Mechanical engineers are employed in virtually every kind of industry. They are involved in seeking new knowledge through research, in generating creative design and development, and in the production, control, management, and sales of the devices and systems needed by society. Therefore a major strength of a mechanical engineering education is the flexibility it provides in future employment opportunities for its graduates.

The Mechanical Engineering program has four educational objectives, which describe the expected capabilities and achievements of graduates during the first several years following completion of the program. The objectives of the program are to

1. provide graduates with the ability to think in a critical and evaluative manner and to consider a broad perspective, in order to solve technical and non technical problems;
2. prepare professionally successful graduates who provide effective leadership, who act in an ethical manner and whose skills include the ability to communicate well and to work successfully within diverse groups;
3. provide the depth and breadth of engineering education that prepares graduates for employment in the Mechanical engineering profession, admission to graduate programs in Mechanical engineering or a related field, or the pursuit of advanced education in other professional areas, such as business, law, or medicine; and
4. cultivate in our graduates a spirit of inventiveness, creativity and entrepreneurship.

Students are prepared for a career in Mechanical Engineering through a curriculum that includes study of the principles governing the use of energy; the principles of design, instruments, and control devices; and the application of these to the creative solution of practical modern problems. Students are encouraged to select elective general studies courses that complement the program's technical content and promote its objectives.

DEGREE REQUIREMENTS

In order to attain the Bachelor of Science in Engineering in Mechanical Engineering degree, students must complete a minimum of 120 semester hours of course work, including 45 upper-division hours. In addition to those courses specifically required for a degree in Mechanical Engineering, students must fulfill all university First-Year Composition and General Studies requirements. The Ira A. Fulton School of Engineering does not permit the use of pass/fail courses as part of a degree program, and credit hours earned more than five years before admission to the program are normally not accepted for transfer credit.

ADMISSION TO THE PROFESSIONAL PROGRAM

Admission to the professional program in Mechanical Engineering is competitive, and the level of achievement necessary for promotion is based on several factors, including the number of places available and the number of students requesting professional status in a given year. Students must complete, or be currently enrolled in, the courses in the Mechanical Engineering skill-set before making application to the professional program. Students may not enroll in upper-division courses in the Department of Mechanical and Aerospace Engineering until they are admitted to professional status.

For admission to professional status in Mechanical Engineering, a minimum grade of "C" (2.00) is required in all chemistry, mathematics, and physics courses, and in all courses in the skill-set. It is anticipated that a minimum GPA of approximately 2.80 in the skill-set and overall will be necessary for professional admission. Under no circumstances will students with a GPA lower than 2.50 (in the skill-set and overall) be considered for promotion to professional status in Mechanical Engineering.

The following courses make up the skill-set in Mechanical Engineering. Students must have completed these courses or be enrolled in them in order to apply to the professional program in the major. All skill-set courses are normally taken during the first three semesters of a typical four-year program in Mechanical Engineering.

CHM 114 General Chemistry for Engineers *SQ*.....4–5
or CHM 115 General Chemistry with Qualitative Analysis *SQ*[1] (5)
or CHM 116 General Chemistry II *SQ*[1] (4)

[1] CHM 115 and 116 have a prerequisite of CHM 113, which cannot be used for degree credit.

[2] Both PHY 131 and 132 must be taken to secure SQ credit.

GRADUATION REQUIREMENTS

In addition to achieving professional status in Mechanical Engineering and completing all required course work, students must earn a minimum GPA of 2.00 in the major and overall. The department may require additional or remedial course work for students experiencing academic difficulties.

COURSE REQUIREMENTS

The following constitute specific course requirements for the Bachelor of Science in Engineering degree for Mechanical Engineering:

First-Year Composition[1]

Program total.....120

[1] A minimum grade of "C" (2.00) is required.

[2] This is a mechanical engineering skill-set course; it must be completed before promotion can be considered. A minimum grade of "C" (2.00) is required.

[3] See "General Studies," page 93. Students are encouraged to select HU and SB courses to complement their technical program and to promote the program objectives. Suggested HU/SB courses are available from the Department of Mechanical and Aerospace Engineering.

[4] Students taking CHM 115 will receive four semester hours of credit toward the Mechanical Engineering degree.

[5] CHM 115 and 116 have a prerequisite of CHM 113, which cannot be used for degree credit.

[6] Both PHY 121 and 122 must be taken to secure SQ credit.

[7] Both PHY 131 and 132 must be taken to secure SQ credit.

[8] Mechanical Engineering students must select upper-division technical electives.

Technical Electives

Students select four technical electives from among all upper-division courses offered in the Department of Mechanical and Aerospace Engineering that are not required for the major in mechanical engineering. Students may, with prior approval of the advisor and department chair, select an alternative course that supports a specific career objective. Normally, only one technical elective from outside the Department of Mechanical and Aerospace Engineering will be approved. Because a minimum of 45 upper-division hours are required for graduation, technical electives must be numbered 300 or above. Graduate courses are permitted for students with a GPA of 3.00 or higher and with the approval of the instructor, the advisor, and the dean. Students with a GPA of 3.50 or higher may wish to consider the Integrated BSE—MS program when selecting technical electives.

Typical Four-Year Sequence

The following presents a typical schedule for students wishing to complete the BSE in Mechanical Engineering within four years. When selecting a semester course schedule, students should consider that many upper-division courses in Mechanical and Aerospace Engineering are taught only once per academic year. Students may not register for upper-division courses in the major until they are accepted into the professional program in Mechanical Engineering.

Mechanical Engineering Program of Study

Total degree requirements 120

1 This is a mechanical engineering skill-set course; it must be completed before promotion can be considered. A minimum grade of "C" (2.00) is required.

2 A minimum grade of "C" (2.00) is required.

3 Students taking CHM 115 will receive four semester hours of credit toward the Mechanical Engineering degree.

4 CHM 115 and 116 have a prerequisite of CHM 113, which cannot be used for degree credit.

5 Aerospace Engineering Students may not use ASE or MIS courses for general studies credit.

6 Both PHY 121 and 122 must be taken to secure SQ credit.

7 Both PHY 131 and 132 must be taken to secure SQ credit.

MECHANICAL AND AEROSPACE ENGINEERING (MAE)

M MAE 100 Introduction to Mechanical and Aerospace Engineering. (3)
fall and spring
Introduces mechanical and aerospace engineering, design process, teaming, the profession of mechanical and aerospace engineering, computer models in engineering, communication skills, CAD tools, and programming tools. Fee. Prerequisites: high school algebra and physics; familiarity with computer applications.
General Studies: CS

M MAE 191 First-Year Seminar. (1–3)
selected semesters
Discussion of and critical thinking about topics of current intellectual importance, taught by faculty in their areas of expertise and illuminating many paths of discovery at ASU. "Y" grade. Seminar.

M MAE 212 Engineering Mechanics. (4)
fall, spring, selected summers
Force systems, resultants, moments and equilibrium. Kinematics and kinetics of particles, systems of particles and rigid bodies. Energy and momentum principles. Lecture, recitation. Prerequisites: PHY 121, 122. Pre- or corequisite: preferably MAT 275 (or 274).

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M MAE 213 Solid Mechanics. (3)
fall, spring, selected summers
Equilibrium, strain-displacement relations, and stress-strain-temperature relations. Applications to force transmission and deformations in axial, torsional, and bending of bars. Combined loadings. Lecture, recitation. Prerequisite: preferably MAE 212 or CEE 211.

M MAE 214 Computer-Aided Engineering I. (1)
fall, spring, selected summers
Introduces geometry and construction techniques in CAD, technical drawing conventions, generating drawings from CAD models. Lab. Fee. Pre- or corequisite: preferably MAE 213 or CEE 213.

M MAE 240 Thermofluids I. (4)
fall, spring, selected summers
Introductory concepts of thermodynamics, fluid mechanics, and heat transfer. Prerequisites: CHM 114; preferably MAE 212 (or CEE 211); PHY 131, 132.

M MAE 313 Aircraft Dynamics and Control. (3)
spring
Aircraft static stability; equations of motion; dynamic modes and stability; stability derivatives; response to controls; introduction to automatic control of aircraft. Prerequisites: MAE 318, 360.

M MAE 318 Sensors and Controls. (5)
fall and spring
Introduces measurement systems, feedback control modelling and dynamics of physical systems, computer simulations and real-time experiments. Integrated lecture/lab. Fee. Prerequisites: EEE 202; MAE 212.

M MAE 322 Mechanics of Materials. (4)
fall and spring
Three-dimensional stress analysis, failure theories, energy methods, finite elements, torsion of noncircular members, unsymmetrical bending, beam column, fatigue and fracture. Fee. Lecture, lab. Prerequisite: MAE 213; MAT 343. Pre- or corequisite: MAE 384.

M MAE 323 Computer-Aided Engineering II. (1)
fall, spring, selected summers
Introduces finite-element analysis, pre- and postprocessing, solving problems with FEA. Lab. Fee. Prerequisite: MAE 214. Pre- or corequisite: MAE 322.

M MAE 340 Thermofluids II. (3)
fall and spring
Intermediate concepts of thermodynamics, fluid mechanics, and heat transfer. Prerequisite: MAE 240.

M MAE 341 Mechanism Analysis and Design. (3)
once a year
Positions, velocities, and accelerations of machine parts; cams, gears, flexible connectors, and rolling contact; introduces synthesis. Prerequisite: MAE 212.

M MAE 342 Principles of Design. (3)
fall and spring
The design process; conceptual and embodiment design of mechanical elements; form synthesis; material selection, failure modes, manufacturability tolerances, common mechanisms and machine elements. Fee. Lecture, lab (project). Prerequisites: MAE 318, 322; MSE 250.

M MAE 343 Computer-Aided Engineering III. (1)
fall, spring, selected summers
Solution to fluid mechanics and heat transfer problems using Finite Element Analysis (FEA). Lab. Fee. Prerequisites: MAE 214, 240.

M MAE 344 Fundamentals of Aerospace Design. (3)
spring
Design theory and design tools applied to aerospace engineering. Engineering drawings, aircraft performance, RFP's, Federal Aviation Regulations and military specifications, aircraft sizing, rapid prototyping. Fee. Lab, projects. Prerequisites: MAE 322, 360, 384.

M MAE 351 Manufacturing Processes. (3)
fall and spring
Production technique and equipment. Casting and molding, forming, machining, joining and assembly, computer-integrated manufacturing, rapid prototyping, and electronics manufacturing. Cross listed as IEE 360. Credit is allowed for only MAE 351 or IEE 360. Fee. Prerequisite: MSE 250.

M MAE 360 Aerodynamics. (4)
fall
Airfoils and wings, ideal flow, panel methods, boundary layers, finite-difference solutions, wind-tunnel testing. 3 hours lecture, 1 hour lab. Fee. Prerequisites: ENG 102; MAE 240. Pre- or corequisite: MAE 384.

M MAE 362 High-Speed Aerodynamics. (4)
spring
Compressible flow at subsonic and supersonic speeds; ducts, nozzles, and diffusers; normal and oblique shocks, transonic flow, numerical solutions; experimental applications. 3 hours lecture, 1 hour lab. Fee. Prerequisites: preferably MAE 360 (or 240 and instructor approval), 384.

M MAE 372 Fluid Mechanics. (3)
once a year
Applies basic principles of fluid mechanics to problems in viscous and compressible flow. Prerequisites: MAE 340 (or 360), 384.

M MAE 382 Thermodynamics. (3)
once a year
Applied thermodynamics; gas mixtures, psychrometrics, property relationships, power and refrigeration cycles, and reactive systems. Prerequisite: MAE 240.

M MAE 384 Numerical Methods for Engineers. (3)
fall and spring
Numerical methods and computational tools for selected problems in engineering. Cross listed as CEE 384. Credit is allowed for only MAE 384 or CEE 384. Prerequisites: preferably MAT 275 or 274, preferably 343 or 242 or 342. Pre- or corequisite: MAT 272 or 294 ST: Calculus for Engineers III.

M MAE 394 Special Topics. (1–4)
selected semesters

M MAE 400 Engineering Profession. (3)
fall and spring
Impact of mechanical and aerospace engineering in a global and societal context; effects of and on globalization, environment, sustainability, economy, politics; engineering ethics and business practices. Prerequisites: MAE 362 (or 491); senior standing in Aerospace or Mechanical Engineering.

M MAE 404 Finite Elements in Engineering. (3)
once a year
Introduces ideas and methodology of finite element analysis. Applications to solid mechanics, heat transfer, fluid mechanics, and vibrations. Prerequisites: MAE 213 (or CEE 213), 384 (or CEE 384).

M MAE 406 CAD/CAM Applications in MAE. (4)
once a year
Solution of engineering problems with the aid of state-of-the-art software tools in solid modeling, engineering analysis, and manufacturing; selection of modeling parameters; reliability tests on software. Fee. 3 hours lecture, 3 hours lab. Prerequisites: MAE 342 (or 344), 384.

M MAE 415 Vibration Analysis. (3)
spring
Free and forced response of single and multiple degree of freedom systems, continuous systems; applications in mechanical and aerospace systems numerical methods. Fee. Prerequisites: MAE 213, 384.

M MAE 417 Control System Design. (3)
once a year
Tools and methods of control system design and compensation, including simulation, response optimization, frequency domain techniques, state variable feedback, and sensitivity analysis. Introduces nonlinear and discrete time systems. Prerequisite: MAE 318.

M MAE 426 Design of Aerospace Structures. (3)
once a year
Flight vehicle loads, design of semimonocoque structures, local buckling and crippling, fatigue, aerospace materials, composites, joints, and finite element applications. Prerequisite: MAE 322.

M MAE 433 Air Conditioning and Refrigeration. (3)
once a year
Air conditioning processes; environmental control; heating and cooling loads; psychrometry; refrigeration cycles. Prerequisite: MAE 340 or instructor approval.

M MAE 434 Internal Combustion Engines. (3)
once a year
Performance characteristics, combustion, carburetion and fuel-injection, and the cooling and control of internal combustion engines. Computer modeling. Fee. Lab. Prerequisite: MAE 340 or instructor approval.

M MAE 435 Turbomachinery. (3)
once a year
Design and performance of turbomachines, including steam, gas and hydraulic turbines, centrifugal pumps, compressors, fans, and blowers. Prerequisite: MAE 340 or 360.

M MAE 436 Combustion. (3)
once a year
Thermochemical and reaction rate processes; combustion of gaseous and condensed-phase fuels. Applications to propulsion and heating systems. Pollutant formation. Prerequisite: MAE 340 or instructor approval.

M MAE 442 Mechanical Systems Design. (4)
spring
Applies design principles and techniques to the synthesis, modeling, and optimization of mechanical, electromechanical, and hydraulic systems. Fee. Lecture, lab. Prerequisites: MAE 318, 342 (or 344).

M MAE 446 Thermal Systems Design. (3)
once a year
Applies engineering principles and techniques to the modeling and analysis of thermal systems and components. Presents and demonstrates optimization techniques and their use. Prerequisite: MAE 340.

M MAE 447 Robotics and Its Influence on Design. (3)
once a year
Robot applications, configurations, singular positions, and work space; modes of control; vision; programming exercises; design of parts for assembly. Prerequisite: MAE 318.

M MAE 453 Computer-Aided Manufacturing and Control. (3)
spring
Computer control in manufacturing, CIM, NC, logic controllers, group technology, process planning, and robotics. Cross-listed as IEE 463. Credit is allowed for only IEE 463 or MAE 453. Credit is allowed for only IEE 463 or 543. Fee. Prerequisite: IEE 360 or MAE 351.
General Studies: CS

M MAE 455 Polymers and Composites. (3)
fall
Relationship between chemistry, structure, and properties of engineering polymers. Design, properties, and behavior of fiber composite systems. Cross-listed as MSE 470. Credit is allowed for only MAE 455 or MSE 470. Prerequisites: MSE 211 (or CEE 213 or MAE 213), 250.

M MAE 462 Space Vehicle Dynamics and Control. (3)
fall
Attitude dynamics and control, launch vehicles, orbital mechanics, orbital transfer/rendezvous, space mission design, space structures, spacecraft control systems design. Prerequisite: MAE 318.

M MAE 463 Propulsion. (3)
fall
Fundamentals of gas-turbine engines and design of components. Principles and design of rocket propulsion and alternative devices. Lecture, design projects. Prerequisites: MAE 362, 384.

M MAE 465 Rocket Propulsion. (3)
once a year
Rocket flight performance; nozzle design; combustion of liquid and solid propellants; component design; advanced propulsion systems; interplanetary missions; testing. Prerequisite: MAE 340 or 362.

M MAE 466 Rotary Wing Aerodynamics and Performance. (3)
once a year
Introduces helicopter and propeller analysis techniques. Momentum, blade-element, and vortex methods. Hover and forward flight. Ground effect, autorotation, and compressibility effects. Prerequisite: MAE 360 or instructor approval.

M MAE 468 Aerospace Systems Design. (3)
fall and spring
Group projects related to aerospace vehicle design, working from mission definition and continuing through preliminary design. Fee. Prerequisite: MAE 344. Pre- or corequisite: MAE 463.
General Studies: L

M MAE 469 Projects in Astronautics or Aeronautics. (3)
fall and spring
Various multidisciplinary team projects available each semester. Projects include design of high-speed rotocraft autonomous vehicles, liquid-fueled rockets, microaerial vehicles, satellites. Fee. Prerequisite: instructor approval.

M MAE 471 Computational Fluid Dynamics. (3)
once a year
Numerical solutions for selected problems in fluid mechanics. Fee. Prerequisites: MAE 340 (or 360), 384.

M MAE 488 Mechanical Engineering Design I. (3)
fall
Conceptual and embodiment design; modeling; rapid prototyping. Team project. MAE 488 and 489 must be taken in consecutive semesters. Lecture, discussion. Fee.Prerequisites: MAE 340, 342.

M MAE 489 Mechanical Engineering Design II. (3)
spring
Detail design; fabrication and testing. Team project. MAE 488 and 489 must be taken in consecutive semesters. Lecture, discussion. Fee. Prerequisite: MAE 488.

M MAE 491 Experimental Mechanical Engineering. (3)
fall and spring
Experimental and analytical studies of phenomena and performance of fluid flow, heat transfer, thermodynamics, refrigeration, and mechanical power systems. Fee. 6 hours lab. Prerequisites: MAE 318, 340.
General Studies: L

M MAE 492 Honors Directed Study. (1–6)
selected semesters

M MAE 493 Honors Thesis. (1–6)
selected semesters

M MAE 498 Pro-Seminar. (1–3)
selected semesters
Special topics for advanced students. Applies the engineering disciplines to design and analysis of modern technical devices and systems. Prerequisite: instructor approval.

M MAE 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Programs in Engineering Special Studies

The major of Engineering Special Studies accommodates students whose educational objectives require more intensity of concentration on a particular subject or more curricular flexibility within an engineering discipline than the traditional departmental majors generally permit. The major is a School of Engineering program. Unlike the departmental major areas, however, there is not a separate faculty. The faculty teaching and advising in these programs are from the various departments within the School of Engineering.

For many students, engineering studies form the basis of preparation for professional engineering work where proficiency in the application of science and the physical and social technologies is brought to bear on problems of a large scope. The necessary breadth that these students seek often is not obtainable in traditional engineering fields. Rather, specially designed programs of course work that merge the required principles and approaches drawn from all fields of engineering and other pertinent disciplines are desired.

ENGINEERING SPECIAL STUDIES—BSE

At the current time there is only one concentration available for this program—premedical engineering.

Premedical Engineering. In recent decades, the interrelation between engineering and medicine has become vigorous and exciting. Rapidly expanding technology dictates that engineering will continue to become increasingly involved in all branches of medicine. As this develops, so will the need for physicians trained in the engineering sciences—medical men and women with a knowledge of computer technology, transport phenomena, biomechanics, bioelectric phenomena, operations research, and cybernetics. This concentration is of special interest to students who desire entry into a medical college and who have medical interests in research, aerospace and undersea medicine, artificial organs, prostheses, biomedical engineering, or biophysics. Since both engineering and medicine have as their goal the well-being of humans, this program is compatible with any field of medical endeavor. This program is administered by the faculty of the Harrington Department of Bioengineering.

ADMISSION REQUIREMENTS

Preprofessional Program. All students admitted to the Engineering Special Studies program with a concentration in premedical engineering will be admitted to the preprofessional program. During the time students are in the preprofessional program, they will follow the sequence of first- and second-year courses shown in the Typical Four-Year Sequence for the concentration. Promotion from the preprofessional program to the professional program is not automatic and a separate application procedure is required.

Promotion is based on performance in a collection of skill-set courses all of which are included in the typical first three semesters of the program. The skill-set courses are:

Skill-Set Courses

BIO	188	General Biology II[1] *SQ*	4
BME	100	Introduction to Bioengineering *CS*	3
BME	294	ST: Conservation Principles in Bioengineering	3
CHM	116	General Chemistry II *SQ*[2]	4
MAT	294	ST: Calculus for Engineers I	3
MAT	294	ST: Calculus for Engineers II	3
PHY	121	University Physics I: Mechanics *SQ*[3]	3
PHY	122	University Physics Laboratory I *SQ*[3]	1
PHY	131	University Physics II: Electricity and Magnetism *SQ*[4]	3
PHY	132	University Physics Laboratory II *SQ*[4]	1
Skill-set course total			28

[1] Note that BIO 187 is required by many medical schools in addition to BIO 188. BIO 187 cannot be used as a technical elective.

[2] To fulfill medical school admission requirements, premedical students generally should choose CHM 116. Note that CHM 113 is required by many medical schools in addition to CHM 116. CHM 113 cannot be used as a technical elective.

[3] Both PHY 121 and 122 must be taken for SQ to secure credit.

[4] Both PHY 131 and 132 must be taken for SQ to secure credit.

Professional Program. Admission to the professional program is competitive. All students seeking admission to the professional program must follow the application procedure described in the Harrington Department of Bioengineering Web site. Admission is granted to those applicants who have demonstrated high promise for professional success. Transfer students who have completed the equivalent required lower-division skill-set courses may also apply to the professional program. While only students who have been admitted to the bioengineering program are eligible to apply to the professional program, prior attendance at ASU is not required. Completion of the specified preprofessional course work does not guarantee admission to the professional program.

DEGREE REQUIREMENTS

A minimum of 120 semester hours is necessary for the BSE degree in Engineering Special Studies with a concentration in Premedical Engineering. A minimum of 45 upper-division hours is required. Students must attain a GPA of at least 2.00 for the courses in the major field.

GRADUATION REQUIREMENTS

In addition to fulfilling school and major requirements, majors must satisfy all university graduation requirements. See "University Graduation Requirements," page 89.

Note: To fulfill medical school admission requirements, BIO 187 General Biology is required in addition to the degree requirements and is best taken in summer session before the Medical College Admission Test.

COURSE REQUIREMENTS

The course work for the undergraduate degree can be classified into the following categories (in semester hours):

First-Year Composition[1]

Choose among the course combinations below 6
- ENG 101 First-Year Composition (3)
- ENG 102 First-Year Composition (3)

———*or*———

- ENG 105 Advanced First-Year Composition (3)
- Elective chosen with an advisor (3)

———*or*———

- ENG 107 English for Foreign Students (3)
- ENG 108 English for Foreign Students (3)

First-year composition subtotal 6

General Studies/Program Requirements

Humanities and Fine Arts/Social and Behavioral Sciences

HU/SB and awareness area courses[2] 15

Total 15

Literacy and Critical Inquiry

Six hours of literacy and critical inquiry credit is satisfied by courses in the major.

Natural Sciences

BIO 188 General Biology II *SQ*[1, 2] 4

The Katherine K. Herberger College of Fine Arts

herbergercollege.asu.edu

PURPOSE

The Katherine K. Herberger College of Fine Arts at ASU provides both preprofessional and professional education in the arts disciplines and an opportunity for nonmajors to become culturally literate through participation in the creative and performing arts.

The college, through its programs in art, dance, music, and theatre, reflects a wide range of challenges facing the contemporary artist and scholar. The arts, as an integral part of the curriculum, offer the student a rewarding educational experience balanced and strengthened by studies in related fine arts areas, the humanities, social sciences, and the natural sciences.

In addition to professional curricula offered in each department and school, the college provides courses designed to meet the specific educational needs of students pursuing majors in other colleges throughout the university. The cultural life of the university community is further enriched by study opportunities offered at off-campus sites. The Katherine K. Herberger College of Fine Arts also offers community audiences many hours of cultural enjoyment through a myriad of art exhibitions, music and dance concerts, dramatic productions, operas, lectures, and seminars.

ORGANIZATION

The college houses the School of Art, the Department of Dance, the School of Music, and the School of Theatre and Film. An average of 2,600 students per semester enroll as majors in various degree programs offered through these units. The college also includes the ASU Art Museum and the Institute for Studies in the Arts.

ADMISSION

Students meeting the university requirements for admission may matriculate in the Katherine K. Herberger College of Fine Arts. Separate admission procedures and approvals are required for some programs within the college. Students must contact specific departments or schools for details.

Transfer of Community College Credits. The university standards for evaluation of transfer credit are listed under "Transfer Credit," page 71. Transfer students are encouraged to contact their department or school or the Katherine K. Herberger College of Fine Arts Student Academic Services (GHALL 116) to ensure a smooth transition to the Katherine K. Herberger College of Fine Arts. Credits transferred from any accredited junior or community college may be accepted up to a maximum of 64 semester hours. (A community college student planning to transfer at the end of his or her first or second year should plan to take community college courses that meet the requirements of the ASU curriculum selected. Students attending Arizona community colleges are permitted to follow the degree requirements specified in the ASU *General Catalog* in effect at the time they began their community college work, providing their college attendance has been continuous.)

Courses transferred from community colleges are not accepted as upper-division credit at ASU. Arizona students are urged to refer to the *Course Applicability System* for transferability of specific courses from Arizona community colleges. For more information, access the Web site at az.transfer.org/cas.

In choosing courses at a community college, students should be aware that a minimum of 45 semester hours of work taken at the university must be upper-division credits. While attending a community college, it is suggested that students select courses similar to ASU General Studies lower-division courses in the major field.

For optimal course selection, access the ASU Transfer Guides on the Web at www.asu.edu/provost/articulation.

General Transfer Credit. Direct transfer of courses from other accredited institutions to the Katherine K. Herberger College of Fine Arts are subject to (1) the existence of parallel and equal courses in the college's curriculum and (2) departmental or school evaluation of studio courses with respect to performance standards. Every candidate for the bachelor's degree must earn a minimum of 30 semester hours in resident credit at ASU. Transfer students enrolled in the college must complete a minimum of 15 semester hours of resident credit in the major as approved by the faculty.

ADVISING

Undergraduate academic advising is handled as a centralized activity within the college. To offer personalized

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Katherine K. Herberger College of Fine Arts Baccalaureate Degrees and Majors

Major	Degree	Concentration[1]	Administered By
Art	BA	Art history, digital art, museum studies, or studio art	School of Art
	BFA	Art education, ceramics, drawing, fibers, intermedia, metals, painting, photography, printmaking, or sculpture	School of Art
Dance	BFA	Choreography, dance education, dance studies, or performance	Department of Dance
Film	BA	Film and media production	School of Theatre and Film
Music	BA	—	School of Music
Music Education[2]	BM	Choral-general, instrumental, or string	School of Music
Music Therapy[2]	BM	—	School of Music
Performance	BM	Collaborative piano, guitar, jazz, keyboard, music theatre, orchestral instrument, or voice	School of Music
Theatre	BA	Optional: acting or scenography[1]	School of Theatre and Film
Theory and Composition	BM	Composition or theory	School of Music

[1] If a major offers concentrations, one must be selected unless noted as *optional*.

[2] This major requires more than 120 semester hours to complete.

attention, each academic unit establishes its own graduate advising procedures. Students are encouraged to make appointments through the Herberger Student Academic Services central office. For more information, call 480/965-4495.

Baccalaureate Degrees

The three baccalaureate degrees differ in curricula with respect to the amount of specialization permitted in the major field. The BA degree provides a broad, scholarly, humanistic program, while the other two programs place greater emphasis upon the major field. See the "Katherine K. Herberger College of Fine Arts Baccalaureate Degrees and Majors" table, on this page, for more information.

The university General Studies curriculum plays an integral role within the educational mission of the university and as such constitutes an important component of all undergraduate degrees in the Katherine K. Herberger College of Fine Arts. See "General Studies," page 93, for more information.

In cooperation with the College of Education, a K–12 endorsement for teacher certification is available in the disciplines of art, dance, and music for students preparing for a teaching career in the public schools. Students should, with the advice and counsel of their arts education advisors, fulfill the requirements for the appropriate area of specialization under the Bachelor of Fine Arts or Bachelor of Music degrees. In addition, a student wishing to be admitted to the Initial Teacher Certification (ITC) program in the College of Education (leading to teaching certification) must consult with an advisor from the Office of Student Services in the College of Education before applying for the ITC. Students must have completed 56 semester hours with a minimum GPA of 2.50. Further details on admission requirements and procedures for the ITC can be found under "Teacher Education," page 350.

Minors

The Katherine K. Herberger College of Fine Arts provides an opportunity for students majoring in other disciplines to sustain their interest in the arts through a structured program of required courses and electives leading to a minor. The minor is not intended as a substitute for professional work in the arts, but as a complement to various liberal arts and preprofessional curricula.

Minors are offered in Art History, Dance, Music, and Theatre. The total number of semester hours required for a minor ranges from 18 to 25. Students should contact the relevant academic unit for specific requirements and guidelines regarding the minor.

Graduate Degrees

Master's programs range from 30 to 60 semester hours, depending upon the degree chosen. Doctoral programs vary in scope and curricula. See the "Katherine K. Herberger College of Fine Arts Graduate Degrees and Majors" table, page 439, for more information. See the *Graduate Catalog* for specific requirements.

UNIVERSITY GRADUATION REQUIREMENTS

In addition to fulfilling college and major requirements, students must meet all university graduation requirements. For more information, see "University Graduation Requirements," page 89.

GENERAL STUDIES REQUIREMENT

All students enrolled in a baccalaureate degree program must satisfy a university requirement of a minimum of 35 semester hours of approved course work in General Studies, as described under "General Studies," page 93. All three General Studies awareness areas are required. Consult with an advisor for an approved list of courses. General Studies

Katherine K. Herberger College of Fine Arts Graduate Degrees and Majors

Major	Degree	Concentration[1]	Administered By
Art	MA	Art education or art history	School of Art
	MFA	Ceramics, digital technology, drawing, fibers, intermedia, metals, painting, photography, printmaking, sculpture, or wood	School of Art
Composition	MM	Optional: interdisciplinary digital media and performance[1]	School of Music
Creative Writing	MFA[2]	—	Creative Writing Committee
Curriculum and Instruction	PhD[3]	Art education	School of Art
Dance	MFA	Optional: interdisciplinary digital media and performance[1]	Department of Dance
History and Theory of Art[4]	PhD	—	School of Art
Music	MA	Ethnomusicology, music history and literature, or music theory	School of Music
	DMA	Conducting, interdisciplinary digital media and performance, music composition, music education, or performance	School of Music
Music Education	MM	Choral music, general music, instrumental music, or jazz studies	School of Music
Music Therapy	MM	—	School of Music
Performance	MM	Collaborative piano, music theatre/opera musical direction, music theatre/opera performance, performance, or performance pedagogy	School of Music
Theatre	MA	—	School of Theatre and Film
	MFA	Directing, interdisciplinary digital media, performance, performance design, or theatre for youth	School of Theatre and Film
	PhD	Theatre and performance of the Americas or theatre for youth	School of Theatre and Film

1 If a major offers concentrations, one must be selected unless noted as *optional*.

2 This program is administered by the Division of Graduate Studies.

3 This program is administered in collaboration with the College of Education.

4 This major is jointly offered with the University of Arizona.

courses are listed in the "General Studies Courses" table, page 96, in the course descriptions, in the *Schedule of Classes,* and in the *Summer Sessions Bulletin*.

Courses in the major or in a related field area may not be used to satisfy both the major and core area portions of the General Studies requirement. Concurrent listings in the literacy areas, numeracy (computer applications) areas, and awareness areas are an exception. Students are encouraged to consult with an academic advisor to ensure that they comply with all necessary requirements.

COLLEGE DEGREE REQUIREMENTS

The Katherine K. Herberger College of Fine Arts degree requirements supplement the General Studies requirement. Descriptions of additional required courses follow. Students are encouraged to consult with an academic advisor to ensure that they comply with all necessary requirements.

Fine arts majors must take at least six semester hours of fine arts course work in areas outside of the major school or department. These courses may be in art, dance, music, or theatre. A student may concurrently fulfill this requirement and the humanities and fine arts portion of the General Studies requirement by selecting approved courses as indicated in the *Schedule of Classes*. This requirement may also be met by taking any Katherine K. Herberger College of Fine Arts course outside of the student's major.

All BA degrees require the equivalent of 16 semester hours in one foreign language except for the BA degrees in Theatre and Art with concentrations in digital art and studio art. Foreign language study is strongly recommended but not required for these degree programs. Course work may be selected in any language and must follow the sequence of language courses 101, 102, 201, and 202. This requirement may be fulfilled at the secondary school level or by examination. If acquired in secondary school, two years of instruction in one foreign language is considered the equivalent of one year of college instruction. Transfer

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

students are placed in language study at the level above completed work.

Candidates for the BM degree in Performance with a concentration in voice have specific foreign language requirements, which are stated in the degree requirements. There is no foreign language requirement for other concentrations of the BFA or BM degrees.

ACADEMIC STANDARDS AND RETENTION

Good Standing. Students in the Katherine K. Herberger College of Fine Arts are considered in good standing for the purpose of retention if they maintain a cumulative GPA of 2.00 or higher in all courses taken at ASU. However, to gain admission into certain undergraduate degree programs in the college, students must maintain a minimum GPA within their major and/or a minimum cumulative GPA. These minimum GPAs vary according to the given program.

Probation. Any student who does not maintain good standing is placed on academic probation. A student on academic probation is required to observe any limitations or rules the college may impose as a condition for retention.

Students are encouraged to seek advising from their major academic advisor, in an effort to improve academic standing. All Herberger College of Fine Arts students who are placed on academic probation and continuing probation are required to submit completed student progress reports to the office of the assistant dean of the college. The student progress report is a means to monitor the academic performance that a probation/continuing probation student is achieving in each of his or her courses, during the semester.

Completed student progress reports must be returned to the Herberger College of Fine Arts Office, GHALL 116, every second Friday. The assistant dean will then review each report. Progress reports are required until the student earns a cumulative GPA of 2.00 or higher.

Disqualification. A student who is on probation becomes disqualified if the student (1) has not returned to good standing or (2) has not met the required semester GPA.

Disqualification is exercised at the discretion of the college and becomes effective on the first day of the fall or spring semester following college action. A disqualified student is notified by the Office of the Registrar and/or the dean of the college and is not allowed to register for a fall or spring semester at the university until reinstated. A student who is disqualified may not attend as a nondegree student.

Reinstatement. Students seeking reinstatement after disqualification should contact the Katherine K. Herberger College of Fine Arts Student Services Office regarding procedures and guidance for returning to good standing. When reinstatement includes readmission, application must be made to the Readmissions Section of the Office of the Registrar.

All academic disciplinary action is a function of the Katherine K. Herberger College of Fine Arts Student Services Office, GHALL 116, under the direction of the assistant dean of the college. Students having academic problems should call this office for advising at 480/965-4495.

MAJOR REQUIREMENTS

The minimum requirement for a baccalaureate degree is the completion of 120 semester hours with a minimum cumulative GPA of 2.00. Of these 120 semester hours, at least 45 must be selected from upper-division courses.

Several professional programs within the college require additional semester hours for graduation and a higher cumulative GPA of their students. To be acceptable as degree credit, all course work in the major discipline must show an earned grade of "C" (2.00) or higher.

In addition to the general information given below, consult the school and departmental sections that follow for specific degree requirements.

Bachelor of Arts (BA) Degree. The BA degree requires from 45 to 69 semester hours for the major. Depending on the major, 18 to 24 semester hours must be selected from upper-division (300- or 400-level) courses. The semester-hour requirements in the major are distributed between a field of specialization (30 to 53 semester hours) and one or more related fields. The exact content of the major is selected by a student in consultation with an advisor under the rules and regulations of the department or school concerned. A successful entrance audition is also required for admission to the BA degree in Music or Theatre programs.

Bachelor of Fine Arts (BFA) Degree. The BFA degree requires 79 semester hours for the major. At least 30 of these hours, depending on the major, must be selected from upper-division (300- or 400-level) courses. The curriculum for the major is designed as preprofessional study. Auditions are required for entrance into Dance major classes, and auditions and/or interviews are required for admission into the BFA program in Dance with specialization. Specific information can be obtained through the HCFA Advisement Office.

Bachelor of Music (BM) Degree. The BM degree requires a minimum of 79 semester hours for the major (depending on the area of specialization). The required number of upper-division (300- or 400-level) courses is dependent upon the area of specialization. The curriculum is designed to provide a broad yet concentrated preparation with a choice of specialization among various areas. See the "Katherine K. Herberger College of Fine Arts Baccalaureate Degrees and Majors" table, page 438, for available majors and concentrations. An entering undergraduate music student, regardless of the area of specialization, must pass an entrance audition in his or her primary performing medium (voice or instrument).

Academic Standards. The terms of disqualification, reinstatement, and appeals are consistent with those set forth by the university under "Retention and Academic Standards," page 86. In addition, a student disqualified in any program is normally not eligible for reinstatement for two semesters.

SPECIAL PROGRAMS

Working closely with faculty, visiting scholars, and artists-in-residence, students in all fields of the college participate in dynamic, innovative programs. Students

receive a great deal of individual attention to their creative work and artistic development.

School of Art. The School of Art is among the highest ranked programs in the country. The faculty are nationally recognized and the programs offer students diverse educational opportunities in studio art (ceramics, digital, drawing, fibers, intermedia, metals, painting, photography, printmaking, and sculpture), art history and museum studies, and art education. Some of the unique offerings include bookmaking and papermaking, film, neon, digital video, computer animation, and foundry. In addition, internships are available in galleries and museums throughout the Phoenix area. The Eleanor A. Robb Children's Art Workshop is an on-campus program taught by students in art education for school-age children in the metropolitan area. Northlight, Harry Wood, Gallery 100, and Step galleries host exhibitions of student art work. Visiting artists and guest lecturers enrich the basic curriculum. Graduates of the School of Art have been accepted to top graduate schools and many are in leadership positions in art, education, and industry.

Department of Dance. The department's strengths include choreography and performance, dance science and somatics, educational outreach and methodology, media and technology, as well as contemporary directions. Prominent and renowned faculty and guest artists create repertory for dance majors and for the Dance Arizona Repertory Theatre (DART), the repertory and community partnership company. Through instructional curriculum, workshop intensives, guest residencies, strong performance programs, professional internships, and apprenticeships, students are exposed to and trained to meet the demands of professional preparations. An environment that encourages creative collaboration, interdisciplinary views, and community awareness is central to the mission of the department.

School of Music. Ranked among the top programs in the United States, the School of Music offers a broad scope of degree options for the study of performance, music education, music therapy, composition, theory, history and literature, jazz, music theatre, ethnomusicology, pedagogy, interdisciplinary digital media, accompanying, and conducting. This wide spectrum of areas is supported by special programs and facilities that enrich the opportunities for professional training and musical growth. Music education and pedagogy are supplemented by the Piano and Guitar Preparatory Programs, the Music for Tots series, and special classes for certification in Orff and Kodály methods. Performance opportunities are enhanced by a wide variety of ensembles, including such groups as marimba, African drumming, gamelan, and mariachi. Voice students may pursue training in opera or in Broadway musicals. Composition students work in the Electronic Music Studio, and all benefit from the Electronic Classroom, a state-of-the-art computer facility. A variety of community partnerships, including a gang intervention program, stem from the music therapy area. The scope and variety of the School of Music's programs are made possible by the wide range of expertise of the faculty, who are performers, teachers, conductors, composers, and scholars recognized nationally and internationally.

School of Theatre and Film. Offering the BA in Theatre and the BA in Film (with a concentration in film and media production), the school provides a comprehensive liberal arts approach to the study and practice of the theatre and film arts. Students have opportunities to study across the range of curricular areas: performance and directing, design and production, theatre and performance studies, playwriting and dramaturgy, theatre for youth, and film. Students pursuing the BA in Theatre may choose to specialize by seeking admission to acting or design and production concentrations. The BA in Film is a joint program of the Herberger College of Fine Arts and the College of Liberal Arts and Sciences, with the film and media production concentration housed in the School of Theatre and Film. The breadth of curricular offerings is made possible by faculty nationally and internationally recognized for their expertise and excellence.

An active production program is integral to the theatre curriculum. Productions are mounted in the 496-seat Galvin Playhouse and the 162-seat Lyceum Theatre; student-generated projects take place in the Prism Theatre Lab. With special emphasis on creating new work and original interpretations, the school is devoted to moving the art of the theatre into the future.

Of special note are the departments's highly ranked programs in playwriting, which feature a Mainstage Festival of New Work each year and multiple readings and workshop series; the Performance in the Borderlands Project, which provides opportunities for performance and scholarship of and about the southwest borderlands region; and Theatre for Youth, which attracts artists and scholars from around the world. The Child Drama Special Collections in Hayden Library supports their endeavors.

Arts, Media, and Engineering. The Arts, Media, and Engineering Graduate Research and Education (AME) program is cosponsored by the Katherine K. Herberger College of Fine Arts and the Ira A. Fulton School of Engineering. Graduate degrees with concentrations in media and arts are offered collaboratively through AME by the Departments of Computer Science and Engineering, Dance, and Electrical Engineering and the Schools of Art, Music, and Theatre and Film. The concentrations aim to train hybrid arts-engineering graduate students who draw their creativity from the arts and their methodology from the sciences. The concentrations focus on in-depth studies that fully integrate discipline-specific studies with development of arts and media technologies and research-oriented practices.

SCHOOL OF EXTENDED EDUCATION

The university-wide School of Extended Education provides an interactive link between ASU and the diverse communities it serves. The college assesses lifelong learning requirements and works in partnership with campuses, other colleges, and the community to serve learners, using a network of locations, programs, schedules, and technologies.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

GENERAL INFORMATION

Undergraduate Credit for Graduate Courses. To enable interested students to benefit as much as possible from their undergraduate studies, the Division of Graduate Studies and the Katherine K. Herberger College of Fine Arts extend to seniors with a GPA of at least 2.50 the privilege of taking 500-level graduate courses for undergraduate credit. Students requesting to take 500-level graduate courses must have the approval of the class instructor and their academic advisor.

Preprofessional Programs. Students preparing for admission to professional graduate schools should obtain information regarding admission requirements by writing directly to the schools in which they are interested.

Courses. The academic units within the Katherine K. Herberger College of Fine Arts may use the CFA prefix for course offerings that cross disciplinary boundaries.

COLLEGE OF FINE ARTS (CFA)

M CFA 194 Special Topics. (1–4)

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

ARTS, MEDIA, AND ENGINEERING (AME)

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

School of Art

herbergercollege.asu.edu/art
480/965-3468
ART 102

Regents' Professors: Klett, Weiser

Professors: Britton, Codell, Collins, Duncan, Eckert, Erickson, Fahlman, Gillingwater, Hajicek, Magenta, Marc, Maxwell, Meissinger, Neubauer, Pittsley, Risseeuw, Schleif, Schmidt, Schoebel, Stokrocki, Sweeney, Verstegen, White, Wolfthal, Young

Associate Professors: Brown, Gully, Jenkins, McIver, Newport, Pessler, Schutte, Segura, Serwint, Umberger

Assistant Professors: Anand, Ellsworth, Hood, McDonah, Mesch, Schneider

Senior Lecturer: Mittman

All students registering in a School of Art degree program enroll through the Katherine K. Herberger College of Fine Arts. Each degree program and area of specialization has its own check sheet, which describes the specific course sequence and special requirements. Check sheets are available online at art.asu.edu.

Art majors seeking a second BA or BFA degree in art must petition the Katherine K. Herberger College of Fine Arts after completing 12 semester hours in the specialization of the second degree. The second degree in art requires at least 30 semester hours of courses that meet art requirements in the major. These 30 semester hours should not duplicate any of the courses taken for the first degree.

Portfolio Reviews

Students who have been admitted to the School of Art before the fall semester of 2006 need to submit application materials, including a portfolio, for acceptance into upper division classes (300 and 400 levels) in the following programs: BA in Art with a concentration in digital art; BFA in art with concentrations in drawing, intermedia, painting, and photography. Eligibility for these programs requires a GPA of at least 2.70 overall and 3.00 for art classes. Portfolio deadlines are March 1 for acceptance into fall semester upper-division classes and October 1 for spring classes. Transfer students are encouraged to apply a semester before attending ASU. Students who have been admitted before the fall of 2006 must follow the course prerequisites and program requirements appropriate for their catalog year.

Preprofessional Programs

Effective fall semester 2006, all students applying to degree programs in the School of Art will be admitted to the preprofessional program without a concentration classification. Choices of concentrations include: art education, art history, ceramics, digital art, drawing, fibers,

intermedia, metals, museum studies, painting, photography, printmaking, sculpture, and studio art. Students remain in the preprofessional program until they have been accepted into a professional program concentration; eligibility is determined through a performance review.

Students pursuing studio concentrations must complete the following classes to prepare for acceptance into the professional program: ARS 101 and 102, ART 111, 112, 113, and 115. In addition, students must successfully complete 12 semester hours of the following 200-level studio classes: 2-D class, 3-D class, a course related to the concentration in which they are applying, and a studio elective class (3-D or 2-D). Students must complete the 200-level concentration class in the semester before the application is submitted. The application for acceptance into the professional program is submitted during the semester in which the 30 semester hours of preprofessional study is being completed. Students must maintain an overall GPA of 2.70 and an art GPA of 3.00. For deadlines and application procedures, access the Web site at art.asu.edu/undergraduate.

Students pursuing the art education concentration must complete the following classes to prepare for acceptance into the professional program: ARS 101 and 102, ART 111, 112, 113, and 115. In addition, students must successfully complete 12 semester hours of the following 200-level classes: 2-D class, 3-D class, ARE 250 (formerly ARE 450) with a grade of 3.00 or higher, and a studio elective class (3-D or 2-D). Students must complete ARE 250 the semester before the application is submitted. The application for acceptance into the professional program is submitted during the semester in which the 30 semester hours of preprofessional study is being completed. Students must maintain an overall GPA of 2.70 and an art of GPA 3.00. For deadlines and application procedures, access the Web site at art.asu.edu/undergraduate.

Students pursuing the art history or museum studies concentration must complete the following classes with grades of 3.00 or higher for acceptance into the professional program: ENG 101 and 102, ARS 101 and 102. Students must maintain a GPA of 3.00 for a minimum of 30 semester hours to be eligible for the professional program. Applicants should submit materials during the semester in which they are completing 30 semester hours.

It is recommended that transfer students who meet the above requirements apply the semester before they plan to attend the School of Art and by the March 1 or October 1 deadline. For specifics regarding application materials and criteria for acceptance into upper division professional programs, access the Web site at art.asu.edu/undergraduate.

Students will be notified by mail and e-mail of their acceptance status. For students applying in the semester during which they are completing preprofessional requirements, the acceptance status of students will not be final until grades are posted.

Once students majoring in art have been accepted into the professional program for a concentration, the School of Art will add the concentration designation to the major, and they will be able to register for upper-division classes in the concentration to which they were admitted and into related upper-division classes within other concentrations in the major.

Denial of Acceptance into a Professional Program

Students who are not accepted through portfolio review will remain in the preprofessional program for a maximum of one year (two semesters following their first application to the professional program) with the following conditions:

1. they will continue to work with school of art advisors,
2. they will continue to take 100- or 200-level art courses appropriate for acceptance into a concentration,
3. they may reapply to the same concentration no more than two times, once during each of the following semesters, and
4. students who have not been accepted within a year of the first unsuccessful portfolio review will work with School of Art advisors to choose another major suited to their interests.

Appeals by applicants who are denied must be submitted as a petition to the School of Art Standards Committee within 30 days of the date of the e-mail and/or letter notifying students of their status regarding acceptance into the professional program.

Studio and Art History Foundations

Students must complete 18 semester hours of studio and art history foundations requirements to be eligible for acceptance into upper division professional BA and BFA programs in studio art.

Studio and Art History Foundations Requirements

ARS	101	Art from Prehistory Through Middle Ages *HU, H*	3
ARS	102	Art from Renaissance to Present *HU, H*	3

ART	112	2-D Design	3
ART	113	Color	3
ART	115	3-D Design	3
Total			18

Professional Programs

In studio concentrations, the professional program consists of nine to 15 semester hours of required upper-division courses in the concentration core, seven to 15 semester hours of upper-division electives in the concentration (including one to three semester hours of senior exhibition and portfolio), and nine to 17 semester hours of School of Art classes (ARA, ARE, ARS, and ART) outside of the concentration. In addition to courses in the professional program, six to 12 semester hours of art history beyond ARS 101 and 102 are required.

The art education professional program consists of 21 semester hours of art education, including 18 semester hours of upper-division courses, 21 semester hours of a proficiency in art (studio or art history), including 12 semester hours of upper-division courses. In addition to courses in the professional program, six semester hours of art history beyond ARS 101 and 102 are required.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

The art history professional program consists of 27 semester hours of art history courses and 16 semester hours of foreign language or related study (if the language proficiency requirement has been met).

The museum studies professional program consists of 30 semester hours of art history, ART 409 or ARA 460, and 16 semester hours of foreign language or related study (if the language proficiency requirement has been met). ASB 471 Introduction to Museums or ARS 494 ST: Introduction to Museums is also recommended.

Transfer Courses in Art

Courses from other departments, when approved by a student's faculty advisor and the School of Art, may be applied to the major if deemed appropriate to the student's program of study. Transfer art courses which do not have the same title and description as ASU catalog courses must have the approval of the School of Art Standards Committee.

Senior Exhibition

All majors in studio BFA programs and the BA in Art with a concentration in digital art program must successfully complete ART 494 ST: Senior Exhibition and Portfolio for graduation. Graduating students in these areas must submit acceptable work to a faculty sponsor in their area of concentration for a group exhibition, a portfolio of 10 to 15 images, and an artist's statement.

Art—BA

The faculty in the School of Art offer four concentrations for students in the BA degree in Art program: art history, digital art, museum studies, and studio art. These concentrations are intended to give the student a broadly based general education in the field with specialized work at the upper-division level.

The major in Art consists of 45 to 79 semester hours, depending on the concentration. BA degree programs are especially suited for individuals pursuing interdisciplinary studies or a minor in another discipline. All courses in the major must be completed with a grade of "C" (2.00) or higher.

Graduation Requirements. In addition to fulfilling the major requirements, students must meet all university graduation requirements and college degree requirements.

See "University Graduation Requirements," page 89, and "College Degree Requirements," page 439.

ART HISTORY CONCENTRATION

The art history concentration consists of a minimum of 61 semester hours of preprofessional and professional program requirements. The preprofessional program requirements include 12 semester hours of a related subject field, six semester hours of art history, six semester hours of ENG 101 and 102 or ENG 105, and six semester hours of General Studies.

Application for acceptance into the professional program occurs during the semester in which the 30 semester hours of preprofessional study is being completed. For deadlines and application procedures, access the Web site at art.asu.edu/undergraduate. The professional program requirements include 27 semester hours of art history courses, including a minimum of 18 semester hours of upper-division courses.

Additional requirements include 16 semester hours of foreign language or a demonstrated language proficiency (not American sign language). If the foreign language proficiency is demonstrated, 16 semester hours of related study is required, which must be approved by the department. Satisfactory completion of ARS 480 Research Methods is required before the senior year.

Preprofessional Art History Requirements. A minimum of 30 semester hours is required. Students who enter the university in fall semester 2006 or later will be admitted to the preprofessional program without a concentration classification (i.e., art history). Students interested in the Art History BA program will pursue the preprofessional courses below.

ENG	101	First-Year Composition*	3

Total			6

Applying to Art History Professional Program

The application deadlines are October 1 for spring classes and March 1 for fall classes. For students admitted in fall semester 2006 or later, the application for acceptance into the professional program is submitted during the semester in which the 30 semester hours of preprofessional study is being completed. Students must complete ENG 101 and 102 or equivalent and ARS 101 and 102 with a grade of B (3.00) or higher before the semester in which the application is submitted. Students must maintain an overall GPA of 3.00 for a minimum of 30 semester hours to be eligible for the professional program. For deadlines and application procedures, access the Web site at art.asu.edu/undergraduate.

Professional Art History Requirements

Forty-three semester hours with a minimum of 18 semester hours of upper-division courses are required.

Art History

ARS	480	Research Methods *L*	3
ARS	498	PS: Art History	3

Any ARS course	6
Total	12

Also required is at least one 300- or 400-level art history (ARS) course from each of the following areas:

Ancient	3
Medieval	3
Modern/contemporary	3
Non-Western	3
Renaissance/Baroque	3
Total	15

Foreign Language or Additional Art History Related Study

Sixteen semester hours of language courses or demonstrated proficiency in a foreign language is required. American Sign Language cannot be used for this requirement. If the language proficiency is met, additional courses are required in interdisciplinary related studies (e.g., architecture history, anthropology, history, religious studies, global studies)

Free Electives

Students must select a minimum of 18 semester hours of free electives.

BIS CONCENTRATION

A concentration in art history is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

Related Subject Field. Select three courses (nine semester hours) from those with the prefix APH, ARA, ARE, or from the following:

ART 101 Photography I	3
ART 111 Drawing I: Foundations	3
ART 112 2-D Design	3
ART 113 Color	3
ART 115 3-D Design	3
ART 274 Wood I	3
ART 294 Special Topics	3

Also required is an approved upper-division elective (ARA, ARE, or ARS).

Foreign Language. Sixteen semester hours of 101, 102, 201, and 202 foreign language courses; or a demonstrated proficiency in at least one foreign language equivalent to the level attained through the completion of two years of study at the college level is required. For specific courses, see the "Department of Languages and Literatures," page 580. (SHS courses are not acceptable.)

DIGITAL ART CONCENTRATION

The digital art concentration consists of a minimum of 75 semester hours of preprofessional and professional program requirements. The preprofessional program requirements include 18 semester hours of foundations courses and 12 semester hours of 200-level classes, which must include a minimum of three semester hours of 2-D courses and three semester hours of 3-D courses. In addition, nine semester hours of art history is required (six semester hours at the upper-division level). The upper-division professional program requirements include 10 semester hours of digital art core, 14 semester hours of studio art digital electives, including the Senior Exhibition and Portfolio, and 12 semester hours of related study outside of the digital art concentration.

Portfolio Review. Students who have been admitted to the BA in digital art before fall of 2006 need to submit application materials, including a portfolio, for acceptance into digital art upper division classes (300 and 400 levels) and must have a minimum cumulative GPA of 2.70 and an art GPA of 3.00. The portfolio deadlines are October 1 for spring classes and March 1 for fall classes.

Preprofessional Digital Art Requirements. A minimum of 30 semester hours is required. Students who enter the university in fall semester 2006 or later are admitted to the preprofessional program without a concentration classification (i.e., digital art). Students interested in the digital art BA program will purse the preprofessional courses below.

Studio and Art History Foundations Requirements. Eighteen semester hours are required. See "Studio and Art History Foundations," page 443.

ART 494 ST: Senior Exhibition and Portfolio 2
Total 14

Related Subject Area. A minimum of 12 semester hours of upper-division courses is required. The related subject requirement includes courses outside of the digital art concentration associated with the media and conceptual direction of students' art work. This may include courses outside of the department directly related to digital media, installation art, and the cultural contexts for digital art. Courses must be approved by the department.

Free Electives. Students must select a minimum of four semester hours of free electives.

MUSEUM STUDIES CONCENTRATION

The museum studies concentration consists of a minimum of 67 semester hours of preprofessional and professional program requirements. The preprofessional program requirements include six semester hours of ARS 101 and 102, six semester hours of ENG 101 and 102 or ENG 105, and 18 semester hours of general studies. Application for acceptance into the professional program occurs after the completion of ARS 101, 102, and ENG 101, 102; and during the semester in which the 30 semester hours of preprofessional study is being completed. For deadlines and application procedures, access the Web site at art.asu.edu/undergraduate for deadlines and application procedures.

The upper-division professional program requirements include 36 semester hours of art history courses. A minimum of 30 semester hours of upper-division courses is required in the Museum Studies professional program. Additional requirements include 16 semester hours of foreign language or a demonstrated language proficiency (not American sign language). If the foreign language proficiency is demonstrated, 16 semester hours of related study is required, which must be approved by the department. Satisfactory completion of ARS 480 Research Methods is required before the senior year.

Preprofessional Museum Studies Requirements. A minimum of 30 semester hours is required. Students who enter the university in fall semester 2006 or later are admitted to the preprofessional program without a concentration classification (i.e., museum studies). Students interested in the Museum Studies BA program will pursue the preprofessional courses below.

Applying to Studio Art Professional Program

The application deadlines are October 1 for spring classes and March 1 for fall classes. For students admitted in fall semester 2006 or later, the application for acceptance into the professional program is submitted during the semester in which the 30 semester hours of preprofessional study is being completed. Students must complete a three semester hour 2-D or 3-D ART course in the emphasis to which they are applying before the semester that the application is submitted. Students must maintain an overall GPA of 2.70 and an art GPA of 3.00. For deadlines and application procedures, access the Web site at art.asu.edu/undergraduate.

Professional Studio Art Requirements. A minimum of 24 semester hours of upper-division courses is required.

Studio Art Core Requirements. Select nine semester hours of upper division courses in the 2-D or 3-D emphasis selected.

Studio Art Department Art Electives. A minimum of 15 semester hours is required.

ART 494 ST: Senior Exhibition and Portfolio 3

Twelve semester hours of courses related to the 2-D or 3-D emphasis must be selected.

Related Study Requirements. A minimum of 12 semester hours of upper-division courses is required. The related subject requirement includes courses outside of the 2-D or 3-D emphasis selected that relate to the media and conceptual direction of students' art work and may include classes outside of the department directly related to studio media, installation art, and the cultural contexts for studio art. Courses must be approved by the department.

Free Electives. Students must select a minimum of four semester hours of free electives.

Art History Minor

The School of Art offers a minor in Art History consisting of 18 semester hours of course work, including 12 upper-division electives. A minimum grade of "C" (2.00) is

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

required in all classes in the minor. For those pursuing a minor, a minimum overall GPA of 2.00 is required. Courses may not be double counted in a major and the minor, and a minimum of 12 semester hours of resident credit at the Tempe campus is required.

ARS 100 or 300 may be used toward a minor. ARS 100 and 300 may not be used toward an Art History minor if the student is an Art major or has credit in ARS 101 and 102.

Required Courses. Select two of the following four required courses:

ARS 101 Art from Prehistory Through Middle Ages *HU, H* 3
ARS 102 Art from Renaissance to Present *HU, H* 3
ARS 201 Art of Asia *HU, G, H* 3
ARS 202 Art of Africa, Oceania, and the Americas *HU, G, H*.....3

Elective Courses. Students pursuing an art history minor select four three-semester-hour upper-division courses. A seminar is strongly recommended for those considering graduate study. Students need to be aware of lower-division prerequisites for all upper-division courses. Interested students should contact the School of Art for specific requirements and admission procedures.

Art—BFA

The faculty in the School of Art offer ten concentrations for students in the BFA in Art program: art education, ceramics, drawing, fibers, intermedia, metals, painting, photography, printmaking, and sculpture. With the exception of art education, which focuses on preparing students as instructors of art, each concentration is designed to prepare students as artists. The major in Art consists of 75 semester hours of course work in each concentration. At least 30 upper-division semester hours must be earned within the major. All courses in the major must be completed with a grade of "C" (2.00) or higher. Specific requirements for each concentration are recommended by the faculty advisors of the area and are listed on School of Art check sheets.

Graduation Requirements. In addition to fulfilling the major requirements, students must meet all university graduation requirements and college degree requirements. See "University Graduation Requirements," page 89, and "College Degree Requirements," page 439.

ART EDUCATION CONCENTRATION

The art education concentration consists of a minimum of 75 semester hours of preprofessional and professional program requirements. The preprofessional program requirements include 18 semester hours of foundations requirements, and 12 semester hours of 200-level classes, which must include a minimum of three semester hours of 2-D courses and three semester hours of 3-D courses. The upper-division professional program requirements include 18 semester hours of art education core classes and 21 semester hours of art proficiency courses, which include a minimum of 12 upper division hours. Teaching experience is provided in an on campus Saturday program for children ages five to 15. Participation in the program is part of the requirements for ARE 486 Art Education: Strategies and Applications. ARE 486 meets the state certification requirement for the elementary methods class, and ARE 496 Methods and Assessment of Learning in Art meets the requirement for the secondary methods class in the subject area. Both of these courses have prerequisites.

Preprofessional Art Education Requirements. A minimum of 30 semester hours is required. Students who enter the university in fall semester of 2006 will be admitted to the preprofessional program without a concentration classification (i.e., art education). Students interested in the Art Education BFA program in the School of Art will pursue the preprofessional courses below.

Studio and Art History Foundations Requirements. Eighteen semester hours of required courses. See "Studio and Art History Foundations," page 443.

Preprofessional Art Education Electives

ARE 250 Teaching Inquiry in Art 3
Choose one of the following courses 3
- ART 101 Photography I (3)
- ART 204 Photography II (3)

Total 12

Art History. Six semester hours of upper-division courses are required. This must include a course in 20th-century art, and non-Western art is recommended for the second course. This requirement does not need to be completed before applying to the Art Education professional program.

Applying to Art Education Professional Program

The application deadlines are October 1 for spring classes and March 1 for fall classes. For students admitted fall semester 2006 or later, the application for acceptance into the professional program is submitted during the semester in which the 30 semester hours of preprofessional study is being completed. Students must complete the ARE 250 course before the semester that the application is submitted. Students must maintain an overall GPA of 2.70 and an art GPA of 3.00. For deadlines and application procedures, access the Web site at art.asu.edu/undergraduate. Application to the College of Education professional program is a separate process.

Professional Art Education Requirements. Thirty-nine semester hours with a minimum of 30 semester hours of upper-division courses are required.

Art Education Core Requirements

ARE 370 Teaching Visual Culture 3
ARE 440 Disciplines of Art Education 3
ARE 482 Teaching Art Processes 3
ARE 486 Art Education: Strategies and Applications 3

ARE 494 ST: Art Education	3
ARE 496 Methods and Assessment of Learning in Art	3
Total	18

Art Education School of Art Proficiency. Twenty-one semester hours approved by an art education faculty advisor, with a minimum of 12 semester hours of upper-division courses. Select from Art History and Museum Education (ARA 394 ST: Art Museum Education Service Learning), or ART (2-D studio art), or ART (3-D studio art).

Free Electives. Students must select a minimum of four semester hours of free electives.

Teacher Certification. A student pursuing a BFA degree in Art with a concentration in art education may also choose to become certified for teaching art K–12. If certification is elected while pursuing the art education undergraduate degree, additional semester hours are required in the College of Education. Students must make special application to the Initial Teacher Certification (ITC) program in the College of Education. Application deadlines for the ITC programs are February 1 for fall admission and September 1 for spring admission. Appointments with an advisor can be made in the Office of Student Services in the College of Education, or by calling 480/965-5555.

Certification is also available through the postbaccalaureate program in the College of Education. Interested students should contact an advisor in the College of Education and in art education for admission requirements to the postbaccalaureate program.

Art education courses for this program are as follows:

ARE 250 Teaching Inquiry in Art	3
ARE 482 Teaching Art Processes	3
ARE 486 Art Education: Strategies and Applications	3
ARE 496 Methods and Assessment of Learning in Art	3
Total	12

In addition to the art education courses, students must complete the following: education courses, field experiences, and student teaching.

The BFA degree in Art with a concentration in art education and the postbaccalaureate program for certification in art have a special art education application procedure. This procedure is separate from, and in addition to, the admission requirements of ASU. This procedure is separate from, and in addition to, the admission requirements of ASU and acceptance into the Art Education professional upper-division program. Acceptance is based on acceptance into the Art Education professional undergraduate program or a GPA of 2.50 for the post baccalaureate program, six semester hours of upper-division art history, and a B (3.00) or higher in ARE 250 and 440.

In addition, undergraduate and postbaccalaureate students seeking K–12 certification should check requirements and deadlines for admission to the College of Education professional program. To be accepted into student teaching, a student must be recommended in writing by the art education faculty and must have completed all art education classes. For additional student teaching requirements, see "Student Teaching," page 355. Students who are not recommended may complete the BFA degree in Art with a concentration in art education without certification or may reapply after meeting any deficiencies in knowledge and skills related to the teaching of art.

CERAMICS CONCENTRATION

The ceramics concentration consists of a minimum of 75 semester hours of preprofessional and professional program requirements. The preprofessional program requirements include 18 semester hours of foundations requirements and 12 semester hours of 200 level classes which must include a minimum of three semester hours of 2-D courses and three semester hours of 3-D courses. In addition, six semester hours of upper division art history is required. The upper-division professional program requirements include 12 semester hours of ceramics core classes, 10 to 12 semester hours of elective ceramics courses, including ART 494 ST: Senior Exhibition and Portfolio, and 15 to 17 semester hours of School of Art courses outside of ceramics (ARA, ARE, ARS, ART).

Preprofessional Ceramics Requirements. A minimum of 30 semester hours is required. Students who enter the university in fall semester 2006 or later are admitted to the preprofessional program without a concentration classification (i.e., ceramics). Students interested in the Ceramics BFA will pursue the preprofessional courses below.

Studio and Art History Foundations Requirements. Eighteen semester hours of required courses. See "Studio and Art History Foundations," page 443.

Total	10–12

1 Electives in ceramics must include 10 to 12 semester hours of upper-division course work.

2 Course selection must include one to three semester hours of ART 494 ST: Senior Exhibition and Portfolio.

School of Art Electives in Major. Fifteen to 17 semester hours with a minimum of 12 semester hours of upper-division courses are required. These are department electives outside of ceramics courses that are selected from upper-division classes in other art concentrations that are open to those admitted to professional programs in the department (ART, ARA, ARS, ARE).

Free Electives. Students must select a minimum of four semester hours of free electives.

DRAWING CONCENTRATION

The drawing concentration consists of a minimum of 75 semester hours of preprofessional and professional program requirements. The preprofessional program requirements include 18 semester hours of foundations requirements and 12 semester hours of 200-level classes, which must include a minimum of three semester hours of 2-D courses and three semester hours of 3-D courses. In addition, nine semester hours of art history is required (6 semester hours upper-division). The upper-division professional program requirements include 15 semester hours of drawing core classes, seven to nine semester hours of elective drawing courses, including ART 494 ST: Senior Exhibition and Portfolio, and 12 to 14 semester hours of School of Art courses outside of drawing (ARA, ARE, ARS, ART).

Portfolio Review. Students who have been admitted to the BFA in Drawing, before the fall of 2006 need to submit application materials, including a portfolio, for acceptance into drawing upper-division classes (300 and 400 levels) and must have a minimum cumulative GPA of 2.70 and an art GPA of 3.0. The portfolio deadlines are October 1 for spring classes and March 1 for fall classes.

Preprofessional Drawing Requirements. A minimum of 30 semester hours is required. Students who enter the university in fall semester of 2006 or later are admitted to the preprofessional program without a concentration classification (i.e., drawing). Students interested in the Drawing BFA program will pursue the preprofessional courses below.

Total	13–15

1 Electives in painting must include 13 to 15 semester hours of upper-division course work.

2 Course selection must include one to three semester hours of ART 494 ST: Senior Exhibition and Portfolio.

School of Art Electives in Major. Twelve to 14 semester hours with a minimum of 12 semester hours of upper-division courses are required. These are department electives outside of painting courses that are selected from upper-division classes in other art concentrations that are open to those admitted to professional programs in the department (ART, ARA, ARS, ARE).

Free Electives. Students must select a minimum of four semester hours of free electives

PHOTOGRAPHY CONCENTRATION

The photography concentration consists of a minimum of 75 semester hours of preprofessional and professional program requirements. The professional program in photography is fine arts versus commercially oriented.

The preprofessional program requirements include 18 semester hours of foundations requirements and 12 semester hours of 200-level classes, which must include a minimum of three semester hours of 2-D courses and three semester hours of 3-D courses. In addition, 12 semester hours of art history, including nine semester hours of upper division. The upper-division professional program requirements include 12 semester hours of photography core classes, 10 to 12 semester hours of elective photography courses, including ART 494 ST: Senior Exhibition and Portfolio, and nine to 11 semester hours of School of Art courses outside of photography (ARA, ARE, ARS, ART)

Portfolio Review. Students who have been admitted to the BFA in Photography before the fall of 2006 need to submit application materials, including a portfolio, for acceptance into photography upper-division classes (300 and 400 levels) and must have a minimum cumulative GPA of 2.70 and an art GPA of 3.0. The portfolio deadlines are October 1 for spring classes and March 1 for fall classes.

Preprofessional Photography Requirements. A minimum of 30 semester hours is required. Students who enter the university in fall semester 2006 or later are admitted to the preprofessional program without a concentration classification (i.e., photography). Students interested in the Photography BFA program will pursue the preprofessional courses below.

Studio and Art History Foundations Requirements. Eighteen semester hours of required courses. See "Studio and Art History Foundations," page 443.

Preprofessional Photography Electives

ART 101 Photography I	3
ART 204 Photography II	3
Choose one of the following courses	3
ART 231 Sculpture I (3)	
ART 261 Ceramic Survey (3)	
ART 272 Jewelry I (3)	
ART 274 Wood I (3)	
ART 276 Fibers I (3)	
ART 294 ST: Intermedia (3)	
Any 2-D or 3-D ART course	3
Total	12

Art History. Twelve semester hours are required, including nine hours of upper-division courses. Students must take ARS 250 History of Photography and three semester hours of non-Western art. This requirement does not need to be completed before applying to the photography professional program.

Applying to Photography Professional Program

The application deadlines are October 1 for spring classes and March 1 for fall classes. For students admitted fall semester 2006 or later, the application for acceptance into the professional program is submitted during the semester in which the 30 semester hours of preprofessional study is being completed. Students must complete ART 201 Photography I and ART 204 Photography II before the semester in which the application is submitted. Students must maintain an overall GPA of 2.70 and an art GPA of 3.00. For deadlines and application procedures, access the Web site at art.asu.edu/undergraduate.

Professional Photography Requirements. Thirty-three to 36 semester hours with a minimum of 30 semester hours of upper-division courses.

Photography Core Requirements

ARA 202 Understanding Photographs	3
ART 304 Advanced Photography	3

ART 305 Color Photography I 3
ART 308 Digital Photographic Images I 3
Total 12

Photography Electives[1]
Choose from the following 9
- ART 305 Color Photography I (3)
- ART 401 Nonsilver Photography (3)
- ART 403 Senior Photographic Projects (3)
- ART 404 Portraiture Photography (3)
- ART 407 View Camera (3)
- ART 409 Photographic Exhibition (3)

ART 494 ST: Senior Exhibition and Portfolio[2] 1–3
Total 10–12

1 Electives in photography must include 10 to 12 semester hours of upper-division course work.
2 Course selection must include one to three semester hours of ART 494 ST: Senior Exhibition and Portfolio.

School of Art Electives. Nine to eleven semester hours with a minimum of 9 semester hours of upper-division courses are required. These are department electives outside of photography courses that are selected from upper-division classes in other art concentrations that are open to those admitted to professional programs in the department (ART, ARA, ARS, ARE).

Free Electives. Students must select a minimum of four semester hours of free electives

PRINTMAKING CONCENTRATION

The printmaking concentration consists of a minimum of 75 semester hours of preprofessional and professional program requirements. The preprofessional program requirements include 18 semester hours of foundations requirements and 12 semester hours of 200-level classes, which must include a minimum of three semester hours of 2-D courses and three semester hours of 3-D courses. In addition, nine semester hours of art history is required, including six semester hours of upper division and Non-Western. The upper-division professional program requirements include nine semester hours of printmaking core classes, 13 to 15 semester hours of elective printmaking courses including ART 494 ST: Senior Exhibition and Portfolio, and 12 to 14 semester hours of School of Art courses outside of printmaking (ARA, ARE, ARS, ART)

Preprofessional Printmaking Requirements. A minimum of 30 semester hours is required. Students who enter the university in fall semester 2006 or later are admitted to the preprofessional program without a concentration classification (i.e., printmaking). Students interested in the Printmaking BFA program will pursue the preprofessional courses below.

ART 494 ST: Senior Exhibition and Portfolio[2]	1–3
Total	13–15

1 Electives in sculpture must include 13 to 15 semester hours of upper-division course work.

2 Course selection must include one to three semester hours of ART 494 ST: Senior Exhibition and Portfolio.

School of Art Electives in Major. Fifteen to 17 semester hours are required with a minimum of 12 semester hours of upper-division courses. These are department electives outside of sculpture courses that are selected from upper-division classes in other art concentrations that are open to those admitted to professional programs in the department (ART, ARA, ARS, ARE).

Free Electives. Students must select a minimum of four semester hours of free electives.

GRADUATE PROGRAMS

The faculty in the School of Art offer programs leading to the MA degree in Art, with a concentration in art education or art history; the Master of Fine Arts degree with a concentration in ceramics, digital technology, drawing, fibers, intermedia, metals, painting, photography, printmaking, sculpture, or wood; and a PhD degree in History and Theory of Art. In cooperation with the College of Education, the Doctor of Philosophy degree is offered with a concentration in art education. For more information, see the *Graduate Catalog*.

ART AUXILIARY (ARA)

For more ARA courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D

(Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M ARA 202 Understanding Photographs. (3)
once a year
Slide lecture course in understanding photography as a fine art form.

M ARA 311 Art Appreciation and Human Development. (3)
fall
Foundations of art for children and young adults. Emphasizes learning, development, and understanding art in historical and cultural contexts. Lecture, discussion. Fee (online only). Prerequisites: ENG 101, 102; junior standing; nonmajor.
General Studies: HU

M ARA 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Art Museum Education Service Learning

M ARA 460 Gallery Exhibitions. (3)
fall and spring
Practical experience in all phases of department gallery operations and preparation of gallery publications. May be repeated for credit. Prerequisite: instructor approval.

M ARA 488 Understanding Art. (3)
fall and spring
Understanding art as an emergent cultural phenomenon with an emphasis on a critical examination of conceptual issues in art. Requires writing. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: L/HU

M ARA 494 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Advanced Photo Aesthetics. (3)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

ART EDUCATION (ARE)

M ARE Note 1. May be repeated once by students who are not accepted into the professional program. Contact your academic advisor in the School of Art for more information.

M ARE Note 2. Requires acceptance into the appropriate professional program or instructor approval. Contact your academic advisor in the School of Art for more information.

M ARE 250 Teaching Inquiry in Art. (3)
fall, spring, summer
Using inquiry to investigate artworks and to teach others to make and understand art. Introduces viewpoints of art. 2 hours lecture, 2 hours applied practice. See ARE Note 1. Pre- or corequisites: ARS 101, 102; 6 hours of ART (Studio) credit.

M ARE 301 Studio Art and Human Development. (3)
once a year
Study of human development in studio art from early childhood to adult years.

M ARE 370 Teaching Visual Culture. (3)
fall and spring
Explores issues and applications of everyday aesthetics that contain powerful technological, social, and economic factors. Lecture, discussion. See ARE Note 2.

M ARE 440 Disciplines of Art Education. (3)
fall and spring
Explorations in art education's disciplines, history, and people's artmaking development at diverse age levels and abilities. Lecture, discussion. See ARE Note 2.

M ARE 482 Teaching Art Processes. (3)
spring
Art traditions of the 20th century as a basis for studio and art history instruction. Meets art postbaccalaureate certification requirement. 2 hours lecture, 2 hours studio. See ARE Note 2.

M ARE 486 Art Education: Strategies and Applications. (3)
fall
Implementation and evaluation of art instruction for K–12 population. Includes teaching of Saturday classes in the Children's Art Workshop. Meets art postbaccalaureate certification requirement. Prerequisite: ARE 482.

M ARE 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Art Education. (3)

M ARE 496 Methods and Assessment of Learning in Art. (3)
once a year
Individual or group research on the assessment of art learning incorporating theory and practice. Meets art postbaccalaureate certification requirement. Prerequisites: both ARE 370 and 486 or only instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

ART HISTORY (ARS)

For more ARS courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M ARS 100 Introduction to Art. (3)
fall, spring, summer
Understanding of art and its relationship to everyday life through painting, sculpture, architecture, and design. No credit for Art majors or non-Art majors who have completed ARS 101 or 102 or 300.
General Studies: HU

M ARS 101 Art from Prehistory Through Middle Ages. (3)
fall, spring, summer
History of Western art from the Paleolithic period through the Middle Ages.
General Studies: HU, H

M ARS 102 Art from Renaissance to Present. (3)
fall, spring, summer
History of Western art from the Renaissance to the present.
General Studies: HU, H

M ARS 201 Art of Asia. (3)
once a year
History of the art of the Asian cultures, with emphasis on China, Japan, and India. Meets non-Western art history requirement.
General Studies: HU, G, H

M ARS 202 Art of Africa, Oceania, and the Americas. (3)
spring
History of art of Africa, Oceania, and the New World. Meets non-Western art history requirement. Lecture, discussion. Cross-listed as AFH 202. Credit is allowed for only AFH 202 or ARS 202.
General Studies: HU, G, H

M ARS 250 History of Photography. (3)
once a year
History of photography from the 19th century to the present.
General Studies: HU

M ARS 300 Introduction to Art. (3)
fall and spring
Course content same as ARS 100 but requires a higher level of accomplishment and comprehension. No credit for Art majors or non-Art majors who have completed ARS 100. Fee.
General Studies: HU

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M ARS 302 Issues: Art of Africa, Oceania, and the Americas. (3)
once a year
Issues in the art of Africa, Oceania, and the Americas related to ritual, gender, transformation of tradition, and encounters with Europeans. Lecture, discussion. Prerequisite: ENG 102.
General Studies: HU, G, H

M ARS 310 The Renaissance in Tuscany. (3)
summer
Course taught in Florence, Italy. History of arts in Tuscany with focus on city of Florence from 14th through 16th centuries. Completion of ARS 101 and 102 suggested. Lecture, tours.

M ARS 340 Art in America. (3)
once a year
American art from colonial times through the Second World War. Not available to students who have completed ARS 542. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 362 Pre-Columbian Art. (3)
once a year
Architecture, sculpture, ceramics, painting, and other arts of Mesoamerica before European contact. Meets non-Western art history requirement. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Ancient Art
  Fee.
- Art and Culture of Ancient Egypt
  Fee.
- Manga and Anime
  Fee.
- 20th-Century Artists
  Fee.

M ARS 400 History of Printmaking. (3)
once a year
History of the print as an art form and its relation to other modes and forms of artistic expression. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 402 Art of Ancient Egypt. (3)
selected semesters
Aesthetic, philosophical, and cultural basis of Egyptian art from pre-Dynastic period through New Kingdom. Emphasis on sculpture and architectural monuments. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 404 Greek Art. (3)
once a year
History of art, architecture of Aegean civilizations (Cycladic, Minoan, Mycenaean) and of Greece to end of Hellenistic period. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 406 Roman Art. (3)
once a year
Art and architecture of Etruria, the Roman Republic, and the Roman Empire. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 410 Early Christian and Byzantine Art. (3)
once a year
Art and architecture of the early church and the Byzantine Empire from the 4th to the 15th century. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 412 Early Medieval Art. (3)
selected semesters
Painting, sculpture, architecture, and the minor arts from Migration, Carolingian, and Ottonian periods considered within religious, social, and economic contexts. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 414 Romanesque Art. (3)
once a year
Sculpture, painting, architecture, and minor arts in western Europe, ca. 1030–1200, considered within religious, economic, and social contexts. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 416 Gothic Art. (3)
once a year
Painting, sculpture, and architecture in western Europe during the Gothic period. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 417 Late Gothic Art in Central Europe. (3)
selected semesters
Sculpture, painting, and architecture of the late-Gothic style, ca. 1350–1525, considered within religious, social, economic, and political contexts. Prerequisites: both ARS 101 and 102 or only instructor approval.

M ARS 418 Renaissance Art in Northern Europe. (3)
once a year
Graphics, painting, sculpture, and architecture, ca. 1450–1550. Reformation themes and Renaissance style considered within religious, political, social, and economic contexts. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 420 Early Renaissance Art in Italy. (3)
selected semesters
Painting, sculpture, and architecture in Italy from 1300 to 1500. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 422 Italian High Renaissance Art and Mannerism. (3)
once a year
History of Italian art during the 16th century, including the achievements and influence of Leonardo da Vinci, Raphael, and Michelangelo. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 424 Italian Baroque Art. (3)
once a year
Italian painting, sculpture, and architecture of the 17th century. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 426 Art of the 17th Century in Northern Europe. (3)
once a year
Baroque painting, sculpture, and architecture in Flanders, the Netherlands, France, and England. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 428 Art of the 18th Century. (3)
once a year
History of painting, sculpture, architecture, graphic arts, and the decorative arts from 1700 to the French Revolution (1789). Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 430 Art of Spain and Its Colonies. (3)
once a year
Architecture, painting, and sculpture from 1500 to 1800. Colonial focus on central Mexico and the American Southwest. Prerequisite: ARS 102 or instructor approval.
General Studies: HU, H

M ARS 432 19th-Century French Art and Culture. (3)
fall
History of painting, graphic arts, sculpture, and architecture, 1800 to 1900 in France in its political, social, and economic contexts. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 434 Art and Visual Culture of 19th Century. (3)
spring
History of European art (all media) from French Revolution to Paris World Fair of 1900. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 436 The Artist, War, and Revolution (Versailles to Vietnam). (3)
fall
Critical study of artistic responses to war and revolution in Europe and United States from French Revolution to Vietnam conflict. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 438 Art of the 20th Century I. (3)
once a year
Developments and directions in art between 1900 and World War II. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 439 Art of the 20th Century II. (3)
once a year
Art since World War II, with consideration of new concepts and experimentation with media and modes of presentation. Prerequisites: a combination of ARS 101 and 102 and 438 or only instructor approval.
General Studies: HU, H

M ARS 442 Critical Issues in American Painting. (3)
once a year
Explores themes and social issues in American art with a critical study of American painting from the 18th century to 1850. Lecture, discussion. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 458 Critical Theories in the Visual Arts. (3)
selected semesters
Examines current critical theories through their application to all visual arts. May include new historicism, Marxism, deconstruction, post-structuralism, semiotics, Lacanian psychoanalysis, feminism, postmodernism. Lecture, discussion, student presentations. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 459 Writing Art Criticism. (3)
selected semesters
Traditional and contemporary approaches to the criticism of art. Students write critical essays. Latter half of the semester stresses the criticism of contemporary art in various media. Prerequisite: ARS 458 or instructor approval.

M ARS 460 Art Now. (3)
fall or spring
Critical overview of major issues and controversies of the last 10 years within the global, national, and local art scene. Lecture, discussion, gallery visits. Prerequisite: ARS 439.

M ARS 465 Native North American Art. (3)
once a year
Native American art forms of the United States and Canada from prehistoric times to the present. Meets non-Western art history requirement. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, C, H

M ARS 466 Native American Art of the Southwest. (3)
once a year
American Indian art in the southwestern states from its origins to the present day. Meets non-Western art history requirement. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, C, H

M ARS 468 Art of the Arctic and Northwest Coast. (3)
selected semesters
Art associated with ceremony, shamanism, and daily life in the Arctic and on the Northwest Coast. Meets non-Western art history requirement. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, C, H

M ARS 469 Mexican Art. (3)
once a year
Art of Mexico and related Central American cultures from the prehistoric to the contemporary schools. Meets non-Western art history requirement. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU, H

M ARS 472 Art of China. (3)
once a year
Study of major forms in Chinese art: ritual bronze, sculpture, ceramic, calligraphy, painting, and architecture. Meets non-Western art history requirement. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 473 Art of Japan. (3)
once a year
Japanese art from the Joman period to the present. Meets non-Western art history requirement. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 475 Chinese Painting. (3)
once a year
From Ku K'ai-chin to Ch'i Pai-shih. Major artists, styles, and movements in Chinese painting. Meets non-Western art history requirement. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

M ARS 480 Research Methods. (3)
fall and spring
Methodology and resource material for art historical research. Techniques of scholarly and critical writing and evaluation of bibliographic sources. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: L

M ARS 484 Internship. (1–12)
selected semesters
Topics may include the following:
- Museum

M ARS 485 Women in the Visual Arts. (3)
spring
Historical study of art by women in various media; related social, political, educational issues; representation of women in art. Lecture, discussion. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: L

M ARS 494 Special Topics. (1–4)
fall and spring
Topics may include the following:
- History of Photography. (3)
- Introduction to Museums. (3)

M ARS 498 Pro-Seminar. (1–7)
once a year
Undergraduate seminar. Problems or criticism in topics that may include the following:
- American Art. (3–6)
- American Indian Art. (3–6)
- Ancient Art. (3–6)
- Art History. (3–6)
- Baroque Art. (3–6)
- British Empire. (3–6)
- Chinese Art. (3–6)
- Medieval Art. (3–6)
- Modern Art. (3–6)
- Photographic History. (3–6)
- Pre-Columbian Art. (3–6)
- Renaissance Art. (3–6)

Prerequisite: instructor approval.

ART (ART)

For more ART courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M ART Note 1. May be repeated once by students who are not accepted into the professional program. Contact your academic advisor in the School of Art for more information.

M ART Note 2. Requires acceptance into the appropriate professional program or instructor approval. Contact your academic advisor in the School of Art for more information.

Studio Core Curriculum

M ART 111 Drawing I: Foundations. (3)
fall, spring, summer
Fundamental, technical, and perceptual skills using common drawing media and their application to pictorial organization. 6 hours a week.

M ART 112 2-D Design. (3)
fall, spring, summer
Fundamentals of pictorial design. 6 hours a week.

M ART 113 Color. (3)
fall, spring, summer
Principles of color theory as related to the visual arts. 6 hours a week.

M ART 115 3-D Design. (3)
fall, spring, summer
Fundamentals of 3-D form. 6 hours a week. Fee.

M ART 294 Special Topics. (3)
fall and spring

Ceramics

M ART 261 Ceramic Survey. (3)
fall, spring, summer
Handforming methods, throwing on the wheel, decorative processes, and glaze application. Lab. 6 hours a week. Fee. See ART Note 1. Prerequisites: both ART 112 and 115 or only instructor approval.

M ART 360 Ceramic Throwing. (3)
fall and spring
Design analysis and production of functional pottery. Emphasizes throwing techniques, surface enrichment, and glaze application. May be repeated once for credit. 6 hours a week. Fee. See ART Note 2.

M ART 364 Ceramic Handbuilding I. (3)
fall
Search for form using handbuilding techniques. Kiln firing and related problems. Fee. See ART Note 2.

M ART 365 Ceramic Handbuilding II. (3)
spring
Continuation of ART 364 with an additional focus on large-scale works, surface treatments, and glaze decoration with related kiln firing applications. Fee. Prerequisites: a combination of ARS 101 and 102 and ART 364 or only instructor approval.

M ART 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Ceramics
  Fee.
- Turning
  Fee.

M ART 460 Ceramic Clay. (3)
spring
Research into various clay body formulations, local natural materials, slip glazes, and engobes. Lecture, lab, studio. Fee. Prerequisites: both ART 360 and 364 or only instructor approval.

M ART 463 Ceramic Glaze. (3)
fall
Glaze calculation and formulation using various glaze colors and surfaces. Lecture, lab, studio. Fee. Prerequisite: ART 460 or instructor approval.

M ART 466 Special Problems in Ceramics. (3)
fall, spring, summer
Emphasizes personal expression within structure of seminars, critiques, and studio work. Professional methods of presentation/documentation of work. May be repeated for credit. 6 hours a week. Fee. Prerequisite: ART 364 or instructor approval.

M ART 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Ceramics Printmaking
  Fee.
- Enameling
  Fee.
- Senior Exhibition and Portfolio
- Turning
  Fee.
- Vapor Glazes
  Fee.

Drawing

M ART 211 Drawing II. (3)
fall, spring, summer
Continued development of technical and perceptual skills. Emphasizes materials and pictorial content. 6 hours a week. See ART Note 1. Prerequisites: both ART 111 and 112 (or 113) or only instructor approval.

M ART 214 Life Drawing I. (3)
fall, spring, summer
Develops skill and expressiveness in drawing the basic form, construction, and gesture from the human figure. Lab. 6 hours a week. Fee. See ART Note 1. Prerequisites: both ART 111 and 112 or only instructor approval.

M ART 311 Drawing III. (3)
fall and spring
Emphasizes composition, exploration of drawing media. 6 hours a week. See ART Note 2.

M ART 314 Life Drawing II. (3)
fall and spring
Drawing from the model with greater reference to structural, graphic, and compositional concerns. 6 hours a week. Fee. See ART Note 2.

M ART 411 Drawing IV. (3)
fall and spring
Visual and intellectual concepts through problem solving and independent study. Emphasizes the individual creative statement. May be repeated for credit. 6 hours a week. Prerequisites: ART 311; instructor approval.

M ART 414 Life Drawing III. (3)
fall and spring
Various media and techniques on an advanced level. The human figure as an expressive vehicle in various contexts. May be repeated for credit. 6 hours a week. Fee. See ART Note 2.

M ART 415 Art Anatomy. (4)
selected semesters
Study of human anatomical structures as applied to the practice of figure-oriented art. 3 hours lecture, 5 hours studio a week. Fee. See ART Note 2.

M ART 494 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Drawing. (3)

Fibers

M ART 276 Fibers I. (3)
fall and spring
Explores traditional and contemporary materials and basic techniques related to fibers. Embroidery, feltmaking, dyeing, block printing, plaiting, 3-D structures. Fee. See ART Note 1. Prerequisites: both ART 112 and 115 or only instructor approval.

M ART 294 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Fibers for Nonmajors

Fee.

M ART 376 Woven Structures I. (3)
once a year
Explores weaver- and loom-controlled structures with an emphasis on formal issues, historic precedence, and contemporary investigations. Fee. See ART Note 2.

M ART 377 Surface Design. (3)
fall and spring
Applies dyes and pigments on cloth exploring techniques, formal issues, and content. Cyanotype, monoprinting, painting on silk, resists, stenciling. Fee. See ART Note 2.

M ART 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Fibers Design for Nonmajors
  Fee.

M ART 476 Woven Structures II. (3)
fall and spring
Emphasizes personal expressions and continues technical exploration in woven structures. May be repeated for credit. 6 hours a week. Fee. Prerequisite: ART 376 or instructor approval.

M ART 477 Printed Textiles. (3)
once a year
Techniques for screen printing on fabric exploring pattern as a compositional element. Various stencil methods, including photographic processes. May be repeated for credit. Studio. Fee. Prerequisite: ART 377 or instructor approval.

M ART 478 Advanced Surface Design. (3)
spring in odd years
Emphasizes personal expression with advanced problems in stitch resist, arashi shibori, transfers, indigo, vat and disperse dyes, and pigments. Studio. Fee. Prerequisites: both ART 377 and 477 or only instructor approval.

M ART 479 3-D Fibers. (3)
fall and spring
Explores traditional and nontraditional 3-D fiber techniques and media. Discussion, research, and critiques augment technical demonstrations. May be repeated for credit. Studio. Fee. See ART Note 2.

M ART 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- 3-D Fibers
  Fee.
- Fibers and Surface
  Fee.
- Print Textiles
  Fee.
- Senior Exhibition and Portfolio

Intermedia

M ART 294 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Digital Media
- Intermedia
- Introduction to Intermedia

M ART 345 Visualization and Prototyping I. (3)
spring in even years
Studio/seminar introduces concepts of computer visualization, modeling, and rapid prototyping in an interdisciplinary manner. Lecture, studio. See ART Note 2.

M ART 346 3-D Computer Imaging and Animation. (3)
fall and spring
3-D modeling and animation. Emphasizes concepts and fine arts applications. Studio. Fee. See ART Note 2.
General Studies: CS

M ART 348 Animation Motion Studies. (3)
fall and spring
Computer animation motion studies, modeling, and editing for fine arts. Studio. Fee. Prerequisites: ART 346; junior standing; instructor approval.

M ART 439 Mixed Media. (3)
fall and spring
Exploring visual effects by combining traditional and nontraditional methods, techniques, and concepts. May be repeated for credit. Studio. 6 hours a week. See ART Note 2.

M ART 440 New Media Concepts. (3)
fall and spring
Continued experiments with new media and interdisciplinary concerns in art. May be repeated for credit. 6 hours a week. Fee. See ART Note 2. Corequisite: ART 441.

M ART 441 Video Art. (1)
fall and spring
Utilizing video and audio equipment essential to the production of broadcast quality video art. May be repeated for credit. 2 hours a week. Corequisite: ART 440.

M ART 442 Folk/Outsider Art. (3)
fall
Explores ideas, attitudes, and art of contemporary "self-taught," "visionary," and "outsider" artists. Research and studio practice. Lecture, studio. Prerequisites: both ART 113 and 115 or only instructor approval.

M ART 443 Intermedia. (3)
fall and spring
Experimental, conceptual, and interdisciplinary studio art with emphasis on new media and technologies. May be repeated once for credit. 6 hours a week. See ART Note 2.

M ART 449 Computer Animation and Video. (3)
fall and spring
Integrates 3-D fine arts animation with video and compositing. May be repeated for credit. Studio. Fee. Prerequisite: ART 348 or instructor approval.

M ART 450 Computer Animation and Audio. (3)
fall and spring
Integrates audio with 3-D animation for fine arts applications. Includes compositing and effects. May be repeated for credit. Studio. Fee. Prerequisites: ART 449; instructor approval.

M ART 470 Computer Animation Portfolio. (3)
fall and spring
Production of videotape and CD 3-D animation portfolios for fine arts and industry integrating animation, video, and audio. May be repeated for credit. Studio. Fee. Prerequisites: ART 449; instructor approval.
General Studies: CS

M ART 484 Internship. (1–12)
selected semesters

M ART 494 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Digital. (3)
- Digital Individualized Study
  Fee.
- Digital Processes for Printmaking
  Fee.
- Intermedia. (3)
- Intermedia Elective. (3)
- Mixed Media. (3)
- Nonelectronic Intermedia. (3)
- Senior Exhibition and Portfolio
  Fee.
- Visualization and Prototyping II. (3)
- Web Art
  Fee.

Metals

M ART 272 Jewelry I. (3)
fall and spring
Emphasizes fabrication in jewelry making. Basic techniques of cutting and piercing, forging and soldering, and forming. Not open to seniors.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

6 hours a week. Lab. Fee. See ART Note 1. Prerequisites: both ART 112 and 115 or only instructor approval.

M ART 372 Jewelry II. (3)
fall and spring
Fabricated approach to jewelry making. Techniques in stone setting and surface embellishment. 6 hours a week. Fee. See ART Note 2.

M ART 373 Metalworking. (3)
once a year
Compression, die, and stretch forming as applied to hollow form construction. Hot and cold forging techniques as applied to smithing. 6 hours a week. Fee. Prerequisites: a combination of ARS 101 and 102 and ART 113 and 115 and 272 or only instructor approval.

M ART 472 Advanced Jewelry. (3)
fall and spring
Jewelry making with emphasis on developing personal statements and craftsmanship. May be repeated for credit. 6 hours a week. Fee. Prerequisites: ART 372; instructor approval.

M ART 473 Advanced Metalworking. (3)
once a year
Forging and forming techniques in individualized directions. May be repeated for credit. 6 hours a week. Fee. Prerequisites: ART 373; instructor approval.

M ART 494 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Metals. (3)
- Senior Exhibition and Portfolio

Painting

M ART 223 Painting I. (3)
fall, spring, summer
Fundamental concepts and materials of traditional and experimental painting media. Emphasizes preparation of painting supports, composition, and color. Lab. 6 hours a week. See ART Note 1. Prerequisites: both ART 111 and 113 or only instructor approval.

M ART 227 Watercolor I. (3)
fall and spring
Fundamental concepts, materials, and techniques of watercolor. Emphasizes problem solving, basic skills, composition, and color. 6 hours a week. Fee. See ART Note 1. Prerequisites: both ART 111 and 113 or only instructor approval.

M ART 323 Painting II. (3)
fall and spring
Development of competency in skills and expression. Assigned problems involve light, space, color, form, and content. 6 hours a week. See ART Note 2.

M ART 327 Watercolor II. (3)
once a year
Explorations of personal expression in watercolor. Continued development of watercolor skills using traditional and experimental materials and techniques. 6 hours a week. Fee. See ART Note 2.

M ART 423 Painting III. (3)
fall and spring
May be repeated for credit. 6 hours a week. See ART Note 2.

M ART 425 Figure Painting. (3)
fall and spring
The human figure clothed and nude as the subject for painting in selected media. May be repeated for credit. 6 hours a week. Fee. Prerequisites: both ART 314 and 323 or only instructor approval.

M ART 427 Advanced Watermedia. (3)
fall and spring
Continuation of ART 327. Advanced techniques, concepts, and methods with watercolor and other water-based media on paper. May be repeated for credit. 6 hours a week. Fee. Prerequisite: ART 327 or instructor approval.

M ART 494 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Painting. (3)
- Senior Exhibition and Portfolio

Photography

M ART 101 Photography I. (3)
fall and spring
Development of skills and techniques of black and white photography. Emphasizes camera work and darkroom procedures. Must be taken with ART 102. Corequisite: ART 102.

M ART 102 Photography I Lab. (0)
fall and spring
Must be taken with ART 101. Fee. Corequisite: ART 101.

M ART 204 Photography II. (3)
fall and spring
Photography as an art medium with additional exploration into personal photographic aesthetics. 6 hours a week. Fee. See ART Note 1. Prerequisite: ART 101.

M ART 294 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Digital Art. (3)

M ART 304 Advanced Photography. (3)
fall and spring
Interpretation and manipulation of light as a tool in the performance of expressive photography. 6 hours a week. Fee. See ART Note 2.

M ART 305 Color Photography I. (3)
fall and spring
Applies color transparencies and prints to photographic art. May be repeated for credit. Fee. See ART Note 2.

M ART 308 Digital Photographic Images I. (3)
fall and spring
Scanning, manipulation, refinement, and compositing of photographic images on the computer. Lab, studio. Fee. See ART Note 2.

M ART 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Digital Art. (3)

M ART 401 Nonsilver Photography. (3)
fall and spring
Recognition of the inherent characteristics of nonsilver processes and their use in communicating ideas. May be repeated for credit. 6 hours a week. Fee. Prerequisite: ART 304 or instructor approval.

M ART 403 Senior Photographic Projects. (3)
fall and spring
Technical and philosophical refinement of personal aesthetic with various photographic media. May be repeated for credit. 6 hours a week. Fee. See ART Note 2.

M ART 404 Portraiture Photography. (3)
fall and spring
Photographing people. Critical discussions and slide lectures on issues in portraiture. May be repeated for credit. 6 hours a week. Fee. See ART Note 2.

M ART 406 Photo Techniques. (3)
fall and spring
Camera and darkroom techniques with emphasis on creative control of the black and white print. 6 hours a week. Prerequisite: ART 204 or instructor approval.

M ART 407 View Camera. (3)
fall and spring
View camera and darkroom techniques. Studio, lab. Fee. See ART Note 2.

M ART 408 Digital Photographic Images II. (3)
fall and spring
Develops personal aesthetic in digital photography. May be repeated for credit. 6 hours a week. Studio. Prerequisite: ART 308 or instructor approval.

M ART 409 Photographic Exhibition. (3)
once a year
Care of photographic prints, print presentation, and exhibition. Practical experience in gallery operations. May be repeated for credit. 6 hours a week. Prerequisite: ART 304 or instructor approval.

M ART 410 Landscape Photography. (3)
fall and spring
Photographing landscapes. Critical discussion and presentations on issues in landscape photography May be repeated for credit. Studio. 6

hours a week. Prerequisites: a combination of ART 304 and 305 and 308 or only instructor approval.

M ART 494 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Collotype
  Fee.
- Digital Photographic Images II. (3)
  Fee.
- Digital Printing
  Fee.
- Documentary Photography
  Fee.
- Issues in Digital Photography
  Fee.
- Landscape Photography
  Fee.
- 19th-Century Photo Processes. (3)
- Photo. (3)
- Photographic Fabrications
  Fee.
- Photogravure
  Fee.
- Senior Exhibition and Portfolio

M ART 498 Pro-Seminar. (1–7)
selected semesters
Topics may include the following:
- Landscape Photography: Theory
  Fee.

Printmaking

M ART 253 Introduction to Printmaking. (3)
once a year
Introduction to basic monotype, intaglio, relief, and related techniques. Studio. Fee. See ART Note 1. Prerequisite: ART 113.

M ART 351 Intaglio I. (3)
fall and spring
Introduces contemporary and traditional developmental techniques for black and white prints. 6 hours a week. Fee. See ART Note 2.

M ART 352 Lithography I. (3)
fall and spring
Monochromatic and color planographic printmaking utilizing stone and aluminum plate processes. 6 hours a week. Fee. See ART Note 2.

M ART 354 Screen Printing I. (3)
fall and spring
Introduces paper, direct, and photographic stencil techniques. 6 hours a week. Fee. See ART Note 2.

M ART 355 Photo Process for Printmaking I. (3)
fall
Introduces photographic principles and skills for photomechanical printmaking processes, including photosilkscreen, photolitho, and photoetching. 6 hours a week. Fee. See ART Note 2.

M ART 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Relief Printmaking
  Fee.

M ART 451 Advanced Intaglio. (3)
fall and spring
Various contemporary and traditional methods of printing to achieve color prints. May be repeated for credit. 6 hours a week. Fee. Prerequisite: ART 351 or instructor approval.

M ART 452 Advanced Lithography. (3)
fall and spring
Continuation of ART 352. May be repeated for credit. 6 hours a week. Fee. Prerequisite: ART 352 or instructor approval.

M ART 453 Experimental Printmaking. (3)
fall and spring
Alternative techniques and methods to traditional approaches to printmaking. May be repeated for credit. Studio. Prerequisites: ART 351, 352, 354, 394 ST: Relief Printmaking, 456 (or 459).

M ART 454 Advanced Screen Printing. (3)
once a year
Continuation of ART 354. May be repeated for credit. 6 hours a week. Fee. Prerequisite: ART 354 or instructor approval.

M ART 455 Advanced Photo Processes for Printmaking. (3)
once a year
Continued study of photomechanical techniques and applications to printmaking or photographic processes. Fee. Prerequisite: ART 355 or instructor approval.

M ART 456 Fine Printing and Bookmaking I. (3)
once a year
Letterpress printing and typography as fine art. Study of history, alphabets, mechanics of hand typesetting, presswork, and various forms of printed matter. Fee. See ART Note 2.

M ART 457 Fine Printing and Bookmaking II. (3)
once a year
Continuation of ART 456. Bookbinding, book design and printing, advanced typography, theory, and presswork. May be repeated for credit. Fee. Prerequisites: ART 456; instructor approval.

M ART 458 Papermaking. (3)
fall and spring
History, theory, demonstrations, sheet forming, collage treatments, and 3-D approaches. May be repeated for credit. 6 hours a week. Fee. See ART Note 2.

M ART 459 Monoprinting. (3)
fall and spring
Nonmultiple printed image using a variety of technical approaches. May be repeated for credit. 6 hours a week. Fee. See ART Note 2.

M ART 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Artists' Books
  Fee.
- Experimental Paper
  Fee.
- Experimental Printmaking
  Fee.
- Relief Printmaking
  Fee.
- Senior Exhibition and Portfolio

Sculpture

M ART 231 Sculpture I. (3)
fall, spring, summer
Explores sculptural forms through concepts related to basic materials. Focuses on studio production, safety, aesthetic criticism, and history of sculpture. 6 hours a week. Fee. See ART Note 1. Prerequisites: both ART 111 and 115 or only instructor approval.

M ART 274 Wood I. (3)
fall and spring
Fundamental woodworking techniques to produce creative functional 3-D objects. 6 hours a week. Fee. See ART Note 1.

M ART 331 Sculpture II. (3)
fall and spring
Continuation of ART 231 with an emphasis on metal fabrication as an expressive sculptural process. Techniques in welding, cutting and bending of metals and their aesthetics. 6 hours a week. Fee. See ART Note 2.

M ART 332 Sculpture III. (3)
fall and spring
Explores diverse media with a focus on mold-making processes. Development of the sculpture portfolio. 6 hours a week. Fee. Prerequisites: a combination of ARS 101 and 102 and ART 331 or only instructor approval.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M ART 333 Foundry Casting Methods. (3)
fall and spring
Fine art and techniques of metal casting: mold making, foundry safety, finishing techniques, application of patinas, and history of casting. May be repeated for credit. 6 hours a week. Fee. Prerequisites: a combination of ARS 101 and 102 and ART 332 or only instructor approval.

M ART 374 Wood II. (3)
fall and spring
Individual and directed problems in wood related to the production of unique functional art objects. 6 hours a week. Fee. See ART Note 2.

M ART 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Carving
  Fee.

M ART 431 Special Problems in Sculpture. (3)
fall and spring
Development of a personal approach to sculpture. Emphasizes form, individual problems, and related color technology. Professional practices and presentation. May be repeated for credit. 6 hours a week. Fee. Prerequisites: ART 332; instructor approval.

M ART 432 Neon Sculpture. (3)
fall
Techniques for creating neon in an art context. Glass tube bending and fabrication. Construction of artworks utilizing light-generating gasses. May be repeated for credit. 6 hours a week. Fee. See ART Note 2.

M ART 435 Foundry Research Methods. (3)
fall and spring
Research in foundry techniques. Studio. Pre- or corequisite: ART 333 or instructor approval.

M ART 436 Architectural Sculpture. (3)
selected semesters
Sculptural concepts as related to architecture and other man-made environments. Scale drawing, models, and relief sculpture. May be repeated for credit. 6 hours a week. Fee. Prerequisite: ART 332 or instructor approval.

M ART 437 Film Animation. (3)
fall
Production of short 16mm films that feature articulated sculptural objects, models, dolls, puppets, and graphics through the use of single-frame filming techniques. May be repeated for credit. 6 hours a week. Fee. Prerequisite: instructor approval.

M ART 438 Experimental Systems in Sculpture. (3)
spring
Simple electrical and mechanical systems that can be utilized in the context of studio art and installations. Requires active production of studio artworks. May be repeated for credit. 6 hours a week. Fee. See ART Note 2.

M ART 474 Advanced Wood. (3)
fall and spring
Extended experience and advanced techniques in the use of wood to create functional works of art. May be repeated for credit. 6 hours a week. Fee. Prerequisites: ART 374; instructor approval.

M ART 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Advanced Sculpture
- Carving
  Fee.
- Film: Post-Production
  Fee.
- Foundry Casting Methods
  Fee.
- Foundry Research Methods
  Fee.
- Live Action Filmmaking
  Fee.
- Senior Exhibition and Portfolio
- Special Topics in Sculpture

Special Studio Art

M ART 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Guided Study

M ART 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Dance

herbergercollege.asu.edu/dance
480/965-5029
PEBE 107A

Professors: Kaplan, Murphey

Associate Professors: Jackson, Ma, Mooney

Clinical Associate Professor: Vissicaro

Assistant Professors: Dyer, Fitzgerald, Parrish, Tsukayama

Associate Research Professional: Mitchell

Senior Lecturer: Schupp

Lecturer: Valentin-Martinez

The Department of Dance is committed to providing a stimulating and diverse environment where students develop as scholars, educators, and artists through participation in innovative programs, residencies, performances, and partnerships. All students registering in a degree program enroll through the Katherine K. Herberger College of Fine Arts. Admission policies and procedures and the specific requirements of each Bachelor of Fine Arts degree concentration are available from the Department of Dance Advisement Office.

Audition/Admission. Students applying to the university as freshmen or transfer students who are interested in becoming dance majors are granted preprofessional status. Individuals intending to enroll in the undergraduate dance degree program and participate in dance major classes are required to pass an entrance audition before being admitted to the department's dance major classes. These auditions take place in the fall and spring of each academic year. Auditions, conducted by the Dance faculty, determine technical proficiency, placement, and scholarship awards. Criteria for placement in dance technique classes are published in the department's student handbook. The handbook is available through the Dance Advisement Office and on the department's Web site. Students who do not successfully

complete the audition are allowed to remain in preprofessional status for two semesters. At the end of that term they are allowed to re-audition.

By the second semester of their sophomore year all dance preprofessional students who have passed the audition must petition for admission into one of the four concentrations: choreography, dance education, dance studies, or performance. Depending upon the concentration selected, the petition process may include a technique audition, and the submission of video tapes of choreographed works, an artistic portfolio, a writing sample, and a written statement of intent and/or research interests. All students are interviewed and must have a 3.00 GPA before being accepted into an area of concentration.

Specific criteria and policies related to petition procedures for each of the concentrations are available through the Herberger College of Fine Arts (HCFA) Advisement Office and on the Web site. Admission is highly selective. Students who fail to meet the criteria for the concentrations are not dismissed from the Bachelor of Fine Arts program and may re-petition once during the following semester. If a student still fails to meet the criteria of one of the four concentrations, he or she will not be dismissed from the university altogether; the student may transfer to another program. Students should work closely with the department advisor during the decision-making process.

Scholarship Auditions. Highly competitive scholarship auditions are conducted for incoming and transfer students during the Spring Admission Audition. For more information, contact the HCFA Advisement Office.

Transfer Students, Dance Minors, and Bachelor of Interdisciplinary Studies Students. Transfer, minor, and BIS students must successfully complete the admittance audition before enrolling in Dance major courses. Additionally, transfer students who have completed music theory for dance, dance production, or choreography courses at other institutions must also take placement examinations in these areas. These examinations are offered during the August and January orientation periods.

DANCE—BFA

The faculty in the Department of Dance offer a Bachelor of Fine Arts (BFA) degree at the undergraduate level with four areas of concentration: choreography, dance education, dance studies, and performance. All new students are admitted into the preprofessional program and petition for admission into one of the concentrations during the sophomore year of study. Transfers, who have successfully completed the admission audition, may petition into one of the four concentrations after one semester in residence. Further details may be obtained from the HCFA Advisement Office.

Graduation Requirements. In addition to fulfilling the major requirements, students must meet all university graduation requirements and college degree requirements. At least 45 semester hours must be upper-division courses. See "University Graduation Requirements," page 89, and "College Degree Requirements," page 439.

Preprofessional Dance Major Program. First-semester preprofessional students who passed the audition should take the following courses:

DAN	134	Technique and Theory of Modern Dance	3
DAN	135	Technique and Theory of Ballet	2
ENG	101	First-Year Composition	3
Dance elective			2
General Studies courses			6
Total			16

Core Curriculum

The Dance major consists of a minimum of 59 semester hours in the dance core. All courses in the major must be completed with a grade of "C" (2.00) or higher. The following areas make up the core curriculum.

Technique. Twenty-six semester hours in ballet and modern technique are required.

Performance. Two upper-division courses are required.

Theory. The following dance theory courses are required:

DAH	201	Dance in World Cultures *HU, G* or DAH 191 First-Year Seminar (3)	3
DAN	221	Rhythmic Theory for Dance I	2
DAN	222	Rhythmic Theory for Dance II	2
DAN	340	Dance Kinesiology	4
Total			11

Choreography and Improvisation. The following courses are required:

DAN	264	Improvisational Structures	3
DAN	265	Approaches to Choreography	3
Total			6

History. Choose two of the following three courses:

DAH	301	Philosophy and Criticism of Dance *L/HU*	3
DAH	302	Cross-Cultural Dance Studies *L/HU, G*	3
DAH	401	Dance History *HU*	3

Production. For the concentration in dance studies, choose one of the following two courses:

DAN	210	Dance Production I*	3
DAN	211	Dance Production II*	3

* Both courses are required for performance, choreography, and dance education concentrations. Dance studies students should select one of the two courses.

Dance Concentration Curriculum. Each concentration in the dance curriculum—choreography, dance education, dance studies, and performance—is composed of specific criteria as defined by the concentration. Refer to the following for details.

Choreography Concentration

Core Curriculum. See "Core Curriculum," on this page.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Concentration Requirements. The following courses are required for the choreography concentration:

DAN	321	Music Literature for Dance 3
DAN	364	Choreography and Accompaniment 3
DAN	365	Advanced Choreography 3
DAN	480	Senior Performance in Dance 4
Total		 13

Dance Education Concentration

Core Curriculum. See "Core Curriculum," page 465.

Concentration Requirements. The following courses are required for the dance education concentration:

DAN	350	Methods of Teaching Children's Dance 3
DAN	352	Dance Education Theory 3
DAN	354	Integrated Approaches in Dance Education 3
DAN	356	Methods of Teaching Contemporary Dance Technique and Composition in Secondary Education 4
DAN	364	Choreography and Accompaniment 3
DAN	496	Senior Dance Education Capstone 4
Total		 20

A student pursuing the dance education concentration may also choose to become certified to teach dance (K–12) in Arizona public schools. In addition to the dance concentration courses, students must complete education courses, two semesters of field experience, and one semester of student teaching. Students should apply to the College of Education in the middle of the sophomore year. To be considered for admission to the Initial Teacher Certification (ITC) program, students must complete an application portfolio specified by the College of Education. Application deadlines for the ITC programs are February 1 for fall admission and September 1 for spring admission. Students should be advised that additional semester hours are required to complete certification requirements. For more information, contact the College of Education Office of Student Services, or phone 480/965-5555.

For specific information related to the ITC application deadlines and eligibility for admission, see "Initial Teacher Certification Professional Program Admission," page 350.

Additional requirements for certification are listed on the check sheet available from the College of Education or Department of Dance.

Dance Studies Concentration

Core Curriculum. See "Core Curriculum," page 465.

Concentration Requirements. The following courses are required for the dance studies concentration:

DAH	495	Theory and Methods of Dance Research 3
DAH	496	Senior Dance Studies Capstone 4
Total		 7

Eighteen additional semester hours in related fields must be approved by the BFA Dance Studies Committee. The content of related fields should support the research project.

Additional requirements are listed on the check sheet available from the Department of Dance.

Performance Concentration

Core Curriculum. See "Core Curriculum," page 465.

Concentration Requirements. The following courses are required for the performance concentration:

DAN	321	Music Literature for Dance 3
DAN	380	Performance Studies Practicum 3
DAN	480	Senior Performance in Dance 4
THP	101	Acting: An Introduction 3
Total		 13

Performance. Choose from the following four courses (six semester hours are required):

DAN	371	Dance Theatre Performance/Production 1–3
DAN	471	Dance Arizona Repertory Theatre 3–4
DAN	472	Concert Dance 2
DAN	494	ST: Guest Artists 3

Additional requirements are listed on the check sheet available from the Department of Dance.

MINOR

The department offers a minor in Dance consisting of 18 semester hours of course work, including 12 upper-division hours. A minimum grade of "B" (3.00) is required in all courses. Additional Dance minor requirements include the following:

Dance Minor Requirements

Choose from the following courses 3		
DAH	101	Introduction to Dance (3)
DAH	191	First-Year Seminar (1-3)
DAH	201	Dance in World Cultures *HU, G* (3)
Choose from the following courses 3		
DAH	301	Philosophy and Criticism of Dance *L/HU* (3)
DAH	302	Cross-Cultural Dance Studies *L/HU*, G (3)
DAH	401	Dance History *HU* (3)
Choose from the following courses[1] 2-3		
DAN	134	Technique and Theory of Modern Dance (3)
DAN	135	Technique and Theory of Ballet (2)
DAN	234	Technique and Theory of Modern Dance (3)
DAN	235	Technique and Theory of Ballet (2)
DAN	334	Technique and Theory of Modern Dance (3)
DAN	335	Technique and Theory of Ballet (2)
DAN	434	Technique and Theory of Modern Dance (3)
DAN	435	Technique and Theory of Ballet (2)
Choose from the following courses[2] 2		
DAN	130	Dance (2)
DAN	194	Special Topics (1-4)
DAN	294	Special Topics (1-4)
DAN	394	Special Topics (1-4)
Dance Electives 7–8		
Total 17–19		

[1] No more than a total of three major level techniques courses may be taken; transfer credit will not fulfill the major-level technique requirement.

[2] There is no limit on the total number of nonmajor technique courses that may be taken.

Questions about the minor may be referred to Herberger Academic Advising.

BIS CONCENTRATION

A concentration in dance is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

All students interested in the dance concentration must successfully complete the Audition/Admission. For more information, see "Audition/Admission," page 464.

GRADUATE PROGRAM

Dance—MFA

The MFA degree in Dance is a 60-semester-hour program designed to provide opportunities for the student to continue to develop in areas of dance technique, choreography, performance, and production; to gain further understanding of the philosophy, history, theory, education, and science and somatics of dance; and to begin to chart the direction of the future through technology, media opportunities, outreach, and community partnerships.

DANCE HISTORY (DAH)

M DAH 101 Introduction to Dance. (3)
fall and spring
Introduces the art and profession of dance. Explores development of modern, ballet, and other movement forms from global perspectives. Lecture, lab.
General Studies: G

M DAH 191 First-Year Seminar. (1–3)
selected semesters

M DAH 201 Dance in World Cultures. (3)
fall, spring, summer
Orientation to theory and methods of studying dance cultures around the world. Fee. Lecture, lab. Pre- or corequisite: both ENG 101 and 102 or only ENG 105.
General Studies: HU, G

M DAH 300 Focus on Dance. (3)
fall, spring, summer
Specialized study of cultural and theatrical aspects of dance, such as social dance forms, specific genres or historical periods. May be repeated for credit. Lecture, studio. Fee.
General Studies: HU

M DAH 301 Philosophy and Criticism of Dance. (3)
fall and spring
Philosophical issues in dance and dance criticism, with emphasis on written analysis and interpretation. Fee. Prerequisite: 1 semester of First-Year Composition.
General Studies: L/HU

M DAH 302 Cross-Cultural Dance Studies. (3)
fall
Examines the field of ethnochoreology, ethnographic methods, and interpretive research practices. Develops critical writing, thinking, and viewing skills for comparative dance study. Lecture, media lab. Prerequisite: DAH 201. Pre- or corequisite: DAH 191 or instructor approval.
General Studies: L/HU, G

M DAH 401 Dance History. (3)
fall and spring
History of dance with a focus on Western forms from the Renaissance to contemporary times. Fee.
General Studies: HU

M DAH 492 Honors Directed Study. (1–6)
fall and spring
May be repeated for credit. Prerequisite: honors advisor approval.

M DAH 495 Theory and Methods of Dance Research. (3)
spring
Examines modes of inquiry, data gathering techniques, data analysis and representation, prospectus design, and presentation style for dance research studies. Seminar. Fee. Prerequisite: instructor approval. Pre- or corequisite: DAH 301 or 302.

M DAH 496 Senior Dance Studies Capstone. (2)
fall and spring
Original research that integrates dance and a related field of interest. Includes production of written document and public presentation. Fall semester must be completed before spring registration. May be repeated for a total of 4 semester hours. Prerequisite: DAH 495.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

DANCE (DAN)

M DAN 130 Dance. (2)
fall, spring, summer
Introduces styles and forms of dance; ballet, modern, jazz, tap, ballroom, ethnic. May be repeated for credit. Topics may include the following:
- Ballet I
  Fee.
- Ballet II
  Fee.
- Beginning Modern I
  Fee.
- Jazz I
  Fee.
- Tap I
  Fee.
- Tap II
  Fee.

M DAN 134 Technique and Theory of Modern Dance. (3)
fall and spring
Elementary concepts of modern dance technique. Development of movement quality and performance skills. 6 hours weekly. May be repeated for credit. Fee. Prerequisites: Dance major; placement audition.

M DAN 135 Technique and Theory of Ballet. (2)
fall and spring
Elementary ballet technique with emphasis on alignment, control, and development of the feet with proper awareness of style and phrasing. 4 hours weekly. May be repeated for credit. Fee. Prerequisite: placement audition.

M DAN 194 Special Topics. (1–4)
selected semesters
Topics may include the following:
- African Dance
  Fee.
- Argentine Tango I
- Ballet I
- Beginning Ballet
  Fee.
- Big Band Swing I
- Competitive International Ballroom I
- Contemporary Dance
- Country Western I
- Hip Hop I
- Improvisation

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

- Irish Dance I
- Irish Step I
- Irish Step II
- Latin Salsa I
  Fee.
- Latin/Swing/Ballroom I
- Strictly Ballroom
- Swing/Lindy I
  Fee.
- West African Dance I

M DAN 210 Dance Production I. (3)
fall
Theory and practice of lighting, scenery, sound, and stage management for dance production. Labs cover all areas of production. Lecture, lab. Fee.

M DAN 211 Dance Production II. (3)
spring
Theory and practice of arts management and costume design for dance production. Labs cover all areas of production. Lecture, lab. Fee.

M DAN 221 Rhythmic Theory for Dance I. (2)
fall
Elements of music, music structures, and their relationship to dance. Emphasis on rhythmic analysis and dance accompaniment. Fee.

M DAN 222 Rhythmic Theory for Dance II. (2)
spring
Continuation of DAN 221 with an emphasis on small group/movement projects in relation to musical time and structure. CD-ROM work included. Fee. Prerequisite: DAN 221 or proficiency exam.

M DAN 230 Dance. (2)
fall, spring, summer
Intermediate levels. Continuation of DAN 130. May be repeated for credit.

M DAN 234 Technique and Theory of Modern Dance. (3)
fall and spring
Intermediate concepts of modern dance technique. Development of movement quality and performance skills. 6 hours weekly. May be repeated for credit. Fee. Prerequisite: placement audition.

M DAN 235 Technique and Theory of Ballet. (2)
fall and spring
Advanced study of elementary ballet technique through the traditional exercises, with proper awareness of style and phrasing. 4 hours weekly. May be repeated for credit. Fee. Prerequisite: placement audition.

M DAN 237 Beginning Pointe. (1)
fall and spring
Study of elementary pointe technique through the traditional exercises. 2 hours weekly. May be repeated for credit. Prerequisites: basic ballet training; instructor approval.

M DAN 264 Improvisational Structures. (3)
fall
Introduces basic improvisational and choreographic principles with emphasis on current media and technology, group structures, and movement invention. Lecture, studio.

M DAN 265 Approaches to Choreography. (3)
fall
Intermediate application of basic choreographic principles with emphasis on improvisation, form, content, and evaluative skills. Lecture, studio. Prerequisite: DAN 264 or instructor approval.

M DAN 294 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Argentine Tango II
- Ballet II
- Beginning Ballet
  Fee.
- Competitive International Ballroom II
- Country Western II
- Intermediate Ballet
  Fee.
- Irish Dance II
- Irish Step I
- Irish Step II
- Latin Salsa II
- Latin/Swing/Ballroom II
- Latin Team II
- Swing/Lindy II
- West African Dance II

M DAN 311 Dance for the Classroom Teacher. (3)
fall and spring
Develops teaching methodology for implementation of dance curriculum in K–12 classrooms. Lecture, lab, studio. Prerequisite: non-Dance major.

M DAN 321 Music Literature for Dance. (3)
fall and spring
Historical survey of music and compositional elements relative to dance. Emphasis on analysis of choreography from a musical standpoint. Lecture, lab, CD-ROM lab. Fee. Prerequisites: both DAN 221 and 222 or only instructor approval. Pre- or corequisite: MUS 340.

M DAN 323 Dance, Computers, and Multimedia. (3)
fall and spring
Introduces desktop multimedia as it relates to dance creation, education, production, and research. Lecture, lab. Fee. Prerequisite: ART 112 or instructor approval. Pre- or corequisites: DAN 264, 265.
General Studies: CS

M DAN 330 Dance. (2)
fall, spring, summer
Advanced levels. Continuation of DAN 230. May be repeated for credit.

M DAN 334 Technique and Theory of Modern Dance. (3)
fall and spring
Advanced concepts of modern dance technique. Development of movement quality and performance skills. 6 hours weekly. May be repeated for credit. Fee. Prerequisite: placement audition.

M DAN 335 Technique and Theory of Ballet. (2)
fall and spring
Intermediate ballet technique with emphasis on strength, dynamics, rhythmical impulses, and transitions with awareness of proper style and phrasing. 4 hours weekly. May be repeated for credit. Fee. Prerequisite: placement audition.

M DAN 337 Intermediate Pointe. (1)
fall and spring
Study of intermediate and advanced pointe technique through the traditional exercises. 2 hours weekly. May be repeated for credit. Fee. Prerequisite: DAN 237 or instructor approval.

M DAN 340 Dance Kinesiology. (4)
fall and spring
Principles of kinesiology applied to dance movement, including identification of muscular imbalances, inherited anatomical differences, and pathomechanics in dance technique. Prerequisites: both BIO 201 and admission to a Dance BFA concentration or only instructor approval.

M DAN 342 Ideokinesis. (2)
selected semesters
Study of posture using the visualization of image/goals to facilitate improved alignment and movement efficiency. May be repeated for credit. Lecture, studio.

M DAN 350 Methods of Teaching Children's Dance. (3)
fall
Theory and practice of teaching creative dance to children. Lecture, studio, field experience. Fee. Prerequisite: Dance major or instructor approval.

M DAN 351 Methods of Teaching Ballet. (3)
spring
Analysis and acquisition of teaching techniques and materials for ballet. Lecture, studio. Pre- or corequisite: DAN 352.

M DAN 352 Dance Education Theory. (3)
fall
Motivation; learning; assessment; historical, cultural, and social constructs; outreach; service; advocacy; curriculum development in dance education. Lecture, field experience. Fee. Prerequisite: Dance major or instructor approval.

M DAN 354 Integrated Approaches in Dance Education. (3)
spring
New methods of dance education pedagogy. Students gain essential skills to employ and integrate instructional technology within their dance curricula. Lecture, lab, field experience, media lab. Prerequisite: both DAN 350 and 352 or only instructor approval.

M DAN 356 Methods of Teaching Contemporary Dance Technique and Composition in Secondary Education. (4)
fall
Analysis and acquisition of skills and materials for teaching contemporary dance technique and composition in secondary education. Lecture, studio, field experience. Fee. Pre- or corequisites: both DAN 350 and 352 or only instructor approval.

M DAN 364 Choreography and Accompaniment. (3)
fall
Experience in the use of traditional and nontraditional musical structures as a basis for choreographic projects. Lecture, studio. Prerequisite: DAN 321 or instructor approval.

M DAN 365 Advanced Choreography. (3)
spring
Investigation and practice of contemporary styles of choreography. Studio. Prerequisites: DAN 264 and 265 (or their equivalents).

M DAN 371 Dance Theatre Performance/Production. (1–3)
fall and spring
Performance or technical theatre work in designated dance productions. 3 hours a week per semester hour. May be repeated for credit. Prerequisite: instructor approval.

M DAN 380 Performance Studies Practicum. (3)
spring
Focus on developing rehearsal skills and achieving performance excellence through the preparation of three completed works. Studio, lab.

M DAN 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Advanced Hip Hop
- Ballet Methodology
- Capoeira
- Competition/Exhibition
- Competition/Exhibition II
- Competitive Ballroom/Latin
- Competitive International Ballroom
- Competitive International Ballroom III
- Integrated Approaches in Dance Education
  Fee.
- Intermediate Ballet
  Fee.
- Intermediate Hip Hop
- Intermediate Modern Dance
- International Ballroom
- Latin Formation Teams
- Latin Salsa III
- Latin Salsa IV
- Latin/Swing/Ballroom III
- Pilates Mat
- Pilates/Yoga
- Swing/Latin/Ballroom III

M DAN 434 Technique and Theory of Modern Dance. (3)
fall and spring
Preparation in the performance and comprehension of professional-level modern dance technique. 6 hours weekly. May be repeated for credit. Fee. Prerequisite: placement audition.

M DAN 435 Technique and Theory of Ballet. (2)
fall and spring
Study of professional advanced ballet technique with emphasis on preparation for performance. 4 hours weekly. May be repeated for credit.Fee. Prerequisite: placement audition.

M DAN 443 Bodywork for Dancers. (2)
spring
Introduces various massage therapy modalities for dancers, including Shiatsu, Swedish massage, sports massage and proprioceptive neuromuscular facilitation techniques.

M DAN 445 Laban Movement Analysis. (3)
spring
Theory and practice of Laban movement analysis and Bartenieff fundamentals through movement investigation, observation, notation, and analysis. Lecture, studio. Prerequisite: admission to a BFA in Dance concentration.

M DAN 471 Dance Arizona Repertory Theatre. (1–4)
fall and spring
Preprofessional modern dance company, emphasizing outreach and performance. Opportunity to work with guest artists and community schools and organizations. May be repeated for credit. Lecture, studio. Fee. Prerequisite: instructor approval.

M DAN 472 Concert Dance. (2)
fall and spring
Extensive preparation of repertory or new works created by experienced choreographers. Simulates dance company experience, culminating in performance. Studio. Fee. Prerequisites: audition; instructor approval.

M DAN 480 Senior Performance in Dance. (2)
fall
Original choreography for group performance with analysis and critique of problems encountered in production. Dance majors realizing a performance capstone project must repeat this course for a total of 4 semester hours. Prerequisites: DAN 364, 365.

M DAN 484 Dance Internship. (1–3)
fall and spring

M DAN 494 Special Topics. (1–4)
once a year
Topics may include the following:
- Collaborative Multimedia
  Fee.
- Concert Dance. (2)
- Dance Education and Technology
  Fee.
- Guest Artists
- Integrative Teaching Methods
  Fee.
- Senior Dance Education Project
- Sound Design
  Fee.

M DAN 496 Senior Dance Education Capstone. (2)
fall and spring
Original dance education research that includes written document and public presentation. May be repeated for a total of 4 semester hours. Lecture, lab. Prerequisites: a combination of DAN 350 and 352 and 352 and 356 or only instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

School of Music

herbergercollege.asu.edu/music
480/965-3371
MUSIC E185

Kimberly Marshall, Associate Director, Graduate Studies

Karen M. Bryan, Associate Director, Undergraduate Studies

Regents' Professors: Hickman, Pagano

Professors: Bailey, Britton, Cosand, Crowe, DeMars, Doan, Dreyfoos, Hackbarth, Hamilton, Hill, Humphreys, Koonce, Marshall, Oldani, Pilafian, Reber, Rikakis, Rogers, Russell, Schildkret, Sellheim, Smith, Solís, Spring, Stauffer, Sunkett, Thompson, Williamson, Wytko

Associate Professors: E. Buck, N. Buck, Bush, Carpenter, Haefer, Holbrook, Kocour, Kopta, Lyman, May, McLin, Norton, Rio, Rockmaker, Rotaru, Schuring, Wilson

Assistant Professors: Barefield, Bryan, Campbell, Cuciurean, Ericson, Feisst, FitzPatrick, Gentry, Jiang, Landschoot, Meir, Mills, Montilla, Province, Rampe, Schmidt, Sullivan, Swartz

Senior Lecturers: Crotty, Larson, Mook, Shellans

Lecturer: Tongret

The School of Music in the Katherine K. Herberger College of Fine Arts at ASU is an accredited institutional member of the National Association of Schools of Music. The requirements for entrance and graduation set forth in this catalog are in accordance with the published regulations of the association.

The School of Music strives to create an environment that enriches and enlivens the role of music in our society by providing the highest level of instruction and research for music professionals in the fields of performance, conducting, pedagogy, music education, music therapy, music history, music theory, and composition.

The following statement of basic musicianship is endorsed by the School of Music:

> All musicians, whether performers, composers, scholars, or teachers, share common professional needs. Every musician must to some extent be a performer, a listener, a historian, a composer, a theorist, and a teacher. For this reason, certain subject matter areas and learning processes are common to all baccalaureate degrees in music.
>
> Basic musicianship is developed in studies that prepare the student to function in a variety of musical roles that are supportive of his/her major concentration. All undergraduate curricula, therefore, provide the following:
>
> 1. A conceptual understanding of such musical properties as *sound, rhythm, melody, harmony, texture,* and *form* and opportunities for developing a comprehensive grasp of their interrelationships as they form the cognitive-affective basis for listening, composing and performing.
> 2. Repeated opportunities for enacting in a variety of ways the roles of listener (analysis), performer (interpretation), composer (creation), scholar (research), and teacher.
> 3. A repertory for study that embraces all cultures and historical periods.

All students registering in a School of Music major program enroll through the Katherine K. Herberger College of Fine Arts.

Audition/Admission Requirements. *All students who wish to enroll in an undergraduate music degree program are required to pass an entrance audition in their primary performing medium (instrument or voice) before being admitted to the School of Music*. Audition forms and specific audition requirements for each instrument or voice may be obtained upon request by contacting the School of Music, or by accessing the Web site at music.asu.edu. Official dates for these auditions are set for each academic year.

Until the audition process is finished, all students interested in majoring in Music at ASU enter the university in the preprofessional program. Upon successful completion of the audition, the student is admitted to his or her specified degree option.

Students may audition up to three times for admission. Students may enroll in music ensembles, concert attendance, and general studies until the audition is successfully completed. Students are encouraged to obtain additional instruction on their major instrument with a private instructor. These private instructions are not required and do not generate university course semester hours. The reauditions are heard and evaluated by School of Music faculty.

Admission to the composition concentration is subject to the approval of the composition faculty based upon an evaluation of the student's compositions and/or interview.

Diagnostic Examinations. All freshmen must take a theory diagnostic exam. If the student scores less than 70 percent, they must take an online fundamentals course before enrolling in MTC 125. All transfer students and entering freshmen with a background in piano must take a diagnostic examination in piano during orientation week of their first semester on campus. All students are required to attain a minimum level of piano proficiency.

Continuation in the composition program is subject to review in the sophomore or junior year.

All Music Education majors, including transfer and post-baccalaureate students, must perform an additional audition before being admitted to the teacher education program. Normally, this audition occurs during the sophomore year.

All students majoring in Music Therapy must pass MUE 211 Music in Recreation and a music therapy faculty review and screening interview before being passed into upper-division study.

MUSIC—BA

The Bachelor of Arts degree requires a minimum of 120 semester hours for graduation.

The Music major consists of 70 semester hours and includes the requirements that follow for each area of study.

In addition to fulfilling the major requirements, students must meet all university graduation requirements and college degree requirements. See "University Graduation Requirements," page 89, and "College Degree Requirements," page 439.

Music History. The following music history courses are required:

MHL	194 ST: Music and Culture	3
MHL	341 Music History	3
MHL	342 Music History	3
Upper-division MHL course		3
Total		12

Nine elective upper-division semester hours in music history and/or theory are also required.

Music Theory. The following music theory courses are required:

MTC	125 Basic Music Theory	3
MTC	221 Music Theory: 18th Century	3
MTC	222 Music Theory: 19th Century	3
MTC	223 Music Theory: 20th Century	3
MTC	320 Modal Counterpoint	2
	or MTC 321 Tonal Counterpoint (2)	
MTC	422 Musical Acoustics	3
Total		17

Major Performing Medium. Eight semester hours of MUP 111 Studio Instruction or MUP 311 Studio Instruction are required. At least four of these hours must be at ASU. Four semester hours of ensemble participation are required.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Diagnostic Examination. Four semesters of class piano (MUP 131, 132, 231, 232), unless waived by a diagnostic examination at the time of entrance, are required.

The remaining semester hours in music are selected by the student in consultation with an advisor. Course work may be chosen from ethnomusicology, music education, music history, music theory, and performance. Students must select sufficient elective courses to complete the 120 semester hours required for graduation.

Foreign Language. Sixteen semester hours in one language are required for the Bachelor of Arts degree.

BACHELOR OF MUSIC DEGREE

All Bachelor of Music (BM) degree programs require 120 semester hours for graduation excluding Music Education (125 to 129 semester hours) and Music Therapy (128 semester hours). The BM curriculum offers majors in Music Education, Music Therapy, Performance, and Theory and Composition.

The curricula for the Music Education and Music Therapy majors require more than 120 semester hours. A student wishing to complete these programs in four years is required to take more than 15 semester hours per semester or to attend summer sessions.

The music curriculum for the BM majors on the pages that follow consists of a minimum of 79 semester hours. In addition, the Music Education major provides certification to students interested in teaching in the public schools.

In addition to fulfilling the major requirements, students must meet all university graduation requirements and college degree requirements. See "University Graduation Requirements," page 89, and "College Degree Requirements," page 439.

MUSIC EDUCATION—BM

Students in Music Education must complete the requirements for the Initial Teacher Certification program offered through the College of Education.

Teacher Certification. The Music Education program leads to K–12 certification in music for the State of Arizona.

The undergraduate music education program contains three concentrations. The instrumental concentration is designed for those interested in teaching band in the public schools. The string concentration focuses on those who wish to teach strings and orchestra. The choral/general concentration is geared toward those interested in teaching general music or choir.

Teaching music education requires a K–12 endorsement in Arizona. All students in the Initial Teacher Certification (ITC) program take classes in elementary and secondary methods. The field experience requirement (three semesters) usually involves placements at the elementary, middle, and high school levels. Student teaching includes two experiences: elementary/middle, elementary/high, or middle/high school.

Students submit a special application to the ITC program in the College of Education. Application deadlines for the ITC program are February 1 for fall admission and September 1 for spring admission. Appointments with an advisor can be made in the Office of Student Services, College of Education, by calling 480/965-5555.

Certification is also available through the postbaccalaureate program in the College of Education. Interested students should contact an advisor in the College of Education and in music education for admission requirements to the postbaccalaureate program.

Choral-General Concentration

This degree program may include instrumental music as a minor teaching field.

Music Theory. The following music theory courses are required:

MTC	125 Basic Music Theory	3
MTC	221 Music Theory: 18th Century	3

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

MTC	222	Music Theory: 19th Century 3
MTC	223	Music Theory: 20th Century 3
Total		 12

Music History. The following music history courses are required:

MHL	194	ST: Music and Culture 3
MHL	341	Music History 3
MHL	342	Music History 3
Total		 9

Conducting. The following conducting courses are required:

MUP	209	Beginning Choral Conducting 1
MUP	339	Choral Conducting 2
Total		 3

Music Education. The following music education courses are required:

MUE	110	Introduction to Music Education 1
MUE	313	Elementary Music Methods 3
MUE	315	General Music in the Secondary Schools 2
MUE	480	Choral Methods 3
Total		 9

Major Performing Medium. Eight semester hours of MUP 111 Studio Instruction and eight semester hours of MUP 311 Studio Instruction are required to obtain a proficiency level necessary to meet the graduation recital requirement. MUP 495 Performance completes the requirement.

Minor Performing Medium. A proficiency equal to six semesters of study in keyboard or voice (whichever is not the major performing medium) is required. Students wishing to extend their proficiency beyond this level may continue to study in MUP 321 Studio Instruction.

Ensemble. Eight different semesters of participation, including at least six semesters of MUP 352 Concert Choir and/or MUP 353 University Choir, four of which must be at ASU, are required.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Instrumental Concentration

It is strongly recommended that this degree program include courses in choral music or courses in jazz education.

Music Theory. The following music theory courses are required:

MTC	125	Basic Music Theory 3
MTC	221	Music Theory: 18th Century 3
MTC	222	Music Theory: 19th Century 3
MTC	223	Music Theory: 20th Century 3
Total		 12

Music History. The following music history courses are required:

MHL	194	ST: Music and Culture 3
MHL	341	Music History 3
MHL	342	Music History 3
Total		 9

Conducting. The following conducting courses are required:

MUP	210	Beginning Instrumental Conducting 1
MUP	340	Instrumental Conducting 2
Total		 3

Music Education. The following music education courses are required:

MUE	110	Introduction to Music Education 1
MUE	315	General Music in the Secondary Schools 2
MUE	317	Educational Methods for Violin and Viola 1
MUE	318	Educational Methods for Cello and String Bass 1
MUE	327	Educational Methods for Trumpet and Horn 1
MUE	328	Educational Methods for Trombone, Euphonium, and Tuba 1
MUE	336	Educational Methods for Percussion 1
MUE	337	Educational Methods for Flute, Clarinet, and Saxophone 1
MUE	338	Educational Methods for Double Reed Instruments 1
MUE	481	Instrumental Practicum/Methods 5
MUE	482	Instrumental Practicum/Methods 5
Total		 20

Major Performing Medium. Eight semester hours of MUP 111 Studio Instruction and eight semester hours of MUP 311 Studio Instruction are required to obtain a proficiency level necessary to meet the graduation recital requirement. MUP 495 Performance completes the requirement.

Ensemble. Eight different semesters of participation in an ensemble are required, four of which must be at ASU. Two of the four ASU semesters must be in marching band. Wind and percussion players must have a minimum of six semesters of MUP 361 Marching and Concert Bands or an equivalent large ensemble.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Diagnostic Examination. Two semesters of class piano (MUP 131, 132), unless waived by a diagnostic examination at the time of entrance, are required.

Additional Requirements. One semester of class voice and one semester of a small ensemble are required.

String Concentration

Music Theory. The following music theory courses are required:

MTC	125	Basic Music Theory 3
MTC	221	Music Theory: 18th Century 3
MTC	222	Music Theory: 19th Century 3
MTC	223	Music Theory: 20th Century 3
Total		 12

Music History. The following music history courses are required:

MHL	194	ST: Music and Culture 3
MHL	341	Music History 3
MHL	342	Music History 3
Total		 9

Conducting. The following conducting courses are required:

MUP	210	Beginning Instrumental Conducting 1
MUP	340	Instrumental Conducting 2
Total		 3

Music Education. The following music education courses are required:

MUE	110	Introduction to Music Education 1
MUE	315	General Music in the Secondary Schools 2
MUE	317	Educational Methods for Violin and Viola 1
		or MUE 318 Educational Methods for Cello and String Bass (1)
MUE	327	Educational Methods for Trumpet and Horn 1
		or MUE 328 Educational Methods for Trombone, Euphonium, and Tuba (1)
MUE	335	Educational Methods for Guitar 1
MUE	336	Educational Methods for Percussion 1
MUE	337	Educational Methods for Flute, Clarinet, and Saxophone 1
		or MUE 338 Educational Methods for Double Reed Instruments (1)
MUE	482	Instrumental Practicum/Methods 5
MUE	485	String Practicum/Methods 5
Total		 18

Also required are three semesters of MUP 121 Studio Instruction on string instruments other than the major instrument, to be chosen in consultation with the music education faculty.

Major Performing Medium. Eight semester hours of MUP 111 Studio Instruction and eight semester hours of MUP 311 Studio Instruction are required to obtain a proficiency level necessary to meet the graduation recital requirement. MUP 495 Performance completes the requirement.

Ensemble. Eight different semesters of participation in an ensemble are required, four of which must be at ASU. Six semesters of MUP 345 Symphony Orchestra or an equivalent are required.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Recommended Elective. MUE 313 Elementary Music Methods is recommended.

Diagnostic Examination. Two semesters of class piano (MUP 131, 132), unless waived by a diagnostic examination at the time of entrance, are required.

Additional Requirements. One semester of class voice and one semester of a small ensemble are required.

MUSIC THERAPY—BM

Students are eligible to apply for the Certification Exam offered by the Certification Board for Music Therapists upon completion of the requirements for graduation.

Music Theory. The following music theory courses are required:

MTC	125	Basic Music Theory 3
MTC	221	Music Theory: 18th Century 3
MTC	222	Music Theory: 19th Century 3
MTC	223	Music Theory: 20th Century 3
Total		 12

Music History. The following music history courses are required:

MHL	194	ST: Music and Culture 3
MHL	201	MacLiteracy for Musicians *CS* 3
MHL	341	Music History 3
MHL	342	Music History 3
Total		 12

Conducting. One of the following two courses is required:

MUP	209	Beginning Choral Conducting 1
MUP	210	Beginning Instrumental Conducting 1

Music Education. The following music education courses are required:

MUE	211	Music in Recreation 2
MUE	313	Elementary Music Methods 3
MUE	335	Educational Methods for Guitar 1
MUE	336	Educational Methods for Percussion 1
MUE	389	Repertoire for Music Therapy 3
Total		 10

Music Therapy. The following music therapy courses are required:

MUE	161	Introduction to Music Therapy 2
MUE	261	Music Therapy as a Behavioral Science 2
MUE	361	Music Therapy Theory and Practice in Psychopathology 3
MUE	362	Music Therapy Techniques 3
MUE	381	Music Therapy Research *L* 3
MUE	384	Therapy Preclinical I 1
MUE	385	Therapy Preclinical II 1
MUE	386	Therapy Preclinical III 1
MUE	387	Therapy Preclinical IV 1
MUE	388	Therapy Preclinical V (elective) 1
MUE	441	Psychology of Music 3
MUE	475	Group Process and Music Therapy 1
MUE	476	Internship in Music Therapy 1
Total		 23

Major Performing Medium. A minimum of 12 semester hours are required in the major performing medium, which must include at least four semester hours of MUP 311 Studio Instruction.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Voice. Two semesters of study in voice are required.

Ensembles. Six semesters of ensemble participation are required with at least four semesters in large groups.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Additional Requirements. These courses are also required:

BIO	201	Human Anatomy and Physiology I *SG*	4
CDE	232	Human Development *SB*	3
PGS	101	Introduction to Psychology *SB*	3
PGS	466	Abnormal Psychology *SB*	3
PSY	230	Introduction to Statistics *CS*	3
		or STP 226 Elements of Statistics *CS* (3)	
SOC	101	Introductory Sociology *SB*	3
SPE	311	Orientation to Education of Exceptional Children *SB, C*	3
DAN dance course			3–4
Total			25–26

Diagnostic Examination. Four semesters of class piano (MUP 131, 132, 231, 232), unless waived by a diagnostic examination at the time of entrance, are required. Music therapy competencies (as established by the American Music Therapy Association) are evaluated before and after the music therapy internship, to determine entry-level skill acquisition before graduation.

PERFORMANCE—BM

Collaborative Piano Concentration

Music Theory. The following music theory courses are required:

MTC	125	Basic Music Theory	3
MTC	221	Music Theory: 18th Century	3
MTC	222	Music Theory: 19th Century	3
MTC	223	Music Theory: 20th Century	3
MTC	428	Advanced Form and Analysis	3
Total			15

Music History. The following courses are required:

MHL	194	ST: Music and Culture	3
MHL	341	Music History	3
MHL	342	Music History	3
MHL upper-division course			3
Total			12

Diction and Repertoire. The following courses are required:

MUP	250	Diction for Singers	1
MUP	451	Repertoire	2
MUP	453	Song Literature	2
MUP	454	Song Literature	2
Total			7

Conducting. One of the following two courses is required:

MUP	209	Beginning Choral Conducting	1
MUP	210	Beginning Instrumental Conducting	1

Major Performing Medium. The following courses are required:

MUP	127	Studio Instruction	16
MUP	311	Studio Instruction	8
MUP	337	Studio Instruction: Collaborative Piano	8
Total			32

In addition, each student accompanies two half recitals (MUP 495 Performance), one for a singer and one for an instrumentalist, during his or her junior year. (A half solo recital may be substituted for either of the above.) During the senior year, the student accompanies two full recitals (MUP 496 Performance), one vocal and one instrumental.

Ensemble. Two semesters of MUP 379 Chamber Music Ensembles, one semester of MUP 379 Chamber Music Ensembles: Piano, four semesters of MUP 388 Collaborative Piano, one semester of MUP 487 Collaborative Piano, and two semesters of ensemble electives (minimum of six different semesters) are required.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Guitar Concentration

Music Theory. The following music theory courses are required:

MTC	125	Basic Music Theory	3
MTC	221	Music Theory: 18th Century	3
MTC	222	Music Theory: 19th Century	3
MTC	223	Music Theory: 20th Century	3
MTC	320	Modal Counterpoint	2
		or MTC 321 Tonal Counterpoint (2)	
Total			14

Music History. The following music history courses are required:

MHL	194	ST: Music and Culture	3
MHL	341	Music History	3
MHL	342	Music History	3
MHL upper-division course			3
Total			12

Repertoire and Pedagogy. The following courses are required:

MUP	451	Repertoire	2
MUP	481	Performance Pedagogy and Materials	2
Total			4

Conducting. MUP 210 Beginning Instrumental Conducting is required.

Major Performing Medium. Sixteen semester hours of MUP 127 Studio Instruction and 16 semester hours of MUP 327 Studio Instruction are required to attain a proficiency level necessary to meet the graduation recital requirements. A half recital (MUP 495 Performance) and a full recital (MUP 496 Performance) are also required.

Ensemble. Eight semester hours of ensemble are required within a minimum of six different semesters. Four of the

eight semester hours must be MUP 379 Chamber Music Ensembles: Guitar.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Diagnostic Examination. Four semesters of class piano (MUP 131, 132, 231, 232), unless waived by a diagnostic examination at the time of entrance, are required.

Jazz Concentration

Music Theory. The following music theory courses are required:

MTC	125	Basic Music Theory 3
MTC	221	Music Theory: 18th Century 3
MTC	222	Music Theory: 19th Century 3
MTC	223	Music Theory: 20th Century 3
MTC	315	Modern Arranging 2
MTC	316	Modern Arranging 2
MTC	440	Jazz Theory and Ear Training 2
MTC	441	Jazz Composition 2
Total		 20

Music History. The following music history courses are required:

MHL	194	ST: Music and Culture 3
MHL	341	Music History 3
MHL	342	Music History 3
MHL elective		 3
Total		 12

Conducting. MUP 210 Beginning Instrumental Conducting is required.

Major Performing Medium. Eight semester hours of MUP 111 Studio Instruction and eight semester hours of MUP 311 Studio Instruction are required to obtain a proficiency level necessary to meet the graduation recital requirements. Two half recitals (MUP 495 Performance) are required, with one in the jazz idiom.

Four semesters of MUP 379 Chamber Music Ensembles: Jazz are required.

Improvisation. The following courses are required:

MUP	117	Applied Jazz Improvisation 1
MUP	141	Jazz Fundamentals 1
MUP	217	Applied Jazz Improvisation* 4
MUP	317	Applied Jazz Improvisation* 4
Total		 10

* This two-semester-hour course must be repeated for a total of four semester hours of credit.

Workshops. The following courses are required:

MUP	235	Jazz Piano 1
MUP	236	Jazz Piano 1
MUP	319	Recording Studio Techniques 2
Total		 4

Ensemble. Eight semesters of ensemble are required, including six semesters of MUP 379 Chamber Music Ensembles and two semesters of MUP 386 Jazz Band.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Diagnostic Examination. Two semesters of class piano (MUP 131, 132), unless waived by a diagnostic examination at the time of entrance, are required.

Keyboard Concentration

Music Theory. The following music theory courses are required:

MTC	125	Basic Music Theory 3
MTC	221	Music Theory: 18th Century 3
MTC	222	Music Theory: 19th Century 3
MTC	223	Music Theory: 20th Century 3
MTC	425	Studies in 20th-Century Theory 3
Total		 15

Music History. The following music history courses are required:

MHL	194	ST: Music and Culture 3
MHL	341	Music History 3
MHL	342	Music History 3
MHL	440	Music Since 1900 *L* 3
MHL upper-division course		 3
Total		 15

Repertoire and Pedagogy. The following courses are required:

MUP	440	Keyboard Harmony 1
MUP	451	Repertoire 2
MUP	481	Performance Pedagogy and Materials 2
		or MUP 482 Piano Pedagogy (2)
Total		 5

Conducting. One of the following two courses is required:

MUP	209	Beginning Choral Conducting 1
MUP	210	Beginning Instrumental Conducting 1

Harpsichord. One semester hour of harpsichord is required.

Major Performing Medium. Sixteen semester hours of MUP 127 Studio Instruction and 16 semester hours of MUP 327 Studio Instruction are required to attain a proficiency level necessary to meet the graduation recital requirements. A half recital (MUP 495 Performance) and a full recital (MUP 496 Performance) are required.

Ensemble. Eight semester hours of ensemble within a minimum of six different semesters are required, including two semesters of accompanying and two semesters of chamber music.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Music Theatre Concentration

Music Theory. The following music theory courses are required:

MTC 125 Basic Music Theory	3
MTC 221 Music Theory: 18th Century	3
MTC 222 Music Theory: 19th Century	3
MTC 223 Music Theory: 20th Century	3
Total	12

Music History. The following music history courses are required:

MHL 194 ST: Music and Culture	3
MHL 341 Music History	3
MHL 342 Music History	3
Total	9

Major Performing Medium. Eight semester hours of MUP 111 Studio Instruction and eight semester hours of MUP 311 Studio Instruction are required to attain a proficiency level necessary to meet the graduation requirement of a public performance of two roles, both of which must be of major proportion.

Music Theatre. Five semesters of MUP 370 Music Theatre: Techniques; four semesters of MUP 371 Music Theatre: Workshops; eight semesters of MUP 373 Music Theatre: Performance; two semesters of MUP 374 Music Theatre: Production; and one semester of MUP 451 Repertoire: Broadway Musicals are required.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Conducting. MUP 209 Beginning Choral Conducting is required.

Additional Requirements. Six semester hours in theatre and 11 semester hours in dance are required.

Diagnostic Examination. Three semesters of class piano (MUP 131, 132, 231), unless waived by a diagnostic examination at the time of entrance, are required.

Opera Option. For those students whose goal is opera performance, the following substitutions to the course of study may be made: MUP 451 Repertoire: Opera instead of MUP 451 Repertoire: Broadway Musicals, two semesters of MUP 371 Music Theatre: Workshops (Aria Preparation), and three semesters of MUP 250 Diction for Singers instead of five semester hours of dance. Permission of the director of the music theatre program is required.

Orchestral Instrument Concentration

Music Theory. The following music theory courses are required:

MTC 125 Basic Music Theory	3
MTC 221 Music Theory: 18th Century	3
MTC 222 Music Theory: 19th Century	3
MTC 223 Music Theory: 20th Century	3
Total	12

Music History. The following courses are required:

MHL 194 ST: Music and Culture	3
MHL 341 Music History	3
MHL 342 Music History	3
MHL upper-division course	3
Total	12

Repertoire and Pedagogy. The following courses are required:

MUP 451 Repertoire	2
MUP 481 Performance Pedagogy and Materials	2
Total	4

Conducting. The following courses are required:

MUP 210 Beginning Instrumental Conducting	1
MUP 340 Instrumental Conducting	2
Total	3

Major Performing Medium. Sixteen semester hours of MUP 127 Studio Instruction and 16 semester hours of MUP 327 Studio Instruction are required to attain a proficiency level necessary to meet the graduation recital requirements. A half recital (MUP 495 Performance) and a full recital (MUP 496 Performance) are required.

Ensemble. Eight semester hours of large ensembles within a minimum of six different semesters are required plus four semester hours of small ensembles within a minimum of four different semesters.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Diagnostic Examination. Four semesters of class piano (MUP 131, 132, 231, 232), unless waived by a diagnostic examination at the time of entrance, are required.

Voice Concentration

Music Theory. The following music theory courses are required:

MTC 125 Basic Music Theory	3
MTC 221 Music Theory: 18th Century	3
MTC 222 Music Theory: 19th Century	3
MTC 223 Music Theory: 20th Century	3
Total	12

Music History. The following music history courses are required:

MHL 194 ST: Music and Culture	3
MHL 341 Music History	3
MHL 342 Music History	3
MHL upper-division course	3
Total	12

Repertoire and Pedagogy. Two semester hours of MUP 451 Repertoire and two semester hours of MUP 481 Performance Pedagogy and Materials are required.

Also required are two semester hours selected from MUP 453 Song Literature or 454 Song Literature or a repeated enrollment of MUP 451 Repertoire.

Diction. Three semester hours of MUP 250 Diction for Singers is required, which includes one hour each of Italian, German, and French.

Conducting. MUP 209 Beginning Choral Conducting is required.

Major Performing Medium. Sixteen semester hours of MUP 127 Studio Instruction and 16 semester hours of MUP 327 Studio Instruction are required to attain a proficiency level necessary to meet the graduation recital requirements. A half recital (MUP 495 Performance) and a full recital (MUP 496 Performance) are required.

Ensemble. Four different semesters of large vocal ensembles are required plus four semester hours of ensembles within four different semesters to be selected from large and/or small ensembles.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Language. Sixteen semester hours are required in more than one foreign language, chosen from French, German, and Italian. A student may select one year of one language and one semester of the others, chosen in consultation with the studio teacher and advisor.

Diagnostic Examination. Four semesters of class piano (MUP 131, 132, 231, 232), unless waived by a diagnostic examination at the time of entrance, are required.

THEORY AND COMPOSITION—BM

Composition Concentration

Music Theory. The following music theory courses are required:

MTC 125 Basic Music Theory	3
MTC 221 Music Theory: 18th Century	3
MTC 222 Music Theory: 19th Century	3
MTC 223 Music Theory: 20th Century	3
MTC 320 Modal Counterpoint	2
MTC 321 Tonal Counterpoint	2
MTC 433 Orchestration	3
MTC 436 Electronic Studio Techniques I	2
Total	21

An additional five semester hours, to be selected from MTC 422, 425, 428, 429, 430, 437, and 441 are required.

Three semesters of MTC 123 Beginning Composition and four semesters of MTC 323 Composition are also required. At least three semesters of MTC 323 Composition must be taken at ASU.

Music History. The following courses are required:

MHL 194 ST: Music and Culture	3
MHL 341 Music History	3
MHL 342 Music History	3
MHL upper-division course	3
Total	12

Conducting. Choose between MUP 209 Beginning Choral Conducting or MUP 210 Beginning Instrumental Conducting.

Applied Music. Ten semester hours of study in applied music are required, at least eight of which must be in MUP 111 Studio Instruction.

Ensemble. Six semesters of participation in an ensemble are required.

Final Project. MTC 495 Final Project is required.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Diagnostic Examination. Four semesters of class piano (MUP 131, 132, 231, 232), unless waived by a diagnostic examination at the time of entrance, are required.

Additional Requirements. At least nine semester hours of electives to be chosen from MTC, MHL, or MUP (excluding courses taken to meet Class Piano proficiency) are required. MHL 440 Music Since 1900 may be used to satisfy the General Studies L requirement.

Theory Concentration

Music Theory. The following music theory courses are required:

MTC 125 Basic Music Theory	3
MTC 221 Music Theory: 18th Century	3
MTC 222 Music Theory: 19th Century	3
MTC 223 Music Theory: 20th Century	3
MTC 320 Modal Counterpoint	2
MTC 321 Tonal Counterpoint	2
MTC 323 Composition	2–3
MTC 422 Musical Acoustics	3
MTC 425 Studies in 20th-Century Theory	3
MTC 428 Advanced Form and Analysis	3
MTC 496 Theory Project	3
Total	30–31

Also required are 10 semester hours of electives in MTC courses at the 300 level or above, to be chosen in consultation with an advisor.

Music History. The following courses are required:

MHL 194 ST: Music and Culture	3
MHL 341 Music History	3
MHL 342 Music History	3
MHL upper-division course	3
Total	12

Conducting. Choose between MUP 209 Beginning Choral Conducting or MUP 210 Beginning Instrumental Conducting.

Applied Music. Twelve semester hours of study in applied music are required, eight of which must be in MUP 111 Studio Instruction.

Ensemble. Eight semesters of participation in an ensemble are required.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Final Project. MTC 496 Theory Project is required.

Recital Attendance. Six semesters of MUP 100 Concert Attendance are required.

Diagnostic Examination. Four semesters of class piano (MUP 131, 132, 231, 232), unless waived by a diagnostic examination at the time of entrance, are required.

Additional Requirements. MHL 440 Music Since 1900 may be used to satisfy the General Studies L requirement.

MUSIC MINOR

The School of Music offers a minor in Music consisting of 25 semester hours of course work. A minimum grade of "C" (2.00) is required in all courses.

MHL 194 ST: Music and Culture	3
MHL 341 Music History	3
MHL 342 Music History	3
MTC 125 Basic Music Theory	3
MTC 221 Music Theory: 18th Century	3
Electives*	10
Total	25

* Electives may be chosen from MUS, MHL, MTC, and selected MUP courses. The minor does not include Studio Instruction.

Diagnostic Examination. Students pursuing minor in music must first take a Theory Diagnostic Exam.

Interested students should contact the School of Music for specific requirements and admission procedures. Electives should include a minimum four semester hours of ensemble participation.

BIS CONCENTRATION

A concentration in music is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

Students pursuing a concentration in music must first take a Theory Diagnostic Exam. Interested students should contact the School of Music for specific requirements and admission procedures.

GRADUATE PROGRAMS

The faculty in the School of Music offer graduate programs leading to the following degrees: Master of Arts, Master of Music, and Doctor of Musical Arts. Refer to the "Katherine K. Herberger College of Fine Arts Graduate Degrees and Majors" table, page 439, for a list of majors and concentrations. A document on graduate degree programs in music may be obtained by contacting the School of Music. See the *Graduate Catalog* for information on all graduate degrees.

MUSIC HISTORY/LITERATURE (MHL)

M MHL 140 Music as Culture. (3)
fall and spring
Introduces a range of practical and intellectual challenges presented by encounters with various kinds of music. Prerequisite: music major; successful completion of the School of Music entrance audition and theory diagnostic exam.

M MHL 194 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Music and Culture. (3)

M MHL 201 MacLiteracy for Musicians. (3)
fall, spring, summer
Instruction in basic Macintosh computer literacy, including generic applications and music-specific programs with hands-on experience. Lecture, lab. Fee.
General Studies: CS

M MHL 341 Music History. (3)
fall and spring
Western music from the Greeks to the present day. Need not be taken in sequence with MHL 342. Prerequisite: MTC 221.

M MHL 342 Music History. (3)
fall and spring
See MHL 341. Prerequisite: MTC 221.

M MHL 344 Music in World Cultures. (3)
spring
Examines the relations among music, dance, theatre, religion, and social status in Asia, Africa, Oceania, Europe, and the United States.
General Studies: HU, G

M MHL 352 The Evolution of Jazz. (3)
selected semesters
Origin, development, and styles of jazz music and its exponents. Prerequisite: MTC 223.
General Studies: H

M MHL 363 Survey of Russian Music. (3)
fall in odd years
Examines music and musical life in Russia, the Soviet Union, and the post-Soviet C.I.S. from the Middle Ages to the present. Lecture, discussion. Prerequisite: MHL 342 or instructor approval.
General Studies: HU

M MHL 437 Topics in 17th-Century Music. (3)
fall in odd years
Selected topics exploring the musical styles of the 17th century and their cultural contexts. Prerequisites: MHL 341, 342; MTC 223.
General Studies: L

M MHL 438 Topics in 18th-Century Music. (3)
fall in even years
Selected topics exploring the musical styles of the 18th century and their cultural contexts. Prerequisites: MHL 341, 342; MTC 223.
General Studies: H

M MHL 439 Topics in 19th-Century Music. (3)
spring
Selected topics exploring the musical styles of the 19th century and their cultural contexts. Prerequisites: MHL 341, 342; MTC 223.
General Studies: L, H

M MHL 440 Music Since 1900. (3)
fall and summer
Examines stylistic trends, major composers and their works, and cultural contexts in music since 1900. Prerequisites: MHL 341, 342; MTC 223.
General Studies: L

M MHL 456 History of Opera. (3)
spring in odd years
Development of opera from its creation ca. 1600 to present. Emphasis placed on major stylistic developments and representative works. Prerequisites: MHL 341, 342; MTC 222.

M MHL 466 North American Indian Music. (3)
spring in odd years
Various styles of Indian music in the United States, Canada, and Mexico. Open to Music majors and nonmajors.
General Studies: L/HU, C

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

MUSIC THEORY AND COMPOSITION (MTC)

M MTC 123 Beginning Composition. (1)
fall and spring
Intended for freshmen and sophomores in the composition concentration. Introduces composing. May be repeated for credit. Prerequisite: instructor approval.

M MTC 125 Basic Music Theory. (3)
fall
Notation, scales, keys, modes, intervals, chords, basic part writing and composition. Development of related aural skills through sightsinging and dictation. Prerequisite: any music major or instructor approval.

M MTC 221 Music Theory: 18th Century. (3)
spring
Styles, techniques, and idioms of 18th-century music; emphasizes analysis, composition (part writing), and related aural skills, with applications for performance. Prerequisite: MTC 125.

M MTC 222 Music Theory: 19th Century. (3)
fall
Styles, techniques, and idioms of 19th-century music; emphasizes analysis, composition (part writing), and related aural skills, with applications for performance. Prerequisite: MTC 221.

M MTC 223 Music Theory: 20th Century. (3)
spring
Styles, techniques, and idioms of 20th-century music; emphasizes innovative treatments of musical elements, analysis, and composition; related aural skills. Prerequisite: MTC 222.

M MTC 315 Modern Arranging. (2)
fall
Techniques in arranging for the contemporary jazz, radio, television, and studio orchestra. Prerequisite: MTC 223.

M MTC 316 Modern Arranging. (2)
spring
Continuation of MTC 315. Prerequisite: MTC 315.

M MTC 320 Modal Counterpoint. (2)
fall
Counterpoint based on 16th-century vocal polyphonic style. Prerequisite: MTC 221.

M MTC 321 Tonal Counterpoint. (2)
spring
Counterpoint based on 18th-century polyphonic style. Prerequisite: MTC 221.

M MTC 323 Composition. (2–3)
fall and spring
Writing music compositions, with emphasis on basic techniques and smaller structures. May be repeated for credit. Prerequisite: 3 semesters of MTC 123 or instructor approval.

M MTC 327 Intermediate Form and Analysis. (3)
fall and spring
Organizing elements in the most important contrapuntal and homophonic musical forms from the Renaissance through the 19th century. Prerequisite: MTC 222.

M MTC 422 Musical Acoustics. (3)
fall
Properties of sound and tone. Harmonic series, instruments, the ear, auditorium acoustics, and the reproduction of sound. Assumes a thorough knowledge of musical notation, intervals, scales, and harmony, or 2 years of music theory.

M MTC 425 Studies in 20th-Century Theory. (3)
fall
Continued development of analytical techniques and aural skill, with an examination of theoretical systems applicable to 20th-century music. Prerequisite: MTC 223.

M MTC 428 Advanced Form and Analysis. (3)
spring
Organizing principles of the large forms of musical composition in the 19th and 20th centuries. Prerequisite: MTC 327.

M MTC 429 Canon and Fugue. (2)
fall in odd years
Writing of canons and fugues in tonal style. Prerequisite: MTC 321.

M MTC 430 20th-Century Counterpoint. (2)
spring in even years
Counterpoint studies utilizing 20th-century idioms. Prerequisite: MTC 223.

M MTC 433 Orchestration. (3)
spring in odd years
Studies scoring music for full and chamber orchestras. Includes examination of individual orchestral instruments (characteristics and performance techniques). Prerequisite: MTC 223.

M MTC 436 Electronic Studio Techniques I. (2)
fall
Principles of analog electronic music systems and their application in the composition of electronic music. Assumes a thorough knowledge of music notation and intervals.

M MTC 437 Electronic Studio Techniques II. (2)
spring
Principles of digital electronic music systems and their applications in the composition of electronic music. Prerequisite: MTC 436.

M MTC 440 Jazz Theory and Ear Training. (2)
fall
Advanced study of jazz harmonic systems. Daily oral drills. Prerequisite: MTC 223.

M MTC 441 Jazz Composition. (2)
fall
Creative writing in the smaller forms and in the idiom of jazz. Prerequisite: MTC 321.

M MTC 495 Final Project. (0)
fall and spring
Half recital of compositions or approval of a large-scale composition or a research paper.

M MTC 496 Theory Project. (3)
fall and spring
Supervised individual writing project dealing with music theory.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

MUSIC EDUCATION (MUE)

For more MUE courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M MUE 110 Introduction to Music Education. (1)
spring
Overview of music education. Orientation to student characteristics, teacher roles, and foundations of philosophy and history. Requires school observations.

M MUE 161 Introduction to Music Therapy. (2)
fall
Overview of the profession of music therapy and its applications in mental health, rehabilitation, and special education.

M MUE 211 Music in Recreation. (2)
fall
Materials, methods, and organizational structures appropriate for recreational music. Prerequisite: ability to read music, as determined by the instructor.

M MUE 261 Music Therapy as a Behavioral Science. (2)
fall
Orientation to preclinical experience with emphasis on observation skills, assessment, goal setting, and professional ethics. Requires off-campus observations. Prerequisite: MUE 161.

M MUE 310 Music in Early Childhood Education. (3)
spring
Identifying and understanding musical needs of young children. Methods and materials for program development for classroom teachers.

M MUE 311 Music for the Classroom Teacher. (3)
fall and spring
Development of the classroom music program in the elementary school. Requires no previous music experience or course work. Prerequisite: nonmusic major or minor.

M MUE 313 Elementary Music Methods. (3)
fall
Methods of instruction, planning, and presentation of appropriate contents in music. For music educators and music therapists. Prerequisite: any music major.

M MUE 315 General Music in the Secondary Schools. (2)
fall and spring
Curriculum, student characteristics, and teaching strategies for general music. Prerequisite: any music major.

M MUE 317 Educational Methods for Violin and Viola. (1)
fall and spring
Teaching and playing skills for music teachers. 3 hours per week.

M MUE 318 Educational Methods for Cello and String Bass. (1)
fall and spring
Teaching and playing skills for music teachers. 3 hours per week.

M MUE 327 Educational Methods for Trumpet and Horn. (1)
fall and spring
Teaching and playing skills for music teachers. 3 hours per week.

M MUE 328 Educational Methods for Trombone, Euphonium, and Tuba. (1)
fall and spring
Teaching and playing skills for music teachers. 3 hours per week.

M MUE 335 Educational Methods for Guitar. (1)
fall and spring
Teaching and playing skills for music teachers. 3 hours per week.

M MUE 336 Educational Methods for Percussion. (1)
fall and spring
Teaching and playing skills for music teachers. 3 hours per week.

M MUE 337 Educational Methods for Flute, Clarinet, and Saxophone. (1)
fall and spring
Teaching and playing skills for music teachers. 3 hours per week.

M MUE 338 Educational Methods for Double Reed Instruments. (1)
fall and spring
Teaching and playing skills for music teachers. 3 hours per week.

M MUE 361 Music Therapy Theory and Practice in Psychopathology. (3)
fall
Influence of music on behavior; principles and practices of music therapy and psychiatric clients. Prerequisites: MUE 211, 261; Music Therapy major.

M MUE 362 Music Therapy Techniques. (3)
spring
Organization, administration, and use of music in rehabilitation with various client populations. Prerequisites: MUE 361; Music Therapy major.

M MUE 381 Music Therapy Research. (3)
spring
Statistics and research design appropriate for investigations in music therapy.
General Studies: L

M MUE 384 Therapy Preclinical I. (1)
fall and spring
Paired students provide music therapy for small groups at a community agency for mentally retarded, geriatric, or physically disabled clients for a minimum of 10 clock hours. Prerequisites: MUE 211, 261.

M MUE 385 Therapy Preclinical II. (1)
fall and spring
Individual placement in ASU Music Therapy Clinic.

M MUE 386 Therapy Preclinical III. (1)
fall and spring
See MUE 385.

M MUE 387 Therapy Preclinical IV. (1)
fall and spring
Individual clinical work in a community mental health facility.

M MUE 388 Therapy Preclinical V. (1)
fall and spring
See MUE 387.

M MUE 389 Repertoire for Music Therapy. (3)
spring
Music skills repertoire for music therapy, including units on brass, strings, woodwinds, electronic instruments, computer music, and improvisation techniques. Lab. Prerequisites: MUE 211; Music Therapy major.

M MUE 441 Psychology of Music. (3)
spring
Psychological and physiological aspects of music emphasizing musical behavior, function, perception, and learning. Prerequisite: junior standing or instructor approval.

M MUE 475 Group Process and Music Therapy. (1)
fall
Principles of group process, verbal counseling, professional writing, as related to music therapy practice. Prerequisites: MUE 362; Music Therapy major.

M MUE 476 Internship in Music Therapy. (1)
fall and spring
Full-time, 6-month, off-campus residency in an approved clinical institution.

M MUE 480 Choral Methods. (3)
spring
Methods of instruction, organization, and presentation of appropriate content in choral music classes. Prerequisite: Secondary Education major.

M MUE 481 Instrumental Practicum/Methods. (5)
fall
Instrumental music as a means of developing music skills, understandings, and attitudes in elementary and secondary school students. Prerequisite: Secondary Education major.

M MUE 482 Instrumental Practicum/Methods. (5)
spring
See MUE 481. Prerequisites: MUE 481 (or 485); Secondary Education major.

M MUE 485 String Practicum/Methods. (5)
fall
For students preparing to administer a string program and teach strings at the elementary level. Lecture, lab.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

MUSIC PERFORMANCE (MUP)

M MUP 100 Concert Attendance. (0)
fall and spring
6 semesters required for all music majors. A total of 4 convocations and 6 approved recitals required each semester.

M MUP 111 Studio Instruction. (2)
fall and spring
Bassoon, cello, clarinet, contrabass, cornet, euphonium, flute, guitar, harp, harpsichord, horn, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, voice. Minimum contact of 1 hour plus studio class weekly. May be repeated for credit. May not be taken for audit. Fee. Prerequisites: any music major; placement examination; audition.

M MUP 117 Applied Jazz Improvisation. (1)
fall and spring
Principles, methods, and theory of jazz performance and pedagogy. May be repeated for credit. Studio. Prerequisites: placement examination; audition.

M MUP 121 Studio Instruction. (1)
fall, spring, summer
Secondary or minor instrument instruction. Bassoon, cello, clarinet, contrabass, cornet, euphonium, flute, guitar, harp, harpsichord, horn, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, voice. Minimum contact of 1/2 hour per week. May be repeated for credit. May not be taken for audit. Fee. Prerequisites: any music major; instructor approval.

M MUP 127 Studio Instruction. (4)
fall and spring
Bassoon, cello, clarinet, contrabass, cornet, euphonium, flute, guitar, harp, harpsichord, horn, oboe, organ, percussion, piano, saxophone, trombone, trumpet, tuba, viola, violin, voice. Minimum contact of 1 hour plus studio class weekly. May be repeated for credit. May not be taken for audit. Fee. Prerequisites: Performance major; placement examination; audition.

M MUP 131 Class Piano. (1)
fall and spring
4-semester sequence (with MUP 132, 231, and 232) designed for those with little or no piano experience. Emphasizes keyboard technique, sight reading, simple accompaniments, and improvisation. 2 hours per week. May not be taken for audit. Prerequisite: any music major.

M MUP 132 Class Piano. (1)
spring
See MUP 131.

M MUP 133 Class Voice. (1)
fall and spring
4-semester sequence (with MUP 134, 233, and 234) open to all students. 2 hours per week. May not be taken for audit.

M MUP 134 Class Voice. (1)
fall and spring
See MUP 133. Prerequisite: MUP 133 or instructor approval.

M MUP 141 Jazz Fundamentals. (1)
fall
Principles, methods, and theory of jazz performance and pedagogy.

M MUP 209 Beginning Choral Conducting. (1)
fall and spring
Essentials of choral conducting techniques. 2 hours per week.

M MUP 210 Beginning Instrumental Conducting. (1)
spring
Essentials of instrumental conducting techniques. 2 hours per week.

M MUP 217 Applied Jazz Improvisation. (2)
fall and spring
Emphasizes basic jazz literature, chord symbol reading, melodic patterns and concepts, ear training, analysis of improvised solos, and pedagogical issues. May be repeated for credit. Studio. Prerequisites: MUP 117 (2 semesters); placement examination; audition.

M MUP 231 Class Piano. (1)
fall
See MUP 131.

M MUP 232 Class Piano. (1)
spring
See MUP 131.

M MUP 233 Class Voice. (1)
fall and spring
See MUP 133. Prerequisite: MUP 134 or instructor approval.

M MUP 234 Class Voice. (1)
fall and spring
See MUP 133. Prerequisite: MUP 233 or instructor approval.

M MUP 235 Jazz Piano. (1)
fall
2-semester sequence (with MUP 236) designed for jazz keyboard experience. Emphasizes chord symbol reading, simple improvisation, and voicing. 2 hours per week. Prerequisite: MUP 132.

M MUP 236 Jazz Piano. (1)
spring
See MUP 235. Prerequisite: MUP 132.

M MUP 237 Fretboard Harmony. (1)
fall and spring
Scales, chords, harmony, basic improvisation for the guitar. 2 hours per week.

M MUP 250 Diction for Singers. (1)
fall and spring
Use of phonetics in the study of song and opera literature. Language emphasis differs each semester. May be repeated for credit.

M MUP 301 Advanced Class Piano. (1)
fall
Required for the choral-general concentration of the Music Education major. Open to other music majors who have completed MUP 232. Emphasizes accompaniments, ensemble playing, score reading, advanced harmonizations, repertoire, technique, and improvisation. 2 hours per week. May not be taken for audit. Prerequisites: MUP 232 (or proficiency); any music major; placement examination.

M MUP 302 Advanced Class Piano. (1)
spring
Required for the choral-general concentration of the Music Education major. Open to other music majors who have completed MUP 301. A sequential continuation of MUP 301 skills that include both group and studio instruction. 2 hours per week. May not be taken for audit. Prerequisites: MUP 301 (or proficiency); any music major; placement examination.

M MUP 311 Studio Instruction. (2)
fall and spring
See MUP 111. Fee.

M MUP 317 Applied Jazz Improvisation. (2)
fall and spring
Emphasizes listening, analysis, and performance of advanced jazz literature and composition in contemporary styles. May be repeated for credit. Studio. Prerequisites: MUP 217 (2 semesters); placement examination; audition.

M MUP 319 Recording Studio Techniques. (2)
spring
Study of both analog and digital recording methods. Includes lab time on recording console and tape machines. Lab.

M MUP 321 Studio Instruction. (1)
fall, spring, summer
See MUP 121. Fee.

M MUP 327 Studio Instruction. (4)
fall and spring
See MUP 127. Fee.

M MUP 337 Studio Instruction: Collaborative Piano. (2)
spring
Repertoire to be selected from vocal and instrumental literature. 1 hour lesson per week. May be repeated for credit. Prerequisites: Performance major with a concentration in collaborative piano; placement examination.

M MUP 339 Choral Conducting. (2)
fall and spring
Elements of choral conducting technique and interpretation. 3 hours per week. Prerequisite: MUP 209.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M MUP 340 Instrumental Conducting. (2)
fall
Fundamentals of score reading and interpretation of instrumental music. 3 hours per week. Prerequisite: MUP 210.

M MUP 344 Chamber Orchestra. (1)
fall and spring
Important masterpieces from all periods of music are performed throughout the year. May be repeated for credit. Prerequisite: audition with director.

M MUP 345 Symphony Orchestra. (1)
fall and spring
Over a 4-year period, the student is introduced to the masterpieces of symphony orchestra literature. 3 times per week. May be repeated for credit. Prerequisite: audition with director.

M MUP 346 Sinfonietta. (1)
fall and spring
Symphonic orchestra that presents approximately six concerts annually, performing masterpieces of the classical repertoire. 3 times per week. May be repeated for credit. Prerequisite: audition with director.

M MUP 350 Choral Union. (1)
fall and spring
Open to all students in the university and to interested singers in the community by audition. Preparation and performance of the larger choral works. 2 hours per week. May be repeated for credit. Prerequisite: audition with director.

M MUP 352 Concert Choir. (1)
fall and spring
Important masterpieces from all periods of music are performed. May be repeated for credit. Prerequisite: instructor approval.

M MUP 353 University Choir. (1)
fall and spring
4 hours per week. May be repeated for credit. Prerequisite: instructor approval.

M MUP 355 Sun Devil Singers. (1)
fall and spring
Rehearsal and performance of music for mixed voices. 3 hours per week. May be repeated for credit. Prerequisites: audition with director; instructor approval.

M MUP 357 Women's Chorus. (1)
fall and spring
2 hours per week. May be repeated for credit. Prerequisite: instructor approval.

M MUP 361 Marching and Concert Bands. (1)
fall and spring
Staging of formations and drills for football games and other events (fall); masterpieces of symphonic band literature (spring). Meets daily. May be repeated for credit. Prerequisite: audition with director.

M MUP 362 Wind Ensemble. (1)
fall and spring
Rehearsal and performance of literature for wind ensemble. 2 hours per week in fall, 4 hours in spring. Performing ensemble. May be repeated for credit. Prerequisite: instructor approval.

M MUP 363 Chamber Winds. (1)
fall and spring
Rehearsal and performance of advanced literature for chamber winds. 2 hours per week. Performing ensemble. May be repeated for credit. Prerequisite: instructor approval.

M MUP 370 Music Theatre: Techniques. (1)
fall and spring
Exercises and improvisations for the singer/actor emphasizing body awareness, basic music theater performance skills, and freedom of the vocal and breath mechanisms. Section 1 (Movement for Singers); Section 2 (Expression); Section 3 (Interpretation); Section 4 (Advanced Expression); Section 5 (Advanced Interpretation). Sections 2 through 5 must be taken in sequence. Each section: 3 hours per week. May be repeated for credit.

M MUP 371 Music Theatre: Workshops. (1)
fall and spring
Development of specific skills for musical-dramatic interpretation. Section 1 (Aria Preparation); Section 2 (Broadway I); Section 3 (Broadway II). Each section: 1 hour lecture, demonstration, 1 lab per week. May be repeated for credit.

M MUP 372 Music Theatre: Orchestras. (1)
fall and spring
Participation in Lyric Opera Theatre productions. Section 1 (Orchestra); Section 2 (Chamber Orchestra); Section 3 (Chamber Ensemble). May be repeated for credit. Prerequisites: audition with director; instructor approval.

M MUP 373 Music Theatre: Performance. (1)
fall and spring
Participation in Lyric Opera Theatre productions. Section 1 (Principal Roles); Section 2 (Chorus). May be repeated for credit. Prerequisites: audition with director; instructor approval.

M MUP 374 Music Theatre: Production. (1)
fall and spring
Participation in Lyric Opera Theatre productions. Section 1 (Vocal Performance); Section 2 (Technical Music Theatre); Section 3 (Problems in Production) to be taken concurrently with MUP 373, Section 2. May be repeated for credit.

M MUP 376 New Music Ensemble. (1)
fall and spring
Rehearsal and performance of music written in the last 20 years. May be repeated for credit. Prerequisite: instructor approval.

M MUP 377 Brass Choir. (1)
fall and spring
Specializing in public performance of music written for brass instruments. 2 hours per week. May be repeated for credit. Prerequisite: instructor approval.

M MUP 379 Chamber Music Ensembles. (1)
fall and spring
Brass, guitar, keyboard, mixed, percussion, string, vocal, and woodwind ensembles. 2 hours per week. May be repeated for credit. Prerequisite: instructor approval.

M MUP 385 Percussion Ensemble. (1)
fall and spring
Rehearsal and performance of standard and original repertoire for the percussion ensemble and related instruments. 2 hours per week. May be repeated for credit. Prerequisite: instructor approval.

M MUP 386 Jazz Band. (1)
fall and spring
Rehearsal and performance of new, traditional, and Latin literature for jazz bands. 4 hours per week. May be repeated for credit. Prerequisite: instructor approval.

M MUP 387 Ethnomusicology Ensembles. (1)
fall and spring
Performance learning experience for the music of various cultures of the world. May be repeated for credit. Prerequisite: knowledge of instrument or instructor approval.

M MUP 388 Collaborative Piano. (1)
fall and spring
Piano accompaniments found in vocal and instrumental literature; discussion of styles and performance practices; experience in public performance. 2 hours per week. May be repeated for credit. Prerequisite: Performance major with a concentration in collaborative piano or instructor approval.

M MUP 440 Keyboard Harmony. (1)
fall
Performance-oriented class emphasizing chord progressions, harmonization, figured bass realization, stylistic improvisation, transposition, open score reading, and sight reading. Prerequisite: Performance major with a concentration in keyboard or instructor approval.

M MUP 451 Repertoire. (2)
fall and spring
Literature available for performance in all performing media. May be repeated for credit. Prerequisite: junior standing in major performance field.

M MUP 453 Song Literature. (2)
once a year
Early Italian, English, German, and French art song.

M MUP 454 Song Literature. (2)
once a year
American, Russian, Spanish, Scandinavian, and contemporary song.

M MUP 481 Performance Pedagogy and Materials. (2)
fall and spring
Principles and methods of performance techniques for each performance field. May be repeated for credit. Prerequisite: senior standing or instructor approval.

M MUP 482 Piano Pedagogy. (2)
selected semesters
Continuation of MUP 481 (Piano). Problems and techniques of teaching intermediate to advanced piano students. Prerequisites: junior standing in Performance (keyboard or collaborative piano concentration); instructor approval.

M MUP 487 Collaborative Piano. (1)
fall and spring
Piano accompaniments found in vocal and instrumental literature; discussion of styles and performance practices; experience in public performance. 2 hours per week. May be repeated for credit. May not be taken for audit. Prerequisite: Performance major with a concentration in collaborative piano or keyboard.

M MUP 495 Performance. (0)
fall
For candidates of a BM degree in which 1/2 recital is a requirement. Prerequisite: BM degree candidate.

M MUP 496 Performance. (0)
fall
For candidates of a BM degree in which a full recital is a requirement. Prerequisites: BM degree candidate; MUP 495.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

MUSIC (MUS)

For more MUS courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M MUS 100 Fundamentals of Music Notation. (3)
fall and spring
Provides nonmusic majors with sufficient symbol literacy to begin work in the field of musical learning. Credit not applicable toward any music degree.

M MUS 340 Survey of Music History. (3)
fall, spring, summer
Major composers, compositions, and periods in the history of music. Credit does not apply to major requirements for music degrees. Fee.
General Studies: HU, H

M MUS 347 Jazz in America. (3)
fall, spring, summer
Current practices employed by contemporary jazz musicians; the historical development of jazz techniques. Credit does not apply to major requirements for music degrees. Lecture, discussion. Cross-listed as AFH 347. Credit is allowed for only AFH 347 or MUS 347. Fee.
General Studies: HU, C

M MUS 354 Popular Music. (3)
fall, spring, summer
Emphasizes historical, cultural, and performance patterns in a variety of popular idioms such as, but not limited to, rock, folk, jazz, and Afro-American music. May be repeated for credit when topics vary. Credit does not apply to major requirements for music degrees. Fee.
General Studies: HU

M MUS 355 Survey of American Music. (3)
fall, spring, summer
Growth and development of American music. Credit does not apply to major requirements for music degrees. Fee.
General Studies: HU, C, H

M MUS 356 Survey of the Musical Theatre. (3)
once a year
Music's place in the theatre, viewed in terms of historical importance and relative function. Credit does not apply to major requirements for music degrees. Fee.
General Studies: HU

M MUS 410 History of Women in Music. (3)
fall
Surveys musical achievements of women as well as the historical contexts that shaped and defined their artistic development. Pre- or corequisite: ENG 102 or 105.
General Studies: HU, C, H

School of Theatre and Film

herbergercollege.asu.edu/theatre
480/965-5337
GHALL 232

Linda Essig, Chair

Professors: Barker, Bedard, Eckard, Edwards, Essig, Giner, Honegger, Knapp, Saldaña, Thomson, Valenti

Associate Professors: Acker, Anderson, Furr-Soloman, Reyes, Riske, Sterling, Underiner

Assistant Professors: Gharavi, McMahon, Ocampo-Guzman, Pinholster, Rivera-Servera, Woodson

Clinical Assistant Professors: Coffman, Thacker

For advising purposes, all students registering in a Theatre degree program enroll through the Katherine K. Herberger College of Fine Arts. Special advising check sheets, providing complete information regarding requirements and suggested electives, are available in the School of Theatre and Film office and on its Web site for the BA degree program.

PREMAJOR PROGRAM AND INTERVIEWS/ AUDITIONS FOR THE BA IN THEATRE

Effective fall 2006, all undergraduate students applying for and gaining admission to ASU as a potential Theatre major will be first admitted to the premajor program in Theatre. This classification will remain in effect until the student has passed an entry interview or audition to the BA Theatre program.

Entry interviews or auditions will be held three times per year: early April for entering freshman who have not yet begun their course work, late October for currently enrolled students and transfer students who will begin in the spring semester, and mid-February for students starting in spring

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

semester or who fail to meet entry criteria the first time. Once entry criteria have been met, the student's major code will be changed to Theatre and he or she will be able to register for majors-only courses.

Incoming freshman and transfer students who are unable to travel to the Tempe campus in April can be admitted into the premajor program and interview or audition in late October for formal admission as a Theatre major. Specific dates for interviews or auditions can be obtained from the Herberger College of Fine Arts and the School of Theatre and Film.

If a student fails to pass the entry criteria, he or she will remain in the premajor program for a maximum of one year with the following provisos: (1) continued advising through the Herberger College of Fine Arts; (2) placement in General Studies courses appropriate to the planned major, including THE 125 Orientation to Theatre to better prepare for subsequent admission interview or auditions. The student can seek formal entry (no more than two times), once in each of the following semesters (excluding winter and summer sessions). If a student fails to pass the entry criteria after three attempts, he or she will work with the School of Theatre and Film and Herberger College of Fine Arts advisors to choose another major suited to his or her interests.

Transfer students should seek formal entry through successful passage of the interview or audition process before the start of their first semester so that they can transfer in as Threatre majors. If they are unable to meet entry criteria, then the provisos listed in the above paragraph will apply. Transfer students who do not meet entry criteria on their first attempt will be required to take THE 125 Orientation to Theatre to better prepare them for a subsequent successful interview/audition process.

Criteria for Formal Admission to the BA in Theatre Program

In addition to the scheduled interview or audition with faculty, premajors in Theatre must submit the following application materials to be considered for admission as a Theatre major in the Herberger College of Fine Arts:

1. a three-page, double-spaced essay answering the question: "Why are the threatre and the performing arts important, and how will their study further your own goals?";
2. a short (no more than two-pages, double spaced) critical essay about a theatrical production or film the student has seen;
3. at least one and no more than three letters of reference from a teacher or someone with whom the student has had professional and/or artistic interaction. (Do not submit letters from relatives or close friends. These letters may be mailed directly to the Herberger College of Fine Arts [see the address below] or included with your application materials); and
4. one item of the students's choosing from among the following:
   a. an additional writing sample of any length on a theatre or film topic of the student's choice;
   b. two one-minute audition monologues (one contemporary, one not);
   c. a portfolio of at least ten images of theatrical design, visual arts, or production activity that may include scene or costume sketches, lighting storyboards, drafting, artwork, or audio material;
   d. an original ten-minute play;
   e. a two to three page essay answering the question, "How does threatre benefit children and adolescents?";
   f. an original screenplay of any length; or
   g. an original video (no more than ten minutes in length).

The admissions committee will be composed of a cross-disciplinary group of theatre faculty appointed on staggered terms. The committee provides students with written feedback on their materials submitted for admission.

All admissions materials should be mailed to:

STUDENT ACADEMIC SERVICES
HERBERGER COLLEGE OF FINE ARTS
ARIZONA STATE UNIVERSITY
PO BOX 872102
TEMPE AZ 85287-2102

Admissions materials should be received by January 15 for mid-February interviews or auditions; by March 1 for early April interviews or auditions; and by September 15 for October interviews or auditions. Students can call 480/965-4495 with any questions about the application process or to schedule an interview or audition.

Freshmen and sophomores who meet university and departmental standards must receive a grade of "C" (2.00) or higher in all major courses and a 2.50 cumulative GPA during their first semester to continue in the BA Theatre program. Students failing to meet these requirements have one semester of departmental probation to receive a "C" (2.00) or higher in major courses and raise their cumulative GPA to 2.50. Students failing to meet the above requirements by the end of the first year (two semesters) are asked to seek advising regarding other majors.

THEATRE—BA

The major in Theatre consists of 57 or 58 semester hours. The following 33 or 34 semester hours of core courses are required of all BA degree candidates:

THE	125	Orientation to Theatre	1
THE	220	Principles of Dramatic Analysis *L*	3
THE	320	History of the Theatre I *HU, H*	3
THE	321	History of the Theatre II *HU, H*	3
THE	440	Experimental Theatre and Performance	3
THP	102	Acting: Fundamentals	3
THP	218	The Director's Vision	3
THP	301	Theatre Production	1
THP	301	Theatre Production*	1
THP	313	Fundamentals of Design	3
THP	428	Theatre and the Future	3
Total			27

* One semester hour must involve running a production.

One of the following two courses (three or four semester hours) is required:

THP 213 Introduction to Technical Theatre 4
THP 214 Introduction to Costuming 3

Three semester hours of departmental approved course work in dramatic literature are also required. Check the department advising office for a list of eligible courses.

Twenty-four semester hours of THE and THP electives are selected by the student and advisor to complete the 57 or 58 semester hours required in the major. These 24 semester hours can constitute an optional focus area for the student, which involves enrolling in related course work from one of six subject areas in Theatre: (1) theatre and performance studies; (2) directing and performance; (3) design and production; (4) playwriting and dramaturgy; (5) theatre for youth; and (6) film. A list of recommended courses appropriate to each area is available from the department advising office. Undergraduate students interested in pursuing Arizona teacher certification or endorsement for Theatre are encouraged to pursue the focus area in theatre for youth, then obtain postbaccalaureate teacher certification through the ASU College of Education or another Arizona educational institution. General Studies courses make up 35 semester hours of the total courses required. Additional elective courses are selected with an advisor to meet the total 120 semester hours required for the degree.

Within the major, only courses with a grade of "C" (2.00) or higher may be applied toward graduation.

Students who transfer 55 semester hours or more are required to enter with and retain a 2.50 GPA in theatre courses and a 2.00 cumulative GPA.

Acting Concentration

The major in Theatre with a concentration in acting prepares students for both advanced graduate study in the field and independent career pursuits in performance. In addition to required core courses, the acting concentration consists of 23 or 24 semester hours. The following nine semester hours are required:

THP 272 Acting: Introduction to Movement 3
THP 277 Acting: Introduction to Voice 3
THP 285 Acting: Beginning Scene Study 3

One of the following two courses (two or three semester hours) is also required toward the end of the program of study:

THP 388 Acting: Audition Techniques 3
THP 489 Acting: Career Development 2

Twelve semester hours in acting elective course work completes the concentration.

Students are strongly encouraged to apply for admission to the concentration at the end of the freshman year to allow for three academic years of supervision. Transfer students should apply for the concentration at the end of their first semester at ASU. Admission requirements include an audition with a committee of acting faculty members (conducted at the end of each semester) plus the submission of a one-page letter of intent, a résumé, and an unofficial transcript (minimum 2.50 overall GPA and a 3.00 Theatre GPA required). Retention in the concentration is based on satisfactory artistic work and growth, production participation, evidence of a strong work ethic, and maintenance of a minimum 2.50 overall GPA and a 3.00 Theatre GPA.

Eligible students denied admission into the acting concentration can reapply the following year.

Scenography Concentration

The major in Theatre with a concentration in scenography prepares students for advanced graduate study in the field and entry-level careers in performance design and technology. In addition to core course requirements, the concentration in scenography consists of 24 or 25 semester hours. Twelve semester hours from among the following are required:

THP 317 Stage Management 3
THP 340 Scene Design 3
THP 345 Lighting Design 3
THP 350 Sound Design 3
THP 430 Costume Design 3
THP 442 Drawing 3
THP 494 ST: Technical Direction 3
THP 494 ST: Multimedia Design in Theatre 3

One of the following two courses (three or four semester hours), not taken as part of the core, is also required:

THP 213 Introduction to Technical Theatre 4
THP 214 Introduction to Costuming 3

Nine semester hours in theatre design or theatre technology elective course work, which may be accomplished through production courses, completes the concentration.

Application for admission into the concentration is suggested at the end of the freshman year to allow three years of academic supervision. Transfer students should apply for the concentration during their first semester at ASU. Admission requirements include an interview with design and production faculty (conducted at the end of each semester) and submission of a letter of intent, a portfolio, and an unofficial transcript (a minimum GPA of 2.50 is required). A résumé is optional. Design and production faculty will meet monthly with students as a group to monitor personal progress, to assess portfolio development, and to develop a community. Retention in the program is based on satisfactory artistic growth (as evidenced in a mandatory portfolio reflecting work completed during each semester), production participation, and maintenance of a 2.50 GPA. For more information, see the *BA in Scenography Concentration Handbook*.

Eligible students denied admission into the scenography concentration can appeal in writing to the director of the undergraduate scenography program.

FILM—BA

Admission to the BA in Film (Film and Media Production)

The BA in Film is a joint effort of the Katherine K. Herberger College of Fine Arts (HCFA) and the College of Liberal Arts and Sciences (CLAS). Students take a core group

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

of six courses spread across both colleges before seeking admission to the concentration in film and media production offered by the School of Theatre and Film or the concentration in film and media studies offered by CLAS. Students in the premajor program, exploratory students, or others can apply for admission to the BA in Film with a concentration in film and media production in the semester in which they are completing the 18-semester hour core of BA in Film courses. Applicants to the film and media production concentration must have a minimum GPA of 3.00 in the core classes.

These courses must be completed with a minimum 3.00 GPA by the end of the semester in which application is made to the BA in Film with a concentration in film and media production.

FMS	100	Introduction to Film (CLAS)	3
FMS	200	Film History (CLAS)	3
FMS	270	Race and Ethnicity in American Film (CLAS)	3
THE	201	Film: The Creative Process I: Production Survey (HCFA) (formerly THE 300)	3
THE	400	FOF: Introduction to Ethics in Entertainment* (HCFA)	3
THP	261	Introduction to Screenwriting (HCFA)	3

* Course renumbering is in process; see an academic advisor to confirm course eligibility.

Students interested in the film and media production concentration must submit the following application materials by the first week of March to be considered for acceptance:

1. interview with faculty—the interview date for students is the first week of April;
2. a three-page, double-spaced essay answering the question "Why do you want to study film and media production, and how will this study further your own goals?";
3. a short (no more than two-page, double-spaced) critical essay about a film the applicant has seen;
4. at least one and no more than three letters of reference from teachers or others with whom the applicant has had a professional and/or artistic interaction;
5. one of the following:
   a. an original screenplay of any length
   b. an original video (no more than 10 minutes in length) on DVD or VHS.

Transfer students who are eligible to apply to the film program who are unable to travel to the Tempe campus in April can be admitted into the premajor program and interview in October for formal admission to the major.

All supplemental materials should be sent to:

STUDENT ACADEMIC SERVICES
HERBERGER COLLEGE OF FINE ARTS
ARIZONA STATE UNIVERSITY
PO BOX 872102
TEMPE AZ 85287-2102

Materials should be received by March 1, 2006. Call 480/965-4495 with any questions about the application process or interviews.

The admissions committee is made up of a cross-disciplinary group of theatre/film faculty appointed on staggered terms. The committee provides students with written feedback on the material submitted for admission.

Film and Media Production Concentration

The BA in Film with a concentration in film and media production consists of 57 semester hours. The following are required of all students:

FMS	100	Introduction to Film	3
FMS	200	Film History	3
FMS	270	Race and Ethnicity in American Film	3
THE	201	Film: The Creative Process I: Production Survey	3
THE	220	Principles of Dramatic Analysis	3
THE	400	Introduction to Ethics in Entertainment*	3
THE	403	Independent Film	3
THP	261	Introduction to Screenwriting	3
THP	387	Acting: TV and Film	3
THP	428	Theatre and the Future (capstone)	6
THP	494	ST: Business Ethics in Entertainment Media	3
Selected FMP courses*			9

* Course renumbering is in process; see an academic advisor to confirm course eligibility.

Total of required courses: 45 semester hours; an additional 12 hours of approved courses in production are also required.

A minimum GPA of 3.00 must be maintained in all required courses for continuation in the concentration.

GRADUATION REQUIREMENTS

In addition to fulfilling the major requirements, students must meet all university graduation requirements. See "University Graduation Requirements," page 89.

MINOR

The department offers a minor in Theatre consisting of 22 semester hours of course work. The following courses are required:

THE	100	Introduction to Theatre *HU*	3
THE	300	Film: The Creative Process I *HU*	3
THE	320	History of the Theatre I *HU, H*	3
THP	101	Acting: An Introduction	3
THP	301	Theatre Production	1
Concentration area*			9
Total			22

* Also required are three three-hour courses within the same curricular area. Contact the department for options and course requirements.

Courses ordinarily limited to majors only are available to minors on a second-priority basis; that is, minors may not preregister for these courses, but are allowed to register after all majors' needs have been met. All prerequisites for the minor courses must be met (see course listings). Transfer students may transfer up to nine semester hours toward their minor. A "C" (2.00) or higher is required for all courses in the minor.

BIS CONCENTRATION

A concentration in theatre is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

GRADUATE PROGRAMS

The faculty in the School of Theatre and Film offer programs leading to the MA degree in Theatre; the Master of Fine Arts degree in Theatre with concentrations in directing, integrated digital media, performance, performance design, and theatre for youth; the PhD degree in Theatre with concentrations in theatre and performance of the Americas and theatre for youth; and, in conjunction with the Department of English, an interdisciplinary Master of Fine Arts degree in Creative Writing (playwriting). See the *Graduate Catalog* for details.

THEATRE (THE)

For more THE courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M THE 100 Introduction to Theatre. (3)
fall, spring, summer
Surveys theatre production from the Greeks to contemporary theatre. Taught in conjunction with distance learning. Lecture, discussion, guest artists. Fee. Prerequisite: nonmajor.
General Studies: HU

M THE 125 Orientation to Theatre. (1)
fall
Orientation to university and department resources and procedures. Career planning and guidance. Attendance and written responses to theatre productions. Required for BA Theatre majors. Prerequisite: Theatre premajor or major.

M THE 201 Film: The Creative Process I. (3)
fall, spring, summer
History, elements, and techniques of theatrical film: cinematography, directing, acting, scriptwriting, producing, and criticism. Lecture, demonstration via film, video, and DVD. Fee.
General Studies: HU

M THE 220 Principles of Dramatic Analysis. (3)
fall and spring
Analysis, evaluation, and interpretation of dramatic literature for theatrical production. Emphasizes the traditional canon of dramatic literature and traditional structures and forms of drama. Prerequisites: ENG 101 (or 105 or 107); Theatre major. Prerequisite with a grade of "B" (3.00) or higher: THE 125.
General Studies: L

M THE 301 Film: The Creative Process II. (3)
fall and spring
Advanced study of contemporary cinema history and film techniques; analyzes social changes in film, multicultural filmmaking, and the star system. Lecture, demonstration via film, video, and DVD. Prerequisite: THE 201.
General Studies: HU

M THE 320 History of the Theatre I. (3)
fall and spring
Traces major developments in theatre production and dramatic literature from their beginnings to the mid-17th century. Lecture, student presentations. Prerequisite: Theatre major or minor.
General Studies: HU, H

M THE 321 History of the Theatre II. (3)
spring
Traces major developments in theatre production and dramatic literature from the mid-17th century to the 20th century. Lecture, student presentations. Prerequisite: Theatre major or minor.
General Studies: HU, H

M THE 322 Theatre History and Culture. (3)
fall, spring, summer
Critically examines major developments in theatre history, historiography, and dramatic literature. Internet. Prerequisite: nonmajor.
General Studies: HU, H

M THE 325 Play Reading for Educational Theatre. (1)
fall and spring
Assigned independent readings in plays for secondary school play production. Prerequisite: written instructor approval.

M THE 400 Focus on Film. (3)
fall and spring
Specialized study of prominent film artists, techniques, and genres. Emphasizes the creative process. May be repeated for credit. Topics may include the following:
- Film Production Part I
  Fee.
- Film Production Part II
  Fee.

Prerequisite: ENG 102 or 105 or 108.

M THE 403 Independent Film. (3)
once a year
Examines the independent film movement from the French New Wave to contemporary independent filmmakers. Lecture, demonstration via film, video, and DVD.
General Studies: HU

M THE 404 Foreign Films and Filmmakers. (3)
fall and spring
Films and filmmakers from Europe, Asia, Australia, the Far East, South America, and the Caribbean. Emphasizes cultural content and filmmaking philosophies.
General Studies: G

M THE 405 Film: Great Performers and Directors. (3)
fall, spring, summer
Examines processes and influences of one or more great film performers and/or directors. May be repeated for credit when topics vary. Topics may include the following:
- Alfred Hitchcock
  Fee.
- Hollywood Rebels
  Fee.

General Studies: HU

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M THE 406 American Multicultural Film. (3)
fall and spring
Examines Native, African, Asian, and Latina and Latino American films and film artists in cinema history and production. Internet course. Fee. Prerequisite: ENG 102 or 105 or 108.
General Studies: HU, C

M THE 422 Latina and Latino Theatre. (3)
selected semesters
Readings, discussion, video of dramatic literature and production styles of Latina and Latino playwrights and theatre companies in the United States. Prerequisite: ENG 102 or 105 or 108.

M THE 423 African American Theatre. (3)
selected semesters
Readings, discussion, video of the history and dramatic literature of African American playwrights and theatre companies in the United States. Prerequisite: ENG 102 or 105 or 108.
General Studies: C

M THE 424 Trends in Theatre for Youth. (3)
selected semesters
Surveys the history, literature, and contemporary practices in theatre for youth.

M THE 426 Theatre of the Americas. (3)
fall and spring
Selected studies in pre-Columbian theatre forms and texts of the Aztecs, Mayans, Caribbean islands, and North American Indians. Internet course. Prerequisite: ENG 102 or 105 or 108.

M THE 430 History of Costume: Western Tradition. (3)
selected semesters
Studies major costume styles throughout history of Western civilization and how these fashions reflected society. Explores how styles can be used by theatrical costumers.

M THE 440 Experimental Theatre and Performance. (3)
fall and spring
Explores 20th-century modernist theatrical forms and movements and development of alternative strategies for analyzing contemporary theatre and performance. Prerequisites: THE 220, 320, 321; Theatre major.

M THE 480 Methods of Teaching Theatre. (3)
spring
Applies materials, techniques, and theories for theatre with 9th- through 12th-grade students. Emphasizes curriculum development and praxis. Prerequisite: Theatre Education or Theatre for Youth majors or instructor approval.

M THE 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Ethics in Entertainment
- Performance Technology I
  Fee.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

THEATRE PERFORMANCE AND PRODUCTION (THP)

For more THP courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M THP 101 Acting: An Introduction. (3)
fall, spring, summer
Introduces basic principles of acting. Topics include terminology, scene and character analysis, exercises and improvisation, audition preparation. Studio. Prerequisite: nonmajor.

M THP 102 Acting I: Fundamentals. (3)
fall and spring
Explores and applies basic principles of acting. Topics include terminology, scene and character analysis, exercises and improvisation, audition preparation. Studio. Prerequisite: Theatre major.

M THP 201 Theatre Production Crew. (1)
fall and spring
Participation in university mainstage theatre production backstage and board operations. May be repeated for credit. Lab. Prerequisites: application; written instructor approval.

M THP 213 Introduction to Technical Theatre. (4)
fall and spring
Procedures of technical theatre production and demonstration. Topics include design and construction of scenery, lighting, and properties. 3 hours lecture, 3 hours lab. Fee. Prerequisite: Theatre major.

M THP 214 Introduction to Costuming. (4)
fall and spring
Basic principles of costume design, construction, and survey of selected historical periods, including makeup styles. Costume design project and production experience. 3 hours lecture, 2 hours lab. Fee. Prerequisite: Theatre major.

M THP 218 The Director's Vision. (3)
fall and spring
History, theory, and principles of directing. Examines director's role and responsibilities, play selection, conceptualizing, ground plans, blocking. Fee. Prerequisites: THE 220; THP 102.

M THP 260 Introduction to Playwriting. (3)
selected semesters
Basic skills of playwriting, including exercises in monologues, scenes, and conflict and resolution, leading to completion of a one-act play. Prerequisite: ENG 101 or 105 or 107.

M THP 261 Introduction to Screenwriting. (3)
once a year
Basic skills of screenwriting, including exercises in conflict and resolution, plot points, and theories of three-act structure and design. Prerequisite: ENG 101 or 105 or 107.

M THP 272 Acting: Introduction to Movement. (3)
fall and spring
Movement vocabulary and physical training in relaxation, alignment, conditioning, and stage presence. Application to performance. Studio. Prerequisite with a grade of "B" (3.00) or higher: THP 101 or 102 or written instructor approval.

M THP 277 Acting: Introduction to Voice. (3)
fall and spring
Exercises and techniques to free the voice and improve quality and projection. Application to performance. Studio. Prerequisite with a grade of "B" (3.00) or higher: THP 101 or 102 or written instructor approval.

M THP 285 Acting II: Beginning Scene Study. (3)
fall and spring
Rehearsal techniques and application of action to dramatic text. Emphasizes realistic drama. Studio. Prerequisite with a grade of "B" (3.00) or higher: THP 101 or 102 or written instructor approval. Pre- or corequisite: THE 220.

M THP 301 Theatre Production. (1–2)
fall and spring
Participation in university mainstage theatre productions (e.g., acting, construction, stage management). May be repeated for credit. Lab. Prerequisites: THP 213 (or 214 or written instructor approval); application.

M THP 307 Acting: Research and Performance. (1–3)
once a year
Acting in theatre projects, productions, or collaborative performances in directing classes. May be repeated for credit. Studio. Prerequisite: written instructor approval.

M THP 311 Improvisation with Youth. (3)
fall, spring, summer
Basic materials, techniques, and theories for facilitating improvisational drama with children and youth. Not open to freshmen.

M THP 312 Puppetry and Children. (3)
fall, spring, summer
Construction and manipulation of puppets; practice in performance skills. Emphasizes educational and recreational uses of puppetry by and with children. Fee. Prerequisite: junior standing or above.

M THP 313 Fundamentals of Design. (3)
fall and spring
Art and practice of scenic, costume, and lighting design for the theatre and the media. Prerequisite: THP 213 or 214.

M THP 317 Stage Management. (3)
selected semesters
Readings in stage management and participation as a stage manager in a university theatre production. Prerequisite: written instructor approval.

M THP 318 Directing for the Stage. (3)
fall and spring
Director's approach to text analysis and articulation of ideas. Basic tools, rehearsal schedules, staging, rehearsal and audition techniques, scene work. Prerequisites: THP 213, 218; instructor approval.

M THP 320 Acting: Solo and Collaborative Performance. (3)
once a year
Creation and development of original performance art works combining text, movement, multimedia, visual art; the actor as writer, designer, performer. Studio. Prerequisite: written instructor approval.

M THP 322 Acting: Voice-Overs and Radio Drama. (3)
selected semesters
Applies effective vocal techniques to commercials, books on tape, radio dramas. Preparation of audition tape, performance in radio drama. Studio. Prerequisite: written instructor approval.

M THP 331 Costume Construction. (3)
selected semesters
Uses of materials and techniques for stage costumes with actual construction of period apparel. Prerequisite: THP 214 or instructor approval.

M THP 340 Scene Design. (3)
once a year
Studio projects in designing scenery for contemporary stages. Fee. Prerequisite: THP 213 or written instructor approval. Prerequisite with a grade of "C" (2.00) or higher: THE 220.

M THP 345 Lighting Design. (3)
once a year
Principles and theory of stage lighting design, including design process and execution, equipment, and light plots. Lecture, lab. Fee. Prerequisite: THP 213 or written instructor approval. Prerequisite with a grade of "C" (2.00) or higher: THE 220.

M THP 350 Sound Design. (3)
once a year
Introduces the equipment, process, and recording techniques used in sound design for the theatre. Lecture, studio. Fee. Prerequisite with a grade of "C" (2.00) or higher: THE 220.

M THP 360 Intermediate Playwriting. (3)
once a year
Continued development of skills in playwriting through specific exercises and completion of a full-length play. Prerequisite: ENG 210 Introduction to Creative Writing (drama) or THP 260.

M THP 372 Acting: Advanced Movement. (3)
once a year
Movement techniques for the classical and nonrealistic theatre. Studio. Prerequisite: THP 272 or written instructor approval.

M THP 377 Acting: Voice and Speech. (3)
once a year
Introduces phonetic alphabet, exercises, and techniques for voice and speech improvement. Application to performance. Studio. Prerequisite: THP 277.

M THP 378 Acting: Stage Dialects. (3)
once a year
Major dialects needed for actors; techniques for researching and learning dialects; phonetic analysis of dialects. Studio. Prerequisite: THP 377 or written instructor approval.

M THP 385 Acting: Classical Scene Study. (3)
once a year
Rehearsal and performance of Shakespeare and other classical playwrights. Emphasizes understanding poetic language, vocal and physical skills. Studio. Prerequisites: THP 377; written instructor approval.

M THP 386 Acting: The Meisner Approach. (3)
fall and spring
Improvisations and exercises developed by Sanford Meisner applied to scene work. Studio. Prerequisite with a grade of "B" (3.00) or higher: THP 101 or 102 or written instructor approval.

M THP 387 Acting: TV and Film. (3)
fall and spring
Professional television and film acting techniques, terminology, and on-camera experience. Studio. Fee. Prerequisite with a grade of "B" (3.00) or higher: THP 101 or 102 or written instructor approval.

M THP 388 Acting: Audition Techniques. (3)
once a year
Techniques and preparation for stage, commercial, and TV/film auditions utilizing monologues, cold readings, and personal style. Studio. Prerequisite with a grade of "B" (3.00) or higher: THP 101 or 102 or written instructor approval.

M THP 394 Special Topics. (1–4)
fall and spring

M THP 401 Theatre Practicum. (1–2)
fall and spring
Production assignments for advanced students of technical production, stage and business management, and design. May be repeated for credit. Prerequisites: THP 301; written instructor approval.

M THP 406 Advanced Scenography. (3)
selected semesters
Process of production collaboration among scenographers, directors, and playwrights. Taught in conjunction with THP 519. Prerequisites: a combination of THP 214 and 340 and 345 or both THP 313 and 340.

M THP 411 Methods of Teaching Drama. (3)
fall
Applies materials, techniques, and theories with grades K–8 youth. Regular participation with children. Prerequisite: THP 311 or written instructor approval.

M THP 418 Directing the Actor. (3)
once a year
Practical applications of directing for the stage. Rehearsal and presentation of scenes and short plays. Prerequisites: THP 318; instructor approval.

M THP 428 Theatre and the Future. (3)
fall and spring
Capstone course exploring visions of the future of theatre. Results in a project in creative or scholarly form. Prerequisites: THE 440; senior standing; Theatre major.

M THP 430 Costume Design. (3)
selected semesters
Principles of costume design with projects in both modern and period styles. Includes budgets and fabric/pattern estimates. Lecture, studio. Prerequisite: THP 214.

M THP 431 Advanced Costume Construction. (3)
selected semesters
Specialized training in costume construction problems and crafts with projects in tailoring, millinery, and period accessories. Prerequisites: both THP 214 and 331 or only instructor approval.

M THP 435 Advanced Technical Theatre. (3)
selected semesters
Selection of materials, drafting of working drawings, tool operation, and construction techniques. 2 hours lecture, 2 hours lab. Prerequisites: both THP 340 and 345 or only written instructor approval.

M THP 440 Advanced Scene Design. (3)
selected semesters
Advanced studio projects in designing scenery for a variety of stage forms. Fee. Prerequisite: THP 340 or written instructor approval.

M THP 441 Scene Painting. (3)
selected semesters
Studio projects in painting stage scenery. Fee. Prerequisite: THP 340 or written instructor approval.

M THP 442 Drawing. (3)
selected semesters
Techniques in drawing and rendering for scenic, costume, and lighting design. Prerequisite: written instructor approval.

M THP 444 Drafting for the Stage. (3)
selected semesters
Fundamentals of and practice in graphic techniques for the stage. Introduces computer-aided design for the stage. 2 hours lecture, 3 hours studio. Fee. Prerequisites: THP 213; written instructor approval.

The Katherine K. Herberger College of Fine Arts Department of Dance is one of the nation's leading contemporary dance and dance education programs.

Tim Trumble photo

M THP 460 Advanced Playwriting. (3)
selected semesters
Practice and study of creating characters, dialogue, scenes, plays, and monologues for the stage, culminating in a full-length script. May be repeated for credit. Studio, lecture. Prerequisite: instructor approval.

M THP 461 Scripts in Progress. (3)
fall and spring
Studio work with the instructor, centered on revisions of original plays. May be repeated for credit. Studio. Prerequisite: THP 460 or written instructor approval.

M THP 445 Advanced Lighting Design. (3)
selected semesters
Specialized techniques in stage lighting. Advanced application of design process, graphic techniques of design presentation, and use of qualities of light. Lecture, class workshops. Fee. Prerequisite: THP 345 or written instructor approval.

M THP 450 Theatre Organization and Management. (3)
once a year
Overview of nonprofit arts: organizational design, strategic planning, financial management, and leadership. Prerequisite: written instructor approval.

M THP 481 Secondary School Play Production. (3)
fall
Methods of directing, designing, and coordinating play production experiences at the secondary school level. Off-campus practicum. Prerequisite: THP 318 or instructor approval.

M THP 482 Theatre for Social Change. (3)
fall and spring
Interactive theatre techniques (e.g., Boal, drama therapy, playback theatre) to examine and combat institutional, social, cultural, interpersonal, and personal oppressions. Lecture, lab.
General Studies: C

M THP 483 Acting: Viewpoints and Composition. (3)
spring
Training in Anne Bogart's viewpoints and composition techniques; application to rehearsal and performance, and creating new work. Studio. Prerequisite: THP 285 or written instructor approval.

M THP 484 Internship. (1–4)
selected semesters

M THP 489 Acting: Career Development. (2)
selected semesters
Familiarization with the business of acting: self-promotional tools and techniques, marketing strategies, finances, interview skills, and actor unions. Studio. Prerequisites with a grade of "B" (3.00) or higher: both THP 101 (or 102) and junior (or senior) standing or only written instructor approval.

M THP 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Advanced Screenwriting
- Business Ethics in Entertainment Media
- Multimedia Design in Theatre
- Performance and Technology
- Problems in Directing
- Storytelling
- Student Production Board
- Technical Direction
- Theory and Practice of Performance

M THP 498 Pro-Seminar. (1–7)
once a year
Topics may include the following:
- Directing. (1–6)
- Theatre-for-Youth Tour. (1–6)
- Theatre in Education. (1–6)

Prerequisite: written instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Walter Cronkite School of Journalism and Mass Communication

cronkite.asu.edu

Christopher Callahan, MPA, Dean

PURPOSE AND PHILOSOPHY

The faculty of the Walter Cronkite School of Journalism and Mass Communication offer a strong professional program that values applied scholarship. Faculty members combine excellent professional experiences with outstanding records as productive scholars.

The primary mission of the school is to

1. prepare students for careers in journalism and related fields;
2. examine mass communication through research and teaching, thereby preparing informed life-long consumers of the mass media; and
3. develop new approaches to practicing journalism in a university setting, providing ample opportunities for students and faculty to serve audiences beyond the classroom.

To that end, the school offers classroom instruction in a blend of conceptual courses (such as media law, media ethics, media history and media management) and professional skills courses (such as print and broadcast writing, editing, reporting, and production techniques). The school also offers on-campus media work experiences, including the campus newspaper *The State Press*; The Blaze radio station; "Newswatch," a weekly student-produced cable television news magazine; "ASU Web Devil"; and "Channel 2," the student-run campus cable station. Off-campus work experience opportunities include internships at newspapers, magazines, and television and radio stations. Other off-campus options include: public relations, visual journalism, sales and promotions, and media analysis and criticism.

ADMISSION

Preprofessional Admission

Students admitted to ASU must meet additional requirements to be admitted to the Walter Cronkite School of Journalism and Mass Communication with preprofessional status. Preprofessional admission to the school does not guarantee admission to the upper-division professional program. Preprofessional students must possess a minimum 2.50 GPA with at least 12 semester hours earned before they are permitted to enroll in school courses at the 200 level. All preprofessional students who intend to take courses beyond the 100 level must pass an English proficiency examination administered by the school.

Professional Program Admission

Admission to the Walter Cronkite School of Journalism and Mass Communication professional program, which enrolls students in their junior and senior years, is competitive and based on available resources. Once a student is granted admission, the upper-division professional program may require two years to complete.

A separate application procedure is required for entry to the upper-division professional program. To be eligible to apply for admission to the professional program, students must

1. be admitted to ASU as a classified student;
2. have completed at least 56 semester hours by the close of the semester in which the application is submitted;
3. have completed lower-division courses or their equivalents, as specified below;
4. have completed, with a passing score, the English proficiency examination administered by the school; and
5. have at least a 2.50 cumulative and major GPA.

