composition courses every term until composition requirements are met.

Resident Credit Requirement

Resident credit refers to a course that is offered in a regular semester, winter session (prior to 2011-2012), intersession or summer session. Credit earned through comprehensive examinations is also included when calculating ASU resident hours. Credit earned through independent learning, advanced placement, the College-Level Examination Program or an International Baccalaureate diploma/certificate are excluded when calculating ASU resident hours.

Every candidate for the baccalaureate degree is required to earn a minimum of 30 credit hours in resident-credit courses at ASU.

Guidelines for Determination of Catalog Year

The catalog is published annually. Department, school, division, college and university requirements may change and are upgraded often. In determining graduation requirements, an undergraduate student may use only one edition of the catalog but may elect to follow any later catalog edition under which the student attends. Students may not use an edition of the catalog that was in effect before their high school graduation or completion of GED. Students maintaining continuous enrollment at any Arizona community college or public university may graduate according to the requirements of the catalog in effect at the time of initial enrollment following high school graduation or completion of a GED or according to the requirements of any single catalog in effect during subsequent terms of continuous enrollment. Students may maintain continuous enrollment while pursuing their degrees, whether attending a single Arizona community college or public university or transferring among public institutions in Arizona. Students transferring among Arizona public higher education institutions must meet the admission, residency and all curricular and academic requirements of the degree-granting institution.

1. A semester in which a student earns course credit is counted toward continuous enrollment. Noncredit courses, audited courses, failed courses or courses from which the student withdraws do not count toward the determination of continuous enrollment for catalog purposes. See examples A and B in the continuous enrollment table below.
2. Students who do not meet the minimum enrollment standard stipulated above during three consecutive semesters (fall/spring/fall or spring/fall/spring) and the intervening summer term at any Arizona community college or public university are no longer considered continuously enrolled. (Note that students are not obligated to enroll and earn course credit during summer terms, but summer enrollment may be used to maintain continuous enrollment status.) These students must meet requirements of the Arizona community college or public university catalog in effect at the time they are readmitted or of any single catalog in effect during subsequent terms of continuous enrollment after readmission. See examples C and D in the continuous enrollment table below.
3. Students admitted or readmitted to an Arizona community college or public university during a summer term must follow the requirements of the catalog in effect the following fall semester or of any single catalog in effect during subsequent terms of continuous enrollment. See example E in the continuous enrollment table below.
4. In areas of study in which the subject matter changes rapidly, material in courses taken long before graduation may become obsolete or irrelevant.
5. Coursework that is more than eight years old is applicable to completion of degree requirements at the discretion of the student's major department. Departments may accept such coursework, reject it or request that the student revalidate its substance. The eight-year limit on coursework applies except when program accreditation agencies limit the life of coursework to fewer than eight years. Departments may also require students to satisfy current major requirements rather than major requirements in earlier catalogs when completing earlier requirements is no longer possible or educationally sound.
6. Enrollment by Arizona community college students in nontransferable courses still constitutes enrollment for purposes of determining whether the student has been continuously enrolled. For example, if a student takes two semesters of cooperative education classes that are not transferable to the university but constitute continuous enrollment at the community college, the university should consider it continuous enrollment.
7. Exceptions made by an institution apply only to the institution that made the exception. For example, if the community college departments accepted credit that was more than eight years old, the university department to which the student transfers might not; it has the right and the obligation to reevaluate any credit more than eight years old.

Inquiries about these guidelines may be directed to the student's academic advisor.

Continuous Enrollment

Student's Activity	Semester/Year	Status
--------------------	---------------	--------

Example A

Admitted and earned course credit at an Arizona community college	Fall 2001	Active
Continued at an Arizona community college	Spring 2002 Fall 2002	Active
Transferred to an Arizona university	Spring 2003	Student enrolled under 2001–2002 or any subsequent catalog

Example B

Admitted and earned course credit at an Arizona community college	Fall 2003	Active
Enrolled but earned all “W”s or “E”s (0.00)	Spring 2004	Inactive
Enrolled in audit courses only	Fall 2004	Inactive
Nonattendance	Spring 2005	Inactive
Transferred to an Arizona university	Fall 2005	Student enrolled under 2005–2006 or any subsequent catalog

Example C

Admitted and earned course credit at an Arizona community college	Fall 1999	Active
Nonattendance	Spring 2000 Fall 2000 Spring 2001	Inactive

Readmitted and earned course credit at an Arizona community college	Fall 2001	Active
---	-----------	--------

Transferred to an Arizona university	Spring 2002	Student enrolled under 2001–2002 or any subsequent catalog
--------------------------------------	-------------	--

Example D

Admitted and earned course credit at an Arizona community college	Fall 2000	Active
---	-----------	--------

Nonattendance	Spring 2001	Inactive
---------------	-------------	----------

Readmitted and earned course credit at an Arizona community college	Summer 2001	Active
---	-------------	--------

Nonattendance	Fall 2001 Spring 2002	Inactive
---------------	--------------------------	----------

Transferred to an Arizona university	Fall 2002	Student enrolled under 2000–2001 or any subsequent catalog
--------------------------------------	-----------	--

Example E

Admitted and earned course credit at an Arizona community college	Summer 2004	Active
---	-------------	--------

Continued at an Arizona community college	Fall 2004 Spring 2005	Active
---	--------------------------	--------

Nonattendance	Fall 2005	Inactive
---------------	-----------	----------

Readmitted and earned course credit at an Arizona community college	Spring 2006	Active
---	-------------	--------

Transferred to an Arizona university	Summer 2006	Student enrolled under 2004–2005 or any subsequent catalog
--------------------------------------	-------------	--

Example F

Admitted and earned course credit at an Arizona university	Summer 2004	Active
Nonattendance	Fall 2004	Inactive
Nonattendance	Spring 2004	Inactive
Readmitted and earned course credit at an Arizona university	Fall 2005	Active
Continued at an Arizona community college	Spring 2006	Student enrolled under 2004–2005 or any subsequent catalog

Application for Graduation

For information on how to apply for graduation and deadline dates, visit <https://students.asu.edu/graduation> [5].

Petition for Variance from Degree

Any student wishing to have a college or university degree requirement variance must petition the standards committee of the college in which the student is enrolled. All petitions must originate with the student's advisor.

The University Undergraduate Standards Committee advises the Office of the University Provost regarding undergraduate student petitions that concern university-wide academic requirements. These requirements include but are not limited to requirements on the amount of transfer credit, graduation requirements, limits on credit by examination and requirements for a second baccalaureate degree. To petition for a variance from such university requirements, the University Undergraduate Standards Committee petition is used. Most petitions heard by the University Undergraduate Standards Committee start at the college level and are forwarded for final review and decision to the university-level committee.

Overview of Graduation Requirements

At ASU, students take classes that fulfill four types of requirements. As illustrated in the graduation requirements diagram below, some courses can fulfill two or more types of requirements but other courses fulfill only one requirement. The total credit hours needed to graduate are represented by the largest circle. The university minimum is 120 credit hours. Some majors, however, require more than 120 credit hours.

Although the three shaded circles in the illustration below are equal in size and the white circle is larger than all three, the total number of credit hours for each type of requirement may vary.

Figure 4 Circle diagram of overlaps of college, university and major requirements for graduation

University Requirements

The yellow circle represents university requirements. The General Studies requirement and first-year composition requirement are among these requirements.

College Requirements

The gray circle represents college requirements. Some colleges and schools such as the College of Liberal Arts and Science have additional requirements.

Major

The red circle represents the requirements of the major. The credit hours required for a major may be as low as 30 hours or as high as 65 hours.

Electives/Minor/Certificate

The white circle represents electives and the requirements of a minor or certificate. A minor typically adds an additional 18 to 25 credit hours of course work. Although every student must eventually declare a major, minor and certificates are not required. Some courses, while providing credit hours toward graduation, fall outside the shaded circles and are not required in a program for graduation. These courses are electives. Some majors leave no room for electives within the minimum 120 credit hours required to graduate.

Other Requirements

The separate units of ASU — such as colleges, schools and departments — have specific requirements for graduation that must be satisfied for a baccalaureate degree. Students are encouraged to consult with an academic advisor in planning a program to ensure it meets the various requirements. A well-planned program may enable a student to concurrently satisfy a portion of the General Studies requirement together with a portion of a college or major requirement.

Graduation with Academic Recognition

An undergraduate student must have completed at least 56 credit hours of resident credit at ASU to qualify for graduation with academic recognition for a baccalaureate degree. Note: West campus students following a catalog year prior to fall 2007 are required to have completed at least 50 credit hours of resident credit at ASU.

The cumulative GPA determines the designation, as shown in the academic recognition table below.

Academic Recognition

Cumulative GPA	Designation
3.40–3.59	cum laude
3.60–3.79	magna cum laude
3.80–4.00	summa cum laude

The cumulative GPA for these designations is based on ASU resident coursework only. For example, ASU independent learning course grades are not calculated in the honors GPA. All designations of graduation with academic recognition are indicated on the diploma and the ASU transcript. Graduation with academic recognition applies only to undergraduate degrees.

A student who has a baccalaureate degree from ASU and is pursuing a second baccalaureate degree at ASU (with a minimum of 30 hours of resident credit) is granted academic recognition on the second degree based on the credit hours earned subsequent to the posting of the first degree. If fewer than 56 credit hours are completed at ASU subsequent to completion of the first ASU degree, the level of academic recognition can be no higher than that obtained on the first degree. If 56 or more credit hours are completed at ASU after completion of the first ASU degree, the level of academic recognition is based on the GPA earned for the second ASU degree. Inquiries about graduation with academic recognition may be directed to the graduation office at 480-965-3256.

Additional Degrees

Second Baccalaureate Degree

The student seeking a second baccalaureate degree must meet admission criteria for that degree. After conferral of the first degree, a minimum of 30 credit hours in resident credit courses at ASU must be successfully completed to earn the second baccalaureate degree. The student must meet all degree and university requirements of the second degree.

Students who wish to use courses taken while in graduate nondegree status towards a second bachelor's degree may have up to 15 credit hours applied towards this degree.

Concurrent Degrees

More than one baccalaureate degree may be pursued concurrently if prior approval is given by the standards committees of the colleges offering the degrees. Students may receive concurrent degrees if they meet the minimum requirements for both degrees. For additional information, please see the glossary description found here [6].

eAdvisor and critical requirements

eAdvisor ensures that students get off to a good start and stay on track toward graduation by helping them find a major that fits their talents and career goals and then monitors progress. Students use eAdvisor to:

1. learn more about graduation requirements for their major
2. discern the critical courses and grades that are required to stay on track to successfully complete their degree
3. plan for and schedule appropriate courses in the correct sequence to maximize success
4. monitor progress toward their degree
5. find out how courses may fit into other majors if they decide to change majors

Through eAdvisor, students follow a major map that outlines the critical requirements and optimal eight-semester plan. If students do not meet the critical requirements, an advising hold may be placed on the students' records, and an advising session is required before future registration activities can take place. When students do not meet the critical requirements for two consecutive semesters, they are considered off track and may be advised to change majors.

Math Intensive Programs: Required Course Policy

ASU undergraduate degree programs are categorized in the area of math intensity as either general, moderate or substantial based on the number and type of required math courses. Students enrolled in a degree program categorized as substantial in math intensity who receive a failing grade of "E" twice in the same required math course may be required to change their major to a major categorized as general or moderate. This policy is applicable even if the required math course is not marked as critical through the eAdvisor Tracking Tool.

Introduction

The Graduate College office admits students into programs leading to both professional and research-oriented advanced degrees and certificates beyond the bachelor's degree. The master's and doctoral degrees are awarded to students completing programs that culminate in research and creative endeavors. The PhD degree is the highest university award, conferred on candidates who have proven their ability as scholars and original researchers.

Academic Integrity

The highest standards of [academic integrity](#) and compliance with the university's [Student Code of Conduct](#) are expected of all graduate students in academic coursework and research activities. The failure of any graduate student to uphold these standards may result in serious consequences including suspension or expulsion from the university and/or other sanctions as specified in the academic integrity policies of individual colleges as well as the university.

Violations of academic integrity include, but are not limited to: cheating, fabrication of data, tampering, plagiarism, or aiding and/or facilitating such activities. At the graduate level, it is expected that students are familiar with these issues and that each student assumes personal responsibility in their work.

Graduate Student Responsibilities

Graduate students are responsible for familiarizing themselves with all university and graduate policies and procedures. Each student should also communicate directly with his/her academic unit to be clear on its expectations for degree completion.

Information is provided to students via [MyASU](#). Students should frequently check their MyASU account for the most up-to-date information regarding their status, holds, items to attend to and other important information.

It is very important that students check with their thesis/dissertation advisor well in advance of data collection to ensure compliance with university regulations regarding the collection of research data. Please see the section of this guide titled "Research Involving Human and Animal Subjects."

Application

Submission of an Application

For admission information and procedures, see students.asu.edu/graduate. Applications for all graduate degree programs, certificate programs, and/or non-degree must be submitted via the students.asu.edu/graduate/apply.

Prior to submitting an application to the Graduate College office, applicants should review information regarding the [degree program](#), and academic unit application requirements and deadlines. Students who have a Graduate College approved *Request to Maintain Continuous Enrollment* on file with the Graduate College office prior to their semester of non-registration and are re-entering the same degree program for the semester immediately following the approved Request, are not required to submit a new application.

Application Deadlines

Application deadlines are set by the degree programs. Consult the program's website or the [Graduate Degree and Certificate Search](#) tool for specific application deadlines.

Graduate Admission Services may differ from those of the academic unit. To accommodate timely processing, international applicants for fall enrollment must submit application materials by the previous December. Not all academic units accept applications for both the fall and spring semesters; however, if the academic unit allows for spring applications, international applicants must submit materials for spring enrollment by the previous August.

*Please note that international students must apply to Sessions A or C only (Session B is not available to international students due to visa requirements).

Application Fee

Each application to an ASU graduate program must be accompanied by a non-refundable application fee, payable by credit card at the time of submission. The application fee covers Graduate College administrative costs of processing all applications and is not refundable under any circumstance.

- ⤴ Domestic application fee: \$70;
- ⤴ International application fee \$90.

In addition to the normal application fee, a \$50 non-refundable late processing fee will be assessed for all applications submitted on or after the dates indicated previously.

Applicants receive an email acknowledgement once the application has been successfully submitted. The acknowledgement includes an ASURITE ID and activation code so that students may follow the progress of their application through MyASU. Applicants should review [MyASU](#) to monitor their application status, “To Do” items and “Holds”.

Application Requirements

Applicants must submit official transcripts from all post-secondary institutions previously attended to the Graduate College office (see students.asu.edu/graduate/standards). **Academic units may have admission requirements in addition to those of the Graduate Admission Services.** Many graduate programs require scores from a national admissions test such as the Graduate Record Examination (GRE), Graduate Management Admission Test (GMAT), or the Miller Analogies Test. Some programs require a portfolio, letters of recommendation, a statement of goals and/or a resume. Applicants should consult the academic unit regarding program admission requirements prior to submitting an online application.

All documents received by Graduate Admission Services in connection with an application become property of the ASU Graduate College office and will not be returned.

Academic Credentials

Applicants who attended school in the United States must hold a bachelor’s degree or higher from a regionally accredited U.S. institution in order to be eligible for admission. Applicants are required to provide proof that a bachelor’s or graduate degree was awarded before completion of their first semester of graduate studies at ASU.

Applicants who attended school outside of the U.S. must hold a bachelor’s or graduate degree, or equivalent, from an institution that is officially recognized by that country. If original credentials are issued in a language other than English, applicants must provide the original language transcripts as well as an official and literal translation. Applicants are required to provide proof that a bachelor’s or graduate degree was awarded before completion of their first semester of graduate studies at ASU.

Photocopied documents certified by a notary public are not official. For more information regarding official academic credentials see students.asu.edu/graduate. For additional information regarding official international academic credentials see students.asu.edu/graduate/apply.

Applicants must have maintained a minimum grade point average of 3.0 (on a 4.0 scale) in the last 60 semester hours or 90 quarter hours of undergraduate coursework.

Applicants should contact the degree program for specific additional requirements. Degree programs will submit a recommendation to the Dean for Graduate College regarding their willingness to admit an applicant.

Because ASU receives applications from many highly qualified students, some applicants may be denied admission for reasons not related to their academic performance. Examples include, but are not limited to: program capacity, mentor availability, and/or program match.

Additional International Requirements

International Applicants

Please consult the Graduate Admission Services websites at students.asu.edu/graduate, and students.asu.edu/international/immigration for complete information.

Applicants who will hold an F-1 or J-1 visa must:

1. Meet the regulations of the U.S. Immigration and Customs Enforcement (ICE) agency.
2. Obtain insurance coverage against illness and accident before being permitted to register for classes. Insurance must be maintained throughout the student's enrollment at the university.
3. Submit proof of [English proficiency](#).
4. Submit additional materials as outlined on the Graduate Admission Services website at students.asu.edu/graduate/apply.
5. Verify that they have the financial resources to cover their expenses during graduate study at ASU. The *Financial Guarantee* form is available through the Graduate Education website at students.asu.edu/graduate. In addition to the *Financial Guarantee* form, if ASU is providing an assistantship, an official offer letter must be sent to the Graduate College office. Similarly, if a governmental entity is funding the student, an official letter from the government must be submitted to the Graduate College in addition to the *Financial Guarantee* form.

The I-20 or the DS-2019 (documents needed to obtain a student visa) is issued only after the completed and properly verified **Financial Guarantee** form, proof of [English proficiency](#) and supporting documents have been received by the office of Graduate Admission Services. International students may enroll at ASU only if they have been admitted to a degree program, a certificate program, or the post-baccalaureate teacher education program. ***Immediately upon arrival on campus, students must report to an advisor in the International Student and Scholars Center (ISSC). Failure to report may result in loss of status or deportation.***

Applicants residing in the U.S. on a valid visa must provide proof of a current visa. Enlarge image and fax the copy to 480-965-5158.

English Language Requirement

Applicants from a country whose **native** language is not English (regardless of where they may now reside) must provide proof of English proficiency. The English language requirement cannot be waived. Acceptable proof is as follows:

- ✧ **TOEFL** score of at least 550 (PBT) or 80 (iBT). The TOEFL is administered by TOEFL/TSE Services. ASU's institutional code is 4007. ASU accepts only electronic copies of the TOEFL score report.
- ✧ **IELTS** overall band score of at least 6.5 with no band below 6.0. The IELTS is administered by the University of Cambridge. No institutional code is needed.
- ✧ **Pearson** Test of English (PTE) score of at least 60. The PTE is administered by Pearson.

Individual academic units may have higher requirements for English proficiency. Consult the academic unit's website. English proficiency is only valid for two years and must be taken within two years from the beginning of the semester for which the student applied.

Some applicants are exempt from the English proficiency requirement. The following exceptions must be met exactly to be considered for an exemption:

- ✧ Applicants who have earned a bachelor's degree or higher in residence from a regionally accredited college/university in the United States.
- ✧ Applicants who have completed at least 12 semester hours of graduate coursework with a cumulative GPA of 3.0 (on a 4.0 scale) or higher in residence at a regionally accredited college/university in the United States.
- ✧ Applicants who have completed at least 90 semester hours of undergraduate coursework with a cumulative GPA of 3.0 (on a 4.0 scale) or higher in residence at a regionally accredited college/university in the United States.
- ✧ Applicants who have completed the American English and Culture Program (AECF) Advanced Level II with grades of "B" or better along with the recommendation of the Director of AECF.

All international applicants who are from a country whose native language is not English and who wish to apply for teaching assistantships must pass an examination that certifies their skill in speaking English—either the Interview Test, or the Speaking Proficiency English Assessment Kit (SPEAK) test. Tests are administered at ASU; additional information may be found at global.asu.edu/aecp/ita.

Post-Baccalaureate Non-Degree Programs

Applicants who do not immediately intend to pursue a graduate degree may apply as a post-baccalaureate students.asu.edu/graduate/nondegree. The application process does not require the submission of academic credentials or test scores.

Non-degree applicants must have earned a bachelor's degree or higher from a U.S. regionally accredited institution or the equivalent of a U.S. bachelor's or graduate degree from an international institution that is officially recognized by that country.

There is no limit to the total cumulative credit hours a student can take as a non-degree student. However, to apply the credit hours toward an ASU master's or doctoral degree, students are limited to twelve credit hours taken within three years of admission prior to admission to the degree program.

Non-degree study may be restricted by certain academic units. Contact the degree program for restriction information.

Financial aid is not available to non-degree students.

Non-degree study is typically not available to international students on F-1 or J-1 visas. For exceptions, prior to applying, you must obtain written approval from your Designated School Official (DSO) granting permission for you to take classes.

After Applying

After an application has been successfully submitted, applicants receive an email acknowledgement that includes an ASURITE ID and activation code. Applicants should review [MyASU](#) to check on the application status, “To Do” items and “Holds”.

Admission

A minimum grade point average of 3.0 (on a 4.0 scale) in the last 60 semester hours or 90 quarter hours of undergraduate coursework is required to be considered for admission to an ASU graduate degree program.

Academic units submit recommendations regarding admission decisions to the office for Graduate Admission Services; only the Dean for Graduate College can make formal offers of admission.

Applicants monitor the status of their application through MyASU. If admitted, the formal letter of admission can be downloaded from MyASU. If denied admission, letters are sent via email to the address on record.

Admission Types

- ✧ Regular Admission: Applicant satisfies all requirements for admission and is academically acceptable to both the degree program and the Graduate College office.
- ✧ Provisional Admission: Applicant does not meet minimum academic standards with respect to grade point averages as required by Graduate College and the academic unit, but has additional evidence to suggest the potential for success. This status provides the academic unit with an opportunity to better evaluate the student’s academic potential. Students have a maximum of one academic year to satisfy the provisional condition. **Graduate Admission Services will withdraw students from the degree program who have not met the provisions of their admission within the required timeframe.** When students have satisfied the provisional requirements, they should confirm with the academic unit that a change of status has been recommended. Students with Provisional Admission are not eligible to submit a *Plan of Study* until the conditions of admission have been satisfied.
- ✧ Regular Admission with Deficiencies: Applicant’s grades and test scores are at an acceptable level but applicant does not have the academic background expected by the degree program and the university. Required deficiency courses may not be applied toward the minimum hours required for the degree program. Monitoring deficiency completion is the responsibility of the academic unit.

Defer Admission

Students may, with the recommendation of the degree program, defer their initial semester and year of admission to the next semester for which the degree program is admitting students. No further deferrals are allowed.

International Student Admission

International students planning to attend ASU on an F-1 student visa or a J-1 exchange visitor visa must provide documentation required by the United States Citizenship and Immigration Services. Visa documents are only issued for international students enrolled in a degree program or the post baccalaureate teacher education program. There are strict regulations regarding when an I-20 or DS-2019 can be issued. Detailed information may be found at: students.asu.edu/international/immigration.

Registration and Enrollment

All students are required to have proof of measles immunizations on file with [Student Health](#) prior to registration.

Graduate students register through MyASU according to their enrollment appointment. Details regarding registration and course drop/add procedures are provided in the [Registration and Tuition Payment Guide](#).

Enrollment Verification Guidelines

The University's Registrar's Office will verify student enrollment each semester according to the general guidelines that follow.

Enrollment Verification Guidelines for Graduate Students

	Full Time*	Half Time	Less Than Half Time
Regular Semester			
Graduate	9 or more hours	5-8 hours	4 or fewer hours
Graduate Assistant**	6 or more hours	--	--
Six-Week Summer Sessions			
Graduate	3 or more hours	2 hours	1 hour
Graduate Assistant**	2 or more hours	1 hour	--
Eight-Week Summer Session			
Graduate	5 or more hours	3-4 hours	2 or fewer hours

*Audited courses do not count toward full-time enrollment

For enrollment verification purposes, "Graduate Assistant" is a generic term that includes Teaching Assistants, Research Assistants, Teaching Associates and Research Associates. **Academic units may have specific requirements regarding registration requirements for Graduate Assistants; students should consult with their degree program unit.

International F-1 and J-1 students are required to maintain full-time enrollment status. Any exception to full-time enrollment must be previously approved by the [International Student and Scholars Center \(ISSC\)](#).

Maximum Course Load

The office for Graduate Admission Services does not have a maximum credit hour enrollment policy. It is expected that academic units will set course loads for their students that facilitate academic success.

Continuous Enrollment

Once admitted to a graduate degree program or graduate certificate program, students must be registered for a minimum of one credit hour during all phases of their graduate education, including the term in which they graduate. This includes periods when students are engaged in research, conducting a doctoral prospectus, working on or defending theses or dissertations, taking comprehensive examinations, taking Graduate Foreign Language Examinations, or in any other way utilizing university resources, facilities or faculty time.

Registration for every fall semester and spring semester is required. Summer registration is required for students taking examinations, completing culminating experiences, conducting a doctoral prospectus, defending theses or dissertations, or graduating from the degree program.

To maintain continuous enrollment, the credit hour(s) must:

- ✧ Appear on the student's *Plan of Study*, OR
- ✧ Be research (592, 792), thesis (599), dissertation (799), or continuing registration (595, 695, 795), OR
- ✧ Be a graduate-level course.

Grades of "W" and/or "X" are not considered valid registration for continuous enrollment purposes. "W" grades are received when students officially withdraw from a course after the drop/add period. "X" grades are received for audit courses. Additionally, students completing work for a course in which they received a grade of "I" must maintain continuous enrollment as defined previously. Graduate students have one year to complete work for an incomplete grade; if the work is not complete and the grade changed within one year, the "I" grade becomes permanent. Additional information regarding incomplete grades can be found at asu.edu/aad/manuals/ssm/ssm203-09.html.

Graduate Assistantships

All Graduate Teaching Assistants and Associates (TAs), and Graduate Research Assistants and Associates (RAs) must register for a minimum of six semester hours of appropriate credit during each academic term of their appointment. The six hours cannot include audit enrollment. **Academic units may have specific requirements regarding Graduate Assistants; students should consult with their degree program unit.**

TAs and RAs are treated as residents for tuition purposes. To be eligible for tuition remission, TAs and RAs must be employed a minimum of 10 hours per week (25 percent Full Time Equivalency {FTE}). TAs/RAs working 10-19 hours per week (25-49 percent FTE) receive a 50 percent remission of tuition for the semester or summer session of their employment. TAs/RAs working 20 hours per week (50 percent FTE) do not pay tuition during the semester or summer session of their employment. In addition, the university pays the individual health insurance premium for those TAs and RAs working 20 hours per week (50 percent FTE).

Due to federal regulations, international students on F-1 and J-1 visas are allowed to work a maximum of 20 hours per week while school is in session (fall and spring semesters). International students are allowed to work 40 hours per week during summer sessions. International students typically are not allowed to seek employment outside the university; students must consult with the International Student and Scholars Center (ISSC).

Detailed information and application procedures regarding Graduate Assistantships can be found at graduate.asu.edu/financing/tara.

Request to Maintain Continuous Enrollment

Graduate students planning to discontinue registration for a semester or more must submit a [*Request to Maintain Continuous Enrollment form*](#). This request must be submitted and approved before the anticipated semester of non-registration. Students may request to maintain continuous enrollment without course registration for a maximum of two semesters during their entire program.

Having an approved *Request to Maintain Continuous Enrollment* by the Graduate College will enable students to re-enter their program without re-applying to the university. Students who do not register for a fall or spring semester without an approved Request are considered withdrawn from the university under the assumption that they have decided to discontinue their program. Students removed for this reason may reapply for admission to resume their degree program; the application will be considered along with all other new applications to the degree program.

A student with a Graduate College approved *Request to Maintain Continuous Enrollment* is not required to pay tuition and/or fees, but in turn is not permitted to place any demands on university faculty or use any university resources. These resources include university libraries, laboratories, recreation facilities or faculty time.

Voluntary Withdrawal from ASU

If a student wishes to withdraw from his/her graduate degree program and the university, they must complete the [Voluntary Withdrawal form](#). Students must separately complete the appropriate forms with the University Registrar to withdraw from their courses. International students should contact the [International Student and Scholars Center \(ISSC\)](#) before submitting a *Voluntary Withdrawal* form, as it most likely will affect their visa status.

Voluntary Withdrawal from a Graduate Degree Program

If a student wishes to transition from one graduate degree program to another graduate degree program, the student should complete the [Voluntary Withdrawal form](#). The student should not take this action until they have been admitted to the other graduate degree program.

Other Types of Withdrawal

There are appropriate circumstances when students may need to withdraw from the university (i.e. medical withdrawal, compassionate leave). The policies for such withdrawals are the same for both undergraduate and graduate students. Types of withdrawals and procedures can be found at: students.asu.edu/drop-add. For course withdrawals contact the University Registrar's Office.

Involuntary Withdrawal by the Graduate College office

Any student who does not comply with Graduate College policies may be withdrawn from their graduate program after review by the Dean for Graduate College.

In addition, an academic unit may recommend withdrawal of a student from a graduate program for lack of compliance with published departmental policies or lack of satisfactory academic progress. All such recommendations must be submitted to the Graduate Education office with appropriate documentation (e.g., nature of issue, communications with student). Only the Dean of the Graduate College may withdraw a student from a graduate program due to lack of compliance with satisfactory academic progress policies.

A student who has been withdrawn from a graduate program due to lack of compliance with published departmental or Graduate College policies, or lack of satisfactory academic progress is eligible to apply for admission to the same program only after one year has passed from the term of the withdrawal.

Grade Point Averages

Graduate students must maintain a minimum 3.00 grade point average (GPA) to maintain satisfactory academic progress and to graduate. The minimum 3.00 GPA must be maintained on all GPA's (Plan of Study (iPOS) GPA, Overall Graduate GPA, and Cumulative GPA).

- ✦ The iPOS GPA is calculated on all courses that appear on the student's approved iPOS.
- ✦ The Cumulative ASU GPA represents all courses completed at ASU during the graduate career.
- ✦ The Overall Graduate GPA is calculated on all courses numbered 500 or higher that appear on the transcript, with the exception of:
 - Courses counted toward an undergraduate degree at ASU (unless shared with a master's degree in an approved bachelor's/master's degree program);
 - Courses identified as deficiencies in the original letter of admission.

Transfer credits and some courses taken in the Sandra Day O'Connor College of Law are not calculated on the iPOS GPA or the Graduate GPA.

Courses with grades of "D" (1.00) and "E" (0.00) cannot appear on the iPOS but will be included when calculating the Graduate GPA. Courses with an "I" grade cannot appear on the iPOS.

Satisfactory Academic Progress

GPA (Grade Point Average) Graduate students must maintain a minimum 3.00 grade point average (GPA) to maintain satisfactory academic progress and to graduate. The minimum 3.00 GPA must be maintained on all GPA's (Plan of Study (iPOS) GPA, Overall Graduate GPA and Cumulative GPA)

1. The iPOS GPA is calculated on all courses that appear on the student's approved iPOS (with the exception of LAW and Transfer credits)
2. Cumulative ASU GPA represents all courses completed at ASU during the graduate career.
3. The Overall Graduate GPA is based on all courses numbered 500 or higher that appear on the transcript after admission to a graduate program or graduate non-degree. This includes shared coursework if in an approved accelerated bachelor's/master's program.

Courses with grades of "D" (1.00) and "E" (0.00) cannot appear on the iPOS but will be included when calculating the Graduate GPA. Courses with an "I" grade cannot appear on the iPOS.

All graduate students are expected to make systematic progress toward completion of their degree. This progress includes satisfying the conditions listed below, and achieving the benchmarks and requirements set by the individual degree programs as well as the Graduate College. If a student fails to satisfy the requirements of their degree program and/or the benchmarks outlined below, the student may be dismissed from their program based on the academic unit's recommendation to Graduate Education at which time the Dean for the Graduate College makes the final determination.

These as well as all other Graduate College policies can be found in the [ASU Graduate Policies and Procedures](#):

1. Maintain a minimum 3.0 for all GPA's.
2. Satisfy all requirements of the graduate degree program.

3. Satisfy the maximum time limit for graduation from the student's graduate degree program (six years for masters, ten years or five years from comprehensive exams (whichever comes first); for doctoral, see "Time to Degree" section.
4. Successfully pass comprehensive exams, qualifying exams, foreign language exams, and the oral defense of the proposal/prospectus for the thesis or dissertation.
5. Successfully complete the culminating experience.
6. Graduate students must **remain continuously enrolled** in their degree program. Failing to do so without a Graduate College approved request to [Maintain Continuous Enrollment](#) is considered to be lack of academic progress.

Graduate Degree Requirements

Determination of Academic Requirements

Students graduate under the degree requirements and policies in effect at the semester and year of admission to a graduate degree program. Students that fail to maintain continuous enrollment and are re-admitted to the degree program, graduate under the degree requirements and policies in effect at the time of the new admission date.

A minimum of 30 credit hours of graduate-level coursework including a culminating experience is required for a master's degree, although individual programs may have higher requirements. The culminating experience may be a comprehensive examination, a capstone course, an applied project, a portfolio, a thesis or equivalent.

Students that have a capstone course requirement must receive a grade of "B" or better. If a student fails to achieve a capstone final grade of "B" or better, they must retake the course.

A minimum of 84 credit hours of graduate-level coursework and a written comprehensive examination are required for a doctoral degree, although individual programs may have higher requirements. Additionally, the Foreign Language Examination, oral comprehensive examination and/or dissertation or equivalent may be required. A written comprehensive examination and prospectus (research proposal) is required for all programs requiring a dissertation.

The Plan of Study (iPOS)

The Plan of Study (iPOS) functions as a contract between the student, the academic unit, and the Graduate College office. The iPOS contains certain degree requirements such as coursework, a committee and a culminating experience which must be included before it can be approved. The academic unit's graduate support staff should be the primary contact regarding iPOS and degree requirements. The iPOS must be approved by a student's committee, the head of the academic unit, and the Dean of the Graduate College.

To facilitate degree completion and shorten time to degree, graduate students with regular status must submit their iPOS by the time they have enrolled for 50 percent of the minimum credit hours required for their degree program.

Coursework

Graduate-level courses are those numbered 500 or higher. All core courses required by a graduate program must be at least 500-level. A maximum of 6 credit hours of 400-level coursework can be included on an iPOS. 400-level courses taken prior to admission and 400-level courses graded as "Pass/Fail" are not acceptable.

Courses with grades of “D”, “E”, or “W” and audited courses (graded as “X”) cannot be included on an iPOS. **Courses applied to a previously awarded degree cannot be included on an iPOS.**

Any course with a grade of Incomplete (“I”) must be completed within one calendar year of the end of the scheduled course. If a regular grade is not assigned within the calendar year, the “I” becomes permanent. The student will have to re-register for the course to receive credit. Additional information regarding incomplete grades may be found at asu.edu/aad/manuals/ssm/ssm203-09.html.

Graduate students may register to audit one or more courses with the approval of the supervisory committee chair and the consent of the instructor involved. An audited course does not count toward the minimum number of credits required for international students with visa restrictions, students employed as TA/RAs, or students receiving financial assistance. Courses taken for audit do not satisfy the Graduate College continuous enrollment policy. Undergraduate courses not included on the iPOS do not satisfy the Graduate College continuous enrollment policy.

Master’s degree students whose culminating experience is a thesis must include 6 (and only 6) credit hours of 599 Thesis credits on the iPOS. Doctoral students whose culminating experience is a dissertation must include 12 (and only 12) credit hours of 799 Dissertation credits on the iPOS. Thesis and Dissertation credit hours may only receive grades of “Z” (research is in progress), or “Y” (research is satisfactorily complete). Doctoral students may apply 30 credit hours of appropriate coursework from a previously awarded master’s degree toward their doctoral plan of study.

Petitions

A formal request for an exception to any Graduate College policy requires a petition to be completed by the student, and approved by the committee chair and the head of the academic unit. The Graduate College office will review the petition and make a final determination.

ASU Pre-Admission Credit

Pre-Admission Credits

Credit hours completed at ASU or from another regionally accredited US institution or international institution officially recognized by that country, before the semester and year of admission to an ASU graduate degree program, are considered pre-admission credits. With the approval of the degree program and the Graduate College office, students may include a maximum of 12 graduate-level credit hours with grades of “B” or better that were not used towards a previous degree. Preadmission credits must have been taken within three years of admission to the ASU degree program to be accepted.

Accelerated Bachelor’s/Master’s programs may use a maximum of 12 pre-admission credits which may include up to a maximum of 12 hours shared between the Bachelor’s and Master’s program. Students in accelerated programs should contact their advisor to ensure proper sharing of credit hours.

Official transcripts must be sent to Graduate Admission Services from the records office of the institution where the credits were earned.

Certain types of graduate credits cannot be transferred to ASU, including credits awarded:

- ✧ By post-secondary institutions that lack candidate status or accreditation by a regional accrediting association, or an equivalent international institution.
- ✧ For life experience.

- ✧ For courses taken at non-collegiate institutions (e.g., government agencies, corporations, and industrial firms).
- ✧ For courses, workshops, and seminars offered by other postsecondary institutions as part of continuing education programs.
- ✧ For extension courses.

Academic credits earned at institutions other than ASU that base their credit calculation on a different scale from ASU's are subject to conversion before inclusion on a *Plan of Study*. In all cases, the inclusion of transfer courses on a *Plan of Study* is subject to approval by the degree program and the Dean of the Graduate College.

Graduate Credits Earned by ASU Undergraduate Students

Pre-admission credit hours earned in graduate-level courses (per Graduate Education policy) by ASU undergraduate students may count toward a graduate degree at ASU provided the credit hours have not been used toward a previously awarded degree. Prior to awarding a bachelor's degree, ASU undergraduate students should contact their undergraduate advisor to set aside graduate courses for use toward a future graduate degree so that these courses do not count toward their undergraduate degree.

ASU students enrolled in an approved Bachelor's/Master's degree program (commonly referred to as 4+1), may share ASU credit hours. Students must contact their ASU undergraduate advisor and graduate support staff to ensure proper sharing of credit hours. Students must successfully complete the undergraduate degree and be admitted to the respective graduate program prior to completing 12 credits of graduate coursework.

An undergraduate degree and a graduate degree may not be awarded during the same term of enrollment. Students must apply, be admitted and registered as a graduate student to earn a master's or doctoral degree at ASU.

Sandra Day O'Connor College of Law Credit

The Graduate Education office accepts a numerical grade of 70 or above for courses taken in the ASU Sandra Day O'Connor College of Law as part of an approved *Plan of Study*. These grades are not used in the two GPAs calculated for graduation unless needed, as determined by the Graduate College. The Sandra Day O'Connor College of Law also utilizes a letter grade system for coursework; letter grades are submitted as part of an approved *Plan of Study* and are calculated in the GPAs.

Repeating ASU Courses

Graduate students (degree or non-degree) may retake any course at ASU; however, all grades are part of the student's permanent academic record and remain on the student transcript as well as in all GPA calculations.

Graduate Foreign Language Examination (FLE)

A graduate degree program may require at least a reading level proficiency of a foreign language relevant to the student's area of study. Students who are required to demonstrate proficiency in a foreign language must pass the [Graduate Foreign Language Examination](#) specific to their particular graduate program. Students must be enrolled for a minimum of one credit hour during the term in which they take the examination.

Students must successfully complete the Foreign Language Examination before taking any required comprehensive examinations or scheduling the final oral defense of the thesis or dissertation. A student may submit a petition to the Graduate Education office for a re-examination but must pass the examination in no more than three attempts.

Master's Degree Plan of Study (iPOS)

Students must submit an iPOS before completing 50 percent of the credit hours required for their degree program. A student is not eligible to schedule a comprehensive examination or defense without an approved iPOS.

Master's Degree Minimum Credit Hours

A minimum of 30 semester hours of graduate work is required for the master's degree at ASU. If a thesis is required, 6 (and only 6) of the minimum required credit hours on an iPOS must be 599 Thesis credits. *Plans of Study* submitted for master's degrees that do not have a thesis requirement cannot include 599 Thesis credits. If an applied project is required, the Applied Project course (XXX 593) must be included on the *Plan of Study* and requires a grade of "B" or better.

Master's Degree Maximum Time Limit

All work toward a master's degree must be completed within six consecutive years. The six years begins with the semester and year of admission to the program. Graduate courses taken prior to admission that are included on the *Plan of Study* must have been completed within three years of the semester and year of admission to the program.

Master's Degree Supervisory Committee

A master's supervisory committee must be appointed before the student may apply for the comprehensive examination or before the student can register for 599 Thesis credits (if applicable). The committee is appointed by the Dean of the Graduate College upon the recommendation of the head of the academic unit. For programs requiring a thesis or written examination, the supervisory committee is comprised of a minimum of three members, including a chair or co-chairs.

Tenured/tenure-track faculty may serve as members of a master's graduate supervisory committee, chair or co-chair. The chair of the committee is typically from the student's degree program and should be carefully selected by the student to guide their work. ASU academic professionals or non-tenure accruing faculty with appropriate academic credentials may serve as a member or co-chair on master's committees; they may not serve as chair of a master's supervisory committee.

Master's Thesis/Thesis Defense

Students must be in good academic standing regarding GPA requirements (see previous section titled "Satisfactory Academic Progress" (pg. 11)) prior to scheduling a defense.

To satisfy the research requirement for master's degrees, a student is expected to present a thesis that is defended in an oral examination. Degree programs may have requirements in addition to the thesis (e.g. comprehensive examinations). Students should check with their degree program to confirm requirements. An oral defense of the thesis is required and must be completed to the satisfaction of the supervisory committee. At least 50% of the committee must be physically present at the oral defense. Students must be physically present at the oral defense of their thesis. Students must be registered for:

- ✦ At least one semester hour of credit that appears on the *Plan of Study*; OR
- ✦ At least one semester hour of appropriate graduate-level credit, for example: Research (592), Thesis (599), or Continuing Registration (595 or 695); OR
- ✦ At least one hour of a graduate-level course.

Revisions to the thesis are typical and must be completed in a timely manner. If the student is unable to complete revisions to the thesis and submit to UMI/ProQuest by the deadline for the semester in which the defense is held, the student must complete the revisions, remain continuously enrolled, and present the final document to UMI/ProQuest within one year of the defense. Failure to do so will require the re-submission of the document for format review and may result in re-defense of the thesis to ensure currency of the research.

Other Master's Culminating Experiences

A comprehensive examination, capstone course, applied project or portfolio is required as a culminating experience in master's programs that do not have a thesis requirement. The Graduate College office requires a written component to the comprehensive examination; academic units may also require an oral component. Students must have an approved iPOS prior to scheduling their comprehensive examination and/or registering for their applied project or capstone course. An applied project requires registration in the Applied Projects course (XXX 593) and requires a grade of "B" or better. A capstone course requires a grade of "B" or better.

Students must be in good academic standing regarding GPA requirements (see previous section titled "Satisfactory Academic Progress" pg. 11) in the semester of the culminating experience.

Students are required to register for at least one semester hour of credit that appears on the iPOS or one hour of appropriate graduate-level credit during the fall, spring or summer session in which they complete their culminating experience.

Master's Comprehensive Examination

Students must be in good academic standing regarding GPA requirements (see previous section titled "Satisfactory Academic Progress") prior to taking master's comprehensive examinations. Foreign language requirements, if applicable, must be fulfilled before taking the comprehensive examinations.

Students are required to register for at least one semester hour of credit that appears on the iPOS or one hour of appropriate graduate-level credit during the fall, spring or summer session in which they take their comprehensive examinations.

The master's comprehensive examination must have a written component; however, individual master's degree programs may require an additional oral component of the comprehensive exam for all of their students based on the academic progress policy of the program.

The student must schedule the comprehensive examination with their academic unit. All comprehensive examination results must be reported to the Graduate College office immediately upon completion. Academic units are not required to allow students a second opportunity; upon failing comprehensive examinations, academic units may submit a recommendation to the Graduate College requesting dismissal of the student from the degree program.

Failing the comprehensive examination(s) is considered final unless the supervisory committee and the head of the academic unit recommend and the Dean of the Graduate College approve a re-examination. Only one re-examination is permitted. A petition with substantial justification for re-examination, endorsed by the members of the student's supervisory committee and the head of the academic unit, must be approved by the Dean for the Graduate College before a student can take the examination a second time.

Re-examination may be administered no sooner than three months and no later than one year from the date of the original examination. The Graduate College office may withdraw a student from the degree program if the

student's petition for re-examination is not approved, or if the student fails to successfully pass the retake of the comprehensive examination(s).

Students choosing to appeal the results of their comprehensive examinations must follow the grade appeals process outlined by their academic unit.

Doctorate Degree

Doctoral Degree Plan of Study (iPOS)

Students must submit an iPOS before completing 50 percent of the credit hours required for their degree program. A student is not eligible to apply for the Foreign Language Examination (if applicable), comprehensive examinations, dissertation proposal/prospectus or dissertation defense (if applicable) without an approved iPOS.

Doctoral Degree Minimum Credit Hours

A minimum of 84 semester hours of graduate work is required for the doctorate degree at ASU. If a dissertation is required, 12 (and only 12) of the minimum required credit hours on an iPOS must be 799 Dissertation credits. *Plans of Study* submitted for doctorate degrees that do not have a dissertation requirement cannot include 799 Dissertation credits. Students may apply 30 credit hours from a previously awarded master's degree toward their doctoral *Plan of Study* with approval of the degree program and the Dean of the Graduate College.

Doctoral Degree Maximum Time Limit

Doctoral students must complete all program requirements within a ten-year period. The ten-year period begins with the semester and year of admission to the doctoral program. Graduate courses taken prior to admission that are included on the iPOS must have been completed within three years of the semester and year of admission to the program (previously awarded master's degrees used on the Plan of Study are exempt).

Any exception to the time limit policy must be approved by the supervisory committee, the head of the academic unit and the Dean of the Graduate College. The Graduate College may withdraw students who are unable to complete all degree requirements and graduate within the allowed maximum time limits.

Doctoral Degree Supervisory Committee

Upon the recommendation of the head of the academic unit, the Dean of the Graduate College appoints the student's dissertation committee. The committee must be comprised of at least three members, including either a chair or co-chairs. Doctoral programs may have additional requirements for committee composition. This committee serves as the intellectual guide for the student and must approve the research/scholarly focus and substance of the dissertation. The members of the dissertation committee have the necessary knowledge and skills to advise the student during the formulation of the research topic and during the completion of the research and the dissertation.

Dissertation chairs and co-chairs must be approved by the Dean of the Graduate College and each degree program maintains the list of faculty approved by the office for the Graduate College. Most resident faculty at ASU may serve on dissertation committees with the proviso that they have appropriate expertise in the discipline.

All PhD programs have a [Graduate Faculty](#). The Graduate Faculty in a PhD program may also include highly qualified individuals from outside the university who have been approved to serve on committees. Each PhD program maintains the list of faculty approved by the Graduate Education office to chair or co-chair PhD

dissertations. Additional information regarding ASU Graduate Faculty can be found at graduate.asu.edu/graduate_faculty_initiative.

Doctoral students (including PhD, DMA, DBH, DNP and EdD) are urged to communicate with their academic unit to confirm eligibility of faculty to chair doctorate committees.

The final committee membership must be appointed by the Dean of the Graduate College before the student may apply for comprehensive examinations, defend the dissertation prospectus, and register for 799 Dissertation course credits (if applicable).

Doctoral Comprehensive Examination

Students must be in good academic standing regarding GPA requirements (see previous section titled "Satisfactory Academic Progress" pg. 11) prior to taking doctoral comprehensive examinations.

When students have essentially completed the coursework on an approved iPOS, they must request permission to take the doctoral comprehensive examination. The doctoral comprehensive examination must have a written component; however individual doctoral programs may require an additional subsequent oral component of the comprehensive exam for all of their students based on the academic progress policy of the program. These examination(s) are designed to assess a student's mastery of the field of specialization. Doctoral comprehensive examination(s) are administered by a committee consisting of a minimum of three members.

Foreign language requirements, if applicable, must be satisfied before taking the comprehensive examination(s).

During the fall, spring or summer session that the student takes the comprehensive examination(s), they are required to register for:

- ✦ At least one semester hour of credit that appears on the *Plan of Study*; OR
- ✦ At least one semester hour of appropriate graduate-level credit, for example: Research (792), Dissertation (799), or Continuing Registration (795); OR
- ✦ At least one hour of a graduate-level course.

All comprehensive examination results must be reported to the Graduate College office immediately upon completion. Academic units are not required to allow students a second opportunity; upon failing comprehensive examinations, academic units may submit a recommendation to the Graduate College requesting dismissal of the student from the degree program.

Failing the comprehensive examination(s) is considered final unless the supervisory committee and the head of the academic unit recommend and the Dean of the Graduate College approve a re-examination. Only one re-examination is permitted. A petition with substantial justification for re-examination, endorsed by the members of the student's supervisory committee and the head of the academic unit, must be approved by the Dean of the Graduate College before a student can take the examination a second time. Re-examination may be administered no sooner than three months and no later than one year from the date of the original examination. The Graduate College may withdraw a student from the degree program if the student's petition for re-examination is not approved, or if the student fails to successfully pass the retake of the comprehensive examination(s).

Students choosing to appeal the results of their comprehensive examinations must follow the grade appeals process outlined by their academic unit.

Doctoral Prospectus Defense

All doctoral degree programs that require students to complete a dissertation must require students to complete a dissertation proposal/prospectus and submit the results to the Graduate College office. Failure of the doctoral dissertation prospectus oral defense is considered final unless the supervisory committee and the head of the academic unit recommend and the Dean of the Graduate College approve a second proposal defense. If a petition is approved, the student must submit the new prospectus by the end of six months (the six months begins from the date that the first doctoral dissertation proposal defense was held). If the academic unit does not grant the student permission to retake the proposal defense, or if the student fails to pass the retake of the proposal defense, the Graduate College may withdraw the student from the degree program.

Students are required to register for at least one semester hour of credit that appears on the iPOS or one hour of appropriate graduate-level credit during the fall, spring or summer session in which they conduct their doctoral prospectus.

Doctoral Candidacy

Doctoral students (with specific degree program exceptions approved by the Dean of the Graduate College) achieve candidacy status upon the successful completion of the comprehensive examination(s), the Foreign Language Examination (if applicable), and successfully defending the dissertation prospectus (if applicable). Doctoral students who have been advanced to candidacy are required to maintain continuous enrollment until all degree requirements have been completed and the student graduated.

Doctoral Dissertation/Dissertation Defense

Students must be in good academic standing regarding GPA requirements (see previous section titled "Satisfactory Academic Progress" pg.11) prior to scheduling the defense.

The written doctoral dissertation is based on an original and substantial scholarly work that constitutes a significant contribution to knowledge in the student's discipline. The dissertation research must be conducted during the time of the student's doctoral studies at ASU, under guidance of ASU Graduate Faculty, and in accordance with the Graduate College policies and procedures. The composition of the dissertation is defined by the degree program with the approval of the Dean of the Graduate College.

The dissertation research experience culminates in a final oral exam, commonly known as the "dissertation defense." A final public dissertation defense is required. At least 50% of the committee must be physically present at the oral defense. Students must be physically present at the oral defense of their dissertation. During the semester that the student defends the dissertation they are required to register for:

- ✦ At least one semester hour of credit that appears on the *Plan of Study*; OR
- ✦ At least one semester hour of appropriate graduate-level credit, for example: Research (792), Dissertation (799), or Continuing Registration (795); OR
- ✦ At least one hour of a graduate-level course.

Revisions to the dissertation are typical and must be completed in a timely manner. If the student is unable to complete revisions to the thesis and submit to UMI/ProQuest by the deadline for the semester in which the defense is held, the student must complete the revisions, remain continuously enrolled, and present the final document to UMI/ProQuest within one year of the defense. Failure to do so will require the re-submission of the document for format review and may result in re-defense of the dissertation to ensure currency of the research.

Graduate Certificates

The graduate certificate is a programmatic series of linked courses. Graduate certificates facilitate professional growth for people who already hold the baccalaureate degree. For more information on current graduate certificates see the [Graduate Degree and Certificate Search](#) page.

Certificate Admission

All applications for graduate certificate programs must be submitted through asu.edu/gradapp.

Certificate Requirements

A minimum of 15 semester hours of graduate work is required to complete a graduate certificate. No more than one-fifth (20 percent) of the minimum required credit hours for a graduate certificate may be transferred from another university. All transfer work must meet the Graduate College transfer policies. All coursework used to complete an ASU graduate certificate must be completed within a six-year time limit. Courses at a 400-level may be allowed with prior approval from the appropriate certificate program; however, a minimum of two-thirds of the courses taken to complete the certificate must be at the 500-level or above. No more than 40% of coursework towards the requirements of a graduate certificate can be completed prior to admission to the certificate program.

Awarding of a Graduate Certificate

A student will be eligible for the official posting of the graduate certificate to their transcripts when all applicable coursework has been successfully completed and the Graduate College scholarship requirements have been met. Students must submit an iPOS for the graduate certificate program, and apply for graduation.

Concurrent Master's Degrees

A student may pursue concurrent master's degrees with prior written approval from the head of the academic unit for each degree program and the Graduate College office. A separate online application is required for each degree program. A maximum of 20 percent of the minimum total semester hours for the completion of both degrees may be common hours shared between the *Plans of Study*. The total number of hours common to both degree programs may vary from this maximum value only when the Graduate College has formally approved coordinated degree programs.

Coursework common to both programs must constitute a well-planned and meaningful part of each of the programs and may only include coursework completed after admission to both degree programs. In all cases, the guidelines below must be followed:

1. The student must maintain continuous enrollment as previously defined. Registration in both programs *may* be required each semester, please see the academic unit for specific satisfactory academic progress and program rules. Requests to maintain continuous enrollment forms will apply to both programs; students may not be registered for coursework in either program if approved.
2. Graduate credit transferred from another institution may be applied toward only one-degree program.
3. Culminating experiences (e.g. capstone courses, theses, applied projects) and comprehensive examinations cannot be shared between concurrent degree programs.
4. The six-year maximum time limit for completing degree requirements and graduation apply to each concurrent degree individually.

Concurrent Master's/Doctoral Degrees

A student may pursue concurrent masters/doctoral degrees provided the degree programs are in different areas with prior written approval from the head of the academic unit for each degree program and the Graduate College. A separate online application is required for each degree program. A maximum of 9 credit hours may be common hours shared between the *Plans of Study*.

Coursework common to both programs must constitute a well-planned and meaningful part of each of the programs and may only include coursework completed after admission to both degree programs. In all cases, the guidelines below must be followed:

1. The student must maintain continuous enrollment as previously defined. Registration in both programs *may* be required each semester, please see the academic unit for specific satisfactory academic progress and program rules. Requests to maintain continuous enrollment forms will apply to both programs; students may not be registered for coursework in either program if approved.
2. Graduate credit transferred from another institution may be applied toward only one-degree program.
3. Culminating experiences (e.g. capstone courses, theses, dissertations, applied projects) and comprehensive examinations cannot be shared between concurrent degree programs.
4. The maximum time limits for completing degree requirements and graduation apply to each concurrent degree individually (6 years for Master's; 10 years for doctoral).

Concurrent Doctoral Degrees

A student may pursue concurrent doctoral degrees provided the degree programs are in different academic areas with prior written approval from the head of the academic unit for each degree program and the Graduate College office. A maximum of 12 credit hours may be common hours shared between the *Plans of Study*. In all cases, the guidelines below must be followed:

1. The student must maintain continuous enrollment as previously defined. Registration in both programs *may* be required each semester, please see the academic unit for specific satisfactory academic progress and program rules. Requests to maintain continuous enrollment forms will apply to both programs; students may not be registered for coursework in either program if approved.
2. The 30 hours allowed from a previously awarded master's degree may only be applied to one of the doctoral programs and graduate credit transferred from another institution may be applied toward only one-degree program.
3. The comprehensive examination, the dissertation prospectus, and the dissertation cannot be shared between concurrent degree programs.
4. The student must meet the 10-year maximum time limit for each degree.

Master's in Passing (MIP)

In those cases, where there is an approved Master's in Passing (MIP) program in place for a doctoral degree, those doctoral students who complete the requirements of the approved MIP may be awarded the related master's degree. Students should check with their doctoral program to see if there is an approved Master's in Passing for their degree.

Students who include 30 hours from a previously awarded master's degree on their doctoral *Plan of Study* are not eligible for a Master's in Passing. All coursework included in an MIP *Plan of Study* must have been completed after the semester and year of admission to the doctoral program.

Bachelor's/Master's Accelerated Programs

In a limited number of pre-approved programs, ASU will allow for the simultaneous pursuit of an undergraduate and graduate degree. In such cases, the program must be approved by the Dean of the Graduate College. The students must successfully complete the undergraduate degree and be admitted to the respective graduate program prior to completing 12 credits of graduate coursework. Students must contact their ASU undergraduate advisor and graduate support staff to ensure proper sharing of credit hours.

Students may not share any credit hours taken as an undergraduate student unless they have been formally admitted to an approved accelerated program.

Research Considerations

The master's thesis and doctoral dissertation (or equivalent) must be based on original and independent research/creative activity conducted by the student, under the guidance of the graduate supervisory committee. The thesis is an introduction to scholarly writing and is intended to create an understanding of theory and methods applicable to one's field. The dissertation should demonstrate the candidate's mastery of research and scholarly methodologies, theory, and tools of the discipline. Both the thesis and dissertation should demonstrate the candidate's ability to address a major intellectual problem and to propose meaningful questions and hypotheses, as well as utilize the methods with which to study the proposed research question(s) and related hypotheses, and draw conclusions.

Supervisory Committees

Students are guided by faculty mentors who advise them through their degree program. Students should identify their advisors early in their graduate career and look to them for guidance in their graduate work. Once the student has selected a thesis/dissertation committee, the head of the academic unit recommends the supervisory committee to the Dean of the Graduate College who reviews and appoints the Committee. Graduate supervisory committees must consist of a minimum of three individuals, including the chair or co-chairs.

Faculty Emeriti who meet the Graduate College criteria may serve as members or co-chairs on graduate supervisory committees. They may serve as chairs with the recommendation of the academic unit and approval of the Dean for Graduate Education on a case by case basis. Qualified individuals outside the university, upon the recommendation of the head of the academic unit and approval of the Graduate College, may serve as members of thesis and dissertation committees. All such requests must be submitted to the Dean for Graduate College for approval.

Research Involving Human and Animal Subjects

Theses or dissertations that make use of research involving human or animal subjects must include a statement indicating that the research has been approved by the appropriate university body.

Research involving human subjects conducted under the auspices of Arizona State University is reviewed by the University Human Subjects Institutional Review Board (IRB) in compliance with federal regulations. Documents containing any data collection from human subjects require that applications be submitted to the ASU Office of Research Integrity and Assurance for approval **before** data collection or recruitment of subjects is initiated at researchintegrity.asu.edu/humans.

Research involving the use of animals conducted under the auspices of Arizona State University is reviewed by the Institutional Animal Care and Use Committee (IACUC) in compliance with federal regulations. Documents containing any data collection from animal research require that applications be submitted to ASU Office of Research Integrity and Assurance for approval at researchintegrity.asu.edu/animals.

It is very important that students check with their thesis/dissertation advisor well in advance of data collection to ensure compliance with university regulations regarding the collection of research data.

Thesis/Dissertation Defenses

Thesis and dissertation defenses are open to all members of the university community and the general public. The oral defense engages the supervisory committee and the candidate in a critical and analytical discussion of the research and findings of the study, as well as a review of the contribution of the research topic to advancing knowledge in that discipline. The presentation of a thesis or dissertation defense in an open forum fosters a broader awareness of the state of graduate research at ASU, promotes a wider scholarly dialogue among disciplines, and recognizes publicly the scholarly contributions of master's or doctoral candidates.

Defenses must be scheduled through MyASU at least 10 working days in advance of the defense date. It is expected that oral defenses will be held on an ASU campus during regular business hours in order to facilitate student, faculty, and public accessibility. When there are sound educational reasons for holding a defense under different circumstances, contact the Graduate College for approval **before** scheduling the defense.

Students must be physically present at the oral defense of their thesis, dissertation or equivalent document. If, due to unforeseen circumstances, they cannot be physically present, then the oral defense must be rescheduled to another date when they can be physically present.

It is desirable that all members of a student's supervisory committee be physically present with the student at the final oral defense of a thesis or dissertation. However, there are situations (e.g. faculty travel, faculty emergencies and/or faculty leave) that may necessitate holding a defense with one or more committee member(s) absent. In all cases at least 50% of the committee must be physically present. If a committee member cannot physically attend, they can tele/video conference, or they can appoint a substitute to attend in their place. The substitute should be a regular faculty member with the academic unit. The supervisory committee chair must be physically present; if there are two co-chairs, one of them may tele/video conference if needed. In either case, please email grad-gps@asu.edu with the student's ID number and the name of the tele/videoconferencing member or with the names of the member who will be absent and the faculty member who will attend as a substitute. This information must be submitted **before** the defense.

Degree Completion

The final culminating experiences for graduate degrees vary by program. In many master's degree programs a thesis is required, in other programs the culminating experience is an applied or professional project. In all PhD programs, as well as in most professional doctoral programs, dissertations are required. Theses and dissertations are officially documented and archived. Theses and dissertations are submitted to UMI/ProQuest, which makes their content available to the public. Information on the dissertation later appears in *Dissertation Abstracts International*. For this reason, all theses and dissertations must undergo Graduate College format review. The Dean of the Graduate College reviews the content to affirm the quality and originality of the scholarly work.

Scheduling a Defense and Format Review

At least 10 working days prior to the planned defense of a thesis, dissertation or equivalent, students schedule the defense through their My ASU. See [Graduation Deadlines](#). Students work with their supervisory committee and the academic unit's graduate support staff to identify a suitable date and reserve a room. When a defense date and location have been identified and the defense has been scheduled through My ASU, students submit a complete draft copy of the thesis/dissertation to be defended by uploading the document to the Graduate

College [Dropbox](#) link. The defense will be published on the Graduate College [Master's/Doctoral Defense Schedule](#) website that updates every Monday.

The [Format Manual](#) is a comprehensive guide to formatting a thesis, dissertation or equivalent document and it always overrides a Style Guide if the two conflict. Students must use the *Format Manual* to prepare their thesis/dissertation. Questions regarding the *Format Manual* requirements should be directed to gradformat@asu.edu.

The Graduate College's [Formatting Tool](#) uses the *Format Manual* guidelines to generate a template into which you insert your document's text. The formatting tool is designed to help students with the basic format requirements such as margins and spacing, and greatly improves the format review process for students.

UMI/ProQuest Submission

Students are required to create a new user account specific to the submission of their document and must use their ASU email address. UMI/ProQuest requires all students to submit a PDF version of their final document. The ASU Graduate Education office requires that the PDF document is in compliance with the formatting standards presented in the format manual. Students will receive final format approval only after the submitted PDF document has successfully passed a format review. Students have an opportunity to order bound copies of their document for themselves through UMI/ProQuest.

Graduation

Students must apply for graduation through MyASU in accordance with the University Registrar policies. See [Application for Graduation](#). Students must meet all University and Graduate College degree requirements prior to the conferral of their degree.

The graduation deadlines and procedures are set by the Graduate College and are available online at graduate.asu.edu/progress/graduation_deadlines. Deadline dates vary slightly depending on the calendar year, so students should check them carefully in advance of the semester they plan to defend their thesis/dissertation. It is very important that students become familiar with these deadlines so that graduation can occur during the expected term.

Graduate Student Appeals

The Graduate Council Appeals Board (GCAB) serves as the appeals body for graduate students seeking redress on procedural issues related to academic decisions regarding their graduate programs. ***Before initiating an appeal, the graduate student must fully utilize any and all other appeal and review processes available in the student's program, academic unit or college/school.*** The GCAB will not entertain any appeals until the graduate student has exhausted all other appropriate appeal procedures.

The GCAB reviews written appeals of graduate students concerning:

- ⤴ Procedural matters in graduate student programs (e.g., procedures related to *Plans of Study*, satisfactory academic progress, theses, dissertations, and preliminary, qualifying or comprehensive exams).
- ⤴ Academic issues that are not covered by other university policies or processes.

The GCAB does not review appeals pertaining to the following areas because these appeals are heard by other university bodies (see parentheses below):

- ⤴ Course grades (subject to review by the academic unit and college/school).

- ⤴ Results of capstone experiences, preliminary, comprehensive and qualifying examinations and defenses (subject to review by the academic unit and college/school).
- ⤴ Recommended dismissal by a program or academic unit due to lack of satisfactory academic progress (subject to review by the academic unit and college/school).
- ⤴ Allegations of academic dishonesty (subject to review under the ASU Student Academic Integrity Policy located at provost.asu.edu/academicintegrity/policy).
- ⤴ Allegations of scientific misconduct (subject to review under ASU policy RSP 210 ["Misconduct in Research"] in the Research and Sponsored Projects Policy and Procedures Manual).
- ⤴ Allegations of discrimination (subject to review by the ASU Office of Equity and Inclusion).

The Guidelines for Graduate Appeals describing further the GCAB appeal procedures, process and jurisdiction are available from the Graduate College and on the website at: <https://graduate.asu.edu/file/graduate-appeals-guidelines>.

Arizona State University provides equal opportunities. For more information go to <https://provost.asu.edu/index.php?q=policies/procedures/p20.html>

graduate.asu.edu

College Academic Policies

W.P. Carey School of Business Policies

The W. P. Carey School of Business is one of the largest and highest-ranked business schools in the country, repeatedly lauded by publications like The Wall Street Journal, Financial Times, Princeton Review and U.S. News & World Report. The school is internationally regarded for its leadership in business education, its research productivity and its distinguished faculty that includes a Nobel Prize winner. Students come from all over the world, and among them are dozens of National Merit Scholars.

The school's academic choices are as diverse as they are abundant. Undergraduates can earn a BS in one of nine business disciplines or a BA that combines core business classes with a concentration outside the W. P. Carey school. Its programs of study reflect and respond to the demands of business and industry today and beyond, and the school has dedicated career placement services. The school is located in the heart of the fast-growing Phoenix metropolitan area, which provides opportunities for internships, employment, and networking, and its classes are offered on ASU's Tempe, Polytechnic, West campuses as well as online.

More information is available at wpcarey.asu.edu [1].

Academic Integrity

Academic Dishonesty

The faculty members of the W. P. Carey School of Business follow the guidelines on academic dishonesty in the ASU Student Academic Integrity Policy. A copy of the policy may be obtained online at <https://provost.asu.edu/academic-integrity> [2].

The W. P. Carey School of Business honor code may be found online at <https://gradstudents.wpcarey.asu.edu/student-resources/academic-policies> [3]. Additional resources and information may be found at the W. P. Carey Academic Integrity website at <https://gradstudents.wpcarey.asu.edu> [4].

Undergraduate Policies

Academic Standing

Probation

All business students, freshman through senior, must maintain a minimum 2.00 GPA for all courses completed at ASU in order to remain in academic good standing. If this standard is not maintained, the student is placed on university academic probation. Students on university academic probation must see an advisor before further registration and must do one of the following:

Students on university academic probation must see an advisor before further registration and must do one of the following:

1. raise their ASU cumulative GPA to 2.00 or higher in order to return to academic good standing
2. obtain a semester GPA of 2.50 with no grade lower than a "C" in order to be granted one additional semester on continued college probation, and at the end of the continued college probation must return to academic good standing (with a minimum cumulative ASU GPA of 2.00) to avoid disqualification

W. P. Carey Continued Probation: If a student's ASU cumulative GPA is still below 2.00 at the end of the probationary semester but the student has earned a semester GPA of 2.50 or higher with no grades below "C", the student will be placed on CONTINUED PROBATION in the subsequent semester. The student will then have only one more semester to raise the ASU cumulative GPA to 2.00 or higher.

ASU Continued Probation: If a student's ASU cumulative GPA is still below 2.00 at the end of the probationary semester but the student has earned a semester GPA of 2.00 or higher with no grades below "C", the student will be placed on CONTINUED PROBATION with ASU but will be INELIGIBLE to remain in W. P. Carey as a business student. The student will have to change to a major that is not offered through W. P. Carey.

Disqualification

A student who does not meet college probation requirements is academically disqualified and is not allowed to register in a fall or spring semester at the university. If the student has already enrolled in a future fall or spring semester, the student will be dropped from those courses and the registration will be cancelled. Disqualified students may attend ASU during the summer session only immediately following the semester in which the student is disqualified.

A disqualified student must wait for one year to apply for readmission to ASU, and if the student intends to return to the W. P. Carey School of Business they may do so only after completing the following eight skill courses (or equivalent) with a minimum 3.00 GPA and with no grade less than "C": ACC 231/232, ACC 241/ 242, CIS 105, ECN 211, ECN 212, ECN 221, MAT 210, and MAT 211.

Disqualified students should contact their academic advisor immediately to determine what is needed to earn readmission to the university in the future.

Advising

W. P. Carey offers undergraduate program academic advising at the Polytechnic, Tempe and West campuses. Students may find personalized advising information and may schedule appointments in advance through Advising SOS: <http://wpcarey.asu.edu/sos> [5]. Students admitted to the W. P. Carey leaders academy or business honors program may schedule appointments by visiting the W. P. Carey Advising S.O.S. website <http://wpcarey.asu.edu/sos> [5], by visiting in person at McCord Hall 102 or by calling 480-965-8710.

Students are encouraged to schedule appointments each semester to ensure they are making progress toward their degrees. Advising is required for:

- newly admitted students, prior to enrollment for the first term (at orientation)
- freshman students, prior to enrollment for the second term
- seniors, upon completion of 87 or more credit hours
- any student who is off track in regard to eAdvisor tracking requirements
- any student who is on university academic probation
- disqualified students interested in attending ASU in the future

Additional information regarding academic advising is available at <https://students.wpcarey.asu.edu/degrees-and-advising/advising-overview> [6] or through the W. P. Carey School of Business undergraduate programs office at 480-965-4227.

Credit/Registration

Pass/Fail

Business majors may not enroll on a pass/fail basis for any course required for graduation. Pass/fail credits taken at another institution may be petitioned for use, but only if the student can demonstrate proof that the pass grade was equivalent to a "C" (2.00) or higher.

Transfer Credit

Credit from other institutions is accepted subject to the following guidelines:

Students planning to take their first two years of coursework at a community college or another four-year college should plan to take business and economics courses that are offered as freshman- or sophomore-level courses for transfer equivalency as supported through the Transfer Credit Guide [7]. Frequently, these lower-division courses are numbered 100 through 299, but can vary based on each transferring institution. A maximum of 30 hours of business and economics courses from community colleges are accepted toward a bachelor's degree in business, and are applied as lower-division credits.

Students may transfer up to nine credit hours of approved upper-division business coursework required for the business degree to ASU. Business courses completed at a two-year college may not be used for upper-division transfer credit in the business core or major. Such courses may be acceptable for general university credit, but may not be applicable toward the degree requirements of the major. Courses taught in the upper-division business core must be completed at an accredited four-year institution. Upper-division business course transfer credits will be considered for upper-division business credit in the ASU major only when the course was taken at an AACSB International-accredited school.

Credit is granted for transferred courses deemed equivalent by the W. P. Carey School of Business to corresponding courses in the selected program of study, and is subject to grade and ASU resident credit requirements. No grades lower than "C" (2.00 on a 4.00 scale) transfer to ASU. To be accepted for credit as part of a degree program in business, all courses transferred from other institutions must carry prerequisites similar to those of the courses they are replacing at ASU.

Degree Requirements

Critical Requirements

All business students must meet the critical requirements for their majors. Students who are required to follow eAdvisor tracking requirements yet do not comply with the critical requirements are considered off track, and a hold will be placed on their records. These students must work with an advisor to have the hold removed.

Undergraduates in the W. P. Carey School of Business are expected to be strong academically, especially with regard to grades earned in business courses. Careful course planning, in consultation with an academic advisor, will assist in maintaining satisfactory academic performance and progress.

Concurrent Degrees

ASU students **not enrolled in a W. P. Carey School of Business** degree program who wish to pursue a concurrent degree with the business school:

- must be in good academic standing
- must have completed 30 credit hours of college course work
- must meet direct admission criteria [8] for the degree program they wish to pursue

If direct admission requirements have been met, students should file a paper curriculum petition form [9] to request the concurrent degree. Students who do not meet direct admission requirements for business degree programs must complete the Admission Portfolio [10] and be admitted prior to filling out the curriculum petition form. Students are allowed a maximum of two concurrent degree request attempts.

Students **currently enrolled in the W. P. Carey School of Business** who wish to pursue concurrent degrees within the business school:

- must be in good academic standing
- must have completed 30 credit hours of college course work with a grade of "C" (2.00) or higher, including the following skill courses or their equivalents:
 - ACC 231 Uses of Accounting Information I
 - CIS 105 Computer Applications and Information Technology
 - ECN 211 Macroeconomic Principles OR
 - ECN 212 Microeconomic Principles
 - MAT 210 Brief Calculus
 - MAT 211 Math for Business Analysis
- must have completed or currently be enrolled in the following courses or their equivalents:
 - ACC 241 Uses of Accounting Information II
 - ECN 211 Macroeconomic Principles OR
 - ECN 212 Microeconomic Principles
 - ECN 221 Business Statistics

W. P. Carey students who meet the above criteria should submit a concurrent degree request. [11] Review and submission times are on the website. W. P. Carey students are unable to change their major status after they are admitted to a concurrent degree program unless they submit a new concurrent degree request. The direct admission criteria only apply to a single major within W. P. Carey; students are not able to freely change majors within their

concurrent degree or dual concentration combinations. Students are allowed a maximum of two concurrent degree request attempts. Current W. P. Carey students wishing to pursue a concurrent degree outside of business should submit a paper curriculum petition form [9] and receive approval from both colleges (e.g., finance and psychology).

Reinstatement/Readmission

Students seeking readmission after an absence from the university should visit the following website for further information: <https://students.asu.edu/readmission> [12].

Other Special Requirements

Major Proficiency Requirements

Students must receive a grade of "C" (2.00) or higher in upper-division courses for the major. If a student receives a grade below "C" (2.00) in any course in the major, the course must be repeated. If a second grade below "C" (2.00) is received in either an upper-division course in the major already taken or in a different upper-division course in the major, the student is no longer eligible to take additional upper-division courses in that major.

Student Appeal Procedure on Grades

W. P. Carey School of Business students follow the university policy for student appeal procedure on grades, which may be found online at <https://catalog.asu.edu/appeal> [13].

Admission

Because of the additional requirements for the BS, students who do not meet minimum admission standards will automatically be considered for the BA in the W. P. Carey School of Business. Freshman admission requirements for the BA program are the same as the university's freshman admission requirements. Transfer students who want to be admitted to the BA program must have a 3.00 GPA for all transfer course work and a 3.00 GPA for all ASU coursework and must meet university transfer admission requirements.

Graduate Policies

All graduate students in the W. P. Carey School of Business are required to maintain a cumulative GPA of "B" (3.00). Students should see individual graduate degree programs for additional requirements on satisfactory academic progress, probation and disqualification.

Advising

Advising of graduate students is normally handled by graduate programs support service members. Once admitted, students will meet with a program manager to prepare a plan of study. Students are encouraged to begin discussions with their program managers early in their studies so course work can be geared toward supporting their academic progress. All students, whether in a thesis or nonthesis option, must file a plan of study.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies including those of the Graduate College and the W. P. Carey School of Business.

Herberger Institute for Design and the Arts Policies

The Herberger Institute for Design and the Arts is built on a combination of disciplines unlike any other program in the nation, comprising schools of art; arts, media and engineering; design; film, dance and theatre; and music; as well as the ASU Art Museum.

The Herberger Institute recommends students contact the Office of Student Success at 480-965-4495 to obtain the most current information on college policies. The Herberger advising staff are available to assist with any questions regarding the institute's policies.

Academic Integrity

Academic honesty is expected of all students in all examinations, papers, academic transactions and records. Possible sanctions include appropriate grade penalties, loss of registration privileges, disqualification and dismissal. The Herberger Institute for Design and the Arts strictly adheres to the ASU Student Academic Integrity Policy. Information about the academic integrity policy can be found at <https://provost.asu.edu/academic-integrity> [1].

Undergraduate Policies

Academic Standing

Probation

A student in any of the institute's degree programs is placed on university academic probation when he or she fails to maintain a cumulative GPA of 2.00. Students on academic probation must observe the rules or limitations the institute imposes on probation as a condition of retention. All Herberger Institute students who are placed on academic probation are required to attend mandatory advising appointments in an effort to help them improve their academic standing. Students are required to complete an academic success contract with their advisor to discuss campus academic resources, plan semester goals and discuss strategies to attain academic success. These meetings continue until the student earns a cumulative GPA of 2.00 or higher.

Continuing Probation

A student already on academic probation and earning a GPA of 2.00 or higher for the term but who is not successful in raising the cumulative GPA above 2.00 will be placed on continuing probation. Continuing probation is meant to acknowledge the student's academic progress while still providing academic support to help the student reach the required 2.00 GPA. Students on continuing probation must continue to attend mandatory advising appointments until the student earns a cumulative GPA of 2.00 or higher.

Disqualification

If the overall GPA is not at the required level and the conditions of probation have not been met after one semester on probation, the student may be subject to disqualification for a minimum of two full academic semesters. Disqualification is exercised at the discretion of the institute and becomes effective on the first day of the fall or spring semester following institute action. A student is notified of the disqualification by the Herberger Institute Office of Student Success and is not allowed to register for a fall or spring semester at the university until reinstated.

Co-enrolled Continuing Probation Program

Select disqualified students may participate in the Co-enrolled Continuing Probation Program at the discretion of their college or school. Under this program, the student would take UNI 220 Academic Refresher plus one ASU course selected by the student's advisor, and upon completion of the term with a combined semester cumulative GPA of 2.50 the student would be able to continue regular enrollment at ASU. The student would co-enroll at a Maricopa Community College with a schedule selected in consultation with the ASU advisor. Parameters regarding the number of co-enrolled hours required are at the discretion of each college or school.

Reinstatement

A student who has previously been academically disqualified and seeks to return to ASU either for a fall or spring semester (either immediately or after a period of absence) and has met college admission standards will be required to seek readmission to the university [2] and reinstatement to the Herberger Institute. Applications for readmission to ASU must be made to Admission Services; the application for readmission will automatically generate a letter of appeal for reinstatement to the Herberger Institute for consideration.

All disqualified students should contact the Herberger Institute Office of Student Success [3] regarding procedures and guidance for reinstatement and return to academic good standing. A disqualified student may attend summer sessions at ASU to raise the cumulative GPA. If a cumulative GPA of 2.00 or higher is achieved upon completion of summer coursework, the student may petition the institute for early reinstatement. Applications for readmission to ASU must be made to the admission services office. The possibility of successful reinstatement is enhanced when students follow recommendations and meet established standards for summer coursework or coursework completed at other institutions. All students who are academically disqualified should contact a Herberger Institute advisor to discuss their options.

Also available in the Office of Student Success is information on the college policies and procedures for student grievances with respect to grades [4] and various petitions regarding standards and graduation requirements.

Advising

Undergraduate academic advising is handled as a centralized activity within the institute. Students are encouraged to make appointments through the Herberger Institute Office of Student Success. More information is available on the advising website: <http://herbergerinstitute.asu.edu/students/undergrad/advising.php> [3]. While the institute provides academic advising, it is ultimately each student's responsibility to fulfill academic and program requirements. Administration of program requirements is the responsibility of the head of the academic unit and the dean.

Credit/Registration

Course Load

First-semester freshmen and entering transfer students are not permitted to register for more than 18 credit hours in Session C or nine credit hours in Session A and nine credit hours in Session B. Other students who wish to register for more than 18 hours must meet the academic criteria for an overload petition [5] and work with their academic advisor in the Herberger Office of Student Success. Any petition for an overload in excess of 21 hours (or more than 10 hours in either Sessions A or B) must be presented to the advising manager. No student should assume that his or her petition for overload will be granted.

For summer sessions, the maximum course load is 14 credit hours, seven per six-week summer session. Overloads are rarely granted for these sessions and requests must be petitioned to the Herberger Office of Student Success.

Audit Grade Option

Students may choose to audit certain courses in which they attend regularly scheduled class sessions but earn no credit. Students should obtain instructor approval before registering for the courses. The option to audit is not available for all courses.

Note: This grade option may not be changed after the drop/add period.

Pass/Fail or Credit/No Credit

The only courses accepted toward graduation with a grade of pass/fail or credit/no credit are courses designated by the academic unit as such or internships and field studies.

Transfer Credits

While the university accepts credits transferred from other accredited institutions, transfer coursework must be equivalent in content and level of offering. Arts or design transfer credits are not applied to specific degree programs until reviewed and accepted by the appropriate academic units. Students who change majors to transfer into the institute or one of its program areas must have a minimum cumulative GPA of 2.50. A student wishing to enter a major that requires an audition, interview, milestone or portfolio review may be required to successfully complete this requirement before

changing the major. The Design School and the School of Art require a review of samples of work (portfolio format) from previous studio classes to evaluate some transfer studio credits.

Incompletes

Students are responsible for contacting their course instructors regarding the process of requesting and fulfilling requests for an incomplete. The grade of "I" (incomplete) can only be given by an instructor when a student who is doing otherwise acceptable work is unable to complete a course (e.g., final exam or term paper) because of illness or other conditions beyond the student's control.

Students must obtain the official form to request a grade of incomplete at <http://students.asu.edu/forms/incomplete-grade-request> [6]. A completed form must include a justification, a listing of requirements that have not been fulfilled, and a proposed schedule of completion. The instructor will review the request and determine whether to accept or deny the request. If accepted, the instructor may propose modifications and submit a copy of the request to the appropriate office.

An incomplete in any course that is a prerequisite for sequential courses automatically denies the student enrollment in subsequent courses and could result in the student being administratively dropped from a subsequent course if the student has already enrolled.

The student has one calendar year from the date the grade of "I" is recorded to complete the course. A student does not reregister or pay fees for a course for which an "I" has been received in order to complete the course. Grades of "I" for undergraduate coursework that have been on a student's record for more than one calendar year will be automatically changed to "E."

Withdrawals

University withdrawal regulations apply to all courses. In certain of the institute's degree programs, curricula are modular and sequential, and because space in these programs is limited a student is expected to progress through the curriculum with the class. Students should discuss with their academic advisor plans to withdraw from any courses in order to fully understand all potential repercussions.

Degree Requirements

Critical Requirements

All Herberger students must meet the program and critical requirements for their majors. A student who does not comply with the critical requirements is considered off track and a hold will be placed on their record; the student will be required to meet with a Herberger academic advisor to have the hold removed. For more information about critical requirements, students should refer to the corresponding major map.

Concurrent Degrees

Students who wish to obtain concurrent degrees must submit a standards committee petition (<http://herbergerinstitute.asu.edu/students/undergrad/forms/herberger.php> [7]) to the undergraduate curriculum committee after successfully meeting the following criteria: minimum 3.00 cumulative GPA, successful completion of six credit hours in both programs, and successful admission into both intended programs of study. Students pursuing concurrent degrees within the institute must complete 24 unique credit hours in each major.

Change of Major

A current ASU student who wishes to change majors to one of the institute's degrees must have a cumulative ASU GPA of 2.50 or higher. Students wishing to enter a major that requires an audition, interview, milestone or portfolio review may be required to successfully complete this requirement before changing the major.

Reinstatement/Readmission

Undergraduate degree-seeking students who previously attended ASU in the Herberger Institute for Design and the Arts but have not been enrolled at ASU for one fall or spring semester or no more than two consecutive semesters are eligible to return through quick reentry. Students do not need to submit a new application or application fee, but they must contact an academic advisor in their program for registration.

Undergraduates who have been away from the university for three or more semesters and want to return to ASU in a Herberger Institute program are required to apply for readmission through the admission services office.

- Readmission is only considered after a student has remained out of the Herberger Institute for a minimum of two semesters.
- A student is required to supply proof he or she is now capable of successfully completing courses in the discipline by the completion of at least 12 hours of appropriate coursework with a GPA of 2.50 or higher.
- If the readmission request requires a change of major, then admission decisions are made by the college that offers the intended major.
- If a student seeks readmission to his or her previous Herberger Institute major and that major requires a creative review, a new review may be required.
- If readmission is approved within the Herberger Institute, the student will return with continued probation status in the appropriate degree program.

Once readmitted, returning students are required to meet with a Herberger advisor before enrolling in courses at ASU.

Other special requirements

Creative Reviews

A creative review (audition, interview, milestone, portfolio submission) is required for entrance into most majors in the Herberger Institute. Students should see <https://herbergerinstitute.asu.edu/admissions> [8] for details.

Graduate Policies

Advising is handled as a decentralized activity within the institute. To offer personalized attention, each academic unit establishes its own graduate advising procedures. Students are encouraged to make appointments through the central office of their major discipline. Students should consult their academic unit's website for general information about the programs, admission and advising procedures:

- School of Art: <https://art.asu.edu/> [9]; phone 480-965-6303
- School of Arts, Media and Engineering: <https://artsmediaengineering.asu.edu/> [10]; phone 480-965-9438
- The Design School: <https://design.asu.edu/degree-programs> [11]; phone 480-965-3536
- School of Film, Dance and Theatre: <https://filmdancetheatre.asu.edu/> [12]; phone 480-965-5337
- School of Music: <https://music.asu.edu/> [13]; phone 480-965-3371

Students must fulfill all requirements of their graduate program to remain in good academic standing, and they must abide by all university policies including those of the Graduate College and the Herberger Institute for Design and the Arts.

Ira A. Fulton Schools of Engineering Policies

The Ira A. Fulton Schools of Engineering educate undergraduate and graduate students, giving them the knowledge, skills and attitudes they need for success in technically oriented careers. The schools provide students with a range of educational opportunities by which they may achieve excellence in the major branches of engineering, computer science, informatics, construction management, aviation, technology, cognitive science, environmental resource management, and technological entrepreneurship and management.

The Ira A. Fulton Schools of Engineering take pride in their diversity, their economic and cultural heritages, and the quality of their graduates. The schools strive to be integral to the community they serve and a lifelong presence in the lives of those within their compass. The schools' educational and research programs are built around the following principles: entrepreneurship; use-inspired research and scholarship; a focus on the individual; the intellectual fusion of unique and distinct disciplines; social embeddedness in the local, national and international communities; and global engagement.

More information is available at <https://engineering.asu.edu/> [1].

Ira A. Fulton Schools of Engineering Aspirations

Graduates from any of the schools' programs will possess a solid technological background. Additionally, the Ira A. Fulton Schools of Engineering aspire to develop leaders who are well read, well-spoken and knowledgeable about current business practices. Experiential education is recognized as a complementary praxis and integral to the overall academic experience. To this end, the schools offer enhanced curricula, special courses and extracurricular activities to enrich the student's stay and to offer every student opportunities to achieve the schools' aspirations.

All the programs within the schools are professional programs, and professionalism is an important component of all the curricula. The schools strive to help students understand and value the various aspects of professionalism, including ethical behavior, a desire for lifelong learning, the ability to communicate with others, and an awareness of how the profession fits into society and impacts it. As the first step in ethics, all students are expected to follow the student code of conduct and rules of academic integrity defined by the university as outlined at <https://provost.asu.edu/academic-integrity> [2].

Academic Integrity

Students enrolled in the Ira A. Fulton Schools of Engineering are required to maintain high levels of integrity and honesty in their academic progress. The ASU Student Academic Integrity Policy is strictly enforced and followed. A student with an alleged violation is required to discuss the violation with the professor. A student charged with a violation of the student academic integrity policy will have the opportunity to appeal the charge and be heard by the Ira A. Fulton Schools of Engineering standards hearing board, which provides recommendations to the dean or the dean's designee. The dean or dean's designee will review the recommendation and render a decision. If the decision is suspension or expulsion, the student may appeal to the Office of the University Provost. Policy information is located at <https://provost.asu.edu/academic-integrity> [2].

The Ira A. Fulton Schools of Engineering have developed and enforce a number of academic standards. These standards are designed to support students and ensure the quality of the schools' graduates.

Undergraduate Policies

Academic Standing

Student Responsibilities

Students need to make many decisions as they complete their degrees. While the schools and the university have a number of resources available (e.g., faculty, courses, advisors and tutors) to help with decision-making, students are expected to take responsibility for their decisions.

Ira A. Fulton Schools of Engineering Good Standing

Students are expected to select and successfully complete courses that lead to the timely completion of their degree programs. Students are said to be in good standing if they fulfill all the following:

- maintain acceptable GPAs
- enroll and complete critical tracking requirements
- complete courses each semester that are applicable to their degrees

Ira A. Fulton Schools of Engineering Probation

There are many reasons why some students do not make satisfactory progress. These students are placed on Ira A. Fulton Schools of Engineering academic probation to ensure they get the extra attention and resources they need that will help them get back in good standing. Working with an academic advisor to plan a strategy for success is crucial. Students may be required to reduce their course loads (13 credit hours maximum), retake courses or even take courses outside of their programs.

To return to academic good standing in the Ira A. Fulton Schools of Engineering, students with probation status need to earn a minimum semester GPA of 2.25 and earn a minimum cumulative ASU GPA of 2.00 at the end of the probation semester. If enrolled in only one course, a grade of "C+" (2.33) or better and a minimum cumulative ASU GPA of 2.00 is required to obtain academic good standing. Students who meet either the semester GPA requirement or the cumulative ASU GPA requirement at the end of their first probationary semester may be continued on probation.

Conditions for Ira A. Fulton Schools of Engineering Probation

A student is placed on college or university probation status when specific academic expectations are not met. Some conditions trigger an automatic placement on probation whereas others trigger an automatic review of the student's case to determine if probation is warranted. When a probation review is triggered, the final decision and any conditions of probation are determined at the program level.

Automatic probation is triggered by any of the following:

- two successive semesters with GPAs less than 2.00
- an ASU cumulative GPA less than 2.00

Automatic review (borderline) is triggered by any one of the following:

- a semester with a GPA less than or equal to 2.00
- a cumulative GPA in the major of less than 2.00

Courses completed during summer sessions are not used to reevaluate a student's probationary status.

Ira A. Fulton Schools of Engineering Continuing Probation

A student in current probationary or continuing probation status at the university level is placed on college continuing probation status when specific academic expectations are not met. When a continuing probation review is triggered, the final decision and any conditions of continuing probation are determined at the college level.

To return to academic good standing in the Ira A. Fulton Schools of Engineering, students with continuing probation status need to earn a minimum semester GPA of 2.25 and earn a minimum cumulative ASU GPA of 2.00 at the end of the probation semester. If enrolled in only one course, a grade of "C+" (2.33) or better and a minimum cumulative ASU GPA of 2.00 is required to obtain academic good standing.

Automatic continuing probation is triggered by any of the following:

- a probationary student does not attain a semester GPA of 2.25 or higher and has a cumulative GPA of at least 2.00 at the end of the probation semester
- a probationary or continuing probationary student obtains a semester GPA of 2.25 or higher and has a cumulative GPA less than 2.00

Ira A. Fulton Schools of Engineering Ineligibility

Students who are on continuing probation and fail to meet the schools' retention standards become ineligible to continue working toward a degree within the Ira A. Fulton Schools of Engineering.

Ineligibility occurs if the continuing probationary student does any of the following:

- does not attain a semester GPA of 2.25 or higher and has a cumulative GPA of at least 2.00 at the end of the probationary semester
- has already been on probation for two consecutive semesters
- fails to complete any courses appropriate for the degree during each semester

Ineligible students are subject to the following limitations:

- Students who change colleges may not register for courses in the Ira A. Fulton Schools of Engineering unless the courses are required by their new majors.
- Students who register for courses in the Ira A. Fulton Schools of Engineering may be withdrawn from these courses any time during the semester they are registered.

Ineligible students are encouraged to consider these options:

- Students may be eligible to change their majors to other colleges if they are in university academic good standing and have acceptable cumulative GPAs; the acceptable GPA level depends on the number of hours of completed coursework. Students should contact their advisor to determine if this is an option for them.
- Students may take nonengineering courses during summer sessions.
- Students may request a status review by contacting the Office of Academic and Student Affairs.

Ira A. Fulton Schools of Engineering Disqualification

Students who are on probation or continuing probation and fail to meet the schools' retention standards become disqualified to continue working toward a degree within the Ira A. Fulton Schools of Engineering.

Disqualification occurs if the probationary/continuing probationary student does not attain a semester GPA of 2.25 or higher and has a cumulative GPA less than a 2.00 at the end of the probation semester.

Disqualified students are subject to the following limitations:

- A disqualified student is not allowed to register in a fall or spring semester at the university. If the student has already registered for a future fall or spring semester, the registration is canceled.
- A student who has been disqualified may apply for readmission to the college after one calendar year.
- A disqualified student may not attend as a nondegree student.
- If a disqualified student elects to attend another university or two-year college, any credits earned there will not affect the ASU cumulative GPA. A course repeated elsewhere will not result in a replacement of a grade earned at ASU.

Advising

Successful completion of a program in the Ira A. Fulton Schools of Engineering requires careful planning. While final responsibility lies with each student for becoming familiar with and understanding academic degree requirements, each program employs professional academic advisors who work with students in setting academic and career goals, understanding school and university policies and procedures, meeting degree requirements, and becoming familiar with sources of academic support within the university. Students may also work with faculty advisors familiar with the chosen fields of specialization. Students should consult with their advisors prior to registering each semester. A list of program advisors can be viewed at <https://engineering.asu.edu/advising> [3].

Students are encouraged to use the eAdvisor tool for academic planning. This service provides critical requirements and major maps, which are individualized student reports that lay out a specific, clear and accurate path to timely completion of each student's intended degree. eAdvisor is accessed at <https://eadvisor.asu.edu> [4].

Many students find it necessary to work while attending ASU. The working student should endeavor to create a careful balance of work and class responsibilities to avoid academic problems. Students should inform their academic advisors of any outside work or activity so that course loads may be adjusted accordingly.

Staff in the Office of Academic and Student Affairs in the Ira A. Fulton Schools of Engineering are available to assist individual students with many different types of advising issues. They work with students to answer general questions about policies and procedures; help with registration transactions; administer the probation, disqualification and readmission processes; oversee disciplinary actions; hear grade grievances; and, assist with other administrative matters.

Mandatory Advising

All first-year students, student athletes, and students who are found to be having academic difficulty are required to be advised before they can register for classes, including summer sessions classes. Some programs relax the advising requirement after the first year, so students should consult their academic advisor or review the My Tasks list in My ASU to determine if advising is required.

Credit/Registration

Students are required to register for courses using one of the university-provided processes. As part of the registration process, the school enforces the following registration restrictions:

Maximum Hours

Students enrolled in undergraduate degree programs in the Ira A. Fulton Schools of Engineering may register for a maximum of 19 credit hours per semester. Any student wanting to register for more than the maximum must submit a college standards petition and have an approval on file prior to registering for the overload.

Ira A. Fulton Schools of Engineering Probationary Status

Students who have been placed on academic probation with the Ira A. Fulton Schools of Engineering must meet with their academic advisors and complete their probation success plans. (The success plan is designed to assist students in identifying a path to academic success and can be found at https://engineering.asu.edu/advising/wp-content/uploads/sites/7/2014/11/ProbationSuccessPlan_2010.pdf [5].) Students on academic probation with the Fulton Schools may enroll in a maximum of 13 credit hours per semester.

Degree Requirements

Undergraduate Nondegree Status

Students who are enrolled in an undergraduate nondegree status in the schools must obtain advising and approval to register from the Office of Academic and Student Affairs before registering each semester.

Course Prerequisites

Students should consult the schedule of classes and the catalog for course prerequisites. Students who register for courses without the designated prerequisites may be withdrawn without their consent at any time before the final examination. Such withdrawal may be initiated by the course instructor, the program chair of the program offering the course or the dean of the college. In such cases, students will not receive monetary reimbursement.

Pass/Fail Grades

Students requesting credit for pass/fail courses taken at another institution must file an Ira A. Fulton Schools of Engineering standards petition. Each request is judged on its particular merits.

Non-Ira A. Fulton Schools of Engineering Students

Students who are not admissible to programs in the Ira A. Fulton Schools of Engineering and who enroll in another college at ASU may not register for any 300- or 400-level courses in the schools unless the courses are required in their degree programs and the students have the proper course prerequisites.

First-year Composition Requirement

Completion of the first-year composition requirement is required for graduation. Any student whose written or spoken English in any course is unsatisfactory may be required by the appropriate school director or program chair to take additional course work. The first-year composition requirement is at https://catalog.asu.edu/ug_grad_req [6].

Concurrent Degrees

Students interested in pursuing a concurrent degree should consider:

- The degree conferral date - This occurs when all degree requirements are satisfied for each undergraduate degree program; that is, students receive both degrees at the same time regardless if course work for one degree is completed prior to the other degree.
- Admission criteria, policy for double-counting credits, and other requirements and rules are defined by the school or college offering the degree program.
- Financial Aid and scholarship limits apply and may not cover all semesters. Therefore, students may need to invest more time, and hence more funds, to complete concurrent degrees.

Once a decision is made to pursue a concurrent degree:

- A student pursuing a concurrent degree must meet with both program advisors to learn about degree and graduation requirements of both degree programs and the eligibility requirements for filing a petition. Both advisors should review the graduation plan that outlines courses the student will take each semester.
- The student must file a standards petition form with each respective school or college offering the desired degree programs to request permission to pursue the concurrent degrees.
 - The petition form is available online at <https://students.asu.edu/node/1834> [7].
 - The petition form is also available in-person from the program academic advisor

Petition approvals result in the posting of concurrent degrees in PeopleSoft. If the student later decides to 'drop' one of the degrees, the student should inform the University Registrar Services [8] Graduation Office if no longer interested in pursuing concurrent degrees.

