Global Development and Innovation (Certificate), Certificate (FIGDIGRCT)

Online Degree Search Title: Global Development and Innovation (Graduate Certificate)

Campus: Tempe, Online

Program Description:

The graduate certificate in global development and innovation responds to the knowledge and skills gap that development practitioners often struggle with globally. It provides current and critical perspectives as well as analytical and practical skills to address some of today's most pressing global challenges including inequality, sustainability and poverty.

Program graduates will acquire an understanding of the main debates in global development and will be able to engage in informed and critical ways with professionals from a range of development backgrounds.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

GTD 501 Global Technology and Development (3)

GTD 511 Development Policy and Practices (3)

Electives (9 credit hours)

Additional Curriculum Information

Students select nine credit hours from a restricted elective list. This list can change and increase over time as needed with unit director approval.

Students may select a maximum of three one-credit courses toward fulfillment of the total of nine credit hours. Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution or the equivalent from an international institution that is officially recognized by that country.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or

applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- personal statement
- resume
- official transcripts
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Acceptable proof consists of a TOEFL score of at least 550 (PBT) or 80 (iBT), an IELTS overall band score of at least 6.5 with no band below 6.0, or a Pearson Test of English score of at least 60. The most current requirements are available at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

International students who need an F1 or J1 visa first need to apply to and be accepted into a master's degree or doctoral degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Global Sustainability Science, MS (SUGSUSMS)

Online Degree Search Title: Global Sustainability Science, MS

Campus: Tempe

Program Description:

The MS in global sustainability science is a two-year collaborative degree program offered jointly by Arizona State University and Leuphana University of Luneburg, Germany. Students who participate in the program earn a Master of Science in global sustainability science from ASU and a Master of Science in global sustainability science from Leuphana University.</p>

Students from both universities collaborate throughout the program and spend one semester together at Leuphana in Luneburg as well as one semester together at ASU in Tempe, Arizona. The program culminates with a capstone project resulting in a publishable scientific journal article. Students have the opportunity to engage with sustainability problems and solutions in an international setting.

The program focuses on value-oriented and transformational aspects of sustainability, linking research with practical implementation of sustainability solutions. Project-based learning offers students opportunities to conduct their research on real-world sustainability solutions in collaboration with stakeholders and professionals. In addition, the program facilitates intercultural collaboration, which prepares graduates for working in internationally operating institutions and organizations.

Degree Requirements:

41 credit hours including Capstone Course SOS 596.

Required Core (17 credit hours)

SOS 510 Perspectives on Sustainability (3)

SOS 511 Advanced Sustainability Problem Solving (3)

SOS 525 Social-Ecological-Technical Systems (SETS): Domains and Interfaces (3)

SOS 557 Global Sustainability Research Preparation (1)

SOS 558 Global Sustainability Research Project (3)

SOS 559 Global Sustainability Science Perspectives Seminar (1)

SOS 581 Synthesis for Sustainability Research (3)

Methods Elective (3 credit hours)

Open Electives (15 credit hours)

Culminating Experience (6 credit hours)

SOS 596 Capstone: Scientific Paper (6)

Additional Curriculum Information

Students should see the academic unit for elective coursework approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- three letters of recommendation
- letter of intent or written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants not meeting the minimum GPA requirement may still be considered, although the college will require a GPA petition

References should be from educators (this is preferred) or professionals familiar with the applicant's experience and capability for graduate work. It is highly recommended that the recommendations are academic in nature and address the applicant's experience and potential for success in a graduate program; however, professional recommendations also are accepted. If possible, at least one recommendation should be academic in nature.

All applicants must upload a statement of intent when completing the online application. In no more than 600 words, applicants must explain the goals they intend to achieve through their program of study at the College of Global Futures. Applicants should describe how their background will contribute to their success in the program and how completion of the degree program will support their long-term career goals. Finally, applicants should elaborate on key research questions they wish to address or problems they wish to solve as part of their program of study and identify potential faculty advisors

GRE scores are required but may be waived for students already enrolled at Leuphana University of Luneburg.

Global Technology and Development, MS (LSGTDMS)

Online Degree Search Title: Global Technology and Development, MS

Campus: Tempe, Online

Program Description:

The MS in global technology and development is a program in international development that examines social, economic and political aspects of development and change. It highlights the variables of technology and innovation in these development processes and analyzes change within the context of the current era of globalization. One of the central concerns addressed in the program is the global disparity in wealth and access to resources and basic needs, both between and within countries.

Students are encouraged to pursue unique research questions, in the developed or the developing worlds, which engage them in social science research on issues related to technology and human socioeconomic and political development. Students take theoretical, research, policy and regional studies courses to prepare for the master's degree culminating experience.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Innovation in Society, BS

Innovation in Society, BA

Technological Entrepreneurship and Management, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (GTD 593).

Required Core (3 credit hours)

GTD 511 Development Policies and Practices (3)

Other Requirements (12 credit hours)

GTD 501 Global Technology and Development (3)

GTD 503 Technology and the International Political System (3)

GTD 505 Research Design in Technology and Development (3)

GTD 506 Quantitative Analysis in Technology and Development (3)

Restricted Electives (12 credit hours)

Culminating Experience (3 credit hours)

GTD 593 Applied Project (3)

Additional Curriculum Information

For the approved electives course list, students should contact the academic unit. Other requirement courses may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's degree from a regionally accredited college or university recognized by ASU in a related field such as political science, international relations, sociology, anthropology, economics, business, education, technology, engineering, life sciences, foreign languages or literature (i.e., topics related to global development, culture or socioeconomic institutions).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- two letters of recommendation
- resume
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. A TOEFL score is required. Applicants should visit <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>) for more information.

Global Technology and Development (Applied International Development), MS (FIGTDAIDMS)

Online Degree Search Title: Global Technology and Development (Applied International Development), MS

Campus: Online

Program Description:

The concentration in applied international development under the MS in global technology and development provides a curriculum focused on applied skills and practices in international development and includes specializations contributed by other units; this differs from the current theory and research-driven degree.

The program allows professionals, whether early in their careers or experienced, to develop and enhance skills in planning, management, analysis and evaluation in development practice. Students in the program select an area to specialize in, such as education, health, business, management and community development, which allows them to directly apply this knowledge to a relevant sector. Learning outcomes emphasize enhanced skills in analysis, critical thinking and the ability to apply knowledge to development-related challenges.

Degree Requirements:

30 credit hours including an applied project (GTD 593).

Required Core (3 credit hours)

GTD 511 Development Policy and Practices (3)

Concentration (9 credit hours)

GTD 501 Global Technology and Development (3)

GTD 503 Technology and the International Political System (3)

GTD 504 Technology and Development in Zones of Conflict (3)

GTD 505 Research Design in Technology and Development (3)

GTD 506 Quantitative Analysis in Technology and Development (3)

GTD 508 Technology and Development in Latin America (3)

NLM 520 Financial and Resource Management (3)

NLM 530 Program Evaluation and Information Management (3)

Specialization Electives (15 credit hours)

Culminating Experience (3 credit hours)

GTD 593 Applied Project (3)

Additional Curriculum Information

Students select three courses from the concentration list for a total of nine credit hours.

Students may take elective courses in an area of interest from a variety of ASU Online academic programs such as business, management, education, community development and health. Students should see the academic unit for available specializations and approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in global development, education, business, health, management, community development or a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee

- official transcripts
- letter of intent or written statement
- two letters of recommendation
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A personal statement of purpose of one to two pages is required for admission as well as two letters of recommendation, either academic or professional. While the GRE is not required, the statement of purpose is a significant factor in the application process, and it should address the background and capabilities of the applicant as well as the applicant's interest in the program.

Human and Social Dimensions of Science and Technology, PHD (GCHSDSTPHD)

Online Degree Search Title: Human and Social Dimensions of Science and Technology, PhD

Campus: Tempe

Program Description:

This program prepares students to teach and conduct research using humanistic and social science methods on the social, historical, philosophical and policy foundations of science and technology as well as their current and future interactions with society.

The PhD program in human and social dimensions of science and technology responds to growing demand for transdisciplinary research in the humanities, information sciences and social sciences that can provide insights into the dynamic relationship between science, technology and society.

The program is flexible, combining a strong, integrated, first-year experience with substantial freedom for students who, in conjunction with their advisors, design carefully crafted plans of study relevant to their own areas of specialization and expertise. Unique among programs of this kind in the nation, students also learn to communicate and work with scientists, engineers, policymakers, business and community officials, or the public in conducting and applying research.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (8 credit hours)

HSD 601 HSD I: Human Dimensions of Science and Technology (4)

HSD 602 HSD II: Science, Power and Politics (4)

Culminating Experience (12 credit hours)

HSD 799 Dissertation (12)

Additional Curriculum Information

This is a research degree, culminating in a dissertation, which must draw on multiple disciplinary perspectives.

Students may apply up to 30 credit hours from a prior master's degree toward the total hour requirement, upon approval of the steering committee. Each student, with his or her supervisory committee, develops a unique plan of study, which the student's supervisory committee approves.

Each student completes a yearlong core seminar, a second-year research project, two major fields, one minor field, methods training, electives and research. Students also regularly attend the program colloquia. There are no foreign language or statistics requirements, except as needed for a particular student's selected dissertation project.

Comprehensive Examination

The written dissertation prospectus and its oral defense constitute the written and oral comprehensive examinations required by the Graduate College for advancement to candidacy. Each student develops a written dissertation prospectus, including a bibliography and discussion of relevant research skills. The student makes an oral defense of the dissertation prospectus to his or her supervisory committee, which must approve the prospectus. Students normally complete the dissertation prospectus and its defense in the fifth semester.

Dissertation

The dissertation represents an original body of research that contributes to existing knowledge in a significant way.

Final Examination

Upon completing the dissertation, the student makes an oral defense of the dissertation to the supervisory committee, which must approve the dissertation. The doctorate is granted upon successful completion of the oral defense and any revisions to the dissertation required by committee members.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- HSD academic record form
- a curriculum vitae or resume
- a personal statement
- a writing sample
- general GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. In order to meet English proficiency students must have an IELTS overall band score of at least 6.5 with no band below 6.0, or Pearson Test of English score of at least 60, or a TOEFL score of at least 550 (PBT) or 80 (iBT). ASU's institutional code is 4007. ASU only accepts electronic copies of the TOEFL score report.

Preference is given to students with demonstrated interest and competence in relevant areas of intellectual work.

The personal statement should be one or two single-spaced pages. It must be a statement of proposed research that clearly explains why the student feels ASU is the appropriate place to pursue their doctorate, identifies one or more faculty members whose interests or work are relevant to the student's proposed research, and describes the goals for pursuing the degree.

The writing sample should be a 10- to 25-page sample of academic writing, such as a course paper, an undergraduate thesis, or an excerpt from a master's thesis.

Students should see the program website for application deadlines.

Innovation in Global Development, PHD (FIIGDPHD)

Online Degree Search Title: Innovation in Global Development, PhD

Campus: Tempe

Program Description:

The PhD program in innovation in global development emphasizes critical and diverse perspectives on global development and innovative policies and practices that challenge the status quo. This research based program is both rigorous and flexible, designed to meet the needs of a diverse set of students committed to a vision of development that values context, inclusivity and equity and is socially, culturally and ecologically sensitive.

Students emerge from this program equipped with the comprehensive research capabilities, critical thinking skills, leadership skills and global perspectives required to navigate complex development challenges in a way that reduces inequalities and builds a more sustainable and inclusive future.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (17 credit hours)

GTD 505 Research Design in Technology and Development (3)

IGD 601 Re-Thinking Global Development (4)

IGD 602 Innovation for Inclusive Development (4)

IGD 603 Methods for Research in Global Development (4)

IGD 604 Colloquium in Innovation in Global Development (2)

Electives or Research (55 credit hours)

Culminating Experience (12 credit hours)

IGD 799 Dissertation (12)

Additional Curriculum Information

Students are required to take IGD 604 once for two credits as a core course requirement. They may take it one additional time for two more credits that can be used towards electives.

Elective courses are chosen based on the students' area of interest and approval from their committee. Other electives may be used with approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in anthropology, natural resource management, agriculture development, political science, development studies, economics, development management, rural development, technology and development, sociology, science and technology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Nonfiction Writing and Publishing (Certificate), Certificate (LANWPGRCT)

Online Degree Search Title: Nonfiction Writing and Publishing (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

The graduate certificate program in nonfiction writing and publishing is based on the belief that the work done within the university is most impactful when it can be shared --- in a clear and compelling way --- with audiences beyond chosen fields of research.

In this interdisciplinary certificate program, graduate students read, study and write narrative nonfiction, from literary journalism to op-eds and from explanatory essays to memoirs. Students learn how to analyze the craft and stylistic decisions of professional and literary nonfiction writers and utilize these skills in their own writing. They learn how to write effectively for specific audiences outside of academia and learn how get their work published.

This program's faculty teach scholars and students to produce vivid writing that connects with a larger public as well as the most effective ways to get their writing out into the world, be it through blogs, online or print publications, trade books, or film and television.

The certificate program is open to graduate students with a background in the humanities and those in biomedicine, the techno-sciences and other fields who want to write eloquently, persuasively and memorably about their research or professional experiences.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

HSD/HPS/HST 520 Masters of Nonfiction (3)

HSD 521 Writing True Stories that Matter (3)

Electives (9 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Applicants who attended school outside of the U.S. must hold a bachelor's degree, graduate degree or equivalent from an institution that is officially recognized by that country.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours or 90 quarter hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants are encouraged to enroll in a graduate degree program in conjunction with this certificate but are not required to do so.

Public Interest Technology, MS (FIPITCHMS)

Online Degree Search Title: Public Interest Technology, MS

Campus: Online

Program Description:

The MS program in public interest technology asks a fundamental question: How can technology be used for good? When studying the public interest, it is vital to understand how new technologies pose new challenges and opportunities to society.

Students in this program acquire the ability to work in cross-disciplinary teams and gain a fluency that permeates technology and society issues and solutions. Graduates are able to think analytically, design new systems and processes, and gain exposure to emerging technologies that can make a difference in how government agencies, non-government organizations, not-for-profits and private companies emphasize social impact. People working in this space ask communities what their needs are first, using a co-design approach to innovation with cultural awareness and values in mind.

Public interest technologies are relevant to all entities who seek to embed the goals of technology assessment, social justice, sustainability and environmental justice in their products and processes.

Degree Requirements:

30 credit hours including an applied project (PIT 593).

Required Core (12 credit hours)

PIT 501 Principles of Public Interest Technology (3)

PIT 502 Co-designing the Future (3)

PIT 503 Technology Impact Assessments (3)

PIT 504 Public Engagement Strategies (3)

Electives (15 credit hours)

Culminating Experience (3 credit hours)

PIT 593 Applied Project (3)

Additional Curriculum Information

Students should see the academic unit for the current elective course list. The elective list may change over time as new courses become available. Students must meet any prerequisites for the course in order to register for it or receive permission from the Master of Science in public interest technology degree program chair and the instructor of the course.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in computer science, public administration, engineering, business or marketing or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume

- written statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Responsible Innovation in Science, Engineering and Society (certificate), Certificate (GCRSESGRCT)

Online Degree Search Title: Responsible Innovation in Science, Engineering and Society (Graduate Certificate)

Campus: Tempe

Program Description:

The certificate program in responsible innovation in science, engineering and society is designed for scientists, engineers, research managers, technology officers, public administrators and policy officials who seek to advance science and technology to improve societal outcomes and to develop creative solutions to the fundamental global challenges of the 21st century.

The program provides knowledge, skills and methods for analyzing innovation and technological systems; knowledge and uncertainty in decision-making; the regulation and governance of science and technology; the uptake of science and technology in complex societal settings; and interactions between science, technology and the public.

The certificate may be pursued by professionals in industry or government or by graduate students pursuing their Arizona State University degree program.

Degree Requirements:

15 credit hours including the required capstone course HSD 580.

Required Core (3 credit hours)

HSD 540 Responsible Innovation and Research (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)

HSD 580 Practicum (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the School for the Future of Innovation in Society.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- resume
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Acceptable proof of English proficiency is an IELTS overall band score of at least 6.5 with no band below 6.0 (no institutional code needed); or a Pearson Test of English score of at least 60; or a TOEFL score of at least 550 (PBT) or 80 (iBT). Students should note that the ASU institutional code for the TOEFL is 4007. Also, students should note that ASU only accepts electronic copies of the TOEFL score report.

International students who need an F1 or J1 visa first need to apply to and be accepted into a master's or doctoral program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants should see the program website for application deadlines.

Science and Technology Policy, MSTP (LAHSDPSM)

Online Degree Search Title: Science and Technology Policy, MSTP

Campus: Tempe

Program Description:

The MSTP program uniquely prepares its graduates to have an impact in today's technologically complex world. Drawing on some of the world's leading experts and innovative thinkers, it is designed to train future leaders, policymakers and analysts in tackling complex issues ranging from climate change, energy security and responsible innovation to public health, global development and social justice.

The Master of Science and Technology Policy is a one-year, cohort-based program designed to attract students of the highest caliber. The program also may be completed over an extended period or on a part-time basis. It is suited to anyone interested in a career in which they work to ensure through responsive and effective policy development and implementation that science and technology serve society. Students come from a wide range of backgrounds and go on to develop successful careers in government, business, academic institutions and nongovernmental organizations.

On completion of the program, graduates are able to apply critical skills and methods to science and technology policy analysis, apply cutting-edge approaches to ensuring socially responsive and responsible technology innovation, and contribute to developing and implementing creative solutions to many of today's most complex challenges, including responsible innovation, technological convergence, social and environmental sustainability, health and well-being, energy, equity, development, security, data privacy, infrastructure, democracy, STEM education, the role of science, and space exploration and policy. They are able to describe the historical, social and institutional foundations of science and technology policy; discuss the complexities of science and technology policy decisions, decision-making under uncertainty and the role of experts; employ effective policy communications skills and techniques; and work collaboratively and effectively with experts from different backgrounds, including scientists, engineers and elected officials.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

African and African American Studies, BA
Innovation in Society, BA
Innovation in Society, BS
Justice Studies, BA
Justice Studies, BS
Women and Gender Studies, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic advisor.

departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (HSD 593).

Required Core (6 credit hours)

HSD 501 Science and Technology Policy (3)

HSD 502 Advanced Science and Technology Policy (3)

Electives (9 credit hours)

Restricted Electives (9 credit hours)

Other Requirements (3 credit hours)

HSD 591 MSTP Professional Development Seminar Series (3)

Culminating Experience (3 credit hours)

HSD 593 Applied Project (3)

Additional Curriculum Information

Restricted electives are from a list provided by the program chair.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing. Students are strongly encouraged to have prior relevant education, training or experience in science and technology policy; management of science, technology or innovation; or science, technology and society.

Applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- resume
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students should see the program website for application deadlines.

Sustainability, MA (SUSUSTMA)

Online Degree Search Title: Sustainability, MA

Campus: Tempe

Program Description:

The MA in sustainability is a research-oriented degree program that culminates with research writing: either a thesis or publishable scientific paper.

The program focuses on knowledge generation and investigating potential solutions to sustainability challenges and prepares students to design and conduct transdisciplinary research. Although the graduate degree programs emphasize the integration of a broad range of expertise, this

program is best suited to students inclined toward social sciences, humanities, planning or related fields and who are interested in a career in research or academia.

Students learn how different disciplines view and approach the challenges of sustainability in theory, research and practice. They develop the academic and technical skills as well as the ethical insights that will help them understand, research and provide solutions to complex sustainability challenges at the local, regional, national and global levels.

All program graduates understand the need for a transdisciplinary approach to solving sustainability challenges, are able to communicate their work to professionals in other disciplines and to policymakers and the general public, and have the breadth of vision to recognize the interconnectedness of social, economic, environmental and technical systems. They have the critical thinking skills necessary for approaching sustainability challenges from a systems perspective, the ability to work effectively in interdisciplinary teams, and the technical skills required to formulate and solve problems at the appropriate scale.

Students can learn more about careers in sustainability and where graduates with a master's degree in sustainability are now employed by visiting <https://schoolofsustainability.asu.edu/careers/careers-in-sustainability/> (<https://schoolofsustainability.asu.edu/careers/careers-in-sustainability/>).

Degree Requirements:

35 credit hours and a thesis, or 35 credit hours including a capstone course (SOS 596).

Required Core (14 credit hours)

SOS 510 Perspectives on Sustainability (3)

SOS 520 Research Design and Methods for Sustainability (3)

SOS 525 Social-Ecological-Technical Systems: Domains and Interfaces (3)

SOS 581 Synthesis for Sustainability Research (3)

SOS 589 Community of Graduate Student Scholars (2)

Electives (15 credit hours)

methods (3)

normative dimensions of sustainability (3)

general electives (9)

Culminating Experience (6 credit hours)

SOS 596 Capstone: Scientific Paper (6) or

SOS 599 Thesis (6)

Additional Curriculum Information

The taught-course element of the program will be evaluated through course-specific examinations, research papers or applied projects and will be considered to have been successfully completed if the student obtains a GPA of 3.25 or higher. Graduate College policies and procedures for fulfillment of degree requirements must also be met.

SOS 589 is a one credit hour course students take twice, for two credit hours total.

Approved general electives prefixes include, but are not limited to, the following:

SOS, ASB, ART, PAF, SGS, POS, SOC, PSB, PGS, PHI, COM, CPP, CRD, ESS, PGV, NTR, MCO, GCU, SCM, HPS, HST, JHR, JMC, JUS, LAW, LES, PUP, SBS, RTM, STS, TDM, URB

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of intent
- GRE scores
- three letters of recommendation
- resume or curriculum vitae

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of intent should not exceed 600 words and should describe how the applicant's background will contribute to success in the program and describe how completion of the degree will support long-term career goals. The statement should elaborate on key research questions the applicant wishes to address or problems to solve as part of the plan of study, and it should identify potential faculty advisors.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements. At least one letter should be academic in nature.

Sustainability, PHD (SUSUSTPHD)

Online Degree Search Title: Sustainability, PhD

Campus: Tempe

Program Description:

The PhD program in sustainability prepares students to become scientists and leaders in research and to investigate the urgent sustainability challenges of this century. The flexible, transdisciplinary nature of the program allows students to focus on problems of interest to them, drawing upon relevant knowledge from sustainability science and a variety of disciplines.

Graduates possess an advanced understanding of the dynamics of coupled social-ecological systems and use this knowledge to conduct original research to inform robust solutions to specific sustainability challenges. All sustainability PhD students possess an understanding of the need for a transdisciplinary approach to solving sustainability challenges as well as the ability to communicate their research effectively to academic and non-

academic audiences alike.

In addition to the common learning outcomes, students are able to conduct research on particular sustainability challenges using theoretical lenses and methods from sustainability science and a range of complementary disciplines. Students learn to translate sustainability challenges to tractable research questions, develop a portfolio of quantitative and qualitative research methods to address these research questions, formulate and test hypotheses, utilize rigorous elicitation methods to gather qualitative and quantitative datasets, learn to engage with stakeholders to co-produce knowledge, use statistical and other analytic techniques to analyze data, and build and apply models of social-ecological systems. They develop expertise in the analysis of institutional policies and regulations and the design of the built environment and technologies to support sustainable development. They also develop the foundational knowledge of concepts and methods required to conduct interdisciplinary research and effectively communicate their findings across academic disciplines as well as to policymakers and the general public. Upon graduation they are equipped to lead others in the development of sustainable strategies at the local, national and global levels.

Interested students may learn more about careers in sustainability and where graduates of the doctorate in sustainability are now employed by visiting <https://schoolofsustainability.asu.edu/careers/careers-in-sustainability> (<https://schoolofsustainability.asu.edu/careers/careers-in-sustainability>).

Degree Requirements:

86 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (8 credit hours)

SOS 510 Perspectives on Sustainability (3)

SOS 520 Research Design and Methods for Sustainability (3)

SOS 589 Community of Graduate Student Scholars (2)

Solutions Workshop Electives (6 credit hours)

Open Electives (48 credit hours)

Research (12 credit hours)

SOS 792 Research (12)

Culminating Experience (12 credit hours)

SOS 799 Dissertation (12)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit. Only six credit hours of 400-level coursework can be included in the plan of study.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is to be made up of appropriate electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. The school encourages applicants with diverse educational backgrounds and experiences that are relevant to the school's core objectives.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of intent
- GRE scores
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of intent should not exceed 600 words and should describe how the applicant's background will contribute to success in the program; describe how completion of the degree will support long-term career goals; elaborate on key research questions the applicant wishes to address or problems to solve as part of the plan of study; and, identify potential faculty advisors.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements. At least one letter should be academic in nature.

Sustainability (Certificate), Certificate (SUSUSGRCT)

Online Degree Search Title: Sustainability (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West, Online

Program Description:

The development of sustainable solutions depends on interdisciplinary collaboration.

The graduate certificate program in sustainability provides the foundational knowledge required to integrate sustainable thinking into any academic or professional field. The skills developed in this program, like systems thinking and solutions-based problem solving, are essential to addressing sustainability challenges across disciplines. Students in the program learn to communicate and collaborate with faculty and peers from varied backgrounds, preparing them to lead teams in the future.

Courses introduce students to the foundations of sustainability through a disciplinary overview and problem-solving methodology. Through electives, students can explore specific areas that are of greatest interest to them. Subjects include policy, international development, clean air and water, sustainable food systems, corporate social responsibility, waste reduction, human rights, climate transformation and clean energy.

This program is designed to be taken independently or as a supplement to another graduate degree program.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

SOS 508 Pathways to Sustainability (3)

SOS 509 Leading Sustainability Transitions (3)

Electives (9 credit hours)

Additional Curriculum Information

Students select six credit hours of sustainability focused electives from EMS, SFS and SOS course prefixes. Other coursework may be used with approval of the sustainability graduate committee. In addition, students take three credit hours of other elective coursework related to sustainability.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Sustainability (Complex Adaptive Systems Science), PHD (SUSUSTCPHD)

Online Degree Search Title: Sustainability (Complex Adaptive Systems Science), PhD

Campus: Tempe

Program Description:

Complex adaptive systems science is the study of interactive and dynamic systems that change over time. The complex adaptive systems science concentration program under the PhD in sustainability trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems science at Arizona State University and emphasizes the value of a complex adaptive systems science perspective, to give better insight and a more active role in seeking solutions to a broad array of critical issues facing society today. Students become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

By broadly embedding an understanding of complex adaptive system-relevant approaches into the practice of normal science, students gain the ability to transform science. The program promotes the development and testing of more robust theories and sophisticated methods in a wider array of research settings. This is needed in order to develop a deeper understanding of the nature and dynamics of complex adaptive systems, grounded in concrete examples and applications.

The doctoral program in sustainability with a concentration in complex adaptive systems science is offered for students who have completed a bachelor's or master's degree program. The program prepares students to become scientists and leaders in research and to investigate the urgent sustainability challenges of this century.

Graduates possess an understanding of the need for a transdisciplinary approach to solving sustainability challenges; the ability to communicate their work to professionals in other disciplines, to policymakers, and to the general public; and the breadth of vision to recognize the interconnectedness of social, economic, environmental and technical systems. Their critical thinking skills enable them to approach sustainability challenges from a systems perspective; they also have the skills needed to work effectively in interdisciplinary teams and the technical skills to formulate and solve problems at the appropriate scale.

In addition to the common learning outcomes, graduates are able to conduct research on particular sustainability challenges using standard skills, including the capacity to identify problems; to formulate and test hypotheses; to use statistical, econometric and geographical information system techniques to construct and analyze datasets; and to build and apply models. They are prepared to lead others in the analysis and design of the built environment and institutions' policies, regulations and technologies to support sustainable development and lead others in applying these concepts and methods to the development of sustainable strategies for water, land, air and urban management at the local and global levels. Graduates understand the concepts and methods of a number of critical disciplines bearing on the sustainability of systems at different spatial and temporal scales.

Students can learn more about careers in sustainability and where sustainability doctoral graduates are now employed by visiting <https://schoolofsustainability.asu.edu/careers/careers-in-sustainability/> (<https://schoolofsustainability.asu.edu/careers/careers-in-sustainability/>).

Sustainability Leadership, EMSL (SUEMSLEMSL)

Online Degree Search Title: Sustainability Leadership - Executive, EMSL

Campus: Online

Program Description:

The EMSL program prepares professionals to advance social and environmental responsibility. The Executive Master of Sustainability Leadership program teaches organizational leadership skills through the lens of sustainability and equips graduates to drive high-impact global sustainability results for their companies, organizations and communities.

The curriculum includes coursework in the following synergistic thematic areas:

- communications and change management
- global context of sustainability
- leadership for sustainability
- sustainability and strategy

The program also includes opportunities for students to include elective coursework that is related to their specific area of interest.

A sustainable future requires leaders who are able to integrate sustainability into existing institutions and new enterprises. A particular knowledge base and skill set is required to drive this kind of transformational change. Professionals with tools and skills learned in sustainability leadership, as opposed to other degree programs, are in a prime position to establish sustainability practices in any type of organization. Because sustainability is a relatively new field of study, professionals who are interested in this emerging field have often migrated into sustainability roles without formal training and education in sustainability practice.

This program is designed and delivered by people who have worked in and with companies making sustainability transitions and continue to be on the cutting edge of global sustainability leadership.

Degree Requirements:

30 credit hours including the required capstone courses (EMS 508 and EMS 516).

Required Core (18 credit hours)

EMS 522 Mastering the Global Sustainability Context (3)

EMS 523 Strategic Sustainability and Leadership (3)

EMS 524 Sustainability Storytelling and Communications (3)

EMS 525 Essentials for Transformative Leadership in Sustainability (3)

SOS 508 Pathways to Sustainability (3)

SOS 509 Leading Sustainability Transitions (3)

Electives (6 credit hours)

Culminating Experience (6 credit hours)

EMS 508 Immersive Experience in Sustainability Leadership (3)

EMS 516 Capstone Course for EMSL Students (3)

Additional Curriculum Information

Students are encouraged to attend one in-person session in Washington DC (EMS 508). Students who cannot attend should contact the college for an alternative option.

Elective courses must be at the 500-level or above.

Admission Requirements:

Applicants must fulfill the requirements for both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants to the program should be interested in and passionate about advancing sustainability in their organizations, either directly or indirectly. Successful candidates are expected to draw from and apply solutions to actual professional challenges and opportunities.

Because this is an executive master's degree for experienced professionals, work and life experience may be taken into account in lieu of deficiencies from past bachelor's degree program experience. Applicants with GPAs lower than 3.00 (scale is 4.00 = "A") may be admitted on a provisional status. Applicants should contact the program for more details if their GPA falls below the 3.00 requirement.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/executive-sustainability-leadership/>)

Sustainability Leadership, MSL (SUSUSLMSL)

Online Degree Search Title: Sustainability Leadership, MSL

Campus: Online

Program Description:

The MSL program prepares professionals to advance social and environmental responsibility. The program teaches organizational leadership skills through the lens of sustainability. The Master of Sustainability Leadership program equips graduates to drive high-impact global sustainability results for their companies, organizations and communities.

The curriculum includes four synergistic thematic areas:

- communications and change management
- global context of sustainability
- leadership for sustainability
- sustainability and strategy

The program also includes opportunities for students to include electives that are related to their specific area of interest. Elective courses are offered that focus on the military, cities, climate, food systems and other thematic areas. Students also may choose to go on an approved study abroad trip to fulfill elective credits.

A sustainable future requires leaders who are able to integrate sustainability into existing institutions and new enterprises. A particular knowledge base and skill set is required to drive this kind of transformational change. Professionals with tools and skills learned in sustainability leadership, as opposed to other degree programs, are in a prime position to establish sustainability practices in any type of organization. Because sustainability is a relatively new field of study, professionals who are interested in this emerging field have often migrated into sustainability roles without formal training and education in sustainability practice.

This program is designed and delivered by people who have worked in and with companies making sustainability transitions and continue to be on the cutting edge of global sustainability leadership.

Sustainability Solutions, MSUS (SUSUSOMSUS)

Online Degree Search Title: Sustainability Solutions, MSUS

Academic Catalog Archive 2020-2021

Campus: Tempe

Program Description:

The MSUS program prepares students to apply sustainability principles and approaches to careers in a variety of fields, addressing complex human and environmental challenges. The focus is on developing solutions by working with stakeholders on these sustainability challenges using a sustainability framework.

Graduates have a knowledge base and skill set to bring sustainability solutions to corporate, government and NGO sectors. Graduates bring competencies in collaboratively creating sustainability solutions, drawing on their ability to employ systems-thinking, develop future scenarios and sustainability visions, skillfully negotiate and reconcile diverse values, and devise strategies for action.

Students begin the program with a foundation in sustainability theory and methods, then take electives in an area of interest.

A distinguishing element of the Master of Sustainability Solutions program is its applied approach and emphasis on learning how to develop solutions. This includes a course on managing sustainability projects as well as the capstone experience, in which students collaboratively carry out an applied project in lieu of a thesis.

Students team up with a company, a government agency or a nongovernmental organization to develop a real-world sustainability solution. This practical experience positions graduates for today's competitive, knowledge-intensive job market.

Students can learn more about careers in sustainability and where Master of Sustainability Solutions graduates are now employed by visiting <https://schoolofsustainability.asu.edu/careers/careers-in-sustainability/> (<https://schoolofsustainability.asu.edu/careers/careers-in-sustainability/>).

Concurrent Degrees:

This degree is also offered as concurrent degree program with:

- Legal Studies, MLS
- Master of Mass Communication, MMC
- Public Administration - Downtown Phoenix, MPA
- Public Policy, MPP
- Urban and Environmental Planning, MUEP

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Sustainability, BS
- Sustainability, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours including the applied project requirement of (SOS 593).

Required Core (6 credit hours)

- SOS 510 Perspectives on Sustainability (3)
- SOS 511 Advanced Sustainability Problem Solving (3)

Other Requirements (18 credit hours)

- SOS 531 Achieving Career Success in Sustainability (1)
- SOS 582 Project Management for Sustainability (3)
- foundational courses (9)
- methods courses (5)

Focus Area Electives (6 credit hours)

- Culminating Experience (3 credit hours)
- SOS 593 Applied Project (3)

Additional Curriculum Information

MSUS students specialize in a focus area and take six credit hours of elective coursework related to that area, with approval by their academic advisor.

For a list of approved courses that may fulfill the methods and foundational requirements, students should see the academic unit. No more than six credit hours of 400-level coursework can be included in the plan of study.

The Graduate College policies and procedures for fulfillment of degree requirements must also be met.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of intent
- GRE scores
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements. At least one letter should be academic in nature.

The statement of intent should not exceed 600 words and should explain the goals the applicant intends to achieve through the plan of study, describe how the applicant's background will contribute to success in the program, explain how completion of the degree will support long-term career goals, and elaborate on project ideas the applicant wishes to pursue as part of the program of study.

Sustainable Energy, PHD (SUSUEPHD)

Online Degree Search Title: Sustainable Energy, PhD

Campus: Tempe

Program Description:

Society is in the midst of a transition toward sustainable energy. Because the global energy system is a complex, socio-technical system, the transition toward sustainable energy will require the next generation of leaders to possess a transdisciplinary perspective combining both technical and societal dimensions of energy.

The PhD program in sustainable energy integrates these perspectives in preparing students to address the challenges in energy transitions. Students enter the program from diverse backgrounds in engineering, planning, business, policy, and natural and social sciences. The core classes provide them with an interdisciplinary expertise and skills related to current and emerging energy technologies and systems, economic analysis of energy systems, and social and policy dynamics of energy transitions. Elective classes allow students to develop more specialized methodological skills, technical expertise and topical knowledge.

Students can learn more about careers in sustainability and where graduates of sustainability doctoral programs are now employed by visiting <https://schoolofsustainability.asu.edu/careers/careers-in-sustainability> (<https://schoolofsustainability.asu.edu/careers/careers-in-sustainability/>).

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (18 credit hours)

SOS 571 Sustainable Energy I: Technologies and Systems (3)
SOS 572 Sustainable Energy II: Transitions (3)
SOS 573 Sustainable Energy III: Futures Analysis, Negotiation and Governance (3)
SOS 574 Sustainable Energy Analytics in Context (3)
SOS 575 Sustainable Energy Research Seminar (4)
SOS 589 Community of Graduate Student Scholars (2)

Electives or Research (12 credit hours)

Other Requirement (12 credit hours)

SOS 792 Research (12)

Culminating Experience (12 credit hours)

SOS 799 Dissertation (12)

Additional Curriculum Information

Students take SOS 575 in four different semester terms for 1 credit hour each term.

Students take SOS 589 in two different semester terms for 1 credit hour each term.

Electives can be chosen from applicable courses in the following areas based on the student's area of interest and approval from the committee: engineering of matter, transport and energy; sustainable engineering and the built environment; geographical sciences and urban planning; molecular sciences; life sciences; future of innovation in society; physics; and sustainability.

Other electives may be used with approval from the academic unit. Student electives are customizable based on the student's area of research.

Doctoral students are expected to include higher level courses (600 and 700 levels) as part of the elective and research coursework.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 credit hours of coursework is made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.25 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- GRE scores
- statement of intent
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The school encourages applicants with diverse educational backgrounds and experiences. Sample related fields include engineering, geography, urban planning, environmental science, physics, chemistry or planning for future innovations and societal changes.

All applicants must upload a statement of intent as part of the application process. In no more than 600 words, applicants must explain the goals they intend to achieve through their program of study at the College of Global Futures. Applicants should describe how their background will contribute to their success in the program and how completion of their degree will support their long-term career goals. Finally, applicants should elaborate on key research questions they wish to address or problems they wish to solve as part of their program of study and identify potential faculty advisors.

Sustainable Food Systems, MS (SUSUSFSMS)

Online Degree Search Title: Sustainable Food Systems, MS

Campus: Online

Program Description:

The MS in sustainable food systems is a research-oriented degree program in which students develop an understanding of present-day health, agriculture and environmental policy; develop strategies to lead policy discussions; interact with a network of food and agriculture policy leaders and mentors; and apply their knowledge and skills to address problems related to food and food systems.

Graduates of the program are able to employ solutions-based thinking and a dynamic systems framework to create inclusive, diverse and resilient food systems of the future.

Degree Requirements:

30 credit hours including the required capstone course (SFS 596).

Required Core (21 credit hours)

SOS 508 Pathways to Sustainability (3)

SOS 509 Leading Sustainability Transitions (3)

SFS 560 Tools and Tactics for Food Policy Change (3)

SFS 561 Food and Farm Immersion Experience (2)

SFS 562 Managing Natural Resources for Food Production (3)

SFS 563 Applied Food Policy Immersion Experience (2)

SFS 564 American Agriculture in the Global Context (2)

SFS 565 Organizational Leadership (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

SFS 596 Capstone (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Global Futures.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts

- statement of intent
- two letters of recommendation
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of intent should not exceed 600 words and applicants must explain the goals they intend to achieve through their plan of study at the College of Global Futures, specifically in the field of sustainable food systems. Applicants should elaborate on key research questions they wish to address or problems they wish to solve as part of their plan of study. Finally, applicants should describe how their background will contribute to their success in the program.

Letters of recommendation must be from two people who can attest to the applicant's academic and professional achievements. At least one letter should be academic in nature.

Global Management, Thunderbird School of

Applied Leadership and Management, MALM (TBALMMALM)

Online Degree Search Title: Applied Leadership and Management, MALM

Campus: Online

Fall B 2020 session is for the ASU/CINTANA China program.

Program Description:

The world is innovating. Technology is changing lives and workplaces at an accelerating pace and the global economy is becoming increasingly interconnected. To succeed in this new paradigm, where breakthroughs such as blockchain, genetic engineering and artificial intelligence are forcing all industries' practices to evolve, a whole new brand of global leadership is essential. In a world of rapid technological transformation, Thunderbird is educating nimble, ethical leaders who are equipped to build sustainable businesses, economies, cultures and environments.

Lead and Manage in High-growth Markets

More than ever, today's global organizations need versatile leaders and managers with creative problem-solving skills who can elevate diverse teams across cultures in multiple markets around the world. Students expand their repertoire and sharpen their skills in Thunderbird's MALM program, a unique graduate degree program with classes taught by Thunderbird's world-class professors. The program is designed to explore new leadership and management practices for global organizations from a global perspective in order to deliver the highest quality graduate education.

The Master of Applied Leadership and Management program is designed specifically for students from around the world and allows them to become a part of the globally connected Thunderbird alumni network (<https://thunderbird.asu.edu/node/238> (<https://thunderbird.asu.edu/node/238>)) that opens doors and opportunities all over the world.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and

master's degree with:

Technological Entrepreneurship and Management, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (TAM 542).

Required Core (3 credit hours)

TAM 582 Communicating and Negotiating in a Dynamic Global World (3)

Electives (24 credit hours)

Culminating Experience (3 credit hour)

TAM 542 Global Leadership and Personal Development (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee

Global Affairs and Management (Executive), MA (TBGAMEMA)

Online Degree Search Title: Global Affairs and Management - Executive, MA

Academic Catalog Archive 2020-2021

Campus: ASU@Washington, D.C.

Program Description:

The MA program in global affairs and management with an executive focus was developed to help globally-minded mid-career professionals in the private, public and not-for-profit sectors take their careers to the next level. This transdisciplinary program prepares students with the tools and insights to address complex issues in global affairs and business, while being socially responsible. It prepares graduates for executive leadership positions within their existing organizations or to make a bold move in their careers by switching industries entirely. Students acquire competencies in political economy, international relations, global leadership, digital transformation and cross-cultural communications. They can focus in global public policy, global business or global law.

The flexible schedule is designed to offer busy professionals the flexibility they require in order to take on a challenging program while maintaining a demanding full-time job. The program allows students to earn a master's degree from the world's top global leadership and management school in as little as one year, so that they can immediately put their newly acquired skills to work and leverage Thunderbird's global network of over 45,000 alumni to advance their career goals.

Global Finance (Certificate), Certificate (TBGFINGRCT)

Online Degree Search Title: Global Finance (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The graduate certificate program in global finance provides specialized content knowledge in financial management, investments, private equity and portfolio management for business, governmental and nongovernmental entities that operate on a global scale. Knowledge of global and regional economic and political landscapes, multinational tax management and country risk analysis are key in financial decision-making.

The courses in this program position students in multinational entities where the accounting emphasis is on international financial reporting standards rather than the United States' generally accepted accounting principles and financial value creation is contingent on efficient management of cross-border transfer pricing, tax planning, currency hedging and interest rate risks. The courses help students explore the business and management differences in countries with varying corporate governance, joint venture structures and financial measures of country business performance. Courses emphasize an experiential approach to learning, using case studies featuring companies across the globe with different cultures and complex legal environments.

The school's innovative and practical curriculum (a strong core of global business management skills, international political economy and cross-cultural training) is delivered through a transdisciplinary approach.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Leadership and Strategy, MGLS (TBGLSMGLS)

Online Degree Search Title: Global Leadership and Strategy, MGLS

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program. Students interested in global leadership and strategy should apply to the executive global leadership and strategy program (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/TBGLSXMGLS/graduate/false>).

Program Description:

The MGLS is a global cohort executive leadership and strategy program that centers on development of advanced capabilities to conceptualize and deliver profitable growth along with the competencies to lead strategy execution efforts in a complex and dynamic global environment. This innovative program closely patterns executive decision realities by orienting around key themes that naturally flow, from the macro to the micro, global to local, public to private, interweaving relevant disciplines to address the pressing issues executives face. It is transdisciplinary in both approach and execution.

The Master of Global Leadership and Strategy program combines thematically anchored content with field-deployed experiential learning projects (alternating between developed and emerging markets) that allow participants to interact first-hand with leaders who shape policy and industry and to demonstrate executive acumen through action and response simulation, sprint consultancy engagement, and innovation challenge delivery. The result is a deeply innovative, action-oriented, global executive education experience.

Degree Requirements:

Required Core (5 credit hours)

TGM 601 Megatrends: Understanding Future Drivers and their Influencers (5)

Other Requirement (20 credit hours)

TGM 602 Sustainable Futures: Building, Tapping and Creating Shared Value in a Changing World (5)

TGM 603 Shaping Markets: Market Entry and Winning Strategies (5)

TGM 604 Capturing Dividends: Finding, Fostering and Exploiting New Insights (5)

TGM 605 Deliver Results I: Resourcing and Influencing to Maximize Impact (5)

Culminating Experience (5 credit hours)

TGM 606 Delivering Results II: Peak Dynamism Execution and Comprehensive Debrief (5)

Additional Curriculum Information

Other requirement courses may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any subject or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- letter of intent or written statement
- admission interview(s)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants should be "high potential" --- i.e., selected by their organization as on a trajectory to senior executive positions. They must have 8 years of leadership or executive experience.

Global Management, MGM (TBTGMMGM)

Online Degree Search Title: Global Management, MGM

Campus: Downtown Phoenix, Online

Program Description:

The world is innovating. Technology is changing lives and workplaces. To succeed in this new paradigm, where machine learning and artificial intelligence are driving all industries' practices to a level never before imagined, a revitalized brand of leadership is essential. In a world of technological transformation, Thunderbird is developing nimble, ethical leaders who are equipped to build sustainable businesses, economies, cultures and environments.

Thunderbird's specialized MGM degree program delivers cross-cultural, hands-on training in the nuances of international management, preparing students with the perfect balance of practical and people skills to inspire, influence and drive global success. Students broaden their mindset and marketability by pairing their deep-dive leadership training with an innovative concentration area, foreign language options and practical training

through the Global Challenge Laboratories, consultative collaborations with corporate partners, internships, real-world simulations and study abroad modules.

Learn by Doing

A Thunderbird education features experiential learning for exponential impact. Applied learning courses give students opportunities to work face-to-face with clients or participate in real-life simulations as part of their program. Through these courses, students have consistent opportunities to develop and refine their hard skills by choosing from a wide variety of applied learning options. These cutting-edge learning experiences are built into the curriculum, ensuring 100% participation from Thunderbird students.

Moving from theory to real-world practice, students get hands-on experience by taking on projects for major corporations and other global organizations, including nonprofits. In the Global Challenge Labs, students work on consulting projects in emerging markets while developing leadership, cultural sensitivity and international business acumen. Through the Global Organizational Consulting program, students gain expertise in consulting frameworks through client projects. Internships allow students to work for multinational businesses across the gamut of industries in full-time positions for at least eight weeks on graduate-level projects or over the summer. Thunderbird's simulations present real-world scenarios in the areas of global marketing, global finance and global strategy, which allows students to test solutions in a sandbox setting. Students can also travel to specific regions to study local business practices, learn intercultural management skills, and develop international relationships.

Global Management, Evolved

Upon its founding in 1946, Thunderbird became the world's first graduate school focused exclusively on global business. Students have the opportunity to choose from one of the 15 concentration areas below, or can design their own concentration:

- creative industries and design thinking
- development and innovation
- digital audience strategy
- global affairs
- global business
- global digital transformation
- global entrepreneurship
- health care delivery
- integrated healthcare
- legal studies
- nonprofit leadership and management
- public administration
- public policy
- sustainability solutions
- sustainable tourism

In Thunderbird's Master of Global Management, students study practical core courses in global management, international political economy and cross-cultural engagement. The Master of Global Management is an in-depth, global business education professional degree program that combines general management coursework, cross-cultural insight, regional studies and foreign language components to educate global business leaders. With its innovative program philosophy, the master's degree program provides a strategically choreographed progression through every facet of international management, with hands-on, experiential learning opportunities and practical, applicable nuances of global business.

Thunderbird provides an intercultural learning community, a globally infused curriculum and cross-cultural training at its best. Thunderbird's specialized global management degrees are anchored in global accounting, global finance, global marketing, global management, global statistics and global strategy, all infused with dynamic training in international leadership, intercultural communication and regional political nuances.

A New Brand of Leadership for Global Organizations

Thunderbird prepares graduates to enter this complex and exciting global economy with specialized, hands-on training in international business, cross-cultural relations, global political economy and regional business environments. With their global mindset, core professional skills, mastery of management principles and multicultural outlook, Thunderbird students are prepared for leadership roles in organizations with a global scope.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges.

Global Management, MGM (TBTGMXMGM)

Online Degree Search Title: Global Management (Executive), MGM

Campus: Downtown Phoenix

Program Description:

Global Executives for the Fourth Industrial Revolution

The world is innovating. Technology is changing lives, workplaces and relationships. To thrive in this new paradigm of rapid technological transformation in which machine learning and artificial intelligence are driving change in all industries' practices, a revitalized brand of business education is essential. In a world of innovation and constant change, Thunderbird School of Global Management is educating, inspiring and empowering nimble, ethical leaders who are equipped to build sustainable enterprises.

Global Management, Evolved

Thunderbird's MGM program with an executive focus is designed for experienced professionals interested in broadening their global outlook and their worldwide network. The program combines general management coursework, cross-cultural insight and regional studies to educate global business leaders. With the busy schedules of working professionals in mind, the program is designed to be completed as a lock-step program in 16 months.

The highly ranked Master of Global Management program is a unique learning experience delivered through hands-on training by prominent professors in international management strategies and through collaboration with executive-level classmates. Students master cultural nuances affecting regional business environments around the globe. Studies include coursework in traditional business disciplines like accounting, finance and marketing --- all taught through a global lens --- giving students the perfect balance of practical and people-influencing skills to inspire and drive global success.

Every course is taught from a global perspective, which prepares graduates to lead and manage people across borders and across all levels of an organization that operates in different locations around the world. This program goes beyond the traditional executive-level business degree, offering students comprehensive instruction in global management disciplines as well as cross-cultural communications, negotiations and international political economy. With its innovative program philosophy, this program provides a strategically choreographed progression through

every facet of international management, with hands-on, experiential learning opportunities and practical, applicable explorations of the intricacies of global business.

Residence Modules and Experiential Learning

The executive focus program begins and ends with intense residence modules delivered in the school's state-of-the-art facilities located in the downtown business district of Phoenix, the nation's fifth-largest and fastest-growing city. Throughout the program, the cohort meets on weekends for in-person instruction with Thunderbird faculty.

The program also offers global field seminars, hands-on learning experiences in a focused region of the world, composed of site visits, high-level meetings and presentations with local businesses, governments and cultural leaders, to learn what makes doing business in the region unique.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Degree Requirements:

40 credit hours including the required capstone course (TGM 597).

Required Core (3 credit hours)

TGM 506 Communicating and Negotiating Across Cultures (3)

Other Requirements (32 credit hours)

Global Management (Creative Industries and Design Thinking), MGM (TBGMCIDMGM)

Online Degree Search Title: Global Management (Creative Industries and Design Thinking), MGM

Campus: Downtown Phoenix

Program Description:

The World Economic Forum reports that empathy and collaboration are two critical abilities for global manager success. These are equally critical for those seeking careers in creative industries and industries that use design thinking. These abilities rely on the development of social capital. Students in this program have the ability to build sustainable, trusting relationships --- the basis of social capital --- with others from diverse parts of the world by developing a deep capacity for intercultural empathy, the ability to have an interpersonal impact, and the ability to act with diplomacy. This program is designed to develop a student's social capital through field-based action learning, team-based projects and stretch assignments. This concentration is offered in collaboration with the Herberger Institute for Design and the Arts: <https://herbergerinstitute.asu.edu> (<https://herbergerinstitute.asu.edu/>).

Inventive Thinking. Innovative Leadership.

There is an entrepreneurial skills gap among traditional art and design graduates, which can be filled by this program. The National Strategic National Arts Alumni Project survey of over 100,000 art and design graduates indicates that while 77% of architecture graduates and 75% of fine arts graduates believe entrepreneurial skills to be somewhat or very important, only 24% and 21% respectively gained the necessary entrepreneurial knowledge and skills as undergraduates.

The MGM program with a concentration in creative industries and design thinking teaches students critical skills with an interdisciplinary focus to meet a current need in the globally expanding field of creative industries. Additionally, providing students with an entrepreneurial skill set strengthens their ability to connect interdisciplinary knowledge of the cultural industries with design thinking methodology, building on management skills and the ability to apply entrepreneurial vision to the globally interconnected sector of art and design. Students are exposed to design-thinking pedagogy as they increase their capacity for interpersonal communication, public communication, opportunity recognition, network and systems thinking, problem recognition and creativity, as well as demonstrated abilities in cultural leadership, knowledge of the creative industries, distribution of creative products, the creative process and management of innovation in the creative industries.

This master's degree program empowers students to advance innovation in the cultural sector, support creative work and careers, harness social capital and design public and private enterprises that will strengthen arts and design in the future. The program prepares graduates to understand the complex economic, legal, political and social contexts that surrounds any innovation or enterprise.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Data Science), MGM (TBGMDSCMGM)

Online Degree Search Title: Global Management (Data Science), MGM

Campus: Downtown Phoenix

Program Description:

Jobs for computer and information research scientists are expected to grow 16% between 2016 and 2028 (Occupational Outlook Handbook, Bureau of Labor Statistics). Many companies report difficulties finding workers with solid systems, engineering, algorithmic and mathematical backgrounds and with excellent data management and analysis skills. To meet this market need, the Thunderbird School of Global Management designed the data science concentration under the MGM degree program in conjunction with the School of Computing, Informatics and Decision Systems Engineering.

This concentration program is offered to students who are interested in gaining both global management and data management expertise in order to work in multinational corporations, international nonprofit entities, governmental and non-governmental organizations around the globe.

As global companies and organizations in the Fourth Industrial Revolution continue to rely on data to drive management decisions, it is increasingly

more important for leaders to have skills necessary to understand and interpret that data.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Additional Curriculum Information

Electives are as approved by the academic unit.

Except for TGM 596 and the foreign language requirement, other requirements coursework may be substituted with approval of the academic unit.

Proficiency in a second language is required for graduation from the Master of Global Management degree program. Students whose native language is not English who meet the admission requirements for the program satisfy the language requirement.

Students whose native language is English must satisfy the graduation requirement for language proficiency by waiving this requirement through an oral proficiency interview administered by a third-party vendor or by successfully completing six credit hours of 400-level or higher of foreign language coursework

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any subject from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- two letters of recommendation
- GRE or GMAT score
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Global Management (Digital Audience Strategy), MGM (TBGMDASMGM)

Online Degree Search Title: Global Management (Digital Audience Strategy), MGM

Campus: Downtown Phoenix

Program Description:

The World Economic Forum reports that empathy and collaboration are two critical abilities for a global manager's success. These abilities rely on the development of social capital, and they are equally critical for those seeking careers in digital audience strategy. This program is designed to develop social capital through field-based action learning, team-based projects and stretch assignments. Students have the ability to build sustainable trusting relationships --- the basis of social capital --- with others from diverse parts of the world by developing intercultural empathy, the ability to have an interpersonal impact and the ability to lead with diplomacy.

Digital marketing is expected to have an 11% compound annual growth through 2021 (Forbes). Similarly, advances in technology have brought programming and data analysis within reach for far less technically trained individuals. This has created a new class of hybrid jobs that combine

digital skills with marketing and design (Burning Glass). In response to this trend, Thunderbird School of Global Management has designed the digital audience strategy concentration within the MGM degree program in collaboration with the Walter Cronkite School of Journalism and Mass Communication: <https://cronkite.asu.edu/> (<https://cronkite.asu.edu/>).

Digital Reach. Global Impact

The target audience for the concentration is comprised of students interested in augmenting their digital skills in the areas of marketing, design and product development. Through a collaborative sequence of courses offered in partnership with other ASU colleges, students are able to combine the global management skills found in graduates of the traditional Master of Global Management with digital expertise.

Strong quantitative and qualitative research methods provide the foundation of effective digital audience strategy, and graduates of the program master the ability to conduct research to identify and reach target audiences and to demonstrate returns on investments.

The research used to identify and reach target audiences through digital audience strategy includes traditional and emerging methods such as real-time website and social media audience analysis, social network analysis, search engine optimization analysis, surveys, focus groups and competitive analysis. Graduates master a range of methods to inform strategy for specific outcomes.

This concentration is perfect for students who are interested in expanding and refining their digital skills in the areas of marketing, design and product development to complement a strong core of global leadership and management skills. A Master of Global Management from Thunderbird with a concentration in digital audience strategy prepares graduates to take on leadership roles around the world in industries such as entertainment, journalism, public relations, marketing and many others.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Global Affairs), MGM (TBGMGAMGM)

Online Degree Search Title: Global Management (Global Affairs), MGM

Campus: Downtown Phoenix

Program Description:

Understanding the intersection between business and politics is more important than ever for managers and executives in the private, nonprofit and public sectors. The World Economic Forum's latest Future of Jobs Report and McKinsey Global Institute's Jobs of the Future report both have suggested that transdisciplinary, virtual collaboration and cross-cultural competence are extremely important job skills for the near future.

Thunderbird's MGM program with a concentration in global affairs equips students with the knowledge base and hard skills needed to thrive in the growing job markets at the nexus of global business and international politics.

This concentration is designed for students who aspire to take on management and executive positions in government agencies such as the U.S. Department of Commerce, the State Department and the Treasury Department or similar roles in the government of a student's home country. The global affairs concentration also positions graduates for leadership roles in international organizations such as the World Bank or World Trade Organization and in major companies that require analysts to monitor policy trends, managers to oversee global supply chains and representatives to advance global business interests to governments, both domestic and foreign.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Global Business), MGM (TBGMGBMGM)

Online Degree Search Title: Global Management (Global Business), MGM

Campus: Downtown Phoenix

Program Description:

Thunderbird's specialized MGM in global business degree concentration delivers cross-cultural, hands-on training in the nuances of international management, preparing students with the perfect balance of practical and people skills to inspire, influence and drive global success. The concentration in global business allows students to specialize in the various pathways in global business such as global finance, global marketing, supply chain or management consulting. By developing skills such as cross-cultural competency, social and emotional intelligence as well as creative and adaptive thinking, this concentration helps sharpen the global mindset, leadership and management skills and prepares students for a career at the next level as a global manager or leader in their chosen field.

Global business effectiveness requires knowledge and understanding of global dynamics, the ability to simplify and explain complex ideas, and a cosmopolitan view of the world. These three dimensions form the basis of global intellectual capital. In the Master of Global Management degree program, this capital is built inside and outside the classroom through traditional international business curriculum reinforced with field-based projects that apply international business content to illustrate social proof of global intellectual capital mastery. The concentration in global business prepares students who aspire to become global managers or leaders in their chosen fields.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Global Development and Innovation), MGM (TBGMGDIMGM)

Online Degree Search Title: Global Management (Global Development and Innovation), MGM
Academic Catalog Archive 2020-2021

Program Description:

Recent research reveals that graduate programs in international development are in high demand. In fact, Devex found that the master's in international development was No. 3 in their survey of most demanded degrees (Devex, 2016). In a study of international development graduates in Canada, researchers found that over 86% of graduates were employed (Tiessen and Cameron, 2017).

In order to meet this current demand, Thunderbird created the development and innovation concentration within the MGM degree program. Offered in collaboration with the School for the Future of Innovation in Society (<https://sfis.asu.edu/school-future-innovation-society>), the Master of Global Management in global development and innovation prepares global leaders to leverage innovation strategies to tackle development and planetary challenges. The ability to access the tremendous resources available throughout ASU for a truly customizable and transdisciplinary education sets this degree program apart.

This unique academic concentration is relevant to development practitioners who seek to complement their skills and experience and to those interested in pursuing careers in international development agencies within and beyond government as well as in nongovernmental organizations and community organizations at local, national and international levels.

Graduates are equipped with the analytical and practical skills and experience needed to engage critically as leaders in issues around innovation and development and to work across the intersections of innovation, development policy and global management. They are prepared to make a positive impact as a leader alongside the school's global alumni network of 45,000 other leaders who are making a difference. Graduates have opportunities around the world to tackle some of humanity's most difficult and urgent challenges. They are on the frontline working as leaders, making a difference and advancing Thunderbird's vision of a world with inclusive and sustainable prosperity.

Global Management (Global Digital Transformation), MGM (TBGMGDTMGM)

Online Degree Search Title: Global Management (Global Digital Transformation), MGM

Campus: Downtown Phoenix

Program Description:

Digital marketing is expected to have an 11% compound annual growth through 2021 (Forbes). Similarly, advances in technology have made programming and data analysis accessible to individuals with less advanced technical training. This has created a class of hybrid jobs that combine digital skills with marketing and design (Burning Glass). The World Economic Forum, Future of Jobs Survey and the Jobs of the Future report by McKinsey Global Institute 2017 listed transdisciplinary, new media literacy and virtual collaboration as important job skills for the future.

In response to this trend, Thunderbird has designed the global digital transformation concentration within the MGM degree program.

This concentration is offered to students interested in augmenting their digital skills in the areas of marketing, design and product development. Through collaborative courses offered in partnership with other ASU colleges, students may combine the global management skills of the Master of Global Management with digital expertise to create a dual specialization that will continue to be in high demand throughout the global economy.

The World Economic Forum reports that empathy and collaboration are two critical abilities for a global manager's success. These abilities are equally critical for those seeking careers in global digital transformation. They are skills that rely on the development of social capital. This program is designed to develop a student's social capital through field-based action learning, team-based projects and stretch assignments. Students have the ability to build sustainable trusting relationships --- the basis of social capital --- with others from diverse parts of the world. By developing a deep capacity for intercultural empathy, the ability to have an interpersonal impact and the ability to act with diplomacy, graduates are prepared to take on a leadership role in a global organization.

Digital transformation is a field that is highly sought after. However, technical skills need to be supplemented with a strong repertoire of leadership and collaboration skills. The Master of Global Management program with a concentration in global digital transformation expands students' choices of electives and fuses technological skills with managerial skills. In this concentration, students combine the global management skills of the Master of Global Management with digital expertise by specializing in the various pathways of global digital transformation through program coursework.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

49 credit hours, a foreign language exam, including the required capstone course (TGM 597).

Required Core (3 credit hours)

TGM 506 Communicating and Negotiating Across Cultures (3)

Concentration (9 credit hours)

TGM 530 Big Data in the Age of the Global Economy (3)

TGM 554 Global Marketing Research (3)

TGM 558 Global Data Analytics for Strategic Marketing (3)

Electives (15 credit hours)

Other Requirement (21 credit hours)

foreign language

TGM 515 Navigating Global and Regional Business Environments (3)

TGM 517 Global Accounting and Financial Management (3)

TGM 545 Advanced Perspectives on Global Leadership and Strategy (3)

TGM 557 Global Data and Marketing Analytics (3)

TGM 586 Global Entrepreneurship and Sustainable Business (3)

TGM 596 Thunderbird Experiential Practicum (6)

Culminating Experience (1 credit hour)

TGM 597 Thunderbird Integrative Experience (1)

Additional Curriculum Information

Electives are approved by the academic unit.

Except for TGM 596 and the foreign language requirement, other requirement courses may be substituted with approval of the academic unit.

Proficiency in a second language is required for graduation from the Master of Global Management degree program. Students whose native language is not English and who meet the admission requirements for the program satisfy the language requirement.

Students whose native language is English must satisfy the graduation requirement for language proficiency by waiving this requirement through an oral proficiency interview administered by a third-party vendor OR successfully completing six credit hours of 400-level or higher foreign language coursework as part of the program electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any subject or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- two letters of recommendation
- GRE or GMAT score
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Global Management (Global Entrepreneurship), MGM (TBGMGEMGM)

Online Degree Search Title: Global Management (Global Entrepreneurship), MGM

Campus: Downtown Phoenix

Program Description:

Global Entrepreneurship Monitor 2017--18, Global Report, suggested that entrepreneurship activities continue to grow globally. Increasingly, these innovative activities were triggered by opportunities rather than by the kinds of necessity that historically drove creativity for many decades around the world. The new digital technological transformation has created tremendous opportunities and led to an increase in the need for new, creative ventures. Additionally, the report also found that the change in attitude toward entrepreneurship and regulations in various countries had sparked and perpetuated entrepreneurship activities.

To meet this market need, Thunderbird has designed the global entrepreneurship concentration within the school's top-ranked MGM degree program.

This concentration is offered to students who are interested in starting their own business or who need to be entrepreneurial in the organizations they work for. This concentration sharpens entrepreneurial skills, helps develop business plans for global enterprises and promotes innovation and economic growth globally.

The World Economic Forum reports that empathy and collaboration are two critical abilities for a global leader's success. These abilities are equally critical for those seeking careers in global entrepreneurship, and they rely on the development of social capital. This academic concentration is designed to develop a student's social capital through field-based action learning, team-based projects and stretch assignments. Students learn and master proven methods and techniques to build sustainable, trusting relationships --- the basis of social capital --- with others from diverse parts of the world, developing intercultural empathy, the ability to have an interpersonal impact and the mental dexterity to act with diplomacy.

Global entrepreneurs are innovators who use their international business acumen and professional connections to identify transnational and cross-

cultural opportunities, turning them into new value-generating initiatives. The Master of Global Management program with a concentration in global entrepreneurship provides a broad foundation of international business knowledge and sharpens students' entrepreneurial skills by helping develop business plans for global enterprises. This concentration offers learning opportunities specifically designed to foster innovation and economic growth worldwide to stimulate the growth of students into global entrepreneurs. Students build on a base of skills in areas such as finance and accounting with specialized education in research, pitching business ideas and analyzing markets for the viability of new products and services.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Online Degree Search Title: Global Management (Global Health Care Delivery), MGM

Campus: Downtown Phoenix

Program Description:

Students gain practical skills and hands-on experience in both global management and health care delivery. Due to the aging population of the U.S. and the world, many careers of the future will involve health care services, including health care management and delivery. The U.S. Bureau of Labor Statistics predicts that careers in the field of medical and health care management will grow 20% between 2016-2026. The Bureau also estimates the median annual wage for health care managers is almost twice that of the U.S. median, making these leadership positions not only lucrative but impactful.

This MGM concentration allows graduates to meet the growing need for skilled health care managers who possess a solid foundation of international business skills and a global mindset.

The Master of Global Management program with a concentration in global health care delivery is designed for current or aspiring executives and managers in health care who would like to hone their leadership and business skills to position themselves for careers leading health care organizations around the world. Some health care practitioners, such as nurses and doctors, may also use the degree as a way to move from clinical practice into management roles.

The concentration in global health care delivery addresses the current and future needs of the management workforce in the health care industry globally, including C-suite executives and administrators, health care providers (physicians, physician assistants, nurse practitioners and nurses), frontline staff (respiratory therapists, occupational therapists, physical therapists and dietitians) and students in medical disciplines. Students master core and advanced skills in designing systems, processes and mechanisms used to optimize health care delivery anywhere in the world. In addition, students integrate evidence-based financial principles geared toward improved individual and population health outcomes, such as leadership strategies in change management, for example.

This concentration is offered in collaboration with the College of Health Solutions. <https://chs.asu.edu/> (<https://chs.asu.edu/>)

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Global Legal Studies), MGM (TBGMGLSMGM)

Online Degree Search Title: Global Management (Global Legal Studies), MGM

Campus: Downtown Phoenix

Program Description:

Jobs in the legal professions are expected to grow 9% between 2020 and 2026 (Bureau of Labor Statistics 1). However, many legal firms are consolidating and outsourcing legal processing and support (Kane, 2018). As the demand for lawyers decreases, a converse increase in support services is expected (BLS 1). Similarly, nonlegal management careers increasingly require knowledge of the law. From human resources to procurement, professionals with strong foundational knowledge of global legal issues are in demand.

To meet this market need, Thunderbird has designed the global legal studies concentration within the MGM degree program.

The concentration is designed for students with a desire to work in areas requiring knowledge of global legal issues but who may not want to be lawyers. Other students may use this concentration as an introduction to legal studies before pursuing law school. In this Master of Global Management program, students gain transdisciplinary global management and legal expertise that open doors in multiple sectors within organizations operating around the world. This concentration is offered in collaboration with the Sandra Day O'Connor College of Law: <https://law.asu.edu/> (<https://law.asu.edu/>).

The first step in understanding and applying laws is developing an understanding of basic legal principles and then using those principles to identify and analyze relevant legal issues. The foundational courses of the Master of Global Management with a concentration in global legal studies lead to mastery of the relevant legal principles while developing legal analysis skills, mainly through case briefings, such as identifying a particular case's legal issue, articulating the legal rule, discussing the court's analysis and concluding. These legal analysis skills are tested on final exams in the foundational courses through hypothetical fact scenarios. Students gain and master the ability to understand legal principles --- the basis of legal analysis --- and to apply them in their field of interest.

The Master of Global Management program with a concentration in global legal studies is perfect for students who desire to work in public, private or nonprofit sector roles within an organization that operates around the world or has an international scope.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Integrated Health Care), MGM (TBGMIHCMGM)

Online Degree Search Title: Global Management (Integrated Health Care), MGM

Campus: Downtown Phoenix

Program Description:

The World Economic Forum reports that empathy and collaboration are two critical abilities for a global manager's success. These abilities are equally critical for those seeking careers in integrated health care. Capacity for these key abilities relies on the development of social capital. This program is designed to develop social capital through field-based action learning, team-based projects and stretch assignments. Students earn the ability to build sustainable, trusting relationships --- the basis of social capital --- with others from diverse parts of the world by mastering intercultural empathy, the ability to have an interpersonal impact and the business acumen to act with diplomacy.

Delivering Care with Global Reach

Due to aging populations globally, many jobs of the future will involve health care services. The triple aim of improving patient experience of care, population health management and cost-savings has made integrated health care very popular, with professionals in extremely high demand. The Bureau of Labor Statistics predicts that jobs in the area of medical and health care management will grow 20% between 2020 and 2026. The bureau also estimates the median annual wage for health care managers at \$98,000, well above the U.S. median. In order to meet the growing need for integrated health care managers and executives, Thunderbird School of Global Management created the integrated health care concentration within the highly ranked MGM degree program in partnership with the College of Health Solutions.

The concentration in integrated health care is designed for current or aspiring managers in health care who would like to develop, implement, evaluate and sustain integrated care programs in diverse health care settings globally. Students gain perspectives on both global management and integrated health care in this program.

Doing Well by Doing Good with a Degree

Students in this program master the ability to apply foundational concepts and analytics of health care and integrated care to transform health care management practices. By learning key aspects of health care systems, culture and population, and workforce issues necessary to implement, evaluate and sustain integrated care delivery globally, graduates position themselves to enter the workforce in leadership roles in which they can make a difference. Graduates achieve a demonstrated proficiency in cross-cultural leadership, interdisciplinary teamwork, change management and health care technologies so they can develop innovative clinical, operational and financial strategies and techniques.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Nonprofit Leadership and Management), MGM (TBGMNLMGM)

Online Degree Search Title: Global Management (Nonprofit Leadership and Management), MGM

Campus: Downtown Phoenix

Program Description:

In 2014, nonprofit organizations contributed \$977 billion to the U.S. economy (Gaddy, 2016). Similarly, nonprofit leadership and management jobs grew 6.4% from 2016 to 2017 (EMSI, 2018). Not surprisingly, today's graduates are demanding careers that both pay well and are purpose-driven (Field, 2017). Nonprofit organizations around the world are poised to meet the double-bottom line mentality of millennials. Thunderbird has created the nonprofit leadership and management concentration within the MGM degree program to prepare students for these roles.

Because the lines between the functions of nonprofit and for-profit organizations are increasingly blurry, Thunderbird's renowned faculty has designed a curriculum that is cross-sectoral and transdisciplinary in nature, tailored for students aspiring to leadership roles in global nonprofit institutions in which they can leverage their business and global management lenses in their work.

This unique concentration in nonprofit leadership and management within the Master of Global Management program provides students with an understanding of the nonprofit sector's role in the global economy and with knowledge applicable to those who wish to lead and manage these organizations. Offered in collaboration with ASU's Watts College of Public Service and Community Solutions <https://publicservice.asu.edu/> (<https://publicservice.asu.edu/>), students take courses in nonprofit leadership and management through the Watts College. Students learn to evaluate and articulate the historical and philosophical context of nonprofit organizations in society, the theory and practice of philanthropy, and learn financial management practices.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Global Management (Public Administration), MGM (TBGMPAMGM)

Online Degree Search Title: Global Management (Public Administration), MGM

Campus: Downtown Phoenix

Program Description:

New research is emphasizing that the millennial generation is increasingly motivated by values such as social justice and environmental stewardship and is looking for public and nonprofit careers (Chamberlain, 2018). However, only 7% of federal employees are under the age of 30 (Curry, 2017). This mismatch between millennials' desire for meaningful work and their decreased interest in the public sector highlights that many public administration programs are not meeting current market conditions. New programs are needed that integrate expert training in public administration with global management. To meet this new need, Thunderbird School of Global Management has created the public administration concentration in the highly ranked MGM degree program in collaboration with the Watts College of Public Service and Community Solutions: <https://publicservice.asu.edu/> (<https://publicservice.asu.edu/>).

This concentration is intended for future leaders who want public service skills and experience as part of their global management repertoire and for students seeking roles within public institutions or roles that interact with those institutions, especially on matters where public policy overlaps with business or other global enterprises. The concentration in public administration is designed by Thunderbird's renowned faculty and allows students to take courses in public administration through the Watts College of Public Service and Community Solutions.

Students earn a solid foundational understanding of and skills in public administration, leadership, management and policy analysis in service to the public good. This program prepares students for work at all levels in governmental and nonprofit organizations around the world.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Public Policy), MGM (TBGMPPMGM)

Online Degree Search Title: Global Management (Public Policy), MGM

Campus: Downtown Phoenix

Program Description:

Careers in public policy are projected to grow 13% between 2020 and 2024 (Bureau of Labor Statistics). In addition, the nonprofit sector saw a 49% increase in paid wages from 2003 to 2013 (Gaddy, 2016). Together, the growth in jobs and wages suggests a latent demand for professionals trained in the nuances of public policy. To meet this market need, the Thunderbird School of Global management has designed the public policy concentration within the flagship MGM degree program.

The public policy concentration program is designed for students who would like to work in cross-sector roles within public and nonprofit institutions around the world. Other students may use this program as a springboard into jobs in the private sector that have significant overlap with public agencies. In short, graduates are prepared in both global management and public policy in order to meet the demands of an increasingly interwoven economy.

The Master of Global Management program with a concentration in public policy prepares students for careers as policy analysts and leaders in public service. Graduates are involved in the formulation, approval, implementation and evaluation of public policy at all levels of government and in the private and nonprofit sectors. Offered in collaboration with the Watts College of Public Service and Community Solutions <https://publicservice.asu.edu/> (<https://publicservice.asu.edu/>) at ASU, graduates are able to apply analytical techniques and conceptual frameworks to understand policy issues as well as to identify potential solutions to real-world challenges.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Sustainability Solutions), MGM (TBGMSSMGM)

Online Degree Search Title: Global Management (Sustainability Solutions), MGM

Campus: Downtown Phoenix

Program Description:

Solutions for the Planet and Industry

The Thunderbird MGM program with a concentration in sustainability solutions prepares students for the professions of the future. In this concentration, students earn a degree that benefits their career and the planet. There is an accelerating demand for leaders with a global mindset who possess expertise in sustainability, understand how to apply its principles and technology in approaching problems, and know how to work with and draw from different disciplines to develop practical solutions to the world's most urgent sustainability challenges.

The World Economic Forum reports that empathy and collaboration are two critical abilities for global manager success. These are equally critical for those seeking careers in sustainability solutions. These abilities rely on the development of social capital. This program is designed to develop a student's social capital through field-based action learning, team-based projects and stretch assignments. Students have the ability to build sustainable trusting relationships --- the basis of social capital ---with others from diverse parts of the world by learning techniques and methods of developing intercultural empathy, the ability to have interpersonal impact, and to act with diplomacy when influencing others. This concentration is offered in collaboration with ASU's School of Sustainability.

Doing Well by Doing Good with a Degree

Research shows that more than 40% of executives want to align their company's goals with sustainability principles. In the same survey, chief executive officers identified sustainability as a top priority (McKinsey, 2014). Governments are also increasingly recognizing the importance of sustainability. This has led the United Nations to outline sustainable development goals for 2030, an effort that many multinational corporations, nonprofit organizations and state entities have pledged to join. As sustainability gains more traction, knowledge in this area will become increasingly attractive to employers. Thunderbird has designed the sustainability solutions concentration to prepare students for these new organizational norms and to capitalize on the need for expert leadership in this rapidly growing profession.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Global Management (Sustainable Tourism), MGM (TBGMSTMGM)

Online Degree Search Title: Global Management (Sustainable Tourism), MGM

Campus: Downtown Phoenix

Program Description:

Recent research indicates that 1 in 10 people are employed in a tourism-related job (World Economic Forum, 2017). Another study showed that travelers are more likely to visit places if there are sustainable practices in place (Mandala, 2017). In addition, governments are recognizing the importance of sustainability, leading the United Nations to outline sustainable development goals. As the tourism industry continues to adopt eco-

tourism and suitability practices, a new set of skills is needed.

Solutions for the Planet and the Tourism Industry

Thunderbird's MGM program with a concentration in sustainable tourism prepares students for management and executive-level positions in the tourism industry globally. Offered in collaboration with ASU's Watts College of Public Service and Community Solutions (<https://publicservice.asu.edu/>), Thunderbird's sustainable tourism concentration addresses the unique character of the sustainability revolution. It prepares graduates to transform the sustainability practices of global enterprises in tourism development and management.

The target audience for the program is students interested in working in sustainable tourism, hospitality, travel and related fields. The concentration in sustainable tourism opens up a world of opportunities, allowing students to take courses in sustainable tourism from ASU's Watts College of Public Service and Community Solutions at the Downtown Phoenix campus, located in the heart of the state capital's business district.

Students specialize in sustainable tourism management, mastering the principles and practices of successful sustainable development in the tourism field. Students learn to integrate economic, social and environmental aspects of sustainability as it relates to tourism; conduct sustainability audits for destinations and businesses; evaluate community impacts of tourism; innovate and evaluate sustainable tourism practices; and perform business planning and management. Students receive specialized, hands-on training in international business, cross-cultural relations, global political economy, and regional business environments.

This sustainable tourism concentration prepares students to work in the tourism industry globally. Graduates enter their profession ready to oversee initiatives in research, development, implementation, execution and evaluation of sustainable tourism plans for businesses and destinations. Graduates are prepared to enter today's complex and exciting global economy able to work in and lead organizations that desire employees with global management and sustainable tourism skills. They join a global network of Thunderbird alumni who hold leadership positions in global organizations worldwide.

With their global mindset, future-ready core professional skills, mastery of management principles, and multicultural outlook, students are prepared for leadership roles in organizations with a global scope. Potential employers include international tour operators as well as cities and venues around the world that host guests from all over the globe.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Program Description:

Domestic marketing frameworks and tools are not sufficient in comparison to the global marketing framework that includes idiosyncrasies and complexities of the political, economic, legal, societal and cultural differences that exist in foreign markets.

The courses in Thunderbird's global marketing certificate program position students to thrive in multinational corporations and international organizations by equipping them with the knowledge of how and why customers make decisions. Students learn how to leverage branding across all channels to create value and to use the abundance of data available in today's market for cutting-edge business analytics. Courses emphasize the experiential approach to learning, using case studies featuring companies from around the globe with different cultures and complex legal environments.

Students learn to understand the critical, nuanced differences that managers need to recognize when conducting business across borders, and they examine how customer decision-making and how branding, business analytics, negotiation, channels and distribution, sales force management, product development and strategic services marketing are playing out in the international arena.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

TGM 553 Global Customer Decision Making (3)

TGM 554 Global Marketing Research (3)

Electives (9 credit hours)

Additional Curriculum Information

Students choose three elective courses from a restricted list. Additional courses may be utilized with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants must have taken TGM 551 Global Marketing Strategy and TGM 552 Global Marketing Management, or TGM 503 Global Marketing, or a three credit hour, 500-level graduate course with a minimum grade of "B" (scale is 4.00 = "A") or its equivalent. Coursework must be from a regionally accredited institution, from an institution accredited by a business accreditation organization such as the Association to Advance Collegiate Schools of Business, European Quality Improvement System, Association of MBAs, or other institutions with approval from the academic unit.

Global Trade and Commerce (Certificate), Certificate (TBGTCMGRCT)

Online Degree Search Title: Global Trade and Commerce (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The coursework for Thunderbird's graduate certificate in global trade and commerce is tightly integrated and offers comprehensive coverage of core topics in cross-border business and the exchange of goods. Students gain a strong understanding of how companies leverage their global value chains to achieve competitive advantage.

The school's innovative and practical curriculum (a strong core of global business management skills, international political economy and cross-cultural training) is delivered through a transdisciplinary approach. Students learn best practices through interaction with faculty engaged in broad-based research and consulting.

Thunderbird School of Global Management has produced unique leaders for more than 70 years, leaders in every sector capable of tackling the world's greatest challenges. The alumni network comprises 45,000 graduates and 170 chapters around the globe.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

SCM 541 Logistics in the Supply Chain (3)

TGM 537 State Power, Business Interests and Multinational Trade Agreements (3)

Electives (9 credit hours)

Additional Curriculum Information

Students choose three elective courses from a restricted list. Additional courses may be utilized with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Thunderbird School of Global Management.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Applicants must have taken TGM 505 States and Markets in a Global Economy with a minimum grade of "B" (scale is 4.00 = "A") or its equivalent from a regionally accredited institution, from an institution accredited by a business accreditation organization such as the Association to Advance Collegiate Schools of Business, European Quality Improvement System or Association of MBAs, or other institutions with approval from the academic unit.

Health Solutions, College of

Audiology, AuD (LAAUDAUD)

Online Degree Search Title: Audiology, AuD

Campus: Tempe

Program Description:

The three-year course of study for the AuD degree is comprised of basic science coursework, professional knowledge coursework and clinical practicum experiences. The curriculum is designed such that upon completion students have satisfied all academic and clinical requirements necessary for state licensure. Full-time commitment is critical because graduate courses are offered once per academic year. In addition, course content and the sequence of courses are closely tied to clinical practicum assignments. Moreover, full-time enrollment assures timely completion of the program.

Students in the Doctor of Audiology program have the option of graduating after completion of the three-year program of study or enrolling in a clinical externship during their fourth year for up to an additional three credit hours of clinical training. A minimum of 850 hours of clinical training is obtained during the first three years of training. Completion of 1,820 practicum hours is required for the Certificate of Clinical Competence in Audiology, also known as CCC-A, by the American Speech-Language-Hearing Association and can be met by completion of the 4th-year externship under the supervision of an ASHA-certified audiologist.

Students who complete the Doctor of Audiology degree find rewarding careers in hospitals, physician's offices, audiology clinics, school districts and industry.

Degree Requirements:

88 credit hours and a written comprehensive exam.

Required Core (58 credit hours)

SHS 502 Basic Audiometry (4)

SHS 504 Amplification I (4)
SHS 505 Sign Language for Audiologists and Speech Pathologists (2)
SHS 508 Pediatric Audiology (3)
SHS 510 Amplification II (3)
SHS 511 Auditory Perception by the Hearing Impaired (3)
SHS 513 Neurophysiology of the Auditory System (3)
SHS 516 Auditory Evoked Potentials (4)
SHS 517 Balance Assessment (4)
SHS 518 Auditory Rehabilitation (3)
SHS 520 Auditory Pathologies/Disorders and Otoneurologic Applications (4)
SHS 522 Tinnitus/Advanced Audiometry (3)
SHS 523 Central Auditory Processing Disorders (4)
SHS 524 Counseling in Communication Disorders (2)
SHS 525 Audiology Practice Management (3)
SHS 526 Launch to Clinical Methods in Audiology (1)
SHS 552 Physiological Measures of Auditory Function (4)
SHS 555 Cochlear Implants (4)

Other Requirements (27-30 credit hours)

SHS 500 Research Methods (3)
SHS 580 Clinical Practicum (8)
SHS 584 Clinical Internship (12)
SHS 589 Audiology Grand Rounds (4)
SHS 590 Reading and Conference (Audiology Clerkship) (0-3)
American Speech-Language-Hearing Association Praxis national certification examination in audiology (0)

Electives and Research (3 credit hours)

Culminating Experience

written and oral comprehensive exam

Additional Curriculum Information

Students will have the option to continue enrollment in SHS 590 at one credit per semester for up to three semesters to complete the externship requirements of the ASHA certification. These extra hours of clinical experience will allow students to apply for ASHA certification upon graduation. Students should maintain continuous enrollment and not apply for graduation until they have completed the additional clinical hours for the certification.

In addition to the Graduate College requirements, eligibility for graduation is based upon the following:

Formative Exam (Year 1)

Students must pass a formative exam given at the end of the first academic year of the program. This is a 100-question, multiple-choice test covering the content of the courses taken during the fall and spring semesters. Students receiving scores of less than 80% are given one opportunity to retake the exam.

Summative Exam (Year 3)

Students must pass a summative exam in the fall of the third academic year of the program. This is a comprehensive written and oral exam pertaining to clinical case diagnosis and management. One retake is allowed if student does not pass on the initial attempt.

National Certification Exam (Praxis)

All students pursuing the Doctor of Audiology degree must pass the Praxis examination in audiology as a graduation requirement. There are no credit hours tied to it. The Praxis exam result must be sent directly from the Education Testing Service to the audiology program office in order to process the graduation approval.

Clinical Clock Hours

Students must successfully complete 850 hours of supervised clinical clock hours at both on-campus and off-campus internship sites.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in speech and hearing science or another related discipline from a regionally accredited institution. Applicants with degrees in related fields (such as nursing, education and any of the biological sciences) may apply, although they may be admitted as leveling students and must complete at least one year of prerequisite courses in speech and hearing science at the undergraduate level.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Admission is a two-stage process involving a review of the application materials and a required online video submission. Applicants meeting the first-stage admission criteria are notified and invited to provide additional information to complete the second stage of the admissions process. All other applicants are denied admission. In lieu of an on-campus interview, invited applicants who wish to continue the application process must provide a 15-minute video introducing themselves and answering several questions from the admission committee. The same questions are given to all applicants along with instructions about format and submission. Applicants who do not submit a video are denied admission. The committee makes final decisions regarding admission from the videos received. Space is available in the program for 15 students. Invitations are sent by the end of February with a deadline of mid-March for video submission.

The personal statement should not exceed 200 words and should describe the reasons for pursuing graduate study in audiology; successful applicants submit statements that are free of grammatical errors and demonstrate proficiency in written communication.

Letters of recommendation should outline the applicant's potential success for graduate-level coursework. Letters from faculty members are most useful. A standard form is not used; letters should be submitted on letterhead from the recommender's institution.

Auditory and Language Neuroscience, MS (NHALNEUMS)

Online Degree Search Title: Auditory and Language Neuroscience, MS

Campus: Tempe

Program Description:

The MS program in auditory and language neuroscience trains scholars in basic and applied research in the fields of auditory and language neuroscience to prepare them for doctoral-level graduate studies as well as for positions in science, health care and industry.

In addition to cutting-edge coursework in neuroscience, this program also includes hands-on training in instrumentation such as neuroimaging, neurophysiology and clinical research applications. Students develop a strong foundation to conduct impactful neuroscience research related to auditory and language processing and human communication.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Speech and Hearing Science, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

31 credit hours including an applied project course (SHS 593), or 31 credit hours including an thesis.

Required Core (6 credit hours)

SHS 541 Data Analysis in Auditory and Language Neuroscience (3)

SHS 542 Applied Research Methods in Auditory and Language Neuroscience (3)

Restricted Electives (12 credit hours)

Research (6 credit hours)

SHS 592 Research (6)

Other Requirement (1 credit hours)

SHS 590 Reading and Conference (1)

Culminating Experience (6 credit hours)

SHS 593 Applied Project (6) or

SHS 599 Thesis (6)

Additional Curriculum Information

For restricted electives, students should see the academic unit for an approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited college or university.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- GRE scores
- letter of intent or written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

In the letter of intent or written statement, applicants should indicate potential research mentors with whom they are interested in working. Letters of recommendation preferably are written by instructors, research mentors or clinical supervisors who can speak to the applicant's aptitude for research and master's-level coursework.

Behavioral Health, DBH (LSBEVHEDBH)

Online Degree Search Title: Behavioral Health, DBH

Campus: Online

ASU is not currently accepting applications for this program. Applicants interested in the Doctor of Behavioral Health program should apply directly to the clinical or management concentrations.

Program Description:

The DBH is an innovative and interdisciplinary applied program designed to upgrade master's degree-level professionals to prepare them to become experts in the emerging field of integrated behavioral care.

Integrated care is the holistic treatment of both medical and behavioral conditions. When undetected and untreated, whether in primary care or other medical settings, the results are poor clinical outcomes and increased medical costs related to overuse of medical services. A key recommendation in health care reform is improved integration of medical and behavioral care in order to both improve health outcomes as well as

decrease health care costs.

The doctoral curriculum is explicitly focused on graduating experts who can both speak the language of evidence-based clinical interventions and the perform cost savings and return on investment analyses that will be in high demand in new models of accountable care delivery. Traditional doctoral training does not prepare clinicians or managers with the interdisciplinary knowledge required to meet these new demands in the health care marketplace. This program reflects a paradigm shift to a curriculum based on business entrepreneurship skills, such as business plans, marketing and returns on investment specific to health care; evidence-based behavioral interventions for primary care that are efficient and contribute to cost savings by reducing unnecessary medical care services and costs; health care systems policies, economics and finance that respond to emerging opportunities in health care reform; and medical literacy, to understand common medical conditions seen in primary care and consult effectively with the medical team.

The curriculum is unique in that it incorporates internship experience in primary care or similar medical settings, and it integrates clinical and professional affiliated faculty as well as faculty associates who are experts and are directly employed in health care environments in the area that they are teaching. It is a flexible, online degree program that enables students to select a program of study ranging from part-time to full-time attendance, and it is available through ASU Online as a distance-learning program. The program offers either a clinical track for licensed clinicians or a management track for health care managers and leaders, and it replaces the dissertation with a culminating research project that combines an applied research study with a business plan.

Internship experiences are arranged with local site liaisons, and students meet in small groups with a doctoral consultant who leads case reviews and studies. Rural health and experiences with disadvantaged and multicultural populations are encouraged.

Graduates of the program contribute to a societal transformation by leading to improved access to behavioral care, integration of a behavioral provider on the medical team, improved patient outcome and satisfaction, and decreased cost of care.

Degree Requirements:

84 credit hours including the required applied project course (IBC 793).

Required Core (12 credit hours)

IBC 611 Population Based Health Management (3)

IBC 614 Quality and Performance Measurement, Improvement, and Incentives (3)

IBC 718 Healthcare Systems: Organization, Delivery and Economics (3)

IBC 720 Behavioral Health Entrepreneurship (3)

Electives (33 credit hours)

Internship and Culminating Experience (9 credit hours)

Additional Curriculum Information

previously awarded master's degree or other courses approved by the supervisory committee (30 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (on a 4.00 scale) in the applicable master's degree.

All applicants must submit an online graduate admission application. Applicants should see specific concentrations for the items that must be submitted.

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must meet university and degree program English proficiency requirements.

In order to use the 30 credits from a previous master's degree, applicants must possess a bachelor's degree and a master's degree from a regionally accredited postsecondary institution in the U.S. or an equivalent degree from a recognized international postsecondary institution.

Behavioral Health (Clinical), DBH (NHBVHCDBH)

Online Degree Search Title: Behavioral Health (Clinical), DBH

Campus: Online

Program Description:

The DBH is a global, interdisciplinary degree program that offers an innovative curriculum, a hands-on internship in primary care, and an applied research project for domestic and international students.

Clinical concentration students learn how to translate evidence-based practices that are tailored to fit the needs of the local community, patient population and health care system. Students are prepared to anticipate trends in health care policy and to leverage their expertise in clinical practice, quality of care, population health and health care costs to thrive in the evolving health care marketplace.

The curriculum addresses the problem of poor health outcomes, barriers to patient access and rising costs by preparing students to achieve the quadruple aim in health care: improved patient experience of care, population health management, cost-savings and improved team satisfaction. Students learn how to improve the patient experience of care with evidence-based behavioral interventions to address behavioral problems such as depression, anxiety and trauma, lifestyle habits such as smoking, risky alcohol and drug use, poor nutrition and lack of physical activity, and medication nonadherence. Students master population health approaches to patient engagement, stratification and stepped care, and treat to target outcomes. Students learn to demonstrate cost savings and return on investment by developing the business case for integrated care. The student learning experience includes easy access to online articles, videos and web sites, weekly live webinars with faculty experienced in the field, live peer student webinars, and written assignments that parallel the writing used for clinical and business proposals in the real world.

In the culminating project, students use the quality improvement model to solve key problems in primary care, such as how to improve processes and outcomes, reduce waste and decrease provider stress and burnout.

The internship program is hands-on in a local primary care clinic with in-person consultation by a licensed DBH faculty member in small group webinar format, a site mentor and emphasis on clinical performance metrics common in the Patient Centered Medical Home and Accountable Care Organization approaches to primary care.

Students may join special research projects or have the opportunity for a semester of study abroad. The faculty are seasoned veterans representing clinical practice, management and applied research in integrated care.

Degree Requirements:

84 credit hours including the required Applied Project Course (IBC 793).

Required Core (12 credit hours)

IBC 611 Population-Based Behavioral Health Management (3)
IBC 614 Quality and Performance Measurement, Improvement and Incentives (3)
IBC 718 Healthcare Systems: Organization, Delivery and Economics (3)
IBC 720 Behavioral Health Entrepreneurship (3)

Concentration (15 credit hours)

IBC 601 Models of Integrated Primary Care (3)
IBC 603 Brief Interventions in Primary Care (3)
IBC 604 Clinical Medicine/Pathophysiology (3)
IBC 608 Psychopharmacology for the Behavioral Care Provider (3)
IBC 609 Clinical Neuropathophysiology (3)

Electives or Research (18 credit hours)**Other Requirement (6 credit hours)**

IBC 684 Internship (6)

Culminating Experience (3 credit hours)

IBC 793 Applied Project (3)

Additional Curriculum Information

A previously awarded master's degree from a regionally accredited university or other courses approved by the supervisory committee is required (30 credit hours).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (on a 4.00 scale) in the applicable master's degree.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- copy of the applicant's license or license eligibility
- one professional letter of recommendation
- updated curriculum vitae or resume
- program policies acknowledgements
- video or webcam admission interview (if indicated)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants with master's degrees in counseling, family therapy, nursing, occupational health, and social work, among others, are encouraged to apply. Applicants must be master's degree-level professionals who are either currently employed or aspire to be employed in a clinical capacity within integrated health care.

Licensed and license-eligible are terms defining a license to practice issued by a state licensing board (e.g., Arizona Board of Behavioral Health Examiners, Arizona Board of Occupational Therapy Examiners, etc.). Examples include license-eligible master's degree-level behavioral clinician, licensed master's degree-level behavioral clinician, and master's degree-level licensed medical or ancillary health care provider (nurse, dietitian, occupational therapist).

Behavioral Health (Management), DBH (NHBVHMDBH)

Online Degree Search Title: Behavioral Health (Management), DBH

Campus: Online

Program Description:

Integrated health care is the team-based, coordinated treatment of medical, lifestyle and behavioral conditions.

The DBH program addresses a wide range of behavioral health issues impacting at-risk populations, from lifestyle to mental health to substance abuse, social determinants of health and health disparities. It focuses on integrated health management in primary care, especially in the patient-centered medical home and accountable care organization models. Integrated care is an excellent fit for other settings such as hospitals, emergency departments, specialty care, health plans, workplace wellness, educational and traditional mental health, and substance use disorder treatment settings called bidirectional integration. The Doctor of Behavioral Health is a global, interdisciplinary program with curriculum and programs that enables both domestic and international students to translate management practices tailored to local health system geography, culture and policy.

The unique curriculum focuses on three areas: integrated behavioral health program design, quality and performance measurement, and business entrepreneurship. Graduates of the management concentration are positioned to achieve the Quadruple Aim in health care: improved patient experience of care, population health management, cost-savings and improved health care team experience. The curriculum emphasizes direct management or administration within medical settings, improving quality of care through population health management, and building and sustaining integrated care programs. The curriculum includes emerging health technologies such as integrated health measures in electronic health records, mobile health apps and wearable technology to facilitate and assist with tracking health behavior change, big data and analytics.

Behavioral health doctoral graduates are expected to apply entrepreneurship concepts and skills to promote integrated health programs with key stakeholders, such as medical directors and chief executive officers. Graduates of the management concentration choose careers such as integrated care practice managers and choose leadership positions in integrated care delivery systems, health plans and managed care organizations as well as integrated care industry consultants.

Degree Requirements:

84 credit hours including the required Applied Project Course (IBC 793).

Required Core (12 credit hours)

Biomedical Diagnostics, MS (NHBMDMS)

Online Degree Search Title: Biomedical Diagnostics, MS

Campus: Online

Program Description:

The MS in biomedical diagnostics is designed to be completed in one year, if enrolled full-time. This degree is offered entirely through ASU's unique online framework and is offered primarily in condensed sessions.

The program has four areas that provide the foundation for the degree program: application of diagnostics, business of diagnostics, science of diagnostics, and technology of diagnostics.

Students complete a culminating experience in which they work on team-based project with an ASU professor and industry partner on a topic relevant to the diagnostics field.

Degree Requirements:

30 credit hours including an applied project (BMD 593).

Required Core (19 credit hours)

BMD 502 Foundations of Biomedical Informatics Methods I (3)

BMD 510 Current Perspectives in Biomedical Diagnostics (3)

BMD 511 Health Economics, Policy and Payment Models (3)

BMD 513 Principles of Diagnostic Technology: Immunoassays (4)

BMD 514 Principles of Diagnostic Technology: Molecular Diagnostics (3)

BMD 667 Regulation of Medical Diagnostics (3)

Electives (6 credit hours)

Research (2 credit hours)

BMD 592 Research (2)

Culminating Experience (3 credit hours)

BMD 593 Applied Project (3)

Additional Curricular Information

Students should see the academic unit for an approved elective list of BMD courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited college or university in one of the following fields, or a closely related field: biomedical informatics, biology, life sciences, chemistry, biochemistry, engineering, biomedical engineering, business, computer science, supply chain management, health sciences or medical studies.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- statement of purpose
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Graduate College requirement <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>)).

Admission examinations are not required.

Biomedical Informatics, MS (ESBIOINFMS)

Online Degree Search Title: Biomedical Informatics, MS

Campus: Tempe

Program Description:

The MS in biomedical informatics is offered by the College of Health Solutions. Professionals in the field use biomedical data, information and knowledge to improve human health. Students learn problem-solving, theory and methodologies underlying the field of biomedical informatics. Students in the master's program take courses in areas such as knowledge representation, clinical environments, imaging, bioinformatics and data science. Core courses provide a background in clinical informatics, while electives allow specialization in focus areas such as data science or mobile health.

BMI fosters collaborations among academic researchers, clinical practitioners and regional health care providers to apply new developments in informatics theory to clinical practice. Biomedical informatics has a key role to play in the transformation to more effective and efficient health care through the use of knowledge and information technology.

The program educates students in the informatics knowledge and skills that will enable them to:

- detect disease early
- improve the patient hospital experience
- improve the precision of diagnosis
- improve the quality of patient health care and reduce its cost
- minimize hospital visits

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Biomedical Informatics, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

32 credit hours including an applied project (BMI 593).

Required Core (14 credit hours)

BMI 502 Foundations of Biomedical Informatics Methods I (3)

BMI 505 Foundations of Biomedical Informatics Methods II (3)
BMI 540 Problem Solving in Biomedical Informatics (3)
BMI 570 BMI Symposium (2)
BMI 601 Fundamentals of Health Informatics (3)

Other Requirements (3 credit hours)
BMI 404 Clinical Environments (3) or
BMI 504 Introduction to Clinical Environments (3)

Electives (12 credit hours)

Culminating Experience (3 credit hours)
BMI 593 Applied Project (3)

Additional Curriculum Information
Six of the 12 elective credit hours must be BMI courses.

BMI 404 or 504 is required and may be substituted with other coursework with approval of the academic unit.

Due to the diverse academic backgrounds of students requesting admission into this program, many will find it necessary to take some coursework in preparation. However, all students will take 32 credit hours of graduate-level coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biology, computer science, engineering, nursing or statistics from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency via TOEFL scores regardless of current residency.

Applicants who have earned degrees in other unrelated fields with appropriate academic backgrounds also will be considered. However, all applicants must have basic competencies in college-level calculus (similar to MAT 270), general biology (similar to BIO 188) or physiology, statistics (similar to STP 226) and basic computer programming (similar to CSE 100 or CSE 110).

The applicant's undergraduate GPA, statement of purpose and depth of preparation in their field are the primary factors affecting admission. Every applicant must submit scores for the GRE or any other graduate-level entry examination.

Biomedical Informatics, PHD (ESBMIPHD)

Online Degree Search Title: Biomedical Informatics, PhD

Campus: Tempe

Program Description:

The PhD in biomedical informatics allows students to develop expertise in areas such as bioinformatics, clinical informatics, population health management and imaging science. The BMI program fosters collaborations among academic researchers, clinical practitioners and regional health care providers to apply new developments in informatics theory to clinical practice, biomedical research and public health.

Additional specialization coursework in an area of focus and emphasis on independent research are intended to place students at the leading edge of the field. Strong collaborative relationships with a variety of health care organizations, the bioscience industry and governmental agencies provide an unparalleled opportunity for doctoral students to explore and contribute to advances in informatics for biomedical research, patient care and population health. Students may explore special foci on cross-cutting areas such as data science and knowledge representation.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (22 credit hours)

BMI 502 Foundations of Biomedical Informatics Methods I (3)

BMI 504 Introduction to Clinical Environments (3)

BMI 505 Foundations of Biomedical Informatics Methods II (3)

BMI 515 Applied Biostatistics in Medicine and Informatics (3)

BMI 540 Problem Solving in Biomedical Informatics (3)

BMI 560 Teaching in Biomedical Informatics (2)

BMI 570 Symposium (2)

BMI 601 Fundamentals of Health Informatics (3)

Electives (32 credit hours)**Research (18 credit hours)**

BMI 792 Research (18)

Culminating Experience (12 credit hours)

BMI 799 Dissertation (12)

Additional Curriculum Information

Due to the diverse academic backgrounds of students requesting admission into this program, many find it necessary to take some coursework in preparation. However, all students take 84 credit hours of approved graduate-level coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- 3 letters of recommendation
- GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Scores for the TOEFL for applicants whose native language is not English is required.

An applicant should have earned a bachelor's degree in biology, computer science, engineering or statistics, or be trained as a postbaccalaureate health professional in medicine, nursing or pharmacy. Those who have earned degrees in other unrelated fields with appropriate academic backgrounds are also considered. However, all applicants must have basic competencies in anatomy and physiology, college calculus, computer programming, general biology and statistics.

The applicant's undergraduate GPA, statement of purpose and depth of preparation in their field are the primary factors affecting admission. Scores for the GRE (verbal, quantitative and analytical are required; the subject test is optional) or any other graduate-level entry examination.

Clinical Exercise Physiology, MS (NHCEPMS)

Online Degree Search Title: Clinical Exercise Physiology, MS

Campus: Downtown Phoenix

Program Description:

This MS degree program is preparation for a career as a clinical exercise physiologist, someone who usually works in concert with medical professionals to guide exercise and rehabilitation programs for at-risk clients and clients with chronic diseases, and it provides the knowledge, clinical experience and skills needed by individuals preparing for successful completion of the registration examination for the registered clinical exercise physiologist certification.

The American College of Sports Medicine is the national association responsible for establishing guidelines and recommendations for exercise testing, prescription and evaluation of research for both healthy populations and those with chronic disease. The ACSM certification is deemed the organization's most prestigious credential for clinical professionals with a master's degree working with clients who are under the care of a physician for cardiovascular, pulmonary and metabolic diseases as well as orthopedic or musculoskeletal, neuromuscular, and neoplastic immunological or hematological diseases.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Exercise and Wellness, BS

Kinesiology, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

35 credit hours and a written comprehensive exam, or 35 credit hours, a thesis, a written comprehensive exam, and an oral comprehensive exam.