Preprofessional status students must complete the following courses:

JMC	201	Journalism Newswriting *L*	3
MCO	110	Introduction to Mass Communication *SB*	3
		or MCO 120 Media and Society *SB* (3)	
Total			6

To be considered for admission to the school's upper-division professional program, students must obtain an application form from the school office in STAUF A231, or online at cronkite.asu.edu. Precise application procedures and submission deadlines are outlined on the form. *Completion of the minimum requirements for eligibility does not*

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

guarantee admission to the upper-division professional program. The admissions committee considers a variety of criteria, including major and cumulative GPA, media experience, writing ability, and commitment to the field. Students may apply twice.

ADVISING

Students should follow the sequence of courses outlined on school curriculum check sheets, their online degree audit, and the advice of the school's academic advisors. Students who enroll as preprofessional or who seek and ultimately gain professional status should meet regularly with their Walter Cronkite School of Journalism and Mass Communication academic advisor. Conscientious, careful planning and early advising are crucial to students who desire to progress through the program in a timely fashion.

DEGREES

The school offers a program leading to the Bachelor of Arts degree in Journalism and Mass Communication. Students select one of five concentrations: journalism, media analysis and criticism, media management, media production, or strategic media and public relations.

The school offers a program leading to the graduate degree Master of Mass Communication.

The Stauffer Communication Arts Building Tim Trumble photo

TRANSFER STUDENTS

Transfer students must be formally admitted to ASU to be considered for admission to the professional program in the Walter Cronkite School of Journalism and Mass Communication.

Students completing their first two years of course work at a community college or four-year institution other than ASU should consult the school's academic advisors at least one full semester before they hope to be considered for admission to the school's professional program. Transfer student admission to ASU does not guarantee admission to the upper-division professional program.

PROGRAM REQUIREMENTS

Because the Walter Cronkite School of Journalism and Mass Communication is accredited by the Accrediting Council on Education in Journalism and Mass Communication, its students are required to take a minimum of 80 semester hours in courses outside the major of Journalism and Mass Communication, with no fewer than 65 semester hours in liberal arts and sciences. This requirement ensures that students receive a broad academic background.

At least 18 semester hours of major courses required by the school, including one writing course, must be taken at ASU. A student must receive a grade of "C" (2.00) or higher in all courses taken in the major and in the required related area.

BA REQUIREMENTS

All students are required to demonstrate proficiency in a language other than English (a spoken language or American Sign Language). Proficiency is defined as completing the second semester intermediate level, or higher, of a language other than English with a grade of "C" (2.00) or higher.

The undergraduate major in Journalism and Mass Communication consists of a minimum of 30 semester hours in Walter Cronkite School of Journalism and Mass Communication courses.

Required core courses (12 of the 30 to 39 hours are required of all students in all five concentrations):

JMC	201	Journalism Newswriting *L* 3
MCO	110	Introduction to Mass Communication *SB* 3
		or MCO 120 Media and Society *SB* (3)
MCO	302	Media Research Methods 3
MCO	402	Mass Communication Law *L* 3
Total		 12

Students complete the required core courses of the major (12 semester hours), plus the required courses of one concentration area (15 semester hours), and elective courses (from three to 12 hours) from other areas in the major.

These courses are in addition to other degree requirements. See "University Graduation Requirements," page 89.

Related Area. Each student is required to complete a 12-semester-hour related area to complement the courses taken in the major and concentration areas.

GENERAL STUDIES REQUIREMENTS

Students must satisfy the university General Studies requirement found in "General Studies," page 93. Students are advised to review carefully the appropriate school curriculum check sheet to ensure that courses taken move the student toward graduation with the least amount of delay and difficulty. Note that all three General Studies awareness areas are required.

General education requirements for the Walter Cronkite School of Journalism and Mass Communication follow.

Students are required to take one course in each of the following areas: communication (applied speech), computer science, economics, English composition (beyond the freshman level), English literature, history, mathematics (numeracy requirement), two natural science lab courses, philosophy, political science (either POS 110 or 310), and psychology.

MINOR IN MASS COMMUNICATION

The Walter Cronkite School of Journalism and Mass Communication offers a minor in Mass Communication consisting of the required course MCO 120 Media and Society and 12 additional semester hours (nine of which must be upper-division hours) of Tempe campus resident credit taken from a list of approved courses. The following courses are included:

JMC 200 Introduction to Electronic Media 3
JMC 270 Public Relations Techniques 3
MCO 240 Media Issues in American Pop Culture 3
MCO 418 History of Mass Communication *SB, H* 3
MCO 430 International Mass Communication *G* 3
MCO 435 Emerging Media Technologies 3
MCO 450 Visual Communication *HU* 3
MCO 456 Political Communication *SB* 3
MCO 460 Race, Gender, and Media *C* 3
MCO 473 Sex, Love, and Romance in the Mass Media *SB* 3
MCO 494 Special Topics 3

To take upper-division courses, the student must be at least a sophomore (25 semester hours). To pursue the minor in Mass Communication, the student must maintain a minimum 2.00 overall GPA, obtain a minimum grade of "C" (2.00) in each course in the minor, and have a major other than Journalism and Mass Communication.

BIS CONCENTRATION

A concentration in mass communication is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

SCHOOL OF EXTENDED EDUCATION

The university-wide School of Extended Education provides an interactive link between ASU and the diverse communities it serves. The college assesses lifelong learning requirements and works in partnership with campuses, other colleges, and the community to serve learners, using a network of locations, programs, schedules, and technologies.

For more information, see "School of Interdisciplinary Studies," page 139, or access the Web site at www.asu.edu/xed.

GRADUATE PROGRAM

Master of Mass Communication. The curriculum for the MMC degree is designed to help students achieve intellectual and professional growth, to prepare students for positions in the mass media, and to enable those currently in the media to advance their careers. For more information, see the *Graduate Catalog*.

Christopher Callahan, Dean

Professors: Callahan, Craft, Cronkite, Doig, Godfrey, Merrill, Sylvester, Watson

Associate Professors: Allen, Barrett, Bramlett-Solomon, Galician, Matera, Russell, Russomanno

Assistant Professors: Gavrilos, Schwalbe, Silcock, Thornton, Wu

Clinical Professors: Itule, Leigh

Lecturer: Casavantes

Senior Administrative Professional: Leigh

JOURNALISM AND MASS COMMUNICATION (JMC)

M JMC 200 Introduction to Electronic Media. (3)
fall, spring, summer
Surveys electronic media in the United States: history, regulation, organization, programming, and effects. Prerequisites: MCO 110 (or 120); successful completion of English proficiency exam; JMC major.

M JMC 201 Journalism Newswriting. (3)
fall, spring, summer
Writing news for the print media. Fee. Prerequisites: ENG 101 (or 105); MCO 110 (or 120); successful completion of English proficiency exam; JMC major.
General Studies: L

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M JMC 202 Radio-Television Writing. (3)
fall and spring
Writing for electronic media, news, and continuity. Fee. Prerequisites: MCO 110 (or 120); successful completion of English proficiency exam; JMC major.
General Studies: L

M JMC 235 Electronic Media Production. (3)
fall and spring
Introduces basic concepts of audio and video production. Introduces operation of portable cameras, recorders, microphones, lights, editing, and postproduction equipment. Prerequisites: MCO 110 (or 120); successful completion of English proficiency exam; JMC major.

M JMC 270 Public Relations Techniques. (3)
fall, spring, summer
Theory and practice of publicity, public relations, and related techniques and procedures. Prerequisite: MCO 110 or 120.

M JMC 300 Advanced Broadcast Newswriting. (3)
fall and spring
Technique and practice in newswriting for broadcast and cable applications. Fee. Prerequisites: JMC 201; JMC professional status.

M JMC 301 Reporting. (3)
fall and spring
Fundamentals of news gathering, interviewing, and in-depth reporting. Fee. Prerequisites: JMC 201; JMC professional status.
General Studies: L

M JMC 313 Introduction to Editing. (3)
fall and spring
Copyediting and headline writing. Electronic editing on personal computer terminals. Fee. Prerequisites: JMC 301; JMC professional status.

M JMC 315 Broadcast News Reporting. (3)
fall and spring
News and information practices of networks, stations, and industry. Practice in writing, reporting, and editing with emphasis on audio. Prerequisites: JMC 301; JMC professional status.
General Studies: L

M JMC 330 Advanced Broadcast Reporting. (3)
fall and spring
News and information practices of networks, stations, and industry. Advanced practice in writing, reporting, and editing with emphasis on video. Prerequisites: JMC 300, 301; JMC professional status.

M JMC 332 Electronic Media Programming. (3)
fall and spring
Programming theory and evaluation, regulation, ethics, and responsibilities and basics of audience psychographics and effects. Prerequisites: JMC 200; JMC professional status.

M JMC 345 Videography. (3)
fall and spring
Develops an understanding of visual storytelling and how to craft a good, compelling story with pictures and sound. Lecture, lab. Fee. Prerequisites: JMC 235; JMC professional status.

M JMC 351 Photojournalism I. (3)
fall and spring
Basic camera, lighting, and scanning skills. Discusses ethics. Emphasizes shooting pictures for newspaper assignments on deadline. Students should have a 35mm (film) camera. Fee. Prerequisite: JMC 201 or instructor approval.

M JMC 401 Advanced Public Relations. (3)
fall and spring
Advanced theory and practice of publicity, public relations, and related techniques and procedures. Prerequisites for undergraduates: JMC 270; JMC professional status.

M JMC 412 Editorial Interpretation. (3)
selected semesters
The press as an influence on public opinion. Role of the editorial in analyzing and interpreting current events. Prerequisites for undergraduates: JMC 301; JMC professional status.

M JMC 413 Advanced Editing. (3)
fall and spring
Theory and practice of newspaper editing, layout and design, picture and story selection. Fee. Prerequisites for undergraduates: JMC 313; JMC professional status.

M JMC 414 Electronic Publication Design. (3)
fall and spring
Theory, organization, and practice of layout, typography, and design in traditional and multimedia publishing. Fee. Prerequisites for undergraduates: JMC 270; JMC professional status.

M JMC 415 Writing for Public Relations. (3)
fall and spring
Development of specific writing techniques for the practitioner in public relations agencies and divisions of major organizations. Fee. Prerequisites for undergraduates: JMC 270; JMC professional status.

M JMC 417 Public Relations Campaigns. (3)
fall and spring
Theory, principles, and literature of public relations and how they relate to audiences, campaigns, and ethics. Prerequisite: JMC 401. Prerequisite for undergraduates: JMC professional status.

M JMC 420 Reporting Public Affairs. (3)
fall and spring
Instruction and assignments in reporting the courts, schools, government, city hall, social problems, and other areas involving public issues. Prerequisites for undergraduates: JMC 301; JMC professional status.

M JMC 425 Online Media. (3)
fall and spring
Focuses on the Internet from the perspective of the journalist—the best way to tell a story using words, photos, video, and audio. Lecture, lab. Fee. Prerequisites: JMC 201 (or its equivalent); JMC professional status.

M JMC 433 Media Sales and Promotion. (3)
fall and spring
Basics of electronic media marketing practices, including commercial time sales techniques and radio/TV promotion fundamentals. Prerequisites for undergraduates: JMC 200; JMC professional status.

M JMC 437 Documentary Production. (3)
fall
Emphasizes individual production projects of the student's own conception and design utilizing studio, field, and postproduction techniques. Prerequisites for undergraduates: JMC 235; JMC professional status.

M JMC 440 Magazine Writing. (3)
fall and spring
Writing and marketing magazine articles for publication. Prerequisites for undergraduates: JMC 301; JMC professional status.

M JMC 445 Science Writing. (3)
once a year
Develops writing, interviewing, reporting skills, and an understanding of key concepts in science. Lecture, lab. Fee. Prerequisites: student in BA in Journalism and Mass Communication or MMC in Mass Communication; instructor approval.

M JMC 451 Photojournalism II. (3)
spring
Emphasizes shooting and Photoshop skills for newspaper and magazine assignments. Film and digital photography, flash and studio lighting. Fee. Prerequisite: JMC 351. Prerequisite for undergraduates: JMC professional status.

M JMC 452 Photojournalism III. (3)
fall
Continued practice in shooting (film and digital) and Photoshop skills for newspapers and magazines. Emphasizes single images, picture stories, editorial illustrations, and portfolio development. 2 hours lecture, 2 hours lab. Fee. Prerequisite: JMC 451. Prerequisite for undergraduates: JMC professional status.

M JMC 465 Precision Journalism. (3)
fall and spring
Advanced reporting methods using Internet research and data analysis tools for beat and investigative stories. Lecture, lab. Fee. Prerequisites for undergraduates: JMC 301; JMC professional status.

M JMC 470 Depth Reporting. (3)
fall and spring
Introduces strategies for writing in-depth newspaper or magazine articles. Lecture, lab. Fee. Prerequisites for undergraduates: JMC 301; JMC professional status; instructor approval.

M JMC 472 Media Management. (3)
fall and spring
Management principles and practices, including organization, procedures, policies, personnel problems, and financial aspects of station management. Pre- or corequisites for undergraduates: JMC 332; JMC professional status.

M JMC 475 Television Newscast Production. (3)
fall and spring
Writing, reporting, and production of the television newscast. Prerequisite: instructor approval. Prerequisite for undergraduates: JMC professional status.

M JMC 494 Special Topics. (1–4)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

MASS COMMUNICATION (MCO)

M MCO 110 Introduction to Mass Communication. (3)
fall and spring
Organization, function, and responsibilities of the media and adjunct services. Primary emphasis on newspapers, radio, television, and magazines. Credit is allowed for only MCO 110 or 120. Prerequisite: ENG 101 or 105 or 107.
General Studies: SB

M MCO 120 Media and Society. (3)
fall, spring, summer
Role of newspapers, magazines, radio, television, and motion pictures in American society. Credit is allowed for only MCO 120 or 110. Designed for nonmajors.
General Studies: SB

M MCO 240 Media Issues in American Pop Culture. (3)
fall and spring
Examines the production and consumption of popular culture as disseminated by the mass media with emphasis on the societal implications. Lecture, discussion.

M MCO 302 Media Research Methods. (3)
fall, spring, summer
Surveys research methods used in the social sciences, with a focus on mass communication. Prerequisite: JMC professional status.

M MCO 402 Mass Communication Law. (3)
fall, spring, summer
Legal aspects of the rights, privileges, and obligations of the press, radio, and television. Prerequisites: 87 earned hours; JMC professional status.
General Studies: L

M MCO 418 History of Mass Communication. (3)
fall
American journalism from its English and colonial origins to the present day. Development and influence of newspapers, magazines, radio, television, and news gathering agencies.
General Studies: SB, H

M MCO 421 Media Problems. (3)
fall and spring
Trends and problems of the mass media, emphasizing editorial decisions in the processing of information. Prerequisite: JMC professional status.

M MCO 430 International Mass Communication. (3)
fall and spring
Comparative study of communication and media systems. Information gathering and dissemination under different political and cultural systems.
General Studies: G

M MCO 435 Emerging Media Technologies. (3)
selected semesters
Surveys new telecommunication technologies in a convergent environment.

M MCO 440 Applied Media Research. (3)
fall and spring
Design, conduct, and analysis of applied media research. Students participate in the Cactus State Poll. Lab setting. Prerequisite: JMC professional status.

M MCO 450 Visual Communication. (3)
fall, spring, summer
Theory and tradition of communication through the visual media with emphasis on the continuity of traditions common to modern visual media.
General Studies: HU

M MCO 453 American Political Film. (3)
spring
Studies the depiction of the American political process, especially the electoral process, through film. Lecture, discussion.

M MCO 456 Political Communication. (3)
fall
Theory and research related to political campaign communication. The persuasive process of political campaigning, the role of the media, the candidate, and image creation.
General Studies: SB

M MCO 460 Race, Gender, and Media. (3)
spring and summer
Reading seminar designed to give a probing examination of the interface between AHANA Americans and the mass media in the United States. Lecture, discussion. Cross-listed as AFR 460. Credit is allowed for only AFR 460 or MCO 460.
General Studies: C

M MCO 464 Media and Politics: The Fourth Estate. (3)
spring
Understanding and articulation of the place of the press as the Fourth Estate in the political life of the U.S.

M MCO 470 Issues Management and Media Strategy. (3)
selected semesters
Strategic aspects of media planning and management in public relations, public affairs, crisis communication lobbying, media ethics, and government relations. Seminar. Prerequisite: JMC professional status.

M MCO 473 Sex, Love, and Romance in the Mass Media. (3)
fall, spring, summer
The role of the mass media in constructing and/or reinforcing unrealistic mythic and stereotypic images of sex, love, and romance. Lecture, discussion. Prerequisites for nonmajors: 24 hours; 2.00 GPA. Prerequisites for majors: 40 hours; 2.50 GPA.
General Studies: SB

M MCO 494 Special Topics. (3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

College of Law

www.law.asu.edu

Patricia D. White, JD, Dean

PURPOSE

As the only law school in the fifth largest U.S. metropolitan area and Arizona's capital, the College of Law plays a significant role in the legal profession nationally and serves as the region's principal intellectual center for the profession. In addition to training men and women for the profession and related assignments, the college contributes to the creation and administration of law and justice through the efforts of its faculty and students.

ORGANIZATION

Law Building and Law Library

The John S. Armstrong Law Building is located on the east side of the university's Tempe campus. The Law Building provides every modern facility for legal education and has been described by experts involved in law building planning as setting a new standard in functional design.

The award-winning John J. Ross–William C. Blakley Law Library, named in memory of two prominent Phoenix attorneys, is one of the finest law libraries in the Southwest. The library houses a collection of more than 414,000 volumes and microform volume equivalents. The collection includes a broad selection of case reports and statutes as well as legal treatises, periodicals, encyclopedias, digests, citators, and administrative materials. The collection also includes a growing selection of special materials dealing with international law, Indian law, Mexican law, English legal history, and law and technology.

The library, housed in a dramatic and functional building that opened in August 1993, is also a selective U.S. government depository. The building provides accessible shelving for the expanding collections and comfortable study space at carrels, tables, and lounge seating located throughout the library. Additionally, the law library has a 20-station computer lab, LEXIS and WESTLAW rooms with 10 stations each, 27 meeting and study rooms, a microforms facility, and a classroom. Both buildings are equipped with wireless Ethernet access.

Students may access other campus libraries, including the Charles Trumbull Hayden Library, the Daniel E. Noble Science and Engineering Library, the Architecture and Environmental Design Library, and the Music Library. The collections maintained in all university libraries comprise more than three million volumes.

Special Programs

Center for the Study of Law, Science, and Technology. The center, founded by the Arizona Board of Regents in 1984, is the oldest, largest, and most comprehensive multidisciplinary research center focusing on the intersection of law and science. The center is known as a national leader in training law students to understand and manage the legal implications of new technologies. The center anticipates issues raised by new knowledge, stimulates dialogue between legal and scientific scholars, and conducts research that promotes the legal community's engagement with scientific and technological developments. The unique breadth of faculty expertise within the College of Law—29 faculty members are center fellows—supports course offerings in a broad range of law, science, and technology subjects, such as scientific evidence, intellectual property and cyberlaw, behavioral biology, health care and bioethics, information and communication technologies, statistics and mathematical methods, biotechnology, environmental and natural resource law and policy, and risk management. A certificate program provides coherence and structure to student academic development; there are specializations in biotechnology, environmental law, health care law, and intellectual property. Externships in the local legal community provide students with hands-on experience under the guidance of skilled practitioners. The center's Technology Ventures Clinic provides a unique applied clinical experience where students evaluate inventions generated by ASU researchers, devise marketing strategies, and file patent documentation. The center is a key player in several contemporary debates within the legal academic community. For example, it sponsors an annual conference on genetics and the law. It also sponsors a speaker series each semester that attracts the country's best legal scholars. The center also copublishes, with the American Bar Association Section of Science and Technology Law, *Jurimetrics: The Journal of Law, Science, and Technology*, the oldest and most widely circulated journal in the field of law and science. Students serve as editors and officers of the journal, editing articles for publication, conducting research, and developing and writing articles under the direction of the faculty editor.

Indian Legal Program. The Indian Legal Program was established in 1988 to provide legal education to law students on topics in Indian law, generate scholarship in Indian law, and provide public service to tribal governments. The college is a strong choice for students interested in studying Native American legal systems, federal Indian law, and the

complex issues confronting Indian nations and individuals. Through a Certificate in Indian Law, the college provides its students with a quality legal education and an opportunity to gain specific knowledge and expertise in Indian law.

Students have the opportunity to participate in all phases of the Indian Legal Program and gain an in-depth understanding of the legal issues affecting Indian tribes and people. Courses on Federal Indian law and seminars on advanced Indian law topics such as tribal law and government, gaming, and American Indian cultural resources protection are part of the curriculum. Students also have the opportunity to participate in internships with local tribal courts, the Native American Rights Fund, the U.S. Department of the Interior, or the Senate Committee on Indian Affairs in Washington, D.C. This variety of academic and work experience provides students with an outstanding legal education and a firm grounding in both the theoretical and practical aspects of Indian law.

Clinical Program. The College of Law's Clinical Program provides second- and third-year students with an opportunity to handle actual cases with the direct guidance of skilled faculty members. The college offers seven real-client clinics: Civil Practice Clinic, Criminal Practice Clinic, Immigration Law and Policy Clinic, Indian Legal Clinic, Mediation Clinic, Public Defender Clinic, and Technology Ventures Clinic. The college's extensive and diverse clinical program allows students to choose among a variety of different work environments.

The Civil Practice Clinic, for example, operates as a functioning law firm within the college, while students in the criminal litigation clinics work in prosecution or public defender agencies in the Phoenix area. Students in the Mediation Clinic learn how to facilitate the resolution of disputes without litigation, and students serve as mediators in real disputes in the small claims court system. Students in the Technology Ventures Clinic work collaboratively with students from other disciplines to analyze technology portfolios and participate in an intellectual property review process for technologies. Students provide legal assistance to tribal communities and governments through the Indian Legal Clinic. Immigration Law and Policy Clinic students counsel and represent immigrants detained for immigration violations. To help prepare for participation in a clinic, second-year students are offered "simulation-based" courses in lawyering theory and practice, trial advocacy, pretrial practice, and negotiation.

Committee on Law and Philosophy. Both the College of Law and the College of Liberal Arts and Sciences have groups of excellent faculty with expertise in the philosophy of the law and related areas of moral and political philosophy. These faculty members have been brought together to form the Committee on Law and Philosophy. The overall goal of the committee is to create and maintain a rich and active intellectual community in this area and to use the resources of that community to offer conferences, lectures, courses, and seminars. Areas of particular interest to members of the committee include criminal law theory, punishment, forgiveness, constitutional interpretation, human rights theory, law and literature, law and religion, and political obligation.

ADMISSION

First-year students are admitted only for the fall semester. The formal requirements for admission to the College of Law are (1) an undergraduate degree from an accredited four-year college or university and (2) a score on the Law School Admission Test (LSAT), administered by Law Services, Box 2000, Newtown, Pennsylvania 18940, in centers throughout the country.

For more information regarding admission, call 480/965-1474 or write

ADMISSIONS OFFICE
COLLEGE OF LAW
ARIZONA STATE UNIVERSITY
PO BOX 877906
TEMPE AZ 85287-7906

Retention Standards

To be eligible to continue in the college, students must maintain a cumulative weighted GPA of 70 or higher at the end of each semester or summer session. Any student who fails to achieve a 70 GPA in any one semester, regardless of the cumulative GPA, is automatically placed on probation. Continuation of enrollment for probationary students is upon such terms and conditions as the college may impose.

A student whose cumulative GPA falls below the required level or whose semester GPA is less than 70 in two consecutive semesters is dismissed but may apply to the Office of the Dean for readmission. The Office of the Dean refers the application to a faculty Committee on Readmission. Cases in which the GPA deficiency is slight and evidence of extenuating circumstances is convincing, readmission may be granted on a probationary status after a review of the reasons contributing to unsatisfactory performance and a finding that there is substantial prospect for acceptable academic performance. Continuation in the College of Law thereafter may be conditioned on achieving a level of performance higher than the overall 70 GPA. Further detailed information concerning the college's retention standards can be found in the *Statement of Student Policies*, which is available on the college's Web site at www.law.asu.edu.

Honor Code. The legal profession, a self-regulating association, depends on the integrity, honor, and personal morality of each member. Similarly, the integrity and value of an ASU College of Law degree depends on a reputation for fair competition. The college's *Honor Code* is intended as a measure to preserve the integrity of the school's diploma and create an arena in which students can compete fairly and confidently. Copies of the *Honor Code* are available from the college's Student Services Office.

ACCREDITATION

The college is fully accredited by the American Bar Association and is a member of the Association of American Law Schools.

College of Law Graduate Degrees and Majors

Major	Degree	Concentration	Administered By
Biotechnology and Genomics	LLM	—	College of Law
Law	JD	—	College of Law
Legal Studies	MLS	—	College of Law
Tribal Policy, Law, and Government	LLM	—	College of Law

JURIS DOCTOR DEGREE

The College of Law offers a three-year program of professional studies at the graduate level leading to the degree of Juris Doctor. For more information on degrees, see the "College of Law Graduate Degrees and Majors" table, on this page and the "Concurrent and Dual Degrees" table, page 169. For more information on degrees and courses, see the *Graduate Catalog*.

Course of Study

The program of study in the College of Law is designed for full-time students. In the first year of the three-year program, the course of study is prescribed and incorporates the time-proven techniques of legal education. This first year gives students—by the "case method," by the "problem method," by "moot court," and through other techniques—an intensive exposure to basic legal processes.

As a part of the program, first-year students are assigned to small sections. In the Legal Research and Writing program, first-year students prepare legal briefs and memoranda and receive feedback through the use of practice examinations. The program focuses on the development of writing and organizational skills necessary for success in law school and the practice of law. The second and third years cover a wide range of courses varying in format as well as subject matter, allowing students to pursue both the basic subjects of law study and specialized interests. By offering great freedom in the selection of subjects, the educational experience of the second and third years is in sharp contrast to the curriculum of the first year. In addition, the college offers a number of faculty-supervised clinical education programs and a program of supervised externships.

MORE INFORMATION

Further detailed information concerning the course of study, admission practices, expenses, and financial assistance can be found on the college's Web site at www.law.asu.edu. To request application forms, call 480/965-7207 or write

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

College of Liberal Arts and Sciences

clas.asu.edu

David A. Young, PhD, Vice President and Dean

PURPOSE

Like all major research universities, Arizona State University provides the means for undergraduates to acquire a liberal education, an education that broadens students' understanding in the major areas of human knowledge while providing students with in-depth knowledge in their chosen areas of focus. While the professional schools and colleges can and do provide for important dimensions of a liberal education, the central academic setting for accomplishing this basic university purpose is the College of Liberal Arts and Sciences (CLAS). The college provides a particularly rich and varied set of opportunities for students to gain the kind of liberal education that helps to prepare them for a lifetime of continued learning and application of knowledge in a diverse and ever-changing world.

As a consequence of the wide range of subjects CLAS offers in the humanities, the natural sciences and mathematics, and the social and behavioral sciences, instruction is provided in a number of core areas for undergraduate students from all of the other colleges. Students with majors in business, education, engineering, nursing, and other professional colleges rely on CLAS for basic foundation courses. CLAS also offers the majority of courses meeting the General Studies requirement.

CLAS initiated and continues to participate actively with the Barrett Honors College. It also offers advising to undergraduates who are working out their undergraduate programs or are planning for graduate studies.

Most of the university faculty's engagement in the discovery and creation of knowledge and its dissemination occurs in CLAS. As an integral part of this activity, CLAS offers a wide range of graduate training programs leading to a master's or doctoral degree. For graduate degree application information, see the *Graduate Catalog* and contact either the Division of Graduate Studies or the academic unit

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

in which the degree of interest would be earned, the latter in order to receive detailed information on particular degree requirements.

ORGANIZATION

CLAS consists of the School of Global Studies, the Hugh Downs School of Human Communication, the School of Human Evolution and Social Change, the School of Justice and Social Inquiry, the School of Life Sciences, 20 academic departments, several interdisciplinary programs, 10 centers, and several research institutes and laboratories. The college offers 40 programs leading to a bachelor's degree, 31 programs leading to a master's degree, 22 programs leading to a doctoral degree, and interdisciplinary graduate programs in cooperation with other colleges. Undergraduate customized interdisciplinary degrees are also available.

For more information, access the college's Web site at clas.asu.edu.

ADMISSION

Any entering ASU student who has met the minimum university entrance requirements can be admitted to a CLAS program.

Any student who is in university good standing, who wishes to major in a subject offered by CLAS and to follow a program of study in the major may transfer into the college. Current ASU students who are changing their majors to CLAS from another ASU college are encouraged to first contact the advisor in the department they are moving to.

Transfer Students. The university standards for evaluation of transfer credit are listed under "Transfer Credit," page 71. All students who meet the university standards are admissible to CLAS. Transfer students are urged to contact the relevant academic department or the Office of Undergraduate Programs in FOUND 110, to ensure a smooth transition to CLAS. Students who have transferred course credit from institutions other than Arizona community colleges or public universities must have their transcripts evaluated by an advisor in FOUND 110. Students who have attended only Arizona community colleges, Northern Arizona University, or the University of Arizona have evaluations performed in the department of the major.

Courses transferred from two-year colleges are accepted as lower-division credit only. Students are urged to choose their community college courses carefully, in view of the fact that a minimum of 45 semester hours of work taken at the university must be upper-division credit (see "Community Colleges," page 72).

ADVISING

All students are urged to seek advising in the appropriate college unit before registration. Students must follow the calendar published in the *Schedule of Classes* each semester for information and deadlines pertaining to enrollment, adding/dropping classes, and withdrawals.

In addition to information provided by an advisor, students must read the requirements for university General Studies, college graduation, and major degree requirements in their edition of the ASU *General Catalog*. See "General Studies," page 93, "University Graduation Requirements," page 89, "College Graduation Requirements," page 503, and the section of the department offering the major. The ASU *General Catalog* is the governing source for all degree requirements.

Regular Advising. All students are strongly urged to seek advising in the appropriate college unit before registration.

Advising Locations. CLAS students should seek routine advising at the locations shown in the "Advising Locations" table, on this page.

The Office of Undergraduate Programs, in FOUND 110, is the central resource center for academic information in the college. Requests from students, departmental advisors, and faculty for clarification of rules, procedures, and advising needs of the college and university should be directed to that office.

Advising Locations

Student	Location
Career advising (all majors)	FOUND 110 (480/965-6506)
Declared majors in academic good standing	Department of major

Mandatory Advising. The following categories of Liberal Arts and Sciences students *must* receive advising and *must* be cleared on the Mandatory Advising Computer System (MACS) before their classes are scheduled:

1. students in their first semester at ASU;
2. students on probation;
3. students with a cumulative GPA of less than 2.00;
4. students in their first three semesters (in selected departments);
5. other students with "special admissions" status; and
6. students who have been disqualified (these students are allowed to attend ASU summer and winter sessions only and must be advised in the Office of Undergraduate Programs in FOUND 110).

Students in the above mandatory advising categories should consult an advisor in the appropriate advising location listed in the previous section. Students are encouraged to check their mandatory advising status each semester before attempting registration transactions.

Advising for Preprofessional Programs. Special advising is available for students planning to enter the fields listed in the "Advising for Preprofessional Programs" table, page 501. The professional programs shown in the table are not majors in themselves; that is, there are no majors called "premedical," "prelaw," etc. In each program, the student must select an established major in CLAS or in one of the other colleges.

Pre-Health Professions. Students pursuing admission to professional schools in the health professions must choose a major offered by ASU. However, specific courses must be taken to prepare the student to take the MCAT or other entrance examinations and to succeed in postbaccalaureate training. Therefore, students who plan to pursue a health

Advising for Preprofessional Programs

Professional Field	Office Where Advisor Is Located
Dentistry[1, 2]	Pre-Health Professions, LSC 206C
Foreign service	Department of chosen major
Law	Office of Undergraduate Programs, FOUND 110
Medicine[1]	Pre-Health Professions, LSC 206C
Ministry	Department of Religious Studies, ECA 365
Occupational therapy[1]	Pre-Health Professions, LSC 206C
Optometry[1, 2]	Pre-Health Professions, LSC 206C
Osteopathy[1]	Pre-Health Professions, LSC 206C
Pharmacy[1]	Pre-Health Professions, LSC 206C
Physical therapy[1]	Pre-Health Professions, LSC 206C
Podiatry[1, 2]	Pre-Health Professions, LSC 206C

[1] Students preparing for a career in these areas should register in the Pre-Health Professions office, 480/965-2365.

[2] No school in Arizona offers a program in dentistry, optometry, or podiatry. Students interested in pursuing these professions should confer with Pre-Health Professions advisors concerning out-of-state schools where they may complete their training.

profession should meet regularly with the Pre-Health Professions office for guidance. While this guidance does not replace the need to meet with an advisor in the department of the student's major, pre-health advising is a necessary supplement. To schedule a meeting with Pre-Health Professions, located in LSC 206, call 480/965-2365.

Prelaw. The American Bar Association does not recommend any specific major for students who wish to apply to law school upon graduation. ASU does not have a "prelaw" degree program. Therefore, students should select a major that interests them. Recent surveys of law school graduates indicate that students would be well advised to take one or two semesters of accounting as a supplement to their major curriculum. In addition, the American Bar Association recommends a variety of courses in the classics, in economics, and in mathematical reasoning. Courses that engage the student in intense critical analysis and a substantial amount of writing are also recommended. As the student approaches the second semester of his or her junior year, the student should contact the prelaw advisor in the college or department of his or her major to obtain information regarding the procedure to apply to law school.

Career Advising: CLASWorks. A degree in the liberal arts and sciences prepares a student for careers that include but are not limited to business, government/public service, nonprofit organizations, the arts, science and research, and most corporate environments. By the time of graduation, CLAS students have developed the ability to solve problems, analyze data, communicate ideas, and execute complex plans. To identify career paths that best fit a student's interests and talents, the Office of Undergraduate Programs offers individualized career advising. To make an appointment, call 480/965-6506.

Internships. All students are encouraged to complete at least one internship before graduation. Many CLAS disciplines have well-established internship programs, so students should begin with their academic departments. Contact information may be found on the Web at clas.asu.edu/students/clasworks. To develop a successful internship experience, students are encouraged to meet with the director of CLASWorks for a career advising session soon after arriving on campus.

DEGREES

Majors. Programs leading to the BA and BS degrees are offered by CLAS, with majors in the subjects listed in the "College of Liberal Arts and Sciences Baccalaureate Degrees and Majors" table, page 502. Each major is administered by the academic department indicated.

Concurrent degrees and second baccalaureate degrees. Students who wish to pursue a concurrent degree in CLAS may not double count courses from one major to the other. Each major must consist of a minimum of 30 semester hours unique to that major. Students who wish to obtain concurrent degrees must realize that there are certain combinations that would not be approved because there is too great an overlap between the courses required for each major. Similarly, students who earn one baccalaureate degree may not earn a second baccalaureate degree in the same major or in a major that does not contain 30 core hours unique to that major. For example, a student may not pursue a degree in two life science fields (with the exception of Clinical Laboratory Sciences).

Minors. Although not required for graduation, special college-approved minors are available in most departments. Check department program descriptions for details. Minors must have at least 18 hours of designated courses, including at least 12 hours of upper-division work. The college requires a grade of at least "C" (2.00) in all upper-division courses in the minor. Some departments have stricter requirements. A minimum of six upper-division hours in the minor must be taken in residence at the Tempe campus.

University policies prohibit the "double-counting" of courses from the major for the minor. Specific questions concerning double-counting, as well as general questions about the approval processes for minors, should be taken up with an academic advisor in the department offering the minor or the Office of Undergraduate Programs in FOUND 110.

Refer to the CLAS portion of the "ASU Minors" table, page 127.

Graduate Degrees. See the "College of Liberal Arts and Sciences Graduate Degrees and Majors" table, page 506. Refer to the *Graduate Catalog* for requirements.

[2] The department is in the W. P. Carey School of Business, which also offers this major, with different requirements.

[3] This degree program has special eligibility requirements; for more information, contact the Office of Undergraduate Programs.

SCHOOL OF EXTENDED EDUCATION

The university-wide School of Extended Education provides an interactive link between ASU and the diverse communities it serves. The college assesses lifelong learning requirements and works in partnership with campuses, other colleges, and the community to serve learners, using a network of locations, programs, schedules, and technologies.

For more information, see "School of Extended Education," page 134, or access the Web site at www.asu.edu/xed.

UNIVERSITY GRADUATION REQUIREMENTS

In addition to fulfilling college and major requirements, students must meet all university graduation requirements. For complete information, see "University Graduation Requirements," page 89.

General Studies Requirement

All students enrolled in a baccalaureate degree program must satisfy a university requirement of a minimum of 35 hours of approved course work in General Studies, as described in "General Studies," page 93. Note that all three General Studies awareness areas are required. Consult an advisor for an approved list of courses.

General Studies courses are listed in the "General Studies Courses" table, page 96, in the course descriptions, in the *Schedule of Classes*, and in the *Summer Sessions Bulletin*.

COLLEGE GRADUATION REQUIREMENTS

All students in the College of Liberal Arts and Sciences (CLAS) must complete the university General Studies requirement as well as all requirements in the major. In addition, the college has established requirements that are specific to the Bachelor of Arts and Bachelor of Science degrees.

A. Bachelor of Arts Degrees. Students pursuing BA degrees in the CLAS must demonstrate intermediate proficiency in a second language by completing the courses specified below with a grade of "C" (2.00) or higher in each course. Second language course requirements consist of
   1. completion of second language course work at the intermediate level (202 or equivalent, those students completing this requirement in

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Ancient Greek must take both GRK 301 and 302; students completing the requirement in Portuguese or Romanian must complete POR 314 or ROM 314);
2. a foreign language course at the 300 level or higher taught in the foreign language and having 202 or its equivalent as a prerequisite;
3. completion of secondary education at a school in which the language of instruction is not English: or
4. completion of SHS 202 American Sign Language IV or its equivalent.

B. Bachelor of Science degrees. Students pursuing BS degrees in the CLAS must complete six semester hours (two courses) of "Science and Society" courses. Students should consult with an advisor in the department or school of their major for a list of appropriate courses.

C. All students are required to take a minimum of MAT 119 or higher. A grade of "C" (2.00) or higher must be earned in the chosen mathematics course.

Major Requirements

Each student is required to select a major from among the fields of study offered by CLAS. The requirements for completion of the major are described under departmental listings.

A. The major department may require up to 45 semester hours of course work. The minimum is 30 hours. A maximum of 15 additional hours may be required in related courses and prerequisites. No more than 60 semester hours of course work may be required to complete the major, related courses, and prerequisites. Some departments require calculus-level mathematics; up to five of these semester hours may be excluded from the 60-hour maximum because they satisfy the mathematics proficiency requirement. A minimum of 12 upper-division hours in the major must be taken in residence.

B. No credit is granted toward fulfilling major or minor requirements in any upper-division course in that subject field unless the grade in that course is at least a "C" (2.00). In CLAS, the assignment of a grade of "Y" indicates a level of performance that would have resulted in a grade of at least "C" (2.00) had the normal grading scheme been used.
See the individual departments for other minimum grade requirements.

C. Major fields of study are classified into the following three divisions:
1. Humanities:
Asian Languages (Chinese/Japanese) (CHI/JPN)
English (ENG)
French (FRE)
Film and Media Studies (FMS)
German (GER)
History (HST)
Italian (ITA)
Philosophy (HPS, PHI)
Religious Studies (REL)
Russian (RUS)
Spanish (SPA)
2. Natural sciences and mathematics:
Biochemistry (BCH)
Biology (BIO)
Chemistry (CHM)
Clinical Laboratory Sciences (CLS)
Computational Mathematical Sciences (MAT)
Conservation Biology (BIO)
Geological Sciences (GLG)
Kinesiology (KIN)
Mathematics (MAT)
Microbiology (MIC)
Molecular Biosciences/Biotechnology (MBB)
Physics (AST, PHS, PHY)
Plant Biology (PLB)
Psychology (PGS, PSY)
Speech and Hearing Science (SHS)
3. Social Sciences:
African and African American Studies (AFH, AFR, AFS)
American Indian Studies (AIS)
Anthropology (ASB)
Chicana and Chicano Studies (CSH, CSS)
Communication (COM)
Economics (ECN)
Family and Human Development (CDE, FAS)
Geography (GCU, GPH)
Global Studies (SGS)
Justice and Social Inquiry (JUS)
Political Science (POS)
Sociology (SOC)
Women and Gender Studies (WSH, WST)

General Electives

Most CLAS majors can meet all of the above requirements with fewer than the 120 semester hours required for graduation. Remaining hours are general electives that may be selected from any of the departments of CLAS and from the offerings of the other colleges.

Declaration of Graduation. The declaration of graduation, which is required by university regulations during the semester in which an undergraduate earns the 87th hour, must be filed and approved at least two weeks before the preregistration period for the subsequent semester. Students should run a new Degree Audit Reporting System report every semester to gauge how well they are meeting all requirements for graduation. Students should contact the Office of Undergraduate Programs, in FOUND 110, regarding college graduation rules and deadlines. Deadlines for filing the declaration of graduation after enrolling in the 87th hour are March 1 and October 1 of each year. Students with 87 hours must have a college-approved declaration of graduation before registering for the next semester.

Credit Requirement. All candidates for graduation in the BA and BS degree curricula are required to complete at least 120 semester hours, of which at least 45 hours must consist of upper-division courses. A minimum ASU cumulative GPA of 2.00 is required for graduation.

Concurrent Degrees. Students who wish to obtain concurrent degrees must realize that there are certain combinations that would not be approved because there is too great an overlap between the courses required for each major. For example, students may not obtain concurrent degrees in two life sciences. Students who wish to obtain concurrent degrees may not double-count courses from one major to the next, but must have at least 30 different semester hours in each major.

Course Load. The normal course load is 15 to 16 semester hours. First-semester freshmen and entering transfer students are not permitted to register for more than 18 semester hours in the initial semester. Other students who wish to register for more than 18 hours must have a GPA of at least 3.00 and must file a petition in the Office of Undergraduate Programs, in FOUND 110, before registration. Any petition for an overload in excess of 21 hours must be presented to the Standards Committee of the college. No student should assume that his or her petition for overload will be granted.

SPECIAL CREDIT OPTIONS

Pass/Fail Grade Option. The pass/fail grade option is intended to broaden the education of Liberal Arts and Sciences undergraduates by encouraging them to take advanced courses outside their specialization. A mark of "P" contributes to the student's earned hours but does not affect the GPA. A failing grade is computed into the GPA.

Only CLAS students with at least 60 semester hours may take courses under the pass/fail option. The option may be used under the following conditions:

1. enrollment for pass/fail needs the approval of the instructor and the college;
2. enrollment under this option must be indicated during registration and may not be changed after the late registration period; and
3. a maximum of 12 hours taken for pass/fail may be counted toward graduation.

Students may not enroll under the pass/fail option in the following courses:

1. those taken to satisfy the second language or First-Year Composition requirements;
2. those in the student's major, minor, or certificate program;
3. those counted toward or required to supplement the major;
4. those counted as 499 Individualized Instruction;
5. those taken for honors credits; or
6. those counted toward satisfying the CLAS graduation requirements or the General Studies requirement.

Audit Grade Option. A student may choose to audit a course in which he or she attends regularly scheduled class sessions but earns no credit. The student should obtain the instructor's approval before registering for the course. For more information, see "Grading System," page 82.

Note: This grade option may not be changed after the drop/add period.

Independent Learning. Study by Independent Learning is not a normal part of a degree program; special circumstances must exist for a degree-seeking student to take Independent Learning courses. Any enrollment in such courses must have the prior approval of the college.

ACADEMIC STANDARDS

The standards for GPA and the terms of probation, disqualification, reinstatement, and appeal are identical to those of the university as set forth under "Retention and Academic Standards," page 86, except that the disqualified student in CLAS is suspended for at least two regular semesters at the university. When students are placed on probation, one of three things can happen:

1. the student may raise his or her cumulative GPA to academic good standing (see "Academic Good Standing," page 86) by taking new classes and be removed from probation after the fall or spring semester;
2. the student may receive the required semester GPA, but not raise the cumulative GPA to academic good standing, in which case, the student may continue on probation, earning the required semester GPA, for as many semesters as it takes to raise the cumulative GPA to good standing; or
3. the student may fail to achieve the required semester GPA and be disqualified.

Students who leave the university for a semester or more while on probation are not automatically readmitted. Such students, as well as all disqualified students, should contact the Office of Undergraduate Programs in FOUND 110, regarding procedures and guidance for reinstatement and returning to good standing. By following recommendations and meeting established standards for summer school work or course work at other institutions, the possibility of successful reinstatement is enhanced. Academic discipline is one of the functions of the Office of Undergraduate Programs. All students having academic difficulties of any kind should contact this office. Also available in this office is information on policies and procedures of the college on academic honesty, student grievances with respect to grades, and various petitions regarding college standards and graduation requirements.

Academic honesty is expected of all students in all examinations, papers, academic transactions, and records. The possible sanctions include, but are not limited to, appropriate grade penalties, loss of registration privileges, disqualification, and dismissal.

College of Liberal Arts and Sciences Graduate Degrees and Majors

Major	Degree	Concentration[1]	Administered By
Anthropology	MA	Archaeology, bioarchaeology, linguistics, museum studies, physical anthropology, or social-cultural anthropology	School of Human Evolution and Social Change
	PhD	Archaeology, physical anthropology, or social-cultural anthropology	School of Human Evolution and Social Change
Asian Languages and Civilizations—Chinese/Japanese	MA	—	Department of Languages and Literatures
Audiology	AuD	—	Department of Speech and Hearing Science
Biology	MS, PhD	Optional: ecology[1]	School of Life Sciences
Chemistry	MS, PhD	Analytical chemistry, biochemistry, geochemistry, inorganic chemistry, organic chemistry, physical chemistry, or solid-state chemistry	Department of Chemistry and Biochemistry
Communication	MA	—	Hugh Downs School of Human Communication
	PhD	Communicative development, intercultural communication, or organizational communication	Hugh Downs School of Human Communication
Communication Disorders	MS	—	Department of Speech and Hearing Science
Computational Biosciences	PSM	—	College of Liberal Arts and Sciences
Creative Writing[2]	MFA	—	Creative Writing Committee
English	MA	Comparative literature, English linguistics, literature and language, or rhetoric and composition	Department of English
	PhD	Literature or rhetoric/composition and linguistics	Department of English
Family and Human Development	MS	Optional: family studies[1]	Department of Family and Human Development
Family Science	PhD	Optional: marriage and family therapy[1]	Department of Family and Human Development
French	MA	Comparative literature, linguistics, or literature	Department of Languages and Literatures
Geographic Information Systems	MAS	—	Department of Geography
Geography	MA, PhD	—	Department of Geography
Geological Sciences	MS, PhD	—	Department of Geological Sciences
German	MA	Comparative literature, language and culture, or literature	Department of Languages and Literatures
History	MA	Asian history, British history, European history, Latin American history, public history, U.S. history, or U.S. Western history	Department of History
	PhD	Asian history, British history, European history, Latin American history, or U.S. history	Department of History

[1] If a major offers concentrations, one must be selected unless noted as *optional*.

[2] This program is administered by the Division of Graduate Studies.

[3] Students may pursue this degree only in conjunction with the doctoral degree in the same unit, which admits students to only the doctoral degree program.

College of Liberal Arts and Sciences Graduate Degrees and Majors (continued)

Major	Degree	Concentration[1]	Administered By
Justice Studies	MS	—	School of Justice and Social Inquiry
	PhD	Optional: criminal and juvenile justice; dispute resolution; law, justice, and minority populations; law, policy, and evaluation; or women, law, and justice[1]	School of Justice and Social Inquiry
Kinesiology	MS	—	Department of Kinesiology
	PhD	Biomechanics, motor behavior/sport psychology, or physiology of exercise	Committee on Exercise Science
Liberal Studies	MLSt	—	College of Liberal Arts and Sciences
Materials Science[2]	MS	—	Committee on the Science and Engineering of Materials
Mathematics	MA	—	Department of Mathematics and Statistics
	PhD	Optional: computational biosciences[1]	Department of Mathematics and Statistics
Microbiology	MS, PhD	—	School of Life Sciences
Molecular and Cellular Biology	MS	—	Interdisciplinary Committee on Molecular and Cellular Biology
	PhD	Optional: computational biosciences[1]	Interdisciplinary Committee on Molecular and Cellular Biology
Natural Science	MNS	Biology, microbiology, or plant biology	School of Life Sciences
		Chemistry	Department of Chemistry and Biochemistry
		Geological sciences	Department of Geological Sciences
		Mathematics	Department of Mathematics and Statistics
		Physics	Department of Physics and Astronomy
Philosophy	MA, PhD	—	Department of Philosophy
Physics	MS, PhD	—	Department of Physics and Astronomy
Plant Biology	MS, PhD	Optional: ecology or photosynthesis[1]	School of Life Sciences
Political Science	MA, PhD	American politics, comparative politics, international relations, or political theory	Department of Political Science
Psychology	MA[3]	—	Department of Psychology
	PhD	Behavioral neuroscience, clinical psychology, cognitive/behavioral systems, developmental psychology, quantitative research methods, or social psychology	Department of Psychology
Religious Studies	MA, PhD	—	Department of Religious Studies
Science and Engineering of Materials[2]	PhD	High-resolution nanostructure analysis or solid-state device materials design	Committee on the Science and Engineering of Materials
Sociology	MA, PhD	—	Department of Sociology
Spanish	MA	Comparative literature, language and culture, linguistics, or literature	Department of Languages and Literatures
	PhD	Cultural studies or literature	Department of Languages and Literatures

[1] If a major offers concentrations, one must be selected unless noted as *optional*.

[2] This program is administered by the Division of Graduate Studies.

[3] Students may pursue this degree only in conjunction with the doctoral degree in the same unit, which admits students to only the doctoral degree program.

College of Liberal Arts and Sciences Graduate Degrees and Majors (continued)

Major	Degree	Concentration[1]	Administered By
Speech and Hearing Science	PhD	Developmental neurolinguistic disorders, neuroauditory processes, or neurogerontologic communication disorders	Department of Speech and Hearing Science
Statistics[2]	MS	—	Committee on Statistics
Teaching English as a Second Language	MTESL	—	Department of English

[1] If a major offers concentrations, one must be selected unless noted as *optional*.

[2] This program is administered by the Division of Graduate Studies.

[3] Students may pursue this degree only in conjunction with the doctoral degree in the same unit, which admits students to only the doctoral degree program.

STUDENT RESPONSIBILITIES

Any student enrolling in courses offered by CLAS is expected to follow the rules and deadlines specified in this catalog and the current *Schedule of Classes*. Students are urged to meet with their departmental academic advisors before registration. Students with additional questions or problems are also urged to meet with advisors in the Office of Undergraduate Programs, in FOUND 110, regarding the academic rules of the college and the university.

SPECIAL PROGRAMS

Barrett Honors College. CLAS works closely with the Barrett Honors College, which affords qualified undergraduates opportunities for enhanced educational experiences. For a complete description of requirements and opportunities, see "The Barrett Honors College," page 145.

CLASWorks. The college provides a comprehensive career management program for all CLAS majors: CLASWorks. This program includes a first-year seminar as well as an upper-division course in career management. Individualized advising sessions, career events, and a Web-based list of CLASWorks contacts are available. Students are encouraged to meet with the director of CLASWorks during their first semester at ASU to explore opportunities in full- and part-time employment, volunteerism, and internships. For more information, call 480/965-6506, or access the Web site at clas.asu.edu/students/clasworks.

Integrated Studies. An Integrated Studies major leading to the BA or BS degree provides students of outstanding ability in the humanities, natural sciences and mathematics, and social and behavioral sciences opportunities to pursue courses of study that cut across departmental boundaries and focus on specific topics or problem areas. Completion of 32 semester hours at ASU with a GPA of at least 3.25 and three letters of recommendation from ASU faculty members are required for admission. For more information about degree requirements, visit the Office of Undergraduate Programs in FOUND 110.

Learning Communities. These nine to 12 semester hour communities allow students to explore an important topic in depth, in mainly small classes, while earning a number of General Studies credits and completing their university writing requirement. The CLAS Learning Communities offer students an opportunity to learn how to think about issues on multiple levels and apply skills across different domains. Course material and extracurricular activities are integrated to enhance the student's intellectual development. Each Learning Community is limited to fewer than 100 students, enabling the student to develop a supportive network of peers on campus. For more information, including residence hall information, access the Web site at clas.asu.edu/students/learningcommunities.

Bachelor of Liberal Studies. The College of Liberal Arts and Sciences offers a 120-semester-hour undergraduate degree completion program in Liberal Studies to Arizona students who have previously earned 60 to 90 semester hours at one of the Arizona universities or community colleges and meet our eligibility requirements. This degree completion program is most suitable for working adults since courses will be offered online and via independent study. There will be registration and individualized instruction fees in addition to tuition. For more information on eligibility requirements, call the Office of Undergraduate Programs at 480/965-6506.

Washington Semester Program. Students have a variety of opportunities for practicum and internship experiences that enable them to meld classroom learning with practical application. Among the several individual departmental programs that provide internships for majors, the Department of Political Science is the ASU sponsor of the Washington Semester Program. The program provides students a one-semester opportunity to study in Washington, D.C., through any one of several programs sponsored by the American University. The program is available to outstanding juniors or seniors and requires careful planning with an academic advisor early in the student's career. For more information, call the Department of Political Science at 480/965-6551.

Military Officer Training. The Departments of Aerospace Studies and Military Science offer programs leading to commissions in the armed forces, but they do not offer majors or minors. For more information, see the appropriate department descriptions in this catalog.

Certificate Programs and Areas of Emphasis

Certificates are available from numerous units in CLAS, and one collegewide Enriched College Degree Certificate is available to any major in the college as shown in the "CLAS Certificates" table, page 510. Areas of emphasis are also available in some of the same subjects (e.g., Latin American Studies).

Enriched College Degree. CLAS offers an Enriched College Degree Certificate, available to any student within the university.

The Enriched College Degree Certificate consists of a minimum of 15 semester hours with a minimum of "C" (2.00) grade credit. The certificate consists of

1. a theme requirement composed of a three-course sequence outside the student's major, characterized by an identifiable theme of intellectual relevance for students (courses used for the theme requirement cannot be from one's major, minor, or another certificate);
2. an approved upper-division bridge course selected to address the relationships among areas of inquiry and means of acquiring knowledge; and
3. an approved upper-division course in spoken English to provide a meaningful opportunity for substantive oral presentations.

For more information, visit the CLAS Office of Undergraduate Programs, in FOUND 110, or call 480/965-6506.

Asian Studies. Asian and East Asian Studies certificates are offered through the Center for Asian Studies. The certificates provide students with official transcript recognition of specialization in Asian Studies related to their major area of study.

The certificate curriculum includes 24 semester hours of course work:

1. 15 semester hours of upper-division area studies course work in at least three disciplines outside of languages and literature courses (such as anthropology, art, geography, history, political science, and religious studies); and
2. nine additional semester hours may be some combination of lower- and/or upper-division courses. Six hours may be satisfied with language and literature courses limited to 321 and above.

In addition, certificate students must demonstrate proficiency in an Asian language at the intermediate level. The language requirement can be satisfied by completing the 201 and 202 sequence, one year of study abroad at the intermediate level, or satisfactory placement on a proficiency exam. Asian languages include Chinese, Hindu/Urdu, Indonesian, Japanese, Korean, Lao, Thai, and Vietnamese. Students pursuing an East Asian Certificate must fulfill the language requirement in either Chinese, Japanese, or Korean, and the 15 hours of upper-division course work must be courses with significant focus on East Asia chosen in consultation with the Center for Asian Studies advisor.

A graduate certificate in Asian Studies is also available. For more information, see the *Graduate Catalog*.

BIS Concentrations. An Asian studies concentration is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

An Asian Studies concentration requires 23 to 25 semester hours of course work:

1. one year of an Asian language consisting of 10 semester hours of lower-division courses or six semester hours of upper-division courses;
2. 12 semester hours of upper-division area studies courses drawn from at least two disciplines outside of languages and literatures; and
3. three to six semester hours of lower- or upper-division approved area studies courses; three of these remaining hours may be satisfied with languages and literatures courses limited to 321 and above.

BIS students pursuing an Asian Studies concentration will be required to consult with the academic advisor of the Center for Asian Studies as well as the BIS advisor. Students are strongly encouraged, but not required, to continue Asian language study beyond the concentration requirement.

Civic Education. See "Certificate in Civic Education," page 629.

Classical Studies. Students admitted to undergraduate degree programs in any field are eligible for the Classical Studies certificate program. In addition to the course work and examinations required in the student's major, the student is responsible for fulfilling the following minimum requirements:

1. five semesters of ancient Greek (17 semester hours; GRK 301 and 302 may be repeated for credit) or Latin (19 semester hours) language and literature instruction;
2. two semesters (six semester hours), in courses related to classical studies (to be approved by coordinators of the certificate);
3. a thesis (three semester hours), a Barrett Honors College thesis (six semester hours) or two additional courses at or above the 300 level (six semester hours); and
4. a minimum grade of "C" (2.00) in each course leading to the certificate.

Students interested in the Classical Studies certificate program need to submit an application before being accepted into the program. For more information, call the program coordinators at 480/965-1110 or 727-6512.

[1] For more information, see the *Graduate Catalog*.

[2] Emphases are also available in these programs.

BIS Concentration. Concentrations in (1) classical studies—Greek or (2) classical studies—Latin are available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

Early Intervention. The Early Intervention Certificate is cross-disciplinary and is certified by the Arizona Early Intervention Program in the Arizona State Department of Economic Security. Students interested in earning the certificate must make formal application to the director of the Early Intervention Training Program. Students must have completed 56 semester hours and have a cumulative GPA of at least 2.50. Students are required to complete the application form for the Early Intervention Certificate.
The proposed certificate entails 17 semester hours of required course work. All 17 semester hours must be ASU credit.

Required Courses
CDE 337 Early Childhood Intervention 3
SWU 437 Infant Family Assessment and Observation *L*/*SB* 3
or CDE 437 Infant Family Assessment and Observation *L*/*SB* (3)
SWU 446 Risk and Variation in Child Development.....3
or CDE 444 Risk and Variation in Child Development (3)
Choose from the following combinations.....8
CDE 338 Child Development Practicum (3)
FAS 484 Internship (5)
— *or* —
SWU 412 Field Instruction I (5)
SWU 414 Field Instruction II (3)

All students admitted by the program are advised by the director of the Early Intervention Training Program through completion of the certificate requirements. Advising includes identifying field placements for FAS 484 and SWU 412 and SWU 414. Completion of the certificate is verified by completion of all required courses with a grade of "C" (2.00) or higher in each course.

Ethics. This certificate is designed to give students a richer understanding of systematic philosophical thinking about ethics. Students with majors in business, nursing, journalism, and public administration, among others, may well find that training in ethics is beneficial for their career goals. The certificate program permits some flexibility about course selection, thereby facilitating the interests of many students. For more information, visit the Department of Philosophy in COOR 3309, or call 480/965-3394.

BIS Concentration. A concentration in ethics is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

Geographic Information Science. The cross-disciplinary undergraduate certificate in Geographic Information Science (GIS) is designed for undergraduates wishing to pursue a GIS-related career. The certificate is awarded to students completing the following 19 semester hours with a grade of "C" (2.00) or higher.

Required Courses
CSE 100 Principles of Programming with C++ *CS* 3
GCU 495 Quantitative Methods in Geography *CS* 3
GPH 370 Geographic Information Technologies *CS* 3
GPH 373 Geographic Information Science I *CS* 4
GPH 473 Geographic Information Science II *CS* 3
Elective (choose from the courses below) 3
ABS 485 GIS in Natural Resources (3)
ABS 586 Remote Sensing in Environmental Resources (4)
GCU 361 Urban Geography *SB* (3)
GCU 441 Economic Geography *SB* (3)
GCU 442 Geographical Analysis of Transportation *SB* (3)
GPH 371 Introduction to Cartography and Georepresentation *CS* (3)
GPH 372 Air Photo Interpretation (3)
GPH 471 Geographics: Interactive and Animated Cartography and Geovisualization *CS* (3)
GPH 481 Environmental Geography (3)
GPH 483 Geographic Information Analysis (3)
GPH 484 Internship: GIS-Based (3)
PLB 434 Landscape Ecological Analysis and Modeling (3)

For more information, call the Department of Geography at 480/965-7533.

Healthcare Organizations and Society. The certificate program is designed to allow undergraduate students interested in healthcare and the healthcare industry to access a broad range of disciplinary approaches and issues relevant to the subject.

To complete the certificate, students must take 18 semester hours of course work. Before starting the program students should seek advice and information in the School of Life Sciences Student Services Office in the College of Liberal Arts and Sciences or Business Honors advising in the W. P. Carey School of Business.

The course work must conform to the following structure and must be drawn from the three areas listed below. Additional courses are permissible with the approval of an advisor. In addition, students must meet the following requirements:

1. complete 18 semester hours, 12 of which must be in the upper division;
2. earn a "C" or higher in all upper-division courses taken for the certificate; and
3. complete at least 12 of the semester hours for the certificate in residence at ASU.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Overview of the U.S. Healthcare Industry. HSM 220 Health Care Organizations is required. HSM 498 PS: Health Economics is required for business students. HSM 561 Biostatistics may be taken by petition. No more than three courses in this area may be taken.

Ethical and Legal Issues in Healthcare. PHI 320 Bioethics is required. A second course is also required, PAF 460 Public Service Ethics or HSM 498 PS: Legal and Ethical Issues in Healthcare. No more than three courses in this area may be taken.

Anthropological, Historical, and Social Perspectives on Healthcare. One course is required. No more than two courses in this area may be taken, from among ASB 462 Medical Anthropology: Culture and Health, HPS 331 History of Medicine, and SOC 427 Sociology of Health and Illness.

For more information, visit the School of Life Sciences in LSC 206, or call 480/727-6277. Or visit Business Honors in the W. P. Carey School of Business in BA 150, or call 480/965-8710.

History and Philosophy of Science. The School of Life Sciences offers an undergraduate History and Philosophy of Science Certificate. The certificate program is designed to give students an understanding of both traditional philosophic issues surrounding science and the historical development of concrete scientific theories and ideas. The philosophic questions, of the belief-worthiness and interpretation of scientific claims as well as norms within or about science, both enrich and are enriched by their combination with historical study. Such philosophic and historical study will also often include the examination of contemporary sciences and their place within the larger society.

The certificate requires 18 semester hours bearing a PHI or HPS prefix of which 12 semester hours must be upper-division. Included within the 18 semester hours, at least nine must bear the HPS prefix. PHI 314 Philosophy of Science is also required. All courses counting toward the certificate must be approved for this purpose by an undergraduate advisor and passed with a grade of "C" (2.00) or higher.

For more information, visit the School of Life Sciences in LSC 206, or call 480/727-6277.

International Studies. See "Certificate in International Studies," page 630.

Islamic Studies Certificate. Students admitted to undergraduate degree programs in any field are eligible for the Islamic Studies Certificate program. Students who complete all the requirements of their major, their college, and the certificate program receive the certificate plus transcript recognition of their particular emphasis. The certificate program is designed to prepare students for graduate programs in Religious Studies, Islamic studies, and area studies or for any academic discipline (such as professional programs in international law and business) that focuses on global Muslim societies. Students must complete a minimum total of 26 semester hours, chosen in consultation with the Islamic Studies program coordinator. A minimum grade of "C" (2.00) is required in each course. To earn the certificate, students must complete these requirements:

1. eight semester hours of Arabic, Indonesian, or another language approved by the program coordinator; students who are native speakers of these languages or who otherwise have equivalent knowledge substitute two additional courses approved by the program coordinator;
2. nine semester hours from REL 260 Introduction to Islam, REL 365 Islamic Civilization, and REL 366 Islam in the Modern World;
3. three semester hours taken from REL 394 (topics may vary) or REL 460 Studies in Islamic Religion (topics may vary); and
4. six semester hours drawn from an approved list of courses in Arabic, anthropology, French, geography, history, religious studies, Spanish or from other courses approved by the program coordinator.

Direct inquiries about the program to the Department of Religious Studies, ECA 377, or call 480/965-7145.

Jewish Studies. The Jewish studies program is designed with the following goals in mind:

1. to examine the history and culture of the Jews;
2. to provide a model for interdisciplinary teaching and research;
3. to generate and facilitate research on Judaica;
4. to provide the community with programs, courses, and research furthering the understanding of Judaica; and
5. to stand as an example of the university's commitment to a program of meaningful ethnic studies on a firm academic base.

The Certificate of Concentration in Jewish Studies may be combined with a major in any college. For information about the program, visit the Jewish Studies program office in the Department of Religious Studies, or access the Web site at asu.edu/clas/jewishstudies/certificateinfo.htm.

BIS Concentration. A concentration in Jewish studies is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

Latin American Studies. The Latin American Studies Certificate program is designed to give students an understanding of culture, economies, political structures, and the history of Latin American nations. The Departments of Economics, Geography, History, Languages and Literatures (Spanish and Portuguese), and Political Science; the School of Human Evolution and Social Change; and the W. P. Carey School of Business offer courses that combine to make up the interdisciplinary certificate. Students must complete 30 semester hours of upper-division courses from the above departments/colleges with a concentration in Latin America—15 semester hours in the major subject and 15 semester hours in other disciplines. The certificate

requires Spanish or Portuguese proficiency through the 313 level of conversation and composition. Only language courses above 313 in literature and civilization count toward a major or interdisciplinary areas of preparation. Spanish and Portuguese courses above 313 in grammar and phonology do not count toward the major requirements. The Latin American Studies Center offers the area of emphasis for students who do not wish to attain a high level of language proficiency.

For more information, visit the Latin American Studies Center in COOR 4450, or call 480/965-5127.

BIS Concentration. A concentration in Latin American studies is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

Medieval and Renaissance Studies. An undergraduate Certificate in Medieval and Renaissance Studies is offered by the Arizona Center for Medieval and Renaissance Studies (ACMRS). In addition to the course work and examinations required in a student's major field of interest, the following minimum requirements must be fulfilled to earn the certificate:

1. six to eight semester hours of classical Latin and six to eight semester hours of Latin (classical and/or medieval) or of a vernacular language of the period (e.g., Old English, Old Norse, Old French, Renaissance Italian);
2. six to eight semester hours of course work in medieval and renaissance studies outside the major discipline;
3. three semester hours of thesis on a topic concerning the Middle Ages or Renaissance. The thesis may be used to fulfill the Honors College thesis requirement for students enrolled in the Barrett Honors College; and
4. a minimum of a "C" (2.00) average in all course work leading to the certificate.

Students interested in the certificate program need to complete an application form before being accepted into the program. Applications are available by calling ACMRS at 480/965-5900 or visiting COOR 4429.

See the *Graduate Catalog* for information about the Certificate in Medieval Studies and the Certificate in Renaissance Studies, and "Arizona Center for Medieval and Renaissance Studies," page 44, for information about the center.

BIS Concentration. A concentration in medieval and Renaissance studies is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

Museum Studies. See the *Graduate Catalog* or contact the Department of Anthropology for more information.

Russian and East European Studies. Undergraduate students may complete an interdisciplinary certificate program in Russian and East European studies while pursuing a bachelor's degree in their chosen field. The requirements for the Russian and East European Studies Certificate comprise (1) three years (22 semester hours) of Russian or another Eurasian or East European language and (2) 30 upper-division semester hours in Russian, East European, and Eurasian area-related course work.

At least three disciplines must be represented in the area-related course work, and at least 12 semester hours must be outside the Department of Languages and Literatures (i.e., non-RUS and non-FLA courses). Fulfillment of these requirements is certified by the Russian and East European Studies Center and is recognized on the transcript by a bachelor's degree with "Major in [Discipline], and Certificate in Russian and East European Studies." The purpose of this undergraduate certificate program is to encourage students majoring in a chosen discipline to develop special competency in Russian or East European language and area studies. A student with a major in any department may pursue this certificate.

For more information, call 480/965-4188, or visit COOR 4465.

BIS Concentration. A concentration in Russian and East European studies is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

Scandinavian Studies. Students admitted to undergraduate degree programs in any field are eligible for the Scandinavian Studies Certificate program. In addition to the course work and examinations required in the student's major, the student is responsible for fulfilling the following minimum requirements (21 semester hours) before the certificate is issued:

1. six semester hours of Norwegian or Swedish at the 200 level or above;
2. three semester hours in SCA 250 Introduction to Scandinavian Culture;
3. nine semester hours of upper-division course work in Scandinavian Studies outside the student's major discipline;

4. a minimum of a "C" (2.00) average in all course work leading to the certificate; and
5. three semester hours in an independent study thesis on a topic concerning Scandinavian Studies. The thesis may be used to fulfill the Barrett Honors College thesis requirement for students enrolled in the Barrett Honors College.

Students who test out of the basic language courses would, with advising, take other approved courses to fulfill the minimum requirement of 21 semester hours.

For more information, call the Department of Languages and Literatures at 480/965-6281.

BIS Concentration. A concentration in Scandinavian studies is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

Scholarly Publishing. See the *Graduate Catalog* for information on this certificate program.

Southeast Asian Studies. A Certificate in Southeast Asian Studies is available to any undergraduate student. The certificate program offers two options: (1) an area studies specialization emphasizing courses in the social sciences and humanities and requiring one year of Indonesian, Thai, or Vietnamese and (2) a language specialization requiring a two-year sequence in a Southeast Asian language and a proportional number of area studies courses.

Students wishing to study a Southeast Asian language other than those offered on campus may transfer credits earned at the Southeast Asian Studies Summer Institute, a consortium for intensive language and area studies, or at other accredited programs. Qualified students may request placement testing on other national languages of the region, administered in accordance with the national American Council of Teachers in Foreign Languages (ACTFL) guidelines.

The ASU curriculum includes

1. language instruction in Indonesian, Thai, or Vietnamese;
2. ASB/GCU/HST/POS/REL 240 Introduction to Southeast Asia;
3. HST 391 Modern Southeast Asia;
4. electives in the social sciences and humanities on the history, geography, culture, politics, and religion of the region; and
5. a culminating capstone seminar in which the students share multidisciplinary approaches to the region and integrate knowledge of Southeast Asia with their respective disciplinary orientations.

Courses counting toward the Certificate in Southeast Asian Studies fulfill requirements for undergraduate majors and General Studies in the social and behavioral sciences, humanities, literacy, and global and historical awareness areas. A two-year sequence in Southeast Asian language study meets the foreign language requirement for undergraduates in CLAS.

For more information, visit the Program for Southeast Asian Studies in COOR 6611 or call 480/965-4232.

BIS Concentrations. Concentrations in Southeast Asian studies (area studies option or language option) are available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

Symbolic Systems. The Department of Philosophy offers a Certificate in Symbolic Systems. The certificate program takes an interdisciplinary approach to cognition, computation, and meaning. Course work is divided evenly between philosophy, psychology, and computer science in order to expose students to the subject matter from a conceptual, empirical, and practical point of view. The certificate may interest students with majors in any of the three disciplines on topics of common interest.

The certificate consists of 28 semester hours approved by an advisor in the Department of Philosophy and divided evenly between computer science and engineering, psychology, and philosophy as follows:

1. CSE 205, 210, and 240;
2. PSY 230 and 290 and either PSY 323, 324, or 437; and
3. either PHI 319, or 333, either PHI 315 or 317, and either PHI 312 or 314.

Students must satisfy the prerequisites for the listed courses. With written approval from the director of undergraduates studies in the Department of Philosophy, one substitution course from outside this list is allowed. All courses must be passed with a minimum grade of "C" (2.00).

For more information, visit the Department of Philosophy in COOR 3309, or call 480/965-3394.

Translation. See "Translation Certificate (Spanish/English)," page 583, for information about the Certificate in Translation.

Women and Gender Studies. Women and Gender Studies provides students with an intensive interdisciplinary liberal arts education that enables them to write well, think critically, and analyze problems effectively.

The certificate program is equivalent to an interdisciplinary minor, consisting of 18 credit hours, and is open to graduate as well as undergraduate students. Students pursuing a certificate in Women and Gender Studies must consult with the Women and Gender Studies advisor to select appropriate courses and fulfill requirements.

A Certificate of Concentration in Women and Gender Studies is awarded for the successful completion of WST 100 (or 300) and WST 377 or 378 and an additional 12

semester hours from the list of approved Women and Gender Studies courses.

Inquiries about the certificate program should be addressed to the Women and Gender Studies Program academic advisor in ECA 209, 480/965-2358, where the current list of approved courses is available.

GENERAL INFORMATION

Research Centers. To expand educational horizons and to enrich the curriculum, CLAS maintains the following research centers:

Arizona Center for Medieval and Renaissance Studies
Center for Asian Studies
Center for Biology and Society
Center for Film and Media Research
Center for Metabolic Biology
Center for Meteorite Studies
Center for Solid State Science
Center for the Study of Early Events in Photosynthesis
Center for the Study of Religion and Conflict
Exercise and Sport Research Institute
Hispanic Research Center
Institute of Human Origins
Joan and David Lincoln Center for Applied Ethics
Latin American Studies Center
Russian and East European Studies Center

CLAS also participates with the College of Education and the Ira A. Fulton School of Engineering in maintaining the Center for Research on Education in Science, Mathematics, Engineering, and Technology. See "Research Centers," page 39, for more information.

Courses. The faculty also offers the following LIA courses to familiarize students with available resources and services for research purposes.

For information on these courses, see the *Schedule of Classes,* visit the Office of Undergraduate Programs in FOUND 110, or call 480/965-6506.

LIBERAL ARTS AND SCIENCES (LIA)

M LIA 191 First-Year Seminar. (1–3)
selected semesters
Fee.

M LIA 194 Special Topics. (1–4)
fall
Topics may include the following:
- Student Success Seminar. (1)

M LIA 294 Special Topics. (1–4)
fall
Topics may include the following:
- Introduction to Liberal Arts and Sciences. (1)

M LIA 394 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Career Management for CLAS Majors. (1–3)
  Fee.

M LIA 484 CLAS Internship. (1–12)
fall, spring, summer

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

HUMANITIES (HUM)

As of fall 2005, the BA degree in Interdisciplinary Humanities was disestablished. A limited number of HUM courses are offered each semester. Access www.asu.edu/aad/catalogs/courses for the most current list of courses.

Department of Aerospace Studies

Air Force ROTC

www.asu.edu/clas/afrotc
480/965-3181
SS 352

Col. David W. Guthrie, Chair

Professor: Guthrie

Assistant Professors: Kwasnoski, Marks, Thomas

PURPOSE

The Department of Aerospace Studies curriculum consists of the general military course and history for freshmen and sophomores (AES 101, 102, 103, 104, 201, 202, 203, 204) and the professional officer course for juniors and seniors (AES 301, 302, 303, 304, 401, 402, 403, 404).

General Qualifications. Students entering the Air Force Reserve Officers' Training Corps (AFROTC) must meet the following requirements:

1. be a citizen of the United States (noncitizens may enroll but must obtain citizenship before commissioning);
2. be of sound physical condition; and
3. be at least 17 years of age for scholarship appointment or admittance to the Professional Officer Course (POC).

Additionally, scholarship recipients must be able to fulfill commissioning requirements by age 27. If designated for flying training, the student must be able to complete all commissioning requirements before age 29; persons in other categories must be able to complete all commissioning requirements before age 35.

FOUR-YEAR PROGRAM (GMC AND POC)

A formal application is not required for students entering the four-year program. A student may enter the program by simply registering for one of the general military course (GMC) classes at the same time and in the same manner as other courses. GMC students receive two semester hours for each AES 100- and 200-level class completed for a total of

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

eight semester hours. GMC students not on AFROTC scholarship incur no military obligation. Each candidate for commissioning must pass an Air Force aptitude test and a physical examination and be selected by a board of Air Force officers. If selected, the student then enrolls in the POC the last two years of the AFROTC curriculum. Students attend a four-week field training course at an Air Force base normally between the sophomore and junior years. Upon successful completion of the POC and the college requirements for a degree, the student is commissioned in the U.S. Air Force as a second lieutenant. The new officer then enters active duty or may be granted an educational delay to pursue graduate work.

TWO-YEAR PROGRAM (POC)

The basic requirement for entry into the two-year program is that the student have two academic years of college work remaining, either at the undergraduate or graduate level. Applicants seeking enrollment in the two-year program must pass an Air Force aptitude test and medical examination and be selected by a board of Air Force officers. After successfully completing a six-week field training course at an Air Force base, the applicant may enroll in the professional officer course (POC) in the AFROTC program. Upon completion of the POC and the college requirements for a degree, the student is commissioned.

Note: This program is subject to change without notice.

Qualifications. The following requirements must be met for admittance to the POC:

1. The four-year student must successfully complete the general military course and the four-week field training course.
2. The two-year applicant must complete a six-week field training course.
3. All students must pass the Air Force Officer Qualifying Test (AFOQT).
4. All students must pass the Air Force physical examination.
5. All students must maintain the minimum GPA required by the college.
6. All students must meet the physical fitness requirements.

Pay and Allowances. POC members in their junior and senior years receive $350 and $400 respectively per month for a maximum of 20 months of POC attendance. Students are also paid to attend field training. In addition, uniforms, housing, and meals are provided during field training at no cost to the student. Students are reimbursed for travel to and from field training.

Scholarships. AFROTC offers scholarships annually to outstanding young men and women on a nationwide competitive basis. Scholarships can cover college tuition for nonresident students and provide an allowance for books, fees, supplies and equipment, and a monthly tax-free allowance of $250 to $400 depending on the year. Scholarships are available on a four-, three-, or two-year basis. To qualify for a four- or three-year scholarship, a student must be a U.S. citizen and submit an application before December 1 of the senior year in high school. Interested students should consult their high school counselors or contact AFROTC at ASU for application forms to be submitted to

HQ AFROTC
MAXWELL AFB
AL 36112-6663

Applications can also be submitted online at www.afrotc.com.

Students enrolled in AFROTC at ASU are eligible for a limited number of three- or two-year scholarships. Those students interested must apply through the Department of Aerospace Studies. Consideration is given to academic grades, the score achieved on the AFOQT, and physical fitness. A board of officers considers an applicant's personality, character, and leadership potential.

AEROSPACE STUDIES (AES)

M AES 101 Air Force Today I. (2)
fall
Introduces U.S. Air Force and AFROTC. Topics include: the Air Force mission and organization, customs and courtesies, officer opportunities, officership, and professionalism.

M AES 102 Leadership Lab. (0)
fall
Emphasizes common Air Force customs and courtesies, drill and ceremonies, health and physical fitness through group participation. Corequisite: AES 101.

M AES 103 Air Force Today II. (2)
spring
Continuation of AES 101. Topics include: the Air Force mission and organization, customs and courtesies, officer opportunities, officership, and professionalism. Prerequisite: AES 101 or department approval.

M AES 104 Leadership Lab. (0)
spring
Continuation of AES 102 with more in-depth emphasis on learning the environment of an Air Force officer. Corequisite: AES 103.

M AES 201 The Evolution of USAF Air and Space Power I. (2)
fall
Further preparation of the AFROTC candidate. Topics include: Air Force heritage and leaders, communication skills, ethics, leadership, quality Air Force, and values. Prerequisite: AES 103 or department approval.

M AES 202 Leadership Lab. (0)
fall
Application of advanced drill and ceremonies, issuing commands, knowing flag etiquette, and developing, directing, and evaluating skills to lead others. Corequisite: AES 201.

M AES 203 The Evolution of USAF Air and Space Power II. (2)
spring
Continuation of AES 201. Topics include: the Air Force mission and organization, customs and courtesies, officer opportunities, officership, and professionalism. Prerequisite: AES 201 or department approval.

M AES 204 Leadership Lab. (0)
spring
Continuation of AES 202 with emphasis on preparation for field training. Corequisite: AES 203.

M AES 301 Air Force Leadership Studies I. (3)
fall
Study of communication skills, leadership and quality management fundamentals, leadership ethics, and professional knowledge required of an Air Force officer. Prerequisite: AES 203 or department approval.
General Studies: L

M AES 302 Leadership Lab. (0)
fall
Advanced leadership experiences applying leadership and management principles to motivate and enhance the performance of other cadets. Corequisite: AES 301.

M AES 303 Air Force Leadership Studies II. (3)
spring
Continuation of AES 301. Topics include: communication skills, ethics, leadership, professional knowledge, and quality management required of an Air Force officer. Prerequisite: AES 203 or department approval.
General Studies: L

M AES 304 Leadership Lab. (0)
spring
Continuation of AES 302 with emphasis on planning the military activities of the cadet corps and applying advanced leadership methods. Corequisite: AES 303.

M AES 401 National Security Affairs. (3)
fall
Examines advanced ethics, Air Force doctrine, national security process, and regional studies. Special topics include: civilian control of the military, military justice, and officership. Prerequisite: AES 303 or department approval.
General Studies: L

M AES 402 Leadership Lab. (0)
fall
Advanced leadership experience demonstrating learned skills in planning and controlling the military activities of the corps. Corequisite: AES 401.

M AES 403 Preparation for Active Duty II. (3)
spring
Continuation of AES 401. Topics include: civilian control of the military, doctrine, ethics, military justice, the national security process, and officership. Prerequisite: AES 401 or department approval.

M AES 404 Leadership Lab. (0)
spring
Continuation of AES 402 with emphasis on preparation for transition from civilian to military life. Corequisite: AES 403.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

The African and African American Studies program offers an interdisciplinary examination of the many ways in which African and African-descended peoples have created robust lives for themselves and, in turn, contributed to the creation of the modern world. The program's mission

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

is advanced by its core undergraduate curriculum and certificate and minor programs that examine the culture, arts, history, politics, economics, and current status of African Americans, Africans and the African Diaspora everywhere, especially in the Caribbean, Central America, and South America. The curriculum combines a research-based understanding of the humanities, social and behavioral sciences, and the arts with practical applications (internships, community/civic engagement, and research projects) to prepare students for lifelong learning, advanced study in a variety of fields, and successful careers and productive public service in an increasingly diverse society, especially in Arizona.

AFRICAN AND AFRICAN AMERICAN STUDIES—BA

Course Requirements. The major in African and African American Studies (AAAS) requires 45 semester hours of course work. A minimum of 30 semester hours must be AFH, AFR, and AFS courses. The remaining course work must be in a related field approved by an AAAS advisor. All students in the major are required to take the following 15 semester hours of core courses:

AFH 300 Precolonial Africa 3
AFS 200 Introduction to African and African Diaspora Studies....3
AFS 301 Race and Racism in Africa/African Diaspora 3
AFS 312 Contemporary African and African Diaspora Women 3
AFS 484 Field Experience/Internship 3
or AFS 498 Pro-Seminar (3)

Regional Emphasis Area. In addition to the 15-semester-hour core curriculum, students in the AAAS program may choose a 15-semester-hour regional emphasis area in Africa, Caribbean and Afro-Latin America, or African America. The courses that satisfy the requirements for each regional emphasis area are grouped thematically (History; Governance and Politics; Family, Health, Gender, and Society; and Culture and Literature) to provide students a variety of choices to satisfy their academic interests.

Africa Emphasis Area Requirements. Students who opt for the Africa regional emphasis area must take:

AFH 335 Survey of African Literatures....3
or AFS 355 Democracy and Civil Society in Africa (3)
AFS 340 The Making of Modern Africa....3
Related courses* 9
Total 15

* Six semester hours of Africa-related courses (i.e., 50 percent or more Africa content) at the 300 level and three semester hours of courses at the 400 level are required. At least nine of the 15 hours in this emphasis area must be completed at ASU.

Caribbean and Afro-Latin American Emphasis Area Requirements. Students who opt for the Caribbean and Afro-Latin America regional emphasis area must take:

AFH 318 African and African Diaspora Women Writers 3
or AFH 319 Black Experience in Latin America (3)
AFS 345 The Making of the Caribbean Society 3
Related courses* 9
Total 15

* Six semester hours of Caribbean and Afro-Latin American-related courses (i.e., 50 percent or more Caribbean and Afro-Latin American content) at the 300 level and three semester hours of courses at the 400 level are required. At least nine of the 15 semester hours in this emphasis area must be completed at ASU.

African America Emphasis Area Requirements. Students who opt for the African America regional emphasis area must take:

AFH 318 African and African Diaspora Women Writers 3
or AFR 210 Introduction to African American Studies *C* (3)
AFS 363 African American History to 1865 *SB, C, H* 3
or AFH 364 African American History Since 1865 *SB, C, H* (3)
Related courses* 9
Total 15

* Six semester hours of African American-related courses (i.e., 50 percent or more African American content) at the 300 level and three semester hours of courses at the 400 level are required. At least nine of the 15 semester hours in this emphasis area must be completed at ASU.

Thematic Emphasis Area. Students in the African and African American Studies program may also opt for a 15-semester-hour thematic emphasis area by taking the following courses:

AFH 305 The Global History of the Trans-Atlantic Slave Trade ..3
or AFS 415 Black Political Thought and the Limits of Liberal Democracy (3)
Related courses* 12
Total 15

* Twelve semester hours of courses chosen from at least three thematic areas listed below; or from other African and African American Studies-related courses (i.e., 50 percent or more thematic content) at the 300 and 400 levels are required. At least nine of the 15 semester hours in this emphasis area must be completed at ASU.

History
AFH 300 Precolonial Africa 3
AFH 305 The Global History of the Trans-Atlantic Slave Trade ..3
AFH 319 Black Experience in Latin America 3
AFH 465 Harlem Renaissance: A Cultural History: 1877–1945....3
AFS 340 The Making of Modern Africa....3
AFS 345 The Making of the Caribbean Society 3
AFS 363 African American History to 1865 *SB, C, H*....3
AFS 364 African American History Since 1865 *SB, G, H*....3
AFS 366 African Archaeology: Precolonial Urban Culture *SB, C, H*....3
AFS 466 Peoples and Cultures of Africa *SB, G, H* 3

Governance and Politics
AFR 210 Introduction to African American Studies *C*....3
AFS 200 Introduction to African and African Diaspora Studies....3
AFS 301 Race and Racism in Africa/African Diaspora....3
AFS 304 Islands of Globalization: Caribbean Political Economy 3
AFS 320 Africa: Politics, Environment, and Development 3

AFS 327 Human Rights in Africa 3
AFS 355 Democracy and Civil Society in Africa 3

Culture and Literature
AFH 303 African and African American Art 3
AFH 318 African and African Diaspora Women Writers 3
AFH 331 Studies in African American Women Writers of Pre-Harlem Renaissance 3
AFH 333 American Ethnic Literature *L/HU, C* 3
AFH 335 Survey of African Literatures 3
AFH 353 African American Literature: Beginnings Through the Harlem Renaissance *L/HU, C* 3
AFH 354 African American Literature: Harlem Renaissance to the Present 3
AFH 459 Studies in African American/Caribbean Literatures *L* ...3

Gender, Family, and Society
AFR 375 Race, Gender, and Sport *SB, C* 3
AFR 428 Critical Race Theory 3
AFR 460 Race, Gender, and Media *C* 3
AFS 312 Contemporary African and African Diaspora Women ...3
AFS 360 Black Families in the Diaspora: U.S. and Caribbean.....3
AFS 370 Family, Ethnic, and Cultural Diversity *SB, C* 3

Of the remaining course work, 15 hours may be taken in related area courses (i.e., non-African and African American Studies programs prefixes with at least 50 percent African, Caribbean, and Afro-Latin American, or African American continent) in consultation with the AAAS advisor and/or director.

Students are expected to fulfill the college's language requirement in African languages or any of the languages spoken by the African Diaspora, such as Arabic, French, Portuguese, and Spanish.

CERTIFICATE IN AFRICAN AND AFRICAN AMERICAN STUDIES

Course Requirements. The certificate requires 24 semester hours. Fifteen core hours must be taken from the following courses:

AFH 353 African American Literature: Beginnings Through the Harlem Renaissance *L/HU, C* 3
or AFH 354 African American Literature: Harlem Renaissance to the Present *L/HU, C* (3)
AFR 210 Introduction to African American Studies *C* 3
AFR 429 African American Studies Theory and Methods 3
AFS 363 African American History to 1865 *SB, C, H* 3
AFS 364 African American History Since 1865 *SB, C, H* 3

In addition, one course from each of the three concentrations (i.e., social and behavioral sciences, humanities/arts, politics and society) must be taken. These courses are in addition to the required core courses. Courses should be selected in consultation with the major advisor.

MINOR IN AFRICAN AND AFRICAN AMERICAN STUDIES

Course Requirements. The minor requires 18 semester hours. All African and African American Studies minors must take the following six core hours:

AFH 300 Precolonial Africa 3
AFS 200 Introduction to African and African Diaspora Studies...3
Choose one of the following regional courses 3
AFH 319 Black Experience in Latin America (3)
AFR 210 Introduction to African American Studies *C* (3)
AFS 340 The Making of Modern Africa (3)
AFS 355 Democracy and Civil Society in Africa (3)
Related courses* 9
Total 18

* Nine semester hours are required, with one 300 or 400 level course from each of the following thematic areas: Culture and Literature; Politics and Governance; and Family, Gender, and Society. At least 50 percent of the course content (which may or may not be AFH or AFS) must deal with African peoples inside and outside the African continent. At least nine of the 15 semester hours in this certificate must be completed at ASU.

BIS CONCENTRATION

A concentration in African and African American studies is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

AFRICAN AND AFRICAN AMERICAN STUDIES HUMANITIES (AFH)

M AFH Note 1. Completion of the First-Year Composition requirement (ENG 101 and 102 [or 105] or ENG 107 and 108 with a grade of "C" [2.00] or higher) is a prerequisite for all English courses above the 100 level.

M AFH Note 2. A term paper or equivalent out-of-class written work is required in all upper-division (300- and 400-level) ENG courses.

M AFH Note 3. English majors and minors are expected to have completed ENG 200 before taking 400-level literature courses.

M AFH 202 Art of Africa, Oceania, and the Americas. (3)
spring
History of art of Africa, Oceania, and the New World. Meets non-Western art history requirement. Lecture, discussion. Cross-listed as ARS 202. Credit is allowed for only AFH 202 or ARS 202.
General Studies: HU, G, H

M AFH 300 Precolonial Africa. (3)
fall
Surveys social, economic, political, cultural, and economic institutions and civilizations of Africa before European colonialism. Lecture, discussion, films.

M AFH 303 African and African American Art. (3)
fall, spring, summer
Anthropological perspective of African and African American visual art traditions from the past to 1970. Lecture, discussion, video and slide films.

M AFH 305 The Global History of the Trans-Atlantic Slave Trade. (3)
selected semesters
Origins, development, abolition, and impact of Atlantic slave trade as a global economic enterprise and great human tragedy; slavery experience. Lecture, discussion, films.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M AFH 318 African and African Diaspora Women Writers. (3)
spring
Intersection of race, class, gender, and ethnicity in black women's fiction from the United States, the Caribbean, and Africa. Lecture, discussion, films.

M AFH 319 Black Experience in Latin America. (3)
selected semesters
Examines several aspects of the experience of Africans in the Latin America diaspora; comparisons with United States. Lecture, discussion, films. Prerequisite: sophomore standing.

M AFH 331 Studies in African American Women Writers of Pre-Harlem Renaissance. (3)
fall
Focuses on novels, short stories, essays, speeches, and dramas that gave "voices" to African American woman in pre-Harlem Renaissance era. May be repeated for credit when topics vary. Lecture, discussion, films.

M AFH 333 American Ethnic Literature. (3)
once a year
Examines America's multiethnic identity through works of literature that depict American ethnic, gender, and class sensibilities. Cross-listed as ENG 333. Credit is allowed for only AFH 333 or ENG 333. See AFH Notes 1, 2.
General Studies: L/HU, C

M AFH 335 Survey of African Literatures. (3)
selected semesters
Intersection of colonialism, race, class, gender, nationalism, postcoloniality, social transformation, and ethnicity in African writers' fiction and literary production. Lecture, discussion, films.

M AFH 347 Jazz in America. (3)
fall, spring, summer
Current practices employed by contemporary jazz musicians; the historical development of jazz techniques. Credit does not apply to major requirements for music degrees. Lecture, discussion. Cross-listed as MUS 347. Credit is allowed for only AFH 347 or MUS 347. Fee.
General Studies: HU, C

M AFH 353 African American Literature: Beginnings Through the Harlem Renaissance. (3)
fall
Historical survey of African American literary traditions and cultural contexts from slavery through the 1930s. Cross-listed as ENG 353. Credit is allowed for only AFH 353 or ENG 353. See AFH Notes 1, 2.
General Studies: L/HU, C

M AFH 354 African American Literature: Harlem Renaissance to the Present. (3)
spring
Historical survey of African American literary traditions and cultural contexts from the 1920s to the present. Cross-listed as ENG 354. Credit is allowed for only AFH 354 or ENG 354. See AFH Notes 1, 2.
General Studies: L/HU, C

M AFH 459 Studies in African American/Caribbean Literatures. (3)
selected semesters
Studies in African American or Caribbean literatures according to genre, period, theory, or selected authors. May be repeated for credit when topics vary. Cross-listed as ENG 459. Credit is allowed for only AFH 459 or ENG 459. See AFH Notes 1, 2, 3. Topics may include the following:
- African American Short Story
  General Studies: L

M AFH 465 Harlem Renaissance: A Cultural History: 1877–1945. (3)
spring
Socio-political, historical contexts and worldwide ramifications of the cultural productions (theater, music, visual arts, and literature) of the Harlem Renaissance. Lecture, discussion, films.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

AFRICAN AND AFRICAN AMERICAN STUDIES (AFR)

M AFR 191 First Year Seminar. (1–3)
selected semesters

M AFR 194 Special Topics. (1–4)
selected semesters

M AFR 210 Introduction to African American Studies. (3)
fall
Examines the political, historical, and cultural origins of African American studies as an academic discipline. Lecture, discussion.
General Studies: C

M AFR 294 Special Topics. (1–4)
selected semesters

M AFR 298 Honors Directed Study. (1–6)
selected semesters

M AFR 317 Genes, Race, and Society. (3)
spring
Examines history of biological and social constructions of "race" in western society. Lecture, discussion.
General Studies: SB, C, H

M AFR 375 Race, Gender, and Sport. (3)
fall and spring
Interdisciplinary examination of the social concepts of race and gender and their economic impact on sports in America. Lecture, discussion. Prerequisite: ENG 102 (or its equivalent) or instructor approval.
General Studies: SB, C

M AFR 394 Special Topics. (1–4)
selected semesters

M AFR 428 Critical Race Theory. (3)
spring
Examines ways in which race has been historically utilized, constructed, and contested in American civil society. Lecture, discussion.

M AFR 429 African American Studies Theory and Methods. (3)
spring
Examines social and behavioral science theories and methodological procedures pertaining to African Americans. Prerequisite: senior standing.

M AFR 460 Race, Gender, and Media. (3)
spring and summer
Reading seminar designed to give a probing examination of the interface between AHANA Americans and the mass media in the United States. Lecture, discussion. Cross-listed as MCO 460. Credit is allowed for only AFR 460 or MCO 460.
General Studies: C

M AFR 484 Internship. (1–12)
selected semesters

M AFR 490 Field Studies in the Diaspora. (3)
spring
Introduces methods and principles of research applied to Black communities within and outside Arizona. Involves working with field officer and faculty. Lecture, field study. Prerequisite: senior standing. Pre- or corequisite: AFR 429.

M AFR 492 Honors Directed Study. (1–6)
selected semesters

M AFR 493 Honors Thesis. (1–6)
selected semesters
General Studies: L

M AFR 494 Special Topics. (1–4)
selected semesters

M AFR 497 Honors Colloquium. (1–6)
selected semesters

M AFR 498 Pro-Seminar. (3)
spring
Topic is selected by instructor in consultation with the student. Designed to integrate and develop research skills. Required for majors. Prerequisite: senior standing. Pre- or corequisite: AFR 429.

M AFR 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

AFRICAN AND AFRICAN AMERICAN STUDIES SOCIAL SCIENCE (AFS)

M AFS 200 Introduction to African and African Diaspora Studies. (3)
spring
Introduces the study of African and African-descended peoples; theory, themes, and perspectives. Lecture, discussion.

M AFS 202 Ethnic Relations in the United States. (3)
fall and spring
Processes of intercultural relations; systems approach to history of U.S. interethnic relations; psychocultural analysis of contemporary U.S. ethnic relations. Lecture, discussion. Cross-listed as ASB 202. Credit is allowed for only AFS 202 or ASB 202.
General Studies: SB, C, H

M AFS 210 Introduction to Ethnic Studies in the U.S. (3)
fall and spring
Covers diversity of experiences and relations among racial and ethnic groups in the United States. Lecture, discussion. Cross-listed as APA 210/CCS 210. Credit is allowed for only AFS 210 or APA 210 or CCS 210.
General Studies: C

M AFS 301 Race and Racism in Africa/African Diaspora. (3)
spring
Construction of race, racism, and race relations in Africa/African Diaspora; practices of agency to challenge ethnicity, racism, and racial oppression. Lecture, discussion, films.

M AFS 304 Islands of Globalization: Caribbean Political Economy. (3)
spring
Impact of globalization on the economic, political, and social condition of the islands and mainland countries of the Caribbean. Lecture, discussion, films.

M AFS 310 African/African American Psychology. (3)
fall and spring
Historical and contemporary overview of the development of African/Black psychology and African American frame of reference. Lecture, discussion.

M AFS 312 Contemporary African and African Diaspora Women. (3)
selected semesters
Explores recent literary, theoretical, and methodological themes concerning the study of African/African Diaspora women and the phenomena of modernization. Lecture, discussion, films.

M AFS 320 Africa: Politics, Environment, and Development. (3)
selected semesters
Uses African experience to understand the consequences of human environment relationships, wealth and power differentials, and individual and global citizenship. Lecture, discussion, films. Prerequisite: sophomore standing.

M AFS 327 Human Rights in Africa. (3)
selected semesters
Comparative study of human rights focusing on colonial and post-colonial Africa from historical and contemporary perspectives. Lecture, discussion, films. Prerequisite: junior standing.

M AFS 340 The Making of Modern Africa. (3)
spring
Events and processes leading to the colonization of Africa and subsequent changes in African societies under colonial rule and independence. Lecture, discussion, films. Prerequisite: ENG 102.

M AFS 345 The Making of the Caribbean Society. (3)
selected semesters
Historical socioeconomic and political factors and institutions creating the wider Caribbean from the 15th century to the present. Lecture, discussion, films.

M AFS 355 Democracy and Civil Society in Africa. (3)
selected semesters
Examines contending perspectives on the state and civil society and democratic struggles using sub-Saharan Africa and case study. Lecture, discussion, films. Prerequisite: junior standing.

M AFS 360 Black Families in the Diaspora: U.S. and Caribbean. (3)
fall
Comparative study of historical and current themes in the structure and internal dynamics of African Diaspora families. Lecture, discussion, films.

M AFS 363 African American History to 1865. (3)
once a year
The African American in American history, thought, and culture from slavery to 1865. Cross-listed as HST 333. Credit is allowed for only AFS 363 or HST 333.
General Studies: SB, C, H

M AFS 364 African American History Since 1865. (3)
once a year
The African American in American history, thought, and culture from 1865 to the present. Cross-listed as HST 334. Credit is allowed for only AFS 364 or HST 334.
General Studies: SB, C, H

M AFS 366 African Archaeology: Precolonial Urban Culture. (3)
fall and spring
Overview of African civilization from the last 10,000 years up to 1850 via archaeological, documentary, and oral data. Lecture, discussion. Cross-listed as ASB 366. Credit is allowed for only AFS 366 or ASB 366.
General Studies: SB, G, H

M AFS 370 Family, Ethnic, and Cultural Diversity. (3)
fall and spring
Integrative approach to understanding historical and current issues related to the structure and internal dynamics of diverse American families. Lecture, discussion. Cross-listed as FAS 370. Credit is allowed for only AFS 370 or FAS 370. Prerequisite: PGS 101 or SOC 101.
General Studies: SB, C

M AFS 415 Black Political Thought and the Limits of Liberal Democracy. (3)
selected semesters
Black political and social thought; conflict between liberal democratic ideals and structures of domination and exploration from African Diaspora perspectives. Lecture, discussion, films.

M AFS 466 Peoples and Cultures of Africa. (3)
fall and spring
Survey of African peoples and their cultures, external contact, and changes. Meets non-Western requirement. Lecture, discussion. Cross-listed as ASB 466. Credit is allowed for only AFS 466 or ASB 466.
General Studies: SB, G, H

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

American Indian Studies Program

www.asu.edu/clas/americanindian
480/965-3634
AG 372

Eddie F. Brown, Director

Professor: Brown

Associate Professors: Lujan, Riding In

Assistant Professors: Miller, Vicenti Carpio

The American Indian Studies Program is an academic discipline that emphasizes the political and cultural experience of the various American Indian Nations and peoples of the United States. Course work focuses on the cultures, arts, history, and contemporary experiences of the various American Indian nations. The curriculum also concentrates on the practical application for professional career development, preparation for advanced degree programs, and preparation for service to Indian governments and reservations. It emphasizes scholarly expertise in selected fields of study and its practical application to community service.

AMERICAN INDIAN STUDIES—BS

Students pursuing a BS degree in American Indian Studies gain a broad knowledge of American Indian nations and peoples, with particular emphasis on Southwest American Indian nations. The degree program offers courses that provide students with intellectual and practical knowledge pertaining to American Indian cultures, history, law, literature, language, art, and government.

Students are required to take 42 semester hours, including 24 hours of required courses and 18 hours in one of two areas of emphasis: (1) legal policy, community, and nation building; or (2) arts, languages, and cultures. Contact the program office for a current list of elective courses. Students must receive a minimum grade of "C" (2.00) in required and emphasis courses. The following courses are required for all students majoring in American Indian Studies:

AIS	180	Introduction to American Indian Studies *C*	3
AIS	280	American Indian Sovereignty and the Courts *C*	3
AIS	285	Federal Indian Policy	3
AIS	370	American Indian Languages and Cultures	3
AIS	380	Contemporary Issues of American Indian Nations	3
AIS	394	ST: Basic Statistical Analysis*	3
AIS	420	American Indian Studies Research Methods *L*	3
AIS	498	Pro-Seminar	3

* Until American Indian Studies is able to offer its own course in statistical research methods, students must take JUS 302, or a comparable course, in consultation with an advisor.

To assure the breadth and depth of their education, all American Indian Studies undergraduates must complete the requirements of the university General Studies program and the College of Liberal Arts and Sciences. For descriptive information on university requirements, see "General Studies," page 93, and "University Graduation Requirements," page 89. For descriptive information on College of Liberal Arts and Sciences requirements, see "College Graduation Requirements," page 503.

As part of the College of Liberal Arts and Sciences living-learning community concept, students learn scientific methods together during class and share the same residence hall.

Tim Trumble photo

MINOR IN AMERICAN INDIAN STUDIES

The minor in American Indian Studies is designed for students interested in developing an understanding of American Indian issues and analyzing issues through critical inquiry. Fifteen semester hours are required, including AIS 180, 380, and 385 and six elective semester hours from the two areas of emphasis. No pass/fail or credit/noncredit course work may be applied to the minor. A minimum of nine hours must be in resident credit at the Tempe campus. Students must receive a minimum grade of "C" (2.00) for all courses in the minor and meet all course eligibility requirements.

CERTIFICATE IN AMERICAN INDIAN STUDIES

The certificate program recognizes the need for training American Indian and non-Indian students for employment and leadership roles in American Indian government, in state/federal agencies, in education programs, and in urban and Indian community programs.

To this end, the American Indian Studies Certificate program seeks to address the myriad of contemporary social, political, and economic problems and issues impacting American Indian people.

The program provides students with

1. useful knowledge pertaining to American Indian sovereignty, government, law, history, economic development, and culture;
2. practical experience in the form of an off-campus internship working in an American Indian government, a community program, an educational entity, an urban program, or a state/federal agency; and
3. educational skills so that graduates can pursue jobs with an American Indian focus.

A certificate in American Indian Studies requires the completion of 21 semester hours. A minimum of 12 hours must be upper division, and a minimum grade of "C" (2.00) or higher is required except for the AIS Internship course, which requires a passing "Y" grade.

AIS	180	Introduction to American Indian Studies *C*	3
AIS	280	American Indian Sovereignty and the Courts *C*	3
AIS	380	Contemporary Issues of American Indian Nations	3
AIS	484	Internship	3
AIS	494	ST: Law, Policy, and American Indians	3
Emphasis courses*			6

* Select courses from the two areas of emphasis; contact the program office for a current list.

For more information, call the director of the American Indian Studies Program at 480/965-3634.

BIS CONCENTRATION

A concentration in American Indian studies is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

AMERICAN INDIAN STUDIES (AIS)

M AIS 180 Introduction to American Indian Studies. (3)
once a year
Introduction to the study of American Indian justice issues from an interdisciplinary perspective. Primary topics include sovereignty, law, and culture.
General Studies: C

M AIS 194 Special Topics. (1–4)
fall and spring

M AIS 280 American Indian Sovereignty and the Courts. (3)
fall
Examines the sovereign status of American Indians and legal relationships between the tribes and the U.S. government. Lecture, discussion.
General Studies: C

M AIS 285 Federal Indian Policy. (3)
spring
Examines the sovereign status of American Indians and legal relationships between the tribes and the U.S. government. Lecture, discussion.

M AIS 294 Special Topics. (1–4)
selected semesters

M AIS 370 American Indian Languages and Cultures. (3)
fall
Emphasizes understanding of Indian language families and the relationship of oral traditions to culture. Prerequisite: AIS 180.

M AIS 380 Contemporary Issues of American Indian Nations. (3)
spring
Survey of legal, socioeconomic, political, and educational state of contemporary reservation and urban Indians. Prerequisite: AIS 180.

M AIS 394 Special Topics. (1–4)
fall and spring
Topics may include the following:
- American Indian World Views and Philosophies. (3)
- Basic Statistical Analysis. (3)

M AIS 420 American Indian Studies Research Methods. (3)
fall
Survey of diverse research methods, including statistical, historical, interpretative, and narrative approaches. Prerequisite: AIS 180.
General Studies: L

M AIS 484 Internship. (1–12)
selected semesters
Fee.

M AIS 494 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Law, Policy, and American Indians. (3)

M AIS 498 Pro-Seminar. (1–7)
selected semesters

M AIS 499 Individualized Instruction. (1–3)
selected semesters

PURPOSE

Asian Pacific American Studies is an interdisciplinary undergraduate program that addresses the historical and contemporary experiences of Asian Americans and Pacific Islanders, what they have contributed to our society, and the complexity of racial formations in the U.S.

The program is designed to help students of all ethnicities

1. to think critically, develop clear written arguments, and present their perspectives effectively;
2. to learn about Asian American and Pacific Islander experiences and communities in Arizona, nationally, and within a larger global context; and
3. to prepare students to participate in an increasingly diverse and global U.S. society.

The certificate program provides students with opportunities to think critically about interethnic cooperation and conflict in the formation of social institutions and communities. The program also encourages students to learn about local Asian American and Pacific Islander communities and organizations through research, courses, and community internships.

CERTIFICATE IN ASIAN PACIFIC AMERICAN STUDIES

Course Requirements. The certificate program requires 18 semester hours. Twelve core hours must be fulfilled by the following courses:

APA	200	Introduction to Asian Pacific American Studies *HU/SB, C*	3
APA	360	Asian Pacific American Experience *HU/SB, C*	3
APA	450	Asian Pacific American Contemporary Issues *SB, C*	3
APA	484	Internship or APA 494 ST: Asian Pacific American Communities (3)	3

The remaining six semester hours must be filled by courses from an approved list, including any additional courses with an APA prefix, as well as COM 263 and MCO 460.

Students must apply for the certificate program through the Asian Pacific American Studies Program office. For more information, call the program director at 480/965-9711.

BIS CONCENTRATION

A concentration in Asian Pacific American studies is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

ASIAN PACIFIC AMERICAN STUDIES (APA)

M APA 194 Special Topics. (1–4)
fall and spring

M APA 200 Introduction to Asian Pacific American Studies. (3)
fall and spring
Examines historical and contemporary issues facing Asian Americans and Pacific Islanders in the United States. Lecture, discussion.
General Studies: HU/SB, C

M APA 210 Introduction to Ethnic Studies in the U.S. (3)
fall and spring
Covers diversity of experiences and relations among racial and ethnic groups in the United States. Lecture, discussion. Cross-listed as AFS 210/CCS 210. Credit is allowed for only AFS 210 or APA 210 or CCS 210.
General Studies: C

M APA 294 Special Topics. (1–4)
fall and spring
Open to all students. May be repeated for credit.

M APA 310 Asian Pacific American Arts and Cultures. (3)
fall and spring
Explores Asian Pacific American cultural expression in art, literature, film, theatre, dance, and music. Lecture, discussion.
General Studies: HU, C

M APA 315 Asian Pacific American Literature. (3)
fall
Explores the literary history, critical reception, and major theories in Asian Pacific American poetry, fiction, and prose. Lecture, discussion.
General Studies: HU, C

M APA 330 Asian Pacific American Genders and Sexualities. (3)
spring
Explores gender and sexuality issues as they relate to Asian Pacific American experiences, including interracial relationships, stereotypes, feminism, queer theory. Lecture, discussion.
General Studies: SB, C

M APA 340 Asian Pacific Americans and Media. (3)
fall
Analyzes social construction of Asian Pacific American media images and resistance to those images in various historical contexts. Lecture, discussion.
General Studies: HU, C

M APA 345 Asian Pacific Americans and Film. (3)
spring
Examines representations of Asian Pacific Americans in narrative, popular, experimental, and documentary film. Lecture, discussion.
General Studies: C, H

M APA 360 Asian Pacific American Experience. (3)
fall and spring
Historical and contemporary experiences of Asian Pacific American racial/ethnic groups in the United States. Lecture, discussion. Topics may include the following:
- Chinese American
- Filipina and Filipino American
- Japanese American
- Korean American
- Pacific Islander
- South Asian American
- Southeast Asian American

General Studies: HU/SB, C

M APA 394 Special Topics. (1–4)
fall and spring
Open to all students. May be repeated for credit. Topics may include the following:
- Asian Pacific American Immigration Issues
- Asian Pacific American Legal History
- Asian Pacific American Women Issues and Identities
- Asian Pacific Americans and Politics

M APA 450 Asian Pacific American Contemporary Issues. (3)
fall and spring
Focuses on issues shaping Asian Pacific American communities, including immigration, politics, education, health, family, gender, youth, interracial relations, and other contemporary topics. Lecture, discussion. Prerequisite: APA 200 or instructor approval.
General Studies: SB, C

M APA 484 Internship. (1–12)
fall and spring
Fee.

M APA 494 Special Topics. (1–4)
fall and spring
Open to all students. May be repeated for credit. Topics may include the following:
- Asian Pacific American Communities. (3)
- Asian Pacific American Leadership
- Voices and Visions: Asian Pacific American Women, Issues, and Identities

M APA 498 Pro-Seminar. (1–7)
fall and spring

M APA 499 Individualized Instruction. (1–3)
fall and spring

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Department of Chemistry and Biochemistry

Robert E. Blankenship, Chair

Regents' Professors: Angell, Buseck, Pettit

Professors: Allen, Blankenship, Fromme, Fuchs, Glick, Gould, Gust, Holloway, Kouvetakis, Lohr, A. Moore, T. Moore, Petuskey, Rose, Shock, Skibo, Steimle, Wang, Williams, Woodbury, Yarger

Associate Professors: Anbar, Bond-Robinson, Booksh, Francisco, Hayes, Richert, Wolf

Assistant Professors: Chaput, Chen, Ghirlanda, Hartnett, Häussermann, Herckes, Levitus, Matyushov, Seo, Wachter, Yan

Senior Lecturers: Bauer, Marks

Lecturers: Briggs, Lefler, Pruis

CHEMISTRY—BA

The BA degree in Chemistry consists of 46 semester hours. Required courses are as follows:

Choose between the course combinations below..... 8 or 9
- CHM 113 General Chemistry I *SQ* (4)
- CHM 115 General Chemistry with Qualitative Analysis *SQ* (5)
- CHM 117 General Chemistry for Majors I *SQ** (4)
- CHM 118 General Chemistry for Majors II *SQ** (4)

Choose between the course combinations below.....8
- CHM 333 Organic Chemistry for Majors I* (3)
- CHM 334 Organic Chemistry for Majors II* (3)
- CHM 337 Organic Chemistry Laboratory for Majors I* (1)
- CHM 338 Organic Chemistry Laboratory for Majors II* (1)

——— *or* ———

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
CHM 325 Analytical Chemistry 3
CHM 326 Analytical Chemistry Laboratory 1
CHM 341 Elementary Physical Chemistry 3
CHM 343 Physical Chemistry Laboratory 1
CHM 453 Inorganic Chemistry 3
CHM electives 2
Minimum total ..... 29 or 30

* CHM 117, 118, 333, 334, 337, and 338 are strongly recommended for qualified students.

Related courses must include the following:

MAT 270 Calculus with Analytic Geometry I *MA* 4
MAT 271 Calculus with Analytic Geometry II *MA* 4
PHY 111 General Physics *SQ*[1, 2] 3
PHY 112 General Physics *SQ*[1, 2] 3
PHY 113 General Physics Laboratory *SQ*[1, 2] 1
PHY 114 General Physics Laboratory *SQ*[1, 2] 1
Total 16

1 More advanced PHY courses may be taken in place of PHY 111, 112, 113, and 114.
2 Both PHY 111 and 113 or PHY 112 and 114 must be taken to secure SQ credit.

The remaining courses to complete the major are determined by students in consultation with their advisors.

CHEMISTRY—BS

The program consists of 46 semester hours in chemistry and 20 hours of related courses outside the major. Required courses are as follows:

Choose between the course combinations below..... 8 or 9
CHM 113 General Chemistry I *SQ* (4)
CHM 115 General Chemistry with Qualitative Analysis *SQ* (5)
——— *or* ———
CHM 113 General Chemistry I *SQ* (4)
CHM 116 General Chemistry II *SQ* (4)
——— *or* ———
CHM 117 General Chemistry for Majors I *SQ** (4)
CHM 118 General Chemistry for Majors II *SQ** (4)
Choose between the course combinations below.....8
CHM 333 Organic Chemistry for Majors I* (3)
CHM 334 Organic Chemistry for Majors II* (3)
CHM 337 Organic Chemistry Laboratory for Majors I* (1)
CHM 338 Organic Chemistry Laboratory for Majors II* (1)
——— *or* ———
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
Total ..... 16 or 17

* CHM 117, 118, 333, 334, 337, and 338 are strongly recommended for qualified students.

Additional required chemistry courses are as follows:

CHM 240 Introduction to Physical Chemistry *CS*[1] 3
CHM 325 Analytical Chemistry 3
CHM 326 Analytical Chemistry Laboratory 1
CHM 327 Instrumental Analysis 3
CHM 328 Instrumental Analysis Laboratory 2
CHM 345 Physical Chemistry I 3
CHM 346 Physical Chemistry II 3
CHM 348 Physical Chemistry Laboratory I *L*[2] 1
CHM 349 Physical Chemistry Laboratory II *L*[2] 1
CHM 452 Inorganic Chemistry Laboratory *L*[2] 1
CHM 453 Inorganic Chemistry 3
CHM 460 Biological Chemistry 3
Chemistry elective (choose from the courses below) 3
CHM 302 Environmental Chemistry (3)
CHM 392 Introduction to Research Techniques (1–3)
CHM 424 Separation Science (3)
CHM 431 Qualitative Organic Analysis (3)
CHM 471 Solid-State Chemistry (3)
CHM 481 Geochemistry (3)
CHM 485 Meteorites and Cosmochemistry (3)
Total 30

1 Completing MAT 274 and 342 satisfies CHM 240 requirement.
2 CHM 348, 349, and 452 must all be taken to secure L credit.

Additional required related field courses are as follows:

MAT 270 Calculus with Analytic Geometry I *MA* 4
MAT 271 Calculus with Analytic Geometry II *MA* 4
MAT 272 Calculus with Analytic Geometry III *MA* 4
PHY 121 University Physics I: Mechanics *SQ*[1] 3
PHY 122 University Physics Laboratory I *SQ*[1] 1
PHY 131 University Physics II: Electricity and Magnetism *SQ*[2] 3
PHY 132 University Physics Laboratory II *SQ*[2] 1
Total 20

1 Both PHY 121 and 122 must be taken to secure SQ credit.
2 Both PHY 131 and 132 must be taken to secure SQ credit.

Transfer students are interviewed and advised of possible preparatory work. They must contact the department to arrange for the interview before registration. See "College Graduation Requirements," page 503.

CHEMISTRY—BS

Environmental Chemistry Concentration

The program consists of a minimum of 40 semester hours in chemistry or biochemistry and 26 hours of related courses. Required courses are as follows:

CHM 113 General Chemistry I *SQ* 4
CHM 115 General Chemistry with Qualitative Analysis *SQ* 5

Choose between the course combinations below.....8
CHM 333 Organic Chemistry for Majors I* (3)
CHM 334 Organic Chemistry for Majors II* (3)
CHM 337 Organic Chemistry Laboratory for Majors I* (1)
CHM 338 Organic Chemistry Laboratory for Majors II* (1)
——— *or* ———
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
Total 17

* CHM 117, 118, 333, 334, 337, and 338 are strongly recommended for qualified students.

Additional required chemistry and biochemistry courses are as follows:

CHM 240 Introduction to Physical Chemistry *CS*[1] 3
CHM 302 Environmental Chemistry 3
CHM 303 Environmental Chemistry Laboratory *L** 2
CHM 327 Instrumental Analysis.....3
CHM 328 Instrumental Analysis Laboratory.....2
CHM 345 Physical Chemistry I.....3
CHM 348 Physical Chemistry Laboratory I *L**.....1
CHM 460 Biological Chemistry 3
CHM 481 Geochemistry 3
Total 23

* CHM 303 or both CHM 349 and 452 must also be taken with CHM 348 to secure L credit.

Additional required related field courses are as follows:

GLG 321 Mineralogy.....3
MAT 270 Calculus with Analytic Geometry I *MA*.....4
MAT 271 Calculus with Analytic Geometry II *MA* 4
MAT 272 Calculus with Analytic Geometry III *MA* 4
PHY 121 University Physics I: Mechanics *SQ*[1] 3
PHY 122 University Physics Laboratory I *SQ*[1] 1
PHY 131 University Physics II: Electricity and Magnetism *SQ*[2] 3
PHY 132 University Physics Laboratory II *SQ*[2].....1
Related field elective (choose from the courses below).....3–4
BIO 320 Fundamentals of Ecology (3)
BIO 426 Limnology *L* (4)
GLG 461 Geomicrobiology (3)
Total 26–27

[1] Both PHY 121 and 122 must be taken to secure SQ credit.
[2] Both PHY 131 and 132 must be taken to secure SQ credit.

American Chemical Society Certification. A student who satisfactorily completes the BS in Chemistry program is certified by the Department of Chemistry and Biochemistry to the American Chemical Society (ACS) as having met the specific requirements for undergraduate professional training in chemistry. Graduates meeting ACS guidelines can receive a certificate to indicate this fact.

BIOCHEMISTRY—BA

The program consists of a minimum of 38 semester hours in chemistry and biochemistry and 18 semester hours of related courses. Required courses are as follows:

Choose between the course combinations below..... 8 or 9
CHM 113 General Chemistry I *SQ* (4)
CHM 115 General Chemistry with Qualitative Analysis *SQ* (5)
——— *or* ———
CHM 113 General Chemistry I *SQ* (4)
CHM 116 General Chemistry II *SQ* (4)
——— *or* ———
CHM 117 General Chemistry for Majors I *SQ** (4)
CHM 118 General Chemistry for Majors II *SQ** (4)
Choose between the course combinations below.....8
CHM 333 Organic Chemistry for Majors I* (3)
CHM 334 Organic Chemistry for Majors II* (3)
CHM 337 Organic Chemistry Laboratory for Majors I* (1)
CHM 338 Organic Chemistry Laboratory for Majors II* (1)
——— *or* ———
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
Total ..... 16 or 17

* CHM 117, 118, 333, 334, 337, and 338 are strongly recommended for qualified students.

Additional required chemistry and biochemistry courses are as follows:

BCH 461 General Biochemistry 3
BCH 462 General Biochemistry 3
BCH 467 Analytical Biochemistry Laboratory *L* 3
CHM 302 Environmental Chemistry 3
or CHM 325 Analytical Chemistry (3)
CHM 341 Elementary Physical Chemistry[1] 3
Chemistry electives (choose from the courses below).....6
BCH 392 Introduction to Research Techniques (1–3)
BCH 463 Biophysical Chemistry (3)
BCH 464 Biophysical Chemistry Laboratory (2)
BCH 465 Protein and Nucleic Acid Biochemistry (3)
CHM 302 Environmental Chemistry (3)
CHM 325 Analytical Chemistry (3)
CHM 326 Analytical Chemistry Laboratory (1)
CHM 327 Instrumental Analysis (3)
CHM 328 Instrumental Analysis Laboratory (2)
CHM 392 Introduction to Research Techniques (1–3)
CHM 424 Separation Science (3)
CHM 452 Inorganic Chemistry Laboratory *L*[2] (1–2)
CHM 453 Inorganic Chemistry (3)
CHM 471 Solid-State Chemistry (3)
CHM 481 Geochemistry (3)
Total 21

[1] CHM 345 may be taken in place of CHM 341.
[2] Both CHM 348 and 349 must also be taken with CHM 452 to secure L credit.

Additional required related field courses are as follows:

Choose from the course combinations below ..... 11 or 12
BIO 187 General Biology I *SG* (4)
BIO 188 General Biology II *SQ* (4)
BIO 340 General Genetics (4)
——— *or* ———
BIO 187 General Biology I *SG* (4)
BIO 188 General Biology II *SQ* (4)
BIO 353 Cell Biology (3)
——— *or* ———
MBB 245 Cellular and Molecular Biology *SQ* (4)
MBB 343 Genetic Engineering and Society *L* (4)
MBB 350 Applied Genetics (4)

Choose between the course combinations below.....7
MAT 251 Calculus for Life Sciences *MA*[1] (3)
PHY 101 Introduction to Physics *SQ*[2] (4)
——— *or* ———
MAT 210 Brief Calculus *MA*[1] (3)

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

PHY 101 Introduction to Physics *SQ*[2] (4)

Total ..... 18 or 19

[1] MAT 270 may be taken in place of MAT 210 or 251.
[2] The combination of PHY 111, 112, 113, and 114 may be taken in place of PHY 101.

BIOCHEMISTRY—BS

The program consists of 36 semester hours in chemistry and biochemistry and 31 semester hours of related courses. Required courses are as follows:

Choose between the course combinations below ..... 8 or 9
- CHM 113 General Chemistry I *SQ* (4)
- CHM 115 General Chemistry with Qualitative Analysis *SQ* (5)

— or —

- CHM 113 General Chemistry I *SQ* (4)
- CHM 116 General Chemistry II *SQ* (4)

— or —

- CHM 117 General Chemistry for Majors I *SQ** (4)
- CHM 118 General Chemistry for Majors II *SQ** (4)

Choose between the combinations of courses below 8
- CHM 333 Organic Chemistry for Majors I* (3)
- CHM 334 Organic Chemistry for Majors II* (3)
- CHM 337 Organic Chemistry Laboratory for Majors I* (1)
- CHM 338 Organic Chemistry Laboratory for Majors II* (1)

— or —

- CHM 233 General Organic Chemistry I (3)
- CHM 234 General Organic Chemistry II (3)
- CHM 237 General Organic Chemistry Laboratory I (1)
- CHM 238 General Organic Chemistry Laboratory II (1)

Total ..... 16 or 17

* CHM 117, 118, 333, 334, 337, and 338 are strongly recommended for qualified students.

Additional required chemistry and biochemistry courses are as follows:

BCH 461 General Biochemistry 3
BCH 462 General Biochemistry 3
BCH 463 Biophysical Chemistry 3
BCH 464 Biophysical Chemistry Laboratory 2
BCH 467 Analytical Biochemistry Laboratory *L* 3
CHM 341 Elementary Physical Chemistry* 3
Chemistry elective (choose from the courses below) 3
- BCH 392 Introduction to Research Techniques (1–3)
- BCH 465 Protein and Nucleic Acid Biochemistry (3)
- CHM 325 Analytical Chemistry (3)
- CHM 327 Instrumental Analysis (3)
- CHM 424 Separation Science (3)
- CHM 431 Qualitative Organic Analysis (3)
- CHM 453 Inorganic Chemistry (3)
- CHM 471 Solid-State Chemistry (3)
- CHM 481 Geochemistry (3)
- CHM 485 Meterorites and Cosmochemistry (3)

Total 20

* CHM 345 may be taken in place of CHM 341.

Additional required related field courses are as follows:

BIO 187 General Biology I *SG* 4
BIO 188 General Biology II *SQ* 4
BIO 340 General Genetics 4
BIO 353 Cell Biology 3
MAT 270 Calculus with Analytic Geometry I *MA* 4
MAT 271 Calculus with Analytic Geometry II *MA* 4
PHY 111 General Physics *SQ*[1] 3
PHY 112 General Physics *SQ*[2] 3
PHY 113 General Physics Laboratory *SQ*[1] 1
PHY 114 General Physics Laboratory *SQ*[2] 1

Total 31

[1] Both PHY 111 and 113 must be taken to secure SQ credit.
[2] Both PHY 112 and 114 must be taken to secure SQ credit.

Additional biology courses selected from BIO 343, 351, 360, 441, 450, and 465 are strongly recommended.

Additional biochemistry and chemistry courses, including CHM 392 Introduction to Research Techniques, may be taken by students and should be chosen in consultation with an advisor.

BIOCHEMISTRY—BS

Medicinal Chemistry Concentration

The program consists of a minimum of 41 semester hours in chemistry or biochemistry and 26 hours of related courses. Required courses are as follows:

Choose between the course combinations below ..... 8 or 9
- CHM 113 General Chemistry I *SQ* (4)
- CHM 115 General Chemistry with Qualitative Analysis *SQ* (5)

— or —

- CHM 113 General Chemistry I *SQ* (4)
- CHM 116 General Chemistry II *SQ* (4)

— or —

- CHM 117 General Chemistry for Majors I *SQ** (4)
- CHM 118 General Chemistry for Majors II *SQ** (4)

Choose between the combinations of courses below 8
- CHM 333 Organic Chemistry for Majors I* (3)
- CHM 334 Organic Chemistry for Majors II* (3)
- CHM 337 Organic Chemistry Laboratory for Majors I* (1)
- CHM 338 Organic Chemistry Laboratory for Majors II* (1)

— or —

- CHM 233 General Organic Chemistry I (3)
- CHM 234 General Organic Chemistry II (3)
- CHM 237 General Organic Chemistry Laboratory I (1)
- CHM 238 General Organic Chemistry Laboratory II (1)

Total ..... 16 or 17

* CHM 117, 118, 333, 334, 337, and 338 are strongly recommended for qualified students.

Additional required chemistry and biochemistry courses are as follows:

BCH 461 General Biochemistry 3
BCH 462 General Biochemistry 3
BCH 463 Biophysical Chemistry 3
BCH 467 Analytical Biochemistry Laboratory *L* 3
CHM 341 Elementary Physical Chemistry 3
CHM 343 Physical Chemistry Laboratory 1
CHM 433 Advanced Organic Chemistry I 3
CHM 435 Medicinal Chemistry 3
Chemistry or biochemistry elective (choose from the courses below) 3
- BCH 465 Protein and Nucleic Acid Biochemistry (3)
- CHM 434 Advanced Organic Chemistry II (3)

CHM 453 Inorganic Chemistry (3)

Total 25

Additional required related field courses are as follows:

Choose between the course combinations below.....4
BIO 187 General Biology I *SG* (4)
——— *or* ———
BIO 188 General Biology II *SQ* (4)
——— *or* ———
MBB 245 Cellular and Molecular Biology *SQ* (4)

Total 4

Additional required related field courses are as follows:

BIO 353 Cell Biology.....3
BIO 360 Animal Physiology[1].....3
MAT 270 Calculus with Analytic Geometry I *MA*.....4
MAT 271 Calculus with Analytic Geometry II *MA*.....4
PHY 111 General Physics *SQ*[2].....3
PHY 112 General Physics *SQ*[3].....3
PHY 113 General Physics Laboratory *SQ*[2].....1
PHY 114 General Physics Laboratory *SQ*[3].....1

Total 22

[1] BIO 340 may be taken in place of BIO 360.
[2] Both PHY 111 and 113 must be taken to secure SQ credit.
[3] Both PHY 112 and 114 must be taken to secure SQ credit.

MINOR IN CHEMISTRY

A minor in Chemistry is awarded to students who complete the following required courses:

CHM 113 General Chemistry I *SQ*[1].....4
CHM 115 General Chemistry with Qualitative Analysis *SQ*.....5
CHM 325 Analytical Chemistry.....3
CHM 326 Analytical Chemistry Laboratory.....1
Choose between the course combinations below.....8
BCH 361 Principles of Biochemistry (3)
BCH 367 Elementary Biochemistry Laboratory (1)
CHM 231 Elementary Organic Chemistry *SQ*[2] (3)
CHM 235 Elementary Organic Chemistry Laboratory *SQ*[2] (1)
——— *or* ———
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
Choose between the course combinations below..... 4 or 8
CHM 341 Elementary Physical Chemistry (3)
CHM 343 Physical Chemistry Laboratory (1)
——— *or* ———
CHM 345 Physical Chemistry I (3)
CHM 346 Physical Chemistry II (3)
CHM 348 Physical Chemistry Laboratory I (1)
CHM 349 Physical Chemistry Laboratory II (1)

Minimum total 25

[1] Equivalent courses may be taken in place of CHM 113, 115, or 116.
[2] Both CHM 231 and 235 must be taken to secure SQ credit.

MINOR IN BIOCHEMISTRY

A minor in Biochemistry is awarded to students who complete the following required courses:

BCH 461 General Biochemistry 3
BCH 462 General Biochemistry 3
Choose between the course combinations below..... 8 or 9
CHM 113 General Chemistry I *SQ* (4)
CHM 115 General Chemistry with Qualitative Analysis *SQ* (5)
——— *or* ———
CHM 113 General Chemistry I *SQ* (4)
CHM 116 General Chemistry II *SQ* (4)
——— *or* ———
CHM 117 General Chemistry for Majors I *SQ*[1] (4)
CHM 118 General Chemistry for Majors II *SQ*[1] (4)
Choose between the combinations of courses below.....8
CHM 333 Organic Chemistry for Majors I[1] (3)
CHM 334 Organic Chemistry for Majors II[1] (3)
CHM 337 Organic Chemistry Laboratory for Majors I[1] (1)
CHM 338 Organic Chemistry Laboratory for Majors II[1] (1)
——— *or* ———
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
CHM 341 Elementary Physical Chemistry[2] 3

Minimum total ..... 24 or 25

[1] CHM 117, 118, 333, 334, 337, and 338 are strongly recommended for qualified students.
[2] CHM 345 may be taken in place of CHM 341.

BIS CONCENTRATION

A concentration in chemistry is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

SECONDARY EDUCATION—BAE

Chemistry. This degree is offered through the Initial Teacher Certification (ITC) program in the College of Education. Students pursuing a major in Secondary Education have an advisor in the College of Education and an advisor within the department of their academic specialization area.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Academic Specialization ITC Admission Requirements. The following courses must be completed with a "C" (2.00) or higher before applying to the ITC program: CHM 113, 116, 233, and 237. The following courses may be in progress when applying to the ITC program but must be completed with a "C" (2.00) or higher before starting the program: CHM 234 and 238.

The academic specialization requires 46 semester hours. Required courses are as follows:

CHM	113	General Chemistry I *SQ* 4
CHM	116	General Chemistry II *SQ* 4
CHM	233	General Organic Chemistry I 3
CHM	234	General Organic Chemistry II 3
CHM	237	General Organic Chemistry Laboratory I 1
CHM	238	General Organic Chemistry Laboratory II 1
CHM	325	Analytical Chemistry 3
CHM	326	Analytical Chemistry Laboratory 1
CHM	341	Elementary Physical Chemistry 3–6
		or CHM 345 Physical Chemistry I (3)
		and CHM 346 Physical Chemistry II (3)
CHM	453	Inorganic Chemistry 3
Choose two of the courses below 6		
BCH	361	Principles of Biochemistry (3)
CHM	302	Environmental Chemistry (3)
CHM	453	Inorganic Chemistry (3)
Total 32–35		

Additional required related field courses are as follows:

MAT	270	Calculus with Analytic Geometry I *MA* 4
MAT	271	Calculus with Analytic Geometry II *MA* 4
PHY	111	General Physics *SQ** 3
PHY	112	General Physics *SQ** 3
PHY	113	General Physics Laboratory *SQ** 1
PHY	114	General Physics Laboratory *SQ** 1
Total 16		

* Both PHY 111 and 113 or PHY 112 and 114 must be taken to secure SQ credit.

Teaching Methods

CHM	480	Methods of Teaching Chemistry 3
SED	494	ST: Methods of Teaching Science 3

GRADUATE PROGRAMS

The faculty in the Department of Chemistry and Biochemistry offer programs leading to the degrees of Master of Natural Science, MS, and PhD. See the *Graduate Catalog* for requirements.

The department participates in the interdisciplinary program for the MS and PhD degrees in Molecular and Cellular Biology. For more information, visit the program office in LSE 411, or call 480/965-1768.

BIOCHEMISTRY (BCH)

M BCH 361 Principles of Biochemistry. (3)
fall, spring, summer
Structures, properties, and functions of proteins, enzymes, nucleic acids, carbohydrates, and lipids; the utilization and synthesis of these materials by living systems, and the relationship of these processes to energy production and utilization. Credit is allowed for only BCH 361 or 461. Prerequisite: CHM 231. Pre- or corequisite: CHM 234 or 334.

M BCH 367 Elementary Biochemistry Laboratory. (1)
fall, spring, summer
Qualitative/quantitative analyses of constituents of biological systems, enzyme activity measurements and metabolic studies. 1 hour conference, 3 hours lab. Pre- or corequisite: BCH 361 or instructor approval.

M BCH 392 Introduction to Research Techniques. (1–3)
fall, spring, summer
Instrumental methods and philosophy of research by actual participation in chemical research projects. May be repeated for total of 6 semester hours. Prerequisite: advisor and research supervisor approval.

M BCH 461 General Biochemistry. (3)
fall and spring
Structure, chemistry, and metabolism of biomolecules and their role in the biochemical processes of living organisms. Credit is allowed for only BCH 461 or 361. Prerequisite: CHM 234 or 334. Corequisite: CHM 341 or 346.

M BCH 462 General Biochemistry. (3)
fall and spring
Continuation of BCH 461. Prerequisite: BCH 461 or instructor approval.

M BCH 463 Biophysical Chemistry. (3)
spring
Principles of physical chemistry as applied to biological systems. Prerequisite: CHM 341 or 346.

M BCH 464 Biophysical Chemistry Laboratory. (2)
fall and spring
Introduces physical methods in modern biochemistry. Pre- or corequisite: BCH 463.

M BCH 465 Protein and Nucleic Acid Biochemistry. (3)
spring
Structure and function of proteins and nucleic acids, including protein folding, enzymology, proteomics, DNA/RNA structure, replication, transcription, and genomics. Prerequisite: BCH 462 or instructor approval.

M BCH 467 Analytical Biochemistry Laboratory. (3)
fall and spring
Quantitative analysis, separation and purification of biological molecules. Applies chemical and physical methods to the characterization of biological macromolecules. 1 conference, 1 hour lecture, 5 hours lab. Prerequisite: BCH 461. Corequisite: BCH 462.
General Studies: L

M BCH 484 Internship. (3)
selected semesters

M BCH 494 Special Topics. (1–4)
selected semesters
Various topics.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

CHEMISTRY (CHM)

For more CHM courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M CHM 101 Introductory Chemistry. (4)
fall, spring, summer
Elements of general chemistry. Adapted to the needs of students in nursing and kinesiology and those preparing for general chemistry. Recommended for General Studies credit. Normally followed by CHM 231. Cannot be used for major credit in chemical or biochemical sciences. Credit is allowed for only CHM 101 or 107. 3 hours lecture, 1 hour discussion, 2 hours lab. Fee.
General Studies: SQ

M CHM 107 Chemistry and Society. (4)
fall and spring
General chemical principles and concepts presented in context of social and technological issues, e.g., energy, pollution, global warming, and others. Recommended for General Studies credit. Cannot be used for major credit in chemical or biochemical sciences. Credit is allowed for only CHM 107 or 101. 3 hours lecture, 1 hour discussion, 2 hours lab. Fee.
General Studies: SQ, G

M CHM 113 General Chemistry I. (4)
fall, spring, summer
Principles of chemistry. Adapted to the needs of students in the physical, biological, and earth sciences. Credit is allowed for only CHM 113 or 117. 3 hours lecture, 1 hour discussion, 2 hours lab. Fee. Prerequisite: MAT 106 (or 3 semesters of high school algebra). 1 year of high school chemistry recommended.
General Studies: SQ

M CHM 114 General Chemistry for Engineers. (4)
fall and spring
Chemical principles with emphasis toward engineering. Students without high school chemistry or chemical engineering majors must enroll in the CHM 113, 116 sequence instead of CHM 114. 3 hours lecture, 1 hour discussion, 2 hours lab. Fee. Prerequisites: MAT 106 (or 3 semesters of high school algebra); 1 year of high school chemistry.
General Studies: SQ

M CHM 115 General Chemistry with Qualitative Analysis. (5)
fall, spring, summer
Continuation of CHM 113. Equilibrium theory, thermodynamics, kinetics, electrochemistry, nuclear chemistry, descriptive chemistry. Lab includes qualitative analysis. Credit is allowed for only CHM 115 or 116 or 118. 3 hours lecture, 2 hours discussion, 4 hours lab. Fee. Prerequisite: CHM 113 or 2 years of high school chemistry.
General Studies: SQ

M CHM 116 General Chemistry II. (4)
fall and spring
Continuation of CHM 113. Equilibrium theory, thermodynamics, kinetics, electrochemistry, nuclear chemistry, descriptive chemistry. Credit is allowed for only CHM 116 or 115 or 118. 3 hours lecture, 1 hour discussion, 2 hours lab. Fee. Prerequisite: CHM 113 or 2 years of high school chemistry.
General Studies: SQ

M CHM 117 General Chemistry for Majors I. (4)
fall
Atomic and molecular structure, properties and physical states of matter, chemical analysis, bonding, stoichiometry. Credit is allowed for only CHM 117 or 113. 3 hours lecture, 1 conference, 2 hours lab. Fee. Prerequisites: 3 years of high school mathematics; minimum of 1 year of high school physics. Prerequisite with a grade of "B" (3.00) or higher: minimum of 1 year of high school chemistry.
General Studies: SQ

M CHM 118 General Chemistry for Majors II. (4)
spring
Atomic and molecular structure, properties and physical states of matter, chemical analysis, bonding, stoichiometry. Credit is allowed for only CHM 118 or 115 or 116. 3 hours lecture, 1 conference, 2 hours lab. Fee. Prerequisite: CHM 117. Corequisite: MAT 270.
General Studies: SQ

M CHM 231 Elementary Organic Chemistry. (3)
fall, spring, summer
Surveys organic chemistry, with emphasis on the reactivity of basic functional groups. Credit is allowed for only CHM 231 or 233 or 333. Prerequisite with a grade of "B" (3.00) or higher: CHM 101 or 114 or 115 or 116 or 117 or 1 year of high school chemistry or instructor approval.
General Studies: SQ (if credit also earned in CHM 235)

M CHM 233 General Organic Chemistry I. (3)
fall, spring, summer
Chemistry of organic compounds. Credit is allowed for only CHM 233 or 231 or 333. Prerequisite: CHM 115 or 116 or 118.

M CHM 234 General Organic Chemistry II. (3)
fall and spring or summer
Continuation of CHM 233. Credit is allowed for only CHM 234 or 334. Prerequisite: CHM 233.

M CHM 235 Elementary Organic Chemistry Laboratory. (1)
fall, spring, summer
Organic chemistry experiments in synthesis, purification, analysis, and identification. Lab. Fee. Pre- or corequisite: CHM 231.
General Studies: SQ (if credit also earned in CHM 231)

M CHM 237 General Organic Chemistry Laboratory I. (1)
fall, spring, summer
Microscale organic chemical experiments in separation techniques, synthesis, analysis and identification, and relative reactivity. Credit is allowed for only CHM 237 or 337. 4 hours lab. Fee. Corequisite: CHM 233.

M CHM 238 General Organic Chemistry Laboratory II. (1)
fall and spring or summer
Continuation of CHM 237. Credit is allowed for only CHM 238 or 338. 4 hours lab. Fee. Prerequisite: CHM 237. Corequisite: CHM 234.

M CHM 240 Introduction to Physical Chemistry. (3)
spring
Introduces mathematical/computational methods in chemical kinetics, thermodynamics, quantum chemistry. Mathematical-based computer laboratory. 2 hours lecture, 4 hours lab. Fee. Prerequisite with a grade of "C" (2.00) or higher: MAT 272.
General Studies: CS

M CHM 302 Environmental Chemistry. (3)
spring
Explores major environmental issues, problems, and solutions from analytical and chemistry perspectives. Prerequisites: CHM 114 (or 115 or 116 or 118), 231 (or 233).

M CHM 303 Environmental Chemistry Laboratory. (2)
spring
Lab in environmental chemistry to complement CHM 302. First-hand experience with sampling methods, analytical techniques, and environmental lab methods. Lab. Fee. Prerequisite: CHM 231 or 233. Pre- or corequisite: CHM 302.
General Studies: L (if credit also earned in CHM 348)

M CHM 325 Analytical Chemistry. (3)
fall and summer
Principles and methods of chemical analysis. Prerequisite: CHM 115 or 116.

M CHM 326 Analytical Chemistry Laboratory. (1)
fall and summer
Experiments in chemical analysis. 4 hours lab. Fee. Corequisite: CHM 325.

M CHM 327 Instrumental Analysis. (3)
spring
Principles of instrumental methods in chemical analysis. Electroanalytical and optical techniques. Prerequisites: CHM 325, 326. Pre- or corequisite: CHM 346.

M CHM 328 Instrumental Analysis Laboratory. (2)
spring
Experiments in chemical analysis by electroanalytical and optical techniques. 6 hours lab. Fee. Corequisite: CHM 327.

M CHM 333 Organic Chemistry for Majors I. (3)
fall
Structures, reaction mechanisms and kinetics, and systematic syntheses of organic compounds. Credit is allowed for only CHM 333 or 231 or 233. Prerequisite: CHM 115 or 118. Corequisite: CHM 337.

M CHM 334 Organic Chemistry for Majors II. (3)
spring
Continuation of CHM 333. Credit is allowed for only CHM 334 or 234. Prerequisite: CHM 333. Corequisite: CHM 338.

M CHM 337 Organic Chemistry Laboratory for Majors I. (1)
fall
Emphasizes mechanisms, kinetics, and products of organic reactions. Credit is allowed for only CHM 337 or 237. 1 conference, 3 hours lab. Fee. Pre- or corequisite: CHM 333.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M CHM 338 Organic Chemistry Laboratory for Majors II. (1)
spring
Continuation of CHM 337. Credit is allowed for only CHM 338 or 238. 1 conference, 3 hours lab. Fee. Prerequisite: CHM 337. Corequisite: CHM 334.

M CHM 341 Elementary Physical Chemistry. (3)
fall
Thermodynamics, equilibrium, states of matter, solutions, and chemical kinetics. For students in premedical, biological, and educational curricula. Prerequisites: CHM 115 (or 114 or 118 or 325), 231 (or 233); MAT 271; PHY 112.

M CHM 343 Physical Chemistry Laboratory. (1)
fall
Physical chemistry experiments. Credit is allowed for only CHM 343 or both CHM 348 and 349. 1 hour conference, 3 hours lab. Fee. Corequisite: CHM 341 or 345.

M CHM 345 Physical Chemistry I. (3)
fall
Introduces quantum chemistry with application to electronic structure and dynamics of atoms and molecules. Prerequisite: only CHM 240 or both MAT 272 and 274 (with grades of "C" (2.00) or higher).

M CHM 346 Physical Chemistry II. (3)
spring
Introduces equilibrium and statistical thermodynamics. Laws of thermodynamics, equations of state, multicomponent chemical and phase equilibria, and electrochemistry. Prerequisite: CHM 345. Corequisite: MAT 274.

M CHM 348 Physical Chemistry Laboratory I. (1)
fall
Laboratory experiments in spectroscopy and computational chemistry. Credit is allowed for both CHM 348 and 349 or only CHM 343. 4 hours lab. Fee. Pre- or corequisite: CHM 345.
General Studies: L (if credit also earned in only CHM 303 or both CHM 349 and 452)

M CHM 349 Physical Chemistry Laboratory II. (1)
spring
Laboratory experiments in thermodynamics, electrochemistry, and computational chemistry. Credit is allowed for both CHM 349 and 348 or only CHM 343. 4 hours lab. Fee. Pre- or corequisite: CHM 346.
General Studies: L (if credit also earned in CHM 348 and 452)

M CHM 392 Introduction to Research Techniques. (1–3)
fall, spring, summer
Instrumental methods and philosophy of research by actual participation in chemical research projects. May be repeated for a total of 6 semester hours. Prerequisite: approval of advisor and research supervisor.

M CHM 424 Separation Science. (3)
selected semesters
Basic theory and practical aspects of gas, liquid, ion-exchange, and gel-permeation chromatographies, and other important industrial and research techniques. 2 hours lecture, 4 hours lab. Fee. Prerequisite: CHM 234 or 334 or 346 or instructor approval.

M CHM 433 Advanced Organic Chemistry I. (3)
fall
Reaction mechanisms, reaction kinetics, linear free energy relationships, transition state theory, and Woodward-Hoffmann rules. Prerequisites: both CHM 234 (or 334) and 341 (or 346) or only instructor approval.

M CHM 434 Advanced Organic Chemistry II. (3)
spring
Continuation of CHM 433. Prerequisite: CHM 433 (or CHM 531) or instructor approval.

M CHM 435 Medicinal Chemistry. (3)
spring
Principles of medicinal and pharmaceutical chemistry. Drug design, synthesis, and mechanism of action. Prerequisites: a combination of BCH 361 (or 461) and BIO 353 and CHM 234 (or 334) or only instructor approval.

M CHM 452 Inorganic Chemistry Laboratory. (1–2)
spring
Preparation and characterization of typical inorganic substances, emphasizing methods and techniques. 1 conference, 5 hours lab. Fee. Prerequisite: instructor approval.
General Studies: L (if credit also earned in CHM 348 and 349)

M CHM 453 Inorganic Chemistry. (3)
fall
Principles and applications of inorganic chemistry. Prerequisite: CHM 341 or 346.

M CHM 460 Biological Chemistry. (3)
spring
Structure and function of macromolecules and their involvement in the processing of energy and information by living cells. Prerequisites: CHM 334, 346, 453.

M CHM 471 Solid-State Chemistry. (3)
fall
Crystal chemistry, thermodynamics and electrochemistry of solids, nonstoichiometric compounds, diffusion and solid-state reactions, crystal growth, and selected topics. Pre- or corequisite: CHM 346 or instructor approval.

M CHM 480 Methods of Teaching Chemistry. (3)
spring
Organization and presentation of appropriate content of chemistry; preparation of reagents, experiments, and demonstrations; organization of stock rooms and laboratories; experience in problem solving. Fee. Prerequisite: instructor approval.

M CHM 481 Geochemistry. (3)
spring
Origin and distribution of the chemical elements. Geochemical cycles operating in the earth's atmosphere, hydrosphere, and lithosphere. Cross-listed as GLG 481. Credit is allowed for only CHM 481 or GLG 481. Prerequisite: CHM 341 (or 346) or GLG 321.

M CHM 483 Astrobiology. (3)
fall and spring
Origin, early evolution, distribution, and future of life on Earth and elsewhere in the cosmos. May be repeated for credit. Lecture, discussion, video conferences, possible field trips. Cross-listed as AST 460/BIO 460/GLG 460/MIC 475. Credit is allowed for only AST 460 or BIO 460 or CHM 483 or GLG 460 or MIC 475. Prerequisite: instructor approval.

M CHM 484 Internship. (3)
selected semesters

M CHM 485 Meteorites and Cosmochemistry. (3)
selected semesters
Chemistry of meteorites and their relationship to the origin of the earth, solar system, and universe. Cross-listed as GLG 485. Credit is allowed for only CHM 485 or GLG 485. Prerequisite: CHM 341 or 346.

M CHM 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Chemistry of Global Climate Change. (3)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Chicana and Chicano Studies

www.asu.edu/clas/chicana
480/965-5091
COOR 6633

Carlos Vélez-Ibáñez, Chair

Regents' Professor: Candelaria

Professors: Espinosa, Vélez-Ibáñez

Associate Professors: Bernardi, Escobar, Magaña

Assistant Professors: Danielson, García, Leaños, Szkupinski-Quiroga

Faculty Associate: Lacayo-Salas

The Department of Chicana and Chicano Studies (CCS) is an interdisciplinary degree program whose central mission is to increase the direct participation of Mexican Americans and Latinos in the human and capital development of American society. This mission is advanced by the department's core undergraduate curriculum and related programs that examine the culture, artistic achievements, history, and status of people of Mexican descent and other Latinas and Latinos living in the U.S. The curriculum combines a research-based understanding of the humanities, social sciences, and the arts with practical CCS applications (such as studio formats, internships, and community research projects) as preparation for successful careers and productive public service in diverse communities.

CHICANA AND CHICANO STUDIES—BA

The major in Chicana and Chicano Studies requires 45 semester hours of course work. A minimum of 30 semester hours must be in CCS, CSH, and CSS courses. The remaining course work must be in a related field and approved by an advisor. All CCS majors must take 15 semester hours in the following core courses:

CCS	101	Introduction to Chicana and Chicano Studies *C*	3
CCS	111	Introduction to Chicana and Chicano Culture *C*	3
CCS	498	Pro-Seminar	3
HST	331	Mexican American History to 1900 *SB, C, H*	3
HST	332	Mexican American History Since 1900 *SB, C, H*	3

Within the 45 semester hours, CCS majors must also take 18 semester hours in one of two concentrations—humanities/cultural studies or social sciences/policy—and 12 hours in the other concentration for a total of 45 semester hours.

Majors are expected to fulfill the college's language requirement in Spanish. Although the department advisor can make exceptions on a case-by-case basis, all majors must demonstrate proficiency in Spanish.

All Chicana and Chicano Studies majors must take an established minor or credential of at least 18 semester hours in another field.

CHICANA AND CHICANO STUDIES MINOR

The Chicana and Chicano Studies minor requires 18 semester hours of course work. All Chicana and Chicano Studies minors must take the following courses:

CCS	101	Introduction to Chicana and Chicano Studies *C* or CCS 111 Introduction to Chicana and Chicano Culture *C* (3)	3
HST	332	Mexican American History Since 1900 *SB, C, H*	3
Total			6

Students must also take at least three semester hours in both CCS concentrations: humanities/cultural studies and social sciences/policy.

Within the 18-semester-hour requirement, students must take a minimum of 12 semester hours in CCS, CSH, and CSS courses. Any courses taken in a related field must be approved by an advisor.

BIS CONCENTRATION

A concentration in Chicana and Chicano studies is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

SECONDARY EDUCATION—BAE

Chicana and Chicano Studies. Applications are not being accepted at this time.

CHICANA AND CHICANO STUDIES (CCS)

M CCS 101 Introduction to Chicana and Chicano Studies. (3)
fall
Historical and contemporary issues in the Chicana and Chicano community; focus on economic, sociological, cultural, and political status of Chicanas and Chicanos in the U.S.
General Studies: C

M CCS 111 Introduction to Chicana and Chicano Culture. (3)
fall
Interdisciplinary analysis of customs, values, belief systems, and cultural symbols; special attention is given to cultural continuity and change.
General Studies: C

M CCS 210 Introduction to Ethnic Studies in the U.S. (3)
fall and spring
Covers diversity of experiences and relations among racial and ethnic groups in the United States. Lecture, discussion. Cross-listed as AFS 210/APA 210. Credit is allowed for only AFS 210 or APA 210 or CCS 210.
General Studies: C

M CCS 300 Chicana and Chicano Culture and Society. (3)
fall
Intensive analysis of how Mexican American writers, artists, film makers, entertainers, and academicians have interpreted aspects of the Chicana and Chicano experience.
General Studies: C

M CCS 446 Teaching Chicana and Chicano Studies in the Schools. (3)
selected semesters
Approaches/techniques for infusion of Chicana and Chicano Studies content into elementary and secondary curriculum; designed for teachers who work with Chicana and Chicano students.

M CCS 498 Pro-Seminar. (3)
once a year
Required courses for majors on topic selected by instructor; writing-intensive course related to the development of interdisciplinary research skills.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

CHICANA AND CHICANO STUDIES HUMANITIES (CSH)

M CSH Note 1. With the exception of omnibus courses, all FMS courses have a teaching method of lecture, discussion, and screening.

M CSH Note 2. Completion of the First-Year Composition requirement (ENG 101 and 102 [or 105] or ENG 107 and 108 with a grade of "C" [2.00] or higher) is a prerequisite for all English courses above the 100 level.

M CSH Note 3. A term paper or equivalent out-of-class written work is required in all upper-division (300- and 400-level) ENG courses.

M CSH 210 Chicana and Chicano Poetry. (3)
fall
Writing seminar on Chicana and Chicano poetics and intensive creative writing workshop. Workshop, seminar.

M CSH 220 Chicana and Chicano Cultural Expression. (3)
once a year
Interrelation between economic, social, and political status and forms of artistic expression; i.e., music, dance, drama, literature, and graphic arts.

M CSH 270 Race and Ethnicity in American Cinema. (3)
fall and summer
Explores how Hollywood shapes perceptions of race and ethnicity in American society. Cross-listed as FMS 270. Credit is allowed for only CSH 270 or FMS 270. Fee. See CSH Note 1.
General Studies: HU, C

M CSH 310 Chicana and Chicano Folklore. (3)
once a year
Analyzes Chicana and Chicano folk beliefs, traditions, and practices.
General Studies: HU, C

M CSH 350 Mexican and Mexican American Artistic Production. (3)
once a year
Overview of Mexican and Mexican American artistic production from colonial times to present; emphasis on religious and folk art.
General Studies: HU, C, G

M CSH 351 Contemporary Chicana and Chicano Art. (3)
once a year
Intensive analysis of contemporary Chicana and Chicano art movement as appraised within the context of contemporary American art and the art of Mexico.
General Studies: HU, C

M CSH 363 Chicana and Chicano Literature. (3)
fall
Development of Chicana and Chicano literature; study of genres and themes; attention to literary antecedents. Cross-listed as ENG 363. Credit is allowed for only CSH 363 or ENG 363. See CSH Notes 2, 3.
General Studies: L/HU, C

M CSH 484 Internship. (3)
selected semesters

M CSH 485 Chicana Writers. (3)
once a year
Critical reading of Mexican American women authors; emphasis on contemporary (post-1970) poetry, novels, short stories, and essays.
General Studies: HU, C

M CSH 498 Pro-Seminar. (3)
once a year
Required course for majors on topic selected by instructor; writing-intensive course related to the development of interdisciplinary research skills.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

CHICANA AND CHICANO STUDIES SOCIAL SCIENCE (CSS)

M CSS 315 Chicano Family Structures and Perceptions. (3)
once a year
Traditional and changing family relationships; emphasis on gender and intergenerational relations and impact of modern society on traditional family values.

M CSS 330 Chicana and Chicano Politics and Policy. (3)
once a year
Historical/contemporary analysis of Chicana and Chicano political ideologies, attitudes, strategies, and movements; relations with governmental agencies; and public policy issues.
General Studies: C

M CSS 331 Policy Issues in Chicana and Chicano Urban Settings. (3)
spring
Historical, demographic, and sociological overview of the status of Chicanas and Chicanos in urban settings as well as the public policy relevance.
General Studies: C

M CSS 335 Latino Health Issues. (4)
spring and summer
Health issues among Chicanos and other U.S. Latinos; interplay among political economy, health, family, culture, and community. 3 hours lecture, 1 hour lab, field research. Prerequisite: instructor approval.
General Studies: SB, C

M CSS 336 Issues in Immigration and Migration. (3)
once a year
Historical/contemporary overview of Mexican immigration into and within the U.S.; factors affecting population movement, settlement patterns, and migrants' incorporation into society.
General Studies: C, H

M CSS 432 Issues in Chicana and Chicano Gender. (3)
once a year
Analyzes social construction of gender identities; emphasizes impact of American and Mexican cultural values on normative gender relations.
General Studies: C

M CSS 490 Field Studies in the Chicana and Chicano Community. (3)
once a year
Introduces principles and methods of qualitative research applied to the Chicana and Chicano community.

M CSS 498 Pro-Seminar. (3)
once a year
Required course for majors on topic selected by instructor; writing-intensive course related to the development of interdisciplinary research skills. Prerequisites: both CCS 101 and HST 331 (or 332), or only instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Computational Biosciences

Professional Science Master's Degree

www.asu.edu/compbiosci

480/965-9845

PSA 216

Rosemary Renaut, Director

GRADUATE PROGRAMS

The Professional Science Master's (PSM) degree in Computational Biosciences is administered by an interdisciplinary committee. The faculty participating in this PSM degree program are drawn from departments that include Biology, Chemistry and Biochemistry, Computer Science Engineering, Health Management and Policy, Mathematics and Statistics, and Plant Biology.

For more information, contact the program office or refer to the *Graduate Catalog*.

COMPUTATIONAL BIOSCIENCES (CBS)

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Economics

ECONOMICS—BS

The program of study for the BS degree is designed for students planning to seek employment upon completion of their undergraduate studies or for students intending to go on to graduate school or law school. It provides students with the analytical and quantitative skills employers and graduate schools expect of individuals holding an economics degree. Students interested in pursing a PhD in economics are strongly encouraged to minor or major in mathematics as well.

Requirements for the College of Liberal Arts and Sciences BS in Economics consist of three parts: the university requirements for all students at ASU, see "University Graduation Requirements," page 89; the requirements of the College of Liberal Arts and Sciences, see "College Graduation Requirements," page 503; and the requirements of the Department of Economics.

The W. P. Carey School of Business also offers a BS degree in Economics. Faculty listings, course descriptions, and the major requirements in the W. P. Carey School of Business are listed under "Department of Economics," page 298.

Requirements of the Department of Economics. The program consists of at least 45 semester hours of course work distributed between economics and related fields as shown below. Only courses in which a student receives a grade of "C" (2.00) or higher may be used to meet these requirements. Students must meet all prerequisites and course requirements as listed in this catalog. These include

A calculus and statistics: MAT 210 and 211; or MAT 270, 271, and 272; or MAT 290 and 291; STP 226 or QBA 221;

B. principles of economics: ECN 211 and 212;

C. completion of 24 semester hours in economics courses and quantitative business analysis courses at the 300 level or above. At least four of these courses must be at the 400 level or above. These 24 hours must include

1. economic theory: ECN 313 and 314;
2. econometrics and statistics: ECN 410 or 425 or QBA 321 or STP 421;
3. a capstone course or honors thesis: ECN 475 or 493;
4. economics electives at the 300 level or above to fill out the remaining hours, including a maximum of three hours of ECN 484 Economics Internship and excluding ECN 475 and 493, which cannot be used to satisfy this requirement; and

D. electives chosen from the Approved List of Related Field Courses to fill out the remaining semester hours.

Latin American Studies Certificate or Emphasis. Students majoring in Economics may elect to pursue a Latin American Studies Certificate or emphasis, combining courses from the major with selected outside courses of wholly Latin American content. See "Latin American Studies," page 512, for more information.

Certificate in International Business Studies. Students majoring in Economics may elect to pursue a Certificate in International Business Studies, combining courses from the major with selected international business courses. For more information see "Certificate in International Business Studies," page 304.

Certificate in Quality Analysis. Students majoring in Economics may elect to pursue a Certificate in Quality Analysis, combining courses from the major with selected quantitative business analysis courses. For more information, see "Certificate in Quality Analysis," page 294.

MINOR

Minor in General Economics. This minor (and BIS area of concentration) requires 18 semester hours of course work which includes ECN 211 and 212, and 12 hours of economics courses at the 300 level or above for which all prerequisites have been met. Only courses in which a student

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

receives a grade of "C" (2.00) or higher may be used to meet these requirements.

Minor in Economics for Students Planning a Career in Law. This minor requires 18 semester hours of course work that includes ECN 211, 212, 314, 450, 453, and one additional economics course at the 300 level or above for which all prerequisites have been met. Only courses in which a student receives a grade of "C" (2.00) or higher may be used to meet these requirements.

Honors Students

Students admitted to the Barrett Honors College may substitute ECN 213 Honors Macroeconomics for ECN 211 and 313, and ECN 214 Honors Microeconomics for ECN 212 and 314. These courses with grades of "C" (2.00) or higher satisfy the prerequisites and pre/corequisites for all upper-division economics courses.

BIS CONCENTRATIONS

Concentrations in (1) economics and (2) economics for students planning a career in law are available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

SECONDARY EDUCATION—BAE

This degree is offered through the Initial Teacher Certification (ITC) program in the College of Education. Students pursuing a major in Secondary Education (Economics) have an advisor in the College of Education and an advisor within the Department of Economics.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

Academic Specialization ITC Admission Requirements. The following courses must be completed with a grade of "C" (2.00) or higher before applying to the ITC professional program:

ECN	211	Macroeconomic Principles *SB*	3
ECN	212	Microeconomic Principles *SB*	3
ECN	313	Intermediate Macroeconomic Theory *SB*	3
ECN	314	Intermediate Microeconomic Theory *SB*	3
MAT	210	Brief Calculus *MA*	3

Economics. The major teaching field consists of 45 semester hours and six hours in teaching methods. A minimum grade of "C" (2.00) is required in all academic specialization courses. Required major courses are as follows:

ECN	211	Macroeconomic Principles *SB*	3
ECN	212	Microeconomic Principles *SB*	3
ECN	313	Intermediate Macroeconomic Theory *SB*	3
ECN	314	Intermediate Microeconomic Theory *SB*	3
MAT	210	Brief Calculus *MA*	3
Choose one of the following courses			3
QBA	221	Statistical Analysis *CS* (3)

LL 542

Neal A. Lester, Chair

Regents' Professors: Candelaria, Carlson, Dubie, Ríos

Professors: Adams, Bjork, Boyer, Brack, Crowley, Goldberg, Helms, Hogue, Horan, Lehman, Lester, Major, Miller, A. Nilsen, D. Nilsen, Pritchard, Rhodes, Roen, Tobin, van Gelderen

Associate Professors: Baker, Bates, Bivona, Castle, Corse, Fulton, Gerson, M. Goggin, Lussier, McNally, Nelson, Perry, Privateer, Savard, Scarberry-Garcia, Schwalm, Tohe, Voaden, Webb

Assistant Professors: Bernick, Blasingame, Fox, P. Goggin, James, Lockard, Milun, Parchesky, Sadowski-Smith, Thompson

Senior Lecturers: Cook, Duerden, Dugan, Dwyer, Heenan, Norton, Sudol, Wheeler

Lecturers: Baldini, Binkley, Cutrara, Duttagupta, Ellis, Fuse, Newton, Sands

Service Professional: McNeil

Associate Instructional Professional: Glau

ENGLISH—BA

The faculty in the Department of English offer courses in comparative literature, creative writing, English as a second language, English education, English linguistics, film and media studies, literature and language, and rhetoric and composition. Undergraduate degrees include the BA degree in English, with a concentration in creative writing, linguistics, or literature, and a Secondary Education Bachelor of Arts in Education degree. The faculty also offer a Writing Certificate. Students should work with advisors to design an individual program of study that takes full advantage of the diversity within the department as well as interdisciplinary and multicultural contexts available in the college and university.

The BA degree in English with a concentration in creative writing consists of 45 semester hours. Application to the program requires a minimum cumulative GPA of 3.00. Students must also have completed 45 hours of course work. Required courses are as follows:

ENG	200	Critical Reading and Writing About Literature *L/HU* 3
ENG	210	Introduction to Creative Writing 3
ENG	221	Survey of English Literature *HU* 3
		or ENG 222 Survey of English Literature *HU, H* (3)
ENG	241	Literatures of the United States to 1860 *HU* 3
ENG	242	Literatures of the United States, 1860 to Present *HU* 3
ENG	310	Intermediate Creative Writing 3
ENG	411	Advanced Creative Writing 3
ENG	495	Literary Forms: Theory and Practice 3
ENG	498	PS: Directions in Creative Writing 3
ENG	498	Pro-Seminar 3
Total		30

Six additional hours must be chosen from a course list supplied by the departmental advisor.

The nine remaining hours needed to complete the 45 semester hours are electives chosen from the department's offerings at the 200 level and above. At least 18 of the 45 hours must be taken at the 300 or 400 level. At least 12 of these upper-division semester hours must be completed at the Tempe campus, including at least one ENG 310 or ENG 411 writing workshop in the student's chosen genre. A grade of "C" (2.00) or higher is required in all courses taken for the major. A 3.00 GPA in the major is required for graduation.

The BA degree in English with a concentration in linguistics consists of 42 semester hours. Required courses are as follows:

ENG	200	Critical Reading and Writing About Literature *L/HU* 3
ENG	213	Introduction to the Study of Language 3
ENG	221	Survey of English Literature *HU* 3
		or ENG 222 Survey of English Literature *HU, H* (3)
		or ENG 241 Literatures of the United States to 1860 *HU* (3)
		or ENG 242 Literatures of the United States, 1860 to Present *HU* (3)
ENG	312	English in Its Social Setting *L/HU/SB* 3
ENG	313	Phonology and Morphology *L* 3
ENG	314	Modern Grammar 3
ENG	413	History of the English Language *HU* 3
ENG	414	Studies in Linguistics (repeated for a total of nine semester hours) 9

Twelve additional hours are electives, chosen in consultation with the student's advisor. These courses must be at the 200 level or above. At least one must be a three-semester-hour course in a modern language other than English at the 400 level or above. A grade of "C" (2.00) or higher is required in all courses taken for the major. *No course may be used to satisfy more than one requirement.*

The BA degree in English with a concentration in literature consists of 45 semester hours. Required courses are as follows:

ENG	200	Critical Reading and Writing About Literature *L/HU* 3
ENG	221	Survey of English Literature *HU* 3
ENG	222	Survey of English Literature *HU, H* 3
ENG	241	Literatures of the United States to 1860 *HU* 3
ENG	242	Literatures of the United States, 1860 to Present *HU* 3
ENG	421	Shakespeare *HU* 3

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Courses taken to fulfill the areas and periods listed below can be used to satisfy more than one of these requirements:

Upper-division course in critical theory (3)
Upper-division course in gender, American ethnic literatures, and/or postcolonial studies (3)
Course in the history and/or structure of language (3)
Upper-division course in literature before 1660, exclusive of ENG 303, 321, 355, 356, and 421 (3)
Upper-division course in literature between 1660 and 1900 (3)
Upper-division course in literature after 1900 (3)

Additional hours needed to complete the 45 hours are electives chosen from the department's offerings at the 200 level and above. At least 18 of the 45 hours must be taken at the 300 or 400 level. A grade of "C" (2.00) or higher is required in all courses taken for the major.

MINORS

The minor in English with a concentration in linguistics consists of 24 semester hours. Required courses are as follows:

ENG 200 Critical Reading and Writing About Literature *L/HU* 3
ENG 213 Introduction to the Study of Language 3
ENG 221 Survey of English Literature *HU* 3
or ENG 222 Survey of English Literature *HU, H* (3)
or ENG 241 Literatures of the United States to 1860 *HU* (3)
or ENG 242 Literatures of the United States, 1860 to Present *HU* (3)
ENG 312 English in Its Social Setting *L/HU/SB* 3
ENG 314 Modern Grammar....3
ENG 413 History of the English Language *HU*....3

The six additional hours are electives chosen from the department's offerings, with at least one course (three hours) required at the 300 or 400 level. A grade of "C" (2.00) or higher is required in all courses for the minor.

The minor in English with a concentration in literature consists of 24 semester hours. These courses are required:

ENG 200 Critical Reading and Writing About Literature *L/HU* 3
ENG 221 Survey of English Literature *HU* 3
or ENG 222 Survey of English Literature *HU, H* (3)
ENG 241 Literatures of the United States to 1860 *HU*....3
or ENG 242 Literatures of the United States, 1860 to Present *HU* (3)
ENG 321 Introduction to Shakespeare *L/HU*....3
or ENG 421 Shakespeare *HU* (3)

Also required are two upper-division courses in literature (six hours) and two electives (six hours) chosen from among the department's offerings, with at least one course (three hours) at the 300 or 400 level. A grade of "C" (2.00) or higher is required in all courses taken for the minor.

BIS CONCENTRATIONS

Four concentrations in English (creative writing, linguistics concentration, literature concentration, and writing certificate) are available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

WRITING CERTIFICATE

The Writing Certificate consists of 19 semester hours. Initial entry into the program requires a minimum GPA of 3.00 in ENG 101 and 102, 105, or 107 and 108. Students must also have completed at least 30 hours of course work and must have a minimum GPA of 3.00. Required courses are as follows:

ENG 216 Persuasive Writing on Public Issues *L* 3
or ENG 412 Creative Nonfiction (3)
ENG 301 Writing for the Professions *L*....3
ENG 372 Document Production *L* 3
ENG 472 Rhetorical Studies *L*....3
ENG 484 Internship: Writing Certificate 3
ENG 498 PS: Writing Certificate Portfolio....1
Total 16

Also required is an additional writing course in English (three hours) or a writing or design course (three hours) selected from an approved list of courses from across campus. All students are required to submit a portfolio before receiving the certificate.

SECONDARY EDUCATION—BAE

This degree is offered through the Initial Teacher Certification (ITC) program in the College of Education. Students pursuing a major in Secondary Education with an academic specialization in English have an advisor in the College of Education and an advisor within the Department of English.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

Academic Specialization ITC Admission Requirements. The following courses must be completed with a grade of "C" (2.00) or higher before applying to the ITC professional program:

ENG 200 Critical Reading and Writing About Literature *L/HU* 3
At least three additional required courses in the academic specialization 9

English. The major teaching field consists of 39 semester hours with an additional six hours of teaching methods in English. A grade of "C" (2.00) or higher is required in all academic specialization courses. Required courses are as follows:

ENG 200 Critical Reading and Writing About Literature *L/HU*....3
ENG 212 English Prose Style *L* 3
or ENG 215 Strategies of Academic Writing *L* (3)

or ENG 216 Persuasive Writing on Public Issues *L* (3)
or ENG 217 Writing Reflective Essays *L* (3)
ENG 221 Survey of English Literature *HU* 3
ENG 222 Survey of English Literature *HU, H* 3
ENG 241 Literatures of the United States to 1860 *HU* 3
ENG 242 Literatures of the United States, 1860 to Present *HU* 3
ENG 312 English in Its Social Setting *L/HU/SB* 3
or ENG 314 Modern Grammar (3)
ENG 421 Shakespeare *HU* 3
or ENG 422 Studies in Shakespeare *HU* (3)
ENG 471 Literature for Adolescents *HU* 3
An upper-division course in women's literature or American ethnic literature 3
Electives 3
Upper-division electives 6
Total 39

Teaching Methods

ENG 480 Methods of Teaching English: Composition *L* 3
ENG 482 Methods of Teaching English: Language *L* 3
Total 6

GRADUATE PROGRAMS

The faculty in the Department of English offer programs leading to the MA degree in English (with concentrations in comparative literature, English linguistics, literature and language, and rhetoric and composition), Master of Fine Arts degree in Creative Writing (options include fiction, nonfiction, and poetry), Master of Teaching English as a Second Language degree, and PhD degree in English with two concentrations, one in literature and one in rhetoric/composition and linguistics. See the *Graduate Catalog* for requirements.

ENGLISH (ENG)

For more ENG courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M ENG Note 1. Completion of the First-Year Composition requirement (ENG 101 and 102 [or 105] or ENG 107 and 108 with a grade of "C" [2.00] or higher) is a prerequisite for all English courses above the 100 level.

M ENG Note 2. A term paper or equivalent out-of-class written work is required in all upper-division (300- and 400-level) ENG courses.

M ENG Note 3. English majors and minors are expected to have completed ENG 200 before taking 400-level literature courses.

M ENG 101 First-Year Composition. (3)
fall, spring, summer
Discovering, organizing, and developing ideas in relation to the writer's purpose, subject, and audience. Emphasizes modes of written discourse and effective use of rhetorical principles. Foreign students, see ENG 107. Prerequisite: see "University Testing Requirements," page 75, and "First-Year Composition Requirement," page 89.

M ENG 102 First-Year Composition. (3)
fall, spring, summer
Critical reading and writing; emphasis on strategies of academic discourse. Requires research paper. Foreign students, see ENG 108. Prerequisite with a grade of "C" (2.00) or higher: ENG 101.

M ENG 105 Advanced First-Year Composition. (3)
fall and spring
Concentrated composition course for students with superior writing skills; intensive reading; research papers; logical and rhetorical effectiveness. Credit is allowed for only ENG 105 or First-Year Composition. Prerequisite: see "University Testing Requirements," page 75, and "First-Year Composition Requirement," page 89.

M ENG 107 English for Foreign Students. (3)
fall and spring
For students from non-English-speaking countries who have studied English in their native countries, but who require practice in the idioms of English. Intensive reading, writing, and discussion. Satisfies the graduation requirement of ENG 101.

M ENG 108 English for Foreign Students. (3)
fall and spring
For foreign students; critical reading and writing; strategies of academic discourse. Requires research paper. Satisfies graduation requirement of ENG 102. Prerequisite with a grade of "C" (2.00) or higher: ENG 107.

M ENG 114 English Grammar and Usage. (3)
fall and spring
Fundamentals of English grammar (word and phrase structure) and of English usage (punctuation, grammatical correctness).

M ENG 200 Critical Reading and Writing About Literature. (3)
fall and spring
Introduces the terminology, methods, and objectives of the study of literature, with practice in interpretation and evaluation. See ENG Note 1. Prerequisite: English major or minor.
General Studies: L/HU

M ENG 201 World Literature. (3)
fall
Classical and medieval periods. Selections from the great literature of the world in translation and lectures on the cultural background. See ENG Note 1.
General Studies: HU, G, H

M ENG 202 World Literature. (3)
spring
Renaissance and modern periods. Selections from the great literature of the world in translation and lectures on the cultural background. See ENG Note 1.
General Studies: HU, H

M ENG 204 Introduction to Contemporary Literature. (3)
once a year
Poetry, fiction, drama, and possibly other genres. See ENG Note 1.
General Studies: HU

M ENG 210 Introduction to Creative Writing. (3)
fall and spring
Beginning writing of poetry, fiction, drama, or mixed genre. Separate sections for each genre. Each genre may be taken once. See ENG Note 1.

M ENG 212 English Prose Style. (3)
selected semesters
Analysis and practice of writing in various classical and modern prose styles. See ENG Note 1. Prerequisite: preferably English major or both approval of advisor and instructor. Prerequisite with a grade of "B" (3.00) or higher: ENG 102 or 105.
General Studies: L

M ENG 213 Introduction to the Study of Language. (3)
fall and spring
Language as code; phonetics, phonology, morphology, and syntax; the lexicon; language acquisition; sociolinguistics. See ENG Note 1.

M ENG 215 Strategies of Academic Writing. (3)
fall and spring
Advanced course in techniques of analyzing and writing academic expository prose. Writing is research based. See ENG Note 1.
General Studies: L

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M ENG 216 Persuasive Writing on Public Issues. (3)
fall and spring
Advanced course in techniques of analyzing and writing persuasive arguments addressing topics of current public interest. Papers are research based. See ENG Note 1.
General Studies: L

M ENG 217 Writing Reflective Essays. (3)
fall and spring
Critical examination of the influences discourse has on formation of identity; narrative analyses of self and culture. See ENG Note 1.
General Studies: L

M ENG 218 Writing About Literature. (3)
fall and spring
Advanced writing course requiring analytical and expository essays about fiction, poetry, and drama. For non-English majors. See ENG Note 1.
General Studies: L/HU

M ENG 221 Survey of English Literature. (3)
fall and spring
Medieval, Renaissance, and 18th-century literature. Emphasizes major writers and their works in their literary and historical contexts. See ENG Note 1.
General Studies: HU

M ENG 222 Survey of English Literature. (3)
fall and spring
Romantic, Victorian, and 20th-century literature. Emphasizes major writers and their works in their literary and historical contexts. See ENG Note 1.
General Studies: HU, H

M ENG 241 Literatures of the United States to 1860. (3)
fall and spring
Survey of literary movements and genres from colonization to the Civil War. See ENG Note 1.
General Studies: HU

M ENG 242 Literatures of the United States, 1860 to Present. (3)
fall and spring
Survey of literary movements and genres from the Civil War to the present. See ENG Note 1.
General Studies: HU

M ENG 245 Popular Culture Issues. (3)
fall and spring
Selected topics in various forms of popular culture related to written texts. May be repeated for credit when topics vary. See ENG Note 1.
General Studies: L

M ENG 301 Writing for the Professions. (3)
fall and spring
Advanced practice in writing and editing expository prose. Primarily for preprofessional majors. See ENG Notes 1, 2.
General Studies: L

M ENG 302 Business Writing. (3)
selected semesters
Advanced interdisciplinary writing course designed to improve the workplace writing competence of W. P. Carey School of Business professional and preprofessional students. Lecture, discussion, case studies, cooperative learning, interactive, Internet, student presentations. See ENG Notes 1, 2. Prerequisite: prebusiness or business major.

M ENG 303 Classical Backgrounds of English Literature. (3)
selected semesters
Readings of Greek and Latin literature in translation as they relate to literature in English. See ENG Notes 1, 2.
General Studies: HU

M ENG 307 Writing Science Fiction. (3)
selected semesters
Writing science fiction, primarily the short story. Lecture, workshop, online supplements. See ENG Notes 1, 2.

M ENG 310 Intermediate Creative Writing. (3)
fall and spring
Separate sections for fiction and poetry. May be taken once for poetry, once for fiction. Lecture, writing assignments, discussion, criticism. See ENG Notes 1, 2. Prerequisite: ENG 210 or instructor approval.

M ENG 312 English in Its Social Setting. (3)
fall and spring
Introduces the sociolinguistic study of the English language. See ENG Notes 1, 2.
General Studies: L/HU/SB

M ENG 313 Phonology and Morphology. (3)
spring
Introduces English morphology, phonology, etymology, and phonetic aspects of rhyme, alliteration, and other sound-based literary devices. See ENG Notes 1, 2.
General Studies: L

M ENG 314 Modern Grammar. (3)
fall and spring
Modern descriptive models of English grammar. See ENG Notes 1, 2.

M ENG 315 Medieval Literature in Translation. (3)
once a year
Medieval literature (insular and continental) in translation, from Beowulf to Malory (excluding Chaucer), emphasizing cultural and intellectual backgrounds. Lecture, discussion. See ENG Notes 1, 2.

M ENG 321 Introduction to Shakespeare. (3)
fall and spring
Shakespeare's major comedies, histories, and tragedies. See ENG Notes 1, 2.
General Studies: L/HU

M ENG 325 Restoration and the 18th Century. (3)
once a year
Writers and movements in nondramatic literature of the restoration and early 18th century. Lecture, discussion. See ENG Notes 1, 2.

M ENG 326 English Drama 1660–1800. (3)
once a year
English drama 1660–1800. See ENG Notes 1, 2.
General Studies: HU

M ENG 328 The Novel to Jane Austen. (3)
selected semesters
From origins of prose fiction through the 18th century. See ENG Notes 1, 2.
General Studies: HU, H

M ENG 329 19th-Century British Fiction. (3)
selected semesters
Includes such authors as Austen, Dickens, Eliot, and Conrad. See ENG Notes 1, 2.
General Studies: L/HU

M ENG 330 19th-Century British Poetry. (3)
selected semesters
Romantic and Victorian poets studied in context. Lecture, discussion. See ENG Notes 1, 2.

M ENG 331 American Drama. (3)
once a year
Major works in the development of American drama from its beginnings to the present. See ENG Notes 1, 2.
General Studies: L/HU

M ENG 333 American Ethnic Literature. (3)
once a year
Examines America's multiethnic identity through works of literature that depict American ethnic, gender, and class sensibilities. Cross-listed as AFH 333. Credit is allowed for only AFH 333 or ENG 333. See ENG Notes 1, 2.
General Studies: L/HU, C

M ENG 335 American Poetry. (3)
selected semesters
Themes and developments in American poetry. Lecture, discussion. See ENG Notes 1, 2.

M ENG 337 Major American Novels. (3)
once a year
Major American novels studied in their ethnically diverse literary, historical, and cultural contexts. See ENG Notes 1, 2.
General Studies: L/HU

M ENG 342 20th-Century British and Irish Literature. (3)
selected semesters
Major works in the development of literature since 1900, studied in their historical and cultural contexts. Lecture, discussion. See ENG Notes 1, 2.
General Studies: HU

M ENG 345 Selected Authors or Issues. (3–4)
selected semesters
Different topics may be offered. Film topics with lab may carry 4 credits. May be repeated for credit when topics vary. See ENG Notes 1, 2.

M ENG 352 Short Story. (3)
fall and spring
Development of the short story as a literary form; analysis of its technique from the work of representative authors. See ENG Notes 1, 2.
General Studies: L/HU

M ENG 353 African American Literature: Beginnings Through the Harlem Renaissance. (3)
fall
Historical survey of African American literary traditions and cultural contexts from slavery through the 1930s. Cross-listed as AFH 353. Credit is allowed for only AFH 353 or ENG 353. See ENG Notes 1, 2.
General Studies: L/HU, C

M ENG 354 African American Literature: Harlem Renaissance to the Present. (3)
spring
Historical survey of African American literary traditions and cultural contexts from the 1920s to the present. Cross-listed as AFH 354. Credit is allowed for only AFH 354 or ENG 354. See ENG Notes 1, 2.
General Studies: L/HU, C

M ENG 355 European Dramatic Traditions. (3)
selected semesters
Development of European drama since Aeschylus. See ENG Notes 1, 2.
General Studies: L/HU

M ENG 356 The Bible as Literature. (3)
fall and spring
Readings in the Jewish and Christian Scriptures in modern translation. See ENG Notes 1, 2.
General Studies: HU

M ENG 359 American Indian Literatures. (3)
selected semesters
Selected oral traditions and contemporary works by American Indian authors. See ENG Notes 1, 2.
General Studies: L/HU, C

M ENG 360 Western American Literature. (3)
once a year
Critical examination of ideas and traditions of the literature of the western United States, including the novel. See ENG Notes 1, 2.
General Studies: L/HU

M ENG 363 Chicana and Chicano Literature. (3)
fall
Development of Chicana and Chicano literature; study of genres and themes; attention to literary antecedents. Cross-listed as CSH 363. Credit is allowed for only CSH 363 or ENG 363. See ENG Notes 1, 2.
General Studies: L/HU, C

M ENG 364 Women and Literature. (3)
selected semesters
Approaches to issues of gender and representation in literature by and about women. See ENG Notes 1, 2.
General Studies: HU

M ENG 365 History of Film. (3–4)
selected semesters
Development of motion pictures. 3 hours lecture, screenings. See ENG Notes 1, 2.
General Studies: HU

M ENG 369 Science Fiction Studies. (3)
selected semesters
Examines science fiction in cultural context. May be repeated for credit. Lecture, discussion, face-to-face, hybrid, or online. See ENG Notes 1, 2.

M ENG 372 Document Production. (3)
fall and spring
Introduces document design and production. Practice in critique and in writing the content of publications. Lecture, discussion. See ENG Notes 1, 2. Prerequisite: instructor approval.
General Studies: L

M ENG 374 Technical Editing. (3)
fall and spring
Fundamentals of editing technical and professional materials. Role of editors in analyzing, revising, and polishing manuscripts. Successful writer-editor dialogues. See ENG Notes 1, 2.

M ENG 385 Career Development for English Majors. (3)
selected semesters
Theoretical and practical aspects of career planning related to skills and interests developed in English studies. Lecture, discussion, workshop. See ENG Notes 1, 2.
General Studies: L

M ENG 400 History of Literary Criticism. (3)
selected semesters
Major critics and critical traditions in the Western world. See ENG Notes 1, 2, 3. Prerequisite: 6 hours in literature or instructor approval.
General Studies: L/HU, H

M ENG 401 Topics in Critical Theory. (3)
selected semesters
Major critical schools of recent decades—postcolonialist, psychoanalytic, deconstructionist, feminist, new historicist. May be repeated for credit when topics vary. Lecture, discussion. See ENG Notes 1, 2, 3. Prerequisite: 6 hours in literature or instructor approval.

M ENG 409 Advanced Screenwriting. (3)
selected semesters
Applies the principles taught in a complete feature-length screenplay. See ENG Notes 1, 2. Prerequisite: instructor approval.

M ENG 411 Advanced Creative Writing. (3)
fall and spring
Poetry, fiction, and drama for experienced writers, emphasizing individual style. Each genre may be taken once. See ENG Notes 1, 2. Prerequisite: ENG 310 or instructor approval.

M ENG 412 Creative Nonfiction. (3)
selected semesters
Lectures, discussion, and criticism concerning techniques of writing creative nonfiction for publication. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 411 or instructor approval.

M ENG 413 History of the English Language. (3)
once a year
Development of English from the earliest times to the modern period. See ENG Notes 1, 2. Prerequisite: junior standing or instructor approval.
General Studies: HU

M ENG 414 Studies in Linguistics. (3)
fall and spring
Relationship of linguistics to literature, gender, power, and other social issues. May be repeated for credit. See ENG Notes 1, 2. Prerequisite: ENG 213 or 312 or 314 or 413 or instructor approval.

M ENG 415 Topics in Medieval Literature and Culture. (3)
selected semesters
Interdisciplinary approach to medieval literature, emphasizing cultural and historical context. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 221 or instructor approval.
General Studies: HU

M ENG 416 Chaucer in Middle English. (3)
once a year
Yearly alternate between Chaucer's *The Canterbury Tales* and *Troilus and Criseyde*. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 221 or instructor approval.
General Studies: HU

M ENG 418 Renaissance Literature. (3)
once a year
Selected topics, authors, contexts, and themes in Renaissance literature. See ENG Notes 1, 2, 3. Prerequisite: ENG 221 or instructor approval.
General Studies: L/HU

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M ENG 419 English Literature in the Early 17th Century. (3)
once a year
Topics, authors, and themes in English literature, 1603–1660. See ENG Notes 1, 2, 3. Prerequisite: ENG 221 or instructor approval.
General Studies: HU

M ENG 421 Shakespeare. (3)
fall and spring
A selection of Shakespeare's works in different genres. See ENG Notes 1, 2, 3. Prerequisite: ENG 221 or instructor approval.
General Studies: HU

M ENG 422 Studies in Shakespeare. (3)
once a year
Topics for close examination in selected dramatic and/or nondramatic works. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 421 or instructor approval.
General Studies: HU

M ENG 423 Renaissance Drama. (3)
spring
Topics, authors, and themes in the drama of the Tudor and early Stuart periods. See ENG Notes 1, 2, 3. Prerequisite: ENG 221 or instructor approval.
General Studies: L/HU

M ENG 424 Milton. (3)
once a year
Selected prose and poetry, emphasizing *Paradise Lost, Paradise Regained,* and *Samson Agonistes.* See ENG Notes 1, 2, 3. Prerequisite: ENG 221 or instructor approval.
General Studies: HU

M ENG 425 Studies in Romanticism. (3)
fall
Romanticism in continental, British, and American literature and culture. May be repeated for credit when topics vary. Lecture, discussion. See ENG Notes 1, 2, 3. Prerequisite: ENG 222 or 241 or instructor approval.
General Studies: HU

M ENG 427 Studies in 18th-Century Literature and Culture. (3)
selected semesters
Literary, social, and cultural issues of the period studied in an interdisciplinary format. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 221 or 222 or instructor approval.
General Studies: HU

M ENG 429 Studies in European Literature and Culture. (3)
selected semesters
Literary, cultural, and historical issues. May be repeated for credit when topics vary. Lecture, discussion. See ENG Notes 1, 2, 3. Topics may include the following:

- Feminist Political Writing in Contemporary Europe. (3)
  Examines the discourse of gender-politics in Central Eastern Europe before and after Soviet hegemony. Cross-listed as FLA 461. Credit is allowed for only ENG 429 or FLA 461.
- Literature and Film in 20th-Century Eastern Europe. (3)
  Evaluates literary texts and films as a massive propaganda machine of the totalitarian state. Cross-listed as FLA 476. Credit is allowed for only ENG 429 or FLA 476.
- Literature and Politics in Pre- and Post-Communist Europe. (3)
  Interdisciplinary examination of the cultures of Eastern Europe from WWI to the present. Cross-listed as FLA 472. Credit is allowed for only ENG 429 or FLA 472.
- Politics of Drama in 20th-Century Europe. (3)
  Interdisciplinary examination of European drama before and after WWII. Cross-listed as FLA 464. Credit is allowed for only ENG 429 or FLA 464.

M ENG 430 Studies in Victorian Literature and Culture. (3)
once a year
Literary, social, and cultural issues of the period studied in an interdisciplinary format. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 222 or instructor approval.
General Studies: L/HU

M ENG 434 Studies in the Literature and Culture of the Americas. (3)
selected semesters
Literature and culture of North America, South America, and the Caribbean. May be repeated for credit when topics vary. Lecture, discussion. See ENG Notes 1, 2, 3. Prerequisite: ENG 241 or 242 or instructor approval.
General Studies: HU, C

M ENG 436 Studies in Anglophone Literature and Culture. (3)
selected semesters
Literary, social, and cultural issues of English-speaking former colonial territories. May be repeated for credit when topics vary. Lecture, discussion. See ENG Notes 1, 2, 3. Prerequisite: ENG 222 or 242 or instructor approval.

M ENG 440 Studies in American Literature and Culture. (3)
once a year
Various genres in their literary, political, theoretical, and historical contexts. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 241 or 242 or instructor approval.
General Studies: HU

M ENG 442 Studies in 20th-Century British and Irish Literature and Culture. (3)
once a year
Major literary genres (novel, poetry, and drama) in their cultural and historical contexts. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 222 or instructor approval.

M ENG 444 Studies in American Romanticism. (3)
once a year
Fiction, poetry, and essays of such 19th-century authors as Hawthorne, Emerson, Melville, Thoreau, Fuller, Whitman, and Dickinson. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 241 or instructor approval.
General Studies: HU

M ENG 445 Studies in American Realism. (3)
once a year
Writers and influences that shaped the development of literary realism. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 242 or instructor approval.
General Studies: L/HU

M ENG 448 Studies in Irish Literature and Culture. (3)
selected semesters
Themes and problems pertaining to Irish literature, film, and social and cultural history. May be repeated for credit when topics vary. Lecture, discussion. See ENG Notes 1, 2, 3. Prerequisite: ENG 222 or instructor approval.
General Studies: HU

M ENG 452 Studies in the Novel. (3)
selected semesters
May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 221 or 222 or 241 or 242 or instructor approval.
General Studies: HU

M ENG 453 Studies in the American Novel. (3)
fall and spring
Poetics and politics of the novel, 18th through 21st centuries. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 241 or 242 or instructor approval.
General Studies: HU

M ENG 457 Studies in American Poetry. (3)
selected semesters
May be repeated for credit when topics vary. See ENG Notes 1, 2, 3. Prerequisite: ENG 241 or 242 or instructor approval.
General Studies: HU

M ENG 459 Studies in African American/Caribbean Literatures. (3)
selected semesters
Studies in African American or Caribbean literatures according to genre, period, theory, or selected authors. May be repeated for credit when topics vary. Cross-listed as AFH 459. Credit is allowed for only AFH 459 or ENG 459. See ENG Notes 1, 2, 3. Topics may include the following:

- African American Short Story
  General Studies: L

M ENG 461 Studies in Women and Literature. (3)
selected semesters
Advanced topics in literature by or about women. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3.
General Studies: HU

M ENG 464 Studies in Drama. (3)
selected semesters
Selected topics in the history and theory of the genre. See ENG Notes 1, 2, 3. Prerequisite: ENG 221 or 222 or 241 or 242 or instructor approval.
General Studies: L/HU

M ENG 465 Studies in Film. (3–4)
selected semesters
Advanced topics in cinema. May be repeated for credit when topics vary. Lecture, viewing, discussion. See ENG Notes 1, 2.

M ENG 469 Science and Literature. (3)
selected semesters
Historical and theoretical links between science and literature, from Francis Bacon to the present, examined in cultural context. May be repeated for credit when topics vary. Lecture, discussion. See ENG Notes 1, 2, 3.
General Studies: L/HU

M ENG 470 Symbols and Archetypes in Children's Literature. (3)
fall
Various critical approaches and recurring themes studied in relation to classical and contemporary children's literature. Lecture, discussion, reading. See ENG Notes 1, 2, 3.
General Studies: L/HU

M ENG 471 Literature for Adolescents. (3)
fall and spring
Prose and poetry that meet the interests and capabilities of junior high and high school students. Stresses recent literature. Requires passing grade of at least "C" (2.00) before students are permitted to student teach in English. See ENG Notes 1, 2, 3.
General Studies: HU

M ENG 472 Rhetorical Studies. (3)
fall and spring
Developments in theory and practice of major rhetorical inquiries. Seminar, workshop. See ENG Notes 1, 2. Prerequisite: junior standing.
General Studies: L

M ENG 476 Studies in Folklore. (3)
selected semesters
Surveys the history, genres, and dynamics of folklore, with emphasis on oral traditions. May be repeated for credit when topics vary. See ENG Notes 1, 2, 3.
General Studies: HU

M ENG 478 Studies in Modernism. (3)
selected semesters
Cultural, historical, and literary problems in American and European modernism. Lecture, discussion. See ENG Notes 1, 2, 3. Prerequisite: ENG 222 or instructor approval.
General Studies: HU

M ENG 479 Studies in Postmodernism. (3)
selected semesters
Literary, social, and cultural issues. May be repeated for credit when topics vary. Lecture, discussion. See ENG Notes 1, 2, 3. Prerequisite: ENG 222 or 242 or instructor approval.

M ENG 480 Methods of Teaching English: Composition. (3)
fall or spring and summer
Methods of instruction, organization, and presentation of appropriate content in the teaching of composition and other writing skills. See ENG Notes 1, 2.
General Studies: L

M ENG 482 Methods of Teaching English: Language. (3)
fall or spring and summer
Methods of instruction, organization, and presentation of appropriate content in language and usage for junior and senior high schools. Lecture, discussion, lab. See ENG Notes 1, 2.
General Studies: L

M ENG 484 Internship. (1–12)
fall and spring
Selected from the following areas. May be repeated for credit. See ENG Notes 1, 2. Topics may include the following:
- General. (1–12)
- Service Learning. (3)
  Fee.
- Writing Certificate. (3)

M ENG 493 Honors Thesis. (1–6)
selected semesters
General Studies: L

M ENG 495 Literary Forms: Theory and Practice. (3)
selected semesters
Types, history, analysis of traditional forms and contemporary adaptations. Separate sections for poetry, fiction. Each genre may be taken once. See ENG Notes 1, 2. Prerequisite: ENG 411 in same genre or instructor approval.

M ENG 498 Pro-Seminar. (1–7)
fall and spring
Selected from the following areas. May be repeated for credit when topics vary. See ENG Notes 1, 2. Topics may include the following:
- Directions in Creative Writing. (3)
- Introduction to Graduate Studies. (1)
- Issues in Creative Writing. (3)
- Writing Certificate Portfolio. (1)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

LINGUISTICS (LIN)

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

WRITING ACROSS THE CURRICULUM (WAC)

For more WAC courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M WAC 101 Introduction to Academic Writing. (3)
fall and spring
Combines classroom and supplemental instruction to teach academic genres of writing, including definition, summary, and analysis.

M WAC 107 Introduction to Academic Writing for International Students. (3)
fall and spring
For students from non-English-speaking countries. Combines classroom and supplemental instruction with intensive reading, writing, and discussion.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Department of Family and Human Development

www.asu.edu/clas/fhd
480/965-6978
COWDN 106

Richard A. Fabes, Chair

Professors: Christopher, Fabes, Griffin, Ladd, Martin, Roosa

Associate Professors: Dumka, Hanish, Madden-Derdich, Neff, Updegraff

Assistant Professors: Gager, Simpkins, Spinrad, Umaña-Taylor, Valiente

Senior Lecturers: Bodman, Weigand

FAMILY AND HUMAN DEVELOPMENT—BS

For the BS degree in Family and Human Development at the Tempe campus, students must pursue the concentration in family studies/child development. The mathematics proficiency must be met by completing MAT 142 or higher.

Family Studies/Child Development

The concentration in family studies/child development consists of the following core courses:

CDE	232	Human Development *SB*	3
CDE	338	Child Development Practicum	3
CDE	430	Infant/Toddler Development in the Family *SB*	3
FAS	331	Marriage and Family Relationships *SB*	3
FAS	361	Introduction to Family/Child Research Methods *L*	3
FAS	370	Family, Ethnic, and Cultural Diversity *SB, C*	3
FAS	431	Parent-Adolescent Relationships *SB*	3
FAS	435	Advanced Marriage and Family Relationships *L/SB*	3
FAS	484	Internship	3
		or FAS 390 Supervised Research Experience (3)	
FAS	498	Pro-Seminar	3
Total			30

In addition, 12 semester hours of unrestricted electives must be taken from the following:

CDE	337	Early Childhood Intervention	3
CDE	437	Infant Family Assessment and Observation *L/SB*	3
CDE	444	Risk and Variation in Child Development	3
CDE	498	Pro-Seminar	3
		or FAS 498 Pro-Seminar (3)	
FAS	301	Introduction to Parenting	3
FAS	330	Personal Growth in Human Relationships *SB*	3
FAS	332	Human Sexuality *SB*	3
FAS	390	Supervised Research Experience	1–3
FAS	440	Fundamentals of Marriage and Family Therapy	3
FAS	484	Internship	1–3
FAS	499	Individualized Instruction	3
		or CDE 499 Individualized Instruction (3)	

One statistics course is required; students may choose from courses such as PSY 230 Introduction to Statistics or EDP 454 Statistical Data Analysis in Education.

FAMILY AND HUMAN DEVELOPMENT MINOR

The minor in Family and Human Development consists of 18 semester hours in which students specialize in family studies/child development.

At least 12 of the 18 semester hours must be in upper-division courses.

Students take the following courses:

CDE	232	Human Development *SB*	3
FAS	331	Marriage and Family Relationships *SB*	3
FAS	440	Fundamentals of Marriage and Family Therapy	3
Total			9

Three courses (or nine semester hours) must be selected from the following and at least one course must be a CDE course:

CDE	337	Early Childhood Intervention	3
CDE	430	Infant/Toddler Development in the Family *SB*	3
CDE	444	Risk and Variation in Child Development	3
CDE	498	Pro-Seminar	3
		or FAS 498 Pro-Seminar (3)	
FAS	370	Family, Ethnic, and Cultural Diversity *SB, C*	3
FAS	431	Parent-Adolescent Relationships *SB*	3

BIS CONCENTRATION

A concentration in family studies/child development is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

SECONDARY EDUCATION—BAE

Family and Human Development. Applications are not being accepted at this time.

GRADUATE PROGRAMS

The faculty in the Department of Family and Human Development offer programs leading to the MS and PhD degrees. See the *Graduate Catalog* for requirements.

CHILD DEVELOPMENT (CDE)

M CDE 232 Human Development. (3)
fall, spring, summer
Lifespan development from conception through adulthood, with emphasis on family influences. Recognizes individuality within the universal pattern of development.
General Studies: SB

M CDE 337 Early Childhood Intervention. (3)
fall and spring
Explores how child development theory affects practice with children and families, emphasizing development of young children and early intervention. Cross listed as SWU 337. Credit is allowed for only CDE 337 or SWU 337. Prerequisite: CDE 232 or SWU 301 (or their equivalents).

M CDE 338 Child Development Practicum. (2–4)
fall, spring, summer session 1
Supervised practicum in the Child Development Lab preparing students for work in child care centers and agencies serving young children and families. May be repeated for credit. Lab. Prerequisite: CDE 232.

M CDE 430 Infant/Toddler Development in the Family. (3)
fall and spring
Examines the development of infants/toddlers, the socialization processes of families, and the interactions of these processes. Prerequisite: CDE 232 (or its equivalent).
General Studies: SB

M CDE 437 Infant Family Assessment and Observation. (3)
fall
Examines strategies for implementing developmental assessments and observations of young children and their families. Cross-listed as SWU 437. Credit is allowed for only CDE 437 or SWU 437. Prerequisite: CDE 232 or SWU 301 (or their equivalents).
General Studies: L/SB

M CDE 444 Risk and Variation in Child Development. (3)
fall and spring
Impact that constitutional and environmental risk factors have on young children and their families. Cross-listed as SWU 446. Credit is allowed for only CDE 444 or SWU 446. Prerequisite: CDE 232 or SWU 301 (or their equivalents).

M CDE 498 Pro-Seminar. (1–7)
fall and spring

M CDE 499 Individualized Instruction. (3)
fall and spring

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

FAMILY STUDIES (FAS)

For more FAS courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M FAS 301 Introduction to Parenting. (3)
fall and spring
Integrated approach to understanding parenting and parent-child interactions. Television course. Prerequisites: PGS 101; SOC 101 (or its equivalent).

M FAS 330 Personal Growth in Human Relationships. (3)
fall and spring
Personal development and behavior as related to competency in interpersonal relationships within the family. Processes of family interaction. Prerequisites: PGS 101; SOC 101 (or its equivalent).
General Studies: SB

M FAS 331 Marriage and Family Relationships. (3)
fall and spring
Issues, challenges, and opportunities relating to present-day marriage and family living. Factors influencing interrelations within the family. Prerequisite: a course in psychology or sociology.
General Studies: SB

M FAS 332 Human Sexuality. (3)
fall and spring
Relationship of sexuality to family life and to major societal issues. Emphasizes developing healthy, positive, and responsive ways of integrating sexual and other aspects of human living. Prerequisite: PGS 101.
General Studies: SB

M FAS 361 Introduction to Family/Child Research Methods. (3)
fall and spring
Examines basic methods applied to family/child research, critiques current research literature, and applies methods in current topics. Prerequisites: CDE 232; FAS 331.
General Studies: L

M FAS 370 Family, Ethnic, and Cultural Diversity. (3)
fall and spring
Integrative approach to understanding historical and current issues related to the structure and internal dynamics of diverse American families. Lecture, discussion. Cross-listed as AFS 370. Credit is allowed for only AFS 370 or FAS 370. Prerequisite: PGS 101 or SOC 101.
General Studies: SB, C

M FAS 390 Supervised Research Experience. (1–3)
fall, spring, summer
Practical, firsthand experience within current faculty research projects in family studies or child development. "Y" grade only; may be repeated for total of 6 hours. Prerequisites: FAS 361; 3.00 GPA in major; approval of supervising faculty member before registration.

M FAS 431 Parent-Adolescent Relationships. (3)
fall
Dynamics of the relationships between parents and adolescents. Developmental characteristics of adolescence and the corresponding adult stage. Prerequisites: CDE 232; FAS 331.
General Studies: SB

M FAS 435 Advanced Marriage and Family Relationships. (3)
fall and spring
Recent research, issues, and trends relating to marriage and family interaction. Influence of family composition, physical environment, family patterns, and values on family dynamics. Prerequisites: FAS 331, 361.
General Studies: L/SB

M FAS 440 Fundamentals of Marriage and Family Therapy. (3)
fall and spring
Introduces the fundamental orientations of marriage and family therapy. Prerequisite: CDE 232 or PGS 101 or SOC 101.

M FAS 484 Internship. (1–12)
fall and spring

M FAS 498 Pro-Seminar. (1–7)
fall and spring

M FAS 499 Individualized Instruction. (3)
fall, spring, summer

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Film and Media Studies

480/965-6747
LL 641

Students interested in the BA in Film in the College of Liberal Arts and Sciences (CLAS) complete a concentration in film and media studies, and students accepted into the BA in Film in the Katherine K. Herberger College of Fine Arts complete a concentration in film and media production. The concentrations include core courses and electives in the areas of critical studies and film production.

The faculty in the CLAS include a range of nationally and internationally recognized film and media scholars, several of whom received their terminal degrees from the

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

nations's top film and media programs. Their expertise is reflected in a cutting-edge curriculum based on rigorous theoretical, historical, and critical models of film analysis as well as proficiency with newer technologies such as DVDs, Internet, video games, and Web sites.

Program Requirements (45 semester hours)

Core Requirements (24 semester hours). To provide students pursuing the BA in Film with a concentration in film and media studies with basic visual literacy and technical understanding, they take the following core courses:

FMS	100	Introduction to Film 3
FMS	110	New Media and New Worlds *L* 3
FMS	200	Film History *HU* 3
FMS	270	Race and Ethnicity in American Cinema *C* 3
FMS	490	Capstone Seminar *HU, G* 3
THE	201	Film: The Creative Process I 3
THE	400	Focus on Film 3
THP	261	Introduction to Screenwriting 3
Total		 24

Film and Media Studies students select one area of emphasis (21 semester hours composed of 12 hours in one area of emphasis and three hours in each of the remaining areas). See an academic advisor for course lists within the following areas of emphasis:

digital and interactive media
media literacy and technology
national and global media
social identities in the media.

For more information, call the College of Liberal Arts and Sciences Film and Media Studies office at 480/965-6747 or the Office of Undergraduate Programs in CLAS at 480/965-6506.

Students interested in the BA in Film with a concentration in film and media production take core courses and electives in that area. For more information, visit the Katherine K. Herberger College of Fine Arts, GHALL 132, or call 480/965-5337.

FILM AND MEDIA STUDIES (FMS)

M FMS Note 1. With the exception of omnibus courses, all FMS courses have a teaching method of lecture, discussion, and screening.

ENG Note 2. With the exception of FMS 490, all FMS courses numbered 300 and higher have a prerequisite of ENG 102 (or 105 or 108) and FMS 100 with a grade of "C" or higher.

M FMS 100 Introduction to Film. (3)
fall and spring
Introduces the narrative structure, visual style, and cultural elements of film. Fee. See FMS Note 1.

M FMS 110 New Media and New Worlds. (3)
fall and spring
Explores the cultural effects of new media technologies. Fee. See FMS Note 1.
General Studies: L

M FMS 200 Film History. (3)
spring
Introduces the technological, aesthetic, social, and economic aspects of international film history. Fee. See FMS Note 1.
General Studies: HU

M FMS 270 Race and Ethnicity in American Cinema. (3)
fall and summr
Explores how Hollywood shapes perceptions of race and ethnicity in American society. Cross-listed as CSH 270. Credit is allowed for only FMS 270 or CSH 270. Fee. See FMS Note 1.
General Studies: HU, C

M FMS 294 Special Topics. (1–4)
selected semesters

M FMS 300 Media and Cultural Studies. (3)
once a year
The history of media and its cultural impact. Fee. See FMS Notes 1, 2.
General Studies: HU

M FMS 340 Contemporary American Film and Popular Culture. (3)
fall
Analyzes American films, television programs, and music as popular cultural documents. Fee. See FMS Notes 1, 2.
General Studies: HU

M FMS 350 Virtual Reality in Film and Media. (3)
fall
Analyzes virtual reality in films, media, and fiction. Fee. See FMS Notes 1, 2.

M FMS 351 Digital, Cyberspace, and Information Cultures. (3)
selected semesters
Analyzes modern cultural and digital technologies. Fee. See FMS Notes 1, 2.
General Studies: L

M FMS 394 Special Topics. (1–4)
selected semesters

M FMS 440 Los Angeles: Movies and Culture. (3)
selected semesters
Explores film treatment of the historical culture of Los Angeles. Cross-listed as HUM 440. Credit is allowed for only FMS 440 or HUM 440. Fee. See FMS Notes 1, 2.
General Studies: HU, C

M FMS 441 Global Cinema. (3)
selected semesters
Examines how film represents three important dimensions of globalization: its relationship to national culture, terrorism, and immigration. Fee. See FMS Notes 1, 2.
General Studies: HU, G

M FMS 450 Technology, Culture, and Media. (3)
spring
Studies the socio-political relationships among technology, culture, and media. Fee. See FMS Notes 1, 2.
General Studies: L/HU

M FMS 460 Masculinity and Film. (3)
spring
Examines the representation of masculinity and the male body in film. Fee. See FMS Notes 1, 2.
General Studies: HU

M FMS 461 Film Theory and Criticism. (3)
selected semesters
Examines the major positions and issues in film theory from an historical perspective. Fee. See FMS Notes 1, 2.
General Studies: HU

M FMS 480 Globalization, Technology, and Culture. (3)
selected semesters
Studies the socio-political relationship between media and the evolution of globalization. Fee. See FMS Notes 1, 2.
General Studies: HU, G

M FMS 484 Internship. (1–12)
selected semesters
See FMS Notes 1, 2.

M FMS 490 Capstone Seminar. (3)
once a year
Capstone seminar. See FMS Note 1. Prerequisites: major in Film and Media Studies; senior standing.
General Studies: HU

M FMS 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Film Theory and Criticism. (3)

spring
Examines the major positions and issues in film theory from a historical perspective. See FMS Notes 1, 2.

- Masculinity and Film. (3)
  spring
  Examines the representation of masculinity and the male body in film. See FMS Notes 1, 2.

M FMS 498 Pro-Seminar. (1–7)
selected semesters
Topics may include the following:

- Capstone Seminar. (3)
  once a year
  See FMS Note 1.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Department of Geography

geography.asu.edu
480/965-7533
SCOB 330

Richard Aspinall, Chair

Professors: Arreola, Aspinall, Balling, Brazel, Cerveny, Dorn, Gober, Ó hUallacháin, Pasqualetti, Zehnder

Associate Professors: Ellis, Fall, Kuby, McHugh, Wentz

Assistant Professors: Edsall, Keys, Larson, Li, Lukinbeal, Myint, Schmeeckle, Torrens

Lecturers: Larson-Keagy, Shaeffer

Geography is a discipline that integrates the physical and human dimensions of the world in the study of places, people, and environments. The mission of the Department of Geography is the creation, dissemination, and application of geographic knowledge and scholarship in a liberal arts and sciences tradition.

Undergraduate students may choose to pursue a BA degree in Geography, BS degree in Geography, BAE degree in Secondary Education, or minor in Geography. A grade of "C" (2.00) or higher is necessary in all required Department of Geography courses. Both BA and BS degrees in Geography consist of a minimum of 45 semester hours. A minor consists of a minimum of 18 semester hours.

GEOGRAPHY—BA

A student choosing a BA degree in Geography may be interested in a liberal arts and sciences focus on the breadth of the field. A BA degree may also focus on a geographic region. In either case, the student crafts an individualized program of study in consultation with an advisor.

The BA degree consists of courses in core geographic knowledge (10–11 semester hours), core geographic skills (12 semester hours), a regional course (three semester hours), and electives (12 semester hours), for a minimum of 37 semester hours in geography. At least 18 semester hours in geography must be in upper-division courses. The remaining hours are made up of electives from geography courses or related fields of study, chosen in consultation with an advisor.

Core Geographic Knowledge

GCU	102	Introduction to Human Geography *SB*	3
GCU	121	World Geography* *SB, G*	4
GPH	111	Introduction to Physical Geography *SQ*	4
		or GPH 411 Physical Geography (3)	
Total			10–11

* Completion of three semester hours of transfer course work can also be used to fulfill this requirement.

Core Geographic Skills

GCU	495	Quantitative Methods in Geography *CS*	3
GCU	496	Geographic Research Methods *L*	3
GPH	371	Introduction to Cartography and Georepresentation *CS*	3
GPH	491	Geographic Field Methods	3
Total			12

Geographic Region

Choose one of the courses below, in consultation with an advisor. 3

GCU	322	Geography of U.S. and Canada *SB, C* (3)
GCU	323	Geography of Latin America *SB, G* (3)
GCU	325	Geography of Europe *SB, G* (3)
GCU	326	Geography of Asia *SB, G* (3)
GCU	327	Geography of Africa *SB, G* (3)
GCU	328	Geography of Middle East and North Africa *SB, G* (3)
GCU	332	Geography of Australia and Oceania *SB, G* (3)
GCU	344	Geography of Hispanic Americans *SB, C* (3)
GCU	421	Geography of Arizona and Southwestern United States *SB, C* (3)
GCU	423	Geography of South America *SB, G* (3)
GCU	424	Geography of Mexico and Middle America *SB, G* (3)
GCU	425	Geography of the Mexican American Borderland *L/SB, G* (3)
GCU	426	Geography of Russia and Surroundings *SB, G* (3)
GCU	433	Geography of Southeast Asia (3)
GPH	433	Alpine and Arctic Environments *G* (3)

A student can design, in consultation with an advisor, a general BA degree in Geography. In addition, there are three cooperative programs whereby a student receives a BA degree in Geography and an emphasis in Asian Studies, Southeast Asian Studies, or Latin American Studies.

Asian and Southeast Asian Certificates. Students majoring in Geography may elect to pursue an Asian or Southeast Asian certificate. For more information, see "Asian Studies," page 509, and "Southeast Asian Studies," page 514.

Latin American Studies Emphasis. Students majoring in Geography may elect to pursue a Latin American studies concentration combining courses from the major with

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

selected outside courses of wholly Latin American content. At least 30 upper-division semester hours of the program must be in Latin American content courses, including 15 hours in geography (or in courses approved by the Department of Geography advisor) and 15 in other disciplines. A reading knowledge of either Spanish or Portuguese is required and a reading knowledge of the other language is suggested. The program must be approved by the Latin American Studies Center. See "Latin American Studies," page 512, for more information.

GEOGRAPHY—BS

The BS degree consists of courses in core geographic knowledge (10–11 semester hours), core geographic skills (12 semester hours) and a geographic techniques course (from three to four semester hours), and electives (12 semester hours)—for a minimum of 37 semester hours in geography. At least 18 semester hours in geography must be in upper-division courses. The remaining hours are made up of electives from geography courses or related fields of study, chosen in consultation with an advisor.

Core Geographic Knowledge

GCU	102	Introduction to Human Geography *SB*	3
GCU	121	World Geography* *SB, G*	4
GPH	111	Introduction to Physical Geography *SQ*	4
		or GPH 411 Physical Geography (3)	
Total			10–11

* Completion of three semester hours of transfer course work can also be used to fulfill this requirement.

Core Geographic Skills

GCU	495	Quantitative Methods in Geography *CS*	3
GCU	496	Geographic Research Methods *L*	3
GPH	371	Introduction to Cartography and Georepresentation *CS*	3
GPH	491	Geographic Field Methods	3
Total			12

Core Geographic Techniques

Choose one of the courses below, in consultation with an advisor. 3–4

- GPH 372 Air Photo Interpretation (3)
- GPH 373 Geographic Information Science I *CS* (4)
- GPH 471 Geographics: Interactive and Animated Cartography and Geovisualization *CS* (3)

The remaining four courses (12 semester hours) of geography electives and nine hours of geography or related fields of study vary among the options available for a BS degree in Geography. There are two specific departmental concentrations: meteorology-climatology and urban studies. In addition, a student can design, in consultation with an advisor, an individualized BS degree emphasizing other areas within the major.

Meteorology-Climatology Concentration. See an undergraduate advisor in the Department of Geography for the latest National Weather Service certification requirements. The required courses for the meteorology-climatology concentration include a minimum of 40 semester hours in geography plus course work in mathematics and physics:

Core Courses

GCU	102	Introduction to Human Geography *SB*	3
GCU	121	World Geography* *SB, G*	4
GCU	495	Quantitative Methods in Geography *CS*	3
GCU	496	Geographic Research Methods *L*	3
GPH	111	Introduction to Physical Geography *SQ*	4
		or GPH 411 Physical Geography (3)	
GPH	370	Geographic Information Technologies *CS*	3
GPH	371	Introduction to Cartography and Georepresentation *CS*	3
GPH	491	Geographic Field Methods	3
Total			25–26

* Completion of three semester hours of transfer course work can also be used to fulfill this requirement.

Required Meteorology Courses

GPH	213	Introduction to Climatology *SG**	3
GPH	215	Introduction to Climatology Laboratory *SG**	1
GPH	409	Synoptic Meteorology I	4
GPH	410	Synoptic Meteorology II	4
GPH	412	Physical Climatology	3
		or GPH 413 Meteorological Instruments and Measurement (3)	
		or GPH 414 Climate Change *G* (3)	
Total			15

* Both GPH 213 and 215 must be taken to secure SG credit.

Mathematics and Physics-Related Courses

MAT	270	Calculus with Analytic Geometry I *MA*	4
MAT	271	Calculus with Analytic Geometry II *MA*	4
MAT	272	Calculus with Analytic Geometry III *MA*	4
PHY	121	University Physics I: Mechanics *SQ*[1]	3
PHY	122	University Physics Laboratory I *SQ*[1]	1
PHY	131	University Physics II: Electricity and Magnetism *SQ*[2]	3
PHY	132	University Physics Laboratory II *SQ*[2]	1
Total			20

[1] Both PHY 121 and 122 must be taken to secure SQ credit.
[2] Both PHY 131 and 132 must be taken to secure SQ credit.

Urban Studies Concentration. The required courses for the urban studies concentration are as follows:

Core Courses

GCU	102	Introduction to Human Geography *SB*	3
GCU	121	World Geography* *SB, G*	4
GCU	495	Quantitative Methods in Geography *CS*	3
GCU	496	Geographic Research Methods *L*	3
GPH	111	Introduction to Physical Geography *SQ*	4
		or GPH 411 Physical Geography (3)	
GPH	371	Introduction to Cartography and Georepresentation *CS*	3
GPH	373	Geographic Information Science I *CS*	4
GPH	491	Geographic Field Methods	3
Total			26–27

* Completion of three semester hours of transfer course work can also be used to fulfill this requirement.

Required Urban Studies Courses

GCU	361	Urban Geography *SB*	3
GCU	484	Human Geography Internship	3
		or GPH 484 Internship (3)	

or one upper-division course outside the department in a related field of study chosen in consultation with an advisor (3)

Choose one of the courses below 3
- GCU 351 Population Geography *SB, G* (3)
- GCU 357 Social Geography *SB* (3)
- GCU 364 Energy in the Global Arena *SB, G* (3)
- GCU 441 Economic Geography *SB* (3)
- GCU 442 Geographical Analysis of Transportation *SB* (3)
- One upper-division GCU or GPH course chosen in consultation with an advisor (3)

Choose two of the courses below 6
- GCU 359 Cities of the World I *SB, G, H* (3)
- GCU 360 Cities of the World II *SB, G* (3)
- GCU 444 Geographic Studies in Urban Transportation *SB* (3)
- GCU 494 ST: Geography of Phoenix (3)

Urban studies total 15

MINOR IN GEOGRAPHY

A minor in Geography is awarded to students who complete a minimum of 18 hours in geography. A grade of "C" (2.00) or higher is required for all courses taken for the minor.

The following lower-division courses are required:

GCU 102 Introduction to Human Geography *SB* 3
GPH 111 Introduction to Physical Geography *SQ* 4
or GPH 411 Physical Geography (3)

Total 6–7

The remaining courses are selected in conjunction with an advisor. At least one course should be a geographic skill, these include: Geographic Information Technologies (GPH 370), Introduction to Cartography and Georepresentation (GPH 371), Air Photo Interpretation (GPH 372), Geographic Information Science I (GPH 373), or Geographic Field Methods (GPH 491). At least four courses should be upper-division courses in geography.

UNDERGRADUATE CERTIFICATE IN GEOGRAPHIC INFORMATION SCIENCE

This cross-disciplinary certificate is designed for undergraduates wishing to pursue a GIS-related career. The certificate is awarded to students completing the following 19 semester hours with a grade of "C" or higher.