Change of Major

Students interested in switching majors to one of the programs within the Ira A. Fulton Schools of Engineering must meet the schools' admission requirements for transfer students. Change of major is not guaranteed, and students interested in changing majors are encouraged to make an appointment with an advisor in the program of interest to discuss the probability of success and to develop a plan of action to ensure successful advancement to upper-division courses. For admission information, students should visit <https://engineering.asu.edu/admission-requirements/> [9].

Students who were admitted as freshmen into the Ira A. Fulton Schools of Engineering, with the exception of The Polytechnic School, and who have maintained continuous enrollment in any Fulton Schools major may choose to change to any other major within the Ira A. Fulton Schools of Engineering provided they are in good academic standing [10]. Students admitted to The Polytechnic School must meet the transfer admission requirements in order to change to a Fulton Schools major outside of The Polytechnic School.

Transfer students who have been admitted to the Ira A. Fulton Schools of Engineering from a non-ASU institution or another college within ASU must meet transfer admission guidelines in order to change to any other major within the Ira A. Fulton Schools of Engineering.

Evaluation of Previous Coursework

Transferring from one institution to another or between programs can result in a net loss of credits that count toward the degree. Thus, it is important for students who contemplate transferring into the Ira A. Fulton Schools of Engineering from other institutions, whether community colleges or four-year institutions, to carefully study the requirements of their degree programs to get a sense of which courses may transfer.

Credit is granted for transferred courses deemed equivalent to corresponding courses in the selected program of study, subject to grade and ASU resident credit requirements. No grades lower than "C" (2.00) are accepted as transfer credit to meet the graduation requirements of the schools. Credits transferred from a community college or two-year institution are applied only as lower-division credits. For a listing of the acceptable courses transferable to the various degree programs, prospective Arizona transfer students should consult their advisors and refer to the ASU transfer tools available at <https://transfer.asu.edu> [11].

Some courses taken at ASU or other universities may be acceptable for general university credit but may not be applicable toward the degree requirements of the schools. Determination of those particular courses applicable to a specific degree program is made within the appropriate academic unit with approval of the dean.

Currency of Coursework

Courses taken more than five years before admission to degree programs in the Ira A. Fulton Schools of Engineering are not normally accepted for credit in the engineering major, at the option of the program in which the applicant wishes to enroll. However, students still may earn university elective credit or general studies credit for these courses. Courses completed within the five years preceding admission are judged for their applicability to the student's curriculum.

General Education Development

Students admitted to the university after successful completion of a GED examination are directly admitted to the Ira A. Fulton Schools of Engineering (BSE or BS) program within their majors, provided they meet the minimum ACT or SAT score required for freshman admission to the Ira A. Fulton Schools of Engineering.

Graduation Requirements

To qualify for graduation, an Ira A. Fulton Schools of Engineering student must have a minimum cumulative ASU GPA of 2.00 in addition to having a GPA of at least 2.00 for the courses in the major.

University Graduation Requirements

In addition to program and the Fulton Schools' requirements, students must meet all university graduation requirements. A well-planned program of study enables students to meet all requirements in a timely fashion. Students are encouraged to consult with an academic advisor in planning a program, to ensure they comply with all necessary requirements. University graduation requirements can be found at https://catalog.asu.edu/ug_grad_req [6].

Reinstatement/Readmission

Readmission

Undergraduate degree-seeking students who previously attended ASU in the Ira A. Fulton Schools of Engineering but have not been enrolled at ASU for one fall or spring semester or no more than two consecutive semesters are eligible to return through quick reentry. Students do not need to submit a new application or application fee, but they must contact an academic advisor in their program for registration.

Undergraduates who have been away from the university for three or more semesters and want to return to ASU in an Ira A. Fulton Schools of Engineering program are required to apply for readmission through the admission services office. Readmission requests are processed as follows:

1. School of Engineering students seeking readmission to the same program they left, and who left ASU with either academic good standing or probation status, are readmitted to the degree program they left with the same academic standing (i.e., good academic standing or probation) they had when they left ASU.
2. Students seeking readmission to an Ira A. Fulton Schools of Engineering program other than the program they left and who have an ASU GPA of 3.00 or higher are readmitted to the degree program with the same academic standing (i.e., good academic standing or probation) they had when they left ASU.

3. Students seeking readmission to an Ira A. Fulton School of Engineering program other than the program they were in when they left ASU with either academic good standing or probation status and who have an ASU GPA less than 3.00 are subject to the process of admission by change of major. These requests for readmission are reviewed on an individual basis. If the request for readmission is approved, the student is readmitted to the new degree program with the same academic standing (i.e., good academic standing or on probation) he or she had when leaving ASU.
4. Students seeking readmission to an Ira A. Fulton Schools of Engineering program and who left ASU with either ineligible or disqualified status are subject to review by the Office of Academic and Student Affairs and the program.
 - o Readmission is only considered after a student has remained out of the Ira A. Fulton Schools of Engineering for a minimum of 12 months.
 - o A student is required to supply proof he or she is now capable of successfully completing courses in the discipline by the completion of at least 15 hours of appropriate course work with a GPA of 3.00 or higher and a cumulative (ASU plus transfer) GPA of at least 2.50.
 - o If the readmission request requires a change of major, then the student must complete the review process for admission by change of major.
 - o If readmission is approved, the student will return with continued probation status in the appropriate degree program.

Once readmitted, returning students are required to meet with a program advisor before enrolling in courses at ASU.

Other Special Requirements

Advancing to Upper-division Courses

The faculty in the Ira A. Fulton Schools of Engineering have identified a set of critical requirements in the first four semesters of each program whereby performance in these critical requirements is a key component in progressing in the chosen major. These critical requirements include a set of courses and performance levels required in those courses and are outlined on the major maps.

Graduate Policies

Policy for Maintaining Satisfactory Academic Progress

A student who has been admitted to a graduate degree program in the Ira A. Fulton Schools of Engineering, with either regular or provisional admission status, must maintain a 3.00 or higher GPA in all of the following:

1. all work taken for graduate credit (courses numbered 500 or higher)
2. coursework in the student's approved plan of study
3. all postbaccalaureate course work taken at ASU (overall GPA)

A student will be placed on academic probation if one or more of the student's GPAs listed above falls below 3.00. Students will be notified by mail when placed on academic probation.

A student will earn academic good standing by obtaining a 3.00 or better in the GPAs listed above by the time the next nine hours are completed. Coursework such as research and dissertation and any course that is graded with a "Z" (in progress) or "Y" (satisfactory) cannot be included in these nine hours.

A student may be recommended for dismissal from a graduate program if the student fails to increase all of the GPAs listed above to 3.00 or better by the time he or she completes at least nine credit hours as defined in the previous paragraph.

A student may appeal actions concerning dismissal by petitioning the program in which they are enrolled.

Academic units in the Ira A. Fulton Schools of Engineering can expand this policy statement to include additional policy governing the satisfactory academic progress of the students in their graduate programs.

Additional Graduate Policies

Full details of policies related to graduate students in the Ira A. Fulton Schools of Engineering can be found on each program's Web page. For a list of programs, visit <https://engineering.asu.edu> [1]. University policies related to graduate students can be found at <https://graduate.asu.edu> [12].

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies including those of the Graduate College and the Ira A. Fulton Schools of Engineering.

School for the Future of Innovation in Society Policies

The transdisciplinary programs and coursework offered by the School for the Future of Innovation in Society focus on the intersections of science, technology, development, innovation and society, enabling students to engage and rethink the social and technical aspects of innovation. They are then able to envision, design and build the futures people would want to inhabit. The transdisciplinary team of faculty has an extraordinary track record of research and service. They are dedicated to teaching and mentoring students and cultivating the knowledge, skills and dispositions with which the school's graduates will approach and construct the future.

Academic Integrity

At ASU, students are part of an academic community that is engaged in learning and inquiry and based on the quest for truth, thus committing themselves to a path of honesty and integrity. Therefore, it is expected that they integrate that responsibility with their conduct. Students' coursework, research and projects must be original and reflect individual effort and integrity. When in doubt about appropriate conduct, students should consult a faculty mentor to seek clarification. The School for the Future of Innovation in Society has a zero-tolerance policy for any form of academic misconduct. Penalties for unethical behavior range from being placed on academic probation to being dismissed from the program.

The ASU Student Academic Integrity Policy determines all related violations of this policy and will be strictly followed and enforced. A copy of the policy is available at <https://provost.asu.edu/academic-integrity> [1].

Undergraduate Policies

Academic Standing

To be considered in academic good standing in the School for the Future of Innovation in Society, students must have at least a cumulative GPA of 2.00 or higher.

Probation

Students who do not achieve a 2.00 GPA will be placed on university academic probation and must meet with an advisor to discuss academic success strategies. Students on academic probation will be required to take UNI 220 Academic Refresher. UNI 220 will appear on the students' DARS as a graduation requirement. In addition, students who have fewer than 24 credit hours will be required to participate in the ASU Pathway for Achieving Student Success program [2].

Within one semester, a student on academic probation must do one of the following:

1. Raise the ASU cumulative GPA to 2.00 or higher to return to academic good standing.
2. Obtain a semester GPA of 2.00 or higher to be continued on probation. Students on continued academic probation may continue for as many semesters as needed to achieve academic good standing.

Disqualification

Students who fail to meet the criteria for continued probation may be disqualified from ASU. Students who have been disqualified may attend summer sessions but not fall or spring sessions until they are qualified to be readmitted.

Once readmitted, the student may be placed on academic probation for at least two semesters. Students on probation will have two semesters to raise their cumulative GPA to meet ASU academic good standing (2.00). Failure to do so will result in disqualification from the university. Refer to the School for the Future of Innovation in Society undergraduate handbook for more information.

Academic Policy Appeals

Academic appeals regarding school policies should be discussed with the student's academic advisor, and students may be required to submit a petition to the School for the Future of Innovation in Society Undergraduate Programs Committee

within the semester of probation or the one immediately following. Some petitions may require a secondary review by the ASU University Undergraduate Standards Committee.

Academic Advising

All students are encouraged to seek advising before registration. Students must follow the calendar published in the registration and tuition payment guide each semester for information and deadlines pertaining to enrollment, adding or dropping classes and withdrawals.

In addition to information provided by an academic advisor, students are expected to read the requirements for the university's General Studies and major degree requirements in their edition of the ASU academic catalog. The ASU academic catalog is the governing source for all degree requirements.

Advising Information: <https://sfis.asu.edu/student-life/academic-resources/advising> [3]

Mandatory Advising

The following students in the School for the Future of Innovation in Society must receive advising clearance prior to course registration:

- new and transfer students in their first two semesters of attendance
- readmitted students in their first returning semester
- students on academic probation or continued probation
- students with 87 credit hours or more completed
- students who are off track for graduation
- students who have been disqualified

Students are encouraged to check their advising status requirements each semester before attempting any registration transactions through My ASU [4].

Credit/Registration

Students enrolling in courses offered by the School for the Future of Innovation in Society are expected to follow the rules and deadlines specified in this catalog and the current registration and tuition payment guide. Students are encouraged to meet with their academic advisor before registration.

Course Load

Students may enroll in a maximum number of 18 credit hours per fall or spring semester, with a maximum number of nine credits taken in session A or session B. Students may enroll in a maximum of 14 credits for a summer session, with no more than seven credits in session A or session B. Any student wishing to enroll in more than the 18 credit hour limit in the fall or spring (or 14 in summer) or more than the nine credit hour limit in an A or B session (or seven hour limit in summer) should first meet with their academic advisor to discuss a course overload.

More details on credit hour limits are available at https://catalog.asu.edu/course_load [5]. For more details on the petitioning process, students should contact the school's advising office.

Repeat/Replace Policy

Students wishing to repeat courses and possibly replace prior course grades must follow the policy stated in the university's Student Services Manual regarding the number of credit hours that can be repeated and the types of courses that are eligible for a grade replacement.

Students wishing to repeat a course for a third time must petition the School for the Future of Innovation in Society Undergraduate Program Committee. Students should contact the advising office for information.

Pass/Fail Grade Options

A grade of "Y" (satisfactory) contributes to a student's earned hours but does not affect the GPA. A failing grade of "E" is calculated into the GPA.

The pass/fail grade option may be used under the following conditions:

- Approval has been granted from the instructor and the School for the Future of Innovation in Society Undergraduate Program Committee.
- Enrollment for the pass/fail option must be indicated during registration and may not be changed after the drop/add period.
- A maximum of 12 hours taken for pass/fail may be counted toward graduation.

School for the Future of Innovation in Society students may not enroll under the pass/fail option in the following courses:

- first-year composition requirements
- General Studies requirements
- honors credits
- language proficiency requirements
- major, minor, concentration area or certificate program

Audit Grade Option

Students may choose to audit certain courses in which they attend regularly scheduled class sessions but earn no credit. Students should obtain instructor approval before registering for the courses. The option to audit is not available for all courses. This grade option may not be changed after the drop/add period.

Degree Requirements

All candidates for graduation are required to complete at least 120 credit hours, of which at least 45 hours must consist of upper-division courses. A minimum ASU cumulative GPA of 2.00 is required for graduation. All new School for the Future of Innovation in Society freshman students are required to enroll in the FIS 101 course during their first ASU semester.

Minors

The school offers a minor in Innovation in Society. Students may not use courses in their minors toward their majors and, similarly, students may not use courses in their majors to fill the requirements of their minors.

Concurrent Degrees

The School for the Future of Innovation in Society allows students to request approval to pursue a concurrent degree if they:

- have completed at least 30 graded credit hours
- are in good academic standing
- have a minimum GPA of 2.00

Concurrent degrees may not be from the same discipline or have overlap in the core courses required for each major.

Students must earn at least 30 unique credit hours for each degree.

To request a concurrent degree, the student must meet with an academic advisor and fill out the School for the Future of Innovation Standards Petition form [6]. If the second program is outside of SFIS, the student will also be required to get approval from the other college or school that offers the concurrent degree program.

Critical and Necessary Requirements

All undergraduate majors at ASU are provided an eight-term course plan, called a major map, that leads them to graduation in four years. School for the Future of Innovation in Society students must meet the critical and necessary requirements listed on their major maps.

A student who does not comply with the critical requirements is off track and will have a hold placed on their record. To have the hold removed, the student will be required to meet with a School for the Future of Innovation in Society academic advisor. For more information about critical requirements, students should refer to the corresponding major map or eAdvisor at <https://eadvisor.asu.edu/> [7].

Readmission

Students who have been disqualified from ASU may be readmitted when they submit a letter of explanation to the School for the Future of Innovation in Society Undergraduate Program Committee for a fall or spring semester if they complete one of the following:

1. Raise their ASU cumulative GPA to good academic standing (2.00) by taking ASU summer session courses.
2. Complete 12 or more transferable credit hours at a community college or university with no grades lower than "C" and a GPA of 2.50 or better. Courses in which the student failed or received a "D" at ASU should not be repeated at another institution.

Once readmitted, the student may be placed on academic probation for at least two semesters. Students on probation will have two semesters to raise their cumulative GPA to meet ASU academic good standing (2.00). Failure to do so will result in disqualification from the university.

Graduate Policies

The school's graduate policies are guided by the university policies on graduate studies. For details, students should see <https://graduate.asu.edu/policies-procedures> [8].

Academic Standing

Students are expected to make planned and systematic progress toward completion of their graduate program. This progress includes being in good academic standing and achieving the benchmarks and requirements set by the programs, including additional satisfactory progress policies. Students are responsible for verifying that all these requirements are met as well as any additional requirements concerning satisfactory academic progress, probation and disqualifications.

Students failing to satisfy their graduate program requirements or the benchmarks outlined below may be recommended to the Graduate College for dismissal from their programs. Details are available at <https://graduate.asu.edu/key-policies> [9].

To be in good academic standing, students are required to maintain a minimum 3.00 GPA on all GPAs (plan of study, cumulative and graduate). These include all coursework on their approved interactive plan of study, on all postbaccalaureate course work taken at ASU, and on graduate credit courses (those numbered 500 or higher).

A student with a cumulative GPA less than 3.00 will be placed on academic probation and may be subject to dismissal. If any GPA falls below 3.00, the student must develop, with the advisor, an academic performance improvement plan that includes the conditions and time frames for making satisfactory academic progress in their degree program. The student is considered to be on academic probation until the conditions specified in the academic performance improvement plan are met and GPAs are greater than 3.00. Coursework such as research and dissertation and any course that is graded with a "Z" (in progress) or "Y" (satisfactory) cannot be included in the GPA.

Students must also satisfy the maximum time limit for graduation from the student's graduate program (six years for master's degrees and certificates, 10 years for doctorates).

Students must successfully pass any comprehensive exams, qualifying exams, foreign language exams, and an oral defense of the proposal or prospectus for the thesis, dissertation or any other culminating events required for their program.

Students must stay continuously enrolled in their graduate degree program. Failing to do so without a Graduate College-approved request to maintain continuous enrollment is considered to be a lack of academic progress and will lead to automatic dismissal of the student from the graduate program.

Degree Requirements

Each graduate student in the school will be required to file an interactive plan of study by the time they have enrolled for 50 percent of the minimum credit hours required for their degree program. Once admitted, the student will meet with the faculty or program advisors to begin to prepare their plan.

While the ultimate responsibility for understanding the requirements of their respective academic degrees remains with each student, the School for the Future of Innovation in Society provides advising services to students that will help them understand the school's policies and procedures and allow them to set their academic goals.

Students must fulfill all requirements of their individual graduate programs and abide by all university policies, including those of the Graduate College. Full details of policies and procedures related to the school's graduate programs can be found on each program's webpage at <https://sfis.asu.edu/degree-programs> [10].

Thunderbird School of Global Management Policies

Thunderbird School of Global Management is the historic leader in global management education, setting the pace in global organizational management since 1964 with a specialized education that combines fundamental business studies with language and business environmental and cultural studies. From its first days as a unique school in the desert, it has grown into the leading school of international business and management. Along the way, it embraced innovation, but it has always focused on graduates who are ready to make a difference. At no other time in history has there been a greater need for managers who can boldly lead global organizations, work with diverse teams and integrate far-reaching logistical networks of suppliers, customers and partners.

A Thunderbird education is designed for bold and progressive thinkers in a world of complex, global organizational leadership. The student learning experience will be pragmatic and relevant. From the diverse life experiences of colleagues to cases that are always global and to applied experiences like Thunderbird Emerging Market Laboratories, this is a unique educational experience. Its graduates expect to hit the ground running in environments that are not always predictable and familiar.

Academic Integrity

Academic honesty is expected of all students in all examinations, papers, laboratory work, academic transactions and records. The ASU Student Academic Integrity Policy is strictly enforced for students found in violation of this policy. Possible sanctions include appropriate grade penalties, loss of registration privileges, disqualification and dismissal. More information is available at <https://provost.asu.edu/academic-integrity> [1].

For more information on graduate specific policies, students should refer to the specific graduate program manual, and they should also see <https://graduate.asu.edu/academic-integrity> [2].

Undergraduate Policies

Academic Standing

To maintain satisfactory academic progress, all students in the Thunderbird School of Global Management must:

1. maintain a minimum 2.00 GPA each semester
2. maintain a minimum 2.00 cumulative GPA

Probation

A student is placed on probation at the end of the fall or spring semester if their GPA falls below 2.00.

Continuing Probation

Students are placed on continuing probation when their cumulative GPA is below 2.00 for two consecutive semesters but they have shown academic progress.

eAdvisor Tracking

In addition to being in university good academic standing, all students in the Thunderbird School of Global Management must adhere to ASU critical tracking requirements, per the pertinent major map. Students are off track if they fail to meet ASU critical tracking requirements for two consecutive semesters. For more information on critical tracking courses, students should see <https://webapp4.asu.edu/programs/t5/MajorMaps> [3].

Students who remain in off-track status for two or more consecutive semesters may be required to change majors.

Disqualification

Students are disqualified from ASU if their cumulative GPA remains below 2.00 for more than two consecutive semesters. Students who are disqualified are not allowed to enroll in the following fall or spring semester.

Remediation

Students are required to meet with an academic advisor if they are placed on probation, continuing probation, off-track status or are at risk for disqualification, at which point an appropriate remediation plan will be discussed.

Advising

The Thunderbird School of Global Management is committed to maximizing the personal, social and academic experiences of students by providing high quality, student-centered academic advising, ensuring the accuracy and accessibility of information and resources, and partnering with students to help them reach their career goals.

Academic advising is required for the following students:

1. All freshman and new transfer students are required to meet with an academic advisor before course registration. Thus, freshmen are required to meet with an academic advisor prior to both their first and second semesters.
2. Students not in satisfactory academic standing (i.e., probation, continuing probation, off-track status, disqualification, etc.) are required to meet with an academic advisor to discuss a remediation plan.

Faculty and staff utilize academic status reports to provide student feedback over the course of the academic semester and year. Academic Status Reports may be used to identify students who are struggling academically or professionally or to recognize students who are exceeding in coursework. Academic advisors and faculty mentors may access ASRs to provide students with valuable insight into performance improvement <https://students.asu.edu/asrr> [4].

Credit/Registration

Course Load

Students are allowed to register for a maximum of 18 credits per semester. Students may petition the Thunderbird School of Global Management Standards Committee through their program director to register for more than the maximum allowable. No student should assume that a petition for overload will be granted. For more information, students should see https://catalog.asu.edu/course_load [5].

Transfer credits from other institutions may be accepted and applied based on the student's major. The Thunderbird School of Global Management recommends that students work closely with their academic advisor to determine the process for applying pertinent transfer credit hours to their program of study. More information on the transfer process is available at <https://transfer.asu.edu> [6].

Transfer Work

Credit is granted for transferred courses deemed equivalent to corresponding courses in the selected program of study, subject to grade and ASU resident credit requirements. No grades lower than "C" (2.00) transfer to ASU. Credits transferred from a community college or two-year institution are applied as lower-division credits. For a list of the acceptable courses transferable to the various degree programs, prospective Arizona transfer students should consult their advisor and refer to the ASU transfer tools at <https://transfer.asu.edu> [7].

Course Prerequisites

Course prerequisites are established to ensure student success in a course. Students must complete all course prerequisites prior to enrolling in the desired course. Prerequisite overrides may be granted under the following conditions:

- A transfer course has been accepted by advisor to fulfill required course prerequisite.
- A prerequisite override has been granted by an advisor, instructor, or other authority.

Grade of Incomplete

A grade of incomplete for a course may be granted by permission of the instructor under the following conditions:

- The student is in good standing academically at ASU.
- The student has completed a substantial portion of the required coursework.
- The student has experienced extenuating circumstances prior to the end of the semester, preventing completion of the course. <https://students.asu.edu/forms/incomplete-grade-request> [8]

If qualified, students have one calendar year to complete course requirements. If requirements are not met per the standards agreed upon with the course instructor after one calendar year, the incomplete will be adjusted to reflect a course failure.

Pass/Fail Grade Option

A grade of "Y" (satisfactory) contributes to a student's earned hours but does not affect the GPA. A failing grade of "E" is calculated into the GPA.

The pass/fail grade option may be used under the following conditions:

- Approval has been granted by the instructor and college offering the course.
- The pass/fail option was chosen during initial registration for the course, if available.

Thunderbird students may not enroll under the pass/fail option in the following courses:

- those taken to satisfy first-year composition requirements
- those taken from the student's major, minor or certificate program
- those taken for honors credits
- those counted toward satisfying Thunderbird general studies requirements
- those counted toward satisfying Thunderbird language and culture proficiency requirements

Pass/fail credit taken at another institution may be petitioned for use, but only if the student can demonstrate proof that the pass grade was equivalent to a "C" (2.00) or higher.

Withdrawal

Complete Session Withdrawal Information

Since a complete session withdrawal from the university can be a difficult decision and could result in serious academic and financial consequences, undergraduate students are required to contact the college or school of their major to facilitate the withdrawal process.

Students must complete the following steps in the order in which they are listed:

1. Fill out a complete session withdrawal form (<https://students.asu.edu/forms> [9]).
2. Make an appointment with their advisor, and take the form to the appointment.

ASU has many resources in place to help students. Students may want to consider one or more of the following:

- **Withdraw from just one or two classes (course withdrawal):** Students may withdraw from a class while remaining enrolled in other classes as long as the withdrawal is completed between the drop/add deadline and the course withdrawal deadline. Students are encouraged to contact their academic advisor to discuss the impact this may have on meeting critical requirements. Students are also encouraged to contact a financial aid representative to consider any impact withdrawing will have on scholarships, grants and loan packages.
- **Request a medical or compassionate withdrawal:** Medical or compassionate withdrawals are available for students withdrawing from one or more classes due to extraordinary personal mental or physical health conditions or the death or serious illness of a family member or close friend. If approved, students are allowed one medical or compassionate withdrawal during their academic career with Thunderbird. For information concerning medical or compassionate withdrawal requests, students should see <https://students.asu.edu/forms/medical-compassionate-withdrawal-request> [10], and they may obtain the form here: <https://students.asu.edu/files/Medical-Compassionate%20Withdrawal%20Request.pdf> [11].
- **Seek tutoring or academic support services:** The Student Success Center provides a variety of services to help students become better learners and gain the confidence and skills to achieve their academic goals. Services include writing centers, math tutoring, subject area tutoring and supplemental instruction. For more

information concerning the Student Success Center, students should visit <https://tutoring.asu.edu/student-services/tutoring> [12].

- **Make an appointment with ASU's Counseling Services:** Counseling and mental health services are provided at each of the four ASU campuses. ASU students may seek services at any of the campus counseling centers, regardless of their college affiliation. For more information, students should visit <https://eoss.asu.edu/counseling/location> [13].
- **Explore the possibility of an "I" (incomplete) grade.**

Possible consequences resulting from a complete session withdrawal:

- **financial aid:** Financial aid recipients who completely withdraw from the university may be responsible for immediate repayment of funds. The effect of a complete withdrawal of financial aid depends on when the withdrawal is dated and the type of financial aid. More information is at <https://students.asu.edu/financialaid> [14].
- **tuition and refunds:** The date of a complete withdrawal will determine whether or not a tuition refund will be generated. Students should review the tuition refund policy for more information. <https://students.asu.edu/tuitionrefundpolicy> [15]
- **health insurance:** Students should contact their health insurance company to determine whether or not withdrawing from the university affects their coverage.
- **residential life:** Students who live on campus should contact their residential hall community staff to determine what impact withdrawing will have on their eligibility to live on campus; to complete a license agreement release form; and to arrange an appointment to officially check out. More information is at <https://housing.asu.edu/residence/casa-de-oro> [16].
- **veteran benefits and certifications:** Students should contact the appropriate veteran benefits and certifications office to discuss information regarding veterans' educational benefits and military activation. For more information, students should email w.westvso@asu.edu [17] or visit <https://veterans.asu.edu> [18].

For general university withdrawal procedures, students should see <https://students.asu.edu/drop-add> [19].

Degree Requirements

Undergraduate Degree Requirements

All candidates for graduation in the BGM or BS curricula are required to present at least 120 credit hours, of which at least 45 credit hours must consist of upper-division work. A minimum cumulative GPA of 2.00 is required for graduation.

It is the student's responsibility to be aware of the degree program requirements and to select courses accordingly.

To graduate, a student must satisfy the following requirements:

1. ASU 101 or equivalent (freshman students)
2. college proficiency requirements for language
3. university first-year composition and General Studies requirements
4. an additional combined six credit hours of literacy (L) (three hours total) and humanities, arts and design (HU)/social-behavioral sciences (SB) (three hours total) at the upper-division level, in addition to 29 credit hours of General Studies coursework
5. major requirements that involve concentrated course work in one program
6. successful completion of critical-tracking courses as required on the student's major map

For more information regarding eAdvisor tools, students should visit <https://eadvisor.asu.edu> [20].

Language Proficiency Requirement

Each student is required to demonstrate proficiency in the analysis of language by passing an examination or by completing the courses specified below with a grade of "C" (2.00) or higher in each course. Students considering graduate work after completion of the bachelor's degree should consult with faculty advisors regarding language requirements in their intended areas of study. Students should see the program major map for the specific language requirement. Contact the advising office for information on applicable coursework.

The language proficiency requirement may be satisfied through one of the following:

- completion of secondary education at a school in which the language of instruction is not English

- completion of a language course at the intermediate level (202 or equivalent)
- completion of an upper-division course or courses taught in a foreign language, taken in the United States or the relevant country
- completion of six credit hours of upper-division courses that have the global awareness designation (G) or cultural diversity in the U.S. designation (C) in addition to the courses used to meet the university general studies requirements

Students whose native language is not English who choose to take a second language must meet or exceed a TOEFL score of 100 or more to register for a non-English language class in the first or second semesters. All students whose native language is not English may register for a language class in their third semester. The first two semesters of English immersion will solidify their English proficiency before a new language is attempted.

Concurrent Degrees

Students who are interested in pursuing concurrent degrees may petition the Thunderbird School of Global Management Standards Committee through their academic advisor. https://catalog.asu.edu/sites/default/files/attachment/tbird_concurrent_degree_petition.pdf [21]

Thunderbird School of Global Management requires that students interested in applying for a concurrent degree meet the following criteria:

1. a minimum cumulative GPA of 3.00
2. a minimum of 12 credit hours of coursework completed in the first major
3. a minimum of nine credit hours of coursework completed in the second major
4. petition for approval to pursue a concurrent degree before the final semester

For more information on degree requirements, students should see <https://students.asu.edu/programs/> [22].

Thunderbird students may pursue minors in other colleges at ASU. Courses used in the minor may not be used in the student's major program. <https://catalog.asu.edu/index.php?q=minors> [23]

Readmission

Undergraduate degree-seeking students having previously attended ASU but not enrolled at ASU for one fall or spring semester or no more than two consecutive semesters are eligible to return through quick reentry. These students are not required to submit a new application or application fee, but they must contact a Thunderbird academic advisor to enroll.

Undergraduates who have been away from the university for three or more semesters and want to return to ASU in a Thunderbird program are required to apply for readmission through Admission Services. <https://students.asu.edu/readmission> [24]

Disqualified students must follow the procedures for readmission and will be reviewed by the college on a case-by-case basis.

Other Special Requirements

Grievance Policy

Undergraduate students with grievances pertaining to an enrolled course should first address issues with the course instructor. If the identified grievance is not resolved with the course instructor, the student should then meet with the academic advisor, followed by Thunderbird's academic director of undergraduate programs. Finally, if no resolution has been achieved, the student should contact the dean of faculty at Thunderbird School of Global Management.

Graduate Policies

Academic Progression

Each graduate program in the Thunderbird School of Global Management adheres to specific academic requirements. Students are strongly encouraged to become familiar with the expectations listed for their respective graduate program as well as review ASU graduate education policies found at <https://graduate.asu.edu/policies-procedures> [25]. Each student should also communicate directly with the program or academic advisor to ensure a clear understanding of all degree requirements and program expectations. Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and must abide by all university policies including those of the Graduate College and the Thunderbird School of Global Management.

All graduate students in the Thunderbird School of Global Management are required to maintain a cumulative GPA of "B" (3.00). Students should see the individual graduate degree programs for additional requirements on satisfactory academic progress, probation and disqualification.

Credit/Registration

Students are allowed to register for a maximum of 15 credits per semester. Students may petition the Thunderbird School of Global Management Standards Committee through their program director to register for more than the maximum allowable. No student should assume that a petition for overload will be granted.

College of Health Solutions

The mission of the College of Health Solutions is to promote better health at lower costs for more people. The college plans to realize this goal by working with others at ASU to train and develop the health work force of the future. More information is available in the College of Health Solutions Student Handbook at <https://chs.asu.edu/students> [1].

Academic Integrity

Academic honesty is expected of all students in all examinations, papers, laboratory work, academic transactions and records. The ASU Student Academic Integrity Policy is strictly enforced for students found in violation of this policy. Possible sanctions include appropriate grade penalties, loss of registration privileges, disqualification and dismissal. More information is available at <https://provost.asu.edu/academic-integrity> [2].

For more information on graduate specific policies, students should refer to the specific graduate program manual, and they should see <https://graduate.asu.edu/academic-integrity> [3].

Undergraduate Policies

Academic Standing

To maintain satisfactory academic progress, all students in the College of Health Solutions must:*

1. maintain a minimum 2.00 GPA each semester
2. maintain a minimum 2.00 cumulative GPA

*Speech and hearing science majors must maintain a 2.80 GPA in ASU critical tracking courses. For more information on specific admission criteria, please see <https://students.asu.edu/apply> [4].

*Nutrition (Dietetics) students must maintain a 3.00 GPA in critical tracking courses.

*Medical Studies students must maintain a 3.00 cumulative GPA.

Probation

If their GPA falls below 2.00, students are placed on probation at the end of fall or spring semester.

Continuing Probation

Students are placed on continuing probation when their cumulative GPA is below 2.00 for two consecutive semesters but they have shown academic progress and not earned less than a "C" in any course in the most recent semester.

eAdvisor Tracking

In addition to being in university good academic standing, all students in the College of Health Solutions must adhere to ASU critical tracking coursework, per the pertinent major map. For more information on critical tracking courses, students should see <https://webapp4.asu.edu/programs/t5/MajorMaps> [5].

Students are off track if they fail to meet ASU critical tracking requirements for two consecutive semesters. More information on critical tracking courses is available at <https://webapp4.asu.edu/programs/t5/MajorMaps> [5].

Students who remain on off-track status for two or more consecutive semesters may be required to change majors.

Disqualification

Students are disqualified from ASU if their cumulative GPA remains below 2.00 for more than two consecutive semesters. Students who are disqualified are not allowed to enroll in the following fall or spring semester. Disqualified students may take courses during the summer to raise their GPA.

Remediation

Students are required to meet with an academic advisor if they are placed on probation, continuing probation, off-track status or are at risk for disqualification, at which point an appropriate remediation plan will be discussed.

Advising

The Office of Student Affairs in the College of Health Solutions is committed to maximizing the personal, social and academic experiences of students by providing high quality, student-centered academic advising, ensuring the accuracy and accessibility of information and resources, and partnering with students to help them reach their career goals in health and the health care industry.

It is important for students in the College of Health Solutions to cultivate the following skills in their development as professionals in the health care industry.

1. proactively identify problems and possible solutions
2. accept feedback in a positive manner
3. modify performance in response to feedback
4. communicate with others in a respectful and confident manner
5. assume responsibility for learning

Academic advising is available to facilitate student success in these and other domains. Advisors are available to meet with students in each of the undergraduate programs in person, by email, by phone or via Skype.

Academic advising is required for the following students:

1. All freshman and new transfer students are required to meet with an academic advisor before course registration. Thus, freshmen are required to meet with an academic advisor prior to both their first and second semesters.
2. Students not in satisfactory academic standing (i.e., probation, continuing probation, off-track status, disqualification, etc.) are required to meet with an academic advisor to discuss a remediation plan.

Faculty and staff utilize Academic Status Reports to provide student feedback over the course of the academic semester and year. The ASRs may be used to identify students who are struggling academically or professionally or to recognize students who are exceeding course work limits. Academic advisors and faculty mentors may access ASRs to provide students with valuable insight into performance improvement. <https://students.asu.edu/asrr> [6]

In order to be successful in the College of Health Solutions, students are strongly encouraged to be proficient in the basic concepts in writing, math and science. Students are encouraged to use the following resources:

- Academic Advising: <https://chs.asu.edu/students/advising> [7]
- Student Success Center: <https://studentsuccess.asu.edu/> [8]
- Math Tutoring Center: <https://studentsuccess.asu.edu/student-services/tutoring> [9]
- Writing Center: <https://studentsuccess.asu.edu/student-services/writing-centers> [10]
- Peer Coaching: <https://students.asu.edu/fys> [11]
- Career Services: <https://eoss.asu.edu/cs> [12]

Credit/Registration

Students are allowed to register for a maximum of 18 credits per semester. Students may petition the College of Health Solutions Standards Committee through the Academic Advising Office to register for more than the maximum allowable. More information is available at https://catalog.asu.edu/course_load [13].

Transfer credits from other institutions may be accepted and applied based on the student's major. The College of Health Solutions recommends that students work closely with their academic advisor to determine the process for applying pertinent transfer credit hours to their program of study. For more information on the transfer process, Students should see <https://transfer.asu.edu> [14].

Degree Requirements

Concurrent Degrees

Students at Arizona State University are permitted to pursue concurrent degrees as long as they meet the requirements for both programs and receive permission in advance from the colleges offering their chosen majors. For example, a student in the Exercise and Wellness degree program may also petition to pursue a degree in Spanish. A student interested in pursuing a concurrent option may petition the College of Health Solutions Standards Committee if both degrees are offered by this college. If the second degree is offered by another college, the standards committees of both colleges must be petitioned separately.

Students earn a separate diploma for each degree. Degrees may not be too closely related and may not share courses in the major.

Minimum Requirements

1. sophomore standing or higher
2. minimum 3.00 GPA
3. minimum of 12 hours of coursework completed in the first major
4. minimum of nine hours of coursework completed in the second major
5. minimum of 30 unique hours of coursework in each major

In order to begin the process in the College of Health Solutions, students must complete the form at https://chs.asu.edu/sites/default/files/petition_to_the_college_of_health_solutions_of_intent_to_pursue_concurrent_degrees.docx [15] or go to <https://chs.asu.edu/students/advising/advising-forms> [16].

Reinstatement/Readmission

Disqualified students who have missed a fall or spring semester must follow ASU procedures for readmission. Students are also required to meet with a College of Health Solutions academic advisor prior to course enrollment. Exceptions may apply, including for students on leaves of absence and students who serve in the military. For more information, students should see <https://students.asu.edu/readmission> [17].

Other Special Requirements

Clinical requirements

Some degree programs offered in the College of Health Solutions require clinical training in hospital or ambulatory care settings. These clinical sites may require criminal background checks and proof of medical insurance or proof of immunizations or both.

Special Considerations

Medical/Compassionate Withdrawals

Students must meet specific criteria for a medical leave of absence, leave of absence and compassionate withdrawal. Students who are eligible or have questions about eligibility must work closely with the Academic Advising Office to complete the necessary procedures.

For more information, students should see https://students.asu.edu/files/LeaveOfAbsence111010cb_0.pdf [18] or <https://students.asu.edu/forms/medical-compassionate-withdrawal-request> [19].

Incomplete Grades

Students must meet specific criteria to be eligible for a grade of "I" (incomplete). If qualified, students have one calendar year to complete course requirements. If requirements are not met per the standards agreed upon with the course

instructor after one calendar year, the incomplete grade adjusts to a course failure. More information is available at <https://students.asu.edu/files/Incomplete%20Grade%20Request.pdf> [20].

Military

Students with military or veteran status should see <https://veterans.asu.edu/> [21].

Americans with Disabilities Act (ADA)

The College of Health Solutions is supportive of and compliant with the Americans with Disabilities Act. Reasonable accommodations will be made for qualified students. Reasonable accommodation is defined as the provision of an auxiliary aid or modification to the course or program which will allow access to the job duties, the educational process, program and degree, or activity. Students are encouraged to visit the Disability Resource Center. More information is available at <https://eoss.asu.edu/drc>. [22]

The Americans with Disabilities Act (ADA) 1990 provides comprehensive Civil Rights protection and is designed to remove barriers which prevent persons with disabilities from accessing the same educational and employment opportunities as persons without disabilities. The law also provides access to public accommodations, state and local government services, transportation, and telecommunications. The Americans with Disabilities Act also prohibits discrimination against a qualified individual with a disability with regard to admission to educational institutions or vocational training programs (public or private); employee compensation; job training; and other terms, conditions and privileges of employment.

Title IX Policy

Title IX of the Education Amendments of 1972 protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. Sexual harassment, which includes acts of sexual violence, is a form of sex discrimination prohibited by Title IX. ASU does not discriminate on the basis of sex in the employment, education programs or activities it operates. ASU and the College of Health Solutions are committed to providing an environment free from discrimination based on sex and provide a number of resources and services to assist students, faculty and staff in addressing issues involving sex discrimination, including sexual violence. Victims of sexual violence, sexual harassment, stalking and relationship violence are encouraged to seek support and report the incident.

Graduate Policies

Academic Integrity

Academic honesty is expected of all students in all examinations, papers, laboratory work, academic transactions and records. The ASU Student Academic Integrity Policy is strictly enforced for students found in violation of this policy. Possible sanctions could include appropriate grade penalties, loss of registration privileges, disqualification and dismissal. For more information, students should refer to the specific graduate program manual, and they should see <https://graduate.asu.edu/academic-integrity> [3].

Academic Standing

Each graduate program in the College of Health Solutions adheres to specific academic requirements. Students are strongly encouraged to become familiar with the expectations listed in their respective graduate program manual.

Academic Advising

It is important for graduate students in the College of Health Solutions to cultivate the following skills in their development as a health professional:

1. Proactively identify problems and possible solutions.
2. Accept feedback in a positive manner.
3. Modify performance in response to feedback.
4. Communicate with others in a respectful and confident manner.
5. Assume responsibility for learning.

Academic advising is available to facilitate student success in these and other domains. Advisors are available to meet with students in each of the graduate programs (i.e., the School of Nutrition and Health Promotion, the Department of Speech and Hearing Science, the School for the Science of Health Care Delivery, the Doctor of Behavioral Health Program, and others).

Faculty advisors meet with students in the academic area of concentration.

Special Considerations

Medical/Compassionate Withdrawals

Students must meet specific criteria for a medical leave of absence, leave of absence and compassionate withdrawal. Students who are eligible or have questions about eligibility must work closely with the Academic Advising Office to complete the necessary procedures.

For more information, students should see https://students.asu.edu/files/LeaveOfAbsence111010cb_0.pdf [18] or <https://students.asu.edu/forms/medical-compassionate-withdrawal-request> [19].

Military

Students with military or veteran status should see <https://veterans.asu.edu/> [21].

Americans with Disabilities Act (ADA)

The College of Health Solutions is supportive of and compliant with the Americans with Disabilities Act. Reasonable accommodations will be made for qualified students. Reasonable accommodation is defined as the provision of an auxiliary aid or modification to the course or program which will allow access to the job duties, the educational process, program and degree, or activity. Students are encouraged to visit the Disability Resource Center. More information is available at <https://eoss.asu.edu/drc> [22].

The Americans with Disabilities Act (ADA) 1990 provides comprehensive Civil Rights protection and is designed to remove barriers which prevent persons with disabilities from accessing the same educational and employment opportunities as persons without disabilities. The law also provides access to public accommodations, state and local government services, transportation, and telecommunications. The Americans with Disabilities Act also prohibits discrimination against a qualified individual with a disability with regard to admission to educational institutions or vocational training programs (public or private); employee compensation; job training; and other terms, conditions and privileges of employment.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those of the Graduate College and the College of Health Solutions.

Title IX Policy

Title IX of the Education Amendments of 1972 protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. Sexual harassment, which includes acts of sexual violence, is a form of sex discrimination prohibited by Title IX. ASU does not discriminate on the basis of sex in the employment, education programs or activities it operates. ASU and the College of Health Solutions are committed to providing an environment free from discrimination based on sex and provide a number of resources and services to assist students, faculty and staff in addressing issues involving sex discrimination, including sexual violence. Victims of sexual violence, sexual harassment, stalking and relationship violence are encouraged to seek support and report the incident.

Honors - Barrett, the Honors College Policies

Students who have demonstrated high levels of academic achievement in high school or college may apply for admission to Barrett. Each candidate must file an application to the college separate from the ASU application, in accordance with the appropriate Barrett deadlines.

Applicants are evaluated on the basis of their academic records, high school class ranking within their graduating class, and their performances on the SAT or ACT. The college also values students who have special talents and aptitudes, exhibit exceptional leadership qualities, have unusual life experiences and display significant community involvement. High school GPAs used in the evaluation process are calculated in accordance with the Arizona Board of Regents competency requirements, pursuant to ABOR Policy 2-102.

The Barrett admission application and additional information about the college and its activities are available at <https://barretthonors.asu.edu> [1].

Undergraduate Policies

Advising

Barrett students have advisors in their major, an assigned Barrett honors advisor [2], and faculty honors advisors in departments throughout the university. Students are encouraged to stay in regular contact with all these resources and are required to complete mandatory advising sessions with their Barrett honors advisor during the first, second and third year of study. To schedule an appointment with a Barrett honors advisor, call 480-965-9155 (Tempe campus), 602-496-1757 (Downtown Phoenix campus), 480-727-5539 (Polytechnic campus) or 602-543-3410 (West campus).

Students can review honors opportunities in majors at <https://barretthonors.asu.edu> [3]. There are also special prelaw and prehealth advising opportunities for Barrett students. Students should contact the Barrett advising office for more information.

Degree Requirements

Barrett Academic Course Requirements

Honors students must maintain high standards of academic performance and show progress toward completion of graduation requirements in their disciplinary majors and in Barrett.

In order to graduate from Barrett, students must complete the following, which includes 36 credit hours of honors coursework:

1. HON 171 The Human Event and HON 272 The Human Event must be completed in sequence during a student's first two semesters in the college.
2. Thirty additional credit hours of honors coursework must be earned with a letter grade of "C" (2.00) or higher. This may include HON prefix classes, honors sections of classes, honors enrichment contracts or any automatic honors course.
3. Included in the 36 credit hours of honors coursework are at least 18 hours of upper-division or graduate-level honors credits for an earned letter grade of "C" (2.00) or higher, including six credit hours of honors coursework outside the academic major. Students should investigate specialized honors, upper-division tracks within their majors.
4. Those admitted as upper-division transfer students (students who, after high school, completed 48 university credits by the time of planned enrollment in Barrett) must complete HON 370 History of Ideas and 18 hours of upper-division honors coursework, six credits of which must be outside the academic major. Upper-division transfer students are required to complete 21 hours of upper-division honors coursework.
5. Students are required to complete an honors thesis or creative project for at least three credit hours, though some units may allow students to complete six credit hours of thesis or creative project work. The thesis credit hours may be included in the 18 required hours of upper-division honors coursework. The honors thesis or creative project is launched with a prospectus that is due one academic semester before the defense. Prior to enrolling for credit for a thesis or for creative project work, students must complete a required preparatory workshop or course.

The final copy of the honors thesis or creative project must be filed by the posted deadline during the student's graduation semester.

6. ASU graduation requirements in an academic major must be met.
7. The student must maintain a cumulative ASU GPA of 3.25 or higher.

Barrett course requirements may be met in a variety of ways. Only courses in which a student receives a grade of "C" (2.00) or higher may be used to meet Barrett requirements.

Those entering the college as lower-division students may take as many as 18 lower-division honors credits, which include HON 171 The Human Event and HON 272 The Human Event, and at least 18 upper-division credits (total honors credits must be 36). HON 171 and HON 272 are transdisciplinary seminars that acquaint students with ideas that form the foundation of a university education and emphasize critical thinking, discussion, and writing.

Those who enter as upper-division students must take 21 upper-division honors credits, including HON 370 History of Ideas taught by an Honors Faculty Fellow. This seminar course introduces students to critical thinking, discussion, and writing in a topical area chosen by the instructor. All students are expected to complete this course during the first semester upon entering Barrett.

Departmental honors-only courses are limited to honors students. Enrollment in these courses is limited. Compared to their nonhonors equivalents, these courses are designed to offer a richer, more complex intellectual experience appropriate to the discipline and the level of the course for all students enrolled. Other disciplinary honors courses group honors students in small cohorts to work on research projects of common interest.

Honors enrichment contracts are available in many departmental courses, allowing honors students to contract with the instructors of designated non-honors courses to earn honors credit by pursuing enrichment activities, which include supplemental sessions with the instructor. Honors enrichment contracts must be filed during the first four weeks of class and be completed during the semester in which the course is offered. The enrichment contract form offers guidelines to aid students and faculty in developing appropriate contracts.

Courses reserved for students in Barrett and that always count for honors credit are those listed in the online ASU Class Search/Course Catalog as course numbers 492 Honors Directed Study, 493 Honors Thesis, and 497 Honors Colloquium; all classes with the HON prefix; and those with a departmental prefix that carry the honors designation.

Departmental courses numbered 492 and 493 are reserved for honors students completing their honors thesis or creative project. A student may enroll for these courses only with approval from the sponsoring academic department and the faculty member who serves as the student's thesis or creative project director. Course numbers listed in the ASU schedule of classes as 493 fulfill the student's upper-division literacy and critical inquiry (L) General Studies requirement.

Specific courses carry automatic honors credit. These include ACT 310 Mathematics of Finance, ACT 430 Mathematics of Financial Derivatives, CHE 211 Introduction to Chemical Processing, CEE/CNE 212 Engineering Mechanics II: Dynamics, CEE 486 Integrated Civil Engineering Design, CPI 310 Web-Based Information Management Systems, CSE 230 Computer Organization and Assembly Language Programming, EEE 230 Computer Organization and Assembly Language Programming, ENG 105 Advanced First-Year Composition (any in-person section), FSE 104 EPICS Gold Feasibility and Planning, FSE 150 Perspectives in Grand Challenges for Engineering, GRK 101 Elementary Ancient Greek, LAT 421 Roman Literature, PHY 201 Mathematical Methods in Physics I, and PHY 333 Electronic Circuits and Measurements. Graduate courses, 500 level and above, taught in an in-person format automatically earn honors credit.

For a full list of honors courses, including those that carry automatic honors credit, students should visit the Barrett Signature Courses webpage [4] and review the Honors Courses document.

College of Integrative Sciences and Arts Policies

The College of Integrative Sciences and Arts provides students throughout the university with the knowledge and skills to comprehend and effectively engage the changing world of the 21st century at local, national and global levels. The college offers graduate and undergraduate degree programs that prepare students for a rapidly changing marketplace and offers foundational instruction in humanities, social sciences, mathematics, sciences and professional fields. The college also affords an ASU student with fewer than 45 college credit hours the opportunity to explore all ASU degrees as an exploratory student.

Academic Integrity

Academic honesty is expected of all students in all examinations, papers, projects, partnerships, internships, academic transactions, and records. Possible sanctions include appropriate grade penalties, loss of registration privileges, disqualification and dismissal. The College of Integrative Sciences and Arts adheres strictly to the student code of conduct regarding academic dishonesty. A copy of the student code of conduct may be obtained online at <https://provost.asu.edu/academic-integrity> [1].

Undergraduate Policies

Academic Standing

To be considered in academic good standing in the College of Integrative Sciences and Arts, students must achieve a cumulative GPA of 2.00 or higher.

Probation

Students who do not achieve a 2.00 GPA will be placed on university academic probation and must meet with an advisor to discuss academic success strategies. Students on academic probation will be required to take UNI 220 Academic Refresher. UNI 220 will appear on the students' DARS as a graduation requirement. In addition, students who have fewer than 24 credit hours will be required to participate in the ASU PASS [2] program.

Within one semester, a student on academic probation must do one of the following:

1. Raise their ASU cumulative GPA to 2.00 or higher, to return to academic good standing.
2. Obtain a semester GPA of 2.00 or higher, to be continued on probation. Students on continued academic probation may continue for as many semesters as needed to achieve academic good standing.

Disqualification

Students who fail to meet the criteria for continued probation may be disqualified from ASU. Students who have been disqualified may attend summer sessions but not fall or spring sessions.

Once readmitted, the student may be placed on academic probation for at least one semester. Students on probation will have one semester to raise their cumulative or semester GPA to meet ASU academic good standing (2.00). Failure to do so will result in disqualification from the university.

Academic Policy Appeals

Academic appeals regarding college policies or other variances or exceptions should be discussed with the student's academic success specialist, and students may be required to submit a College of Integrative Sciences and Arts Standards Committee petition. Some petitions may require a secondary review by the ASU University Undergraduate Standards Committee. For more details, students should visit https://cisa.asu.edu/standards_petitions [3].

Academic Advising

All students are encouraged to seek advising from their Academic Success Specialist (academic advisor) prior to registration. Students must review the academic calendar [4] each semester for information and deadlines pertaining to enrollment including course adds, drops and withdrawals.

The ASU academic catalog is the governing source for all degree requirements. Students are expected to read the requirements for university general studies, college graduation and major degree requirements. Academic Success Specialist will provide guidance.

Advising Information: <https://cisa.asu.edu/advising> [5]

Mandatory Advising

The following students in the College of Integrative Sciences and Arts must receive advising clearance prior to course registration:

- students in all exploratory tracks
- new students in their first two semesters of attendance
- readmitted students in their first returning semester
- students with 87 credit hours or more completed
- students on academic probation or continued probation
- students who have been disqualified
- students who are off track for graduation

Students are encouraged to use My ASU to check their advising status requirements each semester before attempting any registration transactions.

Credit/Registration

Students enrolling in courses offered by the College of Integrative Sciences and Arts are expected to follow the rules and deadlines specified in this catalog and the current registration and tuition payment guide. Students are encouraged to meet with their academic success specialists before registration.

Course Load

Students may enroll in a maximum number of 18 credit hours per fall or spring semester, with a maximum number of nine credits taken in session A or Session B. Students may enroll in a maximum of 14 credits for a summer session, with no more than seven credits in session A or B. Students may enroll in a maximum of 9 credits for the summer session C (eight weeks).

- First-semester freshmen and entering transfer students are not permitted to register for more than 18 credit hours in the initial 15-week semester or 9 credit hours in session A and 9 credit hours in session B.
- Any student wishing to enroll in more than the 18 credit hour limit in the fall or spring (or 14 in summer) or more than the nine credit hour limit in an A or B session (or seven hour limit in summer) should first meet with their academic success specialist to discuss a course overload.

For more details on credit hour limits, students should visit https://catalog.asu.edu/course_load [6]. More details on the petitioning process are available at https://cisa.asu.edu/standards_petitions [3].

Repeat/Replace Policy

Students wishing to repeat courses and possibly replace prior course grades must follow the repeat/replace policy [7] stated in the University Student Services Manual [8] regarding the number of credit hours that can be repeated and the types of courses that are eligible for a grade replacement.

Students wishing to repeat a course for a third time must petition the College of Integrative Sciences and Arts Standards Committee.

Pass/Fail Grade Options

A grade of “Y” (satisfactory) contributes to a student’s earned hours but does not affect the GPA. A failing grade of “E” is calculated into the GPA.

The pass/fail grade option may be used under the following conditions:

- Approval has been granted from the instructor and college offering the course.
- Enrollment for the pass/fail option must be indicated during registration and may not be changed after the drop/add period.
- A maximum of 12 hours taken for pass/fail may be counted toward graduation.

College of Integrative Sciences and Arts students may not enroll under the pass/fail option in the following courses:

- first-year composition requirements
- major, minor, concentration area, or certificate program
- honors credits
- language proficiency requirements
- general studies requirements

Audit Grade Option

Students may choose to audit certain courses in which they attend regularly scheduled class sessions but earn no credit. Students should obtain instructor approval before registering for the courses. The option to audit is not available for all courses. This grade option may not be changed after the drop/add period.

Degree Requirements

All candidates for graduation are required to complete at least 120 credit hours, of which at least 45 hours must consist of upper-division courses. A minimum ASU cumulative GPA of 2.00 is required for graduation. All new College of Integrative Sciences and Arts freshman students are required to enroll in the ASU 101 course during their first ASU semester.

Minors

The college offers minors in many of its disciplines. All minors must entail a minimum of 18 hours in the discipline with at least 12 of those hours as upper-division courses.

- Six of the upper-division hours must be taken from courses offered by the College of Integrative Sciences and Arts.
- Students may not use courses in their minors toward major core requirements and, similarly, students may not use courses in their major core requirements to fill the requirements of their minors. Students should see an academic success specialist for more details.
- Some disciplines are too close in content for a student to choose a particular combination of minor and major.

Concurrent Degrees

The college allows students to request approval from the college to pursue a concurrent degree if they have completed at least 30 graded credit hours with a minimum GPA of 2.00. Concurrent degrees may not be from the same discipline or have overlap in the courses required for each major. Students must earn at least 30 unique credit hours for each degree.

To request a concurrent degree, students must meet with an academic advisor in each degree program and complete a College of Integrative Sciences and Arts Standards Petition form available at https://cisa.asu.edu/standards_petitions [3].

Critical and Necessary Requirements

All undergraduate majors at ASU provide an eight-term course plan leading to four-year graduation; it is called a major map. College of Integrative Sciences and Arts students must meet the critical and necessary requirements listed on their major maps.

A student who does not comply with the critical requirements is off track and will have a hold placed on their record, and the student will be required to meet with a College of Integrative Sciences and Arts academic advisor to discuss their

progression toward graduation. For more information about critical requirements, students should refer to the corresponding major map or eAdvisor <https://eadvisor.asu.edu/> [9].

Exploratory Tracks

All first-year students who choose to become an exploratory student are required to declare an exploratory track in one of four areas:

- exploratory social and behavioral sciences
- exploratory health and life sciences
- exploratory humanities and fine arts
- exploratory math, physical sciences, engineering and technology

Each of these tracks is designed to provide students with introductory courses in a field of choice (e.g., introduction to psychology, introduction to environmental design), General Studies education and elective courses that reinforce student interests. Each exploratory track is composed of a three-semester major map, culminating in the declaration of a major no later than the completion of 45 credit hours.

All exploratory students are required to enroll in a major and career exploration class (UNI 150, 250, or 270) each semester the student remains designated as an exploratory student.

Readmission

Students who have been disqualified from ASU may be readmitted to the College of Integrative Sciences and Arts for a fall or spring semester if they complete one of the following:

1. Raise their ASU cumulative GPA to 2.00 by taking ASU summer session courses.
2. Complete 12 or more transferable credit hours at a community college or university with no grade lower than a “C” and a GPA of 2.50 or better. Courses in which the student failed or received a “D” at ASU should not be repeated at another institution.

Once readmitted, the student may be placed on academic probation for at least one semester. Students on probation will have one semester to raise their cumulative or semester GPA to meet the required 2.00 GPA to remain at ASU. Failure to do so will result in disqualification from the university.

Graduate Policies

Students should review graduate policies at <https://graduate.asu.edu/policies-procedures> [10].

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies including those established by the Graduate College and the College of Integrative Sciences and Arts.

New College of Interdisciplinary Arts and Sciences Policies

The New College of Interdisciplinary Arts and Sciences is dedicated to providing knowledge on the cutting edge, preparing students with the abilities they will need to succeed in the 21st century.

New College offers an interdisciplinary approach through building upon the knowledges of multiple disciplines such as history, religion, psychology, sociology, biology and statistics, and brings these together to meet such challenges as how to develop sustainable societies, create social justice and human rights, end poverty, and understand who we are and what gives meaning to our lives.

New College focuses on the arts and sciences, a curriculum grounded in the study of a particular discipline or major within a broad general education that provides students with the ability to think critically, to express themselves in speaking and writing, to use quantitative and technological skills in solving problems, and to understand how values shape individuals and societies.

Further, in the tradition of a liberal arts education, New College is built upon close faculty-student relationships, and a large number of undergraduates pursue their own faculty-sponsored independent research projects. Students are also granted the opportunity to integrate the curricular with extracurricular life not only through lectures, discussions and activities outside the classroom but also through internships and service-learning opportunities in local businesses and organizations. For more information, students should see <https://newcollege.asu.edu/> [1].

Academic Integrity

The New College of Interdisciplinary Arts and Sciences adheres to ASU's Student Academic Integrity Policy. Therefore, academic honesty is expected in all areas of student work including examinations, written work, laboratory assignments, internships, group work and all other necessary transactions. If academic integrity is compromised, possible sanctions include course assignment grade penalties, failure of course, disqualification and dismissal from the university. For more information, see <https://provost.asu.edu/academic-integrity/> [2].

Undergraduate Policies

Academic Standing

New College students must achieve a cumulative GPA of 2.00 in order to be considered in good academic standing at ASU. Students falling below a semester or cumulative GPA of 2.00 will be placed on academic probation and will be required to meet with an advisor to effectively plan academic progress toward graduation. Further information is available at https://catalog.asu.edu/retention_standing [3].

Advising

All students in New College are encouraged to seek academic advisement prior to course enrollment each semester.

To ensure students are making timely progress toward degree completion, advising may be required for the following:

- newly admitted students
- freshman students
- students on academic probation
- students off-track for eAdvisor tracking requirements

Advising information for New College is available at <https://newcollege.asu.edu/college-advisor> [4].

For eAdvisor tracking and other general academic program information, students should see <https://students.asu.edu/academics> [5].

Credit/Registration

Audit Grade Option

Students may choose to audit a course, allowing them to attend but not earn credit. Students must obtain instructor approval prior to enrollment (<https://students.asu.edu/grades> [6]). This grade option may not be changed after the drop/add period.

The audit option may be used under the following conditions:

- Approval has been granted from the instructor and college offering the course.
- The audit option was chosen during initial registration for the course.

Course Load

Students are limited to a maximum of 18 credit hours per term. Enrollment in additional credit hours requires approval from the college academic advisor.

Course Prerequisites

Course prerequisites are established to ensure student success in a course. Students must complete all course prerequisites prior to enrolling in the desired course. Prerequisite overrides may be granted under the following conditions:

- A transfer course has been accepted by an advisor to fulfill required course prerequisite.
- A prerequisite override has been granted by an advisor.

Grade of Incomplete

A grade of incomplete for a course may be granted by permission of the instructor under the following conditions:

- The student is in good standing academically at ASU.
- The student has completed a substantial portion of the required coursework.
- The student has experienced extenuating circumstances prior to the end of the semester, preventing completion of the course; students should see <https://students.asu.edu/forms/incomplete-grade-request> [7].

Pass/Fail Grade Option

A grade of "Y" (satisfactory) contributes to a student's earned hours but does not affect the GPA. A failing grade of "E" is calculated into the GPA.

The pass/fail grade option may be used under the following conditions:

- Approval has been granted by the instructor and the college offering the course.
- The pass/fail option was chosen during initial registration for the course, if available.

New College students may not enroll under the pass/fail option in the following courses:

- those taken to satisfy first-year composition requirements
- those taken from the student's major, minor or certificate program
- those taken for honors credits
- those counted toward satisfying New College general studies requirements
- those counted toward satisfying New College proficiency requirements in math or language and cultures

Transfer

Transfer Coursework

Credit is granted for transferred courses deemed equivalent to corresponding courses in the selected program of study, subject to grade and ASU resident credit requirements. No grades lower than "C" (2.00) transfer to ASU. Credits transferred from a community college or two-year institution are applied as lower-division credits. For a listing of the acceptable courses transferable to the various degree programs, prospective Arizona transfer students should consult their advisors and refer to the ASU transfer tools: <https://transfer.asu.edu> [8].

Some courses taken from other ASU colleges or other universities may be acceptable for general university credit but may not be applicable toward the degree requirements of the schools. Determination of those particular courses applicable to a specific degree program is made within the appropriate academic unit.

Withdrawal

Complete Session Withdrawal Information

Since a complete session withdrawal from the university can be a difficult decision and could result in serious academic and financial consequences, **undergraduate students** are required to contact their academic advisor to facilitate the withdrawal process.

Students must complete the following steps in the order in which they are listed:

1. Fill out a complete session withdrawal form (<https://newcollege.asu.edu/advising/completewithdrawal> [9]).
2. Make an appointment with their advisor, and take the form to the appointment.

ASU has many resources in place to help students. Students may want to consider one or more of the following:

- **Withdraw from just one or two classes (course withdrawal):** Students may withdraw from a class while remaining enrolled in other classes as long as the withdrawal is completed between the drop/add deadline and the course withdrawal deadline. Students are encouraged to contact their academic advisor to discuss the impact this may have on meeting critical requirements. Students are also encouraged to contact a financial aid representative to consider any impact withdrawing will have on scholarships, grants and loan packages.
- **Request a medical or compassionate withdrawal:** Medical or compassionate withdrawals are available for students withdrawing from one or more classes due to extraordinary personal mental or physical health conditions or the death or serious illness of a family member or close friend. For information concerning medical or compassionate withdrawal requests, students should see <https://students.asu.edu/forms/medical-compassionate-withdrawal-request> [10].
- **Seek tutoring or academic support services:** The Student Success Center provides a variety of services to help students become better learners and gain the confidence and skills to achieve their academic goals. Services include writing centers, math tutoring, subject area tutoring and supplemental instruction. More information concerning the Student Success Center is available at <https://tutoring.asu.edu/student-services/tutoring> [11].
- **Make an appointment with ASU's Counseling Services:** Counseling and mental health services are provided at each of the four ASU campuses. ASU students may seek services at any of the campus counseling centers, regardless of their college affiliation. Students should visit <https://eoss.asu.edu/counseling/location> [12].
- **Explore the possibility of an "I" (incomplete) grade.**

Possible consequences resulting from a complete session withdrawal

- **Financial aid:** Financial aid recipients who completely withdraw from the university may be responsible for immediate repayment of funds. The effect of a complete withdrawal from financial aid depends on when the withdrawal is dated and the type of financial aid. Students should see <https://students.asu.edu/financialaid> [13] for more information.
- **Tuition and refunds:** The date of a complete withdrawal will determine whether or not a tuition refund will be generated. Students should review the tuition refund policy [14] for more information.
- **Health insurance:** Students should contact their health insurance company to determine whether or not withdrawing from the university affects their coverage.
- **Residential life:** Students who live on campus should contact their residential hall community staff to determine what impact withdrawing will have on their eligibility to live on campus, and to complete a license agreement release form and arrange an appointment to officially check out. For more information, students should see <https://housing.asu.edu/living/lar-release> [15].
- **Veteran benefits and certifications:** Students should contact the appropriate veteran benefits and certifications office to discuss information regarding veterans' educational benefits and military activation. For more information, students should send an email to w.westvso@asu.edu [16] or visit <https://veterans.asu.edu> [17].

Procedures for general university withdrawal are at <https://students.asu.edu/drop-add> [18].

Degree Requirements

Undergraduate Degree Requirements

All candidates for graduation in the BA, BS and BAS curricula are required to present at least 120 credit hours, of which at least 45 credit hours must consist of upper-division work. A minimum cumulative GPA of 2.00 is required for graduation. Students must complete a New College residency requirement of a minimum of 12 credit hours of upper-division (300- and 400-level) coursework from the school housing the student's major.

It is the student's responsibility to be aware of the degree program requirements and to select courses accordingly.

To graduate, a student must satisfy the following requirements:

- ASU 101 or equivalent (freshman students)
- IAS 300 (transfer students)
- college proficiency requirements for language and cultures and for mathematics
- university first-year composition and General Studies requirements
- major requirements that involve concentrated coursework in one program
- successful completion of critical-tracking courses as required on the student's major map

Information on critical tracking and eAdvisor tools, such as the student's major map, is available at <https://eadvisor.asu.edu> [19].

Proficiency Requirements

Each student is required to demonstrate proficiency in the analysis of language and cultures and also mathematics by passing an examination or by completing the courses specified below with a grade of "C" (2.00) or higher in each course.

Students considering graduate work after completion of a bachelor's degree should consult with faculty advisors regarding language requirements in their intended areas of study.

Language and Cultures

This requirement may be satisfied through one of the following:

- completion of secondary education at a school in which the language of instruction is not English
- completion of a language course at the intermediate level (202 or equivalent), including American Sign Language IV
- completion of an upper-division course or courses taught in a foreign language, taken in the United States or the relevant country
- completion of six credit hours of upper-division courses that have a global awareness designation (G) or cultural diversity in the U.S. designation (C) in addition to the courses used to meet the university General Studies requirements
- completion of two sequential semesters of coursework in a current computer language

Students may obtain information about applicable coursework through the college advising office.

Mathematics

Students are required to complete MAT 142 or any MAT course for which MAT 117 or a higher-level MAT course is a prerequisite.

Major Requirements

Each student is required to select a major from among the programs offered by the New College of Interdisciplinary Arts and Sciences.

The major program may require up to 51 credit hours of coursework. The minimum is 30 hours. A maximum of 18 additional hours may be required in related courses and prerequisites. No more than 63 credit hours of coursework may be required to complete the major, related courses and prerequisites.

No credit is granted toward fulfilling major or minor requirements in any upper-division course in the subject field of the major unless the grade in that course is at least a "C" (2.00). Normally, a "Y" (pass) grade needs confirmation that it is equivalent to a "C" (2.00) or higher.

General Electives

Upon completion of all other requirements, the remainder of the minimum 120 credit hours required for graduation is general electives. Students should contact college advisors for assistance in selecting elective courses.

Concurrent Degrees

Students in the New College of Interdisciplinary Arts and Sciences are eligible to seek concurrent degrees. If both disciplines of the desired concurrent program are offered by New College, sharing of credits is allowable; however, if the program overlap is too significant between the two programs, the petition may not be granted.

Students are eligible to pursue a concurrent degree when the following criteria have been met:

- The student has completed a minimum of 12 credit hours and all prerequisites within the first major.
- The student has maintained a cumulative GPA of 3.00 or higher.
- The student may not wait until the final semester to petition for approval to pursue a concurrent degree.

To be approved to pursue a concurrent degree, students must file a Petition to Pursue Concurrent Degree form: <https://newcollege.asu.edu/advising/forms> [20].

Minors

New College offers minors in many of its disciplines. All minors require a minimum of 15 credit hours in the discipline with at least nine of those hours completed as upper-division coursework. Six of the upper-division hours must be taken from courses offered by the New College of Interdisciplinary Arts and Sciences. Courses used in the minor may not be used in the student's major program. <https://catalog.asu.edu/index.php?q=minors> [21]

Readmission

Undergraduate degree-seeking students having previously attended ASU but not enrolled at ASU for one fall or spring semester or no more than two consecutive semesters are eligible to return through quick reentry. These students are not required to submit a new application or application fee but must contact an academic advisor in their school to enroll.

Undergraduates who have been away from the university for three or more semesters and want to return to ASU in a New College program are required to apply for readmission through Admission Services <https://students.asu.edu/readmission> [22].

Disqualified students must follow the procedures for readmission and will be reviewed by the college on a case-by-case basis.

Grievance Policy

Undergraduate students with grievances pertaining to an enrolled course should first address issues with the course instructor. If the identified grievance is not resolved with the course instructor, the student should meet with the school's director or associate director. Finally, if no resolution has been achieved, the student should contact the director of Academic Services in the dean's office at 602-543-7000.

Graduate Policies

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies including those of the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Graduate students should review the New College Standards of Satisfactory Progress [23] and policies established by the Graduate College [24].

Walter Cronkite School of Journalism and Mass Communication Policies

The Walter Cronkite School of Journalism and Mass Communication has a student-centered culture focused on helping students complete their degrees in a timely manner. The school encourages students to visit the school's website <https://cronkite.asu.edu> [1] or contact its student services center at 602-496-5055 with questions about any of the school's policies.

Academic Integrity

The Cronkite School has zero tolerance for academic dishonesty, and this is enforced in every course and educational activity offered or sanctioned by the school. Any allegation of academic dishonesty will be referred to the school's standards committee for review and recommendation to the dean of the school. If any student is found to have engaged in academic dishonesty in any form --- including but not limited to cheating, plagiarizing and fabricating --- that student shall receive a grade of "XE" (academic dishonesty) for the class and will be dismissed from the school. There will be no exceptions.

At the beginning of every Cronkite class, each student will be given a copy of the full academic integrity policy along with accompanying information on plagiarism. Students must sign a pledge that indicates they have read and understood the material and agree to abide by the policy.

The policy, along with guidance on how to avoid plagiarism and fabrication, can be found at http://cronkite.asu.edu/assets/pdf/Academic_Integrity_Policy.pdf [2].

The Cronkite School will notify the Graduate College if a graduate student is being recommended for dismissal from the school for having engaged in academic dishonesty.

Responsibilities Related to Academic Integrity

Accuracy: Since accuracy is the most important aspect of journalism, the Cronkite School adheres to rigid standards. Any major error of fact such as a misspelled proper name, an erroneous phone number, an incorrect address, a libelous statement or a misstatement of a major fact, or anything else that would require a printed correction if the story were to appear in a newspaper will result in an "E" (55 percent) on an assignment. Misspellings or errors of grammar will bring a student's grade down. Carelessness will cause a student to lose points fast.

Attendance and make-up work: Students are expected to be in every class and to arrive on time. There will be no excused absences or lateness. Make-up work will be not be given; if a student misses an in-class assignment, quiz or test, the student will receive a zero.

Deadlines: Like accuracy, the ability to meet deadlines is a hallmark of good journalism, and students are expected to meet them. Assignments submitted even one minute past the deadline will not be accepted; the student will receive a zero.

Diversity principles: The Cronkite School practices inclusivity in student, staff and faculty populations in order to create an academic environment that embraces diversity of thought and acceptance of all people regardless of race, gender, age, sexual orientation or societal, political, cultural, economic, spiritual or physical differences <https://cronkite.asu.edu/about/diversity-principles> [3].

ACEJMC values and competencies: As a member of the Accrediting Council on Education in Journalism and Mass Communication, the Cronkite School is committed to classroom learning that achieves ACEJMC professional values and competencies. These include the core areas of freedom of speech, ethics, diversity, critical thinking, research, writing and use of tools and technologies related to the field. For a full list of ACEJMC values and competencies, students should see <http://www2.ku.edu/~acejmc/PROGRAM/PRINCIPLES.SHTML#vals&comps> [4].

Social media guidelines: It is important that students of journalism and communication know how to use social media ethically and professionally. The Cronkite School has developed standards drawn from the Poynter Institute for Media

Studies and the Society of Professional Journalists. Those guidelines may be found at <https://cronkite.asu.edu/degree-programs/admissions/student-resources/social-media-guidelines> [5].

Undergraduate Policies

Academic Standing

Probation

All ASU students, freshman through senior, must maintain a minimum 2.00 GPA for all courses completed at ASU. If this standard is not maintained, the student is placed on probation. Students on probation must see an advisor before further registration and must do one of the following:

1. Raise the ASU cumulative GPA to 2.00 or higher in order to return to academic good standing.
2. Obtain a semester GPA of 2.50 with no grade lower than a "C" in order to be granted one additional semester on continued probation. At the end of the continued probation, the student must return to academic good standing (a minimum cumulative ASU GPA of 2.00) to avoid disqualification.

Disqualification

Students who do not meet probation requirements are academically disqualified. Disqualified students should meet with their academic advisors. These students may attend ASU during the summer session immediately following disqualification only.

Cronkite School Journalism and Mass Communication and Sports Journalism majors: Students in these majors must maintain a minimum 2.50 GPA for all courses completed at ASU in order to be in good standing in the major. If a student's GPA falls below a 2.50 cumulative GPA, the student will have one semester to raise his or her cumulative GPA to meet the requirement. Failing to raise the cumulative GPA to a 2.50 or higher will result in the student having to change his or her major from Journalism and Mass Communication or Sports Journalism.

Cronkite School Mass Communication and Media Studies majors: Students in this major follow the university policies for GPA requirements, probation and disqualification.

Advising

Advising

Cronkite School undergraduate students are assigned an advisor by the student's last name. Students should see the undergraduate advising page for specifics <https://cronkite.asu.edu/student-life/undergraduate-advising> [6].

To ensure students are making progress toward their degrees, the Cronkite School encourages students to check in with their advisors each semester. Advising is mandatory for:

- first-time freshmen, both semesters their first year at ASU
- students who have completed 75 credit hours
- transfer students prior to enrolling for their first semester at ASU
- students on probation
- students who are off track in the major

ASU Online students are strongly encouraged to make an appointment with their respective advisors before enrolling for their first semester.

For additional information, students should contact the Cronkite School's advising center at 602-496-5055.

Students should follow the sequence of courses outlined on major maps and online degree audits and contact their Cronkite advisor with any questions. Critical requirements for freshmen in the school are available at <https://cronkite.asu.edu> [1].

Credit/Registration

Changes of major: Students are eligible to change their major if they meet the criteria below.

Journalism and Mass Communication and Sports Journalism degree programs: Current ASU students are eligible for admission if they have at least a 3.00 cumulative GPA in 12 or more hours of credit earned at ASU in courses that can be used to satisfy the Cronkite School's nonelective general studies requirements.

Transfer students with at least 12 hours of academic credit earned after high school and at least a 3.00 cumulative GPA are eligible for admission.

Online Mass Communication and Media Studies degree program: Current ASU students who have at least 2.00 cumulative GPA are eligible for admission.

Prospective transfer students (not yet admitted to ASU) and ASU students who have a cumulative GPA below 3.00 are encouraged to meet with a Cronkite School advisor. To schedule a meeting, students should contact the advising center at 602-496-5055.

Transfer credit: Students may apply up to 64 credits of coursework from an accredited two-year institution to their degree. Students may apply up to nine credit hours of approved upper-division journalism coursework from a four-year ACEJMC-accredited institution to the Cronkite School's journalism degree requirements. Students interested in having these courses reviewed should provide detailed syllabi and course schedules to the Cronkite School's academic standards committee. Students should see their academic advisors for help.

Degree requirements

All Cronkite students must meet the critical requirements for their majors. Students who are required to follow eAdvisor tracking requirements and do not comply with the critical requirements are off track and will have a hold placed on their records. These students must meet with an advisor to have the hold removed.

Specific requirements for the Journalism and Mass Communication degree can be found at <https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/CSJMCBA/undergrad/false> [7].

Specific requirements for the Sports Journalism degree can be found at <https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/CSSPJBA/undergrad/false> [8].

Specific requirements for the Mass Communication and Media studies degree can be found at <https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/CSMCMSTBA/undergrad/false> [9].

Concurrent Degrees

The primary degree is the one that shows at the top of a student's transcript. A concurrent degree is an additional degree a student pursues.

General rules for students pursuing concurrent degrees in the Walter Cronkite School of Journalism and Mass Communication:

- Currently enrolled Cronkite School Journalism and Mass Communication or Sports Journalism majors who would like to add a concurrent degree must have an ASU cumulative GPA of 2.50 or higher and must have completed 30 credit hours of coursework.
- Currently enrolled Cronkite School Mass Communication and Media Studies majors who would like to add a concurrent degree must have an ASU cumulative GPA of 2.00 or higher and must have completed 30 credit hours of coursework.
- ASU students not enrolled in the Cronkite School who would like to add a concurrent degree in journalism and mass communication or sports journalism must be in good academic standing with an ASU, have a cumulative GPA of at least 3.00 and must have completed 30 credit hours of coursework.
- ASU students not enrolled in the Cronkite School who would like to add a concurrent degree in mass communication and media studies, offered online, must be in good academic standing, have a cumulative GPA of at least 2.00 in an ASU Online degree program and must have completed 30 credit hours of coursework.

- The Cronkite School requires that students enrolled in Journalism and Mass Communication or Sports Journalism majors take a minimum of 36 credit hours of Cronkite School courses.
- The Cronkite School requires that students enrolled in the Mass Communication and Media Studies major take a minimum of 30 credit hours of Cronkite School courses.
- A student may not take concurrent degrees in journalism and mass communication, sports journalism, or mass communication and media studies.

Procedures for adding a concurrent degree:

1. Once a student has decided to declare a concurrent degree, the student should inform the academic advisor for each degree in order to receive proper information about degree requirements, courses, etc.
2. When a student meets the requirements for a concurrent degree, the student should complete a Standards Committee Petition [10] and turn it in to the assigned Cronkite School academic advisor [6]. Students in the Cronkite School are assigned an advisor by the student's last name.
3. The student will also need to contact the college offering the concurrent degree to be added and follow that college's procedures for requesting and pursuing concurrent degrees.
4. If a student no longer wishes to pursue a concurrent degree, the student should email the academic advisor and include the student's full name and ASU ID number as well as which degree the student wants to be removed from the academic record.

Any questions should be directed to Cronkiteadvising@asu.edu [11].

Additional information about specially designed Cronkite concurrent degrees can be found on the Cronkite School Dual Degree Programs [12] page.

Reinstatement/Readmission

Students seeking readmission after being discontinued from the university should contact undergraduate admission services at <https://students.asu.edu/contact/admissions> [13].

Other Special Requirements

Major proficiency requirements: All Cronkite students must receive at least a "C" (2.00) or better in all JMC and MCO courses. Journalism and Mass Communication and Sports Journalism majors must also receive a grade of "B-" (80 percent) or better in JMC 101 Grammar for Journalists. Students must also maintain at least a 2.50 cumulative GPA to be eligible to enroll in JMC and MCO classes.

Graduate Policies

The Walter Cronkite School of Journalism and Mass Communication is a nationally recognized professional program that prepares students for careers as reporters, editors, producers, correspondents, anchors and multimedia journalists. Our students go on to online media outlets, television stations, newspapers, magazines, radio stations, websites and digital media companies.

The school consistently ranks in the top 10 in the annual Hearst intercollegiate journalism competition, often called the Pulitzer of college journalism. And the school's students have finished first in the Society of Professional Journalists' Mark of Excellence Awards for a record 16th consecutive year. The faculty consists of award-winning professional journalists and world-class media scholars. The school is housed on ASU's Downtown Phoenix campus, in the middle of one of the nation's largest media markets.

More information on the school's academic standards, policies and procedures and those of the Graduate College can be found at <https://graduate.asu.edu/policies-procedures> [14].

Academic Integrity

Academic dishonesty in any form will not be tolerated in the Walter Cronkite School of Journalism and Mass Communication.

The crux of our democracy is the ability of citizens to obtain honest, truthful and balanced information, and the credibility and integrity of the individual journalist and communications professional are crucial in that effort.

In light of the Cronkite School's mission to prepare students to become journalists and communication professionals, it is critical that credibility and integrity are fostered within the educational environment of the school. To that end, zero tolerance for academic dishonesty will be enforced for every course and educational activity offered or sanctioned by the school.

Any allegations of academic dishonesty will automatically be referred to the standards committee of the school for review and recommendation to the dean of the school. **If any student is found by the committee to have engaged in academic dishonesty in any form — including but not limited to cheating, plagiarizing (https://cronkite.asu.edu/assets/pdf/Academic_Integrity_Policy.pdf [15]) or fabricating — that student shall receive a grade of "XE" (academic dishonesty) for the class and will be dismissed from the Walter Cronkite School of Journalism and Mass Communication. There will be no exceptions.**

The Cronkite School will notify the Graduate College if a graduate student is being recommended for dismissal from the school for having engaged in academic dishonesty.

Admission

Candidates for the Master of Mass Communication or Master of Arts in sports journalism degrees apply online at <https://students.asu.edu/graduate/how-and-when-apply-graduate-admission> [16]. Candidates must meet the Graduate College admission requirements before the Cronkite School can review the application. Applicants must submit official transcripts in sealed envelopes directly to Graduate Admission Services. An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency and must also submit the results of the TOEFL.

Plan of Study

After completing 50 percent of the minimum credit hours required for the Master of Mass Communication or Master of Arts in sports journalism degrees, students must submit an official plan of study with the Walter Cronkite School of Journalism and Mass Communication. The plan of study is available online in the My Programs box on MyASU at <https://my.asu.edu> [17].

The student selects the ASU courses that have been taken, those in progress and those the student plans to take in future semesters. Once the plan of study is completed, it is electronically forwarded to the Cronkite School's graduate office. It must be approved by the members of the Cronkite School's graduate committee and the dean. The completed plan of study is sent to the Graduate College and then to the graduation office. The approved plan of study is a contract between the student and the school verifying the classes the student intends to take during his or her course of study. Students who do not have an approved plan of study on file are not eligible for graduation. Changes in the plan of study may be made by using the form Course Changes to the Graduate Plan of Study available online on MyASU at <https://my.asu.edu> [17].

Students who need to file a plan of study will be notified by the Graduate College via email. If the student fails to file the plan of study within the specified time period, a hold will be placed on the student's ASU record. The hold will prevent the student from registering for classes. Once the student has filed the plan of study and it has been approved, the hold will be removed. The Graduate College monitors students' iPOS statuses and places or removes the holds.

Satisfactory Academic Progress

All graduate students are expected to make systematic progress toward completion of their degree. This progress includes satisfying the conditions listed below and achieving the benchmarks and requirements set by the individual degree programs. Each degree program should have in place policies for satisfactory academic progress. Students are responsible for verifying additional satisfactory progress policies as required by their degree program. If a student fails to satisfy the requirements of their degree program and the benchmarks outlined below, the student may be dismissed from their program based on the academic unit's recommendation to the Graduate College. The dean of the Graduate College makes the final determination.

1. Maintain a minimum of 3.00 GPA on the iPOS, graduate and cumulative GPAs. If a GPA falls below 3.00, the student must develop, with their advisor, an academic performance improvement plan that includes the conditions and time frames for making satisfactory academic progress in the degree program.
 - The iPOS GPA is calculated from all courses that appear on the student's approved iPOS.
 - The graduate GPA is calculated from all courses numbered 500 or higher that appear on the transcript, with the exception of courses counted toward an undergraduate degree at ASU (unless shared with a master's degree in an approved bachelor's and master's degree program) and from courses identified as deficiencies in the original letter of admission. The student is considered to be on academic probation until the conditions specified in the academic performance improvement plan are met and both GPAs are above 3.00.
 - The cumulative ASU GPA represents all courses completed at ASU during the graduate career.
2. Satisfy all requirements of the graduate degree program.
3. Satisfy the maximum time limit for graduation from the student's graduate degree program (six years for master's degree, 10 years for doctorate).
4. Doctoral students must complete all program requirements within 10 consecutive years.
5. Successfully pass any comprehensive exams, qualifying exams, foreign language exams, and the oral defense of the proposal or prospectus for the thesis or dissertation that are required for the specific graduate program.
6. Successfully complete the culminating experience and, if required, the oral defense of the culminating experience.
7. Graduate students must stay continuously enrolled in their graduate program. Failing to do so without a Graduate College-approved Request to Maintain Continuous Enrollment is considered to be a lack of academic progress and may lead to automatic dismissal of the student from the graduate program. Persistent "W" (withdrawal) and "I" (incomplete) grades during multiple semesters on a plan of study or transcript may reflect a lack of academic progress.

In addition to the Graduate College satisfactory academic progress policies, the Walter Cronkite School of Journalism and Mass Communication has adopted the following:

1. If any of a student's GPA falls below 3.00, the student will be notified in writing and placed on probation. If the student's GPA is not raised to at least 3.00 by the end of the next semester (excluding summer), a recommendation will be made to the Graduate College to remove the student from the graduate program.
2. If a student earns less than a "C" (2.00) in MCO 502 Journalism Skills (Bootcamp), the Cronkite School will recommend to the Graduate College that the student should be removed from the program immediately.
3. To receive their degrees, master's degree students who have MCO 570 Capstone as their culminating experience are required to earn at least a "B" (3.00).

Appeals

Students who want to appeal a course grade must first discuss the issue with the instructor. If the issue is not resolved, the student may appeal the decision to the school's standards committee. The standards committee will review the issue and make a recommendation to the dean. The dean's decision is final. Students should be aware the standards committee may recommend a grade lower than the one awarded by the course instructor.

If a student fails to make satisfactory academic progress and a recommendation is made to the Graduate College to remove the student from their graduate program, the student will have 10 business days to file a written appeal with the dean. The dean's decision regarding appeals is final.

Transfer Credit

Students admitted to the 30 credit hour mid-career MMC program may transfer up to six credit hours of approved coursework taken before beginning the program not used toward a previous degree; the six credit hours may include nondegree coursework. Only courses with a grade of "A" (4.00) or "B" (3.00) and taken within three years of admission to an ASU graduate program may be accepted as transfer credit.

In order to have graduate coursework that was completed at other accredited institutions included on a plan of study, a student must petition the Cronkite School's graduate committee. The student also must complete the petition section of the plan of study.

Students who are in the 36 credit hour professional master's degree program are not permitted to transfer coursework from another institution or from another ASU program.

Time Limitations

Students have six years from the start of their program to complete their master's degrees, 10 years for doctoral degrees.

400-Level Courses Taken for Graduate Credit

The Walter Cronkite School of Journalism and Mass Communication may allow graduate students to enroll in and use up to two three-credit 400-level courses on their plans of study (a total of six credit hours). Students must receive permission from the senior associate dean prior to enrolling in any 400-level course they intend to include in their plans of study. Students taking these courses are responsible for obtaining and completing the 400-Level Course Contract form. This form specifies what the student must do to receive graduate credit for the course. It must be signed by the professor.

Preadmission Credit

Credit earned in graduate-level courses (per the Graduate College preadmission policy) by undergraduate students may count toward their graduate degrees at ASU provided the credit hours have not been used toward a previously awarded degree. Before awarding a bachelor's degree, ASU undergraduate students should contact their undergraduate advisor to set aside graduate courses for use toward a graduate degree.

Reserving a course does not guarantee the student will be admitted to a graduate degree program or that the course will be used to meet graduate degree requirements. A maximum of nine semester hours of credit may be reserved and only courses with a grade of "B" (3.00) or better are applicable. Reserved credit is classified as nondegree credit and must be taken within the six-year time limit to be included on a plan of study.

Grades of Incomplete

The Graduate College requires students who receive an incomplete in graduate coursework (500 level or above) to complete the necessary work within one calendar year. If the incomplete is not removed within one calendar year, it will become part of the student's permanent transcript and cannot be used on a student's plan of study. To receive credit for the course, the student must repeat the course by reregistering, paying fees and fulfilling all course requirements.

Master of Mass Communication or Master of Arts in sports journalism students with more than one incomplete at any time will be considered failing to make adequate progress, and they will be notified and placed on probation. If the student does not complete the work to remove the incomplete and earn a letter grade by the end of the calendar year, a recommendation may be made to the Graduate College to remove the student from the Master of Mass Communication or Master of Arts in sports journalism program.

With 400-level courses taken for graduate credit, students are required to complete the necessary work to remove an incomplete grade within one calendar year. If the incomplete grade is not removed within one calendar year, the "I" will become an "E". An "E" cannot be used to meet the requirements for a graduate degree, but it is used to calculate the student's GPA. Students may retake the class to earn a higher grade; however, both the "E" and the new grade will be used in calculating the student's GPA. If this results in the GPA falling below 3.00, a recommendation to withdraw the student from the Master of Mass Communication or Master of Arts in sports journalism program will be made to the Graduate College.

Applied Project

Students enrolled in the 30 credit hour mid-career program have the option of completing an applied project and are eligible to enroll in MCO 593, Applied Project, when they have no more than six credit hours of coursework remaining on their plan of study. Students interested in completing an applied project are encouraged to meet with the senior associate dean no later than the end of their first year in the program.

For more information on the applied project, students should see the applied project procedures handout available in the Cronkite School's graduate office.

Financial Aid

Many graduate students receive financial aid from ASU to assist in financing their education. More information can be found at <https://graduate.asu.edu/pay-for-college> [18].

ACEJMC Values and Competencies

As a member of the Accrediting Council on Education in Journalism and Mass Communication, the Cronkite School is committed to classroom learning that achieves ACEJMC professional values and competencies. These include the core areas of freedom of speech, ethics, diversity, critical thinking, research, writing and use of tools and technologies related to the field. For a full list of ACEJMC values and competencies, students should see <http://www2.ku.edu/~acejmc/PROGRAM/PRINCIPLES.SHTML#vals&comps> [4].

Diversity Principles

The Walter Cronkite School of Journalism and Mass Communication practices inclusivity in student, staff and faculty populations in order to create an academic environment that embraces diversity of thought and acceptance of all people regardless of societal, political, cultural, economic, spiritual or physical difference, age or sexual orientation.

To this end, the school directs efforts to the following four principles:

1. Actively seek out and encourage diverse populations to become productive members of the faculty, staff and the student body.
2. Create and maintain a work, learning and social environment that is cognizant of and supportive of a diversity of human differences and beliefs.
3. Incorporate within the formal content of the curriculum and in each course an affirmation of the core journalistic values of accuracy, fairness, ethical behavior and sensitivity when reflecting an increasingly multicultural world.
4. Foster and support a climate in which events and activities of the school reflect diversity of awareness, sensitivity to and support for people of different origins, orientations and abilities.

Social Media Guidelines for Student Journalists

The Cronkite School encourages participants in its professional programs to make use of social networking sites such as Facebook and Twitter, which are valuable reporting tools and promotional and distribution channels for our content. To ensure the highest journalistic standards in these programs, participants must abide by the standards for social media use drawn from The Poynter Institute for Media Studies and the Society of Professional Journalists' Code of Ethics.

Sandra Day O'Connor College of Law Policies

Graduate Policies

Academic Integrity

Honor Code

The legal profession, a self-regulating association, depends on the integrity, honor and personal morality of each member. Similarly, the integrity and value of a Sandra Day O'Connor College of Law degree depends on a reputation for fair competition. The college's honor code is intended as a measure to preserve the integrity of the school's diploma and to create an arena in which students can compete fairly and confidently. Copies of the honor code are available from the college's student services office.

Academic Standing

Retention Standards

The College of Law requires a minimum GPA of 2.00 to continue enrollment. If a student's GPA falls below this number, he or she may be disqualified in accordance with College of Law policies.

The College of Law statement of student policies contains additional retention and academic policies. The statement of student policies can be found at <https://law.asu.edu> [1].

Advising

Academic advising for currently enrolled law students is available through the office of the assistant dean for academic affairs.

Degree Requirements

Concurrent Degrees

College of Law students must be in academic good standing to be eligible to pursue a concurrent degree.

Shared Credit

Per the Graduate College policy for concurrent master's degrees, a maximum of 20 percent of the minimum total credit hours for the completion of both degrees may be common hours shared between the degree programs. The total number of hours common to both degree programs may vary from this maximum value only when the Graduate College office has formally approved coordinated degree programs.

The Graduate College policy also states that for a concurrent master's/doctoral degree a maximum of nine credit hours may be common hours shared between the degrees and may only include coursework completed after admission to both degree programs. The total number of hours common to both degree programs may vary from this maximum value only when the Graduate College office has formally approved coordinated degree programs.

The Graduate College policy for concurrent doctoral degrees states that a maximum of 12 credit hours may be common hours shared between the degrees. The total number of hours common to both degree programs may vary from this maximum value only when the Graduate College office has formally approved coordinated degree programs.

Process

Current Juris Doctor College of Law students who are interested in pursuing a concurrent degree should contact the College of Law Assistant Dean for Academic Affairs or the College of Law Assistant Registrar prior to applying to the college or department offering the desired concurrent degree.

Students in one of the College of Law's master's degree programs who are interested in pursuing a concurrent degree should contact the College of Law Associate Dean for New Education Initiatives prior to applying to the college or department offering the concurrent degree.

Current ASU students who are not enrolled in the College of Law and who wish to pursue a concurrent degree with the College of Law should contact the College of Law Admission office. <https://law.asu.edu/admissions> [2]

Admission Process

The Sandra Day O'Connor College of Law enrolls only one first-year, JD class per year, and it enters in the fall semester. The program is a three-year program, and almost all students study on a full-time basis. The college does offer a flexible scheduling option for students with circumstances that make full-time enrollment impossible. The following steps must be completed for an applicant to be considered for admission to the JD program:

1. Demonstrate an earned undergraduate degree from an accredited four-year college or university by the time of enrollment in the JD program.
2. Take the LSAT and provide a reportable score from that test.
3. Submit a completed application with application fee.
4. Submit transcripts and letters of recommendation through the Law School Admissions Council's Credential Assembly Service, which will be provided to the College of Law by LSAC with the applicant's LSAT record. Applicants must apply electronically through www.lsac.org [3].

The undergraduate record and LSAT score are only two of many factors considered for admission.

More details about the application process can be found at <https://law.asu.edu/admissions> [2]. For an application to be considered timely, it must be postmarked or electronically submitted by March 1. The deadline for early admission is Nov. 15.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies including those of the Graduate College and the Sandra Day O'Connor College of Law.

Source URL: <https://catalog.asu.edu/policies/law>

[2] <https://law.asu.edu/admissions>

[3] <http://www.lsac.org/>

College of Liberal Arts and Sciences Policies

Included are the current policies in the College of Liberal Arts and Sciences.

Academic Integrity

Academic honesty is expected of all students in all examinations, assignments, papers, laboratory work, academic transactions and records. Possible sanctions include appropriate grade penalties, loss of registration privileges, disqualification and dismissal. More information about academic honesty is available at <https://provost.asu.edu/academic-integrity> [1], and information about College of Liberal Arts and Sciences policies and procedures is at <https://clas.asu.edu/resources/academic-integrity> [2]. CLAS tracks all reports of academic integrity violation internally and shares that information with other ASU colleges and schools.

Student Right of Appeal

A student accused and sanctioned for an academic integrity violation has the following rights:

- The student may discuss the matter directly with the faculty member.
- If the issue is not resolved after speaking with the faculty member, the student has the right to initiate a discussion with the chair of the academic unit offering the course or the chair's designee.
- If the issue is not resolved after speaking with the chair or the chair's designee, the student has the right to initiate a discussion with the CLAS dean's office. If an XE for the course or a more severe sanction (e.g., suspension, expulsion) has been recommended by the faculty member, the student is strongly encouraged to meet with dean's office staff to discuss the allegation. Students may call 480-965-6506 to schedule an appointment with senior staff in the College of Liberal Arts and Sciences, Office of Student and Academic Programs.
- The student may appeal to the College of Liberal Arts and Sciences Student Affairs and Grievances Committee. After discussing the matter with the faculty member, chair, and dean's office staff, a student has the right to appeal the finding that an academic integrity violation has occurred or the sanctions levied to the CLAS Student Affairs and Grievances Committee. The appeal process is initiated by scheduling an appointment with senior staff in the Office of Student and Academic Programs. Students have 10 working days from the date of the email or letter notifying them of the academic integrity violation to initiate an appeal. After the 10 days, the sanction requested by the faculty member will be imposed and the matter will be closed.