Required Core (24 credit hours)

EXW 501 Research Statistics (3)

EXW 535 Advanced Exercise Assessment and Prescription (3)

EXW 536 Physiological Aspects of Physical Activity and Chronic Disease (3)

EXW 542 Health Promotion (3)

EXW 560 Cardiopulmonary Rehabilitation (3)

EXW 565 Cardiovascular and Pulmonary Physiology (3)

EXW 568 Management and Treatment of Chronic Disease for the Clinical Exercise Physiologist (3)

KIN 547 ECG Interpretation (3)

Electives (2 credit hours)

EXW 591 Seminar (2)

Research (3 credit hours)

EXW 500 Research Methods (3)

Other Requirement (6 credit hours)

EXW 584 Clinical Exercise Physiology Internship (6)

Culminating Experience (0-6 credit hours)

written comprehensive exam or

EXW 599 Thesis (6)

Additional Curriculum Information

Students take EXW 591 in two terms for one credit hour each.

Thesis students must pass a written and oral comprehensive exam.

Students who select the thesis option are not required to participate in the six credit hours of EXW 584 Clinical Exercise Physiology Internship.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in exercise science, exercise physiology, kinesiology or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- letter of intent
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A foreign language exam is not required.

All qualified applicants are admitted providing they have met all requirements for admission. Admission is not limited to any target number of students unless enrollment exceeds the projected capacity of the program to provide an adequate, quality program. In the case of space limitations, applicants are prioritized based on GRE scores, GPA, letters of reference and letter of intent for admission to the program.

Communication Disorders, MS (LACOMDISMS)

Online Degree Search Title: Communication Disorders, MS

Campus: Tempe

Program Description:

The MS in communication disorders is a full-time residential program that can be completed in 20 months and prepares students to become certified speech language pathologists. The master's degree program trains students to evaluate and treat clients in speech, language, cognitive and swallowing disorders.

The first year of the program focuses on developing knowledge and skills in assessment and treatment of communication disorders across the lifespan. Hybrid courses use flipped classrooms and problem-based learning to develop skills needed in the field. Students complete clinical practicum with clinical faculty educators. The second year of the program expands on the knowledge base from year one and students acquire clinical skills in two full semesters of external clinical placements.

The program is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.

This program provides a wide range of research and clinical opportunities. Clinical settings include inpatient and outpatient medical sites, public schools, early intervention programs and private practices. A part-time employment program is available for speech language pathology assistants who are working in a public school setting. A multicultural and multilingual certificate program is an option for individuals interested in specialized training.

Degree Requirements:

52 credit hours and a written comprehensive exam, or 52 credit hours, a thesis and a written comprehensive exam.

Required Core (31 credit hours)

SHS 538 Clinical Methods in Speech-Language Pathology (3)

SHS 539 Professional Issues in Speech-Language Pathology (2)

SHS 567 Neural Bases of Communication Disorders (2)

SHS 570 Communication Disorders and Multicultural Populations (2) or SHS 597 Bilingual Speech-Language Pathology (2)

SHS 571 Augmentative Communication and Language Programming (2)

SHS 572 Language Assessment and Intervention in Infants and Toddlers (2)

SHS 573 Language Assessment and Intervention with School-Age Populations (2)

SHS 574 Management of Voice and Swallowing Disorders (2)

SHS 575 Aphasia and Related Neurogenic Language Disorders (2)

SHS 577 Current Assessment, Intervention and Research in Autism (2)

SHS 578 Fluency Disorders (2)

SHS 581 Right Hemisphere Syndrome, Traumatic Brain Injury and Dementia (2)

SHS 582 Differential Diagnosis of Communication Disorders (2)

SHS 585 Articulation and Phonology: Assessment and Intervention (2)

SHS 587 Language Assessment and Intervention with Preschool Populations (2)

Electives (0 or 6 credit hours)

Other Requirements (15 credit hours)

SHS 500 Research Methods (1)

SHS 580 Clinical Practicum (6)

SHS 584 Clinical Internship (8)

Culminating Experience (0 or 6 credit hours)

written comprehensive exam (0) or

SHS 599 Thesis (6)

Additional Curricular Information

Core course SHS 538 is one credit hour taken three times for a total of three credit hours.

Students in the nonthesis option take six credit hours of electives. Students should see the academic unit for an approved list of elective courses.

Both the thesis and nonthesis options require the American Speech-Language-Hearing Association Praxis national exam in speech language pathology. This is the comprehensive exam for the thesis option. For the nonthesis option, a department-administered comprehensive examination in speech-language pathology is required along with the national exam to fulfill the requirements of the comprehensive exam.

Eligibility for graduation is based upon a passing score on the American Speech-Language-Hearing Association Praxis national certification examination in speech-language pathology; successful completion of the thesis or nonthesis option, including the required culminating experience and academic credits; and successful completion of clinical experiences.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in speech and hearing science or a related field from a regionally accredited institution and completed prerequisite coursework in speech and hearing.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement not to exceed 300 words
- GRE scores
- email addresses of three recommenders
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students should see the program website for application deadlines and admission terms. Candidates who have undergraduate deficiencies may need to take required prerequisite courses.

Communication Disorders in Multilingual/Multicultural Populations (certificate), Certificate (NHCDMPGRCT)

Online Degree Search Title: Communication Disorders in Multilingual/Multicultural Populations (Graduate Certificate)

Campus: Tempe

Program Description:

The certificate program in communication disorders in multilingual/multicultural populations provides expanded coursework on working with adults, children and families who are culturally and linguistically diverse. It also provides enhanced academic classes, clinical experience in authentic community-based settings, and engagement in community-centered, interprofessional projects.

Students who complete the certificate program have the knowledge and practical experience to address effectively the needs of culturally and linguistically diverse adults, children and families.

Degree Requirements:

15 credit hours.

Required Core (11 credit hours)

SHS 524 Counseling in Communication Disorders (2)

SHS 570 Communication Disorders and Multicultural Populations (2)

SHS 586 Language Essentials for Teaching Reading (2)

SHS 588 Spanish Language Acquisition (3)

SHS 597 Bilingual Speech-Language Pathology (2)

Other Requirement (4 credit hours)

SHS 584 Clinical Internship (4)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

A written portfolio in multicultural populations is the culminating experience for the certificate. This is an applied, community-based project that builds depth of knowledge resulting in a paper that students must present to the academic unit. Students should discuss research opportunities with their academic advisor for their portfolio.

As part of the certificate requirements, students also must complete an online module on parent training with culturally and linguistically appropriate techniques.

Students who wish to obtain a bilingual endorsement must complete the Arizona Classroom Teacher Spanish Proficiency Examination administered by the School of International Letters and Cultures.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the certificate program if they are enrolled in the MS program in communication disorders at ASU.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation

- GRE scores
- letter of intent or written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

International students who need an F1 or J1 visa will need to first apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Candidates who have undergraduate deficiencies may need to take required prerequisite courses.

Exercise and Nutritional Sciences, PHD (ECNUTRIPHD)

Online Degree Search Title: Exercise and Nutritional Sciences, PhD

Campus: Downtown Phoenix

Program Description:

In integrating disciplinary contexts, the PhD program in exercise and nutritional sciences is uniquely designed to train scholars to conduct high impact, transdisciplinary health promotion research that explores issues that contribute to health through chronic disease risk reduction, quality of life promotion and enhancement of well-being.

Students are actively engaged in research at every stage of the program through participation in research practicums, translational research teams, research seminars and colloquia, and dissertation research. Students work collaboratively with an approved mentor from the beginning to the end of the doctoral program, and select to focus their research on one primary area of interest: metabolism and physiology, behavioral and population health sciences, or biomechanics and motor control.

Program graduates are prepared for research careers in research-intensive universities, governmental agencies, and health-related research positions in private industry.

The program is four years of full-time study after earning a master's degree. The program accepts part-time students.

Degree Requirements:

89 credit hours including a dissertation.

Required Core (6 credit hours)

EXW 640 Analysis of Variance for Exercise and Wellness (3)

EXW 645 Advanced Applied Methods and Analysis (3)

Required Research (12 credit hours)

EXW 700 Research Methods (3)

EXW 701 Advanced Research Methods (3)

EXW 780 or NTR 780 Practicum (6)

Elective Research (15 credit hours)

Professional Development (5 credit hours)

EXW 691 or NTR 691 Seminar (3)

EXW 784 Internship (2)

Focus Area (9 credit hours)

Electives (30 credit hours)

Culminating Experience (12 credit hours)
EXW 799 or NTR 799 Dissertation (12)

Additional Curriculum Information

Students are to tailor a course of study in either nutrition and health or physical activity and health. Within these areas, students are expected to focus their study in a specific thematic area. There are three focus areas to choose from:

- behavioral and population health sciences
- metabolism and physiology
- biomechanics and motor control

Courses in the focus or thematic area are determined by the student and supervisory committee. Up to three but not more than nine credit hours in the focus area may be taken from a program outside the nutrition, exercise science and health promotion programs.

Professional development courses include a teaching internship (EXW 784) to help prepare students in exercise and nutritional science to become teaching faculty, and a seminar course taken over three semesters (EXW/NTR 791) that addresses career opportunities and preparation for faculty or professional positions in the nutrition, exercise and health promotion fields.

When approved by the student's supervisory committee and Graduate College, 30 credit hours from a previously awarded master's degree are allowed to be used for this degree.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree in any field, from a regionally accredited institution, and prefer that a data-based research thesis has been completed.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, and applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores (verbal, quantitative and writing)
- letter of intent
- professional resume
- three letters of recommendation
- teaching or research assistantship application
- writing sample (six to 10 pages)
- an oral interview with program faculty (in person or via Skype) prior to acceptance
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants must submit a TOEFL score unless the requirements for an exception have been met. Details are available at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

The letter of intent should indicate research or scholarly interest, primary program area, statement of career goals and name of a potential faculty mentor from the list of approved faculty mentors.

Prerequisites

All applicants must have taken a graduate level research methods and a graduate level research statistics course prior to admission. Students are expected to take a pretest in research methods and research statistics the summer prior to enrolling.

It is expected that students admitted to the program have documented academic training and a strong interest in exercise science, nutrition science or health promotion. Thus, depending on the student's academic training, background, scholarly interests and focus area, a student may be asked to take undergraduate courses as deficiencies prior to or concurrently with graduate course enrollment.

Pathways through program

Two pathways through the program are available to students depending on their funding source, full-time via TA/RA funding or part-time self-funded. With both pathways, the intent is to involve and embed students in ongoing research as well as in-class study throughout their stay.

Students should see the program website for application deadlines and admission terms.

Exercise and Wellness, MS (ECXERMS)

Online Degree Search Title: Exercise and Wellness, MS

Campus: Downtown Phoenix

Program Description:

The MS program in exercise and wellness offers unique opportunities for those interested in becoming scholarly professionals with advanced training in fitness and wellness, strength and conditioning, exercise and physical activity health promotion, or exercise and chronic disease prevention.

The degree program is appropriate for those who wish to pursue careers in commercial fitness and wellness, strength and conditioning, worksite or corporate fitness, community physical activity health promotion, and personal training for health and performance or life coaching. It is for professionals in education, counseling, nutrition or other health related fields who wish to expand their knowledge and skill for working with fitness, exercise and physical activity behavior, and it is for those who wish to pursue further graduate study in fields such as exercise physiology, public health or physical therapy.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Exercise and Wellness, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

36 credit hours and a applied project, or 36 credit hours and a thesis, or 36 credit hours and a written comprehensive exam.

Required Core (9 credit hours)

EXW 501 Research Statistics (3)

EXW 536 Physiological Aspects of Physical Activity and Chronic Disease (3)

EXW 542 Health Promotion (3)

Research (6 credit hours)

EXW 500 Research Methods (3)

EXW 591 Exercise and Wellness Seminar (2)

EXW 592 Research (1)

Electives (15-21 credit hours)

Culminating Experience (0-6 credit hours)

EXW 599 Thesis (6) or

EXW 593 Applied Project (6) or

written comprehensive exam (0)

Additional Curriculum Information

All students must focus their plan of study in one of four areas: fitness and conditioning, exercise science, physical activity health promotion, or exercise and aging. The focus determines the choice of electives available to students. For a list of approved elective courses, students should see the academic unit.

Fitness and Conditioning -- This is focused study in areas such as resistance training, sport and fitness conditioning, advanced sport nutrition, advanced exercise testing and prescription, health behavior theory, motivational interviewing, and exercise for obesity and aging. This focus area is a good option for students who are interested in pursuing careers in strength and conditioning and the fitness industry, and who may be pursuing further graduate study in applied exercise science or physical therapy.

Exercise Science -- This is focused study in areas such as advanced exercise physiology, muscle physiology, fuel metabolism, exercise
Academic Catalog Archive 2020-2021

endocrinology, advanced exercise testing and prescription, physiology of physical activity and chronic disease, biomechanics, and motor control. This focus area is a good option for students who are interested in pursuing further graduate study in the area of exercise science.

Physical Activity Health Promotion -- This is focused study in areas such as health promotion program planning, implementation and evaluation, physical activity policy in public health, health behavior change theory, motivational interviewing, physiology of physical activity and chronic disease, exercise for obesity, aging and sleep, and the role of mindfulness in stress, health and health behavior. This focus area is a good option for students who are interested in pursuing careers in health promotion, corporate wellness or public health, and who may be pursuing further graduate study in health promotion or public health.

Exercise and Aging -- This is focused study on the impact of aging and physical activity, the management and treatment of chronic disease, advanced exercise testing and prescription, geriatric nutrition, motor control and aging, and perspectives and policies for healthy aging. This focus area is a good option for students who are interested in designing and delivering physical activity and exercise programs specifically for aging populations.

All students are admitted to the nonthesis option but may apply to the thesis option.

The nonthesis option requires an applied project or a written comprehensive exam as the culminating experience. The nonthesis option is an appropriate choice for those students who cannot devote full-time to their research endeavors or for students who are seeking to continue their education, advance their skill level as practitioners or advance their current careers. Students who take the written comprehensive exam are required to take six additional elective courses in the focus area.

In the thesis option, the thesis is considered the final integrative experience of the degree; it involves conducting research that is guided by a recognized research paradigm (e.g., scientific, interpretive) and producing a scholarly report of the process and results. The thesis option is a good choice for students who are interested in pursuing more advanced graduate study in the field.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution. Students are expected to have the coursework and undergraduate credit for the basic courses required for a BS degree in exercise and wellness. Students who do not have these course competencies can be admitted with deficiencies. Deficiencies are determined upon admission, and these courses must be completed, usually by the end of the first year of study. These courses are not considered part of the graduate plan of study. A graduate course may be substituted for a deficiency but will be evaluated on a case-by-case basis.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- statement of career or research interests
- three professional letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must submit proof of English proficiency regardless of current residency.

BIO 201 and BIO 202 must be completed prior to admission to the master's degree program. Other deficiency courses may be taken prior to or during the master's degree program. The corresponding ASU course can be found in parentheses:

Human Anatomy and Laboratory (BIO 201 Human Anatomy and Physiology I)
Human Physiology and Laboratory (BIO 202 Human Anatomy and Physiology II)
Human Nutrition (NTR 241 Human Nutrition)
Exercise Physiology and Laboratory (EXW 315 Physiological Foundations of Movement)
Kinesiology and Laboratory (EXW 330 Kinesiological Foundations of Movement)
Exercise Testing and Laboratory (EXW 420 Exercise Testing)
Exercise Prescription (EXW 425 Exercise Prescription)

An undergraduate course in statistics is strongly recommended.

Students should see the program website for application deadlines.

Health Informatics, MAS (GCHLHINMAS)

Online Degree Search Title: Health Informatics, MAS

Campus: Online

Program Description:

The MAS in health informatics is a flexible program formatted to meet the needs of working professionals. Core courses provide a background in clinical informatics, while electives allow students to specialize in focus areas such as data science or mobile health.

The degree program prepares graduates with skills for careers in a wide range of health care settings. Professionals in nonhealth fields can also develop the skills needed to transition into careers in this rapidly expanding field.

Degree Requirements:

30 credit hours including the required applied project course (BMI 593).

Required Core (12 credit hours)

BMI 601 Fundamentals of Health Informatics (3)

BMI 603 Health Informatics Database Modeling and Applications (3)

BMI 614 Current Perspectives in Health Informatics (3)

BMI 616 Clinical Decision Support and Evidence-Based Medicine (3)

Electives (15 credit hours)

Culminating Experience (3 credit hours)

BMI 593 Applied Project

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in a related field such as biology, computer science, medicine, nursing, pharmacy or public health, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- current resume or curriculum vitae
- two letters of recommendation
- statement of purpose
- proof of English proficiency

Additional Admission Requirements

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. A TOEFL score is required for applicants whose native language is not English.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-advanced-study-health-informatics/>)

Health Solutions, College of

Integrated Behavioral Health - Clinical (Certificate), Certificate (NHIBHCGRCT)

Online Degree Search Title: Integrated Behavioral Health -Clinical (Graduate Certificate)

Campus: Online

Program Description:

This certificate program in integrated behavioral health with a clinical focus provides training for clinicians who aspire to work in integrated primary care behavioral health. Though there is a growing need for behavioral health providers who can promote the physical and mental health of primary care patients, and despite licensed social workers and counselors comprising much of the field's workforce, there remain few opportunities for specific clinical training in the field. Few have received specific clinical training in brief focused interventions delivered in primary care clinics for a wide scope of health concerns.

The curriculum is designed to provide students with a deeper understanding of models of primary care behavioral health and provide training on evidence-based approaches to behavioral health care, population-based health and medical literacy to ensure applicants have a working knowledge of the skills necessary for success in the integrated primary care arena.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

IBC 601 Models of Integrated Primary Care (3)

IBC 603 Brief Interventions in Primary Care (3)

IBC 604 Clinical Medicine/Pathophysiology (3)

IBC 611 Population-Based Behavioral Health Management (3)

Electives (3 credit hours)

Additional Curriculum Information

Students should see the academic unit for the approved course list of electives. Other coursework may be used with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree in a related field such as social work, counseling, family therapy, clinical psychology or nursing, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official graduate transcripts
- personal statement
- one letter of professional recommendation
- current resume or curriculum vita
- submission of licensure form and copy of license
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

All applicants are required to hold a master's degree that results in behavioral health licensure or license-eligibility. In rare cases, applicants are considered with a master's degree and licensure unrelated to their degree (e.g., applicant with a master's degree in public health and licensure as a registered dietitian). Consistent with the current admissions process for the Doctor of Behavioral Health program, licensure and licensure-eligibility is determined by the student's submission of an online form that is part of the supplemental application and a copy of their board-issued license.

The requirements for the personal statement are outlined on the online application.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. Integrated Behavioral Health - Management (Certificate), Certificate (NHIBHMGRCCT)

Online Degree Search Title: Integrated Behavioral Health - Management (Graduate Certificate)

Campus: Online

Program Description:

This certificate program in integrated behavioral health with a focus on management is designed for health care managers with master's degrees as well as aspiring health care managers and provides training on the integration of medical and behavioral services. Integrated health care has expanded significantly in recent years in conjunction with the expansion of the primary care medical home model and other funding initiatives that reimburse primary care practices for better managing the whole-health care of their patients, including treatment of mental health concerns and enhanced behavior change coaching that result in improved health outcomes. Despite the growing need for such clinics, few individuals have received training on models of primary care integration and business and funding initiatives required for successful integration.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

IBC 601 Models of Integrated Primary Care (3)

IBC 614 Quality and Performance Measurement, Improvement and Incentives in Health Care (3)

IBC 626 Behavioral Health Management (3)

IBC 630 Financial Management of Health Care (3)

Electives (3 credit hours)

Additional Curriculum Information

Students should see the academic unit for the approved course list of electives. Other coursework may be used with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree, in a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- one letter of professional recommendation
- current resume or curriculum vita
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Integrated Health Care, MIHC (NHIHCMIH)

Online Degree Search Title: Integrated Health Care, MIHC

Campus: Downtown Phoenix

Program Description:

Graduates of the MIHC degree program are prepared to develop, implement, evaluate and sustain integrated care delivery in diverse health care settings.

Through the Master of Integrated Health Care program, students gain management-level knowledge in health care operations, financial management, quality improvement, big data analytics, evidence-based practice, interprofessional leadership and team work, and strategic planning. Students apply their knowledge and advance their competencies through a final project as they assist a health care system to further an existing or emerging integrated care program.

Master of Integrated Health Care graduates have the competencies to serve as managers in primary care clinics, hospitals, mental health and substance abuse treatment programs, health plan disease management and employer-based wellness programs, and other innovative integrated care settings.

Degree Requirements:

30 credit hours including the required applied project course (IBC 593).

Required Core (21 credit hours)

IBC 520 Integrated Health Care: The Patient-Centered Medical Home (PCMH) (3)

IBC 530 Evidence-based Integrated Health Care (3)

IBC 540 Integrated Health Care Process Improvement (3)

IBC 550 Integrated Care Business Operations (3)

IBC 560 Strategic Business Planning and Big Data (3)

IBC 570 Financial Management (3)

IBC 585 Interprofessional Consultation, Leadership and Teamwork in Integrated Health Care (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)

IBC 593 Applied Project (3)

Additional Curricular Information

Students select HCI 500-level elective courses with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's degree in social or behavioral sciences, health, business, public health, management or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee

- personal statement
- official transcripts
- curriculum vitae
- letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International Health Management, MIHM (NHIHMIHM)

Online Degree Search Title: International Health Management, MIHM

Campus: Online

Program Description:

The 100% online MIHM degree is offered by Arizona State University in partnership with the University of New South Wales in Sydney, Australia. Ideal for students seeking a career in international health systems management, this degree program advances the core principles of the PLuS Alliance to develop solutions to global challenges and generate social impact in health and health care. The collaborative and international nature of the program provides students access to global academic networks and industry partners.

Students in this international health management program select a track focusing on health informatics, quality improvement in health care, health economics or hospital management. Students will build knowledge necessary for leadership and management, including policy, economics, finance and development, from the combined expertise of faculty at two world-renowned research universities. After courses in health care management, finance and comparative health systems, students choose an area of focus in health informatics, quality improvement in health care, health economics or hospital management.

Major sites of employment for graduates include hospital systems, nursing homes and similar facilities, and outpatient clinics. There is a significant growth market for graduates with skills in international health management given the aging populations and the need for a health care workforce competent in informatics, leadership and finance.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (6 credit hours)

HCD 532 Health Care Management and Finance (3)

HCD 537 Comparative Health Care Systems (3)

Track Courses (12 credit hours)

Electives or Research (12 credit hours)

Culminating Experience (0 credit hours)

Portfolio (0)

Additional Curriculum Information

Coursework taken for this program is provided through ASU and the University of New South Wales. For the specified core course, students take the equivalent of HCD 537 (PHCM 9471) at the University of New South Wales.

Students select one of the tracks as part of their curriculum. Some track courses are also listed as possible electives. In the event that an elective course is also listed as a specific track course for the track the student has selected, the student must select a different course as the elective.

Students should see the academic unit for an approved list of track and elective courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or master's degree from a regionally accredited college or university in a related field such as biology, chemistry, biochemistry, nursing, public health, pharmacy, biomedical informatics, social work, premed, prehealth, nutrition, health promotion or others.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of reference
- personal statement
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Three letters of reference from either academic or professional sources are required; reference letters from friends or relatives are not accepted. Letters demonstrating involvement in health care, community service or leadership are encouraged.

A personal statement must be submitted that explains how the applicant plans to contribute to the health care system after the degree is obtained; how the program will help the applicant achieve their goals; what the applicant's career aspirations are; and what interested the applicant in this degree program.

A phone or video conference interview with the admissions committee may be required.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/international-health-management-mihm/>)

Medical Nutrition, MS (NHMNTSMS)

Online Degree Search Title: Medical Nutrition, MS

Campus: Online

Program Description:

This MS program in medical nutrition is designed for current and future health care professionals, including gap-year students, those who have completed their bachelor's degree but have not yet secured admission to medical, veterinary, dental, osteopathic, physician assistant or similar schools; and for current medical students, residents, fellows and practitioners in the aforementioned fields who seek to develop a strong knowledge base in the nutritional sciences and its application in the health care field.

Students develop competence in nutritional biochemistry and its application in health maintenance, the treatment of disease and disease prevention. Training in therapeutic diets, nutrition guidelines and supplement and functional food usage is integrated into coursework and culminating experiences. Self-directed learning using evidence-based nutrition research and case studies is emphasized, and students develop interpretive expertise and nutritional assessment techniques to use in clinical practice. Proficiency in reading and interpreting nutrition research is a key program goal.

Degree Requirements:

30 credit hours including an applied project course (NTR 593).

Required Core (21 credit hours)

NTR 502 Statistics in Research (3)

NTR 510 Food and Nutrition Across the Lifespan (3)

NTR 511 Medical Nutrition in the Care and Prevention of Disease (3)
NTR 524 Chronic Inflammation and Metabolic Syndrome (3)
NTR 525 Complementary Nutrition (3)
NTR 533 Ethics and Policy of American Diets (3)
NTR 535 Nutrigenomics (3)

Other Requirement (3 credit hours)
NTR 500 Research Methods (3)

Culminating Experience (6 credit hours)
NTR 593 Applied Project (6)

Additional Curriculum Information

Other requirement coursework may be substituted with the approval of the student's graduate committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- three letters of recommendation
- one page personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from previous instructors or professors.

The GRE requirement may be waived for applicants who meet one of the following criteria:

- a minimum GPA of 3.20 in an awarded bachelor's degree in nutrition from an Accreditation Council for Education in Nutrition and Dietetics (ACEND) accredited program
- a minimum GPA of 3.50 in an awarded bachelor's degree from a regionally accredited institution
- submission of MCAT, DAT or other professional school entrance examination scores
- currently a licensed medical or health professional (e.g., physician, physician assistant, dentist, physical therapist, registered dietitian)

Nutritional Science, MS (ECHNUTMS)

Online Degree Search Title: Nutritional Science, MS

Campus: Downtown Phoenix

Program Description:

The ASU MS program in nutritional science prepares students to translate nutrition science into practical use for human health and wellness.

Students learn about nutrition alongside faculty who are immersed in the latest research, and they build practical understanding through internships and their own guided research.

The program is based on the scientific foundations of human nutrition. Students also develop strong writing and problem-solving skills, computer literacy, and interpretive expertise and are afforded research experiences. Students who have completed an accredited didactic program in dietetics may also elect to apply to the ASU dietetic internship in order to meet the requirements to become a registered dietitian nutritionist. More information is available at <https://chs.asu.edu/programs/nutrition-dietetics/how-become-registered-dietitian> (<https://chs.asu.edu/programs/nutrition-dietetics/how-become-registered-dietitian>).

The primary objective of the graduate program in nutrition is to provide advanced training in nutrition research. Graduate students are expected to develop competencies in research methods and in advanced practice knowledge relevant to their area of study. The skills and knowledge acquired during the course of training should enable each student to develop professional competencies that can be applied to significant problems and issues within the field of nutrition and dietetics.

The new track in sports nutrition, under the existing on-ground MS in nutritional science program, provides an option for students to select specialized courses in sports nutrition and exercise science and obtain hands-on training with sports dietitians and nutrition faculty who are experts in sports nutrition, work with student athletes and conduct research in the ASU Sun Devil Athletics program. Students in this track complete the same core nutrition graduate courses but take track courses and electives that focus on sports nutrition, hydration, exercise physiology, etc. They also complete their required thesis research under the guidance of sports nutrition research professors in the College of Health Solutions.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required Applied Project course (NTR 593).

Required Core (3 credit hours)

EXW 501 Research Statistics (3) or

NTR 502 Statistics in Research (3)

Restricted Electives (9 credit hours)

NTR 501 Research Methods in Nutrition II (3)

NTR 503 Designing Health Behavior Change Interventions (3)

NTR 524 Chronic Inflammation and Metabolic Syndrome (3)

NTR 525 Complementary Nutrition (3)

NTR 527 Policies, Environment and Obesity Prevention (3)

NTR 529 Pediatric Nutrition (3)

NTR 532 Endocrine Pathophysiology and Nutrition (3)

NTR 533 Ethics and Policy of American Diets (3)

NTR 535 Nutrigenomics (3)

NTR 537 Evidence-Based Nutrition (3)

NTR 551 Geriatric Nutrition (3)

NTR 553 Nutrition and Cardiovascular Disease (3)

NTR 555 Nutrition and the Athlete (3)

NTR 557 Nutritional Epidemiology (3)

NTR 598 Special Topics (3)

Open Electives (9 credit hours)

Research (3 credit hours)

NTR 500 Research Methods (3)

Culminating Experience (6 credit hours)

NTR 593 Applied Project (6) or

NTR 599 Thesis (6)

Additional Curriculum Information

Students choose three courses from the restricted electives list above for a total of nine credit hours. Other courses may be used with approval of the academic unit.

One research methods course is required. NTR 500 may be substituted with approval from the academic unit.

Students in the sports nutrition track complete six credit hours for the track as part of electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree (nutrition or science is recommended) from a regionally accredited institution. Students who are pursuing the Master of Science in nutritional science will need to complete the following prerequisites: anatomy and physiology, biochemistry, general chemistry with lab, general nutrition for majors, microbiology, organic chemistry with lab, and statistics.

These courses are part of the ASU didactic program in dietetics required for ASU's BS degree in dietetics and to be eligible to apply for admission into an accredited dietetic internship to become a registered dietitian. If an applicant has completed a didactic program in dietetics from another university, these prerequisites will be considered complete. Prerequisite courses can be in progress when the student submits the application; however, if the student is accepted into the Master of Science degree program, all prerequisites must be completed before the program begins in the fall semester.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- resume
- personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A resume that summarizes the academic, volunteer and employment experiences of the applicant needs to be submitted with the graduate admission application.

A personal statement that includes the following must be submitted with the graduate admission application:

- a description of the applicant's significant professional responsibilities
- the applicant's professional goals and the reasons for the desire to enroll in ASU's program
- the applicant's strengths that will allow the applicant success in the program and in reaching professional goals
- the applicant's personal research interests, described as specifically as possible and including any previous research experience, along with indication of any interest in being considered for the optional track in sports nutrition

Three letters of recommendation are required, including at least one from an instructor at the applicant's undergraduate school. Letters of recommendation can be submitted with the graduate admission online application.

A foreign language examination is not required for this program.

No interview is required.

Nutritional Science (Dietetics), MS (ECNTRDMS)

Online Degree Search Title: Nutritional Science (Dietetics), MS

Campus: Online

Program Description:

The MS program in nutritional science with a dietetics concentration is a nonthesis option for registered dietitian nutritionists seeking to continue their education and advance their skills as practitioners. The program is based on the scientific foundations of nutrition and prepares students to have strong writing skills, computer literacy, interpretive expertise and problem-solving skills.

time or part time. This is a fully online program with multiple start dates each year. Courses are 7.5 weeks long and semesters are divided into A and B sessions. Up to 12 credit hours can be transferred from another accredited program with the approval of the program director.

Degree Requirements:

30 credit hours including the required applied project course (NTR 593).

Required Core (3 credit hours)

EXW 501 Research Statistics (3) or

NTR 502 Statistics in Research (3)

Concentration (9 credit hours)

NTR 501 Research Methods in Nutrition II (3)

NTR 503 Designing Health Behavior Change Interventions (3)

NTR 524 Chronic Inflammation and Metabolic Syndrome (3)

NTR 525 Complementary Nutrition (3)

NTR 527 Policies, Environment and Obesity Prevention (3)

NTR 529 Pediatric Nutrition (3)

NTR 532 Endocrine Pathophysiology and Nutrition (3)

NTR 533 Ethics and Policy of American Diets (3)

NTR 535 Nutrigenomics (3)

NTR 537 Evidence-Based Nutrition (3)

NTR 551 Geriatric Nutrition (3)

NTR 553 Nutrition and Cardiovascular Disease (3)

NTR 555 Nutrition and the Athlete (3)

NTR 557 Nutritional Epidemiology (3)

NTR 598 Special Topics (3)

Research (3 credit hours)

NTR 500 Research Methods (3)

Open Electives (9 credit hours)

Culminating Experience (6 credit hours)

NTR 593 Applied Project (6)

Additional Curriculum Information

For concentration coursework, students choose three courses from the list above for a total of nine credit hours.

One research methods course is required. NTR 500 may be substituted with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are required to have adequate academic preparation which includes a minimum of a BS or BA degree from a regionally accredited institution, current RD credential, and one year of full-time work experience as an RD.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of Registered Dietitian status
- resume
- personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency via a TOEFL score.

Applicants should submit proof of registered dietitian status by accessing the Commission on Dietetic Registration's website (<https://www.cdrnet.org>)

(<https://www.cdrnet.org>)) and complete the verification process using the online credential verification search.

A resume is required that summarizes the applicant's academic, volunteer and employment experiences.

Also required is a one- to two-page, typed, double-spaced, personal statement addressing the following: significant professional responsibilities the applicant has held; professional goals and reasons for desiring to enroll in this program; strengths that will help the applicant succeed in this program and in reaching their professional goals; and, personal interests in research, including, if applicable, studies involving the practice of dietetics.

Three letters of recommendation are to be submitted with the application, including at least one from an employer or work supervisor.

Because passing the registered dietitian exam and gaining work experience in the field of dietetics are required for successful admission to the MS in nutritional science dietetics concentration, the nutrition program graduate committee does not require applicants to take or submit scores from the GRE. In lieu of GRE scores, a telephone interview may be conducted.

A foreign language examination is not required for this program.

A personal or phone interview may be required.

Applicants to the Master of Science degree program in nutritional science with a concentration in dietetics must have one year of full-time work experience as a registered dietitian nutritionist; however, applicants do not have to be employed at the time they apply to the program nor do students have to be employed to maintain good standing within the program.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. Obesity Prevention and Management, MS (NHOB SMS)

Online Degree Search Title: Obesity Prevention and Management, MS

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description:

The MS in obesity prevention and management is an innovative degree program that draws on a wide array of expertise at ASU. The curriculum is designed to integrate perspectives from the social, applied, life and health sciences and provides advanced, graduate-level, problem-focused, experiential training that is grounded in evidence and best practices for effective prevention and management of obesity.

This degree program is geared toward postbaccalaureate students and professionals who wish to advance their understanding of the social, cultural, environmental, health and psychological issues associated with obesity. The program emphasizes the complex etiology of obesity and includes courses that will enhance students' ability to work with individuals and populations at risk of obesity to develop effective strategies for prevention and management of the condition across the lifespan.

Degree Requirements:

30 credit hours including a thesis, or 30 credit hours including an applied project (OBS 593).

Required Core (3 credit hours)

OBS 501 Obesity Prevention and Management: An Introduction (3)

Electives (21 credit hours)

Culminating Experience (6 credit hours)

OBS 593 Applied Project (6) or

OBS 599 Thesis (6)

Additional Curriculum Information

Students choose one three-credit hour elective course from each of the following categories: concepts in behavior change, research methods and statistics.

Additional elective course selections will depend upon the student's chosen track. Students select six credit hours from prescribed categories for each track and six credits from the following categories: cultural aspects of behavior change, general track, public health approaches for behavior change, and technological approaches for behavior change.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's (or equivalent) or master's degree in social or health science-related fields from a regionally accredited institution. The following entry-level competencies are needed for admission to the program: Students should have completed undergraduate-level coursework in statistics and psychology and, ideally, have completed one or more courses in nutrition, physiology and chemistry.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit

- graduate admission application and application fee
- official transcripts
- GRE scores (verbal, quantitative and analytical)
- statement of educational and career goals
- writing sample
- letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students who have an undergraduate GPA of 3.25 or higher in the last 60 hours of their undergrad program may have the GRE requirement waived with approval of the academic unit.

No foreign language examinations are required for admittance to the program.

Writing sample: A two- to three-page application letter is required in which applicants explain why they want to pursue this degree and why they feel well-prepared to succeed in this graduate program.

Science of Health Care Delivery, MS (NHSCHDMS)

Online Degree Search Title: Science of Health Care Delivery, MS

Campus: Downtown Phoenix, Online

Program Description:

The MS program in the science of health care delivery focuses on the study and design of systems, processes, leadership and management approaches used to optimize health care delivery and health for all. This degree program is designed for individuals interested in a career in the health care industry. It provides students with the knowledge and competencies to contribute in a patient-centered, safe and cost-effective health care system.

The curriculum is centered on achieving high-value care through leadership, population health, informatics, systems engineering, health care management, and health economics and policy. Students learn Lean Six Sigma principles and apply them to health care delivery challenges. The program challenges students to work on innovative solutions to improve the U.S. health care system by simultaneously improving the health of the population, enhancing the patient experience and reducing per capita cost of care. Students apply concepts through case studies and team-based

projects to facilitate integration of knowledge and competencies. Participating students work in a cohort through the program and are able to complete the degree in nine months (one academic year). Students are paired with leading health care delivery organizations to complete an applied capstone project during the program.

Degree Requirements:

30 credit hours including the required capstone course (HCD 550).

Required Core (24 credit hours)

BMI 601 Fundamentals of Health Informatics (3)

HCD 501 Biostatistics and Data Management (3)

HCD 502 Health Care Systems and Design (3)

HCD 511 Health Economics, Policy and Payment Models (3)

HCD 520 Population Health (3)

HCD 532 Health Care Management and Finance (3)

HCD 570 Process Engineering (3)

HCD 575 Leadership and Professionalism (3)

Electives (3 credit hours)

Research (2 credit hours)

HCD 592 Research: PART ONE (1)

HCD 592 Research: PART TWO (1)

Culminating Experience (1 credit hour)

HCD 550 Capstone (1)

Additional Curriculum Information

Elective coursework must be 500 level and must be from the HCD course prefix.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited college or university of recognized standing in a related field such as biology, chemistry, biochemistry, nursing, public health, pharmacy, biomedical informatics, social work, premed, prehealth, nutrition, health promotion or others.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of reference
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Three letters of reference from either academic or professional sources are required; reference letters from friends or relatives will not be accepted. Letters demonstrating involvement in health care, community service or leadership are encouraged.

A personal statement must be submitted that explains how the applicant plans to contribute to the health care system after the degree is obtained; how the program will help the applicant achieve the applicant's goals; what the applicant's career aspirations are; and what interested the applicant in this degree program.

A phone or video conference interview with the admissions committee may be required.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. Science of Health Care Delivery (Certificate), Certificate (NHHCDGRCT)

Online Degree Search Title: Science of Health Care Delivery (Graduate Certificate)

Campus: Online

Program Description:

Change in the health care system has accelerated as the health care system transforms itself to one focused on value rather than on volume. The certificate program in the science of health care delivery addresses the current and future needs of the workforce in the health care industry, such as C-suite executives and administrators, health care providers (physicians, physician assistants, nurse practitioners and nurses), front line staff (respiratory therapists, occupational therapists, physical therapists and dietitians) and students in the health-related disciplines.

Degree Requirements:

Required Core (9 credit hours)

HCD 502 Health Care Systems and Design (3)

HCD 511 Health Economics, Policy and Payment Models (3)

HCD 520 Population Health (3)

Track (6 credit hours)

Additional Curriculum Information

Students select one of the following tracks: quality and process improvement, clinical informatics, and leadership.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. The following disciplines are preferred: business or law (health care and business administration, economics, finance or law), engineering (biomedical engineering), general science (biology or physiology), health-related field (nursing, health policy or public health), or math or computer science (statistics or computer science).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- evidence of work experience
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

More than two years of work experience in a health-related field is preferred.

Applicants must have basic competencies in college-level math, general biology (or physiology) and statistics. Course equivalencies include:

BIO 181 General Biology I

BIO 182 General Biology II

HCD 300 Biostatistics

MAT 117 College Algebra

or other coursework, with approval of the academic unit.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. Speech and Hearing Science, PHD (LAHEARPHD)

Online Degree Search Title: Speech and Hearing Science, PhD

Campus: Tempe

Program Description:

The interdisciplinary PhD program in speech and hearing science prepares scholars for careers in basic and applied research in academic, industrial or health care environments.

Students pursue an individualized program with the unifying theme of human communication and disorders. Courses tailored to students' specific interests are taken from a variety of departments. In addition to a self-designed program of study, concentrations are offered in auditory and language neuroscience and in translational genetics of communication abilities. Students should visit the program website for further details about these options.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (2 credit hours)

SHS 701 Scientific Writing and Presentation in Communication Sciences and Disorders I (1)

SHS 702 Scientific Writing and Presentation in Communication Sciences and Disorders II (1)

Culminating Experience (12 credit hours)

SHS 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, 28 credit hours from a previously awarded master's degree are allowed to be used for the degree.

Students complete content area coursework that may include aspects of neuroscience, methodology, speech and hearing science, and other specialty areas. A student completes their plan of study under the guidance of their faculty mentor and program committee. A programmatic research experience prepares the student for basic or applied research leading to the dissertation.

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in a related field and do not wish to earn a clinical master's degree, or if they have earned a master's degree or equivalent in speech and hearing science, psychology, linguistics, or a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of undergraduate and graduate study
- application cover letter and personal statement
- GRE scores
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Professional letters of recommendation must be from three individuals who are familiar with the applicant's academic record and should contain contact information for the recommenders.

The personal statement must be 300 words or fewer and should include the experiences and qualities the student brings to the program, along with the student's goals for the future.

Speech and Hearing Science (Auditory and Language Neuroscience), PHD (NHSALPHD)

Online Degree Search Title: Speech and Hearing Science (Auditory and Language Neuroscience), PhD

Campus: Tempe

Program Description:

The auditory and language neuroscience concentration within the PhD program in speech and hearing science trains scholars in basic and applied research in the fields of auditory and language neuroscience. Students develop a strong foundation from which to conduct impactful neuroscience research related to healthy auditory and language abilities as well as the neural bases of communication disorders.

This program's faculty are in a unique position to provide this integrated training experience because of the program's focus on innovative approaches to the field of speech, language and hearing science. Faculty backgrounds include engineering, neuroscience and psychology in addition to world-class expertise in speech-language pathology and auditory neural prosthetics.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (2 credit hours)

SHS 701 Scientific Writing and Presentation in Communication Sciences and Disorders I (1)

SHS 702 Scientific Writing and Presentation in Communication Sciences and Disorders II (1)

Concentration (12 credit hours)

Research (21 credit hours)

SHS 792 Research (12)

research methods and statistics (9)

Electives or Additional Research (28 credit hours)

Other Requirements (9 credit hours)

SHS 790 Reading and Conference Professional Seminars (9)

preliminary exam (0)

comprehensive exams (0)

Culminating Experience (12 credit hours)

SHS 799 Dissertation (12)

Additional Curriculum Information

The concentration courses focus on issues related to auditory and language neuroscience. These credit hours may be accomplished in regular graduate-level (500+) courses or in special topic seminars and independent studies. The student's program committee guides selection of these courses, which may be focused on a broad base of areas related to auditory and language neuroscience.

Students should see the academic unit for approved concentration courses, professional seminars for SHS 790, research and electives. Other research and electives courses may be used with approval of the academic unit.

The preliminary exam research project is to be in the field of auditory or language neuroscience, or in both. Each student gives a formal presentation of their prospectus to their program committee. The defense for the preliminary exam research project includes a written document of the research project and an oral defense.

The comprehensive exams entail a written examination and an oral examination. The written exam takes one of the following formats: students write responses to questions posed by each committee member or students complete a written paper for each member of the committee.

For the proposed concentration, at least two of the three questions, or topics for the written papers, posed by the committee members must be focused in the area of auditory or language neuroscience, or in both. The comprehensive examination committee evaluates the written paper and the oral defense during a closed meeting with the student.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 credit hours of coursework is to be made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in a related field and do not wish to earn a clinical master's degree, or if they have earned a master's degree or equivalent in speech and hearing science, psychology, linguistics or a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of undergraduate and graduate study
- application cover letter and personal statement
- GRE scores
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Typically, applicants have completed a master's or AuD degree or equivalent in speech and hearing science, psychology, linguistics or a related discipline. Applicants with a bachelor's degree in speech and hearing science, psychology, engineering or another related field, strong research interests, and a strong academic record also are considered.

Students should see the program website for application deadlines.

Professional letters of recommendation must be from three individuals who are familiar with the applicant's academic record and should contain contact information for the recommenders.

Speech and Hearing Science (Translational Genetics of Communication Abilities), PhD (NHSSTGPHD)

Online Degree Search Title: Speech and Hearing Science (Translational Genetics of Communication Abilities), PhD

Campus: Tempe

Program Description:

The translational genetics of communication abilities concentration within the PhD program in speech and hearing science provides doctoral

students with training in an innovative approach to the clinical sciences (it was pioneered at ASU) in which the concepts of precision medicine are applied to all disciplines within communication sciences and disorders. Training in molecular genetics and bioinformatics equips students to investigate the interactions among genetic, brain-based and behavioral traits. Prior training in genetics is not required.

Knowledge of genotype-phenotype associations provides the foundation for the translational components of this program: early identification and intervention, individualized management and interprofessional approaches. Students have the option of focusing primarily on basic sciences aspects, on clinical translations, or on both.

This program leverages ASU's strong research and clinical expertise across clinical linguistics and its expertise in the biosciences and translational clinical sciences. Collaborating units at ASU include the Biodesign Institute, the School of Life Sciences, the College of Health Solutions with its many subspecialties such as bioinformatics, the Department of Psychology and many others.

Upon completion of this doctoral concentration, graduates have the skills to discover and understand networks of genotype-phenotype associations and to contribute to more effective clinical management of communication disorders using preventative, targeted and interprofessional methods.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (2 credit hours)

SHS 701 Scientific Writing and Presentation in Communication Sciences and Disorders I (1)

SHS 702 Scientific Writing and Presentation in Communication Sciences and Disorders II (1)

Concentration (12 credit hours)**Research (21 credit hours)**

SHS 792 Research (12)

research methods and statistics (9)

Electives or Additional Research (28 credit hours)**Other Requirements (9 credit hours)**

SHS 790 Reading and Conference Professional Seminars (9)

preliminary exam (0)

comprehensive exams (0)

Culminating Experience (12 credit hours)

SHS 799 Dissertation (12)

Additional Curriculum Information

The concentration courses focus on issues related to translational genetics. These credit hours may be accomplished in regular graduate-level courses (500-level and higher) or in special topic seminars and independent studies. The student's program committee guides selection of these courses, which may be focused on a broad base of areas related to translational genetics. All doctoral graduates with this concentration are required to have foundational knowledge in genetics.

Students should see the academic unit for approved concentration courses, professional seminars for SHS 790, research and electives. Other research and electives courses may be used with approval of the academic unit.

The preliminary exam research project is to be within the field of translational genetics of communication abilities. Each student gives a formal presentation of their prospectus to their program committee. The defense for the preliminary exam research project includes a written document of the research project and an oral defense.

Prior to commencing dissertation research, the student must pass a comprehensive written examination covering their field of study, which must be orally defended.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is to be made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Health Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in a related field and do not wish to earn a clinical master's

degree, or if they have earned a master's degree or equivalent in speech and hearing science, psychology, linguistics or a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- application cover letter and personal statement
- GRE scores
- three letters of recommendation
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must demonstrate a strong interest in translational genetics as indicated in the applicant's written statement of academic and professional goals

Typically, applicants have completed a master's or AuD degree or equivalent in speech and hearing science, psychology, linguistics or a related discipline. Applicants with a bachelor's degree, strong research interests and a strong academic record also are considered. Applicants who wish to study the genetics of a certain communication disorder but lack undergraduate or graduate level training in communication disorders are required to take relevant courses in the college.

Students should see the program website for application deadlines.

Professional letters of recommendation must be from three individuals who are familiar with the applicant's academic record and should contain contact information for the recommenders.

Integrative Sciences and Arts, College of

Applied Biological Sciences, MS (TSAPBIOSMS)

Online Degree Search Title: Applied Biological Sciences, MS

Campus: Polytechnic

Program Description:

The MS program in applied biological sciences offers advanced instruction in the ecology and sustainable management of natural and urban ecosystems. Rigorous programs of study involving field and laboratory work are custom-designed to apply ecological or biological principles to problems in species or ecosystem conservation. All programs culminate with the completion of an intensive, research-based thesis or applied project.

The program is supported by faculty members with backgrounds in:

- ecological restoration
- environmental microbiology
- environmental stress physiology
- desert horticulture
- plant-fungal ecology
- plant systematics
- riparian and stream ecology
- wildlife biology

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Applied Biological Sciences (Applied Biological Sciences), BS
- Applied Biological Sciences (Applied Ecology and Preveterinary Medicine), BS
- Applied Biological Sciences (Natural Resource Ecology), BS
- Applied Biological Sciences (Preveterinary Medicine), BS
- Applied Biological Sciences (Secondary Education in Biology), BS
- Applied Biological Sciences (Sustainable Horticulture), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (ABS 592 and ABS 593).

Required Core (3 credit hours)

ABS 550 Vegetation Dynamics (3) or

ABS 555 Wildlife Dynamics (3)

Electives or Research (21 credit hours)

Culminating Experience (6 credit hours)

ABS 592 Research (3) and ABS 593 Applied Project (3)

ABS 599 Thesis (6)

Additional Curriculum Information

The electives coursework is chosen to support the student's educational objectives.

Students choose a thesis or applied project option. A final oral examination covering the thesis and related subject matter is required.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores or Miller Analogies Test scores
- resume
- statement of intent
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants are expected to have completed 18 credit hours in biological sciences and closely related courses. Specific fields of study may have specific expectations regarding courses taken at the undergraduate level. Applicants not meeting these course requirements may be considered for admission with deficiencies.

The statement of intent (the maximum is 600 words) should explain the applicant's interest in environmental resources, academic background and educational objectives.

The letters of recommendation should be from references who are qualified to comment on the applicant's potential in the selected area of study.

Department faculty evaluate the applications and supporting materials and recommend to Graduate Admission Services whether the applicant should be granted admission, either regular or provisional, or denied admission. If admission is provisional, the Graduate College specifies in its

letter of admission the provisions that need to be met to gain regular status. The school informs successful applicants of the procedures for enrollment.

Counseling, MC (EDCOUNMC)

Online Degree Search Title: Counseling, MC

Campus: Tempe

Program Description:

The Master of Counseling program is approved by the Arizona Board of Behavioral Health Examiners (<https://www.azbbhe.us/node/553> (<https://www.azbbhe.us/node/553>)).

The mission of the MC program is to prepare students to become professional clinical mental health counselors, culturally competent to work with diverse clientele in a variety of mental health settings including community behavioral health agencies, colleges and universities and organizational settings. Clinical mental health counselors seek to prevent or treat psychological problems and to promote the health of individuals, families, groups and organizations in a diverse society.

Faculty research foci include, but are not limited to, the following:

- advocacy
- children and adolescents
- counseling process and outcome
- couple and family relationships
- crisis assessment
- culturally-responsive treatment
- immigrant well-being
- mental health disparities
- play therapy

The program also instills in students the importance of research in advancing the counseling profession. One manifestation of the crucial link between practice and research is the three complementary functions of the program's state-of-the-art Counselor Training Center: clinical service provision, high-quality training, and innovative process and outcome research.

The MC program has endorsed the American Counseling Association's Code of Ethics and the following American Counseling Association competencies: ALGBTIC Competencies for Counseling LGBQIQA Individuals (2012), Competencies for Counseling the Multiracial Population (2015), Multicultural and Social Justice Counseling Competencies (2015), Competencies for Addressing Spiritual and Religious Issues in Counseling (2009) and Multicultural Career Counseling Competencies (2009).

Degree Requirements:

60 credit hours and a thesis, or 60 credit hours and a written comprehensive exam.

Required Core (36 credit hours)

- CED 501 Introduction to Research and Evaluation in Counseling (3)
- CED 502 Counseling Research Data Analysis (3)
- CED 522 Theories of Counseling and Psychotherapy (3)
- CED 523 Psychological Tests (3)
- CED 527 Prevention and Consultation (3)
- CED 529 Lifespan Human Development (3)
- CED 534 Occupations and Careers (3)
- CED 545 Analysis of the Individual (3)
- CED 567 Group Dynamics and Counseling (3)
- CED 577 Counseling Prepracticum (3)
- CED 645 Professional Issues and Ethics (3)
- CED 671 Multicultural Counseling (3)

Electives or Research (6-12 credit hours)

Other Requirements (12 credit hours)

CED 680 Practicum: Seminar (3)

CED 680 Practicum: Clinic (3)

CED 684 Internship (6)

Culminating Experience (0-6 credit hours)

CED 599 Thesis (6) or

written comprehensive exam (0)

Additional Curriculum Information

Students choose either a thesis or written comprehensive exam pathway. The thesis option is for students who are focusing their program on research, and they take six credit hours of elective or research coursework plus six credit hours of thesis. The written comprehensive exam is for students in the practitioner pathway, and they take 12 credit hours of elective coursework.

The clinical portion of the program is comprised of CED 680 Practicum Seminar and Clinic and CED 684 Internship. These are required for all students. CED 580 Practicum Clinic and CED 584 Internship may be taken by students needing to log required clinical hours after CED 680 and CED 684 are completed. CED 580 and CED 584 are not required unless additional clinical hours are needed.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two- to three-page personal statement
- at least two and a maximum of three recommendation forms
- verbal and quantitative GRE scores
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. This program requires a TOEFL score of at least 600 (pBT) or 100 (iBT).

Finalists will be invited for a virtual group interview.

The GRE test must be retaken if scores are more than five years old.

Nonacademic/Professional/Life Experiences:

Applicants are required to submit a two- to three-page personal statement that indicates the applicant's qualifications and reasons for their interest in the program (e.g., professional experiences and personal attributes). Specifically, applicants are asked to provide a reflection on how their education and training as well as their professional experiences inform why they want to pursue the degree and how this program will help them meet their future goals. Applicants are also expected to discuss and elaborate on their ability to work and be sensitive to the needs of a multicultural and diverse society, including members of diverse racial or ethnic groups and individuals of a sexual minority.

Recommendations:

At least two but no more than three recommendation forms are to be submitted. These should be completed by persons able to evaluate the applicant's academic potential, professional experience and personal attributes.

Students should see the program website for application deadlines.

For more information, students should visit the school's website.

Counseling Psychology, PHD (EDCPSYPHD)

Online Degree Search Title: Counseling Psychology, PhD

Campus: Tempe

Program Description:

This American Psychological Association-accredited PhD program in counseling psychology adheres closely to the scientist-practitioner training model in preparing graduates for employment in academic and clinical settings.

Although faculty interests are diverse, there is a common emphasis on using empirical data as the basis for culturally-responsive professional practice. The program boasts a strong commitment to diversity, equity and inclusion as evidenced in course offerings, clinical training, professional development activities and research foci.

Faculty research foci include the following:

- acculturative stress
- cultural socialization
- immigrant well-being
- mental health disparities
- microaggressions
- psychotherapy process and outcome
- retention in graduate education
- social and personal relationships
- socioeconomic status and financial stress

Students enjoy exceptional clinical opportunities including placement in local hospitals, university and college counseling centers, community agencies and assessment sites. The program's state-of-the-art Counselor Training Center provides practicum experiences with campus and community clients as well as clinical supervision experiences. The CTC supports three complementary functions: clinical service provision, high-quality training and innovative process and outcome research.

Degree Requirements:

113 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The doctoral curriculum typically requires three to four years of full-time graduate study plus a yearlong internship in an APA-approved setting. Each of these years involves coursework pertaining to theory, research and practice in counseling psychology.

Students are expected to maintain full-time status. Full-time status involves being registered for at least nine credit hours per semester in the coursework years. This requirement applies only to the academic year and not summer sessions.

At a minimum, students are required to complete two years of coursework in residence at ASU.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores (which can be no older than five years)
- personal statement
- a completed biographical information form
- writing sample
- three letters of recommendation

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should be 600 words or less, and it should describe the applicant's history, academic and professional goals and reasons for selecting the counseling psychology program at ASU.

Applicants must submit a seven-page sample of the applicant's expository writing (e.g., taken from a paper prepared for a course or a report on a project the applicant has completed in this field).

The preference is that two of the recommendation letters be from persons familiar with the applicant's academic work.

Applicants should see the program website for application deadlines.

Integrative Social Science, MS (LSISSMS)

Online Degree Search Title: Integrative Social Science, MS

Campus: Polytechnic

Program Description:

The MS in integrative social science is an advanced degree program designed to cross-educate students in the social sciences in order to meet the complex issues that confront human society in a technically sophisticated 21st-century world.

The emphasis of the program lies in bridging traditional disciplinary boundaries to immerse students in the myriad theories and skills available across disciplines which would elude them in traditional disciplinary social science programs. Thus, graduates of the program are prepared with theory and research skill sets that allow them to draw from the best of the multiple disciplines of the social sciences.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Integrative Social Science, BS
- Political Science, BS
- Science, Technology and Society, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including a thesis, or 30 credit hours including an applied project (ISS 593).

Required Core (12 credit hours)

- ISS 501 Advanced Integrated Social Research Methods (3)
- ISS 502 Advanced Seminar in Integrated Social Science (3)
- ISS 504 Advanced Integrated Theories of Social Science (3)
- ISS 505 Multivariate Methodologies of Social Science (3)

Electives or Research (12 credit hours)

Other Requirement (3 credit hours)

- ISS 584 Internship (3)

Culminating Experience (3-6 credit hours)

- ISS 593 Applied Project (3) or
- ISS 599 Thesis (6)

Additional Curriculum Information

Students choose either the thesis or applied project option. The internship is only required for students in the applied project option and is a structured practical experience that follows a contract or plan that is supervised by faculty and practitioners.

For the elective and research coursework, students choose from a list of preapproved courses for a total of 12 credit hours. Students should contact the academic unit for a list of possible courses. Other courses may be used with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any social science or interdisciplinary field such as political science, sociology, philosophy, economics, psychology, public policy, administration or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Liberal Studies, MLSt (LAMLSMLS)

Online Degree Search Title: Liberal Studies, MLSt

Campus: Tempe, Online

Program Description:

The MLSt program offers students interested in a transdisciplinary approach to human ideas and values an opportunity to expand their liberal arts backgrounds. The program is intended for students seeking a graduate degree that explores the integration of the humanities with political, religious, social and scientific questions within their cultural contexts.

This interdisciplinary approach trains students in the skills needed for the jobs of the future: communication, research and an understanding of the diverse and changing world.

Degree Requirements:

30 credit hours including the required applied project course (MLS 593).

Required Core (9 credit hours)

MLS 501 Writing About Social Issues: Culture, Gender, Society, and Well-Being in the Southwest (3)

MLS 502 Religion, Culture, and Health: Where Cultures Intersect (3)

MLS 503 Ethics, Science, and Culture (3)

MLS 504 Film Analysis (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)

MLS 593 Applied Project (3)

Additional Curriculum Information

Students choose three of the four courses listed above to fulfill the nine credit hour core requirement.

Emphasis areas available are borders (migration, health and cultural identity); gender, religion and culture; and science, nature and creative nonfiction writing.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a letter of interest in the program
- a resume, biographical statement or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Liberal Studies (Film and Media Studies), MLSt (LAFMSMLS)

Online Degree Search Title: Liberal Studies (Film and Media Studies), MLSt

Campus: Tempe

Program Description:

The MLSt program with a concentration in film and media studies offers students interested in a transdisciplinary approach to international human ideas and values an opportunity to expand their liberal arts background through the study of film and media in society. The program is intended for students seeking a graduate degree that explores the integration of the humanities with political, religious, social and scientific questions within their cultural contexts.

Studies focus on the aesthetics and theory of international film and media.

Degree Requirements:

30 credit hours including the required applied project course (MLS 593).

Required Core (9 credit hours)

MLS 501 Writing About Social Issues: Culture, Gender, Society, and Well-Being in the Southwest (3)

MLS 502 Religion, Culture, and Health: Where Cultures Intersect (3)

MLS 503 Ethics, Science, and Culture (3)

MLS 504 Film Analysis (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)

MLS 593 Applied Project (3)

Additional Curriculum Information

Students choose three of the four courses listed above to fulfill the nine credit hour core requirement.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Narrative Studies, MA (LSNRSMA)

Online Degree Search Title: Narrative Studies, MA

Campus: Polytechnic

Program Description:

The MA in narrative studies is a comprehensive program that explores narrative and storytelling across a range of cultures and historical periods.

With an emphasis on teaching and research, the program includes coursework that encourages students to pursue transdisciplinary inquiry. The degree program primes graduates for critical and eloquent engagement with the world beyond the university.

Equally suited to prepare candidates for further academic studies or to advance the careers of area educators in the language arts, this program also prepares graduates to begin careers in one of the many professions that value creativity, critical thinking and highly skilled communication, including teaching, writing, online publishing and editing.

Degree Requirements:

30 credit hours including a capstone course (ENG 597).

Required Core (6 credit hours)

ENG 503 History of Narrative (3)

ENG 509 Studies in Narrative Writing (3)

Electives or Research (21 credit hours)

Culminating Experience (3 credit hours)

ENG 597 Graduate Capstone Seminar (3)

Additional Curriculum Information

Students choose six courses from a restricted list for a total of 21 credit hours. Students should see the academic unit for the approved course list. Other courses (ENG, COM, FMS, HST, or appropriate field) may be utilized for up to six credit hours with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or master's degree from a regionally accredited college or university in a related field such as English or any humanities discipline.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- written letter of intent that includes a detailed statement of purpose
- portfolio of at least three documents
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The portfolio must include at least three documents that demonstrate the applicant's ability to write in a variety of genres. Portfolio documents can include both academic and professional writing for a range of audiences and purposes. At least one of the documents must be a sample of academic writing. One of the three documents can be a sample of creative writing. The portfolio should be 15 to 30 total pages in length. The writing samples in the portfolio are evaluated using a rubric that considers several criteria, including intellectual focus, strength of argument and documentation, awareness of audience, organization, clarity, mechanical soundness and overall effectiveness.

The letters of recommendation should be either academic or professional and speak to the background and capabilities of the applicant.

Organizational Leadership, MS (LSORGLMS)

Online Degree Search Title: Organizational Leadership, MS

Campus: Polytechnic, Tempe, Online

Program Description:

The MS program in organizational leadership offers a theoretically and methodologically rigorous approach to studying and creating use-inspired research needed to impact organizational leadership.

Students explore areas such as organizational dynamics, institutional evolution, strategic change, leading diverse teams, collaborative governance, conflict mediation, critical problem-solving and leadership assessment, as well as learning advanced methodological and statistical skills.

The program places special emphasis on learning best practices and other applied aspects of leading organizations. Students tailor their degree to their interests through a vast array of leadership elective courses. In consultation with a faculty advisor, students choose from many different elective courses, such as not-for-profit leadership and intercultural leadership.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- English, BA
- History, BA
- Interdisciplinary Studies, BA
- Interdisciplinary Studies (Organizational Studies), BA
- Liberal Studies, BA
- Organizational Leadership, BA
- Organizational Leadership (Project Management), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic

departments to apply.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (OGL 593).

Required Core (9 credit hours)

OGL 520 Organizational Leadership: Social Psychological Perspectives (3)

OGL 530 Critical Perspectives in Leadership Theory (3)

OGL 540 Evidence-based Inquiry in Organizational Leadership (3)

Required Methods Courses (6 credit hours)

NLM 530 Program Evaluation and Information Management (3)

OGL 550 Leading Strategic Change (3)

OGL 570 Analyzing Organizations (3)

OGL 571 Advanced Leadership Assessment (3)

OGL 574 Qualitative Data Analysis in Leadership Research (3)

OGL 575 Quantitative Data Analysis in Leadership Research (3)

OGL 576 Advanced Multivariate Data Analysis (3)

OGL 577 Structural Equation Modeling in Organizational Leadership Research(3)

OGL 578 Agent-Based Modeling to Address Complexity in Leadership Research (3)

Restricted Electives (12 or 15 credit hours)

Culminating Experience (3 or 6 credit hours)

OGL 593 Applied Project (3)

OGL 599 Thesis (6)

Additional Curriculum Information

Students complete either an applied project or thesis for the culminating experience.

For the required methods coursework, students select two courses from the above list to fulfill the requirement.

Students select four or five courses from a restricted elective list depending on the culminating experience selected. Students should see the academic unit for the approved restricted elective list.

Other courses may be used for the methods and elective coursework with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any area or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent
- professional resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. This applicant is expected to have either a TOEFL score of 600 on the traditional paper-based test or 100 on the internet-based test, or the applicant must have a passing score in the English for Graduate Admission online course through ASU Global Launch.

GRE or GMAT scores are recommended but not required.

All applicants must submit a written letter of intent that includes a detailed statement of purpose addressing how the program goals coincide with the student's personal and professional objectives. The essay is evaluated on the basis of content, presentation and evidence of graduate-level

writing ability (the limit is 500 words, maximum).

The professional resume or curriculum vitae are limited to two pages in length.

Applicants must submit two letters of reference that focus on the ability of the applicant to do academic work.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu>)

Technical Communication, MS (LSTCCMMS)

Online Degree Search Title: Technical Communication, MS

Campus: Polytechnic, Online

Program Description:

The MS degree program in technical communication teaches students how to design, produce and manage print and digital texts using traditional and developing technologies.

The curriculum provides students with a comprehensive understanding of the professional, cultural and ethical issues that shape the field; it balances theory and practice to ensure students develop the analytical abilities, technology expertise and hands-on skills necessary for success as a technical communicator.

Students who complete the program are accomplished writers, editors, designers and researchers who are able to respond effectively to a range of audiences, issues and communication situations. The program prepares students for technical communication positions in the private, public and nonprofit sectors and offers professionals the opportunity to further advance their careers.

Degree Requirements:

36 credit hours including a thesis, or 36 credit hours including the required applied project course (TWC 593), or 36 credit hours including the required capstone course (TWC 596).

Required Core (6 credit hours)

TWC 504 Applied Rhetoric and Technical Communication (3)

TWC 505 Research in Technical and Applied Communication (3)

Restricted Electives (21 or 27 credit hours)

Other Requirement (0 or 3 credit hours)

TWC 506 Research Design and Development (3)

Culminating Experience (3 or 6 credit hours)

TWC 593 Applied Project (6) or

TWC 596 Technical Communication Capstone (3) or

TWC 599 Thesis (6)

Additional Curriculum Information

Students who do not have previous technical communication coursework or relevant industry experience must take TWC 501 Fundamentals of Technical Communication (3) as a restricted elective. For a full list of the approved electives courses, students should inquire at the academic unit offices.

Students complete an applied project, capstone course or thesis for the culminating experience. Students who choose the capstone complete an additional three credit hours of elective coursework for a total of 27 elective credit hours.

TWC 506 is a requirement for students completing an applied project or thesis only.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- portfolio
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Since this degree requires a high degree of proficiency in English, an applicant whose native language is not English is expected to have one the following TOEFL scores: 600 traditional paper-based, 100 internet-based, or 250 computer-based.

All applicants must submit a written letter of application that includes a detailed statement of purpose as well as a portfolio of at least three documents that demonstrate the applicant's ability to write in a variety of genres. Portfolio documents can include both academic and professional writing for a range of audiences and purposes and need not be in the area of technical communication. The portfolio should be 15 to 30 pages in length. The writing samples in the portfolio are evaluated using a rubric that considers several criteria, including a demonstration of the ability to focus on a specific purpose and to meet audience needs and show organization, clarity, mechanical soundness and overall effectiveness.

All applicants must submit three letters of reference, either academic or professional, that speak to the background and capabilities of the applicant.

Technical Communication (certificate), Certificate (LSTECGRCT)

Online Degree Search Title: Technical Communication (Graduate Certificate)

Campus: Polytechnic, Online

Program Description:

Through the technical communication program, students learn how to produce and communicate technical information using traditional and digital technologies.

Degree Requirements:

18 credit hours.

Core Requirement (9 credit hours)

TWC 501 Fundamentals of Technical Communication (3)

Choose two of the following courses:

TWC 511 Principles of Visual Communication (3)

TWC 521 Principles of Web Authoring (3)

TWC 531 Principles of Technical Editing (3)

Electives (9 credit hours)

Additional Curriculum Information

Students choose any 500-level TWC courses as their electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

User Experience, MS (ESUSEXMS)

Online Degree Search Title: User Experience, MS

Campus: Polytechnic

Program Description:

The MS program in user experience combines topics in web, human factors, visual displays and technical communication to make products, systems and services useful, usable and desirable.

Students learn how to research user needs, identify criteria for successful products and services, prototype those products and services, and refine them through usability testing and other user-centered evaluation methods. User experience skills are increasingly valued by industry yet are not typically covered in-depth in traditional engineering or technical communication programs.

Students enhance their employment potential with a master's degree in user experience.

Degree Requirements:

30 credit hours including capstone course GIT 560 or HSE 560 or TWC 560.

Required Core (21 credit hours)

GIT 540 Cross-Media Design Solutions (3)

GIT 542 Usability and User Experience (3)

HSE 521 Methods and Tools in Human Systems Engineering (3)

HSE 542 Foundations of Human Systems Engineering (3)

TWC 501 Fundamentals of Technical Communication (3)

TWC 514 Visualizing Data and Information (3)

TWC 544 User Experience (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)

GIT 560 Capstone in User Experience (3), or
HSE 560 Capstone in User Experience (3), or
TWC 560 Capstone in User Experience (3)

Additional Curriculum Information

Students should see the academic units for a complete list of approved electives and research courses. Other courses may be used with approval of the academic units.

Students choose one capstone course as the culminating experience for the program.

Admission Requirements:

Applicants must fulfill the requirements of the Graduate College, the Ira A. Fulton Schools of Engineering and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in related fields such as psychology, graphic information technology, graphic design, human systems engineering, business, cognitive science, design or technical communication, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- professional resume
- writing sample
- GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Graduate Admission Services website at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>). Global Launch at ASU offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency. <https://learnenglish.asu.edu/online/admission> (<https://learnenglish.asu.edu/online/admission>)

A GRE waiver may be requested if the applicant received a bachelor's degree in a related field from the United States with a cumulative GPA of 3.00 or better. Engineering programs must have a bachelor's degree from an ABET-accredited program. Applicants should email polygrad@asu.edu (<mailto:polygrad@asu.edu>) to request a waiver. They can also submit a GRE waiver request form (https://poly.engineering.asu.edu/wp-content/uploads/2019/05/GRE-Waiver-Request_04.2019.pdf) if they have five years of full-time applicable professional experience. An approved waiver does not guarantee admission.

Interdisciplinary Arts & Sciences, New College of

Biological Data Science, MS (ASBDSMS)

Online Degree Search Title: Biological Data Science, MS

Campus: West

Program Description:

The MS program in biological data science provides students with real-world training at the interface of the natural and mathematical sciences.

Students learn to manipulate big data, including the generation and analysis of data using statistical and computational toolsets. Students use their analytical skills in ecological, environmental, toxicological and other biological applications. The program incorporates multiple levels of experiential learning to ensure students gain critical thinking skills on top of core competencies.

Graduates are ready to enter one of the fastest-growing job markets, work with consulting firms and government agencies as well as nongovernmental organizations, or go on to seek advanced professional or graduate degrees.

Degree Requirements:

32 credit hours and a thesis, or 32 credit hours including the required applied project course (ACO 593, BIO 593, or MAT 593).

Required Core (12 credit hours)

ACO 501 Database Systems and Problem Solving in Python (3)

BIO 614 Biometry (4)

LSC 519 Applied Learning Lab (1)

LSC 547 Wet Laboratory Experience (1)

STP 560 Experimental Statistics in Biology (3)

Other Requirements (9 credit hours)

LSC 555 Integrative Biology I (3)

LSC 556 Integrative Biology II (3)

LSC 562 Applied Mathematics Techniques in Biology (3)

Electives or Research (5 credit hours)

Culminating Experience (6 credit hours)

ACO 593 Applied Project (6)

BIO 593 Applied Project (6)

MAT 593 Applied Project (6)

ACO 599 Thesis (6)

BIO 599 Thesis (6)

MAT 599 Thesis (6)

Additional Curriculum Information

Other requirement, elective and research coursework may be substituted with approval of the academic unit. Students should see the academic unit for the approved electives and research course list.

Students choose one culminating experience option based on their emphasis area in biological data science.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field such as biology, mathematics, statistics or computing, as well as unrelated fields, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- two letters of recommendation
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

It is preferred that letters of recommendation be from faculty members who know the applicant's work well; if these are not available, letters of recommendation from individuals in supervisory or professional roles will be accepted.

The statement of purpose should describe one's educational background, scholarly interests, and academic and professional goals.

Depending on student's educational background, deficiency courses may be required.

Communication Studies, MA (ASCOMSTMA)

Online Degree Search Title: Communication Studies, MA

Campus: West

Program Description:

The MA in communication studies is a cutting-edge degree program designed for students who wish to pursue a wide range of communication professions.

The program provides exposure to a variety of research methods, communication theories and practical applications, with a special emphasis on advocacy. Students use multiple perspectives to explore a variety of topics and issues in communication. These include how individuals and collectives participate effectively in personal relationships, organizational settings and public dialogues across cultural contexts and via social technologies. Students also attend to the impact and effects of media, mediated representations, and new technologies, while learning to use communication strategically to advocate for others.

Although advocacy is a defining theme in the curriculum, students can tailor the program to their personal goals, focusing on topics such as interpersonal, organizational, sport, environmental, global or technology-mediated communication.

Graduates are prepared to pursue doctoral work or careers in a variety of communication-driven fields such as public affairs, public relations, employee development, strategic communication, community relations and grassroots movements.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- American Studies, BA
- Applied Science, BAS
- Biology, BA
- Communication, BS
- Communication, BA
- Environmental Science, BA
- Ethnicity, Race and First Nations Studies, BA
- History, BA
- Interdisciplinary Arts and Performance, BA
- Interdisciplinary Arts and Sciences, BA
- Latin American Studies, BA
- Philosophy, Religion and Society, BA
- Political Science, BA
- Political Science, BS
- Psychology, BS
- Psychology, BA
- Social and Behavioral Sciences, BA
- Social and Behavioral Sciences, BS
- Sociology, BA
- Sociology, BS
- Women and Gender Studies, BS
- Women and Gender Studies, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

36 credit hours and a written comprehensive exam, or 36 credit hours including an applied project (CMN 593) and a written comprehensive exam, or 36 credit hours, a written comprehensive exam and a thesis.

Required Core (9 credit hours)

CMN 502 Theory and Practice in Communication and Persuasion (3) or CMN 522 Argumentation and Advocacy (3)

CMN 505 Methods in Applied Communication Research (3)

CMN 506 Humanistic Inquiry and Field Research in Communication (3)

Restricted Electives (6 credit hours)

Electives (up to 21 credit hours)

Culminating Experience Options (0-6 credit hours)

CMN 593 Applied Project, with written comprehensive exam (3)

CMN 599 Thesis, with written comprehensive exam (6)

written comprehensive examination (0 credit hours)

Additional Curriculum Information

Students should see the academic unit for an approved list of restricted electives.

Electives are selected in consultation with the student's program advisor and may include courses with either the CMN (communication) or STC (social technology) prefixes. When appropriate, students may take up to six credit hours outside the program.

The thesis or applied project must demonstrate intellectual ability, academic ability and professional growth. The thesis is supervised and approved by the student's advisor and committee. An oral defense is required for the thesis. The applied project is supervised by the student's advisor. The achievements or results of the applied project should be made available to the public in the form of a presentation, poster, report or other form negotiated with the faculty advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- an academic writing sample (preferred) or professional writing sample
- resume or curriculum vitae (optional)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well; if faculty members are not available, then the applicant may submit letters of recommendation from individuals in supervisory or professional roles.

English, MA (ASENGLMA)

Online Degree Search Title: English, MA

Campus: West

Program Description:

The MA in English offered by the New College of Interdisciplinary Arts and Sciences is a comprehensive program that addresses the many facets of English: its literatures; its linguistic, social and cultural histories; and its capacities for persuasion, exposition, and elucidation.

The program is grounded in scholarly tradition but designed for the demands of the 21st-century. Its innovative curriculum has been developed to train present and future educators as well as individuals pursuing careers in the wide variety of professions that value advanced critical thinking, research and communication skills, such as journalism and publishing to business communication, web content and social media management, educational and nonprofit consulting, public relations and many more.

World-class faculty help students enhance their skill sets and deepen their knowledge base, and program graduates are prepared to put the Master of Arts in English to work in their chosen professions.

Degree Requirements:

30 credit hours including the required capstone course (ENG 597).

Required Core (6 credit hours)

ENG 502 Contemporary Critical Theories (3) or MAS 505 Theories of Change, Culture and Mind (3)

ENG 582 Pedagogy (3)

Electives or Research (12 credit hours)

ENG 500 Research Methods (3)

ENG 591 Seminar (3)

ENG or LIN courses (6)

Open Elective or Research Courses (9 credit hours)

Culminating Experience (3 credit hours)

ENG 597 Graduate Capstone Seminar (3)

Additional Curriculum Information

For electives or research, students should see the academic unit for the approved course list from ENG and LIN courses through New College.

ENG 500 is a required research course for all students and must be included in the plan of study.

For the open elective or research courses, nine credit hours can be selected from ENG or non-ENG coursework offered by various academic units. The selection of coursework is in consultation with the student's committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program; or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- two letters of recommendation
- an academic writing sample or professional writing sample (optional)
- resume or curriculum vitae (optional)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well; if such faculty are not available, then recommendation letters from individuals in supervisory or professional roles are acceptable.

An academic writing sample (preferred) or a professional writing sample is recommended, but not required, when submitting an application.

Forensic Psychology, MS (ASFPSYMS)

Online Degree Search Title: Forensic Psychology, MS

Campus: Online

Program Description:

The MS program in forensic psychology provides working professionals with an understanding of mental health issues and human behavior with respect to crime and the criminal justice and legal systems.

The curriculum involves specialized coursework in criminal law, criminal behavior, the diagnosis and treatment of mental disorders, and legal decision-making. Through these courses, students learn about the various roles for psychologists in the legal system and help them discover which roles they might like to pursue through careers in mental health, criminal justice or through additional graduate training.

Graduates are not license-eligible for clinical practice but are well prepared to enter advanced degree and continuing education programs in counseling and related fields.

Degree Requirements:

33 credit hours including the required capstone course PSY 549.

Required Core (12 credit hours)

PSY 545 Advanced Legal Psychology (3)

PSY 546 Advanced Forensic Psychology (3)

PSY 547 Advanced Correctional Psychology (3)

PSY 573 Psychopathology (3)

Electives (6 credit hours)

Statistics and Methods (6 credit hours)

PSY 500 Research Methods (3)

PSY 515 Quantitative Analysis I (3)

Criminal Justice System Courses (6 credit hours)

CRJ 501 Seminar in Criminal Justice (3)

CRJ 513 Seminar in Courts and Sentencing (3)

Culminating Experience (3 credit hours)

PSY 549 Capstone in Forensic Psychology (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology, criminal justice, social science, or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must provide evidence of successful completion of an undergraduate or graduate social science statistics and research methods course.

GRE scores are recommended but not required for all applicants. Applicants whose GPA is below 3.30 in the last 60 credit hours of the bachelor's degree are strongly encouraged to provide GRE scores.

Forensic Science, PSM (ASFRSCIPSM)

Online Degree Search Title: Forensic Science, PSM

Campus: Online

Program Description:

The PSM program in forensic science readies students for career advancement by providing them with greater educational depth and breadth in the forensic sciences, and through the development of new competencies related to laboratory supervision. This includes an understanding of how to work with regulatory bodies that provide the framework for oversight in forensic laboratories, consistent with the guiding principles of the National Professional Science Masters Association.

Students develop deeper scientific inquiry skills in biology, chemistry, genetics and related topics, as well as critical laboratory leadership skillsets.

Successful graduates are armed with the tools and experiences required for administrative and other advancement opportunities both within and beyond the forensic science laboratory, in both governmental and private sectors.

Degree Requirements:

30 credit hours including the required applied project course (FOR 593).

Required Core (9 credit hours)

FOR 525 Forensic Science and Governance (3)

FOR 550 Ethics in Forensic Science (3)

FOR 565 Laboratory Leadership, Policy, and Practice (3)

Other Requirement (15 credit hours)

FOR 501 Forensic Toxicology (3) or FOR 532 Principles of Pharmacology (3)

FOR 502 Forensic Botany (3) or FOR 503 Forensic Entomology (3)

FOR 540 Advanced Topics in Human Forensic DNA Typing (3)

FOR 560 Quantitative Methods in Forensic Science Research (3), BMI 515 Applied Biostatistics in Medicine and Informatics (3) or HCD 501 Biostatistics and Data Management (3)

PSY 546 Advanced Forensic Psychology (3) or CRJ 537 Criminal Procedure of Investigations for Social and Forensic Scientists (3)

Culminating Experience (6 credit hours)

FOR 593 Applied Project (6)

Additional Curriculum Information

Other requirement courses may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in an appropriate physical, biological, computer science or a related field from a regionally-accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should demonstrate that the applicant is currently working in the Forensic Science industry. It should also describe the educational background, scholarly interests, and academic and professional goals. Specifically, the applicant should address their qualifications for pursuing a professional science master's degree.

It is preferred that the letters of recommendation be from individuals in supervisory or professional roles.

Interdisciplinary Studies, MA (ASINTERMA)

Online Degree Search Title: Interdisciplinary Studies, MA

Campus: West

Program Description:

The MA in interdisciplinary studies offered by the New College of Interdisciplinary Arts and Sciences is an innovative program that allows students to combine the study of two or more disciplines.

Founded on the conviction that solving problems in the 21st century often requires an interdisciplinary approach, this flexible program provides exposure to a variety of research methods, historical perspectives and modes of inquiry.

The program offers access to faculty members who are active practitioners of interdisciplinary inquiry. Working with the faculty, students may define their own area of emphasis or adopt an existing area within the humanities and social sciences.

The skills and knowledge that students acquire can be directed toward doctoral study or professional goals in any enterprise that engages in research or education, ranging from advertising and marketing, nonprofit leadership and media production to museum curatorship, community college teaching and leading-edge entrepreneurship.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- American Studies, BA
- Applied Science, BAS

Communication, BA
Communication, BS
English, BA
Ethnicity, Race and First Nations Studies, BA
History, BA
Interdisciplinary Arts and Performance, BA
Interdisciplinary Arts and Sciences, BA
Philosophy, Religion and Society, BA
Political Science, BA
Political Science, BS
Psychology, BA
Psychology, BS
Social and Behavioral Sciences, BS
Social and Behavioral Sciences, BA
Sociology, BA
Sociology, BS
Women and Gender Studies, BS
Women and Gender Studies, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (MAS 585).

Required Core (9 credit hours)

MAS 501 Methods for Interdisciplinary Inquiry (3)

MAS 502 Perspectives in Interdisciplinary Studies (3)

MAS 505 Theories of Change, Culture, and Mind (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)

MAS 585 Capstone Course (3)

Additional Curriculum Information

The core courses are designed as a sequence and are meant to guide students through the program, from learning about interdisciplinarity to practicing interdisciplinary research. Therefore, students are required to take each of the core courses the first time that they are available while the student is enrolled in the program.

For electives, students work with a faculty mentor to select 18 credit hours of graduate-level coursework that helps prepare them for their capstone or reflects particular areas of specialty or interest.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- two letters of recommendation
- an academic writing sample (preferred) or professional writing sample
- resume or curriculum vitae (optional)
- GRE scores (if applicable)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well, but if faculty are not available, then from individuals in supervisory or professional roles.

If the applicant does not meet the minimum GPA requirements, the application may be considered if accompanied by an official GRE score.

Law and Psychology, PHD (ASLPSYPHD)

Online Degree Search Title: Law and Psychology, PhD

Campus: Downtown Phoenix, West

Program Description:

The PhD program in law and psychology is designed to train a new generation of scholars in the field by taking a broad interdisciplinary approach that combines rigorous training in the law and psychology field with training in advanced research methodology and statistics, criminological theory, and contextual training in other subfields of psychology. The goal of the program is for students to use this knowledge to tackle the many important but understudied areas where the legal system is in desperate need of empirical psychological research.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (18 credit hours)

PSY 515 Quantitative Analysis I (3)

PSY 516 Quantitative Analysis II (3)

PSY 517 Quantitative Analysis III (3)

PSY 545 Advanced Legal Psychology (3)

PSY 546 Advanced Forensic Psychology (3)

PSY 550 Advanced Social Psychology (3)

Electives (39 credit hours)**Required Research (15 credit hours)**

PSY 500 Research Methods (3)

PSY 792 Research (12)

Culminating Experience (12 credit hours)

PSY 799 Dissertation (12)

Additional Curriculum Information

Students are required to take 15 credit hours of research coursework and 39 credit hours of elective coursework.

When approved by the student's supervisory committee and Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework will be made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology, criminal justice, social science, or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- letters of recommendation
- proof of English proficiency

Psychology, MS (ASPGSMS)

Online Degree Search Title: Psychology, MS

Campus: West, Online

Fall B 2020 session is for the ASU/CINTANA China program.

Program Description:

The MS program in psychology offered by the New College of Interdisciplinary Arts and Sciences has two main options.

One option is an intensive, research-oriented program culminating in a thesis or applied project. Students receive training in advanced research methodology and statistical analysis, grant proposal writing, laboratory instrumentation, data collection and manuscript development. Students gain first-hand exposure to designing and conducting research, analyzing data and developing presentations and manuscripts. Students are encouraged to present research reports at professional meetings and conferences and to publish as co-authors in faculty-guided research. This option is ideal for students who plan to pursue doctoral work or careers that involve psychological research methods such as marketing research, education research analysis, public policy analysis, research project management or program evaluation.

The program option offered online is designed to give students and working professionals an understanding of psychological theory and empirical research findings as they relate to human behavior, cognition, emotion and attitudes. The coursework is designed to help students learn about the various roles of psychologists in society today and discover which they might like to pursue through careers in education, social service, for-profit and nonprofit organizations, or management, or through additional graduate training.

Elective courses in all options are offered in several areas, including abnormal psychology, affective science, behavior analysis, cognitive psychology, developmental psychology, health psychology, legal psychology, psychophysiology and social psychology.

Degree Requirements:

36 credit hours and a thesis, or 36 credit hours including the required applied project course (PSY 593), or 36 credit hours including the required capstone course (PSY 553).

Required Core (6 credit hours)

PSY 502 Professional Issues in Psychology (3)

PSY 515 Quantitative Analysis I (3)

IN-PERSON DELIVERY OPTIONS:

Research (9 credit hours)

PSY 500 Research Methods (3)

PSY 592 Research (6)

THESIS OPTION:

Other Requirement (6 credit hours)

PSY 516 Quantitative Analysis II (3)

PSY 517 Quantitative Analysis III (3)

Electives (9 credit hours)

Culminating Experience (6 credit hours)
PSY 599 Thesis (6)

APPLIED PROJECT OPTION:

Other Requirement (3 credit hours)
PSY 516 Quantitative Analysis II (3)

Electives (12 credit hours)

Culminating Experience (6 credit hours)
PSY 593 Applied Project (6)

ONLINE DELIVERY OPTION:

Research (3 credit hours)
PSY 500 Research Methods (3)

Electives (24 credit hours)

Culminating Experience (3 credit hours)
PSY 553 Capstone in General Psychology (3)

Additional Curriculum Information

Students choose one of three program options culminating in a thesis, applied project or capstone course. The capstone course option is only for students in the online program. Thesis and applied project options are for in-person program students.

Students completing a thesis or applied project must complete PSY 516 Quantitative Analysis II. In addition, thesis students take PSY 517 Quantitative Analysis III and only nine credit hours of electives.

Students completing the capstone course (PSY 553) must take 24 credit hours of elective coursework and will not complete PSY 516 Quantitative Analysis II nor any PSY 592 coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program. Priority is given to applicants who have achieved a 3.25 GPA or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- GRE scores (combined minimum verbal and quantitative score of 300)
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

At the time of application, students must identify the culminating experience that they wish to pursue. Students applying to the capstone course option are only considered for the online program. Students applying to the thesis or applied project option are only considered for the in-person program.

Applicants must provide evidence of successful completion of an undergraduate, or graduate, social science statistics and research methods course.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that the letters of recommendation are from faculty members who know the applicant's work well; if these are not available, then recommendations should be from individuals in supervisory or professional roles. Three letters of recommendation are required for applications to the in-person option and two letters of recommendation are required for applicants to the online option.

Applicants for the applied project or thesis program option (offered face to face) are required to submit a GRE score. Priority is given to applicants who have achieved a 305 or higher on the GRE.

For students applying to the capstone course option offered in the online delivery of the program, submission of GRE scores are recommended but not required.

Social Justice and Human Rights, MA (ASJHRMA)

Online Degree Search Title: Social Justice and Human Rights, MA

Campus: West, Online

Program Description:

The MA program in social justice and human rights addresses urgent social issues related to human security, labor, migration, children, family, education and the environment.

The coursework in this theoretically and methodologically rigorous program examines social issues in contexts defined by multiple and intersecting forms of social identity and disadvantage, including gender, race, ethnicity, class, sexuality and nationality.

The program requires an internship, to be completed domestically or internationally, in which students typically work alongside other advocates for social justice to help refugees, migrants, workers and survivors of violence or human trafficking.

Students may select from three degree tracks: research, advocacy, or critical trauma studies and social work. The research track prepares students for positions as researchers, analysts and advocates in governmental, intergovernmental and nongovernmental agencies. The advocacy track prepares students to be leaders in nonprofit, social movement, governmental and intergovernmental organizations. The critical trauma studies and social work track prepares students to assist vulnerable people, especially survivors of extreme violence, poverty, war, sex trafficking, human trafficking, gender-based violence and various forms of marginalization.

Graduates are also prepared to enter doctoral programs.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- American Studies, BA
- Applied Science, BAS
- Biology, BA
- Communication, BS
- Communication, BA
- English, BA
- Environmental Science, BA
- Ethnicity, Race and First Nations Studies, BA

Social and Behavioral Sciences, BS
Social and Cultural Analysis (American Studies), BA
Social and Cultural Analysis (Ethnicity, Race and Indigenous Studies), BA
Social and Cultural Analysis (Latin American Studies), BA
Social and Cultural Analysis (Peace Studies), BA
Social and Cultural Analysis (Queer and Sexuality Studies), BA
Social and Cultural Analysis (Women and Gender Studies), BA
Sociology, BS
Sociology, BA
Women and Gender Studies, BA
Women and Gender Studies, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required applied project course (JHR 593), or 33 credit hours including the required capstone course (JHR 549).

Required Core (12 credit hours)

JHR 501 Proseminar in Social Justice and Human Rights (3)
JHR 506 Grant Writing and Development for Social Justice and Human Rights (3)
JHR 510 Problem-Based Seminar in Social Justice and Human Rights (3)
JHR 525 Action Research in Social Justice and Human Rights (3)

Electives (3-6 credit hours)

Research (3 credit hours)

JHR 500 Research (3)

Other Requirements (9 credit hours)

JHR 584 Internship (3) and
track coursework (6)

or

JHR 598 Topic: Migration, Asylum, and Refugees (3)
JHR 598 Topic: Gender-based Violence and Sex-Trafficking (3)
JHR 598 International Law and Organizations (3)

Culminating Experience (3-6 credit hours)

JHR 549 Capstone in Social Justice and Human Rights (3) or
JHR 593 Applied Project (3) or
JHR 599 Thesis (6)

Additional Curriculum Information

For other requirements coursework, ground immersion students will complete an internship and track coursework. Online students will take JHR 598 in the listed topics. When approved by the academic unit, other requirements courses may be substituted.

Students attending in-person choose one of three tracks in social justice and human rights research, social justice and human rights advocacy, and critical trauma studies and social work and select courses for the track and electives requirements in consultation with faculty.

Students completing an applied project or capstone for the culminating experience complete six credit hours of electives to meet the program's 33 credit hour requirement.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate application application and application fee
- official transcripts
- statement of purpose
- two letters of recommendation
- an academic writing sample (preferred) or professional writing sample
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that letters of recommendation be from faculty members who know the applicant's work well; if these are not available, letters of recommendation from individuals in supervisory or professional roles will be accepted. If letters of recommendation from two faculty members are not available, then it is strongly preferred that at least one letter be from a faculty member.

A writing sample is recommended but not required for students applying to the digital immersion program. If the applicant does not meet the minimum GPA requirements, the application may still be considered.

Applicants should see the program website for application deadlines.

Social Technologies, MA (ASSTCMA)

Online Degree Search Title: Social Technologies, MA

Campus: West, Online

Program Description:

The MA in social technologies is for those interested in the ways new kinds of social data introduce challenges and opportunities to society.

The program combines a thorough grounding in digital social science with the skills needed to engage in the analysis of social data. This unique combination provides graduates with the ability to understand and contribute to creating ethical social platforms. They are also well positioned to advise institutions, businesses and government agencies on appropriate policies, and to draw on large-scale trace data to help address significant social issues.

The rapid shift toward algorithmic structures of social interaction represents one of the most significant challenges to society, and questions of equity, privacy and autonomy have become a recurring theme running through many modern social problems. These technologies also may provide the keys for addressing substantial social issues. To critically analyze these socio-technical systems requires both technical abilities and an understanding of social theory.

ASU offers an MA in social technologies for those interested in engaging research at the intersection of data and society. It prepares graduates to be leaders in social data science, working with organizations to help them make ethical and effective use of social data, consulting on broader issues of social change and networked technologies, or continuing on to doctoral work in cognate fields.

Students in the program work through a series of courses that provide a grounding in social theory and digital research methods, as well as opportunities to apply that knowledge to social issues.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Biology, BA

Environmental Science, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours including the required applied project (STC 593).

Required Core (27 credit hours)

STC 501 Theories of Data and Society (3)

STC 510 Data Wrangling (3)

STC 512 Data, Places, People and Things (3)

STC 527 Ethics and Policies of Social Data (3)

STC 536 Networked Publics (3)

STC 537 Technologies of Community (3)

STC 539 Social Search and Filtering (3)

STC 550 Computational Social Methods I (3)

STC 551 Computational Social Methods II (3)

Other Requirements (0 or 3 credit hours)

STC 528 Communicating Data Science (3)

Culminating Experience (3 or 6 credit hours)

STC 570 Social Data Projects (3) or

STC 599 Thesis (6)

Additional Curriculum Information

Students complete either a three credit hour capstone course (STC 570 Social Data Projects) or a six credit hour thesis (STC 599). Students who choose to complete the capstone course also complete STC 528.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- two letters of recommendation
- an academic writing sample (preferred) or professional writing sample
- GRE scores (optional)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose should describe the educational background, scholarly interests, and academic and professional goals of the applicant.

It is preferred that the letters of recommendation be from faculty members who know the applicant's work well; if these are not available, then letters of recommendation from individuals in supervisory or professional roles will be accepted.

GRE scores are recommended, but not required for all applicants. Applicants with below a 3.00 GPA in the last 60 credit hours of the bachelor's degree are strongly encouraged to provide GRE scores.

Journalism & Mass Communication, Walter Cronkite School of

Business Journalism, MS (CSBSJMS)

Online Degree Search Title: Business Journalism, MS

Campus: Online

Program Description:

The MS degree program in business journalism includes journalism and business coursework offered by the Walter Cronkite School of Journalism and Mass Communication and the W. P. Carey School of Business. The program is designed to give journalists around the world a competitive edge in the globally expanding job market in business reporting and related fields. The program may be completed in as few as one and a half years.

Degree Requirements:

30 credit hours including the required applied project (MCO 593).

Required Core (27 credit hours)

ACC 501 Basics of Financial Performance Reporting and Analysis (1.5)

ACC 504 Basics of Internal Measures of Success: Managerial Accounting (1.5)

ECN 504 Basics of Decisions, Market Structure and Games: Managerial Economics (3)

MCO 503 Media Law (3)

MCO 550 Issues in Coverage of Business and the Economy (3)

MCO 551 Better Business Reporting (3)

MCO 552 Data in Business Journalism (3)

MCO 556 Media Entrepreneurship (3)

MGT 501 Basics of Leading People, Teams and Organizations: Organization Theory (3)

WPC 504 Basics of Understanding Facts: Statistics for Managers (3)

Culminating Experience (3 credit hours)

MCO 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in journalism, mass communication, public relations, business or a closely related field from a regionally accredited institution, and have some professional communications experience.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. A TOEFL score of at

least 100 on the internet-based test is required. Applicants can have these scores automatically submitted to ASU and the Cronkite School by using institution code 4007.

Digital Audience Strategy, MS (CSDASMS)

Online Degree Search Title: Digital Audience Strategy, MS

Campus: Online

Admission to this program is limited to students who do not have an undergraduate degree or minor in digital audiences.

Program Description:

The MS in digital audience strategy prepares students to design and execute large-scale strategies for connecting digital audiences through a data-driven, multidisciplinary, hands-on curriculum.

Students learn to measure and analyze how consumers interact with content online, on social media and on mobile devices. Using those measurement skills, students develop strategies and tactics to grow audiences through search engine optimization, search engine marketing, paid and organic social media campaigns, and digital content creation. They work with real-world clients to develop, test and execute audience growth strategies in real time.

Through required coursework in ethics, media law and entrepreneurship, students learn to make ethical business decisions regarding consumer privacy, digital data security and community engagement. Through elective courses, students develop additional expertise in areas such as management, audience data and intellectual property.

Students graduate from the program ready to drive audience growth and business development in the digital age.

Degree Requirements:

30 credit hours including the capstone course MCO 566.

Required Core (21 credit hours)

MCO 503 Media Law (3)

MCO 556 Media Entrepreneurship (3)

MCO 561 Defining the Digital Audience (3)

MCO 562 Search Engine Strategy for Digital Audience Acquisition (3)

MCO 563 Social Media Campaigns and Engagement (3)

MCO 564 Digital Audience Research and Behavior (3)

MCO 565 Digital Audience Analytics (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)

MCO 566 Digital Audience Management (3)

Additional Curriculum Information

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in journalism, communications, public relations or

a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement of intent
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. TOEFL scores must be at least 100 for the internet-based TOEFL iBT.

In 300 to 500 words, the personal statement of intent should describe the applicant's interest in the Master of Science program in digital audience strategy, explain how previous academic or professional experience will inform the applicant's work in the program and how the program will help achieve personal or career goals of the applicant.

Investigative Journalism, MA (CSINVJOURMA)

Online Degree Search Title: Investigative Journalism, MA

Campus: Downtown Phoenix

Program Description:

The MA in investigative journalism prepares students to launch high-level investigative reporting careers at the nation's most prestigious news organizations.

This interdisciplinary program is designed for career switchers, those with experience in fields such as law, health, business, government and the arts, and for early-career to mid-career journalists who want to develop specialization in investigative techniques.

Students combine their existing knowledge with investigative techniques and multimedia skills to produce storytelling with deep public impact.

Degree Requirements:

36 credit hours including the required capstone course (MCO 570).

Required Core (21 credit hours)

MCO 502 Journalism Skills (8)

MCO 503 Media Law (3)

MCO 510 Data Journalism (3)

MCO 530 History, Philosophy and Ethics of Journalism (3)

MCO 544 Accountability in Journalism (1)

MCO 545 Techniques of Investigative Reporting (3)

Research (6 credit hours)

Culminating Experience (9 credit hours)

MCO 570 Capstone Experience (9)

Additional Curriculum Information

Students must take six credit hours of research methods courses. Selection of these courses will require departmental approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any discipline or related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- GRE scores
- professional resume
- letter of intent
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants must receive a score of 100 (iBT) or better on the TOEFL.

Applicants should provide a 300- to 500-word statement describing interest in investigative journalism, career goals and how previous work and academic experience have prepared the student for success.

Journalism and Mass Communication, PHD (CSJMCPHD)

Online Degree Search Title: Journalism and Mass Communication, PhD

Campus: Downtown Phoenix

Program Description:

The PhD program at the Walter Cronkite School of Journalism and Mass Communication is a highly individualized program designed for industry thought leaders and the educators of tomorrow. The doctorate in journalism and mass communication attracts seasoned media professionals transitioning to academia as well as recent graduates of master's degree-level journalism and communication programs.

At the journalism school, students access resources needed to answer critical questions that challenge the fields of journalism, social media, public relations and international mass communication.

Students engage with world-class faculty who challenge them to think differently about all forms of nonfiction storytelling across every platform marketed to digital audiences.

Students develop lasting relationships with a doctoral cohort and faculty mentors from across North America and the world, researching together to create ethical, entrepreneurial and innovative pathways for the media industry to follow.

This doctoral program in journalism and mass communication is designed to be small, student-centered and scholarly research-oriented. It is based on the following priorities: a journalism and mass communication focus, a transdisciplinary approach that requires coursework outside of the journalism school, one-on-one faculty-student mentoring and program flexibility.

The emphasis of this degree program is the creation of scholarly, peer-reviewed articles and presentations based on journalism and mass communication philosophy, theory and methods. The program prepares students for research-oriented careers in journalism and mass communication education and related fields.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (18 credit hours)

Electives (18 credit hours)

Other Requirements (24 credit hours)

previous master's degree or additional hours approved by the supervisory committee (24)

Research (12 credit hours)

Dissertation (12 credit hours)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

Students entering the program with a master's degree in journalism or mass communication, or a related field, must complete 60 credit hours of coursework. Students who are admitted to the program without a master's degree are required to complete an additional 24 credit hours of coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- three letters of recommendation
- personal statement of interest
- resume
- samples of scholarly work
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. TOEFL scores must be at least 600 for the paper-based examination and 100 for the Internet-based.

Scores on the quantitative and verbal sections of the GRE are required, with the verbal score being particularly important to the Cronkite School's graduate committee.

The personal statement of interest should be 350 to 500 words in length.

Students should see the program website for application deadlines and admission terms. Applicants must meet all deadlines and application requirements to be considered.

The Cronkite School's doctoral committee reviews complete and on-time applications. Recommendations for admission are made to Graduate Admission Services, where the final admission decisions are made.

Mass Communication, MMC (CSMCOMMMC)

Online Degree Search Title: Master of Mass Communication, MMC

Campus: Downtown Phoenix

Program Description:

The Walter Cronkite School of Journalism and Mass Communication's 12-month MMC degree program uses the teaching hospital model to immerse students in the practice of journalism and prepare them for careers in today's rapidly evolving media industry.

This 36 credit hour program begins with a multimedia boot camp in which students learn to report and produce content for digital and broadcast platforms. Students learn how to navigate a rapidly evolving media environment through classes and a symposium specifically focused on the future of journalism. The program culminates in a professional immersion experience in one of the Cronkite School's news bureaus in Los Angeles, Phoenix or Washington, D.C. Working under the guidance of award-winning journalists, these capstone programs offer real-world experience in a professional news environment.

The Cronkite School is housed in a world-class facility in the heart of downtown Phoenix, the nation's fifth largest city and 11th largest media market. The school is also home to Arizona PBS. Student journalists can walk to the state's largest newspaper, to the NBC and Fox television affiliates and to major events at city hall, government agencies and sporting and cultural venues.