Required courses

CSE 100 Principles of Programming with C++ *CS* 3
or CSE 110 Principles of Programming with Java *CS* (3)
GCU 495 Quantitative Methods in Geography *CS* 3
GPH 370 Geographic Information Technologies *CS* 3
GPH 373 Geographic Information Science I *CS* 4
GPH 473 Geographic Information Science II *CS* 3

Elective Courses

Choose one of the courses below 3
- ABS 485 GIS in Natural Resources (3)
- ABS 586 Remote Sensing in Environmental Resources (4)
- CSE 181 Applied Problem Solving with Visual BASIC *CS* (3)
- GCU 361 Urban Geography *SB* (3)
- GCU 441 Economic Geography *SB* (3)
- GCU 442 Geographical Analysis of Transportation *SB* (3)
- GCU 484 Human Geography Internship (3)
- GPH 371 Introduction to Cartography and Georepresentation *CS* (3)
- GPH 372 Air Photo Interpretation (3)
- GPH 471 Geographics: Interactive and Animated Cartography and Geovisualization *CS* (3)
- GPH 481 Environmental Geography (3)
- GPH 483 Geographic Information Analysis (3)
- GPH 484 Internship: GIS based (3)
- PLB 434 Landscape Ecological Analysis and Modeling (3)

Total 19

BIS CONCENTRATIONS

Five concentrations in Geography (geography, environmental geography, geographical information science, geography for business, and international geography) are available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Two double concentrations are also available: the global family (in conjunction with family resources and human development) and environmental science (in conjunction with plant biology). Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

SECONDARY EDUCATION—BAE

This degree is offered through the Initial Teacher Certification (ITC) program in the College of Education. Students pursuing a major in Secondary Education (Geography) have an advisor in the College of Education and an advisor within the Department of Geography.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

Academic Specialization ITC Admission Requirements. At least three required courses in the academic specialization must be completed with a grade of "C" (2.00) or higher before applying to the ITC professional program.

Geography. The major teaching field consists of 30 semester hours and six hours in teaching methods. A grade of "C" (2.00) or higher is required in all academic specialization courses. Required major courses are as follows:

GCU 102 Introduction to Human Geography *SB* 3
GCU 121 World Geography *SB, G* 4
GCU 141 Introduction to Economic Geography *SB, G* 3
or GCU 322 Geography of U.S. and Canada *SB, C* (3)
or GCU 351 Population Geography *SB, G* (3)
or GCU 361 Urban Geography *SB* (3)
GPH 111 Introduction to Physical Geography *SQ* 4

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

GPH	210 Society and Environment *G*	3
	or GPH 211 Landform Processes *L* (3)	
	or GPH 212 Introduction to Meteorology *SQ*[1] (3)	
	and GPH 214 Introduction to Meteorology Lab *SQ*[1] (1)	
	or GPH 314 Global Change *HU*, *G* (3)	
Electives[2]		12–13
Minimum total		30

[1] Both GPH 212 and 214 must be taken to secure SQ credit.

[2] Electives must be upper-division geography courses chosen in conjunction with an advisor to reach the 30-semester-hour major requirement.

Teaching Methods

GCU	414 Teaching Geography Standards	3
SED	480 Special Methods of Teaching Social Studies	3

CULTURAL GEOGRAPHY (GCU)

For more GCU courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M GCU 102 Introduction to Human Geography. (3)
fall, spring, summer
Systematic study of human use of the earth. Spatial organization of economic, social, political, and perceptual environments. Fee.
General Studies: SB

M GCU 121 World Geography. (4)
fall, spring, summer
Description and analysis of areal variations in social, economic, and political phenomena in major world regions.
General Studies: SB, G

M GCU 141 Introduction to Economic Geography. (3)
fall
Production, distribution, and consumption of various types of commodities of the world and relationships to the activities of humans.
General Studies: SB, G

M GCU 200 Orientation to Geography. (1)
fall
Basic introduction to the Department of Geography faculty, undergraduate graduation requirements, and possible jobs and skills in geography. Cross-listed as GPH 200. Credit is allowed for only GCU 200 or GPH 200.

M GCU 240 Introduction to Southeast Asia. (3)
fall and spring
Interdisciplinary introduction to the cultures, religions, political systems, geography, and history of Southeast Asia. Cross-listed as ASB 240/HST 240/POS 240/REL 240. Credit is allowed for only ASB 240 or GCU 240 or HST 240 or POS 240 or REL 240.
General Studies: HU/SB, G

M GCU 253 Introduction to Cultural and Historical Geography. (3)
selected semesters
Cultural patterns, including such phenomena as language, religion, and various aspects of material culture. Origins and diffusion and division of the world into cultural areas.
General Studies: SB, G

M GCU 294 Special Topics. (4)
once a year
Topics include global awareness.

M GCU 322 Geography of U.S. and Canada. (3)
fall
Spatial distribution of relevant physical, economic, and cultural phenomena in the United States and Canada.
General Studies: SB, C

M GCU 323 Geography of Latin America. (3)
fall and spring
Spatial distribution of relevant physical, economic, and cultural phenomena in South, Middle, and Caribbean America.
General Studies: SB, G

M GCU 325 Geography of Europe. (3)
spring
Broad and systematic overview of Europe, emphasizing physical, economic, and cultural phenomena.
General Studies: SB, G

M GCU 326 Geography of Asia. (3)
once a year
Spatial distribution of relevant physical, economic, and cultural phenomena in Asia, excluding the former Soviet Union.
General Studies: SB, G

M GCU 327 Geography of Africa. (3)
selected semesters
Spatial distribution of relevant physical, economic, and cultural phenomena in Africa.
General Studies: SB, G

M GCU 328 Geography of Middle East and North Africa. (3)
selected semesters
Spatial distribution of relevant physical, economic, and cultural phenomena in the Middle East and North Africa. Prerequisite: GCU 121 or instructor approval.
General Studies: SB, G

M GCU 332 Geography of Australia and Oceania. (3)
selected semesters
Spatial distribution of relevant physical, economic, and cultural phenomena in Australia, New Zealand, and Pacific Islands.
General Studies: SB, G

M GCU 344 Geography of Hispanic Americans. (3)
fall
Examines the homelands, migrations, settlements, landscapes, roles, and selected cultural traditions of Hispanic Americans.
General Studies: SB, C

M GCU 350 The Geography of World Crises. (3)
fall and spring
Contemporary world crises viewed from a perspective of geographic concepts and techniques.
General Studies: SB, G

M GCU 351 Population Geography. (3)
fall
Demographic patterns; spatial, temporal, and structural investigation of the relationship of demographic variables to cultural, economic, and environmental factors.
General Studies: SB, G

M GCU 352 Political Geography. (3)
selected semesters
Relationship between the sociophysical environment and the state.
General Studies: SB, G

M GCU 357 Social Geography. (3)
once a year
Environmental perception of individuals and groups. Stresses the spatial aspect of social and physical environments.
General Studies: SB

M GCU 359 Cities of the World I. (3)
fall
Historical evolution of urban patterns and structures in the Middle East, India, Southeast Asia, China, Japan, and Europe.
General Studies: SB, G, H

M GCU 360 Cities of the World II. (3)
spring
Historical evolution of urban patterns and structures in Latin America, North America, Sub-Saharan Africa, and Australasia.
General Studies: SB, G

M GCU 361 Urban Geography. (3)
fall and spring
External spatial relations of cities, internal city structure, and spatial aspects of urban problems in various parts of the world, particularly in the United States. Fee.
General Studies: SB

M GCU 364 Energy in the Global Arena. (3)
spring
Production, transportation, and consumption of energy, emphasizing the electric power industry and its environmental problems.
General Studies: SB, G

M GCU 394 Special Topics. (1–4)
fall and spring

M GCU 414 Teaching Geography Standards. (3)
fall and summer
Introduces Arizona Geography Standards for K–12 educators, emphasizing exciting curricula and illustrated with best practices by master teachers. Internet.

M GCU 421 Geography of Arizona and Southwestern United States. (3)
fall
Geography of the Southwest with an emphasis on Arizona. Divided into physical geography, history, people, and economy.
General Studies: SB, C

M GCU 423 Geography of South America. (3)
selected semesters
Prerequisite: GCU 323 or instructor approval.
General Studies: SB, G

M GCU 424 Geography of Mexico and Middle America. (3)
selected semesters
Central America and Mexico. Prerequisite: GCU 323 or instructor approval.
General Studies: SB, G

M GCU 425 Geography of the Mexican American Borderland. (3)
spring
Geography of a binational and bicultural region. Examines settlement, boundary issues, ethnic subregions, population change, industrial development, and urban growth. Field trips. Fee.
General Studies: L/SB, G

M GCU 426 Geography of Russia and Surroundings. (3)
selected semesters
Examines the geography of Russia and other post-Soviet states. Prerequisite: GCU 121 or instructor approval.
General Studies: SB, G

M GCU 432 Geography of China. (3)
selected semesters
Examines the physical, economic, cultural, social, demographic, agricultural, political, historical, and environmental aspects of the geography of China. Lecture, discussion. Prerequisite: GCU 326 or instructor approval.
General Studies: SB, G

M GCU 433 Geography of Southeast Asia. (3)
selected semesters
Examines the biophysical and social features of Southeast Asian nations and peoples. Prerequisite: GCU 326 or instructor approval.

M GCU 441 Economic Geography. (3)
once a year
Spatial distribution of primary, secondary, and tertiary economic and production activities. Prerequisite: GCU 141 or instructor approval.
General Studies: SB

M GCU 442 Geographical Analysis of Transportation. (3)
selected semesters
Networks, modes, economics, and flows at the urban, national, and international scales. Fee. Prerequisite: GCU 141 or 441.
General Studies: SB

M GCU 444 Geographic Studies in Urban Transportation. (3)
selected semesters
Current urban transportation issues in metropolitan Phoenix. Lecture, team project. Fee. Prerequisite: GCU 361.
General Studies: SB

M GCU 453 Recreational Geography. (3)
selected semesters
Examines problems surrounding the organization and use of space for recreation. Introduces geographic field survey methods of data collection and analysis. Possible Saturday field trips.

M GCU 455 Historical Geography of U.S. and Canada. (3)
selected semesters
Geographical perspective on the evolution of the United States and Canada from pre-Columbian times to early 20th century.
General Studies: SB, H

M GCU 474 Public Land Policy. (3)
selected semesters
Geographic aspects of federal public lands, policy, management, and issues. Emphasizes western wilderness and resource development problems.
General Studies: SB

M GCU 484 Human Geography Internship. (3)
fall and spring

M GCU 494 Special Topics. (1–4)
once a year
Topics may include the following:
- Geography in the K–12 Classroom. (3)
- Geography Methods. (3)
- Geography of Phoenix. (3)

M GCU 495 Quantitative Methods in Geography. (3)
fall and spring
Statistical techniques applied to the analysis of spatial distributions and relationships. Introduces models and theory in geography. Fee. Prerequisite: MAT 119.
General Studies: CS

M GCU 496 Geographic Research Methods. (3)
fall and spring
Scientific techniques used in geographic research. Fee. Prerequisites: GCU 495; GPH 371, 491.
General Studies: L

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

PHYSICAL GEOGRAPHY (GPH)

M GPH 111 Introduction to Physical Geography. (4)
fall, spring, summer
Spatial and functional relationships among climates, landforms, soils, water, and plants. Credit is allowed for only GPH 111 or 411. 3 hours lecture, 3 hours lab, field trips. Fee.
General Studies: SQ

M GPH 200 Orientation to Geography. (1)
fall
Basic introduction to the Department of Geography faculty, undergraduate graduation requirements, and possible jobs and skills in geography. Cross-listed as GCU 200. Credit is allowed for only GCU 200 or GPH 200.

M GPH 210 Society and Environment. (3)
fall and spring
Examines the interaction between social processes, key environmental issues, and nature's role as a resource at global and regional scales.
General Studies: G

M GPH 211 Landform Processes. (3)
once a year
Geographic characteristics of landforms and earth-surface processes, emphasizing erosion, transportation, deposition, and implications for human management of the environment. Fee. Prerequisites: ENG 101 (or 105); GPH 111.
General Studies: L

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M GPH 212 Introduction to Meteorology. (3)
fall
Fundamentals of weather and climate, including basic atmospheric processes and elements. Students whose curricula require a laboratory course must also register for GPH 214. Prerequisite: GPH 111 or instructor approval.
General Studies: SQ (if credit also earned in GPH 214)

M GPH 213 Introduction to Climatology. (3)
spring
Fundamentals of meteorological/climatological analysis, including terminology and symbology. Recommended for meteorology/climatology program students. Prerequisite: instructor approval.
General Studies: SG (if credit also earned in GPH 215)

M GPH 214 Introduction to Meteorology Laboratory. (1)
fall
Introduces basic meteorological/climatological data and measurements. Suggested concurrent enrollment in GPH 212. 3 hours lab.
General Studies: SQ (if credit also earned in GPH 212)

M GPH 215 Introduction to Climatology Laboratory. (1)
spring
Fundamentals of meteorological/climatological map analysis and interpretation. Recommended for meteorology/climatology program students. May be taken concurrently with GPH 213. Prerequisite: instructor approval.
General Studies: SG (if credit also earned in GPH 213)

M GPH 271 Maps and Map Reading. (3)
selected semesters
Map types, uses, limitations, and evolution. Communication via paper and digital medium. Navigation, interpretation, projections, sources, symbols, classification, case, handling.

M GPH 314 Global Change. (3)
fall and spring
Response of Earth's natural systems (atmosphere, hydrosphere, lithosphere, biosphere) to past environmental change, and effects of potential future changes.
General Studies: HU, G

M GPH 370 Geographic Information Technologies. (3)
fall and spring
Introduces modern geographic information technologies, including cartography, GIS, remote sensing, global positioning systems, and statistical analyses. Lecture, lab. Fee.
General Studies: CS

M GPH 371 Introduction to Cartography and Georepresentation. (3)
fall and spring
Study and creation of maps. Fundamental mapping principles (projection, scale, generalization, symbolization) and computer-based cartographic production. Lecture, lab. Fee. Prerequisite: GPH 111.
General Studies: CS

M GPH 372 Air Photo Interpretation. (3)
once a year
Subset, remote sensing, includes photography, films, aerial geometry, image components, stereoscopy, photogrammetry, ground truthing; interpret physical, cultural, economic, intelligence information. Prerequisite: GPH 211 or a course in Cultural Geography (GCU) or instructor approval.

M GPH 373 Geographic Information Science I. (4)
fall and spring
History and basic aspects of GIS, including map and data file structure, conversions, and synthesis with a computerized environment. Fee. Prerequisite: GPH 370.
General Studies: CS

M GPH 381 Geography of Natural Resources. (3)
once a year
Nature and distribution of natural resources and the problems and principles associated with their use.
General Studies: G

M GPH 394 Special Topics. (1–4)
fall and spring

M GPH 401 Topics in Physical Geography. (1–3)
selected semesters
Open to students qualified to pursue independent studies. Possible field trips. Prerequisite: instructor approval.

M GPH 402 Service Learning. (3)
fall and spring
K–12 tutoring and mentoring internship related to academic course work in physical geography. Requires weekly reflective reading and writing. May be repeated for credit. Internship. Fee. Pre- or corequisite: GPH 111.
General Studies: C

M GPH 405 Energy and Environment. (3)
spring
Sources, regulatory and technical controls, distribution, and consequences of the supply and human use of energy. Fee. Prerequisite: a course in physical or life sciences or instructor approval.

M GPH 409 Synoptic Meteorology I. (4)
selected semesters
Diagnostic techniques and synoptic forecasting. Includes techniques of weather analysis, map interpretation, and satellite and radar analysis. Prerequisites: MAT 270; PHY 131, 132.

M GPH 410 Synoptic Meteorology II. (4)
selected semesters
Diagnostic techniques and synoptic forecasting. Includes techniques of weather analysis, map interpretation, and satellite and radar analysis. Prerequisite: GPH 409.

M GPH 411 Physical Geography. (3)
selected semesters
Introduces physiography and the physical elements of the environment. Credit is allowed for only GPH 411 or 111. Field trips.

M GPH 412 Physical Climatology. (3)
once a year
Physical processes in the earth-atmosphere system on regional and global scales; concepts and analysis of energy, momentum, and mass balances. Prerequisites: both GPH 212 and 213 or only instructor approval.

M GPH 413 Meteorological Instruments and Measurement. (3)
once a year
Design and operation of ground-base and aerological weather measurement systems. Collection, reduction, storage, retrieval, and analysis of data. Field trips. Prerequisites: both GPH 212 and 213 or only instructor approval.

M GPH 414 Climate Change. (3)
once a year
Survey of three climate research areas: paleoclimatology, theories (e.g., greenhouse warming), numerical modeling. Prerequisite: GPH 212 or instructor approval.
General Studies: G

M GPH 418 Landforms of the Western United States. (3)
selected semesters
Studies landforms and geomorphic processes in the western United States, including lecture, topographical maps, aerial photographs, satellite imagery, and field trips. Lecture, critical inquiry, laboratory, field work. Fee. Prerequisites: GPH 211 (or its equivalent); a General Studies L course.
General Studies: L

M GPH 422 Plant Geography. (3)
once a year
Plant communities of the world and their interpretation, emphasizing North American plant associations. Cross-listed as PLB 422. Credit is allowed for only GPH 422 or PLB 422. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 or only GPH 111.

M GPH 433 Alpine and Arctic Environments. (3)
selected semesters
Regional study of advantages and limitations of the natural environment upon present and future problems involving resource distribution, human activities, and regional and interregional adjustments. Field trips. Prerequisite: GPH 111 or instructor approval.
General Studies: G

M GPH 471 Geographics: Interactive and Animated Cartography and Geovisualization. (3)
selected semesters
Advanced cartography, stressing influence and application of the computer on geographic representation. Emphasizes creation of maps for the Internet. Lecture, lab. Fee. Prerequisite: GPH 371 or instructor approval.
General Studies: CS

M GPH 473 Geographic Information Science II. (3)
fall
GIS as a basis for microcomputer spatial analysis and synthesis. Includes digitizing, database organization, spatial retrieval, and graphics. Lecture, lab. Fee. Prerequisites: GPH 373 (or instructor approval); CSE 100.
General Studies: CS

M GPH 474 Dynamic Meteorology I. (3)
selected semesters
Large-scale atmospheric motion, kinematics, Newton's laws, wind equation, baroclinics, vorticity, and the midlatitude depression. Prerequisites: GPH 213, 215; MAT 271; PHY 131, 132.

M GPH 475 Dynamic Meteorology II. (3)
selected semesters
Topics in climate dynamics. General circulation, numerical modeling, teleconnection phenomena, and surface-atmosphere interaction. Prerequisite: GPH 474 or instructor approval.

M GPH 481 Environmental Geography. (3)
selected semesters
Problems of environmental quality, including uses of spatial analysis, research design, and field work in urban and rural systems. Field trips. Prerequisite: instructor approval.

M GPH 483 Geographic Information Analysis. (3)
selected semesters
Basics of spatial data analysis. Topics include point pattern analysis, spatial autocorrelation, spatial regression, and kriging. Lecture, lab. Fee. Prerequisites: both one 200-level or above course in geography or biology or plant biology or geology or planning and one basic statistics course (GCU 495).

M GPH 484 Internship. (1–12)
selected semesters
Topics may include the following:
- GIS-Based. (3)
- Physical Geography Internship. (3)
  Assist in teaching sixth-grade students a simplified version of GPH 111 using hands-on activities.

M GPH 491 Geographic Field Methods. (3)
once a year
Field techniques, including use of aerial photos, large-scale maps, and fractional code system of mapping; urban and rural field analysis to be done off campus. Fee. Prerequisites: GCU 102, 121; GPH 111.

M GPH 494 Special Topics. (1–4)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Geological Sciences

geology.asu.edu
480/965-5081
PS F686

James A. Tyburczy, Chair

Regents' Professors: Buseck, Christensen, Greeley

Professors: Burt, Farmer, Fink, Hervig, Holloway, Knauth, Peacock, Reynolds, Sarewitz, Shock, Stump, Tyburczy, S. Williams

Associate Professors: Anbar, Arrowsmith, Garnero, Sharp

Assistant Professors: Clarke, Fouch, Hartnett, McNamara, Semken

Associate Research Professor: L. Williams

Lecturer: Johnson

GEOLOGICAL SCIENCES—BS

The BS degree in Geological Sciences requires 39 semester hours, including the following core courses or their equivalents:

GLG	101	Introduction to Geology I (Physical) *SQ*,[1] *G*	3
GLG	102	Introduction to Geology II (Historical) *SG*,[2] *H*	3
GLG	103	Introduction to Geology I—Laboratory *SQ*[1]	1
GLG	104	Introduction to Geology II—Laboratory *SG*[2]	1
GLG	310	Structural Geology	3
GLG	321	Mineralogy	3
GLG	400	Geology Colloquium	1
GLG	424	Petrology	3
GLG	435	Sedimentology	3
GLG	451	Field Geology I *L*	3
GLG	452	Field Geology II *L*	3
Total			27

[1] Both GLG 101 and 103 must be taken to secure SQ credit.
[2] Both GLG 102 and 104 must be taken to secure SG credit.

In addition, two of the following four branch courses must be taken:

GLG	418	Geophysics	3
GLG	430	Paleontology	3
GLG	470	Hydrogeology	3
GLG	481	Geochemistry	3

To complete the total required hours, other upper-division courses in geological sciences (excluding GLG 300 and 304) or courses in related fields listed as approved by the

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

department may be taken. See "College Graduation Requirements," page 503.

Supporting courses required in related fields include the following:

CHM	113	General Chemistry I *SQ*	4
CHM	116	General Chemistry II *SQ*	4
MAT	270	Calculus with Analytic Geometry I *MA*	4
MAT	271	Calculus with Analytic Geometry II *MA*	4
MAT	272	Calculus with Analytic Geometry III *MA*	4
		or MAT 274 Elementary Differential Equations *MA* (3)	
PHY	121	University Physics I: Mechanics *SQ*[1]	3
PHY	122	University Physics Laboratory I *SQ*[1]	1
PHY	131	University Physics II: Electricity and Magnetism *SQ*[2]	3
PHY	132	University Physics Laboratory II *SQ*[2]	1
Total			28

[1] Both PHY 121 and 122 must be taken to secure SQ credit.
[2] Both PHY 131 and 132 must be taken to secure SQ credit.

MAT 290 Calculus I and MAT 291 Calculus II may be substituted for MAT 270, 271, and 272.

MINOR IN GEOLOGICAL SCIENCES

A minor in Geological Sciences is awarded to students who complete a minimum of 21 hours of geological science courses. Required courses are as follows:

GLG	101	Introduction to Geology I (Physical) *SQ*,[1] *G*	3
GLG	102	Introduction to Geology II (Historical) *SG*,[2] *H*	3
GLG	103	Introduction to Geology I—Laboratory *SQ*[1]	1
GLG	104	Introduction to Geology II—Laboratory *SG*[2]	1
GLG	310	Structural Geology	3
GLG	321	Mineralogy	3
GLG	400	Geology Colloquium	1
Total			15

[1] Both GLG 101 and 103 must be taken to secure SQ credit.
[2] Both GLG 102 and 104 must be taken to secure SG credit.

The remaining six semester hours may be chosen among other upper-division geological sciences courses, except GLG 300 and 400, after consultation with a departmental advisor.

BIS CONCENTRATION

A concentration in geological sciences is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

GRADUATE PROGRAMS

The faculty in the Department of Geological Sciences offer programs leading to the degrees of Master of Natural Science, MS, and PhD. See the *Graduate Catalog* for requirements.

GEOLOGICAL SCIENCES (GLG)

For more GLG courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M GLG 101 Introduction to Geology I (Physical). (3)
fall, spring, summer
Basic principles of geology, geochemistry, and geophysics. Rocks, minerals, weathering, earthquakes, mountain building, volcanoes, water, and glaciers. Possible weekend field trips.
General Studies: SQ (if credit also earned in GLG 103), G

M GLG 102 Introduction to Geology II (Historical). (3)
spring
Basic principles of applied geology and the use of these principles in the interpretation of geologic history. Possible weekend field trips. Fee. Prerequisite: GLG 101.
General Studies: SG (if credit also earned in GLG 104), H

M GLG 103 Introduction to Geology I—Laboratory. (1)
fall, spring, summer
3 hours lab, some field trips. Fee. Corequisite: GLG 101.
General Studies: SQ (if credit also earned in GLG 101)

M GLG 104 Introduction to Geology II—Laboratory. (1)
spring
Laboratory techniques involving map interpretation, cross sections, and fossils. 3 hours lab, possible field trips. Prerequisite: GLG 103 (or its equivalent). Corequisite: GLG 102.
General Studies: SG (if credit also earned in GLG 102)

M GLG 105 Introduction to Planetary Science. (4)
spring
Solar system objects and their geologic evolution, surfaces, interiors, and atmospheres; weekly laboratory for data analysis and experiments. Lecture, lab, weekend field trip.
General Studies: SG

M GLG 110 Geologic Disasters and the Environment. (3)
fall
Geological studies as they apply to interactions between humans and earth. Includes geological processes and hazards, resources, and global change.
General Studies: SG (if credit also earned in GLG 111), G

M GLG 111 Geologic Disasters Laboratory. (1)
fall
Basic geological processes and concepts. Emphasizes geology-related environmental problems. Case histories, field studies, lab. Corequisite: GLG 110.
General Studies: SG (if credit also earned in GLG 110)

M GLG 294 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Geology of the Planets
  Fee.

M GLG 300 Geology of Arizona. (3)
once a year
Basic and historical geology, fossils, mining, energy resources, environmental problems, landscape development, and meteorites, cast in examples from Arizona. Majors who have taken GLG 101 for credit may not enroll.

M GLG 304 Geology of the Grand Canyon. (2)
selected semesters
Reviews the discovery, history, origin, and geology of the Grand Canyon of the Colorado River in Arizona. Requires 6-day field trip down the river (first 6 days after commencement in May) at student's expense. Requires field research and term paper on trip.

M GLG 310 Structural Geology. (3)
fall
Geologic structures and the mechanical processes involved in their formation. 2 hours lecture, 3 hours lab. Possible field trips. Fee. Prerequisites: GLG 101; MAT 270 (or 290).

M GLG 321 Mineralogy. (3)
spring
Crystal chemistry, crystallography, mineral identification, origin and occurrence of minerals, systematic mineralogy. 2 hours lecture, 3 hours lab, possible field trips. Prerequisites: CHM 113; MAT 270 (or 290). Pre- or corequisite: CHM 116.

M GLG 325 Oceanography. (3)
fall
Introduces marine geology, chemistry, and physical and biological oceanography. Methods of oceanic exploration, environmental and social aspects of oceans. Cross-listed as BIO 325. Credit is allowed for only GLG 325 or BIO 325. Prerequisite: BIO 101 or GLG 101 or instructor approval.

M GLG 362 Geomorphology. (3)
selected semesters
Land forms and processes that create and modify them. Laboratory and field study of physiographic features. 2 hours lecture, 3 hours lab, possible weekend field trips. Prerequisite: GLG 101. Pre- or corequisite: GLG 310.

M GLG 400 Geology Colloquium. (1)
fall and spring
Presentation of recent research by faculty and guests. Requires written assignments. 1 semester hour required for Geological Sciences majors; may be repeated for a total of 2 semester hours. Prerequisite: 2 courses in the department or instructor approval.

M GLG 402 Service Learning. (3)
fall and spring
K–12 tutoring and mentoring internship related to academic course work in geological sciences. Requires weekly reflective reading and writing. May be repeated for credit. Internship. Fee. Pre- or corequisites: GLG 101, 103.
General Studies: C

M GLG 404 Fundamentals of Planetary Geology. (3)
fall
Surveys planetary topics, including impacts, tectonics, and volcanism on planetary objects, and use of spacecraft data, including geological mapping. Lectures, problem sets, weekend field trip. Fee. Prerequisite: Geology major or degree or instructor approval.

M GLG 405 Geology of the Moon. (3)
selected semesters
Current theories of the origin and evolution of the moon through photogeological analyses and consideration of geochemical and geophysical constraints. Possible field trips to examine Arizona geology. Fee. Prerequisite: GLG 105 or instructor approval.

M GLG 406 Geology of Mars. (3)
selected semesters
Geological evolution of Mars through analyses of spacecraft data, theoretical modeling, and study of terrestrial analogs; emphasizes current work. Possible field trips to examine Arizona geology. Fee. Prerequisite: GLG 105 or instructor approval.

M GLG 410 Computers in Geology. (3)
fall
Geological computer skills, including data processing, visualization, presentation, numerical analysis, software and hardware applications. 2 hours lecture, 3 hours lab. Prerequisites: both GLG 101 and an upper-division course in geology or only instructor approval.
General Studies: CS

M GLG 412 Geotectonics. (3)
selected semesters
Earthquakes, earth's interior, formation of oceanic and continental crust, and plate tectonics. Emphasizes current work. Prerequisite: GLG 310.

M GLG 416 Field Geophysics. (3)
spring
Methods of applied geophysical exploration; seismic refraction, gravity, electrical resistivity, geomagnetics. Includes survey planning, data acquisition, processing, analysis, and interpretation. Lecture, field exercises. Prerequisite: a course in geology or instructor approval.

M GLG 418 Geophysics. (3)
fall
Solid earth geophysics; geomagnetism, gravity, seismology, heat flow. Emphasizes crust and upper mantle. Prerequisites: a combination of GLG 310 and MAT 272 and PHY 131 or only instructor approval.

M GLG 419 Geodynamics. (3)
selected semesters
Emphasizes application of continuum principles to geological problems, including lithospheric stresses, heat transfer, fluid mechanics, and rock rheology. Prerequisite: PHY 131.

M GLG 420 Volcanology. (3)
once a year
Distribution of past and present volcanism, types of volcanic activity, mechanism of eruption, form and structure of volcanoes, and geochemistry of volcanic activity. Possible weekend field trips. Fee. Prerequisite: GLG 424.

M GLG 424 Petrology. (3)
fall
Origin of igneous and metamorphic rocks. Optical mineralogy, hand specimen identification, and thin-section analysis. 2 hours lecture, 3 hours lab, possible weekend field trips. Fee. Prerequisite: GLG 321.

M GLG 430 Paleontology. (3)
fall
Introduces concepts and analytical techniques in biogeology, paleobiology, paleoecology, and paleoenvironmental reconstruction from the fossil record. 2 hours lecture, 3 hours lab. Fee. Prerequisites: both GLG 102 and MAT 270 (or 290) or only instructor approval.

M GLG 435 Sedimentology. (3)
spring
Origin, transport, deposition, and diagenesis of sediments and sedimentary rocks. Physical analysis, hand specimen examination, and interpretation of rocks and sediments. 2 hours lecture, 3 hours lab, possible weekend field trips. Fee. Prerequisites: GLG 102, 321.

M GLG 441 Ore Deposits. (3)
selected semesters
Origin, occurrence, structure, and mineralogy of ore deposits. Possible weekend field trips. Fee. Prerequisite: GLG 424 or instructor approval.

M GLG 451 Field Geology I. (3)
spring
Geological mapping techniques using topographic maps and aerial photos. Intensive field-based instruction. Lab. Fee. Prerequisite: GLG 310. Pre- or corequisite: GLG 321.
General Studies: L

M GLG 452 Field Geology II. (3)
summer
Continuation of GLG 451. Lab. Fee. Prerequisites: GLG 321, 451.
General Studies: L

M GLG 455 Advanced Field Geology. (3–4)
once a year
Geologic mapping in igneous, sedimentary, and metamorphic terrains of the Basin and Range province of Arizona. May be repeated for credit. Weekend field trips. Fee. Prerequisite: instructor approval.

M GLG 456 Cordilleran Regional Geology. (3)
selected semesters
Systematic coverage through space and time of the geological development of western North America, emphasizing the western United States. Fee. Prerequisite: senior major or graduate student in Geological Sciences or instructor approval.

M GLG 460 Astrobiology. (3)
fall and spring
Origin, early evolution, distribution, and future of life on Earth and elsewhere in the cosmos. May be repeated for credit. Lecture, discussion, video conferences, possible field trips. Cross-listed as AST 460/BIO 460/CHM 483/MIC 475. Credit is allowed for only AST 460 or BIO 460 or CHM 483 or GLG 460 or MIC 475. Prerequisite: instructor approval.

M GLG 461 Geomicrobiology. (3)
spring
Past and present interactions among microbial life, geological materials, and biogeochemical cycles involving carbon, sulfur, phosphate, nitrogen, and minerals. Cross-listed as MIC 461. Credit is allowed for only GLG 461 or MIC 461. Prerequisites: introductory courses in chemistry and microbiology (or geological sciences); instructor approval.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M GLG 470 Hydrogeology. (3)
spring
Geology of groundwater occurrence, aquifer and well hydraulics, water chemistry and quality, contaminant transport, remediation. Emphasizes quantitative methods. Prerequisites: GLG 101 (or 103); MAT 270; PHY 121.

M GLG 481 Geochemistry. (3)
spring
Origin and distribution of the chemical elements. Geochemical cycles operating in the earth's atmosphere, hydrosphere, and lithosphere. Cross-listed as CHM 481. Credit is allowed for only CHM 481 or GLG 481. Prerequisite: CHM 341 (or 346) or GLG 321.

M GLG 484 Internship. (1–4)
selected semesters

M GLG 485 Meteorites and Cosmochemistry. (3)
selected semesters
Chemistry of meteorites and their relationship to the origin of the earth, solar system, and universe. Cross-listed as CHM 485. Credit is allowed for only CHM 485 or GLG 485. Prerequisite: CHM 341 or 346.

M GLG 490 Topics in Geology. (1–3)
fall, spring, summer
Special topics in a range of fields in geology. May be repeated for credit. Fee. Prerequisite: instructor approval.

M GLG 495 Undergraduate Thesis. (3)
fall, spring, summer
Guided research culminating in the completion and presentation of an undergraduate thesis based on supervised research. Independent study. Prerequisite: GLG 499 (3 hours); formal conference with instructor; instructor and department chair approval.

M GLG 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

GLOBAL STUDIES—BA

The BA in Global Studies requires 45 semester hours in global studies and track courses. At least 18 hours must be in the upper division.

Required courses are as follows:

SGS	101	Thinking Globally: The Individual and Authority	3
SGS	102	Thinking Globally: Technology and Nature in World Settings	3
SGS	103	Contemporary Global Trends *SB*, *G*	3
SGS	394	ST: Professional Development (career courses)	6
SGS	394	ST: Research Methods	3
SGS	484	Study Abroad/Internship	6
SGS	494	ST: Capstone	6
Total			30

Students must select a track from the following options: Asian studies, governance, Latin American studies, migration, Russian and East European studies, Southeast Asian studies, and urban systems and natural resources* 15

Program total 45

* At least nine semester hours must be in the upper division, and a three-semester-hour statistics course is encouraged.

All School of Global Studies students must obtain a cumulative GPA of 2.50 or higher with a minimum grade of "C" in all global studies and track courses. Students who enter as freshmen are required to enroll in two sequential learning community courses (SGS 101, 102, and 103).

SCHOOL OF GLOBAL STUDIES (SGS)

M SGS 101 Thinking Globally: The Individual and Authority. (3)
fall
Examines the changing notions of the individual and authority over history. Lecture, discussion.

M SGS 102 Thinking Globally: Technology and Nature in World Settings. (3)
fall
Examines changing interactions between humans and nature, geographic systems, global demography, and environment. Lecture, discussion.

M SGS 103 Contemporary Global Trends. (3)
spring
Gives a grounding in patterns of international politics and global social change. Lecture, discussion.
General Studies: SB, G

HISTORY—BA

The BA degree in History consists of 30 semester hours in history and 15 hours in closely related fields, as approved by an undergraduate advisor in consultation with the student. At least 18 hours in history courses and nine hours in related fields must be in upper-division course work, with at least 12 of the upper-division HST hours taken in residence at the Tempe campus. HST 300 Historical Inquiry and HST 498 PS: History Pro-Seminar are required for all degree candidates. (Honors students may substitute HST 493 Honors Thesis for HST 498.)

Students majoring in history are required to complete HST 300 in the beginning of their junior year and before enrolling in 400-level history courses. HST 300 and HST 498 must be taken on the Tempe campus.

Students are required to complete course work in two different areas of concentration. One concentration must be defined geographically: Asia, Europe, Latin America, or the United States. The second concentration may be thematic or geographic. Students completing a thematic concentration must complete two courses outside the field of their geographic concentration. At least two history courses in either concentration must include topics outside the United States and Europe. Students must complete at least one course in the HST 302–307 "Studies in History" sequence.

The major includes the following:

1. one concentration of 18 hours (12 hours HST and six hours related field);
2. one concentration of 15 hours (12 hours HST and three hours related field);
3. HST 300, three hours (may be within a concentration);
4. HST 498, three hours (may be within a concentration);
5. elective related field courses, six hours;
6. two HST courses with content outside Europe and the United States (may be within a concentration);
7. two HST courses in thematic concentration outside the geographic concentration; and
8. at least one course in the HST 302–307 "Studies in History" sequence as part of one concentration.

A minimum grade of "C" (2.00) is required for all course work in the major and related fields. A minimum GPA of 2.25 in the 30 hours of history course work is required.

Asian Studies Certificate. Students majoring in History may elect to pursue an Asian Studies Certificate, combining courses from the major with selected outside courses of wholly Asian content. See "Asian Studies," page 509, for more information.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Jewish Studies Certificate. Students majoring in History may elect to pursue the Jewish Studies Certificate, combining courses from the major with selected outside courses of wholly Jewish content. See "Jewish Studies," page 512, for more information.

Latin American Studies Certificate. Students majoring in History may elect to pursue a Latin American Studies Certificate, combining courses from the major with selected outside courses of wholly Latin American content. See "Latin American Studies," page 512, for more information.

Medieval and Renaissance Studies Certificate. Students majoring in History may elect to pursue the Medieval and Renaissance Studies Certificate by successfully completing the requirements. See "Medieval and Renaissance Studies," page 513, for more information.

Russian and East European Studies Certificate. Students majoring in History may elect to pursue the Russian and East European Studies Certificate, combining courses from the major with selected outside courses of wholly Russian and East European content. See "Russian and East European Studies," page 513, for more information.

Southeast Asian Studies Certificate. Students majoring in History may elect to pursue the Southeast Asian Studies Certificate, combining courses from the major with selected outside courses of wholly Southeast Asian content. See "Southeast Asian Studies," page 514, for more information.

Women and Gender Studies Certificate. Students majoring in History may elect to pursue a Women and Gender Studies Certificate by successfully completing the requirements. See "Women and Gender Studies," page 514, for more information.

MINOR IN HISTORY

The History minor consists of 18 semester hours of course work, at least 12 hours of which are in upper-division course work. Students earning a minor in history must complete one 12-hour HST concentration (geographic or thematic), HST 300, and 498. The Department of History requires a grade of at least "C" (2.00) in all courses in the minor. A minimum of six upper-division hours in the minor must be taken in residence at the Tempe campus.

BIS CONCENTRATION

A concentration in history is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

SECONDARY EDUCATION—BAE

This degree is offered through the Initial Teacher Certification (ITC) program in the College of Education. Students pursuing a major in Secondary Education with an academic specialization in history have an advisor in the College of Education and an advisor within the Department of History.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

Academic Specialization ITC Admission Requirements. At least four required courses in the academic specialization must be completed with a grade of "C" (2.00) or higher before applying to the ITC professional program. A minimum GPA of 2.75 in history courses is required for admission to the ITC program and for graduation.

History. The major teaching field consists of 45 semester hours, of which at least 30 must be in history courses. At least 18 must be in upper-division courses. Six hours of teaching methods courses are also required. A minimum grade of "C" (2.00) is required in all academic specialization courses. Required major courses are as follows:

HST	101	Global History Since 1500 *HU, G, H*	3
HST	109	The United States to 1865 *HU, SB, H*	3
HST	110	The United States Since 1865 *SB, H*	3
HST	300	Historical Inquiry *L/HU/SB, H*	3
HST	498	PS: History Pro-Seminar *L*	3
U.S. history courses			9
HST electives* (non-U.S. history courses)			6
Related areas*			15
Total			45

* Choose courses in consultation with a department advisor.

Teaching Methods

HST	480	Methods of Teaching History: Classroom Resources	3
HST	481	Methods of Teaching History: Community Resources	3
Total			6

Students must complete HST 300 before enrolling in HST 480, 481, and 498. A minimum GPA of 2.75 in history courses is required for admission to the ITC program and for graduation. HST 480 and 481 may not be counted as part of the 45-hour requirement for the academic specialization.

Social Studies. An academic specialization in social studies is also available. Students pursuing a major in Secondary Education have an advisor in the College of Education and an advisor within the department of their academic specialization area.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

GRADUATE PROGRAMS

The faculty in the Department of History offer programs leading to the MA and PhD degrees. A Scholarly Publishing Certificate is also available. See the *Graduate Catalog* for requirements.

HISTORY (HST)

M HST 101 Global History Since 1500. (3)
fall and spring
Survey of Africa, the Americas, and Eurasia; changes in communication, communities, demography, economics, environment, politics, religion, technology, warfare, and women. Lecture, CD-ROM, electronic forum, discussion.
General Studies: HU, G, H

M HST 102 Western Civilization. (3)
fall and spring
Origins and development of Western societies and institutions from the ancient world through the Middle Ages.
General Studies: SB, H

M HST 103 Western Civilization. (3)
fall and spring
Origins and development of Western societies and institutions from Black Death through the Renaissance and Reformation to the Enlightenment.
General Studies: HU/SB, H

M HST 104 Western Civilization. (3)
fall and spring
Origins and development of Western societies and institutions from the French Revolution to the present.
General Studies: HU/SB, G, H

M HST 105 Slavic Civilization. (3)
fall, spring, summer
Development of Slavic cultures and societies from medieval Byzantium to the present; introduction to modern Eurasia. Lecture, discussion, electronic forum.
General Studies: HU/SB, H

M HST 106 Asian Civilizations. (3)
once a year
Civilizations of China, Japan, and India from antiquity to the 17th century.
General Studies: HU/SB, G, H

M HST 107 Asian Civilizations. (3)
once a year
Civilizations of China, Japan, India, and Southeast Asia from the 17th century to the present.
General Studies: SB, G, H

M HST 108 Introduction to Japan. (3)
fall
Historical survey of the people, culture, politics, and economy of Japan, supplemented by audiovisual presentations. Intended for nonmajors.
General Studies: SB, G, H

M HST 109 The United States to 1865. (3)
fall and spring
Growth of the Republic from the colonial period through the Civil War.
General Studies: HU/SB, H

M HST 110 The United States Since 1865. (3)
fall and spring
Growth of the Republic from the Civil War to the present.
General Studies: SB, H

M HST 200 Historical Themes. (3)
once a year
General introduction to selected themes in history. May be repeated for credit when topics vary.
General Studies: SB, H

M HST 201 Historical Themes in Asia. (3)
once a year
General introduction to selected themes in Asian history. May be repeated for credit when topics vary.
General Studies: SB, H

M HST 202 Historical Themes in Europe. (3)
once a year
General introduction to selected themes in European history. May be repeated for credit when topics vary.
General Studies: HU/SB, H

M HST 203 Historical Themes in Latin America. (3)
once a year
General introduction to selected themes in Latin American history. May be repeated for credit when topics vary.
General Studies: SB, H

M HST 204 Historical Themes in the United States. (3)
once a year
General introduction to selected themes in United States history. May be repeated for credit when topics vary.
General Studies: SB, H

M HST 205 Historical Themes in Africa. (3)
fall and spring
General introduction to selected themes in African history. May be repeated for credit when topics vary.

M HST 210 American Social History. (3)
once a year
American society from the colonial period to the present. Ethnicity, race, age, and sex as factors in historical experience. Prerequisite: ENG 101 or 105.
General Studies: L/SB, H

M HST 211 American Jewish History. (3)
selected semesters
Chronological analysis of Jews and Judaism in American history and letters.
General Studies: SB, H

M HST 240 Introduction to Southeast Asia. (3)
fall and spring
Interdisciplinary introduction to the cultures, religions, political systems, geography, and history of Southeast Asia. Cross-listed as ASB 240/GCU 240/POS 240/REL 240. Credit is allowed for only ASB 240 or GCU 240 or HST 240 or POS 240 or REL 240.
General Studies: HU/SB, G

M HST 294 ST: Selected Topics in History. (3)
selected semesters
Full description of topics for any semester is available in the Department of History office. May be repeated for credit.

M HST 300 Historical Inquiry. (3)
fall and spring
Historical methods and critical inquiry related to particular events and processes. Topics vary. Required course for majors. Prerequisite for HST 498. Lecture, discussion, seminar. Prerequisites: ENG 102; History major; junior standing.
General Studies: L/HU/SB, H

M HST 302 Studies in History. (3)
once a year
Specialized topics in history. Explores countries, cultures, and issues in history, and their interpretation in historical scholarship. May be repeated for credit when topics vary.
General Studies: HU/SB, H

M HST 303 Studies in Asian History. (3)
once a year
Specialized topics in Asian history. Explores countries, cultures, and issues in history, and their interpretation in historical scholarship. May be repeated for credit when topics vary.
General Studies: SB, H

M HST 304 Studies in European History. (3)
once a year
Specialized topics in European history. Explores countries, cultures, and issues in history, and their interpretation in historical scholarship. May be repeated for credit when topics vary.
General Studies: SB, H

M HST 305 Studies in Latin American History. (3)
once a year
Specialized topics in Latin American history. Explores countries, cultures, and issues in history, and their interpretation in historical scholarship. May be repeated for credit when topics vary.
General Studies: HU/SB, H

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M HST 306 Studies in United States History. (3)
once a year
Specialized topics in United States history. Explores regions, cultures, and issues in history, and their interpretation in historical scholarship. May be repeated for credit when topics vary.
General Studies: HU/SB, H

M HST 307 Studies in African History. (3)
fall and spring
Specialized topics in African history. Explores countries, cultures, and issues in history, and their interpretation in historical scholarship. May be repeated for credit when topics vary.

M HST 309 Exploration and Empire. (3)
once a year
Survey of European discovery, exploration, and imperialism in the early modern and modern periods.
General Studies: L/HU, H

M HST 310 Film as History. (3)
once a year
Survey of moving image media as recorder, object, and writer of history.
General Studies: HU

M HST 313 American Cultural History to 1865. (3)
fall and spring
Culture, including ideas, ideals, the arts, and social and economic standards, from the nation's colonial and early national periods.
General Studies: SB, H

M HST 314 American Cultural History Since 1865. (3)
fall and spring
Culture, including ideas, ideals, the arts, and social and economic standards, from the age of industrialism to modern U.S.
General Studies: HU/SB, H

M HST 315 Political History of the United States. (3)
once a year
American political history since independence, focusing post-1865. Evaluates major trends in issues, presidential leadership, elections, and state politics. Lecture, discussion.
General Studies: SB, H

M HST 316 20th-Century U.S. Foreign Relations. (3)
once a year
U.S. relations with foreign powers from the late 19th century to the present.
General Studies: SB, G, H

M HST 319 U.S. Urban History to 1850. (3)
once a year
History of the city in American life from the colonial period to the mid-19th century.
General Studies: SB, H

M HST 320 U.S. Urban History Since 1850. (3)
once a year
History of the city in American life from the mid-19th century to the present.
General Studies: SB, H

M HST 321 Constitutional History of the United States to 1865. (3)
fall
Origin and development of the American constitutional system from colonial period through the Civil War.
General Studies: SB, H

M HST 322 Constitutional History of the United States Since 1865. (3)
spring
Development of the U.S. constitutional system from Reconstruction to the present.
General Studies: SB, H

M HST 325 Immigration and Ethnicity in the United States. (3)
fall and spring
Origins, historical development, and future of a multiethnic society, 1492 to 2050. Prerequisite: HST 109 or 110.
General Studies: SB, C, H

M HST 327 Women in U.S. History, 1600–1880. (3)
fall and spring
Examines American women of diverse racial, religious, and ethnic groups and classes; focuses on changing definitions of women's roles.
General Studies: HU/SB, C, H

M HST 328 Women in U.S. History, 1880–1980. (3)
fall and spring
Examines American women of diverse racial, religious, and ethnic groups and classes; focuses on changing definitions of women's roles.
General Studies: SB, C, H

M HST 329 Women in 20th-Century U.S. West. (3)
once a year
Examines how women of various cultures have contended for and shaped the U.S. West, including the West of imagination. Lecture, discussion.
General Studies: C, H

M HST 330 Mexican Women in the United States: Conquests and Migrations. (3)
once a year
Overview of Chicana history from Mesoamerican origins to the present, focusing on Mexican women in the western U.S. Lecture, discussion.
General Studies: L/SB, C, H

M HST 331 Mexican American History to 1900. (3)
once a year
Mexican American history from pre-Hispanic origins to frontier journeys north through 19th-century life in the U.S. Southwest.
General Studies: SB, C, H

M HST 332 Mexican American History Since 1900. (3)
once a year
Traces the formation of Mexican American communities across the rural and urban U.S. and examines 20th-century immigration from Mexico.
General Studies: SB, C, H

M HST 333 African American History to 1865. (3)
once a year
The African American in American history, thought, and culture from slavery to 1865. Cross-listed as AFS 363. Credit is allowed for only AFS 363 or HST 333.
General Studies: SB, C, H

M HST 334 African American History Since 1865. (3)
once a year
The African American in American history, thought, and culture from 1865 to the present. Cross-listed as AFS 364. Credit is allowed for only AFS 364 or HST 334.
General Studies: SB, C, H

M HST 337 American Indian History to 1900. (3)
fall and spring
Cultural, economic, political, and social continuity and change of American Indian communities to 1900.
General Studies: SB, C, H

M HST 338 American Indian History Since 1900. (3)
fall and spring
Cultural, economic, political, and social continuity and change of American Indian communities from 1900 to the present.
General Studies: SB, C, H

M HST 341 The U.S. West in the 19th Century. (3)
once a year
Social, political, and economic development of the trans-Mississippi West, beginning with the Louisiana Purchase and ending in 1900.
General Studies: SB, H

M HST 342 The U.S. West in the 20th Century. (3)
fall and spring
Role of the western states in U.S. history since 1890 emphasizing politics, the environment, industry and labor, and ethnic minorities.
General Studies: SB, H

M HST 343 The American Southwest. (3)
once a year
Development of the region from 1848 to the present.
General Studies: L/SB, H

M HST 344 Arizona. (3)
fall and spring
Emergence of the state from early times to the present.
General Studies: SB, H

M HST 347 Ancient Greece. (3)
fall
History and civilization of the Greek world from 650 BCE to the death of Alexander the Great.
General Studies: SB, H

M HST 348 Rome. (3)
spring
History and civilization of Rome from the beginning of the Republic to the end of the Empire.
General Studies: SB, H

M HST 349 The Early Middle Ages. (3)
fall
Political, socioeconomic, and cultural developments of Western Europe from the 5th through 10th centuries.
General Studies: HU/SB, H

M HST 350 The Later Middle Ages. (3)
spring
Political, socioeconomic, and cultural developments of Western Europe from the 11th through 15th centuries.
General Studies: HU/SB, H

M HST 351 Renaissance Europe. (3)
fall
Culture of the Renaissance in Italy and Northern Europe from the 14th to the early 16th centuries.
General Studies: L/HU/SB, H

M HST 352 Europe's Reformations. (3)
spring
Causes and implications of the major Protestant, Catholic, and Radical religious reformations in 16th- and 17th-century Europe.
General Studies: L/HU/SB, H

M HST 353 The Old Regime in Europe. (3)
fall
Society and culture of Europe during the 17th and 18th centuries.
General Studies: SB, H

M HST 354 Revolutionary Europe. (3)
spring
Political, social, economic, and intellectual currents in Europe from the French through the Russian Revolutions.
General Studies: SB, H

M HST 355 Total War and the Crisis of Modernity. (3)
fall
Forces of change and instability in early 20th-century Europe.
General Studies: SB, G, H

M HST 356 Europe Since 1945. (3)
selected semesters
Europe in its world setting since World War II, emphasizing major political and social issues from 1945 to the present.
General Studies: SB, G, H

M HST 358 Jewish History from the Bible to 1492. (3)
fall
Continuity and change in political, legal, economic, and sociocultural history of the Jews from biblical through medieval times. Lecture, discussion.
General Studies: SB, H

M HST 359 Jewish History from 1492 to 1948. (3)
spring
Jewish history from early modern through modern times, highlighting emancipation, enlightenment, and Jewish responses to modernity. Lecture, discussion.
General Studies: SB, G, H

M HST 361 Witchcraft and Heresy in Europe. (3)
selected semesters
Background, origins, and development of the Inquisition; persecution of women and marginal groups. Cross-listed as REL 374. Credit is allowed for only HST 361 or REL 374. Prerequisite: upper-division standing or instructor approval.
General Studies: L/HU, H

M HST 362 Sex and Society in Classical and Medieval Europe. (3)
fall
Family life, sex roles, and marriage, and their relationship to political, economic, and religious change in classical and medieval Europe. Lecture, discussion. Prerequisite: upper-division standing or instructor approval.
General Studies: SB, H

M HST 363 Sex and Society in Early Modern Europe. (3)
spring
Family life, sex roles, and marriage and their relationship to political, economic, and religious change in early modern Europe. Lecture, discussion. Prerequisite: upper-division standing or instructor approval.
General Studies: HU/SB, H

M HST 364 Sex and Society in Modern Europe. (3)
selected semesters
Family life, sex roles, and marriage, and their relationship to political, economic, and social changes in modern Europe. Lecture, discussion. Prerequisite: upper-division standing or instructor approval.
General Studies: L/SB, H

M HST 365 Women in Europe. (3)
once a year
European women's diverse religious, ethnic, national, and economic roles in society, culture, and politics, 1750 to the present.
General Studies: L/HU/SB, H

M HST 366 England to 1689. (3)
once a year
Political, economic, and social development of the English people to the late 17th century.
General Studies: SB, H

M HST 367 Modern Britain. (3)
once a year
Political, economic, and social development in Britain from 17th century to the present.
General Studies: SB, H

M HST 368 Culture and Imagination in European History. (3)
once a year
Topics in European cultural and intellectual history. May be repeated for credit.
General Studies: HU, H

M HST 370 Eastern Europe in Transition. (3)
once a year
Democratization, privatization, and identity transformations since the fall of communism in contemporary Eastern Europe and the former Soviet Union. Lecture, discussion.
General Studies: SB, G, H

M HST 372 The Modern Middle East. (3)
selected semesters
Impact of the West and modernization upon Middle Eastern governments, religion, and society in the 19th and 20th centuries.
General Studies: SB, G, H

M HST 375 Colonial Latin America. (3)
fall and spring
Ancient civilization, exploration and conquerors, and colonial institutions.
General Studies: SB, H

M HST 376 Modern Latin America. (3)
fall and spring
Nationalistic development of the independent republics since 1821.
General Studies: SB, H

M HST 377 Women in Colonial Latin America. (3)
fall
History of women in colonial Latin America, cross-examining class, race, and gender relations in depth. Lecture, discussion.
General Studies: H

M HST 378 Latin American Women: The National Period. (3)
spring
Surveys the history of women, gender relations, and state policies in a broad continental setting, from independence to the present. Lecture, media, discussion.
General Studies: SB, G, H

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M HST 379 Rebellion and Revolution in South America. (3)
fall and spring
Political, economic, and social development of Spanish-speaking nations in South America.
General Studies: SB, H

M HST 380 Cultural History of Latin America. (3)
selected semesters
Main currents of thought, the outstanding thinkers, and their impact on 19th- and 20th-century Latin America. Cultural and institutional basis of Latin American life.
General Studies: SB, H

M HST 383 China. (3)
fall
Political, economic, social, and cultural history of the Chinese people from early times to the 17th century.
General Studies: SB, H

M HST 384 China. (3)
spring
Political, economic, social, and cultural history of the Chinese people from the 17th century to the present.
General Studies: SB, G, H

M HST 385 Chinese Science and Medicine. (3)
selected semesters
Explores developments of Chinese traditions dealing with the natural world, science, and medicine. Lecture, discussion. Cross-listed as HPS 325. Credit is allowed for only HPS 325 or HST 385.
General Studies: HU, G, H

M HST 386 Interpreting China's Classics. (3)
selected semesters
Study of selected Confucian and/or Taoist classics and ways they have been read in both Asian and Western scholarship. Cross-listed as HUM 312. Credit is allowed for only HST 386 or HUM 312.
General Studies: L/HU, H

M HST 387 Japan. (3)
once a year
Political, economic, social, and cultural history of the Japanese people from early times to the 17th century.
General Studies: L/SB, H

M HST 388 Japan. (3)
once a year
Political, economic, social, and cultural history of the Japanese people from the 17th century to the present.
General Studies: SB, G, H

M HST 389 Japanese Society and Values: Premodern. (3)
selected semesters
Effects of economic and social transitions on personal and social values as reflected in the dramatizations of contemporary events.

M HST 391 Modern Southeast Asia. (3)
spring
Vietnam, Laos, Cambodia, Thailand, Burma, Malaysia, Singapore, Brunei, Indonesia, and Philippines since 1750: imperialism, revolution, and independence. Lecture, discussion.
General Studies: SB, G, H

M HST 394 ST: Selected Topics in History. (3)
fall and spring
Full description of topics for any semester is available in the Department of History office. May be repeated for credit.

M HST 405 Colonial American History to 1763. (3)
once a year
Political, economic, social, and cultural history of the colonial era. Concentrates on English colonies, with some consideration of Spanish, French, and other colonial regions in North America.
General Studies: SB, H

M HST 406 The American Revolution, 1763–1789. (3)
once a year
Causes, course, and consequences of the American Revolution culminating in the ratification of the Constitution.
General Studies: SB, H

M HST 407 The Early U.S. Republic, 1789–1850. (3)
once a year
Political, social, economic, and cultural development of the United States from the Revolution to 1850.
General Studies: L/SB, H

M HST 408 Civil War and Reconstruction. (3)
once a year
Explores the causes, conduct, and consequences of the American Civil War, concentrating on the years 1848 to 1877.
General Studies: L/SB, H

M HST 409 The Emergence of the Modern United States, 1877 to 1918. (3)
once a year
Triumph of modern political, social, and economic structures and values, 1877–1918; role of region, religion, race, and ethnicity.
General Studies: SB, H

M HST 410 The Modern United States, 1918 to 1945. (3)
once a year
1920s boom and the crash, the Depression and the New Deal response. The Second World War at home and abroad.
General Studies: SB, H

M HST 411 The Postwar United States, 1945 to 1973. (3)
once a year
Cold War, prosperity, reform, and immense social and political change in the U.S.
General Studies: SB, H

M HST 412 The Contemporary United States, 1973 to the Present. (3)
once a year
End of the Cold War, political crises, and cultural transformations in the U.S.
General Studies: SB, H

M HST 414 The Modern U.S. Economy. (3)
selected semesters
Origins of 19th-century slavery and industrialization; 20th-century crisis and regulation: political economy of an advanced capitalist democracy. Prerequisite: ECN 211 (or 212) or HST 109 (or 110).
General Studies: SB, H

M HST 415 Unequal Sisters: Women and Political and Cultural Change. (3)
once a year
Examines race, ethnic, and class differences among women, focusing on the political and cultural experiences of women in the U.S.
General Studies: L/SB, C, H

M HST 417 Topics in Mexican American History. (3)
once a year
Focuses on specific topics in Mexican American history, including immigration, civil rights, the Chicano Movement, union activism, and regional and generational differences.
General Studies: SB, C, H

M HST 423 The Tudor Monarchy. (3)
once a year
Political, cultural, and social foundations of 16th-century England.
General Studies: SB, H

M HST 424 The Stuart Transformation of England. (3)
once a year
Political, social, economic, and cultural developments in 17th-century England.
General Studies: SB, H

M HST 426 The British Empire. (3)
once a year
British imperialism and colonialism in Africa, the Americas, Asia, and the South Pacific. Prerequisite: upper-division standing or instructor approval.
General Studies: SB, H

M HST 427 The French Revolution and the Napoleonic Era. (3)
once a year
Conditions in Pre-Revolutionary and Revolutionary France; organization of France under Napoleon and impact of French changes upon Europe.
General Studies: SB, H

M HST 428 Modern France. (3)
selected semesters
Social, political, economic, and cultural transformations of French society, 1815–present. Impact of industrialization, war, and revolution on people's lives. Prerequisite: upper-division standing or instructor approval.
General Studies: SB, G, H

M HST 429 Modern Germany. (3)
once a year
Germany since 1871.
General Studies: SB, G, H

M HST 430 Hitler: Man and Legend. (3)
once a year
Biographical approach to the German Third Reich emphasizing nature of Nazi regime, sociocultural issues, World War II, and historiography.
General Studies: SB, H

M HST 431 Eastern Europe and the Balkans Before 1914. (3)
selected semesters
Empire and nation in Eastern Europe and the Balkans before World War I, emphasizing Hapsburg and Ottoman lands.
General Studies: SB, H

M HST 432 Eastern Europe and the Balkans in the 20th Century. (3)
selected semesters
Politics and culture in Eastern Europe and the Balkans from World War I to the present.
General Studies: SB, G, H

M HST 435 The Russian Empire. (3)
fall
Development of Russian imperial institutions and civil society from the 17th to the early 20th centuries. Lecture, discussion.
General Studies: SB, H

M HST 436 The Soviet Experiment. (3)
spring
Communist revolutionaries' rule of Russia, focusing on utopian culture, Stalinist terror, heroism in war, and the breakup of the former USSR.
General Studies: SB, G, H

M HST 437 Spain Through the Golden Age. (3)
selected semesters
Cultural, economic, political, and social development of Spain from antiquity to the late 17th century.
General Studies: HU/SB, H

M HST 438 Modern Spain. (3)
selected semesters
Cultural, economic, political, and social development of modern Spain.
General Studies: HU/SB, G, H

M HST 443 The United States and Latin America. (3)
once a year
Latin American struggle for diplomatic recognition, attempts at political union, participation in international organizations since 1810, and relations between the United States and Latin America.
General Studies: SB, G, H

M HST 445 20th-Century Cuba. (3)
once a year
History of Cuba from colonial era to formation of the early republic; political, economic, social development in late 20th century. Lecture, discussion.
General Studies: SB, G, H

M HST 446 Colonial Mexico. (3)
once a year
Political, economic, social, and cultural developments from pre-Columbian times to 1810.
General Studies: SB, H

M HST 447 Modern Mexico. (3)
once a year
Political, economic, social, and cultural developments from 1810 to the present.
General Studies: SB, H

M HST 451 Chinese Cultural History. (3)
selected semesters
China's classics in translation studied both for their intrinsic ideas and for the origins of Chinese thought.
General Studies: HU/SB, H

M HST 452 Chinese Cultural History. (3)
selected semesters
Evolution of Confucian thought, its synthesis with Taoism and Buddhism, and modern reactions against, and uses of, Confucian traditions.
General Studies: SB, G, H

M HST 453 The People's Republic of China. (3)
selected semesters
Analyzes major political, social, economic, and intellectual trends in China since the founding of the People's Republic in 1949.
General Studies: SB, G, H

M HST 455 The United States and Japan. (3)
fall
Cultural, political, and economic relations in the 19th and 20th centuries. Emphasizes post-World War II period.
General Studies: SB, G, H

M HST 456 The Vietnam War. (3)
once a year
Intersection of American and Asian histories in Vietnam, viewed from as many sides as possible.
General Studies: SB, G, H

M HST 480 Methods of Teaching History: Classroom Resources. (3)
fall
Methods in instruction, organization, and presentation of the subject matter of history and closely allied fields. Prerequisites: HST 300; ITC admission. Pre- or corequisites: SED 403, 598.

M HST 481 Methods of Teaching History: Community Resources. (3)
spring
Identify community-based resources for teaching history, work with resources, and learn how to integrate them into the secondary classroom. Lecture, lab. Prerequisite: HST 480.

M HST 484 Internship. (1–6)
selected semesters

M HST 492 Honors Directed Study. (1–6)
selected semesters

M HST 493 Honors Thesis. (3)
selected semesters
General Studies: L

M HST 494 Special Topics. (1–4)
selected semesters

M HST 498 History Pro-Seminar. (3)
fall and spring
Required course for majors on topic selected by instructor; writing-intensive course related to the development of research skills and writing tools used by historians. May not be repeated without department approval. Prerequisites: HST 300; History major; senior standing.
General Studies: L

M HST 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Hugh Downs School of Human Communication

asu.edu/clas/communication
480/965-5095
STAUF A412

H. L. "Bud" Goodall Jr., Director

Professors: Alberts, Broome, Canary, Carlson, Corman, Goodall, Guerrero, Jain, Lederman, Martin, McPhee, Mongeau, Nakayama

Associate Professors: Corey, Davey, Davis, De la Garza, Floyd, Martinez, Trethewey

Assistant Professors: Brouwer, McDonald, Park-Fuller, Tracy

Instructional Professional: Olson

PURPOSE

The Hugh Downs School of Human Communication exists to advance the understanding of message-related human behavior for the purpose of improving communicative interactions. Teaching, research, and service are directed to the continued development of knowledge and application of principles of communication. Employers have ranked interpersonal, analytical, teamwork, computer, and verbal communication skills as the top five skills desired for new hires. The curriculum is designed so that majors are proficient in each of these areas upon graduation. Courses are not offered in broadcasting or journalism.

GENERAL INFORMATION

A minimum cumulative GPA of 2.50 is required for enrollment in all upper-division courses and COM 207. A minimum cumulative GPA of 2.25 is required for enrollment in COM 110, 241, 250, and 263. An exception to the GPA requirement exists only when newly admitted students enroll in COM 110, 241, 250, or 263.

DEGREE REQUIREMENTS

BA and BS Degrees

Students may choose to complete either a Bachelor of Arts or Bachelor of Science degree in Communication. The BA degree requires a minimum of 30 semester hours and 15 hours of related area courses. The BS degree requires a minimum of 30 semester hours, including a General Studies CS (statistics) course; COM 404 or 407; COM 408; and one pair of the following courses:

COM 110 Elements of Interpersonal Communication *SB* 3
or COM 310 Relational Communication (3)
COM 410 Interpersonal Communication Theory and Research *SB* 3
Total 6

or

COM 250 Introduction to Organizational Communication *SB* 3
COM 450 Theory and Research in Organizational Communication *SB* 3
Total 6

or

COM 241 Introduction to Oral Interpretation *L/HU* 3
COM 441 Performance Studies *HU* 3
Total 6

or

COM 321 Rhetorical Theory and Research *L/HU, H* 3
or COM 323 Communication Approaches to Popular Culture *C* (3)
COM 421 Rhetoric of Social Issues *HU* 3
Total 6

or

COM 263 Elements of Intercultural Communication *SB, C, G* 3
COM 463 Intercultural Communication Theory and Research *SB, G* 3
Total 6

Both degree options require students to take three core courses (COM 207, 225, and 308) plus 21 semester hours, 18 of which must be upper-division course work.

To assure the breadth and depth of their education, all Communication undergraduates must complete the requirements of the university General Studies, the College of Liberal Arts and Sciences, and the Hugh Downs School of Human Communication. For descriptive information on university requirements, refer to "General Studies," page 93, and "University Graduation Requirements," page 89. See "College Graduation Requirements," page 503.

Students should consult the school for current information concerning College of Liberal Arts and Sciences and Hugh Downs School of Human Communication requirements.

Communication Internships

Internships (COM 484) consist of supervised field experiences and are available to undergraduate students with a minimum ASU GPA of 2.50. Students must also complete COM 207, 225, and 308 with a grade of "C" (2.00) or higher and 56 semester hours of credit to be eligible for an internship. An application for internship must be completed in the semester before the intended term for an internship. Contact the school for specific deadline dates. Internships must receive prior approval from the internship programs coordinator *before* student registration for the course. Internships may be taken for up to six semester hours.

MINOR IN COMMUNICATION

The minor in Communication consists of 15 semester hours of courses, including COM 100 plus COM 225 or 259, and nine additional semester hours, at least six of which must be in the upper division. Nine of the total 15 semester hours must be Tempe campus resident credits, including six semester hours of upper-division credit. No pass/fail, "Y" credit, or credit/no-credit courses are allowed. Communication courses required for one's major may not also count for the minor. All prerequisite and GPA

requirements must be met. The "C" (2.00) minimum requirement must be met for each class.

BIS CONCENTRATION

A concentration in communication is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

GRADUATE PROGRAMS

In addition to offering an MA degree program, the Hugh Downs School of Human Communication also offers an interdisciplinary PhD degree program in Communication. See the *Graduate Catalog* for the requirements and areas of concentration.

HUGH DOWNS SCHOOL OF HUMAN COMMUNICATION (COM)

For more COM courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M COM 100 Introduction to Human Communication. (3)
fall, spring, summer
Topics-oriented introduction to basic theories, dimensions, and concepts of human communicative interaction and behavior.
General Studies: SB

M COM 110 Elements of Interpersonal Communication. (3)
fall, spring, summer
Demonstration and practice of communicative techniques in establishing and maintaining interpersonal relationships. Prerequisite: 2.25 GPA.
General Studies: SB

M COM 207 Introduction to Communication Inquiry. (3)
fall, spring, summer
Bases of inquiry into human communication, including introduction to notions of theory, philosophy, problems, and approaches to the study of communication. Prerequisites: COM 100; minimum cumulative 2.50 GPA.

M COM 222 Argumentation. (3)
fall and spring
Philosophical and theoretical foundations of argumentation, including a comparison of models of advocacy and evidence. Prerequisite: ENG 101 or 105.
General Studies: L

M COM 225 Public Speaking. (3)
fall, spring, summer
Verbal and nonverbal communication in platform speaking. Discussion and practice in vocal and physical delivery and in purposeful organization and development of public communication. Prerequisite: ENG 101 or 105.
General Studies: L

M COM 230 Small Group Communication. (3)
fall, spring, summer
Principles and processes of small group communication, attitudes, and skills for effective participation and leadership in small groups, small group problem solving, and decision making.
General Studies: SB

M COM 241 Introduction to Oral Interpretation. (3)
fall, spring, summer
Communication of literary materials through the mode of performance. Verbal and nonverbal behavior, interface of interpreter with literature and audience, and rhetorical and dramatic analysis of literary modes. Prerequisites: ENG 101 (or 105); 2.25 GPA.
General Studies: L/HU

M COM 250 Introduction to Organizational Communication. (3)
fall, spring, summer
Introduces the study of communication in organizations, including identification of variables, roles, and patterns influencing communication in organizations. Prerequisite: 2.25 GPA.
General Studies: SB

M COM 259 Communication in Business and the Professions. (3)
fall, spring, summer
Interpersonal, group, and public communication in business and professional organizations. Not open to freshmen and not available for credit toward the major.

M COM 263 Elements of Intercultural Communication. (3)
fall, spring, summer
Basic concepts, principles, and skills for improving communication between persons from different minority, racial, ethnic, and cultural backgrounds. Lecture, discussion. Prerequisite: 2.25 GPA.
General Studies: SB, C, G

M COM 271 Voice Improvement. (3)
selected semesters
Intensive personal and group experience to improve normal vocal usage, including articulation and pronunciation.

M COM 281 Communication Activities. (1–3)
fall, spring, summer
Nongraded participation in forensics or interpretation cocurricular activities. Maximum 3 semester hours each semester. Prerequisite: instructor approval.

M COM 294 Special Topics. (1–4)
fall, spring, summer
Topics may include the following:
- Beyond Words. (3)

M COM 300 CIS: Communication in Interdisciplinary Studies. (3)
fall, spring, summer
Examines and analyzes communication in the context of other academic disciplines. May be repeated for credit. Open to BIS majors only. Prerequisites: both COM 100 and 225 or only COM 259; minimum cumulative GPA of 2.00.

M COM 301 Introductory Theories and Principles of Communication: Communication in Relationships, Organizations, and Public Contexts. (3–9)
once a year
Integrated introduction to the theories and principles of communication in public, interpersonal, and organizational contexts. Lecture, discussion, online component.

M COM 308 Advanced Research Methods in Communication. (3)
fall, spring, summer
Advanced communication research methods, including quantitative, qualitative, and critical approaches. Prerequisite: minimum cumulative 2.50 GPA. Prerequisites with a grade of "C" (2.00) or higher: COM 207; MAT 142 (or higher-level MAT course).
General Studies: L

M COM 310 Relational Communication. (3)
fall and spring
Explores communication issues in the development of personal relationships. Current topics concerning communication in friendship, romantic, and work relationships. Prerequisites: COM 100; minimum cumulative 2.50 GPA.

M COM 312 Communication, Conflict, and Negotiation. (3)
fall and spring
Theories and strategies of communication relevant to the management of conflicts and the conduct of negotiations. Prerequisites: COM 100; minimum cumulative 2.50 GPA.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M COM 316 Gender and Communication. (3)
fall, spring, summer
Introduces gender-related communication. Examines verbal, nonverbal, and paralinguistic differences and similarities within social, psychological, and historic perspectives. Prerequisite: minimum cumulative 2.50 GPA.
General Studies: SB, C

M COM 317 Nonverbal Communication. (3)
fall, spring, summer
Study of communication using space, time, movement, facial expression, touch, appearance, smell, environment, objects, voice, and gender/cultural variables. Not open to students with credit for COM 294 ST: Beyond Words. Prerequisite: minimum cumulative 2.50 GPA.

M COM 319 Persuasion and Social Influence. (3)
fall and spring
Variables that influence and modify attitudes and behaviors of message senders and receivers, including analysis of theories, research, and current problems. Prerequisites: COM 207 (or its equivalent); minimum cumulative 2.50 GPA. Prerequisite for nonmajors: POS 401 or PSY 230 or QBA 221 or SOC 390 or STP 226.
General Studies: SB

M COM 320 Communication and Consumerism. (3)
once a year
Critical evaluation of messages designed for public consumption. Perceiving, evaluating, and responding to political, social, and commercial communication. Prerequisite: minimum cumulative 2.50 GPA.
General Studies: SB

M COM 321 Rhetorical Theory and Research. (3)
fall and spring
Historical development of rhetorical theory and research in communication, from classical antiquity to the present. Prerequisites: COM 100; minimum cumulative 2.50 GPA.
General Studies: L/HU, H

M COM 323 Communication Approaches to Popular Culture. (3)
fall, spring, summer
Critical analysis of popular culture within social and political contexts; emphasizes multicultural influences and representations in everyday life. Lecture, discussion. Prerequisites: COM 100; minimum cumulative 2.50 GPA.
General Studies: C

M COM 325 Advanced Public Speaking. (3)
fall and spring
Social and pragmatic aspects of public speaking as a communicative system; strategies of rhetorical theory and the presentation of forms of public communication. Prerequisites: COM 225; minimum cumulative 2.50 GPA.
General Studies: L

M COM 326 Court Room Oratory. (3)
fall in even years
Increases knowledge and appreciation of the role of communication in the development of legal and public policies.

M COM 341 Social Contexts for Performance. (3)
selected semesters
Adaptation and performance of literature for the community outside the university. Research into the practical uses of performed literature. Prerequisite: minimum cumulative 2.50 GPA.

M COM 344 Performance of Oral Traditions. (3)
selected semesters
Cultural beliefs and values studied through ethnographic research and performance of personal narratives, folklore, myths, legends, and other oral traditions. Lecture, fieldwork, research paper. Prerequisite: minimum cumulative 2.50 GPA.
General Studies: HU, C

M COM 371 Language, Culture, and Communication. (3)
fall and spring
Cultural influences of language on communication, including social functions of language, bilingualism, biculturalism, and bidialectism. Lecture, discussion. Prerequisites: COM 263; minimum cumulative 2.50 GPA.
General Studies: SB, C, G

M COM 382 Classroom Apprenticeship. (1–3)
fall, spring, summer
Nongraded credit for students extending their experience with a content area by assisting with classroom supervision in other COM courses (maximum 3 semester hours each semester). Prerequisites: 2.50 cumulative GPA; written instructor approval.

M COM 394 Special Topics. (1–4)
fall, spring, summer
Prerequisite: minimum cumulative 2.50 GPA.

M COM 400 CIP: Communication in Professions. (3)
fall, spring, summer
Specialized study of communication processes in professional and organizational settings. Open to BIS majors only. May be repeated for credit. Lecture, discussion. Prerequisites: both COM 100 and 225 or only COM 259; minimum cumulative GPA of 2.00.
General Studies: HU, C

M COM 404 Research Apprenticeship. (3)
fall and spring
Direct research experience on faculty projects. Student/faculty match based on interests. Lecture, apprenticeship. Prerequisites: COM 308 (or instructor approval); minimum cumulative 2.50 GPA; application required.

M COM 407 Advanced Critical Methods in Communication. (3)
fall, spring, summer
Examines critical approaches relevant to communication, including textuality, social theory, cultural studies, and ethnography. Lecture, discussion. Prerequisites: COM 308; minimum cumulative 2.50 GPA.

M COM 408 Quantitative Research Methods in Communication. (3)
fall and spring
Advanced designs, measurement techniques, and methods of data analysis of communication research. Prerequisites: COM 308 and a course in generic statistics (EDP 454 or POS 401 or PSY 230 or QBA 221 or SOC 390 or STP 226); minimum cumulative 2.50 GPA.

M COM 410 Interpersonal Communication Theory and Research. (3)
fall, spring, summer
Survey and analysis of major research topics, paradigms, and theories dealing with message exchanges between and among social peers. Prerequisites: COM 110 (or 310), 308; minimum cumulative 2.50 GPA.
General Studies: SB

M COM 411 Communication in the Family. (3)
once a year
Broad overview of communication issues found in marriage and family life, focusing on current topics concerning communication in the family. Prerequisites: COM 110 (or 310), 207; minimum cumulative 2.50 GPA.
General Studies: SB

M COM 414 Crisis Communication. (3)
selected semesters
Role of communication in crisis development and intervention. Prerequisite: minimum cumulative 2.50 GPA.

M COM 421 Rhetoric of Social Issues. (3)
fall and spring
Critical rhetorical study of significant speakers and speeches on social issues of the past and present. Prerequisites: COM 308, 321 (or 323).
General Studies: HU

M COM 426 Political Communication. (3)
fall
Theories and criticism of political communication, including campaigns, mass persuasion, propaganda, and speeches. Emphasis on rhetorical approaches. Prerequisite: minimum cumulative 2.50 GPA.
General Studies: SB

M COM 430 Leadership in Group Communication. (3)
selected semesters
Theory and process of leadership in group communication, emphasizing philosophical foundations, contemporary research, and applications to group situations. Prerequisites: COM 230; minimum cumulative 2.50 GPA.

M COM 441 Performance Studies. (3)
fall, spring, summer
Theory, practice, and criticism of texts in performance. Emphasis on the interaction between performer, text, audience, and context. Prerequisites: COM 241, 308; minimum cumulative 2.50 GPA.
General Studies: HU

M COM 442 Identity, Performance, and Human Communication. (3)
selected semesters
Explores communication dimensions of self and others as performance. Examines topics that include gender, race, sexuality, age, and ethnicity through performance. Lecture, workshops. Prerequisites: COM 225 (or 241); minimum cumulative 2.50 GPA.

M COM 445 Narrative Performance. (3)
selected semesters
Theory and practice of performing narrative texts (e.g., prose fiction, oral histories, diaries, essays, letters). Includes scripting, directing, and the rhetorical analysis of storytelling. Prerequisites: COM 241; minimum cumulative 2.50 GPA.
General Studies: HU

M COM 446 Performance of Literature Written by Women. (3)
selected semesters
Explores, through performance and critical writing, literature written by women. Prerequisite: minimum cumulative 2.50 GPA.
General Studies: HU, C

M COM 450 Theory and Research in Organizational Communication. (3)
fall, spring, summer
Critical review and analysis of the dominant theories of organizational communication and their corollary research strategies. Prerequisites: COM 250, 308; minimum cumulative 2.50 GPA.
General Studies: SB

M COM 453 Communication Training and Development. (3)
once a year
Examines the procedures and types of communication training and development in business, industry, and government. Prerequisites: COM 250; minimum cumulative 2.50 GPA.

M COM 463 Intercultural Communication Theory and Research. (3)
fall, spring, summer
Surveys and analyzes major theories and research dealing with communication between people of different cultural backgrounds, primarily in international settings. Lecture, discussion, small group work. Prerequisites: COM 263, 308; minimum cumulative 2.50 GPA.
General Studies: SB, G

M COM 465 Intercultural Communication Workshop. (3)
selected semesters
Experientially based study of communication between members of different cultures designed to help improve intercultural communication skills. Prerequisites: minimum cumulative 2.50 GPA; instructor approval.

M COM 484 Communication Internship. (1–6)
fall, spring, summer
Prerequisites: COM 225, 308; minimum cumulative 2.50 GPA; application required. Pre- or corequisite: COM 410 or 421 or 441 or 450 or 463.

M COM 494 Special Topics. (1–3)
fall, spring, summer
Topics may include the following:
- Special Events Management

Prerequisite: minimum cumulative 2.50 GPA.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

School of Human Evolution and Social Change

www.asu.edu/clas/shesc
480/965-6213
ANTH 233

Sander van der Leeuw, Director
Ben A. Nelson, Associate Director

Regents' Professor: Clark

Professors: Barton, Bolin, Brandt, Brewis, Buikstra, Carr, Chance, Eder, Falconer, Hackett, Hegmon, Hudak, Johanson, Kimbel, Kintigh, Marean, Martin, Nash, B. Nelson, M. Nelson, Perrings, Redman, Smith, Spielmann, Stark, van der Leeuw, Williams

Associate Professors: Abbott, Baker, Boone, Haenn, Harlan, Jonsson, Reed, Stone, Tsuda, Welsh, Winkelman

Assistant Professors: Anderies, Isaac, Janssen, Knudson, Schwartz, Spencer, Stojanowski

Associate Research Professors: Simon, Sugiyama

The School of Human Evolution and Social Change offers the BA degree in Anthropology.

ANTHROPOLOGY—BA

Course Requirements. The Anthropology major consists of a minimum of 39 or 40 semester hours in anthropology and a minimum of three semester hours in statistics. At least 18 of the semester hours must be in upper-division courses (300–400 level). No ASU course is automatically classified as being either related or unrelated. Course requirements for the major are distributed as follows:

Required Introductory Courses

ASB 102 Introduction to Cultural and Social Anthropology *SB, G* 3
ASB 222 Buried Cities and Lost Tribes: Our Human Heritage *HU/SB, G, H* 3
or ASB 223 Buried Civilizations of the Americas *HU/SB, G, H* (3)
ASM 104 Bones, Stones, and Human Evolution *SB/SG* 4

Distribution Requirements

Archaeology 6
Geographic area course in archaeology or physical anthropology 3
Geographic area course in ethnography 3
Upper-division linguistics 3
Physical anthropology 6
Social/cultural 6

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Elective
Anthropology 2–3

Related Fields
Statistics 3

Total 42–43

Consultation with the undergraduate advisor and a faculty mentor in the School of Human Evolution and Social Change is recommended each semester. The anthropology undergraduate advising office is located in ANTH 166.

Course work in anthropology completed at other institutions is evaluated by the undergraduate advisor. The College of Liberal Arts and Sciences requires that transfer students complete at least 12 semester hours of upper-division course work at ASU in the department/school of their major in order to be eligible for graduation.

In addition to a cumulative GPA of 2.00 or higher, all anthropology students must obtain a minimum grade of "C" (2.00) in all upper- and lower-division anthropology courses and all related fields.

Each student's Declaration of Graduation and Degree Audit Report, or Program of Study, must be reviewed and approved by the anthropology undergraduate advisor.

Introductory, Distribution, and Related Fields Requirements

Consult with a School of Human Evolution and Social Change undergraduate advisor for semester course description booklets and semester schedules, which indicate the regular and omnibus courses being offered. No courses may be used to fulfill more than one Anthropology major or minor requirement.

Required Introductory Courses
ASB 102 Introduction to Cultural and Social Anthropology *SB, G* 3
ASB 222 Buried Cities and Lost Tribes: Our Human Heritage *HU/SB, G, H* 3
or ASB 223 Buried Civilizations of the Americas *HU/SB, G, H* (3)
ASM 104 Bones, Stones, and Human Evolution *SB/SG* 4

Distribution Requirements
Upper-Division Linguistics
One course chosen from the following list* 3
ASB 480 Introduction to Linguistics *SB* (3)
ASB 481 Language and Culture *SB* (3)
ASB 483 Sociolinguistics and the Ethnography of Communication *SB* (3)

Sociocultural
Two courses chosen from the following list* 6
ASB 202 Ethnic Relations in the United States *SB, C, H* (3)
ASB 211 Women in Other Cultures *HU/SB, G* (3)
ASB 311 Principles of Social Anthropology *SB* (3)
ASB 314 Comparative Religion (3)
ASB 319 The North American Indian (3)
ASB 321 Indians of the Southwest *L/SB, C, H* (3)
ASB 322 Peoples of Mesoamerica *SB, G* (3)
ASB 323 Indians of Latin America *SB, G* (3)
ASB 324 Peoples of the Pacific *G (3)*
ASB 325 Peoples of Southeast Asia *G (3)*
ASB 350 Anthropology and Art (3)
ASB 351 Psychological Anthropology *SB* (3)
ASB 353 Death and Dying in Cross-Cultural Perspective *HU/SB, G* (4)
ASB 412 History of Anthropology *L/SB* (3)
ASB 416 Economic Anthropology *L/SB* (3)
ASB 417 Political Anthropology (3)
ASB 485 U.S.-Mexico Border in Comparative Perspective (3)

Archaeology
Two courses chosen from the following list* 6
ASB 231 Archaeological Field Methods *SG* (4)
ASB 326 Human Impacts on Ancient Environments *SB, H* (3)
ASB 330 Principles of Archaeology *SB* (3)
ASB 335 Prehistory of the Southwest *SB, C, H* (3)
ASB 337 Pre-Hispanic Civilization of Middle America *HU/SB, G, H* (3)
ASB 338 Archaeology of North America *SB, H* (3)
ASB 361 Pleistocene Archaeology *H* (3)
ASB 362 The Neolithic Revolution and Its Consequences *H* (3)
ASM 338 Anthropological Field Session (2–8)
ASM 365 Laboratory Methods in Archaeology (4)
ASM 435 Archaeological Pollen Analysis (3)
ASM 472 Archaeological Ceramics (3)

Physical Anthropology
Two courses chosen from the following list* 6
ASM 246 Human Origins (3)
ASM 301 Peopling of the World *SB* (3)
ASM 341 Human Osteology (4)
ASM 342 Human Biological Variation *SG* (4)
ASM 343 Primatology (3)
ASM 344 Fossil Hominids *H* (4)
ASM 345 Disease and Human Evolution (3)
ASM 348 Social Issues in Human Genetics *SB* (3)
ASM 452 Dental Anthropology *SG* (4)
ASM 454 Comparative Primate Anatomy (4)
ASM 455 Primate Behavior Laboratory *L* (3)

Geographic Area Courses

Archaeology or Physical Anthropology
One course chosen from the following list* 3
ASB 335 Prehistory of the Southwest *SB, C, H* (3)
ASB 337 Pre-Hispanic Civilization of Middle America *HU/SB, G, H* (3)
ASB 338 Archaeology of North America *SB, H* (3)
ASB 361 Pleistocene Archaeology *H* (3)
ASB 362 The Neolithic Revolution and Its Consequences *H* (3)
ASM 301 Peopling of the World *SB* (3)

Ethnographic
One course chosen from the following list* 3
ASB 319 The North American Indian (3)
ASB 321 Indians of the Southwest *L/SB, C, H* (3)
ASB 322 Peoples of Mesoamerica *SB, G* (3)
ASB 323 Indians of Latin America *SB, G* (3)
ASB 324 Peoples of the Pacific *G* (3)
ASB 325 Peoples of Southeast Asia *G* (3)
ASB 485 U.S.-Mexico Border in Comparative Perspective (3)

Anthropology Elective
Any anthropology course 2–3

Related Fields
One lower- or upper-division statistics course 3

Total 42–43

* Consult with a School of Human Evolution and Social Change undergraduate advisor for courses not listed that may fulfill distribution requirements.

MINOR IN ANTHROPOLOGY

The Anthropology minor requires a minimum of 18 semester hours. Two of the introductory courses—from ASB 102, ASM 104, and ASB 222 or 223—are required. However, the particular introductory courses selected may limit the anthropology courses available in the upper division. Twelve semester hours must be upper division and represent at least two of the three subfields of anthropology. The three subfields are:

1. sociocultural anthropology (with linguistics);
2. archaeology; and
3. physical anthropology.

The courses chosen to represent two of the three subfields must be drawn from the "Distribution Requirements," page 567, of those two subfields. A minimum grade of "C" (2.00) is required for all courses taken for the minor in Anthropology.

The minor in Anthropology provides students with a great deal of flexibility in selecting courses. The program has been designed to allow students to focus on areas within the discipline which articulate well with their major. All students interested in the Anthropology minor are encouraged to discuss the options available with a School of Human Evolution and Social Change undergraduate advisor.

BIS CONCENTRATION

For students pursuing the Bachelor of Interdisciplinary Studies (BIS) degree, a concentration in anthropology requires 24 or 25 semester hours. All three of the introductory courses—ASB 102, ASM 104, and ASB 222 or 223—are required. Fifteen semester hours must be upper division and represent two of the three subfields:

1. sociocultural anthropology (with linguistics);
2. archaeology; and
3. physical anthropology.

The courses chosen to represent the two subfields must be drawn from the "Distribution Requirements," page 567. A minimum grade of "C" (2.00) is required for all courses taken for the minor in Anthropology for BIS students.

CERTIFICATES

Latin American Studies Certificate or Emphasis. Students majoring in Anthropology may elect to pursue a Latin American Studies Certificate or emphasis, combining courses from the major with selected outside courses of wholly Latin American content. For more information, see "Latin American Studies," page 512.

Certificate in Museum Studies. See the *Graduate Catalog* or contact the School of Human Evolution and Social Change for more information.

GRADUATE PROGRAM

The faculty in the School of Human Evolution and Social Change offer programs leading to the MA and PhD degrees. See the *Graduate Catalog* for requirements.

SECONDARY EDUCATION—BAE

This degree is offered through the Initial Teacher Certification program in the College of Education. Students pursuing a major in Secondary Education have an advisor in the College of Education and an advisor within the department of their academic specialization area.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

For more information, call the Office of Student Services in the College of Education at 480/965-5555.

ANTHROPOLOGY (SOCIAL AND BEHAVIORAL) (ASB)

For more ASB courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M ASB 102 Introduction to Cultural and Social Anthropology. (3)
fall and spring
Principles of cultural and social anthropology, with illustrative materials from a variety of cultures. The nature of culture. Social, political, and economic systems; religion, aesthetics, and language.
General Studies: SB, G

M ASB 202 Ethnic Relations in the United States. (3)
fall and spring
Processes of intercultural relations; systems approach to history of U.S. interethnic relations; psychocultural analysis of contemporary U.S. ethnic relations. Lecture, discussion. Cross-listed as AFS 202. Credit is allowed for only AFS 202 or ASB 202.
General Studies: SB, C, H

M ASB 210 Sex, Marriage, and Evolution. (3)
selected semesters
Examines the sexual nature and behavior of humans from both a biological and an anthropological point of view.

M ASB 211 Women in Other Cultures. (3)
selected semesters
Cross-cultural analysis of the economic, social, political, and religious factors that affect women's status in traditional and modern societies.
General Studies: HU/SB, G

M ASB 222 Buried Cities and Lost Tribes: Our Human Heritage. (3)
spring
Archaeology through its most important discoveries: human origins, Pompeii, King Tut, the Holy Land, Southwest Indians, and methods of field archaeology.
General Studies: HU/SB, G, H

M ASB 223 Buried Civilizations of the Americas. (3)
fall and spring
Archaeology through examination of several ancient civilizations of Meso-, South, and North America.
General Studies: HU/SB, G, H

M ASB 231 Archaeological Field Methods. (4)
spring
Excavation of archaeological sites and recording and interpretation of data. Includes local field experience. 2 hours lecture, 8 hours lab. Prerequisite: instructor approval.
General Studies: SG

M ASB 240 Introduction to Southeast Asia. (3)
fall and spring
Interdisciplinary introduction to the cultures, religions, political systems, geography, and history of Southeast Asia. Cross-listed as GCU 240/HST 240/POS 240/REL 240. Credit is allowed for only ASB 240 or GCU 240 or HST 240 or POS 240 or REL 240.
General Studies: HU/SB, G

M ASB 252 Anthropology of Sports. (3)
fall and spring
Cross-cultural examination of symbolic and social dimensions of sports past and present.
General Studies: SB, G

M ASB 302 Ethnographic Field Study in Mexico. (3)
summer
Fieldwork study of cultural adaptation, Mexican culture, United States-Mexican cultural conflict, ethnographic research methods, and local culture. Lecture, discussion, field research. Pre- or corequisite: SPA 101 (or its equivalent).
General Studies: L/SB, G

M ASB 311 Principles of Social Anthropology. (3)
spring
Comparative analysis of domestic groups and economic and political organizations in primitive and peasant societies.
General Studies: SB

M ASB 314 Comparative Religion. (3)
fall and spring
Origins, elements, forms, and symbolism of religion; a comparative survey of religious beliefs and ceremonies; the place of religion in the total culture. Prerequisite: ASB 102 or instructor approval.

M ASB 319 The North American Indian. (3)
once a year
Archaeology, ethnology, and linguistic relationship of the Indians of North America. Does not include Middle America. Prerequisite: ASB 102 or instructor approval.

M ASB 320 Indians of Arizona. (3)
selected semesters
Traditional cultures and the development and nature of contemporary political, economic, and educational conditions among Arizona Indians.

M ASB 321 Indians of the Southwest. (3)
spring
Cultures of the contemporary Indians of the southwestern United States and their historic antecedents. Prerequisite: ASB 102 or instructor approval.
General Studies: L/SB, C, H

M ASB 322 Peoples of Mesoamerica. (3)
once a year
Indigenous, mestizo, and national cultures, rural and urban peoples. Lecture, discussion, video. Prerequisite: ASB 102 or instructor approval.
General Studies: SB, G

M ASB 323 Indians of Latin America. (3)
fall
Indigenous cultures of the Amazon, the Andean region, Central America, and southern Mexico. Lecture, discussion. Prerequisite: ASB 102 or instructor approval.
General Studies: SB, G

M ASB 324 Peoples of the Pacific. (3)
selected semesters
Peoples and cultures of Oceania focusing particularly on societies of Melanesia, Micronesia, and Polynesia. Prerequisite: ASB 102 or instructor approval.
General Studies: G

M ASB 325 Peoples of Southeast Asia. (3)
fall
Cultural-ecological perspective on the peoples of mainland and insular Southeast Asia. Subsistence modes, social organization, and the impact of modernization. Prerequisite: ASB 102 or instructor approval.
General Studies: G

M ASB 326 Human Impacts on Ancient Environments. (3)
spring
World survey of successful and unsuccessful ancient societies and their impacts on the environment.
General Studies: SB, H

M ASB 327 Action Anthropology. (3)
fall
Explores contemporary issues and problem solving in Cuna, Micronesia, Mayan, and U.S. Latino communities, through applied anthropology and community initiatives.

M ASB 330 Principles of Archaeology. (3)
fall and spring
Methods and theories for reconstructing and explaining the lifeways of prehistoric peoples. Prerequisite: 3 hours in archaeology.
General Studies: SB

M ASB 335 Prehistory of the Southwest. (3)
fall and spring
Anthropological understandings of major cultural processes and events in the prehistory of the American Southwest using evidence from archaeology.
General Studies: SB, C, H

M ASB 337 Pre-Hispanic Civilization of Middle America. (3)
spring
Preconquest cultures and civilizations of Mexico. The Aztecs, Mayas, and their predecessors.
General Studies: HU/SB, G, H

M ASB 338 Archaeology of North America. (3)
selected semesters
Origin, spread, and development of the prehistoric Indians of North America up to the historic tribes. Does not include the Southwest. Prerequisite: ASB 222 or 223.
General Studies: SB, H

M ASB 350 Anthropology and Art. (3)
once a year
Art forms of people in relationship to their social and cultural setting. Prerequisite: ASB 102 or instructor approval.

M ASB 351 Psychological Anthropology. (3)
spring
Approaches to the interrelations between the personality system and the sociocultural environment. Prerequisite: ASB 102 or instructor approval.
General Studies: SB

M ASB 353 Death and Dying in Cross-Cultural Perspective. (4)
fall
Humanistic and scientific study of aging, sickness, dying, death, funerals, and grief and their philosophy and ecology in non-Western and Western cultures. 3 hours lecture, 1 hour discussion.
General Studies: HU/SB, G

M ASB 355 Shamanism, Healing, and Consciousness. (3)
spring
World views, practices, and roles of shamans and traditional and contemporary healers; explanatory biopsychological models of consciousness.
General Studies: HU/SB

M ASB 361 Pleistocene Archaeology. (3)
fall
Biosocial evolution in the Pleistocene, emphasizing technological achievements and the relationship between technology and environment in western Europe, sub-Saharan Africa. Prerequisite: ASB 222 or 223.
General Studies: H

M ASB 362 The Neolithic Revolution and Its Consequences. (3)
spring
Surveys models for the appearance of food production in the Old World, and its consequences for emergent social complexity. Prerequisite: ASB 222 or 223.
General Studies: H

M ASB 366 African Archaeology: Precolonial Urban Culture. (3)
fall and spring
Overview of African civilization from the last 10,000 years up to 1850 via archaeological, documentary, and oral data. Lecture, discussion.

Cross-listed as AFS 366. Credit is allowed for only AFS 366 or ASB 366.
General Studies: SB, G, H

M ASB 368 Prehistoric and Historic Hunter-Gatherers. (3)
spring
Studies known hunting and gathering societies with the goal of developing approaches to understanding past hunting and gathering societies. Lecture, discussion. Prerequisite: ASB 102 or 222.

M ASB 400 Cultural Factors in International Business. (3)
spring
Anthropological perspectives on international business relations; applied principles of cross-cultural communication and management; regional approaches to culture and business.
General Studies: G

M ASB 402 Visual Anthropology. (3)
fall
Explores visual anthropology as a method for social documentation, and as a way to interpret cultural ways of seeing. Brings together anthropology, fine art, and art history students to exchange ideas about how we create, interpret, and communicate visual meanings. Lecture, discussion, critique.

M ASB 412 History of Anthropology. (3)
fall
Historical treatment of the development of the culture concept and its expression in the chief theoretical trends in anthropology between 1860 and 1950. Prerequisite: ASB 102 or instructor approval.
General Studies: L/SB

M ASB 416 Economic Anthropology. (3)
fall
Economic behavior and the economy in preindustrial societies; description and classification of exchange systems; relations between production, exchange systems, and other societal subsystems. Prerequisite: ASB 102 or instructor approval.
General Studies: L/SB

M ASB 417 Political Anthropology. (3)
selected semesters
Comparative examination of the forms and processes of political organization and activity in primitive, peasant, and complex societies. Prerequisite: ASB 102 or instructor approval.

M ASB 462 Medical Anthropology: Culture and Health. (3)
fall
Role of culture in health, illness, and curing; health status, provider relations, and indigenous healing practices in United States ethnic groups. Lecture, discussion.
General Studies: C

M ASB 466 Peoples and Cultures of Africa. (3)
fall and spring
Survey of African peoples and their cultures, external contact, and changes. Meets non-Western requirement. Lecture, discussion. Cross-listed as AFS 466. Credit is allowed for only AFS 466 or ASB 466.
General Studies: SB, G, H

M ASB 471 Introduction to Museums. (3)
fall
History, philosophy, and current status of museums. Explores collecting, preservation, exhibition, education, and research activities in different types of museums. Prerequisites: both ASB 102 and ASM 104 or only instructor approval.
General Studies: L

M ASB 480 Introduction to Linguistics. (3)
fall and spring
Descriptive and historical linguistics. Survey of theories of human language, emphasizing synchronic linguistics.
General Studies: SB

M ASB 481 Language and Culture. (3)
spring
Applies linguistic theories and findings to nonlinguistic aspects of culture; language change; psycholinguistics. Prerequisite: ASB 102 or instructor approval.
General Studies: SB

M ASB 483 Sociolinguistics and the Ethnography of Communication. (3)
selected semesters
Relationships between linguistic and social categories; functional analysis of language use, maintenance, and diversity; interaction between verbal and nonverbal communication. Prerequisites: both ASB 480 and ENG 213 (or FLA 400) or only instructor approval.
General Studies: SB

M ASB 485 U.S.-Mexico Border in Comparative Perspective. (3)
spring in odd years
Explores the multicultural and social dimensions of communities along the U.S.-Mexico border, emphasizing social organization, migration, culture, and frontier ideology. Prerequisite: 6 hours in anthropology or instructor approval.

M ASB 489 Doing Research in Anthropology. (3)
fall and spring
Research process learned through critical evaluation of literature, hands-on analysis and interpretation of data, and scientific writing Rotating topics. May be repeated for credit. Seminar, lab. Prerequisite: instructor approval.
General Studies: SB

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

ANTHROPOLOGY (SCIENCE AND MATHEMATICS) (ASM)

M ASM 104 Bones, Stones, and Human Evolution. (4)
fall and spring
Physical anthropology and archaeology. Evidence and processes of human evolution and of culture change. Primates. Fossil hominids and their tools. Race, variation, and heredity. Environment and human biology. Prehistoric culture and society. Lecture, lab. Fee.
General Studies: SB/SG

M ASM 241 Biology of Race. (3)
fall and spring
Human variation and its interpretation in an evolutionary context.

M ASM 246 Human Origins. (3)
fall
History of discoveries and changing interpretations of human evolution. Earliest ancestors to emergence of modern humans. Humanity's place in nature.

M ASM 248 Bioarchaeology of Cannibalism, Violence, and Social Pathology. (3)
spring
Worldwide review of claims of severely abnormal behavior in prehistory based on perimortem bone taphonomy, analogues, and comparative cases. Lecture, class demonstrations.

M ASM 301 Peopling of the World. (3)
fall
Reviews all evidence for human dispersal during the last 100,000 years, origins of language, cultures, races, and beginnings of modern humans. Prerequisite: ASM 104.
General Studies: SB

M ASM 338 Anthropological Field Session. (2–8)
spring
Anthropological field techniques, analysis of data, and preparation of field reports. May be repeated for credit. Prerequisite: instructor approval.

M ASM 341 Human Osteology. (4)
fall
Osteology, human paleontology, and osteometry. Description and analysis of archaeological and contemporary human populations. 3

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

hours lecture, 3 hours lab. Prerequisite: ASM 104 or instructor approval.

M ASM 342 Human Biological Variation. (4)
spring
Evolutionary interpretations of biological variation in living human populations, with emphasis on anthropological genetics and adaptation. Nutrition and disease and their relation to genetics and behavior. 3 hours lecture, 3 hours lab. Prerequisites: both ASM 104 and MAT 106 (or its equivalent) or only instructor approval.
General Studies: SG

M ASM 343 Primatology. (3)
fall
Evolution and adaptations of nonhuman primates, emphasizing social behavior. Includes material from fossil evidence and field and laboratory studies in behavior and biology. Prerequisite: ASM 104 or instructor approval.

M ASM 344 Fossil Hominids. (4)
once a year
The fossil evidence for human evolution, emphasizing the concepts and methods for reconstructing the past. 3 hours lecture, 2 hours lab. Prerequisite: ASM 104 or instructor approval.
General Studies: H

M ASM 345 Disease and Human Evolution. (3)
fall
Interaction of people and pathogens from prehistoric times to the present, with emphasis on disease as an agent of genetic selection. Prerequisite: ASM 104 or instructor approval.

M ASM 348 Social Issues in Human Genetics. (3)
spring
Moral and social implications of developments in genetic science, particularly as they affect reproduction, medicine, and evolution.
General Studies: SB

M ASM 365 Laboratory Methods in Archaeology. (4)
selected semesters
Techniques of artifact analysis. Basic archaeological research techniques; methods of report writing. May be repeated for credit for total of 8 hours. Prerequisite: instructor approval.

M ASM 435 Archaeological Pollen Analysis. (3)
selected semesters
Theory, methodology, and practice of pollen analytic techniques. Compares uses in botany, geology, and archaeology. 2 hours lecture, 3 hours lab, possible field trips. Prerequisite: instructor approval.

M ASM 448 Geoarchaeology. (3)
fall and spring
Geologic context relevant to archaeological research. Topics include sediments, deposition environments, soils, anthropogenic and biogenic deposits, and quaternary chronology. Lecture, discussion, field experiences. Prerequisites: ASB 222 (or 223) or GLG 101 (or 103) or GPH 111; instructor approval.

M ASM 450 Bioarchaeology. (3)
spring
Surveys archaeological and physical anthropological methods and theories for evaluating skeletal and burial remains to reconstruct biocultural adaptation and lifeways. Prerequisite: ASM 104 or instructor approval.

M ASM 452 Dental Anthropology. (4)
fall
Human and primate dental morphology, growth, evolution, and genetics. Within- and between-group variation. Dental pathology and behavioral-cultural-dietary factors. 3 hours lecture, 3 hours lab. Prerequisite: instructor approval.
General Studies: SG

M ASM 454 Comparative Primate Anatomy. (4)
spring
Functional anatomy of the cranial, dental, and locomotor apparatus of primates, including humans, emphasizing the relation of morphology to behavior and environment. 3 hours lecture, 3 hours lab, dissections, demonstrations. Prerequisite: instructor approval.

M ASM 455 Primate Behavior Laboratory. (3)
selected semesters
Instruction and practice in methods of observation and analysis of primate behavior. Discussion of the relationship between class work on captive animals and field techniques for studying free-ranging groups. Directed readings, 6 hours lab. Prerequisites: ASM 343; instructor approval.
General Studies: L

M ASM 456 Infectious Disease and Human Evolution. (3)
once a year
Study of infectious disease and humanity, using evidence from anthropology, history, medicine, and ancient skeletons. Prerequisite: ASM 345.

M ASM 465 Quantification and Analysis for Anthropologists. (3)
spring
Statistical, quantitative, and geometric strategies for envisioning and exploring archaeological, physical anthropological, bioarchaeological, and sociocultural data. Univariate and multivariate methods. Prerequisites: introductory statistical course; instructor approval.

M ASM 472 Archaeological Ceramics. (3)
selected semesters
Analysis and identification of pottery wares, types, and varieties. Systems for ceramic classification and cultural interpretation. 2 hours lecture, 3 hours lab. Prerequisite: instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

School of Justice and Social Inquiry

www.asu.edu/clas/justice
480/965-7682
WILSN 331

Doris Marie Provine, Director

Regents' Professor: Altheide

Professors: Cavender, Haynes, Johnson, Jurik, Lauderdale, Provine, Romero, Schneider, Zatz

Associate Professor: Adelman

Assistant Professors: Gonzales, Haglund, Hanson, Kupchik, Lopez, Milun, Monahan, Quan

MISSION

Students pursuing the BS degree in Justice Studies find an interdisciplinary classroom experience emphasizing ideas from the social sciences, philosophy, and legal studies. The degree is designed for students interested in studying issues of justice and those desiring justice-related careers, including law. Students develop an understanding of the aspirations for justice in comparative and global terms, and analyze often controversial issues through critical inquiry and social science investigation. The faculty focus on theories of justice and injustice in three principal areas:

1. cultural transformation and justice;
2. economic justice; and
3. social justice, law, and policy.

Courses are designed to provide students with a comprehensive understanding of the substantive issues within each of these three areas and of the interrelationship and continuity among them. Students accordingly may learn about conflict and its negotiation; crime and violence; adolescents and delinquency; punishment and alternatives to punishment; globalization and inequality; and differential institutional and socioeconomic treatment of populations based on gender and sexuality, race and ethnicity, social class, and nationality.

The heart of any university program is its faculty. The School of Justice and Social Inquiry boasts a faculty with strong scholarly credentials. Faculty members include national, international, and local award recipients in research, teaching, and public service. Faculty members are committed to challenging students to develop their own understandings of justice; to analyze critically; and to propose possible solutions to a wide variety of contemporary issues concerning just distribution of resources, fair treatment for individuals and groups in local communities, the nation, and the world.

While completing the Justice Studies curriculum, students encounter opportunities to develop transferable skills, including critical thinking, oral and written discourse, computer literacy, and problem solving. Faculty encourage students to practice justice through various experiential approaches, including volunteer work, service learning, and internships. Students actively engage in their education via discussion, cooperative learning, field trips, and case-based classroom formats.

PROFESSIONAL STATUS

Upon admission to the university, Justice Studies students are classified as preprofessional. Justice Studies students must earn professional status before enrolling in 400-level JUS resident credit courses.

Justice Studies students achieve professional status by

1. earning a minimum of 56 semester hours;
2. earning a minimum cumulative GPA of 2.50 (calculated on a minimum of nine semester hours earned at ASU);
3. completing the university General Studies mathematics requirement (MA);
4. completing the school's computer science requirement (CS computer course);
5. completing the school's communication requirement; and
6. completing the following classes with a minimum 2.50 GPA and a minimum grade of "C" in each of the following courses.

Choose between the course combinations below..... 6 or 3
ENG 101 First-Year Composition (3)
ENG 102 First-Year Composition (3)
———*or*———
ENG 105 Advanced First-Year Composition (3)
JUS 105 Introduction to Justice Studies *SB*.....3
or JUS 305 Principles of Justice Studies *SB* (3)
JUS 301 Research in Justice Studies *SB*.....3
JUS 302 Basic Statistical Analysis in Justice Studies *CS*.....3
JUS 303 Justice Theory 3
School's writing competence requirement *L*.....3

The student must achieve professional status by the time the 87th semester hour is earned or else the student is disallowed from taking courses offered by the school. A student who transfers 58 or more semester hours must achieve professional status upon completion of 30 ASU semester hours.

ADVISING

Students admitted as preprofessional are advised by one of the school's academic advisors. All students are encouraged to seek advising to formulate an appropriate educational plan.

Upon admission to the university, every undergraduate in the program receives the *Undergraduate Advisement Guide* and an evaluation of any transfer work. For more information, call the school at 480/965-7682.

JUSTICE STUDIES—BS

The curriculum for the BS degree in Justice Studies provides interdisciplinary social science courses relevant to law and justice for students working in the justice field, students anticipating justice-related careers (including the legal profession), and interested non-Justice Studies students.

MINOR IN JUSTICE STUDIES

The minor in Justice Studies is designed for students interested in developing an understanding of meanings of justice and injustice and analyzing often controversial issues through critical inquiry and social science investigation.

Eighteen hours of graded classroom JUS course work are required, including JUS 105 or 305 and JUS 303. No pass/fail or credit/noncredit course work may be applied to the minor. A minimum of nine semester hours must be resident credit at Tempe campus, and at least 12 hours must be upper-division credit. Students must receive a minimum grade of "C" (2.00) for all courses in the minor and meet all course eligibility requirements, including prerequisites.

BIS CONCENTRATION

A concentration in Justice Studies is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

DEGREE REQUIREMENTS

The faculty in the School of Justice and Social Inquiry award a BS degree upon the successful completion of a curriculum consisting of a minimum of 120 semester hours, including the university General Studies requirement,

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

college graduation requirements, justice requirements, and electives. Additionally, the student must

1. earn professional status;
2. earn a minimum of 45 semester hours of upper-division credits;
3. complete the school's minimum residency requirement of 24 semester hours (see the *Undergraduate Advisement Guide*);
4. earn a grade of "C" (2.00) or higher in all justice studies courses taken at ASU that apply to the justice studies component of the curriculum (i.e., nonelectives); and
5. meet the university's residency and scholarship requirements.

GENERAL STUDIES REQUIREMENTS

To assure the breadth and depth of their education, all Justice Studies undergraduates must complete the university General Studies requirement and additional fundamental requirements prescribed by the College of Liberal Arts and Sciences and the School of Justice and Social Inquiry. For descriptive information on these requirements, see "General Studies," page 93, and "College Graduation Requirements," page 503. Note that all three General Studies awareness areas are required. Consult "General Studies Requirements" in the *Schedule of Classes* for an approved list of courses. The school implements the ASU continuous enrollment policy for First-Year Composition and the university mathematics (MA) requirement.

MAJOR REQUIREMENTS

The required justice studies component consists of 60 semester hours, of which 15 must be taken in a supplemental focus approved by the school. The following courses are required for all degree candidates. Equivalent courses may be substituted when appropriate.

JUS	105	Introduction to Justice Studies *SB*	3
		or JUS 305 Principles of Justice Studies *SB* (3)	
JUS	301	Research in Justice Studies *SB*	3
JUS	302	Basic Statistical Analysis in Justice Studies *CS*	3
JUS	303	Justice Theory	3
Total			12

Through advising, a group of Justice and Social Inquiry courses may be recommended to ensure a comprehensive exposure appropriate to the student's interests.

Electives. The faculty encourage students to utilize the unique opportunities afforded by the university to pursue personal and educational interests, whether in the form of a broad sampling of other disciplines or the deeper probing of a single field. Specifically, the faculty suggest that students take a minimum of one course in American government, behavioral psychology, and sociology.

Transfer of Community College Credits. Credits transferred from accredited community colleges are accepted as lower-division credits up to a maximum of 64 semester hours. The acceptance of credits is determined by the director of Undergraduate Admissions, and the utilization of credits toward degree requirements is determined by the faculty of the School of Justice and Social Inquiry.

GRADUATE PROGRAMS

The faculty in the School of Justice and Social Inquiry offer the following: an MS degree in Justice Studies, a concurrent MS in JSI/MA in Anthropology, and an Interdisciplinary PhD program in Justice Studies. For more information, see the *Graduate Catalog*, or access the Web site at www.asu.edu/clas/justice.

JUSTICE STUDIES (JUS)

M JUS Note 1. For Justice Studies students to take a nonrequired 300-level JUS course, they must have at least a "C" (2.00) in each of the required JUS courses—JUS 105 (or 305), 301, 302, and 303—and a minimum 2.50 GPA for these four classes. For non-Justice Studies students to take a 300-level JUS course, they must have a minimum of 56 earned semester hours (junior standing) and a minimum cumulative 2.00 GPA. Non-Justice Studies students may take JUS 301, 302, and 303 with school approval.

M JUS Note 2. For non-Justice Studies students to take a 400-level JUS course, they must have a minimum of 56 earned semester hours (junior standing) and a minimum cumulative 2.50 GPA. Justice Studies students must earn professional status before taking 400-level JUS resident credit courses. Justice Studies courses at the 300 and 400 level are unavailable to non-Justice Studies students during preregistration.

M JUS 105 Introduction to Justice Studies. (3)
fall, spring, summer
Introductory overview to the study of justice from a social science perspective. Primary topics include justice theories and justice research. Credit is allowed for only JUS 105 or 305. Appropriate for freshmen and sophomores. Lecture, discussion.
General Studies: SB

M JUS 200 Topics in Concepts and Issues of Justice. (3)
once a year
Uses critical thinking skills to analyze and comprehend controversial social issues (e.g., abortion, affirmative action, capital punishment, the flat tax, and immigration). May be repeated for credit when topics vary. Lecture, discussion.
General Studies: SB

M JUS 294 Special Topics. (1–4)
fall, spring, summer
Topics chosen from various fields of justice studies.

M JUS 301 Research in Justice Studies. (3)
fall, spring, summer
Focuses on developing and evaluating research designs, data collection, and the relationship between validity and reliability. Stresses methods for conducting research. Prerequisite: Justice Studies student.
General Studies: SB

M JUS 302 Basic Statistical Analysis in Justice Studies. (3)
fall, spring, summer
Introduces the fundamentals and application of descriptive and inferential statistics, with emphasis on the justice area. Prerequisite: intermediate algebra or higher.
General Studies: CS

M JUS 303 Justice Theory. (3)
fall, spring, summer
Examines classic and contemporary philosophies and theories of justice, including legal, social, and criminal justice. See JUS Note 1.

M JUS 305 Principles of Justice Studies. (3)
fall, spring, summer
Introductory overview to the study of justice from a social science perspective. Primary topics include justice theories and justice research. Credit is allowed for only JUS 305 or 105. Appropriate for juniors and seniors. Lecture, discussion. See JUS Note 1.
General Studies: SB

M JUS 306 Police and Society. (3)
once a year
Focuses on community policing; critical inquiry of administrative decision making; perspectives on police-citizen violence; street practices; urban policing. Lecture, discussion. See JUS Note 1.

M JUS 308 Courts and Society. (3)
once a year
History and development of courts. Relationship between dispute resolution mechanisms and cultural/social structure/processes in which they are embedded. Lecture, discussion, cooperative learning, case analysis. See JUS Note 1.

M JUS 310 Corrections and Justice. (3)
once a year
Examines the United States prison condition; types of offenders; issues, including drugs, gangs, drunk driving, racial discrimination, and "intermediate" punishments. Lecture, discussion. See JUS Note 1.

M JUS 311 Crime, Prevention, and Control. (3)
once a year
Examines prevention and control of crime by a review of contemporary theories, justice agency procedures, and social policies. Lecture, discussion. See JUS Note 1.

M JUS 320 Community and Social Justice. (3)
once a year
Discusses and analyzes definitions of community; impact of environment on behavior; promises of community organization for local empowerment. Lecture, discussion. See JUS Note 1.
General Studies: SB, C

M JUS 321 Wealth Distribution and Poverty. (3)
once a year
Examines wealth and income distribution in the United States and analyzes ideological and political forces producing an increasingly unequal society. Lecture, discussion. See JUS Note 1.
General Studies: SB, C

M JUS 329 Domestic Violence. (3)
once a year
Legal, historical, theoretical, and treatment aspects of domestic violence, including child abuse, woman battering, incest, and marital rape. Lecture, discussion. See JUS Note 1.
General Studies: SB

M JUS 335 Organized Crime. (3)
once a year
Nature of organized crime and its illegal activities, theories of containment, and efforts by justice agencies to counter its dominance in society. Lecture, discussion. See JUS Note 1.

M JUS 345 White Collar Crime. (3)
once a year
Basic white collar concepts and categories; causes and effects; mechanisms and contexts of operation; social and criminological responses. Lecture, discussion. See JUS Note 1.

M JUS 350 Immigration and Justice. (3)
fall, spring, summer
Examines immigration policy, history of immigration, refugee issues, labor force participation, gender, family, children, social networks, and transnationalism. Lecture, discussion. See JUS Note 1.
General Studies: SB, C

M JUS 360 Law and Social Control. (3)
once a year
Resolution of social issues through the application of law as an agent of social control. Nature, sanctions, and limits of law. Categories of law and schools of jurisprudence. Lecture, discussion. See JUS Note 1.
General Studies: SB

M JUS 375 Justice and the Mass Media. (3)
once a year
Surveys the impact of mass media and popular culture on social justice, including criminal justice. Lecture, discussion. See JUS Note 1.
General Studies: SB

M JUS 385 Justice and Everyday Life. (3)
once a year
Justice and injustice in everyday life and how small things can become legal issues. Role of language and interaction in social order. Lecture, group work. See JUS Note 1.
General Studies: SB

M JUS 394 Special Topics. (1–3)
once a year
Topics chosen from various fields of justice studies. Lecture, discussion. See JUS Note 1.

M JUS 404 Imperatives of Proof. (3)
once a year
Issues of evidence, rules of proof, establishing fact and identity in the justice system. Lecture, case analysis, cooperative learning, discussion. See JUS Note 2.
General Studies: L

M JUS 405 Economic Justice. (3)
fall and spring
Addresses economic issues and justice implications, including the interplay among economic conditions, race-ethnicity, class, and gender worldwide. Lecture, discussion. See JUS Note 2.
General Studies: L/SB, G

M JUS 410 Punishment: Logic and Approach. (3)
once a year
Analyzes forms of punishment, how and why they have changed. Areas include philosophy, history, and social structure of punishment. Lecture, discussion. See JUS Note 2.

M JUS 415 Gender and International Development. (3)
once a year
Examines the ways in which international development is gendered as well as women's rights as human rights in both national and international arenas. Lecture, seminar. See JUS Note 2.
General Studies: L, G

M JUS 420 Women, Work, and Justice. (3)
once a year
Examines gender inequality in the workplace, including the nature of women's work, theoretical issues, and models for promoting gender justice at work. Lecture, discussion. See JUS Note 2.
General Studies: SB, C

M JUS 422 Women, Law, and Social Control. (3)
once a year
Examines social, economic, and legal factors that are relevant to mechanisms of social control of women, including formal legal control and informal control through violence. See JUS Note 2.

M JUS 425 Race, Gender, and Crime. (3)
once a year
Critically examines major theories, research findings, policies, and controversies concerning race, ethnicity, gender, and crime. Lecture, discussion, cooperative learning. See JUS Note 2.
General Studies: L/SB, C

M JUS 430 Social Protest, Conflict, and Change. (3)
fall, spring, summer
Analyzes historical and contemporary protest movements advocating equality based on race, gender, and sexual orientation. Lecture, discussion. See JUS Note 2.
General Studies: L/SB, C

M JUS 440 Administration and Justice. (3)
once a year
Diversity issues; procedural justice and service delivery; relationships between state and economic forces, including processes of regulation; state administrative apparatuses. Lecture, case analysis, cooperative learning, discussion. See JUS Note 2.
General Studies: L

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M JUS 444 Environment and Justice. (3)
fall
Explores issues of environment and justice. Topics include justice and environmental racism, future generations, nonhuman life, global/non-Western societies. Lecture, discussion. See JUS Note 2.
General Studies: L, C

M JUS 450 Alternatives to Incarceration. (3)
once a year
Investigates various alternatives to incarceration; advantages/disadvantages; major issues, including net widening, cost effectiveness, risk assessment, community crime prevention. Lecture, research. See JUS Note 2.
General Studies: L

M JUS 460 Feminism and Justice. (3)
once a year
Explores feminist thought and critiques traditional political theories. Examines issues of racism, sexuality, and the law. Lecture, discussion. See JUS Note 2.
General Studies: C

M JUS 463 Discretionary Justice. (3)
once a year
Use/abuse, key issues/manifestations of discretion in legal system and other societal institutions. Theoretical/empirical linkages between discretion and discrimination, based on race, ethnicity, and gender. Lecture, discussion. See JUS Note 2.
General Studies: SB

M JUS 465 Death Penalty in the United States. (3)
fall, spring, summer
Focuses on capital punishment in the United States; explores negotiation of law, politics, morality, public policy, and culture. Lecture, discussion, case study. See JUS Note 2.
General Studies: L

M JUS 469 Political Deviance and the Law. (3)
once a year
Examines the controversies created by political and deviant behavior, including a critical view of law as an agent of social control. Lecture, discussion. See JUS Note 2.
General Studies: L/SB, C

M JUS 470 Alternative Dispute Resolution. (3)
once a year
Critical examination of the tenets of alternative dispute resolution movement; exposure to the programs of ADR, including community and court based. Lecture, cooperative learning, field research. See JUS Note 2.
General Studies: L/SB, C

M JUS 474 Legislation of Morality. (3)
once a year
Addresses historical and contemporary issues related to social justice movements, law, and morality in a pluralistic society. Issues include AIDS, burial rights, homosexuality, poverty, prostitution, and racial discrimination. See JUS Note 2.
General Studies: L/SB, C

M JUS 477 Youth and Justice. (3)
once a year
Critical examination of youth-related justice issues, including economic justice, violence against youth, delinquency, and the juvenile justice system. Lecture, group work, film. See JUS Note 2.
General Studies: L/SB

M JUS 479 Law and Disputing. (3)
fall and spring
Critical analysis of the controversies created by disputes, law, and other forms of social control. Lecture, discussion. See JUS Note 2.
General Studies: L/SB

M JUS 484 Internship. (3–6)
fall, spring, summer
Assignments in a justice-related placement designed to further the integration of theory and practice. Internships are arranged through consultation of students with placements. Students must consult with the school for appropriate application and registration procedures. May be repeated for credit for a total of 12 semester hours, of which a maximum of 6 are applied to the major. Fee. See JUS Note 2. Prerequisites: major status; Justice Studies student.

M JUS 494 Special Topics. (1–3)
once a year
Topics chosen from various fields of justice studies. Lecture, discussion. See JUS Note 2.

M JUS 498 Pro-Seminar. (1–3)
fall, spring, summer
Small group study and research for advanced students. May be repeated for credit for a total of 9 hours, of which a maximum of 3 are applied to the major. See JUS Note 2. Prerequisites: major status; minimum cumulative 2.75 GPA; minimum GPA in JUS courses of 3.00; instructor approval.

M JUS 499 Individualized Instruction. (1–3)
fall, spring, summer
Original study or investigation in the advanced student's field of interest under the supervision of a faculty member. May be repeated for credit for a total of 6 hours, all applicable to the major. Readings, conferences, tutorials. Prerequisites: major status; minimum cumulative 2.75 GPA; minimum GPA in JUS courses of 3.00; instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Kinesiology

www.asu.edu/clas/kines
480/965-3875
PEBW 218

Lawrence Mandarino, Chair

Regents' Professor: Daniel Landers

Professors: Mandarino, Matt, Stelmach

Associate Professors: Hinrichs, Ringenbach, Santello, Willis

Assistant Professors: Dounskaia, Kulinna

Senior Lecturer: Donna Landers

Lecturers: Broman, Cataldo, Fay, Heinrichs

KINESIOLOGY—BS

The BS degree in Kinesiology consists of 38 semester hours, including 14 semester hours of required KIN core courses (KIN 110 may be repeated for credit). The remaining 24 semester hours of KIN and other courses are prescribed by the specific emphasis the student selects.

Each KIN core course has specific prerequisite courses that must be taken before taking the respective core course. These prerequisite courses include the following:

BIO	201	Human Anatomy and Physiology I *SG*	4
BIO	202	Human Anatomy and Physiology II	4
CHM	101	Introductory Chemistry *SQ*	4
MAT	210	Brief Calculus *MA*	3
		or MAT 251 Calculus for Life Sciences *MA* (3)	

or a higher level mathematics course
PGS 101 Introduction to Psychology *SB* 3
PHY 111 General Physics *SQ** 3
Total 21

* Both PHY 111 and 113 must be taken to secure SQ credit.

The required KIN core courses are as follows:

KIN 200 Introduction to Kinesiology 2
KIN 335 Biomechanics 3
KIN 340 Physiology of Exercise 3
KIN 345 Motor and Developmental Learning 3
KIN 352 Psychosocial Aspects of Physical Activity *SB, C* 3
Total 14

All prerequisite and KIN courses must be completed with a minimum grade of "C" (2.00). The requirements for the specific emphases are described below.

Majors must elect either the kinesiology or human physiology emphasis.

Emphases

Each emphasis requires 24 semester hours.

Kinesiology Emphasis. For the student interested in more applied aspects of exercise and sport performance, e.g., strength and conditioning, sports medicine, sport skill acquisition, exercise physiology, biomechanical techniques in exercise and sport, and sport psychology. This emphasis consists of 24 semester hours, 15 semester hours of which must be upper-division courses. Part A and B as listed below must be completed.

Part A
Choose from among the courses below* 9
- KIN 100 Introduction to Health and Wellness *SB* (3)
- KIN 110 Research Analysis Laboratory (1–2)
- KIN 191 First-Year Seminar (1–3)
- KIN 283 Prevention and Care of Athletic Injuries (3)
- KIN 294 ST: Research Methods I (3)
- KIN 334 Functional Anatomy and Kinesiology (3)
- KIN 348 Psychological Skills for Optimal Performance *SB* (3)
- KIN 370 Advanced First Aid (3)

* Students may also take KIN upper-division courses from the human physiology emphasis that are exclusive to that emphasis.

Part B
Choose from among the courses below* 15
- KIN 412 Biomechanics of the Skeletal System (3)
- KIN 413 Qualitative Analysis in Sport Biomechanics (3)
- KIN 441 Physiology of Women in Sport *L* (3)
- KIN 442 Fuel Metabolism (3)
- KIN 444 Metabolic Adaptations to Exercise Training (3)
- KIN 445 Exercise Physiology for Children and Adolescents (3)
- KIN 448 Applied Sport Psychology *L* (3)
- KIN 450 Biopsychosocial Perspectives on Physical Activity and Health (3)
- KIN 460 Theory of Strength Training *L* (3)
- KIN 484 Internship (1)
- KIN 485 Advanced Techniques of Athletic Training (3)
- KIN 492 Honors Directed Study: Research (1–6)
- KIN 493 Honors Thesis (1–6)
- KIN 494 ST: Environmental Exercise Physiology (3)
- KIN 494 ST: Interpretation of Exercise Electrocardiogram (3)
- KIN 494 ST: Interpretation of Exercise Performance (3)
- KIN 498 Pro-Seminar: Kinesiology and the Future (1)
- KIN 499 Individualized Instruction (1–3)

* Other KIN courses may be substituted with advisor approval.

Human Physiology Emphasis. For the student interested in prehealth professions and those interested in biomechanical, physiological, motor control, and/or psychological mechanisms underlying human movement performance. Students interested in pursuing postbaccalaureate training in one of several possible professions in the health care industry (e.g., physical therapy, recreational therapy, occupational therapy, physician's assistant, medicine, dentistry, podiatry, or chiropractic) will have additional course work in the sciences to complete (see department for list). This emphasis consists of 24 semester hours, 15 semester hours of which must be upper-division courses. Part A and B as listed below must be completed.

Part A
Choose from among the courses below* 9
- BCH 361 Principles of Biochemistry (3)
- BIO 340 General Genetics (4)
- BIO 353 Cell Biology (3)
- BIO 360 Animal Physiology (3)
- CHM 231 Elementary Organic Chemistry *SQ* (3) or CHM 233 General Organic Chemistry I (3)
- KIN 110 Research Analysis Laboratory (3)
- KIN 191 First-Year Seminar (1–3)
- KIN 334 Functional Anatomy and Kinesiology (3)
- KIN 370 Advanced First Aid (3)
- MBB 245 Cellular and Molecular Biology *SQ* (4)

* Students may also take other upper-division courses from: BCH, BIO, BME, CHM, HPS, MBB, PGS, PHY, or PSY.

Part B
Choose from among the courses below* 15
- KIN 412 Biomechanics of the Skeletal System (3)
- KIN 414 Electromyographic Kinesiology *L* (3)
- KIN 421 Human Motor Control *L* (3)
- KIN 422 Motor Control in Special Populations *L* (3)
- KIN 423 Motor Control and Aging *L* (3)
- KIN 440 Exercise Biochemistry (3)
- KIN 442 Fuel Metabolism (3)
- KIN 443 Exercise Endocrinology *L* (3)
- KIN 445 Exercise Physiology for Children and Adolescents (3)
- KIN 450 Biopsychosocial Perspectives on Physical Activity and Health (3)
- KIN 452 Exercise Psychology *SB* (3)
- KIN 484 Internship (1–9)
- KIN 492 Honors Directed Study: Research (1–9)
- KIN 493 Honors Thesis (1–9)
- KIN 494 ST: Interpretation of Exercise Electrocardiogram (3)
- KIN 494 ST: Muscle Physiology (3)
- KIN 494 ST: Neurophysiological Bases of Movement (3)
- KIN 494 ST: Research Methods (3)
- KIN 494 ST: Voluntary and Reflex Control of Movement (3)
- KIN 498 Pro-Seminar: Kinesiology and the Future (1)

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

KIN 499 Individualized Instruction (1–9)

* Other KIN courses my be substituted with advisor approval.

MINOR IN KINESIOLOGY

The minor in Kinesiology consists of the core sequence as follows, plus all prerequisite courses:

KIN 110 Research Analysis Laboratory 1
KIN 200 Introduction to Kinesiology 2
Choose from among the courses below 9
KIN 335 Biomechanics (3)
KIN 340 Physiology of Exercise (3)
KIN 345 Motor and Developmental Learning (3)
KIN 352 Psychosocial Aspects of Physical Activity *SB, C* (3)
KIN upper-division electives* 9

Total 21

* Excluding KIN 305, 310, 484, 492, 493, 498, and 499.

BIS CONCENTRATION

A concentration in kinesiology is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

GRADUATE PROGRAMS

The faculty in the Department of Kinesiology offer a program leading to the MS degree in Kinesiology. The department also participates with the Division of Graduate Studies in the program leading to the PhD degree in Exercise Science. See the *Graduate Catalog* for requirements.

HEALTH SCIENCE (HES)

For more HES courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M HES 100 Introduction to Health and Wellness. (3)
fall and spring
Current concepts in health, exercise, and wellness. Emphasis placed on personal health, theories, attitudes, beliefs, and behaviors. Cross-listed as EXW 100/KIN 100. Credit is allowed for only EXW 100 or HES 100 or KIN 100.
General Studies: SB

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

KINESIOLOGY (KIN)

M KIN Note 1. A $5.00 towel and locker fee is required each semester by students using towel and locker facilities for physical education classes and intramural activities.

M KIN Note 2. Physical education activity classes (KIN 105, 205, 305, 310) may not be taken for audit. Excessive absences and/or tardiness are considered disruptive behavior.

M KIN 100 Introduction to Health and Wellness. (3)
fall and spring
Current concepts in health, exercise, and wellness. Emphasis placed on personal health, theories, attitudes, beliefs, and behaviors. Cross-listed as EXW 100/HES 100. Credit is allowed only for EXW 100 or HES 100 or KIN 100.
General Studies: SB

M KIN 105 Physical Education Activity. (1)
fall, spring, summer
Beginning instruction in a wide variety of sports such as aerobics, aquatics, racquet sports, physical conditioning, and golf. 3 hours per week. "Y" grade only. May be repeated for credit. See KIN Notes 1, 2.
- Aerobics
  Fee.
- Archery
  Fee.
- Fencing
  Fee.
- Golf
  Fee.
- Rock Climbing
  Fee.

M KIN 110 Research Analysis Laboratory. (1–2)
fall, spring, summer
Introduces basic research areas in the discipline of kinesiology. Topics may include the following: developmental learning, exercise physiology, exercise psychology, exercise testing, metabolic physiology, motor control, motor learning, research journals and societies, research methods, research writing. May be repeated for credit. Fee. See KIN Note 1. Prerequisite: Kinesiology major.

M KIN 191 First-Year Seminar. (1–3)
fall and spring

M KIN 200 Introduction to Kinesiology. (2)
fall, spring, summer
Introduces the disciplines and professions associated with kinesiology, including an overview of historical and philosophical foundations.

M KIN 205 Physical Education Activity. (1)
fall, spring, summer
Intermediate levels. Continuation of KIN 105. 3 hours per week. May be repeated for credit. See KIN Notes 1, 2.
- Aerobics
  Fee.
- Archery
  Fee.
- Golf
  Fee.
- Rock Climbing
  Fee.

M KIN 283 Prevention and Care of Athletic Injuries. (3)
selected semesters
Taping, injury recognition, emergency care, and observation procedures in athletic training. Prerequisites: BIO 201, 202.

M KIN 290 Sports Officiating. (3)
selected semesters
Rules and mechanics of officiating used in football, basketball, and volleyball.

M KIN 292 Sports Officiating. (3)
selected semesters
Rules and mechanics of officiating used in softball (slow and fast pitch), baseball, and track and field.

M KIN 305 Physical Education Activity. (1)
fall, spring, summer
Advanced levels. Continuation of KIN 205. 3 hours per week. May be repeated for credit. See KIN Notes 1, 2.
- Golf
  Fee.

Prerequisite: instructor approval.

M KIN 310 Collegiate Sports. (1)
fall and spring
Participation in men's or women's intercollegiate competition. May be repeated for 4 hours, 1 per year. "Y/E" grade.

M KIN 334 Functional Anatomy and Kinesiology. (3)
spring
Muscles, bones, joints, and nerves and how they produce movement. Emphasizes muscle origins, insertions, actions, and innervations. Lecture, lab. Prerequisite: BIO 201.

M KIN 335 Biomechanics. (3)
fall, spring, summer
Basic anatomical and mechanical principles applied to human movement. Emphasizes kinematic and kinetic concepts. Lecture, recitation, lab. Fee. Prerequisites with a grade of "C" or higher: BIO 201, 202; MAT 210 (or higher); PHY 111.

M KIN 340 Physiology of Exercise. (3)
fall, spring, summer
Physiological mechanisms of acute responses and chronic adaptations to exercise. Lecture, recitation, lab. Fee. Prerequisites: BIO 201, 202; CHM 101.

M KIN 345 Motor and Developmental Learning. (3)
fall, spring, summer
Principles of motor skill acquisition across the life span, focusing on the learner and the learning environment. Lecture, recitation, lab. Fee. Prerequisites: BIO 201; PGS 101.

M KIN 348 Psychological Skills for Optimal Performance. (3)
fall and spring
Applies psychological techniques and their use to improve effectiveness and performance in sport and related areas.
General Studies: SB

M KIN 352 Psychosocial Aspects of Physical Activity. (3)
fall, spring, summer
Interrelationships between physical activity and psychosocial variables, including socialization, cultural values, aggression, and motivation. Includes the psychological benefits of physical activity and exercise adherence. Lecture, recitation. Prerequisite: PGS 101.
General Studies: SB, C

M KIN 370 Advanced First Aid. (3)
selected semesters
Assessment, management, treatment of wounds, injuries, shock, poisoning, burns, sudden illness, emergency rescue, and cardiopulmonary resuscitation. Lecture, lab. Fee.

M KIN 412 Biomechanics of the Skeletal System. (3)
selected semesters
Biomechanics of tissues, structures, and major joints of the musculoskeletal system. Discussion of injury mechanisms. Lecture, discussion, some labs. Prerequisite: KIN 335 or instructor approval.

M KIN 413 Qualitative Analysis in Sport Biomechanics. (3)
selected semesters
Develops systematic approach for detecting and correcting errors in human performance using anatomical and mechanical principles. Lecture, lab. Prerequisite: KIN 335.

M KIN 414 Electromyographic Kinesiology. (3)
selected semesters
Muscular contributions to human movement, muscle mechanics, electrophysiological basis, and practical application of electromyography. Lecture, discussion. Fee. Prerequisites: KIN 335, 340; instructor approval.
General Studies: L

M KIN 421 Human Motor Control. (3)
selected semesters
Focuses on understanding how the human central nervous system controls, regulates, and learns movements. Prerequisite: KIN 345 or instructor approval.
General Studies: L

M KIN 422 Motor Control in Special Populations. (3)
selected semesters
Discusses principles of motor control theories and related practical applications for certain special developmental populations. Lecture, discussion. Cross-listed as PSY 422. Credit is allowed for only KIN 422 or PSY 422. Prerequisite: KIN 345.
General Studies: L

M KIN 423 Motor Control and Aging. (3)
selected semesters
Functional and behavioral changes to the motor control system as humans age, how specifically it impacts motor control and learning. Prerequisite: KIN 345 or instructor approval.
General Studies: L

M KIN 440 Exercise Biochemistry. (3)
selected semesters
Study of bioenergetics and metabolism of cellular (skeletal muscle, heart, and liver) organelles and proteins during exercise. Prerequisite: KIN 340.

M KIN 441 Physiology of Women in Sport. (3)
selected semesters
Physiological aspects of women engaging in physical activity. Emphasizes factors affecting performance and health throughout life. Prerequisite: KIN 340.
General Studies: L

M KIN 442 Fuel Metabolism. (3)
selected semesters
Discusses current research concerning the metabolism of carbohydrate, fat, and protein during exercise. Credit is allowed for only KIN 442 or 536. Prerequisite: KIN 340 or instructor approval.

M KIN 443 Exercise Endocrinology. (3)
selected semesters
Discusses current research and theory concerning hormonal changes during exercise. Lecture, discussion. Prerequisite: KIN 340 or instructor approval.
General Studies: L

M KIN 444 Metabolic Adaptations to Exercise Training. (3)
selected semesters
Examines physiologic adaptations to exercise training as they relate to metabolism and tissue functions. Prerequisite: KIN 340.

M KIN 445 Exercise Physiology for Children and Adolescents. (3)
selected semesters
Understanding the influence of physical growth and maturation on the development of the functional capacities of the exercising child. Credit is allowed for only KIN 445 or 535. Lecture, discussion. Prerequisite: KIN 340 or 530 or instructor approval.

M KIN 448 Applied Sport Psychology. (3)
selected semesters
Psychological theories and techniques applied to a sport to enhance the performance and personal growth of athletes and coaches. Lecture, discussion. Prerequisite: KIN 352 (or its equivalent).
General Studies: L

M KIN 450 Biopsychosocial Perspectives on Physical Activity and Health. (3)
selected semesters
Uses a biopsychosocial perspective to examine the interrelationships on physical activity and health (physical and mental). Prerequisite: KIN 352.

M KIN 452 Exercise Psychology. (3)
selected semesters
Contemporary research and theory as related to human behavior and health in an exercise setting. Prerequisite: KIN 352.
General Studies: SB

M KIN 460 Theory of Strength Training. (3)
selected semesters
Research and theories on developing muscular strength; programs for developing muscular strength. Lecture, discussion. Prerequisites: KIN 335, 340.
General Studies: L

M KIN 484 Internship. (1–12)
selected semesters

M KIN 485 Advanced Techniques of Athletic Training. (3)
selected semesters
Advanced course in athletic training designed for students seeking NATA certification. Emphasizes therapeutic modalities and

rehabilitation procedures. Prerequisites: KIN 283, 370; CPR certification.

M KIN 492 Honors Directed Study: Research. (1–6)
selected semesters

M KIN 493 Honors Thesis. (1–6)
selected semesters

M KIN 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Administration of Athletics. (3)
- Environmental Exercise Physiology. (3)
- Interpretation of Exercise Performance. (3)
- Motivation in Exercise and Sport. (3)
- Muscle Physiology. (3)
- Physiological Bases for Exercise and Sport. (3)
- Research and Teaching in Physical Education. (3)
- Research Methods. (3)
- Sport and Social Issues. (3)
- Voluntary and Reflex Control of Movement. (3)

M KIN 498 Pro-Seminar. (1–7)
selected semesters
Topics may include the following:
- Kinesiology and the Future. (1)

M KIN 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Languages and Literatures

www.asu.edu/clas/dll
480/965-6281
LL 440

Robert Joe Cutter, Chair

Regents' Professors: Foster, Keller

Professors: Alexander, Baldini, Chambers, Croft, Cutter, Carlos Garcia-Fernández, Horwath, B. Lafford, Losse, M. Sanchez, Sipka, Sorensen, Volek, West, Wetsel, T. Wong

Associate Professors: Acereda, Candela, Canovas, Choi, Colina, Carmen Garcia-Fernández, Hernández-G., Orlich, Ossipov, Reiman, A. Sanchez, Suwarno, Tompkins, Urioste-Azcorra, Vitullo

Assistant Professors: Ali, Cashman, Cruse, Duncan, George, Gilfillan, Ginsburg, Gruzinska, Haberman, McElroy, Newhard, Owen, Siegel-Valdes

Senior Lecturers: Foard, Hendrickson

Lecturers: Deal, Devitt, Lage, Le, Mango, Martinez, Melucci, Oh, Pang, Petersen, Poudrier, Shimomura, Siriprakob, Stiftel, Walton-Ramirez, E. Wong, Zhang

Associate Research Professional: P. Lafford

Assistant Director Academic Services: Glessner-Calkins

Distinguished Scholars: Martinez Assad, Sefchovich

BACHELOR OF ARTS DEGREE

The faculty in the Department of Languages and Literatures offer majors in Asian Languages (Chinese/Japanese), French, German, Italian, Russian, and Spanish. Each major consists of 45 semester hours, of which 30 must be in one language and 15 in a second language or in closely related fields to be approved by the advisor in consultation with the student. Of the 30 hours required for the major, a minimum of 24 hours must be taken at the 300 or 400 level and must include at least nine hours at the 400 level. For French and Spanish, all courses counting for the major must be taken at the upper-division (300 and 400) level. Specific required courses for each major area are shown in this section and in a brochure available in the department. See "College Graduation Requirements," page 503. Consult the Languages and Literatures Web site at asu.edu/languages for assessment requirements.

MAJORS

Asian Languages (Chinese/Japanese)—BA

Students majoring in Asian Languages (Chinese/Japanese) may select a course of study that focuses on either language. The major requires 45 semester hours.

Chinese. At least nine semester hours must be at the 400 level. In addition to the courses shown below, the student must meet with an advisor and choose at least 15 semester hours of courses. Choices include six semester hours of JPN prefix courses such as Japanese language and calligraphy, Japanese Literature in Translation (FLA 421), KOR prefix courses such as Korean language and/or Korean culture, three semester hours of approved course work that provides an overview of Chinese history, or six semester hours from appropriate courses in art, humanities, social and behavioral sciences, and business.

JPN 494 Special Topics (1–4)
JPN 499 Individualized Instruction (1–3)

Total 9

In addition to these courses, the student must meet with an advisor and choose at least 15 semester hours of courses, including six semester hours of CHI prefix courses such as Chinese language and calligraphy, Chinese literature in translation (CHI 321 and 322 and FLA 420) or KOR prefix courses such as Korean language and/or Korean culture. At least three semester hours must be in an approved course that provides an overview of Japanese history. The remaining six hours may consist of appropriate courses in art, humanities, literature, public programs, social and behavioral sciences, business, etc.

French—BA

Required
FRE 311 French Conversation *G* 3
FRE 312 French Composition *G* 3
FRE 321 French Literature *L/HU, H* 3
FRE 322 French Literature *L/HU* 3

Total 12

Select 18 semester hours from the following list, including at least 12 semester hours from the 400 level:

FRE 315 French Phonetics 3
FRE 319 Business French *G* 3
FRE 325 Introduction to French Film 3
FRE 394 Special Topics 1–3
FRE 411 Advanced Spoken French *G* 3
FRE 412 Advanced Written French *G* 3
FRE 415 French Civilization I *HU* 3
FRE 416 French Civilization II *HU, G* 3
FRE 421 Structure of French 3
FRE 422 Applied French Linguistics 3
FRE 423 French Syntax 3
FRE 432 Gay Identities in Modern French Literature 3
FRE 441 French Literature of the 17th Century *HU* 3
FRE 442 French Literature of the 17th Century *HU, H* 3
FRE 445 French Literature of the 18th Century *L/HU* 3
FRE 451 French Poetry of the 19th Century 3
FRE 452 French Novel of the 19th Century *HU* 3
FRE 453 Theater of the 19th Century *L/HU* 3
FRE 461 Modern Narrative *HU* 3
FRE 462 Modern Poetry *HU* 3
FRE 471 The Literature of Francophone Africa and the Caribbean *L/HU* 3
FRE 472 Franco-Canadian Civilization 3
FRE 480 Translation Theory and Practice 3
FRE 485 Literary Translation 3
FRE 494 Special Topics 1–4
FRE 499 Individualized Instruction 1–3

In addition to the courses, the student must meet with an advisor and choose at least 15 semester hours of related courses from appropriate social and behavioral sciences, humanities, business courses, and other language courses.

German—BA

Required
Two 200-level GER courses 6
GER 311 German Conversation *G* 3
or GER 312 German Conversation *G* (3)
GER 313 German Composition *G* 3
GER 411 Advanced Grammar and Conversation *G* 3
GER 412 Advanced Grammar and Composition *G* 3
GER 421 German Literature *HU* 3
GER 422 German Literature *L/HU* 3
Choose six semester hours from the courses below 6
GER 319 Business Correspondence and Communication *G* (3)
GER 394 Special Topics (1–4)
GER 415 German Civilization *HU, G, H* (3)
GER 416 German Civilization *HU, G, H* (3)
GER 494 Special Topics (1–4)

Total 30

In addition to these courses, the student must meet with an advisor and choose at least 15 semester hours of related courses from appropriate social and behavioral sciences, humanities, business courses, and other language courses.

Italian—BA

Required
Two 200-level ITA courses 6
ITA 311 Italian Composition and Conversation *G* 3
ITA 312 Italian Composition and Conversation *G* 3
ITA 325 Introduction to Italian Literature *HU* 3

Total 15

Note: ITA 315 Italian for Business may be substituted for either ITA 311 or 312.

Fifteen semester hours are required from the following list, including at least nine semester hours from the 400 level:

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

ITA 314 Advanced Italian *G* 3
ITA 315 Italian for Business 3
ITA 394 Special Topics 1–4
ITA 415 Italian Civilization *HU, G* 3
ITA 420 Italian Cinema 3
ITA 425 Italian American Culture *L* 3
ITA 430 Italian Literature of the Middle Ages *HU* 3
ITA 441 Dante: *Divina Commedia L/HU* 3
ITA 443 Italian Literature of the Renaissance *HU, H* 3
ITA 446 Italian Literature of the 18th and 19th Centuries *HU* 3
ITA 449 20th-Century Italian Literature *HU, G* 3
ITA 494 Special Topics 1–4
ITA 499 Individualized Instruction 1–3

In addition to the courses shown above, the student must meet with an advisor and choose at least 15 semester hours of related courses from appropriate social and behavioral sciences, humanities, business courses, and other language courses.

Russian—BA

Required

RUS 211 Basic Russian Conversation *G* 3
RUS 212 Basic Russian Conversation *G* 3
RUS 311 Russian Composition and Conversation *G* 3
RUS 312 Russian Composition and Conversation *G* 3
RUS 411 Advanced Composition and Conversation I *G* 3
or RUS 412 Advanced Composition and Conversation II *G* (3)
RUS 498 PS: Senior Seminar* 3
or SLV 498 PS: Senior Seminar (3)
SLV 304 Computational Linguistics of Slavic Languages *CS* 3
Total 21

* RUS 493 may be taken instead.

Note: Heritage speakers and other advanced speakers of Russian are, with permission from the Slavic language section head, admitted into a separate track for completion of the major. That track entails completion of 12 of the above semester hours (six semester hours of RUS 495, RUS 498 [or SLV 498], and SLV 304), to be accompanied by 18 additional semester hours from the list below (excluding RUS 411, 412, and 417). At least 12 of the additional 18 semester hours must be at the 400 level.

Nine semester hours are required from the following list, including at least six semester hours from the 400 level:

RUS 321 Foundations of Russian Literature *HU, H* 3
RUS 322 Great Russian Writers of the 19th Century *L/HU* 3
RUS 323 Modern Russian Literature and the Soviet Legacy *L/HU, G* 3
RUS 411 Advanced Composition and Conversation I *G* 3
RUS 412 Advanced Composition and Conversation II *G* 3
RUS 417 Applied Russian Phonetics 2
RUS 420 Russian Poetry *L/HU* 3
RUS 421 Pushkin *L/HU* 3
RUS 423 Dostoyevsky *L/HU* 3
RUS 424 Tolstoy *L/HU* 3
RUS 425 Chekhov *L/HU* 3
RUS 430 Russian Short Story *L/HU* 3
RUS 441 Survey of Russian Culture *L/HU, G, H* 3
RUS 495 Russian for Heritage Speakers 3
SLV 426 Contemporary East European and Eurasian Literatures *L/HU, G* 3
SLV 440 History of Slavic Languages *SB* 3

In addition to the 30 semester hours of course work required for the major, students majoring in Russian must take 15 additional semester hours from a list of approved courses in related fields, at least six semester hours of which must be taken at the upper-division level. Related fields courses should be chosen in consultation with an advisor. Russian majors are encouraged to take related Slavic/East European language courses in the annual summer Critical Languages Institute (CLI). CLI courses may be applied toward the related field requirements.

Spanish—BA

Required

SPA 313 Spanish Conversation and Composition *G* 3
or SPA 315 Spanish Conversation and Composition for Bilinguals (3)
SPA 314 Spanish Conversation and Composition *G* 3
or SPA 316 Spanish Conversation and Composition for Bilinguals (3)
SPA 325 Introduction to Hispanic Literature *HU* 3
SPA 412 Advanced Conversation and Composition *G* 3
SPA 425 Spanish Literature *HU* 3
Choose two courses below 6
SPA 426 Spanish Literature *HU* (3)
SPA 427 Spanish American Literature *L* (3)
SPA 428 Spanish American Literature *L, G* (3)
Choose one course below 3
SPA 471 Civilization of the Spanish Southwest *HU* (3)
SPA 472 Spanish American Civilization *HU, G, H* (3)
SPA 473 Spanish Civilization *HU/SB, G* (3)
Total 24

Electives

Two upper-division (300–400-level) SPA courses 6

Related Fields

POR 101 Elementary Portuguese 5
POR 201 Intermediate Portuguese *G* 5

In addition to these courses, the student must meet with an advisor and choose at least six semester hours of courses from appropriate social and behavioral sciences, humanities, business, and other romance language courses.

SPA 311 and 312 are not counted toward the major or minor in Spanish.

MINORS

Each minor in Asian Languages (Chinese/Japanese), German, Italian, and Russian consists of 18 semester hours, of which 12 semester hours must be in the upper division. The Spanish and French minors require 18 upper-division semester hours. In addition, specific required courses for each area follow and are in a brochure in the department. Course substitutions are allowed for heritage and advanced speakers of the language.

Chinese

Required

Two CHI 200-level courses 6
CHI 313 Third-Year Chinese I *G* 3
CHI 314 Third-Year Chinese II *G* 3

Consult with the departmental advisor for an additional six hours of Chinese course credit.

French

Required

FRE 311 French Conversation *G* 3
FRE 312 French Composition *G* 3
FRE 321 French Literature *L*/*HU*, *H* 3
or FRE 322 French Literature *L*/*HU* (3)

Nine hours of upper-division French courses with at least three hours from the 400 level are also required.

German

Required

Two GER 200-level courses 6
GER 311 German Conversation *G* 3
or GER 312 German Conversation *G* (3)
GER 313 German Composition *G* 3
One 400-level GER course 3
Upper-division GER course 3

Italian

Required

ITA 201 Intermediate Italian *G* 3
ITA 202 Intermediate Italian *G* 3
ITA 311 Italian Composition and Conversation *G* 3
or ITA 312 Italian Composition and Conversation *G* (3)
or ITA 315 Italian for Business (3)
ITA 325 Introduction to Italian Literature *HU* 3
One 300 or 400-level ITA course 3
One 400-level ITA course 3

Japanese

Required

Two 200-level JPN courses 6
JPN 313 Third-Year Japanese I *G* 3
JPN 314 Third-Year Japanese II *G* 3

Consult with the departmental advisor for an additional six semester hours of JPN courses.

Russian

Required

RUS 211 Basic Russian Conversation *G* 3
RUS 212 Basic Russian Conversation *G* 3
RUS 311 Russian Composition and Conversation *G* 3
RUS 312 Russian Composition and Conversation *G* 3

Six semester hours of upper-division RUS courses are also required.

Spanish

The minor in Spanish requires a minimum of 18 upper-division semester hours.

Required

SPA 313 Spanish Conversation and Composition *G* 3
or SPA 315 Spanish Conversation and Composition for Bilinguals (3)
SPA 314 Spanish Conversation and Composition *G* 3
or SPA 316 Spanish Conversation and Composition for Bilinguals (3)
SPA 325 Introduction to Hispanic Literature *HU* 3
SPA 412 Advanced Conversation and Composition *G* 3
SPA 471 Civilization of the Spanish Southwest *HU* 3
or SPA 472 Spanish American Civilization *HU*, *G*, *H* (3)
or SPA 473 Spanish Civilization *HU*/*SB*, *G* (3)
One elective course (SPA 319 or above) 3

SPA 311 and 312 are not counted toward the major or minor in Spanish.

CERTIFICATES AND EMPHASES

The following are certificate programs or emphases offered in the Department of Languages and Literatures. For more information, see "Certificate Programs and Areas of Emphasis," page 509.

Asian Studies Certificate. Foreign language students majoring in Asian Languages (Chinese/Japanese) may elect to pursue an Asian Studies Certificate combining courses from the major with selected outside courses of predominantly Asian content.

Classical Studies. Any undergraduate major can earn a certificate in classical studies.

Latin American Studies Certificate. Foreign language students majoring in Spanish may elect to pursue a Latin American Studies Certificate combining courses from the major with selected outside courses of wholly Latin American content.

Russian and East European Studies Certificate. Any undergraduate major can earn a Russian and East European Studies Certificate by successfully completing one of the options mentioned in the section on "Russian and East European Studies," page 513.

Scandinavian Studies Certificate. Any undergraduate major can earn a Scandinavian Studies Certificate.

Southeast Asian Studies Certificate. To earn a Southeast Asian Studies Certificate, a student must complete a minimum of 40 semester hours of course work related to Southeast Asia, including two years (20 semester hours) of a Southeast Asian language.

Translation Certificate (Spanish/English). The Translation Certificate program is designed to provide the advanced training required for professional translation in both public and private sectors, preparation for the rigorous examinations required by national and international agencies, and training as an ancillary skill for professional fields, such as international business, public health and medicine, and law, in accordance with guidelines recommended by the American Translators' Association. The certificate is a nondegree program consisting of 15 semester hours of course work and two hours of in-service practicum primarily into the receptor language of English from the source language of Spanish. It may be taken simultaneously with course work leading to an undergraduate degree, as a related area sequence, or as the sole program of study for members of the community who meet the admission requirements of the certificate program and are enrolled in the university. A complete brochure is available at the Department of Languages and Literatures in LL 440.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Admission Requirements. Since entrance to professional translation is through work, cultural experience, and examination, the entrance requirements to this certificate program are (1) a written proficiency examination in the source and the receptor languages at the level of completion of an advanced composition course in Spanish (SPA 412) and English (ENG 301), and (2) an academic year at a university in both a Spanish-speaking country and an English-speaking country, extensive work experience using Spanish and English, or demonstrated bilingual writing competence in English and Spanish.

Certificate Requirements. The certificate program consists of the following requirements:

Prerequisites

FLA 400 Linguistics *SB* 3
or SPA 400 Introduction to Spanish Linguistics (3) or equivalent

Required

FLA 401 Translation Theory and Practice 3
SPA 412 Advanced Conversation and Composition *G* 3

In-Service Practicum

FLA 484 Internship 2

Also required are nine hours of applied translation electives in specialized areas chosen from the following courses:

FLA 481 Technical and Scientific Translation 3
FLA 482 Business and Financial Translation.....3
FLA 483 Medical and Legal Translation.....3
FLA 485 Problems of Literary Translation 3

BIS CONCENTRATIONS

Students seeking to focus on a language as one of their concentration areas for the Bachelor of Interdisciplinary Studies degree may choose from Chinese, French, German, Italian, Japanese, Russian, Spanish, and translation (Spanish/English). They may also choose from any of the approved certificate programs. The requirements for the Bachelor of Interdisciplinary Studies (BIS) concentrations are the same as for the minor in that language. See "Minors," page 582, for specific course requirements. For more information, see "School of Interdisciplinary Studies," page 139.

SECONDARY EDUCATION—BAE

This degree is offered through the Initial Teacher Certification (ITC) program in the College of Education. Students pursuing a major in Secondary Education (French, German, Japanese or Spanish) have an advisor in the College of Education and an advisor within the Department of Languages and Literatures.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching.

In addition to the College of Education requirements, students must also meet the following before applying to the ITC program:

1. attain a GPA of 3.00 or higher in required specialization courses;
2. submit two one-page writing samples (one in English, one in the target language);
3. interview with the language liaison in the target language; and
4. complete courses in French, German, Japanese, or Spanish target area as listed below.

French. FRE 311, FRE 312, and an additional upper-division FRE course; or for native speakers a minimum of six hours appropriate upper-division French course work.

German. GER 201, GER 202, and one additional upper-division GER course; or for native speakers a minimum of six hours appropriate upper-division German course work.

Japanese. JPN 201, 202, and JPN 313; or for native speakers a minimum of six hours appropriate upper-division Japanese course work (JPN 321, JPN 400-level courses).

Spanish. SPA 313 and 314 or SPA 315 and 316; or for native speakers a minimum of six hours appropriate upper-division Spanish course work (SPA 325, SPA 412, or other SPA 400-level courses).

For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

French, German, Japanese, and Spanish. Each of the major teaching fields in French, German, Japanese, and Spanish consists of 45 semester hours, of which 30 must be in one language and 15 in a second language or in closely related fields to be approved by the department advisor in consultation with the student. Of the 30 hours required for the academic specialization, a minimum of 24 hours must be taken at the 300 or 400 level and must include at least nine hours at the 400 level. Specific required courses for each major area are listed in curriculum check sheets of the individual language areas available in the department or in the College of Education. FLA 479 Introduction to Teaching Foreign Languages and FLA 480 Methods of Teaching Foreign Languages are required courses.

GRADUATE PROGRAMS

The faculty in the Department of Languages and Literatures offer programs leading to the MA degree in French, German, and Spanish and the PhD degree in Spanish. See the *Graduate Catalog* for requirements.

FOREIGN LANGUAGE REQUIREMENT

All BA degrees in the College of Liberal Arts and Sciences require knowledge of one foreign language equivalent to the completion of two years of study at the college level. This normally includes a sequence of courses numbered 101 and 102 and 201 and 202 *or* 107 and 207. However, important exceptions exist in Greek, Latin, Portuguese, and Romanian.

Greek. To satisfy the foreign language requirement, students must take GRK 301 and 302.

Latin. Students must take LAT 201 before entering LAT 202 or must have completed at least three years of high school Latin before entering LAT 202 to satisfy the College of Liberal Arts and Sciences foreign language requirement.

Portuguese. To satisfy the foreign language requirement, students must take POR 314 or a higher numbered POR course.

Romanian. To satisfy the foreign language requirement, students must complete ROM 314.

FOREIGN LANGUAGE PLACEMENT

Students who transfer from other postsecondary institutions with foreign language credits below the 202 level are placed in a course at the level directly above the work completed.

Students who have completed their secondary education at a school in which the language of instruction was not English are considered to have satisfied the foreign language requirement. Certification of this status is made at the time of admission to ASU. Questions should be addressed to the International Admissions program within Undergraduate Admissions. For more information, call 480/965-2688, or visit the Web site at www.asu.edu/admissions.

The foreign language requirement can be met in languages not taught at ASU either by transferring credit from another institution or by passing a proficiency examination. When possible, the Department of Languages and Literatures recommends to the college an appropriate source for such examinations and proctors them. Grading is done by the institution that provides the examination, and the student pays any costs incurred. The examination can be used only to demonstrate proficiency; it does not produce semester hours of credit.

Students desiring placement above the 101-level course in French, German, or Spanish should take the placement exam for that language in the Computer Language Laboratory in LL 65, or online at www.asu.edu/languages.

Students who wish to continue studying languages for which high school credits have been earned are also encouraged to take the placement exam. Students should be guided by the following principles of equivalency: (1) one unit (one academic year) of high school-level study is considered, for placement purposes only, to equal one semester of study of the same language at the university level. Thus, students with one year of high school study would enroll in the second semester course (102); students with two years of high school study, in the third semester course (201), and so on. (2) Students who feel that their high school language preparation was inadequate may choose to place themselves in a lower level, but not lower than 111 with two or three years of high school study and 201 with four years of high school study.

Students with prior knowledge of a language may meet the college foreign language requirement in any one of the following ways:

1. by satisfactory results in a nonrepeatable college-approved proficiency examination;
2. by achieving a grade of at least "C" (2.00) in the last course of the required sequence; or
3. by achieving a grade of at least "C" (2.00) in a course taught in the language for which the last course of the required sequence is a prerequisite.

Students are expected to follow the progressive sequence of 100, 200, 300, or 400 level. Once a grade of "C" (2.00) or higher is earned in a 300-level class in a language, students may not earn lower-division credit in that language. Moreover, once a grade of "C" (2.00) or higher is earned in a 200-level language course, students may not earn credit in any 100-level course in that language.

First-year foreign language courses taught by the Department of Languages and Literatures are not open to students who have spent one or more years in a country where that language is the predominant language. Individual language areas may have different policies. Students with questions about this policy should check with the appropriate language coordinator in the department.

If transfer students are uncertain about course equivalencies, they should contact the Department of Languages and Literatures.

LANGUAGE LABORATORY REQUIREMENT

All students enrolled in 101, 102, 201, and 202 language courses are expected to spend a minimum of one hour per week in the language laboratory or in other assigned audio-lingual tape exercises in addition to the regular class periods.

FOREIGN LANGUAGES (FLA)

M FLA Note 1. Completion of the First-Year Composition requirement (ENG 101 and 102 [or 105] or ENG 107 and 108 with a grade of "C" [2.00] or higher) is a prerequisite for all English courses above the 100 level.

M FLA Note 2. A term paper or equivalent out-of-class written work is required in all upper-division (300- and 400-level) ENG courses.

M FLA Note 3. English majors and minors are expected to have completed ENG 200 before taking 400-level literature courses.

M FLA 150 Introduction to East Asian Culture. (3)
spring
Introduces the cultures of China, Japan, and Korea.
General Studies: HU, G

M FLA 323 Survey of Literature of the Soviet Era in Translation. (3)
fall and spring
Surveys main literary movements, prominent authors, most significant works of prose, poetry, and drama of the Soviet period, 1917–1991.
General Studies: L/HU, G

M FLA 385 Career Development for Language Majors. (3)
selected semesters
Theoretical and practical aspects of career planning and development; research focus on language-related careers. Lecture, discussion, Internet-based workshop. Prerequisites: either ENG 101 and 102 or ENG 107 and 108.

M FLA 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Introduction to Teaching Foreign Languages

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M FLA 400 Linguistics. (3)
spring
Introduces the analysis of language and its use in social contexts. Topics: morphology, phonology, pragmatics, semantics, syntax, and variation. Prerequisites: junior standing; instructor approval.
General Studies: SB

M FLA 401 Translation Theory and Practice. (3)
selected semesters
Translation theories and professional practices and ethics; bibliography, computer technology, and sample texts for natural and social sciences and humanities. Prerequisite: 4th-year composition or instructor approval in respective language area.

M FLA 415 Bilingualism and Languages in Contact. (3)
fall
Analyzes linguistic aspects of bilingualism, e.g., pidgins and creoles, code-switching, and other contact phenomena; simultaneous/sequential bilingual language acquisition. Prerequisite: FLA 400 (or its equivalent) or instructor approval.

M FLA 420 Foreign Literature in Translation. (3)
fall and spring
Not for language majors (except in Asian languages and Russian); open to language majors as a related-area course. Graduate students by permission. Topics may include the following:
- Brazilian
- Chinese
- French
- German
- Greek
- Italian
- Latin
- Portuguese
- Russian
- Soviet
- Spanish
- Spanish American

General Studies: HU, G

M FLA 421 Japanese Literature in Translation. (3)
fall and spring
Readings selected by theme or genre or period from various works of Japanese literature in English translation. May be repeated when topics vary. Graduate students by permission. Prerequisite: a General Studies L course.
General Studies: L/HU, G

M FLA 461 Feminist Political Writing in Contemporary Europe. (3)
selected semesters
Examines the discourse of gender-politics in Central Eastern Europe before and after Soviet hegemony. Cross-listed as ENG 429. Credit is allowed for only ENG 429 or FLA 461. See FLA Notes 1, 2, 3.

M FLA 464 Politics of Drama in 20th-Century Europe. (3)
selected semesters
Interdisciplinary examination of European drama before and after WWII. Cross-listed as ENG 429. Credit is allowed for only ENG 429 or FLA 464. See FLA Notes 1, 2, 3.

M FLA 472 Literature and Politics in Pre- and Post-Communist Europe. (3)
selected semesters
Interdisciplinary examination of the cultures of Eastern Europe from WWI to the present. Cross-listed as ENG 429. Credit is allowed for only ENG 429 or FLA 472. See FLA Notes 1, 2, 3.

M FLA 476 Literature and Film in 20th-Century Eastern Europe. (3)
selected semesters
Evaluates literary texts and films as a massive propaganda machine of the totalitarian state. Cross-listed as ENG 429. Credit is allowed for only ENG 429 or FLA 476. See FLA Notes 1, 2, 3.

M FLA 479 Introduction to Teaching Foreign Languages. (3)
fall
Introduces teaching methodologies, language learning, and current best practice in teaching foreign languages in U.S. middle and high schools. Lecture, discussion, reading, micro-teaching practice. Prerequisite: admission to ITC program in College of Education or instructor approval.

M FLA 480 Methods of Teaching Foreign Languages. (3)
fall
Teaching foreign languages and literatures at secondary and college levels. Does not meet the Liberal Arts and Sciences General Studies requirement for humanities and fine arts. Required for admission to SED 478. Prerequisite: 12 hours of upper-division courses in 1 foreign language.

M FLA 481 Technical and Scientific Translation. (3)
selected semesters
Resources, practices, strategies, and lexicon for translation of professional texts in subjects such as engineering, architecture, agriculture, computer technology, electronics, and physical and biological sciences. Prerequisite: FLA 401.

M FLA 482 Business and Financial Translation. (3)
selected semesters
Resources, practices, strategies, and lexicon for translation of professional texts in subjects such as economics, finance, insurance, management, marketing, accounting, advertising, and real estate. Prerequisite: FLA 401.

M FLA 483 Medical and Legal Translation. (3)
selected semesters
Resources and strategies for translation of professional texts in subjects such as medicine, nursing, public health, criminal justice, and international law. May be repeated for a total of 6 semester hours. Prerequisite: FLA 401.

M FLA 484 Internship. (1–12)
selected semesters

M FLA 485 Problems of Literary Translation. (3)
selected semesters
Theory and practice with emphasis on application through individual translation projects. May be repeated for a total of 6 semester hours. Prerequisite: FLA 401 or instructor approval in the respective language area.

M FLA 494 Special Topics. (1–4)
selected semesters
Various topics.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

ARABIC (ARB)

M ARB 101 Elementary Arabic. (4)
fall and summer
Reading, writing, speaking, and understanding basic Arabic. 4 hours lecture, 1 hour lab. Fee.

M ARB 102 Elementary Arabic. (4)
spring and summer
Reading, writing, speaking, and understanding basic Arabic. 4 hours lecture, 1 hour lab. Fee. Prerequisite: ARB 101 (or its equivalent).

M ARB 201 Intermediate Arabic. (4)
fall
Review of Arabic grammar with emphasis on the development of the skills of listening comprehension, reading, speaking, and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: ARB 102 (or its equivalent).
General Studies: G

M ARB 202 Intermediate Arabic. (4)
spring
Review of Arabic grammar with emphasis on the development of the skills of listening comprehension, reading, speaking, and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: ARB 201 (or its equivalent).
General Studies: G

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

SERBO-CROATIAN (BCS)

M BCS 101 Elementary Serbo-Croatian. (4)
fall and summer
Structural grammar, basic vocabulary; introduction and reinforcement of aural/oral, reading, and writing skills. 4 hours lecture, 1 hour lab. Lecture, lab, group activities.

M BCS 102 Elementary Serbo-Croatian. (4)
spring and summer
See BCS 101. Lecture, lab, group activities. Prerequisite: BCS 101 (or its equivalent).

M BCS 201 Intermediate Serbo-Croatian. (4)
fall and summer
Systematic review of grammar. Development of vocabulary through reading and writing. Drill in aural/oral skills. 4 hours lecture, 1 hour lab. Lecture, lab, group activities. Prerequisite: BCS 102 (or its equivalent).

M BCS 202 Intermediate Serbo-Croatian. (4)
spring and summer
See BCS 201. Lecture, lab, group activities. Prerequisite: BCS 201 (or its equivalent).

M BCS 298 Serbo-Croatian Practicum. (2)
summer
On-site summer practicum in Yugoslavia following intensive summer Serbo-Croatian language study in the ASU Critical Languages Institute. Lecture, lab, group activities. Prerequisite: BCS 102 (or its equivalent).

M BCS 495 Serbo-Croatian for Heritage Speakers. (1–6)
selected semesters
Generates professional proficiency by developing communicative and written competency in standard literary Serbo-Croatian. Lecture, lab, tutorial. Prerequisite: instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

CHINESE (CHI)

M CHI 101 First-Year Chinese I. (5)
fall and spring
Pronunciation, grammar, elementary conversation, and development of basic reading and writing skills. Standard dialect. 5 class hours. Fee.

M CHI 102 First-Year Chinese II. (5)
fall and spring
See CHI 101. Fee. Prerequisite: CHI 101 (or its equivalent).

M CHI 201 Second-Year Chinese I. (5)
fall and spring
Systematic review of grammar. Development of vocabulary through reading and writing. Drill in aural/oral skills. 5 class hours. Fee. Prerequisite: CHI 102 (or its equivalent).
General Studies: G

M CHI 202 Second-Year Chinese II. (5)
spring
See CHI 201. Fee. Prerequisite: CHI 201 (or its equivalent).
General Studies: G

M CHI 205 Chinese Calligraphy. (1)
fall and spring
Introduces styles and techniques of Chinese writing. Requires no knowledge of Chinese or Japanese.

M CHI 309 Chinese Conversation. (2)
fall
Aural/oral drills using contemporary stories, articles, and essays. For students with lower-level proficiency. Prerequisite: CHI 202.

M CHI 310 Chinese Conversation. (2)
spring
See CHI 309. Prerequisite: CHI 202.

M CHI 311 Chinese Conversation. (2)
fall
Intensive aural/oral practice in modern Chinese. For students who have lived in China or a Chinese-speaking environment. Discussion, drill. Prerequisite: CHI 202.

M CHI 312 Chinese Conversation. (2)
spring
See CHI 311. Discussion, drill. Prerequisite: CHI 202.

M CHI 313 Third-Year Chinese I. (3)
fall
Expansion of proficiency in listening comprehension, speaking, reading, and writing. Lecture, 3 hours discussion, drill. Prerequisite: CHI 202 (or its equivalent).
General Studies: G

M CHI 314 Third-Year Chinese II. (3)
spring
Continuation of CHI 313. Prerequisite: CHI 313 (or its equivalent).
General Studies: G

M CHI 321 Chinese Literature. (3)
fall
Masterworks of the tradition from the 6th century BCE through the 13th century. Readings, lectures, and examinations are in English.
General Studies: HU

M CHI 322 Chinese Literature. (3)
spring
Masterpieces from the later tradition and its transition to modern times. Readings, lectures, and examinations are in English.
General Studies: HU, G

M CHI 345 Chinese Film and Civilization. (3)
once a year
Screening and discussion of recent films from China, Taiwan, and Hong Kong in the context of modern Chinese civilization. Lecture, discussion, screening.

M CHI 413 Introduction to Classical Chinese. (3)
fall
Reading in various genres of pre-20th century literature (wen-yen), with analysis of the structure of the classical writings. Prerequisite: CHI 314 or instructor approval.
General Studies: HU

M CHI 414 Introduction to Classical Chinese. (3)
spring
Continuation of CHI 413. Prerequisite: CHI 413.
General Studies: HU

M CHI 494 Special Topics. (1–4)
selected semesters

M CHI 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

FRENCH (FRE)

M FRE 101 Elementary French. (4)
fall, spring, summer
Intensive aural/oral drill in class and laboratory; basic grammar supplemented by simple prose readings. Credit is allowed for only FRE 101 or 111. 4 hours lecture, 1 hour lab. Fee.

M FRE 102 Elementary French. (4)
fall, spring, summer
See FRE 101. Credit is allowed for only FRE 102 or 111. Fee. Prerequisite: FRE 101 (or its equivalent).

M FRE 107 French for International Professions. (8)
fall
Accelerated alternative to FRE 101 and 102 or FRE 111. Functional approach. Emphasizes communicative competence for international professions. Credit is allowed for only FRE 107 or 111. Fee.

M FRE 111 Fundamentals of French. (4)
fall and spring
Primarily for students with two years of high school French who need review to enter second year study. Credit is allowed for only FRE 111 or 101 or 102 or 107. 4 hours lecture, 1 hour lab. Fee.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M FRE 201 Intermediate French I. (4)
fall, spring, summer
Grammar review, with emphasis on development of skills of speaking, reading, writing, and listening comprehension. 4 hours lecture; 1 hour lab. Fee. Prerequisite: FRE 102 or 111 (or its equivalent).
General Studies: G

M FRE 202 Intermediate French II. (4)
fall, spring, summer
Continuation of grammar review with emphasis on development of skills in speaking, reading, writing, and listening comprehension. 4 hours lecture, 1 hour lab. Fee. Prerequisite: FRE 201 (or its equivalent).
General Studies: G

M FRE 205 Readings in French Literature. (3)
fall, spring, summer
Designed to teach reading with facility and comprehension. Vocabulary building and textual analysis of literary genres are major elements. Prerequisite: FRE 202 (or its equivalent).
General Studies: G

M FRE 207 French for Business. (4)
spring
Alternative to FRE 202. Functional approach. Emphasizes communicative competence for international professions. Not open to students with credit in FRE 202. Fee. Prerequisite: FRE 107 or instructor approval.
General Studies: G

M FRE 311 French Conversation. (3)
fall and spring
Further practice in speaking French, emphasizing current usage and promoting facility in the expression of ideas. Prerequisite: 8 hours of 200-level French (or its equivalent).
General Studies: G

M FRE 312 French Composition. (3)
fall and spring
Further practice in writing French, emphasizing current usage and promoting facility in the expression of ideas. Prerequisite: 8 hours of 200-level French (or its equivalent).
General Studies: G

M FRE 315 French Phonetics. (3)
fall
Practice and theory of French pronunciation. Emphasizes standard French, although an overview of regional varieties is offered. Lecture, lab. Prerequisite: FRE 311 (or its equivalent).

M FRE 319 Business French. (3)
spring
Introduces the structure, vocabulary, and practices of the French business world. Prerequisite: FRE 312 or instructor approval.
General Studies: G

M FRE 321 French Literature. (3)
fall and spring
Representative masterpieces and significant movements of French literature of the Middle Ages through the 18th century. Prerequisites: FRE 205, 312 (or their equivalents).
General Studies: L/HU, H

M FRE 322 French Literature. (3)
fall and spring
Literature of the 19th and 20th centuries. Prerequisites: FRE 205, 312 (or their equivalents).
General Studies: L/HU

M FRE 325 Introduction to French Film. (3)
spring
Studies French artistic contribution from 1895 to present, with emphasis on recent films starting with the New Wave. Short lecture before film, discussion after. Prerequisite for French majors: FRE 202.

M FRE 394 Special Topics. (1–4)
selected semesters

M FRE 411 Advanced Spoken French. (3)
fall and spring
Improvement of spoken French. Prerequisites: FRE 311 and 6 hours of 300-level French (or their equivalents).
General Studies: G

M FRE 412 Advanced Written French. (3)
fall and spring
Improvement of composition skills. Prerequisites: FRE 312 and 6 hours of 300-level French (or their equivalents).
General Studies: G

M FRE 415 French Civilization I. (3)
spring
Political, intellectual, social, economic, and artistic development of France from its origins to the end of the 17th century. Prerequisite: 6 hours of upper-division French.
General Studies: HU

M FRE 416 French Civilization II. (3)
spring
Political, intellectual, social, economic, and artistic development of France from the 18th century to present. Prerequisite: 6 hours of upper-division French.
General Studies: HU, G

M FRE 421 Structure of French. (3)
fall
Phonology, morphology, syntax, semantics, and varieties of French. Prerequisites: both FRE 311 and 312 or only instructor approval.

M FRE 422 Applied French Linguistics. (3)
spring
Applies linguistic theory and second language acquisition theory to teaching of French. Prerequisite: ASB 480 or ENG 213 or FLA 400.

M FRE 423 French Syntax. (3)
spring
Analyzes French syntactic structure by contemporary theoretical models. Prerequisite: ASB 480 or ENG 213 or FLA 400.

M FRE 432 Gay Identities in Modern French Literature. (3)
spring
Examines the representation of homosexuals as well as the emergence of homosexuality as a theme in modern French literature. Lecture, discussion. Prerequisites: both FRE 322 and 6 hours of 300-level French or only instructor approval.

M FRE 441 French Literature of the 17th Century. (3)
fall
From 1600 to 1660. Prerequisites: both FRE 321 and 6 hours of 300-level French or only instructor approval.
General Studies: HU

M FRE 442 French Literature of the 17th Century. (3)
spring
From 1660 to 1700. Prerequisites: both FRE 321 and 6 hours of 300-level French or only instructor approval.
General Studies: HU, H

M FRE 445 French Literature of the 18th Century. (3)
selected semesters
Contributions of the philosophers and the development of the novel and drama. Prerequisites: both FRE 321 and 6 hours of 300-level French or only instructor approval.
General Studies: L/HU

M FRE 451 French Poetry of the 19th Century. (3)
spring
From Romanticism to Parnassian poetry to Symbolism. Prerequisites: both FRE 322 and 6 hours of 300-level French or only instructor approval.

M FRE 452 French Novel of the 19th Century. (3)
fall
From Constant, Hugo, Balzac, Stendhal, and Sand to Flaubert and Zola, with emphasis on major literary movements. Prerequisites: both FRE 322 and 6 hours of 300-level French or only instructor approval.
General Studies: HU

M FRE 453 Theater of the 19th Century. (3)
spring
From Romantic drama to the Symbolist Theater. Representative plays of Hugo, Musset, Vigny, Dumas, Becque, Rostand, Feydeau, and Mirbeau. Prerequisites: both FRE 322 and 6 hours of 300-level French or only instructor approval.
General Studies: L/HU

M FRE 461 Modern Narrative. (3)
fall
Representative authors from Gide to the new Nouveau Roman. Prerequisites: both FRE 322 and 6 hours of 300-level French or only instructor approval.
General Studies: HU

M FRE 462 Modern Poetry. (3)
spring
Representative authors from Mallarme to Bonnefoy. Lecture, discussion. Prerequisites: both FRE 322 and 6 hours of 300-level French or only instructor approval.
General Studies: HU

M FRE 471 The Literature of Francophone Africa and the Caribbean. (3)
fall
Selected prose, poetry, and drama of black authors from Africa and the Caribbean. Prerequisites: both FRE 322 and 6 hours of 300-level French or only instructor approval.
General Studies: L/HU

M FRE 472 Franco-Canadian Civilization. (3)
spring
Study of the civilization of Quebec in particular through its history, language, literature, music, and customs. Prerequisite: 9 hours of 300-level French or instructor approval.

M FRE 480 Translation Theory and Practice. (3)
spring
Theoretical and practical approaches to the fundamentals of meaning-based translation. Lecture, seminar. Prerequisite: FRE 412 or instructor approval.

M FRE 485 Literary Translation. (3)
spring
Theory and practice of literary translation with emphasis on application through individual translation project. Prerequisite: FRE 480.

M FRE 494 Special Topics. (1–4)
selected semesters

M FRE 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

GERMAN (GER)

M GER 101 Elementary German. (4)
fall, spring, summer
Reading, writing, speaking, and understanding of basic German, with emphasis on pronunciation and grammar. Credit is allowed for only GER 101 or 111. 4 hours lecture, 1 hour lab. Fee.

M GER 102 Elementary German. (4)
fall, spring, summer
See GER 101. Credit is allowed for only GER 102 or 111. Fee. Prerequisite: GER 101 (or its equivalent).

M GER 111 Fundamentals of German. (4)
fall and spring
Primarily for students with two years of high school German who need review to enter second-year study. Credit is allowed for only GER 111 or both GER 101 and 102. 4 hours lecture, 1 hour lab. Fee.

M GER 201 Intermediate German. (4)
fall, spring, summer
Intensive review of grammar, with emphasis on the development of the skills of speaking, listening comprehension, reading, and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: GER 102 or 111 (or its equivalent).
General Studies: G

M GER 202 Intermediate German. (4)
fall, spring, summer
See GER 201. Fee. Prerequisite: GER 201 (or its equivalent).
General Studies: G

M GER 311 German Conversation. (3)
fall
Expansion of idiom through oral practice dealing with contemporary articles, essays, and stories. 3 semester hours limit for majors. Prerequisite: GER 202 (or its equivalent).
General Studies: G

M GER 312 German Conversation. (3)
spring
See GER 311. Prerequisite: GER 202 (or its equivalent).
General Studies: G

M GER 313 German Composition. (3)
spring
Intensive practice in writing, emphasizing style and grammar. Prerequisite: GER 202 (or its equivalent).
General Studies: G

M GER 319 Business Correspondence and Communication. (3)
selected semesters
Organization and presentation of clear, effective business communications; vocabulary applicable to modern business usage. Prerequisite: GER 313 or instructor approval.
General Studies: G

M GER 394 Special Topics. (1–4)
selected semesters

M GER 411 Advanced Grammar and Conversation. (3)
fall
Improvement of diction and idiom through intensive oral review. Prerequisite: GER 311 or 312 (or its equivalent).
General Studies: G

M GER 412 Advanced Grammar and Composition. (3)
spring
Improvement of writing ability. Prerequisite: GER 313 (or its equivalent).
General Studies: G

M GER 415 German Civilization. (3)
spring
Aspects of political, social, and cultural life of the German-speaking world from the beginning through 1600. Prerequisite: a 300-level course in German or instructor approval.
General Studies: HU, G, H

M GER 416 German Civilization. (3)
fall
From 1600 through 1945. Prerequisite: a 300-level course in German or instructor approval.
General Studies: HU, G, H

M GER 421 German Literature. (3)
fall
From the beginning to Classicism. Prerequisite: 6 hours of 300-level German.
General Studies: HU

M GER 422 German Literature. (3)
spring
From Romanticism to the present. Prerequisite: 6 hours of 300-level German.
General Studies: L/HU

M GER 453 German Literary Masterpieces on Film. (3)
fall, spring, summer
Film and literature in their correlation to each other and to cultural, political, and social trends in German-speaking countries. Special arrangements for graduate students and those without a knowledge of German. Lecture, discussion.

ANCIENT GREEK (GRK)

M GRK 101 Elementary Ancient Greek. (4)
fall
Ancient Greek grammar and vocabulary with an emphasis on developing reading skills. For beginning students only.

M GRK 201 Intermediate Ancient Greek. (4)
spring
Continuation of GRK 101. Ancient Greek syntax and grammar. Prerequisite: GRK 101.

M GRK 301 Ancient Greek Literature I. (3)
fall
Readings in ancient Greek prose; advanced grammar. May be repeated for credit. Prerequisite: GRK 201.
General Studies: HU

M GRK 302 Ancient Greek Literature II. (3)
spring
Continuation of GRK 301. Readings in ancient Greek poetry. Prerequisite: GRK 301.
General Studies: HU

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

HEBREW (HEB)

M HEB 101 Elementary Modern Hebrew. (4)
fall
Reading, writing, speaking, and understanding of basic modern Hebrew, with emphasis on pronunciation and grammar. 4 hours lecture, 1 hour lab. Fee.

M HEB 102 Elementary Modern Hebrew. (4)
spring
Reading, writing, speaking, and understanding of basic modern Hebrew, with emphasis on pronunciation and grammar. 4 hours lecture, 1 hour lab. Fee. Prerequisite: HEB 101 (or its equivalent).

M HEB 201 Intermediate Modern Hebrew. (4)
fall
Intensive review of grammar, with emphasis on the development of the skills of speaking, listening comprehension, reading, and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: HEB 102 (or its equivalent).
General Studies: G

M HEB 202 Intermediate Modern Hebrew. (4)
spring
Intensive review of grammar, with emphasis on the development of the skills of speaking, listening comprehension, reading, and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: HEB 201 (or its equivalent).
General Studies: G

M HEB 313 Advanced Modern Hebrew. (4)
fall
Continued development of ability to communicate orally and in writing. Reading of selected literary works. Prerequisite: HEB 202 (or its equivalent).

M HEB 314 Advanced Modern Hebrew. (4)
spring
Continued development of ability to communicate orally and in writing. Reading of selected literary works. Prerequisite: HEB 313 (or its equivalent).

M HEB 375 Contemporary Culture of Israel. (3)
fall and spring
Intense study of aspects of historical, social, political, and cultural modern life in Israel. Beginning of Zionism to present day. Lecture, discussion.
General Studies: HU, G

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

INDONESIAN (IDN)

M IDN 101 Elementary Indonesian I. (5)
fall
Basic communication, reading, and writing skills. Intensive oral/aural classroom drill supplemented by prose reading. 4 hours lecture, 1 hour lab. Fee.

M IDN 102 Elementary Indonesian II. (5)
spring
Basic communication, reading, and writing skills. Intensive oral/aural classroom drill supplemented by prose reading. 4 hours lecture, 1 hour lab. Fee. Prerequisite: IDN 101 (or its equivalent).

M IDN 201 Intermediate Indonesian I. (5)
fall
Systematic review of grammar. Continued development of communication skills with increased emphasis on reading and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: IDN 102 (or its equivalent).
General Studies: G

M IDN 202 Intermediate Indonesian II. (5)
spring
Systematic review of grammar. Continued development of communication skills with increased emphasis on reading and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: IDN 201 (or its equivalent).
General Studies: G

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

ITALIAN (ITA)

M ITA 101 Elementary Italian. (5)
fall, spring, summer
Aural/oral drill in class and laboratory. Basic grammar supplemented by simple prose readings. 5 hours lecture, 1 hour lab. Fee.

M ITA 102 Elementary Italian. (5)
fall, spring, summer
Aural/oral drill in class and laboratory. Basic grammar supplemented by simple prose readings. 5 hours lecture, 1 hour lab. Fee. Prerequisite: ITA 101 (or its equivalent).

M ITA 201 Intermediate Italian. (3)
fall, spring, summer
Systematic review of grammar. Development of vocabulary through reading, listening, speaking, and writing. 3 hours lecture, 1 hour lab. Fee. Prerequisite: ITA 102 (or its equivalent).
General Studies: G

M ITA 202 Intermediate Italian. (3)
fall, spring, summer
Systematic review of grammar. Development of vocabulary through reading, listening, speaking, and writing. 3 hours lecture, 1 hour lab. Fee. Prerequisite: ITA 201 (or its equivalent).
General Studies: G

M ITA 311 Italian Composition and Conversation. (3)
fall and spring
Development of writing ability and oral expression. Prerequisite: ITA 202 (or its equivalent).
General Studies: G

M ITA 312 Italian Composition and Conversation. (3)
fall and spring
See ITA 311. Prerequisite: ITA 202 (or its equivalent).
General Studies: G

M ITA 314 Advanced Italian. (3)
selected semesters
Advanced grammar and composition with readings of selected literary works. Prerequisite: ITA 202 or instructor approval.
General Studies: G

M ITA 315 Italian for Business. (3)
fall
Conversation and composition course in Italian; focuses on business, culture, and communication in Italy. Readings, discussion, research, lab (computer and audio-video), Blackboard support. Prerequisite: ITA 202 or instructor approval.

M ITA 325 Introduction to Italian Literature. (3)
fall
Italian literature through the interpretation of representative works in drama, poetry, and novel. Prerequisite: ITA 202 or instructor approval.
General Studies: HU

M ITA 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Commercial Italian. (3)

M ITA 415 Italian Civilization. (3)
selected semesters
General survey of history, literature, art, and music, emphasizing Italy's cultural contribution to Western civilization. Prerequisites: ITA 311, 312 (or 314).
General Studies: HU, G

M ITA 420 Italian Cinema. (3)
fall
Major trends of Italian cinema from the post-war period to the present.

M ITA 425 Italian American Culture. (3)
selected semesters
Analyzes representations of Italian American history and culture in several media, including literature, film, and television. Lecture, discussion.
General Studies: L

M ITA 430 Italian Literature of the Middle Ages. (3)
selected semesters
Emphasizes "Stil Novo," Dante's minor works, Petrarch, and Boccaccio. Prerequisite: ITA 325 or instructor approval.
General Studies: HU

selected semesters
Major works, figures, and movements of contemporary Italian literature. Prerequisite: ITA 325.
General Studies: HU, G

M ITA 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Italian/American Culture. (3)

M ITA 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

JAPANESE (JPN)

M JPN 101 First-Year Japanese I. (5)
fall and spring
Communication skills and basic skills in grammar, reading, and writing, including hiragana, katakana, and about 75 kanji. 5 hours per week. Fee.

M JPN 102 First-Year Japanese II. (5)
fall and spring
Continuation of JPN 101. Additional 99 kanji. Continued development of communication skills in speaking, listening, reading, writing, and culture. Fee. Prerequisite: JPN 101 (or its equivalent).

M JPN 201 Second-Year Japanese I. (5)
fall and spring
Continued development of communication skills. Increased emphasis on reading and writing. Review of fundamentals of structure to increase abilities in composition and translation. 5 hours per week. Fee. Prerequisite: JPN 102 (or its equivalent).
General Studies: G

M JPN 202 Second-Year Japanese II. (5)
fall and spring
Continuation of JPN 201. Fee. Prerequisite: JPN 201 (or its equivalent).
General Studies: G

M JPN 206 Calligraphy. (1)
selected semesters
Introduces the practice of calligraphy in Japan, with emphasis on the derivation of Japanese kana syllabaries from Chinese characters. Prerequisite: CHI 205 or JPN 101.

M JPN 309 Intermediate Japanese Conversation. (2)
fall
Practice in current usage in expression of ideas. Recommended especially for those who have not had the opportunity to practice Japanese in Japan. Prerequisite: JPN 202.

M JPN 310 Intermediate Japanese Conversation. (2)
spring
Continuation of JPN 309. Prerequisite: JPN 309.

M JPN 311 Japanese Conversation and Composition. (3)
fall
Intensive aural/oral practice leading toward conversational fluency. Practice in writing Japanese, emphasizing current usage. Prerequisite: JPN 202.
General Studies: G

M JPN 312 Japanese Conversation and Composition. (3)
spring
See JPN 311. Prerequisite: JPN 202.
General Studies: G

M JPN 313 Third-Year Japanese I. (3)
fall
Continued development of basic skills with greater emphasis on reading. JPN 313 and 314 must be taken in sequence. Prerequisite: JPN 202 (or its equivalent).
General Studies: G

M JPN 314 Third-Year Japanese II. (3)
spring
Continued development of basic skills with continued emphasis on reading. JPN 313 and 314 must be taken in sequence. Prerequisite: JPN 313 or instructor approval.
General Studies: G

M JPN 321 Japanese Literature. (3)
selected semesters
Readings in modern literature, changing yearly. May be repeated for credit. Prerequisite: preferably JPN 314 (or 313) or instructor approval.
General Studies: L/HU, G

M JPN 394 Special Topics. (1–4)
selected semesters

M JPN 414 Introduction to Classical Japanese. (3)
spring
Readings from various genres of pre-20th-century literature, with analysis of the structure of the classical language. Prerequisite: JPN 313 or instructor approval.

M JPN 435 Advanced Readings. (3)
selected semesters
Readings in history, art, religious studies, economics, or other fields. Lecture, discussion. Prerequisite: JPN 314 (or its equivalent).

M JPN 485 Problems of Translation. (3)
selected semesters
Theories and practice of translation: strategies for handling a variety of Japanese texts. Lecture, discussion. Prerequisite: JPN 314 (or its equivalent).

M JPN 494 Special Topics. (1–4)
selected semesters

M JPN 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

KOREAN (KOR)

M KOR 101 First-Year Korean I. (5)
fall
Pronunciation, grammar, elementary conversation, and development of basic reading and writing skills, including Han'gul. Lecture, recitation.

M KOR 102 First-Year Korean II. (5)
spring
Continuation of KOR 101. Lecture, recitation. Prerequisite: KOR 101 (or its equivalent).

M KOR 201 Second-Year Korean I. (5)
fall
Continual development of communication skills. Increased emphasis on reading and writing, vocabulary building, and review of fundamentals. Lecture, recitation. Prerequisite: KOR 102 (or its equivalent).
General Studies: G

M KOR 202 Second-Year Korean II. (5)
spring
Continuation of KOR 201. Lecture, recitation. Prerequisite: KOR 201 (or its equivalent).
General Studies: G

M KOR 250 Korean Culture and Society. (3)
fall
Survey of Korean culture and society, covering history, religious traditions, gender, and popular culture. Lecture, discussion.
General Studies: HU, G

M KOR 313 Third-Year Korean I. (3)
fall
Continued development of ability to communicate orally and in writing. Exposure to a variety or Korean written styles. Reading, writing, discussion. Prerequisite: KOR 202 (or its equivalent).

M KOR 314 Third-Year Korean II. (3)
spring
Continuation of KOR 313. Reading, writing, discussion. Prerequisite: KOR 313 (or its equivalent).

M KOR 347 Korean Film and Literature. (3)
spring
Introduces aspects of Korean history, culture, and society through Korean film and literature. Lecture, discussion.
General Studies: HU

M KOR 350 Women of Korea. (3)
spring
Examines the changing role and status of women in modern Korea in relation to political and cultural changes. Lecture, discussion.
General Studies: H

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

LATIN (LAT)

M LAT 101 Elementary Latin. (4)
fall and spring
Basic Latin grammar with an emphasis on developing reading skills. For beginning students only.

M LAT 102 Elementary Latin. (4)
fall and spring
Continuation of LAT 101. Prerequisite: LAT 101 (or its equivalent).

M LAT 201 Intermediate Latin I. (4)
fall and spring
Final semester of grammar. Prerequisite: LAT 102 or instructor approval.
General Studies: HU

M LAT 202 Intermediate Latin II. (4)
fall and spring
Beginning reading of Latin authors. Prerequisite: LAT 201 (or its equivalent) or instructor approval.
General Studies: HU

M LAT 421 Roman Literature. (3)
fall
Readings in the Latin masterpieces. Authors read change each year in accordance with needs of the class. May be repeated for credit. Prerequisite: LAT 202 or instructor approval.
General Studies: HU

M LAT 422 Roman Literature. (3)
spring
See LAT 421. Prerequisite: LAT 202 or instructor approval.
General Studies: HU

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

MACEDONIAN (MAK)

M MAK 101 Elementary Macedonian. (4)
summer
Structural grammar, basic vocabulary; introduction and reinforcement of aural/oral, reading, and writing skills. 4 hours lecture, 1 hour lab. Lecture, lab, group activities.

M MAK 102 Elementary Macedonian. (4)
summer
See MAK 101. Lecture, lab, group activities. Prerequisite: MAK 101 (or its equivalent).

M MAK 201 Intermediate Macedonian. (4)
summer
Systematic review of grammar. Development of vocabulary through reading and writing. Drill in aural/oral skills. 4 hours lecture, 1 hour lab. Lecture, lab, group activities. Prerequisite: MAK 102 (or its equivalent).

M MAK 202 Intermediate Macedonian. (4)
summer
See MAK 201. Lecture, lab, group activities. Prerequisite: MAK 201 (or its equivalent).

M MAK 298 Macedonian Practicum. (2)
summer
On-site summer practicum in Macedonia following intensive summer Macedonian language study in the ASU Critical Languages Institute. Lecture, lab, group activities. Prerequisite: MAK 102 (or its equivalent).

M MAK 311 Macedonian Composition and Conversation. (1–8)
once a year
Advanced communicative proficiency and writing development. Intended for students enrolled in "ASU Study Abroad University of Ss. Kiril and Metodij." Tutorial. Prerequisite: MAK 202 (or its equivalent).

M MAK 312 Macedonian Composition and Conversation. (1–8)
once a year
Advanced communicative proficiency and writing development. Intended for students enrolled in "ASU Study Abroad University of Ss. Kiril and Metodij." Tutorial. Prerequisite: MAK 202 (or its equivalent).

M MAK 411 Advanced Macedonian Composition and Conversation. (1–8)
once a year
Improves self-expression in oral and written skills, emphasizing vocabulary building and use of newspapers and other materials published in Macedonia. Tutorial. Prerequisite: MAK 312 (or its equivalent).

M MAK 412 Advanced Macedonian Composition and Conversation. (1–8)
once a year
Improves self-expression in oral and written skills, emphasizing vocabulary building and use of newspapers and other materials published in Macedonia. Tutorial. Prerequisite: MAK 411 (or its equivalent).

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

NORWEGIAN (NOR)

M NOR 101 Elementary Norwegian. (4)
fall
Reading, writing, speaking, and understanding of basic Norwegian. 4 hours lecture, 1 hour lab. Fee.

M NOR 102 Elementary Norwegian. (4)
spring
Reading, writing, speaking, and understanding of basic Norwegian. 4 hours lecture, 1 hour lab. Fee. Prerequisite: NOR 101 (or its equivalent).

M NOR 201 Intermediate Norwegian. (4)
fall
Reviews Norwegian grammar with emphasis on the development of the skills of speaking, listening comprehension, reading, and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: NOR 102 (or its equivalent).

M NOR 202 Intermediate Norwegian. (4)
spring
Reviews Norwegian grammar with emphasis on the development of the skills of speaking, listening comprehension, reading, and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: NOR 201 (or its equivalent).

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

PORTUGUESE (POR)

M POR 101 Elementary Portuguese. (5)
fall and spring
Basic grammar with intensive drills in class and laboratory directed toward conversational fluency. 5 hours lecture, 1 hour lab. Fee. Prerequisite: 1 year of Spanish or French or Italian or instructor approval.

M POR 201 Intermediate Portuguese. (5)
fall and spring
Continuation of POR 101. Intensive drill of fundamentals in class and laboratory directed toward conversational fluency. 5 hours lecture, 1 hour lab. Fee. Prerequisite: POR 101 or instructor approval.
General Studies: G

M POR 313 Portuguese Composition and Conversation. (3)
fall
Develops skill in written Portuguese and corrected oral expression. Must be taken in sequence. Prerequisite: POR 201 or instructor approval.
General Studies: G

M POR 314 Portuguese Composition and Conversation. (3)
spring
Continuation of POR 313. Prerequisite: POR 313 or instructor approval.
General Studies: G

M POR 321 Luso-Brazilian Literature. (3)
selected semesters
Representative masterpieces of Portuguese and Brazilian literature from the beginning to the present. Prerequisite: POR 313 or instructor approval.
General Studies: HU

M POR 472 Luso-Brazilian Civilization. (3)
selected semesters
Lectures, readings, and discussion of important aspects of Luso-Brazilian civilization. Topics from music, art, folklore, literature, history, and politics. Prerequisite: POR 313 or instructor approval.
General Studies: HU, G

M POR 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Advanced Portuguese Composition and Conversation. (3)
- Brazilian Film. (3)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

ROMANIAN (ROM)

M ROM 101 Elementary Romanian. (5)
fall and spring
Basic grammar with intensive drills in class and laboratory directed toward conversational fluency. 5 hours lecture, 1 hour lab.

M ROM 201 Intermediate Romanian. (5)
fall and spring
Continuation of ROM 101. Intensive drill of fundamentals in class and laboratory directed toward conversational fluency. 5 hours lecture, 1 hour lab. Prerequisite: ROM 101 or instructor approval.

M ROM 313 Romanian Composition and Conversation. (3)
fall and spring
Develops skills in written Romanian and correct oral expression. Must be taken in sequence with ROM 314. Prerequisite: ROM 201 or instructor approval.

M ROM 314 Romanian Composition and Conversation. (3)
spring
Continuation of ROM 313. Develops skills in written Romanian and correct oral expression. Must be taken in sequence. Prerequisite: ROM 313 or instructor approval.

M ROM 494 Special Topics. (1–4)
once a year

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

RUSSIAN (RUS)

M RUS 101 Elementary Russian. (4)
fall, spring, summer
Structural grammar and basic vocabulary. Introduces and reinforces aural/oral reading and writing skills. 4 hours lecture, 1 hour lab. Fee.

M RUS 102 Elementary Russian. (4)
spring and summer
See RUS 101. Fee. Prerequisite: RUS 101 (or its equivalent).

M RUS 201 Intermediate Russian. (4)
fall and summer
Systematic review of grammar. Develops vocabulary through reading and writing. Drill in aural/oral skills. 4 hours lecture, 1 hour lab. Fee. Prerequisite: RUS 102 (or its equivalent).
General Studies: G

M RUS 202 Intermediate Russian. (4)
spring and summer
See RUS 201. Fee. Prerequisite: RUS 201 (or its equivalent).
General Studies: G

M RUS 211 Basic Russian Conversation. (3)
fall
Intensive aural/oral drill to supplement reading and grammatical skills acquired in RUS 101, 102, 201, and 202. Required of Russian majors. Fee. Prerequisite: RUS 102.
General Studies: G

M RUS 212 Basic Russian Conversation. (3)
spring
See RUS 211. Fee. Prerequisite: RUS 102.
General Studies: G

M RUS 311 Russian Composition and Conversation. (3)
fall
Develops writing ability and oral expression. Prerequisite: RUS 202.
General Studies: G

M RUS 312 Russian Composition and Conversation. (3)
spring
See RUS 311. Prerequisite: RUS 202.
General Studies: G

M RUS 321 Foundations of Russian Literature. (3)
selected semesters
Literary movements, prose, poetry, and drama from early Kievan writings to 19th-century works of Pushkin, Lermontov, Gogol. Does not satisfy the CLAS language requirement for the BA degree. Open to nonmajors. Prerequisite: readings in translation.
General Studies: HU, H

M RUS 322 Great Russian Writers of the 19th Century. (3)
selected semesters
Surveys the great age of prerevolutionary Russian prose, including works of Gogol, Turgenev, Dostoevski, Tolstoy, and Chekhov. Does not

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

satisfy the CLAS language requirement for the BA degree. Open to nonmajors. Prerequisite: readings in translation.
General Studies: L/HU

M RUS 323 Modern Russian Literature and the Soviet Legacy. (3)
selected semesters
See also FLA 323. 20th-century Russian writers: their prose, poetry, drama; problems of the writer in Soviet and post-Soviet society. Does not satisfy the CLAS language requirement for the BA degree. Open to nonmajors. Prerequisite: readings in translation.
General Studies: L/HU, G

M RUS 411 Advanced Composition and Conversation I. (3)
fall
Improves aural discrimination and self-expression in oral and written skills, emphasizing vocabulary building. Subject materials drawn from current post-Soviet-Russian publications. Prerequisite: RUS 312.
General Studies: G

M RUS 412 Advanced Composition and Conversation II. (3)
spring
See RUS 411. Prerequisite: RUS 312.
General Studies: G

M RUS 417 Applied Russian Phonetics. (2)
selected semesters
General improvement in language skills through aural/oral training in Russian phonology and an analysis of Russian orthography. Prerequisite: RUS 102.

M RUS 420 Russian Poetry. (3)
selected semesters
Development of Russian poetry from its beginnings to the present, including both native and émigré poets. Topics in criticism and the study of poetics. Prerequisite: RUS 312 or instructor approval.
General Studies: L/HU

M RUS 421 Pushkin. (3)
selected semesters
Pushkin's poetry, plays, and prose fiction, including *Eugene Onegin, The Little Tragedies, Tales of Belkin, Queen of Spades,* and *The Captain's Daughter.* Taught in English. Does not satisfy the Liberal Arts and Sciences language requirement for BA degree.
General Studies: L/HU

M RUS 423 Dostoyevsky. (3)
selected semesters
Dostoyevsky's major works of fiction, including *Crime and Punishment* and *Brothers Karamazov.* Taught in English. Does not satisfy the Liberal Arts and Sciences language requirement for BA degree.
General Studies: L/HU

M RUS 424 Tolstoy. (3)
selected semesters
Tolstoy's major works, including *War and Peace* and *Anna Karenina.* Taught in English. Does not satisfy the Liberal Arts and Sciences language requirement for BA degree.
General Studies: L/HU

M RUS 425 Chekhov. (3)
selected semesters
Chekhov's major works, representative short stories and major plays, including *The Cherry Orchard* and *Three Sisters.* Taught in English. Does not satisfy the Liberal Arts and Sciences language requirement for BA degree.
General Studies: L/HU

M RUS 430 Russian Short Story. (3)
selected semesters
Detailed study of representative works of the Russian short story genre. Includes authors from both Imperial and Soviet Russia. Prerequisite: RUS 312 or instructor approval.
General Studies: L/HU

M RUS 441 Survey of Russian Culture. (3)
selected semesters
Interplay of artistic, social, and political forces in the development of Russian culture from the Kievan period to the present. Exclusive use of Russian language source materials. Prerequisite: RUS 312 or instructor approval.
General Studies: L/HU, G, H

M RUS 493 Honors Thesis. (1–6)
selected semesters

M RUS 494 Special Topics. (1–4)
selected semesters

M RUS 495 Russian for Heritage Speakers. (1–6)
selected semesters
Generates professional proficiency by developing advanced communicative and written competency in standard literary Russian. Lecture, lab, tutorial. Prerequisite: instructor approval.

M RUS 498 Pro-Seminar. (1–7)
selected semesters
Topics may include the following:
- Senior Seminar. (3)

M RUS 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

SCANDINAVIAN (SCA)

M SCA 250 Introduction to Scandinavian Culture. (3)
spring
Scandinavian identity from an interdisciplinary perspective with historic overview. Lecture, discussion.
General Studies: HU, G, H

M SCA 315 Old Norse. (3)
fall and spring
Readings and study of grammatical structures of Medieval Scandinavian with emphasis on the Sagas and Edda poetry and historical writings.

M SCA 316 Scandinavian Cinema. (3)
fall and spring
Presents Scandinavian films, with English subtitles, as representatives of contemporary and historical culture.
General Studies: HU, G

M SCA 450 Masterpieces of Scandinavian Literature. (3)
spring
Scandinavian literature in translation in its cultural and historical contexts.
General Studies: L/HU

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

SLAVIC (SLV)

M SLV 304 Computational Linguistics of Slavic Languages. (3)
spring
Information technology and Slavic languages, including Web design, digitalized resources, information retrieval, math/statistical analysis, and PERL. Lecture, lab.
General Studies: CS

M SLV 426 Contemporary East European and Eurasian Literatures. (3)
selected semesters
Readings in non-Russian literatures and literary criticism from Eastern Europe and Eurasia: Milosz, Mrozek, Kis, Andric, Kadare, Ajtmatov. Lecture, discussion.
General Studies: L/HU, G

M SLV 440 History of Slavic Languages. (3)
selected semesters
Comparative evolution of East Slavic, West Slavic, and South Slavic languages from the earliest record to the standardizing of national languages in the 19th and 20th centuries. Lecture, discussion.
General Studies: SB

M SLV 498 Pro-Seminar. (1–7)
selected semesters
Topics may include the following:
- Senior Seminar. (3)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

SPANISH (SPA)

For more SPA courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M SPA Note 1. Students who have completed their secondary education in a school where Spanish was the official language of instruction should begin their studies at the 325 level or above. No student who has completed more than two years of high school in a Spanish-speaking country, where Spanish is the medium of instruction in the school, is allowed to register in a Spanish language class below the 400 level.

M SPA 101 Elementary Spanish. (4)
fall, spring, summer
Fundamentals of the language. Emphasizes listening, speaking, reading, and writing. Credit is allowed for only SPA 101 or 111. 4 hours lecture, 1 hour lab. Fee. See SPA Note 1.

M SPA 102 Elementary Spanish. (4)
fall, spring, summer
See SPA 101. Credit is allowed for only SPA 102 or 111. Fee. See SPA Note 1. Prerequisite: SPA 101 (or its equivalent).

M SPA 107 Spanish for International Professions I. (8)
fall
Accelerated program alternative to SPA 101, 102 sequence. Functional approach to needs of international professions. Fee. See SPA Note 1.

M SPA 111 Fundamentals of Spanish. (4)
fall and spring
Primarily for students with two years of high school Spanish who need review to enter second-year study. Credit is allowed for only SPA 111 or both SPA 101 and 102. 4 hours lecture, 1 hour lab. Fee. See SPA Note 1.

M SPA 201 Intermediate Spanish. (4)
fall, spring, summer
Continuation of fundamentals. Emphasizes the development of the skills of reading, listening comprehension, speaking, writing, and culture. 4 hours lecture, 1 hour lab. Fee. See SPA Note 1. Prerequisite: SPA 102 or 111.
General Studies: G

M SPA 202 Intermediate Spanish. (4)
fall, spring, summer
See SPA 201. Fee. See SPA Note 1. Prerequisite: SPA 201 (or its equivalent).
General Studies: G

M SPA 203 Intermediate Spanish for Bilinguals. (4)
fall
For Spanish-speaking students, in lieu of SPA 201. Composition, literature, conversation, grammar fundamentals. 4 hours lecture, 1 hour lab. Fee. See SPA Note 1. Prerequisite: SPA 102 or 111 or placement examination.
General Studies: G

M SPA 204 Intermediate Spanish for Bilinguals. (4)
spring
For Spanish-speaking students, in lieu of SPA 202. Composition, literature, conversation, grammar fundamentals. 4 hours lecture, 1 hour lab. See SPA Note 1. Prerequisite: SPA 203 (or its equivalent).
General Studies: G

M SPA 207 Spanish for International Professions II. (8)
spring
Continuation of SPA 107, alternative to SPA 201, 202 sequence. Expansion of communicative proficiency in specific areas of international professions. Fee. See SPA Note 1. Prerequisite: SPA 107 or instructor approval.
General Studies: G

M SPA 311 Spanish Conversation. (3)
fall and spring
Designed primarily for nonmajors to promote vocabulary building and communicative expression in Spanish through discussions based on cultural readings. See SPA Note 1. Prerequisite: SPA 202 (or its equivalent).

M SPA 312 Spanish Conversation. (3)
fall and spring
See SPA 311. See SPA Note 1. Prerequisite: SPA 311 (or its equivalent).

M SPA 313 Spanish Conversation and Composition. (3)
fall, spring, summer
Designed to develop skill and accuracy in spoken and written Spanish. Required of majors; SPA 313 and 314 must be taken in sequence. See SPA Note 1. Prerequisite: SPA 202 (or its equivalent).
General Studies: G

M SPA 314 Spanish Conversation and Composition. (3)
fall, spring, summer
See SPA 313. See SPA Note 1. Prerequisite: SPA 313 (or its equivalent).
General Studies: G

M SPA 315 Spanish Conversation and Composition for Bilinguals. (3)
fall
Emphasizes comparing standard Spanish with regional Southwest Spanish. May be taken in lieu of SPA 313 and 314. See SPA Note 1. Prerequisite: SPA 202 or 204 or instructor approval.

M SPA 316 Spanish Conversation and Composition for Bilinguals. (3)
spring
See SPA 315. See SPA Note 1. Prerequisite: SPA 315 (or its equivalent).

M SPA 319 Business Correspondence and Communication. (3)
selected semesters
Organization and presentation of clear, effective business communications; vocabulary applicable to modern business usage. See SPA Note 1. Prerequisite: SPA 314 or 316 or instructor approval.
General Studies: G

M SPA 325 Introduction to Hispanic Literature. (3)
fall and spring
Critical approach to and analysis of literary types, including poetry, drama, short story, and novel. Required of all majors. See SPA Note 1. Prerequisite: SPA 313.
General Studies: HU

M SPA 400 Introduction to Spanish Linguistics. (3)
fall
Introduces the discipline and methods of linguistics through the study of Spanish data. Prerequisite: SPA 412 (or its equivalent).

M SPA 412 Advanced Conversation and Composition. (3)
fall and spring
Oral and written Spanish communication skills, with particular attention given to developing fluency and facility. Required of majors. Prerequisite: SPA 314 or 316 or instructor approval.
General Studies: G

M SPA 413 Advanced Spanish Grammar. (3)
fall
Intensive analysis of the Spanish language. Required of teaching majors. Prerequisite: SPA 314 or 316 or instructor approval.
General Studies: G

M SPA 417 Spanish Phonetics and Phonology. (3)
fall
Introduces the theory and practice of Spanish phonetics and phonology. Prerequisite: SPA 412.

M SPA 420 Applied Spanish Linguistics. (3)
spring
Applies linguistic principles to the teaching of Spanish. Prerequisites: FLA 400 (or its equivalent); SPA 412.
General Studies: L

M SPA 421 Spanish in the Southwest. (3)
fall
Discussion and linguistic analysis of Southwest Spanish. Prerequisite: SPA 412.
General Studies: L/SB, C

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M SPA 422 Spanish Lexicology and Lexicography. (3)
fall
Explores the linguistic theory and methodology related to the defining of meanings of words in Spanish dictionaries. Prerequisite: SPA 412 or instructor approval.

M SPA 425 Spanish Literature. (3)
fall and spring
Surveys Spanish literature from its beginning to 1700. Prerequisite: SPA 325.
General Studies: HU

M SPA 426 Spanish Literature. (3)
fall and spring
Surveys Spanish literature from 1700 to the present. Prerequisite: SPA 325.
General Studies: HU

M SPA 427 Spanish American Literature. (3)
fall and spring
Surveys major works, figures, and movements from Colonial period to 1880. Prerequisite: SPA 325.
General Studies: L

M SPA 428 Spanish American Literature. (3)
fall and spring
Surveys major works, figures, and movements from 1880 to the present. Prerequisite: SPA 325.
General Studies: L, G

M SPA 429 Mexican Literature. (3)
selected semesters
Selected readings from pre-Columbian writers/poets (e.g., Macuilxóchitl) through the novel of the Revolution to the present. Prerequisite: SPA 325.

M SPA 434 Drama of the Golden Age. (3)
spring
Dramatic works of Lope de Vega, Calderón de la Barca, and their contemporaries. Prerequisite: SPA 325.

M SPA 435 Cervantes—*Don Quijote.* (3)
fall
Don Quijote and the development of the novel. Prerequisite: SPA 325.

M SPA 454 19th-Century Spanish American Narrative. (3)
fall
Principal works in the novel, short story, narrative fiction, and narrative (Gauchesque) poetry. Prerequisite: SPA 325.

M SPA 456 20th-Century Spanish American Fiction. (3)
spring
Major works and movements. Prerequisite: SPA 325.

M SPA 464 Mexican American Literature. (3)
fall
Representative literature in Spanish and English by Mexican Americans, emphasizing sociocultural as well as literary values. Prerequisite: SPA 325.
General Studies: HU, C

M SPA 471 Civilization of the Spanish Southwest. (3)
spring
Political, intellectual, social, economic, and artistic development of the Spanish-speaking people of the Southwest. Prerequisite: SPA 314 or 316 or instructor approval.
General Studies: HU, C

M SPA 472 Spanish American Civilization. (3)
fall
Growth of the institutions and cultures of Spanish American people. Prerequisite: SPA 314 or 316 or instructor approval.
General Studies: HU, G, H

M SPA 473 Spanish Civilization. (3)
spring
Political, intellectual, social, economic, and artistic development of the Spanish nation from its origin to the present. Prerequisite: SPA 314 or 316 or instructor approval.
General Studies: HU/SB, G

M SPA 474 Mexican Culture. (3)
fall and spring
Examines diverse aspects of Mexican culture since the 1910 Revolution. Lecture, discussion. Prerequisite: SPA 325.

M SPA 485 Mexican American Short Story. (3)
selected semesters
Critical study of contemporary short stories by Mexican American authors, with emphasis on their Spanish-language writings. Prerequisite: SPA 325 or instructor approval.
General Studies: L

M SPA 486 Mexican American Novel. (3)
selected semesters
Social and literary contexts of representative novelists, emphasizing their Spanish-language writings. Prerequisite: SPA 325 or instructor approval.

M SPA 487 Mexican American Drama. (3)
selected semesters
Representative dramatic works, with emphasis on the history and development of this genre from its regional origins to the present. Prerequisite: SPA 325 or instructor approval.

M SPA 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Lexicography. (3)
- Introduction to Hispanic Linguistics. (3)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

SWEDISH (SWE)

M SWE 101 Elementary Swedish. (4)
fall
Reading, writing, speaking, and understanding of basic Swedish. 4 hours lecture, 1 hour lab. Fee.

M SWE 102 Elementary Swedish. (4)
spring
Reading, writing, speaking, and understanding of basic Swedish. 4 hours lecture, 1 hour lab. Fee. Prerequisite: SWE 101 (or its equivalent).

M SWE 201 Intermediate Swedish. (4)
fall
Reviews Swedish grammar with emphasis on the development of the skills of speaking, listening comprehension, reading, and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: SWE 102 (or its equivalent).

M SWE 202 Intermediate Swedish. (4)
spring
Reviews Swedish grammar with emphasis on the development of the skills of speaking, listening comprehension, reading, and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: SWE 201 (or its equivalent).

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

THAI (THA)

M THA 101 Elementary Thai I. (5)
fall
Basic communication, reading, and writing skills. Intensive oral/aural classroom drill supplemented by prose readings in Thai script. 4 hours lecture, 1 hour lab. Fee.

M THA 102 Elementary Thai II. (5)
spring
Basic communication, reading, and writing skills. Intensive oral/aural classroom drill supplemented by prose reading. 4 hours lecture, 1 hour lab. Fee. Prerequisite: THA 101 (or its equivalent).

M THA 201 Intermediate Thai I. (5)
fall
Systematic review of grammar. Continued development of communication skills with increased emphasis on reading and writing. 4 hours lecture, 1 hour lab. Fee. Prerequisite: THA 102 (or its equivalent).
General Studies: G

M THA 202 Intermediate Thai II. (5)
spring
Systematic review of grammar. Continued development of communication skills with increased emphasis on reading and writing.

4 hours lecture, 1 hour lab. Fee. Prerequisite: THA 201 (or its equivalent).
General Studies: G

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

VIETNAMESE (VTN)

M VTN 101 Elementary Vietnamese I. (5)
fall
Basic skills in modern conversational Vietnamese and development of basic reading and writing skills, with special emphasis on tones. 4 hours lecture, 1 hour lab.