Appeals are heard by the college's Student Affairs and Grievance Committee, a body composed of faculty and students from across the college that serves as the dean's delegate. The committee meets no more than once a week during regular fall and spring semesters but not during summer, winter or the midterm breaks. After hearing the case, the committee deliberates and makes a written recommendation to the dean for his review. The final decision of the dean is communicated to the student and all appropriate parties in writing.

Unless a student successfully appeals the finding that an academic integrity policy violation has occurred, the dean's office will maintain a record of the incident and the sanctions. If the seriousness of the current situation or past violations warrant, the dean's office retains the right to impose or recommend sanctions in addition to those requested by a faculty member.

Undergraduate Policies

Student Responsibilities

Students enrolling in courses offered by the College of Liberal Arts and Sciences are expected to follow the rules and deadlines specified in this catalog pertaining to enrollment, adding or dropping classes, withdrawals, and tuition payment.

Students are encouraged to meet with their departmental academic advisors regularly. Students with additional questions regarding the academic rules of the college and the university are welcome to meet with advisors in the college's office of student and academic programs, and they can schedule an appointment by calling 480-965-6506.

In addition, students must understand and follow the requirements for the university's General Studies and college graduation requirements in their edition of ASU's academic catalog. The academic catalog is the governing source for all degree requirements.

Academic Standing

The standards for GPA and the terms of academic probation, disqualification, reinstatement and appeal are identical to those of the university, as set forth under retention and academic standards, except that disqualified students in the College of Liberal Arts and Sciences are suspended for at least two regular semesters at the university.

When a student is placed on probation, one of three things can happen:

- The student can return to academic good standing by raising the cumulative GPA to 2.00 or higher at the end of a fall or spring semester.
- The student can remain on probation by earning the required semester GPA of at least 2.00 but not raising the cumulative GPA to academic good standing. The student may continue on academic probation, earning the required semester GPA, for as many semesters as it takes to raise the cumulative GPA to academic good standing.
- The student can be disqualified if he or she fails to achieve the required semester GPA of 2.00.

Students who are placed on academic probation are required to see their advisor in the major in each term they remain on continuing probation prior to enrollment in subsequent terms. Students who are academically disqualified should contact the Office of Student and Academic Programs by calling 480-965-6506.

Students who leave the university for a semester or more while on academic probation are automatically readmitted, except when reapplying to degrees in the Hugh Downs School of Human Communication, which has specific readmission criteria. Students should review the reinstatement/readmission portion of this section for more information about policies and procedures.

Students who fail to meet the minimum 2.00 GPA in the fall or spring semester after being placed on academic probation will be disqualified from further attendance at Arizona State University.

Students disqualified at the end of semester have the option of submitting a written appeal to the college within no more than 10 working days after notification of their disqualification. If the appeal is successful, the student will not need to reapply to the university but will be placed on continuing probation for the subsequent semester. Students who do not appeal or have an appeal denied will be suspended from further attendance for at least two regular fall and spring semesters.

Students who are academically disqualified should contact the Office of Student and Academic Programs at 480-965-6506 to inquire about further steps.

Advising

All students are encouraged to seek advising before registration.

eAdvisor

eAdvisor provides students the tools to successfully follow their major maps to graduation and assists the students with:

- learning more about graduation requirements for their majors
- discerning what critical requirement courses and grades are required to stay on track to successfully complete their degrees
- planning for and scheduling appropriate courses in the correct sequence to maximize success
- monitoring progress toward their degrees
- finding out how courses may fit into other majors if they decide to change majors or to add concurrent degrees

Students can learn more about eAdvisor and access it at <https://eadvisor.asu.edu/> [3].

Advising Locations

College of Liberal Arts and Sciences students should seek routine advising in the department or school of their major. Locations of each advising office can be found at <https://clas.asu.edu/advising/department-advisors> [4].

The Office of Student and Academic Programs, in FULTN 110, is the central resource center for academic information in the college. Requests from students, departmental advisors and faculty for clarification of rules, procedures and advising needs of the college and university should be directed to that office. Also available is the college's information on policies and procedures regarding academic honesty, student grievances with respect to grades, and various petitions involving college and university degree and graduation requirements.

Required Advising

The following groups of students are required to meet with their advisors in order to be eligible to register for their courses:

- all students registering for their first semester at ASU
- freshmen registering for their second semester at ASU
- students on academic probation
- students who have been disqualified
- students who are off track in their major

With the exception of those who have been disqualified, students listed above should consult an advisor in the department or school of their major. Disqualified students should schedule an advising appointment with the Office of Student and Academic Programs by calling 480-965-6506.

Advising for Preprofessional Programs

Professional Field	Advisor Location
Dentistry	FULTN 110
Foreign Service	Diplomat in Residence, Jasper Daniels, COOR 6971
Law	FULTN 110
Medicine	FULTN 110
Ministry	School of Historical, Philosophical and Religious Studies, COOR 3309
Occupational Therapy	FULTN 110
Optometry	FULTN 110
Osteopathy	FULTN 110
Pharmacy	FULTN 110
Physical Therapy	FULTN 110
Physician Assistant	FULTN 110
Veterinary Medicine	FULTN 110

Health Professions

Students who plan to pursue a health profession should meet regularly with the preprofessional advising staff located in the Office of Student and Academic Programs. For each of the health-related fields listed above, specific courses must be

taken to complete graduate or professional school prerequisites and to prepare for required standardized admission exams (e.g., MCAT). To schedule a meeting with a prehealth advisor, students should call 480-965-2365.

Pre-law

Students who plan to pursue a law-related profession should seek out guidance from the preprofessional advising staff located in the Office of Student and Academic Programs. There are no specific course requirements for entrance into law school. Courses that engage students in intense critical analysis and include substantial amounts of writing, however, are recommended, as are practical experiences in law-related fields (e.g., through internships). Students can schedule a meeting with a prelaw advisor by calling 480-965-2365.

Academic (Grade) Grievance

Student academic grievance procedures in the College of Liberal Arts and Sciences normally treat matters involving a student's current or recent coursework where, in a claim of unfair treatment, the relief that is sought is a change of a course's final grade. This process does not address academic integrity allegations, faculty misconduct, or discrimination. Academic grievances must be processed within the regular semester immediately following the course at issue (by commencement for fall or spring) regardless whether the student is enrolled at the university. For the purposes of this process, business days are defined as days the university is open.

The grievance procedures of the College of Liberal Arts and Sciences are as follows:

- The student should first discuss the grade with the instructor of the course.
- If the matter cannot be resolved at the course instruction level, the student may appeal to the chair or the chair-designated representative of the department responsible for the course.
- Only when the issue cannot be resolved at the department level may the student may consult with a member of senior staff in the CLAS Office of Student and Academic Programs. Students may schedule an appointment by calling 480-965-6506 to discuss the next steps in the academic grievance process.
- After meeting with the dean's representative in the Office of Student and Academic Programs, the student has 10 business days to file a written grievance with the Office of Student and Academic Programs. The grievance will be forwarded by the Office of the Dean to the instructor with a request to provide a written response within 10 business days.
- The student will be contacted to review the response when it arrives in the dean's office and confer with the dean's designee before deciding whether to request a hearing before the College of Liberal Arts and Sciences Student Affairs and Grievance Committee. The request for a hearing must be in written form. Upon receiving the student's request, the dean's designee will arrange a formal hearing before the College Student Affairs and Grievances Committee. The committee is a regular faculty committee of the college, meeting up to once per week during the fall and spring terms. The Committee does not meet during summer and winter breaks or during fall or spring intersessions.

The hearing shall be conducted by the committee chair and shall be closed. The arrangements for the order of appearance, for submission of materials, testimony and related matters should be made through and by the dean's delegate in the Office of Student and Academic Programs. The dean's designee serves as an ex officio member of the committee but has no vote in the decision-making process. The committee shall make a confidential, written report through the committee chair to the associate dean for Student and Academic Programs.

The associate dean for Student and Academic Programs will take final action after fully considering the committee's recommendation, in keeping with university policy (<https://catalog.asu.edu/appeal> [5]). The associate dean informs the student, instructor, department chair or school director (if any), registrar (if appropriate) and grievance committee of any action taken. The decision of the associate dean is final.

Credit/Registration

Credits, Degrees and Course Registration

Credit Requirement

All candidates for graduation for bachelor degrees in the college are required to complete at least 120 credit hours of which at least 45 credit hours must consist of upper-division courses. A minimum ASU cumulative GPA of 2.00 is required for graduation.

Minors

The college offers minors in many of its disciplines. All minors require a minimum of 18 credit hours in the discipline with at least 12 of those credit hours as upper-division courses. Six of the upper-division credit hours must be taken from courses offered by the College of Liberal Arts and Sciences. Students should work with the advisors in the departments of their minors to make certain they are making the most effective choices to complete their minors. Students may not use courses in their minors toward their majors and, similarly, students may not use courses in their majors to fill the requirements of their minors. Additionally, there may be some disciplines that are too close in content for a student to choose a particular combination of minor and major.

Course Load

Undergraduate students are normally limited to 18 credit hours per fall or spring semester (or nine credit hours each in sessions A and B) and 14 total credit hours in summer session (seven credit hours each in sessions A and B; nine credit hours in session C). The typical student course load is 15 or 16 credit hours for a full 15-week semester.

Students who wish to register for more than 18 hours must meet GPA criteria based on the number of additional credit hours requested. Specific criteria, further guidelines, and the course overload petition form are at <https://clas.asu.edu/resources/advising> [6]. Students meeting these requirements may seek an overload for 19 to 21 credit hours (or up to 10 credit hours in either session A or B) from the advising office in the departments of their majors. Any petition for an overload in excess of 21 credit hours (or more than 10 credit hours in any fall or spring session A or B) must be presented to the Office of Student and Academic Programs in FULTN 110 or by email at clas@asu.edu [7].

No student should assume that his or her petition for overload will be granted. Overload requests are evaluated based on the student's most recent academic performance, cumulative performance and the reasons for requesting the overload. Freshmen and transfer students are not permitted to receive course overloads for their first semester at ASU.

For summer sessions, overloads are rarely granted and requests must be petitioned to the Office of Student and Academic Programs in FULTN 110 or by email at clas@asu.edu [7].

Pass/Fail Grade Option

The pass/fail grade option is intended to broaden the education of liberal arts and sciences undergraduates by encouraging them to take advanced courses outside their specializations. A grade of "P" (pass) contributes to a student's earned hours but does not affect the GPA. A failing grade is computed into the GPA.

College of Liberal Arts and Sciences students with at least 60 credit hours may take courses under the pass/fail option. The following conditions apply:

- Enrollment for the pass/fail option must be approved by the instructor and the college.
- Enrollment for the pass/fail option must be indicated during registration and may not be changed after the drop/add period.
- A maximum of 12 hours taken for pass/fail may be counted toward graduation.

Students may not enroll under the pass/fail option in the following courses:

- those taken to satisfy the second-language or first-year composition requirements
- those in the student's major, minor or certificate program
- those counted toward or required to supplement the major
- those counted as 499 Individualized Instruction
- those taken for honors credits

- those counted toward satisfying the College of Liberal Arts and Sciences graduation requirements or ASU's general studies requirements

Audit Grade Option

Students may choose to audit courses in which they attend regularly scheduled class sessions but earn no credit. Students wishing to audit a course should obtain instructor approval before registering.

The audit grade option may not be changed after the drop/add period.

Degree Requirements

College Graduation Requirements

All students in the College of Liberal Arts and Sciences must complete the university General Studies requirements as well as all requirements of their major. In addition, the college has established requirements that are specific to the BA, BS and BS in planning degrees.

Requirements for all college undergraduates: All students are required to take a minimum of MAT 117 or higher, excluding MAT 110 and one-credit hour math courses. A grade of "C" (2.00 on a 4.00 scale) or higher must be earned in the chosen mathematics course.

Each student admitted as a first-time freshman is required to complete a freshman success course or first-year seminar. These courses are designed to introduce students to the college and help them gain an understanding of what they will need to do to be successful students at ASU. Topics include academic success, academic integrity and student engagement.

Bachelor of Arts: Each student pursuing a Bachelor of Arts degree must demonstrate intermediate proficiency in a second language by completing the courses specified below with a grade of "C" (2.00 on a 4.00 scale) or higher in each course. The second-language course requirement may be fulfilled in one of the following ways:

- completion of second-language coursework at the intermediate level (202 or equivalent)*
- a foreign language course at the 300 level or higher taught in the foreign language and having 202 or its equivalent as a prerequisite
- demonstrated completion of secondary education at a school in which the language of instruction is not English
- completion of SHS 202 American Sign Language IV or its equivalent

*Those students completing this requirement in Ancient Greek must take GRK 301 and 302; students completing the requirement in Portuguese or Romanian must complete POR 314 or ROM 314.

Bachelor of Science: Each student pursuing a Bachelor of Science degree must complete six credit hours (two courses) of science and society courses. At least one course must be completed at the upper-division level and certain limitations apply to how courses may be cross-counted toward other degree requirements. Students should consult an advisor in the department or school of their major for a list of appropriate courses. More information about the requirement and a current list of science and society courses are available on the college's website at <https://clas.asu.edu/resources/science-society> [8].

Major Requirements

Each student is required to select a major from among the fields of study offered by the college. Major maps describe the requirements for completion of each degree program.

The department of the major may require up to 45 credit hours of coursework. The minimum is 30 hours. A maximum of 15 additional hours may be required in related courses and prerequisites. No more than 60 credit hours of coursework may be required to complete the major, related courses and prerequisites. Some departments require calculus-level mathematics and up to five of these credit hours may be excluded from the 60 credit hour maximum as they satisfy the college's mathematics proficiency requirement. A minimum of 12 upper-division hours in the major must be taken in residence and from courses offered by the College of Liberal Arts and Sciences.

No credit is granted toward fulfilling major or minor requirements in any upper-division course in that subject field unless the grade in that course is at least a "C" (2.00 on a 4.00 scale). In the College of Liberal Arts and Sciences, the

assignment of a grade of “Y” (satisfactory) indicates a level of performance that would have resulted in a grade of at least “C” (2.00 on a 4.00 scale) had the normal grading scheme been used.

Students should see individual departmental websites for other minimum grade requirements.

Major fields of study are classified into the following three areas:

Humanities

- Asia studies
- Asian languages (Chinese/Japanese)
- English*
- film and media studies
- French
- German
- history*
- international letters and cultures
- Italian
- Jewish studies
- philosophy
- religious studies
- Russian
- Spanish

Natural Sciences and Mathematics

- actuarial science
- biochemistry
- biological sciences
- biophysics
- chemistry
- computational mathematical sciences
- Earth and environmental studies
- Earth and space exploration
- mathematics*
- microbiology
- molecular bioscience and biotechnology
- physics*
- psychology

Social Sciences

- African and African American studies
- American Indian studies
- anthropology
- applied mathematics for the life and social sciences
- Asian Pacific American studies
- communication
- economics
- family and human development
- geographic information science
- geography
- global health
- global studies
- justice studies
- meteorology-climatology
- political science
- sociology
- transborder Chicana/o and Latina/o studies
- urban planning

- women and gender studies

*degree programs offering a concentration in secondary education

General Electives

Most liberal arts and sciences majors can meet all the above requirements with fewer than the 120 credit hours required for graduation. Remaining hours are general electives that may be selected from any of the departments of the College of Liberal Arts and Sciences or from the offerings of other ASU schools and colleges.

Concurrent Degrees

The college allows students who have completed at least 30 graded credit hours with a minimum GPA of 2.00 to petition the college to pursue a concurrent degree. Concurrent degrees may not be from the same discipline or have overlap in the courses required for each major. In order to complete a concurrent degree, students must earn at least 30 unique credit hours applied toward the requirements for each majors' degree. Petition forms are available within the Concurrent Degree Checklist section of the Advising Resources and Forms [6] page on the CLAS website. The completed forms must be submitted to the Office of Student and Academic Programs in FULTN 110.

Certain specially designed concurrent degree programs, viewable on Degree Search, may have different standards and requirements than individually selected ones.

Reinstatement/Readmission

Students who have been academically disqualified from the university and have not attended for at least two regular semesters can earn readmission or reinstatement to the college and to their majors. That process begins with developing a plan with advisors in the Office of Student and Academic Programs. Any plan is specific to the student's individual needs and directly addresses the factors that resulted in disqualification. The plan may include taking coursework at a two-year college and meeting specific GPA requirements to demonstrate readiness to return to ASU.

Students can schedule a meeting to develop a plan with an advisor in the Office of Student and Academic Programs by calling 480-965-6506. Students are encouraged to meet to discuss this plan at least a semester prior to the desired readmission date.

Disqualified students who were off track for two or more semesters at the time of their disqualification will not be readmitted or reinstated into their former majors. Students whose prior majors were in the Hugh Downs School of Human Communication must meet the specific criteria for readmission to that program.

Other Special Requirements

Some of the major degree programs offered by the college require students to satisfactorily complete a portfolio before being permitted to take upper-division classes. Others require students to study abroad as part of the degree program. Students should check with the departments or schools of their majors to see if any such policies apply in their majors of choice.

Graduate Policies

Students should consult the individual school or department for information about requirements for graduate study.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies set forth by the Graduate College and the College of Liberal Arts and Sciences.

College of Nursing and Health Innovation Policies

The College of Nursing and Health Innovation (CONHI) periodically needs to implement new policies, protocols and procedures to comply with accreditation, regulatory or clinical health care agency requirements; therefore, policies, protocols and procedures are subject to change. Students should confirm current policies, protocols and procedures with the respective student handbook [1]. Commonly referenced policies, protocols and procedures are given in the appendices of student handbooks.

Students interested in the undergraduate nursing programs, including the traditional prelicensure clinical nursing program, postbaccalaureate clinical nursing program, RN to BSN, RN to BSN concurrent enrollment program, and the Eastern Arizona College - ASU RN to BSN partnership program, may contact the College of Nursing and Health Innovation student academic services office at 602-496-0888 to obtain the most current information on college policies. The capacity to provide clinical learning experiences is subject to change; therefore, the capacity to enroll students in these programs may vary depending upon the availability of clinical learning experiences.

Academic Integrity

Academic and Professional Integrity

Academic honesty is expected of all students in all examinations, papers, academic transactions and records. Possible sanctions include appropriate grade penalties, disqualification and dismissal. The College of Nursing and Health Innovation adheres to the ASU student code of conduct and the CONHI academic and professional integrity protocol located in student handbooks. A copy of the student code of conduct may be obtained online at <https://provost.asu.edu/academic-integrity> [2] and a copy of the CONHI academic and professional integrity protocol may be obtained online at <https://nursingandhealth.asu.edu/student-life/current-students> [1]. Academic dishonesty is not tolerated in any course and is subject to specific College of Nursing and Health Innovation policies and procedures.

Undergraduate Policies

Academic Standing

University standards for academic good standing are followed for all majors in the college. Students who do not maintain the minimum GPA after each fall or spring semester are placed on academic probation. Students on academic probation or continuing probation must meet with an academic advisor before registering for the subsequent semester. Students placed on academic probation have one semester to raise the cumulative or semester GPA to meet the academic good standing criteria; otherwise, these students may be disqualified or be determined to be ineligible for the majors in this college. Disqualified students are not permitted to enroll for the fall or spring semesters.

eAdvisor tracking focuses on students who initially enroll as full-time freshmen and tracks their progress during the first four semesters. It identifies and outlines the critical courses, GPA requirements, and milestones that predict success in each major. Students use major maps and progress reports to plan which courses to take each semester.

Students who do not meet critical requirements are notified they are off track, and off-track status is displayed on My ASU student pages. Off-track students are required to see an academic advisor before registering for or adding classes. Students off track for two consecutive semesters may be required to change majors.

Students pursuing the RN to BSN, the postbaccalaureate BSN or the concurrent enrollment program are not critically tracked.

Advising

Academic advising is an essential aspect of the educational experience and is provided by the college through the student academic services office. Academic advisors assist students with program planning, registration, preparation of petitions, verification of graduation requirements, referrals to university and community resources and career planning. ASU

accepts coursework transferred from other accredited institutions, and the College of Nursing and Health Innovation determines if and how the courses will be applied.

The student academic services office is committed to ensuring that students reach their academic goals. This is done by monitoring student progress and providing the academic resources and personalized tools students need to get off to a good start and stay on track toward graduation. Students can monitor their own progress with the eAdvisor academic success resources at <https://eadvisor.asu.edu/> [3] and with personalized tools at <https://eadvisor.asu.edu/students/tools> [4].

Student responsibilities include following university guidelines regarding submission of transcripts from all colleges other than ASU, obtaining the necessary signatures or computer verifications required by the university, and following university procedures for matriculation. It is ultimately the responsibility of each student to fulfill academic and program requirements.

Mandatory Advising

All freshmen and new undergraduate transfer students are required to meet with an academic advisor before registering for courses. Students with academic probationary status and off-track students are required to meet with an academic advisor to plan strategies for improving academic standing. Students interested in transferring to the prelicensure nursing program must attend or view a BSN information session before a one-on-one academic advising appointment will be scheduled. Information session information is located at <https://nursingandhealth.asu.edu/admissions/information-sessions> [5].

Credit/Registration

Course Load

Students wishing to register for more than the maximum allowable credits in a term must contact their academic advisor to obtain an approved overload before registration. All prerequisite courses for the nursing programs must be taken for a letter grade. All upper-division nursing courses will be taken for a grade except for selected clinical courses in the prelicensure program that are taken for "P" (pass) or "Y" (satisfactory).

Students wishing to pursue concurrent degrees must petition the university standards committee and have approval from the College of Nursing and Health Innovation and from the college that offers the other chosen degree.

Degree Requirements

RN to BSN Program

Applicants who have an associate degree in nursing or a nursing diploma and have their RN license must apply to the online RN to BSN program at <http://bsn.asu.edu> [6]. Potential students must have an active RN license in good standing in the state or country in which they are working. There is a minimum GPA of 2.50 for all undergraduate coursework. All prerequisites, including a statistics course, require a grade of a "C" or better.

The RN to BSN program courses are offered online and can be completed in 16 to 24 months. There are five starts per year: twice in the fall, twice in the spring, and once in the summer.

The RN to BSN program builds on the knowledge and skills the student learned in their associate degree or diploma program. The course assignments will enhance the student's written and verbal communication skills, clinical reasoning skills and technology skills. Faculty members are leaders and experts in their practice areas. The faculty strive to prepare graduates who will be engaged, professional and innovative leaders who use evidence-based practice to facilitate positive change in the work environment and community. Graduates will demonstrate holistic population-based perspectives and be solution identifiers, client advocates and effective communicators.

The RN to BSN program has transfer pathway agreements with all the community colleges in Arizona. Students with an AAS from a community college in Arizona may be eligible for a pathway program. Students must have earned a 2.50 GPA in the following courses to be eligible for a pathway program: BIO 201, BIO 202, CHM 130/LL, BIO 205, ENG 101, ENG 102 and PSY 101.

Students who did not complete the AAS in the state of Arizona are eligible for the non-pathway program.

For more information on this program, students should view <http://bsn.asu.edu> [6].

Traditional Prelicensure Clinical Nursing Program

Admission requirements for the traditional prelicensure clinical nursing program are more rigorous than university requirements. Some entering freshmen will be directly admitted to the nursing major. Other students will be admitted to an alternative major, the BS in community health, and then compete for space in the nursing program. A competitive application process will be used to fill any available seats in the TPCNP after placing directly admitted nursing major students. Spaces will be given to those students with the highest advancement score. Directly admitted nursing major students must meet continuing eligibility criteria each semester. If they fail to meet one or more of the criteria, they forfeit their direct admit nursing major status and may compete for advancement to the TPCNP.

Consideration for advancement to the traditional prelicensure clinical nursing program and the post-baccalaureate clinical nursing program are separate processes that follow admission to ASU.

Students in other majors, including nursing major students who have forfeited direct admission, are all eligible to compete for a space in the program through the competitive application process, provided they have completed the prerequisite courses and all screening items. The advancement score for the TPCNP is composed of the select GPA and the TEAS score. Seats will be given to those students with the highest advancement scores. For students applying through the competitive application process, the select GPA and the TEAS scores will be used to rank students from high to low. After directly admitted students who meet continuing eligibility criteria are advanced, students who are the highest on the list will be offered the remaining spaces in the TPCNP. Students not selected may choose to compete again in the next term. There is no limit on the number of times students may compete; a waiting list will not be maintained. Students who do not meet the minimum select GPA and TEAS scores will be withdrawn from consideration. Nursing faculty may opt to use additional criteria in the selection process.

Select GPA: The select GPA will be computed based on 13 critical (prerequisite) courses and must include ENG 101, ENG 102, and three of the four lab sciences: BIO 201, BIO 202, CHM 101, MIC 205/206. Critical courses with a grade of "C" or better may not be repeated to improve the select GPA. Students should see a nursing academic advisor for possible replacement course options. Students who have already earned a bachelor's degree may choose to use a "pass" grade rather than letter grades for ENG 101 and 102.

Prerequisite and select GPA for Competing Students: Students must have a minimum 3.25 in both their prerequisite GPA and select GPA. The average select GPA for those advanced into the program in previous semesters has been much higher than a 3.25.

TEAS for Competing Students: Students will be measured in the basic essential skills in academic content areas of reading, mathematics, science, and English and language usage. To prepare for the exam, students are recommended to visit www.atitesting.com [7] to review the resources available from the creators of the exam. The minimum required TEAS score is 58.7 percent. Direct admit students are not required to take the TEAS, but it is highly recommended.

Students who do not meet the minimum select GPA and TEAS scores will be withdrawn from consideration.

Postbaccalaureate Clinical Nursing Program

In order to be considered for the PBCNP, all interested students must have a bachelor's degree in a discipline other than nursing posted at ASU by the deadline for placement. Placement in the PBCNP is based on clinical space availability. More students may request placement than clinical space will allow. Placement is not guaranteed.

The program is a 12-month program that begins during the spring semester and it includes the spring, summer and fall semesters. The program is offered only at the ASU Downtown Phoenix campus. The program only begins during the spring semester. Summer tuition rates apply.

The prerequisites for this program are BIO 201, BIO 202, CDE 232, CHM 101, HCR 220, HCR 240, MIC 205/206, NTR 241, PGS 101 and a statistics course that meets the General Studies CS requirement. Eight of the 10 courses must be completed by the placement deadline with a minimum 3.50 GPA for the semester for which the student applies. All four science courses must be completed by the placement deadline: BIO 201, BIO 202, CHM 101, and MIC 205/206.

Grades of "C" (2.00) or better must be earned in each prerequisite course and a minimum cumulative GPA of 3.50 for the prerequisites mentioned above is required by December 31. Courses with a grade of "C" or better may not be repeated to improve the prerequisite GPA. Students should see their academic advisor for limited replacement course options.

Placement is based on a select GPA and a TEAS score of 58.7 percent or higher. Eligibility requirements, criteria for placement and measurements are subject to change. The select GPA will be computed based on eight of 10 prerequisite courses. If only eight prerequisite courses are completed by the placement deadline, the student's select GPA will include all eight of the courses, four of which must be science courses. If the student has more than eight courses completed, they must select at least three of four lab sciences and then choose five other courses.

Students who have a degree may choose to apply to the PBCNP or to the TPCNP, or to both programs, as long as the prerequisites have been met for both programs.

Concurrent Enrollment Associate-Baccalaureate Nursing Program

The concurrent enrollment associate-baccalaureate nursing program is offered through participating community colleges. This program is designed for qualified nursing students who are interested in earning their BSN in nursing while simultaneously pursuing their AAS in nursing. Selected students will be enrolled in the community college program and ASU RN to BSN courses concurrently. RN to BSN courses taken at ASU will be delivered in an online format.

The concurrent enrollment program allows students to pursue an AAS in nursing via the community college while providing an affordable, concurrent course of study that enables students to complete their BSN degree in approximately one to two semesters after graduating with their AAS degrees.

ASU prerequisite requirements are BIO 201, BIO 202, CHM 101, PGS 101 or CDE 232, MIC 205/206, ENG 101 and 102, HCR 240, and the math requirement (MAT 117, 142, or higher), and students must have a 3.00 or higher GPA in these courses to be eligible for consideration.

More information about the Maricopa County Community College CEP is available at <https://asa.maricopa.edu/departments/healthcare-education-at-the-maricopa-community/maricopanursing-programs/concurrent-enrollment-programs-cep> [8]. For more information about concurrent enrollment programs at other community colleges, students should call (602) 496-0937.

General Information

Students in the nursing programs must earn grades of "C" (2.00) or higher in all nursing coursework except in nursing practice courses in which a designation of a "Y" (satisfactory) or "P" (pass) grade is required. In addition, students are allowed only one nursing course failure (i.e., grade below "C"). The second failure in a nursing course will result in disqualification from the nursing major.

Students who have completed one or more semesters in an upper-division, accredited, baccalaureate school of nursing are highly unlikely to transfer into clinical nursing programs with advanced standing.

For the TPCNP and PBCNP programs, science courses (CHM 101, BIO 201, BIO 202 and MIC 205 and 206) must be current within seven years of the program start date.

Program Fees

Traditional Prelicensure Clinical Nursing Program: Students directly admitted to ASU as a nursing major are charged \$1,000 per semester or term in addition to regular tuition while taking the critical (prerequisite) courses. All students advanced to the TPCNP, whether directly admitted or competitively admitted, are charged \$1,750 per semester or term for the four semesters or terms of the clinical program in addition to tuition charges. Fees are subject to change.

Postbaccalaureate Clinical Nursing Program: There is a \$5,500 program fee per semester or term for the postbaccalaureate BSN concentration in addition to regular tuition and fees. This totals approximately \$16,500 in program fees plus regular tuition and fee charges.

All tuition and fees are subject to change.

Concurrent Degrees

Concurrent degrees are multiple degrees with one conferral date. The student receives both degrees at the same time regardless if coursework for one degree is completed prior to the other degree.

To pursue concurrent degrees, students must be in good academic standing.

A student desiring a concurrent degree program must meet with an academic success specialist in both degree programs to learn about degree and graduation requirements and the eligibility requirements for submitting a petition. Both academic success specialists should review the graduation plan that outlines the courses the student will take each semester through graduation.

A student pursuing a concurrent degree must submit a university petition requesting the concurrent degree. <https://nursingandhealth.asu.edu/student-life/current-students> [1]

The concurrent degree petition must include:

1. an accurate degree completion plan that has been reviewed by academic success specialists from both degree programs and that shows the courses to be taken each semester through graduation
2. a formal statement outlining the request for concurrent degrees which may include short- and longer-term personal and career objectives and goals

The College of Nursing and Health Innovation petitions subcommittee will review the student's concurrent degree request. Concurrent degrees may not be from the same discipline or have significant overlap in the courses required for each major.

Approved petitions are forwarded to the University Registrar for notation on the student's record.

To remove a concurrent degree, the student should email nursingandhealth@asu.edu [9] with the student's full name and ASU ID number as well as which degree the student wants to be removed from the academic record. If the student is pursuing any minors, the student must indicate if they wish to retain the minors.

Reinstatement/Readmission

Disqualified students who have skipped a fall or spring semester must follow the procedures for readmission. Information about readmission to the university is at <https://students.asu.edu/readmission> [10]. Applications for reinstatement and readmission to nursing are subject to rigorous requirements that reflect admission and progression standards.

Other Special Requirements

Special Note: The College of Nursing and Health Innovation periodically needs to implement new policies, protocols and procedures to comply with accreditation, regulatory or clinical health care agency requirements; therefore, policies, protocols and procedures are subject to change. Students should confirm current policies, protocols and procedures with the student handbook at <https://nursingandhealth.asu.edu/current-students> [1].

Titers and Immunizations: Students should refer to the appropriate student handbook [1] for the most recent requirements.

Level One Fingerprint Clearance Card: Level one fingerprint clearance, in the form of a fingerprint clearance card, is required by Arizona state law in order to work with and care for children, the elderly and vulnerable adults. Fingerprint clearance is determined after a background screening process at the state and federal levels to check for criminal records. Students must have a valid, unrestricted fingerprint clearance card to advance to and remain in the clinical nursing programs. Students with concerns about a restriction may call the Arizona Department of Public Safety at 602-223-2279.

Arizona State Board of Nursing Requirement for RN Licensure: Once students have completed their clinical nursing program, they must pass a national licensing examination known as the NCLEX-RN in order to obtain a nursing license. Application for and passage of the NCLEX-RN is the sole responsibility of the student. Arizona state law prohibits an individual convicted of a felony from applying for nursing licensure or certification until five years after the date of absolute discharge of the sentence. This means that all court-ordered terms of probation or parole must be completed at least five years prior to the date of application for nurse licensure. Each case is considered by the Arizona State Board of Nursing on its own merits. The elapse of five years does not guarantee licensure or certification; it simply permits the submission of an application and board consideration. In addition, the Arizona State Board of Nursing may deny any application for a license if the applicant has committed any acts of unprofessional conduct. Students should see the Arizona State Board of Nursing website at <http://www.azbn.gov> [11].

Equal Access: The college is committed to making learning experiences accessible and inclusive for all students, including those with an identified disability or disabling condition. In compliance with the ASU policy on Students with Disabilities USI 702-02, <http://www.asu.edu/aad/manuals/ssm/ssm701-02.html> [12], every effort will be made to accommodate students with special needs to find cost-effective methods to address the identified student condition and serve the needs of the patients. Accommodations may include resources and assistive aids for those students with cognitive and perceptual disabilities, specialized equipment for hearing or vision deficits, and modifications to the physical environment or clinical hours. Students with disabilities are required to document their condition with the Disability Resource Center upon admission to the college and to be key participants in identifying their needs. The college will provide reasonable and appropriate accommodations for any student who has documented a disability or disabling health condition.

Supplemental Requirements for the Clinical Nursing Programs: The requirements specified in this section affect student ability to progress in the clinical nursing program course work, eligibility for clinical placement and to ultimately to be licensed as an RN.

Cardiopulmonary Resuscitation/Basic Life Support Certification: Proof of CPR/BLS health care provider certification is required. Students are required to keep the CPR/BLS certification current throughout advancement consideration and when enrolled in the prelicensure clinical nursing program.

Federal and State Background Screening: Students must have an unrestricted security background check to advance to and remain in clinical nursing programs.

Substance Screen: All students in clinical nursing programs will be required to complete a substance screen. Results of the screen must be negative. Dilute specimens are considered positive. Students will also be tested for nicotine; however, the presence of nicotine will not restrict enrollment in clinical coursework but will affect the clinical placements while in the program.

Lawful Presence: The college follows the Arizona State Board of Nursing policy regarding lawful presence in the United States. "On January 2, 2008, ARS 1-504 (HB2467) was implemented by the board requiring ALL applicants to provide the board with satisfactory documentation demonstrating the applicants' citizenship, alien status, legal residency or lawful presence in the United States" (<http://www.azbn.gov/Documents/Newsletters/2008/Journal%201st%20Quarter%202008.pdf> [13], page 23).

Required Clinical Experiences: Clinical hours vary with facility placement and may include 12-hour blocks of time, weekends and evenings. Flexibility is required since there are a limited number of available clinical sites for student experiences. Students must have the ability to utilize written, verbal and computerized communication with faculty, peers and other health care professionals. Students are expected to demonstrate the ability to think critically and apply nursing knowledge to clinical situations. Students are also required to accept professional supervision from faculty and designated staff and effectively integrate feedback into practice.

Graduate Policies

Additional Policies

Academic Advising: Prospective graduate students may receive information through the college recruitment office at 602-496-0937 or nursingandhealth@asu.edu [9]. Upon admission, each student is assigned a faculty advisor or mentor within the degree or certificate program or area of concentration.

Students should review the student handbooks for the College of Nursing and Health Innovation for information regarding graduate academic procedures and protocols: Graduate Programs in the College of Nursing and Healthcare Innovation Student Handbooks [1].

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies including those of the Graduate College and the College of Nursing and Health Innovation.

College of Public Service and Community Solutions Policies

The College of Public Service and Community Solutions believes our students are our greatest resource. We strive to put the well-being of our students at the center of every policy and program. Each student situation is unique, and we encourage our students to work directly with our talented advising staff to address concerns and issues within the stated policies and procedures.

Academic Integrity

The College of Public Service and Community Solutions academic integrity process models the ASU process. For more information on the process, including next steps, students should see <https://publicservice.asu.edu/grievance-process> [1].

Undergraduate Policies

Academic Standing

Students in the College of Public Service and Community Solutions are considered to be in good standing for the purpose of retention if they maintain a cumulative GPA of 2.00 or higher in all courses taken at ASU. Certain majors within the College of Public Service and Community Solutions may require a progressively higher GPA than 2.00 as a student advances toward their degree. These requirements are outlined in the student's major map.

Changing Majors

Per university policy, a student transferring into the College of Public Service and Community Solutions should have a GPA of 2.00 or higher.

Probation

Any student who does not maintain good standing is placed on academic probation. A student on academic probation is required to observe any limitations or rules the college may impose as a condition for retention.

Disqualification

A student who is on probation becomes disqualified if one of the following occurs:

- The student has not returned to good standing.
- The student has not met the required semester GPA.

Disqualification is exercised at the discretion of the college and becomes effective on the first day of the fall or spring semester following college action. A disqualified student is notified by the dean of the college and is not allowed to register for a fall or spring semester at the university until reinstated. A student who is disqualified may not attend as a nondegree student.

Advising

The following categories of students are required to receive advising and be cleared by a program advisor before they may register for classes:

- all freshmen
- all students majoring in social work
- readmitted students
- students on probation
- students who have been disqualified
- students with special admission status
- students with admission competency deficiencies
- transfer students in the first semester at ASU

Credit/Registration

Course Load

A normal course load per semester is 15 or 16 credit hours. The maximum number of hours for which a student can register is 18 credit hours unless an overload petition has been filed with and approved by the department or school standards committee and dean or dean's designee. Semester course loads may be further limited for students in mandatory advising. Petitions for overload are not ordinarily approved for students who have a cumulative GPA less than 3.00 and who do not state valid reasons for the need to register for the credits. Students who register for an excess of 18 credit hours and do not have an approved overload petition on file may have courses randomly removed through an administrative drop action. Specific degree requirements are explained in detail under the respective college, school and department sections.

Degree Requirements

Interdisciplinary Public Service Requirement

The College of Public Service and Community Solutions has a college-level graduation requirement for all undergraduate students majoring within the college. This degree requirement is called the interdisciplinary public service requirement. Each student must complete coursework from other schools within the college. Students may choose a core course from their major and two courses from the approved course list for this requirement in addition to completing ASU 101-CPP. ASU 101-CPP must be completed in the first year at ASU; the other courses can be taken while completing the degree. The approved course list for each catalog year is available on the major map. Questions about this requirement should be directed to the academic advisor for the major.

Solution-Based Learning Requirement

The College of Public Service and Community Solutions has a college-level graduation requirement for all undergraduate students majoring within the college. This degree requirement is called the solution-based learning requirement. Each student must complete coursework from their school or another school within the college that has an SBL designation. Students must choose a course from the SBL list to meet this requirement. The approved course list for each catalog year is available on the major map. Questions about this requirement should be directed to the academic advisor for the major.

Concurrent Degrees

The College of Public Service and Community Solutions supports students who wish to pursue concurrent degrees. The structure of a student's academic program is customized to meet degree requirements for both programs of study. Students are encouraged to meet with an academic advisor from each degree to establish a feasible program of study.

Reinstatement/Readmission

Students seeking reinstatement after disqualification should contact the College of Public Service and Community Solutions student services office regarding procedures and guidance for returning to good standing. When reinstatement includes readmission, application must be made through the ASU readmission process. All academic disciplinary action is the function of the College of Public Service and Community Solutions student services office (in UCENT 780) under the direction of the dean of the college. Students having academic problems should call this office for advising at 602-496-0600.

The mission of the College of Public Service and Community Solutions professional academic advising staff is to assist students in developing meaningful educational plans for meeting their academic, career and personal goals; this is done through an ongoing process of evaluation and clarification. The advisors strive to perform their duties in a professional, ethical, confidential, accurate and supportive manner, respecting student diversity and needs and always holding the individual in highest regard. The student and advisor should accomplish this process in a spirit of shared responsibility, to help the student develop academic excellence, strong decision-making skills and self-reliance. A student who has been admitted to the College of Public Services and Community Solutions is assigned an academic advisor from the academic unit of the student's major area of study. Questions about advising should be directed to the student's academic advisor or to the College of Public Service and Community Solutions student services office.

Graduate Policies

Advising

Advising is usually handled by graduate faculty or a committee. Once admitted, each student is typically assigned a temporary faculty advisor in the potential areas of specialization; this advisor assists in planning a course of study. For those degree programs requiring the completion of a thesis, a chair and thesis supervisory committee are selected by the director of graduate studies, in consultation with the student and appointed by the dean of the Graduate College. Each graduate degree program in the College of Public Service and Community Solutions has its own set of policies regarding academic performance expectations. Students should contact their graduate advisor to review policies relevant to their degree.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies including those of the Graduate College and the College of Public Service and Community Solutions.

School of Sustainability Policies

Academic Integrity

The School of Sustainability adheres to ASU's academic integrity policies and procedures <https://provost.asu.edu/academic-integrity> [1].

Undergraduate Policies

Additional School of Sustainability Undergraduate Policies, Procedures and Forms [2] can be found online.

Academic Standing

Student Responsibilities

Students need to make many decisions as they complete their degrees. While the school and the university have a number of resources available (e.g., faculty, courses, advisors and tutors) to help in making the decisions, students are expected to take responsibility for their decisions.

Good Standing

Students in the School of Sustainability are considered in good standing for the purpose of retention if they maintain a cumulative GPA of 2.00 or higher in all courses taken at ASU and maintain critical requirements within the major, which may include higher GPA expectations; students should refer to the major map for their catalog year.

Critical Requirements

All sustainability students must meet critical requirements for their intended majors. Students who do not comply with the critical requirements are off track and will have holds placed on their records. They will have to meet with their advisors to have their holds removed. Further registration in their intended majors may not be permitted for those students who still do not meet all critical requirements in the following semester. Students who are off track for two consecutive semesters may be required to change their major.

Probation

Students who do not maintain a cumulative GPA of 2.00 or higher in all courses taken at ASU are placed on academic probation. Before students on probation can register for classes in the next semester, they are required to complete an academic success contract with an advisor and discuss campus academic resources, plan semester goals and discuss strategies to attain academic success. Students on academic probation may be limited to the number of credit hours they can enroll in, must enroll in UNI 220 Academic Refresher, and must also do one of the following:

1. During the next semester, students on probation must raise their cumulative ASU GPA to 2.00 or higher in order to return to good academic standing.
2. They must obtain a semester GPA of 2.50 with no grade lower than a "C" in order to be granted one additional semester on continuing probation, providing them with two semesters to return to good academic standing and avoid disqualification.

In addition, students who have fewer than 24 credit hours will be required to participate in the ASU Pathway for Achieving Student Success program [3].

Disqualification

Students who do not meet probation requirements are subject to disqualification. Disqualified students will not be able to register for classes in the fall or spring semester at the university. Registrations will be canceled for students who have already registered for future fall or spring semesters.

Advising

The School of Sustainability's Student Services Center assists students in achieving their personal, educational, cultural and career goals while becoming self-directed, lifelong learners. The school encourages students to meet with an advisor at least once a semester and requires that students meet with an advisor at four points during their academic career:

1. new-student advising (all newly admitted students)
2. sustainability success advising (during the first semester to plan for the second semester)
3. pivotal advising (when students typically declare their track and related discipline)
4. launchpad advising (to prepare for capstone experiences and planning for post-graduation)

Office hours are Monday through Friday (excluding university holidays), 9 a.m. to 4 p.m. Students should schedule their advising appointments in advance online through My ASU [4] or this direct link [5] so advisors can set aside the appropriate time to answer all their questions.

Degree Requirements

School Graduation Requirements

All students in the School of Sustainability must complete the university general studies requirement as well as all requirements for their majors. In addition, the school has established requirements that are specific to the BA and BS:

1. ASU 101 requirement: All incoming freshmen must complete ASU 101-SOS The ASU Experience with a grade of "C" or higher. All incoming transfer students must complete SOS 201 Introduction to ASU and Sustainability with a grade of "Y".
2. Statistics requirement: All students are required to complete STP 226 Elements of Statistics or additional statistics course options as approved by the school.
3. Second-language requirement: All students must fulfill the second-language requirement (see below).

Second-Language Requirement

Bachelor of Arts: Any student pursuing a BA in the School of Sustainability must demonstrate intermediate proficiency in a second language by completing the courses specified below with a grade of "C" (2.00) or higher in each course. Second-language course requirements may be fulfilled by one of the following:

- completion of second-language coursework at the intermediate level (202 or equivalent)*
- a second-language course at the 300 level or higher taught in the second language and having 202 or its equivalent as a prerequisite
- completion of secondary education at a school in which the language of instruction was not English

*Those students completing this requirement in Ancient Greek must take GRK 301 and 302; students completing the requirement in Portuguese or Romanian must complete POR 314 or ROM 314.

Bachelor of Science: Any student pursuing a BS in the School of Sustainability must demonstrate intermediate proficiency in a second language by completing the courses specified below with a grade of "C" (2.00) or higher in each course. Second-language course requirements may be fulfilled by one of the following:

- completion of second-language coursework at the introductory level (102 or equivalent)
- a second-language course at the 200 level or higher taught in the second language and having 102 or its equivalent as a prerequisite
- completion of secondary education at a school in which the language of instruction is not English

The School of Sustainability also requires a cumulative 2.50 ASU GPA and a 3.00 SOS GPA in order to graduate with a BA or BS in sustainability.

Concurrent Degrees

The School of Sustainability has some formal agreements and major maps [6] in place for concurrent degrees, but students are not limited to these agreements.

Students may seek approval to pursue concurrent degrees with the School of Sustainability after they have completed at least 30 credit hours at ASU. To be eligible to add a BA or BS in sustainability as a concurrent degree, students must have a 3.00 cumulative ASU GPA.

Students interested in declaring a concurrent sustainability degree or current sustainability students interested in declaring a concurrent degree should schedule an appointment [7] with a sustainability advisor to complete a School of Sustainability Standards Petition [8]. Concurrent degrees must be approved by the academic units for both degree programs, so students will also need to meet the eligibility criteria and follow the process outlined by the other academic unit as well.

Degree combinations with too great an overlap between the required courses for each major will not be approved. For example, students may not pursue a BA or BS in sustainability as well as a BA in business with a concentration in sustainability or a BA in interdisciplinary studies with a concentration in sustainability.

Reinstatement/Readmission

Students seeking reinstatement after disqualification or readmission after absence from the university should contact the School of Sustainability office regarding procedures and guidance for returning to good standing. When reinstatement includes readmission, application must be made through the ASU readmission process <https://students.asu.edu/readmission> [9].

Other special requirements

Student Appeal Procedure on Grades

The School of Sustainability follows the university policy for student appeal procedure on grades <https://catalog.asu.edu/appeal> [10].

Graduate Policies

Additional School of Sustainability Graduate Policies, Procedures and Forms [11] can be found online.

Graduate students should refer to the School of Sustainability graduate handbooks for information about graduate policies and academic standards.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing, and they must abide by all university policies including those outlined by the Graduate College and the School of Sustainability.

Students should contact the school for more information, at SOSGradAdvising@asu.edu [12] or 480-727-6963.

Mary Lou Fulton Teachers College Policies

Mary Lou Fulton Teachers College is nationally known for innovative teacher preparation programs, the quality of its graduates and the strength of its school partnerships. The college is among the national leaders in teacher education. Graduates are prepared to address the local and global challenges of improving education by becoming the next generation of teachers, school and school district leaders, researchers, scholarly practitioners, policymakers and other educational leaders.

Mary Lou Fulton Teachers College prepares new teachers to impact student achievement through rigorous and innovative programs at schools around the state and on ASU's Tempe, Polytechnic, West and Downtown Phoenix campuses. Online graduate and undergraduate courses are offered in a variety of areas making programs available at a distance.

As one of the largest, most influential colleges of education in the nation, Mary Lou Fulton Teachers College offers highly regarded doctoral degree programs. Candidates are well prepared for dynamic careers in school leadership, education policy, education technology, higher and postsecondary education and other education-related fields. Consistently ranked as a top graduate school by U.S. News & World Reports, Mary Lou Fulton Teachers College is a force for discovery and for inspiring leaders who will meet the challenges of the future.

For more information, students should visit <https://education.asu.edu> [1].

Academic Integrity

Students in Mary Lou Fulton Teachers College who do not exhibit integrity and professional behavior in the classroom or when in the field are referred to the college administration for disciplinary action. Students should refer to the ASU Student Academic Integrity Policy at <https://provost.asu.edu/academic-integrity> [2] for more information.

Undergraduate Policies

Academic Standing

Satisfactory Academic Progress and Professional Conduct Policy

In order to remain in good standing in the Mary Lou Fulton Teachers College, students must maintain satisfactory academic progress consisting of both academic performance and adherence to the Teachers College Professional Responsibilities Standards. This document sets forth the standards and expectations for satisfactory academic progress and good standing and explains the consequences of failure to meet these standards.

In addition to the policies stated herein, students are expected to abide by applicable university and Arizona Board of Regents policies, including the Student Code of Conduct (<http://students.asu.edu/srr/code> [3]), the ASU Student Academic Integrity Policy (<https://provost.asu.edu/academic-integrity> [2]), as well as all policies, procedures, rules, regulations and requirements established by the local education agency, school district, or school in which they are engaged in field experience or student teaching (for certification students). Failure to do so may lead to consequences that include dismissal from the program and expulsion from the university.

Section I: Academic Performance Requirements

A. Satisfactory Academic Progress

Advisors conduct ongoing reviews of students' academic and professional performance in order to determine retention and continuation status. Students with records containing indicators of professional or academic concerns may be placed on academic probation or academic suspension or may be dismissed (permanently removed) from their programs or from the college.

To meet satisfactory academic requirements, all undergraduate students must:

1. Maintain a minimum overall cumulative GPA of at least 2.50.

2. Achieve a "C" grade or higher in all courses listed on the plan or program of study, including secondary education content area courses. Earning a grade of "W" or "I" in more than one course may be considered a lack of academic progress.
3. Pass all required clinical experiences, including internships, apprentice teaching and student teaching, with a grade of "C" or "Y" or better.
4. Maintain good standing as outlined in the professional responsibilities standards section. Students who violate professional responsibilities may be placed on academic probation or suspension or may be recommended for dismissal.

Definitions

Academic probation: This is the status assigned to a student who has failed to maintain satisfactory academic progress, also referred to as not in good academic standing. A student placed on academic probation is informed of the areas in which program standards are not being met and the actions the student must take to be removed from academic probation and restored to good standing. A student failing to meet the conditions for reinstatement to good standing may be recommended for dismissal from the program.

A student placed on academic probation will be permitted to progress into the next term (unless the next term includes student teaching) while addressing the deficiency. A student who is on academic probation in which the next term requires student teaching will need to meet with his or her advisor to discuss options for the semester.

Academic suspension: An undergraduate student placed on academic suspension may not progress into the next term until all deficiencies have been resolved. Students are required to complete their deficiencies within one calendar year. Failure to do so will result in dismissal from the program.

Deficiency: This term describes a required course or another program criterion, such as coursework or GPA, which has not been met or was not successfully completed.

Dismissal: Administrative removal from the clinical experience, from student teaching or the iTeachAZ courses, from the degree program or from the college is referred to as dismissal.

An undergraduate student who has been dismissed from the Teachers College will not be allowed to enroll in further teacher or administrator certification program courses for a minimum of one semester. When the student is notified of the dismissal, he or she must participate in the development of a professional improvement plan. The student's current and future status will be determined by the terms of the professional improvement plan.

Professional Improvement Plan: A professional improvement plan is a tool designed to support students who may be at risk of not progressing in their major or academic plan. The PIP outlines specific action steps a student must complete in order to maintain or return to good standing within their major or academic plan. There are three reasons for making a PIP referral:

- poor academic standing (i.e., ongoing academic deficiencies across coursework)
- issues regarding professionalism (classes or clinical experience)
- academic integrity violation (plagiarism, cheating, etc.)

Any ASU representative or district partner may refer a student for a PIP. Students who are referred for a PIP will meet with the assistant division director and director of student services to develop a plan for success in the iTeachAZ program.

A student will be dismissed from further enrollment in any initial teacher or administrator program for any of the following reasons:

- expulsion from Arizona State University
- failure to meet the professional responsibilities outlined in the Mary Lou Fulton Teachers College Professional Responsibilities Standards and the ASU Student Code of Conduct
- failure to resolve academic deficiencies
- noncompliance with a professional improvement plan

B. Unsatisfactory Academic Progress Consequences:

GPA and Grade Deficiencies

Academic Probation: Academic probation may be imposed if a student has one of the deficiencies listed below. A student placed on probation will be permitted to progress into the next term (unless the next term includes student teaching, an applied project or culminating experience) while addressing the deficiency. A student who is placed on probation in which the next term requires student teaching will need to meet with their advisor to discuss options for the semester.

Academic Suspension: Academic suspension may be imposed if an undergraduate student has two or more of the deficiencies listed. An undergraduate student placed on academic suspension may not progress into the next term until all deficiencies have been resolved. Students are required to complete their deficiencies within one calendar year. Failure to do so may result in dismissal from the program.

Deficiencies for undergraduate students:

1. a cumulative GPA below 2.50
2. an "I" in an education course or secondary education content course
3. a grade of "D", "E", or "W" in an education course
4. a grade of "D" or "E" in a required secondary education content course

Students who enroll in a course that requires a field observation while not currently enrolled in a clinical experience course that semester are required to enroll in a USL course. Students can choose from USL 210, 216, 402 or 410. Students will obtain the registration and information from their advisor.

Undergraduate students will not be approved for student teaching if they are on academic probation or suspension. Once a student returns to good standing, the student can be approved to student teach.

Clinical Experience Deficiencies Undergraduate Students:

The following policies apply to students enrolled in initial teacher certification or administrator certification programs.

1. A student who fails a clinical experience or internship course may be allowed to retake the clinical experience or internship one time if the reasons for failure are judged to be remediable. If a student is permitted to retake the clinical experience or internship and fails to pass the second time, the student will be dismissed from the program.
2. In some cases, clinical experience or internship issues may be nonremediable. These may include actions that cause the sponsoring school district or other organization to suspend or dismiss an intern or teacher or administrator candidate or to demand that the student teacher or intern be removed from the clinical placement or internship due to violations of the Professional Responsibilities Standards, violations of a professional code of conduct, district policy, or state or federal law, or engages in other inappropriate behavior. The division will determine, based on information from the supervisor, the mentor teacher, the school district, other sponsoring organization, and the student, whether the student actions warrant immediate dismissal from the program without benefit of a period of academic probation or another attempt to pass the clinical experience or internship.

Students who fail a clinical experience will be required to attend a meeting with the division director or designee and director of student services to determine if they are able to retake the clinical experience. Students should refer to grade appeal process for more information.

C. Reinstatement to Good Academic Standing

To be restored to good academic standing:

1. A student must maintain or improve grades to meet the Academic Performance Requirements.
2. An initial teacher candidate must meet the expectations of any professional improvement plan related to satisfactory academic progress or professionalism while in the program.

SPECIAL NOTE: A student on probation for lack of satisfactory progress in one area (e.g., academic progress or professional responsibilities) who subsequently fails to maintain good standing in the other area will be recommended for dismissal. Return to good standing requires satisfactory progress in both areas during the time on probation. Sequential semesters of probation for repeated failures to maintain satisfactory progress will not be considered.

Section II: Professional Responsibilities (Conduct)

A. Satisfactory Progress

Professional work is marked by a particular responsibility to the clients served. Educators are trusted with significant power and authority over students and must demonstrate that they adhere to the standards of the profession. Therefore, in addition to academic progress requirements, students are evaluated with regard to Professional Responsibilities Standards as described in this document.

The Mary Lou Fulton Teachers College Professional Responsibilities Standards show the required expectations for all students.

- All initial teacher or administrator students are expected to meet the professionalism standards in Sections A, B, C, and D at the “applying” level, as a minimum, throughout their course of study.
- Students in noncertification programs are expected to exhibit professional conduct by meeting all standards in Sections A and B at the “emerging” level, as a minimum, throughout their course of study. Showing professionalism and growing and developing professionally are expected in all clinical experiences; in PreK-12 school-related settings; and in university settings, including in interactions with university faculty and staff.

B. Unsatisfactory Progress - Professional Responsibilities

Students will be informed of an allegation of a violation of or lack of compliance with the Professional Responsibilities Standards and will have an opportunity to respond. As a general rule, the college seeks to assist students to become professionals by working with the students to develop and improve professional conduct. Students accused of violating or not complying with the Professional Responsibilities Standards will attend a meeting with the division director or designee and the director of student services or those otherwise appointed to discuss allegations, and they will be informed of their status in the program after the meeting. Possible sanctions include academic probation, suspension, disqualification or dismissal from the initial teacher certification program.

All other university policies regarding student conduct are in addition to these requirements, and infractions of the ASU Student Code of Conduct may result in additional investigations and consequences through university procedures.

C. Dismissal from Clinical Experiences (Internship or Student Teaching)

The following policies apply to students enrolled in initial teacher certification or administrator certification programs.

In the event a school district requests that a student be dismissed from an internship or student teaching placement for unprofessional or inappropriate behavior, the intern or teacher candidate will be required to attend a meeting with the division director or designee, the senior director of student services, and other college representatives as determined by the division director to discuss the reasons for request for dismissal from the internship or student teaching placement. If it is determined that the allegations of a violation of unprofessional behavior resulting in the request for dismissal from the school or district are warranted, one or all of the following actions may result. The intern or teacher candidate:

- will be dismissed from the internship or student teaching placement
- will receive a failing grade of "E" for the internship or student teaching course*
- will not be assigned another internship or student teaching placement during the same semester in which the teacher candidate was assigned a failing grade
- may not withdraw from the internship or clinical experience course or from the student teaching course**
- must withdraw from all courses that require concurrent enrollment with the internship or student teaching

*If an intern or teacher candidate wishes to appeal the "E" grade, the candidate can follow the grade appeal process as outlined on the Teachers College website. The first step in the grade appeal process is to meet with the course instructor. Students have 10 business days to appeal a grade.

**If a withdrawal is processed by the Office of the Registrar, the grade will be administratively changed to an "E".

If a teacher candidate wishes to repeat the internship or student teaching and concurrent course work during the semester following the dismissal, the teacher candidate must show evidence of how they plan to resolve the situation or circumstances which resulted in the removal from the internship or student teaching. The teacher or administrator candidate will be required to meet with the division director or designee and the senior director of student services to

develop a professional improvement plan outlining expectations for continued professional growth and academic development.

In the event that the teacher or administrator candidate violates the rules, policies or procedures for conduct established by the school, district, local education agency, ASU, Teachers College, or the law while on a PIP for unprofessional behavior, the teacher or administrator candidate will be dismissed from the initial teacher or administrator program. Teacher or administrator candidates who are dismissed may not petition to continue in their current academic plan, but may be eligible to pursue other noncertification degree options within Teachers College (i.e., educational studies, master's degree without certification) or within other colleges at ASU.

Appeal Process

Academic Probation

There is no appeal from the action of being placed on probation. Probation provides warning to the student of the potential for suspension or dismissal.

Grade appeals

Reasons for grade appeal:

A student may appeal a grade only when the student can document that one or a combination of the following has occurred:

1. The instructor erred in calculating points or acknowledging timely submission of assignments.
2. The instructor did not apply grading standards equitably; for example, there is evidence of bias due to race, age, sex, religion or national origin.
3. The instructor did not assign grades consistently with the standards and procedures for evaluation announced at the beginning of the course in the course syllabus. The instructor may amend or supplement the standards and procedures during the course by providing written or oral notice to the entire class.

Grade Appeal Procedure:

To receive consideration, grade appeals must be submitted to the course instructor within 10 business days of the last date for posting final grades, as noted in the academic calendar. The academic calendar is available at <https://students.asu.edu/academic-calendar> [4].

Step One: Informal Meeting with Instructor - This step is mandatory and applies to an appeal of course grades only.

1. The student must contact the instructor of the course and submit the attached grade appeal. The student must provide to the instructor any additional relevant documentation to support the appeal and reasons for disputing the grade. The narrative accompanying the grade appeal form may not exceed five double-spaced pages.
2. The student must meet with the instructor either face to face or (in the case of online classes only) virtually. If this meeting does not resolve the grievance, the student may move to step two and submit the grade appeal form to the appropriate contact in the Office of Student Services.

If the required meeting with the instructor has not taken place, the appeal will be accepted only if the student supplies evidence that the student contacted the instructor and either received no reply within five business days or was unable to schedule a meeting within 10 business days of the date of contact.

Step Two: Submit Grievance to Office of Student Services – If the grievance is not resolved in step one, please contact the executive director of academic services at 480-965-5555.

Step Three: Division Director Reviews Grade Appeal – The director of student services will review the grade appeal and may request additional information if needed. The grade appeal will be forwarded to the division director for review.

- Undergraduate programs and graduate certification program appeals will be sent to the division director.

The division director will review all information and will notify the student of the outcome.

Step Four: Appeal Decision to the Dean

- Per university policy, the student may appeal the division director's decision to the dean, whose decision is final. The students must appeal within five business days of receiving the letter from the division director. The letter will contain information regarding how the appeal should be submitted.
- Only the issue appealed to the division director may be appealed; no new issues or complaints may be added.
- The dean or designee has full discretion as to whether to refer the appeal to the Student Issues Committee (also known as the college Academic Grievance Committee). Students should see <https://catalog.asu.edu/appeal> [5] for university policies on grade appeals.
- The student will be notified by mail of the outcome. The decision of the Student Issues Committee (dean's designee) is final.

It is university policy that students filing grievances and those who are witnesses are protected from retaliation. Students who believe they are victims of retaliation should immediately contact the dean of the college in which the course is offered.

More information on university grading policies is at <https://catalog.asu.edu/appeal> [5].

During the time of the appeal, a student may register for courses; however, if the appeal is denied and the student is withdrawn, university policies on tuition refunds will be applied. Any concerns about tuition charges should be addressed to the registrar's office.

Advising

The Office of Student Services is dedicated to providing students with the very best academic support and guidance in every phase of a student's academic program. Academic program advisors provide students with assistance in selecting classes and in fulfilling program requirements. Each ASU campus has dedicated academic advisors knowledgeable about all Teachers College programs. Students should see <https://education.asu.edu/student-life/student-services-undergraduate> [6] or <https://sites.google.com/a/asu.edu/tc-graduate-student-resources/introduction/student-success-staff> [7] for advising locations and contact information. Students are encouraged to meet with their advisors every semester.

Credit Registration

Students are limited to a maximum of 18 credit hours per term. Enrollment in additional credit hours requires college academic advisor approval.

Audit

Teachers College students are permitted to audit any course that is not part of the iTeachAZ curriculum. Additional university fees are assigned to courses when the audit option is chosen.

Course Prerequisites

Enrollment in upper-division iTeachAZ course work requires approval from Teachers College. Students should review current course descriptions for course prerequisites.

Incomplete Grades

Incomplete grades will only be issued if a student is in good standing in the course and experiences an extenuating situation just prior to the end of the term. Courses not leading to Arizona teacher certification must be completed one calendar year from the initial grade assignment. Students enrolled in the professional program must complete courses for which they received "I" (incomplete) grades before the start of student teaching.

Grade appeals

The undergraduate grade appeal policy is available from academic advisors in the Office of Student Services or at <https://education.asu.edu/student-forms-policies> [8]. Students attempting to appeal grades must first discuss the reasons with the course instructors. Appeals must be filed by the deadline stated in the policy.

Pass/Fail

A “Y” (satisfactory) grade is assigned to a passed course and an “E” grade is assigned to a failed course. Only the “E” grade will be computed in the ASU cumulative GPA.

Transfer

Students may transfer a maximum of 64 credits from two-year institutions. There is no limit to the number of credits transferred from four-year institutions. Students interested in substituting previous teacher preparation courses for current professional program Teachers College courses must submit the petition for adjustment of requirements to the Office of Student Services at their chosen campuses.

Any transfer student who is interested in starting iTeachAZ must submit an online form; have a 2.50 cumulative GPA; have completed 60 credit hours; and, fulfill specific course requirements as outlined by each education major. Students who complete the Associate of Arts in elementary education, Transfer Admission Guarantee and Maricopa-ASU Pathways Program will meet the requirements for progression into the professional program.

Withdrawal

Students should review the Mary Lou Fulton Teachers College undergraduate withdrawal policy at <https://education.asu.edu/student-forms-policies> [8] and the current university withdrawal procedures at <https://students.asu.edu/drop-add> [9]. It is each student's responsibility to withdraw from courses. Students will not be automatically withdrawn for nonattendance.

Degree Requirements

Students who begin at ASU as freshmen will follow the major maps for their chosen programs. The major map is an outline that students follow each term for enrollment. Students who have attended only ASU have their progress reviewed at the completion of each term to ensure that they are on track for graduation. Transfer students must attend an advising session in which they will learn the degree requirements as well as minimum eligibility requirements for degree completion. Students must fulfill clinical experience, student teaching or service learning requirements as part of degree completion. Mary Lou Fulton Teachers College is committed to providing support and resources for students needing academic or professional growth assistance.

To be in good standing in Mary Lou Fulton Teachers College, students must maintain an overall cumulative GPA of 2.00 or higher and earn a “C” (2.00) grade in all education courses. Students are evaluated in accordance with the Mary Lou Fulton Teachers College retention and continuation policy. Students in the program are formally reviewed regarding their academic progress to determine retention and continuation status. Students with records that contain indicators of professional or academic concerns will be placed on probation, suspension or permanently removed from their programs.

Students who exhibit unprofessional behaviors or attributes will be required to meet with a Mary Lou Fulton Teachers College administrator to develop a professional improvement plan, which outlines the expectations for continuing in the program. Such students will be placed on probation or suspension and are subject to the disqualification policy of Mary Lou Fulton Teachers College. Students should refer to the retention and continuation policy for additional information: <https://education.asu.edu/student-forms-policies> [8].

Concurrent Degrees

The primary degree is the one that shows at the top of a student's transcript. A concurrent degree is an additional degree a student pursues.

Requirements for students who wish to pursue a concurrent degree:

- Students must be in good academic standing, maintaining a minimum cumulative GPA of 2.50 or higher. (Exception: Students enrolled in the Educational Studies degree program must maintain a minimum cumulative GPA of 2.00.)
- Students must inform their Teachers College advisor of each degree being pursued as a concurrent degree. This information is important to the department's record keeping and it may affect recommended courses.
- Students studying secondary education may not pursue a concurrent degree in the same area as their content area.
- If one of the degrees is offered through another college, the student must contact that college and complete its required procedures for requesting and pursuing concurrent degrees.

Reinstatement/Readmission

Applications for reinstatement and readmission are reviewed by the director of undergraduate student services on a case-by-case basis.

Other Special Requirements

Student Teaching Requirements

The following policies apply to students enrolled in initial teacher certification or administrator certification programs.

Academic Requirements:

To be eligible to progress into student teaching, a student must be in good academic standing with the Teachers College and all outstanding courses. Students who have academic deficiencies as outlined above will not be approved for student teaching until the deficiencies are completed. For undergraduates, this includes requirements for general studies, foundational courses, and electives in the major and minor. For graduate students, this includes all requirements that appear on the program and plan of study.

If students wish to take a course concurrently with student teaching in addition to the courses required during student teaching, they must submit a petition for review by the advising coordinator. The course must be offered in the evening or online and not conflict with contracted hours for student teaching.

Essential Functions of Student Teaching or Administrator Internship:

As a credentialing institution of the State of Arizona, our mission is to prepare teachers for service in P-12 school settings. Teachers College students are required to complete multiple clinical experiences (internships and student teaching) in which they must be able to perform the essential functions of teaching. The essential functions required by Teachers College are in the areas of physical capacity, cognitive flexibility and communication. The ability to perform these essential functions is a requirement for successful completion of the teacher preparation program.

Teaching is a demanding profession that requires a great deal of physical, mental and emotional stamina and in which the safety and well-being of children and youth is paramount. Interns and student teachers will spend the majority of their days standing while interacting with P-12 students in the classroom and other areas of the school grounds. Walking students from one classroom to another and maneuvering through tight spaces between desks or other classroom furniture is commonplace. In early childhood and elementary settings, walking and moving quickly along uneven surfaces on the playground is necessary. Working with P-12 students also entails kneeling or squatting, stooping and bending from the waist at 50- to 70-degree angles frequently throughout the day. Reaching at, below or above shoulder height to write on chalkboards or white boards and using technology and audiovisual equipment requires significant manual dexterity. Occasionally, interns and student teachers will be required to lift or move items weighing up to 30 pounds. These physical requirements allow the effective teacher candidate to engage students in activities and materials that challenge and sustain the attention of students while carrying out instructional plans.

The cognitive demands of internships and student teaching require that teacher candidates master relevant content in all subjects taught in the assigned classroom, use personal modeling to demonstrate performance expectations with precise and correct command of the English language, provide oral and written feedback that is academically focused, frequent and of high quality, and use content-specific instructional strategies that enhance students' knowledge of content. Student teachers must also be able to provide differentiated instruction to ensure that all children have the opportunity to master what is being taught. In addition, student teachers must maintain emotional control under stress and establish rules for learning and behavior both inside the classroom and on all other areas of the school grounds by monitoring for student safety and behavior. Student teachers will be evaluated using the TAP rubric across these essential functions of student teaching. The TAP rubric can be accessed in the Clinical Experiences Handbook provided at orientation.

The physical, cognitive and communicative demands described here are representative of those that must be met by interns and student teachers, to successfully perform the essential functions of their assigned clinical experiences. Reasonable accommodations may be made to enable qualified individuals with disabilities to perform these essential functions.

Definitions

Institutional Recommendation (IR): All Teachers College certification programs are approved by the State of Arizona Department of Education to issue institutional recommendations to students who have fulfilled the state's requirements for certification. The IR allows for expedited issuance of the teaching or administrative certificate.

Student Support

A. Pregnancy Leave Policy

In accordance with Title IX, students requiring leave are entitled to leave for as long as it is deemed medically necessary by their physician. For absences fewer than two weeks for session C courses or one week of leave for session A/B or summer courses, students should be able to make up the missed work without affecting field placement. Longer leaves will be accommodated; however, students are still required to complete all assignments and other requirements that accumulate during their leave prior to the last day of classes. Students who are unable to make up requirements prior to the end of the semester will receive a grade of incomplete or have the option of applying for a medical withdrawal without loss of any tuition paid that semester. During the leave, absences will be excused and will not negatively impact final grades. Students who need to request leave should submit their medical documentation to the senior director of student services in the Mary Lou Fulton Teachers College.

B. Accommodations

Mary Lou Fulton Teachers College is committed to student success and ensures an inclusive learning environment for all students. Students with disabilities or disabling health conditions who need accommodations are required to document their condition with the Disability Resource Center. The Mary Lou Fulton Teachers College encourages admitted students with disabilities or disabling health conditions who believe they may need an accommodation to register with the DRC prior to enrolling in the program. That way, all reasonable accommodations can be in place at the beginning of the program. Students who are registered with DRC will be key participants in establishing reasonable and appropriate accommodations with course instructors.

Additional Requirements for Teacher Certification Candidates

Milestones

As outlined on major maps, students are required to meet milestones for successful progression into iTeachAZ. These milestones include obtaining a DPS fingerprint clearance card, submitting an iTeachAZ intent to progress form with an academic advisor, and attending an enrollment workshop. Details can be found at <https://education.asu.edu/student-forms-policies> [8].

Fingerprint Clearance Card

Per Arizona state statute A.R.S. § 15-106, all teachers and persons who are required to be fingerprinted to work in the classroom are required to have an identity-verified fingerprint clearance card. All students enrolling in programs leading to certification must participate in clinical experiences and student or apprentice teaching. Students participating in clinical experience must have proof of a fingerprint clearance card on file in the Office of Clinical Experiences before clinical placement hours begin.

Intent to Progress

All students who start at ASU as first-time freshmen must submit their intent to progress forms to the Office of Student Services during term three, before beginning the iTeachAZ program in term five. The intent to progress form is located at <https://education.asu.edu/student-forms-policies> [8].

Graduate Policies

The college offers master's degree and doctoral programs as well as graduate certificates. Some programs also allow students to obtain state or professional certification.

After admission to a degree program, specific advice related to degree requirements and activities is provided by academic advisors in the Office of Student Services. Once admitted, all graduate students are required to submit a plan of study. The plan of study functions as a contract between the student, the academic unit and the Graduate College. The

interactive plan of study contains certain degree requirements such as coursework, a committee and a culminating experience. Students are to call 602-543-6358 and ask for the academic advisor for a specific campus or program.

Academic Policies

Academic Standing

Satisfactory Academic Progress and Professional Conduct Policy

In order to remain in good standing in the Mary Lou Fulton Teachers College, students must maintain satisfactory academic progress consisting of both academic performance and adherence to the Teachers College Professional Responsibilities Standards. This document sets forth the standards and expectations for satisfactory academic progress and good standing and explains the consequences of failure to meet these standards.

In addition to the policies stated herein, students are expected to abide by applicable university and Arizona Board of Regents policies, including the Student Code of Conduct (<https://eoss.asu.edu/dos/srr/codeofconduct> [10]), the ASU Student Academic Integrity Policy (<https://provost.asu.edu/academic-integrity> [2]), Graduate Policies and Procedures, as well as all policies, procedures, rules, regulations and requirements established by the local education agency, school district or school in which they are engaged in clinical experience or student teaching (for certification students). Failure to do so may lead to consequences that include dismissal from the program and expulsion from the university. Graduate students should also refer to the Graduate College website (<https://graduate.asu.edu> [11]) for further information about the Graduate College policies.

Section I: Academic Performance Requirements

A. Satisfactory Academic Progress

Advisors conduct ongoing reviews of students' academic and professional performances in order to determine retention and continuation status. Students with records containing indicators of professional or academic concerns may be placed on academic probation or academic suspension or may be dismissed (permanently removed) from their programs or the college (graduate students refer to the Graduate College policies).

To meet satisfactory academic requirements, all graduate students must:

- Maintain at minimum a 3.00 GPA every semester on the following:
 - Interactive Plan of Study GPA: The iPOS GPA is calculated on all courses that appear on the student's approved iPOS.
 - Overall Graduate GPA: The overall graduate GPA is calculated on all courses numbered 500 or higher that appear on the transcript, except courses that counted toward an undergraduate degree at ASU (unless shared with a master's degree in an approved bachelor's degree or master's degree program) and courses identified as deficiencies in the original letter of admission.
 - Cumulative GPA: The cumulative GPA represents all courses completed at ASU.
- Achieve a "C" grade or higher in all courses listed on the plan of study, including secondary education content area courses. Earning a grade of "W" or "I" in more than one course may be considered a lack of academic progress. Doctoral students carrying more than three credits of "I" grades will be considered to not be making satisfactory academic progress.
- Pass all required clinical experiences, including internships, apprentice teaching and student teaching, with a grade of "C" or "Y" or better.
- Maintain good standing as outlined in the professional responsibilities standards section. Students who violate professional responsibilities may be placed on academic probation or suspension or may be recommended for dismissal.

Definitions

Academic Probation: This is the status assigned to a student who has failed to maintain satisfactory academic progress, also referred to as not in good academic standing. A student placed on academic probation is informed of the areas in which program standards are not being met and the actions the student must take to be removed from academic probation and restored to good standing. A student failing to meet the conditions for reinstatement to good standing may be recommended to the Graduate College for dismissal from the program.

A student placed on academic probation will be permitted to progress into the next term (unless the next term includes student teaching, an applied project, or a culminating experience) while addressing the deficiency. A student who is on

academic probation in which the next term requires student teaching will need to meet with his or her advisor to discuss options for the semester.

Deficiency: This term describes a required course or another program criterion, such as coursework or GPA, which has not been met or was not successfully completed.

Dismissal: Administrative removal from the clinical experience, from student teaching or the iTeachAZ courses, from the degree program or from the college is referred to as dismissal.

Professional Improvement Plan: A professional improvement plan is a tool designed to support students who may be at risk of not progressing in their academic plan. The PIP outlines specific action steps a student must complete in order to maintain or return to good standing within their major or academic plan. There are three reasons for making a PIP referral:

- poor academic standing (i.e., ongoing academic deficiencies across coursework)
- issues regarding professionalism (classes or clinical experience)
- academic integrity violation (plagiarism, cheating, etc.)

Any ASU representative or district partner may refer a student for a PIP. Students who are referred for a PIP will meet with the assistant division director and director of student services to develop a plan for success in the program.

A student will be dismissed from further enrollment in any initial teacher or administrator program for any of the following reasons:

- expulsion from Arizona State University
- failure to meet the professional responsibilities outlined in the Mary Lou Fulton Teachers College Professional Responsibilities Standards and the ASU Student Code of Conduct
- failure to resolve academic deficiencies
- noncompliance with a professional improvement plan
- failure to meet ASU Graduate College Policies

B. Unsatisfactory Academic Progress Consequences:

GPA and Grade Deficiencies

Academic probation may be imposed if a student has one of the deficiencies listed below. A student placed on probation will be permitted to progress into the next term (unless the next term includes student teaching, an applied project or culminating experience) while addressing the deficiency. A student who is placed on probation in which the next term requires student teaching will need to meet with their advisor to discuss options for the semester. A graduate student with a single semester GPA at or below 2.00 may be recommended for dismissal without the benefit of a semester of probation.

Students should carefully review the Graduate College policies (found at <https://graduate.asu.edu/policies-procedures> [12]), as the Graduate College policies are required of all graduate students at ASU. Students should pay special attention to the policies regarding GPA, the time limit for degree completion, and continuous enrollment.

Deficiencies for graduate students:

1. interactive Plan of Study (iPOS) GPA below 3.00
2. overall graduate GPA below 3.00
3. cumulative GPA below 3.00
4. a grade below a "C" in any required course*
5. a grade of "I" or "W" in a required course, or carrying more than three credits of "I" for students in doctoral programs

*Students must repeat a course with a grade below a "C" the following semester it is offered and earn a "C" grade or better. Failure to achieve a "C" or better on the second attempt may result in a recommendation for dismissal from the program.

Students will not be approved for student teaching if they are on academic probation or suspension. Once a student returns to good standing, the student can be approved to student teach.

Graduate students who are placed on academic probation may not be permitted to complete culminating experiences applied project, etc.) until she or he returns to good standing. Doctoral students must be in good academic standing to complete comprehensive exams, or to schedule oral defenses.

BAE Educational Students + MA in Learning Sciences (4+1 Accelerated Program)

Students in the BAE to MA 4+1 program are considered undergraduate students until all undergraduate requirements have been met. Undergraduate students enrolled in the accelerated program will be eligible to enroll in graduate level courses and seminars. However, they will not be eligible for most graduate prerequisites including teaching and research assistantships and related health insurance, financial aid, or graduate award programs until the undergraduate degree is completed.

Students are reviewed on an ongoing basis to ensure academic progress in both bachelor's and master's degree requirements.

- Undergraduate students in an accelerated bachelor's/master's degree program prior to the awarding of their undergraduate degree must complete all of their bachelor's degree requirements and graduate with their undergraduate degree within 12 months of the first day of the semester for which they were admitted to the accelerated program.
- Undergraduate students must maintain a 3.0 cumulative GPA from the time they have applied to the program (at 75 credit hours completed in the BAE Educational Studies degree) to the time the student begins taking graduate courses (at 90 credits completed in the BAE Educational Studies degree). A student must continue to maintain a 3.0 in all coursework. **If an undergraduate student's cumulative GPA drops below a 3.0 between the time they are admitted to the accelerated program and the time they begin their coursework, their admission to the accelerated program may be revoked.**
- If the student drops below the 3.0 GPA (cumulative, graduate and iPOS) requirement once they have started the master's portion of the accelerated program the student will fall under the policy for graduate students. **The student will still be allowed to complete their undergraduate degree but will no longer be able to complete the graduate degree as part of the accelerated program.**

Deficiencies for students in accelerated programs:

1. interactive plan of study (iPOS) GPA below 3.00
2. overall graduate GPA below 3.00
3. cumulative GPA below 3.00
4. earning a grade below a "C" in any required course*
5. Earning a grade of "I" or "W" in a required course
6. Failure to complete the undergraduate degree within 12 months of the first day of the semester for which the student was admitted to the accelerated program

*Students must repeat a course with a grade below a "C" the following semester it is offered and earn a "C" grade or better. Failure to achieve a "C" or better on the second attempt may result in a recommendation for dismissal from the program.

Clinical Experience Deficiencies:

The following policies apply to students enrolled in initial teacher certification or administrator certification programs.

1. A student who fails a clinical experience or internship course may be allowed to retake the clinical experience or internship one time if the reasons for failure are judged to be remediable. If a student is permitted to retake the clinical experience or internship and fails to pass the second time, the student will be recommended to the Graduate College for dismissal from the program.
2. In some cases, clinical experience or internship issues may be nonremediable. These may include actions that cause the sponsoring school district or other organization to suspend or dismiss an intern or teacher or administrator candidate or to demand that the student teacher or intern be removed from the clinical placement or internship due to violations of the Professional Responsibilities Standards, a professional code of conduct, district policy, or state or federal law, or engages in other inappropriate behavior. The division will determine, based on information from the supervisor, the mentor teacher, the school district, other sponsoring organization, and the student, whether the student actions warrant immediate dismissal from the program without the benefit of a period of academic probation or another attempt to pass the clinical experience or internship.
3. An InMAC student whose clinical placement is terminated by the school district due to reasons unrelated to performance, such as reductions in force, will not be recommended for academic probation or involuntary withdrawal on that basis alone. However, if the student does not secure another full-time teaching position, he or

she must complete the degree and certification requirements by transferring to a MAC track and successfully completing the requirements of that program. This means the student may not continue to take classes with an InMAC cohort.

Students who fail a clinical experience will be required to attend a meeting with the division director or designee and director of student services to determine if they are able to retake the clinical experience. Please refer to grade appeal process for more information.

C. Reinstatement to Good Academic Standing

To be restored to good academic standing:

1. A student must maintain or improve grades to meet the academic performance requirements.
2. An initial teacher, administrator candidate or graduate student in a non-certification program must meet the expectations of any professional improvement plan related to satisfactory academic progress or professionalism while in the program.

SPECIAL NOTE: A student on probation for lack of satisfactory progress in one area (e.g., academic progress or professional responsibilities) who subsequently fails to maintain good standing in the other area will be recommended for dismissal. Return to good standing requires satisfactory progress in both areas during the time on probation. Sequential semesters of probation for repeated failures to maintain satisfactory progress will not be considered.

Section II: Professional Responsibilities (Conduct)

A. Satisfactory Progress

Professional work is marked by a particular responsibility to the clients served. Educators are trusted with significant power and authority over students and must demonstrate that they adhere to the standards of the profession. Therefore, in addition to academic progress requirements, students are evaluated with regard to Professional Responsibilities Standards as described in this document.

The Mary Lou Fulton Teachers College Professional Responsibilities Standards show the required expectations for all students.

- All initial teacher or administrator students are expected to meet the professionalism standards in Sections A, B, C, and D at the “applying” level, as a minimum, throughout their course of study.
- Students in non-certification programs are expected to exhibit professional conduct by meeting all standards in Sections A and B at the “emerging” level, as a minimum, throughout their course of study. Showing professionalism and growing and developing professionally are expected in all clinical experiences; in PreK-12 school-related settings; and in university settings, including in interactions with university faculty and staff.

B. Unsatisfactory Progress - Professional Responsibilities

Students will be informed of an allegation of a violation of or lack of compliance with the Professional Responsibilities Standards and will have an opportunity to respond. As a general rule, the college seeks to assist students to become professionals by working with the students to develop and improve professional conduct. Students accused of violating or not complying with the Professional Responsibilities Standards will attend a meeting with the division director or designee and the director of student services or those otherwise appointed to discuss allegations, and they will be informed of their status in the program after the meeting. Possible sanctions include academic probation, suspension, disqualification or dismissal from the initial teacher, administrator or graduate program.

All other university policies regarding student conduct are in addition to these requirements, and infractions of the ASU Student Code of Conduct may result in additional investigations and consequences through university procedures.

Notices of Concern

Students who receive a Notice of Concern (NOC) due to unsatisfactory academic or professional conduct may require a meeting with the Director of Student Services, the Division Director, or a designee. Failure to comply with requests related to NOCs may result in probation due to unsatisfactory progress.

C. Dismissal from Clinical Experiences (Internship or Student Teaching)

The following policies apply to students enrolled in initial teacher certification or administrator certification programs.

In the event a school district requests that a student be dismissed from an internship or student teaching placement for unprofessional or inappropriate behavior, the intern or teacher candidate will be required to attend a meeting with the division director or designee, the senior director of student services, and other college representatives as determined by the division director to discuss the reasons for request for dismissal from the internship or student teaching placement. If it is determined that the allegations of a violation of unprofessional behavior resulting in the request for dismissal from the school or district are warranted, one or all of the following actions may result. The intern or teacher candidate:

- will be dismissed from the internship or student teaching placement
- will receive a failing grade (E) for the internship or student teaching course
- will not be assigned another internship or student teaching placement during the same semester in which the teacher candidate was assigned a failing grade
- may not withdraw from the internship or clinical experience course or the student teaching course*
- must withdraw from all courses that require concurrent enrollment with the internship or student teaching, including any applied project course taken concurrently with student teaching

*If a withdrawal is processed by the Office of the Registrar, the grade will be administratively changed to an (E).

If an intern or teacher candidate wishes to appeal the "E" grade, the candidate can follow the grade appeal process as outlined on the Teachers College website. The first step in the grade appeal process is to meet with the course instructor. Students have 10 business days to appeal a grade.

If a teacher candidate wishes to repeat the internship or student teaching and concurrent course work during the semester following the dismissal, the teacher candidate must show evidence of how they plan to resolve the situation or circumstances which resulted in the removal from the internship or student teaching. The teacher or administrator candidate will be required to meet with the division director or designee and the senior director of student services to develop a professional improvement plan outlining expectations for continued professional growth and academic development.

In the event that the teacher or administrator candidate violates the rules, policies or procedures for conduct established by the school, district, local education agency, ASU, Teachers College, or the law while on a PIP for unprofessional behavior, the teacher or administrator candidate will be dismissed from the initial teacher or administrator program. Teacher or administrator candidates who are dismissed may not petition to continue in their current academic plan but may be eligible to pursue other non-certification degree options within Teachers College (i.e., master's degree without certification) or within other colleges at ASU.

Students enrolled in the Master of Education and Arizona certification program who are dismissed from a clinical experience or fail a clinical experience and would like to complete the program without obtaining teacher certification (master's degree only) must submit a petition to the assistant division director and senior director of student services for review. Petitions are reviewed on a case-by-case basis and not all students will be approved to enroll or continue to be enrolled in MAC course work. Students approved to remain in the MAC noncertification option will be required to adhere to the same professionalism standards as students enrolled in certification programs. Failure to adhere to these standards will result in dismissal from the Teachers College.

Special Situations for MAC and InMAC Students:

Intern Certificate (InMAC only):

Students in the InMAC program are in multiple interdependent roles:

- employees of a school or school district
- holders of a teaching intern certificate from the Arizona Department of Education
- graduate students at Arizona State University

The teaching position requires that the student holds the intern certificate. The intern certificate requires that the college certifies to the State of Arizona Department of Education that the student is enrolled in a teacher preparation program and is in good academic standing. At the completion of the first year, the intern certificate renewal requires a letter from the college certifying that the student has met the requirements set forth by the ADE. InMAC students who are on academic probation at the end of the first year will be evaluated on a case-by-case basis to determine if a renewal or extension letter

can be issued. At the completion of the second year, only students in good academic standing will be eligible for an institutional recommendation (IR) to obtain a provisional teaching certificate.

An InMAC student who is ineligible to renew his or her intern certificate is no longer eligible to continue in the alternative pathway to teacher certification program. The student may be allowed to complete the degree and certification requirements by enrolling in the MAC track of the program. More information is available from the Office of Student Services.

Note: Due to the intensity of program coursework and apprentice teaching, students participating in InMAC are not permitted to enroll in courses outside of the prescribed plan of study. Students who are enrolled in courses outside of the InMAC program will not be able to participate in InMAC and will be administratively withdrawn from program courses.

Completion of Student Teaching and Applied Project (MAC and InMAC)

As a part of a MAC or InMAC student's degree requirements, all students must complete an applied project course (Secondary: SED 593, Special Education: SPE 593, Elementary Education: EED 593). The purpose of the applied project is to act as a culmination of student work throughout the program and to enhance the student teaching experience. As a part of this course, students will begin by formulating a topic that they will be researching with a group of students throughout the entire semester, typically those in their student teaching placement (second internship for SPE MAC) and with their placement school's permission. A grade of a "B" or better is required to pass the course and graduate from the master's program.

In those cases in which a student enrolled in an applied project course must leave their placement, they will be required to also withdraw from the applied project course. This is necessary, as students will no longer have preapproved access to the students needed to complete the necessary research for the project. Students dropping both courses will still need to maintain the ASU Graduate College policy of continuous enrollment, either by completing at least one credit of graduate-level coursework or with an approved medical/compassionate withdrawal for the semester.

Applied Project Retake: Students approved for a new student teaching experience will retake the applied project concurrently with the new placement.

For students who successfully complete their student teaching placement, but do not pass the applied project ("B" or better) or if students must complete the program without certification, they are required to complete the next available corresponding applied project course. Students must have access to a group of children in the relevant age group (preapproved by any organization they might belong to) which they must locate themselves. Students must also contact the instructor of the applied project course before the end of the first week of class to discuss their situation, including that they will not be completing their project in an ASU placement.

Appeal Process:

Academic Probation:

There is no appeal from the action of being placed on probation. Probation provides warning to the student of the potential for suspension or dismissal.

Grade appeals:

Reasons for grade appeal:

A student may appeal a grade only when the student can document that one or a combination of the following has occurred:

1. The instructor erred in calculating points or acknowledging timely submission of assignments.
2. The instructor did not apply grading standards equitably; for example, there is evidence of bias due to race, age, sex, religion or national origin)
3. The instructor did not assign grades consistently with the standards and procedures for evaluation announced at the beginning of the course in the course syllabus. The instructor may amend or supplement the standards and procedures during the course by providing written or oral notice to the entire class.

Grade Appeal Procedure:

To receive consideration, grade appeals must be submitted to the course instructor within 10 business days of the last date for posting final grades, as noted in the academic calendar. The academic calendar is available at <https://students.asu.edu/academic-calendar> [4].

Step One: Informal meeting with the instructor - This step is mandatory and applies to appeal of course grades only.

1. The student must contact the instructor of the course and submit the attached grade appeal. The student must provide to the instructor any additional relevant documentation to support the appeal and reasons for disputing the grade. The narrative accompanying the grade appeal form may not exceed five double-spaced pages.
2. The student must meet with the instructor either face to face or (in the case of online classes only) virtually. If this meeting does not resolve the grievance, the student may move to step two and submit the grade appeal form to the appropriate contact in the Office of Student Services.

If the required meeting with the instructor has not taken place, the appeal will be accepted only if the student supplies evidence that the student contacted the instructor and either received no reply within five business days or was unable to schedule a meeting within 10 business days of the date of contact.

Step Two: Submit grievance to Office of Student Services – If the grievance is not resolved in step one, the student may forward the grade appeal to the executive director of academic services.

Step Three: Division Director Reviews Grade Appeal – The director of student services will review the grade appeal and may request additional information if needed. The grade appeal will be forwarded to the division director for review.

- Graduate certification program appeals will be sent to the division director of Teacher Preparation.
- Non-teacher certification graduate appeals will be sent to the division director of Educational Leadership and Innovation.

The division director will review all information and will notify the student of the outcome.

Step Four: Appeal Decision to the Dean

- Per university policy, the student may appeal the division director's decision to the dean, whose decision is final. The students must appeal within five business days of receiving the letter from the division director. The letter will contain information regarding how the appeal should be submitted.
- Only the issue appealed to the division director may be appealed; no new issues or complaints may be added.
- The dean or designee has full discretion as to whether to refer the appeal to the Student Issues Committee (also known as the college Academic Grievance Committee). Students should see <https://catalog.asu.edu/appeal> [5] for university policies on grade appeals.
- The student will be notified by mail of the outcome. The decision of the Student Issues Committee (dean's designee) is final.

It is university policy that students filing grievances and those who are witnesses be protected from retaliation. Students who believe they are victims of retaliation should immediately contact the dean of the college in which the course is offered.

For more information on university grading policies, students should see <https://catalog.asu.edu/appeal> [5]. During the time of the appeal, a student may register for courses; however, if the appeal is denied and the student is withdrawn, university policies on tuition refunds will be applied. Any concerns about tuition charges should be addressed to the registrar's office.

Appealing a Recommendation for Dismissal from Program:

The ASU Graduate College admits students to graduate study at Arizona State University. Students who fail to make satisfactory academic progress may be involuntarily withdrawn (dismissed) from their academic programs by the ASU Graduate College upon the recommendation of the college. The student has the right to appeal a recommendation for dismissal.

Steps in appeal process:

1. The student will receive notice that a recommendation for dismissal from the program is being made to the ASU Graduate College.
2. Within 10 business days of receiving the notice, the student may appeal in writing to the Mary Lou Fulton Teachers College Student Issues Committee (dean's designee). Petition for review forms are available in the Mary Lou Fulton Teachers College Office of Student Services on each campus and online at <http://mytc.asu.edu> [13]. Failure to file the form within 10 business days of the date of notification will result in an automatic denial of the appeal.

Other Graduate Policies:

Continuous Enrollment and Re-entry for Graduate Programs

Once admitted to a graduate program, the student must be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. If a plan of study must be interrupted for one semester, the student may apply to the Graduate College for a leave of absence not to exceed one semester. An application for leave status, endorsed by the division director or designee, must be approved by the Graduate College; for a doctoral student, the leave must also be endorsed by the members of the student's supervisory committee. This request must be filed and approved prior to the semester of anticipated absence. A student on leave is not required to pay fees and is not permitted to place any demands on university faculty or use any university facilities. Students may be continuously enrolled by registering for one credit hour of continuing registration; please contact an academic advisor for more details. A student who interrupts a program without obtaining an approved leave of absence may be removed from the degree program by the Graduate College.

Concurrent Degrees

The primary degree is the one that shows at the top of a student's transcript. A concurrent degree is an additional degree a student pursues.

For concurrent master's degrees, concurrent master's and doctoral degrees and concurrent doctoral degrees, students must follow the Graduate College policies at <https://graduate.asu.edu/policies-procedures>. [12]

Graduation Requirement

A candidate for a graduate degree must satisfactorily complete the culminating experience requirements required by the program. Information is available for each program from the Office of Student Services.

Master's Programs

In addition to the Graduate College policy and procedures that govern graduate programs at ASU and which are provided elsewhere in this catalog, the policies specific to each master's degree program are provided to students at the time of enrollment in the program. Students are limited to 15 credit hours per semester. Online students are limited to nine credit hours per semester. Exceptions must be approved by the division director. Students who enroll in additional hours may be administratively withdrawn.

Each student in the induction, Master of Education and Arizona certification program must hold an Arizona intern teaching certificate and be employed. If either the employment or certificate status changes, the student will need to apply to be placed in the Master of Education and Arizona certification program. A MAC student who becomes employed on an intern certificate will be evaluated by the division director or designee and placed in the appropriate classes to complete the degree. In either case, extra time may be required to complete the degree program.

Doctoral Programs

In addition to the Graduate College policies and procedures that govern doctoral programs at ASU and which are provided elsewhere in this catalog, the satisfactory academic progress and professional conduct policies apply. Additional information specific to a degree program may be provided when students first register for the program.

PhD and EdD Satisfactory Academic Progress and Professional Conduct Policy

Students in doctoral programs may be placed on academic probation for reasons stated in the Satisfactory Academic Progress and Professional Conduct Policy. These include but are not limited to:

- failure to meet the academic requirements of the Graduate College, to have a GPA of 3.00 (on a 4.00 scale) or to meet the academic requirements of the particular program as stated in the program handbook
- unsatisfactory progress as noted on annual review form by mentor or failure to meet for annual review
- failure to meet the standards of professional conduct or violations of the student conduct code may result in academic probation, or, for egregious violations, immediate recommendation to the Graduate College for dismissal

In addition to minimum academic requirements and conduct requirements, a student must maintain progress to degree completion. A student can be recommended to the Graduate College for dismissal for failure to meet the Graduate College policies at <https://graduate.asu.edu> [11].

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies.

Student Support Process

The Notice of Concern is a referral process designed to support all graduate students who may be at risk of not progressing in the academic plan for their major and may need additional support from the college.

The following outlines the steps taken in the referral process.