The cornerstone of the graduate program is the journalism school's professional programs:

Cronkite News Phoenix --- Students produce a daily newscast on Arizona PBS, reaching 1.9 million households, and digital content for cronkitenews.azpbs.org (<https://cronkitenews.azpbs.org/>), Cronkite News social platforms and partner sites across Arizona. <https://cronkite.asu.edu/content/masters-degree-journalism> (<https://cronkite.asu.edu/content/masters-degree-journalism>)

Cronkite News Washington --- Students cover Congress, the White House and the U.S. Supreme Court for Cronkite News and partner newsrooms. <https://cronkite.asu.edu/real-world-experiences/professional-programs/cronkite-news-washington> (<https://cronkite.asu.edu/real-world-experiences/professional-programs/cronkite-news-washington>)

Cronkite News Los Angeles --- Students report for Cronkite News and partner with newsrooms from the second-largest media market in the country. <https://cronkite.asu.edu/real-world-experiences/professional-programs/cronkite-news-la> (<https://cronkite.asu.edu/real-world-experiences/professional-programs/cronkite-news-la>)

Cronkite Noticias --- Students produce Spanish-language news for digital and broadcast platforms in collaboration with Univision Arizona. <https://cronkite.asu.edu/real-world-experiences/professional-programs/cronkite-noticias> (<https://cronkite.asu.edu/real-world-experiences/professional-programs/cronkite-noticias>)

TV Science Magazine --- Students produce long-form video storytelling about scientific research and breakthroughs for broadcast on Arizona PBS. <https://cronkite.asu.edu/real-world-experiences/professional-programs/tv-science-magazine> (<https://cronkite.asu.edu/real-world-experiences/professional-programs/tv-science-magazine>)

Carnegie-Knight News21 --- Students produce major national investigations in partnership with newsrooms such as The Washington Post and NBCNews.com. <https://cronkite.asu.edu/real-world-experiences/professional-programs/carnegie-knight-news-21> (<https://cronkite.asu.edu/real-world-experiences/professional-programs/carnegie-knight-news-21>)

New Media Innovation and Entrepreneurship Lab --- Journalism, engineering, design and business students work together to create cutting-edge digital products and launch new businesses. <https://cronkite.asu.edu/real-world-experiences/professional-programs/new-media-innovation-entrepreneurship-lab> (<https://cronkite.asu.edu/real-world-experiences/professional-programs/new-media-innovation-entrepreneurship-lab>)

Public Relations Lab --- Students work in a strategic communications agency environment to develop campaigns for clients ranging from Fortune 500 companies to startups. <https://cronkite.asu.edu/real-world-experiences/professional-programs/public-relations-lab> (<https://cronkite.asu.edu/real-world-experiences/professional-programs/public-relations-lab>)

Digital Audiences Lab -- Students work in a first-of-its-kind professional immersion program working with real clients to grow, engage and measure their audiences in real time. <https://cronkite.asu.edu/real-world-experiences/professional-programs/digital-audiences-lab> (<https://cronkite.asu.edu/real-world-experiences/professional-programs/digital-audiences-lab>)

This program is also offered as a dual MD/MMC degree with the Mayo Clinic. For more information, students should visit <https://mayo.asu.edu/dualdegrees#MMC> (<https://mayo.asu.edu/dualdegrees#MMC>).

Concurrent Degrees:

This degree is also offered as concurrent degree program with:

- Legal Studies, MLS
- Sustainability Solutions, MSUS

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and

master's degree with:

Journalism and Mass Communication, BA

Sports Journalism, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (MCO 570), or 36 credit hours including the required capstone course (MCO 570).

Required Core (12 credit hours)

MCO 503 Media Law (3)

MCO 510 Data Journalism (3) or MCO 536 Public Relations Research (3)

MCO 525 21st-Century Media Organization and Entrepreneurship (3)

Sports Journalism, MA (CSSPJMA)

Online Degree Search Title: Sports Journalism, MA

Campus: Downtown Phoenix

Program Description:

Sports journalism is the fastest-growing sector of the news media industry, with continued growth on all platforms: specialty magazines, multimedia outlets, teams, leagues, broadcast channels and networks.

The Walter Cronkite School of Journalism and Mass Communication's MA program in sports journalism is a 36-credit hour, three-semester program providing students with unparalleled preparation for careers in sports media and communications.

Students begin with an intensive multimedia skills-based course, which teaches them to produce sports and news coverage across broadcast, digital and print platforms. From there, students choose advanced classes in sports reporting, videography, podcast production, play-by-play production, narrative writing, documentary video and participate in sports bureaus located in Phoenix and Los Angeles. Students learn the values and principles embodied by Walter Cronkite in classes that focus on sports journalism ethics and the challenges faced by the industry.

Law, Sandra Day O'Connor College of

Biotechnology and Genomics, LL.M. (LWGENOMLLM)

Online Degree Search Title: Biotechnology and Genomics, LLM

Campus: Downtown Phoenix

Program Description:

The LLM in biotechnology and genomics is offered through the Sandra Day O'Connor College of Law's Center for Law, Science and Innovation, the nation's oldest, largest and most comprehensive research center focusing on the intersection of law and science. Through classroom instruction and guided independent study, Master of Laws candidates examine the legal issues surrounding genetic applications such as:

- cloning
- forensic evidence
- gene testing
- gene therapy
- genetically modified organisms
- stem cells and behavioral genetics

The issues relate to:

- business planning
- confidentiality
- evidentiary standards
- intellectual property
- international trade
- liability
- licensing
- privacy
- regulation

Students in the Master of Laws program in biotechnology and genomics explore and examine the law that enables and constrains the development, control and application of biotechnology and genomics. Relevant legal fields include:

- agricultural law and policy
- health law, particularly public health law
- intellectual property

Forensic science and ethical constraints upon the various contemplated uses are also important elements of the program. Because the legal,

ethical and policy aspects of genomics and biotechnology are of global significance, this program is also beneficial for non-U.S. lawyers. Candidates for a Master of Laws degree must have received their JD or comparable terminal law degree from another country.

Degree Requirements:

The program is designed to be completed in nine months on a full-time basis but also may be pursued on a part-time basis. A degree candidate must complete 24 credit hours of coursework to obtain the Master of Laws degree in biotechnology and genomics. A candidate may elect to write a graduate thesis for either three or six credit hours or can elect not to write a thesis and fulfill the equivalent credits with other coursework. Two required courses are: genetics and the law, and biotechnology: science, law and policy.

The remaining credit hours generally are obtained from the list of elective courses. With faculty advisor approval, a candidate may satisfy up to six credit hours with courses offered by other ASU departments or by law courses that are not included on the approved elective list.

Admission Requirements:

Applicants should see the program website for application deadlines.

Admission to the program is competitive. In order to be admitted, an applicant must have completed a Juris Doctor degree program or a law degree program at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country and have submitted a complete application to the program. Selection is based on:

- academic background and potential
- career experience and ambitions
- diversity of experience and background
- space and resource limitations in the law school
- strength of experience related to the program sought and other factors

For an application to be considered complete, it must include the following:

- completed Law School Admissions Council electronic application form, available at <https://law.asu.edu/admissions/apply/llm> (<https://law.asu.edu/admissions/apply/llm>)
- completed LLM Credential Assembly Service report: <https://www.lsac.org/llm/application-process/checklist-for-the-llm-application-process> (<https://www.lsac.org/llm/application-process/checklist-for-the-llm-application-process>)
- required application fee
- resume that does not exceed three typed pages
- personal statement that does not exceed 1,250 words (double-spaced typed pages)
- transcripts from all institutions attended, including the transcript showing that the bachelor's degree and law degree were conferred
- two letters of recommendation
- writing sample

Additional Application Information

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and will be provided to the ASU College of Law by LSAC.

Applicants with degrees from foreign institutions must meet ASU Graduate College and College of Law English proficiency requirements.

Health Law and Policy (Certificate), Certificate (LWHLPGRCT)

Online Degree Search Title: Health Law Policy (Graduate Certificate)

Campus:

Program Description:

The health law and policy graduate certificate at ASU's Sandra Day O'Connor College of Law is a pivotal component to launching a health law and policy career. The certificate program is designed to immerse students in multiple areas of health law and policy, broadening their knowledge and skills in preparation for applied practice in public and private sectors, policy development or academic work.

Degree Requirements:

Required Core (5 credit hours)

LAW 650 Health Law (3)

LAW 651 Public Health Law (2)

Electives (10 credit hours)

Culminating Experience

writing requirement and active participation in health law

Additional Curriculum Information

Students are required to participate in at least one of the following activities; other activities consistent with this listing also may be considered by the program or certificate director or designee:

- active participation as an officer for at least one year in the student Health Law Society
- editorial board position for at least one year with JURIMETRICS
- health or public health law-based externships, upon approval from program director or designee, for at least one semester or summer session
- research assistant for at least one semester or summer session with the Public Health Law and Policy Program or other centers or programs at ASU Law, provided research is focused predominantly on health-related topics

The student must write a substantial paper on a health or public health law topic of at least 15 single-spaced pages and under guidance of a College of Law faculty member. Papers satisfying the college's Graduation Writing Requirement or Flexible Writing Requirement or law journal requirements can fulfill this certificate requirement, including as part of seminar courses among the elective courses.

Each student must earn a cumulative average grade of at least 3.00 (scale is 4.00 = "A") for courses taken to satisfy the substantive requirements of the health law and policy certificate. A student also must earn a minimum grade of a "B-" for any course applied toward the certificate.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must be existing JD or LLM students who are currently enrolled in coursework and in good academic standing with the ASU College of Law.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- admission application for the certificate program through Law Interactive. Students should refer to the College of Law website.
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Further specific requirements for admission to the certificate program can be found on the Sandra Day O'Connor College of Law website.

Indian Law (certificate), Certificate (LWLAWGRCI)

Online Degree Search Title: Indian Law (Graduate Certificate)

Campus:

Program Description:

The Indian law certificate program is designed for students who plan to practice Indian law, particularly students who may be representing tribal communities directly after graduation.

To be eligible to pursue the Indian law certificate, a student must be enrolled in the JD degree program at the Sandra Day O'Connor College of Law and be in good standing. Transfer applicants may be admitted to the certificate program if they otherwise meet the admission standards of the Sandra Day O'Connor College of Law.

The certificate requires substantive coursework, a minimum grade requirement, practice experience in Indian law and the College of Law graduation writing requirement written on an Indian law topic.

Degree Requirements:

The certificate requires a minimum of 21 hours of substantive work in Indian law and related fields. The following courses are required:

LAW 632 Federal Indian Law I

LAW 704 Federal Indian Law II

LAW 776 Indian Legal Clinic

two advanced Indian law courses approved by the faculty director of the Indian law program

The remaining credits are elective courses approved by the faculty director. Students must complete a substantial paper on an Indian law topic approved by the faculty director. Students must receive a grade of "C" (scale is 4.00 = "A") or above or a "Pass" in each course used to fulfill the Indian law certificate requirements.

More specific requirements for completion of the Indian law certificate can be found on the Sandra Day O'Connor College of Law website.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Students wishing to pursue the Indian law certificate must be enrolled in the Juris Doctor degree program at the Sandra Day O'Connor College of Law and must be in good standing. Specific requirements for the Indian law certificate program can be found at the college's website.

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Juris Doctor of Law, JD (LWJDJD)

Online Degree Search Title: Juris Doctor, JD

Campus: Downtown Phoenix

Program Description:

The JD program at the Sandra Day O'Connor College of Law (ASU Law) offers a large selection of courses with options for transdisciplinary study with other departments on campus. Students will find the opportunity to take classes with a more traditional, theoretical focus and to take advantage of many options that focus on the development of practice skills. ASU Law offers a variety of focus areas, including:

- business law
- criminal law
- health law
- Indian law
- International law
- law and sustainability
- patent practice
- International rule of law and security
- science and technology law
- sports law and business
- trial advocacy

ASU Law first-year Juris Doctor students take courses in civil procedure, contracts, torts, legal method and writing, property, constitutional law I, criminal law, legal advocacy and professional responsibility. After the first year, doctoral students are only required to take criminal procedure or constitutional law II; all other courses are electives. Several focused programs (<https://law.asu.edu/degree-programs> (<https://law.asu.edu/degree-programs>)), study abroad options (<https://law.asu.edu/experiences/abroad> (<https://law.asu.edu/experiences/abroad>)) and more, can enhance students' experiences.

Students can pursue a Juris Doctor concurrently with other degrees from ASU like a MBA, MSW, MSLB or a PhD in justice studies. Mayo Clinic School of Medicine students also have an opportunity to pursue a dual JD/MD degree: <https://mayo.asu.edu/dualdegrees> (<https://mayo.asu.edu/dualdegrees>).

Doctoral students must complete a total of 88 credit hours and a written substantial paper in order to meet graduation requirements. A full list of graduation requirements can be found here: <https://law.asu.edu/abadisclosures> (<https://law.asu.edu/abadisclosures>). Frequently asked questions can be found here: <https://law.asu.edu/about/faqs> (<https://law.asu.edu/about/faqs>).

A flexible schedule program is offered for students who wish to attend law school but can not eliminate all the other obligations in their lives to allow for full-time enrollment: <https://law.asu.edu/degree-programs/jd/jd-flexible-schedule> (<https://law.asu.edu/degree-programs/jd/jd-flexible-schedule>).

Concurrent Degrees:

This degree is also offered as concurrent degree program with:

- Justice Studies, PhD
- Social Work - Standard Program, MSW
- W. P. Carey MBA - Full-Time Program

Degree Requirements:

Required Core (30 credit hours)

- LAW 515 Contracts (4)
- LAW 516 Criminal Law (3)
- LAW 517 Torts (4)
- LAW 518 Civil Procedure (4)
- LAW 519 Legal Method and Writing (3)
- LAW 522 Constitutional Law (3)
- LAW 523 Property (4)
- LAW 524 Legal Advocacy (2)
- LAW 638 Professional Responsibility (3)

Electives (58 credit hours)

Additional Curriculum Information

A minimum of 64 units must be obtained from courses that involve attendance at regularly scheduled class sessions. The following do not count toward these required 64 units: all externships; independent studies; courses taken outside the law school under section IX A; credits received for working for a journal under section X F; credits received for Moot Court under section X G; credits received for being a teaching assistant; credits received from any clinic other than Civil Justice Clinic, Immigration Law and Policy Clinic, Indian Legal Clinic, Innovation Advancement Legal Clinic, Mediation Clinic, Post-Conviction Clinic; and credit from courses without regularly scheduled meetings.

Students should see the College of Law's Statement of Student Policies for additional Juris Doctor degree requirements.

Admission Requirements:

Applicants with degrees from foreign institutions must meet the Graduate College and College of Law English proficiency requirements.

The Sandra Day O'Connor College of Law at Arizona State University enrolls only one first-year Juris Doctor class per year, and it enters in the fall semester. The Juris Doctor degree is a three-year program, and almost all students study on a full-time basis. The college does offer a flexible scheduling option for students with circumstances that make full-time enrollment impossible. Each year, far more applications are submitted to the Sandra Day O'Connor College of Law than the college's facilities and programs can accommodate. Thus, admission is competitive. The Sandra Day O'Connor College of Law makes its admission decisions based upon all information contained in the applicant's file.

To be considered for admission to the program, an applicant must have taken the LSAT and have earned, or expect to have earned by the time of enrollment in law school, a bachelor's degree from an accredited four-year college or university. Further, a candidate must complete the application for admission and submit all mandatory attachments. Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and will be provided to the College of Law by LSAC with the applicant's LSAT record. Applicants must apply electronically through <https://www.lsac.org> (<https://www.lsac.org/>).

The Sandra Day O'Connor College of Law provides full file review to 100% of the completed applications to the Juris Doctor program. While the applicant's undergraduate record and LSAT score are important predictors, no decision is made on objective criteria alone. Among the other factors considered by the admission committee are:

- ability to communicate
- demonstrated commitment to public service
- diversity of experience and background
- exceptional personal talents
- extracurricular or community activities
- foreign language proficiency
- geographic diversity
- graduate study
- history of overcoming economic or other disadvantage
- honors and awards
- leadership experience
- maturity
- overcoming disability
- personal experiences with discrimination
- publications
- service in the Armed Forces
- the rigor of the undergraduate course of study
- work experience

Students should see the program website for application deadlines.

For an application to be considered complete, it must include the following:

- a complete Credential Assembly Service report, with all transcripts and letters of recommendation or evaluations
- the completed application, including explanations for affirmative answers to conduct, character and fitness questions
- LSAT scores from Law School Admissions Council
- a personal statement that does not exceed two double-spaced, typed pages
- the required application fee
- a resume that does not exceed three typed pages

The Credential Assembly Service report must be from the current application year.

Law and Sustainability (Certificate), Certificate (LWLSUSGRCT)

Online Degree Search Title: Law and Sustainability (Graduate Certificate)

Campus:

Program Description:

The law and sustainability graduate certificate within ASU's Sandra Day O'Connor College of Law is designed to propel ASU Law students into environmental sustainability-related legal careers. Environmental sustainability is a primary emphasis at ASU, and this certificate program leverages

that emphasis by recognizing those law students who have successively immersed themselves in the study of sustainability-related law coursework during their time at the law school.

Degree Requirements:

Required Core (6 credit hours)

LAW 619 Energy Law and Policy (3), or

LAW 631 Environmental Law (3), or

LAW 639 Natural Resource Law (3), or

LAW 643 Water Law (3)

Electives (9 credit hours)

Culminating Experience

writing requirement and active participation in sustainability law

Additional Curriculum Information

Students must select two of the required core courses from the above list.

The academic unit maintains a list of preapproved elective coursework. Please contact the academic unit for the current list.

Students must earn a cumulative average grade point average of at least 3.00 (scale is 4.00 = "A") for those courses taken to satisfy the substantive coursework requirement for the law and sustainability certificate. Students also must earn a minimum grade of "B" in any approved elective course taken outside of the Sandra Day O'Connor College of Law.

To earn the certificate, students must participate in at least two different activities from the following list:

- completion of a sustainability-focused legal externship approved by the program or faculty director
- completion of the Sustainability Law Research Seminar
- membership on the elected board of the law school's Environmental Law Society student chapter
- participation in an extramural environmental or sustainability moot court competition approved by the program or faculty director
- participation as a mentee in the Mentorship Initiative in Sustainability Law (MISL)

Each student must write a substantial paper on a topic related to law and sustainability. The paper must be at least 15 pages in length and written under the guidance of a member of the Sandra Day O'Connor College of Law faculty. A sustainability-related paper written to satisfy the Sandra Day O'Connor College of Law's graduate writing requirement or flexible writing requirement can fulfill this writing requirement, including a paper written as part of a seminar course included on the list of elective courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Applicants must be existing JD or LL.M students who are currently enrolled in coursework and in good academic standing with the Sandra Day O'Connor College of Law.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

an admission application for the certificate program through Law Interactive. Students should refer to the Sandra Day O'Connor College of Law website. proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Further specific requirements for admission to the certificate program can be found on the Sandra Day O'Connor College of Law website.

Law, Science, & Technology (certificate), Certificate (LWLAWSTCE)

Online Degree Search Title: Law, Science, and Technology (Graduate Certificate)

Campus:

Program Description:

The law, science and technology certificate program is for students with science and technology interests and is limited to students in good standing pursuing a JD degree at the Sandra Day O'Connor College of Law.

Students can choose to earn a general LST certificate or focus in one or more of the following areas:

- data, privacy and security
- intellectual property
- life sciences

Degree Requirements:

Students must satisfy their graduation writing requirement on a topic related to law, science and technology. The paper must meet all of the Sandra Day O'Connor College of Law requirements for a graduation writing requirement and must be supervised by a center fellow.

A minimum cumulative GPA of 3.00 (scale is 4.00 = "A") is required for those courses that satisfy the substantive coursework requirements of the certificate. Courses used to satisfy the core or focus area requirements may not be taken for pass or fail credit. A student may take one elective course on a pass or fail basis.

Substantive coursework is required in law, science and technology subjects for a minimum of seven courses, earning at least 16 credit hours, at the Sandra Day O'Connor College of Law. Two courses are chosen from the designated core courses and five courses are chosen from a list of elective courses.

Each student is encouraged to actively participate in the events (speakers, conferences, symposia) sponsored by the Center for Law, Science and Innovation and to participate in at least one approved activity for two semesters.

Additional details of the program requirements for the law, science and technology certificate can be found in the Sandra Day O'Connor College of Law Statement of Student Policies.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Students wishing to pursue the law, science and technology certificate must be enrolled in the JD program at the Sandra Day O'Connor College of Law and be in good standing.

Specific requirements for admission to the law, science and technology certificate program can be found on the college website.

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Laws (Global Legal Studies), LL.M. (LAWLGLPLLM)

Online Degree Search Title: Laws (Global Legal Studies), LLM

Campus: Downtown Phoenix

Program Description:

The LLM program allows one year of post-JD study tailored to the scholarly and practice interests of participating students.

The program draws on the unique focus of the center and the faculty's international and transnational legal expertise in global health, the environment, human rights, trade and emerging technologies. The program emphasizes transdisciplinary study and links rigorous legal training with the research and scholarship drawn from political science, policy studies, anthropology and sustainability.

Students can take a wide variety of courses on international topics, ranging from international environmental law to international human rights law to international institutions. These include business-related courses such as international contracts, international taxation, international commercial arbitration and international business transactions.

Students who participate in externships gain practical experience that makes them more competitive for jobs at home and abroad. ASU Law can place every eligible enrolled student into an externship at organizations in Arizona (<https://law.asu.edu/about/locations/phoenix>) or Washington, D.C., like the U.S. State Department, World Bank, International Rescue Committee, Department of Homeland Security and Human Rights First. ASU Law DC-based externship opportunities are available to view here: <https://law.asu.edu/experiences/externships> (<https://law.asu.edu/experiences/externships>). The opportunity for students to network with international decision-makers, opinion leaders and top practitioners is further amplified through ASU's large presence in Washington, D.C. (<https://washingtondc.asu.edu/#why-is-asu-in-washington-dc> (<https://washingtondc.asu.edu/#why-is-asu-in-washington-dc>)).

Students can develop professionally by engaging with globally minded leaders in the legal, government and business communities. For instance, the Phoenix Committee on Foreign Relations hosts events and other forums for select students to engage with prominent leaders and practitioners on trending international issues. Each year, IROLS holds a workshop with the American Red Cross on international humanitarian law that brings students, members of the military and community leaders together to learn more about the principles governing armed conflict.

Degree Requirements:

The program is designed to be completed in one academic year (nine months) on a full-time basis but may also be pursued on a part-time basis. A degree program candidate must complete 24 credit hours of coursework. A candidate may elect to write a master's degree portfolio paper or, instead, can elect to complete an applied project. Required coursework includes two of the following courses:

LAW 615 Public International Law (3)
LAW 691 Seminar: International Institutions (2)
LAW 709 International Human Rights (2-3)
LAW 768 International Business Transactions (2-4)

An international student whose initial law degree is not from a U.S. law school is required to take the following course:

LAW 596 Professional Legal Writing (2)

The remaining credit hours are generally obtained from the list of elective courses in international law.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a Juris Doctor degree in the U.S. or a law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country.

All applicants must submit:

- completed LLM application form and application fee
- official transcripts
- resume, not exceeding three typed pages
- statement of interest, not exceeding 1,250 words (double-spaced, typed pages)
- two letters of recommendation
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the College of Law website for acceptable TOEFL scores and additional information for foreign educated applicants.

Applicants are encouraged to apply electronically through <https://www.lsac.org> (<https://www.lsac.org/>).

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and are provided to the ASU College of Law by LSAC. Transcripts are required from all institutions attended, and transcripts showing that the bachelor's degree and law degree were conferred must be included.

Admission to the program is competitive. Selection is based on academic background and potential, diversity of experience and background, career experience and ambitions, strength of experience related to the program sought, space and resource limitations in the law school and other factors.

- sustainability law: <https://law.asu.edu/degree-programs/mls/mls-online/sustainability-mls> (<https://law.asu.edu/degree-programs/mls/mls-online/sustainability-mls>)

Pursuant to American Bar Association standards, no law credits completed prior to admission to a JD program, including credits earned in the Master of Legal Studies program, may be transferred to a future Juris Doctor program under any circumstances.

Concurrent Degrees:

This degree is also offered as concurrent degree program with:

- Accountancy, MACC
- Information Systems Management, MS
- Management, MS
- Master of Mass Communication, MMC
- Real Estate Development, MRED
- Sustainability Solutions, MSUS
- Taxation, MTax
- W. P. Carey MBA - Full-Time Program
- W. P. Carey MBA - Professional Flex Program

Degree Requirements:

The program consists of 30 credit hours of approved study. The degree program can be completed on a full-time or part-time basis. Students are required to take:

LAW 581 U.S. Law and Legal Analysis (3)

Students are required to choose one of the following basic foundational courses:

LAW 515 Contracts* or LAW 530 Fundamentals of Contract Law (4/3)

LAW 516 Criminal Law (3)*

LAW 517 Torts (2/4)*

LAW 518 Civil Procedure (3/5)*

LAW 522 Constitutional Law (3)*

LAW 523 Property (2/4)*

LAW 602 Civil Procedure II (3/4)

LAW 604 Criminal Procedure (3)

LAW 625 Survey of Individual Rights in Constitutional Law (3/4)

LAW 654 Business Organizations (3/4)

LAW 664 Intellectual Property (2/4)

*Students may enroll in a maximum of two courses marked with an asterisk.

The remainder of the credits are electives. Elective course selection is flexible, to accommodate the diversity of intellectual and professional interests the program is intended to serve.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from an accredited four-year college or university in the United States or attained a comparable degree from a foreign institution.

All applicants must submit:

completed MLS application form and application fee official transcripts from all institutions attended proof of English proficiency resume that does not exceed three typed pages Additional Application Information

Applicants who have received their bachelor's or master's degree in the U.S. can apply through the MLS FastApp

(<https://apps.law.asu.edu/Apps/Admissions/Application/MLS/Default.aspx>) application process, which streamlines the application process and may allow for an offer of conditional admission to the MLS program while the applicant continues to submit any additional requested documentation.

If a decision cannot be made from the FastApp, the Sandra Day O'Connor College of Law Admissions team may request additional information from the applicant, including any or all of the following:

writing sample explanations to affirmative answers to any conduct questions two letters of recommendation

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Sandra Day O'Connor College of Law website for acceptable TOEFL scores and additional information for foreign educated applicants.

MLS applicants with foreign education credentials must have all transcripts evaluated by the Academic Credentials Evaluation Institute, Inc. (ACEI). ACEI independently evaluates all academic documents issued in countries other than the United States. Students should contact ACEI through that organization's website to obtain an application for an evaluation. Applicants must request a course-by-course evaluation and order an official copy be sent directly to:

Sandra Day O'Connor College of Law
Arizona State University
Beus Center for Law and Society
Office of Admissions and Financial Aid
Mail Code: 9520
111 E Taylor St.
Phoenix, AZ 85004

Admission to the program is competitive. Selection is based on a variety of factors, including academic background and potential, diversity of experience and background, career experience and ambitions, space and resource limitations in the law school and other factors.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-legal-studies/>)

Legal Studies (Patent Practice), MLS (LWLPPMLEGS)

Online Degree Search Title: Legal Studies (Patent Practice), MLS

Campus: Downtown Phoenix

Program Description:

The concentration in patent practice within the MLS degree program prepares students for the practice of patent law as registered patent agents with the United States Patent and Trademark Office. The program focuses on providing students with substantial doctrinal knowledge about patent law as well as practical skills training that includes a capstone clinical course, relevant in the patent law field.

Undergraduates with a degree in engineering or hard science can draft and submit patent applications on behalf of themselves and others after passing the patent bar exam and becoming a registered patent agent with the USPTO. Additionally, many law firms, corporations, entrepreneurial ventures and others hire nonlawyers to draft patents.

At Sandra Day O'Connor College of Law, the patent practice focus provides students with a detailed understanding of patent law and a general understanding of intellectual property and the U.S. legal system. Skills gained enable students to successfully assist clients in securing their patentable invention rights.

Patent Agent: Trends show an increase in the hiring of patent agents by many law firms, large corporations and other companies that rely on patent prosecution expertise provided by these nonlawyers who are approved by the USPTO to represent individuals and companies in the patent prosecution process.

Clinical Experience

Students in the Lisa Foundation Patent Law Clinic (<https://law.asu.edu/experiences/clinics/lisa-foundation>) (<https://law.asu.edu/experiences/clinics/lisa-foundation>) receive hands-on experience in real-world patent prosecution and learn skills needed to recognize and obtain valuable and enforceable patents for clients that later may be successfully licensed or litigated. Regardless of whether students plan to practice transactional patent law or work in patent litigation, the clinic gives students insight into both areas of practice so they may understand the impact that actions taken during the patent procurement process have during a subsequent patent litigation.

Through their clinical experience, students work with independent inventors and start-up companies to draft and prosecute patent applications in the USPTO under the supervision of licensed patent attorneys. Additionally, students learn to conduct validity and infringement analyses while gaining valuable skills such as patent due diligence, valuation and licensing strategies.

The clinic focuses on providing students with hands-on experience in the most commonly encountered practical areas such as inventor interviewing, patentability searching and opinion drafting, patent application and office action response drafting, and examiner interviewing.

Degree Requirements:

Required Core (3 credit hours)

LAW 581 U.S. Law and Legal Analysis (3)

Concentration (18 credit hours)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

clinical experience (Lisa Foundation Patent Law Clinic) (3)

Total required credit hours (30)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Admission to the concentration requires a bachelor's degree in one of the following:

- aeronautical engineering
- agricultural engineering
- biochemistry
- biology
- biomedical engineering
- botany
- ceramic engineering
- chemical engineering
- civil engineering
- computer engineering
- computer science*
- electrical engineering
- electrochemical engineering
- electronics technology
- engineering physics
- food technology
- general chemistry
- general engineering
- geological engineering
- industrial engineering
- marine technology
- mechanical engineering
- metallurgical engineering
- microbiology
- mining engineering
- molecular biology
- nuclear engineering
- organic chemistry
- petroleum engineering
- pharmacology
- physics
- textile technology

*Acceptable computer science degrees must be accredited by the Computer Science Accreditation Commission of the Computing Sciences Accreditation Board or by the Computing Accreditation Commission of ABET on or before the date the degree was awarded.

A minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program is required. A minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the applicable master's degree is required.

All applicants must submit:

- completed MLS application form and application fee
- official transcripts
- resume, not exceeding three typed pages
- statement of interest (typed, double-spaced) not exceeding 1,250 words
- two letters of recommendation
- a writing sample
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency as indicated by acceptable scores. Applicants should have a TOEFL score above 600 (paper), 250 (computer) or 100 (internet). Exceptional candidates with relevant experience and background who have scores of at least 590 (paper), 243 (computer) or 96 (internet) also are considered. Applicants must meet the requirements of the Graduate College as well as those of the Sandra Day O'Connor College of Law.

Applicants with degrees from foreign institutions must submit transcripts to World Education Services (<https://www.wes.org> (<https://www.wes.org>)).

There is no required admission examination.

Potential applicants should see the program website for application deadlines.

Sports Law and Business, JD (LWSLBJD)

Online Degree Search Title: Law (Sports Law and Business), JD

Campus:

Program Description:

The sports law and business concentration under the JD program provides real-world experience to aspiring professionals and future lawyers, teaching them how to approach and solve industry problems through the lens of sports by considering all regulatory, revenue, reputational and relationship factors involved in a given scenario. It provides the theoretical and practical knowledge and experience necessary for success at the nexus of sports and law.

Degree Requirements:

Required Core (30 credit hours)

LAW 515 Contracts (4)

LAW 516 Criminal Law (3)

LAW 517 Torts (4)

LAW 518 Civil Procedure (4)

LAW 519 Legal Method and Writing (3)

LAW 522 Constitutional Law (3)

LAW 523 Property (4)

LAW 524 Legal Advocacy (2)

LAW 638 Professional Responsibility (3)

Concentration Courses (15 credit hours)

LAW 675 Professional Sports Law (3) or LAW 676 Amateur Sports Law (3)

non-JD SLB courses (6)

sports-related internship, externship, advanced research (3)

sports-related elective (3)

LAW Electives (43 credit hours)

Additional Curriculum Information

A minimum of 64 credits must be earned in courses that involve attendance at regularly scheduled class sessions. The following do not count toward these required 64 credits:

- all externships
- credit from courses without regularly scheduled meeting
- independent studies
- journal credits
- moot court credits
- non-LAW courses taken at the Sandra Day O'Connor College of Law
- teaching assistant credits

Students should see Sandra Day O'Connor College of Law JD Statement of Student Policies for additional JD information.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

The Sandra Day O'Connor College of Law is committed to a more sustainable and resilient future and requires applicants to apply electronically through the Law School Admission Council (LSAC) website at LSAC.org (<https://www.lsac.org/>).

All applicants must submit:

- application fee
- binding admission contact (if applicable)
- character and fitness statement (if applicable)
- LSAC Credential Assembly Service report with a valid LSAT score and official undergraduate and graduate transcripts
- personal statement

An application may also include:

- Arizona residency form
- diversity statement
- optional addenda
- two letters of recommendation

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The JD program enrolls one first-year class per year, entering in the fall semester. The JD degree is a three-year full time program. However, ASU Law offers a flexible scheduling option for students with circumstances that make full-time enrollment impossible. Each year the Sandra Day O'Connor College of Law receives more applications from eligible candidates than can be accommodated. Admission to Sandra Day O'Connor College of Law is competitive.

The Sandra Day O'Connor College of Law seeks to enroll a dynamic group of individuals that will provide an engaging learning environment. The admissions committee makes decisions after considering all the information provided by the applicant. Among the factors influencing the admission decision are LSAT performance, undergraduate grade point average, quality and grading patterns of undergraduate institutions, previous graduate education, demonstrated commitment to public service, work and leadership experience, extracurricular or community activities, history of overcoming economic or other disadvantages, uniqueness of experience and background, maturity, ability to communicate, foreign language proficiency, honors and awards, service in the armed forces, and publications.

The Credential Assembly Service report must be from the current application year.

For detailed information about the JD application process, students are asked to visit: <https://law.asu.edu/admissions/apply/jd> (<https://law.asu.edu/admissions/apply/jd>).

Students should refer to the program website for application deadlines.

Sports Law and Business, MSLB (LWSLBMSLB)

Online Degree Search Title: Sports Law and Business, MSLB

Campus:

Program Description:

The MSLB degree at the Sandra Day O'Connor College of Law is a unique program that blends sports, law and business from a nationally ranked law school with world-class faculty, including MLB commissioner Emeritus Allan "Bud" Selig. Phoenix is a destination for sports professionals, boasting opportunities for working, learning and volunteering in every major industry in American sports.

Students do not need to become a lawyer or have a legal background to pursue a Master of Sports Law and Business. Graduates are equipped to understand the sports market and the regulatory forces at play in the U.S. and globally. This one-year, 36-credit hour degree is for students who want to master legal principles that impact sports organizations. Fall and spring starts and full or part-time options are available. Spring enrollments are reserved for a limited number of candidates who demonstrate exceptional work experience in sports, and who have exceptional circumstances that would require a spring start.

Degree Requirements:

36 credit hours including the required applied project course (SLB 593).

Required Core (24 credit hours)

SLB 510 Amateur Sports Law: MSLB (3)

SLB 511 Career Strategies and Business Communications in the Sports Industry (3)

SLB 512 Professional Sports Law: MSLB (3)

SLB 514 Negotiations and Alternative Dispute Resolutions in the Sports Industry (3)

SLB 515 Sports Business Strategies and Executive Decisions (3)

SLB 517 Marketing for Sports Organizations (3)

SLB 518 Sports Analytics (3)

SLB 581 U.S. Law and Legal Analysis Through Sport: MSLB (3) or LAW 519 Legal Method and Writing (3)

Electives or Research (9 credit hours)

Culminating Experience (3 credit hours)

SLB 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

A minimum of a bachelor's degree is required from a regionally accredited four year college or university in the United States or a comparable degree from a foreign institution. Possible majors include but are not limited to the following:

- business (finance, accounting, marketing, etc.)
- communications
- journalism
- prelaw
- sports management or business

All applicants must submit:

- complete MSLB application for admission submitted through the Sandra Day O'Connor College of Law at <https://law.asu.edu/admissions/apply/mslb> (<https://law.asu.edu/admissions/apply/mslb>)
- application fee
- official transcripts
- resume that does not exceed three typed pages
- statement of interest that does not exceed 1,250 words (double-spaced, typed pages)
- two letters of recommendation
- writing sample no less than two typed pages
- explanations to affirmative answers to any conduct questions
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency as indicated by acceptable scores regardless of current residency. Applicants should have a TOEFL score more than 600 (paper), 250 (computer), or 100 (internet). Exceptional candidates with relevant experience and background who have scores of at least 590 (paper), 243 (computer) or 96 (internet) also are considered. ASU's institutional code is 4007.

Official transcripts from all postsecondary institutions of higher education attended must be submitted to the College of Law. An official transcript is a transcript certified by the issuing school and sent directly to ASU or delivered to ASU in a sealed envelope with a seal intact.

Applicants who have received undergraduate or graduate degrees from foreign institutions must have their transcripts evaluated by World Education Services, and WES must send that evaluation to the offices of the Sandra Day O'Connor College of Law.

Admission to the program is competitive. Selection is based on a variety of factors, including academic background and potential, diversity of experience and background, career experience and ambitions, space and resource limitations in the law school and other factors.

Trial Advocacy (Certificate), Certificate (LWTAGRCT)

Online Degree Search Title: Trial Advocacy (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The graduate certificate program in trial advocacy provides students interested in pursuing a career in criminal prosecution, criminal defense or civil

litigation with a prescribed course of study to help prepare them for practice. In addition, it serves as a credential representing to future employers and clients that a JD student has a demonstrated interest in trial advocacy and a solid foundation in the knowledge and skills needed to succeed in the field.

Degree Requirements:

Required Core (6 credit hours)

LAW 602 Civil Procedure II (3) or LAW 604 Criminal Procedure (3)

LAW 605 Evidence (3)

Alternative Dispute Resolution Requirement (2 credit hours)

Litigation Requirement (3 credit hours)

Electives (4 credit hours)

Other requirements

practical experience in client representation

Additional Curriculum Information

To earn the certificate, a student must take classes in courtroom practice and procedure as well as alternative dispute resolution, participate in experiential learning either through simulation-based instruction in litigation and courtroom advocacy or by representing clients in a clinical setting, and gain additional practical experience through pro bono service, participation in a moot court competition or enrollment in a Rule 38 externship.

Students must complete four credit hours of electives from a selection of over 40 classes.

For the Alternative Dispute Resolution requirement, students must complete a minimum of two credit hours from the Alternative Dispute Resolution requirement course list.

For the Litigation requirements, students must complete a minimum of three credit hours from the Litigation requirement course list.

Students must gain practical experience in client representation by completing one of the following while maintaining continuous enrollment:

- completion of a Rule 38 externship or
- pro bono service --- minimum of 50 hours working with an approved legal services organization or
- representation of the College of Law in a regional, national or international moot court competition

Additional information on what specific courses can be used to fulfill the certificate requirements can be found on the College of Law trial advocacy page.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Applicants must be existing JD program students who are currently enrolled in coursework and in good academic standing with the ASU College of Law.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- trial advocacy certificate application
- graduate application through Law Interactive. Applicants should refer to the College of Law website.
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Further specific requirements for admission to the certificate program can be found on the Sandra Day O'Connor College of Law website.

Tribal Policy, Law and Government, LL.M. (LWTBLMLAWS)

Online Degree Search Title: Tribal Policy, Law, and Government, LLM

Campus: Downtown Phoenix

Program Description:

The LLM program in tribal policy, law and government is designed for lawyers and law school graduates who desire to work on issues related to tribal law and federal Indian law at the professional and academic levels. The Sandra Day O'Connor College of Law is a leading institution in producing graduates specializing in Indian law. The College of Law is also home to the nationally known Indian Legal Program, established in 1988.

The program provides students with a detailed understanding of the nature of tribal government and of law and policy development within the domestic federal structure. Candidates benefit from the extensive resources committed to the Indian Legal Program, including a director and staff and an Indian law clinic with its own full-time director and staff.

The core curricular offerings focus on domestic tribal law, federal Indian law and American institutions of law and government. The program explores the expression of domestic law within contemporary administrative, governmental and judicial institutions.

Arizona State University is located in the heart of the southwestern U.S., home to roughly one-third of the native population in the U.S. and where many of the largest Indian nations in the country are located. The university is the academic home for several nationally known scholars who do research on American Indian issues, and it houses many unique resources for such scholarship, including the Labriola Collection at Hayden Library.

Degree Requirements:

The program is administered by the Indian Legal Program and is oriented toward students who seek practical experience in tribal law and federal Indian law. It provides intensive instruction to students who graduated from a law school that had few or no courses in Indian law and who now seek to practice in these areas at a professional level. This degree program requires a minimum of 24 credit hours of study. A thesis is not required.

Students immerse themselves in the study of tribal law and federal Indian law and apply the knowledge and experience they gain through the practical component of the degree program which may consist of research projects for tribal courts and governments; state, tribal and federal court practice; and tribal code drafting.

Graduates are well-equipped for professional positions that require knowledge and expertise in tribal law and federal Indian law. Students have the option of pursuing the degree on a part-time basis.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and College of Law English proficiency requirements.

Admission to the program is competitive. In order to be admitted, an applicant must have completed a JD degree or law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country and have submitted a complete application to the program.

Selection will be based on academic background and potential, career experience and ambitions, diversity of experience and background, space and resource limitations in the law school, and the applicant's strength of experience related to the program sought, as well as other factors.

Applicants are encouraged to apply electronically through <https://www.lsac.org> (<https://www.lsac.org>). For an application to be considered complete, it must include the following:

- the completed LLM application form
- the required application fee
- a resume that does not exceed three, typed pages
- a statement of interest that does not exceed 1,250 words, typed and double-spaced

- transcripts from all institutions attended, including the transcript showing that the bachelor's degree and law degree were conferred
- two letters of recommendation
- a writing sample

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and are provided to the ASU College of Law by LSAC.

Students should see the program website for application deadlines.

Liberal Arts & Sciences, The College of

Actuarial Science, MS (LAACTMS)

Online Degree Search Title: Actuarial Science, MS

Campus: Tempe

Program Description:

The MS program in actuarial science is designed to allow students to advance their knowledge base by applying mathematical and statistical concepts and data analytics to the disciplines of risk management, finance and insurance. It also includes a new focused set of professional learning outcomes aligned with the needs of the ever-evolving insurance industry, while keeping the core technical learning outcomes in place. These guide students' development of professional competencies through coursework, independent projects and opportunities outside of the classroom, while remaining firmly based on a strong foundation of scholarly technical work in actuarial science. The program emphasizes broad awareness and appreciation of current issues faced by insurance industry practitioners as well as innovative resolutions provided by actuaries.

Actuaries must pass a series of intensive professional exams to become credentialed. Program graduates are prepared for the examinations required to become credentialed professionals by the Society of Actuaries or Casualty Actuarial Society and to be competitive employees in the insurance and finance industries.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Actuarial Science, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including an applied project (ACT 593).

Required Core (6 credit hours)

ACT 560 Advanced Data Analytics in Insurance I (3)

ACT 561 Advanced Data analytics in Insurance II (3)

Electives or Research (21 credit hours)

Culminating Experience (3 credit hours)

ACT 593 Applied Project (3)

Additional Curriculum Information

For electives and research, students select seven courses from an approved list. Students should see the academic unit for the approved course list. Other courses may be used with approval of the academic unit.

Only six credit hours of 400-level coursework is allowed on the plan of study per Graduate College policy.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or master's degree from a regionally accredited college or university in a related field such as mathematics, statistics, business, economics and predictive analytics.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- GRE scores
- two letters of recommendation
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants should have completed the following courses with a "B" or better (scale is 4.00 = "A"). ASU equivalents are given in parenthesis.

Courses may be substituted with approval of the academic unit:

Linear Algebra (MAT 342 or MAT 343)

Calculus Sequence 1-3 (MAT 270, 271, and MAT 272)

Applied Statistics (STP 420)

Advanced Calculus (MAT 370 or MAT 371)

Addiction and Substance-Use Related Disorders (certificate), Certificate (LAASRDGRCT)

Online Degree Search Title: Addiction and Substance-Use Related Disorders (Graduate Certificate)

Campus: Online

Program Description:

There is growing demand for professionals who understand the needs, issues and treatment approaches for individuals suffering from addiction and substance use disorders.

The certificate program in addiction and substance-use related disorders is valuable for those in counseling, social work, psychology, medicine and various fields of therapy who provide services to individuals and families suffering from addiction and substance use disorders.

This program meets all the curricular requirements of the Arizona State Board of Behavioral Health Examiners for licensure in substance abuse counseling as well as most national and other state certification requirements.

Degree Requirements:

21 credit hours.

Required Core (18 credit hours)

PSY 570 Psychopharmacology (3)

PSY 601 Addiction and Substance Abuse: Assessment and Diagnosis (3)

PSY 602 Comorbidity in Substance Use Related Problems (3)

PSY 603 Evidence-Based Interventions for Substance Use Related Problems (3)

PSY 604 Multicultural Issues Related to Substance Use Related Problems (3)

PSY 605 Group Therapy for Substance Use-Related Problems (3)

Other Requirements (3)
PSY 591 Topic: Ethics (3)

Additional Curriculum Information

This graduate certificate meets all seven of the core content curricular requirements for the Arizona State Board of Behavioral Health Examiners, for students interested in pursuing licensure in substance abuse counseling. In addition, the course is in compliance with national certification curriculum guidelines.

PSY 591 can be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any health, behavioral health or counseling-related field, from a regionally accredited institution or an equivalent degree from an international institution that is officially recognized by that country.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- curriculum vitae or resume
- one letter or recommendation
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

African Studies (certificate), Certificate (LAAFRICACE)

Online Degree Search Title: African Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in African studies focuses on interdisciplinary study of the peoples, history and cultures of Africa and the multifaceted experiences of people of African descent in Europe and the Americas. Students gain access to an extensive range of information and systematic knowledge committed to the new model of African and African diaspora studies that focuses on the intersections of race, culture and gender with transdisciplinary perspectives.

Courses examine interdisciplinary approaches to studying race, ethnicity, social justice, gender, citizenship and economic development. As this certificate program offers students an international dimension to the study of peoples and cultures of African descent, students invigorate their knowledge about global issues and further expand their research pursuits. This certificate program characterizes the faculty members' intellectual and research strengths and the curriculum's transdisciplinary strategies and research approaches that highlight the continuities and disjuncture of history and experiences throughout Africa and the diaspora.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

AFR 502 Africa and African Diaspora World (3)

Electives (12 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Students who are not regularly admitted to a graduate degree program may still pursue the certificate.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program. When applicable, applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in a master's degree program.

Applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Official copies of transcripts must be submitted from all college and universities where the applicant earned a bachelor's or master's degree.

American Indian Studies (Cultural Resource Revitalization and Sustainability), MS (LAAISCMS)

Online Degree Search Title: American Indian Studies (Cultural Resource Revitalization and Sust), MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The MS in American Indian studies is a transdisciplinary program that results in students having an intellectual and practical understanding of the issues facing American Indian populations and the ability to apply that knowledge. Students acquire problem-solving skills useful in a range of professional arenas, including governmental, private and nonprofit agencies. The focus of this curriculum is on languages, cultures, arts, activism, histories, legal policy and education from an American Indian studies paradigm perspective. Delivery is mainly through in-person courses.

The cultural resource revitalization and sustainability concentration explores the development and implementation of American Indian-focused cultural resources management processes and analyze how policies and laws can improve or hinder the protection of American Indian cultural and funerary patrimony.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (AIS 580).

Required Core (9 credit hours)

AIS 501 American Indian Studies Paradigms (3)

AIS 502 American Indian Studies Research Methods (3)

AIS 503 Contemporary Issues of American Indian Nations (3)

Concentration (9 credit hours)

Electives (6 credit hours)

Culminating Experience (6 credit hours)

AIS 580 Applied Project (6) or

AIS 599 Thesis (6)

Additional Curriculum Information

Students may select a thesis or nonthesis option. Thesis students are involved in a major research project under the direction of their faculty advisors, culminating in a thesis. This is the option students should select if they have an interest in a research-oriented position within an organization or agency or wish to pursue a doctoral degree. Nonthesis students complete an applied project that identifies and addresses an applied problem or issue relevant to a partner agency or organization under the direction of their faculty advisors. This is the option students should select if they are interested in a leadership or managerial level position within an organization or agency.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited college or university of recognized standing in a related field such as history, justice study, sociology, ethnic studies, anthropology, political science or education.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. American Indian Studies (Visual and Oral Culture), MS (LAAISVMS)

Online Degree Search Title: American Indian Studies (Visual and Oral Culture), MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The MS in American Indian studies is a transdisciplinary program that results in students having an intellectual and practical understanding of the issues facing American Indian populations and the ability to apply that knowledge. Students gain problem-solving skills in a range of professional arenas, including governmental, private and nonprofit agencies. The program focuses on the languages, cultures, arts, activism, histories, legal policy and education from an American Indian studies perspective. Delivery is through in-person courses.

The visual and oral culture concentration explores and contributes to American Indian culture and history as it exists in visual, material and written forms through creative writing, literature, poetry, film, photography, performing arts, digital arts, oral tradition, and history and communication from an American Indian studies paradigm.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (AIS 580).

Required Core (9 credit hours)

AIS 501 American Indian Studies Paradigms (3)

AIS 502 American Indian Studies Research Methods (3)

AIS 503 Contemporary Issues of American Indian Nations (3)

Concentration (9 credit hours)

Electives (6 credit hours)

Culminating Experience (6 credit hours)

AIS 580 Practicum (6) or

AIS 599 Thesis (6)

Additional Curriculum Information

For concentration and electives options, students should see the academic unit for approved courses.

Students select a thesis or nonthesis option. Both are research projects, but the applied project is more applied in nature. Thesis students are involved in a major research project under the direction of their faculty advisors, culminating in a thesis. This is the option students should select if they have an interest in a research-oriented position within an organization or agency or wish to pursue a doctoral degree. Nonthesis students complete a practicum project that identifies and addresses an applied problem or issue relevant to a partner agency or organization under the direction of their faculty advisors. This is the option students should select if they are interested in a leadership or managerial-level position within an organization or agency.

The required core classes emphasize the knowledge and skills all graduates must have. Concentrations and electives are designed so students can concentrate in the areas of visual and oral culture, indigenous rights and social justice, cultural resource revitalization, and sustainability or tribal leadership and governance.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited college or university of recognized standing in a related field such as history, justice studies, sociology, ethnic studies, anthropology, political science or education.

Applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

American Studies, MA (LAAMSTMA)

Online Degree Search Title: American Studies, MA

Campus: Tempe

Program Description:

ASU's MA program in American studies trains students in interdisciplinary approaches aimed at understanding the American experience in local and global contexts. The array of disciplines spans the arts, humanities and social sciences, and faculty expertise covers a broad range of historical, literary and media studies as well as interdisciplinary and community-based approaches. Given its geographical location in the American Southwest, ASU's American studies program values an exploration of diasporic and transnational influences in U.S. cultures and social and political history.

The American studies faculty have strengths and expertise in the areas of critical ethnic studies, indigeneity studies, gender studies, Black studies, immigration studies, justice studies, disability studies, queer studies, Latino studies, transborder studies, Asian American studies, cultural studies, environmental humanities and sports studies, allowing students to focus their education around these areas.

Students gain expertise from working in a community of scholars dedicated to addressing critical questions of what America means, what American studies uncovers, and how to expand the boundaries of the new American conversation. Graduate students are immersed in conversations of how one develops, conducts and engages research on the American experience in academia and beyond. Additionally, faculty and students include the role of other nations, cultures and communities in their study of the meaning of America and critically evaluate the United States in global matters.

American studies graduates can bridge a strong theoretical foundation with applied research to better equip them to enter national and international dialogues. Graduates of the Master of Arts program in American studies find success in a number of arenas, in local and international contexts, including: nonprofits, government positions, public engagement and community relations, education, communications, political consulting, professional writing, journalism, law fields, medical fields and business.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (AMS 593).

Required Core (3 credit hours)

AMS 502 American Studies: Theory and Method (3)

Electives or Research (21 - 24 credit hours)

Culminating Experience (3 or 6 credit hours)

AMS 593 Applied Project (3) or

AMS 599 Thesis (6)

Additional Curriculum Information

For electives or research, students should see the academic unit for the approved course list. Students choose 21 credit hours for the thesis option or 24 for the applied project option.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Applicants holding a bachelor's or master's degree in American studies or a closely related field are preferred.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- writing sample
- curriculum vitae
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The history program requires a TOEFL score of at least 600 (PBT) or 90 (iBT).

The writing sample may be an article, published or unpublished; a research paper; a seminar paper; or any other extended sample of expository skill. A minimum of 4,000 to 5,000 words is required. The document should not be password protected.

The statement of purpose should be addressed to the American Studies Graduate Studies Committee. It must explain the applicant's scholarly background and training, career goals, the area of study the applicant wishes to pursue, and why the applicant wants to pursue graduate study at ASU. It must be about 500 words in length.

Two references are required. Applicants should contact faculty or professional supervisors they intend to use for references prior to listing them on the application and inform the intended recommenders that they will be receiving an email from the ASU American studies program asking them to complete a questionnaire and provide comments on the applicant's suitability for graduate study. Updated email addresses for references should be confirmed before submitting them on the application. References from family members or relations are not recommended.

Animal Behavior, PHD (LAANBPHD)

Online Degree Search Title: Animal Behavior, PhD

Campus: Tempe

Program Description:

The PhD in animal behavior is a transdisciplinary graduate degree program that provides doctoral-level training in mechanistic and functional approaches to understanding behavior in a variety of animal taxa.

The study of behavior is at the interface of several scientific disciplines, including physiology, anatomy, neuroscience, ecology and evolution. This program offers the diverse but specialized array of skills and knowledge needed to produce excellent research in animal behavior.

Students gain knowledge and skills with applied scientific value in areas such as veterinary science and mental and behavioral health in humans. The ecological focus of the program feeds into local, state and global priorities in biological conservation and ecosystem sustainability.

Degree Requirements:

84 credit hours, a oral and written exam, a prospectus, and a dissertation.

Required Core (8 credit hours)

ANB 601 Research Strategies in Animal Behavior (4)

ANB 602 Current Issues in Animal Behavior (4)

Electives or Research (64 credit hours)

The department and the student's advisor determine these courses in conjunction with the student.

Culminating Experience (12 credit hours) dissertation (12)

Additional Curriculum Information

Core courses ANB 601 and ANB 602 are one credit hour courses, each taken four times.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in a related discipline, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admissions application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

- evolutionary anthropology
- sociocultural anthropology

It is also an ideal environment for students who want to combine these approaches and other disciplines to explore specific issues or research questions within a transdisciplinary context. The flexible graduate curricula are designed to encourage students to design innovative plans of study in order to pursue their interests while receiving broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines, including:

- applied mathematics
- chemistry
- environmental economics
- epidemiology

- formal modeling
- genetics
- sociology
- sustainability
- technology and society
- urban planning

The training students receive in this program prepares them to become expert scholars able to contribute not only to their chosen field but also to finding solutions to humankind's greatest challenges.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hours required for the doctorate. This leaves 30 credit hours of coursework, 12 credit hours of research and 12 credit hours of dissertation (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 average GPA (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Undergraduate coursework in anthropology is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of general anthropology in a manner to be specified at the time of admission.

Applicants also may submit with their application materials an optional scholarly writing sample not to exceed 20 to 30 double-spaced pages.

Anthropology (Complex Adaptive Systems Science), PHD (LAANTHCPHD)

Online Degree Search Title: Anthropology (Complex Adaptive Systems Science), PhD

Campus: Tempe

Program Description:

The School of Human Evolution and Social Change is an excellent choice for students wanting to pursue a PhD in the classic fields of anthropology:
 Academic Catalog Archive 2020-2021

archaeology, bioarchaeology, evolutionary anthropology, and sociocultural anthropology.

It is also an ideal environment for students who want to combine these approaches and other disciplines to explore specific issues or research questions within a transdisciplinary context. The flexible graduate curricula are designed to encourage students to design innovative plans of study to pursue their interests while receiving broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines; these include applied mathematics, chemistry, environmental economics, epidemiology, formal modeling, genetics, sociology, sustainability, technology and society, and urban planning.

The complex adaptive systems science doctoral concentration trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems science at Arizona State University and emphasizes the value of a complex adaptive perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing society today. The training students receive in this program prepares them to become expert scholars able to contribute not only to their chosen field but to finding solutions to humankind's greatest challenges.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate degree program. This leaves 30 credit hours of coursework, 12 credit hours of research and 12 credit hours of dissertation (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctoral degree program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in complex adaptive systems science, 12 credit hours are selected from an approved list of applicable courses related to complexity.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study and they typically have a member of the complex adaptive systems science graduate faculty as a member of their doctoral supervisory committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

Anthropology (Urbanism), PHD (LAURBPHD)

Online Degree Search Title: Anthropology (Urbanism), PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The School of Human Evolution and Social Change is an excellent choice for students wanting to pursue a PhD in the classic fields of anthropology:

- archaeology
- bioarchaeology
- evolutionary anthropology
- sociocultural anthropology

It is also an ideal environment for students who want to combine these approaches and other disciplines when exploring specific issues or research questions within a transdisciplinary context. The flexible graduate curricula are designed to encourage students to design innovative plans of study to pursue their interests while receiving broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines, including:

- applied mathematics
- chemistry
- environmental economics
- epidemiology
- formal modeling
- genetics
- sociology
- sustainability
- technology and society
- urban planning

The training students receive in this program prepares them to become expert scholars able to contribute not only to their chosen field but to finding solutions to humankind's greatest challenges.

The concentration in urbanism leverages the varied interests in urbanism and helps emerging scholars as they attempt to compare, contrast and take stock of urbanism. Working with faculty from across a range of departments and programs at ASU, doctoral students are able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative, constructive kind of inquiry.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate. This leaves 30 credit hours of coursework, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in urbanism, 15 credit hours are selected from an approved list of applicable courses related to urbanism. These courses include the core urbanism course, GCU 516, as well as one course from each of the four urbanism clusters. These clusters are:

- built form
- culture and society
- institutions and governance
- natural environment

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Undergraduate coursework in anthropology is not a prerequisite for admission, but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of general anthropology in a manner to be specified at the time of admission.

Applicants may submit an optional scholarly writing sample, not to exceed 20 to 30 double-spaced pages, to be included in their application materials.

Applied Behavior Analysis, MS (LAAPBAMS)

Online Degree Search Title: Applied Behavior Analysis, MS

Campus: Tempe

Program Description:

Offered by the Department of Psychology, this MS program in applied behavior analysis is a full-time, scientifically based, two-year program that meets the Behavior Analyst Certification Board fourth edition task list for coursework with more than 270 classroom hours and 1,500 hours of supervised practicum fieldwork.

Successful graduates are able to sit for BACB certification and once certified, they will be eligible for state-licensure. The program's learning outcomes include mastery across three major areas as identified by the BACB: basic behavior-analytic skills, client-centered responsibilities and foundational knowledge.

Applied behavior analysis training in the Department of Psychology at ASU includes supervised experience and instruction in:

- behavior analytic attitudes such as determinism, empiricism and parsimony
- fundamental elements of behavior change and behavior change procedures
- identification, assessments and interventions for behavioral excesses, deficiencies and challenging behavior
- professional ethics and conduct of ABA
- training others in the science and practice of ABA
- use of different behavioral measurement types and systems
- use of experimental designs to determine relationships among and between measurement, relevant variables and behavior

Degree Requirements:

42 Credit hours including the required applied project course (PSB 593).

Required Core (24 credit hours)

PSB 501 Basic Principles of Applied Behavior Analysis (3)

PSB 510 Basic Principles of Experimental Analysis of Behavior (2)

PSB 511 Advanced Research Methods (2)
PSB 520 Ethical Issues and Professional Standards in Applied Behavior Analysis (3)
PSB 530 Behavioral Observation and Functional Assessment (3)
PSB 540 Development of Applied Behavioral Intervention Programs (3)
PSB 563 Basic Principles of Organizational Behavior Management (2)
PSB 573 Advanced Principles of Learning and Analysis of Behavior (3)
PSB 578 Applied Behavior Analysis in Developmental Disorders (3)

Electives or Research (4 credit hours)

PSB 591 Seminar (2)

PSB 598 Special Topics (2)

Other Requirements (9 credit hours)

PSB 580 Practicum: Applied Behavior Analysis (4)

PSB 583 Fieldwork: Applied Behavior Analysis (5)

Culminating Experience (5 credit hours)

PSB 593 Applied Project (5)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in psychology, human development, sociology or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose form
- curriculum vitae or resume
- GRE scores
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Application to the Department of Psychology's Master of Science program in applied behavioral analysis is completed online through ASU's Graduate Admission Services website. Applicants should upload their unofficial transcripts to the application before submitting.

It is strongly recommended that applicants download and print the Master of Science in applied behavioral analysis admission checklist from the Department of Psychology website to ensure completion of the application process and inclusion of all the required supplemental forms.

The statement of purpose form should describe professional and academic aspirations.

Applicants must submit two letters of recommendation from professionals or faculty who can speak to the applicant's abilities.

Applied Linguistics, PHD (EDAPLPHD)

Online Degree Search Title: Applied Linguistics, PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

Applied linguistics combines research topics in the linguistics sciences and education to pursue principled approaches to language-related concerns. The applied linguistics PhD program is focused on simultaneous and developmental bilingualism in children and adolescents. Faculty participate in the program from within multiple curricular units across the institution's four campuses. The program encourages transdisciplinary study, and its flexible requirements enable students to pursue those aspects of the disciplines that interest them the most. The program prepares students for entrance into the field as teachers, scholars and professionals.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Foundation Coursework (18 credit hours)

Overview of the Field: A three-credit course providing a survey of the field of applied linguistics is required. (3)

Linguistics: Coursework in theoretical linguistics, including one approved linguistics elective, is required. (15)

Teaching Internship (1 credit hour)

Colloquia (8 credit hours)

A four-semester sequence of two-credit colloquium meetings is required for students in the first two years.

Research Methods (6 credit hours)

Students must take two courses in research methods, selected in consultation with the advisor.

Research Specialization (33 credit hours)

In consultation with the program director, students take 11 three-credit courses in their field of specialization.

Breadth (6 credit hours)

Two courses in a secondary concentration area are required.

Dissertation (12 credit hours)

Additional Curriculum Information

An oral defense of the dissertation is required.

There must be a minimum of 54 credit hours beyond the master's degree level, including a minimum of 12 units of dissertation credit. All students in the program must satisfy 18 credit hours of foundation coursework.

Because applied linguistics is transdisciplinary in nature, applicants may differ from one another with regard to their prior experience and preparation. For instance, while some applicants may have substantial prior training in core theoretical linguistics (foundations) others may have considerable preparation in an area related to a supported concentration. Students should consult the program director for assistance in planning their degree programs. The program director may address potential redundancies in a student's program requirements with prior academic preparation by allocating a maximum of 30 credit hours from an awarded and approved graduate degree toward the applied linguistics program requirements, or the director may permit the student to take additional elective courses in lieu of introductory courses covered in an undergraduate program.

Language Requirement: Students in the applied linguistics doctoral program must demonstrate proficiency in a second language equivalent to two years of study. A language appropriate to the student's area of interest is selected in consultation with the advisor. The language requirement must be satisfied, by examination or coursework, prior to advancement to candidacy. Computer or other nonhuman languages may not be used to satisfy this requirement. Students for whom English is a second language may use their first language to satisfy the requirement by examination. Course credit used to satisfy the language requirement cannot be used to satisfy other program requirements and cannot be counted toward the total required 84 credit hours.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- GRE general test scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

Applied Mathematics, PHD (LAAPMPHD)

Online Degree Search Title: Applied Mathematics, PhD

Campus: Tempe

Program Description:

This PhD program in applied mathematics is intended for students with superior computational and mathematical modeling ability. It emphasizes a solid mathematical foundation and promotes creative scholarship in an application discipline. The School of Mathematical and Statistical Sciences at Arizona State University has faculty in applied mathematics with outstanding transdisciplinary research programs with strong external funding.

Current research interests include mathematical epidemiology and mathematical ecology, mathematical neuroscience, environmental fluid dynamics and high performance computing, imaging and inverse problems, supply chain dynamics, control and optimization, computational methods for ordinary and partial differential equations, analysis of differential equations, and geophysical and environmental fluid dynamics.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

APM 505 Applied Linear Algebra (3)

Other Requirements (12 credit hours)

APM 501 Differential Equations I (3)

APM 502 Differential Equations II (3)

APM 503 Applied Analysis (3)

APM 504 Applied Probability and Stochastic Processes (3)

APM 506 Computational Methods (3)

Electives and Research (57 credit hours)

Culminating Experience (12 credit hours)

APM 799 Dissertation (12)

Additional Curriculum Information

Students must pass:

- two qualifying examinations
- a written comprehensive examination
- an oral dissertation prospectus defense.

Students should see the department website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Electives are to be chosen from math or related area courses approved by the student's supervisory committee.

Students choose four out of the five courses listed for other requirements.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, applied mathematics, economics, engineering or a natural science from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- resume
- GRE (general) scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Additional eligibility requirements include:

- be competitive in an applicant pool as evidenced by coursework in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371)
- have scientific programming skills (desirable)

Applied Mathematics for the Life & Social Sciences, PHD (LAAMLPHD)

Online Degree Search Title: Applied Mathematics for the Life and Social Sciences, PhD

Campus: Tempe

Program Description:

The PhD in applied mathematics for the life and social sciences focuses on the training needed to analyze and more definitively answer lingering, far-reaching and seemingly unknowable questions about underlying patterns hidden within human health, behaviors and experiences, and to teach others to do the same.

Under the transdisciplinary instruction of national experts from five different schools at Arizona State University, program participants learn new applications for tools such as agent-based models, evolutionary computing, geographical information systems, machine learning, multiobjective optimization nonlinear dynamical systems and stochastic processes. In doing so, they unlock new revelations and categories for not just understanding but also practically managing or improving complex biological, ecological and social processes.

This program creates entirely new opportunities, while building upon mathematical foundations and in-demand career paths long established in fields such as:

- bioinformatics
- computational sciences
- ecology
- genomics
- mathematical analysis
- mathematical epidemiology

- nonlinear dynamics
- population dynamics
- social science

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

AML 610 Topics in Applied Mathematics for the Life and Social Sciences (3)

AML 612 Applied Mathematics for the Life and Social Sciences Modeling Seminar (3)

Other Requirements (15 credit hours)

ASM, AML or BIO: courses in evolution, ecology or social sciences (400 level or above) (3)*

one graduate-level course in biostatistics (3)*

one graduate-level School of Mathematical and Statistical Sciences course approved by graduate chair (3)

APM, AML, MAT 590 or 790 Reading and Conference (6)

*Substitution courses may be acceptable with approval of director.

Electives (39 credit hours)

See the Additional Curriculum Information section below.

Research (12 credit hours)

AML 592 or 792 Research (12)

Culminating Experience (12 credit hours)

AML 799 Dissertation (12)

Additional Curriculum Information

Electives must include six credit hours of life science and six credit hours of social sciences.

Courses (beyond the 15 credit hour requirement) from the Other Requirements section may be used as electives.

Students must register for research credit (AML 592 or 792) supported by their participation in one of two summer programs, Mathematical and Theoretical Biology Institute or J. Bustoz Math-Science Honors Program, sponsored by the Simon A. Levin Mathematical, Computational and Modeling Sciences Center. Up to three credit hours of research per summer may be applied based on hours and level of participation with approval from the graduate chair and the summer program director.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework will be made up of electives to reach the required 84 credit hours.

All students must maintain a 3.20 (scale is 4.00 = "A") average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. A master's degree in the social sciences (e.g., anthropology, gender studies, geography, sociology), life sciences or related fields (e.g., biology, ecology, genomics), applied mathematics, mathematics or statistics is preferred.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may submit an optional scholarly writing sample of 20 to 30 double-spaced pages, to be included in their application materials.

Prior to admission, students should have completed, at the undergraduate junior or senior level, a minimum of the following:

- 15 credit hours of mathematics or statistics
- nine credit hours of life sciences and social sciences coursework at the senior or college graduate level
- no fewer than three credit hours each of life sciences and social sciences coursework

Applied Mathematics for the Life and Social Sciences (Complex Adaptive Systems Science), PHD (LAAMLCPHD)

Online Degree Search Title: Applied Math for the Life and Social Sciences (Complex Adaptive Sys Science), PhD

Campus: Tempe

Program Description:

The PhD program in applied mathematics for the life and social sciences focuses on training researchers to analyze scientific questions at the intersection of the mathematical, life and social sciences. Graduates of the program make innovative and far-reaching scientific contributions that rely on the cutting-edge computational mathematical and modeling approaches.

This program focuses on producing quantitative scientists and applied mathematicians who conduct high-level transdisciplinary research. The program's faculty include mathematicians, statisticians, theoretical biologists and social scientists from five different schools at Arizona State University.

There is a high demand for first-rate scientists, researchers and faculty interested in meeting the challenges faced by communities in the 21st century. Institutional research and planning programs create space and opportunity to address such challenges on a global scale. The health, environmental and natural resource challenges in Arizona and the nation are urgently in need of a large pool of researchers with these transdisciplinary skills.

There are three tracks a student can follow. Applied mathematics is a more in-depth focus on the tools applied to the life and social sciences, such as dynamical systems, computational and numerical methods, simulation and mathematical analysis. Life sciences focuses on understanding the tools for representing the structure and operation of complex biological and ecological processes. Social sciences focuses on understanding the tools for representing the structure and operation of complex social systems and processes.

By offering courses that enhance transdisciplinary exchanges and collaboration among the faculty and students interested in addressing questions of social relevance, the program builds upon foundations already established in:

- bioinformatics
- computational sciences
- ecology
- genomics
- mathematical analysis
- mathematical epidemiology
- nonlinear dynamics
- population dynamics
- social science fields

The complex adaptive systems science concentration trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing university-wide research on complex adaptive system science at Arizona State University and emphasizes the value of a complex adaptive perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing our society today. Students become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

AML 610 Topics in Applied Mathematics for the Life and Social Sciences (3)

AML 612 Applied Mathematics for the Life and Social Sciences Modeling Seminar (3)

Concentration Courses (6 credit hours)

ASM 570 Fundamentals of CAS Science (3) or BIO 570 Fundamentals of CAS Science (3)

Complex Adaptive Systems Science approaches class (3)

Restricted Electives (12 credit hours)

biostatistics course (3)

numerical analysis course (3)

life sciences and social sciences (6)

Electives (36 credit hours)**Research (12 credit hours)**

AML 592/792 Research (12)

Culminating Experience (12 credit hours)

AML 799 Dissertation (12)

Additional Curriculum Information

Students should see the academic unit for a complete list of complex adaptive systems sciences approaches courses required for the concentration.

For required research, other XXX 592/792 Research courses may be substituted with academic unit approval.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives to reach the required 84 credit hours.

Students entering the program without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctoral program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. A master's degree in the social sciences (e.g., anthropology, sociology, gender studies or geography), life sciences or related fields (e.g., biology, genomics or ecology), applied mathematics, mathematics or statistics is preferred.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may submit an optional scholarly writing sample of 20 to 30 double-spaced pages, to be included in their application materials.

Prior to admission, students should have completed at the undergraduate junior or senior level a minimum of the following:

- 15 credit hours of mathematics or statistics
- nine credit hours of life sciences and social sciences coursework at the senior or college graduate level
- no fewer than three credit hours each of life sciences and social sciences coursework

Applied Prevention Science (Certificate), Certificate (LAAPSGRCT)

Online Degree Search Title: Applied Prevention Science (Graduate Certificate)

Campus: Tempe, Online

Program Description:

There is growing demand for professionals who understand the challenges of mental health and the opportunities and the service approaches that can promote healthy development, including in the social, emotional and interpersonal domains. Relatedly, there is a pressing need to train individuals as professionals who can prevent mental illness and their sequelae.

The certificate program in applied prevention science is valuable for those aspiring to work in fields that provide services to children and families in such diverse settings such as schools, courts, community health centers and mental health agencies, child welfare, home visiting programs, foster care services and tribal behavioral health.

Degree Requirements:

15 credit hours.

Required Core (15 credit hours)

PSY 563 Prevention Planning and Evaluation in Service Settings (3)

PSY 564 Prevention Education, Communication and Service Delivery (3)

PSY 567 Prevention Organization and Community Change (3)

PSY 569 Professional Ethics, Growth and Responsibility in Prevention (3)

PSY 678 Preventive Psychosocial Interventions that Work (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology or in any health, mental health, or counseling-related field, from a regionally accredited institution or an equivalent degree from an international institution that is officially recognized by that country.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa need first to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. Asian Languages and Civilizations (Chinese), MA (LACHINAMA)

Online Degree Search Title: Asian Languages/Civilizations (Chinese), MA

Campus: Tempe

Program Description:

The Chinese graduate program in the School of International Letters and Cultures offers an MA degree with a focus in one of two areas: literature, linguistics, religion and culture; or pedagogy.

A focus on literature, linguistics, religion and culture prepares students for further academic training, for entrance to professional schools in such fields as law, business, journalism and translation, and for a general level of knowledge about the languages and cultures of China as an asset to a professional career.

The pedagogy focus is intended for students whose major interest is in teaching modern Chinese in K-16 environments.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (CHI 593).

Required Core (3 credit hours)

CHI 501/JPN 501 Proseminar: East Asian Humanities (3)

Concentration (3 credit hours)

SLC 596 Second Language Methodologies (3)

Electives (15 credit hours)

Other Requirements (3 credit hours)

CHI 598 Topic: History of the Chinese Language (3)

Culminating Experience (6 credit hours)

CHI 593 Applied Project (6) or

CHI 599 Thesis (6)

Additional Curriculum Information

The MA in Asian languages and civilizations has concentrations in Chinese and Japanese. Students in the Chinese concentration take CHI 501 as required core and students in the Japanese concentration take JPN 501 for core. The course is cross-listed.

Electives are selected in consultation with the program chairperson.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Chinese or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts

- personal statement
- writing sample
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The writing sample should represent the applicant's thinking and writing skills on a topic connected with Chinese culture.

Candidates for the master's degree should present the equivalent of an undergraduate major in Chinese upon entrance to the program. Those who lack this background but show strong potential and meet the Graduate College admission requirements, including those with regard to English proficiency, may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular plan of study for the master's degree.

Asian Languages and Civilizations (Japanese), MA (LAJAPANMA)

Online Degree Search Title: Asian Languages/Civilizations (Japanese), MA

Campus: Tempe

Program Description:

The Asian languages faculty in the School of International Letters and Cultures offer a graduate program leading to an MA in Asian languages and civilizations with a concentration in Japanese.

In addition to preparing students for further academic training, the program helps to prepare students for jobs relating to Japan, in fields such as law, business, journalism and translation, and for entrance into professional schools.

Students who see higher-level understanding of the language and culture Japan as a valuable asset to a professional career are an ideal fit for this program as are students who want to pursue doctoral studies in the same or a closely related field.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (JPN 593).

Required Core (3 credit hours)

CHI 501/JPN 501 Proseminar: East Asian Humanities (3)

Concentration (3 credit hours)

JPN 586 History of Japanology (3)

Electives (18 credit hours)

Culminating Experience (6 credit hours)

JPN 593 Applied Project (6) or

JPN 599 Thesis (6)

Additional Curriculum Information

The MA in Asian languages and civilizations has concentrations in Chinese and Japanese. Students in the Chinese concentration take CHI 501 as required core and students in the Japanese concentration take JPN 501 for core. The course is cross-listed.

Electives are selected in consultation with the program chairperson.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in Japanese or a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The writing sample should represent the applicant's thinking and writing skills on a topic connected with Japanese culture. The personal statement should highlight the applicant's motivations and skills and indicate why they are interested in the Japanese graduate program. Candidates for the program should present the equivalent of an undergraduate major in Japanese upon entrance to the program. Those who lack this background but who show strong potential and meet the Graduate College admission requirements may be admitted to a graduate program on a conditional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular plan of study for the master's degree.

Students should see the School of International Letters and Cultures website for more information.

Asian Studies (certificate), Certificate (LAASIANCE)

Online Degree Search Title: Asian Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate in Asian studies offers graduate students a transdisciplinary specialization in Asian language and area studies.

The certificate program is available in two tracks. The East Asia track includes China, Japan and Korea, and the Southeast Asia track includes Burma, Laos, Thailand, Vietnam, Malaysia, Singapore, Indonesia, the Philippines, Brunei and Timor Leste.

Degree Requirements:

18 credit hours.

Required Core (6 credit hours)

two courses at the 500 level or above dealing with Asian content from a single discipline

Electives (6 credit hours)

two courses at the 500 level or above dealing with Asian content from a discipline other than that chosen for the core courses

Other Requirements (6 credit hours)

language proficiency requirement: two courses at the 400 level or above in one Asian language (Chinese, Indonesian, Japanese, Korean, Thai, Vietnamese)

Additional Curricular Information

Students work closely with a faculty advisor from the Center for Asian Research to develop a cohesive curriculum tailored to their individual goals and interests.

Some of the coursework from the discipline in which the student is earning a graduate degree may be used to satisfy these requirements.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Graduate students currently enrolled in any discipline may pursue a certificate in Asian studies in conjunction with their degree program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. For more information, students should visit <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Astrophysics, PHD (LAASTPHPHD)

Online Degree Search Title: Astrophysics, PhD

Campus: Tempe

Program Description:

The PhD program in astrophysics is designed to develop creative scholarship and prepare students for professional careers in astrophysics, astronomy or related fields.

Graduate students in astrophysics become leaders in observational and theoretical research; they participate in NASA- and NSF-funded space missions and study topics such as how stars are born and die, how galaxies interact and evolve, and how the universe changed as it developed from its earliest beginnings.

The program's world-class faculty have research expertise across the full breadth of astrophysics including the solar system, stars, and galaxies from the Milky Way to the most distant galaxies in the universe. Current ASU research applies both computational and observational approaches to the exploration of a range of topics such as fundamental cosmology and whether there is life on exoplanets.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Electives or Research (51 credit hours)

Other Requirements (20 credit hours)*

AST 521 Stars and Interstellar Medium I (3)

AST 522 Stars and Interstellar Medium II (3)

AST 523 Stars and Interstellar Medium III (3)

AST 531 Galaxies and Cosmology I (3)

AST 532 Galaxies and Cosmology II (3)
AST 533 Galaxies and Cosmology III (3)
AST 591 Seminar: Astrophysics (1)
SES 501 SESE Colloquium (1)

Culminating Experience (12 credit hours)
SES 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree.

*Substitutions for Other Requirements may be made per departmental approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants should see the program website for application deadlines.

Atmospheric Science (certificate), Certificate (LAATMOSCE)

Online Degree Search Title: Atmospheric Science (Graduate Certificate)

Campus: Tempe

This program is not currently accepting applications.

Program Description:

The transdisciplinary certificate in atmospheric science is administered by an executive committee composed of faculty from the Ira A. Fulton Schools of Engineering and The College of Liberal Arts and Sciences. The objective of this program is to recognize Arizona State University graduate students who complete a dissertation on a topic related to the atmospheric or oceanic sciences under the supervision of a faculty member from one of the cooperating departments.

Degree Requirements:

16 credit hours.

A minimum of 16 credit hours will be required in order to qualify for the atmospheric science certificate, consisting of:

three 3 credit hour courses from a list of courses in the core disciplines (9)

two 3 credit hour courses from a list of electives at the 400 level or above (6)
a capstone seminar (1)

Considering the diversity of courses and in order to ensure a transdisciplinary flavor, all prospective recipients have the certificate program approved by the certificate executive committee. Certificates only are awarded to students who are enrolled in an MA, MS, MNS or PhD program at ASU. The student's thesis or dissertation must also be related to some aspect of atmospheric science.

The core courses are offered at least once every other year, so the certificate may be completed within two years.

Specific requirements are:

approval by the certificate committee of the student's proposed course selection
completion of one course from each of the core disciplines with a grade of "B" (3.00) or better
completion of two courses from the list of electives with a grade of "B" (3.00) or better
completion of the capstone seminar, which is one credit hour
completion of a dissertation on a topic related to the atmospheric or oceanic sciences

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Biochemistry, MS (LABIOCHMS)

Online Degree Search Title: Biochemistry, MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

Students earning an MS degree in biochemistry in the School of Molecular Sciences are trained in the fundamental aspects of the discipline, but most also choose to learn by joining transdisciplinary teams that work on larger, mission-based contemporary problems in areas such as:

- biogeochemistry
- energy and sustainability
- fundamental chemical biology
- materials and nanoscience
- medicine and health

- structure function and dynamics

The master's degree program in biochemistry in the School of Molecular Sciences provides students with the training they need to solve biological problems at the molecular scale and to contribute to research in current challenging societal issues.

Degree Requirements:

30 credit hours and a thesis.

500-level or above courses as approved by the school (12)

BCH 501 or CHM 501 Seminar or other seminar course as approved by the school (4)

BCH 592 Research courses (8)

BCH 599 Thesis (6)

Additional Curricular Information

The program consists of coursework and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research. A written thesis is required and must be successfully defended during a public final oral defense. Students must maintain a minimum GPA of 3.00 (scale is 4.00 = "A") or better.

A program fee in the amount of \$300 per semester is required in addition to the normal tuition costs.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry, or closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Biochemistry, PHD (LABIOCHPHD)

Online Degree Search Title: Biochemistry, PhD

Campus: Tempe

Program Description:

The PhD program in biochemistry through the School of Molecular Sciences provides students with the training they need to solve biological problems at the molecular scale and to be successful, independent scientists who can contribute to current challenging societal issues. Students earning a doctoral degree in biochemistry are fully trained in all fundamental aspects of the discipline. Most also choose to join transdisciplinary teams that work on larger, mission-based contemporary problems in areas such as biogeochemistry, energy and sustainability, fundamental chemical biology, materials and nanoscience, medicine and health, and structure function and dynamics.

Students should visit the prospective student site (<https://sms.asu.edu/graduate-study> (<https://sms.asu.edu/graduate-study>)) to learn more about this doctoral program and the graduate research page (<https://sms.asu.edu/graduate-study/>)

research) to learn more about the cutting-edge, transdisciplinary research being conducted in the School of Molecular Sciences. The doctoral program in biochemistry prepares students for professional careers in industry, government and academia.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

six graduate-level courses (12-18)

enrollment in a BCH 501/CHM 501 seminar each semester (8)

BCH 792 Research (46-52)

BCH 799 Dissertation (12)

Additional Curriculum Information

The program consists of coursework and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research. Qualifying exams consisting of a written comprehensive exam, an oral comprehensive exam and a prospectus are required to advance to candidacy. Students must successfully defend their dissertation during a public final oral defense. Students must also maintain a minimum GPA of 3.00 (scale is 4.00 = "A") or better.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry, or closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

In addition to the admission application, applicants must complete an online supplemental application to the School of Molecular Sciences. The supplemental application is available 24 to 48 hours after submission of the admission application. The personal statement and contact information for the letters of recommendation are submitted as part of the supplemental application. Information about the supplemental application can be found on the department's website. Applications lacking a supplemental application are not reviewed.

Biochemistry (Medicinal Biochemistry), MS (LABCHMCMS)

Online Degree Search Title: Biochemistry (Medicinal Chemistry), MS

Campus: Tempe

Program Description:

The faculty in the School of Molecular Sciences offer a program leading to the MS in biochemistry with a concentration in medicinal chemistry. This program is intended for students who plan to continue their educational training in pharmacy or medical school or in a related field and want to expand their background knowledge in biochemistry before beginning their professional education.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and

master's degree with:

- Biochemistry, BS
- Biochemistry (Medicinal Chemistry), BS
- Chemistry, BS
- Molecular Biosciences and Biotechnology, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project (research paper) course (CHM 593 or BCH 593).

A minimum of 30 credit hours are required, including coursework, seminars, research and an applied project consisting of a written research paper. Courses are selected by students in consultation with their supervisory committee based on the research area.

The Master of Science in biochemistry is awarded when the student has obtained a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in coursework, demonstrated quality performance in the laboratory and completion of the research project, completed and presented an approved research paper at an oral defense to the student's supervisory committee, and met all deadline dates and requirements set by the Graduate College.

A program fee in the amount of \$300 per semester is required in addition to the normal tuition.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry, or closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants interested in pursuing the accelerated degree program should review the requirements and submit a pre-application found on the School of Molecular Sciences website prior to submitting a formal Graduate Admission Services application to the degree program.

Biology, MS (LABIOMS)

Online Degree Search Title: Biology, MS

Campus: Tempe

Program Description:

This MS in biology is a flexible program based in research and around a student's individual research interests, allowing students to explore areas of biology that thrive outside of traditional boundaries. This master's program is designed to prepare students for careers in teaching and research in educational, medical, industrial and governmental institutions.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Biological Sciences, BS
- Biological Sciences (Biology and Society), BS
- Biological Sciences (Biomedical Sciences), BS
- Biological Sciences (Conservation Biology and Ecology), BS
- Biological Sciences (Genetics, Cell and Developmental Biology), BS
- Biological Sciences (Neurobiology, Physiology and Behavior), BS
- Microbiology, BS
- Microbiology (Medical Microbiology), BS
- Molecular Biosciences and Biotechnology, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

Each student's plan is prepared in consultation with the supervisory committee, consisting of a professor in the major and two additional faculty members. A typical plan of study consists of:

- research credit (8-14 credit hours)
- coursework and additional seminars (9-15 credit hours)
- seminar (1 credit hour)
- thesis (6 credit hours)

The remainder of the plan of study usually consists of a mixture of coursework, readings, conferences and seminars in the student's primary and related fields, and research credits.

Courses and research credits can be distributed in any combination appropriate to the student's individual educational goals. A final oral examination covering the thesis and related subject matter is administered by the supervisory committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biology or a related discipline, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

It is desired that applicants have research experience.

Biology, PHD (LABIOPHD)

Online Degree Search Title: Biology, PhD

Campus: Tempe

Program Description:

The PhD program in biology offers individualized courses of study tailored to students interests that include laboratory, field and theoretical work. Flexibility in the program is achieved by requiring only one core class, which is a choice between two topics that cover the breadth of the research directions in this program.

Electives are also as flexible as possible and include areas outside of biology. The major goal is to provide opportunities to create an adaptable and general degree program that allows both traditional and interdisciplinary approaches in any area of biology.

Degree Requirements:

84 credit hours, a oral comprehensive exam, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3-4 credit hours)

BIO 614 Biometry (4) or

BIO 620 Research Prospectus Writing (3)

Electives (68-69 credit hours)

Culminating Experience (12 credit hours)

BIO 799 Dissertation (12)

Additional Curriculum Information

The program is tailored to the needs of the individual student. The plan of study is developed by the student and a supervisory committee consisting of a major professor and three additional faculty members. The electives credit hours are comprised of coursework showing breadth in biology subdisciplines, seminars and research.

An oral comprehensive examination is required in order to advance to candidacy and a formal defense of the final written dissertation is required prior to graduation.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biology or a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Research experienced is desired for entry into this program.

Biology (Biology and Society), MS (LABIOSMS)

Online Degree Search Title: Biology (Biology and Society), MS

Campus: Tempe

Program Description:

In the biology and society concentration of the MS program in biology, students examine topics where biology intersects with society. The concentration tailors individual plans of study to individual needs and interests, with a solid grounding in the life and related sciences and with a rigorous analytical and interdisciplinary education. The program offers suggested courses for those wishing to focus on these areas: bioethics, policy and law; biology education research; ecology, economics and ethics of the environment; and history and philosophy of science.

Bioethics, policy and law --- Students are trained in the pressing moral, policy and legal issues raised by the biosciences and biomedicine and in the disciplinary methods necessary to address these issues.

Biology education research --- This focuses on using education research to identify ways to improve undergraduate biology education broadly.

Ecology, economics and ethics of the environment --- This area trains students in the theory and empirical methods for understanding, analyzing and shaping policy for coupled human-natural systems.

History and philosophy of science --- Students are trained in the conceptual foundations of science, especially the epistemological and methodological assumptions that shape science and its progress.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Biological Sciences, BS
- Biological Sciences (Biology and Society), BS
- Biological Sciences (Conservation Biology and Ecology), BS
- Biological Sciences (Genetics, Cell and Developmental Biology), BS
- Biological Sciences (Neurobiology, Physiology and Behavior), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

An individual student plan is developed in consultation with the student's advisor and committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students are expected to have completed the equivalent of core requirements for an undergraduate major in biology or a related discipline (typically evolution, genetics and other courses appropriate to the student's particular interests). Students without an undergraduate-level competency in the

sciences may be considered for conditional admission to the biology and society concentration.

Biology (Biology and Society), PHD (LABIOSPHD)

Online Degree Search Title: Biology (Biology and Society), PhD

Campus: Tempe

Program Description:

In the biology and society concentration of the PhD program in biology, students examine topics with biological and social dimensions that are best understood together rather than in isolation. The concentration provides plans of study tailored to individual needs and interests. It encompasses a solid foundation in life sciences and related sciences and provides a rigorous analytical and interdisciplinary education. Students may further specialize in one of four tracks:

Bioethics, policy and law --- This track focuses on pressing moral, policy and legal issues raised by biosciences and biomedicine and on the methods needed to address them.

History and philosophy of science --- This track focuses on the conceptual foundations of science, especially the epistemological and methodological assumptions that shape science and its progress.

Ecology, economics and ethics of the environment --- This track focuses on the theory and empirical methods for understanding, analyzing and shaping policy that steer society toward a more productive, equitable and sustainable ecological future.

Biology education research --- This track focuses on using education research to identify ways to broadly improve undergraduate biology education.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3-4 credit hours)

BIO 614 Biometry (4) or

BIO 620 Research Prospectus Writing (3)

Electives (68-69 credit hours)

Culminating Experience (12 credit hours)

BIO 799 Dissertation (12)

Additional Curriculum Information

An individual student program is developed in consultation with the student's advisor and committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Students are expected to have completed the equivalent of core requirements for an undergraduate major in biology or a related discipline (typically evolution, genetics and other courses appropriate to the student's particular interests). Students without an undergraduate-level competency in the sciences may be considered for conditional admission to the biology and society concentration.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Biology (Complex Adaptive Systems Science), PHD (LABIOCPHD)

Online Degree Search Title: Biology (Complex Adaptive Systems Science), PhD

Campus: Tempe

Program Description:

The PhD program in biology with a concentration in complex adaptive systems science trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences.

The program is tightly integrated with diverse, ongoing university-wide research on complex adaptive system science at Arizona State University and emphasizes the value of a complex adaptive perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing society today. Students become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study, and candidates typically have a member of the complex adaptive systems science graduate faculty as a member of the doctoral supervisory committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Only students admitted to participating doctoral programs may apply for a complex adaptive systems concentration. A letter of application from the student must be sent to the chair of the complex adaptive systems science graduate faculty. The application is reviewed by members of the graduate faculty who make final admission recommendations to the Graduate College.

Chemistry, MS (LACHEMMS)

Online Degree Search Title: Chemistry, MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

Students earning an MS degree in chemistry in the School of Molecular Sciences are trained in the foundation disciplines of analytical, organic, physical, inorganic, and environmental chemistry and geochemistry. Most will also choose to learn by joining transdisciplinary research teams that work on larger, mission-based contemporary problems in areas such as:

- energy and sustainability
- frontiers of chemical measurement
- fundamental molecular science
- geologic and biospheric science
- materials and nanoscience
- medicine and health
- structure function and dynamics

The master's degree program in chemistry provides students with the training they need to solve molecular scale problems and to contribute to research in current challenging societal issues.

Degree Requirements:

30 credit hours and a thesis.

500-level or above courses as approved by the school (12)

BCH 501 or CHM 501 Seminar or other seminar course as approved by the school (4)

CHM 592 Research (8)

CHM 599 Thesis (6)

Additional Curriculum Information

The program consists of coursework and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research. A written thesis is required and must be successfully defended during a public final oral defense. Students must maintain a minimum GPA of 3.00 (scale is 4.00 = "A") or better.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry, or closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

- structure function and dynamics

Students should visit the prospective student page (<https://sms.asu.edu/graduate-study> (<https://sms.asu.edu/graduate-study>)) to learn more about this doctoral program and the graduate research page (<https://sms.asu.edu/graduate-study/research>) to learn about the cutting-edge, transdisciplinary research being conducted in the school. The doctoral program in chemistry prepares students for professional careers in industry, government and academia.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

six graduate-level courses (12-18)

enrollment in a BCH 501 or CHM 501 seminar each semester (8)

CHM 792 Research (46-52)

CHM 799 Dissertation (12)

Additional Curriculum Information

The program consists of coursework and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research.

Qualifying exams consisting of a written comprehensive exam, an oral comprehensive exam and a prospectus are required to advance to candidacy. Students must successfully defend their dissertation during a public final oral defense.

Students must also maintain a minimum GPA of 3.00 (scale is 4.00 = "A") or better.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

In addition to the admission application, applicants must complete an online supplemental application to the School of Molecular Sciences. The supplemental application is available 24 to 48 hours after submission of the admission application. The personal statement and contact information for the letters of recommendation are submitted as part of the supplemental application. Information about the supplemental application can be found on the School of Molecular Sciences website. Applications lacking a supplemental application are not reviewed.

Classical Liberal Education and Leadership, MA (LACLEDLMA)

Online Degree Search Title: Classical Liberal Education and Leadership, MA

Campus: Tempe

Program Description:

The MA program in classical liberal education and leadership, offered by the School of Civic and Economic Thought and Leadership, immerses students in timeless conversations about the big questions of human life.

All classes are taught through the Socratic discussion method, and students are provided with regular opportunities to hone their pedagogical leadership skills by leading select course meetings and receiving feedback on their progress as Socratic discussants. As in most graduate programs in the humanities and social sciences, students are evaluated primarily through written assignments that evidence careful thought and reflection, argumentation and textual analysis. Courses are offered across a wide range of subject areas including literature, politics, philosophy, mathematics and science, and leadership.

Degree Requirements:

30 credit hours including a thesis.

Required Core (15 credit hours)

CEL 501 Literary Leaders (3)

CEL 503 Classic Texts in Political Philosophy and Justice (3)

CEL 510 Classic Texts in Natural Science and Philosophy (3)

CEL 513 Classic Texts in Leadership and Statesmanship (3)

CEL 520 Classic Texts in the Foundations of Logic (3)

Restricted Elective (3 credit hours)

Open Electives or Research (12 credit hours)

Culminating Experience (6 credit hours)

CEL 599 Thesis (6)

Additional Curriculum Information

For the restricted elective, students select one course from an approved list. Students should see the School of Civic and Economic Thought and Leadership for the most current list. Other courses may be substituted with approval of the academic unit.

Open electives and research are selected in consultation with the academic advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in liberal arts, political science, history, philosophy, theology, the natural sciences or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Communication, MA (LACOMMOMA)

Online Degree Search Title: Communication, MA

Campus: Online

Program Description:

The MA program in communication is designed to provide professionals with advanced training in the theory and practice of communication, preparing them for success in their careers and a dynamic job market.

The flexible delivery offers easy access to a rigorous education that delivers instruction in social influence, global communication, best workplaces practices and more. The program includes a culminating experience that allows students to focus their training in their areas of interest.

Degree Requirements:

30 credit hours including the required capstone course (COM 550).

Required Core (9 credit hours)

COM 501 Research Methods in Communication (3)
COM 504 Theories and Models in Communication (3)
COM 540 Conducting Communication Research (3)

Other Requirements (18 credit hours)

COM 598 Topic: Communication and Conflict Transformation (3)
COM 598 Topic: Communication and Gender (3)
COM 598 Topic: Communication in Global Contexts (3)
COM 598 Topic: Communication in the Workplace (3)
COM 598 Topic: Crisis Management and Communication (3)
COM 598 Topic: Negotiation Theory and Practice (3)
COM 598 Topic: Social Influence and Persuasion (3)
COM 598 Topic: Training and Development (3)

Culminating Experience (3 credit hours)

COM 550 Capstone (3)

Additional Curriculum Information

For the Other Requirements, students must choose 18 credit hours of COM 598 topics.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in communication or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Communication, PHD (LACOMMOPHD)

Online Degree Search Title: Communication, PhD

Campus: Tempe

Program Description:

The Hugh Downs School of Human Communication offers a transdisciplinary graduate program leading to the PhD in communication.

This program provides coursework and resources in interpersonal communication, intercultural communication, organizational communication, health communication, rhetoric and performance studies. Students receive training in communication theory, research methodology and multiple areas of emphasis, and they actively participate in one or more of the School's collaborative research initiatives.

The program is designed to meet the needs of students whose interests transcend traditional disciplinary boundaries and to prepare scholars for research-oriented careers in universities and in the public or private sectors.

Degree Requirements:

96 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (9 credit hours)

COM 604 Theory Construction in Communication (3)

Choose two:

COM 607 Contemporary Rhetorical Methods (3)

COM 608 Multivariate Statistical Analysis of Data in Communication (3)

COM 609 Advanced Qualitative Research Methods in Communication (3)

Electives (45 credit hours)

Other Requirements (24 credit hours)

COM 691 Seminar (24)

Research (6 credit hours)

COM 792 Research (6)

Culminating Experience (12 credit hours)

COM 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree; 66 credit hours are required beyond an appropriate master's degree.

At least six elective credit hours must be coursework outside of the communication field.

Required are 24 credit hours of various COM 691 Seminar topics.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- statement of goals
- three letters of recommendation
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants should visit the Hugh Downs School of Human Communication website for further details.

Comparative Culture and Language, PHD (LAILCPHD)

Online Degree Search Title: Comparative Culture and Language, PhD

Campus: Tempe

This program's name has changed effective Fall 2020. The previous name was International Letters and Cultures.

Program Description:

The PhD program in comparative culture and language offers professional training that is linguistically well-grounded, historically and culturally informed, and methodologically transdisciplinary through courses and supervision of research. Central to the program is the critical inquiry of primary texts, media and cultural expressions, aiming at an original understanding of cultures and social groups in their formations, interactions and transformations throughout history.

This degree program is attentive to the various roles of language in societies and in the different perspectives through which language can be studied --- among other aspects, its variations, transformations, hybridizations and processes of acquisition. The doctorate in comparative culture and language focuses particularly on research questions and themes that cannot be fully explored within the traditional disciplinary boundaries; instead, it fosters dynamic collaboration across disciplines in order to engage in the production of knowledge that is crucial to understanding transnational and transcultural interactions across time and space.

The program provides an innovative intellectual platform that advances transdisciplinary research and teaching. In consultation with their advisor, students arrange their coursework in a primary and a secondary area of emphasis. Both areas are organized around interdisciplinary study and research in more than one language. Advanced language requirements vary depending on chosen areas of research. Sample programs of study might include a primary emphasis area in medieval theater and a secondary emphasis area in medieval book culture, with a focus on France and Italy, or students might study multilingualism from a comparative sociolinguistic perspective, comparing trilingual communities like the Yaquis in Arizona and the Uros in Bolivia. Faculty members are drawn from various departments and programs in the humanities and social sciences.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

SLC 602 Comparative Cultural Theory (3)

Restricted Electives (36 credit hours)

primary field of study (18)

secondary field of study (18)

Elective and Research (21 credit hours)

Foreign Language (12 credit hours)

Culminating Experience (12 credit hours)

SLC 799 Dissertation (12)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative of GPA 3.30 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should describe the questions, issues, or challenges the student plans to explore through the doctoral program in comparative culture and language and explain how previous studies, training, or professional experiences prepare the student for this research. It should include a proposed plan of study based on the current graduate-level offerings at ASU. In a brief statement, the student should indicate how those courses will be preparation for the dissertation, how the plan fits with the description and goals of this doctoral program, and why the proposed program does not fit some other degree program.

Applicants must provide a 15- to 20-page writing sample in English; a writing sample in the primary language of interest may also be requested at

the discretion of the admissions committee. The writing sample should reflect the student's analytical and critical skills.

Computational Life Sciences (Certificate), Certificate (LACMLSGRCT)

Online Degree Search Title: Computational Life Sciences (Graduate Certificate)

Campus: Tempe

Program Description:

Students in the computational life sciences graduate certificate program develop expertise in the understanding, interpretation and analysis of diverse data types generated from a variety of life sciences disciplines, including ecology, botany, evolutionary biology, neuroscience, molecular and cellular biology, and animal behavior.

Degree Requirements:

16 credit hours including a portfolio.

Required Core (1 credit hour)

BIO 611 Current Topics in Responsible Conduct of Research (RCR) in Life Sciences (1)

Electives (15 credit hours)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

Elective coursework is selected from a restricted list in consultation with the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in life sciences or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The written statement should discuss the applicant's future career goals, to better assist the student with selecting the most applicable set of courses in computational life sciences.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Computer-Assisted Language Learning (Certificate), Certificate (LACALLGRCT)

Online Degree Search Title: Computer-Assisted Language Learning (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in computer-assisted language learning focuses on the application of technology in foreign language teaching and research.

The program teaches the practical, hands-on skills needed to create and evaluate learning and teaching materials with new computer-based technologies. Students learn how to use technology effectively to facilitate instructed second-language acquisition and how to develop, manage and maintain a cutting-edge language computing facility. The program also provides students with a solid theoretical and pedagogical framework for the integration of technology into the foreign language curriculum and provides them with the tools necessary to teach language courses in either a hybrid or distance-learning environment.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

ENG 557 Computer-Assisted Language Learning (3)

SLC 510 Computer-Assisted Language Learning Praxis (3)

Restricted Electives (3 credit hours)

LIN 520 Second-Language Acquisition Theories (3) OR

SLC 515 Second-Language Acquisition (3)

Electives (6 credit hours)

Additional Curriculum Information

For restricted electives, students may select an approved second language acquisition course equivalent to LIN 520 or SLC 515 with department approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned from a regionally accredited institution a bachelor's or master's degree with a major or minor in foreign language study, English or English education.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Students may apply for admission to the certificate program once they have been accepted into a graduate degree program in the School of International Letters and Cultures or other school or department at ASU.

Applicants must have an undergraduate major in the language they will teach or be native speakers of the language they will teach, or they must have a minor or ASU minor equivalency as determined by SILC policies (18 upper-division credit hours, including at least three credit hours from the 400 level in their undergraduate program). Current graduate student applicants who do not meet the language requirements must be enrolled in a foreign language graduate program, the Teaching English to Speakers of Other Languages program, an applied linguistics graduate program, or a closely related field (determined by the directors). A teaching certification is not required as this certificate program is open to graduate students with an interest in computer-assisted language learning and who meet the admission requirements.

Applicants must have completed an introduction to linguistics or applied linguistics course at the time of application (to be verified by the certificate directors). The course does not count toward the 15 credit hours required for the certificate.

Applicants must complete a language teaching methods course (to be verified by the certificate directors). This course also may be taken at ASU prior to completion of the certificate program. The course does not count toward the 15 credit hours required for the certificate.

Creative Writing, MFA (LACWRITMFA)

Online Degree Search Title: Creative Writing, MFA

Campus: Tempe

Program Description:

The MFA in creative writing at ASU has always been an unswervingly student-first program. Through small classes, intimate workshops or one-to-one mentoring, the centuries-old apprenticeship model thrives within the New American University. Poets and fiction writers work with outstanding faculty who have published more than 80 books and garnered national and international attention through awards that include:

- Guggenheim, Howard Foundation, and National Endowment for the Arts fellowships
- International Griffin Poetry Prize
- Pulitzer Prize
- two Medals of Achievement from the National Society of Arts and Letters
- Walt Whitman Award from the Academy of American Poets

Additionally, in concert with the Master of Fine Arts program, the Virginia G. Piper Center for Creative Writing offers students a variety of creative and global fellowship opportunities each year, including two teaching fellowships in Singapore; two creative research fellowships to provide support for summer writing projects; and other generous forms of support that include graduate assistantships, travel scholarships, professional development support, and other teaching and leadership opportunities.

Furthermore, students have access to a variety of professional development opportunities, including serving on the editorial board of an international literary journal, Hayden's Ferry Review and internships with Four Way Books.

Degree Requirements:

48 credit hours, a written comprehensive exam, and an applied project (ENG 593).

Coursework (39 credit hours)

Other Requirement (6 credit hours)
ENG 592 Research (6)

Culminating Experience (3 credit hours)
ENG 593 Applied Project (3)

Additional Curriculum Information

The creative writing program requires 48 credit hours of study evenly divided between writing courses and literature courses designed to inform that writing.

While students are expected to satisfy these requirements in the genre in which they were accepted, the program encourages cross-genre study and electives can include courses taken outside of the creative writing program, even outside the English department.

A written comprehensive exam and an applied project are required.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Applicants should have an undergraduate major in English or creative writing; however, exceptional students who do not have either of these undergraduate majors may be admitted on the basis of writing excellence.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- creative manuscript
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students applying for a teaching assistantship must submit a statement of teaching philosophy and an academic writing sample.