M VTN 102 Elementary Vietnamese II. (5)
spring
Basic skills in modern conversational Vietnamese and development of basic reading and writing skills, with special emphasis on tones. 4 hours lecture, 1 hour lab. Prerequisite: VTN 101 (or its equivalent).

M VTN 201 Intermediate Vietnamese I. (5)
fall
Improves speaking, listening, reading, and writing competence through dialogues, reading passages, pattern drill, and grammar and communicative exercises. 4 hours lecture, 1 hour lab. Prerequisite: VTN 102 (or its equivalent).
General Studies: G

M VTN 202 Intermediate Vietnamese II. (5)
spring
Improves speaking, listening, reading, and writing competence through dialogues, reading passages, pattern drill, and grammar and communicative exercises. 4 hours lecture, 1 hour lab. Prerequisite: VTN 201 (or its equivalent).
General Studies: G

M VTN 321 Advanced Vietnamese and Literature I. (3)
fall
Readings from modern, contemporary, and folk literatures as well as current periodicals. Lecture, discussion, Internet, student presentations, debate. Prerequisite: VTN 202 (or its equivalent) or instructor approval.

M VTN 322 Advanced Vietnamese and Literature II. (3)
spring
Continuation of VTN 321. Readings from modern, contemporary, and folk literatures as well as current periodicals. Lecture, discussion, Internet, student presentations, debate. Prerequisite: VTN 321 (or its equivalent) or instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Clinical Professors: Downs, Mass

Clinical Associate Professor: Roberts

Clinical Assistant Professor: Lefevre

Research Professors: Cardineau, Davidson, Hoober, Mahoney, Pearson

Associate Research Professors: Lopez, Pettit

Assistant Research Professors: Bertram, Eggink, Hope, Hu, Luo, Walmsley

Senior Research Scientists: Bingham, Landrum, LoBrutto

Curator: Gill

Senior Research Professional: Kazilek

BIOLOGY—BS

The major in Biology consists of a minimum of 37 semester hours in biology, and a minimum of 16 semester hours in related fields, plus a three-semester-hour calculus course, and a three-semester-hour statistics course. One upper-division PLB or MIC course is also required. A minimum grade of "C" (2.00) is required for all course work in the major and related fields. Required major courses are

BIO 187 General Biology I *SG* 4
BIO 188 General Biology II *SQ* 4
BIO 340 General Genetics 4
or BIO 341 Genetic Analysis (5)
BIO 345 Organic Evolution 3
Choose one of the courses below 3–4
BIO 320 Fundamentals of Ecology (3)
BIO 331 Animal Behavior (3)
BIO 370 Vertebrate Zoology (4)
BIO 385 Comparative Invertebrate Zoology (4)

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

MIC 220 Biology of Microorganisms (3)
and MIC 206 Microbiology Laboratory *SG** (1)
PLB 300 Comparative Plant Diversity *L*/*SG* (4)
Choose one of the courses below 3–4
BIO 351 Developmental Anatomy (3)
BIO 353 Cell Biology (3)
BIO 360 Animal Physiology (3)
MIC 360 Bacterial Physiology (3)
PLB 308 Plant Physiology (4)
Total 21–24

* MIC 206 must be taken with 205 to secure SG credit.

The remaining hours to bring the total to 37 are selected from among upper-division courses, approved for major credit, in BIO, MIC, PLB, and approved BCH courses, in consultation with an advisor. The major must include at least three upper-division laboratory courses. Required courses in related fields plus math proficiency are

CHM 113 General Chemistry I *SQ* 4
CHM 115 General Chemistry with Qualitative Analysis *SQ* 5
or CHM 116 General Chemistry II *SQ* (4)
Choose between the combinations of organic chemistry courses below ..... 4 or 8
CHM 231 Elementary Organic Chemistry *SQ*[1] (3)
CHM 235 Elementary Organic Chemistry Laboratory *SQ*[1] (1)
——— *or* ———
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
MAT 251 Calculus for Life Sciences *MA* 3
or MAT 210 Brief Calculus *MA* (3)
or any other calculus course approved by an advisor
Choose between the combinations of introduction to physics courses below ..... 4 or 8
PHY 101 Introduction to Physics *SQ* (4)
——— *or* ———
PHY 111 General Physics *SQ*[2] (3)
PHY 112 General Physics *SQ*[2] (3)
PHY 113 General Physics Laboratory *SQ*[2] (1)
PHY 114 General Physics Laboratory *SQ*[2] (1)
STP 226 Elements of Statistics *CS* 3
or STP 231: Statistics for Biosciences (3)
Total 23–31

[1] Both CHM 231 and 235 must be taken to secure SQ credit.
[2] Both PHY 111 and 113 or PHY 112 and 114 must be taken to secure SQ credit.

Concentration in Biology and Society

The major in Biology with a concentration in biology and society is intended for students with a strong interest in life sciences and in the interaction between life sciences and the society within which science is done. This option consists of a minimum of 44 semester hours in life sciences and societal interface courses, and 11 hours in related fields. A three-semester-hour mathematics proficiency course and a three-semester-hour statistics course are also required. A minimum grade of "C" (2.00) is required in all course work in the major or related fields. Required courses are as follows:

BIO 187 General Biology I *SG* 4
BIO 188 General Biology II *SQ* 4
BIO 311 Biology and Society 3
BIO 314 Research Colloquium in Biology and Society I *L** 2
BIO 320 Fundamentals of Ecology 3
or BIO 345 Organic Evolution (3)
BIO 340 General Genetics 4
or BIO 341 Genetic Analysis (5)
BIO 414 Research Colloquium in Biology and Society II* *L* 1
BIO 493 Honors Thesis *L* 3
or BIO 495 Undergraduate Thesis (3)
or BIO 499 Individualized Instruction (3)
or approved hours in research (3)
MAT 251 Calculus for Life Sciences *MA* 3
or MAT 210 Brief Calculus *MA* (3)
or any other calculus
Total 27

* Both BIO 314 and 414 must be taken to secure L credit.

The remaining courses to complete the major are determined by the student in consultation with an advisor and must be distributed in the following areas:

1. 12 hours of upper-division electives from BIO, MIC, PLB;
2. 12 hours of upper-division interface courses from an approved list. At least three semester hours in each of these areas: ethics, history and philosophy of science, and contemporary societal issues;
3. 11 hours of physical sciences (CHM recommended); and
4. three to four hours of an approved course in statistics.

CLINICAL LABORATORY SCIENCES—BS

The Clinical Laboratory Sciences degree program prepares individuals to practice in the field of clinical laboratory sciences, which includes the major disciplines of clinical chemistry, hematology, immunohematology, immunology, and microbiology. Employment opportunities exist in hospital, private, physician, and research laboratories and in government, sales, management, and education. After obtaining a BS degree in Clinical Laboratory Sciences, the graduate is eligible for national certification by examination.

A major in Clinical Laboratory Sciences consists of 40 semester hours in clinical laboratory sciences courses. A minimum grade of "C" (2.00) is required in all course work in the major or related fields. Also required are the following courses:

BCH 361 Principles of Biochemistry 3
BIO 360 Animal Physiology 3
CHM 113 General Chemistry I *SQ* 4
CHM 231 Elementary Organic Chemistry *SQ*[1] 3
MIC 205 Microbiology *SG*[2] 3
or MIC 220 Biology of Microorganisms (3)
MIC 206 Microbiology Laboratory *SG*[2] 1
Total 17

[1] Both CHM 231 and 235 must be taken to secure SQ credit.
[2] Both MIC 205 and 206 must be taken to secure SG credit.

Equivalent courses may be substituted upon approval of an advisor. Students must consult with the clinical laboratory sciences advisor to select general electives courses.

Completion of the degree is dependent upon acceptance of the student into the accredited professional study program, which consists of 40 hours of clinical laboratory sciences courses. The university does not guarantee all students to be accepted into the professional study program due to space limitations at the clinical affiliates and restrictions of program accreditation. For more information on acceptance procedures and program standards, contact the school for a program brochure. For proper course planning, students must meet with a clinical laboratory sciences advisor.

CONSERVATION BIOLOGY—BS

The major in Conservation Biology consists of a minimum of 41 semester hours in the required major courses and a minimum of 16 hours in related fields, plus a three-semester-hour calculus course and a three-semester-hour statistics course. A minimum grade of "C" (2.00) is required for all course work in the major and related fields. Required courses are as follows:

BIO 187 General Biology I *SG* 4
BIO 188 General Biology II *SQ* 4
BIO 317 Conservation Biology 3
BIO 320 Fundamentals of Ecology 3
BIO 340 General Genetics 4
or BIO 341 Genetic Analysis (5)
BIO 360 Animal Physiology 3
BIO 410 Techniques in Wildlife Conservation Biology *L* 3
BIO 411 Advanced Conservation Biology I 3
BIO 412 Advanced Conservation Biology II 3

Total ..... 30 or 31

The remaining hours to bring the total to 41 are selected from among relevant upper-division courses in BIO and PLB courses or in related departments, in consultation with an advisor. Required courses in related fields plus math proficiency are as follows:

CHM 113 General Chemistry I *SQ* 4
CHM 115 General Chemistry with Qualitative Analysis *SQ* 5
or CHM 116 General Chemistry II *SQ* (4)
Choose between the combinations of organic chemistry courses below ..... 4 or 8
CHM 231 Elementary Organic Chemistry *SQ** (3)
CHM 235 Elementary Organic Chemistry Laboratory *SQ** (1)
——— *or* ———
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
MAT 251 Calculus for Life Sciences *MA* 3
or MAT 210 Brief Calculus *MA* (3)
or any other calculus
STP 226 Elements of Statistics *CS* 3
or STP 231: Statistics for Biosciences (3)

Total ..... 18 or 23

* Both CHM 231 and 235 must be taken to secure SQ credit.

MICROBIOLOGY—BS

The BS degree in Microbiology consists of a minimum of 41 semester hours in microbiology and 17 hours in approved related fields. A minimum grade of "C" (2.00) is required for all course work in the major and related fields. Required courses are as follows:

BIO 187 General Biology I *SG* 4
BIO 188 General Biology II *SQ* 4
BIO 340 General Genetics 4
Choose between the course combinations below 8
BCH 361 Principles of Biochemistry (3)
BCH 367 Elementary Biochemistry Laboratory (1)
CHM 231 Elementary Organic Chemistry *SQ*[1] (3)
CHM 235 Elementary Organic Chemistry Laboratory *SQ*[1] (1)
——— *or* ———
CHM 233 General Organic Chemistry I (3)
CHM 234 General Organic Chemistry II (3)
CHM 237 General Organic Chemistry Laboratory I (1)
CHM 238 General Organic Chemistry Laboratory II (1)
MIC 206 Microbiology Laboratory *SG*[2] 1
MIC 220 Biology of Microorganisms 3
MIC 302 Advanced Bacteriology Laboratory *L*[3] 2
MIC 360 Bacterial Physiology 3
MIC 401 Research Paper *L*[3] 1

Total 30

[1] Both CHM 231 and 235 must be taken to secure SQ credit.
[2] Both MIC 205 and 206 must be taken to secure SG credit.
[3] Both MIC 302 and 401 must be taken to secure L credit.

A minimum of 11 semester hours of upper-division electives in microbiology or approved life science fields must be taken. These elective hours must include two courses chosen from the following:

MIC 421 Experimental Immunology 2
MIC 442 Bacterial Genetics Laboratory 1
MIC 446 Techniques in Molecular Biology/Genetics Lab 2
MIC 470 Bacterial Diversity and Systematics 4
MIC 484 Internship 3
MIC 494 ST: Clinical Bacteriology Laboratory 3
MIC 495 Undergraduate Research 2

In addition, students are required to fulfill the university mathematical studies requirements with MAT 210 (or 251, 270) as their MA course and BIO 406, STP 226, STP 294 (or any CSE course that meets the CS requirement). The required supplemental courses are as follows:

CHM 113 General Chemistry I *SQ* 4
CHM 115 General Chemistry with Qualitative Analysis *SQ* 5
or CHM 116 General Chemistry II *SQ* (4)
PHY 111 General Physics *SQ** 3
PHY 112 General Physics *SQ** 3
PHY 113 General Physics Laboratory *SQ** 1
PHY 114 General Physics Laboratory *SQ** 1

Total ..... 16 or 17

* Both PHY 111 and 113 or PHY 112 and 114 must be taken to secure SQ credit.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

MOLECULAR BIOSCIENCES AND BIOTECHNOLOGY—BS

The BS degree in Molecular Biosciences and Biotechnology is designed to prepare students for productive careers in rapidly expanding areas within the life sciences, such as biotechnology, medicine, and biomedical research or any area of biology at the molecular and cellular level. Courses and faculty are drawn primarily from the School of Life Sciences and the Department of Chemistry and Biochemistry.

The major in Molecular Biosciences and Biotechnology consists of a minimum of 59 semester hours of course work plus two courses in mathematics specifically designed for this program. A minimum grade of "C" (2.00) is required for all course work in the major. The required major courses (30 total semester hours) are as follows:

BIO	340	General Genetics	4
MBB	245	Cellular and Molecular Biology *SQ*	4
MBB	247	Applied Biosciences: Biotechnology	4
MBB	343	Genetic Engineering and Society *L*	4
MBB	484	Internship	6
		or MBB 499 Individualized Instruction (6)	
MBB	490	Capstone: Issues in Biotechnology *L*	4
MIC	206	Microbiology Laboratory *SG**	1
MIC	220	Biology of Microorganisms	3
Total			30

* Both MIC 205 and 206 must be taken to secure SG credit.

Choose at least one of the following courses (or combinations) for a minimum of three to four semester hours. Although only one advanced lab course is required, students are encouraged to take two:

BIO	451	Cell Biotechnology Laboratory	3
MBB	350	Applied Genetics	4
MBB	445	Techniques in Molecular Biology/Genetics	2
MBB	446	Techniques in Molecular Biology/Genetics Lab[1]	2
MIC	420	Immunology: Molecular and Cellular Foundations	3
MIC	421	Experimental Immunology[2]	2
MIC	441	Bacterial Genetics	3
MIC	442	Bacterial Genetics Laboratory[3]	1

[1] MBB 446 is taken with MBB 445.
[2] MIC 421 is taken with MIC 420.
[3] MIC 442 is taken with MIC 441.

Required supplemental courses in biology, chemistry, mathematics and physics (28 total semester hours) are as follows (a minimum grade of "C" (2.00) is required for all course work):

BCH	361	Principles of Biochemistry	3
BCH	367	Elementary Biochemistry Laboratory	1
CHM	113	General Chemistry I *SQ*	4
CHM	115	General Chemistry with Qualitative Analysis *SQ*	5
Choose between the organic chemistry course combinations below			4 or 8
	CHM 231	Elementary Organic Chemistry *SQ*[1] (3)	
	CHM 235	Elementary Organic Chemistry Laboratory *SQ*[1] (1)	
		— *or* —	
	CHM 233	General Organic Chemistry I (3)	
	CHM 234	General Organic Chemistry II (3)	
	CHM 237	General Organic Chemistry Laboratory I (1)	
	CHM 238	General Organic Chemistry Laboratory II (1)	
MAT	251	Calculus for Life Sciences *MA*	3
PHY	111	General Physics *SQ*[2]	3
PHY	112	General Physics *SQ*[3]	3
PHY	113	General Physics Laboratory *SQ*[2]	1
PHY	114	General Physics Laboratory *SQ*[3]	1
Total			28 or 32

[1] Both CHM 231 and 235 must be taken to secure SQ credit.
[2] Both PHY 111 and 113 must be taken to secure SQ credit.
[3] Both PHY 112 and 114 must be taken to secure SQ credit.

Satisfaction of the university computer/statistics/quantitative applications requirement is met with MAT 351 Mathematical Methods for Genetic Analysis, or MAT/BIO 394 ST: Introduction to Computational Molecular Biology, in which a minimum grade of "C" (2.00) is required.

Additional courses are available in the life or physical sciences for elective credit.

PLANT BIOLOGY—BS

The School of Life Sciences offers three options to meet the needs of students whose interests are in the rapidly expanding areas within plant biology. Students may choose the general program option, which allows the opportunity to develop strength in one area or discipline. Others may choose to design a more specific, but interdisciplinary, program in one of the following two optional concentrations: environmental science and ecology; plant biochemistry and molecular biology.

Each concentration promotes interaction between diverse groups and captures the growing interdisciplinary nature of scientific investigations. When one of these options is chosen, the title will appear on transcripts and other university documents.

The three curricular options prepare students for careers in technical, industrial, and educational fields as well as professional degree programs in medicine or research and postgraduate education in the life sciences.

General Program

The BS degree in Plant Biology consists of a minimum of 38 semester hours in plant biology and approved life science and physical science courses. A minimum grade of "C" (2.00) is required for all course work in the major and related fields. Required courses are as follows:

BIO	320	Fundamentals of Ecology	3
		or BIO 340 General Genetics (4)	
BIO	353	Cell Biology	3
PLB	200	Biology of Plants *SQ**	3
PLB	201	Biology of Plants Laboratory *SQ**	1
PLB	306	Plant Anatomy	4
PLB	308	Plant Physiology	4
PLB	484	Internship	3
		or PLB 499 Individualized Instruction (3)	
Total			21–22

* Both PLB 200 and 201 must be taken to secure SQ credit.

The remaining hours to bring the total to 38 are selected from among relevant courses in plant biology, other life sciences, and physical sciences in consultation with an advisor.

Required supplemental courses in chemistry and mathematics are as follows (a minimum grade of "C" [2.00] is required for all course work):

CHM 113 General Chemistry I *SQ* 4
CHM 115 General Chemistry with Qualitative Analysis *SQ* 5
Choose between the organic chemistry course combinations below ..... 4 or 8
  CHM 231 Elementary Organic Chemistry *SQ** (3)
  CHM 235 Elementary Organic Chemistry Laboratory *SQ** (1)
  — *or* —
  CHM 233 General Organic Chemistry I (3)
  CHM 234 General Organic Chemistry II (3)
  CHM 237 General Organic Chemistry Laboratory I (1)
  CHM 238 General Organic Chemistry Laboratory II (1)
MAT 251 Calculus for Life Sciences *MA* 3
Total ..... 16 or 20

* Both CHM 231 and 235 must be taken to secure SQ credit.

One of the following courses is also required:

PLB 430 Statistical Analyses in Environmental Science *CS* 3
  or PLB 432 Computer Applications in Biology *CS* (3)
  or BIO 415 Biometry *CS* (4)

Special Concentration Programs

Two special concentration programs are optional. Students who wish to pursue the general program in Plant Biology are not obligated to choose one of these specific programs. Each special concentration program is expected to be interdisciplinary and contain course work outside both Plant Biology and the College of Liberal Arts and Sciences. Each concentration includes hands-on technical training.

Environmental Science and Ecology. The BS degree in Plant Biology with a concentration in environmental science and ecology consists of a minimum of 44 semester hours in plant biology and approved life science and physical science courses. A minimum grade of "C" (2.00) is required for all course work in the major and related fields. Required courses are as follows:

BIO 320 Fundamentals of Ecology 3
Choose between the geology course combinations below.....4
  GLG 101 Introduction to Geology I (Physical) *SQ, G*[1] (3)
  GLG 103 Introduction to Geology I—Laboratory *SQ*[1] (1)
  — *or* —
  GLG 110 Geologic Disasters and the Environment *SG, G*[2] (3)
  GLG 111 Geologic Disasters Laboratory *SG*[2] (1)
  — *or* —
  GPH 111 Introduction to Physical Geography *SQ* (4)
PLB 200 Biology of Plants *SQ*[3] 3
PLB 201 Biology of Plants Laboratory *SQ*[3] 1
PLB 310 The Flora of Arizona.....4
PLB 322 Environmental Science (Major).....3
PLB 420 Plant Ecology: Organisms and Populations.....3
  or PLB 421 Plant Ecology: Communities and Ecosystems (3)
PLB 484 Internship 3
  or PLB 499 Individualized Instruction (3)
Total 24

[1] Both GLG 101 and 103 must be taken to secure SQ credit.
[2] Both GLG 110 and 111 must be taken to secure SG credit.
[3] Both PLB 200 and 201 must be taken to secure SQ credit.

The remaining hours to bring the total to 44 are selected from among relevant courses in plant biology, other life sciences, and physical sciences.

CHM 113 General Chemistry I *SQ* 4
CHM 115 General Chemistry with Qualitative Analysis *SQ* 5
CHM 231 Elementary Organic Chemistry *SQ** 3
CHM 235 Elementary Organic Chemistry Laboratory *SQ** 1
MAT 251 Calculus for Life Sciences *MA* 3
Total 16

* Both CHM 231 and 235 must be taken to secure SQ credit.

One of the following courses is also required:

PLB 430 Statistical Analyses in Environmental Science *CS* 3
  or PLB 432 Computer Applications in Biology *CS* (3)
  or BIO 415 Biometry *CS* (4)
  or STP 420 Introductory Applied Statistics *CS* (3)

Plant Biochemistry and Molecular Biology. The BS degree in Plant Biology with a concentration in biochemistry and molecular biology consists of 56 semester hours. A minimum grade of "C" (2.00) is required for all course work in the major and related fields.

The required major courses are as follows:

BIO 353 Cell Biology 3
MBB 245 Cellular and Molecular Biology *SQ*.....4
PLB 308 Plant Physiology 4
PLB 350 Applied Genetics.....4
PLB 444 Plant Growth and Development.....3
PLB 484 Internship 3
  or PLB 499 Individualized Instruction (3)
Total 21

Required supplemental courses in biochemistry, chemistry, mathematics, and physics are as follows (a minimum grade of "C" (2.00) is required for all course work):

Choose between the course combinations below..... 4 or 9
  BCH 361 Principles of Biochemistry (3)
  BCH 367 Elementary Biochemistry Laboratory (1)
  — *or* —
  BCH 461 General Biochemistry (3)
  BCH 462 General Biochemistry (3)
  BCH 467 Analytical Biochemistry Laboratory *L* (3)
CHM 113 General Chemistry I *SQ* 4
CHM 115 General Chemistry with Qualitative Analysis *SQ* 5
CHM 231 Elementary Organic Chemistry *SQ*[1] 3
CHM 235 Elementary Organic Chemistry Laboratory *SQ*[1] 1
MAT 251 Calculus for Life Sciences *MA* 3
PHY 111 General Physics *SQ*[2] 3
PHY 112 General Physics *SQ*[3] 3
PHY 113 General Physics Laboratory *SQ*[2] 1
PHY 114 General Physics Laboratory *SQ*[3] 1
Total ..... 28 or 33

[1] Both CHM 231 and 235 must be taken to secure SQ credit.
[2] Both PHY 111 and 113 must be taken to secure SQ credit.
[3] Both PHY 112 and 114 must be taken to secure SQ credit.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

The remaining hours to bring the total to 56 are selected from among relevant courses in plant biology, other life sciences, and physical sciences.

One of the following courses is also required:

BIO 406 Computer Applications in Biology *CS*.....3
or MAT 351 Mathematical Methods for Genetic Analysis *CS* (3)

HEALTHCARE ORGANIZATIONS AND SOCIETY CERTIFICATE

The certificate program is designed to allow undergraduate students interested in healthcare and the healthcare industry to access a broad range of disciplinary approaches and issues relevant to the subject.

To complete the certificate, students must take 18 semester hours of course work. Before starting the program students should seek advice and information in the School of Life Sciences Student Services Office in the College of Liberal Arts and Sciences or Business Honors advising in the W. P. Carey School of Business.

The course work must conform to the following structure and must be drawn from the three areas listed below. Additional courses are permissible with the approval of an advisor. In addition, students must meet the following requirements:

1. complete 18 semester hours, 12 of which must be in the upper division;
2. earn a "C" or higher in all upper-division courses taken for the certificate; and
3. complete at least 12 of the semester hours for the certificate in residence at ASU.

Overview of the U.S. Healthcare Industry. HSM 220 Healthcare Organizations is required. HSM 498 PS: Healthcare Economics is required for business students. HSM 561 Biostatistics may be taken by petition. No more than three courses in this area may be taken.

Ethical and Legal Issues in Healthcare. PHI 320 Bioethics is required. A second course is also required, PAF 460 Public Service Ethics or HSM 498 PS: Legal and Ethical Issues in Healthcare. No more than three courses in this area may be taken.

Anthropological, Historical, and Social Perspectives on Healthcare. One course is required. No more than two courses in this area may be taken, from among ASB 462 Medical Anthropology: Culture and Health, HPS 331 History of Medicine, and SOC 427 Sociology of Health and Illness.

For more information, visit the School of Life Sciences in LSC 206, or call 480/727-6277. Or visit Business Honors in the W. P. Carey School of Business in BA 150, or call 480/965-8710.

HISTORY AND PHILOSOPHY OF SCIENCE CERTIFICATE

The School of Life Science offers an undergraduate History and Philosophy of Science Certificate. The certificate program is designed to give students an understanding of both traditional philosophic issues surrounding science and the historical development of concrete scientific theories and ideas. The philosophic questions, of the belief-worthiness and interpretation of scientific claims as well as norms within or about science, both enrich and are enriched by their combination with historical study. Such philosophic and historical study will also often include the examination of contemporary sciences and their place within the larger society.

The certificate requires 18 semester hours bearing an HPS or PHI prefix, of which 12 semester hours must be in the upper division. Included with the 18 semester hours, at least nine must bear the HPS prefix. HPS 314 or PHI 314 Philosophy of Science is also required. All courses counting toward the certificate must be approved for this purpose by a School of Life Sciences academic advisor and passed with a grade of "C" (2.00) or higher.

MINOR

Biological Sciences

The Biological Sciences minor is designed to provide students interested in biology with a flexible curriculum that can be tailored to their interests. The minor consists of 24 semester hours, including BIO 187 General Biology I and BIO 188 General Biology II. PLB 200 Biology of Plants and PLB 201 Biology of Plants Laboratory or MIC 206 Microbiology Laboratory and MIC 220 Biology of Microorganisms may together be substituted for BIO 187 or 188. Alternatively, MBB 245 Cellular and Molecular Biology may be substituted for BIO 188. The remaining 16 hours are selected by the student with the approval of an advisor. At least 12 of these 16 hours must be in upper-division courses in the life sciences. Courses not available for credit in the Life Science majors cannot be used for the minor (e.g., BIO 100 The Living World and BIO 201 Human Anatomy and Physiology I). This minor is not available to students majoring in the life sciences.

Any one of these combinations may be used:

1. BIO 187 and BIO 188,
2. BIO 187 and PLB 200 and 201,
3. BIO 188 and PLB 200 and 201,
4. BIO 187 and MIC 206 and 220,
5. BIO 188 and MIC 206 and 220, or
6. BIO 187 and MBB 245.

BIS CONCENTRATIONS

Concentrations in biological sciences, history and philosophy of science, and health care organizations and society are available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. The requirements for the BIS concentrations are the same as for the minor or certificate in that area. For more information, see "School of Interdisciplinary Studies," page 139.

SECONDARY EDUCATION—BAE

This degree is offered through the Initial Teacher Certification (ITC) program in the College of Education. Students pursuing a major in Secondary Education have an advisor in the College of Education and an advisor within the School of Life Sciences.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

Academic Specialization ITC Admission Requirements. The following courses must be completed with a grade of "C" (2.00) or higher before applying to the ITC professional program:

BIO 187 General Biology I *SG* 4
BIO 188 General Biology II *SQ* 4

In addition, at least 12 hours of biology course work from the major teaching field may be in progress when applying to the ITC but must be completed before starting the program.

Biological Sciences. The academic specialization requires 61 hours, and six hours in teaching methods. A minimum grade of "C" (2.00) is required for all course work in the major and related fields. Required major courses are as follows:

BIO 187 General Biology I *SG* 4
BIO 188 General Biology II *SQ* 4
BIO 320 Fundamentals of Ecology 3
BIO 340 General Genetics 4
BIO 345 Organic Evolution 3
BIO 360 Animal Physiology 3
BIO 370 Vertebrate Zoology 4
or BIO 385 Comparative Invertebrate Zoology (4)
or PLB 300 Comparative Plant Diversity *L*/*SG* (4)
or PLB 310 The Flora of Arizona (4)
MIC 205 Microbiology *SG*[1] 3
or MIC 220 Biology of Microorganisms (3)
MIC 206 Microbiology Laboratory *SG*[1] 1
PLB 308 Plant Physiology 4
Electives[2] 6
Total 39

[1] Both MIC 205 and 206 must be taken to secure SG credit.
[2] Electives should be selected from BIO, MIC, and PLB courses. BIO 100, 201, 202, 241, 300, and 319, or PLB 108 and 320 cannot be used to fulfill the elective requirement.

Required supporting courses are as follows:

BIO 316 History of Biology: Conflicts and Controversies *H* 3
or HPS 330 History of Biology: Conflicts and Controversies *H* (3)
CHM 113 General Chemistry I *SQ* 4
CHM 116 General Chemistry with Qualitative Analysis *SQ* 4
GLG 102 Introduction to Geology II (Historical) *SG*,[1] *H* 3
or GLG 300 Geology of Arizona (3)
MAT 170 Precalculus *MA* 3
PHY 101 Introduction to Physics *SQ* 4
or PHY 111, 112 General Physics *SQ*[2] (6)
and PHY 113, 114 General Physics Laboratory *SQ*[2] (2)
Minimum total 21

[1] Both GLG 102 and 104 must be taken to secure SG credit.
[2] Both PHY 111 and 113 or PHY 112 and 114 must be taken to secure SQ credit.

Teaching Methods
BIO 480 Methods of Teaching Biology 3
BIO 482 Advanced Methods of Teaching Biology 3
Total 6

Graduate Programs

The School of Life Sciences offers programs leading to the degrees of Master of Natural Sciences, MS, and PhD See the *Graduate Catalog* for requirements. A combined BS-MS degree in Biology is also available.

MOLECULAR AND CELLULAR BIOLOGY

The school participates in the interdisciplinary program for the MS and PhD degrees in Molecular and Cellular Biology as well.

The interdisciplinary MS and PhD degrees with a major in Molecular and Cellular Biology are administered by the Interdisciplinary Committee on Molecular and Cellular Biology. The participating faculty are drawn primarily from the School of Life Sciences and the Department of Chemistry and Biochemistry, with additional faculty from the Department of Physics and Astronomy and the School of Human Evolution and Social Change.

For more information, contact the director or see the *Graduate Catalog*.

BIOLOGY (BIO)

For more BIO courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M BIO 100 The Living World. (4)
fall, spring, summer
Principles of biology. Cannot be used for major credit in the biological sciences. 3 hours lecture, 3 hours lab.
General Studies: SQ

M BIO 187 General Biology I. (4)
fall, spring, summer
Biological concepts emphasizing principles and interplay of structure and function at the organismal, population, and community levels; includes ecology, evolution. Lecture, lab. Fee. Prerequisite: life science or health-related sciences major.
General Studies: SG

M BIO 188 General Biology II. (4)
fall, spring, summer
Biological concepts emphasizing principles and interplay of structure and function at the molecular, cellular, and organismal levels; includes genetics, cell biology, physiology. Lecture, lab. Fee. Prerequisite: BIO 187 recommended.
General Studies: SQ

M BIO 193 The Nature of Biological Science. (4)
selected semesters
Creative and critical thinking skills in biological research; nature of biological knowledge; role of experimentation, predictions, hypotheses, theories, values. Lecture, lab, discussion. Fee. Prerequisite: high school biology.
General Studies: SQ

M BIO 201 Human Anatomy and Physiology I. (4)
fall, spring, summer
Structure and dynamics of the human mechanism. Cannot be used for major credit in the biological sciences. 3 hours lecture, 3 hours lab. Fee.
General Studies: SG

M BIO 202 Human Anatomy and Physiology II. (4)
fall, spring, summer
Continuation of BIO 201. Cannot be used for major credit in the biological sciences. 3 hours lecture, 3 hours lab. Fee. Prerequisite: BIO 201 or instructor approval.

ΩM BIO 300 Natural History of Arizona. (3)
selected semesters
Plant and animal communities of Arizona. Cannot be used for major credit in the biological sciences. Prerequisite: junior standing.

M BIO 301 Field Natural History. (1)
selected semesters
Organisms and their natural environment. Cannot be used for major credit in the biological sciences. 2 weekend field trips, field project. Fee. Pre- or corequisite: BIO 300.

M BIO 302 Cancer and Heart Disease. (3)
fall
Incidence and mortality statistics for cancer and heart disease; host and environmental risk factors; diagnosis, treatment and prevention strategies. Cannot be counted toward a Biology major. Prerequisites: a combination of CHM 231 (or its equivalent) and 12 hours in life sciences and a General Studies L course or only instructor approval.
General Studies: L

M BIO 303 Radiation and Life. (3)
spring
Benefits and risks of radiation exposure in society; medical applications, food irradiation, nuclear power, solar UV, population health effects. Cannot be counted toward a Biology major. Prerequisites: a combination of CHM 231 (or its equivalent) and 12 hours in life sciences and a General Studies L course or only instructor approval.
General Studies: L

M BIO 304 Radiation Medicine and Biology. (3)
fall
Uses of radiation in medicine, including CT, diagnostic x rays, MRI, nuclear medicine, ultrasound; biological effects of radiation with emphasis on cancer. Prerequisites: a combination of PHY 112 and 12 hours in life sciences and a General Studies L course or only instructor approval.
General Studies: L

M BIO 310 Special Problems and Techniques. (1–3)
fall and spring
Qualified undergraduates may investigate a specific biological problem under the direction of a faculty member. May be repeated for a total of 6 semester hours. Prerequisites: formal conference with the instructor; approval of the problem by the instructor and department chair.

M BIO 311 Biology and Society. (3)
fall
Explores interactions between biological sciences and society, e.g., biomedical, environmental, ethical, historical, legal, philosophical, political, and social issues. Lecture, discussion. Cross-listed as HPS 340. Credit is allowed for only BIO 311 or HPS 340. Prerequisites: both BIO 187 and 188 or only BIO 193 (or 100).

M BIO 314 Research Colloquium in Biology and Society I. (2)
spring
Develops critical thinking abilities, research methods, and writing skills for research in the interactions between biological sciences and society. Lecture, discussion. Prerequisite: BIO 311 or instructor approval.
General Studies: L (if credit also earned in BIO 414)

M BIO 315 HIV/AIDS: Science, Behavior, and Society. (3)
fall and spring
Overview of the basic biological, behavioral, and psychosocial aspects of HIV disease and AIDS. Prerequisite: any 100-level MIC, BIO, or PLB course.

M BIO 316 History of Biology: Conflicts and Controversies. (3)
selected semesters
Focuses on 19th and 20th centuries, considering biology as a discipline. Evolution, problems of heredity, development, and cell theory. Cross-listed as HPS 330. Credit is allowed for only BIO 316 or HPS 330.
General Studies: H

M BIO 317 Conservation Biology. (3)
fall
Scientific and technical means for management, maintenance, protection, and restoration of biological resources on this planet. Prerequisite: 8 hours in biology.

M BIO 318 History of Medicine. (3)
once a year
Scientific study of the human body, changing theories of disease, evolution of practical opinions on treatment, and the emerging institutionalization of medical practice. Cross-listed as HPS 331. Credit is allowed for only BIO 318 or HPS 331.
General Studies: H

M BIO 319 Environmental Science (Nonmajor). (3)
fall
Environmental and biological concepts used to understand ecological systems with specific references to problems caused by humans. Cannot be used for major credit in the biological sciences. Cross-listed as PLB 320. Credit is allowed for only BIO 319 or PLB 320.
General Studies: G

M BIO 320 Fundamentals of Ecology. (3)
fall and spring
Organization, functioning, and development of ecological systems; energy flow; biogeochemical cycling; environmental relations; population dynamics. Prerequisite: BIO 187 or instructor approval.

M BIO 321 Introductory Ecology Laboratory. (3)
once a year
Laboratory and field observations and experiments to test current concepts and theories in ecology. Lab. Fee. Pre- or corequisite: BIO 320.
General Studies: L

M BIO 325 Oceanography. (3)
fall
Introduces marine geology, chemistry, and physical and biological oceanography. Methods of oceanic exploration, environmental and social aspects of oceans. Cross-listed as GLG 325. Credit is allowed for only BIO 325 or GLG 325. Prerequisite: BIO 101 or GLG 101 or instructor approval.

M BIO 331 Animal Behavior. (3)
fall
Evolutionary, genetic, physiological, and ecological bases of animal behavior. Prerequisite: BIO 187 (or its equivalent).

M BIO 336 Sociobiology. (3)
selected semesters
Survey of animal and human social behavior examined from an evolutionary perspective. Suitable for nonmajors. Prerequisite: BIO 331 recommended.

M BIO 340 General Genetics. (4)
fall, spring, summer
Science of heredity and variation. 3 hours lecture, 1 hour recitation. Prerequisite: BIO 187.

M BIO 341 Genetic Analysis. (5)
selected semesters
General genetics: science of heredity and variation using critical inquiry. Not open to students with credit for BIO 340. 3 hours lecture, 6 hours lab. Prerequisites: BIO 187 and 193 (or their equivalents).

M BIO 342 General Genetics Laboratory. (2)
fall
Explores general principles of inheritance with special reference to Mendelian, molecular, and computational genetics via laboratory experiments. Lab. Pre- or corequisite: BIO 340.

M BIO 343 Genetic Engineering and Society. (4)
fall
Introduces genetic engineering, with emphasis on applications (gene therapy, DNA fingerprinting, bioremediation, transgenic animals and plants). 3 hours lecture, 3 hours lab. Cross-listed as MBB 343. Credit is allowed for only BIO 343 or MBB 343. Fee. Prerequisites: preferably MBB 245 or BIO 188 (or its equivalent).
General Studies: L

M BIO 344 Origins, Evolution, and Creation. (3)
selected semesters
Examines scientific, mythic, and religious ideas relating to origins (particularly human). Place of antievolutionism and "scientific creationism" in American culture. Lecture, discussion. Cross-listed as HPS 311/HUM 371/REL 383. Credit is allowed for only BIO 344 or HPS 311 or HUM 371 or REL 383.

M BIO 345 Organic Evolution. (3)
spring
Processes of adaptive change and speciation in sexual populations. Prerequisite: BIO 187.

M BIO 346 The Darwinian Revolution. (3)
selected semesters
Intellectual and cultural history of Darwinism and modern evolutionary theory and their impact on 19th- and 20th-century thought. Lecture, discussion. Cross-listed as HPS 332/HUM 372. Credit is allowed for only BIO 346 or HPS 332 or HUM 372.

M BIO 351 Developmental Anatomy. (3)
fall
General developmental biology (embryology) and comparative structure of organ systems, illustrated mainly by vertebrate examples. Prerequisite: BIO 187.

M BIO 352 Laboratory in Vertebrate Developmental Anatomy. (2)
fall
Morphology of representative embryonic and adult vertebrates. 2 3-hour labs. Fee. Prerequisites: BIO 187; BIO 351 recommended.

M BIO 353 Cell Biology. (3)
fall, spring, summer
Survey of major topics in cell biology, including structural, biochemical, and molecular aspects of cell function. Prerequisite: BIO 187.

M BIO 360 Animal Physiology. (3)
fall and spring
Physiological mechanisms of the higher vertebrates. Prerequisites: BIO 187; CHM 115; MAT 117.

M BIO 361 Animal Physiology Laboratory. (2)
fall and spring
Experimental laboratory studies of physiological mechanisms in animals and model systems. Lab, recitation. Fee. Prerequisites: CHM 115; MAT 117. Pre- or corequisite: BIO 360.

M BIO 370 Vertebrate Zoology. (4)
fall and spring
Characteristics, classification, evolution, and natural history of the major groups of vertebrate animals. 3 hours lecture, 3 hours lab. Fee. Prerequisite: BIO 187.

M BIO 385 Comparative Invertebrate Zoology. (4)
fall
Characteristics, life cycles, adaptations, and evolution of invertebrate animals. 3 hours lecture, 3 hours lab. Fee. Prerequisite: BIO 187 or instructor approval.

M BIO 386 General Entomology. (4)
selected semesters
Form, activities, and classification of insects. 3 hours lecture, 3 hours lab. Fee. Prerequisite: BIO 187.

M BIO 390 Medical/Dental Field Placement. (3)
fall, spring, summer
Field placement for students exploring a career in a health profession. Requires classroom sessions and field work. Lecture, lab.
Prerequisites: application; instructor approval.

M BIO 394 Special Topics. (1–4)
selected semesters
Topics of current or special interest in one or more aspects of biology. Topics may include the following.
- Introduction to Computational Molecular Biology. (2–3) Fee.

Prerequisite: junior standing.

M BIO 406 Computer Applications in Biology. (3)
fall
Computer analysis techniques in biology emphasizing data entry, management and analysis, and graphic portrayal. Employs mainframe and microcomputers. 2 hours lecture, 3 hours lab. Cross-listed as PLB 432. Credit is allowed for only BIO 406 or PLB 432. Fee.
Prerequisites: both BIO 187 and MAT 117 (or 210) or only instructor approval.
General Studies: CS

M BIO 410 Techniques in Wildlife Conservation Biology. (3)
fall
Field and analytical techniques used in evaluating population structure, viability and environmental impacts. Lecture, lab. Fee.
Prerequisites: both BIO 317 and 320 or only instructor approval.
General Studies: L

M BIO 411 Advanced Conservation Biology I. (3)
selected semesters
Principles of conservation science, biology of threatened species, management principles that meet conservation goals, emphasizing North American ecosystems. Prerequisites: BIO 317, 320.

M BIO 412 Advanced Conservation Biology II. (3)
spring
Global biodiversity patterns, processes, and conservation; global environmental change; sustainable use of natural resources; emphasizing international approaches to conservation biology. Prerequisites: BIO 317, 320.

M BIO 414 Research Colloquium in Biology and Society II. (1)
spring
Further develops critical thinking abilities, research methods, and writing skills for research in the interactions between biological sciences and society. Lecture, discussion. Prerequisites: both BIO 311 and 314 or only instructor approval.
General Studies: L (if credit also earned in BIO 314)

M BIO 415 Biometry. (4)
fall
Statistical methods applied to biological problems, design of experiments, estimation, significance, analysis of variance, regression, correlation, chi square, and bioassay; the use of computers. Does not satisfy laboratory requirements for the College of Liberal Arts and Sciences' General Studies program. 3 hours lecture, 3 hours lab. Fee. Prerequisite: MAT 210 (or its equivalent).
General Studies: CS

M BIO 416 Professional Values in Science. (3)
once a year
Considers issues related to values in science such as collaboration, finances, legal issues, media, mentoring, ownership of ideas, scientific integrity. Discussion, student projects. Cross-listed as HPS 410. Credit is allowed for only BIO 416 or HPS 410.
General Studies: L

M BIO 417 Experimental Design. (3)
spring
Fixed, random, mixed models; crossed and nested factorial designs; balanced and unbalanced data; completely randomized, blocked, repeated measure designs; ANCOVA. Prerequisite: BIO 415 (or its equivalent).

M BIO 420 Field Zoology. (3)
selected semesters
Experience in zoological field techniques. Weekend or longer field trips. Prerequisite: instructor approval.

M BIO 421 Landscape Ecology. (3)
fall
Discusses how landscape heterogeneity interacts with ecological processes, and implications for biodiversity conservation, resource management, and landscape and urban planning. Prerequisite: BIO 320.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M BIO 423 Population and Community Ecology. (3)
selected semesters
Organization and dynamics of population and communities, emphasizing animals. Theoretical and empirical approaches. Prerequisite: BIO 320 or instructor approval.

M BIO 424 Mathematical Models in Ecology. (4)
selected semesters
Mathematical modeling of populations, communities, and ecosystems, including case studies and student-designed projects. 3 hours lecture, 3 hours lab. Prerequisites: BIO 320; a course in calculus.

M BIO 425 Animal Ecology. (3)
selected semesters
Physiological and behavioral adaptations of individual animals to both abiotic and biotic environments. Prerequisite: BIO 320.

M BIO 426 Limnology. (4)
selected semesters
Structure and function of aquatic ecosystems, with emphasis on freshwater lakes and streams. 3 hours lecture, 3 hours lab or field trip. Fee. Prerequisite: BIO 320 or instructor approval.
General Studies: L

M BIO 427 Fire. (3)
selected semesters
Interdisciplinary survey of fire on Earth—its history, ecology, and management. Prerequisite: BIO 187.

M BIO 428 Biogeography. (3)
fall
Environmental and historical processes determining distributional patterns of animals and plants, emphasizing terrestrial life. Prerequisites: BIO 187 (or its equivalent); junior standing.
General Studies: L

M BIO 431 Genes, Development, and Evolution. (3)
fall
Contribution of genes, developmental processes, and evolution to pattern of phenotypic variation, including disease. Discussion, presentation. Prerequisites: BIO 187, 188 (or their equivalents).

M BIO 435 Research Techniques in Animal Behavior. (3)
selected semesters
Experimental and field studies of animal behavior; description and quantification of animal behavior and interpretation of behavior within an evolutionary framework. 1 hour lecture, 6 hours lab. Prerequisite: BIO 331.

M BIO 446 Principles of Human Genetics. (3)
once a year
Molecular and cellular analysis of the human genome. Prerequisite: BIO 340.
General Studies: L

M BIO 450 Advanced Developmental Biology. (3)
spring
Current concepts and experimental methods involving differentiation and biosynthetic activities of cells and organisms, with examples from microorganisms, plants, and animals. Prerequisite: BIO 351.

M BIO 451 Cell Biotechnology Laboratory. (3)
fall
Mammalian cell culture techniques, including mouse embryonic stem cells, the use of bioreactors, cell fractionation, and digital video imaging. Lecture, lab. Cross-listed as BME 451. Credit is allowed for only BIO 451 or BME 451. Prerequisites: BIO 353; instructor approval.

M BIO 453 Animal Histology. (4)
selected semesters
Microscopic study of animal tissues. 3 hours lecture, 3 hours lab. Fee. Prerequisite: BIO 187 or instructor approval.

M BIO 460 Astrobiology. (3)
fall and spring
Origin, early evolution, distribution, and future of life on Earth and elsewhere in the cosmos. May be repeated for credit. Lecture, discussion, video conferences, possible field trips. Cross-listed as AST 460/CHM 483/GLG 460/MIC 475. Credit is allowed for only AST 460 or BIO 460 or CHM 483 or GLG 460 or MIC 475. Prerequisite: instructor approval.

M BIO 464 Photobiology. (3)
selected semesters
Principles underlying the effects of light on growth, development, and behavior of plants, animals, and microorganisms. Cross-listed as PLB 440. Credit is allowed for only BIO 464 or PLB 440. Prerequisites: CHM 231 (or 233); 12 hours in life sciences.

M BIO 465 Neurophysiology. (3)
spring in even years
Detailed treatment of cellular and organismal neurophysiology and nervous system function. Prerequisite: BIO 360.

M BIO 466 Neurophysiology Laboratory. (2)
selected semesters
Intracellular and extracellular electrophysiological recording techniques, histological preparations, and dye-filling techniques. 6 hours lab. Pre- or corequisite: BIO 465.

M BIO 470 Systematic Zoology. (4)
spring in odd years
Philosophy, theory, practice of interpreting animal diversity, including species concepts speciation, nomenclature, and evolutionary and phylogenetic classification emphasizing phylogenetics. 3 hours lecture, 3 hours lab. Prerequisites: junior standing; 18 hours in life sciences.
General Studies: L

M BIO 471 Ornithology. (3)
spring in odd years
Biology of birds. 2 hours lecture, 3 hours lab, weekend field trips. Fee. Prerequisite: BIO 370 or instructor approval.

M BIO 472 Mammalogy. (4)
fall in odd years
Classification, structure, habits, ecology, and distribution of mammals, emphasizing North American forms. 3 hours lecture, 3 hours lab or field trip, weekend field trips. Fee. Prerequisite: BIO 370 or instructor approval.

M BIO 473 Ichthyology. (3)
spring in odd years
Systematics and biology of recent and extinct fishes. 2 hours lecture, 3 hours lab or field trip, weekend field trips. Fee. Prerequisites: both BIO 370 and 425 or only instructor approval.

M BIO 474 Herpetology. (3)
spring in even years
Systematics and biology of recent and extinct reptiles and amphibians. 2 hours lecture, 3 hours lab or field trip. Fee. Prerequisite: BIO 370.

M BIO 480 Methods of Teaching Biology. (3)
spring
Methods of instruction, experimentation, organization, and presentation of appropriate content in biology. Prerequisite: 20 hours in the biological sciences.

M BIO 482 Advanced Methods of Teaching Biology. (3)
fall in odd years
Design, delivery, and evaluation of student-centered, inquiry-based lessons for high school biology students. Learning cycle. Prerequisite: BIO 480.

M BIO 484 Internship. (3)
selected semesters

M BIO 490 Surgical Field Placement. (3)
fall, spring, summer
Advanced field placement for students exploring a career in a health profession. Requires classroom sessions and field work. May be repeated for credit. Lecture, lab. Prerequisites: application; instructor approval. Pre- or corequisite: BIO 390.

M BIO 492 Honors Directed Study. (1–6)
selected semesters

M BIO 493 Honors Thesis. (1–6)
fall, spring, summer
General Studies: L

M BIO 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Advanced Study Practicum. (1–3)

M BIO 495 Undergraduate Thesis. (3)
fall, spring, summer
Guided research culminating in the preparation of an undergraduate thesis based on supervised research done in this and previous semesters. Prerequisites: at least 3 hours of BIO 310 (or 499); formal conference with instructor; instructor and department chair approval.

M BIO 498 Pro-Seminar. (1–7)
selected semesters

M BIO 499 Individualized Instruction. (1–3)
fall and spring

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

CLINICAL LABORATORY SCIENCES/ MEDICAL TECHNOLOGY (CLS)

M CLS 100 Introduction to Clinical Laboratory Sciences. (1)
fall
Introduces the field of clinical laboratory sciences. Required for Clinical Laboratory Sciences majors.

M CLS 310 Principles of Clinical Chemistry I. (6)
spring
Theory and application of principles of clinical chemistry, with emphasis on laboratory techniques, pathophysiology, methods of analysis, and assessment of procedure. 3 hours lecture, 9 hours lab. Fee. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.

M CLS 320 Principles of Clinical Microbiology I. (6)
spring
Theory and application of principles of clinical microbiology with emphasis on isolation and identification of medically significant fungi and bacteria. 3 hours lecture, 9 hours lab. Fee. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.

M CLS 330 Principles of Clinical Hematology I/Body Fluids. (3)
fall
Theory and application of principles in hematology, with emphasis on techniques to evaluate blood dyscrasias and analyze body fluids. 2 hours lecture, 3 hours lab. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.

M CLS 410 Principles of Clinical Chemistry II. (2)
summer
Continuation of CLS 310 with emphasis on principles of advanced clinical chemistry. 1 hour lecture, 3 hours lab. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.

M CLS 411 Advanced Applications of Clinical Chemistry. (4)
fall
Clinical application of theory/techniques from CLS 310 and 410. Emphasizes operation of common laboratory instrumentation and clinical correlation. Minimum 180 hours practicum. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.

M CLS 420 Principles of Clinical Microbiology II. (2)
summer
Disease mechanisms and identification of medically significant parasites, Mycobacteria, Actinomycetes, Chlamydia, Rickettsia, Mycoplasma, and viruses. 1 hour lecture, 3 hours lab. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.

M CLS 421 Advanced Applications of Clinical Microbiology. (4)
spring
Practical laboratory application of the principles of specimen collection, processing, detection, identification, and antimicrobial testing of medically significant bacteria, fungi, and parasites. Minimum 180 hours practicum. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.

M CLS 430 Principles of Clinical Hematology II/Hemostasis. (3)
fall
Theory and applications of principles in hematology with emphasis on etiology, pathophysiology, clinical manifestations, and treatment of blood dyscrasias/hemostatic defects. 2 hours lecture, 3 hours lab. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.

M CLS 431 Advanced Applications of Clinical Hematology. (4)
spring
Practical laboratory application of methods/techniques used to evaluate and diagnose blood dyscrasias/hemostatic defects. Applied techniques in body fluid analysis. Minimum 180 hours practicum. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.

M CLS 440 Principles of Clinical Immunology/Immunohematology. (4)
fall
Theoretical and practical application of clinical immunology and immunohematology. Emphasizes serological techniques that aid disease diagnosis and blood donor selection. 3 hours lecture, 3 hours lab. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.

M CLS 441 Advanced Applications of Clinical Immunology/Immunohematology. (3)
spring
Practical laboratory application of the principles of serological methods used in diagnosing disease and selecting blood components for transfusion therapy. Minimum 135 hours practicum. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.

M CLS 450 Principles of Clinical Laboratory Administration. (2)
fall and spring
Principles of management, with emphasis on the clinical laboratory. Basic management process, personnel supervision, identification, and allocation of resources. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.
General Studies: L (if credit also earned in CLS 460)

M CLS 460 Principles of Clinical Laboratory Education. (1)
spring
Principles of learning, with application to the development of instructional objectives, strategies, and evaluation for teaching-learning situations in the laboratory. Prerequisite: admission to the Clinical Laboratory Sciences professional study program.
General Studies: L (if credit also earned in CLS 450)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

HISTORY AND PHILOSOPHY OF SCIENCE (HPS)

M HPS 311 Origins, Evolution, and Creation. (3)
selected semesters
Examines scientific, mythic, and religious ideas relating to origins (particularly human). Place of antievolutionism and "scientific creationism" in American culture. Lecture, discussion. Cross-listed as BIO 344/HUM 371/REL 383. Credit is allowed for only BIO 344 or HPS 311 or HUM 371 or REL 383.

M HPS 314 Philosophy of Science. (3)
once a year
Structure and justification of scientific theories, explanation, and theory change. Roles of observation and laws, theoretical concepts and entities, reduction, probability, confirmation, space and time, and causation. Cross-listed as PHI 314. Credit is allowed for only HPS 314 or PHI 314.
General Studies: HU

M HPS 322 History of Science. (3)
once a year
Development and application of scientific thinking from ancient times through the 17th century.
General Studies: HU, H

M HPS 323 History of Science. (3)
selected semesters
Development and application of scientific thinking from the 18th century to the present.
General Studies: HU, H

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M HPS 325 Chinese Science and Medicine. (3)
selected semesters
Explores development of Chinese traditions dealing with the natural world, science, and medicine. Lecture, discussion. Cross-listed as HST 385. Credit is allowed for only HPS 325 or HST 385.
General Studies: HU, G, H

M HPS 330 History of Biology: Conflicts and Controversies. (3)
selected semesters
Focuses on 19th and 20th centuries, considering biology as a discipline. Evolution, problems of heredity, development, and cell theory. Cross-listed as BIO 316. Credit is allowed for only BIO 316 or HPS 330.
General Studies: H

M HPS 331 History of Medicine. (3)
once a year
Scientific study of the human body, changing theories of disease, evolution of practical opinions on treatment, and the emerging institutionalization of medical practice. Cross-listed as BIO 318. Credit is allowed for only BIO 318 or HPS 331.
General Studies: H

M HPS 332 The Darwinian Revolution. (3)
selected semesters
Intellectual and cultural history of Darwinism and modern evolutionary theory and their impact on 19th- and 20th-century thought. Lecture, discussion. Cross-listed as BIO 346/HUM 372. Credit is allowed for only BIO 346 or HPS 332 or HUM 372.

M HPS 336 Exploration and Science. (3)
fall
500-year survey of exploration as a historical process and cultural activity of Western civilization, with emphasis on its links with modern science.
General Studies: SB, H

M HPS 340 Biology and Society. (3)
fall
Explores interactions between biological sciences and society, e.g., biomedical, environmental, ethical, historical, legal, philosophical, political, and social issues. Lecture, discussion. Cross-listed as BIO 311. Credit is allowed for only BIO 311 or HPS 340. Prerequisites: both BIO 187 and 188 or only BIO 193 (or 100).

M HPS 377 Nature in Context. (3)
fall
Explores perspectives on the nature of nature, the history of ecology, and the rise of environmentalism. Seminar. Cross-listed as HON 377. Credit is allowed for only HON 377 or HPS 377.
General Studies: L/HU

M HPS 402 Technology, Society, and Human Values. (3)
once a year
Values that motivate humankind to create technology. Areas of conflict and resolution of conflict between values and technology. Readings and discussions with visiting lecturers. Prerequisite: junior standing.

M HPS 410 Professional Values in Science. (3)
once a year
Considers issues related to values in science such as collaboration, finances, legal issues, media, mentoring, ownership of ideas, scientific integrity. Discussion, student projects. Cross-listed as BIO 416. Credit is allowed for only BIO 416 or HPS 410.
General Studies: L

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

MOLECULAR BIOSCIENCES/BIOTECHNOLOGY (MBB)

M MBB 245 Cellular and Molecular Biology. (4)
fall and spring
Concepts that underlie relationships between cellular and subcellular structure and function, and integration of major metabolic and genetic processes. Lecture, lab. Fee. Prerequisite: life science major or preprofessional student in health-related sciences.
General Studies: SQ

M MBB 247 Applied Biosciences: Biotechnology. (4)
fall and spring
Applies concepts of molecular and cellular biology of bacteria, animals, and plants to real-world problems. Lecture, lab. Fee. Prerequisite: MBB 245.

M MBB 343 Genetic Engineering and Society. (4)
fall
Introduces genetic engineering, with emphasis on applications (gene therapy, DNA fingerprinting, bioremediation, transgenic animals and plants). 3 hours lecture, 3 hours lab. Cross-listed as BIO 343. Credit is allowed for only BIO 343 or MBB 343. Fee. Prerequisites: preferably MBB 245 or BIO 188 (or its equivalent).
General Studies: L

M MBB 350 Applied Genetics. (4)
spring
Introduces molecular genetics with emphasis on application of genetics in solving biological questions and engineering organisms in biotechnology. 2 hours lecture, 6 hours lab. Cross-listed as PLB 350. Credit is allowed for only MBB 350 or PLB 350. Fee. Prerequisite: preferably MBB 247 or BIO 340 (or 341).

M MBB 445 Techniques in Molecular Biology/Genetics. (2)
fall and spring
Molecular genetic principles: plasmid construction, purification, and characterization; PCR; mutageneses; hybridization and sequence analysis; protein quantitation, immunologic detection, and electrophoresis. Cross-listed as MIC 445. Credit is allowed for only MBB 445 or MIC 445. Prerequisites: both BIO 340 and MIC 302 or only instructor approval.

M MBB 446 Techniques in Molecular Biology/Genetics Lab. (2)
fall and spring
Molecular genetic techniques; plasmid construction, purification, and characterization; PCR; mutageneses; hybridization and sequence analysis; protein quantitation; immunologic detection and electrophoresis. Cross-listed as MIC 446. Credit is allowed for only MBB 446 or MIC 446. Pre- or corequisite: MBB 445 or MIC 445.

M MBB 484 Internship. (3)
selected semesters

M MBB 490 Capstone: Issues in Biotechnology. (2)
fall and spring
Integrates science and humanities within problem-solving exercises dealing with intellectual property, ethics, regulatory issues, business practices, and commercialization. May be repeated for credit. Prerequisite: Molecular Biosciences/Biotechnology major or instructor approval.
General Studies: L (must be taken twice to secure L credit)

M MBB 492 Honors Directed Study. (1–6)
selected semesters

M MBB 493 Honors Thesis. (1–6)
selected semesters
General Studies: L

M MBB 494 Special Topics. (1–4)
selected semesters

M MBB 498 Pro-Seminar. (1–7)
selected semesters

M MBB 499 Individualized Instruction. (3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

MOLECULAR AND CELLULAR BIOLOGY (MCB)

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

MICROBIOLOGY (MIC)

M MIC 205 Microbiology. (3)
fall, spring, summer
Basic course for students without credit in BIO 188, emphasizing general principles; role of microorganisms in health, ecology, and applied fields. May not be used for Microbiology major credit unless a

diagnostic test is passed. Prerequisites: both BIO 100 (or PLB 108) and CHM 101 or only instructor approval.
General Studies: SG (if credit also earned in MIC 206)

M MIC 206 Microbiology Laboratory. (1)
fall, spring, summer
Principles and laboratory techniques used in identifying and handling microorganisms. 3 hours lab. Fee. Pre- or corequisite: MIC 205 or 220.
General Studies: SG (if credit also earned in MIC 205)

M MIC 220 Biology of Microorganisms. (3)
fall and spring
Basic course for students with credit in BIO 188. Detailed study of microbial cells, their structure, genetics, physiology, and taxonomy. Corequisites: BIO 187; CHM 115.

M MIC 302 Advanced Bacteriology Laboratory. (2)
fall and spring
Advanced laboratory techniques in bacterial growth, physiology, genetics, and microscopy. Required of Microbiology majors. 4 hours lab. Fee. Prerequisites: completion of General Studies L requirement and either (a) MIC 206 and 220 or (b) MIC 205 and 206 and instructor approval.
General Studies: L (if credit also earned in MIC 401)

M MIC 360 Bacterial Physiology. (3)
fall and spring
Mechanisms and control of cell metabolism, structures, and functions. Prerequisite: MIC 220. Pre- or corequisite: BCH 361 or instructor approval.

M MIC 380 Medical Parasitology. (3)
fall
Parasitic diseases of humans, including life cycle events and clinical manifestations. Prerequisite: MIC 205 or 220.

M MIC 381 Pathogenic Microbes. (3)
spring
Host-microbial interactions in infectious disease, with emphasis on pathogenesis, host defenses, and molecular mechanisms of microbial virulence. Prerequisite: MIC 360 or 6 hours in microbiology with instructor approval.

M MIC 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- HIV Disease and AIDS in America
- Medical Immunology

M MIC 401 Research Paper. (1)
fall, spring, summer
Paper of 15 or more pages based on library or laboratory research in collaboration with a faculty member. Required of all Microbiology majors. Prerequisites: MIC 302; completion of General Studies L requirement.
General Studies: L (if credit also earned in MIC 302)

M MIC 402 Service Learning. (3)
fall and spring
K–12 tutoring internship; learning activities employed were originally developed as part of the Bio Reach Program. Requires weekly reflective writing. May be repeated for credit. Internship. Fee. Pre- or corequisite: BIO 181 or 188.
General Studies: C

M MIC 420 Immunology: Molecular and Cellular Foundations. (3)
fall
Molecular and cellular foundations of immunology. Antibody/antigen interactions, cellular response, cytokines, immunogenetics, immunoregulation, autoimmunity, psychoneuroimmunology research/medical perspectives. Prerequisites: both CHM 231 (or 233) and MIC 205 (or 220) or only instructor approval.

M MIC 421 Experimental Immunology. (2)
fall and spring
Introduces the basic techniques, methods, and assays used in immunology. 6 hours lab. Fee. Prerequisites: a combination of CHM 231 and 233 and MIC 302 or only instructor approval.

M MIC 425 Advanced Immunology. (3)
selected semesters
Survey of recent advances in immunology, including lymphocyte membranes, lymphokines/biochemistry, molecular genetics, theoretical immunology, immunoregulation, neuroimmunology, and immunologic diseases. Prerequisite: MIC 420 or instructor approval.

M MIC 428 Immunophilosophy. (3)
selected semesters
Integrates immunology and philosophy, including psychoneuroimmunology and the mind-body problem, and immunologic/psychologic perspectives on self and self-identity. Discussion, original literature readings and written assignments. Cross-listed as PHI 428. Credit is allowed for only MIC 428 or PHI 428. Pre- or corequisite: MIC 420 or PHI 317 or instructor approval.

M MIC 441 Bacterial Genetics. (3)
spring
Survey of genetic exchange and regulatory processes in bacteria and their viruses. Bacteria and viruses as tools in genetic engineering. Prerequisites: both BIO 340 and MIC 205 (or 220) or only instructor approval.

M MIC 442 Bacterial Genetics Laboratory. (1)
fall
Techniques of mutagenesis, mapping, and strain and genetic library construction. 4 hours lab. Prerequisites: MIC 206, 302. Pre- or corequisite: MIC 441.

M MIC 445 Techniques in Molecular Biology/Genetics. (2)
fall and spring
Molecular genetic principles: plasmid construction, purification, and characterization; PCR; mutageneses; hybridization and sequence analysis; protein quantitation; immunologic detection and electrophoresis. Cross-listed as MBB 445. Credit is allowed for only MBB 445 or MIC 445. Prerequisites: both BIO 340 and MIC 302 or only instructor approval.

M MIC 446 Techniques in Molecular Biology/Genetics Lab. (2)
fall and spring
Molecular genetic techniques; plasmid construction, purification, and characterization; PCR; mutageneses; hybridization and sequence analysis; protein quantitation; immunologic detection and electrophoresis. Cross-listed as MBB 446. Credit is allowed for only MBB 446 or MIC 446. Pre- or corequisite: MBB 445 or MIC 445.

M MIC 461 Geomicrobiology. (3)
spring
Past and present interactions among microbial life, geological materials, and biogeochemical cycles involving carbon, sulfur, phosphate, nitrogen, and metals. Cross-listed as GLG 461. Credit is allowed for only GLG 461 or MIC 461. Prerequisites: introductory courses in chemistry and microbiology (or geological sciences); instructor approval.

M MIC 470 Bacterial Diversity and Systematics. (4)
selected semesters
Biology, classification, and enrichment culture of the nonpathogenic bacteria. 2 hours lecture, 6 hours lab. Fee. Prerequisite: MIC 302.

M MIC 475 Astrobiology. (3)
fall and spring
Origin, early evolution, distribution, and future of life on Earth and elsewhere in the cosmos. May be repeated for credit. Lecture, discussion, video conferences, possible field trips. Cross-listed as AST 460/BIO 460/CHM 483/GLG 460. Credit is allowed for only AST 460 or BIO 460 or CHM 483 or GLG 460 or MIC 475. Prerequisite: instructor approval.

M MIC 484 Internship. (1–12)
fall, spring, summer

M MIC 485 General Virology. (3)
fall
Fundamental principles of viruses, their molecular biology, replication, genetics, and pathogenesis. Prerequisites: a combination of BCH 361 and MIC 206 and 220 or only instructor approval.

M MIC 492 Honors Directed Study. (1–6)
selected semesters

M MIC 493 Honors Thesis. (1–6)
selected semesters
General Studies: L

M MIC 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Clinical Bacteriology Laboratory. (3)
- Service Learning (Bioreach). (3)

M MIC 495 Undergraduate Research. (1–6)
fall, spring, summer
Supervised research in microbiology. May be repeated for credit. Lab. Prerequisites: MIC 206, 220, 302; instructor approval.

M MIC 498 Pro-Seminar. (1–7)
selected semesters

M MIC 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

PLANT BIOLOGY (PLB)

M PLB 108 Concepts in Plant Biology. (4)
fall, spring, summer
Introduces concepts of plant biology that are of human relevance using commercially important, edible, and medicinal plants as examples. Not for majors in the biological sciences. 3 hours lecture, 3 hours lab. Fee.
General Studies: SQ

M PLB 200 Biology of Plants. (3)
fall, spring, summer
Analyzes the structure/function interaction for plant cells and tissues and properties that emerge in whole plants. Prerequisites: high school biology and chemistry.
General Studies: SQ (if credit also earned in PLB 201)

M PLB 201 Biology of Plants Laboratory. (1)
fall, spring, summer
Lab/field experiments to teach techniques and protocols of the scientific process; reinforces concepts from lecture by asking questions and solving problems. Lab. Prerequisites: high school biology and chemistry.
General Studies: SQ (if credit also earned in PLB 200)

M PLB 300 Comparative Plant Diversity. (4)
fall
Surveys major plant groups and other photosynthetic organisms. Emphasizes comparative data analysis, evolutionary inference, and phylogenetic methods. 3 hours lecture, 3 hours lab. Fee. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or its equivalent).
General Studies: L/SG

M PLB 302 Plants and Civilization. (3)
fall
Plants and plant products used by people throughout the world. Cultivation, processing, and uses in modern life (beverages, fibers, foods, medicinals, and perfumes). Prerequisites: preferably both PLB 200 and 201 (or 108) or only BIO 187 (or its equivalent).

M PLB 304 Biology of Algae and Fungi. (3)
selected semesters
Ecology, economics, and evolutionary diversity of the algae and fungi. Traditional and modern biotechnological uses. 2 hours lecture, 3 hours lab. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or its equivalent).

M PLB 305 Desert Annuals and Cacti. (3)
fall
Adaptive biology of select plants. Analyzes diverse traits permitting survival in deserts: reproduction, structure, and physiology. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or equivalent).

M PLB 306 Plant Anatomy. (4)
fall
Development and mature structure of tissues of vascular plants; patterns and modifications of the leaf, stem, root, and flower. 3 hours lecture, 3 hours lab. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or its equivalent).

M PLB 308 Plant Physiology. (4)
spring
Concepts of plant function: carbon metabolism, energy acquisition, regulation of growth and development, stress responses, and water and nutrient uptake. Fee. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or its equivalent); CHM 101 (or 115 or 231).

M PLB 310 The Flora of Arizona. (4)
spring
Principles of taxonomy; identification of Arizona plants. 2 hours lecture, 6 hours lab. Fee. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or its equivalent).

M PLB 400 Lichenology. (3)
spring in odd years
Chemistry, ecology, physiology, and taxonomy of lichens. 2 hours lecture, 3 hours lab. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or its equivalent).

M PLB 401 Mycology. (3)
spring
Fungal morphology and systematics with an introduction to fungal cell biology, ecology, economic significance, and growth and development. 2 hours lecture, 3 hours lab. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or its equivalent) or only MIC 206.

M PLB 402 Service Learning. (3)
fall and spring
K–12 tutoring and mentoring internship related to academic course work in plant biology; requires weekly reflective reading and writing. May be repeated for credit. Internship. Fee. Pre- or corequisite: BIO 187 or PLB 108 (or 200 and 201).
General Studies: C

M PLB 404 Phycology. (4)
spring
Algae (both fresh water and marine forms), emphasizing field collection and identification of local representatives. Morphological, ecological, and economic aspects of the algae. 3 hours lecture, 3 hours lab. Fee. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or its equivalent).

M PLB 407 Plant Fossils and Evolution. (4)
spring in odd years
Broad survey of plant life of the past, including the structure of plant fossils, their geologic ranges, geographic distribution, and paleoenvironment. 3 hours lecture, 3 hours lab or field trip. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or equivalent).

M PLB 410 Angiosperm Taxonomy. (3)
spring
Principles underlying angiosperm phylogeny. 2 hours lecture, 3 hours lab. Prerequisite: PLB 310 or instructor approval.

M PLB 411 Trees and Shrubs of Arizona. (3)
fall
Identification of woody plants from desert, chaparral, and forest habitats in Arizona. 1 hour lecture, 3 hours lab, field trips. Fee. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or its equivalent) or only instructor approval.

M PLB 414 Plant Pathology. (3)
spring
Identification and control of biotic and abiotic factors that cause common disease problems to plants. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or its equivalent) or only instructor approval.
General Studies: L

M PLB 416 Medical Botany. (4)
summer
Explores plants affecting human health: modern- and folk-usage medicinal plants. Quality control, clinical evidence, plant chemistry, and ethnopharmacology. 3 hours lecture, 3 hours lab. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 (or its equivalent) or only instructor approval.

M PLB 484 Internship. (1–12)
selected semesters
Topics may include the following:
- Plant Biology Internship. (3)
  fall and spring
  Applies a simplified version of PLB 108 to teach fifth-grade children by planting gardens and conducting indoor plant experiments.

- Service Learning
  fall, spring, summer
  Fee.

M PLB 492 Honors Directed Study. (1–6)
selected semesters

M PLB 493 Honors Thesis. (1–6)
selected semesters
General Studies: L

M PLB 494 Special Topics. (1–4)
selected semesters

M PLB 498 Pro-Seminar. (1–7)
fall and spring

M PLB 499 Individualized Instruction. (3)
selected semesters

Environmental Science and Ecology

M PLB 320 Environmental Science (Nonmajor). (3)
fall
Environmental and biological concepts used to understand ecological systems with specific references to problems caused by humans. Cannot be used for major credit in the biological sciences. Cross-listed as BIO 319. Credit is allowed for only BIO 319 or PLB 320.
General Studies: G

M PLB 322 Environmental Science (Major). (3)
fall
Nature of environmental and biological interaction: historical and modern examples, regional and global issues. Participation in environmental problem-solving activities. Lecture, lab. Prerequisites: preferably both PLB 200 and 201 or both GLG 110 and 111 or only GPH 111.

M PLB 420 Plant Ecology: Organisms and Populations. (3)
spring in odd years
Factors and controls on the physiological ecology and organization of plants and plant populations using empirical and theoretical approaches. 2 hours lecture, 3 hours lab. Fee. Prerequisite: BIO 320 or PLB 322 (or its equivalent).

M PLB 421 Plant Ecology: Communities and Ecosystems. (3)
spring in even years
Plant community organization, field sampling techniques, and the structure and function of terrestrial ecosystems emphasizing the role of vegetation. 2 hours lecture, 3 hours lab. Fee. Prerequisite: BIO 320 or PLB 322 (or its equivalent).

M PLB 422 Plant Geography. (3)
once a year
Plant communities of the world and their interpretation, emphasizing North American plant associations. Cross-listed as GPH 422. Credit is allowed for only GPH 422 or PLB 422. Prerequisites: preferably both PLB 200 and 201 or only BIO 187 or only GPH 111.

M PLB 430 Statistical Analyses in Environmental Science. (3)
spring
ANOVAS, 1-way classification of factorial and partially hierarchic designs; introductory multivariate statistics. Fee. Prerequisite: MAT 210 (or its equivalent).
General Studies: CS

M PLB 432 Computer Applications in Biology. (3)
fall
Computer analysis techniques in biology emphasizing data entry, management and analysis, and graphic portrayal. Employs mainframe and microcomputers. 2 hours lecture, 3 hours lab. Cross-listed as BIO 406. Credit is allowed for only BIO 406 or PLB 432. Fee. Prerequisites: both BIO 187 and MAT 117 (or 210) or only instructor approval.
General Studies: CS

M PLB 434 Landscape Ecological Analysis and Modeling. (3)
spring in odd years
Technical methods of landscape ecological analyses. Includes mathematical and statistical examination and modeling of landscape ecological patterns and processes. Prerequisites: both BIO 320 and 406 or only PLB 432 (or its equivalent).

Students conduct a bioengineering experiment that evaluates balance changes in the aging process. Tim Trumble photo

Plant Biochemistry and Molecular Biology

M PLB 350 Applied Genetics. (4)
spring
Introduces molecular genetics with emphasis on application of genetics in solving biological questions and engineering organisms in biotechnology. 2 hours lecture, 6 hours lab. Cross-listed as MBB 350. Credit is allowed for only MBB 350 or PLB 350. Fee. Prerequisite: preferably MBB 247 or BIO 340 (or 341).

M PLB 440 Photobiology. (3)
selected semesters
Principles underlying the effects of light on growth, development, and behavior of plants, animals, and microorganisms. Cross-listed as BIO 464. Credit is allowed for only BIO 464 or PLB 440. Prerequisites: CHM 231 (or 233); 12 hours in life sciences.

M PLB 444 Plant Growth and Development. (3)
spring
Molecular basis of development, role of signal transduction pathways/gene regulation in control of organ formation, pollination, germination, and growth. Prerequisite: BIO 353.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Mathematics and Statistics

math.la.asu.edu
480/965-3951
PS A216

Dieter Armbruster, Interim Chair

Regents' Professor: Castillo-Chavez

Professors: Armbruster, Barcelo, Bremner, Carlson, Eubank, Gardner, Ihrig, Z. Jackiewicz, Kadell, Kawski, Kierstead, Kostelich, Kuang, Kuiper, Lohr, Lopez, Mahalov, Mittelmann, Nicolaenko, Quigg, Renaut, Ringhofer, Smith, Suslov, Thieme, Thompson, Young

Associate Professors: Baer, Blount, Childress, Farmer, Gelb, Hurlbert, D. Jones, J. Jones, Kaliszewski, Moore, Nikitin, Prewitt, Spielberg, Taylor, Welfert

Assistant Professors: Chen, Crook, Czygrinow, Majumdar, Oehrtman, Roh, Roudenko, Zandieh

Research Professor: Greenwood

Senior Lecturers: Abramson, Isom, Kolossa, Miller, Odish, Rody, Ruedemann, Surgent, Trapuzzano, Vaz, Zhu

Lecturers: Arce, Ashbrook, Brewer, Coombs, D' Alesandro, Downs, Firozzaman, Fulman, Heckman, E. Jackiewicz, E. Jones, Kellgren, Kim, Maris, Martin, Masilamani, McClure, Melendez, Newhouse, Pecuch-Herrero, Reynolds, Richardson, Seal, Tracogna, Turner, Ward, Williams

The Department of Mathematics and Statistics offers the BA and BS degrees in Mathematics. Students who plan to attend graduate school in mathematics or statistics should choose the BS degree.

The department also offers the BS degree in Computational Mathematical Sciences.

The department also offers a minor in Mathematics and an academic specialization in mathematics for students pursuing the BAE degree in Secondary Education.

MATHEMATICS—BA

The BA degree in Mathematics requires a minimum of 36 semester hours of course work in mathematics and statistics, and additional course work in closely related fields, for a total of 51 semester hours. A grade of "C" (2.00) or higher is required in all courses taken for the major. MAT 370 and 371 may not both be used to satisfy these degree requirements. The required course work has the following components:

Core Courses

MAT	270	Calculus with Analytic Geometry I *MA* 4
MAT	271	Calculus with Analytic Geometry II *MA* 4
MAT	272	Calculus with Analytic Geometry III *MA* 4
MAT	300	Mathematical Structures *L* 3
		or MAT 243 Discrete Mathematical Structures (3)
MAT	342	Linear Algebra 3
		or MAT 343 Applied Linear Algebra (3)
		or both MAT 242 Elementary Linear Algebra (3) and MAT 294 ST: Sophomore Problem Seminar (3)
MAT	370	Intermediate Calculus 3
		or MAT 371 Advanced Calculus I (3)
Total		21

Computer Science Requirement

CSE	100	Principles of Programming with C++ *CS* 3
		or CSE 110 Principles of Programming Java *CS* (3)
		or CSE 205 Concepts of Computer Science *CS* (3)
Total		3

Additional Course Work in Mathematics and Statistics[1]

Five additional courses in mathematics and statistics are also required 15

Related Field Course Work[2]

Course work in mathematics, statistics, or related fields 12

[1] Acceptable mathematics courses are MAT 243, 274, and upper-division MAT courses, with the exception of MAT 362, 485, and MAT 411. Acceptable statistics courses are upper-division STP courses.

[2] For a list of related field course work, see an advisor in PSA 211, or access math.la.asu.edu/undergrd/degree/related-fields.html.

MATHEMATICS—BS

The Department of Mathematics and Statistics has three avenues for earning a BS degree. The BS requirements are similar to the BA requirements, but they require more extensive courses in advanced mathematics. The program is flexible enough to allow students to focus their studies on mathematics, applied mathematics, or statistics. The statistics concentration offers extensive preparation in applied and theoretical statistics. The requirements for the BS degree with the statistics concentration are a subset of those for the BS degree. The requirements for the BS degree and for the BS degree with the computational mathematical sciences concentration are distinct; neither is a subset of the other.

BS Requirements. The BS degree in Mathematics requires a minimum of 42 semester hours of course work in mathematics and statistics, and additional course work in closely related fields, for a total of 55 semester hours. A grade of "C" (2.00) or higher is required in all courses taken for the major. MAT 370 and 371 may not both be used to satisfy these degree requirements. Credit may not be earned for both MAT 274 and 275 or for both MAT 342 and 343. The required course work has the following components:

Core Courses

MAT	270	Calculus with Analytic Geometry I *MA* 4
MAT	271	Calculus with Analytic Geometry II *MA* 4
MAT	272	Calculus with Analytic Geometry III *MA* 4
MAT	300	Mathematical Structures *L* 3
MAT	342	Linear Algebra 3
		or MAT 343 Applied Linear Algebra (3)
MAT	371	Advanced Calculus I 3
Total		21

Computer Science Requirement
CSE 205 Concepts of Computer Science *CS* 3

Total 3

Depth Requirement
Two courses chosen from the following list of advanced courses 6
- MAT 415 Introduction to Combinatorics (3)
- MAT 416 Introduction to Graph Theory (3)
- MAT 423 Numerical Analysis I *CS* (3)
- MAT 425 Numerical Analysis II *CS* (3)
- MAT 442 Advanced Linear Algebra (3)
- MAT 444 Intermediate Abstract Algebra (3)
- MAT 472 Intermediate Real Analysis I (3)
- MAT 473 Intermediate Real Analysis II (3)
- MAT 475 Differential Equations (3)
- MAT 476 Partial Differential Equations (3)
- STP 421 Probability (3)
- STP 427 Mathematical Statistics (3)

Advanced Courses in Mathematics and Statistics[1]
Two courses from the following list, both preferably taken from the same grouping 6

Algebra, Topology, and Number Theory
- MAT 410 Introduction to General Topology (3)
- MAT 442 Advanced Linear Algebra (3)
- MAT 443 Introduction to Abstract Algebra (3)
- MAT 444 Intermediate Abstract Algebra (3)
- MAT 445 Theory of Numbers (3)

Analysis and Applications
- MAT 372 Advanced Calculus II (3)
- MAT 461 Applied Complex Analysis (3)
- MAT 472 Intermediate Real Analysis I (3)

Applied Mathematics and Dynamics
- MAT 451 Mathematical Modeling *CS* (3)
- MAT 452 Introduction to Chaos and Nonlinear Dynamics (3)
- MAT 455 Introduction to Fractals and Applications (3)

Computational Mathematics
- MAT 420 Scientific Computing (3)
- MAT 421 Applied Computational Methods *CS* (3)
- MAT 423 Numerical Analysis I *CS* (3)
- MAT 425 Numerical Analysis II *CS* (3)
- MAT 427 Computer Arithmetic *CS* (3)

Differential Equations
- MAT 462 Applied Partial Differential Equations (3)
- MAT 475 Differential Equations (3)
- MAT 476 Partial Differential Equations (3)

Discrete Mathematics
- MAT 415 Introduction to Combinatorics (3)
- MAT 416 Introduction to Graph Theory (3)
- MAT 419 Introduction to Linear Programming *CS* (3)

Statistics and Probability
- STP 420 Introductory Applied Statistics *CS* (3)
- STP 421 Probability (3)
- STP 425 Stochastic Processes (3)
- STP 427 Mathematical Statistics (3)
- STP 429 Experimental Statistics *CS* (3)

Additional Course Work in Mathematics and Statistics[2]
Three courses in mathematics and statistics 9

Related Fields Course Work[3]
Course work in mathematics, statistics, or related fields 10

[1] Students who contemplate graduate work in mathematics should choose additional courses listed under the depth requirement to satisfy the advanced courses requirement.

[2] Acceptable mathematics courses are MAT 243, 274, and upper division MAT courses, with the exception of MAT 310, 362, 485, and MAT 411. Acceptable statistics courses are 400-level STP courses.

[3] For a list of related field course work, see an advisor in PSA 211, or access math.la.asu.edu/undergrd/degree/related-fields.html.

COMPUTATIONAL MATHEMATICAL SCIENCES—BS

The BS degree in Computational Mathematical Sciences curriculum strives to provide students with a background in computer science and the natural or physical sciences in addition to a core of course work in mathematics. The requirements for the BS degree in Computational Mathematical Sciences and for the BS degree in Mathematics are distinct; neither is a subset of the other. A minimum grade of "C" (2.00) is required in all courses taken for the major.

The BS degree in Computational Mathematical Sciences requires a minimum of 32 semester hours of course work in mathematics and statistics, a minimum of 12 to 14 semester hours in science, nine hours in computer science, and a three hour advanced science course or internship/research credit. This adds up to a minimum of 56 to 58 semester hours of study related to the major.

Core Courses
MAT 243 Discrete Mathematical Structures 3
or MAT 300 Mathematical Structures *L* (3)
MAT 271 Calculus with Analytic Geometry II *MA* 4
MAT 272 Calculus with Analytic Geometry III *MA* 4

Total 11

Core Courses in Computational Mathematics
MAT 275 Modern Differential Equations *MA** 3
or MAT 274 Elementary Differential Equations *MA* (3)
MAT 343 Applied Linear Algebra* 3
or MAT 342 Linear Algebra (3)
MAT 420 Scientific Computing 3
MAT 421 Applied Computational Methods *CS* 3

Total 12

* MAT 275 and 343 are recommended.

Advanced Courses in Mathematics and Statistics
Choose one course from group one and two from group two 9
Group One
- MAT 370 Intermediate Calculus (3)
- MAT 371 Advanced Calculus I (3)
- MAT 460 Vector Calculus (3)

Group Two
- MAT 351 Mathematical Methods for Genetic Analysis *CS* (3)
- MAT 415 Introduction to Combinatorics (3)
- MAT 416 Introduction to Graph Theory (3)

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

MAT 419 Introduction to Linear Programming *CS* (3)
MAT 423 Numerical Analysis I *CS* (3)
MAT 425 Numerical Analysis II *CS* (3)
MAT 447 Cryptography (3)
MAT 451 Mathematical Modeling *CS* (3)
MAT 452 Introduction to Chaos and Nonlinear Dynamics (3)
MAT 455 Introduction to Fractals and Applications (3)
MAT 461 Applied Complex Analysis (3)
MAT 462 Applied Partial Differential Equations (3)
MAT 475 Differential Equations (3)
MAT 476 Partial Differential Equations (3)
STP 420 Introductory Applied Statistics *CS* (3)
STP 421 Probability (3)
STP 425 Stochastic Processes (3)
STP 427 Mathematical Statistics (3)
STP 429 Experimental Statistics *CS* (3)

Computer Science Requirement

CSE 205 Concepts of Computer Science *CS* 3
CSE 210 Object-Oriented Design and Data Structures *CS* 3
CSE 240 Introduction to Programming Languages 3
or CSE 310 Data Structures and Algorithms (3)
Total 9

Science Requirement. Two one-year science course and lab sequences (for a total of 14 to 17 hours) are required. Upon advisor approval, two advanced courses for which the first one-year science and lab sequence is a prerequisite may be substituted for the second one-year science and lab sequence. Allowable one-year sequences include the following:

Astrophysics

Astrophysics sequence 8
AST 113 Astronomy Laboratory I *SQ*[1] (1)
AST 114 Astronomy Laboratory II *SQ*[1] (1)
AST 321 Introduction to Planetary and Stellar Astrophysics *SQ*[1] (3)
AST 322 Introduction to Galactic and Extragalactic Astrophysics *SQ*[1] (3)

Biology

Choose one of the following sequences 8
BIO 187 General Biology I *SG* (4)
BIO 188 General Biology II *SQ* (4)
— *or* —
BIO 188 General Biology II *SQ* (4)
BIO 193 The Nature of Biological Science *SQ* (4)

Chemistry

Choose between the course combinations below .... 8 or 9
CHM 113 General Chemistry I *SQ* (4)
CHM 115 General Chemistry with Qualitative Analysis *SQ* (5)
——— *or* ———
CHM 113 General Chemistry I *SQ* (4)
CHM 116 General Chemistry II *SQ* (4)
— *or* —
CHM 116 General Chemistry II *SQ* (4)
CHM 117 General Chemistry for Majors I *SQ*[2] (4)
— *or* —
CHM 114 General Chemistry for Engineers *SQ* (4)
CHM 231 Elementary Organic Chemistry *SQ*[3] (3)
CHM 235 Elementary Organic Chemistry Laboratory *SQ*[3] (1)

Geology

Geology sequence 8
GLG 101 Introduction to Geology I (Physical) *SQ, G*[4] (3)
GLG 103 Introduction to Geology I—Laboratory *SQ*[4] (1)
GLG 102 Introduction to Geology II (Historical) *SG, H*[4] (3)
GLG 104 Introduction to Geology II—Laboratory *SG*[4] (1)

Microbiology and Molecular Biosciences/Biotechnology

Choose one of the following sequences 4
MBB 245 Cellular and Molecular Biology *SQ* (4)
— *or* —
MIC 205 Microbiology *SG*[5] (3)
MIC 206 Microbiology Laboratory *SG*[5] (1)
— *or* —
MIC 206 Microbiology Laboratory *SG*[5] (1)
MIC 220 Biology of Microorganisms (3)

Physics

Choose one of the following sequences 8
PHY 121 University Physics I: Mechanics *SQ*[6] (3)
PHY 122 University Physics Laboratory I *SQ*[6] (1)
PHY 131 University Physics II: Electricity and Magnetism *SQ*[6] (3)
PHY 132 University Physics Laboratory II *SQ*[6] (1)
— *or* —
PHY 150 Physics I *SQ* (4)
PHY 151 Physics II *SQ* (4)

Plant Biology

Choose one of the following sequences 4
PLB 200 Biology of Plants *SQ*[7] (3)
PLB 201 Biology of Plants Laboratory *SQ*[7] (1)
— *or* —
MBB 245 Cellular and Molecular Biology *SQ* (4)

Internship, Research, or Advanced Science Requirement

Choose one of the following courses 3
MAT 484 Internship[8] (3)
MAT 493 Honors Thesis/Research[9] (3)
MAT 494 ST: Independent Study/Research[8] (3)
One advanced course in science for which a one-year sequence in the same science is required

---

1 Both AST 113 and 321 or both AST 114 and 322 must be taken to secure SQ credit.
2 CHM 115 and 117 are strongly recommended for qualified students.
3 Both CHM 231 and 235 must be taken to secure SQ credit.
4 Both GLG 101 and 103 must be taken to secure SQ credit, and both GLG 102 and 104 must be taken to secure SG credit.
5 Both MIC 205 and MIC 206 must be taken to secure SG credit.
6 Both PHY 121 and 122 and both PHY 131 and 132 must be taken to secure SQ credit.
7 Both PLB 200 and 201 must be taken to secure SQ credit.
8 This course requires prior department approval.
9 Enrollment is restricted to students in the Barrett Honors College.

Restrictions: MAT 370 and 371 may not both be counted toward major requirements in Computational Mathematical Sciences. Credit may not be earned for both MAT 274 and 275, or for both MAT 342 and 343.

Statistics Concentration Requirements. The BS degree in Mathematics with the concentration in statistics requires a minimum of 42 semester hours of course work in mathematics and statistics, plus a minimum of 13 semester hours in computer science and related fields, for a minimum of 55 semester hours of course work related to the major. A grade of "C" (2.00) or higher is required in all courses taken for the major. MAT 370 and 371 may not both be used to satisfy

these requirements. The course work has the following components:

Core Courses

MAT	270	Calculus with Analytic Geometry I *MA*	4
MAT	271	Calculus with Analytic Geometry II *MA*	4
MAT	272	Calculus with Analytic Geometry III *MA*	4
MAT	300	Mathematical Structures *L*	3
MAT	342	Linear Algebra	3
		or MAT 343 Applied Linear Algebra (3)	
MAT	371	Advanced Calculus I	3
STP	420	Introductory Applied Statistics *CS*	3
STP	421	Probability	3
STP	427	Mathematical Statistics	3
STP	429	Experimental Statistics *CS*	3
Total			33

Computer Science Requirement

CSE	205	Concepts of Computer Science *CS*	3
Total			3

Additional Advanced Courses in Mathematics and Statistics

Three courses from the following list 9

- MAT 274 Elementary Differential Equations *MA* (3)
  or MAT 275 Modern Differential Equations *MA* (3)
- MAT 372 Advanced Calculus II (3)
- MAT 423 Numerical Analysis I *CS* (3)
- MAT 442 Advanced Linear Algebra (3)
- STP 425 Stochastic Processes (3)

Required Related Field Course Work

Statistics/probability, mathematics, or related fields*..... 10

* For a list of related field course work, see an advisor in PSA 211, or access math.la.asu.edu/undergrd/degree/related-fields.html.

Actuarial Science. The faculty in the Department of Mathematics and Statistics offer courses that cover the content of the mathematical examinations of the Society of Actuaries. See the department's actuarial advisor for more information.

Cryptographic Science. The faculty in the Department of Mathematics and Statistics offer courses that prepare students for graduate studies and careers in cryptography. See the department's advisors for more information.

MINORS IN MATHEMATICS AND STATISTICS

The minor in Mathematics consists of a minimum of 20 semester hours. Required courses are as follows:

MAT	271	Calculus with Analytic Geometry II *MA*	4
MAT	272	Calculus with Analytic Geometry III *MA*	4
MAT	342	Linear Algebra	3
		or MAT 343 Applied Linear Algebra (3)	
Total			11

Electives must be upper-division courses in mathematics (MAT) or Statistics and Probability (STP). Students may not apply MAT 485 or a course not offered at the Tempe campus to the minor, unless otherwise approved by a department advisor.

The minor in Statistics consists of a minimum of 20 semester hours. Required courses are the following:

MAT	271	Calculus with Analytic Geometry II *MA*	4
MAT	272	Calculus with Analytic Geometry III *MA*	4
MAT	300	Mathematical Structures *L*	3
STP	420	Introductory Applied Statistics *CS*	3
STP	421	Probability	3
STP	427	Mathematical Statistics	3
		or STP 429 Experimental Statistics *CS* (3)	
Total			20

The minor in Computational Mathematical Sciences consists of a minimum of 20 semester hours. Required courses are the following:

MAT	271	Calculus with Analytic Geometry II *MA*	4
MAT	272	Calculus with Analytic Geometry III *MA*	4
MAT	342	Linear Algebra	3
		or MAT 343 Applied Linear Algebra (3)	
MAT	420	Scientific Computing	3
MAT	421	Applied Computational Methods *CS*	3
MAT	423	Numerical Analysis I *CS*	3
		or MAT 425 Numerical Analysis II *CS* (3)	
Total			20

It is recommended that students take MAT 243 Discrete Mathematical Structures.

BIS CONCENTRATIONS

Concentrations in computational mathematical sciences, mathematics, and statistics are available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

SECONDARY EDUCATION—BAE

Mathematics. This degree is offered through the Initial Teacher Certification program in the College of Education. Students pursuing a major in Secondary Education have an advisor in the College of Education and an advisor within the department of their academic specialization area.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

The academic specialization consists of the following required courses:

CSE	100	Principles of Programming with C++ *CS*	3
		or CSE 110 Principles of Programming Java *CS* (3)	
		or CSE 205 Concepts of Computer Science *CS* (3)	
MAT	270	Calculus with Analytic Geometry I *MA*	4
MAT	271	Calculus with Analytic Geometry II *MA*	4
MAT	272	Calculus with Analytic Geometry III *MA*	4
MAT	300	Mathematical Structures *L*	3
		or MAT 243 Discrete Mathematical Structures (3)	

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

MAT	310	Introduction to Geometry....3
MAT	342	Linear Algebra....3
		or MAT 343 Applied Linear Algebra (3)
MAT	370	Intermediate Calculus....3
		or MAT 371 Advanced Calculus I (3)
MAT	443	Introduction to Abstract Algebra....3
		or MAT 445 Theory of Numbers (3)
		or MAT 447 Cryptography (3)
MTE	483	Mathematics in the Secondary School....3
STP	420	Introductory Applied Statistics *CS*....3
Total		36

The methods in academic specialization courses for mathematics are MTE 482 Methods of Teaching Mathematics in Secondary School and MTE 494 ST: Advanced Methods of Teaching Secondary Mathematics. They are required as part of the Initial Teacher Certification program but cannot be counted as part of the 36-hour major requirement.

GRADUATE PROGRAMS

The faculty in the Department of Mathematics and Statistics offer programs leading to the degrees of Master of Natural Science, MA, and PhD. See the *Graduate Catalog* for requirements.

MATHEMATICS (MAT)

For more MAT courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M MAT 106 Intermediate Algebra. (3)
fall, spring, summer
Topics from basic algebra such as linear equations, polynomials, factoring, exponents, roots, and radicals. Credit is allowed for only MAT 106 or 113. Prerequisite: 1 year of high school algebra.

M MAT 113 College Algebra Plus. (5)
fall and spring
A union of topics from intermediate algebra and college algebra, including exponents, factoring, graphing, polynomials, logarithmic, and exponential functions. Credit is allowed for only MAT 113 or 106 or 117. Prerequisite: 2 years of high school mathematics.

M MAT 117 College Algebra. (3)
fall, spring, summer
Linear and quadratic functions, systems of linear equations, logarithmic and exponential functions, sequences, series, and combinatorics. Credit is allowed for only MAT 117 or 113. Fee (online only). Prerequisite: MAT 106 or 2 years of high school algebra.

M MAT 119 Finite Mathematics. (3)
fall, spring, summer
Topics from linear algebra, linear programming, combinatorics, probability, and mathematics of finance. Prerequisite: MAT 113 or 117 (or its equivalent).
General Studies: MA

M MAT 142 College Mathematics. (3)
fall, spring, summer
Applies basic college-level mathematics to real-life problems. Appropriate for students whose major does not require MAT 117 or 170. Prerequisite: MAT 106 or 2 years of high school algebra.
General Studies: MA

M MAT 170 Precalculus. (3)
fall, spring, summer
Intensive preparation for calculus (MAT 260, 270, and 290). Topics include functions (including trigonometric), matrices, polar coordinates, vectors, complex numbers, and mathematical induction. Prerequisite with a grade of "B" or higher: MAT 106. Prerequisite with a grade of "C" (2.00) or higher: MAT 113 or 117 (or its equivalent) or 2 years of high school algebra.
General Studies: MA

M MAT 210 Brief Calculus. (3)
fall, spring, summer
Differential and integral calculus of elementary functions with applications. Not open to students with credit for MAT 260, 270, or 290. Fee (online only). Prerequisite: MAT 113 or 117 (or its equivalent).
General Studies: MA

M MAT 211 Mathematics for Business Analysis. (3)
fall, spring, summer
Topics in business analysis, including: Lagrange multipliers, linear programming, linear algebra, intermediate probability, random variables, discrete distributions, and continuous distributions. Prerequisite with a grade of "C" or higher: MAT 210 or instructor approval.

M MAT 242 Elementary Linear Algebra. (2)
fall, spring, summer
Introduces matrices, systems of linear equations, determinants, vector spaces, linear transformations, and eigenvalues. Emphasizes development of computational skills. Prerequisite: 1 semester of calculus or instructor approval.

M MAT 243 Discrete Mathematical Structures. (3)
fall, spring, summer
Logic, sets, functions, elementary number theory and combinatorics, recursive algorithms, and mathematical reasoning, including induction. Emphasizes connections to computer science. Prerequisite: 1 semester of calculus or computer programming.

M MAT 251 Calculus for Life Sciences. (3)
fall and spring
Differential and integral calculus of elementary functions. Introduces differential and difference equations. Emphasizes applications to the life sciences. Not open to students with credit for MAT 210, 260, or 270. Prerequisite: MAT 170 (or its equivalent).
General Studies: MA

M MAT 260 Technical Calculus I. (3)
selected semesters
Analytic geometry, differential, and integral calculus of elementary functions, emphasizing physical interpretation and problem solving. Not open to students with credit for MAT 210, 270, or 290. Prerequisite: MAT 170 (or its equivalent).
General Studies: MA

M MAT 261 Technical Calculus II. (3)
selected semesters
Continuation of MAT 260. Prerequisite: MAT 260 or instructor approval.
General Studies: MA

M MAT 262 Technical Calculus III. (3)
selected semesters
Infinite series, an introduction to differential equations and elementary linear algebra. Prerequisite: MAT 261 (or its equivalent).
General Studies: MA

M MAT 270 Calculus with Analytic Geometry I. (4)
fall, spring, summer
Real numbers, limits and continuity, and differential and integral calculus of functions of 1 variable. Not open to students with credit for MAT 290. The sequence MAT 270 and 271 may be substituted for MAT 290 to satisfy requirements of any curriculum. Fee. Prerequisite with a grade of "C" (2.00) or higher: MAT 170 or satisfactory score on placement examination.
General Studies: MA

M MAT 271 Calculus with Analytic Geometry II. (4)
fall, spring, summer
Methods of integration, applications of calculus, elements of analytic geometry, improper integrals, sequences, and series. Not open to students with credit for MAT 291. The sequence MAT 270, 271, 272 may be substituted to satisfy requirements for MAT 290 and 291. Fee. Prerequisite with a grade of "C" (2.00) or higher: MAT 270 (or its equivalent).
General Studies: MA

M MAT 272 Calculus with Analytic Geometry III. (4)
fall, spring, summer
Vector-valued functions of several variables, multiple integration, and introduction to vector analysis. The sequence MAT 270, 271, 272 may be substituted to satisfy requirements for MAT 290 and 291. Fee.

Prerequisite with a grade of "C" (2.00) or higher: MAT 271 (or its equivalent).
General Studies: MA

M MAT 274 Elementary Differential Equations. (3)
fall and spring or summer
Introduces ordinary differential equations, adapted to the needs of students in engineering and the sciences. Credit is allowed for only MAT 274 or 275 toward a mathematics degree. Prerequisites: MAT 271 (or its equivalent); MAT 272 (or its equivalent) recommended.
General Studies: MA

M MAT 275 Modern Differential Equations. (3)
fall and spring
Introduces differential equations, theoretical and practical solution techniques. Applications. Problem solving using MATLAB. Credit is allowed for only MAT 275 or 274 toward a mathematics degree. Lecture, computing lab. Fee. Pre- or corequisite: MAT 271 (or its equivalent).
General Studies: MA

M MAT 290 Calculus I. (5)
selected semesters
Differential and integral calculus of elementary functions; topics from analytic geometry essential to the study of calculus. Prerequisite: MAT 170 (or its equivalent).
General Studies: MA

M MAT 291 Calculus II. (5)
selected semesters
Further applications of calculus, partial differentiation, multiple integrals, and infinite series. Prerequisite: MAT 290 (or its equivalent).

M MAT 294 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Calculus for Engineers I. (3)
  fall, spring, summer
  Limits and continuity, differential calculus of functions of one variable, introduction to integration. Not open to students with credit in MAT 270. Prerequisite: satisfactory score on the calculus readiness exam. Prerequisite with a grade of "C" or higher: MAT 170 (or its equivalent).
- Calculus for Engineers II. (3)
  fall, spring, summer
  Methods of integration, applications of calculus, elements of analytic geometry, improper integrals, Taylor series. Not open to students with credit in MAT 271. Prerequisite: satisfactory score on the calculus readiness exam. Prerequisite with a grade of "C" or higher: MAT 294 Calculus for Engineers I.
- Calculus for Engineers III. (3)
  fall, spring, summer
  Vector-valued functions of several variables, partial derivatives, multiple integration. Not open to students with credit in MAT 272. Prerequisite with a grade of "C" or higher: MAT 294 Calculus for Engineers II.
- Mathematics of Change I
- Mathematics of Change II
- Mathematics of Change III
- Sophomore Problem Seminar. (3)

M MAT 300 Mathematical Structures. (3)
fall and spring
Logic and set theory, induction, functions, order and equivalence relations, cardinality. Emphasizes writing proofs. Prerequisite: 1 semester of calculus or instructor approval.
General Studies: L

M MAT 310 Introduction to Geometry. (3)
spring
Congruence, area, parallelism, similarity and volume, and Euclidean and non-Euclidean geometry. Prerequisite: MAT 272 (or its equivalent).

M MAT 340 Theory of Interest. (3)
fall and spring
Compound interest, discount rates, annuities, present values, depreciation, and bond valuations. Prerequisites: MAT 243 (or 300 or instructor approval); 1 semester of calculus.

M MAT 342 Linear Algebra. (3)
fall and spring or summer
Linear equations, matrices, determinants, vector spaces, bases, linear transformations and similarity, inner product spaces, eigenvectors, orthonormal bases, diagonalization, and principal axes. Credit is allowed for only MAT 342 or 343 toward a mathematics degree. Pre- or corequisite: MAT 272 (or its equivalent).

M MAT 343 Applied Linear Algebra. (3)
fall and spring
Solving linear systems, matrices, determinants, vector spaces, bases, linear transformations, eigenvectors, norms, inner products, decompositions, applications. Problem solving using MATLAB. Credit is allowed for only MAT 343 or 342 toward a mathematics degree. Lecture, computing lab. Fee. Prerequisite: MAT 271 (or its equivalent).

M MAT 351 Mathematical Methods for Genetic Analysis. (3)
fall and spring
Discrete mathematics, probability, statistics, and associated computer packages. Applications to genomics, bioinformatics, forensics, and DNA/protein sequence patterns. Fee. Prerequisite: MAT 251 or 270 or instructor approval.
General Studies: CS

M MAT 362 Advanced Mathematics for Engineers and Scientists. (3)
fall, spring, summer
Vector analysis, Fourier analysis, and partial differential equations. Prerequisites: MAT 272 and 274 (or 275) (or their equivalents).

M MAT 370 Intermediate Calculus. (3)
fall and spring
Theory behind basic 1-variable calculus: continuity, derivative, Riemann integral, sequences, and series. Not open to students who have received a "C" (2.00) or higher in MAT 371. Credit is allowed for only MAT 370 or 371 toward a mathematics degree. Prerequisites: MAT 272, 300 (or 243).

M MAT 371 Advanced Calculus I. (3)
fall and spring
Real numbers, completeness, sequences/series, continuity, uniform theorems, derivative, Riemann integral, pointwise/uniform convergence, Taylor's theorem. Credit is allowed for only MAT 371 or 370 toward a mathematics degree. Prerequisites: MAT 272, 300.

M MAT 372 Advanced Calculus II. (3)
spring
Open, closed, compact sets in R^n continuity, differentiation, partial differentiation, integration in R^n. Inverse/implicit function theorems. Not open to students with credit for MAT 460. Prerequisite: MAT 371. Pre- or corequisite: MAT 342 or 343.

M MAT 394 Special Topics. (1–4)
selected semesters
Topics may include the following.
- Introduction to Computational Molecular Biology. (2–3)
  Fee. Prerequisite: junior standing.

M MAT 410 Introduction to General Topology. (3)
once a year
Topological spaces, metric spaces, compactness, connectedness, and product spaces. Prerequisite: MAT 300 or 371 or instructor approval.

M MAT 415 Introduction to Combinatorics. (3)
fall
Enumerating permutations and combinations of sets and multisets, inclusion-exclusion, recurrence relations, generating functions, Pólya theory and combinatorial structures. Prerequisites: preferably both MAT 300 (or 243) and 342 (or 242) or only instructor approval.

M MAT 416 Introduction to Graph Theory. (3)
spring
Trees, cycles, matchings, planarity, connectivity, hamiltonicity, chromatic number, Ramsey theory with emphasis on proof techniques. Prerequisites: preferably both MAT 300 (or 243) and 342 (or 242) or only instructor approval.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M MAT 419 Introduction to Linear Programming. (3)
spring
Simplex method, duality, and network flows. Applications to game theory, geometry, combinatorics, graph theory, and posets. Prerequisites: a combination of CSE 100 (or 205 or 210) and MAT 300 (or 243) and 342 (or 242 or 343) or only instructor approval.
General Studies: CS

M MAT 420 Scientific Computing. (3)
fall
Surveys and applies programming languages, libraries, and scientific visualization tools. Programming assignments emphasize software development skills. Lecture, lab. Fee. Prerequisites: a combination of CSE 205 and MAT 274 (or 275) and 342 (or 343) (or their equivalents) or only instructor approval.

M MAT 421 Applied Computational Methods. (3)
fall and spring
Numerical methods for quadrature, differential equations, roots of nonlinear equations, interpolation, approximation, linear equations, floating-point arithmetic, and roundoff error. Prerequisites: both MAT 271 (or its equivalent) and fluency in computer programming (preferably FORTRAN) or only instructor approval.
General Studies: CS

M MAT 423 Numerical Analysis I. (3)
fall
Analysis and algorithms for numerical solutions linear/nonlinear equations, direct solvers, iterative procedures, optimization. Determination of eigenvalues. Elementary computer arithmetic. Prerequisites: both MAT 342 (or 343) and fluency in computer programming or only instructor approval.
General Studies: CS

M MAT 425 Numerical Analysis II. (3)
spring
Analysis of and algorithms for numerical interpolation, integration, and differentiation. Numerical solution of ordinary differential equations, and method of lines. Those seeking a methods survey course should take MAT 421. Prerequisites: both MAT 274 (or 275) and fluency in computer programming or only instructor approval. MAT 371 recommended.
General Studies: CS

M MAT 442 Advanced Linear Algebra. (3)
fall
Fundamentals of linear algebra, dual spaces, invariant subspaces, canonical forms, bilinear and quadratic forms, and multilinear algebra. Prerequisites: both MAT 300 and 342 (or 343) or only instructor approval.

M MAT 443 Introduction to Abstract Algebra. (3)
fall
Introduces concepts of abstract algebra. Not open to students with credit for MAT 444. Prerequisites: both MAT 300 and 342 (or 343) or only instructor approval.

M MAT 444 Intermediate Abstract Algebra. (3)
spring
Basic theory of groups, rings, and fields, including an introduction to Galois theory. Appropriate as preparation for MAT 543. Prerequisite: MAT 443 or graduate standing or instructor approval.

M MAT 445 Theory of Numbers. (3)
spring
Prime numbers, unique factorization theorem, congruences, Diophantine equations, primitive roots, and quadratic reciprocity theorem. Prerequisites: both MAT 300 and 342 (or 343) or only instructor approval.

M MAT 447 Cryptography. (3)
fall and spring
Block ciphers, stream ciphers, congruence arithmetic, information theory, public key cryptosystems, key exchange, electronic signatures. Prerequisites: CSE 100 (or 110); MAT 242 (or 342 or 343), 300.

M MAT 451 Mathematical Modeling. (3)
spring
Detailed study of 1 or more mathematical models that occur in the physical or biological sciences. May be repeated for credit with instructor approval. Prerequisites: both MAT 242 (or 342 or 343) and 274 (or 275) or only instructor approval.
General Studies: CS

M MAT 452 Introduction to Chaos and Nonlinear Dynamics. (3)
fall
Properties of nonlinear dynamical systems; dependence on initial conditions; strange attractors; period doubling; bifurcations; symbolic dynamics; Smale-Birkhoff theorem; and applications. Prerequisites: MAT 274 (or 275), 342 (or 242 or 343); MAT 371 is recommended.

M MAT 455 Introduction to Fractals and Applications. (3)
spring
Fractals; self-similar structures, fractals with iterated function systems of maps, computing fractals, fractal dimensions, chaotic dynamics on fractals, applications. Prerequisites: MAT 274 (or 275), 342 (or 242 or 343); MAT 371 recommended.

M MAT M 460 Vector Calculus. (3)
spring
Vectors, curvilinear coordinates, Jacobians, implicit function theorem, line and surface integrals, Green's, Stokes', and divergence theorems. Not open to students with credit for MAT 372. Prerequisites: MAT 242 (or 342 or 343), 272, 274 (or 275).

M MAT 461 Applied Complex Analysis. (3)
fall and summer
Analytic functions, complex integration, Taylor and Laurent series, residue theorem, conformal mapping, and harmonic functions. Prerequisite: MAT 272 (or its equivalent).

M MAT 462 Applied Partial Differential Equations. (3)
spring
Second-order partial differential equations, emphasizing Laplace, wave, and diffusion equations. Solutions by the methods of characteristics, separation of variables, and integral transforms. Prerequisites: MAT 242 (or 342 or 343), 274 (or 275).

M MAT 472 Intermediate Real Analysis I. (3)
fall
Introduces analysis in metric spaces with emphasis on the real line. Appropriate as preparation for MAT 570. Prerequisites: MAT 300, 342 (or 343).

M MAT 473 Intermediate Real Analysis II. (3)
spring
Analysis in R^n: implicit function theorem, introduction to manifolds, Lebesque integration, change of variables formula, convergence theorems for integrals. Prerequisite: MAT 472 or instructor approval.

M MAT 475 Differential Equations. (3)
fall
Linear and nonlinear ordinary differential equations, asymptotic behavior of solutions, stability, existence and uniqueness, limit sets, Poincar-Bendixson theorem. Prerequisites: MAT 242 (or 342 or 343), 274 (or 275), 370 (or 371) (or their equivalents) or instructor approval.

M MAT 476 Partial Differential Equations. (3)
spring
First-order quasilinear, second-order linear (wave, Laplace, heat). Characteristics, harmonic functions, maximum principles, Fourier series, separation of variables. Prerequisites: MAT 242 (or 342 or 343), 274 (or 275 or 475), 370 (or 371) (or their equivalents) or instructor approval.

M MAT 484 Internship. (1–12)
selected semesters

M MAT 485 History of Mathematics. (3)
selected semesters
Topics from the history of the origin and development of mathematical ideas. Prerequisite: MAT 272 (or its equivalent).

M MAT 493 Honors Thesis/Research. (3)
selected semesters

M MAT 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Independent Study/Research. (3)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

MATHEMATICS EDUCATION (MTE)

For more MTE courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M MTE 180 Theory of Elementary Mathematics. (3)
fall, spring, summer
Number systems, intuitive geometry, elementary algebra, and measurement. Intended for prospective elementary school teachers. Prerequisites: MAT 113, 142 (or 117 or its equivalent).

M MTE 181 Theory of Elementary Mathematics. (3)
once a year
Continuation of MTE 180. Fee. Prerequisite: MTE 180 or instructor approval.

M MTE 380 Arithmetic in the Elementary School. (3)
once a year
Historical numeration systems, overview of elementary number theory, including primes, factorization, divisibility, bases, modular systems, linear congruence, and continued fractions. Prerequisite: MTE 181 or instructor approval.

M MTE 381 Geometry in the Elementary School. (3)
selected semesters
Informal geometry, including concepts of length, area, volume, similarity, and congruence. Classification of figures, straightedge and compass constructions, and motion geometry. Prerequisite: MTE 380 or instructor approval.

M MTE 402 Service Learning. (3)
fall and spring
K–12 tutoring and mentoring internship related to academic course work in mathematics education. Requires weekly reflective reading and writing. May be repeated for credit. Internship. Fee. Pre- or corequisite: MTE 180 or instructor approval.
General Studies: C

M MTE 482 Methods of Teaching Mathematics in Secondary School. (3)
fall
Examines secondary school curricular material and analyzes instructional devices. Teaching strategies, evaluative techniques, diagnosis, and remediation and problem solving. Fee. Prerequisite: instructor approval.

M MTE 483 Mathematics in the Secondary School. (3)
spring
Topics in geometry, number theory, algebra, and analysis. Emphasizes unifying principles. Prerequisite: MAT 310 or instructor approval.

M MTE 484 Internship. (1–12)
selected semesters

M MTE 494 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Advanced Methods of Teaching Secondary Mathematics. (3) Continuation of MTE 482. Prerequisite: MTE 482.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

STATISTICS AND PROBABILITY (STP)

M STP 220 Conceptual Statistics. (3)
fall and spring
Treats the concepts and vocabulary needed to evaluate statistical reports on health, technology, and society. Aggressively emphasizes understanding over computation. Lecture, teamwork. Prerequisites: MAT 113, 142 (or 117 or its equivalent).
General Studies: CS

M STP 226 Elements of Statistics. (3)
fall, spring, summer
Basic concepts and methods of statistics, including descriptive statistics, significance tests, estimation, sampling, and correlation. Not open to majors in mathematics or the physical sciences. Prerequisites: MAT 113, 142 (or 117 or its equivalent).
General Studies: CS

M STP 231 Statistics for Biosciences. (3)
fall, spring, summer
Concepts and methods of statistics; display and summary of data, interval estimation, hypothesis testing, correlation, regression. Applications to biological sciences. Prerequisite with a grade of "C" or higher: MAT 113 or 117 or 142 (or their equivalents).

M STP 294 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Statistics for Biosciences. (3)

M STP 326 Intermediate Probability. (3)
fall and spring
Probability models and computations, joint and conditional distributions, moments, and families of distributions. Topics in stochastic processes, simulation, and statistics. Prerequisite: MAT 210 (or its equivalent).
General Studies: CS

M STP 420 Introductory Applied Statistics. (3)
fall, spring, summer
Introductory probability, descriptive statistics, sampling distributions, parameter estimation, tests of hypotheses, chi-square tests, regression analysis, analysis of variance, and nonparametric tests. Prerequisite: MAT 113 or 117 (or its equivalent).
General Studies: CS

M STP 421 Probability. (3)
fall
Laws of probability, combinatorial analysis, random variables, probability distributions, expectations, moment-generating functions, transformations of random variables, and central limit theorem. Prerequisite: MAT 272 (or its equivalent).

M STP 425 Stochastic Processes. (3)
spring
Markov chains, stationary distributions, pure jump processes, 2-D order processes, and other topics in stochastic processes. Prerequisites: MAT 342; STP 421.

M STP 427 Mathematical Statistics. (3)
spring
Limiting distributions, interval estimation, point estimation, sufficient statistics, and tests of hypotheses. Prerequisites: a combination of MAT 371 and STP 420 and 421 or only instructor approval.

M STP 429 Experimental Statistics. (3)
spring
Statistical inference for controlled experimentation. Multiple regression, correlation, analysis of variance, multiple comparisons, and nonparametric procedures. Prerequisite: STP 420 (or its equivalent).
General Studies: CS

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Military Science

Army ROTC

www.asu.edu/clas/military

480/965-3318

SS 330

Lieutenant Colonel Kirk E. McIntosh, Chair

Professor: McIntosh

Assistant Professors: Barclay, Caryl, Hansen-Kaucheck, Murdock, Ranalli

Instructors: Kuhlmann, Ringenoldus, Stover, Utley

PURPOSE

The Department of Military Science, or Army ROTC (Reserve Officers' Training Corps), is a four-year or two-year program that consists of the basic and the advanced courses. It is one of the best leadership courses in the country and is part of a student's college curriculum. The curriculum prepares students with the tools, training, and experiences that will help them succeed in any competitive environment. During classes and field training, students learn firsthand what it takes to lead others and motivate groups and how to conduct missions as an officer in the U.S. Army. Upon successful completion of the advanced course and college graduation, students will earn a commission in the U.S. Army as a second lieutenant and become a leader for life.

In addition to the military science curriculum, courses in national defense studies are both an integral and parallel source of the department's program.

GENERAL INFORMATION

Basic Course. Any student who is enrolled in ASU (or approved by the professor of military science) can enroll in military science basic courses. The basic course (MIS 101, 102, 201, and 202) takes place during the first two years in college as elective courses. Each course includes a lab each semester. Students learn basic military skills and the fundamentals of leadership and begin the groundwork toward becoming an Army leader. Students may enroll in basic course classes without a military commitment.

Leader's Training Course (Two-Year Program). Scholars who want to achieve something even greater than a college degree and aspire to be leaders may join the Army ROTC program by attending a four-week summer Leader's Training Course (LTC) that consists of intense classroom and field training. This course is an accelerated version of the two-year basic course listed above and qualifies students for enrollment in the advanced course provided they have two years of college remaining (undergraduate or graduate). Students who attend this course receive a stipend; transportation to and from Fort Knox, Kentucky; housing; and meals. Those who want to receive four semester hours credit for this course may enroll in the ASU summer program, MIS 205 Leader's Training Course. Students who attend this course may also qualify for a two-year scholarship upon successful completion.

Advanced Course. The advanced course takes place during a student's last two years in college as elective courses (MIS 301, 302, 401, and 402). Each course includes a lab each semester plus a summer leadership camp. Students learn advanced military tactics and gain experience in team organization, planning, and decision making. To benefit from the leadership training in the advanced course, all students must have completed either the basic course (four-year program) or have attended the LTC (two-year program). Students must meet the following qualifications to be enrolled in the advanced course:

1. be a citizen of the United States;
2. be of sound physical condition and pass the U.S. Army physical fitness test;
3. meet the required professional military educational requirements;
4. be at least 17 years of age for entrance into the advanced course and be able to complete all commissioning requirements before age 30 (which can be waivered to age 32); and
5. commit to accept a commission and serve as an officer in the U.S. Army on Active Duty or in a Reserve Component (U.S. Army Reserve or Army National Guard) upon college graduation.

Leadership Development and Assessment Course (Advanced Course Program). Every ROTC cadet who enters into the Advanced Course attends the Leader Development and Assessment Course. It is a four-week summer course designed to evaluate and train all Army ROTC cadets. This course normally takes place between the junior and senior years of college and is conducted at Fort Lewis, Washington. Students who attend this course receive a stipend, transportation to and from camp, housing, and meals. Those who want to receive four semester hours credit for this course may enroll in the ASU summer program, MIS 303 National Advanced Leadership Camp.

The Commitment. Army ROTC cadets who receive an Army ROTC scholarship or enter the Army ROTC Advanced Course must commit to being commissioned a second lieutenant in the U.S. Army and to completing a period of service with the Army. Students may serve full-time on active duty, part-time in either the U.S. Army Reserve or the Army National Guard, or a combination of full-time and part-time.

Scholarship Programs. Students who accept an Army ROTC scholarship must also commit to accepting a commission and serving as an Officer in the U.S. Army on Active Duty or in a Reserve Component (U.S. Army Reserve or Army National Guard) upon college graduation. Scholarships provide either 100 percent costs for tuition, labs, and fees; or, costs for room and board up to the amount

of tuition costs. In addition, scholarship students receive a book stipend of $450 per semester. Army ROTC offers two-, three-, and four-year scholarship programs to outstanding young men and women based on the time remaining to complete a degree. Scholarships are awarded based on a student's merit and grades, not financial need.

1. High School four-year: The national high school four-year, active duty scholarship is for high school students planning on attending a four-year college program. Applications should be submitted by November 15. Applications submitted past that date are considered; however, late applications may not be as competitive due to selection time frames. Applications may be obtained at www.rotc.usaac.army.mil.
2. College four-year: These active duty scholarships are for college freshmen in their first year of a five-year undergraduate plan. Contact the department for more information.
3. College three- and two-year: These active duty scholarships are for students already enrolled in a college or university with three or two academic years remaining.
4. Guaranteed Reserve Forces Duty: These reserve component, two- and three-year scholarships are strictly dedicated for those students desiring to serve in the U.S. Army Reserve or Army National Guard.

Living Expenses. Scholarship and all Advanced Course students also receive a monthly, nontaxable living allowance for each school year. The amount depends on a student's level in the ROTC curriculum: freshman: $300; sophomore: $350; junior: $450; senior: $500 per month.

Simultaneous Membership Program. Under this program, ROTC students may simultaneously be members of the Army Reserve or the National Guard. The combination of advanced course living allowance and pay for Army Reserve or National Guard participation can provide between $550 and $1,000 per month.

Graduate and Professional Studies Programs. Graduate students may also enroll in the ROTC program. Outstanding students who desire to earn graduate or professional degrees may request and receive an educational, active duty delay of up to four years.

Nurse Program. By joining Army ROTC, nursing students can enhance their leadership skills and critical-thinking abilities while obtaining financial support. Besides great scholarship opportunities, Army ROTC nurse cadets may also qualify for cash bonuses. In addition, nurse cadets have an opportunity for a unique summer nursing experience. The paid, three-week Nurse Summer Training Program assigns cadets to Army hospitals throughout the U.S. and Germany. This program is designed to introduce nurse cadets to the Army Medical Department and to the roles and responsibilities of an Army nurse. Cadets work under the supervision of an Army nurse and obtain hands-on experience. This one-on-one clinical experience allows students to hone their clinical skills, develop their problem-solving techniques, and become comfortable with developing their professional skills as a member of the U.S. Army Healthcare Team. Being an Army nurse provides opportunities not found in the civilian world. Army nurses also have the opportunity to train and serve in a variety of specialties.

MILITARY SCIENCE (MIS)

M MIS 101 Introduction to the Military I. (3)
fall
Overview of mission, organization, and structure of the Army and its role in national defense; discussion of current military issues. 3 hours lecture/conference, 2 hours lab.

M MIS 102 Introduction to the Military II. (3)
spring
Introduces problem-solving methods, critical thinking, decision making, and group cohesion as applied in a military environment. 3 hours lecture/conference, 2 hours lab. Prerequisite: MIS 101.

M MIS 201 Introduction to Leadership Dynamics I. (3)
fall
Introduces interpersonal dynamics involved in military team operations; theory and application of military leadership principles. 3 hours lecture/conference, 2 hours lab.

M MIS 202 Introduction to Leadership Dynamics II. (3)
spring
Continuation of MIS 201. 3 hours lecture/conference, 2 hours lab. Prerequisite: MIS 201.

M MIS 205 Leader's Training Course. (4)
summer
6-week training program emphasizing practical hands-on skills and leadership development. Taken in lieu of MIS 101, 102, 201, 202. Conducted at Fort Knox, Kentucky.

M MIS 301 Advanced Military Science I. (3)
fall
Theory and dynamics of the individual soldier and military units in offensive combat operations. 3 hours lecture/conference, 2 hours Leadership Practical Application, 1 2-day field exercise. Fee. Prerequisites: MIS 101 and 102 and 201 and 202 (or their equivalents).

M MIS 302 Advanced Military Science II. (3)
spring
Theory and dynamics of military units in defensive combat operations. 3 hours lecture/conference, 2 hours Leadership Practical Application, 1 2-day field exercise. Fee. Prerequisites: MIS 101 and 102 and 201 and 202 (or their equivalents).

M MIS 303 National Advanced Leadership Camp. (4)
summer
6-week training program emphasizing leadership development and advanced military skills, including tactics, land navigation, and physical training. Conducted at Fort Lewis, Washington. Prerequisites: MIS 301, 302.

M MIS 401 Advanced Military Science III. (3)
fall
Military legal system; preparation and conduct of military training; leadership development; ethics and professionalism of the military officer. 3 hours lecture/conference, 2 hours Leadership Practical Application, 1 2-day field exercise. Fee. Prerequisites: MIS 301, 302.

M MIS 402 Advanced Military Science IV. (3)
spring
Military correspondence; career planning and personal affairs in service; conduct of training; leadership development; ethics and professionalism of the military officer. 3 hours lecture/conference, 2 hours Leadership Practical Application, 1 2-day field exercise. Fee. Prerequisites: MIS 301, 302.

M MIS 410 American Defense Policy I. (3)
fall
Evolution, organization, and execution of U.S. national security policy.
General Studies: SB

M MIS 412 American Defense Policy II. (3)
spring
Contemporary problems and analytical issues in the formation and implementation of U.S. national security. Prerequisite: MIS 410.
General Studies: SB

M MIS 499 Individualized Instruction: Military Science Leadership. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Department of Philosophy

www.asu.edu/clas/philosophy
480/965-3394
COOR 3309

Stewart M. Cohen, Chair

Regents' Professor: Murphy

Professors: Cohen, Creath, Fitch, French, Humphrey, Walker, White

Associate Professors: Armendt, Blackson, de Marneffe, Guleserian, Kobes, McGregor, Reynolds

Assistant Professor: Portmore

Senior Lecturer: Bolton

PHILOSOPHY—BA

The major in Philosophy consists of 45 semester hours, 33 of which must be upper-division hours. In exceptional cases, up to nine semester hours may be in related fields as approved by the undergraduate advisor. Required courses are as follows:

PHI	300 Philosophical Argument and Exposition *L*	3
PHI	301 History of Ancient Philosophy *HU, H*	3
PHI	302 History of Modern Philosophy *HU, H*	3
PHI	305 Ethical Theory *HU*	3
	or PHI 335 History of Ethics *HU* (3)	
PHI	312 Theory of Knowledge *HU*	3
	or PHI 314 Philosophy of Science *HU* (3)	
PHI	316 Metaphysics *HU*	3
	or PHI 317 Philosophy of Mind *HU* (3)	
PHI	333 Introduction to Symbolic Logic	3
Choose two courses below		6
PHI	401 Rationalism (3)	
PHI	402 Empiricism *HU* (3)	
PHI	403 Contemporary Analytic Philosophy *HU* (3)	
PHI	413 Advanced Symbolic Logic (3)	
PHI	420 Topics in Philosophy (3)	
PHI	494 Special Topics (3)	
Total		27

Exceptions are granted by special permission of the chair only. PHI 420 may be repeated for credit.

Students planning to do graduate work in philosophy should consult with an advisor to develop an appropriate selection of courses at the 300 and 400 levels. A minimum grade of "C" (2.00) is necessary for each course used to fulfill the major requirements. See "College Graduation Requirements," page 503.

History and Philosophy of Science. The faculty in the Department of Philosophy offer courses bearing the HPS prefix. With the consent of the director of undergraduate studies, these courses may be taken to satisfy the requirements of the Philosophy major.

MINOR IN PHILOSOPHY

A minor in Philosophy consists of 18 semester hours, of which at least 12 must be in the upper division and approved by an advisor in the department. All courses must be passed with a minimum grade of "C" (2.00).

CERTIFICATE IN ETHICS

The Ethics Certificate consists of 18 semester hours approved by an advisor in the department. The student must take PHI 305 or 335. At least 15 hours must be chosen from PHI 105, 120, 304, 305, 306, 307, 309, 310, 320, 335, and (when its topic is within ethics) PHI 420. One course outside this list, and perhaps outside the department, may be used with written approval from the director of undergraduate studies. All courses must be passed with a minimum grade of "C" (2.00).

CERTIFICATE IN SYMBOLIC SYSTEMS

The Certificate in Symbolic Systems consists of 28 semester hours approved by an advisor in the Department of Philosophy and divided evenly among computer science and engineering, psychology, and philosophy as follows:

1. CSE 205, 210, and 240;
2. PSY 230 and 290 and either PSY 323, 324, or 437; and
3. either PHI 312 or 314, either PHI 315 or 317, and either PHI 319 or 333.

Students must satisfy the prerequisites for the listed courses. With written approval from the director of undergraduate studies in the Department of Philosophy, one substitution of a course from outside this list may be made. All courses must be passed with a minimum grade of "C" (2.00).

BIS CONCENTRATIONS

Concentrations in ethics and philosophy (with options in history and philosophy of science, and symbolic systems) are available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Students may also choose a concentration from any approved certificate program. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

GRADUATE PROGRAM

The faculty in the Department of Philosophy offer a graduate program leading to the MA and PhD degrees. See the *Graduate Catalog* for requirements.

PHILOSOPHY (PHI)

For more PHI courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M PHI 101 Introduction to Philosophy. (3)
fall, spring, summer
Explores issues that philosophers have traditionally considered, including morality, reality, and knowledge.
General Studies: HU

M PHI 103 Principles of Sound Reasoning. (3)
fall, spring, summer
Fallacies, validity, and soundness of arguments. May include syllogistic, elementary symbolic, inductive logic, and scientific method. Prerequisite: ENG 101 or 105.
General Studies: L/HU

M PHI 105 Introduction to Ethics. (3)
once a year
Philosophical examination of such questions as, How should we live? Is morality a social invention? Does anything matter?
General Studies: HU

M PHI 120 Introduction to Medical and Bioethics. (3)
once a year
Philosophical examination of moral problems that arise in medicine and biology, e.g., end-of-life, reproduction, and patient's rights. Lecture, discussion.

M PHI 300 Philosophical Argument and Exposition. (3)
spring
Develops techniques of philosophical argument and exposition. Frequent written exercises. Course content may vary with instructor. Prerequisites: major; instructor approval.
General Studies: L

M PHI 301 History of Ancient Philosophy. (3)
fall
History of Western philosophy from its beginnings through the Hellenistic period.
General Studies: HU, H

M PHI 302 History of Modern Philosophy. (3)
spring
History of Western philosophy from the Renaissance through Kant.
General Studies: HU, H

M PHI 304 Existentialism. (3)
selected semesters
Covers such topics as absurdity, authenticity, the meaning of life and death, responsibility, and subjectivity. May include readings in phenomenology. Prerequisite: PHI 101 or 103 or 105 or instructor approval.
General Studies: HU

M PHI 305 Ethical Theory. (3)
once a year
Current theories about the nature of morality (metaethics) and about what is right and wrong (normative ethics). Prerequisite: PHI 105 or 306 or 307 or 309 or 335 or instructor approval.
General Studies: HU

M PHI 306 Applied Ethics. (3)
fall, spring, summer
Philosophical discussion of contemporary moral and political issues, such as abortion, euthanasia, animal rights, affirmative action, and sexual rights.
General Studies: HU

M PHI 307 Philosophy of Law. (3)
once a year
Nature and source of law and its relation to morality. Legal rights, legal enforcement of morals, civil disobedience, liability and responsibility, punishment, judicial reasoning, justice, property, and differences between theories of natural and positive law.
General Studies: HU

M PHI 308 Philosophy of Art. (3)
once a year
Central problems in philosophy of art, e.g., the nature of a work of art, modern and traditional theories of art, aesthetic perception and experience, and objectivity and relativity in art criticism.
General Studies: HU

M PHI 309 Social and Political Philosophy. (3)
once a year
Alternative principles and methods relevant to problems of human association and conflict; discusses justice and power, freedom and equality, and autonomy and order. Prerequisite: PHI 105 or 305 or 335 or instructor approval.
General Studies: HU

M PHI 310 Environmental Ethics. (3)
once a year
Examines a full range of philosophical positions pertaining to our moral relationship to the natural world; anthropocentrism, individualism, biocentrism.
General Studies: HU

M PHI 311 Philosophy in Literature. (3)
once a year
Selected works of literature introducing philosophical problems such as the nature of moral goodness and people's relation to the world and other people.
General Studies: HU

M PHI 312 Theory of Knowledge. (3)
once a year
Nature, sources, and limits of human knowledge. Topics may include truth, a priori knowledge, empirical knowledge, perception, induction, and skepticism. Prerequisite: PHI 101 or 103 or 300 or 301 or 302 or 333.
General Studies: HU

M PHI 314 Philosophy of Science. (3)
once a year
Structure and justification of scientific theories, explanation, and theory change. Roles of observation and laws, theoretical concepts and entities, reduction, probability, confirmation, space and time, and causation. Cross-listed as HPS 314. Credit is allowed for only HPS 314 or PHI 314.
General Studies: HU

M PHI 315 Philosophy of Language. (3)
once a year
Problems pertaining to the nature of language, including meaning, reference, truth, definition, analyticity, translatability, synonymy, and contributions of contemporary linguistics. Prerequisite: PHI 103 or 300 or 333.
General Studies: HU

M PHI 316 Metaphysics. (3)
once a year
Problems pertaining to the nature of reality. Topics may include nature of person, minds, substance, universals, space, time, causation, and modality. Prerequisite: PHI 101 or 103 or 300 or 301 or 333.
General Studies: HU

M PHI 317 Philosophy of Mind. (3)
once a year
Nature of consciousness. Common sense view of mind, behaviorism, materialism, dualism, functionalism, self-knowledge, and knowledge of other minds. Prerequisite: PHI 101 or 103 or 300 or 301 or 302 or 333.
General Studies: HU

M PHI 318 Philosophy of Religion. (3)
once a year
Classical arguments for the existence of God. Argument from evil against the existence of God. Justification of religious belief. Prerequisite: any PHI or REL course.
General Studies: HU

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M PHI 319 Philosophy of Computing. (3)
selected semesters
Philosophical problems surrounding the theory of computation. Turing machines, mind and AI, neural network computing, ethics, and epistemology of computing. Lecture, lab, discussion.
General Studies: CS/HU

M PHI 320 Bioethics. (3)
once a year
Critical examination of moral questions arising in biomedical contexts, particularly due to new technologies and scientific discoveries.

M PHI 325 Philosophy of Social Science. (3)
selected semesters
Philosophical problems surrounding the aims, structure, and methods of the social sciences.
General Studies: HU/SB

M PHI 333 Introduction to Symbolic Logic. (3)
once a year
Symbolic techniques, emphasizing deductions and proofs in the propositional and 1st-order predicate calculi.

M PHI 335 History of Ethics. (3)
once a year
Major works of moral philosophy, both ancient and modern, such as those by Plato, Aristotle, Hobbes, Hume, Kant, and Mill. Prerequisite: PHI 101 or 105 or 305 or 306 or 307 or 309 or instructor approval.
General Studies: HU

M PHI 401 Rationalism. (3)
selected semesters
Examines classical philosophical rationalism, as in Descartes, Spinoza, Malebranche, or Leibniz. Contemporary rationalist thought may also be examined. Prerequisites: PHI 302 and 305 (or 309 or 312 or 316 or 317).

M PHI 402 Empiricism. (3)
selected semesters
Examines representatives of either classical or contemporary philosophical empiricism, e.g., Bacon, Hobbes, Locke, Butler, Berkeley, Reid, Hume, Mill, Carnap, and Ayer. Prerequisites: PHI 302 and 305 (or 309 or 312 or 316 or 317).
General Studies: HU

M PHI 403 Contemporary Analytic Philosophy. (3)
once a year
Aims and methods of such 20th-century philosophers as Frege, Moore, Russell, Wittgenstein, Carnap, Ayer, Wisdom, Ryle, Austin, Strawson, Quine, and Sellars, with application to metaphysics and epistemology. Prerequisites: PHI 302 and 312 (or 314 or 315 or 316 or 317 or 401 or 402).
General Studies: HU

M PHI 413 Advanced Symbolic Logic. (3)
selected semesters
Properties of formal systems axiomatizing propositional and 1st-order predicate logic. May also include modal logic, number theory, and limits of logicism. Prerequisite: PHI 333.

M PHI 420 Topics in Philosophy. (3)
once a year
Course descriptions on file in department. May be repeated for credit. Topics may include the following:
- History of Philosophy
- Metaphysics/Epistemology
- Philosophy of Language/Logic
- Philosophy of Science
- Value Theory

Prerequisite: a relevant upper-division PHI course or instructor approval.

M PHI 428 Immunophilosophy. (3)
selected semesters
Integrates immunology and philosophy, including psychoneuroimmunology and the mind-body problem, and immunologic/psychologic perspectives on self and self-identity. Discussion, original literature readings and written assignments. Cross-listed as MIC 428. Credit is allowed for only MIC 428 or PHI 428. Pre- or corequisite: MIC 420 or PHI 317 or instructor approval.

M PHI 494 Special Topics. (3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Physics and Astronomy

phy.asu.edu
480/965-3561
PS F470

Barry G. Ritchie, Chair

Regents' Professors: Smith, Spence, Starrfield, Windhorst

Professors: Alarcon, Bennett, Burstein, Chamberlin, Comfort, Cowley, Doak, Dow, Hester, Lindsay, Menéndez, Ponce, Rez, Ritchie, Sankey, Schmidt, Thorpe, Tillery, Treacy, Tsen, Tsong, Venables

Associate Professors: Culbertson, Drucker, Herbots, Marzke, McCartney, Newman

Assistant Professors: Belitsky, Desch, Lebed, Ortiz, Shumway

Distinguished Research Professor: Bauer

PHYSICS—BS

Students majoring in Physics may pursue one of two options.

Option I. Designed for students who wish to pursue physics at the bachelor or graduate degree levels, option I consists of the following required courses:

Choose between the course combinations below			4
PHY	150	Physics I *SQ* (4)	
		— *or* —	
PHY	121	University Physics I: Mechanics SQ^1 (3)	
PHY	122	University Physics Laboratory I SQ^1 (1)	
Choose between the course combinations below			4
PHY	151	Physics II *SQ* (4)	
		— *or* —	
PHY	131	University Physics II: Electricity and Magnetism SQ^2 (3)	
PHY	132	University Physics Laboratory II SQ^2 (1)	
PHY	201	Mathematical Methods in Physics I *CS*	3
PHY	252	Physics III *SQ*	4
PHY	302	Mathematical Methods in Physics II	2
PHY	310	Classical Particles, Fields, and Matter I	3
PHY	311	Classical Particles, Fields, and Matter II	3
PHY	314	Quantum Physics I	3
PHY	315	Quantum Physics II	3
PHY	333	Electronic Circuits and Measurements	3
PHY	334	Advanced Laboratory I L^3	2
PHY	412	Classical Particles, Fields, and Matter III	3
PHY	416	Quantum Physics III	3
PHY	441	Statistical and Thermal Physics I	3

PHY 465 Advanced Laboratory II 2
Total 45

[1] Both PHY 121 and 122 must be taken to secure SQ credit.
[2] Both PHY 131 and 132 must be taken to secure SQ credit.
[3] Both PHY 334 and 420 must be taken to secure L credit.

Supporting mathematics courses are as follows:

Choose between the course combinations below ..... 12 or 10
MAT 270 Calculus with Analytic Geometry I *MA* (4)
MAT 271 Calculus with Analytic Geometry II *MA* (4)
MAT 272 Calculus with Analytic Geometry III *MA* (4)
— *or* —
MAT 290 Calculus I *MA* (5)
MAT 291 Calculus II (5)

Additional courses in physics and related fields are selected with the approval of the advisor. French, German, or Russian is strongly recommended to fulfill the foreign language requirement.

Option II. The interdisciplinary option II is designed for students who wish to obtain an undergraduate physics preparation for entry into other professions or graduate programs. A total of 53 hours are required, including the following courses:

Choose between the course combinations below 4
PHY 150 Physics I *SQ* (4)
— *or* —
PHY 121 University Physics I: Mechanics *SQ*[1] (3)
PHY 122 University Physics Laboratory I *SQ*[1] (1)
Choose between the course combinations below 4
PHY 151 Physics II *SQ* (4)
— *or* —
PHY 131 University Physics II: Electricity and Magnetism *SQ*[2] (3)
PHY 132 University Physics Laboratory II *SQ*[2] (1)
PHY 201 Mathematical Methods in Physics I *CS* 3
PHY 252 Physics III *SQ* 4
PHY 302 Mathematical Methods in Physics II 2
PHY 310 Classical Particles, Fields, and Matter I 3
PHY 311 Classical Particles, Fields, and Matter II 3
PHY 314 Quantum Physics I 3
PHY 315 Quantum Physics II 3
PHY 333 Electronic Circuits and Measurements 3
PHY 334 Advanced Laboratory I *L*[3] 2
PHY 412 Classical Particles, Fields, and Matter III 3
PHY 441 Statistical and Thermal Physics I 3
Total 40

[1] Both PHY 121 and 122 must be taken to secure SQ credit.
[2] Both PHY 131 and 132 must be taken to secure SQ credit.
[3] Both PHY 334 and 420 must be taken to secure L credit.

The remaining courses are selected from physics and an area of concentration as approved by the student's advisor. Possible areas of concentration are astronomy, astrophysics, materials science, physical chemistry, applied mathematics, geophysics, biological physics, philosophy of science, scientific journalism, and premedical and prelaw programs. French, German, or Russian is strongly recommended to fulfill the foreign language requirement.

Supporting mathematics courses are as follows:

Choose between the course combinations below ..... 12 or 10
MAT 270 Calculus with Analytic Geometry I *MA* (4)
MAT 271 Calculus with Analytic Geometry II *MA* (4)
MAT 272 Calculus with Analytic Geometry III *MA* (4)
— *or* —
MAT 290 Calculus I *MA* (5)
MAT 291 Calculus II (5)

Emphasis in Astronomy

The astronomy faculty offer courses in astronomy both for nonscience majors and for science and physics majors. For an emphasis in astronomy, the following courses (or their equivalents) should be taken:

AST 321 Introduction to Planetary and Stellar Astrophysics *SQ*[1] 3
AST 322 Introduction to Galactic and Extragalactic Astrophysics *SQ*[2] 3
AST 421 Astrophysics I 3
AST 422 Astrophysics II 3
AST 499 Individualized Instruction 3
Total 15

[1] Both AST 113 and 321 must be taken to secure SQ credit.
[2] Both AST 114 and 322 must be taken to secure SQ credit.

MINOR IN ASTRONOMY

The minor in Astronomy consists of a minimum of 24 semester hours. Required courses are as follows:

AST 113 Astronomy Laboratory I *SQ*[1] 1
AST 114 Astronomy Laboratory II *SQ*[2] 1
AST 321 Introduction to Planetary and Stellar Astrophysics *SQ*[1] 3
AST 322 Introduction to Galactic and Extragalactic Astrophysics *SQ*[2] 3
Choose between the course combinations below 4
PHY 150 Physics I *SQ* (4)
— *or* —
PHY 121 University Physics I: Mechanics *SQ*[3] (3)
PHY 122 University Physics Laboratory I *SQ*[3] (1)
Choose between the course combinations below 4
PHY 151 Physics II *SQ* (4)
— *or* —
PHY 131 University Physics II: Electricity and Magnetism *SQ*[4] (3)
PHY 132 University Physics Laboratory II *SQ*[4] (1)
PHY 252 Physics III *SQ* 4
Approved upper-division electives 4
Total 24

[1] Both AST 113 and 321 must be taken to secure SQ credit.
[2] Both AST 114 and 322 must be taken to secure SQ credit.
[3] Both PHY 121 and 122 must be taken to secure SQ credit.
[4] Both PHY 131 and 132 must be taken to secure SQ credit.

Electives are chosen with approval of an astronomy advisor from upper-division courses in physics and astronomy.

MINOR IN PHYSICS

The minor in Physics consists of a minimum of 29 semester hours. Required courses are as follows:

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Choose between the course combinations below.....4
PHY 150 Physics I *SQ* (4)
— *or* —
PHY 121 University Physics I: Mechanics *SQ*[1] (3)
PHY 122 University Physics Laboratory I *SQ*[1] (1)
Choose between the course combinations below.....4
PHY 151 Physics II *SQ* (4)
— *or* —
PHY 131 University Physics II: Electricity and Magnetism *SQ*[2] (3)
PHY 132 University Physics Laboratory II *SQ*[2] (1)
PHY 201 Mathematical Methods in Physics I *CS* 3
PHY 252 Physics III *SQ* 4
PHY 302 Mathematical Methods in Physics II.....2
PHY 310 Classical Particles, Fields, and Matter I.....3
PHY 311 Classical Particles, Fields, and Matter II 3
PHY 314 Quantum Physics I.....3
Approved electives.....3
Total 29

[1] Both PHY 121 and 122 must be taken to secure SQ credit.
[2] Both PHY 131 and 132 must be taken to secure SQ credit.

Electives are chosen with approval of the physics advisor from upper-division courses in physics and astronomy.

BIS CONCENTRATIONS

Concentrations in astronomy and physics are available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

SECONDARY EDUCATION—BAE

Physics. This degree is offered through the Initial Teacher Certification (ITC) program in the College of Education. Students pursuing a major in Secondary Education have an advisor in the College of Education and an advisor within the department of their academic specialization area.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

The following courses must be completed with a grade of "C" (2.00) or higher *before* applying to the ITC program: PHY 150 and 151 or PHY 121, 122, 131, and 132.

This academic specialization consists of 48 semester hours. Required courses are as follows:

MAT 270 Calculus with Analytic Geometry I *MA*.....4
MAT 271 Calculus with Analytic Geometry II *MA* 4
MAT 272 Calculus with Analytic Geometry III *MA* 4
Choose between the course combinations below.....8
PHY 150 Physics I *SQ* (4)
PHY 151 Physics II *SQ* (4)
— *or* —
PHY 121 University Physics I: Mechanics *SQ*[1] (3)
PHY 122 University Physics Laboratory I *SQ*[1] (1)
PHY 131 University Physics II: Electricity and Magnetism *SQ*[2] (3)
PHY 132 University Physics Laboratory II *SQ*[2] (1)
PHY 201 Mathematical Methods in Physics I *CS* 3
PHY 252 Physics III *SQ* 4
PHY 302 Mathematical Methods in Physics II.....2
PHY 310 Classical Particles, Fields, and Matter I.....3
PHY 333 Electronic Circuits and Measurements 3
PHY 361 Introductory Modern Physics.....3
or PHY 314 Quantum Physics I (3)
PHY 480 Methods of Teaching Physics 3
or PHY 484 Internship: Physics Teaching (1–4)
Approved electives[3] 10
Minimum total 48

[1] Both PHY 121 and 122 must be taken to secure SQ credit.
[2] Both PHY 131 and 132 must be taken to secure SQ credit.
[3] Electives are chosen in physics or other closely related fields, subject to the approval of the advisor.

Teaching Methods
PHY 480 Methods of Teaching Physics 3
PHY 484 Internship: Physics Teaching 3
Total 6

GRADUATE PROGRAMS

The faculty in the department offer programs leading to degrees of Master of Natural Science, MS, and PhD. See the *Graduate Catalog* for requirements.

ASTRONOMY (AST)

For more AST courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M AST 111 Introduction to Solar Systems Astronomy. (3)
fall
History, properties of light, instruments, study of solar system and nearby stars. For nonscience majors. Optional lab (AST 113).
General Studies: SQ (if credit also earned in AST 113)

M AST 112 Introduction to Stars, Galaxies, and Cosmology. (3)
spring
Structure and evolution of stars, star clusters, galaxies, cosmology. For nonscience majors. Optional lab (AST 114).
General Studies: SQ (if credit also earned in AST 114)

M AST 113 Astronomy Laboratory I. (1)
fall
Astronomical observations and experiments designed to increase familiarity with the sky, telescopes, and astronomical measurements. 2.5 hours lab. Fee. Pre- or corequisites: AST 111 (or 321); a working knowledge of high school algebra and geometry.
General Studies: SQ (if credit also earned in AST 111 or 321)

M AST 114 Astronomy Laboratory II. (1)
spring
Similar to AST 113, but material chosen to supplement AST 112 and 322. 2.5 hours lab. Fee. Pre- or corequisites: AST 112 (or 322); a working knowledge of high school algebra and geometry.
General Studies: SQ (if credit also earned in AST 112 or 322)

M AST 321 Introduction to Planetary and Stellar Astrophysics. (3)
fall
Physical laws; celestial mechanics; properties of planets, the sun, and other stars; formation and evolution of stars and planetary systems. Prerequisites: MAT 270 (or 290); PHY 150.
General Studies: SQ (if credit also earned in AST 113)

M AST 322 Introduction to Galactic and Extragalactic Astrophysics. (3)
spring
Evolved stars, introduction to relativity, galaxies and interstellar matter, structure and dynamics of galaxies, cosmology. Prerequisite: AST 321 or instructor approval.
General Studies: SQ (if credit also earned in AST 114)

M AST 421 Astrophysics I. (3)
fall
Selected astrophysical topics, including stellar evolution, star formation, interstellar medium, galactic structure, extragalactic astronomy, high-energy astrophysics, and cosmology. Prerequisites: AST 321, 322; PHY 311, 314.

M AST 422 Astrophysics II. (3)
spring
Same range of astrophysical topics as for AST 421 but different specific topics are emphasized in a given year. Prerequisites: AST 321, 322; PHY 311, 314.

M AST 460 Astrobiology. (3)
fall and spring
Origin, early evolution, distribution, and future of life on Earth and elsewhere in the cosmos. May be repeated for credit. Lecture, discussion, video conferences, possible field trips. Cross-listed as BIO 460/CHM 483/GLG 460/MIC 475. Credit is allowed for only AST 460 or BIO 460 or CHM 483 or GLG 460 or MIC 475. Prerequisite: instructor approval.

M AST 499 Individualized Instruction. (3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

PHYSICAL SCIENCES (PHS)

M PHS 110 Fundamentals of Physical Science. (4)
fall and spring
One-semester survey of the principles of physics and chemistry. Presumes understanding of elementary algebra. 3 hours lecture, 2 hours lab. Fee.
General Studies: SQ

M PHS 208 Patterns in Nature. (4)
fall and spring
Project-oriented science course with computer training to develop critical thinking and technical skills for student-oriented K–12 science lessons. Lecture, lab. Cross-listed as MSE 208. Credit is allowed for only MSE 208 or PHS 208. Fee. Prerequisite: a college-level science course or instructor approval.
General Studies: SQ

M PHS 402 Service Learning. (3)
fall and spring
K–12 tutoring and mentoring internship related to academic course work in physical science and physics. Requires weekly reflective reading and writing. May be repeated for credit. Internship. Fee. Pre- or corequisite: only PHS 110 (or 208) or PHY 101 (or 105) or both PHY 111 and 113 or both PHY 121 and 122 or only PHY 150.
General Studies: C

M PHS 484 Internship. (1–12)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

PHYSICS (PHY)

For more PHY courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M PHY 101 Introduction to Physics. (4)
fall and spring
Emphasizes applications of physics to life in the modern world. Presumes understanding of elementary algebra. 3 hours lecture, 1 recitation, 2 hours lab.
General Studies: SQ

M PHY 105 Basic Physics. (3)
fall
One-semester survey of the principles of physics. Primarily for students who intend to take PHY 121, 131 but have not taken high school physics. 3 hours lecture, 1 recitation. Prerequisites: algebra and trigonometry.

M PHY 111 General Physics. (3)
fall, spring, summer
Noncalculus treatment of the principles of physics for nonphysics majors. Students whose curricula require a laboratory course must also register for PHY 113. 3 hours lecture, 1 recitation. Prerequisite: trigonometry.
General Studies: SQ (if credit also earned in PHY 113)

M PHY 112 General Physics. (3)
fall, spring, summer
Continuation of PHY 111. Students whose curricula require a laboratory course must also register for PHY 114. Prerequisite: PHY 111.
General Studies: SQ (if credit also earned in PHY 114)

M PHY 113 General Physics Laboratory. (1)
fall, spring, summer
Elementary experiments in physics. Requires outside preparation for experiments and report writing. May be taken concurrently with, or subsequent to, PHY 111. 2 hours lab. Fee.
General Studies: SQ (if credit also earned in PHY 111)

M PHY 114 General Physics Laboratory. (1)
fall, spring, summer
See PHY 113. May be taken concurrently with, or subsequent to, PHY 112. Fee.
General Studies: SQ (if credit also earned in PHY 112)

M PHY 121 University Physics I: Mechanics. (3)
fall, spring, summer
Kinematics; Newton's laws; work, energy, momentum, conservation laws; dynamics of particles, solids, and fluids. 3 hours lecture, 1 hour recitation. Prerequisite: MAT 270 or 290 or instructor approval.
General Studies: SQ (if credit also earned in PHY 122)

M PHY 122 University Physics Laboratory I. (1)
fall, spring, summer
Lab accompanying PHY 121. Fee. Pre- or corequisite: PHY 121.
General Studies: SQ (if credit also earned in PHY 121)

M PHY 131 University Physics II: Electricity and Magnetism. (3)
fall, spring, summer
Electric charge and current, electric and magnetic fields in vacuum and in materials, and induction. AC circuits, displacement current, and electromagnetic waves. 3 hours lecture, 1 hour recitation. Prerequisites: MAT 271 (or 291 or instructor approval); PHY 121. Corequisite: MAT 272 or instructor approval.
General Studies: SQ (if credit also earned in PHY 132)

M PHY 132 University Physics Laboratory II. (1)
spring and summer
Lab accompanying PHY 131. Fee. Pre- or corequisite: PHY 131.
General Studies: SQ (if credit also earned in PHY 131)

M PHY 150 Physics I. (4)
spring
Introductory physics for majors. Kinematics, Newton's Laws, basic forces, energy, momentum, special relativity. 3 hours lecture, 3 hours lab. Fee. Prerequisite: MAT 270 or 290 (or its equivalent).
General Studies: SQ

M PHY 151 Physics II. (4)
fall
Continuation of PHY 150. Electromagnetic fields; Ampere's and Faraday's Laws; Maxwell's equations; basic circuit elements. 3 hours lecture, 3 hours lab. Fee. Prerequisites: MAT 271 (or 291 or its equivalent); PHY 121, 122 (or 150).
General Studies: SQ

M PHY 190 Seminar: Physics as a Curriculum and a Profession. (1)
fall and spring
Seminar for new Physics majors. Instruction and information on curriculum, departmental functions, and professional preparation. Weekly meetings and excursions. Pass/fail grading.

M PHY 201 Mathematical Methods in Physics I. (3)
spring
Differential equations, linear equations, vectors, matrices, Fourier series, and numerical methods. 2 hours lecture, 2 hours lab. Fee. Prerequisites: MAT 272; Physics major. Corequisite: PHY 252.
General Studies: CS

M PHY 241 University Physics III. (3)
fall and spring
Thermodynamics, kinetic theory, physical and wave optics, relativity, photons, matter waves, atomic physics. 3 hours lecture, 1 hour recitation. Prerequisites: PHY 131; nonmajor.

M PHY 252 Physics III. (4)
spring
Continuation of PHY 151. Wave physics, oscillations, harmonic systems, physical optics, thermodynamics, kinetic theory. 3 hours lecture, 3 hours lab. Fee. Prerequisites: MAT 272 (or its equivalent); PHY 131 and 132 (or 151 or its equivalent). Corequisite: PHY 201.
General Studies: SQ

M PHY 302 Mathematical Methods in Physics II. (2)
fall
Continuation of PHY 201. Vector calculus, complex variables, partial differential equations, special functions, numerical methods. 1 hour lecture, 3 hours lab. Fee. Prerequisite: PHY 201 (or its equivalent).

M PHY 310 Classical Particles, Fields, and Matter I. (3)
fall
Particle kinematics, mechanics, conservation laws, particle motion in force fields, dynamics of two-body systems, reference frames, rigid body motion, relativity. Fee. Corequisites: both PHY 302 and 314 or only instructor approval.

M PHY 311 Classical Particles, Fields, and Matter II. (3)
spring
Electrostatic and gravitational fields, Poisson and Laplace equations, dielectric materials, magnetic fields and materials, magnetic induction, Faraday's Law. Fee. Prerequisites: PHY 302, 310. Corequisite: PHY 315 or instructor approval.

M PHY 314 Quantum Physics I. (3)
fall
Photons, models of the atom, wave properties of matter, introduction to wave mechanics, 1-D systems in quantum mechanics. Fee. Prerequisites: PHY 201 and 252 (or their equivalents). Corequisites: both PHY 302 and 310 or only instructor approval.

M PHY 315 Quantum Physics II. (3)
spring
General principles of quantum mechanics, 3-D problems, approximation methods, spin, introduction to many-particle systems. Fee. Prerequisites: PHY 302, 310, 314. Corequisite: PHY 311 or instructor approval.

M PHY 333 Electronic Circuits and Measurements. (3)
fall and spring
Basic principles of electronic circuit analysis and measurement techniques using modern instrumentation and computer-aided analysis of data. 1 hour lecture, 3 hours lab; required equivalent effort outside of lab. Fee. Corequisite: PHY 201 or instructor approval.

M PHY 334 Advanced Laboratory I. (2)
spring
Selected experiments from contemporary physics. Emphasizes modern instrumentation, computer-assisted acquisition and analysis of data, and report form writing. Lecture, lab. Fee. Prerequisites: PHY 310, 314, 333.
General Studies: L (if credit also earned in PHY 420)

M PHY 361 Introductory Modern Physics. (3)
fall and spring
Special relativity and introductory quantum theory with applications drawn from atomic, nuclear, and solid-state physics. 3 hours lecture, 1 recitation. Prerequisite: PHY 131.

M PHY 412 Classical Particles, Fields, and Matter III. (3)
fall
Electromagnetic fields of moving charges, Maxwell's equations, harmonic phenomena, oscillations, waves, electromagnetic radiation, covariant electromagnetism, introduction to general relativity. Fee. Prerequisites: PHY 311, 333. Corequisite: PHY 416 or instructor approval.

M PHY 416 Quantum Physics III. (3)
fall
Introduces the quantum theory of atoms, molecules, solids and nuclei, Dirac's equation. Fee. Prerequisites: PHY 311, 315. Corequisite: PHY 412 or instructor approval.

M PHY 420 Research Paper. (1)
fall and spring
Scientific report writing. Culminates in a paper based on library or laboratory research or both. Taken in conjunction with other courses as approved. Conference. Prerequisite: instructor approval.
General Studies: L (if credit also earned in PHY 334)

M PHY 441 Statistical and Thermal Physics. (3)
fall
Statistical and experimental basis of heat, temperature, and entropy. Mechanical and statistical basis of the laws of thermodynamics. Applications of macroscopic thermodynamics. Phase equilibrium. Prerequisites: PHY 311, 315.

M PHY 452 Physical Optics. (3)
fall
Principles of reflection, refraction, diffraction. Additional topics from contemporary optics may include Fourier transform spectroscopy, linear systems theory, holography. 2 hours lecture, 2 hours lab. Prerequisites: PHY 302, 311, 315. Corequisite: PHY 412.

M PHY 462 Subatomic Physics. (3)
spring
Nuclear properties, models, decays and reactions; fundamental forces, field theories, symmetry principles; hadrons, quarks, and leptons; the Standard Model. Prerequisites: PHY 311, 315.

M PHY 465 Advanced Laboratory II. (2)
fall and spring
Continuation of PHY 334. Students are encouraged to substitute laboratory research project in consultation with faculty sponsor. Fee. Prerequisite: PHY 334.

M PHY 466 Advanced Laboratory III. (1–3)
fall and spring
Continuation of PHY 465. Fee. Prerequisite: PHY 465.

M PHY 480 Methods of Teaching Physics. (3)
spring
Evaluation of various approaches to the teaching of high school physics. Preparation of demonstrations and experiments. Organization of a laboratory. Designed for secondary school physics teachers. Prerequisite: instructor approval.

M PHY 481 Materials Physics I. (3)
fall
Fundamentals of materials physics: crystal structure, diffraction, elasticity, point defects, dislocations, lattice vibrations, thermal properties, periodic potential, band structure. Credit is allowed for only PHY 481 or 511. Prerequisites: PHY 311, 315.

M PHY 482 Materials Physics II. (3)
spring
Electronic behavior of materials: energy bands, electronic properties, metals, semiconductors, insulators, optical properties, magnetic properties, superconductivity, biophysics. Credit is allowed for only PHY 482 or 512. Prerequisite: PHY 481 (or its equivalent).

M PHY 484 Internship: Physics Teaching. (1–4)
fall, spring, summer
Preparation for high school physics teaching. Student works closely with a faculty member in the elementary physics program. May be repeated for a total of 6 semester hours. Prerequisite: instructor approval.

M PHY 495 Project Research. (1–3)
fall and spring
Supervised project in physics or astrophysics. May be repeated for credit. Prerequisite: instructor approval.

M PHY 498 Pro-Seminar. (1–7)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Political Science

www.asu.edu/clas/polisci
480/965-6551
COOR 6801

Patrick J. Kenney, Chair

Professors: Artibise, Ball, Dagger, Fridkin, Guston, Iheduru, Jones, Kenney, Simon, Youngblood

Associate Professors: Ashley, Crittenden, Dantico, Doty, M. Elman, Herrera, Keating, Mitchell, Simhony, Warner

Assistant Professors: Chin, C. Elman, Espino, Goren, Hindman, Hoekstra, Kittilson, Lewis, Pantoja, Schatzman

POLITICAL SCIENCE—BA

The BA degree in Political Science consists of 42 semester hours, of which 30 must be in political science and 12 in related fields consisting of courses selected from the Departments of Aerospace Studies, Chicana and Chicano Studies, Economics, Family and Human Development, Geography, History, Military Science, Philosophy, Psychology, Religious Studies, and Sociology; the Schools of Global Studies, Human Communication, Human Evolution and Social Change, and Justice and Social Inquiry; or from the African and African American Studies, American Indian Studies, Asian Pacific American Studies, or Women and Gender Studies programs. At least 15 hours in political science must be in upper-division courses.

The following courses are required:

POS	101	Political Ideologies *SB*	3
POS	110	Government and Politics *SB*	3
		or POS 310 American National Government *SB* (3)	
POS	150	Comparative Government *SB, G*	3
		or POS 160 Global Politics *SB, G* (3)	
POS	301	Empirical Political Inquiry *SB*	3
Total			12

Students who major in Political Science must have a minimum GPA of 2.00 for all courses that count toward the major. Courses that count toward the major must have a grade of "C" (2.00) or higher. See "College Graduation Requirements," page 503. No more than six hours of POS 484 Internship may be applied to the major.

POLITICAL SCIENCE—BS

The BS degree in Political Science consists of 48 semester hours, of which 36 must be in political science and 12 in related fields consisting of courses selected from the Departments of Aerospace Studies, Chicana and Chicano Studies, Economics, Family and Human Development, Geography, History, Military Science, Philosophy, Psychology, Religious Studies, and Sociology; the Schools of Global Studies, Human Communication, Human Evolution and Social Change, and Justice and Social Inquiry; or from the African and African American Studies, American Indian Studies, Asian Pacific American Studies, or Women and Gender Studies programs. At least 21 hours in political science must be in upper-division courses.

The following courses are required:

POS	101	Political Ideologies *SB*	3
POS	110	Government and Politics *SB*	3
		or POS 310 American National Government *SB* (3)	
POS	150	Comparative Government *SB, G*	3
		or POS 160 Global Politics *SB, G* (3)	
POS	301	Empirical Political Inquiry *SB*	3
POS	401	Political Statistics *CS*	3
Total			15

Students who major in Political Science must have a minimum GPA of 2.00 for all courses that count toward the major. Courses that count toward the major must have a grade of "C" (2.00) or higher. See "College Graduation Requirements," page 503. No more than six hours of POS 484 Internship may be applied to the major.

CERTIFICATES

Asian Studies Certificate or Emphasis. Students majoring in Political Science may elect to pursue an Asian Studies Certificate combining courses from the major with selected outside courses of wholly Asian content. See "Asian Studies," page 509, for more information.

Certificate in Civic Education. The Civic Education Certificate is designed to contribute to the preparation of undergraduate students for

1. careers in primary and secondary education (where the teaching of government and civics may be involved);
2. careers or voluntary participation in politics, public service, and civic and social movements; and
3. further education in law, journalism, business, history, sociology, political science, and other fields where an understanding of questions of citizenship, leadership, community, democracy, public responsibility, and ethics is crucial.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

The certificate does not substitute for degree requirements in any subject, including Political Science; rather, as a complement to the student's chosen major, the certificate program is intended to guide students to a variety of courses whose successful completion indicates their special accomplishment in the area of civic education.

Students majoring in any subject at the university may be awarded the Civic Education Certificate upon completion of the following 15 semester hours of political science courses:

POS 101 Political Ideologies *SB* 3
POS 346 Problems of Democracy *HU* 3
POS 442 American Political Thought *HU* 3
Choose one from the courses below 3
- POS 340 History of Political Philosophy I *HU, H* (3)
- POS 341 History of Political Philosophy II *HU, H* (3)
- POS 443 Topics in Contemporary Political Theory *HU* (3)

Choose one from the courses below 3
- POS 110 Government and Politics *SB* (3)
- POS 150 Comparative Government *SB, G* (3)
- POS 160 Global Politics *SB, G* (3)
- POS 270 American Legal System *SB* (3)
- POS 300 Contemporary Controversies in Global Politics *SB, G* (3)
- POS 313 The Congress *SB* (3)
- POS 314 The American Presidency *SB* (3)
- POS 315 The Supreme Court *SB* (3)
- POS 330 Contemporary Controversies in Domestic Politics *SB* (3)
- POS 332 American Political Parties *SB* (3)
- POS 333 Interest Groups *SB* (3)
- POS 370 Law and Society *SB* (3)
- POS 417 The Arizona Political System *SB* (3)
- POS 435 Women and Politics *SB, C* (3)
- POS 439 Minority Group Politics in America *SB, C* (3)

Total 15

Certificate students must have a minimum GPA of 2.00; only courses in which students have a grade of "C" (2.00) or higher count toward the certificate.

Certificate in International Studies. The International Studies Certificate is designed to prepare students for careers in government agencies, international governmental and nongovernmental organizations, multinational firms and banks, and for graduate studies in International Relations or Political Science. The certificate is not a substitute for degree requirements in any subject, including political science; rather, the required courses add an international and comparative dimension to the student's chosen major.

Requirements for the certificate are intended to provide an understanding of international relations and comparative government, an awareness of global social and political-economic processes, and sensitivity to foreign political systems and cultures. These objectives are met by a sequence of political science courses in the areas of international relations, comparative politics, and area studies.

Students majoring in any subject at the university may be awarded the International Studies Certificate upon completion of the following 15 semester hours of political science courses:

Choose one from the courses below 3
- POS 150 Comparative Government *SB, G* (3)
- POS 160 Global Politics *SB, G* (3)

Choose one from the courses below 3
- POS 361 American Foreign Policy *SB, G* (3)
- POS 364 National Security, Intelligence, and Terrorism *SB* (3)

Choose two from the courses below 6
- POS 300 Contemporary Controversies in Global Politics *SB, G* (3)
- POS 465 International Organization and Law *SB, G* (3)
- POS 467 International Security *SB, G* (3)
- POS 486 International Political Economy *SB, G* (3)

Choose one from the courses below 3
- POS 350 Comparative Politics *SB, G* (3)
- POS 355 Russia and Successor States *SB, G* (3)
- POS 356 European Union *SB, G* (3)
- POS 357 South Asia Politics *SB, G* (3)
- POS 358 Southeast Asia *SB, G* (3)
- POS 359 African Politics and Society *SB, G* (3)
- POS 360 World Politics *SB, G* (3)
- POS 451 China, Japan, and the Koreas *SB, G* (3)
- POS 452 China *SB, G* (3)
- POS 453 South America *SB, G* (3)
- POS 454 Mexico *SB, G* (3)
- POS 455 Central America and the Caribbean *SB, G* (3)
- POS 459 South and Southern Africa *SB, G* (3)
- POS 463 Inter-American Relations *SB, G* (3)
- POS 468 Comparative Asian Foreign Policies *SB, G* (3)

Total 15

Honors students who select an international topic for their theses may apply thesis credit toward the 15 hours of international course work for the certificate.

Depending upon their interests, certificate students are strongly advised to take 12 semester hours or more from appropriate courses in anthropology (ASB), economics (ECN), geography (GCU), history (HST), international business studies (IBS), and sociology (SOC). Knowledge of a modern foreign language equivalent to at least two years of college study is strongly recommended.

Certificate students must have a minimum GPA of 2.00; only courses in which students have a grade of "C" (2.00) or higher count toward the certificate.

Latin American Studies Certificate or Emphasis. Students majoring in Political Science may elect to pursue a Latin American Studies Certificate combining courses from the major with selected outside courses of wholly Latin American content. See "Latin American Studies," page 512, for more information.

MINOR IN POLITICAL SCIENCE

The minor in Political Science consists of 18 semester hours in political science courses, 12 hours of which must be upper-division courses. Students who minor in Political Science must have two courses from among the following:

POS 101 Political Ideologies *SB* 3
POS 110 Government and Politics *SB* 3
or POS 310 American National Government *SB* (3)
POS 150 Comparative Government *SB, G* 3
POS 160 Global Politics *SB, G* 3

Students who minor in Political Science must have a minimum GPA of 2.00 for all courses that count toward the minor. Courses that count toward the minor must have a grade of "C" (2.00) or higher; no more than one "D" (1.00)

grade in a lower-division course may be counted toward the minor. No more than three hours of POS 484 Internship and three hours of POS 499 Individualized Instruction may be applied to the minor.

BIS CONCENTRATIONS

Concentrations in political science (with civic education, and international studies options) are available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

SECONDARY EDUCATION—BAE

This degree is offered through the Initial Teacher Certification (ITC) program in the College of Education. Students pursuing a major in Secondary Education with an academic specialization in political science have an advisor in the College of Education and an advisor within the Department of Political Science.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

Academic Specialization ITC Admission Requirements

At least four required courses in the academic specialization must be completed with a grade of "C" (2.00) or higher before applying to the ITC professional program.

Political Science. The major teaching field consists of 41 to 42 semester hours and six hours in teaching methods. A minimum grade of "C" (2.00) is required in all academic specialization courses. Required major courses are as follows:

POS	101	Political Ideologies *SB*	3
POS	110	Government and Politics *SB*	3
		or POS 310 American National Government *SB* (3)	
POS	150	Comparative Government *SB*, *G*	3
		or POS 160 Global Politics *SB*, *G* (3)	
POS	301	Empirical Political Inquiry *SB*	3
POS	311	Arizona Constitution and Government	2
		or POS 417 The Arizona Political System *SB* (3)	
Electives[1]			15
Related area[2]			12
Total			41–42

[1] Six hours must be in the upper division.

[2] Choose courses in consultation with a department advisor.

Students are required to complete two methods courses, one of which is SED 480 Methods of Teaching Social Studies. For the second methods course, students select from the following:

GCU	414	Teaching Geography Standards	3
GCU	494	ST: Geography in the K–12 Classroom	3
HST	480	Methods of Teaching History: Classroom Resources	3
HST	481	Methods of Teaching History: Community Resources	3

Courses may be substituted for POS 417 with departmental approval.

Social Studies. This degree is offered through the Initial Teacher Certification program in the College of Education. Students pursuing a major in Secondary Education have an advisor in the College of Education and an advisor within the department of their academic specialization area.

See "College of Education," page 349, for information on admission eligibility requirements, admission deadlines, field experiences, and student teaching. For more information, or to schedule an appointment with an advisor, call the Office of Student Services in the College of Education at 480/965-5555.

JOINT BACHELOR/MASTER'S PROGRAM

Admission. Any undergraduate Political Science major with a GPA of 3.40 or higher, who has accumulated at least 90 hours toward the undergraduate degree, or who is on the verge of doing so, and who has taken at least one 400-level political science course at ASU can be considered for admission into the joint program.

The following items should be submitted to the director of graduate studies of the Department of Political Science by April 15 in order to ensure recommendation for admission to the five-year program beginning the following fall:

1. the department's graduate application, available in the department's graduate office or online;
2. a statement of purpose that describes the applicant's educational objectives and identifies a faculty member who will serve as an advisor;
3. an official transcript;
4. a writing sample that best represents the applicant's analytical and writing skills; and
5. three letters of recommendation, two of which must be written by members of the political science faculty.

Students applying to the five-year program do not need to take the Graduate Record Exam.

Note: Students must also apply for admission to the Division of Graduate Studies at the same time they submit materials to the director of graduate studies of the department.

Program of Study. The Division of Graduate Studies has approved a plan whereby undergraduates can "share" credits for both their undergraduate and graduate degrees. Students can count one 400-level course and two 500-level courses as credit hours for both degrees. Using this system of shared credits, undergraduates will be able to complete both degrees in five years.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Once all existing degree requirements for the undergraduate degree have been completed, students will have completed enough courses to be able to finish their master's degree in one academic year. Students are only eligible for research or teaching assistantships, health insurance, financial aid, or graduate awards once they have completed all requirements for the undergraduate degree and the undergraduate degree has been posted.

A minimum of 30 semester hours is required for the Master of Arts degree. All candidates must take POS 503 and the core courses in the student's major and minor fields. Additional hours must be taken in graduate-level courses and seminars. Each student is expected to take seminars each semester in his/her major field, minor field, and an elective until course work is completed. If the thesis option is followed, the program must include a combination of at least six semester hours of research (POS 592) and thesis (POS 599) credit. A maximum of six semester hours in approved courses taken outside of the department or six hours of reading and conference (POS 590) courses may count toward the 30-semester-hour requirement.

Foreign Language Requirement. None.

Lattie F. Coor Hall is home to many College of Liberal Arts and Sciences degree programs, including Audiology, History, Philosophy, and Political Science. Tim Trumble photo

Thesis Option Requirement. MA students seeking admission to the PhD program are expected to complete the thesis early in their fourth semester. A copy of the *Format Manual* is available in the Division of Graduate Studies. A careful review of this document well in advance of preparation for the final copy of the thesis is recommended. An oral examination in defense of the thesis is required.

Non-Thesis Option Requirements. The program of study must include 27 semester hours of approved course work and at least one three-hour reading and conference course (POS 590) during the fourth semester to enhance the student's research capabilities. A research paper must be defended by the end of the third semester before a faculty committee appointed by the director of graduate studies.

GRADUATE PROGRAMS

The faculty in the Department of Political Science offer programs leading to the MA and PhD degrees. See the *Graduate Catalog* for requirements.

POLITICAL SCIENCE (POS)

M POS 101 Political Ideologies. (3)
fall and spring
Leading political ideas and belief systems, e.g., Marxism, liberalism, conservatism, theories of democracy, and alternative futures.
General Studies: SB

M POS 110 Government and Politics. (3)
fall and spring
Major institutions of modern government and processes of individual and group political activity, with emphasis on the American experience. Meets the federal government requirement for teacher certification. Credit is allowed for only POS 110 or 310.
General Studies: SB

M POS 150 Comparative Government. (3)
fall and spring
Political institutions and processes in selected foreign countries, including origins, strengths, and weaknesses of contemporary political systems and political development.
General Studies: SB, G

M POS 160 Global Politics. (3)
fall and spring
Nature of contemporary world politics through the study of both general theoretical topics and specific geographical areas.
General Studies: SB, G

M POS 220 Political Issues and Public Policy. (3)
once a year
Contemporary social problems and political issues, particularly development of public policy.
General Studies: SB

M POS 230 Current Issues in National Politics. (3)
fall and spring
Major issues facing national governments in the domestic field. Prerequisite: ENG 101 or 105.
General Studies: L/SB

M POS 240 Introduction to Southeast Asia. (3)
fall and spring
Interdisciplinary introduction to the cultures, religions, political systems, geography, and history of Southeast Asia. Cross-listed as ASB 240/GCU 240/HST 240/REL 240. Credit is allowed for only ASB 240 or GCU 240 or HST 240 or POS 240 or REL 240.
General Studies: HU/SB, G

M POS 260 Current Issues in International Politics. (3)
fall and spring
Analyzes major current problems in world politics. Prerequisite: ENG 101 or 105.
General Studies: L/SB, G

M POS 270 American Legal System. (3)
fall and spring
Concepts, institutions, classifications, and functions of law. Role of the courts and impact of judicial decision making on social change.
General Studies: SB

M POS 300 Contemporary Controversies in Global Politics. (3)
fall and spring
Explores key controversies in global politics, including security, economic stability, poverty, gender, race, and the environment.
General Studies: SB, G

M POS 301 Empirical Political Inquiry. (3)
fall and spring
Logic of political inquiry, including research problems, concepts, hypotheses, theories, measurement, data collection, and analysis.
General Studies: SB

M POS 305 Politics and Film. (3)
once a year
Examines portrayal of political events, ethnic groups, and sociopolitical situations in film, a major medium addressing questions of human values. May be repeated for credit when topics vary. Lecture, film, discussion.
General Studies: SB

M POS 310 American National Government. (3)
fall and spring
Powers, functions, and agents of American political institutions. Meets the federal government requirement for teacher certification. Credit is allowed for only POS 310 or 110.
General Studies: SB

M POS 311 Arizona Constitution and Government. (2)
fall and spring
Constitution and government of the State of Arizona. Credit is allowed for only POS 311 or 316 or 417. Meets the Arizona constitution requirement for teacher certification. May not be counted for the major or a teaching major or minor in Political Science.

M POS 313 The Congress. (3)
once a year
Lawmaking process in the U.S. Congress.
General Studies: SB

M POS 314 The American Presidency. (3)
once a year
Office, role, and power of the American presidency in the American political system.
General Studies: SB

M POS 315 The Supreme Court. (3)
once a year
Role of the Supreme Court in American society and politics; examines decision-making process and impact of decisions; restraint versus activism.
General Studies: SB

M POS 316 State and Local Government. (3)
once a year
Survey of the operations, problems, and policies of state and local governments in the United States. Credit is allowed for only POS 316 or 311.
General Studies: SB

M POS 320 Public Administration. (3)
once a year
Role of the administrator in the political process with an examination of the basic concepts of bureaucracy.
General Studies: SB

M POS 325 Public Policy Development. (3)
once a year
Examines one or more aspects of public policy development, including agenda setting and policy formulation, implementation, and analysis.
General Studies: SB

M POS 330 Contemporary Controversies in Domestic Politics. (3)
fall and spring
Explores key controversies in domestic politics, including the environment, the economy, poverty, gender, race, and security.
General Studies: SB

M POS 331 Public Opinion. (3)
once a year
Formation, expression, and influence of individual and organized opinion on political institutions.
General Studies: SB

M POS 332 American Political Parties. (3)
once a year
Development of the American party system. Party organization and functions.
General Studies: SB

M POS 333 Interest Groups. (3)
once a year
Examines how minority, corporate, labor, farm, consumer, environmental, health, education and public interest groups, and single-issue movements influence government.
General Studies: SB

M POS 336 Voters in America. (3)
once a year
Voting behavior and the attitudes, perceptions, and activities of the citizenry in the political process.
General Studies: SB

M POS 340 History of Political Philosophy I. (3)
once a year
Western political philosophers and their theories to the 17th century.
General Studies: HU, H

M POS 341 History of Political Philosophy II. (3)
once a year
Western political philosophers and their theories from the 17th to the 20th centuries.
General Studies: HU, H

M POS 346 Problems of Democracy. (3)
once a year
Issues and problems in democratic theory, e.g., the nature of democracy, majority rule, representation, equality, and the value of political participation.
General Studies: HU

M POS 350 Comparative Politics. (3)
once a year
Theoretical approaches and political institutions, such as parties, pressure groups, legislatures, and executives, from a cross-national perspective.
General Studies: SB, G

M POS 351 Democratization. (3)
fall
Examines the consolidation of democracies in postauthoritarian and postcommunist settings (e.g., Latin America, Eastern Europe, Asia).
General Studies: SB, G

M POS 355 Russia and Successor States. (3)
once a year
Description and analysis of political institutions and practices in Russia and successor states.
General Studies: SB, G

M POS 356 European Union. (3)
once a year
History and workings of EU member states, including single market, Euro, legal system, ethnonationalism, immigration, expansion, trade wars, and defense.
General Studies: SB, G

M POS 357 South Asia Politics. (3)
once a year
Political culture and systems of South Asia examined through study of political writings, novels, and poetry. Lecture, discussion.
General Studies: SB, G

M POS 358 Southeast Asia. (3)
once a year
Political background, governmental institutions, political dynamics, and developmental problems of Southeast Asian nations.
General Studies: SB, G

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M POS 359 African Politics and Society. (3)
selected semesters
Comparative analysis of socioeconomic forces, political processes, government institutions, and political novels in Sub-Sahara Africa.
General Studies: SB, G

M POS 360 World Politics. (3)
once a year
Theory and practice of statecraft as applied to selected issues, regions, or eras. May be repeated for credit when topics vary.
General Studies: SB, G

M POS 361 American Foreign Policy. (3)
once a year
United States in world affairs; foreign policy since World War I. Techniques in formulating American foreign policies.
General Studies: SB, G

M POS 364 National Security, Intelligence, and Terrorism. (3)
once a year
Theoretical and empirical assessment of U.S. national security policy in the post-cold war era.
General Studies: SB

M POS 368 Ethics and Human Rights. (3)
spring
Explores issues of ethics, morality, and human rights in the global community. Lecture, discussion.

M POS 369 War, Politics, and Society. (3)
fall in odd years
Relationships between techniques/technology of war and political/social structures in different time periods and locations. Who commands, dies, and pays?

M POS 370 Law and Society. (3)
once a year
Analyzes debates among social scientists and legal theorists concerning the relationship between "law" and "society."
General Studies: SB

M POS 401 Political Statistics. (3)
fall and spring
Basic concepts in statistics as they facilitate the description, explanation, and prediction of social and political phenomena. Prerequisite: POS 301 (or its equivalent) or instructor approval.
General Studies: CS

M POS 410 Governing American Cities. (3)
once a year
Reviews modern urban problems, their sources, and potential solutions, including structural and policy alternatives.
General Studies: SB

M POS 417 The Arizona Political System. (3)
selected semesters
Contemporary political problems within the context of Arizona's constitutional, political, and social frameworks. Meets the Arizona Constitution requirement for teacher certification. Credit is allowed for only POS 417 or 311.
General Studies: SB

M POS 426 Elements of Public Policy. (3)
once a year
Each section may cover one of the following topics: consumer protection, natural resources, criminal justice, environmental protection, science and technology, or theories of public policy. May be repeated for credit when topics vary.
General Studies: SB

M POS 431 Campaigns and Elections. (3)
once a year
Examines campaigns from a multitude of perspectives, including the politician, reporter, campaign strategist, and voter. Lecture, discussion.
General Studies: SB

M POS 433 Money and Politics. (3)
once a year
Role of money and special interests in elections, campaign politics, and public policy-making in American politics. Lecture, discussion.
General Studies: SB

M POS 434 Media and Politics. (3)
once a year
Studies mass media and politics in the United States, e.g., media and elections, media and government. Lecture, discussion.
General Studies: SB

M POS 435 Women and Politics. (3)
selected semesters
Focuses on the uniqueness of women in modern political systems and political thought. Emphasis may vary with instructor.
General Studies: SB, C

M POS 439 Minority Group Politics in America. (3)
selected semesters
Role of minority groups in American politics.
General Studies: SB, C

M POS 442 American Political Thought. (3)
once a year
Political theories and movements from the colonial period to the present.
General Studies: HU

M POS 443 Topics in Contemporary Political Theory. (3)
once a year
Major problems and theories in contemporary political thought.
General Studies: HU

M POS 445 Asian Political Thought. (3)
once a year
Contemporary political ideas and theories in selected Asian countries, including the impact of Marxist and non-Marxist theories on revolutionary processes.
General Studies: SB, G

M POS 451 China, Japan, and the Koreas. (3)
once a year
Comparative analysis of the political modernization experiences of China, Japan, and the two Koreas, focusing on their differing reactions to the West.
General Studies: SB, G

M POS 452 China. (3)
once a year
Background of the Communist revolution, political processes, and developmental problems in China from a comparative perspective.
General Studies: SB, G

M POS 453 South America. (3)
once a year
Political institutions, process, and developmental problems of South American states examined through comparative analysis, novels, and poetry.
General Studies: SB, G

M POS 454 Mexico. (3)
once a year
Mexican federal, state, and local governmental institutions.
General Studies: SB, G

M POS 455 Central America and the Caribbean. (3)
once a year
Governmental institutions, political processes, and developmental problems of the nation-states and dependent areas of Central America and the Caribbean.
General Studies: SB, G

M POS 459 South and Southern Africa. (3)
once a year
Post-apartheid South African government and politics; South Africa and the southern African region; regional security and development.
General Studies: SB, G

M POS 463 Inter-American Relations. (3)
once a year
Diplomatic relations among the Latin American states. Development of U.S. foreign policy toward Latin America.
General Studies: SB, G

M POS 465 International Organization and Law. (3)
once a year
History, practical political significance, and future of international institutions, transnational regimes, and international law.
General Studies: SB, G

M POS 467 International Security. (3)
once a year
Examines issues affecting the international security of states and peoples, e.g., military, economic, technological, environmental, and demographic.
General Studies: SB, G

M POS 468 Comparative Asian Foreign Policies. (3)
once a year
Foreign policies of the Asian states, emphasizing their security relations and movements toward regionalism.
General Studies: SB, G

M POS 471 Constitutional Law I. (3)
once a year
Development of the U.S. Constitution as reflected in decisions of the Supreme Court; jurisdiction and organization of the federal courts; judicial review; separation of powers; federalism; the commerce clause; national taxing and spending power; state police power.
General Studies: SB

M POS 472 Constitutional Law II. (3)
once a year
Development of the U.S. Constitution as reflected in decisions of the Supreme Court; due process; equal protection of laws; individual rights; civil liberties.
General Studies: SB

M POS 484 Internship. (1–12)
selected semesters

M POS 485 Political Economy. (3)
once a year
Problems, policies, and possibilities of various political-economic systems and the interrelationship of capitalism, socialism, and democracy.
General Studies: SB

M POS 486 International Political Economy. (3)
once a year
Contending approaches to historical and contemporary issues of international political economy, including global welfare, equality, ecology, and peace.
General Studies: SB, G

M POS 498 Pro-Seminar. (3)
once a year
Small group study and research for advanced students within their major area. Prerequisite: major in the department or instructor approval.
General Studies: L

M POS 499 Individualized Instruction. (3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Psychology

www.asu.edu/clas/psych
480/965-3326
PSY 237

Keith A. Crnic, Chair

Regents' Professors: Cialdini, Eisenberg, Russo, Sandler

Foundation Professor: Crnic

Professors: Aiken, Barrera, Braver, Castro, Chassin, Goldinger, Gonzales, Homa, Karoly, Kenrick, Killeen, Knight, Lanyon, MacKinnon, Millsap, Neisewander, Neuberg, Okun, Parkinson, Presson, Reich, Sadalla, Somerville, Van Orden, West, Wolchik, Zautra

Associate Professors: Alexander, Castaneda, Conrad, Davis, Fabricius, Leshowitz, McBeath, Nagoshi, Nemeroff, Saenz, Stone

Assistant Professors: E. Amazeen, P. Amazeen, Bimonte-Nelson, Enders, Lemery, Luecken, Piña

Senior Lecturers: Barton, Wosinski

Lecturer: Palmer

The Department of Psychology maintains an undergraduate advising office staffed by trained personnel. All psychology majors are encouraged to meet with an advisor once each semester to ask questions regarding choices of courses. Failure to do so may prevent graduation at the expected time. It is the responsibility of the student to consult with an undergraduate advisor.

PSYCHOLOGY—BA

The BA degree in Psychology consists of 37 semester hours in psychology, including at least 24 upper-division semester hours, and 12 semester hours of related course work. All courses must be passed with a minimum grade of "C" (2.00). The requirements are as follows:

I. Foundations of Psychology (10 semester hours)

PGS 101 Introduction to Psychology *SB* (3)
PSY 230 Introduction to Statistics *CS* (3)
PSY 290 Research Methods *L*/*SG* (4)

II. Breadth (12 semester hours)

One course from each of four of the following five clusters:

Biological: PSY 325

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Cognitive/Learning: PSY 320, 323, 324
Developmental: PGS 341
Personality/Mental Health: PGS 315, 466
Social: PGS 306, 350, 351

III. Depth (six semester hours)

Two additional courses from one of the clusters used to meet the breadth requirements. At least one of the courses must be at the 400 level.

Biological: PSY 424, 425, 426, 470
Cognitive/Learning: PSY 320, 323, 324, 420, 434, 437
Developmental: PGS 344, 427, 441, 445, 446
Personality/Mental Health: PGS 315, 365, 443, 444, 462, 464, 465, 466, 468, 471, 472
Social: PGS 306, 350 or 351, 430, 451, 452, 458, 461

IV. Additional Psychology Courses (nine semester hours)

Three courses in psychology (two must be in the upper division) excluding PGS 270, 484 and PSY 484. Approved 200-level community college courses may be used in this category. These courses may not be used to also satisfy breadth or depth requirements. Students may count up to six semester hours in PGS or PSY 399 or 499 to satisfy this requirement. Honors students may count up to three semester hours of PSY 492 and three semester hours of PSY 493 (six semester hours total), in lieu of six semester hours of PGS or PSY 399 or 499, to satisfy this requirement.

V. Mathematics Foundation (three semester hours)

MAT 119, 170, 242, 251, or higher than 251.

VI. Foundations of Behavior (nine semester hours)

Any three courses from among the following prefixes: ASB, ASM, BIO, GCU, HPS, PHI, and SOC.

For more information, see "College Graduation Requirements," page 503.

PSYCHOLOGY—BS

The BS degree in Psychology is focused on the science of psychology and is designed specifically for students planning to pursue an advanced degree in psychology or related disciplines. The requirements for the BS degree in Psychology are identical to the requirements for the BA degree with the following three exceptions:

1. PSY 330 must be completed as one of the options in the additional psychology course requirements.
2. At least three semester hours of PSY 390 or PGS or PSY 399 or 499 must be completed as one of the options in the additional psychology course requirements.
3. MAT 251 or higher must be completed for the mathematics foundation requirement.

MINOR IN PSYCHOLOGY

The minor in Psychology consists of completing the 22 semester hours of course work in the foundations of psychology and the breadth categories described above. Students with an appropriate equivalent course may exclude PSY 230 from the requirements but need an additional three hours in psychology to equal the 22 hours minimum. All courses must be passed with a minimum grade of "C" (2.00).

BIS CONCENTRATION

A concentration in psychology is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

GRADUATE PROGRAMS

The faculty in the Department of Psychology offer a program leading to the PhD degree. See the *Graduate Catalog* for requirements.

PSYCHOLOGY (SOCIAL AND BEHAVIORAL) (PGS)

For more PGS courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M PGS 101 Introduction to Psychology. (3)
fall, spring, summer
Major areas of theory and research in psychology. Requires participation in department-sponsored research or an educationally equivalent alternative activity.
General Studies: SB

M PGS 194 Special Topics. (1–4)
selected semesters

M PGS 222 Human Sexual Behavior. (3)
fall and spring
Patterns of sexual behavior, including variations and deviations; theories of sexual attraction, sex differences, and sexual dysfunction and treatment. Prerequisite: PGS 101.
General Studies: SB

M PGS 270 Psychology of Adjustment. (3)
fall, spring, summer
Principles of mental health, adjustment, conflict, stress, and coping processes derived from clinical and experimental research. Intended for nonmajors; cannot be used for major credit. Prerequisite: PGS 101.
General Studies: SB

M PGS 304 Effective Thinking. (3)
once a year
Understanding and improving intellectual and behavioral skills; information analysis, inference, logic, problem solving, and decision making. Prerequisite: MAT 119 (or 170 or higher than MAT 170) or PSY 230 (or their equivalents).
General Studies: L

M PGS 306 Environmental Psychology. (3)
fall, spring, summer
Concepts and research strategies in the study of behavior in interaction with physical environment. Prerequisite: PGS 101.
General Studies: SB

M PGS 315 Personality Theory and Research. (3)
fall, spring, summer
Definition and description of personality in terms of theoretical and methodological approaches. Prerequisites: PGS 101; PSY 290.
General Studies: SB

M PGS 341 Developmental Psychology. (3)
fall and spring
Analyzes behavior development in terms of psychological principles. Current research in human development. Prerequisites: PGS 101; PSY 290.
General Studies: SB

M PGS 344 Directed Child Study. (3–4)
fall, spring, summer
Theories and methods of intervention with preschool children and supervised practicum in the Child Study Laboratory. 1 hour lecture, 6–8 hours practicum. Prerequisites: CDE 232 (or ECD 214 or PGS 341); PSY 290.

M PGS 350 Social Psychology. (3)
fall, spring, summer
Human social behavior, including such concepts as aggression, attraction, attribution, conformity, groups, helping, person perception, and persuasion. Prerequisite: PGS 101.
General Studies: SB

M PGS 351 Honors Social Psychology. (3)
selected semesters
Critical analysis of human social behavior for honors students; topics include stereotyping, social influence, attraction, aggression, helping, groups, and attitudes. Open only to students without previous credit for PGS 350. Lecture, discussion. Prerequisites: both PGS 101 and admission to the Barrett Honors College or only instructor approval.
General Studies: L/SB

M PGS 365 Community Psychology. (3)
fall and spring
Mental health and psychological well-being in the community, emphasizing current issues and related research. Prerequisites: PGS 315 (or 350 or 351); PSY 290.
General Studies: SB

M PGS 394 Special Topics. (1–4)
selected semesters

M PGS 399 Supervised Research. (1–3)
fall, spring, summer
Experience within the context of current faculty research projects. Responsibility is assigned depending on qualifications. "Y" grade only. May be repeated for a total of 6 hours. Prerequisites: approval of faculty member before registration; 3.00 GPA in major. Pre- or corequisite: PSY 230 (or its equivalent).

M PGS 414 History of Psychology. (3)
fall and spring
Historical development of psychology from its philosophical beginnings to the present. Prerequisites: PGS 101; PSY 230, 290.
General Studies: L/SB

M PGS 427 Psychology of Aging. (3)
selected semesters
Analyzes loss, maintenance, and gain associated with cognitive and affective aging. Individual differences in coping with normative life transitions. Prerequisites: PGS 341; PSY 290.
General Studies: L/SB

M PGS 430 Industrial Psychology. (3)
fall, spring, summer
Organizations and management systems; motivation and work performance; human factors in systems design and evaluation; personnel selection and testing. Prerequisite: PSY 290 or instructor approval.

M PGS 441 Cognitive Development. (3)
fall and spring
Experimental and theoretical literature in child development and behavior. Prerequisites: PGS 341; PSY 290.
General Studies: L/SB

M PGS 443 Abnormal Child Psychology. (3)
fall and spring
Covers major disorders of childhood and adolescence (e.g., autism, hyperactivity, phobias, and delinquency), including cause, diagnosis, treatment, and prevention. Prerequisites: PGS 315 (or 341 or 350 or 351); PSY 290.
General Studies: L/SB

M PGS 444 Adolescent Psychology and Psychopathology. (3)
selected semesters
Advanced-level survey of normal adolescent psychological development and psychological disorders of this age period. Lecture, discussion. Prerequisites: PGS 341; PSY 290.
General Studies: L

M PGS 445 Child Language and Drawing. (3)
fall
Language acquisition and developmental changes in drawing, considered in the context of cognitive developmental stages. Children's representation and communication of knowledge through language and drawing. Prerequisites: PGS 341; PSY 290.
General Studies: SB

M PGS 446 Social Development. (3)
selected semesters
Discusses theory, research, and issues regarding social development. Example topics: formation of attachments, prosocial development, and gender-role development. Lecture, seminar. Prerequisites: PGS 341; PSY 290.
General Studies: L

M PGS 451 Stereotyping, Prejudice, and Discrimination. (3)
selected semesters
Critical investigation of the processes underlying, and the factors contributing to, stereotyping, prejudice, and discrimination. Lecture, discussion. Prerequisites: PGS 350 (or 351); PSY 290.
General Studies: L

M PGS 452 Applied Social Psychology. (3)
fall
Studies applications of social psychological theory and concepts in natural settings; research design and data analysis. Lecture, lab-type activities. Prerequisites: PGS 350 (or 351); PSY 230, 290.
General Studies: L

M PGS 458 Group Dynamics. (3)
fall
Theories and methods of group leadership, group effectiveness, communication within groups, and relations between groups and individual members. Prerequisites: PGS 350 (or 351); PSY 290.

M PGS 461 Interpersonal Influence. (3)
selected semesters
Principles and procedures that affect the process of social influence; consideration of attitudinal, compliance-inducing, and perceptual influences. Prerequisites: PGS 350 (or 351); PSY 290.
General Studies: SB

M PGS 462 Health Psychology. (3)
fall and spring
Contributions of psychology to health promotion and illness prevention, adaptation to acute and chronic illness, and to the health care system. Prerequisites: PSY 230, 290.

M PGS 464 Minority Issues in Psychology. (3)
spring
Psychological issues relating to the diversity of human cultural experiences among ethnic minorities in the U.S. Prerequisite: PSY 290.

M PGS 465 Psychology of Stress and Coping. (3)
fall
Readings in theory and research in the area of stress and coping. Lecture, discussion, class presentations. Prerequisites: PGS 315 (or 350 or 351); PSY 290.
General Studies: L

M PGS 466 Abnormal Psychology. (3)
fall, spring, summer
Historical and current definitions, theory, and research concerning abnormal behavior. Major categories of psychopathology, including related treatment approaches. Prerequisites: PGS 101; PSY 290.
General Studies: SB

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M PGS 467 Psychology of Magical Beliefs. (3)
selected semesters
Psychological nature and bases of magical beliefs and their impact on health behaviors, eating practices, and interpersonal relations. Lecture, seminar. Prerequisites: PGS 315 (or 466 or PSY 434); PSY 290.
General Studies: L

M PGS 468 Psychology and Law. (3)
fall and spring
Theories, research, and practice in psychology as related to law, including criminal, civil, domestic relations, and professional issues. Lecture, discussion. Prerequisite: PSY 290.

M PGS 471 Psychological Testing. (3)
spring
Methods and theory of psychological testing; various types of psychological tests; consideration of ethical, social, and legal aspects of testing. Prerequisite: PSY 290.

M PGS 472 Clinical Psychology. (3)
fall and spring
Clinical psychology as a science and profession. Historical development, methods of interviewing, assessment, and therapeutic intervention. Prerequisites: PGS 443 (or 466); PSY 290.

M PGS 484 Internship. (1–12)
selected semesters

M PGS 494 Special Topics. (1–4)
selected semesters

M PGS 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

PSYCHOLOGY (SCIENCE AND MATHEMATICS) (PSY)

For more PSY courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M PSY 230 Introduction to Statistics. (3)
fall, spring, summer
Basic concepts in descriptive and inferential statistics, emphasizing applications to psychology. Self-paced (PSI) and lecture sections. Prerequisites: MAT 119 (or 170 or 242 or 251 or any MAT course higher than MAT 251); PGS 101.
General Studies: CS

M PSY 290 Research Methods. (4)
fall and spring
Planning, execution, analysis, and reporting of experiments. Literature, procedures, and instruments in representative areas of psychological research. 3 hours lecture, 3 hours lab. Prerequisites: ENG 101 (or 105); PSY 230.
General Studies: L/SG

M PSY 320 Learning and Motivation. (3)
fall, spring, summer
Principles of conditioning and motivation; approaches to learning, including acquisition of verbal materials, concepts, and motor skills; memory and transfer. Prerequisite: PSY 290.

M PSY 323 Sensation and Perception. (3)
fall and spring
Underlying processes of vision, audition, and the other senses. Applies current research and theory in a lab environment. Prerequisite: PSY 290.

M PSY 324 Memory and Cognition. (3)
fall, spring, summer
Processes underlying information storage and retrieval, including different kinds of memory, forgetting, depth of processing, and control processes. Prerequisite: PSY 290.

M PSY 325 Physiological Psychology. (3)
fall, spring, summer
Relationships of physiological processes to behavior. Emphasizes nervous system functioning. Prerequisite: PSY 290 or instructor approval.

M PSY 330 Statistical Methods. (3)
spring
Advanced application of statistics to psychology. Highly recommended for students interested in attending graduate school. 3 hours lecture, 1 hour lab. Prerequisite: PSY 230.
General Studies: CS

M PSY 390 Experimental Psychology. (3)
spring
Continuation of concepts in PSY 290, with emphasis on multifactor designs and programmatic sequence of experiments. Lecture, lab. Prerequisite: PSY 290.
General Studies: L

M PSY 399 Supervised Research. (1–3)
fall, spring, summer

M PSY 420 Analysis of Behavior. (3)
selected semesters
Research, applications, and philosophy of the analysis and control of human behavior. Prerequisites: PSY 290, 320.
General Studies: L

M PSY 422 Motor Control in Special Populations. (3)
selected semesters
Discusses principles of motor control theories and related practical applications for certain special developmental populations. Lecture, discussion. Cross-listed as KIN 422. Credit is allowed for only KIN 422 or PSY 422. Prerequisite: KIN 345.
General Studies: L

M PSY 424 Genetic Psychology. (3)
spring
Introduces the concepts, methodologies, and findings of behavioral genetics for Psychology majors. Prerequisites: PGS 101; PSY 230, 290.
General Studies: L

M PSY 425 Biological Bases of Behavior. (3)
selected semesters
Critical study of physiological psychology; brain mechanisms underlying motivation and learning. Prerequisites: PSY 290, 325.
General Studies: L

M PSY 426 Neuroanatomy. (4)
selected semesters
Structure and function of mammalian brain, including sheep brain dissection. 3 hours lecture, 3 hours lab. Prerequisites: PSY 290, 325.

M PSY 434 Cognitive Psychology. (3)
spring
Human organism as a processor of information, from perception to cognition. Abstract concepts, semantic memory, attention, and mental imagery. Prerequisites: PSY 290, 323 (or 324).
General Studies: L

M PSY 437 Human Factors. (3)
fall
Emphasizes human factors in high-technology systems. Specific topics include systems development, systems analysis techniques, displays, and controls. Prerequisite: PSY 290.
General Studies: L

M PSY 470 Psychopharmacology. (3)
fall and spring
Basis of drug action at physiological and behavioral levels. Psychological and medical applications and limitations of drugs used in the treatment of mental illness. Prerequisites: PSY 290, 325.

M PSY 484 Internship. (1–12)
selected semesters

M PSY 492 Honors Directed Study. (1–6)
selected semesters

M PSY 493 Honors Thesis. (1–6)
selected semesters

M PSY 494 Special Topics. (1–4)
selected semesters

M PSY 497 Honors Colloquium. (1–6)
selected semesters

M PSY 498 Pro-Seminar. (1–7)
fall and spring
Topics may include the following:
- Behavioral Neuroscience Research. (3)
  General Studies: L

M PSY 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Religious Studies

www.asu.edu/clas/religious_studies
480/965-7145
ECA 377

Joel D. Gereboff, Chair

Professors: Cady, Feldhaus, Foard, Morrison, Samuelson

Associate Professors: Clay, Fessenden, Gereboff, Henn, Moore, Schober, Swanson, Woodward

Assistant Professors: Aguilera, Carlson, Duncan, Espinosa, Park, Umar, Wenger

Lecturer: Kefeli-Clay

RELIGIOUS STUDIES—BA

The BA degree in Religious Studies consists of 45 semester hours, 30 of which must be in religious studies (including 21 in upper-division courses) and 15 of which must be in related fields. In order for the student to become acquainted with the character and role of religions across a wide spectrum of social and historical contexts, the 30 semester hours in religious studies must include the following courses:

1. REL 305 Ritual, Symbol, and Myth;
2. at least one course from each of the following distribution areas: Religion in the Americas, Religion and Asian Cultures, and Religion and Western Cultures;
3. REL 400 Approaches to Religion; and
4. two research seminars, including REL 405 Problems in Religious Studies, which may be repeated for credit; or
5. in place of a second seminar, a student may take REL 499 to write an undergraduate thesis.

The Religious Studies major is an appropriate choice for students wishing to explore such areas as African or African American studies; Islamic studies; myth, ritual, and the arts; Native American studies; and religion and politics. All majors must plan their programs in consultation with a departmental advisor. A minimum GPA of 2.50 is required in the 30 semester hours of religious studies courses.

MINOR IN RELIGIOUS STUDIES

The minor in Religious Studies consists of 18 semester hours, at least 15 of which must be in the upper division. REL 305 is required. For minor verification, students must consult a department advisor.

BIS CONCENTRATION

A concentration in religious studies is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

CERTIFICATES AND EMPHASES

The following certificate programs or emphases are offered in conjunction with the BA in Religious Studies. For more information on each, see "Certificate Programs and Areas of Emphasis," page 509, or access the department Web site at www.asu.edu/clas/religious_studies.

Asian Studies Certificate. Students majoring in Religious Studies may elect to pursue an Asian Studies emphasis or East Asian Studies Certificate combining courses from the major with selected outside courses of wholly Asian content.

Islamic Studies Certificate. Students majoring in Religious Studies may elect to earn an Islamic Studies Certificate by successfully completing the requirements mentioned in "Islamic Studies Certificate," page 512.

Jewish Studies Certificate. Students majoring in Religious Studies may elect to pursue a Jewish Studies Certificate combining courses from the major with selected outside courses in the area of Jewish Studies.

Latin American Studies Certificate. Students majoring in Religious Studies may elect to pursue a Latin American Studies certificate combining courses from the major with selected outside courses of wholly Latin American content.

Russian and East European Studies. Students majoring in Religious Studies may elect to earn a Russian and East European Studies Certificate by successfully completing one of the options mentioned in "Russian and East European Studies," page 513.

Southeast Asian Studies Emphasis. Students majoring in Religious Studies may elect to earn a Southeast Asian Studies Certificate by successfully completing the requirements.

Women and Gender Studies. Students majoring in Religious Studies may elect to earn a Women and Gender Studies Certificate by successfully completing the requirements.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

GRADUATE PROGRAM

The faculty in the Department of Religious Studies offer a graduate program leading to the MA degree for those who wish to enter a doctoral program in the study of religions, for those who wish to teach at the community college level, and for those in nonacademic careers who desire general competence in the academic study of religions. A doctoral program is offered. See the *Graduate Catalog* for requirements.

RELIGIOUS STUDIES (REL)

M REL 100 Religions of the World. (3)
fall and spring
Introduces the history of religious traditions of the world, including Buddhism, Christianity, Hinduism, Islam, Judaism, and others. Credit is allowed for only REL 100 or 200.
General Studies: HU, G

M REL 200 The Study of Religious Traditions. (3)
selected semesters
Writing-intensive course introducing analytical skills necessary for understanding religious traditions. Beliefs, practices, and communities of several religious traditions of the world. Credit is allowed for only REL 200 or 100. Prerequisite: ENG 101 or 105.
General Studies: L/HU, G

M REL 201 Religion and the Modern World. (3)
once a year
Introduces the nature and role of religious beliefs and practices in shaping the lives of individuals and societies, with particular attention to the modern world. Prerequisite: ENG 101 or 105.
General Studies: L/HU

M REL 202 Religion and Popular Culture. (3)
once a year
Explores various intersectors between religion and the popular media, including music, news, advertising, the visual arts, literature, performance, and film. Lecture, discussion.
General Studies: HU, C

M REL 203 Saints and Sinners: Explorations in Sacred Biography. (3)
selected semesters
Comparison of the role of biography across religions to examine the process of categorizing people as saints or sinners. Lecture, discussion.
General Studies: HU, H

M REL 210 Introduction to Judaism. (3)
once a year
Beliefs, ceremonies, festivals, and institutions of Judaism emphasizing the contemporary era. Assumes no previous knowledge about Judaism. Prerequisite: ENG 101 or 105.
General Studies: L/HU, H

M REL 225 African American Religion. (3)
selected semesters
Introduces the history and development of the African American religious tradition. Lecture, discussion.
General Studies: HU, C

M REL 240 Introduction to Southeast Asia. (3)
fall and spring
Interdisciplinary introduction to the cultures, religions, political systems, geography, and history of Southeast Asia. Cross-listed as ASB 240/GCU 240/HST 240/POS 240. Credit is allowed for only ASB 240 or GCU 240 or HST 240 or POS 240 or REL 240.
General Studies: HU/SB, G

M REL 260 Introduction to Islam. (3)
spring
Examines Islamic beliefs, ceremonies, festivals, and institutions. Assumes no prior knowledge about Islam. Lecture, discussion.
General Studies: HU, G

M REL 270 Introduction to Christianity. (3)
once a year
Beliefs, ceremonies, festivals, and institutions of Christianity, emphasizing the contemporary era. Assumes no previous knowledge about Christianity.
General Studies: HU

M REL 301 Comparative Mysticism. (3)
once a year
Comparative examination of Eastern and Western mystical traditions from antiquity to the present. Lecture, discussion. Prerequisite: REL 100.
General Studies: HU

M REL 305 Ritual, Symbol, and Myth. (3)
fall and spring
Ritual, symbol, and myth as types of religious expression, with examples selected from the nonliterate religions of the world.
General Studies: L/HU

M REL 310 Western Religious Traditions. (3)
fall and spring
Religious traditions of Judaism, Christianity, and Islam, comparing their doctrinal, institutional, and ritual systems and social histories. Lecture, discussion.
General Studies: HU, H

M REL 315 Hebrew Bible (Old Testament). (3)
once a year
Nature, content, background, historical situation, and message of the books of the Hebrew Bible in English translation.
General Studies: L/HU, H

M REL 317 Introduction to Rabbinic Judaism. (3)
selected semesters
Historical analysis of the thought, literature, and institutions of rabbinic Judaism.
General Studies: HU, H

M REL 318 Contemporary American Jewish Identities. (3)
spring
Analyzes the complexity and diversity of the contemporary American Jewish community in religious and secular affairs. Lecture, discussion. Cross-listed as SOC 375. Credit is allowed for only REL 318 or SOC 375.
General Studies: HU/SB, C

M REL 320 American Religious Traditions. (3)
fall and spring
Examines the formation, development, and interaction of major American religious traditions (indigenous, African American, Asian American, and Euro-American).
General Studies: HU, C, H

M REL 321 Religion in America. (3)
fall and spring
History of religion in America with attention to issues of historiography, pluralism, gender, race, ethnicity, politics, and social reform.
General Studies: HU, C, H

M REL 322 Malcolm and Martin. (3)
selected semesters
Examines and contrasts the lives, ministries, contributions, and legacies of Malcolm X and Martin Luther King, Jr.
General Studies: HU, C

M REL 323 Black Religion: A Biographical Approach. (3)
selected semesters
Examines the experiences, motivations, and contributions of a number of figures associated with African American religion.
General Studies: HU, C

M REL 324 Spirituals and the Blues. (3)
spring
Multidisciplinary exploration of the African American religious and musical response to the North American diaspora experience. Lecture, discussion.

M REL 326 U.S. Latino Religion and Culture. (3)
fall
Survey of the formative myths, rituals, and symbols of Mexican Americans, Puerto Ricans, and Cuban Americans. Lecture, discussion.
General Studies: HU, C

M REL 330 Native American Religious Traditions. (3)
once a year
Presents world views and religious thought through the art, architecture, literature, music, mythology, ritual, and folklore of representative tribes in North America.
General Studies: HU, C

M REL 331 History of Native American Religious Traditions. (3)
once a year
Role of religion in Native American history, including missionization; religious adaptation; and prophetic, messianic, and religious revitalization movements.
General Studies: L/HU, C, H

M REL 332 South American Indian Religions. (3)
selected semesters
Introduces the sacred stories, ceremonies, and beliefs of Native South American peoples in their historical contexts.
General Studies: HU, G

M REL 343 Taoism. (3)
fall
Introduces the history, doctrines, and practices of Taoism from the mid-second century CE up to the present. Lecture, discussion.
General Studies: L/HU, G, H

M REL 344 Religion and Values in Japanese Life. (3)
once a year
Japanese values expressed in the life and annual cycles of the family, local and national identities, and popular culture. Lecture, discussion.
General Studies: HU, G

M REL 345 Asian Religious Traditions. (3)
once a year
Introduces the major concepts of religious beliefs, rituals, and practices in Hinduism and Buddhism. Lecture, discussion.
General Studies: HU, G

M REL 346 Chinese Religions. (3)
selected semesters
Examines the history and practices of Chinese religions with particular attention to culture, society, and history.

M REL 350 Hinduism. (3)
once a year
Studies diverse forms of Hinduism through its institutions, literature, folklore, art, and architecture.
General Studies: L/HU, G

M REL 351 Buddhism. (3)
once a year
Doctrines, practices, and institutions of the Buddhist religion, emphasizing its role in the history and culture of Asian societies.
General Studies: L/HU, G

M REL 352 Modern Buddhism. (3)
fall
Examines diverse modernities with regard to Buddhist institutions, practices, colonialism and cultural transformations in Asia and the West. Lecture, discussion. Prerequisite: REL 100 or 345 or 351.

M REL 355 Japanese Cities and Cultures to 1800. (3)
once a year
Relations among ideas and literary, visual, and performing arts of the ancient aristocracy, medieval samurai, and early modern townspeople. Cross-listed as HUM 310. Credit is allowed for only HUM 310 or REL 355.
General Studies: L/HU, H

M REL 365 Islamic Civilization. (3)
fall
Global historical survey of Islamic cultures and societies up to the modern period. Lecture, discussion.
General Studies: HU, H

M REL 366 Islam in the Modern World. (3)
spring
Examines the worldwide transformations of Islamic religion, cultures, and societies in the modern period. Lecture, discussion.
General Studies: HU, G, H

M REL 369 Women in Islam. (3)
fall
Examines the roles women have played through Islamic history (Middle East) and the changing discourse on gender identity. Lecture, seminar.

M REL 371 New Testament. (3)
once a year
Origins and literature of early Christian communities; historical investigations of the types of oral and written tradition in the New Testament.
General Studies: HU

M REL 372 Formation of the Christian Tradition. (3)
once a year
Origins, development, and expansion of Christianity; major themes and tensions from the New Testament world to the beginning of the Middle Ages.
General Studies: HU, H

M REL 373 Women in Judaism. (3)
spring
Studies the legal, social, and cultural status of Jewish women in various historical and contemporary societies. Cross-listed as WST 372. Credit is allowed for only REL 373 or WST 372.

M REL 374 Witchcraft and Heresy in Europe. (3)
selected semesters
Background, origins, and development of the Inquisition; persecution of women and marginal groups. Cross-listed as HST 361. Credit is allowed for only HST 361 or REL 374. Prerequisite: upper-division standing or instructor approval.
General Studies: L/HU, H

M REL 377 Religion in Russia. (3)
selected semesters
Examines the history of the various religious traditions of Russia and the former USSR from an interdisciplinary perspective.
General Studies: HU, H

M REL 378 Religion, Violence, and Conflict Resolution. (3)
selected semesters
Presents ambiguous role of religion in conflict; how it can foment violence or serve as a moral guide for principled peace. Discussion, case studies, field trips.

M REL 379 Religion, Nationalism, and Ethnic Conflict. (3)
selected semesters
Examines the role of religion in national and ethnic conflict in the contemporary world.
General Studies: HU, G

M REL 381 Religion and Moral Issues. (3)
once a year
Manner in which human religiousness relates to social concerns, e.g., sexuality, the environment, bioethical issues, and violence.
General Studies: L/HU

M REL 382 Religion, Magic, and Science. (3)
once a year
Relationship and conflict between religion, magic, and science in the West from antiquity to the present. Lecture, discussion.
General Studies: L/HU

M REL 383 Origins, Evolution, and Creation. (3)
selected semesters
Examines scientific, mythic, and religious ideas relating to origins (particularly human). Place of antievolutionism and "scientific creationism" in American culture. Lecture, discussion. Cross-listed as BIO 344/HPS 311/HUM 371. Credit is allowed for only BIO 344 or HPS 311 or HUM 371 or REL 383.

M REL 384 The Bible and Archaeological Discoveries. (3)
spring
Studies the Bible alongside the stories that architecture, pottery, metalwork, sculpture, tombs, and paintings of the ancient Near East have to tell. May be repeated for credit.

M REL 385 Contemporary Western Religious Thought. (3)
selected semesters
Introduces contemporary Jewish and Christian thought. Topics include religion and politics, problem of evil, interpretations of God, and feminist theology.
General Studies: HU

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M REL 386 America and the Holocaust. (3)
fall
Analyzes the historical and sociopolitical factors that shaped U.S. policy decisions regarding Germany's assault on Europe's Jews.
General Studies: HU/SB

M REL 390 Women and Religion. (3)
fall and spring
Role of women in several organized religions and/or religious sects, including a study of myth and symbols as they are used to establish, maintain, and enforce sex roles within specific religions.
General Studies: HU, G

M REL 394 Special Topics. (1–4)
selected semesters

M REL 400 Approaches to Religion. (3)
fall
Examines the intellectual history of academic study of religion through various theoretical approaches, major themes, and thinkers. Seminar. Prerequisite: REL 305.

M REL 405 Problems in Religious Studies. (3)
fall and spring
Selected topics in religious studies; involves students in research interests of instructor. May be repeated for credit when topics vary. Seminar. Prerequisite: at least 9 semester hours of REL courses or instructor approval.

M REL 410 Judaism in Modern Times. (3)
selected semesters
Variety of expressions of Judaism and Jewishness in the modern period. Topics may include American Judaism or religious responses to the Holocaust.
General Studies: HU, H

M REL 420 Religion in American Life and Thought. (3)
selected semesters
Influence of religion on American society, culture, and ideas; the distinctive character of religion in America. Prerequisite: REL 320 or 321 (or its equivalent).
General Studies: HU

M REL 427 American Religious Thought. (3)
selected semesters
Thought of representative American religious thinkers, e.g., Jonathon Edwards, William Ellery Channing, Horace Bushnell, and Reinhold Niebuhr. Prerequisite: REL 320 or 321 (or its equivalent).
General Studies: HU, H

M REL 444 Religion in Japan. (3)
once a year
Religion in Japanese history, especially the development of Japanese Buddhism, and religion in the modern transformation of Japan. Prerequisite: instructor approval.
General Studies: HU, G, H

M REL 460 Studies in Islamic Religion. (3)
selected semesters
Issues in the interpretation and understanding of Islamic texts, history, society, culture, and rituals. May be repeated for credit when topics vary. Prerequisites: both REL 365 and Religious Studies major or only instructor approval.
General Studies: HU, G

M REL 470 Religion in the Middle Ages. (3)
selected semesters
Religious aspects of medieval life and thought; variety of forms of dissent, heresy, and reform movements from the 4th to 13th centuries.
General Studies: HU, H

M REL 471 Reformation and Modern Christianity. (3)
selected semesters
Protestant Reformation to contemporary Christian movements; includes factors in the dissolution of the Medieval Christian synthesis, variety of reform movements and reformation patterns, Catholic counter-reform measures, formation of liberal theology, ecumenical movement, and the World Council of Churches.
General Studies: HU, H

M REL 480 Religion and Global Politics. (3)
once a year
Explores the nature and role of religion in international politics in the modern period. Lecture, discussion.
General Studies: G

M REL 483 Religion and Science. (3)
spring
Investigates the correlation between science and religion as an interdisciplinary study from a historical perspective. Readings, film, lecture, discussion. Prerequisite: junior standing or instructor approval.

M REL 494 Special Topics in Religious Studies. (3)
fall and spring
Open to all students. Topics may be selected from various areas. Prerequisite for freshmen: instructor approval.

M REL 498 Pro-Seminar in Religious Studies. (3)
selected semesters
For students with a major or minor emphasis in Religious Studies.