1. The instructor, site coordinator or other university representative discusses concerns with the student and informs the student that a Notice of Concern will be submitted to college leadership. Depending on the nature of the referral, the student may be required to attend a meeting with college leadership to offer additional support.
2. If the referral is made for a violation of the academic or professional code of conduct or unprofessionalism, a student will be required to attend a mandatory meeting to discuss the alleged violations. This meeting provides students an opportunity to share their side of the situation. At the meeting, a professional improvement plan agreement is developed with input from the student and college administration. Students on a PIP are placed on a probationary status in the college until requirements of the PIP are met. Some violations of professionalism or academic integrity may result in immediate dismissal from the program or placement.
3. If the referral is not for a violation of academic or professional conduct, a student support consultation meeting is conducted. This meeting provides students with resources and additional university-wide support. At the meeting, student needs are identified and a plan for success is created along with follow-up recommendations.
4. Students are required to attend a follow-up meeting to discuss their status in meeting requirements outlined in their plan. Failure to attend a required meeting or to fulfill expectations outlined in the PIP agreement may result in dismissal from the program.

Additional Requirements

Per Arizona state statute A.R.S. § 15-106, all teachers and persons who are required to be fingerprinted to work in the classroom are required to have an identity-verified fingerprint clearance card. All students enrolling in programs leading to certification must participate in clinical experiences and student or apprentice teaching. Students participating in clinical experiences must have proof of a fingerprint clearance card on file in the Office of Clinical Experiences before field placement hours begin.

Definition of Terms

Academic probation: The status assigned to a student who has failed to maintain satisfactory academic progress, also referred to as “not in good academic standing.” A student placed on academic probation is informed of the areas in which program standards are not being met and the actions the student must take to be removed from academic probation and restored to good standing. A student failing to meet the conditions for reinstatement to good standing may be recommended for dismissal from the program.

A student placed on academic probation will be permitted to progress into the next term (unless the next term includes student teaching) while addressing the deficiency. Students who are placed on academic probation in which the next term requires student teaching will need to meet with his or her advisor to discuss options for the semester.

Academic suspension: An undergraduate student placed on academic suspension may not progress into the next term until all deficiencies have been resolved. Students are required to complete their deficiencies within one calendar year. Failure to do so will result in dismissal from the program.

The college: Mary Lou Fulton Teachers College (MLFTC)

Clinical experience: Any practicum, internship, apprentice teaching, student teaching or other field-based course taking place off campus in a professional setting such as a school district, charter school, government agency or other educational organization.

Cumulative GPA: Grade point average of all courses completed at ASU.

Deficiency: A required course or another program criterion which has not been met or was not successfully completed. This term refers to coursework and GPA criteria.

Dismissal: Administrative removal from the field experience, student teaching and/or iTeachAZ courses program or college.

A student will be dismissed from further enrollment in any initial teacher or administrator program for any of the following reasons:

- expulsion from Arizona State University
- failure to meet the professional responsibilities outlined in the Mary Lou Fulton Teachers College Professional Responsibilities Standards and the ASU Student Code of Conduct
- failure to resolve academic deficiencies
- noncompliance with a Professional Improvement Plan (PIP)
- failure to meet ASU Graduate College Policies (for graduate students)

GPA: grade point average

Overall graduate GPA: Grade point average calculated on all graduate courses, whether or not they are on the approved program of study (iPOS)

ASU Graduate College: The academic organization within ASU that oversees all graduate study in every college, with the authority to admit and involuntarily withdraw (dismiss) graduate students. The college recommends the actions but it is the dean of the Graduate College who holds the ultimate authority.

InMAC: Induction Masters and Arizona Certification program, the college alternative pathway to teacher certification.

Institutional Recommendation: All Teachers College certification programs are approved by the Arizona Department of Education to issue Institutional Recommendations to students who have fulfilled the state's requirements for certification. The IR allows for expedited issuance of the teaching or administrative certificate.

iPOS: Graduate plan of study, entered and approved electronically and consisting of the courses required for the student to earn the degree.

iPOS GPA: Grade point average calculated using the courses on the Plan of Study (iPOS)

MAC: Masters and Arizona Certification graduate program

Professional Improvement Plan: This is a tool designed to support students who may be at risk of not progressing in their major or academic plan. The PIP outlines specific action steps a student must complete in order to maintain or return to good standing within their major or academic plan. There are three reasons for making a PIP referral:

- poor academic standing (i.e. ongoing academic deficiencies across coursework)
- issues regarding professionalism (classes or clinical experience)
- academic integrity violation (plagiarism, cheating, etc.)

Any ASU representative or district partner may refer a student for a PIP. Students who are referred for a PIP will meet with the Assistant Division Director and Director of Student Services to develop a plan for success in the iTeachAZ program.

Student Code of Conduct: The ASU code of conduct located at <https://eoss.asu.edu/dos/srr/codeofconduct> [10].

Academic Programs List

The following section contains a listing of all program descriptions and requirements that are provided for graduate degrees and certificates, minors, undergraduate certificates and undergraduate degrees. Undergraduate degrees have a corresponding major map that includes the critical requirements, order of courses and grade requirements for that degree. Each undergraduate degree's requirements are outline on the degree's corresponding major map. The major maps and MAPP agreements are provided in the final sections of this document.

Graduate Programs

Graduate Degrees and Certificates (Program Descriptions and Requirements)

Business, W. P. Carey School of

Accountancy, MAcc (BAACCMACC)
Agribusiness, MS (AGAGRIBMS)
Business Administration (Accountancy), PHD (BAACCTPHD)
Business Administration (Agribusiness), PHD (BAAGRIPHD)
Business Administration (Computer and Information Systems), PHD (BAINFSYPHD)
Business Administration (Finance), PHD (BAFINANPHD)
Business Administration (Management), PHD (BAMGMTPHD)
Business Administration (Marketing), PHD (BAMARKPHD)
Business Administration (Supply Chain Management), PHD (BASCMPHD)
Business Analytics, MS (BABUSANMS)
Economics, PHD (BAECONPHD)
Finance, MS (BAFINMS)
Global Financial Management, DBA (BAGFMDBA)
Global Logistics, MS (BAGLSMS)
Information Management, MS (BAINFOMS)
Management, MS (BACMRMS)
Management, MS (BAMCCMS)
Real Estate Development, MREDev (ARREMREDEV)
Supply Chain Management (certificate), Certificate (BASCMCERT)
Supply Chain Management and Engineering, MS (BASCMEMS)
Taxation, MTax (BATAMTAX)
W. P. Carey MBA, MBA (BACORPMBA)
W. P. Carey MBA, MBA (BAEVEAMBA)
W. P. Carey MBA, MBA (BAEVENMBA)
W. P. Carey MBA, MBA (BAEXECMBA)
W. P. Carey MBA, MBA (BAFULLMBA)
W. P. Carey MBA, MBA (BAONLINMBA)
W. P. Carey MBA, MBA (BASHANGMBA)

Design & the Arts, Herberger Institute for

 Linguistics (certificate), Certificate (LALINGUICE)
 Linguistics and Applied Linguistics, MA (LALINMA)
 Linguistics and Applied Linguistics, PHD (LALINPHD)
 Literary Translation Studies (Certificate), Certificate (LALTSGRCT)
 Marriage and Family Therapy, MAS (LAMFTMAS)
 Mathematics, MA (LAMATHMA)
 Mathematics, PHD (LAMATHPHD)
 Mathematics Education, PHD (LAMTEPHD)
 Medieval Studies (certificate), Certificate (LAMEDSTCE)
 Microbiology, MS (LAMICROMS)
 Microbiology, PHD (LAMICROPHD)
 Molecular and Cellular Biology, MS (LACELLMS)
 Molecular and Cellular Biology, PHD (LACELLPHD)
 Museum Studies, MA (LAMUSSTMA)
 Museum Studies (certificate), Certificate (LAMUSEUMCE)
 Nanoscience, PSM (LANANPSM)
 Natural Science (Geological Sciences), MNS (LANATSCIMN)
 Natural Science (Physics), MNS (LAPHYSMNS)
 Neuroscience, PHD (GCBMENPHD)
 Nonfiction Writing and Publishing (Certificate), Certificate (LANWPGRCT)
 Philosophy, MA (LAPHILMA)
 Philosophy, PHD (LAPHILPHD)
 Philosophy (History and Philosophy of Science), MA (LAHPSMA)
 Philosophy (History and Philosophy of Science), PHD (LAHPSPHD)
 Physics, MS (LAPHYSIMS)
 Physics, PHD (LAPHYSIPHD)
 Plant Biology and Conservation, MS (LAPLBIOMS)
 Political Science, MA (LAPOLSCMA)
 Political Science, PHD (LAPOLSCPHD)
 Psychology, PHD (LAPSYCHPHD)
 Psychology (Quantitative Research Methods), PHD (LAPSYQUPHD)
 Religious Studies, MA (LARELIGMA)
 Religious Studies, PHD (LARELIGPHD)
 Renaissance Studies (certificate), Certificate (LARENAISCE)

Scholarly Publishing (certificate), Certificate (LASCHPUBCE)
 Scientific Teaching in Higher Education (certificate), Certificate (LASTHEGRCT)
 Social and Cultural Pedagogy, MA (LASCPMA)
 Social Science Research Methods (Certificate), Certificate (LASSRMGRCT)
 Social Transformation Certificate, Certificate (LASOTGRCT)
 Socio-Economic Justice (certificate), Certificate (LAECJUGRCT)
 Sociological Inquiry, PHD (LASOCPHD)
 Sociology, MA (LASOCMA)
 Spanish, MA (LASPANMA)
 Spanish, PHD (LASPANPHD)
 Statistics, MS (GCSTATMS)
 Statistics, PHD (LASTPPHD)
 Statistics (certificate), Certificate (GCSTATCE)
 Teaching English to Speakers of Other Languages, MTESOL (LAENGMTESL)
 Transborder Studies, MAS (LATCLMAS)
 Transborder Studies, PHD (LATCLPHD)
 Transportation Systems (certificate), Certificate (GCTTRANSCE)
 Urban and Environmental Planning, MUEP (ARURBMUEP)
 Urban Planning, PHD (ARPUPPHD)
 Women and Gender Studies, MA (LAWSTMA)
 Nursing and Health Innovation, College of
 Adult Gerontology Nurse Practitioner (Certificate), Certificate (NUAGNPGRCT)
 Adv Nursing Practice (Women's Health NP), DNP (NUANPWHDNP)
 Advanced Nursing Practice, DNP (NUANPDNP)
 Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner), DNP (NUANPAGDNP)
 Advanced Nursing Practice (Family Nurse Practitioner), DNP (NUANPFNDNP)
 Advanced Nursing Practice (Family Psychiatric and Mental Health Nurse Practitioner), DNP (NUANPCFDNP)
 Advanced Nursing Practice (Innovation Leadership), DNP (NUANPILDNP)
 Advanced Nursing Practice (Neonatal Nurse Practitioner), DNP (NUANPNNDNP)
 Advanced Nursing Practice (Pediatric Nurse Practitioner), DNP (NUANPPDNP)
 Biospecimen Repository Administration (certificate), Certificate (NUBRAGRCT)
 Care Coordination (certificate), Certificate (NUCRCDGRCT)
 Child and Adolescent Mental Health Intervention (certificate), Certificate (NUCAMHICE)
 Clinical Research Management, MS (NUCRMMS)
 Clinical Research Management (certificate), Certificate (NUHCRGRCC)
 Clinical Research Management (Regulatory Science), MS (NUCRMRSMS)
 Community and Public Health Practice (certificate), Certificate (NUCHPGRCH)
 Family Nurse Practitioner (certificate), Certificate (NUFMPGRCE)
 Family Psychiatric and Mental Health Nurse Practitioner (certificate), Certificate (NUPMNUPRCE)
 Health Care Innovation, Certificate (NUHCINGRCT)
 Healthcare Innovation, MHI (NUHCINNMHI)
 Innovation Leadership, Certificate (NUINLSGRCT)
 International Health for Healthcare Professionals (certificate), Certificate (NUHCRGRCI)
 Interprofessional Healthy Aging (certificate), Certificate (NUGNCERT)
 Nurse Education in Academic and Practice Settings (certificate), Certificate (NUNURSEDCE)
 Nursing (Care Coordination), MS (NUCRCDMS)
 Nursing (Community Health Advanced Practice Nursing), MS (NUCHNDTMS)
 Nursing (Nursing Education), MS (NUNURSEDMS)
 Nursing (Nursing Informatics), MS (NUNINFMS)
 Nursing (Patient Safety and Health Care Quality), MS (NUPSHCMS)

Nursing and Healthcare Innovation, PHD (NUNHIPHD)
 Nursing Informatics (Certificate), Certificate (NUNINFGRCT)
 Patient Safety and Health Care Quality (certificate), Certificate (NUPSHCGRCT)
 Pediatric Nurse Practitioner (Certificate), Certificate (NUPDNPGRCT)
 Regulatory Science and Health Safety, MS (NURSHSMS)
 Women's Health Nurse Practitioner (Certificate), Certificate (NUWHNPGRCT)
 Public Service and Community Solutions, College of
 Assessment of Integrative Health Modalities (certificate), Certificate (PPSWGGRCH)
 Community Resources and Development, MS (PPRECDTMS)
 Community Resources and Development, PHD (PPCRDPHD)
 Community Resources and Development (Nonprofits and NGOs), MS (PPCRDNPMS)
 Community Resources and Development (Parks and Recreation Management), MS (PPCRDPMS)
 Community Resources and Development (Sustainable Communities), MS (PPCRDSCMS)
 Community Resources and Development (Tourism), MS (PPCRDTMMS)
 Corrections Management (Certificate), Certificate (PPCMGGRCT)
 Criminal Justice, MA (PPCRIMJMA)
 Criminal Sentencing and Sentencing Advocacy (Certificate), Certificate (PPCSAGRCT)
 Criminology and Criminal Justice, MS (PPCRJMS)
 Criminology and Criminal Justice, PHD (PPCRJPHD)
 Emergency Management (Certificate), Certificate (PPEMEGRCT)
 Emergency Management and Homeland Security, MA (PPEMHSMA)
 Emergency Management and Homeland Security (Biosecurity and Threat Management), MA (PPEMHSTMA)
 Emergency Management and Homeland Security (Community Resilience), MA (PPEMHSCRMA)
 Emergency Management and Homeland Security (Emergency Management), MA (PPEMHSEMMA)
 Emergency Management and Homeland Security (Homeland Security), MA (PPEMHSHSMA)
 Latino Cultural Competency in Social Work (certificate), Certificate (PPSWGGRCL)
 Law Enforcement Administration (Certificate), Certificate (PPLEAGRCT)
 Nonprofit Leadership and Management, MNLM (PPNPSMNS)
 Nonprofit Leadership and Management (certificate), Certificate (PPNONPROCE)
 Participatory Governance (certificate), Certificate (PPPGOGRCT)
 Policy Informatics (Certificate), Certificate (PPPOIGRCT)
 Program Evaluation, MS (PPPGEMS)
 Program Evaluation (Certificate), Certificate (PPPGEVGRCT)
 Public Administration, EMPA (PPPUAEMPA)
 Public Administration, MPA (PPPADTMPA)
 Public Administration (Certificate), Certificate (PPPUAGRCT)
 Public Administration (Emergency Management), MPA (PPPAFEMPA)
 Public Administration (Nonprofit Administration), MPA (PPNONPRMPA)
 Public Administration (Public Finance), MPA (PPPAFPMMPA)
 Public Administration (Urban Management), MPA (PPPAFUMPA)
 Public Administration (Urbanism), PHD (PPPAURBPHD)
 Public Administration and Policy, PHD (PPPUADPHD)
 Public Policy, MPP (PPPUBMPP)
 Public Policy (Certificate), Certificate (PPPUGRCT)
 Public Policy (Environmental Policy), MPP (PPPUPEMPP)
 Public Policy (Policy Informatics), MPP (PPPUPIMPP)
 Public Policy (Science and Technology Policy), MPP (PPPUPTMPP)
 Public Policy (Urban Policy), MPP (PPPUUPMPP)
 Public Safety Leadership & Administration (Emergency Medical Services-Mobile Integrated Healthcare), MPPLA
 (PPPSEMPPLA)

Public Safety Leadership and Administration, MPSLA (PPPSLAMPST)
 Public Safety Leadership and Administration (Executive Fire Administration), MPSLA (PPPSEFMPSL)
 Public Safety Leadership and Administration (Executive Police Administration), MPSLA (PPPSEPMPSL)
 Social Entrepreneurship and Community Development (certificate), Certificate (PPSECDGRCT)
 Social Work, MSW (PPSWDMSW)
 Social Work, PHD (PPSW2PHD)
 Social Work (Advanced Direct Practice), MSW (PPAPDTMSW)
 Social Work (Planning, Administration and Community Practice), MSW (PPCPDTMSW)
 Social Work - Advanced Standing - Advanced Generalist, MSW (PPASWMSW)
 Sustainable Tourism, MAS (PPSUSTMAS)
 Sustainable Tourism, MST (PPSUSTMST)
 Sustainable Tourism (certificate), Certificate (PPSTGRCT)
 Trauma and Bereavement (certificate), Certificate (HSCTBGRCT)

Sustainability, School of

Complex Adaptive Systems Science (certificate), Certificate (SUCASGRCT)
 Global Sustainability Leadership (certificate), Certificate (SUSUSGGRCT)
 Sustainability, MA (SUSUSTMA)
 Sustainability, MS (SUSUSTMS)
 Sustainability, PHD (SUSUSTPHD)
 Sustainability (Complex Adaptive Systems Science), PHD (SUSUSTCPHD)
 Sustainability Leadership, EMSL (SUEMSLEMSL)
 Sustainability Leadership, MSL (SUSUSLMSL)
 Sustainability Solutions, MSUS (SUSUSOMSUS)

Teachers College, Mary Lou Fulton

Advanced Analytics in Higher Education, Certificate (TEAAHEGRCT)
 An Overview of Autism Spectrum Disorders (certificate), Certificate (EDSPEGRCA)
 Applied Behavior Analysis (Certificate), Certificate (TEABAGRCT)
 Curriculum and Instruction (Teaching and Learning), MEd (EDDCIMED)
 Curriculum and Instruction (Accomplished Teaching), MA (EDACCTCMA)
 Curriculum and Instruction (Applied Behavior Analysis), MEd (TEABAMED)
 Curriculum and Instruction (Autism Spectrum Disorders), MEd (TEASDMED)
 Curriculum and Instruction (Early Childhood Education), MEd (TEECDMED)
 Curriculum and Instruction (English as a Second Language), MA (EDESLEMA)
 Curriculum and Instruction (Gifted Education), MEd (TEGEDMED)
 Curriculum and Instruction (Literacy Education), MA (EDLANGMA)
 Educational Leadership, MEd (EDSUPVMED)
 Educational Leadership (Principalship), MEd (TEPRINMED)
 Educational Leadership (Supervision), MEd (TESPRVIMED)
 Educational Policy, MA (EDSPFMA)
 Educational Policy and Evaluation, PHD (EDLDRSHPHD)
 Educational Technology, MEd (EDTECHMED)
 Educational Technology, PHD (EDTECHPHD)
 Elementary Education (Teacher Certification), MEd (TEEEACLMEDE)
 English as a Second Language (Certificate), Certificate (TEESLGRCT)
 Gifted Education (Certificate), Certificate (TEGEDGRCT)
 Higher and Postsecondary Education, MEd (EDPOSTMED)
 Institutional Research and Policy Analysis (certificate), Certificate (EDINSRESCE)
 Instructional Design and Performance Improvement (certificate), Certificate (EDEDTGRCT)
 Leadership and Innovation, EdD (TELINEDD)
 Leadership and Innovation (Policy and Administration), EdD (TEINNPAEDD)

Leadership and Innovation (Teaching), EdD (TEINNTEEDD)
Learning Sciences, MA (EDPSYCHMA)
Learning, Literacies and Technologies, PHD (EDCIPHD)
Online Teaching for Grades K-12 (certificate), Certificate (TEEDTGRCT)
Physical Education, MPE (ECPHYEDMPE)
Secondary Education (Teacher Certification), MEd (TESCERTMED)
Special Education (Teacher Certification), MEd (TESECRTMED)
Technology for Teaching and Learning (certificate), Certificate (EDEDTTGRCT)

Undergraduate Programs

Minors (Program Descriptions and Requirements)

African and African American Studies Minor (LAAFRMIN)
American Indian Studies Minor (LAAISMIN)
American Studies Minor (ASAMSMIN)
Anthropology Minor (LAASBMIN)
Applied Biological Sciences Minor (TSABSMIN)
Applied Mathematics Minor (LSAPMMIN)
Applied Psychology Minor (ECPSYMIN)
Arabic Studies Minor (LAARBMIN)
Architectural Studies Minor (ARSTDMIN)
Art History Minor (FAARTHMIN)
Asian Languages (Chinese) Minor (LACHIMIN)
Asian Languages (Japanese) Minor (LAJPNMIN)
Asian Pacific American Studies Minor (LAAPAMIN)
Astronomy Minor (LAASTMIN)
Astrophysics Minor (LAASTPHMIN)
Biochemistry Minor (LABCHMIN)
Biological Sciences Minor (LABIOMIN)
Biology Minor (ASLSCMIN)
Business Minor (BABUSMIN)
Chemistry Minor (ASCHMMIN)
Chemistry Minor (LACHMMIN)
Communication Minor (HSCMNMIN)
Communication Minor (LACOMMIN)
Communication Minor (LSCOMMIN)
Community Health Minor (NUCHLTMIN)
Community Sports Management Minor (PPCSMMIN)
Computational Mathematical Sciences Minor (LACMSMIN)
Construction Management Minor (ESCMGMIN)
Counseling and Applied Psychological Science Minor (LSCAPSMIN)
Criminology and Criminal Justice Minor (PPCRJMIN)
Dance Minor (FADANMIN)
Design Studies Minor (ARDSNMIN)
Digital Audiences Minor (CSDAUMIN)
Digital Culture Minor (HIDGCMIN)
Early Childhood Education Minor (TEECEDMIN)
Economics Minor (LAECNMIN)
Educational Studies Minor (TEEDSTMIN)
Engineering Management Minor (ESENMMIN)
English Minor (ASENGMIN)
English Minor (LAENGMIN)

English Minor (LSENGMIN)
 English (Linguistics) Minor (LAENGMINN)
 English (Literature) Minor (LAENGMINT)
 Environmental and Resource Management Minor (ESERMMIN)
 Ethnic Studies Minor (ASETHMIN)
 Family and Human Development Minor (LAFASMIN)
 Fashion Minor (HIFSHMIN)
 Film and Media Production Minor (FAFMPPMIN)
 Film and Media Studies Minor (LAFMSMIN)
 Food and Nutrition Management Minor (ECFNTRMIN)
 French Minor (LAFREMIN)
 Geography Minor (LAGCUMIN)
 Geological Sciences Minor (LAGLGMIN)
 German Minor (LAGERMIN)
 Global Health Minor (LASSHMIN)
 Global Studies Minor (LASGSMIN)
 Health Care Compliance and Regulations Minor (NUHCCRMIN)
 Health Care Coordination Minor (NUHCCOMIN)
 Health Innovation Minor (NUHCIMIN)
 History Minor (ASHISMIN)
 History Minor (LAHISMIN)
 History Minor (LSHISMIN)
 History of Science, Ideas and Innovation Minor (LSHSIIMIN)
 Human Nutrition Minor (ECNTRMIN)
 Human Systems Engineering Minor (ESHSEMIN)
 Innovation in Society Minor (FIFISMIN)
 Integrative Health Minor (NUIHLTMIN)
 Integrative Social Science Minor (LSSSSMIN)
 Interdisciplinary Organizational Studies Minor (ASIOSMIN)
 Interior Design History Minor (ARINTMIN)
 Italian Minor (LAITAMIN)
 Justice Studies Minor (LAJUSMIN)
 Kinesiology Minor (NHKINMIN)
 Landscape Studies Minor (ARLNDMIN)
 Latin American Studies Minor (ASLASMIN)
 Materials Science and Engineering Minor (ESMSEMIN)
 Mathematics Minor (ASMATHMIN)
 Mathematics Minor (LAMATMIN)
 Media Analysis Minor (CSCMOMINA)
 Medical Studies Minor (NHMESTMIN)
 Military Leadership Minor (LAMISMIN)
 Music Minor (FAMUSMIN)
 Music Performance Minor (HIMUSPMIN)
 Nonprofit Leadership and Management Minor (PPNLMMIN)
 Nutrition and Healthy Living Minor (NUNHLMIN)
 Organizational Leadership Minor (LSORGLMIN)
 Parks and Protected Area Management Minor (PPPRMMINT)
 Personal Health Minor (NHPHLMIN)
 Philosophy Minor (ASPHIMIN)
 Philosophy Minor (LAPHIMIN)

Physics Minor (LAPHYMIN)
 Physics Minor (LSPHYMIN)
 Political Science Minor (ASPOLMIN)
 Political Science Minor (LAPOSMIN)
 Psychology Minor (ASPGSMIN)
 Psychology Minor (LAPGSMIN)
 Psychology Minor (LSPGSMIN)
 Public Relations and Strategic Communications Minor (HSPRSMIN)
 Public Service and Public Policy Minor (PPPAFMIN)
 Real Estate Minor (BAREAMIN)
 Recreation Management Minor (PPRECMIN)
 Religious Studies Minor (ASRELMIN)
 Religious Studies Minor (LARELMIN)
 Romanian Minor (LAROMMIN)
 Russian Minor (LARUSMIN)
 Science, Technology and Society Minor (ECSTSMIN)
 Slavic Studies Minor (LASLVMIN)
 Social Welfare Minor (LASSWMIN)
 Social and Behavioral Sciences Minor (ASSBSMIN)
 Sociocultural Anthropology Minor (ASASBMIN)
 Sociology Minor (ASSOCMIN)
 Sociology Minor (LASOCMIN)
 Spanish Minor (ASSPAMIN)
 Spanish Minor (LASPAMIN)
 Spanish Minor (LSSPAMIN)
 Special Events Management Minor (HSEVNMIN)
 Speech and Hearing Science Minor (LASHSMIN)
 Statistics Minor (LASTAMIN)
 Studio Art Minor (HISTARTMIN)
 Sustainability Minor (SUSUSMIN)
 Sustainable Tourism Minor (PPTDMSMIN)
 Theatre Minor (FATHEMIN)
 Tourism Development and Management Minor (PPTDMMIN)
 Transborder Chicana/o and Latina/o Studies Minor (LATCLMIN)
 Urban Planning Minor (ARPUPMIN)
 Urban and Metropolitan Studies Minor (PPURBMIN)
 Wellness Foundations Minor (ECEXWMIN)
 Women and Gender Studies Minor (ASWSTMIN)
 Women and Gender Studies Minor (LAWSTMIN)
 Youth Services Leadership Minor (HSYSLMIN)

Undergraduate Programs

Undergraduate Certificates (Program Descriptions and Requirements)

Actuarial Science Certificate (LAACTCERT)
 African and African American Studies Certificate (LAAFRCERT)
 American Indian Nation Governance Certificate (LAAIGVCERT)
 Applied Business Data Analytics Certificate (BABDACERT)
 Applied Social Sciences Certificate (ASAPSSCERT)
 Arabic Studies Certificate (LAARBCERT)
 Arts Entrepreneurship Certificate (HITHAECERT)
 Arts in Education Certificate (HIAEDCERT)

Asian Pacific American Studies Certificate (LAAPACERT)
 Asian Studies Certificate (LAASNCERT)
 Biomedical Research Certificate (ASBMRCERT)
 Brazilian Studies Certificate (LABZSCERT)
 Child Life Certificate (LACHLFCERT)
 Child Life Certificate (LACHLFCERT)
 Civic Education Certificate (LACVECERT)
 Civil Communication Certificate (LACCOMCERT)
 Classical Studies Certificate (LACLGCERT)
 Communication Sciences and Disorders Certificate (NHCSDCERT)
 Computer Gaming Certificate (ESSCICERT)
 Convention Sales and Meeting Planning Certificate (PPTDMCERT)
 Creative City Certificate (PPURBCERC)
 Criminal Investigations Certificate (PPCRICERT)
 Cryptology Certificate (LACRYCERT)
 Desert Food Production Certificate (LSDFPRCERT)
 Digital Culture Certificate (HIDGCCERT)
 Diversity and Equity Studies Certificate (ASDESCERT)
 East Asian Studies Certificate (LAEASCERT)
 Economic Justice Certificate (LAECNJCERT)
 Energy and Sustainability Certificate (SUESUCERT)
 Entertainment and Technology Certificate (LAFMSUERE)
 Entrepreneurship and Innovation Certificate (BAKEICERT)
 Environmental Education Certificate (TEEVEDCERT)
 Environmental Humanities Certificate (LAENHCERT)
 Environmental Humanities Certificate (LSENHCERT)
 Ethics Certificate (LAETHCERT)
 Ethnic Studies Certificate (ASETHCERT)
 European Union Studies Certificate (LAEUSCERT)
 Family Communication Certificate (ASFAMCCERT)
 Film and Video Studies Certificate (ASVIDCERT)
 Food Industry Management and Marketing Certificate (BAFIMMCERT)
 Food System Sustainability Certificate (SUFSUCERT)
 Games and Impact Certificate (TEGIMCERT)
 Geographic Information Science Certificate (LAGISCERT)
 Hazardous Materials and Waste Management Certificate (TSETMCERT)
 Health Care Policy and Delivery Certificate (NHHCPDCERT)
 Health Science for the Peace Corps Certificate (NHHSPCCERT)
 History and Philosophy of Science Certificate (LAHPSCERT)
 Homeland Security Certificate (PPHSLCERT)
 Honors Business Consulting Certificate (BAECNUERT)
 Human Rights Certificate (LAHRTSCERT)
 Informatics Certificate (ESCPICERT)
 Innovation for Impact Certificate (FIIFICERT)
 International Business Certificate (BAIBSCERT)
 International Cinema Certificate (LAICINCERT)
 International Studies Certificate (LAINSCERT)
 Islamic Studies Certificate (LAISLCERT)
 Jewish Studies Certificate (LAJUDCERT)
 Korean Studies Certificate (LAKORCERT)

Latin American Studies Certificate (LALASCERT)
 Leadership and Ethics Certificate (PPLDECERT)
 Leadership in Business Certificate (BALIBCERT)
 Leadership, Ethics and Service Certificate (PPLETSCERT)
 Lesbian, Gay, Bisexual and Transgender Certificate (PPLGBTCERT)
 Medieval and Renaissance Studies Certificate (LAMRSCERT)
 Modern Hebrew Certificate (LAHEBCERT)
 Nonprofit Professional Certificate (PPNPYCERT)
 Oral History Certificate (ASOHCCERT)
 Peace Corps Prep Certificate (LSPCPRCERT)
 Personal Fitness Training Certificate (NHPFITCERT)
 Philosophy, Rhetoric and Literature Certificate (ASPRLCERT)
 Political Entrepreneurship through Internships: Local to Global Certificate (LAPEICERT)
 Political Thought and Leadership Certificate (LAPTLCERT)
 Power and Society Certificate (ASPWSOCERT)
 Professional Sales Certificate (BAPRSCERT)
 Public Administration and Public Management Certificate (PPPAFCERT)
 Religion and Conflict Certificate (LARELCERT)
 Risk Communication Certificate (ASRCMCERT)
 Russian and East European Studies Certificate (LAREECERT)
 Sales and Marketing Essentials Certificate (BASMECERT)
 School Nutrition Certificate (ECNTRCERC)
 Secondary Education Certificate (TESEDCERT)
 Security Studies Certificate (PPSCSCERT)
 Small Business and Entrepreneurship Certificate (BASMBCERT)
 Social Science Research Methods Certificate (LASSRMCERT)
 Social Transformation Certificate (LASOTCERT)
 Socially Engaged Practice in Design and the Arts Certificate (HISEPCERT)
 Socio-Legal Studies Certificate (LASLSTCERT)
 Southeast Asian Studies Certificate (LASALCERT)
 Spanish for the Professions Certificate (LSSPPRFCER)
 Special Events Management Certificate (HSRTMUERT)
 Speech-Language Pathology Assistant Certificate (LASLPACERT)
 Sports Business Certificate (BASPBCERT)
 Symbolic, Cognitive and Linguistic Systems Certificate (LAPHICERT)
 Teaching English to Speakers of Other Languages (TESOL) Certificate (LATESLCERT)
 Technical Communication Certificate (LSTECCERT)
 Technology Entrepreneurship Certificate (ESTNECERT)
 Translation Certificate (LASPACERT)
 Wildlife Management Certificate (LSWLMCERT)
 Women and Gender Studies Certificate (ASWSTCERT)
 Women and Gender Studies Certificate (LAWSTCERT)
 Working with Military Families Certificate (LAWWMFCERT)
 Writing (Liberal Arts and Sciences) Certificate (LAENGCERT)
 Writing (New College) Certificate (ASWRTCERT)

Undergraduate Programs

Undergraduate Degrees (Program Descriptions)

Business, W. P. Carey School of

Accountancy, BS (BAACCBS)

Agribusiness (Global Agribusiness), BS (AGAGBGABS)

Business, BA (BABUSBA)
 Business (Business Administration), BA (BABUSBABA)
 Business (Chinese Language and Culture), BA (BABUSCLBA)
 Business (Communication), BA (BABUSCBA)
 Business (Corporate Accounting), BA (BABUSCABA)
 Business (Food Industry Management), BA (BABUSFIMBA)
 Business (Global Agribusiness), BA (BABUSGAGBA)
 Business (Global Leadership), BA (BABUSGBA)
 Business (Global Logistics Management), BA (BABUSGLBA)
 Business (Global Politics), BA (BABUSGPBA)
 Business (Human Resources), BA (BABUSHRBA)
 Business (Law), BA (BABUSLBA)
 Business (Public Service and Public Policy), BA (BABUSPBA)
 Business (Retail Management), BA (BABUSRBA)
 Business (Spanish Language and Culture), BA (BABUSSLBA)
 Business (Sports and Media Studies), BA (BABUSMSBA)
 Business (Statistics), BA (BABUSTABA)
 Business (Sustainability), BA (BABUSSBA)
 Business (Technology), BA (BABUSTCBA)
 Business (Tourism), BA (BABUSTBA)
 Business (Urban Policy), BA (BABUSUBA)
 Business Data Analytics, BS (BABDABS)
 Business Entrepreneurship, BS (BABUENTBS)
 Business Exploratory, (BABUSEXP)
 Computer Information Systems, BS (BACISBS)
 Economics, BS (BAECNBS)
 Finance, BS (BAFINBS)
 Food Industry Management, BS (BAFIMBS)
 Management, BS (BAMGTBS)
 Marketing, BS (BAMKTBS)
 Marketing (Digital and Integrated Marketing Communications), BS (BAMKDIMCBS)
 Marketing (Professional Sales), BS (BAMKTPSBS)
 Supply Chain Management, BS (BASCMBBS)
 Design & the Arts, Herberger Institute for
 Architectural Studies, BSD (ARSTDBSD)
 Art (Art Education), BFA (FAARTEBFA)
 Art (Art History), BA (FAARTHBA)
 Art (Art Studies), BA (FAARTSTDBA)
 Art (Ceramics), BFA (FAARTCBFA)
 Art (Drawing), BFA (FAARTDBFA)
 Art (Fibers), BFA (FAARTFBFA)
 Art (Intermedia), BFA (FAARTIBFA)
 Art (Metals), BFA (FAARTMBFA)
 Art (Museum Studies), BA (FAARTMSBA)
 Art (Painting), BFA (FAARTPABFA)
 Art (Photography), BFA (FAARTPHBFA)
 Art (Printmaking), BFA (FAARTPMBFA)
 Art (Sculpture), BFA (FAARTSBFA)
 Arts (BA in the Arts), BA (FAATSBA)
 Dance, BFA (FADANBFA)

Dance (Dance Education), BFA (FADANEBFA)
 Design Studies, BA (ARDSNBA)
 Design Studies (Design Management), BA (ARDSNMBA)
 Digital Culture, BA (HIDGCBA)
 Digital Culture (Art), BA (HIDGCABA)
 Digital Culture (Arts and Design Studies), BA (HIDCADSBA)
 Digital Culture (Design), BA (HIDGCDBA)
 Digital Culture (English), BA (HIDGCENBA)
 Digital Culture (Film), BA (HIDGCFBA)
 Digital Culture (Graphic Information Technology), BA (HIDGCTEBA)
 Digital Culture (Interdisciplinary Arts and Performance), BA (HIDCIAPBA)
 Digital Culture (Media Processing), BA (HIDGCMRBA)
 Digital Culture (Music), BA (HIDGCMBA)
 Digital Culture (Theatre), BA (HIDGCTBA)
 Environmental Design, BS (HIEDSBS)
 Fashion, BA (HIFSHBA)
 Film (Film and Media Production), BA (FAFLMBA)
 Film (Filmmaking Practices), BA (FAFPRBA)
 Graphic Design, BSD (ARGRABSD)
 Industrial Design, BSD (ARINDBSD)
 Interior Design, BSD (ARINTBSD)
 Landscape Architecture, BSLA (ARPLABSLA)
 Music, BA (FAMUSBA)
 Music (Music and Culture), BA (HIMUSMCBA)
 Music Education, BMUS (FAMUSEBM)
 Music Therapy, BMUS (FAMUSTHBM)
 Performance (Collaborative Piano), BMUS (FAMUSPPBM)
 Performance (Guitar), BMUS (FAMUSPGBM)
 Performance (Jazz), BMUS (FAMUSPJBM)
 Performance (Keyboard), BMUS (FAMUSPKBM)
 Performance (Music Theatre), BMUS (FAMUSPMBM)
 Performance (Orchestral Instrument), BMUS (FAMUSPOBM)
 Performance (Voice), BMUS (FAMUSPVBM)
 Performance and Movement, BA (HIPERMVBA)
 Theatre, BA (FATHEBA)
 Theatre (Acting), BA (FATHEABA)
 Theatre (Design and Production), BA (FADSNPRBA)
 Theory and Composition (Composition), BMUS (FAMUSTCBM)
 Theory and Composition (Theory), BMUS (FAMUSTTBM)

Engineering, Ira A. Fulton Schools of

Aeronautical Management Technology (Air Traffic Management), BS (ESAMTATBS)

Graduate Programs

Graduate Degrees and Certificates (Program Descriptions and Requirements)

Business, W. P. Carey School of

Accountancy, MAcc (BAACCMACC)

Online Degree Search Title: Accountancy, MACC

Campus: Tempe

Program Description:

The nine-month MAcc program is delivered by the W. P. Carey School of Accountancy, highly ranked by the Public Accounting Report. The cutting-edge curriculum is structured to provide students with an in-depth working knowledge of advanced accounting topics that are most relevant in today's business environment and reviewed every year with input from accounting professionals and alumni. Esteemed faculty experts bring real-world experience into each class, giving the degree even more long-term value.

The Master of Accountancy program is designed for individuals who want to immerse themselves in full-time graduate studies, take classes during the day and fulfill course requirements for the CPA exam in both Arizona and California. Because of the quality of the Master of Accountancy program, students gain the skills and knowledge needed to launch their accounting careers while opening the door to top hiring firms.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

Legal Studies, MLS

W. P. Carey MBA - Full-Time Program

Degree Requirements:

30 credit hours including the required capstone course (ACC 588).

The master's degree is a cohort-based, full-time program requiring a bachelor's degree in accountancy and is completed in one academic year, either August through May or January through December. Applicants must complete program prerequisites prior to admission to the program. Students should refer to the master's degree program website for a current list of required course prerequisites. Graduate-level accounting courses are only open to students admitted to the graduate program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in accountancy from a regionally accredited institution.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts of all coursework completed at institutions other than ASU
- ☐ • GMAT test scores
- ☐ • one letter of recommendation
- ☐ • current resume
- ☐ • short-answer questions
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The letter of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Complete application instructions may be obtained from the department's website.

Agribusiness, MS (AGAGRIBMS)

Online Degree Search Title: Agribusiness, MS

Campus: Polytechnic

Program Description:

The Morrison School of Agribusiness at the Polytechnic campus offers the MS in agribusiness. This degree program is designed to prepare students from a variety of backgrounds with a set of critical and analytical business skills, while recognizing the unique demands of the agribusiness and resource management sectors. Graduates are well prepared for successful administrative or managerial careers with either government or private-sector organizations in either field.

Students are able to select either a research-oriented program, which leads to the completion of a supervised thesis, or a program consisting of coursework only (nonthesis option). The nonthesis option allows students to develop an area of specialization and apply these skills to a real-world environmental and resource management problem through an integrative capstone course experience. Both the thesis and nonthesis options require the completion of a common set of core courses.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required capstone course (AGB 589).

Core requirements for this program include 18 credit hours of coursework. Thesis students fulfill the remaining 12 credit hours by taking three research credits, six thesis credits and three hours of electives. Nonthesis students fulfill the remaining hours by taking 12 hours of electives.

It is suggested that students take a coherent sequence of courses such as those indicated below, but considerable flexibility is possible based on individual backgrounds and interests.

Thesis and Nonthesis Master's Degree in Agribusiness

Semester I

AGB 528 Advanced Agribusiness Marketing (3)

AGB 561 Applied Econometrics (3)

Semester II

AGB 511 Advanced Agribusiness Management (3)

AGB 532 Advanced Agribusiness Finance (3)

AGB 570 Managerial Economics for Agribusiness (3)

Semester III

500-level AGB emphasis electives (6)

AGB 589 Agribusiness Capstone (3)

Semester IV

500-level AGB emphasis or other electives (9)

Thesis Option

AGB 592 Research (3)

AGB 599 Thesis (6)

Admission Requirements:

Students must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official GRE general exam, Miller Analogies Test or GMAT scores
- ☐ • statement of purpose
- ☐ • current curriculum vitae
- ☐ • proof of English language proficiency
- ☐ • three letters of recommendation (optional)

Additional Application Information

Applicants must submit all the items above to complete an application file. Incomplete files will not be reviewed or considered until complete.

An explanation of the applicant's basic skills in economics, accounting, statistics, computer use and some experience or knowledge in an area related to agribusiness should be addressed in the statement of purpose.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Complete information on the English proficiency exams and other required documents can be found on the the Graduate College's website:

<https://students.asu.edu/graduate/international> (<https://students.asu.edu/graduate/international>).

Applicants should see the program website for application deadlines.

The Morrison School of Agribusiness awards assistantships to selected candidates. These support ongoing research and teaching activities. The awards are made on the basis of availability and according to the needs of the faculty and interests of the students. Scholarships are also available on a competitive basis for qualified candidates.

Business Administration (Accountancy), PHD (BAACCTPHD)

Online Degree Search Title: Accountancy, PhD

Campus: Tempe

Program Description:

The objective of the PhD program in business administration with a concentration in accountancy is to prepare scholars to conduct high-quality research and to teach in the fields of:

- ☐ • auditing
- ☐ • financial accounting
- ☐ • managerial accounting
- ☐ • taxation

This program allows students to develop the capability to review, analyze, conduct and publish research through a series of research seminars, theory-building and statistical coursework that supplement and complement students' abilities and desires. In addition, doctoral students participate in ongoing research projects in conjunction with faculty members in the School of Accountancy.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

This program consists of 12 credit hours of dissertation and 72 credit hours of coursework and research. Students may not apply credit hours earned for a doctoral degree previously awarded at ASU or another institution toward their current ASU doctoral degree. However, at the academic unit's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Students work with their study committees to determine an appropriate plan of study. Common areas of functional specialization among doctoral studies include financial and managerial accounting, auditing and taxation. With these functional areas, doctoral studies may emphasize experimental or archival research methods. All accountancy doctoral students are required to take a three-semester sequence of accountancy doctoral coursework. A maximum of 12 approved graduate credit hours can be transferred to satisfy program requirements.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam and, at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the Dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate degree. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled in at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as 795 Continuing Registration) during the semester (including a summer session) in which the student defends the dissertation.

Note: For detailed information regarding the university's doctoral degree requirements, please refer to the Graduate College policy and procedures for a Doctor of Philosophy.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GMAT scores
- ☐ • portfolio
- ☐ • letters of recommendation
- ☐ • personal statement
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applications are initially reviewed by a School of Accountancy doctoral committee using a portfolio approach. In addition to GMAT scores and prior academic performance, letters of recommendation and a personal statement are reviewed to ensure a good match of students' goals and the school. Recommendations for action are then made to the director of doctoral programs in the W. P. Carey School of Business who, in turn, makes recommendations to Graduate Admission Services.

Business Administration (Agribusiness), PHD (BAAGRIPHD)

Online Degree Search Title: Agribusiness, PhD

Campus: Polytechnic

Program Description:

The objective of the PhD program in business administration with a concentration in agribusiness is to produce scholars who are trained in the

latest methods of business and economic analysis and who can apply these methods to address critical research problems in a vital sector of the global economy. The program is a full-time residential program where graduates are expected to assume research and teaching positions at top-ranked universities.

Agribusiness doctoral students are involved with research in the following:

- ☐ • agribusiness management
- ☐ • derivatives, commodity marketing and risk management
- ☐ • food and fiber supply chain management
- ☐ • food marketing
- ☐ • food policy and promotion
- ☐ • global agricultural trade and policy
- ☐ • strategic marketing by food retailers

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 credit hours (which may include research credit) of the approved doctoral program and 12 dissertation hours must be completed after admission to the student's doctoral program. Students may not apply credit hours earned for a doctorate degree previously awarded at ASU or another institution toward their current ASU doctorate. However, at the individual academic unit's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Agribusiness doctoral students are expected to develop a program of study that consists of three elements. They will study a core of theory and quantitative methods coursework in economics and management from the Morrison School of Agribusiness. They will also take advanced courses in at least one of these areas in the W. P. Carey School of Business: economics, finance, marketing, supply chain management or management. Their study will also consist of a three-course sequence of doctorate-level theory and methods from the Morrison School of Agribusiness as applied to issues and concepts specific to the agribusiness sector.

The agribusiness doctorate is designed to allow flexibility with focus, so each student's program of study is unique, but is designed to produce the highest level of research competency in the student's chosen area of interest.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved program of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examination consists of a minimum of a written exam; at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status in a letter from the Dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled in at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as 795 Continuing Registration) during the semester (including summer session) in which the student defends the dissertation.

Note: For detailed information regarding the university's doctoral degree requirements, students should refer to the Graduate College Policies and Procedures.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official GRE general exam or GMAT scores
- ☐ • personal statement
- ☐ • current curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

Applicants must submit all the items listed above to complete an application file. Incomplete files will not be reviewed or considered until complete.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Complete information on the English proficiency exams and other required documents can be found on the Graduate Admission Services website:

<https://students.asu.edu/graduate/international> (<https://students.asu.edu/graduate/international>).

An explanation of the applicant's goals should be addressed in the personal statement.

Students should see the program website for application deadlines. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Business Administration (Computer and Information Systems), PHD (BAINFSYPHD)

Online Degree Search Title: Computer Information Systems, PhD

Campus: Tempe

Program Description:

The Department of Information Systems offers an information systems concentration within the W. P. Carey PhD program in business administration. The objective of the full-time program is to prepare scholars for careers at leading research-focused educational institutions. This program allows students to develop the capability to review, analyze, conduct and publish research through a series of seminars and additional supporting coursework. In addition, doctoral students participate in ongoing research projects in conjunction with faculty members in the department.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

The doctoral program consists of a minimum of 84 credit hours of graduate-level coursework beyond the bachelor's degree. A minimum of 42 credit hours of doctoral coursework and 12 credit hours of dissertation credits are required to be taken at Arizona State University's Tempe campus. At the department's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Students work with their program committees to determine an appropriate plan of study. Common areas of specialization for doctoral studies include:

- ☐ • business analytics and big data
- ☐ • health care information technology
- ☐ • information economics and strategy
- ☐ • IT-enabled services and process innovation
- ☐ • security and privacy
- ☐ • social media, e-commerce and mobile platforms

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam and, at the

discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status by receipt of a letter from the Dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctoral degree. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as 795 Continuing Registration) during the semester (including summer session) in which the student defends the dissertation.

Note: For detailed information regarding the university's doctoral degree requirements, please refer to the Graduate College policies and procedures.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GMAT score
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. International applicants whose native language is not English must submit scores from the TOEFL. For more information on requirements, students should review the program's website. They should also review the Graduate College website for specific ASU admission requirements.

A master's degree or MBA is recommended (30 credit hours may count toward the minimum total of 84 hours of coursework in the doctoral program). At least two years of full-time related work experience is recommended.

Doctoral students admitted to the W. P. Carey School of Business must have demonstrated competency in mathematics, strong quantitative ability, competency in the U.S. of computer technology for analytical purposes, and an undergraduate degree in a related field from an accredited university.

Applications are reviewed by the department's faculty committee using a portfolio approach. The committee will review each individual application and examine all parts equally.

Business Administration (Finance), PHD (BAFINANPHD)

Online Degree Search Title: Finance, PhD

Campus: Tempe

Program Description:

The primary objective of the PhD program in business administration with a concentration in finance is to train students for careers as professors of finance at major research universities. The program provides a challenging course of study in the most recent developments in both the theoretical and empirical aspects of financial economics. This course of study, along with work in economics and statistics, serves as preparation for understanding and critical analysis of current issues in finance.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 credit hours (which may include research credit) of the approved doctoral degree program and 12 dissertation hours must be completed after admission to the student's doctoral program. Students may not apply credit hours earned for a doctoral degree previously awarded at ASU or another institution toward their current ASU doctoral degree. However, at the individual academic unit's discretion, students may apply up to 30 relevant credit hours from a previously awarded master's degree toward their doctoral plan of study.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examination. The comprehensive examination consists of a minimum of a written exam and, at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or for one hour of appropriate graduate-level credit (such as 795 Continuing Registration) during the semester (including summer session) in which the student defends the dissertation.

Note: For detailed information regarding the university's doctoral degree requirements, students should refer to the Graduate College policy and procedures for the Doctor of Philosophy.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • three academic letters of recommendation
- ☐ • scores from the GMAT or GRE
- ☐ • a brief statement of their career objectives
- ☐ • a resume
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The minimum TOEFL requirement is a score of 550 (PBT) or 80 (iBT). An iBT score of 26 is required on the ASU Speaking Proficiency English Assessment Kit for applicants who wish to apply for teaching associateships.

Admission to the PhD program in business administration with a concentration in finance is granted to applicants who present convincing evidence of high-order analytical skills, intellectual curiosity and the ability to work independently in pursuing scholarly research. Applicants should possess the intellectual curiosity and discipline required for original inquiry.

While many accepted students have an MBA or MS in a business-related field, others have a background in other areas, such as engineering, economics, mathematics or physics.

Business Administration (Management), PHD (BAMGMTPHD)

Online Degree Search Title: Management, PhD

Campus: Tempe

Program Description:

The Department of Management and Entrepreneurship offers students the opportunity to obtain a PhD degree in business administration with a concentration in management. The doctoral program places primary emphasis on the development of research competence and also emphasizes teaching as a vehicle to academic professionalism. It is not intended for those seeking careers in industry or consulting. The mission of the program is the development of scholars who are prepared to assume the diverse responsibilities of faculty positions at leading research universities. Although management is a broad field, this doctoral program is best suited for students interested in specializing in organizational behavior, strategic management or organization theory.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 credit hours (which may include research credit) of the approved doctoral program and 12 dissertation hours must be completed after admission to the doctoral program. Students may not apply credit hours earned for a doctoral degree previously awarded at ASU or another institution toward their current ASU doctoral degree. However, at the individual academic unit's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Doctoral students are required to commit full time to the program, at least until they have successfully defended the dissertation proposal. Full-time enrollment entails a minimum of six hours of coursework in any regular academic semester. To reach a total of 84 credit hours for the program, most students enroll for nine to 12 credit hours per semester. In addition, students work closely with faculty members through a research assistantship. The program is relatively small, with an emphasis on high quality; a great deal of individual attention and mentoring is provided to students.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam and, at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the Dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation proposal.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as MGT 795 Continuing Registration) during the semester (including summer sessions) in which the student defends the dissertation.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GMAT scores
- ☐ • prior academic performance records
- ☐ • three letters of recommendation
- ☐ • a personal statement
- ☐ • employment summary
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applications are initially reviewed by a faculty committee using a portfolio approach. Materials are reviewed to ensure a good fit between students' goals and research interests and those of the department. Graduate Admission Services admits or denies each applicant and notifies them in writing.

Business Administration (Marketing), PHD (BAMARKPHD)

Online Degree Search Title: Marketing, PhD

Campus: Tempe

Program Description:

The PhD program in marketing is for those students who want to become full-time professors at research-oriented universities. It is not intended for people who want to work in industry positions. It is a full-time program only.

All students complete a core curriculum yet tailor their work to achieve personal goals. The program is designed to be completed in four to five years.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 credit hours (which may include research credit) of the approved doctoral program and 12 dissertation hours must be completed after admission to the doctoral program. A student may not apply credit hours earned for a doctoral degree previously awarded at ASU or another institution toward their current ASU doctoral degree. However, at the academic unit's discretion, a student may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam and, at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation proposal.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as MKT 795 Continuing Registration) during the semester (including summer session) in which the student defends the dissertation.

Students should refer to the Graduate College policies and procedures for detailed information regarding the university's doctoral degree requirements.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years. Any exception must be approved by the supervisory committee and the dean of the Graduate College.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

Business Administration (Supply Chain Management), PHD (BASCMPHD)

Online Degree Search Title: Supply Chain Management, PhD

Campus: Tempe

Program Description:

The objective of the PhD program in business administration with a concentration in supply chain management is to prepare scholars to conduct high-quality research and teach in the field of supply chain management. Supply chain management incorporates the core areas of logistics, operations management and sourcing or purchasing.

It is a full-time residential program for students whose career goals are full-time university research and teaching. Students are trained to competently recognize SCM-related problems, frame these problems into research questions and address them in a scholarly manner. Students are required to review, analyze, conduct and publish research through a series of doctoral seminars and supplemental coursework that encourages creativity and critical thinking.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The doctoral program requires the completion of coursework, the completion of academic papers for submission to journals, a comprehensive exam

and a dissertation. The program is generally viewed as a four-year process. Most students will serve in research assistantships for all four years. During the program, students are expected to actively participate in required courses as well as in seminars and presentations from colleagues, department faculty and visiting scholars. Students will also have the opportunity to teach courses during their doctoral program. Teaching assistantships typically will be made available during the last two years of the program. This will allow doctoral degree students to get research projects and manuscripts into the multiyear pipeline typical of accepted research articles. Through areas of excellence, centers and the faculty, the supply chain management program has special opportunities for industry-based research projects.

Coursework

The doctoral program consists of a minimum of 84 credit hours of approved graduate coursework beyond the bachelor's degree. The department requires doctoral students to take 48 credit hours of graduate coursework in residence at ASU during their first two years. The specific classes must be approved by faculty members in the students' areas of excellence. Students are also required to take 12 hours of research and 12 hours of dissertation credit. A maximum of 12 credit hours can be transferred from previous graduate coursework. Moreover, students' plans of study must be approved in advance by their program chair.

Academic Papers

Students are expected to work on academic papers for submission to journals during their doctoral program. Summer months are intended for manuscript writing for those students who have yet to successfully defend their dissertation proposals. At the end of each summer, all doctoral students are required to have at least one new manuscript ready for submission to a journal for publication. Faculty in the areas of excellence will supervise manuscript planning and writing. The bulk of the writing is to be done during the summer by the students. Faculty in the students' areas of excellence will evaluate the papers and provide detailed feedback and instructions for rewriting of papers.

Comprehensive Examinations

Upon completion of all necessary coursework on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam and, at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the dean of the Graduate College upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as 795 Continuing Registration) during the semester (including a summer session) in which the student defends the dissertation.

Note: For detailed information regarding the university's doctoral degree requirements, please refer to the Graduate College's policies and procedures.

Maximum Time Limit

Doctoral students must complete all program requirements within 10 consecutive years.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GMAT or GRE scores
- ☐ • prior academic performance records
- ☐ • letters of recommendation
- ☐ • a personal statement
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applications are initially reviewed by a faculty committee using a portfolio approach. Business Analytics, MS (BABUSANMS)

Online Degree Search Title: Business Analytics, MS

Campus: Tempe, Online

Program Description:

Delivered by the highly ranked W. P. Carey Departments of Information Systems and Supply Chain Management, the MS program in business analytics builds on quantitative skills and knowledge needed to advance on the analytics career ladder. The explosion of Big Data impacts every part of the global economy, making business analytics specialists one of the fastest-growing careers in the economy. Students discover how to derive value from data, lead data-driven analyses and create a business advantage across markets and industries.

Two pathways are available for the master's degree program in business analytics. One pathway is designed for individuals who want to immerse themselves in full-time graduate studies. This program is designed for working professionals seeking to continue working full time while attending school. The other is a nine-month pathway with a lock-step curriculum that consists of quarter-based courses and semester-long courses. The culminating experience delivers real-world experience and develops communication and leadership abilities.

Concurrent Degrees:

This degree is also offered as concurrent degree program with W. P. Carey MBA - Full-Time Program

Degree Requirements:

30 credit hours including the required applied project courses (SCM 593 and CIS 593), or 33 credit hours including the required applied project courses (SCM 593 and CIS 593).

Required Core (23.5 or 24 credit hours)

CIS 505 Introduction to Enterprise Analytics (3)

CIS 508 Data Mining I (3)

CIS 509 Data Mining II (3)

CIS 515 Business Analytics Strategy (3)

SCM 516 Introduction to Applied Analytics (3) or ECN 501 Statistics for Managers (2.5)

SCM 517 Data-Driven Quality Management (3)

SCM 518 Analytical Decision Modeling I (3) or SCM 515 Decision Models for Supply Chain Management (3)

SCM 519 Analytical Decision Modeling II (3)

Restricted Electives (3 or 3.5 credit hours)

Culminating Experience (3 credit hours)

CIS 593 Applied Project (1.5)

SCM 593 Applied Project (1.5)

Additional Curricular Information

Students enrolled in concurrent programs along with the Master of Science in business analytics may need to take an additional elective worth at least .5 credit hour if their core coursework is 23.5 credit hours.

If ECN 501 is taken in lieu of SCM 516, students will need to take an additional .5 credit hour worth of electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GMAT or GRE test scores
- ☐ • one letter of recommendation
- ☐ • current resume
- ☐ • short-answer questions
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The letter or recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Complete application instructions may be obtained from the department's website.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Economics, PHD (BAECONPHD)

Online Degree Search Title: Economics, PhD

Campus: Tempe

Program Description:

The PhD program in economics is a full-time program intended to prepare students for teaching and research positions at four-year institutions of higher education and for research positions in public agencies or private business organizations. The doctoral program is relatively small in size, with about 45 doctoral students in residence at any time. The low student-faculty ratio affords greater faculty attention and mentoring compared to larger programs. Students are involved in teaching, research and seminar activities, becoming valued members of the department. Most of the doctoral students are supported through teaching and research assistantships for five years. Stipends are highly competitive with any graduate program in the country.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

In addition to completing 60 credit hours beyond the bachelor's degree (30 credit hours beyond the master's degree) and 24 credit hours of research and dissertation, the doctoral student must accomplish five tasks:

- ☐ • meet the qualifying examination requirement
- ☐ • present at least one area of emphasis
- ☐ • pass the comprehensive examination (both written and oral components)
- ☐ • pass the dissertation proposal defense
- ☐ • complete a dissertation with an oral defense

Students should see the Department of Economics graduate student handbook for details concerning these tasks.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • three letters of recommendation.
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

All applicants to the doctoral program in economics must have a bachelor's degree that includes four years of college coursework.

The Department of Economics requires applicants to send official scores from the GRE directly to Graduate Admission Services. Applications will not be reviewed until the GRE scores are received.

The admission policy weighs several factors, including letters of reference, overall GPA, GRE scores and performance in selected mathematics and economics courses. There are no absolute standards for any of the factors, but performance on each clearly should suggest academic potential that is far above those of the normal undergraduate student.

Admission guidelines are available on the Graduate Admission Services website. Applicants should see the program website for application deadlines and admission terms.

Finance, MS (BAFINMS)

Online Degree Search Title: Finance, MS

Campus: Tempe

Program Description:

The W. P. Carey MS in finance at Arizona State University prepares students for a range of career opportunities, including corporate finance, risk management, money management, financial planning, investment banking, consulting and real estate.

In only nine months, students in the program develop deep expertise in corporate finance and asset or portfolio management and are equipped with the tools needed to manage complex financial institutions. Faculty members bring cutting-edge research and decades of real-world experience into the classroom. A lock-step course format allows students to build on concepts throughout the program. A curriculum aligned with CFA Program Candidate Body of Knowledge prepares students to sit for the CFA exams and become a Chartered Financial Analyst®.

As a top-ranked business school, it all adds up to a degree with real value: The W. P. Carey Master of Science in finance delivers the financial qualifications increasingly sought by employers within the corporate finance industry.

Concurrent Degrees:

This degree is also offered as concurrent degree program with W. P. Carey MBA - Full-Time Program

Degree Requirements:

32 credit hours including a capstone course (FIN 575).

Required Core (27.5 - 29.5 credit hours)
ACC 502 Financial Accounting (2.5 or 3)
ECN 501 Statistics for Managers (2.5 or 3)

ECN 502 Managerial Economics (2.5 or 3)
FIN 502 Managerial Finance (2.5 or 3)
FIN 525 Investment Strategies (2.5)
FIN 530 Derivatives (2.5)
FIN 545 Advanced Corporate Finance (2.5)
FIN 550 Fixed Income (2.5)
FIN 555 Entrepreneurial Finance (2.5)
FIN 560 International Finance and Investments No (2.5)
FIN 565 Risk Management in Banks and Financial Institutions (2.5)

Electives (0-2 credit hours)

Culminating Experience (2.5 credit hours)
FIN 575 Finance Capstone (2.5)

Additional Curriculum Information

To account for the difference in the numbers of credit hours offered in the core courses, up to two additional credit hours of electives may be required.

The schedule will follow the seven-week quarterly schedule of the MBA program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or masters degree from a regionally accredited institution in business and management, economics, statistics, computer science or other types of science, engineering, technology and mathematics degree areas.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GMAT test scores
- ☐ • one letter of recommendation
- ☐ • short answer questions
- ☐ • current resume
- ☐ • proof of English language proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

There are two main audiences for the master's degree program: first, recent undergraduates from business, economics or related majors, or from programs where quantitative skills have been emphasized; and second, career advancers who have strong quantitative skills and seek to adapt those skills to be more competitive in the job market. Career advancers must be able to commit to a full-time plan of study; the program may not cater to working professionals as it is currently designed.

This program is appropriate for students from undergraduate programs with quantitative underpinnings at either ASU or other universities.

The letter of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Complete application instructions may be obtained from the department's website.

SCM 545 Cases in Global Logistics (3)

Culminating Experience (3 credit hours)

SCM 593 Applied Project (3)

Additional Curriculum Information

The schedule will follow a combination of ASU scheduling options. Three courses will follow schedule C and will have a semester-long duration.

The other seven courses will follow the 7.5-week quarterly schedule of the MBA program. Those courses will require some online and extra class time to meet the 40 contact hour standard of The Association to Advance Collegiate Schools of Business.

Admission Requirements:

Applicants must fulfill both the requirements of the Graduate College and those of the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in business and management, computer information systems, economics and other types of global studies or similar degree areas.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • essays
- ☐ • GMAT or GRE test scores
- ☐ • official transcripts
- ☐ • one letter of recommendation
- ☐ • resume
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

There are two main audiences for the master's degree program: recent undergraduates from logistics-related majors, and career advancers with a background in supply chain management and operations whose skills can be expanded to include a broader global context and exposure to emerging markets. Students must be able to commit to a full-time plan of study; the program may not cater to working professionals as it is currently designed.

This program is appropriate for applicants who have strong quantitative skills and seek to adapt those skills to be more competitive in the job market.

All applicants must submit either the GMAT or GRE. For more information on GMAT; students should visit <http://www.mba.com> (<http://www.mba.com>). For GRE, they should see www.ets.org/gre (<http://www.ets.org/gre>). Applicants should expect to score above 600 on the GMAT to be competitive.

There is not a required foreign language exam for this program.

Information Management, MS (BAINFOMS)

Online Degree Search Title: Information Management, MS

Campus: Tempe, Online

Program Description:

The W. P. Carey MS in information management delivers a cutting-edge information management curriculum, helping students develop critical leadership skills. The Master of Science in information management is tailored to fit students schedules. Students may begin the program in January or August. Through the latest techniques and methodologies, hands-on experience, and relevant case studies, students discover how digital innovations, data analytics, and information systems are transforming business. The program prepares students to manage in an information technology environment, learning the business skills needed to leverage IT and gain a competitive advantage in a global economy.

The format of the program has been designated by the U.S. Immigration and Customs Enforcement agency within the Department of Homeland Security as a STEM eligible degree program (CIP code 52.1301). The STEM designation allows eligible graduates on student visas access to an Optional Practical Training (OPT) extension (<https://students.asu.edu/international/support/opt>), up to 36 months as compared to 12 months for non-STEM degrees. The longer work authorization term may help international students gain additional real-world skills and experience in the U.S. Students should see the academic unit for individual advisement.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

Legal Studies, MLS
W. P. Carey MBA - Full-Time Program

Degree Requirements:

30 credit hours including the required applied project course (CIS 593 or SCM 593 or MKT 580 or FIN 591), or MSIM/MBA Dual Degree: 30 credit hours and an applied project.

The program requires 30 credit hours of coursework and an applied project.

With an innovative curriculum that deepens the synthesis of information, technology and business, the W. P. Carey School of Business master's degree in information management combines the best of both worlds --- a leading-edge information management education and one of the nation's top-ranked business schools. Students should access the program website for a list of courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • resume
- ☐ • short-answer questions
- ☐ • two letters of recommendation
- ☐ • GMAT test scores
- ☐ • proof of English proficiency

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants are expected to have two years of full-time related work experience and prerequisite college-level courses or equivalent experience in statistics, brief calculus and a programming language.

Complete application instructions may be obtained from the department's website.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Management, MS (BACMRMS)

Online Degree Search Title: Management, MS

Campus: Tempe, Online

Program Description:

Arizona State University's W. P. Carey School of Business MS in management is an innovative business degree program providing new liberal arts, science, engineering and other nonbusiness graduates with the intellectual and professional skills needed to succeed in today's business environment. This one-year program is designed to develop critical-thinking skills as applied to fundamental business procedures and processes, and leadership skills. It is also designed to bridge the gap between academic preparation and real-world business applications.

Classes begin each fall semester in August.

Designed for graduates of nonbusiness programs with fewer than two years of work experience, students will have the capability and motivation to rapidly progress in any profession where business plays an important role. The management program differs substantially from a traditional MBA program in that no work experience is required for admission and the coursework is completed in one year, giving a broad overview of the essentials of managerial decision-making.

Three distinct components of the Master of Science program in management prepare students to immediately add value and lead in all types of business environments:

- • Core business courses deliver necessary business skills through integrative cases, project-based learning and teamwork.
- • Leadership courses develop understanding of strategic vision, instituting change, information systems, and the role and importance of sustainability.
- • A culminating experience bridges the gap between academic learning and real-world business application.

Concurrent Degrees:

This degree is also offered as concurrent degree program with Legal Studies, MLS

Degree Requirements:

36 credit hours including the required applied project course (MGT 593).

Management, MS (BAMCCMS)

Online Degree Search Title: Management in China/Corporate, MS

Campus: Tempe

Program Description:

The W. P. Carey School of Business at Arizona State University is directly involved in the development of top leadership in China. The MS custom corporate program in China is designed for participants of a single company in China. Upon successful completion of the program curriculum, a participant will be granted an ASU Master of Science in Management degree through the W. P. Carey School of Business.

The curriculum is designed to leverage participants' existing strengths in a chosen management concentration and it provides intensive knowledge on managerial decision-making and strategic formulation. Accordingly, the curriculum is designed with a strong transdisciplinary focus while achieving cycle time efficiency. At the core of the curriculum delivery is emphasis on practical applications with direct business connectivity. A

noteworthy feature of the curriculum is its integration of global practices and local market characterizations to enable participants' ability to excel in the modern economy.

The hallmarks of prestigious programs include two key elements: the faculty and the students. No other master of science program in China offers a more impressive list of faculty or students than the W. P. Carey China program. The faculty includes renowned faculty from W. P. Carey School of Business as well as from other prestigious American business schools.

Degree Requirements:

36 credit hours including the required capstone course (MGT 588).

The curriculum consists of 12 courses, concentrating on management. It is a world-class master's degree program with immersion in financial accounting, managerial finance, statistics and economics, marketing management, organizational theory and behavior, human resources management, supply chain management and information technology management.

All students must successfully complete the comprehensive requirement for Master of Science graduates established by the W. P. Carey School of Business and the Graduate College. As a lock-step program, there will be no opportunities for participants to make up missed courses or to substitute courses. Therefore, students must complete all 12 courses before graduation with a grade of "B" or higher (3.00 on a scale of 4.00) for each course to satisfy the comprehensive requirement. A thesis is not required.

Admission Requirements:

The Master of Science custom corporate program in China requires that students be nominated into the program by the company, and it is only delivered in China. Applicants are required to contact the program coordinator before submitting the online graduate admission application.

Real Estate Development, MREDev (ARREMREDEV)

Online Degree Search Title: Real Estate Development, MRED

Campus: Tempe

Program Description:

Arizona State University's MRED is one of the leading programs offered through the nationally ranked and recognized W. P. Carey School of Business, in partnership with the Sandra Day O'Connor College of Law, the Herberger Institute for Design and the Arts, and the Del E. Webb School of Construction. The program offers a truly transdisciplinary approach to real estate development education through a full-immersion curriculum that explores the development process in its entirety.

In only nine months, the W. P. Carey Master of Real Estate Development program prepares students to lead real development projects that are environmentally respectful, socially responsible, and artfully designed. Small class sizes provide opportunities for peer interaction, and a number of synthesis projects cover the entire spectrum of development, preparing students for roles throughout the industry. Students explore the development process in its entirety and strengthen their management toolkit.

During the one-year program, students learn how to locate, analyze and consider the physical, legal, economic, political and financial conditions impacting the use of property and the critical analysis required for a successful project. Graduates of the program are prepared to undertake mid- and senior-level management responsibility for small to large development and investment companies.

Concurrent Degrees:

This degree is also offered as concurrent degree program with Legal Studies, MLS

Degree Requirements:

36 credit hours including the required capstone course (RED 515).

While there are no business course prerequisites, potential students must demonstrate strong quantitative ability and effective written and oral communication skills.

The program is offered in an intense format covering two academic semesters. Students take required core course modules in a variety of formats,
Academic Catalog Archive 2017-2018

including:

- ☐ • comprehensive module exams to assess aggregate knowledge
- ☐ • face-to-face classroom instruction
- ☐ • group work
- ☐ • independent research
- ☐ • synthesis projects
- ☐ • topical quizzes
- ☐ • weekly assignments

The business school does not accept graduate credits earned while students are in nondegree status or from courses taken prior to admission to the program or taken while enrolled in another program outside the W. P. Carey School of Business.

There is not a foreign language requirement.

There are no thesis requirements.

All students must successfully complete the final synthesis project requirement established by the W. P. Carey School of Business and the Graduate College for the Master of Real Estate Development. The comprehensive culminating experience is integrated with RED 515 Capstone Project: Mixed Use Property Development. Students passing this course with a grade of "B" (scale is 4.00 = "A") or higher satisfy the culminating experience requirement.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts of all coursework completed at institutions other than ASU
- ☐ • GMAT or GRE test scores
- ☐ • one letter of recommendation
- ☐ • current resume
- ☐ • short answer questions
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

MCAT or LSAT scores can be accepted in lieu of GMAT or GRE.

The letter of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Complete application instructions may be obtained from the department's website.

Supply Chain Management and Engineering, MS (BASCMEMS)

Online Degree Search Title: Supply Chain Management and Engineering, MS

Campus: Online

Program Description:

The MS in supply chain management and engineering is a two-year, 30 credit hour program for working professionals in supply chain management, industrial engineering or a related field that consists of 15 credit hours of courses from the Department of Supply Chain Management in the W. P. Carey School of Business and 15 credit hours from the industrial engineering program in the School of Computing, Informatics and Decision Systems Engineering in the Ira A. Fulton Schools of Engineering.

Most students will have an undergraduate degree in a technical field, such as business, engineering or science. The objective is twofold: to provide students with knowledge of the fundamental foundations across the full spectrum of supply chain management functions and to provide them with

the ability to use state-of-the-art engineering tools to analyze, control and optimize modern supply chains.

Degree Requirements:

30 credit hours including the required applied project course (SCM 593).

Required Core (27 credit hours)

Culminating Experience (3 credit hours)

SCM 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • resume
- ☐ • GMAT or GRE test scores
- ☐ • personal statement
- ☐ • one letter of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The W. P. Carey School of Business and the Ira A. Fulton Schools of Engineering seek exceptional individuals who are working supply chain professionals (or in closely related fields). Applicants must be highly motivated and have strong intellectual capabilities. The admission committee looks for outstanding academic credentials, character qualities such as maturity, integrity and leadership, and diversity in perspectives and experiences.

Registration in school of business courses numbered 501 and above is limited to students who have been admitted to a graduate degree program and have the approval of the MBA program office.

The core courses are designed to provide a foundation in business knowledge and skills and must be taken in the prescribed sequence. Elective courses build upon the business core and center on the further development of an area of emphasis. There may be additional requirements that vary by area of emphasis. The program is completed in 21 months.

All students must successfully complete the comprehensive requirement established for the Master of Business Administration by the W. P. Carey School of Business and the Graduate College. The comprehensive culminating experience is integrated with MGT 589 Strategic Management. Students passing this course with a grade of "B" (scale is 4.00 = "A") or higher satisfy the comprehensive examination requirement.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GMAT or GRE test scores
- ☐ • two letters of recommendation
- ☐ • current resume
- ☐ • short-answer questions
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Letters of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Applicants should see the department's website for more information.

W. P. Carey MBA, MBA (BAEXECMBA)

Online Degree Search Title: W. P. Carey MBA - Executive Program

Campus: Tempe

Program Description:

The purpose of the W. P. Carey School of Business MBA program is to provide a solid foundation and knowledge base in the core business disciplines and to develop analytic capabilities and decision-making and leadership skill sets to effectively integrate decisions into the business environment. Through a comprehensive business curriculum taught by world-renowned faculty, the W. P. Carey executive Master of Business

Administration expands students' leadership skills and help them immediately impact their organizations. Classes meet twice monthly on Fridays and Saturdays at ASU's Tempe campus, convenient for travel from within Arizona and surrounding states.

Over the course of the two-year program, students develop a strategic perspective, learn how policy shapes business decisions and how companies half a world away can impact organizations. A summer experience in Washington, D.C. and an international practicum help students see the world of business in a new way.

The executive Master of Business Administration is completed in 21 months and is supported by each of the eight academic units within the W. P. Carey School of Business.

Degree Requirements:

48 credit hours including the required capstone course (MGT 589).

Required Core (1.5 credit hours)

LES 582 Ethical Issues for Managers (1.5)

Electives and Research (43.5 credit hours)

Culminating Experience (3 credit hours)

Capstone: MGT 589 Strategic Management (3)

Additional Curricular Information

While there are no business course prerequisites, potential students must demonstrate strong quantitative ability and effective written and oral communication skills.

The business school does not accept graduate credits earned while students are in nondegree status or courses taken prior to admission to the Master of Business Administration program or taken while enrolled in another Master of Business Administration program outside of the W. P. Carey School of Business. Registration in school of business courses numbered 501 and above is limited to students who have been admitted to a graduate degree program and have the approval of the MBA program office.

The executive curriculum must be taken in the prescribed sequence and is augmented by a series of lectures on thought leadership and off-site learning programs, including a business and public policy course in Washington, D.C. An additional off-site course exploring issues and strategies in the global business environment is held in partnership with an international business school. The program is completed in 21 months.

All students must successfully complete the comprehensive requirement established for the Master of Business Administration by the W. P. Carey School of Business and the Graduate College. The comprehensive culminating experience is integrated with MGT 589 Strategic Management. Students passing this course with a grade of "B" (scale is 4.00 = "A") or higher satisfy the comprehensive examination requirement.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.

W. P. Carey MBA, MBA (BAFULLMBA)

Online Degree Search Title: W. P. Carey MBA - Full-Time Program

Campus: Tempe

Program Description:

Powered by the Forward Focus curriculum, the W. P. Carey full-time MBA program prepares students to be adaptable in the face of uncertainty and ambiguity in a rapidly changing global economy. Highly ranked by U.S. News & World Report, the W. P. Carey full-time Master of Business Administration prepares students for immediate success through a cutting-edge curriculum, dedicated career services and a supportive community. The new curriculum of the full-time program rises to meet the rapid changes and new realities in business.

By rethinking the way the world does business, the W. P. Carey School of Business is rethinking the way it is taught. Success in the future can't rely solely on where we've been --- the road ahead needs a forward focus. The full-time Master of Business Administration is designed for individuals who want to immerse themselves in full-time graduate studies and take classes during the day. Small class size in the program supports individual learning, promotes student-faculty interaction and encourages personal and professional development.

The Master of Business Administration curriculum is rooted in transformation, of both the students and of business as we know it. As the world continues to evolve faster and unpredictably, students need a Master of Business Administration program that can prepare them to lead through uncertainty.

The Master of Business Administration program is supported by each of the eight academic units within the W. P. Carey School of Business.

W. P. Carey MBA, MBA (BASHANGMBA)

Online Degree Search Title: W. P. Carey MBA - Shanghai Program

Campus: Tempe

Program Description:

The W. P. Carey School of Business at Arizona State University is directly involved in the development of top leadership in China. In 2003, the executive MBA program launched in Shanghai, China. The program is delivered in collaboration with Shanghai National Accounting Institute, an entity under the governance of China's Ministry of Finance.

The business leaders emerging from this program will shape U.S.-Sino trade relationships during China's continued global expansion. This academic program is the cornerstone of a number of new offerings that include knowledge transfer and access to the highest level of decision-makers in China.

This degree is only offered in China.

Degree Requirements:

48 credit hours including the required capstone course (MGT 589).

The curriculum consists of 12 courses. It is based on the integration of core management principles, with an immersion in accounting, finance, supply chain management, service marketing, customer relation management and management of services innovation. At the core of the curriculum delivery is emphasis on the practical applications with direct business connectivity. The school prides itself on the curriculum's integration of global practices and local market characterizations, to enable participants' ability to excel in the modern economy.

In addition, the curriculum is designed with a strong transdisciplinary focus, while achieving cycle-time efficiency. Each course will be delivered in an intensive manner over two consecutive weekends, with four full days of face-to-face instruction supplemented by online instruction materials to enable learning interactions between faculty and participants.

All students must successfully complete the comprehensive requirement for the MBA established by the school of business and the Graduate College. The comprehensive culminating experience is integrated with MGT 589 Strategic Management. Students passing this course with a grade of "B" (3.00 on a scale of 4.00) or higher satisfy the comprehensive examination requirement. A thesis is not required.

Admission Requirements:

This degree is only offered in China. All applicants are required to contact the program coordinator before submitting the online graduate admission application.

Design & the Arts, Herberger Institute for

Architecture, MArch (ARARCMARCH)

Online Degree Search Title: Architecture, MArch

Campus: Tempe

Program Description:

The MArch is an accredited professional degree program at ASU. There are two programs of study available. The two-year program is for applicants who have completed the four-year BSD in architectural studies at ASU or an equivalent degree from another school that offers an accredited professional degree in architecture. The three-plus-year program for applicants with an undergraduate degree in a discipline or field other than architecture

Both programs promote broad areas of knowledge, professional skill and a social awareness that the architect must command if architecture is to enhance contemporary life and remain an enduring and valid expression of society.

Concurrent Degrees:

This degree is also offered as concurrent degree program with W. P. Carey MBA - Full-Time Program

Degree Requirements:

56 credit hours including the required capstone course (ADE 622), or 78 credit hours including the required capstone course (ADE 622).

Two-year program

Requirements involve an average of 14 credit hours per semester. A summer internship is required after the first full year of study.

Three-plus-year program

The three-plus-year graduate program requires 24 credit hours of proficiency coursework in addition to the master's degree-level coursework. For most students, this program involves 15 credit hours in the first summer and 14 to 15 credit hours in each of the subsequent six semesters. A summer internship is required after the second full year of study.

Additional Curriculum Information

Students should see the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • online graduate admission application and application fee
- ☐ • official transcripts
- ☐ • a portfolio, letter of intent and contact information of three references submitted via SlideRoom (<https://asudesign.slideroom.com> (<https://asuherberger.slideroom.com>)). The Design School requires that these be submitted in addition to the Graduate College application requirements.
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based) on the TOEFL or an overall band score of 6.5 on the IELTS. Other information can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Applicants are encouraged to report GRE scores, especially if the applicant's background is broad or other than a traditional design major, but it is not required.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

Additional Admissions Requirements for the Two-Year Program

Applicants must hold a bachelor's degree (or equivalent) in architectural studies or similar preprofessional degree in architecture. The bachelor's degree must be granted by an institution that offers the National Architectural Accrediting Board accredited degree program in architecture.

Additional Admissions Requirements for the Three-Plus Program

Applicants must hold a bachelor's degree (or equivalent) in a field other than architectural studies.

Applicants may be admitted to the two-year program with deficiencies if their previous coursework is not equivalent to the ASU undergraduate requirements and standards. Any deficiencies must be completed prior to taking the required courses. This may cause the student to take longer than two years to complete the program.

Art, MFA (HIARTMFA)

Online Degree Search Title: Art, MFA

Campus: Tempe

Program Description:

The Herberger Institute School of Art MFA program seeks to provide a stimulating and challenging environment for artistic and intellectual growth. We recognize contemporary art practice may emerge from within a distinct material practice but usually involves working across a variety of media and methods. As a result, prospective students select an area of focus for their creative research and studio activity but can expect to develop their own path through curriculum, availing themselves of human and facilities resources throughout the program. Areas of focus may be chosen from among a range of media and methods including:

- ☐ • ceramics
- ☐ • drawing
- ☐ • fiber arts
- ☐ • intermedia
- ☐ • metal arts
- ☐ • painting
- ☐ • photography
- ☐ • printmaking
- ☐ • sculpture
- ☐ • wood arts

With the realization that discipline, familiarity with historical precedents and freedom go hand in hand, the program strives to strike a balance between supporting the acquisition of skills and technique and encouraging independence, innovation and critical reflection. Responsibility is placed on the individual student to find personally meaningful content and an effective means to express that content within and across the art disciplines. Graduate students enjoy studio spaces determined by their area of focus, engaged creative research with faculty and access to graduate facilities.

Partnerships with the ASU Art Museum collections and staff, a strong guest artist schedule and other special professional development opportunities enhance the program.

Further information can be found in the program description on the school webpage.

Degree Requirements:

60 credit hours and an oral comprehensive exam (defense of MFA exhibition).

The 60 hours of graduate credit are subject to committee approval and must include:

- ART 680 Practicum, resulting in an MFA exhibition (10-15 credit hours)
- graduate studio (18-27 credit hours)
- graduate-level academic coursework (at least 6 credit hours)
- graduate-level ART seminars (9-18 credit hours)
- required courses in Contemporary Art Theory (3) and Cross-Practice Critique (3) (6 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • current resume or curriculum vitae
- ☐ • portfolio
- ☐ • statement of intent
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency via a TOEFL score: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Admission is a two-step process. Although applicants fill out one application through the online graduate application process, they must be admitted into both the MFA program and to the Graduate College.

The portfolio should be 20 images sized with a maximum dimension of 1024 pixels; video files less than 60MB each; and accompanied by an image list and the statement of intent (not exceeding 1,000 words) that addresses the applicant's artistic interests, reasons for applying to graduate school in general and the ASU School of Art in particular as well as professional goals.

The three letters of recommendation should be from faculty members with whom the applicant has studied or from recognized professionals in the field. All the instructions for letters of recommendation must be followed when submitting them with the application to the Graduate College.

The method for submitting the resume or vitae, portfolio, statement of intent and letters of recommendation is online via SLIDEROOM: <https://asuherberger.slideroom.com>. (<https://asuherberger.slideroom.com>) Applicants may upload images (.jpg), video (.mov, .wmv, .flv), music (mp3) or PDF documents.

Applicants should see the program website for application deadlines.

Art (Art Education), MA (FAARTEDMA)

Online Degree Search Title: Art Education, MA

Campus: Tempe

Program Description:

Students in the MA program in art with a concentration in art education investigate issues in art teaching and learning from multiple perspectives, including art inquiry, studio, visual culture, development and context. The degree program culminates with an original thesis study proposed and carried out by the student. Thesis studies may be conducted in a range of contexts where art learning takes place, such as K-12 art classrooms, art centers and museums, university studios or in a teacher's own classroom.

Degree Requirements:

30 credit hours, a thesis and a written comprehensive exam (qualifying research proposal).

Required Core (18 credit hours)

ARE 510 Visual Culture Research (3)

ARE 520 Issues in Teaching Inquiry in Art (3)

ARE 525 Research on Art Instruction (3)

ARE 530 Issues in Teaching Studio Art (3)

ARE 535 Research on Teaching Studio Art (3)

ARE 540 Teaching Art in Cultural Contexts (3)

Other Requirements (6 credit hours)

special topics on research related to integrating the teaching of studio art, art history and criticism or aesthetics (6)

Culminating Experience (6 credit hours)

thesis (6)

Additional Curriculum Information

Before the end of the first semester of coursework (six or more credit hours), a plan of study must be submitted to the Graduate College. Additional program requirements are indicated in the guidelines for the master's degree in art education.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants should submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • a formal art education research paper for review
- ☐ • resume
- ☐ • statement of intent
- ☐ • two letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant must have a bachelor's degree from a regionally accredited college or university with a major of no fewer than 45 credit hours of art, including 12 hours of art history and six hours of art education. Additional hours may be required by the school.

An applicant must have a GPA of at least "B" (3.00) in undergraduate coursework during the junior and senior years. Applicants who do not meet these requirements must submit scores from the MAT or the GRE.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The resume should demonstrate how professional experience will help the student succeed in this program.

Applicants should see the program website for application deadlines.

Art (Art History), MA (FAARTHISMA)

Online Degree Search Title: Art History, MA

Campus: Tempe

Program Description:

The MA in art with a concentration in art history is a comprehensive degree program designed to train students to engage with visuality in multiple ways. It offers a diverse curriculum intended to foster critical understanding of aesthetics, production, patronage and consumption of art. Eleven internationally recognized faculty members offer classes across many cultures, time periods and geographies, using multiple approaches and methodologies. The program stresses intersections between disciplines, borders, margins, points of mediation and technological developments throughout history. The graduate curriculum offers focused study in the areas of images and digital technologies, art in social and political contexts, and histories and theories of visual culture.

Degree Requirements:

30 credit hours, a thesis and a foreign language exam.

This program must include a minimum of 21 hours in art history, with at least 12 of these earned in 500-level seminars. At least one course must be taken in each of the four core areas:

- ☐ • ancient and medieval
- ☐ • Asian, Native American, pre-Columbian
- ☐ • modern and contemporary
- ☐ • renaissance and baroque

Satisfactory completion of ARS 501 Methodologies and Art History is required during the first semester of residence. The remaining hours include ARS 599 Thesis, approved electives and other courses specified by the faculty.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. In addition, applicants must have an undergraduate major or minor in art history, or at least four upper-division art history courses in which a GPA of 3.00 or higher was maintained.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • three letters of recommendation.
- ☐ • one formal research paper for review
- ☐ • one-page statement of intent indicating their objectives for graduate study
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of their current residency) must provide proof of English proficiency.

Students should see the program website for application deadlines and admission terms.

Online Degree Search Title: Art (Digital Technology), MFA

Campus: Tempe

Program Description:

The MFA in art with a concentration in digital technology is a program offered by the School of Art in collaboration with the School of Arts, Media and Engineering. It is a hybrid degree that combines technological and artistic goals and is designed for students with skills and experience in both realms.

Applicants will be required to demonstrate accomplishment in art and technology, particularly in having developed new digital technology for the arts. Coursework will be required in both the School of Art and the School of Arts, Media and Engineering. The School of Art offers graduate-level courses in digital audio, video, photography, animation, compositing and rapid prototyping. Graduate courses offered by the School of Arts, Media and Engineering focus on topics such as interactive media methodology and theory, sensing and understanding activity, perception and cognition for artists and designers, advanced programming, interaction design for media installations, and digital and physical fabrication.

Degree Requirements:

60 credit hours and an oral comprehensive exam.

Graduate credit is subject to committee approval and includes:

36 graduate studio credit hours in the major areas of concentration, of which 18 credit hours are ART studio classes and 18 credit hours are graduate-level courses in the School of Arts, Media and Engineering

six credit hours of ART 621 Seminar

six credit hours of graduate-level art history

six credit hours of ART 680 Practicum and six credit hours of AME 593 Applied Project, leading either to a final thesis exhibition or an applied project

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • an art and digital technology resume
- ☐ • current resume or curriculum vitae
- ☐ • portfolio
- ☐ • statement of intent
- ☐ • statement and evidence of work demonstrating digital technology skills beyond end user applications
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency via a TOEFL score: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Admission is a two-step process. Although applicants fill out one application through the online graduate application process, they must be admitted into the Master of Fine Arts program and to the Graduate College.

The portfolio must be of 20 images sized with maximum dimension of 1024 pixels; video files of less than 60 MB each; and an image list that accompanies the portfolio. The method for submission for the portfolio is online via SLIDEROOM: <https://asuherberger.slideroom.com> (<https://asuherberger.slideroom.com>). Applicants may upload images (.jpg), video (.mov, .wmv, .fly), music (.mp3) or PDF documents.

The statement of intent should not exceed 1,000 words and should address the applicant's artistic interests, reasons for applying to graduate school in general and the ASU School of Art in particular, as well as address the applicant's professional goals.

The letters of recommendation should be from faculty members with whom the applicant has studied or from recognized professionals in the field. All instructions for the letters of recommendation must be followed when submitting the application to the Graduate College.

Applicants should see the program website for application deadlines.

**Built Environment (Energy Performance and Climate Responsive Architecture), MS
(ARENERGYMS)**

Online Degree Search Title: Built Environment (Energy Perf/Climate Responsive Arch), MS

Campus: Tempe

Program Description:

The MS program in the built environment with a concentration in energy performance and climate-responsive architecture educates students to become experts in energy-efficient building design and energy technology. The program is concerned with the relationships between climate and site, thermal and visual comfort in buildings, and the demand and consumption of energy. Courses in this concentration establish a basic core of knowledge of the principles of the natural energies available at the building boundary due to climate and site; thermal and optic behavior of building materials and components; passive and low-energy architectural systems for heating, cooling and lighting; and appropriate integration with mechanical systems. Additional courses are available to support advanced study and research in a variety of related specialties.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (ATE 593).

Required Core (21 credit hours)

Electives (3-6 credit hours)

Culminating Experience (3-6 credit hours)

ATE 599 Thesis (6)

ATE 593 Applied Project (3)

Additional Curriculum Information

The applied project option consists of six credit hours of electives and three credit hours of ATE 593. The thesis option consists of three credit hours of electives and six credit hours of ATE 599.

Students should see the academic unit for an approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution, in one of the professions or fields of study outlined below:

- ☐ • a five- or six-year National Architectural Accrediting Board-accredited professional degree in architecture (BArch or MArch). See the NAAB website for more information.
- ☐ • a four-year Bachelor of Science in landscape architecture or a master's degree in landscape architecture which must be granted by an institution that offers the Landscape Architectural Accreditation Board-accredited degree program in landscape architecture
- ☐ • an engineering degree (BS or MS) with a background in building sustainability issues. Mechanical and civil engineering and construction majors are particularly suited for application to this program.
- ☐ • a science degree (BS or MS) with a background in building sustainability issues

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official copy of GRE scores
- ☐ • portfolio; or, a writing sample for applicants who have a science background
- ☐ • statement of intent
- ☐ • contact information for three references
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based) on the TOEFL or an overall band score of 6.5 on the IELTS. Other information can be found at: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Unofficial copies of GRE scores will not be accepted. More information is available at the GRE website or <https://uoeee.asu.edu/testing> (<https://uoeee.asu.edu/testing>).

The portfolio or writing sample, statement of intent and contact information for three references must be submitted via Slideroom (<https://asudesign.slideroom.com> (<https://asudesign.slideroom.com>)).

Admission to the program is selective. Admission to the program cannot be deferred; students must enroll in the semester for which they are admitted; otherwise, they will need to go through the entire application process again for the year in which they are applying.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting The Design School.

Applicants should see the program website for application deadlines and admission terms.

Composition, MM (FAMCOMPMM)

Online Degree Search Title: Music Composition, MM

Campus: Tempe

Program Description:

The MM program in composition focuses on the development of skills necessary to pursue a career in music composition. Opportunities to collaborate with music scholars, theorists, performers, educators and other composers provide students with a broad and well-rounded foundation for advanced careers in music.

Degree Requirements:

32 credit hours, a thesis and a written comprehensive exam, or 32 credit hours, an applied project and a written comprehensive exam.

The credit hour requirements for the degree are distributed as follows:

composition (9 credit hours)
electives (8 credit hours)
music theory and music history (9 credit hours)
thesis (6 credit hours)

The thesis is an original composition that demonstrates mastery of composing for the selected performance medium and the coherent organization of musical material.

Additional Curriculum Requirements

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music.

Additional information about degree requirements for all graduate music programs may be found on the check sheets:

<https://music.asu.edu/degree-programs/graduate/> (<https://music.asu.edu/degree-programs/graduate/>).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country.

Applicants must have achieved a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • School of Music application (including a resume and personal statement): <https://music.asu.edu/admissions/grad/>

(<https://music.asu.edu/admissions/graduate-steps-to-apply>)

- • official transcripts
- • prescreening portfolio
- • three letters of recommendation
- • proof of English proficiency: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The School of Music does not offer conditional admission under any circumstances. In order to meet English proficiency requirements, students must have a TOEFL score of at least 550 (PBT) or 80 (iBT), or an IELTS overall band score of at least 6.5, or a Pearson Test of English score of at least 60.

Although a bachelor's degree in music is not required to be eligible for admission, applicants who do not hold an undergraduate degree in music are required to complete the deficiency courses listed below, which are not a part of the coursework for this graduate degree in music. These courses (or the equivalents) may be taken at ASU, another accredited university or a community college before or after admission to this program, but they must be completed prior to commencement of graduate-level course requirements in music history and music theory.

Composition (Interdisciplinary Digital Media and Performance), MM (FADIGITMM)

Online Degree Search Title: Music (Interdisciplinary Dig. Media and Perf.), MM

Campus: Tempe

Program Description:

The MM in composition with a concentration in interdisciplinary digital media and performance is designed for students who have interests and skills in unique cross sections of the arts and sciences.

The degree program expands the School of Music offerings to include areas beyond typical music coursework, allowing for expanded opportunities for personal growth. It also allows the School of Music and its students to be actively involved in current developments in the ever-changing field of media.

The state-of-the-art media facilities of the School of Arts, Media and Engineering and its hybrid arts-engineering faculty and courses are invaluable assets to music students, with resources that complement existing and future courses in electronic music.

Degree Requirements:

32 credit hours, a thesis and a written comprehensive exam, or 32 credit hours, a thesis, a written comprehensive exam and an oral comprehensive exam.

Required Core (6 credit hours)

MTC 523 Advanced Composition (6)

Concentration (18 credit hours)

Arts, Media and Engineering coursework (9)

Music Theory and Music History (9)

Electives (2 credit hours)

Culminating Experience (6 credit hours)

Creative Enterprise and Cultural Leadership, MA (HICECLMA)

Online Degree Search Title: Creative Enterprise and Cultural Leadership, MA

Campus: Downtown Phoenix, Tempe

Program Description:

The MA program in creative enterprise and cultural leadership empowers students to advance innovation in the cultural sector, support creative work and careers, and design public and private enterprises that will strengthen arts and design in the future. The program prepares graduates to understand the complex economic, legal, political and social context that surrounds any innovation or enterprise. Students are exposed to design thinking pedagogy as they increase their capacity for interpersonal communication, public communication, opportunity recognition, network and systems thinking, problem recognition and creativity as well as demonstrated ability in cultural leadership and knowledge of the creative industries, distribution of creative products, the creative process and management of innovation in the creative industries.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Art (Museum Studies), BA

Arts (BA in the Arts), BA

Digital Culture, BA

Environmental Design, BS

Film (Filmmaking Practices), BA

Music, BA

Theatre, BA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

31 credit hours including a written comprehensive exam, oral comprehensive exam, and the applied project course (HDA 593).

Required Core (15 credit hours)

GRA 501 Creative Environment and Collaborative Leadership (3)

HDA 511 Leadership in the Creative Industries (1)

HDA 512 Strategy: Problem Identification and Opportunity Recognition in the Creative Industries (2)

HDA 513 Creativity and Design Thinking (3)

HDA 521 Arts, Culture and the Economy (3)

HDA 522 Media Literacy and Distribution (3)

Electives or Research (9 credit hours)

creative enterprise development elective (3)

leadership elective (3)

other approved elective (3)

Other Requirements (1 credit hour)

HDA 583 Fieldwork (1)

Culminating Experience (6 credit hours)

HDA 593 Applied Project (6)

Additional Curricular Information

Note that electives are approved in consultation with either the student's committee or the program director.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's degree in an arts, design, business, public policy or related discipline from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • letters of recommendation
- ☐ • letter of intent
- ☐ • professional resume
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The letter of intent must outline the applicant's reasons for choosing to pursue a Master of Arts in creative enterprise and cultural leadership and outline how their unique background and abilities make them a suitable candidate.