The personal statement should include the applicant's writing background, intended area of specialization, a brief self-evaluation of recent work and the applicant's goals. The statement should be single-spaced, up to 1000 words.

The creative manuscript should be up to 20 pages of poetry or up to 30 pages of prose (prose should be double-spaced).

The three letters of recommendation must consist of one copy of each letter from three recommenders.

Applicants should see the Department of English website for details.

Critical Theory (certificate), Certificate (LACRTGRCT)

Online Degree Search Title: Critical Theory (Graduate Certificate)

Campus: Tempe, West

Program Description:

The certificate in critical theory provides students with historical and thematic approaches to critical theory and promotes the skills required for the interpretation and production of concepts based in continental philosophy and used broadly in the arts, humanities and social sciences. Students learn about key thinkers and movements in critical theory. Such theory offers tools for creating a critical engagement with society and culture, for interpreting social and cultural objects and texts and for the production of new theoretical ideas.

This transdisciplinary certificate program provides opportunities to study theoretical approaches as applied across a wide range of arts, humanities and social science disciplines.

Degree Requirements:

15 credit hours and a Portfolio.

Required Core (3 credit hours)

ENG 502 Contemporary Critical Theories (3)

Electives (12 credit hours)

Culminating Experience (0 credit hours)

portfolio (0)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Specific details about English proficiency requirements are available on the Department of English website.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

The graduate certificate in critical theory is available to all ASU graduate students irrespective of their major and to nondegree graduate students and working professionals provided they meet eligibility criteria. Sample majors include English; women and gender studies; art history; and, arts, media and engineering.

Eligible applicants must have taken two courses in critical theory or related field at the upper-division undergraduate level (such as ENG 401 Topics in Critical Theory) or at the graduate level (such as ENG 502 Contemporary Critical Theories).

After submitting the online application, applicants must email unofficial transcripts, a brief statement of purpose explaining the student's areas of interest in critical theory, and a resume to the graduate program manager in the Department of English, with this subject line: Critical Theory Certificate Application.

Digital Humanities (Certificate), Certificate (LACDHGRCT)

Online Degree Search Title: Digital Humanities (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in digital humanities provides students with methods and skills central to conducting humanities research that employs both qualitative and quantitative approaches.

The program is designed to promote cross-disciplinary study in humanities and social and computational sciences, and is open to students in all disciplines. The program features training in transdisciplinary collaboration, project-based communication skills, critical theory and the simultaneous application of quantitative and qualitative problem-solving skills.

This certificate highlights an area of excellence within ASU that has emerged across its colleges, schools and departments and is integral to the Academic Catalog Archive 2020-2021

effort of transforming the humanities at ASU into new transdisciplinary configurations.

Degree Requirements:

15 credit hours including an applied project course (CDH 593).

Required Core (3 credit hours)

CDH 501 Digital Humanities: Critical Theory and Methods (3)

Electives (6 credit hours)

Other Requirement (3 credit hours)

CDH 580 Practicum (3)

Culminating Experience (3 credit hours)

CDH 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Admission is open to all ASU graduate students enrolled in an existing master's or doctoral program and in good standing. Students who are interested in transdisciplinary work are particularly well-suited for this certificate program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The program requires a TOEFL score of at least 600 (PBT) or 100 (iBT).

Students will be asked to outline a desired transdisciplinary area of inquiry. For example, a student who works on digital rhetoric and literacy may want to understand how to create and manage social media data sets or how to create a social media application. Alternatively, a student in School of International Letters and Cultures may want to study digital archives of Slavic literature and may need to understand how digital archives are enmeshed in national and capitalist networks.

Disability Studies (Certificate), Certificate (LADISGRCT)

Online Degree Search Title: Disability Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in disability studies focuses on the creation of new knowledge and consequent practical implications in the area of disability. It coordinates courses into an individualized systemic plan of study that trains students to conduct disability research. Students examine disability from diverse perspectives, including disability law and justice, cultural politics of disability, family perspectives, as well as research methods in disability studies. The emphasis for students is on examining and creating new theoretical perspectives and methodological approaches at different levels of analysis while analyzing topics of critical importance locally and globally.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

JUS 530 Social Policy, Critical Advocacy and Disability (3) or

JUS 565 Critical and Comparative Issues in Disability (3)

Electives (12 credit hours)

Additional Curriculum Information

Students should see the academic unit for the pre-approved list of elective coursework. Other coursework may be used with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in areas such as social sciences, education, social work, law, health care and health care policy or any related field from a regionally accredited institution

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

East Asian Languages and Civilizations (Chinese), PHD (LAEALCPHD)

Online Degree Search Title: East Asian Languages and Civilization, PhD

Campus: Tempe

Program Description:

The PhD program in East Asian languages and civilizations is a research-intensive, transdisciplinary, area-based degree in the study of traditional and modern languages and cultures of China. Students may focus on:

- comparative cultural studies
- cultural history
- linguistics
- literary criticism
- literature
- thought

In every case, students are expected to acquire a solid grounding in the classical and modern versions of Chinese.

Degree Requirements:

84 credit hours, two foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

CHI 501 Proseminar: East Asian Humanities (3)

Concentration (6 credit hours)

CHI 514 Advanced Classical Chinese (6)

Other Requirements (39 credit hours)

CHI 598 Topic: History of Chinese Literature (I or II) (3)

CHI 598 Topic: History of the Chinese Language (3)

CHI 598 Special Topics (18)

CHI 591 Seminar (15)

Electives (24 credit hours)

Culminating Experience (12 credit hours)

CHI 799 Dissertation (12)

Additional Curriculum Information

18 credit hours of CHI 598 Special Topics must be comprised of six reading courses, and 15 credit hours of CHI 691 must be comprised of five seminar courses. Other requirements and elective coursework for the degree are to be chosen in consultation with the program chair.

Courses for the other requirements may be substituted with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Applicants specializing in Chinese should have completed at least three years of modern Chinese and one year of classical Chinese.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- speech sample in Chinese or Japanese
- resume or curriculum vitae
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The writing sample, which should be no more than 15 pages, should represent the applicant's thinking as well as writing skills, and it should be on a topic connected with Chinese, Japanese or East Asian culture.

The speech sample is required if the applicant is applying for teaching assistantship funding. The speech sample should be a recorded message approximately four minutes in length, in Chinese or Japanese, on a topic of the applicant's choosing. (Applicants are asked to not read the message. This is to help the committee evaluate the level of proficiency, and the message should realistically reflect the applicant's spoken Chinese or Japanese). Recordings should be emailed to SILC@asu.edu (<mailto:SILC@asu.edu>).

Applicants should see the department website for more information.

English, MA (LAENGLMA)

Online Degree Search Title: English, MA

Campus: Tempe, Online

Program Description:

The MA program in English allows for a variety of transdisciplinary studies within five distinct tracks:

Comparative literature --- Students interpret cultural productions in English and at least one other language, and they explore approaches ranging from textual criticism, critical theory and translation to cultural studies and the social sciences.

Creative writing -- Students in the accelerated BA/MA creative writing track strengthen their artistic practice by participating in intensive creative writing workshops in either fiction or poetry, alongside the study of contemporary literature and innovative creative techniques.

English studies --- Students in this track learn how to interpret and articulate complex cultural, historical, literary and language related ideas into accessible material for general audiences through a series of courses from across disciplinary areas of study.

Literature --- Students develop and hone skills in oral presentation, writing and critical thinking while exploring social, historical and cultural contexts.

Writing, rhetorics and literacies --- This program offers students a wide array of courses encompassing the history, theory and practice of rhetoric and pedagogy of writing.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

English (Creative Writing), BA

English (Literature), BA

English (Writing, Rhetorics and Literacies), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (ENG 593) and a foreign language exam, or 30 credit hours including the required capstone course (ENG 597) and a foreign language exam, or 30 credit hours, a thesis and a foreign language exam.

Required Core (3 credit hours)

ENG 501 Approaches to Research (3)

A student may pursue a track in comparative literature, English studies, literature, or writing, rhetorics and literacies. The creative writing track is available only for students in the accelerated BA/MA creative writing track program. All tracks have a foreign language requirement.

Comparative Literature Track

one course in concept and methods (course in comparative literature, criticism, or translation)

four courses in a language other than English

electives

English Studies Track

one course in linguistics

one course in literature
one course in writing, rhetorics and literacies
one course in English education
electives or research courses

Literature Track

one course in literary theory
a distribution requirement
electives
two courses selected must be graduate seminars at the 600 level

Writing, Rhetorics, and Literacies Track

one course in composition theory
one course in rhetoric theory
electives, which must include six credit hours of graduate seminars at the 600 level

Culminating Experience (3 or 6 credit hours)

ENG 593 Applied Project (3) or
ENG 597 Graduate Capstone Seminar (3) or
ENG 599 Thesis (6)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

The capstone culminating experience option is available to students in the English studies track only. Students in this track must take the capstone. Students in one of the other tracks may select an applied project or thesis for the culminating experience.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

Applicants for the master's degree program in English with a track in comparative literature must prove fluency in a foreign language to a level sufficient for graduate study. The one- to two-page, single-spaced statement of purpose should detail the applicant's background, reasons for wanting to do graduate work in comparative literature, and plans for the future.

Applicants for the master's degree program in English with a track in English studies (the online program) are required to submit two academic or professional letters of recommendation; a third recommendation is optional. An academic writing sample is not required. The two-page, single-spaced statement of purpose should explain how the applicant's academic and professional interests fit with the English studies track of the Master of Arts in English. Applicants with undergraduate majors in English, foreign language, history, philosophy, liberal studies, or other areas in humanities are considered.

Applicants for the master's degree program in English with a track in literature are required to have an undergraduate major in English. Those who do not have a major in English are encouraged to register as nondegree students while they take supplementary courses, as identified by the advisor. The one- to two-page, single-spaced statement of purpose should detail the applicant's background, reasons for wanting to do graduate work in literature, and plans for the future.

Applicants for the master's degree program in English with a track in writing, rhetorics, and literacies may have undergraduate majors in fields such as, but not limited to, anthropology, cognitive science, communication, comparative languages and literatures, education, English literature, history, law, modern languages, philosophy, political science, psychology, religion, rhetoric or composition, sociology, or speech and hearing science. The one- to two-page, single-spaced statement of purpose should detail the applicant's background, reasons for wanting to do graduate work in writing, rhetorics and literacies, and plans for the future.

English (English Education), PHD (LAENEDPHD)

Online Degree Search Title: English (English Education), PhD

Campus: Tempe

Program Description:

The PhD program in English with a concentration in English education prepares students to examine the writing and reading practices of secondary students as well as the instructional practices of secondary English language arts teachers by emphasizing the relationship between pedagogy and research methodologies used to study the teaching of secondary English.

Possible areas for research focus within this program include young adult literature, secondary reading and writing practices, new literacies, English language learning, critical literacy and secondary English language arts curriculum and instruction development. The program encourages students to pursue coursework in other subdisciplines within the Department of English, such as rhetoric and composition, applied linguistics and literature, and coursework in the ASU Mary Lou Fulton Teachers College, such as literacy and educational research methodology.

Students benefit from the program's links to the Central Arizona Writing Project, and this relationship offers opportunities for related coursework, research, community outreach and teacher in-service programs. The doctorate in English education prepares students to become professors of English education or to pursue other relevant opportunities in research and administration.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ENG 501 Approaches to Research (3)

Foundational Distribution (12 credit hours)

Advanced Studies Distribution (12 credit hours)

Internships (9 credit hours)

ENG 784 Internship (9)

Specialization (6 credit hours)

Culminating Experience (12 credit hours)

ENG 799 Dissertation (12)

Additional Curriculum Information

Students must take 12 credit hours at the 500 level, selected from a list of approved courses in education, English, linguistics and applied linguistics for the foundational distribution.

Students must take at least two courses in the area of specialization.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If not approved, the 30 credit hours of coursework will be made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree from a regionally accredited institution. Applicants with master's degrees in English education and related fields, such as English literature, applied linguistics, education, and rhetoric and composition will be considered. A minimum of three years of full-time teaching or volunteer work in secondary English language arts classrooms or in literate-rich settings is required.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Department of English website for specific details about English proficiency requirements.

The one- to two-page statement should explain the applicant's interest in the program and how the applicant's background and preparation led to the specific career and research goals. The three letters of recommendation should be from individuals familiar with the applicant's promise in English education, including one letter from a school principal and two letters from university professors. Applicants applying for funding must also submit a statement of teaching philosophy.

Applicants should see the Department of English website for specific details.

English (Literature), PHD (LAENLITPHD)

Online Degree Search Title: English (Literature), PhD

Campus: Tempe

Program Description:

The PhD program in English with a concentration in literature trains students in the various methodologies, pedagogies and areas of inquiry that constitute literary and cultural studies, and prepares them for careers in higher education and other fields that value this expertise. With a diverse and accomplished faculty, the program offers opportunities for specialization in traditional areas of literary criticism, cultural analysis and theory, as well as various fields of interdisciplinary study.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

A student with an appropriate master's degree must complete a minimum of 54 credit hours of approved graduate work, which includes 12 credit hours of dissertation, provided the student's master's degree is accepted by the supervisory committee and the academic unit. Research hours may be used toward coursework in consultation with the advisor.

A student without an appropriate master's degree must complete 84 credit hours of work at ASU. At the advisor's discretion, students may include up to 12 credit hours of appropriate, graduate-level coursework undertaken at another university and not previously counted toward any other degree.

Specifically required are six credit hours in theory courses and ENG 501 Approaches to Research. Students must complete eight graduate courses

in any of the following categories:

- cultural studies
- ethnic studies
- gender studies
- genre
- history and structure of the English language
- literature 1500-1660
- literature 1660-1900
- literature since 1900
- literature to 1500
- postcolonial or anglophone literatures

Students must take at least five graduate seminars at the 600 level en route to the doctorate, at least three of which must be taken in the doctoral program. Up to 12 credit hours taken outside the department may be counted toward the degree. Students should consult with their supervisory committees when choosing electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements. <https://english.clas.asu.edu/admission/graduate-admission/how-to-apply/information-international-students> (<https://english.clas.asu.edu/admission/graduate-admission/how-to-apply/information-international-students>)

The well-considered, one- to two-page, single-spaced statement of purpose should explain how the applicant's experience and training have prepared him or her for the program as well as the purpose for pursuing the doctorate. Applicants applying for funding must also submit a statement of teaching philosophy. Students should see the Department of English website for specific details.

English (Writing, Rhetorics, and Literacies), PHD (LAENRHTPHD)

Online Degree Search Title: English (Writing, Rhetorics and Literacies), PhD

Campus: Tempe

Program Description:

The PhD in English with a concentration in writing, rhetorics and literacies promotes the study of rhetorical strategies, production, distribution and interpretation of oral, written, digital, visual, discursive, material and symbolic texts.

Students study the history, theories and methods of inquiry as well as pragmatic and social actions of writing, rhetoric and literacies. With theories and methods from both historical and contemporary contexts, students learn strategies for inquiry; the ways in which communication creates

knowledge and action; and how communication is constructed, circulated, reacted to and repurposed over time and across space. Program requirements are designed to encourage a full understanding of theoretical and applied aspects of writing studies, rhetorical studies and literacy studies. Students also will be provided many opportunities to explore the intersections and tensions that exist within and between the three different areas of inquiry.

The program encourages transdisciplinary study, and its flexible requirements enable students to pursue those aspects of the disciplines that interest them the most. The program prepares students for entrance into the field as teachers, scholars and professionals.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, a prospectus and a dissertation, or 84 credit hours, a foreign language exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ENG 501 Approaches to Research (3)

Concentration (9 credit hours)

ENG 551 Rhetorical Traditions (3)

ENG 552 Composition Studies (3)

ENG 556 Theories of Literacy (3)

Focus Area (9 credit hours)

Electives or Research (18 credit hours)

research methods (3)

electives (15)

Other Requirements (3 credit hours)

writing for publication/scholarly writing coursework (3)

Culminating Experience (12 credit hours)

dissertation (12)

Additional Curriculum Information

Students may be allowed 30 credit hours from a previously awarded master's degree as approved by the academic unit and the Graduate College. Student who do not hold a master's degree are required to take additional elective and research credit hours to reach the 84 credit hours required for this program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants with bachelor's or master's degrees in fields such as anthropology, applied linguistics, cognitive science, communication, comparative languages and literatures, English literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology, religion, rhetoric, composition, sociology, and speech and hearing science will be considered.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
 - resume or curriculum vitae
- three letters of recommendation
 - academic writing sample relevant to the field
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Applicants should see the Department of English website for specific details about English proficiency requirements.

In the well-considered, one- to two-page, single-spaced statement of purpose, applicants should explain how their experience and training have

prepared them for the program. Applicants should indicate their career goals and explain how these goals relate to the program in writing, rhetorics and literacies. Applicants applying for funding must also submit a statement of teaching philosophy. Applicants should see the Department of English website for specific details.

English Education, MA (LAENEDMA)

Online Degree Search Title: English Education, MA

Campus: Tempe

Program Description:

The MA in English education is a one-year, intensive program designed to prepare practicing and transitioning teachers for careers as exemplary educators, teacher-researchers and leaders in English language arts instruction.

Students in the program develop a deep understanding of the English language arts by learning how to access, analyze and apply research and best practices for teaching secondary students (grades 7-12). This program balances the refining of disciplinary knowledge with pedagogical application of that knowledge in classrooms. Students take a variety of dynamic, cutting-edge methods courses, including advanced methods courses in research in English education, methods of teaching writing and text, teaching postcolonial young adult literature and teaching writing in an era of standardization.

This innovative course of study culminates with an inquiry project related to English language arts instruction in secondary classrooms. The program empowers students to employ teacher research and inquiry to address questions they have about their own students' learning and their own teaching practice.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

English (Secondary Education), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (ENG 593).

Required Core (12 credit hours)

ENG 501 Approaches to Research (3)

ENG 506 Methods and Issues in Teaching Language (3)

ENG 507 Methods and Issues in Teaching Composition (3)

ENG 606 Advanced Studies in English Education (3)

Electives or Research (12 credit hours)

Other Requirements (3 credit hours)

ENG 594 Conference and Workshop (3)

Culminating Experience (3 credit hours)

ENG 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in English, creative writing, English education, secondary education or secondary curriculum and instruction, or a master's degree in education or a closely related field from a regionally accredited institution. Current certification in secondary English language arts (grades 6-12), or equivalent certification, or a minimum of two years teaching English language arts in a school setting is required.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

The one- to two-page statement of purpose should explain the applicant's background, reasons for wanting to do graduate work in English education, and goals. Three academic or professional letters of recommendation are required, and at least one must be from a faculty member familiar with the applicant's academic work.

Environmental Communication and Leadership (Certificate), Certificate (LAECLGRCT)

Online Degree Search Title: Environmental Communication and Leadership (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

Scientists must go beyond publishing in journals if they want their research to be relevant to society. However, academic training rarely covers how to communicate with the press, the public, policymakers and other relevant stakeholders.

This certificate program in environmental communication and leadership gives graduate students in environmental disciplines the important leadership and communication skills needed to increase their influence and reach above and beyond academia.

Degree Requirements:

15 credit hours.

Required Core (3)

BIO 578 Environmental Leadership and Communication (3)

Electives (12)

policy and management (3)

communication (3)

leadership (3)

open elective (3)

Additional Curriculum Information

Students must choose three credit hours from each of the three categories with approval of the School of Life Sciences. If a student takes a course for fewer than three credit hours, the student must take more than one course in that category to meet the three credit hour requirement. Students should contact the School of Life Sciences for a complete list of courses.

Students choose one three credit hour elective course from any of the three categories above. Students should note that only three credit hours of approved 400 level coursework can appear on the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.
Academic Catalog Archive 2020-2021

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Sample related fields include business, education, biology, geosciences, political science and English.

Applicants must have completed 12 undergraduate credit hours of natural science or social science coursework related to the environment at the time of application to the graduate certificate program. They must meet all other graduate admissions requirements. Courses are reviewed by the School of Life Sciences graduate committee to ensure that they fulfill this requirement.

Environmental Life Sciences, PHD (LAELSPHD)

Online Degree Search Title: Environmental Life Sciences, PhD

Campus: Tempe

Program Description:

The PhD in environmental life sciences is a novel graduate degree program that provides doctorate-level training in several complementary fields focused on the interactions between organisms (e.g., plant, microbe, people and other animals) and the environment.

This unique program provides opportunities to train across many fields of study, including:

- biology
- biochemistry and chemistry
- conservation science
- ecology
- evolutionenvironmental engineering
- geosciences
- mathematics and statistics
- spatial sciences
- social sciences
- sustainability

Graduate students are trained by means of a core class taught by environmental life science faculty members, through hands-on experiences in the lab and field, with guidance from committee members across multiple disciplines, and in research seminars.

The focus is on collaborative, interdisciplinary and integrative study of the causes and consequences of environmental variation across scales ranging from the organism to the globe. The overall goal is to provide a unique, interdisciplinary doctoral program that encourages students to explore and solve complex problems in the context of natural and anthropogenic environmental change.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ELS 501 Environmental Life Sciences: Grand Challenge: Global Climate Change (3)

Electives (69 credit hours)

Culminating Experience (12 credit hours)

ELS 799 Dissertation (12)

Addition Curriculum Information

ELS 501 is required for students to take during their first semester at ASU.

For electives, students should see the academic unit for approved coursework. Students also may take ELS omnibus courses to fulfill some of the elective requirements.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework are made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Environmental Social Science, PHD (LAESSPHD)

Online Degree Search Title: Environmental Social Science, PhD

Campus: Tempe

Program Description:

The PhD program in environmental social science is one of the few doctoral degree programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices is difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability

- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

Students work with faculty who have expertise in a broad range of fields including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

The program trains students to move into teaching and research positions or to assume leadership roles in government, industry or nongovernmental organizations.

Coursework for the degree is focused on developing real-world skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate degree program. This leaves 30 credit hours of coursework, 12 credit hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctorate degree program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may submit an optional scholarly writing sample, not to exceed 20 to 30 double-spaced pages, to be included in the application materials.

Environmental Social Science (Complex Adaptive Systems Science), PHD (LAESSCPHD)

Online Degree Search Title: Environmental Social Science (Complex Adaptive Systems Science), PhD

Campus: Tempe

Program Description:

The PhD program in environmental social science is one of the few doctoral degree programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices will be difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

Students work with faculty who have expertise in a broad range of fields including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

The program trains students to move into teaching and research positions or to assume leadership roles in government, industry and nongovernmental organizations.

Coursework for the degree is focused on developing real-world skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

The complex adaptive systems science doctoral concentration trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems science at Arizona State University and emphasizes the value of a complex adaptive systems perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing our society today. Students will become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (9 credit hours)

Concentration (12 credit hours)

Electives or Research (21 credit hours)

Culminating Experience (12 credit hours)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework will be made up of electives and research.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study and typically have a member of the complex adaptive systems science graduate faculty as a member of their doctoral supervisory committee.

Students should see the academic unit for a complete list of approved electives and concentration courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may submit an optional scholarly writing sample, not to exceed 20 to 30 double-spaced pages, to be included in their application materials.

Environmental Social Science (Urbanism), PHD (LAESSURPHD)

Online Degree Search Title: Environmental Social Science (Urbanism), PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The PhD in environmental social science is one of the few doctoral degree programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices will be difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

Students work with faculty who have expertise in a broad range of fields including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

The program trains students to move into teaching and research positions or to assume leadership roles in government, industry or in nongovernmental organizations.

Coursework for the degree is focused on developing real-world skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

The concentration in urbanism leverages the varied interests in urbanism and helps emerging scholars as they attempt to compare, contrast and take stock of urbanism. Working with faculty from across a range of departments and programs at ASU, doctoral students are able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative, constructive kind of inquiry.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate. This leaves 30 credit hours of coursework, 12 credit hours of research and 12 credit hours of dissertation (54 credit hours total) to be earned post admission.

Students entering without a master's degree must earn an additional 30 credit hours of graduate coursework, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate degree program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

All students entering the program complete 18 credit hours of core classes in conceptual domains and topical foci. For the concentration in urbanism, 15 credit hours are to be selected from an approved list of applicable courses related to urbanism. Some of the environmental social science core courses also count toward the concentration in urbanism. These courses include the core urbanism course GCU 516 as well as one course from each of the four urbanism clusters:

culture and society
institutions and governance
natural environment

Additional credit hours come from courses in research design, technical expertise and electives. Students may select from a substantial range of courses to satisfy noncore requirements.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may submit an optional scholarly writing sample, not to exceed 20 to 30 double-spaced pages, to be included in their application materials.

Evolutionary Biology, PHD (LAEVOPHD)

Online Degree Search Title: Evolutionary Biology, PhD

Campus: Tempe

Program Description:

The evolutionary biology PhD is a transdisciplinary graduate degree program that provides doctorate-level training in the historical, conceptual, empirical and quantitative aspects of biological evolution.

Evolution is a fundamental scientific concept underlying all aspects of modern biological, environmental and health-related research. It cuts across biological sciences in ways that few other foci do and informs the theoretical foundations of subfields like population genetics and ecosystem ecology. It allows integration of information and patterns across levels of organization, informs the theoretical foundations of subfields ranging from population genetics to systematics to ecosystem ecology, and provides bridges between temporal and spatial scales.

Forgoing emphases on particular taxa or methods, the program focuses on understanding the patterns and processes that have shaped life on Earth and continue to do so, training the next generation of scientists to use this knowledge to meet present and future challenges to the biosphere and human health in the face of increasing environmental perturbation.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (9 credit hours)

BIO 614 Biometry (4)
EVO 601 Principles of Evolution (3)
EVO 610 Research Areas of Evolution (2)

Electives (9 credit hours)

The program advisor as well as the student's advisor will determine these courses in conjunction with the student.

Other Requirements (54 credit hours)

research, coursework or 30 credit hours from a previously awarded master's degree

Dissertation (12 credit hours)

EVO 799 Dissertation (12)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in a related discipline, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Evolutionary Medicine (Certificate), Certificate (LAEVMDGRCT)

Online Degree Search Title: Evolutionary Medicine (Graduate Certificate)

Campus: Tempe

Program Description:

With rising need for health science-related skills and an aging population in the United States, innovations in health and medicine are in demand.

Evolutionary medicine is a new and burgeoning field situated between the life and social sciences that integrates the fields of genetics, medicine, global health, evolutionary biology and public health to transform understanding of disease and improve human health. Students that complete this certificate program learn how to integrate perspectives from across fields to answer questions about health and disease in the context of human life history.

Students are introduced to integrated approaches within the biological and social sciences that are capable of addressing an emerging, anticipated public need such as reemerging infectious disease, challenges with vaccines, the expansion of chronic disease and other growing public health crises.

Degree Requirements:

15 credit hours including the required capstone course (Bio 571).

Required Core (3 credit hours)

ASB 507/BIO 507 Advanced Evolutionary Medicine (3) or

ASM 503/BIO 510 Evolutionary Medicine and Global Health (3)

Restricted Electives in Anthropology (3 credit hours)

ASB 503 Medical Anthropology (3)

ASB 510 Health: Social and Biocultural Theories (3)

Restricted Electives in Biology (3 credit hours)

ASM 546/BIO 546 Principles of Human Genetics (3)

BIO 545 Populations: Evolutionary Genetics (3)

EVO 601 Principles of Evolution (3)

Electives or Research (3 credit hours)

Culminating Experience (3 credit hours)

BIO 571 Evolutionary Medicine Capstone (3)

Additional Curriculum Information

Students choose one course from an approved list of electives or research courses and cannot choose courses already taken for required core or restricted electives in anthropology and biology. For restricted electives in anthropology and biology, students must choose one course from the list indicated for each subject.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the life or social sciences or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The professional resume should demonstrate the applicant's skills and previous training.

The written statement asks about future career goals to better assist the student with selection of the most applicable set of courses in evolutionary medicine.

International students who need an F1 or 1 J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Exploration Systems Design, PHD (LAESDPHD)

Online Degree Search Title: Exploration Systems Design, PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The PhD program in exploration systems design offers students an advanced systems approach for developing scientific exploration technologies in a wide variety of demanding environments on the earth, planets, moons and in space.

This transdisciplinary degree program provides a unique platform to train systems engineers targeting technological development for exploration science. This collaborative program between the School of Earth and Space Exploration and the Ira A. Fulton Schools of Engineering allows students to specialize in topics related to planetary exploration, astronomical instrumentation, robotics, sensors and sensor networks.

The curriculum integrates the School of Earth and Space Exploration's science, instrumentation and systems engineering core courses with related coursework from the Ira A. Fulton Schools of Engineering. Students must select a concentration as part of this degree program. Concentrations are available in instrumentation, systems engineering and sensor networks.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Electives or Research (70 credit hours)

Other Requirements (1 credit hour)

SES 501 SESE Colloquium (1)

Culminating Experience (12 credit hours)

SES 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree. Related fields include, but are not limited to, engineering, computer science, geological sciences or physics.

As part of the electives or research, students take two science courses selected from the SESE graduate catalog (GLG, SES, or AST prefixes). Substitutions may be made per academic unit approval.

Substitutions for Other Requirements may be made per department approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or

applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students should see the program website for application deadlines.

Instrumentation concentration:

An undergraduate degree in electrical engineering, aerospace engineering or mechanical engineering is preferred.

Systems engineering concentration:

Successful completion of a senior capstone or design project is an admission requirement for this concentration. Students who have not had a design course are required to take SES 405 Systems Engineering as a deficiency course.

Sensor networks concentration:

An undergraduate degree in electrical engineering or computer science is preferred.

Exploration Systems Design (Instrumentation), PHD (LAESDIPHD)

Online Degree Search Title: Exploration Systems Design (Instrumentation), PhD

Campus: Tempe

Program Description:

The exploration systems design PhD program offers an advanced systems approach for developing scientific exploration technologies in a range of demanding environments on Earth and in space.

This transdisciplinary degree program provides a unique platform to train systems engineers targeting technological development for exploration science. This is a collaborative program between the School of Earth and Space Exploration and the Ira A. Fulton Schools of Engineering that allows students to specialize in topics related to planetary exploration, astronomical instrumentation, robotics, sensors and sensor networks.

The curriculum integrates the School of Earth and Space Exploration's science, instrumentation and systems engineering core courses with related coursework from the Ira A. Fulton Schools of Engineering. Students must select a concentration in instrumentation, systems engineering, or sensor networks. The instrumentation concentration prepares students in the development of state of the art sensors and systems for remote and in-situ sensing related to planetary science, earth science and astronomy.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Electives or Research (61 credit hours)

Other Requirements (1 credit hour)

SES 501 SESE Colloquium (1)

Concentration (9 credit hours)

Culminating Experience (12 credit hours)
SES 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree. Related fields include, but are not limited to, engineering, computer science, geological sciences or physics.

As part of the electives or research, students take two science courses selected from the SESE graduate catalog (GLG, SES, or AST prefixes). Substitutions may be made per academic unit approval.

Substitutions for Other Requirements may be made per department approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students should see the program website for application deadlines.

Family and Human Development, MS (LAFAMHDMS)

Online Degree Search Title: Family and Human Development, MS

Campus: Online

Program Description:

The MS in family and human development provides practitioner-oriented professionals with an understanding of relationships and developmental dynamics. Students learn how to effectively evaluate and consume research, translate research into best practices and apply these principles at work.

The online format provides easy access to rigorous and valuable information that informs best practices in improving the lives of families and family members. The program also includes a customizable culminating experience that allows students to focus their training in their areas of interest and work.

Degree Requirements:

30 credit hours including the required capstone course (FAS 588).

Required Core (9 credit hours)

CDE 531 Theoretical Issues in Child Development (3)

FAS 586 or SOC 586 Capstone I (3)

FAS 587 or SOC 587 Capstone II (3)

Electives or Research (18 credit hours)

FAS 500 Research Methods (3)

CDE 501 Social Statistics (3)

diversity course (3)

other elective coursework (9)

Culminating Experience (3 credit hours)

FAS 588 Capstone III (3)

Additional Curriculum Information

Students complete the coursework and culminating experience courses in consultation with the assigned faculty advisor. The plan of study should be completed and approved by the faculty advisor once completing 50% of the minimum required credit hours for the degree. Acceptance of the proposed plan of study must be verified by the signature of the chair and faculty advisor. After approval from the program or college, the plan of study is submitted to the Graduate College for final approval.

FAS 500 and CDE 501 may be replaced by equivalent courses with approval by the academic advisor.

The diversity course and other elective coursework are chosen with approval by the academic advisor. The remaining elective credits must be from the FAS, CDE or SOC prefixes.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee

- official transcripts of all undergraduate and graduate coursework
- current resume or curriculum vitae
- personal statement of goals relevant to the master's degree program
- two letters of recommendation from professional or academic backgrounds
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement must be four to five pages, double-spaced, and must address the applicant's professional goals, the applicant's strengths that will enable the applicant to succeed in the program, and relevant professional experience or responsibilities to the program.

Letters of recommendation must be from at least two academic or professional sources. Family members or friends do not meet this criterion. Applicants should see the program website for full application deadlines and admission terms and details.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. Family and Human Development, PHD (LAFAMSCPHD)

Online Degree Search Title: Family and Human Development, PhD

Campus: Tempe

Program Description:

The PhD program in family and human development is devoted to the study of families, children and youth. The program's research, teaching and service have direct meaning in the lives of children and adults, and for the families and communities in which they live.

The faculty share a common commitment to high-quality research that both increases the basic understanding of human and family development and has the potential to contribute to the improvement of the lives of children and families.

Degree Requirements:

85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (1 credit hour)

FAS 503 Academic Professional Development (3)

Electives (40 credit hours)

Other Requirements (26 credit hours)

CDE 531 Theoretical Issues in Child Development (3)

FAS 500 Research Methods (3)

FAS 531 Theoretical Issues in Family Sciences (3)

FAS or CDE 598 Quantitative Methods in the Social Sciences I (3)

FAS or CDE 598 Quantitative Methods in the Social Sciences II (3)

FAS or CDE 598 Quantitative Methods I Lab (1)

FAS or CDE 598 Quantitative Methods II Lab (1)

two graduate level courses in advanced methods or statistics (6)

one graduate level diversity course (3)

Research (6 credit hours)

FAS or CDE 592 Research (6)

Culminating Experience (12 credit hours)

FAS or CDE 799 Dissertation (12)

Additional Curriculum Information

Postbaccalaureate (for students entering after the bachelor's degree): Of the 85 credit hours for a postbaccalaureate program, six credit hours are dedicated to an empirical project and 12 credit hours are for the dissertation.

Post-master's (for students entering after the master's degree): When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. Of the 55 credit hours of the post-master's degree program, 12 credit hours are for the dissertation.

Electives should be chosen in consultation with and approval of the advisor. Electives may be selected within or outside of the Sanford School. All elective courses must be 500 level or higher.

Substitutions for all courses listed under other requirements may be made per department approval.

For the diversity course requirement, students should refer to the department for a list of approved courses.

For the advanced methods or statistics requirement, students take two courses with content that advances beyond Quantitative Methods I and II.

Admission Requirements:

Applicants must fulfill the requirements of both the the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a resume or curriculum vitae
- statement of goals relevant to the doctoral program
- three letters of recommendation
- verbal, quantitative and analytical GRE scores
- proof of English proficiency

Additional Application Information:

An applicant whose native language is not English must provide proof of English proficiency via a TOEFL score of at least 600 regardless of current residency.

The personal statement must be four to six pages, double-spaced, and address the applicant's professional goals, the applicant's strengths that will enable the applicant to succeed in the program, a detailed description of past research experience, relevant professional experiences or responsibilities, and specific personal research interests. The applicant also must identify two or three faculty members whose research interests match their own and explain why they are good matches.

Three letters of recommendation are required. These must include at least one from an instructor at the applicant's institution where undergraduate or graduate work was completed. The letters should be from people who know the applicant in a professional or academic capacity. Letters from family members or friends do not meet this criterion.

Students should see the program website for full application deadlines.

Film and Media Studies, MAS (LAAMPCMAS)

Online Degree Search Title: Film and Media Studies, MAS

Campus: Online

Program Description:

The MAS program in film and media studies features innovative approaches to the study of film, television and digital media. Students learn historic methods, critical theory and creative expression through a diverse range of course offerings. Delivered exclusively online, the program explores the aesthetic, industrial, social and cultural dimensions of American media production within a dynamic, interactive and flexible learning environment.

The program offers students skill development in media analysis and history and industry practices for film, television and digital platforms. The program is designed to give students a critical media education across a wide range of texts and platforms.

Degree Requirements:

30 credit hours and a written comprehensive exam.

Required Core (9 credit hours)

FMS 502 Hollywood Film Historiography (3)

FMS 504 Film Analysis (3)

FMS 520 Cultural History of US Television: Theory and Method (3)

Electives (21 credit hours)

Culminating Experience (0 credit hours)

written comprehensive exam

Additional Curriculum Information

The program consists of nine credit hours of core courses, 21 credit hours of electives and a written comprehensive exam. Students should review the webpage and then consult the director.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- letters of recommendation (optional)
- application essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

The two-page statement of purpose should describe past academic work, reasons for pursuing the Master of Advanced Study, and the skills that prepare the applicant for this degree.

Applicants are asked to write and submit a three-page essay that assesses their knowledge of media theory and critical analysis skills. The subject of the essay is given in the online application. Applicants should demonstrate the ability to write well and construct a persuasive critical argument. Appropriate secondary sources should be used in this essay.

While letters of recommendation are optional, applicants may include two or three letters in their application. Recommenders should be former teachers or supervisors, addressing the applicant's academic performance, motivation and character.

An interview via Skype may be requested before final admission decisions are made.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. French (Comparative Literature), MA (LAFRECLMA)

Online Degree Search Title: French Comparative Literature, MA

Campus:

Program Description:

The MA in French comparative literature provides students with an opportunity to develop an advanced knowledge of French and of Francophone and other world literatures, histories and major works. Students also develop a sound knowledge of the traditions, aims and methods of scholarly research in the field.

Degree Requirements:

30 credit hours including the required applied project course (FRE 593) and a written comprehensive exam.

Graduate students may take only 500-level courses for graduate credit. At least nine credit hours must be selected from those courses listed exclusively for graduate students. The program must include:

- FRE 500 Bibliography and Research Methods (3)
- two courses in linguistics, civilization or translation, of which one course must be in linguistics
- one course in critical or cultural theory

It is recommended that the candidate enroll in FRE 500 as early as possible.

A minimum of four core courses offered by the French section must be selected from any combination of the following categories:

- Francophone studies courses
- genre courses
- period courses

When approved by the graduate committee, up to six credit hours of related coursework may be taken outside of French.

A student must achieve a grade of "B" (3.00 on a 4.00 scale) or higher in all work specifically included in the plan of study. Grades below a "C" (2.00) cannot be used to meet the requirements of a graduate degree. No student may accumulate more than one incomplete at any one time.

Independent study courses are given only under exceptional circumstances and do not duplicate courses which are available. The French graduate committee is responsible for authorizing such work in cooperation with the individual professor. No more than three credit hours of independent study is permitted.

Students must complete an applied project.

The written examination for the concentration in comparative literature is administered by the interdepartmental committee for comparative literature and consists of two essay-based components: general concepts of comparative literature and problems of comparative literature.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in French from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample

- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The writing sample should represent the applicant's thinking as well as writing skills, and it should be written in French on a topic connected with the language or French culture. The writing sample should be approximately five to 10 pages in length.

Those who lack the appropriate background but who show strong potential and meet the Graduate College admission requirements may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular program of study for the master's degree.

French (Linguistics), MA (LAFRELINMA)

Online Degree Search Title: French Linguistics, MA

Campus:

Program Description:

The MA in French linguistics provides students with the opportunity to develop an advanced knowledge of current linguistic theory as it applies to French as well as a sound grounding in the tools necessary to carry out linguistic research.

Degree Requirements:

30 credit hours including the required applied project course (FRE 593) and a written comprehensive exam.

The plan of study for the master's degree includes:

- an applied project
- a minimum of 30 credit hours of graduate-level work as approved by the candidate's supervisory committee
- a 500-level bibliography and research methods course offered by the department
- in some programs, six credit hours in another language or in closely related courses (when approved by the candidate's supervisory committee)

All candidates are required to pass a comprehensive written examination designed to evaluate the candidate's knowledge in the area of specialization. A reading list as agreed upon serves as a guide to prepare for this examination.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in French from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Gender Studies, PHD (LAGSTPHD)

Online Degree Search Title: Gender Studies, PhD

Campus: Tempe

Program Description:

The gender studies PhD program is part of the nation's first School of Social Transformation. The diverse community of scholars takes an innovative approach to the study of social justice by uniting multiple academic disciplines to strategically create social change that is democratic, inclusive and just.

The inclusive gender studies doctoral program empowers tomorrow's community leaders and shapers by immersing them in:

- ASU's on-campus Digital Humanities research lab
- creative and critical knowledge production
- deep fluency in feminist theory and practical applications
- publicly engaged academic research
- socially embedded community partnerships

The connections between social locations, community and lived experience are the foundation of the research, teaching and community engagement. Faculty and students explore these intersections from a holistic perspective that goes beyond the classroom.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

WST 601 Critical Concepts of Gender (3)

WST 602 Mapping the Intersections of Gender (3)

WST 603 Engendering Methodology (3)

WST 701 Research Design and Proposal Development in Gender Studies (3)

Elective Coursework in Methodology (6 credit hours)

Elective Coursework in Specialization (12 credit hours)

General Electives (30 credit hours)

Research and Dissertation (24 credit hours)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives to reach the required 84 credit hours.

Students should see the academic unit for a complete list of approved electives.

The gender studies doctoral program is designed to provide students with the transdisciplinary training in theory and methods needed to conduct original research and scholarship about gender.

Students must maintain an average GPA of 3.50 (scale is 4.00 = "A") in their courses.

Students also take two research methods courses relevant to their dissertation, plus additional courses chosen across faculty's areas of expertise.

Gender, Justice and Social Change --- Courses in this area explore the gender dimension of social structures, institutions and organizations; the processes of social change and community development; and the ways policies and laws can change gender relations. Faculty have expertise in:

- child welfare
- domestic violence
- globalization
- immigration
- labor and employment
- social policy
- sustainability
- transnational feminisms
- women's rights, sexuality and gender equality in the Global South

Health, Science and Technology --- Courses in this area explore the impact of gender on health care, health occupations, science and technology and health, science and technology policy. Faculty have expertise in:

- bioethics
- gender and technology
- health and sexuality
- HIV and AIDS prevention
- adolescent pregnancy and parenting in the Global South

Visual and Narrative Culture --- Courses in this area explore historical and contemporary representations of gender in all genres, including art, literature, popular culture, scientific, medical, historical and legal discourse, and theater and performance. Faculty have expertise in:

- intersections of gender representations with representations of race, sexuality, disability and class
- literature, theatre and performance, film, music and media
- representation as discourse
- affect theory
- literary theory
- performance theory
- queer of color critique

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

The gender studies program welcomes applications from qualified students without regard to race, creed, color, religion, sex or national origin. Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official copies of all undergraduate and graduate transcripts
- resume or curriculum vitae
- statement of purpose
- three letters of reference, preferably from faculty or other researchers
- writing sample (10 to 15 pages)
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students should see the ASU Graduate Admission Services website for mailing addresses and further admission information.

For additional financial information, students should consult the Financial Aid and Scholarship Services website at <https://students.asu.edu/financial-aid> (<https://students.asu.edu/financial-aid>).

Gender Studies (certificate), Certificate (LAWSTGRCT)

Online Degree Search Title: Gender Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in gender studies offers graduate students the opportunity to enhance their advanced degrees with demonstrated proficiency and knowledge about gender research and theories that they may apply in their own fields.

The certificate is pursued in tandem with any graduate degree program at ASU.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

WST 601 Critical Concepts in Gender (3)

WST 602 Mapping the Intersections of Gender (3)

Electives (9 credit hours)

Additional Curriculum Information

Elective courses may be chosen from other WST graduate courses or from more than 30 approved courses from other departments throughout the university. Other courses may also be used with the graduate director's approval.

Up to six credit hours not used for another ASU degree or certificate can be transferred from another university, with the graduate director's approval. Courses should be recorded on the transfer section of the student's interactive program of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The certificate is not offered as a stand-alone, certificate-only program. It is open only for degree-seeking students. However, up to nine credit hours of ASU nondegree credit can be transferred into the program for those who eventually gain admission into an ASU graduate degree program.

Students should see the program website for more information about the certificate and to design coursework.

Geographic Education, MAS (LAGEOEDMAS)

Online Degree Search Title: Geographic Education, MAS

Campus: Tempe, Online

ASU is not currently accepting applications for this program.

Program Description:

The MAS program in geographic education provides teachers with the opportunity to obtain a highly qualified status in geographic education. The degree program is intended for K-12 teachers and is appropriate for both elementary and secondary school teachers.

Degree Requirements:

30 credit hours and an applied project.

Required Core (3 credit hours)

COE 501 Introduction to Research and Evaluation in Education (3)

Geography Coursework (24 credit hours)

Culminating Experience (3 credit hours)

DCI 593 Applied Project (3) or

SED 593 Applied Project (3)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

Students are required to have access to a computer with an Internet connection and the capability to view video and animated files with sound, access to email, and access to a word processing program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in education, geography or related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements. One letter must be from a former instructor.

Geographic Information Science (certificate), Certificate (LAGEOGISCE)

Online Degree Search Title: Geographic Information Science (Graduate Certificate)

Campus: Tempe

Program Description:

Geographic information scientists have the ability to not only map out information, but to provide a deeper understanding of the world and the interactions around us. Combining the disciplines of computer science, statistics and geography, geographic information sciences can help to answer the what, where, why and how for questions that span areas of interest in many industries.

The geographic information sciences certificate program teaches students the theoretical aspects of GIS, the technical side of the discipline and applications of the science. Students learn how to analyze policy problems and research questions from a spatial lens, acquire and analyze remotely sensed data, and model spatial phenomenon.

Skills in geographic information science and geospatial data analytics offer students market-ready tools for turning novel sources of spatial data into informed practice and prepare students to address issues such as climate change, population growth and aging and active transportation. The certificate program enables ASU graduate students from all disciplines and GIS professionals to learn how to apply GIS concepts and technology to build invaluable problem-solving skills.

The certificate is intended as either a specialization within an existing master's degree or a stand-alone nondegree program for practicing professionals with a previously earned graduate degree.

Degree Requirements:

16 credit hours including the required capstone course (GPH 591 or GIS 591).

a capstone seminar (1)
three required courses (9)
two elective courses (6)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they are currently pursuing a master's degree at ASU or have earned a master's degree and are currently practicing professionals.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

The personal statement must be a one-page letter describing the applicant's overall objective for the GIS certificate program. It should clearly state the applicant's interest in GIS and provide evidence that the certificate will enhance the applicant's education or current employment.

Currently practicing professionals must submit a final transcript from the master's degree-granting institution.

Geographic Information Systems, MAS (LAGISMAS)

Online Degree Search Title: Geographic Information Systems, MAS

Campus: Tempe

Program Description:

The MAS in geographic information systems is a compact, one-year degree program fostering advanced study in the management and use of GIS technology in public and corporate environments. The degree program meets important educational needs of working professionals and recent college graduates seeking to improve their career standing. The program provides a comprehensive professional program that balances work in the theoretical and technical aspects of GIS with the applications domain. Students are exposed to innovative technology with a focus on building invaluable problem-solving skills, and the opportunity to work on real-world GIS projects.

Students prepare for careers in private and public industry in which employees with these skill sets are needed for a wide range of positions, such as software developers, GIS analysts, mapping engineers, real estate researchers and more. The program places the focus on location --- the heart of geography and GIS. From that foundation, students learn advanced modeling solutions in GIS and Earth-observing as well as how to integrate computer science, statistics and geography to address a multitude of questions.

Small class sizes ensure quality attention from the faculty, and classes are held in the evening during the week, allowing flexibility for the working professional. The degree is achievable in a one-year time period. A new cohort begins the program each August, with students attending evening classes during the fall and spring semesters. Upon completion of the spring semester, students select a project to complete during a summer eight-week session. Final presentations take place in mid-July, and in fewer than 11 months the degree program is complete.

Degree Requirements:

30 credit hours including the required applied project course (GPH 693 or GIS 693).

Required Core (24 credit hours)

GIS 601 Introduction to Geographic Information Systems (2)

GIS 602 Intermediate GIS (2)

GIS 603 Spatial Statistics and Modeling (2)

GIS 604 Implementation in the Corporate and Public Sectors (2)

GIS 605 GIS Project Planning and Implementation (2)

GIS 606 GIS Project Presentation (2)

GIS 610 Programming the GIS Environment (3)

GIS 630 GIS Technologies (3)

GIS 640 GIS and Business (3)

GIS 650 GIS for the Internet (3)

Other Requirement (3 credit hours)

GIS 684 Internship (3)

Culminating Experience (3 credit hours)

GIS 693 Applied Project (3) or

GPH 693 Applied Project (3)

Additional Curriculum Information

Other requirement coursework may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in a related field from a regionally accredited institution or if they demonstrate a minimum of three years related professional experience with a bachelor's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must prepare a formal, written personal statement regarding relevant academic experience, professional experience and overall interest in GIS.

Letters of recommendation must be from two people who can attest to the applicant's academic and professional achievements. Letters can be from any combination of current or former instructors, supervisors or professionals currently employed within the GIS or related discipline.

Geography, MA (LAGEOGMA)

Online Degree Search Title: Geography, MA

Campus: Tempe

Program Description:

The MA in geography program is designed to offer specialized academic and professional training in geography so students may secure a sound graduate background for further specialization or for immediate employment. Graduates of the program find career opportunities in public and private industries, including education, government agencies and research facilities, as well as continue on to pursue doctoral degrees. The program has sufficient flexibility to allow for individual needs and interests, allowing students to create a plan of study that fits their personal and professional goals.

In addition to innovative coursework, the state-of-the-art research centers Spatial Analysis Research Center and Urban Climate Research Center offer students the opportunity to work with exceptional faculty on diverse research projects. Students have the opportunity to work alongside some of the brightest minds in geography, including four members of the National Academy of Sciences and rising talent in the fields of urban heat island research, GIS and more.

Students earning the MA in geography have the ability to build a path of knowledge that reflects their personal interests within the realms of geography. Students benefit from a wide variety of coursework and research opportunities in four broad interdisciplinary themes that span the expertise of the faculty within the School of Geographical Sciences and Urban Planning:

- computational spatial science
- earth systems and climate science
- place, identities and culture
- sustainability science and studies

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Geography, BA

Geography, BS

Geography (Meteorology-Climatology), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

Required Core (6 credit hours)

GCU 529 Contemporary Geographic Thought (3)

GCU 585 Geographic Research Design and Proposal Writing (3)

Other Requirement (2 credit hours)

GCU 591 Seminar: Geography Colloquium (1), or

GPH 591 Seminar: Geography Colloquium (1)

Electives (16 credit hours)

Culminating Experience (6 credit hours)

GCU 599 Thesis (6), or

GPH 599 Thesis (6)

Additional Curriculum Information

Students will take the other requirement seminar course twice. Once in each of the first two semesters of the program for one credit hour each.

Other coursework may be used with approval of the academic unit

Students select additional elective coursework in consultation with their advisory committee.

The School of Geographical Sciences may consider a student for a traditional master's degree program that includes the successful defense of a thesis. Master's degree students must complete the coursework at ASU.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement must address four items:

- What specialty in geography does the applicant wish to pursue, and why?
- What aspects of the applicant's education (a description is needed) will enable the student to pursue this specialty?
- What additional training does the applicant believe can be obtained at Arizona State University to realize the applicant's educational and career goals?
- Applicants should provide any other information they feel should be considered in their application for admission (e.g., research experience or information which might be drawn from the applicant's resume).

Letters of recommendation must be from three faculty members who can attest to the applicant's academic achievements.

Geography, PHD (LAGEOPHD)

Online Degree Search Title: Geography, PhD

Campus: Tempe

Program Description:

The PhD in geography program offers specialized academic and professional training in geography so students may secure a sound graduate background for further specialization or for immediate employment. Graduates of the program find career opportunities in public and private industries, including education, government agencies and research facilities, as well as continue on to pursue doctoral degrees. The program has sufficient flexibility to allow for individual needs and interests, allowing students to create a plan of study that fits their personal and professional goals.

In addition to innovative coursework, the state-of-the-art research centers Spatial Analysis Research Center and Urban Climate Research Center offer students the opportunity to work with exceptional faculty on diverse research projects. Students have the opportunity to work alongside some of the brightest minds in geography, including four members of the National Academy of Sciences and rising talent in the fields of climate science, sustainability and environmental science, urban heat island research, GIS and more.

Students in the program have the ability to build a path of knowledge that reflects their personal interests within the realms of geography. Students benefit from a wide variety of coursework and research opportunities in four broad interdisciplinary themes that span the expertise of the faculty within the School of Geographical Sciences and Urban Planning:

- computational spatial science
- earth systems and climate science
- place, identities and culture
- sustainability science and studies

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

GCU 585 Geographic Research Design and Proposal Writing (3)

Electives or Research (58 credit hours)

Other Requirement (11 credit hours)

GCU 529 Contemporary Geographic Thought (3)

GCU 591 Seminar (3)

GPH 591 Seminar (3)

GCU 591 Seminar: Geography Colloquium (1), or

GPH 591 Seminar: Geography Colloquium (1)

Culminating Experience (12 credit hours)

GCU 799 Dissertation (12)

Additional Curriculum Information

Doctoral students entering with a bachelor's degree must complete 84 credit hours. These hours include 72 credit hours of coursework and research at ASU and 12 dissertation credit hours.

Doctoral students entering with a master's degree must complete 54 credit hours. These include 42 credit hours of combined coursework and research hours at ASU and 12 dissertation credit hours.

Coursework and research hours are selected by the student in consultation with an advisory committee.

Students take the other requirement seminar course twice, once in each of the first two semesters of the program for one credit hour each. Other courses may be used with approval of academic unit

Up to six credit hours of 400-level coursework may be applied toward the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Incoming students must demonstrate or attain competence in cartography and quantitative methods and complete other basic coursework that will enable them to pursue graduate studies in their area of specialization.

The personal statement must address four items:

- What specialty in geography does the applicant wish to pursue, and why?
- What aspects of the applicant's education (a description is needed) will enable the student to pursue this specialty?
- What additional training does the applicant believe can be obtained at Arizona State University to realize the applicant's educational and career goals?
- Applicants should provide any other information they feel should be considered in their application for admission (e.g., research experience or information which might be drawn from the applicant's resume).

Letters of recommendation must be from three faculty members who can attest to the applicant's academic achievements.

Geological Sciences, MS (LAGEOSCMS)

Online Degree Search Title: Geological Sciences, MS

Campus: Tempe

Program Description:

The MS program in geological sciences is designed to provide fundamental graduate training in geology. Students are encouraged to cross subject boundaries and pursue new understandings of Earth and the solar system.

Graduates of the program are prepared for further graduate study or for careers in geochemistry, field geology, geomorphology, structure and tectonics, mineralogy and petrology, geophysics, planetary geology, hydrology, volcanology, Earth observation and remote sensing, and related areas, including geoscience education.

Degree Requirements:

30 credit hours and a thesis.

Required Core (1 credit hour)

SES 502 Exploring SESE Research (1)

Electives or Research (22 credit hours)

Other Requirements (1 credit hour)

SES 501 SESE Colloquium (1)

Culminating Experience (6 credit hours)

SES 599 Thesis (6)

Additional Curriculum Information

Substitutions for Other Requirements may be made per department approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants should see the program website for application deadlines.

German, MA (LAGERMMA)

Online Degree Search Title: German, MA

Campus: Tempe

Program Description:

The faculty in the School of International Letters and Cultures offer graduate programs leading to the MA degree with a major in German. Students admitted to the master's degree program with a major in secondary education may select German as their subject matter field.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (GER 593).

The plan of study for the master's degree includes a minimum of 30 credit hours of graduate-level work and a thesis or an applied project, as approved by the candidate's supervisory committee. The program must include a 500-level bibliography and research methods course offered by the school. When approved by the candidate's supervisory committee, nine credit hours in another language or in closely related courses may be included in the program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in German, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Those who lack this background but who show strong potential and meet the Graduate College admission requirements may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular program of study for the master's degree.

The writing sample should represent the applicant's thinking as well as their writing skills, and it should be written in German on a topic connected with the German language or culture.

Global Health, MA (LASSHMA)

Online Degree Search Title: Global Health, MA

Campus: Tempe

Program Description:

In this MA program, global health is considered to be much more than and very different from international public health. It emphasizes that major health challenges stem from many factors well beyond disease itself --- factors that are cultural, ecological, evolutionary, historical, institutional, social and technological.

Any effective, sustainable solutions to the most pressing global health challenges need to take all of these factors into account, including the complex ways in which they relate to each other. In this manner, this degree program teaches students to understand health as not simply a product of disease, but rather emerging in the contexts of complex and interrelated ecology, politics, history, culture, social institutions and evolutionary biology. It also places primacy on how to address the broader (i.e., structural, cultural) bases of ill health in complicated, ever-changing health challenges in low-resource community settings and a globalizing world. To do this, the program combines both social and life science theories with on-the-ground research and its application. There is a strong emphasis on collaborative action as key to identifying and addressing global health problems in a sustainable and meaningful way.

Students accepted into the program are tied to ongoing transdisciplinary global health projects that address complicated, multifaceted health challenges that defy easy fixes, such as climate change-related diseases, emerging infectious diseases, and obesity.

By applying a collaborative, problem-solving format, the master's degree program in global health is intended to provide those planning to enter health or related fields (i.e., environmental, social) with the transdisciplinary orientation, team skills and social and cultural acuity that the Pew Health Professions Commission *inter alia* has identified as critical but lacking in current health workforce training. The program also emphasizes experiential learning as a way to gain mastery and requires participation in a global internship program based in one of the international partnering communities.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Global Health, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 Credit Hours including the required applied project course (SSH 593).

Required Core (3 credit hours)

ASB 510 Health: Social and Biocultural Theories (3)

Open Electives (6 credit hours)

Restricted Electives (6 credit hours)

ASB 580 Practicum (1-6)

ASB 583 Fieldwork (1-6)

ASB 584 Internship (1-6)

Other Requirements (9 credit hours)

ASB 500 Ethnographic Research Methods (3)

ASB 503 Medical Anthropology (3)

SSH 591 Seminar: Principles of Epidemiology for Global Health (3)

Culminating Experience (6 credit hours)

SSH 593 Applied Project (6)

Additional Curriculum Information

For restricted electives, students complete at least six credit hours from the list above.

Substitutes may be permitted by the graduate director for other requirement and restricted elective coursework. Additional methods-focused courses or graduate-level epidemiology courses can count toward these requirements.

Applied projects are completed in consultation with a faculty advisor. Students may use the fieldwork, internship or practicum experience as part of the research for the applied project.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the social or life sciences (i.e., anthropology, sociology, gender studies, geography, political science), public health or related fields (i.e., nutrition, human biology) from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may submit an optional scholarly writing sample, not to exceed 20 to 30 double-spaced pages, to be included in their application materials.

Admission is competitive and based on student academic excellence, additional relevant experience, and fit with available faculty. Value is placed on foreign language skills; practical, cross-cultural and international experiences; and prior social science and life science research.

SHESC 233

Global Health, PHD (LASSHPHD)

Online Degree Search Title: Global Health , PhD

Campus: Tempe

Program Description:

The PhD in global health draws on the premise that sustainable and satisfying solutions to the most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes and disease are really related.

The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU, including the 15 medical anthropologists on campus, it also takes advantage of a much wider set of skills offered by experts in such fields as medical sociology, demography, human geography and epidemiology. The program is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings, such as the commercial sector, government agencies or nongovernmental organizations.

Some particular thematic foci of the program are biocultural approaches to human coping, computer-based complexity modeling, culture and health, health in the Americas, and indigenous and minority health, as well as mathematical epidemiology, nutritional anthropology, social justice and vulnerable populations, social networks, and urban and environmental health.

The program draws some 80 faculty members from throughout the university to consider how cutting-edge social science can be applied to understand and substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research, from large U.S. cities to hunter-gatherer communities.

Students generally enter the program with a master's degree in a relevant field.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ASB 510 Health: Social and Biocultural Theories (3)

Electives (41 credit hours)

Other Requirements (16 credit hours)

ASB 500 Ethnographic Research Methods (3)

ASB 591 Topic: Professionalism (1)

ASM 579 Proposal Writing (3)

SSH 591 Topic: Principles of Epidemiology for Global Health (3)

systematic methods courses (6)

Research (12 credit hours)

SSH 792 Research (12)

Culminating Experience (12 credit hours)

ASB 799 Dissertation (12)

Additional Curriculum Information

For electives, students should see the academic unit for a course list approved by the chair.

Other requirement coursework may be substituted with the approval of the academic unit. At least two systematic methods courses in an area other than epidemiology or biostatistics and ethnography (such as nutrition, survey, archival analysis, demography or geographic information systems) should be selected.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework will be made up of electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Suitable backgrounds for admission include a master's degree in the social sciences (such as anthropology or sociology), public health, human biology or related fields. Students entering directly from a bachelor's degree program should have already completed at least 15 credit hours of social science and six hours of human biology (or equivalent) at the senior level, and also should have some background in statistics or epidemiology.

Applicants may submit with their application materials an optional scholarly writing sample of at least 20 but no more than 30 double-spaced pages.

Global Health (Complex Adaptive Systems Science), PHD (LASSHCPHD)

Online Degree Search Title: Global Health (Complex Adaptive Systems Science), PhD

Campus: Tempe

Program Description:

The PhD program in global health draws on the premise that sustainable and satisfying solutions to the most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes and disease are really related.

This transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU, including the 15 medical anthropologists on campus, it also takes advantage of a much wider set of skills offered by faculty from such fields as medical sociology, demography, human geography and epidemiology. The program is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings, such as the commercial sector, government agencies or nongovernmental organizations.

Some particular thematic foci of the program are:

- biocultural approaches to human coping
- computer-based complexity modeling
- culture and health
- health in the Americas
- indigenous and minority health
- mathematical epidemiology
- nutritional anthropology
- social justice and vulnerable populations
- social networks
- urban and environmental health

The program draws together some 80 faculty members from across the university to consider how cutting-edge social science can be applied to understand and substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research, from large U.S. cities to hunter-gatherer communities. Students generally enter the program with a master's degree in a relevant field.

The complex adaptive systems science doctoral concentration trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems perspective at Arizona State University and emphasizes the value of a complex adaptive systems science perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing our society today. Students become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ASB 510 Health: Social and Biocultural Theories (3)

Concentration (15 credit hours)

ASM 570 Fundamentals of CAS Science (3)

complex adaptive systems science application course (3)

complex adaptive systems science mathematics course (3)

complex adaptive systems science modeling course (3)

complex adaptive systems science related research course (3)

Electives (26 credit hours)

Other Requirements (16 credit hours)

ASB 500 Ethnographic Research Methods (3)

ASB 591 Topic: Professionalism (1)

ASM 579 Proposal Writing (3)

SSH 591 Topic: Principles of Epidemiology for Global Health (3)

systematic methods courses (6)

Research (12 credit hours)

SSH 792 Research (12)

Culminating Experience (12 credit hours)

ASB 799 Dissertation (12)

Additional Curriculum Information

Students should see the academic unit for approved concentration coursework.

For electives, students should see the academic unit for a course list approved by the chair.

Other requirement coursework may be substituted with the approval of the academic unit. At least two systematic methods courses in an area other than epidemiology or biostatistics and ethnography, such as nutrition, survey, archival analysis, demography, or geographic information system, should be selected.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework will be made up of electives.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study, and students typically have a member of the complex adaptive systems science graduate faculty as a member of their doctoral supervisory committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts

- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Global Health (Culture and Health), PHD (LASSHCHPHD)

Online Degree Search Title: Global Health (Culture and Health), PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The PhD in global health draws on the premise that sustainable and satisfying solutions to the most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes, and disease are really related.

The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU, including the 15 medical anthropologists on campus, it also takes advantage of a much wider set of skills offered by such fields as medical sociology, demography, human geography and epidemiology. It is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings, such as the commercial sector, government agencies or nongovernmental organizations.

Some particular thematic foci of the program are:

- biocultural approaches to human coping
- computer-based complexity modeling
- culture and health
- health in the Americas
- indigenous and minority health
- mathematical epidemiology
- nutritional anthropology
- social justice and vulnerable populations
- social networks
- urban and environmental health

The program draws together some 80 faculty members from across the university to consider how cutting-edge social science can be applied not only to understand, but also to substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research, from large U.S. cities to hunter-gatherer communities. Students generally enter the program with a master's degree in a relevant field.

The concentration in culture and health provides focused, specialized training in theories and methods for researching the relationship between culture and health. This concentration utilizes the perspectives of medical anthropology and sophisticated ethnographic methods to study and interpret the role of cultural and social differences in shaping health. Students investigate these methods in the context of the community-based, participatory approaches that tend to promote the most mutually meaningful and lasting health solutions. Graduates are thus particularly prepared for leadership in addressing health disparities in cross-cultural settings and with the most vulnerable populations. This includes very complex, difficult settings where particularly nuanced and sophisticated (often anthropological) understandings of health-related challenges are needed.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ASB 510 Health: Social and Biocultural Theories (3)

Concentration (12 credit hours)

ASB 503 Advanced Medical Anthropology (3)

ESS 513 Institutions (3), or ESS 514 Urban and Environmental Health (3)

SSH 503 Instructional Internship in Global Health (3)

SSH 511 Ethics in Health Social Science (3), or SSH 512 Social Science Applications in Community Health (3), or ASB 502 Applied Medical Anthropology (3)

Electives (26 credit hours)

Other Requirements (16 credit hours)

ASB 500 Ethnographic Research Methods (3)

ASB 591 Topic: Professionalism (1)

ASM 579 Proposal Writing (3)

SSH 591 Topic: Principles of Epidemiology for Global Health (3)

systematic methods courses (6)

Research (15 credit hours)

ASB 500 Ethnographic Research Methods (3)

SSH 792 Research (12)

Dissertation (12 credit hours)

ASB 799 Dissertation (12)

Additional Curriculum Information

For the concentration coursework, students select ESS 513 or ESS 514, and they also choose one course from SSH 511, SSH 512 or ASB 502.

For electives, please see the academic unit for a course list approved by the chair.

Other requirement coursework may be substituted with the approval of the academic unit. At least two systematic methods courses in an area other than epidemiology or biostatistics and ethnography (such as nutrition, survey, archival analysis, demography, or geographic information system) should be selected.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is made up of electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume

Global Health (Evolutionary Global Health Sciences), PHD (LASSHEPHD)

Online Degree Search Title: Global Health (Evolutionary Global Health Sciences), PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The PhD program in global health draws on the premise that sustainable and satisfying solutions to the most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes, and disease are really related.

The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU (including the 15 medical anthropologists on campus), it also takes advantage of a much wider set of skills offered by such fields as medical sociology, demography, human geography and epidemiology. It is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings such as commercial sector, government agencies or nongovernmental organizations.

Some particular thematic foci of the program are:

- biocultural approaches to human coping
- computer-based complexity modeling
- culture and health
- health in the Americas
- indigenous and minority health
- mathematical epidemiology
- nutritional anthropology
- social justice and vulnerable populations
- social networks
- urban and environmental health

The program draws together some 80 faculty members from throughout the university to consider how cutting-edge social science can be applied not only to understand, but also to substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research, from large U.S. cities to hunter-gatherer communities. Students generally enter the program with a master's degree in a relevant field.

The concentration in evolutionary global health sciences requires training in universal principles of research design (from experiments to systematic qualitative and quantitative description), data analyses, methods (quantitative and qualitative) and anthropological interpretation (or the identification of determinants of the origins and distribution of health phenotypes in past and present human populations). Students choose from a wide range of data collection and inferential tools in order to address specific questions, through a combination of lecture and guided reading courses designed to master the highly diverse literature in evolutionary global health sciences that best pertains to their career goals.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

ASB 510 Health: Social and Biocultural Theories (3)

Concentration (12 credit hours)

ASB 503 Medical Anthropology (3)

Global Security, MA (LAGSCMA)

Online Degree Search Title: Global Security, MA

Campus: Online

Program Description:

The MA in global security is an interdisciplinary, fully online program designed to aid professional advancement in government, military, nonprofit and private sector careers. Students are trained to critically engage international security issues in a comprehensive manner.

The program is based on four key pillars: enabling innovative strategic thinking; developing analytic tools; supporting critical interdisciplinary engagement; and encouraging flexible and resilient approaches to the inherently complex challenges of current and future global security.

Students may pursue the master's degree from anywhere in the world, study while working full-time or part-time, and may advance at their own pace. The program assists students in gaining a grounded and relevant understanding of major global trends while developing critical analytic skills to improve their capacity to succeed in multiple career paths related to domestic and international security.

Degree Requirements:

30 credit hours including the required capstone course (GSC 550).

Required Core (3 credit hours)

GSC 501 War, Conflict and Security (3)

Electives or Research (24 credit hours)

Culminating Experience (3 credit hours)

GSC 550 Capstone (3)

Additional Curriculum Information

For electives or research, students take eight courses from a restricted list for a total of 24 credit hours. Students should contact the academic unit for the approved course list. Other coursework may be used with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the humanities (English, history, etc.); social sciences (anthropology, sociology, political science, etc.); sciences (biology, chemistry, etc.); policy (public administration, etc.); computer science; engineering (all subfields); or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must submit at least one letter of recommendation for admission. Applicants may submit additional letters.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-global-security/>)

Global Security (Cybersecurity), MA (LAGSCSECMA)

Online Degree Search Title: Global Security (Cybersecurity), MA

Campus: Online

Program Description:

The cybersecurity concentration is a unique element within the MA program in global security, engaging cyber issues from an interdisciplinary perspective with a focus on global security.

This nontechnical program provides students with relevant and continually updated understanding of the complex risks, threats and modes of protection and response associated with cybersecurity. It's a program more theoretical in nature and uses real-world examples. Students progress at their own pace; it can be completed in one year or in a six-year period. Students may pursue the degree while working full-time or part-time.

This is a nontechnical degree program designed to prepare students for a rapidly expanding field with a focus on the complex relationship between cybersecurity and global politics. Students learn from top faculty including scholars, leaders and skilled practitioners with classes integrating case studies, policy exercises and critical thinking to prepare students for career advancement.

Degree Requirements:

30 credit hours including the required capstone course (GSC 550).

Required Core (3 credit hours)

GSC 501 War, Conflict and Security (3)

Concentration (12 credit hours)

GSC 560 Overview of Cybersecurity (3)

GSC 561 Cybersecurity Threats and Trends (3)

GSC 562 Cybersecurity, Global Politics and Resiliency (3)

GSC 563 Cybersecurity Planning and Strategy (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)

GSC 550 Capstone (3)

Additional Curriculum Information

For electives or research, students take coursework from a restricted list for a total of 12 credit hours. Students should contact the academic unit for the approved course list. Other coursework may be used with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the humanities (English, history, etc.); social sciences (anthropology, sociology, political science, etc.); sciences (biology, chemistry, etc.); policy (public administration, etc.); computer science; engineering (all subfields) or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- one letter of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must submit at least one letter of recommendation for admission but may submit additional letters.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu>)

History, MA (LAHISTMA)

Online Degree Search Title: History, MA

Campus: Tempe, Online

Program Description:

The MA program in history provides students the fundamental training needed for careers in research, teaching, public history, government service and a host of other positions in the public, private and nonprofit sectors. Program graduates serve as first-rate historians, highly qualified teachers at the elementary and secondary levels, researchers and consultants, archivists, foreign service officers, management professionals, community organizers and public servants.

The master's degree program offers studies in North American, European, public and global-comparative history, and it provides students with opportunities for professional development through colloquia, internship experiences and conference attendance. Courses emphasize the development of skills in research, writing, critical thinking and communication.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

History, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (HST 593), or 30 credit hours including the required capstone course (HST 597).

Required Core (9 credit hours)

HST 640 Historical Methods (3)

Pick two from the following:

HST 502 Public History Methodology (3)

HST 641 North American History (3)

HST 643 Global History (3)

HST 644 Area Studies in History (3)

Electives (12 credit hours)

Other Requirements (3 or 6 credit hours)

HST 591 Seminar (3) or (6)

Culminating Experience (3 or 6 credit hours)

HST 593 Applied Project (3) or

HST 597 Capstone (3) or

HST 599 Thesis (6)

Additional Curriculum Information

There are two options for the master's degree program in history, the thesis option (for in-person students only) and the nonthesis option. The thesis option requires 30 total credit hours of coursework, including six credit hours of HST 599 Thesis, three credit hours of HST 591 Seminar and 21 credit hours of coursework. The nonthesis option requires 30 total credit hours, including three credit hours of HST 593 Applied Project or HST 597 Capstone, six credit hours of HST 591 Seminar and an additional 21 credit hours of coursework.

For elective coursework, students should refer to the unit for a list of approved courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program. The most competitive applicants will have a GPA of 3.30 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
 - resume or curriculum vitae
 - writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The history program requires a TOEFL score of at least 600 (PBT) or 90 (iBT).

Students are required to submit a minimum of three email addresses from faculty or others qualified to speak to the student's suitability for graduate study in history.

The statement of purpose should be addressed to the history admission committee and should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue, and why the applicant wants to pursue graduate study at ASU (about 500 words in length). It is not necessary to specify a research topic, but if an applicant has one in mind, they should include it in the statement of purpose.

The writing sample may be an article (it may be published or unpublished), a research paper or any other extended sample of expository writing no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents and files should not be password protected. Acceptable file types are .rtf, .pdf and .doc.

History, PHD (LAHISTPHD)

Online Degree Search Title: History, PhD

Campus: Tempe

Program Description:

The PhD program in history offers outstanding opportunities for graduate study in North American, European, public and global-comparative history. The School of Historical, Philosophical and Religious Studies' world-class faculty members deliver courses and individualized mentoring in a wide range of historical topics. Moreover, doctoral history students are strongly encouraged to take advantage of the numerous collaborative opportunities that exist throughout the university in ASU's many innovative schools and centers.

Students pursuing the doctorate cultivate a strong background in the historical research methodology and scholarly analysis needed to develop expertise in a chosen historical subject area and receive preparation for competitive careers. By emphasizing foundational skills in research, writing and communication, the doctoral program in history prepares students for diverse career opportunities, including leading academic institutions, private industry and the public sector.

Degree Requirements:

84 credit hours, a written comprehensive exam, a oral comprehensive exam, a prospectus and a dissertation.

Required Core (16 credit hours)

HST 502 Public History Methodology (3)
HST 640 Historical Methods (3)
HST 641 North American History (3)
HST 643 Global History (3)
HST 644 Area Studies in History (3)
HST 682 Advanced Research Skill (1)

Electives and Research (44 credit hours)

Other Requirement (12 credit hours)
HST 591 Seminar (6)
HST 792 Research (6)

Culminating Experience (12 credit hours)
HST 799 Dissertation (12)

Additional Curriculum Information

In general, all credit hours must be at the 500 level or above (graduate credit for 400-level courses must be approved in advance and documented in the student's file).

The doctoral program requires a minimum of 84 credit hours and may be completed in four to five years. Students with a master's degree may apply 30 credit hours toward the 84 required credit hours with approval of the academic unit and the Graduate College. If the student does not already have a master's degree in a related field, then the remaining 30 credit hours are made up of electives and research to reach the 84 credit hours required for the doctoral program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants will have a GPA of 3.30 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- official GRE scores
- statement of purpose
- resume or curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The history program requires a TOEFL score of at least 600 (PBT) or 90 (iBT). A student whose native language is not English also must submit a copy of an article or research paper in the student's native or principal research language in addition to the English writing sample required of all students.

Students are required to submit a minimum of three email addresses from faculty or others qualified to speak to the student's suitability for graduate study in history. Letters of reference should be submitted by the recommenders in addition to the electronic reference form they are asked to complete.

GRE scores should be no more than five years old. Official scores should be sent by the ETS to ASU using the university code 4007; the department code may be left blank or entered as 0000.

The statement of purpose is to be addressed to the history admission committee and should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue, the proposed research specialization, and why the applicant wants to pursue graduate study at ASU (about 500 words in length).

The writing sample may be an article (published or unpublished), a research paper, or any other extended sample of expository skill no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents and files should not

be password protected. Acceptable file types are .rtf, .pdf and .doc.

History and Philosophy of Science, PHD (LAHPSCIPHD)

Online Degree Search Title: History and Philosophy of Science, PhD

Campus: Tempe

Program Description:

The history and philosophy of science is an interdisciplinary field that traces its origin to foundational works such as Thomas Kuhn's "Structure of Scientific Revolutions". The field is based on the idea that the best way to understand science is to study how it changes over time, along with careful analysis of its concepts and fundamental principles.

The PhD program in history and philosophy of science combines training in the core areas of history and philosophy of science with an emphasis on interdisciplinary studies of the sciences, including:

- computational history and philosophy of science
- foundations of evolutionary theory
- general philosophy of science and epistemology
- history and philosophy of applied ethics and science policy
- history of 19th and 20th century biology

The program is especially appropriate for students with an undergraduate or master's degree in philosophy history or the sciences and for those who seek to broaden their disciplinary studies. Science students who have not taken relevant undergraduate humanistic core courses can make these up during their first years in the program.

Graduates go on to careers in higher education, including research, teaching and administration; science communication; and other professions related to the life sciences.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

HPS 615 Biology and Society Lab (3)

HPS 620 Research Prospectus Writing (3)

Restricted Program Electives (30 credit hours)

Program Electives (24 credit hours)

Research (12 credit hours)

HPS 792 Research (12)

Dissertation (12 credit hours)

HPS 799 Dissertation (12)

Additional Curriculum Information

An individual student program is developed in consultation with the student's advisor and committee.

HPS 615 Biology and Society Lab is a one credit hour course focused on student presentations of works-in-progress. Students must register for it three times during their graduate study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution of recognized standing in a related field such as history, philosophy, or history and philosophy of science as well as a demonstrated background and interest in one or more sciences.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Immigration Studies (certificate), Certificate (LAIMMSTUCE)

Online Degree Search Title: Immigration Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The immigration studies graduate certificate program provides students with a holistic understanding of the historical, current and long-term causes and consequences of international migration as well as relevant professional and research training opportunities.

The objective of the certificate program is to offer traditional academic training through coursework, research and the practical experience of working with local immigrant and refugee communities.

The program prepares graduates for future study in graduate and professional schools or for careers as immigration practitioners and advocates in nongovernmental organizations, local and federal government agencies as well as in other private and public institutions serving immigrant and refugee communities.

Degree Requirements:

15 credit hours.

All students are required to take one core course, three approved elective courses on immigration, and three credit hours of a culminating experience (either an internship or a research project). Students are to contact the school for a list of approved courses.

Students may do an internship with Phoenix-based, nongovernmental organizations or government agencies that provide services to immigrants and refugees. Such internships give students professional training and actual experience working with immigrant and refugee communities. Students are required to write a report describing the organization and their experience as interns.

Students may enroll in three credit hours of research with a faculty member in order to do an independent research project. They must write a substantial research paper based on field research in a local immigrant community, on library and archival research or on readings on an immigration topic.

Certificate students may choose to specialize in humanities, Mexican and Latino immigrants in the U.S., or social sciences.

Given the nature of the immigration courses offered at ASU and the preponderance of Latino immigrant communities in the Phoenix area, the program emphasizes Latino immigration. However, students have the opportunity to take broader courses focusing on global migration and other immigrant groups as well as work with local Asian or Southeast Asian immigrants and refugee communities.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count toward their degree program with the approval and consent of the degree granting program. For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree or up to 12 credit hours may count toward their master's degree, with the approval and consent of the degree-granting program.

All requirements for the certificate program should be completed within a three year time limit with a minimum cumulative GPA of 3.00 (scale is 4.00 = "A"). Students who require more time to finish the program, because of their part-time status or lack of desirable or available courses, must obtain approval from the executive committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Applicants may submit an optional scholarly writing sample, not to exceed 20 to 30 double-spaced pages to be included in their application materials.

Indigenous Education, MA (LAIEDMA)

Online Degree Search Title: Indigenous Education, MA

Campus: Online

Program Description:

The MA in indigenous education provides students with advanced training in research, theory and practice related to both Indigenous education, as broadly defined, as well as the process of schooling. The main audiences for this degree are those working in Indian education, those working for tribal nations with education programs, and those interested in indigenous education.

Because the Center for Indian Education is housed in the School of Social Transformation with faculty that collaborate with colleagues internationally, nationally and across ASU campuses, students have access to a wealth of additional resources at the master's degree level, which allow them to develop a final project that best fits their specific professional aspirations.

Degree Requirements:

30 credit hours including a capstone course (IED 585).

Required Core (9 credit hours)

IED 501 Critical Indigenous Research Methodologies (3)

IED 502 Indigenous Knowledges in Education (3)

IED 503 Current Issues in American Indian Education (3)

Other Required Courses (15 credit hours)

IED 510 History of American Indian Education (3)

IED 530 Language/Literacy-Indig People (3)

IED 535 Community-Based Participatory Action Research (3)

SST 520 Learning Technologies in Native Education (3)

SST 530 Culture and Education (3)

Research (3 credit hours)

IED 592 Research (3)

Culminating Experience (3 credit hours)

IED 585 Capstone (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field such as history, education, anthropology, sociology, ethnic studies, justice studies or political science, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- example of writing
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A selection committee, comprised of faculty members, chooses candidates based on application materials and the applicant's ability to succeed.

Infant Family Practice, MAS (LACDEMAS)

Online Degree Search Title: Infant - Family Practice, MAS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

This self-contained accelerated program provides high-quality coursework and supervised internship experiences designed to train professionals to work in prevention and intervention programs serving families with infants, toddlers and preschool-age children.

The MAS program in infant family practice prepares individuals for positions in a variety of professional capacities including:

- child abuse prevention
- child welfare
- early childhood education and child care administration
- early intervention
- family support
- home visiting
- infant and early childhood mental health

Coursework prepares students for professional endorsement of the Infant-Toddler Mental Health Coalition of Arizona's endorsement for culturally sensitive, relationship-based practice promoting infant mental health.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (12 credit hours)

Practicum (9 credit hours)

Other Requirements (6 credit hours)

Research (3 credit hours)

Additional Curriculum Information

The Master of Applied Science in infant-family practice requires successful completion of a minimum of 30 credit hours and an applied project, including required coursework and an internship in a community placement approved by the faculty of the master's degree program in infant-family practice. Internships are expected to last approximately 12 months.

Students must meet the expectations of the agency supervising their internship.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field such as counseling, psychology, and family and human development.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a personal statement
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals familiar with the applicant's academic background.

GRE scores are waived for this program.

International Affairs and Leadership, MA (LAIALMA)

Online Degree Search Title: International Affairs and Leadership, MA

Campus: ASU@Washington, D.C.

This program is not currently accepting applications. The anticipated launch date for the program is Fall 2021.

Program Description:

The MA in international affairs and leadership offered by The College of Liberal Arts and Sciences and the McCain Institute prepares students for international leadership roles in a dynamic active learning environment led by senior international affairs professionals from the public and private sectors. Drawing on the legacy of values-driven leadership embodied by Senator John McCain, the McCain Institute's access and connectivity in the international community, and ASU's extensive academic capacity, students acquire a distinctive edge to succeed in the full spectrum of international affairs professions.

Degree Requirements:

36 credit hours including the required applied project course (IAL 560).

Required Core (9 credit hours)

IAL 501 Principles of Character-Driven Leadership (3)

IAL 502 The Making of U.S. National Security Policy (3)

IAL 503 Applied International Leadership: Case Studies (3)

Electives (21 credit hours)

Other Requirement (3 credit hours)

IAL 584 Internship (3)

Culminating Experience (3 credit hours)

IAL 560 Capstone (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent
- professional resume
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants are encouraged to have a foundational understanding of microeconomics and macroeconomics prior to starting the program.

GRE or GMAT results are not required but can be submitted as an additional application material.

Applicants should have a deep-rooted interest in international issues of the future and a desire to influence them through character-driven leadership within the context of an increasingly complicated, globalized world. Ideal candidates are those who have previous leadership experience and who plan to devote their careers to working with other cultures and nations across a variety of sectors. While an ideal candidate has previous experience traveling or living overseas and has previously studied a language other than English, we also welcome candidates with no prior experience in these areas. Both international and domestic students are encouraged to apply.

Using the letter of intent, applicants should narrate their own leadership journeys as well as their motivations for further studies in the areas of international affairs and leadership. The letter of intent should describe applicants' academic and professional interests to date, their definitions of character-driven leadership, their reasons for pursuing a master's degree in International Affairs and Leadership, and how this advanced degree relates to their specific future goals.

The application review panel also reviews the applicant's writing skills. Successful applicants must be able to tell a concise, coherent story about their past experiences and future goals.

Justice Studies, MS (LAJUSSTMS)

Online Degree Search Title: Justice Studies, MS

Campus: Tempe

Program Description:

The MS in justice studies prepares students to pursue careers in law and public policy, community and nonprofit organizations, social work and advocacy, labor relations, criminal justice, education, and research and policy institutes. Many graduates also go on to pursue doctoral degrees in interdisciplinary programs such as justice studies, criminology and law, American studies, ethnic studies, and women and gender studies.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Justice Studies, BA

Justice Studies, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (JUS 593).

Required Core (12 credit hours)

JUS 500 Justice Research Methods (3)

JUS 501 Justice Theory (3)

JUS 509 Statistical Problems in Justice Research (3)

JUS 521 Qualitative Data Analysis and Evaluation (3)

Electives (12 credit hours)

Research (0-3 credit hours)

JUS 592 Research (3)

Culminating Experience (3-6 credit hours)

JUS 593 Applied Project (3) or

JUS 599 Thesis (6)

Additional Curriculum Information

Each student's program is developed in concert with the advisory committee. The required foundation courses provide students with a fundamental understanding of the theories, methods and analytic techniques associated with the study of justice.

To satisfy the thesis requirement for the degree, candidates must write a thesis and defend it in an oral examination conducted by the student's advisory committee. Students in this option are not required to take JUS 592 Research.

Students who elect to complete the applied project option will have to enroll in three credit hours of JUS 592 Research prior to enrolling in JUS 593 Applied Project. Candidates pursuing the applied project option must present their applied project and defend it in an oral examination conducted by the faculty member who supervises the project and the graduate programs director or designated representative. The applied project typically includes a brief literature review to identify the nature of the issue or problem and a description of the methodology used and, if relevant, of the program studied, followed by an analysis.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Information regarding acceptable proof of English proficiency can be found via the Graduate Admission Services webpage:

<https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Applicants should visit the School of Social Transformation's Master of Science in justice studies webpage for further details on the listed application requirements and application deadlines.

GRE testing is not required for admission.

Mailing addresses and further admission information is available on the ASU Graduate Admission Services website.

Application requirements vary for the accelerated justice studies 4+1 program. Undergraduate students majoring in justice studies who are interested and eligible for this accelerated graduate program should contact the academic unit, to schedule an appointment with a graduate advisor prior to submitting an application. Further details about the accelerated justice studies 4+1 program can be found on the School of Social Transformation webpage.

Justice Studies, PHD (LAJUSSTPHD)

Online Degree Search Title: Justice Studies, PhD

Campus: Tempe

Program Description:

The PhD in justice studies at the nation's first School of Social Transformation invites all qualified applicants.

The diverse community of scholars unites students and faculty across academic boundaries to strategically create social change that is democratic, inclusive and just. The interdisciplinary doctoral program in justice studies prepares future scholars and change agents to address complex social problems and become tomorrow's leaders.

Concurrent Degrees:

This degree is also offered as concurrent degree program with Juris Doctor, JD

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

JUS 620 Justice Research Methodology (3)

JUS 640 Theoretical Perspectives on Justice (3)

Other Requirement (3 credit hours)

JUS 630 Data Analysis for Justice Research (3) or

JUS 650 Advanced Qualitative Data Analysis (3) or

SST 691 Topic: Qualitative Methods for Qualitative Researchers (3)

Culminating Experience (12 credit hours)

JUS 799 Dissertation (12)

Additional Curriculum Information

For the other requirement course, students may take JUS 630, JUS 650, SST 691 or other methods course at ASU approved by the JSI graduate director.

Students entering the doctoral program with a master's or JD degree may complete a minimum of 54 credit hours for the program. In addition to the requirements listed above, coursework will include 15 credit hours of elective classroom hours (nine of which must have a JUS prefix) and 18 credit hours comprised of any combination of additional elective courses, reading and conference or research.

Students entering the doctoral program without a master's or Juris Doctor degree are required to complete 84 credit hours. In addition to the requirements listed above, the coursework will include 12 credit hours of 500-level foundation courses, 24 credit hours of elective classroom hours (15 of which must have a JUS prefix) and 27 credit hours comprised of any combination of additional electives courses, reading and conference or research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- three letters of recommendation (academic references are preferred)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should be one-and-a-half to two pages, double-spaced, outlining areas of interest, educational and career goals, and the writing sample should be 10 to 15 pages and should discuss the research that best represents the applicant's academic thinking and writing skills.

The PhD/JD option allows qualified students to earn a Juris Doctor from ASU's Sandra Day O'Connor College of Law while simultaneously earning a transdisciplinary doctoral degree in justice studies. Students must apply separately to both programs. Applicants should contact the Sandra Day O'Connor College of Law for their requirements.

Language Teaching, MA (LALANTCHMA)

Online Degree Search Title: Language Teaching, MA

Campus: Tempe

Program Description:

The MA program in language teaching prepares both current and aspiring language teachers with the tools to effectively teach languages in the secondary schools and in higher education. This new program helps ASU meet local, regional and national needs to provide professional development to practicing language teachers in K-12, community colleges or at the university level.

Teachers in Arizona who are interested in continuing their professional development in both language pedagogy and language proficiency can pursue this degree. Teachers receive training in teaching methodologies, second language acquisition, heritage language pedagogy, computer-assisted language teaching, applied linguistics, and the teaching of literature and culture. In addition, this program may also interest other individuals who wish to become highly proficient bilinguals to work in business, government or public administration.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- French, BA
- German, BA
- Spanish, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

Required Core (3 credit hours)

SLC 596 Second Language Methodologies (3)

Track (9 credit hours)

Other Requirements (12 credit hours)

Electives (3 credit hours)

Culminating Experience (3 credit hours)

SLC 593 Applied Project (3)

Additional Curriculum Information

Tracks available for students to select from are French, German or Spanish. Students should see their academic unit for approved track coursework. Students select coursework in consultation with their committee chair.

Other requirement coursework may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a foreign language, applied linguistics, linguistics, literature, education or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement
- two letters of recommendation
- proof of target language proficiency

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The written statement should be no more than two pages, single-spaced, and should discuss how the educational background and experiences have prepared the applicant for this graduate program. The applicant should also describe why they are interested in pursuing this master's degree and how it fits their career goals.

Proof of target language proficiency is accepted by an audio or video submission of a two-minute self-introduction.

Linguistics (certificate), Certificate (LALINGUICE)

Online Degree Search Title: Linguistics (Graduate Certificate)

Campus: Tempe

Program Description:

This transdisciplinary graduate certificate program in linguistics offers students in several fields the opportunity to gain an understanding of the way in which languages are structured, how they are acquired and how they vary over time, space, social distance and situational contexts.

The skills acquired through the completion of the core courses for this certificate include analytical abilities, critical thinking, effective communication and problem-solving. In addition, the knowledge acquired in the areas of discourse analysis and pragmatics makes students aware of the necessity to use appropriate registers and styles when creating written documents or oral presentations to different audiences.

Degree Requirements:

18 credit hours.

Required Core Areas (9 credit hours)
discourse analysis and pragmatics (3)
phonology (3)
syntax (3)

Electives (9 credit hours)

Additional Curriculum Information

The electives may be chosen from fields such as applied linguistics, educational linguistics, natural language processing, second-language acquisition and sociolinguistics. The electives are determined by the student in consultation with a faculty advisor.

Prerequisite: Students must have completed an introductory course in linguistics taken at the upper-division or graduate level. They should consult the certificate program director for advice.

All certificate coursework must be completed with an average grade of "B" or higher (3.00 on a 4.00 scale).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should visit the Department of English website for specific details about English proficiency requirements.

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Once the online application has been submitted, the applicant should send a copy of unofficial transcripts, a one- to two-page, well-considered statement of purpose detailing the student's background and reasons for wanting to do the linguistics certificate, and a resume to the department email address with the subject line: Linguistics Certificate Application.

To be considered for admission, an applicant must have taken an introductory course in linguistics at the upper-division or graduate level. Applicants must also show proof of a formal knowledge of a foreign language, equivalent to two years of study at the university level or plans to fulfill the language requirement concurrently with certificate courses. The language requirement may be met by completion of courses through the second-year level (four semesters) at ASU or elsewhere, or by completion of an upper-division language course with an average of "B" or better (3.00 on a 4.00 scale) for all such coursework (200 or 300 level), or through an examination that indicates placement above the 200 level. Language placement tests are available online at the Language Placement Policies and Tests webpage on the School of International Letters and Cultures website. If this requirement is not already fulfilled at the time of application, candidates must demonstrate completion of this requirement at the end of their certificate coursework in order for their certificate to be granted.

Linguistics and Applied Linguistics, MA (LALINMA)

Online Degree Search Title: Linguistics and Applied Linguistics, MA

Campus: Tempe

Program Description:

The MA program in linguistics and applied linguistics addresses the study of human language and the application of that study to the human condition through training in linguistics and applied linguistics. At the master's level, it provides foundational training in several different areas, including discourse analysis, indigenous American linguistics, language and cognition, language contact and change, language revitalization, language planning, phonetics, phonology, pragmatics, second language acquisition, second-language teaching and learning, semantics, sociolinguistics, syntax, teaching English to speakers of other languages and World Englishes.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

English (Linguistics), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

Required Core (3 credit hours)

LIN 515 American English (3) or

LIN 516 Pragmatics and Discourse Analysis (3)

General Linguistics Track (6 credit hours)

LIN 511 Phonetics and Phonology (3)
LIN 514 Syntax (3)

Applied Linguistics Track (6 credit hours)

LIN 511 Phonetics and Phonology (3) or LIN 514 Syntax (3)

LIN 520 Second-Language Acquisition Theories (3) or APL 601 Introduction to Applied Linguistics (3)

Electives (12-15 credit hours)

Research (3 credit hours)

LIN 501 Approaches to Research (3)

Culminating Experience (3-6 credit hours)

LIN 599 or APL 599 Thesis (6)

LIN 593 or APL 593 Applied Project (3)

Additional Curriculum Information

Students choose one of the two tracks in either general linguistics or applied linguistics.

Electives are restricted based on the student's chosen track. For the general linguistics track, one of the electives must be a 600-level course from the approved course list.

Students who select the thesis option take 12 credit hours of electives. Applied project students select 15 credit hours of electives.

Students must demonstrate evidence of a competent knowledge of a natural language other than modern English, to be selected by the student, subject to the approval of the chair of the thesis committee or the director of the applied project. This requirement may be met by:

- earning a "B" or better (3.00 on a 4.00 scale) in a 400- or 500-level course in an appropriate (approved) language course
- demonstrating comparable proficiency by taking a language examination, administered by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- demonstrating native-speaker proficiency, as determined by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- earning a "B" or better (3.00 on a 4.00 scale) in both ENG 530 Old English and ENG 531 Old English Literature or their equivalent
- holding a bachelor's degree in an approved foreign language
- two years (four semesters) of successfully completed college-level coursework (completed no more than six years prior to admission to the degree program) at least at the 100 and 200 levels with a "C" or better (scale is 4.00 = "A") for languages which the School of International Letters and Cultures does not offer or does not offer above the 200 level

Any course in which all class meetings are conducted in the approved language will satisfy the requirement for a "B" or better in a 400- or 500-level course in an appropriate language course; courses conducted in English will not satisfy the requirement. Also satisfying the requirement are GER 550 German for Reading Knowledge, FRE 550 French for Reading Knowledge, SPA 550 Spanish for Reading Knowledge, and ITA 550 Italian for Reading Knowledge. The Department of English does not require its graduate students to write papers in the approved language.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in such related fields as anthropology, applied linguistics, communication, cognitive science, comparative languages and literatures, literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology, religious studies, rhetoric, composition, sociology, speech and hearing science, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

Successful completion of (at least) one upper-division course in linguistics, language study, or related topic is required.

The one-page, single-spaced statement of purpose should explain the applicant's background in language study, reasons for wanting to do graduate work in linguistics, and plans for the future.

Linguistics and Applied Linguistics, PHD (LALINPHD)

Online Degree Search Title: Linguistics and Applied Linguistics, PhD

Campus: Tempe

Program Description:

The PhD program in linguistics and applied linguistics focuses on the study of human language and the application of that study to the human condition. Students in this program choose a research specialization in formal linguistics, applied linguistics or some combination of these areas.

The curriculum provides professional training in linguistics and applied linguistics with focused research in several areas, including discourse analysis, indigenous American linguistics, language and cognition, language contact and change, language planning, language revitalization, phonetics, phonology, pragmatics, second language acquisition, second language teaching and learning, semantics, sociolinguistics, syntax, teaching English to speakers of other languages and World Englishes.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a foreign language exam, a prospectus and a dissertation.

Required Core (18 credit hours)

APL 555 Disciplinary Discourses (3)
APL 601 Introduction to Applied Linguistics (3)
LIN 511 Phonetics and Phonology (3)
LIN 514 Syntax (3)
LIN 515 American English (3) or LIN 516 Pragmatics and Discourse Analysis (3)
LIN 655 Disciplinary Discourses (3)

Electives and Research (24 credit hours)

LIN 501 Approaches to Research (3)
specialization (21)

Culminating Experience (12 credit hours)

LIN 799 or APL 799 Dissertation (12)

Other Requirements (30 credit hours)

If students do not have a previously awarded master's degree, then 30 credit hours will be made up of additional elective coursework approved by their supervisory committee. If they have not taken the equivalent of LIN 510 in the 30 hours, they will have to take that course.

Additional Curriculum Information

Students must demonstrate evidence of a competent knowledge of a natural language other than modern English, to be selected by the student, subject to the approval of the chair of the dissertation committee. The language requirement must be completed before the student is eligible to take the doctoral examinations. This requirement may be met by any of the following:

- earning a "B" or higher (3.00 on a 4.00 scale) in a 400- or 500-level course in an appropriate (approved) language
- demonstrating comparable proficiency by taking a language examination, administered by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- demonstrating native-speaker proficiency, as determined by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
- earning a "B" or higher (3.00 on a 4.00 scale) in both ENG 530 Old English and ENG 531 Old English Literature or their equivalent

- holding a bachelor's degree in an approved foreign language
- having fulfilled a foreign language requirement toward a previously awarded master's degree that was completed within five years of the semester for which the student was admitted to the doctoral program
- two years (four semesters) of successfully completed college level coursework (no more than six years prior to admission to the degree program) at least at the 100 and 200 levels with a "C" or better, for languages which the School of International Letters and Cultures does not offer or does not offer above the 200 level

The foreign language requirement must be in a language approved by the student's doctoral supervisory committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- academic writing sample relevant to the field
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements.

Undergraduate degrees in such related fields as anthropology, applied linguistics, communication, cognitive science, comparative languages and literatures, literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology, religious studies, rhetoric, composition, sociology, or speech and hearing science will be considered.

The one- to two-page, single-spaced statement of purpose should explain how the applicant's experience and training have prepared them for the program. It should also indicate career goals and explain how these goals relate to the graduate program in linguistics and applied linguistics.

Applicants applying for funding must also submit a statement of teaching philosophy. Students should see the Department of English website for specific details.

Marriage and Family Therapy, MAS (LAMFTMAS)

Online Degree Search Title: Marriage and Family Therapy, MAS

Campus: Tempe

Program Description:

This self-contained, accelerated MAS program in marriage and family therapy provides high-quality coursework and supervised internship experiences that meet the degree requirements for licensure in the State of Arizona for the practice of marriage and family therapy as determined and laid out by the Arizona Board of Behavioral Health Examiners. The degree requirements are specified by the board and the program is designed to train practitioners who wish to practice marriage and family therapy.

Degree Requirements:

39 credit hours and a master's research paper.

The master's degree program in marriage and family therapy requires the successful completion of a minimum of 39 credit hours and a project,

including required coursework and completion of 300 client-contact hours in a community internship placement approved by the master's degree in marriage and family therapy faculty. Internships are expected to last approximately 12 months. Students must maintain a GPA of 3.00 (scale is 4.00 = "A") in all coursework and satisfactorily meet the expectations of the agency supervising their internship.

Students are required to have a vehicle and a valid Arizona driver's license for internship placement.

An internship entrance examination is held at the end of the first 7.5-week semester to determine student readiness for internship placement.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field, such as counseling, psychology, and family and human development, among others.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Letters of recommendation must be from three people who know the applicant in a professional or academic capacity. Family members and friends do not meet this criterion.

Students should refer to the program's website for detailed information on admission requirements.

Mathematics, MA (LAMATHMA)

Online Degree Search Title: Mathematics, MA

Campus: Tempe

Program Description:

The MA program in mathematics is designed to increase mathematical knowledge beyond the traditional level of a bachelor's degree in order to prepare students for careers requiring sophisticated mathematical skills. Students may choose to specialize in applied mathematics, core mathematics, mathematics education, or statistics.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Computational Mathematical Sciences, BS
- Mathematics, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and 2 written comprehensive exams, or 30 credit hours and a portfolio, or 30 credit hours, a thesis and a written comprehensive exam.

Required Core (3 credit hours)

APM 505 Applied Linear Algebra (3), APM 506 Computational Methods (3), MAT 543 Abstract Algebra I (3) or MAT 570 Real Analysis I (3)

Electives (21-27 credit hours)

Culminating Experience (0-6 credit hours)

MAT 599 Thesis (6)

Portfolio (0)

Two written (or oral) comprehensive exams

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics or a closely related field from a regionally accredited institution as well as coursework in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- resume
- GRE (general) scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Mathematics, PHD (LAMATHPHD)

Online Degree Search Title: Mathematics, PhD

Campus: Tempe

Program Description:

The PhD program in mathematics is intended for students with superior mathematical ability. The program emphasizes a solid mathematical foundation and promotes creative scholarship in mathematics and its many related disciplines. The School of Mathematical and Statistical Sciences has very active research groups in analysis, number theory, geometry and discrete mathematics.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

MAT 501 Geometry and Topology of Manifolds I (3) or

MAT 516 Graph Theory I (3) or

MAT 543 Abstract Algebra I (3) or

MAT 570 Real Analysis I (3)

Other Requirements (3 credit hours)

MAT 591 Seminar (3)

Electives (24-39 credit hours)

Research (27-42 credit hours)

MAT 792 Research

Culminating Experience (12 credit hours)

MAT 799 Dissertation (12)

Additional Curriculum Information

Electives are to be chosen from math or related area courses approved by the student's supervisory committee.

Students must pass:

- two qualifying examinations
- a written comprehensive examination
- an oral dissertation prospectus defense

Students should see the department website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- resume
- GRE (general) scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Additional eligibility requirements include competitiveness in an applicant pool as evidenced by coursework in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371), and it is desirable that applicants have scientific programming skills.

Mathematics Education, PHD (LAMTEPHD)

Online Degree Search Title: Mathematics Education (Mathematics and Statistics Dept - Grades 9-20), PhD

Campus: Tempe

Program Description:

This transdisciplinary PhD program accommodates students from a variety of academic backgrounds. It provides students with a solid foundation in graduate-level mathematics as well as research skills and perspectives that will allow them to deal broadly with mathematics problems of:

- curriculum

- learning
- teaching
- technology

Conducting individual and collaborative research in the learning and teaching of mathematics is an integral part of the program.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (12 credit hours)

MTE 501 Research in Undergraduate Mathematics Education I (3)

MTE 502 Research in Undergraduate Mathematics Education II (3)

MTE 503 Research in Undergraduate Mathematics Education III (3)

MTE 504 Research in Undergraduate Mathematics Education IV (3)

Electives (42 credit hours)

Area Courses (12 credit hours)

Research (6 credit hours)

MTE 792 Research (6)

Culminating Experience (12 credit hours)

MTE 799 Dissertation (12)

Additional Curriculum Information

Four to five graduate-level (500 and above) elective courses from mathematics, cognitive science, psychology, educational technology, philosophy or research should be taken as approved by the advisor.