M REL 499 Individualized Instruction. (1–3)
fall and spring

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Sociology

www.asu.edu/clas/sociology
480/965-3546
COOR 5681

Jennie Jacobs Kronenfeld, Chair

Professors: Cobas, Kronenfeld, Kulis, Weitz

Associate Professors: Agadjanian, Benin, Glick, Keith, Menjívar, Miller-Loessi, Sullivan

Assistant Professor: Yabiku

Senior Lecturer: Fine

Lecturers: Fey, Lewin

SOCIOLOGY—BA

The BA degree in Sociology requires a minimum of 30 semester hours of Sociology course work and 15 hours in closely related fields. Of the 30 required hours, a minimum of 18 hours must be upper-division with at least 12 of the 18 upper-division hours taken in residence at the Tempe campus. All upper-division courses in the major must be completed with a grade of "C" (2.00) or higher. The following courses are required:

SOC	101	Introductory Sociology *SB*	3
		or SOC 301 Principles of Sociology *SB* (3)	
SOC	390	Social Statistics I *CS*	3
SOC	391	Sociological Research *SB*	3
SOC	483	History of Social Thought *SB*	3
		or SOC 486 Contemporary Theory *SB* (3)	
Total			12

Sociology majors may complete the remaining 18 required hours through selecting one of two options. For a general sociology degree, students must choose six courses that sample at least three of the following seven sociology content areas:

1. family;
2. intergroup relations and social psychology;
3. political/comparative-historical;
4. social problems and processes;
5. stratification/occupations/organization;
6. urban sociology/demography; or
7. race and ethnicity.

If majors desire a more focused preparation in a specialized area, they may complete the remaining 18 hours in one of five focus areas: family issues, urban issues, diversity issues, work/organizational issues, and health issues. Students choosing this option must complete one required focus area course. Other requirements include four courses from a list of optional courses within that focus area and one additional sociology course. Internships (SOC 484) are available within the focus area option for those who qualify.

Information concerning the two options for fulfilling major requirements is available in the Department of Sociology office in COOR 5681, and on the Internet at www.asu.edu/clas/sociology/undergraduate/undergraduate.html.

MINOR IN SOCIOLOGY

The minor in Sociology requires 18 hours, of which 12 hours must be upper-division courses, with at least six upper-division hours completed at the Tempe campus. The required courses are as follows:

SOC	101	Introductory Sociology *SB*	3
		or SOC 301 Principles of Sociology *SB* (3)	
SOC	391	Sociological Research *SB*	3
		or SOC 483 History of Social Thought *SB* (3)	
		or SOC 486 Contemporary Theory *SB* (3)	
Total			6

The remaining four courses consist of sociology electives.

BIS CONCENTRATION

A concentration in sociology is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

GRADUATE PROGRAMS

The faculty in the Department of Sociology offer programs leading to the MA and PhD degrees. See the *Graduate Catalog* for requirements.

SOCIOLOGY (SOC)

For more SOC courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M SOC 101 Introductory Sociology. (3)
fall, spring, summer
Fundamentals of sociology, organization of human groups and society, processes of interaction, and social change. Credit is allowed for only SOC 101 or 301.
General Studies: SB

M SOC 220 Sport and Society. (3)
fall and spring
Examines sports in American society as a source of socialization and an institution where gender, race/ethnicity, and class interact. Prerequisite: SOC 101.
General Studies: SB

M SOC 270 Racial and Ethnic Relations. (3)
fall, spring, summer
Problems of minorities in heterogeneous societies. Evaluates theories of prejudice and research dealing with discrimination, desegregation, and assimilation. Lecture, discussion. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB, C

M SOC 301 Principles of Sociology. (3)
fall, spring, summer
Intensive and critical analysis of the concepts of sociology. Credit is allowed for only SOC 301 or 101.
General Studies: SB

M SOC 312 Sociology of Adolescence. (3)
fall, spring, summer
Cultural values and the social processes that help explain the development of the phenomenon of modern adolescence, including investigation of adolescent subcultures and cross-cultural references. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 315 Courtship and Marriage. (3)
fall, spring, summer
Overview of courtship, marriage, and related processes, focusing on problematic aspects of these institutions from the sociological perspective. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 321 Sociology of Work. (3)
fall and spring
Social and cultural analysis of industry. Occupational roles, status, and social participation of workers. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 331 Environmental Sociology. (3)
fall and spring
Analyzes human organizational responses to population growth, technological change, and environmental stressors on both a national and global scale. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB, G

M SOC 332 Urban Sociology. (3)
selected semesters
Growth, characteristics, and problems of the modern city. Prerequisite: SOC 101 or 301.
General Studies: SB, G

M SOC 333 Population. (3)
fall and spring
Global trends in population growth, composition, and distribution; theories, policies, and impact of population trends on environmental quality and development. Prerequisite: SOC 101 or 301.
General Studies: SB, G

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M SOC 334 Technology and Society. (3)
selected semesters
Development of technology in relation to society, work, science, the environment, public health, and cultural values related to social change. Lecture, discussion. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 340 The Sociology of Deviance. (3)
fall, spring, summer
Sociological analysis of stigmatized behaviors and conditions, including the causes, effects, and management of stigma. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 341 Modern Social Problems. (3)
fall, spring, summer
Selected issues such as education, poverty, race relations, crime, drugs, and international issues such as population, environment, global inequality, conflict. Prerequisite: SOC 101 or 301.
General Studies: SB

M SOC 352 Social Change. (3)
selected semesters
Patterns of social change, resistance to change, and change-producing agencies and processes. Prerequisite: SOC 101 or 301.
General Studies: SB, G, H

M SOC 360 Sociological Psychology. (3)
fall and spring
Interaction patterns between the sociocultural order and individuals; socialization process; norms, roles, and statuses; collective behavior. Prerequisite: SOC 101 or 301.
General Studies: SB

M SOC 363 Men and Masculinity. (3)
selected semesters
Sociological analysis of how masculine identity is defined, negotiated, and variously constructed depending upon class, ethnicity, age, and sexual orientation. Prerequisites: SOC 101 (or 301); WST 100 (or 300).
General Studies: SB

M SOC 365 Sociology of Mass Communication. (3)
fall and spring
Sociological exploration of the major mass media as a communicative process in American society. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 375 Contemporary American Jewish Identities. (3)
spring
Analyzes the complexity and diversity of the contemporary American Jewish community in religious and secular affairs. Lecture, discussion. Cross-listed as REL 318. Credit is allowed for only REL 318 or SOC 375.
General Studies: HU/SB, C

M SOC 390 Social Statistics I. (3)
fall, spring, summer
Descriptive and inferential statistical methods for analysis of social data. Computer applications. Prerequisites: SOC 101 (or 301); a General Studies MA course.
General Studies: CS

M SOC 391 Sociological Research. (3)
fall, spring, summer
Methods of sociological research, including the fundamental assumptions underlying research and some practical experience in research design, data collection techniques, and data analysis. Prerequisites: both SOC 101 (or 301) and 390 or only instructor approval.
General Studies: SB

M SOC 415 The Family. (3)
fall and spring
Family considered from the institutional viewpoint; its historical development and its adaptation to a changing culture; the family system in many cultures. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 416 Marriage Problems in Contemporary Society. (3)
spring
Marital and family problems in today's society from the viewpoint of personal and cultural adjustment. Prerequisites: both SOC 101 (or 301) and an additional 3 hours in sociology or only instructor approval.
General Studies: L/SB

M SOC 417 Family Violence. (3)
selected semesters
Current research and theories about domestic violence, including child maltreatment, spousal aggression, and courtship violence. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 418 Aging and the Life Course. (3)
fall and spring
Social aspects of aging. Theoretical and methodological perspectives and problems of aging such as life satisfaction, retirement, and adjustment to role loss. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 420 Sociology of Religion. (3)
selected semesters
Interrelationship of culture, society, and religion; religion and social stratification; religious, economic, and political institutions; social change and religion. Emphasizes American society and institutions. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: L/SB

M SOC 421 Education and Society. (3)
fall
Uses contemporary sociological perspectives to examine effects of schools and schooling on individuals and society. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 423 Social Class and Stratification. (3)
spring
Classical and contemporary theories about who gets what and why. Examines social and economic inequalities by class, gender, and race/ethnicity. Lecture, discussion. Prerequisites: both SOC 101 (or 301) and an additional 3 hours in sociology or only instructor approval.
General Studies: L/SB

M SOC 424 Women and Health. (3)
selected semesters
Women as health care workers and issues of health, illness, and health care for women. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 427 Sociology of Health and Illness. (3)
fall and spring
Social aspects of illness and sociological analysis of the health care system and its practitioners. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: L/SB

M SOC 429 Sociology of Law. (3)
selected semesters
Examines law as an institution; its origins, operations, and consequences. Emphasizes contemporary legal issues and problems. Prerequisite: SOC 101 or 301.
General Studies: SB

M SOC 433 Applied Demography. (3)
spring
Science of population analysis. Covers techniques for measuring fertility, mortality, migration, and population composition. Lecture, projects. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

M SOC 446 Sociology of Crime. (3)
fall and spring
Process of criminalization, exploring the behavior of the definers of crime, and the behavior of those defined as criminals. Prerequisites: both SOC 101 (or 301) and 340 or only instructor approval.
General Studies: SB

ASU Foundation Building

Tim Trumble photo

M SOC 448 Epidemics and Society. (3)
fall
How epidemics occur; how they are perceived in society; how epidemics affect society. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB, G

M SOC 451 Comparative Sociology. (3)
selected semesters
Cross-cultural study of basic social institutions; the methodology of cross-cultural research. Prerequisite: ASB 102 or SOC 101 (or 301) or instructor approval.
General Studies: SB, G

M SOC 464 Sociology of Women. (3)
spring
Sociological analysis of the development, nature, and consequences of women's position in contemporary society. Lecture, discussion. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: L/SB, C

M SOC 474 African Americans in Modern Society. (3)
selected semesters
Social and cultural heritage of black Americans; achievements and current trends. Lecture, discussion. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB, C

M SOC 483 History of Social Thought. (3)
fall, spring, summer
Social thought in human culture. Background of modern sociology. Prerequisite: SOC 101 or 301.
General Studies: SB

M SOC 484 Internship. (1–12)
fall and spring
See Department of Sociology advisor. Topics may include the following:
- Service Learning

Fee.

M SOC 486 Contemporary Theory. (3)
selected semesters
Contemporary issues and crises in social theory with major focus on particular theorists. Ideological factors in theory, philosophical issues, the nature of theory and its relationship with methodology. Prerequisite: SOC 101 or 301 or instructor approval.
General Studies: SB

Department of Speech and Hearing Science

www.asu.edu/clas/shs
480/965-2374
COOR 2211

Sid P. Bacon, Chair

Professors: S. Bacon, Dorman, D. Ingram, Wilcox

Associate Professors: Azuma, Liss, Restrepo

Assistant Professors: Bian, Gray, Pittman, Wright

Clinical Professors: Mathy, Wiley

Clinical Associate Professors: C. Bacon, Brown, Maxwell, McBride, Mehta

Clinical Assistant Professors: K. Ingram, Wexler, Woods

Senior Lecturer: Forestal

Lecturers: Ammons, Francini, Howard, O'Brien, Quinn

SPEECH AND HEARING SCIENCE—BS

The BS degree in Speech and Hearing Science consists of 40 semester hours of speech and hearing science courses emphasizing the developmental and scientific aspects of language, speech, and hearing. The following courses, or their approved equivalents, are required:

SHS 250 Introduction to Phonetics 3
SHS 310 Anatomical and Physiological Bases of Speech 3
SHS 311 Physical and Physiological Bases of Hearing 3
SHS 367 Language Science *SB* 3
SHS 375 Speech Science 3
SHS 376 Psychoacoustics 3
SHS 401 Introduction to Audiology 3
SHS 402 Modifying Communicative Behavior 3
Choose two from the courses below 6
  SHS 431 Developmental Speech Disorders (3)
  SHS 470 Developmental Language Disorders (3)
  SHS 485 Acquired Speech and Language Disorders (3)
SHS 450 Observation 1
SHS 465 Speech and Language Acquisition *SB* 3
SHS 496 Aural Rehabilitation 3
Total 37

The remaining speech and hearing science courses to complete the major are determined by the students in consultation with an advisor. A list of approved electives is available through the department. Supporting courses from related fields must include the following or their equivalents:

BIO 201 Human Anatomy and Physiology I *SG* 4
MAT 170 Precalculus *MA* 3
PGS 101 Introduction to Psychology *SB* 3
PHY 101 Introduction to Physics *SQ* 4
PSY 230 Introduction to Statistics *CS* 3

PSY 290 Research Methods is strongly recommended.

MINOR IN SPEECH AND HEARING SCIENCE

The minor in Speech and Hearing Science consists of 24 semester hours with the following classes required:

SHS 105 Introduction to Human Communication Disorders 3
SHS 250 Introduction to Phonetics 3
SHS 310 Anatomical and Physiological Bases of Speech 3
SHS 311 Physical and Physiological Bases of Hearing 3
Choose one from the courses below 3
  SHS 367 Language Science *SB* (3)
  SHS 375 Speech Science (3)
  SHS 376 Psychoacoustics (3)

The remainder of the 24 credits must come from the following courses:

SHS 320 Facilitating Speech and Language Development in Early Childhood 3
SHS 401 Introduction to Audiology 3
SHS 402 Modifying Communicative Behavior 3
SHS 431 Developmental Speech Disorders 3
SHS 465 Speech and Language Acquisition *SB* 3
SHS 470 Developmental Language Disorders 3
SHS 485 Acquired Speech and Language Disorders 3
SHS 496 Aural Rehabilitation 3

BIS CONCENTRATION

A concentration in speech and hearing science is available under the Bachelor of Interdisciplinary Studies (BIS) degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

GRADUATE PROGRAMS

The faculty in the Department of Speech and Hearing Science offer programs leading to the MS degree in Communication Disorders, the AuD degree in Audiology, and the PhD degree in Speech and Hearing Science. See the *Graduate Catalog* for requirements.

SPEECH AND HEARING SCIENCE (SHS)

M SHS 101 American Sign Language I. (4)
fall and spring
Basic receptive/expressive conversational skills; basic grammar and syntax rules. Orientation to deafness and deaf culture. Lecture, drill, practice, lab.

M SHS 102 American Sign Language II. (4)
fall and spring
Further development of receptive/expressive conversation skills in ASL; finger spelling. Continued exploration of deaf culture. Lecture, drill, practice, lab. Prerequisite: SHS 101.

M SHS 105 Introduction to Human Communication Disorders. (3)
fall and spring
Introduces hearing, language, and speech problems in children and adults. Lecture, demonstration.

M SHS 201 American Sign Language III. (4)
fall and spring
Continued development of fluency in ASL with emphasis on more abstract concepts and the ability to narrate events. Lecture, discussion, drill, lab. Prerequisite with a grade of "C" (2.00) or higher: SHS 102.

M SHS 202 American Sign Language IV. (4)
fall and spring
Further development of fluency in ASL with emphasis on literature, folklore, and signing narratives with multiple characters. Lecture, discussion, drill, lab. Prerequisite with a grade of "C" (2.00) or higher: SHS 201.

M SHS 250 Introduction to Phonetics. (3)
fall
Introduces English phonetics with emphasis on phonetic transcription, articulation, phonology, and disorders of speech.

M SHS 310 Anatomical and Physiological Bases of Speech. (3)
fall
Noncadaveric study of anatomical systems that underlie human speech and language, including respiration, phonation, articulation, and related nervous system processes. Prerequisite: BIO 201.

M SHS 311 Physical and Physiological Bases of Hearing. (3)
fall
Studies the physical characteristics of sound and of the structure and function of the human auditory system. Prerequisites: BIO 201; PHY 101.

M SHS 320 Facilitating Speech and Language Development in Early Childhood. (3)
fall and spring
Speech and language development and strategies for facilitating communication skills in early childhood educational settings.

M SHS 350 Brain Memory and Language. (3)
fall
Covers memory and language and their associated brain areas, and the resulting behavioral consequences of injury and disease. Lecture, discussion, case studies, demonstrations. Prerequisite: PGS 101 or SHS 105.

M SHS 367 Language Science. (3)
fall
Normative aspects and integration of language structure, comprehension, and production in children and adults.
General Studies: SB

M SHS 375 Speech Science. (3)
spring
Normative aspects of speech, hearing, and language. Prerequisites: SHS 310, 311.

M SHS 376 Psychoacoustics. (3)
spring
Introduces acoustics, cochlear anatomy and physiology, and the perception of sound. Prerequisite: SHS 311 or instructor approval.

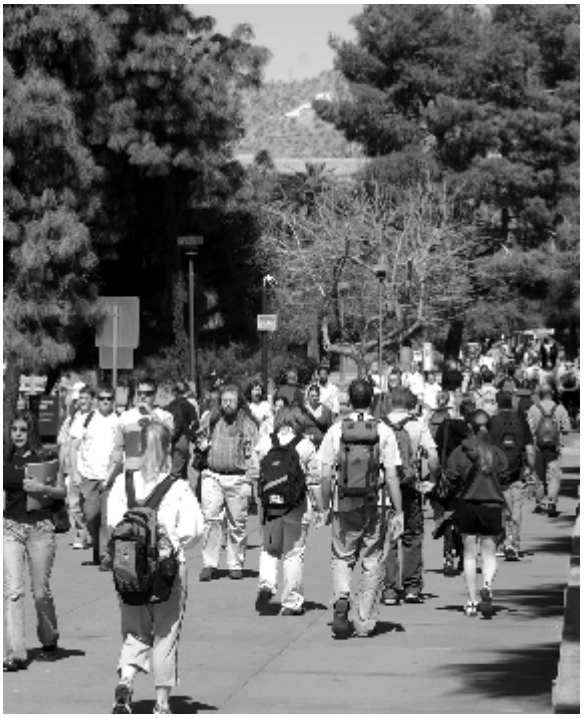
M SHS 394 Special Topics. (1–4)
selected semesters

M SHS 401 Introduction to Audiology. (3)
fall
Introduces hearing disorders and the purposes and procedures for basic clinical tests of auditory function. Credit is allowed for only SHS 401 or 501. Prerequisites: both SHS 311 and 376 or only instructor approval.

M SHS 402 Modifying Communicative Behavior. (3)
fall
Principles and techniques of modifying speech and language behavior. Prerequisite: SHS 250 (or its equivalent).

M SHS 431 Developmental Speech Disorders. (3)
fall
Introduces the nature of articulation, fluency, resonance, and voice disorders in childhood. Prerequisites: SHS 250 and 310 (or their equivalents).

M SHS 450 Observation. (1)
fall and spring
Opportunity to obtain observation experience at the ASU Speech and Hearing Center or at external sites. Prerequisite: instructor approval.



A view of Cady Mall with "A Mountain" in the background

Tim Trumble photo

M SHS 465 Speech and Language Acquisition. (3)
spring
Speech and language development in the normal child. Prerequisite: SHS 367 (or its equivalent).
General Studies: SB

M SHS 470 Developmental Language Disorders. (3)
fall
Introduces the nature and treatment of language disorders in children. Prerequisite: SHS 465 or instructor approval.

M SHS 485 Acquired Speech and Language Disorders. (3)
spring
Introduces acquired speech and language disorders across the lifespan. Prerequisites: SHS 250, 310.

M SHS 494 Special Topics. (1–4)
fall and spring
May be repeated for credit. Topics may include the following:
- Hearing Disorders. (3)
- Research. (3)
- Speech and Language Disorders. (3)

Prerequisite: instructor approval.

M SHS 496 Aural Rehabilitation. (3)
spring
Approaches to aural rehabilitation of children and adults. Introduces educational audiology and assistive listening devices. Prerequisites: SHS 375 and 376 and 401 (or their equivalents).

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

ECA 209

Mary Margaret Fonow, Director

CORE FACULTY

Professors: Fonow, Koblitz, Rothschild, Weitz

Associate Professors: Anderson, Cruz-Torres, Leong, Scheiner Gillis

Assistant Professors: Durfee, Fisher, Katsulis

Lecturer: McGibbney Vlahoulis

AFFILIATED FACULTY

African and African American Studies
Professor: Reyes
Assistant Professor: Robillard

American Indian Studies
Assistant Professor: Vicenti Carpio

Architecture and Landscape Architecture
Associate Professor: Fish Ewan

Art
Professors: Codell, Fahlman, Magenta, Schleif, Wolfthal
Assistant Professor: Mesch

Chicana and Chicano Studies
Regents' Professor: Candelaria
Associate Professor: Magaña
Assistant Professors: Danielson, Szkupinski-Quiroga

Community Resources and Development
Professor: Allison

Curriculum and Instruction
Professors: Cannella, Edelsky, Guzzetti

Educational Leadership and Policy Studies
Professor: Turner
Faculty Associate: Ewing

English
Professors: Adams, Crowley, Hogue, Horan, Lester, Nilsen, Pritchard, Rhodes
Associate Professor: Tohe
Assistant Professors: Fox, Parchesky, Sadowski-Smith, Thompson
Senior Lecturers: Heenan, Norton
Service Professional: McNeil

Exercise and Wellness (Polytechnic campus)
Associate Professor: Swan

Family and Human Development
Professor: Martin

History
Professors: Fuchs, Green, Lavrin, Warnicke
Associate Professors: Gray, Gullett, Stoner

Human Communication
Professors: Carlson, Nakayama
Associate Professors: Davis, De la Garza, Martinez
Assistant Professor: Park-Fuller

Human Evolution and Social Change
Professor: Brandt

Interdisciplinary Studies
Senior Lecturer: Nelson
Lecturer: Lattouf

Justice and Social Inquiry
Lincoln Professor: Walker
Professors: Jurik, Provine, Romero, Zatz
Associate Professors: Adelman, Menjívar

Kinesiology
Professor Emerita: Wells

Languages and Literatures
Regents' Professor: Foster
Professors: Losse, Sanchez, Williams
Associate Professors: Choi, Orlich, Tompkins
Assistant Professors: Ali, Duncan, George, Gruzinska

Mathematics and Statistics
Professor: Barcelo
Research Professor: Greenwood

Music
Professor: Williamson
Associate Professor: Norton
Assistant Professor: Sullivan

Philosophy
Associate Professor: McGregor

Psychology
Regents' Professors: Eisenberg, Russo
Professor: Chassin
Associate Professor: Saenz

Psychology in Education
Professors: Arredondo, Bernstein, Hackett, Moore

Religious Studies
Professor: Feldhaus
Associate Professor: Fessenden

Social and Behavioral Sciences (West campus)
Professor: Mueller
Associate Professor: Vaughan
Assistant Professor: Guevarra

Social Work
Professor: Segal
Associate Professors: Brzuzy, Gerdes, Stromwall
Assistant Professor: Larson

Sociology
Professors: Kronenfeld, Kulis
Associate Professors: Agadjanian, Benin, Miller-Loessi, Sullivan

Theatre and Film
Professors: Honegger, Knapp
Assistant Professor: Woodson

Women's Studies (West campus)
Professor: Stage

The Women and Gender Studies Program is an interdisciplinary university program housed in the College of Liberal Arts and Sciences. Information on faculty affiliation is provided for reference.

WOMEN AND GENDER STUDIES—BA

Women and Gender Studies provides students with an intensive interdisciplinary liberal arts education that enables them to write well, think critically, and analyze problems effectively. Students take a variety of courses, including a capstone seminar requiring original research and writing, and an internship that helps them prepare for life after college. Original undergraduate research is encouraged, and some courses involve students in studying community problems and formulating policy solutions.

The BA degree in Women and Gender Studies consists of 45 semester hours (with a grade of "C" [2.00] or higher), of which 30 must be taken from WST or WSH prefixes or from other prefixes designated as part of the major. The other 15 must be in closely related fields chosen in consultation with an academic advisor. At least 36 of the 45 hours required for the major must be completed in upper-division courses.

Required Courses. Students must complete these courses:

WST	100	Women and Society *SB, C* ....3 or WST 300 Women in Contemporary Society *SB, C* (3)
WST	377	History of American Feminist Thought *L, C* 3
WST	378	Global Feminist Theory *L, C* 3
WST	380	Gender, Race, and Class *L/SB, C* 3
WST	484	Internship 3
WST	498	PS: Theoretical Issues in Women's Studies 3
Total		18

Electives. Students majoring in Women and Gender Studies must complete four courses (12 semester hours) chosen from the WST or WSH course list.

Related Fields. Students majoring in Women and Gender Studies must complete five courses (15 semester hours) in closely related fields from the WST or WSH course list, cross-listed or interdisciplinary courses, or other courses selected in consultation with a academic advisor.

Students must complete one course chosen from the electives or related fields on nonwestern women. A second course chosen from these same areas must also be completed on either nonwestern, racial or sexual minority women in the U.S. For more information, see an academic advisor.

MINOR IN WOMEN AND GENDER STUDIES

The Women and Gender Studies minor consists of 18 semester hours, 12 of which must be in the upper division. The following courses are required:

WST	100	Women and Society *SB, C* ....3 or WST 300 Women in Contemporary Society *SB, C* (3)
WST	377	History of American Feminist Thought *L, C* ....3 or WST 378 Global Feminist Theory *L, C* (3)
Total		6

Twelve additional hours of approved women and gender studies courses must be taken after consultation with the Women and Gender Studies advisor.

Students pursuing a minor must register at least one semester before graduation and are encouraged to meet with the Women and Gender Studies academic advisor early in their course of studies.

CERTIFICATE PROGRAM IN WOMEN AND GENDER STUDIES

The certificate program is equivalent to an interdisciplinary minor, consisting of 18 semester hours, and is open to graduate as well as undergraduate students. Students pursuing a certificate must consult with the Women and Gender Studies advisor. See "Women and Gender Studies," page 514, for a description of the certificate program.

BIS CONCENTRATION

A concentration in women and gender studies is available under the Bachelor of Interdisciplinary Studies degree, a program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations (or one double concentration) and an interdisciplinary core, students in the BIS program take active roles in creating their educational plans and defining their career goals. For more information, see "School of Interdisciplinary Studies," page 139.

GRADUATE STUDIES

The Women and Gender Studies Program plans to offer a graduate degree program within the next two years. In the interim, it is possible to pursue a graduate degree in some existing programs with a thesis or dissertation topic related to women's studies. For more information, contact a Women and Gender Studies academic advisor.

WOMEN'S STUDIES HUMANITIES (WSH)

M WSH 330 Women, Film, and Culture. (3)
fall
Explores how narrative films portray women, romantic relationships, and the possibilities for social change in gender relationships. Prerequisite: WST 100 or 300.

M WSH 413 Lesbian, Gay, and Gender Studies. (3)
spring
Explores lesbian, gay, bisexual, transgender, and queer experiences in the U.S. and globally, from sociological, psychological, historical, and literary perspectives. Lecture, discussion. Prerequisite: WST 100 or 300 or instructor approval.
General Studies: HU, C

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

M WSH 421 Girlhood and Adolescence. (3)
spring
Examines the changing construction of girlhood and female adolescence through history, memoir, fiction, myth, music, and media. Lecture, discussion.

M WSH 464 Voices and Visions. (3)
fall and spring
Explores the contributions of visionary women in the humanities; topics vary from semester to semester. May be repeated for credit when topics vary. Lecture, discussion. Prerequisite: WST 100 or 300 or instructor approval.
General Studies: HU, C

M WSH 470 Women and Popular Culture. (3)
spring
Interdisciplinary examination of how gender is constructed in popular cultural forms. Lecture, discussion. Prerequisite: WST 100 or 300 or instructor approval.
General Studies: HU, C

M WSH 494 Special Topics. (1–4)
fall and spring
Topics include a wide variety of interdisciplinary courses. Check department for current semester offerings.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

WOMEN'S STUDIES (WST)

For more WST courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

M WST 100 Women and Society. (3)
fall, spring, summer
Interdisciplinary introduction examining critical issues in women's studies. Credit is allowed for only WST 100 or 300.
General Studies: SB, C

M WST 191 First-Year Seminar. (1–3)
selected semesters
Restricted to freshmen. Pass/fail. Topics may include the following:
- All About Feminism. (1)

M WST 294 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Women and Social Action
  Fee.

M WST 300 Women in Contemporary Society. (3)
fall, spring, summer
Intensive interdisciplinary examination of such topics as gender roles, work, education, sexuality, politics, health, and law. Credit is allowed for only WST 300 or 100.
General Studies: SB, C

M WST 313 Women and Sexuality. (3)
fall and spring
Explores feminist theories about women's sexuality and the relationship of these theories and related research to women's experience. Lecture, discussion. Prerequisite: WST 100 or 300 or instructor approval.
General Studies: SB

M WST 360 Women as Healers. (3)
spring
Examines the role of women as caregivers, healers, physicians, midwives, and nurses in different cultures and historical periods. Lecture, discussion.
General Studies: SB, G

M WST 372 Women in Judaism. (3)
spring
Studies the legal, social, and cultural status of Jewish women in various historical and contemporary societies. Cross-listed as REL 373. Credit is allowed only for REL 373 or WST 372.

M WST 373 Latina/Chicana Issues. (3)
selected semesters
Examines the roles Mexican American, Chicana, and/or Latina immigrant women play historically, socially, and politically in the United States. Prerequisite: WST 100 or 300 or instructor approval.
General Studies: SB, C

M WST 375 Women and Social Change. (3)
spring
Combines research and theory on a contemporary social problem with a community action experience focusing on women's social change initiatives. Lecture, field placement. Prerequisite: WST 100 or 300 or instructor approval.
General Studies: SB, C

M WST 377 History of American Feminist Thought. (3)
fall
Explores the development of American feminist theory from its roots to 1975. Lecture, discussion. Prerequisite: WST 100 or 300 or instructor approval.
General Studies: L, C

M WST 378 Global Feminist Theory. (3)
spring
Global feminist theories and exploration of the intersections of gender, race, ethnicity, class, and nation through critical analysis. Prerequisite: WST 100 or 300.
General Studies: L, C, G

M WST 380 Gender, Race, and Class. (3)
fall and spring
Explores cultural diversity, class, and gender issues in American social life. Lecture, seminar, analysis papers, and writing. Prerequisite: WST 100 or 300 or instructor approval.
General Studies: L/SB, C

M WST 394 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Feminist Voices of Color
- Gender and Performance
- Girlhood and Adolescence
- Women and Religion
- Women Warriors

M WST 457 Gender, Culture, and Development. (3)
fall or spring
Economic, cultural, and sociopolitical contexts for understanding women's roles related to health, family, work, education, and politics in developing countries. Prerequisite: 6 hours in social science or instructor approval.
General Studies: L/SB, G

M WST 460 Women and the Body. (3)
fall or spring
Interdisciplinary look at how representations of woman as body permeate culture and affect a woman's sense of self. Lecture, discussion. Prerequisite: WST 100 or 300 or instructor approval.
General Studies: SB, C

M WST 477 Women and Violence. (3)
fall or spring
Global examination of forms of violence against women at the individual, institutional, and cultural levels, and efforts to control it. Lecture, discussion. Prerequisite: WST 100 or 300 or instructor approval.
General Studies: SB, C

M WST 484 Internship. (1–3)
fall and spring
Practical experience to enhance the academic perspectives that emerge from women's studies instruction. Prerequisite: internship coordinator approval.

M WST 494 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Women, Science, and Technology

M WST 498 Pro-Seminar. (1–7)
fall and spring
Topics may include the following:
- Theoretical Issues in Women's Studies. (3)
  Reading and research on important theoretical issues in women's studies. Prerequisite: WST 100 or 300 or instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

West Campus

www.west.asu.edu

Mark S. Searle, PhD, Vice President, ASU; Provost, West Campus

ASU at the West campus, a community-focused metropolitan campus of Arizona State University located in Phoenix, serves the community and nearly 8,000 residential and commuter students of diverse ages, ethnic backgrounds, and experiences through 32 baccalaureate programs, one doctoral program, nine master's programs, and eight certificate programs. The West campus focuses on developing a learning community that addresses the needs of a dynamic metropolitan environment. The campus does this by offering learner-centered academic programs that enhance learning through teaching, service, and enrichment opportunities; promoting discovery and innovation; pursuing new knowledge; introducing insights and creative ideas through instruction; encouraging direct involvement in new fields of inquiry; investigating important community-based issues; and integrating with the community through service. The vision of the West campus is to enhance the intellectual, social, cultural, and economic qualities of its urban environment through research and creative activity and to provide access to a quality liberal arts education for undergraduates, professional programs grounded in the liberal arts, and an array of graduate programs.

The West campus commitment to integrated learning extends to Las Casas, an apartment-style, living-learning–based housing facility. Las Casas features faculty and academic advisors who live in the residence, faculty mentors, courses taught on site at the community center, and student affinity groups focusing on topics such as global awareness, leadership, and the arts.

Faculty and staff are dedicated to serving the evolving needs of high school graduates, working adults, and returning and continuing students. Expanding campus facilities and programs, along with a diverse student body, faculty, and staff, contribute to a culturally rich academic and social campus environment.

The West campus offers many on-campus services and facilities, all fully accessible for those with disabilities. These include a multimedia resource library, state-of-the-art computer classrooms and labs, housing facilities, tutoring services, a disability resource center, bookstore, cafeteria, credit union, fitness center, recreational facilities, child care, and post office, plus many student activities, clubs, and organizations. Classes are offered days, evenings, and weekends and via television and the Internet.

The West campus occupies approximately 300 square acres between 43rd and 51st Avenues on West Thunderbird Road in Phoenix, easily accessed from Interstate 17 and Loop 101. Its architecture and courtyards are modeled on those of the University of Oxford in England, enhanced by a beautifully landscaped natural environment featuring widely acclaimed public art.

HISTORY

The year 2004 marked the 20th anniversary of the West campus. Governor Bruce Babbitt signed legislation officially establishing the campus on April 18, 1984. Two years later members of several western Maricopa County communities, legislators, and the Arizona Board of Regents (ABOR) joined in the ground-breaking ceremony for the West campus, which culminated more than 10 years of intensive effort by numerous citizens' groups working to establish educational facilities in western Maricopa County. This grass-roots effort began in 1972 with the formation of the West Side Citizens' Committee for Higher Education. Citizens and legislators in western Maricopa County worked with officials at ASU and the ABOR to demonstrate

the need for higher education facilities beyond those offered by the community colleges.

In 1982, the legislature provided an exchange of 171.66 acres of general revenue lands for "approximately 300 acres of state trust land located in Maricopa County." These 300 acres constitute the permanent site of the West campus. The first permanent building, Fletcher Library, opened in March of 1988, and the first classroom building, Sands Classroom Building, opened in 1989 for spring semester classes. Shortly thereafter, the legislature authorized a lease purchase agreement to fund construction of additional buildings. The first phase, consisting of seven buildings and 600,000 gross square feet, opened in the spring of 1991.

The West campus received its initial accreditation from North Central Association of Colleges and Secondary Schools in August 1992. In fall 2001, ASU at the West campus became a four-year university campus with the addition of freshman and sophomore classes. Student housing facilities opened in August 2003.

For more than two decades, the campus has demonstrated responsiveness to the community, providing an ethos of resolving social issues, creating an involved citizenry, and ultimately creating a better quality of life for all. The West campus vision is to build on its successful past in ways that enhance the intellectual, social, cultural and economic qualities of a diverse, urban environment, through research and quality programs. This commitment to the community is punctuated by the economic vitality that the West campus contributes.

ACCREDITATION

ASU at the West campus is accredited by the Higher Learning Commission and is a member of the North Central Association. For more information, call 312/263-0456, access the Web site at www.ncahigherlearningcommission.org, or write

HIGHER LEARNING COMMISSION
30 N LaSALLE ST
SUITE 2400
CHICAGO IL 60602-2504

Professional programs in various academic areas are also accredited.

The Business and Accountancy degree programs in the School of Global Management and Leadership are accredited by AACSB International—The Association to Advance Collegiate Schools of Business. The Accountancy program is also an Endorsed Internal Auditing Program by the Institute of Internal Auditors. In the College of Human Services, the Department of Recreation and Tourism Management is accredited by the National Recreation and Park Association/American Association for Leisure and Recreation Council on Accreditation, and the Bachelor of Social Work and Master of Social Work programs are accredited by the Council on Social Work Education.

See the "Academic Accreditation at the West Campus" table, page 857.

ACADEMIC ORGANIZATION AND ADMINISTRATION

The provost provides executive leadership for the continuing development and management of the campus and reports to the executive vice president and provost of ASU. The provost is aided in the administration of the campus by vice provosts, deans, directors, department chairs, faculty, and other officers. There are four schools and colleges at the West campus administered by deans:

College of Human Services
College of Teacher Education and Leadership
New College of Interdisciplinary Arts and Sciences
School of Global Management and Leadership

These academic units develop and implement the teaching, research, and service programs of the institution, aided by the Fletcher Library and other student services.

The faculty and students of the institution play an important role in campus governance, with the Academic Senate, Associated Students of the West Campus, and numerous cross-campus and joint West campus–Tempe campus–Polytechnic campus committees serving the needs of a rapidly growing institution. For more information, see "West Campus," page 837, and "West Campus," page 854.

ADMISSION

Nondegree Students

Nondegree students may take courses at the West campus according to the special provisions under "Admission of Undergraduate Nondegree Applicants," page 74.

Degree-Seeking Students

Any student admitted to ASU may take courses at the West campus. To be admitted to a West campus degree program, the student must meet university admission requirements and the specific admission requirements of the West campus program. A student who is admitted to a West campus degree program is defined as a West campus student.

Prospective students should access the Web site at www.west.asu.edu/gowest for information on admission requirements and processes. The fastest, most efficient way to apply for admission is online at asu.edu/admissions. Printable applications are available at the same site. These applications can be completed and submitted by mail to

ADMISSION SERVICES
ARIZONA STATE UNIVERSITY
PO BOX 37100
PHOENIX AZ 85069-7100

The Arizona Board of Regents establishes undergraduate admission standards for state universities. Particular colleges, schools, academic units, programs or departments may impose additional requirements. These are explained later in this catalog under the appropriate section. For admission information and procedures, access the Web site at www.asu.edu/graduate/admissions. Students are encouraged to apply via the Web. If students cannot access the Internet, they may call the Division of Graduate Studies at 602/543-4567 or send e-mail to asuwgrad@asu.edu.

West Campus Academic Advising

College or School	Phone	Location
Barrett Honors College	602/543-4503	UCB 201
College of Human Services	602/543-6600	FAB S105A
College of Teacher Education and Leadership	602/543-6354	FAB S210
New College of Interdisciplinary Arts and Sciences	602/543-6052	FAB N201
School of Global Management and Leadership	602/543-6200	FAB N101

Change of Major from Tempe Campus or Polytechnic Campus to West Campus

Currently enrolled Polytechnic campus or Tempe campus degree-seeking students who want to relocate to a West campus degree program should contact Admissions Services at the West campus for the appropriate procedures. Acceptance to a West campus degree program requires the student to meet the prerequisites for entry to the student's choice of major as stated in the appropriate catalog. Students should be aware that requirements may differ between the West campus and the Tempe campus for the same major.

Application of Course Credit. The application of transfer course credit to the degree program is determined by the department of the student's major. Because of these constraints, students should seek advice from the appropriate advisor for their major before registering for classes at another university or ASU campus.

ACADEMIC ADVISING

Prospective Students

Effective academic advising is an essential aspect of the educational experience at the West campus. Prospective students seeking help with the application and admission process should call an admissions counselor as a first step at 602/543-8550 or visit the Recruitment and Outreach office in UCB 105. Prospective students can find a variety of information on the "GoWest" Web site at www.west.asu.edu/gowest.

Exploratory Freshmen and Transfer Students

Exploratory freshmen and transfer students who have not declared a major should call the University College Academic Advising Office for assistance at 602/543-9222 or visit UCB 201.

For community college students, a convenient alternative is to meet with an outreach advisor at one of the Transfer Centers shown in the "Transfer Centers" table below.

Transfer Centers

College	Phone
Estrella Mountain Community College	623/935-8826
Glendale Community College	623/845-3090
Paradise Valley Community College	602/787-7060
Phoenix College	602/285-7110
South Mountain Community College	602/243-8154

Students Admitted to Academic Programs

To assure timely and accurate advising for their majors, each academic unit has advisors to assist students in developing programs of study and understanding rules, procedures, and curriculum requirements. See the "West Campus Academic Advising" table, on this page.

FRESHMAN ORIENTATION

To ease the transition from high school to the West campus, University College (UC) offers several programs for freshman students. The UC offers online and on-campus orientations designed to familiarize new students with university and campus programs and services and to assist them with registering for classes. For more information, call 602/543-4600, or access the Web site at www.west.asu.edu/uc/orientation.htm.

DEGREE PROGRAMS

For more information on West campus undergraduate degree requirements, see the specific college, school, or program description in this catalog.

For information on West campus graduate degrees see the *Graduate Catalog*.

Minors and Certificates

The West campus offers an extensive selection of minors and certificate programs that may be taken in conjunction with a major. Other certificate programs may be taken independently. See the "West Campus Minors" table, page 654, and the "West Campus Certificates" table, page 655.

For information on the minor and certificate program requirements, see the specific college, school, or program description in this catalog.

Programs Hosted at West Campus

Courses for the Bachelor of Science in Nursing (BSN) degree are offered at the West campus. For specific information on requirements, see "College of Nursing," page 174.

UNIVERSITY GRADUATION REQUIREMENTS

In addition to fulfilling college and major requirements, each student must meet all university graduation requirements. For complete information, see "University Graduation Requirements," page 89.

GENERAL STUDIES REQUIREMENT

All Students enrolled in a baccalaureate degree program must satisfy the university requirement of a minimum of 35 hours of approved course work in General Studies, as described in "General Studies," page 93.

West Campus Minors

Minor	Administered By
American Studies	Department of Language, Cultures, and History
Communication Studies	Department of Communication Studies
English	Department of Language, Cultures, and History
Ethnic Studies	Ethnic Studies Program
Film and Video Studies	Department of Interdisciplinary Arts and Performance
Gerontology	Gerontology Program
History	Department of Language, Cultures, and History
Interdisciplinary Arts and Performance	Department of Interdisciplinary Arts and Performance
Interdisciplinary Organizational Studies	Department of Social and Behavioral Sciences
Life Sciences	Department of Integrated Natural Sciences
Mathematics	Department of Integrative Studies
Philosophy	Department of Integrative Studies
Political Science	Department of Social and Behavioral Sciences
Prelaw	College of Human Services
Psychology	Department of Social and Behavioral Sciences
Public Relations and Strategic Communications	Department of Communication Studies
Recreation Management	Department of Recreation and Tourism Management
Religious Studies	New College of Interdisciplinary Arts and Sciences
Social and Behavioral Sciences	Department of Social and Behavioral Sciences
Sociocultural Anthropology	Department of Social and Behavioral Sciences
Sociology	Department of Social and Behavioral Sciences
Spanish	Department of Language, Cultures, and History
Special Events Management	Department of Recreation and Tourism Management
Tourism Management	Department of Recreation and Tourism Management
Women's Studies	Women's Studies Program
Youth Services Leadership	Department of Recreation and Tourism Management

General Studies courses are listed in the "General Studies Courses" table, page 96, in the course descriptions, and in the *Schedule of Classes*. General Studies credit for a course may vary by campus; however, General Studies credit granted at one campus is honored at all campuses. Students should seek advice from the appropriate academic advisor for their major before registering for classes on another ASU campus.

CAMPUS GRADUATION REQUIREMENTS

Some graduation requirements are specific to the campus of enrollment. The following requirements apply to baccalaureate programs offered at the West campus.

Declaration of Graduation Requirements

A student must file a Declaration of Graduation (DOG) form no later than the semester he or she earns his or her 81st semester hour. The intention of the policy is to help the student successfully complete degree requirements in a timely manner. Students who fail to submit the DOG by completion of the 81st semester hour are prevented from further registration.

Any student wishing to have a college or university requirement variance must petition the appropriate standards committee of the academic unit in which the student is enrolled. All petitions must originate with the student's advisor, see "Student Grievances," page 655.

Credit Requirements

A minimum of 120 semester hours is required for graduation with a baccalaureate degree. A minimum of 50 semester hours in upper-division courses is required for graduation.

Graduation with Academic Recognition

An undergraduate student must have completed at least 50 semester hours of resident credit at ASU to qualify for graduation with academic recognition for a baccalaureate degree. A student with a cumulative GPA of 3.40 to 3.59 graduates *cum laude*, 3.60 to 3.79 graduates *magna cum laude*, or 3.80 to 4.00 graduates *summa cum laude*. The cumulative GPA for these designations is based solely on ASU resident course work. For example, ASU correspondence course grades are not calculated in the honors GPA. All designations of graduation with academic recognition are indicated on the diploma and the ASU transcript.

West Campus Certificates

Certificate	Administered By
Accountancy, Postbaccalaureate Certificate in	Department of Accounting
Communication and Human Relations, Postbaccalaureate Certificate in	Department of Communication Studies
Ethnic Studies, Certificate in	Ethnic Studies Program
Film and Video Studies, Certificate in	Department of Interdisciplinary Arts and Performance
Gerontology, Certificate in	Gerontology Program
Professional Accountancy, Postbaccalaureate Certificate in	Department of Accounting
Women's Studies, Certificate in	Women's Studies Program
Writing, Certificate in	Department of Language, Cultures, and History

Graduation with academic recognition applies only to undergraduate degrees.

Minors

A minor is an approved, coherent concentration of academic study in a single discipline, involving substantially fewer hours of credit than the corresponding major.

Students in most majors may pursue one or more minors and, upon successful completion of the prescribed course work, have that accomplishment officially recognized on the ASU transcript at graduation if (1) the academic unit/department of the minor officially certifies, through established verification procedures, that all requirements for the minor have been met, and (2) the academic unit (and, in certain academic units, the department) of the student's major allows the official recognition of the minor. A student wishing to pursue a specific minor should consult an academic advisor in the unit offering that minor to ensure that an appropriate set of courses is taken.

A minor consists of a minimum of 18 hours of course work. For any minor offered at the West campus, a minimum of nine upper-division hours in the minor must be taken in residence at the West campus. All upper-division courses in the minor must be completed with a minimum grade of "C" (2.00). Counting courses in the major and the minor is allowed; however, certain major and minor combinations may be deemed inappropriate by the academic unit or department of the major or minor. Inappropriate combinations include (but would not be limited to) ones in which an excessive number of courses in the minor are simultaneously being used to fulfill requirements of the student's major (e.g., major in Integrative Studies with a concentration in sociology and a minor in Sociology). Some West campus departments may have more specific or stringent requirements for minors.

For a list of the minors available at the West campus, refer to the "West Campus Minors" table, page 654.

Certificates

Students may pursue some certificate programs along with a major and other certificate programs independently.

For certificate programs offered at the West campus, at least 50 percent of the semester hours required to earn a certificate must be West campus resident credit. All course work in the certificate must be completed with a minimum grade of "C" (2.00) or higher. Some departments may have more specific or stringent requirements for certificates.

University-wide ASU programs (e.g., Certificate in Gerontology) are the only exceptions to this policy. Courses completed on any ASU campus fulfill the resident credit requirements for the certificate.

For a list of the certificates available at the West campus, refer to the "West Campus Certificates" table, on this page.

STUDENT GRIEVANCES

Appeal procedures vary from one ASU campus to another. The following procedures apply to students enrolled in West campus degree programs and courses.

Petition for Variance from University-Wide Academic Requirements

The Campus Standards Committee advises the vice president and provost for the West campus regarding undergraduate student petitions that concern university-wide academic requirements. These requirements include but are not limited to requirements on the amount of transfer credit, undergraduate admissions decisions, graduation requirements, resident credit requirements, and general studies requirements. To petition for a variance of such university requirements, students should discuss the matter with an academic advisor and complete a petition form. The petition is reviewed by the relevant unit-level administrator and committee before being forwarded to the Office of the Associate Vice Provost for Academic Programs and Graduate Studies.

Grade Appeals

The professional responsibility for assigning grades is vested in the instructor of the course, and requires the careful application of professional judgment. However, the following grievance process allows deans to change a particular grade if evidence presented in the process warrants such a change.

It is university policy that students filing grievances and those who provide support for the student are protected from retaliation. Students who feel that they are victims of retaliation should immediately contact the dean of the academic unit in which the course is offered.

The grade appeal process follows the steps described below. "Day" is defined as a normal business day, not including Saturday, Sunday, or any officially recognized university employee holiday or campus closure.

1. A student wishing to appeal a grade must first meet with the instructor who assigned the grade to try to

resolve the dispute. The instructor must review the matter in good faith, explain how the original grading decision was made, and decide whether to change the grade in response to the student's appeal. The instructor must respond to the student's request for a meeting in writing, via phone, or by e-mail within 10 days. If the grade dispute is not or cannot be resolved to the satisfaction of the student via this meeting, within 10 days after receiving the instructor's response the student may appeal to the program chair/director. (If the program chair/director is also the instructor and/or responsible for the disputed grade, the student may appeal directly to the campus Academic Grade Appeals Committee.)

2. Within 10 days after receiving the appeal, the program chair/director confers with the student and the instructor to try to work out a mutually acceptable resolution to the dispute. If the grading dispute is not resolved to the satisfaction of the student, within 10 days after receiving the program chair/director's response the student may appeal to the Academic Grade Appeals Committee. Appeals must be made in writing, with a separate document submitted for each grade being contested. Each appeal must provide the name of instructor, course section, semester taken, grade received, and attempts made to resolve the situation.
3. Both the student and the instructor are invited to appear before the committee within 20 days after the committee receives the appeal. The committee shall operate under written procedures that satisfy due process requirements. The committee considers all of the evidence bearing on the dispute and then decides by majority vote whether the grade should be changed. The committee then sends its recommendation to the dean of the academic unit where the course was offered.
4. Within 15 days of receiving the committee's recommendation, the dean makes the final decision in the case after full consideration of the recommendation and a review of pertinent materials. If the dean determines that a grade change is warranted, the grade change may be made either by the instructor or by the dean. The dean notifies the student, instructor, program chair/director, and the Academic Grade Appeals Committee of the final outcome of the case.

For summer session or fall semester grade appeals, the student must contact the course instructor within 60 days after the last day of instruction of the session or semester. To appeal a spring semester grade, the student must contact the instructor within 60 days after the first day of instruction of the following fall semester.

For more information, regarding the campus Academic Grade Appeals Committee, call 602/543-4567, or visit the Academic Programs and Graduate Studies Office, FAB S301.

SCHOOL OF EXTENDED EDUCATION

The university-wide School of Extended Education provides an interactive link between ASU and the diverse communities it serves. The college assesses lifelong learning requirements and works in partnership with campuses, other colleges, and the community to serve learners, using a network of locations, programs, schedules, and technologies.

For more information, see "School of Extended Education," page 134, or access the Web site at www.asu.edu/xed.

West campus with the University Center Building and Faculty and Administration Building in the foreground

Mark Boisclair photo

West Campus and Student Services

CAMPUS AND STUDENT SERVICES

Admissions and Registration Services

Admission and Registration Services, located in UCB 120, provides students with a central location for all admission, academic records-related functions, and class registration processes.

For more information or assistance, call 602/543-8203, or access the Web site at www.west.asu.edu/registrar.

ASU Alumni Association—West Campus Chapters

Staying involved with the ASU Alumni Association helps preserve your lifelong connection to the university that honors your past, respects your present and supports your future. By joining the association you can stay in touch with friends, build career connections, network within your profession and serve your community. Most major academic areas are represented with alumni chapters. At the West campus, there are several alumni chapters, including College of Teacher Education and Leadership Alumni Chapter; Communication Studies Alumni Chapter; Criminal Justice and Criminology Alumni Chapter; Department of Social Work Alumni Chapter; New College Alumni Chapter; School of Global Management and Leadership Alumni Chapter; and MBA Alumni Chapter.

Students can enjoy the benefits of joining an alumni chapter before graduation. Call 602/543-ALUM (2586), or access the Web site at www.west.asu.edu. Click on "Alumni" for more information.

Associated Students

Associated Students of ASU at the West campus is the student government of the campus. It is the official representative of the student body in matters of campus governance. Programs and services include the promotion of campus clubs and organizations, active participation in political activities affecting the university, provision of student representation on campus committees, and the sponsorship of cultural, educational, and social activities. For more information, call 602/543-8186 or access the Web site at www.west.asu.edu/asasuw.

ASU Shuttle Service

The ASU Express is a shuttle bus that makes regular trips between the Tempe campus and West campus and between the Tempe campus and Polytechnic campus during regular semesters. Trips are scheduled Monday to Thursday between 6:10 A.M. and 9:45 P.M. and on Friday between 6:10 A.M. and 5:45 P.M. Books of ten tickets are available from the West campus Cashier's Office and Parking Services. For more information, and ticket prices, call 602/543-PARK or access the Web site at westcgi.west.asu.edu/adaff/auxs/parking.

Bookstore

The West campus Bookstore offers new and used textbooks, course packets, computer hardware and software, general books, magazines, newspapers, general supplies, ASU insignia clothing and gifts, class rings, and graduation supplies. As a complimentary service, merchandise may be transferred from the Tempe campus Bookstore upon request.

The bookstore is located in the UCB 140. Regular hours are Monday - Thursday, 9 A.M. to 6 P.M. and Friday, 9 A.M. to 5 P.M. The bookstore is open for extended hours at the beginning of each semester. For more information, call 602/543-6800 or access the Web site at bookstore.asu.edu.

Career Services

Students are encouraged to acquire skills, knowledge, and support for their career planning and personal development, thus enhancing chances of success in life.

A wide variety of workshops, groups, and special events are offered throughout the year. Resource room materials and self-paced computerized career guidance tools are available. The Sun Devil Career Link Program offers students job and internship interviews. For more information, call 602/543-8124, visit UCB 320, or access the Web site at www.west.asu.edu/cspc.

Child Development and Family Studies Center

In partnership with Phoenix Headstart and West campus, the Child Development and Family Studies Center's Lab School integrates full-time and part-time preschool child care and education into the research, teaching and service missions of the campus. The children's educational enrichment program incorporates features of the most successful national preschool education programs and promotes the experience and expression of cultural diversity. The center is an important adjunct to faculty research and teaching activities in psychology, family studies, early childhood development, curriculum, and education.

The Child Development and Family Studies Center's Lab School is accredited by the National Association for the Education of Young Children (NAEYC). NAEYC accreditation is a rigorous, voluntary process by which early childhood education programs demonstrate that they consistently meet national standards of excellence.

For more information, call 602/543-5437, visit UCB 190, or access the Web site at www.west.asu.edu/cdc.

Computing Facilities and Services

Information Technology offers state-of-the-art computing facilities for use by students, faculty, and staff. A pervasive high-speed communications network provides access to

university servers and to the Internet. Classrooms are equipped with DVDs/VCRs, access to television and satellite broadcasts, projectors, and networked computers for presenters. Some classrooms are equipped with computers for every student.

Technopolis, a student computing access center located on the lower level of Fletcher Library, contains networked PC and Macintosh microcomputers and high-quality peripherals such as laser printers and scanners. Adaptive technology for students with disabilities is available. A wide variety of software is provided. Information and help for computer users are available at the center. For more information, call Technopolis at 602/543-8278 or access the Web site at www.west.asu.edu/it.

Consortium for Interdisciplinary Projects and Residencies in the Arts

The Department of Interdisciplinary Arts and Performance (IAP) sponsors Interdisciplinary Projects and Residencies in the Arts. Under this sponsorship, practicing professional artists engage their creative work with the curriculum and share their perspectives with the public through courses, workshops, and performances. The IAP department also produces numerous artistic events each year, which are open to the public, featuring artist/faculty, visiting artists, students, and regional artists. For more information about performance events, call 602/543-ARTS.

Copy Services

A variety of services are available from the Copy Center, located in the lower level of the FAB B23. The Copy Center has high speed, high quality multifeatured photocopy machines and is able to provide high quality images, digital printing, duplexing, saddlestitching, covers, and tab inserts with minimal turnaround time. The center provides course packets and copyright permission acquisition services. Other services include spiral binding, steel back binding, padding, laminating, custom cutting, poster making, color copies, shrink-wrapping, thermal transfers, personalized mouse pads, puzzles and T-shirts, and FAX service. Copy Center hours are 7 A.M. to 6 P.M. Monday to Thursday and 8 A.M. to 5 P.M. Friday. For more information, call 602/543-5575 or access the Web site at westcgi.west.asu.edu/adaff/auxs/copyservices/index.cfm.

Credit Union

The Arizona State Savings and Credit Union has a branch office located in the Welcome and Information Building. The organization offers a full range of services, including savings and checking accounts, loans, insurance, Costco memberships, a vehicle buying assistance service, a telephone account access system, automated teller machines and more. All ASU students, employees and their families are eligible for membership. For more information, call 602/644-4620 or access the Web site at www.azstcu.org.

Devils' Den Game Room

The Devils' Den is located in the second floor Student Lounge of the University Center Building. It is furnished with air hockey, foosball, ping-pong, and pool tables. Equipment for these games may be checked out through the ASASUW office located in UCB 226. A current ASU ID card is required to check out equipment. For more information, call 602/543-8186.

Margaret Francis Disability Resource Center (DRC)

ASU is committed to providing a fully integrated and accessible environment for students with disabilities. Professional staff assist students in obtaining the services and support needed to succeed at the university. The following are examples of academic accommodations which may be secured through the DRC, as appropriate: testing accommodations (including proctors, readers, and scribes), interpreters, notetakers, adapted course materials, and adaptive technology.

Students with disabilities are encouraged to contact the DRC at the beginning of the admission process to discuss service needs. Disclosure of a disability to the university is optional and confidential. However, for students requesting accommodations, qualifying documentation must be provided to the DRC to substantiate the need for these accommodations. The Disability Resource Center is located in the UCB 130.

For more information, call 602/543-8145, TDD 602/543-4327, or access the Web site at www.west.asu.edu/drc.

Event Scheduling

An event is any meeting, seminar, or activity that is not an ASU credit course. Reservation forms for registered student organizations are available at Student Life, UCB 221, 602/543-8200. Event requests for other on-campus groups should be sent by e-mail to eventschedule@asu.edu at least five working days in advance of the event. Space is available on a first-come, first-serve basis. For more information, call Events and Meeting Services at 602/543-7740. AV/media support is provided through Event Scheduling.

Campus catering services must be used for all activities held on campus or paid for with university funds. For more information and help in planning food events, call 602/543-3663.

Financial Aid Services

The Financial Aid Services office, located in the University Center Building 120, provides information and services about need based and non–need-based grants, scholarships, loans, and employment opportunities.

All students seeking financial assistance must complete the FAFSA (Free Application for Federal Student Aid) annually. See the "Financial Aid" section of this catalog. For more information, call 602/543-8178 or access the Web site at www.west.asu.edu/financialaid or asu.edu/fa

Food Services

Food service is provided at Cafe West on the first floor of the UCB west wing. A diversified menu is available for breakfast, lunch, and dinner Monday through Friday. Normal hours of operation are 7 A.M. to 6:30 P.M. Monday through Thursday and 7 A.M. to 3 P.M. Friday. Catering services are available for functions held on campus. For more information, call 602/543-3663 or access the Web site at westcgi.west.asu.edu/adaff/auxs/foodservices.

The Sand Trap, located in SANDS 115, provides grab and go drinks, sandwiches, salads, and snacks plus a Starbucks coffee bar. Hours are Monday to Thursday 9 A.M. to

8:30 P.M., Friday 9 A.M. to 2 P.M., and Saturday 9 A.M. to 2 P.M.

Graduate Studies

The Graduate Studies Office provides students and faculty with application materials, information regarding academic programs, assistance with the application process, and information on Graduate Studies policies and procedures. Information on hiring and management of graduate assistants, program of study, faculty serving on thesis and dissertation committees, graduate academic and tuition scholarships, graduate assistants orientations, and information workshops can also be obtained through the Graduate Studies Office. For more information, call 602/543-4567, visit the office, FAB S301, or access the Web site at westcgi.west.asu.edu/acadaffairs/gradstudies.

International Programs Office/Study Abroad and Exchange Programs

ASU offers study abroad and exchange programs in nearly 50 countries. Information on study abroad is available through Multicultural Student Services (see, "Multicultural Student Services," on this page). Study Abroad 101 information sessions are offered each semester. Students can also call the International Programs Office (IPO) at 480/965-5965 or access the IPO Web site at ipo.asu.edu. Application deadlines are generally March 1 for fall and October 1 for spring programs. The *Summer Sessions Bulletin* is available in March and includes information about summer and winter study abroad programs.

Learning Enhancement Center

The Learning Enhancement Center's peer tutors and writing coaches offer collaborative support to promote students' academic success. LEC resources include a walk-in lab for studying and completing homework for math, science, and business classes. Lab tutors respond to questions or offer clarification for course material. Tutors also conduct small group tutoring and workshops for some classes. In addition, LEC writing coaches offer students an opportunity to discuss writing conventions for application to their own written communication. The LEC is located in FLHLB LL2. For more information, call 602/543-6151 or access the Web site at www.west.asu.edu/lec.

Library Services

Fletcher Library provides resources that support the curriculum of the West campus with a collection of 335,000 volumes, 1.5 million microforms, 9,600 videos and DVDs, and 15,000 slides. As participants in the shared resources environment of ASU libraries, users may access more than 50,000 print and e-journals and nearly 4.1 million monographic titles. Approximately 95 percent of electronic databases are available to ASU registered users from home computers.

The Library is open seven days a week to meet the informational needs of the campus community. Knowledgeable staff members are available to provide reference service and instruction in the use of the Library's considerable resources. Individual consultations with subject specialist librarians are available by appointment. The library instruction program provides introduction to the tools and resources available for research in an academic discipline, including Internet resources.

A wide range of information and research tools, most accessible from off-campus, are available through the Fletcher Library Web site at library.west.asu.edu. For library hours and information, call 602/543-8501.

Mail/Postal Services

In addition to processing incoming and outgoing university mail and providing an inter-campus courier service, first class, priority mail, parcel post, certified, registered, and special delivery services are also provided by Mail Services. Padded manila and utility mailing envelopes and U.S. postage stamps are available for purchase through the Mail Services station as are fax transmissions and receipts. Mail Services hours are 9 A.M. to 4 P.M. Monday through Friday. They are located in CSC. For more information, call 602/543-POST or access the Web site at westcgi.west.asu.edu/adaff/auxs/property/mail.cfm.

Multicultural Student Services

Multicultural Student Services (MSS) provides programs that help build a greater understanding and appreciation of cultural diversity. New student orientation, cultural activities, workshops and opportunities for student involvement in campus life assist students to achieve personal, educational, and developmental goals. The Multicultural Student Services Office is located in the UCB 220. For more information, call 602/543-8148 or access the Web site at www.west.asu.edu/multicultural.

International Student Services. The mission of the International Student Services is to provide support services that meet the unique needs of international students throughout their academic program and to support campus and community activities that promote international awareness and enrich the educational experiences of all students.

Services include advising international students on immigration and visa matters, admission procedures and credentials evaluation, international student orientation, information workshops, and cultural activities. Undergraduate students may contact Multicultural Student Services at 602/543-8201 or visit UCB 220. Graduate students should call 602/543-4567 or stop by the FAB S301E. For more information, access the Web site at www.west.asu.edu/international.

Kids' Evening Enrichment Program. Kids' Evening Enrichment Program offers learning enrichment activities for children, ages six to 12, of West campus evening students. For more information, call 602/543-8010 or access the Web site at www.west.asu.edu/multicultural/KEEP.

Native American Student Services. Native American Student Services (NASS) assists Native American students to obtain a university education by providing outreach and retention services and activities which facilitate their academic success and graduation. Student services include assisting with the transition into the university by providing one-to-one information and support regarding tribal financial aid opportunities, communication resources, and referrals to campus services. For more information, call

602/543-8138 or access the Web site at www.west.asu.edu/nativeamerican or UCB 220C.

Parking Services

Parking permits. All students, faculty and staff are required to have a current West campus parking permit in order to utilize the parking lots on campus. West campus parking permits may be purchased at www.west.asu.edu/adaff/auxs/parking or at the Parking Services office in WIB. The annual cost for a parking permit is $75. The cost is prorated if purchased after September 7th. Payment for permits may be made by cash, check, VISA, or MasterCard. New permits are required for each academic year.

Prorated refunds will be given upon request if permits are returned before the close of business on the last business day of April. Photo ID will be required for refunds.

West campus permits are valid in Lot 59 at the Tempe campus and in some lots at the Polytechnic campus. Tempe campus and Polytechnic campus parking permits are valid in student lots at West campus.

Parking lots are designated for specific types of permits. Parking maps (available at the Information Desks and Parking Services) and signage at each lot indicate which type of permit is appropriate for each lot. Visitors are encouraged to park in the visitor lot west of 47th Avenue, north of WIB.

For more information, on parking services, call 602/543-PARK (7275) or access the Web site at westcgi.west.asu.edu/adaff/auxs/parking.

Residential Life

Residential Life is committed to establishing a living and learning environment by developing programs that promote academic success and personal development while providing attractive, accessible facilities that meet the needs of the campus community.

The 400-bed residential community, Las Casas, features two 3-story buildings of apartment-style residential units with full kitchens, laundry facilities, a multipurpose room and computer lab, sand volleyball, a swimming pool, and parking. Amenities include tutoring services, in-room Internet access, coordinated educational and social activities, and easy access to campus resources. For more information, call 602/543-CASA (2272), or access the Web site at www.west.asu.edu/lascasas.

Statistics Laboratory

The Statistics Laboratory (Stat Lab) provides support and supplementary instruction for students who are involved in courses or projects requiring the use of quantitative research methods. The Stat Lab provides access to statistical software and technical assistance in the application of the software for West campus students. The Stat Lab is located in CLCC 107. For more information, call 602/543-6117, or access the Web site at www.west.asu.edu/statlab.

Student Accounts

Fee payment and cashiering are services of Student Accounts, located in the UCB 101. Student Accounts is open for business 9 A.M. to 6 P.M. Monday to Thursday and 9 A.M. to 4 P.M. on Friday.

The Fee Payment section is responsible for the acceptance of tuition payments from registered students, assistance with accounts receivable matters and disbursement of pre-approved financial aid checks.

The Cashier's Office handles all cash transactions, graduate application and graduation fees, plus requests for official transcript payments and shuttle tickets. In addition, a personal check can be cashed for up to $50 per student per day. For more information, call 602/543-6709, or access the Web site at westcgi.west.asu.edu/adaff/fss/fssstudent.cfm.

Student Affairs

Student Affairs is responsible for the delivery of a variety of enrollment and student development services and programs in support of students' educational pursuits and extracurricular needs. Special attention is given to the enrollment and retention of a culturally diverse student population. Student Affairs' stated mission is to assess and respond to the enrollment, support, and development needs of students and to contribute to the learner-centered environment of the campus. The Dean of Student Affairs Office is located in the UCB 301. For more information, access the Student Affairs Web site at www.west.asu.edu/sa.

Student Counseling Services

Confidential professional counseling services are available to help ASU students achieve their academic goals by addressing a variety of problems and issues often faced in college. Professional help is offered in the following areas: psychological issues, personal concerns, relationship issues, career/life decision making, and crisis intervention. Individual and group sessions are available at no cost. To schedule an appointment or for more information, call 602/543-8124, or visit USB 320, or access the Web site at www.west.asu.edu/cspc.

Student Employment

Student Employment provides job opportunities, both on and off campus, for students who desire to work to meet their educational expenses. Students may be eligible for student hourly or Federal Work Study positions.

For more information about student employment or to view the jobs currently available, visit UCB 120, call 602/543-8178, or access the Web site at www.west.asu.edu/financialaid/stdemply.htm.

Student Health Insurance

Students have the option to purchase health insurance through the university. Specific information regarding the insurance, including cost and coverage, is available in Student Health Services located in UCB 170, at www.west.asu.edu/studenthealth, or by calling Student Health Services at 602/543-8019.

Student Health Services

All registered students are eligible to use Student Health Services, located in UCB 170. Services include, but are not limited to the areas of general medicine, women's health, mental health, health promotion and education, nursing triage, laboratory testing, immunizations, and limited pharmacy services. Contact Student Health at 602/543-8019 to schedule an appointment, or to receive information about student health insurance. For more information, access the Web site at www.west.asu.edu/studenthealth.

West campus, located in northwest Phoenix, serves more than 7,700 residential and commuter students. Tim Trumble photo

Student Life

The Student Life office encourages students to enhance their education by being actively involved in campus life. Several events and activities are held by Student Life to provide a holistic program that meets the social and co-curricular needs of students in the residence halls and on campus. The office also serves as a resource for student clubs and organizations and the Associated Students of ASU's West campus (ASASUW). Information about student rights and responsibilities and the ASU Student Code of Conduct can also be obtained in Student Life. Additionally, resources and information are available for off-campus housing, leadership training, and campus posting guidelines. For more information, call 602/543-8200, visit UCB 221, or access the Web site at www.west.asu.edu/studentlife.

Sun Card

The Sun Card office in UCB 140C provides ID cards for students and university employees. The fee for a Sun Card is $25.

Sun Dollars. Sun Dollars is a prepaid services account managed by the Sun Card office. It works as a bank debit card except that cash cannot be withdrawn (however, refunds are available when the card holder leaves ASU). Deposits are made to the account and then accessed by presenting the Sun Card to make purchases at the Bookstore, Food Services, Copy Center, and Fletcher Library. For more information, visit UCB 140C, call 602/543-5000, or access the Web site at www.suncard1.com.

Testing Services

Testing Services, located in the WIB 102, offers information on national and state qualifying examinations such as the GRE, GMAT, MAT, CLEP, LSAT, and MCAT. Regularly scheduled exams include CLEP and MAT. For more information or assistance, call 602/543-8136, or access the Web site at www.west.asu.edu/testing.

TRiO Academic Achievement Center

The TRiO Program provides undergraduate degree-seeking students with a comprehensive system of learning assistance resources. The resources are designed to strengthen academic success as well as complement a student's overall educational experience. Personalized assistance such as math and writing tutoring, career and graduate school advising cultural enrichment, faculty-student and community mentorships, and learning strategies for students, is offered to meet the diverse needs of our student population. Participation in the program is voluntary and free of charge.

Students must meet U.S. Department of Education eligibility requirements. For more information, call 602/543-8121, visit the program office, UCB 220, or access the Web site at www.west.asu.edu/trio.

Veteran Services

Veteran Services, located in the University Center Building 120, assists veterans eligible for VA educational benefits. Services include enrollment certification, benefits advising and assistance with the university admission and registration process. For more information, call 602/543-8220 or access the Web site at www.west.asu.edu/veteran.

Wellness and Fitness Facility

The Wellness and Fitness Facility, located in the lower level of the University Center Building, is available to students, faculty/staff, family members, and alumni on a fee for service basis. Students also have the option of taking credit classes in a variety of fitness programs. Non ASU-affiliated individuals may use the facility on a monthly or multiple monthly fee basis.

The 6,000 square-foot facility houses a fully equipped weight room, aerobics room, men's and women's locker rooms, and is accessible to individuals with disabilities. Amenities at the center include elliptical trainers, lifecycles, treadmills, stairclimbers, weight machines/free weights, and the capability to do fitness assessments and body composition analysis. A variety of specialty classes, including yoga and aerobics, are offered each semester.

The facility also lends recreation equipment to individuals with an ASU ID card for use on campus basketball courts, racquetball courts, sand volleyball courts, and the multipurpose soccer/football field. These facilities, located west of SANDS and south of UCB, are available at no charge to ASU and University-College Center faculty, staff, and students. For more information or to make reservations, call 602/543-3488, visit UCB B119, or access the Web site at westcgi.west.asu.edu/fitness.

Women's Studies Resource Center

As a multicomponent program of Women's Studies, the Women's Studies Resource Center supports research pertaining to local, national, and global issues in women's studies. The Center also promotes leadership opportunities, serves as a resource and action center, and acts as an advocate for women both within the university and in the larger community. The Women's Studies Resource Center is located in the UCB 323. For more information, call 602/543-3426 or access the Web site at www.west.asu.edu/ws/wrc.

CAMPUS FACILITIES

The West campus occupies 300 acres between 43rd and 51st Avenues on West Thunderbird Road in Phoenix. Its architecture and courtyards are modeled after those of the University of Oxford in Great Britain, enhanced by a beautifully landscaped natural environment featuring widely acclaimed public art. The core campus includes the following facilities:

Fletcher Library. With a seating capacity of 600 and space for 450,000 volumes, the 106,000 square-foot facility is a state-of-the-art information access center designed to take full advantage of electronic technology.

Sands Classroom Building. Containing 38 class and seminar rooms, the building provides an intimate atmosphere in which to exchange ideas.

Kiva Lecture Hall. The Kiva seats 100 to 200 and serves as an auditorium for a variety of programs, faculty lectures, and public forums.

Classroom Laboratory/Computer Classroom Building. Classroom Laboratory/Computer Classroom Building contains computer classrooms, science laboratories, studios for art, dance and music, a 150-seat lecture hall, and an astronomy platform located on the roof.

Faculty and Administration Building. Most faculty and administrative offices are located in this building. Classrooms are located in the basement of the east wing.

Faculty and Administration Building Annex. This temporary facility houses Human Resources and other administrative offices.

Las Casas Residence. Located in the northwest corner of the campus, the Las Casas student housing facility includes two three-story residential units, a community hall with dining and meeting facilities, and a swimming pool.

University Center Building. This facility houses admissions and records, an array of student assistance programs, health services, a preschool, and student activities. Other building facilities include food service, a bookstore, cashier and fee payment services, student lounges, an art gallery, a wellness/fitness facility, a black box theater, meeting rooms, and a divisible, multipurpose auditorium.

Welcome and Information Building. Located west of the 47th Avenue entrance, the Welcome and Information Building houses parking services, testing services, and a branch office of the Arizona State Savings and Credit Union.

WEST CAMPUS HOUSING

Residential Life at the West campus is committed to establishing a living and learning environment by developing programs that promote academic success and personal development while providing attractive, accessible facilities that meet the needs of the campus community. The living and learning program offers tutoring and other support services designed to assist all residents with their academic development. The 400-bed residential community, Las Casas, features two three-story buildings of apartment-style residential units with full kitchens, laundry facilities, a multipurpose room, a computer lab, a swimming pool, and sand volleyball. Amenities include basic cable, in-room Internet access, coordinated educational and social activities, and easy access to campus resources. For more information, call 602/543-CASA (2272), or access the Web site at www.west.asu.edu/lascasas.

The Barrett Honors College

westcgi.west.asu.edu/honors

Andrew Kirby, PhD, Associate Dean

The Craig and Barbara Barrett Honors College serves students seeking degrees at the Downtown Phoenix campus, the Polytechnic campus, the Tempe campus, and the West campus. For more information, see "The Barrett Honors College," page 145. Students take advantage of the university's full resources with the assurance of consistently distinguished teaching and research and with commensurately rigorous expectations for performance.

Participants in the Barrett Honors College have diverse interests and strong records of success. Many go on to the nation's finest graduate and professional programs.

The first two years of the honors curriculum typically focus on general studies. The second two years of upper-division study concentrate on the student's academic major and lead to graduation from both a disciplinary college and the Barrett Honors College. Participating in the upper-division curriculum involves the creation of an honors thesis. In conceiving and completing this project, each student works closely with a faculty mentor to identify and develop an original concept.

BENEFITS

Honors students working on the West campus enjoy the benefits of a smaller program and all the resources of the entire Barrett Honors community, including study abroad, research, and internship opportunities. College advisors help students plan individualized programs of study, and they receive priority at preregistration. Honors courses are normally limited to 20 students.

The Office of National Scholarship Advisement assists honors and other high-achieving students by identifying nationally competitive programs appropriate to each person's intellectual and career goals, nurturing these prospective applicants, and advancing their candidacy. Students who meet all requirements of the Barrett Honors College receive transcript recognition of their accomplishment as well as special acknowledgment in graduation ceremonies and honors convocations.

ADMISSION

Students who have demonstrated high levels of academic achievement at the high school, community college, or university level are encouraged to apply for admission to the Barrett Honors College. All candidates for admission must file a separate application to the college at honors.asu.edu.

Applicants to the West campus are evaluated on the basis of high school GPA and class rank, performance on the SAT or ACT, and other talents that constitute academic leadership and community service. Continuing ASU or transfer students are evaluated on their college GPA.

For more information, call Barrett Honors College at the West campus at 602/543-3410, or access the Web site at westcgi.west.asu.edu/honors.

RETENTION

Honors students must maintain high standards of academic performance and show progress toward completion of graduation requirements in their disciplinary majors and the Barrett Honors College. Students who fail to complete an average of one honors course in two semesters may be placed on inactive status. A student on inactive status within the college is not eligible for extended library privileges, early registration, or honors internship placement. Reinstatement to active status requires a formal application and an appointment with an honors advisor.

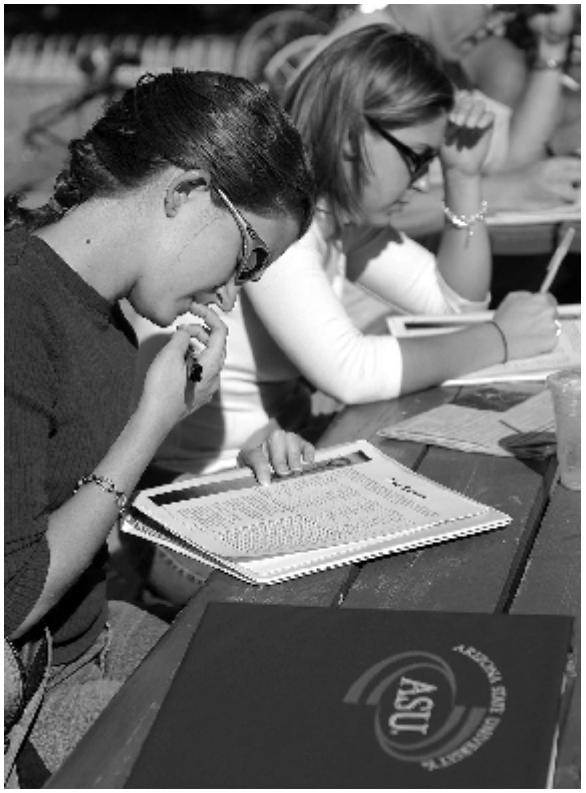
COURSE REQUIREMENTS

Only courses in which a student earns at least a grade of "C" (2.00) may be used to meet Barrett Honors College requirements.

Freshmen and students entering the college with fewer than 45 semester hours of course work must take HON 171 and 172 The Human Event. This cross-disciplinary seminar acquaints students with ideas that form the foundation of a university education and emphasize critical thinking, discussion, and writing.

Transfer students with 45 or more semester hours entering the college must take HON 394, a junior-level seminar that introduces them to critical thinking, discussion, and writing in an area chosen by the instructor. Honors students may also contract with instructors for honors credit in departmental courses by pursuing enrichment activities. When several students in the same section arrange such contracts, the instructor may require them to meet for supplemental sessions. These footnote 18 contracts must be filed

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.



The Phoenix area's pleasant climate allows students to study outside most days of the year. Tim Trumble photo

during the first four weeks of class during the semester in which the course is offered, or the first week of a summer session.

Departmental courses carrying footnote number 19 in the *Schedule of Classes* are limited to honors students and others who receive special permission from the instructor to enroll. Enrollment in these courses is limited to 25 students.

Departmental courses with the number 492 or 493 are reserved for honors students completing their honors theses or creative projects. A student may enroll for these courses only with the approval of the sponsoring academic department and of the faculty member who serves as the student's thesis director. Students may receive a maximum of six semester hours credit for an honors thesis or project, three semester hours of which may fulfill the student's literacy and critical inquiry (L) General Studies requirement.

All courses a student takes for honors credit count toward graduation, even if the student does not graduate from the Barrett Honors College.

HONORS TRANSCRIPT RECOGNITION

All courses used to fulfill graduation requirements for the Barrett Honors College must carry earned letter grades of "C" (2.00) or higher. A "Y" grade does not meet college requirements.

Lower Division. To receive transcript recognition for lower-division honors work, students must complete 18 semester hours of honors course work within 60 earned semester hours with a cumulative ASU GPA equal to or greater than 3.40 (4.00 = A). Courses *must* include HON 171 and 172 The Human Event. Courses that earn automatic honors credit, although not carrying a footnote number 19 in the *Schedule of Classes*, include any section of ENG 105, CHM 117 and 118, and MAT 290 and 291. *Note*: CHM 117 and 118, and MAT 290 and 291 are Tempe campus courses.

Students may apply upper-division honors course work toward lower-division requirements; however, those classes may not also be used to meet Barrett Honors College upper-division/graduation requirements.

Upper-Division/Graduation Requirements. To graduate from the Barrett Honors College, students must complete HON 171 and 172 The Human Event for continuing ASU or transfer students with fewer than 45 semester hours or HON 394 Special Topics for continuing or transfer students with 45 or more semester hours, and complete 18 additional semester hours of upper-division honors course work for an earned letter grade, which must include three to six semester hours of Honors Thesis and six semester hours outside the academic major and may include graduate courses.

University College

www.west.asu.edu/uc

Afsaneh Nahavandi, PhD, Director

Academic discovery and community engagement are distinguishing characteristics of the University College at the West campus of ASU. The college extends university access to exploratory freshmen, transfer, and reentry students, and provides an opportunity to consider many academic options. High academic standards and individualized attention are hallmarks of University College academic advising, student success and engagement programs, and campus orientation and parent programs.

The University College includes these units at the West campus:

Academic Advising Office
Student Success and Engagement Programs
Orientation and Parent Programs
GCC-ASU Partnership at the West campus

ACADEMIC ADVISING

The Academic Advising Office provides professional academic advising for the following types of students:

1. exploratory freshmen who have not declared a major;
2. exploratory transfer students who have not declared a major;
3. all students in transition who have left a professional program and are exploring majors across the university; and
4. students who are part of the GCC-ASU Partnership at the West campus.

STUDENT SUCCESS AND ENGAGEMENT PROGRAMS

The Student Success and Engagement Programs unit is designed to support the success of all students through university academic success courses (such as UNI 101), student development workshops, Peer-2-Peer mentoring and advising, tutoring, and other programs such as Campus Match and Summer Academy.

The goal of Student Success and Engagement Programs is to actively involve students in their education and with the community in which they live and work by connecting them to the multitude of service and experiential learning opportunities offered at the West campus.

University Success Courses

The purpose of the UNI course is to assist first-year, transfer, and reentry students in making a successful transition to the university. Students learn about university resources, policies and procedures, study skills, values and goal setting, human diversity, academic and career planning, and other skills.

UNIVERSITY ACADEMIC SUCCESS (UNI)

For more UNI courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W UNI 101 Student Success Seminar. (1)
fall and spring
Understanding human diversity, perspectives, and values as they relate to student success. Orientation to ASU resources, study skills, and academic and social issues for students. Seminar, discussion.

W UNI 194 Special Topics. (1–4)
selected semesters
Topics may include the following
- Career/Major Exploration. (1)
  fall
  Topics include identifying personal and professional interests, exploring majors and occupations, developing self-marketing skills, and designing an effective academic and career strategy.
- Peer Program. (1)
  fall and spring
  Topics include understanding the purpose and role of peer mentors and advisors in other students' success, understanding the university catalog, developing skills to assist other students during orientation and registration.
- Tutor Training. (1)
  fall and spring
  Topics include effective tutoring strategies for various disciplines.

W UNI 294 Special Topics. (1–4)
fall
Topics may include the following
- Student Development Workshop. (1)
  Topics may include stress management, time management, financial planning, goal setting, cultural diversity.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Students relax between classes on the beautiful ASU West campus.

Scott Baxter photo

Student Development Workshops

Noncredit seminars are offered in the fall to support freshmen with their transition to university life. Topics include study skills, diversity, career exploration, stress and time management, goal setting, and financial management.

Peer-2-Peer Program

The Peer-2-Peer program provides an opportunity for upper-division students to work with freshmen and help them make a successful transition to the West campus. Participants can become either peer mentors and work with students on an informal basis, or peer advisors who are formally trained to provide basic academic advising. For more information or to become a peer advisor or peer mentor, call the University College at the West Campus at 602/543-4360.

Campus Match

Campus Match offers freshmen who are enrolled in large introductory classes the opportunity to register for a matching University Academic Success (UNI 101) course of no more than 15 students. The goal of the UNI course is to provide students with support and to build a sense of community in a smaller class environment. For more information, access the Web site at www.west.asu.edu/uc/campus-mat.htm.

Summer Academy Program

The Summer Academy Program was developed to address the needs of incoming freshmen who may be underprepared for the rigors of university classes. The program focuses on enhancing students' English and math skills. Students are invited to the Academy based on their high school GPA or ACT/SAT scores. For more information about the program, call 602/543-4600.

ORIENTATION AND PARENT PROGRAMS

Freshman Orientation provides a comprehensive online and on-campus program for all freshmen beginning their education at the West campus in the fall. Orientation programs begin in March and continue through August and are aimed at connecting new freshmen and their parents with university and campus resources as well as with the faculty, administration, and advisors from their colleges. For more information about freshman orientation, call 602/543-4600, or access the Web site at www.west.asu.edu/uc/orientation.

The Parent Programs unit offers a series of opportunities designed to connect parents to the life of the university, to one another, and to the campus through workshops, receptions and organized group activities. For more information about Parent Programs, call 602/543-4300, or access the Web site at www.west.asu.edu/uc/parent.htm.

GCC-ASU PARTNERSHIP AT THE WEST CAMPUS

Glendale Community College and ASU at the West campus have joined hands to create a partnership that offers freshman and sophomore GCC courses on the West campus. The partnership provides students who are thinking about completing a bachelor's degree the courses and information they need to make a seamless and efficient transition to the university in the shortest period of time.

In addition to offering classes that meet a variety of university general studies requirements, the GCC-ASU Partnership provides students access to all university support services such as the library, tutoring, the Las Casas residence halls, and student employment. For information, call 602/543-4222, or access the Web site at www.west.asu.edu/uc/ucc.htm.

School of Global Management and Leadership

www.west.asu.edu/sgml

Leanne Atwater, PhD, Interim Dean

PURPOSE

The School of Global Management and Leadership prepares students to become innovative and skilled business leaders in today's dynamic and global business economy, whether in their own community or elsewhere in the world. Faculty are experts in their fields who bring international research and current events into the classroom. The school's programs are accredited by AACSB International—The Association to Advance Collegiate Schools of Business—a distinction achieved by fewer than 350 schools around the world.

ORGANIZATION

The school houses the following academic units and the Institute for International Management:

Department of Accounting
Department of Economics, Finance, Marketing, and Quantitative Business Analysis
Department of Management

DEGREE PROGRAMS

See the "School of Global Management and Leadership Baccalaureate Degrees and Majors" table, page 668. The faculty of the School of Global Management and Leadership offer the Master of Business Administration degree program. For more information, see the *Graduate Catalog*, or access the school's Web site at www.west.asu.edu/sgml.

CERTIFICATES

See the "West Campus Certificates" table, page 655.

BACCALAUREATE DEGREE PROGRAMS

The school offers baccalaureate programs in Accountancy, Global Business, and Leadership in International Management (LIM). The Accountancy program provides the foundational requirements for professional certification in accounting. The BS in Global Business and the BS in LIM provide two very different learning experiences for West campus students. Students in the new LIM program are drawn to the advantages of the foreign language component and international exposure for their career preparation. For other students, the flexibility of being able to attend part-time and not being away from family make the Global Business program a better match. The goal of the SGML is to provide programs that meet student needs as well as the demands of the industry.

Nature of Program

The undergraduate curriculum has been devised so that the student completes 50 percent of work in general education and other nonbusiness courses and 45 percent in courses offered by the School of Global Management and Leadership, with the remaining 5 percent selected from either area by the student in consultation with his or her advisor.

Admission to the Professional Programs

The School of Global Management and Leadership offers the upper-division level of the undergraduate curriculum. Admission is awarded to those applicants demonstrating the highest promise for professional success.

The admission requirements for the professional programs in Accountancy, Global Business, and LIM are enumerated in each program section.

For more information, call the school's Undergraduate Program Advising Office at 602/543-6200.

To be accepted for credit as part of the academic program in business, all courses transferred from other institutions must carry prerequisites similar to those of the courses they are replacing at ASU.

Nondegree and Nonbusiness Students

Nondegree and nonbusiness students may be permitted to enroll in selected 300-level business courses only during online registration and only if, (1) the student has an ASU cumulative GPA of at least 2.50 and an ASU cumulative business GPA of at least 2.50 at the time of online registration, or (2) the student has never attended ASU, in which case he or she is given a one-semester period to register during online registration and to establish a GPA at ASU. Students must meet all prerequisites and course requirements as listed in the catalog. Course registration must be approved by a school representative.

Nondegree and nonbusiness students are limited to a maximum of 15 semester hours of selected upper-division business courses (excluding economics courses).

School of Global Management and Leadership Baccalaureate Degrees and Majors

Major	Degree	Concentration*	Administered By
Accountancy	BS	—	Department of Accounting
Global Business	BS	Financial management, leadership and management, or marketing	School of Global Management and Leadership
Leadership in International Management	BS	—	School of Global Management and Leadership

* If a major offers concentrations, one must be selected unless noted as *optional*.

Transfer Credit

Freshman- and sophomore-level courses (numbered 100 to 299) at a community college or another four-year university will not be accepted as transfer credit in the upper-division program.

Professional business courses taught in the junior or senior year in the three state universities may not be completed at a two-year college for transfer credit in the business core or major. A maximum of nine semester hours of upper-division business credits may, upon approval, be transferred from the Tempe campus or from another AACSB-accredited four-year institution.

An Associate in Transfer Partnership Degree is available to Maricopa County Community College students who wish to complete their first two years of course work at a Maricopa County Community College and transfer to the School of Global Management and Leadership without loss of credit. The Arizona Associate in Business degree is also available for transfer to any business program at an Arizona state-funded university without loss of credit. A student should consult with an academic advisor in the School of Global Management and Leadership to assist in planning his or her program.

Degree Requirements

Students seeking a Bachelor of Science (BS) degree in the School of Global Management and Leadership must satisfactorily complete a curriculum of 120 semester hours.

Specific requirements for the BS degree in Accountancy, Global Business, and LIM are explained under the respective academic program sections.

University General Studies Requirements

All students pursuing a baccalaureate at ASU must successfully complete a minimum of 35 semester hours of approved general studies courses. Courses completed in the business major, as well as selected courses required for admission to the BS degree program can be applied toward meeting the university General Studies requirement. Students should consult with their advisor when selecting courses to fulfill the General Studies requirement.

Additional Graduation Requirements

In addition to completion of the courses outlined above, to be eligible for a BS degree in the School of Global Management and Leadership, a student must have

1. attained a cumulative GPA of 2.00 or higher for all business courses taken at this university and for all courses for the concentration/major taken at this university;
2. earned at least 50 percent of the business semester hours required for the business degree in resident credit at the West campus; and
3. earned a grade of "C" (2.00) or higher in all upper-division business courses required for the major or concentration.

Pass/Fail

School of Global Management and Leadership undergraduate students may not include among the semester hours required for graduation any courses taken at this university on a pass/fail basis. This policy excludes some courses such as internship, which may be offered only for satisfactory/fail credit.

ACADEMIC STANDARDS

The following are minimum academic standards applicable to all degree and certificate programs offered by the School of Global Management and Leadership. Some programs may have more specific or more stringent requirements.

Probation

Students are placed on probation when their GPA for all courses taken at ASU drops below a 2.00 minimum.

Disqualification

Probationary students have at most the next two consecutive semesters to raise their ASU GPA to the minimum 2.00 or higher. In the first semester of probation the student must receive a grade of "C" (2.00) or higher in all courses and have a GPA of at least 2.50 for the semester. Immediate disqualification occurs if either of these conditions are not met. If both are satisfied but the GPA for ASU courses still remains below 2.00, then the student may be given a second semester under probation to raise the GPA to the minimum. The student is disqualified from the business program if the ASU GPA has not been restored to at least 2.00 after the two semesters.

Reinstatement

The School of Global Management and Leadership does not accept applications for reinstatement until the disqualified student has remained out of the college for at least a 12-month period. Merely remaining in a disqualified status for the above period of time does not, in itself, constitute a basis for reinstatement. Evidence of ability to do satisfactory academic work is required.

Students who have been academically disqualified are permitted to enroll in courses during summer sessions in

order to raise their ASU GPA. Disqualified students may not enroll in upper-division business courses until they have been reinstated in a business program.

Academic Dishonesty

School of Global Management and Leadership students are expected to adhere to the ASU Academic Integrity Policy. A copy of the policy may be obtained from the school's Advising Office.

GLOBAL BUSINESS—BS

Nature of Program

The Global Business degree program establishes the foundation for understanding the entire business enterprise operating in a global economy. The program emphasizes real-world skills, such as conflict management, team building, diversity awareness, and problem solving, by integrating innovative courses into its curriculum.

The Global Business curriculum is composed of a global business core, a business concentration, and focused liberal studies courses. The core courses integrate concepts to develop the understanding of how businesses operate and how to make decisions in the global marketplace.

Each student's degree program includes courses in a specialized area of interest in business. The focused liberal studies courses are directly linked to global awareness, understanding diverse customers and markets, communication, and problem solving skills.

Career Outlook

The Global Business major is designed for students seeking careers in a variety of domestic business organizations as well as those focused on worldwide business activity. Opportunities for graduates exist with both large and small employers. Most career-related positions tend to be in private firms, followed by government agencies, and by nonprofit organizations. The program emphasizes the analysis of business environments, and related business practices and issues. In addition, the global business program serves as an excellent foundation for graduate study in business and for the study of law.

To further enhance the program of study, the ASU Global Business major provides a professional career development component that is integrated into the degree program and requires each student to participate in several workshops/seminars each semester.

Admission

To be considered for admission to the Global Business program, the student must be admitted to the West campus and must have

1. completed a minimum of 57 semester hours of the lower-division requirements for the degree at ASU or a regionally accredited college or university, or the Arizona Associate of Business degree, or the Associate in Transfer Partnership degree;
2. attained a minimum cumulative GPA of 2.50; and
3. completed the following required courses with a grade of "C" (2.00) or higher in each course:
   a. ACC 230 Uses of Accounting Information I or a Financial Accounting course (3 hours)
   b. ACC 240 Uses of Accounting Information II or a Managerial Accounting course (3 hours)
   c. CSE 180 Computer Literacy *CS*
   d. ECN 211 Macroeconomic Principles *SB*
   e. ECN 212 Microeconomic Principles *SB*
   f. ENG 101, 102 First-Year Composition

Total focused liberal studies.....15

Concentrations

Each student's degree program includes one of the following areas of concentration: financial management, leadership and management, or marketing. Each concentration consists of 12 semester hours.

Honors Thesis

With the approval of the thesis advisor, honors students may substitute the Honors Thesis for one course in the concentration.

Financial Management Concentration

The objective of the financial management concentration is to prepare students to enter a career in finance. Students will get an in-depth look at the quantitative and qualitative aspects of the analytical tools needed to make financial decisions. Emphasis is on domestic and global capital market institutions and securities.

The financial management concentration consists of four required courses as follows:

ACC 410 Contemporary Financial Reporting.....3
FIN 410 Investments 3
FIN 411 International Finance 3
FIN 412 Financial Management.....3

Total 12

Leadership and Management Concentration

The leadership and management concentration provides students with a broad introduction to principles and practices relevant in today's complex business world. Emphasis is placed on leadership applications and development and on management of human resources in a domestic and global business environment. This concentration is designed for students who seek a challenging and rewarding management position.

MGT 411 Leading Organizations 4
MGT 412 Managing Human Resources 4
MGT 494 Special Topics in Leadership and Management.....4

Total 12

Marketing Concentration

Study in the field of marketing involves analysis of how organizations design, distribute, price, and promote products and services that satisfy customer needs as well as meet organizational objectives. Marketing students prepare for careers in general marketing management, brand management, advertising, marketing research, international marketing, distribution, retail sales, and sales management.

The marketing concentration consists of three required courses as follows:

MKT 410 Consumer Behavior 4
MKT 413 Marketing Research Concepts and Practice.....4
MKT 414 Global Strategic Marketing.....4

Total 12

LEADERSHIP IN INTERNATIONAL MANAGEMENT —BS

Nature of Program

The School of Global Management and Leadership offers a new bachelor's degree in Leadership in International Management (LIM) beginning fall 2006. The LIM program offers a more extensive international curriculum and greater multicultural experiences than the Global Business program. The new program requires a cohort learning experience for all upper-division core courses, a foreign language (Spanish), a semester of upper-division study at a university in Mexico, and a partnership with international exchange students who are in residence at ASU on the West campus. As a border state to Mexico, the number two global trading partner of the U.S., Arizona offers students a rich opportunity to learn the language while studying in a key trading partner country.

Career Outlook

The ultimate outcome of the LIM program is to develop graduates who possess the knowledge, skills and techniques necessary to significantly participate in international business operations. Trade with Central American countries is expected to increase in the near future. The Central American Free Trade Agreement (CAFTA), signed into law in August 2005, will create opportunities for U.S.-based businesses to export goods with reduced tariffs, and eventually many goods will become duty-free. To be successful in this new environment, businesses will need a workforce that understands the Central American business environment, its cultures, and how to communicate and develop relationships with such businesses. This program is helping to provide such a workforce.

Admission

Because of the cohort nature of the program, students are admitted to the program only for the fall semester. To be considered for admission to the LIM program, the student must be admitted to the West campus and must have

1. completed a minimum of 44 semester hours of the lower-division requirements for the degree (excluding language) at ASU or a regionally accredited college or university, or the Arizona Associate of Business degree, or the Associate in Transfer Partnership degree;

2. attained a minimum cumulative GPA of 3.50 and completed the following required courses with a grade of "C" (2.00) or higher in each course:
   a. ACC 230 Uses of Accounting Information I or a Financial Accounting course (3 hours)
   b. ACC 240 Uses of Accounting Information II or a Managerial Accounting course (3 hours)
   c. CSE 180 Computer Literacy *CS*
   d. ECN 211 Macroeconomic Principles *SB*
   e. ECN 212 Microeconomic Principles *SB*
   f. ENG 101, 102 First-Year Composition
   g. MAT 119 Finite Mathematics *MA*
   h. MAT 210 Brief Calculus *MA*
   i. PGS 101 Introduction to Psychology *SB*
   j. QBA 221 Statistical Analysis *CS*
   k. two SQ laboratory science courses or an SQ and an SG laboratory science course (8 hours)
   l. a course in oral communication (3 hours); and
3. submitted an admission essay and participate in an on-campus interview. Out-of-state students may fulfill this with a phone interview.

Acceptance is contingent upon the fulfillment and assessment of these activities by a LIM program committee composed of two LIM faculty members, an academic advisor, and the SGML undergraduate program director.

* These courses are under development.

Language Requirement. To enrich the experiences of the senior semester of study in a Latin American country, each student is required to demonstrate knowledge of Spanish at the intermediate level by the middle of the junior year. Although the students take their courses in English during their semester of study in Latin America, familiarity and comfort with Spanish enhances their out-of-class interactions and cultural experiences. This language requirement may be satisfied through one of the following:

1. completion of secondary education at a school in which the language of instruction is Spanish; or
2. completion of 16 semester hours of Spanish (through the second intermediate Spanish course, equivalent to SPA 202) or an equivalent score earned on a standardized proficiency exam, such as the CLEP test.

For more information, call 602/543-6200, or access the SGML Web site at www.west.asu.edu/sgml.

GRADUATE DEGREE

The faculty of the School of Global Management and Leadership offer the professional Master of Business Administration (MBA) degree. The MBA program is accredited by AACSB International—The Association to Advance Collegiate Schools of Business. For more information, see the *Graduate Catalog*.

William Duncan, Chair

Professor: Vickrey

Associate Professors: Duncan, Lowe, Prosch, Swenson

Assistant Professors: Chen, Chung, Samuels

Senior Lecturer: Muller

Lecturers: Dallmus, Finger, Wood

Three accounting programs are available at the West campus. The BS degree in Accountancy is available for students pursuing an undergraduate degree. The Postbaccalaureate Certificate in Accountancy is available for those already possessing a bachelor's degree who seek a career change to accounting or upgraded accounting skills. The Postbaccalaureate Certificate in Professional Accountancy is designed to allow BS in Accountancy graduates to meet the educational requirements for CPA licensure.

Either certificate program can be used as a foundation to pursue professional certification as a Certified Public Accountant (CPA), Certified Management Accountant (CMA), or Certified Internal Auditor (CIA).

ACCOUNTANCY—BS

Nature of Program

The faculty of the Accountancy Program is dedicated to improving the quality of accounting practice. This objective is achieved primarily through offering rigorous and relevant educational experiences through the bachelor's program. The complexity of the modern business world and its growing interaction with social, political, and economic environments is reflected in the revised accountancy program with its emphasis on a solid foundation of accounting and business courses with a selection from a number of optional courses for specialized career development. Students who

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

study accountancy aspire to enter a challenging professional environment. An accounting professional in today's environment must possess technical expertise and excellent communication, analytical, and interpersonal skills.

Career Outlook

Graduates of the Accountancy Program accept positions as accountants, auditors, and internal auditors, while some students pursue business careers outside traditional accounting roles. Students are recruited by CPA firms, banks, other financial institutions, manufacturing companies, utilities, and government agencies. The curriculum in the undergraduate accountancy program provides the foundational requirements for professional certification as a CPA, CMA, or CIA. Additional course work may be necessary for licensure.

Admission

To be considered for admission to the Accountancy program, the student must be admitted to the West campus and must have

1. completed a minimum of 57 semester hours of the lower-division requirements for the degree at ASU or a regionally accredited college or university, or the Arizona Associate of Business degree, or the Associate in Transfer Partnership degree;
2. attained a minimum cumulative GPA of 2.50;
3. completed the accounting core with a grade of "B" (3.00) or higher in each course:
   a. ACC 230 Uses of Accounting Information I or a Financial Accounting course (3 hours)
   b. ACC 240 Uses of Accounting Information II or a Managerial Accounting course (3 hours)
   c. ACC 250 Introductory Accounting Lab (0–1 hour)*; and

Academic Good Standing

Accountancy majors must receive grades of "C" (2.00) or higher in the required upper-division accounting courses to be in good standing. If an Accountancy major receives a grade below "C" (2.00) in any required course, this course must be repeated before any other upper-division accounting course can be taken. If a second grade below "C" (2.00) is received in an upper-division accounting course already taken, the student is no longer eligible to take additional upper-division accounting courses.

POSTBACCALAUREATE CERTIFICATE IN ACCOUNTANCY

Nature of the Program. The Postbaccalaureate Certificate in Accountancy is a flexible 30-semester-hour program designed for students already possessing an undergraduate degree. The undergraduate degree may be in any field, business related or not.

The certificate program is particularly useful for persons seeking a career change to accounting or upgrading existing

accounting skills. The program involves undergraduate course work in accounting and related fields and prepares a student to sit for the Certified Public Accountant examination or other professional accounting certification such as the Certified Management Accountant or Certified Internal Auditor.

The curriculum is designed to provide students with a solid foundation, teaching students the technical accounting expertise they need while learning the communication, analytical, and interpersonal skills necessary to succeed in today's business world. Classes are conveniently offered during day and evening hours. Students also have the opportunity to receive work experience through internship programs with local firms and governmental agencies. Students who complete the certificate are highly sought after by employers because of their practical work experience and strong communication skills.

Admission. To be admitted to the Postbaccalaureate Certificate in Accountancy program, an individual must

1. possess a four-year baccalaureate degree with a minimum GPA of 2.50 from an accredited college or university;
2. be admitted to West campus as a nondegree graduate student; and
3. have completed Financial and Managerial Accounting (six semester hours) with a grade of "B" (3.00) or higher and the prerequisite Business core with a minimum GPA of 2.50 and a grade of "C" (2.00) or higher in each course:
   a. Computers in Business (three hours)
   b. Finite Mathematics (three hours)
   c. Microeconomic Principles and Macroeconomic Principles (six hours)
   d. Statistical Analysis (three hours).

Program minimum total 30

Students admitted to the Postbaccalaureate Certificate in Accountancy program are permitted to enroll in courses other than those listed above only with the written permission of the accountancy director.

At least 21 of the upper-division semester hours for the certificate and 18 of the upper-division semester hours in accounting must be taken in residence at West campus. Candidates must achieve a grade of "C" (2.00) or higher in each course presented for the postbaccalaureate certificate.

Academic Good Standing. Postbaccalaureate Certificate students must receive grades of "C" (2.00) or higher in the required upper-division accounting courses to be in good standing. If a postbaccalaureate certificate student receives a grade below "C" (2.00) in any required accounting course, this course must be repeated before any other upper-division accountancy course can be taken. If a second grade below "C" (2.00) is received in an upper-division accountancy course already taken, the student is no longer eligible to take additional upper-division accountancy courses.

POSTBACCALAUREATE CERTIFICATE IN PROFESSIONAL ACCOUNTANCY

Nature of the Program. The Postbaccalaureate Certificate in Professional Accountancy is designed for students who have earned a Bachelor of Science in Accountancy and need additional college course work to meet the educational requirements for Certified Public Accountant (CPA) licensure in the State of Arizona. Upon completion of the Postbaccalaureate Certificate in Professional Accountancy, students will have met the 150 semester hour requirement for CPA certification in Arizona that took effect June 30, 2004.

Admission. To be admitted to the Postbaccalaureate Certificate in Professional Accountancy program, an individual must possess a four-year baccalaureate degree in Accountancy with a minimum GPA of 2.50 from ASU or the equivalent from another regionally accredited university or college with a minimum of 120 semester hours.

Program Requirements. In consultation with a program advisor, students design individualized programs of study that enable them to meet the educational requirements for certification as CPAs in Arizona. Certificates are awarded to students who have completed at least 150 semester hours of college-level course work, including at least 36 semester hours of accounting courses, of which at least 30 semester

hours must be in the upper division. Thirty semester hours of related business courses acceptable for certification must also be completed. All course work presented for the certificate must be completed with a minimum grade of "C" (2.00) and be earned at regionally accredited universities or colleges. At least 18 semester hours must be taken in residence at West campus.

Academic Good Standing. Postbaccalaureate certificate students must complete all courses used to fulfill the certificate requirements with a grade of "C" (2.00) or higher.

ACCOUNTANCY (ACC)

For more ACC courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W ACC 230 Uses of Accounting Information I. (3)
fall and spring
Introduces the uses of accounting information focusing on the evolution of the business cycle and how accounting information is used for internal and external purposes. Prerequisite: sophomore standing.

W ACC 240 Uses of Accounting Information II. (3)
fall and spring
Introduces the uses of accounting information focusing on the evolution of the business cycle and how accounting information is used for internal and external purposes. Prerequisite: sophomore standing. Prerequisite with a grade of "C" (2.00) or higher: ACC 230.

W ACC 250 Introductory Accounting Lab. (1)
fall and spring
Procedural details of accounting for the accumulation of information and generation of reports for internal and external users. Lab.

W ACC 326 External Financial Reporting I. (3)
fall and spring
Theory, U.S. standards, and practice applicable to financial statements, revenue recognition, and assets. Prerequisite: 250 (or its equivalent).

W ACC 327 External Financial Reporting II. (3)
fall and spring
Theory, U.S. standards, and practice applicable to equities, cash flow statement, earnings per share, leases, pensions, and other essential topics. Prerequisite: ACC 326.

W ACC 336 Cost Management and Control. (3)
fall and spring
Concepts and principles for product costing, planning and control, and internal decision making. Prerequisite: previous course work in managerial accounting or director approval.

W ACC 346 Information Systems Management. (3)
fall, spring, summer
Information requirements and transaction processing for integrated accounting systems emphasizing database systems analysis and design, controls, and computer processing. Prerequisite: previous course work in information systems or director approval.

W ACC 356 Income Tax Accounting. (3)
fall and spring
Public policy concepts and rules of federal income tax for all taxpayers. Individual tax returns and use of tax software. Prerequisite: ACC 326.

W ACC 361 Accounting Technology. (3)
fall and spring
Use and understanding of a computerized accounting package and other software for accounting applications. Prerequisites: ACC 326, 336, 346.

W ACC 410 Contemporary Financial Reporting. (3)
fall and spring
Topics include financial statements, roles and effects of accounting information in society, policy setting, managers' choice of accounting techniques. Cannot be used for major credit in Accountancy. Prerequisite: FIN 301.

W ACC 426 Advanced Reporting: Consolidation, International, and Not-for-Profit Topics. (3)
fall and spring
Consolidated financial statements, not-for-profit accounting, and international accounting standards and topics including foreign currency transactions and translation. Prerequisite: ACC 326.

W ACC 436 Advanced Topics in Cost Management. (3)
selected semesters
Issues in contemporary manufacturing environments. Topics include cost estimation, activity-based management, just-in-time inventories, budgeting, and variances. Prerequisites: ACC 326, 336.

W ACC 446 Advanced Topics in Information Systems. (3)
fall and spring
Use of contemporary technology in modern organizations. Topics include analysis and design, advanced database design, and electronic commerce. Prerequisite: ACC 346.

W ACC 456 Advanced Taxation. (3)
spring
Advanced problems in business and fiduciary income tax. Formation, operation, and liquidation of corporation and partnerships. Use of research software. Prerequisite: ACC 356.

W ACC 476 External Auditing. (3)
fall and spring
Theory and standards underlying the attestation process. Topics include evidence gathering, analysis, reporting, and development of professional judgement skills. Prerequisites: ACC 327, 346.

W ACC 477 Internal Auditing. (3)
spring
Contemporary issues and practices of internal auditing. Standards and process of management/operation audits. Prerequisites: ACC 326, 346.

W ACC 478 Governmental and Not-for-Profit Accounting. (3)
selected semesters
Accounting and reporting systems for governmental entities, health-care organizations, colleges and universities, and other nonprofit organizations. Prerequisite: ACC 326.

W ACC 484 Accounting Internship. (3)
fall, spring, summer
Undergraduate and postbaccalaureate students are eligible to apply for internship positions designed to provide experience in the areas of accounting, tax, and internal and external auditing. Placements are made in organizations throughout the metropolitan Phoenix area. Prerequisites: vary depending on the nature of the internship.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog,* or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

LEGAL AND ETHICAL STUDIES (LES)

For more LES courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W LES 306 Business Law. (3)
spring
Legal and ethical aspects of contracts, sales, commercial paper, secured transactions, documents of title, letters of credit, and bank deposits and collections.

Lecturers: Macfie, Olander, Singh

ECONOMICS (ECN)

For more ECN courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W ECN 211 Macroeconomic Principles. (3)
fall and spring
Basic macroeconomic analysis. Economic institutions and factors determining income levels, price levels, and employment levels.
General Studies: SB

W ECN 212 Microeconomic Principles. (3)
fall and spring
Basic microeconomic analysis. Theory of exchange and production, including the theory of the firm.
General Studies: SB

W ECN 494 Special Topics. (3)
selected semesters
Current topics of interest in economics, e.g., managerial economics, microeconomic policy issues. Prerequisite: instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

FINANCE (FIN)

For more FIN courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W FIN 301 Fundamentals of Finance. (3)
fall, spring, summer
Introduces the basic concepts, principles, and tools of financial management. Prerequisites: ACC 240 (or its equivalent); ECN 212; QBA 221.

W FIN 410 Investments. (3)
fall and spring
Strategies and mechanics of investing in stocks, bonds, and derivatives. Topics include investment selection, portfolio management, financial markets, and institutions. Prerequisite with a grade of "C" (2.00) or higher: FIN 301.

W FIN 411 International Finance. (3)
fall and spring
Explores the environmental challenges facing financial managers in global financial markets and develops tools and techniques to meet such challenges. Prerequisites: FIN 301; GLB 301.

W FIN 412 Financial Management. (3)
fall and spring
In-depth extension of core finance course. Typical topics include financial planning/control, risk and valuation, capital budgeting. Prerequisite: FIN 301. Pre- or corequisite with a grade of "C" (2.00) or higher: ACC 326 or 410.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog,* or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

MARKETING (MKT)

For more MKT courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W MKT 301 Fundamentals of Marketing. (3)
fall, spring, summer
Examines the role and process of marketing within the society, economy, and business organization. Prerequisite: ECN 212.

W MKT 410 Consumer Behavior. (4)
fall and spring
Applies social, cultural, and behavioral concepts for analyzing consumer behavior, with implications for marketing strategy and marketing communication strategy. Prerequisite: MKT 301.

W MKT 413 Marketing Research Concepts and Practice. (4)
fall and spring
Research techniques for collecting, analyzing, and interpreting marketing information. Includes design and completion of a client-sponsored, industry-based research project. Prerequisites: MKT 301; QBA 221.

W MKT 414 Global Strategic Marketing. (4)
fall and spring
Examines marketing and marketing communication strategy development, and evaluation in the context of global markets and organizational objectives. Prerequisites: GLB 301; MKT 301.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog,* or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

QUANTITATIVE BUSINESS ANALYSIS (QBA)

For more QBA courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W QBA 221 Statistical Analysis. (3)
selected semesters
Methods of statistical description. Applies probability theory and statistical inference in business. Prerequisite: MAT 119.
General Studies: CS

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Lecturers: K. Anders, Goldman, Washburn

BUSINESS (BUS)

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

COMPUTER INFORMATION SYSTEMS (CIS)

For more CIS courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W CIS 200 Computer Applications and Technology. (3)
selected semesters
Introduces business information systems and the uses of business application software. Fee. Prerequisite: MAT 117 or higher.
General Studies: CS

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

GLOBAL BUSINESS (GLB)

W GLB 301 Business in the Global Environment. (4)
fall and spring
Discusses multinational corporate strategy, structure, operations, and the social and economic factors affecting global business.
General Studies: G

W GLB 302 Culture and Diversity Management. (3)
fall and spring
Develops an understanding of culture (individual, organizational, national, subcultural, transnational, and global) and change and interaction applied to management decisions. Prerequisite: MGT 301.

W GLB 303 Relationship Management. (3)
fall and spring
Overviews types of relationships found in organizations, then trains students in the interpersonal skills necessary to effectively manage those relationships.

W GLB 401 Global Business Integration. (4)
fall and spring
Provides an integrative framework for global corporate strategic analysis and opportunities for integrated decision making in actual and simulated businesses. Prerequisites: all 300-level business core courses (GLB 302 and 303 may be taken concurrently); ENG 101 (or 105).
General Studies: L

W GLB 411 Global Competitiveness. (4)
fall and spring
Discusses factors contributing to international competitive success of nation-states, national industries, and specific firms. Includes detailed analysis of actual firms. Prerequisite with a grade of "C" (2.00) or higher: GLB 301.

W GLB 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

MANAGEMENT (MGT)

For more MGT courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W MGT 301 Principles of Management. (3)
fall and spring
Introduces the theoretical and practical foundations of organizations with a focus on individuals, groups, and organizational systems. Prerequisites: one course in psychology (social and behavioral); one course in sociology.

W MGT 411 Leading Organizations. (4)
fall, spring, summer
Comprehensive overview of leadership in organizations. Provides students with understanding of leadership research and its applications to global organizations and the development of leaders.

W MGT 412 Managing Human Resources. (4)
fall, spring, summer
Overview of domestic and global human resources management topics pertinent to managers and first-line supervisors, as well as those with interest in human resources management.

W MGT 494 Special Topics. (3)
fall and spring
Chosen from topics in human resources, strategic management, and international management, including seminars in international management in Asia or Europe.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

OPERATIONS AND PRODUCTION MANAGEMENT (OPM)

W OPM 301 Operations Management. (3)
fall and spring
Introduces the management of service and manufacturing conversion processes, with emphases on quality management and computer applications. Prerequisites: ACC 240 (or its equivalent); ECN 212; QBA 221.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

College of Human Services

www.west.asu.edu/chs

John R. Hepburn, PhD, Dean

PURPOSE

The College of Human Services serves students and the community by combining forward-reaching education with world-class faculty in a number of service areas. The college focuses on expanding research and influence in areas of violence prevention, lifelong learning, quality of life issues, communication assessment, and advocacy and leadership effectiveness.

ORGANIZATION

The college houses the following academic units:

Center for Violence Prevention and Community Safety
Department of Communication Studies
Department of Criminal Justice and Criminology
Department of Recreation and Tourism Management
Department of Social Work
Gerontology Program
Nursing Program (ASU College of Nursing)
Partnership for Community Development

DEGREE PROGRAMS

See the "College of Human Services Baccalaureate Degrees and Majors" table, page 678, and the "College of Human Services Graduate Degrees and Majors" table, page 679.

Baccalaureate Degree Programs

Admission. Admission to programs in Communication Studies, Criminal Justice and Criminology, Recreation and Tourism Management, or Social Work requires a minimum cumulative GPA of 2.00, and any additional requirements the respective programs impose.

Transfer Students. Any person applying for admission or transfer to the Communication Studies or Criminal Justice and Criminology programs is admitted as a major of that program. A student applying for admission to the Recreation and Tourism Management or Social Work programs must fulfill additional requirements identified in the respective academic program sections that follow.

Degree Requirements. Students seeking a baccalaureate in a College of Human Services major must successfully complete 120 semester hours of college course work, fulfill all university degree requirements, and complete the specific requirements of the degree program. Specific degree requirements are explained under the respective academic program sections that follow.

Graduate Degree Programs

Information regarding university requirements, including admission policies and procedures are explained in the *Graduate Catalog*.

MINORS AND CERTIFICATES

See the "West Campus Minors" table, page 654, and the "West Campus Certificates" table, page 655.

SPECIAL GRADING OPTIONS

The College of Human Services grades some courses, internships, field experiences, and individualized instruction on a satisfactory/fail basis. Students who successfully complete these experiences receive a "Y" grade. Such grades are acceptable for meeting program requirements, but these grades are not computed in the GPA.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

FAB S141C

J. Macgregor Wise, Chair

Professors: Morris, Waldron

Associate Professors: Di Mare, Kassing, Kelley, Nadesan, Ramsey, Shome, Wise

Assistant Professor: Meân

Lecturers: Burk, French, Gruber

The Department of Communication Studies prepares professionals with highly effective communication skills—speaking, writing, cultural sensitivity, critical thinking, problem solving, and conflict management—through a number of academic program options. The department offers BA and BS degrees in Communication Studies, undergraduate minors in Communication Studies and Public Relations and Strategic Communication, the MA degree in Communication Studies, and a postbaccalaureate certificate in Communication and Human Relations.

COMMUNICATION STUDIES—BA AND BS

Nature of Program

The Department of Communication Studies prepares students to enter the global age with competencies necessary to become active participants in democratic life. Because few phenomena are as central to society as communication, students in the program have the opportunity to achieve critical understanding of their increasingly international, multicultural, gendered worlds. Using scientific, interpretive, rhetorical, and critical research approaches, graduates learn to produce, analyze, and critique social and cultural information created by the practices of communication. Understanding communication's centrality in human experience brings a rich variety of material into the student's view. Contexts for studying communication include diversity, media, public influence, critical/rhetorical inquiry, personal relationships, and social organizations.

Career Outlook

The academic and scholarly focus on the criticism of communicative practices across various conditions prepares students well for a multitude of vocations in an increasingly complex world. Conceptualizing the world as one overflowing with meanings related to diverse social groups, identities, and relationships, students of communication are able to think critically about how meaning is made, how meaning can be made to change, and how communication fosters democratic ideals for the workplace and the world. The successful graduate will be able to work productively with other people; assimilate, organize, and analyze information; solve problems; make effective presentations; and show potential for leadership. The program prepares students for advanced education; advancement toward careers in teaching, counseling, law, and medicine; and various careers and professions, including

1. training and development,
2. public relations,
3. public administration,
4. public office,
5. public advocacy,
6. speech writing,
7. lobbying,
8. research,
9. advertising,
10. mediation,
11. customer relations,
12. human resources,
13. health and human services,
14. international service,
15. fund-raising, and
16. the ministry.

* If a major offers concentrations, one must be selected unless noted as *optional*.

ADMISSION REQUIREMENTS

A minimum GPA of 2.00 is required for entrance into the major and for enrollment in all upper-division courses.

MAJOR REQUIREMENTS

Of the minimum required 48 semester hours, majors must complete nine semester hours of program core courses, 18 semester hours of selected course work across competency-based categories (all of which must be upper division, and nine hours of which must be at the 400-level), and 21 semester hours of elective course work (up to nine hours of which may be lower division). COM 484 and 499 may not be used to satisfy selected course work requirements but may fulfill elective course work requirements. Students seeking the BS degree must complete one lower-division statistics course and one additional upper-division statistics course. All courses must be completed with a minimum grade of "C" (2.00).

Required Course Work

COM 225 Public Speaking *L* 3
COM 308 Empirical Research Methods in Communication *L* 3
COM 309 Rhetorical, Interpretive, and Critical Methods in Communication 3
Total 9

Selected Upper-Division Course Work

Students are required to complete one course from each of the six categories below, nine hours of which must be at the 400-level.

Diversity

Choose one of the following 3
- COM 316 Gender and Communication *C* (3)
- COM 371 Cross-Cultural Communication Perspectives *G* (3)
- COM 394 Special Topics[1] (3)
- COM 416 Gender, Race, Colonialism, and Media (3)
- COM 463 Cultural and Intercultural Communication Theory and Research SB, *G* (3)
- COM 465 Intercultural Communication Workshop (3)
- COM 471 International Communication *G* (3)
- COM 494 Special Topics[1] (3)

Media Literacy

Choose one of the following 3
- COM 324 Rhetoric and Media Criticism (3)
- COM 394 Special Topics[1] (3)
- COM 424 Television Studies and Criticism (3)
- COM 429 Semiotics and Visual Communication (3)
- COM 457 New Media (3)
- COM 494 Special Topics[1] (3)

Public Influence Processes

Choose one of the following 3
- COM 325 Advanced Public Speaking (3)
- COM 329 Persuasion (3)
- COM 353 Professional Communication (3)
- COM 394 Special Topics[1] (3)
- COM 414 Crisis Communication (3)

- COM 494 Special Topics[1] (3)

Selected upper-division total 18

Communication Electives

COM electives[2] 21

Program total 48

[1] The topic must be designated as an appropriate course by the instructor.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

[2] Select COM electives in consultation with a faculty advisor. A maximum of nine hours may include COM 100 and courses at the 200 level.

Other Requirements

In addition to the above listed requirements, students must satisfy the General Studies Program requirements. Students should consult their advisors for current information concerning College of Human Services and the Communication Studies courses applicable to General Studies requirements.

MINOR IN COMMUNICATION STUDIES

The minor consists of 18 semester hours of Communication Studies courses. Students wishing to pursue a minor must meet with a Communication Studies faculty advisor to construct a minor that reflects a particular area of specialty and interest. At least 12 semester hours must come from upper-division courses. To graduate with the minor, students must earn a minimum cumulative GPA of 2.00 in Communication Studies courses. All courses must be passed with a minimum grade of "C" (2.00).

MINOR IN PUBLIC RELATIONS AND STRATEGIC COMMUNICATIONS

The Public Relations and Strategic Communications minor will provide students with professional and academic expertise in persuasion and campaign communication, public relations, crisis communication, special events planning, marketing, professional writing, and editing (among other areas). Additionally, students will have the opportunity to refine the presentation skills needed for public and community relations.

Program Requirements

The minor consists of 18 semester hours upper-division course work, including nine semester hours of required course work and nine semester hours of electives.

Required Core Courses

Choose three of the following courses 9
- COM 320 Communication and Consumerism *SB* (3)
- COM 329 Persuasion (3)
- COM 353 Professional Communication (3)
- COM 454 Rhetorical and Critical Approaches to Public Relations (3)

Electives

Select three of the following courses[1] 9–10
- COM 414 Crisis Communication (3)
- COM 453 Communication Training and Development (3)
- COM 484 Communication Internship[2] (3)
- ENG 301 Writing for the Professions *L* (3)
- ENG 311 Persuasive Writing *L* (3)
- ENG 412 Writing for Publication (3)
- MKT 301 Fundamentals of Marketing (3)
- MKT 410 Consumer Behavior (4)
- RTM 404 Marketing Recreation and Tourism (3)
- RTM 486 Special Events Management (3)
- Or other approved courses

Program total 18–19

[1] Electives or other approved courses must be chosen in consultation with an advisor.

[2] Communication internships are limited to students with senior status and a cumulative GPA of 2.80 or higher.

POSTBACCALAUREATE CERTIFICATE IN COMMUNICATION AND HUMAN RELATIONS

Nature of the Program. The contemporary workplace increasingly requires employees to develop advanced knowledge and skill in the processes of communication.

The certificate program is designed for working professionals in communication-intensive fields such as public affairs, employee relations, mediation, organizational development, public relations, training and development, community relations, customer relations, media relations, change management, sales and sales management, marketing, public administration, event planning, and health communication.

Admission Requirements. To be admitted to the Postbaccalaureate Certificate in Communication and Human Relations program, an individual must

1. possess a four-year baccalaureate degree from a regionally accredited college or university;
2. be admitted to West campus as a nondegree graduate student; and
3. have completed the following college-level courses with a grade of "C" (2.00) or higher in each course:
   a. quantitative, qualitative, or critical research methods (three semester hours), and
   b. oral communication performance (200 level or above) (three semester hours).

Program Requirements. The certificate requires completion of 18 semester hours of upper division course work in communication studies and related disciplines.

Focused Course Work. In consultation with a faculty advisor, students design a program of study composed of five courses (15 semester hours) focused in an area of human relations, such as employee communications, interpersonal relations, or community relations. Course selections are made from the following:

- COM 410 Interpersonal Communication Theory and Research *SB* 3
- COM 411 Communication in the Family *SB* 3
- COM 414 Crisis Communication 3
- COM 417 Communication and Aging 3
- COM 421 Rhetoric of Social Issues *HU* 3
- COM 430 Leadership in Group Communication 3
- COM 450 Theory and Research inOrganizational Communication *SB* 3
- COM 451 Employee Participation Processes in Organizations 3
- COM 453 Communication Training and Development 3
- COM 456 Political Communication 3
- COM 457 New Media 3
- COM 494 Special Topics 3
- Other approved substitution 3

Capstone Project. Students are required to complete an independent research project (supervised by a faculty member) on a communication topic related to their professional or research interests. The project should reflect the integration and application of course work to a social or organiza-

tional problem. The scope and quality of the written report must be appropriate for postbaccalaureate students. A minimum of three semester hours of COM 499 Individualized Instruction is required.

GRADUATE DEGREE

The faculty in the Department of Communication Studies offer a professional Master of Arts degree in Communication Studies. For more information, see the *Graduate Catalog*.

COMMUNICATION STUDIES (COM)

For more COM courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W COM 100 Introduction to Human Communication. (3)
fall and spring
Topics-oriented introduction to basic theories, dimensions, and concepts of human communicative interaction and behavior. Fee.
General Studies: SB

W COM 124 Intercultural Issues in Mediated Communication. (3)
selected semesters
Introduces contemporary intercultural issues as expressed through various media in American society.
General Studies: C

W COM 222 Argumentation. (3)
once a year
Philosophical and theoretical foundations of argumentation, including a comparison of models of advocacy and evidence. Prerequisite: ENG 101 or 105.
General Studies: L

W COM 225 Public Speaking. (3)
fall and spring
Verbal and nonverbal communication in platform speaking. Discussion and practice in vocal and physical delivery and purposeful organization of public communication. Fee. Prerequisite: ENG 101 or 105.
General Studies: L

W COM 230 Small Group Communication. (3)
spring
Principles and processes of small group communication, attitudes and skills for effective participation and leadership in small groups, small group problem solving, and decision making.
General Studies: SB

W COM 259 Communication in Business and the Professions. (3)
fall
Interpersonal, group, and public communication in business and professional organizations. Fee.

W COM 308 Empirical Research Methods in Communication. (3)
fall and spring
Examines social science approaches to the study of communication, including experimental, survey, descriptive, and other quantitative approaches. Prerequisite: ENG 101 or 105.
General Studies: L

W COM 309 Rhetorical, Interpretive, and Critical Methods in Communication. (3)
fall and spring
Examines humanistic and qualitative approaches to communication. Introduces textual, interactional and ethnographic methods.

W COM 310 Relational Communication. (3)
once a year
Examines communication processes as they relate to relationship development, maintenance, and termination.

W COM 312 Communication, Conflict, and Negotiation. (3)
once a year
Theories and strategies of communication relevant to the management of conflicts and the conduct of negotiations.

W COM 316 Gender and Communication. (3)
once a year
Introduces gender-related communication. Examines verbal, nonverbal, and paralinguistic differences and similarities within social, psychological, and historic perspectives.
General Studies: C

W COM 320 Communication and Consumerism. (3)
once a year
Critical evaluation of messages designed for public consumption. Perceiving, evaluating, and responding to political, social, and commercial communication.
General Studies: SB

W COM 321 Rhetorical Theory and Research. (3)
once a year
Historical development of rhetorical theory and research in communication, from classical antiquity to the present. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W COM 324 Rhetoric and Media Criticism. (3)
once a year
Critical examination of media arts, including cinema, television, and video. Applies rhetorical, textual, and interpretive methods of criticism.

W COM 325 Advanced Public Speaking. (3)
selected semesters
Social and pragmatic aspects of public speaking as a communicative system; strategies of rhetorical theory and the presentation of forms of public communication.

W COM 329 Persuasion. (3)
once a year
Variables that influence and modify attitudes and behaviors of message receivers, including analysis of theories, research, and current problems.

W COM 353 Professional Communication. (3)
once a year
Introduces both verbal and written professional communication styles and technologies in preparation for communication-related internships and careers.

W COM 371 Cross-Cultural Communication Perspectives. (3)
selected semesters
Explores different cultures' approaches to theories of and practices in social interaction and public discourse.
General Studies: G

W COM 382 Classroom Apprenticeship. (1–3)
fall and spring
Nongraded credit for students extending their experience with a content area by assisting with classroom supervision in other COM courses. Maximum 3 semester hours each semester. Prerequisite: instructor approval.

W COM 394 Special Topics. (1–3)
selected semesters
Variable topics course designed around specific themes, concepts, and questions central to the study of communication. Prerequisite: instructor approval.

W COM 410 Interpersonal Communication Theory and Research. (3)
selected semesters
Survey and analysis of major research topics, paradigms, and theories dealing with message exchanges between and among social peers. Prerequisite: COM 308 or 309 or instructor approval.
General Studies: SB

W COM 411 Communication in the Family. (3)
selected semesters
Broad overview of communication issues found in marriage and family life, focusing on current topics concerning communication in the family.
General Studies: SB

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

W COM 414 Crisis Communication. (3)
selected semesters
Role of communication in crisis development and intervention.

W COM 416 Gender, Race, Colonialism, and Media. (3)
once a year
Explores how the mass media constructs gender and race and perpetuates colonial views of minorities and varied nationalities.

W COM 417 Communication and Aging. (3)
once a year
Critical study of changes in human communicative patterns through the later adult years, with attention on intergenerational relationships and self-concept functions.

W COM 421 Rhetoric of Social Issues. (3)
selected semesters
Critical rhetorical study of significant speakers and speeches on social issues of the past and present. Prerequisite: COM 321 or instructor approval.
General Studies: HU

W COM 422 Argumentation, Critical Reasoning and Public Communication. (3)
fall and spring
Advanced study of argumentation theories and research as applied to public forums including: political, business, and legal contexts. Prerequisite: COM 222 or instructor approval.
General Studies: L

W COM 424 Television Studies and Criticism. (3)
once a year
Surveys critical and historical approaches to television as a medium; to television research; and to television's effects. Prerequisite: COM 309 or instructor approval.

W COM 429 Semiotics and Visual Communication. (3)
selected semesters
Semiotic analysis of mediated forms of communication, including film, television, and photography. Includes the political and aesthetic dimensions of images. Prerequisite: COM 309 or instructor approval.

W COM 430 Leadership in Group Communication. (3)
selected semesters
Theory and process of leadership in group communication, emphasizing philosophical foundations, contemporary research, and applications to group situations.

W COM 450 Theory and Research in Organizational Communication. (3)
once a year
Critical review and analysis of the dominant theories of organizational communication and their corollary research strategies. Prerequisite: COM 308 or 309, or instructor approval.
General Studies: SB

W COM 451 Employee Participation Processes in Organizations. (3)
selected semesters
Communication principles and practices associated with employee empowerment, team-based organizing, and similar employee involvement processes. Prerequisite: COM 308 or 309 or instructor approval.

W COM 453 Communication Training and Development. (3)
selected semesters
Examines the procedures and types of communication training and development in business, industry, and government. Prerequisite: COM 308 or instructor approval.

W COM 454 Rhetorical and Critical Approaches to Public Relations. (3)
once a year
An historical and contemporary account of how public relations messages build corporate identities and persuade audiences by shaping public values. Prerequisite: COM 309 or instructor approval.

W COM 456 Political Communication. (3)
selected semesters
Theory and research related to political campaign communication. The persuasive process of political campaigning, the role of the media, the candidate and image creation.

W COM 457 New Media. (3)
once a year
Explores how new communication and information technologies affect communication and culture. Prerequisite: COM 308 or 309.

W COM 463 Cultural and Intercultural Communication Theory and Research. (3)
once a year
Survey and analysis of major theories and research dealing with communication within cultures and between people of different cultural backgrounds. Prerequisite: COM 308 or 309 or instructor approval.
General Studies: SB, G

W COM 465 Intercultural Communication Workshop. (1–3)
selected semesters
Experientially based study of communication among members of different cultures designed to help students improve their intercultural communication skills.

W COM 471 International Communication. (3)
selected semesters
Explores the political, economic, sociocultural, and communicative dimensions of mediated communication across borders and the processes of globalization. Prerequisite: COM 463 or instructor approval.
General Studies: G

W COM 475 Nonverbal Communication Theory and Research. (3)
selected semesters
Critical study of theories and research concerning nonlinguistic aspects of communication. Examines functions of nonverbal behaviors in various communication contexts.

W COM 484 Internship. (1–12)
fall and spring
Supervised field experience. Fee. Prerequisites: 2.80 GPA; senior status; internship director approval; Communication Studies major or Public Relations and Strategic Communications minor.

W COM 494 Special Topics. (1–4)
fall, spring, summer
Topics may include the following:
- Special Events Management

Prerequisite: minimum cumulative ASU GPA of 2.50.

W COM 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Department of Criminal Justice and Criminology

www.west.asu.edu/chs/aoj
602/543-6607
FAB S323

Scott Decker, Chair (beginning fall 2006)
Chester Britt III, Chair (through spring 2006)

Professor: Hepburn

Associate Professors: Bernat, Britt, Decker, Katz, Rodriguez

Assistant Professors: Griffin, Shaffer, Schnebly, Whitlock

The Department of Criminal Justice and Criminology offers the Bachelor of Science degree in Criminal Justice and Criminology and the Master of Arts degree in Criminal Justice to accommodate the needs of one of the most rapidly growing academic and professional fields in the United States.

CRIMINAL JUSTICE AND CRIMINOLOGY—BS

Nature of Program

The program provides a social science, interdisciplinary perspective to the study of the administration of justice. The focus is on the policies and practices of criminal justice system components, including law enforcement, corrections, and the courts. Students are exposed to the criminal law and its origins, patterns, and theories of crime and crime analysis, and to the body of research-based literature that examines and evaluates contemporary criminal justice practice.

The Criminal Justice and Criminology curriculum offers students a solid foundation of courses that provide the content, analytical, and communication skills required for working in complex criminal justice occupations. The program also prepares students to enter into graduate studies and exposes students considering law school to substantive and procedural criminal law.

During their senior year, students are encouraged to complete an internship in a justice-related placement. CRJ 484 Internship in Criminal Justice and Criminology has been designed to provide the student with a well-rounded learning experience in an experiential setting. It involves a three-way partnership among students, the department, and cooperating institutions. It is guided by goals and objectives that are based on the needs and resources of those involved. The intern's goals and objectives are developed with the assistance of the internship coordinator and the cooperating agency supervisor. They represent skills and competencies that can be reasonably accomplished during the internship period.

Career Outlook

The Criminal Justice and Criminology Department provides an interdisciplinary approach to understanding issues related to the field of criminal justice. Societal concern about issues of crime, crime prevention, and victimization necessitate that state and federal money be devoted to the field of criminal justice. Consequently, this field is one of the fastest growing areas of employment.

Graduates of the Criminal Justice and Criminology program find employment in the public and private sectors. Employment opportunities exist in the areas of law enforcement, probation, parole, corrections, private security, court personnel, legal offices, and victim witness advocate agencies. Graduates may also pursue advanced degrees in law and in social science disciplines.

Major Requirements

The 51-semester-hour Bachelor of Science degree program in Criminal Justice and Criminology consists of 24 hours of major core courses, 21 hours of major elective courses, and six hours in a related field. A student must attain a grade of "C" (2.00) or higher in all courses credited toward the major, including courses in the related area. A minimum of 24 upper-division semester hours of course work toward the major must be completed at West campus.

Criminal Justice and Criminology Core Courses

CRJ	100	The Justice System SB	3
CRJ	230	The Police Function	3
CRJ	240	The Correctional Function	3
CRJ	302	Research Methods	3

CRJ	306	Race, Ethnicity, and Justice C	3
CRJ	485	Student Assessment	0
Total			24
Electives*			21
Related field courses*			6
Program total			51

* The 21 semester hours of elective courses in the major and the six hours of courses in related fields must be strategically assembled with appropriate advising to make up a specialty area consistent with the student's intellectual and career interests and objectives.

Community College Courses

Many Criminal Justice and Criminology courses are taught at Arizona community colleges. The transferability of these courses is governed by the course equivalency in effect when the course was taken. This information is maintained in the Course Applicability System–CEG function at az.transfer.org/cas. Community college courses that are equivalent to upper-division CRJ courses apply to the program, if completed with a grade of "C" (2.00) or higher, and should not be repeated at West campus; however, these

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

courses do not count toward the required upper-division semester hours.

West campus courses may have Tempe campus or community college transfer equivalents and should not be repeated at West campus, as shown in the "Criminal Justice Equivalent Courses" table below.

Criminal Justice Equivalent Courses

West Campus	Course Title	Tempe Campus
CRJ 100	The Justice System	—
CRJ 200	Topics in Concepts and Issues of Justice	JUS 200
CRJ 230	The Police Function	JUS 306
CRJ 240	The Correctional Function	JUS 310
CRJ 360	Substantive Criminal Law	—
CRJ 410	Procedural Criminal Law	—
CRJ 442	Community Relations in the Justice System	JUS 320

Other Requirements

Students must complete all university degree requirements (including General Studies program requirements). For descriptive information on these requirements, refer to the "General Studies," page 93.

GRADUATE DEGREES

The faculty in the Department of Criminal Justice and Criminology offer a professional Master of Arts degree in Criminal Justice. For more information, see the *Graduate Catalog*.

CRIMINAL JUSTICE (CRJ)

W CRJ 100 The Justice System. (3)
fall and spring
Overview of the justice system. Roles of law enforcement personnel, the courts, and correctional agencies. Philosophical and theoretical views in historical perspective.
General Studies: SB

W CRJ 200 Topics in Concepts and Issues of Justice. (3)
fall
Uses critical thinking skills to analyze and comprehend controversial social issues. May be repeated for credit when topics vary.
General Studies: SB

W CRJ 230 The Police Function. (3)
fall and spring
Introduces policing in the United States covering the history of police, contemporary police work, and problems in policing.

W CRJ 240 The Correctional Function. (3)
fall and spring
Introduces the structure and function of the corrections system from historical and contemporary perspectives.

W CRJ 302 Research Methods. (3)
fall and spring
Focuses on developing and evaluating research designs, data collection, and the relationship between validity and reliability. Also stresses methods for conducting research. Pre- or corequisite: CRJ 100 or instructor approval.

W CRJ 303 Statistical Analysis. (3)
fall and spring
Introduces the fundamentals and application of descriptive and inferential statistics, with emphasis in the administration of justice area. Pre- or corequisites: CRJ 100 (or instructor approval); the university mathematics requirement.
General Studies: CS

W CRJ 304 Criminology. (3)
fall and spring
Provides a basic overview of the nature, the causes and consequences, and the theories of criminal behavior. Pre- or corequisite: CRJ 100 or instructor approval.

W CRJ 305 Women, Crime, and Justice. (3)
fall and spring
Studies women as offenders, victims, and professionals in the criminal justice system. Pre- or corequisite: CRJ 100.
General Studies: C

W CRJ 306 Race, Ethnicity, and Justice. (3)
fall and spring
Studies minority issues in the criminal justice system. Pre- or corequisite: CRJ 100.
General Studies: C

W CRJ 312 Police and Culture. (3)
once a year
Covers broad concept of culture, theoretical approaches to police subculture, and major themes that characterize police culture (suspicion, danger, solidarity, and isolationism). Prerequisites: CRJ 100, 230.

W CRJ 314 Innovations in Policing. (3)
once a year
Examines current theories and research findings that guide police work, and the practical implications of evaluation within police departments. Prerequisites: CRJ 100, 230.

W CRJ 315 Police Organization and Management. (3)
once a year
Provides a thorough understanding of the structure, processes, and behavior of police organizations. Prerequisites: CRJ 100, 230.

W CRJ 320 The Adjudication Function. (3)
once a year
History and development of courts, trial by jury, and other dispute resolution mechanisms; selection and removal of judges and juries; organization, structure, and jurisdiction of courts; trial and nontrial processes of the judiciary. Pre- or corequisite: CRJ 100.

W CRJ 340 Juvenile Justice. (3)
fall and spring
Critical examination of the history and development of the juvenile court and the juvenile justice system. Pre- or corequisite: CRJ 100.

W CRJ 350 Law and Social Control. (3)
once a year
Resolution of social issues through the application of law as an agent of social control. Nature, sanctions, and limits of law. Categories of law and schools of jurisprudence. Pre- or corequisite: CRJ 100.
General Studies: SB

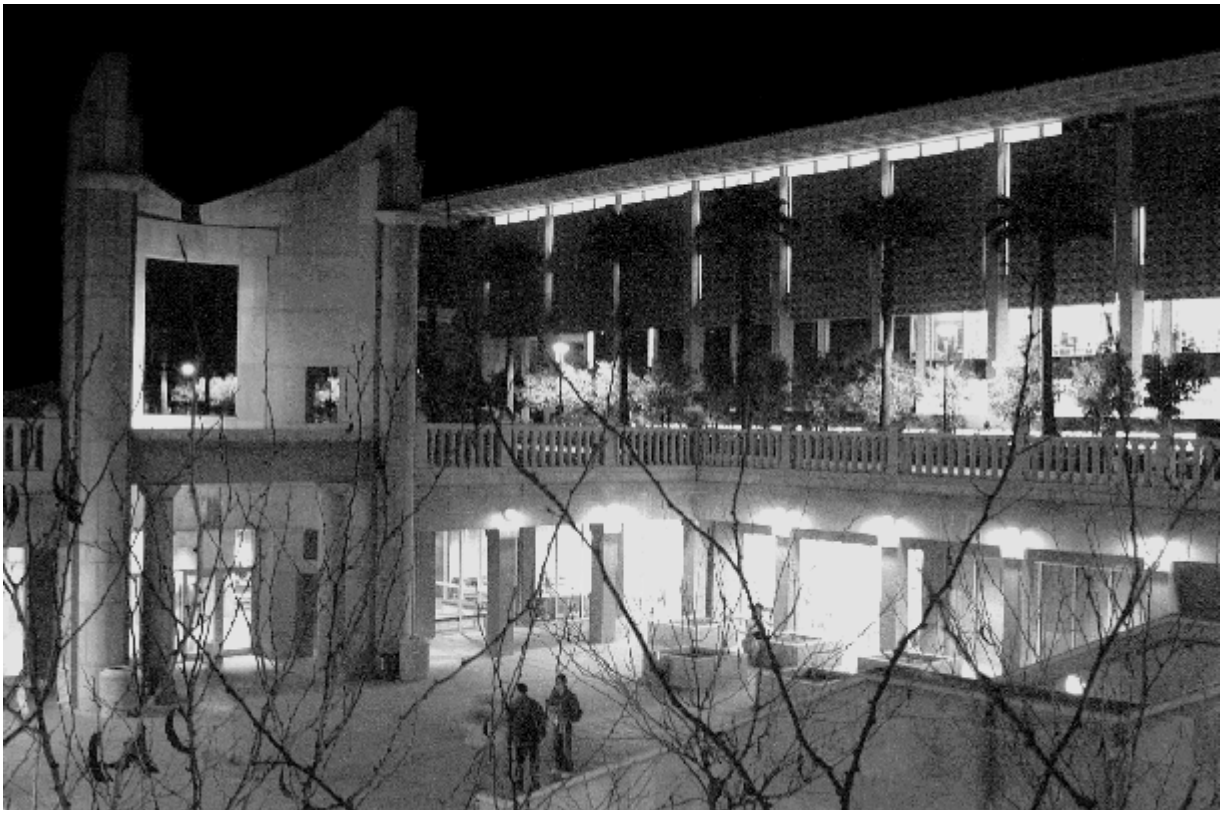
W CRJ 360 Substantive Criminal Law. (3)
fall and spring
Criminal liability. Crimes against persons, property, and society. Governmental sanctions of individual conduct as formulated by legislatures and the courts. Pre- or corequisite: CRJ 100.

W CRJ 410 Procedural Criminal Law. (3)
fall and spring
The criminal process. Constitutional and legal problems associated with arrest, search and seizure, and due process of law. Prerequisite: CRJ 100.

W CRJ 420 Imperatives of Proof. (3)
once a year
Problems and means of establishing identity and fact in relation to arrest, detention, adjudication, sentencing, and correctional case management. Prerequisite: CRJ 100.

W CRJ 430 Correctional Law. (3)
once a year
Studies the rights of inmates and the duties of corrections officials. Prerequisite: CRJ 100, 240.

W CRJ 441 Prevention of Crime and Delinquent Behavior. (3)
once a year
Theories of prevention, individual, group, and community approaches: intervention at appropriate stages; contemporary law enforcement, and corrections practices. Prerequisite: CRJ 100.



Hayden Library illuminated as night falls

Tim Trumble photo

W CRJ 442 Community Relations in the Justice System. (3)
once a year
Focuses on developing an informed plan and policy for incorporating research findings about the surrounding community within various justice services and agencies. Topics include social stratification, minority groups, and victimology. Prerequisite: CRJ 100.

W CRJ 443 Probation and Community Corrections. (3)
once a year
Examines the probation and parole functions as well as the numerous and diverse types of community corrections programs. Prerequisites: CRJ 100, 240.

W CRJ 461 Domestic Violence. (3)
once a year
Legal, historical, theoretical, and treatment aspects of domestic violence, including child abuse, woman battering, incest, and marital rape. Prerequisite: CRJ 100.

W CRJ 462 Gangs. (3)
once a year
Critical examination of the history and development of gangs, including criminal justice system responses to gangs and gang-related behaviors. Prerequisite: CRJ 100.

W CRJ 463 Occupational Crime. (3)
once a year
Overview of major issues in business, professional, and official rule violations. Includes consumer fraud, securities violations, unethical professionalism, and political corruption. Prerequisite: CRJ 100.

W CRJ 464 Organized Crime. (3)
once a year
The nature of organized crime and its illegal activities, theories of containment, and efforts by justice agencies to counter its dominance in society. Prerequisite: CRJ 100.

W CRJ 470 Discretionary Justice. (3)
once a year
Use/abuse, key issues/manifestations of discretion in legal system and other societal institutions. Theoretical/empirical linkages between discretion and discrimination, based on race, ethnicity, and gender. Prerequisite: CRJ 100.
General Studies: L/SB

W CRJ 484 Internship. (1–12)
fall, spring, summer
Assignments in a justice-related placement designed to further the student's integration of theory and practice. Placements are arranged through consultation with students and agencies. May be taken for a total of up to 12 hours credit, of which a maximum of 6 are applied to the major. Students must consult with the program to arrange internships.

W CRJ 485 Student Assessment. (0)
fall, spring, summer
Students may attend a mid-semester information session on the assessment process. At the end of the semester, students take part in a standardized examination and self-administered survey. "Y/E" grade only. Students must register for this class their final semester.

W CRJ 490 Senior Seminar in Criminal Justice. (3)
fall and spring
Covers a variety of topics in the criminal justice system. Content varies with each offering. May be repeated for credit for a maximum of 6 hours. Prerequisite: completion of Criminal Justice and Criminology core courses with a minimum 2.00 GPA.
General Studies: L

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/ quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

W CRJ 499 Individualized Instruction. (1–3)
fall, spring, summer
Original study or investigation in the advanced student's field of interest under the supervision of a faculty member. May be repeated for credit up to a maximum of 6 hours, all applicable to the major. Readings, conferences, tutorials. Prerequisite: CRJ 100.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog,* or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

Gerontology

Interdisciplinary Certificate Program

Associate Professor: Fitzpatrick
Assistant Professors: Bushfield, McCabe
Lecturer: Ealy

Sociology (Tempe Campus)
Professors: Kronenfeld, Kulis
Associate Professors: Keith, Miller-Loessi, Sullivan

The Gerontology Program is a university-wide, multidisciplinary program designed so that students may take course work at any of the four ASU campuses and apply it toward the graduate Certificate in Gerontology or the minor in Gerontology. The program has an affiliated faculty of more than 50 members housed in more than 20 different departments throughout the university. Courses related to aging are taught by faculty who are active contributors to research, theory, and public policy and practice.

Program activities are designed for students who wish to study the psychological, sociological, biological, and policy-related aspects of aging, as well as for those interested in the health, economic, and social concerns of older people. Students study the aging process from multiple perspectives and develop knowledge and skills to prepare them for careers in an aging society. Students may also gain practical experience in working with older adults through field-based experiences and internships.

Since older Americans are becoming an increasing percentage of the population, there is a growing need for professionals with gerontology expertise. This is especially the case in Arizona due to the large number of retirement communities located here. Careers are available in a broad range

of fields, including recreation, social work, nursing, counseling, public policy, and long-term care administration.

MINOR IN GERONTOLOGY

The minor in Gerontology requires 18 semester hours of course work. The Gerontology minor is designed to explore the study of aging from an interdisciplinary perspective. Students select two of the three gerontology core courses and four additional aging-related courses that are approved as electives. The Gerontology Program allows double counting of courses from the student's major in the minor; however, students should consult with their major department to determine if it has more stringent requirements. A 2.50 GPA or higher must be earned in the six courses.

Undergraduates may begin taking courses for the minor upon completion of 56 semester hours with a minimum cumulative GPA of 2.00.

Core Courses

GRN 400 Perspectives on Aging *SB* 3
Choose one of the following courses 3
GRN 420 Health Aspects of Aging *SB*[1] (3)
PGS 427 Psychology of Aging *SB* (3)

Electives

Electives[2] 12

Total 18

[1] An approved course can be substituted.

[2] All courses carrying a GRN prefix can be counted as elective courses in the program. A list of elective courses carrying other disciplinary prefixes that may be used toward completion of the minor and certificate in gerontology is available from the Gerontology Program office.

GRADUATE PROGRAM

The Gerontology Program offers a professional graduate Certificate in Gerontology. Consult the ASU *Graduate Catalog* for information about the program.

For more information, call 602/543-6642, or access the program Web site at www.west.asu.edu/chs/grn.

GERONTOLOGY (GRN)

W GRN 400 Perspectives on Aging. (3)
selected semesters
Broad overview of gerontological issues, including physical aging, retirement, living options, caregiving, theoretical background, death. Cross-listed as W SOC 400. Credit is allowed for only W GRN 400 or W SOC 400.
General Studies: SB

W GRN 420 Health Aspects of Aging. (3)
spring
Examines biological, social, and behavioral aspects of health in the later years. Considers the organization and delivery of care.
General Studies: SB

M GRN 430 Multidisciplinary Approaches to Gerontology. (3)
selected semesters
Examines literature that each discipline brings to the study of gerontology. Covers both theory and practice. Lecture, discussion.
General Studies: SB

M GRN 431 Caregiving. (3)
selected semesters
Examines theory and practice of caregiving for the senior population. Lecture, discussion.

M GRN 440 Aging and Wellness. (3)
selected semesters
One-on-one service/experiential learning with seniors from the community. May be repeated once for credit. Lecture, lab.

M GRN 450 Biology of Aging. (3)
selected semesters
Examines normal biological aging and changes in functional capabilities in the elderly. Lecture, lab.

M GRN 460 Alzheimer's and Related Dementias. (3)
selected semesters
Familiarization with Alzheimer's disease and related dementias from a caregiver's perspective.

W GRN 484 Undergraduate Internship. (3–6)
fall, spring, summer

W GRN 498 Undergraduate Pro-Seminar. (3)
selected semesters

W GRN 499 Undergraduate Individualized Instruction. (3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

FAB S331-1

Shirley Bell, Site Manager

NURSING—BSN

The College of Human Services hosts the ASU College of Nursing Bachelor of Science in Nursing program. Taught by ASU College of Nursing faculty, all upper-division requirements for a nursing degree are offered at West campus.

The Nursing faculty acknowledge their responsibility to health care consumers for the preparation of individuals who provide nursing care of professional quality through teaching, research, and service. Within the context of a liberal education, the undergraduate degree program prepares professional nurses who

1. understand and respond to changing health and social needs and services;
2. influence nursing practice and health care through leadership and participation in professional and sociopolitical activities; and
3. utilize scientific knowledge to advance professional nursing practice.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

The continuing education program provides opportunities for nurses to improve and expand their nursing practice to meet the health care needs of various populations and to further their own professional development.

For information on admission, advising, and degree requirements, see "College of Nursing," page 174, call 480/965-2987, or access the Web site at nursing.asu.edu.

Department of Recreation and Tourism Management

www.west.asu.edu/chs/RTM
602/543-6603
FAB S115A

Wendy Hultsman, Chair

Professors: Andereck, Gitelson, Knopf

Associate Professor: Hultsman

Assistant Professor: Autry

The Recreation and Tourism Management Department offers the Bachelor of Science degree in Recreation and Tourism Management and minors in Recreation Management, Special Events Management, Tourism Management, and Youth Services Leadership for majors outside the department.

RECREATION AND TOURISM MANAGEMENT—BS

Nature of Program

The Recreation and Tourism Management program prepares students for leadership roles in the recreation, park, tourism, and travel management fields. Its primary purpose is to help students acquire the knowledge and perspective they will need to lead these fields through the social, economic, and environmental challenges of the next century.

The program offers a curriculum that places the study of recreation and tourism in a broad, multidisciplinary context. Students will integrate perspectives from such diverse arenas as human development and behavior, law, marketing, strategic planning, urban and regional planning, financing, economic development, social justice, environmental management, human resource management, organizational behavior, and public policy. At the same time, the curriculum emphasizes experiential learning in professional settings to develop the core competencies required for professional-level entry into the recreation and tourism fields.

Students graduating from this program are eligible to sit for the examination to become a Certified Park and Recreation Professional (CPRP) and thereby acquire this valuable credential for professional advancement.

Career Outlook

Recreation and Tourism combined is the second-largest industry in the United States. While no university degree automatically ensures employment, Recreation and Tourism Management graduates who have tailored their programs and work experience to market opportunities have done very well in securing relevant career positions.

Public sector and for-profit recreation operations, resorts, employee recreation, special events, and nonprofit agency recreation services have continued to grow to meet recreation demands. Employment for recreation professionals working with youth, older adults, and other special populations has grown significantly. Strong citizen and government emphasis has recently been placed on how to best use natural resources and how to best plan, design, operate, and maintain these resources.

Employment opportunities are expanding in areas such as resorts, outdoor recreation programs, fitness facilities, private membership clubs, military recreation, camps, and commercial recreation businesses. Federal, state, and local recreation agencies are contracting for many recreation services to handle increased demands they cannot presently meet. There are opportunities for assertive, highly motivated, competent, and innovative graduates to create their own nontraditional jobs. Career opportunities for minority students are good, especially in parks and natural resources where there is significant underrepresentation of minorities. In terms of career opportunities, it is the Recreation and Tourism Management Department's goal to provide the best professional training possible to help our students be leading candidates for jobs upon graduation.

Admission Requirements

Admission to the degree program is based upon the applicant's educational and career goals. The applicant must meet the university and College of Human Services admission requirements.

Application forms are available in the Recreation and Tourism Management department office (FAB S115A; 602/543-6603). The application must be completed and accepted for the student to be considered a Recreation and Tourism Management major.

Major Requirements

The 66-semester-hour Bachelor of Science degree program in Recreation and Tourism Management consists of 42 hours of major core courses, 15 hours of major elective courses, and nine hours of nonmajor elective courses from related areas.

The major core courses include six hours of lower-division courses and 36 hours of upper-division courses.

Core Courses

Lower-Division Core

RTM 120 Leisure and Quality of Life *SB* 3
RTM 210 Leisure Delivery Systems 3
Lower-division total 6

Upper-Division Core

RTM 301 Leadership in Recreation and Tourism 3
RTM 302 Recreation and Tourism for Diverse Populations *C* 3
RTM 303 Programming Recreation and Tourism Services 3

RTM 304 Recreation and Tourism Areas and Facilities Management *L* 3
RTM 401 Administration of Recreation and Tourism Services 3
RTM 402 Evaluation and Assessment in Recreation and Tourism 3
RTM 403 Professional Development Seminar 3
RTM 404 Marketing Recreation and Tourism 3
RTM 484 Senior Internship 12

Core total 42

Major electives[1] 15
Related course work[2] 9

Program total 66

[1] Fifteen hours of elective courses in the major must be strategically assembled to craft a specialty area in recreation or tourism management.

[2] Nine hours of nonmajor course work in related areas must be chosen to enhance development within that specialty area. To achieve these goals, all elective hours within the degree program must be chosen in consultation with a faculty advisor.

Additional Major Requirements

The program requires two hundred hours of professional field experience approved by a faculty advisor, which must be completed and documented before enrollment in RTM 484 Senior Internship. A minimum 2.00 cumulative GPA is required for major courses before enrollment in the internship.

Students may enroll in the internship anytime after completion of RTM 301, 302, 303, and 304 with a grade of "C" (2.00) or higher.

A grade of "C" (2.00) or higher is required for all courses credited toward the 66 semester hours of major courses required by the program.

Students must complete all university degree requirements, including General Studies Program requirements as articulated in the "General Studies Program" section of this catalog.

MINOR IN RECREATION MANAGEMENT

Nature of Program

The minor in Recreation Management is designed to offer students who may choose to work in the field part-time or seasonally a fundamental understanding of recreation programming and management. In addition to the four required courses, which provide a solid groundwork for the field, each student will be able to select electives to meet his or her specific interests.

Minor Requirements

The minor consists of 12 semester hours of required courses and six semester hours of electives. At least 12 semester hours must be completed at the West campus. To earn a minor, students must complete all course work in the minor with a minimum grade of "C" (2.00) or higher. Recreation and Tourism Management majors are not eligible to earn a minor in Recreation Management.

Required Core Courses

RTM 120 Leisure and Quality of Life *SB* 3
RTM 303 Programming Recreation and Tourism Services 3
RTM 304 Recreation and Tourism Areas and Facilities Management *L* 3
RTM 401 Administration of Recreation and Tourism Services 3

Electives

Choose two courses from the following[1, 2] 6
- RTM 210 Leisure Delivery Systems (3)

MINOR IN SPECIAL EVENTS MANAGEMENT

Nature of Program

The minor in Special Events Management is designed to offer students a solid understanding of special event programming and management. In addition to the two-tiered special event courses, which provide basic and advanced instruction, as well as experiential learning opportunities through event production, each student will be able to select electives to meet his or her specific interests.

Minor Requirements

The minor consists of six semester hours of required courses and 12 semester hours of electives selected in consultation with a faculty advisor. At least 12 semester hours must be completed at the West campus in upper-division classes. To earn the minor, students must complete all course work in the minor with a minimum grade of "C" (2.00) or higher.

Recreation and Tourism Management majors are not eligible to earn the minor in Special Events Management.

Required Core Courses

RTM 486 Special Events Management 3
RTM 487 Special Events Management, Advanced 3

Electives

Choose four courses from the following* 12

MINOR IN TOURISM MANAGEMENT

Nature of Program

The minor in Tourism Management is designed to provide students with fundamental knowledge in travel and tourism management. The minor may be useful to students pursuing degrees in Communication Studies, Criminal Justice and Criminology, Global Business, Interdisciplinary Arts and Performance, and Spanish.

Minor Requirements

The minor consists of 18 semester hours, of which 15 semester hours must be at the upper-division level. To earn the minor, students must complete all courses with a minimum grade of "C" (2.00). Recreation and Tourism Management majors are not eligible to earn the minor in Tourism Management.

Required Core Courses

2 Course may be taken as an elective if not selected to fulfill core requirement.

MINOR IN YOUTH SERVICES LEADERSHIP

Nature of Program

The minor in Youth Services Leadership is designed to explore the area of youth leadership from the perspective of those who work face-to-face with youth in a variety of settings.

Minor Requirements

The minor consists of 12 semester hours of core courses and six hours of electives. Of the 18 semester hours of requirements, at least 12 semester hours must be completed in upper-division courses at the West campus. To earn the minor, students must complete all course work in the minor with a minimum cumulative GPA of 2.00 or higher and all courses with a minimum grade of "C" (2.00) or higher.

Required Core Courses

RTM 301 Leadership in Recreation and Tourism 3

HEALTH SCIENCE (HES)

For more HES courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W HES 301 Adult Fitness I. (1)
fall, spring, summer
Physical fitness and benefits of exercise. Emphasizes fitness assessment and designing an individualized assessment program. Y/E grade only. 2 hours a week. Fee.

W HES 302 Adult Fitness II. (1)
fall, spring, summer
Continuation of HES 301. Y/E grade only. 2 hours a week. Fee. Prerequisite: HES 301.

W HES 303 Adult Fitness III. (1)
fall, spring, summer
Continuation of HES 302. Y/E grade only. 2 hours a week. Fee. Prerequisites: HES 301, 302.

W HES 394 Special Topics. (1)
fall and spring
Selected topics in health science, such as Tai Chi and yoga. Y/E grade only.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

RECREATION AND TOURISM MANAGEMENT (RTM)

W RTM 120 Leisure and Quality of Life. (3)
fall and spring
Conceptual foundations for understanding the role of leisure in quality of life, socially, historically, psychologically, culturally, economically, and politically.
General Studies: SB

W RTM 210 Leisure Delivery Systems. (3)
spring
Introduces development, management, and organization of the public, not-for-profit, and private sectors for the leisure services profession.

W RTM 301 Leadership in Recreation and Tourism. (3)
fall
Leadership theory and strategies applied to recreation and tourism settings, emphasizing group dynamics, motivational processes, and supervisory skills.

W RTM 302 Recreation and Tourism for Diverse Populations. (3)
fall
The role of recreation and tourism in serving the needs of culturally, physically, emotionally, mentally, and demographically diverse populations. Involves fieldwork.
General Studies: C

W RTM 303 Programming Recreation and Tourism Services. (3)
spring
Foundations for effective programming of leisure services in public, not-for-profit, and private sectors. Involves fieldwork. Prerequisite: Recreation and Tourism Management major or instructor approval.

W RTM 304 Recreation and Tourism Areas and Facilities Management. (3)
spring
Principles of management, care, function, and maintenance of recreation and tourism areas, facilities, and resources. Field and classroom based.
General Studies: L

W RTM 345 Team Building Strategies. (3)
summer
Explores the concepts and strategies for facilitating team building, self-confidence, and positive self-esteem in situations across the lifespan.

W RTM 360 Policy, Planning, Development of Recreation and Tourism Resources. (3)
spring
Investigates the policy, planning, development, and management practices related to the provision of recreation and tourism opportunities.

W RTM 373 Leisure Travel and Tourism. (3)
fall
Examines leisure travel and tourism, tourist behavior, and the effect of tourism on communities. Prerequisite: ENG 101 or 105.
General Studies: SB

W RTM 401 Administration of Recreation and Tourism Services. (3)
spring
Basic application of management principles to recreation and tourism services. Includes budgeting, personnel actions, legal issues, and public relations. Involves fieldwork. Prerequisite: RTM 210.

W RTM 402 Evaluation and Assessment in Recreation and Tourism. (3)
spring
In-depth development of a program evaluation. Specification of objectives, instrument development and administration, data analysis, and reporting findings. Prerequisite: RTM 210 or instructor approval.

W RTM 403 Professional Development Seminar. (3)
fall
Emphasizes current professional issues and refinement of professional philosophy and competencies that enable transition from student to professional. Prerequisite: Recreation and Tourism Management major.

W RTM 404 Marketing Recreation and Tourism. (3)
fall
Principles of marketing and promotional strategy for recreation and tourism operations. Emphasizes case study experience with leading professionals.

W RTM 450 Leisure and Aging. (3)
spring
Examines the factors influencing leisure among older adults, including policy issues and program service implications. Involves fieldwork.

W RTM 451 Grant Writing for Human Service Professionals. (3)
fall and spring
How to increase grant funding: creating fundable ideas, identifying sponsors, following guidelines, writing effectively, constructing budgets, responding to reviewers.

W RTM 453 Volunteer Management in Human Service Organizations. (3)
fall
Administration of volunteer service programs. Study and analysis of volunteer personnel process.

W RTM 454 Human Services for At-Risk Youth. (3)
spring
Overview of policy and programs affecting at-risk youth; examines risk factors and programmatic solutions to them. Lecture, seminar.

W RTM 458 International Tourism. (3)
fall and spring
Global examination of international tourism and its significance as a vehicle for social and economic development.
General Studies: G

W RTM 475 Entrepreneurial Recreation and Tourism. (3)
spring
Examines the development, management, and future of for-profit ventures in recreation and tourism.

W RTM 484 Senior Internship. (1–12)
fall, spring, summer
Supervised field experience in selected recreation and tourism management enterprises. Prerequisites: Recreation and Tourism Management major or minor; 2.00 GPA in major or minor. Prerequisite for major: all 300-level courses completed.

W RTM 486 Special Events Management. (3)
fall
Principles of programming and managing special events for diverse populations. Class plans, conducts, and evaluates a community special event. Involves fieldwork.

W RTM 487 Special Events Management, Advanced. (3)
spring
Advanced principles of special event sponsorship, public relations, marketing, contracting, risk management, and financial management. Prerequisite: RTM 486 (or COM 494 ST: Special Events Management or RTM 598 ST: Special Events Management) or instructor approval.

W RTM 494 Special Topics. (1–4)
fall, spring, summer
Topics in recreation, parks, and tourism, including commercial recreation, special events management, professional development seminar, management issues in leisure studies, issues in clinical therapeutic recreation, and activities and facilities modification in therapeutic recreation.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Department of Social Work

www.west.asu.edu/chs/sw
602/543-6602
FAB S126

Wendy Hultsman, Interim Chair

Associate Professors: Fitzpatrick, Zorita

Assistant Professors: Bushfield, Farone, Hodge, Langer, McCabe, Nadir

Lecturers: Ealy, Lietz, Montaño

The primary goal of the Social Work Department is to enable students to realize their maximum potential as agents of change and leaders in the social services profession. The department offers the Bachelor of Social Work and the Master of Social Work degree programs.

SOCIAL WORK—BSW

Nature of Program

The goal of the Social Work Department is to train professional social workers for entry-level, generalist practice focused on populations that are most oppressed and most in need of the services social workers offer. A special emphasis is placed on working with diverse groups of the Southwest.

The undergraduate curriculum leads to a Bachelor of Social Work (BSW). Juniors and seniors majoring in Social Work focus on social work courses in social policy and services, human behavior in the social environment, social work practice, research, and field instruction in community agencies. In addition, majors take elective courses in related areas.

The BSW practitioner is a generalist focusing on roles such as advocacy, referral, case management, and problem-solving functions with individuals, groups, families, organizations, and the community.

Career Outlook

The Department of Social Work prepares students for professional generalist BSW practice. Employment in social work is expected to increase commensurately with the needs of a growing and diverse population.

Social Workers are employed in public and private agencies dealing with a wide variety of social issues, including child abuse, foster care, adoptions, health, mental health, aging, delinquency, corrections, family dysfunction, poverty, teen pregnancy, domestic violence, homelessness, AIDS, school-related problems, discrimination, disability, substance abuse, and others. Social work skills such as problem solving, resource utilization, counseling, group work, and community organization are also useful for positions with industry in employee relations and mediation.

Admission Requirements

In order to be considered for admission to the Bachelor of Social Work program, applicants must have

1. completed the university First-Year Composition requirement with a grade of "C" (2.00) or higher;
2. completed the following Social Work courses with a grade of "C" (2.00) or higher:
   a. SWU 171 Introduction to Social Work: Social Problems and Social Justice *SB, H* (3)
   b. SWU 291 Social Service Delivery Systems (3)
3. completed a minimum of 120 hours of volunteer or paid experience in social work related settings;
4. completed the following courses with a grade of "C" (2.00) or higher:
   a. ECN 211 Macroeconomic Principles *SB* (3)
   b. PGS 101 Introduction to Psychology *SB* (3)
   c. PHI 101 Introduction to Philosophy *HU* (3)
   d. POL 110 Government and Politics *SB* (3) or POL 310 American National Government: Ideas and Institutions *SB*, *H* (3)
   e. SOC 101 Introductory Sociology *SB* (3) or SOC 301 Principles of Sociology *SB* (3)
   f. a course in human biology (e.g., LSC 365; M BIO 201)
   g. a course in statistical analysis
   h. a lower-division literacy and critical inquiry course
5. completed and submitted the Social Work Department application packet; and
6. been admitted to the university as a degree-seeking student.

Applications

Students wishing to enter the Social Work program are required to apply for admission to the program in addition to obtaining an official Certificate of Admission to the university. Students are eligible to apply for admission to the Social Work major during the semester they are completing the lower-division requirements listed above.

A student may obtain a Social Work Department application packet at the Department of Social Work office (FAB S126) or request one by mail by calling 602/543-6602.

Criteria for Admission

Admission is based on the following criteria:

1. The applicant must have a minimum cumulative GPA of 2.50.
2. The applicant must provide documentation of the 120 hours of paid experience or volunteer activity. Verification forms are available on the department Web site at www.west.asu.edu/chs/sw.
3. The applicant's educational and career goals must be compatible with the educational objectives of the program.

4. Three references are required for each applicant. Two references should be from individuals who have known the applicant in a professional capacity. The other reference is provided by the either the applicant's SWU 171 or 291 instructor.
5. The applicant must demonstrate physical and emotional capabilities congruent with the functioning of a professional social worker.

Community College Transfer Students. Students who have completed the Associate in Transfer Partnership degree from a Maricopa County Community College or an Arizona Associate of Arts degree with the Social Work common courses, and have a GPA of 2.50 or higher, have completed the lower-division course admission requirements and may apply for admission to the BSW program.

Admission Decision

The BSW Admissions Committee meets each semester to review applications for the upcoming semester.

Students may submit their applications during the semester in which they are completing the lower-division course requirements. Applicants who are in the process of meeting eligibility requirements and are admissible are granted provisional admission status. Upon successful completion of the semester, the BSW program staff determines that all requirements have been met and the applicant is granted full admission status. In the event that all requirements are not met, the applicant is not admitted into the BSW program.

Admission Appeal

Applicants who have been denied admission may request a conference to discuss the decision and to obtain guidance in the development of future plans. Students may appeal the decision to the Standards Committee.

Readmission

Undergraduate students who have previously attended ASU but have not been enrolled at this institution for one or more semesters are required to apply for readmission following university procedures. Students who were previously BSW majors may, in addition, be required to apply for readmission to the program.

Transfer Credit

Direct transfer of courses from other accredited institutions to the Social Work program is subject to the existence of parallel and equal courses in the school's curriculum. Transfer credit is not given for courses in which the lowest passing grade ("D" [1.00]) or a failing grade ("E" [0.00]) was received. Credit for life experience is not given in lieu of course requirements.

Major Requirements

The required Social Work core consists of 48 semester hours.

SWU	171	Introduction to Social Work: Social Problems and Social Justice *SB, H* 3
SWU	291	Social Service Delivery Systems 3
SWU	301	Human Behavior in the Social Environment I *L* 3
SWU	310	Social Work Practice I 3
SWU	331	Social Policy and Services I *H* 3
SWU	402	Human Behavior in the Social Environment II *SB* 3
SWU	410	Social Work Practice II 3

Social Work Elective 3		
Core total 48		

Related Areas. Students are required to take a course in each of the following: a course with a contemporary focus on ethnic minorities of the Southwest (3 hours) and a course with a contemporary focus on women (3 hours).

Program total 54

Field Instruction. Field instruction for the BSW program is offered concurrently with classroom study. Students are assigned to a social service agency and work under the supervision of an experienced and certified social work professional. Field instruction permits testing theory in practice and gives a base of experience to class discussions. Qualified agencies in several Arizona communities are utilized for field instruction.

BSW students work in one placement for 16 hours a week, usually two full days each week, for a total of 480 hours over two semesters. Students are in their field placements at different parts of the school year from January 2 through December 31, excluding university holidays. In assigning the placement, the program takes into account the student's educational needs and career goals. Generalist social workers need to be familiar with the methods of working with individuals, families, and groups, as well as in organizations and communities and with all ages and ethnic groups. The faculty is committed to establishing the capabilities necessary for high-quality, social work generalist practice.

BSW field instruction agencies are located primarily in the Phoenix metropolitan area. Personal transportation is strongly recommended while in field placement.

Graduation Requirements

Social Work majors must file a Declaration of Graduation within the semester that they earn their 81st credit. A minimum of 120 semester hours, a minimum of 50 semester hours in upper-division courses, a minimum of 480 hours in field education, and a minimum GPA of 2.00 are required for graduation with a BSW degree. To be acceptable as graduation credit, all course and field work in the major must show an earned grade of "C" (2.00) or higher.

Academic Policies

In order to remain in good academic standing, students must maintain a minimum cumulative GPA of 2.00 (BSW) at the end of each semester. Most courses in the program are sequential; successful completion of each course in the

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

sequence is required to enroll in the following course. Students may not enroll in any second-year required courses until all foundation courses have been completed successfully.

Retention and Disqualification

Students must maintain a minimum cumulative GPA of 2.00 (BSW). A student is placed on probationary status automatically when (1) the GPA is less than the minimum at the end of any semester or (2) a grade less than "C" (2.00) is received for any major core requirement, regardless of the GPA. Students may also be put on probation for reasons other than grades. See the Policies and Procedures Manual of the Department of Social Work for information on the resolution of probationary status.

Termination from the Program

A student may be terminated from the program under any one of the following circumstances:

1. A student fails to carry out the plan developed during a probationary semester.
2. The student receives an "E" (0.00) grade (failure) in field practicum.
3. The student does not accept or is not accepted by three or more field agencies if, in the judgment of faculty and field staff, the placements can provide appropriate field experiences without undue inconvenience to the student.
4. The student does not adhere to professional expectations and standards (see the ASU Student Code of Conduct, the National Association of Social Workers (NASW) Code of Ethics, and the Council on Social Work Education (CSWE) Curriculum Policy Statement).
5. A student does not demonstrate physical and/or emotional capabilities congruent with the functioning of a professional social worker.

The responsibility for reviewing and determining the qualification of students whose behavior and/or performance are in question is vested in the Academic Standards Committee.

Appeal Procedures

Students who feel they have been unjustly treated in academic or other matters relating to their career as students may appeal by following the guidelines set forth in the "Academic Policies" section of the *BSW Student Handbook*.

Student Responsibilities

Students are expected to support and maintain the highest professional standards as spelled out in the ASU Student Code of Conduct and the NASW Code of Ethics. Regular attendance is expected in all classes and in field education and is a critical factor in evaluation of performance.

GRADUATE DEGREE

The faculty of the Department of Social Work offer a 60-semester-hour professional Master of Social Work degree. The MSW is accredited by the Council on Social Work Education. For more information, see the *Graduate Catalog*.

SOCIAL WORK (GRADUATE) (SWG)

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

SOCIAL WORK (UNDERGRADUATE PROGRAM) (SWU)

For more SWU courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W SWU 171 Introduction to Social Work: Social Problems and Social Justice. (3)
fall
Descriptive and historical perspectives of social problems, social justice issues and society's response to them.
General Studies: SB, H

W SWU 291 Social Service Delivery Systems. (3)
spring
Introduces federal and state social service delivery systems as well as private social service agencies. Explores purpose and structure of community resources. During the semester, students must complete 40 hours of service learning in a social agency. Prerequisite: SWU 171 or instructor approval.

W SWU 301 Human Behavior in the Social Environment I. (3)
fall and spring
Introduces interrelation of bio-psycho-sociocultural systems and their effect on behavior, birth-adolescence, focused on southwestern ethnic and cultural groups. Prerequisite: admission to BSW major.
General Studies: L

W SWU 310 Social Work Practice I. (3)
fall and spring
Introduces social work methods, emphasizing the following skills: relationship development, cross-cultural interviewing, communication patterns, and case-recording. Prerequisite: admission to BSW major.

W SWU 331 Social Policy and Services I. (3)
fall
History, philosophy, and values of social welfare; function and role of social welfare in society; development of the social work profession and practice. Prerequisite: admission to BSW major.
General Studies: H

W SWU 402 Human Behavior in the Social Environment II. (3)
spring
Sequel completing study of life span development and behavior which forms base for social work practice. Prerequisite: SWU 301.
General Studies: SB

W SWU 410 Social Work Practice II. (3)
fall
Introduces generalist social work; major areas of knowledge, values and skills basic to the social work helping process focused on individuals and families. Prerequisites: PHI 101; SWU 301, 310; Social Work major. Corequisites: SWU 412, 413.

W SWU 411 Social Work Practice III. (3)
spring
Applies theoretical frameworks to social work practice at group and community levels. Prerequisites: SWU 410, 412, 413; Social Work major. Corequisites: SWU 414, 415. Pre- or corequisite: SWU 420.

W SWU 412 Field Instruction I. (5)
fall
16 hours a week of supervised practice in an approved placement. "Y/E" grade only. Prerequisite: Social Work major. Corequisites: SWU 410, 413.

W SWU 413 Field Instruction Seminar I. (1)
fall
Field-focused seminar, including practice evaluation. 1.5 hours a week. Prerequisite: Social Work major. Corequisites: SWU 410, 412.

W SWU 414 Field Instruction II. (5)
spring
16 hours a week of supervised practice in an approved placement. "Y/E" grade only. Prerequisites: SWU 410, 412, 413; Social Work major. Corequisites: SWU 411, 415.

W SWU 415 Field Instruction Seminar II. (1)
spring
Field-focused seminar, including practice evaluation. 1.5 hours a week. Prerequisites: SWU 410, 412, 413. Corequisites: SWU 411, 414.

W SWU 420 Practice-Oriented Research. (3)
fall and spring
Applies scientific principles to field practice, problem formulation, intervention procedures, and impact assessment in social work. Prerequisite: SWU 310. Pre- or corequisite: approved course in data analysis techniques or instructor approval.

W SWU 432 Social Policy and Services II. (3)
spring
Contemporary social, political, and economic issues. Special emphasis on poverty and inequality in the Southwest. Analysis and development of social welfare policies and programs. Prerequisite: SWU 331.

W SWU 474 Ethnic/Cultural Variables in Social Work. (3)
fall and spring
Basic conceptual approach to understanding ethnic and cultural variables of southwestern ethnic minorities and how these factors influence social work practice.
General Studies: C

W SWU 494 Special Topics. (1–4)
fall and spring
Topics in social work related to in-depth theory and practice in a specific social work area, including child welfare, gerontology, domestic violence, mental health, disability, culturally-sensitive practice, family intervention, advocacy, crime and delinquency, school-based practice, and others.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Prelaw Minor

www.west.asu.edu/chs/prelaw
602/543-6600
FAB S105

NATURE OF PROGRAM

The Prelaw minor is designed to explore the study of law from an interdisciplinary perspective. Students will take a core of classes that are reflective of courses taken by first-year law students and will enhance a student's critical thinking skills. In addition, students will select elective courses for the minor with assistance from the college's Human Services Advising Office and from a faculty member on the college's Prelaw Advising Committee. In general, the courses selected as prelaw minor electives are those that:

1. enhance the student's critical thinking and writing skills;
2. develop the student's knowledge of the law; and
3. enhance the student's understanding of the social, cultural, historical, economic and political development of the law in our society and the world.

The minor is designed for students who plan to attend law school or who contemplate careers in fields closely related to the legal profession. Students who exhibit exceptional critical thinking and writing skills are highly successful in their legal studies. It is expected that students in the minor will be able to think both logically and creatively about the law and its philosophical basis. In addition, students will be able to effectively apply legal principles to various factual problems, a rudimentary part of the case book method of legal study.

Minor Requirements

The 18-semester-hour minor in Prelaw consists of nine hours of required courses and nine hours of elective courses to be selected with an advisor. Students may not count classes toward both completion of their major and the Prelaw minor.

Core Classes

Choose three of the following courses 9

COM	422	Argumentation, Critical Reasoning and Public Communication *L* (3)
CRJ	360	Substantive Criminal Law (3)
LES	306	Business Law (3)
POL	470	Law and the Political Order *SB* (3)

Electives 9

Total 18

Electives. The nine hours of electives must be strategically assembled from courses that are either reflective of the different types of law they are interested in studying (e.g., business law, civil liberties, criminal law, environmental law, family law, international law, legal history and jurisprudence, and mental health law), or that enable them to develop critical thinking and writing skills. A list of elective courses that may be used toward completion of the minor is available from the College of Human Services Advising Office or from a member of the Prelaw Advising Committee.

New College of Interdisciplinary Arts and Sciences

www.west.asu.edu/newcollege

Emily F. Cutrer, PhD, Dean

PURPOSE

The New College of Interdisciplinary Arts and Sciences offers academic programs that prepare students to take their places as active participants in a rapidly changing social, political, and natural environment. These programs seek to provide students with the skills necessary for independent thinking and effective expression; an understanding and appreciation of diverse cultures past and present; sensitivity to the aesthetic dimensions of human endeavor and the natural environment; and, an appreciation and understanding of scientific perspectives and methods as tools for understanding nature and society. The college's integrating principle or focus is social concern and community engagement.

The college has built a blend of interdisciplinary, integrative, and disciplinary programming that transcends academic boundaries while providing much of the general studies for the campus. The college's teaching and research are guided by a linkage of theory and practice, engaging the local community through service learning activities, internships, and arts programming.

ORGANIZATION

The New College of Interdisciplinary Arts and Sciences is organized into six interdisciplinary departments and three academic programs:

Department of Integrated Natural Sciences
Department of Integrative Studies
Department of Interdisciplinary Arts and Performance
Department of Language, Cultures, and History
Department of Mathematical Sciences and Applied Computing
Department of Social and Behavioral Sciences
Ethnic Studies Program
Religious Studies Minor
Women's Studies Program

DEGREE PROGRAMS

See the "New College of Interdisciplinary Arts and Sciences Baccalaureate Degrees and Majors" table, page 697.

The faculty of the New College of Interdisciplinary Arts and Sciences offer a 30-semester-hour Master of Arts degree in Interdisciplinary Studies. For more information, see the *Graduate Catalog*.

MINORS AND CERTIFICATES

See the "West Campus Minors" table, page 654, and the "West Campus Certificates" table, page 655.

Admission

Any student who is admitted to the university and who wishes to major in an interdisciplinary or disciplinary field offered by the New College of Interdisciplinary Arts and Sciences is admitted to the degree program.

Degree Requirements

All candidates for graduation in the BA and BS degree curricula are required to present at least 120 semester hours, of which at least 50 semester hours must consist of upper-division courses. A minimum cumulative GPA of 2.00 is required for graduation.

In cooperation with their college and faculty advisors, students file a Declaration of Graduation in accordance with the degree requirements. It is the students' responsibility to be aware of the requirements for their degree program and to select courses accordingly.

To graduate, a student must satisfy separate requirements of three kinds:

1. college proficiency requirements for Language and Cultures and Mathematics;
2. university First-Year Composition and General Studies requirements; and
3. major requirements that involve concentrated course work in one program.

Proficiency Requirements

Each student is required to demonstrate proficiency in the analysis of language and cultures and mathematics by passing an examination or by completing the courses

New College of Interdisciplinary Arts and Sciences Baccalaureate Degrees and Majors

Major	Degree	Concentration*	Administered By
American Studies	BA	—	Department of Language, Cultures, and History
Applied Computing	BS	Database systems, network and distributed processing, or digital media and graphic design	Department of Mathematical Sciences and Applied Computing
Applied Science	BAS	Any minor available at the West campus or individualized concentration	Department of Integrative Studies
English	BA	—	Department of Language, Cultures, and History
Ethnicity, Race, and First Nations Studies	BA	—	Ethnic Studies Program
History	BA	—	Department of Language, Cultures, and History
Integrative Studies	BA	Any minor available at the West campus or individualized concentration	Department of Integrative Studies
Interdisciplinary Arts and Performance	BA	—	Department of Interdisciplinary Arts and Performance
Life Sciences	BS	—	Department of Integrated Natural Sciences
Political Science	BA, BS	—	Department of Social and Behavioral Sciences
Psychology	BA, BS	—	Department of Social and Behavioral Sciences
Social and Behavioral Sciences	BA, BS	—	Department of Social and Behavioral Sciences
Sociology	BA, BS	—	Department of Social and Behavioral Sciences
Spanish	BA	—	Department of Language, Cultures, and History
Women's Studies	BA, BS	—	Women's Studies Program

* If a major offers concentrations, one must be selected unless noted as *optional*.

specified below with a grade of "C" (2.00) or higher in each course.

Students considering graduate work after completion of a bachelor's degree should consult with faculty advisors regarding language requirements in their intended areas of study.

Language and Cultures. This requirement may be satisfied through one of the following:

1. completion of secondary education at a school in which the language of instruction is not English;
2. completion of a language course at the intermediate level (202 or equivalent), including American Sign Language IV;
3. completion of upper-division course(s) taught in a foreign language, taken in the United States or the relevant country;
4. completion of six semester hours of upper-division courses that have a Global Awareness (G) or Cultural Diversity in the U.S. (C) designation, in addition to the courses used to meet the University General Studies requirements; or
5. completion of two sequential semesters of course work in a current computer language. Contact the college Advising Office for information on applicable course work.

Mathematics. MAT 142 or any MAT course for which MAT 117 or a higher level MAT course is a prerequisite.

Major Requirements

Each student is required to select a major from among the programs offered by the New College of Interdisciplinary Arts and Sciences. The requirements for completion of the major are described under department listings.

The major program may require up to 45 semester hours of course work. The minimum is 30 hours. A maximum of 18 additional hours may be required in related courses and

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

prerequisites. No more than 63 semester hours of course work may be required to complete the major, related courses, and prerequisites. A minimum of 12 upper-division semester hours in the major must be taken in campus resident credit.

No credit is granted toward fulfilling major or minor requirements in any upper-division course in the subject field of the major unless the grade in that course is at least a "C" (2.00). Normally a "Y" (satisfactory) grade needs confirmation that it is equivalent to a "C" (2.00) or higher.

General Electives

Once the three kinds of requirements have been satisfied, the remainder of the minimum of 120 semester hours required for graduation are general electives. Contact college advisors for assistance in selecting elective courses.

Ethnic Studies Program

FAB N205A

Gloria H. Cuádraz, Director

ETHNICITY, RACE, AND FIRST NATIONS STUDIES—BA

Nature of the Program

The purpose of the Bachelor of Arts degree in Ethnicity, Race, and First Nations Studies is to provide an integrated comparative and comprehensive approach to the study of diversity among ethnic and racial groups and first nations. Most traditional ethnic studies programs offer degrees based on one major ethnic group, whereas the approach we propose fills a void by emphasizing interdisciplinary and comparative approaches to the study of ethnic and racial groups and first nations in one degree program.

Course work in the Ethnicity, Race, and First Nations Studies program incorporates a framework that fosters the study of ethnicity, race, and first nations across the curriculum. Both theoretical and applied perspectives are embedded in a curriculum that addresses how ethnicity, race, and first nations shape identities, literacies, public policies, and communities in local and transnational U.S. contexts.

Students will identify a career area that will enable them to integrate their knowledge in ethnicity, race, and first nations with specific course work tied to their career and advanced educational goals. The incorporation of research methods and information competency places graduates at a significant advantage in acquiring jobs in the state and local labor markets. Students participate in high quality community experiences where they apply skills and knowledge attained in the classroom to ethnically diverse public and private work settings.

Student Outcomes

The Ethnicity, Race, and First Nations Studies program prepares graduates with the following knowledge and skills:

1. an interdisciplinary and comparative understanding of ethnicity, race, and first nations in the U.S.;
2. knowledge of the various theoretical frameworks employed in the study of ethnicity, race, and first nations;
3. an understanding of how ethnicity, race, and first nations shape identities;
4. an understanding of how ethnicity, race, and first nations shape literacies and information competencies;
5. an understanding of how ethnicity, race, and first nations shape communities and public policies;
6. an understanding of how ethnicity, race, and first nations shape orientations to issues spanning local and transnational U.S. contexts;
7. effective skills in technological literacy and information competency;
8. effective critical writing;
9. an ability to marshal evidence and argue a central thesis effectively in written assignments;
10. effective oral communication; and
11. an ability to apply knowledge and understanding of ethnicity, race, and first nations to real world problems and issues.

Career Outlook

Rapid socioeconomic change, changing demographics, increased global competition, and rapid cultural diversification have created an increasing need for workers and citizens knowledgeable about diverse ethnic and racial groups. Graduates of the undergraduate program in Ethnicity, Race and First Nations Studies will be positioned to enter the workforce and function effectively and critically as informed citizens in a diverse and complex society.

Major Requirements

The degree program requires 45 semester hours. The major consists of

1. 12 semester hours of core requirements,
2. 24 semester hours of cluster requirements, and
3. nine semester hours in a career-focused area.

Core Requirements

ENG 317 Cross-Cultural Writing *L/HU, G* 3
ETH 300 Principles of Ethnic Studies *C* 3
ETH 310 Research Methods in Ethnic, Racial, and First Nations Populations *SB* 3
ETH 484 Ethnic Studies Internship 3

Cluster Requirements[1]

Choose two of the following for identity matters credit 6

AMS 330 Introduction to American Lives *HU* (3)
ENG 476 Folklore in Everyday Life *HU* (3)
ETH 100 Introduction to Ethnic Studies *SB, C* (3)
IAS 220 Psychology, Multicultural Narratives, and Religion *L/HU, C* (3)
IAS 420 Multicultural Autobiographies *L/HU, C* (3) or ENG 420 Multicultural Autobiographies *L/HU, C* (3)

SBS 301 Cultural Diversity *L/SB, C* (3)
SBS 410 TIID: Introduction to Asian American Experiences (3)
WST 370 Chronicling Women's Lives *HU, C* (3)
WST 473 Latina/Chicana Representation *SB, C* (3)
Other approved course (3)

Choose two of the following for literacy matters credit 6
ENG 353 African American Literature: Beginnings through the Harlem Renaissance *L/HU, C* (3)
ENG 354 African American Literature: Harlem Renaissance to the Present *L/HU, C* (3)
ENG 359 American Indian Literature *L/HU, C* (3)
ENG 363 Chicano Literature *HU, C* (3)

or WST 467 Ethnic Women Writers *L/HU, C* (3)
ENG 462 Africana Literature *HU, G* (3)
ENG 463 African-American Literature *HU, C* (3)
IAP 464 Media and Diversity (3)
Other approved course (3)

Choose two of the following for community and policy matters credit 6
AMS 327 Regional Cultures (3)
AMS 428 Chicano Cultures in the Southwest *SB* (3)
ASB 442 Urban Anthropology *SB* (3)
HIS 331 American Indians (3)
IAS 407 Environmental Philosophy and Policy *L/HU* (3)
or PHI 407 Environmental Philosophy and Policy *L/HU* (3)
POL 320 Latino Politics *SB, C* (3)
SOC 370 Racial and Ethnic Minorities *SB, C* (3)
WST 300 Women in Contemporary Society *SB, C* (3)
WST 350 Race, Class, and Gender *SB, C* (3)
Other approved course (3)

Choose two of the following for transitional matters credit 6
ASB 340 Migration and Culture *SB, G* (3)
ASB 440 Women in the Global Factory *SB, G* (3)
HIS 454 History of Genocide *G, H* (3)
HIS 462 The African Diaspora *G, H* (3)
HIS 465 Origins of Racism *G, H* (3)
POL 430 Race and Politics in the Americas *SB, C* (3)
SOC 324 Work and the Workplace *SB, H* (3)
WST 390 Women and World Religions *L/SB, G* (3)
WST 475 Women of the Diaspora Across Cultures *HU, G* (3)
Other approved course (3)

Career Focus

Choose courses from the following areas[2].....9
Arts and music
Business
Education and teaching
Health
Law
Policy and public sector
Spanish
Science and technology
Social entrepreneurship

Program total.....45

[1] Select two courses from each cluster; one course from each cluster may be lower-division for a maximum of 12 semester hours of lower-division courses.

[2] These courses must be chosen in consultation with a faculty advisor.

Minor and Certificate in Ethnic Studies

Nature of the Programs. The minor and certificate in Ethnic Studies explore the study of ethnicity within the United States. The programs are designed to foster direct linkages between the university and community through student participation in community-based internships. With an emphasis on service learning that combines the acquisition of analytical skills from classroom instruction and work experience gained through community-based organization internships, students are placed at a significant advantage in acquiring jobs in the state and local labor market.

Courses in the Ethnic Studies minor and certificate are designed to

1. address theoretical, analytical, and practical issues relevant to understanding race, culture, and ethnicity in American society from a comparative and interdisciplinary perspective;
2. enhance the student's critical thinking and writing skills through the study of ethnicity in the U.S.;
3. develop more effective skills for working in diverse communities through integration of service-learning experiences in course content; and
4. create collaborations among faculty, students, and community members to address concrete issues facing racial and ethnic groups in the United States.

This minor and certificate are designed for students who plan to work and live in ethnically diverse communities and seek to acquire the skills for understanding the complexities of race, class, and gender at a local or national level. It is expected that students in the minor and certificate programs will be able to think both analytically and creatively about ethnicity in the United States. The minor or certificate is strongly recommended for students who plan to enter a wide variety of jobs in business, the health professions, the criminal justice system, social services, education, public relations, community development, public policy, or government. It is also valuable for students preparing for further graduate study.

Minor in Ethnic Studies

The minor consists of 21 semester hours, 15 of which must be at the upper-division level. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline. Up to three semester hours of individualized instruction may be applied toward the minor. All courses must be passed with a minimum grade of "C" (2.00).

Required Courses

ETH 300 Principles of Ethnic Studies *C* 3
ETH 484 Ethnic Studies Internship 3
Electives* 15

Total 21

* These courses must be chosen from the approved ethnic studies course list in consultation with the ethnic studies advisor.

Certificate in Ethnic Studies

The Certificate Program is recommended for graduate students, nondegree students, and students with majors in professional programs. A certificate in Ethnic Studies is awarded for successful completion of 21 semester hours, including ETH 300 and 18 semester hours of elective courses from the approved course list.

ETHNIC STUDIES (ETH)

W ETH 100 Introduction to Ethnic Studies. (3)
fall and spring
Undertakes an introductory comparative analysis of ethnic groups to understand cultural diversity within the United States.
General Studies: SB, C

W ETH 300 Principles of Ethnic Studies. (3)
fall and spring
Familiarizes students with a range of analytical and theoretical frameworks in the field of ethnic studies.
General Studies: C

W ETH 310 Research Methods in Ethnic, Racial, and First Nations Populations. (3)
spring
Examines analytical tools and methodological approaches (ethnography, oral histories, digital-storytelling, information literacy) to study ethnic, racial, and first nations populations.
General Studies: SB

W ETH 484 Ethnic Studies Internship. (3)
fall, spring, summer
Seminar with structured practical experience in the field and/or in community organizations.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Department of Integrated Natural Sciences

www.west.asu.edu/dins
602/543-6050
CLCC 217

Douglas Dennis, Chair

Professors: Dennis, Sullivan

Associate Professor: Deutch

Assistant Professors: Boorse, Harrington, Johnson, Jurutka, Marshall, Morse, Solis

The Department of Integrated Natural Sciences offers an interdisciplinary Bachelor of Science degree and minor in Life Sciences. In addition, the department offers a strong prehealth/premedical curriculum for students who intend to pursue a career in the health professions.

LIFE SCIENCES—BS

Nature of Program

The intricate connections between biology, chemistry, geology, and physics form the basis of the Integrated Natural Sciences curriculum. The department is heavily invested in experiential learning and all required core courses have laboratories. Because of this focus on hands-on learning, students will find that they will be competitive in their career aspirations, whether it is in the health field, in an environmental discipline, or pursuing a graduate degree. Students will also find that by learning in an integrative environment that emphasizes the connectedness between disciplines, they will possess a better understanding of larger scientific concepts and will be able to view these concepts from multiple perspectives. The department emphasizes doing as a way of learning and supports undergraduates in conducting independent research under the mentorship of faculty members or in internships outside of the department. Students are encouraged to consider both of these opportunities.

Path to Health Field Careers

Medical colleges base admission decisions on a variety of factors, including GPA, the courses a student has taken, scores in required national exams, extracurricular activities, quality of letters of recommendation, and hands-on experience. All medical colleges in the United States have extensive science prerequisites, including lower-division courses in biology, chemistry, and physics. Many medical colleges have additional course requirements, often including courses in communication, math, or psychology as well as upper-division biochemistry or biology courses. The Health Professions Advisory Committee in the Integrated Natural Science department aids students in preparing for a career in the health field by informing them of the particular entrance requirements of each school. In addition, the committee guides students in the best strategies to strengthen their application and prepare for national exams. Students who are considering a health-related career that requires professional training are strongly urged to consult with the chair of the Health Professions Advisory Committee as soon as they enter the university.

Information on the committee and on applying to health professional schools can be found at the Integrated Natural Sciences Web site at www.west.asu.edu/dins.

Career Outlook

A degree in Life Sciences provides broad training in laboratory, data-gathering, writing, communication, quantitative, problem-solving, and critical thinking skills that prepare students for a wide variety of careers. Graduates may enter careers in laboratory or field research, business, scientific journalism, publishing, teaching, and medicine. Laboratory technician or research associate positions are available in university and government research laboratories, hospital and diagnostic laboratories, and pharmaceutical, biotechnology, agricultural, and food processing companies. Laboratory experience at the undergraduate level, available in laboratories on and off campus, will enhance employability in these areas. Students who emphasize field studies may prepare themselves for entry level positions in private companies as well as state and federal agencies. These positions include wildlife biologist, environmental consultant, and conservation officer. Participation in internships in government agencies or private companies as an undergraduate will provide the student with experience valuable to

potential employers. The Bachelor of Science in Life Sciences degree is appropriate for students who wish to enter master's and doctoral programs in basic or applied areas of biology.

Special Grading Options

The Department of Integrated Natural Sciences grades internships (484), pro-seminars (498), and individualized instruction (499) on a satisfactory/fail basis. Students who successfully complete these experiences receive a "Y" grade. Such grades are acceptable for meeting program requirements, but these grades are not computed in the GPA.

Major Requirements

The Bachelor of Science in Life Sciences consists of 20 semester hours of core courses, 18 semester hours of distribution courses, and 32 to 33 semester hours of cognate courses. The cognate courses are integral for the understanding of biology, but are not biology courses. The core courses provide a firm foundation for further study in the discipline, while the distribution courses ensure that students maintain breadth in their upper-division studies.

A grade of "C" or higher is required for all course work taken to fulfill major requirements.

Core Courses

BIO 187 General Biology I *SG* 4
BIO 188 General Biology II *SQ* 4
LSC 320 Fundamentals of Ecology 3
LSC 322 Fundamentals of Ecology Laboratory 1

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

CHEMISTRY (CHM)

For more CHM courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W CHM 101 Introductory Chemistry. (4)
spring
Elements of general chemistry. Designed for nonmajors. Credit is allowed for only CHM 101 or 107. 3 hours lecture, 3 hours lab. Fee.
General Studies: SQ

W CHM 113 General Chemistry. (4)
fall
Principles of chemistry. Adapted to the needs of students in the physical, biological, and earth sciences. Credit is allowed for only CHM 113 or 117. 3 hours lecture, 1 hour discussion, 2 hours lab. Fee. Prerequisite: MAT 106 (or 3 semesters of high school algebra). 1 year of high school chemistry recommended.
General Studies: SQ

W CHM 115 General Chemistry with Qualitative Analysis. (5)
spring
Continuation of CHM 113. Equilibrium theory; chemistry of metals, nonmetals, and metalloids; introduction to organic chemistry. Lab includes qualitative analysis. Credit is allowed for only CHM 115 or 116 or 118. 3 hours lecture, 2 hours discussion, 4 hours lab. Fee. Prerequisite: CHM 113 or 2 years of high school chemistry.
General Studies: SQ

W CHM 331 General Organic Chemistry Lecture I. (3)
fall
Chemistry of organic compounds. Prerequisite: CHM 115.

W CHM 332 General Organic Chemistry Lecture II. (3)
spring
Continuation of CHM 331. Prerequisite: CHM 331.

W CHM 335 General Organic Chemistry Laboratory I. (1)
fall
Microscale organic chemical experiments in separation techniques, synthesis, analysis and identification, and relative reactivity. 4 hours lab. Fee. Corequisite: CHM 331.

W CHM 336 General Organic Chemistry Laboratory II. (1)
spring
Continuation of CHM 335. 4 hours lab. Fee. Prerequisite: CHM 335. Corequisite: CHM 332.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

GEOLOGICAL SCIENCES (GLG)

For more GLG courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W GLG 110 Geological Disasters and the Environment. (3)
spring
Geological studies as they apply to interactions between humans and earth. Includes geological processes and hazards, resources, and global change.
General Studies: G, SG (if credit also earned in GLG 111)

W GLG 111 Geological Disasters and the Environment Laboratory. (1)
spring
Basic geological processes and concepts. Emphasizes geology-related environmental problems concerning Arizona. Case histories and field studies. Fee.
General Studies: SG (if credit also earned in GLG 110)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

LIFE SCIENCES (LSC)

W LSC 300 Modes of Biological Thought. (3)
selected semesters
Involves students in the process of biological discovery to examine how we identify truth in biological science. Prerequisites: BIO 188; ENG 101 (or 105).
General Studies: L

W LSC 301 Life Sciences: History and Method. (4)
selected semesters
Integrates philosophy, history, and methods of the life sciences. Includes issue of under representation of minorities in science. Lecture, lab.
General Studies: SG

W LSC 307 Comparative Plant Diversity. (4)
spring
Systematic and evolutionary survey of the plant kingdom, emphasizing diversity of gross and cellular structure, reproduction, life cycles, and habitat. 3 hours lecture, 3 hours lab. Fee. Prerequisites: ENG 101 (or 105); BIO 100 (or 188 or its equivalent).

W LSC 308 Plant Physiology. (4)
fall
Concepts of plant function: carbon metabolism, energy acquisition, regulation of growth and development, stress responses, and water and nutrient uptake. 3 hours lecture; 3 hours lab. Fee. Prerequisite: LSC 353.

W LSC 309 The Flora of Arizona. (4)
spring
Principles of taxonomy; identification of Arizona plants. 2 hours lecture, 6 hours lab. Fee. Prerequisites: BIO 187, 188.

W LSC 310 Natural History of Arizona. (3)
fall and spring
Plant and animal communities of Arizona. Cannot be used for major credit in the biological sciences.
General Studies: SG (if credit also earned in LSC 311)

W LSC 311 Field Natural History. (1)
fall and spring
Organisms and their natural environment. Cannot be used for major credit in the biological sciences. Lab, weekly field trips, field project. Fee. Pre- or corequisite: LSC 310.
General Studies: SG (if credit also earned in LSC 310)

W LSC 320 Fundamentals of Ecology. (3)
fall
Organization, functioning, and development of ecological systems; energy flow; biogeochemical cycling; environmental relations; population dynamics. Prerequisite: BIO 188 or instructor approval.

W LSC 322 Fundamentals of Ecology Laboratory. (1)
fall
Investigational field course on fundamental concepts in ecology. 3 hours lab. Fee. Prerequisite: BIO 188; CHM 115. Corequisite: LSC 320.

W LSC 330 Pollution vs. Protection: Counting the Cost. (3)
spring
Compares the economic costs and global consequences of permitting versus preventing pollution.
General Studies: G

W LSC 342 Hormones and Behavior. (3)
selected semesters
Examines the short-term and long-term effects of hormones on the behavior of animals, including humans. Prerequisite: BIO 188.

W LSC 345 Organic Evolution. (3)
selected semesters
Processes of adaptive change and speciation in sexual populations. Prerequisite: BIO 188.

W LSC 347 Fundamentals of Genetics. (3)
spring
Science of genetics, gene flow, and genetic engineering in humans and other organisms. Prerequisites: BIO 187, 188; CHM 113, 115.

W LSC 348 Fundamentals of Genetics Laboratory. (1)
spring
Investigational lab using modern molecular techniques to analyze various genetic phenomena. 3 hours lab. Fee. Corequisite: LSC 347.

W LSC 350 Premedical Professional Seminar. (3)
fall and spring
An opportunity for students who anticipate a career in any area of medicine to explore the realities of the field. Prerequisites: LSC 353, 347; instructor approval.

W LSC 351 Developmental Anatomy. (3)
selected semesters
General developmental biology (embryology) and comparative structure of organ systems, illustrated mainly by vertebrate examples. Prerequisite: BIO 188.

W LSC 353 Cell Biology. (3)
fall
Surveys major topics in cell biology, including structural, biochemical, and molecular aspects of cell function. Prerequisite: BIO 187, 188; CHM 113, 115.

W LSC 355 Cell Biology Laboratory. (1)
fall
Investigational lab using modern molecular and cellular techniques to analyze molecular, biochemical, and anatomical traits of cells. 3 hours lab. Fee. Corequisite: LSC 353.

W LSC 358 Animal Physiology Lecture. (3)
fall and spring
Physiological mechanisms of the higher vertebrates. Prerequisites: BIO 188; CHM 115; MAT 117.

W LSC 359 Animal Physiology Laboratory. (1)
fall and spring
Investigative lab experience using animals (including humans) and models. 3 hours lab. Fee. Prerequisites BIO 187, 188; CHM 115; MAT 117. Corequisite: LSC 358.

W LSC 360 The Biology of Human Experience. (3)
selected semesters
Introduces the evolutionary origins and characteristics of humans as they are reflected in morphology, physiology, ecology, and behavior. Prerequisite: BIO 188.

W LSC 361 Human Sexual Biology. (3)
selected semesters
Human sexuality from a biological and integrative perspective, including comparisons to other vertebrates and examination of social, behavioral, and physiological factors. Cannot be used for major credit in the biological sciences.

W LSC 362 The Human Environment. (3)
selected semesters
Evolution of humans' physiological, ecological, and behavioral interaction with their environment.

W LSC 363 Genes, Race, Gender, and Society. (3)
selected semesters
Examines biological events and theories on race and gender and their interface with societal views. Prerequisites: BIO 187, 188, 340 (LSC 347).

W LSC 365 The Human Organism. (4)
fall
Analyzes human anatomy, physiology, and behavior in an ecological and evolutionary context with the methods of comparative biology. 3 hours lecture; 3 hours lab. Fee.
General Studies: SG

W LSC 366 Principles of Biochemistry. (3)
fall and spring
Structures, properties, and functions of proteins, enzymes, nucleic acids, carbohydrates, and lipids; the utilization and synthesis of these materials by living systems; and the relationship of these processes to energy production and utilization. Prerequisite: an organic chemistry course.

W LSC 367 Elementary Biochemistry Laboratory. (1)
fall and spring
Quantitative analysis of constituents of biological systems, enzyme assays, protein purification, and metabolic studies. 3 hours lab. Fee. Corequisite: LSC 366.

W LSC 370 Vertebrate Zoology. (4)
spring
Characteristics, classification, evolution, and natural history of the major groups of vertebrate animals. 3 hours lecture, 3 hours lab. Fee. Prerequisite: BIO 188.

W LSC 380 Medical Parasitology. (3)
selected semesters
Parasitic diseases of humans, including life cycle events and clinical manifestations. Prerequisite: BIO 385 or LSC 353 or instructor approval.

W LSC 385 Invertebrate Zoology. (4)
selected semesters
Characteristics, life cycles, adaptations, and evolution of invertebrate animals. 3 hours lecture, 3 hours lab. Fee. Prerequisite: BIO 188 or instructor approval.

W LSC 408 Population Biology. (3)
spring
Theoretical and applied aspects of distribution and abundance, population regulation, genetic flow, and interactions among populations, including humans. Prerequisites: LSC 320.

W LSC 410 Techniques in Wildlife Conservation Biology. (3)
selected semesters
Field and analytical techniques used in evaluating population structure, viability and environmental impacts. Lecture, lab. Fee. Prerequisites: BIO 188; ENG 101 (or 105). LSC 320, 347 recommended.
General Studies: L

W LSC 415 Biometry. (4)
fall
Statistical methods applied to biological problems, design of experiments, estimation, significance, analysis of variance, regression, correlation, chi square, and bioassay; the use of computers. 3 hours lecture, 3 hours lab. Prerequisite: MAT 210.
General Studies: CS

W LSC 422 Introductory Immunology. (3)
selected semesters
Fundamental concepts in research and medicine. Cellular immunity, antibody and antigen, immunogenetics, immunoregulation, hypersensitivity, clinical immunology, and nervous-immune system interactions. Prerequisites: CHM 231 (or 331); LSC 353 (or instructor approval).

W LSC 430 Environmental and Human Toxicology. (4)
selected semesters
Lecture/fieldwork course investigating toxic substances in the environment and their effect on the health of organisms, including humans. Prerequisites: BIO 188; CHM 113, 115.

W LSC 432 Basic Pharmacology. (3)
selected semesters
Aspects of pharmacology using an integrated approach to familiarize students with natural and synthetic therapeutic agents used in

medicine. Prerequisite: either LSC 353 or both LSC 358 and 359 or only instructor approval.

W LSC 434 Marine Ecology. (3)
selected semesters
Examines ecological processes in oceans, seas, and estuaries that emphasizes species- and community-level phenomena. Prerequisite: LSC 320.

W LSC 443 Molecular Genetics. (3)
selected semesters
Nature and function of the gene; emphasizes the molecular basis of inheritance and gene expression in prokaryotes and eukaryotes. Prerequisites: LSC 347; a course in organic chemistry.

W LSC 444 Fundamentals of Microbiology. (3)
fall
Overview of microorganisms; their anatomy, physiology, genetics, metabolic diversity, and ecological significance. Not open to students with credit in MIC 205. Prerequisite: LSC 353.

W LSC 445 Fundamentals of Microbiology Laboratory. (1)
fall
Principles and lab techniques used in culturing, identifying, and analyzing microorganisms. Not open to students with credit in MIC 206. 3 hours lab. Fee. Corequisite: LSC 444.

W LSC 447 Molecular Genetics Laboratory. (1)
selected semesters
Investigative lab involving DNA isolation, PCR, gel electrophoresis, enzyme digestion and ligation, transformation, and hybridization analysis. 3 hours lab. Fee. Pre- or corequisite: LSC 443.

W LSC 450 Premedical Externship. (3)
fall and spring
Provides hands-on experience in a hospital setting for premedical students. Prerequisite: BIO 188. Pre- or corequisites: LCS 350; instructor approval.

W LSC 453 Animal Histology. (4)
selected semesters
Microscopic study of animal tissues. 3 hours lecture; 3 hours lab. Fee. Prerequisites: BIO 187; LSC 353 (or instructor approval).

W LSC 471 Ornithology. (3)
selected semesters
The biology of birds. 2 hours lecture, 3 hours lab, weekend field trips. Fee. Prerequisite: LSC 370 or instructor approval.

W LSC 473 Ichthyology. (3)
selected semesters
Systematics and biology of recent and extinct fishes. 2 hours lecture, 3 hours lab or field trip, weekend field trips required. Fee. Prerequisites: ENG 101 (or 105); LSC 370 (or instructor approval).
General Studies: L

W LSC 474 Herpetology. (3)
selected semesters
Systematics and biology of recent and extinct reptiles and amphibians. 2 hours lecture, 3 hours lab or field trip. Fee. Prerequisite: LSC 370 or instructor approval.

W LSC 482 Methods of Teaching Biology. (3)
fall
Methods of instruction, experimentation, organization, and presentation of appropriate content in biology. Fee. Prerequisite: 20 hours in the biological sciences.

W LSC 484 Internship. (1–6)
fall, spring, summer
Opportunities for students to pursue interests they develop in course work. Especially appropriate for applied aspects of science. Prerequisite: department chair approval.

W LSC 489 Capstone Course in Integrated Natural Sciences. (1)
selected semesters
Integrates the core curriculum and makes connections between the science and careers/graduate school. Prerequisite: at least 28 semester hours in the major.

W LSC 498 Pro-Seminar. (1–7)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

PHYSICS (PHY)

For more PHY courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W PHY 101 Introduction to Physics. (4)
selected semesters
Emphasizes applications of physics to life in the modern world. Presumes understanding of elementary algebra. 3 hours lecture, 1 hour recitation, 2 hours lab. Fee.
General Studies: SQ

W PHY 111 General Physics. (3)
fall
Noncalculus treatment of the principles of physics for nonphysics majors. Students whose curricula require a lab course must also register for PHY 113. Prerequisite: trigonometry.
General Studies: SQ (if credit also earned in PHY 113)

W PHY 112 General Physics. (3)
spring
Continuation of PHY 111. Students whose curricula require a lab course must also register for PHY 114. Prerequisite: PHY 111.
General Studies: SQ (if credit also earned in PHY 114)

W PHY 113 General Physics Laboratory. (1)
fall
Elementary experiments in physics. Requires outside preparation for experiments and report writing. May be taken concurrently with, or subsequent to, PHY 111. 2 hours lab, 1 hour recitation.
General Studies: SQ (if credit also earned in PHY 111)

W PHY 114 General Physics Laboratory. (1)
spring
See PHY 113. May be taken concurrently with, or subsequent to, PHY 112. 2 hours lab.
General Studies: SQ (if credit also earned in PHY 112)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Department of Integrative Studies

www.west.asu.edu/ias
602/543-6003
FAB N279

Shari Collins-Chobanian, Chair

Professor: McGovern

Associate Professors: Collins-Chobanian, Pambuccian, Stryker

Assistant Professor: Sander-Staudt

Senior Lecturer: Schmidtke

Lecturers: Anderson, Gately, Persau

The Department of Integrative Studies faculty offers an interdisciplinary Bachelor of Arts degree program in Integrative Studies, the Bachelor of Applied Science, minor in Philosophy, and courses in a number of areas that contribute to General Studies program requirements.

APPLIED SCIENCE—BAS

Nature of the Program

The Bachelor of Applied Science (BAS) is a flexible degree plan designed specifically to serve the additional education needs of students who have earned community college Associate of Applied Science (AAS) degrees. The AAS degree transfers as a block to the university as meeting all graduation requirements beyond the BAS requirements. BAS students then complete a 60-semester-hour capstone program.

To be admitted to the BAS, students must complete an AAS degree at a regionally accredited institution or an AAS equivalent to be determined by the BAS admissions committee. A student who is completing an AAS degree may be granted conditional admission into the BAS degree program. This conditional status is effective for one semester. An official transcript with the degree posted must be received by the BAS program coordinator in order to register for subsequent semesters.

Career Outlook

The BAS degree is primarily intended to assist in job progression rather than initial job qualification. Achievement of a bachelor's degree may remove promotional ceilings that can limit advancement. The degree may also be of use to those who wish to make mid-career changes. Most of the students for whom the BAS is designed have an occupational qualification by virtue of their AAS degrees, and most will be employed in related areas. The BAS curriculum can enhance the student's technical education and experience while providing the broader cognitive skills and perspective that are associated with baccalaureate education and are relevant in any working environment. With the assistance of an advisor, students will be able to tailor their programs to suit their personal or career objectives.

Admission

To be admitted to the BAS degree program, students must have completed an Associate of Applied Science (AAS) degree at a regionally accredited institution or an AAS equivalent to be determined by the BAS admissions committee.

Program Requirements

The BAS is composed of the AAS degree plus a 60-semester-hour capstone requirement. The 60 semester hours must all be in the upper division with the exception of the mathematics (MA) course if it is needed. The requirements are as follows:

1. BAS core, 21 semester hours;
2. General studies completion curriculum, 13 semester hours (minimum);
3. Concentration, 18 to 21 semester hours; and
4. Electives, zero to eight semester hours.

Core Requirements

The goals of the BAS core curriculum are

1. to provide an educational bridge between lower-division and upper-division programming,
2. to develop professional communication and quantitative skills, and
3. to hone critical and creative abilities.

BAS Core Courses

BAS Bridge
IAS 300 Adult Career Development *L*/*SB* 3

Management Skills
GLB 303 Relationship Management 3

Communication Skills
ENG 301 Writing for the Professions *L* 3

Quantitative Skills
Choose one of the following courses 3
EDT 321 Computer Literacy *CS* (3)
SBS 304 Social Statistics I *CS* (3)

Aesthetics/Creativity
Choose one of the following courses 3
IAP 300 Introduction to Interdisciplinary Arts *HU* (3)
IAP 301 Energetic Systems of Art: Collaboration in the Arts (3)
THE 321 History of Theatre *HU, H* (3)
THE 400 Focus on Film (3)
Other approved arts course

Ethics
Choose one of the following courses 3
PHI 306 Applied Ethics *HU* (3)
PHI 360 Business and Professional Ethics *HU* (3)
PHI 406 Moral Dilemmas *L*/*HU* (3)
PHI 407 Environmental Philosophy and Policy *L*/*HU* (3)

Choose one of the following courses 3
IAS 484 Internship (3)
IAS 493 Honors Thesis (3)
IAS 499 Individualized Instruction (3)

Core total 21

General Studies Completion Curriculum (13 Semester Hours). The BAS curriculum is based on the assumption that students have completed an AAS degree program with a general studies component of approximately 18 semester hours. To complete the remainder of their university requirements, students need to take one course in each of the following areas, in addition to any General Studies courses completed in the categories above:

1. cultural diversity in the U.S. (C);
2. global awareness (G);
3. historical awareness (H);
4. natural science—general core with lab (SG);
5. social and behavioral sciences (SB): students may complete the SB requirement in conjunction with one of the other program requirements; and
6. mathematics (MA): students may be required to take an MA course if the mathematics course included in

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

the AAS degree does not meet the criteria for MA; this course may be taken in the lower division.

Concentration (18 to 21 Semester Hours). In consultation with an advisor, the student completes the course work of a minor available at the West campus or develops an individualized concentration that has a coherent theme or purpose and fulfills intended learning outcomes. Specific requirements for the minor are described in this catalog under major field departments. The semester hours required in a minor vary by department. The courses taken to fulfill the concentration requirement may not be used to concurrently fulfill the requirements of a minor. A minimum of nine upper-division semester hours in the concentration area must be completed in residence at the West campus. Courses taken to fulfill the concentration requirement at the Tempe campus or the Polytechnic campus must be chosen in consultation with and approved by the department offering that course work.

Elective Credit (Zero to Eight Semester Hours). Electives, if needed, are chosen to fulfill the 60-semester-hour requirement.

Other Requirements. No credit is granted toward fulfilling major or concentration requirements in any upper-division course unless the grade in that course is at least a "C" (2.00). Normally a "Y" (satisfactory) grade needs confirmation that it is equivalent to a "C" (2.00) or higher.

Candidates for the BAS degree program are not required to fulfill the New College of Interdisciplinary Arts and Sciences proficiency requirements.

INTEGRATIVE STUDIES—BA

Nature of Program

The Bachelor of Arts degree in Integrative Studies enables students to design individualized programs of study for their academic, personal, and professional pursuits. Integrative Studies emphasizes focused study in the liberal arts, the development of critical thinking skills, and the capacity to synthesize problem-solving strategies for life in the 21st century. In this program, students will work closely with dedicated faculty who have scholarly training and teaching interests in the arts, humanities, mathematics, sciences, and social sciences. Students learn from one another's life experiences and from the professional expertise of their faculty.

Career Outlook

The Integrative Studies curriculum emphasizes advanced, interdisciplinary study combined with a concentration in a traditional disciplinary or professional area (e.g. communication studies, English, gerontology, history, psychology, prelaw, or pre-MBA). Students can tailor their academic programs to meet their individualized career goals. A capstone internship program prepares students to make the transition smoothly to postbaccalaureate employment in business, cultural, educational, community, and human service settings, as well as to graduate school. Students planning graduate or professional degrees in law, business, helping professions, or in traditional disciplinary areas will benefit from the flexibility of this program for a broad range of future academic and career pursuits.