Dance, MFA (FADANCEMFA)

Online Degree Search Title: Dance, MFA

Campus: Tempe

Program Description:

The MFA in dance at ASU is a highly flexible program that enriches creative and embodied practices through an integrated curriculum, connecting intuitive, kinesthetic and intellectual experiences. ASU's School of Film, Dance and Theatre seeks individuals who are self-motivated, have clear and demonstrated objectives, and are willing to explore new possibilities in the field of dance. This program also recognizes and encourages individual strengths and professional experience. The School of Film, Dance and Theatre welcomes a diversity of applicants with interest in:

Creating:

- ☐ • dance and art making
- ☐ • dance technologies
- ☐ • improvisation and real-time composing
- ☐ • transdisciplinarity and hybridity
- ☐ • performance
- ☐ • socially-engaged and community arts practices
- ☐ • sound design

Framing and Contextualizing:

- ☐ • dance and related histories
- ☐ • dance anthropology and ethnography
- ☐ • dance pedagogy
- ☐ • movement analysis and critical inquiry
- ☐ • musical methods
- ☐ • performance and cultural studies
- ☐ • philosophy of dance
- ☐ • educational and professional partnerships

Moving:

- ☐ • contemporary ballet
- ☐ • postmodern contemporary dance
- ☐ • somatic practices
- ☐ • urban arts practices

Degree Requirements:

60 credit hours and a bound document.

Incoming students take coursework in dance and related fields, which have been designed to provide a broad and fundamental preparation for future careers in:

- ☐ • arts administration
- ☐ • arts presenting
- ☐ • community partnerships
- ☐ • cross-cultural and ethnographic research
- ☐ • independent creative practices
- ☐ • multimedia and technology
- ☐ • preK-20 private and public sector education
- ☐ • professional performance companies
- ☐ • social work and public programs
- ☐ • wellness and health care

The Master of Fine Arts applied project in dance serves as the culminating experience in the graduate dance curriculum. Students have the opportunity to select the format and structure of their project in conjunction with their Master of Fine Arts committee. The applied project takes into consideration the future goals of the student and serves as a bridge to careers beyond graduate school.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • current resume
- ☐ • Web-based documentation of recent work, including one solo piece and one group piece, or other forms and types of creative research
- ☐ • three letters of recommendation from professionals in the field
- ☐ • a personal artistic statement
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Dance (Interdisciplinary Digital Media and Performance), MFA (FADANDIMFA)

Online Degree Search Title: Dance (Interdisciplinary Digital Media and Perform.), MFA

Campus: Tempe

Program Description:

The MFA program in dance with a concentration in interdisciplinary digital media and performance builds on the strength of the School of Film, Dance and Theatre and expands into the specific area of new media practices. The concentration provides a select group of graduate students with a rigorous, in-depth opportunity to specialize in dance as well as transdisciplinary digital arts.

The interdisciplinary classes and research activities of the transdisciplinary School of Arts, Media and Engineering that form part of this concentration give students access to advanced media equipment, studios, project funding and interdisciplinary collaborators.

Degree Requirements:

60 credit hours and a bound document.

The degree involves three years of residency:

a final MFA applied project (8 credit hours)

a written document

an oral defense

required coursework in the concentration taught by AME (18 credit hours)

electives (15 credit hours)

required courses in the School of Dance (19 credit hours)

ongoing showings of work

The current MFA is normally accomplished during three years of residency in the School of Film, Dance and Theatre. Ongoing showings of creative work are required. Foundational coursework is offered in areas of creative practice, movement practices, pedagogy, professional development, technology and theory.

Students enrolled in the program specialize in areas related to independent research. The Master of Fine Arts applied project, which may involve producing original choreography, presenting a lecture demonstration on a body of research or another form of original work, acts as the culminating experience of the program. Completing the process are a thesis presentation, a final written document, reflective in nature, as well as an oral defense.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • current resume
- ☐ • DVD of recent work, including one solo piece and one group piece
- ☐ • three letters of recommendation from professionals in the field
- ☐ • personal artistic statement
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The personal artistic statement should relate to School of Dance core values as described by the Learning Lens, and include a description of the applicant's interest in and previous experience with interdisciplinary dance and digital media art-making.

Dance Teaching Artist Praxis (Certificate), Certificate (HIDTAPGRCT)

Online Degree Search Title: Dance Teaching Artist Praxis (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate in dance teaching artist praxis prepares students to enter the dance field as professional teaching artists and educators. The program equips students with the knowledge, skills and credentials to work as dance teaching artists, pedagogical theorists and researchers, higher-education dance professors and teacher preparation experts, preK-12 dance educators, and community dance teachers. Students completing the dance teaching artist praxis certificate will:

- ☐ • fulfill central coursework requirements necessary to obtain a Provisional Arts Education, PreK-12 certificate in dance from the Arizona Department of Education
- ☐ • gain qualifications and credentials required to develop and teach university teacher preparation courses and training programs
- ☐ • develop skills and perspectives necessary to effectively work as a teaching artist in diverse sociocultural and learning contexts

Degree Requirements:

28 credit hours including a written portfolio.

Required Core (28 credit hours)

DCE 530 Graduate Movement Practices I (2)

DCE 531 Graduate Movement Practices 2 (2)

DCE 554 Teaching Praxis I: Postsecondary Teaching Philosophies, Foundations and Practices(3)

DCE 654 Teaching Praxis II: Theories, Contexts, Populations, Psychomotor Development and Curriculum Design (3)

DCE 656 Teaching Praxis III: Secondary Practices and Teacher Preparation Course Development/Implementation (4)

DCE 657 Pedagogical Research and Fieldwork (2)

SED 578 Student Teaching: Secondary Education (12)

Additional Curriculum Information

Students must submit the written portfolio culminating experience in the last semester of enrollment in the certificate program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a minimum of a master's degree in dance or a related field from a regionally accredited college or university, or have successfully completed their first semester in the Master of Fine Arts (MFA) in dance degree program at Arizona State University.

Applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree program or in the ASU MFA in dance program at the time of their application submission.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of English proficiency
- ☐ • letters of recommendation

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Design (Design of Healthcare and Healing Environments), MSD (ARHHEMSD)

Online Degree Search Title: Healthcare and Healing Environments, MSD

Campus: Tempe

Program Description:

The MSD program with a concentration in design of health care and healing environments is focused on the science and experiences behind the built environment's real and perceived impacts on health and wellness. To this end, the concentration in design of health care and healing environments emphasizes the intersection and integration of evidence-based research and practice, transdisciplinary studies, best practices, and innovation in supporting and advancing the design of healthy environments, products and processes. This concentration explores and synthesizes principles from a variety of disciplines including innovation, architecture, design, communication, human behavior, policy, quality and performance improvement, among others, in arriving at a thorough understanding of the critical issues facing the health care industry.

Students in this concentration will have opportunities to:

- ☐ • be mentored by local health care design consultants
- ☐ • communicate with forward-thinking health care research centers
- ☐ • engage directly with real clients
- ☐ • interact with prominent health care organizations
- ☐ • participate in industry conferences
- ☐ • team with nursing and health innovation faculty and students

Degree Requirements:

36 credit hours and a thesis, or 36 credit hours including the required applied project course (DSC 593).

Students may choose to complete the graduate work by way of a thesis or an applied project. A master's degree thesis is a scholarly endeavor that demonstrates the ability of the author to do supervised research and intellectual writing. The applied project is somewhat different. It includes a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to apply research creatively to a design situation.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in graphic design, industrial design, interior design or a related design discipline from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • portfolio
- ☐ • letter of intent
- ☐ • contact information for three references
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency via a TOEFL score. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

When applying for admission, applicants must declare one of seven concentrations:

- ☐ • arts, media and engineering
- ☐ • design of health care and healing environments
- ☐ • industrial design
- ☐ • interaction design
- ☐ • interior design
- ☐ • new product innovation
- ☐ • visual communication design

The portfolio, letter of intent and contact information for three references need be submitted to SlideRoom (<https://asuherberger.slideroom.com> (<https://asuherberger.slideroom.com>)). The Design School requires that these be submitted in addition to Graduate Admission Services application requirements.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Teaching or Research Assistantships

Applicants wishing to be considered for teaching or research assistantships should submit an additional statement outlining areas in which they feel competent to serve as a teaching or research assistant. All interested applicants can apply for a teaching assistantship position online. The link to the application will be provided on the MSD website.

All international teaching or graduate assistants whose primary language is not English are required to be certified in their English language abilities. Those individuals whose native language is not English will be required to submit a Speaking Proficiency English Assessment Kit score, which is administered at ASU. Students also have the option of completing the Test of Spoken English, administered directly by the Educational Testing Service. For this group, no personnel action form will be signed until this examination has been successfully completed.

Design (Industrial Design), MSD (ARINDDMSD)

Online Degree Search Title: Industrial Design, MSD

Campus: Tempe

Program Description:

The MSD program with a concentration in industrial design is meant for individuals interested in advanced studies in:

- ☐ • criticism and methodology
- ☐ • design processes
- ☐ • history
- ☐ • human factors
- ☐ • technology
- ☐ • theory

This concentration program helps students develop an understanding of contemporary industrial design issues through specialized research and design skills. It also prepares the graduate student for a career in industrial design education.

Degree Requirements:

36 credit hours and a thesis, or 36 credit hours including the required applied project course (DSC 593).

Students may choose to complete their graduate work by way of a thesis or an applied project. A master's degree thesis is a scholarly endeavor that demonstrates the ability of the author to do supervised research and intellectual writing. The applied project is somewhat different. It includes a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to apply research creatively to a design situation.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in graphic design, industrial design, interior design or a related design discipline from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • portfolio
- ☐ • letter of intent
- ☐ • resume
- ☐ • contact information of three references
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency through either the TOEFL or the IELTS. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based) on the TOEFL or an overall band score of 6.5 on the IELTS. Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

When applying for admission, applicants must declare one of the concentrations.

The portfolio, letter of intent, resume and contact information of three references must be submitted via Slideroom (<https://asudesign.slideroom.com> (<https://asudesign.slideroom.com/>)). The Design School requires that these be submitted in addition to the graduate application requirements.

GRE scores are not required.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Design (Interaction Design), MSD (ARDSCIMSD)

Online Degree Search Title: Design (Interaction Design), MSD

Campus: Tempe

Program Description:

Interaction design is about how people use products and services. This program focuses on the study of interaction design principles, tools, complexities and change. Students will be prepared to create dynamic, expressive and communicative forms for effective human-spatial interactions such as those needed with physical and virtual shopping, retrieving information and numerous other such tasks.

Degree Requirements:

36 credit hours and a thesis, or 36 credit hours including the required applied project course (DSC 593).

Students may choose to complete their graduate work by way of a thesis or an applied project. A master's degree thesis is a scholarly endeavor that demonstrates the ability of the author to do supervised research and intellectual writing. The applied project is somewhat different. It includes a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to apply research creatively to a design situation.

Admission Requirements:

Master of Science in Design Program Requirements

☐ • All applicants must submit the online graduate application and hold an undergraduate or graduate degree from a college or university recognized by ASU.

All applicants must have completed a program in design and must hold a bachelor's degree in graphic design, industrial design, interior design or a related design discipline. When applying for admission, applicants must declare one of seven concentrations:

- ☐ • arts, media and engineering

- ☐ • design of health care and healing environments
- ☐ • industrial design
- ☐ • interaction design
- ☐ • interior design
- ☐ • new product innovation
- ☐ • visual communication design
- ☐ • All applicants must meet the minimum GPA requirements as established by the Graduate College.
- ☐ • An applicant whose native language is not English (regardless of current residency) is required to submit an official Test of English as a Foreign Language (TOEFL) score of at least 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found on the Graduate College website at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- ☐ • A portfolio, letter of intent and contact information for three references need be submitted to SlideRoom (<https://asuherberger.slideroom.com>) (<https://asuherberger.slideroom.com>). The Design School requires that these be submitted in addition to the the Graduate College application requirements.

No GRE test is required.

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

Design (Interior Design), MSD (ARINTDEMMSD)

Online Degree Search Title: Interior Design, MSD

Campus: Tempe

Program Description:

The MSD with a concentration in interior design is a research degree program that addresses the discovery and inquiry of how people relate to space. The program encourages the investigation of creativity, innovation and critical thinking while acknowledging the importance of cultural and historical precedent. This concentration program helps students develop an understanding of contemporary interior design issues through specialized research and design skills. This concentration prepares students with prior interior design training for more specialized career fields and for a career in academia.

Degree Requirements:

36 credit hours and a thesis, or 36 credit hours including the required applied project course (DSC 593).

Students may choose to complete their graduate work by way of a thesis or an applied project. A master's degree thesis is a scholarly endeavor that demonstrates the ability of the author to do supervised research and intellectual writing. The applied project includes a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to creatively apply research to a design situation.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in graphic design, industrial design, interior design or a related design discipline, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • portfolio
- ☐ • letter of intent
- ☐ • resume
- ☐ • contact information of three references
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency through either the TOEFL or the IELTS. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based) on the TOEFL or an overall band score of 6.5 on the IELTS. Design (New Product Innovation), MSD (ARDSCNMSD)

Online Degree Search Title: Design (New Product Innovation), MSD

Campus: Tempe

Program Description:

The MSD with a concentration in new product innovation is a research-oriented graduate degree. In this degree program, students will apply the concepts learned in the core and required courses through the execution of an applied project, which could be the design and development of a new product, a new method of doing design research, new design guidelines for medical devices, etc. The focus is on application, and students will present evidence of knowledge of principles in new product innovation, strategy for implementation or methods of design evaluation. Students will present the projects through a design presentation, executive summary and project document.

Degree Requirements:

36 credit hours including the required applied project course (DSC 593).

This project-based concentration program teaches graduate students about the role of design and innovation in the process of new product

development within the context of a quickly evolving global economy.

Students complete their graduate work with an applied project. It includes a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to creatively apply research to a design opportunity.

Admission Requirements:

Master of Science in Design Program Requirements

All applicants must submit the graduate admission application and hold an undergraduate or graduate degree from a college or university recognized by ASU.

All applicants must have completed a program in design and must hold a bachelor's degree in graphic design, industrial design, interior design or a related design discipline. When applying for admission, applicants must declare one of seven concentrations:

Design, Environment and the Arts, PHD (HIDEAPHD)

Online Degree Search Title: Design, Environment and the Arts, PhD

Campus: Tempe

Program Description:

The PhD program in design, environment and the arts is an individualized institute-wide transdisciplinary degree that integrates graduate courses and faculty research with expertise in design; health care and healing environments; history, theory and criticism; and digital culture in design.

Broad in scope, the program is at the cutting edge of creating new knowledge in architecture, design and the arts. It complements transdisciplinary research in other disciplines within the university. The program provides research experience for students wishing to pursue careers in industry as members of interdisciplinary design teams on environmental and energy issues as well as for those wishing to teach in the architecture, design or the arts fields.

Applicants should apply to the concentration appropriate to their area of research interest as applications to the stand-alone degree program are not being accepted at this time.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students must be thoroughly familiar with design and the arts and are expected to demonstrate a high level of academic maturity before being admitted to the program. Up to 30 credit hours from a previously awarded master's degree can count toward the requirements of the doctoral program.

Of the 54 credit hours remaining after the master's degree, 12 must be dissertation credit and 12 may be research. These 24 credit hours plus the remaining 30 credit hours must be completed after admission to the program. No transfer credits are allowed to fulfill the 54 credit hour minimum requirement completed after admission to the program.

The student is required to take 15 credit hours in the concentration and a minimum of nine credit hours of specialized coursework outside the area of focus; a minimum of six credit hours in current research and research methods is required.

Each student entering the program is required to submit a plan of study during the first year.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a master's degree in the field of architecture, graphic design, industrial design, interior design, landscape architecture, or fine arts from a regionally accredited institution. Students must be familiar with design and the arts and will be expected to demonstrate a high level of academic maturity before being admitted to the program.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • three letters of recommendation
- ☐ • a statement of purpose summarizing career objectives and the reasons for pursuing doctoral education
- ☐ • an indication of proposed area of concentration (design, history, theory and criticism, digital culture in design, or health care and healing environments)
- ☐ • an indication of a potential mentor
- ☐ • a sample of sole-authored written work in English or any other evidence relevant to admission to the program (i.e., master's degree thesis, research paper or published articles)
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. A TOEFL score of at least 100 iBT or 600 PBT or an overall International IELTS band score of 7.50, with no individual band below 7.00, is required of all applicants

whose native language is not English (<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)).

International applicants who are interested in receiving funding as teaching assistants must take the Speaking Proficiency English Assessment Kit, administered at ASU, and become certified. Additional information is available on the department website.

Students are admitted to the program only upon completion of a degree in architecture, graphic design, industrial design, interior design, landscape architecture or fine arts, or upon the demonstration of equivalent standing. Applicants must be familiar with design and the arts and will be expected to demonstrate a high level of academic maturity before being admitted to the program.

Students must have identified a doctoral program faculty member who has agreed to serve as a mentor. The faculty mentor should be from the Herberger Institute for Design and the Arts. Students are recommended to introduce themselves by email to the faculty members who they feel have related research interests and to inquire about their availability to be mentors.

The letters of recommendation preferably would be academic, although they could be professional. Applicants will provide the names and contact information of three recommenders at the time of their online application. Recommenders will receive an email with a link to the online letter of recommendation to complete. Candidates are able to see which recommenders have already completed their recommendation by logging into the My ASU system and viewing their "To Do" list. Once a recommender has submitted the letter of recommendation, the recommender's name will be removed from the "To Do" list. All letters must be in English.

Applicants should identify a proposed research topic, or list of possible topics, that aligns with the research mission of the program and the research interests of faculty.

The application will be considered incomplete if any of the items is missing.

The doctoral executive committee evaluates the applications and supporting materials. Admission decisions are based on the ability of the potential mentor to devote time to the student; the compatibility of the applicant's career goals with the purpose of the degree program; GRE scores; previous academic training and performance; recommendation letters; and the research mission of the institute and the research interests of faculty. The recommendations of the committee are forwarded to the program director for approval. Upon the written recommendation from the program director, the dean of the Graduate College will notify all applicants in writing of the admission decision.

Students should see the program website for application deadlines.

Design, Environment and the Arts (Design), PHD (HIDEADSPHD)

Online Degree Search Title: Design, Environment and the Arts (Design), PhD

Campus: Tempe

Program Description:

The design concentration is an individualized institute-wide interdisciplinary degree that integrates graduate courses and faculty research with expertise in design. Broad in scope, the program is at the cutting edge of creating new knowledge in architecture, design and the arts. The program provides research experience for students wishing to pursue careers in industry as members of transdisciplinary design teams on environmental and energy issues, as well as for those wishing to teach in the architecture, design or the art fields.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

EPD 700 Research Methods (3)

EPD 710 Current Research in Design (3)

Concentration (15 credit hours)

DSC 558 Daylighting (3)

DSC 594 Conference and Workshop (3)

EPD 791 Seminar (3)

GRA 501 Creative Environment and Collaborative leadership (3)

GRA 561 Methods in Visual Communication I (3)
GRA 562 Methods in Visual Communication II (3)
GRA 581 Internship in Teaching Design (3)
GRA 590 Reading Conference (3)
INT 515 Decorative Arts in Historic Interiors: A thematic overview (3)
INT 516 Textiles in Historic Interiors: Appearance, Function, Symbolism (3)

Electives or Research (21 credit hours)
EPD 790 Reading and Conference (9)
EPD 792 Research (12)

Culminating Experience (12 credit hours)
EPD 799 Dissertation (12)

Additional Curriculum Information

Students choose five courses from the list of concentration courses above. Other equivalent courses may be used as concentration coursework with approval of the supervisory committee.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a master's degree, in a closely related field, from a regionally accredited institution. Examples of appropriate fields include art history, architectural history, design history or fields in the humanities, such as history or literature; archaeology and anthropology may also be considered. Students without graduate experience in the history of art, history of architecture, and history of design may be asked to fulfill deficiencies.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • letters of recommendation
- ☐ • personal statement
- ☐ • abstract of proposed research
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must submit a personal statement, abstract of proposed research, and contact information for three references to Slideroom (<https://asudesign.slideroom.com> (<https://asudesign.slideroom.com>)). It is required that these be submitted in addition to the Graduate College application requirements.

Design, Environment and the Arts (Digital Culture in Design), PHD (HIENVDGPHD)

Online Degree Search Title: Design, Environment and the Arts (Digital Culture in Design), PhD

Campus: Tempe

Program Description:

The PhD program in design, environment and the arts with a concentration in digital culture in design focuses on the role of computational systems

in enhancing creativity and the quality of human design. Graduates of the program should be thinkers as well as doers; they should learn to question the existing paradigms that govern the digital world as they impact design and the arts; they should be able to analyze systematically how digital tools affect the way designers and artists think, conceptualize, create and evaluate their designs and artwork; and, as a result, they should be able to come to a unique synthesis, leading the way in these fields.

This concentration program will primarily explore the impact of digital culture on how built environments, products and visual communications are designed and analyzed by design professionals and are utilized by their intended audience. Students should be able to systematically question existing paradigms and ontologies of digital tools, evaluate the new paradigms that emerge as a result of digital culture, and propose new frameworks for design disciplines. Issues such as user interface design for new products, computer simulation of performance of buildings and products, effects of digital tools on architectural form giving, digital design processes, better incorporation of human factors into design tools, usability and interaction design are some examples of faculty expertise and areas of focus.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

EPD 700 Research Methods (3)

EPD 710 Current Research in Design (3)

Required Concentration (12 credit hours)

Research and Approved Electives (24 credit hours)

Culminating Experience (12 credit hours)

EPD 799 Dissertation (12)

Other Requirements (30 credit hours)

a previously awarded master's degree or approved relevant coursework (30)

Additional Curricular Information

Students must be thoroughly familiar with design and the arts and are expected to demonstrate a high level of academic maturity before being admitted to the program. Up to 30 credit hours from a previously awarded master's degree can count toward the requirements of the doctoral program.

Of the 54 credit hours remaining after the master's degree, 12 must be dissertation credit and 12 may be research. These 24 credit hours plus the remaining 30 credit hours must be completed after admission to the program. No transfer credits are allowed to fulfill the 54 credit hour minimum requirement completed after admission to the program.

The student is required to take 12 credit hours in the concentration and a minimum of nine credit hours of specialized coursework outside the concentration; a minimum of six credit hours in current research and research methods is required.

Each student entering the program is required to submit a plan of study during the first year.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the field of architecture, graphic design, industrial design, interior design, landscape architecture, arts media or engineering, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • three letters of recommendation
- ☐ • a statement of purpose summarizing career objectives and the reasons for pursuing doctoral education
- ☐ • an indication of proposed area of concentration (design, history, theory and criticism, digital culture in design, or health care and healing)

environments)

- ☐ • an indication of a potential mentor
- ☐ • a sample of sole-authored written work in English or any other evidence relevant to admission to the program (i.e., master's degree thesis, research paper or published articles)
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. A TOEFL score of at least 100 iBT or 600 PBT or an overall IELTS band score of 7.50, with no individual band below 7.00, is required of all applicants whose native language is not English (<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)). International applicants who are interested in receiving funding as teaching assistants must take the Speaking Proficiency English Assessment Kit, administered at ASU, and become certified. Additional information is available on the department website.

Students are admitted to the program only upon completion of a degree in architecture, graphic design, industrial design, interior design, landscape architecture or fine arts, or upon the demonstration of equivalent standing. Students must be familiar with design and the arts and will be expected to demonstrate a high level of academic maturity before being admitted to the program.

The letters of recommendation preferably would be academic, although they could be professional. Students will provide the names and contact information of three recommenders at the time of their online application. Recommenders will receive an email with a link to the online letter of recommendation to complete. Students are able to see which recommenders have already completed their recommendation by logging into the My ASU system and viewing their "To Do" list. Once a recommender has submitted the letter of recommendation, the recommender's name will be removed from the "To Do" list. All letters must be in English.

Students should identify a proposed research topic, or list of possible topics, that aligns with the research mission of the program and the research interests of faculty.

Students must have identified a doctoral program faculty member who has agreed to serve as a mentor. The faculty mentor should be from the Herberger Institute for Design and the Arts. Students are recommended to introduce themselves by email to the faculty members who they feel have related research interests and to inquire about their availability to be mentors.

The application will be considered incomplete if any of the application items is missing.

The doctoral executive committee evaluates the applications and supporting materials. Admission decisions are based on the ability of the potential mentor to devote time to the student; the compatibility of the applicant's career goals with the purpose of the degree program; GRE scores; previous academic training and performance; recommendation letters; and the research mission of the institute and the research interests of faculty. The recommendations of the committee are forwarded to the program director for approval. Upon the written recommendation from the program director, the dean of the Graduate College will notify all applicants in writing of the admission decision.

Design, Environment and the Arts (Healthcare and Healing Environments), PHD (ARENHHEPHD)

Online Degree Search Title: Design, Environment and the Arts (Healthcare and Healing Environments), PhD

Campus: Tempe

Program Description:

The health care and healing environments concentration under the PhD in design, environment and the arts degree focuses on the integration of evidence-based design, sustainable science and best practices benchmarks when planning health care facilities. Facility-related responsibilities supported by this area cluster into seven functional work units:

- ☐ • facilities analysis (physical and environmental)
- ☐ • human factors and user needs
- ☐ • interior planning and design
- ☐ • programming (long-range planning)
- ☐ • research methodologies
- ☐ • space management and planning

- • strategic planning

This multidisciplinary program integrates the principles of medical and clinical innovations, interior architecture, human health services, communication studies, architecture, and behavioral and engineering sciences. Students in this program will be mentored by local health care design consultants, teaming with nursing students, working directly with real clients and corresponding with forward-thinking health care research centers. Graduating students will be able to address contemporary issues facing the health care industry, address health care environments on multiple levels, apply evidence-based research techniques and effectively communicate with clinicians.

Upon graduation, students may pursue advanced positions in the following arenas:

- • elite consulting firms as facility programmers
- • large health care systems and corporations as strategic planners
- • leading manufacturers and vendors as expert representatives
- • planning divisions in architectural and planning firms as medical planners
- • research centers as decision-makers

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

EPD 700 Research Methods (3)

EPD 710 Current Research in Design (3)

Concentration (18 credit hours)

Electives or Research (18 credit hours)

EPD 792 Research (12)

Other electives or research (6)

Culminating Experience (12 credit hours)

EPD 799 Dissertation (12)

Additional Curriculum Information

Students must be thoroughly familiar with design and the arts and are expected to demonstrate a high level of academic maturity before being admitted to the program. Up to 30 credit hours from a previously awarded master's can count toward the requirements of the doctoral program. If the student has not completed a master's degree, elective courses approved by the supervisory committee may substitute.

The student is required to take 18 credit hours in the concentration and a minimum of nine credit hours of specialized coursework outside the area of concentration.

No transfer credits are allowed to fulfill the 54-credit-hour minimum requirement completed after admission to the program. Each student entering the program is required to submit a plan of study during the first year.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a master's degree in the field of design, interior design, architecture, nursing or other related fields from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- • graduate admission application and application fee
- • official transcripts
- • GRE scores
- • three letters of recommendation
- • a statement of purpose summarizing career objectives and the reasons for pursuing doctoral education
- • an indication of proposed area of concentration (design, history, theory and criticism, digital culture in design, or health care and healing environments)
- • an indication of a potential mentor
- • a sample of sole-authored written work in English or any other evidence relevant to admission to the program (i.e., master's degree thesis,

research paper or published articles)

□ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. A TOEFL score of at least 100 iBT or 600 PBT or an overall International IELTS band score of 7.50, with no individual band below 7.00, is required of all applicants whose native language is not English (<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)). International applicants who are interested in receiving funding as teaching assistants must take the Speaking Proficiency English Assessment Kit, administered at ASU, and become certified. Additional information is available on the department website.

Ideal candidates must already hold a master's degree in design, interior design, architecture, nursing or other related fields. A statement of intent will express interest in the health care research/design concentration. If students enter the program with no design or health care background, they must take certain deficiency courses.

The letters of recommendation preferably would be academic, although they could be professional. Students will provide the names and contact information of three recommenders at the time of their online application. Recommenders will receive an email with a link to the online letter of recommendation to complete. Students are able to see which recommenders have already completed their recommendation by logging into the My ASU system and viewing their "To Do" list. Once a recommender has submitted the letter of recommendation, the recommender's name will be removed from the "To Do" list. All letters must be in English.

Students should identify a proposed research topic, or list of possible topics, that aligns with the research mission of the program and the research interests of faculty.

Students must have identified a doctoral program faculty member who has agreed to serve as a mentor. The faculty mentor should be from the Herberger Institute for Design and the Arts. Students are recommended to introduce themselves by email to the faculty members who they feel have related research interests and to inquire about their availability to be mentors.

The application will be considered incomplete if any of the application items is missing.

The doctoral executive committee evaluates the applications and supporting materials. Admission decisions are based on the ability of the potential mentor to devote time to the student; the compatibility of the applicant's career goals with the purpose of the degree program; GRE scores; previous academic training and performance; recommendation letters; and the research mission of the institute and the research interests of faculty. The recommendations of the committee are forwarded to the program director for approval. Upon the written recommendation from the program director, the dean of the Graduate College will notify all applicants in writing of the admission decision.

Design, Environment and the Arts (History, Theory, and Criticism), PHD (HIDEAHTPHD)

Online Degree Search Title: Design, Environment and the Arts (History, Theory, and Criticism), PhD

Campus: Tempe

Program Description:

The history, theory and criticism concentration focuses on the theoretical dimensions in areas of architectural and design history or art history and including critical discourse in the design or art disciplines. The program offers classes and research across many cultures and time periods, geographies, and multiple approaches and methodologies within the art history program.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation, and a foreign language exam.

Required Core (6 credit hours)

EPD 700 Research Methods (3)

EPD 710 Current Research in Design (3)

Required Concentration (15 credit hours; choose five courses)

APH 515 Current Issues and Topics (3)

APH 590 Reading and Conference (3)

APH 598 Special Topics (3)
ARS 501 Methodologies in Art History (3)
ARS 506 Critical Studies in Roman Art (3)
ARS 514 Critical Approaches to Romanesque Art (3)
ARS 533 The Pre-Raphaelites (3)
ARS 574 Studies in Japanese Art (3)
ARS 575 Approaches to Chinese Painting (3)
ARS 584 Internship (3)
ARS 585 Women in the Visual Arts (3)
ARS 591 Seminar (3)
ARS 598 Special Topics (3)
ARS 790 Reading and Conference (3)
EPD 790 Reading and Conference (3)

Electives or Research (21 credit hours)
EPD 792 or ARS 792 Research (12)
three 3 credit hour courses at the 500 to 700 level as agreed upon by faculty mentor

Culminating Experience (12 credit hours)
EPD 799 or ARS 799 Dissertation (12)

Additional Curricular Requirements

A foreign language exam is required in order to show reading knowledge of two foreign languages as demonstrated by exam administered by the College of Letters and Sciences (or equivalent) during the program or by a "B" or better (scale is 4.00 = "A") in a reading course such as a 400- or 500-level special topics course (example: ITA 494 or FRE 598 for reading knowledge). These credits will not count toward the degree total unless taken at the 500 level or above and approved by the faculty mentor as a concentration course.

When approved by the student's supervisory committee, this program allows 30 credit hours from a previously awarded master's degree to be used for this program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a master's degree, in any field, from a regionally accredited institution. Examples of appropriate fields include art history, architectural history, design history or fields in the humanities, such as history or literature; archaeology and anthropology may also be considered. Students without graduate experience in the history of art, history of architecture and history of design may be asked to fulfill deficiencies.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • abstract of proposed research
- ☐ • personal statement
- ☐ • letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must submit to Slideroom (<https://asudesign.slideroom.com> (<https://asudesign.slideroom.com/>)) a personal statement, abstract of proposed research, and contact information for three references. It is required that these be submitted in addition to the Graduate College application requirements.

ART 102

Digital Culture, MA (HIDGCMA)

Online Degree Search Title: Digital Culture, MA

Campus: Tempe

Program Description:

The MA program in digital culture is geared toward practitioners of design and the arts who have an interest in software and system development and seek to enhance their practice through expanded engagement with interactive and embodied media design in a transdisciplinary environment.

The degree program allows artists and designers to explore new avenues for real-time media creation that seek to go beyond current paradigms. Coursework also explores current practices in various contexts (performance environments, health and well-being, social media and communication) as well as engineering-based approaches to develop experiential systems with social impact.

Digital culture alumni have received job opportunities in areas such as:

- ☐ • audio and video
- ☐ • engineering
- ☐ • graphic design
- ☐ • illustration
- ☐ • interaction design
- ☐ • iOS development
- ☐ • journalism
- ☐ • programming
- ☐ • software engineering
- ☐ • special effects
- ☐ • 3D modeling and fabrication
- ☐ • visual media

Degree Requirements:

33 credit hours including the applied project course (AME 593).

Required Core (12 credit hours)

AME 520 Understanding Activity (3)

AME 530 Experiential Media Methodology and Theory I (3)

AME 531 Experiential Media Methodology and Theory II (3)

AME 532 Creating by Algorithm (3)

Electives or Research (18 credit hours)

Culminating Experience (3 credit hours)

AME 593 Applied Project (3)

Additional Curriculum Information

Students should check with the academic unit regarding appropriate electives coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in one of the following areas from a regionally accredited institution: arts, humanities, design, media studies, computer science, engineering or a closely related field.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • letters of recommendation
- ☐ • portfolio
- ☐ • statement of purpose

- • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

A portfolio is required; however, submissions will vary depending on the background of each prospective student due to the transdisciplinary nature of the program. Applicants from a wide variety of disciplines are expected to be interested in the master's degree. Key works will be requested from applicants to illustrate the types of skills they wish to develop in the master's degree program. Examples include games they have designed and programmed, interactive installations and performances (submitted as video), Web sites they have created or programmed, music they have composed digitally, or films they have made.

The statement should explain, in a concise and persuasive manner, how the student's educational, professional and personal experiences inform their research and creative interests and it should elaborate on any aspect of their background that supports candidacy to the School of Arts, Media and Engineering.

History and Theory Of Art, PHD (FAHIARTPHD)

Online Degree Search Title: History and Theory of Art, PhD

Campus: Tempe

Program Description:

The PhD in the history and theory of art is a collaborative program with the University of Arizona in Tucson, Arizona. The emphasis is on transdisciplinary methodologies and electronic technologies to prepare students for teaching and museum careers.

Degree Requirements:

84 credit hours, a foreign language exam, an oral comprehensive exam, a prospectus and a dissertation.

The doctorate degree requires 60 credit hours beyond the Master of Arts or 90 beyond the Bachelor of Arts. The 42 credits of doctoral coursework include:

- 12 credit hours in the major area of emphasis
- nine credit hours in a minor area within art history
- six transdisciplinary credit hours (courses outside of art history)
- six credit hours of PhD core courses (ARS 691 Methodologies and ARS 692 Technologies)
- nine credit hours of electives
- the remaining 18 credit hours are research (ARS 792) and dissertation (ARS 799)

A student may elect to have a second minor in an area outside art history. In this joint program, all doctoral students are required to take courses by faculty at both Arizona State University and the University of Arizona.

Admission Requirements:

Students must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

The complete application requires submissions to both Arizona State University Graduate Admission Services and the School of Art. The following must be submitted to the the Graduate Admission Services as part of the graduate admission application:

- • online application
- • application fee
- • official notice of GRE scores (within last five years)
- • official transcripts
- • any other materials requested by the Graduate College

The following must be sent to the art history graduate advisor in the School of Art:

- • a statement of intent regarding graduate study
- • the Master of Arts thesis or a scholarly research paper

- ☐ • any request for assistantships and tuition scholarships
- ☐ • three academic letters of recommendation (to be sent directly by referees)

Students entering in the spring will have few or no opportunities for fellowship or assistantship support the first semester.

ART 102
soagrad@asu.edu
480-965-6303

Industrial Design, MID (HIINDMID)

Online Degree Search Title: Industrial Design, MID

Campus: Tempe

Program Description:

The MID degree is a studio-based program in which students will learn to design new products and service systems that solve critical global problems. Students will engage in research, brainstorming, idea visualization, prototyping and testing of creative solutions that address critical problems faced in the world today. Graduates of this program will be adept in using principles of design innovation, sustainability and systems thinking in problem-solving and are expected to find positions in industry as well as academia after graduation.

Degree Requirements:

60 credit hours including the required capstone course (IND 622).

Required Core (40 credit hours)

Electives (12 credit hours)

Other Requirement (3 credit hours)

IND 584 Internship (3)

Culminating Experience (5 credit hours)

IND 622 Advanced Industrial Design Studio IV (5)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

The MID includes sequential studio courses. Requirements involve an average of 14 credit hours per semester. An internship is required during the summer prior to the final year.

Additional deficiency coursework is required for students who are in the three-year plus program; students should see the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • a portfolio, letter of intent and contact information of three references submitted via SlideRoom (<https://asudesign.slideroom.com> (<https://asuherberger.slideroom.com>))
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency through either the Academic Catalog Archive 2017-2018

TOEFL or the IELTS. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based) on the TOEFL or an overall band score of 6.5 on the IELTS. Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

The Design School requires that the portfolio, letter of intent and references be submitted via SlideRoom in addition to the Graduate College application requirements.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

The GRE is not required.

Applicants may be admitted to the two-year program with deficiencies if their previous coursework is not equivalent to the ASU undergraduate requirements and standards. Deficiencies must be completed prior to taking the required courses, if necessary; this may cause the student to take longer than two years to complete the program.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Admission requirements for the two-year program

Applicants must hold a minimum of a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing in a related field such as industrial design or product design.

Admission requirements for the three-plus year program

Applicants must hold a bachelor's degree (or equivalent) from a regionally accredited college or university of recognized standing in a field other than industrial design.

Interior Architecture, MIA (HIIAMIA)

Online Degree Search Title: Interior Architecture, MIA

Campus: Tempe

Program Description:

The MIA is a studio-based professional degree program that prepares graduates to fill leadership positions in interior architecture, design practice and education. Focusing on the development of groundbreaking design solutions to contemporary and emergent societal issues, such as sustainability and health care, this program draws upon history, theory and criticism to inform a transdisciplinary, evidence-based approach. Studios will have close ties to the allied disciplines of architecture and landscape architecture with faculty members from those programs actively involved in teaching studios with an interior architecture concentration. This provides a foundation of transdisciplinary learning to assist in the understanding of integrated practice. This degree program aims to further a candidate's comprehension of design as a synergistic process of identifying, analyzing and creating useful, beautiful and stimulating interior environments that serve the needs of varied user populations.

Degree Requirements:

56 credit hours including the required capstone course (INT 622).

Students should see the academic unit for the course list. Additional coursework is required if the student needs to take deficiency courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • a portfolio, letter of intent and contact information of three references submitted via SlideRoom (<https://asudesign.slideroom.com> (<https://asuherberger.slideroom.com>))
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based) on the TOEFL or an overall band score of 6.5 on the IELTS. Other information can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

No GRE test is required.

The Design School requires that the portfolio, letter of intent and reference information be submitted in addition to the Graduate College application requirements.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

Applicants may be admitted to the two-year program with deficiencies if their previous course work is not equivalent to the ASU undergraduate requirements and standards. Deficiencies must be completed prior to taking the required courses, if necessary. Please keep in mind that this may cause the student to take longer than two years to complete the program.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Admission Requirements for the Two-year Program:

All applicants must have completed a minimum of a bachelor's degree (or equivalent) in interior design or interior architecture from a Council for Interior Design Accreditation-accredited program or a four-year degree in architecture from a National Architectural Accrediting Board-accredited program.

Admission Requirements for the Three-plus-year Program:

All applicants must have completed a minimum of a bachelor's degree (or equivalent) in a field other than in interior design, interior architecture or architecture.

Landscape Architecture, MLA (ARLDEMLA)

Online Degree Search Title: Landscape Architecture, MLA

Campus: Tempe

Program Description:

The MLA program at ASU is designed to enable students to engage with the community in projects that focus on improving the ecological and social health of the urban environment. Emphasis is on sustainable outdoor environments. In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure.

The graduate landscape architecture program projects can include large-scale work encompassing urban design, landscape reclamation, open space preservation planning and landscape ecological design, and projects at the more intimate scale of a neighborhood park or residential backyard. Emerging areas of focus include biotechnical design, construction of greenways, green roofs, living walls, urban agriculture as well as the design of healing environments.

As an accredited Master of Landscape Architecture degree program, the curriculum is intended to prepare students for landscape architecture professional practice and advanced study at the doctoral level. The Design School is committed to the merging of global and local contexts and concerns and, toward this end, graduate students in their final year go abroad for two weeks as part of their studio course. To date, students have traveled to Argentina, England, Ethiopia, Germany, Japan, the Netherlands, Rwanda, Spain and Turkey. The school also offers a number of summer study abroad programs in an effort to extend the student opportunities for global engagement. Since 2011 when the first class of students

graduated with master's degrees in landscape architecture, ASU alumni have found employment with nationally recognized landscape architects, in multinational firms and within public municipalities and agencies.

Degree Requirements:

56 credit hours and a thesis, or 56 credit hours including the required applied project course (LDE 593), or 56 credit hours including the required capstone course (LDE 622).

Students should see the academic unit for the course list. Additional coursework is required if the student needs to take deficiency courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • online graduate admission application and application fee
- ☐ • official transcripts
- ☐ • a portfolio, letter of intent and contact information of three references submitted via SlideRoom (<https://asudesign.slideroom.com> (<https://asuherberger.slideroom.com>))
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based) on the TOEFL or an overall band score of 6.5 on the IELTS. Other information can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

The Design School requires that the portfolio, letter of intent and reference information be submitted in addition to the Graduate College application requirements.

Applicants are encouraged to report GRE scores, especially if the applicant's background is broad or other than a traditional design major, but it is not required.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted; otherwise, they will need to go through the entire application process again for the year in which they are applying.

Applicants may be admitted to the two-year program with deficiencies if their previous coursework is not equivalent to the ASU undergraduate requirements and standards. Deficiencies must be completed prior to taking the required courses, if necessary. This may cause the student to take longer than two years to complete the program.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Admission Requirements to the Two-Year Program

Applicants must have completed a four-year or five-year BSLA or BLA in landscape architecture or be a licensed landscape architect. The bachelor's degree must be accredited by the Landscape Architectural Accreditation Board.

Admission Requirements to the Three-Plus-Year Program

Applicants must have completed a minimum of a bachelor's degree (or equivalent) in a field other than landscape studies.

Online Degree Search Title: Media Arts and Sciences, PhD

Campus: Tempe

Program Description:

Media, arts and sciences doctoral students train in translating, transporting and combining knowledge across disciplines for the development of innovative, experiential media systems and accompanying theoretical models. The PhD program structure includes transdisciplinary media courses through the School of Arts, Media and Engineering; elective-course credits relating to the student's research interests; and substantial research and dissertation hours devoted to collaborative research within the School of Arts, Media and Engineering network. Active participation in the School of Arts, Media and Engineering transdisciplinary research teams allows media, arts and sciences doctoral students to gain and contribute expertise in knowledge fusion for digital media.

Arts, media and engineering alumni have received job opportunities in:

- ☐ • audio and video
- ☐ • education
- ☐ • graphic design
- ☐ • illustration
- ☐ • interactive system development
- ☐ • iOS development
- ☐ • journalism
- ☐ • programming
- ☐ • software engineering
- ☐ • special effects
- ☐ • 3D modeling and fabrication
- ☐ • visual media

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The requirements for this program are comprised of 39 course credit hours, 30 of which are to be from the transdisciplinary media courses offered by the School of Arts, Media and Engineering; 33 research credit hours; and 12 dissertation credit hours. All students will be required to take a minimum of two courses under each of the five constituting areas of experiential media (30 credit hours).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in arts, humanities, design, media studies, computer science, engineering, or a closely related field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • an online graduate admission application
- ☐ • official transcripts
- ☐ • official GRE scores
- ☐ • curriculum vitae
- ☐ • statement of purpose
- ☐ • three letters of recommendation
- ☐ • portfolio of supporting material
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The statement of purpose should explain in a concise and persuasive manner how the student's educational, professional and personal experiences inform their research and creative interests, and the student should elaborate on any aspect of their background that supports candidacy to the School of Arts, Media and Engineering program.

Each applicant must demonstrate entry-level competencies. This can be demonstrated primarily through a portfolio. The portfolio may include previously developed media products, projects or publications demonstrating an understanding of and involvement with digital media and computation. Entry-level competency can also be partially demonstrated through coursework and may include such courses as:

- ☐ • advanced computer programming
- ☐ • computer graphics and animation
- ☐ • computer music
- ☐ • digital design
- ☐ • film theory
- ☐ • interactive technologies
- ☐ • media authoring tools
- ☐ • media theory
- ☐ • multimedia systems
- ☐ • signal processing

Students should see the program website for application deadlines and admission terms.

Music (Conducting), DMA (FACONDDMA)

Online Degree Search Title: Conducting, DMA

Campus: Tempe

Program Description:

The DMA program in music with a concentration in conducting (emphasis areas: choral, orchestra and opera, wind band) offers emerging conductors the opportunity to improve their art, craft and scholarship, while becoming well-versed in multiple areas of conducting. Those pursuing this degree take several common courses regardless of emphasis and become acquainted with the repertory and conducting issues for each medium. Coursework emphasizes a thorough knowledge of repertory, knowledge of historical and analytical issues, an understanding of efficient, effective rehearsal technique, and clear, expressive conducting technique. Doctoral students of conducting receive considerable individual attention and have regular opportunities to rehearse and conduct a variety of ensembles.

There are three tracks in this degree program:

Conductors specializing in choral conducting expand their expertise in vocal technique and work to integrate this into their pedagogy and rehearsal process. Score study integrates musical and textual analysis to gain insights into the unique interpretive demands of each work. Through these studies and those described above, conductors enhance their musical and interpretive skills and develop a collaborative leadership style.

Conductors specializing in orchestra and opera conducting work closely with the director of orchestras and the artistic director of Lyric Opera Theatre and gain a breadth of experience in both orchestral and opera conducting. Time in front of an ensemble is essential for the development of conducting skills, and therefore conductors have significant podium time with the ASU Orchestras and Lyric Opera Theatre as well as twice-weekly classes with the studio chamber orchestra. Study includes conducting technique, rehearsal technique, leadership, interpretation, score study, audience development and outreach, and career development.

Conductors specializing in wind band conducting meet in seminars to deepen and broaden their understandings of the psychology, score preparation methods, pedagogy and communication skills that underlie the art and craft of conducting in the wind band setting. Additionally, students's capacity for analytical thinking and dialogical skills will be challenged and, subsequently, enhanced.

Degree Requirements:

90 credit hours, a written comprehensive exam, an oral comprehensive exam and a research paper.

Conducting Core (18 credit hours)

Specialty Courses (9 credit hours)

Electives (9 credit hours)

Cognate (integrated conducting, instrumental performance or music education) (9 credit hours)

Music History and Music Theory (21 credit hours)

Recitals and Research (24 credit hours)

Other Requirement

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to course enrollment in the ASU School of Music.

Additional Curriculum Information

Thirty credit hours from a master's degree may be applied toward the 90 credit hour degree requirement. Once admitted to the program, a student is required to be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. In general, the student should expect to spend at least the equivalent of three academic years beyond the bachelor's degree in the program. A minimum of two semesters must be spent in continuous full-time residence at ASU. At least 54 credit hours must be completed in residence at ASU.

Additional information on degree requirements for all graduate music programs may be found on the check sheets posted here: <https://music.asu.edu/degree-programs/graduate/> (<https://music.asu.edu/degree-programs/graduate/>).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Students seeking admission typically hold a Master of Music degree. Applicants with other degrees are considered if they have received graduate training similar to that normally expected in an MM program.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee: <https://students.asu.edu/graduate/admissions> (<https://students.asu.edu/graduate/admissions>)
- ☐ • official transcripts
- ☐ • School of Music Application (including a resume and personal statement; also an uploaded writing sample from choral applicants): <https://music.asu.edu/admissions/grad/> (<https://music.asu.edu/admissions/graduate-steps-to-apply>)
- ☐ • prescreening video
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency: TOEFL score of at least 550 (PBT) or 80 (iBT), IELTS overall band score of at least 6.5, or Pearson Test of English score of at least 60.

Students should see the program website for application deadlines. After receipt of complete application materials (including recommendation letters, transcripts and English proficiency requirements) and review of prescreening materials, an applicant may be invited for a live audition. Information on the audition may be found at <https://music.asu.edu/admissions/graduate-auditions> (<https://music.asu.edu/admissions/graduate-auditions>).

Music (Ethnomusicology), MA (FAETHNMA)

Online Degree Search Title: Ethnomusicology, MA

Campus: Tempe

Program Description:

The MA in music with a concentration in ethnomusicology focuses on the scholarly study of musical traditions as sociocultural artifact, behavior and performance.

Degree Requirements:

30 credit hours, a thesis, a written comprehensive exam, an oral comprehensive exam and a foreign language exam.

Required Core (13 credit hours)

MHL 532 Music Bibliography (3)

MHL 668 Introduction to Ethnomusicology (3)

MUP 587 Ethnomusicology Ensemble (2)

music theory (5)

Electives (9 credit hours)

music electives (6-9)

open electives (0-3)

Research (2 credit hours)

MHL 592 Research (2)

Culminating Experience (6 credit hours)

MHL 599 Thesis (6)

Additional Curriculum Information

MHL 592 Research is taken concurrently with the second semester of MUP 587 Ethnomusicology Ensemble (1).

At least 20 credit hours for the program must be in the field of ethnomusicology or related fields approved by the student's advisor, complemented by courses in music theory, performance and cultural anthropology as listed above. Appropriate elective coursework will be reviewed and approved by the academic unit prior to inclusion on the student plan of study. No more than three credit hours of musicology may apply to the music electives requirement.

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in courses for these programs through the ASU School of Music list above. This will be tracked internally within the academic unit.

A passing grade on the foreign language exam in French, German, Italian or Spanish is required for graduation.

Additional information on degree requirements for all graduate music programs may be found on the check sheets posted under each degree here: <https://music.asu.edu/degree-programs/graduate/>. (<https://music.asu.edu/degree-programs/graduate/>)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution or from an international institution officially recognized by that country.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00="A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00="A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee: <https://students.asu.edu/graduate/admissions> (<https://students.asu.edu/graduate/admissions>)
- ☐ • School of Music application (including a resume, personal statement and writing sample): <https://music.asu.edu/admissions/grad/> (<https://music.asu.edu/admissions/grad/>)
- ☐ • three letters of recommendation
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency, <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

The School of Music does not offer conditional admission under any circumstances. Although a bachelor's degree in music is not required to be eligible for admission, applicants who do not hold an undergraduate degree in music are required to complete the deficiency courses listed below, which are not a part of the coursework for this graduate degree in music. These courses (or their equivalents) may be taken at ASU, at another accredited university or at a community college before or after admission to this program, but they must be completed prior to commencement of graduate-level course requirements in music history and music theory.

Music (Interdisciplinary Digital Media and Performance), DMA (FAINTDDMA)

Online Degree Search Title: Music (Interdisciplinary Dig. Media and Perf.), DMA

Campus: Tempe

Program Description:

The DMA program in music with a concentration in interdisciplinary digital media and performance is designed for students who have interests and skills in unique cross sections of the arts and sciences.

The degree program expands the School of Music offerings to include areas beyond typical music coursework, allowing for more opportunities for digital sound and interactive projects. The program also allows the School of Music and its students to be actively involved in current developments in the ever-changing field of media and digital culture.

The state-of-the-art media facilities of the School of Arts, Media and Engineering and its hybrid arts-engineering faculty and courses are an invaluable asset to music students, with resources that complement existing and future courses in electronic music.

Degree Requirements:

90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (25-27 credit hours)

Music Theory Core Area (12-19)

Music History Core Area (6-15)

Concentration (33 credit hours)

MTC 523 Advanced Composition (6)

MTC 723 Advanced Composition (6)

Arts, Media and Engineering coursework (21)

Electives (9-11 credit hours)

Research (9 credit hours)

MTC 792 Research (9)

Culminating Experience (12 credit hours)

MTC 799 Dissertation (12)

Additional Curriculum Information

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music.

Concentration coursework for the Arts, Media and Engineering area must be from the AME prefix.

This program accepts up to 30 credit hours from a previously awarded master's degree with approval from the academic unit and the Graduate College that may be used towards the hours required for the elective and concentration coursework.

Additional information on degree requirements for all graduate music programs may be found on the check sheets posted here:
<https://music.asu.edu/degree-programs/graduate/> (<https://music.asu.edu/degree-programs/graduate/>).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country.

Applicants must have achieved a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee: <https://students.asu.edu/graduate> (<https://students.asu.edu/graduate>)
- ☐ • School of Music application (including a resume and personal statement): <https://music.asu.edu/admissions/grad/> (<https://music.asu.edu/admissions/graduate-steps-to-apply>)

Music (Music Composition), DMA (FACOMPDMA)

Online Degree Search Title: Music Composition, DMA

Campus: Tempe

Program Description:

The DMA in music with a concentration in music composition is a professional degree program designed for outstanding students of composition who are preparing for professional careers, including teaching positions at the university level.

The concentration in music composition provides extensive faculty interaction as well as opportunities to develop advanced skills in traditional and contemporary compositional techniques. The opportunity to collaborate with music scholars, theorists, performers, educators and other composers provides students with a broad and well-rounded foundation for advanced careers in music.

Degree Requirements:

90 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The credit requirements for the degree are distributed as follows:

major area (composition, music technology, electives) (36 credit hours)

music theory and music history (30 credit hours)
research (12 credit hours)
dissertation (12 credit hours)

The music composition concentration requires the creation of a significant original work of music (considered to be a dissertation) and either two article-length research papers or a substantial paper.

Additional Curriculum Requirements

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music.

Thirty credit hours from a master's degree may be applied toward the 90 credit hour degree requirement. Once admitted to the program, a student is required to be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. In general, the student should expect to spend at least the equivalent of three academic years in the program beyond the master's degree. A minimum of two semesters must be spent in continuous full-time residence at ASU. At least 54 credit hours must be completed in residence at ASU.

Music (Music Education), PHD (FAMUSEDPHD)

Online Degree Search Title: Music (Music Education), PhD

Campus: Tempe

Program Description:

The PhD in music with a concentration in music education is a scholarly research degree. Graduates of this program typically serve as faculty members at colleges or universities. They become scholars, researchers, music and arts administrators, and public policy advisors to education and arts organizations and civic and governmental groups.

The music education doctoral program includes highly specialized study in music education, elective studies with scholars and artists in the School of Music and other schools in the Herberger Institute for Design and the Arts, and opportunities for transdisciplinary elective study with faculty in schools and colleges across the university. A plan of study is designed by the student in consultation with the faculty to support a research trajectory identified by the student.

Research conducted by students in the music education concentration aims to reexamine, interrogate and broaden discourse, practice and policy in music education, and to expand music and education scholarship by challenging methodological and disciplinary boundaries. The program concludes with dissertation research.

Degree Requirements:

90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (10 credit hours)

MSI 601 Contemporary Topics in Music Research (2)

MSI 602 Current Issues in Music Research (2)

MSI 755 Historical Research in Music (3)

MTC 520 Analytical Techniques (3)

Concentration (30 credit hours)

Electives (29 credit hours)

Research (6 credit hours)

Other Requirements (3 credit hours)

MUE 784 Internship (3)

Culminating Experience (12 credit hours)

MUE 799 Dissertation (12)

Additional Curriculum Information

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music.

Students should see the academic unit for a complete list of approved electives.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. A minimum of two semesters must be spent in continuous full-time residence at ASU.

Additional information on degree requirements for all graduate music programs may be found on the check-sheets: <https://music.asu.edu/degree-programs/graduate/> (<https://music.asu.edu/degree-programs/graduate/>).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply if they have earned a U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country.

Applicants must have achieved a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

☐ • graduate admission application and application fee: <https://students.asu.edu/graduate/admissions> (<https://students.asu.edu/graduate/admissions>)

☐ • School of Music application (including curriculum vitae, personal statement and a writing sample): <https://music.asu.edu/admissions/grad/>

(<https://music.asu.edu/admissions/grad/>)

- ☐ • official transcripts
- ☐ • teaching demonstration video
- ☐ • GRE or MAT scores
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The School of Music does not offer conditional admission under any circumstances. In order to meet English proficiency requirements, students should have a TOEFL score of at least 550 (PBT) or 80 (iBT), or an IELTS overall band score of at least 6.5, or a Pearson Test of English score of at least 60.

<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

Applications are accepted until all spaces are filled and reviewed on a rolling basis. Applicants are encouraged to apply as early as possible. Students should see the program website for more information on application deadlines. To ensure prompt processing of application, students should email MusicAdmissions@asu.edu (<mailto:MusicAdmissions@asu.edu>) after submitting an application. An interview with the music education doctoral faculty in person or via electronic media is scheduled after review of application materials. GRE or MAT scores may be submitted after deadlines, but these must be received before enrollment at ASU.

Additional Curriculum Information

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music.

Students take three seminars for three credit hours each for the concentration. Equivalent courses may be used with preapproval by the student's faculty advisor. No more than six credit hours outside of the School of Music may apply to this requirement.

Students should see the academic unit for a complete list of approved electives and research courses.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. Students entering the program without an earned MA degree will complete the requirements for the Master of Arts in music with a concentration in ethnomusicology or music history and literature.

Additional information on degree requirements for all graduate music programs may be found on the check-sheets: <https://music.asu.edu/degree-programs/graduate/> (<https://music.asu.edu/degree-programs/graduate/>).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a U. S. bachelor's degree in music or a graduate degree from an accredited college or university of recognized standing in music history, musicology, ethnomusicology or music theory.

Applicants must have achieved a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

□ • graduate admission application and application fee: <https://students.asu.edu/graduate/admissions>

(<https://students.asu.edu/graduate/admissions>)

□ • School of Music application (including curriculum vitae, two-page personal statement expressing the goal in pursuing this degree and two writing samples): <https://music.asu.edu/admissions/grad/> (<https://music.asu.edu/admissions/graduate-steps-to-apply>)

- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The School of Music does not offer conditional admission under any circumstances: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>). In order to meet English proficiency requirements, students should have a TOEFL score of at least 550 (PBT) or 80 (iBT), or an IELTS overall band score of at least 6.5, or a Pearson Test of English score of at least 60.

The writing sample to be included with the School of Music application should preferably include a paper from an upper-level undergraduate course or a graduate course or an article or document written by the applicant.

Students should see the program website for application deadlines.

Music (Performance), DMA (FAPERFDMA)

Online Degree Search Title: Music Performance, DMA

Campus: Tempe

Program Description:

The DMA in music with a concentration in performance is a professional degree program for advanced musicians desiring high levels of performance instruction and experience as well as preparation for teaching positions at the university level. The program provides extensive faculty and guest artist interaction and opportunities to develop advanced skills in traditional and contemporary pedagogy. The opportunity to collaborate with music scholars, theorists, composers, educators and other performers provides students with a broad and well-rounded foundation for advanced careers in music.

Degree Requirements:

90 credit hours, a research paper, a written comprehensive exam, an oral comprehensive exam and two foreign language exams, or 90 credit hours, a research paper, a written comprehensive exam, and an oral comprehensive exam.

The credit requirements for the degree are distributed as follows:

major area (studio instruction, courses in concentration) (39 credit hours)
music history and music theory (27 credit hours)
recitals and research (24 credit hours)

The performance concentration requires at least three recitals after admission to the program and a research paper or project. Five recitals are required for the collaborative piano track.

Additional Curriculum Requirements

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music.

Thirty credit hours from a master's degree may be applied toward the 90 credit hour degree requirement. Once admitted to the program, a student is required to be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. In general, the student should expect to spend at least the equivalent of three academic years in the program beyond the bachelor's degree. A minimum of two semesters must be spent in continuous full-time residence at ASU. At least 54 credit hours must be completed in residence at ASU.

Vocalists: Placement tests in both foreign language diction and sight-singing are required upon entry into the program. Students who are judged to be deficient in diction are required to complete and pass a course in advanced diction. Students who are judged to be deficient in sight-singing are required to complete and pass the Musicianship for Singers course.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country. Students seeking admission typically hold a Master of Music degree. Applicants with other degrees are considered if they have received graduate training similar to that normally expected in a Master of Music program.

Applicants must have achieved a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee: <https://students.asu.edu/graduate/admissions> (<https://students.asu.edu/graduate/admissions>)
- ☐ • School of Music application (including a resume, personal statement and repertoire list): <https://music.asu.edu/admissions/grad/> (<https://music.asu.edu/admissions/graduate-steps-to-apply>)
- ☐ • official transcripts
- ☐ • prescreening recording
- ☐ • piano pedagogy applicants: teaching demonstration video
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The School of Music does not offer conditional admission under any circumstances. In order to meet English proficiency requirements, students should have a TOEFL score of at least 550 (PBT) or 80 (iBT), or an IELTS overall band score of at least 6.5, or a Pearson Test of English score of at least 60.

Students should see the program website for application deadlines.

After receipt of complete application materials (including recommendation letters, transcripts and English proficiency) and review of prescreening materials, an applicant may be invited for a live audition. Information about the audition may be found at <https://music.asu.edu/admissions/graduate-auditions> (<https://music.asu.edu/admissions/graduate-auditions>).

Music Education, MM (FAMUSEDMM)

Online Degree Search Title: Music Education, MM

Campus: Tempe

Program Description:

The MM in music education is designed for individuals interested in music teaching and learning in public and private schools, community education settings, early childhood programs and adult education. Practicing teachers as well as community musicians and music educators interested in advanced studies in music teaching and learning may enroll.

Students may elect courses in each part of the degree program and can design a course of study that meets their specific interests and needs. The program provides opportunities to study full time, part time (through evening courses), in the summers only, or by combining full-time, part-time and summer study. Full-time students may complete the program in as little as one year.

Degree Requirements:

32 credit hours and a written comprehensive exam.

The degree credit requirements are distributed as follows:

music education core (10 credit hours)
musicianship core (10 credit hours)
specialization (12 credit hours)

Additional Curriculum Requirements

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music.

Six credit hours may be transferred from another regionally accredited graduate institution. Up to nine credit hours may be taken prior to admission.

Additional information about degree requirements for all graduate music programs may be found on the check sheets:
<https://music.asu.edu/degree-programs/graduate/> (<https://music.asu.edu/degree-programs/graduate/>).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country.

Applicants must have achieved a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program.

All applicants must submit:

- ☐ • online graduate admission application and application fee
- ☐ • School of Music application (including a resume): <https://music.asu.edu/admissions/grad/> (<https://music.asu.edu/admissions/graduate-steps-to-apply>)
- ☐ • official transcripts
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The School of Music does not offer conditional admission under any circumstances. In order to meet English proficiency requirements, students should have a TOEFL score of at least 550 (PBT) or 80 (iBT), or an IELTS overall band score of at least 6.5, or a Pearson Test of English score of at least 60.

Although a bachelor's degree in music is not required to be eligible for admission, applicants who do not hold an undergraduate degree in music are required to complete the deficiency courses listed below, which are not a part of the coursework for this graduate degree in music. These courses (or the equivalents) may be taken at ASU, another accredited university or a community college before or after admission to this program, but they must be completed prior to commencement of graduate-level course requirements in music history and music theory.

MHL 140 Music as Culture
MHL 341 Music History I
MHL 342 Music History II

Music Theory Pedagogy (Certificate), Certificate (HIMTPGRCT)

Online Degree Search Title: Music Theory Pedagogy (Graduate Certificate)

Campus: Tempe

Program Description:

This certificate program offers specialized study in music theory to help prepare students to teach undergraduate courses in fundamentals, harmony, musicianship and basic form analysis. Completion of this certificate indicates that the student is prepared to offer instruction in basic music theory at the college level. The certificate may be pursued concurrently with enrollment in a master's degree program or doctoral degree program in the School of Music.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

MTC 525 Pedagogy of Theory (3)

Other Requirement (3 credit hours)

MTC 584 Internship (3)

Electives (9 credit hours)

Additional Curriculum Information

Completion of diagnostic examinations in music history and music theory, administered by the School of Music, is required of all new graduate music students before enrolling in any graduate academic courses towards the certificate program.

Electives are selected with advisor approval from MTC courses in analytical topics. Please see the academic unit for a complete list of approved electives.

Admission Requirements:

Students who are interested in this certificate should email the academic unit prior to submitting an official application, to express their interest in the certificate.

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's degree in music or music education from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country. Other majors may be considered if applicants submit transcripts showing formal study in music theory and musicianship at least equivalent to what is required of ASU's undergraduate music majors (MHL 140, MHL 341 and MHL 342, MTC 125, MTC 221, MTC 222, and MTC 223). The music theory faculty will review transcripts for equivalency. In some cases, course descriptions or syllabi may be required to verify equivalency.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in any applicable graduate work.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • samples of work
- ☐ • statement of interest
- ☐ • proof of English language proficiency

Additional Admission Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The School of Music does not offer conditional admission under any circumstances.

- ☐ • TOEFL score of at least 550 (PBT) or 80 (IBT)
- ☐ • IELTS overall band score of at least 6.5
- ☐ • Pearson Test of English score of at least 60

Official transcripts must show a completed bachelor's degree from a regionally accredited institution in the U.S. or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that country. Also, if applicable, transcripts showing all coursework in music at the graduate level are required. The committee supervising this certificate program will consider an applicant's undergraduate record (and graduate record if appropriate) in music theory, evaluating courses taken and grades received. A minimum GPA of 3.00 in these courses is

required. International students applying to this certificate must also be in a degree program at ASU.

Applicants will submit a statement of interest offering reasons for applying to the certificate program and describing their experience and coursework in music theory. The essay should also indicate the applicant's level of piano proficiency (a necessary classroom skill) through a description of their study and their experience in keyboard performance.

Applicants will also be asked to show proficiency in music theory by submitting samples of work, such as analytical papers and examples of music writing (harmonic part-writing or counterpoint exercises).

Music Therapy, MM (FAMTHERMM)

Online Degree Search Title: Music Therapy, MM

Campus: Tempe

Program Description:

The MM program in music therapy provides students with graduate-level study in the theory, practice and research of music therapy. There is a two-year track for people who have completed either the undergraduate music therapy degree or its equivalent, who are board-certified or hold a similar international music therapy credential. Additionally, ASU offers a three-year track for people who have an undergraduate degree in music but not in music therapy.

The master's degree program fosters an expanded research perspective in music therapy, emphasizing community partnerships and program development with a concentration in the student's area of choice drawing from a number of possible options. Cognate areas include counseling and counseling psychology, special education, gerontology, social work, audiology and speech-language, or other areas of choice from the many options. The program culminates in either a clinical project or a thesis.

Degree Requirements:

33 credit hours including the required applied project course (MUE 586), and a written comprehensive exam, or 33 credit hours, a thesis and a written comprehensive exam, or 63 credit hours including the required applied project course (MUE 586), and a written comprehensive exam, or 63 credit hours, a thesis and a written comprehensive exam.

The degree credit requirements for the two-year track are distributed as follows:

music therapy core (16 credit hours)
other studies in music (8 credit hours)
clinical cognate (9 credit)

Three-Year Track: In addition to the above requirements, the three-year track requires 30 credit hours of deficiency coursework for a total of 63 credit hours, including completion of an internship required for certification.

Additional Curriculum Requirements

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music.

Additional information about degree requirements for all graduate music programs may be found on the check sheets:
<https://music.asu.edu/degree-programs/graduate/> (<https://music.asu.edu/degree-programs/graduate/>).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's or master's degree in music or music therapy from a regionally accredited institution or the equivalent of a U.S. bachelor's or master's degree from an international institution officially recognized by that country.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree

program.

All applicants must submit:

- ☐ • graduate admission application and application fee: <https://students.asu.edu/graduate/admissions> (<https://students.asu.edu/graduate/admissions>)
- ☐ • School of Music application (including a resume and personal statement): <https://music.asu.edu/admissions/graduate-steps-to-apply> (<https://music.asu.edu/admissions/graduate-steps-to-apply>)
- ☐ • official transcripts
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency:

<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>). The School of Music does not offer conditional admission under any circumstances. In order to meet English proficiency requirements, students should have a TOEFL score of at least 550 (PBT) or 80 (iBT), or an IELTS overall band score of at least 6.5, or a Pearson Test of English score of at least 60.

All applicants are required to perform a live audition or submit an audition recording: <https://music.asu.edu/admissions/graduate-auditions> (<https://music.asu.edu/admissions/graduate-auditions>). Auditions are scheduled only after complete application materials have been received.

Applicants to the three-year track must complete the prerequisite courses listed below, which are not a part of the coursework for the MM program in music therapy (three-year track) but are required for eligibility to sit for the board-certification exam (www.cbmt.org (<http://www.cbmt.org>)). These prerequisites may be taken during undergraduate study, at a community college or other university before beginning the Master of Music program in music therapy (three-year track), during summer sessions at ASU, or online through an accredited institution recognized by ASU. An applicant is eligible to apply to the Master of Music program in music therapy (three-year track) while completing these prerequisites and may finish these courses during their first year in the music therapy program, although this additional work may present a hardship. The prerequisite courses must be completed before a student begins the internship at the end of their first year of study at ASU, unless prior arrangements have been made. Completing the prerequisite courses prior to beginning the Master of Music program in music therapy (three-year track) is highly recommended.

- ☐ • Introduction to Psychology
- ☐ • Abnormal Psychology
- ☐ • Overview of Exceptional Children/Special Education

Applications are accepted until all spaces are filled and reviewed on a rolling basis. Applicants are encouraged to apply as early as possible and should see the program website for more information on application deadlines. To ensure prompt processing of application, applicants should email MusicAdmissions@asu.edu (<mailto:MusicAdmissions@asu.edu>) after submitting an application. An in-depth interview emphasizing the applicant's music therapy philosophy, research activities and clinical interests will be scheduled after receipt of complete application materials. A phone interview may be arranged.

Performance (Collaborative Piano), MM (FACPIANOMM)

Online Degree Search Title: Piano, Collaborative, MM

Campus: Tempe

Program Description:

Students in the MM program in performance, with a concentration in collaborative piano, perform with all instrumental areas and voice, focusing on collaborative endeavors such as art song recitals, instrumental duos and chamber music, operatic productions and participation in our large ensembles. Students refine specific pianistic skills while developing the knowledge and abilities to be skilled and sensitive musical collaborators. The opportunity to collaborate with music scholars, theorists, composers, educators and other performers provides students with a broad and well-rounded foundation for advanced careers in music.

Degree Requirements:

32 credit hours and a written comprehensive exam.

The degree credit requirements are distributed as follows:

collaborative piano and performance (including four recitals) (18 credit hours)
music history, music theory and electives (14 credit hours)

At least one year of college-level coursework in either French, German or Italian and at least one of the following are required:

- ☐ • one semester of diction in each of the two other languages
- ☐ • one semester of language instruction in each of the two other languages

Additional Curriculum Requirements

Language deficiencies must be made up during the first year of study.

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music.

Additional information on degree requirements for all graduate music programs may be found on the check sheets: <https://music.asu.edu/degree-programs/graduate/> (<https://music.asu.edu/degree-programs/graduate/>).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • School of Music application (including a resume, personal statement and repertoire list): <https://music.asu.edu/admissions/graduate-steps-to-apply> (<https://music.asu.edu/admissions/graduate-steps-to-apply>)
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Performance (Conducting), MM (HIPERCOMM)

Online Degree Search Title: Performance (Conducting), MM

Campus: Tempe

Program Description:

The MM in performance with a concentration in conducting presents conductors of orchestras or wind bands the opportunity to improve their art, craft and scholarship in pursuit of both professional and academic career aspirations. It is also appropriate for for public school teachers of orchestras and wind bands who want to strengthen their skills.

There are two tracks within this concentration. The wind band track is designed to meet the needs of the conductor focusing on band conducting. Required courses are specific to conducting wind bands and elective courses can be taken for further band study.

The orchestral track is designed to meet the needs of the conductor focusing on orchestral conducting. Required courses are specific to orchestral conducting and elective courses provide additional opportunities for further orchestral study.

Degree Requirements:

32 credit hours including a written exam and the required capstone courses (MUP 596 and MUP 597).

Wind Band Track

Required Core (14 credit hours)

Required Track (11-12 credit hours)

Electives or Research (4-5 credit hours)

Orchestral Track

Required Core (15 credit hours)

Required Track (11-12 credit hours)

Electives or Research (3-4 credit hours)

Culminating Experience (2 credit hours)

MUP 596 Solo Performance (1)

Performance (Music Theatre/Opera Performance), MM (FAMUTPOMM)

Online Degree Search Title: Music Theatre/Opera Performance, MM

Campus: Tempe

Program Description:

The MM program in performance with a concentration in musical theatre and opera performance provides students the opportunity to choose from three specific emphases: opera, musical theatre or music direction. Regardless of the emphasis, students have ample opportunities to study both musical theatre and opera.

The Master of Music concentration in opera provides intensive practical training and performance experience to prepare students for professional careers in opera. In addition to studio voice instruction and advanced work in acting, movement, audition techniques, career skills and vocal coaching, students study standard and contemporary operatic repertoire and are required to perform roles in at least two ASU opera and musical theatre productions.

The Master of Music concentration in musical theatre provides intensive practical training and performance experience to prepare students for professional careers as musical theatre artists. In addition to studio voice instruction and advanced work in acting, dance, movement, audition techniques, career skills and vocal coaching, students study repertoire from the traditional and contemporary musical theatre canon and are required to perform roles in at least two ASU opera and musical theatre productions.

The Master of Music concentration in music direction is geared toward aspiring conductors with strong keyboard or piano skills who are eager to learn the wide range of skills necessary for a successful career as a professional music director. This competitive program admits only one student per year and includes study of both opera and musical theater repertoire. Students in this program must conduct two productions during their studies at ASU. Since 1991, the graduates of this program have had a remarkable record of success, whether working in academia, pursuing further conducting study, or as professional music directors on or off Broadway and the world over.

Degree Requirements:

32 credit hours and a written comprehensive exam.

The credit requirements for the concentrations in music theatre performance and opera performance are distributed as follows:

studio instruction (8 credit hours)

courses in specified emphasis (12 credit hours)

music history, music theory and electives (12 credit hours)

Opera Emphasis: Sixteen credit hours or four semesters of college-level credit in more than one foreign language, chosen from French, German or Italian, are required for graduation. In addition, placement tests in both foreign language diction and sight-singing are required upon entry into the program. Students who are judged to be deficient in diction are required to complete and pass a course in advanced diction. Students who are judged to be deficient in sight-singing are required to complete and pass the Musicianship for Singers course.

Music Theatre Emphasis: A placement test in sight-singing is required upon entry into the program. Students who are judged to be deficient in sight-singing are required to complete and pass the Musicianship for Singers course.

The credit requirements for the degree in music theatre performance direction are distributed as follows:

piano studio instruction (4 credit hours)

courses in emphasis (15 credit hours)

music history, music theory and electives (13 credit hours)

Additional Curriculum Requirements

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music.

Additional information about degree requirements for all graduate music programs may be found on the check sheets:

<https://music.asu.edu/degree-programs/graduate/> (<https://music.asu.edu/degree-programs/graduate/>).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's or master's degree from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee: <https://students.asu.edu/graduate/admissions> (<https://students.asu.edu/graduate/admissions>)
- ☐ • School of Music application (including a resume, personal statement and repertoire list): <https://music.asu.edu/admissions/graduate-steps-to-apply> (<https://music.asu.edu/admissions/graduate-steps-to-apply>)
- ☐ • official transcripts
- ☐ • prescreening video
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency:

<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>). The School of Music does not offer conditional admission under any circumstances. In order to meet English proficiency requirements, students should have a TOEFL score of at least 550 (PBT) or 80 (iBT), or an IELTS overall band score of at least 6.5, or a Pearson Test of English score of at least 60.

Although a bachelor's degree in music is not required to be eligible for admission, applicants who do not hold an undergraduate degree in music are required to complete the deficiency courses listed below, which are not a part of the coursework for this graduate degree in music. These courses (or the equivalents) may be taken at ASU, another accredited university or a community college before or after admission to this program, but they must be completed prior to commencement of graduate-level course requirements in music history and music theory.

Performance (Performance Pedagogy), MM (FAPPEDMM)

Online Degree Search Title: Performance Pedagogy, MM

Campus: Tempe

Program Description:

The MM program in performance with a concentration in performance pedagogy concentrates on the performance and teaching of Western art music, with an emphasis on pedagogy. Students work on specific performance skills while developing the knowledge and abilities to be music pedagogues in their area. The opportunity to collaborate with music scholars, theorists, composers, educators and other performers provides students with a broad and well-rounded foundation for advanced careers in music.

Over the course of the program, the candidate will prepare two recitals: one solo or lecture recital and one studio recital by the candidate's laboratory pupils.

Degree Requirements:

32 credit hours and a written comprehensive exam.

The credit requirements for the degree are distributed as follows:

studio instruction (8 credit hours)

concentration courses, including one solo or lecture recital and one studio recital (8-12 credit hours)

music history, music theory and electives (12-16 credit hours)

Vocalists: Sixteen credit hours or four semesters of college-level credit in more than one foreign language, chosen from French, German or Italian, are required for graduation. In addition, placement tests in both foreign language diction and sight-singing are required upon entry into the program. Students who are judged to be deficient in diction are required to complete and pass a course in advanced diction. Students who are judged to be deficient in sight-singing are required to complete and pass the Musicianship for Singers course.

Additional Curriculum Requirements

Completion of diagnostic exams in music history and music theory is required of all new graduate music students prior to enrollment in the ASU School of Music.

Additional information on degree requirements for all graduate music programs may be found on the check sheets: <https://music.asu.edu/degree-programs/graduate/> (<https://music.asu.edu/degree-programs/graduate/>).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's or master's degree from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- • graduate admission application and application fee: <https://students.asu.edu/graduate/admissions> (<https://students.asu.edu/graduate/admissions>)

Socially Engaged Practice in Design and the Arts (Certificate), Certificate (HISEPGRCT)

Online Degree Search Title: Socially Engaged Practice in Design and the Arts (Graduate Certificate)

Campus: Tempe

Program Description:

Socially engaged practice centers around participation, reciprocal relationships and collaborations in which arts and design promote civic dialogue and investigate pressing issues of our time. This certificate program provides a theoretical framework, rigorous training and field experience in arts and design in civic and applied settings. With a focus on collaborative and cross-disciplinary approaches, students engage in meaningful ways in community settings in the metropolitan Phoenix area, pushing their personal artistry and creative capacities.

Degree Requirements:

15 credit hours including the required applied project course (ART 593 or AME 593 or DCE 593, or DCE 693, or DSC 593 or DSC 693, or MUP 593 or MUP693, or THP 593 or THP 693).

Required Core (6 credit hours)

ART 542 Art and Community (3) or THP 514 Projects in Community-Based Theatre (3)

HDA 510 Seminar in Socially Engaged Practice (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

Applied Project (3)

Additional Curriculum Information

The applied project is a 593 course in ART, AME, DCE, DSC, MUP, THP or a 693 course in DCE, DSC, MUP or THP.

Students should see the academic unit for appropriate elective coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.50 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.50 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • letter of intent
- ☐ • written recommendation or nomination letter
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students must maintain a 3.50 GPA in the certificate program.

No admission examinations are required.

Theatre, MA (FATHEAMA)

Online Degree Search Title: Theatre, MA

Campus: Tempe

Program Description:

The MA program in theatre introduces students to graduate study in the field of theatre and performance studies and provides a broad base of knowledge in the areas of history and historiography, theory, literature and dramaturgy, and practice. Students will have the opportunity to tailor their plan of study to specific research and artistic subject areas and will prepare a research thesis as the culmination of their studies.

The program is designed for those who wish to later enter a PhD program, for K-12 educators seeking to expand and amplify their expertise, and for those seeking to advance their knowledge of theatre and performance studies.

Degree Requirements:

30 credit hours, a thesis and a written comprehensive exam.

Required Courses (15 credit hours)

Electives (9 credit hours)

Culminating Experience (6 credit hours)

THE 599 Thesis (6)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • current curriculum vitae
- ☐ • sample of scholarly writing
- ☐ • statement of purpose
- ☐ • GRE general scores
- ☐ • three letters of recommendation from professionals familiar with the applicant's work
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The statement of purpose should address the student's background and experiences as they relate to the student's reasons for pursuing the doctorate, describe the student's research interests and indicate future career goals.

GRE subject scores are optional.

Applicants should see the program website for application deadlines.

Theatre (Arts Entrepreneurship and Management), MFA (HITHEAEMFA)

Online Degree Search Title: Theatre (Arts Entrepreneurship and Management), MFA

Campus: Tempe

Program Description:

The MFA program in theatre with a concentration in arts entrepreneurship and management teaches the skills of arts entrepreneurship, arts management and arts marketing within the context of the Master of Fine Arts degree in theatre, also grounding students in theories of performance, community-based arts, and theatre history and literature. Thus, students develop a holistic understanding of the role of arts managers as enablers of art-making. Students can earn a concurrent certificate in nonprofit leadership and management.

Degree Requirements:

60 credit hours including the required applied project course (THP 693), a practicum and an oral comprehensive exam.

Required Core (15 credit hours)

Concentration (27 credit hours)

Electives or Research (12 credit hours)

Other Requirements (3 credit hours)

THP 680 Practicum (2)

THP 684 Internship (1)

Culminating Experience (3 credit hours)

THP 693 Applied Project (3)

Additional Curriculum Information

Twelve elective credit hours are required for the 60-credit Master of Fine Arts. However, if students elect to pursue the NLM certificate concurrently, then they will need to take an additional three-credit elective course in the nonprofit leadership and management program to complete the certificate and degree requirements.

THP 680 is a one credit hour course students are required to take twice.

As part of the applied project requirement, students must submit a written document. An oral defense is also required.

Students should see the academic unit for a complete list of approved electives and required coursework for the core and concentration.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

In addition, the School of Film, Dance and Theatre requires a minimum of 30 undergraduate semester hours of coursework in theatre, film, dance, music, art or business with a minimum GPA of 3.20 overall.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts

- ☐ • resume
- ☐ • three letters of recommendation from professionals who can speak to the potential for success in arts entrepreneurship or management
- ☐ • sample of critical writing, such as a term paper or research project (in lieu of GRE scores)
- ☐ • statement of educational and professional objectives
- ☐ • sample of materials indicative of the candidate's potential to succeed as an arts entrepreneur or manager that might include but are not limited to publicity materials, marketing plans, budgets, stage management prompt books, grant proposals, business plans
- ☐ • interview
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Interviews may be conducted on campus or remotely.

Applicants should see the program website for application deadlines and admission terms.

Theatre (Directing), MFA (FADIRMFA)

Online Degree Search Title: Theatre (Directing), MFA

Campus: Tempe

Program Description:

The MFA in theatre with a concentration in directing is a program for students who demonstrate serious purpose, professional aspirations, theatrical daring and the desire to explore new work in collaborating with playwrights and in the devising and creation process. Respect for fellow artists and a desire to learn about how all the parts fit together are essential qualities in the successful candidate and, indeed, the successful director. Students are introduced to varied critical viewpoints from select artists and scholars. A hands-on, mentor-student approach is emphasized, with the intent of developing the skill, artistry and communication skills required to be an excellent professional director.

Admission to the directing, performance and performance design concentrations is cohort-based.

Degree Requirements:

60 credit hours including the required applied project course (THP 693).

This is a three-year program culminating in an applied project. Practical directing and directing classes are approximately 50 percent of the coursework. Classes also include:

- ☐ • acting: viewpoints and composition
- ☐ • assistant directing for a professional or faculty director working on the main stage
- ☐ • design collaboration
- ☐ • directing the new play
- ☐ • dramatic theory and criticism
- ☐ • dramaturgy
- ☐ • performance technology
- ☐ • projects in community-based drama
- ☐ • re-envisioning
- ☐ • research methods
- ☐ • solo performance
- ☐ • theatre for social change
- ☐ • theatre history and literature
- ☐ • theatre organization and management

MFA directors will direct a new work every year. Major assignments may include:

- ☐ • creating and directing an adaptation of an existing work
- ☐ • directing a new play by an MFA playwright

- ☐ • directing one applied project in the main-stage season
- ☐ • guiding an ensemble in the devising process and directing the resulting devised piece

Directing faculty mentor all student projects. Academic and artistic progress is evaluated at the end of each semester by a faculty committee. Program continuation is contingent upon a successful review. A professional internship is required for each MFA director.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • personal interview
- ☐ • statement of purpose
- ☐ • current resume
- ☐ • written directorial approach to a play selected by the reviewing committee
- ☐ • three letters of reference from professionals familiar with the student's work
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students are admitted to this program every three years, forming a cohort with their colleagues in the other Master of Fine Arts programs in theatre practice.

Students should see the program website for application deadlines and admission terms.

Theatre (Dramatic Writing), MFA (FADRWRTMFA)

Online Degree Search Title: Theatre (Dramatic Writing), MFA

Campus: Tempe

Program Description:

The concentration in dramatic writing under the MFA in theatre will include coursework in playwriting, screenwriting, historical studies in theatre, dramatic theory, directing new work, literary management, electives and related topics such as writing for solo performance, storytelling, devising and collaborative writing.

The School of Film, Dance and Theatre's support for the production of new plays and performance works written by its Master of Fine Arts students is an aspirational model for other institutions. Student-written work is included in the Theatre Labs and is considered for main stage productions.

Degree Requirements:

60 credit hours including the required applied project course (THP 693).

Required Core (27 credit hours)

THE 500 Research Methods (3)

THE 504 Studies in Dramatic Theory and Criticism (3)

THE 520 Theatre History and Literature (3)

THP 560 Dramatic Writer's Workshop

THP 561 Scripts in Progress (3)

Concentration (9 credit hours)

THE 562 Literary Management Workshop (3)

THP 520 Theatre History and Literature (3)

THP 598 Special Topics (3)

Electives (18 credit hours)

Culminating Experience (6 credit hours)

THP 693 Applied Project (6)

Additional Curriculum Information

As part of the electives coursework, students are required to complete an internship (THP 684) for three credit hours.

Students should see the academic unit for a complete list of approved electives.

The student will write a thesis play as the applied project, which will be developed as one of the following:

- ☐ • a full production on the school's main stage
- ☐ • a staged reading
- ☐ • a workshop production

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in theatre or in creative writing from a regionally accredited institution. An applicant may have an undergraduate degree outside of theatre or film and may be admitted on the basis of excellent creative writing and academic work. Deficiencies in undergraduate preparation may be removed while pursuing the MFA degree.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • three letters of recommendation
- ☐ • current resume
- ☐ • statement of career goals
- ☐ • profile of applicant's writing endeavors or interests
- ☐ • manuscript sample of either a full-length play (60 pages or more) or a series of one-act plays (30 pages minimum)
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Theatre (Interdisciplinary Digital Media), MFA (FATHEADMFA)

Online Degree Search Title: Theatre (Interdisciplinary Digital Media), MFA

Campus: Tempe

Program Description:

This graduate concentration is offered through the School of Film, Dance and Theatre in collaboration with the School of Arts, Media and Engineering. It focuses on the growing importance of digital media as a way of making and thinking about art. School of Arts, Media and Engineering courses and research activities prepare students to become sophisticated developers, makers, evaluators and entrepreneurs of digital

media while at the same time completing a sequence of core courses in theatre.

Degree Requirements:

60 credit hours including the required applied project course (THP 693).

The degree requirements are:

Core School of Arts, Media and Engineering courses, to be selected in consultation with each student's School of Arts, Media and Engineering graduate advisor (minimum of 18 credit hours)

Research and Applied Project (15 credit hours)

Core courses in theatre theory, history and practice (27 credit hours)

The overall course of study is developed with the advisor to ensure a breadth of transdisciplinary knowledge.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee.
- ☐ • official transcripts
- ☐ • current resume
- ☐ • statement of purpose
- ☐ • portfolio of materials that support the statement of purpose (writing samples, electronic performance materials, etc.)
- ☐ • three letters of recommendation from professionals familiar with the applicant's work
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The statement of purpose should detail the applicant's background in theatre, as well as the applicant's interest in and suitability for work in the interdiscipline of theatre and digital media.

Applicants should see the program website for application deadlines, but should note that for financial aid purposes, the School of Arts, Media and Engineering deadline is Feb. 1.

Theatre (Performance Design), MFA (FAPERDMFA)

Online Degree Search Title: Theatre (Performance Design), MFA

Campus: Tempe

Program Description:

ASU offers a strenuous and innovative MFA program in theatre with a concentration in performance design that focuses on a nontraditional approach to design training in preparation for the theatrical design challenges of the future. The design student works with an ensemble of designers, directors and performers to create new projects that redefine the role of the traditional designer.

Skills for approaching and creating new work include:

- ☐ • design applications in multimedia

- ☐ • development of artistic entrepreneurship and integrity
- ☐ • drafting and computer imaging
- ☐ • new work development

Performance design students work in multiple venues, including the 481-seat Galvin Playhouse, 164-seat Lyceum Theatre, two studios and one experimental space. In addition, students work in the shops, a design studio and a computer-imaging lab.

Admission to the directing, performance and performance design concentrations is cohort-based.

Degree Requirements:

60 credit hours including the required applied project course (THP 693).

This is a three-year program culminating in an applied project.

- ☐ • Academic and artistic progress is evaluated at the end of each semester by a faculty committee.
- ☐ • A professional internship is required and can be fulfilled anytime after the first year of study.
- ☐ • Students conclude with an applied ensemble design project suited to their needs and interests.
- ☐ • The first year is dedicated to creating an ensemble as well as honing the skills needed to visually communicate ideas to a director and audience.
- ☐ • The second year concentrates on new work development that will culminate in a tour. This year also concentrates on strengthening design abilities.
- ☐ • The third year serves as a bridge between the educational and professional theatre and the communities they serve.

Program continuation is contingent upon a successful review.

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • academic writing sample
- ☐ • current resume
- ☐ • personal interview
- ☐ • portfolio of 10 samples of visual work to be presented at interview
- ☐ • three letters of recommendation from professionals familiar with the student's work
- ☐ • written statement of purpose
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students are admitted to this program every three years, forming a cohort with their colleagues in the other Master of Fine Arts programs in theatre practice.

Students should see the program website for application deadlines and admission terms.

Theatre (Performance), MFA (FAPERFMFA)

Online Degree Search Title: Theatre (Performance), MFA

Campus: Tempe

Program Description:

The MFA program in theatre with a concentration in performance re-envision the role of the artist in society focusing on the devising and development of new work. The program stresses an actor-creator model as well as fostering a critical, conceptual thinker and collaborator by offering skills for developing artistic entrepreneurship, innovating performance applications in multimedia and transdisciplinary collaboration, informed by artistic integrity and social responsibility.

The school offers multiple approaches to new work development:

- ☐ • connected motion
- ☐ • devising
- ☐ • Fitzmaurice voicework
- ☐ • Lecoq
- ☐ • new play development
- ☐ • performance technology
- ☐ • rasaboxes
- ☐ • solo and collaborative performance
- ☐ • Viewpoints

In addition to core physical and vocal training, the program offers a rich variety of guest artists each semester, undergraduate-level teaching opportunities, study abroad opportunities, funding for national and international conference travel, and career development internship opportunities.

During the third year of study, candidates conduct professional career development internships. In the past, students have completed internships at:

- ☐ • Chicago Dramatist Theatre
- ☐ • Cleveland Playhouse
- ☐ • Dah Theatre, Belgrade, Serbia
- ☐ • Hartford Stage
- ☐ • North Coast Rep
- ☐ • One Yellow Rabbit
- ☐ • SITI Company
- ☐ • Synetic Theatre
- ☐ • Theatre L'Homme Dieu
- ☐ • The Bali Purnati Art Centre
- ☐ • Victory Gardens

Eight performers will be admitted to the cohort every three years.

Degree Requirements:

60 credit hours including the required applied project course (THP 693).

This is a three-year program culminating in an applied project.

The first year is dedicated to intensive movement, acting and Fitzmaurice voice training, and ensemble building and devising with a focus on Lecoq, Rasaboxes, Viewpoints and Meisner. The year will culminate in a final site-specific showcase performance.

Second-year training provides opportunities for students to explore their work in a wide range of performance modalities such as community-embedded drama, performance art, solo performance, performance and technology, devising and working with guest artists. Performers collaborate with the MFA designers, directors and playwrights to devise a new scripted performance for the mainstage season.

The third year culminates in an applied performance project serving as a bridge between the educational and professional worlds and the communities they serve.

Students conclude their graduate studies with an applied performance project, specifically suited to their needs and interests. Academic and artistic progress is evaluated at the end of each semester by a faculty committee. Program continuation is contingent upon a successful review. A professional career development internship is required.

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • current resume
- ☐ • statement of purpose
- ☐ • academic writing sample
- ☐ • an audition
- ☐ • an interview, either on campus or at one of the university or resident theatre association sites
- ☐ • three letters of recommendation from professionals familiar with the student's work
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students are admitted to this program every three years, forming a cohort with their colleagues in the other Master of Fine Arts programs in theatre practice.

Theatre (Theatre For Youth), MFA (FAYOUTHMFA)

Online Degree Search Title: Theatre for Youth, MFA

Campus: Tempe

Program Description:

The internationally renowned Theatre for Youth MFA program at ASU features distinguished faculty, excellent facilities, comprehensive coursework and practical experiences in all areas of theatre, educational theatre, community cultural development and theatre for youth. The faculty provide students individualized attention and focused mentorship amid a challenging and supportive atmosphere designed to educate future leaders in the field. Students enrolled in the Master of Fine Arts program in theatre for youth complete their course of study equipped to be engaged and innovative leaders in artistry, scholarship, education and activism.

Students are prepared for careers that include: teacher of artistry, directing and education directing; specialist in arts and civic organizations; teachers in elementary, secondary and tertiary education systems; and careers in social profit organizations and in arts entrepreneurship.

Degree Requirements:

60 credit hours including the required applied project course (THP 693), a written comprehensive exam and an oral comprehensive exam.

This is a three-year program. Required core courses are supplemented by elective courses in an emphasis area. The emphasis areas prepare students for careers in professional theatre, as artists or education directors, specialists in arts organizations, or as teachers in elementary or secondary education. An internship with a professional theatre company, school or arts organization and a final applied project complete the program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • current curriculum vita
- ☐ • statement of purpose
- ☐ • curated arts portfolio
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

A highly competitive program, this degree accepts only a small number of students each year in order to provide highly individualized attention.

The statement of purpose should clearly explain the applicants aesthetic and educational philosophies and future career goals. After reading the statement, the faculty should understand not only the applicant's current passions but also why the theatre for youth program at ASU would be an appropriate fit to meet the student's educational, practical and scholarly goals. The program accepts thoughtful, well-informed artists, scholars, educators and citizens.

The applicant's portfolio should highlight previous work accomplished. Online portfolios are preferred.

The three letters of recommendation should be from professionals familiar with the applicant's work.

High-ranking applicants will be invited to a group interview date, normally scheduled on the first Friday of February.

Applicants should see the program website for application deadlines.

Theatre (Theatre For Youth), PHD (FAYOUTHPHD)

Online Degree Search Title: Theatre for Youth, PhD

Campus: Tempe

Program Description:

The internationally renowned theatre for youth doctoral program at ASU features distinguished faculty, excellent facilities and comprehensive coursework, research guidance and practical experiences in all areas of theatre, educational theatre, community cultural development and theatre for youth. Faculty provide students individualized attention and focused mentorship amid a challenging and supportive atmosphere designed to educate future leaders and researchers in the field. The program's doctoral students complete their course of study equipped to be engaged, thoughtful and innovative leaders in artistry, scholarship, education and research.

Graduates of the theatre for youth program are prepared for careers that include: teacher of artistry, directing and education directing; specialist in arts and civic organizations; member of university and college faculty; career in social profit organizations; and careers in arts entrepreneurship, research and publishing programming.

Degree Requirements:

90 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (30 credit hours)

Research (12 credit hours)

THE 792 Research (12)

Research Methodology (6 credit hours)

Culminating Experience (12 credit hours)

THE 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

In meeting these requirements, students, with the advice of the supervisory committee, may select theatre courses in areas such as: community-based theatre, theatre education, theatre for social change, theatre history, theatre theory and criticism, and tutorial courses.

Students may also take courses outside the School of Film, Dance and Theatre in areas such as aesthetic theory, area studies, children's literature, critical and cultural studies, educational theory and methodology, languages and literatures, arts education, policy research, and democracy studies.

Research methodology coursework is chosen in consultation with the supervisory committee. Where appropriate, the supervisory committee may approve certification of literacy in a foreign language as meeting the research methodology requirement. This approval is granted only in those circumstances wherein fluency in that language is necessary for the dissertation research.

Additional Curricular Requirements:

- ☐ • ongoing reviews of a student's performance in courses and development of research skills, artistic skills and teaching competencies conducted by the supervisory committee at the end of each semester
- ☐ • comprehensive examinations composed of written and oral components centering on theatre history, literature and criticism, theatre for youth and theatre education and the research area
- ☐ • dissertation developed from an approved prospectus, based on original research work of high quality, demonstrating proficiency in the student's special field and adding new knowledge

All activities are selected to help students meet the goals of the program and develop the capability of becoming leaders in the field.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the School of Film, Dance and Theatre.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in theatre or education from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE exam
- ☐ • interview
- ☐ • curriculum vitae
- ☐ • sample of scholarly writing
- ☐ • statement of purpose
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The statement of purpose should explain the applicant's research, artistic and educational philosophies and goals as appropriate to the applicant's desired focus in the doctoral program and how study in the ASU theatre for youth program might particularly suit these goals and philosophies.