For the area courses, students are required to take four graduate-level courses from the following areas of interest: mathematics, applied mathematics, or statistics. Students should see the academic unit for the approved course list.

Students should see the school's website for information about qualifier and comprehensive examinations based on math coursework.

The doctoral dissertation culminating experience consists of a dissertation prospectus, oral dissertation defense and the submission of a final revised, formatted dissertation document to the Graduate College. Dissertations are composed under chair and committee supervised research including literature review, research, data collection and analysis, and writing.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is made up of electives and research.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics or a closely related area, with exceptionally high grades in advanced coursework in mathematics, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- writing sample
- GRE (general) scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Additional eligibility requirements include competitiveness in an applicant pool as evidenced by the required GRE scores.

At least two of the letters of recommendation must be from faculty.

Medieval Studies (certificate), Certificate (LAMEDSTCE)

Online Degree Search Title: Medieval Studies (Graduate Certificate)

Campus: Tempe

Program Description:

The certificate program in medieval studies prepares students for advanced study or for academic positions by augmenting their skills and knowledge, thereby making them better equipped to meet the demands of their fields.

Degree Requirements:

18 credit hours, or 27 credit hours.

Medieval Latin:

one semester (three or four credit hours) for students at the master's degree level, two semesters (six to eight credit hours) for doctoral students

proficiency attested either by achieving a grade of "B" (3.00 on a 4.00 scale) or better in the Medieval Latin courses or by satisfactory performance on the Medieval/Renaissance Latin examinations offered by the Centre for Medieval Studies at the University of Toronto (the requirement presupposing two years or 12 to 16 credit hours or equivalent of undergraduate training in Latin)

Medieval vernacular language (e.g., Old English, Old Norse, Old French):

two semesters (six credit hours) for students at the master's degree level, three semesters (nine credit hours) for doctoral students

Paleography:

one semester (three credit hours)

Medieval coursework outside the major discipline:

two semesters (six credit hours) for students at the master's degree level, three semesters (nine credit hours) for doctoral students

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Admission is open to all ASU graduate students in good standing who are enrolled in an existing master's or doctoral degree program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The Graduate College requires a TOEFL score of at least 550 (PBT) or 80 (iBT).

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Microbiology, MS (LAMICROMS)

Online Degree Search Title: Microbiology, MS

Campus: Tempe

Program Description:

The MS program in microbiology is designed to prepare students for careers in bacteriology, virology, mycology, immunology and oncology in academic institutions, government agencies or commercial entities.

Students receive advanced training in the study of microbes and their impact on humankind, disease and the environment. They use tools ranging from nanotechnologies and genomics to mathematical models and satellite-based imagine. Students receive training in both teaching and basic, translational and use-inspired research with world-class faculty and collaborative research partners. Faculty members are associated with the School of Life Sciences, The Biodesign Institute, The Translational Genomics Institute, Barrow Neurological Institute, and other area hospitals and research centers.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Biological Sciences, BS
- Biological Sciences (Biology and Society), BS
- Biological Sciences (Biomedical Sciences), BS
- Biological Sciences (Conservation Biology and Ecology), BS
- Biological Sciences (Genetics, Cell and Developmental Biology), BS
- Biological Sciences (Neurobiology, Physiology and Behavior), BS
- Microbiology, BS
- Microbiology (Medical Microbiology), BS
- Molecular Biosciences and Biotechnology, BS
- Neuroscience, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

Required Core (3 credit hours)

MIC 501 Foundations in Microbiology (3)

Electives and Research (21 credit hours)

Culminating Experience (6 credit hours)

MIC 599 Thesis (6)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Prior research experience is a desired qualification for admission.

Microbiology, PHD (LAMICROPHD)

Online Degree Search Title: Microbiology, PhD

Campus: Tempe

Program Description:

The PhD program in microbiology offers a dynamic research environment; a broad range of basic, translational and use-inspired research areas; cutting-edge transdisciplinary training; and opportunities to work with world-class faculty and collaborative research partners committed to training scientific leaders with skills necessary to address significant global microbiological problems and challenges.

Faculty members are associated with the School of Life Sciences, The Biodesign Institute, The Translational Genomics Institute, Barrow Neurological Institute, and other area hospitals and research centers.

The microbiology doctoral program prepares students for research and teaching careers in bacteriology, virology, mycology, immunology and oncology at universities and colleges, government agencies and industry.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

MIC 501 Foundation in Microbiology (3)

Electives or Research (69 credit hours)

Culminating Experience (12 credit hours)

MIC 799 Dissertation (12)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Molecular and Cellular Biology, MS (LACELLMS)

Online Degree Search Title: Molecular and Cellular Biology, MS

Campus: Tempe

Program Description:

The MS program in molecular and cellular biology encourages interdisciplinary, innovative, world-class research. It allows students to choose from a diverse range of research and training opportunities that extend beyond the traditional boundaries of biological research.

Graduates are prepared for successful careers in the biological sciences.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Biological Sciences, BS
- Biological Sciences (Biology and Society), BS
- Biological Sciences (Biomedical Sciences), BS
- Biological Sciences (Conservation Biology and Ecology), BS
- Biological Sciences (Genetics, Cell and Developmental Biology), BS
- Biological Sciences (Neurobiology, Physiology and Behavior), BS
- Microbiology, BS
- Molecular Biosciences and Biotechnology, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis.

Required Core (9 credit hours)

MCB 555 Advanced Molecular and Cellular Sciences (6)
MCB 556 Advanced Molecular and Cellular Biology II (3)

Electives or Research (7 credit hours)

Other Requirements (8 credit hours)

MCB 501 Seminar: Molecular and Cellular Biology Colloquium (4)
BIO 543 Molecular Genetics and Genomics (3)
BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1)

Culminating Experience (6 credit hours)

MCB 599 Thesis (6)

Additional Curriculum Information

Students are required to take MCB 501 each semester they are registered. If a student is registered for more or fewer than four semesters, the research hours and MCB 501 hours may be adjusted accordingly to reach 30 credit hours.

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Molecular and Cellular Biology, PHD (LACELLPHD)

Online Degree Search Title: Molecular/Cellular Biology, PhD

Campus: Tempe

Program Description:

The PhD program in molecular and cellular biology prepares students for careers that cross traditional disciplinary boundaries.

It provides a diverse range of research and training opportunities for doctoral students interested in pursuing a transdisciplinary approach to their studies that extends beyond the traditional boundaries of biological research. Participating faculty members and researchers are drawn from multiple departments, colleges, centers and institutes across the university, including:

- School of Life Sciences
- Department of Chemistry and Biochemistry
- School of Biological and Health Systems Engineering
- School for Engineering of Matter, Transport and Energy
- School of Mathematical and Statistical Sciences
- School of Human Evolution and Social Change
- Department of Psychology
- New College of Interdisciplinary Arts and Sciences.

Participating faculty members are also based at partner institutions in the greater Phoenix area, including:
Academic Catalog Archive 2020-2021

- Translational Genomics Research Institute
- Mayo Clinic in Arizona
- Barrow Neurological Institute
- Carl T. Hayden Veteran's Administration Medical Center
- University of Arizona College of Medicine-Phoenix.

Former graduates are leaders at academic institutions, in government, and in industry.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (9 credit hours)

MCB 555 Advanced Molecular and Cellular Sciences (6)

MCB 556 Advanced Molecular and Cellular Biology (3)

Electives or Research (51 credit hours)

Other Requirements (12 credit hours)

BIO 543 Molecular Genetics and Genomics (3)

BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1)

MCB 701 Seminar: Molecular and Cellular Biology Colloquium (8)

Culminating Experience (12 credit hours)

MCB 799 Dissertation (12)

Additional Curriculum Information

Courses listed as other requirements may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

Museum Studies, MA (LAMUSSTMA)

Online Degree Search Title: Museum Studies, MA

Campus: Tempe

Program Description:

The MA program in museum studies examines how museums produce and reflect culture and examines the role museums play worldwide.

Students develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. They also gain practical experience while being encouraged to challenge preconceived notions about museums and the way museums affect and are affected by societies and cultures. Designed to be use-inspired, socially embedded and transcultural, the program ensures that students understand the meaning and significance of museums in contemporary society and prepares them for diverse museum careers.

Degree Requirements:

30 credit hours and a portfolio.

Required Core (3 credit hours)

ASB 579 Critical Issues in Museum Studies (3)

Electives and Research (18)

ASB 592 Research (6)

other electives and research (12)

Other Requirements (9)

ASB 500 Research Methods (3) or ASB 572 Museum Collection Management (3)

ASB 584 Internship (6) OR ASB 584 Internship (3) and ASB 580 Practicum (3)

Culminating Experience (0 credit hours)

portfolio (0)

Additional Curriculum Information

For a complete list of approved elective and research courses, students should contact the school.

Internship (ASB 584) and Practicum (ASB 580) must be approved by their supervisory committees, usually in a museum setting or museum quality collection or archive related to their chosen area of study: anthropology, art history, theory and criticism or public history.

Other courses may be substituted for ASB 500 as an equivalent course with academic unit approval.

On completion of the internship, students must submit a journal or portfolio about the internship and skills acquired.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00="A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Museum Studies (certificate), Certificate (LAMUSEUMCE)

Online Degree Search Title: Museum Studies (Graduate Certificate)

Campus: Tempe

Program Description:

In the museum studies certificate program, students examine how museums produce and reflect culture and they examine the role museums play worldwide.

Students develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. They gain practical experience while being encouraged to challenge preconceived notions about museums and the way they affect and are affected by societies and cultures. Designed to be use-inspired, socially embedded and transcultural, the program ensures that students understand the meaning and significance of museums in contemporary society and prepares them for diverse museum careers.

Degree Requirements:

18 credit hours.

Required Core (3 credit hours)

ASB 579 Critical Issues in Museum Studies (3)

Electives (9 credit hours)

Other Requirements (6 credit hours)

ASB 580 Practicum (3) and ASB 584 Internship (3) OR

ASB 584 Internship (6)

Additional Curriculum Information

Certificate students may choose to specialize in areas such as anthropology, art history and public history.

For a complete list of approved elective and research courses, students should contact the school.

Internship (ASB 584) and Practicum (ASB 580) must be approved by their supervisory committees, usually in a museum setting or museum-quality collection or archive related to their chosen area of study: anthropology, art history, theory and criticism or public history.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count toward their degree program, with the approval and consent of the degree granting program. For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree or up to 12 credit hours may count toward their master's degree, with the approval and consent of the degree-granting program.

All requirements for the certificate program should be completed within a three-year time limit with a minimum cumulative GPA of 3.00 (scale is 4.00 = "A"). Students who require more time to finish the program (because of their part-time status or lack of desirable or available courses) must obtain approval from the executive committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement outlining educational and professional goals
- current curriculum vitae or resume

- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

For information on spring admission, students should contact the School of Human Evolution and Social Change.

Disclosure information about this U.S. Department of Education Gainful Employment program is available at <https://catalog.asu.edu/files/disclosures/LAMUSEUMCE/Gedt.pdf> (<https://catalog.asu.edu/files/disclosures/LAMUSEUMCE/Gedt.pdf>).

Nanoscience, PSM (LANANPSM)

Online Degree Search Title: Nanoscience, PSM

Campus: Tempe

Program Description:

The PSM in nanoscience is a cohesive program of transdisciplinary courses that provide the knowledge base required for research and innovation in nanoscience. The program incorporates courses in:

- chemistry and biochemistry
- electrical engineering
- materials science
- physics

Commercial innovation is a particular target goal of the degree, including applications in:

- biochemistry and sensing technology
- biophysics and biomedical technology
- nanomaterials and nanoscale devices

The Professional Science Master's degree program in nanoscience is suitable for working professionals as well as for students who have obtained a traditional bachelor's degree or master's degree in related fields.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Biochemistry, BS
Biochemistry (Medicinal Chemistry), BS
Chemistry, BS
Materials Science and Engineering, BSE
Physics, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

32 credit hours including the required applied project course (NAN 593).

Required Core (5 credit hours)

NAN 505 Nanoscience and Society (2) or NAN 506 Innovation and IP Management (2)
Academic Catalog Archive 2020-2021

NAN 571 Quantum Physics (3) or NAN 544 Introduction to Nanoscience (3)

Electives or Research (15 credit hours)

Other Requirements (6 credit hours)

NAN 591 Professional Seminar (6)

Culminating Experience (6 credit hours)

NAN 593 Applied Project (6)

Additional Curriculum Information

Students must take either NAN 505 or NAN 506. Students may also take the other course as an elective.

Students with a physical science or engineering background should take NAN 571 Quantum Physics and students with a biochemistry or life sciences background should take NAN 544 Introduction to Nanoscience.

The program includes a two-semester, student-centered professional seminar in which emerges the central role of the program as a vehicle for innovation. During the spring semester and summer session, students conduct an individual applied project in association with a research group. Throughout the program, students interact with research faculty and other students in a variety of disciplines related to nanoscience. Students also meet with visiting speakers and industrialists in the professional seminar as well as in other seminars.

If taken full time, the PSM in nanoscience can be completed in 12 months (fall semester, spring semester and two eight-week summer sessions). Another option is the two-year, part-time program which allows prospective students and their employers flexibility in scheduling the program of study.

Students should see the academic unit for a complete list of approved electives. Many of the requisite elective courses are currently offered within the Department of Physics and the Department of Chemistry and Biochemistry. Most are cross-listed with other units.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in physics, chemistry or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. TOEFL scores or equivalent are required for applicants whose native language is not English.

The personal statement should outline the applicant's research interests and why the applicant wants to apply to the Professional Science Master's degree program.

GRE scores are not required but are taken into consideration if submitted.

Letters of recommendation should be from individuals familiar with the applicant's work or studies relevant to the program.

Natural Science (Geological Sciences), MNS (LANATSCIMN)

Online Degree Search Title: Geological Sciences, MNS

Campus: Tempe

Program Description:

The School of Earth and Space Exploration participates in the program leading to the MNS in geological sciences. This transdisciplinary degree program is designed to meet the needs of professionals seeking a graduate-level degree. The program is especially suited for individuals who desire professional training rather than research training.

The program offers the opportunity for transdisciplinary graduate training in the natural sciences (i.e., biological sciences, mathematics and physical sciences) and cognate areas. Because it is flexible by design, the program also offers the opportunity for individualized professional graduate programs depending upon the backgrounds and goals of the students. The program must be transdisciplinary; students are expected to emphasize coursework in two or more areas of specialization.

Degree Requirements:

30 credit hours and an applied project.

The supervisory committee is chosen by the student in conjunction with the advisor. The composition of the supervisory committee must reflect the transdisciplinary nature of the program. The student will develop a suitable applied project with the approval of the supervisory committee.

Students must submit a plan of study after conferring with the supervisory committee. While a minimum of 30 credit hours is required for the degree, more credit hours may be required by the supervisory committee, depending upon the background of the student and the nature of the proposed program. All students admitted to this program are also required to take two seminars:

GLG 500 SESE Colloquium (1)

GLG 591 Faculty Research Seminar (1)

In some cases, undergraduate courses may be required to remove deficiencies.

An applied project is required.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:

- graduate admissions application and application fee
- official transcripts
- statement of purpose
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Natural Science (Physics), MNS (LAPHYSMNS)

Online Degree Search Title: Physics, MNS

Campus: Tempe

Program Description:

The MNS program in physics provides transdisciplinary graduate training in physics, physical science or physics education. The program is especially suited for high school science teachers who desire professional training rather than research training.

Designed for flexibility, the curriculum also features individualized professional graduate programs. These programs are well-suited to the backgrounds and goals of students. Students are expected to emphasize coursework in two or more areas of concentration. The program must be transdisciplinary.

Degree Requirements:

30 credit hours including the required applied project course (PHS 593).

The graduate advisor and the student suggest three faculty members who reflect the transdisciplinary nature of the program to serve on the supervisory committee, which upon the recommendation of the chair of the Department of Physics is appointed by the vice provost for the Graduate College soon after the student has been admitted to the degree program.

After conferring with the student, the supervisory committee recommends the plan of study. The committee may require additional coursework to ensure proficiency, depending upon the student's background and the nature of the proposed program. In some cases, undergraduate courses may be required to overcome deficiencies.

Teachers may enroll in these courses in order to earn credit toward recertification or to pursue a Master of Natural Science degree. These courses are held during the summer. Depending on teacher interest, they may be offered at other times. For some courses, the prerequisites are two semesters of trigonometry-based college physics and an introductory calculus course.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree from a regionally accredited institution. The program is open to in-service high school teachers who have completed two semesters of college physics and an introductory calculus course. Under-prepared teachers can make up deficiencies in regularly scheduled courses. Students must be able to attend classes in-person at the Tempe campus.

Applicants must have a minimum GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- two letters of recommendation
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals familiar with the applicant's work or studies relevant to the natural science program.

Conditions for admission are the availability of resources for the proposed program and a Department of Physics faculty member designated to serve as a graduate advisor.

Neuroscience, PHD (GCBMENPHD)

Online Degree Search Title: Neuroscience, PhD

Campus: Tempe

Program Description:

Neuroscience involves the study of the nervous system and its relation to an organism's function. It encompasses how gene and nerve networks interact with the environment throughout an organism.

The PhD program in neuroscience integrates aspects of graduate-level training from many different units on campus as well as from the program's partner institutions distributed across the greater Phoenix area. Partner institutions include Barrow Neurological Institute, Translational Genomics Research Institute, University of Arizona College of Medicine and Sun Health Research Institute.

This degree is appropriate for a teaching or research career in academia or a science career with a biotech, medical or pharmaceutical company, as well as other employment opportunities.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (10 credit hours)

NEU 555 Advanced Molecular and Cellular Sciences (6)

NEU 556 Human Systems Neuroscience (4)

Electives or Research (56 credit hours)

Other Requirements (6 credit hours)

NEU 558 Neuroscience Journal Club (3)

NEU 591 Seminar (3)

Culminating Experience (12 credit hours)

NEU 799 Dissertation (12)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Regular admission may be granted to applicants who have achieved a GPA of 3.00 (scale is 4.00 = "A") or better in the last two years of work leading to a bachelor's degree and who are competitive in the applicant pool as evidenced by letters of recommendation. Particular attention is paid to research experience and overall preparation in problem-solving abilities as evidenced by previous coursework and research experiences.

Because this program draws on an extremely broad range of disciplinary backgrounds in recruiting students, there is no specific set of undergraduate course requirements other than those implied by the degree requirements described above. Most students are expected to have had coursework in biology, chemistry and math.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Research experience is a desired qualification.

Philosophy, MA (LAPHILMA)

Online Degree Search Title: Philosophy, MA

Campus: Tempe

Program Description:

The School of Historical, Philosophical and Religious Studies offers an MA degree program in traditional and contemporary philosophy. General areas of research include ethics, political philosophy, metaphysics, epistemology, philosophy of law, philosophy of science, feminist philosophy, philosophy of language, experimental philosophy and the history of philosophy. Members of the faculty are involved in interdisciplinary work in a variety of fields and enjoy close ties with the Lincoln Center for Applied Ethics, the Sandra Day O'Connor College of Law, and a number of other graduate programs at ASU. The philosophy program sponsors an active colloquium series and regular philosophical conferences on diverse topics. The Lincoln Center for Applied Ethics also sponsors a wide range of activities, including large-scale conferences, distinguished visitors and support for graduate study.

The master's degree program in philosophy is designed to prepare students to:

- enter doctoral programs
- teach philosophy at the community college level
- work in any area that requires critical, analytical thinking, such as medicine, law, government or publishing

The program seeks to maintain a balance between course offerings in the traditional areas of philosophy and opportunities for study of current philosophical developments.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis.

Required Core Areas (12 credit hours)

epistemology (3)

history of philosophy (3)

metaphysics (3)

value theory (3)

Electives and Research (12 or 18 credit hours)

Culminating Experience (0 or 6 credit hours)

PHI 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

There are two culminating experience options for the master's degree program in philosophy: the thesis option and the nonthesis portfolio option.

For electives, thesis students take 12 credit hours of electives. Portfolio students take 18 credit hours of electives, which must include PHI 592 Research for three credit hours.

Students should see the academic unit for the list of courses approved for each core area in epistemology, history of philosophy, metaphysics and value theory.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency as well as a copy of an article or research paper in their native or principal research language in addition to the English writing sample required of all students. The philosophy program requires a TOEFL score of at least 600 (PBT) or 90 (iBT).

The statement of purpose should explain the applicant's specific intent and be no more than 600 words in length.

The writing sample must be a piece of philosophical writing, preferably a seminar paper or published article (no more than 20 pages) and not a thesis or dissertation.

Philosophy, PHD (LAPHILPHD)

Online Degree Search Title: Philosophy, PhD

Campus: Tempe

Program Description:

The School of Historical, Philosophical and Religious Studies offers a newly redesigned PhD philosophy program. General areas of research include ethics, political philosophy, metaphysics, epistemology, philosophy of law, philosophy of science, philosophy of language, philosophy of religion and the history of philosophy.

The program features a focus on practical and applied philosophy and an interdisciplinary coursework component related to the student's research topic. Practical philosophy includes the fields of ethics, philosophy of law, social and political philosophy, feminist ethics and political philosophy. Applied philosophy includes both the application of theories developed within any of the subdisciplines of philosophy to everyday problems or phenomena (for example, the application of the philosophy of language in relation to hate speech or the philosophy of mind in relation to computing and artificial intelligence). Applied philosophy also includes the application of research produced by methods used in other disciplines in order to understand and address philosophical questions (for example, the application of data-gathering instruments used in psychology to answer questions in experimental philosophy).

Students may design dissertation projects in any of the major subfields of philosophy. For their interdisciplinary coursework supporting the dissertation project, students might, for example, pursue a certificate in social transformation, gender studies, responsible innovation in sciences, or engineering and society, etc.

Members of the faculty are involved in interdisciplinary work in a variety of fields and enjoy close ties with the Lincoln Center for Applied Ethics, the College of Law and a number of other graduate programs at the university. The ASU philosophy faculty group sponsors an active colloquium series and regular philosophical conferences on diverse topics. The Lincoln Center for Applied Ethics also sponsors a wide range of activities, including large-scale conferences, distinguished visitors and support for graduate study.

The program is designed to prepare students for careers as philosophers, as teachers of philosophy and in areas in which they may benefit from advanced training in philosophy, such as law, civil service and publishing.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core Areas (18 credit hours)

applied philosophy (3)

epistemology (3)

formal methods (3)

history of philosophy (3)
metaphysics (3)
value theory (3)

Electives (42 credit hours)

Research (12 credit hours)
PHI 792 Research (12)

Culminating Experience (12 credit hours)
PHI 799 Dissertation (12)

Additional Curriculum Information

Students should see the academic unit for the list of courses approved for each required core area.

In completing the electives requirements, at least nine credit hours and no more than 18 credit hours must be from other disciplines supporting the student's proposed dissertation area. 30 credit hours from a previously awarded master's degree may apply toward this requirement with approval by the student's supervisory committee and the Graduate College.

To ensure breadth in the traditional areas of philosophy, students must pass with a grade of "B" (3.00 on a 4.00 scale) or better.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- official GRE scores
- statement of purpose
- curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency, a copy of an article or research paper in their native or principal research language, as well as the English writing sample required of all students regardless of current residency. The philosophy program requires a TOEFL score of at least 600 (PBT) or 100 (iBT), or 7.0 on the IELTS.

GRE scores should be no more than five years old. Official scores should be sent by the ETS to ASU using the university code 4007. The department code may be left blank or entered as 0000.

The statement of purpose should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue, and the proposed research specialization (no more than 600 words in length).

The writing sample must be a piece of philosophical writing, preferably a seminar paper or published article (no more than 20 pages).

Online Degree Search Title: Philosophy (History and Philosophy of Science), MA

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

Nationally, there is great interest in science and in understanding the nature of science and the forces that change scientific research. The job market in philosophy is strong for philosophers of science (and especially in the life sciences) with some positions remaining unfilled even when the market is intensely competitive in other areas. In addition, the history and philosophy of science is becoming a strong disciplinary emphasis within growing professional societies.

Some programs, elsewhere, focus primarily on philosophy or primarily on history, but those that bring the two together are regarded among the strongest in each area. The objective here is to provide a program for students who come to history and philosophy of science from the humanities and who seek a career based in philosophical analysis of the sciences. ASU's MA program in philosophy with a concentration in the history and philosophy of science has the research strength competitive with any international program.

Degree Requirements:

30 credit hours, including the required capstone course (HPS 551) and a thesis.

Graduate coursework includes:

history of science (3)
philosophy of science (3)
topics in the history of science (3)
topics in the philosophy of science (3)
research methods in the history and philosophy of science (3)
prospectus writing (3)
research and thesis (12)

Philosophy (History and Philosophy of Science), PHD (LAHPSPHD)

Online Degree Search Title: Philosophy (History and Philosophy of Science), PhD

Campus: Tempe

ASU is not currently accepting applications to this program.

Program Description:

The strength of ASU's PhD program in philosophy with a concentration in the history and philosophy of science is to bring philosophy, history and the study of science together. This degree program combines solid training in the core areas of philosophy with an emphasis on transdisciplinary studies of the sciences and their conceptual structure, epistemology, history, and impacts on society.

The program is especially appropriate for students with a background in philosophy who seek to broaden their disciplinary studies with a historical perspective. Applicants will typically come from undergraduate programs that have included philosophical, historical or history and philosophy of science training, or with a master's degree in one of those fields. Science students are eligible as well and will make up relevant undergraduate humanistic core courses during their first years.

Most graduates will seek a career based in philosophical or historical analyses of the sciences.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Concentration (18 credit hours)

history of science (3)

philosophy of science (3)

prospectus writing (3)

research methods in the history and philosophy of science (3)

topics in the history of science (3)

topics in the philosophy of science (3)

Other Requirements (21 credit hours)

advanced logic or approved equivalent (3)

approved philosophy or other relevant courses (9)

a course in history of philosophy (3)

a course in value theory (3)

HPS 615 Biology and Society Lab (3 hours, one credit each)

Electives or Research (33 credit hours)

Culminating Experience (12 credit hours)

HPS 799 Dissertation (12)

Admission Requirements:

This program is not currently accepting applications.

Physics, MS (LAPHYSIMS)

Online Degree Search Title: Physics, MS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The MS program in physics provides graduate instruction and research experience appropriate to many physics-related careers. The structure of the program is flexible enough to allow a wide range of programs of study and a wide range of student backgrounds. It is also suitable for part-time study.

Completion of the program requires a minimum of two years, with students typically taking courses for the first three semesters and completing a research project in their final semester. Each student defends a master's degree thesis at the end of the program.

Degree Requirements:

30 credit hours and a thesis.

The master's degree in physics can emphasize either physics or physics in combination with other fields.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in physics or a closely related field, from a regionally accredited institution. To be admitted to the master's degree program in physics without deficiencies, applicants should have adequate undergraduate preparation equivalent to an undergraduate major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- test scores for the verbal, quantitative and analytical sections of the GRE
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency in the form of a TOEFL or equivalent score regardless of current residency.

Submission of scores for the physics GRE subject test is recommended, although not mandatory.

Financial support in the form of teaching or research assistantships is contingent upon satisfactory performance in coursework, timely completion of the final examination for the master's degree, and need and availability of such support.

Students on probation are offered financial support only under exceptional circumstances.

Physics, PHD (LAPHYSIPHD)

Online Degree Search Title: Physics, PhD

Campus: Tempe

Program Description:

The PhD in physics is intended for highly capable students having the interest and ability to follow a career in independent research. Graduates find positions in a variety of settings, such as academic faculty, administration, government labs, industrial labs and management.

The recent advent of the graduate faculty initiative at ASU extends the spectrum of potential physics doctoral topics and advisors to include highly transdisciplinary projects that draw upon:

- biochemistry
- biology
- chemistry
- electrical engineering
- materials science
- other related fields

Consequently, students and doctoral advisors can craft novel doctoral projects that transcend the classical palette of physics subjects. Transdisciplinary expertise of this nature is increasingly vital to modern science and technology.

Current areas of particular emphasis within the department include:

- biological physics
- cosmology
- electron diffraction and imaging
- nanoscale and materials physics
- particle physics and astrophysics

The department has more than 90 doctoral students and more than 40 faculty members.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Coursework (18 credit hours)

PHY 500 Research Rotation I (3)

PHY 500 Research Rotation II (3)
PHY 521 Classical and Continuum Mechanics (3)
PHY 531 Electrodynamics (3)
PHY 541 Statistical Physics (3)
PHY 576 Quantum Theory (3)

Electives or Research (54 credit hours)

Culminating Experience (12 credit hours)
PHY 799 Dissertation (12)

Additional Curriculum Information

Of particular note within the core courses are the PHY 500 Research Rotations, which are specifically designed to engage doctoral students in genuine, faculty-guided research starting in their first semester at ASU. Students take PHY 500 in the first and second year of study.

Coursework beyond the core courses is established by the student's doctoral advisor and supervisory committee, working in partnership with the student. The intent is to tailor the doctoral training to the specific research interests and aptitudes of the student while ensuring that each graduating student emerges with the expertise, core knowledge and problem-solving skills that define a successful doctoral degree in physics.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 credit hours of coursework are made up of electives to reach the required 84 credit hours.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in physics or a closely related area, from a regionally accredited institution. Applicants must have had adequate undergraduate preparation equivalent to an undergraduate major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- GRE scores (general GRE and physics GRE)
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Scores from the verbal, quantitative and analytical sections of the GRE are required. The subject GRE test scores are also required.

Applicants requesting credit for prior graduate courses, taken either at ASU or elsewhere, must demonstrate mastery of the relevant course material to the graduate-level standards of the Department of Physics.

Plant Biology and Conservation, MS (LAPLBIOMS)

Online Degree Search Title: Plant Biology and Conservation, MS

Campus: Tempe

Program Description:

Conservation addresses a growing need for botanists and conservation biologists in academic institutions, government agencies and nongovernmental organizations.

The MS program in plant biology and conservation provides students with advanced training in plant ecology, evolution and floristics as well as in theory and practice of conservation biology. Students have the opportunity to work with faculty and researchers from ASU and the Desert Botanical Garden, located in Phoenix near ASU's Tempe campus.

This master's degree program is offered in collaboration with the Desert Botanical Garden.

Degree Requirements:

30 credit hours and a thesis.

Required Core (3 credit hours)

PLB 502 Perspectives in Plant Biology (3)

Research (3 credit hours)

PLB 592 Research (3)

Electives (17 credit hours)

Other Requirements (1 credit hour)

PLB 591 Seminar (1)

Culminating Experience (6 credit hours)

PLB 599 Thesis (6)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biology, botany or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admission application and application fee
- official transcripts
- academic record form
- personal statement
- curriculum vitae or resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Online Degree Search Title: Political Psychology, MA

Campus: Online

Program Description:

Developed as an interdisciplinary program crossing political science and psychology, the MA in political psychology was created to aid in the professional advancement of electoral and issue advocacy campaigns, government and private sector careers, and careers in non-profit organizations. Students learn skills necessary to mobilize voters and social movements, advance governmental programs, design successful political communication strategies, and effectively market political candidates for local, state and federal offices.

The program's mission is to educate students in the most recent insights from evidence-based research, prepare students with innovative tools and knowledge that gives them an advantage over their peers, and encourage hands-on training that ensures what they learn inside of the classroom applies outside of the classroom.

Students have regular interactions with world-class teachers and researchers who help students learn how to shape the world in a meaningful and positive way.

Degree Requirements:

30 credit hours including the required capstone course (PPS 550).

Required Core (3 credit hours)

PPS 501 Fundamentals of Political Psychology (3)

Other Requirement (15 credit hours)

PPS 502 Cognition and Emotions in Political Thinking (3)

PPS 503 Prejudice, Stereotypes and Intergroup Relations (3)

PPS 504 Attitudes and Persuasion (3)

PPS 505 Biopolitics (3)

PPS 506 Experimental Design (3)

Electives or Research (6 credit hours)

Internship (3 credit hours)

PPS 584 Internship (3)

Culminating Experience (3 credit hours)

PPS 550 Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a list of approved elective courses.

Other requirement coursework may be substituted with approval, including courses like "Social Media and Campaigns" or "Defining the Digital Audience" from the Cronkite School. Those substitutions are based on student interest in narrowing their specialization with guidance. This program does not seek to replicate existing communications or marketing degrees, but rather harness the political psychology perspective as applied to a variety of potential student interests and careers.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent or written statement

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/political-psychology-ma/>)

Political Science, MA (LAPOLSCMA)

Online Degree Search Title: Political Science, MA

Campus: Tempe

Program Description:

The MA program in political science offers a variety of areas of specialization within and between the four main sub-fields of political science --- American politics, comparative politics, international relations, and political theory --- with particular strengths in ethno-religious dynamics, women and politics, conflict and human rights, and Latino politics.*

Faculty also conduct research and teach in the areas of political psychology and political economy, and many are active in collaborative interdisciplinary research at ASU and with scholars at other universities; many have won major grants and awards. The school is host to the Center on the Future of War, the Center for Latina/os and American Politics Research and an experimental lab.

This Master of Arts program may be taken as a terminal program or as a step toward eventual fulfillment of the requirements for the doctorate. Students who plan to obtain the doctorate at ASU should apply directly to the doctoral program.

*Students interested in a political theory specialization should consult with the academic unit prior to application.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Global Studies, BA
- Political Science, BA
- Political Science, BS
- Politics and the Economy, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a thesis.

Required Core Course (3 credit hours)

POS 503 Empirical Political Inquiry (3)

Other Requirements (6 credit hours)

focus area course (3)

POS 603 Polimetrics I or second focus area course for political theory (3)

Electives (15 - 21 credit hours)

Culminating Experience (0 - 6 credit hours)

POS 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information:

Students selecting the thesis option must submit a written thesis and hold an oral defense. Students selecting the portfolio option must submit a written paper and hold an oral defense.

The course POS 603 Polimetrics I (3) may be substituted with permission of both the director of Graduate Studies and the faculty advisor. Students in the political theory focus area will take a second focus area course instead of POS 603.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- GRE scores
- three letters of recommendation
- list of political science courses taken
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

To assist in evaluating all candidates, the applicant should list titles and related information for all previous undergraduate and graduate courses or coursework in political science or related fields. The file must be saved in a .pdf, .doc, .rtf or .txt format and uploaded with the online graduate admission application. The information should be in a table with the following column headings: Course Title, Undergrad Credit Hours, Graduate Credit Hours, Grade, Institution, Year.

Undergraduate coursework in political science is not a prerequisite for admission. However, master's degree students should have a basic understanding of elementary statistics and the undergraduate content of the political science fields of concentration that they wish to study. Students should allow sufficient time to acquire such a background.

Political Science, PHD (LAPOLSCPHD)

Online Degree Search Title: Political Science, PhD

Campus: Tempe

Program Description:

The PhD program in political science is intended to develop scholars who demonstrate a high level of excellence in teaching and research as professional political scientists. It offers a variety of areas of specialization within and between the four main sub-fields of political science: American politics, comparative politics, international relations and political theory. Students interested in a political theory specialization should consult with the academic unit prior to application.

Program faculty have particular strengths in ethno-religious dynamics, women and politics, conflict and human rights, and Latino politics. Faculty also conduct research and teach in the areas of political psychology and political economy.

The school is host to the Center on the Future of War, the Center for Latina/os and American Politics Research and an experimental lab. Many faculty members are active in collaborative interdisciplinary research at ASU and with scholars at other universities, and they have won major grants and awards, as have the school's doctoral students. Program graduates have a strong track record of obtaining positions in academic, public

and private sectors. The program works closely with students so they have the opportunity and tools needed to achieve their career goals.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

POS 503 Empirical Political Inquiry (3)

Electives and Research (39 credit hours)

Culminating Experience (12 credit hours)

POS 799 Dissertation (12)

Additional Curriculum Information

A maximum of 12 credit hours of approved coursework outside the department but within ASU may count toward the required 84 credit hours.

Coursework beyond the 12 credit hour maximum may be taken outside the department with permission of both the director of Graduate Studies and the faculty advisor.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives to reach the required 84 credit hours.

Also required is a formal oral defense of the dissertation and a written comprehensive examination in the major and minor fields.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- GRE scores
- three letters of recommendation
- list of political science courses taken
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

To assist in evaluating all candidates, the applicant should list titles and related information for all previous undergraduate and graduate courses or coursework in political science or related fields. The file must be saved in a .pdf, .doc, .rtf or .txt format and uploaded with the online graduate admission application. The information should be in a table with the following column headings: Course Title, Undergrad Credit Hours, Graduate Credit Hours, Grade, Institution, Year.

Undergraduate coursework in political science is not a prerequisite for admission. However, applicants to the doctoral program should have a basic understanding of elementary statistics and the undergraduate content of the political science fields of specialization that they wish to study. Students without this background should allow sufficient time to acquire it.

Psychology, PHD (LAPSYCHPHD)

Online Degree Search Title: Psychology, PhD

Campus: Tempe

Program Description:

The Department of Psychology offers PhD programs designed to provide outstanding training in innovative research, methodology and the application of psychological principles to a wide variety of human conditions. The department is organized into six major areas of interest. The quantitative research methods area is a formalized concentration separate from the other training areas; it requires application directly to that program (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/LAPSYQUPHD/graduate/false> (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/LAPSYQUPHD/graduate/false>)).

- behavioral neuroscience
- clinical psychology
- cognitive science
- developmental psychology
- quantitative research methods
- social psychology

Students pursue their graduate studies within one of these six areas, and each area determines the basic curriculum for their graduate program. There is, however, substantial opportunity to integrate courses of study across areas in the department.

Further specialized emphases are available that integrate across programs in the university.

At the core of doctoral training in psychology is an emphasis on the development of skill in research and quantitative methods. Faculty in all six areas are actively engaged in major research programs. These theoretically grounded research programs address the breadth of psychological processes, including evolution and behavior; cognitive processes (e.g., attention, language, memory) as they occur within the context of perception and action, personality and issues of stigma and prejudice; individual resilience; cultural influences on psychological processes; neurobiological and psychosocial processes that underlie behavior and health (e.g., drug abuse, stress, heart disease); prevention of child mental health problems; and lifespan developmental aspects of emotion and cognition.

A unique strength of the Department of Psychology is the wealth of outstanding faculty members whose specialization is quantitative methods. A breadth of courses and experiences in quantitative methods are available that are well-integrated into the areas of research that characterize the department and offer students the distinctive opportunity to develop expertise in this critical domain.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 or 4 credit hours)

PSY 502 Professional Issues in Psychology (3) or

PSY 531 Multiple Regression in Psychological Research (4)

Electives and Research (68 or 69 credit hours)

Culminating Experience (12 credit hours)

PSY 799 Dissertation (12)

Additional Curriculum Information

In addition to required coursework pertaining to the training area, students take courses related to their area of interest as determined in consultation with their supervisory committees. Requirements vary across training areas.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- SlideRoom application and fee
- statement of purpose form
- applicant response form
- graduate assistantship application
- curriculum vitae or resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

To apply to the doctoral programs, applicants must follow the instructions on the doctoral program admissions instructions and checklist. It is strongly recommended that applicants download and print this form to ensure completion of the application process and include all of the required supplemental forms.

The Department of Psychology application process is completed online through ASU's Graduate Admission Services which includes the application form and official transcripts. Application to Department of Psychology doctoral programs is also completed via SlideRoom to process supplemental application materials. The SlideRoom account requires an additional fee.

Applicants must submit three academic letters of recommendation from faculty members who know the student well. Three letters are required but four letters of recommendation may be submitted.

Psychology (Quantitative Research Methods), PHD (LAPSYQUPHD)

Online Degree Search Title: Psychology (Quantitative Research Methods), PhD

Campus: Tempe

Program Description:

The quantitative research methods concentration of the PhD in psychology focuses on the broad class of quantitative and methodological issues that arise in the conduct of both basic and applied psychological research.

There are six core faculty members in the quantitative concentration who, in addition to their quantitative research, collaborate with colleagues in substantive research areas. These collaborations help to support the training of students in quantitative methods against a backdrop of methodological issues associated with the substance of psychological science.

The quantitative concentration program is committed to training the next generation of psychological methodologists who will make contributions in developing methods in the areas of measurement, study design and analysis, modeling, and evaluating the utility of new and existing methods in psychological research.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 or 4 credit hours)

PSY 502 Professional Issues in Psychology (3) or

PSY 531 Multiple Regression in Psychological Research (4)

Concentration (3 credit hours)

PSY 533 Structural Equation Modeling (3)

Other Requirements (31 credit hours)

PSY 530 Intermediate Statistics (4)

PSY 532 Analysis of Multivariate Data (3)

PSY 534 Psychometric Methods (3)
PSY 536 Statistical Methods in Prevention Research
PSY 537 Longitudinal Growth Modeling (3)
PSY 538 Advanced Structural Equation Modeling (3)
PSY 539 Multilevel Models for Psychological Research (3)
PSY 540 Missing Data Analysis (3)
PSY 543 Statistical Mediation Analysis (3)
PSY 555 Experimental and Quasi-Experimental Designs for Research (3)

Electives (22 or 23 credit hours)

Research (12 credit hours)

Culminating Experience (12 credit hours)
PSY 799 Dissertation (12)

Additional Curriculum Information

Electives are determined in consultation with the student's supervisory committee.

Other requirements courses may be substituted for other courses based on consultation with the student's supervisory committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Religious Studies, MA (LARELIGMA)

Online Degree Search Title: Religious Studies, MA

Campus: Tempe

Program Description:

The faculty in religious studies offer a graduate program leading to the MA in religious studies. Candidates are offered an opportunity to develop knowledge of various religious traditions in their historical and cultural contexts and to learn research methods. Although students often concentrate upon a single religious tradition for their thesis work, the program provides a broadly comparative understanding of religions, not simply a specialist's training in a single tradition.

Degree Requirements:

30 credit hours including the required applied project course (REL 593) and a foreign language exam, or 30 credit hours, a thesis and a foreign language exam.

Required Core (6 credit hours)

REL 501 Research Methods in Religious Studies (3)

REL 502 Research Methods in Religious Studies (3)

Electives or Research (18-21 credit hours)

Culminating Experience (3-6 credit hours)

REL 599 Thesis (6) or

REL 593 Applied Project (3)

Additional Curriculum Information

There are two options for the culminating experience: a thesis or an applied project. An oral defense of the final written work is required for both options.

The thesis option is recommended for students intending to seek admission to a doctoral program upon completion of the master's degree or for students who plan to teach in the discipline at community colleges. Thesis students must have reading knowledge of all languages relevant to the proposed thesis topic and take 18 credit hours of electives or research coursework.

The applied project option is recommended for students intending to augment their primary area of expertise and professional training in fields such as counseling, journalism, K-12 education, law, social work and the ministry. The applied project requires submission of three publishable papers: one on theory and method, one on the student's minor area of study, and one on the major area of study. The student's chosen areas of study determine the coursework taken as electives, with applied project students taking 21 credit hours of electives coursework, four courses being in a major area of study and two courses being in a minor area. Reading knowledge of a foreign language relevant to the proposed area of study is required.

The student's plan of study may include up to six credit hours of 400-level coursework or one REL 690: Reading and Conference (3) course with department approval.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Transcripts must show evidence of having completed the equivalent of 15 credit hours of undergraduate work in the study of religions, including advanced courses in both western and Asian or other nonwestern religions. Applicants who have not met this requirement may be required to take additional coursework beyond program requirements to remedy this deficiency.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.50 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- curriculum vitae
- writing sample
- contact information for three references
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students are required to submit contact information for three academic references who are qualified to provide detailed, accurate evaluations of the applicant's potential as a graduate student in religious studies. Professors are preferred, particularly faculty advisors. Recommenders are contacted by the Graduate College with a request to complete a reference questionnaire.

The statement of purpose should be approximately 1,000 words and should outline the applicant's academic background, career goals, and specific areas of interest in religious studies.

Religious Studies, PHD (LARELIGPHD)

Online Degree Search Title: Religious Studies, PhD

Campus: Tempe

Program Description:

The academic study of religion is a central component of the humanities and has become increasingly recognized as a critical tool in understanding society and politics in a globalized world.

The PhD program in religious studies is designed for graduate students who would benefit from greater expertise regarding the nature and role of religion around the world. The program provides supplementary training that includes history, anthropology, political science, journalism, secondary education and justice studies. Through this program, graduate students are trained for careers as scholars and teachers in the academic study of religion.

Doctoral tracks in the study of religion approach the study in a variety of contexts. Specifically offered are tracks in:

- anthropology of religion
- global Christianity
- Islam in global contexts
- religion in Asia
- religion in the Americas

Degree Requirements:

84 credit hours, foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The plan of study must contain a minimum of 84 credit hours, including 12 hours of dissertation. Courses and research hours are approved by the student's supervisory committee.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Transcripts must show evidence of having completed the equivalent of 15 credit hours of undergraduate work in the study of religions, including advanced courses in both western and Asian or other nonwestern religions. Applicants who have not met this requirement may be required to take additional coursework beyond program requirements to remedy this deficiency.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants will have a GPA of 3.50 or higher.

All applicants must submit:

- graduate admission application and application fee
- official transcripts

- GRE scores
- statement of purpose
- curriculum vitae
- writing sample
- contact information for three references
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The Graduate College requires a minimum TOEFL score of 550 (PBT) or 80 (iBT).

The statement of purpose should be approximately 1,000 words describing the applicant's academic background, the reasons for wishing to pursue a doctorate in religious studies, the proposed area of specialization, and specific research topics the student plans to engage in at Arizona State University.

The writing sample should be a work of original scholarly writing, approximately 15 to 30 pages in length. It should represent the student's best academic writing.

Students are required to submit contact information for three academic references who are qualified to provide detailed, accurate evaluations of the applicant's potential as a graduate student in religious studies. Professors, particularly faculty advisors, are preferred. Recommenders are contacted by the Graduate College with a request to complete a reference questionnaire. Letters of recommendation can be submitted in addition to answering these questions online.

GRE scores should be no more than five years old. Official scores should be sent by the ETS to ASU using the university code 4007. The department code can be left blank or entered as 0000.

Renaissance Studies (certificate), Certificate (LARENAISCE)

Online Degree Search Title: Renaissance Studies (Graduate Certificate)

Campus: Tempe

Program Description:

In this Renaissance studies certificate program, Renaissance language, early modern language and paleography lay the foundation for the examination of a time that gave the world humanism, the statue of David and more.

Students completing the certificate program are prepared for advanced study or for academic positions.

Degree Requirements:

18 credit hours (MA certificate), or 27 credit hours (PhD certificate).

Renaissance Language:

Master's degree students are required to take one semester of a Renaissance language (three to four credit hours). Doctoral degree students of Medieval/Renaissance Latin, Spanish literature or Portuguese literature are required to take two semesters (six to eight credit hours). This requirement presupposes two years or 12 to 16 credit hours or the equivalent of undergraduate training in Latin.

Proficiency is proven either by achieving a grade of "B" or better (3.00 on a 4.00 scale) in the medieval Latin courses or by satisfactory performance on the Medieval/Renaissance Latin examinations offered by the Centre for Medieval Studies, University of Toronto.

Early modern language at the upper-division level:

Master's degree students are required to take two semesters (six credit hours). Doctoral degree students are required to take three semesters (nine credit hours). Literature or linguistics classes may apply.

Paleography:

Students are required to take one semester (three credit hours).

Coursework outside the major discipline:

Master's degree students are required to take two semesters (six credit hours). Doctoral degree students are required to take three semesters (nine credit hours).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Admission is open to all ASU graduate students enrolled in an existing master's degree or doctoral program and in good standing.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Scholarly Publishing (certificate), Certificate (LASCHPUBCE)

Online Degree Search Title: Scholarly Publishing (Graduate Certificate)

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The scholarly publishing certificate program offers training in publishing studies to graduate students from any discipline.

The program focuses on publishing wherever it occurs: museums, corporations, cultural institutions, university presses, commercial houses, digital startups, libraries, journal and textbook publishers, and learned societies. Students create the future world of publishing as it is expressed in the digital world of e-books, apps, blogs, websites, interactive media, online scholarship and popular writing.

Graduates work for publishing houses, museums, corporations, cultural institutions, government agencies and libraries.

Degree Requirements:

20 credit hours.

Coursework includes four required core courses and electives from a variety of disciplines. The certificate requirement includes a summer internship. Some courses may be applied to both the certificate and the student's degree program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or

applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- a resume or curriculum vitae
- a letter of intent
- three reference letters
- official transcripts
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Graduate students in any discipline may pursue a certificate in scholarly publishing in conjunction with their degree programs. The program is also open to students who already hold graduate degrees.

The resume or curriculum vitae is required, and it must be uploaded into the online application.

The letter of intent should be addressed to the history review committee explaining the applicant's scholarly background and training, career goals and why the applicant wants to pursue graduate study at ASU (about 500 words in length).

Students should contact their references and inform them that they will be contacted by Graduate Admission Services and asked to submit an electronic recommendation. Students are required to submit a minimum of three email addresses from faculty or others qualified to speak to the student's suitability for graduate study in scholarly publishing.

For the writing sample, applicants are to submit a sample of their written work electronically. The writing sample may be an article (published or unpublished), a research paper or any other extended example of expository skill no longer than 35 double-spaced pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents should not be password protected. Acceptable file types are .rtf, .pdf and .doc.

Scientific Teaching in Higher Education (certificate), Certificate (LASTHEGRCT)

Online Degree Search Title: Scientific Teaching in Higher Education Certificate (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate program in scientific teaching in higher education provides graduate students with the skills and knowledge needed to implement and evaluate evidence-based teaching at the college level.

As part of the program, students gain experience teaching science in a higher education setting, take teaching-related coursework, and complete a culminating experience under the guidance of a scientific teaching faculty mentor. This culminating experience can be either a significant teaching experience, including the use of evidence-based teaching, or discipline-based education research focused on undergraduate science education.

Degree Requirements:

17 credit hours including an applied project course (BIO 593).

Required Core (6 credit hours)

BIO 530 Scientific Teaching (2)
BIO 531 Advanced Scientific Teaching (3)
BIO 532 Recent Papers in Discipline-Based Education Research (1)

Electives (6 credit hours)

Other Requirement (2 credit hours)

Students have to select a teaching internship course from a restricted list.

Culminating Experience (3 credit hours)

BIO 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

- graduate admissions application and application fee
- official transcripts
- proof of English proficiency

Sexuality Studies (Certificate), Certificate (LASXSGRCT)

Online Degree Search Title: Sexuality Studies (Graduate Certificate)

Campus: Downtown Phoenix, Tempe, West

Program Description:

The graduate certificate program in sexuality studies addresses the social construction of sexualities, sexual identities and cultures. This program interrogates heterosexuality and institutionalized heterosexism and addresses lesbian, gay, bisexual, transgender, queer and two-spirit identities and expressions as well as nonnormative sexual identities that are not captured by LGBTQ-TS categories.

This program allows students the flexibility to work with courses in sexuality studies offered across disciplines and units at ASU. Students gain theoretical and analytic tools to examine gender and sexual formations and how social issues and state institutions impact and are impacted by sexuality as a social norm. In addition, coursework allows students to further investigate sexualities in relation to sexual stratification, reproductive rights and justice, sexual health and justice, carceral genders and sexualities, sex work, the state and legal system, and transnational and diasporic formations.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

SST 604 Sexuality Studies (3)

Electives (12 credit hours)

Additional Curriculum Information

For elective coursework, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a statement of purpose for pursuing the certificate
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

The certificate is only open to current ASU degree-seeking students. However, with academic unit and Graduate College approval, up to nine credit hours of ASU nondegree credit may be transferred into the certificate program for those who eventually gain admission into an ASU graduate degree program. This is administered by the graduate certificate committee. Students should refer to the Graduate College policy on certificate programs.

Social and Cultural Pedagogy, MA (LASCPMA)

Online Degree Search Title: Social and Cultural Pedagogy, MA

Campus: Tempe

Program Description:

The MA in social and cultural pedagogy is a two-year program designed for educators with professional experience who seek to develop real-world skills and practical knowledge that will help them accomplish specific career goals.

The first of its kind in North America, the program focuses on the study of learning beyond schooling, delving into research, theory and practice for nonformal education across cultures, ages and education levels. This is an interdisciplinary program in social and cultural pedagogy in which students work with communities to address and solve complex societal problems by analyzing social structures and cultural dynamics and by planning, implementing and evaluating social and educational strategies in a variety of areas, with a focus on nonformal and informal education. Each student creates a highly individualized and transdisciplinary path of study, taking classes tailored to meet their specific goals.

A master's degree in social and cultural pedagogy provides educators with the skills they need to create positive change in nontraditional educational settings, including early childhood education, museums, nongovernmental organizations, and adult and community education, among others.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (SST 593).

Required Core (9 credit hours)
JUS 500 Research Methods (3)
SST 501 Foundations of Social Transformation (3)
SST 510 Social and Cultural Pedagogy: Theoretical and Practical Issues (3)

Electives (15 or 18 credit hours)

Culminating Experience (3 or 6 credit hours)
SST 593 Applied Project (3) or
SST 599 Thesis (6)

Additional Curriculum Information

Students who elect to complete the applied project option must take 18 credit hours of elective coursework to reach the required 30 credit hours for the program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution recognized by ASU.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. TOEFL scores are required for applicants whose native language is not English.

Applicants should supply a two- to three-page application letter (writing sample) in which they explain why they want to study in this program and why they feel well-prepared to succeed in this graduate program.

The resume should describe prior educational history, related work or volunteer experiences.

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

Many of the biggest problems today --- from tracking the outbreak of diseases, to managing scarce water resources, to understanding the impact of new technologies --- require collaboration across the medical sciences, the physical and biological sciences, the social sciences and engineering. ASU's emphasis on collaborative work across disciplines is crucial for understanding these complex problems and to develop solutions.

The interdisciplinary graduate certificate program in social science research methods prepares students to acquire, manage and analyze a broad range of data on human thought and human behavior. Data can be qualitative (e.g., text, images or sound) or quantitative (e.g., direct observation, surveys or geospatial). Data acquisition skills may include the downloading and managing of information from online sources or the primary collection of data in surveys or in direct observation. A key feature of this program is a focus on data analysis, so students and professionals will be

able to analyze and interpret any data that they can collect. All students in this program demonstrate skills in statistical analysis as well as a selection of methods related to their interests.

This program is designed for applicants who hold a minimum of a bachelor's degree from regional, national or internationally accredited institutions, and in any field/discipline (e.g., anthropology, sociology, human development, sustainability, geography, political science or other fields with approval of the academic unit).

Degree Requirements:

18 credit hours including an applied project course (GCU 593).

Required Core (3 credit hours)

Choose one from the following:

FAS 508 Structural Equation Analysis for the Social Science (3)

PSY 531 Multiple Regression in Psychological Research (3)

SOC 508 Structural Equation Analysis for the Social Sciences (3)

STP 530 Applied Regression Analysis (3)

STP 531 Applied Analysis of Variance (3)

STP 533 Applied Multivariate Analysis (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)

GCU 593 Applied Project (3)

Additional Curriculum Information

Students select one of the multivariate data analysis core courses for a total of three credit hours.

Students select four three-credit hour elective and research methods courses for a total of 12 credit hours in consultation with the program directors. The program recognizes that other graduate-level courses on research methods are offered at ASU. Advanced courses on methods are often taught in omnibus courses, courses that have rotating content and whose content is not reflected in their titles. Students may include these courses in their certificate curriculum with approval of the program directors.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a field such as human development, sustainability, geography or political science. Other subject areas may be accepted with approval from the academic unit.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A" in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must have completed an introductory statistics course before admission to the program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of interest
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Examples of introductory statistics courses include:

CRJ 504 Statistical Tools for Criminology and Criminal Justice

NUR 617 Foundational Concepts in Science and Statistics

POS 603 Polimetrics I

STP 530 Applied Regression Analysis

or equivalent with approval of the academic unit

A statement of interest should include how the certificate program will enhance the applicant's graduate studies or professional work.

Social Transformation Certificate, Certificate (LASOTGRCT)

Online Degree Search Title: Social Transformation (Graduate Certificate)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

The graduate certificate in social transformation is designed for graduate and postbaccalaureate students interested in how change is catalyzed by social movements, protest, law, social entrepreneurship, activism and community organizing. Through the exploration of theories and research related to social change, students are able to augment their disciplinary degrees and be prepared to contribute as leaders and change-makers in their communities.

Degree Requirements:

15 credit hours and a practicum.

Required Core (3 credit hours)

SST 501 Foundations of Social Transformation (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)

SST 580 Practicum (3)

Additional Curriculum Information

The electives taken are selected with the faculty advisor. The faculty advisor helps to directionalize the electives to ensure they have a common theme. This helps to ensure students' experiences in the courses align with the learning goals outlined for the certificate.

The culminating experience is a community-based practicum experience and a paper that synthesizes students' interests with their implications for social transformation. The practicum placement will be with a local nonprofit or governmental organization working toward social innovation and social change. Students are assisted in identifying a practicum placement by the program advisor. At the end of the practicum, students produce a paper which analyzes the social and political dimensions of some issue within social transformation or some aspect of it. The paper also should identify the implications of this aspect or issue for social policy and social justice. The paper should begin within the context of the practicum experience and will be presented to the designated subset of the certificate executive board for final approval. Students take SST 580 Practicum to complete the practicum and then revise, improve and finalize the paper with a certificate faculty member.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Students must submit a statement of purpose to the School of Social Transformation that is no longer than 250 words. The statement should indicate any demonstrated interest in the study of social transformation (e.g., previous coursework, professional experience, internships, career plans).

Applicants must meet the above criteria as judged by the School of Social Transformation graduate committee to have strong academic credentials, undergraduate or graduate GPA, as well as demonstrated interest in the area of social transformation. The committee reviews applications for the certificate program in the fall and spring semesters of each year and make its admission recommendations to Graduate Admission Services.

Socio-Economic Justice (certificate), Certificate (LAECJUGRCT)

Online Degree Search Title: Socio-Economic Justice (Graduate Certificate)

Campus: Tempe

Program Description:

The graduate certificate in socioeconomic justice addresses the social and political implications of global and local economies for economic inequality and social justice. This transdisciplinary program fuses interests in political economy, socioeconomic inequality and analysis of related policies and their consequences for social welfare in areas of income, housing, employment and education.

This program complements the current graduate curriculum at ASU and is structured to allow students to draw upon a combination of core courses in justice and social inquiry and coursework from units from throughout the university. The approach is transdisciplinary (i.e., inclusive of courses in a variety of disciplines but transcending disciplinary boundaries through an integrative core curriculum), intersectional (i.e., considering gender, race, class, nation and sexual relations) and transnational (courses that examine global and local concerns). It strengthens student understanding of the justice implications of the convergence of social and economic inequalities in the global economy.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

Students must select one course from each of the following two areas of study:

Economic Justice (3 credit hours)

JUS 550 Gender, Race and Economic Justice (3) or

JUS 660 Globalization and Economic Justice (3) Conducting Research in Communities (3 credit hours)

JHR 525 Action Research in Social Justice and Human Rights (3) or

JUS 633 Community Research (3)

Electives (9 credit hours)

Additional Curriculum Information

Students must select three elective courses on socioeconomic justice from a restricted list, and they should see the academic unit for the full list of possible courses.

Only one 400-level course may be listed on the plan of study. Students must have prior approval from the director of the certificate program for use of any 400-level course.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- at least one letter of recommendation
- a statement of purpose for pursuing the certificate
- a writing sample demonstrating excellent writing and analytical skills
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

The letter of recommendation, statement of purpose and writing sample should be submitted to the justice and social inquiry program office.

Sociology, MA (LASOCMA)

Online Degree Search Title: Sociology, MA

Campus: Online

Program Description:

The MA program in sociology provides advanced training for those preparing for applied careers in sociology. Students gain knowledge and skills that can be used to promote healthy individuals and families. They develop an understanding of how social context influences well-being and an understanding of the factors that promote successful relationships and positive outcomes.

The online format provides easy access to rigorous and valuable information that informs best practices in improving the lives of individuals, families and communities. The program also includes a customizable culminating experience that allows students to focus their training in their areas of interest and work.

Degree Requirements:

30 credit hours and a capstone course (SOC 588).

Required Core (9 credit hours)

SOC 585 Sociological Theory (3)

SOC 586 Capstone I or FAS 586 Capstone I (3)

SOC 587 Capstone II or FAS 587 Capstone II (3)

Electives (12 credit hours)

Other Requirements (6 credit hours)

SOC 500 Research Methods (3)

SOC 501 Social Statistics (3)

Culminating Experience (3 credit hours)

SOC 588 Capstone III (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

SOC 500 and SOC 501 may be replaced by equivalent courses with approval by the academic advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- current resume or curriculum vitae
- a personal statement of goals relevant to the master's degree program
- two letters of recommendation from academic or professional backgrounds
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency; required is a TOEFL score of at least 600.

The personal statement must be four to five pages long, double-spaced, and it should address the applicant's professional goals, applicant's strengths for success in the program, and any relevant professional experience or responsibilities that have been completed.

Letters of recommendation must be from at least two individuals with a professional or academic background and connection to the applicant. Family members and friends do not meet this criterion. Letters of recommendation will be received electronically.

Applicants should see the program website for application deadlines and admission terms.

Sociology, PHD (LASOCPHD)

Online Degree Search Title: Sociology, PhD

Campus: Tempe

Program Description:

The PhD program in sociology provides advanced training in theory, research methodology and substantive fields to prepare sociologists for teaching and research with special emphasis on family, medical sociology and demography.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

SOC 603 Perspectives in Sociological Inquiry (3)

SOC 685 Applied Social Theory (3)

Theory (3 credit hours)

Methods (3 credit hours)

Statistics (3 credit hours)

Elective and Research (27 credit hours)

Culminating Experience (12 credit hours)

SOC 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, 30 credit hours from a previously awarded master's degree are allowed to be used toward this degree.

A minimum of 30 credit hours of the approved doctoral program, exclusive of dissertation and research hours, must be completed after admission to the program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a master's degree in sociology or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- current resume or curriculum vitae
- personal statement detailing professional goals and research experiences
- writing sample
- GRE scores (verbal, quantitative and writing)
- three letters of appraisal from persons familiar with the applicant's academic background
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A personal statement is required. It must be three pages or less, double spaced, and address the applicant's professional goals and reasons for desiring to enroll in the program, describe strengths that will help the student succeed in the program and reach professional goals, describe research experience (include a description of master's thesis if applicable) and relevant responsibilities held, indicate personal research interests as specifically as possible, and include any additional information that will help the committee to evaluate the application.

Three letters of recommendation are required, including at least one from an instructor at the applicant's institution where graduate work was completed and at least one from an instructor at the applicant's institution where undergraduate or graduate work was completed. These letters should be from people who know the applicant as a student or in a professional capacity. Letters from family members or friends do not meet this criterion.

Students should see the program website for application deadlines.

Spanish, MA (LASPANMA)

Online Degree Search Title: Spanish, MA

Campus: Tempe

Program Description:

The MA program in Spanish includes tracks in literature and culture and in linguistics. While the former includes Spanish, Spanish American and Mexican American literature and culture, the latter includes sociolinguistics or second language acquisition and applied linguistics.

Students admitted to the master's degree program in secondary education may elect Spanish as the subject matter field.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Spanish, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio, or 30 credit hours and a portfolio.

Required Core (3 credit hours)

SPA 540 History of the Spanish Language (3)

Culminating Experience
portfolio

Additional Curriculum Information

Students seeking a master's degree in Spanish should consult with the respective graduate representative.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Spanish from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume or curriculum vitae
- writing sample
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants should provide an academic writing sample such as an academic term paper, critical paper or research paper approximately 10 to 25 pages, prepared in an upper-division or graduate Spanish course.

Applicants should provide a personal statement that is no more than two pages, summarizing past educational experiences and goals in pursuing a graduate degree.

Spanish, PHD (LASPANPHD)

Online Degree Search Title: Spanish, PhD

Campus: Tempe

Program Description:

The Spanish PhD program consists of two specializations in Spanish literature or culture and four tracks: early modern, linguistics, Mexican-American studies and visual cultures.

The specializations in Spanish literature or cultural studies, which are intended to be as flexible as possible, establish broad areas of competence through an individualized program of study set with the supportive guidance of the student's advisor.

In addition, the tracks in literature consist of five courses that allow for a specialization in early modern, Mexican-American studies or visual cultures.

Graduate courses in literature and cultural studies focus on the production, distribution and reception of texts and their linguistics, either written or visual (photographs, films, visual narratives, etc.), their linguistic, rhetorical and literary structure and functions, with an emphasis on literary theories and aesthetics. Many literature courses explore issues relating to gender, class, race, ethnicity, globalization, environmental humanities, disability theories, post-human theories and digital humanities.

The Spanish linguistics track offers advanced interdisciplinary graduate training that combines key areas in second language acquisition and teaching, applied linguistics, heritage language research and pedagogy, sociolinguistics, and bilingualism, with an emphasis on U.S. Spanish. In addition to taking core courses in Spanish linguistics, students can opt to specialize in one of the three following options: second language acquisition and teaching methodologies, heritage language research and pedagogy, and sociolinguistics and bilingualism. Students receive training in state of the art quantitative and qualitative research methods on the study of language from diverse perspectives.

Degree Requirements:

84 credit hours, a foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

Track (18 credit hours)

Focus Area (0 or 12 credit hours)

Electives (27 or 39 credit hours)

Research (12 credit hours)

SPA 792 Research (12)

Culminating Experience (12 credit hours)

SPA 799 Dissertation (12)

Additional Curriculum Information

The doctoral program in Spanish has four available tracks: early-modern Iberian studies, Spanish linguistics, Mexican American studies, and visual studies.

Students in the Spanish linguistics track are required to complete 12 credit hours in a focus area. Available focus areas are: second-language acquisition and teaching methodologies; heritage language research and pedagogy; and sociolinguistics, bilingualism and Spanish in the U.S. Students in this track will complete a minimum of 27 credit hours of elective coursework.

Students in the early-modern Iberian studies, Mexican American studies, and visual studies tracks complete 39 credit hours of elective coursework and do not select a focus area.

The candidate must present an acceptable dissertation based on original investigation. The dissertation must represent a significant contribution to knowledge and demonstrate the candidate's ability to do independent, scholarly research.

Each candidate is expected to demonstrate a reading knowledge of one language other than English and Spanish. This language requirement must be satisfied before the candidate is eligible to take the comprehensive examination.

The written and oral comprehensive examination, designed to ascertain the candidate's knowledge and orientation in the field of study and competency to proceed with the dissertation, is required at or near the end of coursework.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in Spanish or equivalent, from a regionally accredited institution. Applicants from other academic backgrounds with relevant coursework in Spanish language and cultural studies also may be evaluated by the admissions committee.

Applicants must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- writing sample
- personal statement
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

It is recommended but not required that students applying for admission to the program submit GRE scores; this is especially advisable for applicants for the Spanish Graduate Fellowship Award.

Candidates for the program will be required to demonstrate a near-native oral proficiency in Spanish and to show that they have developed a high order of expository prose in English and Spanish by presenting a term paper or a chapter of the master's degree thesis as their writing sample.

Statistics, MS (GCSTATMS)

Online Degree Search Title: Statistics, MS

Campus: Tempe

Program Description:

The MS program in statistics draws upon a wide spectrum of faculty research and teaching interests, including from faculty outside of the school. As a result, plans of study can be transdisciplinary and tailored to reflect students' individual needs and goals.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Mathematics (Statistics), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a portfolio - Professional Track, or 30 credit hours including a thesis - Academic Track, or 30 credit hours including an applied Project (STP 593) - Academic Track, or 30 credit hours, a written and oral comprehensive exam - Academic Track.

Required Core (3 credit hours)

ECN 525 Applied Regression Models (3) or

IEE 578 Regression Analysis (3) or

STP 530 Applied Regression Analysis (3)

Track Coursework (9 or 12 credit hours)

Electives (9-18 credit hours)

Culminating Experience (0-6 credit hours)

ECN 599 or IEE 599 or STP 599 Thesis (6)

STP 593 Applied Project (3)

oral and written comprehensive exam (0)

portfolio (0)

Additional Curriculum Information

Students in the master's of science in statistics will be required to select one of the two available tracks, the academic track or the professional track. Students should speak with their advisor in regards to the selection of a track and elective coursework based on the target career.

Students in the professional track complete the portfolio culminating experience and students in the academic track choose from an applied project, thesis or comprehensive exams.

Prerequisites may not be used to complete the 30 credit hours required for the degree.

If a student selects the thesis or applied project options, they must be defended at an oral examination. The thesis must conform to the Graduate College format requirements.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, statistics or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- GRE (general) scores
- three letters of recommendation
- proof of English proficiency

Additional Curriculum Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants should have completed the following courses (equivalents at ASU are given in parentheses), and applicants who lack any of these prerequisite courses must complete the prerequisites before being considered for admission:

- advanced calculus (MAT 371)
- calculus (MAT 270, MAT 271 and MAT 272)
- computer programming (CSE 100)
- introductory statistics (STP 420)
- linear algebra (MAT 342)

Statistics, PHD (LASTPPHD)

Online Degree Search Title: Statistics, PhD

Campus: Tempe

Program Description:

As a science, statistics focuses on data collection and data analysis by using theoretical, applied and computational tools. The PhD program in statistics reflects this breadth in tools and considerations while allowing students sufficient flexibility to tailor their program of study to reflect individual interests and goals. Research can be of a disciplinary or transdisciplinary nature.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Core (3 credit hours)

STP 526 Theory of Statistical Linear Models (3)

Other Requirements (15 credit hours)

IEE 572 Design Engineering Experiments (3) or STP 531 Applied Analysis of Variance (3)

IEE 578 Regression Analysis (3) or STP 530 Applied Regression Analysis (3)

STP 501 Theory of Statistics I: Distribution Theory 3 (3)

STP 502 Theory of Statistics II: Inference (3)

STP 527 Statistical Large Sample Theory (3)

Electives (42 credit hours)

Research (12 credit hours)

STP 792 Research (12)

Culminating Experience (12 credit hours)

STP 799 Dissertation (12)

Additional Curriculum Information

Electives are to be chosen from statistics or related area courses approved by the student's supervisory committee.

Other requirements courses may be substituted with department approval.

Students must pass:

- one qualifying examination and coursework in analysis
- a written comprehensive examination
- a dissertation prospectus defense

Students should see the department website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, statistics or a closely related area, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of education and career goals
- GRE (general) scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Completion of the following courses (equivalents at ASU are given in parentheses) is required. Applicants who lack any of these prerequisite courses must complete the prerequisites before being considered for admission.

- calculus (MAT 270, 271 and 272)
- advanced calculus (MAT 371)
- linear algebra (MAT 342)
- computer programming (CSE 100)
- introductory applied statistics (STP 420)

Statistics (certificate), Certificate (GCSTATCE)

Online Degree Search Title: Statistics (Graduate Certificate)

Campus: Tempe

Program Description:

The statistics certificate program provides statistical training for graduate students at ASU and working professionals in the Phoenix metropolitan area. The program draws upon a variety of faculty research and teaching interests from various academic units so programs of study can be tailored to reflect individual needs and goals.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

STP 530 Applied Regression Analysis (3) (or ECN 525 or IEE 578)

STP 531 Applied Analysis of Variance (3) (or ECN 530 or IEE 572)

Electives (9 credit hours)

Additional Curriculum Information

The nine elective credits are taken from a set of courses approved by the School of Mathematical and Statistical Sciences.

Students must have a GPA of at least 3.00 (scale is 4.00 = "A") in the courses which apply to the certificate.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Applicants should have completed the following courses (equivalents at ASU are given in parentheses):

- introductory applied statistics (ECN 221, STP 226 or STP 420)
- one semester of calculus (MAT 210, MAT 265 or MAT 270)

Applicants are also required to have some computer literacy with knowledge of a programming language, a spreadsheet program or a statistical software program.

Teaching English to Speakers of Other Languages, MTESOL (LAENGMTESL)

Online Degree Search Title: Teaching English to Speakers of Other Languages, MTESOL

Campus: Tempe, Online

Program Description:

The Master of Teaching English to Speakers of Other Languages is for individuals who wish to build a career in the international field of English language teaching.

Through this program, students develop scholarly and professional understanding in four main areas that are central to teaching English to speakers of other languages: language, learning, research methods and teaching methods.

Students have opportunities to study a variety of important topics, including computer-assisted language learning, critical pedagogy, curriculum design, English as an international language, English for academic purposes, English grammar and grammar for TESOL, intercultural rhetoric, interlanguage pragmatics, language and identity, language testing and assessment, learning transfer, materials development, nonnative English speakers in TESOL, second language acquisition, second language phonology, second language writing and World Englishes.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

English (Linguistics), BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required capstone course (LIN 597) and a Foreign Language Exam.

Required Core (12 credit hours)

LIN 501 Approaches to Research (3)
LIN 510 Linguistics (3)
LIN 520 Second-Language Acquisition Theories (3)
LIN 521 Methods of Teaching English as a Second Language (3)

Other Requirement (3 credit hours)
LIN 584 Internship (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)
LIN 597 Capstone (3)

Additional Curriculum Information

The foreign language requirement must be completed during the program prior to the master's degree being awarded.

The capstone is overseen by a director chosen from the Department of English linguistics and TESOL faculty.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Applicants may have undergraduate majors in the following fields, but are not limited to these: anthropology, applied linguistics, cognitive science, communication, comparative languages and literatures, education, English literature, history and law.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Students should see the Department of English website for specific details about English proficiency requirements. <https://english.clas.asu.edu/admission/graduate-admission/how-to-apply/information-international-students> (<https://english.clas.asu.edu/admission/graduate-admission/how-to-apply/information-international-students>)

The one-page, single-spaced statement of purpose should explain how the master's degree program fits with the applicant's long-term goals.

Letters of recommendation should provide a clear picture of the applicant's potential for successfully completing a master's degree. At least some of the letters should be from university professors who are familiar with the applicant's academic work and with master's level academic programs.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. Transborder Studies, MAS (LATCLMAS)

Online Degree Search Title: Transborder Studies, MAS

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The MAS program in transborder studies is designed for the postbaccalaureate professional who seeks training in an integrated program that also provides for differentiation via three thematic options.

The course of study is designed to provide a cohesive and holistic program of learning that focuses on the complex economic, political, ecological, social and cultural issues of a coevolving border region of the U.S. Southwest and Mexico. Students are required to engage in an intensive internship process in which they will apply their learning. The program also provides them an opportunity to explore one of the following three areas more deeply:

Transborder culture, language and learning --- This area focuses on the interrelated processes of cultural emergence, language development and learning as they interact with each other in conjunction with the development of mathematical and scientific reasoning skills, literacy skills and critical thinking in the transborder context.

Transborder media and expressive culture --- This area provides students with a transdisciplinary understanding of how representation, interpretation and language shape and are shaped by Chicana and Chicano, Mexican and Latina and Latino culture in a transborder context.

Transborder migration, health and applied social policy --- This area provides students with theoretical and applied frameworks for understanding border communities in the areas of migration, health, education, environment and other areas affecting social development.

Degree Requirements:

30 credit hours including the required capstone course (TCL 608), a written comprehensive exam, an oral comprehensive exam and a foreign language exam.

Required Core (12 credit hours)

TSS 502 Foundations of Transborder Studies (3)

TSS 503 Epistemologies and Transborder Thought (3)

TSS 504 Tools for Transborder Research (3)

TSS 505 Theories and Methods of Migration, Health and Applied Social Policy in a Transborder Context(3) or TSS 506 Theory and Methods of Transborder Media and Expressive Culture (3) or TSS 507 Theory and Methods of Transborder Cultural Acquisition, Language Development and Learning (3)

Other Requirements (15 credit hours)

TCL 601 Internship in Transborder Studies (3 semesters) (9)

TCL 691 Seminar (6)

Culminating Experience (3 credit hours)

TCL 608 Capstone Course: Transmitting Transborder Studies to Publics and Institutions (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the social sciences, humanities, sciences, health, education, business or professional field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample
- resume or curriculum vitae
- three letter of recommendation (colleagues or professors)
- GRE scores
- proof of English proficiency

Additional Application Information:

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. For more information,

students should visit <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Transborder Studies, PHD (LATCLPHD)

Online Degree Search Title: Transborder Studies, PhD

Campus: Tempe

Program Description:

The PhD program in transborder studies develops the next generation of superior research, scholarship and application in transborder and transnational contexts.

In the only doctoral program in transborder studies in the nation, students conduct innovative and multidisciplinary research tailored to their unique interests. Depending on the plan of study, students may focus on a trajectory in academia with career options as faculty or in research positions. Students who wish to pursue career options outside of academia may focus the plan of study on a more professional and applied track with potential interest in local, state, national or international agencies.

Faculty in the program approach transborder studies in a way that has been historically grounded in and inspired by the geographical specificity of the U.S.-Mexico border and the Chicano, Chicana, Latino and Latina populations. Arizona State University's proximity to the U.S.-Mexico border and the faculty's expertise make the university the ideal place of study. Given the massive scale of globalization in the 21st century and its influence on local, regional, national and transnational environments, the program is expanding to examine other transborder regions and populations.

Degree Requirements:

84 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

TSS 502 Foundations of Transborder Studies (3)

TSS 503 Epistemologies and Transborder Thought (3) or TSS 504 Tools for Transborder Research (3)

Electives and Research (36 credit hours)

Dissertation (12 credit hours)

TSS 799 Dissertation (12)

Additional Curricular Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not already have a master's degree in a related field, then the remaining 30 credit hours are made up of electives and research that equal the 84 credit hours required for the doctoral program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field such as anthropology, economics, education, sociology, literature or psychology from a regionally accredited institution. Applicants who have earned a bachelor's or master's degree in another discipline must align their scholarly interests with the program's mission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- writing sample

- resume or curriculum vitae
- three letters of recommendation (from academicians)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. For more information, students should visit <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

The personal statement should include an explanation of past experiences and current scholarly interests but concentrate on potential areas of research that draw upon the specific resources of the department and faculty.

Transdisciplinary Transportation Studies (certificate), Certificate (GCTRANSCE)

Online Degree Search Title: Transdisciplinary Transportation Studies (Graduate Certificate)

Campus: Tempe

This program's name has changed effective Fall 2020. The previous name was Transportation Systems .

Program Description:

Transportation has emerged as one of the highest priority issues for policymakers, planners, employers and citizens.

To respond to this challenging environment, the transdisciplinary transportation studies certificate program enhances the education of current ASU graduate students and current and future transportation professionals by building upon existing programs in a variety of disciplines offered in five colleges and two campuses in the ASU system, giving them the opportunity to pursue a wide range of transportation-related issues from a multimodal, interdisciplinary perspective.

It is intended to be either a specialization within an existing master's degree or as a stand-alone nondegree program.

Degree Requirements:

16 credit hours including the required applied project course (PUP 593).

Required Core (3 credit hours)

PUP 564 Transportation Systems Professional Seminar(3)

Transportation Electives (9 credit hours)

Other Requirement (1 credit hour)

CEE 591 Interdisciplinary Transportation Seminar (1)

Culminating Experience (3 credit hours)

PUP 593 Applied Project (3)

Additional Curriculum Information

Students will take 3 credit hours from each category for a total of 9 credit hours to fulfill the transportation elective requirement.

- from any school in The College of Liberal Arts and Sciences
- from a college outside of The College of Liberal Arts and Sciences
- from subject prefixes CEE, PUP, GPH, GIS, SOS, PAF

Elective coursework will be taken in consultation with the academic advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- letter of interest
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants who wish to seek a graduate degree in any of the cooperating departments and who are not currently enrolled at ASU must complete the full graduate school application process as specified by the department of interest in addition to the online application for the transdisciplinary transportation studies certificate. The applications are evaluated independent of each other.

Applicants are asked to explain in their letter of interest what they expect to gain from the transportation studies certificate program and the types of courses in the program that would be the most helpful in meeting their objective.

Translation Studies (Certificate), Certificate (LALTSGRCT)

Online Degree Search Title: Translation Studies (Graduate Certificate)

Campus: Tempe

This program's name has changed effective Fall 2020. The previous name was Literary Translation Studies.

Program Description:

The graduate certificate in translation studies is a transdisciplinary program offering coursework that provides intensive engagement of students in translation practice, investigation of issues related to the cultural role of the translator and translation, studies in the variety of theoretical approaches to translation in the 20th and 21st centuries, and studies in transhistorical and cross-cultural theories of translation.

These areas of emphasis enable students to gain expertise in practical and theoretical knowledge of the field of literary translation and to engage in developing new models for the practice of translation today. The program offers interested students the opportunity to develop an understanding of intercultural intersections and transdisciplinary approaches to the practice of translation and advanced training and mentorship in what is one of the most globally relevant fields in the 21st-century.

Degree Requirements:

15 credit hours including an applied project course (ENG 593 or SLC 593)..

Required Core (6 credit hours)

ENG 550 Translation (3)
SLC 551 Global Approaches to Translation (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)
ENG 593 Applied Project (3) or SLC 593 Applied Project (3)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- writing sample
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The personal statement should be no more than two pages and should summarize past educational experiences and goals in pursuing a graduate certificate.

Applicants should have knowledge of a language other than English, a minimum of six semesters of a second language, or the equivalent (for example, advanced placement in high school). Applicants who have passed a language proficiency exam achieving an advanced level in the target language may also apply.

As a prerequisite for taking SLC 551 Global Approaches to Translation (3), all students must attain an advanced level in reading and writing (equivalent of advanced American Council on the Teaching of Foreign Languages requirements, approximately equivalent to six semesters of undergraduate study) as measured by a written exam in the target language (i.e., French, German, Italian, Spanish). Students should refer to the ACTFL guidelines (<https://www.actfl.org/publications/guidelines-and-manuals/actfl-proficiency-guidelines-2012> (<https://www.actfl.org/publications/guidelines-and-manuals/actfl-proficiency-guidelines-2012>)).

Urban and Environmental Planning, MUEP (ARURBMUEP)

Online Degree Search Title: Urban and Environmental Planning, MUEP

Campus: Tempe

Program Description:

The MUEP program prepares students to help solve complex social, economic and environmental issues and create healthier, safer and more vibrant communities. Alumni of the Master of Urban and Environmental Planning program work as professional planners in a variety of public,

private and nonprofit settings. The program emphasizes theories of planning, methods of analysis, effective public engagement, planning processes and creative implementation of planning tools, strategies and approaches. The master's degree program is accredited by the Planning Accreditation Board. Students who join the program are eligible for certification by the American Institute of Certified Planners after two years of professional practice.

The Master of Urban and Environmental Planning program offers a unique opportunity to integrate urban and environmental aspects of planning in a rapidly developing metropolitan area. Small classes, one-on-one advising and a common core of courses that translate knowledge into practice provide students opportunities to build technical skills and grow their professional network. As a part of the School of Geographical Sciences and Urban Planning, the master's degree program is enriched by school faculty whose research and teaching are grounded in geography, GIS, and meteorology and climatology. Students have access to a wide selection of electives within the school, electives that explore issues such as population and migration, environmental and landscape dynamics, and urban climate systems. The master's degree program is also complemented by the participation of faculty from other disciplines within the university, leading planning practitioners in the Phoenix area, and the NEURUS international research exchange program.

Faculty research and teaching interests focus especially on the following broad interdisciplinary themes:

- city building and urban structure
- environmental and resiliency planning
- housing, neighborhoods and community development
- spatial analytics and smart cities
- transportation planning and policy

Concurrent Degrees:

This degree is also offered as concurrent degree program with:

Public Administration - Downtown Phoenix, MPA
Public Policy, MPP
Sustainability Solutions, MSUS

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Geographic Information Science, BS
Geography, BA
Geography, BS
Geography (Meteorology-Climatology), BS
Urban Planning, BSP

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

47 credit hours and a thesis, or 47 credit hours including the required applied project course (PUP 593), or 47 credit hours including the required capstone course (PUP 580).

Required Core (24 credit hours)

PUP 501 Planning, History and Theory (3)
PUP 520 Planning Practice, Ethics and Processes (3)
PUP 531 Planning and Development Control Law (3)
PUP 542 Environmental Planning (3)
PUP 544 Urban Land Use Planning (3)
PUP 571 Planning Methods I (3)
PUP 579 Planning Methods II (3)
PUP 642 Urban and Regional Economic Analysis (3)

Electives (14-15 credit hours)

Other Requirement (3 credit hours)

PUP 576 GIS Workshop for Planners (3)

Culminating Experience (5-6 credit hours)

PUP 580 Practicum: Planning Workshop (5) or
PUP 593 Applied Project (5) or
PUP 599 Thesis (6)

Additional Curriculum Information

Students must complete the required core courses and select an area of specialization. Students must also select a capstone studio, a professional project or a thesis option. Successful completion of an approved statistics course, if not achieved by the student as an undergraduate, will be required as a deficiency.

Students take 17 credit hours of electives for the thesis option and take 18 credit hours of electives for nonthesis.

Students take PUP 576 or another methods course approved by the department.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should be no longer than 600 words and must address the applicant's academic and professional background and, if appropriate, preparation for the selected area of specialty which may include written samples or a portfolio, though these are not required.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional achievements.

Urban Planning, PHD (ARPUPPHD)

Online Degree Search Title: Urban Planning, PhD

Campus: Tempe

Program Description:

The PhD program in urban planning educates scholars for positions in leading universities; research institutions; nongovernmental organizations; international multilateral institutions; national, state and local governments; and high-level consulting firms. The program provides a strong foundation for undertaking research in planning, urbanism, urban design and urban sustainability.

The School of Geographical Sciences and Urban Planning maintains close relationships with many of the communities in the Phoenix metropolitan area that are leading the way on issues like urban climate change, sustainability and transportation planning. Students have opportunities to interact with planning leaders, mentors and community organizations. Students conduct research alongside faculty, take classes focused on current issues in the field, conduct research and reports for local clients, and start building their professional network across the public, private and non-profit sectors.

Students benefit from a wide variety of coursework and research opportunities in five broad interdisciplinary themes that span the expertise of the faculty within the School of Geographical Sciences and Urban Planning:

- city building and urban structure

- environmental and resiliency planning
- housing, neighborhoods and community development
- spatial analytics and smart cities
- transportation planning and policy

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (6 credit hours)

PUP 710 Current Planning Theory and Practice (3)

PUP 724 Planning Methods for Doctoral Students (3)

Electives and Research (34 credit hours)

Other Requirement (2 credit hours)

PUP 701 Urban Planning Colloquium (1)

Culminating Experience (12 credit hours)

PUP 799 Dissertation (12)

Additional Curriculum Information

Students take two semesters of PUP 701 for a total of two credit hours.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Up to six credit hours of 400-level courses may be applied to the plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a master's degree, in a related field such as urban studies, geography, environmental studies, sustainability, architecture, public policy or public administration from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program and a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- GRE scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement must be 600 words or fewer and explain the applicant's interest in planning at the doctoral level; academic and professional background and, if appropriate, preparation for the selected area of specialty which may include written samples or portfolio; and educational and professional objectives.

Letters of recommendation should be from three faculty members who can attest to the applicant's academic achievements.

Women and Gender Studies, MA (LAWSTMA)

Online Degree Search Title: Women and Gender Studies, MA

Campus: Tempe

Program Description:

The MA program in women and gender studies is designed for students who wish to gain research skills and knowledge about gender analysis and to apply those tools to real-world problems and solutions. Graduates may seek careers in a broad range of settings, from schools and hospitals to city governments, nonprofits and large corporations. The program is designed for those who want a master's degree as a terminal degree.

This flexible, 30-credit hour master's degree program provides advanced training in feminist research, theory and methodologies. All students may take an internship and all must complete an applied project in which students conduct research that addresses practical, site-specific problems linked to gender. Final projects may take a variety of forms, including program assessments, grant proposals, tests of new interventions or curricula, and so on. These projects may help lead students to careers in human services, program evaluation, policy development and other fields.

Full-time students can complete the degree program within two years while part-time students take longer but can combine work with study.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Women and Gender Studies, BA

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 30 credit hours including the required applied project course (WST 593).

Required Core (6 credit hours)

WST 501 Foundations of Feminist Thought (3)

WST 502 Interdisciplinary Gender Research Methodologies (3)

Electives (18 credit hours)

Culminating Experience (6 credit hours)

WST 593 Applied Project (6)

Additional Curriculum Information

Students must successfully provide an oral defense of the applied project.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Students may be admitted with a BA or BS in any field as long as they have completed two courses in women and gender studies or have equivalent experience. Appropriate majors may include women, gender and sexuality studies; history; English; sociology; religious studies; social work; psychology; communication or ethnic studies. Students who have previously majored in a science, technology, engineering or mathematics field and have interests in gender and education or gender and science may also apply for this program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts from all college and universities where the applicant earned a bachelor's or master's degree
- personal statement
- resume or curriculum vitae
- writing sample
- two or three letters of recommendation
- relevant coursework
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should be approximately 1,000 words and describe any prior research experience and training, professional goals and research interests, and the fit between interests and the program's emphases. The statement should be uploaded.

The writing sample should be seven to 10 pages. This can include a research brief or report, a white paper, a policy paper or a paper for a recent academic course. The writing sample should reflect the applicant's writing ability and critical thinking skills.

The letters of recommendation should be from a recommender who can speak to the applicant's strengths and weaknesses for graduate study; critical-thinking, writing, speaking and presentation skills; intellectual ability; leadership potential; interpersonal skills and ability to work with others; or other relevant accomplishments that best highlight the applicant's ability to complete a graduate degree in women and gender studies.

The list of relevant coursework should include at least two courses, undergraduate or graduate, the applicant has taken that focus on gender or women. In addition, the applicant should list any research methods or social justice courses.

GRE scores are not required for admission.

Further details about application requirements and application deadlines are available on the School of Social Transformation's webpage.

World War II Studies, MA (LAWWSMA)

Online Degree Search Title: World War II Studies, MA

Campus: Online

Program Description:

Through advanced interdisciplinary study of World War II, students in the MA program in World War II studies explore the causes and effects of World War II, the global nature of the conflict, the evolution of governance and political systems, and human responses to conflict, violence and genocide. Program coursework also helps students contextualize current events through study of the war's historical, political and cultural legacies.

Degree Requirements:

30 credit hours including an capstone course (WWS 597).

Required Core (12 credit hours)

WWS 561 Decision Points I (3)

WWS 562 Decision Points II (3)

WWS 563 The Lived Experience of World War II (3)

WWS 566 World War II Today(3)

Electives or Research (9 credit hours)

Other Requirements (6 credit hours)

HST 454 History of Genocide (3) or WWS 564 The Global War (3)

WWS 460 World War II (3) or HST 460 World War II (3)

Culminating Experience (3 credit hours)

WWS 597 Capstone (3)

Additional Curriculum Information

Students should refer to the academic unit for the approved electives and research course list.

For the other requirements section, students must take either HST 454 or WWS 564. If a student chooses to take HST 454 to fulfill the requirement, they may take WWS 564 as an elective. Likewise, if a student chooses to take WWS 564 to fulfill a requirement, they may take HST 454 as an elective. Other coursework may be used with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or master's degree from a regionally accredited college or university. Students from any field who demonstrate potential will be considered for admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- letter of intent or written statement
- written responses to unit-developed prompts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

An applicant's potential for success is determined by the quality of writing and clarity of thought demonstrated in the letter of intent and responses to the application questions. Letters of recommendation that point to a student's ability to deliver high-quality academic work and persist to an academic goal receive priority. An applicant's GPA and academic performance, particularly in humanities coursework, also indicate potential.

During the application process, applicants are prompted to write short written responses to World War II-related questions. These responses serve to demonstrate to the committee a student's writing ability and potential for thoughtful participation in degree coursework.

Nursing and Health Innovation, Edson College of

Acute Care Pediatric Nurse Practitioner (certificate), Certificate (NUACPNGRCT)

Online Degree Search Title: Acute Care Pediatric Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

This certificate program, accredited by the Commission on Collegiate Nursing Education, is designed for nurses who are board-certified in a different APRN specialty who seek additional certification as an acute care pediatric nurse practitioner or for nurses with a doctoral degree in nursing who seek to become an acute care pediatric nurse practitioner.

Courses focus on the development of a framework for developmentally supportive, family-centered, culturally appropriate advanced nursing practice for infants, children with unstable chronic, complex acute and life-threatening illnesses.

This program is offered in a hybrid in-person and iCourse format that requires students to travel to campus for up to a week for orientation at the beginning of the program and then two or three times per semester.

Focused clinical experiences are arranged with appropriate preceptors and administrators for students residing in Arizona. In-state students who live in Maricopa County are assigned clinical experiences in that geographic area. In-state students who live outside of Maricopa County may be assigned clinical placements in other areas of Arizona based on the college's ability to secure clinical agreements with those sites. In the event that clinical sites are unavailable in the student's geographical area OR if the faculty determines the student needs additional faculty supervision for clinical progress in the program, the student is required to complete the clinical experience in the Phoenix area.

Students residing outside of Arizona will be responsible for identifying one or more clinical sites in their area of residence. These sites must be approved by the Edson College of Nursing and Health Innovation before starting any clinical experience.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences. These sites may be available in Maricopa County.

Degree Requirements:

20 credit hours.

Required Core (20 credit hours)

DNP 606 Principles of Pediatric Acute Care I (3)

DNP 607 Advanced Pediatric Acute Care Practicum I (7)

DNP 619 Principles of Pediatric Acute Care II (3)

DNP 620 Advanced Pediatric Acute Care Practicum II (7)

Additional Curriculum Information

Every certificate student must complete 600 hours of direct patient care with a nurse practitioner or physician preceptor in the clinical setting. Documented clinical experiences are required by the Pediatric Nursing Certification Board in order for the graduate to be eligible to take the national Pediatric Nurse Practitioner Acute Care certification examination. Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt is made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student is required to complete the clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation.
- professional resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Must be nationally certified as a primary care pediatric nurse practitioner. Nationally certified family nurse practitioners working as a nurse practitioner in a pediatric setting will be considered.

The goal statement should indicate the applicant's understanding of the role of the advance practice nurse with the population of interest and any experience the applicant may have working with the patient population of interest.

The admission essay should briefly describe how meeting "The Essentials of Doctoral Education for Advanced Nursing Practice" (2006) will further their career goals.

An interview with program faculty is required.

One year of clinical experience working in the pediatric acute care setting is preferred

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

No admission examination is required.

Adult Gerontology Nurse Practitioner (Certificate), Certificate (NUAGNPGRCT)

Online Degree Search Title: Adult Gerontology Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

This certificate program, accredited by the Commission on Collegiate Nursing Education, is designed for nurses who are board-certified in a different APRN specialty area who seek additional certification as an adult gerontology nurse practitioner or for nurses with a doctoral degree in nursing who seek to become an adult gerontology nurse practitioner.

This certificate program is offered in a hybrid iCourse and in-person format that requires students to travel to campus for orientation and then two or three times per semester. Adult gerontology-focused theory and clinical courses include theories, principles and clinical skills in the care of adults across the lifespan.

Focused clinical experiences are arranged with appropriate preceptors and administrators for students residing in Arizona. In-state students who live in Maricopa County are assigned clinical experiences in that geographic area. In-state students who live outside of Maricopa County may be assigned clinical placements in other areas of Arizona based on the college's ability to secure clinical agreements with those sites. In the event that clinical sites are unavailable in the student's geographical area OR if the faculty determines the student needs additional faculty supervision for clinical progress in the program, the student is required to complete the clinical experience in the Phoenix area.

Students residing outside of Arizona are responsible for identifying one or more clinical sites in their area of residence. These sites must be approved by the Edson College of Nursing and Health Innovation before starting any clinical experience.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences. These sites may be available in Maricopa County.

Degree Requirements:

22 credit hours.

Required Core (22 credit hours)

DNP 623 Adult-Gerontology Health Promotion (3)

DNP 624 Adult-Gerontology Health Promotion Practicum (3)

DNP 625 Management of Common Health Problems in Adults Across the Lifespan (3)

DNP 626 Management of Common Health Problems/Adults Across the Lifespan Practicum (5)

DNP 627 Management of Complex Health Alterations in Adults Across the Lifespan (3)

DNP 628 Management of Adults Across the Lifespan w/Complex Health Alterations Practicum (5)

Additional Curriculum Information

Nurses who complete this certificate meet the eligibility requirements for taking the National Adult Gerontology Nurse Practitioner Certification Examination. In addition to completing didactic courses, students complete 13 credit hours (585 clock hours) of practicum experiences in a community setting.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- documentation of a current unencumbered RN license in the state in which the student plans to do clinical practicums
- three professional letters of recommendation
- resume
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

All students are required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants are required to have an in-person interview with the program faculty.

Applicants are asked to submit an admission essay:

- Describe career goals for the next five to 10 years and discuss how obtaining a NP certificate from Arizona State University will help meet these goals.
- Read The Essentials of Doctoral Education for Advanced Nursing Practice (2006) from the American Association of Colleges of Nursing, then focus on one of the first seven essentials and describe how meeting this essential will further the stated career goals.

All Edson College of Nursing and Health Innovation students are required to complete health and safety requirements, and must have a passing disposition on a background clearance and satisfactory completion of a substance screen with the program's identified agency.

One year of clinical experience working within the student's specialty population is preferred.

Advanced Nursing Practice, DNP (NUANPDNP)

Online Degree Search Title: Advanced Nursing Practice, DNP

Campus: Downtown Phoenix

Program Description:

The DNP program, accredited by the Commission on Collegiate Nursing Education, is designed for master's degree-prepared advanced practice nurses seeking a Doctor of Nursing Practice degree. Courses are designed for clinical experts and are innovative, interesting and organized to provide students with expert colleagues and mentors across the U.S. who can challenge them to take their practice to a new level.

Graduates of this program are able to facilitate the application and integration of research into clinical practice using innovative approaches to improve health care outcomes of populations and individuals across multiple settings.

This program is offered in a hybrid iCourse and in-person format that requires students to travel to campus for up to a week for orientation at the beginning of the program and two to three times per semester.

Degree Requirements:

84 credit hours including the required applied project course (DNP 707).

Required Core (21 credit hours)

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)
DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)
DNP 609 Advanced Practice Nursing Role (1)
DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)
DNP 705 Health Care Outcome Management (3)
DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

Electives and Research (28 credit hours)**Other Requirement (32 credit hours)**

DNP 601 Theoretical Foundations for Advanced Practice Nursing (3)
DNP 602 Evaluating Research for Practice (3)
DNP 679 Biostatistics: Principles of Statistical Inference (3)
DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)
DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)
DNP 711 Healthcare Policy and Innovation (3)
DNP 712 Clinical Residency and Management (12)
DNP 715 Dynamics and Principles of Information in Health Care (3)

Culminating Experience (3 credit hours)

DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Applicants to the post-master's program should identify a relevant clinical issue related to advanced practice nursing that they would like to pursue during their doctoral program. Students complete 540 hours of clinical practice residency and the program courses. Completion of an evidence-based doctoral applied project is required. Each project is developed individually with each student. Each student has a primary mentor working with them on the project. Clinical practice residency hours are used to complete the project in a practice setting; work settings may be included, but specific objectives are developed individually with each student and may be different from the student's job. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program and up to 10 credit hours of clinical coursework from their Master of Science degree for a total of 40 credit hours.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Applicants must be certified as an advanced practice nurse. A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.

One year of clinical experience working within the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Applicants will be reviewed on a space-available basis after the priority deadline. Students should see the program website for application deadlines.

Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner), DNP (NUANPAGDNP)

Online Degree Search Title: Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description:

Doctor of Nursing Practice graduates are prepared to practice at the most advanced level of nursing.

This DNP program, accredited by the Commission on Collegiate Nursing Education, provides a foundation for this specialty through graduate courses in the application of theory to advance practice. A major focus of the program is the acquisition of advanced knowledge and skills for primary care, case management, screening and health promotion of adults through the lifespan in a variety of settings, including private practice, ambulatory clinics, long-term care facilities and the patient's home.

This program is offered in a hybrid in-person and iCourse format, requiring students to travel to campus for up to one week for orientation at the beginning of the program and then two or three times per semester.

Focused clinical experiences are arranged with appropriate preceptors and administrators for students residing in Arizona. In-state students who live in Maricopa County are assigned clinical experiences in that geographic area. In-state students who live outside of Maricopa County may be assigned clinical placements in other areas of Arizona based on the College's ability to secure clinical agreements with those sites. In the event that clinical sites are unavailable in the student's geographical area or if the faculty determines the student needs additional faculty supervision for clinical progress in their program, the student is required to complete their clinical experience in the Phoenix area.

Students residing outside of Arizona will be responsible for identifying one or more clinical sites in their area of residence. These sites must be approved by Edson College of Nursing and Health Innovation before starting any clinical experience.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences. These sites may be available in Maricopa County.

Concurrent Degrees:

This degree is also offered as concurrent degree program with Nursing and Healthcare Innovation, PhD

Degree Requirements:

84 credit hours including the required applied project course (DNP 707).

Required Core (21 credit hours)

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)
DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)
DNP 609 Advanced Practice Nursing Role (1)
DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)
DNP 705 Healthcare Outcome Management (3)
DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

Concentration (34 credit hours)

DNP 623 Adult-Gerontology Health Promotion (3)
DNP 624 Adult-Gerontology Health Promotion Practicum (3)

DNP 625 Management of Common Health Problems in Adults Across the Lifespan (3)
DNP 626 Management of Common Health Problems/Adults Across the Lifespan Practicum (5)
DNP 627 Management of Complex Health Alterations in Adults Across the Lifespan (3)
DNP 628 Management of Adults Across the Lifespan w/Complex Health Alterations Practicum (5)
DNP 712 Clinical Residency and Management (12)

Other Requirement (20 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)
DNP 602 Evaluating Research for Practice (3)
DNP 679 Biostatistics: Principals of Statistical Inference (3)
DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)
DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)
DNP 711 Healthcare Policy and Innovation (3)
DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (6 credit hours)

Culminating Experience (3 credit hours)

DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing the DNP. The program includes 1,125 practicum hours, exceeding the ANCC requirement.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.

One year of clinical experience working within the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

No admission examination is required.

Applicants will be reviewed on a space-available basis after the priority deadline; application deadlines are posted on the program website.

Advanced Nursing Practice (Family Nurse Practitioner), DNP (NUANPFNDNP)

Online Degree Search Title: Advanced Nursing Practice (Family Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description:

Doctor of Nursing Practice graduates are prepared to practice at the most advanced level of nursing.

This DNP program, accredited by the Commission on Collegiate Nursing Education, provides a foundation for the specialty through graduate courses in the application of theory to advance practice. The focus is on development of expertise in providing primary care to individuals of all ages within traditional, nontraditional and culturally diverse families. Courses are designed to prepare the student for certification in advanced practice nursing as a family nurse practitioner.

This program is offered in a hybrid iCourse format that requires students to travel to campus for up to a week for orientation at the beginning of the program and then two or three times per semester.

Focused clinical experiences are arranged with appropriate preceptors and administrators for students residing in Arizona. In-state students who live in Maricopa County are assigned clinical experiences in that geographic area. In-state students who live outside of Maricopa County may be assigned clinical placements in other areas of Arizona based on the college's ability to secure clinical agreements with those sites. In the event that clinical sites are unavailable in the student's geographical area OR if the faculty determines the student needs additional faculty supervision for clinical progress in their program, the student is required to complete their clinical experience in the Phoenix area.

Students residing outside of Arizona are responsible for identifying one or more clinical sites in their area of residence. These sites must be approved by Edson College of Nursing and Health Innovation before starting any clinical experience.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences. These sites may be available in Maricopa County.

Degree Requirements:

84 credit hours including the required applied project course (DNP 707).