Major Requirements

The Integrative Studies major consists of 39 to 48 semester hours with a grade of "C" (2.00) or higher in each course. Program requirements include 21 semester hours of core courses and 18 to 27 semester hours in a concentration.

Core Courses. Select one course from each category.

Gateway Course
IAS 300 Adult Career Development *L/SB* 3

Ethical Reflection
Choose one of the following courses 3
IAS 340 Bioethics *HU* (3)

IAS 494 ST: Writing (3)

Program total 21

Concentration

Working with the Integrative Studies faculty advisor, students will complete the course work of a minor available at West campus or create an individualized concentration.

Approved Minor

Working with the Integrative Studies faculty advisor, students will select one of the minors available at West campus ("West Campus Minors" table, page 654). Specific requirements for these minors are described in this catalog under the major field departments and are available from the IAS faculty advisor. The credits required in a minor vary by department. The courses taken to fulfill the concentration requirement may not be used to concurrently fulfill the requirements of a minor.

Individualized Concentration

Working with the Integrative Studies faculty advisor, students may construct an individualized concentration of 18 upper-division semester hours that has a coherent theme or purpose and fulfills intended general learning outcomes.

Other options are a concentration of six literacy and critical inquiry General Studies (L) courses and the Writing Certificate Program.

MINOR IN PHILOSOPHY

Nature of Program

The minor is designed to provide students with an understanding of central philosophical issues. The minor provides students with

1. a knowledge of the most important problems and ideas in the philosophical areas studied;
2. a capacity for critical thinking and analytical reasoning; and
3. the ability to present one's positions effectively through oral and written communication.

Program Requirements

The minor in Philosophy consists of 21 semester hours of philosophy course work, of which 15 must be upper-division hours. Fifteen semester hours of campus resident credit is required. Only courses in which the student earns a grade of "C" (2.00) or higher will fulfill requirements for the minor. Courses are to be selected from the following list in consultation with a philosophy advisor to create a coherent and complete program of study:

Minor in Philosophy Course List

IAS	411	History and Philosophy of Mathematics *HU, H*	3
		or MAT 411 History and Philosophy of Mathematics *HU, H* (3)	
IAS	484	Internship	3
IAS	494	ST: Special Topics	3
PHI	101	Introduction to Philosophy *HU*	3
PHI	103	Principles of Sound Reasoning *L/HU*	3
PHI	306	Applied Ethics *HU*	3
PHI	340	Bioethics *HU*	3
		or IAS 340 Bioethics *HU* (3)	
PHI	360	Business and Professional Ethics *HU*	3
PHI	406	Moral Dilemmas *L/HU*	3
		or IAS 406 Moral Dilemmas *L/HU* (3)	
PHI	407	Environmental Philosophy and Policy *L/HU*	3
		or IAS 407 Environmental Philosophy and Policy *L/HU* (3)	
PHI	408	Feminist Ethics *HU*	3
		or IAS 408 Feminist Ethics *HU* (3)	
PHI	494	Special Topics	3
PHI	499	Individualized Instruction	1–3
		or IAS 499 Individualized Instruction (1–3)	

ASTRONOMY (AST)

For more AST courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W AST 111 Introduction to Solar Systems Astronomy. (3)
fall
History, properties of light, instruments, study of solar system and nearby stars. For nonscience majors. Optional lab (AST 113).
General Studies: SQ (if credit also earned in AST 113)

W AST 112 Introduction to Stars, Galaxies, and Cosmology. (3)
spring
Structure and evolution of stars, star clusters, galaxies, cosmology. For nonscience majors. Optional lab (AST 114).
General Studies: SQ (if credit also earned in AST 114)

W AST 113 Astronomy Laboratory I. (1)
fall
Astronomical observations and experiments designed to help the student become familiar with the sky, telescopes, and astronomical measurements. 3 hours lab. Pre- or corequisites: AST 111; a working knowledge of high school algebra and geometry.
General Studies: SQ (if credit also earned in AST 111)

W AST 114 Astronomy Laboratory II. (1)
spring
Similar to AST 113, but material chosen to supplement AST 112. 3 hours lab. Pre- or corequisites: AST 112; a working knowledge of high school algebra and geometry.
General Studies: SQ (if credit also earned in AST 112)

W AST 494 Special Topics. (1–4)
selected semesters
Topics may include modern topics in astronomy and astrophysics. Prerequisite: at least one astronomy course.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

INTEGRATIVE STUDIES (IAS)

IAS Note 1. Completion of the First-Year Composition requirement (ENG 101 and 102 or ENG 105 or ENG 107 and 108 [available at Tempe campus] with a grade of "C" [2.00] or higher) is a prerequisite for all English courses above the 100 level.

W IAS 220 Psychology, Multicultural Narratives, and Religion. (3)
fall
Examines contemporary multicultural life narratives that explore diversity in America and the authors' constructions of psychological identity and religious values. Prerequisite: ENG 101 or 105.
General Studies: L/HU, C

W IAS 300 Adult Career Development. (3)
fall, spring, summer
Analysis of sociological and economic factors of 21st-century work environments, integrated with a psychological understanding of adult development. Prerequisite: ENG 101 or 105.
General Studies: L/SB

W IAS 305 Work and Identity. (3)
spring
Explores the relationship between work and identity, as well as the search for meaning in work across generations.
General Studies: SB

W IAS 310 Women in Art. (3)
fall
Cultural, historical, and social issues relating to the seeming scarcity of women artists and changing social contexts for women artists. Cross-listed as IAP 310. Credit is allowed for only IAS 310 or IAP 310. Prerequisite: ENG 101 or 105.
General Studies: HU

W IAS 340 Bioethics. (3)
selected semesters
Philosophical exploration of ethical issues in health care delivery and the life sciences. Cross-listed as PHI 340. Credit is allowed for only IAS 340 or PHI 340.
General Studies: HU

W IAS 406 Moral Dilemmas. (3)
fall and spring
Philosophical analysis of moral dilemmas arising in professional and public settings. Ethical decision making in business, educational, human service, and scientific communities. Cross-listed as PHI 406. Credit is allowed for only IAS 406 or PHI 406. Prerequisite: ENG 101 or 105.
General Studies: L/HU

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

W IAS 407 Environmental Philosophy and Policy. (3)
selected semesters
Ethical concepts and theories applied to environmental issues: biotic community, biodiversity, degradation, ecofeminism, ecology, economics, population, property rights, and wilderness. Not open to students with credit in PHI 310. Cross-listed as PHI 407. Credit is allowed for only IAS 407 or PHI 407. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W IAS 408 Feminist Ethics. (3)
selected semesters
Philosophical exploration of the theoretical and practical aspects of ethical issues affecting women from diverse feminist viewpoints. Cross-listed as PHI 408. Credit is allowed for only IAS 408 or PHI 408.
General Studies: HU

W IAS 410 Evolution of Ideas. (3)
fall
Investigates ideas (paradigms) and revolutions (paradigm shifts). Examines several topics from perspectives of science, arts, humanities, social sciences. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W IAS 411 History and Philosophy of Mathematics. (3)
once a year
Examines nature of mathematics from origins to present, revealed by its history and philosophy. Strong background in mathematics not required. Cross-listed as MAT 411. Credit is allowed for only IAS 411 or MAT 411.
General Studies: HU, H

W IAS 415 Life in the Universe. (3)
fall
Examines the search for life in extreme environments on Earth and in remote locations beyond Earth.

W IAS 416 Black Holes and Beyond. (3)
spring
Explores developments in understanding nature's most basic force–gravity–from Aristotelian concepts to modern theories of curved space-time.

W IAS 420 Multicultural Autobiographies. (3)
fall and spring
Examines the human experience via autobiographies and personal narratives. Multicultural, literary, and psychological perspectives on individual lives. Cross-listed as ENG 420. Credit is allowed for only IAS 420 or ENG 420. See IAS Note 1.
General Studies: L/HU, C

W IAS 430 Science and Religion. (3)
fall and spring
Examines evolving relationships between scientific thought and Western and Eastern religious thought. Explores cosmologies, world views, and epistemologies. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W IAS 477 World Literature. (3)
spring
Introduces world literature, mostly outside the United States and England. Cross-listed as ENG 477. Credit is allowed for only IAS 477 or ENG 477. Prerequisite: ENG 101 or 105.
General Studies: L/HU, G

W IAS 484 Internship. (1–12)
fall, spring, summer
Structured practical experience supervised in the field by practitioners with parallel, on-campus seminar held with program faculty.

W IAS 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Research. (3)
- Science and Religion. (3)
- Writing. (3)

W IAS 499 Individualized Instruction. (1–3)
fall and spring
Topics may include the following:
- Individual Research or Creative Project
  Applies interdisciplinary methods of inquiry to a problem identified by student and supervised by faculty.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

PHILOSOPHY (PHI)

For more PHI courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W PHI 101 Introduction to Philosophy. (3)
fall and spring
Explores issues that philosophers have traditionally considered, including morality, reality, and knowledge.
General Studies: HU

W PHI 103 Principles of Sound Reasoning. (3)
selected semesters
Fallacies, validity, and soundness of arguments. May include syllogistic, elementary symbolic, inductive logic, and scientific method. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W PHI 306 Applied Ethics. (3)
fall and spring
Uses philosophical techniques to elucidate such vital moral issues as sexual perversion, civil disobedience, abortion, punishment, violence and pacifism, suicide, and euthanasia.
General Studies: HU

W PHI 340 Bioethics. (3)
selected semesters
Philosophical exploration of ethical issues in health care delivery and the life sciences. Cross-listed as IAS 340. Credit is allowed for only PHI 340 or IAS 340.
General Studies: HU

W PHI 360 Business and Professional Ethics. (3)
fall, spring, summer
Examines moral theories applied to cases of corporate responsibility, property rights, environment, fairness, profit, employee rights, and responsibilities.
General Studies: HU

W PHI 406 Moral Dilemmas. (3)
fall and spring
Philosophical analysis of moral dilemmas arising in professional and public settings. Ethical decision making in business, educational, human service, and scientific communities. Cross-listed as IAS 406. Credit is allowed for only PHI 406 or IAS 406. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W PHI 407 Environmental Philosophy and Policy. (3)
selected semesters
Ethical concepts and theories applied to environmental issues: biotic community, biodiversity, degradation, ecofeminism, ecology, economics, population, property rights, and wilderness. Not open to students with credit in PHI 310. Cross-listed as IAS 407. Credit is allowed for only PHI 407 or IAS 407. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W PHI 408 Feminist Ethics. (3)
selected semesters
Philosophical exploration of the theoretical and practical aspects of ethical issues affecting women from diverse feminist viewpoints. Cross-listed as IAS 408. Credit is allowed for only PHI 408 or IAS 408.
General Studies: HU

W PHI 494 Special Topics. (1–4)
selected semesters

W PHI 499 Individualized Instruction. (1–3)
selected semesters

Department of Interdisciplinary Arts and Performance

www.west.asu.edu/iap
602/543-6057
FAB N290A

Robert Taylor, Chair

Professor: Lerman

Associate Professors: Sabatini, Taylor

Assistant Professors: Byam, Clark, Kim

Senior Lecturer: Soto

Lecturer: Kennedy

Fine Arts Specialist: St. Clair

The Department of Interdisciplinary Arts and Performance (IAP) offers courses and program activities for practicing artists for the 21st century. It provides an interdisciplinary education in arts performance, media and technology for majors, courses on the arts for the general student body, and serves as a cultural resource for the core and community.

The department offers core and specialized IAP courses in the areas of digital media and technology, performance, visual art practices, and history and theory studies, plus a range of electives in music, theatre, and visual art, and media and performance studies.

INTERDISCIPLINARY ARTS AND PERFORMANCE—BA

Nature of Program

The Bachelor of Arts in IAP focuses on an interdisciplinary study of the arts and media with an emphasis on 20th and 21st century art, performance, technology, and practice. It encourages practical application of theory and content-area knowledge with the integration of skills and performance. IAP courses highlight creativity, innovation, integration, and presentation.

Student Outcomes

The IAP program provides graduates with the knowledge and skills needed to

1. understand the interrelationship among the art forms of music, theater, visual art, performance, and media arts;
2. develop creative work independently;
3. illustrate practical knowledge of the collaborative process in the arts;
4. continue self-development in the arts beyond the program itself;
5. engage in current levels of technology in the arts;
6. exhibit a historical awareness of artistic works, particularly of the 20th century and contemporary practices; and
7. demonstrate an understanding of artistic practices within cultural contexts.

Career Outlook

This interdisciplinary training can be the basis for a variety of personal and career pursuits. Students who major in the program receive practical professional training and solid academic skills. They gain in-depth preparation necessary for careers as artists and performers and creative professionals. They also develop critical backgrounds useful for becoming future teachers and scholars. Graduates of the program are prepared for advanced study in the performing arts or arts-related professions in education, art and cultural journalism, government and community arts administration, media services, and production.

Admission Requirements

Admission to the Interdisciplinary Arts and Performance program requires completion of at least 15 semester hours of course work from any single or combination of arts disciplines with a grade of "C" (2.00) or higher. Students with specialized practical training in a single art form may be admitted to the program based on portfolio assessment or audition and personal interviews.

Major Requirements

The Bachelor of Arts in Interdisciplinary Arts and Performance consists of at least 45 semester hours of Interdisciplinary Arts and Performance course work of which three semester hours may be at the lower-division level. Program requirements include

Required Core Courses

IAP 304 Traditions of the Avant-Garde and Experimental Art *L/HU* 3
or IAP 305 20th/21st Century Art, Performance, and Media *L/HU* (3)
IAP 325 Sound Performance: Exploring Alternative Performance Groups[1] 3
IAP 334 Conceptual Development in the Arts[1] 3
IAP 354 Visual Representations[1] 3
IAP 361 Digital Editing and Media Literacy[1] *CS* 3
IAP 360 IAP Laboratory 3

Socially Embedded Course

IAP 302 Cross-Cultural Perspectives on the Arts *L/HU* 3
or IAP 464 Media and Diversity (3)

IAP Electives

Upper-division electives[2] 18
One applied arts course (may be lower division)[3] 3

Senior Project

IAP 480 Senior Project 3

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Program total.....45

[1] A one-credit lab must be taken as a corequisite with three of the following core courses: IAP 325, 334, 354, and 361.
[2] Courses must be chosen in consultation with a faculty advisor.
[3] Course may be chosen if not previously used to fulfill requirement.

Senior Project. The goal of any senior project is to focus the body of course work undertaken in the IAP curriculum in an original creative work or comparable experience. This work may take the form of a performance (with the student as creator/producer and/or performer), or a written thesis, gallery exhibition, internship, media work, or some other acceptable format.

MINOR IN INTERDISCIPLINARY ARTS AND PERFORMANCE

The minor consists of 24 semester hours in the arts. Twelve of these must be at the upper division level (IAP prefix). Six of the 12 upper-division credits must be selected from IAP core courses. The other six credits must be from IAP courses selected with advisor approval. Twelve additional semester hours of approved electives are required.

MINOR/CERTIFICATE IN FILM AND VIDEO STUDIES

The minor and Certificate in Film and Video Studies explore theory and practice in the general field of the moving image. These interdisciplinary programs provide students the opportunity to develop interests, skills, and knowledge of the forms, channels, technologies, and histories of the media arts. Students may pursue focused interests in film studies or adopt a more generalized approach to visual media through television, film, and video. The minor or certificate program is useful to students who may pursue careers in broadcasting, writing, and public relations, as well as degrees in production, film studies, media studies, performance studies, and communication studies. Courses in the minor/certificate in Film and Video Studies are designed to

1. develop astute and discriminating critics and analysts of film and media arts;
2. strengthen critical thinking through an awareness of the philosophical, aesthetic, political, and technological debates in film, media, and video studies;
3. develop knowledge of the history of film, television, and the video arts as dynamic forces of social, cultural, and political expression; and
4. develop practical skills that enable students to be competitive in film, video, television, and media-related production industries.

MINOR IN FILM AND VIDEO STUDIES

For the minor, students select one of two areas of emphasis: film studies or media and video studies. The film studies emphasis focuses on the impact of film and video. The media and video studies emphasis is concerned with the rendering of film and video.

The minor consists of 21 semester hours, 15 of which must be at the upper-division level. A maximum of six semester hours of lower-division course work may be applied to nonfoundation course work. Both emphases identify foundational courses and available elective courses as listed below. Students are required to include courses drawn from two or more different prefixes and complete IAP 480, which requires a capstone experience.

Film Studies Emphasis. Course work requirements are as follows:

Foundational Courses
Choose two of the following courses.....6
- ENG 365 History of Film *HU* (3)
- IAP 351 Concept, Image, and Text (3)
- SOC 366 Film and Society *SB* (3)

Theoretical, Conceptual, or Historical Courses
Choose two of the following courses*.....6
- ENG 365 History of Film *HU* (3)
- IAP 351 Concept, Image, and Text (3)
- IAP 364 Documentaries (3)
- IAP 465 Media Technologies and the Arts (3)
- SOC 364 Popular Culture *SB* (3)
- SOC 365 Sociology of Mass Communication *SB* (3)
- SOC 366 Film and Society *SB* (3)
- THE 300 Film: The Creative Process *HU* (3)
- THE 400 Focus on Film (3)

Applied/Practical Courses
Choose two of the following courses*.....6
- COM 329 Persuasion (3)
- COM 421 Rhetoric of Social Issues *HU* (3)
- COM 429 Semiotics and Visual Communication (3)
- ENG 365 History of Film *HU* (3)
- IAP 322 Multitrack Digital Recording (3)
- IAP 334 Conceptual Development in the Arts (3)
- IAP 361 Digital Editing and Media Literacy *CS* (3)
- IAP 363 Sound, Image, and Media (3)
- IAP 364 Documentaries (3)
- IAP 365 Digital Interactivity (3)
- IAP 465 Media Technologies and the Arts (3)
- IAP 466 Digital Interactivity, Advanced (3)
- IAP 467 Acoustic Ecology (3)
- IAP 474 Art and Film *L/HU* (3)
- SOC 364 Popular Culture *SB* (3)
- SOC 365 Sociology of Mass Communication *SB* (3)
- SOC 366 Film and Society *SB* (3)
- THE 300 Film: The Creative Process *HU* (3)
- THE 400 Focus on Film (3)
- THP 394 ST: Acting for the Camera (3)
- THP 394 ST: Television Production (3)

Capstone Project
IAP 480 Senior Project.....3

Program total.....21

* Other approved courses may be used to meet this requirement.

Media and Video Studies Emphasis. Course work requirements are as follows:

Foundational Courses
Choose two of the following courses*.....6
- COM 324 Rhetoric and Media Criticism (3)
- IAP 351 Concept, Image, and Text (3)
- IAP 465 Media Technologies and the Arts (3)

SOC 365 Sociology of Mass Communication *SB* (3)

Theoretical, Critical, Performance, and/or Production Courses
Choose four of the following courses* 12
- COM 324 Rhetoric and Media Criticism (3)
- COM 329 Persuasion (3)
- COM 421 Rhetoric of Social Issues *HU* (3)
- COM 429 Semiotics and Visual Communication (3)
- ENG 365 History of Film *HU* (3)
- IAP 322 Multitrack Digital Recording (3)
- IAP 334 Conceptual Development in the Arts (3)
- IAP 351 Concept, Image, and Text (3)
- IAP 361 Digital Editing and Media Literacy *CS* (3)
- IAP 363 Sound, Image, and Media (3)
- IAP 364 Documentaries (3)
- IAP 365 Digital Interactivity (3)
- IAP 465 Media Technologies and the Arts (3)
- IAP 466 Digital Interactivity, Advanced (3)
- IAP 467 Acoustic Ecology (3)
- IAP 474 Art and Film *L*/*HU* (3)
- SOC 364 Popular Culture *SB* (3)
- SOC 365 Sociology of Mass Communication *SB* (3)
- SOC 366 Film and Society *SB* (3)
- THE 300 Film: The Creative Process *HU* (3)
- THE 400 Focus on Film (3)
- THP 394 ST: Acting for the Camera (3)
- THP 394 ST: Television Production (3)
- WST 431 Women and Film *L*, *G* (3)

Capstone Project
IAP 480 Senior Project.....3

Emphasis total.....21

* Other approved courses may be used to meet this requirement.

Senior Project. The project should reflect the integration of course work with creative initiative to generate a product that stands alone as a piece of original work. For the film studies emphasis the project focuses on an intellectual analysis of some dimension of film products, reception, institutions, economics, and so forth. In the media and video studies emphasis, the project may be intellectual or creative (performance/production) in nature. Projects are examined and evaluated by at least one faculty member involved in the Film and Video Studies minor.

CERTIFICATE IN FILM AND VIDEO STUDIES

The certificate program is recommended for graduate students, nondegree students, and students with majors in professional programs. A certificate of concentration in Film and Video Studies is awarded for the successful completion of the 21 semester hours required for the minor.

ART AUXILIARY (ARA)

For more ARA courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W ARA 460 Gallery Exhibitions. (3)
selected semesters
Practical experience in all phases of department gallery operations and preparation of gallery publications. May be repeated once for credit. Prerequisite: instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

ART HISTORY (ARS)

For more ARS courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W ARS 101 Art of the Western World I. (3)
fall
History of Western art from the Paleolithic period through the Middle Ages.
General Studies: HU, H

W ARS 102 Art of the Western World II. (3)
spring
History of Western art from the Renaissance to the present.
General Studies: HU, H

W ARS 438 Art of the 20th Century I. (3)
selected semesters
Developments and directions in art between 1900 and World War II. Prerequisites: both ARS 101 and 102 or only instructor approval.
General Studies: HU

W ARS 439 Art of the 20th Century II. (3)
selected semesters
Art since World War II, with consideration of new concepts and experimentation with media and modes of presentation. Prerequisites: a combination of ARS 101 and 102 and 438 or only instructor approval.
General Studies: HU, H

W ARS 494 Special Topics. (3)
selected semesters
Topics may include art of the Southwest.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

ART (ART)

For more ART courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W ART 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Aesthetics of Visual Perception
- Music Videos
- Rock Culture and the Avant Garde

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

INTERDISCIPLINARY ARTS AND PERFORMANCE (IAP)

W IAP 101 Art, Artist, and Culture. (3)
fall and spring
Provides an approach to art, creativity, and culture in global, historical, and contemporary contexts.
General Studies: HU

W IAP 300 Introduction to Interdisciplinary Arts. (3)
fall
Considers interdisciplinarity in practical terms in all art forms. Also considers antecedents and cross-cultural issues.
General Studies: HU

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

W IAP 301 Energetic Systems of Art: Collaboration in the Arts. (3)
selected semesters
Identifies and explores the energetic systems at work in the creation, performance, and perception of art.

W IAP 302 Cross-Cultural Perspectives on the Arts. (3)
selected semesters
Social and cultural perspectives of art and performance through a survey of historical and contemporary attitudes. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W IAP 303 Artists and the Contemporary American Experience. (3)
selected semesters
Explores the life of the contemporary American artist with respect to individuality, pluralism, gender, race, ethnicity, and regionalism.

W IAP 304 Traditions of the Avant-Garde and Experimental Art. (3)
selected semesters
Surveys 20th-century art movements and "isms," including futurism, dada, surrealism, constructivism, realism, the Bauhaus, abstract expressionism, minimalism.
General Studies: L/HU

W IAP 305 20th and 21st Century Art, Performance, and Media. (3)
selected semesters
Surveys artists, movements, and trends in the arts with an emphasis on interdisciplinary performance, media, and technology.
General Studies: L/HU

W IAP 306 Extended Traditions in Drawing. (3)
fall in even years
Explores alternative methods of rendering the drawn image. Emphasizes incorporating other art forms to inform students' individual work. Fee.

W IAP 307 Art and War. (3)
fall
Global interdisciplinary survey of the range of work created by artists in response to war, through time. Seminar, screening, listening.
General Studies: HU, G

W IAP 310 Women in Art. (3)
fall
Cultural, historical, and social issues relating to the seeming scarcity of women artists and changing social contexts for women artists. Cross-listed as IAS 310. Credit is allowed for only IAP 310 or IAS 310. Prerequisite: ENG 101 or 105.
General Studies: HU

W IAP 321 Music Composition I. (3)
fall
Study and implementation of specific compositional theories and procedures. May be repeated for credit when topics vary. Fee.

W IAP 322 Multitrack Digital Recording. (3)
spring in odd years
Introduces students to theory and practice of Musical Instrument Digital Interface (MIDI) technology.

W IAP 323 Music and the Visual Arts. (3)
spring in odd years
Histories and theories of music and visual arts with emphasis on convergences within 20th-century avant-garde traditions. Fee.

W IAP 324 The Voice and Performance. (3)
selected semesters
Involves all aspects of the human voice, including research, creation, and performance.

W IAP 325 Sound Performance: Exploring Alternative Performance Groups. (3)
spring
Utilizes innovative sound ensembles to explore all aspects of sound and its place in various art forms. Fee.

W IAP 331 Performance, Acting, and the Individual. (3)
fall
Explores the concepts of the "self," the "subject," and the "author" as each pertains to the solo artist.

W IAP 332 Technical Production for Interdisciplinary Arts. (3)
selected semesters
Develops basic technical knowledge and application of fundamental stagecraft techniques used in the creation and presentation of performance works. Fee.

W IAP 333 Directing for Performance. (3)
fall
Explores various strategies for performance. Emphasizes nontraditional staging and performance.

W IAP 334 Conceptual Development in the Arts. (3)
fall
Conceptual development processes in the arts from initial idea to formal project proposals, grants, and production plans.

W IAP 335 Vocalization and Movement. (3)
spring
Study, application, and coordination of vocal projection techniques with bodily movement competencies in presenting original and existing contemporary performance works.

W IAP 347 Movement in Education. (3)
selected semesters
Theory and practice of teaching dance and creative movement in schools, K–12. Open to all students.

W IAP 351 Concept, Image, and Text. (3)
selected semesters
The generation of images and metaphors using various media and visual stimuli. Fee.

W IAP 352 Seeing and Drawing. (3)
fall and spring
Develops drawing and seeing skills that are important not only to visual arts but also to music, dance, and theatre. Studio: 6 hours per week. Fee.

W IAP 354 Visual Representation. (3)
fall
Explores materials, processes, and aesthetic concepts of art making through various media with readings on cultural perspectives and contemporary theory. Lecture, studio. Fee.

W IAP 355 Illusion and Vision. (3)
spring in odd years
Inquiry into 2-D surfaces for visual representation and personal expression; includes readings on color theory, visual perception, and historical/cultural patterns. Lecture, studio. Fee.

W IAP 356 Spatial Impressions. (3)
spring in even years
Investigates 3-D forms, the processes and concepts of physicality, and the environment with readings on spatial perception and cultural objects. Lecture, studio. Fee.

W IAP 360 IAP Laboratory. (1)
fall, spring, summer
Provides instructor-student contact time focusing on the technical instruction of media and technology applications. Demonstrations, hands-on tutorial. Corequisites IAP 325 or 354 or 361.

W IAP 361 Digital Editing and Media Literacy. (3)
fall and spring
Investigates the approaches used in digital editing with a focus on interactivity, graphics, audio, and desktop video. Fee.
General Studies: CS

W IAP 363 Sound, Image, and Media. (3)
fall in odd years
Interdisciplinary arts projects for experimental approaches to relating sound and visual image, accompanied by survey of historical and contemporary material. Fee.

W IAP 364 Documentaries. (3)
fall in even years
Media arts projects exploring new and experimental forms of visualization based upon an interdisciplinary survey of historical and contemporary examples. Fee. Prerequisite: IAP 361 recommended.

W IAP 365 Digital Interactivity. (3)
spring in odd years
Combines graphics, video, and animation with digital authoring tools for creation of interactive multimedia Web sites. Fee. Pre- or corequisite: IAP 361.

W IAP 368 Digital Graphic Technologies. (3)
fall
Employs technology used in contemporary graphic designs to design concepts and techniques for modeling and representation applications. Lecture, lab. Prerequisite: ACO 201 or instructor approval.

W IAP 371 Verbal Art. (3)
fall in even years
Examines varieties of verbal art in everyday life, literature, oral and literate cultures. Considers diverse cultural forms and values. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W IAP 373 The Critical Artist. (3)
selected semesters
Focuses on artists' critical thought, theorizing, and representation of art across disciplines and genres.

W IAP 421 Composition: Process, Technique, and Style II. (3)
selected semesters
Advanced study of specific compositional theories and procedures; in-depth analysis of individual work. May be repeated for credit when topics vary. Fee. Prerequisite: IAP 321.

W IAP 422 Contemporary Orchestration Practices. (3)
fall in odd years
Traditional and experimental scoring techniques for small and large ensembles using MIDI technology, digital samplers, and traditional instruments. Fee.

W IAP 431 Perspectives on Performance and Acting. (3)
spring
Focuses on the interaction of the performer with media, alternative stagings, and collaboration with other performers.

W IAP 433 Directing Workshop. (3)
fall
Applies experimental directorial techniques to presentations and deconstruction of classical works including European and cross-cultural traditions. Prerequisite: IAP 333.

W IAP 434 Production Laboratory. (3)
spring
Develops original scripts into showcase productions. Students function as theatrical ensemble, participate in all phases of performance and production values. Fee.

W IAP 441 Dance-Drama. (3)
spring
Explores the relationship of movement as it relates to drama, both historically and cross-culturally.

W IAP 442 Movement and Music. (3)
spring
Surveys ways artists have brought together movement and music in artistic creations in various disciplinary and interdisciplinary contexts.

W IAP 452 Elements of Painting. (3)
selected semesters
Develops painting skills and personal artistic vision through projects stimulated by other art forms. Studio: 6 hours per week. Fee. Prerequisite: ART 311 or 323 or IAP 352 or instructor approval.

W IAP 454 New Directions in Painting. (3)
selected semesters
Develops painting skills and personal artistic vision through projects stimulated by other art forms. Studio: 6 hours per week. Fee. Prerequisite: IAP 452 or instructor approval.

W IAP 457 Urban Narrative. (3)
fall in odd years
Conceptually based studio focusing on artists' voices in contemporary urban environment with readings on spatial perception and cultural objects. Lecture, studio. Fee. Prerequisite: instructor approval.

W IAP 464 Media and Diversity. (3)
spring in odd years
Interdisciplinary art projects exploring identity, perception, and technologies from a basis of class, race, ethnicity, gender, sexuality, and ecology.

W IAP 465 Media Technologies and the Arts. (3)
fall in odd years
Practical explorations of media arts interrelated with cultures, society, and technology, addressed through readings, discussion, research, and student arts projects.

W IAP 466 Digital Interactivity, Advanced. (3)
selected semesters
Advanced multimedia authoring skills for creation of interactive works in DVD, CD ROM, and other media formats. Fee. Prerequisite: IAP 365 or instructor approval.

W IAP 467 Acoustic Ecology. (3)
spring in even years
Investigations into the relationship between audio art and ecology; covers field recording, oral histories, digital editing, and designing audio Web site and databases. Fee. Prerequisite: IAP 361. Prerequisite for Life Sciences and Communication Studies majors: instructor approval.

W IAP 468 Digital Graphic Applications. (3)
spring
Targeting, planning, design, authoring, development, and presentation of professional digital media graphics for Internet and print. Prerequisite: IAP 368.

W IAP 469 Advanced Audio Production. (3)
fall
Engages advanced media students in the technical, logistical, and aesthetic concerns specific to audio in all forms of digital media. Fee. Prerequisite: IAP 322 or 361.

W IAP 471 Language, Culture, and Performance. (3)
selected semesters
In-depth examination of language in myth, poetry, social and aesthetic performance genres. Prerequisites: ENG 101 (or 105); IAP 371 (or instructor approval).
General Studies: L/HU

W IAP 472 Theories of Arts and Performance. (3)
spring in even years
Key texts, thinkers, concepts, and approaches to the arts and performance. Prerequisites: ENG 101 or 105

W IAP 473 Aesthetic Research. (3)
fall in odd years
Investigates how artists, in all disciplines and from different historical periods, conduct or participate in research. Prerequisites: ENG 101 (or 105); IAP 373.
General Studies: L/HU

W IAP 474 Art and Film. (3)
once a year
Focuses on film as an art form in relation to the arts through aesthetics, cinematic theory, period study. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W IAP 480 Senior Project. (3–6)
fall and spring
Capstone course. Students develop an exit project for the IAP degree under the guidance of an advisor. Fee. Prerequisites: both IAP major and senior standing or only advisor approval.

W IAP 484 Internship. (1–12)
selected semesters

W IAP 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- HTML Creating a Web Page. (1)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

MASTER OF ARTS IN INTERDISCIPLINARY STUDIES (MAS)

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

MUSIC (MUS)

For more MUS courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W MUS 340 Listening to Music. (3)
selected semesters
Major periods, composers, and compositions in the history of music.
General Studies: HU, H

W MUS 349 Music in America. (3)
selected semesters
Current styles of American music including jazz, popular, and folk music.
General Studies: HU, H

W MUS 354 Popular Music. (3)
selected semesters
Emphasizes historical, cultural, and performance patterns in a variety of popular idioms such as, but not limited to, rock, folk, jazz, and Afro-American music.
General Studies: HU

W MUS 355 Survey of American Music. (3)
selected semesters
Growth and development of American music.

W MUS 356 Survey of the Musical Theatre. (3)
selected semesters
Music's place in the theatre, viewed in terms of historical importance and relative function.
General Studies: HU

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

THEATRE (THE)

For more THE courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W THE 100 Introduction to Theatre. (3)
fall and spring
Surveys theatre production from the Greeks to contemporary theatre.
General Studies: HU

W THE 300 Film: The Creative Process. (3)
selected semesters
Elements of the theatrical film: cinematography, sound, editing, directing, acting, scriptwriting, producing, and criticism. 3 hours lecture, 2 hours lab.
General Studies: HU

W THE 320 History of the Theatre. (3)
fall
Traces major developments in theatre production from its beginning to the 17th century.
General Studies: HU, H

W THE 321 History of Theatre. (3)
spring
Traces major developments in theatre production from the 17th century to modern times.
General Studies: HU, H

W THE 400 Focus on Film. (3)
selected semesters
Specialized study of prominent film artists, techniques, and genres. Emphasizes the creative process. May be repeated once for credit. Prerequisite: ENG 101 or 105.

W THE 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Experimental Film. (3)
- Film and Society. (3)
- Women in Film. (3)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

THEATRE PERFORMANCE AND PRODUCTION (THP)

For more THP courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W THP 294 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Musical Theatre (History/Survey)

W THP 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Acting for Nonmajors. (3)
- Acting for the Camera. (3)
- Television Production. (3)
- Theatre Studio/Workshop I. (3)

W THP 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Acting for Nonmajors. (3)
- Acting for the Camera. (3)
- Storytelling and Poetry. (3)
- Theatre Studio/Workshop II. (3)

FAB N220

Eduardo Pagán, Chair

Professors: E. Cutrer, T. Cutrer

Associate Professors: Anokye, Bredbenner, Broaddus, Cárdenas, Cuádraz, Gilkeson, Hattenhauer, Pagán, Wertheimer

Assistant Professors: Bixby, DeBacker, Dorsey, Dudy Bjork, Friedrich, Lee, Stancliff, Toth, Ukpanah

Visiting Assistant Professor: Flynn

Lecturers: Cisler, Garcia, Raiser

The Department of Language, Cultures, and History faculty offer an interdisciplinary Bachelor of Arts degree program in American Studies, Bachelor of Arts degree programs in English, History, and Spanish, and courses in other disciplines represented in the program, such as Religious Studies and Art History.

AMERICAN STUDIES—BA

Nature of Program

The Bachelor of Arts in American Studies enables students to look at the experiences of North Americans and their environment from a variety of historical and

contemporary perspectives. Courses are grouped into four emphases:

1. American systems, which deals with political, economic, religious, and legal institutions;
2. American cultures, which concentrates on systems of belief and their symbolic expression in literature, art, philosophy, and regional and popular cultures;
3. American lives, which explores the ways in which categories of race, ethnicity, class, and gender intersect with individual and community experience; and
4. writing, which stresses critical writing skills and helps train students to undertake careers in which writing is a major activity.

American Studies offers a flexible, interdisciplinary degree program that allows students to take courses in a number of areas. Students who have interests in American history, society, literature, or art, for example, but prefer not to major in a single discipline, such as English or History, are ideal candidates for the program. All students complete a core of American Studies courses (12 semester hours) that provides them with an overview of American history and society and introduces them to interdisciplinary study. In addition, each student designs, with the approval of the American Studies faculty advisor, a program of focused course work (21 semester hours) tailored to the student's interests and career goals. Students may choose to emphasize a particular area in American Studies, for example, or select other courses to develop a program focusing on a particular topic, such as the American West, the twentieth century, or American multiculturalism. Of the focused course work, at least four courses (12 semester hours) must be at the upper division.

Students conclude the program with an exit project, developed with an individual faculty member, and approved by the faculty advisor. Exit projects take a variety of forms; they can include internships, theses, or a similar kind of creative project. The purpose of the exit project is to help students integrate the knowledge and skills that they have gained in the program. It also provides students with a means of exploring career interests before graduation.

Career Outlook

The BA in American Studies teaches students to think and write critically, to conduct research, and to appreciate the changing and diverse nature of American life. American Studies graduates accordingly are well equipped to embark on a wide variety of careers in government, education, business, museum and foundation work, journalism and other forms of professional writing, and in other areas where these capabilities are highly valued and sought. The program also serves as excellent preparation for law school and for graduate programs in fields such as American Studies, English, journalism, history, and art history. Most importantly, American Studies, by virtue of its interdisciplinary approach to the study of American cultures, systems, and lives, provides a rounded perspective, a chance to see issues and problems from a variety of angles. As such, it is ideally suited to careers in which research, analysis, and planning play a central role.

Major Requirements

A minimum of 36 semester hours (27 upper-division hours) with a grade of "C" (2.00) or higher is required.

Core Courses

AMS 301 Introduction to American Studies *L* 3
Choose from the following combinations 6
AMS 310 History of American Systems to 1865 *L, C, H* (3)
AMS 311 History of American Systems since 1865 *H* (3)
——— *or* ———
AMS 320 American Cultural History I *SB, H* (3)
AMS 321 American Cultural History II *SB, H* (3)
AMS 330 Introduction to American Lives *HU* 3
Core total 12

Focused Course Work (21 Semester Hours). Working with the American Studies faculty advisor, students designate appropriate lower-division course work (if applicable) and select upper-division course work to develop a coherent program or topic of study. The focused course work may be in a single American Studies area, or it may be spread across the areas of emphasis. Twelve semester hours must be from the upper division.

Exit Project (Three Semester Hours). Thesis, internship, or research designed in consultation with a faculty advisor.

Minor in American Studies

The minor in American Studies offers students the opportunity to pursue an interest in the interdisciplinary study of American Culture. This interdisciplinary minor is particularly appropriate for students majoring in one of the humanities or social sciences disciplines. The minor consists of 18 semester hours, 12 of which must be upper-division hours.

AMS 301 Introduction to American Studies *L* 3
Choose from the folllowing combinations 6
AMS 310 History of American Systems to 1865 *L,C, H* (3)
AMS 311 History of American Systems since 1865 *H* (3)

AMS 320 American Cultural History I *SB, H* (3)
AMS 321 American Cultural History II *SB, H* (3)
AMS 330 Introduction to American Lives *HU* 3
Core total 12

Supporting Courses. Select two courses (six semester hours) with substantial American content that must be approved by the American Studies faculty advisor.

Total 18

ENGLISH—BA

Nature of Program

As part of the Department of American Studies, the English curriculum emphasizes the study of texts in context. Students study not only the forms of writing but also the history of those forms as well as read and analyze literature from a broad range of periods and genres. Students will learn to produce good expository prose.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

The major allows students to emphasize particular genres, periods, regions, and themes through a mix of required courses and electives. Students determine appropriate programs of study in consultation with faculty advisors. Thus, each student is assured the general background that academia and business often require.

Career Outlook

The English curriculum prepares students for graduate and professional training (including law, business, teaching, and public policy) and because of its breadth and emphasis on the communication of ideas, serves as an excellent point of departure for careers in marketing, public relations, government, diplomacy, and community work.

Major Requirements

The program requires 45 semester hours in English, at least 24 of which must be in upper-division courses. A grade of "C" (2.00) or higher is required in all courses taken for the major.

Lower-Division Required Courses

ENG 221 Survey of English Literature *HU, H* 3
ENG 222 Survey of English Literature *HU, H* 3
ENG 241 American Literature *HU* 3
ENG 242 American Literature *HU* 3

Upper-Division Required Courses

ENG 311 Persuasive Writing *L* 3
ENG 323 Rhetoric and Grammar *L* 3
ENG 400 History of Literary Criticism *L/HU, H* 3
ENG 473 Shakespeare 3
Literature of gender or ethnicity course[1] 3

SECONDARY EDUCATION—BAE

English Specialization

The requirements for the Bachelor of Arts in Secondary Education with a specialization in English consist of the Professional Teacher Preparation Program for secondary majors (see "College of Teacher Education and Leadership," page 745) and 39 semester hours in English, at least 24 of which must be in upper-division courses. The English major for teachers focuses on the skills, authors, periods, genres, regions, and themes that Arizona high schools teach most frequently: writing, Shakespeare, British and American classics, major recent texts, ethnicity, and gender. Students determine appropriate programs of study in consultation with faculty advisors. A grade of "C" (2.00) or higher is required in all courses taken for the major.

Lower-Division Required Courses

ENG 221 Survey of English Literature *HU, H* 3
or ENG 241 American Literature *HU* (3)
ENG 222 Survey of English Literature *HU, H* 3
ENG 242 American Literature *HU* 3

Total 21

* English electives must be selected in consultation with a faculty advisor.

WRITING CERTIFICATE

Nature of the Program

The Department of Language, Cultures, and History offers a nonfiction writing certificate program for students enrolled in any college at Arizona State University. While taking writing certificate courses, students

1. learn and practice writing in the various styles and genres;
2. are introduced to computer technology relevant to writing and publishing;
3. discuss theoretical and pedagogical applications for classroom practices; and
4. are exposed to information about local and national markets for publishing their work.

One of the hallmarks of the program is that several of the classes offered are taught by professional writers.

Composed of 19 semester hours and only one required course, the program offers opportunity for customizing a plan of study that reflects each student's interests and goals. Additionally, projects in the student's major and internship are optional elements of the certificate.

At the discretion of the director of the program, students may fulfill a maximum of nine semester hours of the requirements for the certificate with

1. courses taken before formal admission;
2. courses taken to fulfill requirements of other programs; or
3. courses taken at other institutions.

For more information on the certificate program, visit FAB N220C, call 602/543-6090, or access the Web site at www.west.asu.edu/lch/degrees/writing_certificate.htm

Career Outlook

Certification of advanced writing skills opens the way to an array of opportunities, from journalism and publishing to public advocacy, military and government careers, elementary and secondary education, business management, economic development, legal/justice professions, and high-tech industry. Ability to communicate clearly and directly is a key to career advancement in all aspects of business, government, and community service.

Admission Requirements

To gain admission to the Writing Certificate program, students must demonstrate fundamental writing skills by submitting a portfolio of writing from lower-division courses or independent writing projects. A GPA of 3.00 in the prerequisite courses ENG 101 and 102, or ENG 107 and 108, or ENG 105 is required.

Program Requirements

The program requires a minimum of 19 semester hours of writing intensive and publication related course work, including at least 12 semester hours of upper-division courses. The Writing Certificate Portfolio (AMS 490) is mandatory for all students. A GPA of 3.00 or higher is required for course work taken for the Writing Certificate, with the exception of the exit portfolio, which is graded on a satisfactory/fail basis. Students will assemble a portfolio of writing that demonstrates their grasp of the skills presented during their program of study.

* These courses, or other courses offered under the ENG or AMS prefix or another prefix, must be selected in consultation with the director of the program.

Capstone Project (Optional)

An approved capstone experience from the student's major (or AMS 498) may fulfill one to three semester hours.

Internship (Optional)

Students may fulfill one to three semester hours through an internship with a company, agency, or publication related to the student's planned career.

HISTORY—BA

Nature of Program

The Bachelor of Arts in History trains students in the use of basic tools and methods of the historical discipline. It exposes students to a broad span of modern history, a wide range of historiographical perspectives and approaches, and such fundamental categories of historical analysis as race, class, gender, and ethnicity. Students in the history program develop habits of mind associated with history as a discipline, including an awareness of change over time, an ability to make reasoned arguments about historical events and developments, and a sensitivity to the varieties of historical experience.

The History major consists of several specific core courses and a range of electives and distributional requirements. It provides students with a solid foundation in historical methods while at the same time allowing them to tailor

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

the major to their personal and professional interests. Students will develop their program of study in History in consultation with a faculty advisor.

Career Outlook

The History major serves as excellent preparation for study in graduate or professional degree programs and for careers in which critical thinking, research, and writing skills are highly valued. The History major provides a strong foundation for understanding the forces of change that shape contemporary society, the marketplace, and the lives of individuals and groups, thereby equipping students to negotiate the complex cultural, community, and business environments of the 21st century.

Major Requirements

The Bachelor of Arts degree in History requires a minimum of 45 semester hours with a grade of "C" (2.00) or higher. Program requirements include

1. 12 semester hours of core requirements in history;
2. 18 semester hours of history electives; and
3. 15 semester hours of supporting course work.

At least 21 semester hours in history courses and six semester hours in supporting courses must be taken at the upper division.

The major requires completion of HIS 300 Historical Methods, which should be scheduled early in the student's program of study, and HIS 498 History Pro-seminar, to be completed as an exit project during the student's final semester.

Core Requirements

Choose one of the following combinations 6

[3] These course must be approved by the BAE history advisor, and a minimum of six of the semester hours must be upper-division courses.

SPANISH—BA

Nature of Program

The Spanish program consists of three tracks: language, literature, and cultures. These tracks are integrated within the discipline and with other disciplines within the New College of Interdisciplinary Arts and Sciences. Spanish classes are taught through an intensive language approach using the most recent electronic technologies, including videos, CD-ROMs, electronic chat groups, and news groups devoted to Hispanic literature and culture.

The program also offers credit for internships in social and business agencies. This school-to-work experience, in addition to offering the student an entry-level job opportunity, provides stimulating linguistic and cultural rewards outside of the campus environment.

Career Outlook

The Spanish major serves as excellent preparation for graduate school or for employment as a teacher in either the elementary or secondary school system, especially in those districts where bilingual programs are integral to the curricula. Outside the education system, students majoring in Spanish can find employment as translators and interpreters in social agencies, federal and state courts, the diplomatic corps, law enforcement agencies, and law firms. The business world also provides employment for those fluent in Spanish. This is especially true in the southwest, with its proximity to Mexico and through new outlets opened by the trinational NAFTA agreement.

Major Requirements

The Spanish major consists of a minimum of 45 semester hours, of which at least 30 semester hours are in Spanish (SPA) courses and 15 are in related courses to be selected in consultation with an Arts and Sciences academic advisor. Of the 30 semester hours in Spanish, at least 24 upper division semester hours are required, with at least nine semester hours at the 400 level. A minimum grade of "C" (2.00) is required in all upper division courses in Spanish. First-year Spanish courses (SPA 101, 102) are not applicable to the major, but may be applied to the degree as electives.

Required Courses

SPA 313 Spanish Conversation and Composition *G* 3

W AMS 301 Introduction to American Studies. (3)
fall
Introduces the interdisciplinary study of American culture, emphasizing critical reading and writing skills. Prerequisite: ENG 101 or 105.
General Studies: L

W AMS 310 History of American Systems to 1865. (3)
fall
First of a two-part survey of political, legal, and economic institutions, placed in the context of the nation's colonial background and early national period. Cross-listed as HIS 305. Credit is allowed for only AMS 310 or HIS 305. Prerequisite: ENG 101 or 105.
General Studies: L, C, H

W AMS 311 History of American Systems Since 1865. (3)
spring
Second in a two-part survey of political, legal, and economic institutions, placed in the context of a dynamic industrialist capitalist society, from the age of industrialism and modern America. Cross-listed as HIS 306. Credit is allowed for only AMS 311 or HIS 306. Prerequisite: ENG 101 or 105.
General Studies: H

W AMS 314 Military Studies. (3)
selected semesters
Topics in the history of the American military. May be repeated for credit when topics vary.

W AMS 316 American Religious Systems. (3)
selected semesters
Topics in American religion; may include Hispanic missions of the Southwest. May be repeated for credit when topics vary.

W AMS 320 American Cultural History I. (3)
fall
First of a two-part survey of American culture, broadly defined as historically transmitted patterns of meaning expressed in symbolic forms, including ideas, ideals, the arts, and social and economic standards from the nation's colonial background and early national period. Cross-listed as HIS 303. Credit is allowed for only AMS 320 or HIS 303.
General Studies: SB, H

W AMS 321 American Cultural History II. (3)
spring
Second of a two-part survey of American culture, broadly defined as historically transmitted patterns of meaning expressed in symbolic forms, including ideas, ideals, the arts, and social and economic standards from the age of industrialism and modern America. Cross-listed as HIS 304. Credit is allowed for only AMS 321 or HIS 304.
General Studies: SB, H

W AMS 322 Studies in American Literature. (3)
selected semesters
Topics in American literature. May be repeated for credit when topics vary.

W AMS 323 Studies in American Art and Architecture. (3)
selected semesters
Topics in the visual arts and material culture. May be repeated for credit when topics vary.

W AMS 326 Popular Culture. (3)
selected semesters
Topics in American popular culture, including theories of popular culture; the history and analysis of mass media, including television, film, and the music industry; and vernacular art and the folk tradition. May be repeated for credit when topics vary.

W AMS 327 Regional Cultures. (3)
selected semesters
Examines the concept of regionalism and regional cultures in America with a special emphasis on the Southwest/Borderlands.

W AMS 330 Introduction to American Lives. (3)
fall and spring
Examines American society through the study of autobiography and ethnography.
General Studies: HU

W AMS 332 Studies in Race and Ethnicity. (3)
selected semesters
Topics relating to issues of race and ethnicity in American life. May be repeated for credit when topics vary.

W AMS 334 The American Class System. (3)
selected semesters
Studies in social classes and their function within American society. May be repeated for credit when topics vary.

W AMS 335 American Biography. (3)
selected semesters
Topics in biographies of individuals, comparative biographies, the art of biography, and the function of autobiography. May be repeated for credit when topics vary.

W AMS 342 Writing about American Culture. (3)
selected semesters
Teaches methods of writing cultural criticism, emphasizing the essay form.

W AMS 344 Creative Writing. (3)
selected semesters
Emphasizes the study and practice of creative nonfiction. May be repeated for credit when topics vary.

W AMS 345 Reporting. (3)
selected semesters
Fundamentals of news gathering, interviewing, and in-depth reporting.

W AMS 346 Editing. (3)
selected semesters
Theory and practice of editing.

W AMS 351 Technical Writing. (3)
fall
Computer-based instruction in writing documents for online, oral, and print formats, focusing on audience-centered rhetoric. Hands-on lab. Prerequisite with a grade of "C" (2.00) or higher: ENG 102 or 105.

W AMS 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Comedy Writing. (1)
- Desktop Publishing. (1)
- Magazine Publication. (1)
- Scriptwriting. (1)

W AMS 412 Studies in American Politics and Law. (3)
selected semesters
Topics in American political and legal systems, including social movements in the United States and women and the law. May be repeated for credit when topics vary.

W AMS 414 Military Studies. (3)
selected semesters
Topics in the history of the American military. May be repeated for credit when topics vary.

W AMS 417 Religious Traditions of the American Southwest. (3)
spring
Examines the sacred traditions that have evolved within the North American Southwest context.
General Studies: C

W AMS 422 Studies in American Literature. (3)
selected semesters
Topics in American literature, including contemporary American comic fiction, literature of the American South, literature of American wars, Hispanic chronicles of the Southwest, literature of la Chicana, and American rhetoric. May be repeated for credit when topics vary. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W AMS 428 Chicano Cultures in the Southwest. (3)
fall
Examines and explores Chicana and Chicano culture as place and sentiment. The physical place and space and the sentiment related to Chicanas and Chicanos.
General Studies: SB

W AMS 429 Interdisciplinary Topics. (3)
selected semesters
Senior-level seminar that examines issues relevant to two or more American cultures' fields. Topics may include Southwest/border Hispanic folklore, Southwestern corridos, American art and the city, and the West of the imagination. May be repeated for credit when topics vary.

W AMS 431 Gender Studies. (3)
selected semesters
Topics relating to issues of gender in American life. May be repeated for credit when topics vary.

W AMS 432 Studies in Race and Ethnicity. (3)
selected semesters
Topics relating to issues of race and ethnicity in American life. May be repeated for credit when topics vary.

W AMS 490 Writing Certificate Portfolio. (1)
fall, spring, summer
Preparing a portfolio demonstrating advanced writing skills. Limited to and required of students in the Writing Certificate Program. Prerequisite: completion of course work for Writing Certificate Program.

W AMS 494 Special Topics. (1–4)
fall and spring
Senior-level seminar exploring issues or topics from the perspective of each of the three tracks in American Studies. Topics may include the following:

- American Environment. (3)
- Exploration of America. (3)
- Freelance Photography. (1)
- HTML Creating a Web Page. (1)
- Layout and Design. (1)
- Modernism and Modernity. (3)
- Psychology of Religion. (3)
- Selling Your Writing. (1)
- The 1920s: Age of Experiment. (3)
- Writing Historical Fiction. (1)

W AMS 498 Pro-Seminar. (3)
spring
Senior-level exit seminar for American Studies majors.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

ENGLISH (ENG)

For more ENG courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

ENG Note 1. Completion of the First-Year Composition requirement (ENG 101 and 102 or ENG 105 or ENG 107 and 108 [available at Tempe campus] with a grade of "C" [2.00] or higher) is a prerequisite for all English courses above the 100 level.

W ENG 101 First-Year Composition. (3)
fall, spring, summer
Discovers, organizes, and develops ideas in relation to the writer's purpose, subject, and audience. Emphasizes modes of written discourse and effective use of rhetorical principles.

W ENG 102 First-Year Composition. (3)
fall, spring, summer
Critical reading and writing; emphasizes strategies of academic discourse. Research paper required. Prerequisite with a grade of "C" (2.00) or higher: ENG 101.

W ENG 105 Advanced First-Year Composition. (3)
selected semesters
Concentrated composition course for students with superior writing skills; intensive reading; research papers; logical and rhetorical effectiveness. Not open to students with credit in First-Year Composition.

W ENG 200 Critical Reading and Writing About Literature. (3)
selected semesters
Introduces the terminology, methods, and objectives of the study of literature, with practice in interpretation and evaluation. See ENG Note 1. Prerequisite: English major or minor.
General Studies: L/HU

W ENG 210 Introduction to Creative Writing. (3)
selected semesters
Beginning writing of poetry, fiction, and drama (both stage and screen). Separate sections for each genre. Each genre may be taken once. See ENG Note 1.

W ENG 213 Introduction to the Study of Language. (3)
selected semesters
Language as code; phonetics, phonology, morphology, and syntax; the lexicon; language acquisition; sociolinguistics. See ENG Note 1.

W ENG 219 Newspaper Production. (3)
fall and spring
Students work on campus newspaper to learn basics of news and column writing, digital photography, and layout. Cross-listed as AMS 219. Credit is allowed for only ENG 219 or AMS 219. See ENG Note 1.
General Studies: L

W ENG 221 Survey of English Literature. (3)
fall, spring, summer
Medieval, Renaissance, and 18th-century literature. Emphasizes major writers and their works in their literary and historical contexts. See ENG Note 1.
General Studies: HU, H

W ENG 222 Survey of English Literature. (3)
fall, spring, summer
Romantic, Victorian, and 20th-century literature. Emphasizes major writers and their works in their literary and historical contexts. See ENG Note 1.
General Studies: HU, H

W ENG 241 American Literature. (3)
fall, spring, summer
From colonial times to the Civil War, including the growth of nationalism and romanticism. See ENG Note 1.
General Studies: HU

W ENG 242 American Literature. (3)
fall, spring, summer
From the Civil War to the present. Development of realism, naturalism, and modernism, and contemporary trends in prose and poetry. See ENG Note 1.
General Studies: HU

W ENG 301 Writing for the Professions. (3)
fall, spring, summer
Advanced practice in writing and editing expository prose. Primarily for preprofessional majors. See ENG Note 1.
General Studies: L

W ENG 305 Classical and Biblical Backgrounds to Literature. (3)
selected semesters
Selected readings from the Bible and Greek and Latin literature in translation, emphasizing ideas, forms, and myths related to the development of English literature. See ENG Note 1.
General Studies: HU

W ENG 311 Persuasive Writing. (3)
fall, spring, summer
Advanced writing course that focuses on persuasive writing for diverse audiences. See ENG Note 1.
General Studies: L

W ENG 316 Writing and Arguing Politics. (3)
selected semesters
Logical argumentation and writing, enabling students to analyze and construct arguments. See ENG Note 1.
General Studies: L

W ENG 317 Cross-Cultural Writing. (3)
fall
Cultural differences and their impact on writing and/or their role in miscommunication and misinterpretation. See ENG Note 1.
General Studies: L/HU, G

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

W ENG 323 Rhetoric and Grammar. (3)
fall, spring, summer
Practical course taught in the computer lab. Emphasizes rhetorical strategies and grammar for writers. See ENG Note 1.
General Studies: L

W ENG 337 Major American Novels. (3)
selected semesters
Novels from the 19th century to the present studied in their historical and cultural contexts. See ENG Note 1.
General Studies: L/HU

W ENG 352 Short Story. (3)
once a year
Development of the short story as a literary form; analysis of its technique from the work of representative authors. Cross-listed as AMS 322. Credit is allowed for only ENG 352 or AMS 322. See ENG Note 1.
General Studies: L/HU

W ENG 353 African American Literature: Beginnings through the Harlem Renaissance. (3)
selected semesters
Focuses on the history of African-American literature through the Harlem Renaissance, as exemplified in selected slave narratives, poems, and fiction. See ENG Note 1.
General Studies: L/HU, C

W ENG 354 African American Literature: Harlem Renaissance to the Present. (3)
selected semesters
Examines the literary productions of African-Americans from the Harlem Renaissance (about 1920) to the present focusing on fiction, poetry, drama, and essays. See ENG Note 1.
General Studies: L/HU, C

W ENG 359 American Indian Literature. (3)
selected semesters
Selected oral traditions of American Indians and their influences on contemporary Native American literary works. See ENG Note 1.
General Studies: L/HU, C

W ENG 360 Western American Literature. (3)
selected semesters
Critical examination of ideas and traditions of the literature of the western United States. See ENG Note 1.
General Studies: L/HU

W ENG 363 Chicano Literature. (3)
selected semesters
Development of Chicano literature; study of genres and themes; attention to literary antecedents. See ENG Note 1.
General Studies: HU, C

W ENG 365 History of Film. (3)
selected semesters
Emphasizes American film, with some study of European film. 3 hours lecture, 4 hours of screening. See ENG Note 1.
General Studies: HU

W ENG 369 Science Fiction and Fantasy. (3)
selected semesters
Development of science fiction and fantasy literature. May be repeated for credit when topics vary. See ENG Note 1.
General Studies: HU

W ENG 386 American Gothic. (3)
selected semesters
The development of modern American Gothic as a literary form from Poe to Oates. Emphasizes the short story. See ENG Note 1.
General Studies: L/HU

W ENG 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- American Culture. (3)
- Comedy Writing. (1)
- Desktop Publishing. (1)
- Magazine Publication. (1)
- Research and Writing. (3)
- Scriptwriting. (1)
- Writing. (3)

See ENG Note 1.

W ENG 400 History of Literary Criticism. (3)
fall and spring
Major critics and critical traditions in the western world. Prerequisite: 6 hours of literature or instructor approval. See ENG Note 1.
General Studies: L/HU, H

W ENG 412 Writing for Publication. (3)
fall and spring
Lectures and conferences concerning techniques of writing for publication. May be repeated for credit when topics vary. See ENG Note 1.

W ENG 415 Medieval Literature. (3)
selected semesters
Medieval English and continental literature in translation, emphasizing cultural and intellectual backgrounds. May be repeated for credit when topics vary. See ENG Note 1.
General Studies: HU

W ENG 418 European Renaissance Literature. (3)
selected semesters
Prose, poetry, and drama of Europe and England from 1492-1660 with an emphasis on cultural history. See ENG Note 1.
General Studies: L/HU

W ENG 420 Multicultural Autobiographies. (3)
fall and spring
Examines the human experience via autobiographies and personal narratives. Multicultural, literary, and psychological perspectives on individual lives. Cross-listed as IAS 420. Credit is allowed for only ENG 420 or IAS 420. See ENG Note 1.
General Studies: L/HU, C

W ENG 425 Romantic Poetry. (3)
selected semesters
Poetry of Wordsworth, Coleridge, Shelley, Keats, and Byron. May be repeated for credit when topics vary. See ENG Note 1.

W ENG 431 Whitman and Dickinson. (3)
selected semesters
Evaluates the 19th-century American Literary Renaissance through the specialized examination of its poetry and authors in their historical context. See ENG Note 1.
General Studies: HU

W ENG 432 The American Renaissance. (3)
selected semesters
Novels, poetry, short fiction, and criticism of the major literary figures of the early to mid-nineteenth century. See ENG Note 1.
General Studies: HU

W ENG 433 Southern Writers. (3)
selected semesters
Analyzes Southern culture through the eyes of the region's novelists, short story writers, poets, filmmakers, photographers, and song writers. See ENG Note 1.

W ENG 437 The American Novel, 1900–1960. (3)
selected semesters
Developments in theory and practice of major novelists. See ENG Note 1.
General Studies: L/HU

W ENG 438 American Novel since 1960. (3)
selected semesters
Major novelists of the period. Developments in theory and practice. See ENG Note 1.
General Studies: L/HU

W ENG 450 The British Novel. (3)
selected semesters
Focuses on the British novel from the 18th century to the present. See ENG Note 1.
General Studies: HU

W ENG 454 Gender and Literature. (3)
once a year
Focuses on the representation of gender in literature. See ENG Note 1.
General Studies: L/HU

W ENG 455 Contemporary Women Writers. (3)
once a year
Critical examination of literature by contemporary women writers. May be repeated for credit when topics vary. See ENG Note 1.
General Studies: HU

W ENG 460 Ethnic Women Writers. (3)
fall
Concentrates on selected women writers of the U.S. who are Native American, African American, Hispanic, and Asian-American. Cross-listed as WST 467. Credit is allowed for only ENG 460 or WST 467. See ENG Note 1.
General Studies: L/HU, C

W ENG 462 Africana Literature. (3)
selected semesters
Focuses on the literature of the African Diaspora, including texts from the Caribbean, the Americas, and Africa. May be repeated for credit when topics vary. See ENG Note 1.
General Studies: HU, G

W ENG 463 African-American Literature. (3)
once a year
Thematic and cultural study of African-American literature. See ENG Note 1.
General Studies: HU, C

W ENG 465 History of Film. (3)
selected semesters
Emphasizes American film, with some study of European film. 3 hours lecture, 4 hours of screening. See ENG Note 1.
General Studies: HU

W ENG 473 Shakespeare. (3)
fall and spring
Selection of comedies, histories, and tragedies. See ENG Note 1.

W ENG 476 Folklore in Everyday Life. (3)
selected semesters
Focuses on the discipline of folklore, the theories and methods related to the oral, material, and cultural practices of society. See ENG Note 1.
General Studies: L/SB/HU, C

W ENG 477 World Literature. (3)
spring
Introduces world literature, mostly outside the United States and England. Cross-listed as IAS 477. Credit is allowed for only ENG 477 or IAS 477. See ENG Note 1.
General Studies: L/HU, G

W ENG 478 Modernist Literature. (3)
selected semesters
Focuses on the international nature of Modernist literature. Authors studied may include Proust, Kafka, Joyce, and Woolf. See ENG Note 1.
General Studies: HU

W ENG 479 International Postmodern Literature. (3)
selected semesters
Focuses on the international nature of Postmodernist literature. Authors studied may include Rushdie, Garcia Marquez, and Toni Morrison. See ENG Note 1.
General Studies: HU, G

W ENG 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- HTML Creating a Web Page. (1)
- Layout and Design. (1)
- Selling Your Writing. (1)
- Writing Practicum. (3)

See ENG Note 1.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

HISTORY (HIS)

W HIS 101 Western Civilization. (3)
fall
Traces origin and development of Western societies and institutions from the Renaissance and Reformation through Age of Enlightenment.
General Studies: SB, H

W HIS 102 Western Civilization. (3)
spring
Traces origin and development of Western societies and institutions from the French Revolution to the present.
General Studies: SB, G, H

W HIS 103 The United States. (3)
fall
Growth of the Republic from colonial times through the Civil War period.
General Studies: SB, H

W HIS 104 The United States. (3)
spring
Growth of the Republic from the Civil War period to the present day.
General Studies: SB, H

W HIS 300 Historical Methods. (3)
fall
Introduces the methodological and theoretical tools of history as a scholarly discipline for History majors. Prerequisite: ENG 102 or 105.
General Studies: L, H

W HIS 301 Writing in History. (3)
once a year
Focuses on methods of writing, reasoning, and arguing in American Studies. Emphasizes the drafting of summaries and short arguments. Prerequisite: ENG 101 or 105.
General Studies: L

W HIS 303 American Cultural History I. (3)
fall
First of a two-part survey of American culture, broadly defined as historically transmitted patterns of meaning expressed in symbolic forms, including ideas, ideals, the arts, and social and economic standards from the nation's colonial background and early national period. Cross-listed as AMS 320. Credit is allowed for only HIS 303 or AMS 320.
General Studies: SB, H

W HIS 304 American Cultural History II. (3)
spring
Second of a two-part survey of American culture, broadly defined as historically transmitted patterns of meaning expressed in symbolic forms, including ideas, ideals, the arts, and social and economic standards from the age of industrialism and modern America. Cross-listed as AMS 321. Credit is allowed for only HIS 304 or AMS 321.
General Studies: SB, H

W HIS 305 History of American Systems to 1865. (3)
fall
First of a two-part survey of political, legal, and economic institutions, placed in the context of the nation's colonial background and early national period. Cross-listed as AMS 310. Credit is allowed for only HIS 305 or AMS 310. Prerequisite: ENG 101 or 105.
General Studies: L, C, H

W HIS 306 History of American Systems Since 1865. (3)
spring
Second in a two-part survey of political, legal, and economic institutions, placed in the context of a dynamic industrialist capitalist society, from the age of industrialism and modern America. Cross-listed as AMS 311. Credit is allowed for only HIS 306 or AMS 311. Prerequisite: ENG 101 or 105.
General Studies: H

W HIS 320 19th Century West. (3)
selected semesters
Social, political, and economic development of trans-Mississippi West beginning with Louisiana Purchase and ending in 1900.
General Studies: SB, H

W HIS 331 American Indians. (3)
fall
History of the American Indian with emphasis on the government's Indian policy and the impact of the white man on tribal culture.

W HIS 340 American Military History. (3)
selected semesters
Studies the role of the military in American life during war and peace from colonial times to the present day.
General Studies: SB, H

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

W HIS 355 World History to 1500. (3)
fall
Studies world history to 1500 with emphasis on the connection between regional history and the growth of world civilization.
General Studies: G, H

W HIS 356 World History Since 1500. (3)
spring
Surveys modern European history (1789-present); emphasizes European relations with the non-European world.
General Studies: G, H

W HIS 363 Reformation. (3)
fall
The Protestant and Catholic Reformations in the 16th century. Prerequisite: ENG 101 or 105.

W HIS 377 Women in Europe, 1700–Present. (3)
selected semesters
Historical survey of European women's lives, emphasizing the impact of gender on social, political, economic, and cultural experience. Prerequisite: ENG 102 or 105.
General Studies: H

W HIS 378 20th Century Europe at War, 1900–1945. (3)
fall
Surveys the history of the World Wars in Europe, emphasizing the relationship among military developments, culture, and society.
General Studies: H

W HIS 394 Special Topics in History. (3)
fall and spring
Full description of topics for any semester is available in the department office. May be repeated for credit.

W HIS 406 Civil War and Reconstruction. (3)
spring
Causes and development of the war; political, constitutional, and social issues of Reconstruction and their effects on postwar America. Prerequisite: ENG 101 or 105.
General Studies: L/SB, H

W HIS 411 Contemporary America. (3)
fall
The United States from 1945 to the present. Prerequisite: ENG 101 or 105.
General Studies: L/SB, H

W HIS 419 Topics in American Historical Periods. (3)
spring
Focuses on specific periods in American history. May be repeated for credit when topics vary.

W HIS 423 Mexico. (3)
selected semesters
Political, economic, social, and cultural developments from 1810 to the present.
General Studies: SB, H

W HIS 424 The Hispanic Southwest. (3)
fall
Development of the Southwest in the Spanish and Mexican periods to 1848.
General Studies: SB

W HIS 429 Topics in American Regional History. (3)
fall
Focuses on the history of specific geographic regions within North America. May be repeated for credit when topics vary.

W HIS 430 20th Century Chicano/a History. (3)
selected semesters
Historical development of the Chicano community in the 20th century.

W HIS 431 Social History of American Women. (3)
fall
Examines women's social position in America. In-depth analysis of specific women's issues in terms of change over time. Prerequisite: ENG 101 or 105.
General Studies: SB, C, H

W HIS 439 Topics in American Race, Class, Gender, and Ethnicity. (3)
fall and spring
Emphasizes the use of race, class, gender, and/or ethnicity as categories of historical analysis. May be repeated when topics vary.

W HIS 443 Constitutional History of the United States. (3)
spring
Origin and development of the American constitutional system, from Reconstruction to the present. Prerequisite: HIS 104 or instructor approval.
General Studies: SB, H

W HIS 444 American Urban History. (3)
spring
The history of the city in American life from the 19th century to the present.
General Studies: SB, H

W HIS 449 Topics in American Themes and Issues. (3)
fall
Focuses on significant themes and issues in American history. May be repeated for credit when topics vary.

W HIS 450 Topics in Comparative History. (3)
selected semesters
Comparative history with reference to one or more themes. May be repeated for credit when topics vary.

W HIS 454 History of Genocide. (3)
spring
Examines the individuals and institutions responsible for the most infamous episodes of state-sanctioned violence in the 20th century.
General Studies: G, H

W HIS 462 The African Diaspora. (3)
spring
Enforced dispersal of Africans during the Slave Trade emphasizing its causes, effects on Africa, and the enslaved in the Americas.
General Studies: G, H

W HIS 465 Origins of Racism. (3)
spring
Studies the history of racial discrimination with emphasis on the connection among race, ideology, and the global economy.
General Studies: G, H

W HIS 469 Modern Germany. (3)
spring
Germany since 1840.
General Studies: SB, G, H

W HIS 475 Topics in European Regional/National History. (3)
selected semesters
Focuses on the history of specific geographic regions or nations in Europe. May be repeated for credit when topics vary.

W HIS 482 Topics in European Gender, Ethnicity, and Class. (3)
selected semesters
Emphasizes the use of gender, ethnicity, and/or class as categories of historical analysis. May be repeated for credit when topics vary.

W HIS 487 Topics in European Themes and Issues. (3)
fall
Focuses on significant themes and issues in European history. May be repeated for credit when topics vary.

W HIS 498 History Pro-Seminar. (3)
fall and spring
Introduces historical research and writing. Writing-intensive course related to the development of research skills and writing tools used by historians. Required course for majors on topic selected by instructor. Prerequisite: ENG 101 or 105.
General Studies: L

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

SPANISH (SPA)

For more SPA courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W SPA 101 Elementary Spanish. (4)
fall and spring
Fundamentals of the language. Emphasizes listening, speaking, reading, and writing. Not open to students with credit in SPA 111. 4 hours lecture, 1 hour lab.

W SPA 102 Elementary Spanish. (4)
fall and spring
See SPA 101. Not open to students with credit in SPA 111. Prerequisite: SPA 101 (or its equivalent).

W SPA 107 Spanish for International Professions I. (8)
selected semesters
Accelerated program alternative to SPA 101 and 102 sequence. Functional approach to needs of international professions.

W SPA 201 Intermediate Spanish. (4)
fall and spring
Continuation of fundamentals. Emphasizes the development of the skills of reading, listening comprehension, speaking, writing, and culture. 4 hours lecture, 1 hour lab. Prerequisite: SPA 102 (or its equivalent).

W SPA 202 Intermediate Spanish. (4)
fall and spring
See SPA 201. Prerequisite: SPA 201 (or its equivalent).

W SPA 207 Spanish for International Professions II. (8)
selected semesters
Continuation of SPA 107, alternative to SPA 201 and 202 sequence. Expansion of communicative proficiency in specific areas of international professions. Prerequisite: SPA 107 or instructor approval.

W SPA 311 Spanish Conversation. (3)
fall
Designed primarily for monitors to promote vocabulary building and communicative expression in Spanish through discussions based on cultural readings. Prerequisite: SPA 202 (or its equivalent).

W SPA 312 Spanish Conversation. (3)
spring
See SPA 311. Prerequisite: SPA 202 (or its equivalent).

W SPA 313 Spanish Conversation and Composition. (3)
fall
Designed to develop skill and accuracy in spoken and written Spanish. Required of majors; SPA 313 and 314 must be taken in sequence. Prerequisite: SPA 202 (or its equivalent).
General Studies: G

W SPA 314 Spanish Conversation and Composition. (3)
spring
See SPA 313. Prerequisite: SPA 202 (or its equivalent).
General Studies: G

W SPA 325 Introduction to Hispanic Literature. (3)
selected semesters
Critical approach to and analysis of literary types, including poetry, drama, short story, and novel. Required of all majors. Prerequisite: SPA 202.

W SPA 412 Advanced Conversation and Composition. (3)
selected semesters
Oral and written Spanish communication skills, with particular attention given to developing fluency and facility. Required of majors. Prerequisite: SPA 314 or instructor approval.
General Studies: G

W SPA 413 Advanced Spanish Grammar. (3)
selected semesters
Intensive analysis of the Spanish language. Required of teaching majors. Prerequisite: SPA 314 or instructor approval.

W SPA 425 Spanish Literature. (3)
selected semesters
Surveys Spanish literature from its beginning to the present. Prerequisite: SPA 325.

W SPA 426 Spanish Literature. (3)
selected semesters
Surveys Spanish literature from 1700 to the present. Prerequisite: SPA 325.
General Studies: HU

W SPA 427 Spanish-American Literature. (3)
selected semesters
Surveys major works, figures, and movements from Colonial period to 1880. Prerequisite: SPA 325.

W SPA 428 Spanish-American Literature. (3)
selected semesters
Surveys major works, figures, and movements from 1880 to the present. Prerequisite: SPA 325.

W SPA 464 Mexican American Literature. (3)
selected semesters
Representative literature in Spanish and English by Mexican Americans, emphasizing sociocultural as well as literary values. Prerequisite: SPA 325.
General Studies: HU, C

W SPA 472 Spanish-American Civilization. (3)
selected semesters
Growth of the institutions and cultures of Spanish-American people. Prerequisite: SPA 314 or instructor approval.
General Studies: HU

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

WRITING ACROSS THE CURRICULUM (WAC)

For more WAC courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W WAC 101 Introduction to Academic Writing. (3)
fall and spring
Combines classroom and supplemental instruction to teach academic genres of writing, including definition, summary, and analysis.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Department of Mathematical Sciences and Applied Computing

www.west.asu.edu/msac

CLCC 250

Roger Berger, Chair

Professor: Berger

Associate Professors: Borror, Dietrich

Assistant Professors: Wang, Zhang

Lecturers: Inman, Vakilzadeh

The Department of Mathematical Sciences and Applied Computing has responsibility for mathematics, statistics, and the BS in Applied Computing. The department offers a minor in mathematics and the academic specialization in mathematics for Secondary Education majors.

APPLIED COMPUTING—BS

Nature of the Program

The information revolution, which has produced the fastest growing economic sector and related demand for jobs, has created the need for a new kind of professional: someone who is skilled in locating, creating, organizing, filtering,

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

manipulating, presenting, and disseminating information. The mission of the BS in Applied Computing is to educate such knowledge-work professionals.

The program prepares students to understand how to collect and analyze data; allow for efficient, effective, and ethical user interaction with systems; employ management skills to direct the development and deployment of technology systems; engage in creative efforts; and develop and assure the quality of information and its value to those who will use it.

The Applied Computing program has both a technical component, concerned with the design and use of appropriate systems and technologies, and a social sciences component, concerned with understanding how people seek, obtain, evaluate, use, and categorize information. It rests on a solid foundation of work in mathematics, technology, and humanities and social sciences and offers a choice of concentrations in database management, networks, or digital media and design. Technical, communication, and creative skills couple with a significant internship to provide experience in applying technical expertise and creative abilities to information processes, systems, and contexts.

Career Outlook

Students who complete a BS in Applied Computing are prepared to integrate technology with human activities and to respond to global changes, solve problems, and create and manage the technological production of information and creative products. Core information technology industries are among the fastest growing sectors in the U.S. economy. Graduates of the Applied Computing program will find employment opportunities with corporations and businesses, nonprofit and government agencies, digital arts media industries, and in the academic world.

Major Requirements

The Applied Computing major consists of 60 to 61 semester hours with a grade of "C" (2.00) or higher.

Liberal Arts Cluster

Choose four liberal arts courses*			12
Choose one of the following ethics/diversity courses			3
COM	457	New Media (3)	
IAP	464	Media and Diversity (3)	
IAS	406	Moral Dilemmas *L/HU* (3)	
Program total			60–61

* The liberal arts courses must be chosen in consultation with an advisor, and at least nine semester hours must be upper-division courses.

Internship and/or Individualized Instruction. The internship and/or individualized instruction experience is an integral component of the program. Six semester hours of Internship (484) and/or Individualized Instruction (499) is required. At the close of the program, the student must submit a significant paper documenting the experience and make a formal presentation.

MINOR IN MATHEMATICS

Nature of Program

The minor in Mathematics explores the study of higher mathematics. It is designed to enable the student to understand the mathematics most commonly used in business, economics, and science. It is expected that students in the minor will be able to reason, and to find creative solutions to problems that were either presented to them or meaningfully formulated by them. The minor is recommended for students who plan to major in integrative studies, life sciences, and business, as well as those who are preparing for further graduate study.

Requirements

The minor in Mathematics consists of a minimum of 27 semester hours, of which nine semester hours must be taken in the Mathematical Sciences and Applied Computing Department.

Required Courses:

MAT	270	Calculus with Analytic Geometry I *MA*	4
MAT	271	Calculus with Analytic Geometry II *MA*	4
MAT	272	Calculus with Analytic Geometry III *MA*	4
MAT	300	Mathematical Structures	3
MAT	342	Linear Algebra	3
Choose three electives from the following courses*			9
MAT	310	Introduction to Geometry (3)	

MAT 371 Advanced Calculus I (3)
MAT 411 History and Philosophy of Mathematics *HU, H* (3)
MAT 443 Abstract Algebra (3)
MAT 445 Theory of Numbers (3)
STP 420 Introductory Applied Statistics *CS* (3)

Total 27

* Select three of these courses, or other approved course, in consultation with a departmental advisor.

SECONDARY EDUCATION—BAE

Mathematics Specialization

The requirements for the Bachelor of Arts in Secondary Education with a specialization in Mathematics consist of the Professional Teacher Preparation Program for secondary majors (see the "College of Teacher Education and Leadership" section of this catalog) and 36 semester hours in mathematics, of which 21 must be upper division.

Lower-Division Required Courses

Choose one of the following courses 3
ACO 101 Introduction to Computer Science *CS* (3)
CIS 200 Computer Applications and Technology *CS* (3)
M CSE 110 Principles of Programming with Java *CS* (3)
CSE 180 Computer Literacy *CS* (3)
M CSE 181 Applied Problem Solving with Visual BASIC *CS* (3)
MAT 270 Calculus with Analytic Geometry I *MA* 4
MAT 271 Calculus with Analytic Geometry II *MA* 4
MAT 272 Calculus with Analytic Geometry III *MA* 4

Total 15

Upper-Division Required Courses

MAT 300 Mathematical Structures 3
MAT 310 Introduction to Geometry 3
MAT 342 Linear Algebra 3
MAT 371 Advanced Calculus I 3
MAT 411 History and Philosophy of Mathematics *HU, H* 3
MAT 443 Abstract Algebra 3
or MAT 445 Theory of Numbers (3)
STP 420 Introductory Applied Statistics *CS* 3

Program total 36

APPLIED COMPUTING (ACO)

W ACO 100 Overview of Applied Computing. (3)
fall and spring
Internet and HTML, XML, databases, networks and distributed processing, digital media and graphic design. Opportunities, professionalism, and ethics.
General Studies: CS

W ACO 101 Introduction to Computer Science. (3)
fall and spring
Concepts of problem solving, structured and object-oriented programming in Java, fundamental algorithms, computer system concepts. Social and ethical responsibilities. Prerequisite: MAT 117.
General Studies: CS

W ACO 102 Principles of Computer Science. (3)
fall and spring
Issues and concepts throughout computer science, including software development, data organization, machine architecture, algorithmic machines, and ethics in computing. Java programming. Fee. Prerequisite: ACO 101.
General Studies: CS

W ACO 201 Data Structures and Algorithms. (3)
fall
Static and dynamic data structures, recursive and iterative sorting and searching, object-oriented design and programming, software design models and implementation/testing strategies, professional responsibilities. Fee. Prerequisites: ACO 102; MAT 210.
General Studies: CS

W ACO 210 Introduction to Systems Programming. (3)
spring
Introduces operating systems as resource managers, processes, threads, memory allocation, file systems, protection, system calls, application program interfaces. Fee. Prerequisite: ACO 201.
General Studies: CS

W ACO 220 Introduction to Database Systems. (3)
spring
Introduces database management systems concepts. Entity-relationship and relational data models. Database design. Relational algebra, calculus, and SQL query languages. Query optimization. Fee. Prerequisites: ACO 201; MAT 243.
General Studies: CS

W ACO 320 Database Systems and Transaction Processing. (3)
fall
Relational database normalization theory, stored procedures, triggers, and call-level interface. Data-centric XML. Transaction processing in centralized and distributed databases. Security. Fee. Prerequisite: ACO 220.

W ACO 420 Object Databases. (3)
spring
Object-oriented conceptual modeling, object-oriented databases, object-relational databases, applications. Fee. Prerequisite: ACO 320.

W ACO 421 Data Mining and Warehousing. (3)
fall
Introduces data mining from a database perspective, including classification, clustering, and association rules. Data warehousing methodologies. Fee. Prerequisite: ACO 320.

W ACO 422 XML and Databases. (3)
spring
XML data model, schema specification and validation, querying, storage, indexing, and current research topics. Fee. Prerequisite: ACO 320.

W ACO 484 Internship. (1–12)
selected semesters

W ACO 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

MATHEMATICS (MAT)

For more MAT courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W MAT 106 Intermediate Algebra. (3)
fall and spring
Topics from basic algebra such as linear equations, polynomials, factoring, exponents, roots, and radicals. Prerequisite: 1 year of high school algebra.

W MAT 117 College Algebra. (3)
fall and spring
Linear and quadratic functions, systems of linear equations, logarithmic and exponential functions, sequences, series, and combinatorics. Prerequisite: MAT 106 or 2 years of high school algebra.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

W MAT 119 Finite Mathematics. (3)
fall and spring
Topics from linear algebra, linear programming, combinatorics, probability, and mathematics of finance. Prerequisite: MAT 117 (or its equivalent).
General Studies: MA

W MAT 142 College Mathematics. (3)
fall and spring
Applies basic college-level mathematics to real-life problems. Appropriate for students whose major does not require MAT 117 or 170. Prerequisite: MAT 106 or 2 years of high school algebra.
General Studies: MA

W MAT 170 Precalculus. (3)
fall and spring
Intensive preparation for calculus (MAT 270). Topics include functions (including trigonometric), matrices, polar coordinates, vectors, complex numbers, and mathematical induction. Prerequisite with a grade of "B" (3.00) or higher: MAT 106. Prerequisite with a grade of "C" (2.00) or higher: MAT 117 or two years of high school algebra.
General Studies: MA

W MAT 210 Brief Calculus. (3)
fall and spring
Differential and integral calculus of elementary functions with applications. Not open to students with credit in MAT 260 or 270 or 290. Prerequisite: MAT 117 (or its equivalent).
General Studies: MA

W MAT 243 Discrete Mathematical Structures. (3)
fall
Logic, sets, functions, elementary number theory and combinatorics, recursive algorithms, and mathematical reasoning, including induction. Emphasizes connections to computer science. Prerequisite: 1 semester of calculus or computer programming.

W MAT 270 Calculus with Analytic Geometry I. (4)
selected semesters
Real numbers, limits and continuity, and differential and integral calculus of functions of 1 variable. Not open to students with credit in MAT 290. Prerequisite with a grade of "C" (2.00) or higher: MAT 170 or satisfactory score on placement examination.
General Studies: MA

W MAT 271 Calculus with Analytic Geometry II. (4)
selected semesters
Methods of integration; applies calculus, elements of analytic geometry, improper integrals, sequences, and series. Not open to students with credit in MAT 291. Prerequisite with a grade of "C" (2.00) or higher: MAT 270 (or its equivalent).
General Studies: MA

W MAT 272 Calculus with Analytic Geometry III. (4)
selected semesters
Vector-valued functions of several variables, multiple integration, and introduction to vector analysis. Prerequisite with a grade of "C" (2.00) or higher: MAT 271 (or its equivalent).
General Studies: MA

W MAT 300 Mathematical Structures. (3)
fall
Introduces rigor and proof in mathematics. Basic logic, set theory, mathematical induction, combinatorics, functions, relations, and problem solving. Prerequisites: both ENG 101 (or 105) and one semester of calculus or only instructor approval.

W MAT 310 Introduction to Geometry. (3)
spring
Congruence, area, parallelism, similarity and volume, and Euclidean and non-Euclidean geometry. Prerequisite: MAT 272 (or its equivalent).

W MAT 342 Linear Algebra. (3)
once a year
Linear equations, matrices, determinants, vector spaces, bases, linear transformations and similarity, inner product spaces, eigenvectors, orthonormal bases, diagonalization, and principal axes. Prerequisite: MAT 272 (or its equivalent).

W MAT 371 Advanced Calculus I. (3)
fall
Continuity, Taylor's theorem, partial differentiation, implicit function theorem, vectors, linear transformations and norms in Rn, multiple integrals, and power series. Prerequisites: MAT 300, 342.

W MAT 411 History and Philosophy of Mathematics. (3)
once a year
Examines nature of mathematics from origins to present, revealed by its history and philosophy. Strong background in mathematics not required. Cross-listed as IAS 411. Credit is allowed for only MAT 411 or IAS 411.
General Studies: HU, H

W MAT 443 Abstract Algebra. (3)
spring
Introduces the most important algebraic structures, including groups, rings, integral domains, and fields. Prerequisites: both MAT 300 and 342 or only instructor approval.

W MAT 445 Theory of Numbers. (3)
spring
Prime numbers, unique factorization theorem, congruences, Diophantine equations, primitive roots, and quadratic reciprocity theorem. Prerequisites: both MAT 300 and 342 or only instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

STATISTICS AND PROBABILITY (STP)

For more STP courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W STP 220 Conceptual Statistics. (3)
fall and spring
Concepts and vocabulary needed to evaluate statistical reports on health, technology, and society. Aggressively emphasizes understanding over computation. Lecture, teamwork. Prerequisite: MAT 117 or 142.
General Studies: CS

W STP 226 Elements of Statistics. (3)
fall and spring
Basic concepts and methods of statistics, including descriptive statistics, significance tests, estimation, sampling, and correlation. Prerequisite: MAT 117 or 142.
General Studies: CS

W STP 300 Introduction to Probability. (3)
spring
Probability models and computations, joint and conditional distributions, moments, families of distribution, stochastic processes, simulation. Prerequisite: MAT 210.

W STP 420 Introductory Applied Statistics. (3)
once a year
Introductory probability, descriptive statistics, sampling distributions, parameter estimation, tests of hypotheses, chi-square tests, regression analysis, analysis of variance, and nonparametric tests. Prerequisite: MAT 117 (or its equivalent).
General Studies: CS

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Religious Studies Program

602/543-6003
FAB N281

Linda Stryker, Director

MINOR IN RELIGIOUS STUDIES

The minor in Religious Studies consists of 21 semester hours of religious studies course work, of which 18 must be upper-division hours. Fifteen semester hours of campus resident credit is required. Only courses in which the student earns a minimum grade of "C" (2.00) can be counted toward the minor. Courses are to be selected in consultation with the religious studies director to create a coherent and complete program of study for the minor.

Requirements

Choose one from the following courses.....3
- AMS 417 Religious Traditions of the American Southwest *C* (3)
- REL 320 Religion in America *HU, H* (3)
- REL 321 Religion in America *L/HU, H* (3)
- REL 420 Religion in American Life and Thought (3)

Choose two from the following courses 6
- M ENG 424 Milton *HU* (3)
- HIS 363 Reformation (3)
- REL 305 Ritual, Symbol, and Myth (3)
- REL 390 Women and World Religions *L/SB, G* (3) or WST 390 Women and World Religions *L/SB, G* (3)
- REL 494 ST: Psychology of Religion (3) or AMS 494 ST: Psychology of Religion (3)
- REL 494 ST: Science and Religion (3) or IAS 494 ST: Science and Religion (3)

Choose at least one special topics course[1] 3

Religious Studies Electives

Choose three additional religious studies courses[2].....9

Program total.....21

[1] Select from the following prefixes: AMS, COM, IAS, REL, WST. Examples of topics may include Spiritual Narratives, Communication as Theology, Testimony in a Post-Metaphysical World, The Goddess Religions, and Gender and the Environment.

[2] These courses, or other approved courses, must be chosen in consultation with the director, and may include Internship (484) and/or Individual Instruction (499).

RELIGIOUS STUDIES (REL)

For more REL courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W REL 100 Religions of the World. (3)
fall
Introduces the history of religious traditions of the world, including Buddhism, Christianity, Hinduism, Islam, Judaism, and others. Credit is allowed for only REL 100 or 200.
General Studies: HU, G

W REL 200 The Study of Religious Traditions. (3)
selected semesters
Writing-intensive course introducing analytical skills necessary for understanding religious traditions. Beliefs, practices, and communities of several religious traditions of the world. Credit is allowed for only REL 200 or 100. Prerequisite: ENG 101 or 105.
General Studies: L/HU, G

W REL 201 Religion and the Modern World. (3)
selected semesters
Introduces the nature and role of religious beliefs and practices in shaping the lives of individuals and societies, with particular attention to the modern world. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W REL 202 Religion and Popular Culture. (3)
selected semesters
Explores various intersectors between religion and the popular media, including music, news, advertising, the visual arts, literature, performance, and film. Lecture, discussion.
General Studies: HU, C

W REL 203 Saints and Sinners: Explorations in Sacred Biography. (3)
selected semesters
Compares the role of biography across religions to examine the process of categorizing people as saints or sinners. Lecture, discussion.
General Studies: HU, H

W REL 305 Ritual, Symbol, and Myth. (3)
fall and spring
Ritual, symbol, and myth as types of religious expression, with examples selected from the nonliterate religions of the world. Prerequisite: ENG 101 or 105.

W REL 320 Religion in America. (3)
fall
The emergence of religious ideas and institutions up to the Civil War.
General Studies: HU, H

W REL 321 Religion in America. (3)
spring
The emergence of religious ideas and institutions from the Civil War to the present. Prerequisite: ENG 101 or 105.
General Studies: L/HU, H

W REL 390 Women and Religion. (3)
selected semesters
The role of women in several organized religions and/or religious sects, including a study of myth and symbols as they are used to establish, maintain, and enforce sex roles within specific religions. Prerequisite: ENG 101 or 105.
General Studies: L/SB, G

W REL 420 Religion in American Life and Thought. (3)
fall
The influence of religion on American society, culture, and ideas; the distinctive character of religion in America. Prerequisite: REL 321 recommended.

W REL 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Psychology of Religion. (3)
- Science and Religion. (3)

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

Department of Social and Behavioral Sciences

www.west.asu.edu/sbs
602/543-6058
FAB N250-1

Barbara Tinsley, Chair

Professors: Keil, Kirby, Mueller, Náñez, Tinsley

Associate Professors: Ávalos, Burleson, Coon, Gutierres, Koptiuch, Miller, Murphy Erfani, Robles, Vaughan

Assistant Professors: Anastasi, Cabrera, Champion, Glavac, Guevarra, Juris, McQuiston-Surrett, Plascencia, Simmons

Senior Lecturer: Wosinska

Lecturer: Ackroyd

The Department of Social and Behavioral Sciences offers students the opportunity to enroll in traditional social and behavioral science courses (anthropology, family studies, geography, political science, psychology, and sociology), as well as interdisciplinary courses. The faculty offers interdisciplinary Bachelor of Arts and Bachelor of Science degree programs in Social and Behavioral Sciences and Bachelor of Arts and Bachelor of Science degree programs in Political Science, Psychology, and Sociology.

SOCIAL AND BEHAVIORAL SCIENCES—BA AND BS

Nature of the Programs

The Bachelor of Arts and Bachelor of Science programs in Social and Behavioral Sciences provide an interdisciplinary foundation in the social and behavioral science disciplines. The objective of the Social and Behavioral Sciences degree program is to

1. provide a basic understanding of the assumptions underlying the social and behavioral sciences;
2. develop the research skills necessary for the analysis of complex social issues;
3. offer a flexible program tailored to the career goals of the individual student; and
4. offer both individual and group experiences in working with faculty on concrete intellectual and policy issues.

The interdisciplinary program is designed to provide students with a substantive understanding of the theoretical assumptions and methodological techniques underlying the latter. Students can choose either a social science (ISS) or a behavioral science (IBS) emphasis. Each contains a number of course clusters: in the ISS emphasis they are titled Identity/Difference, Power/Knowledge and Local/Global; in the IBS emphasis they are titled Biological Foundations, The Individual and the Family, and The Individual and the Group. All courses provide students with knowledge about the biological and/or social principles related to the behavior of individuals across multiple social contexts and institutions (family, community, society, and culture). For more information, contact the department.

Career Outlook

The interdisciplinary degrees are an excellent means of creating a degree program that matches the individual's interests and fulfills many employers' expectations of a baccalaureate degree, namely that it should expose the student to a variety of outlooks and challenges. Such a degree will be competitive in most situations where the disciplinary social and behavioral degrees are accepted and is advantageous when seeking entry to broad professional programs such as regional planning or urban studies.

Major Requirements

The Bachelor of Arts or Bachelor of Science in Social and Behavioral Sciences consists of 45 semester hours of required course work. Students must select one of two emphases: Interdisciplinary Social Sciences or Interdisciplinary Behavioral Sciences. Each emphasis consists of

1. required interdisciplinary core in theory and methodology;
2. cluster requirements; and
3. electives.

Interdisciplinary Social Sciences Emphasis for BA

Core Requirements for BA

SBS	300	Interdisciplinary Approaches to Social and Behavioral Sciences *SB*	3

1 Choose courses from the department.
2 Choose elective courses with these prefixes: ASB, FAS, GCU, POL, PGS, SBS, or SOC.

Alternative Options for Electives in Either Emphasis. All course substitutions must be appropriately related to the student's interdisciplinary program of study within the major, as determined in consultation with and approved by a faculty advisor. A grade of "C" (2.00) or higher is required of all substitutions. The student may elect to combine options (1) up to 12 semester hours of lower-division courses in any of the social sciences for the ISS emphasis, or the behavioral sciences for the IBS emphasis; or (2) up to six semester hours of upper-division courses taken in related fields outside the SBS department; or (3) Senior Thesis—a two-course sequence, six semester hours: SBS 490 and 491. Under the supervision of an SBS faculty member, students conduct research and write up the results as the Senior Thesis. The Senior Thesis is optional but strongly encouraged. For students who complete a thesis, the degree is posted on the transcript with the notation "with Senior thesis."

Minor in Social and Behavioral Sciences

The minor offers students an interdisciplinary focus across several fields of the social and behavioral sciences, including sociocultural anthropology, geography, political science, psychology, and sociology.

The minor consists of 18 semester hours, at least 12 semester hours of which must be in upper-division courses. All courses must be completed with a minimum grade of "C" (2.00). Students wishing to pursue a minor must meet with an SBS faculty advisor to construct a minor that reflects a particular area of specialty and interest.

Requirements
SBS 300 Interdisciplinary Approaches to Social and Behavioral Sciences *SB* 3
SBS 302 Qualitative Methods 3
or SBS 303 Quantitative Methods (3)
Electives* 12

* Choose courses from at least two fields of social and behavioral sciences, including SBS and excluding internships or individualized instruction.

POLITICAL SCIENCE—BA AND BS

Nature of the Program

The Political Science degree program is designed to help students gain an understanding of theory, practice and policy underlying political processes locally, nationally and internationally, as well as to train students in research skills necessary for the analysis of complex sociopolitical issues locally and globally. The program strives to meet these goals by offering students learner-centered course work in political theory, American political institutions, and international relations and world affairs. These goals are accomplished by offering a flexible program of course work focusing on international, urban, and race/ethnic sociopolitical areas, internships, and service-learning/action research opportunities. Under the direction of faculty, students throughout the degree program focus on intellectual and

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

concrete policy issues in the greater Phoenix metropolitan area, Arizona, the Arizona-Mexico borderlands, the Americas, and the world.

Career Outlook

The Political Science major provides students with the background and skills necessary to gain employment in a relevant profession or to continue their studies in graduate degree programs in political science, social science disciplines, urban planning, or in professional schools. The baccalaureate degree in Political Science is also a good precursor to staff, manager, or policy analyst positions in local, state, and federal government. Some graduates work in the U.S. Foreign Service; as policy analysts/aides in Congress or in state legislatures; some are elected to those bodies. Alternate careers can be found in linking business interests and legislators. In addition, a Political Science degree is a recognized qualification for many careers in business (for profit and nonprofit) and industry, particularly as firms become more global in scope. Some graduates may work in binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government, or local community groups on both sides of the border. Some students view a degree in Political Science as a valuable gateway to law school; many use the degree as a basis for further study in such applied fields as urban affairs/urban and regional planning, public administration, public policy, or community development.

Major Requirements

Bachelor of Arts. The Bachelor of Arts degree in Political Science consists of 42 semester hours, of which 12 are core requirements, 18 are political science electives, and 12 are electives in related fields or in POL internships. For the BA, at least 15 semester hours in political science must be in upper-division courses.

Required Core

POL 101 Political Ideologies *SB* 3
or POL 340 Political Theory *SB*/*HU* (3)
POL 110 Government and Politics *SB* 3
or POL 310 American National Government: Ideas and Institutions *SB, H* (3)
POL 160 Global Politics *SB, G* 3
or POL 360 World Politics Theory *SB, G* (3)
SBS 302 Qualitative Methods 3
or SBS 303 Quantitative Methods (3)
Political science electives[1] 18
Electives in internships and related fields[2] 12

[1] Electives exclude POL internships.

[2] Choices include POL 484 Internship (six semester hours maximum), or courses from anthropology, communication studies, criminal justice and criminology, economics, geography, history, psychology, social and behavioral sciences, sociology, and women's studies, or other courses approved by the departmental advisor.

Bachelor of Science. The Bachelor of Science degree in Political Science consists of 48 semester hours, including all of the core requirements and electives listed for the BA degree. Six additional semester hours are required for the BS degree, including three semester hours in political science and three semester hours in SBS 304 Social Statistics I (CS). For the BS, at least 21 semester hours in political science must be in upper-division courses.

Minor in Political Science

The minor in Political Science consists of 18 semester hours in POL courses, 12 of which must be in upper-division courses.

Minor Requirements

Core Courses (Minimum of Three Upper-Division Hours)

POL 101 Political Ideologies *SB* 3
or POL 340 Political Theory *SB*/*HU* (3)
POL 110 Government and Politics *SB* 3
or POL 310 American National Government: Ideas and Institutions *SB, H* (3)
POL 160 Global Politics *SB, G* 3
or POL 360 World Politics Theory *SB, G* (3)
Political science electives* 9

* A maximum of three semester hours of internship and three semester hours of individualized instruction may be used to fulfill requirements.

PSYCHOLOGY—BA AND BS

Nature of the Program

Psychology is the scientific study of the behavior and mental processes of individuals and groups. The West campus program provides a diverse curriculum of basic and applied courses that cover multiple perspectives within the field, including clinical, cognitive systems/behavioral neuroscience, cross-cultural, developmental, organizational, and social psychology. Courses are presented in the context of cultural, sociohistorical, and transnational issues, enabling the student to understand the relationship between psychology and other social and behavioral sciences.

Students may add practical experiences to enrich their program of study through service learning, internships, and research with individual faculty members. A strong emphasis is placed on developing skills in critical thinking and reasoning, quantitative and qualitative research methods, and writing to round out the student's preparation for a career or graduate studies.

Career Outlook

A baccalaureate degree in psychology is a logical choice for careers in the mental health professions, the social services, education, government, and many areas of business, (e.g., sales and marketing, human services management). It is also an excellent foundation for graduate study in fields such as public administration, law, family studies, communication, and the various programs of psychology such as clinical and counseling, developmental, environmental, experimental, physiological, cognitive neuroscience, and social.

Major Requirements

The Bachelor of Arts and the Bachelor of Science programs in Psychology consist of 31 semester hours in psychology and 18 semester hours of related course work, including at least 15 upper division semester hours. Required course work in the major, or the equivalent, must be passed with a minimum grade of "C" (2.00). Psychology

internships may not be used to fulfill psychology credit requirements; however, a maximum of six semester hours may be applied toward the related course work requirement. No more than a total of three semester hours in PGS 399 Supervised Research or PGS/PSY 499 Individualized Instruction may be used to complete the major requirements.

Required Courses

Lower-Division Required Courses
PGS 101 Introduction to Psychology *SB*.....3
PSY 230 Introduction to Statistics *CS*.....3
PSY 290 Research Methods *SG*.....4

Upper-Division Required Psychology Courses
Choose one from the following courses.....3
PGS 315 Personality Theory and Research *SB* (3)
PGS 341 Developmental Psychology *SB* (3)
PGS 350 Social Psychology *SB* (3)
Choose one from the following courses.....3
PSY 323 Sensation and Perception (3)
PSY 324 Memory and Cognition *SB* (3)
PSY 325 Physiological Psychology (3)

Additional Required Psychology Courses
One additional upper-division PSY course (excluding PSY 394, 494, and 499).....3
Two additional upper-division psychology courses (PGS or PSY).....6
Two additional psychology courses (excluding PGS 270).....6

Related Course Work Requirements

Choose courses related to psychology that are approved by an advisor and include one of the following courses.....18
W CSE 180 Computer Literacy *CS* (3)
M CSE 185 Internet and the World Wide Web (3)

For the Bachelor of Arts in Psychology
MAT 119 Finite Mathematics *MA* (3)
or higher-level math course

For the Bachelor of Science in Psychology*
MAT 210 Brief Calculus *MA* (3)
One life science lab course from biology, life sciences, microbiology, or zoology (3)
One physical science lab course from astronomy, chemistry, geology, or physics (3)

* The lab science courses are taken to satisfy the BA and the BS requirements (including PSY 290) are in addition to the lab science courses used to meet the University General Studies requirement.

Minor in Psychology

The minor consists of 22 semester hours in psychology, including the following:

Lower-Division Required Courses
PGS 101 Introduction to Psychology *SB*.....3
PSY 230 Introduction to Statistics *CS*.....3
PSY 290 Research Methods *SG*.....4

Upper-Division Required Courses
Choose one from the following courses.....3
PGS 315 Personality Theory and Research *SB* (3)
PGS 341 Developmental Psychology *SB* (3)
PGS 350 Social Psychology *SB* (3)
Choose one from the following courses.....3
PSY 323 Sensation and Perception (3)
PSY 324 Memory and Cognition *SB* (3)
PSY 325 Physiological Psychology (3)
PGS or PSY upper-division electives.....6
Total.....22

A maximum of three semester hours of research (PGS 399 Supervised Research and PGS/PSY 499 Individualized Instruction) may be used to meet the minor requirements. Students with an appropriate equivalent course may exclude PSY 230 Introduction to Statistics and PSY 290 Research Methods from the requirements with prior approval of the psychology advisor. PGS 484 Internship may be taken for elective credit only. All courses must be passed with a minimum grade of "C" (2.00) or higher.

SOCIOLOGY—BA AND BS

Nature of the Program

The Sociology program provides students with an understanding of theory, practice, and policy underlying issues of social change and of inequality and diversity from multiple perspectives, including race/ethnicity, gender, economic position, age, geographic location, and position in the global political economy. The student majoring in sociology will learn how it enhances one's understanding of social realities and institutions at local, national, and international levels, and how sociology contributes to the other social sciences and to the humanities. Students gain a basic understanding of the assumptions underlying the discipline of sociology and develop the research skills necessary for analysis of complex social issues. These objectives are met by offering a flexible program and by providing the student with individual and group experiences in working with faculty on concrete intellectual and policy issues.

Career Outlook

Graduates with a baccalaureate degree in sociology apply the sociological perspective to a wide variety of jobs in business, the health professions, the criminal justice system, social services, and government. The discipline also offers valuable preparation for careers in journalism, politics, public relations, or public administration, all fields that involve investigative skills and an ability to work with diverse groups. Graduates with an advanced degree in sociology may become research analysts, survey researchers, gerontologists, statisticians, urban planners, community developers, criminologists, or demographers.

Major Requirements

The Sociology major consists of 45 semester hours, of which 30 to 33 must be in SBS or SOC courses and 12 to 15 in closely related fields approved by the faculty advisor in consultation with the student. At least 18 semester hours must be in upper-division courses. The 30 semester hours must include:

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

BA in Sociology

Required Core for the BA

SBS 302 Qualitative Methods 3
or SBS 303 Quantitative Methods (3)
SBS 304 Social Statistics I *CS* 3
SOC 101 Introductory Sociology *SB* 3
or SOC 301 Principles of Sociology *SB* (3)
SOC 486 Contemporary Theory *SB* 3

Cluster Requirements for the BA

Choose from the following clusters[1] 18
Culture and Power
Social Conflict and Change
Family, Work, and Community
Social Inequality: Race, Class, and Gender
Electives[2] 15

Total 45

[1] Choose one course from three of four clusters for nine semester hours, and three additional courses for nine semester hours from any of the four clusters.

[2] Choose courses in sociology or related fields: anthropology, American studies, criminal justice and criminology, geography, integrative studies, political science, psychology, and women's studies.

BS in Sociology

Required Core for the BS

SBS 302 Qualitative Methods 3
SBS 303 Quantitative Methods 3
SBS 304 Social Statistics I *CS* 3
SOC 101 Introductory Sociology *SB* 3
or SOC 301 Principles of Sociology *SB* (3)
SOC 486 Contemporary Theory *SB* 3

Cluster Requirements for the BS

Choose from the following clusters[1] 18
Culture and Power
Social Conflict and Change
Family, Work, and Community
Social Inequality: Race, Class, and Gender
Electives[2] 12

Total 45

[1] Choose one course from three of four clusters for nine semester hours, and three additional courses for nine semester hours from any of the four clusters.

[2] Choose courses in sociology or related fields: anthropology, American studies, criminal justice and criminology, geography, integrative studies, political science, psychology, and women's studies.

Minor in Sociology

The minor in Sociology requires 18 semester hours in sociology, nine of which must be upper division.

Required Core

SBS 303 Quantitative Methods 3
SBS 304 Social Statistics I *CS* 3
or SOC 486 Contemporary Theory *SB* (3)
SOC 101 Introductory Sociology *SB* 3
or SOC 301 Principles of Sociology *SB* (3)
Sociology Electives* 12

* These courses must be chosen in consultation with the student's advisor.

MINOR IN INTERDISCIPLINARY ORGANIZATIONAL STUDIES

Nature of the Program

The minor in Interdisciplinary Organizational Studies is designed to increase students' understanding of the behavior and the dynamics of individual, group, and organizational processes in the workplace. It incorporates perspectives from the behavioral and social sciences, communication studies, and management. The minor is learner-centered and allows students to select course work that matches their career and educational goals.

For more information, visit FAB N255, call 602/543-3011, or access the Web site at www.west.asu.edu/sbs/aboutSBS/degrees/MIOS.htm.

Career Outlook

The minor is relevant to students who seek employment in corporate and small business, governmental agencies, and nonprofit organizations, such as in the health professions, social services, education, public relations, and community services. The minor is also good preparation for students who intend to pursue graduate studies in organizational psychology, human relations, industrial relations, or related fields in sociology and communication.

Minor Requirements

The minor in Interdisciplinary Organizational Studies is open to all undergraduate majors. However, students should consult with the advisors in the department of their major to determine if the minor is consistent with their educational goals. Students are encouraged to take courses outside their major and college. No more than six credits may be applied from major requirements toward completion of the minor. The minor consists of 21 semester hours, of which 18 must be upper-division course work.

Required Courses

Research methods course[1] 3
ASB 440 Women in the Global Factory *SB, G* 3
or POL 435 Women, Power, Politics *SB, C* (3)
PGS 430 Industrial Psychology 3
or SBS 461 Program Evaluation and Policy Research (3)
PGS 453 Organizational Behavior *SB* 3

Electives[2]

Cluster 1: Courses Focused on Organizations

Choose two from the following courses 6
COM 450 Theory and Research in Organizational Communication *SB*[3] (3)
COM 451 Employee Participation Processes in Organizations[3] (3)
COM 453 Communication Training and Development[3] (3)
GLB 303 Relationship Management (3)
MGT 301 Principles of Management (3)
MGT 412 Managing Human Resources (4)
PGS 430 Industrial Psychology[4] (3)
PGS 482 Social Influence and Consumer Behavior *SB* (3)
PHI 360 Business and Professional Ethics *HU* (3)
RTM 301 Leadership in Recreation and Tourism (3)
SBS 461 Program Evaluation and Policy Research[4] (3)
SOC 324 Work and the Workplace *SB*, *H* (3)
SOC 419 Organizations and Technological Change *G* (3)
Internship in Organizations[5, 6] (3)

Cluster 2: Courses Focused on Diversity Within Organizations
Choose one from the following courses.....3
- COM 463 Cultural and Intercultural Communication Theory and Research *SB, G*[3] (3)
- PGS 480 Cross-Cultural Social Psychology *SB, G* (3)
- POL 435 Women, Power, and Politics *SB, C* (3)
- SOC 370 Racial and Ethnic Minorities *SB, C* (3)
- SOC 400 Perspectives on Aging *SB* (3)
- SOC 426 Social Inequality *SB* (3)
- WST 350 Race, Class, and Gender *SB, C* (3)
- WST 487 Gender and International Development *SB, G* (3)

[1] SBS advisor's approval is required.
[2] Other approved courses may be used to secure credit.
[3] Prerequisites COM 308 and 309 may be waived for students not majoring in Communication Studies.
[4] Course may be selected if not used to fulfill core requirements.
[5] Intern course examples are PGS 494, COM 494, or SOC 494.
[6] The internship site must be approved by the SBS advisor.

Minor in Sociocultural Anthropology

The Sociocultural Anthropology minor focuses on sociocultural anthropology with an interdisciplinary social science component. The minor requires 18 semester hours, at least 12 of which must be in upper-division courses. Two courses, ASB 311 and SBS 302, are required. The remaining 12 semester hours may be drawn from ASB courses and from several key SBS courses in the interdisciplinary social science degree. All courses must be passed with a minimum grade of "C" (2.00) or higher.

Upper division ASB courses offered at the Tempe campus may be applied toward the minor in Sociocultural Anthropology. Up to six semester hours of lower-division ASB credit and three semester hours of ASB 499 Individualized Instruction may also be applied toward the minor.

Upper-Division Required Courses
ASB 311 Principles of Social Anthropology *SB, G, H*.....3
SBS 302 Qualitative Methods.....3
Choose four from the following courses* 12
- ASB 319 Indigenous Peoples of North America (3)
- ASB 340 Migration and Culture *SB, G* (3)
- ASB 346 Marriage and Family Diversity *SB, C* (3)
- ASB 350 Anthropology and Art *HU* (3)
- ASB 353 Death and Dying in Cross-Cultural Perspective *HU/SB, G* (3)
- ASB 394 Special Topics (3)
- ASB 440 Women and the Global Factory *SB, G* (3)
- ASB 441 Sexuality and Culture *SB, G* (3)
- ASB 442 Urban Anthropology *SB* (3)
- ASB 494 Special Topics (3)
- ASB 499 Individualized Instruction (3 hours maximum)
- SBS 301 Cultural Diversity *L/SB, C* (3)
- SBS 410 Topics in Identity/Difference (3)
- SBS 430 Topics in Power/Knowledge *SB* (3)
- SBS 440 Family Studies *SB* (3)
- SBS 450 Topics in Local/Global *SB, G* (3)
- SBS 460 Urban Studies *SB* (3)

* Other approved courses may be selected.

SECONDARY EDUCATION—BAE

Social Studies Specialization

The requirements for the Bachelor of Arts in Secondary Education with a specialization in social studies consist of the Professional Teacher Preparation Programs for Secondary Education majors (see "College of Teacher Education and Leadership," page 745) and 39 semester hours in social and behavioral sciences course work.

Required Courses

Economics
ECN 111 Macroeconomic Principles *SB*.....3
ECN 112 Microeconomic Principles *SB*.....3

History
HIS 300 Historical Methods *L, H*.....3
HIS 443 Constitutional History of the United States *SB, H*.....3
Choose one combination from the following*.....6
- HIS 103 The United States *SB, H* (3)
- HIS 104 The United States *SB, H* (3)

——— *or* ———

- HIS 303 American Cultural History I *SB, H* (3)
- HIS 304 American Cultural History II *SB, H* (3)

——— *or* ———

- HIS 305 History of American Systems to 1865 *L, C, H* (3)
- HIS 306 History of American Systems since 1865 *H* (3)

Choose two courses from the following* 6
- HIS 101 Western Civilization *SB, H* (3)
- HIS 102 Western Civilization *SB, G, H* (3)
- HIS 355 World History to 1500 *G, H* (3)
- HIS 356 World History since 1500 *G, H* (3)

Political Science
Choose one course from the following 3
- POL 101 Political Ideologies *SB* (3)
- POL 340 Political Theory *SB/HU* (3)
- POL 446 Democracy HU (3)

POL 160 Global Politics *SB, G* 3
or POL 360 World Politics Theory *SB, G* (3)
POL 460 Politics of Globalization *SB, G* 3
or POL 486 Global Political Economy *SB, G* (3)

Anthropology, Geography, Sociology
Choose two courses from the following 6
- ASB 311 Principles of Anthropology*SB, G, H* (3)
- ASB 340 Migration and Culture *SB, G* (3)
- GCU 357 Social Geography *SB* (3)
- SOC 352 Social Change *SB, G, H* (3)
- SOC 456 Political Sociology (3)

Total 39

* A maximum of nine semester hours of history courses may be from the lower division.

ANTHROPOLOGY (SOCIAL AND BEHAVIORAL) (ASB)

For more ASB courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

(Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W ASB 102 Introduction to Cultural and Social Anthropology. (3)
selected semesters
Principles of cultural and social anthropology, with illustrative materials from a variety of cultures. The nature of culture. Social, political, and economic systems; religion, aesthetics, and language.
General Studies: SB, G

W ASB 211 Women in Other Cultures. (3)
selected semesters
Cross-cultural analysis of the economic, social, political, and religious factors that affect women's status in traditional and modern societies.
General Studies: HU/SB, G

W ASB 311 Principles of Social Anthropology. (3)
fall
Comparative analysis of domestic groups and economic and political organizations in primitive and peasant societies. Prerequisite: ENG 101 or 105.
General Studies: SB, G, H

W ASB 319 Indigenous Peoples of North America. (3)
selected semesters
Ethnology of the range of Native North American Indian cultural history. Comparative analysis of historical and contemporary issues.

W ASB 340 Migration and Culture. (3)
spring
Examines migration and culture embedded in a transnational field of social, economic, and political processes.
General Studies: SB, G

W ASB 342 Mexico-U.S. Borderlands. (3)
selected semesters
Contemporary examination of socioeconomic and political dimensions of border communities, and formation of Mexican-origin communities within and outside the Southwest. Integrated lecture/seminar. Cross-listed as SBS 342/SOC 342. Credit is allowed for only ASB 342 or SBS 342 or SOC 342.
General Studies: SB, C

W ASB 346 Marriage and Family Diversity. (3)
fall and spring
Social, economic, and cultural factors that shape family diversity in relation to generational and gender dynamics within the family.
General Studies: SB, C

W ASB 350 Anthropology and Art. (3)
selected semesters
Art forms of people in relationship to their social and cultural setting.
General Studies: HU

W ASB 353 Death and Dying in Cross-Cultural Perspective. (3)
fall and spring
Humanistic and scientific study of aging, sickness, dying, death, funerals, and grief and their philosophy and ecology in non-Western and Western cultures. Cross-listed as SOC 353. Credit is allowed for only ASB 353 or SOC 353.
General Studies: HU/SB, G

W ASB 389 Ethnographic Field Lab. (1–6)
selected semesters
Hands-on, guided ethnographic qualitative research and interpretative analysis. May be repeated for credit when topics vary. Fieldwork practicum. Integrated seminar/field lab. Cross-listed as SBS 389/SOC 389. Credit is allowed for only ASB 389 or SBS 389 or SOC 389.

W ASB 394 Special Topics. (1–4)
fall and spring
Topics may include the following:
- Anthropology of Gender. (3)
- Cross-Cultural Perspectives on Art. (3)

May be repeated for credit when topics vary.

W ASB 440 Women in the Global Factory. (3)
selected semesters
Examines the impact of Third World women's incorporation into the new global division of labor in the late 20th century.
General Studies: SB, G

W ASB 441 Sexuality and Culture. (3)
selected semesters
Uses a global, comparative approach to examine the cultural and historical construction of sexualities.
General Studies: SB, G

W ASB 442 Urban Anthropology. (3)
spring
Issues in understanding urban culture and social space from interdisciplinary anthropological perspective. May involve fieldwork. May be repeated for credit when topics vary.
General Studies: SB

W ASB 445 Globalization, Development, and Resistance. (3)
fall
Explores the interconnections among globalization, development, and grassroots movements for social change in Africa, Asia, and Latin America. Lecture, seminar. Prerequisite: social science course recommended.
General Studies: SB, G

W ASB 447 Citizenship, Nationalism, and Identity. (3)
selected semesters
Historical and contemporary examination of citizenship as a form of belonging and fidelity, and the creation of "good citizens" within the U.S. Integrated lecture/seminar. Cross-listed as POL 447/SBS 447. Credit is allowed for only ASB 447 or SBS 447 or POL 447.
General Studies: SB, C

W ASB 494 Special Topics. (1–4)
selected semesters

W ASB 499 Individualized Instruction. (1–3)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

FAMILY STUDIES (FAS)

For more FAS courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W FAS 301 Introduction to Parenting. (3)
summer
Integrated approach to understanding parenting and parent-child interactions. Prerequisites: ENG 101 (or 105); PGS 101, SOC 101 (or its equivalent).
General Studies: SB

W FAS 330 Personal Growth in Human Relationships. (3)
fall, spring, summer
Personal development and behavior as related to competency in interpersonal relationships with the family. Processes of family interaction. Prerequisites: PGS 101, SOC 101 (or its equivalent).
General Studies: SB

W FAS 331 Marriage and Family Relationships. (3)
fall and spring
Issues, challenges, and opportunities relating to present-day marriage and family living. Factors influencing interrelations within the family. Prerequisite: course in psychology or sociology.

W FAS 332 Human Sexuality. (3)
selected semesters
Relationship of sexuality to family life and to major societal issues. Emphasizes developing healthy, positive, responsive ways of integrating sexual and other aspects of human living. Prerequisite: PGS 101.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

CULTURAL GEOGRAPHY (GCU)

For more GCU courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—E

(Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W GCU 102 Introduction to Human Geography. (3)
selected semesters
Systematic study of human use of the earth. Spatial organization of economic, social, political, and perceptual environments.
General Studies: SB

W GCU 121 World Geography. (4)
selected semesters
Description and analysis of areal variations in social, economic, and political phenomena in major world regions.
General Studies: SB, G

W GCU 253 Introduction to Cultural and Historical Geography. (3)
spring
Cultural patterns, including such phenomena as language, religion, and various aspects of material culture. Origins and diffusion and division of the world into cultural areas.
General Studies: SB, G

W GCU 351 Population Geography. (3)
spring
Demographic patterns. Spatial, temporal, and structural investigation of the relationship of demographic variables to cultural, economic, and environmental favors. Cross-listed as SBS 351. Credit is allowed for only GCU 351 or SBS 351. Prerequisite: MAT 117 or higher.
General Studies: SB, G

W GCU 357 Social Geography. (3)
selected semesters
Environmental perception of individuals and groups. Stresses the spatial aspect of social and physical environments.
General Studies: SB

W GCU 361 Urban Geography. (3)
selected semesters
External spatial relations of cities, internal city structure, and spatial aspects of urban problems in various parts of the world, particularly in the United States.
General Studies: SB

W GCU 373 Introduction to Geographic Information Science. (4)
fall
Introduces theoretical and computer-based aspects of Geographic Information Systems, involving data analysis and map generation. Fee. Prerequisite: PSY 230 or SBS 304.
General Studies: SG

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

PSYCHOLOGY (SOCIAL AND BEHAVIORAL) (PGS)

For more PGS courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W PGS 101 Introduction to Psychology. (3)
fall, spring, summer
Major areas of theory and research in psychology. Requires participation in department-sponsored research or an educationally equivalent alternative activity.
General Studies: SB

W PGS 250 Psychology and Society. (3)
fall
Addresses how social and behavioral science theory and research are used to understand behavior related to various social issues.
General Studies: SB

W PGS 304 Effective Thinking. (3)
spring and summer
Understanding and improving intellectual and behavioral skills; information analysis, inference, logic, problem solving, and decision making. Prerequisites: ENG 101 (or 105) and either MAT 119 or PSY 230 (or its equivalent).
General Studies: L

W PGS 306 Environmental Psychology. (3)
fall and summer
Concepts and research strategies in the study of behavior in interaction with physical environment. Prerequisite: PGS 101.
General Studies: SB

W PGS 315 Personality Theory and Research. (3)
fall and summer
Definition and description of personality in terms of theoretical and methodological approaches. Prerequisites: PGS 101; PSY 290.
General Studies: SB

W PGS 341 Developmental Psychology. (3)
fall
Analyzes behavior development in terms of psychological principles. Current research in human development. Prerequisites: PGS 101; PSY 290.
General Studies: SB

W PGS 344 Directed Child Study. (3)
spring
Theories and methods of intervention with preschool children and supervised practicum in the Child Study Laboratory. 1 hour lecture, 6-8 hours practicum. Prerequisites: ENG 101 (or 105); PGS 101.
General Studies: L/SB

W PGS 350 Social Psychology. (3)
fall, spring, summer
Human social behavior, including such concepts as aggression, attraction, attribution, conformity, groups, helping, person perception, and persuasion. Prerequisite: PGS 101.
General Studies: SB

W PGS 370 Interpersonal Relationships. (3)
fall and spring
Development of personal skills for competent functioning in interpersonal relationships across multiple social contexts. Principles of mental health adjustment. Prerequisite: PGS 101 (or its equivalent).
General Studies: SB

W PGS 385 Psychology of Gender. (3)
fall
Examines, from a psychological perspective, the similarities and differences in beliefs, attitudes, and behaviors of women and men. Cross-listed as WST 385. Credit is allowed for only PGS 385 or WST 385.
General Studies: SB

W PGS 399 Supervised Research. (1–3)
fall, spring, summer
Experience within the context of current faculty research projects. Student is assigned responsibility depending on qualifications. "Y" grade only. May be repeated for a total of 6 hours. Prerequisites: approval of faculty member before registration; "B" (3.00) GPA average in major. Pre- or corequisite: PSY 230 (or its equivalent).

W PGS 427 Psychology of Aging. (3)
fall
Behavioral, experiential, and emotional phenomena associated with aging. Analysis of retained abilities and resources as well as losses and stresses. Prerequisite: PGS 101.
General Studies: SB

W PGS 430 Industrial Psychology. (3)
selected semesters
Organizations and management systems: motivation and work performance; human factors in systems design and evaluation; personnel selection and testing. Prerequisite: MGT 301 or PGS 350.

W PGS 442 Life Span Development. (3)
spring
Methods and findings of recent studies of the development, growth, and problems of adolescents and adults, with implications for education. Prerequisite: PGS 341.
General Studies: SB

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

W PGS 443 Abnormal Child Psychology. (3)
spring
Covers the major disorders of childhood and adolescence (e.g., autism, hyperactivity, phobias, and delinquency), including cause, diagnosis, treatment, and prevention. Prerequisites: ENG 101 (or 105); PGS 101; one course from among PGS 315, 341, 350 or instructor approval.
General Studies: L/SB

W PGS 444 Adolescent Psychology and Psychopathology. (3)
fall
Advanced-level survey of normal adolescent psychological development and psychological disorders of this age period. Lecture, discussion. Prerequisites: PGS 101, 341; PSY 290.

W PGS 446 Social Development. (3)
selected semesters
Discusses theory, research, and issues regarding social development. Topics may include formation of attachments, prosocial development, and gender-role development. Lecture, seminar. Prerequisite: PGS 341.
General Studies: L/SB

W PGS 453 Organizational Behavior. (3)
spring
Surveys psychological theory and research as applied to the behavior of individuals in organizational settings. Lecture, discussion. Prerequisites: both PGS 101 and 350 or only instructor approval.
General Studies: SB

W PGS 462 Health Psychology. (3)
selected semesters
Contributions of psychology to health promotion and illness prevention, adaptation to acute and chronic illness, and to the health care system. Prerequisites: PSY 230, 290.

W PGS 465 Psychology of Stress and Coping. (3)
fall
Readings in theory and research in the area of stress and coping. Lecture, discussion, class presentations. Prerequisites: PGS 315 (or 350); PSY 290.
General Studies: SB

W PGS 466 Abnormal Psychology. (3)
fall and summer
Historical and current definitions, theory, and research concerning abnormal behavior. Major categories of psychopathology, including related treatment approaches. Prerequisites: PGS 101; PSY 290.
General Studies: SB

W PGS 468 Psychology and Law. (3)
selected semesters
Theories, research, and practice in psychology as related to law, including criminal, civil, domestic relations, and professional issues. Prerequisite: PGS 101.

W PGS 472 Clinical Psychology. (3)
selected semesters
Clinical psychology as a science and profession. Historical development, methods of interviewing, assessment, and therapeutic intervention. Prerequisite: PGS 466.

W PGS 473 Psychology and Politics of Child Maltreatment. (3)
spring
Examines psychological literature on child maltreatment in the context of development. Explores interactions between professionals responding to maltreatment. Prerequisites: PGS 101, 341; PSY 290.
General Studies: SB

W PGS 480 Cross-Cultural Social Psychology. (3)
spring
Focuses on patterns of social behavior in individualistic and collectivistic cultures. Includes multidisciplinary research using qualitative and quantitative methodologies. Prerequisites: PGS 101, 350.
General Studies: SB, G

W PGS 482 Social Influence and Consumer Behavior. (3)
spring
Discusses social influence principles, emphasizing strategies employed by professionals that affect consumer behavior. Analyzes consumer defenses against manipulations. Prerequisite: PGS 350.
General Studies: SB

W PGS 494 Special Topics. (3)
fall, spring, summer
Topics may include theoretical and applied areas of psychology (e.g., infant development).

W PGS 499 Individualized Instruction. (1–3)
selected semesters
Advanced individual scholarship with faculty member. Prerequisite: PGS 399.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

POLITICAL SCIENCE (POL)

W POL 101 Political Ideologies. (3)
fall and spring
Leading political ideas and belief systems, e.g., Marxism, liberalism, conservatism, theories of democracy, and alternative futures. Credit is allowed for only POL 101 or 340.
General Studies: SB

W POL 110 Government and Politics. (3)
spring
Major institutions of modern government and processes of individual and group political activity, with emphasis on the American experience. Meets the federal government requirement for teacher certification. Credit is allowed for only POL 110 or 310.
General Studies: SB

W POL 160 Global Politics. (3)
fall
The nature of contemporary world politics through the study of both general theoretical topics and specific geographical areas. Credit is allowed for only POL 160 or 360.
General Studies: SB, G

W POL 247 Introduction to Latin American Politics. (3)
selected semesters
General introduction to the politics and socioeconomic structures of Latin America.
General Studies: SB, G

W POL 260 Current Issues in International Politics. (3)
fall
Analyzes major current problems in world politics.
General Studies: SB, G

W POL 310 American National Government: Ideas and Institutions. (3)
fall and summer
Historical, analytic context of constitutionalism and citizenship vis-à-vis social, economic, and political institutions. Meets the federal government requirement for teacher certification. Credit is allowed for only POL 310 or 110.
General Studies: SB, H

W POL 313 The Congress. (3)
spring
The modern American Congress: its role, power and interrelationship in the American political system.
General Studies: SB

W POL 314 The American Presidency. (3)
fall
Office, role, and power of the American presidency in the American political system.
General Studies: SB

W POL 320 Latino Politics. (3)
fall
Examines contemporary political issues in the diverse Latino community.
General Studies: SB, C

W POL 331 Public Opinion. (3)
selected semesters
Examines U.S. public opinion, the diversity of its cultural sources, and political influence.
General Studies: SB

W POL 336 Electoral Behavior. (3)
selected semesters
Voting behavior and the attitudes, perceptions, and activities of the citizenry in the political process.
General Studies: SB

W POL 340 Political Theory. (3)
fall and summer
Surveys ancient, modern, and contemporary political theorists and ideas in European and American contexts. Prerequisite: ENG 101 or 105.
General Studies: HU/SB

W POL 350 Comparative Politics. (3)
spring and summer
Theoretical approaches and political institutions, such as parties, pressure groups, legislatures, and executives, from a cross-national perspective.
General Studies: SB, G

W POL 360 World Politics Theory. (3)
spring
Theoretical examination of one or more aspects of international politics, e.g., foreign policy, negotiations, alliances, crises, wars, and international systems. Credit is allowed for only POL 360 or 160.
General Studies: SB, G

W POL 361 American Foreign Policy. (3)
fall
United States in world affairs; foreign policy since World War I. Techniques in formulating American foreign policies.
General Studies: SB

W POL 417 The Arizona Political System. (3)
selected semesters
Contemporary political problems within the context of Arizona's political, social, and constitutional frameworks. Meets the Arizona Constitution requirement for teacher certification.

W POL 430 Race and Politics in the Americas. (3)
selected semesters
Studies racial politics in North, Central, and South America with a focus on the United States.
General Studies: SB, C

W POL 434 Media and Politics. (3)
selected semesters
Studies mass media and politics in the United States, e.g., media and elections, media and government.
General Studies: SB

W POL 435 Women, Power, and Politics. (3)
spring
The roles and treatment of women within various political contexts. Specific focus may vary with instructor.
General Studies: SB, C

W POL 436 Gender, Sexuality, Nation-States. (3)
selected semesters
Issues and problems related to the interface of gender, sexualities, nationalisms, and states in various world contexts.
General Studies: SB, G

W POL 440 Political Futures through Science Fiction. (3)
selected semesters
Examines the relationship between politics and science fiction literature and film. Prerequisite: ENG 101 or 105.
General Studies: L/HU

W POL 446 Democracy. (3)
spring
Issues and problems in democratic theory, e.g., the nature of democracy, majority rule, representation, equality, and the value of political participation.
General Studies: HU

W POL 447 Citizenship, Nationalism, and Identity. (3)
selected semesters
Historical and contemporary examination of citizenship as a form of belonging and fidelity, and the creation of "good citizens" within the U.S. Integrated lecture/seminar. Cross-listed as ASB 447/SBS 447. Credit is allowed for only ASB 447 or SBS 447 or POL 447.
General Studies: SB, C

W POL 453 Latin American Cities. (3)
spring
Urban studies of Latin American world cities, e.g., Mexico City, Santiago, emphasizing integration with U.S. cities, including Los Angeles, Phoenix.
General Studies: SB, G

W POL 454 Mexico: Politics, Economy, Cultures. (3)
fall and spring
Politics, economy, and cultures in Mexico in historical and contemporary perspective.
General Studies: SB, G

W POL 460 Politics of Globalization. (3)
fall
Theories and analysis of the politics of economic and technological globalization in the contemporary world.
General Studies: SB, G

W POL 464 Border Cities: Action Research on Globalization. (3)
spring
Examines the effects of globalization on U.S.-Mexico border cities and towns with particular emphasis on Mexican border cities. Lecture, computer-mediated research labs, field trip, online discussions.
General Studies: SB, G

W POL 470 Law and the Political Order. (3)
spring and summer
Investigates concepts of justice, political rights, adjudication and legislation, legal ordering, constitutional law, law as an instrument of change.
General Studies: SB

W POL 480 Global Justice. (3)
fall
Explores questions of justice that cross national borders, including delivery of foreign aid, immigration, and military intervention. Cross-listed as SBS 480. Credit is allowed for only POL 480 or SBS 480.
General Studies: G

W POL 484 Internship. (1-6)
fall, spring, summer
Structured practical experience supervised in the field by practitioners and overseen by the departmental internship coordinator.
Prerequisite: internship coordinator and department chair approvals.

W POL 486 Global Political Economy. (3)
fall
Contending approaches to historical and contemporary issues of international political economy, including global welfare, equality, ecology, and peace.
General Studies: SB, G

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

PSYCHOLOGY (SCIENCE AND MATHEMATICS) (PSY)

For more PSY courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W PSY 230 Introduction to Statistics. (3)
fall, spring, summer
Basic concepts in descriptive and inferential statistics, emphasizing applications to psychology. Prerequisites: MAT 117; PGS 101.
General Studies: CS

W PSY 290 Research Methods. (4)
fall, spring, summer
Planning, execution, analysis, and reporting of experiments. Literature, procedures, and instruments in representative areas of psychological research. 3 hours lecture, 3 hours lab. Prerequisites: ENG 101 (or 105); PSY 230.
General Studies: SG

W PSY 323 Sensation and Perception. (3)
fall, spring, summer
Underlying processes of vision, audition, and the other senses. Applies current research and theory in a lab environment. Prerequisite: PSY 290 or instructor approval.

W PSY 324 Memory and Cognition. (3)
fall, spring, summer
Processes underlying information storage and retrieval, including different kinds of memory, forgetting, depth of processing, and control processes. Prerequisite: PSY 290.
General Studies: SB

W PSY 325 Physiological Psychology. (3)
fall
Relationships of physiological processes to behavior. Emphasizes nervous system functioning. Prerequisites: PSY 290 (or two courses in biological science); instructor approval.

W PSY 330 Statistical Methods. (3)
spring
Advanced application of statistics to psychology. Highly recommended for students interested in attending graduate school. 3 hours lecture, 1 hour lab. Prerequisites: PSY 230, 290.
General Studies: CS

W PSY 394 Special Topics. (1–4)
selected semesters

W PSY 425 Biological Bases of Behavior. (3)
spring
Critical study of physiological psychology, e.g., brain mechanisms underlying motivation, learning. Prerequisites: ENG 101 (or 105); PSY 325.
General Studies: L

W PSY 494 Special Topics. (1–4)
selected semesters

W PSY 499 Individualized Instruction. (1–3)
selected semesters
Advanced individual scholarship with faculty member. Prerequisite: PGS 399.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

SOCIAL AND BEHAVIORAL SCIENCES (SBS)

W SBS 200 Introduction to Social and Behavioral Sciences. (3)
once a year
Overview of the social and behavioral sciences, indicating their contributions to society and emphasizing interdisciplinary integration Lecture, discussion.
General Studies: SB

W SBS 205 Cybercultures. (3)
spring
Explores culture, identity, and politics within and around the Internet, including cyberpunks, virtual communities, MUDs, free software, blogs, and hacktivism. Lecture, collaborative learning.
General Studies: SB

W SBS 300 Interdisciplinary Approaches to Social and Behavioral Sciences. (3)
fall and spring
Interdisciplinary approach to the study of social life.
General Studies: SB

W SBS 301 Cultural Diversity. (3)
fall and spring
Socially structured differences in historical and cross-cultural perspective. Prerequisite: ENG 101 or 105.
General Studies: L/SB, C

W SBS 302 Qualitative Methods. (3)
spring
Basic methodological issues in the systematic application of qualitative analysis of human social life. Surveys range of qualitative methods used by social and behavioral scientists.

W SBS 303 Quantitative Methods. (3)
fall
Concepts underlying design and implementation of quantitative research methods.

W SBS 304 Social Statistics I. (3)
fall and spring
Statistical techniques of the social and behavioral sciences.
General Studies: CS

W SBS 342 Mexico-U.S. Borderlands. (3)
selected semesters
Contemporary examination of socioeconomic and political dimensions of border communities, and formation of Mexican-origin communities within and outside the Southwest. Integrated lecture/seminar. Cross-listed as ASB 342/SOC 342. Credit is allowed for only ASB 342 or SBS 342 or SOC 342.
General Studies: SB, C

W SBS 351 Population Geography. (3)
spring
Demographic patterns. Spatial, temporal, and structural investigation of the relationship of demographic variables to cultural, economic, and environmental favors. Cross-listed as GCU 351. Credit is allowed for only GCU 351 or SBS 351. Prerequisite: MAT 117 or higher.
General Studies: SB, G

W SBS 389 Ethnographic Field Lab. (1–6)
selected semesters
Hands-on, guided ethnographic qualitative research and interpretative analysis. May be repeated for credit when topics vary. Fieldwork practicum. Integrated seminar/field lab. Cross-listed as ASB 389/SOC 389. Credit is allowed for only ASB 389 or SBS 389 or SOC 389.

W SBS 404 Social Statistics II: Multivariate Analysis. (3)
selected semesters
Analysis of variance, multiple regression, dummy variable regression, path analysis, and related topics. Computer application to problem solving. Prerequisites: both SBS 303 and 304 or only instructor approval.
General Studies: CS

W SBS 410 Topics in Identity/Difference. (3)
fall and spring
Topics which focus on race/ethnic, gender, sexual or cultural identity/difference. May be repeated for credit when topics vary. Topics may include the following:
- Introduction to Asian American Experiences

W SBS 430 Topics in Power/Knowledge. (3)
fall and spring
Selected topics concerning the effects of political and social institutions on perceptions of politics and political culture. May be repeated for credit when topics vary.
General Studies: SB

W SBS 440 Family Studies. (3)
fall and spring
Theoretical frameworks for analyzing the development of family systems. Impact of social and economic conditions on family forms. May be repeated for credit when topics vary.
General Studies: SB

W SBS 447 Citizenship, Nationalism, and Identity. (3)
selected semesters
Historical and contemporary examination of citizenship as a form of belonging and fidelity, and the creation of "good citizens" within the U.S. Integrated lecture/seminar. Cross-listed as ASB 447/POL 447. Credit is allowed for only ASB 447 or SBS 447 or POL 447.
General Studies: SB, C

W SBS 450 Topics in Local/Global. (3)
fall and spring
Examines links among social, political, economic changes at local, national, global levels. May be repeated for credit when topics vary.
General Studies: SB, G

W SBS 460 Urban Studies. (3)
fall and spring
Studies local and global urban issues such as social geography, political economy, culture and social space, urban social diversity. May be repeated for credit when topics vary.
General Studies: SB

W SBS 461 Program Evaluation and Policy Research. (3)
spring
Examines design, data collection/analysis, and political/ethical issues in planning and evaluating social programs and policies in community organizations. Prerequisite: research course in social or behavioral sciences or instructor approval.

Las Casas, an apartment-style, living- and learning-based housing facility, opened on the West campus in 2003. Tim Trumble photo

W SBS 480 Global Justice. (3)
fall
Explores questions of justice that cross national borders, including delivery of foreign aid, immigration, and military intervention. Cross-listed as POL 480. Credit is allowed for only POL 480 or SBS 480.
General Studies: G

W SBS 484 Internship. (1–6)
fall, spring, summer
Structured practical experience supervised in the field by practitioners and overseen by the departmental internship coordinator. Prerequisites: internship coordinator and department chair approvals.

W SBS 490 Senior Thesis I. (3)
fall, spring, summer
Supervised, independent, interdisciplinary research and writing on an intellectual issue or social problem chosen by the student. First part of a six-semester-hour sequence, followed by SBS 491. Prerequisites: departmental advisor and department chair approvals.

W SBS 491 Senior Thesis II. (3)
fall, spring, summer
Supervised, independent, interdisciplinary research and writing on an intellectual issue or social problem chosen by the student. Second part of a six-semester-hour sequence. Prerequisites: SBS 490; departmental advisor and department chair approvals.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

SOCIOLOGY (SOC)

For more SOC courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W SOC 101 Introductory Sociology. (3)
fall, spring, summer
Fundamentals of sociology, organization of human groups and society, processes of interaction, and social change. Credit is allowed for only SOC 101 or 301. 2 hours lecture, 1 hour discussion.
General Studies: SB

W SOC 210 Sociology of Murder. (3)
fall
Sociological perspectives on various forms of murder and types of murderers. Also considers forms of punishment for murder.
General Studies: SB

W SOC 301 Principles of Sociology. (3)
spring
Intensive and critical analysis of the concepts of sociology. Credit is allowed for only SOC 301 or 101.
General Studies: SB

W SOC 315 Courtship and Marriage. (3)
fall and spring
Overview of courtship, marriage, and related processes, focusing on problematical aspects of these institutions from the sociological perspective. Prerequisite: SOC 101 (or 301) or instructor approval.
General Studies: SB

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

W SOC 324 Work and the Workplace. (3)
selected semesters
Historical and comparative examination of changes in the structure and meaning of work and current shifts in people's work lives.
General Studies: SB, H

W SOC 328 Migration. (3)
spring
Introduces the definition and analysis of migration in all forms.
General Studies: SB, G

W SOC 332 The Modern City. (3)
spring
Growth, characteristics, and problems of the modern city. Prerequisite: SOC 101 or 301.

W SOC 340 Sociology of Deviant Behavior. (3)
spring
Sociological analysis of stigmatized behaviors and conditions, including the causes, effects, and management of stigma. Prerequisite: SOC 101 (or 301) or instructor approval.
General Studies: SB

W SOC 341 Modern Social Problems. (3)
once a year
Race relations, poverty, unemployment, and other current issues. Prerequisite: ENG 101 or 105.
General Studies: L/SB

W SOC 342 Mexico-U.S. Borderlands. (3)
selected semesters
Contemporary examination of socioeconomic and political dimensions of border communities, and formation of Mexican-origin communities within and outside the Southwest. Integrated lecture/seminar. Cross-listed as ASB 342/SBS 342. Credit is allowed for only ASB 342 or SBS 342 or SOC 342.
General Studies: SB, C

W SOC 352 Social Change. (3)
fall and spring
Patterns of social change, resistance to change, and change-producing agencies and processes. Prerequisite: SOC 101 or 301.
General Studies: SB, G, H

W SOC 353 Death and Dying in Cross-Cultural Perspective. (3)
fall and spring
Humanistic and scientific study of aging, sickness, dying, death, funerals, and grief and their philosophy and ecology in non-Western and Western cultures. Cross-listed as ASB 353. Credit is allowed for only SOC 353 or ASB 353.
General Studies: HU/SB, G

W SOC 354 Popular Music and Society. (3)
summer
Places contemporary music in its social, economic, and political context; usually offered with MUS 354.
General Studies: HU

W SOC 360 Sociological Psychology. (3)
selected semesters
Interaction patterns between the sociocultural order and individuals; socialization process; norms, roles, and statuses; collective behavior. Prerequisite: SOC 101 or 301.
General Studies: SB

W SOC 364 Popular Culture. (3)
fall and spring
Studies the social approaches to popular culture, focusing on the function of various forms (literature, film, theatre, and music).
General Studies: SB

W SOC 365 Sociology of Mass Communication. (3)
selected semesters
Sociological exploration of the major mass media as a communicative process in American society.
General Studies: SB

W SOC 366 Film and Society. (3)
fall and spring
Studies the social approaches to film as an art form, mass medium, and ideological construct.
General Studies: SB

W SOC 370 Racial and Ethnic Minorities. (3)
spring
Problems of minorities in the United States and in other racially and ethnically heterogeneous societies. Evaluates theories of prejudice and of research dealing with discrimination, desegregation, and assimilation. Prerequisite: SOC 101 or 301.
General Studies: SB, C

W SOC 389 Ethnographic Field Lab. (1–6)
selected semesters
Hands-on, guided ethnographic qualitative research and interpretative analysis. May be repeated for credit when topics vary. Fieldwork practicum. Integrated seminar/field lab. Cross-listed as ASB 389/SBS 389. Credit is allowed for only ASB 389 or SBS 389 or SOC 389.

W SOC 394 Special Topics. (1–4)
fall, spring, summer
Topics may include the following:
- Film and Society. (3)
- Sports and Society. (3)
- Women and Religion. (3)
- Women. (3)
- Work and the Border Economy. (3)

W SOC 400 Perspectives on Aging. (3)
fall and spring
Broad overview of gerontological issues; e.g., physical aging, retirement, living options, caregiving, theoretical background, death. Cross-listed as GRN 400. Credit is allowed for only SOC 400 or GRN 400.
General Studies: SB

W SOC 418 Aging and the Life Course. (3)
selected semesters
Examines aging as a process of change and adaptation over the lifespan, patterned by social, cultural, and historical forces. Prerequisite: SOC 101 or 301.
General Studies: SB, H

W SOC 419 Organizations and Technological Change. (3)
spring
Explores the increasing impact of information technology on corporate, governmental, and private organizations. May involve fieldwork.
General Studies: G

W SOC 426 Social Inequality. (3)
fall
Examines stability and change in social inequality based on age, class, ethnicity, gender, and race.
General Studies: SB

W SOC 443 Sociology of Corporations. (3)
spring
Examines corporations as social institutions and the implications of their status as a legal "person" on politics, culture, and economy.
General Studies: SB, G

W SOC 456 Political Sociology. (3)
fall
Social factors associated with voting; nature and structure of the electorate and political parties and the nature of national and international power structure. Prerequisite: SOC 101 (or 301) or instructor approval.

W SOC 457 Social Movements and Social Change. (3)
spring
The processes by which groups mobilize and collectively pursue social goals such as equality, justice, peace, and salvation. Prerequisite: ENG 101 or 105.
General Studies: SB, G

W SOC 484 Internship. (1–6)
fall, spring, summer
Structured practical experience supervised in the field by practitioners and overseen by the departmental internship coordinator. Prerequisite: internship coordinator and department chair approvals.

W SOC 486 Contemporary Theory. (3)
fall and spring
Contemporary issues and crises in social theory with major focus on particular theorists. Ideological factors in theory, philosophical issues, the nature of theory, and its relationship with methodology. Prerequisite: SOC 101 (or 301) or instructor approval.
General Studies: SB

W SOC 494 Special Topics. (1–4)
selected semesters

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Lecturer: Share

Nature of the Program

Women's Studies is an interdisciplinary program with strong cross-cultural, national, and global perspectives at the center of the curriculum. Both curriculum transformation and social change are central to the program. The curriculum includes courses offered by the Women's Studies Program and by other academic programs and departments throughout the university. Women's Studies courses can be used to fulfill the requirements of the Bachelor of Arts, Bachelor of Science, minor, and certificate in Women's Studies. The courses also fulfill General Studies requirements and serve as electives. The goals of the Women's Studies Program are to

1. provide the university and the community with academic programs of study and research that place women at the center of the university curriculum;
2. provide a model for interdisciplinary teaching and research with cross-cultural, national, and global perspectives on women;
3. generate and facilitate research on women's experience and the social construction of gender; and
4. stand as a visible example of the university's commitment to improve the status of women.

The Women's Studies Program offers the BA and BS in Women's Studies, the Certificate in Women's Studies, and the Women's Studies Resource Center. As a multicomponent program of Women's Studies, the Women's Studies Resource Center supports research pertaining to local, national and global issues in Women's Studies.

Career Outlook

A student majoring in Women's Studies receives a valuable educational background that provides the knowledge and critical thinking skills needed to deal with changing gender roles in our society. A major, minor, or certificate in Women's Studies prepares students for opportunities in many settings: business and professional schools, education and training, health care services, human resources development, public and business administration, social services, and graduate study in the humanities and social sciences.

WOMEN'S STUDIES—BA OR BS

Major Requirements

The major consists of 45 semester hours, 30 in Women's Studies and 15 in a coherent set of related courses. At least 30 of the 45 semester hours required for the major must be completed in upper-division courses. In addition, for the BS degree, students must complete six semester hours of statistics, computer science, or quantitative research methods. This sequence must be approved by the Women's Studies advisor.

Students must complete all course work in the major with a grade of "C" (2.00) or higher. No pass/fail credit may be used for major requirements.

Core Requirements[1]

WST 100 Women and Society *SB, C* 3
or WST 300 Women in Contemporary Society *SB, C* (3)
WST 350 Race, Class, and Gender *SB, C* 3
WST 457 Women, Cultures, and Societies *SB, G* 3
WST 498 PS: Theory and Method in Women's Studies *L* 3
Choose one global perspective course from the following[2].....3
- WST 390 Women and World Religions *L/SB, G* (3)
- WST 475 Women of the Diaspora Across Cultures *HU, G* (3)
- WST 483 Contemporary Women Writers *HU, G* (3)
- WST 487 Gender and International Development *SB, G* (3)

Choose one representation course form the following[2].....3
- WST 370 Chronicling Women's Lives *HU, C* (3)
- WST 376 Feminist Theory *L, C* (3)
- WST 467 Ethnic Women Writers *L/HU, C* (3)
- WST 473 Latina/Chicana Representation *SB, C* (3)

Choose one culture studies course from the following[2] 3
- WST 320 Women in Popular Culture *HU, C* (3)
- WST 431 Women and Film *L, G* (3)

Related course work[3] 15
WST electives 9

Program total.....45

[1] No course may be used to satisfy more than one of these seven core requirements.
[2] Other approved course may be used to meet this requirement.
[3] The plan for completing the related courses requirement must be worked out with and approved in writing by the Women's Studies advisor.

Internships. Women's Studies offers internships with business and nonprofit organizations that are designed to enable students to balance theory with practice, to gain valuable training, and to serve as potential placement opportunities. Women's Studies students at their own initiative have the opportunity to work with organizations as varied as Planned Parenthood, the Women's Studies Resource Center at the West campus, the Center for New Directions, Motorola, Viad, and others.

Certificate in Women's Studies

A certificate in Women's Studies is awarded for the successful completion of all 21 semester hours of core requirements. The certificate program is recommended for

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

graduate students, nondegree students, and students with majors in professional programs.

Minor in Women's Studies

The Women's Studies minor consists of 18 semester hours. Required courses consist of WST 100 (or WST 300), WST 350, WST 457, WST 498, and one course each in two of the following three areas: global, representation, and culture studies.

WOMEN'S STUDIES (WST)

For more WST courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

WST Note 1. Completion of the First-Year Composition requirement (ENG 101 and 102 or ENG 105 or ENG 107 and 108 [available at Tempe campus] with a grade of "C" [2.00] or higher) is a prerequisite for all English courses above the 100 level.

W WST 100 Women and Society. (3)
spring
Interdisciplinary introduction examining critical issues in women's studies. Credit is allowed for only WST 100 or 300.
General Studies: SB, C

W WST 276 Feminist Foundations: Going to the Sources. (3)
spring in odd years
Historical survey of sources influential in the development of the feminist movement in the United States. Lecture, discussion.
General Studies: H

W WST 300 Women in Contemporary Society. (3)
fall and spring
Interdisciplinary examination of such topics as gender roles, work, education, sexuality, politics, health, and law. Credit is allowed for only WST 300 or 100. Prerequisite: ENG 101 or 105.
General Studies: SB, C

W WST 320 Women in Popular Culture. (3)
fall
Analyzes from a historical perspective the images of women in magazines, films, advertising, toys, and other popular culture forms.
General Studies: HU, C

W WST 350 Race, Class, and Gender. (3)
fall and spring
Explores the intersections of race, class, and gender in the U.S. and world, as forces of social control, oppression, and liberation.
General Studies: SB, C

W WST 370 Chronicling Women's Lives. (3)
spring in even years
Explores the lives of a selected group of American women as a point of departure for the chronicling of contemporary women's lives.
General Studies: HU, C

W WST 376 Feminist Theory. (3)
once a year
Explores feminist theories and the intersection of gender, race, ethnicity, and class through critical analyses. Prerequisite: ENG 101 or 105.
General Studies: L, C

W WST 378 Global Feminist Theory. (3)
spring
Global feminist theories and exploration of the intersections of gender, race, ethnicity, class, and nation through critical analysis. Prerequisite: WST 100 or 300.
General Studies: L, C, G

W WST 385 Psychology of Gender. (3)
fall
Examines, from a psychological perspective, the similarities and differences in beliefs, attitudes, and behaviors of women and men. Cross-listed as PGS 385. Credit is allowed for only WST 385 or PGS 385.
General Studies: SB

W WST 390 Women and World Religions. (3)
once a year
Comparative examination of vital issues about women and religions in different places of the world and different historical periods. Prerequisite: ENG 101 or 105.
General Studies: L/SB, G

W WST 394 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Cultural Diversity. (3)
  fall and spring
- Gender and Sexuality. (3)
  fall and spring

W WST 431 Women and Film. (3)
once a year
Comparative international course explores ways feminist directors have broken the Hollywood mold in films focusing on women. Prerequisite: ENG 101 or 105.
General Studies: L, G

W WST 457 Women, Cultures, and Societies. (3)
fall
Examines issues such as poverty, dependency, interdependency, race, class, and gender in different societies of the world.
General Studies: SB, G

W WST 467 Ethnic Women Writers. (3)
fall
Concentrates on selected women writers of the U.S. who are Native American, African American, Latina, and Asian-American. Cross-listed as ENG 460. Credit is allowed for only WST 467 or ENG 460. See WST Note 1.
General Studies: L/HU, C

W WST 473 Latina/Chicana Representation. (3)
fall
Examines from an interdisciplinary perspective contemporary issues experienced by Chicana/Latina women in the U.S.
General Studies: SB, C

W WST 475 Women of the Diaspora Across Cultures. (3)
selected semesters
Examines the socioeconomic condition, political formation, and identities of contemporary indigenous, ethnic minority, immigrant, and migrant women globally.
General Studies: HU, G

W WST 483 Contemporary Women Writers. (3)
once a year
Comparative approach to contemporary writings by women from around the world.
General Studies: HU, G

W WST 487 Gender and International Development. (3)
fall, spring, summer
Addresses conceptual, methodological, and theoretical issues concerning gender, development, and internationalism; evaluates theories and models for change.
General Studies: SB, G

W WST 494 Special Topics. (1–4)
selected semesters
Topics may include the following:
- Aging: Women/Minority Issues. (3)
  fall and spring
- Social History of American Women. (3)
  fall and spring
- Women, Power, and Politics. (3)
  fall and spring

W WST 498 Pro-Seminar: Theory and Method in Women's Studies. (3)
spring
Reading and research on important theoretical and methodological issues in women's studies. Prerequisites: both ENG 101 (or 105) and WST 100 (or 300) or only instructor approval.
General Studies: L

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

College of Teacher Education and Leadership

www.west.asu.edu/ctel

Joseph M. Ryan, PhD, Interim Dean

PURPOSE

The college prepares tomorrow's educators to teach in ever-changing settings through commitment to high standards of innovative teaching, broad-based scholarship, and quality service to the university and the community.

The College of Teacher Education and Leadership balances academic concepts with current research and practices, accompanied by prompt exposure to the classroom environment. This integration of theory with practical experience strengthens future teachers' abilities to refine their instruction skills continually.

Programs in the College of Teacher Education and Leadership offer flexible scheduling and small classes. The college prepares students to be leaders in the field of education.

ORGANIZATION

The college houses the following academic units:

Department of Elementary Education
Department of Graduate Studies and Professional Development
Department of Secondary Education
Department of Special Education

DEGREE PROGRAMS

See the "College of Teacher Education and Leadership Baccalaureate Degrees and Majors" table, page 746, and the "College of Teacher Education and Leadership Graduate Degrees and Majors" table, page 756.

CERTIFICATION PROGRAMS

Education programs are approved by the Arizona Department of Education for the preparation of elementary, secondary, and special education teachers. Other programs of study offered by the faculty of the College of Teacher Education and Leadership include

1. concentrations in bilingual education and English as a second language required for endorsement of teachers specifically responsible for providing bilingual or English as a second language instruction to students in elementary grades;
2. an early childhood concentration that allows students to specialize in teaching kindergarten through grade three;
3. a middle school endorsement for elementary and secondary education students; and
4. at the graduate level, educational administration and supervision courses that meet the state certification requirements for supervision, principalship, and superintendency.

UNDERGRADUATE PROFESSIONAL TEACHER PREPARATION

Nature of Program

The College of Teacher Education and Leadership faculty is dedicated to developing and continually improving high quality teacher education programs that support and improve education for all children.

Career Outlook

The career outlook for the teaching profession is promising in Arizona and the nation. Students seeking endorsements in bilingual and English as a second language, as well as those seeking certification in special education, will find that demand is great in these areas. Demand for elementary and early childhood educators will continue to be strong. In secondary education, demand in the sciences and mathematics will be substantial. There will be more competition for teaching positions in English, history, and social studies at the secondary level. Our education graduates are highly sought after by area school districts.

GENERAL INFORMATION

Admission

To be considered for admission as undergraduate education majors, students must

1. be admitted to West campus as a degree-seeking student;
2. complete required postsecondary course work as specified for each major with a grade of "C" (2.00) or higher and attain a cumulative GPA of 2.50 or higher; and
3. submit a completed application form for the desired professional education program to the college Academic Advising Office by the appropriate deadline date.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

College of Teacher Education and Leadership Baccalaureate Degrees and Majors

Major	Degree	Concentration*	Administered By
Elementary Education	BAE	Optional: bilingual education/English as a second language or early childhood education*	Department of Elementary Education
Secondary Education	BAE	Academic specializations: English, history, mathematics, or social studies	Department of Secondary Education
Special Education	BAE	—	Department of Special Education

* If a major offers concentrations, one must be selected unless noted as *optional*.

Students are considered for admission to undergraduate education programs in the spring of each year for the following fall semester and in the fall of each year for the following spring semester. Applicants should contact the college Academic Advising Office for specific deadlines, which are determined annually.

Admission to undergraduate education programs is selective. Meeting minimum requirements does not ensure admission to any program.

Transfer

To be considered for admission to an undergraduate education major, prospective students must meet all admission requirements to ASU as well as those for undergraduate education programs. Students must complete the first two years of specified course work at an accredited community college or four-year institution.

Prospective students are discouraged from taking courses on a pass/fail basis. Pass/fail courses may be transferred to the College of Teacher Education and Leadership for only elective credit. For assistance in planning a program of study for transfer to the Bachelor of Arts in Education (BAE) degree program, call the college Academic Advising Office at 602/543-6354.

Degree Requirements

Students seeking a BAE must satisfactorily complete a minimum of 120 semester hours and attain a cumulative GPA of 2.50 or higher. Specific requirements for majors in Elementary Education, Secondary Education, and Special Education are provided in this catalog.

Education students must file a Declaration of Graduation during the first semester by consulting a college academic advisor. The four semesters of the program are sequential.

The College of Teacher Education and Leadership grades some courses, field experiences, and student teaching on a satisfactory/fail basis. Students who successfully complete these courses receive a grade of "Y" (satisfactory). Such grades are acceptable for meeting program requirements, but these grades are not included in computing the student's GPA.

Any exceptions to these requirements must be approved by a college academic advisor.

Field-Experience Requirements

In addition to course work, students admitted to all undergraduate education programs are required to participate in structured field experiences during each of the semesters of the program.

The field experiences progress from observation and short-term participation to long-term supervised student teaching. Students should expect these field experiences to be above and beyond the class times listed in the *Schedule of Classes* for each semester. Such field experiences typically take place in public schools throughout the greater Phoenix area. The Elementary Education degree program includes at least one semester of field experiences at a local public school campus taken concurrently with university course work. Students should plan extra travel time and expect to confer with mentor teachers and student teacher supervisors before or after scheduled field experiences. Regular attendance is required during all field experiences. To meet field experience requirements, students must plan to have their own transportation and be available during regular school hours.

Student Teaching

The major field experience, called student teaching, occurs in the last semester and is a full-day, full-semester obligation. Student teaching is possible during only fall and spring semesters.

Applications for student teaching must be completed early in the semester before the student teaching semester and turned in to the Office of Field Experiences. To be accepted for student teaching, students must

1. have a cumulative ASU GPA of 2.50 or higher;
2. have a GPA of 2.50 or higher in professional teacher preparation course work;
3. complete all required professional teacher preparation course work;
4. successfully complete the CTEL Writing Assessment or, for Special Education majors only, successfully complete writing requirements established in a Professional Improvement Plan;
5. remove all academic deficiencies, such as grades of "D" (1.00), "E" (0.00), or "I" before placement;
6. demonstrate appropriate professional conduct; and
7. complete the application procedure and secure approval to teach from the Offices of Field Experiences and Academic Advising before the deadline.

Student teachers must adhere to the calendar, regulations, and philosophy of the schools in which the student teachers are placed. Beginning and ending dates for student teaching are determined by the Office of Field Experiences in cooperation with the placement schools. Because student teaching is on a full-day schedule, 8 A.M. to 4 P.M. Monday

through Friday for 15 consecutive weeks, student teachers are strongly encouraged to avoid extra activities and course work that would interfere with the heavy demands placed upon them while student teaching.

ACADEMIC POLICIES

Students enrolled in undergraduate education programs are expected to maintain academic standards and demonstrate qualifications for the teaching profession, including mental health, interpersonal skills, basic communication skills, a positive attitude, appropriate professional conduct, and satisfactory performance in field experiences.

To be in good standing, students must maintain an overall cumulative GPA of 2.50 or higher with at least a grade of "C" (2.00) in each undergraduate education course. Any undergraduate education student whose cumulative GPA falls below 2.50 may be placed on academic probation or suspended from enrollment in professional courses for the next semester. Students on academic probation or suspension from the university and/or the College of Teacher Education and Leadership must seek advising from a college academic advisor before registering for additional course work. Probation and/or suspension status for academic reasons begins on the first day of classes of the semester after the probation or suspension action. Students placed on probation or suspension for any reason are subject to disqualification by the College of Teacher Education and Leadership at the end of the following semester if the conditions imposed for reinstatement are not met. Students placed on probation or suspension for any reason are reviewed at the end of the following semester.

Students demonstrating behaviors or characteristics that make it questionable whether they can succeed in the teaching profession may be disqualified or prescribed specific conditions under which continued participation is permitted, that is, probation or suspension.

Students who wish to appeal decisions of the College of Teacher Education and Leadership's Student Issues Committee may do so in writing to the dean of the college. Any exceptions to the above retention and disqualification policies and procedures must be approved by the College of Teacher Education and Leadership's Student Issues Committee and the dean of the college.

ELEMENTARY EDUCATION—BAE

Admission Requirements

To be considered for admission to the Elementary Education major, applicants must

1. complete a minimum of 56 semester hours of course work as outlined at West campus or equivalent courses at another accredited college or university, with a grade of "C" (2.00) or higher and an overall GPA of 2.50 or higher;
2. applicants in bilingual education only must show proficiency in Spanish by
   a. a grade of "C" (2.00) or higher in SPA 202 Intermediate Spanish, or
   b. a CLEP score of 62 or higher on College Spanish General Examination, or
   c. passing scores on all four areas of the Arizona Spanish Proficiency Examination; and
3. submit a completed application form for the Elementary Education degree program to the college Academic Advising Office by the appropriate deadline.

Required Courses

Choose one of the following combinations 3–6
ENG 101 First-Year Composition (3)
ENG 102 First-Year Composition (3)
——— *or* ———
ENG 105 Advanced First-Year Composition (3)
CSE 180 Computer Literacy *CS*.....3
or EDT 321 Computer Literacy *CS* (3)
HIS 103 The United States *SB, H*.....3
or HIS 104 The United States *SB, H* (3)
MAT 142 College Mathematics *MA*.....3
or higher level math course (3)

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

MTE 181 Theory of Elementary Mathematics.....3
SPE 222 Orientation to Education of Exceptional Children *SB* ...3
TEL 111 Exploration of Education *SB*.....3
TEL 212 Understanding the Culturally Diverse Child *C* 3

Selected Courses
G course 3
HU courses.....6
L course.....3
SQ course 4
SQ/SG course.....4
Electives 6–9
Minimum total 56

Some General Studies courses may be used to satisfy a General Studies core area requirement and one or two awareness area requirements at the same time, leaving the student more electives. Selected courses and General Studies courses should be chosen in consultation with a college academic advisor. Credit for SPA 101, 102, 201, 202 may also be counted as elective credit toward the 56-semester-hour requirement.

Program Requirements

Candidates for the BAE degree in Elementary Education are required to complete an approved program of 120 semester hours. These hours include

1. 56 semester hours of specified lower-division courses for admission;
2. 35 semester hours of General Studies courses;
3. 51 semester hours of specified upper-division course work in professional education; and
4. six semester hours of upper-division content course work selected in consultation with a college academic advisor, including
   a. one course from AMS, ENG, GCU, HIS, POL, or SPA (bilingual education majors only);
   b. one course from LSC or PHS; and
   c. three semester hours of upper-division elective course work.

The bilingual education concentration requires proficiency in Spanish; the English as a second language concentration requires six semester hours in a single foreign language or its equivalent.

For efficient progress toward the baccalaureate degree, much of this course work must be taken at the lower division and selected so that courses count toward more than one requirement simultaneously. Prospective students are encouraged to contact the college Advising Office to plan their program of study beyond the required course work noted for admission above.

Upper-division, professional education courses include College of Teacher Education and Leadership core curriculum courses, elementary education courses, field experience courses, and student teaching. This course work prepares individuals with abilities and attitudes to work in elementary schools. The combination of course work and field experience is aligned with the Arizona Professional Teaching Standards. Specified courses in elementary education are listed in this section.

Middle School Endorsement

Students in Elementary Education and bilingual/ESL education may elect to pursue the Middle School endorsement. Those who seek this endorsement must take 24 semester hours of course work in a content area (e.g., English, mathematics, science, social studies). A decision to pursue the Middle School endorsement should be made very early in the pursuit of a degree, certainly before admission to the program. Content course work should be selected in consultation with a college academic advisor. Students electing this option must also take EED 464 Middle School Curriculum and Organization and perform their student teaching at the middle school level.

Elementary Education students should review general information, field experience requirements, student teaching, and academic policies.

BILINGUAL/BICULTURAL EDUCATION (BLE)

For more BLE courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W BLE 312 ESL, Diversity, and Culture in Education. (3)
fall and spring
Examines social, historical, philosophical, and legal issues affecting racially, linguistically, culturally, and exceptionally diverse students in US schools. Prerequisites: ENG 101 (or 105); admission to PTPP or postbaccalaureate programs.
General Studies: L

W BLE 321 ESL Methods for Diverse Language Classrooms. (3)
fall and spring
Strategies and materials for second-language learning, including research on language acquisition/learning, practical applications of ESL methodologies, phonics. Prerequisite: completion of core curriculum courses. Corequisite: EED 397.

W BLE 322 Second-Language Literacy 1 in Elementary Schools. (3)
fall and spring
Instructional/assessment strategies, including systematic, research-based phonics, vocabulary, comprehension, spelling, writing, phonemic writing in Spanish/English. Prerequisite: completion of core curriculum courses. Corequisite: EED 397.

W BLE 324 Social Studies for Diverse Language Classrooms. (3)
fall and spring
Social studies education standards, curriculum, and instructional strategies for English language learners. Prerequisite: completion of core curriculum courses. Corequisite: EED 397.

W BLE 413 Second-Language Literacy 2 in Elementary Schools. (3)
fall and spring
Literacy and language arts instruction; assessment of reading and writing; transition literacy skills, particularly critical reading of content. Prerequisites: BLE 321, 322, 324; EDP 323; EED 397. Corequisite: EED 496.

W BLE 414 Bilingual/ESL Curriculum and Organization. (3)
fall and spring
ESL curriculum content and organization, including program model effectiveness, language assessment and language usage, special needs and parent involvement. Prerequisites: BLE 321, 322, 324; EDP 323; EED 397. Corequisite: EED 496.

W BLE 478 Student Teaching in Diverse Language Classrooms. (9)
fall and spring
Student teaching in diverse language classrooms. Focuses on use of English language learning and bilingual strategies; integrates all previous course work. Fee. Prerequisites: BLE 413, 414; EED 411, 412, 496. Corequisite: BLE 479.

W BLE 479 Capstone Seminar in Bilingual/ESL Education. (3)
fall and spring
Reflective, experience-based integration of theory and practice; professional development for bilingual/ESL teachers. Prerequisites: BLE 413, 414; EED 411, 412, 496. Corequisite: BLE 478 or 578.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

L literacy and critical inquiry / **MA** mathematics / **CS** computer/statistics/quantitative applications / **HU** humanities and fine arts / **SB** social and behavioral sciences / **SG** natural science—general core courses / **SQ** natural science—quantitative / **C** cultural diversity in the United States / **G** global / **H** historical / See "General Studies," page 93.

COMPUTER SCIENCE AND ENGINEERING (CSE)

For more CSE courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W CSE 180 Computer Literacy. (3)
fall and spring
Introduces personal computer operations and their place in society. Problem-solving approaches using databases, spreadsheets, and word processing. Lecture, lab, demonstration.
General Studies: CS

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

EARLY CHILDHOOD EDUCATION (ECD)

For more ECD courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W ECD 324 Social Studies and Creative Arts for Primary Level Children. (3)
fall and spring
Social studies and creative arts standards, curriculum, and instructional and assessment strategies for all primary-level children; developmentally appropriate methods and strategies for effective instruction. Prerequisite: completion of core curriculum courses. Corequisite: EED 397.

W ECD 414 Early Childhood Curriculum and Organization. (3)
fall and spring
Historical and legal influences on early childhood education; advanced preparation for curriculum designs and developmentally appropriate practices; school organization topics. Prerequisites: BLE 321; ECD 324; EDP 323; EED 397; RDG 322. Corequisite: EED 496.

W ECD 479 Capstone Seminar in Early Childhood Education. (3)
fall and spring
Reflective, experienced-based integration of theory and practice; professional development for early childhood teachers. Prerequisites: ECD 414; EED 411, 412, 496; RDG 413. Corequisite: EED 478 or 578.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

EDUCATIONAL PSYCHOLOGY (EDP)

For more EDP courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W EDP 310 Educational Psychology. (3)
selected semesters
Human behavior in educational situations. Individual differences, factors affecting learning, behavioral and cognitive learning, motivation, testing, and assessment.
General Studies: SB

W EDP 323 Professional Development, Learning, and Motivation. (3)
fall and spring
Applies educational psychology principles in classrooms; strategies for building classroom community; learner-centered and intentional teaching; and proactive professional development. Prerequisite: completion of core curriculum courses. Corequisite: EED 397.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

ELEMENTARY EDUCATION (EED)

For more EED courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W EED 324 Social Studies in Elementary Schools. (3)
fall and spring
Social studies education standards, curriculum, and instructional and assessment strategies for all children. Prerequisite: completion of core curriculum courses. Corequisite: EED 397.

W EED 397 Field Experience in Elementary Schools 2. (0)
fall and spring
Observation, instruction, and management of small groups and the whole class. Fee. Prerequisite: completion of core curriculum courses.

W EED 411 Science in Elementary Schools. (3)
fall and spring
Science education standards, curriculum, instructional and assessment strategies for all children. Fee. Prerequisites: BLE 321; EDP 323; EED 397. Corequisite: EED 496.

W EED 412 Mathematics in Elementary Schools. (3)
fall and spring
Methods of teaching mathematics to all students at the K-8 level, instructional planning and assessment. Prerequisites: BLE 321; EDP 323; EED 397. Corequisite: EED 496.

W EED 414 Elementary School Curriculum and Organization. (3)
fall and spring
Rationales for instructional curricula; alternative curriculum designs and broad-based content; selected topics in school governance, finance, and law. Prerequisites: BLE 321; EDP 323; EED 324; RDG 322. Corequisite: EED 496.

W EED 464 Middle-School Curriculum and Organization. (3)
fall and summer
Educational implications of the characteristics of a diverse adolescent population on middle-level organization and components, curriculum, instructional strategies, assessment. Cross-listed as SED 464. Credit is allowed for only EED 464 or SED 464. Prerequisite: semester 2 of the PTPP.

W EED 478 Student Teaching in the Elementary School. (9)
fall and spring
Student teaching in elementary school classrooms; integration of all previous course work. Fee. Prerequisites: EED 411, 412, 496; RDG 413. Corequisite: ECD 479 or EED 479.

W EED 479 Capstone Seminar in Elementary Education. (3)
fall and spring
Reflective, experienced-based integration of theory and practice; professional development for K–8 teachers. Prerequisites: EED 411, 412, 496; RDG 413. Corequisite: EED 478.

W EED 496 Field Experience 3. (0)
fall and spring
Instruction and management of small groups and substantial work with the whole class. Fee. Prerequisites: BLE 321; EDP 323; EED 397.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/catalog on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

MATHEMATICS EDUCATION (MTE)

For more MTE courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W MTE 180 Theory of Elementary Mathematics. (3)
fall and spring
Numbers, number systems, operations on numbers, algebraic reasoning, and problem solving. For prospective elementary and special education majors. Prerequisite: MAT 117 (or 142).

W MTE 181 Mathematics for Elementary Teachers 2. (3)
fall and spring
Data analysis, probability, geometry, and measurement. For prospective Elementary Education and Special Education majors. Prerequisite: MTE 180.

W MTE 380 Arithmetic in the Elementary School. (3)
selected semesters
Historical numeration systems, overview of elementary number theory, including primes, factorization, divisibility, bases, modular systems, linear congruence, and continued fractions. Prerequisite: MTE 180 or instructor approval.

W MTE 482 Methods of Teaching Mathematics in Secondary School. (3)
summer
Examines secondary school curricular material and analyzes instructional devices. Teaching strategies, evaluative techniques, diagnosis, and remediation and problem solving. Prerequisite: instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

MUSIC EDUCATION (MUE)

For more MUE courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W MUE 310 Music in Early Childhood Education. (3)
selected semesters
Identifies and understands musical needs of young children. Methods and materials for program development for classroom teachers.

W MUE 311 Music for the Classroom Teacher. (3)
selected semesters
Develops the classroom music program in the elementary school. No previous music experience or course work required. Not for music majors or minors.

W MUE 464 Music of World Cultures in the Classroom. (3)
selected semesters
Studies contemporary music of representative cultures within the context of a people's total way of life.
General Studies: HU, G

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

READING EDUCATION (RDG)

For more RDG courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W RDG 322 Language Literacy 1 in Elementary Schools. (3)
fall and spring
Instructional strategies for teaching reading using systematic research-based phonics to aid decoding; vocabulary; and comprehension development; writing, speaking, and listening skills. Prerequisite: completion of core curriculum courses. Corequisite: EED 397.

W RDG 323 Literacy Processes in Content Areas. (3)
fall and spring
Principles and practices for planning subject matter units of instruction that explicitly address learning with texts across academic disciplines. Prerequisite: completion of core curriculum. Corequisite: SED 397.

W RDG 413 Language Literacy 2 in Elementary Schools. (3)
fall and spring
Applies literacy strategies, including instruction and diagnostic assessment, literacy lessons with adaptations for diverse learners, extended classroom experiences. Prerequisites: BLE 321; EDP 323; EED 397; RDG 322. Corequisite: EED 496.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

TEACHER EDUCATION AND LEADERSHIP (TEL)

Department of Elementary Education

For more TEL courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W TEL 111 Exploration of Education. (3)
fall and spring
Education as an instrument in the development of the individual and society and its significance as an American Institution.
General Studies: SB

W TEL 212 Understanding the Culturally Diverse Child. (3)
fall, spring, summer
Surveys cultural and linguistic diversity in American education, including education equity, pluralism, learning styles, and roles of schools in a multiethnic society. Prerequisite: TEL 111.
General Studies: C

W TEL 311 Instruction and Management in the Inclusive Classroom. (3)
fall and spring
Planning and delivering instruction, organizing and managing classrooms, and making adaptations for English language learners and students with special needs. Prerequisite: admission to PTPP or postbaccalaureate programs. Corequisite: TEL 396.

W TEL 313 Educational Technology in the K–12 Curriculum. (3)
fall and spring
Applies and integrates educational technologies in all curricular areas; examines theoretical and practical issues for diverse learners. Fee. Prerequisite: admission to PTPP or postbaccalaureate programs. Corequisite: TEL 396.

W TEL 314 Classroom Assessment. (3)
fall and spring
Assessment and evaluation of student leaning; emphasizes integration and adaptation of curriculum, instruction, and evaluation of all students. Prerequisite: admission to PTPP or postbaccalaureate programs. Corequisite: TEL 396.

W TEL 315 Child and Adolescent Development. (3)
fall and spring
Physical, cognitive, social, and emotional development during childhood and adolescence; developmentally appropriate principles and practices to facilitate development for all students. Prerequisite: admission to PTPP or postbaccalaureate programs. Corequisite: TEL 396.
General Studies: SB

W TEL 396 Field Experience I. (0)
fall and spring
Observation in classrooms and individual and small group instruction. Fee. Prerequisite: admission to PTPP or postbaccalaureate programs.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

SECONDARY EDUCATION—BAE

Admission Requirements

To be considered for admission to the Secondary Education major, applicants must complete a minimum of 56 semester hours of course work as outlined below at West campus or equivalent courses at another accredited college or university, with a grade of "C" (2.00) or higher and an overall GPA of 2.50 or higher:

Required Courses

Choose one of the following combinations 3–6
ENG 101 First-Year Composition (3)
ENG 102 First-Year Composition (3)
——— *or* ———
ENG 105 Advanced First-Year Composition (3)
MAT 142 College Mathematics *MA* 3
or higher level math course (3)
SPE 222 Orientation to Education of Exceptional Children *SB* ...3

Selected Courses

C course 3
CS course 3
G course 3
H course 3
HU courses 6
L course 3
SB course 3
SQ course 4
SQ/SG course 4
Electives 12–15

Minimum total 56

Program Requirements

Candidates for the BAE degree in Secondary Education are required to complete an approved program of 120 semester hours. These hours include

1. 56 semester hours of specified lower division courses for admission;
2. 35 semester hours of General Studies courses;
3. 37 to 39 semester hours of specified upper-division course work in professional education; and
4. 36 to 39 semester hours of course work in an academic specialization.

Some General Studies courses may be used to satisfy a General Studies core area requirement and one or two awareness area requirements at the same time, leaving the student more electives. Academic specialization courses may be used to fulfill General Studies or elective requirements. Selected courses and General Studies courses should be chosen in consultation with a college Academic Advisor.

Students majoring in Secondary Education should also review general information, field experience requirements, student teaching, and academic policies.

Secondary Education (7–12) Major

Semester 1

BLE 312 ESL, Diversity, and Culture in Education *L* 3
TEL 311 Instruction and Management in the Inclusive Classroom 3
TEL 313 Educational Technology in the K–12 Curriculum 3

SED 321 Critical Issues in Secondary Education 3
SED 322 Classroom Leadership in Secondary Schools 3
SED 397 Field Experience 2 0
Major methods course 3

Total 12

Semester 3

SED 478 Student Teaching in the Secondary School 10–12

Major total 37–39

Additional Requirements

Additional course work, taken outside the College of Teacher Education and Leadership, is required for the academic specialization in secondary education. The New College of Interdisciplinary Arts and Sciences offers courses that are required for secondary education certification in four areas: English, history, social studies, and mathematics. Since these four secondary specializations are well supported at the West campus, preference in admissions is given to students applying to these areas. Students majoring in Secondary Education who elect a specialization other than the four offered at West campus must complete a substantial portion of their specialization course work and the major methods course at the Tempe campus. Refer to the pages shown below for descriptions of the academic specializations available at West campus.

Academic Specialization

Course	Page
English	715
History	717
Mathematics	726
Social studies	730

SECONDARY EDUCATION (SED)

For more SED courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W SED 321 Critical Issues in Secondary Education. (3)
fall and spring
Examines perspectives of critical issues in contemporary education and encourages students to think critically and to develop their own viewpoints. Prerequisite: completion of core curriculum. Corequisite: SED 397.

W SED 322 Classroom Leadership in Secondary Schools. (3)
fall and spring
Theories and practices for managing and maintaining secondary classrooms for learning; strategies for home/school communication; and leadership roles for teachers. Prerequisite: completion of core curriculum. Corequisite: SED 397.

W SED 397 Field Experience 2. (0)
fall and spring
Applies course content in a secondary school setting. Emphasizes observation, pupil management, planning and delivering instruction, and assessment. Fee. Prerequisite: completion of core curriculum courses.

W SED 464 Middle-School Curriculum and Organization. (3)
fall and summer
Educational implications of the characteristics of a diverse adolescent population on middle-level organization and components, curriculum, instructional strategies, assessment. Cross-listed as EED 464. Credit is allowed for only SED 464 or EED 464. Prerequisite: semester 2 of the PTPP.

W SED 478 Student Teaching in the Secondary School. (3–12)
fall and spring
The practice of teaching; relationship of theory and practice in teaching. Fee. Prerequisites: 2.50 GPA; completion of all professional course work; approval of Offices of Field Experiences and Academic Advising.

W SED 480 Special Methods of Teaching Social Studies. (3)
fall and spring
Interdisciplinary approaches; production and collection of materials.

W SED 481 English Teaching Methods for Secondary Schools. (3)
fall and spring
Instructional, organizational, and presentation methods for English in secondary schools. Prerequisite: ENG 312 or 314 or instructor approval.

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

SPECIAL EDUCATION—BAE

Career Outlook

The career outlook for this teaching profession is promising. Special educators are in high demand in Arizona as well as many other states. Demand is expected to remain strong. Special educators are highly regarded by school districts. There are also many opportunities for special education program graduates to take positions in K–8 classrooms as graduates may be eligible for elementary education certification. Increasing proportions of school districts practice full inclusion of students with disabilities into general education classes, which increases the demand for qualified special educators.

Admission Requirements

To be considered for admission to the Special Education major, applicants must complete a minimum of 56 semester hours of course work as outlined at West campus or equivalent courses at another accredited college or university, with a grade of "C" (2.00) or higher and an overall GPA of 2.50 or higher.

Required Courses

Choose one of the following combinations 3–6
ENG 101 First-Year Composition (3)
ENG 102 First-Year Composition (3)
——— *or* ———
ENG 105 Advanced First-Year Composition (3)
CSE 180 Computer Literacy *CS*.....3
or EDT 321 Computer Literacy *CS* (3)
HIS 103 The United States *SB*, *H*.....3
or HIS 104 The United States *SB*, *H* (3)
MAT 142 College Mathematics *MA* or higher level math course ..3
MTE 180 Theory of Elementary Mathematics.....3
MTE 181 Theory of Elementary Mathematics.....3
SPE 222 Orientation to Education of Exceptional Children *SB* ...3
TEL 111 Exploration of Education *SB*.....3
TEL 212 Understanding the Culturally Diverse Child *C* 3

Selected Courses

G course	3
HU courses	6
L course	3
SQ course	4
SQ/SG course	4
Electives	6–9
Minimum total	56

Some General Studies courses may be used to satisfy a General Studies core area requirement and one or two awareness area requirements at the same time, leaving the student more electives. Selected courses and General Studies courses should be chosen in consultation with a college Academic Advisor.

Program Requirements

Candidates for the BAE degree in Special Education are required to complete an approved program of 120 semester hours. These hours include

1. 56 semester hours of specified lower-division courses for admission;
2. 35 semester hours of General Studies courses; and
3. 60 semester hours of specified upper-division course work in professional education.

Upper-division, professional education courses include College of Teacher Education and Leadership core curriculum courses, special education courses, field experience courses, and student teaching. This course work prepares individuals with abilities and attitudes to work in special education classrooms. The combination of course work and field experience is aligned with the Arizona Professional Teaching Standards. Special education students should review general information, field experience requirements, student teaching, and academic policies within this catalog.

SPECIAL EDUCATION (SPE)

For more SPE courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W SPE 222 Orientation to Education of Exceptional Children. (3)
fall, spring, summer
Includes gifted, mildly handicapped, severely handicapped, and the bilingual/multicultural exceptional child.
General Studies: SB

W SPE 310 Professional Practices in Special Education. (3)
fall and spring
Emphasizes the roles and professional responsibilities of special educators in all service delivery models. Prerequisite: completion of core curriculum courses. Corequisites: SPE 317, 320, 322, 397.
General Studies: L

W SPE 317 Special Education for Culturally and Linguistically Diverse Children and Youth. (3)
fall and spring
General issues and practical applications regarding the education of culturally and linguistically diverse students with disabilities. Prerequisite: completion of core curriculum courses. Corequisites: SPE 310, 320, 322, 397.

W SPE 318 Family-School Collaboration: An Integrated Approach for Children and Adolescents with Special Needs. (3)
fall and spring
Explores relationships between families of children with special needs and professionals in educational institutions and community agencies. Prerequisite: completion of core curriculum courses. Corequisites: SPE 423, 424, 431, 496.

W SPE 320 Assessment and Evaluation in Special Education. (3)
fall and spring
Norm-referenced, criterion-referenced, and authentic strategies to determine eligibility, plan individualized programs, and monitor progress of students with disabilities. Prerequisites: ENG 101 (or 105); completion of core curriculum courses. Corequisites: SPE 310, 317, 322, 397.
General Studies: L

W SPE 322 Behavior Management and Consultation. (3)
fall and spring
Develops and implements analysis, intervention, and consultation strategies for effective management of classroom behavior for students with disabilities. Prerequisite: completion of core curriculum. Corequisites: SPE 310, 317, 320, 397.

W SPE 397 Field Experience II. (0)
fall and spring
Applies course content in a special education setting. Emphasizes observation, pupil management, planning and delivering instruction, and assessment. Fee. Prerequisite: completion of core curriculum. Corequisites: SPE 310, 317, 320, 322.

View of the West campus from Fletcher Library

Arthur Holeman photo

W SPE 423 Technology and Instructional Methods in Language, Reading, and Mathematics for Students with Mild/Moderate Disabilities. (3)
fall and spring
Effective use of technology; instruction and assessment of performance in language, reading, and mathematics for students with mild/moderate disabilities. Prerequisites: SPE 310, 317, 320, 322, 397. Corequisites: SPE 318, 424, 431, 496.

W SPE 424 Methods of Cross-Categorical Special Education. (3)
Assessment and instructional methods for students with mild to moderate retardation, learning disability, emotional disabilities, and physical/health impairment. Prerequisites: SPE 310, 317, 320, 322, 397. Corequisites: SPE 318, 423, 431, 496.

W SPE 431 Collaborative Teaching Methods for General Education Classroom Environments. (3)
fall and spring
Methods and issues in cooperative teaching for special education students in general education classrooms. Prerequisites: SPE 310, 317, 320, 322, 397. Corequisites: SPE 318, 423, 424, 496.

W SPE 440 Professional Seminar in Special Education. (3)
fall and spring
Examines critical issues in the delivery of special education services. Emphasizes self reflection and professional development. Prerequisites: SPE 318, 423, 424, 431. Corequisite: 478.

W SPE 478 Student Teaching in Special Education. (12)
fall and spring
Student teaching in special education setting. Fee. Prerequisites: a 2.50 GPA; completion of all professional course work; approval of Offices of Field Experiences and Academic Advising.

W SPE 496 Field Experience III. (0)
fall and spring
Applies course content in a special education setting. Emphasizes observation pupil management, planning and delivering instruction, and assessment. Fee. Prerequisites: SPE 310, 317, 320, 322, 397. Corequisites: SPE 318, 423, 424, 431.

FAB S220

Stephen B. Lawton, Chair

See the "College of Teacher Education and Leadership Graduate Degrees and Majors" table, on this page, for programs available at the West campus.

In addition the Department of Graduate Studies and Professional Development offers Master's Programs with Teacher Certification in Elementary, Secondary, and Special Education. Consult the *Graduate Catalog* for information regarding Master's degree programs and requirements.

EDUCATIONAL ADMINISTRATION AND SUPERVISION (EDA)

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog*, or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.

EDUCATIONAL TECHNOLOGY (EDT)

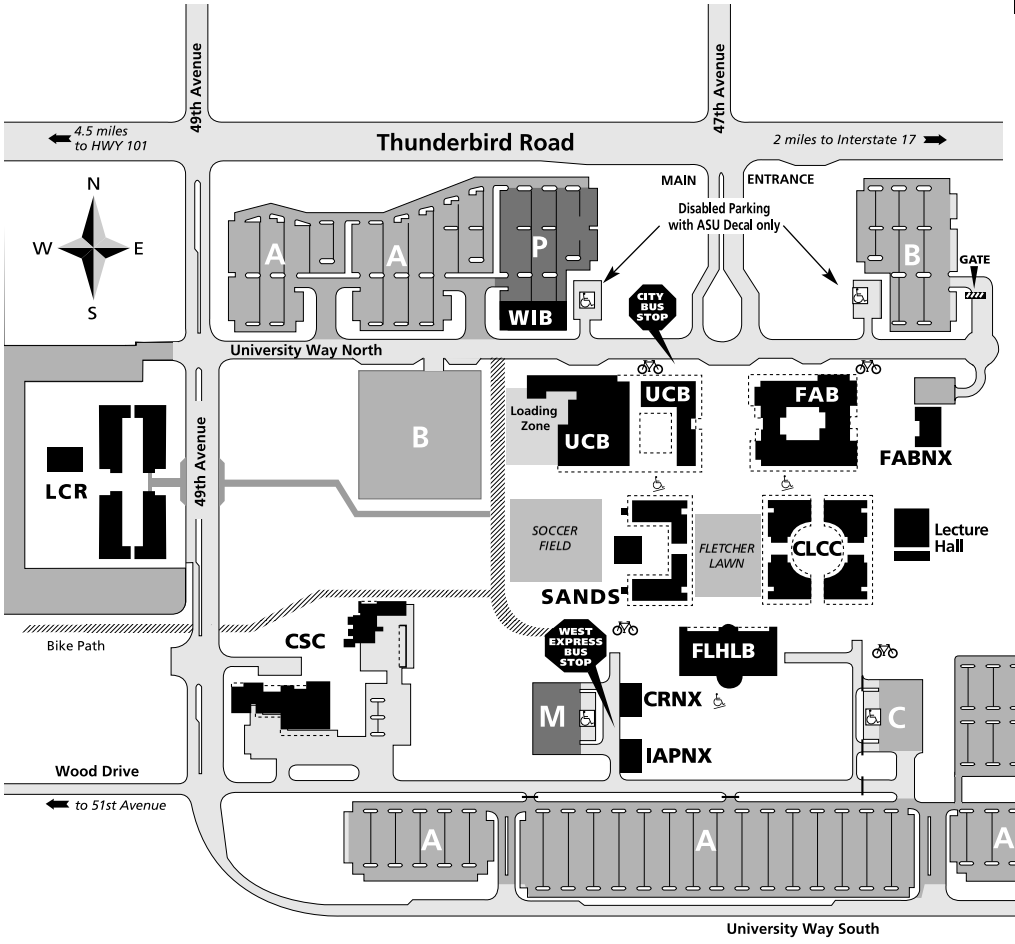
Department of Elementary Education

For more EDT courses, see the "Course Prefixes" table, or access www.asu.edu/aad/catalogs/courses. The campus designation—D (Downtown Phoenix), E (Polytechnic), M (Tempe), or W (West)—may affect how courses may be used to fulfill requirements.

W EDT 321 Computer Literacy. (3)
fall and spring
Computer software applications. Problem-solving approaches using databases, spreadsheets, word processing, Web publishing, and other current applications. Lecture, lab, demonstration.
General Studies: CS

Omnibus Courses. For an explanation of courses offered but not specifically listed in this catalog, see "Omnibus Courses," page 63.

Graduate-Level Courses. For information about courses numbered from 500 to 799, see the *Graduate Catalog,* or access www.asu.edu/aad/catalogs on the Web. In some situations, undergraduate students may be eligible to take these courses; for more information, see "Graduate-Level Courses," page 62.



BUILDING LEGEND

Welcome & Information Building (WIB)
- Arizona State Savings & Credit Union
- Campus Information Center
- Parking Services Office
- Testing Services

Las Casas Student Housing (LCR)

University Center Building (UCB)
- Admission Services
- Bank of America ATM
- Barrett Honors College
- Bookstore
- Cafeteria
- Career Services/Personal Counseling Center
- Cashier's Office
- Child Care Center
- Devils' Den game room
- Disability Resource Center
- Financial Aid/Student Employment
- GCC- ASU Partnership
- Information Desk
- La Sala A,B,C
- Multicultural Student Services
- Registration Services
- Second Stage West Theatre
- Student Affairs Administration
- Student Health Services
- Student Life
- Student Support Services Program
- University College at the West campus
- Veteran Student Services
- Wellness/Fitness Center
- Women's Studies Resource Center

Faculty/Administration Building (FAB)
- Academic Affairs
- Basement classrooms
- College of Human Services
- College of Teacher Education & Leadership
- Copy Center
- Information Desk
- Institutional Planning & Research
- Instructional Technology Lab
- New College of Interdisciplinary Arts & Sciences
- Office of Administrative Affairs/Planning & Budget
- Office of the Provost
- Public Affairs
- School of Global Management & Leadership

FAB Annex (FABNX)
- Human Resources

Classroom Lab/Computer Classroom Building (CLCC)
- Information Technology
- Lecture Hall
- Life Sciences

Fletcher Library (FLHLB)
- Technopolis
- Learning Enhancement Center

Interdisciplinary Arts Annex (IAPNX)

Classroom Annex (CRNX)

Sands Classroom Building (SANDS)
- Kiva Lecture Hall
- Sand Trap snack bar

Central Services Complex (CSC)
- Central Plant
- DPS/University Police
- Facilities Development & Management
- Mail Services

SYMBOLS LEGEND

- Disabled Permit Parking
- A — Permit Parking *(Students, faculty & staff only)*
- M — Metered Parking *(25¢ per 15 minutes)*
- B — Faculty/Staff Permit Parking *7 am to 5:30 pm - Student permit parking allowed after 5:30 pm)*
- P — Visitor Parking *Fee lot - 24 hours/day*
- C — Faculty/Staff Permit Parking *(24 hours/day)*
- Accessible Ramp
- Bicycle Racks

Parking regulations are enforced at all times. Parking permits are required on campus from 7am through 10pm. Meters are enforced from 7am until 10pm. Parking regulations are enforced 24 hours a day, 7 days a week.

President's and Regents' Professors

President's Professors

The title "president's professor" is bestowed upon tenured faculty who have made substantial contributions to undergraduate education at ASU through their demonstrated commitment to teaching, creative scholarship, and student success.

RANDALL S. CERVENY
Geography

ALICE A. CHRISTIE
Graduate Studies and Professional Development

IAN R. GOULD
Chemistry and Biochemistry

Regents' Professors

The title "regents' professor" is conferred on selected members of the ASU tenured faculty who have achieved and are sustaining the highest level of distinction by their exceptional contributions to the mission of the university in research or other creative activity and in teaching or professional service.

JOHN ALCOCK
Life Sciences

DAVID L. ALTHEIDE
Justice and Social Inquiry

C. AUSTEN ANGELL
Chemistry and Biochemistry

CHARLES J. ARNTZEN
Life Sciences

CONSTANTINE A. BALANIS
Electrical Engineering

DAVID C. BERLINER
Educational Leadership and Policy Studies and Psychology in Education

PETER R. BUSECK
Chemistry and Biochemistry and Geological Sciences

CORDELIA CHAVEZ CANDELARIA
Chicana and Chicano Studies and English

RON CARLSON
English

CARLOS CASTILLO-CHAVEZ
Mathematics and Statistics

PHILLIP R. CHRISTENSEN
Geological Sciences

ROBERT B. CIALDINI
Psychology

GEOFFREY A. CLARK
Anthropology

NORMAN DUBIE
English

NANCY H. EISENBERG
Psychology

DAVID K. FERRY
Electrical Engineering

DAVID WILLIAM FOSTER
Languages and Literatures

GENE V GLASS
Educational Leadership and Policy Studies and Psychology in Education

LUIS R. GOMEZ-MEJIA
Management

WILLIAM L. GRAF
Geography, Emeritus

RONALD GREELEY
Geological Sciences

GERALD THOMAS HEYDT
Electrical Engineering

DAVID R. HICKMAN
Music

PETER IVERSON
History

DAVID H. KAYE
Law

GARY D. KELLER
Languages and Literatures

MARK C. KLETT
Art

DANIEL M. LANDERS
Kinesiology

SHENG H. LIN
Chemistry and Biochemistry, Emeritus

JANE MAIENSCHEIN
Biology and Society

JAMES W. MAYER
Chemical and Materials Engineering and Solid State Science

DOUGLAS C. MONTGOMERY
Industrial Engineering

CARLETON B. MOORE
Chemistry and Biochemistry and Geological Sciences, Emeritus

JEFFRIE G. MURPHY
Law and Philosophy

MICHAEL O'KEEFFE
Chemistry and Biochemistry, Emeritus

CAIO PAGANO
Music

DENNIS J. PALUMBO
Justice and Social Inquiry, Emeritus

G. ROBERT PETTIT
Chemistry and Biochemistry

GEORGE H. POSTE
Biology

EDWARD C. PRESCOTT
Economics

STEPHEN J. PYNE
Life Sciences

ROGIER A. WINDHORST
Physics and Astronomy

Faculty and Academic Professionals

The faculty and academic professionals listed are involved in undergraduate and graduate instruction and research. The year of first appointment follows the name. Emeritae and emeriti are included.