Three letters of recommendation from professionals familiar with the applicant's work should address, specifically, the applicant's potential for success in a doctoral program.

Students should see the program website for application deadlines.

Theatre (Theatre/Performance Americas), PHD (FAPERAMPHD)

Online Degree Search Title: Theatre (Performance America), PhD

Campus: Tempe

Program Description:

The PhD in theatre with a concentration in theatre and performance of the Americas is a program that trains scholars to examine the histories, theories and practices associated with cultural performance from a hemispheric point of view. Through coursework, seminars, research and study opportunities, doctoral students work from diverse critical perspectives that mobilize thought across geographical and disciplinary borders. They develop skills to re-examine and interrogate the canon of theatre as text and as performance, expanding the traditional boundaries of theatre studies in two ways: via a perspective that considers the shared histories and practices of theatre and performance in the Americas as central to an intervention in traditionally narrated histories and theories of theatre; and via the methodologies of cultural and performance studies that accommodate other forms of embodied expression related to, but distinct from, formal theatrical expression.

The course of study is designed to provide substantive historical and theoretical grounding in the field, while allowing flexibility in the choice of specialized seminar and practical experiences. The first year of study immerses students in the theoretical and practical groundwork of performance research, in general, and modalities of performance in the Americas, in particular. In the second year, students build on research interests identified in the first year through specialized coursework and practical experience.

Degree Requirements:

90 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (24 credit hours)

Electives (12 credit hours)

Research (12 credit hours)

THE 792 Research (12)

Culminating Experience (12 credit hours)

THE 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Two of the electives courses must come from outside the school (as approved by the supervisory committee).

In meeting these requirements, students, with the advice of the supervisory committee, may select theatre courses in areas such as: community-based theatre, dramaturgy, theatre for social change, theatre history, theatre theory and criticism, and related topics seminars.

Students may also take courses outside the School of Film, Dance and Theatre in areas such as critical and cultural studies, area studies, languages and literatures, and aesthetic theory. All activities are selected to help students meet the goals of the program and develop the capability of becoming leaders in the field.

Preliminary Reviews:

Reviews of the student's performance in courses and development of research skills, artistic skills and teaching competencies are conducted by the supervisory committee at the end of each semester.

Comprehensive Examinations:

Examinations are composed of written and oral components centering on theatre history, literature and criticism, theatre and performance of the Americas and the research area.

Dissertation Requirements:

A dissertation based on original high-quality research work demonstrating proficiency in the student's special field is required.

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a master's degree in a relevant area from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's program and a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • curriculum vitae
- ☐ • GRE scores
- ☐ • sample of scholarly writing
- ☐ • statement of purpose
- ☐ • three letters of recommendation from professionals familiar with the student's work
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The statement of purpose should address the student's background and experiences as they relate to the student's reasons for pursuing the doctorate, describe the student's research interests, and indicate future career goals.

An interview is strongly recommended.

Please see the program website for application deadlines.

Urban Design, MUD (ARMUDMUD)

Online Degree Search Title: Urban Design, MUD

Campus: Tempe

Program Description:

Situated within The Design School, the MUD program is a transdisciplinary postprofessional graduate program integrating newly emerging research and applied practices from the disciplines of architecture, landscape architecture, ecology, law, civil engineering, planning, public programs, systems theory and real estate development with the ever-changing realities of our larger world. The program leverages our local Arizona conditions --- our rapidly urbanizing metropolis, arid climate, cultural diversity and our New American University --- toward the development of responsible global initiatives and innovative design strategies for urban environments.

The curriculum is built around the analysis and understanding of contemporary urban conditions specific to rapidly urbanizing and arid regions of the world.

Degree Requirements:

45 credit hours and a thesis, or 45 credit hours including the required applied project course (MUD 593), or 45 credit hours including the required capstone course (MUD 622).

Students should see the academic unit for the course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • portfolio
- ☐ • letter of intent
- ☐ • three references
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English is required to submit proof of English Proficiency through either the TOEFL or the IELTS. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based) on the TOEFL or an overall band score of 6.5 on the IELTS. Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Applicants who hold a studio-based four-year undergraduate design degree will be considered for the two-year MUD program. The Master of Urban Design is a postprofessional program.

Applicants must hold an undergraduate or graduate degree from a college or university recognized by ASU in a studio-based design discipline.

Applicants must provide an official copy of GRE scores (unofficial copies will not be accepted). For more information, students should visit the GRE website or <https://uoeee.asu.edu/testing> (<https://uoeee.asu.edu/testing>).

The portfolio, letter of intent and contact information for three references need to be submitted to SlideRoom (<https://asudesign.slideroom.com> (<https://asuherberger.slideroom.com>)). The Design School requires that these be submitted in addition to the graduate admission application requirements.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted; otherwise, they will need to go through the entire application process again for the year in which they are applying.

Applicants may be admitted to the two-year program with deficiencies if their previous coursework is not equivalent to the ASU undergraduate requirements and standards. Deficiencies must be completed prior to taking the required courses, if necessary. This may cause the student to take longer than two years to complete the program.

A personal interview is not required; however, a candidate wishing to visit the school is welcome, and the candidate should make arrangements by contacting the department.

Visual Communication Design, MVCD (HIVCDMVCD)

Online Degree Search Title: Visual Communication Design, MVCD

Campus: Tempe

Program Description:

The MVCD is a studio-based degree program.

Students of this program work on strategic visual communication design projects with a focus on the development of visual language systems firmly grounded on the principles of information design, typography and interaction design. Students engage in visual and theoretical research, ideation, visualization, prototyping and testing of creative solutions that address critical problems faced in the contemporary visual world. Graduates of this program are adept in working with fundamental principles of visual communication design, emotional intelligence and systems thinking in problem identification and its appropriate contextual solutions.

The graduates pursue professional practice in visual communication and multimedia industry as well as in academia.

Degree Requirements:

60 credit hours including the required capstone course (GRA 622).

Required Core (43 credit hours)

Electives (6 credit hours)

Other Requirement (6 credit hours)

GRA 581 Internship in Teaching Design (3)

GRA 584 Internship (3)

Culminating Experience (5 credit hours)

GRA 622 Advanced Visual Communication Design Studio IV (5)

Additional Curriculum Information

The Master of Visual Communication Design program includes sequential studio courses. Requirements involve an average of 14 credit hours per semester. A summer internship is required during the summer prior to the final year.

The three-plus-year program adds the following requirement to the plan of study: deficiency courses (42 credit hours).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Herberger Institute for Design and the Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Please see below for information on the qualifications for a two-year program of study or a three-plus-year program of study.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • additional required application items submitted to SlideRoom (see below)
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency through either the TOEFL or the IELTS. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based) on the TOEFL or an overall band score of 6.5 on the IELTS. Additional information can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

A portfolio, letter of intent, resume, and contact information for three references need be submitted to SlideRoom (<https://asudesign.slideroom.com> (<https://asuherberger.slideroom.com>)). The Design School requires that these be submitted in addition to the Graduate College application requirements.

Admission to the program is selective. Admission cannot be deferred. Students must enroll in the semester for which they are admitted; otherwise, they will need to go through the entire application process again for the year in which they are applying.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Admission Requirements to the Two-Year Program

All applicants must have completed a minimum of a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing in visual communication design or graphic design.

Admission Requirements to the Three-Plus-Year Program

All applicants must have earned a bachelor's degree (or equivalent) in a field other than in visual communication design or graphic design.

Applicants may be admitted to the two-year program with deficiencies if their previous coursework is not equivalent to the ASU undergraduate requirements and standards. Deficiencies must be completed prior to taking the required courses, if necessary. This may cause the student to take longer than two years to complete the program.

Engineering, Ira A. Fulton Schools of

Aerospace Engineering, MS (ESAEROSPMS)

Online Degree Search Title: Aerospace Engineering, MS

Campus: Tempe

Program Description:

The MS program in aerospace engineering prepares engineers for doctoral study or industrial positions that specialize in research, project management and product innovation in aerospace engineering. The program stresses a sound foundation in technical fundamentals, communication and professionalism. To this end, a broad-based curriculum is offered in design, system dynamics and control; fluid mechanics science and engineering; mechanics and dynamics of solids and structures; and transport phenomena, thermodynamics, and energy.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Aerospace Engineering (Aeronautics), BSE
- Aerospace Engineering (Astronautics), BSE
- Aerospace Engineering (Autonomous Vehicle Systems), BSE
- Mechanical Engineering, BSE
- Mechanical Engineering (Computational Mechanics), BSE
- Mechanical Engineering (Energy and Environment), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (MAE 593).

The aerospace engineering Master of Science program offers two options: a thesis option and a nonthesis option. All students are admitted to the nonthesis option unless a faculty thesis advisor is secured, at which time the student can initiate a change to the thesis option.

The plan of study must be in accordance with university and program requirements. A minimum cumulative GPA of 3.00 (scale is 4.00 = "A") is required throughout the program. Candidates for the program must complete a minimum of 30 credit hours of courses at the 500 level and above, with a minimum cumulative GPA of 3.00 or above in the following courses:

- ☐ • at least 12 credit hours of graduate MAE coursework (500 level and above) for thesis students; at least 15 credit hours of graduate MAE coursework (500 level and above) for nonthesis students
- ☐ • at least six credit hours of graduate mathematics-oriented courses (500 level and above)
- ☐ • at least six credit hours of additional graduate (500 level and above) courses, which are not restricted to MAE courses or to other technical electives
- ☐ • six credit hours of MAE 599 Thesis for thesis students or three credit hours of additional graduate electives (500 level and above) for portfolio students

A final defense of the thesis will be required for students in the thesis option.

A maximum of 3 credit hours of MAE 584 Internship may be counted toward this requirement.

These additional three hours of graduate electives are not restricted to MAE courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official GRE score
- ☐ • personal statement
- ☐ • resume or curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

Admission to the aerospace engineering graduate program is highly competitive.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency via a minimum score of 80 on the Internet-based TOEFL.

Admission to the 4+1 degree program requires a 3.50 ASU GPA (scale is 4.00 = "A") in degree-applicable courses. All applications are subject to review, and admission is not guaranteed.

Applicants should see the program website for application deadlines.

Aerospace Engineering, PHD (ESAERSPPHD)

Online Degree Search Title: Aerospace Engineering, PhD

Campus: Tempe

Program Description:

The PhD program in aerospace engineering emphasizes original research and provides students with a strong background for employment by academic institutions, government laboratories and industrial research laboratories with a focus on aerospace engineering. The program stresses a sound foundation in technical fundamentals, communication and professionalism. To this end, a broad-based curriculum is offered in design, system dynamics and control; fluid mechanics science and engineering; mechanics and dynamics of solids and structures; and transport phenomena, thermodynamics, and energy. Modern computational and laboratory facilities are available to support timely research investigations.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

84 credit hours

qualifying exam

written and oral comprehensive exams

prospectus

dissertation

All students pursuing the PhD are required to pass both a qualifying and a comprehensive examination administered by the program committee. In addition, the following are required:

coursework directly related to the research area (18)

mathematics (9)

graduate courses outside the major research area (9)

MAE 792 Research

MAE 799 Dissertation credit hours (12)

Students in the doctoral program who have not completed an MS degree previously will be allowed to apply for a Master of Science in Passing after

successfully completing the comprehensive exams.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from an accredited U.S. or international institution.

Applicants must have a minimum of a 3.25 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.25 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • personal statement
- ☐ • resume or curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency via a minimum of score of 80 on the Internet-based TOEFL.

Admission to the aerospace engineering doctoral program is highly competitive. The admission process considers all aspects of the student's application. The typical successful applicant has at least a 3.25 cumulative GPA (scale is 4.00 = "A") in engineering and science coursework in a bachelor's or master's degree program and has high GRE and TOEFL scores.

Students should see the program website for application deadlines.

Applied Ethics and the Professions (Ethics and Emerging Technologies), MA (LAAEPEETMA)

Online Degree Search Title: Applied Ethics (Ethics and Emerging Technologies), MA

Campus: Tempe

Program Description:

The purpose of this program is to examine ethical challenges posed by emerging technologies, including nanotechnology, neurotechnology, biotechnology, robotics and advanced information and communication technology. Not only are these technologies being developed at an unprecedented pace, they also share several unique characteristics, including system complexity, social embeddedness and the potential to converge with one another. Emerging technologies will change how humans live and work and have the potential to alter the very nature of human existence. Challenges considered by courses in the program include:

- ☐ • emerging technologies and public policy
- ☐ • ethical responsibilities of professionals engaged in development of emerging technologies
- ☐ • promise and perils of emerging technologies
- ☐ • whether traditional ethical concepts and processes can and should be applied to emerging technologies

Degree Requirements:

30 credit hours including the required applied project course (AEP 593).

Required Core (6 credit hours)

Concentration (3 credit hours)

Elective (15 credit hours)

Culminating Experience (6 credit hours)

AEP 593 Applied Project (6)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official GRE scores sent directly to Graduate Admission Services
- ☐ • statement of interest in applied ethics and career goals
- ☐ • three letters of recommendation

Additional Application Information

Applicants whose native language is not English (regardless of current residency) must demonstrate proficiency in the English language by meeting the Graduate College English proficiency requirements. Applicants required to demonstrate English proficiency and seeking a teaching assistantship must demonstrate proficiency in spoken English; a score of 55 or better on the Speaking Proficiency English Assessment Kit or a score of 26 on the speaking portion of the TOEFL is required.

Biological Design, PHD (GCBDSPHD)

Online Degree Search Title: Biological Design, PhD

Campus: Tempe

Program Description:

The doctoral program in biological design seeks to develop a new type of scientist by training students in core disciplines related to biomedicine and biotechnology while simultaneously preparing them to participate successfully in the interdisciplinary research teams of the future.

The research emphasis is on projects that are use-inspired, contributing directly to solutions for important societal challenges. This is a highly mentored program of personalized study that provides significant interaction with the large and vibrant local research community. Students are expected to complete the program in four to five years.

There are four key distinguishing features of the curriculum:

- ☐ • a personalized plan of study that allows students to explore the disciplinary and interdisciplinary areas of greatest interest
- ☐ • encouragement to choose dissertation research projects that are use-focused, contribute to solving a large-scale challenge and promise rich transdisciplinary experiences
- ☐ • opportunities to participate in a proseminar format to encourage broad research interactions and discuss problems and challenges in biological design research
- ☐ • three 10-week laboratory rotations during the first year of study

Rotations can be in any ASU laboratory that is centered largely on biological research.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (20 credit hours)

BDE 701 Fundamentals of Biological Design I (9)

BDE 702 Fundamentals of Biological Design II (3)

BDE 721 Integrative Research (3)

BDE 722 Research Design (3)

BDE 751 Teaching in Science (2)

Other Requirements

BDE 791 Seminar (must have 4 credit hours minimum)

BDE 792 Research (1 credit hour minimum every semester)

Specialized Disciplinary Courses (must have 6 credit hours minimum)

Culminating Experience (12 credit hours)

BDE 799 Dissertation (12)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • three letters of recommendation
- ☐ • personal statement
- ☐ • resume
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

For GRE test scores, the institution code for ASU is 4007 and the departmental code is 0000. Subject test scores are also recommended but not required.

Three letters of recommendation relative to the candidate's academic career are required. The personal statement should reflect the candidate's career and educational goals and should explain why the candidate is interested in pursuing this degree. The resume should include prior research and employment experience, honors, awards, memberships held, publications, etc.

For additional admission requirements, including transcripts, fees and international application requirements, students should see the Graduate Admission Services website.

Students should see the program website for application deadlines.

Biomedical Engineering, MS (ESBIOENMS)

Online Degree Search Title: Biomedical Engineering, MS

Campus: Tempe

Program Description:

The School of Biological and Health Systems Engineering faculty offer a graduate program leading to the MS in biomedical engineering.

Areas of study include:

- ☐ • biomaterials, biosensors, biomarkers and biomimetic materials
- ☐ • biomedical imaging
- ☐ • molecular, cellular and tissue engineering
- ☐ • neural and rehabilitation engineering
- ☐ • synthetic and systems biology

Biomedical engineering offers an accelerated BSE and MS in the biomedical engineering degree program for students in the Bachelor of Science in Engineering program who have maintained a GPA of 3.50 (scale is 4.00 = "A") into their junior year. The program allows up to 12 credit hours of graduate-level coursework taken as technical electives during the senior year to be applied toward both the undergraduate and graduate degrees.

Accelerated Degrees:

This degree is also offered in an accelerated format with Biomedical Engineering, BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (BME 593).

All candidates pursuing a master's degree in biomedical engineering are required to complete an approved plan of study. Special course requirements for the different areas of study are established by the faculty.

A candidate whose undergraduate degree is in a field other than biomedical engineering may be required to complete more than the required credit hours of the program of study.

The following are program requirements for the applied project option, for a total of 30 credit hours:

biomedical engineering coursework (13)
biomedical engineering seminar (2)
general electives (6)
quantitative electives (6)
applied project (3)

The following are program requirements for the thesis option, for a total of 30 credit hours:

biomedical engineering coursework (9)
biomedical engineering seminar (3)
general electives (6)
quantitative electives (6)
thesis (6)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official GRE scores
- ☐ • resume or curriculum vitae
- ☐ • a statement of purpose
- ☐ • two letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Biomedical Engineering, PHD (ESBIOENPHD)

Online Degree Search Title: Biomedical Engineering, PhD

Campus: Tempe

Program Description:

The School of Biological and Health Systems Engineering faculty offer a graduate program leading to the PhD in biomedical engineering.

Areas of study include:

- ☐ • biomaterials, biosensors, biomarkers and biomimetic materials
- ☐ • biomedical imaging
- ☐ • molecular, cellular and tissue engineering
- ☐ • neural and rehabilitation engineering
- ☐ • synthetic and systems biology

The doctoral degree in biomedical engineering is conferred upon evidence of excellence in research resulting in a scholarly dissertation that is a contribution to knowledge.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Bioengineering Courses (at least 18 credits)

Doctoral students are required to complete six credits from each of the following three areas:

BME graduate courses (BME prefix) (6)

life science/biology graduate courses (6)

quantitative math or engineering (6)

Other Requirement (3 credit hours)

BME 780 Teaching Practicum (3)

Technical Electives

No fewer than nine credit hours of coursework (as determined by the student's supervisory committee) must be selected from the list of 400- to 700-level courses that are not selected as required BME courses.

Research (37 credit hours)

BME 792 Research (37)

Seminar (5 credit hours)

BME 591 (5)

Culminating Experience (12 credit hours)

BME 799 Dissertation (12)

Additional Curricular Requirements

Up to six credit hours of the required biomedical engineering courses and technical electives combined may be at the 400 level.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official GRE scores
- ☐ • a statement of purpose
- ☐ • resume or curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students should view the School of Biological and Health Systems admissions checklist on the Arizona State University website for specific admission procedures and deadlines.

Chemical Engineering, MS (ESCHEMEMS)

Online Degree Search Title: Chemical Engineering, MS

Campus: Tempe

Program Description:

The chemical engineering faculty offer a graduate program leading to the MS in chemical engineering.

Areas of research emphasis include but are not limited to:

- ☐ • atmospheric aerosols
- ☐ • biomolecular engineering
- ☐ • biosensors
- ☐ • chemical therapies for neurodegenerative diseases
- ☐ • composite material synthesis and characterization
- ☐ • electrochemistry
- ☐ • electronic materials processing
- ☐ • engineering education
- ☐ • flexible display technology
- ☐ • fuel cells
- ☐ • inorganic membranes
- ☐ • process design and operations
- ☐ • protein synthesis
- ☐ • surface, interface and colloidal science
- ☐ • transport phenomena in living systems
- ☐ • water purification

A graduate handbook detailing information on graduate studies in chemical engineering is available on the school website. Students should contact the SEMTE Graduate Advising Office for additional details.

Accelerated Degrees:

This degree is also offered in an accelerated format with Chemical Engineering, BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (CHE 593).

Required Core (9 credit hours)

CHE 533 Transport Processes I (3)

CHE 543 Thermodynamics of Chemical Systems (3)

CHE 544 Chemical Reactor Engineering (3)

Technical Electives (6 or 9 credit hours)

Electives (6 or 12 credit hours)

Other Requirement (3 credit hours)

CHE 591 Seminar (3)

Culminating Experience (3 or 6 credit hours)

CHE 593 Applied Project (3)

CHE 599 Thesis (6)

Additional Curriculum Information

This degree has two options: a thesis option and a nonthesis option. The nonthesis option has an applied project. Both options require a faculty advisor. All admitted students are assumed to be in a nonthesis option until a faculty advisor has been secured. All candidates for the master's degree in chemical engineering are required to complete an approved plan of study.

The composition of the technical electives will vary based on each student's final culminating experience. At least one technical elective course (three credit hours) must be taken from outside of chemical engineering. CHE 590 Reading and Conference may be taken as a technical elective only once, for a maximum of three credit hours. Thesis-based students must select a minimum of nine credit hours of technical electives and may apply three credit hours of CHE 592 Research toward the nine credit hours of technical electives. Students who are pursuing the applied project option must register for three credit hours of CHE 593 and will have to complete a total of six credit hours of technical electives.

Students who are in the applied project option take 12 credit hours of open electives and students in the thesis option take 6 credit hours of open electives. Please see the academic unit to ensure the elective coursework is appropriate for the program before registering for these courses. The academic unit must approve all open elective coursework to include on the plan of study.

All full-time chemical engineering graduate students are required to successfully complete the CHE 591 seminar course during every semester of residence. Part-time students are required to complete CHE 591 at least three times. Only three credit hours of seminar apply toward the master's degree regardless how many times it is taken. A candidate whose undergraduate degree was in a field other than chemical engineering may be required to complete more than 33 credit hours.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.50 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.50 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official GRE score
- ☐ • personal statement
- ☐ • resume or curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency via a minimum score of 100 on the Internet-based TOEFL.

Admission to the 4+1 degree program requires a 3.5 ASU GPA (scale is 4.00 = "A") in degree applicable courses. All applications are subject to review and admission is not guaranteed.

Students should see the program website for application deadlines.

- ☐ • process design and operations
- ☐ • protein synthesis
- ☐ • polymers and polymer composites
- ☐ • surface, interface and colloidal science
- ☐ • transport phenomena in living systems
- ☐ • water purification

A graduate handbook detailing information on graduate studies in chemical engineering is available on the school website. Students should contact the SEMTE Graduate Advising Office for additional details.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (9 credit hours)

CHE 533 Transport Processes I (3)

CHE 543 Thermodynamics of Chemical Systems (3)

CHE 544 Chemical Reactor Engineering (3)

Technical Electives (18 credit hours)

Other Requirements (5 credit hours)

CHE 591 Seminar (5)

Research (12 credit hours)

CHE 792 Research (12)

Additional Research/Electives (28 credit hours)

Culminating Experience (12 credit hours)

CHE 799 Dissertation (12)

Additional Curriculum Information

Technical electives are from within or outside chemical engineering program.

Admission Requirements:

Applicants must fulfill both the requirements of the Graduate College and those of the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • personal statement
- ☐ • resume or curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) is required to achieve a minimum score of 100 on the Internet-based TOEFL.

Students should see the program website for application deadlines.

Civil, Environmental and Sustainable Engineering, MS (ESCIVILMS)

Online Degree Search Title: Civil, Environmental, and Sustainable Engineering, MS

Campus: Tempe

Program Description:

The faculty in civil, environmental and sustainable engineering offer a graduate program leading to an MS in civil, environmental and sustainable engineering. The program is designed to enhance the knowledge gained in the undergraduate program by requiring the students to understand and practice fundamental concepts in engineering, mathematics and the basic sciences.

The pattern of coursework applicable to the degree is potentially unique for each student, although it must conform to the general guidelines for subject matter content for the degree as authorized here and on the program's website. Students are admitted to one of the following specialty areas:

- ☐ • environmental engineering
- ☐ • geotechnical engineering
- ☐ • hydrosystems engineering
- ☐ • structural engineering
- ☐ • sustainable engineering
- ☐ • transportation engineering

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Civil Engineering, BSE
- Civil Engineering (Environmental Engineering), BSE
- Civil Engineering (Sustainable Engineering), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a applied project (CEE 593), or 30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam.

All candidates for the master's degree thesis option are required to complete 24 credit hours of approved graduate coursework and a minimum of six credit hours of CEE 599 Thesis. The written thesis must be original research in nature. Additional courses may be assigned by the graduate supervisory committee, depending on the background of the candidate. A final oral examination in defense of the thesis written work is required.

Candidates in the applied project option must complete 27 credit hours of approved graduate coursework and three credit hours of CEE 593 applied project.

Candidates in the comprehensive exam option must complete 30 credit hours of approved graduate coursework and complete a written comprehensive exam.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to this program if they have earned a bachelor's or master's degree with a major in engineering or a closely related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program. Applicants with a lower GPA may be provisionally admitted at the discretion of the admission committee.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

The student's credentials for admission are evaluated by the graduate program chair and a committee chaired by the specialty area coordinator. A student whose undergraduate degree is not in civil engineering is required to take appropriate undergraduate courses as deficiency courses to establish a base of knowledge in the discipline. Deficiencies for admission to the graduate degree programs are specified at the time of admission, and details can be obtained at the graduate studies section of the program's website.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Those seeking a teaching assistantship must demonstrate proficiency in spoken English with a score of 55 or better on the Speaking Proficiency English Assessment Kit or a score of 26 on the speaking portion of the TOEFL.

Prospective students should note the following two requirements need to be met for consideration for admission: minimum score in the quantitative section of 155 and minimum combined score for the quantitative and verbal sections of 301. More information regarding how to send official GRE scores is on the Graduate Admission Services website.

Applicants are encouraged to submit a resume and personal statement.

Civil, Environmental and Sustainable Engineering, MSE (ESCIVILMSE)

Online Degree Search Title: Civil, Environmental and Sustainable Engineering, MSE

Campus: Tempe, Online

Program Description:

The faculty in civil, environmental and sustainable engineering offer a professional program leading to an MSE in civil, environmental and sustainable engineering. The program is designed to bridge the gap between knowledge of engineering sciences and creative engineering practice while at the same time increasing the depth and breadth of knowledge in selected areas of emphasis.

The pattern of coursework applicable to the degree is potentially unique for each student, although it must conform to the general guidelines for subject matter content for the degree as authorized here, on the program's website and in the program's graduate handbook. Students are admitted

to one of the following specialty areas:

- ☐ • environmental engineering
- ☐ • geotechnical engineering
- ☐ • hydrosystems engineering
- ☐ • structural engineering
- ☐ • sustainable engineering
- ☐ • transportation engineering

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Civil Engineering, BSE

Civil Engineering (Environmental Engineering), BSE

Civil Engineering (Sustainable Engineering), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a written comprehensive exam.

All candidates for the master's degree are required to complete approved graduate coursework.

Additional courses may be assigned by the graduate supervisory committee depending on the background of the candidate.

Details of the comprehensive written examinations for the different specialty areas can be obtained at the graduate studies section of the program's website.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and those of the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, with a major in engineering or a closely related program, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Those seeking a teaching assistantship must demonstrate proficiency in spoken English with a score of 55 or better on the Speaking Proficiency English Assessment Kit or a score of 26 on the speaking portion of the TOEFL.

A student whose undergraduate degree is not in civil engineering is required to take appropriate undergraduate courses as deficiency courses to establish a base of knowledge in the discipline. Deficiencies for admission to the graduate degree programs are specified at the time of admission and details can be obtained at the graduate studies section of the program's website.

Applicants with a lower GPA may be provisionally admitted at the discretion of the admission committee.

Prospective students should note that GRE scores are used in the admission decision. The average scores for those who were admitted to the graduate programs over the last five years are 732 for MS/MSE and 751 for PhD (GRE General Test) or 157 for MS/MSE and 159 for PhD (GRE revised General Test) in the quantitative section; 1203 for MS/MSE and 1239 for PhD (GRE General Test) or 308 for MS/MSE and 311 for PhD (GRE revised General Test) as combined quantitative and verbal scores.

More information regarding how to send official GRE scores to the Graduate College can be found at <https://students.asu.edu/graduate/faqs> (<https://students.asu.edu/graduate/faqs>).

Students' credentials for admission are evaluated by the graduate program chair and a committee chaired by the specialty area coordinator.

Civil, Environmental and Sustainable Engineering, PHD (ESCIVILPHD)

Online Degree Search Title: Civil, Environmental and Sustainable Engineering, PhD

Campus: Tempe

Program Description:

The faculty in civil, environmental and sustainable engineering offer a graduate program leading to the PhD in civil, environmental and sustainable engineering. A broad range of theoretical and experimental research programs have been established in civil and environmental engineering to prepare graduate students for careers in professional practice and research. These programs are constantly evolving with the changes in society and the profession, and many are transdisciplinary in nature.

The pattern of coursework applicable to the degree is potentially unique for each student, although it must conform to the general guidelines for subject matter content for the degree as authorized here and in the program's graduate handbook. Students are admitted to one of the following specialty areas:

- ☐ • environmental engineering
- ☐ • geotechnical engineering
- ☐ • hydrosystems engineering
- ☐ • structural engineering
- ☐ • sustainable engineering
- ☐ • transportation engineering

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

All candidates for the doctorate are required to complete 84 approved graduate credit hours; of these, 30 credit hours can be from the previously awarded master's degree. Additional graduate credit work may be assigned by the graduate supervisory committee, depending on the background of the candidate.

The graduate credit hours must include a minimum of 12 credit hours of research and 12 credit hours of dissertation work.

This degree also requires written and oral comprehensive examinations and approval of the dissertation prospectus for the student to be eligible for doctoral candidacy.

After entering candidacy, students complete their research, write and successfully defend their written dissertation.

A final oral examination in the defense of the dissertation work is required for all students.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a master's degree in engineering or a closely related master's degree program, from a regionally accredited institution. Exceptionally qualified students with a bachelor's degree may be admitted to the doctoral program.

Applicants must have a minimum of a 3.20 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.20 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • three letters of recommendation
- ☐ • a resume

- • a personal statement
- • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Those seeking a teaching assistantship must demonstrate proficiency in spoken English with a score of 55 or better on the Speaking Proficiency English Assessment Kit or a score of 26 on the speaking portion of the TOEFL.

A student whose undergraduate or master's degree is not in civil engineering is required to take appropriate undergraduate or graduate courses as deficiency courses, to establish a base of knowledge in the discipline. Deficiencies for admission to the program are specified at the time of admission, and details can be obtained at the graduate studies section of the program's website.

Prospective students should note that GRE scores are used in the admission decision. The average scores for those who were admitted to the graduate programs over the last five years are 732 for MS/MSE and 751 for PhD (GRE General Test) or 157 for MS/MSE and 159 for PhD (GRE revised General Test) in the quantitative section; 1203 for MS/MSE and 1239 for PhD (GRE General Test) or 308 for MS/MSE and 311 for PhD (GRE revised General Test) as combined quantitative and verbal scores. More information regarding how to send official GRE scores to Graduate Admission Services can be found at <https://students.asu.edu/graduate/faqs> (<https://students.asu.edu/graduate/faqs>).

Students credentials for admission are evaluated by the graduate program chair and a committee chaired by the specialty area coordinator.

Computer Engineering (Computer Systems), MS (ESCENCMS)

Online Degree Search Title: Computer Engineering (Computer Systems), MS

Campus: Tempe

Program Description:

Computer engineering is a transdisciplinary program that builds on the fundamentals of computer science, electrical engineering, industrial engineering and applied mathematics. Graduates of this program will have the knowledge and skills necessary to advance the design, system integration, testing, evaluation and deployment of the state-of-the-art hardware and software for systems that include computing, communications and networking (wired and wireless), control functions, sensing, signal processing and actuation.

The MS program is intended for students who want to gain knowledge deeper than that provided at the bachelor's degree level and sufficient for designing and implementing state-of-the-art systems in industrial research and development positions. The program is also appropriate for students contemplating future doctoral study and desiring to gain experience in research. Master's degree program graduates may work under the direction of scientists and engineers who hold doctorates in high-tech lab settings assisting in developing innovative products and systems that require strong foundational knowledge in the underlying sciences and the ability to synthesize and analyze engineering principles as they relate to the development of new computer engineering technology.

Accelerated Degrees:

This degree is also offered in an accelerated format with Computer Systems Engineering, BSE. Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam.

Required Core (6 credit hours)

EEE 554 Random Signal Theory (3)

CSE 551 Foundations of Algorithms (3)

Electives (18-24 credit hours)

Culminating Experience (0-6 credit hours)

CEN 599 Thesis (6) or

written comprehensive exam

Additional Curriculum Information

This program has a thesis and a nonthesis option for the culminating experience. Students in the nonthesis option take 24 credit hours of electives and students in the thesis option take only 18 credit hours to reach the 30 credit hour requirement. Electives are selected in consultation with the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or a master's degree from a regionally accredited college or university of recognized standing in a related field such as computer engineering, computer science, computer systems engineering or electrical engineering.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • personal statement that indicates professional goals and reasons for desiring to enroll in the program
- ☐ • three letters of recommendations
- ☐ • official transcripts
- ☐ • GRE required if undergraduate program is not ABET-accredited (<http://www.abet.org/> (<http://www.abet.org/>))
- ☐ • proof of English language proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency via a TOEFL score. Students should see <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>) for more information.

Depending on prior academic preparation and accomplishments of an applicant, the program recommends that students consider taking the following courses to ensure adequate background preparation:

CSE 230 Computer Organization and Assembly Language Programming

CSE 310 Data Structures and Algorithms

EEE 203 Signals and Systems I

EEE 335 Analog and Digital Circuits

MAT 243 Discrete Mathematical Structures

A reading list of the topics covered in the placement exam will be provided in advance.

Students should see the program website for application deadlines.

Computer Engineering (Computer Systems), PHD (ESCENCPHD)

Online Degree Search Title: Computer Engineering (Computer Systems), PhD

Campus: Tempe

Program Description:

Computer engineering is a transdisciplinary program that builds on the fundamentals of computer science, electrical engineering, industrial engineering and applied mathematics. Graduates of this program will have the knowledge and skills necessary to fundamentally advance and develop new paradigms for the design, system integration, testing, evaluation and deployment of state-of-the-art hardware and software for systems that include computing, communications and networking (wired and wireless), control functions, sensing, signal processing and actuation.

The PhD program is intended for students with excellent ability in mathematics and physical science who are interested in gaining an in-depth knowledge of the foundational principles of engineering and pursuing a career in academia, research or highly technical entrepreneurial innovation.

This doctoral program provides a broader and more in-depth preparation than the MS programs, in anticipation of a demonstrated ability to

independently pursue more creative and substantive innovation with higher impact.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

EEE 554 Random Signal Theory (3)

CSE 551 Foundations of Algorithms (3)

Concentration and Electives (54 credit hours)

Research (12 credit hours)

CEN 792 Research (12)

Culminating Experience (12 credit hours)

CEN 799 Dissertation (12)

Additional Curriculum Information

Concentration and elective courses are selected in consultation with the academic unit. Students must complete at least 18 credit hours of approved graduate courses from science, engineering. Additionally, students must complete at least 24 credit hours of approved computer engineering area courses, 12 credit hours of which must be courses noted with M* or D* from the six computer engineering areas, with no more than six credit hours noted with M*.

A maximum of six credit hours of CEN 790 Reading and Conference may be applied to the plan of study.

For more information, students should visit <https://cidse.engineering.asu.edu/forstudent/prospective-students/computer-engineering/> (<https://cidse.engineering.asu.edu/forstudent/prospective-students/computer-engineering/>).

Admission Requirements:

Applicants must fulfill both the requirements of the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited institution of recognized standing in a related field such as computer engineering, computer science, computer systems engineering or electrical engineering.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • personal statement
- ☐ • three letters of recommendation
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. The TOEFL is required for an applicant whose native language is not English: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

The personal statement should explain the professional goals and reasons for desiring to enroll in the doctorate program, as well as describing any research experiences and indicating personal research interest.

GRE scores are required if the student's undergraduate program is not ABET-accredited; <http://www.abet.org> (<http://www.abet.org>).

Depending on prior academic preparation and accomplishments of an applicant, it is recommended that students consider taking the following courses to ensure adequate background preparation:

CSE 230 Computer Organization and Assembly Language Programming

CSE 310 Data Structures and Algorithms

EEE 203 Signals and Systems I

Computer Science, MCS (ESCOMSCMCS)

Online Degree Search Title: Computer Science, MCS

Campus: Tempe

Program Description:

The MCS degree is an advanced degree program targeted at students with an undergraduate education in computing and related disciplines who can best profit from further breadth and background in computer science. The MCS program also affords an opportunity for students employed in industry to seek a breadth of advanced education in computer science.

The program reflects the dual nature of computer science as both a scientific and engineering discipline by allowing emphasis on theory as well as practical applications. Students can study topics such as:

- ☐ • artificial intelligence
- ☐ • bioinformatics
- ☐ • cloud and distributed computing
- ☐ • computer-aided geometric design
- ☐ • computer design and architecture
- ☐ • computer graphics
- ☐ • computer networks
- ☐ • cyber-physical and embedded systems
- ☐ • database management and information retrieval
- ☐ • database systems
- ☐ • data mining and machine learning
- ☐ • distributed computing and operating systems
- ☐ • embedded systems
- ☐ • health operations and informatics
- ☐ • imaging, graphics and visualization
- ☐ • information assurance
- ☐ • information assurance and security
- ☐ • intelligent information integration
- ☐ • multimedia
- ☐ • network algorithms
- ☐ • personalized learning and educational games
- ☐ • simulation modeling and systems
- ☐ • social computing
- ☐ • software engineering
- ☐ • statistical modeling
- ☐ • theory and algorithms

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Computer Science, BS
- Computer Science (Information Assurance), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Information Assurance), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their

academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio.

Required Core Areas (9 credit hours)

applications (3)

foundations (3)

systems (3)

Electives or Research (21 credit hours)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each core area in applications, foundations, and systems.

Students choose 21 credit hours of other elective or research coursework approved by their academic advisor. Coursework selected as part of the area core may not be used as elective coursework on the same plan of study.

At least 24 of these hours must be CSE 5XX credits at ASU. A maximum of four CSE 598 courses are allowed as elective coursework, which cannot include courses taken at the undergraduate level. Up to six credit hours of 400-level courses may be applied to the plan of study. All 30 semester hours must be from formal coursework. CSE 590 will not be allowed as part of the MCS program plan of study.

All MCS program students must complete a project portfolio from three courses in which the student received a "B" (3.00) grade or higher.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related area from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • a statement of purpose
- ☐ • scores for the GRE, unless the student has graduated with an undergraduate degree in computer science or computer systems engineering at ASU
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of their current residency) must provide proof of English proficiency.

If the student is assigned any deficiency coursework upon admission, those classes must be completed with a grade of "B" (3.00) or higher within two semesters of admission to the program. Deficiency courses are:

CSE 230 Computer Organization and Assembly Language Programming (3)

CSE 310 Data Structures and Algorithms (3)

CSE 330 Operating Systems (3)

CSE 340 Principles of Programming Languages (3)

CSE 355 Introduction to Theoretical Computer Science (3)

CSE 360 Introduction to Software Engineering (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Students interested in applying to the program must submit an online application to Graduate Admission Services. Students should see the program website for application deadlines.

Computer Science, MS (ESCOMSCMS)

Online Degree Search Title: Computer Science, MS

Campus: Tempe

Program Description:

The MS in computer science is a research-oriented degree program targeted toward students with an undergraduate education in the science of computation. It provides instruction in advanced coursework and emphasizes research by the student. Students can conduct cutting-edge research in a wide variety of research areas including:

- ☐ • artificial intelligence
- ☐ • bioinformatics
- ☐ • cloud and distributed computing
- ☐ • computer design and architecture
- ☐ • computer graphics
- ☐ • computer networks
- ☐ • computer-aided geometric design
- ☐ • cyber-physical and embedded systems
- ☐ • data mining and machine learning
- ☐ • database management and information retrieval
- ☐ • database systems
- ☐ • distributed computing and operating systems
- ☐ • embedded systems
- ☐ • health operations and informatics
- ☐ • imaging, graphics and visualization
- ☐ • information assurance
- ☐ • information assurance and security
- ☐ • intelligent information integration
- ☐ • multimedia
- ☐ • network algorithms
- ☐ • personalized learning and educational games
- ☐ • simulation modeling and systems
- ☐ • social computing
- ☐ • software engineering
- ☐ • statistical modeling
- ☐ • theory and algorithms

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Computer Science, BS
- Computer Science (Information Assurance), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Information Assurance), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

Required Core Areas (9 credit hours)

applications (3)

foundations (3)

systems (3)

Electives or Research (15 credit hours)

Culminating Experience (6 credit hours)

CSE 599 Thesis (6)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each core area in applications, foundations, and systems.

Nine of the 15 credit hours of electives and research must be courses in a chosen research area and approved by the student's academic advisor. Up to six credit hours can be independent study in CSE 590 Reading and Conference. Courses selected as part of the core may not be used as other elective coursework on the same plan of study.

Students will complete a minimum of 30 credit hours for the program. At least 24 of these credit hours must be 500-level CSE courses at ASU. Up to six credit hours of 400-level courses may be applied to the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related area from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • scores for the GRE, unless the student has graduated with an undergraduate degree in computer science or computer systems engineering at ASU
- ☐ • three letters of recommendation
- ☐ • a statement of purpose
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

If the student is assigned any deficiency coursework upon admission, those classes must be completed with a grade of "B" (scale is 4.00 = "A") or higher within two semesters of admission to the program. Deficiency courses are:

CSE 230 Computer Organization and Assembly Language Programming (3)

CSE 310 Data Structures and Algorithms (3)

CSE 330 Operating Systems (3)

CSE 340 Principles of Programming Languages (3)

CSE 355 Introduction to Theoretical Computer Science (3)

CSE 360 Introduction to Software Engineering (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Computer Science, PHD (ESCOMSCPHD)

Online Degree Search Title: Computer Science, PhD

Campus: Tempe

Program Description:

The PhD program in computer science prepares students to undertake fundamental and applied research in computer science to prepare students for careers in academia, government and industry.

Students can conduct cutting-edge research in a wide variety of research areas, including:

- ☐ • artificial intelligence
- ☐ • bioinformatics
- ☐ • cloud and distributed computing
- ☐ • computer design and architecture
- ☐ • computer graphics
- ☐ • computer networks
- ☐ • computer-aided geometric design
- ☐ • cyber-physical and embedded systems
- ☐ • data mining and machine learning
- ☐ • database management and information retrieval
- ☐ • database systems
- ☐ • distributed computing and operating systems
- ☐ • embedded systems
- ☐ • health operations and informatics
- ☐ • imaging, graphics and visualization
- ☐ • information assurance
- ☐ • information assurance and security
- ☐ • intelligent information integration
- ☐ • multimedia
- ☐ • network algorithms
- ☐ • personalized learning and educational games
- ☐ • simulation modeling and systems
- ☐ • social computing
- ☐ • software engineering
- ☐ • statistical modeling
- ☐ • theory and algorithms

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core Areas (15 credit hours)

architecture and networked systems (3)

intelligent and interactive systems (3)

data and information systems (3)

software and information assurance (3)

foundations of computation and algorithms (3)

Other Requirement (6 credit hours)

six additional credit hours in one core area (6)

Electives (33-39 credit hours)

Research (12-18 credit hours)

CSE 792 Research (12-18)

Culminating Experience (12 credit hours)

CSE 799 Dissertation (12)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each core area. Courses that are used to satisfy the core area requirement cannot be used to satisfy electives or other requirements.

Students choose computer science electives in consultation with their graduate advisor. Up to 18 hours of CSE 590 and CSE 790 are allowed. Additional restrictions may apply to electives course selection.

When approved by the academic unit and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

A maximum of six credit hours of 400-level coursework may be applied to the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related area. Most applicants should have earned a master's degree, but exceptional undergraduate applicants may be admitted directly into the doctoral program.

Applicants must have a minimum of a 3.50 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.50 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts from every university attended
- ☐ • scores for the GRE
- ☐ • three letters of recommendation
- ☐ • a statement of purpose
- ☐ • curriculum vitae or resume
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of their current residency) must provide proof of English proficiency.

If the student has graduated with an undergraduate degree in computer science or computer systems engineering from ASU, GRE scores are not required.

If the student is assigned any deficiency coursework upon admission, those classes must be completed with a grade of "B" (3.00) or higher within two semesters of admission to the program. Deficiency courses are:

CSE 230 Computer Organization and Assembly Language Programming (3)

CSE 310 Data Structures and Algorithms (3)

CSE 330 Operating Systems (3)

CSE 340 Principles of Programming Languages (3)

CSE 355 Introduction to Theoretical Computer Science (3)

CSE 360 Introduction to Software Engineering (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Students should see the program website for application deadlines.

Computer Science (Arts, Media and Engineering), MS (ESAMECSMS)

Online Degree Search Title: Computer Science (Art, Media and Eng), MS

Campus: Tempe

Program Description:

The MS program in computer science with a concentration in arts, media and engineering emphasizes research on the integration of the human physical experience with computation and digital media. Arts, media and engineering researchers produce experiential media systems and models that:

- ☐ • assist the disadvantaged
- ☐ • empower creativity
- ☐ • enhance scientific discovery
- ☐ • evolve human ability

- ☐ • facilitate learning
- ☐ • improve quality of life

Within these application areas, researchers explore experiential construction, interaction and feedback, knowledge creation, sensing, perception and modeling.

The purpose of the arts, media and engineering concentration under the master's degree in computer science is to train hybrid engineering-arts graduates who get their inspiration from the arts and their methodology from computer science and engineering. Students will specialize in transdisciplinary media development. More information about the arts, media and engineering concentration can be found at <https://artsmediaengineering.asu.edu/> (<https://artsmediaengineering.asu.edu/>).

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Computer Science, BS
- Computer Science (Information Assurance), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Information Assurance), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

Required Core Areas (9 credit hours)

- applications (3)
- foundations (3)
- systems (3)

Concentration (9 credit hours)

Electives or Research (6 credit hours)

Culminating Experience (6 credit hours)

CSE 599 Thesis (6)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each core area in applications, foundations and systems.

Students will complete nine credit hours of arts, media and engineering concentration courses selected in consultation with the student's graduate advisor. Courses that are used to satisfy the concentration requirement on the plan of study cannot be used to satisfy the core requirement. Additionally, courses selected as part of the core or concentration may not be used as other elective coursework on the same plan of study.

Students will complete a minimum of 30 credit hours for the program. At least 24 of these credit hours must be 500-level CSE courses at ASU. Up to six credit hours of 400-level courses may be applied to the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related area.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • scores for the GRE, unless the student has graduated with an undergraduate degree in computer science or computer systems engineering at ASU
- ☐ • statement of purpose
- ☐ • curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of their current residency) must provide proof of English proficiency. <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

The statement of purpose must address the transdisciplinary nature of the arts, media and engineering program. Applicants should explain in a concise and persuasive manner how their educational, professional and personal experiences inform their research and creative interests, writing on any aspect of their background that supports candidacy to the program. For further information on how this statement can be expanded upon by students interested in a research assistantships or an integrative graduate education and research traineeship within arts, media and engineering, please visit <https://artsmediaengineering.asu.edu/> (<https://artsmediaengineering.asu.edu/>). Students should submit a curriculum vitae with the statement of purpose.

Students assigned any deficiency coursework upon admission must complete those classes with a grade of "B" (scale is 4.00 = "A") or higher within two semesters of admission to the program. Deficiency courses include:

CSE 230 Computer Organization and Assembly Language Programming (3)

CSE 310 Data Structures and Algorithms (3)

CSE 330 Operating Systems (3)

CSE 340 Principles of Programming Languages (3)

CSE 355 Introduction to Theoretical Computer Science (3)

CSE 360 Introduction to Software Engineering (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Students should see the program website for application deadlines.

Computer Science (Arts, Media and Engineering), PHD (ESAMECSPHD)

Online Degree Search Title: Computer Science (Art, Media and Eng), PhD

Campus: Tempe

Program Description:

The PhD program in computer science with a concentration in arts, media and engineering emphasizes research on the integration of the human physical experience with computation and digital media. Arts, media and engineering researchers produce experiential media systems and models that:

- ☐ • assist the disadvantaged
- ☐ • empower creativity
- ☐ • enhance scientific discovery
- ☐ • evolve human ability
- ☐ • facilitate learning
- ☐ • improve quality of life

Within these application areas, researchers explore experiential construction, interaction and feedback, knowledge creation, sensing, perception and modeling.

The purpose of the arts, media and engineering concentration is to train hybrid engineering-arts graduates who get their inspiration from the arts and their methodology from computer science and engineering. Students will specialize in transdisciplinary media development. More information about arts, media and engineering can be found at <https://artsmediaengineering.asu.edu/> (<https://artsmediaengineering.asu.edu/>).

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core Areas (15 credit hours)

architecture and networked systems (3)

intelligent and interactive systems (3)

data and information systems (3)
software and information assurance (3)
foundations of computation and algorithms (3)

Other Requirement (6 credit hours)
six additional credit hours in one core area (6)

Concentration (36 credit hours)

Electives (0-3 credit hours)

Research (12-15 credit hours)
CSE 792 Research (12-15)

Culminating Experience (12 credit hours)
CSE 799 Dissertation (12)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each core area. Courses that are used to satisfy the core area requirement cannot be used to satisfy the concentration requirement or other requirements.

Students choose courses for the arts, media and engineering concentration in consultation with their graduate advisor. Up to 18 hours of CSE 590 and CSE 790 are allowed. Additional restrictions may apply to electives course selection.

When approved by the academic unit and the Graduate College, 30 credit hours from a previously awarded master's degree are allowed to be used for this degree.

A maximum of six credit hours of 400-level coursework may be applied to the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in computer science, computer engineering or a closely related area. Most applicants should have earned a master's degree, but exceptional undergraduate applicants may be admitted directly into the doctoral program.

Applicants must have a minimum of a 3.50 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.50 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts from every university attended
- ☐ • scores for the GRE
- ☐ • three letters of recommendation
- ☐ • a statement of purpose
- ☐ • curriculum vitae or resume
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

If the student has graduated with an undergraduate degree in computer science or computer systems engineering from ASU, GRE scores are not required.

The statement of purpose must fulfill any requirements defined by the Graduate College and also address the transdisciplinary nature of the arts, media and engineering program. Applicants should explain in a concise and persuasive manner how their educational, professional and personal experiences inform their research and creative interests, writing on any aspect of their background that supports candidacy to the program. Further information on how this statement can be expanded upon by students interested in a research assistantships or an Integrative Graduate Education and Research Traineeship within arts, media and engineering is available from the department. Students should submit a current curriculum vitae with the statement of purpose.

If the student is assigned any deficiency coursework upon admission, those classes must be completed with a grade of "B" (3.00 on a 4.00 scale) or

higher within two semesters of admission to the program. Deficiency courses are:

CSE 230 Computer Organization and Assembly Language Programming (3)

CSE 310 Data Structures and Algorithms (3)

CSE 330 Operating Systems (3)

CSE 340 Principles of Programming Languages (3)

CSE 355 Introduction to Theoretical Computer Science (3)

CSE 360 Introduction to Software Engineering (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Applications deadlines are posted on the program website.

Computer Science (Big Data Systems), MCS (ESCSEBDMCS)

Online Degree Search Title: Computer Science (Big Data Systems), MCS

Campus: Tempe

Program Description:

The big data systems concentration under the MCS in computer science degree is designed for graduate students who want to pursue a thorough education in the area of big data systems.

The goal of this concentration is to provide students the knowledge, skills and expertise in designing scalable (parallel, distributed and real time) systems for acquiring, storing, processing and accessing large-scale heterogeneous multisource data and in using analytical tools to mine information from the data.

Graduates will be able to choose and deploy the appropriate data management processing and analysis systems with a suitable structured or unstructured data model that a particular task and domain application needs. This program will provide a competitive advantage to secure employment as there is a growing need for data scientists and engineers who can architect, implement and manage large data systems.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Computer Science, BS

Computer Science (Information Assurance), BS

Computer Science (Software Engineering), BS

Computer Systems Engineering, BSE

Computer Systems Engineering (Information Assurance), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio.

Required Core Areas (9 credit hours)

applications (3)

foundations (3)

systems (3)

Concentration (9 credit hours)

CSE 510 Database Management System Implementation (3)

CSE 512 Distributed Database Systems (3)

CSE 572 Data Mining (3) or IEE 520 Statistical Learning for Data Mining (3)

Restricted Electives (6 credit hours)

Electives or Research (6 credit hours)

Culminating Experience (0 credit hours)
portfolio (0)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for electives and each core area in applications, foundations and systems.

Coursework selected as part of the area core may not be used as elective coursework on the same plan of study. Students should check with their academic advisor to ensure that the total credit hours of their plan of study are equal to 30.

At least 24 of these hours must be CSE 5XX credits at ASU. A maximum of four credit hours of CSE 598 courses may be allowed as elective coursework, which cannot include courses taken at the undergraduate level. All 30 credit hours must be from formal coursework (including CSE 591). CSE 590 will not be allowed as part of the MCS program plan of study.

All MCS program students must complete a project portfolio from three courses in which the student received a "B" (3.00) grade or higher.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official GRE test scores
- ☐ • three letters of recommendation
- ☐ • statement of purpose
- ☐ • proof of English proficiency

Additional Admission Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Official TOEFL scores should be submitted from tests that have been taken within the last two years (only required for those who did not graduate with a baccalaureate degree from an accredited U.S. institution). The TOEFL score must be valid on the first day of class for the term the student is applying for. The School of Computing, Informatics and Decision Systems Engineering requires that TOEFL scores must be above 575 (paper) or 90 (iBT), or that the minimum IELTS is an overall band score of 7.0.

For international students, official GRE general test scores must be taken within the last five years.

All international records must be submitted in the original language accompanied by an official English translation. If the student has attended a U.S. institution, one set of official transcripts from every college and university attended, except ASU, is required.

If the student is assigned any deficiency coursework upon admission, those classes must be completed with a grade of "B" (3.00) or higher within two semesters of admission to the program. Deficiency courses include:

CSE 230 Computer Organization and Assembly Language Programming (3)
CSE 310 Data Structures and Algorithms (3)
CSE 330 Operating Systems (3)
CSE 340 Principles of Programming Languages (3)
CSE 355 Introduction to Theoretical Computer Science (3)

Computer Science (Biomedical Informatics), MS (ESCSBIOIMS)

Online Degree Search Title: Computer Science (Biomedical Informatics), MS

Campus: Tempe

Program Description:

The MS program in computer science with a concentration in biomedical informatics is designed for graduate students who wish to specialize in such topics as genomics and computational systems biology. The concentration is transdisciplinary in nature, providing preparation that integrates technological expertise in the information sciences, computer science, biosciences and statistics with an understanding of the clinical environment of the health care professional. It will expose computer science students to current issues in clinical practice as well as the use of information systems in health care settings.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Computer Science, BS
- Computer Science (Information Assurance), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Information Assurance), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

Required Core Areas (9 credit hours)

applications (3)

foundations (3)

systems (3)

Concentration (9 credit hours)

BMI 501 Introduction to Biomedical Informatics (3)

BMI 540 Problem Solving in Biomedical Informatics (3)

BMI 5XX approved elective in biomedical informatics (3)

Electives or Research (6 credit hours)

Culminating Experience (6 credit hours)

CSE 599 Thesis (6)

Additional Curriculum Information

Students will focus their research in one of the following areas: bioinformatics, biomedical informatics, clinical informatics, imaging informatics or public health informatics.

Courses that are used to satisfy the concentration requirement on the plan of study cannot be used to satisfy the core requirement. Additionally, courses selected as part of the core or concentration may not be used as other elective coursework on the same plan of study. Students will complete a minimum of 30 credit hours for the program. At least 21 of these credit hours must be 500-level CSE courses at ASU.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, computer engineering or a closely related area.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Every applicant must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • statement of purpose
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency via a TOEFL score.

The student must submit verbal, quantitative and analytical GRE scores (optional: subject test in computer science), unless the student has graduated with an undergraduate degree in computer science or computer systems engineering from ASU.

Students assigned any deficiency coursework upon admission must complete those classes with a grade of "B" (scale is 4.00 = "A") or higher within two semesters of admission to the program. Deficiency courses are:

CSE 230 Computer Organization and Assembly Language Programming (3)

CSE 310 Data Structures and Algorithms (3)

CSE 330 Operating Systems (3)

CSE 340 Principles of Programming Languages (3)

CSE 355 Introduction to Theoretical Computer Science (3)

CSE 360 Introduction to Software Engineering (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Students should see the program website for application deadlines.

Computer Science (Information Assurance), MCS (ESCSEIMCS)

Online Degree Search Title: Computer Science (Information Assurance), MCS

Campus: Tempe

Program Description:

The MCS program in computer science with a concentration in information assurance is designed for graduate students who want to pursue a thorough education in the area of information assurance. The goal of this concentration is to provide students the knowledge and skills in science and engineering for information assurance, including computer and network security, software security, data and information security, applied cryptography and computer forensics.

The concentration in information assurance is an advanced degree targeted at students with an undergraduate education in computing and related disciplines, and students employed in industry who can best profit from further breadth and background in computer science and information assurance. Students will have a competitive advantage to secure employment.

According to the National Security Agency, information assurance is defined as the set of measures intended to protect and defend information and information systems by ensuring their availability, integrity, authentication, confidentiality and nonrepudiation. This includes providing restoration of information systems by incorporating protection, detection and reaction capabilities.

Information assurance courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for Information Systems Security Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012). For more information on information assurance courseware at ASU, students should see <http://ia.asu.edu/education.php> (<http://ia.asu.edu/education.php>).

Computer Science (Information Assurance), PHD (ESCSEIAPHD)

Online Degree Search Title: Computer Science (Information Assurance), PhD

Campus: Tempe

Program Description:

The PhD program in computer science with a concentration in information assurance is designed for graduate students who want to pursue a thorough education in the area of information assurance. The goal of this concentration is to provide students the knowledge and skills in science and engineering for information assurance, including:

- ☐ • applied cryptography
- ☐ • computer and network security
- ☐ • computer forensics
- ☐ • data and information security
- ☐ • software security

Students will have a competitive advantage to secure employment. According to the National Security Agency, information assurance is defined as the set of measures intended to protect and defend information and information systems by ensuring their availability, integrity, authentication, confidentiality and nonrepudiation. This includes providing restoration of information systems by incorporating protection, detection and reaction capabilities.

ASU has been certified as a National Center of Academic Excellence in Information Assurance Education and a National Center of Academic Excellence in Information Assurance - Research by the National Security Agency and the Department of Homeland Security. Information assurance courseware at ASU has been certified by the Information Assurance Courseware Evaluation Program to satisfy the standards for Information Systems Security Professionals (NSTISSI 4011) and Senior Systems Managers (CNSSI 4012). More information on information assurance courseware at ASU is at <http://ia.asu.edu/education.php> (<http://ia.asu.edu/education.php>).

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core Areas (15 credit hours)

architecture and networked systems (3)

intelligent and interactive systems (3)

data and information systems (3)

software and information assurance (3)

foundations of computation and algorithms (3)

Other Requirement (6 credit hours)

six additional credit hours in one core area (6)

Concentration (18 credit hours)

Electives (18-21 credit hours)

Research (12-15 credit hours)

CSE 792 Research (12-15)

Culminating Experience (12 credit hours)

CSE 799 Dissertation (12)

Additional Curriculum Information

Please see the academic unit for the list of courses approved for each core area. Courses that are used to satisfy the core area requirement cannot be used to satisfy the concentration requirement or other requirements.

Students choose courses for the information assurance concentration in consultation with their graduate advisor. Students should see <https://cidse.engineering.asu.edu/forstudent/graduate/computer-science/> (<https://cidse.engineering.asu.edu/forstudent/graduate/computer-science/>) for more information on information assurance course options.

Up to 18 hours of CSE 590 and CSE 790 are allowed. Additional restrictions may apply to electives course selection.

When approved by the academic unit and the Graduate College, 30 credit hours from a previously awarded master's degree are allowed to be used for this degree.

A maximum of six credit hours of 400-level coursework may be applied on the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in computer science, computer engineering or a closely related area. Most applicants should have earned a master's degree, but exceptional undergraduate applicants may be admitted directly into the doctoral program.

Applicants must have a minimum of a 3.50 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.50 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts from every university attended
- ☐ • scores for the GRE
- ☐ • three letters of recommendation
- ☐ • a statement of purpose
- ☐ • curriculum vitae or resume
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

If the student has graduated with an undergraduate degree in computer science or computer systems engineering from ASU, GRE scores are not

required.

If the student is assigned any deficiency coursework upon admission, those classes must be completed with a grade of "B" (3.00 on a 4.00 scale) or higher within two semesters of admission to the program. Deficiency courses include:

CSE 230 Computer Organization and Assembly Language Programming (3)

CSE 310 Data Structures and Algorithms (3)

CSE 330 Operating Systems (3)

CSE 340 Principles of Programming Languages (3)

CSE 355 Introduction to Theoretical Computer Science (3)

CSE 360 Introduction to Software Engineering (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

Students should see the program website for application deadlines.

Construction Engineering, MSE (ESCONEMSE)

Online Degree Search Title: Construction Engineering, MSE

Campus: Tempe

Program Description:

The MSE in construction engineering is a transdisciplinary program that encompasses the areas of geotechnical engineering, structural engineering, transportation engineering, construction engineering and management-related topics. The degree program focuses on a combination of design and management topics that prepare the student for a career working at the interface of design and construction. The program is especially desirable to those students who are interested in a career emphasizing construction of infrastructure.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Civil Engineering, BSE

Civil Engineering (Environmental Engineering), BSE

Civil Engineering (Sustainable Engineering), BSE

Construction Engineering, BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a written comprehensive exam.

All candidates for the Master of Science in Engineering are required to complete approved graduate course work.

Additional courses may be assigned by the graduate supervisory committee depending on the background of the candidate.

Details of the comprehensive written examinations for the different specialty areas can be obtained on the graduate studies section of the program's website.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are expected to satisfy all requirements for admission to the Graduate College. Entry into this program normally requires a bachelor's degree with a major in engineering or a closely related bachelor's degree program.

A student whose undergraduate degree is not in civil or construction engineering is required to take appropriate undergraduate courses as deficiency courses to establish a base of knowledge in the discipline. Deficiencies for admission to the graduate degree programs are specified at the time of admission and details can be obtained on the graduate studies section of the program's website.

The minimum GPA requirement is an overall undergraduate GPA of 3.00 on a 4.00 scale. Applicants with a lower GPA may be provisionally admitted at the discretion of the admission committee.

Applicants must take the GRE and have their scores sent to Graduate Admission Services. Prospective students should note that the following two requirements need to be met for consideration for admission: minimum score in the quantitative section is 700 and a minimum combined quantitative and verbal score is 1100. More information regarding how to send official GRE scores to Graduate Admission Services can be found at <https://students.asu.edu/graduate/standards> (<https://students.asu.edu/graduate/standards>).

Applicants must submit an online graduate admission application.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The student's credentials for admission are evaluated by the graduate program chair and a committee chaired by the specialty area coordinator.

Change of Major Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Entry into this program normally requires a bachelor's degree with a major in engineering or a closely related bachelor's degree program.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The student's credentials for admission are evaluated by the graduate program chair and a committee chaired by the specialty area coordinator.

A student whose undergraduate degree is not in civil or construction engineering is required to take appropriate undergraduate courses as deficiency courses to establish a base of knowledge in the discipline. Deficiencies for admission to the graduate degree programs are specified at the time of admission and details can be obtained on the graduate studies section of the program's website.

Applicants must take the GRE and have their scores sent to Graduate Admission Services. Prospective students should note that the following two requirements need to be met for consideration for admission: a minimum score of 155 in the quantitative section and a minimum combined quantitative and verbal score of 301. More information regarding how to send official GRE scores to Graduate Admission Services can be found at <https://students.asu.edu/graduate/standards> (<https://students.asu.edu/graduate/standards>).

Construction Management, MS (ESCONSTMS)

Online Degree Search Title: Construction Management , MS

Campus: Tempe, Online

Program Description:

The faculty of the Del E. Webb School of Construction offer a graduate program leading to the MS in construction management. The transdisciplinary nature of the program allows a candidate's plan of study to reflect individual interests and career goals.

The primary objective of the program is to allow students with a bachelor's degree in construction or a related field such as architecture, business or engineering to broaden and improve their professional capabilities in construction. The program is designed to meet the growing need for professionals with advanced technical, management and applied research skills in the construction industry.

The facilities management specialty area supports the needs of the student desiring a career in the maintenance, operation, renovation or decommissioning of existing facilities. The construction management specialty area allows students seeking upper-level management positions in various sectors of the construction industry to improve their competency in project, program and company management areas.

Accelerated Degrees:

This degree is also offered in an accelerated format with Construction Management, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam, or 30 credit hours and an applied project.

Required Core (9 credit hours)

Project Management Core Area (3 credit hours)

CON 530 Facilities Operations and Maintenance (3)

CON 532 Facilities Project Management (3)

CON 545 Construction Project Management (3)

CON 551 Alternative Project Delivery Methods (3)

CON 557 Principles of Leadership for Project Managers (3)

Project Controls Core Area (3 credit hours)

CON 540 Construction Productivity (3)

CON 567 Advanced Procurement Systems (3)

CON 589 Construction Company Financial Control (3)

Construction Technology Core Area (3 credit hours)

CON 531 Facility Management: Building Energy Management (3)

CON 554 Trenchless Construction Methods (3)

CON 570 Introduction to Advanced Technology Facilities (3)

CON 571 Construction of Advanced Technology Facilities (3)

CON 575 Information Technology in Construction (3)

Electives or Research (15-21 credit hours)

Culminating Experience (0-6 credit hours)

CON 593 Applied Project (3)

CON 599 Thesis (6)

written comprehensive exam (0)

Additional Curriculum Information

Students chose one three-credit hour course from each of the core areas listed above for a total of nine credit hours. If a course is chosen as a core area course, it cannot be used as an elective course simultaneously.

The number of electives and research will be adjusted depending on the culminating experience chosen by the student.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • current resume
- ☐ • an evaluation of the student's academic and professional background
- ☐ • personal statement

- • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency by meeting the Graduate College English proficiency requirements. Applicants required to demonstrate English proficiency and seeking a teaching assistantship must demonstrate proficiency in spoken English, and a score of 55 or better on the Speaking Proficiency English Assessment Kit or a score of 26 on the speaking portion of the TOEFL is required.

Applicants are expected to be competent in basic construction topics.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Construction Management, PHD (ESCONPHD)

Online Degree Search Title: Construction Management, PhD

Campus: Tempe

Program Description:

The faculty in the Del E. Webb School of Construction offer a graduate program leading to the PhD degree in construction management. The purpose of the construction management doctoral program is to prepare research scholars, new faculty and professionals for positions in industry, universities and government as well as to facilitate a higher level of investigation and knowledge creation through the professor-doctoral student dynamic.

The Del E. Webb School of Construction is distinctively positioned to provide students with a transdisciplinary educational and research experience at the doctoral level, which will provide value in construction education, research and industry programs, private construction research facilities, and high-level management positions in the construction industry.

The objectives of the degree program include providing research experience for doctoral students who might wish to pursue careers in either industry or academia as members of transdisciplinary research teams as well as providing a high-level transdisciplinary doctoral education for those who wish to develop academic careers teaching at the university level.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The doctoral program in construction will typically require three to four years of full-time study and research beyond the master's degree. Generally, students will be admitted into the doctoral program at or near the completion of their master's degree.

The program requires 84 credit hours post-bachelor's degree or 54 credit hours post-master's degree.

The program consists of:

- • core construction courses
- • elective courses
- • a qualifying examination
- • a written and oral comprehensive examination
- • admission to candidacy
- • successful defense of a dissertation prospectus and complete dissertation

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Students who hold a master's degree in a related field from a regionally accredited university or equivalent are eligible to apply for admission to the

program. Only exceptional students will be admitted without a master's degree. Related fields include construction, civil engineering, architecture and business. At the discretion of the admission committee, students from other disciplines may be eligible as well. In addition, applicants are expected to be competent in construction topics.

Applicants must have a minimum of a 3.20 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official GRE scores
- ☐ • a current resume
- ☐ • an evaluation of the student's academic and professional background
- ☐ • masters' degree thesis abstract
- ☐ • a personal statement from each applicant describing their career goals and research objectives
- ☐ • research interests
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Applicants required to demonstrate English proficiency and seeking a teaching assistantship must demonstrate proficiency in spoken English; a score of 55 or better on the Speaking Proficiency English Assessment Kit or a score of 26 on the speaking portion of the TOEFL is required.

Applicants must take the GRE and have their official scores sent directly to Graduate Admission Services. More information regarding how to send official GRE scores can be found on the Graduate Admission Services website.

Electrical Engineering, MS (ESEEMS)

Online Degree Search Title: Electrical Engineering, MS

Campus: Tempe

Program Description:

This program does not accept applications to the MS directly. Students should apply to the MSE program and, once admitted, consult with the Master of Science in Engineering program advisors if interested in the Master of Science program.

The electrical engineering faculty in the Ira A. Fulton Schools of Engineering offer a research program leading to the Master of Science in electrical engineering.

Graduate courses and programs are offered in the following six areas of specialization:

- ☐ • control systems
- ☐ • electromagnetics, antennas and microwave circuits
- ☐ • electronic and mixed-signal circuit design
- ☐ • electric power and energy systems
- ☐ • signal processing and communications
- ☐ • physical electronics and photonics

Degree Requirements:

30 credit hours and a thesis.

The credits earned toward this research degree must include a minimum of eight courses (24 credit hours minimum) and six hours of EEE 599 (thesis). As part of the eight courses, at least two should be outside the area of specialization.

Requirements include:

at least four EEE courses
at least two courses outside the area of specialization
at most two 400-level courses
at least three EEE 500-level courses
at most one EEE 590 Reading and Conference or FSE course
exam

A final oral examination in defense of the thesis completes the master's degree requirements.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students desiring the Master of Science in electrical engineering must initially apply to the Master of Science in Engineering program. Students who later obtain a research advisor may transfer to the Master of Science program.

Electrical Engineering, MSE (ESEEMSE)

Online Degree Search Title: Electrical Engineering, MSE

Campus: Tempe, Online

Program Description:

The electrical engineering faculty in the Ira A. Fulton Schools of Engineering offer a professional program leading to the MSE in electrical engineering. Graduate courses and programs are offered in the following six areas of specialization:

- ☐ • control systems (not an option for the online degree but available to on-campus students)
- ☐ • electromagnetics, antennas and microwave circuits
- ☐ • electronic and mixed-signal circuit design
- ☐ • electric power and energy systems
- ☐ • signal processing and communications
- ☐ • physical electronics and photonics

Courses are available on campus and online. The degree can be completed taking all classes on campus or all classes online.

A dual degree, the MBA/MSE in electrical engineering, is available as an online option. For more information, students should visit <https://wpcarey.asu.edu/mba-programs/online/concurrent-degrees> (<https://wpcarey.asu.edu/mba-programs/online/concurrent-degrees>).

Concurrent Degrees:

This degree is also offered as concurrent degree program with W. P. Carey MBA - Online Program

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Electrical Engineering, BSE

Electrical Engineering (Electric Power and Energy Systems), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a written comprehensive exam.

The master's degree in electrical engineering is a professional degree requiring a minimum of 30 hours of coursework (a minimum of 10 classes) and a final comprehensive examination in the area of specialization. The examination is given each semester at the end of the sixth week of classes.

Requirements include:

at least five EEE courses

at least three EEE 500-level courses

at least two courses outside the area of specialization

at most one EEE 590 Reading and Conference or FSE course

at most two 400-level courses

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

The decision to admit a student who has earned a bachelor's degree from a program accredited by ABET to a master's degree program in electrical engineering is based on a number of factors. A minimum requirement is an undergraduate GPA of 3.00 (scale is 4.00 = "A") in the student's last two years of undergraduate work. A student whose undergraduate degree is not from an ABET-accredited program must have the equivalent of at least a 3.50 GPA in the last two years of undergraduate study and must score 156 or higher on the quantitative section of the GRE general test.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

International students seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking portion of the iBT or 50 on the ASU-administered Speaking Proficiency English Assessment Kit.

A candidate whose undergraduate degree is not in electrical engineering may need to take appropriate undergraduate courses to establish a baseline of knowledge in the discipline.

Applicants should see the program website for application deadlines.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

480-965-3424

Electrical Engineering, PHD (ESEEPHD)

Online Degree Search Title: Electrical Engineering, PhD

Campus: Tempe

Program Description:

The PhD in electrical engineering is awarded upon evidence of excellence in research leading to a scholarly dissertation that is a contribution to knowledge. Graduate courses and programs are offered in the following six areas of specialization:

- ☐ • control systems
- ☐ • electric power and energy systems
- ☐ • electromagnetics, antennas and microwave circuits
- ☐ • electronic and mixed-signal circuit design
- ☐ • physical electronics and photonics
- ☐ • signal processing and communications

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Doctoral students are required to complete 84 credit hours of academic credit beyond the bachelor's degree. The following summarizes the degree course requirements:

Master's degree (30 credit hours)
from any accredited institution

Electives 500-level or above (18 credit hours)
at least nine credit hours of EEE courses

Research Class or Omnibus Courses (12 credit hours)
can be 400-level and above or
EEE 792 Research (12)

Dissertation (12 credit hours)
EEE 799 Dissertation (12)

The 84 credit hours include 30 credit hours for the master's degree, a required 18 credit hours of doctoral course work, 12 credit hours of research (EEE 792), and 12 credit hours (and only 12 credit hours) of dissertation (EEE 799).

The additional 12 credit hours can be more hours of research (EEE 792) or can be class work as determined by the supervisory committee. At least half (nine credit hours) of the minimum requirement of 18 credit hours of doctoral coursework must be in electrical engineering. EEE 790 Reading and Conference can be used for no more than three credit hours toward the required 18 but does not count toward the nine hours of 500-level EEE classes required.

All courses counting toward the required 18-credit hour minimum must be at the 500-level or higher. Note: All courses having the prefix EEE 591 count as 400-level courses. No more than one three-hour reading and conference (EEE 790) course can be taken as part of the 18-hour requirement. The content of any proposed reading and conference course must be reviewed and approved by the electrical engineering graduate program chair before a student registers for the course.

A qualifying examination, a comprehensive exam and the dissertation defense are required. Additional information on the program can be found in the "Blue Student Guide" published and available on the program's website.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

In general, a student must have a least a 3.00 GPA (scale is 4.00 = "A") in all undergraduate coursework and at least a 3.50 GPA in all graduate coursework for admission to the doctoral program. A student must usually hold a master's degree before being admitted to the doctoral program. Direct doctoral admission is available for students graduating from an ABET-accredited electrical engineering program with a GPA of 3.60 (scale is 4.00 = "A") or higher. A student whose master's degree is not from a U.S. institution must score 156 or higher on the quantitative section of the GRE General Test. A good score on the writing portion is considered desirable.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

International students seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking portion of the Internet-based TOEFL or 50 on the ASU-administered Speaking Proficiency English Assessment Kit.

A student whose undergraduate degree is not in electrical engineering may need to take appropriate undergraduate courses to establish a baseline of knowledge in the discipline.

Applicants should see the program website for application deadlines.

Electrical Engineering (Arts, Media and Engineering), MS (ESAMEMS)

Online Degree Search Title: Electrical Engineering (Art, Media and Eng), MS

Campus: Tempe

Program Description:

A concentration in arts, media and engineering has been established as a collaboration between the electrical engineering program at ASU and the Herberger Institute for Design and the Arts. This concentration is available for both MS and PhD students admitted to this program who take two-thirds of their course, research and thesis credits from the electrical engineering program and one-third of the credits from the arts, media and engineering program. All applicants are strongly encouraged to see the FAQ on this concentration available at <https://ecee.engineering.asu.edu/academics/doctoral-degrees/electrical-engineering-arts-media-and-engineering-m-s-ph-d/> (<https://ecee.engineering.asu.edu/academics/doctoral-degrees/electrical-engineering-arts-media-and-engineering-m-s-ph-d/>).

Electrical engineering students in the arts, media and engineering concentration undergo training toward integrating principles of digital signal processing, pattern recognition, computer vision and multimedia computing with transdisciplinary objectives, with the goal of enabling new paradigms of human-machine experience that directly address societal needs and facilitate knowledge. Examples include media-based intelligent systems for health care and well-being as well as promotion of environmentally sustainable practices. For more information, students should see <http://research.ame.asu.edu> (<http://research.ame.asu.edu/>).

Degree Requirements:

30 credit hours and a thesis.

Eight courses are required, typically five from EEE and three from AME. In addition, six credit hours of thesis are required, typically four credits from EEE and two from AME.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Students from ABET-accredited undergraduate programs who wish to be considered for a master's degree program must have a minimum GPA of 3.00 (scale is 4.00 = "A") in the last two years of undergraduate coursework. Students from undergraduate programs that are not accredited by ABET must have a minimum GPA of 3.50 (scale is 4.00 = "A") in the last two years of undergraduate coursework or have graduated first class with distinction and must score in the 90th percentile or higher on the quantitative section of the GRE general test.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts

- ☐ • statement of purpose
- ☐ • curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

International applicants seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking portion of the Internet-based TOEFL or 50 on the ASU-administered Speaking Proficiency English Assessment Kit.

Applicants should submit materials that reflect the hybrid nature of the arts and engineering degree, including a statement of purpose and curriculum vitae demonstrating interest and relevant experience in the area. Applicants will have the opportunity to upload their curriculum vitae and statement of purpose when completing the online application. Additionally, the arts, media and engineering program requires three letters of recommendation from individuals familiar with the applicant's ability to succeed in a transdisciplinary research environment.

Electrical Engineering (Arts, Media and Engineering), PHD (ESAMEPHD)

Online Degree Search Title: Electrical Engineering (Art, Media and Eng), PhD

Campus: Tempe

Program Description:

A concentration in arts, media and engineering has been established as a collaboration between the electrical engineering program at ASU and the Herberger Institute for Design and the Arts. This concentration is available both for the MS and the PhD students admitted to this program who take two-thirds of their coursework from electrical engineering and one-third of the credits from the arts, media and engineering program.

All applicants are strongly encouraged to see the FAQ on this concentration available at <https://ecee.engineering.asu.edu/academics/doctoral-degrees/electrical-engineering-arts-media-and-engineering-m-s-ph-d/> (<https://ecee.engineering.asu.edu/academics/doctoral-degrees/electrical-engineering-arts-media-and-engineering-m-s-ph-d/>).

Electrical engineering students in the arts, media and engineering concentration undergo training toward integrating principles of digital signal processing, pattern recognition, computer vision and multimedia computing with transdisciplinary objectives, with the goal of enabling new paradigms of human-machine experience that directly address societal needs and facilitate knowledge. Examples include media-based intelligent systems for health care and well-being, as well as promotion of environmentally sustainable practices. For more information, student should see <http://research.ame.asu.edu> (<http://research.ame.asu.edu>).

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The program requires the following:

- a comprehensive examination
- the dissertation defense
- a qualifying examination
- 10 courses, typically seven from EEE and three from AME
- 12 credit hours of dissertation, typically eight credits from EEE and four from AME
- 12 credit hours of research, typically eight credits from EEE and four from AME

Admission Requirements:

Applicants must fulfill both the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants with a master's degree who wish to be considered for the doctoral program must have a minimum GPA of 3.50 (scale is 4.00 = "A") in

their master's degree program. Applicants without a master's degree must have a minimum GPA of 3.60 (scale is 4.00 = "A") in the last two years of undergraduate coursework and have graduated from an ABET-accredited undergraduate program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • statement of purpose
- ☐ • curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

International students seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking portion of the iBT or 50 on the ASU-administered Speaking Proficiency English Assessment Kit.

Applicants should submit materials that reflect the transdisciplinary nature of the arts and engineering degree, including a statement of purpose and curriculum vitae demonstrating interest and relevant experience in the area. Students will have the opportunity to upload their curriculum vitae and statement of purpose when completing the online application. Additionally, the arts, media and engineering program requires three letters of recommendation from individuals familiar with the applicant's ability to succeed in a transdisciplinary research environment.

Engineering, MEng (ESENGRMENG)

Online Degree Search Title: Master of Engineering, MEng

Campus: Tempe, Online

Program Description:

When pursuing an MEng, students can customize their learning experience by selecting a curriculum that addresses their academic and professional goals. The master's degree program is designed for working professionals and is delivered entirely online to meet the unique needs of professional engineers. It is a practice-oriented degree program.

In the master's degree program, multiple emphasis areas are available with additional areas under development. Within each area, there are specific course requirements in addition to the general program requirements. Students can select one of several areas of study available, such as:

- ☐ • embedded systems
- ☐ • engineering management
- ☐ • modeling and simulation
- ☐ • quality, reliability and statistical engineering
- ☐ • systems engineering

Engineers who enter the master's degree program have the opportunity to gain valuable experience applicable to their industry while gaining an advanced degree. Convenience and flexibility are key advantages of this program. The Master of Engineering, which can be earned entirely through distance learning, is a 30 credit hour degree program that does not require GRE results, a thesis or on-campus attendance.

The master's degree program is only available through distance learning. The degree program is supported through online courses available from the Ira A. Fulton Schools of Engineering.

Degree Requirements:

30 credit hours and a written comprehensive exam, or 30 credit hours and an oral comprehensive exam, or 30 credit hours including the required applied project course (CSE 593 or IEE 585 or IEE 593).

Students must complete a total of 30 credit hours equaling 10 courses to earn a Master of Engineering. Half of all coursework, excluding the practice-oriented project, must be in engineering.

Students must complete three credit hours of applied engineering mathematics and three credit hours of engineering management or business.

A culminating event is required and will be identified by the student's advisory committee. It could be a final written or oral examination or the final report of a practice-oriented project. Additional requirements may exist for some academic units and emphasis areas of the Master of Engineering program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in the desired field of study, from a regionally accredited institution.

Applicants must have a minimum GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts from all institutions attended
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Engineering, MS (TSEGRMS)

Online Degree Search Title: Engineering, MS

Campus: Polytechnic

Program Description:

The MS program in engineering consists of a core set of courses designed for students to develop applied analytical expertise across disciplinary boundaries, with direct applications of advanced design principles to system design, management and control. The expertise developed in the core curriculum is reinforced through focus areas that provide flexibility for the student, including alternative energy, mechanical and manufacturing engineering. The culminating experience options are designed to engage students with real-world applications of engineering and to develop problem-solving skills.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Engineering (Automotive Systems), BSE
- Engineering (Electrical Systems), BSE
- Engineering (Mechanical Engineering Systems), BSE
- Engineering (Robotics), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including an Written Comprehensive Exam, or 30 credit hours including the required Applied Project course (EGR 593).

Required Core (9 credit hours)

EGR 520 Engineering Analysis (3)
EGR 530 Principles of Systems Engineering (3)
EGR 535 Engineering Innovation and Entrepreneurship (3)

Focus Area (6-12 credit hours)

Other Requirements (9 credit hours)
EGR 598 Topic: Statistics for Engineers (3)
EGR 598 Topic: Simulating Manufacturing Systems (3)
EGR 598 Topic: Engineering Analysis II (3)

Culminating Experience (0-6 credit hours)
EGR 599 Thesis (6)
EGR 593 Applied Project (3)
Portfolio (0)

Additional Curriculum Information

The focus area credit hours required are dependent upon the chosen culminating experience option. Completion of 30 credit hours of coursework is required for all culminating experience options.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a U.S. bachelor's or master's degree from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that country in engineering, physical sciences, mathematics or a similar field.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • personal statement
- ☐ • professional resume
- ☐ • GRE test scores
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Applicants should see the Graduate Admission Services website at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education will be considered.

Engineering Education Systems and Design, PHD (ESEESDPHD)

Online Degree Search Title: Engineering Education Systems and Design, PhD

Campus: Polytechnic

Program Description:

Engineering education systems and design is a transdisciplinary PhD program aimed at advancing understanding of the engineering education ecosystem. The goal of the program is to enable long-lasting improvement of the learning process and infrastructure in engineering education at all levels by emphasizing the study of education as a complex ecosystem that takes into account the multiple inputs, outputs and interactions within an

educational setting.

A typical student will enter the program with a master's degree in an engineering or a related discipline and will select from research areas of engineering student pathways, increasing participation and retention of underrepresented groups in engineering, engineering student identity development, making and the maker movement, effective teaching and assessment strategies, including the use of learner analytics to increase understanding of online students, and entrepreneurship.

Upon completion of the program, students will be equipped to take competitive positions in top-tier research institutions as exemplary scholars and teachers, or as leaders in engineering education in a variety of education settings (e.g., universities, science centers, government agencies, museums, policy setting institutions or industries).

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, and a dissertation.

Required Core (18 credit hours)

EGR 535 Engineering Innovation and Entrepreneurship (3)

EGR 565 Qualitative Methods for Engineering Education Research (3)

EGR 572 Quantitative Methods for Engineering Education Research (3)

EGR 574 Engineering Education Systems in Context (3)

EGR 671 Applications of Qualitative Methods for Engineering Education Research (3)

EGR 673 Applications of Quantitative Methods for Engineering Education Research (3)

Electives and Research (24 credit hours)

Electives (12)

Research (12)

Culminating Experience (12 credit hours)

EGR 799 Dissertation (12)

Additional Curricular Information

Students may be allowed up to 30 credit hours from a previously awarded master's degree as approved by the academic unit and the Graduate College. If students do not have a master's degree, the remaining 30 credit hours will be made of elective and research credit hours.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, or a closely related field from a regionally accredited institution.

Applicants must have a minimum of a 3.75 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of the bachelor's degree program coupled with a record of research or leadership accomplishments, or applicants must have a minimum of 3.25 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program. Exceptional undergraduates are encouraged to apply after completion of a BS degree.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • two letters of recommendation
- ☐ • GRE scores
- ☐ • three writing samples (more details are listed in the application)
- ☐ • resume or curriculum vitae
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

WANER 204

polygrad@asu.edu

Engineering Science (Software Engineering), MSE (ESSFEMSE)

Online Degree Search Title: Engineering Science (Software Engineering), MSE

Campus: Online

Program Description:

The MSE program in engineering science with a software engineering concentration offers specialized courses founded on the fundamentals and principles of software engineering. The program provides the knowledge and skills needed to work as a software engineer or software task leader on large and small projects using either agile methodologies or formal capability maturity model integration approaches. The program addresses major software development methodologies, techniques, tools and processes for developing and managing software projects. The curriculum is based on the Software Engineering Body of Knowledge under the leadership of the IEEE Computer Society. Each course will place an emphasis on applied assignments and projects that are relative to the student's workplace.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours including the required applied project course (CSE 593).

Required Core (9 credit hours)

CSE 543 Information Assurance and Security (3)

CSE 565 Software Verification and Validation, and Testing (3)

CSE 566 Software Project, Process and Quality Management (3)

Concentration Course (3 credit hours)

CSE 591 Software Engineering Principles and Concepts (3)

Restricted Elective Courses (15-18 credit hours)

Culminating Experience (0-3 credit hours)

Portfolio Option (0)

CSE 593 Applied Project (3)

Additional Curriculum Information

For an approved list of restricted electives, students should see the academic unit.

Students select five or six elective courses: five for the applied project option or six for the portfolio option.

Two faculty member-approved 4XX level courses may also be selected as electives for the restricted electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer engineering, software engineering or a related field, from a regionally accredited institution.

Applicants must have a minimum GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of the student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 12 units of the postbaccalaureate transcript.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must provide evidence of demonstrated expertise in the area of object-oriented programming, advanced data structures, algorithm design and algorithm analysis; maturity in high-level programming (required); and successful completion of Calculus I (a minimum requirement).

GRE scores are not required.

Graduates of non-U.S. institutions must satisfy admission requirements established by the ASU Graduate College.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Environmental and Resource Management, MS (ESERMMS)

Online Degree Search Title: Environmental and Resource Management, MS

Campus: Polytechnic

Program Description:

The MS program in environmental and resource management provides students with a background in the sciences, engineering, environmental science, natural resources management, environmental health and safety, or other affiliated areas with the regulatory and technical background to mitigate the environmental impact of industrial sources of pollution, ensure compliance with environmental regulations, and manage and preserve natural ecosystems.

The curriculum focuses on areas such as environmental law, air pollution, soils and groundwater contamination, water law and policy, environmental toxicology, hazardous waste management, natural resources management, occupational health and safety, sustainable development, and international environmental laws and policies.

Graduate courses are available in a traditional face-to-face format as well as Web-based distance learning. While the faculty and program are based at the Polytechnic campus, the entire program can be completed online. It is possible to complete the program within two years, including summers. Many students are working professionals and are able to finish the degree while working full time.

Graduates are employed by manufacturing and mining industries, federal, state and local environmental and water agencies, environmental firms, utilities, international agencies such as the U.N. and World Bank, and NGOs.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Business (Global Agribusiness), BA

Environmental and Resource Management, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam, or 30 credit hours including the required applied project course (ERM 593).

Required Core (9 credit hours)

ERM 502 Regulatory Framework for Toxic and Hazardous Substances (3)

ERM 503 Principles of Toxicology (3)

ERM 506 Chemistry of Hazardous Materials (3)

Track Courses (9 credit hours)

Electives or Research (6-12 credit hours)

Culminating Experience (0-6 credit hours)

ERM 593 Applied Project (3) or

ERM 599 Thesis (6) or

written comprehensive exam

Additional Curriculum Information

Students either select the environmental management track or the international environmental management track.

The number of electives or research credit hours required is dependent upon the student's chosen culminating experience. Thesis students will take the minimum six credit hours required, applied project students will take nine credit hours, and students taking the written comprehensive exam will complete 12 credit hours of electives coursework.

Students should see the academic unit for a complete list of approved electives and track courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in one of the following fields: environmental engineering, environmental and resource management, biology, chemistry, geology, environmental health, environmental management, environmental science, occupational safety and health, environmental technology, industrial hygiene, natural resource management, or a related field.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students with professional experience in this field may apply for a GRE waiver.

There is no required foreign language exam.

Human Systems Engineering, MS (ECAPSYCHMS)

Online Degree Search Title: Human Systems Engineering, MS

Campus: Polytechnic

Program Description:

The MS program in human systems engineering in the Ira A. Fulton Schools of Engineering provides students with a deep understanding of the science of human performance and with experience using methods and tools to apply this understanding to design and problem solving in a wide variety of domains such as product usability, learning design, sports performance, and workplace and hospital safety.

A broad range of professions needs experts in human factors to work on problems that involve an understanding of human performance. Students gain real-world experience by tackling projects that examine cutting-edge issues such as cell phones as a source of driver distraction, detection of improvised explosive devices, process optimization in health care, and even control of unmanned vehicles.

Interest areas include: user experience, aviation human factors, cognitive performance, consumer psychology, transportation human factors, patient safety, effective teamwork, health psychology, learning optimization, social cognition, threat detection and sports psychology.

Recent graduates are working at places like Intel, Boeing, GoDaddy, Mayo Clinic, PayPal, Motorola, Google and the Air Force Research Lab. Recipients of ASU master's degree have also gone on to pursue doctorates at ASU and other prestigious institutions.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Human Systems Engineering, BS

Industrial and Organizational Psychology, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (HSE 593).

Required Core (18 credit hours)

Electives and Research (6 credit hours)

Culminating Experience (6 credit hours)

PSY 599 Thesis (6) OR

PSY 593 Applied Project (6)

Additional Curriculum Information

Students have the option of doing a thesis or (with industry guidance) an applied project to develop and demonstrate professional knowledge and skills.

Students selecting the thesis option will, under faculty supervision, work on the thesis for at least one calendar year. The first three thesis credits will be devoted to developing an idea and preparing a proposal for approval by a faculty committee. The next three credits will allow for preparing the details of research design and data collection for the thesis (materials, computer programs, experimental test beds, questionnaires, etc.). The final six credits will be devoted to collecting and analyzing data and writing and revising the thesis under the direction of the student's committee chair. Students will defend the thesis in an oral examination.

In cases in which a student is engaged in a project initiated by industry, they may opt for the applied project option. Students selecting the applied project option will, under faculty supervision and guided by industry carry out the applied project in a calendar year in which the 12 credit hours outside of the core are allocated to a combination of research, applied project, and report writing appropriate to the goals of the student and the industry partner. In all cases, the project will culminate in a substantial written report followed by a comprehensive oral examination covering the project and other materials from required courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology or a related field (including engineering, computer science or business) from a regionally accredited institution.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official GRE general exam scores
- ☐ • statement of purpose describing professional and academic aspirations
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Admission Services website: <https://graduate.asu.edu/international> (<https://graduate.asu.edu/international>).

The letters of recommendation should be from college professors, employers (in a human factors-related field) or a combination of both academic and professional references

Applicants to this program generally have completed an undergraduate course in statistics.

Only complete applications will be reviewed.

Contact Information:

Engineering, Ira A. Fulton Schools of
Human Systems Engineering

Industrial Engineering, MS (ESINDENMS)

Online Degree Search Title: Industrial Engineering, MS

Campus: Tempe, Online

Program Description:

The MS degree program in industrial engineering offers a thesis track and a nonthesis track. At the time of admission, students' applications are considered primarily for the nonthesis track. After matriculating at Arizona State University, a student may consult with and receive approval from the industrial engineering faculty to pursue the thesis track. Final consideration and approval may be given to students who have obtained an ASU graduate GPA of 3.20 (scale is 4.00 = "A") or greater.

Industrial engineering combines knowledge from the physical, mathematical and social sciences to design systems that integrate people, equipment and information in the most efficient way. Improvements made by industrial engineers in automation, information control and process quality revolutionized manufacturing in the past century and greatly increased quality of life. Trends toward globalization, increased complexity and rapid technological innovation create an even greater need for industrial engineering in the 21st century.

Successful industrial engineering concepts are also spreading to the financial, logistics and health care services industries, affording new areas of opportunity.

Faculty members in the industrial engineering program are internationally recognized for their innovative research projects, funded both by government and industry. The industrial engineering program at ASU is consistently ranked among the top 20 in the nation for graduate programs in the United States.

Concurrent Degrees:

This degree is also offered as concurrent degree program with W. P. Carey MBA - Online Program

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Engineering Management, BSE

Industrial Engineering, BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam.

Required Core (12 credit hours)

IEE 505 Information Systems Engineering (3) or IEE 506 Web-Enabled Decision Support Systems (3)

IEE 545 Simulating Stochastic Systems (3) or IEE 561 Production Systems (3)

IEE 572 Design Engineering Experiments (3) or IEE 578 Regression Analysis (3) or IEE 573 Reliability Engineering (3)

IEE 574 Applied Deterministic Operations Research (3) or IEE 575 Applied Stochastic Operations Research Models (3)

Elective (0-6 credit hours)

Related Area (9-12 credit hours)

Culminating Experience (6 credit hours)

IEE 599 Thesis (6) (thesis track only)

Additional Curriculum Information

The Master of Science in industrial engineering is a 30 credit hour program which has a thesis and a nonthesis track. The thesis track requires 24 credit hours of coursework, six credit hours of thesis, a written thesis and a final oral examination. The nonthesis track requires 30 credit hours of coursework and a comprehensive exam.

Students must successfully defend the thesis or pass the written comprehensive examination to graduate.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

- ☐ • graduate admission application and application fee
- ☐ • official transcripts from all institutions attended
- ☐ • a statement of purpose
- ☐ • GRE scores
- ☐ • three letters of recommendation
- ☐ • proof of English language proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

At the time of application, all applicants must have successfully completed a minimum of nine credit hours of calculus (Calculus I, II, III) with a grade of "C" (scale is 4.00 = "A") or higher.

A student with any deficiency coursework must complete each deficiency with a grade of "B" or better (scale is 4.00 = "A") within two semesters of admission to the program. Deficiency courses include:

CSE 110 Principles of Programming
CSE 205 Object-Oriented Programming and Data Structures
IEE 376 Operations Research Deterministic Techniques/Applications
IEE 380 Probability and Statistics for Engineering Problem Solving
IEE 470 Stochastic Operations Research
MAT 242 Elementary Linear Algebra

Students should see the program website for application deadlines.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Industrial Engineering, PHD (ESINDENPHD)

Online Degree Search Title: Industrial Engineering, PhD

Campus: Tempe

Program Description:

The PhD program in industrial engineering engages students in fundamental and applied research in industrial engineering as preparation for careers in academia, government and industry. The overall educational objective of graduate study in industrial engineering is to improve each student's ability to identify, define and solve problems and perform original research to address the underlying causes of these problems. Industrial engineers develop qualitative and quantitative abilities to guide the design and operation of sustainable organizations and systems.

This doctoral program provides a rigorous education and provides students with research and educational experiences that allow them to pursue careers in advanced research and teaching. A large fraction of these students are involved in applied research projects that are carried out in the context of government or privately-funded research. The program provides students access to many opportunities to participate in highly impactful research projects and interact with the leaders of the subfield that they choose to study and specialize in. Hence, many of them graduate with significant accomplishments resulting from the work they performed during the course of their doctoral study. Graduates of the program typically find employment in academia as well as in industrial companies that develop and make use of advanced techniques for the operation of their businesses.