Required Core (21 credit hours)

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)

DNP 605 Advanced Health Assessment Across Lifespan (3)

DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)

DNP 609 Advanced Practice Nursing Role (1)

DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)

DNP 705 Health Care Outcomes Management (3)

DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

Concentration (34 credit hours)

DNP 633 Family Health Promotion (3)

Advanced Nursing Practice (Innovation Leadership), DNP (NUANPILDNP)

Online Degree Search Title: Advanced Nursing Practice (Innovation Leadership), DNP

Campus: Downtown Phoenix

Program Description:

The DNP program with a concentration in innovation leadership, accredited by the Commission on Collegiate Nursing Education, is directed toward professional nurses who seek the scholarship, skills and capacity to lead effective change in systems, organizations and practice environments, using innovation theories and methodologies as the frame for their leadership practice. This concentration focuses on improving health care through facilitating a culture of best practice and providing skills necessary to develop advanced practice nursing leaders for the future.

Graduates of this program are able to facilitate the application and integration of research into clinical practice using innovative approaches across multiple settings to improve health care, patient outcomes and health care systems.

This program is offered in a hybrid iCourse and in-person format that requires students to travel to campus for up to a week for orientation at the beginning of the program and two or three times per semester.

Degree Requirements:

84 credit hours including the required applied project course (DNP 712).

Required Core (21 credit hours)

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)

Advanced Nursing Practice (Neonatal Nurse Practitioner), DNP (NUANPNDNP)

Online Degree Search Title: Advanced Nursing Practice (Neonatal Nurse Practitioner), DNP

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program.

Program Description:

This program is designed for nurses seeking to become advanced practical nurses as neonatal nurse practitioners. Providing a foundation for this specialty are graduate courses in application of theory to advanced practice; application of evidence to advanced practice; advanced pathophysiology; advanced pharmacology; and advanced health assessment. Advanced neonatal nursing theory and clinical courses focus on the development of a framework for developmentally supportive, family-centered, culturally appropriate advanced nursing practice with infants, children and families.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt will be made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student will be required to complete the clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

Degree Requirements:

84 credit hours including the required applied project course (DNP 707).

Required Core (21 credit hours)

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)
DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)
DNP 609 Advanced Practice Nursing Role (1)
DNP 704 Principles of Evidenced-Based Care in Advanced Practice (4)
DNP 705 Healthcare Outcomes Management (3)
DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

Concentration (34 credit hours)

DNP 653 Advanced Development and Family Health Promotion: Neonatal Theory I (3)
DNP 654 Neonatal Practicum I (3)
DNP 655 Management of Common Neonatal Problems (3)
DNP 656 Neonatal Practicum II (5)
DNP 657 Management of Complex Problems in Neonates (3)
DNP 658 Neonatal Practicum III: Management of Complex Problems in Neonates (5)
DNP 712 Clinical Residency and Management (12)

Other Requirement (20 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)
DNP 602 Evaluating Research for Practice (3)
DNP 679 Biostatistics: Principals of Statistical Inference (3)
DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)
DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)
DNP 711 Healthcare Policy and Innovation (3)
DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (6 credit hours)

Culminating Experience (3 credit hours)

DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a nurse practitioner doctoral program. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

For electives or research, please see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three online recommendations from individuals knowledgeable about the applicant's academic and nursing leadership potential and one self-evaluation completed by the applicant
- satisfactory completion of the analytical writing section of the GRE
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

A current unencumbered license is required. If clinical practice will occur outside of Arizona, the student must have a current unencumbered license in the state where clinical practice will be conducted. If clinical practice will occur within Arizona, the student must have a current unencumbered Arizona license to practice as a registered nurse.

An interview with a representative of the specialty area is required.

Students should see the program website for application deadlines.

- three professional letters of recommendation
- resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.

One year of clinical experience working within the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

No admission examination is required.

Advanced Nursing Practice (Women's Health Nurse Practitioner), DNP (NUANPWHDNP)

Online Degree Search Title: Advanced Nursing Practice (Women's Health Nurse Practitioner), DNP

Campus: Downtown Phoenix

Program Description:

DNP graduates are prepared to practice at the most advanced level of nursing.

This program, accredited by the Commission on Collegiate Nursing Education, provides a foundation for this specialty through graduate courses in application of theory to advance practice. Courses focus on theories, principles and clinical skills in the care of women and their families including critical thinking, diagnosis, problem-solving and nursing management of women throughout the maternity cycle and with common gynecological problems. Client education, communication and collaboration are emphasized.

This program is offered in a hybrid iCourse and in-person format that requires students to travel to campus for up to a week for orientation at the beginning of the program and then two or three times per semester.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt will be made to arrange these in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determines the student needs additional faculty supervision of skills, the student is required to complete their clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

Degree Requirements:

84 credit hours including the required applied project course (DNP 707).

Required Core (21 credit hours)

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)
DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)
DNP 609 Advanced Practice Nursing Role (1)
DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)
DNP 705 Health Care Outcomes Management (3)
DNP 708 Systems Thinking in a Complex Healthcare Environment (3)

Concentration (34 credit hours)

DNP 613 Women's Health Promotion I (3)
DNP 614 Women's Health Practicum I (3)
DNP 615 Management of Common Problems in Women's Health (3)
DNP 616 Advanced Women's Health Practicum II (5)
DNP 617 Management of Complex and Chronic Disease in Women (3)
DNP 618 Advanced Women's Health Practicum III (5)
DNP 712 Clinical Residency and Management (12)

Other Requirement (20 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)
DNP 602 Evaluating Research for Practice (3)
DNP 679 Biostatistics: Principals of Statistical Inference (3)
DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)
DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)
DNP 711 Healthcare Policy and Innovation (3)
DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (6 credit hours)

Culminating Experience (3 credit hours)

DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a nurse practitioner doctoral program. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.

One year of clinical experience working within the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Aging, MS (LAALDMS)

Online Degree Search Title: Aging, MS

Campus: Downtown Phoenix, Online

Program Description:

The MS program in aging is aligned with ASU's charter and design aspirations in assuming responsibility for the overall health of communities by educating students to become experts in the field of aging. This is achieved by fusing intellectual disciplines together to address the diverse needs of our rapidly aging population; transforming society by being socially embedded with partners in the aging network of health and wellness and social services; and networking with entrepreneurs developing senior-related business ventures.

The program provides students with advanced, interdisciplinary knowledge that focuses on improving the well-being of older adults within the context of their diverse families and communities. The curriculum is competency-based according to Academy for Gerontology in Higher Education competencies for graduate education. The curriculum addresses the multidimensional aging process, the needs of aging populations and their potential contributions to society; reflects national health initiatives; and encourages community collaborations that are reciprocal, beneficial and sustainable to improve health outcomes of older adults.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Applied Science (Health Entrepreneurship and Innovation), BAS
- Community Health, BS
- Health Care Coordination, BS
- Health Entrepreneurship and Innovation, BS
- Integrative Health, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

36 credit hours including the required applied project course (HCA 593).

Required Core (15 credit hours)

- HCA 501 Perspectives on Aging and the Life Course (3)
- HCA 502 Research and Program Evaluation Issues in Aging (3)
- HCA 503 Diversity in Aging (3)
- HCA 504 Caregiving Issues for Families and Professionals (3)
- HCA 505 Interdisciplinary and Community Collaboration in Aging (3)

Track (6 credit hours)

Electives (9 credit hours)

Other Requirements (3 credit hours)

- HCA 509 Interventions to Support Aging in Place (3) or
- HCA 510 Innovations in Program Development and Policy (3)

Culminating Experience (3 credit hours)

- HCA 593 Applied Project (3)

Additional Curriculum Information

Students choose a track for a total of six credit hours:

- aging services and case management
- innovation and entrepreneurship
- long-term care administration
- palliative and end of life care

The program also requires nine credit hours of electives to support the track and career interests. Students should see the academic unit for the current approved elective list. Other courses may be used with approval of the academic unit.

For other requirement coursework, students select either HCA 509 or HCA 510.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited

institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- professional resume
- letter of intent or written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Clinical Research Management, MS (NUCRMMS)

Online Degree Search Title: Clinical Research Management, MS

Campus: Online

Program Description:

This MS program prepares students to lead complex global clinical research operations in multiple types of employer settings in the rapidly growing clinical research industry. The clinical research management graduate program at ASU is the first clinical research graduate program to receive accreditation by the Commission on Accreditation of Allied Health Education Programs. CAAHEP is the largest programmatic accreditor in the health sciences field and is recognized by the Council for Higher Education Accreditation in the United States and internationally.

The Master of Science in clinical research management offers a transdisciplinary approach to education in the fiscal practices of conducting clinical research, the ethical and regulatory aspects of clinical research and the overall operational management of clinical drug, biological and medical device trials.

The program is designed to be flexible, making it convenient for the adult learner.

Degree Requirements:

33 credit hours including the required capstone course (HCR 566).

Required Core (15 credit hours)

HCR 551 Clinical Research Monitoring (3)
HCR 561 Responsible Conduct of Clinical Research (3)
HCR 563 Fundamentals of Regulatory Affairs (3)
HCR 565 Clinical Research Operations (3)
HCR 574 Scientific and Research Review Boards (3)

Restricted Electives (15 credit hours)

HCR 552 Medical Device Development and Regulation (3)
HCR 555 Pharmaceutical Safety and Risk Management (3)
HCR 557 Clinical Research Design and Methods (3)
HCR 562 Clinical Research Data Management and Technology Implementation (3)
HCR 564 Global Regulatory Affairs Leadership (3)
HCR 567 Research Management and Contemporary Research Topics (3)
HCR 568 Health Care Project Management (3)
HCR 575 Contracting and Budgeting for Industry-Sponsored Clinical Trials (3)

Culminating Experience (3 credit hours)
HCR 566 Capstone Clinical Research Management Project II (3)

Additional Curriculum Information
Students select five courses from the restricted electives list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree that includes courses with content in anatomy and physiology and medical terminology or if they have earned a bachelor's degree in any field and provide evidence of successful completion of additional courses in anatomy and physiology and medical terminology.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours or 90 quarter hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- two online references
- personal statement
- response to application questions
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The applicant must have six months of full-time, related clinical research work or internship experience as described in a resume or curriculum vitae.

The online references should be from colleagues, supervisors or other professional contacts and should attest to the applicant's academic and leadership experiences.

Emergency Nurse Practitioner (Certificate), Certificate (NUEMNPGRCT)

Online Degree Search Title: Emergency Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

Nurse practitioners are prepared to practice at the most advanced level of nursing. This nurse practitioner certificate program, accredited by the Commission on Collegiate Nursing Education, provides a foundation for this specialty. Courses focus on the development of a framework for patients with unexpected illness in pre-hospital, urgent care and emergency department settings. The focus of these courses is on the delivery of health care services to patients across the lifespan in these settings.

This program is offered in an in-person and iCourse format that requires students to travel to campus for up to a week for orientation at the beginning of the program and then two or three times per semester.

Degree Requirements:

15 credit hours.

Required Core (15 credit hours)

DNP 610 Principles of Advanced Emergency Nursing I (3)
DNP 611 ENP Practicum I: Advanced Emergency Nursing Practice (3)
DNP 630 Principles of Advanced Emergency Nursing II (3)
DNP 631 ENP Practicum II: Advanced Emergency Nursing Practice (3)
DNP 649 Advanced Physiology (3)

Additional Curriculum Information

Every certificate student must complete 270 hours of direct patient care with a nurse practitioner or physician preceptor in the clinical setting. Documented clinical experiences are required by the certification organization (AANP) in order for the graduate to be eligible to take the national Emergency Nurse Practitioner certification examination.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt is made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student is required to complete the clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation.
- professional resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

The goal statement should indicate the applicant's understanding of the role of the advance practice nurse with the population of interest and any experience the applicant may have working with the patient population of interest.

The admission essay should briefly describe how meeting "The Essentials of Doctoral Education for Advanced Nursing Practice" (2006) will further their career goals.

Applicants must be a licensed family nurse practitioner currently, or enrolled in the family nurse practitioner program at ASU.

An interview with program faculty is required.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

No admission examination is required.

Family Nurse Practitioner (certificate), Certificate (NUFMPGRCE)

Online Degree Search Title: Family Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

This certificate program, accredited by the Commission on Collegiate Nursing Education, is designed for nurses board certified in a different APRN specialty who seek additional certification as a family nurse practitioner or for nurses with a doctoral degree in nursing who seek to become a family nurse practitioner.

This program is offered in a hybrid iCourse and in-person format that requires students to travel to campus for up to a week for orientation at the beginning of the program and two or three times per semester.

Focused clinical experiences are arranged with appropriate preceptors and administrators for students residing in Arizona. In-state students who live in Maricopa County are assigned clinical experiences in that geographic area. In-state students who live outside of Maricopa County may be assigned clinical placements in other areas of Arizona based on the college's ability to secure clinical agreements with those sites. In the event that clinical sites are unavailable in the student's geographical area OR if the faculty determines the student needs additional faculty supervision for clinical progress in their program, the student is required to complete the clinical experience in the Phoenix area.

Students residing outside of Arizona are responsible for identifying one or more clinical sites in their area of residence. These sites must be approved by Edson College of Nursing and Health Innovation before starting any clinical experience.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences. These sites may be available in Maricopa County.

Degree Requirements:

22 credit hours.

Required Core (22 credit hours)
DNP 633 Family Health Promotion (3)

DNP 634 Family Health Promotion Practicum (3)

DNP 635 Management of Common Family Problems in Children, Adults and Families (3)

DNP 636 Management of Common Health Problems in Children, Adults and Families Practicum (5)

DNP 637 Management of Complex and Chronic Health Problems in Children, Adults and Families (3)

DNP 638 Management of Complex and Chronic Health Problems in Children, Adults and Families Practicum (5)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a current unencumbered RN license in the state in which the student plans to do clinical practicums
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- health and safety requirements: passing disposition on a background clearance and satisfactory completion of a substance screen
- proof of English language proficiency

Additional Application Information

Family Psychiatric and Mental Health Nurse Practitioner (certificate), Certificate (NUPMNUPRCE)

Online Degree Search Title: Family Psychiatric and Mental Health Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

This certificate program, accredited by the Commission on Collegiate Nursing Education, is designed for nurses who are board certified in a

different APRN specialty area who seek additional certification as a family psychiatric nurse practitioner or for nurses with a doctoral degree in nursing who seek to become a family psychiatric nurse practitioner.

This certificate program is offered in a hybrid iCourse and in-person format that requires students to travel to campus for up to a week for orientation at the beginning of the program and two or three times per semester.

Focused clinical experiences are arranged with appropriate preceptors and administrators for students residing in Arizona. In-state students who live in Maricopa County are assigned clinical experiences in that geographic area. In-state students who live outside of Maricopa County may be assigned clinical placements in other areas of Arizona based on the college's ability to secure clinical agreements with those sites. In the event that clinical sites are unavailable in the student's geographical area OR if the faculty determines the student needs additional faculty supervision for clinical progress in their program, the student is required to complete their clinical experience in the Phoenix area.

Students residing outside of Arizona are responsible for identifying one or more clinical sites in their area of residence. These sites must be approved by the Edson College of Nursing and Health Innovation before starting any clinical experience.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences. These sites may be available in Maricopa County.

Degree Requirements:

28 credit hours.

This graduate certificate program (including 585 clinical hours) prepares nurses with a master's degree to become family psychiatric mental health nurse practitioners.

Required prerequisites (or equivalent courses taken while in master's degree program)

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)

DNP 605 Advanced Health Assessment Across Lifespan (3)

DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)

DNP 609 Advanced Practice Nursing Role (1)

Students have an individual review of their transcripts and an individualized plan of study designed to meet certification requirements. Depending on how many prerequisite courses are completed in the master's degree program, up to one year of additional study may need to be added to complete this specialty.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a current unencumbered RN license in the state in which the student plans to do clinical practicums
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- health and safety requirements: passing disposition on a background clearance and satisfactory completion of a substance screen
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

All applicants will have an interview with program faculty prior to admission to the program.

It is preferred that applicants have at least one year of clinical experience working within the student's specialty population.

Admission examinations are not required.

Food Safety and Protection (certificate), Certificate (NUFDSPGRCT)

Online Degree Search Title: Food Safety and Protection (Graduate Certificate)

Campus: Online

Program Description:

This certificate program prepares students for a career as food safety and protection inspectors. This program includes specialized training and knowledge in the protection and safety of food. Curriculum is aligned with local, state and national health and safety initiatives, and it integrates with the regulatory focus of the Food and Drug Administration's oversight.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

HCR 543 Food Safety and Protection (3)

HCR 544 Assessing Food Safety and Developing Policy Procedures and Training (3)

HCR 558 Technical Writing for Regulatory Professionals (3)

SFS 560 Tools and Tactics for Food Policy Change (3) or HCR 550 Quality Assurance and Safety in Food and Dietary Supplements (3)

Other Requirements (3 credit hours)

HCR 563 Fundamentals of Regulatory Affairs(3) or

HCR 584 Internship (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a science-based or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation

- professional resume
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Health Care Innovation, Certificate (NUHCINGRCT)

Online Degree Search Title: Health Care Innovation (Graduate Certificate)

Campus: Online

Program Description:

The health care innovation graduate certificate program provides students with the cognitive and affective competencies to create and sustain transformative change in health care.

Students learn through reflection, personality assessment, exercises in interprofessional team-case study analyses, system intervention, idea pitching and change-readiness assessment. Related entrepreneurial and intrapreneurial concepts such as prototyping, project plan design, systems thinking, outcome evaluation and presentation skills are included in the program.

Emphasizing complexity leadership and vulnerability along with emotional competence, this certificate program prepares students to work in the interprofessional and highly sought-after area of health care innovation.

Degree Requirements:

15 credit hours including the required capstone course (HCI 570).

Required Core (11 credit hours)

HCI 538 Innovation and the Individual (3)

HCI 542 Systems Thinking in a Complex Environment (3)

HCI 554 Outcomes Evaluation (3)

HCI 561 Innovation Methods (2)

Culminating Experience (4 credit hours)

HCI 570 Innovation Proposal: Culminating Experience for Health Care Innovation Certificate (4)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any health-related business, social science, hard science, health care practice or technology field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

There are no required admission examinations.

Health Care Simulation, MS (NUHCSMS)

Online Degree Search Title: Health Care Simulation, MS

Campus: Downtown Phoenix

Program Description:

The expanding use of simulation education in health care demonstrates the need and the opportunities to educate innovative leaders in experiential learning strategies. Simulation provides an effective learner-centered methodology for health care professionals to practice across the continuum of care.

Incorporating deliberate practice for skill mastery, students develop effective critical-thinking, refinement of interprofessional competencies and ethical and compassionate behaviors. In the MS program in health care simulation, students demonstrate the ability to influence the design, operations and evaluation of educational health care simulation in academic or practice settings. Students have learning opportunities to develop evidence-based scenario design, use technology-enhanced environments replicating real patient experiences with life-like high fidelity computer manikins or standardized patients (trained actors), and employ operations techniques. This program provides students the opportunity to learn and work with their peers and with faculty and leaders from multiple disciplines such as health care, sociology, technology, the arts and public policy

Degree Requirements:

37 credit hours including the required Applied Project Course (HCS 593).

Required Core (18 credit hours)

HCI 540 Understanding and Applying Principles of Evidence-based Practice (3)

HCS 501 Foundations in Health Care Simulation (3)

HCS 502 Health Care Simulation Educational Assessment and Debriefing Methods (3)

HCS 503 Principles of Operations Management in Health Care (3)

NUR 522 Designing Systems for Patient Safety and Health Care Quality (3)

NUR 671 Teaching in Academic and Practice Settings (3)

Other Requirements (15 credit hours)

BMI 601 Fundamentals of Health Informatics (3)

HCI 543 Approaches to Health Care Innovation (3)

HCS 580 Practicum: Operational or Educational Perspective (3)

NUR 523 Interprofessional Collaboration for Improving Patient Safety & Health Care Quality Outcomes (3)

Culminating Experience (4 credit hours)

HCS 593 Applied Project (4)

Additional Curriculum Information

Other requirements coursework may be substituted with approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in health care or a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- professional resume
- written statement
- proof of English proficiency

Healthcare Innovation, MHI (NUHCINNMHI)

Online Degree Search Title: Healthcare Innovation, MHI

Campus: Online

Program Description:

Students in the MHI program learn how to create and sustain cultures of innovation in health care from multiple perspectives: personal competence for innovation, use of evidence in decision-making, remodeling system infrastructures, financing, communication, entrepreneurship, technology and policy-making. Students develop competence in the design, application and testing of innovative processes and products. A primary focus of the Master of Healthcare Innovation is to prepare students to lead processes of innovation and transformation.

Innovative thinking, planning, implementing and evaluation are emphasized throughout the program. The curriculum incorporates the latest trends in health care and is built upon collaboration with other professionals and faculty across diverse disciplines.

Graduates of the program possess the leadership skills and behaviors to influence the future of health care and transform and improve health care outcomes for individuals and communities.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Applied Science (Health Entrepreneurship and Innovation), BAS
- Community Health, BS
- Health Care Coordination, BS
- Health Entrepreneurship and Innovation, BS
- Integrative Health, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

34 credit hours including the required capstone course (HCI 563).

Required Core (5 credit hours)

HCI 538 Innovation and the Individual (3)

HCI 561 Innovation Methods (2)

Electives (3 credit hours)

Other Requirements (21 credit hours)

HCI 540 Understanding and Applying Principles of Evidence-Based Practice (3)

HCI 542 Systems Thinking in a Complex Environment (3)

HCI 544 IT for Health Care Innovation (3)

HCI 548 Advanced Principles and Concepts of Innovation (3)

HCI 550 Health Care Policy and Innovation (3)

HCI 552 Financing for Innovation (3)

HCI 554 Outcomes Evaluation (3)

Culminating Experience (5 credit hours)

HCI 563 Capstone: Final Innovation Project (5)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit

- graduate admission application and application fee
- official transcripts
- three professional recommendations
- personal statement and essays
- current resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The professional recommendations should be from individuals knowledgeable about the applicant's academic and leadership potential.

International Health for Healthcare Professionals (certificate), Certificate (NUHCRGRCI)

Online Degree Search Title: International Health for Healthcare Professionals (Graduate Certificate)

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program.

Program Description:

The international health for health care professionals graduate certificate program prepares health care personnel to meet the global health challenges of the 21st century. Students receive comprehensive education in the promotion of holistic, culturally responsive, evidence-based care within and outside the U.S.

Course content includes the provision of care in the presence and absence of natural (e.g., earthquakes) and human-made disasters (e.g., war), the spread of chronic and infectious diseases, economic and political issues, and other factors that pose substantial challenges to world health promotion and disease prevention.

This graduate certificate is offered as a part-time or full-time hybrid online distance program that includes two day-long visits to the ASU Downtown Phoenix campus and a capstone immersion experience.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they are undergraduate-prepared nurse or health-related professional (e.g., social worker, physician, psychologist, dentist) with a baccalaureate or graduate degree from a nationally or internationally recognized and regionally accredited academic institution, or equivalent.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- professional license in the state where the individual capstone project will be conducted, if required (e.g., RN, NP, MSW, PA or MD)
- resume or curriculum vitae
- email addresses of three professional references (not friends or relatives) who will be contacted for completion of online recommendations
- fingerprint clearance or proof of application for U.S. citizens and applicants with permanent U.S. resident status
- photocopy of current, valid passport
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Nursing, MS (NUNURDTMS)

Online Degree Search Title: Nursing, MS

Campus: Downtown Phoenix, Online

Program Description:

The MS program in nursing is a post-baccalaureate degree designed to meet both the requirements for a Master of Science degree within Arizona State University and the professional nursing requirements outlined in the American Association of Colleges of Nursing Essentials and the National League for Nursing competencies. The program focus is to provide nurses with advanced education and skills in the translation of concepts, practices and principles of leadership and improvement science that will lead to safe, effective, coordinated, patient-centered health services, improved health outcomes and reduction of health care costs.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Nursing, BSN

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

35 credit hours including the required applied project course (NUR 593).

Required Core (18 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)

DNP 602 Evaluating Research for Practice (3)

DNP 604 Advanced Human Pathophysiology Across Lifespan (4)

DNP 608 Advanced Pharmacotherapeutics Across Lifespan (3)

NUR 501 Individual and Innovation Leadership in Health Care (3)

NUR 502 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics for Health Promotion I (2)

Other Requirement (14 credit hours)

NUR 509 Clinical Prevention and Population Health Practicum (2)

NUR 520 Patient Safety and Health Care Quality Principles, Assessment and Methods (3)

NUR 521 Health Care Evidence, Informatics and Analysis (3)

NUR 523 Interprofessional Collaboration for Improving Patient Safety and Health Care Quality Outcomes (3)

NUR 529 Role-Focused Practicum: Patient Safety and Health Care Quality (3)

Culminating Experience (3 credit hours)

NUR 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- professional resume
- written statement
- proof of English proficiency

Nursing (Entry to Nursing Practice), MS (NUNRENPRMS)

Online Degree Search Title: Nursing (Entry to Nursing Practice), MS

Campus: Downtown Phoenix

Program Description:

The Master of Science program in entry into nursing practice is a pathway to a master's education designed to meet the requirements for the MS in Nursing degree. This degree program provides a pathway to master's education for students who hold a baccalaureate degree in another discipline.

The plan of study builds on the students' prior baccalaureate education. This program option is delivered using a variety of face-to-face, hybrid and online delivery mechanisms. Graduates are eligible to take the National Council for Licensure Examination for Registered Nurses.

Degree Requirements:

64 credit hours including the required applied project course (NUR 593).

Required Core (18 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)

DNP 602 Evaluating Research for Practice (3)

DNP 604 Advanced Human Pathophysiology Across the Lifespan (4)

DNP 608 Advanced Pharmacotherapeutics Across Lifespan (3)

NUR 501 Individual and Innovation Leadership in Health Care (3)

NUR 502 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics for Health Promotion I (2)

Concentration (36 credit hours)

NUR 509 Clinical Prevention and Population Health Practicum (2)

NUR 514 Nursing Theory: Nursing Fundamentals (5)

NUR 515 Nursing Concepts for Psychiatric Mental Health (2)

NUR 516 Nursing Practice: Psychiatric Mental Health (2)

NUR 517 Nursing Practice: Pediatrics (2)

NUR 518 Nursing Practice: Adults (4)

NUR 519 Role-Focused Practicum: Care Coordination for the Nurse Leader (3)

NUR 520 Patient Safety and Health Care Quality Principles, Assessment and Methods (3)

NUR 521 Health Care Evidence, Informatics and Analysis (3)

NUR 523 Interprofessional Collaboration for Designing Systems to Improve Patient Safety and Health Care Quality (3)

NUR 524 Nursing Practice: Childbearing Family (2)

NUR 533 Nursing Concepts: Childbearing Family (2)

NUR 542 Readiness to Practice (3)

Other Requirements (7 credit hours)

NUR 417 Nursing Concepts: Pediatric Clients (2)

NUR 418 Nursing Concepts: Complex Care (3)

NUR 478 Nursing Practice: Complex Care (2)

Culminating Experience (3 credit hours)

NUR 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution. Applicants who hold a BSN degree are not eligible and should apply to one of the other graduate nursing programs in the Edson College of Nursing and Health Innovation.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation

- letter of intent or written statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants may be admitted to the program with deficiencies. If a student is assigned any deficiency coursework by the academic unit upon admission, those courses must be completed with a grade of "B" (scale is 4.00 = "A") or higher before completing the graduate program's required coursework. Deficiency courses may include:

BIO 201 Human Anatomy and Physiology I and BIO 202 Human Anatomy and Physiology II

CDE 232 Human Development

CHM 101 Introductory Chemistry

HCR 240 Human Pathophysiology

MIC 205 Microbiology and MIC 206 Microbiology Laboratory

NTR 241 Human Nutrition

statistics (100-level or higher 3-credit hour course)

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

Program Description:

The MS program in nursing education prepares nurses as educators to work in increasingly complex, technology-rich health environments with culturally diverse populations. The program is designed to foster scholarship, creativity and innovation as a foundation for leadership roles in teaching in academic and practice settings.

The program offers advanced-level courses in education that can be used to provide a transition to doctoral-level study, depending on career goals. At the completion of the program, graduates are eligible to take the National League for Nursing's Certified Nurse Educator certification examination.

Degree Requirements:

38 credit hours including the required applied project course (NUR 593).

Required Core (18 credit hours)

DNP 601 Theoretical Foundations for Advance Practice Nursing (3)

DNP 602 Evaluating Research for Practice (3)

DNP 604 Advanced Pathophysiology Across the Lifespan (4)

DNP 608 Advanced Pharmacotherapeutics Across the Lifespan (3)

NUR 501 Individual and Innovation Leadership in Advanced Nursing Practice (3)

NUR 502 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics for Health Promotion I (2)

Concentration (12 credit hours)

NUR 670 Curriculum Development in Academic and Practice Settings (3)

NUR 671 Teaching in Academic and Practice Settings (3)

NUR 672 Design and Delivery of Mediated Instruction (3)

NUR 673 Producing and Evaluating Programs for Academic and Practice Settings (3)

Other Requirements (5 credit hours)

NUR 509 Clinical Prevention and Population Health Practicum (2)

NUR 579 Role-Focused Practicum: Nurse Educator (3)

Culminating Experience (3 credit hours)
NUR 593 Applied Project (3)

Additional Curriculum Information

This degree program culminates in an applied project related to learner-centered education. The core of the program consists of 18 credit hours of courses and a practicum. The program focuses on the science and art of nursing education, and includes theory and practice courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three professional letters of recommendation
- resume
- goal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.

There are no required admission examinations for this program.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/masters-nursing-education/>)

Nursing and Healthcare Innovation, PHD (NUNHIPHD)

Online Degree Search Title: Nursing and Healthcare Innovation, PhD

Campus: Downtown Phoenix

Program Description:

The PhD program in nursing and health care innovation helps address a national need for faculty and researchers, positions which are increasingly in short supply.

The program is offered in a traditional on-site delivery format and innovative, synchronous online delivery and is designed to maintain a commitment to a highly mentored, interactive learning experience. Several different modalities are used to enhance the student's learning, including multimedia presentations, asynchronous discussion boards and live chats.

Concurrent Degrees:

This degree is also offered as concurrent degree program with Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner), DNP

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (30 credit hours)

NUR 601 Scientific Role Development I: Engaging and Committing (1)

NUR 602 State of the Science in Nursing and Healthcare Innovation (3)

NUR 603 Social and Contextual Issues in Nursing and Healthcare (3) or NUR 610 Genomics and Population Health (3)

NUR 604 Philosophy of Science Perspectives in Nursing and Healthcare Innovation (3)

NUR 605 Theory Analysis (3)

NUR 606 Scientific Role Development II: Validating and Demonstrating (1)

NUR 607 Scientific Role Development III: Bridging (1)

NUR 608 Qualitative Research Design and Methods (3)

NUR 609 Quantitative Research Design and Methods (3)

NUR 617 Foundational Concepts in Science and Statistics (3) or DNP 679 Biostatistics: Principals of Statistical Inference (3)

NUR 618 Advancing Research-Based Health Policy Through Leadership and Innovation Science (3) or DNP 711 Healthcare Policy and Innovation (3)

NUR 671 Teaching in Academic and Practice Settings (3)

Electives or Research (9 credit hours)**Other Requirements (3 credit hours)**

NUR 680 Research Practicum in Nursing and Health Innovation (3)

Culminating Experience (12 credit hours)

NUR 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework will be made up of electives and research. From those elective and research hours, 12 credit hours are required in a substantive area of specialization and may be taken in any semester, based on availability and student interest. Twenty-four credit hours of coursework with a research focus are required, including 12 hours of dissertation credit.

Students are required to enroll in a minimum of nine credit hours per semester for years one and two of their plan of study. The plan of study can be as broad or as narrow as the student and the supervisory program committee deem necessary for the student's career goals. Students may choose from the following five substantive areas of study: aging, education, health care innovation leadership, healthy families or world health.

The program may incorporate courses from other disciplines to further refine substantive areas of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- current resume
- goal statement essay
- writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must show completion of a current inferential statistics prerequisite course.

GRE scores are recommended, but not required

Students are admitted once a year, to start in the fall semester.

Pediatric Nurse Practitioner (Certificate), Certificate (NUPDNPGRCT)

Online Degree Search Title: Pediatric Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

This certificate program, accredited by the Commission on Collegiate Nursing Education, is designed for nurses who are board-certified in a different APRN specialty area who seek additional certification as a pediatric nurse practitioner or for nurses with a doctoral degree in nursing who seek to become a pediatric nurse practitioner.

Providing a foundation for this certificate are graduate courses in application of theory to advanced practice, application of evidence to advanced practice, advanced pathophysiology, advanced health assessment and advanced pharmacology. Advanced pediatric nursing theory and clinical courses focus on the development of a framework for developmentally supportive, family-centered, culturally appropriate advanced nursing practice with infants, children and families.

Focused clinical experiences are arranged with appropriate preceptors and administrators for students residing in Arizona. In-state students who live in Maricopa County are assigned clinical experiences in that geographic area. In-state students who live outside of Maricopa County may be assigned clinical placements in other areas of Arizona based on the college's ability to secure clinical agreements with those sites. In the event that clinical sites are unavailable in the student's geographical area OR if the faculty determines the student needs additional faculty supervision for clinical progress in the program, the student is required to complete the clinical experience in the Phoenix area.

Students residing outside of Arizona are responsible for identifying one or more clinical sites in their area of residence. These sites must be approved by the Edson College of Nursing and Health Innovation before starting any clinical experience.

Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas when sites are available for these experiences. These sites may be available in Maricopa County.

Degree Requirements:

32 credit hours.

Required Core (32 credit hours)

DNP 640 Advanced Human Pathophysiology Pediatrics (4)
DNP 641 Advanced Health Assessment Pediatrics (3)
DNP 642 Applied Pharmacotherapeutics for Pediatrics (3)
DNP 643 Developmentally Based Care of the Well Child (3)
DNP 644 Well Child Advanced Practicum (3)
DNP 645 Management of Common Problems in Pediatric Primary Care (3)
DNP 646 Management of Common Problems in Pediatric Primary Care Practicum (5)
DNP 647 Management of Complex and Chronic Health Problems in Pediatric Primary Care (3)
DNP 648 Management of Complex and Chronic Problems Pediatric Primary Care Practicum (5)

Additional Curriculum Information

Nurses who complete this certificate program meet the eligibility requirements to take a national pediatric nurse practitioner certification examination. In addition to completing didactic courses, students complete 13 credit hours (585 clock hours) of pediatric practicum experiences in a community setting.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- documentation of a current unencumbered RN license in the state in which the student plans to do clinical practicums
- three professional letters of recommendation
- resume
- goal statement
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants are required to have an in-person interview with the program faculty.

Applicants are asked to read *The Essentials of Doctoral Education for Advanced Nursing Practice* (2006) and then submit an admission essay. It should contain the following:

- description of career goals for the next five to 10 years and discussion about how an NP certificate from ASU will help meet these goals
- description of how meeting one of the first seven essentials (from the prescribed reading, above) will further the career goals

All Edson College of Nursing and Health Innovation students are required to complete health and safety requirements, and they must have a passing disposition on a background clearance and satisfactory completion of a substance screen with the program's identified agency.

One year of clinical experience working within the student's specialty population is preferred.

Regulatory Science, MS (NURSHSMS)

Online Degree Search Title: Regulatory Science, MS

Campus: Downtown Phoenix, Online

Program Description:

The MS program in regulatory science is designed to prepare students for careers in the field of regulatory affairs. It focuses on safety as a fundamental aspect of regulatory science, the application of regulations throughout the life cycle of medical products, and compliance with regulations in the development, approval and marketing of medical products. The program incorporates a transdisciplinary approach to meet the unique needs of regulating bodies and the regulated industry. It encompasses coursework in clinical research, ethics, quality systems, legal aspects and global regulatory affairs in the regulatory field.

Degree Requirements:

33 credit hours including the required applied project course (HCR 593).

Required Core (18 credit hours)

HCR 553 Quality Assurance and Clinical Research (3)
HCR 561 Responsible Conduct of Clinical Research (3)
HCR 563 Fundamentals of Regulatory Affairs (3)
HCR 576 Drug Discovery, Development and Regulations (3)
HCR 577 Global Regulatory Affairs (3)
HCR 578 Legal Aspects of Clinical Research (3)

Restricted Electives (12 credit hours)

HCR 552 Medical Device Development and Regulation (3)
HCR 555 Pharmaceutical Safety and Risk Management (3)
HCR 557 Clinical Research Design and Methods (3)
HCR 558 Technical Writing for the Regulatory Professional (3)
HCR 564 Global Regulatory Affairs Leadership (3)
HCR 568 Health Care Project Management (3)
HCR 575 Contracting and Budgeting for Industry-Sponsored Clinical Trials (3)
HCR 579 Translational Research in Drug Discovery and Development (3)

Culminating Experience (3 credit hours)

HCR 593 Applied Project (3)

Additional Curriculum Information

For electives coursework, students choose four courses for 12 credit hours from the restricted electives list. Other coursework may be substituted with approval from the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- resume or curriculum vitae
- two online recommendations
- personal statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The online references should be from professional colleagues, supervisors, professors or other professional contacts and should attest to the applicant's academic and leadership experiences.

Regulatory Science (Food Safety), MS (NURGSCFSMS)

Online Degree Search Title: Regulatory Science (Food Safety), MS

Campus: Online

Program Description:

The concentration in food safety within the MS program in regulatory science offers specialized training and knowledge in the protection and safety of food. Curriculum is aligned with local, state and national health and safety initiatives and integrates with the regulatory focus of the Food and Drug Administration.

Degree Requirements:

33 credit hours including an applied project (HCR 593).

Required Core (18 credit hours)

HCR 553 Quality Assurance and Clinical Research (3)

HCR 561 Responsible Conduct of Clinical Research (3)

HCR 563 Fundamentals of Regulatory Affairs (3)

HCR 576 Drug Discovery, Development and Regulations (3)

HCR 577 Global Regulatory Affairs (3)

HCR 578 Legal Aspects of Clinical Research (3)

Concentration (12 credit hours)

HCR 543 Food Safety and Protection (3)

HCR 544 Assessing Food Safety and Developing Policy Procedures and Training (3)

HCR 550 Quality Assurance and Safety in Food and Dietary Supplements (3)

HCR 558 Technical Writing for the Regulatory Professional (3)

Culminating Experience (3 credit hours)

HCR 593 Applied Project (3)

Additional Curriculum Information

The culminating experience is an applied project course that includes a project based on a food topic studied during the degree program. Students choose a scientific, technical or regulatory project that includes a research protocol or professional presentation to industry professionals.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's science-based or related field degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- professional resume
- written statement

- proof of English proficiency

Women's Health Nurse Practitioner (Certificate), Certificate (NUWHNPGRCT)

Online Degree Search Title: Women's Health Nurse Practitioner (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

This certificate program, accredited by the Commission on Collegiate Nursing Education, is designed for nurses with a master's degree in nursing who seek to become women's health nurse practitioners or for nurse practitioners with a master's degree or DNP who seek additional certification as women's health nurse practitioners.

This women's health nurse practitioner certificate program is offered in a hybrid iCourse and in-person format that requires students to travel to campus for orientation and then two or three times per semester. Women's health care theory and clinical courses include theories, principles and clinical skills in the care of women and their families. Courses focus on critical thinking, diagnosis, problem-solving and nursing management of women throughout the maternity cycle and with common gynecological problems. Client education, communication and collaboration are emphasized.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt is made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if faculty determine the student needs additional faculty supervision of skills, the student is required to complete the clinical experience in the Phoenix area. Rural health and experiences with disadvantaged and multicultural populations are encouraged, and sites are available for these experiences.

Degree Requirements:

23 credit hours.

Required Core (23 credit hours)

DNP 613 Women's Health Promotion I (3)

DNP 614 Women's Health Practicum I (3)

DNP 615 Management of Common Problems in Women's Health (3)

DNP 616 Advanced Women's Health Practicum II (5)

DNP 617 Management of Complex and Chronic Disease in Women (3)

DNP 618 Advanced Women's Health Practicum III (6)

Additional Curriculum Information

Nurses who complete this certificate meet the eligibility requirements to take the national women's health nurse practitioner certification examination. In addition to completing didactic courses, students complete 14 credit hours (630 clock hours) of practicum experiences in a community setting.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree in nursing from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- documentation of a current unencumbered RN license in the state in which the student plans to do clinical practicums
- three professional letters of recommendation
- resume
- admission essay
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants are required to have an in-person interview with the program faculty.

Applicants are asked to submit an admission essay addressing the applicant's career goals for the next five to 10 years and how obtaining an NP certificate from Arizona State University will help them meet these goals and how meeting one of the first seven essentials from The Essentials of Doctoral Education for Advanced Nursing Practice (2006) will further their career goals.

All Edson College of Nursing and Health Innovation students are required to complete health and safety requirements, and must have a passing disposition on a background clearance and satisfactory completion of a substance screen with the program's identified agency.

One year of clinical experience working within the student's specialty population is preferred.

Public Service and Community Solutions, Watts College of

Assessment of Integrative Health Modalities (certificate), Certificate (PPSWGGRCH)

Online Degree Search Title: Assessment of Integrative Health Modalities (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The graduate certificate program in assessment of integrative health modalities provides students with extensive knowledge of integrative health practices and with an experiential and didactic experience in which cutting-edge research is explored, advanced skills are developed and a mindfulness practice is nurtured.

Students may complete either of the following options to satisfy the culminating project requirement: explore deeper a topic of interest by completing an individual research paper or perform a community activity that demonstrates mastery and application of the advanced skills acquired while enrolled in the certificate.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

SWG 655 Quality of Life, Mastering Mindfulness (3)

SWG 656 Treating the Whole Person (3)

SWG 657 Holistic Therapies for Modern Times (3)

Transdisciplinary Electives (6)

Additional Curriculum Information

After the completion of the three approved courses and prior to completing the last course of the program, students are required to complete a research project highlighting their certificate experience.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in health or human services or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

In addition, applicants are required to submit to the School of Social Work:

- a resume
- a one- to two-page statement
- the School of Social Work application to the assessment of integrative health modalities certificate program

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

This certificate is open to professionals in social work, nursing or related health and human service professions from the community as well as to students currently admitted to a health and human services degree program at the master's or doctoral level.

No more than two certificate courses may be completed before applying for admission to the certificate program.

Community Development Practice, MPS (PPCMDVPMPS)

Online Degree Search Title: Community Development Practice, MPS

Campus: Downtown Phoenix

Program Description:

The MPS program in community development practice trains existing and future practitioners in approaches to developing healthy, sustainable and resilient communities. The program provides students with historical and theoretical foundations, applied research skills and core competencies centered around community building, development practices and the facilitation of democratic and cross-sector collaboration toward social innovation and community solutions. This program allows students to establish an emphasis on topics like housing and economic development,

education, social and environmental justice, health and sustainability, drawing from the extensive expertise of ASU faculty.

Graduates are highly competitive for careers in community development practice, in areas such as in local governance, nonprofit and philanthropic sectors, as well as for doctoral programs in community development, urban studies, public policy and related fields.

Degree Requirements:

30 credit hours including the required capstone course (CRD 596).

Required Core (15 credit hours)

CRD 570 Foundations of Community Development (3)

CRD 571 The Community Development Process (3)

CRD 573 Local and Regional Development (3)

CRD 574 Applied Research Skills (3)

CRD 577 Community Building Practice (3)

Electives (12 credit hours)

Culminating Experience (3 credit hours)

CRD 596 Community Development Capstone (3)

Additional Curriculum Information

Students are highly encouraged to work with a faculty advisor to establish an area of emphasis. The plan of study includes 12 credit hours of electives so students may gain specialized expertise in a specific area. Some examples include arts, culture and design, business, communications, education, health, housing and economic development, law, social justice, sustainability, urban and environmental planning and urban design. Students should see the academic unit for suggested areas of emphasis and electives.

Students may select electives that are not on the approved electives list with administrative approval and by articulating the relevance to their plan of study.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- letter of intent
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Community Resources and Development, MS (PPRECDTMS)

Online Degree Search Title: Community Resources and Development, MS

Campus: Downtown Phoenix

Program Description:

The MS in community resources and development is offered by the School of Community Resources and Development. The master's degree program prepares students to analyze and understand critical topics and issues pertinent to the fields of tourism, parks and recreation management, nonprofits and nongovernmental organizations, and sustainable communities.

Students choose between two academic options: the thesis or the professional option.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Nonprofit Leadership and Management, BS
- Parks and Recreation Management, BS
- Parks and Recreation Management (Therapeutic Recreation), BS
- Tourism Development and Management, BS
- Tourism Development and Management (Resort and Hotel Leadership), BS
- Tourism Development and Management (Sustainable Tourism), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 36 credit hours and a master's research paper.

Required Core (15 credit hours)

CRD 500 Research Methods (3)

CRD 502 Statistical and Data Analysis (3)

CRD 530 Community Services Management (3) or advanced inquiry course (3)

CRD 552 Critical Issues (3)

CRD 555 Theoretical Perspectives in Community Development (3)

Electives (9 or 15 credit hours)

Culminating Experience (6 credit hours)

CRD 593 Applied Project (6) or

CRD 599 Thesis (6)

Additional Curriculum Information

Completion of the master's degree in community resources and development requires two years of study, on the average.

Students may select a thesis or applied project. The thesis option is a research-oriented program and is recommended for students planning to continue graduate studies beyond the master's degree. The applied project option is intended for students seeking additional knowledge and expertise relevant to professional career development. Advising and direction in both options are under the direct supervision of an assigned faculty member.

Students in the applied project option take CRD 530 as part of their core coursework and 15 credit hours of electives.

Students in the thesis option take an advanced inquiry course as part of their core coursework and nine credit hours of electives. The thesis must be defended in an oral examination before a supervisory committee of at least three faculty members, one of whom resides in another department.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of professional and academic goals
- three letters of recommendation
- current resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International applicants are also required to submit TOEFL or IELTS scores and a financial guarantee statement.

Only complete application files are reviewed or considered for admission. Applicants without undergraduate academic work in related disciplines are required to take six credit hours of deficiency coursework in addition to the master's degree requirements. Deficiency coursework may be taken in conjunction with master's degree classes.

Applicants should see the program website for application deadlines.

Community Resources and Development, PHD (PPCRDPHD)

Online Degree Search Title: Community Resources and Development, PhD

Campus: Downtown Phoenix

Program Description:

The PhD in community resources and development is a research-intensive doctoral degree program grounded in theory and designed to prepare graduates for research-oriented careers in higher education, governmental agencies, nonprofit organizations and private-sector businesses. The program is based on the concept of building sustainable and healthy communities as the unifying principle in the established focus areas of community studies, nonprofit leadership and management, parks, recreation and leisure, and tourism development and management.

The theoretical and methodological approaches embedded in this program serve to integrate scholarship in these areas, in order for students to gain a more meaningful understanding of and impact on community life and dynamics.

The program is transdisciplinary in nature. The core faculty engaged in this program are housed in the School of Community Resources and Development. In addition, the program builds on current collaborations with faculty with related research interests from many ASU departments, schools and centers.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (24 credit hours)

CRD 610 Sustainable Communities (3)

CRD 620 Community Research Methods (3)

CRD 640 Research Seminar in Community Resources and Development I (3)

CRD 650 Research Seminar II (3)

CRD 683 Fieldwork (3)
REC 502 Statistical and Data Analysis (3)
REC 555 Theoretical Perspectives in Community Development (3)
advanced statistics or methods (3)

Electives or Research (18 credit hours)

Culminating Experience (12 credit hours)
CRD 799 Dissertation (12)

Additional Curricular Information

Up to 30 hours from a previously awarded master's degree can count toward the doctoral requirements.

All students are advised as a cohort initially by the doctoral program director. Students are required to take 24 credit hours of core coursework, 15 hours of which are with the cohort during the first year and six hours of which are with the cohort during the second year. Students are assigned an individual advisor or mentor at the end of the first year of study. A supervisory committee is also formed at the end of the first year which reflects the interests of the student and faculty.

Each student develops a plan of study in consultation with the doctoral program coordinator, advisor and supervisory committee. Students complete elective coursework, including courses from contributing disciplines, selected in consultation with their advisor to foster the transdisciplinary nature of the degree program. Students also complete at least six credit hours of CRD 792 Research and 12 credit hours of CRD 799 Dissertation. When the majority of coursework has been completed and before dissertation research is started, students must complete a written examination followed by an oral examination. These examinations must be completed within five years of admission.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- current and professional resume
- statement of academic and professional goals
- GRE test scores
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International applicants are also required to submit TOEFL or IELTS scores and a financial guarantee statement. The minimum TOEFL requirement is 550 (PBT) or 80 (iBT). The minimum IELTS requirement is an overall band score of 6.5 (no individual band below a 6.0). The TOEFL or IELTS must have been taken within the last two years.

GRE must be taken within the past five years. Applicants are expected to meet the GRE minimum requirements (based on the new scoring system after August 2011) of combined score of at least 300 (old system 1000), verbal minimum of 146 (old system 400), quantitative minimum of 140 (old system 400), and writing of 3.5 (same for new and old systems).

The statement of academic and professional goals should be in sufficient detail to indicate compatibility with the educational objectives and capabilities of the doctoral program (approximately three pages single spaced). Applicants need to explain their research interests and indicate the faculty member with whom they would like to work. Students should review faculty profiles (https://scrd.asu.edu/faculty_directory) to learn their research expertise. Applicants are encouraged to contact the PhD program director prior to application submission to discuss interests and fit with the program and faculty. They are also encouraged to contact faculty with similar interests to discuss their fit with the program. Successful statements should make it clear why the applicants have chosen to do a doctorate in community resources and development and how this program will fulfill their career goals.

The recommendation letters may be a mix of academic and professional references, but each must address the applicant's capacity to successfully complete the doctoral program.

Students applying to the program are expected to have a master's degree (from an accredited institution) which included a master's degree-level research methods and statistics class or classes. If deficiencies exist in community resource and development-related coursework at the master's degree level, appropriate classes are suggested.

The PhD in community resources and development is designed as a full-time, research-intensive program. Students are admitted once a year as a cohort and are generally expected to complete the degree in three to four years. A small number of part-time students on a longer completion time frame may be admitted when space is available. The school does not provide funding for part-time students.

Applications are reviewed by the admission committee and recommendations for admission are then made by the graduate program director to the dean of the Graduate College.

Community Resources and Development (Nonprofits and NGOs), MS (PPCRDNPMS)

Online Degree Search Title: Community Resources and Development (Nonprofits and NGOs), MS

Campus: Downtown Phoenix

Program Description:

The MS in community resources and development with a concentration in nonprofits and NGOs is a research-oriented degree program designed to prepare students for careers in governmental agencies, nonprofit organizations and private-sector businesses. Students learn to analyze and understand critical topics and issues pertinent to the fields of tourism, parks and recreation management, nonprofits and nongovernmental organizations, and sustainable communities.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Nonprofit Leadership and Management, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours and a thesis, or 36 credit hours including the required capstone course (CRD 580).

Required Core (15 credit hours)

CRD 500 Research Methods (3)

CRD 502 Statistical and Data Analysis (3)

CRD 530 Community Services Management (3) or advanced inquiry course (3)

CRD 552 Critical Issues (3)

CRD 555 Theoretical Perspectives in Community Development (3)

Required Concentration (6 credit hours)

NLM 510 The Nonprofit Sector (3)

NLM 562 Social Entrepreneurship (3)

Elective or Research (3 or 9 credit hours)

Culminating Experience (6 credit hours)

CRD 593 Applied Project (6) or

CRD 599 Thesis (6)

Additional Curriculum Information

Completion of the master's degree in community resources and development requires two years of study, on the average. Students may select a thesis or applied project. Advising and direction in both options are under the direct supervision of an assigned faculty member.

The thesis option is a research-oriented program and is recommended for students planning to continue graduate studies beyond the master's degree. Students in the thesis option will take an advanced inquiry course, and they will take three credit hours of elective coursework. The thesis

option must be defended in an oral examination before a supervisory committee of at least three faculty members, one of whom will reside in another department.

The applied project is intended for students seeking additional knowledge and expertise relevant to professional career development. Students in the applied project option take CRD 530 as part of their core coursework and will take nine credit hours of electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

Corrections Management (Certificate), Certificate (PPCMGGRCT)

Online Degree Search Title: Corrections Management (Graduate Certificate)

Campus: Online

Program Description:

The graduate certificate in corrections management provides coursework in criminal justice organizations, corrections and community supervision, institutional management and in cross-disciplines such as public administration. The certificate program is designed to give students a solid foundational understanding of correctional administration, leadership and policy analysis.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

CRJ 514 Seminar in Corrections (3)

CRJ 516 Seminar in Criminal Justice Organization and Management (3)

CRJ 528 Prison and Jail Administration OR CRJ 529 Community Corrections (3)

PAF 520 Public Management (3)

Electives (3 credit hours)

Additional Curricular Information

For electives, students should see the academic unit for the approved course list. There is no required culminating experience for this program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application
- official transcripts
- written statement of career and educational goals
- proof of English proficiency

Students not admitted to a graduate degree-granting program at ASU (nondegree-seeking students) must also submit two letters of recommendation and a current resume.

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students from related fields, such as public policy, political science, psychology, sociology, as well as other social science degrees, might be interested in this program; however, all eligible students will be considered. Although most students would most likely come from the aforementioned degree fields, there is no specific undergraduate degree major required for admission; the school will accept applicants with undergraduate degrees from all educational backgrounds.

There are no required admission examinations for this program.

Students should see the program website for application deadlines and admission terms.

Criminal Sentencing and Sentencing Advocacy (Certificate), Certificate (PPCSAGRCT)

Online Degree Search Title: Criminal Sentencing and Sentencing Advocacy (Graduate Certificate)

Campus: Online

Program Description:

Social workers, criminal justice professionals and recent graduates of psychology and other social and behavioral sciences perform a number of roles in the disposition and sentencing of public offenders. They also provide support for victims of crime during the criminal justice process.

The certificate program in criminal sentencing and sentencing advocacy assumes that in order for any professional to function effectively they must have a fundamental knowledge of the respective roles sentencing professionals play during various phases of the criminal justice process.

In keeping with this viewpoint, all students are required to take courses for practice as both a presentence investigator and a sentencing advocate. Those courses are seminars in courts and sentencing, in presentence investigations, and in alternatives to penal sanctions. After taking these required courses, they select an area of specialization to further their expertise as either a probation professional, mitigation specialist or victim advocate. They take these courses from a range of electives available in the schools of Criminology and Criminal Justice and Social Work.

This interprofessional certificate program also provides participants with content on the relationship between mental disorder and crime and the way in which differential sentencing frameworks affect the sentencing of offenders suffering from mental disorders. This course is highly recommended for social workers desiring to practice as mitigation specialists and in criminal justice professions responsible for making recommendations about the appropriateness of sentencing alternatives.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

CRJ 513 Seminar in Courts and Sentencing (3)

SWG 528 Presentence Investigations (3)

SWG 529 Alternatives Penal Sanctions (3)

Electives (6 credit hours)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in social work, criminology, criminal justice or a related field, or if they are individuals who are currently enrolled in the master of criminal justice program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Criminology and Criminal Justice, BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours and a thesis, or 33 credit hours including the required capstone course (CRJ 505).

Required Core (12 credit hours)

CRJ 501 Seminar in Criminal Justice (3)

CRJ 502 Seminar in Criminology (3)

CRJ 503 Research Methods for Criminal Justice (3)

CRJ 504 Statistical Tools for Criminology and Criminal Justice (3)

Systems Courses (6 credit hours)

CRJ 512 Seminar in Policing (3)

CRJ 513 Seminar in Courts and Sentencing (3)

CRJ 514 Seminar in Corrections (3)

Electives (6-12 credits hours)

Other Requirement (0-3 credit hours)

CRJ 604 Advanced Statistical Analysis (3)

Culminating Experience: (3-6 credit hours)

CRJ 505 Theory and Practice in Criminal Justice (3) or

CRJ 599 Thesis (6)

Additional Curriculum Information

Students select two of the three systems courses listed above.

For the culminating experience, students choose either the thesis option or the capstone course. CRJ 604 Advanced Statistical Analysis is only required for the thesis option. To satisfy the thesis requirements for the degree, candidates must write a thesis and defend it in an oral examination conducted by the student's thesis committee. Students in the capstone option are not required to take CRJ 604.

Each student's program is designed in consultation with the faculty advisor.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- personal statement
- GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should address the applicant's prior education and professional experience, discuss the applicant's career goals and explain how the degree will help the applicant achieve these goals.

The GRE scores must be from within the last five years.

Applicants should see the program website for application deadlines.

Criminology and Criminal Justice, PHD (PPCRJPHD)

Online Degree Search Title: Criminology and Criminal Justice, PhD

Campus: Downtown Phoenix

Program Description:

The School of Criminology and Criminal Justice at Arizona State University offers an on-campus program of coursework and research leading to the PhD in criminology and criminal justice.

This program emphasizes criminal justice theory, research and policy and is designed to produce highly skilled criminology and criminal justice faculty and agency researchers and administrators.

The doctoral program is organized around five components: a comprehensive examination, a core of required courses in research methods and analytical techniques, a core of required courses in theory and research on crime and the criminal justice system, a dissertation and elective courses in criminology, criminal justice and related fields.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The doctoral program in criminology and criminal justice includes a minimum of 72 credit hours of coursework and 12 credit hours (and only 12) of dissertation. A maximum of 30 credit hours of coursework from a previously awarded master's degree or JD may, with the approval of the supervisory committee, be applied toward the doctoral plan of study.

Each student is required to complete coursework in two core areas. This includes six credit hours of coursework in theory and research on crime and the criminal justice system and nine credit hours of coursework on research methods and analytical techniques. Elective courses comprise the remainder of the coursework required for the doctorate. All students must demonstrate proficiency in research design as well as quantitative and qualitative methods.

Required Core (15 credit hours)

CRJ 601 Seminar on Criminological Theory (3)

CRJ 602 Seminar on Criminal Justice Policies and Practices (3)

CRJ 603 Advanced Research Design (3)

CRJ 604 Advanced Statistical Analysis (3)

CRJ 605 Topics in Quantitative Methods (3)

Electives (27 credit hours)

Students choose a minimum of nine courses in consultation with the supervisory committee (27).

Other Requirements (30 credit hours)

credit hours for coursework from master's degree or JD (30)

Culminating Experience (12 credit hours)

dissertation (12)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

An applicant should hold a master's degree from an accredited institution; it may be in criminal justice, criminology or another field (e.g. sociology, political science, history, social work, public administration, psychology or philosophy). In exceptional cases, the admission committee will consider applicants who hold only a bachelor's degree.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- two letters of recommendation
- current curriculum vitae or resume
- personal statement
- sample of the applicant's written work
- proof of English proficiency.

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Requirements can be found at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

Official transcripts must be submitted from every university or institution in which a degree was awarded.

GRE scores must be from within the last five years.

The letters of recommendation must be from faculty members or others qualified to evaluate the applicant's academic potential for doctoral study.

The personal statement should not exceed five pages, and it should describe the applicant's prior education, relevant professional experience and career goals. The statement must explain how the doctorate in criminology and criminal justice will help the applicant attain his or her career goals. The statement should explicitly explain how the student's plans are consistent with the role and mission of the School of Criminology and Criminal Justice at ASU.

The applicant's sample of written work should be submitted electronically. The writing sample may be an article (published or unpublished), a research paper, or any other extended sample of expository skill, and the sample must be no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents should not be password protected. Acceptable file types are .rtf, .pdf, and .doc.

Students should see the unit website for application deadlines.

Domestic Violence and Evidence-Based Practice (Certificate), Certificate (PPDVEPGRCT)

Online Degree Search Title: Domestic Violence and Evidence-based Practice (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The certificate program in domestic violence and evidence-based practice provides graduate students with the experience and knowledge to intervene safely and effectively on behalf of the survivors of gender-based violence. Those knowledgeable about the dynamics of intimate partner violence are better equipped to assist those suffering its negative physical and mental health consequences.

Students in the certificate program engage in service-based and classroom learning to understand the role of evidence-based interventions in promoting survivor safety and client empowerment.

The certificate program prepares students to be verified advocates for victims of domestic violence in the state of Arizona.

Degree Requirements:

15 credit hours.

Required Core (3 credit hours)

SWG 545 Domestic Violence and National AmeriCorps Service (3)

Restricted Electives (6 credit hours)

SWG 546 Approaches to Teen Dating Violence Prevention (3) or

SWG 618 Advanced Practice in Domestic Violence (3) or

SWG 647 The Domestic Violence Movement: An Intersectional Framework (3) or

SWG 648 Intimate Partner Violence Risk Assessment (3)

Other Requirement (6 credit hours)

SWG 541 Field Practicum I (3) or SWG 641 Advanced Practicum: Direct Practice I (3) or SWG 643 Advanced Practicum: Planning, Social Work Administration and Community Practice I (3)

SWG 542 Field Practicum II (3) or SWG 642 Advanced Practicum: Direct Practice II (3) or SWG 644 Advanced Practicum: Planning, Social Work Administration and Community Practice II (3)

Additional Curriculum Information

For restricted electives, students select two courses from the approved course list. Other coursework may be used with the approval of the academic unit.

For the other requirement section, students must select one course from SWG 541, SWG 641 or SWG 643 and one course from SWG 542, SWG 642 or SWG 643. Other coursework may be used with approval of the academic unit.

The student's department-specific field experience practicum credits may be substituted for the other requirement section with department approval.

All students are required to complete 300 hours (minimum) of domestic violence service through a field experience practicum. Students should work with the academic unit in coordinating the field experience practicum. Concurrent to the beginning of their field experience practicum, students take the Domestic Violence and National AmeriCorps Service core course (SWG 545) in order to learn about the foundations for working with domestic violence victims. The coursework and field experience practicum experience maximize experiential learning opportunities.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution and are degree-seeking graduate students. Experience in social work, social services or a related field is required.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants interested in the domestic violence and evidence-based practice certificate are asked to attend an interview. The interview is a chance to help the student find an appropriate field experience or practicum to match the certificate requirements.

Emergency Management (Certificate), Certificate (PPEMEGRCT)

Online Degree Search Title: Emergency Management (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The graduate certificate program in emergency management provides motivated students with the skills and knowledge to manage and assume positions of leadership within the field of emergency management. More specifically, an orientation on all-hazards and all-threats provides students with a generalist perspective, which is critically important for today and tomorrow's disaster managers.

The certificate program may be of interest to students in disciplines such as public policy, planning, political science, nonprofit management, social work, criminology and other related fields.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

PAF 520 Public Management (3)

PAF 552 Integrated Emergency Management (3)

PAF 555 Information Technology in Emergency Management (3)

Electives (6 credit hours)

Additional Curriculum Information

For electives, students should see the academic unit for an approved course list. Other coursework may be used with the approval of the academic unit.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a statement of career and educational goals
- proof of English proficiency

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

The program is ideal for students from related fields, including political science, planning, urban and metropolitan studies, sociology as well as other social science degrees; however, applicants from all educational backgrounds may be accepted provided they meet the minimum requirements. Current ASU graduate students are eligible for the certificate as a supplement to their existing degree program. In addition, students not enrolled in a graduate program at ASU are also eligible to apply as nondegree students provided they meet the admission criteria stated above. However, MPA students in the proposed emergency management concentration would not be eligible for admission.

Students should see the program website for application deadlines.

Emergency Management and Homeland Security, MA (PPEMHSMA)

Online Degree Search Title: Emergency Management and Homeland Security, MA

Campus: Downtown Phoenix, Online

Program Description:

The MA program in emergency management and homeland security is designed to assist the professional development of current or future practitioners as the next generation of leaders in these fields. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of the 21st century. Its core values of collaboration between practitioners, faculty and students, public service, commitment to diversity, critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

One of the unique features of this program is its breadth of content coverage. The program offers the following five distinct concentration areas: emergency management, homeland security, community resilience, biosecurity and threat management, and cybersecurity policy and management. These subject area specializations underscore the program's commitment to strategic thinking about current and future challenges. Likewise, the program has a number of learning opportunities from an international perspective.

When students enroll in this program, they are encouraged to choose one of these area specializations. Students can enroll in the degree program without declaring a concentration. However, selecting a concentration is advisable because doing so assists in developing knowledge, skills and abilities pertinent to an intended career path.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Public Service and Public Policy (Emergency Management and Homeland Security), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including an applied project course (CRJ 593 or PAF 593), or 33 credit hours including an applied project course (CPP 593 or PAF 593).

Required Core (18 credit hours)

CPP 510 Hazards Governance (3)

CPP 520 Program Evaluation for Emergency Management and Homeland Security (3)

CPP 570 GIS for Hazards Analysis (3)

CRJ 511 Applied Data Analysis in Criminal Justice (3)

CRJ 554 Homeland Security (3)

PAF 552 Integrated Emergency Management (3)

Electives (12 credit hours)

Culminating Experience (3 credit hours)

CPP 593 Applied Project (3) or

PAF 593 Applied Project (3)

Additional Curriculum Information

For electives, students should see the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences, environmental sciences or geography, public health or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate application and application fee
- official transcripts
- evidence of current employment in an organization in this field or at least two years prior professional experience in this or a related field or a bachelor's degree in a related area is required.
- two letters of recommendation
- a written statement
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The written statement should be at least one page in length and describe the applicant's educational and career goals and long-term professional development strategy.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. Emergency Management and Homeland Security (Biosecurity and Threat Management), MA (PPEMHSBTMA)

Online Degree Search Title: Emergency Management and Homeland Security (Biosecurity and Threat Management), MA

Campus: Downtown Phoenix, Online

Program Description:

Biosecurity and threat management is an important and emerging area related to the intersection of homeland security, public health and risk management. It addresses a unique set of hazard and threat management issues related to bioterrorism, agroterrorism and communicable disease threats associated with disaster incidents. The biosecurity and threat management concentration within the MA program in emergency management and homeland security degree is designed to assist professional development aimed at meeting these types of current and emerging challenges. Some of the coursework in this concentration area is offered through the University of New South Wales (Australia) as part of the PLuS alliance program.

The EMHS program's students serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of the

21st century. Its core values of collaboration between practitioners, faculty and students, public service, commitment to diversity, critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Public Service and Public Policy (Emergency Management and Homeland Security), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours including the required applied project course (CPP 593 or PAF 593).

Required Core (18 credit hours)

CPP 510 Hazards Governance (3)

CPP 520 Program Evaluation for Emergency Management and Homeland Security (3)

CPP 570 GIS for Hazards Analysis (3)

CRJ 511 Applied Data Analysis in Criminal Justice (3)

CRJ 554 Homeland Security (3)

PAF 552 Integrated Emergency Management (3)

Concentration (6 credit hours)

CPP 581 Bioterrorism and Health Intelligence (3)

CPP 583 Health Aspects of Crises, Emergencies, Disasters (3)

Elective or Research (6 credit hours)

Culminating Experience (3 credit hours)

CPP 593 Applied Project (3) or

PAF 593 Applied Project (3)

Additional Curriculum Information

Students choose one of the applied project courses listed.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences, or another closely related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- a written statement
- evidence of current employment
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The written statement must be at least one page in length, which describes the applicant's educational and career goals and long-term professional development strategy. Evidence of current employment in an organization in this field or at least two years prior professional experience in this or a related field or a bachelor's degree in a related area.

Emergency Management and Homeland Security (Community Resilience), MA (PPEMHSCRMA)

Online Degree Search Title: Emergency Management and Homeland Security (Community Resilience), MA

Campus: Downtown Phoenix, Online

Program Description:

Community resilience refers to the efforts of governmental and nongovernmental actors to develop policies and practices aimed at reducing short and long-term risk in order to enhance safety and sustainability. This concentration within the MA program in emergency management and homeland security is focused on understanding how community resilience is developed and promoted across government agencies (local, state, federal) as well as private and nonprofit sector organizations where functional and operational responsibilities relate to planning, hazards mitigation, disaster recovery or sustainability. Further, it leverages the PLuS Alliance for course offerings.

EMHS program students serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of the 21st century. Its core values of collaboration between practitioners, faculty and students, public service, commitment to diversity, critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

Emergency Management and Homeland Security (Cybersecurity Policy and Management), MA (PPEHSCPMMA)

Online Degree Search Title: Emergency Management and Homeland Security (Cybersecurity Policy and Management), MA

Campus: Downtown Phoenix, Online

Program Description:

The cybersecurity policy and management concentration within the MA in emergency management and homeland security program provides motivated students with knowledge, skills and abilities to assume leadership, key management and other key operational positions with public sector agencies (or related private sector organizations) with responsibilities related to managing cybersecurity hazards in the area of homeland security, emergency management, critical infrastructure protection, risk management, and other related fields. Cybersecurity is an important threat and vulnerability issue that cuts across multiple domains.

This concentration is uniquely geared toward professionals in emergency management, homeland security, critical infrastructure protection, hazard mitigation, planning and emergency preparedness who do not seek nor require highly technical training in cybersecurity (beyond a basic competency level) but, instead, have major operational responsibilities that pertain to cyber-related vulnerabilities. This concentration is a unique contribution: It provides education and training on cyber policy and management issues for general administrators. Further, it leverages the PLuS Alliance for course offerings.

The EMHS program's students serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of the 21st century. Its core values of collaboration between practitioners, faculty and students, public service, commitment to diversity, critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Public Service and Public Policy (Emergency Management and Homeland Security), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours including an applied project (CPP 593).

Required Core (18 credit hours)

CPP 510 Hazards Governance (3)

CPP 520 Program Evaluation for Emergency Management and Homeland Security (3)

CPP 570 GIS for Hazards Analysis (3)

CRJ 511 Applied Data Analysis in Criminal Justice (3)

CRJ 554 Homeland Security (3)

PAF 552 Integrated Emergency Management (3)

Concentration (6 credit hours)

CPP 575 U.S. Cyber and Information Security Policy (3)

CPP 576 Information Assurance Principles (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)

CPP 593 Applied Project (3)

Additional Curriculum Information

Students take up to three courses as part of the PLuS Alliance program with the University of New South Wales.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- professional resume
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The resume should show current employment in an organization in this field or at least two years prior professional experience in emergency management or a related field, or a bachelor's degree in a related area.

The written statement must be at least one page in length and must describe the applicant's educational and career goals and long-term professional development strategy.

Emergency Management and Homeland Security (Emergency Management), MA (PPEMHSEMMA)

Online Degree Search Title: Emergency Management and Homeland Security (Emergency Management), MA

Campus: Downtown Phoenix, Online

Program Description:

The emergency management concentration within the MA program in emergency management and homeland security is designed for individuals who intend to assume greater management responsibility in helping communities reduce vulnerability to hazards and cope with disasters in both private and public settings. Students gain an essential understanding of the entire vision, mission and principles of emergency management with an emphasis on policy analysis and program evaluation, leadership, management, use of technology interagency and cross-sector collaboration. Core concepts and analytic approaches to disaster risk reduction and the promotion of community resilience capacity are addressed in concentration courses. Further, it leverages the PLuS Alliance for course offerings.

EMHS program students serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of the 21st-century. Its core values of collaboration between practitioners, faculty and students, public service, commitment to diversity, critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Public Service and Public Policy (Emergency Management and Homeland Security), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours including the required applied project course (CPP 593 or PAF 593).

Required Core (18 credit hours)

CPP 510 Hazards Governance (3)

CPP 520 Program Evaluation for Emergency Management and Homeland Security (3)

CPP 570 GIS for Hazards Analysis (3)

CRJ 511 Applied Data Analysis in Criminal Justice (3)

CRJ 554 Homeland Security (3)

PAF 552 Integrated Emergency Management (3)

Concentration (6 credit hours)

CPP 512 Exercises and Planning for Emergency Management and Homeland Security (3)

PAF 555 Information Technology in Emergency Management (3)

Elective or Research (6 credit hours)

Culminating Experience (3 credit hours)

CPP 593 Applied Project (3) or

PAF 593 Applied Project (3)

Additional Curriculum Information

For the culminating experience, students choose one of the applied project courses listed.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- two letters of recommendation
- written statement
- evidence of current employment in an organization in this field or at least two years prior professional experience in this or a related field OR a bachelor's degree in a related area
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The written statement should be at least one page in length and describe the applicant's educational and career goals and long-term professional development strategy.

Emergency Management and Homeland Security (Homeland Security), MA (PPEMHSMA)

Online Degree Search Title: Emergency Management and Homeland Security (Homeland Security), MA

Campus: Downtown Phoenix, Online

Program Description:

The homeland security concentration within the MA in Emergency Management and Homeland Security degree is focused on homeland security as a field, applicable to all levels of government (federal, state, local) and to positions in private sector organizations with functional and operational related to organizational security. Students gain an essential understanding of the public policy and practice on homeland security and homeland defense issues, with an emphasis on policy analysis and program evaluation, leadership, management, use of technology interagency and cross-sector collaboration. The concentration leverages the PLuS Alliance for course offerings.

The MA EMHS program's students serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of the 21st century. Its core values of collaboration between practitioners, faculty and students, public service, commitment to diversity, critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Homeland Security (certificate), Certificate (PPHLSGRCT)

Online Degree Search Title: Homeland Security (Graduate Certificate)

Campus: Online

Program Description:

The graduate certificate program in homeland security is focused on homeland security as a field applicable to all levels of government (federal, state and local) and to positions in private sector organizations with functions and operations related to organizational security. Students can study topics related to current international and domestic terrorism issues, global security, intelligence analysis, cybersecurity issues, crime prevention and law enforcement.

Degree Requirements:

18 credit hours.

Required Core (12 credit hours)

CRJ 553 Terrorism and Weapons of Mass Destruction (3)

CRJ 554 Homeland Security (3)

CRJ 557 Seminar in Domestic Terrorism (3)

CRJ 558 Seminar in International Terrorism (3)

Electives or Research (6 credit hours)

Additional Curriculum Information

Students should see the academic unit for available elective and research coursework.

Students may choose to participate in a study abroad experience in counterterrorism in Israel during the summer term that may be used to fulfill elective coursework. Students who choose this option enroll in CRJ 555 Police and International Terrorism and CRJ 556 Etiology of Martyrdom.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology, criminal justice, homeland security, counter-terrorism or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- letter of intent
- professional resume
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letter of intent, resume and letters of recommendation are not needed if the applicant is already matriculated in an ASU master's degree program.

Latino Cultural Competency in Social Work (certificate), Certificate (PPSWGGRCL)

Online Degree Search Title: Latino Cultural Competency in Social Work (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

In response to need, ASU offers a graduate certificate in Latino cultural competency through the Watts College of Public Service and Community Solutions School of Social Work. The School of Social Work offers Latino-oriented courses with an emphasis on Spanish language development for professional social workers.

The goal of the program is to enhance a social work professional's capacity for engaging in culturally grounded practice with Latino clients and their families.

The program is intended for professionals who want to expand their employment potential by adding an expertise in professional services with Latinos; learn the critical, cross-cultural factors that influence a worker's competency in forming professional helping relationships with Latinos; understand the social and cultural context and theoretical principles of social work practice with Latinos; and learn the social service delivery issues involved in providing services for bilingual and limited- or non-English-speaking Latino populations.

Degree Requirements:

15 credit hours.

The following is required for students enrolled in the Master of Social Work program:

- completion of 480 hours of field practicum with Latino clients and communities (60% of case load to be Spanish-speaking)
- field practice consisting of six credit hours of field practicum
- six credit hours of Latino-oriented coursework
- SWG 533 Diversity and Oppression in a Social Work Context (3)

At least three credit hours are required to be taken from within the School of Social Work.

Requirements for those already working in the field of social work as a community professional social worker and community worker are as follows:

- six credit hours of independent study field practice consisting of the completion of 480 hours with Latino clients and communities (60% of client caseload to be Spanish-speaking)
- six credit hours of Latino-oriented coursework
- SWG 533 Diversity and Oppression in a Social Work Context (3)

Additional Curriculum Information

At least three credit hours of the Latino-oriented coursework are required to be taken from within the School of Social Work.

Students already working in the field of social work may petition to use their place of employment for the six credit hours of independent study field practice.

Students with a Master of Social Work or BSW degree who have completed SWG 533 in the past five years may substitute another Latino-oriented course.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- the School of Social Work Latino cultural competency application form and the required \$50 application fee
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

No more than two certificate courses may be completed before applying for admission to the certificate program.

Social work graduate students must have graduate status in the Watts College of Public Service and Community Solutions School of Social Work and must demonstrate proficiency in the Spanish language.

Community professional social workers must possess a Master of Social Work, Bachelor of Social Work or related master's degree and must demonstrate proficiency in the Spanish language.

Community workers must have the equivalency of a two-year work experience in the social service field, an undergraduate degree, and demonstrate proficiency in the Spanish language.

Law Enforcement Administration (Certificate), Certificate (PPLEAGRCT)

Online Degree Search Title: Law Enforcement Administration (Graduate Certificate)

Campus: Online

Program Description:

The graduate certificate program in law enforcement administration will prepare and enhance the work of law enforcement professionals by providing coursework in criminal justice organizations, policing and program analysis and in cross-disciplines such as public administration. The program is designed to give students a solid foundational understanding of law enforcement agency administration, leadership and policy analysis.

Degree Requirements:

15 credit hours.

Required Courses (12 credit hours)

CRJ 512 Seminar in Policing (3)
CRJ 516 Seminar in Criminal Justice Organization and Management (3)
CRJ 527 Police Accountability (3)
PAF 520 Public Management (3)

Electives (3 credit hours)

Culminating Experience: None Required

Additional Curriculum Information

Students should see the academic unit for the approved elective course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants who are nondegree-seeking students (not admitted to a graduate degree program at ASU) will be required to submit:

- graduate admission application and application fee
- official transcripts of undergraduate and graduate (if applicable) coursework
- a written statement of career and educational goals

- two letters of recommendation
- current resume
- proof of English proficiency

Applicants who are graduate degree-seeking students (admitted to a graduate program at ASU) will be required to submit:

- graduate admission application
- a written statement of career and educational goals

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students from related fields, such as public policy, political science, psychology, sociology, as well as other social science degrees, might be interested in this program; however, all eligible students are considered. Although most students would likely come from the aforementioned degree fields, there is no specific undergraduate degree major required for admission; the school accepts applicants with undergraduate degrees from all educational backgrounds.

There are no examinations required for admission to the certificate program.

Nonprofit Leadership and Management, MNLM (PPNPSMNS)

Online Degree Search Title: Nonprofit Leadership and Management, MNLM

Campus: Downtown Phoenix, Online

Program Description:

Offered through the School of Community Resources and Development, the MNLM program is intended for mid-level professionals who work or desire to work in the nonprofit sector at senior leadership and management levels. The program provides an opportunity to obtain an advanced degree that addresses the unique character of nonprofit organizations and the social sector.

Students explore both theory and the practice of leadership and management in the nonprofit sector. The degree allows graduates enhanced recognition and credentials similar to students who have graduate degrees in administration or management.

Degree Requirements:

33 credit hours including the required capstone course (NLM 620).

Required Core (18 credit hours)

NLM 510 The Nonprofit Sector (3)

NLM 520 Financial and Resource Management (3)

NLM 530 Program Evaluation and Information Management (3)

NLM 540 Strategic Human Resources Management (3) or NLM 545 Volunteer Resource Management (3)

NLM 550 Philanthropy (3)

NLM 620 Capstone: Critical Issues in Nonprofit Management (3)

Electives (15 credit hours)

Additional Curriculum Information

Students are required to take 18 credit hours of core coursework, of which three credit hours are a capstone course that is completed at the end of the program of study. The capstone course is integrative and case-based, allowing students to synthesize material from prior coursework. Successful completion of this course is required in place of a thesis or applied project.

Students complete 15 credit hours of related elective coursework. Students may petition for one three credit hour course not listed as an approved elective in their program of study as long as students can establish an intellectual and professional development objective that substantiates the

course selection. The petition should be submitted prior to enrollment in an elective.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- curriculum vitae or resume
- statement of educational and career goals
- three reference letters
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. International applicants are also required to submit TOEFL or IELTS scores and a financial guarantee statement.

The statement of educational and career goals should be written in sufficient detail to indicate compatibility with the educational objectives and capabilities of the school.

Reference letters should be from a combination of academic and professional references. References from friends and family members are not accepted.

Students currently pursuing the nonprofit leadership and management certificate who are interested in applying for the master's program must apply to the degree program before the completion of nine credit hours in their certificate program.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. Nonprofit Leadership and Management (certificate), Certificate (PPNONPROCE)

Online Degree Search Title: Nonprofit Leadership and Management (Graduate Certificate)

Campus: Downtown Phoenix, Online

Program Description:

The graduate certificate program in nonprofit leadership and management provides students with an understanding of the nonprofit sector's role in society and with knowledge applicable to those who wish to lead and manage nonprofit organizations. The objective of this program is to provide students from diverse academic backgrounds with exposure to content needed by leaders in the nonprofit sector, including the understanding of the historical and philosophical context for nonprofit organizations in society, the theory and practice of philanthropy, financial management practices and other topical content areas.

The certificate is ideal when combined with a graduate degree in another area and when used to provide a core concentration in nonprofit leadership and management.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

NLM 510 The Nonprofit Sector (3)

NLM 520 Financial and Resource Management (3)

NLM 540 Strategic Human Resources Management (3) or NLM 545 Volunteer Resource Management (3)

Electives (6 credit hours)

Additional Curriculum Information

Students select either NLM 540 or NLM 545 as part of the required core coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International applicants are also required to submit TOEFL or IELTS scores and a financial guarantee statement.

The program is available to students who are pursuing their graduate degree in a chosen field of study and who have expressed interest in pursuing careers in the nonprofit sector. In addition, the program is well suited for working professionals who may be pursuing a graduate degree but who wish to strengthen their skills and connections to the nonprofit community.

Applicants should see the College of Public Service and Community Solutions website for more information.

Participatory Governance (certificate), Certificate (PPPGOGRCT)

Online Degree Search Title: Participatory Governance (Graduate Certificate)

Campus: Downtown Phoenix, Tempe

Program Description:

This transdisciplinary certificate program in participatory governance provides students with the knowledge and skills to develop, implement and evaluate participatory governance programs and public engagement activities.

The program combines academic rigor with practical skills. Students examine the main theories and research findings on participatory governance and public engagement and familiarize themselves with past and current democratic innovations in the U.S. and around the world. Students also develop the capacity to design, carry out and examine processes of participatory governance and public engagement.

Students may pursue the program as a specialization within an existing ASU graduate program or as a stand-alone program.

The certificate program is administered by the School of Public Affairs.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

PAF 531 Community Conflict Resolution (3)

PAF 565 Theories and Practices of Democracy (3)

PAF 566 Participatory Governance and Civic Engagement (3)

Electives (6 credit hours)

Additional Curriculum Information

Electives are chosen from a list of preapproved courses and are selected with the faculty advisor. The faculty advisor directs the selection of the electives to ensure that they focus on a common theme and to see that the student's experiences in the courses align with the learning goals outlined for the certificate.

Students are required to maintain a minimum GPA of 3.00 (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of career and educational goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Students from related fields such as political science, planning, urban and metropolitan studies, sociology, as well as other social science degrees might be interested in this program. However, all eligible students are considered.

Students should see the program website for application deadlines.

Policy Informatics (Certificate), Certificate (PPPOIGRCT)

Online Degree Search Title: Policy Informatics (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The policy informatics certificate program provides knowledge and skills to students seeking careers in which they will use informatics tools, models and simulations to help individuals and groups deliberate and evaluate policy decisions as well as explore new governance infrastructures. Emphasis is placed on theories and research concerning decision-making, complexity theory and visualization of quantitative and qualitative information, collective intelligence, behavioral economics and persuasive technologies.

Policy informatics helps to advance evidence-driven policy design, wherein scientific models and analyses drive decision-making for resolution of complex policy challenges, dilemmas and problems. This is both an emerging field of research and a community of practice focusing on advancing decision-making in the public sector through information-centric analysis of evidence that leverages computational and technological advances. Professionals who use policy informatics are involved in designing, managing and evaluating information systems and infrastructures for policy construction, analysis and implementation.

Policy informatics advances the transdisciplinary nature of the public administration discipline by infusing it with the advances of information technology, management of information systems, and computational and informational science perspectives.

Degree Requirements:

15 credit hours.

Five courses are required for the certificate. Students should review the certificate requirements and required courses on the School of Public Affairs' website. Students are required to maintain a minimum GPA of 3.00 (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- a statement of career and educational goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa to first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. Campus: Downtown Phoenix, Online

Program Description:

The MS in program evaluation and data analytics is a professional degree program that emphasizes skills needed to leverage data to improve organizational performance in the public, nonprofit and private sectors. It combines courses in program evaluation with data science classes that

empower students to utilize a diverse array of tools to generate insights on social impact and leverage data in organizations.

Students receive training in data programming, visualization, dashboard design, open data, project management and impact analysis. Through this, students build the technical skills necessary to implement evidence-based approaches to policy and management.

Unlike other data scientist degrees, this program is built using public sector and nonprofit examples. Students do not need a background in computer programming before starting the degree. Through a project-based curriculum and individualized attention, students develop expertise in performance and evaluation frameworks.

Graduates are prepared to work as policy analysts, managers, chief data officers or evaluation specialists.

Degree Requirements:

33 credit hours including the required applied project course (CPP 593).

Required Core (24 credit hours)

CPP 523 Foundations of Program Evaluation I: Multiple Regression (3)

CPP 524 Foundations of Program Evaluation II: Research Design (3)

CPP 525 Foundations of Program Evaluation III: Advanced Regression Tools (3)

CPP 526 Foundations of Data Science I: Introduction to Data Programming in R (3)

CPP 527 Foundations of Data Science II: Data Wrangling (3)

CPP 528 Foundations of Data Science III: Project Management (3)

CPP 529 Data Analytics Practicum (3)

SWG 623 Program Evaluation (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

CPP 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a minimum of a bachelor's or master's degree in criminology and criminal justice, social work, public service, nonprofit management, parks and recreation management, tourism management, business, education, family studies, public health, psychology, or a related social and applied sciences field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- two letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/program-evaluation-and-data-analytics-ms/>)

Public Administration, EMPA (PPPUAEMPA)

Online Degree Search Title: Public Administration - Executive, EMPA

Campus: Online

Program Description:

The EMPA is designed for public sector leaders throughout the world.

The Executive Master of Public Administration is a 19-month, online graduate degree program which also features three-day face-to-face executive sessions in both Phoenix and Washington, D.C. Students participate in the program as part of a learning cohort, and the one-course-at-a-time online structure enables them to maintain a work and life balance as they immerse in each topic.

The learning experience begins with an orientation and executive session in Phoenix. Approximately one year later, the class reconvenes in Washington, D.C. for a second executive session. The executive master's degree program ends in Phoenix, where students present their applied projects.

The ASU Executive Master of Public Administration program enables students to expand the breadth and depth of their professional network. The online curriculum attracts a more geographically diverse pool of applicants from around the world. The executive sessions in Phoenix and Washington, D.C. further enable students to develop deeper relationships with their classmates.

Executive Master of Public Administration students are selected based on their ability to demonstrate the value they would add to the learning experience of the entire class, and a new cohort begins each year.

The program is a collaboration between the School of Public Affairs and the McCain Institute for International Leadership.

Degree Requirements:

30 credit hours including the required applied project course (PAF 593).

Required Core (27 credit hours)

PAF 504 Microeconomics of Public Policy I (3) or TGM 581 Negotiating in a Global Context (3)

PAF 508 Organization Behavior (3)

PAF 574 Diversity, Ethics, and Leading Public Change (3)

PAF 582 E-Public Administration (3)

PAF 585 Strategic Planning for Public Sector Leaders (3)

PAF 586 Data Analytics for the Public Good (3)

PAF 587 Federal Budgeting and Tax Policy (3)

PAF 588 Global Public Policy (3)

PAF 589 Leadership in Public Organizations (3)

Culminating Experience (3 credit hours)

PAF 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Exceptions to the GPA requirements may be considered based on the professional achievements demonstrated by the applicant as determined by

applicant's resume and other application materials. In addition to the GPA requirement, applicants are expected to have five to seven years of progressive leadership experience.

The personal statement must be 300 words or fewer and should include what experiences and qualities the student will bring to the EMPA program. The student must also discuss their career objectives and how they plan to leverage the EMPA to help achieve those objectives. In addition, applicants also may provide any supplementary information that would strengthen the personal statement.

Public Administration, MPA (PPPADTMPA)

Online Degree Search Title: Public Administration - Downtown Phoenix, MPA

Campus: Downtown Phoenix

Program Description:

The MPA is a transdisciplinary, professional degree program designed to prepare students for public service, public management and policy analysis at the local, state and national levels of government.

Students may elect to specialize in one of the four approved Master of Public Administration concentrations: urban management, nonprofit administration, emergency management or public finance.

The urban management concentration provides knowledge and skills for students seeking careers in local urban government management and enables students to develop the skills and techniques used by city and urban leaders and managers.

The concentration in nonprofit administration is intended for professionals who work in or desire to work in the nonprofit sector and who wish to explore research, theory and the practice of management and leadership in the nonprofit sector.

The concentration in emergency management prepares graduates for a challenging career as a professional emergency manager. This program allows students to focus on concerns related to emergency management within the larger field of public administration.

The concentration in public finance provides knowledge and skills for students seeking or advancing careers in areas in which financial management plays an integral role in governance. This concentration emphasizes theories and research concerning urban economics and public finance, managing money in the public sector, public budgeting and finance, and capital budgeting and financing.

In addition, the school offers concurrent programs in planning, sustainability, criminology and criminal justice, and social work. For admission and program requirements, students should see <https://spa.asu.edu/content/concurrent-degrees> (<https://spa.asu.edu/content/concurrent-degrees>).

Concurrent Degrees:

This degree is also offered as concurrent degree program with:

- American Indian Studies (Tribal Leadership and Governance), MS
- Criminology and Criminal Justice, MS
- Social Work - Standard Program, MSW
- Sustainability Solutions, MSUS
- Urban and Environmental Planning, MUEP

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Construction Management and Technology, BS
- Public Service and Public Policy, BS
- Public Service and Public Policy (American Indian Studies), BS
- Public Service and Public Policy (Business), BS
- Public Service and Public Policy (Criminology), BS
- Public Service and Public Policy (Emergency Management and Homeland Security), BS
- Public Service and Public Policy (Health Policy), BS
- Public Service and Public Policy (Law and Policy), BS
- Public Service and Public Policy (Nonprofit Leadership and Management), BS

Public Service and Public Policy (Parks and Recreation Management), BS

Public Service and Public Policy (Science and Technology Policy), BS

Public Service and Public Policy (Social Services Delivery), BS

Public Service and Public Policy (Sustainability), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

42 credit hours including the required capstone course PAF 509.

Required Core (24 credit hours)

PAF 501 Public Service Research I (3)

PAF 502 Public Service Research II (3)

PAF 503 Public Affairs (3)

PAF 504 Microeconomics of Public Policy I (3)

PAF 505 Public Policy Analysis (3)

PAF 506 Public Budgeting and Finance (3)

PAF 507 Public Human Resource Management (3)

PAF 508 Organization Behavior (3)

Electives or Research (15 credit hours)

Culminating Experience (3 credit hours)

PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives. Approved elective credit hours may include courses offered by the school or other academic units in the university.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field. Related fields include social science degrees, although the department may accept applicants with degrees from all educational backgrounds provided the minimum requirements for the degree program are met.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- verbal, quantitative and analytical scores on the GRE (institution code: 4007) or GMAT scores
- three letters of recommendation
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Additional requirements for international students are available at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

At least two of the three letters of recommendation should be from faculty members or other academic staff who can evaluate applicant's academic performance.

The written statement should be one to two pages in length and describe the applicant's educational and career goals. This statement is also used as a sample of the applicant's writing abilities.

Applicants also may submit a resume or other documents.

Fees increase after the deadline.

Students should contact the School of Public Affairs at 602/496-0450 or email spa@asu.edu (<mailto:spa@asu.edu>) if they have questions about the Academic Catalog Archive 2020-2021

application process.

Public Administration (Certificate), Certificate (PPPUAGRCT)

Online Degree Search Title: Public Administration (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

The graduate certificate program in public administration prepares students for work at all levels in governmental and nonprofit organizations.

Through comprehensive coverage of topics in public administration, management and policy, students discover the challenges of management, learn how to lead a public organization and understand the process of policy development. The program is designed to give students a solid foundational understanding of administration, leadership and policy analysis in service to the public good.

Degree Requirements:

15 credit hours.

Required Core (6 credit hours)

PAF 503 Public Affairs (3)

PAF 505 Public Policy Analysis (3)

Electives (9 credit hours)

Additional Curriculum Information

Electives are chosen from a list of preapproved courses and are selected with the faculty advisor. The faculty advisor directs the selection of the electives to ensure they focus on a common theme and to see that the student's experiences in the courses align with the learning goals outlined for the certificate. For the electives, the student must select any three 3-credit PAF courses at the 500-level. Students should note that PAF 504 is a prerequisite for PAF 505.

Students are required to maintain a minimum GPA of 3.00 (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of career and educational goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

Students from related fields such as public policy, political science, planning, urban and metropolitan studies, sociology, as well as other social science degrees might be interested in this program. However, all eligible students are considered.

Students should see the program website for application deadlines and admission terms.

Public Administration (Emergency Management), MPA (PPPAFEMPA)

Online Degree Search Title: Public Administration (Emergency Management), MPA

Campus: Downtown Phoenix

Program Description:

The MPA program with a concentration in emergency management provides students with the skills and knowledge to manage and assume positions of leadership within the field of emergency management.

An all-hazards and all-threats orientation provides the student with a generalist perspective, which is critically important for the disaster managers of today and tomorrow. In addition, this program examines community resilience from a systems perspective, embracing government, private, nonprofit and civic roles. The program provides an understanding of how community members respond to the need to prepare for, endure and recover from disasters and provides the ability to utilize multiple communication methods to help community members before, during and after these emergencies.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Public Service and Public Policy, BS
- Public Service and Public Policy (American Indian Studies), BS
- Public Service and Public Policy (Business), BS
- Public Service and Public Policy (Criminology), BS
- Public Service and Public Policy (Emergency Management and Homeland Security), BS
- Public Service and Public Policy (Health Policy), BS
- Public Service and Public Policy (Law and Policy), BS
- Public Service and Public Policy (Nonprofit Leadership and Management), BS
- Public Service and Public Policy (Parks and Recreation Management), BS
- Public Service and Public Policy (Science and Technology Policy), BS
- Public Service and Public Policy (Social Services Delivery), BS
- Public Service and Public Policy (Sustainability), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

42 credit hours including the required capstone course PAF 509.

Required Core (24 credit hours)

- PAF 520 Public Management (3)
- PAF 552 Integrated Emergency Management (3)
- PAF 555 Information Technology in Emergency Management (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)

PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field. Related fields include political science, criminology, planning, business, urban and metropolitan studies, and other social science fields. Although most students for the graduate concentration would likely come from the aforementioned degree fields, the department may accept applicants with undergraduate degrees from all educational backgrounds provided the minimum requirements for the degree program are met.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- statement of career and educational goals
- three letters of recommendation (two of which should be academic recommendations)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The following entry-level competencies are needed for admission the program: Students should have an undergraduate social statistics course such as PAF 301 Applied Statistics and undergraduate coursework in American national government such as POS 310 American National Government. Students may also satisfy the American national government competency by taking the College-Level Examination Program in American Government and receiving a passing score.

GRE verbal, quantitative and analytical scores are used as one of the indicators to see how competitive an applicant is within the applicant pool.

Students should see the program website for application deadlines.

The written statement should be one to two pages in length and describe the applicant's educational and career goals. This statement is also used as a sample of the applicant's writing abilities.

Students enrolling in Master of Public Administration core courses must demonstrate minimum competency in statistics and American government. Courses taken to fulfill the competency do not count toward the total credit hours required for the degree program. Completion of prerequisite courses is not a requirement for admission but must be completed within one semester after starting the program.

Competency in statistics is met with a grade of "B" (scale is 4.00 = "A") or higher in one of the approved courses (PAF 301 or PAF 401, POS 401, PSY 230, ECN 221, QBA 221, SWU 321, STP 226 or SOC 390) within the past two years or passing a diagnostic test approved by the MPA committee. Other courses taken within the last two years may be substituted upon approval of the Master of Public Administration director.

Competency in American government is a demonstrated understanding of American government institutions and processes. Students may be required to take an undergraduate class in American government (PAF 300, PAF 340, POS 110 or POS 310) with a grade of "B" or higher. The College-Level Examination Program can also be used to demonstrate competency in American government.

- PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in a related field, from a regionally accredited

institution. Related fields include political science, planning, business, urban and metropolitan studies, as well as other social science disciplines, although the department may accept applicants with degrees from all educational backgrounds provided the minimum requirements for the degree program are met.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- verbal, quantitative and analytical scores on the GRE (institution code: 4007) or GMAT scores
- three letters of recommendation
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Additional requirements for international students are located at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

At least two of the three letters of recommendation should be from faculty or other academic staff who can evaluate the applicant's academic performance.

The written statement should be one to two pages in length and describe the applicant's educational and career goals. This statement is also used as a sample of the applicant's writing abilities.

Applicants also may submit a resume or other documents.

Students should contact the School of Public Affairs at 602-496-0450 or email spa@asu.edu (<mailto:spa@asu.edu>) with any questions about the application process.

Public Administration (Urbanism), PHD (PPPAURBPHD)

Online Degree Search Title: Public Administration and Policy (Urbanism), PhD

Campus: Downtown Phoenix

Program Description:

The PhD in public administration and policy is a theoretically grounded research degree program designed to prepare students for an academic career. The program is also appropriate for individuals who want to conduct high-level research and policy development in public and nonprofit agencies, foundations and research institutes. It is designed for students who seek full-time study.

The goal is to develop well-rounded, independent scholars who are grounded in the classic and current literatures of public administration and public policy, skilled in research methods, and ready to make a positive and important contribution to the field through teaching and research.

The doctoral program in public administration and policy with an urbanism concentration permits students to draw upon the extensive resources in urban affairs at ASU. As a result, these students are poised for success as productive and active scholars, researchers and teachers upon graduation.

The concentration in urbanism is a mechanism for organizing varied perspectives on urbanism into a collective body of scholarship. The study of public administration is enriched by grounding it in a comprehensive understanding of the characteristics of urban context and the dynamic forces that shape them. The concentration in urbanism leverages the varied interests in urbanism and helps emerging scholars as they attempt to compare, contrast and take stock of urbanism. Working with faculty from across a range of departments and programs at ASU, doctoral students will be able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative, constructive kind of inquiry.

Degree Requirements:

90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (24 credit hours)

- PAF 601 Advanced Public Policy Seminar (3)
- PAF 602 Advanced Research Design for Public Policy and Management (3)
- PAF 603 Advanced Economics for Public Administration and Public Policy (3)
- PAF 604 Intellectual Foundations of Public Administration (3)
- PAF 605 Organization Theory and Behavior Seminar (3)
- PAF 609 Advanced Quantitative Methods Seminar (3)
- PAF 610 Advanced Qualitative Methods for Public Affairs Research (3)
- PAF 620 Public Administration Professional Development Workshop (3)

Concentration (3 credit hours)

- GCU 516 Principles of Urbanism (3)

Urbanism Electives (12 credit hours)**Research (3 credit hours)**

- PAF 792 Research (3)

Culminating Experience (12 credit hours)

- PAF 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree, in a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- completed checklist
- written statement
- current resume or curriculum vitae
- three letters of recommendation
- samples of research reports or papers
- scores on the GRE (verbal, quantitative, analytical)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must submit TOEFL scores to be considered for admission regardless of current residency (the ASU institution code is 4007). This is true even for those who have a master's degree from a United States university. To be considered for admission to the doctoral program in public administration and policy, the applicant's minimum score on a traditional TOEFL test must be 600; the minimum score for a TOEFL iBT must be 100. Applicants with scores below the minimum are not considered. More on the English proficiency requirement is available at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

The written statement of educational and career goals must include a discussion of research interests.

The letters of recommendation should be primarily from faculty members. All letters should address the candidate's capacity to successfully complete the doctoral program. They should assess the student's capacity for critical and analytic thought, ability to communicate effectively both orally and in writing, and commitment to completion of the program.

Only GRE test scores from within the past five years are accepted, and analytical scores are considered in admission decisions.

All applicants are expected to have completed graduate level statistics and research methods classes before admission. Applicants also are expected to have sufficient formal coursework in public administration to pursue doctoral study in the field. Admitted students are required to take PAF 501, PAF 502, PAF 503, PAF 504, PAF 508 (or their equivalents) and statistics prior to beginning the doctoral core courses. Applicants who are not pursuing an MPA should not take these courses until they consult with the doctoral program director.

Applicants are admitted for fall only. Admission is competitive; a limited number of well-qualified applicants will be admitted each year. Students should see the program website for application deadlines.

Public Administration and Policy, PHD (PPPUBADPHD)

Online Degree Search Title: Public Administration and Policy, PhD

Campus: Downtown Phoenix

Program Description:

The PhD in public administration and policy is a theoretically grounded research degree program designed to prepare students for a research-based career. The degree is appropriate for individuals who want to conduct high-level research and policy development in academic careers, public and nonprofit agencies, foundations and research institutes and for students who are committed to a four-year, full-time degree program.

This program is designed to develop well-rounded, independent scholars who are grounded in the classic and current literatures of public administration and public policy, skilled in research methods, and ready to contribute to the field through research and teaching. As a result, graduates are poised for success as productive and active scholars, researchers and teachers.

Degree Requirements:

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (24 credit hours)

PAF 601 Advanced Public Policy Seminar (3)
PAF 602 Advanced Research Design for Public Policy and Management (3)
PAF 603 Advanced Economics for Public Administration and Public Policy (3)
PAF 604 Intellectual Foundations of Public Administration (3)
PAF 605 Organization Theory and Behavior Seminar (3)
PAF 609 Advanced Quantitative Methods Seminar (3)
PAF 610 Advanced Qualitative Methods for Public Affairs Research (3)
PAF 620 Public Administration Professional Development Workshop (3)

Electives (15 credit hours)**Research (3 credit hours)**

PAF 792 Research (3)

Culminating Experience (12 credit hours)

PAF 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a master's degree from a regionally accredited institution.

ASU's School of Public Affairs expects applicants for the doctorate to have demonstrated competency in the following subject areas at the time of application: organizational theory, public policy analysis, economics and quantitative analysis.

Applicants who have obtained a master's degree accredited by the Network of Schools of Public Policy, Affairs and Administration in public affairs, public administration or public policy are not required to complete prerequisites for admission to ASU's School of Public Affairs. In some cases, applicants from allied fields (i.e., political science, economics, sociology, business) are not required to complete prerequisites, depending upon the extent to which previous training aligns with the competencies described above.

As is the case with all applicants, the doctoral program director or advisors may require or recommend completion of courses when there is a perceived deficit, especially if the deficit relates to graduate-level quantitative analysis and economics (PAF 502 and PAF 504, respectively, or equivalent courses). However, these requirements or recommendations, if any, are not a barrier to admission.

In cases where the doctoral student applicant has graduated from a public affairs, public administration or public policy program from another nation, or from a program not accredited by NASPAA, the applicant may be admitted and required to meet prerequisites after a review by the doctoral committee and doctoral program director.

Students applying with master's degrees from programs not closely related to public affairs (e.g., engineering, modern languages, chemistry) are required to meet prerequisites equivalent to the courses required for either ASU's Master of Public Administration or Master of Public Policy: <https://spa.asu.edu/content/graduate-programs> (<https://spa.asu.edu/content/graduate-programs>).