Downtown Phoenix Campus

A

Adams, Donna (1983), Professor Emerita of Nursing; BSN, University of Missouri, Columbia; MS, Arizona State University; DNSc, University of San Diego

Adams, Sue (2001), Clinical Associate Professor of Nursing; BSN, University of Arizona; MS, Arizona State University

Aerni, Wayne (1991), Faculty Associate of Public Affairs; BA, University of Oregon; MPA, PhD, Arizona State University

Allison, Maria T. (1984), Professor of Community Resources and Development; Vice Provost and Dean of Graduate Studies; BS, MS, University of New Mexico; PhD, University of Illinois

Alpers, Rojann R. (1995), Associate Professor of Nursing; Curator, American Museum of Nursing; BSN, MS, Arizona State University; PhD, University of Iowa

Alvarado, Ronald H. (1974), Professor Emeritus of Life Sciences; Dean Emeritus, School of Extended Education; BA, University of California, Riverside; MS, PhD, Washington State University

Al-Yahya, Khalid (2005), Assistant Professor of Public Affairs; BA, Imam University (Saudi Arabia); MBA, MPA, University of Hartford; PhD, University of Connecticut, Storrs

Anderson, Jonna (2004), Clinical Assistant Professor of Nursing; BSN, Lewis-Clark State College; MSN, Idaho State University

Armbruster, Charlotte (1997), Clinical Associate Professor of Nursing; BSN, MS, Arizona State University

Ashcraft, Robert F. (1995), Associate Professor of Community Resources and Development; Director, Center for Nonprofit Leadership and Management; BA, University of Arizona; MA, Northern Arizona University; PhD, Arizona State University

Ashford, Jose B. (1984), Professor of Social Work; BA, Loyola University, New Orleans; MSW, Ohio State University; PhD, Bowling Green State University

Augsburg, Tanya (1997), Senior Lecturer of Interdisciplinary Studies; BA, New York University; MA, PhD, Emory University

B

Bacchus, Denise N.A. (2003), Assistant Professor of Social Work; BA., Ithaca College; MA, PhD, State University of New York, Albany

Backer, Linda R. (1997), Assistant Instructional Professional, School of Extended Education; Manager, Interdisciplinary Programs, Academic and Professional Programs, School of Extended Education; BA, University of Colorado; MS, Colorado State University

Bagwell, Marilyn (1972), Professor Emerita of Nursing; BSN, University of California, Los Angeles; MA, Arizona State University; PhD, Texas Woman's University

Baldwin, Carol (2004), Associate Professor of Nursing; BSN, MSN, University of Phoenix; PhD, University of Arizona

Bardewyck, Loretta A. (1957), Professor Emerita of Nursing; Dean Emerita, College of Nursing; PHN, BS, University of Minnesota, Twin Cities; MS, Cornell University

Barry, Rebecca E. (2002), Lecturer of Community Resources and Development; BA, University of Utah; MA, Middlebury College; PhD, University of Utah

Beck, Lasca (1984), Professor Emerita of Nursing; BSN, Texas Woman's University; MS, Texas A&M University, Commerce

Bell, Shirley (1988), Clinical Professor of Nursing; BSN, University of Cincinnati; MSN, Wayne State University; EdD, West Virginia University

Belyea, Michael (2005), Research Professor of Nursing; BA, MA, University of North Dakota; PhD, North Carolina State University, Chapel Hill

Benesh, Susan (1999), Clinical Assistant Professor of Nursing; BSN, MS, Arizona State University

Blessing, Linda (1995), Professor of Practice in Public Affairs; BS, California State Polytechnic University, Pomona; MBA, California State University, San Bernardino; PhD, Arizona State University

Bley, Patricia (2002), Faculty Associate of Nursing; BSN, Arizona State University; MSN, University of Phoenix

Boylan, Amy Cooper (1986), Academic Associate, University College; Academic Advisor; BSW, MC, Arizona State University

Bozzette, Maryann (2005), Associate Professor of Nursing; BSN, D'Youville College; MN, PhD, University of Washington

Bradley, Eula D. (1979), Academic Specialist Coordinator of Nursing; BMEd, Southwest Baptist University

Bragg, Chris (2006), Assistant Director, Special Programs, American English and Culture Program, School of Extended Education; BA, MTESL, Arizona State University; MA, University of Chicago

Branstetter, Ellamae (1967), Professor Emerita of Nursing; BS, St. Louis University; MPH, University of Minnesota, Twin Cities; PhD, University of Chicago

Brillhart, Barbara (1996), Associate Professor of Nursing; BSN, MSN, California State University, Los Angeles; PhD, Texas Woman's University

Brooks, Ruth (2000), Manager, Learning Resource Center; BS, University of Wyoming; MS, University of Colorado at Denver and Health Sciences Center

Brown, Brent W. (1972), Professor Emeritus of Public Affairs; BA, Brigham Young University; MA, Arizona State University; PhD, University of Illinois

Brown, Theresa (2000), Faculty Associate of Nursing; BSN, Arizona State University

Brown, William A. (1999), Assistant Professor of Community Resources and Development; BS, Northeastern University; MA, PhD, Claremont Graduate University

Bruner, May I. (1961), Professor Emerita of Nursing; BS, University of Hawaii, Honolulu; MS, University of Colorado

Brzuzy, Stephanie (1995), Associate Professor of Social Work; BSW, Indiana University, Bloomington; MSW, University of Illinois, Urbana-Champaign; PhD, Ohio State University

Budruk, Megha (2004), Assistant Professor of Community Resources and Development; BS, University of Poona (India); MS, Arizona State University; PhD, University of Vermont

C

Campbell, Heather E. (1991), Associate Professor of Public Affairs; Director, Public Administration Master's Program; BA, University of California, San Diego; MPhil, PhD, Carnegie Mellon University

Campesino, Maureen (2005), Assistant Professor of Nursing; BSN, Rutgers, The State University of New Jersey; MS, Arizona State University; PhD, University of Arizona

Catlaw, Thomas J. (2004), Assistant Professor of Public Affairs; BA, Trinity College; MPA, PhD, George Washington University

Cayer, N. Joseph (1980), Professor of Public Affairs; BA, MPA, University of Colorado; PhD, University of Massachusetts, Amherst

Cesarotti, Evelyn (1992), Associate Professor of Nursing; Site Coordinator, West Campus; BSN, University of West Florida; MS, PhD, University of Arizona

Chang, Mary (2006), Assistant Director, American English and Culture Program, School of Extended Education; BA, Arizona State Unviersity; MA, Monterey Institute of International Studies

Chapman, Jeffrey (1999), Professor of Public Affairs; AB, Occidental College; MA, PhD, University of California, Berkeley

Chen, Angela Chia-Chen (2005), Assistant Professor of Nursing; BSN, National Taiwan University, Medical College (Taiwan); MS, PhD, University of Washington

Chilton, Leslie Anne (1998), Academic Associate, University College; Coordinator, Writing Center; BA, MA, PhD, Arizona State University

Cole, Tom (1981), Lecturer, School of Extended Education; Associate Director, American English and Culture Program, School of Extended Education; BS, Northern Arizona University; MA, Arizona State University

Cook, Sue (2004), Assistant Professor of Nursing; BSN, University of Phoenix; MS, Arizona State University; MEd, Northern Arizona University; PhD, University of Arizona

Cooke, Cheryl L. (2004), Assistant Professor of Nursing; BSN, University of Washington, Bothell; MSN, PhD, University of Washington

Cooper, Janet (2005), Faculty Associate of Nursing; BSN; California State University, Dominguez Hills; MSN, California State University, Long Beach

Coor, Lattie F. (1990), Professor of Public Affairs; President Emeritus, Arizona State University; AB, Northern Arizona University; MA, PhD, Washington University

Corey, Frederick C. (1987), Associate Professor of Communication; Associate Dean, University College; Interim Director, School of Interdisciplinary Studies; BS, Central Michigan University; MS, Southern Illinois University, Carbondale; PhD, University of Arizona

Corley, Elizabeth A. (2003), Assistant Professor of Public Affairs; BSCE, MS, MSCE, PhD, Georgia Institute of Technology

Coudroglou, Aliki (1971), Professor Emerita of Social Work; BA, College of Saint Benedict; MSW, University of Minnesota, Twin Cities; DSW, Columbia University

Coughlin, John Kevin (1994), Academic Associate, University College; BA (History), BA (Religious Studies), MC, Arizona State University

Crocker, Nancy (1996), Academic Associate, University College; Associate Director, Academic Community Engagement Services; BA, MA, PhD, Michigan State University

Crow, Michael M. (2002), Professor of Public Affairs; President, Arizona State University; BA, Iowa State University; PhD, Syracuse University

D

Dahl, Jeannine (1989), Professor Emerita of Nursing; BS, University of Kansas; MA, EdD, University of Northern Colorado

Daley, J. Michael (1978), Professor Emeritus of Social Work; BS, Spring Hill College; MSW, Saint Louis University; MS, University of Pittsburgh; PhD, Tulane University

Davidson, Sandra J. (2005), Clinical Associate Professor of Nursing; BN, University of Lethbridge (Canada); MS, Gonzaga University

DeGraw, Bette F. (1986), Administrative Professional Emerita of Public Affairs; Dean Emerita, School of Extended Education; BA, Thiel College; MSW, Rutgers, The State University of New Jersey; PhD, Arizona State University

Dehghanpisheh, Elaine (1983), Lecturer, American English and Culture Program, School of Extended Education; BA, MA, Pahlavi University (Iran)

DeLusé, Stephanie R. (1993), Lecturer of Interdisciplinary Studies; BS, MA, PhD, Arizona State University

Denhardt, Janet Vinzant (1995), Professor of Public Affairs; BA, Washington State University; MPA, DPA, University of Southern California

Denhardt, Robert (1999), Professor of Public Affairs; Director, School of Public Affairs; BA, Western Kentucky University; MA, PhD, University of Kentucky

Di Adamo, Barbara A. (1999), Academic Associate, University College; BA, William Paterson University; MA, Sonoma State University

Dirksen, Shannon Ruff (1996), Associate Professor of Nursing; BSN, Arizona State University; MS, PhD, University of Arizona

Doser, Douglas A. (2000), Academic Associate, University College; Academic Advisor; BA, MS, Eastern Illinois University

Durand, Barbara A. (1992), Professor Emerita of Nursing; BS, College of Saint Teresa; MS, University of California, San Francisco; EdD, University of San Francisco

E

Edwards, Andrew (1994), Academic Associate, University College; BA, Northwestern University; MSE, Indiana University, Bloomington

Ellsworth, Kevin H. (1995), Lecturer of Interdisciplinary Studies; Director, Bachelor of Interdisciplinary Studies; BA, MA, Brigham Young University; PhD, Arizona State University

Evans, Bronwynne C. (2004), Associate Professor of Nursing; BSN, Washington State University; MA, PhD, University of Washington

F

Fargotstein, Barbara P. (1988), Clinical Associate Professor of Nursing; BS, BSN, Arizona State University; MN, University of California, Los Angeles

Faulkner, Melissa Spezia (2006), Professor of Nursing; Associate Dean, Research; BSN, Southern Illinois University, Edwardsville; MSN, University of Evansville; DSN, University of Alabama, Birmingham

Fausel, Donald F. (1969), Professor Emeritus of Social Work; AB, STB, STL, Saint Mary's University; MSW, Fordham University; DSW, Columbia University

Feldman, Patricia A. (1990), Associate Administrative Professional, School of Extended Education; Executive Director, Academic and Professional Programs, School of Extended Education; BS, MEd, Colorado State University; EdD, Arizona State University

Fiery, Cecelia (2001), Academic Specialist Coordinator of Nursing; BS, Greenville College; MA, Eastern Michigan University

Figueira-McDonough, Josephina (1990), Professor Emerita of Justice and Social Inquiry and Social Work; BS, University of Lisbon (Portugal); MSW, PhD, University of Michigan

Finch, A. Joyce (1965), Professor Emerita of Nursing; BSN, Augustana College; MS, University of Colorado; PhD, University of Texas, Austin

Fineout-Overholt, Ellen (2004), Clinical Associate Professor of Nursing; Director, Center for the Advancement of Evidence-Based Practice; BSN, University of Texas Medical Branch; MSN, University of Alabama, Birmingham; PhD, University of Rochester

Fleury, Julie (2001), Hanner Professor of Nursing; Director of DNS Program; BSN, Northern Arizona University; MS, PhD, University of Arizona

Fountaine, Steven (1990), Lecturer, American English and Culture Program, School of Extended Education; BA, Shepherd College; MA, Temple University; PhD, Arizona State University

Freeman, Sandee (1990), Academic Associate, University College; Academic Advisor; BS, MFA, Arizona State University

Friedman, Debra (2005), Professor of Public Affairs; Dean, College of Public Programs; BA, Adelphi University; MA, PhD, University of Washington

G

Gale, Betty J. (1982), Professor Emerita of Nursing; BSN, MS, Arizona State University; DNSc, University of San Diego

Garcia-Wiggen, Grace C. (2005), Faculty Associate of Nursing; BSN, BSW, University of North Dakota; MSW, Augsburg College

Garrison, Eleanor (1973), Professor Emerita of Nursing; BSN, MSN, Wayne State University

Garrity, Marjorie L. (1975), Professor Emerita of Nursing; BS, University of Bridgeport; MS, Case Western Reserve University

Gerdes, Karen E. (1995), Associate Professor of Social Work; BS, Florida State University; MSW, Brigham Young University; PhD, Florida State University

Gonzalez-Santin, Edwin (1979), Senior Instructional Professional of Social Work; BA, Cameron State College; MSW, Arizona State University

Greenberg, Edward A. (1996), Associate Research Scientist for Nursing; Director, Data Management and Information Systems; BA, University of California, Los Angeles; PhD, Arizona State University

Guo, Chao (2002), Assistant Professor of Community Resources and Development; BA, MA, Renmin University of China; PhD, University of Southern California

Gustavsson, Nora S. (1994), Associate Professor of Social Work; AB, MSW, City University of New York; PhD, University of Southern California

Gutierrez, Carol (2005), Faculty Associate of Nursing; BSN, University of Wisconsin; MS, De Paul University

H

Hackett, Gail (1988), Professor of Counseling Psychology and Counselor Education; Vice Provost; Dean, University College; BA, MEd, PhD, Pennsylvania State University

Hagler, Debra (1996), Clinical Associate Professor of Nursing; BSN, New Mexico State University; MS, University of Arizona; PhD, Arizona State University

Haley, Arthur J. (1976), Professor Emeritus of Community Resources and Development; BA, Stonehill College; MEd, Springfield College; PhD, Texas A&M University

Hall, John S. (1973), Professor of Public Affairs; BA, MA, San Diego State University; PhD, University of Oregon

Hanisch, Tyke Cheryllynn (2003), Faculty Associate of Nursing; BSN, University of Wisconsin; MS, Arizona State University

Hauser, Sue Marie (1994), Faculty Associate of Nursing; BSN, MS, Arizona State University

Hepworth, Dean H. (1990), Professor Emeritus of Social Work; BS, MSW, PhD, University of Utah

Hermann, Ria (1986), Academic Associate, University College; Academic Advisor; BA, BS, MS, PhD, Arizona State University

Herrera, Cheryl L. (1989, 2005), Director, Student Services for Nursing; BA, MPA, California State University, Stanislaus

Hill, Vanessa (2002), Faculty Associate of Nursing; BSN, MS, Arizona State University

Hirshorn, Jessica (2004), Lecturer of Interdisciplinary Studies; BA, Coe College; MIIM, The School for International Training; EdD, University of Houston

Hiryak, Christopher D. (2000), Faculty Associate of Public Affairs; BSE, Lock Haven University; MPA, Arizona State University

Holley, Lynn C. (2000), Assistant Professor of Social Work; BA, MSSW, University of Tennessee, Knoxville; PhD, University of Washington

Hollingsworth, Eleanor L. (2005), Faculty Associate of Nursing; BSN, Northern Arizona University; MS, Arizona State University

Honker, Andrew M. (2001), Academic Advisor, Bachelor of Interdisciplinary Studies, School of Extended Education; BA, Dartmouth College; MA, Utah State University; PhD, Arizona State University

Hrabe, David P., (1991), Director, Academy for Continuing Education, College of Nursing; BSN, Fort Hays State University; MS, Arizona State University; PhD, University of Arizona

Hull, Deborah Renner (1994), Academic Specialist Coordinator; BS, MEd, EdD, Arizona State University

I

Ilchak, Debra Lorraine (2004), Faculty Associate of Nursing; BSN, Arizona State University; MSN, Emory University

Ismeurt, Robert L. (1989), Associate Professor of Nursing; BSN, Florida State University; MS, Arizona State University; PhD, University of Texas, Austin

J

Jackson Hall, Cheryl (2002), Lecturer of Interdisciplinary Studies; BA, University of Massachusetts; MA, University of Montana; PhD, University of California, San Francisco

Jarrell, Kay (2002), Clinical Assistant Professor of Nursing; BSN, West Virginia University; MS, Arizona State University

Jasper, Marcia A. (1976–86; 1993), Clinical Associate Professor of Nursing; BSN, St. Olaf College; MS, Arizona State University

Johnson, Penelope M. (1995), Professor Emerita of Nursing; BS, University of Colorado; MS, Arizona State University

Johnson, Wendee (1990), Clinical Associate Professor of Nursing; BSN, Gustavus Adolphus College; MSN, University of Pennsylvania

Johnson, William S. (1990), Executive Director Emeritus, Division of Undergraduate Academic Services; BA, Washington State University; MS, Iowa State University; PhD, University of Southern California

Johnson-Becker, Gayle (1994), Lecturer, American English and Culture Program, School of Extended Education; BA, University of Colorado; MA, University of California, Los Angeles

Johnston, Hubert (1986), Clinical Associate Professional of Social Work; BS, Cheyney State College; MA, Central Michigan University; PhD, Cornell University

Jones, Christopher D. (2005), Assistant Professor of Community Resources and Development; BA, University of Tennessee; MS, Clemson University; PhD, West Virginia University

K

Kang, Suk-Young (2003), Assistant Professor of Social Work; BA, Seoul National University College of Social Work (South Korea); MA, PhD, Columbia University

Kastenbaum, Beatrice (1982), Clinical Associate Professor of Nursing; BSN, University of Michigan; MSN, Wayne State University

Katzman, Elaine Menter (1983), Professor Emerita of Nursing; BS, MS, PhD, Syracuse University

Keegan, Nicole (2005), Faculty Associate of Nursing; BSN, New York University

Kegelman, Jan (1978), Lecturer, School of Extended Education; Coordinator, International Teaching Assistants Program, American English and Culture Program; BS, University of Massachusetts; MA, Arizona State University

Keller, Colleen (2005), Professor of Nursing; Director, Center for Healthy Outcomes in Aging; BSN, Arizona State University; MS, Ohio State University; PhD, University of New Mexico

Kelly, Janice M. (1982), Academic Associate, University College; Director, Academic Community Engagement Services; BA, MFA, Arizona State University

Kettner, Peter M. (1979), Professor Emeritus of Social Work; BA, Valparaiso University; MSW, Washington University; DSW, University of Southern California

Killeen, Mary (1982–84; 1986), Associate Professor of Nursing; Associate Dean for Academic Affairs, College of Nursing; BSN, MS, Arizona State University; PhD, University of Texas, Austin

King, Tracy (1998), Faculty Associate of Nursing; BSN, MS, Arizona State University

Knudsen, Frances S. (1964), Professor Emerita of Nursing; BS, University of Arizona; MS, University of Colorado; PhD, Arizona State University

Knutson-Woods, Teri (1997), Assistant Administrative Professional of Social Work; BA, Grand Canyon University; MSW, Arizona State University

Komnenich, Pauline (1984), Professor of Nursing; Director, Center for Evaluation and Research; BS, Stanford University; MN, University of Washington; MA, PhD, University of Arizona

Krinsky, Charles (2004), Lecturer of Interdisciplinary Studies; BA, Wesleyan University; MA, New York University; PhD, University of California, Irvine

Krueger, Janelle (1984), Professor Emerita of Nursing; Dean Emerita, College of Nursing; BS, MS, PhD, University of Colorado

Krysik, Judy (2005), Associate Professor of Social Work; BSW, MSW, University of Calgary (Canada); PhD, Arizona State University

Kyselka, Christine K. (1990), Associate Administrative Professional, School of Extended Education; Associate Director, Community Outreach Programs, School of Extended Education; BS, MPA, Arizona State University

L

Lan, Zhiyong (1991), Professor of Public Affairs; BA, Nanjing University (China); MPA, North Carolina State University, Raleigh; PhD, Syracuse University

Larson, Nancy C. (1999), Assistant Professor of Social Work; BA, Western Washington University; MSW, PhD, University of Washington

Lattouf, Mirna (1998), Lecturer of Interdisciplinary Studies; BA, Rutgers, The State University of New Jersey; MA, New York University; PhD, University of Arizona

LeCroy, Craig (1984), Professor of Social Work; BSW, San Jose State University; MSW, Western Michigan University; PhD, University of Wisconsin

Leighninger, Leslie (2000), Professor of Social Work; Director, School of Social Work; BA, Oberlin College; MSW, Syracuse University; DSW, University of California, Berkeley

Lersch, Judy (1999), Clinical Assistant Professor of Nursing; BSN, University of Arizona; MEd, Northern Arizona University; MS, Arizona State University

Lewenstein, Suzanne (1997), Academic Associate of Interdisciplinary Studies, University College; BA, University of Wisconsin, Madison; MA, Case Western Reserve University; PhD, Arizona State University

Leyba, Raul L. (1970), Professor Emeritus of Social Work; BA, Western New Mexico University; MSW, University of Denver

Lindeman, Mary (1988), Lecturer, American English and Culture Program, School of Extended Education; BA, St. Mary's University; MA, University of Houston

Lindquist, Barbara (2001), Lecturer of Interdisciplinary Studies; BSW, MSW, MA, PhD, University of Wisconsin, Milwaukee

Link, Denise (2002), Clinical Associate Professor of Nursing; BSN, Gwynedd-Mercy College; MSN, University of Pennsylvania; DNSc, Widener University

Livingston, Mary (1978), Lecturer, American English and Culture Program, School of Extended Education; BA, MA, Arizona State University

Ludemann, Ruth S. (1984), Professor Emerita of Nursing; BSN, Columbia University; MSN, Wayne State University; PhD, Arizona State University

Ludlow, Elizabeth A. (1972), Professor Emerita of Nursing; BSN, University of New Mexico; MS, Arizona State University

Lupone, Kathleen A. (2004), Clinical Assistant Professor of Nursing; BSN, MS, Arizona State University

M

MacEachron, Ann (1984), Professor of Social Work; BA, Cornell University; MSW, University of Pittsburgh; PhD, Cornell University

Mankin, Lawrence D. (1973), Professor Emeritus of Public Affairs; BBA, City College; MA, PhD, University of Illinois

Marsiglia, Flavio F. (1994), Professor of Social Work; Director, Southwest Interdisciplinary Research Center; BLaw, SS, MSW, University of the Republic (Uruguay); PhD, Case Western Reserve University

Martinez-Brawley, Emilia E. (1992), Professor of Social Work; BA, National University of Tucumán (Argentina); MSS, Bryn Mawr College; EdD, Temple University

Mattson, Susan (1993), Professor of Nursing; Director, Second Degree Programs of Nursing; BS, MA, MS, California State University, Los Angeles; PhD, Claremont Graduate University

Maxwell, Katherine Davis (1996), Clinical Assistant Professor of Nursing; BS, University of Utah; MS, Arizona State University

Mays, Mary F. (2005), Associate Professor of Nursing; BA, Trinity University; MS, PhD, University of Oklahoma

McCabe, Barbara (1997), Associate Professor of Public Affairs; BA, MPA, Florida Atlantic University; PhD, Florida State University

McCarthy, Marianne (1994), Associate Professor of Nursing; BSN, Mount Saint Mary College; MSN, Seton Hall University; PhD, University of California, San Francisco

McCormack, Brian (2000), Senior Lecturer of Interdisciplinary Studies; BA, BS, University of Nebraska, Omaha; BA, Australian National University (Australia); MA, PhD, Arizona State University

McGaw, Dickinson L. (1968), Professor Emeritus of Public Affairs; BA, MA, PhD, Indiana University, Bloomington

McGrath, Jacqueline (1999), Assistant Professor of Nursing; BSN, University of Akron; MSN, Kent State University; PhD, University of Pennsylvania

McMillen, Phyllis (2000), Faculty Associate of Nursing; BSN, Union College, Lincoln; MSN, University of Nebraska Medical Center

Melnick, Robert (1987), Senior Research Scientist for Public Affairs; Associate Vice President, Economic Affairs; Director, Morrison Institute for Public Policy; BA, Dartmouth College; MA, PhD, Arizona State University

Melnyk, Bernadette M. (2005), Professor of Nursing; Dean, College of Nursing; BS, West Virginia University; MS, University of Pittsburgh; PhD, University of Rochester

Miller, Barbara K. (1976), Professor Emerita of Nursing; BSN, MSEd, University of Akron; PhD, University of Texas, Austin

Mitchell, Linda C. (2005), Clinical Assistant Professor of Nursing; BSN, Immaculata University; MSN, University of Phoenix

Mitchell, Marie (1980), Lecturer, American English and Culture Program, School of Extended Education; BA, Fort Hays State University; MA, School for International Training

Montero, Darrel (1979), Associate Professor of Social Work; BA, California State University, Sacramento; MA, PhD, University of California, Los Angeles

Moore, Patricia (1984), Professor Emerita of Nursing; BSN, Loyola University, Chicago; MS, Catholic University of America; MPH, DrPH, Johns Hopkins University

Moroney, Robert M. (1981), Professor of Social Work; AB, MSW, Boston College; MPH, Harvard University; PhD, Brandeis University

Morris, Brenda C. (1994), Clinical Associate Professor of Nursing; Director, Baccalaureate Program; BSN, MS, University of Arizona; EdD, Arizona State University

Murphy, Juanita F. (1971), Professor Emerita of Nursing; Dean Emerita, College of Nursing; BA, Oklahoma Baptist University; MS, PhD, Case Western Reserve University

Murray, Kimberly Ann (2005), Clinical Assistant Professor of Nursing; BSN, Boston University; MS, Arizona State University

Muzyka, Diann M. (2005), Clinical Associate Professor of Nursing; BSN, Youngstown State University; MSN, Capital University; PhD, Ohio University

N

Nagy, Sandra Griffiths (1984), Academic Associate, University College; Assistant Director, Academic Success Programs; BEd, MA, PhD, Arizona State University

Napoli, Maria (1996), Associate Professor of Social Work; BA, H.H. Lehman College; MSW, PhD, New York University

Navarrete, Carol (1994), Lecturer, American English and Culture Program, School of Extended Education; BA, MA, University of Colorado

Nelson, Kelly (1999), Senior Lecturer of Interdisciplinary Studies; BA, Michigan State University; MS, University of Southern Maine; PhD, Brandeis University

Nichols, Ann W. (1970), Associate Professor of Social Work; AB, Stanford University; MSW, DSW, Columbia University

Niesel, Barbara (2005), Clinical Assistant Professor of Nursing; BSN, Loyola University; MN, University of Phoenix

Niles, Michael (1994), Assistant Professor of Social Work; BA, University of Missouri, Columbia; MSW, Arizona State University; PhD, University of Wisconsin, Madison

Nuñez, Diane E. (1995), Clinical Associate Professor of Nursing; BSN, MS, Arizona State University

Nyaupane, Gyan P. (2005), Assistant Professor of Community Resources and Development; BS, Tribhuvan University, (Nepal); MA, Lincoln University; PhD, Pennsylvania State University

O

O'Haver, Judy (1999), Faculty Associate of Nursing; BSN, Niagara University; MS, Arizona State University

O'Sullivan, Peggy (1998), Director, Advanced Public Executive Program; BS, Northern Arizona University; MPA, Arizona State University

P

Patterson, Shirley L. (1994), Professor Emerita of Social Work; BA, North Texas State University; MA, McCormick Theological Seminary; MSW, University of Kansas; PhD, University of Wisconsin, Madison

Paz, Juan J. Jr. (1988), Associate Professor of Social Work; BA, University of Texas, El Paso; MS, University of Houston; DSW, Howard University

Peck, Laura (2002), Assistant Professor of Public Affairs; BA, Arizona State University; MPA, MPhil, PhD, New York University

Peinhardt, Rebecca D. (2005), Clinical Associate Professor of Nursing; BSN, Emory University; MSN, University of Alabama, Birmingham

Peluso, Christopher (2005), Clinical Assistant Professor of Nursing; BSN, Pennsylvania State University; MSN, University of Phoenix

Perry, Patsy (1985), Professor Emerita of Nursing; BS, Columbia Union College; MS, University of Colorado; PhD, University of Michigan

Perry, Ronald W. (1983), Professor of Public Affairs; BSc, MA, Arizona State University; PhD, University of Washington

Petrides, Maureen A. (2005), Faculty Associate of Nursing; BSN, MSN, Molloy College

Pfister, A.J. (1991), Distinguished Research Fellow Emeritus of Public Affairs; BS, JD, University of Arizona

Pickens, Judith M. (1987–99; 2000), Assistant Professor of Nursing; BSN, Marymount College; MS, University of Missouri; PhD, Arizona State University

Piersol, Bonnie L. (1999), Academic Associate, University College; Academic Advisor; BS, Golden Gate University; MA, John F. Kennedy University

Pierson, Ruth E. (1990), Academic Associate, University College; BA, MEd, Miami University

Pokora, Syndee (1995), Academic Associate, University College; Academic Advisor; BFA, University of Wisconsin, Milwaukee; MFA, University of Arizona

Polenz, G. Donald (1967), Professor Emeritus of Social Work; BA, Wartburg College; MA, University of Iowa; DSW, University of Southern California

Poole, Karen F. (2004), Assistant Instructional Professional; Manager, Professional Programs, Academic and Professional Programs, School of Extended Education; BA, Buena Vista College; MS, PhD, Iowa State University

Priest, Janice (2001), Faculty Associate of Nursing; BSN, Weber State University; MSN, University of Utah

Primas, Phyllis J. Krause (1987), Professor Emerita of Nursing; BSN, University of Pennsylvania; MPH, PhD, University of Pittsburgh

Pritchard, Mark P. (1998), Assistant Professor of Community Resources and Development; BS, MS, PhD, University of Oregon

R

Ramella, Kelly J. (2004), Lecturer of Community Resources and Development; BS, Webster University; MA, University of Connecticut

Records, Kathie (2005), Associate Professor of Nursing; BS, University of Colorado at Denver and Health Science Center; MS, PhD, University of Arizona

Rentz, Mark D. (1984), Lecturer, American English and Culture Program; Director, American English and Culture Program, School of Extended Education; BA, Bethel College; MA, William Carey International University

Rippon, Stephen (1989), Academic Associate, University College; Director, Academic Success Programs; BA, MA, Arizona State University

Risley-Curtiss, Christina (1992), Associate Professor of Social Work; BA, University of Connecticut; MSSW, University of Tennessee; PhD, University of Maryland, Baltimore

Roberts, Carolyn (1982), Professor Emerita of Nursing; BSN, University of Western Ontario (Canada); MEd, Columbia University; PhD, Wayne State University

Robles, Barbara (2005), Associate Professor of Social Work; BA, University of Texas at Austin; PhD, University of Maryland, College Park

Roe, Sue (2000), Faculty Associate of Nursing; BSN, MS, University of Arizona; DPA, Arizona State University

Roe-Sepowitz, Dominique (2005), Assistant Professor of Social Work; BS, Springfield College; MSW, Arizona State University; ABD, Florida State University

Rosdahl, Dana (1994), Assistant Professor of Nursing; BSN, Montana State University; MS, Arizona State University; PhD, University of Arizona

Ruiz, Ester (1986), Associate Professor of Nursing; BSN, MS, PhD, Arizona State University

S

Sackton, Frank J. (1976), Professor Emeritus of Public Affairs; BS, University of Maryland, College Park; MPA, Doctor of Humane Letters, Arizona State University

Saewert, Karen J. (1998), Director, RN Baccalaureate Programs; BSN, MS, Arizona State University; PhD, University of Arizona

Santorico, Ann (2003), Academic Associate, University College; Academic Advisor; BA, University of Phoenix; MEd, Arizona State University

Sayles, Judy (1997), Clinical Assistant Professor of Nursing; BSN, University of Michigan; MS, Arizona State University

Schlather, Erica (1993), Instructional Specialist, School of Extended Education; Marketing Coordinator, American English and Culture Program, School of Extended Education; BA, MA, Northern Arizona University

Schultz, Alyce A. (2005), Clinical Professor of Nursing; Associate Director, Center for the Advancement of Evidence-Based Practice; BSN, MSN, University of New Mexico; PhD, Oregon Health Sciences University

Schwartz, Anna L. (2005), Professor of Nursing; BS, University of Florida; MS, Arizona State University; PhD, University of Utah

Scoggin, Janet (1989), Professor Emerita of Nursing; BSN, University of Portland; MS, PhD, Arizona State University

Segal, Elizabeth A. (1995), Professor of Social Work; Associate Dean, College of Public Programs; BA, Brandeis University; MSW, Boston University; PhD, University of Illinois, Chicago

Sehested, Colene R. (1967), Professor Emerita of Nursing; BSN, University of Arkansas, Fayetteville; MSN, University of Maryland, Baltimore

Shearer, Nelma B.C. (1993), Assistant Professor of Nursing; BS, South Dakota State University; MEd, University of Missouri, St. Louis; MS, Southern Illinois University, Edwardsville; PhD, University of Arizona

Shearman, Harriett Joy (1995), Professor Emerita of Nursing; BSN, University of Iowa; MS, Boston University

Small, Leigh (2004), Assistant Professor of Nursing; BS, Keuka College; MS, PhD, University of Rochester

Sousa, Karen H. (1998), Associate Professor of Nursing; Associate Dean for Graduate Programs and Research, College of Nursing; BS, MS, PhD, University of California, San Francisco

Speer, Therese (1997), Faculty Associate of Nursing; BSN, Salve Regina University; MS, University of Arizona

Squires, Rose L. (1981), Professor Emerita of Nursing; BS, Duquesne University; MA, EdD, Columbia University

Stage, Christina W. (1992), Senior Lecturer of Interdisciplinary Studies; 401 Coordinator, Bachelor of Interdisciplinary Studies; BJ, University of Nebraska, Lincoln; MA, Ohio University; PhD, Arizona State University

Steffl, Bernita M. (1961), Professor Emerita of Nursing; BSN, MPH, University of Minnesota, Twin Cities

Steiner, Sue (1996), Associate Professor of Social Work; BA, Brandeis University; MSW, San Francisco State University; PhD, University of Washington

Stewert, Karen (2004), Clinical Assistant Professor of Nursing; BSN, D'Youville College; MSN University of Phoenix

Stillwell, Susan B. (1997), Clinical Associate Professor of Nursing; BS, College of Saint Teresa; MSN, University of Florida

Strickland, Patricia L. (1999), Academic Associate, University College; Academic Advisor; BA, Cornell College; MS, Iowa State University

Stromwall, Layne (1996), Associate Professor of Social Work; BA, MSSW, University of Wisconsin, Madison; PhD, Case Western Reserve University

Stumpf, Angela M. (1959), Professor Emerita of Nursing; BSN, Marquette University; MA, University of Chicago

Sutter, Kimberlee Ann (2005), Clinical Assistant Professor of Nursing; BSN, Arizona State University; MS, Texas Women's University; PhD, University of Arizona

T

Taylor, Jacqueline (1984), Professor Emerita of Nursing; BSN, University of Washington; MS, University of North Carolina at Chapel Hill; PhD, University of Arizona

Teye, Victor B. (1984), Associate Professor of Community Resources and Development; Graduate Coordinator, School of Community Resources and Development; BA, University of Ghana; MA, PhD, University of Manitoba (Canada)

Theobald, Clarabelle (1962), Professor Emerita of Nursing; BSN, Arizona State University; MS, University of California, Los Angeles; PhD, Arizona State University

Thomas, David A. (1999), Senior Lecturer of Interdisciplinary Studies; BS, California State Polytechnic University; MBA, PhD, University of Southern California

Thorne, Anita (1984), Professor Emerita of Nursing; Diploma, Allegheny General Hospital; BSNEd, MA, University of Pittsburgh

Thorpe, Scott P. (1999), Academic Associate, University College; Assistant Director, University College; BS, Kennesaw State College; MA, University of Colorado, Denver

Thurber, Frances (1991), Professor Emerita of Nursing; BSN, Saint Anselm College; MSN, University of Pennsylvania; PhD, University of Michigan

Timothy, Dallen J. (2000), Associate Professor of Community Resources and Development; BS, Brigham Young University; MA, University of Western Ontario (Canada); PhD, University of Waterloo (Canada)

Tobiason, Sarah J. (1963–67; 1974), Professor Emerita of Nursing; BSN, Vanderbilt University; MA, Columbia University

Tyrrell, Timothy J. (2005), Professor of Community Resources and Development; BA, University of Florida; MA, University of Tennessee; PhD, Cornell University

V

Valdés, Gailynn A. (2004), Assistant Instructional Professional; Interim Director and Director of Student Services and Operations, Academic and Professional Programs, School of Extended Education

Vana, Kimberly (2000), Faculty Associate of Nursing; BSN, Arizona State University; MSN, University of Arizona

Vanacour, Martin (1987), Professor of Practice of Public Affairs; BA, State University of New York, Buffalo; MPA, New York University; PhD, Arizona State University

Van Dromme, Laurel (2005), Director of Development, College of Nursing; BA, Ohio State University; MA, University of California, Los Angeles

Vicens, Wendy (1977), Senior Lecturer, American English and Culture Program, School of Extended Education; BA, MA, Northern Arizona University

Virden, Randy J. (1984), Associate Professor of Community Resources and Development; Director, School of Community Resources and Development; BS, MS, Arizona State University; PhD, Utah State University

Voller, Sandra L. (1999), Academic Associate, University College; Assistant Director, University College; BA, Saint John Fisher College; MA, State University of New York, Albany

Voorhees, William R. (2002), Assistant Professor of Public Affairs; BA, University of South Florida; MPA, Georgia State University; PhD, Indiana University, Bloomington

W

Wagy, Scott (2001), Instructional Specialist, School of Extended Education; Coordinator for Cultural Activities and Programs, American English and Culture Program, School of Extended Education; BA, MA, West Virginia University

Waller, Margaret Ann (1997), Associate Professor of Social Work; BM, DePaul University; MSW, University of Illinois; PhD, University of Chicago

Warne, Beverly (2002), Faculty Associate of Nursing; Project Director American Indian Students United for Nursing (ASUN); BS, MS, Arizona State University

Wells, David (1998), Senior Lecturer of Interdisciplinary Studies; Assistant Director, Bachelor of Interdisciplinary Studies Program; BA, Bucknell University; PhD, University of Southern California

Weschler, Louis (1980), Professor Emeritus of Public Affairs; BA, California State University, Long Beach; MA, PhD, University of California, Los Angeles

White, Barbara G. (1990), Clinical Associate Professor of Nursing; BS, MS, Virginia Commonwealth University

White, Dave D. (2001), Assistant Professor of Community Resources and Development; BA, George Mason University; MA, University of Idaho; PhD, Virginia Polytechnic Institute and State University

Williams, Carol E. (1984), Academic Associate, University College; Assistant Director, Academic Success Programs; BA, Trinity University, San Antonio; MA, Arizona State University

Wilson, Barbara L. (2005), Clinical Associate Professor of Nursing; BSN, University of Utah; MSN, Brigham Young University

Wintergalen, Barbara A. (1992), Professor Emerita of Nursing; BSN, Loretto Heights College; MS, Arizona State University

Wojner-Alexandrov, Anne W. (2005), Professor of Clinical Nursing; Assistant Director, Outcomes Management, CAEP; BSN, MSN, University of Texas Health Science Center at Houston; PhD, Texas Woman's University

Woodman, Natalie J. (1969), Professor Emerita of Social Work; BA, New York University; MSS, Smith College

Wotring, Roxena A. (1994), Faculty Associate of Nursing; BSN, MS, Arizona State University

Wurzell, Carol A. (1965), Professor Emerita of Nursing; BS, California State College, Chico; MS, University of Maryland, College Park

Wysoki, Ken (1984–1986, 2001), Faculty Associate of Nursing; BSN, University of Wisconsin, Milwaukee; MS, Arizona State University; PhD, University of Arizona

Y

Yancy, Margaret Lee (1997), Faculty Associate of Nursing; BSN, MS, Arizona State University

Yepez, Eleanor (1984), Associate Administrative Professional Emerita of Social Work; BA, Michigan State University; MA, Western Michigan University; MSW, University of Michigan

Yoshioka, Carlton F. (1988), Professor of Community Resources and Development; Director of Research and Academic Affairs, Center for Nonprofit Leadership and Management; BA, University of California, Santa Barbara; MA, California State University, Chico; PhD, University of Oregon

Z

Zottola, Adelina (1997), Academic Associate, University College; Program Coordinator, Science and Math Service Learning; BS, State University of New York, Binghamton

Zygmond, Linda (2004), Academic Associate, University College; Academic Advisor; BA, Montana State University, Billings; MSW, Western Michigan University; MEd, Montana State University

Polytechnic Campus

A

Adams, Troy B. (2002), Assistant Professor of Exercise and Wellness; BS, MS, Brigham Young University; PhD, University of Texas, Austin

Alozie, Nicholas O. (1991), Professor of Social and Behavioral Sciences; BA, MPA, Texas Southern University; MA, PhD, University of Texas, Dallas

Autore, Donald D. (1959), Professor Emeritus of Technology; BSE, University of Michigan; MSE, Arizona State University

B

Backus, Charles E. (1968), Professor Emeritus of Electrical Engineering; BSME, Ohio University; MS, PhD, University of Arizona

Barrett, Thomas W. (1950), Professor Emeritus of Agribusiness and Resource Management; BS, Brigham Young University; MS, PhD, Cornell University

Baxter, Harry R. (1982), Professor Emeritus of Electronics Engineering Technology; BA, New York University; MBA, Fairleigh Dickinson University; MTech, Arizona State University

Becker, David Vaughn (2005), Assistant Professor of Applied Psychology; BA, MA, PhD, Arizona State University

Bergeron, Bette S. (2000), Professor of Education; Head, Faculty of Education; BSEd, University of Maine, Orono; MSEd, PhD, Purdue University

Biekert, Russell G. (2001), Associate Professor of Mechanical and Manufacturing Engineering Technology; BS, MS, Southern Illinois University; EdD, Arizona State University

Brady, Lenore (2005), Senior Lecturer of Humanities and Arts; BA, MA, PhD, Arizona State University

Brady, Ward W. (1973), Professor of Applied Biological Sciences; Chair, Department of Applied Biological Sciences; BS, MS, PhD, Colorado State University

Brock, John H. (1977), Professor of Applied Biological Sciences; Coordinator, Sustainable Technologies, Agribusiness, and Resources Center; BS, MS, Fort Hayes State University; PhD, Texas A&M University

Brown, Walter C. (1966), Professor Emeritus of Technology; BS, Northwest Missouri State University; MEd, EdD, University of Missouri, Columbia

Brownson, Charles W. (1980), Librarian Emeritus, Polytechnic Campus Library Services; Director, Polytechnic Campus Library Services; BA, South Dakota State University; MFA, University of Oregon; MLS, University of California, Berkeley

Burdette, Walter E. (1956), Professor Emeritus of Technology; BS, MS, Kansas State College of Pittsburg; EdD, University of Missouri, Columbia

Burk, Karl W. (1949), Professor of Technology; BA, MA, Arizona State University; EdD, Bradley University

Burkett, Lee N. (1974), Professor Emeritus of Exercise and Wellness; BA, MA, San Diego State University; PhD, Washington State University

Busch, Jay S. (2001), Lecturer of General Studies; BA, Michigan State University; MA, Arizona State University

Butler, Jay Q. (1972), Associate Professor of Real Estate; Director, Arizona Real Estate Center; BBA, MBA, University of New Mexico; PhD, University of Washington

C

Carlock, Danielle (2004), Assistant Librarian, Polytechnic Campus Library Services; MS, University of Arizona

Carlsen, Paul A. (1978), Professor Emeritus of Technology; BAE, MNS, EdD, Arizona State University

Cavalliere, William A. (1946), Professor Emeritus of Technology; BA, MA, Arizona State University

Chalquest, Richard R. (1971), Professor Emeritus of Agribusiness and Resource Management; BS, DVM, Washington State University; MS, PhD, Cornell University

Collins, Donald W. (1989), Professor Emeritus of Mechanical and Manufacturing Engineering Technology; BArch, Virginia Polytechnic Institute and State University; MS, PhD, University of Illinois, Chicago

Cooke, Nancy J. (2003), Professor of Applied Psychology; BA, George Mason University; MA, PhD, New Mexico State University

Corbin, Charles B. (1982), Professor Emeritus of Exercise and Wellness; BS, University of New Mexico; MS, University of Illinois; PhD, University of New Mexico

Cox, Frank E. (1972), Professor Emeritus of Technology; BSME, Purdue University; MSE, Arizona State University

D

D'Angelo, Barbara J. (2001), Lecturer of Multimedia Writing and Technical Communication; BA, Emmanuel College; MS, University of Illinois, Urbana-Champaign

Daneke, Gregory A. (1982), Professor of Agribusiness and Resource Management; BA, MA, Brigham Young University; PhD, University of California, Santa Barbara

Danielson, Scott G. (1999), Associate Professor of Mechanical and Manufacturing Engineering Technology; Chair, Department of Mechanical and Manufacturing Engineering Technology; BS, MS, University of Wyoming; PhD, North Dakota State University

Darst, Paul W. (1976), Professor of Physical Education; BS, MS, University of Akron; PhD, Ohio State University

Darveaux, Robert (2004), Associate Professor of Electronics and Computer Engineering Technology; PhD, North Carolina State University

Dixon, Kathleen S. (2000), Lecturer of Nutrition; BS, University of Arizona; MEd, Northern Arizona University

Dolin, Penny Ann (1998), Lecturer of Technology Management; BA, Bard College; MS, Arizona State University

Duff, Jon M. (1997), Professor of Technology Management; BS, MS, Purdue University; PhD, Ohio State University

E

Edwards, Mark R. (1978), Professor of Agribusiness and Resource Management; BSME, United States Naval Academy; MBA, DBA, Arizona State University

Edwards, Marvin J. (1959), Professor Emeritus of Technology; BS, MA, Arizona State University

F

Foley, Dawn (2003), Lecturer of Education; BA, MA, Arizona State University

Fordemwalt, James N. (1987), Professor Emeritus of Electronics and Computer Engineering Technology; BS, MS, University of Arizona; PhD, Iowa State University of Science and Technology

G

Gannod, Barbara D. (1998), Assistant Professor of Computing Studies; BSc, Calvin College; MSc, PhD, Michigan State University

Gannod, Gerald (1998), Assistant Professor of Computing Studies; BS, MS, PhD, Michigan State University

Gary, Kevin (2004), Assistant Professor of Computing Studies; MS, PhD, Arizona State University

Gesell, Laurence E. (1984), Professor of Aeronautical Management Technology; BA, Upper Iowa University; MPA, University of San Francisco; PhD, Arizona State University

Gintz, Jerry (2004), Senior Lecturer of Mechanical and Manufacturing Engineering Technology; MS, Arizona State University

Gomez, Conrado L. (2003), Assistant Clinical Professor of Education; BA, MEd, University of Arizona; EdD, Northern Arizona University

Gordon, Richard S. (1980), Professor Emeritus of Agribusiness and Resource Management; BA, University of Rochester; MA, Harvard University; PhD, Massachusetts Institute of Technology

Gray, Robert D. (2001), Assistant Professor of Applied Psychology; BA, Queen's University (Canada); MA, PhD, York University (Canada)

Green, Douglas M. (1990), Associate Professor of Applied Biological Sciences; BS, Humbolt State University; MS, North Dakota State University; PhD, Oregon State University

Grondin, Robert O. (1983), Associate Professor of Electrical Engineering; BS, MS, PhD, University of Michigan

Grossman, Gary M. (1994), Associate Professor of Technology Management; Project Director, International Projects Unit; BA, University of the Pacific; MS, PhD, Purdue University

H

Hall, Richard E. II (2002), Lecturer of Nutrition; BS, Northern Arizona University; MS, Arizona State University

Hampl, Jeffrey (1998), Associate Professor of Nutrition; BS, Liberty University; MS, University of Massachusetts, Lowell; PhD, University of Nebraska

Harris, La Verne Abe (1999), Assistant Professor of Technology Management; BA, MTech, Arizona State University; PhD, University of Arizona

Hefner, Stephen P. (1973), Instructional Professional of Agribusiness and Resource Management; BS, Illinois State University; MS, Arizona State University

Henderson, Mark (1984), Professor of Engineering; BSME, MSME, PhD, Purdue University

Hild, Nicholas R. (1983), Professor of Technology Management; BSME, MSEnve, University of Iowa; PhD, Union Graduate School

Hinks, Robert W. (1981), Associate Professor of Engineering; BSc, University of Wales (United Kingdom); MA, MSE, PhD, Princeton University

Horowitz, Renee B. (1986), Professor Emerita of Technology Management; BA, Brooklyn College; MA, PhD, University of Colorado

Hu, Quaing (1998), Assistant Professor of Applied Biological Sciences; BS, Hubei University (China); MS, Institute of Hydrobiology, Chinese Academy of Sciences (China); PhD, Ben-Gurion University of the Negev (Israel)

Hudek, Curt (2001), Senior Lecturer of Agribusiness and Resource Management; BS, University of South Dakota

Huffman, Holly Ann (2004), Lecturer of Applied Biological Sciences; BS, National University; MS, California State Polytechnic University, Pomona; PhD, University of California, Riverside

Hughner, Renee D. (2002), Assistant Professor of Agribusiness and Resource Management; BS, MBA, University of Massachusetts, Amherst; PhD, Arizona State University

Humble, Jane E. (1989), Associate Professor of Technology Management; BSE, MSE, PhD, Arizona State University

Hutchins, Andrea M. (2001), Assistant Professor of Nutrition; BS, Kansas State University; MS, PhD, University of Minnesota

Hutt, Roger W. (1975), Associate Professor of Business Administration; Head, Faculty of Business Administration; BS, MBA, Ohio State University; PhD, Michigan State University

I

Irvin, Glenn W. (1997), Professor of English; Dean, East College; BA, MA, PhD, Arizona State University

J

Jakubowski, Gerald S. (2004), Professor of Engineering; Vice President, ASU; Provost, Polytechnic Campus; BA, MA, PhD, University of Toledo

Johnston, Carol S. (1986), Professor of Nutrition; BS, University of Michigan; MA, PhD, University of Texas, Austin

K

Kagan, Albert (1992), Professor of Agribusiness and Resource Management; BS, MS, PhD, Iowa State University of Science and Technology

Karp, Merrill R. (1994), Professor of Practice, Aeronautical Management Technology; BS, Arizona State University; MA, Central Michigan University; PhD, Walden University

Keith, Marlow F. (1946), Professor Emeritus of Technology; BA, MA, Arizona State University

Kelley, Donald G. (1980), Professor Emeritus of Manufacturing and Aeronautical Engineering Technology; BS, MS, Arizona State University

Kigin, Denis J. (1958–65; 1967), Professor Emeritus of Technology; Dean Emeritus, Continuing Education and Summer Sessions; BS, Mankato State University; MS, University of Wisconsin, Stout; EdD, University of Missouri

Kime, Charles Henry (2000), Professor of Practice, Technology Management; BS, Arizona State University; MBA, University of Phoenix; PhD, Arizona State University

Kisielewski, Robert V. (1978), Professor Emeritus of Technology; BSME, MSME, University of Wisconsin, Madison

Kleemann, Gary L. (1979), Administrative Professional, Academic Programs; Director, E-Learning; BA, MS, San Jose State University; PhD, Arizona State University

Koehnemann, Harry E. (2001), Associate Professor of Computing Studies; BS, Northern Arizona University; MS, PhD, Arizona State University

Kulinna, Pamela Hodges (2003), Assistant Professor of Physical Education; BS, MS, University of Oregon; PhD, University of Illinois, Urbana-Champaign

Kuo, Chen-Yuan (1984), Associate Professor of Computing Studies; BS, National Taiwan University (Taiwan); MS, Northwestern University; PhD, University of California, Berkeley

L

Lawler, Eugene D. (1967), Professor Emeritus of Technology; BS, Northern State College; MA, Arizona State University

Lestar, Dot J. (1995), Lecturer of Technology Management; BS, MTech, Arizona State University

Lindley, James (2001), Senior Lecturer of Preveterinary Medicine; BS, DVM, University of Missouri, Kansas City

Lindquist, Timothy E. (1985), Professor of Computing Studies; Associate Dean and Director, Computing Studies; BS, Purdue University; MS, PhD, Iowa State University

Lytle, Robert G. (1972), Professor Emeritus of Agribusiness and Resource Management; BS, Western Kentucky University; MS, Arizona State University

M

Macia, Narciso F. (1990), Associate Professor of Electronics and Computer Engineering Technology; BS, MS, University of Texas, Arlington; PhD, Arizona State University

Madakannan, Arunachalanadar (2005), Associate Professor of Electronics and Computer Engineering Technology; MBA, Madras University (India); PhD, Indian Institute of Science, Bangalore (India)

Maddy, Kenneth H. (1980), Professor Emeritus of Agribusiness and Resource Management; BS, Pennsylvania State University; MS, University of Wisconsin, Madison; PhD, Pennsylvania State University

Maid, Barry M. (2000), Professor of Multimedia Writing and Technical Communication; Head, Faculty of Multimedia Writing and Technical Communication; BA, University of Wisconsin, Madison; MA, University of Texas, Austin; PhD, University of Massachusetts, Amherst

Maisel, James E. (1985), Professor Emeritus of Electronics and Computer Engineering Technology; BEngSci, BEE, Fenn College; MSEE, Ohio State University

Manfredo, Mark R. (1999), Associate Professor of Agribusiness and Resource Management; BS, California State University, Fresno; MS, New Mexico State University; PhD, University of Illinois, Urbana

Manore, Melinda M. (1984), Professor Emerita of Nutrition; BS, Seattle Pacific University; MS, University of Oregon; PhD, Oregon State University

Marble, Cindy S. (2004), Assistant Professor of Education; BS, Western Michigan University; MA, PhD, Michigan State University

Marcum, Kenneth (2003), Assistant Professor of Applied Biological Sciences; BS, Ohio State University; MS, New Mexico State University; PhD, University of Hawaii, Manoa

Marquardt, Raymond A. (1997), Professor of Agribusiness and Resource Management; Dean, Morrison School of Agribusiness and Resource Management; BS, MS, Colorado State University; PhD, Michigan State University

Martin, Chris A. (1990), Associate Professor of Applied Biological Sciences; BS, California Polytechnic State University and University of Southern California; MS, Auburn University; PhD, University of Florida

Matson, John H. (1978), Associate Professor of Technology Management; BS, MS, Illinois State University

Matthews, James B. (1989), Professor Emeritus of Aeronautical Management Technology; BS, Rose-Hulman Institute of Technology; MS, Massachusetts Institute of Technology; PhD, University of Arizona

McBrien, Edward F. (1986), Professor Emeritus of Electronic and Computer Engineering Technology; BSE, Fenn College; MSEE, Cleveland State University

McCurry, William K. (1995), Professor of Aeronautical Management Technology; Chair, Department of Aeronautical Management Technology; BS, Purdue University; MS, Troy State University; PhD, University of Kansas

McHenry, Albert L. (1978), Professor of Electronics and Computer Engineering Technology; Dean, College of Technology and Applied Sciences; BS, Southern University and A&M College; MS, PhD, Arizona State University

Mermis, William L. (1995), Professor of Human Health Studies; Head, Faculty of Human Health Studies; BS, MS, Saint Louis University; PhD, Arizona State University

Millard, Bruce R. (1988), Associate Professor of Computing Studies; BA, MS, Washington State University; PhD, Arizona State University

Miller, Victor J. (1958), Professor Emeritus of Agribusiness and Resource Management; BS, MS, PhD, University of Illinois

Miller, William H. (1984), Associate Professor of Applied Biological Sciences; Director, Executive Committee, Geographic Information Science; BS, MS, PhD, Washington State University

Minter, Marshall R. Jr. (1965), Professor Emeritus of Technology; BSME, Purdue University; MSME, University of Arizona

Molina-Walters, Debi (2004), Assistant Clinical Professor of Education; BA, California State University, Sonoma; MS, California State University, Hayward; EdD, University of the Pacific

Monte, Woodrow (1979), Professor Emeritus of Nutrition; BS, New Mexico Institute of Mining and Technology; MS, PhD, Colorado State University

Moody, E. Grant (1951), Professor Emeritus of Agribusiness and Resource Management; BS, University of Arizona; MS, Kansas State University; PhD, Purdue University

Morgan, Owen W. (1968), Professor Emeritus of Nutrition; BA, Grinnell College; MA, University of Nebraska, Omaha; PhD, University of Nebraska, Lincoln

Morrell, Darryl R. (1988), Associate Professor of Computing Studies; BS, MS, PhD, Brigham Young University

Moulton, Ian (2005), Professor of Humanities and Arts; BA, University of Manitoba (Canada); MA, University of Western Ontario (Canada); PhD, Columbia University

Munukutla, Lakshmi V. (1987), Professor of Electronics and Computer Engineering Technology; Chair, Department of Electronics and Computer Engineering Technology; BS, MS, Andhra University (India); PhD, Ohio University

Mushkatel, Alvin H. (1980), Professor of Applied Biological Sciences; BA, Ohio State University; MS, PhD, University of Oregon

N

Nam, Changho (1998), Associate Professor of Mechanical and Manufacturing Engineering Technology; BS, MS, Seoul National University (South Korea); PhD, Purdue University

Nelson, Howard (2004), Assistant Clinical Professor of Technology Management; PhD, Minnesota State University

Newman, Richard L. (2001), Assistant Administrative Professional; Director, Training Services, College of Technology and Applied Sciences; BS, MS, Arizona State University

Niemczyk, Mary C. (2003), Assistant Professor of Aeronautical Management Technology; BA, Benedictine College; MBA, Embry-Riddle Aeronautical University; PhD, Arizona State University

O

O'Brien, Marc H. (1997), Lecturer of Aeronautical Management Technology; BA, Boston University; MS, Indiana State University

O'Grady, E. Pearse (1991), Associate Professor of Computing Studies; BSEE, St. Louis University, Parks; MS, PhD, University of Arizona

Oliver, Jill (2005), Lecturer of Education; MS, Purdue University; PhD, Arizona State University

Olson, Larry W. (1995), Associate Professor of Technology Management; BS, Baylor University; PhD, University of Pennsylvania

Orlowicz, Connie J. (2002), Lecturer of Physical Education; BA, MEd, Arizona State University

P

Palmgren, Dale E. (1984), Associate Professor of Mechanical and Manufacturing Engineering Technology; Associate Dean, College of Technology and Applied Sciences; BS, MS, PhD, University of Wisconsin, Madison

Pangrazi-Orlowicz, Connie (2002), Lecturer of Education; BA, MEd, Arizona State University

Pardini, Louis J. (1967), Professor Emeritus of Technology; BA, AM, Idaho State University; EdD, University of Northern Colorado

Parmentier, Mary Jane (1999), Lecturer of Technology Management; BA, Southern Connecticut State University; MA, San Francisco State University; PhD, University of Colorado, Denver

Patterson, Paul M. (1995), Associate Professor of Agribusiness and Resource Management; BS, Auburn University; MS, PhD, Purdue University

Pearce, Martha V. (1977), Professor Emerita of Technology; BS, Columbia University; MS, Boston University; EdD, Arizona State University

Pearson, Michael W. (1998), Associate Clinical Professor of Aeronautical Management Technology; BA, University of Houston; MBA, JD, Arizona State University

Peterson, Danny M. (1999), Professor of Practice, Technology Management; BS, University of Idaho; MBA, California State University, Sacramento; MS, PhD, Arizona State University

Peterson, Edward R. (1977), Professor Emeritus of Electronics and Computer Engineering Technology; BSEE, Fairleigh Dickinson University; MSEE, Arizona State University

Petrovic, Slobodan (2005), Associate Professor of Electronics and Computer Engineering Technology; PhD, Technical University of Dresden (Germany)

Post, Alvin (2000), Assistant Professor of Mechanical and Manufacturing Engineering Technology; BS, University of Arizona; MS, Stanford University; PhD, University of Hawaii

Prest, Alison (2002), Lecturer of Education; BA, Arizona State University; MSEd, Northern Arizona University

Prust, Zenas A. (1959), Professor Emeritus of Technology; BS, University of Wisconsin, Stout; MA, University of Minnesota, Twin Cities; EdD, University of Northern Colorado

R

Raccach, Moshe (1980), Associate Professor of Agribusiness and Resource Management; BSc, MSc, The Hebrew University (Israel); PhD, Cornell University

Rajadas, John N. (1996), Associate Professor of Mechanical and Manufacturing Engineering Technology; BTech, Indian Institute of Technology (India); MS, PhD, Georgia Institute of Technology

Reed, William H. (1968), Professor Emeritus of Aeronautical Management Technology; BS, University of Oklahoma; MS, Arizona State University

Richards, Timothy J. (1994), Professor of Agribusiness and Resource Management; Power Chair Distinguished Professor of Agribusiness; BA, University of British Columbia (Canada); MA, PhD, Stanford University

Richardson, Grant L. (1953), Professor Emeritus of Agribusiness and Resource Management; BS, MS, University of Arizona; PhD, Oregon State University

Rinkol, Sheryl (2005), Lecturer of Education; BA, Nebraska Wesleyan University; MA, Northern Arizona University

Roberts, Chell (2003), Associate Professor of Engineering; Chair, Department of Engineering; BA, MS, University of Utah; PhD, Virginia Polytechnic Institute and State University

Robertson, John M. (2001), Professor of Electronics and Computer Engineering Technology; BS, University of St. Andrews (United Kingdom); MS, University of Dundee (United Kingdom); PhD, University of Edinburgh (United Kingdom)

Robinson, Daniel O. (1950), Professor Emeritus of Agribusiness and Resource Management; AB, Brigham Young University; MS, University of Arizona; PhD, Ohio State University

Roe, Keith B. (1979), Professor Emeritus of Technology; BS, Wisconsin State College; MA, University of Michigan

Roen, Duane (1995), Professor of English; Head, Faculty of Humanities and Arts; BS, MS, University of Wisconsin, River Falls; PhD, University of Minnesota, Minneapolis

Rogers, Bradley B. (1984), Associate Professor of Mechanical and Manufacturing Engineering Technology; BS, MS, Montana State University; PhD, Arizona State University

Rome, Jacqueline (2005), Lecturer of Education; BA, University of Illinois; MS, Northern Arizona University

Roper, Devon J. (1966), Professor Emeritus of Aeronautical Management Technology; BS, Utah State University; MS, Arizona State University

S

Salmirs, Seymour (1981), Professor Emeritus of Technology; BAE, MSAE, Georgia Institute of Technology

Schildgen, Thomas E. (1981), Professor of Technology Management; Chair, Department of Technology Management; BS, MS, Illinois State University; EdD, Northern Arizona University

Schmidt, Peter A. (1978), Professor Emeritus of Manufacturing and Aeronautical Engineering Technology; BS, Northern Illinois University; MA, EdD, Arizona State University

Schmitz, Troy G. (1998), Associate Professor of Agribusiness and Resource Management; BS, University of Saskatchewan (Canada); MS, PhD, University of California, Berkeley

Schoen, Robert A. (1966), Professor Emeritus of Technology; BS, MS, Arizona State University

Schvaneveldt, Roger W. (2000), Professor of Applied Psychology; Head, Faculty of Applied Psychology; BA, University of Utah; MS, PhD, University of Wisconsin, Madison

Schwalm, David E. (1986), Associate Professor of English; Vice Provost, Academic Programs, Polytechnic Campus; BA, Carlton College; MS, PhD, University of Chicago

Sebren, Ann (2004), Lecturer of Exercise and Wellness; BS, MS, University of Southern Mississippi; EdD, University of North Carolina at Greensboro

Seperich, George J. (1976), Professor of Agribusiness and Resource Management; Associate Dean, Morrison School of Agribusiness and Resource Management; BS, Loyola University, Chicago; MS, PhD, Michigan State University

Shepard, Christina W. (1999), Lecturer of Nutrition; BS, University of Arizona; MS, Arizona State University

Shultz, Clifford J. (1992), Professor of Agribusiness and Resource Management; Marley Foundation Chair in Consumer Food Marketing; BA, DePauw University; MA, PhD, Columbia University

Skilton, Paul F. (2003), Assistant Professor of Business Administration; BA, University of California; MBA, Boston College; PhD, Arizona State University

Smith, Bryan (2004), Assistant Professor of Education; BA, MA, University of Delaware; PhD, University of Arizona

Sommerfeld, Milton R. (1968), Professor of Life Sciences; BS, Southwest Texas State College; PhD, Washington University

Steele, Kelly P. (2002), Associate Professor of Applied Biological Sciences; BA, PhD, University of California

Stever, Gayle S. (2003), Senior Lecturer of Education; BM, MA, PhD, Arizona State University

Stiles, Philip G. (1969), Professor Emeritus of Agribusiness and Resource Management; BS, University of Arkansas; MS, University of Kentucky; PhD, Michigan State University

Stone, Marian G. (1989), Associate Professor of Multimedia Writing and Technical Communication; BA, State University of New York, Binghamton; MS, Northeastern University

Stone, William J. (1967), Professor of Exercise and Wellness; Chair, Department of Exercise and Wellness; BS, Boston University; MS, Florida State University; EdD, University of California, Berkeley

Strawn, Roland S. (1967), Professor Emeritus of Technology; BSEE, MSEE, University of Illinois; PhD, Arizona State University

Stutz, Jean C. (1981), Professor of Applied Biological Sciences; BS, Ursinus College; MS, University of Delaware; PhD, Pennsylvania State University

Sugar, Thomas G. (1999), Assistant Professor of Engineering; BSE, MSE, PhD, University of Pennsylvania

Summitt, April (2005), Assistant Professor of Humanities and Arts; MA, Andrews University; PhD, Western Michigan University

Sundararajan, Rajeswari (1996), Associate Professor of Electronics and Computer Engineering Technology; BS, University of Madras (India); MS, Indian Institute of Science (India); PhD, Arizona State University

Swan, Pamela (1994), Associate Professor of Exercise and Wellness; BA, University of California, Santa Barbara; MS, University of North Carolina at Greensboro; PhD, University of Tennessee

T

Taysom, Elvin D. (1953), Professor Emeritus of Agribusiness and Resource Management; BS, University of Idaho; MS, Utah State University; PhD, Washington State University

Thomas, Jeffrey (2005), Associate Clinical Professor of Technology Management; MA, PhD, University of Northern Colorado

Thomason, Leslie L. (1969), Professor Emeritus of Technology; AB, MA, EdD, University of Oklahoma

Thor, Eric P. (1990), Professor of Agribusiness and Resource Management; BS, MS, PhD, University of California, Berkeley

Tudor-Locke, Catrine (2001), Associate Professor of Exercise and Wellness; BA, University of Lethbridge (Canada); MS, Dalhousie University (Canada); PhD, University of Waterloo (Canada)

Turney, Mary Ann (1999), Professor Emerita of Aeronautical Management Technology; BA, LeMoyne College; MA, Hofstra University; EdD, Nova Southeastern University

V

Vaughan, Linda A. (1982), Professor of Nutrition; Chair, Department of Nutrition; BS, University of California, Davis; MNS, Cornell University; PhD, University of Arizona

W

Watkins, Thomas B. (1972), Professor Emeritus of Technology; BS, University of Wyoming; MS, Arizona State University

Watson, Emma J. (1999), Lecturer of Business Administration; BA, Sonoma State University; MEd, Western Washington University

Welty, Ellen L. (1996), Associate Librarian, Polytechnic Campus Library Services; BA, University of Wyoming; MSLS, University of Illinois, Urbana-Champaign

Wenhart, James C. (1996), Senior Lecturer of Education; BA, MEd, Arizona State University

White-Taylor, Janel D. (2003), Assistant Clinical Professor of Education; BA, Loyola Marymount University; MEd, PhD, Arizona State University

Whitehouse, Richard O. (1997), Senior Lecturer of Computing Studies; BS, Worcester State College; MS, University of Tennessee

Whysong, Gary L. (1974), Associate Professor of Applied Biological Sciences; BS, MS, Montana State University; PhD, University of Wyoming

Wilson, Daniel (1978), Senior Lecturer of Technology Management; BS, Drexel University; MSE, PhD, Arizona State University

Winham, Donna M. (2002), Assistant Professor of Nutrition; BS, Keene State College; MA, University of Arizona; PhD, University of California, Los Angeles

Wood, Billy G. (1977), Professor Emeritus of Electronics and Computer Engineering Technology; AB, University of California, Berkeley; BS, Eastern Illinois University; MS, University of Arizona

Woodruff, Larry (1998), Senior Lecturer of Exercise and Wellness; BS, University of Oregon; MS, Western Oregon University

Woolf, Kathleen (2002), Assistant Professor of Nutrition; BS, Arizona State University; MS, University of California, Los Angeles; PhD, Arizona State University

Z

Zeng, Guoliang (1991), Associate Professor of Electronics and Computer Engineering Technology; BS, Chengdu Telecommunication Institute (China); MS, University of California, San Diego; MNS, PhD, Arizona State University

Tempe Campus

A

Aannestad, Per (1975), Professor Emeritus of Physics and Astronomy; BS, University of Oslo (Norway); PhD, University of California, Berkeley

Abbas, James J. (2002), Associate Professor of Bioengineering; ScB, Brown University; MS, PhD, Case Western Reserve University

Abbaspour-Tamijani, Abbas (2004), Assistant Professor of Electrical Engineering; BS, MS, University of Tehran (Iran); PhD, University of Michigan

Abbaszadegan, Morteza (1999), Associate Professor of Civil and Environmental Engineering and Adjunct Professor of Life Sciences; BS, University of Montana; MS, Northern Arizona University; PhD, University of Arizona

Abbott, David (2004), Associate Professor of Anthropology; BA, Adelphi University; MS, University of Arizona; MA, PhD, Arizona State University

Abbott, Kenneth (2005), Professor of Global Studies and Law; Willard H. Pedrick Distinguished Research Scholar; AB, Cornell University; JD, Harvard Law School

Abele, Deborah (1990), Faculty Associate of Planning; BA, Vassar College

Aberle, James T. (1989), Associate Professor of Electrical Engineering; BS, MS, Polytechnic Institute of New York; PhD, University of Massachusetts, Boston

Abramson, Jay (1999), Senior Lecturer of Mathematics and Statistics; BS, University of New Mexico; MS, University of New Hampshire

Abston, Deborah (1990), Associate Librarian, Hayden Reference Services; BS, MSLS, Wayne State University

Acereda, Alberto (1998), Associate Professor of Latin American Literature; Licenciado, University of Barcelona (Spain); MA, PhD, University of Georgia

Acevedo, Roberto M. (1964), Professor Emeritus of Spanish; BA, University of California, Berkeley; MA, PhD, University of Arizona

Acharya, Raghunath (1976), Professor Emeritus of Physics and Astronomy; BSc, MSc, University of Delhi (India); PhD, University of Rochester

Acker, Barbara (1991), Associate Professor of Theatre; BFA, University of Texas at Austin; MA, Case Western Reserve University; PhD, Wayne State University

Acker, William J. (1970), Professor Emeritus of Geography; BS, Purdue University; MS, University of Kansas; MA, PhD, Syracuse University

Adams, Donald, Sergeant First Class (2005), Instructor of Military Science

Adams, James B. (1996), Professor of Chemical and Materials Engineering; Codirector, Science and Engineering of Materials; BS, Duke University; MS, PhD, University of Wisconsin, Madison

Adams, Karen L. (1984), Professor of English; BA, MA, PhD, University of Michigan

Adelman, Madelaine (1998), Associate Professor of Justice and Social Inquiry; AB, PhD, Duke University

Adelson, Roger D. (1974), Professor of History; BA, George Washington University; BLitt, University of Oxford (United Kingdom); MA, PhD, Washington University

Adhikari, Ambika P. (2004), Faculty Associate of Planning; BAArch, University of Baroda (India); MArch, University of Hawaii, Honolulu; DDes, Harvard University

Adrian, Ronald (2005), Ira A. Fulton Professor of Mechanical and Aerospace Engineering; BME, ME, University of Minnesota; PhD, University of Cambridge (United Kingdom)

Agadjanian, Victor (1995), Associate Professor of Sociology; BA, Moscow State University (Russia); MS, PhD, University of Southern California

Aguilar, John L. (1976), Professor Emeritus of Anthropology; BA, University of California, Los Angeles; MA, California State University, Los Angeles; PhD, University of California, San Diego

Aguilera, Miguel (2004), Assistant Professor of Religious Studies; BS, University of California, Riverside; MA, PhD, State University of New York, Albany

Ahn, Seung C. (1990), Associate Professor of Economics; BA, Sogang University (South Korea); MA, PhD, Michigan State University

Aiken, Leona S. (1985), Professor of Psychology; BS, Virginia Commonwealth University; MS, PhD, Purdue University

Akay, Metin (2005), Professor of Bioengineering; BSEE, MSEE, Bogazici University (Turkey); PhD, Rutgers, The State University of New Jersey

Akins, William H. (1975), Professor Emeritus of Theatre; BA, Duke University; MA, PhD, University of Denver

Alarcon, Ricardo O. (1989), Professor of Physics and Astronomy; BS, MS, University of Chile; PhD, Ohio University

Alberts, Jess K. (1989), Professor of Communication; BSEd, MA, Abilene Christian University; PhD, University of Texas at Austin

Alcock, John
(1972)
Regents' Professor of Life Sciences; BA, Amherst College; PhD, Harvard University

Alcorn, Marianne (1981), Law Librarian, Reference; BA, University of Washington; MLS, University of Southern California

Aldrich, Frank T. (1969), Professor Emeritus of Geography; BA, University of Texas at Austin; MS, PhD, Oregon State University

Alexander, Gene (2003), Associate Professor of Psychology; BA, Pomona College; MA, PhD, Loyola University Chicago

Alexander, Robert J. (1975), Professor of German; BA, Macalester College; MA, PhD, University of Wisconsin, Madison

Alford, Terry L. (1993), Professor of Materials Engineering; BS, MS, North Carolina State University, Raleigh; PhD, Cornell University

Ali, Souad T. (2004), Assistant Professor of Arabic and Middle Eastern Studies; BA, University of Khartoum (Sudan); MA, Brigham Young University; PhD, University of Utah

Alisky, Marvin (1957), Professor Emeritus of Political Science; BA, MA, PhD, University of Texas at Austin

Allee, David R. (1991), Associate Professor of Electrical Engineering; BS, University of Cincinnati; MS, PhD, Stanford University

Allen, Craig M. (1991), Associate Professor of Journalism and Mass Communication; BA, Linfield College; MS, University of Oregon; PhD, Ohio University

Allen, James P. (1989), Professor of Chemistry and Biochemistry; BS, Saint Joseph's University; MS, PhD, University of Illinois

Allen, Jonathan (2001), Assistant Professor of Chemical Engineering and Civil and Environmental Engineering; BS, University of Pennsylvania; MS, ScD, Massachusetts Institute of Technology

Allenby, Braden (2004), Professor of Civil and Environmental Engineering; BA, Yale University; MA, JD, University of Virginia; MS, PhD, Rutgers, The State University of New Jersey

Altheide, David L.
(1973)
Regents' Professor of Justice and Social Inquiry; BA, Central Washington State College; MA, University of Washington; PhD, University of California, San Diego

Alum, Absar (2001), Faculty Research Associate of Civil and Environmental Engineering; BS, MS, University of Agriculture (Pakistan); PhD, University of Arizona

Alvarado, Ronald H. (1974), Professor Emeritus of Life Sciences; Dean Emeritus, School of Extended Education; BA, University of California, Riverside; MS, PhD, Washington State University

Amazeen, Eric P. (1999), Assistant Professor of Psychology; BA, Franklin and Marshall College; MA, PhD, University of Connecticut

Amazeen, Polemnia G. (1999), Assistant Professor of Psychology; BA, Franklin and Marshall College; MA, PhD, University of Connecticut

Amdam, Gro V. (2005), Assistant Professor of Life Sciences; BS, MS, DSc, Agricultural University of Norway (Norway)

Ames, James G. (1985), Senior Research Associate, Institute for Manufacturing Enterprise Systems; BS, San Diego State University

Ammons, Sandra (2005), Lecturer of Speech and Hearing Science; BA, Gallaudet University; MS, McDaniel College

Anand, Julie (2005), Assistant Professor of Art; BS, University of Arizona; MFA, University of New Mexico

Anbar, Ariel (2003), Associate Professor of Chemistry and Biochemistry, and Geological Sciences; AB, Harvard University; MS, PhD, California Institute of Technology

Anderies, J. Marty (2002), Assistant Professor of Ecological Modeling; BS, Colorado School of Mines; MS, PhD, University of British Columbia (Canada)

Anderson, Gary (1975), Professor Emeritus of Curriculum and Instruction; BS, MEd, Edinboro State College; PhD, University of Pittsburgh

Anderson, James R. (1984), Senior Research Scientist, Mechanical and Aerospace Engineering; BA, Williams College; PhD, California Institute of Technology

Anderson, Lisa M. (2000), Assistant Professor of Women and Gender Studies and Theatre; AB, Mount Holyoke College; MA, Smith College; PhD, University of Washington

Anderson, Marcia L. (1986), Librarian, Hayden Reference Services; BA, University of Michigan; MLS, Wayne State University

Anderson, Melvin S. (1967), Professor Emeritus of Finance; BS, MS, Oklahoma State University; EdD, University of Arkansas

Anderson-Rowland, Mary R. (1974), Associate Professor of Industrial Engineering; BA, Hope College; MS, PhD, University of Iowa

Andress, Barbara L. (1972), Professor Emerita of Music; BA, MA, Arizona State University

Angell, C. Austen
(1989)
Regents' Professor of Chemistry and Biochemistry; BS, MS, Melbourne University (Australia); PhD, University of London (United Kingdom)

Anijar, Karen Z. (1998), Associate Professor of Curriculum and Instruction; BA, Florida State University; MA, PhD, University of North Carolina at Greensboro

Appleton, Nicholas R. (1972), Professor of Educational Leadership and Policy Studies and Curriculum and Instruction; Academic Program Coordinator, Social and Philosophical Foundations of Education; BA, San Francisco State University; MA, California State University, Northridge; EdD, University of Massachusetts, Amherst

Aragon, George O. (2005), Assistant Professor of Finance; BS, Boston College; MS, London School of Economics (United Kingdom); PhD, Boston College

Aranda, Luis (1975), Professor Emeritus of Legal and Ethical Studies; BM, MEd, University of Arizona; JD, Arizona State University

Arce, Leslie (2001), Lecturer of Mathematics and Statistics; BS, Kansas State University; MA, Arizona State University

Arciniega, G. Miguel (1979), Associate Professor of Psychology in Education; BS, MA, New Mexico State University; PhD, University of Arizona

Ariaratnam, Samuel (2001), Associate Professor of Construction; BASc, University of Waterloo (Canada); MS, PhD, University of Illinois, Urbana-Champaign

Arias, M. Beatriz (1989), Associate Professor of Curriculum and Instruction; BA, MA, Occidental College; PhD, Stanford University

Armbruster, Dieter (1989), Professor of Mathematics and Statistics; Interim Chair, Department of Mathematics and Statistics; Abitur, Zeppelin, Gymnasium (Germany); Diplom, PhD, University of Tübingen (Germany)

Armendt, Brad (1989), Associate Professor of Life Sciences and Philosophy; BA, Rice University; PhD, University of Illinois, Chicago

Arner, Douglas G. (1959), Professor Emeritus of Philosophy; BS, Creighton University; MA, PhD, University of Michigan

Arnold, William E. (1973), Professor Emeritus of Communication; BS, MA, Northern Illinois University; PhD, Pennsylvania State University

Arntzen, Charles J.
(2000)
Regents' Professor of Life Sciences; Florence Ely Nelson Presidential Chair; Director, Center for Infectious Diseases and Vaccinology, Arizona Biodesign Institute at Arizona State University; BS, MS, University of Minnesota; PhD, Purdue University

Aronson, Jerome M. (1966), Professor Emeritus of Life Sciences; BA, PhD, University of California, Berkeley

Arredondo, Patricia (1999), Professor of Psychology in Education; Associate Vice President and Senior Advisor, Academic Initiatives, University Undergraduate Initiatives; BS, Kent State University; EdM, Boston College; EdD, Boston University

Arreola, Daniel (1990), Professor of Geography; BA, University of California, Los Angeles; MA, California State University, Hayward; PhD, University of California, Los Angeles

Arrowsmith, J. Ramon (1995), Associate Professor of Geological Sciences; BA, Whittier College; PhD, Stanford University

Arterian, Hannah (1978), Professor Emerita of Law; BA, Elmira College; JD, University of Iowa

Artibise, Alan (2004), Professor of Political Science; Divisional Dean of Social Sciences, College of Liberal Arts and Sciences; Executive Director, Institute for Social Science Research; BA, University of Manitoba (Canada); PhD, University of British Columbia (Canada)

Artiles, Alfredo (2004), Professor of Curriculum and Instruction; Licenciatura in Education, Rafael Landivar University (Guatemala); MEd, PhD, University of Virginia

Arzubiaga, Angela (2004), Assistant Professor of Psychology in Education; BA, Hamline University; PhD, University of California, Los Angeles

Ashbrook, Mark (2000), Lecturer of Mathematics and Statistics; BS, MS, University of Illinois; MA, University of Kansas

Ashforth, Blake (1996), Jerry and Mary Ann Chapman Professor in Business; Professor of Management; BComm, PhD, University of Toronto (Canada)

Ashley, Richard (1981), Associate Professor of Political Science; BA, University of California, Santa Barbara; MA, PhD, Massachusetts Institute of Technology

Askland, Andrew (1999), Director, Center for the Study of Law, Science, and Technology; AB, Holy Cross College; BS, University of Maryland; MA, University of Colorado; JD, University of Maryland; PhD, University of Colorado

Aspinall, Richard (2004), Professor of Geography; Chair, Department of Geography; BSc, University of Birmingham (United Kingdom); PhD, University of Hull (United Kingdom)

Atkinson, Laura (2002), Lecturer of Curriculum and Instruction; BA, Saint Edward's University; MS, University of Wisconsin, Madison

Atkinson, Robert K. (2002), Assistant Professor of Psychology in Education; BA, California State University, Chico; MS, PhD, University of Wisconsin, Madison

Atsumi, Takayori P. (1968), Professor Emeritus of Music; BFA, Kunitachi Music College (Japan); MM, New England Conservatory of Music

Aulerich, Christopher E. (1989), Faculty Associate, Del E. Webb School of Construction

Axelrod, Morris (1972), Professor Emeritus of Sociology; BA, PhD, University of Michigan

Ayyanar, Raja (2000), Assistant Professor of Electrical Engineering; BE, PSG College of Technology (India); MS, Indian Institute of Science (India); PhD, University of Minnesota

Azuma, Tamiko (1998), Associate Professor of Speech and Hearing Science; BA, University of California, Santa Cruz; MA, PhD, Arizona State University

B

Backus, Charles E. (1968), Professor Emeritus of Electrical Engineering; BSME, Ohio University; MS, PhD, University of Arizona

Bacon, Catherine K. (1990), Clinical Associate Professor of Speech and Hearing Science; BA, University of California, Santa Barbara; MA, University of Minnesota

Bacon, Sid P. (1988), Professor of Speech and Hearing Science; Chair, Department of Speech and Hearing Science; BGS, MA, University of Kansas; PhD, University of Minnesota, Twin Cities

Bacon, Thomas (1993), Professor Emeritus of Music; BS, Oakland University

Badger, William W. (1985), Professor of Construction; BSME, Auburn University; MSCE, Oklahoma State University; PhD, Iowa State University

Baek, Jae-Meen (2001), Assistant Professor of Curriculum and Instruction; BS, Ewha Women's University (South Korea); MS, PhD, University of Wisconsin, Madison

Baer, Steven M. (1988), Associate Professor of Mathematics and Statistics; BS, MS, PhD, University of Illinois

Bahr, Donald M. (1967), Professor Emeritus of Anthropology; AB, MA, PhD, Harvard University

Bai, Yan (2005), Assistant Professor of Economics; BA, Shanghai University of Finance and Economics (China); MA, Peking University (China); MA, PhD, University of Minnesota

Baier, Leslie (1994), Adjunct Professor of Life Sciences; BA, Lawrence University; PhD, University of Michigan

Bailey, James E. (1974), Professor Emeritus of Industrial Engineering; BSIE, MSIE, PhD, Wayne State University

Bailey, Wayne A. (2000), Professor of Music; BME, Iowa State University; MM, University of Michigan; DMA, University of Colorado

Baker, Aaron (1992), Associate Professor of English; BA, Hobart College; MA, PhD, Indiana University

Baker, Brenda J. (1998), Associate Professor of Anthropology; BA, Northwestern University; MA, PhD, University of Massachusetts, Amherst

Baker, Dale R. (1989), Professor of Curriculum and Instruction; BA, University of Oklahoma; MAT, Trenton State College; EdD, Rutgers, The State University of New Jersey

Baker, Marc A. (1988), Adjunct Professor of Life Sciences; BA, San Jose State University; MA, Humboldt State University; PhD, Arizona State University

Baker, Virgil R. (1966), Professor Emeritus of Geography; BS, MS, University of Nebraska; PhD, University of Utah

Bakkaloglu, Bertan (2004), Associate Professor of Electrical Engineering; BSEE, Bogazici University (Turkey); MSc, University of Houston; PhD, Oregon State University

Balanis, Constantine A.
(1983)
Regents' Professor of Electrical Engineering; BSEE, Virginia Polytechnic Institute and State University; MEE, University of Virginia; PhD, Ohio State University

Balasubramanian, Krishnan (1980), Professor Emeritus of Chemistry; MSc, Birla Institute of Technology Science (India); MA, PhD, Johns Hopkins University

Baldini, Cajsa (2005), Lecturer of English; BA, University of Stockholm (Sweden); MA, PhD, Arizona State University

Baldini, Pier Raimondo (1978), Professor of Italian; BA, San Francisco State University; MA, University of British Columbia (Canada); PhD, University of California, Los Angeles

Baldwin, Marjorie L. (2002), Professor of Health Management and Policy; BS, State University College, Oswego; MA, PhD, Syracuse University

Ball, Terence (1998), Professor of Political Science; BA, University of California, Santa Cruz; MA, PhD, University of California, Berkeley

Balling, Robert C. (1987), Professor of Geography; Director, Climatology Laboratory; AB, Wittenberg University; MA, Bowling Green State University; PhD, University of Oklahoma

Ballon-Aguirre, Enrique (1992), Professor of Spanish; Bachiller en Letras, Bachiller en Derecho, University of Arequipa (Peru); Doctor en Literatura, National University of San Marcos (Peru); Doctorat en Études Iberiques, University of Paris III (France)

Balsas, Carlos (2004), Assistant Professor of Planning; LURP, University of Aveiro (Portugal); MRP, PhD, University of Massachusetts, Amherst

Baniszewski, Christopher (2001), Faculty Associate of Construction; BS, Northern Arizona University; JD, Arizona State University

Baral, Chitta (1999), Professor of Computer Science and Engineering; BTech, Indian Institute of Technology (India); MS, PhD, University of Maryland, College Park

Barcelo, Héléne (1990), Professor of Mathematics and Statistics; MsC, University of Quebec (Canada); PhD, University of California, San Diego

Barclay, Ray James, Major (Ret.) (2005), Assistant Professor of Military Science; BA, University of Florida; MA, Indiana University

Bardrick, Richard A. (1956), Professor Emeritus of Psychology; AB, PhD, University of California, Los Angeles

Barefield, Robert (2003), Assistant Professor of Music; BA, Washington University, St. Louis; MBA, University of Maryland, College Park; MM, DMA, University of Cincinnati

Barker, David (1983), Professor of Theatre; BSE, Duquesne University; MFA, Rutgers, The State University of New Jersey

Barkley, Margaret V. (1963), Professor Emerita of Family and Human Development; BS, Millikin University; MS, EdD, University of Illinois

Barkson, Joseph A. (1958), Professor Emeritus of Engineering; BSEE, University of Michigan; MS, PhD, University of Illinois

Barlow, Richard B. (1964), Professor Emeritus of History; BA, MA, PhD, University of Pennsylvania

Barnaby, Hugh J. (2004), Assistant Professor of Electrical Engineering; BA, University of California, Berkeley; MSEE, PhD, Vanderbilt University

Barnard, John P. (1991), Learning Resources Specialist Emeritus; BS, State University of New York; MEd, PhD, Arizona State University

Barnes, Andrew (1996), Associate Professor of History; BA, Wesleyan University; MA, PhD, Princeton University

Barnes, Jennifer (2004), Visiting Professor of Law; Director, Clinical Programs, College of Law; BS, University of Wisconsin; JD, Arizona State University

Barona, Andrés (1986), Professor Emeritus of Psychology in Education; BS, MEd, Texas A&M University; PhD, University of Texas at Austin

Barone, Thomas E. (1990), Professor of Curriculum and Instruction and Educational Leadership and Policy Studies; BA, MA, Loyola University, New Orleans; EdD, Stanford University

Barratt, Mark (2002), Assistant Professor of Supply Chain Management; BA, University of Greenwich (United Kingdom); PhD, Cranfield School of Management (United Kingdom)

Barrera, Manuel (1977), Professor of Psychology; BS, University of Wisconsin, Eau Claire; MA, PhD, University of Oregon

Barrett, Marianne (1994), Associate Professor of Journalism and Mass Communication; BS, Kutztown University; MPS, Syracuse University; PhD, Michigan State University

Barroll-Aschaffenburg, Rayna (1980), Professor Emerita of Music; BM, University of Texas; DMA, University of Maryland, College Park

Bartels, Robert D. (1981), Professor of Law; BA, University of Michigan; JD, Stanford University

Barton, C. Michael (1987), Professor of Anthropology; Collections Administrator; BA, University of Kansas; MA, PhD, University of Arizona

Barton, John L. (1994), Senior Lecturer of Psychology; BA, University of Nebraska, Lincoln; MA, PhD, Arizona State University

Bartz, Donna (1968), Professor Emerita of Theatre; BFA, MA, University of Colorado

Bashford, Howard H. (1997), Associate Professor of Construction; BS, MS, University of Wyoming; PhD, Brigham Young University

Batalden, Stephen K. (1976), Professor of History; Coordinator of Russian, East European Studies Consortium; BA, Augsburg College; MA, PhD, University of Minnesota

Bates, Dawn W. (1989), Associate Professor of English; BA, PhD, University of Washington

Battey, Daniel (2005), Assistant Professor of Curriculum and Instruction; BS, PhD, University of California, Los Angeles

Baty, Wayne M. (1962), Professor Emeritus of Supply Chain Management; BS, Southwest Missouri State College; MA, Northwestern University; PhD, University of Southern California

Bauer, Ernst (1990), Distinguished Research Professor of Physics and Astronomy; Diplom., Dr. rer. nat., University of Munich (Germany)

Bauer, Richard (2000), Senior Lecturer of Chemistry and Biochemistry; BS, Saginaw Valley State University; MS, PhD, Purdue University

Bazzi, Rida (1996), Associate Professor of Computer Science and Engineering; BE, American University of Beirut (Lebanon); MS, PhD, Georgia Institute of Technology

Beals, Stephen P. (1996), Adjunct Professor of Speech and Hearing Science; BS, Calvin College; MD, Wayne State University College of Medicine

Béarat, Hamdallah (2003), Affiliate Professor of Anthropology; BS, Birzeit University (Palestine); DEA, PhD, Caen University (France)

Beaulieu, David (2004), Professor of Educational Leadership and Policy Studies; Director, Center for Indian Education; BA, MA, PhD, University of Minnesota

Beckman, James R. (1980), Associate Professor of Chemical Engineering; Associate Chair, Department of Chemical and Materials Engineering; BS, MS, University of Wisconsin; PhD, University of Arizona

Bedard, Roger L. (1990), Evelyn Smith Family Endowed Professor of Theatre; BA, University of Northern Iowa; MFA, University of Oregon; PhD, University of Kansas

Bedient, Jack D. (1963), Professor Emeritus of Mathematics and Statistics; AB, Albion College; MBS, EdD, University of Colorado

Bedworth, David D. (1963), Professor Emeritus of Industrial Engineering; BSIE, Lamar College of Technology; MSIE, PhD, Purdue University

Beer, Lawrence (1994), Senior Lecturer of Management; BS, Boston University; JD, St. John's University

Begaye, Timothy (2003), Assistant Professor of Educational Leadership and Policy Studies; BS, Northeastern University; MEd, EdD, Harvard University

Beggs, Donald (1999), Honors Faculty Fellow; AB, University of California, Berkeley; PhD, University of California, Santa Cruz

Belitsky, Andrei V. (2003), Assistant Professor of Physics and Astronomy; MS, Yaroslavl State University (Russia); PhD, Bogoliubov Laboratory of Theoretical Physics (Russia)

Bell, George H. (1976–82; 1989), Librarian Emeritus, Noble Science Reference Services; BA, William Paterson College; MLS, Pratt Institute

Bell, James W. (1966), Professor Emeritus of Curriculum and Instruction; BA, Washburn University of Topeka; MEd, EdD, University of Kansas

Bell, John E. (1965), Professor Emeritus of Curriculum and Instruction; BS, University of Nebraska, Lincoln; MA, EdD, University of Wyoming

Bell, Mary E. (1970), Professor Emerita of Education; BS, Indiana State Teachers College; MS, Butler University; EdD, Indiana University, Bloomington

Bellamy, Lynn (1976), Professor Emeritus of Chemical Engineering; BS, Texas A&M University; MS, PhD, Tulane University

Belok, Michael V. (1959), Professor Emeritus of Education; BS, Indiana University, Bloomington; MA, Arizona State University; PhD, University of Southern California

Bender, Bert A. (1971), Professor Emeritus of English; BA, University of Washington; PhD, University of California, Irvine

Bender, Diane (2002), Assistant Professor of Interior Design; BA, MA, PhD, Michigan State University

Bender, Gordon L. (1953), Professor Emeritus of Life Sciences; BS, Iowa State College; MS, University of Wisconsin; PhD, University of Illinois

Bender, Paul (1984), Professor Emeritus of Law; Dean Emeritus, College of Law; AB, LLB, Harvard University

Benin, David B. (1970), Professor Emeritus of Physics and Astronomy; AB, Cornell University; MA, PhD, University of Rochester

Benin, Mary B. (1979), Associate Professor of Sociology; BA, Vanderbilt University; MA, PhD, University of Nebraska, Lincoln

Bennett, Peter A. (1984), Professor of Physics and Astronomy; BA, University of Minnesota, Duluth; PhD, University of Wisconsin, Madison

Benzinger, Robert P. (1970), Professor Emeritus of Industrial Design; BSME, University of Wisconsin, Madison; MAE, Chrysler Institute of Engineering

Berch, Michael A. (1969), Professor of Law; BA, JD, Columbia University

Berens, Michael E. (1995), Adjunct Professor of Life Sciences; BS, Arizona State University; PhD, University of Arizona

Berliner, David C.
(1987)
Regents' Professor of Educational Leadership and Policy Studies and Psychology in Education; BA, University of California, Los Angeles; MA, California State University, Los Angeles; PhD, Stanford University

Berman, David R. (1966), Professor Emeritus of Political Science; BA, Rockford College; MA, PhD, American University

Berman, Neil S. (1964), Professor Emeritus of Chemical Engineering; BS, University of Wisconsin; MS, MA, PhD, University of Texas

Bernardi, Daniel (2004), Associate Professor of Chicana and Chicano Studies; BA, MA, University of Arizona; PhD, University of California, Los Angeles

Bernardi, Jose (1995), Associate Professor of Interior Design; BArch, National University of Cordoba (Spain); MS, University of Cincinnati

Bernick, Philip A. (2004), Assistant Professor of English; BS, New Mexico Institute of Mining and Technology; MA, PhD, New Mexico State University

Bernstein, Bianca L. (1987), Professor of Psychology in Education and Educational Leadership and Policy Studies; BA, University of California, Berkeley; MEd, PhD, University of California, Santa Barbara

Bertelsen, Wendle R. (1964), Professor Emeritus of Architecture and Landscape Architecture; BArch, University of Michigan; MArch, University of Arizona

Bertram, Susan M. (1998), Assistant Research Professor of Life Sciences; HBSc, MSc, Trent University (Canada); PhD, Arizona State University

Bess, Vicki (1994), Adjunct Professor of Life Sciences; MS, Arizona State University

Betz, M. Austin (1974), Professor Emeritus of Education; BS, Lock Haven State College; MEd, Pennsylvania State University; MAT, Brown University; MA, PhD, University of Illinois

Betz, Mathew J. III (1961), Professor Emeritus of Civil Engineering; BS, MS, PhD, Northwestern University

Bian, Lin (2005), Assistant Professor of Speech and Hearing Science; MD, Peking University School of Medicine; PhD, University of Kansas

Biblarz, Dora (1980), Librarian Emerita; BA, MLS, University of California, Los Angeles; MA, University of California, Davis

Bickford, William B. (1966), Professor Emeritus of Engineering; BS, MS, Kansas State University; PhD, University of Illinois

Bieber, Allen L. (1963), Professor Emeritus of Chemistry and Biochemistry; Director, Interdisciplinary Committee on Molecular and Cellular Biology; BS, MS, North Dakota State University; PhD, Oregon State University

Bimonte-Nelson, Heather (2005), Assistant Professor of Psychology; PhD, University of Connecticut

Bingham, Scott (1989), Senior Research Scientist of Life Sciences; BS, Brown University; PhD, Brandeis University

Binkley, Roberta A. (2001), Lecturer of English; BA, Colorado State University; MA, PhD, University of Arizona

Birchfield, David (2003), Assistant Professor of Arts, Media, and Engineering; BM, University of Cincinnati; MA, DMA, Columbia University

Birge, Edward A. (1972), Professor Emeritus of Life Sciences; BA, PhD, University of Wisconsin, Madison

Birk, James P. (1973), Professor Emeritus of Chemistry and Biochemistry; BA, Saint John's University; PhD, Iowa State University

Birney, Rick (1990), Senior Lecturer of Computer Information Systems; BA, Arizona State University; MS, University of Maryland

Birtcher, Craig R. (1987), Associate Research Professional, Electrical Engineering; BSE, MS, Arizona State University

Bitner, Mary Jo (1987), Professor of Marketing; PETsMART Chair of Services Leadership; BA, MBA, PhD, University of Washington

Bitter, Gary G. (1970), Professor of Curriculum and Instruction and Psychology in Education; BS, Kansas State University; MA, Kansas State Teachers College; PhD, University of Denver

Bivona, Daniel (1996), Associate Professor of English; Divisional Dean of Undergraduate Programs, College of Liberal Arts and Sciences; BA, University of Connecticut; MA, Northeastern University; PhD, Brown University

Bjork, Robert E. (1983), Professor of English; Director, Arizona Center for Medieval and Renaissance Studies; BA, Pomona College; MA, PhD, University of California, Los Angeles

Blackham, Garth J. (1962), Professor Emeritus of Psychology in Education; BS, MS, Utah State University; PhD, Cornell University

Blackledge, Vernon O. (1969), Professor Emeritus of Computer Science and Engineering; BSEE, University of Illinois; MSEE, University of Santa Clara; PhD, Arizona State University

Blackman, William C. (1988), Research Professional Emeritus, Global Institute of Sustainability; BS, MS, University of Missouri; MPA, University of Southern California; DPA, University of Colorado

Blackson, Thomas (1995), Associate Professor of Philosophy; BA, DePauw University; PhD, University of Massachusetts

Blakemore, Arthur E. (1979), Professor of Economics; Chair, Department of Economics; BS, MA, University of Detroit; PhD, Southern Illinois University, Carbondale

Blanchard, Jay S. (1988), Professor of Psychology in Education; BA, Drake University; MST, Drake University; PhD, University of Georgia

Blankenship, Robert E. (1985), Professor of Chemistry and Biochemistry; Chair, Department of Chemistry and Biochemistry; BS, Nebraska Wesleyan College; PhD, University of California, Berkeley

Blasingame, James B. Jr. (2000), Assistant Professor of English; BA, University of Northern Iowa; MEd, Drake University; PhD, University of Kansas, Lawrence

Blasko, Vincent J. (1980), Associate Professor of Marketing; BS, MBA, Arizona State University; PhD, University of Texas at Austin

Bletzer, Keith (2004), Adjunct Professor of Anthropology; BA, University of South Florida; MA, New York University; MPH, University of Arizona; PhD, Michigan State University

Bloom, Irene (1997), Assistant Research Professional, Center for Research on Education in Science, Mathematics, Engineering, and Technology; BA, MS, University of Miami

Blouin, Deborah K. (1971), Librarian Emerita, Hayden Reference Services; BA, Cedar Crest College; MLS, State University of New York, Albany

Blount, Douglas J. (1990), Associate Professor of Mathematics and Statistics; BS, MS, PhD, University of Wisconsin, Madison

Blumenfeld-Jones, Donald (1990), Associate Professor of Curriculum and Instruction; BA, Rutgers, The State University of New Jersey; MFA, EdD, University of North Carolina at Greensboro

Boatsman, James R. (1986), KPMG Professor of Accountancy; BS, MS, Oklahoma State University; PhD, University of Texas at Austin

Boatsman, Joyce L. (1996), Lecturer of Accountancy; BS, Oklahoma State University; MTax, Arizona State University

Bodman, Denise (1996), Senior Lecturer of Family and Human Development; BS, MS, Arizona State University

Bogardus, Clifton (1992), Adjunct Professor of Life Sciences; MD, University of Rochester

Bogart, Quentin J. (1970), Professor Emeritus of Educational Leadership and Policy Studies; BA, MS, Fort Hayes State College; PhD, University of Texas at Austin

Boggs, Lohnie J. (1959–65; 1966), Professor Emeritus of Supply Chain Management; BS, MS, PhD, Ohio State University

Bohlander, George W. (1977), Professor Emeritus of Management; BA, San Francisco State College; MBA, University of Southern California; PhD, University of California, Los Angeles

Bohlman, Herbert M. (1964), Professor Emeritus of Supply Chain Management; BA, BS, Drake University; MBA, JD, Indiana University

Bolin, Robert (1997), Professor of Sociology; BA, PhD, University of Colorado

Bolton, Cynthia J. (1997), Senior Lecturer of Philosophy; BGS, University of Michigan; MA, PhD, Michigan State University

Bolton, Ruth N. (2004), Professor of Marketing; BComm, Queen's University; MSc, PhD, Carnegie-Mellon University

Bonanni, Domenico (1997), Associate Librarian, Hayden Reference Services; BA, University of Alberta (Canada); BA, Arizona State University; MLIS, Dalhousie University (Canada)

Bond-Robinson, Janet (2005), Associate Professor of Chemistry and Biochemistry; BS, Texas Lutheran College; MA, University of Texas; PhD, University of Iowa

Bontemps, Arna Alexander (2001), Associate Professor of African and African American Studies; BA, Fisk University; MA, Atlanta University; PhD, University of Illinois

Booksh, Karl S. (1996), Associate Professor of Chemistry and Biochemistry; BS, University of Alaska; PhD, University of Washington

Boone, Christopher G. (2006), Associate Professor of Anthropology; BA, Queen's University (Canada); MA, PhD, University of Toronto (Canada)

Booth, James R. (1980), Professor of Finance; BS, MA, PhD, University of Alabama

Boozer, James L. (1996), Faculty Associate of Planning

Boradkar, Prasad (2000), Assistant Professor of Industrial Design; BE, Maharaja Sayajirao University, Baroda (India); MDes, Industrial Design Centre, Bombay (India); MA, Ohio State University, Columbus

Borgo, Philip E. (1967), Professor Emeritus of Civil Engineering; BSCE, University of Cincinnati; MS, Ohio State University

Borovansky, Vladimir R. (1968), Librarian Emeritus, Collection Development; MLS, PhD, Charles University, Prague (Czechoslovakia)

Bortner, Peg (1979), Associate Professor of Justice and Social Inquiry; Director, Center for Urban Inquiry; BA, Edinboro State College; MA, Ohio University; PhD, Washington University

Borushko, Mark (1996), Faculty Associate of Planning; BS, Michigan State University; MBA, Arizona State University

Bossone, Michael (2004), Assistant Dean, Student Life and Development, College of Law; BA, University of Notre Dame; JD, New York University

Boswell, Jacquelyn (1982), Professor Emerita of Music; BME, Murray State University; MME, Louisiana State University; EdD, University of Illinois

Boulin Johnson, Leanor (1987), Professor of African and African American Studies; BS, East Tennessee State University; MS, PhD, Purdue University

Bowen, Benjamin (2003), Assistant Research Scientist of Bioengineering; BS, University of Arkansas; PhD, Arizona State University

Bowers, Charles O. (1948), Professor Emeritus of Music; BS, Southeast Missouri State College; MM, DMA, University of Rochester

Boyd, Brian (1996), Associate Professor of Management; BS, Suffolk University; MA, University of Connecticut; PhD, University of Southern California

Boyd, James H. (1976), Professor Emeritus of Accountancy; BBA, Texas Christian University; MS, Northeastern University; PhD, University of Texas at Austin; CPA, Texas

Boyd, Thomas A. (2002), Lecturer of Computer Science and Engineering; BA, Illinois State University; MS, PhD, Arizona State University

Boyer, Don L. (1988), Professor of Mechanical and Aerospace Engineering; BS, Rensselaer Polytechnic Institute; PhD, Johns Hopkins University

Boyer, Jay M. (1976), Professor of English; BA, Saint Louis University; MA, PhD, State University of New York, Buffalo

Boyes, William J. (1974), Professor of Economics; BS, Idaho State University; PhD, Claremont Graduate School

Boyle, Bernard M. (1969), Professor Emeritus of Architecture and Landscape Architecture; BArch, University of Sydney (Australia); MArch, MA, PhD, Yale University

Brack, O M Jr. (1973), Professor of English; BA, MA, Baylor University; PhD, University of Texas at Austin

Brada, Josef C. (1978), Professor of Economics; Director, International Business Studies; BS, MA, Tufts University; PhD, University of Minnesota, Twin Cities

Bramlett-Solomon, Sharon (1986), Associate Professor of Journalism and Mass Communication; BA, MA, Memphis State University; PhD, Indiana University, Bloomington

Brandon, Tedd A. (1981), Senior Research Professional of Bioengineering; Director, Animal Care Facility; BS, University of California, Davis

Brandt, Beverly K. (1987), Professor of Interior Design; BFA, University of Michigan; MA, Michigan State University; PhD, Boston University

Brandt, Elizabeth A. (1974), Professor of Anthropology; BA, Florida State University; MA, PhD, Southern Methodist University

Braun, J. Jay (1973), Professor Emeritus of Psychology; BA, University of Oregon; MA, PhD, Ohio State University

Brauner, Yariv (2004), Associate Professor of Law; JSD, LLM, New York University; LLB, Hebrew University (Israel)

Braunstein, Ethan (2004), Adjunct Professor of Anthropology; BS, MD, Northwestern University

Braver, Sanford L. (1970), Professor of Psychology; BA, Wayne State University; PhD, University of Michigan

Bray, Sandra (1987), Librarian Emerita, Technical Services Department; BA, Ottawa University; MLS, Indiana University, Bloomington

Brazel, Anthony J. (1974), Professor of Geography; Codirector, Executive Committee, Atmospheric Science; BA, MA, Rutgers, The State University of New Jersey; PhD, University of Michigan

Breckenridge, Jack D. (1962), Professor Emeritus of Art; BS, University of Wisconsin, Milwaukee; MFA, University of Iowa

Brem, Sarah Kate (1999), Associate Professor of Psychology in Education; AB, University of Chicago; MS, PhD, Northwestern University

Bremner, Andrew (1984), Professor of Mathematics and Statistics; BA, MA, University of Oxford (United Kingdom); PhD, University of Cambridge (United Kingdom)

Brenenstuhl, Daniel C. (1978), Professor Emeritus of Management; BS, MBA, Ohio University; MS, St. Bonaventure University; DBA, Indiana University

Brennan, Dean (2002), Faculty Associate of Planning; BS, Iowa State University; MPA, Arizona State University

Brewer, Naala (2004), Lecturer of Mathematics and Statistics; BS, College of Charleston; MS, Georgia Institute of Technology; PhD, University of Kansas

Brewis, Alexandra A. (2006), Professor of Anthropology; BA, MA, University of Auckland (New Zealand); PhD, University of Arizona

Briggs, John M. (1999), Professor of Life Sciences; Director, Executive Committee, Geographic Information Science; BS, MSc, Pittsburg State University; PhD, University of Arkansas

Briggs, Ron D. (2004), Lecturer of Chemistry and Biochemistry; BS, University of California, San Diego; MA, San Diego State University; PhD, University of California, San Diego, and San Diego State University

Briley, Lane D. (1970), Associate Research Professional of Chemistry and Biochemistry; BA, Arizona State University

Brink, Jean R. (1974), Professor Emerita of English; BA, Northwestern University; MA, Harvard University; PhD, University of Wisconsin, Madison

Britton, Daniel R. (1976), Professor of Art; BFA, MFA, University of Colorado

Britton, David (1987), Professor of Music; BM, North Texas State University

Broadley, Hugh T. (1969), Professor Emeritus of Art; AB, Park College; MA, Yale University; PhD, New York University

Broman, Tannah (2003), Lecturer of Kinesiology; BA, New Mexico State University; MS, Arizona State University

Brooks, Daniel G. (1981), Associate Professor of Supply Chain Management; Director, Executive MBA Program; BS, MS, Colorado School of Mines; MBA, PhD, Indiana University, Bloomington

Brooks, Kenneth R. (2004), Professor of Landscape Architecture; Associate Dean for Academic Affairs, College of Design; BS, Colorado State University; MLA, Utah State University

Brooks, Talbot (2001), Assistant Research Professional of Geography; Network Administrator; BS, Rochester Institute of Technology; MS, Arizona State University

Broome, Benjamin J. (1999), Professor of Communication; BA, University of Georgia; MA, PhD, University of Kansas

Brophy, Colleen (2000), Research Professor of Bioengineering; BS, MD, University of Utah

Brouwer, Daniel C. (2000), Assistant Professor of Communication; BSc, Ohio University; MA, PhD, Northwestern University

Brown, Alan R. (1968), Associate Professor of Education; BA, MA, California State University, Los Angeles; PhD, University of Texas at Austin

Brown, Claudia (1998), Associate Professor of Art and History; Director, Center for Asian Studies; BA, MA, MPhil, PhD, University of Kansas

Brown, David E. (1993), Adjunct Professor of Life Sciences; BA, San Jose State College

Brown, Duane (1950), Professor Emeritus of Chemistry and Biochemistry; BS, Brigham Young University; PhD, Cornell University

Brown, Eddie F. (2004), Professor of American Indian Studies; Director, American Indian Studies Program; BS, Brigham Young University; MSW, DSW, University of Utah

Brown, Jean C. (1991), Clinical Associate Professor of Speech and Hearing Science; BS, University of Montevallo; MA, University of Tennessee; MSW, PhD, Arizona State University

Brown, Stephen W. (1974), Professor of Marketing; Edward M. Carson Chair of Services Marketing; Executive Director, Center for Services Leadership; BS, MBA, PhD, Arizona State University

Brown, Steven (2003), Senior Lecturer of Supply Chain Management; BS, Trinity University; MBA, Abilene Christian University

Brown, Theodore M. (1963), Professor Emeritus of Chemistry and Biochemistry; BS, MS, University of Toledo; PhD, Iowa State University

Bruhn, Karen (1998), Honors Faculty Fellow; BA, City University of New York; MA, PhD, University of North Carolina at Chapel Hill

Brune, Daniel C. (1986), Senior Research Professional of Chemistry and Biochemistry; BA, University of Kansas; PhD, Indiana University, Bloomington

Brungart, Jennifer (2002), Assistant Professor of Visual Communication Design; BS, University of Cincinnati; MGD, North Carolina State University

Brunning, Dennis R. (1984), Librarian, Collection Development; BA, University of Iowa; MA, MLS, University of Illinois

Bryan, Harvey (1999), Professor of Architecture and Landscape Architecture; BArch, Arizona State University; MArch, MSc, PhD, University of California, Berkeley

Bryan, Karen M. (1997), Assistant Professor of Music; Associate Director, Undergraduate Studies, School of Music; BM, Georgia State University, Atlanta; MA, University of Georgia, Atlanta; PhD, Indiana University, Bloomington

Bryan, Tanis (1992), Adjunct Professor of Speech and Hearing Science; BS, MA, PhD, Northwestern University

Bryant, Edwin H. (2000), Adjunct Professor of Life Sciences; AB, California State University; PhD, University of Kansas

Bryant, Fred O. (1950), Professor Emeritus of Kinesiology; BS, Springfield College; MS, University of Illinois; EdD, Arizona State University

Buck, Elizabeth (2000), Associate Professor of Flute; BA, MM, The Juilliard School; DMA, Rice University

Buck, Nancy (2002), Associate Professor of Music; BM, Oberlin College; MM, The Cleveland Institute of Music

Buckingham, Willis J. (1969), Professor Emeritus of English; AB, Harvard University; MS, University of Wisconsin, Madison; PhD, Indiana University

Buikstra, Jane E. (2005), Professor of Anthropology; BA, Depauw University; MA, PhD, University of Chicago

Buley, Jerry L. (1973), Professor Emeritus of Communication; BA, University of Colorado; MA, Michigan State University; PhD, Florida State University

Buneo, Christopher A. (2005), Assistant Professor of Bioengineering; BS, MS, Long Island University; PhD, University of Minnesota

Burdick, Richard K. (1976), Professor Emeritus of Economics; BS, University of Wyoming; MS, PhD, Texas A&M University

Burg, B. Richard (1967), Professor of History; BA, University of Colorado; MA, Western State College of Colorado; PhD, University of Colorado

Burgess, Paul L. (1969), Professor of Economics; BA, PhD, University of Colorado

Burgoyne, Edward E. (1951), Professor Emeritus of Chemistry and Biochemistry; BS, Utah State University; MS, PhD, University of Wisconsin, Madison

Burke, Janet M. (1996), Assistant Administrative Professional, Barrett Honors College; Associate Dean, National Scholarship Advisement and Student Internships, Barrett Honors College; BA, Wells College; MA, Syracuse University; PhD, Arizona State University

Burke, Rebecca J. (1981), Librarian Emerita; BA, San Jose State University; MLS, University of Arizona

Burke, William F. Jr. (1977), Professor of Life Sciences; BA, University of Dallas; MS, North Texas State University; PhD, Arizona State University

Burnette, Wendell (2000), Assistant Professor of Architecture and Landscape Architecture

Burns, Elizabeth K. (1983), Professor Emerita of Geography; BA, Smith College; MA, PhD, University of California, Berkeley

Burrows, Veronica (1986), Associate Professor of Chemical Engineering; BS, Drexel University; PhD, Princeton University

Burstein, David (1982), Professor of Physics and Astronomy; BA, Wesleyan University; PhD, University of California, Santa Cruz

Burt, Donald M. (1974), Professor of Geological Sciences; AB, Princeton University; AM, PhD, Harvard University

Burton, Dora (1976), Professor Emerita of Russian; MD, First Leningrad and Kazan Medical Institute (Russia); MA, PhD, University of Washington

Burton, Foster M. (1969), Professor Emeritus of Construction; BSCE, BS, Carnegie Institute of Technology; MBA, New York University; PhD, University of Pittsburgh

Buseck, Peter R.
(1963)
Regents' Professor of Chemistry and Biochemistry and Geological Sciences; BA, Antioch College; MA, PhD, Columbia University

Bush, Jeffrey E. (1997), Associate Professor of Music Education; BM, MM, Northern Illinois University, De Kalb; PhD, University of Arizona

Butterworth, Charles A. (2005), Adjunct Professor of Life Sciences; BS, Reading University (United Kingdom); PhD, Iowa State University

C

Cabana, Graciela S. (2003), Adjunct Professor of Anthropology; BA, University of California, Berkeley; MA, PhD, University of Michigan

Cabianca, William A. (1967), Professor Emeritus of Psychology in Education; BEd, Gonzaga University; MEd, PhD, Washington State University

Cady, Linell E. (1983), Professor of Religious Studies; Director, Center for the Study of Religion and Conflict; BA, Newton College; MTS, ThD, Harvard University

Calhoun, Ronald J. (2001), Assistant Professor of Mechanical and Aerospace Engineering; BS, MS, PhD, Stanford University

Calkins, Jerry M. (1992), Adjunct Professor of Bioengineering; BSChE, MSChE, University of Wyoming; PhD, University of Maryland, College Park; MD, University of Arizona

Callahan, Christopher (2005), Professor of Journalism and Mass Communication; Dean, Walter Cronkite School of Journalism and Mass Communication; BS, Boston University; MPA, Harvard University

Callarman, Thomas E. (1980), Associate Professor of Supply Chain Management; BBA, West Texas State University; MBA, Arizona State University; PhD, Purdue University

Calleros, Charles R. (1980), Professor of Law; BA, University of California, Santa Cruz; JD, University of California, Davis

Calliss, Debra (2004), Lecturer of Computer Science and Engineering; BS, MS, PhD, Arizona State University

Cam, Hasan (2001), Assistant Professor of Computer Science and Engineering; BS, MS, Istanbul Technical University (Turkey); PhD, Purdue University

Cameron, Theresa (1997), Associate Professor of Planning; BA, State University of New York, Buffalo; MUP, University of Michigan; DDes, Harvard University

Campbell, Andrew (2002), Assistant Professor of Music; BA, BM, Oberlin College; MM, Indiana University; DMA, University of Michigan

Canary, Daniel J. (1999), Professor of Communication; BA, MA, California State University, Fullerton; MA, PhD, University of Southern California

Candan, Kasim Selcuk (1997), Associate Professor of Computer Science and Engineering; BS, Bilkent University (Turkey); PhD, University of Maryland, College Park

Candela, Giuseppe (1995), Associate Professor of Italian; MA, PhD, University of Wisconsin

Candelaria, Cordelia Chavez
(1992)
Regents' Professor of Chicana and Chicano Studies and English; BA, Fort Lewis College; MA, PhD, University of Notre Dame

Cannella, Albert (2004), The Hahnco Companies Professor of Management; Chair, Department of Management; BS, Tennessee Technological University; MBA, University of Northern Iowa; PhD, Columbia University

Cannella, Gaile (2004), Professor of Curriculum and Instruction; BS, MA, Tennessee Technological University; EdD, University of Georgia

Canovas, Frédéric (1999), Associate Professor of French; Diplôme d'Études Universitaires Générales de Lettres Modernes, Maîtrise de Lettres Modernes, Diplôme d'Études Approfondies de Lettres Modernes, Lyon University (France); PhD, University of Oregon

Canright, James E. (1964), Professor Emeritus of Life Sciences; BA, Miami University; AM, PhD, Harvard University

Cao, Yu (Kevin) (2004), Assistant Professor of Electrical Engineering; BS, Peking University (China); MA, PhD, University of California, Berkeley

Capco, David G. (1984), Professor of Life Sciences; BS, Edinboro State College; MS, University of Houston; PhD, University of Texas at Austin

Caplan, Michael R. (2002), Assistant Professor of Bioengineering; BA, BS, University of Texas at Austin; PhD, Massachusetts Institute of Technology

Cardineau, Guy A. (2003), Research Professor of Life Sciences and Faculty Fellow, Center for the Study of Law, Science, and Technology; BS, Auburn University; PhD, University of Alabama, Birmingham

Cardy, Robert L. (1988), Professor of Management; BS, Central Michigan University; PhD, Virginia Polytechnic Institute and State University

Carlson, A. Cheree (1988), Professor of Communication; BA, MA, Colorado State University; PhD, University of Southern California

Carlson, Ingeborg L. (1964), Professor Emerita of German; Abitur, Hölderlin School (Germany); Vorsemester and cand.phil., University of Heidelberg (Germany); Dr. phil., University of Erlangen-Nuremberg (Germany)

Carlson, John (2005), Assistant Professor of Religious Studies; BA, Vanderbilt University; AM, PhD, University of Chicago

Carlson, Marilyn P. (1995), Professor of Mathematics and Statistics; Interim Director, Center for Research on Education in Science, Mathematics, Engineering, and Technology; BS, Central Missouri State University; MS, PhD, University of Kansas

Carlson, Ron
(1986)
Regents' Professor of English; BA, MA, University of Utah

Carney, James D. (1967), Professor Emeritus of Philosophy; BA equivalent, Northern Baptist Theological Seminary; MA, Roosevelt University; PhD, University of Nebraska, Lincoln

Carpenter, Ellon D. (1988), Associate Professor of Music; BA, Denison University; MA, Kent State University; PhD, University of Pennsylvania

Carpenter, Ray W. (1981), Professor of Solid State Science; BS, MS, PhD, University of California, Berkeley

Carr, Christopher (1985), Professor of Anthropology; BA, University of Illinois; MA, PhD, University of Michigan

Carroll, Steven (1985), Professor Emeritus of Life Sciences; BS, Tulane University; MS, Oregon State University; PhD, University of Oregon

Carter, Joseph R. (1991), Avnet Professor of Supply Chain Management; Chair, Department of Supply Chain Management; BS, MBA, Northeastern University; PhD, Boston University

Carter, Phillip L. (1995), Professor of Supply Chain Management; Harold E. Fearon Chair, Purchasing Management; Director, Center for Advanced Purchasing Studies; BSEE, Rose-Hulman Institute of Technology; MBA, DBA, Indiana University

Carver, George L. (1965), Professor Emeritus of Classical Languages; BA, MA, University of Texas at Austin; STB, Saint Mary's Seminary; PhD, Saint Louis University

Caryl, James (2003), Assistant Professor of Military Science; Business Manager, Department of Military Science; BS, Arizona State University

Casanova, Ursula (1987), Professor Emerita of Educational Leadership and Policy Studies; BA, Hunter College; MS, State University of New York, Brockport; PhD, Arizona State University

Casavantes, Michael D. (1990), Lecturer of Journalism and Mass Communication; BA, University of Texas, El Paso; MA, New Mexico State University

Case, James L. (1969), Professor Emeritus of Speech and Hearing Science; BS, Weber State College; MS, PhD, University of Utah

Cashman, Holly (2001), Assistant Professor of Spanish; BA, Hood College; MA, PhD, University of Michigan, Ann Arbor

Cassidy, Virginia L. (1988), Librarian Emerita; AB, Oberlin College; MLS, Pratt Institute

Castaneda, Eddie (1990), Associate Professor of Psychology; BS, MA, University of Texas, El Paso; PhD, University of Michigan

Castillo-Chavez, Carlos
(2004)
Regents' Professor of Mathematics and Statistics; BS, University of Wisconsin, Stevens Point; MS, University of Wisconsin, Milwaukee; PhD, University of Wisconsin, Madison

Castle, Gregory (1992), Associate Professor of English; BA, California State University, Fresno; MA, PhD, University of California, Los Angeles

Castro, Felipe G. (1991), Professor of Psychology; BA, University of California, Santa Barbara; MSW, University of California, Los Angeles; PhD, University of Washington

Cate, Heather E. (1995), Academic Associate; BA, University of New Hampshire, Durham; MA, Arizona State University

Caterino, Linda C. (2005), Clinical Associate Professor of Psychology in Education; Interim Training Director, School Psychology Program; BA, Fordham University; MA, PhD, Arizona State University

Cavanaugh, Carolyn J. (1996), Academic Associate of Psychology; AB, Duke University; PhD, Arizona State University

Cavender, Gray (1977), Professor of Justice and Social Inquiry; BS, University of Tennessee; MS, Middle Tennessee State University; PhD, Florida State University; JD, University of Tennessee, Knoxville

Cerveny, Randall S.
(1986)
President's Professor of Geography; BS, MA, PhD, University of Nebraska, Lincoln

Cesta, John R. (1975), Associate Professor of Finance; BS, Capital University; MBA, PhD, Florida State University

Cevette, Michael J. (1989), Adjunct Professor of Speech and Hearing Science; BA, University of Nevada, Las Vegas; MS, Utah State University; PhD, University of Utah

Chade, Hector (1997), Associate Professor of Economics; Licenciado en Economia, National University of Cuyo (Argentina); MS, PhD, University of Illinois, Urbana-Champaign

Chae, Junseok (2005), Assistant Professor of Electrical Engineering; BS, Korea University (South Korea); MS, PhD, University of Michigan

Chakrabarti, Chaitali (1990), Professor of Electrical Engineering; BTech, Indian Institute of Technology (India); MS, PhD, University of Maryland, College Park

Chamberland, Bertrand L. (1995), Adjunct Professor of Chemistry and Biochemistry; BA, St. Anselm's College; PhD, University of Pennsylvania

Chamberlin, Ralph V. (1986), Professor of Physics and Astronomy; BS, University of Utah; MS, PhD, University of California, Los Angeles

Chambers, Anthony (1998), Professor of Japanese; BA, Pomona College; MA, Stanford University; PhD, University of Michigan

Chance, John K. (1987), Professor of Anthropology; AB, University of Pennsylvania; AM, PhD, University of Illinois

Chandler, Douglas E. (1980), Professor of Life Sciences; BS, University of Rochester; MA, Johns Hopkins University; PhD, University of California, San Francisco

Chang, Yung (1996), Associate Professor of Life Sciences; MD, Beijing Medical College (China); PhD, University of Iowa

Chapuis, Jean-Charles (1991), Senior Research Professional, Cancer Research Institute; BS, PhD, University of Lausanne (Switzerland)

Chaput, John (2004), Assistant Professor of Chemistry and Biochemistry; BS, Creighton University; MS, PhD, University of California, Riverside

Chartier, George M. (1971), Professor Emeritus of Psychology; BS, University of Illinois; MA, PhD, University of Oregon

Chasey, Allan D. (1995), Associate Professor of Construction; BS, Arizona State University; MS, Air Force Institute of Technology; PhD, Virginia Polytechnic Institute and State University

Chasey, Eugene F. (1965), Professor Emeritus of Education; BS, Northwestern State College; MA, Colorado State College; EdD, University of Wyoming

Chassin, Laurie (1979), Professor of Psychology; BA, Brown University; MS, PhD, Columbia University

Chatha, Karamvir (2001), Assistant Professor of Computer Science and Engineering; BSE, University of Bombay (India); MS, PhD, University of Cincinnati

Chattin, Linda L. (2005), Lecturer of Industrial Engineering; BS, State University of New York, Buffalo; MS, University of Southern California; PhD, State University of New York, Buffalo

Chattopadhyay, Aditi (1990), Professor of Mechanical and Aerospace Engineering; MS, PhD, Georgia Institute of Technology

Chaudhuri, Joyotpaul (1985), Professor Emeritus of Political Science; BA, Central State University, Oklahoma; MA, PhD, University of Oklahoma

Chawla, Nikhilesh (2000), Associate Professor of Materials Engineering; BS, New Mexico Institute of Mining and Technology; MS, University of Tennessee, Knoxville; PhD, University of Michigan, Ann Arbor

Chen, Jiunn-Liang (2004), Assistant Professor of Chemistry and Biochemistry and Life Sciences; BS, National Cheng-Kung University (China); PhD, Indiana University, Bloomington

Chen, Kang Ping (1991), Associate Professor of Engineering; BS, Peking University (China); PhD, University of Minnesota, Twin Cities

Chen, Sandy (2003), Assistant Librarian, Technical Services Department; BA, Fu Jen Catholic University (Taiwan); MA, University of Missouri; MLS, Emporia State University

Chen, Shu-Chuan (2004), Assistant Professor of Mathematics and Statistics; BS, National Chung-Hsing University (Taiwan); MS, National Donghwa University (Taiwan); PhD, Pennsylvania State University

Chen, Stanley S. (1967), Professor Emeritus of Engineering; Diploma, Taipei Institute of Technology (Taiwan); MS, Ohio University; PhD, University of Wisconsin, Madison

Chen, Yi (2005), Assistant Professor of Computer Science and Engineering; BS, Central South University (China); MS, PhD, University of Pennsylvania

Chen, Ying (2005), Assistant Professor of Economics; BA, Beijing University (China); MA, PhD, Yale University

Chen, Yinong (2001), Senior Research Scientist of Computer Science and Engineering; BS, MS, Chongqing University (China); PhD, University of Karlsruhe (Germany)

Chen, Yongsheng (2003), Associate Research Professor of Civil and Environmental Engineering; BSE, Northern China Institute of Technology (China); MS, PhD, Nankai University (China)

Childress, Nancy (1991), Associate Professor of Mathematics and Statistics; BS, BSEd, MS, PhD, Ohio State University

Chin, Michelle (2001), Assistant Professor of Political Science; BS, Andrews University; MA, PhD, Texas A&M University

Chizmeshya, Andrew V.G. (1994), Associate Research Scientist, Center for Solid State Science; BS, University of Toronto (Canada); MSc, PhD, Queen's University, Kingston (Canada)

Chlistowa, Xenia (1980), Professor Emerita of Dance

Chodorow, Adam (2004), Associate Professor of Law; BA, Yale College; MA, JD, University of Virginia; LLM, New York University

Choi, Hyaeweol (1998), Associate Professor of Korean; BA, MA, Yonsei University (South Korea); PhD, State University of New York, Buffalo

Choi, Thomas (1998), Professor of Supply Chain Management; AB, University of California, Berkeley; PhD, University of Michigan

Chou, Ju-Hsi (1975), Professor Emeritus of Art; BA, University of Kentucky; MA, PhD, Princeton University

Chowdhury, Uttiya (2004), Assistant Research Professor of Chemical and Materials Engineering; BS, Bangladesh University of Engineering and Technology (India); MS, PhD, University of Texas at Austin

Christensen, Philip R.
(1987)
Regents' Professor of Geological Sciences; Edgar and Helen Korrick Presidential Professor; BS, MS, PhD, University of California, Los Angeles

Christian, Charles W. (1985), Professor of Accountancy; Director, School of Accountancy; BBA, University of Georgia; JD, University of Virginia; PhD, University of Georgia

Christie, James F. (1988), Professor of Curriculum and Instruction; BA, University of California, Berkeley; MA, Syracuse University; PhD, Claremont Graduate School

Christine, Carol J. (1998), Clinical Assistant Professor of Curriculum and Instruction; Associate Division Director, Initial Teacher Certification; BA, MA, Arizona State University; PhD, University of Arizona

Christopher, F. Scott (1986), Professor of Family and Human Development; BS, MS, University of Nebraska; PhD, Oregon State University

Chubrich, Robert E. (1971), Professor Emeritus of Speech and Hearing Science; BA, Grinnell College; MA, Indiana University, Bloomington; PhD, State University of New York, Buffalo

Church, Kathleen K. (1969), Professor of Life Sciences; Vice Provost; BS, MA, University of Utah; PhD, University of California, Berkeley

Cialdini, Robert B.
(1971)
Regents' Professor of Psychology; BS, University of Wisconsin, Milwaukee; MA, PhD, University of North Carolina at Chapel Hill

Cichacz, Zbigniew A. (1989), Associate Research Professor, Cancer Research Institute; MSc, PhD, Institute of Organic and Physical Chemistry (Poland)

Claiborn, Charles D. (1990), Professor of Psychology in Education; AB, University of Missouri; MA, Ohio State University; PhD, University of Missouri

Clark, Caroline (1999), Faculty Associate of Visual Communication Design; BFA, Arizona State University

Clark, Doug (2002), Assistant Professor of Curriculum and Instruction; BA, University of North Carolina at Chapel Hill; MA, Stanford University; PhD, University of California, Berkeley

Clark, Geoffrey A.
(1971)
Regents' Professor of Anthropology; BA, MA, University of Arizona; PhD, University of Chicago

Clark, Lawrence T. (2004), Associate Professor of Electrical Engineering; BS, Northern Arizona University; MS, PhD, Arizona State University

Clark, Robert C. (1981), Professor Emeritus of Music; BMus, Central Methodist College; SMM, Union Theological Seminary

Clark, William Dennis (1976), Associate Professor of Life Sciences; BA, Sacramento State College; PhD, University of Texas at Austin

Clark-Curtiss, Josephine (2004), Professor of Life Sciences; BS, St. Mary's College; PhD, Medical College of Georgia

Clarke, Amanda B. (2003), Assistant Professor of Geological Sciences; BS, BA, University of Notre Dame; PhD, The Pennsylvania State University

Clay, J. Eugene (1993), Associate Professor of Religious Studies; AB, AM, PhD, University of Chicago

Clemens, Katherine (2004), Assistant Librarian; BS, Nazareth College of Rochester; MLS, Florida State University

Clinton, Robert N. (2001), Professor of Law; BA, University of Michigan; JD, University of Chicago

Clothier, Ronald R. (1955), Professor Emeritus of Life Sciences; AB, Fresno State College; MA, Montana State University; PhD, University of New Mexico

Cobas, José A. (1975), Professor of Sociology; BA, Maryville College; MA, University of Tennessee, Knoxville; PhD, University of Texas at Austin

Cocchiarella, Martha (1998), Lecturer of Curriculum and Instruction; BA, MEd, PhD, Arizona State University

Cochran, Douglas (1989), Associate Professor of Electrical Engineering; MA, University of California, San Diego; PhD, Harvard University

Cochran, Jeffery K. (1984), Professor of Industrial Engineering; BSE, MSNE, MSIE, PhD, Purdue University

Cocke, Robert D. (1983), Professor Emeritus of Art; BFA, University of Arizona; MFA, University of Iowa

Codell, Julie F. (1991), Professor of Art; AB, Vassar College; MA, University of Michigan; MA, PhD, Indiana University

Coffman, David (2005), Clinical Assistant Professor of Theatre; Production Manager, School of Theatre and Film; BA, University of Arizona; MFA, University of Iowa

Coghlan, William A. (1990), Adjunct Professor of Chemical Engineering; BS, Montana College of Mineral Science and Technology; MS, PhD, Stanford University

Cohen, Stewart M. (1989), Professor of Philosophy; Chair, Department of Philosophy; BA, Wayne State University; MA, University of California, Santa Barbara; PhD, University of Arizona

Cohn, Sanford J. (1979), Associate Professor of Curriculum and Instruction; BA, MEd, PhD, Johns Hopkins University

Colbert, Charles R. (1998), Academic Associate of American Indian Studies; BS, Northeastern Oklahoma State University; MA, EdD, Arizona State University

Colbourn, Charles (2001), Professor of Computer Science and Engineering; BSc, University of Toronto (Canada); MMath, University of Waterloo (Canada); PhD, University of Toronto (Canada)

Colby, Arthur L. (1965), Professor Emeritus of English; BA, University of Massachusetts, Amherst; MA, PhD, University of North Carolina at Chapel Hill

Colby, Barbara F. (1973), Academic Associate; BA, University of Massachusetts, Amherst; MA, Arizona State University

Coleman, Vicki (2004), Librarian; Associate Dean, Library Services; BS, North Carolina Agricultural and Technical State University; MILS, University of Michigan

Coles, Jeffrey L. (1994), Professor of Finance; Chair, Department of Finance; BA, Pomona College; PhD, Stanford University

Colina, Sonia (1997), Associate Professor of Spanish; BA, University of Compostela (Spain); MA, Southern Illinois University, Carbondale; MA, State University of New York, Binghamton; PhD, University of Illinois, Urbana-Champaign

Collins, Daniel L. (1989), Professor of Art; BA, University of California, Davis; MA, Stanford University; MFA, University of California, Los Angeles

Collins, James P. (1975), Virginia M. Ullman Professor of Natural History and the Environment; Professor of Life Sciences; BS, Manhattan College; MS, PhD, University of Michigan

Collins, Scott L. (2001), Adjunct Professor of Life Sciences; BA, Wittenberg University; MS, Miami University; PhD, University of Oklahoma

Collofello, James S. (1979), Professor of Computer Science and Engineering; Associate Chair for Undergraduate Programs, Department of Computer Science and Engineering; BS, MS, Northern Illinois University; PhD, Northwestern University

Comeaux, Malcolm L. (1969), Professor Emeritus of Geography; BA, University of Southwestern Louisiana; MA, Southern Illinois University, Carbondale; PhD, Louisiana State University, Baton Rouge

Comfort, Joseph R. (1981), Professor of Physics and Astronomy; AB, Ripon College; MS, PhD, Yale University

Comprix, Joseph (2000), Assistant Professor of Accountancy; BS, Ohio State University; PhD, University of Illinois, Urbana-Champaign

Congdon, Justin D. (2000), Adjunct Professor of Life Sciences; BS, MS, California State Polytechnic University; PhD, Arizona State University

Conrad, Cheryl D. (1997), Associate Professor of Psychology; BS, University of California, Irvine; PhD, University of Illinois, Urbana-Champaign

Conrow, Jane A. (1968), Associate Dean Emerita, Library Services; BA, MLS, Indiana University, Bloomington

Cook, Edward A. (1985), Associate Professor of Architecture and Landscape Architecture; BSLA, Washington State University; MLA, Utah State University; PhD, Wageningen University (Netherlands)

Cook, Paul (1987), Senior Lecturer of English; BA, Northern Arizona University; MA, Arizona State University; PhD, University of Utah

Cook, Phil A. (1963), Professor Emeritus of Education; BA, Southwestern Oklahoma State College; MA, Colorado State College; EdD, University of Kansas

Cook, Suzanne M. (1974), Professor Emerita of Management; BBA, MBA, DBA, Texas Tech University

Coombs, Toni (2002), Lecturer of Mathematics and Statistics; BS, MS, Arizona State University

Corder, Brice W. (1971), Professor Emeritus of Kinesiology; BA, Lynchburg College; MEd, EdD, Temple University

Corey, Constance H. (1973), Librarian Emerita; BA, Denison University; MLS, University of Arizona; MBA, Arizona State University

Corley, Kevin G. (2005), Assistant Professor of Management; BS, Miami University; PhD, Pennsylvania State University

Corman, Steven R. (1987), Professor of Communication; BS, Illinois State University; MA, PhD, University of Illinois

Corral, Karen (1996), Assistant Professor of Computer Information Systems; BA, University of Michigan; MS, PhD, Arizona State University

Corse, Taylor (1989), Associate Professor of English; BA, Florida State University; MA, University of Michigan; PhD, University of Florida

Cosand, Walter A. (1976), Professor of Music; BM, MM, University of Rochester

Cota-Cárdenas, Margarita (1981), Professor Emerita of Spanish; BA, California State University, Turlock; MA, University of California, Davis; PhD, University of Arizona

Couch, Sanford C. (1962), Professor Emeritus of Russian; BA, MA, PhD, University of Wisconsin, Madison

Coudart, Anick (2004), Adjunct Professor of Anthropology; BA, University of Paris, Sorbonne (France); MA, PhD, University of Paris I, Panthéon-Sorbonne (France)

Coursen, Jerry (1987), Senior Lecturer of Bioengineering; BS, MS, Arizona State University; PhD, University of Arizona

Cowgill, George L. (1990), Professor Emeritus of Anthropology; AM, University of Chicago; PhD, Harvard University

Cowley, Anne P. (1983), Professor of Physics and Astronomy; BA, Wellesley College; MS, PhD, University of Michigan

Cox, Ronnie R. (1987), Clinical Associate Professor of African and African American Studies; BS, Fayetteville University; MS, University of North Carolina; PhD, University of Tennessee

Craft, Emalee (2004), Assistant Librarian, Noble Science Reference Service; BA, MLS, University of Alabama

Craft, John E. (1973), Professor of Journalism and Mass Communication; BFA, MA, PhD, Ohio University

Crafts-Brandner, Steven (1996), Adjunct Professor of Life Sciences; BS, Western Kentucky University; MS, PhD, University of Illinois

Crawford, John E. (1980), Professor Emeritus of Communication; BA, Nebraska Wesleyan University; MA, Sacramento State College; PhD, University of Southern California

Crawford, Neil (1997), Adjunct Professor of Bioengineering; BS, University of California, Berkeley; MS, PhD, Arizona State University

Creath, J. Richard (1974), Professor of Life Sciences and Philosophy; BA, Knox College; MA (Philosophy), MA (History and Philosophy of Science), PhD, University of Pittsburgh

Creighton, Judith M. (1967), Professor Emerita of Family and Human Development; BS, University of Arizona; MS, MC, Arizona State University; PhD, University of Arizona

Crewe, Katherine (1998), Associate Professor of Planning; BA, Rhodes University (South Africa); MLA, University of California, Berkeley; PhD, University of Massachusetts, Amherst

Crimm, Nina (2004), Visiting Professor of Law; AB, Washington University; MBA, JD, Tulane University; LLM, Georgetown University

Crittenden, John C. (2004), Richard Snell Presidential Chair Professor of Civil and Environmental Engineering; BSE, MSE, PhD, University of Michigan, Ann Arbor

Crittenden, W. Jackson (1988), Associate Professor of Political Science; BA, Tufts University; MEd, Harvard University; DPhil, University of Oxford (United Kingdom)

Crnic, Keith A. (2004), Foundation Professor of Psychology; Chair, Department of Psychology; BA, University of Southern California; PhD, University of Washington

Croft, Lee B. (1973), Professor of Russian; BS, Arizona State University; MA, University of Arizona; PhD, Cornell University

Cromarty, Ross (1998), Faculty Associate of Planning; BA, C.W. Post College of Long Island University; MEP, PhD, Arizona State University

Cronin, John R. (1966), Professor Emeritus of Chemistry and Biochemistry; BA, College of Wooster; PhD, University of Colorado

Cronkite, Walter (1986), Professor of Journalism and Mass Communication

Crook, Sharon (2004), Assistant Professor of Life Sciences and Mathematics and Statistics; BS, University of Southern Mississippi; MA, PhD, University of Maryland, College Park

Cross, James (1986), Adjunct Professor of Art; BA, University of California, Los Angeles

Crotty, Mike (2004), Senior Lecturer of Music; BM, Berklee College of Music

Crouch, Peter E. (1985), Professor of Electrical Engineering; Dean, Ira A. Fulton School of Engineering; BS, MS, University of Warwick (United Kingdom); PhD, Harvard University

Crowder, Troy F. (1970), Professor Emeritus of Journalism and Mass Communication; BA, University of South Dakota; MA, University of Iowa

Crowe, Barbara J. (1981), Professor of Music; Director, Music Therapy; BM, MM, Michigan State University

Crowley, Sharon (1998), Professor of English; BA, MA, University of Nebraska, Lincoln; PhD, University of Northern Colorado

Crozier, Peter A. (1987), Senior Research Scientist, Center for Solid State Science; BSc, PhD, University of Glasgow (United Kingdom)

Cruse, Markus (2005), Assistant Professor of French; BA, Amherst College; MA, PhD, New York University

Cruz, Evelyn (2005), Associate Clinical Professor of Law; Director, Immigration Clinic; BA, University of California, Santa Cruz; JD, Santa Clara University School of Law

Cruz-Torres, Maria L. (2005), Associate Professor of Global Studies and Women and Gender Studies; BS, University of Puerto Rico, Humacao (Puerto Rico); MA, PhD, Rutgers, The State University of New Jersey

Cuciurean, John Daniel (2003), Assistant Professor of Music Theory; BEng, McMaster University, Ontario (Canada); BM, Royal Conservatory of Music, Toronto (Canada); PhD, State University of New York

Culbertson, Robert J. (1991), Associate Professor of Physics and Astronomy; BS, Kent State University; PhD, Pennsylvania State University, University Park

Curran, Mark (1968), Professor Emeritus of Spanish and Portuguese; BS, Rockhurst College; PhD, Saint Louis University

Curtiss, Roy III (2004), Professor of Life Sciences; BS, Cornell University; PhD, University of Chicago

Cutler, Lorraine M. (1991), Associate Professor of Interior Design; Chair, School of Interior Design; BA, BFA, Arizona State University; MA, University of Phoenix

Cutrara, Dan (2005), Lecturer of English; BA, University of Florida; MFA, University of Southern California

Cutter, Robert Joe (2005), Professor of Chinese Studies; Chair, Department of Languages and Literatures; BA, MA, University of Arizona; PhD, University of Washington

Cvorovic, Jelena (2002), Adjunct Professor of Anthropology; BA, MA, Belgrade University of Philosophy (Serbia); PhD, Arizona State University

Czygrinow, Andrzej M. (1999), Assistant Professor of Mathematics and Statistics; MS, Adam Mickiewicz University (Poland); MS, PhD, Emory University

D

D'Alesandro, Anthony J. (2004), Lecturer of Mathematics and Statistics; BA, MS, Rutgers, The State University of New Jersey; MS, University of Cincinnati

D'Andrea, Frank L. (1972), Professor Emeritus of Music; BA, MA, EdD, Columbia University

D'Angelo, Frank J. (1970), Professor Emeritus of English; BS, Loyola University, New Orleans; MA, Tulane University; PhD, University of Nebraska, Lincoln

Daane, Calvin J. (1963), Professor Emeritus of Psychology in Education; BS, University of Wisconsin, Madison; MA, Columbia University; EdD, Indiana University, Bloomington

Dagger, Richard K. (1976), Professor of Political Science; BA, University of Missouri, St. Louis; PhD, University of Minnesota, Twin Cities

Dahl, Richard C. (1966), Professor Emeritus of Law; BA, BLS, University of California, Berkeley; JD, Catholic University of America

Daley, Timothy (2005), Adjunct Professor of Life Sciences; BS, MD, University of Nebraska Medical Center

Dalgleish, Donald D. (1962), Professor Emeritus of Military Science; BA, Carleton College; MA, Columbia University; PhD, University of Colorado

Dallyn, Selwyn L. (1983), Clinical Professor of Law; BA, Graceland College; JD, University of Iowa

Dalton, Kevin Andrew (1994), Honors Faculty Fellow; BA, Columbia University; MPhil, University of Oxford (United Kingdom); PhD, University of Virginia

Damgaard, Anni (1995), Instructor of Sociology; BS, California State University, Long Beach; MA, PhD, Arizona State University

Damrel, David W. (2000), Assistant Professor of Religious Studies; BA, BJ, MA, University of Texas at Austin; PhD, Duke University

Dandekar, Hemalata (2002), Professor of Planning; Director, School of Planning; BArch, University of Bombay (India); MArch, University of Michigan; PhD, University of California, Los Angeles

Daniel, Norman E. (1970), Professor Emeritus of Supply Chain Management; BS, MS, University of Tennessee, Knoxville; PhD, Indiana University

Danielson, Marivel (2004), Assistant Professor of Chicana and Chicano Studies; BA, Minnesota State University; MA, PhD, University of Michigan

Dantico, Marilyn (1981), Associate Professor of Political Science; BA, University of Illinois; MA, PhD, Florida State University

Danzig, Arnold B. (2001), Associate Professor of Educational Leadership and Policy Studies; BA, State University of New York; MA, PhD, University of Maryland

Darling, J. Andrew (2001), Adjunct Professor of Anthropology; BA, Swarthmore College; MA, PhD, University of Michigan

Darst, Paul W. (1976), Professor of Kinesiology; BS, MS, University of Akron; PhD, Ohio State University

Dasgupta, Partha (1991), Associate Professor of Computer Science and Engineering; BTech, MTech, Indian Institute of Technology (India); PhD, State University of New York, Stony Brook

Datta, Manjira (1995), Associate Professor of Economics; BA, MA, Jadavpur University (India); PhD, Cornell University

Dauber, M. Robert (1990), Clinical Professor of Law; BA, University of California, Berkeley; JD, Arizona State University

Dauten, Joel J. (1960), Professor Emeritus of Finance; BS, MS, Washington University; PhD, University of Iowa

Davey, William G. (1976), Associate Professor of Communication; Director, International Programs; BA, Pennsylvania State University; MA, Columbia University; PhD, Indiana University, Bloomington

David, Julie Smith (1995), Associate Professor of Computer Information Systems; BA, MBA, PhD, Michigan State University

Davidson, Elizabeth T. (1986), Research Professor of Life Sciences; BS, Mount Union College; MS, PhD, Ohio State University

Davidson, Joseph K. (1973), Professor of Engineering; BME, MSc, PhD, Ohio State University

Davila, Eduardo (1995), Senior Lecturer of Management; BS, University of Illinois, Urbana-Champaign; MBA, Arizona State University

Davis, Frank S. (1978), Senior Research Professional of Chemistry and Biochemistry; BSE, Arizona State University

Davis, George R. (1980), Professor Emeritus of Electrical Engineering; BSEE, MS, University of Illinois; PhD, University of Arizona

Davis, Joseph M. (1975), Associate Professor of Finance; BS, University of South Carolina; MBA, Texas A&M University; PhD, University of Georgia

Davis, Kirsten (2001), Legal Writing Instructor; BA, JD, Ohio State University

Davis, Mary C. (1994), Associate Professor of Psychology; BS, University of Idaho; MS, PhD, University of Pittsburgh

Davis, Olga Idriss (1998), Associate Professor of Communication; BS, University of Redlands; MA, PhD, University of Nebraska, Lincoln

Davis, Robert E. (1959), Professor Emeritus of Communication; BA, MA, PhD, University of Illinois

Davis, Thomas J. (1996), Professor of History and Law; AB, Fordham University; MA, Ball State University; MA, PhD, Columbia University; JD, State University of New York, Buffalo

Davulcu, Hasan (2002), Assistant Professor of Computer Science and Engineering; BS, Middle East Technical University (Turkey); MS, PhD, State University of New York, Stony Brook

Day, Thomas (1995), Professor of Life Sciences; BS, Colorado State University; MS, University of Idaho; PhD, Colorado State University

De la Garza, Sarah Amira (2002), Associate Professor of Communication; BS, North Texas State University; MA, State University of New York, Buffalo; PhD, University of Texas at Austin

de los Santos, Alfredo (1999), Research Professor, Division of Educational Leadership and Policy Studies; BA, MLS, PhD, University of Texas at Austin

de Marneffe, Peter (1989), Associate Professor of Philosophy; BA, University of Massachusetts, Amherst; PhD, Harvard University

Deal, Clarice (1996), Lecturer of Portuguese; BA, Saint Marense Organization of Education and Culture, São Paulo (Brazil); MEd, Arizona State University

Dean, Arthur G. (1971), Professor Emeritus of Industrial Engineering; BA, MS, Texas Tech University; PhD, Texas A&M University

Debenport, Sylvia (1978), Professor Emerita of Music; BME, BM, MM, Indiana University, Bloomington

Decker, Lance (2005), Faculty Associate of Planning; BS, MPA, The Ohio State University

DeFato, Rosalinda (1970), Librarian, Hayden Reference Services; BA, Saint John's University; MLS, University of California, Los Angeles

Deli, Daniel N. (2001), Assistant Professor of Finance; BA, MS, University of Illinois; PhD, Arizona State University

DeLibero, Joseph (1996), Senior Lecturer of Computer Science and Engineering; BS, Iona College; MS, Purdue University

Dellheim, Charles J. (1980), Professor Emeritus of History; BA, Harpur College; MA, PhD, Yale University

Demaine, Linda (2004), Associate Professor of Law; BA, Arizona State University; JD, University of Arizona; PhD, Arizona State University

DeMars, James R. (1981), Professor of Music; BA, Macalester College; MA, PhD, University of Minnesota, Twin Cities

Demirkan, Haluk (2002), Assistant Professor of Computer Information Systems; BS, Istanbul Technical University (Turkey); MS, PhD, University of Florida

DeNardo, Dale (1998), Assistant Professor of Life Sciences; BS, DVM, University of California, Davis; PhD, University of California, Berkeley

Dengi, E. Aykut (2005), Associate Professor of Electrical Engineering; BS, Bilkent University (Turkey); MS, PhD, Carnegie Mellon University

Desch, Steven (2003), Assistant Professor of Physics and Astronomy; BS, MS, Rensselaer Polytechnic Institute; MS, University of Chicago; PhD, University of Illinois, Urbana-Champaign

DeSerpa, Allan C. (1975), Professor of Economics; BA, University of Santa Clara; PhD, University of California, Santa Barbara

Detrie, Thomas (1984), Professor Emeritus of Visual Communication Design; BFA, MFA, Louisiana Tech University

Deviche, Pierre (1999), Professor of Life Sciences; BS, PhD, University of Liege (Belgium)

Devitt, Daniel (2005), Lecturer of Languages and Literatures; BA, MA, PhD, State University of New York, Buffalo

Dey, Sandwip (1987), Professor of Materials Engineering; BTech, Banares Hindu University (India); MS, PhD, Alfred University

Dezelsky, Thomas L. (1968), Professor Emeritus of Kinesiology; BS, Central Michigan University; MA, University of Michigan; HSD, Indiana University, Bloomington

Diaz, Rodolfo E. (2001), Associate Professor of Electrical Engineering; BS, Yale University; MS, PhD, University of California, Los Angeles

Dieckmann, Stephan (2004), Assistant Professor of Finance; Diplom Betriebswirt, Business School of Finance and Management (Germany); MS, PhD, Carnegie Mellon University

Dierig, David A. (1996), Adjunct Professor of Life Sciences; BS, MS, Arizona State University; PhD, University of Arizona

Di Felíce, Beth (2000), Associate Law Librarian; Assistant Director, Ross-Blakley Law Library; BA, Centenary College; MLS, JD, University of Washington

Di Gangi, Samuel (1990), Associate Professor of Curriculum and Instruction; Assistant Vice Provost for Information Technology; BA, University of Pittsburgh; MEd, PhD, Arizona State University

Dillner, Ann (2001), Assistant Research Professor of Chemical and Materials Engineering; BS, Southern Methodist University; MS, Stanford University; PhD, University of Illinois, Urbana-Champaign

Ditsworth, Richard L. (1959), Professor Emeritus of Engineering; BS, MS, Iowa State College; PhD, Michigan State University

Dittert, Alfred E. Jr. (1967), Professor Emeritus of Anthropology; BA, MA, University of New Mexico; PhD, University of Arizona

Doak, R. Bruce (1991), Professor of Physics and Astronomy; BS, Cornell University; MS, PhD, Massachusetts Institute of Technology

Doan, Jerry (1979), Professor of Music; BME, MM, North Texas State University; DMA, University of Michigan

Doane, Winifred W. (1977), Professor Emerita of Life Sciences; BS, Hunter College; MS, University of Wisconsin; PhD, Yale University

Doebler, Bettie Anne (1971), Professor Emerita of English; BA, MA, Duke University; PhD, University of Wisconsin, Madison

Doherty, Brian (2002), Librarian; Head, Music Library; BA, Westminster Choir College; MA, MLS, Rutgers, The State University of New Jersey, New Brunswick; PhD, University of Kansas

Doig, Stephen K. (1996), Professor of Journalism and Mass Communication; BA, Dartmouth

Dollin, Michael (1989), Faculty Associate of Planning; Coordinator, Community Design Studio; BLA, University of Arizona

Donelson, Kenneth L. (1965), Professor Emeritus of English; BA, MA, PhD, University of Iowa

Dooley, Kevin (1997), Professor of Supply Chain Management; BS, MS, PhD, University of Illinois, Urbana-Champaign

Dorman, Michael F. (1976), Professor of Speech and Hearing Science; BS, University of Washington; MA, Hollins College; PhD, University of Connecticut

Dorn, Ronald I. (1988), Professor of Geography; AB, MA, University of California, Berkeley; PhD, University of California, Los Angeles

Doty, Roxanne L. (1990), Associate Professor of Political Science; BS, MA, Arizona State University; PhD, University of Minnesota, Twin Cities

Doubek, Dennis L. (1976), Senior Research Professional, Cancer Research Institute; BS, University of Arizona; PhD, University of Illinois

Dounskaia, Natalia (2005), Assistant Professor of Kinesiology; Diploma, Moscow Institute of Electronic Engineering (Russia); Candidate of Science, Russian Academy of Sciences (Russia)

Dow, John (1990), Professor of Physics and Astronomy; BS, University of Notre Dame; PhD, University of Rochester

Dowling, Thomas E. (1988), Professor of Life Sciences; BS, University of Michigan; PhD, Wayne State University

Downs, Catherine A. (1983), Clinical Professor of Life Sciences; BS, Arizona State University; MA, Central Michigan University

Downs, Floyd L. (1988), Lecturer of Mathematics and Statistics; AB, Harvard University; MA, Columbia University

Doyel, David E. (1985), Adjunct Professor of Anthropology; BA, University of Arizona; MA, PhD, California State University, Chico

Doyle, Donald P. (1962), Professor Emeritus of Theatre; BA, Arizona State University; MA, Northwestern University; PhD, University of Minnesota, Twin Cities

Drake, Jackson M. (1974), Professor Emeritus of Education; BS, MS, Southern Illinois University, Carbondale; EdD, Columbia University

Dreyfoos, Dale (1994), Professor of Music; BM, Florida State University; MM, University of Texas at Austin

Driscoll, Michael F. (1971), Professor Emeritus of Mathematics and Statistics; BA, Saint John's University; MS, PhD, University of Arizona

Drucker, Jeffery S. (2000), Associate Professor of Physics and Astronomy; BA, University of California, Irvine; PhD, University of California, Santa Barbara

Duane, Drake D. (1987), Adjunct Professor of Speech and Hearing Science; AB, University of Michigan; MD, Wayne State University

Dubie, Norman
(1978)
Regents' Professor of English; BA, Goddard College; MFA, University of Iowa

Duckworth, William C. (1999), Adjunct Professor of Life Sciences; BS, University of Tennessee, Knoxville; MD, University of Tennessee, Memphis

Dudek, Leona M. (1960), Professor Emerita of Education; BEd, National College of Education; MA, Arizona State University

Duerden, Sarah J. (1998), Senior Lecturer of English; BA, University of Sheffield (United Kingdom); MA, PhD, Arizona State University

Duffy, Dennis M. (1977), Professor Emeritus of Construction; BS, MS, PhD, University of Arizona

Dugan, Jeanne (1994), Senior Lecturer of English; BA, University of Michigan; MA, PhD, Arizona State University

Duman, Tolga (1998), Associate Professor of Electrical Engineering; BS, Bilkent University (Turkey); MS, PhD, Northeastern University

Dumka, Larry E. (1991), Associate Professor of Family and Human Development; BA, University of Manitoba (Canada); MA, Simon Fraser University (Canada); PhD, Purdue University

Duncan, Anne (2001), Assistant Professor of Languages and Literatures; BA, Swarthmore College; MA, PhD, University of Pennsylvania

Duncan, Christopher (2005), Assistant Professor of Global Studies and Religious Studies; BA, Vanderbilt University; MPhil, PhD, Yale University

Duncan, Kate C. (1991), Professor of Art; BA, MA, University of New Mexico; PhD, University of Washington

Dundas, Mary Jane (1975), Professor Emerita of Legal and Ethical Studies; BA, California State University, Long Beach; JD, Loyola Marymount University

Durfee, Alesha (2005), Assistant Professor of Women and Gender Studies; BA, Seattle Pacific University; BA, University of Oregon; MA, PhD, University of Washington;

Durrenberger, Robert W. (1971), Professor Emeritus of Geography; BS, Moorhead State College; BS, California Institute of Technology; MS, University of Wisconsin, Madison; PhD, University of California, Los Angeles

Duttagupta, Chitralekha (2001), Lecturer of English; BA, Calcutta University (India); MA, Jadavpur University (India); MTESL, Arizona State University; PhD, Jadavpur University (India); PhD, Arizona State University

Duvernay, Jennifer (2000), Assistant Librarian, Noble Science Reference Services; BS, Carroll College; MLS, University of North Carolina at Chapel Hill

Dworkin, Judith (2003), Faculty Associate of Planning; MA, PhD, Clark University; JD, Arizona State University

Dwyer, Karen (1994), Senior Lecturer of English; BA, Lamar University; MA, PhD, Purdue University

Dyer, Becky (2004), Assistant Professor of Dance; BA, Brigham Young University; MS, University of Oregon; MFA, PhD, Texas Woman's University

E

Eck, Roger (1970), Professor Emeritus of Computer Information Systems; BSChE, Clarkson College of Technology; MBA, University of New Mexico; PhD, Tulane University

Eckard, Bonnie (1996), Professor of Theatre; BFA, University of Illinois; MA, University of Arizona; PhD, University of Denver

Eckert, Thomas W. (1971), Professor of Art; BA, MFA, Arizona State University

Edelsky, Carol (1976), Professor of Curriculum and Instruction; BS, University of Cincinnati; PhD, University of New Mexico

Eder, James F. Jr. (1975), Professor of Anthropology; Director, Program for Southeast Asian Studies; BS, California Institute of Technology; MA, PhD, University of California, Santa Barbara

Edsall, Robert M. (2000), Assistant Professor of Geography; BA, Kenyon College; MS, PhD, Pennsylvania State University

Edwards, Gus (1988), Professor of Theatre

Edwards, John L. (1964), Professor Emeritus of Curriculum and Instruction; BA, Ball State University; MA, EdD, Arizona State University

Edwin, Mark (2005), Adjunct Professor of Life Sciences; BA, Carroll College; MDCM, McGill University (Canada)

Eeds, Maryann H. (1975), Professor Emerita of Curriculum and Instruction; BA, California State University, Sacramento; PhD, University of Oregon

Eggink, Laura (2005), Assistant Research Professor of Life Sciences; BS, PhD, Arizona State University

Ehteshami, Gholam (2000), Research Scientist of Bioengineering; BS, University of Tehran (Iran); MS, Oregon State University; PhD, University of Arizona

Eisenberg, Nancy H.
(1976)
Regents' Professor of Psychology; BA, University of Michigan; MA, PhD, University of California, Berkeley

Ekmanis, Rolfs (1963), Professor Emeritus of Russian; BA, MA, University of Wisconsin, Madison; PhD, Indiana University, Bloomington

El-Basyouny, Mohammed (1996), Faculty Research Assistant of Civil and Environmental Engineering; BS, Cairo University (Egypt); MS, PhD, Arizona State University

El Hamel, Chouki (2002), Associate Professor of History; BA, University of Muhammad I of Oujda (Morocco); MA, PhD, University of Paris Pantheon-Sorbonne (France)

Ellin, Nan (1998), Associate Professor of Architecture and Landscape Architecture; BA, Bryn Mawr College; MA, PhD, Columbia University

Elliott, Charles S. (1989), Professor Emeritus of Industrial Engineering; BME, General Motors Institute; MS, Indiana University, Bloomington; PhD, Michigan State University

Ellis, Andrew W. (1998), Associate Professor of Geography; BA, MS, PhD, University of Delaware

Ellis, Larry (2005), Lecturer of English; BA, MA, PhD, Arizona State University

Ellis, Robert H. (1962), Professor Emeritus of Journalism and Mass Communication; BA, Arizona State University; MA, Case Western Reserve University

Ellman, Ira Mark (1978), Professor of Law; BA, Reed College; MA, University of Illinois; JD, University of California, Berkeley

Ellram, Lisa M. (1990), Bebbling Professor of Business; BSB, MBA, University of Minnesota, Twin Cities; PhD, Ohio State University

Ellsworth, Angela (2005), Assistant Professor of Art; BA, Hampshire College; MFA, Rutgers, The State University of New Jersey

Ellsworth, Lola M. (1938), Professor Emerita of Family and Human Development; BS, Brigham Young University; MA, Columbia University

Elman, Colin (1998), Assistant Professor of Political Science; BA, Nottingham University (United Kingdom); MA, PhD, Columbia University

Elman, Miriam Fendius (1995), Associate Professor of Political Science; BA, MA, Hebrew University (Israel); PhD, Columbia University

Elmore, James W. (1949), Professor Emeritus of Planning; AB, University of Nebraska; MS, Columbia University

Elser, James J. (1990), Professor of Life Sciences; Associate Director, Research and Training Initiation; BS, University of Notre Dame; MS, University of Tennessee, Knoxville; PhD, University of California, Davis

Elser, Monica M. (1996), Academic Associate, Educational Liaison, Global Institute of Sustainability; BS, University of Notre Dame; MS, University of Tennessee, Knoxville; MEd, Arizona State University

Elsharawy, Elbadawy (1989), Professor Emeritus of Electrical Engineering; BSE, MSE, Mansoura University (Egypt); PhD, University of Massachusetts, Amherst

Enders, Craig (2005), Assistant Professor of Psychology; BA, PhD, University of Nebraska

Enz, Billie J. (1990), Administrative Professional of Curriculum and Instruction; Associate Director for Professional Development and Induction, Division of Curriculum and Instruction; BA, MA, PhD, Arizona State University

Erber, Joachim (2005), Adjunct Professor of Life Sciences; DSC, Technical University Darmstadt (Germany)

Erickson, Mary L. (1990), Professor of Art; BFA, University of Illinois; MA, PhD, Ohio State University

Ericson, John Q. (2001), Assistant Professor of Music; BM, Emporia State University; MM, Eastman School of Music; DMA, Indiana University

Ernzen, James J. (1996), Associate Professor of Construction; Interim Director, Del E. Webb School of Construction; BS, MS, University of Notre Dame; PhD, University of Texas at Austin

Escalante, Ananias (2005), Associate Professor of Life Sciences; Licenciado, MSc, Simón Bolívar University (Venezuela); PhD, University of California, Irvine

Esch, Mark (2003), Lecturer of Curriculum and Instruction; BA, Goshen College; MA, University of Phoenix

Escobar, Edward J. (1993), Associate Professor of Chicana and Chicano Studies and History; BA, California State University, Dominguez Hills; MA, PhD, University of California, Riverside

Espino, Rodolfo (2004), Assistant Professor of Political Science; BA, Luther College; MA, PhD, University of Wisconsin-Madison

Espinosa, Aurelio (2005), Assistant Professor of Religious Studies; BA, MA, PhD, University of Arizona

Espinosa, Paul D. (2004), Professor of Chicana and Chicano Studies; BA, Brown University; MA, PhD, Stanford University

Essig, Linda (2004), Professor of Theatre; Chair, School of Theatre and Film; BFA, MFA, New York University

Etter, Patricia A. (1988), Archivist, Archives and Special Collections; BA, California State University, Long Beach; MLS, University of Arizona

Eubank, Randall L. (2005), Professor of Mathematics and Statistics; BS, MS, New Mexico State University; MS, PhD, Texas A&M University

Evans, Donovan L. (1966), Professor Emeritus of Engineering; Director, Center for Research on Education in Science, Mathematics, Engineering, and Technology; BSME, University of Cincinnati; PhD, Northwestern University

Evans, John X. (1964), Professor Emeritus of English; BA, Holy Cross College; MA, PhD, Yale University

Eveland, Charles (1974), Professor Emeritus of Health Management and Policy; BS, University of Maryland; MS, Baylor University; PhD, University of Michigan

Ewan, Joseph (1994), Associate Professor of Architecture and Landscape Architecture; BSD, Arizona State University; MLA, University of California, Berkeley

Ewing, Alison (1993), Law Librarian, Circulation/Reference; BA, MLS, University of Michigan

F

Faas, Larry A. (1967), Professor Emeritus of Curriculum and Instruction; BS, Iowa State University; MA, Colorado State College; EdD, Utah State University

Fabes, Richard A. (1983), Professor of Family and Human Development; Chair, Department of Family and Human Development; BA, University of Colorado; MS, PhD, Oklahoma State University

Fabricius, William (1990), Associate Professor of Psychology; BA, Boston College; MS, Wheelock College; PhD, University of Michigan

Facinelli, Diane A. (1993), Honors Faculty Fellow; BA, MA, PhD, Arizona State University

Faeth, Stanley H. (1980), Professor of Life Sciences; BS, MS, University of Cincinnati; PhD, Florida State University

Fafitis, Apostolos (1984), Associate Professor of Civil and Environmental Engineering; BSE, Aristotelion University of Thessaloniki (Greece); MEng, South Dakota School of Mines and Technology; PhD, Northwestern University

Fahlman, Betsy (1988), Professor of Art; BA, Mount Holyoke College; MA, PhD, University of Delaware

Fain, Jeanne (2004), Lecturer of Curriculum and Instruction; BS, Grand Canyon University; MEd, Arizona State University; PhD, University of Arizona

Falconer, Steven E. (1989), Professor of Anthropology; BA, Washington State University; MA, PhD, University of Arizona

Fall, Patricia L. (1989), Associate Professor of Geography; BA, Prescott College; MS, PhD, University of Arizona

Faltis, Christian J. (1991), Professor of Curriculum and Instruction; BA, San Francisco State University; MA, San Jose State University; MA, PhD, Stanford University

Faltz, Leonard M. (1979), Professor Emeritus of Computer Science and Engineering; BS, City University of New York; MS, Harvard University; PhD, University of California, Berkeley

Farin, Gerald (1987), Professor of Computer Science and Engineering; BA, MA, PhD, University of Braunschweig (Germany)

Farmer, Frank D. (1970), Associate Professor of Mathematics and Statistics; BA, MA, University of California, Riverside; PhD, University of Washington

Farmer, Jack D. (1998), Professor of Geological Sciences; BA, California State University, Chico; MS, University of Kansas; PhD, University of California, Davis

Fearon, Harold E. (1961), Professor Emeritus of Supply Chain Management; BS, MBA, Indiana University; PhD, Michigan State University

Fehr, Fred S. (1971), Professor Emeritus of Psychology; BS, University of Wisconsin, Madison; MA, PhD, Washington University

Feigal, Ellen (2005), Adjunct Professor of Life Sciences; BS, MS, University of California, Irvine; MD, University of California, Davis

Feisst, Sabine (2002), Assistant Professor of Music; MM, Conservatory of Music, Frankfurt (Germany); PhD, Free University of Berlin (Germany)

Felder, Mark (2002), Faculty Associate of Construction; BA, Dartmouth College; MEd, Northern Arizona University

Feldhaus, Anne (1981), Professor of Religious Studies; BA, Manhattanville College; PhD, University of Pennsylvania

Feldstein, Alan (1970), Professor Emeritus of Mathematics and Statistics; BA, Arizona State University; PhD, University of California, Los Angeles

Feller, Joseph M. (1987), Professor of Law; BA, Harvard University; PhD, University of California, Berkeley; JD, Harvard University

Fellmeth, Aaron (2004), Associate Professor of Law; AB, University of California, Berkeley; MA, JD, Yale University

Fenske, Robert H. (1974), Professor of Educational Leadership and Policy Studies; BS, MS, PhD, University of Wisconsin, Madison

Fernando, Harindra (1984), Professor of Mechanical and Aerospace Engineering; Director, Center for Environmental Fluid Dynamics; BSc, University of Sri Lanka; MA, PhD, Johns Hopkins University

Ferrall, J. Eleanor (1969), Librarian Emerita, Reference Service; AB, Heidelberg College; MA, Arizona State University

Ferris, Jean (1985), Professor Emerita of Music; BM, University of Michigan; MA, Arizona State University

Ferry, David K.
(1983)
Regents' Professor of Electrical Engineering; BSEE, MSEE, Texas Technological College; PhD, University of Texas at Austin

Fessenden, Tracy (1994), Associate Professor of Religious Studies; BA, Yale University; PhD, University of Virginia

Fewell, Jennifer H. (1993), Associate Professor of Life Sciences; BA, Cornell University; MA, PhD, University of Colorado

Fey, Richard (2005), Lecturer of Sociology; BS, MS, Portland State University; PhD, Arizona State University

Fidel, Noel (2002), Professor of Law; Associate Dean for Graduate Studies and Program Development, College of Law; AB, Dartmouth College; JD, Harvard University; LLM, University of Virginia

Findler, Nicholas V. (1982), Professor Emeritus of Computer Science and Engineering; BEng, PhD, Budapest University for Technical Sciences (Hungary)

Fine, Robert (1997), Senior Lecturer of Sociology; BA, Boston University; MA, University of Chicago; PhD, New York University

Finer, Neal (1977), Professor Emeritus of Curriculum and Instruction; BA, University of Houston; MA, University of the Americas (Mexico); PhD, University of Texas at Austin

Fink, Jonathan (1982), Professor of Geological Sciences; Vice President for Research and Economic Affairs; BA, Colby College; PhD, Stanford University

Fiori, Christine (2001), Assistant Professor of Construction; BS, MS, PhD, Drexel University

Firestone, Melvin M. (1968), Professor Emeritus of Anthropology; BA, University of New Mexico; MA, PhD, University of Washington

Firozzaman, M. (2002), Lecturer of Mathematics and Statistics; BS, MS, Jahangirnagar University (Bangladesh); MS, University of Kaiserslautern (Germany)

Fischman, Gustavo E. (1999), Assistant Professor of Curriculum and Instruction; BA, University of Buenos Aires (Argentina); MA, PhD, University of California, Los Angeles

Fish Ewan, Rebecca (1994), Associate Professor of Architecture and Landscape Architecture; BA, MLA, University of California, Berkeley

Fisher, Jill (2005), Assistant Professor of Women and Gender Studies; BA, Connecticut College; MS, PhD, Rensselaer Polytechnic Institute

Fisher, Marvin M. (1958), Professor Emeritus of English; AB, AM, Wayne University; PhD, University of Minnesota, Twin Cities

Fisher, Stuart G. (1976), Professor of Life Sciences; BS, MA, Wake Forest College; PhD, Dartmouth College

Fisk, R. Leighton (1979), Adjunct Professor of Bioengineering; BS, MS, PhD, University of Alberta (Canada)

Fitch, Frank W. (1997), Adjunct Professor of Life Sciences; MS, MD, PhD, University of Chicago

Fitch, Gregory W. (1974), Professor of Philosophy; BA, Western Washington State College; MA, PhD, University of Massachusetts, Amherst

Fitzgerald, Mary (1998), Assistant Professor of Dance; BA, University of Maine; MFA, Arizona State University

FitzPatrick, Carole (2005), Assistant Professor of Music; BM, University of Texas at Austin; MM, MMA, Yale University

Fixico, Donald (2004), Distinguished Foundation Professor of History; BA, MA, PhD, University of Oklahoma

Flaherty, Richard E. (1978), Professor Emeritus of Accountancy; BS, MS, PhD, University of Kansas; CPA, Kansas

Fleming, Robert C. (1974), Professor Emeritus of Music; Director Emeritus, Sun Devil Marching Band; BS, Indiana University of Pennsylvania; MFA, Carnegie Mellon University; PhD, Southern Illinois University, Carbondale

Flores, Alfinio (1992), Professor of Curriculum and Instruction; BS, MS, National University of Mexico; PhD, Ohio State University

Florschuetz, Leon W. (1964), Professor Emeritus of Engineering; BS, MS, PhD, University of Illinois

Floyd, Kory (2000), Associate Professor of Communication; BA, Western Washington University; MA, University of Washington; PhD, University of Arizona

Flys, Michael (1975), Professor Emeritus of Spanish; Licenciado en Filosofía y Letras, Doctor en Filosofía y Letras, University of Madrid (Spain)

Foard, Fumiko (1990), Senior Lecturer of Japanese; BA, Keio Gijuku University (Japan); MA, Arizona State University

Foard, James (1977), Professor of Religious Studies; BA, College of Wooster; MA, PhD, Stanford University

Fonow, Mary Margaret (2004), Professor of Women and Gender Studies; Director, Women and Gender Studies Program; BA, Ohio University; MA, PhD, Ohio State University

Forestal, Lawrence H. (2004), Senior Lecturer of Speech and Hearing Science; BA, MS, Gallaudet University; PhD, New York University

Forsyth, Ben R. (1992), Professor Emeritus of Health Management and Policy; MD, New York University

Foster, David William
(1964)
Regents' Professor of Languages and Literatures; BA, MA, PhD, University of Washington

Foster, Joyce (1972), Professor Emerita of Life Sciences; BA, MA, DePauw University; PhD, Arizona State University

Foster, Michael S. (2001), Adjunct Professor of Anthropology; BA, Colorado State University; MA, PhD, University of Colorado, Boulder

Fouch, Matthew (2001), Assistant Professor of Geological Sciences; BA, Pomona College; ScM, PhD, Brown University

Fouquette, Martin J. Jr. (1965), Professor Emeritus of Life Sciences; BA, MA, PhD, University of Texas at Austin

Fowler, John W. (1995), Professor of Industrial Engineering; Associate Chair, Graduate Programs, Department of Industrial Engineering; BS, MS, PhD, Texas A&M University

Fox, Cora V. (2001), Assistant Professor of English; BA, Grinnell College; MA, PhD, University of Wisconsin, Madison

Fox, Peter (1990), Professor of Civil and Environmental Engineering; BS, MS, PhD, University of Illinois

Francini, Geraldine (2004), Lecturer of Speech and Hearing Science; BA, MA, Gallaudet University

Francisco, Wilson A. (1999), Associate Professor of Chemistry and Biochemistry; BS, University of Puerto Rico; PhD, Texas A&M University

Frasch, Wayne D. (1989), Professor of Life Sciences; BA, Hope College; PhD, University of Kentucky

Freeman, Donald J. (1989), Professor Emeritus of Education; BA, Grinnell College; MA, PhD, Michigan State University

French, Peter A. (2000), Professor of Philosophy; Director, Lincoln Center for Applied Ethics; BA, Gettysburg College; MA, University of Southern California, Los Angeles; PhD, University of Miami, Coral Gables

Freund, John E. (1957), Professor Emeritus of Mathematics and Statistics; BA, MA, University of California, Los Angeles; PhD, University of Pittsburgh

Fridkin, Kim (1989), Professor of Political Science; Director, Graduate Studies, Department of Political Science; AB, MA, PhD, University of Michigan

Friesen, Cody (2004), Assistant Professor of Materials and Mechanical Engineering; BS, Arizona State University; PhD, Massachusetts Institute of Technology

Fritzemeyer, Joseph R. (1973), Professor Emeritus of Accountancy; BBA, Baylor University; MBA, DBA, Indiana University; CPA, Texas

Fromme, Petra (2002), Professor of Chemistry and Biochemistry; Assistant Chair for Graduate Studies, Department of Chemistry and Biochemistry; MS, Free University of Berlin (Germany); PhD, Technical University of Berlin (Germany)

Fronske, Jeanne (1975), Professor Emerita of Art; BA, BFA, DePauw University; MFA, Ohio State University, Newark

Frost, Melvin Jesse (1965), Professor Emeritus of Geography; BS, Arizona State University; MS, Brigham Young University; PhD, University of Florida

Frost, Michael D. (1995), Faculty Associate of Construction; BS, MS, Arizona State University

Fry, Harold (1958), Professor Emeritus of Engineering; BS, Colorado State University; ME, University of Wyoming; MS, University of Colorado

Fry, Warren D. (1974), Learning Resources Specialist Emeritus; BA, University of Northern Iowa; MA, Arizona State University

Fuchs, Jacob (1951), Professor of Chemistry and Biochemistry; BA, New York University; MS, PhD, University of Illinois

Fuchs, Rachel G. (1983), Professor of History; BA, MA, Boston University; PhD, Indiana University

Fulginiti, Laura C. (1998), Adjunct Professor of Anthropology; BA, Colorado College; MA, PhD, University of Arizona

Fullerton, Bill J. (1958), Professor Emeritus of Education; BS, Northwestern Oklahoma State College; MA, EdD, University of Oklahoma

Fullinwider, S. Pendleton (1967), Professor Emeritus of History; BS, United States Naval Academy; MS, PhD, University of Wisconsin, Madison

Fulman, Igor (2004), Lecturer of Mathematics and Statistics; MS, Kazan State University (Russia); PhD, Technion (Israel)

Fulton, DoVeanna (2005), Associate Professor of English; BA, Wayne State University; PhD, University of Minnesota

Furnish, Dale Beck (1970), Professor Emeritus of Law; AB, Grinnell College; JD, University of Iowa; LLM, University of Michigan

Furnish, Elizabeth (2004), Assistant Research Professor of Bioengineering; BS, University of Iowa; PhD, University of Texas at Austin

Furr-Soloman, Connie (2001), Associate Professor of Theatre; BA, University of North Carolina at Charlotte; MFA, University of Tennessee, Knoxville

Furukawa, Michael F. (2004), Assistant Professor of Health Management and Policy; BS, MS, Georgia Institute of Technology; PhD, University of Pennsylvania

Fuse, Montye (1997), Lecturer of English; BA, California State University, Long Beach; MA, PhD, University of California, Berkeley

G

Gadau, Juergen (2004), Assistant Professor of Life Sciences; Diplom Biologie, Doktorarbeit, Würzburg University (Germany)

Gaffney, Philip D. (1957), Professor Emeritus of Education; BS, Northern Illinois State University; MA, PhD, State University of Iowa

Gager, Constance T. (2003), Assistant Professor of Family and Human Development; BA, Clark University; MA, University of Vermont; PhD, University of Pennsylvania

Gaines, Sylvia W. (1972), Professor Emerita of Anthropology; BA, MA, PhD, Arizona State University

Galician, Mary-Lou (1983), Associate Professor of Journalism and Mass Communication; BA, Long Island University, Brooklyn; MS, Syracuse University; EdD, Memphis State University

Gallinger, George W. (1977), Associate Professor of Finance; BA, Waterloo Lutheran University (Canada); MBA, York University (Canada); PhD, Purdue University

Gammage, Grady Jr. (1990), Faculty Associate of Planning; BA, Occidental College; JD, Stanford University

Garcia, Antonio A. (1989), Professor of Bioengineering; BS, Rutgers, The State University of New Jersey; PhD, University of California, Berkeley

Garcia, David R. (2004), Assistant Professor of Educational and Leadership and Policy Studies; BA, Arizona State University; MA, PhD, University of Chicago

García, Eugene E. (2002), Professor of Curriculum and Instruction; Vice President for University-School Partnerships and Dean, College of Education; BS, University of Utah; MA, PhD, University of Kansas

Garcia, Heidi (2000), Lecturer of Spanish; BA, University of Puerto Rico; MA, Arizona State University

García, Peter J. (2001), Assistant Professor of Chicana and Chicano Studies; BME, University of New Mexico; MM, PhD, University of Texas at Austin

Garcia, Phyllis M. (1992), Clinical Associate Professor of Curriculum and Instruction; BA, University of Southern Colorado; MA, Adams State College; EdD, University of Northern Colorado

Garcia-Fernández, Carlos (1990), Professor of Spanish; MA, University Pontifica of Salamanca (Spain); MA, PhD, University of California, Davis

Garcia-Fernández, Carmen (2001), Associate Professor of Spanish; BA, Teacher's Training College for Women (Peru); MA, University of Kansas; PhD, Georgetown University

Garcia-Pichel, Ferran (1999), Associate Professor of Life Sciences; BS, MS, Autonomous University of Barcelona, Bellaterra (Spain); PhD, University of Oregon

Gardner, Carl L. (1994), Professor of Mathematics and Statistics; BA, Duke University; PhD, Massachusetts Institute of Technology

Garnero, Edward (1999), Associate Professor of Geological Sciences; AB, University of California, Berkeley; PhD, California Institute of Technology

Gasowski, Ronald Edward (1971), Professor Emeritus of Art; BSD, University of Michigan; MFA, University of Washington

Gavrilos, Dina (2003), Assistant Professor of Journalism and Mass Communication; BA, University of Illinois, Chicago; MA, University of Kentucky; PhD, University of Iowa

Geiger, Karen (1996), Senior Lecturer of Accountancy; BS, University of Nevada; MS, Arizona State University

Gel, Esma S. (2000), Assistant Professor of Industrial Engineering; BS, Orta Dogu Technical University (Turkey); MS, PhD, Northwestern University

Gelb, Anne (1998), Associate Professor of Mathematics and Statistics; BS, University of California, Los Angeles; ScM, PhD, Brown University

Gentrup, William F. (1991), Associate Research Administrator, Arizona Center for Medieval and Renaissance Studies; BA, MA, PhD, Arizona State University

Gentry, Gregory (2004), Assistant Professor of Music; Associate Director, Choral Activities; BME, University of Denver; MM, DMA, University of Missouri-Kansas City Conservatory of Music

George, Lisa (1999), Assistant Professor of Classics; BA, Vassar College; MA, Bryn Mawr College; MA, San Francisco State University; PhD, Bryn Mawr College

Gerber, Leah R. (2001), Assistant Professor of Life Sciences; BS, Mills College; MMA, PhD, University of Washington

Gereboff, Joel D. (1978), Associate Professor of Religious Studies; Chair, Department of Religious Studies; BA, New York University; PhD, Brown University

Gerlach, Vernon S. (1963), Professor Emeritus of Education; BA, Wayne State University; MA, University of Minnesota, Twin Cities; EdD, Arizona State University

Gerson, Marysia Johnson (1997), Associate Professor of English; BA, St. Francis College, Brooklyn; MA, Monterey Institute of International Studies; PhD, Georgetown University

Gharavi, Lance (2001), Assistant Professor of Theatre; BFA, Drake University; MA, PhD, University of Kansas, Lawrence

Ghirlanda, Giovanna (2002), Assistant Professor of Chemistry and Biochemistry; Laurea, PhD, University of Padua (Italy)

Giard, Jacques (1998), Professor of Industrial Design; Director, Department of Design Studies; Dip.Des., IAA, Montreal (Canada); H.Dip.Des., Birmingham Polytechnic (United Kingdom); PhD, Concordia University (Canada)

Gibney, John (1992), Adjunct Professor of Bioengineering; BS, St. Peter's College; MD, New Jersey College of Medicine

Gieschen, Donald W. (1959), Professor Emeritus of Philosophy; BS, Northwestern University; MA, PhD, University of Minnesota, Twin Cities

Giffin, Frederick C. (1967), Professor Emeritus of History; BA, Denison University; MA, PhD, Emory University

Gilberg, Mark (2004), Adjunct Professor of Anthropology; BSc, Stanford University; PhD, University of London (United Kingdom)

Gilfillan, Daniel D. (2002), Assistant Professor of German; BA, MA, University of Vermont; PhD, University of Oregon

Gill, Anthony (2003), Assistant Museum Curator, School of Life Sciences; BS, PhD, University of New England (Australia)

Gill, George A. (1966), Professor Emeritus of Education; BS, MA, Arizona State University

Gillingwater, Denis (1973), Professor of Art; BFA, MFA, University of Cincinnati

Gillis, Georganne Scheiner (1983), Associate Professor of Women and Gender Studies; BA, Ithaca College; MA, University of Western Ontario (Canada); PhD, Arizona State University

Giner, Oscar (1998), Professor of Theatre; BA, MFA, DFA, Yale University

Ginsburg, Shai (2001), Assistant Professor of Hebrew; BA, MA, Hebrew University (Israel); PhD, University of Michigan

Gisolo, Margaret (1954), Professor Emerita of Dance; BS, Indiana State University, Terre Haute; MA, New York University

Glass, Gene V
(1986)
Regents' Professor of Educational Leadership and Policy Studies and Psychology in Education; Academic Program Coordinator, Educational Leadership and Policy Studies; BA, University of Nebraska; MS, PhD, University of Wisconsin

Glau, Gregory R. (1994), Associate Instructional Professional of English; Director, Writing Programs; BA, University of Arizona; MA, Northern Arizona University; PhD, University of Arizona

Glaunsinger, William S. (1972), Professor Emeritus of Chemistry and Biochemistry; BS, Miami University; PhD, Cornell University

Glessner-Calkins, Beth A. (1995), Academic Associate of Languages and Literatures; Undergraduate Academic Advisor; BA, Grove City College; MA, PhD, Pennsylvania State University

Glick, Jennifer E. (2000), Associate Professor of Sociology; BA, Pennsylvania State University; MA, PhD, University of Texas at Austin

Glick, Milton D. (1991), Professor of Chemistry and Biochemistry; Executive Vice President and Provost of the University; AB, Augusta College; PhD, University of Wisconsin, Madison

Glick, Paul C. (1982), Adjunct Professor of Sociology; BA, DePauw University; MA, PhD, University of Wisconsin, Madison

Glick, William H. (1995), Professor Emeritus of Management; AB, University of Michigan; PhD, University of California, Berkeley

Glidden-Tracey, Cynthia (1999), Clinical Associate Professor of Psychology in Education; AB, AM, PhD, University of Illinois

Gober, Patricia A. (1975), Professor of Geography; BS, University of Wisconsin, Whitewater; MA, PhD, Ohio State University

Godfrey, Donald G. (1988), Professor of Journalism and Mass Communication; BS, Weber State College; MS, University of Oregon; PhD, University of Washington

Goggin, Maureen Daly (1994), Associate Professor of English; Associate Chair, Department of English; BS, MA, Northeastern University; PhD, Carnegie Mellon University

Goggin, Peter N. (2000), Assistant Professor of English; BS, MA, Northeastern University; PhD, Indiana University of Pennsylvania

Goldberg, Beckian Fritz (1990), Professor of English; BA, MA, Arizona State University; MFA, Vermont College

Goldinger, Stephen D. (1992), Associate Professor of Psychology; BA, PhD, Indiana University, Bloomington

Goldman, Donald (2001), Senior Lecturer of Accountancy; BS, Arizona State University; BA, University of Illinois

Goldstein, Elliott S. (1974), Associate Professor of Life Sciences; BS, University of Hartford; MS, PhD, University of Minnesota, Twin Cities

Golen, Steven P. (1984), Associate Professor of Accountancy; BS, MA, Western Kentucky University; PhD, Arizona State University

Gomez, Reynaldo A. (1980), Associate Professor of Curriculum and Instruction; BA, Southwest Texas State University; MEd, Stephen F. Austin State University; PhD, Pennsylvania State University

Gomez-Mejia, Luis R.
(1989)
Regents' Professor of Management; BA, MA, PhD, University of Minnesota, Twin Cities

González, Josué M. (1998), Professor of Educational Leadership and Policy Studies; Director, Southwest Center for Education Equity and Language Diversity; BA, MA, Texas A&I University, Kingsville; EdD, University of Massachusetts, Amherst

Gonzales, Nancy A. (1992), Professor of Psychology; BS, Arizona State University; MS, PhD, University of Washington

Gonzales, Vanna (2005), Instructor of Justice and Social Inquiry; PhD, University of California, Berkeley

Goo, Benjamin (1955), Professor Emeritus of Art; BFA, University of Iowa; MFA, Cranbrook Academy of Art

Goodall, H.L. "Bud" Jr. (2004), Professor of Communication; Director, Hugh Downs School of Human Communication; BA, Shepherd College; MA, University of North Carolina at Chapel Hill; PhD, Pennsylvania State University

Gooding, Elmer R. (1967), Professor Emeritus of Economics; BS, McPherson College; MA, PhD, University of Kansas

Goodnick, Stephen M. (1996), Professor of Electrical Engineering; BS, Trinity University; MS, PhD, Colorado State University

Gopolan, Sandeep (2004), Associate Professor of Law; Faculty Fellow, Center for the Study of Law, Science, and Technology; BA, LLB, National Law School of India; BCL, Oxford University (United Kingdom)

Gordon, Leonard (1967), Professor Emeritus of Sociology; BA, Wayne State University; MA, University of Michigan; PhD, Wayne State University

Gordon, Rena J. (1983), Adjunct Professor of Geography; BS, Wayne State University; MA, PhD, Arizona State University

Goren, Paul (2001), Assistant Professor of Political Science; BS, Carnegie Mellon University; MA, PhD, University of Pittsburgh

Gorin, Joanna S. (2002), Assistant Professor of Psychology in Education; BA, University of California, Los Angeles; MA, University of Texas at Austin; PhD, University of Kansas

Gorman, Robert (2001), Professor of Law; AB, LLB, Harvard University

Gorur, Ravi S. (1987), Professor of Electrical Engineering; Director, Undergraduate Studies, Department of Electrical Engineering; BS, Bangalore University (India); MS, Indian Institute of Science (India); PhD, University of Windsor (Canada)

Goul, Kenneth Michael (1985), Professor of Computer Information Systems; BS, MBA, PhD, Oregon State University

Gould, Ian R.
(1998)
President's Professor of Chemistry and Biochemistry; BSc, MSc, PhD, University of Manchester (United Kingdom)

Gourley, David R. (1967), Professor Emeritus of Marketing; BS, Miami University; MBA, University of Toledo; DBA, Indiana University

Gover, Kevin (2003), Professor of Law; AB, Princeton University; JD, University of New Mexico

Goyer, Robert S. (1981), Professor Emeritus of Communication; BA, DePauw University; MA, Miami University; PhD, Ohio State University

Grace, Edward E. (1963), Professor Emeritus of Mathematics and Statistics; BS, PhD, University of North Carolina

Graf, William L.
(1978)
Regents' Professor Emeritus of Geography; BA, MSc, PhD, University of Wisconsin, Madison

Gratton, Brian J. (1983), Professor of History; BA, University of New Mexico; PhD, Boston University

Gray, Shelley (2001), Assistant Professor of Speech and Hearing Science; BS, MS, PhD, University of Arizona

Gray, Susan E. (1991), Associate Professor of History; AB, Earlham College; MA, PhD, University of Chicago

Greathouse, Betty M. (1997), Professor Emerita of Curriculum and Instruction; BA, MA, PhD, Arizona State University

Greeley, Ronald
(1977)
Regents' Professor of Geological Sciences; BS, MS, Mississippi State University; PhD, University of Missouri, Rolla

Green, James L. (1967), Professor Emeritus of English; BA, MA, University of Kansas; PhD, University of Nevada, Reno

Green, Jennifer L. (1991), Adjunct Professor of Chemistry and Biochemistry; BSc, PhD, University of Sydney (Australia)

Green, Mary E. (1967), Professor Emerita of English; BA, Queens College; MA, Saint John's University; PhD, University of Chicago

Green, Monica (2002), Professor of History; BA, Barnard College; MA, PhD, Princeton University

Green, Samuel B. (2000), Professor of Psychology in Education; Academic Program Leader, Educational Psychology; BA, West Virginia University; MS, Marquette University; PhD, University of Georgia

Greeneich, Edwin W. (1982), Professor Emeritus of Electrical Engineering; BSEE, MSEE, PhD, University of California, Berkeley

Greensfelder, Kirk B. (2001), Assistant Professor of Aerospace Studies; Assistant Department Head, Department of Aerospace Studies; BS, Miami University; MBA, University of South Dakota; MS, Golden Gate University

Greenspan, Ruth L. (1997), Adjunct Professor of Anthropology; BA, Carleton College; MA, PhD, University of Oregon

Greenwood, Priscilla (2005), Research Professor of Mathematics and Statistics and Women and Gender Studies; BA, Duke University; MA, PhD, University of Wisconsin, Madison

Greives, Thomas L. (1997), Associate Librarian, Hayden Reference Services; BA, Purdue University; MA, University of Southern California; MLS, Indiana University; ABD, University of Chicago

Grey, Betsy J. (1987), Professor of Law; BA, Barnard College; JD, Georgetown University

Grier, Marvin (1957), Professor Emeritus of Kinesiology; BA, Wisconsin State College, La Crosse; MA, New York University

Gries, Corinna (1998), Academic Associate, CAP LTER Ecological Data Coordinator, Global Institute of Sustainability; MS, PhD, Christian Albrechts University (Germany)

Griffin, William A. (1988), Professor of Family and Human Development; BA, Auburn University; MS, Virginia Polytechnic and State University; PhD, Texas Tech University

Griffith, LeRoy H. (1958), Professor Emeritus of Education; BS, MS, Drake University; PhD, University of Iowa

Grigsby, J. Eugene (1966), Professor Emeritus of Art; AB, Morehouse College; MA, Ohio State University; PhD, New York University

Grimm, Nancy B. (1990), Professor of Life Sciences; BA, Hampshire College; MS, PhD, Arizona State University

Grinder, Robert E. (1973), Professor Emeritus of Education; BS, University of California, Berkeley; EdD, Harvard University

Grobe, Edwin P. (1957), Professor Emeritus of French; AB, William Jewell College; MA, PhD, Indiana University, Bloomington

Gross, Douglas R. (1968), Professor Emeritus of Psychology in Education; BA, MA, Western Michigan University; PhD, University of Wisconsin, Madison

Grossman, Louis H. (1966), Professor Emeritus of Management; BA, University of Michigan; MBA, PhD, Michigan State University

Groy, Thomas L. (1983), Associate Research Professional of Chemistry and Biochemistry; BS, Adams State College; PhD, Arizona State University

Gruzinska, Aleksandra (1973), Assistant Professor of French; BA, MA, State University of New York, Buffalo; PhD, Pennsylvania State University

Gryder, Robert (1959–63; 1964), Professor of Curriculum and Instruction; BA, Northwestern State University; MEd, Louisiana State University; EdD, University of North Dakota

Guerin, Sanford M. (1984), Professor of Law; BS, Boston University; JD, University of San Francisco; LLM, New York University

Guerrero, Laura (1996), Professor of Communication; BA, MA, San Diego State University; PhD, University of Arizona

Guhathakurta, Subhrajit (1994), Associate Professor of Planning; BArch, Jadavpur University (India); MCRP, Iowa State University; PhD, University of California, Berkeley

Guilbeau, Eric J. (1977), Olin Endowed Professor of Bioengineering; Chair, Harrington Department of Bioengineering; BS, MS, PhD, Louisiana Tech University

Guinouard, Donald E. (1966), Professor Emeritus of Psychology in Education; BS, MS, Montana State College; EdD, Washington State University

Guleserian, Theodore (1971), Associate Professor of Philosophy; BA, University of California, Riverside; PhD, Yale University

Gullett, Gayle (1993), Associate Professor of History; BA, MA, Loma Linda University; PhD, University of California, Riverside

Gully, Anthony Lacy (1972), Associate Professor of Art; BA, University of California, Riverside; MA, University of California, Berkeley; PhD, Stanford University

Guntermann, Gail (1977), Professor Emerita of Spanish; BS, University of Montana; MA, University of New Mexico; PhD, Ohio State University

Guntermann, Karl L. (1982), Professor of Finance; AB, Knox College; MBA, DBA, Indiana University

Gupta, Sandeep Kumar (2001), Associate Professor of Computer Science and Engineering; BTech, Banaras Hindu University (India); MTech, Indian Institute of Technology (India); MS, PhD, Ohio State University

Gupta, Sanjay (1990), Professor of Accountancy; BCom, Bombay University (India); BLaws, Calcutta University (India); MSA, Bowling Green State University; PhD, Michigan State University; CPA, Ohio

Gust, J. Devens (1975), Professor of Chemistry and Biochemistry; BS, Stanford University; MS, PhD, Princeton University

Guston, David (2005), Professor of Political Science; AB, Yale University; PhD, Massachusetts Institute of Technology

Guthrie, David W. Col. (2003), Professor of Aerospace Studies; Chair, Department of Aerospace Studies; BS, Bemidji State University; MS, Troy State University

Guzzetti, Barbara J. (1988), Professor of Curriculum and Instruction; BS, MS, Northern Illinois University; PhD, University of Colorado

Gwinner, Robert F. (1970), Professor Emeritus of Marketing; BS, University of Southern Mississippi; MBA, PhD, University of Arkansas

H

Haberman, Donald C. (1967), Professor Emeritus of English; BA, Rutgers, The State University of New Jersey; MA, PhD, Yale University

Haberman, Lidia W. (1967), Assistant Professor of Latin; BA, Bryn Mawr College; MA, Yale University

Hackbarth, Glenn A. (1976), Professor of Music; BM, University of Wisconsin, Madison; MM, DMA, University of Illinois

Hackett, Edward J. (1999), Professor of Sociology; BA, Colgate University; MA, PhD, Cornell University

Hadley, Neil F. (1966), Professor Emeritus of Life Sciences; BA, Eastern Michigan University; PhD, University of Colorado

Haefer, J. Richard (1976), Associate Professor of Music; BM, Ohio State University; MM, University of Arizona; PhD, University of Illinois

Haenn, Nora M. (1999), Associate Professor of Anthropology; BA, Fordham University; MA, PhD, Indiana University, Bloomington

Haeussler, Alice M. (1997), Adjunct Professor of Anthropology; BA, University of Pennsylvania; MA, PhD, Arizona State University

Haggerson, Nelson L. (1961–63; 1964), Professor Emeritus of Curriculum and Instruction; BA, Vanderbilt University; MS, New Mexico Western College, Silver City; PhD, Claremont Graduate School

Haglund, LaDawn (2005), Assistant Professor of Justice and Social Inquiry; PhD, New York University

Hajicek, James (1976), Professor of Art; BFA, Kansas City Art Institute; MFA, University of New Mexico

Hakac, John (1966), Professor Emeritus of English; AB, Centre College; MA, PhD, University of Texas at Austin

Halverson, Roy K. (1988), Professor Emeritus of Journalism and Mass Communication; BS, MS, University of Wisconsin, Madison; PhD, University of Illinois

Hamilton, Robert (1980), Professor of Music; BM, Indiana University, Bloomington; MM, Catholic University of America

Hammond, Philip C. (1996), Adjunct Professor of Anthropology; BA, Drew University; MA, PhD, Yale University

Hanish, Laura (1997), Associate Professor of Family and Human Development; BS, Arizona State University; MA, PhD, University of Illinois, Chicago

Hanna, Albert Lyle (1967), Professor Emeritus of Music; BM, University of Cincinnati; PhD, Indiana University, Bloomington

Hanna, Michelle M. (2001), Adjunct Professor of Life Sciences; BS, Arizona State University; PhD, University of California, Davis

Hansen-Kaucheck, Marian, Lieutenant Colonel (Ret.) (2004), Assistant Professor of Military Science; BS, University of Wisconsin, Madison; MA, Webster University

Hanson, Randel D. (1999), Assistant Professor of Justice and Social Inquiry; BA, PhD, University of Minnesota

Happel, Stephen K. (1975), Professor of Economics; BA, University of Missouri; MA, PhD, Duke University

Hardert, Ronald A. (1966), Professor Emeritus of Sociology; AB, MA, University of Cincinnati; PhD, Indiana University, Bloomington

Hardt, Annanelle (1968), Professor Emerita of Curriculum and Instruction; BA, Southwestern University; MA, Cornell University; PhD, University of Texas at Austin

Haried, Andrew A. (1969), Professor Emeritus of Accountancy; BA, Hastings College; MAS, PhD, University of Illinois; CPA, Arizona, Illinois, North Carolina

Harlan, Sharon L. (1998), Associate Professor of Sociology; BA, Northeastern University; MA, PhD, Cornell University

Harrington, Rodney E. (1992), Professor Emeritus of Life Sciences; AB, University of South Dakota; PhD, University of Washington

Harris, Jerry D. (1972), Professor Emeritus of Psychology in Education; BS, Illinois State University; PhD, University of Minnesota, Twin Cities

Harris, Joseph (1963), Professor Emeritus of Chemistry and Biochemistry; BS, University of Maryland; MA, PhD, Johns Hopkins University

Harris, Kathryn M. (1965), Professor Emerita of English; BA, MA, Arizona State University

Harris, Mark (1980), Professor Emeritus of English; BA, MA, University of Denver; PhD, University of Minnesota, Twin Cities

Harris, Walter Jr. (1980), Professor Emeritus of Music; BS, Knoxville College; MM, PhD, University of Minnesota, Twin Cities

Harrison, Jon F. (1990), Professor of Life Sciences; Associate Director, Facilities, School of Life Sciences; BS, University of Toronto (Canada); MS, University of Pittsburgh; PhD, University of Colorado

Harrison, Marsha (2000), Lecturer of Curriculum and Instruction; BA, MEd, PhD, Arizona State University

Hartman, Don L. (2002), Faculty Associate of Planning; BFA, Maryland Institute College of Art

Hartman, Thomas S. (1990), Associate Professor of Architecture and Landscape Architecture; DPLG, Paris School of Beaux Arts (France)

Hartnett, Hilairy (2003), Assistant Professor of Chemistry and Biochemistry, and Geological Sciences; BS, Vassar; MS, PhD, University of Washington

Harzig, Christiane (2005), Associate Professor of History; MA, Free University of Berlin (Germany); PhD, Technical University of Berlin (Germany)

Hassett, Matthew J. (1966), Professor Emeritus of Mathematics and Statistics; BS, Fordham University; MS, PhD, Rutgers, The State University of New Jersey

Hastings, Vernon L. (1973), Professor Emeritus of Construction; BSME, University of Nebraska; MSIE, Oklahoma A&M University

Hatfield, Mary M. (1988), Professor Emerita of Curriculum and Instruction; BS, MS, PhD, University of Kansas

Häussermann, Ulrich (2005), Assistant Professor of Chemistry and Biochemistry; MS, Stuttgart University (Germany); PhD, Swiss Federal Institute of Technology (Switzerland)

Haydel, Shelley (2005), Assistant Professor of Life Sciences; BS, Louisiana Technical University; Phd, University of Alabama, Birmingham

Hayden, John (2000), Adjunct Professor of Life Sciences; BS, MS, Michigan State University; PhD, University of Missouri

Hayes, Colleen (1998), Senior Lecturer of Computer Information Systems; BS, MBA, Arizona State University

Hayes, Mark (1996), Associate Professor of Chemistry and Biochemistry; BA, Humboldt State University; PhD, Pennsylvania State University

Haygood, Robert C. (1970), Professor Emeritus of Psychology; BS, University of Illinois; MS, PhD, University of Utah

Haynes, Peter (1975), Professor of Justice and Social Inquiry; BS, University of Southampton (United Kingdom); MA, PhD, University of Toronto (Canada)

Hazel, Jeffrey R. (1975), Professor Emeritus of Life Sciences; BA, College of Wooster; MS, PhD, University of Illinois

He, Jiping (1994), Professor of Bioengineering; BS, Huazhong University of Science and Technology, Wuhan (China); MS, PhD, University of Maryland

He, Leping (2003), Assistant Librarian, Technical Services; BA, East China Normal University; MLS, Emporia State University

Head, K. Brad (2002), Assistant Professor of Aerospace Studies; BS, United States Air Force Academy

Hechter, Michael (2005), Foundation Professor of Global Studies; Associate Chair, Graduate Programs, Department of Global Studies; AB, Columbia University; BA, Arizona State University; MA, University of Oxford (United Kingdom); PhD, Columbia University

Heckman, Christopher (2004), Lecturer of Mathematics and Statistics; BS, University of Nebraska, Lincoln; PhD, Georgia Institute of Technology

Hedrick, Philip W. (1992), Virginia A. Ullman Professor of Natural History and the Environment; Professor of Life Sciences; BA, Hanover College; MS, PhD, University of Minnesota

Heenan, Katherine L. (1998), Senior Lecturer of English; BA, California State University, Chico; MA, PhD, University of Connecticut, Storrs

Hegmon, Michelle (1995), Professor of Anthropology; BA, University of Virginia; MA, PhD, University of Michigan

Heier, William D. (1966), Professor Emeritus of Management; BS, University of Maryland; MA, George Washington University; PhD, American University

Heinrichs, Kristinn (2005), Lecturer of Kinesiology; BS, Marquette University; MS, PhD, University of Virginia

Hejduk, Renata (1999), Assistant Professor of Architecture and Landscape Architecture; BA, Barnard College; MA, Tufts University; PhD, Harvard University

Held, Peter (2003), Associate Museum Professional; Curator, Ceramics Research Center; BS, State University College, Brockport; MA, Oregon State University

Heller, Jules (1976), Professor Emeritus of Art; Dean Emeritus, Herberger College of Fine Arts; BA, Arizona State University; MA, Columbia University; PhD, University of Southern California

Helms, Loyce Randel (1976), Professor of English; BA, University of California, Riverside; PhD, University of Washington

Helms-Tillery, Stephen (2000), Assistant Professor of Bioengineering; BS, Arizona State University; PhD, University of Minnesota

Helmstadter, Gerald C. (1959), Professor Emeritus of Education; BS, MS, Iowa State University; PhD, University of Minnesota, Twin Cities

Helton, Jon C. (1973), Professor Emeritus of Mathematics and Statistics; BS, Southwest Texas State College; MA, PhD, University of Texas at Austin

Hembree, Gary G. (1986), Senior Research Scientist of Physics and Astronomy; BA, University of California, San Diego; PhD, Arizona State University

Hendrick, Thomas E. (1984), Professor Emeritus of Supply Chain Management; BS, MBA, University of Washington; PhD, University of Oregon

Hendrickson, Lester E. (1968), Professor Emeritus of Materials Science and Engineering; BS, MS, Michigan Technological University; PhD, University of Illinois

Hendrickson, Suzanne B. (1990), Senior Lecturer of French; BS, MA, Louisiana State University, Baton Rouge; PhD, Washington University

Hendrickson, William L. (1976), Professor Emeritus of French; BA, Arizona State University; MA, University of Kansas; PhD, Princeton University

Henkel, Ray (1966), Professor Emeritus of Geography; BS, Arizona State University; MS, PhD, University of Wisconsin, Madison

Henn, Alexander (2005), Associate Professor of Global Studies and Religious Studies; MA, University of Heidelberg, Institute for Technology (Germany); PhD, Johannes-Gutenberg University, Mainz (Germany)

Hennington, Jo Ann (1975), Professor Emerita of Management Communication; BA, MBA, EdD, Arizona State University

Henry, Joseph (1988), Professor Emeritus of Engineering; BS, West Virginia University; MS, PhD, University of Michigan

Herald, Cherry L. (1973), Research Professor, Cancer Research Institute; Associate Director, Cancer Research Institute; BS, MS, PhD, Arizona State University

Herald, Delbert L. (1973), Research Professor, Cancer Research Institute; BA, University of Colorado; PhD, Arizona State University

Herbots, Nicole (1991), Associate Professor of Physics and Astronomy; Engineering Degree, PhD, Catholic University of Louvain (Belgium)

Herckes, Pierre (2004), Assistant Professor of Chemistry and Biochemistry; PhD, Strasbourg University (France)

Herman, George R. (1956), Professor Emeritus of English; MA, University of Kansas

Herman, Richard M. (1992), Research Professor of Bioengineering; BS, Case Western Reserve University; MB, BCh, BAO, Queen's University Faculty of Medicine (United Kingdom)

Hernandez, Armand P. (1974), Professor Emeritus of Justice and Social Inquiry; BA, MA, San Jose State University; EdD, University of Southern California

Hernández-G., Manuel de Jesús (1992), Associate Professor of Spanish; BA, University of California, San Diego; MA, PhD, Stanford University

Herrendorf, Berthold (2003), Associate Professor of Economics; BS, University of Bonn (Germany); MA, Indiana University; PhD, European University Institute (Italy)

Herrera, Richard (1989), Associate Professor of Political Science; BA, MA, Saint Mary's University; PhD, University of California, Santa Barbara

Herrera, Tamara (2002), Professor of Legal Writing; BA, Grinnell College; JD, University of Nebraska

Herring, Donald E. (1999), Clinical Associate Professor of Industrial Design; BA, American University; BSD, MSD, Arizona State University

Herrington, Scott S. (1982), Librarian, Library Information Systems and Technology; BA, State University of New York, Plattsburgh; MLS, University of Tennessee; PhD, Arizona State University

Herrmann, Achim D. (2005), Honors Faculty Fellow; MS, University of Heidelberg (Germany); PhD, Pennsylvania State University

Hershauer, James C. (1969), Professor of Management; BS, Purdue University; MBA, DBA, Indiana University, Bloomington

Hertzel, Michael G. (1987), Professor of Finance; BA, MBA, MS, University of Rochester; PhD, University of Oregon

Hervig, Richard L. (1981), Professor of Geological Sciences; BS, University of Iowa; PhD, University of Chicago

Hestenes, David O. (1966), Professor Emeritus of Physics and Astronomy; BA, Pacific Lutheran College; MA, PhD, University of California, Los Angeles

Hester, John J. "Jeff" (1991), Professor of Physics and Astronomy; BA, MS, PhD, Rice University

Heydt, Gerald Thomas
(1995)
Regents' Professor of Electrical Engineering; Director, Center for Advanced Control of Energy and Power Systems; BSEE, Cooper Union University; MSEE, PhD, Purdue University

Heys, Jeffery (2004), Assistant Professor of Chemical Engineering; BS, Montana State University; MS, PhD, University of Colorado, Boulder

Heywood, William M. (1997), Adjunct Professor of Visual Communication Design; BFA, Minneapolis College of Art and Design; MS, Arizona State University; PhD, Fielding Institute

Hickman, David R.
(1982)
Regents' Professor of Music; BM, University of Colorado; MM, Wichita State University

Higgins, Norman C. (1968), Professor Emeritus of Educational Media and Computers; BS, Central Missouri State College; MS, PhD, Syracuse University

Higgins, Walter T. Jr. (1967), Professor Emeritus of Electrical Engineering; BEE, Manhattan College; MS, PhD, University of Arizona

Hill, Gary W. (1999), Professor of Music; Director of Bands; BME, MM, University of Michigan

Hillman, Amy (2001), Associate Professor of Management; BA, Trinity University; MBA, University of the Incarnate Word; PhD, Texas A&M University

Hindman, Matthew (2004), Assistant Professor of Political Science; BA, Willamette University; PhD, Princeton University

Hinds, David S. (2002), Assistant Professor of African and African American Studies; BA, University of the District of Columbia; MA, PhD, Howard University

Hinrichs, Richard N. (1987), Associate Professor of Kinesiology; AB, Oberlin College; MA, University of Iowa; PhD, Pennsylvania State University

Hinshaw, Arthur (2004), Associate Clinical Professor of Law; Director, Lodestar Dispute Resolution Program; AB, Washington University; JD, LLM, University of Missouri, Columbia

Hirleman, Edwin D. Jr. (1977), Professor Emeritus of Mechanical and Aerospace Engineering; BSME, MSME, PhD, Purdue University

Hirt, Paul W. (2004), Associate Professor of History; BA, MA, PhD, University of Arizona

Hoekstra, Valerie (2002), Assistant Professor of Political Science; BA, California State University, Long Beach; MA, PhD, State University of New York, Stony Brook

Hoffer, Warren W. (1972), Professor Emeritus of Music; BM, MM, University of Wisconsin, Madison

Hoffman, Dan (1999), Professor of Architecture and Landscape Architecture; BArch, Cooper Union

Hoffman, David R. (1981–1989; 1995), Lecturer of Finance; BS, Iowa State University; MBA, Arizona State University

Hoffman, Dennis L. (1979), Professor of Economics; Associate Dean, Doctoral Programs, W. P. Carey School of Business; Director, L. William Seidman Research Institute; BS, Grand Valley State University; MA, PhD, Michigan State University

Hoffman, Steven A. (1985), Associate Professor of Life Sciences; BA, Clark University; MA, PhD, University of Colorado

Hoffmeister, J. Ronald (1983), Associate Professor of Finance; BS, Millikin University; MS, PhD, University of Illinois

Hofstetter, Sheila (2004), Assistant Librarian; BA, Bluffton College; MLS, Western Michigan University

Hogan, Fiona (1984), Assistant Research Professor, Cancer Research Institute; BSc, MSc, PhD, University College, Dublin (Ireland)

Hogan, Timothy D. (1970), Professor Emeritus of Economics; AB, University of California, Berkeley; MA, University of California, Davis; PhD, Virginia Polytechnic Institute and State University

Hogg, Gary L. (1995), Professor of Industrial Engineering; Chair, Department of Industrial Engineering; BS, Texas A&M University; MS, PhD, University of Texas at Austin

Hogue, Brenda (2002), Associate Professor of Life Sciences; BA, Mississippi University; MEd, Duke University; PhD, University of Tennessee

Hogue, Cynthia (2003), Maxine and Jonathan Marshall Professor of English; Chair, Modern and Contemporary Poetry; BA, Oberlin College; MAH, State University of New York, Buffalo; PhD, University of Arizona

Hokin, Jeanne (1997), Senior Lecturer Emerita of Art; BA, PhD, University of California, Santa Barbara

Holbert, Keith E. (1989), Associate Professor of Electrical Engineering; BS, MS, PhD, University of Tennessee

Holbrook, Amy K. (1975), Associate Professor of Music; BA, MA, Mills College; PhD, University of Washington

Holian, Anna Marta (2004), Assistant Professor of History; BA, MA, PhD, University of Chicago

Hölldobler, Bert (2005), Professor of Life Sciences; DrRerNat, Würzburg University (Germany); DrHC, University of Konstanz (Germany)

Holle, Ronald L. (2003), Adjunct Professor of Geography; BS, MS, Florida State University

Holloway, Allen Jr. (1992), Adjunct Professor of Bioengineering; BA, Yale University; MD, Harvard University

Holloway, John R. (1969), Professor of Chemistry and Biochemistry and Geological Sciences; BS, University of Oregon; PhD, Pennsylvania State University

Holloway, Victoria (1995), Professor Emerita of Theatre; BA, Boise State University

Holway, James (2004), Faculty Associate of Planning

Hom, Peter W. (1984), Professor of Management; BA, New York University; MA, University of California, Berkeley; PhD, University of Illinois

Homa, Donald L. (1975), Professor of Psychology; BS, University of Iowa; MS, PhD, University of Wisconsin, Madison

Homer, Judith (1998), Clinical Associate Professor of Psychology in Education; Director, Counselor Training Center; BA, MS, PhD, University of Oklahoma

Honegger, Gitta (2001), Professor of Theatre; PhD, University of Vienna (Austria)

Hoober, J. Kenneth (1991), Professor Emeritus of Life Sciences; Director, Molecular Biosciences and Biotechnology Program; BA, Goshen College; MS, PhD, University of Michigan

Hood, Mary (2004), Assistant Professor of Art; BFA, Ringling School of Art and Design; MFA, University of Dallas

Hood, Stafford (1992), Professor of Psychology in Education; Associate Dean for Research, College of Education; BA, MS, University of Wisconsin, Whitewater; PhD, University of Illinois

Hoover, Helene M. (1957), Professor Emerita of Family and Human Development; BS, MS, Louisiana State University; EdD, Oklahoma State University

Hope, Diane (1997), Assistant Research Professor of Life Sciences; CAP LTER Field Project Manager, Global Institute of Sustainability; BS, University of London (United Kingdom); MS, PhD, University of Aberdeen (United Kingdom)

Horan, Elizabeth R. (1989), Professor of English; BA, Barnard College; PhD, University of California, Santa Cruz

Horan, John J. (1985), Professor of Psychology in Education; AB, MA, University of Detroit; PhD, Michigan State University

Horwath, Peter (1973), Professor of German; Abitur, Realgymnasium, Landshut (Germany); BA, MA, Indiana University, Bloomington; PhD, University of Michigan

Hoskisson, Robert E. (2004), Professor of Management; The W. P. Carey Chair, Department of Management; BS, MA, Brigham Young University; PhD, University of California, Irvine

Hotelling, Katsuko T. (1991), Associate Librarian, Technical Services Department; BA, MA, University of North Carolina at Chapel Hill; MA, University of Oregon

Houston, Sandra L. (1984), Professor of Civil and Environmental Engineering; Chair, Department of Civil and Environmental Engineering; BS, University of Oklahoma; MSCE, University of New Mexico; PhD, University of California, Berkeley

Houston, William N. (1984), Professor Emeritus of Civil and Environmental Engineering; Professional Degree in Geological Engineering, Colorado School of Mines; MSCE, PhD, University of California, Berkeley

Howard, John B. (2004), Librarian; Associate Dean, University Libraries; BA, Connecticut College; MLS, University of Rhode Island; MA, PhD, Bryn Mawr College

Howard, Pamela (1996), Lecturer of Speech and Hearing Science; BA, MA, California State University, Fresno

Howells, Edmund G. (1960), Professor Emeritus of Philosophy; BA, University of Utah; MA, University of Michigan; MA, Middlebury College; PhD, Stanford University

Hu, Qiang (2001), Assistant Research Professor of Life Sciences; BS, Hubei University (China); MS, Institute of Hydrobiology, Chinese Academy of Sciences (China); PhD, Ben-Gurion University of the Negev (Israel)

Huang, Dijiang (2005), Assistant Professor of Computer Science and Engineering; PhD, University of Missouri, Kansas City

Hubbard, Paul G. (1950), Professor Emeritus of History; AB, Wabash College; MA, PhD, University of Illinois

Hubele, Norma F. (1984), Professor of Industrial Engineering; Director, Strategic Initiatives, Ira A. Fulton School of Engineering; BS, University of Massachusetts; MS, PhD, Rensselaer Polytechnic Institute

Hudak, Thomas (1988), Professor of Anthropology; BA, MA, University of Wisconsin, Madison; PhD, University of Michigan

Hudelson, Sarah J. (1989), Professor of Curriculum and Instruction; Senior Associate Dean for Academic Programs and Personnel, College of Education; BA, College of Wooster; MA, PhD, University of Texas at Austin

Huey, Ben M. (1979), Associate Professor of Computer Science and Engineering; Associate Dean, Planning and Administration, Ira. A. Fulton School of Engineering; BS, Harding College; MS, PhD, University of Arizona

Huff, Robert A. (1985), Professor Emeritus of Education; BA, University of Kansas; MA, University of Missouri, Kansas City; EdD, University of Oregon

Hui, Joseph Y. (1999), Professor of Electrical Engineering; BS, MS, PhD, Massachusetts Institute of Technology

Huizingh, William (1959), Professor Emeritus of Accountancy; BSBA, MBA, University of Denver; PhD, University of Michigan; CPA, Arizona, Colorado

Humphrey, Ted (1966), Professor of Philosophy and Barrett Professor of Barrett Honors College; AB, MA, University of California, Riverside; PhD, University of California, San Diego

Humphreys, Jere T. (1987), Professor of Music; BM, University of Mississippi; MM, Florida State University; PhD, University of Michigan

Hunnicutt, Kay Hartwell (1975), Associate Professor of Educational Leadership and Policy Studies; Associate Director, Division of Educational Leadership and Policy Studies; Academic Program Coordinator, DELTA Doctorate and EdD in Educational Administration and Supervision; BS, MA, Murray State University; PhD, Southern Illinois University, Carbondale; JD, Arizona State University

Hunter, Betty A. (1966), Professor Emerita of Family and Human Development; BS, MEd, University of North Carolina at Greensboro

Hurlbert, Glenn (1990), Associate Professor of Mathematics and Statistics; BS, Wake Forest University; MSc, State University of New York, Stony Brook; PhD, Rutgers, The State University of New Jersey

Husman, Jenefer (2002), Assistant Professor of Psychology in Education; BS, Evergreen State College, Olympia; MA, PhD, University of Texas at Austin

Huston, Gerald D. (1962), Professor Emeritus of Computer Information Systems; BSC, MA, PhD, University of Iowa

Hutt, Michael D. (1982), Ford Motor Company Distinguished Professor of Marketing; BBA, MBA, Ohio University; PhD, Michigan State University

Hwang, Yuhchang (1995), Associate Professor of Accountancy; BA, Fu-Jen Catholic University (Taiwan); MS, National Cheng-Chi University (Taiwan); PhD, University of California, Berkeley

I

Iasemidis, Leon D. (2000), Associate Professor of Bioengineering; BS, National Technical University of Athens (Greece); MS, PhD, University of Michigan

Idso, Sherwood J.B. (1984), Adjunct Professor of Geography and Life Sciences; Research Physicist, U.S.D.A. Agricultural Research Service; BS, MS, PhD, University of Minnesota

Iheduru, Okechukwu (2004), Professor of Political Science; BSc, University of Nigeria; MA, University of Akron; PhD, University of Connecticut

Ihrig, Edwin (1979), Professor of Mathematics and Statistics; BS, MA, University of Maryland; PhD, University of Toronto (Canada)

Ingalls, Todd (2000), Assistant Research Professor of Arts, Media, and Engineering; BM, MM, Arizona State University

Ingram, David (1998), Professor of Speech and Hearing Science; BS, Georgetown University; PhD, Stanford University

Ingram, Kelly D. (1998), Clinical Assistant Professor of Speech and Hearing Science; BA, University of British Columbia (Canada); MS, Purdue University

Inskeep, Gordon C. (1968), Professor Emeritus of Management; BChE, Ohio State University; PhD, Columbia University

Isaac, Gwyneira (2002), Assistant Professor of Anthropology; BFA, University of Michigan; MP, PhD, Oxford University (United Kingdom)

Isom, Matthew (1996), Senior Lecturer of Mathematics and Statistics; Director of First-Year Mathematics and Statistics; BA, Humbolt State University; MA, PhD, University of Northern Colorado

Itule, Bruce D. (1985), Clinical Professor of Journalism and Mass Communication; BA, University of Arizona; MA, University of Colorado

Iverson, Peter
(1986)
Regents' Professor of History; BA, Carleton College; MA, PhD, University of Wisconsin, Madison

Iyer, Govind (1998), Associate Professor of Computer Information Systems; BS, University of Bombay (India); MTx, PhD, Georgia State University

J

Jabbour, Ghassan (2004), Professor of Materials Engineering; BS, Northern Arizona University; MS, PhD, University of Arizona

Jackiewicz, Elzbieta (1994), Lecturer of Mathematics and Statistics; MSc, University of Gdansk (Poland)

Jackiewicz, Zdzislaw (1987), Professor of Mathematics and Statistics; MS, Technical University of Gdansk (Poland); MS, PhD, University of Gdansk (Poland)

Jacks, Mary L. (1955), Professor Emerita of Supply Chain Management; BA, MA, Arizona State University; CPS, Arizona

Jackson, Donald W. Jr. (1972), Professor of Marketing; BA, Albion College; MBA, PhD, Michigan State University

Jackson, Naomi M. (1995), Associate Professor of Dance; BA, McGill University (Canada); MA, University of Surrey (United Kingdom); PhD, New York University

Jacob, Richard J. (1963), Professor Emeritus of Physics and Astronomy; BS, PhD, University of Utah

Jacobowitz, Ronald (1970), Professor Emeritus of Mathematics and Statistics; BA, City College of New York; MS, University of Chicago; PhD, Princeton University

Jacobs, Bertram L. (1985), Professor of Life Sciences; BS, Rutgers, The State University of New Jersey; PhD, University of California, Berkeley

Jacobs, H. Donald (1972), Professor Emeritus of Curriculum and Instruction; Director, Reading Clinic; BAEd, MAEd, Central Washington State College; DEd, University of Oregon

Jacobs, Mark (2003), Professor of Life Sciences; Dean, Barrett Honors College; BA, Harvard University; PhD, Stanford University

Jacobson, Arthur (1956), Professor Emeritus of Art; BS, MS, University of Wisconsin, Madison; PhD, University of Minnesota, Twin Cities

Jacobson, David (1992), Professor of Global Studies; Director, Department of Global Studies; BA, Hebrew University of Jerusalem, (Israel); MSc, London School of Economics (United Kingdom); PhD, Princeton University

Jacobson, Dean L. (1974), Professor Emeritus of Materials Science and Engineering; BS, MS, University of Notre Dame; PhD, University of California, Los Angeles

Jain, Nemi C. (1976), Professor of Communication; BS, MS, Agra University (India); PhD, Michigan State University

Jakob, John H. (1960), Professor Emeritus of Architecture and Landscape Architecture; BArch, Ohio State University; MSArch, Columbia University

Jalali-Farahani, Bahar (2005), Assistant Professor of Electrical Engineering; BSc, MSc, University of Tehran (Iran); PhD, Ohio State University

James, Jodi (2003), Assistant Research Professor of Arts, Media, and Engineering; BA, BS, Hope College; MA, University of Utah

James, Mark A. (2005), Assistant Professor of English; BA, MEd, University of Windsor (Canada); PhD, University of Toronto (Canada)

Jankowski, Daniel F. (1964), Professor Emeritus of Mechanical and Aerospace Engineering; BSE, MSE, PhD, University of Michigan

Janssen, James G. (1968), Professor Emeritus of English; BA, MA, Marquette University; PhD, University of Wisconsin, Madison

Janssen, Marcus A. (2005), Assistant Professor of Ecological Modeling and Computer Science and Engineering; MA, Erasmus University (The Netherlands); PhD, Maastricht University (The Netherlands)

Jarvis, Cheryl Burke (2000), Assistant Professor of Marketing; BS, MS, Texas A&M University; PhD, Indiana University

Jay, William (Bill) (1974), Professor Emeritus of Art; Diploma, Institute of Incorporated Photographers, Berkshire College of Art (United Kingdom); Final Diploma, City and Guildes of The London Institute, Berkshire College of Art (United Kingdom); MA, MFA, University of New Mexico

Jehn, Megan (2004), Assistant Professor of Health Management and Policy; BS, Arizona State University; MHS, PhD, Johns Hopkins University

Jelinek, James (1953), Professor Emeritus of Education; BS, University of Illinois; MA, Northwestern University; EdD, Indiana University, Bloomington

Jenkins, William (1979), Associate Professor of Art; BA, Saint Lawrence University; MFA, State University of New York, Buffalo

Jennings, Marianne M. (1977), Professor of Legal and Ethical Studies; BS, JD, Brigham Young University

Jiang, Danwen (2003), Assistant Professor of Violin; BM, St. Louis Conservatory of Music; MM, Rutgers, The State University of New Jersey; AD, Oberlin College

Jiang, Nan (2000), Associate Research Scientist of Physics and Astronomy; BSc, Jilin University (China); MS, Chinese Science Academy (China); PhD, University of Birmingham (United Kingdom)

Joehnk, Michael D. (1982), Professor Emeritus of Finance; BS, University of Arizona; MBA, Arizona State University; PhD, University of Arizona

Joganic, Edward F. (1996), Adjunct Professor of Speech and Hearing Science; BS, MS, MD, University of Arizona

Johannes, Tricia (1998), Faculty Associate of Interior Design; BSD, Arizona State University

Johanson, Donald C. (1997), Professor of Anthropology; Director, Institute of Human Origins; BA, University of Illinois, Urbana-Champaign; MA, PhD, University of Chicago

Johnson, Alan P. (1967), Professor Emeritus of English; BA, Amherst College; MA, University of Michigan; PhD, University of Minnesota, Twin Cities

Johnson, Douglas A. (1974), Professor of Accountancy; BBA, PhD, University of Texas; CPA, Texas

Johnson, John M. (1972), Professor of Justice and Social Inquiry; BA, Indiana University, Bloomington; MA, San Diego State College; PhD, University of California, San Diego

Johnson, Julia K. (2004), Lecturer of Geological Sciences; BS, MS, Arizona State University

Johnson, Linda Nelson (1985), Associate Professor of Interior Design; BA, MA, Iowa State University

Johnson, Paul C. (1994), Professor of Civil and Environmental Engineering; Associate Vice President for Research, Research and Economic Affairs; BS, University of California, Davis; MA, PhD, Princeton University

Johnson, Robert A. (1991), Adjunct Professor of Life Sciences; BS, MS, University of Illinois, Urbana-Champaign; PhD, Arizona State University

Johnson, Roy M. (1952–53; 1955), Professor Emeritus of Life Sciences; AB, MS, University of Chicago; PhD, University of New Mexico

Johnson, William G. (1990), Professor of Health Management and Policy; BS, University of Pennsylvania; MA, Temple University; PhD, Rutgers, The State University of New Jersey

Jones, Anne Trinkle (2004), Adjunct Professor of Anthropology; BA, Northern Arizona University; MA, Arizona State University

Jones, Austin E. (1968), Professor Emeritus of Psychology; BA, University of Illinois; MS, Purdue University; PhD, University of Rochester

Jones, Brad (2001), Faculty Associate of Visual Communication Design; BSD, Arizona State University

Jones, Don (1996), Associate Professor of Mathematics and Statistics; Associate Chair, Undergraduate Studies; BS, MS, Georgia Institute of Technology; PhD, University of California, Irvine

Jones, Elizabeth E. K. (1996), Lecturer of Mathematics and Statistics; BS, MA, University of Texas; PhD, Arizona State University

Jones, John (1990), Associate Professor of Mathematics and Statistics; AB, University of California, Berkeley; PhD, Harvard University

Jones, Marion K. (1970), Professor Emerita of Dance; BA, Wayne State University; MA, Arizona State University

Jones, Nancy (2003), Academic Associate, Global Institute of Sustainability; BS, Old Dominion University

Jones, Ruth S. (1981), Professor of Political Science; Vice Provost; BS, Indiana State University; MA, PhD, Georgetown University

Jonsson, Hjorleifur (1999), Associate Professor of Anthropology; BA, University of Iceland; MA, University of Iowa; MA, PhD, Cornell University

Joo, Youngjoong (2001), Assistant Professor of Electrical Engineering; BS, MS, Korea University (South Korea); PhD, Georgia Institute of Technology

Jordan, K. Forbis (1987), Professor Emeritus of Educational Administration and Supervision; AB, MA, Western Kentucky State College; EdD, Indiana University

Joshi, Lokesh (2000), Associate Professor of Bioengineering; BS, MS, University of Rajasthan (India); PhD, University of Bath (United Kingdom)

Joyce, Jeffery N. (2000), Adjunct Professor of Life Sciences; BS, PhD, University of Florida, Gainesville

Juergens, Jennifer L. (2001), Assistant Professor of Finance; BS, PhD, The Pennsylvania State University

Jung, Ranu (2002), Associate Professor of Bioengineering; BTech, Regional Engineering College, Warangal, Andhra Pradesh (India); MS, PhD, Case Western Reserve University

Jurik, Nancy (1981), Professor of Justice and Social Inquiry; BA, MA, Southern Methodist University; PhD, University of California, Santa Barbara

Jurs, James E. (2003), Clinical Associate Professor of Educational Leadership and Policy Studies; Academic Program Coordinator, MEd in Educational Administration and Supervision; BA, Western Illinois University; MSEd, Northern Illinois University; EdD, Arizona State University

Justus, Jerry T. (1968), Professor Emeritus of Life Sciences; BA, Franklin College; MA, PhD, Indiana University, Bloomington

Juvet, Richard S. Jr. (1970), Professor Emeritus of Chemistry and Biochemistry; BS, PhD, University of California, Los Angeles

K

Kadell, Kevin (1981), Professor of Mathematics and Statistics; BA, California State University, Sacramento; MA, University of Maryland; PhD, Pennsylvania State University

Kader, David (1979), Professor of Law; BA, California State University, Fresno; JD, University of Washington; LLM, University of London (United Kingdom)

Kagy, Virginia L. (1947), Professor Emerita of Family and Human Development; BA, Drake University; MS, Iowa State University; PhD, Johns Hopkins University

Kahn, B. Winston (1966), Professor Emeritus of History; BA, National Taiwan University (Taiwan); MA, University of Minnesota, Twin Cities; PhD, University of Pennsylvania

Kaida, Tamarra (1980), Professor Emerita of Art; BA, Goddard College; MFA, State University of New York, Buffalo

Kajikawa, William M. (1937), Professor Emeritus of Kinesiology; BA, MA, Arizona State University

Kalika, Dale (1999), Lecturer of Management; BA, Queens College; MA, University of Wisconsin; MBA, New York University

Kaliszewski, Steven (1998), Associate Professor of Mathematics and Statistics; BA, St. Olaf College; MA, PhD, Dartmouth College

Kaloush, Kamil E. (2001), Assistant Professor of Civil and Environmental Engineering; BS, MS, Ohio State University; PhD, Arizona State University

Kambhampati, Subbarao (1991), Professor of Computer Science and Engineering; BTech, Indian Institute of Technology (India); MS, PhD, University of Maryland, College Park

Kambourov, Gueorgui (2005), Assistant Professor of Economics; BA, American University in Bulgaria; MA, PhD, University of Western Ontario (Canada)

Kamel, Nabil (2005), Assistant Professor of Planning; BS, Cairo University (Egypt); MUP, Texas A&M University; PhD, University of California

Kaminsky, Elijah Ben-Zion (1962), Professor Emeritus of Political Science; AB, AM, PhD, Harvard University

Kaminsky, Selina K. (1988), Librarian Emerita; BEd, University of Miami; MALS, University of Denver

Kaplan, Catherine (2001), Assistant Professor of History; BA, Amherst College; MA, PhD, University of Michigan

Kaplan, Robert G. (1984), Professor of Dance; BME, University of Hartford; MM, Arizona State University

Kaplan, Steven (1981), Professor of Accountancy; BS, Arizona State University; MAS, PhD, University of Illinois

Karady, George (1986), Professor of Electrical Engineering; Salt River Project Chair; Diploma, Technical University, Budapest (Hungary); Candidate of Technical Sciences, Hungarian Academy of Science (Hungary); PhD, Budapest University for Technical Sciences (Hungary)

Karam, Lina (1995), Associate Professor of Electrical Engineering; BE, American University of Beirut (Lebanon); MS, PhD, Georgia Institute of Technology

Karcher, Timothy (1989), Associate Research Professional, Center for Solid State Science; BSc, MSc, University of Wisconsin, Milwaukee

Karjala, Dennis S. (1978), Professor of Law; BSE, Princeton University; MS, PhD, University of Illinois; JD, University of California, Berkeley

Karnes, Thomas L. (1968), Professor Emeritus of History; AB, Colorado University; AM, PhD, Stanford University

Karoly, Paul (1982), Professor of Psychology; BA, City College of New York; PhD, University of Rochester

Kashiwagi, Dean T. (1992), Professor of Construction; BS, University of Hawaii, Manoa; MS, PhD, Arizona State University

Kastenbaum, Robert J. (1981), Professor Emeritus of Gerontology and Communication; BA, Long Beach State College; PhD, University of Southern California

Katsulis, Yasmina (2005), Assistant Professor of Women and Gender Studies; BA, University of Arizona; MPhil, PhD, Yale University

Katz, Richard C. (1990), Adjunct Professor of Speech and Hearing Science; BA, MA, University of Massachusetts; PhD, University of Florida

Kaufman, Herbert M. (1973), Professor of Finance; BA, State University of New York, Binghamton; PhD, Pennsylvania State University

Kaufman, Irving (1965), Professor Emeritus of Electrical Engineering; BE, Vanderbilt University; MS, PhD, University of Illinois

Kaufmann, William B. (1968), Professor Emeritus of Physics and Astronomy; AB, MA, PhD, University of California, Berkeley

Kavazanjian, Edward (2004), Associate Professor of Civil and Environmental Engineering; SB, SM, Massachusetts Institute of Technology; PhD, University of California, Berkeley

Kawski, Matthias (1988), Professor of Mathematics and Statistics; PhD, University of Colorado

Kaye, David H.
(1976)
Regents' Professor of Law; BS, Massachusetts Institute of Technology; MA, Harvard University; JD, Yale University

Kazilek, Charles J. (1985), Senior Research Professional of Life Sciences; BFA, MNS, Arizona State University

Kazmier, Leonard J. (1965), Professor Emeritus of Economics; BA, MA, Wayne State University; PhD, Ohio State University

Keane, John L. (1994), Faculty Associate of Planning; BA, Cornell University; MS, Arizona State University

Kearney, James R. III (1968), Professor Emeritus of History; BA, Pomona College; MA, Washington University; PhD, University of Wisconsin, Madison

Keating, Thomas (1972), Associate Professor of Political Science; BA, MA, California State University, Sacramento; MPA, PhD, Indiana University

Keats, Barbara W. (1984), Associate Professor of Management; BA, Louisiana Technical University; MS, Northeast Louisiana University; PhD, Oklahoma State University

Keats, J. Bert (1984), Professor Emeritus of Industrial Engineering; BSIE, Lehigh University; MS, PhD, Florida State University; PhD, Oklahoma State University

Keefer, Donald L. (1987), Associate Professor of Supply Chain Management; BS, Carnegie Mellon University; MS, Stanford University; MS, PhD, University of Michigan

Kefeli-Clay, Agnes (2004), Lecturer of Religious Studies; AM, University of Paris IV, Sorbonne (France); MPhil, School of Higher Studies (France); PhD, Arizona State University

Keha, Ahmet (2003), Assistant Professor of Industrial Engineering; BS, MS, Middle East Technical University (Turkey); PhD, Georgia Institute of Technology

Kehl, Delmar G. (1965), Professor Emeritus of English; BA, Bob Jones University; MS, University of Wisconsin, Madison; PhD, University of Southern California

Keim, Gerald (2001), Professor of Management; Associate Dean, W. P. Carey MBA Program; BS, University of Delaware; MA, PhD, Virginia Polytechnic Institute and State University

Keim, Robert T. (1979), Associate Professor of Computer Information Systems; BS, MBA, PhD, University of Pittsburgh

Keith, Verna M. (1990), Associate Professor of Sociology; BS, University of Central Arkansas; MA, PhD, University of Kentucky

Keller, Gary D.
(1986)
Regents' Professor of Languages and Literatures; Director, Hispanic Research Center; BA, University of the Americas (Mexico); MA, New School for Social Research; MA, PhD, Columbia University

Keller, Thomas (1980), Associate Professor of Management; BEd, MEd, EdSpec, EdD, University of Toledo

Kellgren, Gary (2000), Lecturer of Mathematics and Statistics; BS, Allegheny College; MS, Southern Illinois University

Kelly, John B. (1962), Professor Emeritus of Mathematics and Statistics; BA, Columbia University; PhD, Massachusetts Institute of Technology

Kelly, Richard W. (1965), Professor Emeritus of Electrical Engineering; BSE, MSE, PhD, University of Iowa

Kennedy, Thomas D. (1974), Professor Emeritus of Justice and Social Inquiry; BA, Tulane University; MA, PhD, Louisiana State University, Baton Rouge

Kenney, Patrick J. (1986), Professor of Political Science; Chair, Department of Political Science; BA, MAPA, PhD, University of Iowa

Kenrick, Douglas T. (1980), Professor of Psychology; BA, Dowling College; MA, PhD, Arizona State University

Ketcham, Jonathan D. (2005), Assistant Professor of Health Management and Policy; BA, Baylor University; PhD, The Wharton School of Business, University of Pennsylvania

Keuter, Clifford D. (1988), Professor Emeritus of Dance

Kevane, Clement J. (1956), Professor Emeritus of Physics and Astronomy; BS, PhD, Iowa State University

Keys, Eric G. (2002), Assistant Professor of Geography; BA, Macalester College; MA, University of Texas at Austin; PhD, Clark University

Kiaei, Sayfe (2001), Professor of Electrical Engineering; Director, Connection One/WINTECH Center; BSEE, MS, PhD, Washington State University

Kierstead, Henry A. (1988), Professor of Mathematics and Statistics; BA, MA, PhD, University of California, San Diego

Kiesow, Milton A. (1957), Professor Emeritus of Education; BS, University of Wisconsin; MA, PhD, University of Nebraska, Lincoln

Kihl, Mary (1996), Professor of Planning; AB, Juniata College; MURP, University of Pittsburgh; MA, University of Michigan; PhD, Pennsylvania State University

Killeen, Peter R. (1968), Professor of Psychology; BS, Michigan State University; PhD, Harvard University

Kim, Dongrin (2001), Lecturer of Mathematics and Statistics; BSEE, University of California, San Diego; MSEE, University of California, Los Angeles; MA, California State University, Los Angeles; MA, PhD, University of Southern California

Kim, Joochul (1980), Associate Professor of Planning; BA, University of California, Berkeley; MUP, PhD, University of Michigan

Kim, Seungchan (2004), Assistant Professor of Computer Science and Engineering; BS, MS, Seoul National University (South Korea); PhD, Texas A&M University