Degree Requirements:

85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (15 credit hours)

IEE 605 Foundations of Information Systems Engineering (3)
IEE 620 Optimization I (3)
IEE 622 Optimization II (3)
IEE 640 Probability and Stochastic Processes (3)
IEE 670 Mathematical Statistics (3)

Electives (42 credit hours)**Research and Internship Required Coursework (16 credit hours)**

IEE 594 Conference and Workshop (1)
IEE 700 Research Methods (1)
IEE 784 Teaching Internship (1)
IEE 790 Reading and Conference (1) OR IEE 584 Internship (1)
IEE 792 Research (12)

Culminating Experience (12 credit hours)

IEE 799 Dissertation (12)

Additional Curriculum Information

Students are required to complete five core courses within the first year of full-time enrollment in the doctoral program. To be allowed to continue in the program after completion of the core courses, each student must take and successfully pass a qualifying exam on three of the five core courses.

Eligible students can request a master's in passing after successfully completing the qualifying exam and completing 30 credit hours in the doctoral program.

A written and an oral comprehensive examination are required no later than the semester following completion of 57 credit hours of coursework in the plan of study. The student must also successfully defend the dissertation prospectus and the dissertation research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • a statement of purpose
- ☐ • GRE scores
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

At the time of application, all applicants must have successfully completed a minimum of nine credit hours of calculus (Calculus I, II, III) with a grade of "C" or higher (2.00 on a 4.00 = "A" scale).

A student with any deficiency coursework must complete each deficiency with a grade of "B" (3.00) or better within two semesters of admission to the program.

Deficiency courses include:

CSE 110 Principles of Programming (3)
CSE 205 Object-Oriented Programming and Data Structures (3)
IEE 376 Operations Research Deterministic Techniques/Applications (3)

IEE 380 Probability and Statistics for Engineering Problem Solving (3)
IEE 470 Stochastic Operations Research (3)
MAT 242 Elementary Linear Algebra (2)

Students should see the program website for application deadlines.

Information Technology, MS (TSIFTMS)

Online Degree Search Title: Information Technology, MS

Campus: Polytechnic

Program Description:

Students who select the MS program in information technology obtain advanced technology skills that prepare them for careers in industry, education or government. Through the curriculum, graduates design and implement information technology solutions, develop and implement enterprise databases, perform technical analysis of systems and networks, design and create technology solutions, and serve as information technology and network communications security analysts.

The program focuses on developing the ability to conceptualize, organize and realize information technology projects that meet the needs of users within an organizational or societal context. Students select coursework that encompasses core technologies in one of three focus areas: security and networking, databases, and enterprise computing. The specialization area and graduate degree culminates in developing an industry focused culminating project related to the student's area of interest.

Accelerated Degrees:

This degree is also offered in an accelerated format with Information Technology, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (IFT 593).

Required Core (15 credit hours)

Focus Area Electives (12 credit hours)

Culminating Experience (3 credit hours)

IFT 593 Applied Project (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in information technology, computer science, applied computing, engineering or a closely related field from a regionally accredited college or university.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE test scores
- ☐ • letters of recommendation

- • proof of English language proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Lean Six Sigma Black Belt (Certificate), Certificate (ESLSSBGRCT)

Online Degree Search Title: Lean Six Sigma Black Belt (Graduate Certificate)

Campus: Tempe, Online

Program Description:

The Lean Six Sigma Black Belt graduate certificate is aimed at engineers and managers who oversee tactical and strategic projects as well as various operational functions in their organizations.

The certificate program aims to provide students with a set of contemporary tools to produce measurable improvements in business processes. In particular, graduates of the certificate program will gain an in-depth understanding of the Define Measure Analyze Improve Control process and the tools used to achieve effective process and product improvement; develop the leadership and team-building skills necessary to oversee continuous improvement projects with many stakeholders; and understand how lean principles and design for Six Sigma fit into the overall task of product and process improvement.

The culminating experience is in line with the Black Belt certification requirements used nationwide in similar certification programs.

Degree Requirements:

15 credit hours including the required capstone courses (IEE 585).

Required Core (6 credit hours)

IEE 570 Advanced Quality Control (3)

IEE 581 Six Sigma Methodology (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

IEE 585 Six Sigma Capstone (3)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- • graduate admission application and application fee
- • official transcripts
- • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students should have completed a course in basic statistics, have taken math courses through vector calculus, and be able to demonstrate computer skills with modern programming languages and software. The basic statistics course should cover descriptive statistics, modeling uncertainty through the use of probability distributions, the concept of hypothesis testing, analysis of variance and confidence intervals, and simple linear regression.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Manufacturing Engineering, MS (TSMEGRMS)

Online Degree Search Title: Manufacturing Engineering, MS

Campus: Polytechnic

Program Description:

Manufacturing engineering draws upon two distinct bodies of knowledge: manufacturing processes (i.e., how materials are altered in either shape or properties) and the processes of manufacturing (i.e., manufacturing systems and management). This combination of topics is embedded in the MS program in manufacturing engineering, and students can follow their interests by developing deeper expertise in either manufacturing processes or the processes of manufacturing.

The program provides advanced technical content to help students prepare for career transitions and improve company competitiveness. It consists of a core set of courses designed to provide all students with advanced knowledge of manufacturing fundamentals and an introduction to systems engineering. The expertise developed in the core curriculum supports student focus areas building on existing unit faculty strengths, including automation, additive and subtractive manufacturing processes (including computer numerical control machining), modeling and simulation, electronics manufacturing and manufacturing management.

Thesis, applied project and capstone course options are offered.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required Applied Project course (EGR 593), or 30 credit hours including the required Capstone course (EGR 570).

Required Core (12 credit hours)

Electives or Research (12-15 credit hours)

Culminating Experience (3 or 6 credit hours)

EGR 570 Capstone Design (3)

EGR 593 Applied Project (3)

EGR 599 Thesis (6)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's or master's degree in engineering, physical sciences, mathematics or similar from a regionally accredited U.S. institution, or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that country.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts

- • professional resume and personal statement
- • GRE scores
- • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Applicants should see the Graduate Admission Services website for requirements <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Materials Science and Engineering, MS (ESMATEMS)

Online Degree Search Title: Materials Science and Engineering, MS

Campus: Tempe, Online

Program Description:

This graduate program prepares students for professional careers in materials science and engineering and related fields in industry, government and educational institutions.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Chemical Engineering, BSE
- Materials Science and Engineering, BSE
- Mechanical Engineering, BSE
- Mechanical Engineering (Computational Mechanics), BSE
- Mechanical Engineering (Energy and Environment), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

32 credit hours and a portfolio, or 32 credit hours and a thesis, or 32 credit hours including the required applied project course (MSE 593).

Required Core (6 credit hours)

- MSE 515 Introduction to Electrical, Magnetic and Optical Properties (3)
- MSE 523 Structural and Mechanical Properties of Materials (3)
- MSE 524 Advanced Thermodynamics (3)
- MSE 526/527 Materials Physics I and II (6)
- MSE 561 Phase Transformations, Kinetics, and Diffusion in Solids (3)

Technical Electives (18 credit hours)

Other Requirement (2 credit hours)

- MSE 591 Seminar (2)

Culminating Experience (0 or 6 credit hours)

- MSE 599 Thesis (6) or portfolio

Additional Curriculum Information

Students must take six credit hours of core courses selected from the list above. Note that the fourth choice requires both MSE 526 and MSE 527 but only the MSE 526 may be counted as a technical elective. This selection is most appropriate for students who have some background in modern physics.

Students must take 18 credit hours of technical electives; they should refer to the master's degree handbook and checksheets for options.

MSE 591 is a one credit hour course to be taken in two semesters. The seminar course consists of a series of seminars presented by invited speakers and graduate students.

The materials science and engineering MS program has two track options: a thesis track and a nonthesis track.

Nonthesis Track -- All students are admitted to the nonthesis track. The nonthesis track has a portfolio option. Students in the portfolio track will submit, in the last semester of their program, a portfolio containing at least two projects from previous materials science and engineering coursework, along with a paper explaining the projects. Students must successfully complete the portfolio requirements to pass the culminating experience. Students completing a portfolio must also take an extra six credit hours of elective coursework to reach the required 32 credit hours for the program. If students wish to change to the thesis track, a faculty advisor has to be secured, and then a petition can be submitted to change to the thesis track.

Thesis Track --- Students in the thesis track must complete a thesis and pass the thesis defense examination.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Admission to the materials science and engineering graduate program is highly competitive. All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts from all prior institutions attended
- ☐ • official GRE score
- ☐ • personal statement
- ☐ • resume or curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English language proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Applicants whose native language is not English are required to achieve a minimum score of 100 on the Internet-based TOEFL.

Admission to the 4+1 degree program requires a 3.50 ASU GPA (scale is 4.00 = "A") in degree-applicable courses. All applications are subject to review and admission is not guaranteed.

Applicants should see the program website for application deadlines.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Materials Science and Engineering, PHD (ESENMATPHD)

Online Degree Search Title: Materials Science and Engineering, PhD

Campus: Tempe

Program Description:

The PhD program in materials science and engineering prepares students for professional careers in materials science and engineering and related fields in industry, government and educational institutions.

This field draws upon a fundamental base of knowledge, with underpinnings in physics, chemistry and engineering. The program extends that knowledge to address a broad range of materials-driven challenges, such as energy efficiency, sustainability, functional nanostructures, electronic

materials, biomaterials and polymers.

Interdisciplinary in nature, the curriculum offers required courses in four core subjects:

- ☐ • advanced thermodynamics
- ☐ • kinetics and phase transformations
- ☐ • physics of materials
- ☐ • structure and properties of materials

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

MSE 515 Introduction to Electronic, Magnetic and Optical Properties (3) or MSE 526/MSE 527 Materials Physics I and II (3)

MSE 523 Structural and Mechanical Properties of Materials (3)

MSE 524 Advanced Thermodynamics (3)

MSE 561 Phase Transformations, Kinetics, and Diffusion in Solids (3)

Electives (3-18 credit hours)

Research (24-39 credit hours)

MSE 792 Research

Other Requirement (3 credit hours)

MSE 591 Seminar (3)

Culminating Experience (12 credit hours)

MSE 799 Dissertation (12)

Additional Curriculum Information

Students entering with a bachelor's degree are required to complete a minimum of 18 credit hours of elective coursework. Graduate elective courses may be selected from any of the graduate courses in the materials science and engineering curriculum as well as elective courses from related disciplines (e.g., chemistry, physics, electrical engineering), subject to approval by the faculty advisor. These courses should comprise a focused plan of study with emphasis in a particular area of materials science, organized in consultation with faculty supervisory committee.

Students entering the doctoral program with a master's degree need to complete 24 credit hours of research (MSE 792). Students entering with a bachelor's degree are required to complete 39 credit hours of research (MSE 792).

MSE 591 is a one credit hour course to be taken in three semesters. The seminar course consists of a series of seminars presented by invited speakers and graduate students. Doctoral students are required to give a seminar presentation once during the academic year after they have begun their research.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework will be made up of electives and research coursework as specified by the academic unit. If the master's degree has not been completed, a maximum of 12 credit hours of graduate work may be applied with program approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from an accredited U.S. or international institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Admission to the materials science and engineering doctoral program is highly competitive. All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE score
- ☐ • personal statement

- ☐ • resume or curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Once the application file is complete, the file is forwarded to the faculty admissions committee for evaluation and recommendation.

The admission process considers all aspects of the student's application. The typical successful applicant has at least a 3.25 cumulative GPA (scale is 4.00 = "A") in engineering and science coursework in a bachelor's or master's degree program and has high GRE and TOEFL scores.

Financial aid is available to highly qualified students. The most common type of financial aid is teaching and research assistantships, which are accompanied by tuition waivers and major medical insurance benefits. Other types of financial aid include Ira A. Fulton Schools of Engineering fellowships and Science Foundation Arizona fellowships.

Students should see the program website for application deadlines.

Mechanical Engineering, MS (ESMEMS)

Online Degree Search Title: Mechanical Engineering, MS

Campus: Tempe

Program Description:

The MS program in mechanical engineering prepares engineers for doctoral study or industrial positions that specialize in research, project management and product innovation in mechanical engineering. The program stresses a sound foundation in technical fundamentals, communication and professionalism. To this end, a broad-based curriculum is offered in design, system dynamics and control; fluid mechanics science and engineering; mechanics and dynamics of solids and structures; and transport phenomena, thermodynamics and energy.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Aerospace Engineering (Aeronautics), BSE
- Aerospace Engineering (Astronautics), BSE
- Aerospace Engineering (Autonomous Vehicle Systems), BSE
- Mechanical Engineering, BSE
- Mechanical Engineering (Computational Mechanics), BSE
- Mechanical Engineering (Energy and Environment), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (MAE 593).

This program offers two options: a thesis option and a nonthesis option. All students are admitted to the nonthesis option unless a faculty thesis advisor is secured, at which time the student can initiate a change to the thesis option.

The plan of study must be in accordance with university and program requirements. A minimum cumulative GPA of 3.00 (scale is 4.00 = "A") is required throughout the program. Candidates for the program must complete a minimum of 30 credit hours of courses at the 500 level and above, with a minimum cumulative GPA of 3.00 or above in the following courses:

- ☐ • at least 12 credit hours of graduate MAE coursework (500 level and above) for thesis students, at least 15 credit hours of graduate MAE coursework (500 level and above) for nonthesis students
- ☐ • at least six credit hours of graduate mathematics-oriented courses (500 level and above)
- ☐ • at least six credit hours of additional graduate (500 level and above) courses, which are not restricted to MAE courses or to other technical electives

- • six credit hours of MAE 599 Thesis for thesis students, or three credit hours of additional graduate electives (500 level and above) for nonthesis portfolio students

A final defense of the thesis will be required for students in the thesis option.

A maximum of three credit hours of MAE 584 Internship may be counted toward this requirement.

These additional three hours of graduate electives are not restricted to MAE courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- • graduate admission application and application fee
- • official transcripts
- • official GRE score
- • personal statement
- • resume or curriculum vitae
- • three letters of recommendation
- • proof of English proficiency

Additional Application Information

Admission to the mechanical engineering graduate program is highly competitive.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency; a minimum score of 80 on the Internet-based TOEFL is required.

Admission to the 4+1 degree program requires a 3.50 ASU GPA (scale is 4.00 = "A") in degree-applicable courses. All applications are subject to review and admission is not guaranteed.

Applicants should see the program website for application deadlines.

Mechanical Engineering, PHD (ESMEPHD)

Online Degree Search Title: Mechanical Engineering, PhD

Campus: Tempe

Program Description:

This doctoral program emphasizes original research and provides students with a strong background for employment by academic institutions, government laboratories and industrial research laboratories with a focus on mechanical engineering. The program stresses a sound foundation in technical fundamentals, communication and professionalism. To this end, a broad-based curriculum is offered in design, system dynamics and control; fluid mechanics science and engineering; mechanics and dynamics of solids and structures; and transport phenomena, thermodynamics, and energy. Modern computational and laboratory facilities are available to support timely research investigations.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

84 credit hours

qualifying exams

written and oral comprehensive exams

prospectus
dissertation

All students pursuing the PhD are required to pass both a qualifying and a comprehensive examination administered by the program committee.

credit hours of coursework directly related to the research area (18)

credit hours of mathematics (9)

credit hours of graduate elective courses outside the major research area (9)

MAE 792 Research

MAE 799 Dissertation credit hours (12)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from an accredited U.S. or international institution.

Applicants must have a minimum of a 3.25 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.25 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • personal statement
- ☐ • resume or curriculum vitae
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

Admission to the mechanical engineering doctoral program is highly competitive. The admission process considers all aspects of the student's application. The typical successful applicant has at least a 3.25 cumulative GPA (scale is 4.00 = "A") in engineering and science coursework in a bachelor's or master's degree program and has high GRE and TOEFL scores. Satisfaction of these conditions does not guarantee admission.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency and is required to achieve a minimum score of 80 on the Internet-based TOEFL.

Applicants should see the program website for application deadlines.

Molecular, Cellular, Tissue, and Biomaterials Engineering (Certificate), Certificate (ESMCTBGRCT)

Online Degree Search Title: Molecular, Cellular, Tissue and Biomaterials Engineering (Graduate Certificate)

Campus: Tempe, Online

Program Description:

Engineers are rapidly improving in the capabilities in manipulating the components of biological systems. Approaches for localized delivery of drugs, genetic manipulations of cells, and building of tissue scaffolds are changing rapidly. The certificate in molecular, cellular, tissue and biomaterials engineering will expose students to many of the principles and techniques which are central to molecular, cellular, tissue and biomaterials engineering. On completion of this certificate program, students will have a set of skills enabling them to participate in engineering biological systems at levels from the molecular to tissues.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)
BME 533 Transport Processes I (3)

Electives (12 credit hours)

Additional Curriculum Information

Students should see the academic unit for an approved list of elective courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Students should see below for more information.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students must have a BS or BSE in biomedical engineering, or BS or BSE in engineering plus advanced (postbaccalaureate) training in medicine, physiology, or related fields, or BS in a science discipline, plus additional background work in biology, thermodynamics, fluids, transport and additional work in medicine, physiology, or related fields. Specifically, applicants will need to demonstrate equivalent proficiency in at least four of the following five areas:

- ☐ • biomaterials
- ☐ • electrical networks or circuits
- ☐ • engineering mechanics
- ☐ • fluid mechanics or engineering transport
- ☐ • thermodynamics or physical chemistry

No admission exams are required.

Neural Engineering (Certificate), Certificate (ESNENGRCT)

Online Degree Search Title: Neural Engineering (Graduate Certificate)

Campus: Online

Program Description:

Technologies for ameliorating neural disorders ranging from epilepsy and stroke to paralysis are developing rapidly. Understanding and deploying these technologies will require specialized skills in neurophysiology, bioelectricity and neural-electronic interfaces. The certificate in neural engineering will prepare clinical, industrial and academic practitioners with those skills through courses in areas of knowledge in neurophysiology, neuroanatomy and neuropathology. Students will then go on to learn of the state-of-the-art neurotechnologies applied to current neural disorders as well as the biophysics which these devices exploit.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

BME 526 Introduction to Neural Engineering (3)

BME 561 Clinical Neuroscience (3)

Electives (9 credit hours)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill both the requirements of the Graduate College and those of the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in BS or BSE in biomedical engineering, or BS or BSE in engineering and advanced (postbaccalaureate) training in medicine, physiology or related fields, or BS in a science discipline, plus additional background work in thermodynamics, fluids, transport and additional work in medicine, physiology or related fields, from a regionally accredited institution. Specifically, applicants will need to demonstrate equivalent proficiency in at least four of the following six areas:

- ☐ • biomaterials
- ☐ • electrical networks or circuits
- ☐ • engineering mechanics
- ☐ • fluid mechanics or engineering transport
- ☐ • signals and systems or control systems
- ☐ • thermodynamics or physical chemistry

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The English proficiency requirement for international applicants is equivalent to the ASU Graduate College policy: TOEFL of at least 550 (PBT) or 80 (iBT), or IELTS overall band score of 6.5.

Nuclear Power Generation (certificate), Certificate (ESNPGGRCT)

Online Degree Search Title: Nuclear Power Generation (Graduate Certificate)

Campus: Tempe, Online

Program Description:

The nuclear power generation graduate certificate program is a transdisciplinary professional option within the Ira A. Fulton Schools of Engineering. The goal of the program is to prepare students and professionals from a variety of engineering and scientific disciplines to work effectively in the nuclear energy industry, including in nuclear power plants, government regulatory agencies and national laboratories. The certificate program offers students a comprehensive, transdisciplinary education as courses from multiple academic units constitute the core and elective classes.

Students typically begin with the study of nuclear science and engineering fundamentals. Subsequent core courses focus on:

- ☐ • nuclear power plant dynamics and diagnostics
- ☐ • nuclear power plant operations and safety
- ☐ • nuclear reactor theory and design
- ☐ • structural materials in nuclear power systems

Elective courses allow students to tailor the remaining studies toward facilitating their career goals and focusing on studies tied to their discipline. Example elective courses include nuclear power engineering, health physics and electrical power plants.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

EEE 562 Nuclear Reactor Theory and Design (3)

EEE 563 Nuclear Reactor System Dynamics and Diagnostics (3)

EEE 564 Interdisciplinary Nuclear Power Operations (3)

MSE 565 Structural Materials in Nuclear Power Systems (3)

Elective (3 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants who hold a bachelor's degree from a regionally accredited institution in an engineering or science discipline, such as physics, chemistry and mathematics, are eligible to apply to the program.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • statement of career and educational goals
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless current residency) must provide proof of English proficiency.

Transcripts should be submitted for all undergraduate and graduate coursework taken.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Sensor Signal and Information Processing (Certificate), Certificate (ESSSIPGRCT)

Online Degree Search Title: Sensor Signal and Information Processing (Grad Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in sensor signal and information processing provides background and application-oriented training in processing and interpreting signals acquired from sensors. The focus is on building knowledge and skills in several sensor network applications.

The program includes courses on signal and data processing for sensor systems. Course topics include digital signal processing, random signal theory, detection and estimation, sensor systems, big data and machine learning. The certificate may be completed with on-campus coursework and iCourses.

The certificate is a professional graduate program. The area of sensor information extraction and interpretation is an enabler for several

applications, including health, sustainability, media, communications and security.

Degree Requirements:

18 credit hours.

Required Core (12 credit hours)

EEE 407 Digital Signal Processing (3) or EEE 509 DSP Algorithms and Software (3)

EEE 510 Multimedia Signal Processing (3)

EEE 554 Random Signal Theory (3)

EEE 556 Detection and Estimation Theory (3) or EEE 606 Adaptive Signal Processing (3)

Electives (6 credit hours)

Additional Curriculum Information

Students choose from EEE 407 or EEE 509 and EEE 556 or EEE 606 as part of the core coursework.

For electives or research, please see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in an engineering or science discipline such as physics, mathematics or computer science from an accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • statement of purpose
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Regular admission will be granted to applicants who have at least 3.00 GPA or equivalent (scale is 4.00 = "A") and are competitive in the applicant pool. All prerequisites to the sensor signal and information processing certificate required courses must be in place (EEE 203 and EEE 350 from ASU, or signals and systems and random signals course equivalents from other universities).

Simulation, Modeling, and Applied Cognitive Science, PHD (TSSMACSPHD)

Online Degree Search Title: Human Systems Engineering, PhD

Campus: Polytechnic

Program Description:

Human systems engineering describes a growing transdisciplinary field (including the disciplines of psychology, engineering and computer science) that explores how people interact with technological and social systems in contexts that include transportation, medicine, military, computing and other complex systems. Cognitive science provides the foundation necessary for integrating human capabilities and limitations into complex sociotechnical systems (i.e., the practice of cognitive engineering), and the application of cognitive science relies heavily on simulation and modeling methods.

A large domain exists in which the coupling of applied cognitive science with simulation and modeling is imperative. Examples include the following:

- ☐ • development of intelligent agents
- ☐ • driving simulators for research on driver distraction
- ☐ • dynamical systems models of team interaction
- ☐ • gaming simulators for studying business decision-making
- ☐ • human-in-the-loop simulation studies of cybersecurity analysis
- ☐ • medical simulation for health care research
- ☐ • models of cognitive states and processes or sociocultural systems
- ☐ • nuclear control room simulation for improved human system integration
- ☐ • pilot training research using aircraft simulators
- ☐ • simulation of consumer behavior
- ☐ • tests of future airspace control concepts using air traffic control simulators

This doctoral program is designed to produce individuals who are well-grounded and skilled in the methods of simulation, modeling and cognitive science. Employers (e.g., Department of Defense, Federal Aviation Administration, Nuclear Regulatory Commission, hospitals, etc.) have an ever-increasing demand for personnel who can bridge the gap between rigorous science and solutions to real-world problems. The doctoral program will provide transdisciplinary, research-driven training in the computing, engineering, technology, applied cognitive science and human systems integration.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students will work with a committee of at least three faculty members to design a plan of study tailored to the student's interests and background. There will be considerable flexibility in setting the plan of study, but it must include a minimum number of credit hours in the areas of foundations, tools and methods, applications, research and scholarship. The program should also aim for a transdisciplinary education by including work in various disciplines. The degree requires 84 credit hours, with up to 30 credit hours accepted from a previously awarded master's degree. Electives can be chosen to provide additional breadth or depth, depending on the student.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's degree in psychology, engineering, cognitive science, computer science or closely related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit all the items below to complete an application file. Files will not be reviewed or considered until all items are submitted and the file is complete.

- ☐ • graduate admission application and application fee
- ☐ • official transcripts from each college or university attended
- ☐ • official GRE general exam scores
- ☐ • statement of research interests
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Complete information on the English proficiency exams and other required documents is available here: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Students should see the program website for application deadlines. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate technical preparation in statistics, cognitive science and software programming. Applicants who lack some of the required preparation still may be admitted but assigned deficiency courses which must be completed within the first semester of starting the graduate program while concurrently enrolled in graduate-level coursework. Deficiencies courses are assigned after admission is granted but before the start of the student's first semester. A faculty member will notify students with deficiencies and the specific course requirements via email.

Software Engineering, MS (TSSERMS)

Online Degree Search Title: Software Engineering, MS

Campus: Polytechnic

Program Description:

The MS program in software engineering focuses on developing advanced knowledge and abilities in the design and application of software. The program involves the application of engineering principles to software development including design methodologies, operation principles, and maintenance and testing approaches. The Master of Science program in software engineering builds upon the BS program in software engineering and is aimed at developing professional skills in this discipline as well as providing opportunities for students to engage in and develop research abilities.

Accelerated Degrees:

This degree is also offered in an accelerated format with Software Engineering, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course SER 593, or 30 credit hours including the required capstone course SER 517.

Required Core (12 credit hours)

SER 501 Advanced Data Structures and Algorithms (3)

SER 502 Emerging Languages and Programming Paradigms (3)

SER 515 Software Enterprise: Inception and Elaboration (3)

SER 516 Software Enterprise: Project and Process Management (3)

Electives (12 credit hours)

Culminating Experience (6 credit hours)

SER 517 Software Factory I (3) and SER 518 Software Factory II (3) or

SER 593 Applied Project (6) or

SER 599 Thesis (6)

Additional Curriculum Information

Students choose one of three culminating experience options. Students completing the capstone for the culminating experience take both SER 517 and SER 518 to fulfill this requirement.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in information technology, computer science, applied computing, engineering or a closely related field from a regionally accredited institution (or international equivalent).

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE test scores
- ☐ • professional resume
- ☐ • personal statement
- ☐ • proof of English language proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

If the student is assigned any deficiency coursework upon admission, those classes must be completed with a grade of "B" (3.00) or higher within two semesters of admission to the program. Deficiency courses include:

CSE 240 Introduction to Programming Languages

CSE 360 Introduction to Software Engineering

SER 222 Design and Analysis of Data Structures and Algorithms OR CSE 310 Data Structures and Algorithms

SER 334 Operating Systems and Networks OR CSE 330 Operating Systems

Solar Energy Engineering and Commercialization, PSM (ESSEECPSM)

Online Degree Search Title: Solar Energy Engineering and Commercialization, PSM

Campus: Tempe

Program Description:

The PSM in solar energy engineering and commercialization offers advanced, interdisciplinary education in solar energy to students with backgrounds in science, technology, engineering or mathematics (i.e., STEM fields). The objective of the program is to enable graduates to pursue careers in industry, government or the nonprofit sector that involve solar energy and its utilization. Students in the program must select courses from technical and nontechnical tracks, including solar energy policy, spanning a number of academic programs and schools. Opportunities exist for engagement with the solar energy industry or government policymakers, leading to a required applied research project that culminates the program. The degree program is meant to be completed in 12 months for full-time students.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Engineering (Electrical Systems), BSE

Mechanical Engineering, BSE

Mechanical Engineering (Computational Mechanics), BSE

Mechanical Engineering (Energy and Environment), BSE

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (MAE 593 or SEC 593).

Required Core (9 credit hours)

GCU 598 Topic: Solar Energy and Public Policy (1)

HSD 594 Solar Energy Policy Workshop (2)

SEC 588 Solar Energy Colloquium (3)

one approved solar photovoltaic graduate course (3)

Electives (15 credit hours)

Culminating Experience (6 credit hours)

SEC 593 Applied Project (6)

Additional Curriculum Information

The solar photovoltaic graduate course for the required core is selected from a list of approved courses, including but not limited to ALT 507 Evaluations of Photovoltaics and Fuel Cell Systems (3), ALT 535 Applied Photovoltaics (3), EEE 565 Solar Cells (3), and EEE 591 Topic: Solar Energy (3).

Of the electives, six credit hours must be selected from the list of technical courses and six credit hours must be selected from the list of nontechnical courses. An additional three credit hours are required and can be selected from either the technical or nontechnical course list. Students should see the academic unit for the approved course lists.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's degree in a field such as science, technology, engineering or mathematics (STEM) from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that country.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts from each institution from which a degree was earned
- ☐ • general GRE
- ☐ • three letters of recommendation
- ☐ • personal statement
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The minimum TOEFL requirement is 550 (PBT) or 80 (iBT --- a score of 90 or higher is recommended). The minimum IELTS requirement is an overall band score of 6.5, with a score of 7.0 or higher recommended. The minimum Pearson Test of English requirement is 60.

Other details regarding English proficiency requirements are described on the Graduate College website at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Sustainable Engineering, MSE (ESSUEMSE)

Online Degree Search Title: Sustainable Engineering, MSE

Campus: Online

Program Description:

The MSE in sustainable engineering is a multidisciplinary graduate program ideal for professionals and graduate-level students with engineering and physical science backgrounds who wish to design a flexible individualized plan of study.

Courses cover such sustainable engineering topic areas as energy systems and alternative energy production, water, transportation, earth systems engineering, industrial ecology, life cycle assessment, environmental technologies, green construction practices and sustainable technology systems.

The goal of sustainable engineering is to enable long-lasting improvement of the human condition. Sustainable engineering transcends traditional engineering education by integrating considerations of complex social, environmental, political and economic factors into engineering theory and practice in order to achieve more economically, technically, environmentally, institutionally and socially efficient and robust solutions.

Degree Requirements:

30 credit hours including a capstone course and a written comprehensive exam, or 30 credit hours including a thesis and written comprehensive exam, or 30 credit hours including the required applied project course (CEE 593) and a written comprehensive exam.

Required Core (12 credit hours)

Infrastructure Systems Track Courses (9 credit hours)

Energy Systems Track Courses (9 credit hours)

Earth Systems Engineering and Industrial Ecology Track Courses (9 credit hours)

Electives (3 credit hours)

Culminating Experience (6 credit hours)

Additional Curriculum Information

Students complete nine credit hours in a selected track. Available track options are infrastructure systems, energy systems, and earth systems engineering and industrial ecology.

Students should see the academic unit for an approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's degree or master's degree in engineering or a closely related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students with a degree in civil engineering, environmental engineering, construction engineering, mechanical engineering or with an engineering degree other than these listed may be admitted, with deficiencies as identified by the sustainable engineering faculty, if appropriate. If the applicant does not have an undergraduate degree in any of these programs, additional requirements may be necessary based upon the applicant's background, including sufficient courses in mathematics that include but are not limited to calculus, differential equations and linear algebra. A faculty committee will determine which required courses are needed on a case-by-case basis.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Systems Engineering, PHD (ESSYSPHD)

Online Degree Search Title: Systems Engineering, PhD

Campus: Polytechnic

Program Description:

The PhD in systems engineering is a transdisciplinary graduate program offered by The Polytechnic School. The program is aimed at advancing the understanding of complex engineering systems, where these systems are inclusive of technological aspects as well as social, cultural, environmental, and other interacting components that impact the input, output and interactions within a system. The program will prepare students to identify, model, analyze, interpret, optimize and manage the multidimensional interactions of the ever-increasing complexity of modern societal and technological challenges.

A typical incoming student in this program would have a master's degree in engineering or related discipline. The core curriculum provides the foundation for systems thinking, systems identification, systems modeling and systems design and analysis using diverse disciplinary methodological approaches. Students in this doctoral program will use the capacity to evaluate complex systems and a depth of mathematical maturity to study problems for which complexity is impeding progress.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, and a dissertation.

Required Core (15 credit hours)

EGR 602 Principles of Independent Research (3)

EGR 608 Advanced Simulation (3)

EGR 611 Complex Engineering Systems (3)

MAE 501 Linear Algebra in Engineering (3)

MAE 502 Partial Differential Equations in Engineering (3)

Electives (15 credit hours)

Research (12 credit hours)

Culminating Experience (12 credit hours)

EGR 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework will be made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's or master's degree in engineering, or a closely related field, from a regionally accredited institution.

Applicants without a master's degree in engineering or a closely related field must have a minimum of a 3.75 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of the student's first bachelor's degree program coupled with a record of research or leadership accomplishments (or both).

Applicants with a master's degree in engineering or a closely related field must have a minimum of 3.25 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree. Exceptional undergraduates are encouraged to apply after completion of a BS degree.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • two letters of recommendation
- ☐ • GRE scores
- ☐ • statement of purpose
- ☐ • resume/CV
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency:

Technology (Alternative Energy Technologies), MSTech (TSATMSTECH)

Online Degree Search Title: Technology (Alternative Energy Technologies), MSTech

Campus: Polytechnic

Program Description:

The MSTech program with a concentration in alternative energy technologies provides students with graduate level expertise in alternative energy

technologies that will provide energy resources in the global economy. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals.

The program provides a hands-on research experience in the alternative energy technologies field. Topics for master's degree theses and applied projects include: the use of energy sources such as solar, wind, ocean, geothermal and biomass; the solar-hydrogen cycle, a renewable energy scenario that relies on production of hydrogen from solar energy; and energy conversion and distribution in a "smart electrical grid." The required research provides students with an opportunity to develop special research and application skills directly related to individual needs and objectives in the field of alternative energy technologies.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (EST 593).

Thesis Option

Concentration (15-16 credit hours)

Supporting Area (8-9 credit hours)

Research Methods (3 credit hours)

EST 500 Research/Writing (2)

EST 591 Seminar (1)

Culminating Experience (6 credit hours)

EST 599 Thesis (6)

At least nine hours of 500-level coursework must be included in the technical concentration. Students may take up to six credit hours of 400-level coursework to broaden their technical knowledge within the concentration or supporting area. Students are required to complete six hours of EST 599 Thesis, write a thesis and make an oral defense. All coursework applied toward the minimum 33 credit hour total must be at the 400 and 500 levels.

Nonthesis Option

Concentration (15-18 credit hours)

Supporting Area (9-12 credit hours)

Research Methods (3 credit hours)

EST 500 Research/Writing (2)

EST 591 Seminar (1)

Culminating Experience (3 credit hours)

EST 593 Applied Project (3)

At least nine hours of 500-level coursework must be included in the technical concentration. A maximum of three credit hours of EST 593 Applied Project may be applied toward the 20 credit hour, 500-level minimum. Additional background deficiency hours may be required. All coursework outside engineering programs must be preapproved by the department chair.

A final oral defense of the applied project is required. A copy of the applied project report or thesis must be submitted before the candidate is eligible for this examination.

Plan of Study

Coursework: The student selects a concentration and supporting area, as well as a subset of courses from each area. Specifically, five or six courses are selected from the concentration area and three or four are selected from the supporting area. Early in the program, the student identifies an advisor for the major who is a faculty member of the department interested in the selected area of concentration. The student works with the advisor and committee to develop the program of study and, subsequently, to carry out the research component of the program.

Research: Each student is required to complete an applied project or thesis within the student's area of emphasis as a part of the degree program. The applied project includes a written report.

Research Activity: Research activities in engineering programs include systems, circuit applications and digital design. Master of Science in Technology candidates will find a broad range of research that can lead to an applied project or thesis.

Admission Requirements:

Applicants must fulfill requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- ☐ • graduate admission application and application fee
- ☐ • official transcript from each college or university attended
- ☐ • official GRE general exam scores
- ☐ • statement of purpose
- ☐ • current resume
- ☐ • optional) three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College website: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

Note: A bachelor's degree that includes a minimum of 30 credit hours or equivalent in a technology area including coursework applicable to the concentration being sought and a minimum of 16 credit hours of mathematics and science is required.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level coursework.

Applicants should see the program website for application deadlines.

Technology (Aviation Management and Human Factors), MSTech (TSHFMSTECH)

Online Degree Search Title: Technology (Aviation Management and Human Factors), MSTech

Campus: Polytechnic

Program Description:

The MSTech degree program offers a concentration in aviation management and human factors. The program's focus is on preparing graduates for a career in the aviation industry and it can serve as the foundation for further advanced study. Courses are offered at the Polytechnic campus, with some courses offered as iCourses. Graduates of this program are provided with technical and professional skills for use in leadership positions in the aviation industry.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Aeronautical Management Technology (Air Traffic Management), BS
- Aeronautical Management Technology (Air Transportation Management), BS
- Aeronautical Management Technology (Professional Flight), BS
- Aeronautical Management Technology (Unmanned Aerial Systems), BS
- Air Traffic Management, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (AMT 593).

Required Core (12 credit hours)

Restricted Electives (3-18 credit hours)

Human Factors Track Option (12 or 15 credit hours)

Aviation Management Track Option (12 or 15 credit hours)

Culminating Experience (3 or 6 credit hours)
AMT 593 Applied Project (3) or
AMT 599 Thesis (6)

Additional Curriculum Information

The detailed design of the graduate student's total program requirements (33 credit hours) with the selection of the required courses will be the responsibility of the student along with the supervisory committee chair and committee members.

All master's degree courses will be 500-level courses. A single course exception (400-level course) may be authorized with the consensus of the supervisory committee. Students in this graduate program also have the opportunity to enroll in operations management technology and human systems engineering graduate courses.

Students may focus their study in a track in aviation management or in human factors. Students in a track complete 12 or 15 credit hours of required track courses, depending upon the culminating experience option selected. Applied project students will complete 15 credit hours (five track courses) and thesis students will complete 12 credit hours (four track courses) selected in consultation with an advisor. In addition, three credit hours of AMT elective coursework are to be chosen in conjunction with the student's advisor or committee.

Students who do not select a track complete 15 or 18 credit hours from the restricted electives list or other courses approved by the student's supervisory committee. All students in the aviation management and human factors concentration must take at least five AMT graduate courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered.

- ☐ • graduate admission application and application fee
- ☐ • official transcript from each college or university attended
- ☐ • official GRE general exam scores
- ☐ • statement of purpose
- ☐ • current resume
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Requirements

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

International applicants can find complete information on the English proficiency exams and other required documents at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Admission to the graduate degree program presupposes an adequate technical preparation in a selected technology at the undergraduate level. The applicant's past work and professional experience are also evaluated and taken into consideration. Undergraduate coursework of admitted applicants to this program generally include calculus and statistics.

Technology (Electronic Systems Engineering Technology), MS^{Tech} (TSSYMSTECH)

Online Degree Search Title: Technology (Electronic Systems Engineering Technology), MS^{Tech}

Campus: Polytechnic

Program Description:

The MSTech program with a concentration in electronic systems provides students with graduate-level expertise in the technology of electronics and its application at a system level. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals. The student selects a combination of courses in a technical concentration and supporting area. The program provides students with an opportunity to conduct research either as a master's degree thesis or as an applied project. This research experience will develop special research and application skills directly related to individual needs and objectives.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (EST 593 or EET 593).

The degree requirements for the master's degree with a concentration in electronic systems engineering technology offered by the department include:

THESIS OPTION

Concentration (15-16 credit hours)

Supporting Area (8-9 credit hours)

Research Methods (3 credit hours)

EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

Culminating Experience (6 credit hours)

EST 599 Thesis (6)

At least nine hours of 500-level coursework must be included in the technical concentration. Students may take up to six credit hours of 400-level coursework to broaden their technical knowledge within the concentration or supporting area. Students are required to complete six hours of EST 599 Thesis, write a thesis and make an oral defense. All coursework applied toward the minimum 33 credit hours total must be at the 400 and 500 levels.

NONTHESIS OPTION

Concentration (15-18 credit hours)

Supporting Area (9-12 credit hours)

Research Methods (3 credit hours)

EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

Culminating Experience (3 credit hours)

EST 593 Applied Project (3)

At least nine credit hours of 500-level coursework must be included in the technical concentration. A maximum of three credit hours of EST 593 Applied Project may be applied toward the 20-credit-hour, 500-level minimum. Additional background deficiency hours may be required. All coursework outside the department must be preapproved by the department chair.

A final oral defense of the applied project is required. A copy of the applied project report or thesis must be submitted before the candidate is eligible for this examination.

Additional Curricular Information

Coursework: The student selects a concentration and supporting area, as well as a subset of courses from each area. Specifically, five to six courses are selected from the concentration area, and three or four are selected from the supporting area. Early in the program, the student identifies a major advisor, who is a faculty member of the department interested in the selected area of concentration, and a committee. The student works with the major advisor and committee to develop the program of study and subsequently to carry out the research component of the program.

Research: Each student, as a part of the degree program, is required to complete an applied project or thesis within the student's area of emphasis. The applied project includes a written report.

Research Activity: Research activities in the department include systems, circuit applications and digital design. Candidates will find a broad range of research that can lead to an applied project or thesis.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

All applicants must submit the following items. Incomplete files will not be reviewed or considered until complete.

- ☐ • graduate admission application and application fee
- ☐ • official transcript from each college or university attended
- ☐ • official GRE general exam scores
- ☐ • statement of purpose
- ☐ • current resume
- ☐ • optional) three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College website: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Note: A bachelor's degree that includes a minimum of 30 credit hours or equivalent in a technology area including coursework applicable to the concentration being sought, and a minimum of 16 credit hours of mathematics and science is required.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Applicants should see the program website for application deadlines.

Technology (Environmental Technology Management), MS^{Tech} (TSMGMSTECH)

Online Degree Search Title: Technology (Environmental Technology Management), MS^{Tech}

Campus: Polytechnic

Program Description:

The MS^{Tech} degree program with a concentration in environmental technology management provides students with a background in the sciences, engineering, environmental science, natural resource management, industrial hygiene or other affiliated areas with the regulatory and technical background to manage complex environmental problems.

Graduate courses are available in a traditional face-to-face format as well as Web-based distance learning. While the faculty and program are based at the Polytechnic campus, the entire program can be completed online. It is possible to complete the program within two years, including summers. Most students are working professionals and are able to finish the degree while working full time. The curriculum includes courses on topics such as:

- ☐ • air pollution
- ☐ • chemistry of hazardous materials
- ☐ • environmental law
- ☐ • solid waste management
- ☐ • hazardous waste management
- ☐ • industrial hygiene
- ☐ • international environmental law and policy
- ☐ • soil and groundwater contamination
- ☐ • sustainable development
- ☐ • toxicology
- ☐ • environmental health
- ☐ • tribal environmental and resource management

Accelerated Degrees:

This degree is also offered in an accelerated format with Environmental and Resource Management, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours and a written exam, or 33 credit hours including the required applied project course (ETM 593 or ERM 593), or 33 credit hours including the required written comprehensive exam.

Required Core (12 credit hours)

Approved Electives (15-21 credit hours)

Research (0-3 credit hours)

ETM 592 Research

Culminating Experience (0-6 credit hours)

ETM 593 Applied Project (3) or

ETM 599 Thesis (6) or

written comprehensive exam (0)

Additional Curriculum Information

Concentration area coursework includes 12 credit hours of core classes and 15 credit hours of approved electives in addition to six credit hours of ETM 599 Thesis or ETM 593 Applied Project and ETM 592 Research. The research requirement is for students completing an applied project. The written comprehensive exam option requires 12 credit hours of core classes and 21 credit hours of approved electives to reach the 33 credit hours required for the program.

Supporting coursework includes the following areas of study:

- ☐ • air pollution
- ☐ • environmental chemistry
- ☐ • environmental health
- ☐ • environmental management leadership
- ☐ • hazardous waste management
- ☐ • homeland security
- ☐ • international environmental law and policy
- ☐ • international environmental management
- ☐ • soils and groundwater contamination
- ☐ • sustainability and sustainable development
- ☐ • sustainable solid waste systems
- ☐ • tribal environmental resource management
- ☐ • water and wastewater treatment technologies
- ☐ • water resource management

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- ☐ • graduate admission application and application fee
- ☐ • official transcript from each college or university attended
- ☐ • official GRE general exam scores
- ☐ • statement of purpose (maximum of 600 words)
- ☐ • current resume
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. International applicants can find complete information on the English proficiency exams and other required documents at <https://students.asu.edu/graduate/international> (<https://students.asu.edu/graduate/international>).

Applicants may opt to submit up to three letters of recommendation.

Students should see the program website for application deadlines. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate preparation in a selected technology at the undergraduate level. The applicant's past work and professional experience are also evaluated and taken into consideration.

Undergraduate coursework of applicants admitted to this program generally includes chemistry, calculus and statistics. Deficiencies for admission to the graduate degree program, if any, are specified at the time of admission.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level coursework.

Technology (Graphic Information Technology), MSTech (TSGIMSTECH)

Online Degree Search Title: Technology (Graphic Information Technology), MSTech

Campus: Polytechnic, Online

Program Description:

The MSTech program with a concentration in graphic information technology provides students with the opportunity to study visual content in the areas of print, Web, photo, video and animation for multi-channel distribution. The courses offered in this degree program provide students with a management-centric approach to the cross-media graphics industry.

The degree program has two study options: ASU Online or ASU's Polytechnic campus. Either option can be done completely at a distance. It is recommended that applicants inquire about differences in the two options before applying. The applicant chooses the option when completing the graduate admission application. The study option cannot be changed once selected.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Applied Science (Graphic Information Technology), BAS
- Applied Science (Internet and Web Development), BAS
- Graphic Information Technology, BS
- Graphic Information Technology (Gaming), BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (TMC 593 or GIT 593).

Students are required to complete a minimum of 33 credit hours of graduate coursework. Of the total 33 credit hours, a minimum of 27 credit hours must be 500-level courses and part of the approved program. Additional courses may be assigned by the faculty supervisory committee, depending on the background of the candidate. The minimum degree requirements are as follows:

Applied Project Option

- technical area of emphasis (18)
- supporting area (9)
- research methods course (3)
- applied project (3)

Thesis Option

- technical area of emphasis (18)
- supporting area (9)
- thesis (6)

Most graduate degree students in this program elect to do an applied project rather than a thesis. The applied project generally allows the student to thoroughly explore a graphics-related problem and demonstrate knowledge of the problem, solutions for the problem and suggestions for further

explanation of the problem. Students in the ASU Online program must select the applied project option.

Courses within the various graphics areas are taught on a rotating basis.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following items. Incomplete files will not be reviewed or considered until complete.

- ☐ • graduate admission application and application fee
- ☐ • official transcript from each college or university attended
- ☐ • official GRE general exam scores
- ☐ • statement of purpose (letter of application)
- ☐ • current resume
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Admission Services website: <https://students.asu.edu/graduate/international> (<https://students.asu.edu/graduate/international>).

Applicants may optionally submit two letters of recommendation.

Admission to the graduate degree program presupposes an adequate technical preparation in a selected technology at the undergraduate level. The applicant's past work and professional experience are also evaluated and taken into consideration.

Undergraduate coursework of admitted applicants to this program generally include precalculus and statistics but are not required. Deficiencies for admission to the graduate degree program, if any, are specified at the time of admission and must be completed within the first year of the graduate program while concurrently enrolled in graduate-level coursework.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Technology (Management of Technology), MStech (TSMRMSTECH)

Online Degree Search Title: Technology (Management of Technology), MStech

Campus: Polytechnic

Program Description:

The MStech program with a concentration in management of technology prepares students for leadership roles as technically proficient professionals in technology-driven organizations, whether private or public. Students are prepared to successfully transition into leadership positions in their fields of expertise and to move into a general leadership role outside their areas of technical expertise as their careers grow.

This degree program is open to individuals with a technical undergraduate degree who wish to develop their leadership and management skills to complement their technical expertise. The curriculum is tailored to the needs of the student, ensuring each student obtains basic leadership and management skills.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Engineering (Automotive Systems), BSE
- Engineering (Electrical Systems), BSE
- Engineering (Mechanical Engineering Systems), BSE
- Engineering (Robotics), BSE
- Technological Entrepreneurship and Management, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (TMC 593).

It is expected that graduates of the program possess skills in research and the ability to apply these research skills in practice. To achieve this goal, each student is required to complete OMT 549 Research Techniques and Applications and either TMC 593 Applied Project or TMC 599 Thesis.

Additionally, each student is required to select four courses from the following list: (12 credit hours)

- OMT 503 Marketing Management (3)
- OMT 504 Ethical Issues in Technology (3)
- OMT 540 International Management (3)
- OMT 548 Statistical Methods for Research (3)
- OMT 592 Research (1-3)
- OMT 598 Special Topics (1-4)
- TMC 584 Internship (1-3)

Graduate courses from other majors may be selected with approval from the student's graduate advisory committee; these additional courses are selected to support the student's individual career goals and perceived needs. With the thesis option, courses are chosen to support the student's research topic and research methods. To ensure that all courses taken will fit into the plan of study, all students are expected to discuss their tentative plan with their program advisors prior to registering for their first class and they must have an approved plan of study on file by the completion of nine credit hours toward the degree.

Students without a statistics course at the undergraduate level will be required to complete an appropriate course during the first semester in the program. This course will be in addition to the other requirements for the degree. Additional courses may be required to fulfill deficiencies, based on a review of the applicant's transcripts. Please contact the department for more information.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • official GRE general exam scores
- ☐ • statement of purpose
- ☐ • current resume
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

Incomplete files will not be reviewed or considered until complete.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College website: <https://students.asu.edu/graduate/international> (<https://students.asu.edu/graduate/international>).

Admission to the graduate degree program presupposes an adequate technical preparation in a selected technology at the undergraduate level.

The applicant's past work and professional experience are also evaluated and taken into consideration. Industrial experience beyond completion of a bachelor's is strongly recommended.

Undergraduate coursework of admitted applicants to this program generally include calculus, technical writing and statistics. Students without a statistics course at the undergraduate level will be assigned a statistics deficiency course. This course will be in addition to the other requirements for the degree. Additional courses may be required to fulfill deficiencies, based on a review of the applicant's transcripts. Deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level coursework.

Technology (Manufacturing Engineering Technology), MSTech (TSMFMSTECH)

Online Degree Search Title: Technology (Manufacturing Engineering Technology), MSTech

Campus: Polytechnic

Program Description:

Manufacturing is in a period of dramatic transformation. Future manufacturing will involve a global supply network to enable innovation, design and integration of products and services. At its core, manufacturing engineering is about creating and delivering products and services that have value to customers and society.

The MSTech program with a concentration in manufacturing engineering technology provides students with graduate level expertise in the technologies and processes integral to this transformation. The program is flexible and permits students to develop a plan of study, with faculty approval, to meet their individual career goals. Students can select a technical focus in manufacturing processes, management or automation. The degree concentration is designed to provide graduates with technical and professional skills that will facilitate preparation for, and advancement in, leadership positions in industry, education, government and military. Laboratories and classrooms are well equipped, and the faculty members teaching the classes have relevant teaching, research, industry, and training experience and background.

Entry into the program requires that the student have a sound technical undergraduate degree, but not necessarily in manufacturing engineering.

Research Activity

The program provides students with an opportunity to conduct research either as a master's thesis or as an applied project. Program faculty are engaged in theoretical and applied research projects, involving undergraduate and graduate students in manufacturing related projects. Graduate students employed in local industry are encouraged to develop research topics that address problems of interest to their employers. Current research interests of the faculty include: machinability and manufacturing processes, manufacturing, manufacturing cost economics, and modeling and simulation.

Theses and applied projects are supported by a number of well-equipped laboratories and facilities:

- ☐ • automation laboratory
- ☐ • composite materials laboratory
- ☐ • computer numerical control machining center laboratory
- ☐ • computer-aided design and computer-aided manufacturing laboratory
- ☐ • energy conversion and combustion laboratory
- ☐ • welding and casting laboratory

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (MET 593).

All coursework applied toward the minimum 33 credit hour total must be at the 400 level or higher with a grade of "B" (3.00 on a 4.00 scale) or higher. A maximum of six credit hours of 400-level coursework may be included in the student's plan of study. An oral defense of the written applied or research project (thesis) is required as the final examination in either option. This defense is typically done during the last semester of study. All coursework outside the Engineering programs must be preapproved and on the plan of study.

Thesis Option

In the thesis option, a minimum of 27 credit hours must be 500-level courses, allowing students to take up to six credit hours of 400-level coursework to broaden their technical knowledge within the technical concentration or a supporting area. The coursework may be a combination of

manufacturing, mechanical or aeronautical engineering technology courses, or a limited number from outside the department. Students are required to complete six credit hours of MET 599 Thesis, write a thesis and present an oral defense.

technical concentration area (18 credit hours)

supporting area (6 credit hours)

research methods courses (3 credit hours)

EST 500 Research Writing (2)

EST 591 Research Seminar (1)

culminating experience (6 credit hours)

MET 599 Thesis (6)

Applied Project Option

In the applied project option, a minimum of 27 credit hours must be 500-level courses, allowing students to take up to six credit hours of 400-level coursework to broaden their technical knowledge within the technical concentration or a supporting area. The coursework may be a combination of manufacturing, mechanical or aeronautical engineering technology courses or a limited number from outside the department. The applied project requires a supporting report; the project and report are defended in a final oral examination.

technical concentration area (18 credit hours)

supporting area (9 credit hours)

research methods courses (3 credit hours)

EST 500 Research Writing (2)

EST 591 Research Seminar (1)

culminating experience (3 credit hours)

MET 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Ira A. Fulton Schools of Engineering.

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- ☐ • graduate admission application and application fee
- ☐ • official transcript from each college or university attended
- ☐ • an English proficiency exam for applicants whose native language is not English
- ☐ • official GRE general exam scores
- ☐ • statement of purpose
- ☐ • current resume
- ☐ • optional) three letters of recommendation

Note: A bachelor's degree that includes a minimum of 30 credit hours or equivalent in a technology area including coursework applicable to the concentration being sought, and a minimum of 16 credit hours of mathematics and science is required.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate College website: <https://students.asu.edu/graduate/international> (<https://students.asu.edu/graduate/international>).

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level coursework.

Future of Innovation in Society, School for the

Applied Ethics and the Professions (Biomedical and Health Ethics), MA (LAAEPMEMA)

Online Degree Search Title: Applied Ethics (Biomedical and Health Ethics), MA

Campus: Tempe

Program Description:

Medicine is infused with moral values and is deeply embedded in a variety of social and cultural contexts which significantly determine the effectiveness of medical care in achieving healthy outcomes for patients and populations. The objective of the biomedical and health ethics concentration is to integrate academic and clinical dimensions of moral issues with medical practice and biomedical research. Students from a broad range of backgrounds will be exposed to the internal and external logics of medicine, health care and biotechnology, and they will gain substantive understanding of ethical, cultural and societal issues in a variety of domains through coursework and other experiences. Students will deliberate individually and collectively about a wide range of issues and problems in contemporary medicine and the history of medicine; develop advanced critical normative reasoning and judgment capacities; and cultivate effective communication skills for academic, clinical and policy contexts.

Degree Requirements:

30 credit hours including the required applied project course (AEP 593).

Required Core (3 credit hours)

AEP 501 Practical and Professional Ethics (3)

Concentration (3 credit hours)

BIO 516 Foundations of Bioethics (3)

Concentration Electives (18 credit hours)

Culminating Experience (6 credit hours)

AEP 593 Applied Project (6)

Additional Curriculum Information

Electives are related to the concentration study. Students must request approval from the chairperson of the degree program prior to selecting elective coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the School for the Future of Innovation in Society.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • personal statement of interest and qualification
- ☐ • resume
- ☐ • two letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE scores are not required.

Applied Ethics and the Professions (Science, Technology and Ethics), MA (LAAEPSEEMA)

Online Degree Search Title: Applied Ethics (Science,Tech and Ethics), MA

Campus: Tempe

Program Description:

The science, technology and ethics concentration of the MA degree program in applied ethics and the professions focuses on the ethical issues that arise from the multiple challenges involved in balancing economic, technological, environmental, social and cultural development in a world increasingly affected by science and technology. It provides the student with a general background in ethics and ethical systems with an emphasis on ethical issues in science and technology. The program also exposes students to new challenges posed by rapidly evolving sociotechnical systems in such areas as:

- ☐ • energy, environment and development
- ☐ • genetic engineering and biotechnology
- ☐ • information and communication technology
- ☐ • nanotechnology
- ☐ • risk assessment
- ☐ • technology and security

Degree Requirements:

30 credit hours including the required applied project course (AEP 593).

Required Core (3 credit hours)

AEP 501 Practical and Professional Ethics (3)

Concentration (3 credit hours)

HSD 598 Science, Technology and Ethics (3)

Concentration Electives (18 credit hours)

Culminating Experience (6 credit hours)

AEP 593 Applied Project (6)

Additional Curriculum Information

Electives are related to the concentration study. Students must request approval from the chairperson of the degree program prior to selecting elective coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the School for the Future of Innovation in Society.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 or higher cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • resume
- ☐ • personal statement of interest and qualification
- ☐ • two letters of recommendation
- ☐ • proof of English language proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Global Development and Innovation (Certificate), Certificate (FIGDIGRCT)

Online Degree Search Title: Global Development and Innovation (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in global development and innovation responds to the knowledge and skills gap that development practitioners often struggle with, and it also connects with innovations that policymakers seek for more sustainable and resilient futures. It provides current and critical perspectives on innovation and development for overseeing and managing complex global challenges, while fostering cultural sensitivities and dispositions. The program graduates will contribute to improving development policy and practices through analysis, integration and incorporation of emerging insights and best practices, making them available to policymakers, practitioners and tech-innovators.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

GTD 501 Global Technology and Development (3)

GTD 511 Development Policy and Practices (3)

Electives (9 credit hours)

Additional Curriculum Information

Students select nine credit hours from a restricted elective list. This list can change and increase over time as needed with unit director approval. Students may select a maximum of three one-credit courses toward fulfillment of the nine total credit hours. Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill both the requirements of the Graduate College and those of the School for the Future of Innovation in Society.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution or the equivalent from an international institution that is officially recognized by that country.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • personal statement
- ☐ • resume
- ☐ • official transcripts
- ☐ • two letters of recommendation
- ☐ • proof of English proficiency

Global Technology and Development, MS (LSGTDMS)

Online Degree Search Title: Global Technology and Development, MS

Campus: Tempe, Online

Program Description:

The MS in global technology and development is a program in international social, economic and political development that highlights the variable of technology and innovation in these development processes and analyzes change within the context of the current era of globalization. One of the central concerns addressed in the program is the global disparity in wealth and access to resources and basic needs, both between and within countries. Students are encouraged to pursue unique research questions in the developed or the developing worlds which engage them in social science research on issues related to technology and human socioeconomic and political development. Students take theoretical, research, policy and regional studies courses to prepare for the master's degree culminating experience.

Accelerated Degrees:

This degree is also offered in an accelerated format with Technological Entrepreneurship and Management, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (GTD 593).

Required Core (12 credit hours)

GTD 501 Global Technology and Development (3)

GTD 503 Technology and the International Political System (3)

GTD 505 Research Design in Technology and Development (3)

GTD 506 Quantitative Analysis in Technology and Development (3)

Restricted Electives (15 credit hours)

Culminating Experience (3 credit hours)

GTD 593 Applied Project (3)

Additional Curriculum Information

For the approved electives course list, students should see the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the School for the Future of Innovation in Society.

Applicants are eligible to apply to the program if they have earned a bachelor's degree from a regionally accredited college or university recognized by ASU in a related field such as political science, international relations, sociology, anthropology, economics, business, education, technology, engineering, life sciences, foreign languages or literature (i.e., topics related to global development, culture or socioeconomic institutions).

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • personal statement
- ☐ • two letters of recommendation
- ☐ • proof of English language proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. A TOEFL score is required. Applicants should visit <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>) for more information.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Human and Social Dimensions of Science and Technology, PHD (GCHSDSTPHD)

Online Degree Search Title: Human and Social Dimensions of Science and Technology, PhD

Campus: Tempe

Program Description:

This program prepares students to teach and conduct research, using humanistic and social science methods, on the social, historical, philosophical and policy foundations of science and technology as well as their interactions with society.

The PhD program in human and social dimensions of science and technology responds to growing demand for transdisciplinary research in the humanities and social sciences that can provide insights into the dynamic relationship between science, technology and society. Solutions to the problems of applying science and technology to human well-being can only be found by fully integrating research from across multiple social science and humanities disciplines.

The program is flexible, combining a strong, integrated, first-year experience with substantial freedom for students who, in conjunction with their advisors, design carefully crafted plans of study relevant to their own areas of specialization and expertise. Unique among programs of this kind nationally, students will also learn to communicate and work with scientists, engineers, policymakers, business and community officials, or the public in conducting and applying research.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (8 credit hours)

HSD 601 HSD I: Human Dimensions of Science and Technology (4)

HSD 602 HSD II: Science, Power and Politics (4)

Culminating Experience (12 credit hours)

HSD 799 Dissertation (12)

Additional Curriculum Information

This is a research degree, culminating in a dissertation, which must draw on multiple disciplinary perspectives.

Students may apply up to 30 hours from a prior master's degree toward the total hour requirement upon approval of the steering committee. Each student, with his or her supervisory committee, develops a unique plan of study, which the student's supervisory committee approves.

Each student completes a yearlong core seminar, a second-year research project, two major fields, one minor field, methods training, electives and research. Students also regularly attend the program colloquia. There are no foreign language or statistics requirements, except as needed for a particular student's selected dissertation project.

Comprehensive Examination

The written dissertation prospectus and its oral defense constitute the written and oral comprehensive examinations required by the Graduate College for advancement to candidacy. Each student develops a written dissertation prospectus, including a bibliography and discussion of relevant research skills. The student makes an oral defense of the dissertation prospectus to his or her supervisory committee, which must approve the prospectus. Students normally complete the dissertation prospectus and its defense in the fifth semester.

Dissertation

The dissertation represents an original body of research that contributes to existing knowledge in a significant way.

Final Examination

Upon completing the dissertation, the student makes an oral defense of the dissertation to the supervisory committee, which must approve the

dissertation. The doctorate is granted upon successful completion of the oral defense and any revisions to the dissertation required by committee members.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the School for the Future of Innovation in Society.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • HSD academic record form
- ☐ • a curriculum vitae or resume
- ☐ • a personal statement
- ☐ • a writing sample
- ☐ • general GRE scores
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. In order to meet English proficiency students must have an IELTS overall band score of at least 6.5 with no band below 6.0, or Pearson Test of English score of at least 60, or a TOEFL score of at least 600 (PBT) or 100 (iBT). ASU's institutional code is 4007. ASU only accepts electronic copies of the TOEFL score report.

Preference is given to students with demonstrated interest and competence in relevant areas of intellectual work.

The personal statement should be one to two single-spaced pages. It must be a statement of proposed research that clearly identifies why the student feels ASU is the appropriate place to pursue their doctorate, identifies one or more faculty members whose interests or work are relevant to the student's proposed research, and describes the goals for pursuing the degree.

The writing sample should be a 10- to 25-page sample of academic writing, such as a course paper, an undergraduate thesis, or an excerpt from a master's thesis.

Students should see the program website for application deadlines.

Science and Technology Policy, MSTP (LAHSDPSM)

Online Degree Search Title: Science and Technology Policy, MSTP

Campus: Tempe

Program Description:

The Arizona State University School for the Future of Innovation in Society's one-year MSTP program uniquely prepares its graduates to have an impact in today's technologically complex world. Drawing on some of the world's leading experts and innovative thinkers, it is designed to train future leaders, policymakers and analysts in tackling complex issues that range from climate change, energy security and responsible innovation to public health, global development and social justice.

The Master of Science and Technology Policy program is suited to anyone interested in a career in which they work to ensure science and technology serve society through responsive and effective policy development and implementation. Students come from a wide range of backgrounds and go on to develop successful careers in government, business, academic institutions and nongovernmental organizations. This is a one-year, 30 credit hour, cohort-based program designed to attract students of the highest caliber early in their careers or mid-career; however, the program may be completed on a part-time basis, if needed.

On completion of the program, students will be able to:

- ☐ • apply critical skills and methods to science and technology policy analysis
- ☐ • apply cutting edge approaches to ensuring socially responsive and responsible technology innovation
- ☐ • contribute to developing and implementing creative solutions to many of today's most complex challenges, including responsible innovation, technological convergence, social and environmental sustainability, health and well-being, energy, equity, development, security, information collection and use, infrastructure, democracy, STEM education, the role of science, and space.
- ☐ • describe the historical, social and institutional foundations of science and technology policy
- ☐ • discuss the complexities of science and technology policy decisions, decision-making under uncertainty and the role of experts
- ☐ • employ effective policy communications skills and techniques
- ☐ • work collaboratively and effectively with experts from different backgrounds, including scientists, engineers and elected officials

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

African and African American Studies, BA

Justice Studies, BS

Justice Studies, BA

Women and Gender Studies, BA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (HSD 593).

Required Core (6 credit hours)

HSD 501 Science and Technology Policy (3)

HSD 502 Advanced Science and Technology Policy (3)

Electives (9 credit hours)

Restricted Electives (6 credit hours)

Other Requirements (6 credit hours)

HSD 505 Science and Technology Policy Workshop (3)

HSD 584 Internship (3)

Culminating Experience (3 credit hours)

HSD 593 Applied Project (3)

Additional Curriculum Information

Restricted electives are from a list provided by the program chair.

The science and technology policy workshop in Washington, D.C., HSD 505, is required of all students pursuing the Master of Science and Technology Policy degree.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the School for the Future of Innovation in Society.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing. Students are strongly encouraged to have prior relevant education, training or experience in science and technology policy; management of science, technology or innovation; or science, technology and society.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

Global Finance (Certificate), Certificate (TBGFINGRCT)

Online Degree Search Title: Global Finance (Graduate Certificate)

Campus: Thunderbird

Program Description:

The graduate certificate program in global finance provides specialized content knowledge in financial management, investments, private equity and portfolio management for business, governmental and nongovernmental entities that operate on a global scale. Knowledge of global and regional economic and political landscapes, multinational tax management and country risk analysis are key in financial decision-making.

The courses in this program position students in multinational entities where the accounting emphasis is on international financial reporting standards (IFRS) rather than the United States' generally accepted accounting principles (GAAP), and financial value creation is contingent on efficient management of cross-border transfer pricing, tax planning, currency hedging and interest rate risks. They help students explore the business and management differences in countries with varying corporate governance, joint venture structures and financial measures of country business performance. Courses emphasize an experiential approach to learning, using case studies featuring companies across the globe with different cultures and complex legal environments.

The certificate program may be completed in one semester, excluding any required prerequisite courses.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

TGM 518 International Finance and Trade (3)

TGM 519 Global Financial Engineering (3)

Electives (9 credit hours)

Additional Curriculum Information

Students choose three elective courses from a restricted list. Additional courses may be utilized with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must have taken TGM 521 Managing for Global Value Creation and TGM 522 Global Financial Decisions, or TGM 502 Financial Management for Global Value Creation, or three credit hour 500-level graduate course with a minimum grade of "B" (scale is 4.00 = "A") or its equivalent. Coursework must be from a regionally accredited institution, from an institution accredited by a business accreditation organization such as the Association to Advance Collegiate Schools of Business (AACSB), European Quality Improvement System (EQUIS) or Association of MBAs (AMBA), or from other institutions with approval of the academic unit.

TGM 551 Global Marketing Strategy (2)
TGM 552 Global Marketing Management (2)
TGM 579 Communicating in a Global Context (2)
TGM 581 Negotiating in a Global Context (2)
TGM 596 Thunderbird Experiential Practicum (4)

Culminating Experience (2 credit hours)

TGM 549 Global Leadership (2)

Additional Curriculum Information

Students must successfully complete TGM 596 in any credit hour combination as long as they complete the four credit hours required for the core of the program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. The program is open to candidates from any undergraduate major.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • resume
- ☐ • one letter of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

GRE or GMAT scores may be required after a complete review of the student's application material (including resume, academic transcripts, and letter of recommendation).

Global Trade and Commerce (Certificate), Certificate (TBGTCMGRCT)

Online Degree Search Title: Global Trade and Commerce (Graduate Certificate)

Campus: Thunderbird

Program Description:

The coursework for the graduate certificate in global trade and commerce is tightly integrated and offers a comprehensive coverage of core topics in cross-border commerce and trade. The intended audiences for the certificate program include working professionals who are graduates of graduate-level business programs who wish to supplement their degrees with focused, graduate-level courses in global logistics and trade, and they are either relatively new to these fields and desire a foundational knowledge of commerce and trade complexities as well as a strong understanding of how companies leverage their global value chains to achieve competitive advantage or they are experienced commerce and trade professionals who wish to update their knowledge of current thinking and best practices through interaction with faculty engaged in broad-based research and consulting.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

SCM 520 Strategic Procurement (3)

SCM 541 Logistics in the Supply Chain (3)

TGM 537 State Power, Business Interests and Multinational Trade Agreements (3)

Electives (6 credit hours)

Students choose two courses from a restricted list. Additional courses may be utilized with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants must have taken TGM 505 States and Markets in a Global Economy with a minimum grade of "B" (scale is 4.00 = "A") or its equivalent from a regionally accredited institution, from an institution accredited by a business accreditation organization such as the Association to Advance Collegiate Schools of Business (AACSB), European Quality Improvement System (EQUIS) or Association of MBAs (AMBA), or other institutions with approval from the academic unit.

Health Solutions, College of

Audiology, AuD (LAAUDAUDD)

Online Degree Search Title: Audiology, AuD

Campus: Tempe

Program Description:

The AuD program is a full-time, three-year residential program with a flexible clinical externship during the fourth year. The program prepares audiologists for autonomous clinical practice and stresses the integration of academic classroom learning and practical experience across a broad spectrum of clinical specialties and practice environments. The program is designed for full-time instruction over a period of 33 months, including three fall and three spring semesters and two summers. The three-year program of study includes academic and clinical practicum components as well as approximately 850 clinical hours completed at both on- and off-campus internship sites. Students may continue their clinical training for up to one year in a clinical externship experience.

Degree Requirements:

86 credit hours and a written comprehensive exam, or 95 credit hours and a written comprehensive exam.

Required Core (57 credit hours)

SHS 502 Basic Audiometry (4)
SHS 504 Amplification I (4)
SHS 505 Survival sign Language (2)
SHS 508 Pediatric Audiology (3)
SHS 510 Amplification II (3)
SHS 511 Auditory Perception of the Hearing Impaired (3)
SHS 513 Neurophysiology of the Auditory System (3)
SHS 516 Auditory Evoked Potentials (4)
SHS 517 Balance Assessment (4)
SHS 518 Auditory Rehabilitation (3)
SHS 520 Auditory Pathologies/Disorders and Otoneurologic Applications (4)
SHS 522 Hearing Conservation and Instrumentation (3)
SHS 523 Advanced Audiometry (3)
SHS 524 Counseling in Communication Disorders (2)
SHS 525 Audiology Practice Management (3)
SHS 526 Launch to Clinical Methods in Audiology (1)
SHS 552 Physiological Measures of Auditory Function (4)
SHS 555 Cochlear Implants (4)

Other Requirements (25-28 credit hours)

SHS 500 Research Methods (3)
SHS 580 Clinical Practicum (8)
SHS 584 Clinical Internship (12)
SHS 589 Topic: Audiology Grand Rounds (2)
SHS 590 Reading and Conference (Audiology Clerkship) (0-3)

Electives and Research (4 credit hours)

Culminating Experience

written comprehensive exam in the form of a passing score on the American Speech-Language-Hearing Association (ASHA) Praxis national certification examination in audiology

Additional Curriculum Information

Students are required to fulfill four credits of electives either through coursework, research, or additional clinical placements.

Students will have the option to continue enrollment in SHS 590 at one credit per semester for up to three semesters to complete the externship requirements of the ASHA certification. These extra hours of clinical experience will allow students to apply for ASHA certification upon graduation. Students should maintain continuous enrollment and not apply for graduation until they have completed the additional clinical hours for the certification.

Eligibility for graduation is based upon the following:

- ☐ • achieving a passing score on the 1st year formative exam
- ☐ • achieving a passing score on the 2nd year summative exam
- ☐ • achieving a passing score on the American Speech-Language-Hearing Association Praxis national certification examination in audiology
- ☐ • successful completion of required academic coursework
- ☐ • successful completion of clinical experiences

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in speech and hearing science or another related discipline, from a regionally accredited institution. Applicants with degrees in related fields such as nursing, education, any of the biological sciences, etc., may apply, although they may be admitted as leveling students and must complete at least one year of prerequisite courses in speech and hearing science at the undergraduate level.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • personal statement
- ☐ • GRE scores
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Admission is a two-stage process involving a review of the application materials and a required on-campus interview. Up to 30 applicants are invited to attend an on-campus interview to complete the second stage of the admission process. Applicants who are not invited to interview or who do not attend the interview are not admitted to the program. Interviews last one full day and are held on a Friday and a Monday in early March. Applicants invited to the interview are notified in February. For applicants with recognized disabilities who cannot visit campus, an alternative interview format may be arranged.

The personal statement should not exceed 200 words and should describe the reasons for pursuing graduate study in audiology; successful applicants submit statements that are free of grammatical errors and demonstrate proficiency in written communication.

Letters of recommendation should outline the applicant's potential success for graduate-level coursework. Letters from faculty members are most useful. We do not use a standard form; letters should be submitted on letterhead from the recommender's institution.

Behavioral Health, DBH (LSBEVHEDBH)

Online Degree Search Title: Behavioral Health, DBH

Campus: Online

Program Description:

The DBH is an innovative and interdisciplinary applied doctorate designed to upgrade master's degree-level professionals to become experts in the emerging field of integrated behavioral care. Integrated care is the holistic treatment of both medical and behavioral conditions that are so common in primary care and other medical settings but often undetected and untreated. The results are poor clinical outcomes and increased medical costs related to overuse of medical services.

A key recommendation in health care reform is improved integration of medical and behavioral care in order to both improve health outcomes and decrease health care costs. The doctoral curriculum is explicitly focused on graduating experts who can both speak the language of evidence-based clinical interventions and the perform cost savings and return on investment analyses that will be in high demand in new models of accountable care delivery. Traditional doctoral training does not prepare clinicians or managers with the interdisciplinary knowledge required to

meet these new demands in the health care marketplace. This program reflects a paradigm shift to a curriculum based on business entrepreneurship skills, such as business plans, marketing and returns on investment specific to health care; evidence-based behavioral interventions for primary care that are efficient and contribute to cost savings by reducing unnecessary medical care services and costs; health care systems policies, economics and finance that respond to emerging opportunities in health care reform; and medical literacy, to understand common medical conditions seen in primary care and consult effectively with the medical team.

The curriculum is unique in that it incorporates internship experience in primary care or similar medical settings, and it integrates clinical and professional affiliated faculty as well as faculty associates who are experts and are directly employed in health care environments in the area that they are teaching. It is a flexible, online degree program that enables students to select a program of study ranging from part-time to full-time attendance, and it is available through ASU Online as a distance-learning program. The program offers either a clinical track for licensed clinicians or a management track for health care managers and leaders, and it replaces the dissertation with a culminating research project that combines an applied research study with a business plan.

Internship experiences are arranged with local site liaisons, and students meet in small groups with a doctoral consultant who leads case reviews and studies. Rural health and experiences with disadvantaged and multicultural populations are encouraged. Graduates of the program will contribute to a societal transformation by leading to improved access to behavioral care, integration of a behavioral provider on the medical team, improved patient outcome and satisfaction, and decreased cost of care.

Degree Requirements:

84 credit hours including the required applied project course (IBC 793).

Required Core (12 credit hours)

IBC 712 Population Based Health Management (3)

IBC 714 Quality and Performance Measurement, Improvement, and Incentives (3)

IBC 718 Healthcare Systems: Organization, Delivery and Economics (3)

IBC 720 Behavioral Health Entrepreneurship (3)

Electives (33 credit hours)

Internship and Culminating Experience (9 credit hours)

Additional Curriculum Information

previously awarded master's degree or other courses approved by the supervisory committee (30 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (on a 4.00 scale) in the applicable master's degree.

All applicants must submit an online graduate admission application. Applicants should see specific concentrations for the items that must be submitted.

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must meet university and degree program English proficiency requirements.

In order to use the 30 credits from a previous master's degree, applicants must possess a bachelor's degree and a master's degree from a regionally accredited postsecondary institution in the U.S. or an equivalent degree from a recognized international postsecondary institution.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Behavioral Health (Clinical), DBH (NHBVHCDBH)

Online Degree Search Title: Behavioral Health (Clinical), DBH

Campus: Online

Program Description:

The DBH with a clinical concentration is an innovative doctoral degree program that provides behavioral health, allied health and medical providers with specific training on integrated primary care. Its unique curriculum focuses on three primary areas: medical literacy, to enhance collaboration with medical providers; evidence-based interventions, for the primary medical setting; and entrepreneurship, in order to comprehensively address the evolving needs of the health care system. Graduates of the clinical concentration are positioned to transform health care delivery through evidence-based treatment that promotes overall health and well-being.

Degree Requirements:

84 credit hours including the required Applied Project Course (IBC 793).

Required Core (12 credit hours)

IBC 712 Population Based Health Management (3)

IBC 714 Quality and Performance Measurement, Improvement, and Incentives (3)

IBC 718 Healthcare Systems: Organization, Delivery and Economics (3)

IBC 720 Behavioral Health Entrepreneurship (3)

Concentration (15 credit hours)

IBC 604 Clinical Medical/Pathophysiology (3)

IBC 608 Psychopharmacology for the Behavioral Care Provider (3)

IBC 609 Clinical Neuropathophysiology (3)

IBC 702 Brief Interventions in Primary Care (3)

IBC 701 Models of Integrated Primary Care (3)

Electives or Research (18 credit hours)

Other Requirement (6 credit hours)

IBC 684 Internship (6)

Culminating Experience (3 credit hours)

IBC 793 Applied Project (3)

Additional Curriculum Information

A previously awarded master's degree from a regionally accredited university or other courses approved by the supervisory committee is required (30 credit hours).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (on a 4.00 scale) in the applicable master's degree.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • personal statement
- ☐ • copy of the applicant's license or license eligibility
- ☐ • one professional letter of recommendation
- ☐ • updated curriculum vitae or resume
- ☐ • program policies acknowledgements

- ☐ • video or webcam admission interview (if indicated)
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants with master's degrees in counseling, family therapy, nursing, occupational health, and social work, among others, are encouraged to apply. Applicants must be master's degree-level professionals who are either currently employed or aspire to be employed in a clinical capacity within integrated health care.

Licensed and license eligible are terms defining a license to practice issued by a state licensing board (e.g., Arizona Board of Behavioral Health Examiners, Arizona Board of Occupational Therapy Examiners, etc.). Examples include:

- ☐ • license eligible master's degree-level behavioral clinician
- ☐ • licensed master's degree-level behavioral clinician
- ☐ • master's degree-level licensed medical or ancillary health care provider (nurse, dietitian, occupational therapist)

Biomedical Diagnostics, MS (NHBMDMS)

Online Degree Search Title: Biomedical Diagnostics, MS

Campus: Online

Program Description:

The MS degree in biomedical diagnostics is a one-year program focusing on the technology, science, business and application of diagnostics. This online degree program is offered by the International School of Biomedical Diagnostics at ASU. The program was developed in partnership with Dublin City University and industry partners, and state-of-the-art online technology is used to offer courses from both institutions. The culminating experience for this degree will include industry and academic partnerships. The program is designed to give a broad perspective of the field with a focus on applied research and best practices in four central areas related to the diagnostics field: technology, science, business and application of diagnostics. This will enable graduates to think critically and globally on all major aspects of biomedical diagnostics.

Degree Requirements:

30 credit hours including an applied project (BMD 593).

Required Core (13 credit hours)

BMD 501 Introduction to Biomedical Informatics (3)

BMD 510 Current Perspectives in Biomedical Diagnostics (3)
BMD 511 Health Economics, Policy and Payment Models (3)
BE 513 Principles of Diagnostic Technology 2: Immunology (4)

Electives (12 credit hours)

Research (2 credit hours)

Culminating Experience (3 credit hours)

BMD 593 Applied Project (3)

Additional Curricular Information

Students will take one or more courses through Dublin City University and will request to transfer that coursework into ASU as part of the degree program. Students should see the academic unit for an approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited college or university in one of the following fields, or a closely related field: biomedical informatics, biology, life sciences, chemistry, biochemistry, engineering, biomedical engineering, business, computer science, supply chain management, health sciences and medical studies.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency (see the Graduate College requirement <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)).

There are no required admission examinations.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Biomedical Informatics, MS (ESBIOINFMS)

Online Degree Search Title: Biomedical Informatics, MS

Campus: Tempe

Program Description:

The Department of Biomedical Informatics is in the College of Health Solutions at Arizona State University. Professionals in the field use biomedical data, information and knowledge to improve human health. Students learn problem-solving, theory and methodologies underlying the field of biomedical informatics. Students will take courses in areas such as knowledge representation, clinical environments, imaging, bioinformatics and data science. Core courses provide a background in clinical informatics, while electives allow specialization in focus areas such as data science or mobile health.

informatics theory to clinical practice. Biomedical informatics has a key role to play in the transformation to more effective and efficient health care through the use of knowledge and information technology.

The program will educate students in the informatics knowledge and skills that will enable them to:

- ☐ • detect disease early
- ☐ • improve the patient hospital experience
- ☐ • improve the precision of diagnosis
- ☐ • improve the quality of patient health care and reduce its cost
- ☐ • minimize hospital visits

Accelerated Degrees:

This degree is also offered in an accelerated format with Biomedical Informatics, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

32 credit hours including an applied project (BMI 593).

Required Core (17 credit hours)

BMI 502 Foundations of Biomedical Informatics Methods I (3)

BMI 504 Introduction to Clinical Environments (3)

BMI 505 Foundations of Biomedical Informatics Methods II (3)

BMI 540 Problem Solving in Biomedical Informatics (3)

BMI 570 BMI Symposium (2)

BMI 601 Fundamentals of Health Informatics (3)

Electives (12 credit hours)

Culminating Experience (3 credit hours)

BMI 593 Applied Project (3)

Additional Curriculum Information

Six of the 12 elective hours must be BMI courses.

Due to the diverse academic backgrounds of students requesting admission into this program, many will find it necessary to take some coursework in preparation. However, all students will take 32 credit hours of graduate-level coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biology, computer science, engineering, nursing or statistics from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • statement of purpose
- ☐ • GRE scores
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency via TOEFL scores.

Applicants who have earned degrees in other unrelated fields with appropriate academic backgrounds also will be considered. However, all applicants must have basic competencies in college-level calculus (similar to MAT 270), general biology (similar to BIO 188) or physiology, statistics (similar to STP 226) and basic computer programming (similar to CSE 100 or CSE 110).

The applicant's undergraduate GPA, statement of purpose and depth of preparation in their field are the primary factors affecting admission. Every

applicant must submit scores for the GRE or any other graduate-level entry examination.

Biomedical Informatics, PHD (ESBMIPHD)

Online Degree Search Title: Biomedical Informatics, PhD

Campus: Tempe

Program Description:

The PhD program in biomedical informatics allows students to develop expertise in areas such as bioinformatics, clinical informatics, population health management and imaging. The BMI program fosters collaborations among academic researchers, clinical practitioners and regional health care providers to apply new developments in informatics theory to clinical practice.

Additional specialization coursework in an area of focus and emphasis on independent research are intended to place these students at the leading edge of the field. Strong collaborative relationships with a variety of health care organizations, the bioscience industry and governmental agencies provide an unparalleled opportunity for doctoral students to explore and contribute to advances in bioinformatics and informatics related to imaging, clinical medicine and population health. Students may explore special foci on cross-cutting areas such as data science and knowledge representation.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (22 credit hours)

BMI 502 Foundations of Biomedical Informatics Methods I (3)
BMI 504 Introduction to Clinical Environments (3)
BMI 505 Foundations of Biomedical Informatics Methods II (3)
BMI 515 Applied Biostatistics in Medicine and Informatics (3)
BMI 540 Problem Solving in Biomedical Informatics (3)
BMI 560 Teaching in Biomedical Informatics (2)
BMI 570 Symposium (2)
BMI 601 Fundamentals of Health Informatics (3)

Electives (38 credit hours)**Research (12 credit hours)**

BMI 792 Research (12)

Culminating Experience (12 credit hours)

BMI 799 Dissertation (12)

Additional Curriculum Information

Due to the diverse academic backgrounds of students requesting admission into this program, many will find it necessary to take some coursework in preparation. However, all students will take 84 credit hours of approved graduate-level coursework.

Admission Requirements:

Applicants must fulfill both the requirements of the Graduate College and those of the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts

- • GRE scores
- • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Scores for the TOEFL for applicants whose native language is not English is required.

An applicant should have earned a bachelor's degree in biology, computer science, engineering or statistics, or be trained as a post-bachelor's degree health professional in medicine, nursing or pharmacy. Those who have earned degrees in other unrelated fields with appropriate academic backgrounds will also be considered. However, all applicants must have basic competencies in anatomy and physiology, college calculus, computer programming, general biology and statistics.

The applicant's undergraduate GPA, statement of purpose and depth of preparation in their field are the primary factors affecting admission. Scores for the GRE (verbal, quantitative and analytical are required; the subject test is optional) or any other graduate-level entry examination.

Clinical Exercise Physiology, MS (NHCEPMS)

Online Degree Search Title: Clinical Exercise Physiology, MS

Campus: Downtown Phoenix

Program Description:

This degree program is preparation for a career as a clinical exercise physiologist, someone who usually works in concert with medical professionals to guide exercise and rehabilitation programs for at-risk clients and clients with chronic diseases.

The American College of Sports Medicine is the national association responsible for establishing guidelines and recommendations for exercise testing, prescription and evaluation of research for both healthy populations and those with chronic disease. The ACSM certification for registered clinical exercise physiologist is deemed "ACSM's most prestigious credential for clinical professionals with a master's degree who work with clients currently under the care of a physician for cardiovascular; pulmonary; metabolic; orthopedic or musculoskeletal; neuromuscular; and neoplastic immunological or hematological diseases." This degree program will provide the knowledge, clinical experience and skills needed to prepare individuals for successful completion of the registration examination for the RCEP certification.

Accelerated Degrees:

This degree is also offered in an accelerated format with Kinesiology, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

36 credit hours and a written comprehensive exam.

Required Core (24 credit hours)

EXW 501 Research Statistics (3)

EXW 536 Physiological Aspects of Physical Activity and Chronic Disease (3)

EXW 542 Health Promotion (3)

EXW 560 Cardiopulmonary Rehabilitation (3)

EXW 562 Functional Assessment and Exercise Prescription for Older Adults (3)

EXW 565 Cardiovascular and Pulmonary Physiology (3)

EXW 568 Management and Treatment of Chronic Disease for the Clinical Exercise Physiologist (3)

KIN 547 ECG Interpretation (3)

Electives (2 credit hours)

EXW 591 Seminar (2)

Research (4 credit hours)

EXW 500 Research Methods (3)

EXW 592 Research (1)

Other Requirement (6 credit hours)
EXW 584 Clinical Exercise Physiology Internship (6)

Culminating Experience (0-6 credit hours)
written comprehensive exam or
EXW 599 Thesis (6)

Additional Curriculum Information
Students take EXW 591 in two terms for 1 credit hour each.

Thesis students must pass a written and oral comprehensive exam.

Students who select the thesis option are not required to participate in the six credit hours of EXW 584 Clinical Exercise Physiology Internship.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in exercise science, exercise physiology, kinesiology or a closely related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of the student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • letter of intent
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

There is no required foreign language exam.

All qualified applicants will be admitted providing they have met all requirements for admission. Admission will not be limited to any target number of students unless enrollment exceeds the projected capacity of the program to provide an adequate, quality program. In the case of space limitations, applicants will be prioritized based on GRE scores, GPA, letters of reference and letter of intent for admission to the program.

Communication Disorders, MS (LACOMDISMS)

Online Degree Search Title: Communication Disorders, MS

Campus: Tempe

Program Description:

The MS in communication disorders is a full time residential program that can be completed in 20 months. This program prepares students to become certified speech-language pathologists. The master's degree program trains students to evaluate and treat clients in nine disorder classification areas. The first year of the program focuses on developing knowledge and skills across the lifespan. The second year of the program allows students to focus their interests in specialty areas and acquire clinical skills in external clinical placements. The program is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.

The program provides a wide range of research and clinical opportunities. Clinical settings include inpatient and outpatient medical sites, public schools, early intervention programs and private practices. A part-time employment program is available for speech-language pathology assistants

who are working in a public school setting.

Degree Requirements:

52 credit hours and a written comprehensive exam, or 52 credit hours, a thesis and a written comprehensive exam.

Required Core (23 credit hours)

SHS 538 Clinical Methods in Speech-Language Pathology (4)

SHS 539 Professional Issues in Speech-Language Pathology (1)

SHS 567 Neural Bases of Communication Disorders (2)

SHS 571 Augmentative Communication and Language Programming (2)

SHS 572 Language Assessment and Intervention in Infants and Toddlers (2)

SHS 573 Language Assessment and Intervention with School-Age Populations (2)

SHS 574 Management of Voice and Swallowing Disorders (2)

SHS 575 Aphasia and Related Neurologic Language Disorders (2)

SHS 582 Differential Diagnosis of Communication Disorders (2)

SHS 585 Articulation and Phonology: Assessment and Intervention (2)

SHS 587 Language Assessment and Intervention with Preschool Populations (2)

Electives (4 or 10 credit hours)

Research (1 credit hour)

SHS 500 Research Methods (1)

Clinical Practicum (8 credit hours)

SHS 580 Clinical Practicum (8)

Internship (10 credit hours)

SHS 584 Clinical Internship (10)

Culminating Experience

written comprehensive exam OR

thesis (6 credit hours) with oral defense and a written comprehensive exam

Additional Curricular Information

Core course SHS 538 is one credit hour taken four times for a total of four credit hours.

Students in the thesis option take four credit hours of electives. Students in the nonthesis option take 10 credit hours of electives. Please see the academic unit for an approved list of elective courses.

Both the thesis and nonthesis options require the American Speech-Language-Hearing Association Praxis national exam in Speech Language Pathology. This is the comprehensive exam for the thesis option. For the nonthesis option, a department-administered comprehensive examination in speech-language pathology is required along with the national exam to fulfill the requirements of the comprehensive exam.

Eligibility for graduation is based up the following:

- ☐ • achieving a passing score on the American Speech-Language-Hearing Association Praxis national certification examination in speech-language pathology
- ☐ • successful completion of the thesis or nonthesis option including the required culminating experience and academic credits
- ☐ • successful completion of clinical experiences

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in speech and hearing science or a related field, from a regionally accredited institution, and completed prerequisite coursework in speech and hearing.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • personal statement not to exceed 300 words

- ☐ • GRE scores
- ☐ • email addresses of three recommenders
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students should see the program website for application deadlines and admission terms. Candidates who have undergraduate deficiencies may need to take required prerequisite courses.

Exercise and Wellness, MS (ECEXERMS)

Online Degree Search Title: Exercise and Wellness, MS

Campus: Downtown Phoenix

Program Description:

The MS program in exercise and wellness offers unique opportunities for those interested in becoming scholarly professionals with advanced training in fitness and wellness, strength and conditioning, exercise and physical activity health promotion, or exercise and chronic disease prevention. The degree program is appropriate for those who wish to pursue careers in commercial fitness and wellness, strength and conditioning, worksite or corporate fitness, community physical activity health promotion, personal training for health and performance or life coaching; for professionals in education, counseling, nutrition, or other health related fields who wish to expand their knowledge and skill for working with fitness, exercise and physical activity behavior; and for those who wish to pursue further graduate study in fields such as exercise physiology, public health or physical therapy.

Degree Requirements:

36 credit hours and a applied project, or 36 credit hours and a thesis, or 36 credit hours and a written comprehensive exam.

Required Core (9 credit hours)

EXW 501 Research Statistics (3)

EXW 536 Physiological Aspects of Physical Activity and Chronic Disease (3)

EXW 542 Health Promotion (3)

Research (6 credit hours)

EXW 500 Research Methods (3)

EXW 591 Exercise and Wellness Seminar (1)

EXW 592 Research (2)

Electives (15-21 credit hours)

Culminating Experience (0-6 credit hours)

EXW 599 Thesis (6) or

EXW 593 Applied Project (6) or

written comprehensive exam

Additional Curriculum Information

All students must focus their plan of study in one of two areas: health promotion and physical activity or fitness and conditioning. The focus will determine the choice of electives available to students. For a list of approved elective courses, students should see the academic unit.

All students are admitted to the nonthesis option but may apply to the thesis option.

The nonthesis option requires an applied project or a written comprehensive exam as the culminating experience. The nonthesis option is an appropriate choice for those students who cannot devote full-time to their research endeavors or for students who are seeking to continue their education, advance their skill level as practitioners or advance their current careers. Students who take the written comprehensive exam are required to take six additional elective courses in the focus area.

In the thesis option, the thesis is considered the final integrative experience of the degree; it involves conducting research that is guided by a recognized research paradigm (e.g., scientific, interpretive) and producing a scholarly report of the process and results. The thesis option is a good choice for students who are interested in pursuing more advanced graduate study in the field.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution. Students are expected to have the coursework and undergraduate credit for the basic courses required for a BS degree in exercise and wellness. Students who do not have these course competencies can be admitted with deficiencies. Deficiencies are determined upon admission, and these courses must be completed, usually by the end of the first year of study. These courses are not considered part of the graduate plan of study. A graduate course may be substituted for a deficiency but will be evaluated on a case-by-case basis.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • statement of career or research interests
- ☐ • three professional letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must submit proof of English proficiency.

The following courses must be completed prior to or during the master's degree as deficiencies. The corresponding ASU course can be found in parentheses:

Human Anatomy and Laboratory (BIO 201 Human Anatomy and Physiology I)
Human Physiology and Laboratory (BIO 202 Human Anatomy and Physiology II)
Human Nutrition (NTR 241 Human Nutrition)
Exercise Physiology and Laboratory (EXW 315 Physiological Foundations of Movement)
Kinesiology and Laboratory (EXW 330 Kinesiological Foundations of Movement)
Exercise Testing and Laboratory (EXW 420 Exercise Testing)
Exercise Prescription (EXW 425 Exercise Prescription)

An undergraduate course in statistics is strongly recommended.

Students should see the program website for application deadlines.

Exercise and Wellness (Healthy Aging), MS (NHEXWHMS)

Online Degree Search Title: Exercise and Wellness (Healthy Aging), MS

Campus: Downtown Phoenix

Program Description:

The MS program in exercise and wellness with a concentration in healthy aging prepares the graduate student in the delivery of physical activity programs to older adults. Program content includes the theories of aging; the impact of aging on functional capacity and motor abilities; the role of lifestyle behaviors in aging, physical activity assessment and programming for older adults; physical activity and nutritional influences on healthful aging; and the relationship of exercise and chronic disease.

Degree Requirements:

36 credit hours and a thesis, or 36 credit hours and a written comprehensive exam, or 36 credit hours including a capstone course (EXW 597).

Required Core (9 credit hours)

EXW 501 Research Statistics (3)

EXW 536 Physiological Aspects of Physical Activity and Chronic Disease (3)

EXW 542 Health Promotion (3)

Concentration (15 credit hours)

EXW 535 Advanced Exercise Assessment and Prescription (3)

EXW 540 Mindfulness, Stress and Health (3)

EXW 568 Management and Treatment of Chronic Disease for the Clinical Exercise Physiologist (3)

KIN 523 Motor Control and Aging (3) OR EXW 635 Physical Activity and Aging (3)

NTR 551 Geriatric Nutrition (3)

Research (6 credit hours)

EXW 500 Research Methods (3)

EXW 591 Seminar (1)

EXW 592 Research (2)

Other Requirement (6)

EXW 584 Internship (6)

Culminating Experience (0 or 6 credit hours)

EXW 597 Capstone Project (6) OR

EXW 599 Thesis (6) OR

written comprehensive exam (0)

Additional Curriculum Information

EXW 584 Internship is only taken by students who select the written comprehensive exam culminating experience option.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • statement of career or research interests
- ☐ • three professional letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

Applicants are expected to have the coursework and undergraduate credit for the basic courses required for a BS degree in exercise and wellness. Students who do not have these course competencies can be admitted with deficiencies. Deficiencies are determined upon admission, and these courses must be completed, usually by the end of the first year of study. These courses are not considered part of the graduate plan of study. Health Informatics, MAS (GCHLHINMAS)

Online Degree Search Title: Health Informatics, MAS

Campus: Online

Program Description:

The MAS degree in health informatics is designed to offer professionals working in the field of health care an opportunity to earn a master-level degree on the effective use of information technology, data science, and knowledge representation to impact health and health care. Professionals in nonhealth fields can also enhance their skills to transition to careers in this rapidly expanding field. Core courses provide a background in clinical informatics, while electives allow one to specialize in focus areas such as data science or mobile health. The degree prepares graduates to enhance their skills for careers in a wide range of health care settings.

Degree Requirements:

30 credit hours including the required applied project course (BMI 593).