Prior to enrolling in any of the school's core classes, all students are expected to be familiar with the foundational competency readings related to organizational theory, public policy analysis, economics and quantitative analysis.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program and have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- completed checklist
- written statement
- current resume or curriculum vitae
- three letters of recommendation
- samples of research reports or papers
- GRE scores (verbal, quantitative, analytical)
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must submit TOEFL scores to be considered for admission regardless of current residency; applicants should use institution code: 4007. This is true even for those who have a master's degree from a United States university. To be considered for admission to the doctoral program in public administration and policy, the minimum score on a traditional TOEFL test is 600, the minimum score for a TOEFL iBT is 100. Applicants with scores below the minimum are not considered. More on the English proficiency requirement is available at <https://admission.asu.edu/international/graduate/english-proficiency> (<https://admission.asu.edu/international/graduate/english-proficiency>).

The written statement of educational and career goals must include a discussion of research interests.

The letters of recommendation should be primarily from faculty members. All letters should address the candidate's capacity to successfully complete the doctoral program. Public Policy, MPP (PPUBPMPP)

Online Degree Search Title: Public Policy, MPP

Campus: Downtown Phoenix

Program Description:

The MPP program allows students to approach the study of public policy with a focus on public policy in the urban setting. The master's degree program in public policy prepares students for professional careers as policy analysts and leaders in public service involved in the formulation, approval, implementation and evaluation of public policy at all levels of government and in the private and nonprofit sectors. The program can also serve as a platform for preparation for doctoral studies in public policy, public administration, urban studies and other related programs.

Students learn analytical techniques and conceptual frameworks for understanding policy issues and identifying potential solutions, and about applying these skills to real-world issues --- especially to the needs of cities in the region. Students also gain an understanding of policies addressing issues such as poverty, education, the environment and public safety

The program trains people to lead by making positive policy decisions, addressing the difficult questions associated with public policy and managing the process of policy creation, approval, implementation and evaluation. At the conclusion of the master's degree program, students are able to identify, analyze and interpret the challenges and dilemmas of public policies, especially those of urban areas. Students also are able to approach policy analysis with a variety of quantitative and qualitative methods and are prepared to develop innovative processes and tools to deal with changing realities of public policy and address issues on a global, regional and local scale.

Concurrent Degrees:

This degree is also offered as concurrent degree program with:

- Criminology and Criminal Justice, MS
- Sustainability Solutions, MSUS
- Urban and Environmental Planning, MUEP

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Public Service and Public Policy, BS
- Public Service and Public Policy (Business), BS
- Public Service and Public Policy (Criminology), BS
- Public Service and Public Policy (Emergency Management and Homeland Security), BS
- Public Service and Public Policy (Health Policy), BS
- Public Service and Public Policy (Law and Policy), BS
- Public Service and Public Policy (Nonprofit Leadership and Management), BS
- Public Service and Public Policy (Parks and Recreation Management), BS
- Public Service and Public Policy (Science and Technology Policy), BS
- Public Service and Public Policy (Social Services Delivery), BS
- Public Service and Public Policy (Sustainability), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

42 credit hours including the required capstone course PAF 509.

Required Core (27 credit hours)

- PAF 501 Public Service Research I (3)
- PAF 502 Public Service Research II (3)
- PAF 504 Microeconomics of Public Policy I (3)
- PAF 505 Public Policy Analysis (3)
- PAF 540 Advanced Policy Analysis (3)
- PAF 541 Program Evaluation (3)
- PAF 570 Microeconomics of Public Policy II (3)
- PAF 573 Applied Econometrics (3)
- PAF 574 Diversity, Ethics and Leading Public Change (3)

Electives (12 credit hours)

Culminating Experience (3 credit hours)

- PAF 509 Public Policy Capstone (3)

Additional Curriculum Information

Students enrolling in core Master of Public Policy courses must demonstrate minimum competency in statistics and American national government. Courses taken to fulfill competencies do not count toward the 42 credit hour degree program. Completion of prerequisite courses is not a

requirement for admission but must be completed within one semester after starting the program.

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate coursework
- verbal, quantitative and analytical scores on the GRE (institution code: 4007) or GMAT scores
- three letters of recommendation
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Additional requirements for international students are available at <https://admission.asu.edu/international/graduate-apply> (<https://admission.asu.edu/international/graduate-apply>).

At least two of the three letters of recommendation must be from faculty or other academic staff who can evaluate applicant's academic performance.

The one to two page written statement should state the applicant's educational and career goals and will also be used as a sample of the applicant's writing abilities.

Applicants may also submit a resume or other documents.

Fees increase after deadline.

Public Policy (Certificate), Certificate (PPPUPGRCT)

Online Degree Search Title: Public Policy (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

This certificate program in public policy prepares students for professional careers as policy analysts and leaders in public service who are involved in the formulation, approval, implementation and evaluation of public policy at all levels of government and in the private and nonprofit sectors. The program is designed to give students analytical techniques and conceptual frameworks for understanding policy issues as well as for identifying potential solutions and applying these skills to real-world issues.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

PAF 505 Public Policy Analysis (3)
PAF 540 Advanced Policy Analysis (3)
PAF 541 Program Evaluation (3)

Electives (6 credit hours)

Additional Curriculum Information

The electives are chosen from a list of preapproved courses and are selected with the faculty advisor. The faculty advisor directs the selection of the electives to ensure that they focus on a common theme and to see that the students' experiences in the courses align with the learning goals outlined for the certificate. For the electives, students select any two three-credit PAF courses that are 500-level. Students should note that PAF 504 is a prerequisite for PAF 505.

Students are required to maintain a minimum GPA of 3.00 (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of career and educational goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Students from related fields (e.g., public administration, political science, planning, urban and metropolitan studies, sociology, and other social science fields) might be interested in this program. However, all eligible students are considered.

Students should see the program website for application deadlines and admission terms.

Public Policy (Environmental Policy), MPP (PPPUPEPMPP)

Online Degree Search Title: Public Policy (Environmental Policy), MPP

Campus: Downtown Phoenix

Program Description:

The MPP program allows students to approach the study of public policy with a focus on public policy in the urban setting. The master's degree program in public policy prepares students for professional careers as policy analysts and leaders in public service involved in the formulation, approval, implementation and evaluation of public policy at all levels of government and in the private and nonprofit sectors. The program can also serve as a platform for preparation for doctoral studies in public policy, public administration, urban studies and other related programs.

Students learn analytical techniques and conceptual frameworks for understanding policy issues and identifying potential solutions and about applying these skills to real-world issues, especially to the needs of cities in a region. Students also gain an understanding of policies that address issues such as poverty, education, the environment and public safety.

The program trains people to lead by making positive policy decisions, addressing the difficult questions associated with public policy, and managing the process of policy creation, approval, implementation and evaluation. At the conclusion of the master's degree program, students are

able to identify, analyze and interpret the challenges and dilemmas of public policies, especially those of urban areas. Students also are able to approach policy analysis with a variety of quantitative and qualitative methods and be prepared to develop innovative processes and tools to deal with changing realities of public policy and address issues on a global, regional and local scale.

The concentration in environmental policy prepares students at the master's degree level to apply sustainability principles and approaches to careers in a variety of fields that address environmental and, inevitably, human challenges. Students acquire the knowledge base and skills to bring sustainability solutions to corporate, government and nonprofit sectors. The concentration program begins by building a foundation in environmental policy and theory through the core coursework, followed by electives that develop and deepen student expertise in specific areas and issues. The program is uniquely positioned to allow students to build careers in public policy analysis and administration, international development and nonprofit organizations

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Public Policy (Policy Informatics), MPP (PPPUPPIMPP)

Online Degree Search Title: Public Policy (Policy Informatics), MPP

Campus: Downtown Phoenix

Program Description:

The MPP program allows students to approach the study of public policy with a focus on public policy in the urban setting. The master's degree program in public policy prepares students for professional careers as policy analysts and leaders in public service involved in the formulation, approval, implementation and evaluation of public policy at all levels of government and in the private and nonprofit sectors. The program can also serve as a platform for preparation for doctoral studies in public policy, public administration, urban studies and other related programs.

Students learn analytical techniques and conceptual frameworks for understanding policy issues and identifying potential solutions and about applying these skills to real-world issues --- especially to the needs of cities in the region. Students also gain an understanding of policies addressing issues such as poverty, education, the environment and public safety.

The program trains people capable of leading by making positive policy decisions, addressing the difficult questions associated with public policy, and managing the process of policy creation, approval, implementation and evaluation. At the conclusion of the master's degree program, students are able to identify, analyze and interpret the challenges and dilemmas of public policies, especially those of urban areas. Students also are able to approach policy analysis with a variety of quantitative and qualitative methods and be prepared to develop innovative processes and tools to deal with changing realities of public policy and address issues on a global, regional and local scale.

The Master of Public Policy program with a concentration in policy informatics provides the knowledge and skills for students who seek careers that require them to use informatics tools, models and simulations to help individuals and groups deliberate and evaluate policy decisions and explore new governance infrastructures. This concentration emphasizes theories and research concerning decision-making, complexity theory and visualization of quantitative and qualitative information, collective intelligence, behavioral economics and persuasive technologies.

The concentration combines mastery of advanced methods for processing information with domain expertise that can help humans understand complex social phenomena and achieve goals within public and governance applications. The program's design responds to the need for professionals with domain knowledge who can take a problem-driven, system-level, user-oriented perspective in developing and applying informatics systems to address societal and governance needs.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- verbal, quantitative and analytical scores on the GRE (institution code: 4007) or GMAT scores
- three letters of recommendation
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Additional requirements for international students are at <https://admission.asu.edu/international/graduate-apply> (<https://admission.asu.edu/international/graduate-apply>).

At least two of the three letters of recommendation should be from faculty or other academic staff who can evaluate applicant's academic performance.

The written statement should be one to two pages in length and describe the applicant's educational and career goals. This statement is also used as a sample of the applicant's writing abilities.

Applicants may also submit a resume or other documents.

Application fees increase after deadline; students should see <https://admission.asu.edu/graduate/apply> (<https://admission.asu.edu/graduate/apply>).

Students should contact the School of Public Affairs at 602/496-0450 or email spa@asu.edu (<mailto:spa@asu.edu>) with any questions about the application process.

Public Policy (Science and Technology Policy), MPP (PPPUPSTMPP)

Online Degree Search Title: Public Policy (Science and Technology Policy), MPP

Campus: Downtown Phoenix, Tempe

Program Description:

The MPP program allows students to approach the study of public policy with a focus on public policy in the urban setting. The master's degree program in public policy prepares students for professional careers as policy analysts and leaders in public service involved in the formulation, approval, implementation and evaluation of public policy at all levels of government and in the private and nonprofit sectors. The program can also serve as a platform for preparation for doctoral studies in public policy, public administration, urban studies and other related programs.

Students learn analytical techniques and conceptual frameworks for understanding policy issues and identifying potential solutions and about applying these skills to real-world issues --- especially to the needs of cities in the region. Students also gain an understanding of policies addressing issues such as poverty, education, the environment and public safety.

The program trains people to lead by making positive policy decisions, addressing the difficult questions associated with public policy, and managing the process of policy creation, approval, implementation and evaluation. At the conclusion of the master's degree program, students are able to identify, analyze and interpret the challenges and dilemmas of public policies, especially those of urban areas. Students also are able to approach policy analysis with a variety of quantitative and qualitative methods and be prepared to develop innovative processes and tools to deal with changing realities of public policy and address issues on a global, regional and local scale.

The Master of Public Policy program with a concentration in science and technology policy provides knowledge and skills for students seeking or advancing careers in areas where science and technology are guided by public policy or where science and technology play an integral role in the policy process. This concentration emphasizes theories and research concerning the role of science in decision-making, complexity theory, institutional design of knowledge production organizations, national innovation systems, innovation and industrial policy, technology transfer and research evaluation.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Public Service and Public Policy, BS
- Public Service and Public Policy (American Indian Studies), BS
- Public Service and Public Policy (Business), BS
- Public Service and Public Policy (Criminology), BS
- Public Service and Public Policy (Emergency Management and Homeland Security), BS
- Public Service and Public Policy (Health Policy), BS
- Public Service and Public Policy (Law and Policy), BS
- Public Service and Public Policy (Nonprofit Leadership and Management), BS
- Public Service and Public Policy (Parks and Recreation Management), BS
- Public Service and Public Policy (Science and Technology Policy), BS
- Public Service and Public Policy (Social Services Delivery), BS
- Public Service and Public Policy (Sustainability), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

42 credit hours including the required capstone course (PAF 509).

Required Core (27 credit hours)

- PAF 501 Public Service Research I (3)
- PAF 502 Public Service Research II (3)
- PAF 504 Microeconomics of Public Policy I (3)
- PAF 505 Public Policy Analysis (3)
- PAF 540 Advanced Policy Analysis (3)
- PAF 541 Program Evaluation (3)
- PAF 570 Microeconomics of Public Policy II (3)
- PAF 573 Applied Econometrics (3)
- PAF 574 Diversity, Ethics and Leading Public Change (3)

Concentration (6 credit hours)

- HSD 501 Science and Technology Policy (3)
- PAF 591 Topic: Innovation Policy (3)

Restricted Electives (6 credit hours)**Culminating Experience (3 credit hours)**

- PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Students enrolling in core Master of Public Policy courses must demonstrate minimum competency in statistics and American national government. Courses taken to fulfill competencies do not count toward the 42 credit hour degree program. Completion of prerequisite courses is not a requirement for admission but must be completed within one semester after starting the program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- verbal, quantitative and analytical scores on the GRE (institution code: 4007)
- three letters of recommendation
- written statement

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. Additional requirements for international students are at <https://admission.asu.edu/international/graduate-apply> (<https://admission.asu.edu/international/graduate-apply>).

Applicants may also submit a resume or other documents.

At least two of the three letters of recommendation should be from faculty or other academic staff who can evaluate applicant's academic performance.

The written statement should be one to two pages and describe the applicant's educational and career goals. The written statement is also used as a sample of the applicant's writing abilities.

PAF 544 Urban Policy (3)

Electives or Research (6 credit hours)

Culminating Experience (3 credit hours)
PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information

Students choose two courses from ESS 510, PAF 534, PAF 571, PUP 525 or an internship as approved by the academic unit for the electives or research credits. Internship must be 584 course number.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field. Related fields include social science disciplines, although the department may accept applicants with undergraduate degrees from all educational backgrounds provided they meet the minimum requirements for the degree program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- GRE scores
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

At least two of the three letters of recommendation should be from faculty or other academic staff who can evaluate the applicant's academic performance.

The written statement should be one to two pages and describe the applicant's educational and career goals.

The following entry-level competencies are needed for admission to the program: an undergraduate social statistics course such as PAF 301 Applied Statistics and undergraduate coursework in American national government such as POS 310 American National Government. Students may also satisfy the American national government competency by receiving a passing exam score in American Government through the College-Level Examination Program.

Students can complete deficiency classes prior to admission to the program or within their first semester after admission. Courses taken to satisfy entry-level competencies cannot be used toward the completion of the Master of Public Policy degree.

SWG 693 Applied Project (3)

Additional Curriculum Information

Students on the 51, 54 and 57 credit hour path have an undergraduate CSWE accredited BSW in Social Work degree or BA in Community Advocacy and Social Policy degree. Path selection depends on the student's educational background. Students are to consult an academic advisor in the unit.

The 60-hour Advanced Generalist Track is the digital immersion option. These students have a bachelor's or master's degree from a regionally accredited institution. Students in the 60 hour path must take foundation year coursework in restricted electives per CSWE accreditation standards.

All credit hour path criteria must be approved by the academic unit prior to selection in the iPOS. A student interested in moving to a concentration should notify the academic advisor prior to submitting their iPOS. The academic unit advises and monitor students to ensure they choose the appropriate coursework.

The number of credit hours required for restricted electives depends on the credit hour path chosen and the culminating experience. Students should see the academic unit for a complete list of approved electives.

The foundation year includes basic courses in direct practice, organizational and community change, social policy, human behavior and research. Foundation coursework is selected in consultation with the academic advisor. Students are required to complete two practicums: a foundation field placement (480 hours) and a specialization field placement (480 hours) in a different setting.

Other requirement coursework may be substituted with approval of the academic unit.

The program may be completed within four semesters (full time) or six semesters (part time).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a closely related field from a regionally accredited institution. All applicants are required to have completed a course in human biology and a course in statistics before enrolling in the graduate program or before registering for SWG 519.

The School of Social Work requires one of the following:

- undergraduate degree with 30 credit hours in liberal arts courses at the undergraduate or graduate level
- Bachelor of Social Work from a Council on Social Work Education-accredited school of social work
- liberal arts undergraduate degree

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate work
- three letters of reference
- professional resume that includes volunteer and paid work experience
- statement of educational and career goals
- signed standards of ethical and professional behavior form
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A combination of academic and professional references is desirable. References from friends, family members or personal therapists are not accepted. At least one of the three required references must be from the applicant's BSW field instructor or, if employed in a social work-related job for two or more years, a recommendation from the applicant's supervisor.

Professional resume should include both work and volunteer experience in social service organizations. In order to be considered for possible admission, applicants who do not have work experience in social service organizations are required to have a minimum of 240 hours of volunteer experience in the social services over a six-month period in the five years immediately preceding application.

Guidelines for writing the statement of educational and career goals can be found at <https://socialwork.asu.edu/content/msw-application-proceduresmaterials> (<https://socialwork.asu.edu/content/msw-application-proceduresmaterials>).

Test scores from either the GRE or the Miller Analogies Test are required only if the applicant's junior and senior GPA was below a 3.20 (scale is Academic Catalog Archive 2020-2021

4.00 = "A").

Students should see the program website for application deadlines.

Part-time Program

Students interested in this option must specifically apply to the part-time program and complete it in accordance with the plan developed to finish the degree in three years.

Transfer Credit

Any transfer work will be reviewed and approved in accordance with Graduate College policy. Transfer work must have been completed within three years of the semester and year of admission to the Master of Social Work degree program at ASU with a grade of "B" (3.00 on a 4.00 scale) or better.

Exemptions

Courses must have been completed within three years of the admit term of the MSW in Social Work degree. Grades received must be an A- or better. A letter of good standing is required from the institution where students have taken the coursework. Course equivalencies from outside of ASU are reviewed by the MSW Program Coordinator. Courses identified as required core and culminating experiences in the breakdown of requirements cannot be substituted.

Concurrent degrees are currently unavailable for the online Master of Social Work degree program.

Students should contact the School of Social Work with any questions about the application process.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/graduate/master-social-work-social-work/>)

Social Work, PHD (PPSW2PHD)

Online Degree Search Title: Social Work, PhD

Campus: Downtown Phoenix

Program Description:

The purpose of the PhD program in social work is to train future social work scholars, social work professionals engaged in research, teaching and service.

Supplementary to the coursework, this doctoral program offers students opportunities to be actively involved in both research and teaching. Students benefit from the close mentorship of the committed faculty and regular partnerships with many internal research centers and offices. Students also receive valuable opportunities to develop a teaching portfolio, positioning them to succeed in academic careers.

Graduates are prepared to enter careers in applied research that enhance human well-being, particularly among oppressed and vulnerable populations, and to educate the next generation of social workers.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Social Work Courses (12 credit hours)

Research Methods and Statistics (12 credit hours)

Directed Electives (9 credit hours)

Theory (3 credit hours)

Research (12 credit hours)

SWG 792 Research (12)

Culminating Experience (12 credit hours)

SWG 799 Dissertation (12)

Additional Curriculum Information

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. The doctoral program requires students to take a minimum of 36 course credit hours beyond the MSW in addition to the required 24 credit hours of research and dissertation; 84 credit hours are required beyond the bachelor's degree. Students may need to take additional coursework to achieve the competency requirements set by the program or set by their graduate supervisory committees.

Students develop their plan of study in consultation with the graduate supervisory committee. Required social work courses must be 700 level and approved by the doctoral program committee. Students should see the academic unit for approved course lists and other requirements for research methods and statistics courses, electives, and theory coursework.

Once the 36 minimum course credit hours are completed, students are required to register for 12 hours of SWG 792 Research before the defense of the prospectus and 12 hours of SWG 799 Dissertation after the prospectus defense. Students must be registered for at least one credit hour during the semester (including summer) when they do their dissertation proposal defense. At least one of the dissertation hours must be taken in the semester the student expects to defend his or her dissertation.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in social work or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate work
- curriculum vitae or resume
- GRE scores
- personal statement
- three letters of reference
- required writing sample: social problem essay
- optional writing sample
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Admission to the doctoral program in the School of Social Work is based on the following criteria:

- an MSW from an accredited school of social work, preferably with two or more years of post-degree employment in human services
- experience in social work teaching or research and other scholarly activities
- experience with diverse populations
- goodness-of-fit with program goals
- good professional standing
- undergraduate and graduate GPA
- quality and extensiveness of social work experience
- research potential and creativity as demonstrated in requested essays and references
- scores of the GRE, with emphasis on verbal and analytic scores

Though an MSW is preferred, exceptions may be made for students with a BSW from an accredited school of social work and a master's degree in a related field and for students from countries without accreditation.

Guidelines for writing the statement can be found at <https://socialwork.asu.edu/content/application-and-admission> (<https://socialwork.asu.edu/content/application-and-admission>) under PhD Application and Admission Information.

Applicants have the option of submitting a sample of their written work. Examples include a referred journal article, a class paper and a professional report such as one might write in an agency setting. The writing sample should illustrate the applicant's ability to succeed in the doctoral program.

Guidelines for writing the statement can be found at <https://socialwork.asu.edu/content/application-and-admission> (<https://socialwork.asu.edu/content/application-and-admission>).

All required admission materials are submitted directly to Graduate Admission Services at <https://admission.asu.edu/graduate> (<https://admission.asu.edu/graduate>). Students should contact the School of Social Work at 602-496-0800 with any questions about the application process.

Students should see the program website for application deadlines.

Social Work (Advanced Direct Practice), MSW (PPAPDTMSW)

Online Degree Search Title: Social Work - Advanced Standing - Direct Practice, MSW

Campus: Downtown Phoenix, Tucson

Program Description:

This program is accredited by the Council on Social Work Education.

The advanced direct practice concentration consists of three specializations that prepare students for professional practice with diverse populations in a wide variety of settings.

Across all specializations, the curriculum is guided by the social work values that emphasize evidence-based practice, client strengths, social justice and client empowerment. The primary MSW curriculum goal is to educate advanced social work practitioners who demonstrate the knowledge, skills, values and ethics of the profession and who are competent for specialized practice.

Degree Requirements:

39 credit hours including the required capstone course (SWG 621), or 51 credit hours including the required capstone course (SWG 621), or 60 credit hours including the required capstone course (SWG 621), or 60 credit hours including the required capstone course (SWG 621) (MSW/MPA concurrent degree) .

Required Core (3 credit hours)

SWG 510 Foundation Practice I (3) or

SWG 514 Bridge Seminar I (3)

Advanced Direct Practice Concentration (12 credit hours)

SWG 606 Assessment of Mental Disorders (3)

SWG 619 Practice-Oriented Research (3)

SWG 641 Advanced Practicum: Direct Practice I (3)

SWG 642 Advanced Practicum: Direct Practice II (3)

Specialization (6 credit hours)

Restricted Electives (15 to 36 credit hours)

Culminating Experience (3 credit hours)

SWG 621 Integrative Seminar (3)

Additional Curriculum Information

Students on the 39 credit hour path have an undergraduate Council on Social Work Education accredited BSW in Social Work or equivalent degree within a 3.20 Jr/Sr GPA within the last 6 years.

>Students on the 51 credit hour path have an undergraduate CSWE accredited BSW in Social Work degree.

The students on the 60 hour path have an undergraduate degree that is not directly in social work or community advocacy. Students in this path may need to take foundation coursework as part of their elective coursework to satisfy CSWE requirements. Students should see the academic advisor when selecting courses.

All credit hour path criteria must be approved by the academic unit prior to selection in the iPOS. The academic unit will advise and monitor students to ensure they choose the appropriate coursework. Core course selection will depend on the student's background.

Students select from specializations in:

- children, youth and families
- health, behavioral health
- public child welfare

The amount of restricted elective coursework depends on the credit hour path selected based on the student's background. Students should see the academic unit for a complete list of approved specialization and elective coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants must have a BSW from a Council on Social Work Education-accredited program with a minimum GPA of 3.20 (scale is 4.00 = "A") in the last two years of work leading to the Bachelor of Social Work (junior and senior GPA). Applicants must have received their Bachelor of Social Work degree no more than six years prior to the date of admission to the MSW program. All applicants are required to have completed a course in human biology and a course in statistics before enrolling in the advanced standing program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate work
- three letters of reference
- professional resume that includes volunteer and paid work experience
- statement of educational and career goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

A combination of academic and professional references is desirable. References from friends, family members or personal therapists are not accepted. At least one of the three required references must be from the applicant's BSW field instructor, or if employed in a social work-related job for two or more years, a recommendation from the applicant's supervisor.

Guidelines for writing the statement can be found at <https://socialwork.asu.edu/content/msw-application-proceduresmaterials> (<https://socialwork.asu.edu/content/msw-application-proceduresmaterials>).

Applicants should see the program website for application deadlines.

Social Work (Planning, Administration and Community Practice), MSW (PPCPDTMSW)

Online Degree Search Title: Social Work - Advanced Standing - (Planning, Administration and Community Practice), MSW

Campus: Downtown Phoenix, Tucson

Program Description:

The policy, administration and community practice program prepares professional social workers for leadership in social change. Graduates work for social justice and human rights through building sustainable systems that support peoples' social well-being, often by addressing the root causes of social problems and by reforming unjust policies. The policy, administration and community practice roles include program planning and evaluation; policy development and analysis; political advocacy and lobbying; organizational leadership, management and supervision; community development, organizing and social movement building.

Students learn skills to intervene across the macro level of society: in systems, institutions, agencies, organizations, laws, policies, programs and

communities. Students complete a practicum in government, nonprofit, social service, advocacy and research agencies.

The policy, administration and community practice program is accredited by the Council on Social Work Education and certified by the Network for Social Work Management.

Degree Requirements:

39 credit hours and a portfolio, or 39 credit hours and a thesis, or 51 credit hours and a portfolio, or 51 credit hours and a thesis, or 60 credit hours and a portfolio, or 60 credit hours and a portfolio (MSW/MPA concurrent degree), or 60 credit hours and a thesis, or 60 credit hours and a thesis (MSW/MPA concurrent degree).

Required Core (3 credit hours)

SWG 510 Foundation Practice I (3) or

SWG 514 Bridge Seminar I (3)

Planning, Administration and Community Practice Concentration (21 credit hours)

SWG 623 Program Evaluation (3)

SWG 632 Policy Practice (3)

SWG 643 Advanced Practicum: Planning, Social Work Administration and Community Practice I (3)

SWG 644 Advanced Practicum: Planning, Social Work Administration and Community Practice II (3)

SWG 681 Social Work Administration (3)

SWG 682 Community Participation Strategies (3)

SWG 685 Program Planning in Social Services (3)

Electives (9 to 36 credit hours)

Culminating Experience (0 or 6 credit hours)

SWG 599 Thesis (6) or

portfolio (0)

Additional Curriculum Information

Students on the 39 credit hour path have an undergraduate Council on Social Work Education accredited BSW in Social Work or equivalent degree with a 3.20 Jr/Sr GPA within the last 6 years.

Students on the 51 credit hour path have an undergraduate CSWE accredited BSW in Social Work degree.

The 60 credit hour path students have an undergraduate degree that is not directly in social work or community advocacy. Students in this path may need to take foundation coursework as part of their elective coursework to satisfy CSWE requirements. Students should see the academic advisor when selecting courses.

All credit hour path criteria must be approved by the academic unit prior to selection in the iPOS. The academic unit advises and monitors students to ensure they choose the appropriate coursework. Core course selection depends on the student's background.

Students complete a practicum and choose one of the culminating experiences above. The amount of elective coursework allowed depends on the credit hour path chosen and the culminating experience selected. Electives may be selected from offerings at the School of Social Work or from courses offered through other departments with the approval of the MSW program coordinator.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants must have a BSW from a Council on Social Work Education-accredited program, with a minimum GPA of 3.20 (scale is 4.00 = "A") in the last two years of work leading to the Bachelor of Social Work (junior and senior GPA). Applicants must have received their Bachelor of Social Work degree no more than six years prior to the date of admission to the Master of Social Work program. All applicants are required to have completed a course in human biology and a course in statistics before enrollment in the advanced standing program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts of all undergraduate and graduate work
- three letters of reference
- professional resume that includes volunteer and paid work experience
- statement of educational and career goals
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Sustainable Tourism, MAS (PPSUSTMAS)

Online Degree Search Title: Sustainable Tourism, MAS

Campus: Online

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program Description:

Students in the MAS degree program in sustainable tourism receive a comprehensive education with a focus on the environmental, economic and social aspects of tourism, equipping them with the skills necessary to create pioneering sustainable development solutions to the challenges facing tourism today.

This holistic curriculum focuses on integrating all three pillars of sustainability into existing tourism theories and concepts. The program prepares future sustainable tourism professionals to meet the increasing demand for people trained in sustainability practices and the application of those practices in tourism.

The program is offered by the School of Community Resources and Development.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Tourism Development and Management, BS
- Tourism Development and Management (Resort and Hotel Leadership), BS
- Tourism Development and Management (Sustainable Tourism), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

31 credit hours including the required applied project course (TDM 593).

Required Core (24 credit hours)

- CRD 569 Advanced Tourism and Recreation Studies (3)
- TDM 520 Sustainable Thinking in Tourism I (3)
- TDM 521 Sustainable Thinking in Tourism II (3)
- TDM 530 Sustainable Tourism Destination Planning and Management I (3)
- TDM 531 Sustainable Tourism Destination Planning and Management II (3)
- TDM 540 Sustainable Food Management in Tourism (3)
- TDM 550 Managing the Sustainable Tourism Business (3)
- TDM 570 Sustainable Tourism (3)

Electives (3 credit hours)

Culminating Experience (4 credit hours)

- TDM 593 Applied Project (4)

Additional Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field such as tourism, hospitality, sustainability, environmental studies, business, geography or planning from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The online application requires three letters of recommendation; these should be from current or former employers, current or former faculty members, or others who are familiar with the applicant's scholarly and professional abilities and characteristics. Required are the names, email addresses, titles and organizations from whom the student is requesting recommendations. The three recommenders will be emailed a link to complete an online recommendation form.

Trauma and Bereavement (certificate), Certificate (HSCTBGRCT)

Online Degree Search Title: Trauma and Bereavement (Graduate Certificate)

Campus: Downtown Phoenix

Program Description:

There is a growing need in society for health care workers and clinicians to be better prepared to help clients and patients experiencing trauma.

The School of Social Work graduate certificate program in trauma and bereavement prepares individuals to work in the field of death and dying as well as with trauma and bereavement in clinical, organizational and administrative settings. The program provides students with enhanced knowledge about grief responses and the effects of trauma. Students have opportunities to research an often under-explored topic while helping transform the sociopolitical management of grief, traumatic losses and end-of-life issues in contemporary society.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

SWG 577 Traumatic Death: Theory, Counseling and Practice (3)

SWG 612 Social Work with Groups (3)

SWG 626 Crisis Intervention and Short-Term Treatment (3)

Students select one of the following as part of the core:

SWG 541 Field Practicum I (3)

SWG 542 Field Practicum II (3)

SWG 641 Advanced Practicum: Direct Practice I (3)

SWG 642 Advanced Practicum: Direct Practice II (3)

SWG 645 The Professional Experience III (3)

SWG 646 The Professional Experience IV (3)

Electives (3 credit hours)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in fields such as psychology, sociology and social work.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- School of Social Work certificate application
- three references
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

The personal statement, resume, School of Social Work certificate application (available on the department website) and three references (forms available on the department webpage) should be submitted to the School of Social Work.

The personal statement must be two to four pages, doubled-spaced; additional guidelines are listed on the application.

No more than two certificate courses may be completed before applying for admission to the certificate program.

Students should see the program website for application deadlines.

Advanced Analytics in Higher Education, Certificate (TEAAHEGRCT)

Online Degree Search Title: Advanced Analytics in Higher Education (Graduate Certificate)

Campus: Tempe, Online

Program Description:

The graduate certificate program in advanced analytics in higher education prepares professionals to conduct the advanced analytics needed to support data-driven decision-making in all academic and operational areas of higher and postsecondary education.

The coursework addresses the application of data mining, predictive analytics, sentiment analysis and data visualization techniques to higher education-specific problems with the goal of preparing individuals at all levels to use data in their decision-making processes. Through real-world projects using commonly used tools, students apply the knowledge and skills learned while gaining an understanding of the security and ethical considerations of analytics.

Degree Requirements:

15 credit hours.

Required Core (15 credit hours)

- HED 603 Foundation of Data Analytics in Higher Education (1)
- HED 604 Analytics Process and Technology in Higher Education (2)
- HED 605 Data Management and Preparation for Higher Ed Analytics (3)
- HED 606 Advanced Analytic Methods for Higher Education (3)
- HED 607 Visualization and Presentation for Higher Education (3)
- HED 608 Trends in Advanced Analytic Methods for Higher Education (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply if they have earned a minimum of a bachelor's degree (business, economics, education, psychology or equivalent) or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- personal statement describing the applicant's interests and reason for seeking this certificate
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants are required to have at least one year working in an education-related field and have taken at least one graduate or undergraduate statistics course, finishing with a grade of "B" (scale is 4.00 = "A") or better.

An Overview of Autism Spectrum Disorders (certificate), Certificate (EDSPEGRCA)

Online Degree Search Title: An Overview of Autism Spectrum Disorders (Graduate Certificate)

Campus: Online

Program Description:

The graduate certificate in autism spectrum disorders is ideal for educators, interventionists, paraprofessionals, psychologists, behavior analysts and family members who want to enhance their preparation for working with children and adults affected with autism spectrum disorder.

The online program can benefit those interested in the fields of teaching, counseling, social work, speech pathology, various fields of therapy and any area that provides services to individuals on the autism spectrum.

Students can complete the graduate certificate within a two-year period while concurrently pursuing a graduate degree or they can complete it as a stand-alone certificate. Students interested in sitting for the national Board Certified Behavior Analyst exam should apply for the MA in special education with a concentration in applied behavior analysis or the applied behavior analysis graduate certificate, depending on interest and need.

Degree Requirements:

15 credit hours.

Required Core (9 credit hours)

SPE 521 Foundations of Autism Spectrum Disorders (3)

SPE 525 Measurement, Data Display, Interpretation and Experimental Data (3)

SPE 540 Family-Centered Practices (3)

Restricted Electives (6 credit hours)

SPE 520 Verbal Behavior (3)

SPE 527 Behavior Analytic Assessment (3)

SPE 541 Consultation Frameworks and Issues (3)

SPE 560 Behavior Change Procedures: Implementing Interventions in Behavior Analysis (3)

SPE 564 Controversial Therapies; Science, Fad and Pseudoscience in Educational Settings (3)

SPE 566 Applied Behavior Analysis in Inclusive Settings (3)

SPE 567 Ethics of Applied Behavior Analysis (3)

SPE 598 Special Topics (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

GRE scores are not required for admission.

Applied Behavior Analysis (Certificate), Certificate (TEABAGRCT)

Online Degree Search Title: Applied Behavior Analysis (Graduate Certificate)

Campus: Online

Program Description:

The graduate certificate program in applied behavior analysis pairs research and experience to prepare professionals to work with individuals with special learning and behavior needs using the principles of applied behavior analysis.

Applied projects and assignments allow students to focus on the population with which they plan to work, while gaining the knowledge and skills to use applied behavior analysis across various populations and settings. Graduates are well prepared to provide applied behavior analysis and evidence-based consultative services and support to clients, community and family members across a variety of settings.

Mary Lou Fulton Teachers College offers university coursework verified by the Association for Behavior Analysis International as meeting the coursework requirements for eligibility to take the Board Certified Behavior Analyst® examination. Once certified, these professionals are equipped to meet diverse behavior needs and make a lasting difference in the community. The course sequence meets the Behavior Analyst Certification Board-required 315 classroom hours of graduate-level instruction aligned with the BCBA/BCaBA task list (fifth edition). BCBA supervised independent fieldwork supervision hours, required for certification, is arranged and completed by the student separately from their ASU coursework. An optional remote supervised independent fieldwork practicum (SPE 580 Applied Behavior Analysis Practicum) is available. Students seeking the master's degree as well as the verified university coursework to sit for the BCBA exam should apply to the MA program in Special Education (Applied Behavior Analysis).

Degree Requirements:

21 credit hours.

Required Core (21 credit hours)

SPE 525 Measurement, data display, Interpretation and Experimental Design(3)

SPE 526 Concepts and Principles of Applied Behavior Analysis (3)

SPE 527 Behavior Analytic Assessment (3)

SPE 560 Behavior change Procedures: Implementing Interventions in Behavior Analysis (3)

SPE 562 Personnel Supervision and Organizational Behavior Management in Educational Settings (3)

SPE 563 Philosophical Foundations of Applied Behavior Analysis in Educational Settings (3)

SPE 567 Ethics of Applied Behavior Analysis (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency

Additional Application Information

Curriculum and Instruction (Teaching and Learning), MEd (EDDCIMED)

Online Degree Search Title: Teaching and Learning, MEd

Campus: Online

ASU is not currently accepting applications for this program.

Program Description:

The MEd program in curriculum and instruction with a concentration in teaching and learning facilitates the development of advanced-level professional knowledge, skills and understanding through research and applied experiences. The program provides an avenue for developing skills in designing learning environments for students.

Degree Requirements:

30 credit hours including the required applied project course (SPE 593), or 30 credit hours including the required capstone course (SPE 597).

Students complete 30 credit hours in their focus area and a culminating project to be embedded within a course.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

Curriculum and Instruction (Applied Behavior Analysis), MEd (TEABAMED)

Online Degree Search Title: Curriculum and Instruction (Applied Behavior Analysis), MEd

Campus: Online

ASU is no longer accepting new students to this program. Students interested in an online applied behavior analysis program with coursework verified for the Board Certified Behavior Analyst examination should see the MA in Special Education (Applied Behavior Analysis) (<https://webapp4-qa.asu.edu/programs/t5/majorinfo/ASU00/TESPEABAMA/graduate/false>).

Program Description:

The MEd in curriculum and instruction with a concentration in applied behavior analysis pairs research and experience to prepare professionals to use the principles of applied behavior analysis to work with individuals with special learning and behavior needs.

The coursework prepares students to use applied behavior analysis to address a variety of learning and behavior needs across a range of professions and settings. All courses are online, combining a range of resources and technologies to provide students the opportunity to interact directly with program faculty and classmates. Program graduates are well-prepared to provide applied behavior analysis and evidence-based consultative services and support to clients, community and family members across a variety of settings.

The Mary Lou Fulton Teachers College offers university coursework preapproved by the Behavior Analyst Certification Board for students interested in sitting for the Board Certified Behavior Analyst examination. Professionals with this certification are equipped to meet diverse behavior needs and make a lasting difference in the community. The course sequence meets the BACB-required 270 classroom hours of graduate-level instruction aligned with the fourth edition task list. BCBA supervision hours, required for certification, are arranged and completed by the student separately from ASU coursework. Students not seeking the master's degree but interested in only the preapproved university coursework for the BCBA exam

may apply to the applied behavior analysis graduate certificate.

Degree Requirements:

30 credit hours including the required capstone course (SPE 597).

Concentration (24 credit hours)

Research (3 credit hours)

Culminating Experience (3 credit hours)

SPE 597 Capstone Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Curriculum and Instruction (Autism Spectrum Disorders), MEd (TEASDMED)

Online Degree Search Title: Curriculum and Instruction (Autism Spectrum Disorders), MEd

Campus: Online

This program is not accepting applications at this time. Applicants interested in autism spectrum disorders should apply directly to the MA in Special Education (Autism Spectrum Disorders) (<https://webapp4-qa.asu.edu/programs/t5/majorinfo/ASU00/TESPEASDMA/graduate/false>).

Program Description:

The MEd in curriculum and instruction with a concentration in autism spectrum disorders equips individuals with the specialized skills and knowledge they need to work effectively with children and adults affected by autism.

The steady rise in the number of those affected by autism has caused a public demand for professionals who are aware of the issues and needs facing these special individuals, their families and service providers. Program graduates will be well prepared to provide important services and care

for individuals with autism spectrum disorders in a variety of roles, including as educators, interventionists, paraprofessionals, psychologists, speech pathologists, behavior analysts or family members.

Each student completes a practicum customized to individual interests and abilities. The program culminates with a capstone experience in which students demonstrate analysis and synthesis of material learned in the master's program and evidence of competency in the six Council for Exceptional Children autism standards.

Students interested in sitting for the national Board Certified Behavior Analyst exam should apply to the master's degree in special education, applied behavior analysis concentration or the applied behavior analysis graduate certificate, depending on interest and need.

Degree Requirements:

30 credit hours including the required capstone course (SPE 597).

Required Core (3 credit hours)

COE 501 Introduction to Research and Evaluation in Education (3)

Concentration (18 credit hours)

Electives (3 credit hours)

Other Requirements (3 credit hours)

SPE 580 Practicum (3)

Culminating Experience (3 credit hours)

SPE 597 Capstone (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Curriculum and Instruction (Early Childhood Education), MEd (TEECDMED)

Online Degree Search Title: Curriculum and Instruction (Early Childhood Education), MEd

Campus: Online

Program Description:

The early childhood education concentration in the MEd program in curriculum and instruction prepares individuals to meet the educational, social and emotional needs of children from birth through age eight.

Through online coursework, applied activities and in-person professional experiences, the program equips students with specialized skills and advanced knowledge in early childhood pedagogy, community collaboration, technology, administration, policy analysis and advocacy.

The master's degree is appropriate for students interested in learning about early childhood education research and working with infants and children in grades K-3. This track may be of interest to students who already have a teaching certificate and are interested in furthering their knowledge and skills or pursuing doctoral studies in the future.

A second option is the master's degree and Arizona certification in early childhood education track, which provides students with the coursework and professional experiences necessary to become licensed to teach children birth through grade three. The track provides participants an institutional recommendation for a state of Arizona early childhood education certification (birth through age eight or through grade three) and the master's degree.

All courses are online, but clinical experiences are completed in person.

Degree Requirements:

30 credit hours including the required applied project course (ECD 593).

Students in this program complete an applied project within their plan of study as a culminating experience.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should come from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Curriculum and Instruction (Gifted Education), MEd (TEGEDMED)

Online Degree Search Title: Gifted Education, MEd

Campus: Online

Program Description:

The MEd program in curriculum and instruction with a concentration in gifted education prepares teachers, school administrators, school psychologists, early interventionists and family members to work effectively with gifted children. Students gain the theory and pedagogy needed to identify and serve gifted children as well as the knowledge and skills required to develop and provide the most current instructional methods and services for their gifted students.

Graduates understand how to identify learning potential and address specific needs of gifted and talented students. They have an understanding of gifted students' unique affective and academic needs and know how to design and provide appropriately challenging, differentiated curriculum and instruction so that gifted students may develop their full potential. Graduates know how to develop a continuum of gifted programs and services, work with school administrators, teachers, school boards and parents and be able to advocate for gifted students at local and national levels.

The program is designed for public and private teachers in regular classrooms, honors classrooms and gifted programs and for school administrators and gifted program coordinators.

The program also provides the 12 credit hours of coursework in gifted education required for the gifted education (K-12) endorsement from the Arizona Department of Education. Students should refer to the Arizona Department of Education website for additional requirements.

Degree Requirements:

30 credit hours including the required capstone course (SPE 597).

Required Core (3 credit hours)

Concentration (21 credit hours)

Electives (3 credit hours)

Culminating Experience (3 credit hours)

SPE 597 Capstone Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee

Educating Multilingual Learners (Certificate), Certificate (TEESLGRCT)

Online Degree Search Title: Educating Multilingual Learners (Graduate Certificate)

Campus: Online

This program's name has changed effective Fall 2020. The previous name was English as a Second Language.

Program Description:

This graduate certificate program prepares students to educate bilingual and multilingual learners in a variety of settings, including preK-12 schools, colleges, universities and organizations serving linguistically diverse populations. Students in the educating multilingual learners certificate program gain skills and knowledge in language and literacy development, pedagogy, culture and context, and in advocacy for multilingual learners.

While the program is an excellent choice for teachers seeking to improve their preparation for bilingual and multilingual learners, it does not lead to teacher certification. There is no requirement that students entering the program hold a teaching certificate or seek to obtain one.

This certificate program is not designed to address specific requirements of any single state endorsement but may address many components for state endorsements, depending on state requirements.

Degree Requirements:

18 credit hours.

Required Core (15 credit hours)

BLE 511 Introduction to Language Minority Education (3)

BLE 520 ESL for Children (3)

BLE 522 Literacy/Biliteracy Development (3)

BLE 529 Language Assessment and Evaluation of ESL/BLE Students (3)

BLE 561 Parent Involvement in Language Minority Education Programs (3)

Electives (3 credit hours)

BLE 535 Sociolinguistic Issues in Bilingual Education (3)

BLE 537 Language Structure Acquisition (3)

Additional Curriculum Information

Students choose either BLE 535 or BLE 537 as elective coursework.

There is no culminating experience required for the certificate program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, preferably in education or related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts

- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

GRE scores are not required for admission.

Campus: Online

Program Description:

The MA program in education is designed for is for professionals interested in learning about education or whose work intersects with education. It prepares students to work with children, youth and adults in formal or informal learning environments in nonprofit settings, community institutions, civic organizations and businesses. The degree program provides a foundation for students to shape society by supporting educational endeavors. It also helps students develop skills for effective communication, collaboration, leadership, advocacy and innovation, all of which are essential to education professionals

This flexible graduate program can be completed in as few as sixteen months. Graduates of the program are prepared to change the face of learning throughout society.

Degree Requirements:

30 credit hours including the required applied project course (EDU 593).

Required Core (3 credit hours)

COE 501 Introduction to Research and Evaluation in Education (3)

Electives (24 credit hours)

Culminating Experience (3 credit hours)

EDU 593 Applied Project (3)

Additional Curriculum Information

The program is designed to be flexible and personalized to meet the interests of the learner. Students should see the academic unit for a list of electives to choose from as they explore focal areas of greatest interest.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College .

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- written statement
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program, and the personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Applicants must provide a written statement of approximately 500 words that describes their personal interest in the field of education, the goals they wish to achieve while in the program, and their short- and long-term career aspirations. The admission committee pays particular attention to the quality of writing, the ideas expressed, and the relative match between the applicant and program goals.

Education (Accomplished Teaching), MA (EDACCTCMA)

Online Degree Search Title: Education (Accomplished Teaching), MA

Campus: Tempe

ASU is not currently accepting applications for this program.

This program's name has changed effective Fall 2020. The previous name was Curriculum and Instruction (Accomplished Teaching).

Program Description:

The MA program in education with an accomplished teaching concentration is designed for practicing educators who want to advance their expertise and be able to innovate not only in the classroom but also help their schools or other work settings to redesign education from a deep understanding of educational theory and practice. Students improve their understanding of student learning and assessment and they develop skills in conducting action research.

Degree Requirements:

30 credit hours including the required applied project course (DCI 593).

Required Core (15 credit hours)

Electives (12 credit hours)

Culminating Experience (3 credit hours)

DCI 593 Applied Project (3)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals who can comment on the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Education (Educating Multilingual Learners), MA (EDESLEMA)

Online Degree Search Title: Education (Educating Multilingual Learners), MA

Campus: Online

This program's name has changed effective Fall 2020. The previous name was Curriculum and Instruction (English as a Second Language).

Program Description:

The MA in program in education with a concentration in educating multilingual learners prepares students to educate bilingual and multilingual learners in a variety of settings, including preK-12 schools, colleges, universities and organizations serving linguistically diverse populations. Students of this program gain skills and knowledge in language and literacy development, pedagogy, culture and context, and in advocacy for multilingual learners.

Program courses are designed and led by tenured faculty. The program advances a contextualized view of the nature of multilingualism, highlights language learning processes and related pedagogies, and promotes educators' self-reflection about their positionality and potential as advocates for their students.

Students take both a practicum and a capstone course. The practicum provides students an opportunity to apply theoretical and practical information presented through coursework in a real world setting. This is a structured practical experience supervised by a faculty member with whom the student works closely. For the capstone, students identify a specific topic or problem of practice and lead a research-driven project.

While the program is an excellent choice for teachers seeking to improve their preparation for bilingual and multilingual learners, it does not lead to teacher certification. There is no requirement that students entering the program hold a teaching certificate or seek to obtain one.

This program is not designed to address specific requirements of any single state endorsement but may address many components for state endorsements, depending on the state's requirements.

Note: Individuals who wish to build a career in the international field of English language teaching should consider the Master of Teaching English to

Speakers of Other Languages (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/LAENGMTESL/graduate/false>) (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/LAENGMTESL/graduate/false>) offered through The College of Liberal Arts and Sciences.

Degree Requirements:

30 credit hours including the required capstone course (BLE 597).

Required Core (3 credit hours)

COE 501 Introduction to Research and Evaluation in Education (3)

Concentration (24 credit hours)

Culminating Experience (3 credit hours)

BLE 597 Capstone (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Education (Literacy Education), MA (EDLANGMA)

Online Degree Search Title: Education (Literacy Education), MA

Campus: Online

This program's name has changed effective Fall 2020. The previous name was Curriculum and Instruction (Literacy Education).

Program Description:

Graduates from the literacy education program are leaders in literacy in a broad array of educational contexts --- wherever reading, writing, oral language and the visual arts are at play in both creation and use. Through the program, graduates learn how to think deeply about literacy theories, pedagogies and resources through both a solid theoretical foundation of literacy and a foundational knowledge base addressing pedagogical and

content knowledge.

Graduates learn how to support inclusive educational practices, critical-thinking skills and multiliteracies to face the challenges of a diverse and global society. Through the program, literacy leaders will learn how to use technology to encourage critical thinking and as a resource for teaching, assessment and inquiry. By the end of the program, graduates are literacy leaders who inquire into their own instructional approaches, analyze resources available for literacy instruction, and critically examine the environments and learning experiences constructed in their context.

Educational Leadership, MEd (EDSUPVMED)

Online Degree Search Title: Educational Leadership, MEd

Campus: Polytechnic, West

ASU is not currently accepting applications for the core degree. Students interested in the principal preparation program leading to Arizona principal certification should see the Educational Leadership (Principalship), MEd (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/TEPRINMED/graduate/false>).

Program Description:

The MEd program in educational leadership is designed for individuals who believe in the power of education to transform children's lives and who aspire to school leadership positions as administrators or other leadership roles in K-12 settings. This rigorous, standards-based leadership preparation program provides students with the knowledge and expertise to become transformative administrators or teacher leaders with deep and unwavering commitment to providing excellent and equitable educational opportunities for all students.

This program equips students with the skills to facilitate school-level and systemic change; create and sustain a culture of innovation and collaboration; successfully lead curriculum development; interpret and use data to support student success; provide effective feedback, support and evaluation for teachers; build a community network of support for students and schools; and ensure equitable and excellent educational opportunities and support for all students.

The master's degree program in educational leadership is designed to prepare teachers to meet Arizona requirements for principal certification. Students seeking certification in a state other than Arizona should contact their state department of education to determine the principal certification requirements prior to applying.

Degree Requirements:

36 credit hours including the required applied project (EDA 593).

Required Core (27 credit hours)

EDA 501 Competency/Performance in Educational Administration (3)

EDA 505 American Education System (3)

EDA 511 School Law (3)

EDA 514 Leadership in Curriculum and Assessment (3)

EDA 526 Instructional Supervision (3)

EDA 548 School, Family and Community Connections (3)

EDA 572 School Finance and Human Resources (3)

EDA 578 Critical Issues in Educational Leadership (3)

EDA 634 Instructional Leadership (3)

Other Requirement (6 credit hours)

EDA 584 Internship (3)

EDA 684 Internship (3)

Culminating Experience (3 credit hours)

EDA 593 Applied Project (3)

Additional Curriculum Information

The 15-month, standards-based leadership development program begins with a three-week summer intensive that immerses the cohort in a simulated school experience during which students engage in required coursework in a hybrid format. Learning continues during the school year with a blend of web-based and face-to-face courses taken at an ASU campus, including set meetings each semester wherein students visit schools and participate in instructional rounds. All students participate in a two-semester, school-based internship that provides the opportunity to apply new learning and research in a K-12 setting. The program concludes with a two-week summer intensive during which the cohort meets together and engages with coursework in a hybrid format.

Students must be employed in a school-based position or have access to an ASU- and district-approved school placement that will serve as the laboratory of practice for applying the concepts, principles and leadership approaches learned through the coursework.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution and have at least two years of pre-K through grade 12 teaching experience as a teacher of record.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume

- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Educational Policy, MA (EDSPFMA)

Online Degree Search Title: Educational Policy, MA

Campus: Tempe

Program Description:

The MA program in educational policy provides graduates with skills in education policy and applied data analysis. It is particularly well-suited for individuals whose current or prospective careers require the use and interpretation of data, such as overseeing assessments or conducting program evaluations. Classroom teachers and practicing educators in other contexts will gain new perspectives on their schools, classrooms and teaching with the skills they develop in this master's degree program.

The coursework deepens students' understanding of research and policymaking and allows them to critically assess education programs and policies and develop the skills they need to engage in data-driven decision-making. Courses address key issues in contemporary education policy, evaluating and synthesizing research literature, analyzing and interpreting data and conducting applied research projects. With the assistance of a faculty or academic advisor, students also customize their elective courses in educational policy, research methods and other areas of interest to enhance their knowledge and skills.

In the culminating experience in the final semester, students design and execute an individual or group project that utilizes their new knowledge and research skills.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Educational Studies, BAE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including an applied project (EPA 593).

Required Core (15 credit hours)

EPA 532 Becoming an Informed Consumer of Education Research (3)

EPA 555 Translating Research for Education Change (3)

EPA 556 Data Analysis for Education Decisionmakers (3)

EPA 559 Systematic Inquiry for Problem Solving (3)

EPA 565 Critical Topics in Education Policy (3)

Restricted Elective or Research (12 credit hours)

Culminating Experience (3 credit hours)

EPA 593 Applied Project (3)

Additional Curriculum Information

For electives or research, students should see the academic unit for the approved course list.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

Educational Policy and Evaluation, PHD (EDLDRSHPHD)

Online Degree Search Title: Educational Policy and Evaluation, PhD

Campus: Tempe

Program Description:

The PhD program in educational policy and evaluation prepares scholars to conduct rigorous, high-impact and transdisciplinary research on education policies that advance the educational conditions in preK-20 and other educational environments.

Doctoral students in the educational policy and evaluation program engage in systematic analyses of education policies and practices in a variety of settings, including schools, universities, research centers, government agencies and nongovernmental organizations.

The program emphasizes intensive training in the theory, methods and implementation of education policy with a focus on research and evaluation. Students pursue an area of specialization supported by faculty expertise.

Educational policy and evaluation students work closely with nationally and internationally recognized faculty members on collaborative and independent research projects that result in scholarly articles, policy briefs, reports and engagement in education policy. The program also provides opportunities for internships in applied settings and experiences in scholarly publishing to influence the field.

Doctoral students are expected to engage in the program full-time and are fully supported by Mary Lou Fulton Teachers College with funding renewable for four years pending adequate progress toward completing program requirements.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Of the 84 credit hours required for the degree, 54 must be earned at ASU and 24 of the ASU credit hours must be earned in research and dissertation courses. The coursework includes classes in evaluation, policy analysis, research methods and an area of specialization. Students entering the doctoral program with a master's degree in a related discipline may count up to 30 credit hours from the master's degree toward the 84 credit hours. In addition, a student may use up to 12 additional credit hours toward the doctorate if documentation is provided showing that those credit hours were not part of the master's degree. Students without a master's degree in a related discipline may transfer no more than 12 credit hours toward the degree.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution or an international equivalent as determined by Graduate Admissions.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- GRE scores
- an academic writing sample
- curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program and

The personal statement should describe the applicant's interests and reason for seeking this degree.

There are no minimum required GRE scores.

Educational Technology, PHD (EDTECHPHD)

Online Degree Search Title: Educational Technology, PhD

Campus: Tempe

ASU is not currently accepting applications for this program.

Program Description:

The focus of the PhD program in educational technology is on the design, development and evaluation of instructional systems and on educational technology applications that support learning. The doctoral program emphasizes research using educational technology in applied settings.

The program prepares students for a variety of professional positions. Graduates are employed as faculty, educational technologists or instructional designers in universities, community colleges and schools or as training managers in corporate settings.

Degree Requirements:

84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Required Courses (24 credit hours)

EDP 540 Learning Theories and Instructional Strategies (3)

EDP 552 Multiple Regression and Correlation Methods (3)

EDP 554 Analysis-of-Variance Methods (3)

EDT 501 Foundations of Learning Design and Technologies (3)

EDT 502 Design and Development of Instruction (3)

EDT 503 Design of Effective Communications (3)

EDT 504 Modalities of Learning (3)

EDT 506 Evaluation of Learning Systems (3)

EDT 701 Research in Educational Technology (3)

Elective Courses (30 credit hours)

Students select a minimum of 30 credit hours of elective coursework in consultation with a faculty advisor or doctoral committee chair.

Practicum Hours (6 credit hours and research, below)

Students must earn at least 18 credit hours for practicum courses. Students will complete three different practica while in the program: instructional design (typically EDT 780 Practicum for three credit hours), teaching (typically EDT 680 Practicum for three credit hours), and a research practicum.

Research (12 credit hours)

Culminating Experience (12 credit hours)

EDT 799 Dissertation (12)

Admission Requirements:

Applicants must fulfill requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.20 (scale is 4.00 = "A") in their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.20 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three email addresses for professional recommendations
- personal statement
- resume
- GRE scores
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The Mary Lou Fulton Teachers College requires a minimum score of 600 (paper-based) or 100 (internet-based) on the TOEFL.

Scores of 500 or above on the verbal reasoning and quantitative reasoning sections of the GRE are required as well as a score of four or greater on the analytical writing section of the GRE.

Elementary Education (Teacher Certification), MEd (TEEEACLMEDE)

Online Degree Search Title: Elementary Education (Teacher Certification), MEd

Campus: Downtown Phoenix, Tempe, West

Program Description:

This program is for those who already have a bachelor's degree in any field and want to become licensed to teach grades K-8.

The elementary education program builds strong connections between theory and practice through quality classroom instruction paired with extensive clinical experiences.

Students gain a strong foundation in teaching and content knowledge from experts in the field of education. Mary Lou Fulton Teachers College faculty actively engage in the educational research community and embed this vital knowledge throughout the program. This connection further empowers our students to engage in their own research through the applied project coursework.

A series of professional experiences or field placements are designed to assist students in developing a thorough understanding of teaching and learning as they apply knowledge from their coursework in varied school settings. Individualized guidance through the clinical framework provides students with the support they need to become effective educators.

The MEd program in elementary education offers two options for students to earn a master's degree and Arizona teacher certification:

Master's and Arizona Certification (MAC) --- In this program, students take classes at an ASU campus two nights a week and are required to do a field experience one day per week for at least two semesters. During the last semester of the MAC program, students complete a full-time teaching residency.

Induction, Master's and Arizona Certification (InMAC) --- This program features a partnership with Teach For America, various school districts and charter schools. The InMAC program provides an alternative pathway to teacher certification for full-time teachers on an intern teaching certificate. To qualify, individuals must secure a full-time teaching position. Participants take classes one night per week and must be continuously enrolled in teaching coursework.

Degree Requirements:

33 credit hours including the required applied project course (EED 593).

Required Core (27 credit hours)

EDP 510 Psychology in Education (3)
EED 521 Instructional Planning for the Diverse Classroom (3)
EED 524 Social Studies Methods and Assessment (3)
EED 529 Science Methods and Assessment (3)
EED 537 Mathematics Methods and Assessment (3)
ELL 504 Instructional Design for Culturally and Linguistically Diverse Students (3)
RDG 531 Language and Literacy I (3)
RDG 532 Language and Literacy II (3)
SPE 524 Effective Classroom Behavior Management (3)

Other Requirement (3 credit hours)

EED 511 Curriculum Theory and Instructional Planning (3)

Culminating Experience (3 credit hours)

EED 593 Applied Project (3)

Additional Curriculum Information

With approval of the academic unit, an alternative course to EED 511 may fulfill this requirement.

The applied project is conducted in the school setting.

Students need to take additional coursework for tracks leading to certification, and they should see the academic unit for the approved course listing.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- IVP fingerprint clearance card issued by the state of Arizona
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Gifted Education (Certificate), Certificate (TEGEDGRCT)

Online Degree Search Title: Gifted Education (Graduate Certificate)

Campus: Online

Program Description:

The graduate certificate program in gifted education prepares teachers, school administrators, school psychologists, early interventionists and family members to work effectively with gifted children. The program provides students with the theory and pedagogy needed to identify and serve gifted children as well as the knowledge and skills required to develop and provide the most current instructional methods and services for their gifted students.

Graduates of the program understand how to identify learning potential and address specific needs of gifted and talented students. They have gained an understanding of gifted students' unique affective and academic needs and know how to design and provide appropriately challenging, differentiated curriculum and instruction so that gifted students may develop their full potential.

Graduates have learned how to develop a continuum of gifted programs and services, work with school administrators, teachers, school boards and parents, and are able to advocate for gifted students at local and national levels.

The program also provides coursework in gifted education required for the gifted education (K-12) endorsement from the Arizona Department of Education. Students should refer to the Arizona Department of Education website for additional requirements.

Degree Requirements:

15 credit hours.

Required Core (12 credit hours)

SPE 585 Creativity: Foundations of Research and Development in Gifted Education (3)

SPE 586 Advising the Gifted Learner: Social and Emotional Needs (3)

SPE 587 Special Populations in Gifted Education (3)

SPE 588 The Gifted Learner: Foundations of Identification, Education and Development (3)

Electives (3 credit hours)

SPE 572 Testing and Measurement in Gifted Education: Methods (3)

SPE 573 Differentiating Instruction for Gifted Learners: Teaching Methods (3)

SPE 589 Teaching the Gifted Learner: Models, Methods and Programs (3)

Additional Curriculum Information

Students choose one course from SPE 572, SPE 573 or SPE 589 to complete the elective requirement.

There is no culminating experience required for this certificate program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, preferably in education or related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Global Education, MEd (TEGLOEDMED)

Online Degree Search Title: Global Education, MEd

Campus: Online

Program Description:

The MEd program in global education prepares professionals working in the field of international education to identify, analyze and address contemporary problems that cross borders, cultures and disciplines in a variety of international educational settings. Graduates of the program are able to evaluate current programs and practices and create innovative and sustainable solutions directed at increasing access to quality education for diverse populations, teachers and leaders, and to engage in applied educational research at the local, national and global levels.

This program is directed at individuals currently working in or interested in international education more generally, especially those charged with the administration, planning and evaluation of educational programs and policies. The prospective applicant for this program seeks to gain a deeper understanding of the complex and dynamic relationship between global and local perspectives on systems of education, develop practical solutions for key challenges in those systems and experience working collaboratively and imaginatively across disciplines.

Degree Requirements:

30 credit hours including the required applied project course (GLE 593).

Required Core (18 credit hours)

GLE 501 Global Thinking in Education (3)

GLE 502 Inquiry in Global Education (3)

GLE 503 Evaluating Global Education Policies and Programs (3)

GLE 504 Exploring Global Education Issues in the Global Education Literature (3)

GLE 505 Evidence in Global Education Inquiry (3)

GLE 506 Applied Inquiry in Global Education: Developing Proposals for Field Research (3)

Electives or Research (9 credit hours)

Culminating Experience (3 credit hours)

GLE 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in global education, comparative education or other related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- professional resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must complete a personal statement that describes their background including the personal, educational and professional experiences that led them to apply to this program. Applicants should follow the specific prompt found in the application.

Higher and Postsecondary Education, MEd (EDPOSTMED)

Online Degree Search Title: Higher and Postsecondary Education, MEd

Campus: Downtown Phoenix, Tempe

Program Description:

The MEd program in higher and postsecondary education is designed to facilitate the professional development of those who work in colleges and universities in administrative roles as well as academic or student support positions.

The higher and postsecondary education program develops leaders who have a strong understanding of the theory and practice of higher education administration, possess the capacity to analyze issues confronting contemporary colleges and universities, and apply expertise in designing innovative solutions in administrative decision-making. The goal of this program is to provide graduates with a better understanding of the challenges that face contemporary colleges and universities and to prepare them to succeed in environments that demand innovation, excellence, inclusion and collaboration. Students have the opportunity to make a local impact to support the success of higher education in the state of Arizona.

Coursework addresses a range of practice-focused topics in the field, including the following: the history of higher education in the United States, organizational characteristics of colleges and universities, important laws and policies pertaining to administrative practice in higher education, how colleges and universities are funded, how to successfully work with the diverse stakeholders in contemporary higher education and how to collect and use data to improve decision-making.

This 30-credit hour, 10-course program is offered on a 7.5-week calendar in fall and spring semesters (six weeks in summer). Students may enroll part time or full time.

Most courses are offered in a hybrid format with 50% of the content delivered face-to-face (weekday evenings) and 50% delivered through independent or technology-supported learning experiences and fieldwork.

This program culminates with the creation and presentation of an applied project that demonstrates students' understanding of critical issues in higher education and how to collect and use data to improve their professional practice. The project is also designed to promote graduates' career advancement in higher and postsecondary education-related settings.

Degree Requirements:

30 credit hours including the required applied project course (HED 593).

Required Core (9 credit hours)

Foundation Courses (18 credit hours)

Culminating Experience (3 credit hours)

HED 593 Applied Project (3)

Addition Curriculum Information

Students should see the academic unit for a complete list of approved electives.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English language proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals who can comment on the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Institutional Research and Policy Analysis (certificate), Certificate (EDINSRESCE)

Online Degree Search Title: Institutional Research and Policy Analysis (Graduate Certificate)

Campus: Tempe

Program Description:

People working in or with schools are increasingly being asked to interpret and make decisions based on data. The graduate certificate in institutional research and policy analysis provides participants with the training and skills in education policy and applied data analysis that allow them to critically assess education programs and policies and engage in data-driven decision-making. The program consists of courses in which students analyze data from real-world settings, including their own schools or organizations.

This certificate program allows students to glean insights from data that help them make effective decisions in classrooms, schools, districts and other organizations; present reliable and pertinent data to their colleagues and administrators; and develop analyses that can help them identify instructional changes aimed at improving student achievement.

Degree Requirements:

15 credit hours.

Required Courses (15 credit hours)

EPA 532 Becoming an Informed Consumer of Education Research (3)

EPA 555 Translating Research for Educational Change (3)

EPA 556 Data Analysis for Education Decision Makers (3)

EPA 559 Systematic Inquiry for Problem Solving (3)

EPA 565 Critical Topics in Education Policy (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

Leadership and Innovation, EdD (TELINEDD)

Online Degree Search Title: Leadership and Innovation, EdD

Campus: West, Online

Program Description:

The EdD program in leadership and innovation prepares scholarly practitioners and is designed for practicing educator-leaders who work in a range of settings and who want to transform their practice and create better learning opportunities for students of all ages.

Students in the program begin as accomplished teachers, teacher leaders, principals, superintendents, higher education professionals or leaders in other educational contexts. Through coursework, students deepen their abilities to lead change and implement innovation in their local educational organizations. The program is not designed to prepare students for academic research-oriented tenure-track positions.

The cohort-based program focuses on action research and includes required coursework and several options for advanced professional studies with a research core that deepens students' abilities to reflectively and critically think about problems of practice in one of the following contexts: preK-12 change leadership; higher education change leadership; or systems, professional and reimagined change leadership.

Differentiation among these contexts and students' interests occurs within the required coursework.

Students conduct multiple cycles of inquiry throughout the program and learn research within their own workplace. They share their research at the end of each academic year through presentations in a public doctoral research conference.

Leader-scholar communities, formed at the end of the first year and consisting of five to seven students and one faculty member, meet regularly for the second and third years of the program to supply academic and personal support. Through LSCs, students support each other, under faculty guidance, in the conceptualization, implementation and study of change initiatives. Each student's LSC leader serves as the dissertation chair, along with two additional committee members who ultimately make up the doctoral committee.

Successful graduates make a commitment to continuing systematic study of their professional practice and sustaining innovation and leadership by making a positive difference in their local settings. The program aims to enable more thoughtful, intentional and informed leaders who are willing and able to implement and study continuous improvement.

The program makes a difference in the way a student thinks and works as a leader in education, for the immediate and local benefit of school children, adult learners, schools or other organizations, and local communities.

Degree Requirements:

90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Core (24 credit hours)

Research (9 credit hours)

Advanced Professional Studies (6 credit hours)

Directed Field-based Study (3 credit hours)

Participation in Leader-Scholar Communities (6 credit hours)

Dissertation (12 credit hours)

Additional Curriculum Information

Students should see the academic unit for an approved course list.

Students register for required research and dissertation hours as part of the Leader-Scholar Communities requirement.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework will be made up of electives to reach the required 90 credit hours.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- an academic writing sample
- curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program and the personal statement should describe the applicant's interests and reasons for seeking this degree, along with potential problems of practice to serve as a guide for applied research in the program.

GRE scores are not required for admission.

Leadership and Innovation (Policy and Administration), EdD (TEINNPAAEDD)

Online Degree Search Title: Educational Leadership and Innovation (Policy/Admin), EdD

Campus: West

ASU is not currently accepting applications for this program.

Program Description:

The EdD in leadership and innovation program is designed for practicing educator-leaders who want to participate in creating better learning opportunities for students of all ages in a range of settings with the ultimate goal of transforming the practice of education.

The focus of the program is research in action. Students conduct multiple studies throughout the program to learn by doing and to influence change based on scholarship applied in their workplace.

Students in the program begin as accomplished teachers, teacher leaders, principals and superintendents, and "edupreneurs" or higher education professionals. Through their learning, they deepen their abilities to lead and innovate in educational organizations. The program is not designed to prepare students for academic tenure-track positions.

The cohort-based program begins in summer with an introduction to doctoral studies and the formation of a professional learning community that draws on the strengths of all group members.

Required courses are team-taught by faculty and require students to conduct research in their workplace, laying the foundation for the culminating project: the action research study documented in the dissertation.

Leader-Scholar Communities, formed at the end of the first year and consisting of five to seven students and two faculty members, meet regularly for the second and third years of the program. Students register for required research and dissertation hours as part of the LSC requirement.

Through these LSCs, students support each other, under faculty guidance, in the conceptualization, implementation and study of change initiatives. Students share their research at the end of each semester through roundtables, posters and symposia in a public research day.

Successful graduates have made a commitment to continuing systematic study of their professional practice and making a positive difference in their local workplaces putting their research in action. The program aims to enable more thoughtful, intentional and informed leaders, willing and able to implement and study change.

The program will make a difference in the way a student thinks and works as a leader in education, for the immediate and local benefit of school children, adult learners, the student's school or organization, the community and the world.

Learning Design and Technologies, MEd (EDTECHMED)

Online Degree Search Title: Learning Design and Technologies, MEd

Campus: Online

Program Description:

The MEd program in learning design and technologies emphasizes the design of learning environments, systems, applications and instructional materials for multiple learning contexts. The program prepares learning design and technology professionals for a variety of formal and informal settings in business, industry, museums, nonprofits, government organizations and education, such as K-12 schools and colleges or universities.

Through projects that address real-world problems, students apply current research and learning theories, along with the use of existing and emergent technologies, to the practice of learning and instructional design. All courses are online and combine a range of resources and technologies to facilitate direct interaction between students, program faculty and classmates. Program graduates are prepared with the knowledge and skills required to address real-world problems and emerging challenges through the process of learning design.

Degree Requirements:

30 credit hours including the required applied project course (EDT 593).

Required Core (24 credit hours)

COE 501 Introduction to Research and Evaluation in Education (3)
EDP 540 Learning Theories and Instructional Strategies (3)
EDT 501 Foundations of Learning Design and Technologies (3)
EDT 502 Design and Development of Instruction (3)
EDT 503 Design of Effective Communications (3)
EDT 504 Modalities of Learning (3)
EDT 506 Evaluation of Learning Systems (3)
EDT 523 Issues in Online and Distance Education (3)

Elective (3 credit hours)

Culminating Experience (3 credit hours)

EDT 593 Applied Project (3)

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Learning Sciences, MA (EDPSYCHMA)

Online Degree Search Title: Learning Sciences, MA

Campus: Tempe

Program Description:

The MA in learning sciences proceeds from an understanding that learning happens in many places, not just in schools.

This program focuses on the power of design thinking to improve educational systems and provides students with a blend of theoretical insights and practical tools that will prepare them to shape learning environments and experiences. The systems-level approach includes cognitive, social and contextual factors and the interactions among them.

Graduates of the program are equipped to design effective learning and teaching systems in a broad range of formal and informal settings that include museums, libraries, workplaces and schools and are well-prepared to become leaders in the development, integration and improvement of these systems.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Educational Studies, BAE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

30 credit hours including the required applied project course (LSE 593), or 30 credit hours, a thesis and a written comprehensive exam.

Required Core (3 credit hours)

LSE 540 Theoretical Views of Learning in the Learning Sciences (3)

Electives or Research (21-24 credit hours)

Culminating Experience (3-6 credit hours)

LSE 593 Applied Project (3) or

LSE 599 Thesis (6)

Additional Curriculum Information

With advisor approval, EDP 540 may be taken in place of LSE 540 for the core requirement.

Students completing an applied project for their culminating experience will take 24 credit hours of electives or research courses.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program and the personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Learning, Literacies and Technologies, PHD (EDCIPHD)

Online Degree Search Title: Learning, Literacies and Technologies, PhD

Campus: Tempe

Program Description:

The PhD in learning, literacies and technologies is designed to prepare scholars who will address socially significant educational programs and transform preK-20 educational programs through rigorous research and educational interventions. Graduates rely on transdisciplinary theoretical and methodological perspectives to engage, influence and transform educational institutions and their practices.

The program graduates educational researchers who serve as scholars, leaders and teacher educators engaged in the design, development and use of literacies and technologies that promote learning. Graduates are stewards of their educational field, working across disciplinary boundaries to address the learning challenges of the new millennium.

Students begin engaging in research studies during their first semester and continue throughout the four-year program. Faculty with diverse disciplinary backgrounds collaborate with doctoral students, individually and in teams, to design powerful studies, implement them in authentic settings, collect and analyze data, write research reports, and present and publish the results.

Academic study and research in the learning, literacies and technologies program focuses on the nature of human learning and literacies across diverse learners and contexts, the use of technologies to support learning, the design of learning environments and the conditions under which learning occurs.

Students develop areas of emphasis with their faculty advisor and doctoral committee members, to work at the cutting edges of educational science, leading the way to innovation and exploration of new technologies and literacies for learning.

Students are expected to engage in the doctoral program full time and are supported by Mary Lou Fulton Teachers College with funding renewable for four years with continued satisfactory progress.

Degree Requirements:

85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

core courses (13 credit hours)

specialization courses (12 credit hours)

elective or research courses (12 credit hours)

research (3 credit hours)

internship (3 credit hours)

dissertation (12 credit hours)

Additional Curriculum Information

When approved by the student's supervisory committee, this program allows 30 credit hours from a previously awarded master's degree to be used for this program.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All Applicants must submit:

- graduate admission application and application fee
- official transcripts
- GRE scores
- three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program
- personal statement describing the applicant's interests and reason for seeking this degree
- an academic writing sample
- curriculum vitae
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

There are no minimum required GRE scores.

Online Teaching for Grades K-12 (certificate), Certificate (TEEDTGRCT)

Online Degree Search Title: Online Teaching for Grades K-12 (Graduate Certificate)

Campus: Tempe, Online

ASU is not currently accepting applications for this program.

Program Description:

This certificate program prepares educators to design systems for learning in a broad range of organizations and includes practical application of research on learning, design methods and organizational dynamics. Students who complete the certificate program are prepared to be effective members and leaders of teams who redesign education in pre K-20 and other settings.

Degree Requirements:

15 credit hours including the required capstone course (EDT 580).

The certificate requires five courses, each consisting of three credit hours. The culminating experience for this certificate program is an electronic portfolio that will be completed in EDT 580.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement describing the applicant's interests and reason for seeking this degree
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F1 or J1 visa will first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission be considered for admission to this certificate program.

GRE scores are not required for admission.

Applicants should have at least one year of professional education experience.

For disclosure information about this U.S. Department of Education Gainful Employment program, students should see <https://catalog.asu.edu/files/disclosures/TEEDTGRCT/Gedt.pdf> (<https://catalog.asu.edu/files/disclosures/TEEDTGRCT/Gedt.pdf>).

Physical Education, MPE (ECPHYEDMPE)

Online Degree Search Title: Physical Education, MPE

Campus: Polytechnic

Program Description:

The MPE program is for students interested in gaining knowledge of current curriculum and instructional and administrative practices and procedures in physical education.

Emphasis is placed on improving instructional effectiveness and developing quality physical education programs in school settings as well as expanded physical activity programming beyond the physical education lessons within school environments. Students learn about designing, implementing and assessing comprehensive school physical activity programs. This type of programming reflects current global trends in promoting physical activity for children, youth, school staff and families in communities surrounding school campuses.

The Master of Physical Education degree program gives candidates the flexibility to design a plan of study that enhances their interests and professional specialization. Students can choose from three track options: the pedagogy research track, a physical endorsement (grades K-12), or an Arizona certification in physical education.

Master of Physical Education pedagogy research track --- This track is appropriate for students interested in learning more about research on teaching in physical education settings. This track may be of interest to students who already have a teacher certificate in physical education and are interested in pursuing doctoral studies in the future.

Master of Physical Education with a physical education endorsement (grades K-12) --- This track familiarizes students with the most current trends and issues in school physical education. Students can focus on numerous topics within elementary physical education, secondary physical education and adapted physical education. This track may be of interest to students with a teaching certificate in a different subject matter who are interested in a K-12 physical education endorsement.

Master of Physical Education and Arizona certification in physical education --- This program provides students with the coursework and practical experiences necessary to become certified to teach physical education in the public schools. The program provides participants an institutional recommendation for an Arizona secondary education (grades 6-12) certification with a physical education endorsement (grades K-12) and the Master of Physical Education degree.

Degree Requirements:

33 credit hours including the required applied project course (PPE 593) and a written comprehensive exam.

The Master of Physical Education degree program has three tracks.

Physical Education K-12 Teaching Track: (33 credit hours)

required core (24 credit hours)

electives (6 credit hours)

applied project (3 credit hours)

Physical Education Pedagogy Research Track: (33 credit hours)

required core (24 credit hours)

electives (6 credit hours)

applied project (3 credit hours)

Physical Education Initial Teacher Certification Track: (33 credit hours)*

required core (24 credit hours)

electives (6 credit hours)

applied project (3 credit hours)

*additional courses are required for certification

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- IVP Fingerprint Clearance Card issued by the State of Arizona
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency (e.g., TOEFL).

The letters of recommendation should be from individuals who can speak to the applicant's qualifications and potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Secondary Education (Teacher Certification), MEd (TESCERTMED)

Online Degree Search Title: Secondary Education (Teacher Certification), MEd

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

This program is for those who want to become certified to teach grades 6-12 in the public schools and already have a bachelor's degree in any field.

ASU's secondary education program builds strong connections between theory and practice through quality classroom instruction paired with extensive clinical experiences.

Students gain a strong foundation in teaching and content knowledge from experts in the field of education. Mary Lou Fulton Teachers College faculty actively engage in the educational research community and embed this vital knowledge throughout the program. This connection further empowers our students to engage in their own research through the culminating action research applied project.

A series of professional experiences or field placements are designed to assist students in developing a thorough understanding of teaching and learning as they apply knowledge from their coursework in varied school settings. Individualized guidance through the program's clinical framework provides students with the support they need to be successful in today's rapidly evolving educational environment.

The MEd program in secondary education with teacher certification offers two options for students to earn a master's degree and Arizona teacher certification: MAC and InMAC.

Master's and Arizona Certification (MAC) -- In this program, students take classes at an ASU campus two nights a week and are required to do a field internship one day per week. During the last semester of the program, students complete a full-time teaching residency in their content area.

Induction, Master's and Arizona Certification (InMAC) -- This program provides an alternative pathway to teacher certification for full-time teachers on a teaching intern certificate. To qualify, individuals must secure a full-time teaching position. The InMAC program also features a partnership with Teach For America. Participants take classes one night per week. The InMAC program supports individuals teaching in elementary, secondary and special education classrooms through coursework and supervised professional experiences.

Accelerated Degree Options:

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

- Engineering (Automotive Systems), BSE
- Engineering (Electrical Systems), BSE
- Engineering (Humanitarian Engineering), BSE
- Engineering (Mechanical Engineering Systems), BSE
- Engineering (Robotics), BSE

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Degree Requirements:

33 credit hours including the required applied project course (SED 593).

Required Core (18 credit hours)

RDG 507 Content Area Literacy (3)

SED 501 Introduction to Effective Instruction (3)

SED 522 Secondary School Curriculum Development (3)

SED 544 Creating Classroom Climates (3)

SPE 555 Inclusive Practices for Diverse Learners (3)

TEL 505 American Educational Policy (3)

Track (12 credit hours)

Culminating Experience (3 credit hours)

SED 593 Applied Project (3)

Additional Curriculum Information

Students select one of two tracks: Masters and Arizona Certification (MAC) or Intern, Masters and Arizona Certification (InMAC). Students should see the academic unit for the list of courses required in each track option.

The applied project must be completed during the teaching residency.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- three letters of recommendation
- personal statement
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Special Education (Applied Behavior Analysis), MA (TESPEABAMA)

Online Degree Search Title: Special Education (Applied Behavior Analysis), MA

Campus: Online

Program Description:

The MA program in special education with a concentration in applied behavior analysis combines research and experience to prepare professionals to use principles of ABA with individuals who have special learning and behavior needs. The coursework prepares students to use applied behavior analysis to address a variety of learning and behavior needs across a range of professions and settings. All courses are online, combining an assortment of resources and technologies to provide students the opportunity to interact directly with program faculty and classmates.

Program graduates are well prepared to provide applied behavior analysis and evidence-based consultative services and support to clients, community and family members across a variety of settings. Coursework is verified by the Behavior Analyst Certification Board for students interested in sitting for the Board Certified Behavior Analyst examination. BCBA supervised independent fieldwork, required for certification, is arranged and completed by the student separately from their ASU coursework.

Degree Requirements:

30 credit hours including a Applied Project (SPE 593), or 30 credit hours including a Capstone Course (SPE 597).

Required Core (3 credit hours)

SPE 525 Measurement, Data Display, Interpretation and Experimental Design (3)

Concentration (18 credit hours)

SPE 526 Concepts and Principles of Applied Behavior Analysis (3)

SPE 527 Behavior Analytic Assessment (3)

SPE 560 Behavior Change Procedures: Implementing Interventions in Behavior Analysis (3) SPE 562 Personnel Supervision and Organizational Behavior Management in Educational Settings (3)

SPE 563 Philosophical Foundations of Applied Behavior Analysis in Educational Settings (3)

SPE 567 Ethics of Applied Behavior Analysis (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)

SPE 593 Applied Project (3)

SPE 597 Capstone (3)

Additional Curriculum Information

Students may choose to complete a remote supervised independent fieldwork practicum (SPE 580).

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field, from a regionally accredited institution. A degree in education or another field related to applied behavior analysis is preferred.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- personal statement
- three letters of recommendation
- resume
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should demonstrate the applicant's goals with respect to the program outcomes and success in a graduate and online program. The statement should also demonstrate high-quality writing and awareness that the student understands the demands of graduate school.

Three letters of recommendation from individuals who can speak to the applicant's potential for success in a graduate program are required for admission.

Special Education (Autism Spectrum Disorder), MA (TESPEASDMA)

Online Degree Search Title: Special Education (Autism Spectrum Disorders), MA

Campus: Online

Program Description:

The steady rise in the rates of autism spectrum disorders has caused a public demand for competent professionals to work with those affected. This MA program with a concentration in autism spectrum disorders prepares graduates to provide important services and care in a variety of roles for children and adults with ASD.

There is increasing demand for professionals who are aware of the issues and needs facing these special individuals, their families and service providers. Program graduates will be well-prepared to provide important services and care for individuals with ASD in a variety of roles, including as educators, interventionists, paraprofessionals, psychologists, speech pathologists, therapists or family members.

Degree Requirements:

30 credit hours including the required applied project course (SPE 593), or 30 credit hours including the required capstone course (SPE 597).

Required Core (3 credit hours)

SPE 525 Measurement, Data Display, Interpretation and Experimental Design (3)

Concentration (12 credit hours)

SPE 521 Foundations of Autism Spectrum Disorders (3)

SPE 540 Family-Centered Practices (3)

SPE 541 Consultation Frameworks and Issues (3)

SPE 566 Applied Behavior Analysis in Inclusive Settings (3)

Electives or Research (9 credit hours)

Other Requirement (3 credit hours)

SPE 680 Practicum (3)

Culminating Experience (3 credit hours)

SPE 593 Applied Project (3) or

SPE 597 Capstone (3)

Additional Curriculum Information

Each student completes a practicum customized to individual interests and abilities. For the culminating experience, students may elect to complete a capstone experience or applied project, based on personal and professional interest and need.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in education, psychology, or a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:

- graduate admission application and application fee
- official transcripts
- written statement
- professional resume
- three letters of recommendation
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The transcript must show the bachelor's degree already conferred. In-progress bachelor's degrees not accepted.

Special Education (Teacher Certification), MEd (TESECRTMED)

Online Degree Search Title: Special Education (Teacher Certification), MEd

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Program Description:

This program is for those seeking Arizona teacher certification in special education. The special education program builds strong connections between theory and practice through quality classroom instruction paired with extensive clinical experiences.

Students gain a strong foundation in teaching and content knowledge from experts in the field of education. Mary Lou Fulton Teachers College faculty actively engage in the educational research community and embed this vital knowledge throughout the program. This connection further empowers students to engage in their own research through the culminating action research applied project.

A series of professional experiences or field placements are designed to assist students in developing a thorough understanding of teaching and learning as they apply knowledge from their coursework in varied school settings. Individualized guidance through the professional framework provides students with the support they need to be successful in today's rapidly evolving educational environment.

The MEd program in special education with Arizona teacher certification offers two options for students to earn a master's degree and Arizona teacher certification:

Master's and Arizona Certification (MAC): In this program, students take classes at an ASU campus two nights a week and are required to complete daytime field experiences for at least two semesters. During the last semester of the program, students complete a full-time split residency: half the semester in a special education classroom and the other half in an elementary classroom. Students in the MAC program receive dual Arizona teacher certification in the following teaching certificates: Mild-Moderate Disabilities Special Education, K-12 and Elementary Education, grades 1-8. The mild to moderate areas include forms of emotional, behavioral, learning and orthopedic disabilities as well as intellectual disabilities and other health impairments.

Induction, Master's and Arizona Certification (InMAC): This program provides an alternative pathway to the Arizona teacher certification Mild-Moderate Disabilities Special Education, K-12, for full-time teachers on the teaching intern certificate. To qualify, individuals must secure a full-time teaching position. The InMAC program also features a partnership with Teach For America. Participants take classes one night per week.

Degree Requirements:

33 credit hours including the required applied project course (SPE 593).

Required Core (12 credit hours)

EED 537 Mathematics Methods and Assessment (3)

SPE 501 Introduction to Research and Evaluation in Education (3)

SPE 538 Language and Literacy I (3)

SPE 575 Survey, Issues and Foundations for the Exceptional Student (3)

Track (18 credit hours)

Culminating Experience (3 credit hours)

SPE 593 Applied Project (3)

Additional Curriculum Information

Students choose either the mild-moderate track, which has the options of the Masters and Arizona Certification or Induction, Masters and Arizona Certification pathways; or the severe-profound track. Students will take additional coursework for certification.

The applied project is completed during the teaching residency.

Admission Requirements:

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton Teachers College.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

Undergraduate Programs

Minors (Program Descriptions and Requirements)

African and African American Studies Minor (LAAFRMIN)

Campus: Tempe

Description:

The minor program in African and African American studies examines the culture, arts, history, politics, economics and current status of African Americans, Africans and the African Diaspora, especially in the Caribbean, Central America and South America. The goal is to prepare students for lifelong learning, advanced study in a variety of fields and successful careers and productive public service in an increasingly diverse society.

Program Requirements:

The certificate requires completion of 18 credit hours. At least 12 credit hours must be completed at the upper-division level and a grade of "C" (2.00 on a 4.00 scale) or better is required for all courses.

Required Core Course -- 3 credit hours

AFR 200: Introduction to Africana Studies (SB & G & H) (3)

Elective Course -- 3 credit hours

AFR 300: Precolonial Africa (SB & G & H) (3)

AFR 301: Race and Racism in Africa/African Diaspora (SB & G) (3)

AFR 302: History of Black Women in America (SB & H) (3)

AFR 305: The Global History of the Trans-Atlantic Slave Trade (SB & H) (3)

Electives -- 12 credit hours

AFR Upper Division Elective (12)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in African and African American studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

American Indian Studies Minor (LAAISMIN)

Campus: Tempe

Description:

The minor in American Indian studies is designed for students interested in developing an understanding of American Indian issues and analyzing

issues through critical inquiry.

Program Requirements:

The minor in American Indian studies requires 18 credit hours. At least 12 hours must be upper-division coursework, and all courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 9 credit hours

AIS 180: Introduction to American Indian Studies (C) (3)

AIS 285: Federal Indian Policy (H & C) (3)

AIS 380: Contemporary Issues of American Indian Nations (C) (3)

Electives (select three) -- 9 credit hours

AIS 320: American Indian Philosophies and World Views (HU & C) (3)

AIS 360: Issues in Urban Indian Country (C) (3)

AIS 381: American Indian Women (C) (3)

AIS 385: Entrepreneurship for American Indian Sustainability (3)

AIS 440: Cultural Professionalism (C) (3)

AIS 455: Human Rights and Cultural Resource Laws (3)

AIS 470: Tribal Governance (3)

AIS 480: Actualizing Decolonization (HU & C & G) (3)

AIS 484: Internship (3)

AIS 499: Individualized Instruction (3)

ENG 359: Indigenous American Literature ((L or HU) & C) (3)

HST 337: American Indian History to 1900 ((HU or SB) & C & H) (3)

HST 338: American Indian History since 1900 ((HU or SB) & C & H) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BS in American Indian studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

American Studies Minor (ASAMSMIN)

Campus: West

Description:

The American studies minor gives students the opportunity to pursue an interest in the interdisciplinary study of American culture. This interdisciplinary minor is particularly appropriate for students majoring in one of the humanities or social sciences disciplines.

The program is offered by the School of Humanities, Arts and Cultural Studies.

Program Requirements:

The minor in American studies consists of 18 credit hours. A minimum of 12 credit hours must be completed through courses offered by the School of Humanities, Arts, and Cultural Studies. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 6 credit hours

AMS 201: Introduction to American Studies (L & C) (3)

HRC 200: Introduction to Social and Cultural Analysis (SB & C) (3)

Upper Division Electives -- 12 credit hours

AMS 326: Popular Culture (3)

AMS 330: American Lives (HU & C) (3)

AMS 334: Class in America (SB) (3)

AMS 336 / ENG 334 / ETH 334: The American Southwest in Literature and Film ((L or HU) & C) (3)

AMS 353 / ENG 353 / ETH 353: African American Literature: Beginnings through the Harlem Renaissance ((L or HU) & C) (3)

AMS 354 / ENG 354 / ETH 354: African American Literature: Harlem Renaissance to the Present ((L or HU) & C) (3)

AMS 380 / ETH 380 / WST 380: Race, Gender, and Class (SB & C) (3)

AMS 412: Studies in American Politics & Law (H) (3)

AMS 428 / ETH 428 / LAS 428: Peoples and Cultures of the American West, to 1848 (SB & H) (3)

AMS 449 / ETH 449 / WST 449: Hate Speech, Manifestos, and Radical Writings (SB & C) (3)

AMS 450 / ETH 450 / LAS 450: Latina/os, Schooling and Social Inequality (C) (3)

AMS 469 / ETH 469 / WST 469: Abject Bodies and the Politics of Trash (SB & C) (3)

ENG 337: Major American Novels (L or HU) (3)

HST 320: U.S. Urban History since 1850 (SB & H) (3)

HST 337: American Indian History to 1900 ((HU or SB) & C & H) (3)

HST 413: Contemporary America ((L or SB) & H) (3)

HST 419: 20th Century Chicano/a History (C) (3)

REL 321: Religion in America ((L or HU) & C & H) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: None

Other Enrollment Requirements: None

The minor in American studies is open to all ASU undergraduate majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Anthropology Minor (LAASBMIN)

Campus: Tempe, Online

Description:

Coursework in anthropology complements many majors and provides critical thinking skills for any career that requires understanding human behavior and its motivations, including medicine, marketing, business, consulting and human resources.

A minor in anthropology rounds out the academic experience by focusing on the lessons and people that make human societies so interesting and challenging to understand, both in the past and in modern times.

A focus in biological anthropology is perfect for a premedical track where things like understanding why a specific disease exists is important while a focus in social anthropology yields understanding in how human groups actually function. Both provide a competitive advantage in the workforce as students learn how to problem-solve creatively and better understand themselves and others.

Many program faculty hold titles of national distinction and are recognized experts in topics such as material goods, death and human remains, identity, evolution, primates and more.

Program Requirements:

The anthropology minor requires a minimum of 18 credit hours, at least 12 of which must be upper-division. Only courses completed with a grade of "C" (2.00 on a 4.00 scale) can be used to fulfill minor requirements.

The minor in anthropology is also available in an online format to complement the studies of ASU ONLINE students.

Required Introductory Courses (choose two) -- 6 credit hours

ASB 102: Introduction to Cultural Anthropology (SB & G) (3)

ASB 222: Buried Cities and Lost Tribes ((HU or SB) & G & H) or ASB 223: Aztecs, Incas and Mayas ((HU or SB) & G & H) (3)

ASM 104: Bones, Stones, and Human Evolution (SB or SG) (4)

Upper-Division Subfield Courses -- 12 credit hours

Students choose 12 upper-division credit hours from the subfields of archaeology, evolutionary anthropology and sociocultural anthropology (including linguistics). The particular required introductory courses selected may limit the courses available for use as subfield courses. At least two of the three subfields must be represented. (12)

Archaeology Subfield

ASB 301 / HST 301: Global History of Health (SB & G & H) (3)

ASB 326: Human Impacts on Ancient Environments (SB & H) (3)

ASB 330: Understanding Archaeology (SB) (3)

ASB 333: Frauds, Myths and Mysteries ((HU or SB) & G) (3)

ASB 335: Ancient Ruins of the Southwest (SB & H & C) (3)

ASB 337: Pyramids and Hieroglyphs: Life in Ancient Mesoamerica ((HU or SB) & G & H) (3)

ASB 361: Pleistocene Archaeology (H) (3)

ASB 362: People and Plants (3)

ASB 366 / AFR 366: African Archaeology: Precolonial Urban Culture (SB & H) (3)

ASB 368: Hunter-Gatherers (SB) (3)

ASB 490: Earliest Cities (SB & H) (3)

ASM 338: Bioarchaeology and the Human Skeleton (9)

ASM 338: Field Archaeology & Geophysical Testing (9)

ASM 350: Geoarchaeology (3)

ASM 365: Doing Archaeology (3)

ASM 450: Bioarchaeology (SB & G) (3)

ASM 494: Archaeoinformatic Methods for Fieldwork (3)

Physical Subfield

ASB 301 / HST 301: Global History of Health (SB & G & H) (3)

ASB 368: Hunter-Gatherers (SB) (3)

ASB 394: Modeling Simulation Neglected Tropical Diseases (3)

ASB 494: Applied Epidemiology (3)

ASB 494: Evolutionary Medicine (3)

ASB 494: Maternal and Child Health (3)

ASB 494: Reproductive Ecology (3)

ASM 301: Peopling of the World (SB) (3)

ASM 313: Great Adaptations (3)

ASM 332: Life and Death in Ancient Egypt (3)

ASM 338: Bioarchaeology and the Human Skeleton (9)

ASM 341: Human Osteology (4)

ASM 342 / BIO 327: Evolution of Human Behavior (3)

ASM 344: Fossil Hominids (4)

ASM 345: Disease and Human Evolution (3)

ASM 394: Evolution and Medicine Visiting Speaker Recitation (1)

ASM 401: Health and Human Biology (3)

ASM 443: Primatology (3)
 ASM 446 / BIO 446: Principles of Human Genetics (L) (3)
 ASM 450: Bioarchaeology (SB & G) (3)
 ASM 452: Dental Anthropology (SG) (4)
 ASM 456: Infectious Disease and Human Evolution (3)
 ASM 459: Forensic Anthropology (3)
 ASM 460: Human Growth and Development: An Evolutionary Perspective (3)
 ASM 465: Quantification and Analysis for Anthropologists (CS) (3)
 ASM 494: Bayesian Statistics in Theory and Practice (3)
 ASM 494: Evolution and Mental Disorders (3)
 ASM 494: Evolution of Technology (3)
 ASM 494: Evolutionary Medicine and Global Health (3)
 ASM 494: Models in Social Evolution (3)
 ASM 494: Social Complexity (3)

Sociocultural Subfield

ASB 300: Food and Culture ((L or SB) & C) (3)
 ASB 302: Ethnographic Field Study ((L or SB) & G) (3)
 ASB 305: Poverty and Global Health ((L or SB) & G) (3)
 ASB 310 / AFR 300: Precolonial Africa (SB & G & H) (3)
 ASB 311: Principles of Social Anthropology (SB & G & H) (3)
 ASB 316: Money and Culture (L or SB) (3)
 ASB 319: The North American Indian (3)
 ASB 322: Peoples of Latin America ((L or SB) & G) (3)
 ASB 325: Peoples of Southeast Asia (G) (3)
 ASB 327: Disaster! ((L or SB) & C) (3)
 ASB 336 / AFR 336: African Art (HU & G) (3)
 ASB 339 / POS 339 / SBS 339 / SOC 339: Grassroots Social Movements (SB) (3)
 ASB 340 / SOC 328: Migration and Culture (SB & G) (3)
 ASB 342 / SBS 342 / SOC 342: Mexico-U.S. Borderlands (SB & C) (3)
 ASB 343 / PUP 343 / SOS 343 / TCL 343: Latinas/os and the Environment (3)
 ASB 344 / SOC 334: Technology and Society (L or SB) (3)
 ASB 346: Marriage and Family Diversity (SB & C) (3)
 ASB 348 / ENG 348 / TCL 348: The Borders of Language (3)
 ASB 350: Anthropology and Art (HU) (3)
 ASB 353 / SOC 353: Death and Dying in Cross-Cultural Perspective ((HU or SB) & G) (3)
 ASB 355: Traditional Medicine and Healing (HU or SB) (3)
 ASB 356 / GCU 356 / POS 354 / SBS 356 / SOC 356: Central American Studies (SB & G) (3)
 ASB 357: Society, Drugs and Health (SB & G) (3)
 ASB 358 / AFR 358: The Yoruba and the Atlantic World (3)
 ASB 370 / SOS 370: Ethics of Eating (L or SB) (3)
 ASB 371 / HST 371 / SLC 371 / SPA 371 / TCL 371: Language Hegemony and Culture (3)
 ASB 374 / POS 374 / SBS 374 / SOC 374: Cultures and Politics of the Internet (SB) (3)
 ASB 375 / SOS 375: Humans and the Environment: What's the Connection? ((L or SB) & G) (3)
 ASB 376: Global Health Policy (3)
 ASB 378 / TCL 378: Globalization: Migration, Mass Media, McDonald's ((L or SB) & C) (3)
 ASB 380: Language, Culture and Gender (SB) (3)
 ASB 389 / SBS 389 / SOC 389: Ethnographic Field Lab (1)
 ASB 394: Culture and Society Transformation (3)
 ASB 394: Statistics for Social Scientists (3)
 ASB 412: History of Anthropology (L or SB) (3)
 ASB 421: Education and Society (SB) (3)
 ASB 442 / SBS 460: Global Cities (SB & G) (3)
 ASB 443 / SSH 403: Cross-Cultural Studies in Global Health ((L or SB) & G) (3)
 ASB 447 / POS 447 / SBS 447: Citizenship, Nationalism and Identity (SB & C & G) (3)
 ASB 452: Community Partnerships for Global Health (SB) (3)
 ASB 455: Practicum for Social Sciences (SB) (3)
 ASB 457: Global Mental Health ((L or SB) & G) (3)
 ASB 462: Medical Anthropology: Culture and Health (SB & C) (3)
 ASB 463 / SOS 463 / TCL 443: Political Ecology of the Border (SB & G) (3)
 ASB 464 / TCL 444: The Ethnography of Mexico and the Borderlands (SB & G) (3)
 ASB 466 / AFR 466: Peoples and Cultures of Africa (SB & G) (3)
 ASB 494: Ethnography of Schooling in the Borderlands (3)
 ASB 494: Facing Immigration (3)

ASB 494: Facing Immigration II (3)

ASM 414 / SOS 414: Urban and Environmental Health (SB) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in anthropology; BS in anthropology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/undergraduate/minors/anthropology>)

Applied Biological Sciences Minor (TSABSMIN)

Campus: Polytechnic

Description:

The applied biological sciences minor is a rigorous and practical program. Consistent with a polytechnic vision, this minor involves extensive student interaction with faculty through experience-based learning activities, including:

- faculty-guided research and service-learning projects
- field trips
- internships
- laboratories

Mastery of fundamental biological principles is emphasized through quality learning in the classroom and hands-on activities in laboratories and in outdoor settings that include the Sonoran Desert, surrounding ecosystems and the landscape of the greater Phoenix area.

Program Requirements:

The applied biological sciences minor consists of 23 credit hours.

Required Courses -- 8 credit hours

BIO 181: General Biology I (SQ) (4)

BIO 182: General Biology II (SG) (4)

Electives -- 15 credit hours

ABS Elective (6)

ABS Upper Division Elective (9)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: All applied biological sciences, biological sciences or biology majors at ASU

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Applied Computing Minor (ASACOMIN)

Campus: West

Description:

The minor in applied computing combines technical computing skills with an understanding of the impact of computer science in real-world contexts.

Coursework in the applied computing minor provides a depth of knowledge in databases, networks and systems and gives students from other disciplines a computational component to their major field of study.

Computational and problem-solving skills are in high demand in a multitude of career fields including cybersecurity, web administration, business, government, education, science, medicine and telecommunications.

The program is offered by the School of Mathematical and Natural Sciences.

Program Requirements:

The minor in applied computing consists of a minimum of 15 credit hours. At least nine credit hours must be upper-division. All courses used to satisfy requirements for the certificate must be passed with a "C" (2.00) or better.

Required Courses -- 15 credit hours

ACO 201: Data Structures and Algorithms (CS) (3)

ACO 240: Introduction to Programming Languages (3)

ACO 320: Database Systems (3)

ACO 330: Computer Networks (3)

ACO 350: Systems Programming (CS) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BS in applied computing; BS in applied computing (cybersecurity)

Other Enrollment Requirements: A "C" or better is required in ACO 102 Object-Oriented Programming and MAT 210 Brief Calculus in order to enroll in the required minor course, ACO 201.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor

requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Applied Ethics Minor (ASAPETHMIN)

Campus: West

Description:

Students pursuing the applied ethics minor have the opportunity to develop their critical thinking, reading and writing capacities while exploring philosophy and ethical theory. They also have the opportunity to do so in a manner that explicitly complements their major by focusing on one of the minor's track options. This program provides students an opportunity to gain a humanistic perspective on a nonhumanities field of study, such as health sciences, business and computer science, thereby adding nuance and depth to their educational experience.

Program Requirements:

The minor in applied ethics consists of 18 credit hours; a minimum of 12 credit hours must be upper-division. Program requirements include nine credit hours of required courses and nine credit hours in one chosen track: Bioethics; Environmental Ethics; Business Ethics; Social Sciences and Ethics; Religion and Ethics; or General Ethics. All courses used to fulfill the requirements of this minor must be passed with a "C" (2.00) or better, and at least six credit hours must be taken in the School of Humanities, Arts and Cultural Studies.