Kim, Yuseob (2005), Assistant Professor of Life Sciences; BS, MS, Seoul National University (South Korea); PhD, University of Rochester

Kimball, Bruce A. (1988), Adjunct Professor of Life Sciences; BS, University of Minnesota; MS, Iowa State University; PhD, Cornell University

Kimbel, William H. (1997), Professor of Anthropology; Science Director, Institute of Human Origins; BA, Case Western Reserve University; PhD, Kent State University

Kimler, Stephen J. (1967), Professor Emeritus of Education; BEd, Milwaukee State Teachers College; MEd, Marquette University; EdD, Arizona State University

Kingston, Jerry L. (1969), Professor of Economics; ICA Faculty Representative; BAE, Wayne State College; MS, Colorado State University; PhD, Pennsylvania State University

Kinicki, Angelo J. (1982), Professor of Management; BBA, MBA, DBA, Kent State University

Kinnier, Richard T. (1982), Professor of Psychology in Education; Training Director, Counseling Psychology; BA, Boston College; EdM, Columbia University; PhD, Stanford University

Kintigh, Keith W. (1987), Professor of Anthropology; AB, MS, Stanford University; PhD, University of Michigan

Kinzig, Ann P. (1998), Associate Professor of Life Sciences; BS, University of Illinois, Urbana-Champaign; MS, PhD, University of California, Berkeley

Kirkman-Liff, Bradford L. (1981), Professor of Health Management and Policy; BS, MS, Carnegie Mellon University; DrPH, University of North Carolina at Chapel Hill

Kirkwood, Craig W. (1983), Professor of Supply Chain Management; SB, SM, EE, PhD, Massachusetts Institute of Technology

Kittilson, Miki (2004), Assistant Professor of Political Science; BA, Arizona State University; MA, PhD, University of California, Irvine

Kittrie, Orde (2004), Associate Professor of Law; BA, Yale University; JD, University of Michigan

Klein, James D. (1988), Professor of Psychology in Education; Academic Program Leader, Educational Technology; BA, Florida Atlantic University; MS, PhD, Florida State University

Kleinfeld, Gerald R. (1962), Professor Emeritus of History; BA, New York University; MA, University of Michigan; PhD, New York University

Klett, Mark C.
(1982)
Regents' Professor of Art; BS, Saint Lawrence University; MFA, State University of New York, Buffalo

Kliewer-Britton, Darleen (1975), Professor Emerita of Music; BME, Bethany College; MM, Wichita State University

Klock, John W. (1960), Professor Emeritus of Civil Engineering; BE, University of Southern California; MS, PhD, University of California, Berkeley

Klopatek, Jeffrey M. (1981), Professor of Life Sciences; BS, MS, University of Wisconsin, Milwaukee; PhD, Oklahoma University

Knapp, Margaret M. (1990), Professor of Theatre; Associate Dean, Research and Administration, Herberger College of Fine Arts; BA, LeMoyne College; MA, PhD, City University of New York

Knaupp, Jonathan E. (1970), Professor Emeritus of Elementary Education; BS, Oregon State University; MA, PhD, University of Illinois

Knauth, L. Paul (1979), Professor of Geological Sciences; BA, University of Chicago; PhD, California Institute of Technology

Knight, Donald O. (1981), Professor Emeritus of Industrial Engineering; BEE, Marquette University; MSE, PhD, Arizona State University

Knight, George P. (1986), Professor of Psychology; BA, Macalester College; MA, PhD, University of California, Riverside

Knight, John Costain (1965–68; 1997), Associate Research Professor, Cancer Research Institute; BSc, PhD, University of Liverpool (United Kingdom)

Knowlton, John F. (1964), Professor Emeritus of Spanish; BA, Lewis and Clark College; MA, PhD, University of Oregon

Knox, Robert L. (1963), Professor Emeritus of Economics; BS, MS, Oklahoma State University; PhD, University of North Carolina

Knudson, Kelly J. (2005), Assistant Professor of Anthropology; BA, Beloit College; MS, PhD, University of Wisconsin, Madison

Knutson, Kraig (1997), Senior Lecturer of Construction; BS, MS, PhD, Arizona State University

Kobayashi, Yoshihiro (2001), Assistant Professor of Architecture and Landscape Architecture; BArch, MArch, Waseda University (Japan); PhD, University of California, Los Angeles

Kobes, Bernard W. (1986), Associate Professor of Philosophy; BA, Calvin College; MA, PhD, University of California, Los Angeles

Koblitz, Ann Hibner (1998), Professor of Women and Gender Studies; AB, Princeton University; PhD, Boston University

Kocour, Michael (2004), Associate Professor of Music; Director, Jazz Studies; BS, University of Illinois; MM, Northwestern University

Koeneman, James B. (1984), Adjunct Professor of Bioengineering; BS, University of Minnesota; MS, PhD, Case Western Reserve University

Koka, Balaji (1999), Assistant Professor of Management; BE, Madurai Kamaraj University (India); MBA, Indian Institute of Management, Calcutta (India); PhD, University of Pittsburgh

Kolossa, Katalin (1994), Senior Lecturer of Mathematics and Statistics; BA, Eötvös University (Hungary); MA, PhD, Arizona State University

Konjevod, Goran (2000), Assistant Professor of Computer Science and Engineering; BSc, University of Zagreb (Croatia); MSc, PhD, Carnegie Mellon University

Konomos, Philip J. (1991), Learning Resource Specialist; Head, Library Information Systems and Technology; BS, MEd, Arizona State University

Koonce, Frank W. (1978), Professor of Music; BM, North Carolina School of the Arts; MM, Southern Methodist University

Koopmans, Rachel (2001), Assistant Professor of History; BA, Calvin College; MA, Northwestern University; MA, PhD, University of Notre Dame

Kopta, Anne Elgar (1999), Associate Professor of Music

Koretz, Lora (2004), Senior Lecturer of Management; BS, Western New England College; MBA, Arizona State University; JD, Suffolk University

Kortman, Sharon A. (1998), Assistant Administrative Professional of Curriculum and Instruction; Director, Beginning Educator Support Team; BA, MEd, EdD, Arizona State University

Koshinsky, Deborah H. (2000), Associate Librarian; Head, Architecture and Environmental Design Library; BA, Ohio State University; MLIS, Simmons College

Koss-Chioino, Joan D. (1992), Professor Emerita of Anthropology; BFA, Temple University; MA, PhD, University of Pennsylvania

Kostelich, Eric (1989), Professor of Mathematics and Statistics; BS, University of North Carolina; MS, PhD, University of Maryland, College Park

Kotani, Takao (2005), Associate Research Professor of Chemical and Materials Engineering; BA, Kyoto University (Japan); PhD, Osaka University (Japan)

Kouvetakis, John (1992), Professor of Chemistry and Biochemistry; BS, PhD, University of California, Berkeley

Kozacik, Dorothy Piercey (1968), Professor Emerita of Education; BA, College of St. Francis; MA, Arizona State University; PhD, University of Arizona

Kozicki, Michael (1986), Professor of Electrical Engineering; BS, PhD, University of Edinburgh (United Kingdom)

Krahenbuhl, Gary S. (1973), Professor Emeritus of Kinesiology; BS, MS, Northern Illinois University; EdD, University of Northern Colorado

Krajcinovic, Dusan (1989), Professor Emeritus of Engineering; BSc, MSc, University of Belgrade (Yugoslavia); PhD, Northwestern University

Krause, Daniel R. (2000), Associate Professor of Supply Chain Management; BA, Fort Lewis College; MBA, PhD, Arizona State University

Krause, Stephen (1981), Professor of Materials Science and Engineering; Associate Chair, Department of Chemical and Materials Engineering; BS, Northwestern University; MS, Illinois Institute of Technology; PhD, University of Michigan

Kreitner, Robert J. III (1975), Professor Emeritus of Management; BS, MBA, University of Nebraska, Omaha; PhD, University of Nebraska, Lincoln

Krinsley, David (1976), Professor Emeritus of Geological Sciences; PhB, SB, SM, PhD, University of Chicago

Kroelinger, Michael D. (1980), Professor Emeritus of Interior Design; BS, University of Alabama; MS, PhD, University of Tennessee, Knoxville

Kronenfeld, Jennie Jacobs (1990), Professor of Sociology; Chair, Department of Sociology; BA, University of North Carolina at Chapel Hill; MA, PhD, Brown University

Kronengold, Eric A. (1970), Professor Emeritus of Art; BA, MA, San Francisco State University

Krus, David J. (1975), Professor Emeritus of Psychology in Education; BA, MA, Charles University; PhD, University of Minnesota, Twin Cities

Krzys, Katherine J. (1990), Associate Archivist, Archives and Special Collections; BA, California State University, Hayward; MFA, Arizona State University

Kuang, Yang (1988), Professor of Mathematics and Statistics; Associate Chair, Graduate Studies; BS, University of Science and Technology (China); PhD, University of Alberta (Canada)

Kuby, Lauren H. (1995), Academic Associate, Communications Manager, Global Institute of Sustainability; BA, University of Chicago; MA, Arizona State University

Kuby, Michael (1988), Associate Professor of Geography; BA, University of Chicago; PhD, Boston University

Kuester, James L. (1969), Professor Emeritus of Chemical Engineering; BS, University of Texas at Austin; ME, PhD, Texas A&M University

Kugelmass, Jack (1998), Professor of Interdisciplinary Humanities; BA, McGill University (Canada); MA, PhD, New School for Social Research

Kuhlmann, Richard, Master Sergeant (2004); Senior Military Instructor of Military Science

Kuiper, Hendrik J. (1971), Professor of Mathematics and Statistics; BS, University of Wisconsin, Milwaukee; MS, MA, PhD, University of Wisconsin, Madison

Kulaga, Jeffrey A. (2001), Faculty Associate of Planning; BS, MPA, Arizona State University

Kulahci, Murat (2002), Assistant Professor of Industrial Engineering; BS, Bogazici University (Turkey); ME, Illinois Institute of Technology; MS, PhD, University of Wisconsin, Madison

Kulis, Stephen (1984), Professor of Sociology; BA, George Washington University; MA, PhD, Columbia University

Kulkarni, Uday R. (1988), Associate Professor of Computer Information Systems; BTech, Indian Institute of Technology (India); MBA, Indian Institute of Management, Calcutta (India); PhD, University of Wisconsin, Milwaukee

Kumar, Ajith (1991), Professor of Marketing; BS, Indian Institute of Technology (India); Postgraduate Diploma, Indian Institute of Management (India); PhD, University of Massachusetts

Kumar, Sudhir (1998), Associate Professor of Life Sciences; BS, MS, Birla Institute of Technology and Science (India); PhD, Pennsylvania State University

Kuo, Karen (2002), Academic Associate of Asian Pacific American Studies; BA, University of California, Santa Barbara; MA, University of California, Riverside

Kupchik, Aaron (2003), Assistant Professor of Justice and Social Inquiry; BA, Boston University; MA, PhD, New York University

Kurtz, Lynn C. (1967), Professor Emeritus of Mathematics and Statistics; BS, South Dakota School of Mines and Technology; MS, PhD, University of Utah

Kwasnoski, Michael A. (2003), Assistant Professor of Aerospace Studies; BA, Bloomsburg University; MBA, St. Mary's University

L

La Belle, Jeffrey (2002), Assistant Research Scientist of Bioengineering; BSEE, Western New England College; MS, PhD, Arizona State University

Laananen, David (1983), Professor Emeritus of Mechanical and Aerospace Engineering; BS, Worcester Polytechnic Institute; MS, PhD, Northeastern University

Ladd, Becky (2001), Associate Professor of Psychology in Education; BA, San Diego State University; MS, PhD, University of Illinois, Urbana-Champaign

Ladd, Gary W. (2001), Professor of Family and Human Development; BA, Grove City College; MS, Alfred University; EdD, University of Rochester

Laetz, Hans G. (1964), Professor Emeritus of German; BA, University of California, Berkeley; MA, PhD, Stanford University

LaFaro, Lydia E. (1988), Librarian, Hayden Reference Services; BS, Georgetown University; MLS, Emory University

Lafford, Barbara (1980), Professor of Spanish; BA, Middlebury College; MA, PhD, Cornell University

Lafford, Peter A. (1989), Associate Research Professional of Languages and Literatures; Director, Language Computing Laboratory; BA, Cornell University; MA, Arizona State University; MA, Middlebury College

Lage, Chiara (1998), Lecturer of Italian; GA Farina, Teacher's College, Vicenza (Italy); Laurea, University of Study of Urbino (Italy)

Lai, Richard T. (1973), Professor of Planning; AB, MFA, Princeton University; PhD, University of Pennsylvania

Lai, Ying-Cheng (1999), Professor of Electrical Engineering; BS, MS, Zhejiang University (China); PhD, University of Maryland, College Park

Landeira, Ricardo L. (1962), Professor Emeritus of Spanish; Bachiller Universitario, University of Santiago (Spain); Maestro Nacional, Normal School of Santiago (Spain); PhD, University of Colorado

Landers, Daniel M.
(1981)
Regents' Professor of Kinesiology; BA, San Jose State College; MS, PhD, University of Illinois

Landers, Donna M. (1988), Senior Lecturer of Kinesiology; Undergraduate Advisor; BS, State University of New York, Brockport; MS, University of Washington

Landrum, Leslie R. (1986), Senior Research Scientist of Life Sciences; BS, Syracuse University; MS, PhD, University of Michigan

Landschoot, Thomas (2001), Assistant Professor of Music; MM, Conservatory of Music, Antwerp (Belgium); MM, University of Michigan; Artist Diploma, Indiana University; Artist Diploma, Conservatory of Music, Maastricht (Netherlands)

Laner, Mary R. (1976), Professor Emerita of Sociology; AB, University of Chicago; MA, University of New Mexico; PhD, Virginia Polytechnic Institute and State University

Langenfeld, Amy (2005), Associate Clinical Professor of Law; BA, Georgetown University; JD, Arizona State University

Lanyon, Richard I. (1975), Professor of Psychology; BE, University of Adelaide (Australia); MA, PhD, University of Iowa

Lara-Valencia, Francisco (2004), Assistant Professor of Planning; BS, Autonomous University of Baja California (Mexico); MRP, The College of the Northern Border (Mexico); PhD, University of Michigan, Ann Arbor

Larimer, John W. (1969), Professor Emeritus of Geological Sciences; BA, MS, PhD, Lehigh University

Larson, Brook (2005), Senior Lecturer of Music; BA, Moorhead State University; MM, Bowling Green State University; DMA, Arizona State University

Larson, Kelli (2005), Assistant Professor of Geography; BA, MA, Southern Illinois University, Carbondale; PhD, Oregon State University, Corvalis

Larson-Keagy, Elizabeth (2004), Lecturer of Geography; BA, University of Wisconsin; MA, Louisiana State University, Baton Rouge; PhD, University of Wisconsin, Milwaukee

Lastovicka, John L. (1992), Professor of Marketing; BS, MS, PhD, University of Illinois

Laubichler, Manfred (2001), Assistant Professor of Life Sciences; MSc, University of Vienna (Austria); MPhil, Yale University; MA, Princeton University; PhD, Yale University; PhD, Princeton University

Lauderdale, Pat (1981), Professor of Justice and Social Inquiry; BA, University of Oklahoma; MA, University of Texas at Austin; MA, PhD, Stanford University

Lavrin, Asuncion (1995), Professor of History; BA, University of Havana (Cuba); MA, Radcliffe College; PhD, Harvard University

Lawrence, Christopher (2005), Lecturer of Civil and Environmental Engineering; BS, Lawrence Technological University; MS, PhD, Arizona State University

Lawson, Anton E. (1977), Professor of Life Sciences; BS, University of Arizona; MA, University of Oregon; PhD, University of Oklahoma

Le, Thuy-Kim Pham (1997), Lecturer of Vietnamese; BA, Saigon University (Vietnam); BA, MEd, Arizona State University

Leaños, John Jota (2003), Assistant Professor of Chicana and Chicano Studies; BA, MFA, San Francisco State University

Leathers, Chester R. (1957), Professor Emeritus of Life Sciences; BS, Eastern Illinois University; MS, PhD, University of Michigan

Lebed, Richard F. (2000), Assistant Professor of Physics and Astronomy; BS, Michigan State University; MA, PhD, University of California, Berkeley

Lederman, Linda C. (2006), Professor of Communication; BA, Brown University; MA, Columbia University; PhD, Rutgers, The State University of New Jersey

Lee, Deanna (2001), Assistant Professor of Accountancy; BS, University of Pennsylvania; PhD, University of Illinois

Lee, James (1997), Adjunct Professor of Life Sciences; BS, State University of New York, Stony Brook; PhD, California Institute of Technology

Lee, Joohyung (2005), Assistant Professor of Computer Science and Engineering; BS, Seoul National University (Korea); PhD, University of Texas at Austin

Lee, Nancy (1997), Adjunct Professor of Life Sciences; BS, Memphis State University; PhD, Cornell University

Lee, Peggy M. (2005), Assistant Professor of Management; BA, Stanford University; MA, PhD, University of North Carolina

Lee, Tae-woo (1993), Associate Professor of Mechanical and Aerospace Engineering; BS, Ohio State University; MSE, PhD, University of Michigan

Lee, Yann-Hang (2000), Professor of Computer Science and Engineering; BS, National Cheng Kung University (Taiwan); MS, Rensselaer Polytechnic Institute; PhD, University of Michigan

Lefevre, Mary Anne (1990), Clinical Assistant Professor of Life Sciences; BS, Arizona State University; MA, Central Michigan University

Lefler, Scott (2004), Lecturer of Chemistry and Biochemistry; BS, California Polytechnic State University, San Luis Obispo; PhD, Arizona State University

Lehman, Peter (1999), Professor of English; Director, Interdisciplinary Humanities Program; BS, MA, PhD, University of Wisconsin, Madison

Leibold, Anne M. (1977), Librarian Emerita; MA, University of Paris (France)

Leigh, Frederic A. (1979), Senior Administrative Professional and Clinical Professor of Journalism and Mass Communication; BA, University of South Dakota; MA, University of Iowa; EdD, Arizona State University

Leinenweber, Kurt (1994), Assistant Research Professional of Chemistry and Biochemistry; BS, Brown University; PhD, Princeton University

Leket-Mor, Rachel (2004), Academic Associate, Library Collection Development

Lemery, Kathryn (2001), Assistant Professor of Psychology; BA, University of Oregon; MS, PhD, University of Wisconsin, Madison

Lentz, Richard G. (1985), Professor Emeritus of Journalism and Mass Communication; AB, University of North Alabama; MA, Southern Illinois University, Carbondale; PhD, University of Iowa

Leonard, Donald J. (1974), Professor Emeritus of Management Communication; BS, MBA, Nicholls State University; PhD, Louisiana State University

Leonard, Philip A. (1968), Professor Emeritus of Mathematics and Statistics; AB, Boston College; MA, PhD, Pennsylvania State University

Leong, Karen J. (1999), Associate Professor of Women and Gender Studies and Asian Pacific American Studies; Director, Asian Pacific American Studies Program; AB, MA, PhD, University of California, Berkeley

Lerum, Vidar (2000), Assistant Professor of Architecture and Landscape Architecture; BArch, Norwegian Institute of Technology, Trondheim (Norway); MS, Arizona State University; PhD, Norwegian University of Science and Technology, Trondheim (Norway)

Leshowitz, Barry H. (1970), Associate Professor of Psychology; BS, MA, Brooklyn College; PhD, City University of New York

Lessard, Elizabeth C. (1969), Professor Emerita of Dance; BS, Georgia College; MA, PhD, Texas Woman's University

Lester, A. Neal (1997), Bebbling Family Dean's Distinguished Professor of English and Parents Association Professor; Chair, Department of English; BA, State University of West Georgia; MA, PhD, Vanderbilt University

Levan, Frederick D. (1965), Professor Emeritus of Educational Administration and Supervision; BS, MEd, Pennsylvania State University; EdD, Oklahoma State University

Levendowski, Glenda (2004), Lecturer of Accountancy; BBA, Texas Tech University; MS, University of Houston, Clear Lake City

Levine, Gustav (1967), Professor Emeritus of Psychology; BA, MA, College of the City of New York; PhD, Columbia University

Levitus, Marcia (2005), Assistant Professor of Chemistry and Biochemistry; BS, PhD, University of Buenos Aires (Argentina)

Lewin, Benjamin (2005), Lecturer of Sociology; BA, Trinity University; MA, University of Akron; PhD, Arizona State University

Lewis, Paul G. (2005), Assistant Professor of Political Science; AB, Indiana University, Bloomington; MA, PhD, Princeton University

Lewis, William E. (1965), Professor of Computer Science and Engineering; University Chief Information Officer and Vice Provost for Information Technology; BSE, Johns Hopkins University; MS, PhD, Northwestern University

Li, Baoxin (2004), Assistant Professor of Computer Science and Engineering; BS, MS, University of Science and Technology of China; PhD, University of Maryland, College Park

Li, Qunying (2001), Assistant Librarian, Collection Development; MA, Beijing Foreign Studies University (China); MLS, University of Alabama

Li, Wei (2001), Associate Professor of Asian Pacific American Studies and Geography; BS, Beijing Normal College (China); MS, Peking University (China); PhD, University of Southern California

Licon, Lawrence Wendell (2003), Clinical Assistant Professor of Finance; BBA, MBA, PhD, University of Texas at Austin

Liddell, Paul A. (1990), Assistant Research Professional of Chemistry and Biochemistry; BSc, Massey University (New Zealand); PhD, Arizona State University

Liebig, Jurgen (2005), Assistant Professor of Life Sciences; Diplom Biologie, Doktorarbeit, Würzburg University (Germany)

Lightfoot, Marjorie J. (1964), Professor Emerita of English; BA, Brown University; MA, PhD, Northwestern University

Lin, Jerry (2004), Professor of Chemical Engineering; BS, Zhejiang University (China); MS, PhD, Worcester Polytechnic

Lin, Sheng H.
(1965)
Regents' Professor Emeritus of Chemistry and Biochemistry; BS, MS, National Taiwan University (Taiwan); PhD, University of Utah

Lin, Su (1997), Associate Research Professional of Chemistry and Biochemistry; BA, Beijing Normal University, (China); PhD, University of Rochester

Linder, Darwyn E. (1972), Professor Emeritus of Psychology; BA, Macalester College; PhD, University of Minnesota, Twin Cities

Linderman, Earl W. (1966), Professor Emeritus of Art; BS, State University of New York, Buffalo; MEd, EdD, Pennsylvania State University

Lindsay, Stuart M. (1978), Professor of Physics and Astronomy; Nadine and Edward Carson Presidential Chair in Physics; BSc, PhD, University of Manchester (United Kingdom)

Lindsey, Laura (2003), Assistant Professor of Finance; BA, MA, PhD, Stanford University

Lineberry, Heather S. (1990), Senior Curator, ASU Art Museum; Associate Museum Professional; BA, MA, University of Texas at Austin

Liskovec, Richard F. (1958), Professor Emeritus of Mathematics and Statistics; BS, MA, Kent State University

Liss, Julie M. (1994), Associate Professor of Speech and Hearing Science; BA, University of Wisconsin, Madison; MA, University of Denver; PhD, University of Wisconsin, Madison

Littlewood, Mary L. (1965), Professor Emerita of Kinesiology; BS, Miami University; MS, University of Colorado

Liu, C. H. (1965), Professor Emeritus of Chemistry and Biochemistry; BA, PhD, University of Illinois

Liu, Danny D. (1982), Professor Emeritus of Mechanical and Aerospace Engineering; BS, National Taiwan University; MS, Georgia Institute of Technology; PhD, University of Southampton (United Kingdom)

Liu, Huan (2000), Associate Professor of Computer Science and Engineering; BEng, Shanghai Jiao Tong University (China); MSc, PhD, University of Southern California

Liu, Marjory Bon-Ray (1973), Professor Emerita of Philosophy; BM, Alverno College; MM, University of Southern California; CPhil, PhD, University of California, Los Angeles

Liu, Zhenquan (2000), Senior Research Specialist, Center for Solid State Science; BSc, MSc, Peking University (China); PhD, University of Sydney (Australia)

LoBrutto, Russell (1991), Senior Research Scientist of Life Sciences; BA, Cornell University; PhD, State University of New York, Buffalo

Lockard, Joe (2002), Assistant Professor of English; BA, University of California, Santa Cruz; PhD, University of California, Berkeley

Lockwood, Charles (2004), Adjunct Professor of Anthropology; BS, Duke University; PhD, University of Witwatersrand (South Africa)

Lockwood, Ralph G. (1972), Professor Emeritus of Music; BM, Baldwin-Wallace College; MM, New England Conservatory of Music

Lohr, Dennis E. (1979), Professor of Chemistry and Biochemistry; BS, Beloit College; PhD, University of North Carolina at Chapel Hill

Lohr, Sharon (1990), Professor of Mathematics and Statistics; BS, Calvin College; PhD, University of Wisconsin, Madison

Lombardi, Eugene P. (1957), Professor Emeritus of Music; BMusEd, Westminster College; MA, Columbia University; EdS, George Peabody College; DM, Westminster College

Longley, Kyle (1995), Snell Family Dean's Distinguished Professor of History; Director, Graduate Studies; BA, Angelo State University; MA, Texas Technological; PhD, University of Kentucky

Loope, R. Nicholas (1990), Associate Professor of Architecture and Landscape Architecture; BArch, University of Maryland, College Park; MArch, Yale University; PMD, Harvard University

Lopez, Juan (1998), Professor of Mathematics and Statistics; BSc, PhD, Monash University (Australia)

Lopez, Linda C. (2003), Associate Research Professor of Life Sciences; BS, University of Houston; PhD, The University of Texas

Lopez, Vera (2001), Assistant Professor of Justice and Social Inquiry; BA, MA, PhD, University of Texas at Austin

Lorton, Dianne (2000), Adjunct Professor of Life Sciences; BS, PhD, Indiana State University

Losse, Deborah N. (1973), Professor of French; Divisional Dean of Humanities, College of Liberal Arts and Sciences; BA, Connecticut College; MA, PhD, University of North Carolina at Chapel Hill

Loveless, Richard L. (1991), Professor Emeritus of Art; MEd, Pennsylvania State University

Low, Stuart A. (1979), Professor of Economics; BS, MS, PhD, University of Illinois

Lowe, John W. (1956), Professor Emeritus of Economics; BS, Arizona State University; MS, University of Wisconsin, Madison; PhD, University of Florida

Lowe, Robert W. (1966), Professor Emeritus of Romance Languages; MA, Columbia University; Doctorat, University of Paris (France)

Lowenthal, Gary T. (1976), Professor of Law; AB, Harvard College; JD, University of Chicago

Luchsinger, Wayne W. (1966), Professor Emeritus of Chemistry and Biochemistry; BS, MS, PhD, University of Minnesota, Twin Cities

Luckingham, Bradford F. (1971), Professor Emeritus of History; BS, Northern Arizona University; MA, University of Missouri, Columbia; PhD, University of California, Davis

Luderer, Gottfried W.R. (1990), Professor Emeritus of Electrical Engineering; MSEE, PhD, Technical University Braunschweig (Germany)

Ludwig, Ann (1979), Professor Emerita of Dance; BS, North Dakota State University; MS, University of Kansas

Luecken, Linda J. (2000), Assistant Professor of Psychology; BS, Ohio State University; MA, University of North Carolina; PhD, Duke University

Luenow, Paul F. Jr. (1958), Professor Emeritus of Foreign Languages; BA, MA, University of Washington; PhD, University of New Mexico

Luey, Beth (1980), Senior Instructional Professional of History; Director, Scholarly Publishing Program; BA, Radcliffe College; AM, Harvard University

Luft, Julie (2005), Professor of Curriculum and Instruction; BS, University of New Mexico; MS, New Mexico Institute of Mining and Technology; PhD, University of Iowa

Lujan, Carol Chiago (1987), Associate Professor of Justice and Social Inquiry; BA, MAPA, PhD, University of New Mexico

Lukas, Ronald J. (2000), Adjunct Professor of Life Sciences; BS, State University of New York, Cortland; PhD, State University of New York, Downstate Medical Center, Brooklyn

Lukinbeal, Christopher L. (2003), Assistant Professor of Geography; BS, MA, California State University, Hayward; PhD, San Diego State University and University of California, Santa Barbara

Lund, Giuliana (1997), Assistant Professor of Interdisciplinary Humanities; BA, Stanford University; MA, PhD, University of Pennsylvania

Lundgren, Harry R. (1962), Professor Emeritus of Civil and Environmental Engineering; BSCE, Purdue University; MS, Arizona State University; PhD, Oklahoma State University

Lundin, Robert F. (1962), Professor Emeritus of Geological Sciences; BA, Augustana College; MS, PhD, University of Illinois

Luo, Moulun (2005), Assistant Research Professor of Life Sciences; BS, MS, Guangxi College of Traditional Chinese Medicine (China); PhD, Beijing Medical University (China)

Lussier, Mark S. (1994), Associate Professor of English; BA, University of Saint Thomas; MA, PhD, Texas A&M University

Lyman, Jeffrey (1996), Associate Professor of Music; BMus, Temple University; MMus, DMus, University of Michigan

Lynch, David H. (1976), Professor Emeritus of Management Communication; BS, University of Illinois; MS, EdD, Northern Illinois University

Lynch, Jacquelyn (2001), Honors Faculty Fellow; Faculty Chair, Barrett Honors College; BA, Kalamazoo College; MA, Harvard University; PhD, Arizona State University

Lynch, John M. (1994), Honors Faculty Fellow; BSc, PhD, University College, Dublin (Ireland)

Lynk, Myles (2000), Professor of Law; Kiewit Foundation Professor of the Legal Profession; ICA Faculty Athletic Representative; AB, JD, Harvard University

M

Ma, Shouze (2005), Associate Professor of Dance; MFA, University of Iowa, Iowa City

Maatta, Robert (1996), Human Resources Assistant, Department of Military Science; BS, Lake Superior State University

Maccracken, Harriet (1995), Senior Lecturer of Accountancy; BS, Ohio State University; MA, Arizona State University

Macedonia, Joseph (2005), Adjunct Professor of Life Sciences; BS, Colorado State University; Phd, Duke University

Macey, Donna J. (1994), Clinical Associate Professor of Educational Administration and Supervision; Internship Coordinator and Certification, Educational Administration and Supervision; BA, DePaul University; MA, St. John's College; MA, MST, University of Chicago; PhD, Northwestern University

MacKinnon, David (1990), Professor of Psychology; BA, Harvard University; MA, PhD, University of California, Los Angeles

MacKinnon, Stephen R. (1971), Professor of History; BA, MA, Yale University; PhD, University of California, Davis

Mackulak, Gerald T. (1980), Associate Professor of Industrial Engineering; BSIE, MSIE, PhD, Purdue University

MacSwan, Jeff (1998), Associate Professor of Curriculum and Instruction; BA, MA, California State University, Long Beach; PhD, University of California, Los Angeles

Madden, Dennis D. (1990), Archivist Emeritus; BA, Wright State University; MA, Colorado State University

Madden-Derdich, Debra (1994), Associate Professor of Family and Human Development; BA, Washington and Jefferson College; MA, Hollins College; PhD, Virginia Polytechnic Institute and State University

Maddox, Robert A. (1993), Adjunct Professor of Geography; BS, Texas A&M University; MS, PhD, Colorado State University

Magaña, Lisa (1997), Associate Professor of Chicana and Chicano Studies; BA, California Polytechnic University; MA, PhD, Claremont Graduate School

Magenta, Muriel (1969), Professor of Art; BA, Queens College; MA, MFA, PhD, Arizona State University

Magers, William D. (1971), Professor Emeritus of Music; BA, University of California, Santa Barbara; MM, DMA, University of Southern California

Magill, Harry (1984), Professor Emeritus of Accountancy; BS, Miami University; MS, University of Illinois

Mahajan, Subhash (1997), Professor of Chemical and Materials Engineering; Chair, Department of Chemical and Materials Engineering; BS, Punjab University (India); BE, Metallurgy Indian Institute of Science (India); PhD, University of California, Berkeley

Mahalov, Alex S. (1991), Professor of Mathematics and Statistics; MS, Leningrad University (Russia); PhD, Cornell University

Mahoney, Dhira B. (1989), Professor Emerita of English; BA, MA, University of Oxford (United Kingdom); PhD, University of California, Santa Barbara

Mahoney, Richard (2003), Research Professor of Life Sciences; BS, Purdue University; PhD, University of California, San Diego

Maienschein, Jane
(1981)
Regents' Professor of Biology and Society; BA, Yale University; MA, PhD, Indiana University, Bloomington

Major, Roy C. (1992), Professor of English; BA, University of Akron; MA, University of Arizona; MA, PhD, Ohio State University

Majumdar, Anandamayee (2004), Assistant Professor of Mathematics and Statistics; BS, Indian Statistical Institute (India); MS, Michigan State University; PhD, University of Connecticut

Malone, Charles F. (1966), Professor Emeritus of Curriculum and Instruction; BS, Emporia State University; MEd, EdD, University of Kansas

Maltz, Arnold B. (1997), Associate Professor of Supply Chain Management; BS, Trinity College, Hartford; MA, University of California, Santa Barbara; MS, Northwestern University; PhD, Ohio State University

Mamlouk, Michael S. (1984), Professor of Civil and Environmental Engineering; BSCE, Cairo University (Egypt); MSCE, PhD, Purdue University

Manchester, Laurie (2000), Assistant Professor of History; BA, Wellesley College; MA, MPhil, PhD, Columbia University

Mandarino, Lawrence J. (2005), Professor of Kinesiology and Life Sciences; Chair, Department of Kinesiology; BA, MA, PhD, Arizona State University

Mandel, Naomi (2000), Assistant Professor of Marketing; AB, Dartmouth College; MBA, Arizona State University; MIM, American Graduate School of International Management; PhD, University of Pennsylvania

Manelli, Alejandro (1997), Professor of Economics; Licenciatura, National University of Buenos Aires (Argentina); MA, PhD, University of California, Berkeley

Manera, Elizabeth S. (1967), Professor Emerita of Curriculum and Instruction; BS, MA, Towson State College; EdD, Arizona State University

Mangini, Margaret A. (1990), Director, Bureau of Educational Research and Services; BS, MEd, Edinboro State College; EdD, Arizona State University

Mango, Oraib Lecturer of Arabic; BA, University of Jordan (Jordan); MA, Arizona State University

Manuelito, Kathryn (2001), Assistant Professor of Curriculum and Instruction; BA, MA, University of New Mexico; PhD, Arizona State University

Marc, Stephen Smith (1998), Professor of Art; BA, Pomona College; MFA, Temple University

Marchant, Gary E. (1999), Professor of Law; Executive Director, Center for the Study of Law, Science, and Technology; BSc, University of British Columbia (Canada); MPP, JD, Harvard University; PhD, University of British Columbia (Canada)

Marean, Curtis W. (2001), Professor of Anthropology; Research Associate, Institute of Human Origins; BA, Pennsylvania State University; MA, PhD, University of California, Berkeley

Margolis, Eric (1995), Associate Professor of Educational Leadership and Policy Studies; BA, State University of New York, New Paltz; PhD, University of Colorado, Boulder

Marin, Christine N. (1985), Associate Archivist, Archives and Special Collections; BA, MA, Arizona State University

Maris, Mariana (2000), Lecturer of Mathematics and Statistics; BS, MA, Arizona State University

Markiw, Michael (1990), Associate Librarian, Technical Services Department; BA, University of Alberta (Canada); MLS, University of Western Ontario (Canada)

Marks, Pamela (2002), Senior Lecturer of Chemistry and Biochemistry; BS, St. Olaf College; MS, University of Arizona

Marlin, Addison (2002), Clinical Assistant Professor of Architecture and Landscape Architecture; BA, University of New Mexico; MEP, Arizona State University

Marohnic, Charles S. (1981), Professor Emeritus of Music; BA, MM, University of Miami

Marshall, Kimberly (1998), Professor of Music; Associate Director for Graduate Studies, School of Music; BA, University of North Carolina at Chapel Hill; DPhil, University College, Oxford (United Kingdom)

Martin, Carol L. (1988), Professor of Family and Human Development; BA, University of Georgia; MS, Rutgers, The State University of New Jersey; PhD, University of Georgia

Martin, J. Spencer (2000), Assistant Professor of Finance; BS, MBA, University of Texas at Austin; AM, PhD, University of Pennsylvania

Martin, John F. Jr. (1966), Professor of Anthropology; BA, Beloit College; MA, PhD, University of Chicago

Martin, Judith N. (1990), Professor of Communication; BA, Eastern Mennonite College; MA, PhD, Pennsylvania State University

Martin, Linda J. (1980), Professor Emerita of Finance; BA, University of Louisville; MS, University of Kansas; MBA, DBA, Louisiana Technological University

Martin, Scott (2000), Lecturer of Mathematics and Statistics; BS, University of Nebraska, Lincoln; MA, University of Illinois, Springfield

Martin, Thomas W. (2005), Honors Faculty Fellow; BA, Villanova University; MA, University of Pittsburgh; PhD, University of Virginia

Martínez, Jacqueline M. (2000), Associate Professor of Communication; BA, California State University, Northridge; MS, PhD, Southern Illinois University

Martinez, Jeanne L. (2000), Lecturer of Spanish; BA, Indiana University, South Bend; MAT, Indiana University, Bloomington

Martinez Assad, Carlos (2005), Distinguished Scholar of Spanish; BA, MA, National Autonomous University of Mexico (Mexico); PhD, University of Paris (France)

Martinez-Roldan, Carmen (2002), Assistant Professor of Curriculum and Instruction; BA, MA, University of Puerto Rico, Rio Piedras; PhD, University of Arizona

Marzke, Mary W. (1978), Professor Emerita of Anthropology; BA, University of California; MA, Columbia University; PhD, University of California, Berkeley

Marzke, Robert F. (1969), Associate Professor of Physics and Astronomy; AB, Princeton University; PhD, Columbia University

Masilamani, Purushothama (2000), Lecturer of Mathematics and Statistics; BS, University of Madras (India); MS, DA, Adelphi University

Mason, Bruce B. (1960), Professor Emeritus of Political Science; BS, North Texas State College; MA, Texas Christian University; PhD, University of Texas at Austin

Mason, Hugh S. (2002), Associate Professor of Life Sciences; BS, University of Texas at Austin; PhD, University of Arizona

Mason, Marshall W. (1994), Professor Emeritus of Theatre; BS, Northwestern University

Mass, Diana (1974), Clinical Professor of Life Sciences; BS, University of Texas at Austin; MS, Central Michigan University

Massia, Stephen (1998), Associate Professor of Bioengineering; BS, Southwestern University; PhD, University of Texas

Matera, Frances R. (1989), Associate Professor of Journalism and Mass Communication; BS, Florida International University; MA, Goddard College; PhD, University of Miami

Matheson, Alan A. (1968), Professor Emeritus of Law; Dean Emeritus, College of Law; BA, MS, JD, University of Utah

Mathur, Sarup (2002), Clinical Associate Professor of Curriculum and Instruction; BA, BEd, MA, MEd, Agra University (India); MEd, PhD, Arizona State University

Mathy, Pamela A. (1998), Clinical Professor of Speech and Hearing Science; Director, Speech and Language Clinic; BA, University of Massachusetts; MA, Washington State University; PhD, University of Wisconsin, Madison

Matt, Kathleen S. (1987), Professor of Kinesiology; Assistant Vice President for Research; Director of Clinical Partnerships, Department of Kinesiology; BA, MS, University of Delaware; PhD, University of Washington

Matt, Pamela (1980), Professor Emerita of Dance; BA, University of Washington; MA, University of Illinois

Matthias, Judson S. (1967), Professor Emeritus of Civil and Environmental Engineering; BS, United States Military Academy; MS, Oregon State University; PhD, Purdue University

Mattox, John H. (1995), Adjunct Professor of Life Sciences; BA, MD, University of Colorado

Matyushov, Dimitry (2000), Assistant Professor of Chemistry and Biochemistry; BS, Moscow Institute of Physics and Technology (Russia); PhD, Vienna University of Technology (Austria)

Maxwell, Kathryn (1988), Professor of Art; BA, Northwestern University; MFA, University of Wisconsin, Madison

Maxwell, Stephen A. (2005), Clinical Associate Professor of Speech and Hearing Science; BS, Brigham Young University; MS, Idaho State University; AuD, Arizona School of Health Science

May, Judy (1986), Associate Professor of Music; MM, The Juilliard School

Mayer, James W.
(1992)
Regents' Professor of Chemical and Materials Engineering and Solid State Science; BS, PhD, Purdue University

Mayer, Lawrence S. (1983), Professor of Economics; BS, MS, Ohio State University; MD, Associated Medical Schools of the Caribbean; PhD, Ohio State University

Mayer, Michael (1978), Professor Emeritus of Communication; BA, MA, University of Wyoming; PhD, University of Kansas

Mays, Larry W. (1989), Professor of Civil and Environmental Engineering; BS, MS, University of Missouri, Rolla; PhD, University of Illinois

McBeath, Michael K. (1998), Associate Professor of Psychology; BA, Brown University; MS, University of California, Santa Barbara; PhD, Stanford University

McBride, Ingrid (2001), Clinical Associate Professor of Speech and Hearing Disorders; Director, Audiology Clinic; BS, MS, Arizona State University; AuD, University of Florida

McCarter, Joan H. (1961), Professor Emerita of Mathematics and Statistics; BS, MA, University of Arizona

McCarthy, Matthew J. (2003), Lecturer of Computer Information Systems; BS, Arizona State University; MS, Northern Arizona University

McCartney, Martha R. (Molly) (1989), Associate Professor of Physics and Astronomy; Senior Research Scientist, Center for Solid State Science; BS, The Evergreen State College; PhD, Arizona State University

McCartney, Peter (2000), Assistant Research Scientist, Data Manager, Global Institute of Sustainability; BA, MA, University of Arizona; PhD, University of Calgary (Canada)

McCarty, Teresa (2004), Professor of Educational Leadership and Policy Studies; BA, Ohio State University; MA, PhD, Arizona State University

McClure, Sue (2004), Lecturer of Mathematics and Statistics; BS, Ball State University; MA, Purdue University

McCoy, Kathleen M. (1976), Associate Professor of Curriculum and Instruction; BS, University of Portland; MS, Portland State University; PhD, University of Oregon

McCoy, Ronald (1995), Professor of Architecture and Landscape Architecture; BS, University of Southern California; MArch, Princeton University

McDermott, Lauren (1990), Associate Professor of Industrial Design; Chair, Department of Industrial Design; BFA, MFA, Rochester Institute of Technology

McDonah, Becky I. (2005), Assistant Professor of Art; BA, University of Wisconsin, Lacrosse; MFA, Arizona State University

McDonald, Arlys (1970), Librarian Emeritus; BMus, St. Mary of the Plains College; MMus, University of Illinois

McDonald, John N. (1969), Professor Emeritus of Mathematics and Statistics; AB, King's College; MS, PhD, Rutgers, The State University of New Jersey

McDonald, Kelly M. (2000), Assistant Professor of Communication; Director of Forensics; BA, Pacific Lutheran University; MA, PhD, University of Kansas

McDonough, Peter (1990), Professor Emeritus of Political Science; BS, Saint Louis University; PhD, University of Michigan

McDowell, John M. (1978), Professor of Economics; BS, MS, PhD, University of California, Los Angeles

McElroy, Isis (2005), Assistant Professor of Languages and Literatures; BA, Pontifical Catholic University (Brazil); MA, PhD, New York University

McElwee, Pamela (2005), Assistant Professor of Global Studies; BA, University of Kansas; MSc, Oxford University (United Kingdom); MPhil, PhD, Yale University

McGaughey, Robert W. (1971), Professor Emeritus of Life Sciences; BA, Augustana College; MA, University of Colorado; PhD, Boston University

McGehee, Shelley (1985), Librarian Emerita; BMus, Converse College; MMus, MLS, University of Alabama

McGibbney Vlahoulis, Michelle (2004), Lecturer of Women and Gender Studies; BA, University of Massachusetts, Amherst; MA, Arizona State University

McGill, John R. (2004), Adjunct Professor of Life Sciences; BS, MS, Southwest Texas State University; PhD, The University of Texas

McGowan, Patrick J. (1979), Professor Emeritus of Political Science; BA, University of the South; MA, Johns Hopkins University; PhD, Northwestern University

McGraw, Kevin (2004), Assistant Professor of Life Sciences; BS, Lawrence University; MS, Auburn University; PhD, Cornell University

McGregor, Joan L. (1989), Associate Professor of Life Sciences and Philosophy; Lincoln Associate Professor of Bioethics; BA, University of California, Davis; MA, PhD, University of Arizona

McHugh, Kevin E. (1985), Associate Professor of Geography; BS, Pennsylvania State University; MA, Arizona State University; PhD, University of Illinois, Urbana-Champaign

McIntosh, Kirk E., Lieutenant Colonel (2005), Professor of Military Science; Chair, Department of Military Science; BS, Arizona State University; MA, Webster University

McIsaac, Marina Stock (1980), Professor Emerita of Educational Technology; BA, Pomona College; MA, PhD, University of Wisconsin, Madison

McIver, Beverly (1996), Associate Professor of Art; BA, North Carolina Central University; MFA, University of Pennsylvania

McKelvy, Michael J. (1976), Senior Research Scientist, Center for Solid State Science; BS, University of California, Berkeley; MS, PhD, Arizona State University

McKenzie, Patrick Bruce (1970), Professor Emeritus of Accountancy; BS, MS, Kansas State University; PhD, Michigan State University

McLaughlin, Ilene (1995), Assistant Librarian, Hayden Reference Services; BA, Lake Forest College; MLS, Simmons College

McLin, Katherine (1997), Associate Professor of Music; BM, Oberlin College Conservatory, Ohio; MM, Indiana University, Bloomington; DMA, University of Michigan, Ann Arbor

McMahon, Jeffrey (2001), Assistant Professor of Theatre; BA, State University of New York; MFA, Columbia University

McManus, Elizabeth B. (2000), Honors Faculty Fellow; BA, MA, PhD, University of Virginia

McMillan, Paul F. (1983), Professor Emeritus of Chemistry and Biochemistry; BSc, University of Edinburgh (United Kingdom); PhD, Arizona State University

McNally, T. M. (1999), Associate Professor of English; BA, Rockford College; MFA, Arizona State University

McNamara, Allen K. (2004), Assistant Professor of Geological Sciences; BS Michigan State University; MS, PhD, University of Michigan

McNeil, Elizabeth A. (1998), Academic Associate of English; Academic Advisor, Department of English; Assistant Director, Undergraduate Studies; BA, California State University, Chico; MFA, PhD, Arizona State University

McNeill, Barry W. (1976), Associate Professor of Mechanical Engineering; Assistant Dean, Academic Affairs, Ira A. Fulton School of Engineering; BS, MS, PhD, Stanford University

McPhee, Robert D. (1998), Professor of Communication; BA, MA, PhD, Michigan State University

McPheters, Lee R. (1976), Professor of Economics; Director, Bank One Economic Outlook Center; Associate Dean, Executive and Professional Programs, W. P. Carey School of Business; AB, San Francisco State University; PhD, Virginia Polytechnic Institute and State University

McSheffrey, Gerald R. (1982), Professor Emeritus of Architecture and Landscape Architecture; DiplArch, University College, London (United Kingdom); DiplCD, Edinburgh University (United Kingdom)

McTaggart, W. Donald (1971), Professor Emeritus of Geography; MA, University of St. Andrews (United Kingdom); PhD, Australian National University (Australia)

McWhirter, J. Jeffries (1970), Professor Emeritus of Psychology in Education; BA, Saint Martin's College; MEd, Oregon State University; MEd, PhD, University of Oregon

Mehall, Gregory Lawrence (1992), Associate Research Professional of Geological Sciences; MS, Stanford University

Mehta, Zarin (2005), Clinical Associate Professor of Speech and Hearing Science; MBBS, Dow Medical College (Pakistan); MA, University of Kansas; PhD, Wichita State University

Meir, Baruch I. (2000), Assistant Professor of Music; BMus, MMus, Tel Aviv University (Israel); DMA, Arizona State University

Meissinger, Ellen Murray (1986), Professor of Art; BFA, MFA, University of North Carolina at Greensboro

Melendez, Ryan A. (2004), Lecturer of Mathematics and Statistics; BA, College of New Jersey; MA, Arizona State University

Melichar, Dudley W. (1974), Professor Emeritus of Justice and Social Inquiry; BS, MS, South Dakota State University; EdD, Arizona State University

Melody, Noeleen (1991), Assistant Research Professor, Cancer Research Institute; BS, PhD, University College, Galway (Ireland)

Melucci, Donatella Lecturer of Languages and Literatures; BA, MA, University of Bari (Italy)

Melvin, Michael (1980), Professor of Economics; BBA, University of Houston; MA, San Diego State University; PhD, University of California, Los Angeles

Méndez, José A. (1980), Professor of Economics; BA, MA, University of Texas at Austin; MA, PhD, Southern Methodist University

Menéndez, José (1987), Professor of Physics and Astronomy; Licenciado en Física, Balseiro Institute (Argentina); Dr. rer. nat., Stuttgart University (Germany)

Menjivar, Cecilia (1995), Associate Professor of Sociology; BA, MS, University of Southern California; PhD, University of California, Davis

Menke, Robert F. (1947), Professor Emeritus of Education; BS, Oshkosh State College; MA, PhD, Northwestern University

Merbs, Charles F. (1973), Professor Emeritus of Anthropology; BS, MS, PhD, University of Wisconsin, Madison

Merrill, Bruce D. (1971), Professor of Journalism and Mass Communication; Director, Media Research Program; MA, Brigham Young University; PhD, University of Michigan

Mesch, Claudia (2001), Assistant Professor of Art; BA, Yale University; MA, University of California, Los Angeles; PhD, University of Chicago

Messman, Susan J. (2000), Assistant Professor of Communication; BA, University of Missouri, Columbia; MS, Illinois State University; PhD, Ohio University

Metcalf, V. Alonzo (1971), Professor Emeritus of International Studies; BS, MS, University of Arkansas; PhD, University of Missouri, Columbia

Metha, Arlene (1971), Professor Emerita of Psychology in Education; BA, Arizona State University; MA, Ohio State University; PhD, University of Southern California

Metos, Thomas H. (1965), Professor Emeritus of Educational Administration and Supervision; BS, MS, PhD, University of Utah

Metz, John (1980), Professor Emeritus of Music; BA, MM, Syracuse University; DMA, The Juilliard School

Meunier, John (1987), Professor of Architecture and Landscape Architecture; BArch, University of Liverpool (United Kingdom); MArch, Harvard University; MA, University of Cambridge (United Kingdom)

Middleton, James Arthur (1998), Associate Professor of Curriculum and Instruction; Director, Division of Curriculum and Instruction; BA, California State University, Chico; MS, PhD, University of Wisconsin, Madison

Mignolet, Marc P. (1987), Professor of Mechanical and Aerospace Engineering; BS, University of Liege (Belgium); PhD, Rice University

Mikellides, Pavlos G. (2002), Assistant Professor of Mechanical and Aerospace Engineering; BS, MS, PhD, Ohio State University

Miller, Charles D. (1998), Assistant Director, Academic Services, College of Liberal Arts and Sciences

Miller, Christopher (2004), Academic Associate of Collection Development; BM, North Carolina School of the Arts; MS, Northern Illinois University

Miller, Donald S. (1981), Associate Professor of Computer Science and Engineering; BS, Syracuse University; MS, PhD, University of Southern California

Miller, Ian (2004), Assistant Professor of History; BA, Earlham College; MA, University of Illinois, Urbana-Champaign; MA, PhD, Columbia University

Miller, Keith D. (1987), Professor of English; BA, Texas Christian University; MA, State University of New York, Albany; PhD, Texas Christian University

Miller, Rosanna (1974), Librarian Emerita; BA, MA, Arizona State University; MLS, University of Arizona

Miller, Susan A. (2001), Assistant Professor of American Indian Studies; BA, MA, University of Oklahoma; PhD, University of Nebraska, Lincoln

Miller, Terri (1997), Senior Lecturer of Mathematics and Statistics; BS, MA, Arizona State University

Miller-Loessi, Karen A. (1984), Associate Professor of Sociology; BA, University of California, Berkeley; MA, PhD, Stanford University

Millikin, John (1999), Lecturer of Management; BA, University of Arizona; MBA, University of Southern California; PhD, Arizona State University

Mills, Robert (2005), Assistant Professor of Music; BA, University of Maryland, College Park; MM, DMA, Arizona State University

Millsap, Roger E. (1997), Professor of Psychology; BS, University of Washington; MA, PhD, University of California, Berkeley

Milner, Joe W. (1967), Professor Emeritus of Journalism and Mass Communication; BA, East Texas State University; MA, University of Oklahoma; EdD, University of Wyoming

Milun, Kathryn (2000), Assistant Professor of English and Justice and Social Inquiry; BA, MA, PhD, University of Minnesota

Mings, Robert C. (1971), Professor Emeritus of Geography; BS, MAT, Indiana University, Bloomington; PhD, Ohio State University

Minteer, Ben (2003), Assistant Professor of Life Sciences; BA, University of Albany; MS, PhD, University of Vermont

Misra, Rajeev (1991), Professor of Life Sciences; BS, Kanpur University (India); MS, GB Pant University (India); PhD, Adelaide University (Australia)

Mitchell, Frederic F. (1961), Professor Emeritus of Education; BA, MA, University of Arizona; PhD, Columbia University

Mitchell, John (1990), Associate Research Professional of Dance; Director, Dance Multimedia Learning Center; BM, Webster University, St. Louis; MM, University of South Florida

Mitchell, Michael J. (1990), Associate Professor of Political Science; BA, Fordham University; MA, PhD, Indiana University, Bloomington

Mitchell, Michael J., Captain (2005), Assistant Professor of Military Science; BS, West Point

Mitkova, Maria (1999), Associate Research Professor of Chemical and Materials Engineering; MS, PhD, University of Chemical Technology and Metallurgy (Bulgaria)

Mitropoulos, Panagiotis (2004), Assistant Professor of Construction; BS, University of Patras (Greece); MS, Virginia Polytechnic Institute and State University; PhD, Stanford University

Mittelmann, Hans Detlef (1982), Professor of Mathematics and Statistics; MA, University of Mainz (Germany); PhD, Habilitation, University of Darmstadt (Germany)

Mittelstaedt, Robert E. Jr. (2004), Professor of Management; Dean, W. P. Carey School of Business; BS, Tulane University; MBA, The Wharton School of Business, University of Pennsylvania

Mittman, Asa Simon (2005), Senior Lecturer of Art; BA, Cornell University; MA, PhD, Stanford University

Mobasher, Barzin (1991), Professor of Civil and Environmental Engineering; BS, University of Wisconsin, Platteville; MS, Northeastern University; PhD, Northwestern University

Mogey, John M. (1987), Adjunct Professor of Sociology; BA, MA, DSc, Queen's University (United Kingdom)

Mokwa, Michael P. (1979), Professor of Marketing; Chair, Department of Marketing; BBA, MBA, PhD, University of Houston

Molnar, Alex (2001), Professor of Educational Leadership and Policy Studies; Director, Education Policy Studies Laboratory; BA, North Park College; MA, Northwestern University; PhD, University of Wisconsin, Milwaukee

Monahan, Torin (2003), Assistant Professor of Justice and Social Inquiry; BA, MA, California State University, Northridge; MS, PhD, Rensselaer Polytechnic Institute

Monczka, Robert M. (1999), Research Professor of Supply Chain Management; BA, MBA, PhD, Michigan State University

Mongeau, Paul A. (2002), Professor of Communication; BS, MA, Arizona State University; PhD, Michigan State University

Montenegro, Leonard Jose (1986), Senior Research Professional of Mechanical and Aerospace Engineering; BS, State University of New York, Albany

Montgomery, Douglas C. (1988)
Regents' Professor of Industrial Engineering; Codirector, Executive Committee on Statistics; BSIE, MS, PhD, Virginia Polytechnic Institute and State University

Montgomery, Eric (1997), Faculty Associate of Visual Communication Design; BFA, Arizona State University

Montiel, Miguel (1974), Professor Emeritus of Chicana and Chicano Studies; Motorola Presidential Professor in Community Revitalization; BS, University of Arizona; MSW, Arizona State University; DSW, University of California, Berkeley

Montilla, Jorge (2004), Assistant Professor of Music; BM, University Institute of Musical Studies, Caracas (Venezuela); MM, Indiana University

Montoya, Janet (1999), Adjunct Professor of Anthropology; BA, MA, University of Houston, Clear Lake

Mook, Richard (2005), Senior Lecturer of Music; BA, University of Rochester; PhD, University of Pennsylvania

Mooney, Elina (1988), Associate Professor of Dance

Moor, William C. (1968), Associate Professor of Industrial Engineering; Associate Chair, Undergraduate Programs, Department of Industrial Engineering; BS, MS, Washington University; PhD, Northwestern University

Moore, Ana L. (1989), Professor of Chemistry and Biochemistry; B of Pharmacy, National University of La Plata (Argentina); MSc, Federal University of Rio de Janeiro (Brazil); PhD, Texas Tech University

Moore, Carleton B.
(1961)
Regents' Professor Emeritus of Chemistry and Biochemistry and Geological Sciences; BS, Alfred University; PhD, California Institute of Technology

Moore, Diane B. (1980), Librarian Emerita, Noble Science Reference Services; BS, College of William and Mary; MLS, University of Wisconsin, Madison

Moore, Elsie G. J. (1981), Professor of Psychology in Education; Director, Division of Psychology in Education; BA, Elmhurst College; MA, PhD, University of Chicago

Moore, J. Douglas (1969), Associate Professor of Mathematics and Statistics; BS, MS, Idaho State University; PhD, Syracuse University

Moore, Michael (1982), Professor of Life Sciences; BA, Indiana University; MS, PhD, University of Washington

Moore, Moses N. (1989), Associate Professor of Religious Studies; BA, Eckerd College; MDiv, Yale University; MPhil, PhD, Union Theological Seminary

Moore, Thomas A. (1976), Professor of Chemistry and Biochemistry; BA, PhD, Texas Tech University

Moorhead, Gregory (1978), Associate Professor of Management; BSIE, MBA, PhD, University of Houston

Mor, Tsafrir (2000), Assistant Professor of Life Sciences; BSc, MSc, PhD, Hebrew University of Jerusalem (Israel)

Morales, Andrea C. (2005), Assistant Professor of Marketing; BA, University of Texas at Austin; MS, PhD, University of Pennsylvania

Morgan, Miriam J. (1965), Instructor Emerita of French; Licence-ès-Lettres, University of Paris (France); MA, Arizona State University

Morgan, Owen W. (1968), Professor Emeritus of Family and Human Development; BA, Grinnell College; MA, University of Nebraska, Omaha; PhD, University of Nebraska, Lincoln

Morris, Donald H. (1962), Professor Emeritus of Anthropology; BA, Arizona State University; MA, PhD, University of Arizona

Morrison, Kenneth M. (1983), Professor of Religious Studies; BA, Saint Dunstan's University; MA, PhD, University of Maine

Morton, Thomas (2005), Assistant Professor of Architecture and Landscape Architecture; BA, PhD, Pennsylvania State University

Mossman, Kenneth L. (1990), Professor of Life Sciences; Director, Radiation Safety Office; BS, Wayne State University; MEd, University of Maryland, College Park; MS, PhD, University of Tennessee, Knoxville

Moulton, Gerald L. (1967), Professor Emeritus of Psychology in Education; BA, Hamline University; MEd, EdD, University of Oregon

Mowrer, Donald E. (1965), Professor Emeritus of Speech and Hearing Science; BA, MA, Florida State University; PhD, Arizona State University

Moya, Sara D. (2002), Faculty Associate of Planning; BA, Wheaton College; MPA, PhD, Arizona State University

Moyer, Joan E. (1971), Professor Emerita of Curriculum and Instruction; BS, Kutztown State University; MEd, Pennsylvania State University; PhD, University of Maryland, College Park

Muccino, Julia Catherine (1997), Associate Professor of Civil and Environmental Engineering; BCE, Villanova University; MS, PhD, University of Notre Dame

Mueller-Alexander, Jeanette M. (1989), Librarian, Hayden Reference Services; BA, Moorhead State University; MLS, Indiana University, Bloomington

Mulligan, Donald E. (1985), Professor Emeritus of Construction; BSE, MSME, Arizona State University

Mulvihill, Josepha Anne (1983), Associate Librarian, Hayden Reference Services; BS, University of Kansas; MLS, Emporia State University

Munk, Morton E. (1961), Professor Emeritus of Life Sciences; BS, Northwestern University; MS, University of Miami; PhD, Wayne State University

Munshi, Perseus B. (2001), Lecturer of Accountancy; BCom, Bangalore University (India); MBA, Ohio State University; CPA, Arizona

Murdock, Joe E., Captain (2005), Assistant Professor of Military Science; Recruiting Operations Officer; BS, Illinois State University

Murdough, John M. (1993), Faculty Associate of Construction; BS, MBA, Arizona State University

Murff, Scott (1998), Clinical Associate Professor of Architecture and Landscape Architecture; BSD, Clemson University; BArch, The Cooper Union

Murphey, Claudia (1996), Professor of Dance; Chair, Department of Dance; BA, Western College; MA, George Washington University

Murphy, Jeffrie G.
(1981)
Regents' Professor of Law and Philosophy; Codirector, Committee on Law and Philosophy; BA, Johns Hopkins University; PhD, University of Rochester

Murphy, Kurt R. (1986), Librarian; Associate Dean, Personnel, University Libraries; BS, MLS, University of Illinois; MBA, Arizona State University

Murranka, Patricia A. (1977), Professor Emerita of Supply Chain Management; BA, Trenton State College; MA, Rider College; EdD, Utah State University

Murray, Roger N. (1968), Professor Emeritus of English; BA, BS, Moorhead State Teachers College; MA, Stanford University; PhD, University of Iowa

Musheno, Michael C. (1977), Professor Emeritus of Justice and Social Inquiry; BA, Lycoming College; MA, PhD, American University

Muthuswamy, Jitendran (2000), Assistant Professor of Bioengineering; BTech, Indian Institute of Technology (India); MS, PhD, Rensselaer Polytechnic Institute

Myhajlenko, Stefan (1986), Associate Research Scientist and Associate Director, Center for Solid State Electronics Research; PhD, University of Manchester (United Kingdom)

Myint, Soe W. (2005), Assistant Professor of Geography; BS, Rangoon University (Myanmar); MS, Asian Institute of Technology (Thailand); PhD, Louisiana State University

Myler, Charles E. Jr. (1968), Professor Emeritus of Real Estate; BBA, Loyola University; MBA, Harvard University; PhD, University of Florida

N

Nagasawa, Richard H. (1969), Professor Emeritus of Sociology; BA, University of Hawaii, Manoa; MA, PhD, University of Washington

Nagoshi, Craig (1989), Associate Professor of Psychology; BA, MA, PhD, University of Hawaii, Manoa

Nagrin, Daniel (1982), Professor Emeritus of Dance; BS, City College of New York

Nagy, Bethel (2000), Adjunct Professor of Anthropology; BA, Arizona State University; MA, University of Toronto (Canada); PhD, Arizona State University

Nagy, John D. (1999), Adjunct Professor of Life Sciences; BS, Eastern Michigan University; BS, University of Michigan, Ann Arbor; PhD, Arizona State University

Nakagawa, Kathryn N. (1997), Associate Professor of Psychology in Education and Asian Pacific American Studies; BA, University of Notre Dame; MA, PhD, Northwestern University

Nakamura, Mutsumi (2002), Lecturer of Computer Science and Engineering; BS, MS, University of Texas, El Paso; PhD, University of Texas, Arlington

Nakayama, Thomas K. (1991), Professor of Communication; AB, Georgia State University; MA, PhD, University of Iowa

Nanda, Vikram K. (2005), Professor of Finance; BTech, Indian Institute of Technology, Kanpur (India); MBA, Yale University; PhD, University of Chicago

Narayanan, Vinodh (2005), Adjunct Professor of Life Sciences; BS, Washington University; MA, Princeton University; MD, Louisiana State University Medical Center

Nardari, Federico (1999), Assistant Professor of Finance; BS, University of Bergamo (Italy); MSBA, PhD, Washington University, St. Louis

Nardella, Francis A. (1992), Adjunct Professor of Bioengineering; AB, West Virginia University; MD, West Virginia University, School of Medicine

Nash, Leanne T. (1971), Professor of Anthropology; BA, University of California, Davis; MA, PhD, University of California, Berkeley

Nash, Thomas H. III (1971), Professor of Life Sciences; BS, Duke University; MS, PhD, Rutgers, The State University of New Jersey

Navabi, Faye (1997), Lecturer of Computer Science and Engineering; BS, MS, University of Southwestern Louisiana

Neal, Berna E. (1988), Librarian Emerita; BA, MLS, Syracuse University

Nebeker, Helen E. (1958), Professor Emerita of English; BA, MA, Arizona State University

Neff, Patricia M. (1987), Associate Professor of Family and Human Development; BS, MEd, Iowa State University; PhD, Oklahoma State University

Neisewander, Janet L. (1991), Professor of Psychology; BS, Rockford College; MS, PhD, University of Kentucky

Nelsen, Edward A. (1975), Professor Emeritus of Psychology in Education; BS, University of Wisconsin, Madison; PhD, Stanford University

Nelson, Ben A. (1995), Professor of Anthropology; Associate Director, School of Human Evolution and Social Change; BA, MA, Florida State University; PhD, Southern Illinois University

Nelson, Brian C. (2005), Assistant Professor of Psychology in Education; BA, Washington State University; MA, St. Michael's College; PhD, Harvard University

Nelson, G. Lynn (1973), Associate Professor of English; BA, Kearney State College; PhD, University of Nebraska, Lincoln

Nelson, Harold D. (1962), Professor Emeritus of Mechanical and Aerospace Engineering; BS, South Dakota School of Mines and Technology; MS, Kansas State University; PhD, Arizona State University

Nelson, J. Russell (1981), Professor Emeritus of Finance; President Emeritus of the University; BA, Pacific Union College; MBA, PhD, University of California, Los Angeles

Nelson, John C. (1967), Professor Emeritus of Curriculum and Instruction; BS, MA, Arizona State University; PhD, Vanderbilt University

Nelson, Margaret (1995), Professor of Anthropology; Associate Dean, Barrett Honors College; BA, Occidental College, Los Angeles; PhD, University of California, Santa Barbara

Nemeroff, Carol (1988), Associate Professor of Psychology; BA, McGill University (Canada); MA, PhD, University of Pennsylvania

Nering, Evar D. (1960), Professor Emeritus of Mathematics and Statistics; BA, Indiana University, Fort Wayne; MA, PhD, Princeton University

Neubauer, Mary (1996), Professor of Art; BFA, Colorado State University; MFA, Indiana University

Neuberg, Steven L. (1988), Professor of Psychology; AB, Cornell University; MS, PhD, Carnegie Mellon University

Neuer, Susanne (2004), Associate Professor of Life Sciences; BS, Kiel University (Germany); MS, University of Washington; PhD, Oregon State University

New, Frances Y. (1986), Librarian Emerita; BS, Seattle Pacific University; MLS, University of Arizona

Newcombe, Dennis (2003), Faculty Associate of Planning; BSP, Arizona State University

Newfeld, Stuart J. (1997), Associate Professor of Life Sciences; BS, Hobart College; MA, MS, University of Hawaii; PhD, Emory University

Newhard, Jamie (2005), Assistant Professor of Languages and Literatures; BA, Brown University; MA, PhD, Columbia University

Newhouse, Beth G. (2004), Lecturer of Mathematics and Statistics; BS, University of Wisconsin, Whitewater; MA, Northern Arizona University

Newman, Nathan (2000), Professor of Materials Engineering; BS, University of Southern California; MS, PhD, Stanford University

Newman, Timothy J. (2002), Associate Professor of Physics and Astronomy; BA, University of Oxford (United Kingdom); PhD, University of Manchester (United Kingdom)

Newport, Mark (2001), Associate Professor of Art; BFA, Kansas City Art Institute; MFA, Art School of the Art Institute of Chicago

Newton, Camille (2005), Lecturer of English; BS, University of Louisville; MA, McNeese State University; PhD, Cornell University

Ney, James W. (1969), Professor Emeritus of English; BA, MA, Wheaton College; EdD, University of Michigan

Nickel, James (2002), Professor of Law; Codirector, Committee on Law and Philosophy; BA, Tabor College; PhD, University of Kansas

Nicolaenko, Basil (1989), Professor of Mathematics and Statistics; MS, University of Paris (France); PhD, University of Michigan

Nielsen, Michael J. (1969), Professor Emeritus of Industrial Design; BPD, North Carolina State University, Raleigh; MA, Stanford University

Nielson, Gregory M. (1970), Professor of Computer Science and Engineering; BS, MS, PhD, University of Utah

Nieman, Ronald (1983), Senior Research Professional of Chemistry and Biochemistry; BA, University of Colorado; PhD, Arizona State University

Nikitin, Sergey (1994), Associate Professor of Mathematics and Statistics; MS, Moscow State University (Russia); PhD, Academy of Science of Russia, Research Institute of System Studies

Nilsen, Alleen P. (1975), Professor of English; BA, Brigham Young University; MEd, American University; PhD, University of Iowa

Nilsen, Don L. F. (1973), Professor of English; BA, Brigham Young University; MA, American University; PhD, University of Michigan

Noreuil, Chad (2001), Professor of Legal Writing; BA, JD, University of Illinois, Urbana-Champaign

Northey, William T. (1959), Professor Emeritus of Life Sciences; BA, University of Minnesota, Twin Cities; MA, PhD, University of Kansas

Norton, Janice (1998), Senior Lecturer of English; BA, MA, University of Tennessee, Knoxville; PhD, University of Iowa

Norton, Kay (1999), Associate Professor of Music; BME, MFA, University of Georgia; PhD, University of Colorado

Norton, M. Scott (1973), Professor Emeritus of Educational Leadership and Policy Studies; BS, MEd, EdD, University of Nebraska, Lincoln

Nowlis, Stephen (1996), Professor of Marketing; Dean's Council of 100 Distinguished Scholars, W. P. Carey School of Business; BA, Stanford University; MBA, University of California, Berkeley; PhD, University of California, San Diego

O

O'Brien, Carmen A. (1959), Professor Emerita of Education; BA, MA, Arizona State University

O'Brien, Gary (2005), Assistant Professor of Electrical Engineering; BSEE, Florida Institute of Technology; MSEE, Georgia Institute of Technology; PhD, University of Michigan

O'Brien, Robin K. (1995), Lecturer of Speech and Hearing Science; BA, Gallaudet University

O'Connor, Elinor J. (1970), Professor Emerita of Family and Human Development; BS, St. Catharine College; MS, University of Iowa

O'Dell, Michael A. (1980), Professor Emeritus of Accountancy; BS, MBA, University of California, Los Angeles; PhD, University of Texas at Austin; CPA, Colorado

O'Grady, Catherine (1991), Professor of Law; Executive Director, Clinical Programs, College of Law; BA, University of Michigan; JD, Arizona State University

Ó hUallacháin, Breandán (1987), Professor of Geography; BA, National University of Ireland; MA, Indiana University, Bloomington; PhD, University of Illinois, Urbana-Champaign

O'Keeffe, Michael
(1963)
Regents' Professor Emeritus of Chemistry and Biochemistry; BS, PhD, University of Bristol (United Kingdom)

O'Leary, Timothy J. (1978), Associate Professor of Computer Information Systems; BS, Westminster College; MBA, DBA, Kent State University

Ocampo-Guzman, Antonio (2005), Assistant Professor of Theatre; Diploma, Teatro Libre Acting School (Colombia); MFA, York University (Canada)

Odenkirk, James E. (1967), Professor Emeritus of Kinesiology; BS, MA, Ohio State University; EdD, Columbia University

Odish, Faris (1997), Senior Lecturer of Mathematics and Statistics; BS, University of Baghdad (Iraq); MA, Wayne State University

Oehrtman, Michael (2002), Assistant Professor of Mathematics and Statistics; BS, Oklahoma State University; PhD, University of Texas at Austin

Oetting, Edward (1983), Librarian, Hayden Reference Services; BA, University of Michigan; MA, University of Illinois; MSLS, Wayne State University

Oh, Young (1999), Lecturer of Korean; BA, Sogang University Graduate School (South Korea); MA, University of Wisconsin, Madison

Ohlson, James (2004), Professor of Accountancy; W. P. Carey Chair, School of Accountancy; MBA, PhD, University of California, Berkeley

Ohnersorgen, Michael A. (2002), Affiliate Professor of Anthropology; BA, University of California, Santa Barbara; MA, PhD, Arizona State University

Okun, Morris A. (1976), Professor of Psychology; BA, Brooklyn College; MS, PhD, Pennsylvania State University

Oldani, Robert W. (1982), Professor of Music; BA, University of Illinois; MA, PhD, University of Michigan

Olivas, Louis (1979), Associate Professor of Management; Assistant Vice President for Academic Affairs; BA, MA, EdD, Arizona State University

Oliver, Robert S. (1963), Professor Emeritus of Architecture and Landscape Architecture; BA, MA, University of California, Berkeley; MFA, Allende Institute (Mexico)

Olson, Clark D. (1984), Instructional Professional of Communication; BA, Iowa State University; MS, University of Utah; PhD, University of Minnesota, Twin Cities

Orchinik, Miles (1995), Associate Professor of Life Sciences; BA, San Francisco State University; PhD, Oregon State University

Orlich, Ileana (1996), Associate Professor of Romanian; BA, University of Bucharest (Romania); MA, PhD, Arizona State University

Ormiston, Michael B. (1984), Professor of Economics; BS, Michigan State University; MA, PhD, Johns Hopkins University

Ortiz, Luanna G. (2002), Assistant Professor of Physics and Astronomy; BS, University of New Mexico; MS, PhD, University of Washington

Osmond, Charles Barry (2002), Adjunct Professor of Life Sciences; BS, MS, University of New England (Australia); PhD, University of Adelaide (Australia)

Ossipov, Helene (1987), Associate Professor of French; BA, City University of New York; MA (French Linguistics), MA (Russian Area Studies), PhD, Indiana University, Bloomington

Osterhoudt, Robert G. (1976), Professor Emeritus of Kinesiology; BS, MS, Pennsylvania State University; PhD, University of Illinois

Osterman, Marie (2002), Asian Studies Advisor/Outreach Coordinator; AB, Douglas College; MA, Rutgers, The State University of New Jersey; PhD, Columbia University

Ostrom, Amy (1996), Associate Professor of Marketing; BA, Arizona State University; PhD, Northwestern University

Ostrom, Lonnie L. (1973), Professor of Marketing; Director, Development, Institutional Advancement; President, Arizona State University Foundation; BBA, University of Wisconsin; MS, Southern Illinois University, Carbondale; PhD, University of Alabama

Ovando, Carlos Julio (2001), Professor of Curriculum and Instruction and Educational Leadership and Policy Studies; BA, Goshen College; MA, MAT, PhD, Indiana University

Owen, Jeanette (2003), Assistant Professor of Russian; BA, Knox College; MA, PhD, Bryn Mawr College

Ozel, Filiz (1995), Professor of Architecture and Landscape Architecture; Associate Dean, Academic Programs, Division of Graduate Studies; BArch, MArch, Middle East Technical University (Turkey); DArch, University of Michigan

P

Packer, Merle A. (1959), Professor Emerita of Kinesiology; BA, MA, Arizona State University; EdD, University of Northern Colorado

Pagano, Caio
(1986)
Regents' Professor of Music; BLaws, University of Sao Paulo (Brazil); DMA, Catholic University of America

Page, John B. (1969), Professor Emeritus of Physics and Astronomy; BS, PhD, University of Utah

Page, Robert E., Jr. (2004), Foundation Professor of Life Sciences; Director, School of Life Sciences; BS, San Jose State University; PhD, University of California, Davis

Palais, Elliot S. (1959-62; 1966), Librarian Emeritus; BA, Bowdoin College; AMLS, University of Michigan

Palais, Joseph C. (1964), Professor of Electrical Engineering; Director of Graduate Studies, Department of Electrical Engineering; BSEE, University of Arizona; MSE, PhD, University of Michigan

Palmer, Michael B. (1998), Lecturer of Psychology; BA, Arizona State University; MA, Michigan State University; PhD, Arizona State University

Palumbo, Dennis J.
(1983)
Regents' Professor Emeritus of Justice and Social Inquiry; MA (Social Science), MA (Political Science), PhD, University of Chicago

Pan, George (1995), Professor of Electrical Engineering; BE, Peking Institute of Petroleum Technology (China); MS, PhD, University of Kansas

Panchanathan, Sethuraman (1997), Professor of Computer Science and Engineering; Chair, Department of Computer Science and Engineering; Director, Center for Cognitive Ubiquitous Computing; Director, Institute for Computer and Information Sciences and Engineering; BSc, University of Madras (India); MTech, Indian Institute of Technology, Madras (India); PhD, University of Ottawa (Canada)

Pang, Patty (1999), Lecturer of Chinese; BA, Tamkang University (Taiwan); MA, Arizona State University

Pangrazi, Robert P. (1973), Professor Emeritus of Kinesiology; BA, MS, PhD, Washington State University

Panitch, Alyssa (1999), Research Professor of Bioengineering; BS, PhD, University of Massachusetts

Pantoja, Adrian (2004), Assistant Professor of Political Science; BA, University of San Francisco; MA, PhD, Claremont Graduate University

Pany, Kurt J. (1978), Professor of Accountancy; BSBA, University of Arizona; MBA, University of Minnesota, Twin Cities; PhD, University of Illinois; CPA, Arizona

Papandreou-Suppappola, Antonia (1999), Associate Professor of Electrical Engineering; BS, MS, PhD, University of Rhode Island

Parchesky, Jennifer (2002), Assistant Professor of English; BA, Trinity University, San Antonio; PhD, Duke University

Park, Chan Beum (2002), Assistant Professor of Chemical and Materials Engineering; BS, MS, PhD, Pohang University of Science and Technology (South Korea)

Park, Pori (2002), Assistant Professor of Religious Studies; BA, Sookmyung Women's University (South Korea); MA, University of Iowa; MA, California State University, Hayward; PhD, University of California, Los Angeles

Parker, Harold E. (1987), Senior Research Technologist, Engineering Computer Services

Park-Fuller, Linda M. (2000), Assistant Professor of Communication; BA, University of North Dakota; MA, University of Missouri, Columbia; PhD, University of Texas at Austin

Parkhe, Smita (2001), Assistant Librarian, Technical Services Department; BS, University of Pune (India); MLS, Clarion University of Pennsylvania

Parkinson, Stanley R. (1971), Professor of Psychology; AB, University of California, Berkeley; MA, PhD, University of California, Davis

Parrish, H. Wayne (1967), Professor Emeritus of Curriculum and Instruction; AB, San Diego State College; MEd, EdD, University of Oregon

Parrish, Mila (2000), Assistant Professor of Dance; BFA, University of Michigan; MA, Columbia University; PhD, Ohio State University

Pasqualetti, Martin J. (1977), Professor of Geography; BA, University of California, Berkeley; MA, Louisiana State University, Baton Rouge; PhD, University of California, Riverside

Pastin, H. Mark (1980), Professor Emeritus of Management; BA, University of Pittsburg; AM, PhD, Harvard University

Patel, Mookesh (1990), Associate Professor of Visual Communication Design; Chair, Department of Visual Communication Design; BFA, National Institute of Design (India); MFA, Rhode Island School of Design

Patten, Duncan T. (1965), Professor Emeritus of Life Sciences; AB, Amherst College; MS, University of Massachusetts, Amherst; PhD, Duke University

Patterson, Robert A. (1957), Professor Emeritus of Life Sciences; BS, University of Michigan; PhD, Ohio State University

Patton, David W. (2004), Clinical Professor of Health Management and Policy; BS, Arizona State University; MHA, University of Minnesota; MA, EMBA, PhD, Claremont Graduate University

Pauken, Christine (2001), Research Scientist of Bioengineering; BS, University of Toledo; PhD, Temple University

Paulsen, George E. (1959), Professor Emeritus of History; BA, Hobart College; MA, Rutgers, The State University of New Jersey; PhD, Ohio State University

Peacock, Simon M. (1985), Professor of Geological Sciences; Divisional Dean of Natural Sciences and Mathematics, College of Liberal Arts and Sciences; BS, MS, Massachusetts Institute of Technology; PhD, University of California, Los Angeles

Pearce, Martha V. (1977), Professor Emerita of Technology; BS, Columbia University; MS, Boston University; EdD, Arizona State University

Pearce, Michael J. (2004), Faculty Associate of Planning; BA, University of Michigan; JD, University of Arizona

Pearson, David L. (1988), Research Professor of Life Sciences; BS, Pacific Lutheran University; MS, Louisiana State University, Baton Rouge; PhD, University of Washington

Pearson, John N. (1981), Professor of Supply Chain Management; BS, MBA, Florida Atlantic University; PhD, Georgia State University

Pearson, Nancy B. (1989), Research Professional Emerita of Life Sciences; BA, Earlham College; MS, Louisiana State University, Baton Rouge

Peck, Robert E. (1984), Professor of Engineering; Chair, Department of Mechanical and Aerospace Engineering; BS, University of California, Berkeley; MS, PhD, University of California, Irvine

Pecuch-Herrero, Marta (1981), Lecturer of Mathematics and Statistics; BS, University of Buenos Aires (Argentina); PhD, University of Chicago

Pei, Ker-Wei (1986), Professor of Accountancy; Associate Dean, Asia Pacific Programs; BA, National Chung-Hsing University (Taiwan); MA, Southern Illinois University, Carbondale; PhD, North Texas State University

Peles, Joseph (1997), Adjunct Professor of Bioengineering; BE, Vanderbilt University; MS, PhD, Arizona State University

Peloso, Antony F. (2004), Assistant Clinical Professor of Marketing; BA, University of Queensland (Australia); MB, PhD, Queensland University of Technology (Australia)

Penley, Larry E. (1985), Professor Emeritus of Management; BA, MA, Wake Forest University; PhD, University of Chicago

Peralta, Pedro D. (1998), Associate Professor of Mechanical Engineering; BS, Simón Bolívar University (Venezuela); MS, PhD, University of Pennsylvania

Permana, Paska (2000), Adjunct Professor of Life Sciences; BA, Smith College; PhD, Ohio State University

Perrill, Norman K. (1966), Professor Emeritus of Communication; BS, MA, Northwestern University; PhD, University of Southern California

Perrings, Charles (2005), Professor of Economics; BA, PhD, University of London (United Kingdom)

Perry, Curtis (1995), Associate Professor of English; BA, Cornell University; MA, PhD, Harvard University

Peskin, Victor (2005), Assistant Professor of Global Studies; BA, University of California, Santa Cruz; MA, Stanford University; PhD, University of California, Berkeley

Pessler, Anthony J. (1994), Associate Professor of Art; BFA, MA, St. Cloud State University; MFA, University of Wisconsin, Madison

Peterman, Gordon G. (1966), Professor Emeritus of Construction; BSCE, University of Iowa

Peters, Kathleen A. (1967), Professor Emerita of Family and Human Development; BS, MS, Kansas State University

Petersen, Michael (2001), Assistant Professor of Accountancy; BS, MBA, MAcc, Brigham Young University; PhD, University of Iowa

Petersen, Michelle C. (1997), Lecturer of Spanish; BA, Western Illinois University; MA, University of Iowa

Peterson, John R. (1963), Professor Emeritus of Architecture and Landscape Architecture; Graduate Coordinator of School of Architecture and Landscape Architecture; BA, St. Olaf College; BArch, University of Minnesota, Twin Cities; MArch, Harvard University

Peterson, Ralph (1976), Professor Emeritus of Curriculum and Instruction; BA, Eastern Washington State College; MA, EdD, Columbia University

Petrucci, Darren (1998), Associate Professor of Architecture and Landscape Architecture; Director, School of Architecture and Landscape Architecture; BSD, Arizona State University; MArch, Harvard University

Pettit, G. Robert
(1964)
Regents' Professor of Chemistry and Biochemistry; Director, Cancer Research Institute; BS, Washington State University; MS, PhD, Wayne State University

Pettit, Robin K. (1997), Associate Research Professor, Cancer Research Institute; BS, University of Arizona; MS, Washington State University; PhD, University of Montana

Petuskey, William T. (1983), Professor of Chemistry and Biochemistry; Associate Chair, Department of Chemistry and Biochemistry; Codirector, Science and Engineering of Materials; BS, University of Utah; ScD, Massachusetts Institute of Technology

Pfuhl, Erdwin H. Jr. (1968), Professor Emeritus of Sociology; AB, Whitman College; AM, University of Idaho; PhD, Washington State University

Pfund, Michele E. (1999), Clinical Assistant Professor of Supply Chain Management; BS, Case Western Reserve University; MS, Purdue University; PhD, Arizona State University

Pheanis, David C. (1975), Professor Emeritus of Computer Science and Engineering; BS, Case Institute of Technology; MS, PhD, Arizona State University

Phelan, Patrick E. (1996), Associate Professor of Mechanical and Aerospace Engineering; BS, Tulane University; MS, Massachusetts Institute of Technology; PhD, University of California, Berkeley

Philippakis, Andrew S. (1967), Professor Emeritus of Computer Information Systems; BS, Gannon College; MBA, PhD, University of Wisconsin, Madison

Phillips, Stephen M. (2002), Professor of Electrical Engineering; Chair, Department of Electrical Engineering; BS, Cornell University; MS, PhD, Stanford University

Phillips, William W. (1958), Professor Emeritus of History; PhB, MA, University of North Dakota; PhD, University of Missouri

Piburn, Michael D. (1989), Professor Emeritus of Curriculum and Instruction; BS, University of California, Davis; PhD, Princeton University

Pickus, David (1999), Honors Faculty Fellow; BA, Lawrence University; MA, PhD, University of Chicago

Pigg, Kathleen B. (1988), Associate Professor of Life Sciences; BS, MS, Ohio University; PhD, Ohio State University

Pijawka, K. David (1982), Professor of Planning; Director, PhD Program in Environmental Design and Planning; BA, Brock University (Canada); MA, PhD, Clark University

Pilafian, J. Samuel (1995), Professor of Music; BM, University of Miami

Pile, James (1971), Professor Emeritus of Art; BFA, MFA, University of Nebraska, Lincoln

Piña, Armando (2005), Assistant Professor of Psychology; PhD, Florida International University

Pinckard, Mary-Margaret (1982), Librarian Emerita; BS, University of New Hampshire; MLS, University of Arizona

Pinholster, Jacob (2005), Assistant Professor of Theatre; BFA, MFA, University of Florida

Pinkava, Donald J. (1964), Professor Emeritus of Life Sciences; BS, MS, PhD, Ohio State University

Pinto, Ana C. (2003), Affiliate Professor of Anthropology; BA, Rovira i Virgili University (Spain); MA, University of Barcelona (Spain); PhD, University of Oviedo (Spain)

Pitti, Gina-Marie (2003), Assistant Professor of History; BA, Yale University; MA, PhD, Stanford University

Pittman, Andrea (2004), Assistant Professor of Speech and Hearing Science; BA, Point Loma Nazarene University; MA, San Diego State University; PhD, University of Wisconsin, Madison

Pittman, Anne M. (1952), Professor Emerita of Kinesiology; BS, University of Texas at Austin; MA, New York University; EdD, Stanford University

Pittsley, Janice M. (1987), Professor of Art; BFA, University of North Carolina at Chapel Hill; MFA, University of Georgia

Pizziconi, Vincent B. (1987), Associate Professor of Bioengineering; BS, University of Lowell; MSE, PhD, Arizona State University

Plotkin, Wendy (2003), Assistant Professor of History; BA, University of Illinois, Urbana; MA, Tufts University; PhD, University of Illinois, Chicago

Plunkett, Paul E. (2004), Visiting Professor of Law; BA, MA, JD, Harvard University

Podlich, William F. (1949), Professor Emeritus of Education; BS, Maryland State Teachers College; PhD, University of Iowa

Poe, Jerry B. (1974), Professor Emeritus of Finance; BA, Drury College; MBA, Washington University; DBA, Harvard University

Ponce, Fernando A. (1999), Professor of Physics and Astronomy; BS, National University of Engineering (Peru); MS, University of Maryland, College Park; PhD, Stanford University

Popko, Sigmund (2001), Legal Writing Instructor; BA, JD, University of Arizona

Portmore, Douglas W. (2005), Assistant Professor of Philosophy; BA, University of California, San Diego; MA, CPhil, PhD, University of California, Santa Barbara

Posner, Jonathan (2005), Assistant Professor of Mechanical Engineering; BS, MS, PhD, University of California, Irvine

Poste, George H.
(2003)
Regents' and Del E. Webb Distinguished Professor of Biology; Director, Biodesign Institute at ASU; DVM, PhD, University of Bristol (England)

Potts, Claude H. (2003), Assistant Librarian, Hayden Reference Services; BA, University of California, Berkeley; MA, MLIS, University of California, Los Angeles

Poudrier, Almirer (2002), Lecturer of Latin; BA, Beloit College; MA, University of Minnesota, Minneapolis; PhD, State University of New York, Buffalo

Poweleit, Christian D. (1995), Associate Research Professional of Physics and Astronomy; BA, Thomas Moore College; MA, Purdue University; PhD, University of Cincinnati

Powers, Doris C. (1960), Professor Emerita of English; BA, Wellesley College; MA, Occidental College; PhD, University of California, Berkeley

Powers, Jeanne M. (2001), Assistant Professor of Educational Leadership and Policy Studies; BA, Tufts University; MA, University of California, Irvine; PhD, University of California, San Diego

Powers, Karen (2002), Associate Professor of History; BA, Herbert H. Lehman College; MA, PhD, New York University

Prather, Elizabeth M. (1978), Professor Emerita of Speech and Hearing Science; BS, University of Nebraska, Lincoln; MA, PhD, University of Iowa

Pratt, Melvin W. (1987), Manager, Engineering, Center for Solid State Electronics Research

Prescott, Edward C.
(2004)
Regents' Professor of Economics; Nobel Laureate in Economics; W. P. Carey Chair, Department of Economics; BA, Swarthmore College; MS, Case Western Reserve University; PhD, Carnegie-Mellon University

Presson, Clark C. (1980), Professor of Psychology; BA, Pomona College; MS, PhD, Columbia University

Prewitt, Kathryn A. (1992), Associate Professor of Mathematics and Statistics; BA, University of Kansas; MS, PhD, University of California, Davis

Prichard, Robin (2004), Visiting Assistant Professor of Dance; BFA, State University of New York, Purchase; MFA, University of California, Los Angeles

Prigatano, George P. (1993), Adjunct Professor of Speech and Hearing Science; BS, Loyola University, Los Angeles; MA, California State University, Long Beach; PhD, Bowling Green State University

Pritchard, Melissa (1994), Professor of English; BA, University of California, Santa Barbara; MA, Western Washington University

Privateer, Paul (1991), Associate Professor of English; BA, MA, California State University, Stanislaus; PhD, University of California, Davis

Prochazka, Michal (2000), Adjunct Professor of Life Sciences; MD, University of Zurich (Switzerland)

Proskus, Kristina (1999), Assistant Law Librarian, Ross-Blakley Law Library; BA, Northern Illinois University; MLS, Rosary College

Province, Martin (2002), Assistant Professor of Music; Associate Director of Bands; BA, Wake Forest University, Winston-Salem; MM, DMA, University of Colorado, Boulder

Provine, Doris Marie (2001), Professor of Justice and Social Inquiry; Director, School of Justice and Social Inquiry; AB, University of Chicago; JD, PhD, Cornell University

Pruis, Christine (2004), Lecturer of Chemistry and Biochemistry; BS, Valparaiso University; PhD, Northwestern University

Puglia, Mary (2001), Adjunct Professor of Life Sciences; BS, University of Arizona; MS, PhD, Arizona State University

Pyne, Stephen J.
(1986)
Regents' Professor of Life Sciences; BA, Stanford University; MA, PhD, University of Texas at Austin

Q

Qian, Gang (2003), Assistant Professor of Arts, Media, and Engineering and Electrical Engineering; BE, University of Science and Technology of China; MS, PhD, University of Maryland

Quesada, Eugene R. (1973), Professor Emeritus of Industrial Design; BA, Arizona State University

Quigg, John C. (1981), Professor of Mathematics and Statistics; BS, MS, PhD, Drexel University

Quinn, Paul M. (1995), Lecturer of Speech and Hearing Science; BA, California State University, Northridge

R

Rabe, William (Bill) (2005), Lecturer of Curriculum and Instruction; BA, MA, Arizona State University

Rabinovich, Elliot (2001), Assistant Professor of Supply Chain Management; BS, School of Engineering of Antioquia (Columbia); MS, PhD, University of Maryland

Raby, William (1982), Professor Emeritus of Accountancy; BS, Northwestern University; MBA, PhD, University of Arizona

Rader, Martha (1975), Associate Professor of Curriculum and Instruction; BS, MBE, University of Mississippi; PhD, Kansas State University

Radke, Judith J. (1960), Professor Emerita of French; BS, MA, University of Wisconsin, Madison; PhD, University of Colorado

Ragan, Donal M. (1967), Professor Emeritus of Geological Sciences; BA, Occidental College; MS, University of Southern California; PhD, University of Washington

Ragsdale, Bruce D. (1989), Adjunct Professor of Anthropology; BS, University of California; MD, University of California, San Francisco

Rajan, Subramaniam D. (1983), Professor of Civil and Environmental Engineering; BTech, Indian Institute of Technology (India); MS, PhD, University of Iowa

Ralston, Mack A. (1956), Professor Emeritus of Education; BS, MS, Indiana State University; EdD, Indiana University

Ramage, John (1990), Professor Emeritus of English; BA, Whitman College; PhD, Washington State University

Ramakrishna, B.L. (1999), Associate Professor of Life Sciences and Solid State Science; BSc, Bangalore University (India); MSc, Indian Institute of Technology, Kanpur (India); PhD, Indian Institute of Technology, Madras (India)

Rampe, Siegbert (2005), Assistant Professor of Music; Diploma, Stuttgart Music Academy (Germany); Concert Diploma, Mozarteum University (Austria)

Ranalli, Ronald, Captain (2004), Assistant Professor of Military Science; BA, University of Ohio

Rankin, Robert L. (1971), Professor Emeritus of Engineering; BS, University of Texas, El Paso; PhD, William Marsh Rice University

Rankin, W. Parkman (1982), Professor Emeritus of Journalism and Mass Communication; BS, Syracuse University; MBA, PhD, New York University

Rapp, James R. (1962), Professor Emeritus of Architecture and Landscape Architecture; BArch, University of Detroit; MSArch, Columbia University

Ratliff, John (1954), Professor Emeritus of English; BA, Arizona State University; MA, Claremont Graduate School; PhD, Stanford University

Raupp, Gregory B. (1985), Professor of Chemical Engineering; Director, Flexible Display Center; BS, MS, Purdue University; PhD, University of Wisconsin, Madison

Rausch, Jack D. (1965), Professor Emeritus of Music; BS, MA, Ohio State University

Rave, Wallace J. (1967), Professor Emeritus of Music; BS, Illinois State University; MM, PhD, University of Illinois

Ravindran, Suryanarayanan (2001), Assistant Professor of Computer Information Systems; BA, Indian Institute of Technology (India); MBA, Indian Institute of Management (India); PhD, University of Texas at Austin

Rawls, J. Alan (1997), Associate Professor of Life Sciences; BS, University of Western Ontario (Canada); PhD, Saint Louis University

Ray, William J. (1968), Professor Emeritus of Curriculum and Instruction; BS, MS, State University of New York, Buffalo; EdD, Wayne State University

Rayle, Andrea Dixon (2002), Assistant Professor of Psychology in Education; BA, MA, University of North Carolina at Charlotte; PhD, University of North Carolina at Greensboro

Read, Anne-Marie (2002), Assistant Professor of Educational Leadership and Policy Studies; BA, State University of New York, New Paltz; MS, State University of New York, Oswego; PhD, University of North Carolina at Chapel Hill

Reader, Mark (1967), Professor Emeritus of Political Science; AB, AM, PhD, University of Michigan

Reaven, Peter (2000), Adjunct Professor of Life Sciences; BS, University of Chicago; MD, University of Chicago, Pritzker

Reber, William (1991), Professor of Music; Director, Music Theatre Program; BM, MM, University of Utah; DMA, University of Texas at Austin

Reckers, Philip M.J. (1980), Professor of Accountancy; BS, Quincy College; MBA, Washington University; PhD, University of Illinois

Redman, Betsy J. (1988), Associate Librarian; Management Team, Technical Services Department; BS, MLS, University of Arizona

Redman, Charles L. (1983), Professor of Anthropology; Director, Global Institute of Sustainability; BA, Harvard University; MA, PhD, University of Chicago

Reece, Sandra P. (2005), Adjunct Professor of Anthropology; BA, University of Tulsa; MA, PhD, Arizona State University

Reed, Kaye E. (1997), Associate Professor of Anthropology; Research Associate, Institute of Human Origins; BS, Portland State University; MA, PhD, State University of New York, Stony Brook

Reeves, Henry C. (1969), Professor Emeritus of Life Sciences; BS, Franklin and Marshall College; MA, PhD, Vanderbilt University

Reffett, Kevin L. (1995), Associate Professor of Economics; BBA, MA, University of Iowa; PhD, Purdue University

Regier, Philip R. (1987), Associate Professor of Accountancy; BA, St. John's College; PhD, University of Illinois

Reich, John W. (1965), Professor of Psychology; BA, MS, University of Oklahoma; PhD, University of Colorado

Reif, William E. (1970), Professor Emeritus of Management; BBA, MA, PhD, University of Iowa

Reiman, Etsuko Obata (1978), Associate Professor of Japanese; BA, Keio University (Japan); MA, Seton Hall University; MA, PhD, University of Wisconsin, Madison

Reingen, Peter H. (1982), Davis Distinguished Research Professor of Marketing; BBA, Cologne College (Germany); MBA, PhD, University of Cincinnati

Reiser, Castle O. (1958), Professor Emeritus of Chemical Engineering; BS, Colorado State University; PetE, Colorado School of Mines; PhD, University of Wisconsin, Madison

Reiser, Mark P. (1988), Associate Professor of Biostatistics and Health Management and Policy; BS, University of Michigan; PhD, University of Chicago

Reiss, Peter W. (1976), Professor Emeritus of Business Administration; BS, Marquette University; MA, Arizona State University; JD, Marquette University

Reisslein, Martin (2000), Associate Professor of Electrical Engineering; MS, PhD, University of Pennsylvania

Reiter, Wellington (2003), Professor of Architecture and Landscape Architecture; Dean, College of Design; BSD, Tulane University; MArch, Harvard University

Renaut, Rosemary (1987), Professor of Mathematics and Statistics; Director, Computational Biosciences Program; BS, Durham University; PhD, University of Cambridge (United Kingdom)

Restrepo, Maria Adelaida (2004), Associate Professor of Speech and Hearing Science; BA, University of Florida; MA, University of Massachusetts; PhD, University of Arizona

Reuter, Vincent G. (1961), Professor Emeritus of Operations Management; BSC, MA, PhD, University of Iowa

Reyes, Angelita (2002), Professor of African and African American Studies; BA, City University of New York; MA, New York University; PhD, University of Iowa

Reyes, Guillermo (1996), Associate Professor of Theatre; BA, University of California, Los Angeles; MFA, University of California, San Diego

Reynolds, Richard (2002), Lecturer of Mathematics and Statistics; BS, New Mexico Institute of Mining and Technology; MS, PhD, New Mexico State University

Reynolds, Robert D. (1970), Professor Emeritus of Music; BM, Texas Christian University; MM, University of Texas at Austin; PhD, Ohio State University

Reynolds, Stephen J. (1991), Professor of Geological Sciences; BS, University of Texas, El Paso; MS, PhD, University of Arizona

Reynolds, Steven L. (1988), Associate Professor of Philosophy; BA, University of Chicago; MA, PhD, University of California, Los Angeles

Rez, Peter (1985), Professor of Physics and Astronomy and Solid State Science; BA, University of Cambridge (United Kingdom); PhD, University of Oxford (United Kingdom)

Reznikoff, Sivon C. (1973), Professor Emerita of Interior Design; Certificate, New York School of Interior Design; BA, University of Southwestern Louisiana; MA, Louisiana State University, Baton Rouge

Rhoads, David M. (2000), Assistant Professor of Life Sciences; BS, Pennsylvania State University; PhD, Michigan State University

Rhodes, Jewell Parker (1997), Professor of English; BA, MA, DA, Carnegie Mellon University

Ribic, Catherine (2000), Affiliate Professor of Anthropology; BA, MA, PhD, Arizona State University

Rice, Glen E. (1986), Professor Emeritus of Anthropology; BA, Reed College; MA, PhD, University of Washington

Rice, Warren (1958), Professor Emeritus of Engineering; BS, MS, PhD, Texas A&M University

Richa, Andrea W. (1998), Associate Professor of Computer Science and Engineering; BSc, MSc, Federal University of Rio de Janeiro (Brazil); MSc, PhD, Carnegie Mellon University

Richard, Thelma Shinn (1975), Professor Emerita of English; BA, Central Connecticut State College; MA, PhD, Purdue University

Richards, Gale L. (1965), Professor Emeritus of Communication; BA, University of Akron; MA, PhD, University of Iowa

Richardson, Deane E. (1970), Professor Emeritus of Kinesiology; BS, Bradley University; MA, EdD, Stanford University

Richardson, Diane (2004), Lecturer of Mathematics and Statistics; BS, University of Arkansas; MS, Arizona State University

Richardson, Jeanne (1985), Librarian; Team Leader, Collection Development; BA, Lawrence University; MS, MLS, Columbia University

Richardson, Richard C. Jr. (1977), Professor Emeritus of Higher Education; BS, Castleton State College; MS, Michigan State University; PhD, University of Texas at Austin

Richert, Ranko (1999), Associate Professor of Chemistry and Biochemistry; PhD, Philipps University, Marburg (Germany)

Ridenour, Ronda L. (1970), Associate Librarian; Management Team, Technical Services Department; BA, Arizona State University; MSLS, University of Southern California

Riding In, James (1990), Associate Professor of Justice and Social Inquiry; BA, Fort Lewis College; MA, PhD, University of California, Los Angeles

Rikakis, Thanassis (2001), Professor of Arts, Media, and Engineering; Director, Arts, Media, and Engineering Program; BA, Ithaca College; MA, DMA, Columbia University

Rimsza, Mary Ellen (2004), Associate Research Professor of Health Management and Policy; AB, Washington University, St. Louis; MD, Hahnemann Medical College

Ringenbach, Shannon D. (1998), Associate Professor of Kinesiology; BPe, MS, McMaster University (Canada); PhD, Purdue University

Ringenoldus, Garrit M. (1989), Instructor of Military Science; BS, Illinois State University

Ringhofer, Christian (1983), Professor of Mathematics and Statistics; MA, PhD, University of Vienna (Austria)

Rio, Robin (1998), Associate Professor of Music; BM, East Carolina University; MA, New York University

Ríos, Alberto Alvaro
(1982)
Regents' and Katherine C. Turner Professor of English; BA, MFA, University of Arizona

Riske, Marc C. (1985), Associate Professor of Theatre; BFA, North Dakota State University; MFA, PhD, Wayne State University

Risseeuw, John L. (1980), Professor of Art; BS, MA, MFA, University of Wisconsin, Madison

Ritchie, Barry G. (1984), Professor of Physics and Astronomy; Chair, Department of Physics and Astronomy; BS, Appalachian State University; MS, PhD, University of South Carolina

Rittmann, Bruce E. (2005), Professor of Civil and Environmental Engineering; Director, Biodesign Institute; BS, MS, Washington University; PhD, Stanford University

Rivera, Daniel E. (1990), Associate Professor of Chemical Engineering; BS, University of Rochester; MS, University of Wisconsin, Madison; PhD, California Institute of Technology

Rivera-Servera, Ramon (2004), Assistant Professor of Theatre; BA, University of Rochester; MA, City University of New York; PhD, University of Texas at Austin

Roanhorse-Dineyazhe, Maxine (2003), Lecturer of Curriculum and Instruction; BA, MEd, EdD, Arizona State University

Robbins, Earl R. (1961), Professor Emeritus of Computer Science; BSEE, Texas Technological College; MSE, PhD, Arizona State University

Roberson, Loriann (1992), Professor of Management; BA, PhD, University of Minnesota, Twin Cities

Roberson, Robert W. (1989), Associate Professor of Life Sciences; BS, MS, Stephen F. Austin State University; PhD, University of Georgia

Robert, Jason (2004), Assistant Professor of Life Sciences; BA, Queen's University (Canada); MS, PhD, McMaster University (Canada)

Roberts, Lauren C. (1984), Clinical Associate Professor of Life Sciences; BS, Saint Norbert College; MS, University of Illinois

Roberts, Nancy H. (1980), Senior Lecturer of Economics; BA, University of Texas, Arlington; MS, PhD, Arizona State University

Roberts, Thomas G. (1970), Professor Emeritus of Curriculum and Instruction; BA, Wake Forest University; MA, PhD, University of North Carolina at Chapel Hill

Robertson, Ian G. (2002), Adjunct Professor of Anthropology; BA, MA, University of Calgary (Canada); PhD, Arizona State University

Robillard, Alyssa (2004), Assistant Professor of African and African American Studies; BS, Xavier University of Louisiana; MSPH, PhD, University of Alabama, Birmingham

Robinette, Martin (2000), Adjunct Professor of Speech and Hearing Science; BS, MS, University of Utah; PhD, Wayne State University

Robinson, Dahlia M. (2000), Assistant Professor of Accountancy; BS, MS, University of the West Indies (Barbados); MS, Pennsylvania State University; PhD, University of Georgia

Robinson, Helene M. (1967), Professor Emerita of Music; BA, University of Oregon; MM, Northwestern University

Robinson Kurpius, Sharon E. (1978), Professor of Psychology in Education; BS, MS, University of Wisconsin, LaCrosse; PhD, Indiana University, Bloomington

Rockmaker, Jody (1997), Associate Professor of Music; BM, New England Conservatory, Boston; MFA, PhD, Princeton University

Rodriguez, Armando (1990), Professor of Electrical Engineering; BS, Polytechnic Institute of New York, Brooklyn; MS, PhD, Massachusetts Institute of Technology

Rody, Joseph (1994), Senior Lecturer of Mathematics and Statistics; BS, MS, University of Akron

Roedel, Ronald J. (1981), Professor of Electrical Engineering; Director, Engineering Core and Special Studies; BSE, Princeton University; MS, PhD, University of California, Los Angeles

Rogers, Joseph (1988), Adjunct Professor of Life Sciences; BA, Emory University; PhD, University of California, San Diego

Rogers, Rodney (1987), Professor of Music; BM, University of Iowa; MM, Arizona State University; PhD, University of Iowa

Rogerson, Richard (2001), Rondthaler Professor of Economics; BSc, University of Alberta (Canada); PhD, University of Minnesota

Roh, Kyeong Hah (2005), Assistant Professor of Mathematics and Statistics; BS, Ewha Womans University (South Korea); MS, PhD, Seoul National University (South Korea); PhD, The Ohio State University, Columbus

Roher, Alex E. (1997), Adjunct Professor of Life Sciences; MD, National University of Mexico School of Medicine; PhD, University of Cambridge (United Kingdom)

Rolstad, Kellie (1999), Assistant Professor of Curriculum and Instruction; BA, MA, PhD, University of California, Los Angeles

Romanovsky, Andrej (2001), Adjunct Professor of Life Sciences; PhD, Institute of Physiology, Belarusian Academy of Sciences (Belarus)

Romero, Mary (1995), Professor of Justice and Social Inquiry; BA, Regis College; PhD, University of Colorado

Romero, Mary Eunice (2004), Assistant Professor of Curriculum and Instruction; BA, MA, University of New Mexico; PhD, University of California, Berkeley

Romeyn, Esther (1998), Assistant Professor of Interdisciplinary Humanities; BA, MA, University of Amsterdam (Netherlands)

Roosa, Mark W. (1980), Professor of Family and Human Development; BS, Ohio State University; MA, PhD, Michigan State University

Rosa, John P. (2000), Assistant Professor of Asian Pacific American Studies; BA, Northwestern University; MA, PhD, University of California, Irvine

Rosales, F. Arturo (1980), Professor of History; BA, Arizona State University; MA, Stanford University; PhD, Indiana University, Bloomington

Rose, Jonathan (1968), Professor of Law; BA, University of Pennsylvania; LLB, University of Minnesota, Twin Cities

Rose, Seth D. (1976), Professor of Chemistry and Biochemistry; BS, University of California, Berkeley; PhD, University of California, San Diego

Rosen, Bernice M. (1986), Instructional Professional Emerita; BA, Brooklyn College; MA, New York University

Rosen, Seymour L. (1986), Professor Emeritus of Music; Dean Emeritus, Herberger College of Fine Arts; BS, The Juilliard School

Rosenberg, Erica (2004), Associate Clinical Professor of Law; Director, Program of Public Policy, College of Law; BA, Harvard University; JD, Boston College

Rosenberg, Michael (2003), Assistant Professor of Life Sciences; BA, Northwestern University; PhD, State University of New York, Stony Brook

Rosier, Kathlene (2000), Director, Indian Legal Program; BA, Capital University; JD, University of Utah

Ross, Katherine B. (2002), Adjunct Professor of Speech and Hearing Science; BA, University of North Carolina at Chapel Hill; MS, PhD, Vanderbilt University

Rossi, Patrick J. (1967), Professor Emeritus of Psychology; BS, Saint Mary's College; MA, San Fernando Valley State College; PhD, University of California, Riverside

Rotaru, Catalin (2005), Associate Professor of Music; MM, University of Illinois

Roth, Aleda (2005), Professor of Supply Chain Management; W. P. Carey Chair, Department of Supply Chain Management; BS, The Ohio State University; MSPH, University of North Carolina at Chapel Hill; PhD, The Ohio State University

Rothschild, Mary Logan (1975), Professor of History and Women and Gender Studies; BA, MA, PhD, University of Washington

Rotondi, Michael (1999), Professor of Architecture and Landscape Architecture; DiplArch, Southern California Institute of Architecture

Roudenko, Svetlana (2004), Assistant Professor of Mathematics and Statistics; MS, Nuclear Power Engineering Institute (Russia); PhD, Michigan State University

Roussinov, Dmitri (2001), Assistant Professor of Computer Information Systems; BS, MS, Moscow Institute of Physics and Technology (Russia); MA, Indiana University, Bloomington; PhD, University of Arizona

Rowe, Casey (2001), Assistant Professor of Accountancy; BS, Northern Arizona University; MS, San Diego State University; PhD, University of Pittsburgh

Rowe, Kenneth L. (1962), Professor Emeritus of Marketing; BA, MA, Northern Iowa University; PhD, Michigan State University

Roy, Asim (1983), Professor of Computer Information Systems; BE, Calcutta University (India); MS, Case Western Reserve University; PhD, University of Texas at Austin

Roy, Ramendra P. (1981), Professor of Engineering; BSc, University of Calcutta (India); MS, University of Washington; MSc, PhD, University of California, Berkeley

Ruch, William A. (1968), Professor Emeritus of Management; BS, MBA, DBA, Indiana University, Bloomington

Ruedemann, Richard (1997), Senior Lecturer of Mathematics and Statistics; BS, MA, Arizona State University; PhD, University of South Florida

Rummel, John R. (1975), Professor Emeritus of Architecture and Landscape Architecture; BA, MS, Stanford University

Rund, James A. (2001), Associate Professor of Educational Leadership and Policy Studies; Vice President, University Undergraduate Initiatives; BA, Moorehead State University; MS, North Dakota State University; EdD, Arizona State University

Runger, George (1996), Professor of Industrial Engineering; BS, Cornell University; PhD, University of Minnesota

Rungtusanatham, Manus (Johnny) (1998), Associate Professor of Supply Chain Management; BS, Birmingham-Southern College; PhD, University of Minnesota

Ruppert, K.D. (1976), Research Specialist Emeritus of Geography; BSEE, University of Iowa

Rush, James (1990), Associate Professor of History; BA, Gettysburg College; MA, PhD, Yale University

Russell, Dennis E. (1991), Associate Professor of Journalism and Mass Communication; BS, MMC, Arizona State University; PhD, University of Utah

Russell, Paul E. (1967), Professor Emeritus of Electrical Engineering; BSEE, BSME, New Mexico A&M University; MSEE, PhD, University of Wisconsin, Madison; PE

Russell, Scott C. (1990), Adjunct Professor of Anthropology; BA, University of New Mexico; MA, PhD, Arizona State University

Russell, Timothy (1993), Professor of Music; BMEd, Northwestern University; MA, PhD, Ohio State University

Russo, Nancy Felipe
(1985)
Regents' Professor of Psychology; BA, University of California, Davis; PhD, Cornell University

Russomanno, Joseph A. (1994), Associate Professor of Journalism and Mass Communication; BA, University of Colorado, Denver; MA, University of Missouri, Columbia; PhD, University of Colorado

Rutherford, Robert B. Jr. (1976), Professor of Curriculum and Instruction; Director, Interdisciplinary PhD Program in Curriculum and Instruction; Associate Director of Research and Graduate Education, Division of Curriculum and Instruction; BS, MEd, University of Virginia; EdS, PhD, Vanderbilt University

Rutowski, Kathleen (2001), Lecturer of Curriculum and Instruction; BA, University of California, Santa Cruz; MA, San Francisco State University; PhD, Arizona State University

Rutowski, Ronald L. (1976), Professor of Life Sciences; Associate Director, School of Life Sciences Undergraduate Program; BA, University of California, Santa Cruz; PhD, Cornell University

Ryu, Hodon (2003), Faculty Research Associate of Civil and Environmental Engineering; BS, MS, Hanyang University (South Korea); PhD, University of Arizona

Ryu, Kyung Dong (2001), Assistant Professor of Computer Science and Engineering; BS, MS, Seoul National University (South Korea); MS, PhD, University of Maryland, College Park

S

Sabo, John S. (2001), Assistant Professor of Life Sciences; BS, University of Notre Dame; MS, University of Washington; PhD, University of California, Berkeley

Sacks, Benjamin (1963), Professor Emeritus of History; BA, University of New Mexico; MA, McGill University (Canada); PhD, Stanford University

Sadalla, Edward K. (1974), Professor of Psychology; BA, University of California, Berkeley; PhD, Stanford University

Sadowski-Smith, Claudia (2004), Assistant Professor of English; BA, University of Lepizig (Germany); MA, Free University, Berlin (Germany); PhD, University of Delaware

Saenz, Delia S. (1989), Associate Professor of Psychology; BA, Pan American University; MA, PhD, Princeton University

Sager, Harvey M. (1977), Librarian Emeritus; BA, San Francisco State College; MA, California State University, Chico; MA, University of Denver

St. Louis, Robert D. (1982), Professor of Computer Information Systems; Chair, Department of Information Systems; AB, Rockhurst College; MS, PhD, Purdue University

Saks, Michael (2000), Professor of Law; BA, BS, Penn State University; MSL, Yale University; MA, PhD, Ohio State University

Saldaña, Johnny (1981), Professor of Theatre; BFA, MFA, University of Texas at Austin

Salerno, Nicholas A. (1961), Professor Emeritus of English; BA, MA, Arizona State University; PhD, Stanford University

Saltz, Charlene (2000), Academic Associate, Environmental Education Coordinator, Global Institute of Sustainability; BA, Emory University; MS, Antioch New England Graduate School

Salvatore, Joseph Raphael (1998), Adjunct Professor of Life Sciences; MD, Autonomous University of Guadalajara (Mexico)

Salvucci, Michael E. (1995), Adjunct Professor of Life Sciences; BS, Pennsylvania State University; MS, PhD, University of Florida

Samuelson, Hava Tirosh (1999), Professor of History; BA, State University of New York, Stony Brook; PhD, Hebrew University of Jerusalem (Israel)

Samuelson, Norbert M. (1998), Professor of Religious Studies; Harold and Jean Grossman Chair in Jewish Studies; BA, Northwestern University; BHL, MHL, Hebrew Union College Jewish Institute of Religion; PhD, Indiana University

Sanchez, Angel (1990), Associate Professor of Languages and Literatures; Licenciatura, Complutense University (Spain); MA, University of Minnesota, Twin Cities; PhD, University of Minnesota, Minneapolis

Sanchez, Marta (2004), Professor of Chicano and Latin American Studies; BA, Mount St. Mary's College; MA, John Carroll University; PhD, University of California, San Diego

Sanders, Bevie T. (1957), Professor Emeritus of Accountancy; BBA, North Texas State University; MS, Texas A&M University; PhD, University of Texas; CPA, Arizona, Texas

Sandler, Irwin N.
(1970)
Regents' Professor of Psychology; BA, Brooklyn College; PhD, University of Rochester

Sands, Kathleen M. (1977), Professor Emerita of English; BA, Fort Wright College of the Holy Names; MA, PhD, University of Arizona

Sands, Teryl (2005), Lecturer of English; BA, MTESL, PhD, Arizona State University

Sanft, Alfred C. (1990), Associate Professor of Visual Communication Design; BFA, Brigham Young University; MFA, Basel School of Design (Switzerland)

Sankey, Otto F. (1982), Professor of Physics and Astronomy; BS, University of Missouri, St. Louis; MS, PhD, Washington University

Sansone, Fred J. (1965), Professor Emeritus of Mathematics and Statistics; BSE, MSE, University of Michigan; MS, PhD, Rutgers, The State University of New Jersey

Santanam, Raghu (1998), Associate Professor of Computer Information Systems; BE, National Institute of Engineering (India); MS, Indian Institute of Technology (India); MS, PhD, State University of New York, Buffalo

Santello, Marco (1999), Associate Professor of Kinesiology; BSc, Higher Institute of Physical Education (Italy); MPhil, PhD, University of Birmingham (United Kingdom)

Santos, Manuel (1999), Professor of Economics; Licenciatura, Autonomous University of Madrid (Spain); MA, PhD, University of Chicago

Santos de Barona, Maryann (1989), Professor of Curriculum and Instruction; BS, City University of New York; MA, PhD, University of Texas at Austin

Sarewitz, Daniel R. (2004), Professor of Geological Sciences and Life Sciences; Director, Center for Science, Policy, and Outcomes; BS, Haverford College; MS, Oregon State University; PhD, Cornell University

Sargent, Charles S. Jr. (1971), Professor Emeritus of Geography; BA, University of Wyoming; MA, PhD, University of California, Berkeley

Saric, William (1984), Professor Emeritus of Mechanical and Aerospace Engineering; BS, Illinois Institute of Technology; MS, University of New Mexico; PhD, Illinois Institute of Technology

Sarjoughian, Hessam S. (2001), Assistant Professor of Computer Science and Engineering; BS, Mississippi State University; MS, PhD, University of Arizona

Sater, Vernon E. (1962), Professor Emeritus of Chemical Engineering; BSChE, MSChE, PhD, Illinois Institute of Technology

Satterlie, Richard A. (1980), Professor Emeritus of Life Sciences; BA, Sonoma State University; PhD, University of California, Santa Barbara

Satterthwaite, Lester L. Jr. (1968), Professor Emeritus of Educational Media and Computers; BS, MS, EdD, Indiana University, Bloomington

Sattler, Howard E. (1967), Professor Emeritus of Education; BS, MS, PhD, Arizona State University

Saubolle, Michael (1998), Adjunct Professor of Life Sciences; BS, PhD, University of California, Davis

Saucan, Lucian (2000), Adjunct Professor of Life Sciences; MD, University of Cluj (Romania)

Savage, Nevin W. (1959), Professor Emeritus of Mathematics and Statistics; BS, MA, Pennsylvania State University; PhD, University of California, Los Angeles

Savage, Stephen H. (1998), Affiliate Professor of Anthropology; BA, Cincinnati Bible Seminary; MA, University of South Carolina; PhD, Arizona State University

Savard, Jeannine A. (1990), Associate Professor of English; BS, State University of New York, Plattsburg; MA, University of New Hampshire

Savenye, Wilhelmina C. (1991), Associate Professor of Psychology in Education; BA, University of Washington; MEd, PhD, Arizona State University

Sawhney, Anil (1999), Associate Professor of Construction; BSE, Institution of Engineers (India); MS, School of Planning and Architecture (India); PhD, University of Alberta (Canada)

Scarberry-Garcia, Susan (2005), Associate Professor of English; BA, University of California, Santa Barbara; MA, University of New Mexico; PhD, University of Colorado, Boulder

Schabacker, Joseph C. (1963), Professor Emeritus of Management; BS, Temple University; MBA, PhD, University of California, Los Angeles

Schade, Thomas V. (1974), Professor Emeritus of Justice and Social Inquiry; BA, Hope College; MA, PhD, Western Michigan University

Schall, Merri H. (1960-66; 1967), Professor Emerita of Curriculum and Instruction; BA, Albion College; MS, EdD, Arizona State University

Schatzki, George (2000), Professor of Law; Dean of Faculty, College of Law; AB, LLB, LLM, Harvard University

Schatzman, Christina (2005), Assistant Professor of Political Science; BA, MA, PhD, University of New Mexico

Scheatzle, David G. (1979), Professor Emeritus of Architecture and Landscape Architecture; BS, Kent State University; MSE, Arizona State University; ArchD, University of Michigan

Scheck, Adrienne C. (1997), Adjunct Professor of Life Sciences; BA, University of Rochester; PhD, Rensselaer Polytechnic Institute

Scheiner, Ricarda (2005), Adjunct Professor of Life Sciences; MS, PhD, Technical University Berlin (Germany)

Scheiner, Samuel M. (2000), Adjunct Professor of Life Sciences; BS, MS, PhD, University of Chicago

Schexnayder, Clifford J. (1994), Visiting Eminent Scholar Emeritus of Construction; BCE, MSCE, Georgia Institute of Technology; PhD, Purdue University

Schildkret, David (2002), Professor of Music; BA, Rutgers, The State University of New Jersey, New Brunswick; MM, DMA, Indiana University, Bloomington

Schlacter, John L. (1969), Professor Emeritus of Marketing; BBA, Case Western Reserve University; MBA, PhD, Ohio State University

Schlee, Edward E. (1990), Professor of Economics; BA, North Texas State University; MS, PhD, University of Illinois

Schleif, Corine (1988), Professor of Art; BA, Concordia College; MA, Washington University; PhD, University of Bamberg (Germany)

Schmeeckle, Mark W. (2003), Assistant Professor of Geography; BS, MS, University of Washington; PhD, University of Colorado, Boulder

Schmid, Maureen (1990), Associate Research Scientist; Director, Tandem Translation Project; BA, Saint Mary's College of Notre Dame; MA, University of Notre Dame; PhD, State University of New York, Buffalo

Schmidt, Jean M. (1966), Professor Emerita of Life Sciences; Associate Director, Cancer Research Institute; BA, MS, University of Iowa; PhD, University of California, Berkeley

Schmidt, Kevin E. (1989), Professor of Physics and Astronomy; AB, Washington University; MS, PhD, University of Illinois

Schmidt, Margaret (2001), Assistant Professor of Music; BME, Lawrence University; MM, State University of New York, Stony Brook; PhD, University of Michigan

Schmidt, Randall B. (1968), Professor of Art; BA, Hamline University; MA, University of New Mexico

Schmidt, Sherrie (1990), University Librarian; Dean, University Libraries; BA, Ohio State University; MLS, Emory University

Schneberger, Lois I. (1969), Librarian Emerita; BA, Viterbo College; MLS, Emporia State University

Schneider, Anne L. (1989), Professor of Justice and Social Inquiry; BA, MA, Oklahoma State University; PhD, Indiana University, Bloomington

Schneider, David (2005), Visiting Assistant Professor of Global Studies and Languages and Literature; Associate Chair, Undergraduate Programs, Department of Global Studies; BA, University of Colorado, Boulder; MIA, Columbia University; PhD, University of California, Berkeley

Schneider, Elizabeth (2002), Assistant Professor of Art; BA, University of Michigan; BFA, Art Institute of Chicago; MFA, Mills College

Schneller, Eugene S. (1985), Professor of Health Management and Policy; BA, Post College; PhD, New York University

Schober, Juliane (1991), Associate Professor of Religious Studies; BA, University of Northern Colorado; MA, PhD, University of Illinois

Schoebel, Henry L. (1990), Professor of Art; BFA, Syracuse University; MFA, University of Maryland, College Park

Schoenhoff, Molly (2002), Assistant Professor of Visual Communication Design; BS, University of Cincinnati; MFA, Rhode Island School of Design

Schoenwetter, James (1967), Professor Emeritus of Anthropology; AB, University of Chicago; MS, University of Arizona; PhD, Southern Illinois University

Schroder, Dieter K. (1981), Professor of Electrical Engineering; Codirector, Center for Low Power Electronics Research; BSEE, MSEE, McGill University (Canada); PhD, University of Illinois

Schroeder, Milton R. (1969), Professor of Law; BA, Wesleyan University; JD, University of Chicago

Schuback, Gertrud B. (1966), Professor Emerita of German; BA, MA, Arizona State University

Schultz, Joseph J. (1983), Professor of Accountancy; BS, MBA, Mississippi State University; PhD, University of Texas at Austin; CPA, Mississippi

Schupp, Karen (2003), Senior Lecturer of Dance; BFA, State University of New York, Buffalo; MFA, Arizona State University

Schuring, Martin (1992), Associate Professor of Music; BM, Curtis Institute of Music; MA, Arizona State University

Schutte, Jerry (1988), Associate Professor of Art; BA, Fort Hays State University; MFA, Arizona State University

Schwalbe, Carol (2002), Assistant Professor of Journalism and Mass Communication; BA, Smith College; MA, George Washington University

Schwalm, David E. (1986), Associate Professor of English; Dean, East College, Vice Provost of Arizona State University Polytechnic Campus; BA, Carleton College; MA, PhD, University of Chicago

Schwartz, Andrew B. (1993), Adjunct Professor of Bioengineering; BA, PhD, University of Minnesota

Schwartz, Gary T. (2004), Assistant Professor of Anthropology; BA, State University of New York, Stony Brook; MA, PhD, Washington University

Schwenke, Dawn C. (2002), Associate Research Professor of Health Management and Policy; BA, Whitman College; MS, Wake Forest University; PhD, Cornell University

Scott, Mark C. (2003), Assistant Librarian, University Libraries, Government Documents and Maps; BA, LeMoyne College; MLS, University of Albany

Scowen, Paul A. (1992), Assistant Research Professor of Physics and Astronomy; BS, University of Birmingham (United Kingdom); MS, PhD, Rice University

Seal, Charles (2004), Lecturer of Mathematics and Statistics; BS, Northern Arizona University; MA, University of New Mexico

Searfoss, Lyndon W. (1973), Professor Emeritus of Curriculum and Instruction; BS, West Chester State College; MA, PhD, Syracuse University

Sears, Robert L. (1986), Senior Research Administrator Emeritus, Center for Energy Systems Research; BS, U.S. Military Academy; MSE, Arizona State University

Seaton, Helen J. (1987), Librarian Emerita, Noble Science Reference Services; BA, Rutgers, The State University of New Jersey; MLS, University of Missouri, Columbia

Sefchovich, Sara (2004), Distinguished Scholar of Languages and Literatures; BA, MA, PhD, National Autonomous University of Mexico (Mexico)

Segura, Joseph M. (1979), Associate Professor of Art; BA, MFA, Southern Illinois University, Carbondale

Seipp, Kenneth F. (1963), Professor Emeritus of Music; BS, Hartwick College; MM, University of Kansas; MusEdD, Indiana University, Bloomington

Selkirk, Susan (1977), Senior Research Professional of Geological Sciences; BA, MA, Arizona State University

Sellheim, Eckart (1989), Professor of Music; Concert Diploma, Cologne Academy of Music (Germany)

Semken, Steven (2003), Assistant Professor of Geological Sciences; BS, Massachusetts Institute of Technology; MS, University of California, Los Angeles; PhD, Massachusetts Institute of Technology

Sen, Arunabha (1986), Associate Professor of Computer Science and Engineering; Associate Chair for Graduate Programs, Department of Computer Science and Engineering; BE, Jadavpur University (India); PhD, University of South Carolina

Sender, Darin (2003), Faculty Associate of Planning; BSD, Arizona State University; JD, DePaul University

Senner, Wayne M. (1973), Professor Emeritus of German; BA, Portland State University; MA, University of Washington; PhD, University of Illinois

Sensibar, Judith L. (1985), Professor Emerita of English; BA, Vassar College; MA, PhD, University of Chicago

Seo, Dong-Kyun (2001), Assistant Professor of Chemistry and Biochemistry; BS, MS, Seoul National University (South Korea); PhD, North Carolina State University

Serwint, Nancy J. (1988), Associate Professor of Art; BA, University of Illinois; MA, University of Chicago; MA, PhD, Princeton University

Seymann, Marilyn (2005), Associate Dean, External Affairs, College of Law; BA, Brandeis University; MA, Columbia University; PhD, California Western University

Shackle, Linda A. (1984), Librarian; Team Leader, Noble Science Reference Services; BA, State University of New York, Oswego; MLS, State University of New York, Albany

Shaeffer, J. Duncan (2000), Lecturer of Geography; BS, Brigham Young University; MA, PhD, Arizona State University

Shah, Jami (1984), Professor of Engineering; BSME, University of Karachi (Pakistan); MS, University of Pittsburgh; PhD, Ohio State University

Shao, Benjamin (1999), Assistant Professor of Computer Information Systems; BS, MS, National Chiao Tung University (Taiwan); PhD, State University of New York, Buffalo

Shapiro, Joan Rankin (1997), Adjunct Professor of Life Sciences; BS, Westminster College; MA, Hofstra University; PhD, Cornell University Medical College

Sharer, Jon W. (1975), Professor Emeritus of Art; BA, Roosevelt University; MS, Illinois Institute of Technology; PhD, Ohio State University

Sharma, Renu (1985), Associate Research Scientist, Center for Solid State Science; BS, BEd, Punjab University (India); MS, PhD, University of Stockholm (Sweden)

Sharp, Thomas (1996), Associate Professor of Geological Sciences; BS, University of Minnesota; MS, PhD, Arizona State University

Sharp, William P. (1979), Senior Research Specialist Emeritus of Life Sciences; BA, University of Northern Iowa; MS, Arizona State University

Shaw, Milton C. (1978), Professor Emeritus of Engineering; BSME, Drexel University; MESc, ScD, University of Cincinnati; DrHC, University of Louvain (Belgium)

Shears, Brenda L. (1987), Affiliate Professor of Anthropology; Associate Research Administrator, Research Coordinator, Global Institute of Sustainability; BA, Arizona State University; MA, Hunter College, City University of New York

Shell, Leon G. (1967), Professor Emeritus of Psychology in Education; BA, University of Colorado; AM, EdD, University of Northern Colorado

Shellans, Michael J. (1992), Senior Lecturer of Music; BM, University of Arizona; MM, Arizona State University

Shen, Jun (1996), Professor of Electrical Engineering; BS, South China University of Science and Technology; MS, Texas Tech University; PhD, University of Notre Dame

Shen, Yong (2000), Adjunct Professor of Life Sciences; BSc, Nanjing University (China); MSc, Shanghai Institute of Physiology (China); PhD, State University of New York, Binghamton

Sheppard, Douglas C. (1971), Professor Emeritus of Spanish; BA, Montana State University; MA, PhD, University of Wisconsin, Madison

Sherman, Thomas L. (1964), Professor Emeritus of Mathematics and Statistics; BA, University of California, Los Angeles; MS, PhD, University of Utah

Sheydayi, E. Yury (1973), Professor Emeritus of Architecture and Landscape Architecture; BSCE, University of Arizona; MSCE, Arizona State University

Shi, Fu-Dong (2005), Adjunct Professor of Life Sciences; PhD, Karolinska Institute (Sweden); MD, Harbin Medical College (China)

Shigo, Peter (2002), Faculty Associate of Industrial Design; BSD, Arizona State University

Shimansky, Yury (2000), Assistant Research Professor of Bioengineering; MS, Polytechnic Institute of Kiev (Ukraine); PhD, Institute of Physiology of Kiev (Ukraine)

Shimomura, Tomoko (2002), Lecturer of Japanese; BA, Kwassui Women's College (Japan); MA, Ohio State University

Shin, Dosun (2004), Assistant Professor of Industrial Design; BFA, Keimyung University (South Korea); MFA, University of Illinois, Urbana-Champaign

Shinn, Randall A. (1978), Professor Emeritus of Music; BA, Southwestern Oklahoma State University; MM, University of Colorado; DMA, University of Illinois

Shipp, Vernon E. (1966), Professor Emeritus of Art; BS, Grand Canyon College; MA, Arizona State University

Shlyakhtenko, Luda (1993), Adjunct Professor of Life Sciences; MS, PhD, Moscow Physical Technical Institute (Russia)

Shock, Everett L. (2002), Professor of Chemistry and Biochemistry and Geological Sciences; BS, University of California, Santa Cruz; PhD, University of California, Berkeley

Shrednick, Harvey R. (1995), Senior Lecturer of Computer Information Systems; BS, City College of New York; MBA, Bernard M. Baruch College

Shriver, Keith A. (1982), Professor Emeritus of Accountancy; BS, Linfield College; MS, Arizona State University; PhD, University of Texas at Austin; CPA, Arizona

Shumway, John (2001), Assistant Professor of Physics and Astronomy; BS, MS, University of Missouri, Columbia; PhD, University of Illinois, Urbana-Champaign

Shunk, Dan L. (1984), Professor of Industrial Engineering; BSIE, MSIE, PhD, Purdue University

Si, Jennie (1991), Professor of Electrical Engineering; BS, MS, Tsinghua University (China); PhD, University of Notre Dame

Siegel-Valdes, Rebeca (2002), Assistant Professor of Spanish; BA, Manuel del Castillo Negrete National School of Conservation, Restoration and Museum Studies (Mexico); MA, PhD, University of Texas at Austin

Sieradzki, Karl (1994), Professor of Chemical and Materials Science Engineering and Mechanical and Aerospace Engineering; BS, Utica College of Syracuse University; MS, PhD, Syracuse University

Sierks, Michael R. (2000), Associate Professor of Chemical Engineering; BS, Stanford University; MS, Colorado State University; PhD, Iowa State University

Siferd, Sue Perrott (1989), Associate Professor of Supply Chain Management; Director, Undergraduate Supply Chain Management Program; BS, Denison University; MBA, Wright State University; MA, PhD, Ohio State University

Sigler, Mary (2003), Associate Professor of Law; BA, MA, Arizona State University; JD, University of Pennsylvania

Silcock, B. William (2001), Assistant Professor of Journalism and Mass Communication; BA, MA, Brigham Young University; PhD, University of Missouri

Silver, Benjamin (1971), Professor Emeritus of Journalism and Mass Communication; BA, MA, University of Iowa

Simhony, Avital (1994), Associate Professor of Political Science; BA, MA, University of Haifa (Israel); DPhil, University of Oxford (United Kingdom)

Simmons, Douglas J. (1963), Professor Emeritus of French; AB, Wabash College; MAT, Harvard University; Certificat de français usuel, degreésupérieur, Certificat de pronônciation française, Sorbonne University (France)

Simmons, Howard (1996), Professor Emeritus of Educational Leadership and Policy Studies; BS, Spring Hill College; MAT, Indiana University; PhD, Florida State University

Simon, Arleyn W. (1989), Associate Research Professor of Anthropology; BA, Montana State University; MA, Oregon State University; PhD, Arizona State University

Simon, Sheldon (1975), Professor of Political Science; BA, University of Minnesota, Twin Cities; MA, Princeton University; PhD, University of Minnesota, Twin Cities

Simonson, Mark (1998), Clinical Assistant Professor of Finance; BS, University of Northern Colorado; MS, PhD, University of Oregon

Simper, David (2005), Research Professor of Bioengineering; MD, Charles University (Czech Republic)

Simpkins, Sandra (2005), Assistant Professor of Family and Human Development; BA, University of California, Santa Barbara; MA, PhD, University of California, Riverside

Simpson, Brooks (1990), Professor of History; BA, University of Virginia; MA, PhD, University of Wisconsin, Madison

Sinclair, Mark R. (1985), Adjunct Professor of Geography; BSc, Otago University (New Zealand); PhD, U.S. Naval Postgraduate School, Monterey

Singh, Rakesh (2002), Associate Research Professor of Chemical and Materials Engineering; BT, PhD, Institute of Technology (India)

Singhal, Avi C. (1977), Professor of Civil and Environmental Engineering; BScMath, Agra University (India); BScEngr, BScHons, St. Andrews University (United Kingdom); SM, CE, ScD, Massachusetts Institute of Technology

Sinha, Rajiv K. (1989), Associate Professor of Marketing; BA, MA, Delhi University (India); PhD, Pennsylvania State University

Sipka, Danko (2002), Professor of Slavic Languages; BA, University of Sarajevo (Bosnia); MA, PhD, University of Belgrade (Serbia); PhD, Polish Academy of Sciences (Poland)

Siriprakob, Prakorn (2000), Lecturer of Languages and Literatures; BA, Chulalongkorn University (Thailand); MPA, Arizona State University

Sirkis, Murray D. (1968), Professor Emeritus of Electrical Engineering; BS, Massachusetts Institute of Technology; MS, PhD, University of Illinois

Skiba, Christopher J. (1987), Senior Research Professional of Geological Sciences; BS, Arizona State University

Skibo, Edward B. (1982), Professor of Chemistry and Biochemistry; BS, MS, Drexel University; PhD, University of California, San Francisco

Skindlov, Jonathan A. (1993), Adjunct Professor of Geography; BA, St. Olaf College; MA, Ohio University; PhD, University of Delaware

Skoldberg, Phyllis (1977), Professor Emerita of Music; BM, MM, New England Conservatory of Music; MME, DM, Indiana University, Bloomington

Skromme, Brian J. (1989), Associate Professor of Electrical Engineering; BS, University of Wisconsin, Madison; MS, PhD, University of Illinois

Slater, Steven C. (2004), Associate Professor of Life Sciences; BSc, MSc, James Madison University; PhD, Case Western Reserve University

Sloane, Finbarr C. (Barry) (2005), Associate Professor of Curriculum and Instruction; BA, National University of Ireland; MA, California State University, Chico; MBA, Lake Forest Graduate School of Management; PhD, University of Chicago

Smith, Andrew T. (1978), Professor of Life Sciences; AB, University of California, Berkeley; PhD, University of California, Los Angeles

Smith, Arthur B. Jr. (1967), Professor Emeritus of General Business; BS, Hardin-Simmons University; MBA, EdD, University of Houston

Smith, Brian H. (2005), Professor of Life Sciences; BS, Juniata College; PhD, University of Kansas

Smith, David F. (2004), Adjunct Professor of Life Sciences; BS, MIssissippi State University; PhD, University of Texas

Smith, David J.
(1984)
Regents' Professor of Physics and Astronomy and Solid State Science; BSc, PhD, DSc, University of Melbourne (Australia)

Smith, Hal L. (1979), Professor of Mathematics and Statistics; BA, PhD, University of Iowa

Smith, Harvey A. (1977), Professor Emeritus of Mathematics and Statistics; BS, Lehigh University; MS, AM, PhD, University of Pennsylvania

Smith, Henry Charles (1989), Professor Emeritus of Music; BA, University of Pennsylvania; Artist Diploma, Curtis Institute of Music

Smith, Jeffrey B. (1990), Professor of Music; MM, University of Illinois; DMA, University of North Texas

Smith, Karen Ann (1999), Associate Professor of Curriculum and Instruction; BA, University of the Americas (Mexico); MA, PhD, Arizona State University

Smith, L. Christian (1971), Associate Professor of History; BA, Union College; MA, PhD, University of Illinois

Smith, Lehi T. (1959), Professor Emeritus of Mathematics and Statistics; BS, MA, Arizona State University; EdD, Stanford University

Smith, Marion W. (1952), Professor Emerita of Music; BS, Capital University; MM, American Conservatory of Music

Smith, Mary Lee
(1986)
Regents' Professor of Educational Leadership and Policy Studies and Psychology in Education; BA, MPS, PhD, University of Colorado

Smith, Michael E. (2005), Professor of Anthropology; BA, Brandeis University; MA, PhD, University of Illinois, Urbana-Champaign

Smith, Ralph E. (1970), Professor Emeritus of Accountancy; BBA, Washburn University of Topeka; MS, PhD, University of Kansas; CPA, Kansas

Smith, Richard L. (1967), Professor Emeritus of Industrial Engineering; BS, Washington University; MS, Ohio State University; PhD, Arizona State University

Smith, Ronald D. (1962), Professor Emeritus of History; AB, San Diego State College; PhD, University of Southern California

Smith, Stanley E. (1977), Professor Emeritus of Journalism and Mass Communication; BA, Colgate University; MA, Purdue University

Smith, Thomas H. (2003), Associate Research Professor, Cancer Research Institute; BS, Niagara University; PhD, Arizona State University

Smith-Daniels, Dwight E. (1987), Associate Professor of Supply Chain Management; BBA, University of Michigan; PhD, University of Arizona

Smith-Daniels, Vicki L. (1987), Professor of Supply Chain Management; BBA, University of San Diego; PhD, Ohio State University

Sneed, Jimmie R. (1988), Faculty Associate of Construction; BS, Arizona State University

Snow, Robert (1970), Professor Emeritus of Sociology; BS, MA, PhD, University of Minnesota, Twin Cities

Snyder, Lester M. Jr. (1967), Professor Emeritus of Psychology in Education; BS, Millersville State College; MEd, Western Maryland College; PhD, University of Michigan

Sola, Anthony (1995), Faculty Associate of Interior Design; BA, Ottawa University; MBA, University of Phoenix

Solís, Theodore (1989), Professor of Music; BA, Arizona State University; MA, University of Hawaii, Manoa; PhD, University of Illinois

Somerville, Susan C. (1977), Professor of Psychology; BA, University of New England (Australia); PhD, Australian National University (Australia)

Sommerfeld, Milton R. (1968), Professor of Life Sciences; BS, Southwest Texas State College; PhD, Washington University

Song, Yuwu (1999), Assistant Librarian; BA, Luo Yang Foreign Languages University, China; MA, Clemson University; MLIS, University of Texas at Austin

Sorensen, Dorrit Vibeke (2004), Professor of Languages and Literatures; BA, Royal Academy of Art and Architecture (Denmark); MAH, State University of New York, Buffalo

Soroka, Susan C. (2003), Lecturer of Curriculum and Instruction; BS, University of South Alabama; MA, Arizona State University

Soto, Shelli (2005), Assistant Dean, Admissions and Financial Aid, College of Law; BA, University of Texas at Austin; JD, University of Texas School of Law

Spanias, Andreas S. (1988), Professor of Electrical Engineering; BSEE, MSEE, PhD, West Virginia University

Spanias, Photini (1998), Lecturer of Curriculum and Instruction; BA, MEd, EdD, Arizona State University

Spellman, Catherine (1995), Associate Professor of Architecture and Landscape Architecture; Associate Director, Academic Affairs, School of Architecture and Landscape Architecture; BA, BArch, Rice University; MArch, University of California, Los Angeles

Spence, John C. H.
(1976)
Regents' Professor of Physics and Astronomy; MSc, PhD, University of Melbourne (Australia)

Spencer, Lillian (2004), Adjunct Professor of Anthropology; BA, University of California; MA, PhD, State University of New York, Stony Brook

Spencer, Mark A. (2004), Assistant Professor of Anthropology; BA, Indiana University; MA, PhD, State University of New York, Stony Brook

Spielberg, John (1990), Associate Professor of Mathematics and Statistics; BS, Stanford University; PhD, University of California, Berkeley

Spielmann, Katherine A. (1987), Professor of Anthropology; AB, Harvard University; MA, PhD, University of Michigan

Spiers, James V. (1990), Senior Lecturer of Marketing; BS, Weber State College; MA, University of Northern Colorado

Spindler, Robert P. (1988), Archivist; Head, Archives and Special Collections; BA, MA, Boston University; MS, Simmons College

Spinosa, Frank (1965), Professor Emeritus of Music; BM, MA, Boston University; DMA, University of Illinois

Spinrad, Tracy (2000), Assistant Professor of Family and Human Development; BA, University of California, Irvine; MS, PhD, Pennsylvania State University

Spring, Robert S. (1988), Professor of Music; BM, MM, DMA, University of Michigan

Spritzer, Ralph S. (1986), Professor of Law; BS, LLB, Columbia University

Squires, Kyle D. (1997), Professor of Mechanical and Aerospace Engineering; BS, Washington State University; MS, PhD, Stanford University

Staab, Wayne J. (2001), Adjunct Professor of Speech and Hearing Science; BA, Fort Hays State University; MS, University of Wisconsin; PhD, Michigan State University

Stafford, Kenneth R. (1957), Professor Emeritus of Education; BA, MEd, PhD, University of Oklahoma

Stafford, Mary E. (1994), Professor Emerita of Psychology in Education; BA, University of Texas at Austin; MEd, University of Houston, Victoria; PhD, University of Texas at Austin

Stahl, Robert (1978), Professor of Curriculum and Instruction; BA, MA, EdD, University of Florida

Stahlman, Rebecca (2003), Lecturer of Curriculum and Instruction; MEd, Arizona State University

Staley, Federick A. (1970), Professor Emeritus of Curriculum and Instruction; BA, MA, Western Michigan University; PhD, Michigan State University

Stalzer, Frank S. (1955), Professor Emeritus of Music; BMEd, University of Kansas; MM, Eastman School of Music

Stamm, Jill (1998), Clinical Associate Professor of Psychology in Education; BA, DePauw University; MA, PhD, Arizona State University

Stanford, Michael (1992), Honors Faculty Fellow; BA, Duke University; MA, PhD, University of Virginia

Stange, Jean B. (1970), Professor Emerita of Family and Human Development; BS, Iowa State University; MS, University of Minnesota, Twin Cities

Stanley, James T. (1968), Professor Emeritus of Materials Science and Engineering; BS, MS, PhD, University of Illinois

Stanton, Ann M. (1980), Professor of Law; BA, University of Minnesota, Twin Cities; PhD, JD, Stanford University

Stanton, Dan (2000), Assistant Librarian, Government Documents/Maps Collection; BA, Trinity College; MLS, University of Arizona

Stark, Barbara L. (1972), Professor of Anthropology; BA, Rice University; MPhil, PhD, Yale University

Starkey, Timothy (2003), Faculty Associate of Planning; BS, Purdue University

Starrfield, Sumner G.
(1972)
Regents' Professor of Physics and Astronomy; BA, University of California, Berkeley; MA, PhD, University of California, Los Angeles

Stauffer, Sandra L. (1990), Professor of Music; BS, West Chester University; MM, PhD, University of Michigan

Steadman, Lyle B. (1971), Professor Emeritus of Anthropology; BA, Occidental College; MA, University of California, Los Angeles; PhD, Australian National University (Australia)

Stearns, Mary Beth
(1981)
Regents' Professor Emerita of Physics and Astronomy; BS, University of Minnesota, Twin Cities; PhD, Cornell University

Stearns, Robert (2004), Professor of Practice of Finance; BA, Harvard University; MBA, University of Chicago; JD, DePaul University

Steele, Kim (2005), Assistant Professor of Architecture and Landscape Architecture; BA, University of Colorado; MA, University of North Carolina at Chapel Hill; MArch, MLandscape, University of Colorado

Steere, Caryl J. (1960), Professor Emerita of Education; BA, Albion College; MA, Arizona State University

Steimle, Timothy C. (1985), Professor of Chemistry and Biochemistry; BS, Michigan State University; PhD, University of California, Santa Barbara

Stein, Peter (1958), Professor Emeritus of Mechanical and Aerospace Engineering; BSc, MSc, Massachusetts Institute of Technology

Steinbart, Paul (1997), Professor of Computer Information Systems; BA, University of Illinois; MBA, Southern Illinois University; PhD, Michigan State University

Steinmetz, Peter (2004), Associate Professor of Bioengineering; BS, University of Minnesota; PhD, Johns Hopkins University

Stelmach, George E. (1990), Professor of Kinesiology; BS, University of Illinois; MA, EdD, University of California, Berkeley

Stephan, Dietrich A. (2003), Adjunct Professor of Life Sciences; BS, Carnegie Mellon University; PhD, University of Pittsburgh

Stephens, Nancy J. (1979), Associate Professor of Marketing; Director, Night MBA Program; BS, MS, University of Illinois; PhD, University of Texas at Austin

Stephenson, Alan (2004), Faculty Associate of Planning; BA, MEP, Arizona State University

Stephenson, Christine F. (1995), Adjunct Professor of Life Sciences; BS, University of Ulster (United Kingdom); PhD, The Queen's University of Belfast (United Kingdom)

Sterling, Pamela (1999), Associate Professor of Theatre; BFA, MFA, University of Washington

Stewart, Donald G. (1964), Professor Emeritus of Mathematics and Statistics; BA, MS, Utah State University; PhD, University of Tennessee, Knoxville

Stewart, Laura (2004), Assistant Museum Professional; Curator of Education, ASU Art Museum; BA, University of Kentucky; MA, University of Cincinnati

Stiftel, Ruthy Z. (1997), Lecturer of Hebrew; BA, Hebrew University of Jerusalem (Israel); MA, Ohio State University

Stinson, Judith M. (1997), Senior Instructional Professional of Law; Director, Legal Research and Writing and Academic Success Programs; BS, JD, University of Arizona

Stites, William H. (1954), Professor Emeritus of Communication; BA, Louisiana Polytechnic Institute; MA, PhD, University of Denver

Stock, William A. (1984), Professor Emeritus of Kinesiology; BA, Blackburn College; MS, PhD, Iowa State University

Stocker, David Allen (1978), Professor Emeritus of Music; BS, Concordia Teachers College; MM, PhD, Northwestern University

Stojanowski, Christopher M. (2005), Assistant Professor of Anthropology; BA, University of North Carolina at Wilmington; MS, Florida State University; PhD, University of New Mexico

Stokrocki, Mary L. (1990), Professor of Art; BS, State University of New York, New Paltz; MS, Massachusetts College of Art; DEd, Pennsylvania State University

Stone, Anne C. (2003), Associate Professor of Anthropology; BA, University of Virginia; MA, PhD, Pennsylvania State University

Stone, Gregory O. (1986), Associate Professor of Psychology; BA, Harvard University; PhD, University of California, San Diego

Stoner, K. Lynn (1985), Associate Professor of History; BS, George Peabody College for Teachers; MA, PhD, Indiana University

Stout, Robert (1978), Professor Emeritus of Educational Administration and Supervision; BA, Carleton College; PhD, University of Chicago

Stout, Valerie (1991), Associate Professor of Life Sciences; BS, University of Wisconsin, Madison; PhD, Kansas State University

Stover, Myles E., Sergeant First Class (2005), Instructor of Military Science; AS, Pierce College

Stowe, Noel J. (1967), Professor of History; Chair, Department of History; BA, PhD, University of Southern California

Strange, Richard E. (1974), Professor Emeritus of Music; BME, Wichita State University; MME, University of Colorado; DMA, Boston University

Streufert, Hildegarde (1961), Professor Emerita of Interior Design; BS, University of Minnesota, Twin Cities; MS, Iowa State University

Strickland, Deon (2004), Assistant Professor of Finance; BA, Harvard University; MBA, Boston College; PhD, University of North Carolina

Strittmatter, Connie (2000), Assistant Law Librarian; BA, Indiana University of Pennsylvania; MLS, Kent State University

Strom, Robert (1969), Professor of Psychology in Education; BS, Macalester College; MS, University of Minnesota, Twin Cities; PhD, University of Michigan

Stromberg, Juliet C. (1988), Associate Professor of Life Sciences; BS, MS, University of Wisconsin, Milwaukee; PhD, Arizona State University

Strouse, Daniel S. (1990), Professor of Law; AB, SM, Harvard University; JD, University of Wisconsin, Madison

Stuler, John H. (1962), Professor Emeritus of Art; BA, MFA, Arizona State University

Stump, Edmund (1976), Professor of Geological Sciences; AB, Harvard University; MS, Yale University; PhD, Ohio State University

Sudol, David E. (1996), Senior Lecturer of English; BA, Simpson College; MA, Drake University; PhD, University of Arizona

Sugiyama, Saburo (1999), Associate Research Professor of Anthropology; BS, Tokyo-Keizai University (Japan); PhD, Arizona State University

Sullivan, Deborah A. (1976), Associate Professor of Sociology; BS, University of Massachusetts, Amherst; MA, University of California, Irvine; PhD, Duke University

Sullivan, Howard (1971), Professor of Psychology in Education; BS, Oregon College of Education; MEd, PhD, University of Oregon

Sullivan, Jill M. (2000), Assistant Professor of Music; BM, Illinois State University; MM, University of Michigan; PhD, University of Iowa

Sullivan, John J. (1976), Professor Emeritus of Education; BA, Villanova University; MA, PhD, Arizona State University

Sullivan, Kenneth (2004), Assistant Professor of Construction; BS, MS, MBA, PhD, University of Wisconsin, Madison

Sumner, Anthony (2003), Faculty Associate of Planning; BSD, Arizona State University

Sundaram, Hari (2002), Assistant Professor of Arts, Media, and Engineering and Computer Science and Engineering; BTech, Indian Institute of Technology, New Delhi (India); MS, State University of New York, Stony Brook; PhD, Columbia University

Sunkett, Mark E. (1976), Professor of Music; BM, Curtis Institute of Music; MM, Temple University; PhD, University of Pittsburgh

Surbeck, Elaine (1988), Professor of Curriculum and Instruction; Associate Dean for Teacher Education, College of Education; BA, University of Washington; MEd, EdD, University of Georgia

Surgent, Scott (1997), Senior Lecturer of Mathematics and Statistics; BS, MS, University of California, Riverside

Sushka, Marie E. (1984), Professor of Finance; BA, Sweet Briar College; MA, PhD, Georgetown University

Suslov, Sergei K. (1997), Professor of Mathematics and Statistics; MSc, Moscow Institute of Physics and Technology (Russia); PhD, Kurchatov Institute of Atomic Energy (Russia)

Susser, Eric (1997), Honors Faculty Fellow; BA, University of Michigan; MA, PhD, University of Virginia

Suwarno, Peter (1993), Associate Professor of Indonesian; BA, Satya Wacana Christian University (Indonesia); MA, PhD, Ohio University

Svoboda, William S. (1969), Professor Emeritus of Education; BS, MS, EdD, University of Kansas

Swadener, Beth Blue (2001), Professor of Curriculum and Instruction; BA, Indiana University, South Bend; MS, PhD, University of Wisconsin, Madison

Swafford, James R. (1971), Professor Emeritus of Life Sciences; BS, MS, Arizona State University

Swaim, S. Daniel (1975), Professor Emeritus of Music; BM, Cincinnati College Conservatory of Music; MME, Indiana University, Bloomington; DMA, North Texas University

Swanson, Tod D. (1988), Associate Professor of Religious Studies; Director, Latin American Studies Center; BA, University of Minnesota, Twin Cities; MDiv, Luther Theological Seminary; PhD, University of Chicago

Swartz, Jonathan (2001), Assistant Professor of Music; BM, Rice University; MM, Mannes College of Music; DMA, Rice University

Swaty, Mary A. (1968), Associate Librarian, Technical Services Department; BA, University of Missouri, Columbia; MLS, Indiana University, Bloomington

Swimmer, Alvin (1963), Professor Emeritus of Mathematics and Statistics; BS, Pennsylvania State University; MS, New York University; PhD, University of California, Berkeley

Sylvester, Douglas J. (2002), Associate Professor of Law; BA, University of Toronto; LLM, New York University; JD, University of Buffalo

Sylvester, Edward J. (1982), Professor of Journalism and Mass Communication; AB, Princeton University; MA, City College of New York

Sylvester, Ginny (1981), Librarian; Head, Access Services/ Interlibrary Loan and Document Delivery; BA, Hobart and William Smith Colleges; MLS, Rutgers, The State University of New Jersey

Syrotiuk, Violet R. (2002), Assistant Professor of Computer Science and Engineering; BSc, University of Alberta (Canada); MSc, University of British Columbia (Canada); PhD, University of Waterloo (Canada)

Szarek, Stanley R. (1974), Associate Professor of Life Sciences; BS, California Polytechnic State University, Pomona; PhD, University of California, Riverside

Szkupinski-Quiroga, Seline (2003), Assistant Professor of Chicana and Chicano Studies; BA, University of California, Irvine; PhD, University of California, Berkeley

T

Tainter, Joseph A. (2005), Adjunct Professor of Anthropology; BA, University of California, Santa Barbara; MA, PhD, Northwestern University

Tambs, Lewis A. (1969), Professor Emeritus of History; BS, University of California, Berkeley; MA, PhD, University of California, Santa Barbara

Tan, Rui (1990), Assistant Research Professor, Cancer Research Institute; BS, Beijing Medical University (China); MS, PhD, Chinese Academy of Medical Sciences (China)

Tao, Nongjian (2001), Professor of Electrical Engineering; BS, Anhui University (China); PhD, Arizona State University

Taylor, Jack J. (1960), Professor Emeritus of Art; BS, Kutztown State College; MEd, Pennsylvania State University

Taylor, Nora Annesley (1998), Associate Professor of Global Studies and History; BA, Brown University; MA, PhD, Cornell University

Taylor, Thomas (1983), Associate Professor of Mathematics and Statistics; BS, California State University; PhD, Harvard University

Tenney, Lester I. (1969), Professor Emeritus of Finance; BA, University of Miami; MA, San Diego State College; DBA, University of Southern California

Tepedelenlioglu, Cihan (2001), Assistant Professor of Electrical Engineering; BS, Florida Institute of Technology; MS, University of Virginia; PhD, University of Minnesota

Tescarollo, Hamilton (2004), Visiting Assistant Professor of Music; BM, Saint Marceline Faculty, Sao Paulo (Brazil); MM, DMA, Arizona State University

Thacker, Ron (2005), Clinical Assistant Professor of Theatre; Technical Director, School of Theatre and Film; BFA, Virginia Commonwealth University; MFA, California Institute of the Arts

Tharp, Julie (1991), Associate Librarian, Hayden Reference Services; BA, University of Hawaii; MLS, University of Arizona

Thibeau Catsis, Connie (2001), Assistant Professor of Interior Design; BSc, University of Maryland; MSc, PhD, Oklahoma State University

Thieme, Horst R. (1988), Professor of Mathematics and Statistics; MS, PhD, University of Münster (Germany)

Thomas, George M. (1981), Professor of Global Studies; Associate Director, Department of Global Studies; BA, Arizona State University; MA, PhD, Stanford University

Thomas, Keith J. (1975), Professor Emeritus of Reading and Library Science; BS, Illinois State University; MA, Loyola University, Chicago; EdD, University of Arizona

Thomas, Michael (2005), Adjunct Professor of Life Sciences; BS, Bowling Green State University; MS, PhD, Arizona State University

Thompson, Ayanna (2004), Assistant Professor of English; BA, Columbia University; MA, Sussex University; PhD, Harvard University

Thompson, Janice Catherine (1977), Professor of Music; BME, MME, University of Wisconsin; MM, Western Michigan University; DM, Northwestern University

Thompson, Lynette (2004), Lecturer of Curriculum and Instruction; BS, Lewis and Clark College; MS, Portland State University

Thompson, Marilyn S. (1999), Assistant Professor of Psychology in Education; BA, Carleton College; MA, PhD, University of Kansas

Thompson, Patrick (2005), Professor of Mathematics and Statistics; BSc, Central Washington State College; MEd, EdD, University of Georgia

Thompson, Victoria E. (1999), Associate Professor of History; BA, University of California, Berkeley; PhD, University of Pennsylvania

Thompson, William J. (2004), Senior Lecturer of Industrial Engineering; Director, Graduate Studies; BSIE, University of Texas, Arlington; MSE, PhD, Arizona State University

Thomson, Jeffrey (1981), Professor of Theatre; BA, Ripon College; MA, University of Washington; MFA, Wayne State University

Thomson, Tom R. (1961), Professor Emeritus of Chemistry and Biochemistry; BA, University of California, Berkeley; MS, PhD, Kansas State University

Thornburg, Harvey (2005), Assistant Professor of Arts, Media, and Engineering and Electrical Engineering; BSE, MEE, Harvey Mudd College; PhD, Stanford University

Thornton, Leslie-Jean (2004), Assistant Professor of Journalism and Mass Communication; BS, Mercy College; MA, New York University

Thornton, Sybil (1994), Associate Professor of History; BA, University of California, Berkeley; BA, University of Cambridge (United Kingdom); MA, San Francisco State University; MA, PhD, University of Cambridge (United Kingdom)

Thornton, Trevor John (1998), Professor of Electrical Engineering; Director, Center for Solid State Electronics Research; BS, Saint Catherine's College (United Kingdom); MA, PhD, Cambridge University (United Kingdom)

Thorpe, Michael (2003), Professor of Physics and Astronomy; BS, Manchester University (United Kingdom); PhD, Oxford University (United Kingdom)

Tice, Thomas E. (1967), Professor Emeritus of Electrical Engineering; BSEE, MSEE, PhD, Ohio State University

Tidwell, Victor H. (1971), Professor Emeritus of Accountancy; BS, Illinois College; MBA, DBA, Indiana University; CPA, Arizona, Iowa

Tiger, Fern (2004), Professor of Practice of Planning; BFA, MS, Pratt Institute; MFA, Pennsylvania State University

Tillery, Bill W. (1973), Professor of Physics and Astronomy and Science Education; BS, Northeastern State College; MA, EdD, University of Northern Colorado

Tillman, Hoyt C. (1976), Professor of History; BA, Belhaven College; MA, University of Virginia; AM, PhD, Harvard University

Tipton, Gary P. (1969), Professor Emeritus of Chinese; BA, Brigham Young University; PhD, Indiana University, Bloomington

Tobin, Beth Fowkes (2001), Professor of English; BA, Earlham College; MA, PhD, University of Chicago

Tobin, Joseph (2001), Nadine Mathis Basha Professor of Curriculum and Instruction; BA, Earlham College; PhD, University of Chicago

Tohe, Laura (1994), Associate Professor of English; BA, University of New Mexico; MA, PhD, University of Nebraska, Lincoln

Tompkins, Cynthia M. (1992), Associate Professor of Spanish; Licenciada en Letras Modernas, National University of Cordoba (Argentina); MA, PhD, Pennsylvania State University

Tongret, JoAnn (2000), Lecturer of Music; BA, MA, Arizona State University

Torrens, Paul (2005), Assistant Professor of Geography; BA, MA, University of Dublin, Trinity College (Ireland); MA, Indiana University, Bloomington; PhD, University of London, University College (United Kingdom)

Torrest, Robert S. (1980), Professor Emeritus of Chemical Engineering; BS, Polytechnic Institute of Brooklyn; PhD, University of Minnesota, Twin Cities

Touchman, Jeffrey (2003), Assistant Professor of Life Sciences; BA, University of California, San Diego; PhD, University of Texas M. D. Anderson Cancer Center

Towe, Bruce C. (1984), Professor of Bioengineering; BS, MS, PhD, Pennsylvania State University

Towill, Leslie R. (1975), Associate Professor of Life Sciences; BS, MS, University of Wisconsin, Milwaukee; PhD, University of Michigan

Tracey, Terence J. G. (1999), Professor of Psychology in Education; Academic Program Leader, Counseling and Counseling Psychology; BA, Cornell University; MSEd, University of Kansas, Lawrence; PhD, University of Maryland, College Park

Tracogna, Stefania (2000), Lecturer of Mathematics and Statistics; Laurea, University of Trieste (Italy); PhD, Arizona State University

Tracy, Sarah J. (2000), Assistant Professor of Communication; BA, University of Southern California; MA, PhD, University of Colorado

Trapido-Lurie, Barbara (1987), Associate Research Professional of Geography; BA, Pomona College; MA, University of Hawaii

Trapuzzano, Michael (1989), Senior Lecturer of Mathematics and Statistics; BS, United States Air Force Academy, Colorado; MBA, University of Utah

Treacy, Michael (2003), Professor of Physics and Astronomy; BA, PhD, Cambridge University (United Kingdom)

Trelease, Richard N. (1971), Professor of Life Sciences; BS, MS, University of Nevada, Reno; PhD, University of Texas at Austin

Trennert, Robert A. (1974), Professor Emeritus of History; BA, Occidental College; MA, Los Angeles State College; PhD, University of California, Santa Barbara

Trethewey, Angela (1996), Associate Professor of Communication; BA, MA, California State University, Chico; PhD, Purdue University

Trotta, Victoria K. (1996), Associate Dean, Information Technology; Director, Ross–Blakley Law Library; BA, Occidental College; MLS, University of California, Los Angeles; JD, University of Southern California

Tsai, Wei-Tek (1999), Professor of Computer Science and Engineering; SB, Massachusetts Institute of Technology; MS, PhD, University of California, Berkeley

Tsakalis, Konstantinos S. (1988), Professor of Electrical Engineering; BS, National Technical University of Athens (Greece); MSEE, PhD, University of Southern California

Tsen, Kong-Thon (1984), Professor of Physics and Astronomy; BS, Fu-Jen Catholic University (Japan); MS, PhD, Purdue University

Tseng, Ampere A. (1995), Professor of Mechanical and Aerospace Engineering; MS, University of Illinois, Urbana-Champaign; PhD, Georgia Institute of Technology

Tsong, Ignatius S.T. (1981), Professor of Physics and Astronomy; BSc, MSc, University of Leeds (United Kingdom); PhD, University of London (United Kingdom); DSc, University of Leeds (United Kingdom)

Tsosie, Rebecca A. (1993), Professor of Law; Executive Director, Indian Legal Program; BA, JD, University of California, Los Angeles

Tsuda, Takeyuki (2006), Associate Professor of Anthropology; BA, University of Chicago, MA, PhD, University of California, Berkeley

Tsui, Anne S. (2003), Motorola Professor of International Management; BA, University of Minnesota, Duluth; MA, University of Minnesota; PhD, University of California, Los Angeles

Tsukayama, Jennifer (1998), Assistant Professor of Dance; BFA, George Mason University; MFA, New York University

Tu, Eugenia Y. (1973), Professor Emerita of Chinese; BEd, Taiwan Normal University (Taiwan); BA, University of Mary Hardin-Baylor; MS, University of Arizona

Tucker, Bonnie P. (1987), Professor Emerita of Law; BS, Syracuse University; JD, University of Colorado

Turban, Renee C. (2002), Lecturer of Computer Science and Engineering; BS, MS, Rensselaer Polytechnic Institute

Turk, Rudy H. (1967), Professor Emeritus of Art; BS, University of Wisconsin; MA, University of Tennessee

Turkon, Paula (2004), Adjunct Professor of Anthropology; BA, University of Pennsylvania; MA, State University of New York, Buffalo; PhD, Arizona State University

Turner, Caroline Sotello Viernes (1999), Professor of Educational Leadership and Policy Studies; Academic Program Coordinator, EdD in Higher and Postsecondary Education; BA, MA, University of California, Davis; EdS, PhD, Stanford University

Turner, Christy G. II
(1966)
Regents' Professor Emeritus of Anthropology; BA, MA, University of Arizona; PhD, University of Wisconsin, Madison

Turner, Terry (2000), Lecturer of Mathematics and Statistics; BS, College of Charleston; MS, Northern Arizona University

Tyburczy, James A. (1985), Professor of Geological Sciences; Chair, Department of Geological Sciences; BA, Whitman College; PhD, University of Oregon

Tylavsky, Daniel J. (1982), Associate Professor of Electrical Engineering; BSE, MSE, PhD, Pennsylvania State University

U

Uhl, Rebecca S. (1989), Associate Librarian; Management Team, Technical Services Department; BS, MA, Colorado State University; MSLIS, University of Illinois

Umaña-Taylor, Adriana (2004), Assistant Professor of Family and Human Development; BA, MA, University of Texas at Austin; PhD, University of Missouri

Umar, Muhammad Sani (1996), Assistant Professor of Religious Studies; BA, University of Jos (Nigeria); MA, Bayero University (Nigeria); PhD, Northwestern University

Umberger, Emily (1982), Associate Professor of Art; BA, University of Pennsylvania; MA, University of Texas at Austin; PhD, Columbia University

Umberson, George E. (1977), Professor Emeritus of Music; BME, Eastern New Mexico University; MA, University of Iowa; EdD, University of Northern Colorado

Underhill, Michael J. (1990), Professor of Architecture and Landscape Architecture; BArch, Massachusetts Institute of Technology; MCPUD, Harvard University

Underiner, Tamara (2001), Associate Professor of Theatre; BA, University of Dayton; MA, Arizona State University; PhD, University of Washington, Seattle

Underwood, Max (1985), Professor of Architecture and Landscape Architecture; BS, University of Southern California; MArch, Princeton University

Upchurch, Jonathan E. (1982), Professor Emeritus of Civil and Environmental Engineering; BS, MS, University of Illinois; PhD, University of Maryland

Updegraff, Kimberly (1997), Associate Professor of Family and Human Development; BS, MS, PhD, Pennsylvania State University

Urban, Joseph E. (1989), Professor of Computer Science and Engineering; BS, Florida State Institute of Technology; MS, University of Iowa; PhD, University of Southwestern Louisiana

Urban, Susan D. (1989), Professor of Computer Science and Engineering; BS, MS, PhD, University of Southwestern Louisiana

Urioste-Azcorra, Carmen (1995), Associate Professor of Spanish; Licenciatura, University of Seville (Spain); MA, PhD, Arizona State University

Usman, Aribidesi (2001), Assistant Professor of African and African American Studies; BA, MA, University of Ibadan (Nigeria); PhD, Arizona State University

Utley, Elliott M., Sergeant First Class (2004), Instructor of Military Science

Uttal, William R. (1988), Professor Emeritus of Industrial Engineering; BS, University of Cincinnati; PhD, Ohio State University

V

Valasquez, Joseph (2001), Faculty Associate of Industrial Design; BS, Arizona State University

Valdivieso, L. Teresa (1971), Professor Emerita of Spanish; BA, MAE, PhD, Arizona State University

Valenti, F. Miguel (2004), Professor of Theatre and Film and Lincoln Professor of Ethics in the Arts; BA, JD, Yale University

Valentin-Martinez, Joel (2005), Lecturer of Dance; BA, State University of New York, Empire State College

Valentine, Kristin B. (1976), Professor Emerita of Communication; BS, University of Wisconsin, Madison; MA, University of Washington; PhD, University of Utah

Valiente, Carlos (2003), Assistant Professor of Family and Human Development; BS, MS, PhD, Arizona State University

Vallejo, Carlos J. (1975), Associate Professor of Curriculum and Instruction; BS, Chadron State College; MA, PhD, University of Nebraska, Lincoln

Valverde, Leonard A. (1992), Professor of Educational Leadership and Policy Studies; BA, California State University, Los Angeles; PhD, Claremont Graduate School

van der Leeuw, Sander E. (2004), Professor of Anthropology; Director, School of Human Evolution and Social Change; BA, PhD, University of Amsterdam (Netherlands)

van Gelderen, Elly (1995), Professor of English; Director, Teaching English as a Second Language Program; BA, MA, Utrecht University (Netherlands); PhD, McGill University (Canada)

Van Hook, Barry L. (1976), Professor Emeritus of Management; BS, Illinois State University; MS, EdD, Northern Illinois University

Van Orden, Guy C. (1987), Professor of Psychology; BS, University of Oregon; MA, PhD, University of California, San Diego

Van Schilfgaarde, Mark (2002), Professor of Chemical and Materials Science and Mechanical and Aerospace Engineering; BA, University of California, San Diego; PhD, Stanford University

Van Wagenen, R. Keith (1963), Professor Emeritus of Education; BA, Pacific Union College; MA, Arizona State University; PhD, University of Utah

Vanderhoff, Barbara A. (1968), Associate Librarian, Technical Services Department; BA, Fort Hays State University; MA, University of Denver

VanderMeer, Philip R. (1985), Associate Professor of History; BA, Calvin College; MA, PhD, University of Illinois

Vasileska, Dragica (1997), Assistant Professor of Electrical Engineering; BS, MS, University Cyril and Methodius (Macedonia); PhD, Arizona State University

Vaz, Paul (1997), Senior Lecturer of Mathematics and Statistics; BS, MS, PhD, Bombay University (India); PhD, Arizona State University

Vega, Santos C. (1989), Senior Research Specialist Emeritus, Hispanic Research Center; BA, MEd, University of Arizona; PhD, Arizona State University

Vekstein, Claudio (2002), Assistant Professor of Architecture and Landscape Architecture; BS, Buenos Aires University (Argentina); MArch, Academy of Arts Stadelschule (Germany)

Vélez-Ibáñez, Carlos (2005), Professor of Chicana and Chicano Studies; Chair, Department of Chicana and Chicano Studies; BA, MA, University of Arizona; MA, PhD, University of California, San Diego

Venables, John A. (1986), Professor of Physics and Astronomy; BA, PhD, University of Cambridge (United Kingdom)

Verdini, William A. (1976), Associate Professor of Supply Chain Management; BS, Case Western Reserve University; MBA, DBA, Kent State University

Verheidje, Joseph (2005), Adjunct Professor of Life Sciences; MBA, University of Phoenix; PhD, University of Groningen (The Netherlands)

Vermaas, Willem F. J. (1986), Professor of Life Sciences; Associate Director, School of Life Sciences Research Initiatives; DSc, Agricultural University (The Netherlands)

Vernon, Brent (2000), Assistant Professor of Bioengineering; BSE, Arizona State University; PhD, University of Utah

Verrelli, Brian (2004), Assistant Professor of Life Sciences; BA, University of Delaware; PhD, State University of New York, Stony Brook

Verstegen, Clare M. (1989), Professor of Art; BS, University of Wisconsin, Stevens Point; MFA, Cranbrook Academy of Art

Vestre, Norris D. (1972), Professor Emeritus of Psychology; BA, PhD, University of Minnesota, Twin Cities

Vicenti Carpio, Myla (2001), Assistant Professor of American Indian Studies; BA, University of New Mexico; MA, PhD, Arizona State University

Videan, Elaine N. (2005), Adjunct Professor of Anthropology; BS, Grand Valley State University; MS, PhD, Miami University

Villalobos, J. Rene (1999), Associate Professor of Industrial Engineering; BS, Institute of Technology of Chihuahua (Mexico); MS, University of Texas, El Paso; PhD, Texas A&M University

Vining, David C. (1975), Professor Emeritus of Theatre; BA, University of Redlands; MFA, University of Minnesota, Twin Cities

Vinze, Ajay (1998), Professor of Computer Information Systems; Director, Center for Advancing Business through Information Technology; BCom, University of Delhi (India); MBA, University of Connecticut; PhD, University of Arizona

Virgillo, Carmelo (1965), Professor Emeritus of Romance Languages; AB, State University of New York, Albany; AM, PhD, Indiana University

Viri, Denis (1998), Associate Research Professional; BA, San Francisco State University; MEd, PhD, University of Arizona

Vissicaro, Pegge (1983), Assistant Professor of Dance; Interim Chair, Department of Dance; BFA, University of Michigan; MFA, University of North Carolina; PhD, Arizona State University

Vittal, Vijay (2004) Professor of Electrical Engineering; BE, BMS College of Engineering (India); MT, Indian Institute of Technology (India); PhD, Iowa State University

Vitullo, Juliann (1990), Associate Professor of Italian; BA, University of Illinois; MA, PhD, Indiana University, Bloomington

Voaden, Rosalynn (1998), Associate Professor of English; BA, BEd, Queen's University, Kingston (Canada); MA, University of Victoria, British Columbia (Canada); PhD, University of York (United Kingdom)

Voeller, Kytja (2000), Adjunct Professor of Speech and Hearing Science; BA, Reed College; MA, Bryn Mawr College; MD, Columbia University

Vogus, Brad T. (1999), Assistant Librarian; Head, Government Documents/Map Collection; BA, Indiana University, Bloomington; MILS, University of Michigan, Ann Arbor

Volek, Emil (1975), Professor of Spanish; Prom.Phil., PhD, Charles University, Prague (Czechoslovakia)

Voss, Howard G. (1964), Professor Emeritus of Physics and Astronomy; AB, Hope College; MNS, Arizona State University; MS, Purdue University

Voth, Annette (1978), Librarian Emerita; BMus, University of Kansas; MLS, MA, University of California, Berkeley

Votichenko, T. Alexander (1956), Professor Emeritus of Philosophy; AB, Princeton University; MA, Columbia University

Vrudhula, Sarma (2005), Professor of Computer Science and Engineering; BMath, University of Waterloo (Canada); MS, PhD, University of Southern California

W

Wachter, Rebekka (2001), Assistant Professor of Chemistry and Biochemistry; BA, University of California, Santa Cruz; PhD, University of Oregon

Wagner, J. Bruce Jr.
(1977)
Regents' Professor Emeritus, Chemistry and Biochemistry and Solid State Science; BS, PhD, University of Virginia

Wagner, Ronald F. (1962), Professor Emeritus of Art; BS, University of Wisconsin, Madison; MFA, University of Iowa

Wahal, Sunil (2005), Professor of Finance; BA, University of Delhi (India); MBA, Wake Forest University; PhD, University of North Carolina at Chapel Hill

Walker, Beth A. (1988), State Farm Professor of Marketing; BS, Virginia Polytechnic Institute and State University; MS, PhD, Pennsylvania State University

Walker, John E. (1970), Professor Emeritus of Educational Administration and Supervision; BA, Albion College; MA, Michigan State University; EdD, Utah State University

Walker, Margaret U. (2002), Professor of Philosophy and Lincoln Professor of Ethics; BA, University of Illinois, Chicago; MA, PhD, Northwestern University

Walker, Stephen G. (1969), Professor Emeritus of Political Science; BA, Creighton University; MA, PhD, University of Florida

Wallace, Charles E. (1958), Professor Emeritus of Mechanical and Aerospace Engineering; BS, Lewis and Clark College; MS, Oregon State University; PhD, Stanford University

Wallen, Carl (1973), Professor Emeritus of Curriculum and Instruction; BA, University of California, Santa Barbara; MA, San Francisco State College; EdD, Stanford University

Walmsley, Amanda (2001), Assistant Research Professor of Life Sciences; BS, PhD, University of Queensland (Australia)

Walsberg, Glenn E. (1978), Professor of Life Sciences; BS, California State University, Long Beach; PhD, University of California, Los Angeles

Walt, Henry J. (2002), Adjunct Professor of Anthropology; BA, University of California, Santa Barbara; MA, PhD, University of New Mexico

Walters, Sheila A. (1971), Librarian Emerita; BA, University of Oklahoma; MLS, Louisiana State University

Walton-Ramirez, Anne (1999), Lecturer of Spanish; BA, University of South Alabama; MA, Arizona State University

Wamacks, Naomi W. (1968), Professor Emerita of Curriculum and Instruction; BA, MA, EdD, Arizona State University

Wang, Alan P. (1970), Professor Emeritus of Mathematics and Statistics; BA, Washington State University; MA, PhD, University of California, Los Angeles

Wang, Cecilia (1971), Professor Emerita of Mathematics and Statistics; BA, Immaculate Heart College; MA, PhD, University of California, Los Angeles

Wang, Edward Y. (1979), Professor Emeritus of Electrical Engineering; BS, Morningside College; MS, Purdue University; PhD, Tufts University

Wang, Joseph (2004), Professor of Chemical Engineering and Chemistry and Biochemistry; BSc, MSc, DSc, Technion—Israel Institute of Technology

Wang, Ning (2005), Assistant Professor of Global Studies; BS, Beijing University (China); MA, University of Chicago; MEd, Guangzhou Teaching College (China); PhD, University of Chicago

Ward, James C. (1986), Yellow Corporation Professor of Marketing; BA, MBA, PhD, University of Minnesota, Twin Cities

Ward, Lance (1997), Lecturer of Mathematics and Statistics; BS, MS, Brigham Young University

Wardwell, Sandra W. (1974), Research Specialist Emerita of Geography; BS, University of Michigan

Wargo, Rebecca (2003), Assistant Librarian, University Libraries, Archives and Special Collections; BA, Pennsylvania State University; MLIS, University of Pittsburgh

Warne, Donald K. (2003), Clinical Professor of Law; BS, Arizona State University; MPH, Harvard; MD, Stanford University

Warner, Carolyn (1994), Associate Professor of Global Studies and Political Science; BA, University of California, San Diego; AM, PhD, Harvard University

Warnicke, Retha M. (1972), Professor of History; AB, Indiana University; MA, PhD, Harvard University

Warren-Findley, Jannelle (1992), Associate Professor of History; BA, Texas Woman's University; MPhil, PhD, George Washington University

Washington, Simon (2005), Professor of Civil and Environmental Engineering; BS, MS, California State University, Chico; PhD, University of California, Davis

Watson, Clyde W. (1971), Professor Emeritus of Art; BFA, Bethany College; MA, Kansas State University

Watson, George L. (1969), Professor of Journalism and Mass Communication; BA, Phillips University; MA, PhD, Duke University

Webb, L. Dean (1978), Professor of Educational Leadership and Policy Studies; Academic Program Coordinator, PhD in Educational Administration and Supervision; BA, MAT, PhD, University of Florida

Webb, Patricia R. (1998), Associate Professor of English; BA, MA, Illinois State University, Normal; PhD, University of Illinois, Urbana-Champaign

Webber, Andrew N. (1989), Professor of Life Sciences; Associate Dean, Student Support Services, Division of Graduate Studies; Associate Director, School of Life Sciences Graduate Programs; Director, Center for the Study of Early Events in Photosynthesis; Director, Interdisciplinary Committee for Molecular and Cellular Biology; BSc, PhD, University of Essex (United Kingdom)

Webster, Douglas R. (2005), Professor of Global Studies and Institute for International Sustainability; BA, University of Toronto (Canada); MA, University of Waterloo (Canada); PhD, University of California, Berkeley

Weed, Andrew (1999), Clinical Associate Professor of Visual Communication Design; BFA, Arizona State University; MFA, Basel School of Design (Switzerland)

Weidemaier, William (1977), Professor Emeritus of Barrett Honors College; BA, Northern Arizona University; MA, PhD, Arizona State University

Weierstall, Uwe (1994), Assistant Research Scientist of Physics and Astronomy; BS, University of Tübingen (Germany); MS, PhD, Institute of Applied Physics in Tübingen (Germany)

Weigand, Robert (1990), Senior Lecturer of Family and Human Development; Director, Early Intervention Program; BS, University of Scranton; MS, Purdue University

Weigend, Guido G. (1976), Professor Emeritus of Geography; Dean Emeritus, College of Liberal Arts and Sciences; BS, MS, PhD, University of Chicago

Weiner, Gordon M. (1968), Professor Emeritus of History; AB, PhD, University of Pennsylvania

Weinstein, James (1986), Professor of Law; Amelia D. Lewis Professor of Constitutional Law; BA, JD, University of Pennsylvania

Weiser, Kurt
(1989)
Regents' Professor of Art; BFA, Kansas City Art Institute; MFA, University of Michigan

Weiss, Karl H. (1984), Senior Research Professional, Center for Solid State Science; BSc, Ursinus College; MSc, University of Arizona

Weiss, Neil A. (1970), Professor Emeritus of Mathematics and Statistics; BA, MA, PhD, University of California, Los Angeles

Weitz, Rose (1978), Professor of Sociology and Women and Gender Studies; BA, City University of New York; MA, PhD, Yale University

Weitzman, Irene (1998), Adjunct Professor of Life Sciences; BS, Brooklyn College; MA, PhD, Columbia University

Welch, H. William (1967), Professor Emeritus of Electrical Engineering; BA, DePauw University; MS, PhD, University of Michigan; PE

Welfert, Bruno (1990), Associate Professor of Mathematics and Statistics; MA, University of Paris VI (France); PhD, University of California, San Diego

Wellner, Karen (2003), Lecturer of Curriculum and Instruction; BS, State University of New York, Oneonta; MA, PhD, University of Iowa

Wells, Barrie E. (1981), Professor Emeritus of Music; BM, MM, University of the Pacific; DMA, University of Oregon

Wells, Christine L. (1976), Professor Emerita of Kinesiology; BS, University of Michigan; MS, Smith College; PhD, Pennsylvania State University

Wells, Valana L. (1987), Associate Professor of Aerospace Engineering; Vice Chair, Undergraduate Programs in Mechanical and Aerospace Engineering; AB, MS, PhD, Stanford University

Welsh, Peter H. (1986), Associate Professor of Anthropology; BA, Northern Arizona University; MA, PhD, University of Pennsylvania

Wenger, Tisa (2004), Assistant Professor of Religious Studies; BA, Eastern Mennonite University; MA, Claremont Graduate University; PhD, Princeton University

Wentz, Elizabeth A. (1997), Associate Professor of Geography; BA, MA, Ohio State University; PhD, Pennsylvania State University

Wentz, Richard E. (1972), Professor Emeritus of Religious Studies; AB, Ursinus College; BD, Lancaster Theological Seminary; MPhil, PhD, George Washington University

Wesbury, Stuart A. Jr. (1994), Professor Emeritus of Health Management and Policy; BS, Temple University; MHA, University of Michigan; PhD, University of Florida

West, Stephen G. (1981), Professor of Psychology; BA, Cornell University; MA, PhD, University of Texas at Austin

West, Stephen H. (2004), Professor of Global Studies and Chinese; BA, MA, University of Arizona; PhD, University of Michigan

Westerhoff, Paul (1995), Associate Professor of Civil and Environmental Engineering; BS, Lehigh University; MS, University of Massachusetts, Amhurst; PhD, University of Colorado, Boulder

Westie, Frank R. (1983), Adjunct Professor of Sociology; BS, Central Michigan University; PhD, Ohio State University

Wetsel, W. David (1989), Professor of French; BA, University of Texas at Austin; MA, University of Chicago; MA, PhD, Brandeis University

Wexler, Kathryn (1992), Clinical Assistant Professor of Speech and Hearing Science; BA, University of Michigan; MS, Tulane University

Wheeler, Jacqueline (1994), Senior Lecturer of English; BS, MA, Northern Arizona University; PhD, Arizona State University

Wheeler, Michael D. (1975), Senior Research Professional of Chemistry and Biochemistry; BS, University of Wisconsin, Madison

Whitaker, Lisa (1979), Instructor of Sociology; BA, Arizona State University; MA, PhD, Stanford University

Whitaker, Matthew (2001), Assistant Professor of History; BA, MA, Arizona State University; PhD, Michigan State University

Whitam, Frederick L. (1966), Professor Emeritus of Sociology; BA, Millsaps College; AM, PhD, Indiana University, Bloomington

White, Harold C. (1966), Professor Emeritus of Management; BS, MS, University of Oregon; PhD, University of Florida

White, James R. (1981), Professor of Art; BFA, MFA, Ohio University

White, Joann (1997), Faculty Associate of Visual Communication Design; BS, Northwestern University

White, Michael J. (1974), Professor of Law and Philosophy; BA, Arizona State University; MA, PhD, University of California, San Diego

White, Patricia D. (1999), Professor of Law; Dean, College of Law; BA, MA, JD, University of Michigan

White, Philip (2005), Assistant Professor of Industrial Design; BS, University of Kansas; MFA, Cranbrook Academy of Art

Whitecotton, Stacey (1997), Associate Professor of Accountancy; BA, Texas Tech University; MAcc, PhD, University of Oklahoma

Whitehurst, Harry B. (1958), Professor Emeritus of Chemistry and Biochemistry; BA, MA, PhD, Rice University

Whitley, David S. (2003), Adjunct Professor of Geography; AB, MA, PhD, University of California, Los Angeles

Wie, Bong (1989), Professor of Engineering; BS, Seoul National University (South Korea); MS, PhD, Stanford University

Wiezel, Avi (1995), Associate Professor of Construction; BScCE, Polytechnic Institute of Timisoara (Romania); MScCE, PhD, Technion—Israel Institute of Technology (Israel)

Wiggins, Harry B. (1987), Senior Lecturer Emeritus of Supply Chain Management; BS, U.S. Merchant Marine Academy; BS, University of Vermont; MBA, Harvard University

Wilcox, M. Jeanne (1990), Professor of Speech and Hearing Science; BA, Kansas State; MA, PhD, Memphis State University

Wiley, Terrence G. (2000), Professor of Educational Leadership and Policy Studies and Curriculum and Instruction; Director, Division of Educational Leadership and Policy Studies; BA, MA, California State University, Long Beach; PhD, University of Southern California

Wiley, Terry L. (2002), Clinical Professor of Speech and Hearing Science; BA, University of Northern Iowa; MS, Colorado State University; PhD, University of Iowa

Wilkens, Barry J. (1992), Senior Research Professional, Center for Solid State Science; BA, Columbia Union College; MSc, Rutgers, The State University of New Jersey

Wilkinson, Christine K. (1970), Associate Professor of Educational Leadership and Policy Studies; Senior Vice President and Secretary of the University; BA, Arizona State University; MA, University of California, Berkeley; PhD, Arizona State University

Wilkinson, Joseph W. (1964), Professor Emeritus of Accountancy; BS, Carnegie Institute of Technology; MBA, Stanford University; DBA, University of Oregon

Williams, David P. III (1978), Instructor of Sociology; BA, BS, MA, University of Pennsylvania; PhD, Arizona State University

Williams, Douglas (2000), Lecturer of Mathematics and Statistics; BS, University College of Belize; MS, Arizona State University

Williams, Frank G. (1975), Professor Emeritus of Health Management and Policy; BS, MA, Oregon State University; MA, PhD, University of Iowa

Williams, Jenny L. (1967), Librarian Emerita; BA, MLS, Indiana University

Williams, Lynda B. (2004), Associate Research Professor of Geological Sciences; AB, Smith College; MS, Dartmouth College; PhD, University of Calgary (Canada)

Williams, Peter (1981), Professor of Chemistry and Biochemistry; BS, PhD, University of London (United Kingdom)

Williams, Philip F.C. (1986), Professor of Chinese; BA, University of Arkansas; MA, PhD, University of California, Los Angeles

Williams, Robert C. (1978), Professor of Anthropology; BA, MA, University of Cambridge (United Kingdom); BA, MA, PhD, University of Michigan

Williams, Stanley N. (1991), Professor of Geological Sciences; BS, Beloit College; MA, PhD, Dartmouth College

Williamson, Madeline J. (1976), Professor of Music; BA, Ohio Wesleyan University; MM, Western Michigan University; PhD, Arizona State University

Willis, Wayne T. (1989), Associate Professor of Kinesiology; AB, University of California, Berkeley; MA, San Francisco State University; PhD, University of California, Berkeley

Wills, J. Robert (1994), Professor Emeritus of Theatre; Dean Emeritus, The Katherine K. Herberger College of Fine Arts; BA, College of Wooster; MA, University of Illinois; PhD, Case Western Reserve University

Wilson, Angela Cavender (2000), Assistant Professor of History; BA, University of Minnesota, Minneapolis; MA, PhD, Cornell University

Wilson, Gail Eugene (1972), Associate Professor of Music; BS, Ohio State University; MM, Arizona State University

Wilson, Gloria N. (1961), Professor Emerita of Educational Media and Computers; BA, Montclair State College; MA, EdD, Columbia University

Wilson, Jeffrey R. (1985), Associate Professor of Statistics; Director, School of Health Management and Policy; BA, University of the West Indies (Trinidad and Tobago); MS, PhD, Iowa State University

Wilson, Lorna A. (1968), Professor Emerita of French; BEd, University of Saskatchewan (Canada); MA, Arizona State University

Wilson-Rawls, N. Jeanne (1997), Assistant Professor of Life Sciences; BS, McMaster University (Canada); PhD, Saint Louis University

Wilt, Glenn A. Jr. (1963), Professor Emeritus of Finance; AB, Occidental College; MBA, Miami University; PhD, University of Michigan; CFA

Windhorst, Rogier A. (1987)
Regents' Professor of Physics and Astronomy; BSc, MSc, PhD, University of Leiden (Netherlands)

Winer, Laurence H. (1983), Professor of Law; BA, MA, PhD, Boston University; JD, Yale University

Winkelman, Michael (1988), Associate Professor of Anthropology; BA, Rice University; PhD, University of California, Irvine

Winkelman, Richard D. (1965), Professor Emeritus of Economics; BA, Southern Illinois University; MA, PhD, University of Illinois

Wirtz, Dorothy (1959), Professor Emerita of French; BA, University of Iowa; MA, PhD, University of Wisconsin

Wiseman, Douglas E. (1976), Professor Emeritus of Curriculum and Instruction; BS, MA, Eastern Michigan University; PhD, University of Illinois

Witczak, Matthew W. (1999), Professor of Civil and Environmental Engineering; BSCE, MSCE, PhD, Purdue University

Witt, Tom (1975), Associate Professor of Interior Design; BA, MA, MFA, University of California, Los Angeles

Wixted, J. Timothy (1978), Professor Emeritus of Asian Languages; BA, University of Toronto (Canada); AM, Stanford University; DPhil, University of Oxford (United Kingdom)

Wodrich, David L. (2002), Associate Professor of Psychology in Education; BS, MA, Northern Arizona University; PhD, Arizona State University

Wojciechowski, Martin F. (2001), Assistant Professor of Life Sciences; BS, Northern Michigan University; PhD, University of Northern Colorado

Wolchik, Sharlene (1980), Professor of Psychology; BA, Vassar College; MS, PhD, Rutgers, The State University of New Jersey

Wolf, Donald J. (1969), Professor Emeritus of Political Science; BA, MA, Gonzaga University; STM, University of Santa Clara; PhD, Georgetown University

Wolf, George H. (1986), Associate Professor of Chemistry and Biochemistry; BA, University of California, San Diego; MS, PhD, University of California, Berkeley

Wolf, Robert (1985), Professor Emeritus of Interior Design; BS, Southern Illinois University, Carbondale; MA, University of Missouri; Certificate, Konstindustriskulan (Sweden)

Wolfe, Philip M. (1988), Professor of Industrial Engineering; BS, University of Missouri; MSE, PhD, Arizona State University

Wolford, Johanna K. (2005), Adjunct Professor of Life Sciences; BS, Ohio State University; PhD, Kent State University

Wolfthal, Diane (1995), Professor of Art; BA, MA, City University of New York; PhD, Institute of Fine Arts, New York University

Wollam, Owen A. (1964), Professor Emeritus of French; BA, MA, Montana State University; PhD, University of Washington

Wong, Elizabeth (1996), Lecturer of Japanese; BA, William Smith College; MA, Washington University, St. Louis; PhD, Stanford University

Wong, Timothy C. (1995), Professor of Chinese; Director, Center for Asian Studies; BA, Saint Mary's College; MA, University of Hawaii; PhD, Stanford University

Wonka, Peter (2004), Assistant Professor of Computer Science and Engineering; MS, PhD, Vienna University of Technology (Austria)

Wood, Byard D. (1970), Professor Emeritus of Mechanical and Aerospace Engineering; BSME, MSME, Utah State University; PhD, University of Minnesota, Twin Cities

Wood, Linda Sargent (2005), Assistant Professor of History; BA, MA, Montana State University; PhD, University of Maryland, College Park

Wood, Steven D. (1975), Professor Emeritus of Marketing; BS, MA, California State University, San Diego; PhD, University of Wisconsin, Madison

Woodbury, Neal W. (1987), Professor of Chemistry and Biochemistry; BS, University of California, Davis; PhD, University of Washington

Woodfill, Marvin (1966), Professor Emeritus of Computer Science and Engineering; BS, MS, PhD, Iowa State University

Wooding, Robert R. (1971), Professor Emeritus of Construction; BS, United States Naval Academy; BCE, MCE, Rensselaer Polytechnic Institute

Woods, David R. (2004), Clinical Assistant Professor of Speech and Hearing Science; BA, Brigham Young University; MS, University of Arizona

Woodson, Stephani E. (2000), Assistant Professor of Theatre; BFA, MA, University of Texas at Austin; PhD, Arizona State University

Woodward, Mark R. (1985), Associate Professor of Religious Studies; BA, MA, PhD, University of Illinois

Woolf, Charles M. (1961–63; 1964), Professor Emeritus of Life Sciences; Dean Emeritus, College of Liberal Arts and Sciences and Division of Graduate Studies; BS, MS, University of Utah; PhD, University of California, Berkeley

Wootten, William W. (1959), Professor Emeritus of History; BA, University of Chicago; MA, University of Iowa; PhD, University of Minnesota, Twin Cities

Wootton, Richard T. (1964), Professor Emeritus of Education; BS, MS, EdD, University of Utah

Wosinski, Marek (1995), Senior Lecturer of Psychology; BA, MA, PhD, University of Warsaw (Poland)

Wright, David (1981), Associate Research Professional, Center for Solid State Science; BS, Arizona State University

Wright, Heather Harris (2005), Assistant Professor of Speech and Hearing Science; BA, University of Maryland; MA, PhD, University of Georgia

Wright, Johnson Kent (1994), Associate Professor of History; BA, Kalamazoo College; MA, PhD, University of Chicago

Wright, M. Lin (1973), Professor Emerita of Theatre; BA, MA, PhD, University of Minnesota, Twin Cities

Wu, Ai-Hwa (1964), Librarian Emerita; BA, National Taiwan University (Taiwan); MLS, University of Washington

Wu, Jianguo (1995), Professor of Life Sciences; BS, University of Inner Mongolia (China); MS, PhD, Miami University

Wu, Teresa (2001), Assistant Professor of Industrial Engineering; BS, MS, Beijing University of Aeronautics and Astronautics (China); PhD, University of Iowa

Wu, Xu (2005), Assistant Professor of Journalism and Mass Communication; LLB, People's University of China; MA, University of Florida

Wurzburger, Marilyn J. (1960), Librarian; Archives and Special Collections; BA, MacMurray College

Wyckoff, Susan (1979), Professor Emerita of Physics and Astronomy; BA, Mount Holyoke College; PhD, Case Western Reserve University

Wyndelts, Robert W. (1974), Professor Emeritus of Accountancy; BBA, MPA, Georgia State University; PhD, University of Georgia; CPA, Arizona, Georgia

Wytko, Joseph R. (1975), Professor of Music; BME, West Virginia University; MM, DM, Northwestern University

X

Xia, X. James (2002), Adjunct Professor of Life Sciences; MS, Arizona State University; MD, China Medical University (China)

Xu, Jun-Ping (1991), Associate Research Professor, Cancer Research Institute; BS, Shanghai College of Traditional Chinese Medicine (China); PhD, Tokyo College of Pharmacy (Japan)

Xue, Guoliang (2001), Professor of Computer Science and Engineering; BS, MS, Qufu Teachers University (China); PhD, University of Minnesota, Minneapolis

Y

Yabes, Ruth Ammerman (1990), Associate Professor of Planning; BS, BA, University of California, Davis; MCP, University of Pennsylvania; PhD, Cornell University

Yabiku, Scott (2002), Assistant Professor of Sociology; BA, University of Chicago; MA, Pennsylvania State University; PhD, University of Michigan

Yamamori, Tetsumao (1989), Adjunct Professor of Sociology; BA, Northwest Christian College; BD, Texas Christian University; PhD, Duke University

Yan, Hao (2004), Assistant Professor of Chemistry and Biochemistry; BS, Shandong University (China); MS, PhD, New York University

Yao, Lun-Shin (1981), Professor of Engineering; BSE, Cheng Kung University; MS, University of Texas at Austin; PhD, University of California, Berkeley

Yao, Winberta M. (1975), Librarian Emerita; BA, University of California, Berkeley; MS, Columbia University

Yarger, Jeff (2005), Professor of Chemistry and Biochemistry; BS, University of Arizona; PhD, Arizona State University

Yates, Ann M. (1978), Research Professional Emerita of Chemistry and Biochemistry; BS, Saint Lawrence University; PhD, Arizona State University

Yau, Stephen S. (1994), Professor of Computer Science and Engineering; BS, National Taiwan University (Taiwan); MS, PhD, University of Illinois, Urbana-Champaign

Ye, Jieping (2005), Assistant Professor of Computer Science and Engineering; BA, Fudan University (China); MS, National University of Singapore (Singapore); PhD, University of Minnesota, Minneapolis

Ye, Nong (1998), Professor of Industrial Engineering; BS, Peking University (China); MSE, Chinese Academy of Sciences (China); PhD, Purdue University

Yeater, James W. (1958), Professor Emeritus of Theatre; BA, Baker University; MA, University of Washington; PhD, University of Illinois

Young, Bernard (1988), Professor of Art; BFA, Temple University; MFA, PhD, Cornell University

Young, David A. (2001), Professor of Life Sciences; Vice President and Dean, College of Liberal Arts and Sciences; BA, MA, California State University, Fullerton; PhD, Claremont Graduate University

Young, Dennis L. (1975), Professor of Mathematics and Statistics; Codirector, Executive Committee on Statistics; BS, Saint Louis University; MS, PhD, Purdue University

Young, Hewitt H. (1967), Professor Emeritus of Industrial Engineering; BSME, MSIE, Case Institute of Technology; PhD, Arizona State University

Young, Joseph E. (1979), Professor Emeritus of Art; BA, California State University, Los Angeles; MA, University of California, Los Angeles

Young, Josephine Peyton (1998), Associate Professor of Curriculum and Instruction; MA, University of West Florida; PhD, University of Georgia

Young, Otis E. Jr. (1963), Professor Emeritus of History; AB, AM, PhD, Indiana University

Young, Sheila (2002), Assistant Librarian; Noble Science Reference Services; BEd, University of Toledo; MS, University of Arkansas; MLS, University of Oklahoma

Youngblood, Robert L. (1973), Professor of Political Science; BA, Willamette University; MA, University of Hawaii, Manoa; PhD, University of Michigan

Yu, Hongbin (2005), Assistant Professor of Electrical Engineering; BS, MS, Peking University (China); PhD, University of Texas at Austin

Z

Zandieh, Michelle (1997), Assistant Professor of Mathematics and Statistics; BA, Northwestern University; MS, PhD, Oregon State University

Zapata, Claudia (1996), Faculty Associate of Civil and Environmental Engineering; BS, National University of Colombia (Colombia); MSE, PhD, Arizona State University

Zaslow, Bertram (1956), Professor Emeritus of Chemistry and Biochemistry; BA, Cornell University; MS, University of Minnesota, Twin Cities; PhD, Iowa State University

Zatz, Marjorie S. (1982), Professor of Justice and Social Inquiry; Vice Provost; BA, University of Massachusetts, Amherst; MA, PhD, Indiana University, Bloomington

Zautra, Alex (1976), Professor of Psychology; Director, Clinical Program in Psychology; BA, Antioch College; MS, PhD, University of Utah

Zehnder, Joseph A. (2000), Professor of Geography; Director, Southwest Center for Environmental Research and Policy; Codirector, Executive Committee, Atmospheric Science; BS, MS, University of Illinois, Chicago; PhD, University of Chicago

Zeitlin, Marilyn A. (1992), Director, ASU Art Museum; AB, MA, Harvard University

Zenhausern, Frederic (2003), Professor of Chemical and Materials Engineering; Director, Center for Applied Nanobiosciences; BS, University of Geneva (Switzerland); MBA, Rutgers, The State University of New Jersey; PhD, University of Geneva (Switzerland)

Zhang, Junshan (2000), Associate Professor of Electrical Engineering; BE, Huazong University of Science and Technology (China); MS, University of Georgia; PhD, Purdue University

Zhang, Xia (2002), Lecturer of Chinese; BA, Sichuan University (China); MA, University of Victoria (Canada); PhD, University of Alberta (Canada)

Zhang, Yong-Hang (1997), Professor of Electrical Engineering; Nanjing Normal University (China); MSc, Institute of Semiconductors, Chinese Science and Technology University (China); PhD, University of Stuttgart (Germany)

Zhou, Lin (2001), Lincoln Professor of Economics; BS, Fudan University (China); PhD, Princeton University

Zhu, Anmin (1997), Senior Lecturer of Mathematics and Statistics; BS, Anhui University (China); MS, Milin University (China); PhD, Arizona State University

Zimiles, Herbert (1988), Professor Emeritus of Psychology in Education; BA, New York University; PhD, University of Rochester

Zucker, Stanley H. (1975), Professor of Curriculum and Instruction; BA, State University of New York, Stony Brook; MS, Hofstra University; PhD, University of Missouri, Columbia

Zwiebel, Imre (1979), Professor Emeritus of Chemical Engineering; BS, University of Michigan; MS, PhD, Yale University

Zygas, K. Paul (1984), Associate Professor of Architecture and Landscape Architecture; AB, MArch, Harvard University; PhD, Cornell University

West Campus

A

Achilles, Elayne R. (1986), Professor Emerita of Education; BMEd, Temple University; MM, EdD, Arizona State University

Ackroyd, William S. (2000), Lecturer, Department of Social and Behavioral Sciences; BA, MA, MS, Portland State University; PhD, University of Arizona

Allgood, Tammy (2002), Assistant Librarian, Fletcher Library; BA, University of Arizona; MS, University of North Carolina

Amani, Jennifer (2005), Assistant Librarian, Fletcher Library; BA, MIS, MLS, Indiana University, Bloomington

Amobi, Olufunmilanyo A. (2001), Assistant Professor, Department of Secondary Education; BA, University of Ibadan (Nigeria); MEd, EdD, Arizona State University

Anastasi, Jeffrey S. (2001), Assistant Professor, Department of Social and Behavioral Sciences; BA, MA, PhD, State University of New York at Binghamton

Andereck, Kathleen L. (1993), Professor, Department of Recreation and Tourism Management; BS, University of Wisconsin, Stevens Point; MS, Texas A&M University; PhD, Clemson University

Anders, Gary C. (1989), Professor, Department of Management; Director, Institute for International Business; BS, West Texas State University; MA, PhD, University of Notre Dame

Anders, Kathleen K. (2003), Lecturer, Department of Management; BA, University of Notre Dame; MBA, University of Alaska; PhD, Arizona State University

Anderson, Laurel A. (1989), Associate Professor, Department of Economics, Finance, Marketing, and Quantitative Business Analysis; BSN, University of Minnesota, Twin Cities; MN, University of Washington; PhD, Arizona State University

Anderson, Owen (2004), Lecturer, Department of Integrative Studies; BA (History), BA (Philosophy), MA (Philosophy), MA (Religious Studies), Arizona State University

Anokye, Akua Duku (1999), Associate Professor, Department of Language, Cultures, and History; BA, Michigan State University; MA, Federal City College, District of Columbia; MA, PhD, City University of New York Graduate School and University Center

Atwater, Leanne E. (1993), Professor, Department of Management; Interim Dean, School of Global Management and Leadership; BA, MA, San Diego State University; PhD, Claremont Graduate School

Chair, Department of Kinesiology . . . . . Lawrence Mandarino
Chair, Department of Languages and Literatures . . . . . Robert Joe Cutter
Interim Chair, Department of Mathematics and Statistics . . . . . Dieter Armbruster
Chair, Department of Military Science . . . . . Lieutenant Colonel Kick McIntosh
Chair, Department of Philosophy . . . . . Stewart Cohen
Chair, Department of Physics and Astronomy . . . . . Barry G. Ritchie
Chair, Department of Political Science . . . . . Patrick J. Kenney
Chair, Department of Psychology . . . . . Keith A. Crnic
Chair, Department of Religious Studies . . . . . Joel D. Gereboff
Chair, Department of Sociology . . . . . Jennie Jacobs Kronenfeld
Chair, Department of Speech and Hearing Science . . . . . Sid P. Bacon
Director, African and African American Studies Program . . . . . *To Be Appointed*
Director, American Indian Studies Program . . . . . Eddie F. Brown

Director, Asian Pacific American Studies Program . . . . . Karen J. Leong
Director, Hugh Downs School of Human Communication . . . . . H.L."Bud" Goodall, Jr.
Director, School of Human Evolution and Social Change . . . . . Sander van der Leeuw
Director, School of Justice and Social Inquiry . . . . . Doris Marie Provine
Director, School of Life Sciences . . . . . Robert E. Page
Director, Center for Asian Studies . . . . . Claudia Brown
Director, Center for the Study of Early Events in Photosynthesis . . . . . Andrew N. Webber
Director, Climatology Laboratory . . . . . Robert C. Balling
Director, Computational Biosciences Program . . . . . Rosemary Renaut
Director, Hispanic Research Center . . . . . Gary D. Keller
Director, Interdisciplinary Humanities Program . . . . . Peter Lehman
Director, Interdisciplinary Committee for Molecular and Cellular Biology . . . . . Andrew N. Webber
Director, Institute of Human Origins . . . . . Donald C. Johanson
Director, Latin American Studies Center . . . . . Tod D. Swanson
Director, Arizona Center for Medieval and Renaissance Studies . . . . . Robert E. Bjork
Director, Center for Meteorite Studies . . . . . Laurie Leshin
Director, Center for Solid State Science . . . . . David J. Smith
Director, Program for Southeast Asian Studies . . . . . James F. Eder Jr.
Director, Women and Gender Studies Program . . . . . Mary Margaret Fonow

Division of Graduate Studies

Vice Provost and Dean of Graduate Studies . . . . . Maria T. Allison
Associate Dean, Student Support Services . . . . . Andrew Webber
Associate Dean, Academic Programs . . . . . Filiz Ozel
Assistant Dean, Academic Programs . . . . . Sarah B. Lindquist
Assistant Dean, Administrative Services and Information Systems . . . . . Kent D. Blaylock
Assistant Dean . . . . . Michael A. Dickson

Ira A. Fulton School of Engineering

Dean, Ira A. Fulton School of Engineering . . . . . *To Be Appointed*
Interim Deputy Dean, Ira A. Fulton School of Engineering . . . . . Stephen M. Goodnick
Interim Associate Dean, Academic Affairs . . . . . Antonio A. Garcia
Interim Executive Associate Dean, Research . . . . . Edward Hall
Assistant Dean, Business and Fiscal Services . . . . . Ruth Bettenhausen
Assistant Dean, Research . . . . . Douglas Cochran
Assistant Dean and Director, Center for Professional Development . . . . . Jeffrey S. Goss
Assistant Dean, Academic Administration . . . . . Marilyn L. Hart
Assistant Dean, Academic Affairs . . . . . Barry W. McNeill
Interim Director, Del E. Webb School of Construction . . . . . James J. Ernzen
Chair, Harrington Department of Bioengineering . . . . . Eric J. Guilbeau
Chair, Department of Chemical and Materials Engineering . . . . . Subhash Mahajan
Chair, Department of Civil and Environmental Engineering . . . . . Sandra L. Houston
Chair, Department of Computer Science and Engineering . . . . . Sethuraman Panchanathan
Chair, Department of Electrical Engineering . . . . . Stephen M. Phillips
Chair, Department of Industrial Engineering . . . . . Gary L. Hogg
Chair, Department of Mechanical and Aerospace Engineering . . . . . Robert E. Peck
Director, Center for Flexible Panel Display Research . . . . . Gregory B. Raupp
Codirector, Center for Low Power Electronics Research . . . . . Dieter K. Schroder
Director, Center for Solid State Electronics Research . . . . . Trevor John Thornton

The Katherine K. Herberger College of Fine Arts

Dean, Katherine K. Herberger College of Fine Arts . . . . . *To Be Appointed*
Associate Dean, Research and Administration . . . . . Margaret M. Knapp
Assistant Dean, Student Academic Services . . . . . Gina Stephens
Director, School of Art . . . . . *To Be Appointed*
Interim Chair, Department of Dance . . . . . Pegge Vissicaro
Director, School of Music . . . . . *To Be Appointed*
Chair, School of Theatre and Film . . . . . Linda Essig
Director, Communications . . . . . Stacey Shaw
Director, Community Programs . . . . . Melanie Ohm

Liaison, Nursing (Tempe campus program). . . . . Brenda Morris

College of Teacher Education and Leadership

Interim Dean, College of Teacher Education and Leadership. . . . . Joseph M. Ryan
Assistant Dean, College of Teacher Education and Leadership. . . . . Ray R. Buss
Chair, Department of Elementary Education . . . . . .Michael F. Kelley
Chair, Department of Graduate Studies and Professional Development . . . . . .Stephen B. Lawton
Interim Chair, Department of Secondary Education . . . . . Peter Rillero
Chair, Department of Special Education . . . . . .Ida M. Malian

New College of Interdisciplinary Arts and Sciences

Dean, New College of Interdisciplinary Arts and Sciences. . . . . .Emily F. Cutrer
Associate Dean, New College of Interdisciplinary Arts and Sciences. . . . . Candice D. Bredbenner
Chair, Department of Integrated Natural Sciences. . . . . Douglas Dennis
Chair, Department of Integrative Studies . . . . . Shari C. Collins-Chobanian
Chair, Department of Interdisciplinary Arts and Performance. . . . . Robert D. Taylor
Chair, Department of Language, Cultures, and History . . . . . Eduardo Pagán
Chair, Department of Social and Behavioral Sciences. . . . . Barbara Tinsley
Chair, Women's Studies Program. . . . . Astair Gebre Mariam Mengesha

School of Global Management and Leadership

Interim Dean, School of Global Management and Leadership . . . . . Leanne Atwater
Chair, Department of Accounting . . . . . William A. Duncan
Chair, Department of Economics, Finance, Marketing, and Quantitative Business Analysis . . . . . .Joseph A. Bellizzi
Interim Chair, Department of Management . . . . . .David A. Waldman
Director, Master of Business Administration Program . . . . . Mohan Gopalakrishnan

Accreditation and Affiliation

Arizona State University is accredited by the Higher Learning Commission, a Commission of the North Central Association of Colleges and Schools. For more information, call 312/263-0456, access the Web site at www.ncahigherlearningcommission.org, or write

HIGHER LEARNING COMMISSION
30 N LaSALLE ST
SUITE 2400
CHICAGO IL 60602-2504

Programs in the various colleges, schools, divisions, and departments are accredited by, affiliated with, or members of national bodies as described in the

1. "Academic Accreditation at the Downtown Phoenix Campus" table, on this page;
2. "Academic Accreditation at the Polytechnic Campus" table, on this page;
3. "Academic Accreditation at the Tempe Campus" table, page 856;
4. "Academic Accreditation at the West Campus" table, page 857;
5. "Academic Affiliation and Membership at the Downtown Phoenix Campus" table, page 857;
6. "Academic Affiliation and Membership at the Polytechnic Campus" table, page 857;
7. "Academic Affiliation and Membership at the Tempe Campus" table, page 858; and
8. "Academic Affiliation and Membership at the West Campus" table, page 861.

Academic Accreditation at the Downtown Phoenix Campus

Unit or Program	Accredited By
College of Nursing	
BSN, MS, Nursing	Arizona State Board of Nursing Commission on Collegiate Nursing Education
College of Public Programs	
BS, Recreation	National Recreation and Park Association/American Association for Leisure and Recreation Council on Accreditation
BSW, MSW, School of Social Work	Council on Social Work Education
MPA	National Association of Schools of Public Affairs and Administration

Academic Accreditation at the Polytechnic Campus

Unit or Program	Accredited By
College of Technology and Applied Sciences	
BS, Aeronautical Management Technology, with concentrations in professional flight and air transportation management	Council on Aviation Accreditation
BS, Electronics Engineering Technology; Manufacturing Engineering Technology; Mechanical Engineering Technology	Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc.
BS, Environmental Technology Management, Graphic Information Technology, and Operations Management Technology	National Association of Industrial Technology
East College	
BS, Business Administration*	AACSB International—The Association to Advance Collegiate Schools of Business
BS, Nutrition (didactic program in dietetics); MS, Nutrition (dietetic internship)	American Dietetic Association

* This program is accredited through the ASU W. P. Carey School of Business.

Academic Accreditation at the Polytechnic Campus (continued)

Unit or Program	Accredited By
Morrison School of Agribusiness and Resource Management	
BS, Agribusiness, with a concentration in professional golf management	Professional Golfer's Association of America

* This program is accredited through the ASU W. P. Carey School of Business.

Academic Accreditation at the Tempe Campus

Unit or Program	Accredited By
College of Design	
BSD, Graphic Design, Interior Design	Foundation for Interior Design Education Research
BSD, Industrial Design	National Association of Schools of Art and Design
BSLA	Landscape Architectural Accreditation Board
BSP, MUEP	Planning Accreditation Board
MArch	National Architectural Accrediting Board
MSD, Design, with concentrations in graphic design and industrial design	National Association of Schools of Art and Design
College of Education	
MC, Counseling	Council for Accreditation of Counseling and Related Educational Programs
PhD, Counseling Psychology; Educational Psychology with a concentration in school psychology	American Psychological Association
College of Law	
JD	American Bar Association
College of Liberal Arts and Sciences	
BS, Clinical Laboratory Sciences	National Accrediting Agency for Clinical Laboratory Sciences
MS, Communication Disorders, AuD	American Speech-Language-Hearing Association
PhD, Psychology, with a concentration in clinical psychology	American Psychological Association
Ira A. Fulton School of Engineering	
BS, Computer Science	Computing Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc.
BS, Construction	American Council for Construction Education
BSE, Aerospace Engineering; Bioengineering; Chemical Engineering; Civil Engineering; Computer Systems Engineering; Electrical Engineering; Industrial Engineering; Materials Science and Engineering; Mechanical Engineering	Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc.
Katherine K. Herberger College of Fine Arts	
School of Music	National Association of Schools of Music
W. P. Carey School of Business	
All programs	AACSB International—The Association to Advance Collegiate Schools of Business
MHSM, School of Health Management and Policy	Accrediting Commission on Education for Health Services Administration
School of Accountancy	AACSB International—The Association to Advance Collegiate Schools of Business
Walter Cronkite School of Journalism and Mass Communication	
All programs	Accrediting Council on Education in Journalism and Mass Communications

Academic Accreditation at the West Campus

Unit or Program	Accredited By
College of Human Services	
BS, Recreation and Tourism Management	National Recreation and Park Association/American Association for Leisure and Recreation Council on Accreditation
BSW, MSW	Council on Social Work Education
School of Global Management and Leadership	
All business and accountancy programs	AACSB International—The Association to Advance Collegiate Schools of Business

Building Abbreviations

For building abbreviations used in the *General Catalog*, *Graduate Catalog*, *Schedule of Classes*, and *Summer Sessions Bulletin*, see the "Building Abbreviations" table below. Tempe campus map coordinates are provided. For the Tempe campus map, see the inside back cover. For other locations, see the "Polytechnic Campus Map," page 277; "West Campus Map," page 757; and "Downtown Center at ASU" map, page 139. For the locations of campuses, see the "ASU Campus Locations" map, page 31.

Building Abbreviations

Abbreviation	Name	Wings	Location (Coordinate)
ADELA	Adelphi II Commons	—	Tempe campus (H-8)
ADM	Administration Building	A, B	Tempe campus (F-3)
ADMIN	Administration	—	Polytechnic campus
ADPCM	Adelphi Commons	—	Tempe campus (G-8)
ADSVC	Administrative Services	—	Polytechnic campus
AED	College of Design/North	—	Tempe campus (D-2)
AG	Agriculture Building	—	Tempe campus (F-3)
AGBC	Agribusiness Center	—	Polytechnic campus
AIP*	American Indian Programs	—	Polytechnic campus
AIP2	American Indian Programs Annex	—	Polytechnic campus
ALTCH	Altitude Chamber	—	Polytechnic campus
ANTH	Anthropology Building	—	Tempe campus (D-3)
ANX	Visual Arts Annex	—	Tempe campus (B-3)
AQUAT	Mona Plummer Aquatics Center	A, B	Tempe campus (B-4)
ARCH	College of Design/South	—	Tempe campus (D-2)
ARCHV*	University Library Archives	—	Polytechnic campus
ART	Art Building	—	Tempe campus (D-2)
ARWH	Art Warehouse	—	Tempe campus (D-2)
ASEOC	Alternate State Emergency Operations Center	—	Polytechnic campus
ASUDC	Downtown Center	A–F	502 E. Monroe St., Phoenix
BA	Business Administration Building	—	Tempe campus (F-4)
BAC	Business Administration C-Wing	—	Tempe campus (F-4)
BELL	Bell Hall	—	Polytechnic campus
BDA	Biodesign Institute Building A	—	Tempe campus: 850 E. Terrace Dr., Tempe (E-7)
BDB	Biodesign Institute Building B	—	Tempe campus: 850 E. Terrace Dr., Tempe (E-7)
BKSTR	ASU Bookstore	—	Tempe campus: 525 E. Orange St., Tempe (F-5)
BYAC	Brickyard Artisan Court	—	Tempe campus: 30 E. Seventh St., Tempe (B-1)
BYENG	Brickyard Engineering	—	Tempe campus: 699 S. Mill Ave., Tempe (B-1)