Required Core (12 credit hours)

BMI 601 Fundamentals of Health Informatics (3)

BMI 603 Health Informatics Database Modeling and Applications (3)

BMI 614 Current Perspectives in Health Informatics (3)

BMI 616 Clinical Decision Support and Evidence-Based Medicine (3)

Electives (15 credit hours)

Culminating Experience (3 credit hours)

BMI 593 Applied Project

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in a related field such as biology, computer science, medicine, nursing, pharmacy or public health, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • current resume or curriculum vitae
- ☐ • two letters of recommendation
- ☐ • statement of purpose
- ☐ • proof of English proficiency

Additional Admission Requirements

Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency. A TOEFL score is required for applicants whose native language is not English.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Integrated Health Care, MIHC (NHIH/CMHC)

Online Degree Search Title: Integrated Health Care, MIHC

Campus: Downtown Phoenix

Program Description:

The MIHC Master of Integrated Health Care program is designed to prepare graduates to develop, implement, evaluate and sustain integrated care programs in health care settings. Integrated behavioral care is the delivery of coordinated, integrated care for medical and behavioral conditions and the lifestyle behavior changes necessary for improved disease prevention and management. The Master of Integrated Health Care curriculum is designed to provide students a foundation in models of integrated care, evidence-based interventions, and quality and performance management necessary to meet the "triple aim" of health care reform: improved patient experience of care, population health management, and cost-savings. The degree program is expected to prepare graduates to meet the demand for integrated care programs in the emerging market that includes both the patient-centered, primary care medical home and the accountable care organization. This program is designed to benefit both health care clinicians with management responsibilities and managers or executives in health care settings.

Degree Requirements:

Required Core (21 credit hours)

IBC 520 Integrated Health Care: The Patient-Centered Medical Home (PCMH) (3)

IBC 530 Evidence-based Integrated Health Care (3)

IBC 540 Integrated Health Care Process Improvement (3)

IBC 550 Integrated Care Business Operations (3)

IBC 560 Strategic Business Planning and Big Data (3)

IBC 570 Financial Management (3)

IBC 585 Interprofessional Consultation, Leadership and Teamwork in Integrated Health Care (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)

IBC 593 Applied Project (3)

Additional Curricular Information

Students select HCI 500-level elective courses with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a minimum of bachelor's degree in social or behavioral sciences, health, business, public health, management or a related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • personal statement
- ☐ • official transcripts
- ☐ • curriculum vitae

- ☐ • letters of recommendation
- ☐ • proof of English proficiency

Nutrition, MS (ECHNUTMS)

Online Degree Search Title: Nutrition, MS

Campus: Downtown Phoenix

Program Description:

The MS program in human nutrition is based on the scientific foundations of nutrition, but also prepares students to have strong writing skills, computer literacy, interpretive expertise, problem-solving skills and research experiences. Students who have completed an accredited Didactic Program in Dietetics may also elect to apply to the ASU dietetic internship in order to meet the requirements to become a registered dietitian. (See <https://chs.asu.edu/programs/schools/school-nutrition-and-health-promotion/how-become-registered-dietitian> (<https://chs.asu.edu/programs/schools/school-nutrition-and-health-promotion/how-become-registered-dietitian>) for more information.)

The primary objective of the graduate program in nutrition is to provide advanced training in nutrition research. Graduate students are expected to develop competencies in research methods and in advanced practice knowledge relevant to their area of study. The skills and knowledge acquired during the course of training should enable each student to develop professional competencies that can be applied to significant problems and issues within the field of nutrition and dietetics.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required Applied Project course (NTR 593).

Required Core (6 credit hours)

NTR 500 Research Methods (3)

NTR 501 Research Methods in Nutrition II (3)

Concentration (6 credit hours)

Electives (9 credit hours)

Statistics (3 credit hours)

Culminating Experience (6 credit hours)

NTR 593 Applied Project (6) or

NTR 599 Thesis (6)

Additional Curriculum Information

For the concentration, electives, and statistics requirements, students should see the academic unit for the approved course lists. Possible approved courses may include nutrition seminars. Graduate-level nutrition seminars vary by semester, in topics and availability. Current topics include:

NTR 503 Designing Health Behavior Change Interventions (3)

NTR 523 Vegetarian Nutrition (3)

NTR 527 Policies, Environment and Obesity Prevention (3)

NTR 529 Pediatric Nutrition (3)

NTR 532 Endocrine Pathophysiology and Nutrition (3)

NTR 535 Nutrigenomics (3)

NTR 537 Evidenced-Based Nutrition (3)

NTR 555 Nutrition and the Athlete (3)

NTR 598 Special Topics (3)

NTR 598 seminars reflect the changing nature of research and cover different subject areas each semester. Recent seminars include Advanced MNT, epidemiology, eating disorders, and sports nutrition.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree (nutrition or science is recommended) from a regionally accredited institution. Students who are pursuing the Master of Science in nutrition will need to complete the following prerequisites:

- ☐ • anatomy and physiology
- ☐ • biochemistry
- ☐ • general chemistry with lab
- ☐ • general nutrition for majors
- ☐ • microbiology
- ☐ • organic chemistry with lab
- ☐ • statistics

These courses are part of the ASU didactic program in dietetics required for ASU's BS degree in dietetics and to be eligible to apply for admission into an accredited dietetic internship to become a Registered Dietitian. If an applicant has completed a DPD program from another university, these prerequisites will be considered complete. Prerequisite courses can be in progress when the student submits the application; however, if the student is accepted into the Master of Science degree program, all prerequisites must be completed before the program begins in the fall semester.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • resume
- ☐ • personal statement
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

A resume that summarizes the academic, volunteer, and employment experiences of the applicant needs to be submitted with the graduate admission application.

A personal statement that includes the following must be submitted with the graduate admission application:

- ☐ • a description of the applicant's significant professional responsibilities
- ☐ • the applicant's professional goals and the reasons for the desire to enroll in ASU's program
- ☐ • the applicant's strengths that will allow the applicant success in the program and in reaching professional goals
- ☐ • the applicant's personal research interests, described as specifically as possible, including any previous research experience

Three letters of recommendation are required, including at least one from an instructor at the applicant's undergraduate school. Letters of recommendation can be submitted with the graduate admission online application.

There is not a required foreign language examination for this program.

No interview is required.

Nutrition (Dietetics), MS (ECNTRDMS)

Online Degree Search Title: Nutrition (Dietetics), MS

Campus: Online

Program Description:

The MS program in human nutrition with a dietetics concentration is a nonthesis option for registered dietitians seeking to continue their education and advance their skills as practitioners. Designed with working professionals and students' learning preferences in mind, two program options are available: in-person and online. Both the in-person and online formats can be completed either full time or part time. The in-person courses are offered at the Downtown Phoenix campus one evening a week in the classroom. Students who enroll in the online program complete coursework entirely online without the in-person option. The program is based on the scientific foundations of nutrition and prepares students to have strong writing skills, computer literacy, interpretive expertise and problem-solving skills.

Applicants to the Master of Science degree program in nutrition with a concentration in dietetics must have one year of full-time work experience as a registered dietitian; however, applicants will not have to be employed at the time they apply to the program nor will students have to be employed to maintain in good standing with the program.

Degree Requirements:

30 credit hours including the required applied project course (NTR 593).

Required Core (6 credit hours)

NTR 500 Research Methods (3)

NTR 501 Research Methods in Nutrition II (3)

Concentration (6 credit hours)

Electives (9 credit hours)

Statistics (3 credit hours)

Culminating Experience (6 credit hours)

NTR 593 Applied Project (6)

Additional Curriculum Information

For the concentration, electives, and statistics requirements, students should see the academic unit for the approved course lists. Possible approved courses may include nutrition seminars. Note that graduate-level nutrition seminars vary by semester, in topics and availability. Current topics include:

NTR 503 Designing Health Behavior Change Interventions (3)

NTR 523 Vegetarian Nutrition (3)

NTR 527 Policies, Environment and Obesity Prevention (3)

NTR 529 Pediatric Nutrition (3)

NTR 532 Endocrine Pathophysiology and Nutrition (3)

NTR 535 Nutrigenomics (3)

NTR 537 Evidenced-Based Nutrition (3)

NTR 555 Nutrition and the Athlete (3)

NTR 598 Special Topics (3)

NTR 598 seminars reflect the changing nature of research and cover different subject areas each semester. Recent seminars include global nutrition, public health, functional foods and sports nutrition.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are required to have adequate academic preparation which includes a minimum of a BS or BA degree, current RD credential, and one year of full-time work experience as an RD.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of Registered Dietitian status
- ☐ • resume

- ☐ • personal statement
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency via a TOEFL score.

Applicants should submit proof of Registered Dietitian status by accessing the Commission on Dietetic Registration's website (<https://www.cdrnet.org/> (<https://www.cdrnet.org/>)) and complete the verification process using the Online Credential Verification Search.

A resume is required that summarizes the applicant's academic, volunteer, and employment experiences.

Also required is a one- to two-page, typed, double-spaced, personal statement addressing the following: significant professional responsibilities the applicant has held; professional goals and reasons for desiring to enroll in this program; strengths that will help the applicant succeed in this program and in reaching their professional goals; and, personal interests in research, including, if applicable, studies involving the practice of dietetics.

Three letters of recommendation are to be submitted with the application, including at least one from an employer or work supervisor.

Because passing the Registered Dietitian exam and gaining work experience in the field of dietetics are required for successful admission to the MS in human nutrition, dietetics concentration, the Nutrition Program Graduate Committee does not require applicants to take or submit scores from the GRE. In lieu of GRE scores, a telephone interview may be conducted.

There is not a required foreign language examination for this program.

A personal or phone interview may be required.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Obesity Prevention and Management, MS (NHOB SMS)

Online Degree Search Title: Obesity Prevention and Management, MS

Campus: Downtown Phoenix

Program Description:

The MS in obesity prevention and management is an innovative, transdisciplinary degree program that draws on a wide array of expertise at ASU. The curriculum is designed to integrate perspectives from the social, applied, life and health sciences and provides advanced, graduate-level, problem-focused, experiential training that is grounded in evidence and best practices for effective prevention and management of obesity.

This degree program is geared toward postbaccalaureate students and professionals who wish to advance their understanding of the social, cultural, environmental, health and psychological issues associated with obesity. The program emphasizes the complex etiology of obesity and includes courses that will enhance students' ability to work with individuals and populations at risk of obesity to develop effective strategies for prevention and management of the condition across the lifespan.

Degree Requirements:

30 credit hours including a thesis, or 30 credit hours including an applied project (OBS 593).

Required Core (3 credit hours)

OBS 501 Obesity Prevention and Management: An Introduction (3)

Electives (21 credit hours)

Culminating Experience (6 credit hours)
OBS 593 Applied Project (6) or
OBS 599 Thesis (6)

Additional Curriculum Information

Students choose one three-credit hour elective course from each of the following categories: concepts in behavior change, research methods and statistics.

Additional elective course selections will depend upon the student's chosen track. Students will select six credits from prescribed categories for each track and six credits from the following categories: cultural aspects of behavior change, general track, public health approaches for behavior change, and technological approaches for behavior change.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's (or equivalent) or master's degree in social or health science related fields from a regionally accredited institution. The following entry-level competencies are needed for admission to the program: Students should have completed undergraduate-level courses in statistics and psychology and, ideally, have completed one or more courses in nutrition, physiology and chemistry.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores (verbal, quantitative and analytical)
- ☐ • statement of educational and career goals
- ☐ • writing sample
- ☐ • letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

No foreign language examinations are required for admittance to the program.

Writing sample: A two- to three-page application letter is required in which applicants explain why they want to pursue this degree and why they feel well-prepared to succeed in this graduate program.

Physical Activity, Nutrition and Wellness, PHD (ECNUTRIPHD)

Online Degree Search Title: Physical Activity, Nutrition, and Wellness, PhD

Campus: Downtown Phoenix

Program Description:

The graduate faculty mentors of the School of Nutrition and Health Promotion in the College of Health Solutions offer a PhD degree in physical activity, nutrition and wellness. The mission of the program is to foster research which will promote healthy lifestyles intended to reduce the physical, social and economic costs of unhealthy living. While many healthy lifestyles are studied, the emphasis is on physically active living and sound nutrition.

Students are challenged to integrate disciplinary information from the exercise and nutrition sciences in combination with health promotion research. Thus the doctoral program in physical activity, nutrition and wellness is uniquely designed to train scholars to conduct high impact, transdisciplinary health promotion research that explores issues that contribute to health through chronic disease risk reduction, quality of life promotion and enhancement of well-being.

Program graduates are prepared for research careers. The majority (70 percent) have procured postdoctoral research fellowships, research faculty positions in research intensive universities, or have obtained research positions in the nonprofit industry, government or in for-profit private sector research institutes. About 30 percent of graduates secure clinical or teaching-intensive positions upon graduation.

The program requires full-time residency and typically is completed within four years of full-time study after the master's degree. Students work with an approved mentor from the beginning to the end of the doctoral program. A mentor is selected by mutual agreement between student and mentor based on mutually compatible research interests and funding availability.

Students are actively engaged in research at every stage of the program through participation in research internships, independent research experiences, research seminars and colloquia, and dissertation research.

Degree Requirements:

97 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

EXW 640 Analysis of Variance for Exercise and Wellness (3)

EXW 643 Correlation/Regression/Multivariate Statistics (3)

Required Research (12 credit hours)

Elective Research (17 credit hours)

Professional Development (5 credit hours)

Area of Focus (theme) (15 credit hours)

Dissertation (12 credit hours)

Additional Curriculum Information

Students are to tailor a course of study in either: nutrition and health, or physical activity and health. Within these areas, students are expected to focus their study in a specific thematic area. There are eight thematic areas to choose from:

- ☐ • behavioral aspects of nutrition and physical activity
- ☐ • biomechanics, movement control and injury prevention
- ☐ • chronic disease prevention
- ☐ • energy balance, metabolism and physiology
- ☐ • epidemiology, surveillance and measurement
- ☐ • health information, communication and technology
- ☐ • lifespan, aging and special populations
- ☐ • public health, community and health policy

Courses in the focus or thematic area are determined by the student and supervisory committee. Up to three but not more than nine credit hours in the focus area may be taken from a program outside the nutrition, exercise science and health promotion programs.

When approved by the student's supervisory committee and Graduate College, 30 credit hours from a previously awarded master's degree are allowed to be used for this degree.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

In addition to meeting the Graduate College requirements, applicants must have successfully received a master's degree prior to admission to the program, and it is preferable that a data-based research thesis has been completed.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, and applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores (verbal, quantitative and writing)
- ☐ • letter of intent

- ☐ • professional resume
- ☐ • three letters of recommendation
- ☐ • teaching or research assistantship application
- ☐ • writing sample (six to 10 pages)
- ☐ • an oral interview with program faculty (in person or via Skype) prior to acceptance
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English, regardless of current residency, must submit a TOEFL score unless the requirements for an exception have been met. Details are available at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

The letter of intent should indicate research or scholarly interest, primary program area, statement of career goals and name of a potential faculty mentor from the list of approved faculty mentors.

Prerequisites

All applicants must have taken a graduate level research methods and a graduate level research statistics course prior to admission. Students will be expected to take a pretest in research methods and research statistics the summer prior to enrolling.

It is expected that students admitted to the program will have documented academic training and a strong interest in exercise science, nutrition science or health promotion. Thus, depending on the student's academic training, background, scholarly interests and focus area, a student may be asked to take undergraduate courses as deficiencies prior to or concurrently with graduate course enrollment.

Pathways through program

Two pathways through the program are available to students depending on their funding source: full-time via TA/RA funding, or part-time self-funded. With both pathways, the intent is to involve and embed students in ongoing research as well as in class study throughout their stay.

Students should see the program website for application deadlines and admission terms.

Science of Health Care Delivery, MS (NHSCHDMS)

Online Degree Search Title: Science of Health Care Delivery, MS

Campus: Downtown Phoenix, Online

Program Description:

The MS program in the science of health care delivery focuses on the study and design of systems, processes, leadership and management used to optimize health care delivery and health for all. This degree program provides students with knowledge and competencies to contribute in a patient-centered, safe and cost-effective health care system, and is designed for individuals with an interest in a career in the health care industry.

The curriculum is centered on high-value care, leadership and critical thinking, population health, informatics, systems engineering, management, and health economics and policy. Students apply concepts through case studies and team-based projects to facilitate integration of knowledge and competencies. Participating students work in a cohort through the program and are able to complete the degree in nine months (one academic year).

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Medical Studies, BS

Science of Health Care Delivery, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (HCD 550).

Required Core (24 credit hours)

BMI 601 Fundamentals of Health Informatics (3)

HCD 501 Biostatistics and Data Management (3)
HCD 502 Health Care Systems and Design (3)
HCD 511 Health Economics, Policy, and Payment Models (3)
HCD 520 Population Health (3)
HCD 532 Health Care Management and Finance (3)
HCD 570 Process Engineering (3)
HCD 575 Leadership and Professionalism (3)

Electives (3 credit hours)

Research (2 credit hours)
HCD 592 Research (2)

Culminating Experience (1 credit hour)
HCD 550 Capstone (1)

Additional Curriculum Information

Elective coursework must be 500 level and must be from the HCD course prefix.

Students take two credit hours of HCD 592 Research in one credit hour increments.

Admission Requirements:

Applicants must fulfill requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited college or university of recognized standing in a related field such as biology, chemistry, biochemistry, nursing, public health, pharmacy, biomedical informatics, social work, premed, prehealth, nutrition, health promotion or others.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 credit hours of a student's first bachelor's degree program, or applicants must have a minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • three letters of reference
- ☐ • personal statement
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Three letters of reference from either academic or professional sources are required; reference letters from friends or relatives will not be accepted. Letters demonstrating involvement in health care, community service or leadership are encouraged.

A personal statement must be submitted that explains how the applicant plans to contribute to the health care system after the degree is obtained; how the program will help the applicant achieve their goals; what the applicant's career aspirations are; and what interested the applicant in this degree program.

A phone or video conference interview with the admissions committee may be required.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Science of Health Care Delivery (Certificate), Certificate (NHHCDGRCT)

Online Degree Search Title: Science of Health Care Delivery (Graduate Certificate)

Campus: Online

Program Description:

Change in the health care system has accelerated in the past five years and will continue to do so as the health care system transforms itself to one based on value rather than on volume. The certificate program in the science of health care delivery addresses the current and future needs of the workforce in the health care industry, such as C-suite executives and administrators, health care providers (physicians, physician assistants, nurse practitioners, nurses), front line staff (respiratory therapists, occupational therapists, physical therapists, dietitians), and students in the health-related disciplines.

Degree Requirements:

Required Core (8 credit hours)

HCD 502 Health Care Systems and Design (3)

HCD 511 Health Economics, Policy and Payment Models (3)

HCD 540 Seminar in Science of Health Care Delivery (2)

Track (7 credit hours)

Additional Curriculum Information

Students select one of the following tracks: quality and process improvement, clinical informatics, and leadership.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. The following disciplines are preferred: business or law (health care and business administration, economics, finance or law), engineering (biomedical engineering), general science (biology or physiology), health-related field (nursing, health policy or public health), or math or computer science (statistics or computer science).

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • evidence of work experience
- ☐ • proof of English language proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

More than two years of work experience in a health-related field is preferred.

Applicants must have basic competencies in college-level math, general biology (or physiology) and statistics. Course equivalencies include:

BIO 181 General Biology I

BIO 182 General Biology II

HCD 300 Biostatistics

MAT 117 College Algebra

or other coursework, with approval of the academic unit.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Speech and Hearing Science, PHD (LAHEARPHD)

Online Degree Search Title: Speech and Hearing Science, PhD

Campus: Tempe

Program Description:

The interdisciplinary PhD program in speech and hearing science prepares scholars for careers in basic and applied research in academic, industrial or health care environments. Students pursue a program with the unifying theme of human communication and disorders. Courses are taken from a variety of departments tailored to students' specific interests.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

When approved by the student's supervisory committee and the Graduate College, 28 credit hours from a previously awarded master's degree are allowed to be used for the degree.

Students complete content area coursework that may include aspects of neuroscience, methodology, speech and hearing science, and other specialty areas. A student completes their plan of study under the guidance of their faculty mentor and program committee. A programmatic research experience prepares the student for basic or applied research leading to the dissertation.

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in a related field and do not wish to earn a clinical master's degree or if they have earned a master's degree or equivalent in speech and hearing science, psychology, linguistics, or a related discipline from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable bachelor's or master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts of undergraduate and graduate study
- ☐ • application cover letter and personal statement
- ☐ • GRE scores
- ☐ • three letters of recommendation
- ☐ • resume or curriculum vitae
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students should see the program website for application deadlines.

Professional letters of recommendation must be from three individuals who are familiar with the applicant's academic record and should contain contact information for the recommenders.

The personal statement must be 300 words or fewer and should include the experiences and qualities the student will bring to the program, along with the student's goals for the future.

Integrative Sciences and Arts, College of

Applied Biological Sciences, MS (TSAPBIOSMS)

Online Degree Search Title: Applied Biological Sciences, MS

Campus: Polytechnic

Program Description:

The MS degree program in applied biological sciences is designed to train students who are creative problem-solvers, who are technically proficient whether they work in the field or at the laboratory bench, who stay abreast of scientific advances and the technical literature in their field of research, who are articulate in oral and written communication, and who understand the societal and policy implications of their work.

The program is supported by faculty members with backgrounds in:

- ☐ • ecological restoration
- ☐ • environmental microbiology
- ☐ • environmental stress physiology
- ☐ • desert horticulture
- ☐ • plant-fungal ecology
- ☐ • plant systematics
- ☐ • riparian and stream ecology
- ☐ • urban micrometeorology
- ☐ • wildlife biology

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Applied Biological Sciences (Applied Biological Sciences), BS
- Applied Biological Sciences (Applied Ecology and Preveterinary Medicine), BS
- Applied Biological Sciences (Natural Resource Ecology), BS
- Applied Biological Sciences (Preveterinary Medicine), BS
- Applied Biological Sciences (Secondary Education in Biology), BS
- Applied Biological Sciences (Sustainable Horticulture), BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (ABS 592 and ABS 593).

Required Core (3 credit hours)

ABS 550 Vegetation Dynamics (3) or

ABS 555 Wildlife Dynamics (3)

Electives or Research (21 credit hours)

Culminating Experience (6 credit hours)

ABS 592 Research (3) and ABS 593 Applied Project (3)

ABS 599 Thesis (6)

Additional Curriculum Information

The electives coursework is chosen to support the student's educational objectives.

Students choose a thesis or applied project option. A final oral examination covering the thesis and related subject matter is required.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores or Miller Analogies Test scores
- ☐ • resume
- ☐ • statement of intent
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Applicants are expected to have completed 18 credit hours in biological sciences and closely related courses. Specific fields of study may have specific expectations regarding courses taken at the undergraduate level. Applicants not meeting these course requirements may be considered for admission with deficiencies.

The statement of intent (maximum 600 words) should explain the applicant's interest in environmental resources, academic background and educational objectives.

The letters of recommendation should be from references who are qualified to comment on the applicant's potential in the selected area of study.

Department faculty will evaluate the applications and supporting materials and recommend to Graduate Admission Services that the applicant should be granted admission (either regular or provisional) or denied admission. If admission is provisional, the Graduate College, in its letter of admission, will specify the provisions that need to be met to gain regular status. The school will inform successful applicants of the procedures for enrollment.

Counseling, MC (EDCOUNMC)

Online Degree Search Title: Counseling, MC

Campus: Tempe

Program Description:

The MC in counseling program is accredited by the Council for the Accreditation of Counseling and Related Educational Programs and adheres closely to the 2016 CACREP Standards. The mission of the master's degree program is to prepare students to become professional clinical mental health counselors, culturally competent to work with diverse clientele in a variety of mental health settings including colleges and universities, organizational settings, and community behavioral health agencies. Clinical mental health counselors seek to prevent or treat psychological problems and to promote the health of individuals, families, groups and organizations in a diverse society. The faculty has endorsed the American Counseling Association's Code of Ethics and Multicultural Counseling Competencies.

The program also instills in students the importance of research in advancing the counseling profession. One manifestation of the crucial link between practice and research is the three complementary functions of the program's state-of-the-art Counselor Training Center: services delivery, clinical training and research.

Faculty research foci include (but are not limited to):

- ☐ • career development
- ☐ • children and adolescents
- ☐ • counseling process and outcome
- ☐ • couple and family relationships
- ☐ • intersections of ethnic and gender identities
- ☐ • mental health disparities
- ☐ • play therapy
- ☐ • retention in education
- ☐ • socioeconomic status and financial stress

Degree Requirements:

60 credit hours and a thesis, or 60 credit hours and a written comprehensive exam.

Required Core (36 credit hours)

CED 501 Introduction to Research and Evaluation in Counseling (3)

CED 502 Counseling Research Data Analysis (3)

CED 522 Theories of Counseling and Psychotherapy (3)

CED 523 Psychological Tests (3)

CED 527 Prevention and Consultation (3)

CED 529 Lifespan Human Development (3)

CED 534 Occupations and Careers (3)

CED 545 Analysis of the Individual (3)

CED 567 Group Dynamics and Counseling (3)

CED 577 Counseling Prepracticum (3)

CPY 645 Professional Issues and Ethics (3)

CPY 671 Multicultural Counseling (3)

Electives or Research (6-12 credit hours)**Other Requirements (12 credit hours)**

CED 680 Practicum: Seminar (3)

CED 680 Practicum: Clinic (3)

CED 684 Internship (6)

Culminating Experience (0-6 credit hours)

CED 599 Thesis (6) or

written comprehensive exam (0)

Additional Curriculum Information

Students choose either a thesis or written comprehensive exam pathway. The thesis option is for students who are focusing their program on research and the written comprehensive exam is for students in the practitioner pathway. Students in the thesis option take six hours of elective or research coursework plus six hours of thesis. Students in the written comprehensive exam option take 12 credit hours of elective coursework.

CED 680 Practicum Seminar and Clinic and CED 684 Internship comprise the clinical portion of the program. They are required for all students.

CED 580 Practicum Clinic and CED 584 Internship may be taken by students needing to log required clinical hours after CED 680 and CED 684 are completed. CED 580 and CED 584 are not required unless additional clinical hours are needed.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • two- to three-page personal statement
- ☐ • at least two and a maximum of three recommendation forms
- ☐ • verbal and quantitative GRE scores
- ☐ • proof of English proficiency

Additional Admission Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The GRE test must be retaken if scores are more than five years old.

Nonacademic/Professional/Life Experiences:

Applicants are required to submit a two- to three-page personal statement that will indicate the applicant's qualifications and reasons for their interest in the program (e.g., professional experiences and personal attributes). Specifically, applicants are asked to provide a reflection on how their education and training as well as their professional experiences inform why they want to pursue the degree and how our program will help

them meet their future goals. Applicants are also expected to discuss and elaborate on their ability to work and be sensitive to the needs of a multicultural and diverse society, including members of diverse racial or ethnic groups and individuals of a sexual minority.

Recommendations:

At least two, and at the most three, recommendation forms are to be submitted. These should be completed by persons able to evaluate the applicant's academic potential, professional experience and personal attributes.

Students should see the program website for application deadlines.

For more information, students should visit the school's website.

Counseling Psychology, PHD (EDCPSYPHD)

Online Degree Search Title: Counseling Psychology, PhD

Campus: Tempe

Program Description:

This American Psychological Association-accredited doctoral program in counseling psychology adheres closely to the scientist-practitioner training model in preparing graduates for employment in academic and service delivery settings. Although faculty interests are diverse, there is a common emphasis on empirical data as the basis for culturally responsive professional practice. The faculty have endorsed the following from the APA: Ethical Principles of Psychologists and Code of Conduct; Guidelines on Multicultural Education, Training, Research, Practice and Organizational Change for Psychologists; and Guidelines for Psychological Practice with Lesbian, Gay and Bisexual Clients.

One manifestation of the program's commitment to the scientist-practitioner model is the three complementary functions of the program's state-of-the-art counselor training center: service delivery, clinical training and research.

Faculty research foci include couple and family relationships, intersections of ethnic and gender identities, counseling process and outcome, mental health disparities, socioeconomic status and financial stress, career development, retention in education, children and adolescents, and play therapy.

Degree Requirements:

113 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The doctoral curriculum typically requires three to four years of full-time graduate study plus a yearlong internship in an American Psychological Association-approved setting. Each of these years involves coursework pertaining to theory, research and practice in counseling psychology. Students are expected to maintain full-time status. Full-time status involves being registered for at least nine credits per semester in the coursework years. This requirement applies only to the academic year and not summer sessions. At a minimum, students are required to complete two years of coursework in residence at ASU.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores (which can be no older than five years)
- ☐ • personal statement
- ☐ • a completed biographical information form
- ☐ • writing sample

- • three letters of recommendation
- • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The personal statement should be 600 words or less, and it should describe the applicant's history, academic and professional goals and reasons for selecting the counseling psychology program at ASU.

Applicants must submit a seven-page sample of the applicant's expository writing (e.g., taken from a paper prepared for a course or a report on a project the applicant has completed in this field).

The preference is that two of the recommendation letters be from persons familiar with the applicant's academic work.

Applicants should see the program website for application deadlines.

Integrative Social Science, MS (LSISSMS)

Online Degree Search Title: Integrative Social Science, MS

Campus: Polytechnic

Program Description:

The MS in integrative social science is an advanced degree program designed to cross-educate students in the social sciences in order to meet the complex issues that confront the human society in the 21st century. The emphasis of the program lies in bridging traditional disciplinary boundaries to immerse students in the myriad theories and skills available across disciplines, which otherwise would elude them with traditional disciplinary social science programs. Thus, graduates of the program are prepared with theory and research skill sets that allow them to draw from the best of the multiple disciplines of the social sciences as they confront a technically sophisticated 21st-century world.

Degree Requirements:

Required Core (12 credit hours)

ISS 501 Advanced Integrated Social Research Methods (3)

ISS 502 Advanced Seminar in Integrated Social Science (3)

ISS 504 Advanced Integrated Theories of Social Science (3)

ISS 505 Multivariate Methodologies of Social Science (3)

Electives or Research (12 credit hours)

Other Requirement (3 credit hours)

ISS 584 Internship (3)

Culminating Experience (3-6 credit hours)

ISS 593 Applied Project (3) or

ISS 599 Thesis (6)

Additional Curriculum Information

Students choose either the thesis or applied project option. The internship is only required for students in the applied project option and is a structured practical experience that follows a contract or plan, which is supervised by faculty and practitioners.

For the elective and research coursework, students choose from a list of pre-approved courses for a total of 12 credit hours. Students should contact the academic unit for a list of possible courses. Other courses may be used with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any social science or interdisciplinary field such as political science, sociology, philosophy, economics, psychology, public policy, administration, or a closely related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • GRE scores
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Technical Communication, MS (LSTCCMMS)

Online Degree Search Title: Technical Communication, MS

Campus: Polytechnic, Online

Program Description:

The MS degree program in technical communication teaches students how to design, produce and manage print and digital texts using traditional and developing technologies. The curriculum provides students with a comprehensive understanding of the professional, cultural and ethical issues that shape the field; it balances theory and practice to ensure students develop the analytical abilities, technology expertise and hands-on skills necessary for success as a technical communicator. Students who complete the program will be accomplished writers, editors, designers and researchers who are able to respond effectively to a range of audiences, issues and communication situations. The program will prepare students for technical communication positions in the private, public and nonprofit sectors and will offer professionals the opportunity to further advance their careers.

Degree Requirements:

36 credit hours including a thesis, or 36 credit hours including the required applied project course (TWC 593).

Required Core (6 credit hours)

TWC 504 Applied Rhetoric and Technical Communication (3)

TWC 505 Research in Technical and Applied Communication (3)

Restricted Electives (24 credit hours)

Culminating Experience (6 credit hours)

TWC 593 Applied Project (6) or

TWC 599 Thesis (6)

Additional Curriculum Information

Students who do not have previous technical communication coursework or relevant industry experience must take TWC 501 Fundamentals of Technical Communication (3) as a restricted elective. For a full list of the approved elective courses, students should inquire with the academic unit.

Students complete an applied project or a thesis for their culminating experience.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • statement of purpose
- ☐ • portfolio
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Since this degree requires a high degree of proficiency in English, an applicant whose native language is not English will be expected to have one the following TOEFL scores: 600 traditional paper-based, 100 Internet-based, or 250 computer-based.

All applicants must submit a written letter of application that includes a detailed statement of purpose as well as a portfolio of at least three documents that demonstrate the applicant's ability to write in a variety of genres. Portfolio documents can include both academic and professional writing for a range of audiences and purposes and need not be in the area of technical communication. The portfolio should be 15 to 30 pages in length. The writing samples in the portfolio will be evaluated using a rubric that considers several criteria, including a demonstration of the ability to focus on a specific purpose and to meet audience needs and show organization, clarity, mechanical soundness and overall effectiveness.

All applicants must submit three letters of reference, either academic or professional, that speak to the background and capabilities of the applicant.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Interdisciplinary Arts & Sciences, New College of

Communication Studies, MA (ASCOMSTMA)

Online Degree Search Title: Communication Studies, MA

Campus: West

Program Description:

The MA in communication studies is a cutting-edge degree program designed for students who wish to pursue a wide range of communication professions.

The program provides exposure to a variety of research methods, communication theories and practical applications, with a special emphasis on advocacy. Students use multiple perspectives to explore a variety of topics and issues in communication. These include how individuals and collectives participate effectively in personal relationships, organizational settings, and public dialogues across cultural contexts, and the impact and effects of media, mediated representations and new technologies. They also learn to use communication practices to advocate for others.

Although advocacy is a defining theme in the curriculum, students can tailor the program to their personal goals, focusing on topics such as interpersonal, organizational, sport, environmental, global or technology-mediated communication.

Graduates are prepared to pursue doctoral work or careers in communication-driven fields such as public affairs, public relations, employee development, community relations and grassroots movements.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- American Studies, BA
- Applied Science, BAS
- Biology, BA
- Communication, BA
- Communication, BS
- Environmental Science, BA
- Ethnicity, Race and First Nations Studies, BA
- History, BA
- Interdisciplinary Arts and Performance, BA

- Latin American Studies, BA
- Philosophy, Religion and Society, BA
- Political Science, BA
- Political Science, BS
- Psychology, BA
- Psychology, BS
- Social and Behavioral Sciences, BS
- Social and Behavioral Sciences, BA
- Sociology, BA
- Sociology, BS
- Women and Gender Studies, BS
- Women and Gender Studies, BA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

36 credit hours and a written comprehensive exam, or 36 credit hours including an applied project (CMN 593) and a written comprehensive exam, or 36 credit hours, a written comprehensive exam and a thesis.

Required Core (9 credit hours)

CMN 502 Theory and Practice in Communication and Persuasion (3) or CMN 522 Argumentation and Advocacy (3)

CMN 505 Methods in Applied Communication Research (3)

CMN 506 Humanistic Inquiry and Field Research in Communication (3)

Electives (up to 21 credit hours)

Culminating Experience Options (0-6 credit hours)

CMN 599 Thesis, with written comprehensive exam (6 credit hours)

CMN 593 Applied Project, with written comprehensive exam (3 credit hours)

written comprehensive examination (0 credit hours)

Additional Curriculum Information

Electives are selected in consultation with the student's program advisor. When appropriate, students may take up to six credit hours outside the program.

The thesis or applied project must demonstrate intellectual ability, academic ability and professional growth. The thesis is supervised and approved

by the student's advisor and committee. An oral defense is required for the thesis. The applied project is supervised by the student's advisor. The achievements or results of the applied project should be made available to the public in the form of a presentation, poster, report or other form negotiated with the faculty advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- ▣ graduate admission application and application fee
- ▣ official transcripts
- ▣ statement of purpose
- ▣ three letters of recommendation
- ▣ an academic writing sample (preferred) or professional writing sample
- ▣ resume or curriculum vitae (optional)
- ▣ GRE scores (if applicable)
- ▣ proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well (if not available, then from individuals in supervisory or professional roles).

If the applicant does not meet the minimum GPA requirements, the application may be considered if accompanied by an official GRE score.

English, MA (ASENGLMA)

Online Degree Search Title: English, MA

Campus: West

Program Description:

The MA degree in English offered by the New College of Interdisciplinary Arts and Sciences is a comprehensive program that delves into the many facets of English: its literatures; its linguistic, social and cultural histories; and its capacities for persuasion, exposition and elucidation.

The program allows students to explore specific subject areas while working across a range of subdisciplines within English such as literary studies, rhetorical studies, composition and linguistics.

With an emphasis on teaching and research, the program includes electives to encourage students to pursue interdisciplinary inquiry and the culminating experience primes graduates for critical and eloquent engagement with the world beyond the university.

Equally suited to prepare candidates for doctoral study or to advance the careers of area educators in the language arts, the degree also prepares graduates to begin careers in one of the many professions that value creativity, critical thinking, and highly skilled communication.

Degree Requirements:

30 credit hours including the required capstone course (ENG 597).

Required Core Courses (6 credit hours)

ENG 502 Contemporary Critical Theories (3) or MAS 505 Theories of Change, Culture and Mind (3)

ENG 582 Pedagogy (3)

Elective or Research Courses (12 credit hours)

ENG 500 Research Methods (3)

ENG or LIN courses (9)

Open Elective or Research Courses (9 credit hours)

Culminating Experience (3 credit hours)

ENG 597 Graduate Capstone Seminar (3)

Additional Curriculum Information

For electives or research, students should see the academic unit for the approved course list from ENG and LIN courses through New College.

ENG 500 is a required research course for all students and must be included in the plan of study.

For the open elective or research courses, nine credit hours can be selected from ENG or non-ENG coursework offered by various academic units.

The selection of coursework will be in consultation with the student's committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program; or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- ▣ graduate admission application and application fee
- ▣ official transcripts
- ▣ statement of purpose
- ▣ three letters of recommendation
- ▣ an academic writing sample (preferred) or professional writing sample
- ▣ resume or curriculum vitae (optional)
- ▣ GRE scores (if applicable)
- ▣ proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well (if not available, then from individuals in supervisory or professional roles).

If the applicant does not meet the minimum GPA requirements, the application may be considered if accompanied by an official GRE score.

Forensic Psychology, MS (ASFPSYMS)

Online Degree Search Title: Forensic Psychology, MS

Campus: Online

Program Description:

The MS program in forensic psychology provides working professionals with an understanding of mental health issues and human behavior with respect to crime and the criminal justice and legal systems.

The curriculum involves specialized coursework in criminal law, criminal behavior, the diagnosis and treatment of mental disorders, and legal decision-making. Through these courses, students learn about the various roles for psychologists in the legal system and help them discover which roles they might like to pursue through careers in mental health, criminal justice or through additional graduate training. Graduates will not be license-eligible for clinical practice but will be well-prepared to enter advanced degree and continuing education programs in counseling and related fields.

Degree Requirements:

Required Core (21 credit hours)

CRJ 501 Seminar in Criminal Justice (3)

CRJ 502 Seminar in Criminology (3)

CRJ 511 Applied Data Analysis in Criminal Justice (3) or PSY 515 Quantitative Research Methodology and Statistics I (3)

CRJ 513 Seminar in Courts and Sentencing (3)

PSY 545 Advanced Legal Psychology (3)

PSY 546 Advanced Forensic Psychology (3)

PSY 573 Psychopathology (3)

Electives or Research (12 credit hours)

PSY 500 Research Methods (3)

Other electives or research (9)

Culminating Experience (0 credit hours)

Written comprehensive exam

Additional Curriculum Information

CRJ 511 or PSY 515 are taken as part of the core coursework.

Students are required to take PSY 500 as a research course. The remaining hours are selected from the list below. Other coursework may be used with approval of the academic unit.

If students take the written comprehensive exam in an additional semester after they have completed all coursework needed to meet the 33 credit hours for the program, they must register for extra course credit to maintain continuous enrollment per Graduate College policy. Students should check with their academic unit for appropriate advisement.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology, criminal justice, social science, or a closely related field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ▣ graduate admission application and application fee
- ▣ official transcripts
- ▣ GRE scores
- ▣ letters of recommendation
- ▣ proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Interdisciplinary Studies, MA (ASINTERMA)

Online Degree Search Title: Interdisciplinary Studies, MA

Campus: West

Program Description:

The MA degree in interdisciplinary studies offered by the New College of Interdisciplinary Arts and Sciences is an innovative program that allows students to combine the study of two or more disciplines.

Founded on the conviction that solving problems in the 21st century often requires an interdisciplinary approach, this flexible program provides exposure to a variety of research methods, historical perspectives and modes of inquiry.

The program offers access to faculty members who are active practitioners of interdisciplinary inquiry. Working with the faculty, students may define their own area of emphasis or adopt an existing area within the humanities and social sciences.

The skills and knowledge that students acquire can be directed toward doctoral study or professional goals in any enterprise that engages in research or education, ranging from advertising and marketing, nonprofit leadership, and media production to museum curatorship, community college teaching, and leading-edge entrepreneurship.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Law and Psychology, PHD (ASLPSYPHD)

Online Degree Search Title: Law and Psychology, PhD

Campus: Downtown Phoenix, West

Program Description:

The PhD program in law and psychology is designed to train a new generation of scholars in the field by taking a broad interdisciplinary approach that combines rigorous training in the law and psychology field with training in advanced research methodology and statistics, criminological theory, and contextual training in other subfields of psychology. The goal of the program is for students to use this knowledge to tackle the many important but understudied areas where the legal system is in desperate need of empirical, psychological research.

Degree Requirements:

Required Core (18 credit hours)

PSY 515 Quantitative Research Methodology and Statistics I (3)

PSY 516 Quantitative Research Methodology and Statistics II (3)

PSY 532 Analysis of Multivariate Data (3)

PSY 545 Advanced Legal Psychology (3)

PSY 546 Advanced Forensic Psychology (3)

PSY 550 Advanced Social Psychology (3)

Electives (39 credit hours)

Required Research (15 credit hours)

PSY 600 Research Methods (3)

PSY 792 Research (12)

Culminating Experience (12 credit hours)

PSY 799 Dissertation (12)

Additional Curriculum Information

Students are required to take 15 credit hours of research coursework and 39 credit hours of elective coursework.

When approved by the student's supervisory committee and Graduate Education, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework will be made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology, criminal justice, social science, or a closely related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ▣ graduate admission application and application fee
- ▣ official transcripts

Psychology, MS (ASPGSMS)

Online Degree Search Title: Psychology, MS

Campus: West, Online

Program Description:

The MS degree in psychology offered by the New College of Interdisciplinary Arts and Sciences has two different track options: a thesis track and an applied project track. Both the thesis and applied project tracks are intensive, research-oriented programs. Students receive training in advanced research methodology and statistical analysis, grant proposal writing, laboratory instrumentation, data collection and manuscript development. Students gain first-hand exposure to designing and conducting research, analyzing data and developing presentations and manuscripts. Students are encouraged to present research reports at professional meetings and conferences and to publish as co-authors in faculty-guided research.

Elective courses are offered in several areas, including abnormal psychology, affective science, behavior analysis, cognitive psychology, developmental psychology, health psychology, legal psychology, psychophysiology and social psychology.

Both the thesis and applied project tracks are ideal for students who plan to pursue doctoral work or careers that involve psychological research methods such as marketing research, education research analysis, public policy analysis, research project management or program evaluation.

Degree Requirements:

33 credit hours and written comprehensive exam, or 33 credit hours including the required applied project course (PSY 593) and a written comprehensive exam, or 33 credit hours, a written comprehensive exam and a thesis.

Required Core (9 credit hours)

PSY 502 Professional Issues in Psychology (3)

PSY 515 Quantitative Research Methodology and Statistics I (3)

PSY 516 Quantitative Research Methodology and Statistics II (3)

Research (6 credit hours)

PSY 592 Research (6)

Electives (12 or 18 credit hours)

Culminating Experience (0 or 6 credit hours)

PSY 593 Applied Project (6) or

PSY 599 Thesis (6)

written comprehensive exam (0)

Additional Curriculum Information

All students must complete a written comprehensive exam as part of the culminating experience. Students who select the comprehensive exam as their sole culminating experience must take 18 credit hours of elective coursework rather than the minimum 12 credit hours required for applied project and thesis students.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in applicable master's degree program. Priority is given to applicants who have achieved a 3.25 GPA or higher.

All applicants must submit:

- ▣ graduate admission application and application fee
- ▣ official transcripts
- ▣ statement of purpose
- ▣ GRE scores (combined minimum verbal and quantitative score of 300)
- ▣ three letters of recommendation
- ▣ proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

Priority is given to applicants who have achieved a 305 or higher on the GRE.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well; if these are not available, then recommendations should be from individuals in supervisory or professional roles.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Social Justice and Human Rights, MA (ASJHRMA)

Online Degree Search Title: Social Justice and Human Rights, MA

Campus: West

Program Description:

The MA in social justice and human rights addresses urgent social issues related to human security, labor, migration, children, family, education and the environment.

The coursework in this theoretically and methodologically rigorous program examines social issues in contexts defined by multiple and intersecting

forms of social identity and disadvantage, including gender, race, ethnicity, class, sexuality and nationality.

The program requires an internship to be completed domestically or internationally, where students typically work alongside other advocates for social justice to help refugees, migrants, workers, and survivors of violence or human trafficking.

Students may select from three degree tracks: research, advocacy, or critical trauma studies and social work. The research track prepares students for positions as researchers, analysts and advocates in governmental, intergovernmental and nongovernmental agencies. The advocacy track prepares students to be leaders in nonprofit, social movement, governmental and intergovernmental organizations. The critical trauma studies and social work track prepares students to assist vulnerable people, especially survivors of extreme violence, poverty, war, sex trafficking, human trafficking, gender-based violence, and various forms of marginalization. Graduates are also prepared to enter PhD programs.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- American Studies, BA
- Applied Science, BAS
- Biology, BA
- Communication, BS
- Communication, BA
- English, BA
- Environmental Science, BA
- Ethnicity, Race and First Nations Studies, BA
- History, BA
- Interdisciplinary Arts and Performance, BA
- Interdisciplinary Arts and Sciences, BA
- Latin American Studies, BA
- Philosophy, Religion and Society, BA
- Political Science, BS
- Political Science, BA
- Psychology, BS
- Psychology, BA
- Social and Behavioral Sciences, BA
- Social and Behavioral Sciences, BS
- Sociology, BS
- Sociology, BA
- Women and Gender Studies, BA
- Women and Gender Studies, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (JHR 593).

Required Core (15 credit hours)

- JHR 501 Proseminar in Social Justice and Human Rights (3)
- JHR 506 Grant Writing and Development for Social Justice and Human Rights (3)
- JHR 510 Problem-Based Seminar in Social Justice and Human Rights (3)
- JHR 525 Action Research in Social Justice and Human Rights (3)
- JHR 584 Internship (3)

Track (9 credit hours)

Electives (3-6 credit hours)

Culminating Experience (3-6 credit hours)

- JHR 593 Applied Project (3) or
- JHR 599 Thesis (6)

Additional Curriculum Information

This program has three tracks: social justice and human rights research, social justice and human rights advocacy, and critical trauma studies and social work. Students select one of the three tracks and select courses for the track and electives requirements in consultation with faculty.

Students completing an applied project for their culminating experience will select an additional electives course for three credit hours to meet the program's 33 credit hour requirement.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- ▣ graduate application application and application fee
- ▣ official transcripts
- ▣ statement of purpose
- ▣ two letters of recommendation
- ▣ an academic writing sample (preferred) or professional writing sample
- ▣ GRE scores
- ▣ resume or curriculum vitae
- ▣ proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that letters of recommendation be from faculty members who know the applicant's work well; if these are not available, letters of recommendation from individuals in supervisory or professional roles will be accepted. If letters of recommendation from two faculty members are not available, then it is strongly preferred that at least one letter be from a faculty member.

If the applicant does not meet the minimum GPA requirements, the application may still be considered.

Applicants should see the program website for application deadlines.

Social Technologies, MA (ASSTCMA)

Online Degree Search Title: Social Technologies, MA

Campus: West

Program Description:

The MA degree in social technologies offered by the New College of Interdisciplinary Arts and Sciences is a groundbreaking program that explores how new technologies affect social and organizational change as well as how to apply that understanding in a variety of professional contexts.

The master's degree is an interdisciplinary degree program anchored in social, behavioral, cultural, critical and design approaches to the increasing prominence of social technology in nearly every facet of contemporary life. Coursework delves into social theory and research methods applied to the social uses of interactive environments, networked technologies and mobile computing.

The flexible curriculum consists of two core courses, a graduate-level research methods course and a series of elective courses, culminating in a six credit hour capstone project.

Graduates are prepared for doctoral work in social technologies or careers in social media, community management, digital media, and professions that use social technologies to interact with clients, interest groups and the public. Graduates are also skilled in distance collaboration.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Biology, BA

Environmental Science, BA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours including the required applied project (STC 593).

Required Core (6 credit hours)

STC 505 Theories of Social Technology (3)

STC 510 Applied Social Technology (3)

Electives and Research Courses (21 credit hours)

Culminating Experience (6 credit hours)

STC 593 Applied Project (6)

Additional Curriculum Information

Students are required to take 21 credit hours of electives and research coursework, including at least one research methods course from CMN 505, CMN 506, JHR 500 or MAS 501 for three credit hours. Students should see the academic unit for a complete list of approved electives and research courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- ▣ graduate admission application and application fee
- ▣ official transcripts
- ▣ statement of purpose
- ▣ three letters of recommendation
- ▣ an academic writing sample (preferred) or professional writing sample
- ▣ GRE scores (if applicable)
- ▣ proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that the letters of recommendation be from faculty members who know the applicant's work well; if these are not available, then letters of recommendation from individuals in supervisory or professional roles will be accepted.

If the applicant does not meet the minimum GPA requirements, the application may be considered if accompanied by an official GRE score.

Business Journalism (Certificate), Certificate (CSBSJGRCT)

Online Degree Search Title: Business Journalism (Graduate Certificate)

Campus: Online

Program Description:

The graduate certificate program in business journalism is designed to give professional journalists a competitive edge in the globally expanding job market for business journalists. The program is offered through the Cronkite School's Donald W. Reynolds National Center for Business Journalism and is taught by top faculty at the Walter Cronkite School of Journalism and Mass Communication. The certificate can be completed in one year, and a portion of the graduate coursework may be applied to the Cronkite School's master's degree in mass communication.

Degree Requirements:

15 credit hours.

Required Core (15 credit hours)

Culminating Experience: None required.

Additional Curriculum Information

Students should see the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in journalism, mass communication or a related field from a regionally accredited institution, or if they have earned a bachelor's degree, in any field, and have professional journalism experience.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 semester hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • a resume or biographical sketch
- ☐ • a 350- to- 500-word personal statement that serves as a writing sample
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency via a TOEFL score of at least 100 on the Internet-based test (iBT). Students can have these scores automatically submitted to ASU and the Cronkite School by using institution code 4007. Students should note the policies and procedures at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Applicants should have official transcripts of all college-level work sent to Graduate Admission Services.

In the personal statement, the applicant should detail the reasons for pursuing the business journalism certificate.

The Cronkite School's graduate committee will review complete applications on a rolling basis and submit its admission recommendations to Graduate Admission Services for final approval.

There are no required admission examinations.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Journalism and Mass Communication, PHD (CSJMCPHD)

Online Degree Search Title: Journalism and Mass Communication, PhD

Campus: Downtown Phoenix

Program Description:

This PhD program in journalism and mass communication is designed to be small, student-centered and scholarly research-oriented. It is based on the following priorities:

- ☐ • a journalism and mass communication focus
- ☐ • a transdisciplinary approach that requires coursework outside of the journalism school
- ☐ • one-on-one faculty-student mentoring
- ☐ • program flexibility

The emphasis of this degree program is the creation of scholarly, peer-reviewed articles and presentations based on journalism and mass communication philosophy, theory and methods. The program prepares students for research-oriented careers in journalism and mass communication education and related fields.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (18 credit hours)

Electives (18 credit hours)

Other Requirements (24 credit hours)

previous master's degree or additional hours approved by the supervisory committee (24)

Research (12 credit hours)

Dissertation (12 credit hours)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

Students entering the program with a master's degree in journalism or mass communication, or a related field, must complete 60 credit hours of coursework. Students who are admitted to the program without a master's degree will be required to complete an additional 24 credit hours of coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • test scores on the quantitative and verbal sections of the GRE, with the verbal score being particularly important to the Cronkite School's graduate committee
- ☐ • three letters of recommendation
- ☐ • personal statement of interest (350 to 500 words in length)
- ☐ • resume
- ☐ • samples of scholarly work
- ☐ • proof of English proficiency

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. TOEFL scores must be at least 600 for the paper-based examination and 100 for the Internet-based.

Students should see the program website for application deadlines and admission terms. Applicants must meet all deadlines and application requirements to be considered.

The Cronkite School's doctoral committee reviews complete and on-time applications. Recommendations for admission are made to Graduate Admission Services, where the final admission decisions are made.

Mass Communication, MMC (CSMCOMMMC)

Online Degree Search Title: Master of Mass Communication, MMC

Campus: Downtown Phoenix

Program Description:

The Walter Cronkite School of Journalism and Mass Communication's 12-month master's degree program uses the teaching hospital method to immerse students in the practice of journalism and prepare them for careers in today's rapidly evolving media industry.

The Cronkite School stands out from other schools for journalism with its teaching hospital paradigm. The full-time journalism graduate program is unique among schools with journalism programs in its scope, focus and intensity. It begins with a boot camp experience where students learn the reporting skills, values and principles embodied by Walter Cronkite, the school's guiding light for the past three decades. But it also is designed with the future in mind. Students learn how to navigate a dramatically different 21st-century media environment through classes and a symposium specifically focused on the future of journalism. Students are able to apply that knowledge through an intensive, practical experience in one of the school's signature professional programs spanning broadcast journalism, digital journalism, audience engagement and other arenas.

Students do all of this in a world-class facility in the heart of downtown Phoenix, the nation's sixth largest city and 12th largest media market. The school is also home to Arizona PBS. Student journalists can walk to the state's largest newspaper, to the NBC and Fox television affiliates, and they are in walking distance to cover major events at city hall, at county, state and federal agencies and at major sporting and cultural venues.

Professional programs --- the cornerstones of the graduate program are the journalism school's professional programs:

- ☐ • Carnegie-Knight News21
- ☐ • Cronkite News -- Borderlands
- ☐ • Cronkite News -- Broadcast
- ☐ • Cronkite News -- Digital Production
- ☐ • Cronkite News -- Phoenix Bureau
- ☐ • Cronkite News -- Washington Bureau
- ☐ • New Media Innovation and Entrepreneurship Lab

- ☐ • Public Insight Network Bureau
- ☐ • Reynolds Business Bureau

Concurrent Degrees:

This degree is also offered as concurrent degree with:

- Legal Studies, MLS
- Sustainability Solutions, MSUS

Accelerated Degrees:

This degree is also offered in an accelerated format with Journalism and Mass Communication, BA

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (MCO 593), or 30 credit hours including the required capstone course (MCO 570), or 36 credit hours including the required capstone course (MCO 570).

Required Core (20 credit hours)

MCO 502 Journalism Skills (8)

MCO 503 Media Law (3)

MCO 510 Data Journalism (3)

MCO 525 21st-Century Media Organization and Entrepreneurship (3)

MCO 530 History, Philosophy, and Ethics of Journalism (3)

Electives (6 credit hours)

Other Requirements (1 credit hour)

MCO 598 ST: Lab Observation (1)

Culminating Experience (9 credit hours)

MCO 570 Master of Mass Communication Capstone (9)

Additional Curriculum Information

The master's degree program is a full-time, 36 credit hour program. Students with extensive professional journalism experience may be offered the opportunity to pursue the 30 credit hour mid-career option.

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee

Law, Sandra Day O'Connor College of

Biotechnology and Genomics, LL.M. (LWGENOMLLM)

Online Degree Search Title: Biotechnology and Genomics, LLM

Campus: Downtown Phoenix

Program Description:

The LLM in biotechnology and genomics is offered through the Sandra Day O'Connor College of Law's Center for Law, Science and Innovation, the nation's oldest, largest and most comprehensive research center focusing on the intersection of law and science. Through classroom instruction and guided independent study, Master of Laws candidates will examine the legal issues surrounding genetic applications such as:

- ☐ • cloning
- ☐ • forensic evidence
- ☐ • gene testing
- ☐ • gene therapy
- ☐ • genetically modified organisms
- ☐ • stem cells and behavioral genetics

The issues relate to:

- ☐ • business planning
- ☐ • confidentiality
- ☐ • evidentiary standards
- ☐ • intellectual property
- ☐ • international trade
- ☐ • liability
- ☐ • licensing
- ☐ • privacy
- ☐ • regulation

Master of Laws in biotechnology and genomics students explore and examine the law that enables and constrains the development, control and application of biotechnology and genomics. Relevant legal fields include:

- ☐ • agricultural law and policy

- ☐ • health law, particularly public health law
- ☐ • intellectual property

Forensic science and ethical constraints upon the various contemplated uses are also important elements of the program. Because the legal, ethical and policy aspects of genomics and biotechnology are of global significance, this program will also be beneficial for non-U.S. lawyers. Candidates for a Master of Laws degree must have received their JD or comparable terminal law degree from another country.

Degree Requirements:

The program is designed to be completed in nine months on a full-time basis but may also be pursued on a part-time basis. A degree candidate must complete 24 credit hours of coursework to obtain the Master of Laws degree in biotechnology and genomics. A candidate may elect to write a graduate thesis for either three or six credit hours or can elect not to write a thesis and fulfill the equivalent credits with other coursework. Two required courses are: genetics and the law; and biotechnology: science, law and policy.

The remaining credit hours will generally be obtained from the list of elective courses. With faculty advisor approval, a candidate may satisfy up to six credit hours with courses offered by other ASU departments or by law courses that are not included on the approved elective list.

Admission Requirements:

Applicants should see the program website for application deadlines.

Admission to the program is competitive. In order to be admitted, an applicant must have completed a Juris Doctor degree program or a law degree program at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country and have submitted a complete application to the program. Selection will be based on:

- ☐ • academic background and potential
- ☐ • career experience and ambitions
- ☐ • diversity of experience and background
- ☐ • space and resource limitations in the law school
- ☐ • strength of experience related to the program sought and other factors

For an application to be considered complete, it must include the following:

- ☐ • completed Law School Admissions Council (LSAC) electronic application form (available at <https://www.law.asu.edu/admissions/apply/llm>) (<https://www.law.asu.edu/admissions/apply/llm>)
- ☐ • completed LLM Credential Assembly Service (CAS) report (<http://www.lsac.org/llm/application-process/checklist-for-the-llm-application-process>) (<http://www.lsac.org/llm/application-process/checklist-for-the-llm-application-process>)
- ☐ • required application fee
- ☐ • resume that does not exceed three typed pages
- ☐ • personal statement that does not exceed 1,250 words (double-spaced typed pages)
- ☐ • transcripts from all institutions attended, including the transcript showing that the bachelor's degree and law degree were conferred
- ☐ • two letters of recommendation
- ☐ • writing sample

Additional Application Information

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and will be provided to the ASU College of Law by LSAC.

Applicants with degrees from foreign institutions must meet ASU Graduate College and College of Law English proficiency requirements.

Indian Law (certificate), Certificate (LWLAWGRCI)

Online Degree Search Title: Indian Law (Graduate Certificate)

Campus:

Program Description:

The Indian law certificate program is designed for students who plan to practice Indian law, particularly students who may be representing tribal communities directly after graduation.

To be eligible to pursue the Indian law certificate, a student must be enrolled in the JD degree program at the Sandra Day O'Connor College of Law and be in good standing. Transfer applicants may be admitted to the certificate program if they otherwise meet the admission standards of the Sandra Day O'Connor College of Law.

The certificate requires substantive coursework, a minimum grade requirement, practice experience in Indian law and the College of Law graduation writing requirement written on an Indian law topic.

Degree Requirements:

The certificate requires a minimum of 21 hours of substantive work in Indian law and related fields. The following courses are required:

LAW 632 Federal Indian Law I

LAW 704 Federal Indian Law II

LAW 776 Indian Legal Clinic

two advanced Indian law courses approved by the faculty director of the Indian law program

The remaining credits are elective courses approved by the faculty director. Students must complete a substantial paper on an Indian law topic approved by the faculty director. Students must receive a grade of "C" (scale is 4.00 = "A") or above or a "Pass" in each course used to fulfill the Indian law certificate requirements.

More specific requirements for completion of the Indian law certificate can be found on the Sandra Day O'Connor College of Law website.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Students wishing to pursue the Indian law certificate must be enrolled in the Juris Doctor degree program at the Sandra Day O'Connor College of Law and must be in good standing. Specific requirements for the Indian law certificate program can be found at the college's website.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Juris Doctor of Law, JD (LWJDJD)

Online Degree Search Title: Juris Doctor, JD

Campus: Downtown Phoenix

Program Description:

The JD degree program offers a large selection of courses with options for transdisciplinary study with other departments on campus. Students will find the opportunity to take classes with a more traditional, theoretical focus and to take advantage of many options that focus on the development of practice skills. The college hosts:

- ☐ • The Center for Law and Global Affairs
- ☐ • The Center for Law, Science and Innovation
- ☐ • The Indian Legal Program

Concurrent Degrees:

This degree is also offered as concurrent degree with:

Justice Studies, PhD

Psychology, PhD

Degree Requirements:

Satisfactory completion of the course of study offered by the Sandra Day O'Connor College of Law leads to the Juris Doctor degree.

To be eligible for the Juris Doctor degree, a student must satisfy all the following:

- ☐ • Admission to the college as a candidate for the degree is required, as is satisfaction of any conditions imposed at the time of admission or prior to graduation during the course of law study.
- ☐ • Successful completion of a minimum of 88 hours of academic credit is required, of which 72 must be graded with a cumulative weighted average of 2.0 or better (scale is 4.00 = "A").
- ☐ • No more than four credit hours of "D" (deficient) grade work after the first year can be applied toward the 88 hours.
- ☐ • Completion of all required first-year courses, Professional Responsibility, and either Constitutional Law II or Criminal Procedure is required.
- ☐ • Satisfaction of the graduation writing requirement (see Section II, E of college policies) is required.
- ☐ • A maximum of 12 credits of externship work, a maximum of seven credits of independent study, and a maximum of four professional development credits can be counted toward the 88 credits required for graduation.
- ☐ • All 88 credits required for graduation must be earned at the ASU College of Law unless prior approval by the dean's designee is granted (see Section IX, A and Section XI, B of the college policies).
- ☐ • Completion of the degree requirements may be done no earlier than 24 months and no later than 84 months after commencing study at the law school or a law school from which the school has accepted transfer credit. A transfer student must complete the work of at least three semesters in the ASU Sandra Day O'Connor College of Law immediately preceding the granting of a degree.
- ☐ • Satisfaction of the Flexible Writing Requirement (see Section II, H of the college policies) is required.
- ☐ • Satisfaction of the Experiential Learning Requirement (see Section II, G of the college policies) is required.
- ☐ • A minimum of 64 units must be obtained from courses that involve attendance at regularly scheduled class sessions. The following do not count toward these required 64 units: all externships; independent studies; courses taken outside the law school under section IX A; credits received for working for a journal under section X F; credits received for Moot Court under section X G; credits received for being a teaching assistant; credits received from any clinic other than Civil Justice Clinic, Immigration Law and Policy Clinic, Indian Legal Clinic, Innovation Advancement Legal Clinic, Mediation Clinic, Post Conviction Clinic; and credit from courses without regularly scheduled meetings.
- ☐ • A maximum of 38 transfer units can be counted toward the 88 units necessary for graduation.

Admission Requirements:

Applicants with degrees from foreign institutions must meet the Graduate College and College of Law English proficiency requirements.

The Sandra Day O'Connor College of Law at Arizona State University enrolls only one first-year Juris Doctor class per year, and it enters in the fall semester. The Juris Doctor degree is a three-year program, and almost all students study on a full-time basis. The college does offer a flexible scheduling option for students with circumstances that make full-time enrollment impossible. Each year, far more applications are submitted to the Sandra Day O'Connor College of Law than the college's facilities and programs can accommodate. Thus, admission is competitive. The Sandra Day O'Connor College of Law makes its admission decisions based upon all information contained in the applicant's file.

To be considered for admission to the program, an applicant must have taken the LSAT and have earned, or expect to have earned by the time of enrollment in law school, a bachelor's degree from an accredited four-year college or university. Further, a candidate must complete the application for admission and submit all mandatory attachments. Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and will be provided to the College of Law by LSAC with the applicant's LSAT record. Applicants must apply electronically through <http://www.lsac.org> (<http://www.lsac.org/>).

The Sandra Day O'Connor College of Law will provide full file review to 100 percent of the completed applications to the Juris Doctor program. While the applicant's undergraduate record and LSAT score are important predictors, no decision will be made on objective criteria alone. Among the other factors considered by the admission committee are:

- ☐ • ability to communicate
- ☐ • demonstrated commitment to public service
- ☐ • diversity of experience and background
- ☐ • exceptional personal talents
- ☐ • extracurricular or community activities
- ☐ • foreign language proficiency
- ☐ • geographic diversity
- ☐ • graduate study
- ☐ • history of overcoming economic or other disadvantage
- ☐ • honors and awards
- ☐ • leadership experience
- ☐ • maturity

- ☐ • overcoming disability
- ☐ • personal experiences with discrimination
- ☐ • publications
- ☐ • service in the Armed Forces
- ☐ • the rigor of the undergraduate course of study
- ☐ • work experience

Students should see the program website for application deadlines.

For an application to be considered complete, it must include the following:

- ☐ • a complete Credential Assembly Service report, with all transcripts and letters of recommendation or evaluations
- ☐ • the completed application, including explanations for affirmative answers to conduct, character and fitness questions
- ☐ • LSAT scores from Law School Admissions Council
- ☐ • a personal statement that does not exceed two double-spaced, typed pages
- ☐ • the required application fee
- ☐ • a resume that does not exceed three typed pages

The Credential Assembly Service report must be from the current application year.

Law, Science, & Technology (certificate), Certificate (LWLAWSTCE)

Online Degree Search Title: Law, Science, and Technology (Graduate Certificate)

Campus:

Program Description:

The law, science and technology certificate program is for students with science and technology interests and is limited to students in good standing pursuing a JD degree at the Sandra Day O'Connor College of Law.

The program allows for specializations in the areas of:

- ☐ • environmental and sustainability law
- ☐ • genomics and biotechnology law
- ☐ • health law
- ☐ • intellectual property

Degree Requirements:

Students must satisfy their graduation writing requirement on a topic related to law, science and technology. The paper must meet all of the Sandra Day O'Connor College of Law requirements for a graduation writing requirement and must be supervised by a center fellow.

A minimum cumulative GPA of at least 3.00 (scale is 4.00 = "A") is required for those courses that satisfy the substantive coursework requirements of the certificate. Courses used to satisfy the core or specialization requirements may not be taken for pass or fail credit. A student may take one elective course on a pass or fail basis.

Substantive coursework is required in law, science and technology subjects for a minimum of seven courses, earning at least 16 credit hours, at the Sandra Day O'Connor College of Law. Two courses are chosen from the designated core courses and five courses are chosen from a list of elective courses.

Each student is encouraged to actively participate in the events (speakers, conferences, symposia) sponsored by the Center for Law, Science and Innovation and to participate in at least one approved activity for two semesters.

Students have the option of pursuing a specialization within the certificate. The specialization areas are intellectual property, health law, environmental law, and genomics and biotechnology law. For students pursuing the specialization option, four courses within the area of specialization are required and the core course requirement is reduced from two to one.

Additional details of the program requirements for the law, science and technology certificate can be found in the Sandra Day O'Connor College of Law Statement of Student Policies.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Students wishing to pursue the law, science and technology certificate must be enrolled in the Juris Doctor program at the Sandra Day O'Connor College of Law and be in good standing.

Specific requirements for admission to the law, science and technology certificate program can be found on the college website.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Laws, LL.M. (LAWLAWSLLM)

Online Degree Search Title: Laws, LLM

Campus: Downtown Phoenix

Program Description:

The LLM program allows one year of post-JD study tailored to the scholarly and practice interests of participating students. Study is available in a variety of areas in which the law school holds particular strength. Alternatively, U.S. attorneys and international attorneys may design their own customized master's degree program to complement their interests in the practice of law.

Degree Requirements:

The program requires 24 credit hours. Required courses will depend on the student's particular concentration in the degree. International students will be required to take LAW 596 Professional Legal Writing. A candidate may elect either to write a master's degree portfolio paper or complete an applied project. The remaining credit hours will generally be obtained from the list of elective courses. With faculty advisor approval, a candidate may satisfy up to six credit hours with courses offered by other ASU departments or by law courses that are not included on the approved elective list.

Admission Requirements:

The Sandra Day O'Connor College of Law offers several master's degree programs for students who have already completed a law degree within the U.S. or abroad.

Students should see the program website for application deadlines.

Admission to the program is competitive. To be admitted, an applicant must have completed a Juris Doctor degree in the U.S. or a law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country and have submitted a complete application to the program. Selection will be based on academic background and potential, diversity of experience and background, career experience and ambitions, strength of experience related to the program sought, space and resource limitations in the law school, and other factors.

For an application to be considered complete, it must include the following:

- ☐ • the completed LLM application form
- ☐ • the required application fee
- ☐ • a resume that does not exceed three typed pages
- ☐ • a statement of interest that does not exceed 1,250 words (double-spaced, typed pages)
- ☐ • transcripts from all institutions attended, including the transcript showing that the bachelor's degree and law degree were conferred
- ☐ • two letters of recommendation
- ☐ • a writing sample

Applicants are encouraged to apply electronically through <http://www.lsac.org> (<http://www.lsac.org>).

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and will be provided to the ASU College of Law by LSAC.

Applicants with degrees from foreign institutions must meet the Graduate College and College of Law English proficiency requirements.

Laws (Global Legal Studies), LL.M. (LAWLGLPLLM)

Online Degree Search Title: Laws (Global Legal Studies), LLM

Campus: Downtown Phoenix

Program Description:

The LLM program allows one year of post-JD study tailored to the scholarly and practice interests of participating students. The concentration in global legal studies is designed in coordination with the College of Law's Center for Law and Global Affairs. The program draws on the unique focus of the center and the faculty's wide range of international and transnational legal expertise in global health, the environment, human rights, trade and emerging technologies. The program emphasizes transdisciplinary study and links rigorous legal training with the research and scholarship drawn from political science, policy studies, anthropology and sustainability.

Degree Requirements:

The program is designed to be completed in one academic year (nine months) on a full-time basis but may also be pursued on a part-time basis. A degree program candidate must complete 24 credit hours of coursework. A candidate may elect to write a master's degree portfolio paper or, instead, can elect to complete an applied project. Required coursework includes two of the following courses:

LAW 615 Public International Law (3)
LAW 691 International Institutions (2)
LAW 709 International Human Rights (2-3)
LAW 768 International Business Transactions (2-4)

An international student whose initial law degree is not from a U.S. law school is required to take the following course:

LAW 596 Professional Legal Writing (2)

The remaining credit hours will generally be obtained from the list of elective courses in international law.

Admission Requirements:

The Sandra Day O'Connor College of Law offers several master's degree programs for students who have already completed a law degree within the U.S. or abroad.

Students should see the program website for application deadlines.

Admission to the program is competitive. To be admitted, an applicant must have completed a Juris Doctor degree in the U.S. or law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country and have submitted a complete application to the program. Selection will be based on academic background and potential, diversity of experience and background, career experience and ambitions, strength of experience related to the program sought, space and resource limitations in the law school and other factors.

For an application to be considered complete, it must include the following:

- ☐ • the completed LLM application form
- ☐ • the required application fee
- ☐ • a resume that does not exceed three typed pages
- ☐ • a statement of interest that does not exceed 1,250 words (double-spaced, typed pages)
- ☐ • transcripts from all institutions attended, including the transcript showing that the bachelor's degree and law degree were conferred

- ☐ • two letters of recommendation

Legal Studies, MLS (LWLGSMLEGS)

Online Degree Search Title: Legal Studies, MLS

Campus: Downtown Phoenix, Online

Program Description:

The MLS is a unique graduate program offered to established professionals or academicians whose work intersects with the law but who do not want to become attorneys. Students learn the foundations of U.S. law and study the process of legal analysis in the context of the cases, laws and regulations related to their specific career interests.

Note: Pursuant to American Bar Association standards, no law credits completed prior to admission to a JD program, including credits earned in the Master of Legal Studies program, may be transferred to a future Juris Doctor program under any circumstances.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

- Accountancy, MACC
- Information Management, MS
- Management, MS
- Master of Mass Communication, MMC
- Real Estate Development, MRED
- Sustainability Solutions, MSUS
- Taxation, MTax
- W. P. Carey MBA - Full-Time Program
- W. P. Carey MBA - Professional Flex Program

Degree Requirements:

The program consists of 30 credit hours of approved study. The degree program can be completed on a full-time or part-time basis. Students are required to take:

LAW 581 U.S. Law and Legal Analysis (3)

Students are required to choose one of the following basic foundational courses:

- LAW 515 Contracts* or LAW 530 Fundamentals of Contract Law (4/3)
- LAW 516 Criminal Law (3)*
- LAW 517 Torts (2/4)*
- LAW 518 Civil Procedure (3/5)*
- LAW 522 Constitutional Law I (3)*
- LAW 523 Property (2/4)*
- LAW 602 Civil Procedure II (3/4)
- LAW 604 Criminal Procedure (3)
- LAW 625 Constitutional Law II (3/4)
- LAW 654 Business Organizations (3/4)

*Students may enroll in a maximum of two courses marked with an asterisk.

The remainder of the credits are electives. Elective course selection will be flexible, to accommodate the diversity of intellectual and professional interests the program is intended to serve.

Admission Requirements:

The Sandra Day O'Connor College of Law offers the master's degree program for students who do not wish to practice law, but believe that education in the law would be beneficial to their advancement in their careers or in other fields.

Students should see the program website for application deadlines.

Admission to the program is competitive. In order to be admitted, applicants must have completed a bachelor's degree from an accredited four year college or university in the United States or attained a comparable degree from a foreign institution, and have submitted a complete application to the program. Selection will be based on a variety of factors, including academic background and potential, diversity of experience and background, career experience and ambitions, space and resource limitations in the law school and other factors.

For an application to be considered complete, it must include the following:

- ☐ • the completed MLS application form
- ☐ • the required application fee
- ☐ • a resume that does not exceed three typed pages
- ☐ • a personal statement (typed, double-spaced) that does not exceed 1,250 words
- ☐ • transcripts from all institutions attended, including the transcript showing that the bachelor's degree was conferred
- ☐ • two letters of recommendation
- ☐ • a writing sample

Applicants with degrees from foreign institutions must submit transcripts to World Education Services (<http://www.wes.org> (<http://www.wes.org>)) and meet the Graduate College and Sandra Day O'Connor College of Law English proficiency requirements.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here. Legal Studies (Patent Practice), MLS (LWLPPMLEGS)

Online Degree Search Title: Legal Studies (Patent Practice), MLS

Campus: Downtown Phoenix

Program Description:

The concentration in patent practice within the MLS degree program prepares students for the practice of patent law as registered patent agents with the United States Patent and Trademark Office. The concentration focuses on providing students with substantial doctrinal knowledge about patent law as well as practical skills training, including a capstone clinical course, relevant in the patent law field.

Degree Requirements:

Required Core (3 credit hours)

LAW 581 US Law and Legal Analysis (3)

Concentration (18 credit hours)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

Clinical Experience (Lisa Foundation Patent Law Clinic) (3)

Total required credit hours (30)

Admission Requirements:

Admission to the concentration requires a bachelor's degree in one of the following:

- ☐ • aeronautical engineering
- ☐ • agricultural engineering
- ☐ • biochemistry
- ☐ • biology
- ☐ • biomedical engineering
- ☐ • botany
- ☐ • ceramic engineering
- ☐ • chemical engineering
- ☐ • civil engineering
- ☐ • computer engineering
- ☐ • computer science*
- ☐ • electrical engineering
- ☐ • electrochemical engineering
- ☐ • electronics technology
- ☐ • engineering physics
- ☐ • food technology
- ☐ • general chemistry
- ☐ • general engineering
- ☐ • geological engineering
- ☐ • industrial engineering
- ☐ • marine technology
- ☐ • mechanical engineering
- ☐ • metallurgical engineering
- ☐ • microbiology
- ☐ • mining engineering
- ☐ • molecular biology
- ☐ • nuclear engineering
- ☐ • organic chemistry
- ☐ • petroleum engineering
- ☐ • pharmacology
- ☐ • physics
- ☐ • textile technology

*Acceptable computer science degrees must be accredited by the Computer Science Accreditation Commission of the Computing Sciences Accreditation Board or by the Computing Accreditation Commission of ABET on or before the date the degree was awarded.

A minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program is required. A minimum of 3.00 cumulative GPA (scale is 4.00 = "A") in the applicable master's degree is required.

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency as indicated by acceptable scores. Applicants should have a TOEFL score above 600 (paper), 250 (computer) or 100 (Internet). Exceptional candidates with relevant experience and background who have scores of at least 590 (paper), 243 (computer) or 96 (Internet) also will be considered. Applicants must meet the requirements of the Graduate College as well as those of the Sandra Day O'Connor College of Law.

For an application to be considered complete, it must include the following:

- ☐ • the completed MLS application form
- ☐ • the required application fee
- ☐ • a resume that does not exceed three typed pages
- ☐ • a statement of interest (typed, double-spaced) that does not exceed 1,250 words
- ☐ • transcripts from all institutions attended, including the transcript showing that the bachelor's degree was conferred
- ☐ • two letters of recommendation
- ☐ • a writing sample

Applicants with degrees from foreign institutions must submit transcripts to World Education Services (www.wes.org (<http://www.wes.org>)) and meet the Graduate College and Sandra Day O'Connor College of Law English proficiency requirements.

There is no required admission examination.

Students should see the program website for application deadlines.

Sports Law and Business, MSLB (LWSLBMSLB)

Online Degree Search Title: Sports Law and Business, MSLB

Campus: Downtown Phoenix

Program Description:

The Sandra Day O'Connor College of Law at Arizona State University offers a master's degree in sports law and business, in partnership with the W.P. Carey School of Business and in full cooperation with ASU's athletics department.

This program provides students with the training to understand the regulatory and revenue forces that drive the increasingly global sports industry: legal, policy, business, branding and marketing. The program uses a small class environment to deliver a problem- and project-based legal and business curriculum taught by recognized academic and professional leaders. That curriculum, together with an applied project, prepares students with the skills necessary to address the difficult issues present in the sports industry.

This unique graduate degree can be completed on a full-time basis in a 12-month period or in two or fewer years for part-time students working in the field.

Degree Requirements:

36 credit hours including the required applied project course (SLB 593).

Required Core (24 credit hours)

LAW 581 U.S. Law and Legal Analysis (3)
SLB 510 Amateur Sports Law (2)
SLB 511 Strategic Career Planning (1)
SLB 512 Professional Sports Law (2)
SLB 513 Sports Law and Business (3)
SLB 514 Contracts: Negotiation and Drafting in the Sports Industry (3)
SLB 515 Sports Business Strategy and Industry Dynamics (3)
SLB 516 Sports Business Development (2)
SLB 517 Marketing for Sports Organizations (3)
SLB 518 Sports Analytics (2)

Electives or Research (9 credit hours)

Culminating Experience (3 credit hours)

SLB 593 Applied Project (3)

Admission Requirements:

A minimum of a bachelor's degree is required from a regionally accredited four year college or university in the United States or a comparable degree from a foreign institution. Possible majors include but are not limited to the following:

- ☐ • business (finance, accounting, marketing, etc.)
- ☐ • communications
- ☐ • journalism
- ☐ • prelaw
- ☐ • sports management or business

Admission to the program is competitive. Selection will be based on:

- ☐ • academic background and potential
- ☐ • career experience and ambitions
- ☐ • diversity of experience and background
- ☐ • space and resource limitations in the law school, and other factors

For an application to be considered complete, it must include the following:

- ☐ • a complete MSLB application for admission submitted through the Sandra Day O'Connor College of Law at <https://www.law.asu.edu/admissions/apply/mslb> (<https://www.law.asu.edu/admissions/apply/mslb>)
- ☐ • required application fee
- ☐ • resume that does not exceed three typed pages
- ☐ • statement of interest that does not exceed 1,250 words (double-spaced, typed pages)
- ☐ • transcripts from all institutions attended, including the transcript showing that the bachelor's degree and law degree were conferred
- ☐ • two letters of recommendation
- ☐ • writing sample no less than two typed pages
- ☐ • explanations to affirmative answers to any conduct questions

Additional Application Information

Official transcripts from all postsecondary institutions of higher education attended must be submitted to the College of Law. An official transcript is a transcript certified by the issuing school and sent directly to ASU or delivered to ASU in a sealed envelope with a seal intact.

Applicants who have received undergraduate or graduate degrees from foreign institutions must have their transcripts evaluated by World Education Services, and WES must send that evaluation to the offices of the Sandra Day O'Connor College of Law.

Applicants must meet the requirements of the Graduate College as well as those of the Sandra Day O'Connor College of Law.

A student whose native language is not English (regardless of current residency) must provide evidence of English proficiency as indicated by acceptable scores. Applicants should have a TOEFL score above 600 (paper), 250 (computer), or 100 (Internet). Exceptional candidates with relevant experience and background who have scores of at least 590 (paper), 243 (computer) or 96 (Internet) also will be considered. ASU's institutional code is 4007.

Tribal Policy, Law and Government, LL.M. (LWTBLMLAWS)

Online Degree Search Title: Tribal Policy, Law, and Government, LLM

Campus: Downtown Phoenix

Program Description:

The LLM in tribal policy, law and government is designed for lawyers and law school graduates who desire to work on issues related to tribal law and federal Indian law at the professional and academic levels. The Sandra Day O'Connor College of Law is a leading institution in producing graduates specializing in Indian law. The College of Law is also home to the nationally known Indian Legal Program, established in 1988.

The program provides students with a detailed understanding of the nature of tribal government, and of law and policy development within the domestic federal structure. Candidates will benefit from the extensive resources committed to the Indian legal program, including a director and staff and an Indian law clinic with its own full-time director and staff.

The core curricular offerings focus on domestic tribal law, federal Indian law and American institutions of law and government. The program explores the expression of domestic law within contemporary administrative, governmental and judicial institutions.

ASU is located in the heart of the southwestern U.S., home to roughly one-third of the native population in the U.S. and where many of the largest Indian nations in the country are located. The university is the academic home for several nationally known scholars who do research on American Indian issues and houses many unique resources for such scholarship, including the Labriola Collection at Hayden Library.

Degree Requirements:

The program is administered by the Indian Legal Program and is oriented toward students who seek practical experience in tribal law and federal Indian law. It provides intensive instruction to students who graduated from a law school that had few or no courses in Indian law and who now seek to practice in these areas at a professional level. This degree program requires a minimum of 24 credit hours of study. A thesis is not required.

Students will immerse themselves in the study of tribal law and federal Indian law and will apply the knowledge and experience they gain through the practical component of the degree program which may consist of research projects for tribal courts and governments; state, tribal and federal court practice; and tribal code drafting.

Graduates will be well equipped for professional positions that require knowledge and expertise in tribal law and federal Indian law. Students have the option of pursuing the degree on a part-time basis.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and College of Law English proficiency requirements.

Admission to the program is competitive. In order to be admitted, an applicant must have completed a JD degree or law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country and have submitted a complete application to the program.

Selection will be based on:

- ☐ • academic background and potential
- ☐ • career experience and ambitions
- ☐ • diversity of experience and background
- ☐ • space and resource limitations in the law school
- ☐ • strength of experience related to the program sought, and other factors

Applicants are encouraged to apply electronically through <http://www.lsac.org> (<http://www.lsac.org>). For an application to be considered complete, it must include the following:

- ☐ • the completed LLM application form
- ☐ • the required application fee
- ☐ • a resume that does not exceed three, typed pages
- ☐ • a statement of interest that does not exceed 1,250 words, typed and double-spaced
- ☐ • transcripts from all institutions attended, including the transcript showing that the bachelor's degree and law degree were conferred
- ☐ • two letters of recommendation
- ☐ • a writing sample

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and will be provided to the ASU College of Law by LSAC.

Students should see the program website for application deadlines.

Liberal Arts & Sciences, College of

African Studies (certificate), Certificate (LAAFRICACE)

Online Degree Search Title: African Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate in African and African diaspora studies is a transdisciplinary program with four areas of emphasis:

- ☐ • African diaspora studies

- ☐ • African studies
- ☐ • comparative studies
- ☐ • women and gender in African and African diaspora studies

These areas of emphasis provide students with access to an extensive range of information and systematic knowledge committed to the new model of African and African diaspora studies that focuses on the intersections of race, culture and gender with transdisciplinary perspectives.

As this certificate program offers students an international dimension to the study of peoples and cultures of African descent, students will invigorate their knowledge about global issues and further expand their research pursuits. This certificate program characterizes the faculty members' intellectual and research strengths and the curriculum's transdisciplinary strategies and research approaches that highlight the continuities and disjuncture of history and experiences throughout Africa and the diaspora.

Degree Requirements:

18 credit hours.

Required Core (3 credit hours)

AFR 500 Research Methods (3)

Capstone Project (3 credit hours)

Electives (3 credit hours)

Emphasis Courses (9 credit hours)

Additional Curriculum Information

Students select one of four emphases after consulting with the director of the certificate program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Students who are not regularly admitted to a graduate degree program may still pursue the certificate.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program. When applicable, applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in a master's degree program.

Applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Admission Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Official copies of transcripts must be submitted from all college and universities where the applicant earned a bachelor's or master's degree.

American Indian Studies (Cultural Resource Revitalization and Sustainability), MS (LAAISCMS)

Online Degree Search Title: American Indian Studies (Cultural Resource Revitalization and Sust), MS

Campus: Tempe

Program Description:

The MS in American Indian studies is a transdisciplinary program that results in an intellectual and practical understanding of the issues facing American Indian populations and the ability to apply that knowledge. Students acquire problem-solving skills useful in a range of professional arenas, including governmental, private and nonprofit agencies. Focus is on languages, cultures, arts, histories, legal policy and education from an American Indian studies paradigm perspective. Delivery is mainly through in-person courses.

The cultural resource revitalization and sustainability concentration explores the development and implementation of American Indian-focused cultural resources management processes and analyze how policies and laws can improve or hinder the protection of American Indian cultural and funerary patrimony.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (AIS 580).

Required Core (9 credit hours)

AIS 501 American Indian Studies Paradigms (3)

AIS 502 American Indian Studies Research Methods (3)

AIS 503 Contemporary Issues of American Indian Nations (3)

Concentration (9 credit hours)

Electives (6 credit hours)

Culminating Experience (6 credit hours)

AIS 599 or AIS 580 Thesis or Applied Project (6)

Additional Curriculum Information

Students may select a thesis or nonthesis option. Thesis students will be involved in a major research project under the direction of their faculty advisors, culminating in a thesis. This is the option students should select if they have an interest in a research-oriented position within an organization or agency or wish to pursue a doctoral degree. Nonthesis students will complete an applied project that identifies and addresses an applied problem or issue relevant to a partner agency or organization under the direction of their faculty advisors. This is the option students should select if they are interested in a leadership or managerial level position within an organization or agency.

Admission Requirements:

Applicants must fulfill both the requirements of the Graduate College and the College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, from a regionally accredited college or university of recognized standing, in a related field such as history, justice study, sociology, ethnic studies, anthropology, political science or education.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Students should visit <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>) for more information.

American Indian Studies (Indigenous Rights and Social Justice), MS (LAAISIMS)

Online Degree Search Title: American Indian Studies (Indigenous Rights and Social Justice), MS
Academic Catalog Archive 2017-2018

Campus: Tempe

Program Description:

The MS in American Indian studies is a transdisciplinary program that provides students with an intellectual and practical understanding of the issues facing American Indian populations and the ability to apply that knowledge. Students acquire problem-solving skills in a range of professional arenas, including governmental, private and nonprofit agencies. The program focuses on languages, cultures, the arts, histories, legal policies and education from an American Indian studies paradigm and perspective. Delivery is in-person courses.

The Indigenous rights and social justice concentration explores the historical dimensions of colonization on American Indian political, economic and cultural institutions. Students will analyze the legal, political and social implications of American Indian relationships with federal, state and local governments and investigate processes that American Indian nations and community members use to strategize and work toward social justice and Indigenous rights.

Accelerated Degrees:

This degree is also offered in an accelerated format with American Indian Studies, BS

Acceptance to the graduate program requires a separate application. During their junior and senior years, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (AIS 580).

American Indian Studies (Visual and Oral Culture), MS (LAAISVMS)

Online Degree Search Title: American Indian Studies (Visual and Oral Culture), MS

Campus: Tempe

Program Description:

The MS in American Indian studies is a transdisciplinary program that results in an intellectual and practical understanding of the issues facing American Indian populations and the ability to apply that knowledge. Students gain problem-solving skills in a range of professional arenas, including governmental, private and nonprofit agencies. The program focuses on the languages, cultures, arts, histories, legal policy and education from an American Indian studies perspective. Delivery is through in-person courses.

Students will select a thesis or nonthesis option. Both are research projects, but the applied project is more applied in nature. Thesis students will be involved in a major research project under the direction of their faculty advisors, culminating in a thesis. This is the option students should select if they have an interest in a research-oriented position within an organization or agency or wish to pursue a doctoral degree. Nonthesis students will complete a practicum project that identifies and addresses an applied problem or issue relevant to a partner agency or organization under the direction of their faculty advisors. This is the option students should select if they are interested in a leadership or managerial-level position within an organization or agency.

The required core classes emphasize the knowledge and skills all graduates must have. Concentrations and electives are designed so students can concentrate in the areas of visual and oral culture, indigenous rights and social justice, cultural resource revitalization, and sustainability or tribal leadership and governance.

The visual and oral culture concentration explores and contributes to American Indian culture and history as it exists in visual, material and written forms through creative writing, literature, poetry, film, photography, performing arts, digital arts, oral tradition, and history and communication from an American Indian studies paradigm.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (AIS 580).

Required Core (9 credit hours)

AIS 501 American Indian Studies Paradigms (3)

AIS 502 American Indian Studies Research Methods (3)

AIS 503 Contemporary Issues of American Indian Nations (3)

Concentration (9 credit hours)

Electives (6 credit hours)

Culminating Experience (6 credit hours)

AIS 599 Thesis (6) or AIS 580 applied project (6)

Additional Curriculum Information

For concentration and electives, students should see the academic unit for the approved courses.

Admission Requirements:

Applicants must fulfill both the requirements of the Graduate College and the College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited college or university of recognized standing in a related field such as history, justice studies, sociology, ethnic studies, anthropology, political science or education.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

American Media and Popular Culture, MAS (LAAMPCMAS)

Online Degree Search Title: American Media and Popular Culture, MAS

Campus: Online

Program Description:

The MAS degree program offered by the Film and Media Studies program at ASU features innovative approaches to the study of film, television, computer games, new media and screenwriting using historic methods, critical theory and creative expression as modes of analysis. While the media arts have traditionally been studied as independent disciplines, our program provides a more comprehensive approach that views them as convergent. We therefore recognize the importance of understanding the history of film as an art form, for instance, but also the need to view it in relation to television and digital media. We are committed to integrating the study of such media convergence into our curriculum, both as units within courses and through the design of new courses entirely devoted to that phenomenon.

Degree Requirements:

30 credit hours including the required applied project course (FMS 593).

Required Core (9 credit hours)

Electives (18 credit hours)

Culminating Experience (3 credit hours)
FMS 593 Applied Project (3)

Additional Curriculum Information

The program consists of nine credit hours of core courses, 18 credit hours of electives and a three-credit applied project. Students should review the webpage and then consult the director.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00= "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • statement of purpose
- ☐ • resume or curriculum vitae
- ☐ • letters of recommendation (optional)
- ☐ • application essay
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. Students should see the Department of English website for specific details about English proficiency requirements.

The two-page statement should describe past academic work, reasons for pursuing the MAS, and the skills that prepare the applicant for this degree.

Applicants will be asked to write and submit a three-page essay that assesses their knowledge of media theory and critical analysis skills. The subject of the essay will be given in the online application. Applicants should demonstrate the ability to write well and construct a persuasive critical argument. Appropriate secondary sources should be used in this essay. While letters of recommendation are optional, applicants may include two or three letters in their application.

Recommenders should be former teachers or supervisors, addressing the applicant's academic performance, motivation and character.

An interview via Skype may be requested before final admission decisions are made.

American Studies, MA (LAAMSTMA)

Online Degree Search Title: American Studies, MA

Campus: Tempe

Program Description:

American studies is constituted by a multi- and transdisciplinary inquiry into the communities and cultures, values and ideologies, and social formations and institutions of the United States. American studies scholars seek to evaluate the processes and ideas that inform this country and its influences upon other cultures and communities, domestically and abroad.

While the array of disciplines spans the arts, humanities, and social sciences, the expertise of our faculty at ASU covers a broad range of historical, literary, and media studies, as well as interdisciplinary and community-based approaches. The master's degree students will be trained to expand their understanding of the history of American cultures and social conditions while learning the critical contexts for understanding contemporary trends in North America. The master's degree provides students with an advanced analytic foundation in American culture and society in all its variety and complexity.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (AMS 593).

Required Core (3 credit hours)

AMS 502 American Studies: Theory and Methods (3)

Electives or Research (21 - 24 credit hours)

Culminating Experience (3 or 6 credit hours)

AMS 593 Applied Project (3) or

AMS 599 Thesis (6)

Additional Curriculum Information

For electives or research, students should see the academic unit for the approved course list. Students choose 21 credit hours for the thesis option

or 24 for the applied project option.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Applicants holding a bachelor's or master's degree in American studies or a closely related field are preferred.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- ☐ • graduate admission application and application fee
- ☐ • official transcripts
- ☐ • statement of purpose
- ☐ • writing sample
- ☐ • curriculum vitae
- ☐ • two letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency. The history program requires a TOEFL score of at least 600 (PBT) or 90 (iBT).

The writing sample may be an article (published or unpublished), a research paper, a seminar paper, or any other extended sample of expository skill. A minimum of 4,000 to 5,000 words is required. The document should not be password protected.

The statement of purpose should be addressed to the American Studies Graduate Studies Committee. It must explain the applicant's scholarly background and training, career goals, the area of study the applicant wishes to pursue, and why the applicant wants to pursue graduate study at ASU. It must be about 500 words in length.

Two references are required. Applicants should contact faculty or professional supervisors they intend to use for references prior to listing them on the application, and inform the intended recommenders that they will be receiving an email from the ASU American studies program asking them to complete a questionnaire and provide comments on the applicant's suitability for graduate study. Updated email addresses for references should be confirmed before submitting them on the application. References from family members or relations are not recommended.

Animal Behavior, PHD (LAANBPHD)

Online Degree Search Title: Animal Behavior, PhD

Campus: Tempe

Program Description:

Animal behavior is a transdisciplinary graduate degree program that provides doctoral-level training in mechanistic and functional approaches to understanding behavior in a variety of animal taxa.

The study of behavior is at the interface of several scientific disciplines, including physiology, ecology and evolution. This program offers the diverse but specialized array of skills and knowledge needed to produce excellent research in animal behavior.

Graduates will gain knowledge and skills with applied scientific value in areas such as veterinary science and mental and behavioral health in humans. The ecological focus of the program feeds into valley, state and global priorities in biological conservation and ecosystem sustainability.

Degree Requirements:

84 credit hours, a prospectus and a dissertation.

Required Core (8 credit hours)

ANB 601 Research Strategies in Animal Behavior (4)

ANB 602 Current Issues in Animal Behavior (4)

Electives (21 credit hours)

The department and the student's advisor will determine these courses in conjunction with the student.

Research (43 credit hours)

Dissertation (12 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in a related discipline, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- ☐ • graduate admissions application and application fee
- ☐ • official transcripts
- ☐ • academic record form
- ☐ • personal statement
- ☐ • CV or resume
- ☐ • GRE scores
- ☐ • three letters of recommendation
- ☐ • proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency

GRE scores of 50 percent verbal and 70 percent quantitative are desired.

Anthropology, PHD (LAANTHRPHD)

Online Degree Search Title: Anthropology, PhD

Campus: Tempe

Program Description:

The School of Human Evolution and Social Change is an excellent choice for students interested in pursuing a PhD in the classic fields of anthropology:

- ☐ • archaeology
- ☐ • bioarchaeology
- ☐ • evolutionary anthropology
- ☐ • sociocultural anthropology

It is also an ideal environment for students who want to combine these approaches and other disciplines to explore specific issues or research questions within a transdisciplinary context. The flexible graduate curricula are designed to encourage students to design innovative plans of study in order to pursue their interests while receiving broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines, including:

- ☐ • applied mathematics
- ☐ • chemistry
- ☐ • environmental economics
- ☐ • epidemiology
- ☐ • formal modeling
- ☐ • genetics
- ☐ • sociology
- ☐ • sustainability
- ☐ • technology and society
- ☐ • urban planning

The training students receive in this program prepares them to become expert scholars able to contribute not only to their chosen field, but also to finding solutions to humankind's greatest challenges.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.