Required Courses -- 9 credit hours

IAS 406 / PHI 406 / FOR 406: Moral Dilemmas (L or HU) (3)
PHI 105: Intro to Ethics (HU) (3)
PHI 306: Applied Ethics (HU) (3)

Applied Ethics Elective Tracks -- 9 credit hours

Select 9 credit hours from one of the tracks below (9)

Bioethics Track

IAS 340 / PHI 320 / BIO 312: Bioethics (HU) (3)
LSC 362: The Human Environment (3)
LSC 363: Genes, Race, Gender, and Society (L) (3)
PHI 120: Introduction to Medical and Bioethics (HU) (3)
PHI 494 / REL 494: Issues in Death & Dying (3)
PSY 447: Psychology of Aging (SB) (3)
SOC 400: Perspectives on Aging (SB) (3)

Environmental Ethics Track

IAS 407 / PHI 407: Environmental Philosophy and Policy (L or HU) (3)
IAS 409 / PHI 409: Eco-Community Ethics (HU) (3)
LSC 362: The Human Environment (3)
LSC 394: Environmental Disasters (3)
PHI 310 / BIO 324: Environmental Ethics (HU) (3)

Business Ethics Track

Required:

PHI 360: Business and Professional Ethics (HU) or LES 305: Business Law and Ethics for Managers (3)

Electives:

ACO 402 / CIS 402: Privacy, Ethics and Compliance Issues (3)
IAS 407 / PHI 407: Environmental Philosophy and Policy (L or HU) (3)
IAS 409 / PHI 409: Eco-Community Ethics (HU) (3)
LES 305: Business Law and Ethics for Managers (3)
PHI 360: Business and Professional Ethics (HU) (3)

POS 300: Contemporary Global Controversies (SB & G) (3)

Social Sciences and Ethics Track

ENG 401: Topics in Critical Theory (3)

PHI 304: Existentialism (HU) (3)

PHI 307: Philosophy of Law (HU) (3)

PHI 417 / IAS 417: Philosophy of Censorship (L or HU) (3)

PHI 439: Philosophy of Love and Sex (3)

PHI 494 / REL 494: Issues in Death & Dying (3)

PSY 447: Psychology of Aging (SB) (3)

SOC 400: Perspectives on Aging (SB) (3)

Religion and Ethics Track

IAS 430: Science and Religion (L or HU) (3)

PHI 421: The Ethics of Belief (3)

PHI 494 / REL 494: Issues in Death & Dying (3)

REL 321: Religion in America ((L or HU) & C & H) (3)

REL 381: Religion and Moral Issues (L or HU) (3)

REL 390 / WST 390: Women, Gender and Religion (HU & G) (3)

General Ethics Track

ENG 401: Topics in Critical Theory (3)

IAP 222: Games and Ethics (3)

IAS 340 / PHI 320 / BIO 312: Bioethics (HU) (3)

IAS 407 / PHI 407: Environmental Philosophy and Policy (L or HU) (3)

IAS 409 / PHI 409: Eco-Community Ethics (HU) (3)

IAS 430: Science and Religion (L or HU) (3)

PHI 120: Introduction to Medical and Bioethics (HU) (3)

PHI 303 / REL 300: The Future of Religions (L or HU) (3)

PHI 304: Existentialism (HU) (3)

PHI 307: Philosophy of Law (HU) (3)

PHI 310 / BIO 324: Environmental Ethics (HU) (3)

PHI 360: Business and Professional Ethics (HU) (3)

PHI 417 / IAS 417: Philosophy of Censorship (L or HU) (3)

PHI 421: The Ethics of Belief (3)

PHI 439: Philosophy of Love and Sex (3)

PHI 494 / REL 494: Issues in Death & Dying (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BA in philosophy, religion and society

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor. Students should contact their academic advisor for more information.

Applied Mathematics Minor (LSAPMMIN)

Campus: Polytechnic

Description:

The minor in applied mathematics in the College of Integrative Sciences and Arts is designed to enable students to understand and apply mathematics most commonly used in the fields of business, economics, engineering, physics, computer sciences, life sciences, social sciences and sustainability. The minor is recommended for students who plan to major in these diverse fields, are preparing for further graduate study or who wish for increased employment options.

The coursework explores the study of advanced applied mathematical topics with an emphasis on applied sciences. Students with a minor in applied mathematics learn to use theories and techniques, such as mathematical modeling, computational methods and statistics to resolve practical, real-world problems.

Program Requirements:

The applied mathematics minor consists of 21 credit hours, including:

Required Courses -- 12 credit hours

MAT 266: Calculus for Engineers II (MA) or MAT 271: Calculus with Analytic Geometry II (MA) (3-4)

MAT 267: Calculus for Engineers III (MA) or MAT 272: Calculus with Analytic Geometry III (MA) (3-4)

MAT 275: Modern Differential Equations (MA) (3)

MAT 343: Applied Linear Algebra (3)

Electives (choose three courses) -- 9 credit hours

MAT 300: Mathematical Structures (L) (3)

MAT 310: Introduction to Geometry (3)

MAT 495: Undergraduate Research or MAT 499: Individualized Instruction (3-4)

STP 420: Introductory Applied Statistics (CS) (3)

PHY 201: Mathematical Methods in Physics I (CS) (3)

At least nine credit hours of courses must be offered by the College of Integrative Sciences and Arts.

A minimum of 15 credit hours of the minor must be ASU credit.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BA in applied mathematics

Other Enrollment Requirements: MAT 265 or 270 with a "C" or better.

The minor in applied mathematics is open to all ASU undergraduate majors. Students should consult an advisor in the department of their major to determine if the minor is consistent with their educational goals and to be recognized in their particular major.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Arabic Studies Minor (LAARBMIN)

Campus: Tempe

Description:

The minor program in Arabic studies provides students with instruction in Modern Standard Arabic as well as Arab culture and literature. Students completing the prescribed coursework are expected to be able to communicate effectively in Arabic and interact with native speakers of the language as well as reading authentic material in Arabic and writing paragraphs in Modern Standard Arabic.

Literature courses expand students' knowledge in Arabic, the Middle East and Islamic culture and civilization. Students of all academic disciplines doing research or seeking employment in areas related to the Middle East or other parts of the Arab world will find the minor in Arabic highly beneficial.

Students are encouraged to participate in a study abroad program to enhance their education and overall minor experience. Students should visit <https://mystudyabroad.asu.edu> (<https://mystudyabroad.asu.edu>) for more information.

Program Requirements:

The minor in Arabic studies requires 28 credit hours of courses detailed below. A minimum grade of "C" (2.00 on a 4.00 scale) or better is required in each course. Course substitutions are allowed for heritage and advanced speakers of the language.

Required Courses -- 25 credit hours

ARB 201: Intermediate Arabic I (G) (5)

ARB 202: Intermediate Arabic II (G) (5)

ARB 311: Advanced Arabic Skills I (3)

ARB 331: Arabic/Islamic Culture and Literature (HU & H & G) (3)

ARB 341: Quran Text and Women (HU & H) or ARB 351: Classical Arabic Literature (3)

ARB 352: Modern Arabic Literature in Translation or ARB 422: Advanced Arabic Media (3)

ARB 411: Advanced Arabic Skills II (3)

Related Area (choose one) -- 3 credit hours

AFR 372: Islam and Islamic Societies in Africa: Social and Political History (G) (3)

AFR 373: Islam and World Affairs (G) (3)

AFR 480: Different Voices Within Contemporary Islamic Discourse (3)

ARB 321: Arabic Conversation I (3)

ARB 335: Arabic Culture and Islam (G) (3)

ARB 336: Introduction to the Qur'an (G) (3)

ARB 337: Hadith and Prophetic Tradition (3)

ARB 340: Arabic Translation (3)

ARB 341: Quran Text and Women (HU & H) (3)

ARB 351: Classical Arabic Literature (3)

ARB 352: Modern Arabic Literature in Translation (HU & G) (3)

ARB 360: Islamic Philosophical Literature (3)

ARB 394: Colloquial Arabic: Levantine (3)

ARB 421: Arabic Conversation II (3)

ARB 422: Advanced Arabic Media (3)

ARB 427: Arabic Prose: Reading the Arabian Nights (3)

HST 372: Modern Middle East (SB & G & H) (3)

REL 365: Islamic Civilization (HU & H) (3)

REL 366: Islam in the Modern World (HU & G) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BA in international letters and cultures (Arabic studies)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the

college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Architectural Studies Minor (ARSTDMIN)

Campus: Tempe

Description:

The architectural studies minor is available to nonarchitecture majors interested in this field.

The courses are designed to provide an overview of architecture throughout history while focusing on architectural design, with the intention of exploring the process of architectural thinking.

Program Requirements:

A minimum of 18 credit hours (to include 12 credit hours of upper-division coursework) are required for the minor. A minimum grade of "C" (2.00) is required in all classes for the minor.

A minimum GPA of 2.50 in minor courses is required to earn the minor in architectural studies.

Lower Division Options -- 6 credit hours

ALA 100: Introduction to Environmental Design (HU & H & G) (3)

ALA 102: Landscapes and Sustainability (HU & G) (3)

ALA 235: Introduction to Computer Modeling (CS) (3)

ATE 242: Introduction to Architectural Technology (3)

Notes: Instructor Consent Required

Upper Division Options -- 12 credit hours

ANP 494: Special Topics (3)

APH 313: History of Architecture I ((L or HU) & G & H) (3)

APH 314: History of Architecture II ((L or HU) & G & H) (3)

APH 394: Special Topics (3)

APH 405: Contemporary Architecture and Urbanism 1970 to the Present (HU & H) (3)

APH 414: Great Cities ((L or HU) & H) (3)

APH 421: First Concepts: What is... The Writing, Philosophy, and Culture of Architecture (L or HU) (3)

APH 494: Special Topics (3)

APH 499: Individualized Instruction (1-3)

Notes: APH 499 requires a petition to The Design School.

ARP 451: Architecture Field Studies (1-6)

ATE 361: Architectural Technology I (3)

Notes: Instructor Consent Required

ATE 362: Architectural Technology II (3)

Notes: Instructor Consent Required

ATE 452: Architectural Technology III (3)

Notes: Instructor Consent Required

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.50

Incompatible Majors: BSD in architectural studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Art History Minor (FAARTHMIN)

Campus: Tempe, Online

Description:

The art history minor is designed for students who are interested in a broad introduction to the study of the history of art. In giving substantial chronological exposure to the history of art from diverse cultures, the minor program strengthens academic preparation and provides students with many options to select courses based on their individual interests.

A minor in art history, especially in conjunction with a major in another field, enhances opportunities for future graduate study.

Program Requirements:

The School of Art offers a minor in art history consisting of 18 credit hours of coursework, including 12 upper-division electives. A minimum grade of "C" (2.00) is required in all classes for the minor. For those pursuing a minor, a minimum overall GPA of "C" (2.00) is required. Courses may not be double counted in a major and the minor, and a minimum of 12 credit hours of resident credit at ASU are required.

ARS 100 and ARS 300 may not be used toward an art history minor if the student has credit in ARS 101 and ARS 102. If a student has completed ARS 100 or ARS 300, then they must complete ARS 201 and ARS 202 instead of ARS 101 and 102.

Core Courses -- 6 credit hours

ARS 101: Art from Prehistory Through Middle Ages (HU & H) (3)

ARS 102: Art from Renaissance to Modernism (HU & H) (3)

Art History Upper Division Courses -- 12 credit hours

ARS Upper Division Elective (12)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BA in art (art history)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Asian Languages (Chinese) Minor (LACHIMIN)

Campus: Tempe

Description:

Students pursuing the minor in Asian languages with a focus in Chinese gain an understanding of the language, literature and cultures of China. Students are encouraged to participate in a study abroad program to enhance their education and overall minor experience.

Highly motivated students interested in learning Chinese to professional-level proficiency while simultaneously pursuing the Asian languages minor with a focus in Chinese and undergraduate major of their choice are encouraged to apply to the Chinese Language Flagship Program:
<https://silc.asu.edu/chineseflagship> (<https://silc.asu.edu/chineseflagship>).

Program Requirements:

The minor in Asian languages (Chinese) consists of 18 credit hours, of which 12 credit hours must be upper-division.
Course substitutions are allowed for heritage and advanced speakers of the language.

Required Courses -- 10 credit hours

CHI 301: Third-Year Chinese I (G) (5)

CHI 302: Third-Year Chinese II (G) (5)

CHI Electives -- 8 credit hours

CHI 201: Second-Year Chinese I (G) AND CHI 202: Second-Year Chinese II (G) or CHI 210: Intensive Chinese II (6)

Notes: CHI 201 and CHI 202 grant 5 credit hours each. The extra 4 credits earned will be applied to the minimum 120 credit hours needed for graduation. Students may opt to take CHI 210 Intensive Chinese II, an 8 credit hour course equivalent to CHI 201 and CHI 202. The extra 2 credits earned will be applied to the minimum 120 credit hours for graduation.

CHI 307: Introduction to Literary Chinese I (HU) (3)

CHI 308: Introduction to Literary Chinese II (HU) (3)

CHI 321: Chinese Literature (HU) (3)

CHI 322: Chinese Literature (HU & G) (3)

CHI 333: China (SB & H) (3)

CHI 336: Interpreting China's Classics ((L or HU) & H) (3)

CHI 338: The Daoist Bible: The Daode jing (L or HU) (3)

CHI 345: Chinese Film and Civilization (3)

CHI 348: Pathways into Chinese Culture (3)

CHI 380: The Chinese Language (3)

CHI 401: Fourth-Year Chinese I (G) (3)

CHI 402: Fourth-Year Chinese II (G) (3)

CHI 407: Chinese for Academic and Professional Purposes I (G) (3)

CHI 408: Chinese for Academic and Professional Purposes II (G) (3)

CHI 451: Chinese Cultural History I ((HU or SB) & H) (3)

CHI 452: Chinese Cultural History II (SB & G & H) (3)

CHI 470: Modern Chinese Literature and Culture (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BA in Asian languages (Chinese); BA in Asian languages (Chinese) --- Chinese flagship; BA in business (Chinese language and culture)

Other Enrollment Requirements: None

Students who wish to add a minor in Asian Languages with a focus in Chinese to the bachelor's degree program they are pursuing may do so by
Academic Catalog Archive 2020-2021 1246

contacting the School of International Letters and Cultures advising office.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Asian Languages (Japanese) Minor (LAJPNMIN)

Campus: Tempe

Description:

Students pursuing the minor in Asian languages with a focus on Japanese gain an understanding of the language, literature and cultures of Japan.

There are opportunities to partake in study abroad programs, which can serve to enhance a student's minor experience and education. Students should go to <https://mystudyabroad.asu.edu> (<https://mystudyabroad.asu.edu>) for more information.

Program Requirements:

The minor in Asian languages (Japanese) consists of 18 credit hours, of which 12 credit hours must be upper-division.
Course substitutions are allowed for heritage and advanced speakers of the language.

Required Courses -- 6 credit hours

JPN 301: Third-Year Japanese I (G) (3)

JPN 302: Third-Year Japanese II (G) (3)

Elective Courses -- 12 credit hours

JPN 309: Japanese Oral Communication I (<https://webapp4.asu.edu/catalog/courselist?s=JPN&l=200-299&t=2207&hon=F>) > JPN 2** Elective (6)
Notes: JPN 201 (5 credit hours) and JPN 202 (5 credit hours) or JPN 210 (8 credit hours) are prerequisites to JPN 300-level language courses. A maximum of six credit hours of the JPN 200-level electives or prerequisite courses may be applied to the Japanese minor. Any remaining credit hours from the JPN 200-level courses will be applied to the 120 credit hours minimum for graduation.

(3)

JPN 310: Japanese Oral Communication II (3)

JPN 311: Japanese Composition I (G) (3)

JPN 394: Special Topics (3)

JPN 401: Reading Modern Japanese Texts I ((L or HU) & G) (3)

JPN 414: Introduction to Classical Japanese (3)

JPN 415: Advanced Classical Japanese (3)

JPN 445: Readings in Modern Japanese Letters and Culture (3)

JPN 485: Literary Translation: Theory and Practice (3)

JPN 492: Honors Directed Study or JPN 493: Honors Thesis (L) (3)

JPN 494: Special Topics (3)

JPN 499: Individualized Instruction (3)

SLC 421: Japanese Literature in Translation ((L or HU) & G) (3)

Notes: A maximum of 3 credit hours of SLC 421 may be applied to the Japanese minor.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BA in Asian languages (Japanese)

Other Enrollment Requirements: None

Students who wish to add a minor in Asian Languages with a focus on Japanese to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Asian Pacific American Studies Minor (LAAPAMIN)

Campus: Tempe

Description:

The Asian Pacific American studies minor program focuses on the long history and rich contemporary experiences, cultures and communities of Asian Pacific Americans in the American Southwest. This minor benefits students pursuing careers involving the complex and rapidly changing Asian American and Pacific Islander populations and other culturally diverse populations.

Dedicated and inspiring faculty lead students through an interdisciplinary liberal arts program with emphasis on critical thinking, complex reasoning and solid writing skills, preparing them to engage in research that informs meaningful dialogues between policymakers, educators and society at large about Asian American and Pacific Islander communities. Students learn the challenges and opportunities of U.S. society and why race matters today, how people have worked together cooperatively to make positive change, and to identify solutions with creative, applied thought.

The Asian Pacific American studies program is housed in ASU's interdisciplinary School of Social Transformation, the only school of its kind in the United States.

Program Requirements:

The minor in Asian Pacific American studies requires a total of 18 credit hours, including six credit hours of core courses and 12 elective credit hours selected from courses with the APA prefix. A minimum of nine credit hours must be taken in residency at ASU. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

A minimum of nine credit hours must be upper-division coursework. No course may be used to satisfy more than one requirement in the minor.

Required Core Courses -- 6 credit hours

APA 200: Introduction to Asian Pacific American Studies ((HU or SB) & C) (3)

APA 360: Asian Pacific American Experience ((HU or SB) & C) (3)

Electives (choose four) -- 12 credit hours

APA 210: Introduction to Ethnic Studies in the U.S. (C) (3)

APA 310: Asian Pacific American Arts and Cultures (HU & C) (3)

APA 315: Asian Pacific American Literature (HU & C) (3)

APA 330: Asian Pacific American Genders and Sexualities ((L or SB) & C) (3)

APA 340: Asian Pacific Americans and Media (HU & C) (3)

APA 345: Asian Pacific Americans and Film (HU & C & H) (3)

APA 360: Special Topics (3)

APA 450: Asian Pacific American Contemporary Issues (SB & C) (3)

APA 484: Internship (3)

APA 499: Individualized Instruction (3)

APA 360 Asian Pacific American Experience is required for the core. The course may be repeated for APA elective credit under different topics.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in Asian Pacific American studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Astronomy Minor (LAASTMIN)

Campus: Tempe

Description:

The astronomy minor is designed for students interested in developing a basic understanding of astronomy and astrophysics and analyzing issues through a scientific viewpoint.

Program Requirements:

The minor in astronomy consists of a minimum of 24 credit hours. At least 12 credit hours must be upper-division courses. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 8 credit hours

AST 113: Astronomy Laboratory I (SQ) (1)

AST 114: Astronomy Laboratory II (SQ) (1)

AST 321: Introduction to Planetary and Stellar Astrophysics (SQ) (3)

AST 322: Introduction to Galactic and Extragalactic Astrophysics (SQ) (3)

Physics Core -- 8 credit hours

Student must complete two semesters of physics.

PHY 150: Physics I (SQ) or PHY 121: University Physics I: Mechanics (SQ) AND PHY 122: University Physics Laboratory I (SQ) (4)

PHY 151: Physics II (SQ) or PHY 131: University Physics II: Electricity and Magnetism (SQ) AND PHY 132: University Physics Laboratory II (SQ) or

PHY 252: Physics III (SQ) (4)

Electives -- 8 credit hours

Eight upper-division credit hours of electives are chosen in consultation with an academic advisor in the School of Earth and Space Exploration.

AST OR MAT OR PHY OR SES Upper Division Elective (8)

In order to satisfy SQ natural science general studies requirements, both a lecture and its corresponding laboratory section must be completed. Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatibles Majors: BS in earth and space exploration (astrophysics); BA in physics; BS in physics

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Astrophysics Minor (LAASTPHMIN)

Campus: Tempe

Description:

The astrophysics minor is designed for students interested in developing a background in the theoretical modeling and observational techniques of galactic and stellar astronomy, extragalactic astronomy and cosmology.

Students completing the minor are able to think critically about scientific problems by reducing complex problems to their most important attributes and are able to design experiments, observations and theoretical models that address those attributes.

Students pursuing an astrophysics minor are expected to have a strong background in physics and mathematics.

Program Requirements:

The minor in astrophysics consists of a minimum of 20 credit hours. At least 12 credit hours must be upper-division. Students complete 12 credit hours of required coursework and select one of three eight-credit hour options to complete the minor. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 12 credit hours

AST 321: Introduction to Planetary and Stellar Astrophysics (SQ) (3)
AST 322: Introduction to Galactic and Extragalactic Astrophysics (SQ) (3)
AST 421: Astrophysics I (3)
AST 422: Astrophysics II (3)

Electives Options -- 8 credit hours

Choose one of the following options for the additional eight credit hours. (8)

Option 1

SES 121: Earth, Solar System and Universe (SQ) (3)
SES 123: Earth, Solar System and Universe Laboratory (SQ) (1)
SES 126: Exploration of the Universe (3)
SES 128: Exploration of the Universe Lab (1)

Option 2

AST 111: Introduction to Solar Systems Astronomy (SQ) (3)
AST 113: Astronomy Laboratory I (SQ) (1)
AST 112: Introduction to Stars, Galaxies, and Cosmology (SQ) (3)
AST 114: Astronomy Laboratory II (SQ) (1)

Option 3

AST OR MAT OR PHY OR SES Upper Division Elective (8)

In order to satisfy SQ natural science requirements, both a lecture and its corresponding laboratory section must be completed. Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BS in earth and space exploration (astrophysics)

Other Enrollment Requirements: None

Biochemistry Minor (LABCHMIN)

Campus: Tempe, Online

Description:

The biochemistry minor program is designed to give students majoring in other disciplines a solid grounding in the basics of biochemistry to complement their major degree program. It is especially appropriate for students whose majors are in the various disciplines of life sciences, physics, engineering and geology and for students planning careers in the fields of medicine and health.

Program Requirements:

The minor in biochemistry comprises 28 credit hours of required courses, of which at least 12 credit hours must be at the upper-division level. Six of the 12 upper-division credit hours must be from courses offered by The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 28 credit hours

CHM 113: General Chemistry I (SQ) or CHM 117: General Chemistry for Majors I (SQ) AND CHM 111: General Chemistry Laboratory for Majors I (SQ) (4)

Notes: Students completing CHM 117 must also complete its corresponding CHM 111 lab.

CHM 116: General Chemistry II (SQ) or CHM 118: General Chemistry for Majors II (SQ) AND CHM 112: General Chemistry Laboratory for Majors II (SQ) (4)

Notes: Students completing CHM 118 must also complete its corresponding CHM 112 lab.

CHM 233: General Organic Chemistry I (3)

CHM 237: General Organic Chemistry Laboratory I (1)

CHM 234: General Organic Chemistry II (3)

CHM 238: General Organic Chemistry Laboratory II (1)

BCH 341: Physical Chemistry with a Biological Focus (3)

BCH 461: General Biochemistry (3)

BCH 462: General Biochemistry (3)

BCH 467: Analytical Biochemistry Laboratory (L) (3)

Notes: ASU Online students will complete BCH 467 in a compressed summer format.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS in applied biological sciences (all concentrations); BS in biochemistry (medicinal chemistry); BS in chemistry (environmental chemistry); BS in forensic science; BS in health sciences (preprofessional); BS in nutrition; BS in nutrition (human nutrition); BS in

biochemistry; BA in biochemistry; BS in chemistry; BA in chemistry

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu>)

Biological Sciences Minor (LABIOMIN)

Campus: Tempe, Online

Description:

Biological science encompasses the study of all living things and includes the study of basic organization and function, how organisms evolve, their roles in the natural environment, how hereditary information is transferred and the development of biotechnology.

The biological sciences minor is a program designed to provide students with a flexible curriculum that can be tailored to their interests.

Program Requirements:

The minor in biological sciences requires a minimum of 24 credit hours, of which at least 12 credit hours must be upper-division. At least six of the upper-division credit hours must be from courses offered by The College of Liberal Arts and Sciences.

The remaining elective credit hours may be chosen from those courses in the life sciences that can be used toward the majors offered by the school. Three credits of undergraduate research or internship (BIO 495 or BIO 484) can be allowed in the minor.

Core Minor Requirement (15-16 credits) -- 15 credit hours

BIO 181: General Biology I (SQ) or BIO 281: Conceptual Approaches to Biology for Majors I (SQ) (4)

BIO 182: General Biology II (SG) or BIO 282: Conceptual Approaches to Biology for Majors II (4)

BIO 340: General Genetics or MBB 347: Molecular Genetics: From Genes to Proteins (4)

BIO 345: Evolution or MIC 206: Microbiology Laboratory (SG) AND MIC 220: Biology of Microorganisms (3-4)

Electives (8-9 credits) -- 9 credit hours

BIO OR MBB OR MIC Upper Division Elective (8-9)

Students will complete 8-9 credit hours in electives selected from the BIO, MBB or MIC prefixes, all of which must be upper-division courses.

Electives not accepted in the biological sciences minor: lower-division biology courses including but not limited to: BIO 100, BIO 201, BIO 202, and MIC 205.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BS in biological sciences (all concentrations); BS in microbiology (all concentrations). This minor is not available to students majoring in the life sciences.

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in

pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Biology Minor (ASLSCMIN)

Campus: West

Description:

A minor in biology can be a valuable asset, particularly when paired with an appropriate major. For instance, a minor in biology paired with a major in political science provides a good background for someone who wanted to practice environmental law.

Program Requirements:

The minor in biology consists of 19 credit hours, of which 11 must be upper-division. A minimum of eight upper-division credit hours must be completed through courses offered by the School of Mathematical and Natural Sciences. Coursework taken to fulfill the requirements of the minor may not be used to fulfill requirements of a student's major. Consult with an academic advisor prior to enrollment. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirements -- 8 credit hours

BIO 182: General Biology II (SG) (4)

CHM 116: General Chemistry II (SQ) (4)

Ecology, Cell Biology, or Genetics Requirement -- 4 credit hours

BIO 320: Fundamentals of Ecology AND LSC 322: Fundamentals of Ecology Laboratory (4)

BIO 353: Cell Biology AND BIO 354: Cell Biology Laboratory (4)

LSC 347: Fundamentals of Genetics AND LSC 348: Fundamentals of Genetics Laboratory (4)

Upper-Division Electives -- 7 credit hours

BCH 371: Modern Concepts in Biochemistry (3)

BCH 372: Modern Concepts in Biochemistry Laboratory (1)

BIO 306: Modes of Biological Thought (L) (3)

BIO 320: Fundamentals of Ecology (3)

BIO 331: Animal Behavior (3)

BIO 340: General Genetics (4)

BIO 345: Evolution (3)

BIO 353: Cell Biology (3)

BIO 354: Cell Biology Laboratory (1)

BIO 360: Animal Physiology (3)

BIO 370: Vertebrate Zoology (4)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA and BS in biology; BA and BS in environmental science; BS in biology (environmental science); BS in biology (pharmacology/toxicology); BS in biotechnology and bioenterprise; BS in forensic science; BS in pharmacology and toxicology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Business Minor (BABUSMIN)

Campus: Tempe, Online

Description:

A minor in business is available to students who are interested in business courses but wish to pursue majors in other colleges. The courses available for the minor are designed to appeal to and inform the nonbusiness student while covering a broad range of topics that are important to managers, such as:

- accounting

- computer information systems
- economics
- finance
- management
- marketing
- supply chain management

Program Requirements:

Students must complete 18 credit hours (12 of which must be upper-division) of the specified business courses with a grade of "C" (2.00) or better in each course. At least 12 credit hours must be taken at ASU.

No more than six credit hours can be shared between this minor and other business certificates and minors.

Required Courses -- 15 credit hours

ACC 382: Accounting and Financial Analysis (3)

ECN 211: Macroeconomic Principles (SB) or ECN 212: Microeconomic Principles (SB) (3)

FIN 380: Personal Financial Management (3)

MGT 380: Management and Strategy for Nonmajors (3)

MKT 390: Essentials of Marketing (3)

Elective (select one) -- 3 credit hours

AGB 420: Food Advertising and Promotion (3)

AGB 445: Food Retailing (3)

AGB 456: Food Product Innovation and Development (3)

CIS 300: Web Design and Development (3)

CIS 308: Advanced Excel in Business (3)

ECN 211: Macroeconomic Principles (SB) or ECN 212: Microeconomic Principles (SB) (3)

FIN 331: Financial Markets and Institutions (3)

LES 380: Consumer Perspective of Business Law (3)

MKT 391: Essentials of Selling (3)

MKT 395: Essentials of Advertising and Marketing Communication (3)

REA 380: Real Estate Fundamentals (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

The upper-division courses specified for the minor are restricted to students with 56 earned credit hours and a minimum 2.00 ASU cumulative GPA. College of Liberal Arts and Sciences Economics majors must use ECN 211 and ECN 212 in their degree and will take an additional elective to replace that requirement in the minor.

ACC 231 may substitute for ACC 382, if previously taken.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BA in business

Other Enrollment Requirements: None

This minor is open to non-W. P. Carey majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Chemistry Minor (ASCHMMIN)

Campus: West

Description:

The minor program in chemistry offered by the School of Mathematical and Natural Sciences gives students expanded proficiency in the area of chemistry. The program's additional biochemistry and analytical chemistry courses gives students more experience in the advanced and integrative fields of chemistry.

Many of the growing career fields, such as forensic sciences, medicine and environmental quality, require a greater amount of chemistry than in the past. Therefore, students with a stronger chemistry background have a competitive advantage in these fields, and this chemistry minor highlights that expanded chemistry knowledge to students' future schools and employers.

Program Requirements:

The minor in chemistry consists of 25 credit hours. A minimum of nine credit hours must be taken through the School of Mathematical and Natural Sciences. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00).

Core Requirements -- 25 credit hours

BCH 371: Modern Concepts in Biochemistry AND BCH 372: Modern Concepts in Biochemistry Laboratory (4)

CHM 113: General Chemistry I (SQ) (4)

CHM 116: General Chemistry II (SQ) (4)

CHM 233: General Organic Chemistry I AND CHM 237: General Organic Chemistry Laboratory I (4)

CHM 234: General Organic Chemistry II AND CHM 238: General Organic Chemistry Laboratory II (4)

LSC 425: Analytical Chemistry for Life Sciences AND LSC 426: Analytical Chemistry for Life Sciences Lab (5)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA and BS in biology; BA and BS in environmental science; BS in biology (pharmacology/toxicology); BS in biology (environmental science); BS in biotechnology and bioenterprise; BS in forensic science; BS in pharmacology and toxicology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Chemistry Minor (LACHMMIN)

Campus: Tempe

Description:

The chemistry minor program is designed to give students majoring in other disciplines a solid grounding in the basics of chemistry in order to complement their major degree. It is especially appropriate for students whose majors are in the various disciplines of physics, materials science, geology, engineering and life sciences.

Program Requirements:

The minor in chemistry comprises 28 credit hours of required courses, of which at least 12 credit hours must be completed at the upper-division level. Six of the 12 upper-division credit hours must be taken from courses offered by The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 20 credit hours

CHM 113: General Chemistry I (SQ) or CHM 117: General Chemistry for Majors I (SQ) AND CHM 111: General Chemistry Laboratory for Majors I (SQ) (4)

Notes: Students who complete CHM 117 must also complete the corresponding CHM 111 lab.

CHM 116: General Chemistry II (SQ) or CHM 118: General Chemistry for Majors II (SQ) AND CHM 112: General Chemistry Laboratory for Majors II (SQ) (4)

Notes: Students who complete CHM 118 must also complete the corresponding CHM 112 lab.

CHM 233: General Organic Chemistry I (3)

CHM 237: General Organic Chemistry Laboratory I (1)

CHM 234: General Organic Chemistry II (3)

CHM 238: General Organic Chemistry Laboratory II (1)

CHM 325: Analytical Chemistry (3)

CHM 326: Advanced Analytical Chemistry Laboratory (1)

Options -- 8 credit hours

Choose one of the following options for the additional 8 credit hours. (8)

Option 1

BCH 361: Advanced Principles of Biochemistry (3)

BCH 367: Elementary Biochemistry Laboratory (1)

CHM 341: Elementary Physical Chemistry (3)

Notes: BCH 341 may not be used to substitute CHM 341.

CHM 343: Elementary Physical Chemistry Laboratory (1)

Option 2

CHM 345: Physical Chemistry I (3)

Notes: CHM 345 and CHM 348 are only offered in the Fall semester.

CHM 348: Physical Chemistry Laboratory I (L) (1)

CHM 346: Physical Chemistry II (3)

Notes: CHM 346 and CHM 349 are only offered in the Spring semester.

CHM 349: Physical Chemistry Laboratory II (L) (1)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS in applied biological sciences (all concentrations); BS and BA in biochemistry; BS in biochemistry (medicinal chemistry); BS and BA in chemistry; BS in chemistry (environmental chemistry); BS in forensic science; BS in health sciences (preprofessional); BS in nutrition; BS in nutrition (human nutrition)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. PSD 104

Civic and Economic Thought and Leadership Minor (LACELMIN)

Campus: Tempe

Description:

The minor program in civic and economic thought and leadership trains students to read and understand influential ideas in philosophy, economics and politics in order to become leaders in their field of study. Through faculty use of the Socratic method teaching style, students are challenged in the classroom and forced to think critically about the problems that impact society today.

Students interested in careers as lawyers, doctors, journalists, educators, law enforcement officials and political scientists benefit from a liberal arts education that provides the academic foundation they need to ask informed questions, make sound decisions for the common good and solve the difficult problems that leaders confront in any discipline.

Students in the minor participate in a high-impact curriculum and are eligible for a global intensive experience, leadership seminars, an internship program and special access to prominent scholars and visiting fellows.

Program Requirements:

The minor in civic and economic thought and leadership requires 18 credit hours, of which 12 credit hours must be upper-division. At least 12 credit hours must be taken from ASU. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 12 credit hours

- CEL 100: Great Ideas of Politics and Ethics (HU) (3)
- CEL 200: Great Debates in American Politics and Economics (HU) (3)
- CEL 300: Capitalism and Great Economic Debates (3)
- CEL 475: Statesmanship and American Grand Strategy (3)

Upper-Division Electives -- 6 credit hours

- CEL 305: Classical Political Philosophy and Statesmanship: The Greeks (3)
- CEL 320: Modern Political Thought: Origins and Debates about Modern Liberty (3)
- CEL 345: Classics of Modern Economic Thought: Smith to Hayek and Beyond (3)
- CEL 375: Politics and Leadership in the Age of Revolutions, 1776-1826 (3)
- CEL 394: Supervised Research (3)
- CEL 484: Internship (<https://webapp4.asu.edu/catalog/courselist?s=CEL&l=300-399&t=2207&hon=F>) > CEL 3** Elective (3)
- CEL 492: Honors Directed Study (3)
- CEL 493: Honors Thesis (3)
- CEL 4** Elective (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in civic and economic thought and leadership; BS in civic and economic thought and leadership

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Communication Minor (HSCMNMIN)

Campus: West

Description:

The minor program in communication provides students the opportunity to understand the role and function of communication in cultural, public, organizational and relational contexts. The program offers a flexible set of courses and is designed for students majoring in another field.

Program Requirements:

The minor in communication consists of 18 credit hours (a minimum of 12 credit hours must be upper-division). A minimum of nine credit hours must be taken through the School of Social and Behavioral Sciences. Students wishing to pursue the minor must meet with an academic advisor to construct a set of courses that reflect a particular area of specialty and interest. All courses must be passed with a minimum grade of "C" (2.00).

Required Courses -- 6 credit hours

COM 100: Introduction to Human Communication (SB) (3)

COM 225: Public Speaking (L) (3)

Upper Division Electives -- 12 credit hours

COM Upper Division Elective (12)

Up to three credit hours of COM 382, 383, 483, 484, 498 or 499 may be applied toward the minor.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA and BS in communication

Other Enrollment Requirements: None

The minor in communication is open to all ASU undergraduate majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Communication Minor (LACOMMIN)

Campus: Tempe, Online

Description:

The minor program in communication focuses on teaching students how communication processes create, maintain and transform identities, relationships, workplaces and communities.

Program Requirements:

The minor in communication consists of 18 credit hours. Nine of the 18 credit hours must be ASU resident credit courses, including six upper-division credit hours offered by The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 6 credit hours

COM 100: Introduction to Human Communication (SB) (3)

COM 225: Public Speaking (L) or COM 259: Communication in Business and the Professions (3)

Minor Electives (choose two) -- 6 credit hours

COM 310: Relational Communication (SB) (3)

COM 312: Communication, Conflict, and Negotiation (3)

COM 316: Gender and Communication (SB & C) (3)

COM 323: Communication Approaches to Popular Culture (C) (3)

Related Area -- 6 credit hours

SGS OR APA OR AFR OR TCL OR AIS Upper Division Elective (6)

No pass/fail, "Y" credit or credit/no-credit courses are allowed.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BA and BS in communication

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Community Health Minor (NUCHLTMIN)

Campus: Downtown Phoenix, West

Description:

The minor in community health is designed for students who want to create healthy, sustainable communities.

Community health focuses on the actions and conditions needed for the health and well-being of individuals, families and communities. Students acquire skills for working with teams in diverse settings to formulate research-based strategies that assist individuals to make healthy and sustainable lifestyle choices.

Program Requirements:

Required Courses -- 18 credit hours

HCR 220: Introduction to Health Professions and the U.S. Health Care System (H) (3)

HCR 231: Fundamentals of Community Health (3)

HCR 331: Communication within Communities (3)

HCR 335: Program Development and Management for Community Health (3)

HCR 336: Environmental Community Health (3)

HCR 435: Leaders in Community Health (3)

A "C" (2.00 on a 4.00 scale) or better is required in all courses.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS in community health

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Community Sports Management Minor (PPCSMMIN)

Campus: Downtown Phoenix

Description:

The community sports management minor focuses on helping students develop the skills they need to support recreational amateur sport programs within the community.

Sport programs exist in a number of settings, including nonprofit organizations, public agencies and corporate programs. For a student interested in a career in one of these settings, or simply interested in sport, this minor can provide additional skills relevant to any of those professions.

Program Requirements:

Core Courses -- 12 credit hours

CSM 201: Introduction to Community Sports (3)

Notes: Offered fall semester only

CSM 305: Sports Facility Operations and Management (3)

Notes: Offered spring semester only

CSM 407: Ethics and Legal Issues in Sports (3)

Notes: Offered fall semester only

PRM 315: Community Recreation Systems (3)

Notes: Offered fall semester only

Electives (choose two courses) -- 6 credit hours

CSM 335: Sports and Recreation for Youth Development (3)

Notes: Offered spring semester only

CSM 483: Sports Tourism (3)

Notes: Offered spring semester only

CSM 485: Sports Events (3)

Notes: Offered spring semester only

NLM 220: Introduction to Nonprofit Organizations (3)

NLM 310: Volunteer Management (3)

PRM 364: Foundations of Recreation Therapy (SB) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Computational Mathematical Sciences Minor (LACMSMIN)

Campus: Tempe

Description:

The computational mathematical sciences minor offers a structured curriculum that includes a foundation in calculus with a focus on applied math. Students develop a framework of scientific computing and numerical analysis skills.

Program Requirements:

The minor in computational mathematical sciences consists of a minimum of 18 credit hours. At least 12 credit hours must be completed at the upper-division level and all courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 18 credit hours

MAT 271: Calculus with Analytic Geometry II (MA) or MAT 266: Calculus for Engineers II (MA) (3-4)

MAT 272: Calculus with Analytic Geometry III (MA) or MAT 267: Calculus for Engineers III (MA) (3-4)

MAT 342: Linear Algebra or MAT 343: Applied Linear Algebra (3)

MAT 420: Scientific Computing (3)

MAT 421: Applied Computational Methods (CS) (3)

MAT 423: Numerical Analysis I (CS) or MAT 425: Numerical Analysis II (CS) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS in actuarial science; BS in applied mathematics; BS in computational mathematical science; BS in statistics, BA and BS in mathematics (including all concentrations); BAE in secondary education (mathematics)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Conflict Resolution Minor (ASCNRMIN)

Campus: West

Description:

The minor program in conflict resolution introduces students to theories and practices that enable them to understand, address and transform conflict while dealing with challenges both at the micro and the macro levels in professional and cross-cultural contexts and in individual and collective interactions.

Having engaged with subject areas in communication, conflict and peace studies, students will be ready to pursue further education or careers in business, mediation, advocacy, education, government and law.

Program Requirements:

The minor in conflict resolution consists of 15 credit hours. A minimum of nine credit hours must be upper-division. A minimum of six credit hours of COM courses must be taken through the School of Social and Behavioral Sciences. All courses must be passed with a minimum grade of "C" (2.00).

Required Courses -- 15 credit hours

COM 100: Introduction to Human Communication (SB) or COM 310: Relational Communication (SB)

(<https://webapp4.asu.edu/catalog/courselist?s=COM&l=upperdivision&t=2207&hon=F>) > COM Upper Division Elective (3)

Notes: COM 100 is a prerequisite to COM 310 and COM 312. If COM 100 has already been taken as a major requirement, a COM upper-division elective may be substituted.

(3)

COM 312: Communication, Conflict, and Negotiation (3)

COM 414: Crisis Communication or COM 415: Risk Communication (3)

PAX 230: Introduction to Peace Studies (G) or JHR 100: Introduction to Social Justice and Human Rights (SB & G) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: Two required courses in the minor have a minimum GPA of 2.00 (COM 310 and COM 312)

Incompatible Majors: BA in conflict resolution

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Construction Management Minor (ESCMGMIN)

Campus: Tempe

Description:

The minor program in construction management is comprised of coursework in construction management processes incorporating the technology and industry practices required to ensure a quality-built environment. Due to industry demands for increased numbers of skilled personnel, this minor provides much needed supplementary knowledge for architecture, engineering and business majors as well as students majoring in sustainability.

Program Requirements:

The minor in construction management requires 21 credit hours. A minimum cumulative 2.00 ASU GPA is needed to complete the minor.

Core Required Courses -- 21 credit hours

CON 244: Working Drawing Analysis (2)
CON 251: Microcomputer Applications for Construction (3)
CON 252: Building Construction Methods, Materials, and Equipment (3)
CON 383: Construction Estimating (4)
CON 453: Construction Technology (3)
CON 495: Construction Planning and Scheduling (CS) (3)
CON 496: Construction Contract Administration (L) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS in construction management; BSE in construction engineering

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Counseling and Applied Psychological Science Minor (LSCAPSMIN)

Campus: Polytechnic

Description:

Counseling and applied psychology coursework focuses on the promotion of psychological well-being. Students learn basic counseling skills and techniques to complement a variety of social science and health majors, including psychology, public health, interdisciplinary studies, social work and humanities, among many others.

Program Requirements:

Required Courses -- 9 credit hours

CAP 120: Introduction to Counseling (SB) (3)
CAP 220: Self in a Multicultural Society (C) (3)
CAP 240: Counseling Skills (3)

Electives (choose four courses) -- 12 credit hours

CAP 310: Addictions I: Foundations and Basic Principles (3)
CAP 315: Trauma and Crisis Intervention (3)
CAP 320: Theories of Counseling and Psychotherapy (3)
CAP 325: Professional Practice and Ethics in Counseling (3)
CAP 330: Group Counseling (3)
CAP 340: Multicultural Counseling Theory and Practice (3)
CAP 342: Community Outreach, Prevention and Intervention (3)
CAP 420: School Counseling (3)
CAP 440: Addictions II: Treatment, Recovery and Relapse Prevention (3)
FAS 331: Marriage and Family Relationships (SB) (3)
FAS 370: Family Ethnic and Cultural Diversity (SB & C) (3)
JUS 305: Principles of Justice Studies (SB) (3)
PSY 315: Personality Theory and Research (SB) (3)

PSY 320: Learning and Motivation (3)
PSY 341: Developmental Psychology (SB) (3)
PSY 350: Social Psychology (SB) (3)
PSY 366: Abnormal Psychology (SB) (3)
PSY 369: Biology of Human Sexuality (3)
PSY 385: Psychology of Gender (SB) (3)
PSY 444: Adolescent Psychology and Psychopathology (3)
PSY 472: Clinical Psychology (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS in counseling and applied psychological science

Other Enrollment Requirements: None

The minor in counseling and applied psychological science is open to all ASU undergraduate majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Criminology and Criminal Justice Minor (PPCRJMIN)

Campus: Downtown Phoenix, Online

Description:

The minor program in criminology and criminal justice allows students in other undergraduate programs at ASU to explore issues of crime, law and the criminal justice system. The program provides students with the tools to analyze complex issues and policies within the criminal justice system, enhancing students' ability to understand the nature of crime and the system response to law breaking.

In addition to the three required courses which provide a solid understanding of the field, each student selects electives to meet specific interests.

Criminal justice majors may not pursue a minor in criminal justice.

Program Requirements:

For this minor, students will:

1. at minimum, be in junior standing to take upper-division courses.
2. complete CRJ 100 as the prerequisite for all upper-division CRJ courses.
3. complete a minimum of 18 credit hours of graded classroom and online course work (internship or independent study not applicable).
4. complete a minimum of 12 credit hours of CRJ resident credit at ASU.
5. earn a grade of "C" (2.00 on a 4.00 scale) or better for all courses in the minor.
6. consider meeting with a criminal justice advisor prior to registration.

Required Courses -- 6 credit hours

CRJ 100: Introduction to Criminal Justice (SB) (3)
CRJ 309: Criminology (SB) (3)

Choose one of the following -- 3 credit hours

CRJ 203: Courts and Sentencing (3)

CRJ 230: Introduction to Policing (3)

CRJ 240: Introduction to Corrections (3)

Choose one of the following -- 3 credit hours

CRJ 306: Race, Ethnicity, Crime, and Criminal Justice (C) (3)

CRJ 305: Gender, Crime, and Criminal Justice (C) (3)

CRJ Electives -- 6 credit hours

CRJ Upper Division Elective (6)

Notes: Choose any two CRJ courses at the 300- or higher level.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS in criminology and criminal justice; BS in public service and public policy with the following concentrations: criminology, law and policy, or emergency management and homeland security

Other Enrollment Requirements: None

Applicants are asked to meet with a criminal justice advisor prior to registration.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/request-info>)

Dance Minor (FADANMIN)

Campus: Tempe

Description:

The minor program in dance provides a dynamic and culturally diverse learning environment in which students develop their creativity as artists, scholars and educators. The transdisciplinary curriculum promotes creative collaboration and a holistic approach to acquiring skills for successful career transitions. Movement practices, performance and creativity practice define the core of the program. The rich educational experience is further enhanced by studies in:

- criticism
- dance cultures
- dance history
- digital media
- movement science
- music
- pedagogy and leadership
- philosophy

- production
- somatics

Program Requirements:

The minor in dance consists of 19 credit hours of coursework, including 12 upper-division credit hours. A minimum grade of "C" (2.00) or higher is required in all classes for the minor.

A minimum GPA of 3.00 in minor courses is required to earn the minor in dance.

Choose one course -- 3 credit hours

DCE 100: Introduction to Dance (HU) (3)

DCE 201: Dance, Culture, and Global Contexts (HU) (3)

DCE 202: Dance in U.S. Popular Culture (HU & C) (3)

Choose one from the following -- 3 credit hours

DCE 300: Moving Histories (HU) (3)

DCE 301: Meaning in Motion (L or HU) (3)

DCE 303: The Body Condition(ed) (SB) (3)

DCE 350: Dance in the Classroom: Learning Through Movement (HU) (3)

DCE 402: Ethnography of Dance Practices (L) (3)

DCE 404: Dance and Ethics (3)

DCE 405: Rhetorical Moves (L or HU) (3)

Choose two from the following -- 4 credit hours

Students interested in enrolling in movement courses reserved for dance majors must gain instructor permission prior to enrolling.

DCE 110: Argentine Tango I (2)

DCE 111: Belly Dancing I (2)

DCE 112: Capoeira I (2)

DCE 113: Dances of Africa I (2)

DCE 114: Dances of India I (2)

DCE 115: Yoga I (2)

DCE 116: T'ai Chi Chuan I (2)

DCE 117: Feldenkrais I (2)

DCE 118: Yoga/Pilates (2)

DCE 120: Modern Dance I (2)

DCE 121: Ballet I (2)

DCE 122: Jazz I (2)

DCE 123: Hip Hop I (2)

DCE 124: Latin/Swing/Ballroom I (2)

DCE 125: Latin/Salsa I (2)

DCE 126: Country-Western (2)

DCE 133: Urban Movement Practices I (2)

DCE 134: Postmodern Contemporary I (2)

DCE 135: Contemporary Ballet I (2)

DCE 136: Somatic Practices I (2)

DCE 194: Special Topics (2)

DCE 210: Argentine Tango II (2)

DCE 211: Belly Dancing II (2)

DCE 216: T'ai Chi Ch'uan II (2)

DCE 220: Modern Dance II (2)

DCE 221: Ballet II (2)

DCE 222: Jazz II (2)

DCE 223: Hip Hop II (2)

DCE 224: Latin/Swing/Ballroom II (2)

DCE 225: Latin/Salsa II (2)

DCE 240: Media for Dance (CS) (3)

DCE 294: Special Topics (2)

DCE 324: Latin/Swing/Ballroom III (2)

Upper Division Dance Electives -- 9 credit hours

DCE Upper Division Elective (9)

minor.

Design Studies Minor (ARDSNMIN)

Campus: Tempe

Description:

Students interested in design can earn a minor in design studies through this nonstudio-based program of study that focuses on the design disciplines offered in the ASU Herberger Institute:

- architectural studies
- graphic design
- industrial design
- interior design
- landscape architecture

The courses may also appeal to students who wish to pursue the study of design within the BA in interdisciplinary studies.

Program Requirements:

Courses selected must satisfy the minimum requirement of 18 credit hours for the minor. 12 of the credit hours must be in 300-level or 400-level coursework.

To enhance understanding of the subject matter, some of the designated courses are sequential in nature and require certain prerequisites.

Consequently, students should carefully note the semester in which these particular courses are offered. All designated courses for the minor in design studies are lecture courses.

Lower Division Design Studies -- 6 credit hours

ALA 100: Introduction to Environmental Design (HU & H & G) (3)

ALA 102: Landscapes and Sustainability (HU & G) (3)

DSC 101: Design Awareness (HU & G) (3)

EDS 223: Design Thinking (3)

GRA 101: Designing Life (3)

GRA 111: Graphic Design History I (HU) (3)

GRA 112: Graphic Design History II (3)

GRA 225: Communication/Interaction Design Theory (3)

GRA 294: Illustrator (3)

GRA 294: InDesign (3)

GRA 294: Photoshop (3)

IND 242: Materials and Design (3)

IND 243: Design for Ecology and Social Equity (3)

INT 111: Interior Design Issues and Theories (HU) (3)

INT 121: Introduction to Computer Modeling for Interior Design (CS) (3)
INT 123: Introduction to Computer-Aided Design and Building Information Modeling (3)
INT 131: Design and Human Behavior (SB) (3)
LAP 254: Plant Materials (3)

Upper Division Design Studies -- 12 credit hours

APH 300: World Architecture I/Western Cultures (HU & H & G) or APH 313: History of Architecture I ((L or HU) & G & H) (3)
APH 314: History of Architecture II ((L or HU) & G & H) (3)
APH 405: Contemporary Architecture and Urbanism 1970 to the Present (HU & H) (3)
APH 414: Great Cities ((L or HU) & H) (3)
APH 421: First Concepts: What is... The Writing, Philosophy, and Culture of Architecture (L or HU) (3)
APH 461: Charles and Ray Eames (HU) (3)
APH 494: Special Topics (3)
DSC 394: Design Entrepreneurship & Society (3)

Digital Audiences Minor (CSDAUMIN)

Campus: Downtown Phoenix, Online

Description:

Who are digital consumers? How can they be measured? And how can what is known be used to better engage and grow audiences?

By exploring the users of websites, social networks and apps, and applying skills such as analytics, social media execution, network analysis, search engine optimization and search engine marketing, students who pursue the digital audiences minor gain a rich understanding of how to acquire and engage audiences.

The program uses real cases from real brands and organizations to explore tools from Google Analytics to Facebook Audience Insights and tactics from hashtag analysis to competitive keyword research. Upon completion, students have a portfolio of real client work and the skills to strategically grow digital audiences and harness analytics to drive organizational change.

Program Requirements:

Students must complete MCO 307 first. In order to enroll in the course, students must have a 2.00 cumulative GPA.

To be awarded the minor, students must earn a "C" or better in all courses.

Required Courses -- 15 credit hours

MCO 307: The Digital Audience (3)

MCO 436: Audience Research and Behavior (3)

MCO 437: Audience Acquisition and Engagement (3)

MCO 438: Digital Audience Analysis (3)

MCO 439: Digital Audience Growth (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Students interested in pursuing graduate programs in Digital Audiences should consult their academic adviser.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS in digital audiences

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic adviser to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic adviser or the department offering the minor for more information: <https://cronkite.asu.edu/undergrad/minor-digital-audiences> (<https://cronkite.asu.edu/undergrad/minor-digital-audiences>).

Digital Culture Minor (HIDGCMIN)

Campus: Tempe

Description:

The digital culture minor allows students to enhance their program of study with integrated, interdisciplinary training in creative processes and technical skills in new media with cultural applications.

Students develop both the technical skills to create computational media and the cultural skills to know when or why to apply them. Students in the

digital culture minor learn to create computational media (computation combined with objects, sound, video, time, space, culture and bodies), breathe behavior into media, objects or systems by programming, and think critically about how computation impacts lives and how culture makes a difference in how people experience computational media, a critical skill in the dynamic 21st century.

Equipped with skills and judgment, digital culture graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts, and all areas in which culture is shaped by technology and computational media. Digital culture students learn techniques that can transform society, and they communicate using contemporary computational media, a vital power in the world.

Program Requirements:

The digital culture minor requires 21 credit hours (12 upper-division). Courses for the minor may not be used as part of a major. A minimum of 12 upper-division credit hours taken at ASU is required.

Required Digital Culture Studies Courses -- 6 credit hours

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Students who earn a digital culture minor cannot earn a certificate in digital culture.

Enrollment Requirements:

GPA Requirement: 2.50

Incompatible Majors: All digital culture majors

Other Enrollment Requirements: None

Students are required to meet with the digital culture academic success coordinator to develop the digital culture pathway that best meets the proficiencies for the work they are interested in pursuing.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Disability Studies Minor (ASDISASMIN)

Campus: West

Description:

The minor in disability studies explores historical, linguistic, social, artistic and legal dimensions of disability with the goal of improving society in ways that will benefit those with disabilities.

Through curriculum that combines theory and practice, students will be prepared to address injustices, exclusions and misapprehensions regarding disabilities through advocacy and self-advocacy, education, knowledge of the law and historical awareness. The minor's coursework, designed to complement any undergraduate major, utilizes an electronic portfolio tailored to students' professional interests.

Students will be able to apply the knowledge gained in this program toward careers in policy and advocacy, social work, education, government, and with community and nongovernmental organizations.

Program Requirements:

The minor in disability studies consists of 18 credit hours; a minimum of 12 credit hours must be upper-division. 12 credit hours must be completed through coursework in the School of Humanities, Arts and Cultural Studies. Program requirements include six credit hours of core coursework, nine credit hours of electives and three credit hours of culminating experience. All courses used to fulfill the requirements of this minor must be passed with a "C" (2.00) or better.

Core Requirements -- 6 credit hours

DST 101: Introduction to Disability Studies (3)

HRC 200: Introduction to Social and Cultural Analysis (SB & C) (3)

Electives -- 9 credit hours

AMS 449 / ETH 449 / WST 449: Hate Speech, Manifestos, and Radical Writings (SB & C) (3)

AMS 469 / ETH 469 / WST 469: Abject Bodies and the Politics of Trash (SB & C) (3)

ASB 339 / POS 339 / SBS 339 / SOC 339: Grassroots Social Movements (SB) (3)

BIO 312 / IAS 340 / PHI 320: Bioethics (HU) (3)

DST 322: Social and Cultural Implications of the Many Forms of Disability (3)
DST 458: Disability and Communication Advocacy (3)
ENG 469: Science and Literature (L or HU) (3)
HRC 310: Social and Cultural Studies: Method and Theory (C) (3)
HRC 494: Veterans and Critical Disability Studies (3)
IAP 494: Accessibility in Digital Arts and Design (3)
IAP 494: Disability and Aesthetics (3)
JUS 301: Research in Justice Studies (SB) (3)
JUS 437: The Social Construction of Disability and Justice (3)
JUS 494: Policy, Advocacy and Disability (3)
SOC 400: Perspectives on Aging (SB) (3)
SOC 426: Social Inequality (SB) (3)
WST 444: Gender, Health, and Bodies (SB) (3)

Culminating Course -- 3 credit hours

HRC 480: Capstone: Practices and Approaches (L) or IAS 484: Internship (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BA in disability studies

Other Enrollment Requirements:

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor. Students should contact their academic advisor for more information

Early Childhood Education Minor (TEECEDMIN)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Description:

A minor in early childhood education allows students to combine their knowledge of their major discipline with an understanding of educational practices for young children and their families. The ultimate goal of this minor is to produce graduates who understand and apply knowledge of child development and collaboration within educational community contexts.

The service learning experience embedded in this minor enables students to apply their knowledge and skills to authentic educational contexts in the community.

Program Requirements:

Required Courses -- 18 credit hours

ECS 312: Social and Emotional Development of the Young Child (SB) (3)

ECS 431: Family, Community and Professional Support Systems (3)

EDP 310: Educational Psychology for Non-Teachers (SB) (3)

Notes: Complete three one-hour courses in EDP 310

TEL 215: Introduction to Child and Adolescent Development (SB) (3)

USL 210: Service Learning: Intro to Diverse Community Issues (L & C) (3)

SPE 222: Orientation to Education of Exceptional Children (SB & C) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: All education majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Economics Minor (LAECNMIN)

Campus: Tempe

Description:

Economics is a social science that examines how societies, businesses and individuals deal with scarcity, and this minor in economics offers instruction by world-renowned researchers and award-winning professors. Students study micro- and macroeconomic concepts that are changing the landscape of today's dynamic world.

Students who pursue the minor in economics create a personalized program of study that covers economic theory and applications. Students complete introductory courses (ECN 211 and ECN 212) and choose electives from a large set of upper-division offerings to suit individual interests and goals.

Program Requirements:

The minor in economics consists of 18 credit hours in economics courses, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be taken in courses offered by the W. P. Carey School of Business. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.

Required Courses -- 6 credit hours

ECN 211: Macroeconomic Principles (SB) (3)

ECN 212: Microeconomic Principles (SB) (3)

Electives -- 12 credit hours

ECN Upper Division Elective (12)

No more than three credit hours of ECN 484 Internship may be applied to the minor.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BS in economics; BS in economics (politics and the economy); BS in politics and the economy
Academic Catalog Archive 2020-2021

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Educational Studies Minor (TEEDSTMIN)

Campus: Downtown Phoenix, Polytechnic, Tempe, West

Description:

Learning happens everywhere and at all ages. The educational studies minor prepares graduates to work with children, youth and adults in nonprofit settings, community institutions, civic organizations and businesses. It provides a foundation for students to shape the role of education in society and the act of learning.

Students interested in career and technical education certificates can use the educational studies minor to meet coursework requirements for the Career and Technical Education certificate. Additional requirements for the CTE certificate, including work experience, are not included in the minor. Students interested in obtaining the CTE certificate should refer to the Arizona Department of Education website for further information.

Program Requirements:

The minor in educational studies requires 18 credit hours, including nine lower-division credits and nine upper-division credits. A "C" grade or better is required in all coursework.

Required Courses (choose two) -- 6 credit hours

EDT 180: Technology Literacy: Problem Solving using Digital Technology Applications (CS) (3)

SPE 222: Orientation to Education of Exceptional Children (SB & C) (3)

TEL 111: Exploration of Education (SB) (3)

TEL 200: Social Embeddedness of Educational Endeavors (3)

TEL 208: Literacy in a Changing World (3)

TEL 215: Introduction to Child and Adolescent Development (SB) (3)

Required Service Learning -- 3 credit hours

USL 210: Service Learning: Intro to Diverse Community Issues (L & C) (3)

General Overview of Education -- 9 credit hours

ECS 312: Social and Emotional Development of the Young Child (SB) (3)

EDP 310: Educational Psychology for Non-Teachers (SB) (1-6)

Notes: Up to six 1-credit EDP 310 topics can be taken.

TEL 430: Learning Outside of School (3)

TEL 431: Learning in Workplaces (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: All education majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Engineering Management Minor (ESENMMIN)

Campus: Tempe, Online

Description:

The minor in engineering management is a program designed to provide students with the skills for effective management and leadership of engineering-driven enterprises. This minor can also be used by interdisciplinary studies BA students as part of their degree program.

The minor curriculum supplements students' majors by adding to the breadth of engineering science and design and equipping the student with additional management and design skills. This knowledge is augmented with an understanding of business practices, organizational behavior and management skills to enable the student to succeed in the management of a scientific or engineering enterprise. Topics such as project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management are covered, in addition to product design and process development.

Program Requirements:

The program of study for a minor in engineering management requires completion of 18 credit hours: four core courses (12 credit hours) and two elective courses (six credit hours). All courses must be passed with a "C" or better. At least 12 credit hours must be completed in residency at ASU or through ASU Online.

Core Courses -- 12 credit hours

IEE 300: Economic Analysis for Engineers (3)

IEE 380: Probability and Statistics for Engineering Problem Solving (CS) or IEE 220: Business and Industrial Engineering (3)

Notes: *Students whose major requires IEE 380 "Probability and Statistics for Engineering Problem Solving" will need to take IEE 220 "Business and Industrial Engineering" for the engineering management minor. **Students who are not required to take IEE 380 as part of their major requirements should plan to take it for the minor instead of IEE 220 to be eligible for more required electives. ***Online students are required to complete IEE 380 as part of their core.

IEE 431: Engineering Administration (L) (3)

IEE 458: Project Management or CEE 481: Civil Engineering Project Management (3)

Notes: CEE 481 may not be used for both the civil engineering degree (major) and the engineering management minor.

Electives -- 6 credit hours

IEE 369: Work Analysis and Design (L) (3)

IEE 376: Operations Research Deterministic Techniques/Applications (3)

IEE 381: Lean Six Sigma Methodology (3)

IEE 412: Introduction to Financial Engineering (3)

IEE 454: Risk Management (3)

IEE 456: Introduction to Systems Engineering (3)

IEE 474: Quality Control (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BSE in engineering management; BSE in industrial engineering
Academic Catalog Archive 2020-2021

Other Enrollment Requirements: Prior to enrolling in the minor, students must have completed MAT 265 and MAT 266 (or an equivalent calculus sequence) with a grade of "C" or better in each.

Students who are not required to take IEE 380 as part of their major requirements should plan to take it for the minor instead of IEE 220 to be eligible for more required electives.

Interested students should consult with a School of Computing, Informatics and Decision Systems Engineering advisor to verify eligibility and to review all courses required for the minor. To schedule a CIDSE advising appointment, students should visit <https://fultonapps.asu.edu/advising> (<https://fultonapps.asu.edu/advising>).

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Upper division courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/online-degree-programs/undergraduate/minors/engineering-management-minor/>)

English Minor (ASENGMIN)

Campus: West

Description:

The minor in English is an ideal choice for students who enjoy English and desire to become better writers, readers and thinkers. The program requirements ground students in the basics of literary and cultural study, and the distribution area requirement allows for a range of course offerings in linguistics, rhetoric and literature. With its emphasis on critical reading and writing skills, the English minor is the perfect complement to any major.

Program Requirements:

The minor in English requires a minimum of 21 credit hours, of which 15 credit hours must be upper-division. Students must complete a minimum of six upper-division credit hours in courses offered by the School of Humanities, Arts, and Cultural Studies. At least six credit hours of Distribution coursework must be at the 400 level. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Required Core Course -- 3 credit hours

ENG 200: Critical Reading and Writing About Literature (L or HU) (3)

Distribution Cluster Requirement -- 15 credit hours

Select one course from each distribution cluster. Fifteen credits are required, and at least two courses (six upper-division credits), must be at the 400 level.

Identities, Communities and Social Practices -- 3 credit hours

ENG 312: English in its Social Setting (L or HU or SB) (3)

ENG 353: African American Literature: Beginnings through the Harlem Renaissance ((L or HU) & C) (3)

ENG 400: History of Literary Criticism (L or HU) (3)

ENG 401: Topics in Critical Theory (3)

ENG 420: Multicultural Autobiographies ((L or HU) & C) (3)

ENG 440: Studies in American Literature and Culture (HU) (3)

ENG 454: Gender and Literature (L or HU) (3)

ENG 456: Studies in Forensic Linguistics (3)

ENG 460: Ethnic Women Writers (3)

ENG 461: Studies in Women and Literature (HU) (3)

ENG 462: Africana Literature (HU & G) (3)

ENG 463: African American Literature (3)
ENG 472: Rhetorical Studies (L) (3)
ENG 479: Studies in Postmodernism (HU & G) (3)

Literature and Culture, Pre-1860 -- 3 credit hours

ENG 221: Survey of English Literature (HU) (3)
ENG 241: Literatures of the United States to 1860 ((L or HU) & C) (3)
ENG 315: Medieval Literature in Translation (HU) (3)
ENG 321: Shakespeare (L or HU) (3)
ENG 328: The Novel to Jane Austen (HU & H) (3)
ENG 353: African American Literature: Beginnings through the Harlem Renaissance ((L or HU) & C) (3)
ENG 415: Studies in Medieval Literature and Culture (HU) (3)
ENG 416: Chaucer in Middle English (HU) (3)
ENG 421: Studies in Shakespeare (L or HU) (3)
ENG 423: Renaissance Drama (L or HU) (3)
ENG 425: Studies in Romanticism (HU) (3)
ENG 432: The American Renaissance (HU) (3)
ENG 440: Studies in American Literature and Culture (HU) (3)

Literature and Culture, Post-1860 -- 3 credit hours

ENG 222: Survey of English Literature (HU & H) (3)
ENG 242: Literatures of the United States, 1860 to Present (HU) (3)
ENG 334: The American Southwest in Literature and Film ((L or HU) & C) (3)
ENG 354: African American Literature: Harlem Renaissance to the Present ((L or HU) & C) (3)
ENG 369: Science Fiction Studies (3)
ENG 386: American Gothic (3)
ENG 431: Whitman and Dickinson (L or HU) (3)
ENG 437: The American Novel, 1900 - 1960 (L or HU) (3)
ENG 438: American Novel Since 1960 (L or HU) (3)
ENG 440: Studies in American Literature and Culture (HU) (3)
ENG 450: The British Novel (HU) (3)
ENG 471: Literature for Young Adults (HU) (3)
ENG 478: Studies in Modernism (L or HU) (3)
ENG 479: Studies in Postmodernism (HU & G) (3)

Theories and Practices of Writing -- 3 credit hours

ENG 205: Introduction to Writing, Rhetorics and Literacies (L) (3)
ENG 311: Persuasive Writing (L) (3)
ENG 323: Rhetoric and Grammar (L) (3)
ENG 335: American Poetry (3)
ENG 361: Scriptwriting (3)
ENG 379: Travel Writing (L) (3)
ENG 387: Intermediate Creative Writing Workshop in Poetry: Form, Theory, and Practice (3)
ENG 388: Intermediate Creative Writing Workshop in Fiction: Form, Theory, and Practice (3)
ENG 410: Writing for Publication (3)
ENG 457: Studies in American Poetry (HU) (3)
ENG 490: Literary Forms: Theory and Practice in Poetry (3)

Transnational, Linguistic and Textual Circulation -- 3 credit hours

ENG 213: Introduction to the Study of Language (3)
ENG 317: Cross-Cultural Writing ((L or HU) & G) (3)
ENG 333: American Ethnic Literature ((L or HU) & C) (3)
ENG 363: Transborder Mexican and Chicano/a Literature of Southwest North America ((L or HU) & C) (3)
ENG 379: Travel Writing (L) (3)
ENG 413: History of English Language (HU) (3)
ENG 462: Africana Literature (HU & G) (3)
ENG 498: Reading Englands Literary Landscapes (L) (3)

Elective Courses -- 3 credit hours

ENG Upper Division Elective (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in English

Other Enrollment Requirements: None

The minor in English is open to all ASU undergraduate majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

English Minor (LAENGMIN)

Campus: Online

Description:

A minor in English provides students with the strong analytical and communications skills required by many professions, such as those in publishing, journalism, public relations, nonprofit organizations, professional and technical writing, education, business, banking, grassroots activism, law and medicine, as well as numerous others throughout industry and government.

The minor in English is delivered entirely online and serves as a complement to the chosen major of undergraduate students who are pursuing an ASU major online.

Program Requirements:

The online minor in English consists of 24 credit hours. At least 12 of the 24 credit hours must be upper-division and at least 6 credit hours of the upper-division work must be taken at the 400-level. The remaining nine credit hours may be completed with ENG 200-499 courses. At least six of the upper-division credits must be earned from The College of Liberal Arts and Sciences. A grade of "C" (2.00 on a 4.00 scale) or higher is required in all courses taken for the minor.

Required Course -- 3 credit hours

ENG 200: Critical Reading and Writing About Literature (L or HU) (3)

Electives -- 21 credit hours

ENG 2** Elective or ENG 3** Elective or ENG 4** Elective (9)

ENG 4** Elective (6)

ENG Upper Division Elective (6)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in English

Other Enrollment Requirements: None

Electives -- 12 credit hours

ENG 2** Elective or ENG 3** Elective or ENG 4** Elective (3)
 ENG Upper Division Elective (9)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in English (including all concentrations); BAE in secondary education (English)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Environmental Science Minor (ASENVMIN)

Campus: West, ASU@Lake Havasu

Description:

The environmental science minor program provides students with a fundamental understanding of how the natural world functions as a system, how changes in this system influence organisms and humans, and, in turn, how this system is impacted by humans. Students who complete this minor have the foundational knowledge they need to apply environmental concepts and awareness to their future careers. Many career fields have environmental applications including business and entrepreneurship, the health industry, economics, and academic research careers.

An understanding of human-environment interactions gained through this minor will augment students' major field of study and empower them to leverage their future careers to address environmental issues. To accommodate broad interests for students from a variety of majors, the curriculum is designed to allow students to explore their interests by choosing from categories of scientific coursework and skill-based curricula, to provide applied experiences for students from a variety of majors.

Program Requirements:

The minor in environmental science consists of 15 credit hours, of which 12 credit hours must be upper-division. A minimum of nine credit hours must be taken through the School of Mathematical and Natural Sciences. All courses used to satisfy requirements for the minor must be passed with a "C" (2.00) or better.

Core Requirement -- 6 credit hours

ENV 201: Fundamentals of Environmental Science (3)

IAS 407 / PHI 407: Environmental Philosophy and Policy (L or HU) or IAS 409 / PHI 409: Eco-Community Ethics (HU) or PHI 310: Environmental Ethics (HU) (3)

Upper-Division Electives -- 9 credit hours

Choose a minimum of nine credit hours from the following categories. Students may choose freely from among the categories; it is not necessary to take one from each or all from one category.

Global/Ecosystem Focus:

BIO 422: Ecosystem Ecology (3)

CHM 302: Environmental Chemistry (3)

ENV 410: Soil Science (4)

LSC 434: Marine Ecology (3)

MIC 443: The Microbial Universe AND MIC 444: The Microbial Universe Laboratory (4)

Organismal Focus:

BIO 370: Vertebrate Zoology (4)

BIO 385: Comparative Invertebrate Zoology (4)

BIO 410: Techniques in Conservation Biology and Ecology (L) (3)

BIO 412: Conservation in Practice (3)

BIO 474: Herpetology (4)

PLB Upper Division Elective (3-4)

Skills in Environmental Science:

ENV 345: Spatial Analysis in the Environmental Sciences (3)

ENV 385: Environmental Impact Assessment (3)

ENV 388: Research Fundamentals for the Natural Sciences (L) (3)
ENV 499: Individualized Instruction (1-3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS and BA environmental science

Other Enrollment Requirements: This first course in this minor (ENV 201) has prerequisites of BIO 181, BIO 182 and CHM 116.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor. Students should contact their academic advisor for more information.

Environmental and Resource Management Minor (ESERMMIN)

Campus: Polytechnic

Description:

The minor in environmental and resource management provides students with a thorough introduction to environmental regulations and key environmental management issues such as the provision of clean, potable water, wastewater treatment, and solid and hazardous waste management, as well as remediation technologies for polluted soils, groundwater and air. Students learn to apply basic science and engineering principles to solving problems that significantly impact human health and ecosystems.

The environmental and resource management minor program provides a valuable option to other majors that focus on environmental issues whether from a technical or policy perspective. The courses form a coherent whole and demonstrate the connection between science, engineering, public policy and the law.

Program Requirements:

The minor requires completion of four core courses (12 credit hours) and two elective courses (six credit hours) for a total of 18 credit hours. At least 12 credit hours must be completed in residency at ASU. Courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Core Courses -- 12 credit hours

ERM 201: Environmental Management (3)
ERM 203: Environmental Regulations (3)
ERM 302: Water and Wastewater Treatment Technology (3)
ERM 401: Hazardous Waste Management (3)

Electives -- 6 credit hours

ERM 402: Unit Treatment Technologies (3)
ERM 406: Environmental Chemistry (3)
ERM 407: Occupational Hygiene (3)
ERM 426: Environmental Issues (3)
ERM 428: International Environmental Management (G) (3)
ERM 432: Sustainable Solid Waste Management (3)
ERM 494: Algae in Water/Energy/Food Nexus (3)
ERM 494: Algal Bioprocess and Biosystems Engineering (3)
ERM 494: Environmental Health (3)

ERM 494: Environmental Management Leadership (3)
ERM 494: Tribal Environ & Natural Resources Management (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS in environmental and resource management

Other Enrollment Requirements: Interested students must have at least sophomore status. Students should consult with an advisor in The Polytechnic School to verify eligibility and to review all courses required for the minor. To schedule an advising appointment, students should go to <https://fultonapps.asu.edu/advising> (<https://fultonapps.asu.edu/advising>).

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Ethnic Studies Minor (ASETHMIN)

Campus: West

Description:

The minor program in ethnic studies introduces a general conceptual framework regarding race and ethnicity and how these intersect in the construction of social formations. The program is offered by the School of Humanities, Arts and Cultural Studies.

Program Requirements:

The minor in ethnic studies consists of 18 credit hours, of which 12 credit hours must be upper-division. All courses in the minor must be passed with a minimum grade of "C" (2.00) or better. A minimum of six upper-division credit hours must be completed through courses offered by the School of Humanities, Arts, and Cultural Studies. Up to three credit hours of individualized instruction may be applied toward the minor. Students are encouraged meet with an academic advisor to choose courses that develop breadth rather than limiting their selection to courses in one particular discipline.

Required Courses -- 6 credit hours

ETH 100: Ethnic and Indigenous Lives (SB & C) (3)
HRC 200: Introduction to Social and Cultural Analysis (SB & C) (3)

Upper-Division Electives -- 12 credit hours

ENG 420 / IAS 420: Multicultural Autobiographies ((L or HU) & C) (3)
ENG 462: Africana Literature (HU & G) (3)
ENG 463: African American Literature (3)
ENG 476: Studies in Folklore ((L or HU or SB) & C) (3)
ETH 353 / ENG 353: African American Literature: Beginnings through the Harlem Renaissance ((L or HU) & C) (3)
ETH 354 / ENG 354: African American Literature: Harlem Renaissance to the Present ((L or HU) & C) (3)
ETH 380 / WST 380: Race, Gender, and Class (SB & C) (3)
ETH 428 / AMS 428: Peoples and Cultures of the American West, to 1848 (SB & H) (3)
ETH 430 / WST 430: Gender on the Borderlands (SB & G) (3)
ETH 433 / WST 433: Race and Sexualities in Social Justice Movements (3)
ETH 450: Latina/os, Schooling and Social Inequality (C) (3)
ETH 473 / WST 473: Indigenous and Latina/Chicana Representation (SB & C) (3)

ETH 499: Individualized Instruction (3)
HST 419: 20th Century Chicano/a History (C) (3)
SBS 301: Cultural Diversity ((L or SB) & C) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: None

Other Enrollment Requirements: None

The minor in ethnic studies is open to all ASU undergraduate majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Family and Human Development Minor (LAFASMIN)

Campus: Tempe, Online

Description:

The minor program in family and human development exposes students to the basic coursework and issues within the discipline. This program provides an exceptional complement to studies in psychology, communication, education, business and nursing.

This program is offered by the T. Denny Sanford School of Social and Family Dynamics.

Program Requirements:

The minor in family and human development consists of 18 credit hours in family studies and child development. At least 12 of the 18 credit hours must be in upper-division courses. At least one elective course must come from the CDE prefix. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 9 credit hours

CDE 232: Human Development (SB) (3)
FAS 101: Personal Growth in Human Relationships (SB) (3)
FAS 370: Family Ethnic and Cultural Diversity (SB & C) (3)

Upper Division Electives -- 9 credit hours

At least one course must be a CDE elective.

CDE 312: Adolescence (SB) (3)
CDE 337: Early Childhood Intervention (3)
CDE 418: Aging and the Life Course (SB & H) (3)
CDE 430: Infant/Toddler Development in the Family (SB) (3)
CDE 450: Child Dysfunction in the Family (3)
CDE 498 / FAS 498: Pro-Seminar (3)
FAS 301: Introduction to Parenting (3)
FAS 324: Work and the Workplace (SB & H) (3)

FAS 331: Marriage and Family Relationships (SB) (3)
FAS 332: Human Sexuality (SB) (3)
FAS 410: Military Family Systems in a Democracy (3)
FAS 435: Advanced Marriage and Family Relationships (L or SB) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BS in family and human development

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Fashion Minor (HIFSHMIN)

Campus: Tempe

Description:

The minor program in fashion offers grounding in the history, social context and economics of the contemporary fashion industry. Students also have the option of pursuing more focused classes designed to introduce students to a variety of roles in this important industry: fashion history, fashion industry business practices and fashion production.

Among the subjects that may be related to students' majors are marketing and merchandising, costuming, wearable technology, sustainability, management and leadership, international experience, and fashion and culture. Due to the relationship of these subjects to a wide variety of disciplines taught at ASU, many students throughout the university may supplement their major with closely related fashion minor classes, creating a strong foundation for a variety of careers. Opportunities for study abroad could further advance students' professional goals.

Taught by well-known fashion industry professionals, students enrolled in the minor in fashion at ASU develop connections to leaders in the industry.

Program Requirements:

Courses selected must satisfy the minimum requirement of 18 credit hours for the minor; nine of the credit hours must be upper-division (300 or 400-level) coursework.

Required Courses -- 9 credit hours

FSH 201: Textiles Survey (3)
FSH 325: Personal Style and Wardrobe (3)
FSH 435: Contemporary Fashion (3)

Notes: Please complete either FSH 201 or FSH 325 before enrolling in Contemporary Fashion (FSH 435).

Fashion Electives -- 6 credit hours

ART 110: Drawing as Seeing and Thinking (HU) (3)

ART 276: Introduction to Textiles (3)
 ART 376: Weaving and Dyeing (3)
 ART 377: Textile Design (3)
 ART 378: Digital Textiles (3)
 FSH 194: Special Topics (3)
 FSH 204: Social Aspects of Fashion (L or HU or SB) (3)
 FSH 280 / MKT 280: Fashion Merchandising (3)
 FSH 294: Fashion Hairstyling Basics (1)
 FSH 294: Special Topics (3)
 FSH 300: Global Fashion Industry (G) (3)
 FSH 394: Fashion Visual Merchandising (3)
 FSH 394: Special Topics (1)
 FSH 494: Special Topics (3)
 MKT 390: Essentials of Marketing (<https://webapp4.asu.edu/catalog/courselist?s=FSH&t=2207&hon=F>) > FSH Elective (3)
 (3)
 MKT 391: Essentials of Selling (3)
 MKT 395: Essentials of Advertising and Marketing Communication (3)
 MKT 397: Essentials of Global Marketing (3)
 THE 430: History of Fashion I (HU) (3)
 THE 431: History of Fashion II: 20th-Century Fashion (3)

Upper Division Fashion Electives -- 3 credit hours

ART 376: Weaving and Dyeing (3)
 ART 377: Textile Design (3)
 ART 378: Digital Textiles (3)
 FSH 300: Global Fashion Industry (G) (3)
 FSH 394: Fashion Visual Merchandising (3)

Film and Media Production Minor (FAFMPMIN)

Campus: Tempe

Description:

Students pursuing the film and media production minor study the basic production processes of film while learning about the history and practices of the film and media industry as well as the cultural value of cinema, television and digital media.

Program Requirements:

The school offers a minor in film and media production, consisting of 17 credit hours of coursework. A grade of "C" (2.00) or higher is required for all courses in the minor. All prerequisites for the minor courses must be met. Transfer students may transfer up to six credit hours toward the minor.

Required Courses -- 11 credit hours

FMP 201: Film: The Creative Process I (HU) (3)

FMP 250: Sex and Violence in Film and TV: Ethics Survey (3)

FMP 280: Introduction to Film and Media Production (2)

FMP 403: Independent Film (HU) (3)

Upper Division Film Electives -- 6 credit hours

FMP 318: Directing for Film and Media I (3)

FMP 320: Film and Media Post-Production II (3)

FMP 325: Guerilla VFX (3)

FMP 330: Professional and Technical Writing for Film/TV Industry (3)

FMP 335: Careers in Film and Media Industry (3)

FMP 345: Cinematography I (3)

FMP 361: Intermediate Screenwriting (3)

FMP 365: Developing a Series (3)

FMP 370: Producing for Film and Media (3)

FMP 394: Special Topics (3)

FMP 404: World Cinema (G) (3)

FMP 405: Film and Television: Pioneers, Practices and Innovations (HU) (3)

FMP 417: Business and Legal Practices in Entertainment (3)

FMP 418: Directing for Film and Media II (3)

FMP 465: Series Writers Workshop (3)

FMP 475: Producing Series (3)

FMP 494: Special Topics (3)

THE 406: American Multicultural Film (HU & C) (3)

THE 421: Shakespeare: Stage and Film (L or HU) (3)

THE 430: History of Fashion I (HU) (3)

THE 431: History of Fashion II: 20th-Century Fashion (3)

THP 330: Costume Design (3)

THP 340: Scene Design (3)

THP 345: Lighting Design (3)

THP 350: Sound Design (3)

THP 351: Arts Management (3)

THP 355: Media Design for Performance (3)

THP 394: Writing for Horror, SciFi, and Fantasy (3)

THP 442: Drawing (3)

THP 444: Drafting for the Stage (3)

THP 445: Advanced Lighting Design (3)

THP 452: Arts Entrepreneurship Seminar (3)

THP 455: Advanced Media Design (3)

THP 494: Art Direction (3)

THP 494: Properties for the Stage (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in film (filmmaking practices); BA in film (film and media production)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Film and Media Studies Minor (LAFMSMIN)

Campus: Tempe, Online

Description:

The film and media studies minor is useful for students who want to explore the critical and creative study of film and media. Students can select to study a range of courses that emphasize media and society, media industries, styles and genres and screenwriting.

ASU's Department of English has an extensive internship program, offering placements in publishing, media and marketing, government, nonprofits and film festivals. The department also boasts top online programs, rigorous undergraduate research opportunities and options for cultural and community involvement.

Program Requirements:

The film and media studies minor consists of 18 credit hours. At least 12 credit hours must be upper-division, with a minimum of six upper-division credit hours from courses offered by the Department of English in The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 9 credit hours

FMS 100: Introduction to Film (HU) (3)

FMS 200: Film History ((L or HU) & H) (3)

FMS 300: Television and Cultural Studies (L or HU) (3)

Electives -- 9 credit hours

FMS Upper Division Elective (9)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in film (film and media studies); BA in film (film and media production)

Other Enrollment Requirements: None

Food and Nutrition Management Minor (ECFNTRMIN)

Campus: Downtown Phoenix

Description:

The food and nutrition management minor is available to any ASU student interested in developing a greater understanding of nutrition, the food industry and food service operations.

Program Requirements:

The minor requires students to take the following courses for a total of 18 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.

Required Courses -- 18 credit hours

NTR 100: Introduction to Nutrition Science or NTR 241: Human Nutrition (3)

NTR 142: Applied Food Principles (3)

NTR 300: Computer Applications in Nutrition or NTR 302: Digital Technologies in Nutrition (3)

NTR 343: Food Service Purchasing (3)

NTR 344: Nutrition Management and Leadership (L) or NTR 360: Nutrition Entrepreneurship (3)

NTR 445: Management of Food Service Systems (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BS in nutrition (dietetics); BAS in applied science (food and nutrition entrepreneurship)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

French Minor (LAFREMIN)

Campus: Tempe

Description:

Students pursuing a minor in French gain an understanding of the language, literature and cultures of French-speaking peoples and regions. Students are encouraged to participate in a study abroad program to enhance their education and overall minor experience. For more information,

students should go to <https://silc.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages> (<https://silc.asu.edu/student-life/study-abroad/faculty-directed-summer-program-pages>).

Program Requirements:

The French minor requires 18 upper-division credit hours. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or better. Course substitutions are allowed for heritage and advanced speakers of the language with approval from an academic advisor in the School of International Letters and Cultures.

Required Courses -- 18 credit hours

FRE 305: Readings in French Literature (G) (3)

FRE 311: Oral and Written Expression I (G) (3)

FRE 312: Oral and Written Expression II (G) (3)

FRE 321: French Cultural Masterpieces I ((L or HU) & H) or FRE 322: French Cultural Masterpieces II (L or HU) (3)

FRE 411 (<https://webapp4.asu.edu/catalog/courselist?s=FRE&l=400-499&t=2207&hon=F>) > FRE 4** Elective (FRE 412 OR FRE 414 OR FRE 415 OR FRE 416 OR FRE 461 OR FRE 484 OR FRE 493 OR FRE 494 OR FRE 499 recommended) (3)

FRE 315 (<https://webapp4.asu.edu/catalog/courselist?s=FRE&l=upperdivision&t=2207&hon=F>) > FRE Upper Division Elective (FRE 319 OR FRE 325 OR FRE 394 OR FRE 494 recommended) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in French

Other Enrollment Requirements: None

Students who wish to add a minor in French to the bachelor's degree program they are pursuing may do so by contacting the School of International Letters and Cultures advising office.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Geography Minor (LAGCUMIN)

Campus: Tempe, Online

Description:

The geography minor, rooted in a foundation of cultural and physical geography, encourages students to explore intersections of place and space. Students in the minor gain a unique understanding of the modern world from both the local and global perspectives. Students also gain a deeper understanding of how humans impact landscapes.

Program Requirements:

The minor in geography requires a minimum of 19 credit hours, of which at least 12 credit hours must be upper-division. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Cultural Geography (choose one) -- 3 credit hours

GCU 102: Introduction to Human Geography (SB & G) (3)

GCU 121: World Geography (SB & G) (4)
GCU 241: The Global Economy in Transition (SB & G) (3)

Physical Geography -- 4 credit hours
GPH 111: Introduction to Physical Geography (SQ) (3)
GPH 112: Introduction to Physical Geography Lab (SQ) (1)

Upper-Division Electives -- 12 credit hours
GPH OR GCU OR GIS Upper Division Elective (12)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA and BS in geography; BS in geography (urban studies); BS in geography (meteorology-climatology)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Geological Sciences Minor (LAGLGMIN)

Campus: Tempe

Description:

The geological sciences minor is designed for students interested in developing a basic understanding of earth science and analyzing issues through a scientific viewpoint.

Program Requirements:

The minor in geological sciences consists of 21 credit hours, of which at least 13 credit hours must be completed at the upper-division level. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Required Courses -- 15 credit hours
GLG 101: Introduction to Geology I (Physical) (SQ) (3)
GLG 103: Introduction to Geology I-Laboratory (SQ) (1)
GLG 102: Introduction to Geology II (Historical) (SG & H) (3)
GLG 104: Introduction to Geology II-Laboratory (SG) (1)
GLG 310: Structural Geology (3)
GLG 321: Mineralogy (3)
SES 401: Earth and Space Exploration Colloquium (1)

Electives -- 6 credit hours
GLG Upper Division Elective (6)

Courses in other related subjects may be approved by an academic advisor in the School of Earth and Space Exploration. Students should receive approval for substitutions prior to registration.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in earth and environmental studies; BS in earth and space exploration (astrobiology and biogeosciences); BS in earth and space exploration (geological sciences)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. German Minor (LAGERMIN)

Campus: Tempe

Description:

Students pursuing a minor in German gain an understanding of the language, literature and cultures of German-speaking peoples and regions. Students are encouraged to participate in a study abroad program to enhance their education and overall minor experience. Students should go to <https://mystudyabroad.asu.edu/> (<https://mystudyabroad.asu.edu/>) for more information.

Program Requirements:

The German minor requires 18 credit hours, of which 15 must be upper-division. Three credit hours of GER 200-level coursework may be applied to the German minor. Course substitutions are allowed for heritage and advanced speakers of the language. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

GER 200-Level Coursework (choose one) -- 3 credit hours

GER 201: Intermediate German I (G) (4)

GER 202: Intermediate German II (G) (4)

GER 210: Intensive German II (G) (6)

Three credit hours of 200-level coursework will be applied to the minor and any additional credit hours earned will be applied toward university elective hours.

Required Course -- 3 credit hours

GER 310: Advanced German Grammar and Composition I (G) (3)

Choose two courses -- 6 credit hours

GER 311: German Conversation (G) (3)

GER 312: Readings in German Culture (G) (3)

GER 313: Advanced German Grammar and Composition II (G) (3)

GER 319: Business German (G) (3)

GER Restricted Electives -- 6 credit hours

GER 4** Elective (3)

GER Upper Division Elective (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BA in German

Other Enrollment Requirements: None

Global Health Minor (LASSHMIN)

Campus: Tempe, Online

Description:

The minor in global health is a transdisciplinary program designed for students who seek a broad and flexible set of skills for understanding contemporary health challenges and thinking about how they might best be solved. Global health is understood in the anthropological sense, meaning ways of understanding and addressing disease, health and well-being that can incorporate all cultures, places and time and that can integrate knowledge of health's social, historical, biological and ecological dimensions.

Program Requirements:

The minor in global health is comprised of 18 credit hours, at least 12 of which must be upper division. A minimum grade of "C" (2.00 on a scale of 4.00) is required for courses used toward the minor. This minor is also available in an online format to complement the studies of ASU Online students.

Required Core Course -- 3 credit hours

ASB 100: Introduction to Global Health (SB & G) (3)

Upper-Division Core Electives (choose three) -- 9 credit hours

AFR 383: Blacks in Science, Medicine and Public Health (3)

ASB 300 / SSH 300: Food and Culture ((L or SB) & C) (3)

ASB 301 / HST 301 / SSH 301: Global History of Health (SB & G & H) (3)

ASB 305: Poverty and Global Health ((L or SB) & G) (3)

ASB 316: Money and Culture (L or SB) (3)

ASB 327: Disaster! ((L or SB) & C) (3)

ASB 355: Traditional Medicine and Healing (HU or SB) (3)

ASB 357: Society, Drugs and Health (SB & G) (3)

ASB 370 / SOS 370: Ethics of Eating (L or SB) (3)

ASB 376: Global Health Policy (3)

ASB 378 / TCL 378: Globalization: Migration, Mass Media, McDonald's ((L or SB) & C) (3)

ASB 457: Global Mental Health ((L or SB) & G) (3)

ASB 462: Medical Anthropology: Culture and Health (SB & C) (3)

ASM 345: Disease and Human Evolution (3)

ASM 401: Health and Human Biology (3)
 ASM 414 / SOS 414: Urban and Environmental Health (SB) (3)
 ASM 456: Infectious Disease and Human Evolution (3)
 ASM 494 / BIO 494: Evolutionary Medicine and Global Health (1)
 HPS 331 / BIO 318: History of Medicine (HU & H) (3)
 HST 304: Black Death: Pandemic Disease in the Medieval World (SB & H) (3)
 MIC 314 / SSH 314: HIV/AIDS: Science, Behavior, and Society (3)
 NTR 348: Cultural Aspects of Food (SB & C & G) (3)
 NTR 450: Nutrition in the Life Cycle (SB) (3)
 SGS 340: Violence, Conflict and Human Rights (3)
 SGS 350: Economic Development and Globalization (3)
 SOC 424: Women and Health (SB) (3)
 SOC 427: Sociology of Health and Illness (SB) (3)
 TCL 323: Latina/o Health Issues (SB & C) (3)
 TCL 326: Health of Chicanas and Latinas (SB & C) (3)
 TCL 327: Health and Migration (SB) (3)
 TCL 410 / SOC 410: Race, Medicine, and the Body (L) (3)
 TCL 447 / SGS 454 / SOS 447 / WST 447: Gender, Culture, and Development ((L or SB) & G) (3)
 WST 360: Women as Healers (SB & G) (3)
 WST 365: Women and International Health (G) (3)
 WST 380 / AMS 380 / ETH 380: Race, Gender, and Class (SB & C) (3)
 WST 440: Politics of Women's Health (SB & C) (3)
 WST 444: Gender, Health, and Bodies (SB) (3)

Study Abroad Experience -- 6 credit hours

SSH 403: Cross-Cultural Studies in Global Health ((L or SB) & G) or students choose another approved global health study abroad experience (summer session, six credits minimum) (6)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BS in global health

Other Enrollment Requirements:

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Global Studies Minor (LASGSMIN)

Campus: Tempe, Online

Description:

The minor program in global studies offers students exposure to global processes and institutions from a transdisciplinary perspective. The program aims to provide students with an introduction to the tools and skills necessary to make connections linking theory with challenging global issues.

Program Requirements:

The minor in global studies consists of 18 credit hours, of which 12 credit hours must be upper-division courses. A minimum of six upper-division credit hours must be taken in courses offered by The College of Liberal Arts and Sciences. Courses that count toward the minor must be passed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 6 credit hours

SGS 101: Thinking Globally: The Individual and Authority (SB & G) or SGS 301: Principles of Global Studies (G) (3)

SGS 303: Global Trends (SB & G) (3)

Electives -- 12 credit hours

SGS Elective (3)

SGS Upper Division Elective (9)

A maximum of three credit hours of SGS 484 International Experience or three credit hours of SGS 499 Individualized Instruction may be applied to the minor.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in global studies

Other Enrollment Requirements: None

An ASU student who is pursuing a degree at any ASU campus may elect to add a minor offered at any other ASU campus.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Health Care Compliance and Regulations Minor (NUHCCRMIN)

Campus: Downtown Phoenix, West

Description:

A minor in health care compliance and regulations allows students to combine the knowledge of their major discipline with the foundational and advanced knowledge that is required for support of regulatory compliance in a health-focused environment. The minor program integrates best practices from the business, regulatory, ethics and engineering fields as well as from the medical industry to enhance a student's major discipline with a focus on regulatory and ethical compliance in the health care industry.

Program Requirements:

Required Courses -- 16 credit hours

HCR 259: Compliance and the Health Care Industry (4)

HCR 263: Introduction to Medical Billing and Compliance (3)

HCR 360: Data Security and Privacy in Health Care Compliance (3)
HCR 362: Monitoring and Auditing for Health Care Compliance (3)
HCR 460: Investigations and Disclosures in Health Care Compliance (3)

A "C" (2.00 on a 4.00 scale) or better is required in all courses.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS in health care compliance and regulations

Other Enrollment Requirements: None

Health Care Coordination Minor (NUHCCOMIN)

Campus: Downtown Phoenix, West

Description:

A minor in health care coordination allows students to combine the knowledge of their major discipline with the foundational and advanced concepts of health care coordination. Students completing this innovative minor have the knowledge that enables them to navigate the health care system and assist in the coordination of health care for individuals and families and to optimize outcomes.

Program Requirements:

Required Courses -- 18 credit hours

HCR 220: Introduction to Health Professions and the U.S. Health Care System (H) (3)
HCR 221: Foundational Concepts for Health Care Coordination (3)
HCR 302: Social Determinants of Health (3)
HCR 321: Advanced Concepts for Health Care Coordination (3)
HCR 420: Professional Role Development: Health Care Coordination (3)
HCR 422: Policy and Financial Principles in Health Care Coordination (3)

"C" (2.00 on a 4.00 scale) or better is required in all courses

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BS in health care coordination

Other Enrollment Requirements: None

History Minor (ASHISMIN)

Campus: West

Description:

The minor program in history educates students in the methods and the use of basic tools of the historical discipline. Students are exposed to a

broad span of history, both temporally and geographically, ranging from the ancient world through the modern period and extending from Europe to Latin America and the United States.

The program is offered by the School of Humanities, Arts and Cultural Studies.

Program Requirements:

The minor in history consists of 18 credit hours (a minimum of 12 credit hours must be upper-division). A minimum of six upper-division credit hours must be completed through HST courses offered by the School of Humanities, Arts, and Cultural Studies. Students wishing to pursue the minor should meet with an academic advisor to construct a set of courses that reflect a particular area of specialty and interest. All courses used to satisfy requirements for the minor must be passed with a grade of "C" (2.00) or better.

History Survey Requirements -- 6 credit hours

Choose one of the following sets:

HST 100: Global History to 1500 (HU & H & G) AND HST 101: Global History Since 1500 (HU & H & G) (6)

HST 109: United States to 1865 ((HU or SB) & H) AND HST 110: United States Since 1865 (SB & H) (6)

HST 102: Western Civilization: Ancient and Medieval Europe (SB & H) or HST 103: Western Civilization: Renaissance to Enlightenment ((HU or SB) & H) or HST 104: Western Civilization: French Revolution to European Union ((HU or SB) & G & H) (6)

Upper Division History Requirements -- 12 credit hours

HST 495: Methods of Historical Inquiry (L) (3)

HST Upper Division Elective (9)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in history

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. History Minor (LAHISMIN)

Campus: Tempe, Online

Description:

Students who pursue the minor in history study the growth and development of human society from all aspects: political, social, economic and cultural. The program covers the history of the United States, Europe, Asia, Latin America and Africa. Courses are designed to give students both breadth and depth in understanding today's complex world.

Program Requirements:

The history minor consists of 18 credit hours of coursework, at least 12 of which must be upper-division. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses in the minor. A minimum of six upper-division credit hours must be in courses offered by The College of Liberal Arts and Sciences.

The minor in history is available to students in both on-campus and ASU Online degree programs. ASU Online students choose courses from the

designated track lists below.

Lower-Division Core Survey Courses (choose two) -- 6 credit hours

- HST 100: Global History to 1500 (HU & H & G) (3)
- HST 101: Global History Since 1500 (HU & H & G) (3)
- HST 102: Western Civilization: Ancient and Medieval Europe (SB & H) (3)
- HST 103: Western Civilization: Renaissance to Enlightenment ((HU or SB) & H) (3)
- HST 104: Western Civilization: French Revolution to European Union ((HU or SB) & G & H) (3)
- HST 106: Asian Civilizations ((HU or SB) & G & H) (3)
- HST 108: Introduction to Japan (SB & G & H) (3)
- HST 109: United States to 1865 ((HU or SB) & H) (3)
- HST 110: United States Since 1865 (SB & H) (3)
- HST 111: Introduction to Asia (HU & H & G) (3)

Geographic Focus Courses (choose one course from each geographic area) -- 9 credit hours

Upper-Division Courses in African, Asian or Latin American History (choose one)

- HST 302: Envisioning Peace ((HU or SB) & G & H) (3)
- HST 302: Gender and Sexuality in Islam ((HU or SB) & G & H) (3)
- HST 302: The Mexico City 1968 Olympics in Global Context ((HU or SB) & G & H) (3)
- HST 302: Slavery Systems in Africa ((HU or SB) & G & H) (3)
- HST 303: Studies in Asian History (SB & H) (3)
- HST 305: Studies in Latin American History (SB & H) (3)
- HST 307: Studies in African History (H) (3)
- HST 336: Islamic Civilization (HU & H) (3)
- HST 339: Islam in the Modern World (HU & G) (3)
- HST 372: Modern Middle East (SB & G & H) (3)
- HST 375: Colonial Latin America (SB & H) (3)
- HST 376: Modern Latin America (SB & G & H) (3)
- HST 383: China (SB & H) (3)
- HST 384: Modern China: 1700 to the Present (SB & G & H) (3)
- HST 385: History of Chinese Medicine (HU & H & G) (3)
- HST 386: Interpreting China's Classics ((L or HU) & H) (3)

ASU Online Elective -- 3 credit hours

HST Upper Division Elective (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BA in history; BA in history (secondary education); BAE in secondary education (history)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

Attend Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here. (<https://asuonline.asu.edu/request-info>)

History Minor (LSHISMIN)

Campus: Polytechnic

Description:

The minor in history focuses on American history, European history, Southwest history, environmental history, the history of technology, the history of engineering and related fields.

Program Requirements:

The history minor consists of 18 credit hours. All coursework for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 18 credit hours

HST Elective (6)

HST Upper Division Elective (12)

Notes: A minimum of six credit hours must be taken in courses offered by the College of Integrative Sciences and Arts.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00

Incompatible Majors: BA in history; BA in history of science, ideas and innovation

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. History of Science, Ideas and Innovation Minor (LSHSIIMIN)

Campus: Polytechnic

Description:

Science and technology shape every facet of modern human life, but all too frequently the underlying histories and ideas go unexamined. The minor program in the history of science, ideas and innovation helps students understand how society reached its present state and helps them reflect on what the future might hold by providing a foundation in the social and intellectual issues central to understanding the intertwined histories of science, technology and ideas.

Program Requirements:

The minor of history of science, ideas and innovation requires 15 credit hours, including a minimum of 12 credit hours of upper-division. A minimum of six upper-division credit hours must be taken in courses offered by the College of Integrative Sciences and Arts. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Course -- 3 credit hours

HST 280: History of Science, Ideas and Innovation (SB & G & H) (3)

Elective Courses (choose four) -- 12 credit hours

HST 309: Exploration and Empire ((L or HU) & H) (3)

HST 318: History of Engineering ((L or SB) & G) (3)

HST 319: History of Aviation (H) (3)

HST 345: Environmental History (L) (3)

HST 380: Studies in the History of Science (3)

HST 381: Studies in the History of Ideas (3)

HST 382: Studies in the History of Innovation and Technology (H) (3)

HST 482: Writing and the History of Science, Ideas and Technology (L) (3)

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: 2.00 cumulative GPA

Incompatible Majors: BA in history; BA in history of science, ideas and innovation

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Human Nutrition Minor (ECNTRMIN)

Campus: Downtown Phoenix

Description:

The human nutrition minor program is available to any ASU student interested in a strong scientific understanding of human nutrition.

Program Requirements:

The minor requires students to take the following courses, for a total of 19 credit hours. All courses in the minor require a minimum grade of "C" (2.00 on a 4.00 scale) or higher.

Required Courses -- 19 credit hours

NTR 241: Human Nutrition (3)

NTR 341: Medical Nutrition Therapy I (3)

NTR 440: Advanced Human Nutrition I (3)

NTR 441: Advanced Human Nutrition II (3)

NTR 444: Medical Nutrition Therapy II (3)

NTR 446: Medical Nutrition Therapy III (4)

Additional prerequisite requirements: CHM 101 or 113, BIO 201, BIO 202 and BCH 361

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment Requirements:

GPA Requirement: None

Incompatible Majors: BS in nutrition (dietetics); BS in nutrition; BS in health sciences (healthy lifestyles coaching); BAS in applied science (food service management)

Other Enrollment Requirements: None
