## Academic Catalog Archive Addendum 2015-2016

This document, published in October 2016 and revised January 2017, is a supplement to the Academic Catalog Archive 2015-2016 published in April 2016. It is the record of programs that were established, disestablished or experienced name changes since the publication of the Academic Catalog Archive 2015-2016. It also contains additional programs and policies that were not provided within the Academic Catalog Archive 2015-2016 because information was unavailable at the time of publication.

This document also includes major maps, which provide the critical requirements, order of courses and grade requirements for undergraduate degree programs, and Transfer Admission Guarantee (TAG) and Maricopa to ASU Pathways Program (MAPP) agreements that were not available at the time the Academic Catalog Archive 2015-2016 was published.

This addendum is a printable publication for accreditation organizations, agencies and university offices for data collection, evaluation purposes and referencing. Academic advisors, faculty and current students should refer to the online version of the academic catalog.

## *Undergraduate Program Policy*

The following section details additional policies pertaining to the Aeronautical Management Technology (Professional Flight) degree program that were not provided within the Academic Catalog Archive 2015-2016 because the information was unavailable at the time of publication.

### **Background**

In September 2015, the Veterans Administration issued a policy advisory that addressed the use of VA educational benefits for flight programs at Institutes of Higher Learning (IHLs). The policy obligated IHLs to define their curriculum as the minimal amount of flight and ground events required to complete the degree program, along with the duration and cost of each event. Henceforth, the VA would only pay this minimum for approved programs on a per-class basis. An additional policy advisory issued in December 2015 excluded the payment of private pilot instruction for IHLs who use a 3<sup>rd</sup> party provider for flight training, as is ASU's case. This impacted AMT 105 and AMT 110, two flight classes within the AMT Pro Flight curriculum which contained Private Pilot curriculum. Finally, it has been a longstanding policy that the VA compliance of any program is dependent upon meeting the "85/15 rule," whereby at least 15% of the students in any given program of study are not receiving VA benefits. While ASU does meet this criterion in terms of non-veterans in the flight program for this catalog year, the intent is that non-veterans be billed in the same way as those receiving VA benefits (i.e., billed directly by ASU for the minimum flight fee cost, excluding private pilot instruction).

### **Establishment of a Two-Track System**

In response to these requirements, ASU Aviation Programs created two payment tracks for students in the Aviation Management Technology – Professional Flight concentration, as follows:

1. Direct Pay to Flight Training Provider. This track enables the student to pay directly to the flight training provider on a pay-as-you-go basis. Students would select this option if they need to complete the Private Pilot Certification sequence of courses. It is preferred that the majority of students select this option, as the Flight Provider will have the most direct and timely information about students' account status (i.e., that they have funds deposited to cover flight instruction costs as they progress.)
2. Minimum Course Fee Pay through ASU. This track enables the minimum cost of eligible flight instruction courses to be paid directly by the VA for VA-eligible students. These students will be billed the minimum course fee by ASU, which in turn will be paid by the VA or the student. As a minimum of 15% of the students utilizing this option must also come from the non-VA population, non-VA students may opt for this track if they already are a licensed Private Pilot and agree to be billed through this process for the minimum flight course fees. These funds will be collected by ASU and passed on to the Flight Training Partner. For all students in this track who need to pay above the minimum to complete the course requirements, those additional fees will be paid directly to the Flight Training Provider.

The following two tables summarize the class structure and corresponding fees:

\*AMT 150 in the Minimum Course Fee track contains the instrument events that would otherwise be imbedded in AMT 110.

Detailed cost breakdowns for each class are included in Appendix 1 for Spring and Summer, 2016, and in Appendix 2 for Fall 2016.

### **Restrictions**

Flight fees under the Minimum Course Fee track which are paid by the VA on behalf of the student are to be used only for the purposes of paying the flight provider for actual flight and ground expenses. Students may be allowed to carry forward any excess funding in their accounts as they are completing the AMT 150 through AMT 310 flight class sequence. Following the successful completion of AMT 310, however, any unused VA funding will be returned to ASU by the flight provider.

## University Academic Policies

The following university academic policy experienced a change during the 2015-2016 academic year. This change occurred after the publication of the 2015-2016 academic catalog archive.

### *Credit by Examination*

## *Advanced Placement*

Students who have taken an advanced placement course of the College Entrance Examination Board in their secondary school and who have taken an AP examination of the CEEB may receive university credit. No credit is given for any examination with a score of two or one. There is no limit to the number of AP credits that can be used to meet the General Studies requirement, including the requirements in natural sciences (SQ and SG) and literacy and critical inquiry (L).

When the scores are received by the university directly from the CEEB, credit is awarded as shown in the Advanced Placement Credit table below.
